READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

There are no restrictions on the republication of official documents appearing in the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted

proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

THE GOVERNOR

GOVERNOR'S OFFICE

Renewal of Declaration of Disaster Emergency of January 7, 1996

Whereas, On January 7, 1996, I declared a State of Disaster Emergency in forty-seven counties of the Commonwealth due to a severe winter storm which produced historical record amounts of snow accumulation, freezing rain, and high winds which devastated certain areas of Pennsylvania and resulted in extensive road closures and posed other adverse life safety impacts upon the general population of the Commonwealth; and

Whereas, on January 13, January 20, and February 12, 1996, I amended my Proclamation of Disaster Emergency of January 7, 1996, in order to add eleven additional counties to the designated disaster emergency area due to a second severe winter storm which struck Pennsylvania and subsequent widespread flooding which occurred throughout the stream and river systems of the Commonwealth; and

Whereas, the Proclamation and its Amendments authorized the Pennsylvania Emergency Management Agency, the Pennsylvania Department of Transportation, other State agencies and departments and the governing bodies and executive offices of all political subdivisions within the designated disaster emergency area to perform emergency response and recovery activities as deemed necessary to meet the emergency circumstances caused by the winter storms and flooding throughout Pennsylvania; and

Whereas, the winter storms and flooding caused widespread damage and destruction throughout Pennsylvania to highways, bridges, public utilities, businesses, and other forms of public and private property which requires the Commonwealth, its agencies and departments and political subdivisions to continue to perform emergency recovery activities in the form of repairing, maintaining, reconstructing or replacing damaged highways, bridges, and other public facilities and to provide other types of federal and State disaster assistance to businesses, individuals, and other eligible disaster applicants; and

Whereas, the current Proclamation is due to expire on April 5, 1996.

Now therefore, Pursuant to the provisions of Subsection 7301(c) of the Emergency Management Services Code (35 Pa.C.S.A. Section 7101 et seq.), I do hereby declare, order, and direct that the Proclamation of January 7, 1996, be renewed in the fifty-eight disaster declared counties for a period of ninety days. All provisions of the January 7, 1996, Proclamation and its Amendments and all authorized actions carried out pursuant to that Proclamation and its Amendments shall remain in effect.

Given under my hand and Great Seal of the Commonwealth, this third day of April, in the year of our Lord, one thousand nine-hundred and ninety-six, and of the Commonwealth, the two-hundred and twentieth.

Governor

Effective Dates of Statutes

The effective dates specified above for laws and appropriation acts were contained in the applicable law or appropriation act. Where no date is specified or where the effective date specified is prior to the date of enactment, the effective date is 60 days after final enactment except for statutes making appropriations or affecting budgets of political subdivisions. See 1 Pa.C.S. §§ 1701—1704 (relating to effective dates of statutes).

Advance Copies of Statutes

Section 1106 of Title 1 of the Pennsylvania Consolidated Statutes provides that the prothonotaries of each county shall file advance copies of statutes in their offices for public inspection until the Laws of Pennsylvania are generally available. Section 2406(h) of The Administrative Code of 1929 provides that the Department of General Services shall distribute advance sheets of the Laws of Pennsylvania to each law judge of the courts, to every county and public library of this Commonwealth, and to each member of the General Assembly. These copies shall be furnished without charge. The Department shall also mail one copy of each law enacted during any legislative session to any person who pays to it the sum of \$20.

Requests for annual subscriptions for advance copies of statutes should be sent to the State Bookstore, State Records Center Building, 1825 Stanley Drive, Harrisburg, PA 17103, accompanied by a check or money order in the sum of \$20, payable to the "Commonwealth of Pennsylvania."

Legislative Bills and Documents

Copies of Senate Bills and Documents may be obtained from: Document Room, Senate of Pennsylvania, Room 34A, Main Capitol Building, Harrisburg, PA 17120, telephone (717) 787-6732.

Copies of House Bills and Documents may be obtained from: Document Room, House of Representatives, 35 Main Capitol Building, Harrisburg, PA 17120, telephone (717) 787-5320.

Rule 221. Mandatory overdraft notification.

(a) For purposes of this rule, a fiduciary account of an attorney is any account in which or with respect to which an attorney

(1) holds funds of a client,

(2) holds funds in a fiduciary capacity customary to the practice of law, such as administrator, executor, trustee of an express trust, guardian or conservator, or

(3) holds funds as an escrow agent or other fiduciary, having been so selected as a result of a client-attorney relationship.

(b) [A fiduciary account of an] An attorney shall maintain a fiduciary account with respect to his/her practice in this Commonwealth [may be maintained] only in a financial institution approved by the Supreme Court of Pennsylvania for the maintenance of such accounts. Subject to the provisions set forth herein, the Disciplinary Board shall establish regulations governing approval and termination of approval for financial institutions, shall make appropriate recommendations to the Supreme Court of Pennsylvania concerning approval and termination, and shall periodically publish a list of approved financial institutions.

Amendment of Rules Governing Confession of Judgment for Money; No. 256; Doc. No. 5

Order

Per Curiam:

And Now, this 1st day of April, 1996, the Pennsylvania Rules of Civil Procedure governing confession of judgment for money are amended as follows:

1. Rules 2950, 2951, 2952, 2957, 2959, 2960, 2961, 2962, 2986, 3103, 3129.2 and 3251 are amended to read as follows.

2. Rules 2958 and 2961 are rescinded.

3. New Rules 2956.1, 2958.1, 2958.2, 2958.3, 2958.4, 2963, 2964, 2965, 2966 and 2967 are promulgated to read as follows.

4. Notes to Rules 2955 and 2956 are amended to read as follows.

This Order shall be effective July 1, 1996 and shall be processed in accordance with Rule of Judicial Administration 103(b).

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 2950. CONFESSION OF JUDGMENT FOR MONEY

Rule 2950. [Definition] Definitions.

As used in this chapter

"action" means a proceeding to enter a judgment by confession for money pursuant to an instrument, **other than an instrument executed by a natural person in connection with a consumer credit transaction,** authorizing such confession.

Official Note: The action is abolished insofar as it would apply to a confession of judgment which is part of an instrument executed in connection with a consumer credit transaction.

"consumer credit transaction" means a credit transaction in which the party to whom credit is offered or extended is a natural person and the money, property or services which are the subject of the transaction are primarily for personal, family or household purposes.

Rule 2951. Methods of proceeding.

(a) (1) [The] Upon filing of the documents required by subparagraph (2), the prothonotary shall enter judgment by confession on a note, bond or other instrument confessing judgment or authorizing confession by an attorney at law or other person against the person who executed it in favor of the original holder or, unless expressly forbidden in the instrument, in favor of the assignee or other transferee[, upon filing of the instrument and a certificate of residence of the plaintiff and of the defendant,] without the agency of an attorney and without the filing of a complaint, for the amount which may appear to be due from the instrument. The judgment may include interest computable from the instrument.

(2) The documents to be filed in support of the entry of judgment are

(i) the instrument

(ii) an affidavit that the judgment is not being entered by confession against a natural person in connection with a consumer credit transaction, and

(iii) a certificate of residence of the plaintiff and of the defendant.

Official Note: [Subdivision (a) does not change existing law. It replaces Section 28 of the Act of

February 24, 1806, P. L. 334, 4 Sm.L. 270, as amended, 12 P. S. § 739, which is repealed by Section 2(a) of the Judiciary Act Repealer Act, 42 P. S. § 20002(a)(49).]

Section 2737(3) of the Judicial Code provides that the prothonotary shall have the power and the duty to "enter all civil judgments, including judgments by confession."

A judgment by confession may be entered only in the name of a holder, assignee or other transferee. See Rule 2954.

For collection of attorneys' fees under such a judgment see Rule 2957. If an instrument authorizes confession for a penal sum judgment may be entered in that amount.

(b) If judgment by confession is authorized by the instrument but may not be entered by the prothonotary under subdivision (a), an action shall be commenced by filing with the prothonotary a complaint substantially in the form provided by Rule 2952. Even though the instrument is one on which judgment could be entered by the prothonotary under subdivision (a), the plaintiff may proceed under this subdivision.

[Official Note: Subdivision (b) replaces Section 8 of the Act of March 21, 1806, 4 Sm.L. 326, 12 P. S. § 738, which is repealed by Section 2(a) of the Judiciary Act Repealer Act, 42 P. S. § 20002(a)(50).]

* * * * *

(d) If the instrument is more than twenty [(20)] years old, judgment may be entered only by leave of court after notice and the filing of a complaint under Subdivision (b).

(e) When the plaintiff proceeds under Subdivision (b) and the original or a photostatic copy or like reproduction of the instrument showing the defendant's signature is not attached to the complaint, judgment may be entered only by leave of court after notice.

Official Note: Amended January 20, 1970. Effective February 15, 1970. The procedure for notice and hearing shall be in accordance with local practice.

See [sec.] sections 401(h) and [sec.] 1205 of the Goods and Services [Retail] Installment Sales Act, 1966, Special Sess. No. 1, October 28, P. L. 7, effective April 1, 1967, 69 P. S. §§ 1401(h) and 2205 which may limit the venue for commencement of an action in certain cases.

Rule 2952. Complaint; contents.

(a) The complaint shall contain the following:

[(a)] (1) the names and last known addresses of the parties;

Official Note: These rules change prior practice by not requiring a separate certification of address.

[(b)] (2) the original or a photostatic copy or like reproduction of the instrument showing the defendant's signature; if the original is not attached, an averment that the copy attached is a true and correct reproduction of the original; if neither the original nor a reproduction can be attached, an explanation why they are not available;

Official Note: If the original instrument is not attached to the complaint, a method of securing inspection thereof is provided by Discovery Rule 4009.

(3) an averment that judgment is not being entered by confession against a natural person in connection with a consumer credit transaction;

[(c)] (4) * * *

[(d)] (5) * * *

[(e)] (6) * * *

[(f)] (7) * * *

[(g)] (8) * * *

[(h)] (9) if the instrument is more than twenty [(20)] years old, or if the original or a photostatic copy or like reproduction of the instrument showing the defendant's signature is not attached to the complaint, an application for a court order granting leave to enter judgment after notice;

Official Note: The procedure for notice and hearing will be in accordance with local practice.

Rule 2955. Confession of judgment.

* * * * *

Official Note: Added June 27, 1969. Eff. Jan. 1, 1970. Amended Jan. 20, 1970. Eff. Feb. 15, 1970. There are local rules in some counties requiring the filing of an affidavit of non-military service. See also the Soldiers' and Sailors' Civil Relief Act, 50 U.S.C.A. Appendix § 520.

[**The Act of May 17, 1929, P. L. 1804, as amended by the Act of June 25, 1937, P. L. 2325, sec. 1, 12 P. S. § 743, requiring certification of the precise residence address of the plaintiff and the last known address of the defendant, remains unsuspending by these rules.**]

Rule 2956. Entry of judgment.

* * * * *

Official Note: As to instruments more than 20 years old see Rules 2951(d) and [**2952(h)] 2952(a)(9).**

See Rule 236 for the notice required to be given and the documents required to be mailed to the defendant by the prothonotary.

Rule 2956.1. Execution upon a judgment entered by confession.

(a) Except as otherwise provided by subdivisions (b) and (c), a judgment entered by confession shall be enforced as provided by Rule 3101 et seq. governing the enforcement of a judgment for the payment of money.

(b) A judgment entered by confession which arises from a retail installment sale, contract or account under the Goods and Services Installment Sales Act or which constitutes a residential mortgage obligation under the Loan Interest and Protection Law shall be conformed as provided by Rule 2981 et seq. prior to execution.

Official Note: These Acts of Assembly prohibit execution upon these judgments until they have been conformed in a separate action. Once conformed pursuant to Rule 2986, these judgments may be enforced in the same manner as other judgments for the payment of money.

(c) Execution upon a judgment entered by confession which is not within the scope of subdivision (b) and to which a petition to open or strike the judgment has not been filed, shall be

(1) commenced by a praecipe as provided by Rule 2957 and

Official Note: The praecipe required by subparagraph (1) is in place of the praecipe prescribed by Rule 3251.

(2) conditioned upon the service of notice on the defendant in the judgment as provided by either

(i) Rule 2958.1 at least thirty days prior to the filing of the praecipe for the writ of execution, or

(ii) Rule 2958.2 with the notice of sale of real property, or

(iii) Rule 2958.3 with the writ of execution.

Official Note: The notice may be given prior to execution under Rule 2958.1 or as part of the execution process under Rule 2958.2 or 2958.3, whichever is applicable.

Notice prior to execution under Rule 2958.1 may be given in all cases. However, the notice served with the notice of sale of real property under Rule 2958.2 is limited to execution upon real property or real property and personal property subject to Section 9501(d) of the Judicial Code. The notice served with the writ of execution under Rule 2958.3 is limited to an execution upon personal property or personal and real property.

Written notice under subdivision (c)(2) is required only in connection with execution proceedings and is in addition to the procedural requirements of Rule 3101 et seq. The notice is in addition also to the notice of the entry of the judgment given by the prothonotary under Rule 236.

Rule 2957. [Execution] Praecipe for writ of execution; amount; items claimed; certification.

(a) Plaintiff may include the amount due, interest, attorneys' fees and costs in [**his**] the praecipe for a writ of execution under Rule [**3251(5)] 2963(5).** Where judgment has been entered under Rule 2951(a) and there has been a record appearance of counsel at any stage of the proceedings and attorneys' fees are authorized in the instrument, these fees may be included in the praecipe for a writ of execution.

(b) The praecipe for the writ of execution shall contain the words "Confessed Judgment" immediately below the title of the praecipe and a certification that

(1) the praecipe is based upon a confessed judgment and

(2) the prothonotary is authorized to issue the praecipe because

(i) notice has been served pursuant to Rule 2958.1 as evidenced by a return of service filed of record, or

(ii) notice will be served pursuant to Rule 2958.2 because the property to be levied upon consists solely of real property or real property and personal property to be sold with the real property pursuant to Section 9501(d) of the Uniform Commercial Code, or

(iii) notice will be served pursuant to Rule 2958.3 because the property to be levied upon consists of

personal property or personal property and real property, not within the scope of Rule 2958.2(a)(2), or

(iv) notice was served in connection with a prior execution on this judgment and no further notice is required under Rule 2958.4(b), or

(v) a petition to open or strike the judgment has been previously filed and notice is not required under Rule 2956.1(c).

Official Note: See Rule 2963 for the form of the praecipe for writ of execution upon a confessed judgment.

Rule 2958. **Rescinded.**

Rule 2958.1. Notice served prior to execution.

(a) A written notice substantially in the form prescribed by Rule 2964 shall be served on the defendant at least thirty days prior to the filing of the praecipe for a writ of execution.

Official Note: The notice provided for by this rule may be served in all executions within the scope of Rule 2956.1(c). If notice is served under this rule at least thirty days prior to the filing of the praecipe, notice need not be given under Rule 2958.2 governing execution upon real property or Rule 2958.3 governing execution upon personal or personal and real property. Conversely, if notice is served under either Rule 2958.2 or 2958.3, notice need not be given under this rule.

Rule 2957(b) governing the praecipe for the writ of execution requires a certification that notice has been given as provided by this rule.

Rule 2959(a)(3) requires a petition for relief from a confessed judgment to be filed within thirty days after service of notice pursuant to this rule.

(b) The notice shall be served

(1) upon a defendant in the judgment who has not entered an appearance

(i) by the sheriff or by a competent adult who is not a party to the action in the manner prescribed by Rule 402(a) for the service of original process upon a defendant, or

(ii) by the plaintiff mailing a copy in the manner prescribed by Rule 403, or

(iii) pursuant to special order of court as prescribed by Rule 430 if service cannot be made as provided in subparagraphs (i) or (ii), or

(2) upon a defendant in the judgment who has entered an appearance, by the plaintiff in the manner provided by Rule 440.

(c) The person serving the notice shall file a return of service as provided by Rule 405.

Rule 2958.2. Notice of execution served with notice of sale of real property.

(a) Written notice substantially in the form prescribed by Rule 2965 shall be served upon the defendant at least thirty days prior to the sheriff's sale if the property to be levied upon consists solely of

(1) real property, or

(2) real property and personal property to be sold with the real property pursuant to Section 9501(d) of the Uniform Commercial Code.

Official Note: Section 9501(d) of the Uniform Commercial Code, 13 Pa.C.S. § 9501(d) relates to the rights of a secured party when the agreement covers real and personal property.

The notice required by this rule must be served only when the plaintiff has not proceeded under Rule 2958.1 requiring at least thirty days notice prior to the filing of the praecipe for writ of execution.

Rule 2957(b) governing the praecipe for the writ of execution requires a certification that notice has been given as provided by this rule.

Rule 2959(a)(3) requires a petition for relief from a confessed judgment to be filed within thirty days after service of notice pursuant to this rule.

(b) The notice shall be served with the written notice of sale of real property and shall be governed by the provisions of Rule 3129.2(c).

Official Note: Rule 3129.2(c) governing notice of the sale of real property provides for the manner of service, the return of service and the timeliness of the service.

Rule 2958.3. Notice of execution served with writ of execution. Request for prompt hearing limited to issue of waiver of due process rights.

(a) Written notice in the form prescribed by Rule 2966 and a form of petition to strike the judgment and request for prompt hearing in the form prescribed by Rule 2967 shall be served upon the defendant with the writ of execution if the property to be levied upon consists of

(1) personal property or

(2) personal property and real property, not within the scope of Rule 2958.2(a)(2).

Official Note: The notice required by this rule must be served only when the plaintiff has not proceeded under Rule 2958.1 requiring at least thirty days notice prior to the filing of the praecipe for writ of execution.

Rule 2957(b) governing the praecipe for the writ of execution requires a certification that notice has been given as provided by this rule.

Rule 2959(a)(3) requires a petition for relief from a confessed judgment to be filed within thirty days after service of notice pursuant to this rule.

(b) If the writ has been served and property has been levied upon or attached, the defendant may file with the sheriff a petition to strike the judgment in the form provided by Rule 2967. The petition shall be limited to the issue whether the defendant voluntarily, intelligently and knowingly waived the right to notice and hearing prior to the entry of the judgment. The defendant may include in the claim a demand for a prompt hearing. The sheriff shall immediately notify the plaintiff of the filing of the petition.

(c) The sheriff shall immediately present the matter to the court. The court shall hear the claim within three business days thereafter upon such notice to the parties as the court shall direct and shall promptly dispose of the matter on the testimony, admissions or other evidence.

(1) If the court finds that the plaintiff has shown by a preponderance of the evidence that the defendant voluntarily, intelligently and knowingly waived the right to notice and hearing prior to the entry of judgment, it shall enter an order so determining and the stay of the execution proceedings under subdivision (d) shall terminate automatically.

(2) If the court finds that the plaintiff has not made the required showing, it shall enter an order vacating the writ of execution and striking the judgment. Upon entry of the order, any property which has been seized, levied upon or attached pursuant to the writ of execution shall be returned to the defendant.

(d) Execution proceedings shall be stayed during the period from the time the defendant files the hearing request form with the sheriff to the time the court makes the determination on the request.

Rule 2958.4. Choice of procedure. Notice upon subsequent executions.

(a) A plaintiff who has given notice pursuant to Rule 2958.1 may not proceed thereafter under Rules 2958.2 and 2958.3.

(b) The notice required by Rules 2958.1 through 2958.3 need not be given upon subsequent executions on a judgment if the notice was given prior to or upon a previous execution on that judgment and either

(1) the defendant filed a petition for relief from the judgment and the court denied the relief, or

(2) the defendant failed to file a petition for relief from the judgment within thirty days after service of the notice as required by Rule 2959(a)(3).

Rule 2959. Striking off or Opening Judgment. Pleadings. Procedure.

(a) (1) Relief from a judgment by confession shall be sought by petition. [All] Except as provided in subparagraph (2), all grounds for relief whether to strike off the judgment or to open it must be asserted in a single petition. The petition may be filed in the county in which the judgment was originally entered, in any county to which the judgment has been transferred or in any other county in which the sheriff has received a writ of execution directed to [him] the sheriff to enforce the judgment.

(2) The ground that the waiver of the due process rights of notice and hearing was not voluntary, intelligent and knowing shall be raised only

(i) in support of a further request for a stay of execution where the court has not stayed execution despite the timely filing of a petition for relief from the judgment and the presentation of prima facie evidence of a defense; and

(ii) as provided by Rule 2958.3 or Rule 2973.3.

(3) If written notice is served upon the petitioner pursuant to Rule 2956.1(c)(2) or Rule 2973.1(c), the petition shall be filed within thirty days after such service. Unless the defendant can demonstrate that there were compelling reasons for the delay, a petition not timely filed shall be denied.

* * * * *

(c) A party waives all defenses and objections which [he does] are not [include] included in [his] the petition or answer.

* * * * *

Rule 2960. Proceedings upon Opening of Judgment. Pleadings. Jury Trial. Waiver.

If a judgment is opened in whole or in part the issues to be tried shall be defined by the complaint if a complaint has been filed, and by the petition, answer and the order of the court opening the judgment. There shall

be no further pleadings. The right to a jury trial on the opened judgment shall be deemed waived unless a party files and serves a written demand for jury trial within twenty [(20)] days after the order opening judgment; but if the issue is referred to compulsory arbitration, Rule 1007.1 shall apply.

* * * * *

Rule 2961. [Effective Date.] Application of Amendments to Pending Actions.

[These rules shall become effective on the first day of January, 1970. These rules shall apply only to actions commenced after the effective date except Rules 2959 and 2960 which also apply to judgments theretofore entered.]

(a) The amendments promulgated in 1996 to the rules of civil procedure prohibiting the entry of a judgment by confession for money in connection with a consumer credit transaction shall apply to actions commenced after the effective date set forth in the Order of the Supreme Court.

Official Note: The amendments to Rules 2950, 2951 and 2952 generally relate to the prohibition against the entry of a judgment by confession arising from a consumer credit transaction.

(b) The amendments promulgated in 1996 to the rules governing execution on a judgment entered by confession for money shall apply to executions commenced after the effective date set forth in the Order of the Supreme Court.

Official Note: The amendments to Rules 2956.1 through 2959 and Rules 2963 through 2967 generally relate to execution upon a judgment entered by confession and relief from the judgment.

** Where judgment has been entered under Rule 2951(a), attorneys' fees may be included if they are authorized in the instrument and there has been a record appearance of counsel at any stage of the proceedings.

Certification

I certify that

(a) This praecipe is based upon a judgment entered by confession, and

(Delete four of the following paragraphs which are inapplicable.)

(b) Notice has been served pursuant to Rule 2958.1 at least thirty days prior to the filing of this praecipe as evidenced by a return of service filed of record.

(c) Notice will be served with the writ of execution pursuant to Rule 2958.2.

(d) Notice will be served at least thirty days prior to the date of the sheriff's sale of real property pursuant to Rule 2958.3.

(e) Notice was served in connection with a prior execution on this judgment and, pursuant to Rule 2958.4(b), no further notice is required.

(f) Notice is not required under Rule 2956.1(c) because a petition to open or strike the judgment was previously filed.

(Attorney for Plaintiff)

Official Note: Under paragraph (1) when the writ is directed to the sheriff of another county as authorized by Rule 3103(b), the county should be indicated. Under Rule

3103(c) a writ issued on a transferred judgment may be directed only to the sheriff of the county in which issued. Paragraph (3) above should be completed only if a named garnishee is to be included in the writ. Paragraph (4)(a) should be completed only if indexing of the execution in the county of issuance is desired as authorized by Rule 3104(a). When the writ issues to another county indexing is required as of course in that county by the prothonotary. See Rule 3104(b). Paragraph (4)(b) should be completed only if real property in the name of a garnishee is attached and indexing as a lis pendens is desired. See Rule 3104(c).

Certification as to waiver of exemption may be included in the praecipe. Specific directions to the sheriff as to property to be levied upon may be included in the praecipe or by separate direction at the option of plaintiff.

A judgment in the amount of \$ _____ has been entered against you and in favor of the plaintiff without any prior notice or hearing based on a confession of judgment contained in a written agreement or other paper allegedly signed by you. The court has issued a writ of execution which directs the sheriff to take your money or other property owned by you to pay the judgment.

If your money or property has been taken, you have the right to get the money or property back if you did not voluntarily, intelligently and knowingly give up your constitutional right to notice and hearing prior to the entry of judgment or if you have defenses or other valid objections to the judgment.

You have a right to a prompt court hearing if you claim that you did not voluntarily, intelligently and knowingly give up your rights to notice and hearing prior to the entry of the judgment. If you wish to exercise this right, you must immediately fill out and sign the petition to strike the judgment which accompanies the writ of execution and deliver it to the Sheriff of _____ County at _____.

IT IS IMPORTANT THAT YOU ACT PROMPTLY. IT WILL BE TOO LATE TO REGAIN YOUR PROPERTY IF YOU WAIT UNTIL AFTER THE PROPERTY HAS BEEN SOLD BY THE SHERIFF OR TURNED OVER TO THE PLAINTIFF.

YOU MUST FILE A PETITION SEEKING RELIEF FROM THE JUDGMENT AND PRESENT IT TO A JUDGE WITHIN THIRTY (30) DAYS AFTER THE DATE ON WHICH THIS NOTICE IS SERVED ON YOU OR YOU MAY LOSE YOUR RIGHTS.

YOU SHOULD TAKE THIS PAPER TO YOUR LAWYER AT ONCE. IF YOU DO NOT HAVE A LAWYER OR CANNOT AFFORD ONE, GO TO OR TELEPHONE THE OFFICE SET FORTH BELOW TO FIND OUT WHERE YOU CAN GET LEGAL HELP:

CHAPTER 2980. STATUTORY ACTION TO CONFORM CONFESSED JUDGMENT

Rule 2986. Judgment. Conforming the Confessed Judgment.

(a) Judgment shall be entered in the action for the amount, if any, due the plaintiff from the defendant or the amount, if any, due the defendant from the plaintiff. That judgment shall merge with the confessed judgment. The court shall enter an appropriate order conforming the confessed judgment to the judgment in the action.

Official Note: Under Rule 214(g) trial of the action may be advanced by the court for good cause.

Once the judgment is conformed, it is enforced in the same manner as other money judgments pursuant to Rule 3101 et seq. Notice under Rule 2956.1(c) is not required when a confessed judgment has been conformed pursuant to this rule.

Explanatory Comment

The rules of civil procedure governing confession of judgment for money have been revised in two major respects: the abolition of confession of judgment in a consumer credit transaction and the imposition of a requirement of notice prior to or with execution upon a confessed judgment.

I. Consumer Credit Transactions

Abolition of confession of judgment in connection with consumer credit transactions is effected by excluding the transactions from the scope of the action. Three rules are amended. Rule 2950 is revised by adding a definition of the term "consumer credit transaction" and defining the term "action" to exclude those transactions. Rules 2951 and 2952 are revised to require that the plaintiff file an affidavit if proceeding under Rule 2951(a) or aver in the complaint if proceeding under Rule 2951(b) that the judgment is not being entered in a consumer credit transaction.

II. Notice

The provisions for notice are intended to aid the bench and bar in complying with *Jordan v. Fox, Rothschild, O'Brien & Frankel*, 20 F.3d 1250 (C.A. 3 1994). The significance of the opinion was stated by Judge R. Stanton Wettick, Jr. in *S&T Bank v. Coyne*, No. GD 94-12141 (Allegheny County, August 11, 1994):

The *Jordan* opinion is significant only because the judgment creditor and its attorneys are now also subject to a § 1983 claim by a judgment debtor who did not waive its constitutional rights to notice and a hearing.

New rules have been promulgated to provide for notice to be served upon the defendant in most cases prior to or

during execution on a judgment entered by confession. There are three notices but only one need be given in a particular case.

1. New Rule 2958.1 provides for a notice to be served at least thirty days prior to the filing of the praecipe for a writ of execution upon real or personal property. The form of notice is prescribed by new Rule 2964.

2. New Rule 2958.2 provides for a notice to be served with the notice of the sale of real property when the property levied upon is solely real property or when the property levied upon is real property and personal property to be sold with the real property pursuant to Section 9501(d) of the Uniform Commercial Code. The form of notice is prescribed by new Rule 2965.

3. New Rule 2958.3 provides for a notice to be served with the writ of execution when the property to be levied upon includes personal property or personal and real property and when the plaintiff determines that advance notice of the execution might not be appropriate. The form of the notice is prescribed by new Rule 2966.

Under new Rule 2959(a)(3), a defendant must file a petition within thirty days of service of the notice to obtain relief from the judgment or to prevent execution. After thirty days, the defendant is barred from relief unless there are "compelling reasons for the delay".

In the case of notice given under Rule 2958.3, the defendant is advised of the right to a hearing on the sole issue of the validity of the waiver of due process rights. The notice also advises the defendant of the right to request a prompt hearing which must be held within three business days after the sheriff presents the request to the court. Execution is stayed pending a determination of the validity of the waiver. The court is to determine whether "the plaintiff has shown by a preponderance of the evidence that the defendant knowingly, voluntarily and intelligently waived the right to notice and hearing prior to the entry of judgment". Rule 2958.3 imposes the burden of proof on the plaintiff who is asserting that a constitutional right has been waived. The quantum of evidence required to satisfy the rule is an evidentiary matter outside the scope of the rule.

Under Rule 2958.4, the plaintiff must choose whether to give thirty-days' advance notice under Rule 2958.1 or to give notice as part of the execution process under Rules 2958.2 and 2958.3. Subdivision (a) of the rule provides that a plaintiff who has given notice pursuant to Rule 2958.1 may not proceed also under Rule 2958.2 or Rule 2958.3. However, once having given the required notice, the plaintiff need not give notice again on a subsequent execution on the same judgment.

The intent of these rules is to limit the necessity for hearings on issues of due process and waiver by providing the defendant with a pre-deprivation notice and opportunity for hearing on the merits. However, new Rule 2959(a)(2) specifies three instances when the issue of the voluntary, intelligent and knowing waiver of due process rights may be raised. The first is in support of a request for a stay when the court has already denied a prior request for a stay despite timely filing of that request and "the presentation of prima facie evidence of a defense." The second is when personal property has been levied upon or attached without prior notice and hearing under new Rule 2958.2. The third is when a defendant in possession of leased residential real property has been evicted without prior notice and hearing under new Rule

2973.3. In all other instances, the issues upon a petition for relief from the judgment will be the merits and not the waiver of due process rights.

III. Conforming Amendments

A paragraph has been added to the note to present Rule 2986 stating that, once a confessed judgment has been conformed pursuant to Rule 2981 et seq., the judgment is enforced in the same manner as other money judgments.

Execution Rules 3103(a) and 3251 have been amended to cross-refer to the form of praecipe to issue a writ of execution upon a confessed judgment prescribed by new Rule 2963.

Rule 3129.2(c)(1)(i)(A) governing notice of the execution sale of real property has been amended to provide for service of the notice of sale upon a defendant who has not appeared in the action "by a competent adult who is not a party to the action" as well as by the sheriff.

IV. Application to Pending Actions

Rule 2961 governing the application of amendments to pending actions has been amended by deleting the former text and substituting two new subdivisions. New subdivision (a) provides that the amendments prohibiting the entry of a confessed judgment in connection with a consumer credit transaction are applicable to actions commenced after the effective date specified in the order of the Supreme Court. Subdivision (b) provides that the amendments relating to execution on a confessed judgment are applicable to executions commenced after the effective date.

Amendment of Rules Governing Confession of Judgment in Ejectment for Possession of Real Property; No. 257; Doc. No. 5

Order

Per Curiam:

And Now, this 1st day of April, 1996, the Pennsylvania Rules of Civil Procedure governing confession of judgment in ejectment for possession of real property are amended as follows:

1. Rules 2970, 2971, 2974, 2976, 3161, and 3254 are amended to read as follows.
2. Rules 2973 is rescinded.
3. New Rules 2973.1, 2973.2, 2973.3, 2973.4, 2974.1, 2974.2, 2974.3, 2975 and 3161.1 are promulgated to read as follows.

This Order shall be effective July 1, 1996 and shall be processed in accordance with Rule of Judicial Administration 103(b).

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 2970. CONFESSION OF JUDGMENT FOR POSSESSION OF REAL PROPERTY

Rule 2970. Conformity. **Scope.**

Except as otherwise provided in this chapter, the procedure in an action to enter a judgment in ejectment for possession of real property by confession pursuant to an instrument, **other than a residential lease executed by a natural person**, authorizing such confession shall be in accordance with the rules relating to confession of judgment for money.

Official Note: [The United States District Courts in Pennsylvania have held the procedure governing confession of judgment in ejectment to be unconstitutional insofar as the procedure applies to residential leases. Attorneys should ascertain whether such an action is permissible in the particular county.]

Confession of judgment in ejectment is abolished with respect to a residential lease executed by a natural person.

Rule 2971. Commencement of Action.

(a) An action shall be commenced by filing with the prothonotary a complaint substantially in the form provided by Rule 2952. The complaint shall also contain

(1) an averment, in place of that required by Rule 2952(a)(3), that the judgment is not being entered against a natural person in connection with a residential lease, and

(2) a description of the property and

(3) a demand for judgment in ejectment.

* * * * *

Rule 2973. **Rescinded.**

Rule 2973.1. Execution.

Except as otherwise provided by subdivisions (b) and (c), a judgment in ejectment entered by confession shall be enforced in the manner provided by Rule 3160 et seq. governing the enforcement of a judgment in an action of ejectment.

Official Note: The form of praecipe required by subdivision (b) is in place of the form of praecipe prescribed by Rule 3254. The notice required by subdivision (c) is in addition to the procedural requirements of Rule 3160 et seq.

(b) Execution shall be commenced by filing a praecipe for a writ of possession in the form prescribed by Rule 2974.1.

(c) If no petition to open or strike the judgment has been filed, written notice shall be served upon the defendant in the judgment either

(1) prior to execution as provided by Rule 2973.2, or

(2) with the writ of possession as provided by Rule 2973.3.

Official Note: The written notice provided by this rule is required only in connection with execution proceedings. The notice is in addition to the notice of the entry of judgment required by Rule 236.

Rule 2973.2. Notice Served Prior to Execution.

(a) A written notice in the form prescribed by Rule 2974.2 shall be served on the defendant at least thirty days prior to the filing of the praecipe for a writ of possession.

Official Note: If notice is served under this rule at least thirty days prior to the filing of the praecipe, notice need not be given under Rule 2973.3. Conversely, if notice is served under Rule 2973.3, notice need not be given under this rule.

Rule 2974.1 governing the form of the praecipe for the writ of possession requires a certification that notice has been given as provided by this rule.

Rule 2959(a)(3) requires a petition for relief from a confessed judgment to be filed within thirty days after service of notice pursuant to this rule.

(b) The notice shall be served

(1) upon a defendant in the judgment who has not entered an appearance

(i) by the sheriff or by a competent adult who is not a party to the action in the manner prescribed by Rule 402(a) for the service of original process upon a defendant, or

(ii) by the plaintiff mailing a copy in the manner prescribed by Rule 403, or

(iii) pursuant to special order of court as prescribed by Rule 430 if service cannot be made as provided in subparagraphs (i) or (ii), or

(2) upon a defendant in the judgment who has entered an appearance, by the plaintiff in the manner provided by Rule 440.

(c) The person serving the notice shall file a return of service as provided by Rule 405.

Rule 2973.3. Notice Served with Writ of Possession. Prompt Hearing Limited to Issue of Waiver of Due Process Rights.

(a) A written notice in the form prescribed by Rule 2974.3 and a form of petition to strike the judgment and request for prompt hearing prescribed by Rule 2967 shall be served upon the defendant with the writ of possession.

Official Note: If notice is served under this rule at least thirty days prior to the filing of the praecipe, notice need not be given under Rule 2973.2.

Rule 2974.1 governing the form of the praecipe for the writ of possession requires a certification that notice will be given as provided by this rule.

See Rule 2959(a)(3) which requires a petition for relief from a confessed judgment to be filed within thirty days after service of notice pursuant to this rule.

(b) A defendant who has been given notice pursuant to Rule 2973(a) may file with the sheriff a petition to strike the judgment in the form provided by Rule 2967. The petition shall be limited to the issue whether the defendant voluntarily, intelligently and knowingly waived the right to notice and hearing prior to the entry of the judgment. The defendant may include in the claim a demand for a prompt hearing. The sheriff shall immediately notify the plaintiff of the filing of the petition.

(c) The sheriff shall immediately present the matter to the court. The court shall hear the claim within three business days thereafter upon such notice to the parties

as the court shall direct and shall promptly dispose of the matter on the testimony, admissions or other evidence.

(1) If the court finds that the plaintiff has shown by a preponderance of the evidence that the defendant voluntarily, intelligently and knowingly waived the right to notice and hearing prior to the entry of judgment, it shall enter an order so determining and the stay of the execution proceedings under subdivision (d) shall terminate automatically.

(2) If the court finds that the plaintiff has not made the required showing, it shall enter an order vacating the writ of possession and striking the judgment. Upon entry of the order, any property from which the defendant has been evicted pursuant to the writ of possession shall be returned to the defendant's possession.

(d) Execution proceedings shall be stayed during the period from the time the defendant files the hearing request form with the sheriff to the time the court makes the determination on the petition.

Rule 2973.4. Choice of Procedure. Notice Upon Subsequent Executions.

(a) A plaintiff who has given notice pursuant to Rule 2973.2 may not proceed thereafter under Rule 2973.3.

(b) The notice required by Rules 2973.2 and 2973.3 need not be given upon subsequent executions on a judgment if the notice was given prior to or upon a previous execution on that judgment and either

(1) the defendant filed a petition for relief from the judgment and the court denied the relief, or

(2) the defendant failed to file a petition for relief from the judgment within thirty days after service of the notice as required by Rule 2959(a)(3).

Explanatory Comment

The Supreme Court of Pennsylvania has promulgated two principal revisions to the rules of civil procedure governing confession of judgment for the possession of real property. First, the action has been redefined to abolish confession of judgment for the possession of real property in connection with a residential lease executed by a natural person. Second, the execution process has been revised by adding the requirement of a notice to be served upon the defendant prior to or with the writ of possession.

I. Residential Leases Executed by Natural Persons

Confession of judgment for the possession of real property in connection with a residential lease executed by a natural person has been abolished. The abolition has been effected by amending Rule 2970 defining the scope of the action to include a confession of judgment for possession of real property arising from "an instrument, other than a residential lease executed by a natural person." Rule 2971 governing the commencement of the action has been revised by adding an averment to the complaint that judgment is not being entered against a natural person in connection with a residential lease.

A note to Rule 2970 formerly advised that the "United States District Courts in Pennsylvania have held the procedure governing confession of judgment in ejectment to be unconstitutional insofar as the procedure applies to residential leases." By abolishing the action as to such leases, the present amendment removes any uncertainty from the area and makes the practice uniform.

II. Notice

The revision of the rules governing confession of judgment for possession of real property to provide for a notice to the defendant prior to or with execution parallels a similar revision of the rules governing confession of judgment for money. The amendments are as follows.

New Rule 2973.1 is an introductory rule which serves as a guide to execution on the confessed judgment. The rule prescribes a special form of praecipe for the writ of possession which is to be used in place of the usual form of praecipe prescribed by Execution Rule 3254. When no petition to open or strike the judgment has been filed, the rule imposes the requirement of notice to be served either prior to execution or with the writ of possession and cross-refers to the appropriate rules.

1. New Rule 2973.2 is virtually identical to its counterpart governing confession of judgment for money, Rule 2958.1. It provides for a notice to be served at least thirty days prior to the filing of the praecipe for a writ of possession. The form of notice is prescribed by new Rule 2974.2.

2. New Rule 2973.3 is also virtually identical to its counterpart governing confession of judgment for money, Rule 2958.3. The rule provides for a notice to be served with the writ of possession which advises the defendant of the right to a hearing on the sole issue of the validity of the waiver of due process rights. The notice also advises the defendant of the right to a prompt hearing which must be held within three business days after delivery of a hearing request to the sheriff. The form of the notice is prescribed by new Rule 2974.3. Execution is stayed pending a determination of the validity of the waiver. The court is to determine whether "the plaintiff has shown by a preponderance of the evidence that the defendant voluntarily, intelligently and knowingly waived the right to notice and hearing prior to the entry of judgment".

Subdivision (a) of Rule 2973.4 provides that a plaintiff who has given notice pursuant to Rule 2973.2 may not proceed also under Rule 2973.3. However, once having given notice required under one of those rules, the plaintiff need not give notice again on a subsequent execution on the same judgment.

A defendant served with a notice must file within thirty days of service of the notice a petition to obtain relief from the judgment or to prevent execution. After thirty

days, the defendant is barred from relief unless there are "compelling reasons for the delay" as provided by Rule 2959(a)(3).

III. Conforming Amendments

Execution Rule 3161(a) has been amended to delete the incorporation by reference of Rule 3101(a) governing commencement of execution proceedings. Rule 3101(a) has been revised so that the references to the forms of praecipe apply solely to an execution upon a money judgment. New Rule 3161.1 has been added to govern the commencement of execution upon a judgment for possession. The new rule contains appropriate references to the rules providing the forms of praecipe for the writ of possession.

Execution Rule 3254 providing the form of the praecipe for a writ of possession has been amended to cross-refer to the praecipe to issue a writ of possession upon a confessed judgment prescribed by Rule 2974.1.

IV. Application of Amendments to Pending Actions

Former Rule 2973 governing the effective date of the rules has been rescinded and new Rule 2975 promulgated. Subdivision (a) of the new rule provides that the amendments prohibiting the entry of a confessed judgment arising from an instrument constituting a residential lease executed by a natural person are applicable to actions commenced after the effective date specified in the order of the Supreme Court. Subdivision (b) provides that the amendments relating to execution on a confessed judgment apply to execution proceedings commenced after the effective date.

[(b)] Where a party is employed, the court shall ascertain the party's earnings and may enter an order directing the employer to furnish earnings information to the court as provided by Rule 1910.27.

Rule 1910.11. Office Conference. Subsequent Proceedings. Order.

* * * * *

(j) [(1)] Promptly after receipt of the notice of the scheduled hearing, a party may move the court for a separate listing where

- (i) there are complex questions of law, fact or both, or
- (ii) the hearing will be protracted, or
- (iii) the orderly administration of justice requires that the hearing be listed separately.

[(2) The motion may include a request for discovery. If granted, the order may specify the scope of discovery.]

Rule 1910.12. Office Conference. Hearing. Record. Exceptions. Order.

* * * * *

(c) (1) Except as set forth in subdivision (c)(2), promptly after conclusion of the conference, a party may move the court for a separate listing of the hearing where

- (i) there are complex questions of law, fact or both, or
- (ii) the hearing will be protracted, or
- (iii) the orderly administration of justice requires that the hearing be listed separately.

(2) Where the conference and hearing are scheduled on the same day, all requests for separate listing must be presented to the court at least seven days prior to the scheduled court date.

[(3) The motion may include a request for discovery. If granted, the order may specify the scope of discovery.]

CHAPTER 1920. ACTION OF DIVORCE OR FOR ANNULMENT OF MARRIAGE

Rule 1920.22. [Discovery] Rescinded.

[(a) Except as provided by subdivision (b), there shall be no discovery in an action of divorce or for annulment or a claim which has been joined as permitted under the Divorce Code unless authorized by special order of court.

Official Note: Rule 1920.91 suspends § 3505(c) of the Divorce Code which provides for discovery in actions of divorce or for annulment of marriage.

(b) When a claim is made for alimony or the determination and distribution of property rights,

any party may serve upon any other party as of course within such time as not to delay the trial interrogatories limited to those claims. The practice and procedure shall be governed by the rules of civil procedure governing depositions and discovery.]

Rule 1920.91. Suspension of Acts of Assembly.

* * * * *

[(2) Section 3505(c) of the Domestic Relations Code, 23 Pa.C.S. § 3505(c), absolutely;

Official Note: Suspended Section 3505(c) of the Divorce Code provides for discovery in actions of divorce or for annulment of marriage. Discovery in such actions is prescribed by Rule of Civil Procedure 1920.22.]

[(3)] (2) Section 3505(b) of the Domestic Relations Code, 23 Pa.C.S. § 3505(b), absolutely;

Official Note: Suspended Section 3505(b) of the Divorce Code requires the submission to the court of an inventory and appraisal of property. Rule of Civil Procedure 1920.33(a) supplants this provision by requiring parties seeking the distribution of property to file an inventory while subdivision (b) of the rule requires the filing of pre-trial statement.

[(4)] (3) Section 3321 of the Domestic Relations Code, 23 Pa.C.S. § 3321, insofar as it prohibits the appointment of masters in partial custody or visitation matters.

Official Note: Suspended Section 3321 of the Divorce Code states that the court may appoint a master to hear testimony on all issues relating to a divorce except custody or paternity.

[(5)] (4) And all other Acts or parts of Acts of Assembly inconsistent with these rules to the extent of such inconsistency.

CHAPTER 4000. DEPOSITIONS AND DISCOVERY

Rule 4001. Scope. Definitions.

(a) [(1)] The rules of this chapter apply to any civil action or proceeding at law or in equity brought in or appealed to any court which is subject to these rules including any action pursuant to the Eminent Domain Code of 1964 or the Municipal Claims Act of 1923.

* * * * *

[(2) These rules shall not apply to an action of divorce or for annulment of marriage, an action for support, or an action for custody of minor children except to the extent prescribed by the rules governing those actions.]

All existing explanatory notes and comments pertaining to the rules listed below are replaced by the following:

Explanatory Comment—Rule 1910.9

This proposed amendment to the support rules eliminates the need to obtain a special order of court before engaging in discovery. In accordance with the proposed revision, discovery would be available as provided by Rule of Civil Procedure 4001 et seq.

Explanatory Comment—Rule 1915.5

Under subdivision (a), the defendant may, but is not required to, plead to the complaint. All averments may be disputed by the defendant at the custody hearing. An

attorney who wishes to file another pleading may do so. However, the action is not to be delayed to permit its filing.

The proposed liberalization of discovery in other areas of domestic relations practice does not extend to custody. Discovery is not permitted in any custody action unless authorized by special order of court.

Explanatory Comment—Rule 1920.22

This proposed amendment to the divorce rules eliminates the need to obtain a special order of court before engaging in discovery. In accordance with the proposed revision, discovery would be available as provided by Rule of Civil Procedure 4001 et seq.

**Title 25—LOCAL
COURT RULES**

CHESTER COUNTY

Amendments to Rules of Civil Procedure; No. 96-00000

Order

And Now, this 18th day of March, 1996, the following amendments to the Chester County Rules of Civil Procedure are hereby adopted effective thirty (30) days after publication in the *Pennsylvania Bulletin*, in accordance with Pa.R.C.P. No. 239(d).

THOMAS G. GAVIN,
President Judge

1. *Revise rule 206.1.A.(1) to read as follows:*

All motions, petitions and preliminary objections shall be in writing and shall be accompanied by a proposed form of order; a petition shall also be accompanied by an order allowing a rule to show cause in form as set forth below, which order is hereinafter sometimes referred to as a "rule" or a "rule to show cause". Every motion and petition shall refer to the procedural rule, statute, or other authority relied upon to justify the relief requested, and shall display the counsel's name, address, i.d. number and telephone number.

2. *Amend rule 206.1.B(3) to read as follows:*

(3) The procedure of Pa.R.C.P. No. 206.6 is adopted. An order containing a rule to show cause, except one which by its terms grants substantive relief or which contains a stay order or seeks to require an answer by respondent(s) in less than twenty (20) days, shall be issued per curiam when presented to the court administrator.

3. *Amend rule 206.1.B(5) to read as follows:*

(5) Admissions—All well-pled factual averments in a petition upon which a rule to show cause has been granted or in preliminary objections endorsed with a notice to plead and properly containing averments to fact shall be deemed admitted unless an answer specifically denying the same is filed on or before the close of court within twenty days after service of the petition upon the respondent(s), or such shorter time as the court may have allowed, or, in the case of preliminary objections, on the date on which an answer to the preliminary objections is

due pursuant to the Pennsylvania Rules of Civil Procedure. The requirements of Pa.R.C.P. No. 1029 shall apply to this provision.

4. *Amend rule 206.1.B(7) to read as follows:*

(7) When Answer is Filed—When an answer has been timely filed and the issue raised by the petition is ripe for consideration, pursuant to the provisions of Pa.R.C.P. No. 206.7, any party may file a praecipe for determination in the form described by C.C.R.C.P. No. 206.2 along with a supporting brief. If a petitioner files a praecipe for determination on petition and answer, all averments of fact responsive to the petition and properly pleaded in the answer shall be deemed admitted. If a respondent orders the matter for argument on petition and answer without having taken depositions or such other discovery as the court may have allowed, then all averments of fact properly pleaded in the petition shall be deemed admitted for the purposes of the rule, unless the petitioner shall have failed to take depositions or such other discovery as the court may have allowed within the time required, in which event the petition shall be decided on petition and answer and all averments of fact responsive to the petition and properly pleaded in the answer, shall be deemed admitted pursuant to Pa.R.C.P. No. 206.7(c). Responsive briefs shall be filed within fifteen (15) days of the filing of the praecipe for determination. The assigned judge may, at his or her discretion, extend the time for filing briefs.

5. *Amend rule 206.1.B(8) to read as follows:*

(8) Form of Rule Returnable

[present subparagraphs (a), (b) & (c) deleted]

(a) The petitioner shall attach to the petition a proposed order substantially in the following form:

(CAPTION)

ORDER

AND NOW, this _____ day of _____, 199____, upon consideration of the foregoing petition, it is hereby ordered that

- 1) A rule is issued upon the respondent to show cause why the petitioner is not entitled to the relief requested;
- 2) The respondent shall file an answer to the petition within twenty (20) days of service upon the respondent;
- 3) The petition shall be decided under Pa.R.C.P. No. 206.7;
- 4) Depositions shall be completed within forty-five (45) days of the service upon petitioner of the answer to the petition;
- 5) Notice of the entry of this order shall be provided to all parties by the petitioner.

BY THE COURT:

J.

(b) In instances where the order seeks a stay order or other substantive relief or seeks to have a hearing date set immediately or otherwise requests special immediate relief, the form of the order shall be modified accordingly and the order shall contain such of the following provisions as are appropriate:

A hearing on the within petition is hereby scheduled to be held on the _____ day of _____,

199 __, in Courtroom No. __, of the Courthouse of Chester County, West Chester, Pennsylvania.

and/or

[If a stay is being requested]

All proceedings shall stay in the meantime. The petitioner is directed to file a bond in the amount of \$ ____ by the following date: _____. Upon cause shown by the respondent, the court may increase the amount of the bond or security.

6. *Amend Rule 206.1.D(3) to read as follows:*

(3) Where the preliminary objections are in the form of a petition under Pa.R.C.P. No. 1028(a)(1), (5), or (6), no praecipe for determination or brief shall be required until the matter is ready to be submitted to the Court, either upon the basis of the preliminary objections alone, if no answer has been filed, or upon the basis of the preliminary objections and answer thereto, or after a record has been developed pursuant to Pa.R.C.P. No. 206.7. The provisions of C.C.R.C.P. No. 206.1.B(7) shall apply, the objecting party shall be deemed to be the petitioner, all other parties shall be deemed to be respondents, and, further, if the preliminary objections have been endorsed with a notice to plead and no answer thereto has been filed, then upon the filing of a praecipe for determination by any party, all averments of fact properly pleaded in the preliminary objections shall be deemed admitted for purposes of the preliminary objections only. If an answer is filed and any party wishes to develop a record on any disputed issues of material fact, depositions shall be completed within forty-five (45) days of the date of service of the answer to preliminary objection upon the party who filed the objections. The time limit for the taking of depositions may be shortened or extended by agreement of the parties or by the court.

7. *Amend Rule 1920.3.A as follows:*

Delete Rule 1920.3.A in its entirety.

8. *Amend Rule 212.1(A) as follows:*

Delete the words "At least sixty (60) days before" and substitute in their place the words, "Prior to the".

RULES AND REGULATIONS

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CHS. 53, 93, 95, 97, 101, 103, 111, 113 AND 117]

Fish and Boat Commission Property; and Boats and Boating

The Fish and Boat Commission (Commission) by this order amends Chapters 53, 93, 95, 97, 101, 103, 111, 113 and 117. The Commission is publishing these amendments under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The amendments deal with Commission property and boats and boating.

A. Effective Date

These amendments will take effect upon publication of this order.

B. Contact Person

For further information on the amendments, contact Dennis Guise, Chief Counsel, (717) 657-4525, P. O. Box 67000, Harrisburg, PA 17106-7000, or John Simmons, Director, Bureau of Boating, P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 657-4538.

C. Statutory Authority

The amendments are published under the statutory authority of sections 741 and 5122—5124 of the code.

D. Purpose and Background

The amendments update the Commission's regulations on boats and boating, including property regulations that relate to boats and boating. The amendments have been reviewed by the Commission's Boating Advisory Board (Board).

E. Summary of Changes

(a) *Personal flotation devices (PFD) on Commission lakes, § 53.8.* The Commission and the Bureau of State Parks have historically required the wearing of PFDs by persons operating sculls on State-owned lakes in the exercise of the agencies' powers to regulate use of Commonwealth properties under their jurisdiction. The Board reviewed this issue and recommended that the Commission consider modifying its property regulations to permit the use of non-Coast Guard approved PFDs by the operators of sculls and rowing shells on its lakes. This change is being sought by those who operate sculls and rowing shells who cite the general exemption of sculls and rowing shells from Coast Guard PFD requirements in support of their request.

(b) *Access areas and marinas, § 53.12.* Current Commission property regulations provide for boat mooring and slip rentals at the Walnut Creek Access, Erie County. The Commission now operates the North East Access and Marina in Erie County. No specific regulations have been published for the North East Access and Marina. As a result of the Commission obtaining control over an additional marina, the Commission has reexamined the regulation on the Walnut Creek Access area to determine what changes, if any, are in order. It appears that a more flexible regulatory structure, allowing all marinas to be operated in a more business-like manner will best address the needs of the boating public. The regulation was drafted to replace the regulation applicable to Walnut

Creek Access in its entirety. Although this is a property regulation, the Commission sought public comment by including it in a notice of proposed rulemaking. The Commission received no public comments concerning this change and, therefore, adopted it as proposed.

(c) *State of principal operation of recreational boats, § 93.11.* One of the more complicated issues relating to boat registration and numbering is "State of Principal Operation." The Coast Guard has considered the state in which a boat is used most often to be the state in which it is to be registered. An enforcement officer must determine in which state a boat is used most often even though he only sees the boat on an occasional basis. To further complicate the issue, some states have come to use a 60-day period as the period of reciprocity. Many laws allow a boat to operate in a state for a period of 60 days on an out-of-state registration. The regulation attempts to better explain how to determine state of principal operation and when a boat has to be registered in this Commonwealth.

(d) *Operation of a boat after the death of the registered owner, § 93.16.* When the boating regulations were rewritten in 1992, a new section was drafted to provide regulatory relief for the estates of deceased boat owners. The intention was to permit the continued use of a boat during the current registration period while the decedent's estate is being administered. The regulation goes further, however, and permits the estate to renew the registration of the boat in the name of the estate. This wording is unnecessary, and, with the 2-year registration system, it allows too long a period before registration of the boat is transferred. The change requires the estate to take action to transfer registration at the end of the current period of registration.

(e) *Lights for boats, § 95.3.* When the boating regulations were rewritten in 1992, a new section concerning rules of the road was added. An attempt was made to make these regulations reflect the Federal rules of the road while at the same time making them simpler in construction and easier to read. The rewrite failed to make a distinction in the lighting requirements between boats underway and not underway. The Commission therefore has adopted an amendment to § 95.3 to include the word "underway" and to make several minor editorial changes. On final rulemaking, the Commission has corrected errors in the conversion of the metric measurements.

(f) *PFDs, § 97.1.* The Commission sought public comment on a proposal to require PFDs to be worn during certain cold-weather months. The Commission received four public comments concerning this change. One commentator expressed concerns with the change; two expressed support. Although the Board recommended that the Commission adopt the change, the Commission's Boating Committee (Committee) recommended that the Commission not adopt the amendment. The Commission encourages the wearing of PFDs during cold weather months. However, it does not believe that it is necessary to mandate this practice. At its January 1996 meeting, the Commission voted 7 to 2 against requiring that PFDs be worn during cold weather months.

(g) *Fire extinguishers, § 97.2.* Federal regulations have required that all fire extinguishers used in boats are to be built to certain requirements established by the Coast Guard. This certification is identified by the presence of a

Coast Guard Approval Number that is found on the label of each marine fire extinguisher. Several years ago, the Coast Guard ceased to certify fire extinguishers turning that responsibility over to independent testing laboratories, most notably Underwriters Laboratory (U.L.). This change has been interpreted to mean that fire extinguishers no longer need the Coast Guard Approval Number. This is not the case. Even though U.L. does the actual certification, all extinguishers must still carry the Coast Guard Approval Number in order to be acceptable in marine use. The amendment merely clarifies this requirement.

(h) *Boating accident reports, § 101.4.* During the rewrite of the boating regulations in 1992, the requirements for submitting written boating accident reports were rewritten. The new regulation does not require the operator or owner of the vessel involved in the accident to file a "completed" report. Many of the reports that are received by the Commission are incomplete or illegible making it very difficult to review the accident. A clarification to § 101.4 requiring the reports to be completed will allow the Commission's Boating Accident Review Officer to return the report to the operator or owner of the vessel with regulatory authority to demand any additional information being withheld, or clarification of the information on the report.

(i) *Duties of operators involved in watercraft accidents, § 101.8.* The purpose of this amendment is to clarify the duties of operators involved in boating accidents. This change, which mirrors similar requirements for operators of vehicles, updates the requirements to remain at the scene of a boating accident, exchange information and render aid.

(j) *Operation of boats in a counter clock-wise direction, § 103.3.* The current regulation provides that "motorboats underway on water impoundments—dams, reservoirs, lakes and the like—in areas not marked by well-defined channels, canals, rivers or stream courses shall operate in a counterclockwise fashion insofar as reasonably possible." These rules are not intended to exempt operators of boats from operating in a counter clockwise fashion on rivers and streams. The intent of this rule was to lend some order to boat traffic on congested waterways. It was meant to apply on all waters and was to be a standard of conduct and not an enforceable regulation. The intent of the current language in the boating regulations is somewhat obscure. At least one county court has held that it does not apply to an impoundment on a river. The Commission sought public comment on the regulation and received one comment concerning the change. After considering the public comment, the Commission adopted the regulation as proposed to clarify the applicability of this navigation rule on all waters of this Commonwealth.

(k) *Special boating regulations, Chapter 111.*

(1) *Highland Lake, Bradford County, § 111.8.* Highland Lake is a small 1-acre private lake in Bradford County. The Highland Lake Association was first formed in 1947. By agreement of the members, no motorboats have ever been permitted on the lake. The exception to this rule is the Association's motorboat that is used to control algae growth. The Association realizes that its rules have no force of law and have requested that formal regulations be adopted that would prevent the use of motors on this lake. The Commission's staff surveyed the residents of the lake. All residents were generally in support of the amendment. One individual requested that electric motors be permitted on the lake in deference to the needs for senior citizens and handicapped individuals. Because this

is a private lake, already under agreed regulation, the Commission sought public comment on this change, but the Commission received none. The Commission's Committee subsequently considered this item and recommended to the Commission that it not adopt the special regulation banning motorboats from Highland Lake, a small lake with no public access. At its January 1996 meeting, the Commission declined to adopt the special regulation.

(2) *Delaware River, Bucks County, § 111.9.* The New Hope Borough Council and the Solebury Township Supervisors joined forces to request that several slow minimum height swell speed zones be created on the Delaware River in their respective municipalities. The request may be considered in two parts. The first was a request that Pennsylvania adopt regulations consistent with New Jersey that restricts boats to slow no wake while passing through bridge spans. This restriction would apply to four bridges in the vicinity of New Hope. The spans in question are at most 150 feet between piers. If the piers were considered shoreline, two boats could not pass under the span without violating the current Pennsylvania slow no wake regulations. The regulations are unclear, however, in defining what constitutes shoreline. A regulation specifically addressing these four bridge spans would allow consistency of regulations and not necessitate a Statewide regulation to address a problem that does not appear to be Statewide in nature. The second part was to create a slow minimum height swell speed zone of approximately 3,000 feet on the Delaware River near Lumberville. The change would help address general complaints concerning noise and operation of personal watercraft in this area. The Commission received 46 public comments in favor of the slow speed zone in the vicinity of Lumberville. The Board reviewed the change at its meeting on January 19, 1996, and recommended that the slow, minimum height swell speed restriction on the 3,000 feet near Lumberville be effective during the period from 12:01 a.m. on the Friday before Memorial Day until midnight on the following Labor Day. The Board further indicated that this section should also provide that this speed zone will take effect when the State of New Jersey approves similar restrictions. At its meeting on January 21, 1996, the Commission adopted this regulation with the changes proposed by the Board.

(3) *Lake Erie and Presque Isle Bay (Erie County), § 111.25.* The Bureau of State Parks maintains a comprehensive set of regulations concerning the operation of boats on waters within its jurisdiction. After the 1992 rewrite of the boating regulations, it was discovered that the Commission failed to include an electric motors only restriction in the lagoons of Presque Isle State Park. This restriction has been in effect for a number of years and its exclusion from the regulations was an oversight. The regulation restores this wording to § 111.25.

(4) *Fairview Lake, Pike County, § 111.52.* The Commission received a petition from residents of Fairview Lake, Pike County, to establish a slow minimum height swell speed zone in a cove along the north shore of the lake. This cove is relatively long, narrow and shallow. The operation of conventional motorboats and personal watercraft in this area has resulted in the churning of the bottom silt which turns the normally clear water of the cove murky and uninviting. There appears to be a strong consensus for establishment of this speed zone on Fairview Lake.

(5) *Long Pond, Wayne County, § 111.64.* This change was designed to codify restrictions on waterskiing that

the Commission previously approved, but which were not included in the 1992 comprehensive rewrite of boating regulations. It adjusts the hours during which waterskiing is permitted on Long Pond.

(l) *Reliance on locations of aids and markers, § 113.12.* During the rewrite of the boating regulations in 1992, the prior provision on reliance on the location of aids to navigation was not included in the new Chapter 113 (relating to aids to navigation and obstructions to navigation). Although aids to navigation are maintained with a reasonable degree of reliability, the rigors of the environment and other unforeseen circumstances often result in aids being moved off station or becoming inoperative. Consequently, prudent boaters do not rely on aids as an absolute warning of hazardous conditions. The amendment advises boaters concerning placement of aids to navigation.

(m) *PFDs on rental boats, § 117.2.* On May 1, 1996, new Federal regulations concerning the use of the Type IV PFD by livery operators will go into effect. After that date, livery operators will have to supply wearable PFDs for everyone using one of their boats. The general regulation on PFDs, § 97.1, already has been changed to reflect these new requirements. A staff review of Chapter 117 (relating to boat rental businesses) disclosed a need to amend § 117.2 (relating to standards) to assure that there is no confusion concerning the wearable PFD requirement.

(n) *Information requirements for boat rental businesses, § 117.3.* There are currently 225 businesses in this Commonwealth that rent motorboats of various types. An unknown number of businesses rent unpowered boats. Every year, thousands of people are introduced to boating through rented boats. Each year thousands of people come away with a good experience and many may become hooked on boating. Unfortunately some come away with a bad experience. Nationally, 10% of all reported boat accidents involve rented boats. Figures for this Commonwealth reflect a similar rate. While this may not be a large percentage, the numbers are significant enough to warrant some concern. The Commission sought public comment on a regulation that would require the owners or operators of boat rental businesses to provide a summary of boating regulations and a rudimentary instruction in the safe operation of the boat being rented. It might be said that good business practices will assure that this is done without regulation; however, the change adopted by the Commission will ensure that persons who rent boats are given some basic information in all cases. The Commission did not receive any public comments regarding this amendment.

F. Paperwork

The amendments hereby adopted will not increase paperwork and will create no new paperwork requirements, except that under the change to § 117.3, operators of boat rental businesses will be required to provide a summary of laws and regulations on boating and instruction regarding the safe operation of boats to persons renting boats.

G. Fiscal Impact

The amendments will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The amendments impose no new costs on the private sector or the general public.

H. Public Involvement

A notice of proposed rulemaking containing the proposed amendments was published at 25 Pa.B. 4129

(September 30, 1995). Except for the public comments discussed under the summary of changes in Section E of this Preamble, none of the changes attracted public comment.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder 1 Pa. Code §§ 7.1 and 7.2.

(2) The public comment period was provided and that the comments received were considered.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 53, 93, 95, 97, 101, 103, 111, 113 and 117, are amended by amending §§ 53.8, 93.11, 93.16, 97.2, 101.4, 101.8, 103.3, 111.8, 111.25, 111.52, 111.64, 117.2 and 117.3, by deleting § 53.12 and by adding §§ 53.12a and 113.12 to read as set forth at 25 Pa.B. 4129 (September 30, 1995); and by amending §§ 95.3 and 111.9 to read as set forth at Annex A.

(*Editor's Note:* The proposal to amend §§ 97.1 and 111.8, included at 25 Pa.B. 4129, has been withdrawn by the Commission.)

(b) The Executive Director will submit this order and Annex A to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

PETER A. COLANGELO,
Executive Director

Annex A

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart C. BOATING

CHAPTER 95. MANUFACTURER INSTALLED EQUIPMENT

§ 95.3. Lights for boats.

(a) *General rule.* A boat from sunset to sunrise and during periods of restricted visibility shall carry and exhibit the lights prescribed by the Inland Navigation Rules Act of 1980 (33 U.S.C.A. §§ 2001—2073). A boat owner may elect to carry and exhibit the lights prescribed by the International Rules in lieu of the Inland Rules but,

in that event, the boat owner shall comply in all respects with those standards. See Appendix A.

(b) *Boats less than 12 meters (39 feet 4.4 inches) in length while underway.*

(1) Motorboats and sailboats using power may use the lighting arrangement in Appendix A, Figure 1, 2 or 3.

(2) Sailboats using sail alone may use the lighting arrangement in Appendix A, Figure 4, 5 or 6.

(3) A motorboat or sailboat using power underway on the Great Lakes may use the lighting arrangement in Appendix A, Figure 7D instead of the arrangements in Appendix A, Figure 1 and 2.

(4) A sailboat using sail alone, less than 7 meters (22 feet 11.6 inches) in length if impractical to display lights in Appendix A, Figure 4, 5 or 6, may display a single white light in time to prevent a collision. See Appendix A, Figure 7C.

(c) *Boats 12 meters (39 feet 4.4 inches) but less than 20 meters (65 feet 7.4 inches) in length while underway.*

(1) Motorboats and sailboats using power may use the lighting arrangements in Appendix A, Figure 1 or 2.

(2) Sailboats using sail alone may use the lighting arrangement in Appendix A, Figure 4, 5 or 6.

(d) *Rowing or paddle boats while underway.* One hand held or permanent all-around white light shall be ready to display in time to prevent a collision. Appendix A, Figure 7, A or B.

(e) *Boat at anchor.* One all-around white light is needed—Appendix A, Figure 7E. Anchor lights are not required when anchored in special anchorage areas. Boats less than 7 meters (23 feet) in length are required to display anchor lights when anchored in or near a channel, when in an anchorage not designated as a special anchorage area, or where other vessels normally navigate.

(f) *Locations of lights.* Lights shall be located and have the characteristics as shown in Appendix A.

(1) The masthead light (forward white light in Appendix A, Figures 1, 2 and 7D) shall be at least 1 meter (3 feet 3.4 inches) higher than the colored lights on a boat less than 12 meters (39 feet 4.4 inches) and at least 2.5 meters (8 feet 2.4 inches) above the gunwale on a boat 12 meters (39 feet 4.4 inches) in length but less than 20 meters (65 feet 7.4 inches) in length. The after masthead light (Appendix A, Figure 1 only), if used, shall be higher than the forward masthead light so as to be seen as a separate, distinct light at a distance of 1,000 meters (1,093 yards 1.8 feet) ahead of the boat.

(2) The all-around white lights shown in Appendix A, Figures 3 and 7D shall be 1 meter (3 feet 3.4 inches) higher than the colored lights.

(3) An anchor light shall be displayed where it can best be seen.

**CHAPTER 111. SPECIAL REGULATIONS
COUNTIES**

§ 111.9. Bucks County.

(a) *Levittown Lake.* The operation of boats powered by internal combustion motors is prohibited.

(b) *Neshaminy Creek.* Boats are limited to slow, minimum height swell speed from the mouth of Neshaminy

Creek to a point approximately 200 yards upstream from the Route 13 Bridge, a distance of approximately 1.5 miles.

(c) *Nockamixon Lake—Nockamixon State Park.* The use of motors in excess of 10 horsepower is prohibited.

(d) *Tyler State Park.* The operation of boats powered by internal combustion motors is prohibited.

(e) *Delaware River.*

(1) Boats are limited to slow minimum height swell speed in the following areas:

(i) Franklin Cove

(ii) From the mouth of Paunacussing Creek, approximately 3,000 feet to a point in the vicinity of Green Hill Road, effective from 12:01 a.m. on the Friday before Memorial Day until midnight on Labor Day.

(2) Boats are limited to slow minimum height swell speed while passing through the following bridge spans:

(i) Route 263 (Stockton-Center) Bridge.

(ii) Route 202 Toll Bridge.

(iii) Route 179 (New Hope-Lambertville) Bridge.

(3) The requirements in this subsection that affect waters of joint jurisdiction with New Jersey are effective May 1, 1997.

(4) The mooring of boats within 100 feet of the marina boat dock in Franklin Cove is prohibited.

**[58 PA. CODE CHS. 61 AND 77]
Reptiles and Amphibians**

The Fish and Boat Commission (Commission) by this order amends Chapters 61 and 77 (relating to seasons, sizes and creel limits; and reptiles and amphibians). The Commission is amending these chapters under the authority of 30 Pa.C.S. (relating to Fish and Boat Code of 1980) (code). The amendments deal with reptiles and amphibians.

A. Effective Date

These amendments will take effect upon publication of this order.

B. Contact Person

For further information on the amendments, contact Dennis Guise, Chief Counsel, (717) 657-4525, P. O. Box 67000, Harrisburg, PA 17106-7000 or Andy Shiels, Herpetology and Endangered Species Coordinator, Bureau of Fisheries, 450 Robinson Lane, Bellefonte, PA 16823, (814) 359-5113.

C. Statutory Authority

These amendments are published under the statutory authority of sections 2102 and 2904 of the code (relating to rules and regulations; and permits for protection and management of particular fish).

D. Purpose and Background

The amendments update the Commission's regulations on reptiles and amphibians to provide for the better protection and management of this form of wildlife.

E. Summary of Changes

The existing reptile and amphibian regulations were in need of revision to provide adequate protection of these resources. The Commission observed increasing interest in collecting certain reptiles and amphibians in this Commonwealth. There were areas regarding regulations pertaining to organized reptile and amphibian hunts that required clarification. Commission staff from the Bureaus of Fisheries and Law Enforcement and members of the Herpetology Advisory Committee discussed and contributed to the drafting of the changes.

The Commission has adopted changes to current reptiles and amphibian regulations to:

(a) Clarify requirements for individual permits to take, catch or kill timber rattlesnakes, § 77.2 (relating to reptile and amphibian hunt permits).

(b) Further define possession issues regarding timber rattlesnakes including the addition of an annual limit, § 77.6 (relating to season and daily possession limits).

(c) Prohibit the sale, trade or barter of native reptile and amphibian parts, § 77.3 (relating to taking and selling reptiles and amphibians under section 2102(b) and (c) of the code).

(d) Prohibit harvest and possession of reptile eggs and provide additional protection for nests, § 77.3.

(e) Place possession limits on frogs, § 77.6.

(f) Place season, daily and possession limits on snapping turtles, § 77.6.

(g) Clarify the prohibition on the importation of timber rattlesnakes, § 77.8 (relating to importation of timber rattlesnakes).

Additionally, the Commission has adopted changes to Pymatuning Reservoir regulations in § 61.3 (relating to Pymatuning Reservoir) to bring them in line with current and proposed Statewide regulations. The Commission's staff solicited comments from the Ohio Department of Natural Resources (DNR), which has shared jurisdiction for this boundary water. The Ohio DNR has no objections to these changes. On final rulemaking, the Commission has corrected a wording error in § 77.3.

F. Paperwork

These amendments will not increase paperwork and will create no new paperwork requirements, except the clarification on the requirement for individual annual timber rattlesnake hunt permits, in § 77.2, will more clearly define who is required to have permits.

G. Fiscal Impact

The amendments will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The amendments impose no new costs on the private sector or the general public.

H. Public Involvement

A notice of proposed rulemaking was published at 25 Pa.B. 4134 (September 30, 1995). The Commission received no written public comments in response to the

notice of proposed rulemaking. Andy Shiels, Herpetology, Endangered Species and Triploid Grass Carp coordinator, reports that he received two telephone calls about the proposed amendments. Both concerned the seasons for snapping turtles.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided and that all comments received were considered.

(3) The amendment of the regulations of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 61 and 77, are amended by amending §§ 61.3, 77.2, 77.6 and 77.8 to read as set forth at 25 Pa.B. 4134; and by amending § 77.3 to read as set forth in Annex A.

(b) The Executive Director shall submit this order, 25 Pa.B. 4134 and Annex A to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order, 25 Pa.B. 4134 and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

PETER A. COLANGELO,
Executive Director

Fiscal Note: Fiscal Note 48A-50 remains valid for the final adoption of the subject regulations.

Annex A

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart B. FISHING

CHAPTER 77. REPTILES AND AMPHIBIANS

§ 77.3. Taking and selling reptiles or amphibians under section 2102(b) and (c) of the code.

(a) A reptile or amphibian may not be taken through the use of chemicals, smoke, explosives, winches, jacks or other devices or materials, or manually that may disrupt, damage or destroy the den or the immediate surroundings thereof. Habitat may not be destroyed in pursuit of a reptile or amphibian.

(b) It is unlawful to take, catch, kill or possess an amphibian or reptile, whether dead or alive, in whole or in parts, including eggs or any lifestage, except common snapping turtles (*Chelydra serpentina*), in this Commonwealth for the purpose of selling the amphibian or reptile or offering it for sale.

(c) It is unlawful for a person to sell, offer for sale, import or export for consideration, trade or barter, or purchase an amphibian or reptile, except common snap-

ping turtles, whether dead or alive, in whole or in parts, including eggs or any lifestage, that was taken, caught or killed in this Commonwealth. It is not a violation of this subsection to sell, offer for sale, import or export for consideration, or purchase an amphibian or reptile taken, caught or killed prior to September 1, 1979.

(d) In prosecutions for violation of this section, it shall be a rebuttable presumption that a species of amphibian or reptile that is native to or occurs within this Commonwealth, was taken, caught or killed in this Common-

wealth, and that a reptile or amphibian offered for sale, sold, or purchased in apparent violation of this section was taken, caught or killed after September 1, 1979.

(e) It is unlawful to damage or disrupt the nest or eggs of a reptile or to gather, take or possess the eggs of any reptile in the natural environment of this Commonwealth.

PROPOSED RULEMAKING

DEPARTMENT OF ENVIRONMENTAL PROTECTION

[25 PA. CODE CHS. 260—270]

Universal Waste Rule—Enforcement Strategy

On April 16, 1996, the Environmental Quality Board (EQB) approved amendments to the hazardous waste regulations known as the Universal Waste Rule as a proposed rulemaking. The rulemaking provides a State counterpart to EPA's Universal Waste Rule, which can be found in 40 CFR Part 273 (relating to standards for universal waste management).

The Department has established an enforcement strategy for the management of waste nickel cadmium and other batteries, certain pesticides and mercury thermostats as outlined in the proposed rulemaking and as allowed in the Federal Universal Waste Rule.

The enforcement strategy encourages recycling while ensuring adequate protection of human health and the environment and provides incentives for industries and organizations to collect the universal wastes for recycling.

The Department will allow the collection, transportation and management of universal wastes as provided in the proposed rulemaking approved by the EQB on April 16, 1996. These proposed regulations will be utilized in

lieu of the Commonwealth's present hazardous waste regulations.

The Department will exercise its discretion not to enforce those provisions of the Commonwealth's hazardous waste regulations in Chapters 260—270 applicable to those wastes classified as universal waste in light of the Department's intention to submit to the Environmental Quality Board the Universal Waste Rule as final rulemaking. Waste covered by the Universal Waste Rule must be shipped to a destination facility which recycles the waste.

Until the Universal Waste regulations are promulgated as final rulemaking, the Department will exercise enforcement discretion only when a regulated party is in compliance with the proposed Universal Waste regulations, referenced in this enforcement strategy. If a regulated party fails to comply with the proposed regulations, the Department reserves the right to take enforcement action for violations of its own existing regulations.

Questions concerning this strategy may be directed to Leon Kuchinski, Chief, Division of Hazardous Waste Management, Bureau of Land Recycling and Waste Management, P. O. Box 8471, Harrisburg, PA 17105-8471, at (717) 787-6239 (Internet e-mail: Kuchinski.Leon@a1.dep.state.pa.us).

STATEMENTS OF POLICY

Title 55—PUBLIC WELFARE

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CH. 6000]

Procedures for Funding Reserved Hospital and Leave Days Under 2176 Waiver

Purpose

The purpose of this statement of policy is to issue revised procedures for funding reserved hospital and leave days under the 2176 waiver.

Background

Procedures on Federal and State reimbursement for days in which individuals receiving waiver services are hospitalized or on a leave status were first issued on August 29, 1985, and revised on May 31, 1988. These procedures were consistent with rules established for MA funded long-term care and were approved by the Health Care Financing Administration (HCFA) as part of the Department's first 5-year waiver renewal which ended June 30, 1995.

In a March 24, 1995, letter to the National Association of State Directors of Developmental Disabilities Services, Inc., the HCFA explained that states are prohibited from making specific therapeutic leave payments for Medicaid-reimbursable home and community-based services. The reason given for this prohibition is that Federal financial participation for therapeutic leave days applies to institutional care, not home and community services.

HCFA regional staff are being instructed to give states a reasonable period of time to bring their program policies into compliance with a reimbursement system where the cost of leave days should be factored into provider rates. HCFA plans to make no attempt to recover past leave days payments for noncomplying states which make timely revisions in their procedures. In coming into compliance with new Federal policy, the Department has been able to maintain its current policy regarding hospital leave and has only needed to change the portion of the policy related to therapeutic leave.

This revised statement of policy is intended to ensure continued Federal financial participation in the cost of maintaining waiver services for individuals who are absent from services for a reasonable period of time due to hospitalization or other legitimate reason. Implementation of this policy should also continue to encourage family visits, excursions with friends or groups, and other forms of leave which support the individual's choices and participation in home and community life.

Discussion

A reserved hospital day is a 24-hour period of inpatient hospitalization during which the provider of service does not provide any waiver funded services for the individual but does reserve a place in the service or program for the individual when he returns from the hospital stay.

A reserved leave day is a 24-hour period in which the individual is absent from a waiver funded service when each of the following criteria are met:

(1) The provider reserves a place in the service or program for the individual when he returns from leave.

(2) The provider assumes fixed staffing or other service costs while the individual is on leave.

(3) The provider does not claim additional Federal and State financial participation for services rendered to someone who takes the place of the individual on leave.

Secretary

Annex A

TITLE 55. PUBLIC WELFARE

PART VIII. MENTAL RETARDATION MANUAL

Subpart A. STATEMENTS OF POLICY

CHAPTER 6000. STATEMENTS OF POLICY

Subchapter P. PROCEDURES FOR FUNDING RESERVED HOSPITAL AND LEAVE DAYS UNDER 2176 WAIVER

Sec.

6000.841. Procedures for funding reserved hospital and leave days under 2176 waiver.

§ 6000.841. Procedures for funding reserved hospital and leave days under 2176 waiver.

(a) The Department will participate in the cost of a reserved hospital or leave day when:

(1) The cost of the reserved hospital or leave day is established as part of the provider's rate pursuant to a vacancy factor in the calculation of the rate. The vacancy factor, in effect, adjusts the provider's rate to account for anticipated costs for reserving the service during the individual's hospitalization or leave. The vacancy factor should be based on historic leave or hospitalization rates, or both, and the characteristics of individuals receiving services. Rates and vacancy factors will continue to be approved by the county mental health and mental retardation program in accordance with its fiscal responsibilities under Chapter 4300 (relating to county mental health and mental retardation fiscal manual).

(2) The cost of the reserved day is reconciled to actual allowable costs and reported to the county mental health/mental retardation program through the provider's annual audit. The county then reports these costs on the appropriate annual income and expenditure report to the Department for waiver eligible services.

(3) The provider is able to maintain a cost effective service. Extremely high rates of leave can jeopardize service effectiveness and reasonableness of costs. The Department expects that the county mental health/mental retardation program will closely monitor vacancy rates in all waiver funded services to assure that providers are rendering services at the frequency and duration that individuals need. The regional program offices will also review service utilization as part of their ongoing waiver reviews to assure cost effectiveness.

(b) A reserved hospital or leave day is a vacancy and as such is not billable or reportable as a day or unit of waiver services to the county mental health/mental retardation program or to the Department.

NOTICES

DELAWARE RIVER BASIN COMMISSION

Commission Meeting and Public Hearing

The Delaware River Basin Commission will hold a public hearing on Wednesday, April 24, 1996. The hearing will be part of the Commission's regular business meeting which is open to the public and scheduled to begin at 10:30 a.m. in the Goddard Conference Room of the Commission's offices at 25 State Police Drive, West Trenton, NJ.

An informal conference among the Commissioners and staff will be held at 9:30 a.m. at the same location and will include a discussion of proposed revisions to the Commission's Administrative Manual—Rules of Practice and Procedure, an update on management of New Jersey's Potomac-Raritan-Magothy Aquifer system and public dialogue.

The subjects of the hearing will be as follows:

Applications for Approval of the Following Projects Under Article 10.3, Article 11 and/or Section 3.8 of the Compact:

1. *Holdover Project: Borough of Berlin D-95-24 CP.* An application for approval of a groundwater withdrawal project to supply up to 27.5 million gallons (mg)/30 days of water to the applicant's distribution system from new well no. 12, and to limit the withdrawal from all wells located within the Delaware River Basin to 27.5 mg/30 days. The project is located in Berlin Township, Camden County, NJ. This hearing continues that of March 26, 1996.

2. *National Utilities, Inc./Hamilton Division D-85-55 CP RENEWAL.* An application for the renewal of a groundwater withdrawal project to supply up to 5.5 mg/30 days of water to the applicant's Hamilton Division from well nos. 1, 3 and 4. Commission approval on August 8, 1990, was limited to 5 years. The applicant requests that the total withdrawal from all wells remain limited to 5.5 mg/30 days. The project is located in Ross Township, Monroe County, PA.

3. *Kraft Foods, Inc. D-92-53 (Revised).* A project to provide a groundwater supply to serve the applicant's food processing plant in the City of Dover, Kent County, Delaware. The applicant will continue to use its existing well nos. 1 and 2 for its food processing operations; existing well no. 3 and the existing cogeneration facility it serves will be sold to First State Power Management, Inc. (see Application D-96-10). The applicant requests that the total combined withdrawal from well nos. 1 and 2 be limited to 7 mg/30 days (0.23 million gallons per day (mgd)).

4. *Monroe Municipal Utilities Authority D-93-9 CP.* An application for approval of a groundwater withdrawal project to supply up to 25.92 mg/30 days of water to that portion of the applicant's distribution system located within the Delaware River Basin from new well nos. 9 and 10, and to limit the withdrawal from all wells located within the Delaware River Basin to 25.92 mg/30 days. The project is located in Monroe Township, Gloucester County, NJ.

5. *Florence Township Water Department D-94-82 CP.* An application for approval of a groundwater withdrawal project to supply up to 21.6 mg/30 days of water to the applicant's distribution system from new well no. 5, and to limit the withdrawal from all wells to 60 mg/30 days. The project is located in Florence Township, Burlington County, NJ.

6. *Whitehall Township Authority D-95-48 CP.* An application for approval of a groundwater withdrawal project to supply up to 8.64 mg/30 days of water to the applicant's distribution system from the new Huber Well, and to retain the existing withdrawal limit from all wells of 73 mg/30 days. The project is located in Whitehall Township, Lehigh County, PA.

7. *Township of Horsham Sewer Authority D-95-64 CP.* A project to modify and expand the applicant's 0.5 mgd Park Creek Sewage Treatment Plant (STP) which is located off Keith Valley Road in Horsham Township, Montgomery County, PA. The STP will be expanded to provide 1.0 mgd of advanced secondary treatment, including ammonia, phosphorus and nitrogen removal. The STP will serve a larger area of Horsham Township and will continue to discharge to Park Creek.

8. *Utility Group Services Corporation D-96-8.* A project to upgrade and expand the applicant's Little Washington Drainage Company STP located in East Brandywine Township, Chester County, PA. The STP serves two residential developments in East Brandywine Township: Culbertson Run and The Timbers. The project entails expansion from 53,100 gallons per day (gpd) to 93,000 gpd in two phases, and the advanced secondary STP will be upgraded from extended aeration to a suspended growth biological nitrogen removal process with tertiary filtration. The existing allowable discharge to Culbertson Run will remain at 53,100 gpd and the expanded average flow of 40,000 gpd will be discharged to two proposed infiltration beds for subsurface disposal.

9. *First State Power Management, Inc. D-96-10.* A project to operate an existing well and cogeneration facility, both to be purchased from Kraft Foods, Inc. (see Application D-92-53 (Revised)). The project is located in the City of Dover, Kent County, DE. The applicant will operate an 18-megawatt steam cycle coal-fired cogeneration plant to provide power to the City of Dover's electric distribution system, and steam to Kraft Foods, Inc. The cogeneration plant site includes well no. 3; the applicant requests the withdrawal be limited to 16 mg/30 days (0.53 mgd).

Documents relating to these items may be examined at the Commission's offices. Preliminary dockets are available to single copies upon request. Please contact George C. Elias concerning docket-related questions. Persons wishing to testify at this hearing are requested to register with the Secretary prior to the hearing.

DEPARTMENT OF COMMUNITY AFFAIRS

State Certified Municipal Training Organizations; Request for Proposals

The Department of Community Affairs (DCA) is announcing that it is seeking alternatives for the delivery of municipal training by private nonprofit and for profit organizations. The Department is accepting proposals which fulfill the requirements outlined in a Request for Proposals (RFP).

Objectives:

Through this RFP, the Department of Community Affairs (Department) seeks to certify a single or multiple organizations as State Certified Municipal Training Organizations (SCMTOs) to administer and deliver municipal training to local government officials in a convenient and affordable manner. There are four major categories of training with subcategories for each one. The categories are: (1) Local Government; (2) Finance; (3) Management; and (4) Community Planning. Successful bidders will administer and provide training outlined in the work statement of the RFP. Areas of service include administration of training, delivery of training, record keeping, relevant course development and periodic meetings with Department staff to review program compliance and evaluations. The Department will work closely with the SCMTOs to coordinate and make available the training schedules through local government associations and other media.

***Road and Street Training, Environment Training, and Community Development Program Compliance are

not a part of this RFP. This training will continue by utilizing the training resources of PENNDOT, DEP, and other sources. However, the Department will continue to monitor and coordinate this training.

Product:

With this RFP, the State will certify as a State Certified Municipal Training Organization those contractors who meet the conditions of the RFP to provide direct training to local government officials. This RFP includes a number of requirements. To obtain the certification, successful contractors must address each one.

Contractors will be responsible for submitting annual performance reports to the Department. These reporting requirements are described in the Work Statement of the RFP.

Contact:

Any individual or organization interested in submitting a proposal should obtain a complete copy of the RFP. The RFP can be obtained by contacting Kim T. Coon, Director, Office of Policy Development, Department of Community Affairs, Harrisburg, PA 17120 at (717) 787-8169.

Deadline:

Proposals must be submitted by Friday, May 31, 1996, on or before 2 p.m.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

Applications received for National Pollutant Discharge Elimination System (NPDES) permit to discharge to State waters.

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of the Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the Regional Office or County Conservation District Office indicated as the

responsible office, within 30-days from the date of this public notice. A copy of the written comments should be sent to the County Conservation District Office. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealable to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construc-

tion activity, are on file and may be inspected at the County Conservation District Office or the Department Regional Office indicated above the application.

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection. Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department of Environmental Protection at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number, identification of the plan or application to which the protest is addressed and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protests. Each writer will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Acknowledgment of Notices of Intent to Remediate

Acknowledgment of Notices of Intent to Remediate submitted to the Department of Environmental Protection under the Land Recycling and Environmental Remediation

Standards Act, act of May 19, 1995 (P. L. 4, No. 1995-2)

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (the act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, contact the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department of Environmental Protection has received the following Notices of Intent to Remediate:

Southcentral Regional Office: Environmental Cleanup Program Manager, One Ararat Boulevard, Harrisburg, PA 17110, (717) 657-4592.

Wendy's Site, Carlisle Borough, **Cumberland County**. Robert Noll, 331 South Hanover Street, Carlisle, PA 17013 has submitted a Notice of Intent to Remediate site groundwater contaminated with BTEX and PHCs. Applicant proposes to remediate the site to meet the background standard. A summary of the Notice of Intent to Remediate was reported to have been published in the *Sentinel* on April 5, 1996.

All Star Chrysler Plymouth, Swatara Township, **Dauphin County**. All Star Chrysler Plymouth, 3400 Paxton Street, Harrisburg, PA 17111 has submitted a Notice of Intent to Remediate site soil contaminated with solvents and TPH. The applicant proposes to remediate the site to meet the Statewide health standard. A summary of the Notice of Intent to Remediate was reported to have been published in the *Harrisburg Patriot* on a date after April 2, 1996.

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (the act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific cleanup standard, in whole or in part, and for sites

determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified below, a municipality may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified below. During this comment period a municipality may request that the person identified below, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of a site. For further information concerning the content of a Notice of Intent to Remediate, please contact the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact Steve Curcio at (814) 332-6816. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department of Environmental Protection has received the following Notice of Intent to Remediate.

Northwest Regional Office: John Fruehstorfer, Environmental Cleanup Program Manager, 230 Chestnut Street, Meadville, PA 16335, (814) 332-6648.

The Borough of Ellwood City/Ellwood City Industrial Park Site, Park Avenue Extension, Ellwood City, PA 16117, **Lawrence County**, has submitted a Notice of Intent to Remediate site soils and groundwater. The site has been found to be contaminated with Heavy Metals, Solvents, PHCs and PAHs. The applicant proposes to remediate the site to meet the Special Industrial Areas standards. A summary of the Notice of Intent to Remediate was reported to have been published in the Ellwood City Ledger on March 30, 1996.

Public Notice of Proposed Consent Decrees

Oliver Site
Waterford Township, Erie County

Under section 1113 of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.1113—6020.1304), notice is hereby provided that the Department of Environmental Protection (Department) has entered into two Consent Decrees concerning settlement of the Department's Complaint against General Electric Company (GE) and GAF Building Materials Corporation (GAF). The Department's Complaint concerns the investigation and cleanup of the Oliver Site in Erie County, PA. The Department's Complaint against GE and GAF is filed in the United States District Court for the Western District of Pennsylvania at the Federal Courthouse in Erie, PA.

In the past, wastes containing hazardous substances were disposed at the Oliver Site, and these hazardous substances have contaminated the soil, surface water, groundwater and sediments at the Site. The Department has incurred approximately \$1 million in past response costs, and estimates that it will cost approximately \$3 million to clean up the Oliver Site.

The Department has entered into a settlement with GE whereby GE will, among other things, pay \$920,000 to the Hazardous Sites Cleanup Fund and will design and construct a water service for the residences with drinking water that is or could be affected by the hazardous substances at the Oliver Site. The specifics of this settlement are set forth in the Consent Decree for the settlement between the Department and GE.

The Department has also entered into a de minimis settlement with GAF whereby GAF will pay \$28,550 to the Hazardous Sites Cleanup Fund. This de minimis settlement is based upon the Department's determination that the amount of hazardous substances contributed by GAF is minimal compared to the amount of the other hazardous substances at the Oliver Site; the toxic or other hazardous effects of these hazardous substances are minimal compared to the effects of the other hazardous substances at the Oliver Site; these hazardous substances have not contaminated the groundwater at the Oliver Site; and these hazardous substances have caused and will cause only a minor portion of the response costs at the Oliver Site. The specifics of this settlement are set forth in the Consent Decree for the settlement between the Department and GAF.

The Department will receive and consider comments relating to these Consent Decrees for 60 days from the date of this public notice. The Department may withdraw its consent to the settlements with GE and GAF if the comments concerning the Consent Decrees disclose facts or considerations which indicate that the settlements are inappropriate, inadequate or not in the public interest. The Department's settlements with GE and GAF shall become final upon the filing of the Department's responses to any significant comments to the Consent Decrees.

Copies of the Consent Decrees are available for inspection at the Department's office at 230 Chestnut Street, Meadville, PA and at the United States District Court for the Western District of Pennsylvania (Erie). Comments may be submitted, in writing, to Edward Orris, Project Manager, Department of Environmental Protection, Hazardous Sites Cleanup, 230 Chestnut Street, Meadville, PA 16335-3481. Further information may be obtained by contacting Edward Orris at (814) 332-6648. TDD users may contact the Department through the Pennsylvania Relay Service at 1 (800) 654-5984.

Hazardous and Residual Waste and Plan Approval Action

Proposed action on an application for a permit under the Solid Waste Management Act (P. L. 380, No. 97) (35 P. S. §§ 6018.101—6018.1003) and regulations to operate a hazardous and residual waste storage and treatment facility and Plan Approval under 25 Pa. Code § 127.44 and the Air Pollution Control Act to construct four rotary kilns and associated air pollution control equipment.

The public hearing originally scheduled for April 2, 1996, at 7 p.m. at the Highland Middle School, 402 Shenango Road, Chippewa Township, PA to solicit testimony on the actions noted above for the Envirotrol Darlington Township facility has been rescheduled for April 25, 1996 at the same location and same time. The comment period has also been extended from April 24, 1996, to May 10, 1996.

Notice of Plan Approval Application Minor Source

The following stationary sources have filed a request for a plan approval with the Department of Environmental Protection (DEP), Bureau of Air Quality. Persons wishing to file protests or comments on the proposed plan approval have 30 days to submit the protests or comments to the Regional Office at the address listed below. Interested persons may also request that a hearing be held concerning the plan approval application by filing a request with the Regional Office stating the reason for the request.

The Department will evaluate and consider all protests and comments received. The Department will, where appropriate, modify the proposed plan approval based on the protests and comments received.

The final plan approval will contain terms and conditions to ensure that the source is constructed and operated in compliance with the Department's regulations contained in 25 Pa. Code Chapters 121 through 143 and the requirements of the Federal Clean Air Act. A notice of the Department's final decision on the proposed plan

approval will be published in the *Pennsylvania Bulletin*. Air contaminants emitted from these sources are less than the amounts that would trigger major new source review requirements. For additional information on the following applications, contact Devendra Verma, Engineering Services Chief, (814) 332-6940.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection. A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. Such NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manga-

nese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chs. 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor, application number, a brief summary of the issues to be raised by the requestor at the conference and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewater into the surface waters of this Commonwealth. The Department of Environmental Protection (DEP) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management, and total residual chlorine control (TRC). Any major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Operations indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Managers will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on DEP's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

Plan approval granted under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

Regional Office: Water Management Program Manager, Southcentral Region, One Ararat Boulevard, Harrisburg, PA 17110.

Location: Mount Union Borough, Huntingdon County, Nine West Market St., Mount Union, PA 17066. The approved plan provided for construction of a 1.65 mgd wastewater treatment facility to replace an existing, hydraulically overloaded plant. This regional facility will provide treatment capacity to Shirley Township, Kistler Borough, Wayne Township and Newton-Hamilton Borough. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES permits or WQM permits must be obtained in the name of the municipality or authority.

Location: King Township, **Bedford County**, R. D. 1, Box 174, Osterburg, PA 16667. The approved plan provided for construction of a pump station, collection system and interceptor sewer to provide public sewer service to the Osterburg and Imler sections of the Township. Treatment will be provided by the Chestnut Ridge Joint Sewer Authority. The Weyant area is scheduled for service in 10 years. Weyant and the remainder of the township will employ an on-lot sewage disposal system management program. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES permits or WQM permits must be obtained in the name of the municipality or authority.

Location: Bern Township, **Berks County**, R. D. 9, Box 9276, Reading, PA 19605. The approved plan provided for development driven construction of a pump station, collection system, and an interceptor sewer to serve sewer area one. This area will be tributary to an enlarged Leesport wastewater treatment facility. Sewer area two is the West Shore and industrial park. A pump station and collection system will be constructed tributary to the existing airport wastewater treatment facility. Area three surrounds the existing county wastewater treatment facility. Collection system construction will be developer driven in this area. A Well Drillers Ordinance and an on-lot disposal system Management Ordinance will address the remainder of the Township. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES permits or WQM permits must be obtained in the name of the municipality or authority.

Northeast Regional Office: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, telephone (717) 826-2553.

Location: Orchard Heights Park, Damascus Township, **Wayne County**.

Project Description: This project proposes a Spray Irrigation, Small Flow Treatment Facility (SFTF) to correct two existing on-lot sewage disposal systems that are currently malfunctioning. Orchard Heights Park contains 33 units located on a 29 acre tract of land. The SFTF will be located on the adjoining 14 acre site. Five mobile home units will be removed from the malfunctioning on-lot systems and will provide the 2,000 gpd wastewater flow for the SFTF. In conjunction with repairs to be provided for one of the existing elevated sand mounds, the sewage system malfunctions inherent to this park should be eliminated.

The property owner will be responsible for the operation, maintenance and repair of the SFTF. In addition, a Part II Water Quality Management Permit will be required.

This project is located on the east side of S. R. 1004, 1,300 feet south of the intersection with T-529 in Damascus Township, Wayne County, PA.

Project Description: The approved plan provides for an upgrade and expansion of the sewage treatment plant

servicing the sewage disposal needs of the City of Erie, the Borough of Wesleyville and the Townships of Lawrence Park, Harborcreek, Millcreek and Fairview.

Construction of an overflow retention facility, a relief outfall, headworks expansion and other facilities will enable the plant to properly treat existing and future wet weather flows up to 168 mgd. In addition, de-chlorination facilities will be provided to meet total residual chlorine limits.

The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal.

Final Reports

The following final reports were submitted to the Department of Environmental Protection under the Land Recycling and Environmental Remediation Standards Act, the act of May 19, 1995 (P. L. 4, No. 2).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (the act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, please contact the Environmental Cleanup Program in the Department of Environmental Protection Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following final report:

Southeast Regional Office: Environmental Cleanup Program Manager; Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, telephone (610) 832-5950.

Gabe Staino Chrysler-Plymouth (Leach Field), Birmingham Township, **Delaware County**. Pamela K. Pidge, Dames & Moore, 2325 Maryland Rd., Willow Grove, PA 19090, has submitted a Final Report concerning remediation of site soils contaminated with BTEX and petroleum hydrocarbons. The report is intended to document remediation of the site to meet the Statewide health standard.

Preferred Real Estate Investments, Plymouth Township, **Montgomery County**. Gary Brown and James Burnett-Herkes, RT Environmental Services, Inc., 215 W. Church Rd., King of Prussia, PA 19406, have submitted a Final Report concerning remediation of site soils contaminated with lead. The report is intended to document remediation of the site to meet the Statewide health standard.

Notice of Settlements Under the Hazardous Sites Cleanup Act

UGI Columbia Gas Site
Borough of Columbia, Lancaster County

The Department of Environmental Protection (Department) under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1304) has entered into a consent order and agreement with

Pennsylvania Power & Light Company (PP&L) regarding the UGI Columbia Gas site in the Borough of Columbia, Lancaster County. The site housed a former gas manufacturing facility that operated from approximately 1853 to 1948. The site is not owned by PP&L, but has been owned by a number of entities during the plant's operation and the years subsequent to its closing.

Operations of the manufactured gas facility resulted in contamination of the site, particularly in the areas of the relief holder and gas holders. The gas holder was located near the center of the property and consisted of a 40-foot diameter structure that was a brick-lined cylindrical pit with a concrete base. Site characterization revealed that the pit contains tar coated material to a depth of approximately 17 feet and that the concrete base is fractured.

The relief holder was constructed of riveted steel plates and was contained within a pit that was approximately 26 feet deep. Tars were stored inside during the plant's operation. Once the plant operations ceased, the pit was filled with refuse, construction debris, and fill. Assessment activities at the site indicated that approximately 800 cubic yards of Susquehanna River sediment southwest of the site were also contaminated with coal tar.

On May 31, 1994, under the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C.A. §§ 9601 et seq., and the National Oil and Hazardous Substances Contingency Plan, 40 C.F.R. Part 300, the United States Environmental Protection Agency (EPA) placed the site on the National Priority List. EPA also authorized the Department to address the gas and relief holders and to further assess the site and the contaminated river sediments. On July 17, 1995, the Department issued, pursuant to HSCA, a Statement of Decision (SOD) for the site. In its SOD, the Department determined there was a need to conduct interim actions to address the risks posed by the gas and relief holders. In order to address these risks, the Department determined there was a need to remove contaminated material from the gas and relief holders and selected the processes to accomplish this goal.

On April 4, 1996, the Department and PP&L entered into a consent order and agreement whereby PP&L agreed to implement the interim actions, as selected by the Department in its SOD, to conduct a remedial investigation and feasibility study of the site, and to assess further the river sediment contamination and means for addressing it. PP&L also agreed to reimburse the Department \$22,980.80 for the past costs expended by the Department at the site and to reimburse the Department for its future costs to implement the consent order and agreement.

This notice is provided under section 1113 of HSCA (35 P. S. § 6020.1113). The Department will respond to any significant written comments before the consent order and agreement becomes final. The consent order and agreement that contains the specific terms of the settlement is available for public review and comment. The consent order and agreement can be examined from 8 a.m. to 4 p.m. at the Department's office at One Ararat Boulevard, Harrisburg, PA 17110, by contacting Barbara Faletti at (717) 657-4592. A public comment period on the proposed consent decree will extend for 60 days from today's date. Persons may submit written comments regarding the proposed consent decree to the Department by June 19, 1996, by submitting them to Barbara Faletti at the above address.

Final Submission Date for Municipal Recycling Program Performance Grant Applications under the Municipal Waste Planning, Recycling and Waste Reduction Act

The Department of Environmental Protection hereby announces a request for applications from municipalities for grant assistance for recycling programs under the Municipal Waste Planning, Recycling and Waste Reduction Act (35 P. S. §§ 4000.101—4000.1904). Municipalities include counties, cities, boroughs, incorporated towns, townships and home rule municipalities.

Recycling Performance Grant funds will be awarded to municipalities based upon the weight of source separated recyclable materials identified in section 1501 of act 101 recovered by municipal recycling programs, and the population of the municipality. For this application period, municipalities awarded grants will receive a base award of \$5 for each ton of eligible recyclable materials marketed, and \$1 per ton for each percentage of waste diverted from disposal. The weight of eligible materials allowable from non-residential (commercial and institutional) sources will be limited to no more than the weight of eligible materials from residential sources. The Department will not award grants calculated to be less than \$10.

Eligible materials include: clear glass, colored glass, aluminum, steel and bimetallic cans, high-grade office paper, newsprint, corrugated paper, other marketable grades of paper, and plastics. Grants will be awarded only for properly documented, eligible materials that were actually marketed on or after January 1, 1995, to and including December 31, 1995. Grant funds will not be awarded for residues, materials not listed as eligible, or any materials which cannot be documented as being recycled into a new product or use.

Documentation to support all claims that eligible recyclable materials were generated within the municipality and marketed must be retained at the offices of the municipal applicant for 4 years from the end date of the year the application covers. The supporting documentation is not required to be submitted with the application.

Acceptable Supporting Documentation. Weight slips or receipts verifying that the materials were marketed are required as supporting documentation for the grant application. The documentation must be on the letterhead of the market or on forms provided by the market, must bear a signature of an authorized representative verifying that the materials were received, and must identify the type and weight of the materials received. Estimates of weight will not be accepted except in cases where: 1) the material is packaged in uniform bales and the average weight of a bale can be demonstrated, or, 2) when multiple generators contribute to a known quantity of marketed material and the hauler or market estimates the quantities allocatable to any individual establishment, or lists each establishment, and verifies the estimate with his/her signature.

Supporting documentation must be available for review by representatives of the Department of Environmental Protection, the Office of the Attorney General and the Office of the Treasurer. Although the supporting documentation is not required to be submitted with the grant application, any documentation provided must conform to the above requirements or the materials claimed will not be credited toward the grant.

The deadline for submission of applications is 3 p.m., October 4, 1996. Applications must be on the revised

forms provided by the Department. Applications received by the Department after that date will not be considered. All grant awards are predicated on the receipt of recycling fees required by sections 701 and 702 of Act 101, and the availability of monies in the Recycling Fund.

Municipalities wishing to file an application should contact their County Recycling Coordinator or the Department at the address which follows. Inquiries concerning this notice should be directed to Carl Hursh, Chief, Recycling and Markets, Department of Environmental Protection, Bureau of Land Recycling and Waste Management, Rachel Carson State Office Building, P. O. Box 8472, Harrisburg, PA 17105-8472.

The Department of Environmental Protection has taken the following actions on previously received permit applications, requests for Environmental Assessment approval, and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and sections 5 and 402 of the act of June 22, 1937 (P. L. 1987, No. 394) (35 P. S. §§ 691.5 and 691.402) and notice of final action for certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)) (Note: Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description).

The project will include 1) rehabilitation and maintenance of an existing intake structure in the South Channel of the Schuylkill River south of Barbadoes Island; 2) installation and maintenance of two parallel 36 inch diameter, 1,500 feet long raw water intake mains from the existing intake structure across the north and south channels of the Schuylkill River, wetlands and Barbadoes Island to the Norristown Water Treatment Plant. Additionally two 8-inch diameter chemical feed conduits will be installed in the common pipe line trench; 3) removal of most of the existing treatment facilities within 100 year floodplain of the Schuylkill River, between Washington Street and the Schuylkill River just east of the Route 202 overpass; 4) construction and maintenance of stormwater outfall channel in wetlands; 5) construction of a temporary access road along the shore line of the River and Barbadoes Island. The submerged Land License Agreement has been approved for the project.

E46-714. Encroachment. **Dougherty Brothers**, 631 Penn Avenue, Ardsley, PA 19038. To relocate an unnamed tributary to Towamencin Creek (TSF) and to place fill material in 0.01 acre of an adjacent wetlands (PFOIA) associated with the construction of a road crossing which will provide an access to the proposed Dougherty Brothers 7-lot residential subdivision. This stream relocation consists of the modification and an extension of an existing 60-foot long, 24-inch diameter C.M.P. culvert which conveys this tributary beneath the intersection of Morris Road and the proposed Wentz Church Way. Work will include the removal of 54 linear feet of the existing culvert, and replacement with an approximately 225 foot long 36-inch diameter C.P.P. stream enclosure, having a concrete endwall and a 15-foot long rip-rap energy dissipater at the end. This site is located near the intersection of Wentz Church Road (T398) and Morris Road (T362) (Lansdale, PA Quadrangle N: 17.9 inches; W: 13.2 inches) in Towamencin Township, **Montgomery County**.

E51-144. Encroachment. **Colonial Pipeline Company**, 945 East Paces Ferry Road, P. O. Box 18855, Atlanta, GA 31126-0855. To temporarily disturb 0.34 acre of Exceptional Value (EV), Palustrine open water/emergent mixed wetlands during the construction of one 10-inch underground pipeline that carries refined petroleum products. Temporarily disturbed wetlands will be restored to preexisting conditions following construction. The project is located at the Philadelphia International Airport, approximately 500 feet east of Hog Island Road, just east of the Enterprise Avenue Landfill (Philadelphia,

PA-NJ Quadrangle N: 1.25 inches; W: 12.0 inches) in the City and **County of Philadelphia**.

E15-507. Encroachment. **Chester County Commissioners**, Chester County Courthouse, 2nd and High Streets, West Chester, PA 19380. To rehabilitate and maintain an existing single span covered timber bridge by performing the following activities:

1. Replacing the deteriorated floor system with steel I-beams including concrete beam seats and an open steel grid to support the timber plank wearing surface.
2. Replacing siding and roofing for the bridge shed.
3. Repairing and repointing the stone masonry abutments and wingwalls.
4. Placement of riprap protection at the right abutment.

This covered bridge (County Bridge No. 28) has a clear span of 102 feet and a minimal underclearance of 12.67 feet, and is located across Big Elk Creek on Kings Row Road (Oxford, PA Quadrangle N: 1.15 inches; W: 5.25 inches) in New London and Elk Townships, **Chester County**. This permit was issued under section 105.13(e) "Small Projects". This permit also includes 401 Water Quality Certification.

E15-494. Encroachment. **Ardmore Associates, II**, 1235 Westlakes Drive, Suite 425, Berwyn, PA 19312. To construct and maintain an 8-foot x 4-foot precast reinforced concrete twin box culvert, 30 feet in length, in and along an unnamed tributary to Valley Creek (Exceptional Value Watershed) to provide an access road to a proposed inspection station. This project also includes the installation of an 8-inch diameter P.V.C. sanitary sewer pipe across and under the bed of this tributary. The site is located on the east side of Lee Boulevard, near Spring Mill Road in the Main Line Industrial Park (Malvern, PA Quadrangle N: 12.5 inches; W: 7.3 inches) located in East Whiteland Township, **Chester County**.

Northeast Regional Office: Regional Soils and Waterways Section, 2 Public Square, Wilkes-Barre, PA 18711-0790, telephone (717) 826-5485.

E39-295. Encroachment. **Pennsylvania Power and Light Company**, 2 North Ninth Street, Allentown, PA 18101-1179. To temporarily place fill in 0.12 acre of wetlands to utilize an existing access for the upgrade of an existing electric transmission line. The project is located approximately 0.28 mile north east of S. R. 2029 and S. R. 2027 (East Greenville, PA Quadrangle N: 14.8 inches; W: 0.6 inch) in Lower Milford Township, **Lehigh County**.

E39-303. Encroachment. **City of Allentown**, 435 Hamilton Street, Allentown, PA 18101-1699. To remove the existing structure and to construct and maintain a 21-inch and a 24-inch diameter R.C.P. stormwater outfall structure along the left bank of Cedar Creek. The project is located immediately south of the intersection of Turner Street and Parkway Boulevard (Allentown West, PA Quadrangle N: 17.1 inches; W: 1.0 inch) in the City of Allentown, **Lehigh County**.

Northwest Regional Office: Soils and Waterways Section, 230 Chestnut Street, Meadville, PA 16335-3481, telephone (814) 332-6942.

Environmental Assessment Approvals and Action on 401 Certifications

EA10-005NW. Environmental assessment. **U. S. Department of Natural Resource Conservation Service**, 602 Evans City Road, Suite 102, Butler, PA 16001.

To redirect a mine discharge into a created settling pond (approximately 0.5 acre in size) and then into a created wetland (approximately 0.25 acre in size) to allow for mine discharge treatment prior to discharge into Slippery Rock Creek (CWF). Project is located in State Game Lands No. 95 approximately 2,000 feet west of the Village of Argentine (Hilliards, PA Quadrangle N: 17.5 inches; W: 10.0 inches) located in Washington Township, **Butler County**.

Notice of Final Action on Request for Certification under Section 401 of the Federal Water Pollution Control Act

Except as otherwise noted below, the Department of Environmental Protection, under § 401(a) of the Federal Clean Water Act (33 U.S.C.A. § 1341(a)) certifies that the construction and operation herein described will comply with the applicable provisions of sections 301—303, 306 and 307 of that act, and that the construction will not violate applicable Federal and State water quality standards, provided the following requirements are met:

Final or proposed action on certain other Certification requests for projects which require both a Dam Safety and Encroachments Permit and either a U. S. Army Corps of Engineers individual permit or a Nationwide permit 14, 18 or 26 will be published with Actions of Applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27).

These actions of the Department may be appealable to the Environmental Hearing Board, 101 South Second Street, Suites 3-5, Harrisburg, PA 17101 (717) 787-3483, by any aggrieved person under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law). Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the regulations governing practice and procedure before the Board may be obtained from the Board. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Regional Office: Regional Manager, Water Management, Northwest Region, 230 Chestnut Street, Meadville, PA 16335.

Certification Request Initiated By: U. S. Army Corps of Engineers, Buffalo District.

Date of Initial Pennsylvania Bulletin Notice: February 24, 1996.

Location: Erie Harbor, Erie County.

Project Description: The U. S. Army Corps of Engineers has requested a Section 401 State Water Quality Certification for the discharge of dredged material from the lakeward portion of the Federal navigation channels of Erie Harbor at the existing open-lake site. An estimated total of 125,000 cubic yards of material will be dredged and discharged. The purpose of the project is to maintain sufficient depth for deep-draft commercial vessels.

Final Action on Request: Certification granted.

Actions taken on applications filed under the act of June 24, 1939 (P. L. 842, No. 365) (32 P. S. §§ 631—641) relating to the acquisition of rights to divert waters of this Commonwealth.

Southwest Regional Office: Regional Manager, Water Supply and Community Health, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, telephone (412) 442-4000.

Permits issued on March 21, 1996.

WA 65-854A. Water allocation. Ligonier Township Supervisors, Westmoreland County, PA. The right to purchase a maximum of 100,000 gallons per day (gpd) of water on an emergency basis, from the Ligonier Township Municipal Authority, Ligonier Township, PA.

Availability of Technical Guidance

DEP is committed to making its technical guidance documents and other useful publications available to the public. DEP publishes a list of its technical guidance documents in its Technical Guidance Document Inventory twice a year. The most recent Inventory was published December 22, 1995; the next one will be published in June 1996. The Inventory contains policies, documents, handbooks and guidance. In between the publication of the Inventory, DEP will publish notices of 1) intent to make changes, 2) draft changes and 3) final changes in the *UPDATE* (DEP's weekly newsletter available on DEP's World Wide Web site) and in the *Pennsylvania Bulletin*.

Persons can order a copy of the Inventory or a copy of any of the documents listed on the Inventory by calling Elwyn Inc. (the printer) at 1 (800) 804-4020 if they are calling within Pennsylvania or (610) 891-2183 if they are calling outside of Pennsylvania. Elwyn should send the materials within 10 days.

Persons who have any questions should contact Elwyn at the above numbers or ask Nina Huizinga of DEP at (717) 783-8727 (e-mail at huizinga.nina@a1.dep.state.pa.us).

The following changes in technical guidance documents appeared in the February 2, 1996, issue of *UPDATE*.

Final Technical Guidance

DEP ID: 383-0810-201 TITLE: Summary of Key Requirements for Transient Noncommunity Water Systems. DESCRIPTION: This is a new document from the Safe Drinking Water Program of DEP's Bureau of Water Supply and Community Health. The title gives the content of the document. Persons who have questions should contact Joe Hoffman at (717) 787-5017.

Updates to Existing Technical Guidance

DEP ID: 012-0830-005 TITLE: Data Standards for Names and Addresses. DESCRIPTION: This document, used Department-wide, provides DEP staff with standard procedures for collection and input of name and address data elements into Departmental database systems. This document was listed *incorrectly* on the December 22, 1995, Inventory as DEP ID: 012-0100-005, location: Vol. 01, Tab 07. The identification number and the location are being changed. The *correct* information is DEP ID: 012-0830-005, location Vol. 01, Tab 10. There have been no substantive changes. Direct questions about the document to Kimberly Nelson at (717) 787-5027.

DEP ID: 383-5500-213 TITLE: Small Water Systems Regionalization Grant Program—Guidelines and Application Procedures. DESCRIPTION: This is simply an up-

date and not a substantive change to an already existing document from the Safe Drinking Water Program. The document is one of several that are included in the Program's Financial Assistance Management Binder (DEP ID: 383-0400-113). The binder is located at Vol. 27, Tab 2. DEP provides these grants to help small water systems become and/or remain viable through a regionalized approach to water service. Persons who have questions should contact Joe Hoffman at (717) 787-5017.

DEP ID: 383-3120-101 LOCATION: Vol. 27, Tab 2 TITLE: Surveillance Strategy and Implementation Guidelines. DESCRIPTION: This revision to the Safe Drinking Water Program's surveillance strategy adds an additional section and appendix to the already existing document. Persons who have questions should contact Joe Hoffman at (717) 787-5017.

DEP ID: 400-5900-115 LOCATION: Vol. 08, Tab 17 TITLE: Confined Space Safety Policy. DESCRIPTION: This is a revision of an existing document used by DEP's Field Operations, which defines and describes confined spaces and their hazards. It forbids entry by DEP personnel into confined spaces for routine inspection duties and requires safeguards when working near confined spaces. Persons who have questions should contact Kris Lutz at (717) 787-5028.

The following changes in technical guidance documents appeared in the March 29, 1996 issue of *UPDATE*.

Final Technical Guidance

DEP ID: 258-2182-773 TITLE: Policy and Procedure Establishing Criteria for Use of Uncontaminated Soils, Rock, Stone, Unused Brick and Block, Concrete, and Used Asphalt as Clean Fill. DESCRIPTION: This policy establishes clean fill criteria for the materials mentioned in the title. CONTACT: Larry Holley at (717) 787-9870.

DEP ID: 323-0200-002 TITLE: Pennsylvania Wetland Replacement Project. DESCRIPTION: This project provides a mechanism by which the Department will assist permit applicants in meeting the wetland replacement or mitigation requirements associated with Chapter 105 Water Obstruction and Encroachment Permits. CONTACT: Mike Stover at (717) 787-6826.

DEP ID: 561-2100-703 TITLE: Permit Inventory—Site Status Codes. DESCRIPTION: The purpose of this guidance is to establish a uniform method of assigning LUMIS permit inventory site status codes. This document has been revised to add two status code selections. CONTACT: Dorothy Shellehamer at (717) 787-5103.

Correction to Final Copy of Technical Guidance

DEP ID: 563-2112-610 TITLE: Determining Eligibility of Pre-existing Pollutational Discharges. DESCRIPTION: The purpose of this guidance is to identify and explain conditions that must be met to qualify for Subchapter F and G authorization. CORRECTION: The ID number was *incorrectly* listed as 563-2112-209. The correct ID number is 563-2112-610. The *correct* location for this document is at Volume 12, Tab 78A.

DEP ID: 263-2112-611 TITLE: Permitting Pre-Existing Pollution Discharges under Subchapter F and Subchapter G. DESCRIPTION: The purpose of this guidance is to establish the methods and procedures for performing BPJ analysis. CORRECTION: The *correct* location for this document is at Volume 12, Tab 78B.

DEP ID: 563-2504-612 TITLE: Monitoring and Compliance and Bond Release for Subchapter F or G Permits. CORRECTION: The *correct* location for this document is at Volume 12, Tab 78C.

Section 303(d) List of Waters; Notice of Availability

The Department of Environmental Protection announces that Pennsylvania's section 303(d) list of waters which requires the development of Total Maximum Daily Loads (TMDLs) is available for review and comment. The list was developed by the Department to comply with

section 303(d) of the Federal Clean Water Act and 40 CFR Part 130. TMDLs are the total amounts of point and nonpoint source pollutants that may be discharged into a water body that will still meet water quality standards. For point sources, the TMDLs are used as a basis for water quality-based limits in NPDES permits. For nonpoint sources, watershed management plans are developed which identify the Best Management Practices or other measures necessary to improve water quality with the goal of meeting water quality standards. A water body need not be listed if a TMDL has already been established. In addition, a water body that will meet water quality standards after the implementation of technology-based requirements need not be listed.

The Department developed the list using existing and readily available information regarding waste sources, water quality, water uses and water quality criteria. It considered the 16 screening categories of information included in EPA guidance in developing the list. The list considered compliance with water quality criteria for conventional, nonconventional and toxic pollutants. The waters included on the list are those identified through the Department's Watershed Permitting Process, Water Quality Assessment Program (including the section 305(b) Water Quality Inventory Report) and the Department's Nonpoint Source Program. The Department expects to develop TMDLs for some of the listed waters over the next 2 years.

Copies of the 303(d) list may be obtained from the Bureau of Water Quality Management, Division of Assessment and Standards, 10th Floor—Rachel Carson State Office Building, P. O. Box 8465, Harrisburg, PA 17105-8465, (717) 787-9637 or through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD).

Persons wishing to comment on the list may do so in writing to the Bureau of Water Quality Management at the above address or by Internet E-Mail (Sowers.Christine@a1.dep.state.pa.us) by no later than May 20, 1996. Comments received by facsimile will not be accepted. If sufficient interest is generated, a public hearing may be held at an appropriate location.

DEPARTMENT OF LABOR AND INDUSTRY

Office of Vocational Rehabilitation Improvement and Expansion Grant: Entrepreneur Assistance

The Department of Labor and Industry, Office of Vocational Rehabilitation (OVR), under the Rehabilitation Act of 1973, as amended in 1992, announces that competing applications to improve and expand services to persons with severe disabilities, specifically services providing entrepreneurial assistance to such persons served by the New Castle OVR District Office, will be accepted. This competition is authorized under section 120 of the Rehabilitation Act of 1973, as amended.

Funding for this competition is under the auspice of the Pennsylvania State Board of Vocational Rehabilitation and the Office of Vocational Rehabilitation, which will serve as administrator and fiscal agent for the grant awarded under this competition. Applications will be written to accomplish the following area of emphasis:

To establish a rehabilitation-based entrepreneur assistance service covering the counties served by the New Castle District Office, PA Office of Vocational Rehabilitation. Assistance will be available to entrepreneurs/prospective entrepreneurs with disabilities and will include technical guidance and support as well as financial assistance. The entrepreneur assistance service will combine OVR's expertise with that of the business community. That expertise coupled with low-interest financial assistance will assure that persons with disabilities have adequate information to consider self-employment, technical support to pursue that choice, and financing sufficient to provide a fiscal base for their entrepreneurial venture.

Service Information

The goal of this competition is to improve and expand services to persons with the most severe disabilities, specifically services providing technical and financial assistance to entrepreneurs/prospective entrepreneurs with severe disabilities enabling them to consider and pursue careers in self-employment. Services provided through this competition are limited to the counties served by the New Castle District Office, PA Office of Vocational Rehabilitation. Those counties include Armstrong, Beaver, Butler and Lawrence Counties.

This competition will result in one award to accomplish the following objectives:

—To provide an easily accessible source of technical guidance, support and education for use by persons with disabilities engaged in starting or operating their own business.

—To provide a low-cost source of initial and/or venture financing to persons with disabilities. Financial assistance to entrepreneurs may underwrite equipment or other capital acquisitions, support overhead costs, including personnel expenses; business expansion, or other costs as determined allowable and appropriate by OVR. Financing so provided will be repaid, with interest, by the entrepreneur according to terms set forth in the entrepreneur's loan agreement with the grantee.

—To provide a resource for on-going technical assistance for entrepreneurs including evaluation of progress, modification of business plans, and reference information related to market, financing and business management.

Application Information

Applications may be submitted from management, financial, educational, and/or rehabilitation professionals located in the following areas: Allegheny, Armstrong, Beaver, Butler and Lawrence Counties. Areas to be served as a result of this RFP are Armstrong, Beaver, Butler and Lawrence Counties only.

This competition will result in award of one multiyear grant made for a period not to exceed 36 months, but subject to review and renewal at 12-month intervals. Renewal will be contingent upon satisfactory project performance, continuing need for the project, and availability of funds.

Applications received by close of business 5 p.m., Monday, June 3, 1996, which are complete and conform to established specifications will be accepted for review. Applications submitted after this date and time will be ineligible for consideration. Applications will be evaluated by a panel of reviewers convened for that purpose.

The effective dates for the first year of the contract will be September 30, 1996—September 29, 1997. Final

awards made through this competition are subject to the approval of the Executive Director, Pennsylvania Office of Vocational Rehabilitation.

Eligible applicants include private not-for-profit organizations, for-profit entities and public organizations/institutions. Organizations or individuals demonstrating compliance with the terms of this announcement may apply to participate in this competition.

A complete application package which includes more detailed information is available by calling Raymond L. Walker at (717) 787-5735 (TDD: 783-8917) or writing to Office of Vocational Rehabilitation, Facilities and Grants Management Section, 1320 Labor and Industry Building, Seventh and Forster Streets, Harrisburg, PA 17120, FAX: (717) 783-5221, Attention: Raymond L. Walker.

Preproposal Conference

A preproposal conference to deal specifically with technical questions regarding applications will be held for applicants on Wednesday, May 1, 1996, starting at 1 p.m. at the New Castle District Office, PA Office of Vocational Rehabilitation, 100 Margaret Street, New Castle, PA 16101. For directions please call the New Castle OVR District Office at 1 (800) 442-6379 (Voice/TT).

Copies of the application package will also be available at this conference. Persons expecting to attend should advise Raymond L. Walker, no later than 1 week prior to the conference, of any special accommodations that may be required in order for them to fully participate in the preproposal conference.

DEPARTMENT OF TRANSPORTATION

Retention of Engineering Firms

Philadelphia and Bucks Counties Reference No. 08430AG1989

The Department of Transportation will retain an engineering firm to perform final design for the following five projects in Philadelphia and Bucks Counties:

1. S. R. 0013 (Bristol Pike) from the Bucks County Line (the Poquessing Creek) to the Pennsylvania Turnpike ramps in Bensalem and Bristol Townships, Bucks County. This project involves computerized traffic signal system at 15 intersections including: new solid state controllers, interconnect, overhead signal displays and reconstruction of Bristol Pike and Beaver Dam Road/Beaver Street intersection. Approximate construction length is 13.1km (8.17 miles). The estimated construction cost is \$710,000.

2. S. R. 1004 (Torresdale Avenue) from Harbison Avenue to Linden Avenue, in the City of Philadelphia. This project involves computerized traffic signal system at 38 intersections including: new solid state controllers, interconnect, overhead signal displays, relocating signal displays and restriping. Approximate construction length is 6.8km (4.22 miles). The estimated construction cost is \$610,000.

3. S. R. 1007 (Tacony Street) from Bridge Street to Levick Street, and S. R. 0073 (New State Road) from Levick Street to Old State Road, in the City of Philadelphia. This project involves computerized traffic signal system at ten intersections including: solid state controllers, interconnect and actuation of all side streets. Approximate construction length is 3.1km (1.94 miles). The estimated construction cost is \$260,000.

4. S. R. 1015 (Knights Road) from Frankford Avenue to the City of Philadelphia Line (the Poquessing Creek), in the City of Philadelphia; and S. R. 2019 (Knights Road) from the Poquessing Creek to Street Road, in Bensalem Township, Bucks County. This project involves computerized traffic signal system at 15 intersections including: solid state controllers and interconnect. Approximate construction length is 5.4km (3.36 miles). The estimated construction cost is \$260,000.

5. S. R. 1016 (Holme Avenue) from Roosevelt Boulevard to Academy Road, in the City of Philadelphia. This project involves computerized traffic signal system at eight intersections including: solid state controllers and interconnect. Approximate construction length is 3.1km (1.95 miles). The estimated construction cost is \$230,000.

The selected firm will be required to provide the following engineering and design services; surveys; roadway design; pavement design; preparation of cross-sections; soils and geological investigations; erosion and sedimentation control plans; highway lighting design; right-of-way investigation; preparation of traffic control plans, pavement marking and signing; traffic signal design; utility investigation and coordination; coordination with municipal officials and other agencies; preparation of preliminary and final plans, specifications and estimates. The above design documents will be performed in metric (SI) units.

Firms that are currently serving, or are being considered for selection, as the municipal engineer in the municipalities listed in the project description, will not be considered for this assignment. Also, firms that are under contract, or are being considered to provide engineering services to a land developer for a site located along the project, will likewise not be considered for this assignment. Firms should state in the letter of interest that they are not serving in either capacity as a municipal engineer or as a representative of a site developer.

We encourage small firms to submit a letter of interest for this assignment. Special consideration will be given to firms with a total employment less than 50 employees.

Technical questions concerning the requirements for this project should be directed to Harvey S. Knauer, District 6-0, at (610) 964-6537.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

Lackawanna, Luzerne, Pike, Susquehanna, Wayne and Wyoming Counties Reference No. 08430AG1984

In the March 23, 1996 *Pennsylvania Bulletin*, the Department advertisement for this project included the retention of an engineering firm to perform all phases of cultural, historical and archeological work. The Department has re-evaluated the service to be required under this open-end contract and determined that no engineering services are required, therefore, we are advertising the project once again without the requirement for an engineering firm for these services. Any letters of interest submitted previously will be valid submissions, based on conformity to the previous advertisement, and need not be resubmitted.

The Department of Transportation will retain a firm for an open-end contract to perform all phases of Cultural Resource Management and Wetland Identification, and Delineation associated with Department planning, designing and construction of transportation projects throughout District 4-0, that is Lackawanna, Luzerne, Pike, Susquehanna, Wayne and Wyoming Counties.

The area of study may include historic structures and features, historic, and prehistoric archaeology, and wetlands. No engineering services will be required under this open-end contract.

The contract will be for a period of 30 months from the date of execution with projects assigned on an as needed basis. The maximum amount of the open-end contract will be \$750,000.

The Department will establish an order of ranking of a minimum of three firms for the purpose of negotiating an open-end contract based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly

from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Specialized experience and technical competence of firm.
- b. Past record of performance with respect to cost control, work quality, ability to meet schedules and previous experience on open-end contracts. The specific experience of individuals who constitute the firms shall be considered.
- c. Current workload.
- d. Location of consultant in respect to the District.
- e. Available staffing for this assignment.
- f. Relative size of firm to size of projects that may be completed under this contract.

The selected firm will be required to provide all necessary professional historic and archaeological services. They will also be required to provide all necessary professional services for the identification and delineation of wetlands and wetland impacts.

The reports and other written graphic materials to be prepared may include, but not be limited to the following:

Phase I, II and III Archaeology Reports, Historic Structures Survey/Determinations of Eligibility, Criteria of Effects, Section 4(f), Section 2002, Mitigation Plans for Cultural Resources, Memorandums of Agreement, Wetland Delineations, Wetland Mitigation Plans, Pennsylvania Natural Diversity Indexes (PNDI's), Environmental Assessment Forms and Functional Assessments including Wet 2.0.

The format and content of all documents will be consistent with applicable State and Federal regulations and guidelines.

Technical questions concerning the requirements for this project should be directed to Robert J. Horutz, P.E., District 4-0, at (717) 963-4064.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

General Requirements and Information

Firms interested in performing any of the above services are invited to submit letters of interest to: Director, Consultant Selection Committee, Room 1118, Transportation and Safety Building, Harrisburg, PA 17120.

A separate letter of interest and required forms must be submitted for each project for which the applicant wishes to be considered. The letter of interest and required forms must be received within 13 calendar days of this notice. The deadline for receipt of a letter of interest at the above address is 4:30 p.m. of the thirteenth day.

If the project advertisement indicates that the Department will retain an engineering firm, letters of interest will only be accepted from individuals, firms or corporations duly authorized to engage in the practice of engineering. If an individual, firm or corporation not authorized to engage in the practice of engineering desires to submit a letter of interest, said individual, firm or corporation may do so as part of a joint venture with an individual, firm or corporation which is permitted under State law to engage in the practice of engineering.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act), WBEs or combinations thereof. Proposed DBE firms must be certified at the time of submission of the letter of interest. If the selected firm fails to meet the goal established, it shall be required to demonstrate its good faith efforts to attain the goal. Failure to meet the goal and to demonstrate good faith efforts may result in being barred from Department contracts in the future.

Responses are encouraged by small engineering firms, disadvantaged business enterprise engineering firms and other engineering firms who have not previously performed work for the Department of Transportation.

Each letter of interest must include in the heading, the firm's Federal Identification Number and the Project Reference Number indicated in the advertisement. The letter of interest must also include the following:

1. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project."
2. Standard Form 254, "Architect-Engineer and Related Services Questionnaire" not more than 1 year old as of the date of this advertisement, must accompany each letter of interest for the firm, each party to a joint venture and for each subconsultant the firm or joint venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor or a company. Please disregard the statements on Standard Form 255 that indicate a Standard Form 254 is only required if not already on file with the contracting office. The Department does not maintain a file for Standard Form 254 for contracting purposes; therefore, this Form is required for the prime consultant and each subconsultant as stated above.
3. Two copies of the Department's Form D-427 (Rev. 6-89), "Current Workload" for the firm submitting the letter of interest. At least one copy of Form D-427 must remain free and not bound in any way to any other portion of the letter of interest or accompanying documentation. Copies of Form D-427 are available upon request from the above address or by contacting the Department's Consultant Agreement Division at (717) 783-9309.
4. Firms with out-of-State headquarters or corporations not incorporated in Pennsylvania must include with each letter of interest a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

The Standard Form 255 must be filled out in its entirety including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project. If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be presently certified by the Department of Transportation, and the name of the firm and the work to be performed must be indicated in Item 6. If a Women Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

The Standard Form 254 must be signed and dated and must be less than 1 year old as of the date of this advertisement. A Standard Form must accompany each letter of interest for the firm submitting the letter of interest, each party to a joint venture, and for each subconsultant shown under Item 6 of the Standard Form 255.

Unless other factors are identified under the individual project reference number, the following factors, listed in their order of importance, will be considered by the Committee during their evaluation of the firms submitting letters of interest:

- a. Specialized experience and technical competence of firm.
- b. Past record of performance with respect to cost control, work quality, and ability to meet schedules. The specific experience of individuals who constitute the firms shall be considered.
- c. Current workload and capacity of firm to perform the work within the time limitations.
- d. Location of consultant.
- e. Special requirements of the project.
- f. Other factors, if any, specific to the project.

The Department currently limits its participation in the remuneration of principals or consultant employees performing work on projects to \$72,800 per annum or \$35 per hour or their actual audited remuneration, whichever is less. The Department currently limits its participation in the consultant's indirect payroll costs (overhead) on design and miscellaneous projects to 130% of the direct payroll cost or the consultant's actual audited overhead rate, whichever is less. The Department currently limits its participation in the consultant's indirect payroll costs (overhead) on construction inspection projects to 85.2% of the direct payroll cost or the consultant's actual audited overhead rate, whichever is less. The Department's limitations will apply to the projects advertised above unless the Department policy is revised prior to the negotiation of an agreement or contract.

The assignment of the above services will be made to one of the firms responding to this notice, but the Committee reserves the right to reject all letters of interest submitted, to cancel the solicitations requested under this notice, and/or to readvertise solicitation for these services.

Secretary

ENVIRONMENTAL HEARING BOARD

Duquesne Light Company v. DEP; Doc. No. 95-241-G

The Department of Environmental Protection (Department) and Duquesne Light Company have agreed to a settlement of the above matter.

The Department issued NPDES Permit No. PA 0001627 to Duquesne Light Company (DLCo) authorizing the discharge of wastewater to the Allegheny River and Little Deer Creek. DLCo objected to the inclusion of Water Quality-Based Effluent Limitations (WQBELs) at Outfall 002 because they were calculated using an inaccurate, outdated water quality computer model. DLCo also objected because several water quality criteria were revised prior to issuance of the NPDES Permit, but the revised criteria were not incorporated into the WQBELs.

The major provisions of the settlement are:

1. Modification of the Beryllium, Copper and Silver effluent limitations at Outfall 002 reflecting revised criteria and developed using the Model PENTOXSD.

Copies of the full agreement are in the possession of:

Zelda Curtiss, Assistant Counsel, Department of Environmental Protection, Office of Chief Counsel, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4262;

Donald C. Bluedorn, II, Babst, Calland, Clements & Zomnir, P.C., Two Gateway Center, Pittsburgh, PA 15222;

and at the offices of the Environmental Hearing Board, and may be reviewed by any interested person on request during normal business hours.

Persons who are aggrieved by the above settlement have a right to appeal to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457. Appeals must be filed within 20 days of this publication.

If information concerning this notice is required in an alternative form, please contact the Secretary to the Board at (717) 783-3483. TDD users may telephone the Board through the AT&T Pennsylvania Relay Service at 1 (800) 654-5984.

The Environmental Hearing Board is empowered to approve this settlement if no objection is timely filed with the Board.

FISH AND BOAT COMMISSION

Closure to Public Fishing—Childrens Lake, Boiling Springs, Cumberland County

The Executive Director of the Fish and Boat Commission, acting under the authority of 58 Pa. Code §§ 53.18 (relating to additional restrictions on Commission prop-

erty) and 65.25 (relating to temporary changes to fishing regulations), is taking action to close Childrens Lake (formerly known as Boiling Springs Lake), Cumberland County, during the period of its drawdown.

The Executive Director finds that this action is necessary and appropriate for the protection, preservation and management of fish and fish habitat at Childrens Lake. Childrens Lake is owned by the Fish and Boat Commission. The dam, which impounds the Lake, is in need of repairs. The Commission has entered into a cooperative agreement with South Middleton Township, which controls the road where the dam is located, to rehabilitate the dam. South Middleton Township has entered into a contract for this work. The dam repairs will require drawdown of the Lake for approximately 10 to 12 weeks. A flow of water will be maintained from the spring that feeds Childrens Lake through the lake bed. Although it is anticipated that most fish will move to downstream waters during this period, fishing in the drawdown portion of the Lake will cause concerns from the points of view of protection and management of the fishery and safety of persons who fish.

This notice takes effect at 12:01 a.m. on April 21, 1996. It is expected that Childrens Lake will reopen to public fishing during the summer of 1996.

Economists Incorporated has been retained to analyze economic aspects of the Wilkes-Barre area. The hospital discharge data we are requesting would be used to identify (1) the geographic areas from which the hospitals get their patients and (2) other hospitals that serve patients from these areas.

RQ#94-040

Sachs Group, Ltd.

For the foremost purpose of efficiently servicing our Market Planner clients in and around the state of Pennsylvania. In past years, our clients ordered their "custom" cuts of the PHC4 database directly from PHC4. The clients would have the data sent to Sachs, where it would be customized for use in the Market Planner. This process was highly inefficient. PHC4 was required to release many data sets (thus using valuable time and resources), and Sachs was required to process multiple data sets. The end result is that the end users had to wait for a very long time (often a period of many months) between ordering and receiving the data.

RQ#94-044

ValuCare, Inc.

ValuCare has contracted with the following clients to analyze the requested data to profile hospital and physician performance. Northwestern Region Employee Benefit Trust, Edinboro, PA; Aetna Health Plan, Pittsburgh, under a request from the Laborers' combined Funds, Pittsburgh, PA.

RQ#94-046

Hazleton General Hospital

Evaluate and develop hospital programs and services based on current and projected community (service area) needs.

RQ#94-047

Marian Community Hospital

Market share analysis.

RQ#94-048

Center for Health Policy

Data are requested to facilitate description of diagnoses and procedures that are prevalent in smaller rural hospitals. More specifically, we will focus on those that affect the greatest number of patients in these settings; and we will estimate the degree of variation in the prevalence of conditions encountered by hospitals in different rural communities. Hospital volume outcome analyses will be conducted based upon the data. The work will be done for the study of "Volume Thresholds For Diagnoses Community Treated in Rural Hospital", which is part of the Agency for Health Care Policy and Research (AHCPR) Rural Centers - Region VIII Program; funded by AHCPR (Contract no: 282-93-0039, Delivery Order 1).

RQ#94-049

Center for Health Policy

Data are requested to facilitate description of diagnoses and procedures that are prevalent in smaller rural hospitals. More specifically, we will focus on those that affect the greatest number of patients in these settings; and we will estimate the degree of variation in the prevalence of conditions encountered by hospitals in different rural communities.

RQ#94-053

University of Pittsburgh Medical Center

To examine the costs associated with management of gallstones disease, with a special emphasis on comparing direct and indirect costs associated with laparoscopic and open cholecystectomy. Data on other conditions and procedures will be used to contrast and standardize this information as well as identify possible sources of heterogeneity in resource utilization with and across medical care centers.

RQ#94-055

Burn Foundation

The data requested by the Burn Foundation for the year 1992 will be compared with comparable data collected for the years 1977, 1982, and 1990, to determine trends in hospitalized burn injury in Pennsylvania. This will enable us to determine trends in the cost and incidence of burn injury, and provide a baseline with respect to trends in the causes of burn injury serious enough to require hospitalization.

RQ#94-057

Pennsylvania Legislature

Medicaid newborns by hospital for calendar year 1989.

RQ#94-062

PA Department of Health & Tech. Asst.

To determine which hospital are providing care in several counties not having hospitals with designated pediatric units; that is, providing general medical/surgical services for patients aged 17 and younger.

RQ#94-064

Pennsylvania Blue Shield

This request for 1992 Statewide HC4 data is being made on behalf of the Pennsylvania Blue Cross and Blue Shield organizations. The Pennsylvania Blue Cross and Blue Shield plans intend to use these HC4 data (as in past uses) for accounting and community reporting, selective contracting, utilization review, and applied health services research.

RQ#94-065

Hunterdon Medical Center

Data used for planning certificate of need requests, physician utilization analysis.

RQ#94-066

PA Department of Health

The data will be used in a need assessment formula. The total number of discharge with a principal diagnosis of acute heart disease along with the total number of discharges with a principal procedure for open heart surgery will help determine the number of open heart surgery units required to meet the needs of Pennsylvania's population.

RQ#94-067

Philadelphia Health Management Corp.

To identify and respond to the public health and social service needs of Southeastern Pennsylvania. PHMC conducts research and analyzes programs, provides management and technical assistance services, and provides specialized direct care services in the community.

RQ#94-070

Joint State Government Commission

This Commission has been instructed by the General Assembly to "undertake a comprehensive review of the diverse social, health-related, educational and financial costs of urban and rural violence.

RQ#94-071

RQ#94-072

HMO Blue

HMO blue has established a subsidiary in the 5-county Philadelphia area under the name of MedisGroup HMO of Pennsylvania. We are beginning to establish a hospital network and are looking for date to ensure the selections of a quality network.

RQ#94-074

Zelenkofske Axelrod & Co., Ltd.

The data requested will be used to prepare a market analysis for use by an expert witness in a litigation matter.

RQ#94-075

Pa. Office of the Attorney General

Our office is investigating the proposed acquisition of Bloomed Corporation, the corporate parent of Bloomsburg Hospital in Bloomsburg, PA, by Geisinger Health System,

the corporate parent of Geisinger Medical Center in Danville, PA. The requested data will be used to determine the relevant product and geographic markets within which to analyze the competitive effects of the proposed acquisition.

RQ#94-078

Lehigh Valley Hospital

Lehigh Valley Hospital requires all patient level information for (1) patients who were admitted to hospitals located in specified Regions, (2) all patients living in specified regions who were admitted to hospitals outside of the specified regions, and (3) all data for patients admitted to six additional hospitals not located in specified regions. This information should be provided on tape. It will be used for market share analysis.

RQ#94-079

Hospital Council of Western PA

The full State dataset including non-protected and allowed protected data elements is requested for calendar year 1992 for two purposes 1) to develop the PA-HCMAS system to provide to PHC4 and to ultimately sell to other entities when permitted by PHC4 licensing arrangements. 2) Prepare reports based on PHC4 data to provide or sell to other entities. *Reports are defined as two or three dimensional counts or tabulations of selected data elements arrayed within a set format, for the purpose of providing the recipient with an understanding of the volume, percentage, change over time, or relationship of various discharge abstract data elements. While reports generally are provided as printed tables on paper, extensive reports may be provided on floppy disk.

RQ#94-080

Ephrata Community Hospital

To obtain patient origin and market-share data by major diagnostic category. This information will be used for strategic planning purposes.

RQ#94-081

Diabetes Treatment Center at Montgomery Hospital

This report will be utilized as a tool for the assessment of community needs regarding diabetes. Additionally, data from this report will be utilized in an analysis of Montgomery Hospital's market share for the diabetes product line.

RQ#94-084

Sunbury Hospital

The purpose of this data request is to enhance the ability of both hospitals to serve their respective communities. The utilization patterns identified through this data will also be used for future joint health care service planning by these institutions.

RQ#94-087

Urban Health Institute

To identify the number of cardiac catheterization patients going to PA hospitals from Monmouth County, NJ.

RQ#94-089

Office of Attorney General

Our Office is investigating the proposed merger between Harrisburg Hospital and Polyclinic Medical Center in Harrisburg, PA. The requested data will be used to determine the relevant product and geographic markets within which to analyze the competitive effects of the proposed merger.

*RQ#94-103**Connelly, Reid & Spade*

To identify average cost of providing medical services for treatment identified as ICD-9 Code 952.00, diskectomy anterior, with decompression of spinal cord and/or nerve roots.

*RQ#94-041**USQA - U.S. Quality Algorithms, Inc.*

The data will be used for in-house review and analysis only.

*RQ#94-063**PA Department of Health*

Report of patients in specific DRGs for 1992. The data will be used to study the numbers of transfers between General Acute and Rehabilitation hospitals and rehab and sub-acute units in PA.

*RQ#94-082**Economists Inc.*

Economists Incorporated has been retained to analyze competition among hospitals in the Lancaster area. The patient discharge data would be used to determine the geographic area from which hospitals get their patients and other hospitals that serve this area.

*RQ#94-083**The Western Pennsylvania Hospital*

Data will be used for market analyses. For example: how many inpatients of a specific type are there in a chosen area; how much of the market is admitted to our facility. Data will also be used to analyze physician practice parameters. Also wants all data associated with patients that may reside in the counties requested but are treated in other facilities in other counties.

*RQ#94-086**Reading Rehabilitation Hospital*

To note, within our catchment area, trends in ICD-9 codes that are associated with "potential" for physical rehabilitation. Our goal is to extrapolate market potential for physical rehabilitation services based on these trends.

*RQ#94-088**Allied Services*

Strategic planning and competitive analysis of rehab. hospitals Statewide. This study is being completed by Allied Services for use by all members of PARF.

*RQ#94-091**Hunterdon Medical Center*

Data used for program planning, certificate of needs requests, and physician utilization analysis.

*RQ#94-092**Arnot Ogden Medical Center*

Data requested for needs assessment section of community service plan.

*RQ#94-093**University Hospital of Cleveland*

To evaluate the number, and range of conditions, of patients who reside in Ohio but are admitted to hospitals in Western Pennsylvania.

*RQ#94-097**Community General Osteopathic Hospital*

We propose to determine market share for hospitals in the Greater Harrisburg Area. This data will be useful to the hospital for planning the delivery of community health services.

*RQ#94-099**Penn State University*

Our Center has underway a series of studies on the statistical methodology used to support the public release of data on hospital and physician performance. These studies will be submitted for publication to peer reviewed journals in medicine and statistics. We are requesting the working datasets for any special data releases of the Council—releases similar to those on CABG mortality for 1990 and 1991. The working datasets are those use by the Council to produce the public reports. If these working datasets include data elements not generally included in the public release datasets, we request permission to use those data elements subject to the confidentiality requirements the Council might impose on the use of sensitive patient-level data.

*RQ#94-100**Penn State University*

To support research activities on outcomes and utilization.

*RQ#94-101**Penn State University*

To support research activities on outcomes and utilization.

*RQ#94-106**Washington County Hospital*

To identify numbers and classifications (types of cases) from Washington County, Maryland who have outmigrated to PA hospitals.

*RQ#94-108**ValuCare, Inc.*

To profile physician performance utilizing mortality, major morbidity, length of stay and other characteristics derived from PHCA data.

*RQ#94-109**KePro*

To conduct a study to peer group the providers of heart catheterization.

*RQ#94-111**Healthshore Technology, Inc.*

To analyze LOS, charges and costs across Pennsylvania hospitals, for particular product lines (e.g. cardiology, orthopedics) after adjustment for severity of illness using the DRG methodology individual data records including ICD-9 detail are necessary both to determine the DRG for severity and adjustment purposes and to determine estimated hospital costs from the charge information by revenue code grouping.

*RQ#94-112**Easton Hospital*

Market share analysis.

*RQ#94-113**Solutions for Progress*

To facilitate report/study we are completing for the Delaware Disabilities Council. We are doing a cost model for analyzing single payer option.

*RQ#94-114**Geisinger System Services*

The data are to be used to conduct research on issues of statistical modeling of rare events.

*RQ#94-115**Healthcare Research Affiliates, Inc.*

Analysis of hospital performance via comparison of mortality rates, morbidity rates, lengths of stay, charges and

other performance measures. One current project involves comparisons of hospitals in Hershey Foods Corporation's (HFC) geographic area in order to identify hospitals for inclusion in the HFC managed care network.

RQ#94-116 Healthcare Research Affiliates, Inc.

Analysis of hospital performance via comparison of mortality rates, morbidity rates, length of stay, charges and other performance measures.

RQ#95-002

PA Department of Health

1992 data for a specific list of hospitals to be used for the Sub-Acute Task Force Research.

RQ#95-003

Urban Health Institute

INDEPENDENT REGULATORY REVIEW COMMISSION

Actions Taken by the Commission

The Independent Regulatory Review Commission met publicly at 11 a.m., Wednesday, April 3, 1996, and took the following actions:

Regulation Approved:

Insurance Department #11-133: Medicare Supplement Insurance Minimum Standards (amends 31 Pa. Code, Chapter 89, Subchapter K, Sections 89.771, 89.772, 89.775, 89.776, 89.778, 89.780, 89.783, 89.784, Appendices E and I)

Environmental Quality Board #7-284: Stream Redesignations—Pine and Elk Creeks, et al. (amends 25 Pa. Code § 93.9m)

Commissioners Present: John R. McGinley, Jr., Chairperson; Robert J. Harbison, III, Vice-Chairperson; Irvin G. Zimmerman

Public meeting held

Insurance Department—Medicare Supplement Insurance Minimum Standards; Doc. No. 11-133

Order

On March 6, 1996, the Independent Regulatory Review Commission (Commission) received this regulation from the Insurance Department. This rulemaking would amend 31 Pa. Code, Chapter 89, Subchapter K, Medicare Supplement Insurance Minimum Standards, Sections 89.771, 89.772, 89.775, 89.776, 89.778, 89.780, 89.783 and 89.784 and Appendices E and I. The authority for this regulation is The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412) and the Federal Social Security Act Amendments of 1994 (42 U.S.C.A. § 1395ss(a)(2) and (p)(1)) and Section 171(m) of the Social Security Act. Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*.

On March 29, 1996, amendments to the final-omitted regulation were submitted by the Department to correct technical errors in the Pa. Code title and in section 89.776(1)(v)(E) and section 89.780(a)(3)(c).

To meet the requirements of the Social Security Act Amendments of 1994 (SSAA-94), this proposal standardizes Medicare supplement insurance coverage by establishing in regulation the revisions prepared by the National Association of Insurance Commissioners (NAIC). Revisions prepared by the NAIC were circulated to State Insurance Commissioners by the Department of Health and Human Services (HHS) Health Care Financing Administration which directed states to adopt changes to state regulatory programs before April 28, 1996. If Pennsylvania fails to make the changes in the proposal, Medicare supplemental policies could only be sold after April 28, 1996, if the Secretary of HHS certifies that the policies meet the new Federal standards. Revisions to existing regulations in this proposal include the minimum requirements for the approval of Medicare supplemental policies for issuance and sale in the Commonwealth.

Because the SSAA-94 permits some exceptions which allow the sale of Medicare Supplement insurance policies that duplicate Medicare benefits or duplicate existing supplemental coverage when proper disclosure is made, significant changes are made to section 89.783 (required disclosure provisions) and to the disclosure statements in Appendix I of this proposal. Revisions for the "Statements" and "Questions" section of an application must contain information to warn consumers about duplication of coverage.

In an addition to the "Statements" which must accompany an application, there is a warning to consumers that if the policy is purchased, they may want to evaluate existing health coverage and decide if multiple coverage is needed. An existing statement notifies consumers that counseling services may be available concerning medical assistance through the State Medicaid program. Benefits as a Qualified Medicare Beneficiary and a Specified Low-Income Medicare Beneficiary are added. The revision allows the sale of policies to Medicaid beneficiaries who meet specific income and asset guidelines.

The "Questions" portion of an application will now ask if the consumer intends to replace a current Medicare policy. The proposal requires an increase of type size, from 10 point to 12 point, for notices to the applicant. The text of the notice is modified to state that if the consumer decides to purchase the coverage, they should terminate other Medicare supplement coverage. Further, the notice will also warn the consumer to evaluate the need for other accident and sickness coverage that may be duplicated by the new policy. The agent must sign a statement which indicates to the best of their knowledge, the policy they are selling will not duplicate existing Medicare coverage because the consumer intends to terminate existing Medicare supplemental coverage. Applications provided to Medicare-eligible persons for health insurance must disclose the extent to which a policy duplicates Medicare. Additionally, when a replacement policy is sold to a consumer who already has an existing Medicare supplement policy, a replacement notice advising the consumer to terminate existing Medicare supplement coverage must be provided.

Other modifications in the proposal include a change in the definition of "Medicare supplement policy" which is revised to eliminate an exemption for health care prepayment plans which are not employer or union-based plans. The exception from notice requirements for basic, catastrophic, major medical and single premium nonrenewable policies is eliminated. An existing requirement for refund of premiums for retroactively-determined periods of Medicaid eligibility is eliminated. The proposal allows a 6-month enrollment period at age 65 for all individuals whether or not previously enrolled. Loss ratio standards are established for policies issued prior to July 30, 1992. Also, refund or credit calculations for policies issued prior to July 30, 1992, must be calculated separately after the effective date of this proposal, for individual policies and all other group policies combined. The Medicare Supplement Refund Calculation form found in Appendix E of this proposal is changed accordingly.

We have reviewed this regulation and find it to be in the public interest. The amendments bring Subchapter K into compliance with minimum Federal statutory requirements by adopting the NAIC Model Regulation. Adoption of the proposal will allow the continued sale of Medicare supplemental policies in Pennsylvania. Further, the final-omitted regulation contains revisions which ben-

efit consumers by ensuring complete disclosure of information.

Therefore, It Is Ordered That:

1. Regulation No. 11-133 from the Insurance Department, as submitted to the Commission on March 6, 1996, and amended on March 29, 1996, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

Environmental Quality Board—Stream Redesignations—Pine and Elk Creek et al.; Doc. No. 7-284

Order

On November 14, 1994, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Quality Board (EQB). This rulemaking would amend 25 Pa. Code § 93.9m. The authority for this regulation is sections 5 and 402 of the Clean Streams Law (35 P. S. §§ 691.5 and 691.402), and section 1920-A of The Administrative Code of 1929 (71 P. S. § 510-20). The proposed regulation was published in the December 3, 1994 *Pennsylvania Bulletin* with a 72-day public comment period. The final-form regulation was submitted to the Commission on March 5, 1996.

The regulation would change the designations of nine stream segments in Centre County. Seven of the stream segments would be redesignated as "Exceptional Value Waters" (EV). Two others would be designated as "High Quality Cold Water Fishes" (HQ-CWF). Four of the segments proposed for EV designation are currently designated as "Cold Water Fishes" (CWF) and the three other segments are currently designated as HQ-CWF.

The objective of this regulation is the redesignation of stream segments in two watersheds in Centre County. Elk Creek is a tributary to Pine Creek which flows into Penns Creek. Above its confluence with Pine Creek, Penns Creek is currently designated as CWF. Below its merger with Pine Creek, Penns Creek is designated as HQ-CWF. These current designations for Penns Creek are not being revised by this regulation.

Both Elk and Pine Creeks begin in Bald Eagle State Forest. The headwaters and the first 2 miles of Pine Creek are located in the Hook Natural Area. This area is a 5,119 acre forest tract that is being preserved in its natural state by the Bureau of Forestry in the Department of Conservation and Natural Resources. Pine Creek flows for approximately 20.4 miles, and Elk Creek flows 18.5 miles. With the exception of their headwaters and upper segments, both streams run through private property. There is a considerable degree of agricultural and residential activity in both watersheds. Small, but active, towns, such as Millheim Borough, Coburn and Woodward, are located on the banks of Elk or Pine Creeks.

The preamble of the final-form regulation summarizes the potential costs and benefits for local governments and the private sector in the following manner:

Persons proposing activities or projects which result in discharges to streams must comply with the regulatory

requirements relating to current stream designations. Such persons could be adversely affected by the recommended changes that increase the level of protection provided to a stream, if they expand their discharge, or add a new discharge point, since they may need to provide a higher level of treatment for their new or expanded discharge. These increased costs take the form of higher engineering, construction or operating costs for wastewater treatment facilities. Treatment costs are site-specific and may depend upon the size of the discharge in relation to the size of the stream and many other factors. It is therefore not possible to precisely predict the actual change in costs. In addition, non-point source controls necessary to protect High Quality and Exceptional Value Waters generally add to the cost of planning and development for new or expanded non-point source discharges.

Overall, the citizens of the Commonwealth will benefit from these recommended designations because they will provide, in some cases, an added degree of protection for important public natural sources and, in all cases, the most appropriate degree of protection for each stream in question.

Both supporters and opponents of the regulation agree that the regulation will increase costs for local governments, residents and the private sector. There is disagreement over how onerous the increases will be and when and how they will occur. The current discharge from Millheim Borough's sewage treatment plant is "grandfathered" as an existing use and will not be affected by the regulation. However, if Millheim needs to expand its discharge or if other neighboring municipalities opt to build sewage treatment systems, then there will be new and additional costs. The Millheim Borough Council and the Boards of Supervisors for both Penn and Miles are all concerned by the future costs and restrictions that could be imposed by the regulation. According to these officials, a significant number of residents in the area are retired persons or senior citizens who are on fixed incomes. These people may not be able to afford the additional costs for sewage treatment imposed by the regulation. Representatives of the farmers in the area are also concerned by the uncertainty over cost increases associated with the regulation.

During the public comment period, more than 4,700 written comments were received concerning this regulation. The EQB also held a public hearing on January 25, 1995, at Penns Valley High School near the two watersheds. More than 70 people either testified or submitted written comments at the hearing. In recent weeks, we received more than 850 pieces of correspondence concerning this regulation.

The following is a list of some of the individuals and organizations who submitted substantive comments in support for the regulation:

Haines Township Board of Supervisors, Centre County
 Pennsylvania Fish and Boat Commission
 Pennsylvania Federation of Sportsmen's Clubs, Inc.
 Pennsylvania Trout, a Council of Trout Unlimited
 Penns Valley Conservation Association
 Western Pennsylvania Conservancy
 Senator Edward W. Helfrick
 Representative Camille George
 Representative Ruth Rudy
 Representative Merle H. Phillips

Although most of the written comments supported the regulation, strong opposition to the regulation was expressed by a number of local residents, local municipalities and other organizations. The following is a list of some of the parties who have expressed opposition to the regulation:

Centre County Farm Bureau
 Con-Stone, Inc.
 Miles Township Board of Supervisors, Centre County
 Millheim Borough Council, Centre County
 Penn Township Board of Supervisors, Centre County
 Pennsylvania Farm Bureau
 Representative Michael K. Hanna

Senator J. Doyle Corman forwarded correspondence to the Commission from both supporters and opponents of the regulation. Pine and Elk Creeks are located in his district and in Representative Rudy's district.

We have reviewed this regulation and find it to be in the public interest. This regulation is one of the most controversial and divisive regulations ever brought before us for review. A great deal of frustration, anger, ardent dedication and resolute determination have been expressed by all sides of the debate over this regulation. There is also a significant level of confusion about the actual objectives of the regulation and its impact on local residents in the two watersheds. In our view, the primary objective of this regulation is the protection of the backward sedge (*Carex retrorsa*), an endangered semi-aquatic plant species. According to the Department of Environmental Protection (DEP), this is the overriding factor behind the EV designations for the lower stream segments of both Pine and Elk Creeks. The focus of contention for all sides of the debate over this regulation was the lower segments of these two creeks.

We recognize and respect the fact that Pine and Elk Creeks on their own and as a tributary to Penns Creek represent a valuable native trout fishery. However, DEP noted in August 1994 that the current CWF designations or upgrades to HQ-CWF were the appropriate designations to protect this type of resource. This position is consistent with the policy guidelines set forth in the DEP Special Protection Waters Implementation Handbook (DEP Handbook). Although this regulation will provide additional protection for the fishery resource, the existence of the backward sedge is the prime determinant for the policy decision for the EV upgrade.

With regard to the backward sedge, there is an apparent lack of scientific information as to whether an EV designation is necessary to protect this species. None of the watersheds in which the backward sedge reportedly exists is currently classified as EV at 25 Pa. Code § 93.9. Although this may indicate that an EV designation is not necessary for the survival of this species, the DEP notes that many of these designations may not actually reflect the current water quality of these streams. At present, there is no way to be certain how fluctuations in water quality will impact the continuation of this species. With the support of such organizations as the Pennsylvania Natural Diversity Inventory and Western Pennsylvania Conservancy, the EQB and DEP decided to err on the side of caution and provide the backward sedge with the utmost protection available under the special protection program. Although majority of the Commission acknowledges the ecological prudence of this approach, we are concerned by its impact on local governments and residents in the watersheds and the application of this policy approach in future stream redesignations.

Our concern with this policy is generated by the DEP Handbook itself. In its summary of the reasons for the EV designations in the Pine and Elk Creeks watersheds, DEP lists "EV Category IV.1—Waters of Substantial Ecological Significance" as the basis for the EV designation of the downstream segments of Pine and Elk Creeks. On page II-27 of the DEP Handbook, EV Category IV.1 reads: "Waters where maintenance of existing water quality *is required* to protect any life cycle phase of an endangered or threatened aquatic or semi-aquatic species." [Emphasis added] The policy decision for Pine and Elk Creeks contradicts a straight-forward reading of EV Category IV.1 if it is an evidentiary prerequisite for a determination that maintenance of the current water quality is necessary for the survival of an endangered species. We recommend that the EQB and DEP review this guideline, fully examine its potential impact on the Commonwealth, local governments and private sector, and set forth their intent in greater detail. Any clarification or revision to the policy should include public notice and an opportunity for public comment.

A final area of concern is the role of local government in the stream redesignation process. From the comments we have received, it appears that the DEP failed to keep the local governments informed about revisions made to its initial proposal. Although the Commonwealth is the legal guardian of Pennsylvania's water resources, the costs of the Commonwealth's water management policies often have the greatest impact on the pocketbooks of the local taxpayers, residents and businesses. There should be a recognition of this fact within the redesignation process. All of the duly elected representatives of local governments in the affected watersheds should be active partners in the stream redesignation process. A prime example of the benefits of including local governments in this process was the EV upgrade for Valley Creek in Chester and Montgomery Counties and the Valley Forge National Park. In this case, local government agencies played a crucial role in supporting the EV designation. We recommend that the DEP and EQB work towards an inclusive approach in the stream redesignation process.

Therefore, It Is Ordered That:

1. Regulation No. 7-284 from the Environmental Quality Board, as submitted to the Commission on March 5, 1996, is approved; and
2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

PENNSYLVANIA INFRASTRUCTURE INVESTMENT AUTHORITY AND DEPARTMENT OF ENVIRONMENTAL PROTECTION

Project Priority List and Intended Use Plan; Water Pollution Control Revolving Fund Projects

The Pennsylvania Infrastructure Investment Authority (PIIA) and the Department of Environmental Protection have prepared a combined Federal fiscal year 1996 and 1997 sewage construction Project Priority List and the fiscal year 1996 Intended Use Plan (IUP) list of municipal sewerage projects to be considered for a construction loan from funds Pennsylvania expects to receive from fiscal year 1996 Federal appropriation acts to capitalize the Water Pollution Control Revolving Fund (WPCRF) program. In addition, notice is hereby given that the Intended Use Plans for fiscal year 1990, 1993 and 1994 have been updated to utilize Federal funds.

The FY 1996/97 Project Priority List was developed in conformance with the requirements of section 216 of the Water Quality Act and Federal guidance. Accordingly, the projects included on the Project Priority List have a project priority rating under the Department's Environmental Protection Agency approved Chapter 103 project priority rating system. The act stipulates that states must maintain a Project Priority List of municipal sewerage projects from which to develop the annual IUP list of projects to be funded.

The projects to be considered for a loan from the WPCRF must meet the Federal requirements for funding in accordance with Title II and Title VI of the Water Quality Act. Accordingly, the projects included in the IUP are rated under Pennsylvania's approved project priority rating system and are expected to meet the requirements applicable to use of the WPCRF loan funds. Projects listed on the FY 1996 and the amended IUP lists are on Pennsylvania's WPCRF Project Priority List and are projects that have or are expected to proceed to construction in the near future. Other projects on the WPCRF sewage construction Project Priority List are projects that are in development or will be developed for future construction loan consideration. Any project removed from an IUP is maintained on the Project Priority List unless otherwise completed.

The FY 1996 IUP has 19 municipal sewerage construction projects listed with a total dollar value of approximately \$47.2 million. The WPCRF will be capitalized with approximately \$40.5 million of Federal FY 1996 funds from the Environmental Protection Agency and approximately \$8.1 million of State funds. Some \$1.4 million will be set-aside for program administration costs. After the public hearing and assessment of the comments received, the Final FY 1996 IUP will be completed, and potentially, it may include other projects from the Project Priority List.

A project must appear on the PIIA approved IUP before it can receive a loan from the WPCRF. The IUP was developed in accordance with the ranking criteria listed in Section 10(b) of Act No. 1988-16. These ranking criteria differ somewhat from the Chapter 103 project priority rating system, as does the methodology used to evaluate projects. In addition, a project's readiness to proceed and the reasonable availability of alternative funds also have a bearing on project selection for the IUP. Consequently, the rank ordered list of projects on the Project Priority List does not dictate the order in which projects will be chosen for inclusion in the IUP.

Federal guidance and regulations on development of the Project Priority List and Intended Use Plan direct that the project lists be subject to public comment and review before being submitted to the U. S. Environmental Protection Agency.

The Department has scheduled a public hearing for 10 a.m., June 5, 1996, in the Auditorium of the Rachel Carson State Office Building, located at 400 Market Street, Harrisburg, PA. The hearing is scheduled for the purpose of receiving comments from the public regarding the combined fiscal year 1996/97 WPCRF Project Priority List and the FY 1996 IUP. Interested persons are invited to express their views on the priority rating or ranking of projects on the Project Priority List and the public hearing. Persons wishing to offer comments should contact the Administrative Services Section, Division of Municipal Planning and Finance, Bureau of Water Quality Management, 10th Floor, Rachel Carson State Office Building, P. O. Box 8466, Harrisburg, PA 17105-8466, telephone (717) 787-6744, or by Internet E-Mail (Maisano.Tony @ al.dep.state.pa.us) by 4 p.m., June 4, 1996. Where written statements are prepared and will be submitted at the hearing, speakers will be asked to restrict the oral portion of the statement to a summary of the written comments. Speakers will be called to present their comments generally in the order of receipt of the notice of intent to appear at the hearing.

It is not necessary to appear at the public hearing to present comments on the Project Priority List or the IUP list of projects. Interested persons may submit written comments to the Department at the address shown above. Such written comments will be considered equivalent to oral statements presented at the hearing. To be considered by the Department and PIIA, the written comments must be received by the Administrative Services Section on or before the date of the hearing.

Persons in need of accommodations as provided for in the Americans With Disabilities Act of 1990 should

contact Tony Maisano as noted above or through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

The FY 1996/97 Project Priority List and FY 1996 IUP follow this notice.

A copy of the FY 1996/97 Project Priority List and the FY 1996 Intended Use Plan is available by obtaining a copy of the *Pennsylvania Bulletin* and is available for public review in the Administrative Services Section office and in the following offices:

Service of Notice of Motor Carrier Applications

The following temporary authority and/or permanent authority applications for the right to render service as a common carrier or contract carrier in this Commonwealth have been filed with the Pennsylvania Public Utility Commission. Publication of this notice shall be considered as sufficient notice to all carriers holding authority from this Commission. Applications will be considered without hearing in the absence of protests to the application. Protests to the applications published herein are due on or before May 13, 1996, as set forth at 52 Pa. Code § 3.381 (relating to applications for transportation of property and persons). The protest shall also indicate whether it applies to the temporary authority application or the permanent application or both.

Applications of the following for the approval of the *transfer of stock* as described under each application.

A-00112257, F. 5000. Lenzner Transit, Inc. (100 Lenzner Court, Sewickley, Allegheny County, PA 15143), a corporation of the Commonwealth of Pennsylvania—stock transfer—for the approval of the transfer of 100 shares of the issued and outstanding stock from John E. Lenzner (50%) and Charles S. Lenzner (50%) to Pennsylvania Transportation Systems, Inc. *Attorney:* John A. Vuono, 2310 Grant Building, Pittsburgh, PA 15219-2383.

Applications of the following for approval of the *beginning of the exercise of the right and privilege of operating as common carriers for transportation of persons* as described under each application.

A-00112920 (corrected). Stephen A. Rakoci, Jr. (3245 Morefield Road, Hermitage, Mercer County, PA 16148)—persons in limousine service, between points in the cities of Hermitage, Farrell and Sharon, the boroughs of Clark, Sharpsville, Wheatland and West Middlesex and the townships of Pymatuning, South Pymatuning and Shenango, all located in Mercer County, and from points in said territory to points within an airline distance of 50 statute miles of the limits of said territory and return.

Applications of the following for approval of the *beginning of the exercise of the right and privilege of operating motor vehicles as common carriers for the transportation of persons by transfer of rights* as described under each application.

A-00112962. L-J-L Trucking, Inc., t/d/b/a Med-Van Transport (1311 Philadelphia Street, Barnesboro, Cambria County, PA 15714), a corporation of the Commonwealth of Pennsylvania—persons in paratransit service, between points in the borough of Barnesboro, Cambria County, and points within 15 airline miles of the limits of said borough, and from points in the said territory to points in Pennsylvania and return; subject to the following conditions: (a) that the service shall be restricted to trips to or from medical facilities, using vans equipped with lifts, ramps or other specialized facilities for passengers in wheelchairs; (b) that service from

points in Indiana County shall be limited to persons who, at the time of transportation, are subscribers to the carrier's ambulance service; which is to be a transfer of the right issued to Veterans Memorial Ambulance Service, under the certificate issued at A-00109985, subject to the same limitations and conditions. *Attorney:* Robert W. Lambert, 1001 Philadelphia Street, Indiana, PA 15701.

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". A qualified small business concern is an independently owned, operated for profit, business employing 100 or fewer employes and is not a subsidiary or affiliate of a corporation otherwise not qualified.

Such penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter. The small business concern must include on every invoice submitted to the Commonwealth: "(name of vendor) is a qualified small business concern as defined at 4 Pa. Code § 2.32".

For information on the required payment date and annual interest rate, please call the Pennsylvania Department of Commerce, Small Business Action Center, 483 Forum Building, 783-5700.

GET THAT COMPETITIVE EDGE—FOR FREE!

Do you want to do business with your state government? The Treasury Department's office of Contract Information Services can assist you by providing you with information that may be helpful to you in successfully bidding on State contracts.

Act 244 of 1980 requires Commonwealth departments and agencies to file with the Treasury Department a copy of all contracts involving an expenditure of \$5,000 or more.

These fully executed contracts usually contain the vendor's name, dollar value, effective and termination dates and contract specifications. Some contracts also include the names of other bidding vendors and the bid proposal compiled by the awarded vendor. There is a minimal cost for photocopying contracts.

Allow the Treasury Department to "make a difference for you." For contract information call the office of Contract Information Services TOLL-FREE (in Pennsylvania) at 1-800-252-4700 or (717) 787-4586. Or you may write or visit the office at Room G13, Finance Building, Harrisburg, Pa. 17120.
