

NOTICES

DEPARTMENT OF AGRICULTURE

Continuance of Pennsylvania Potato Research Program

Under the applicable provisions of the Pennsylvania Agricultural Commodities Marketing Act of 1968, as amended, a referendum was held from April 15 to April 30, 1996, to determine if the producers affected by the Pennsylvania Potato Research Program desired to have the Program continue for another 5 years. In order to pass, a majority of eligible producers voting had to vote in

favor of the Program continuing. An impartial Teller Committee met on May 6, 1996, to count the ballots. The following results were submitted by the Teller Committee: a total of 116 eligible votes were cast, with 88 or 76% voting in favor and 28 or 24% voting against the program continuing. There were two spoiled or ineligible ballots.

Because a majority of the votes were cast in favor of the Program, the Pennsylvania Potato Research Program shall continue for another 5 years.

CHARLES C. BROSIUS,
Secretary

DEPARTMENT OF ENVIRONMENTAL PROTECTION**Applications, Actions and Special Notices****APPLICATIONS**

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate in the proceeding should contact the Secretary to the Board at (717) 787-3483. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

Notice of Intent for Coverage Under General Permits Received

The following parties have submitted Notices of Intent for coverage under General NPDES Permits to discharge treated wastewater into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review, or application of lawful standards and regulations, the Department of Environmental Protection proposes to issue coverage under the General Permit subject to certain effluent limitations, monitoring and reporting requirements and other conditions set forth in the General Permits.

The EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24.

The Notice of Intent, related documents, proposed effluent limitations, special conditions, comments received and other information are on file and may be inspected and copied at the Regional Office indicated as receiving the Notice of Intent.

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of the Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the Regional Office or County Conservation District Office indicated as the responsible office, within 30 days from the date of this public notice. A copy of the written comments should be sent to the County Conservation District Office. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be

published in the *Pennsylvania Bulletin* at which time this determination may be appealable to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the County Conservation District Office or the Department Regional Office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection. Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department of Environmental Protection at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number, identification of the plan or application to which the protest is addressed and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protests. Each writer will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

Acknowledgment of Notices of Intent to Remediate

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (the act) (35 P. S. § 6026.101 et seq.) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, contact the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

Church Road, King of Prussia, PA 19406, has submitted a Notice of Intent to Remediate site soils and groundwater contaminated with solvents. The applicant proposes to remediate the site to meet the Statewide health standard.

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (the Act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use a site-specific standard or who intend to remediate a site in a Special Industrial Area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific

cleanup standard, in whole or in part, and for sites determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified below, a municipality may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified below. During this comment period, a municipality may request that the person identified below, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of a site. For further information concerning the content of a Notice of Intent to Remediate, please contact the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department of Environmental Protection has received the following Notices of Intent to Remediate:

Obrecht, P.G., Smith Environmental Technologies Corp., One Plymouth Meeting, Plymouth Meeting, PA 19462, has submitted a Notice of Intent to Remediate site soils contaminated with PCBs, lead, heavy metals, BTEX, polycyclic aromatic hydrocarbons and petroleum hydrocarbons. The applicant proposes to remediate the site to meet special industrial area standards. A summary of the Notice of Intent to Remediate was reported to have been published in the *Philadelphia Inquirer*, on May 6, 1996.

Acknowledgment of the Submission of Final Reports on Attainment of Background and Statewide Health Standards (sections 302(e)(2) and 303(h)(2))

The following final reports were submitted to the Department of Environmental Protection under the Land Recycling and Environmental Remediation Standards Act, the act of May 19, 1995 (P. L. 4, No. 2).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (the act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, please contact the Environmental Cleanup Program in the Department of Environmental Protection Regional Office under which the notice of receipt of a final report

appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

Notice of Plan Approval Application Minor Source

The following stationary sources have filed a request for a plan approval with the Department of Environmental Protection (DEP), Bureau of Air Quality. Persons wishing to file protests or comments on the proposed plan approval have 30 days to submit the protests or comments to the Regional Office at the address listed below. Interested persons may also request that a hearing be held concerning the plan approval application by filing a request with the Regional Office stating the reason for the request.

The Department will evaluate and consider all protests and comments received. The Department will, where appropriate, modify the proposed plan approval based on the protests and comments received.

The final plan approval will contain terms and conditions to ensure that the source is constructed and operated in compliance with the Department's regulations contained in 25 Pa. Code Chapters 121 through 143 and the requirements of the Federal Clean Air Act. A notice of the Department's final decision on the proposed plan approval will be published in the *Pennsylvania Bulletin*. Air contaminants emitted from these sources are less than the amounts that would trigger major new source review requirements. For additional information on the following applications, contact Devendra Verma, Engineering Services Chief, (814) 332-6940.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S.

§§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection. A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. Such NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chs. 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor, application number, a brief summary of the issues to be raised by the requestor at the conference and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

District Mining Operations, 437 South Center Street, P. O. Box 625, Ebensburg, PA 15931-0625.

ACTIONS

The Department of Environmental Protection has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514), and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment Approval, and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, telephone (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Ser-

vice, telephone (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and sections 5 and 402 of The Clean Streams Law (35 P. S. §§ 691.5 and 691.402) and notice of final action for certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)) (Note: Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description).

SPECIAL NOTICES

Recycling Grant Awards Under the Municipal Waste Planning Recycling and Waste Reduction Act.

The Department of Environmental Protection hereby announces the following grants to municipalities for recycling programs under the Municipal Waste Planning, Recycling and Waste Reduction Act (Act 101) (35 P. S. §§ 4000.101—4000.1904).

Grant funds can be used to develop and implement recycling programs. Municipalities and counties are eligible for up to 90% funding of approved recycling program costs. Municipalities considered financially distressed by the Department of Community Affairs under the Municipalities Financial Recovery Act (53 P. S. §§ 11701.101—11701.501) are eligible to receive funding for an additional 10% of approved costs. All grant awards are predicated on the receipt of recycling fees required by sections 701 and 702 of Act 101, and the availability of monies in the Recycling Fund.

Inquiries regarding the grant offerings should be directed to Carl Hursh, Chief of Recycling and Markets, Department of Environmental Protection, Bureau of Land Recycling and Waste Management, Division of Waste Minimization and Planning, Rachel Carson State Office Building, P. O. Box 8472, Harrisburg, PA 17105-8472.

Biosolids Subcommittee; Solid Waste Advisory Committee; Meeting Notice

The Biosolids Subcommittee of the Department's Solid Waste Advisory Committee will meet on Monday, June 10, 1996, from 9 a.m. to 3 p.m. in the 14th floor conference room of the Rachel Carson State Office Building, 400 Market Street, Harrisburg. The purpose of the meeting is to review and discuss the sewage sludge (biosolids) provisions of the draft final amendments to the municipal and residual waste regulations. The subcommittee will report to the full committee at their July 11 meeting. Both meetings are open to the public.

Proposed regulations were published on October 1, 1994, and comments received through December 30, 1994. During that time, three information meetings, six information workshops and three hearings were held for the public. The draft final rulemaking will incorporate comments received during the comment period, as appropriate.

When available, a draft copy of the final rulemaking will be distributed to the subcommittee members. The draft proposal will be posted on the Department's World Wide Web site (<http://www.dep.state.pa.us>) and copies may be obtained by calling Dawn Snyder at (717) 787-7381. Questions regarding the regulations may be directed to Steve Socash at Socash.Steve@a1.dep.state.pa.us or (717) 787-7381. Questions regarding the Solid Waste Advisory Committee should be directed to Gayle Leader at Leader.Gayle@a1.dep.state.pa.us or (717) 787-9871.

The Solid Waste Advisory Committee will hold a short meeting at 1:30 p.m. following the regularly scheduled July 11, 1996 Recycling Fund Advisory Committee meeting to hear the subcommittee report and consider the draft final rulemaking. This meeting will be held in the first floor conference room of the Rachel Carson State Office Building, 400 Market Street, Harrisburg. Persons who would like more information about this meeting should contact Rosetta Prough at Prough.Rosetta@a1.dep.state.pa.us or (717) 787-9871.

Persons with a disability who wish to attend and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact Gayle Leader directly at (717) 787-9871 or through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

DEPARTMENT OF TRANSPORTATION

Retention of Engineering Firms

Lehigh and Monroe Counties Reference No. 08430AG1994

The Department of Transportation will retain an engineering firm to provide supplementary construction inspection staff of approximately four inspectors, under the Department's Inspector-in-Charge, for construction inspection and documentation services on S. R. 0191, Section 01B, in the Borough of Stroudsburg, Monroe County, involves the latex overlays of the one span composite steel

multigirder bridge over State Route 80 and the two span continuous steel multigirder bridge over McMichael's Creek; miscellaneous bridge repairs; the surfacing of roadway with bituminous wearing course; milling of bituminous pavement surface; cement concrete curb and sidewalk; drainage improvements; and pavement marking; and S. R. 1002, Section 05S, in Upper Macungie Township, Lehigh County, involves pavement widening; the surfacing of roadway with bituminous wearing course; milling of bituminous pavement surface; traffic signal work; and pavement marking.

The Department will establish an order of ranking of a minimum of three firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Review of inspectors' resumes with emphasis on construction inspection capabilities and specialized experience in the maintenance and protection of traffic, soils, structures, concrete, asphalt paving, drainage, latex overlays, milling and traffic signals.
- b. Past performance.
- c. Understanding of Department's requirements, policies and specifications.
- d. Workload.
- e. Number of NICET certified inspectors in each payroll classification.
- f. Number of available inspectors in each payroll classification.

The qualifications and experience required of the firm's inspectors will be established by the Department and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

It is anticipated that the supplementary construction inspection staff for this assignment will consist of the following number of inspectors who meet the requirements for the following inspection classifications:

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Insp. Super. (TCIS) (NICET Highway Construction Level 3 or equivalent)	2 (2)
Transportation Construction Inspector (TCI) (NICET Highway Construction Level 2 or equivalent)	2 (1)

The numbers in parenthesis above indicate the number of inspectors in each classification that must meet at least one of the following requirements:

1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of Highway Construction, or subfield of Highway Materials, at the level required for the Inspection Classification.
2. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.

3. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.

4. Hold a Bachelor of Science degree in Civil Engineering or a Bachelor of Science degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

5. Hold an Associate degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

The maximum reimbursement of direct payroll cost for each Department Payroll Classification for calendar year 1996 will be limited to the actual direct salary of the individual employe, or the following rates, whichever is less:

<i>Payroll Classification</i>		<i>Direct Payroll Rate</i>
Transportation Construction (TCIS)		\$17.34/Hr.
Inspector Supervisor		
Transportation construction (TCI)		\$15.18/Hr.
Inspector		

Maximum reimbursable direct payroll rates for subsequent calendar years, if applicable, will be established at the scope of work meeting.

The firm selected may be required to attend a preconstruction conference with the Department and the construction contractor for this project. Under the supervision and direction of the Department, the selected firm will be required to keep records and document the construction work; prepare current and final estimates for payment to the construction contractor; assist the Department in obtaining compliance with the labor standards, safety and accident prevention, and equal opportunity provisions of the contract item; and perform other duties as may be required. Firms applying must have qualified personnel capable of climbing structures during painting, rehabilitation or construction.

Letters of interest for this project must include a letter, signed by the individuals proposed for all TCIS positions, giving their approval to use their names in the letter of interest for this specific project.

The goal for Disadvantaged Business Enterprise (DBE) participation in this agreement shall be 15% of the total contract price. Additional information concerning DBE participation in this agreement is contained in the General Requirements and Information section after the advertised projects.

Technical questions concerning the requirements for this project should be directed to Brian H. Graver, District 5-0, at (610) 791-6022.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

**Chester and Montgomery Counties
Reference No. 08430AG1995**

The Department of Transportation will retain an engineering firm to perform construction management services for the reconstruction and improvement of S. R. 202, in Chester and Montgomery Counties. The project will consist of five major construction contracts of approximately 35 million dollars each preceded by a contract for advance utility relocations.

The involved portion of Route 202 is a limited access four lane divided highway with high levels of traffic and closely spaced interchanges. The project will begin at the

Chesterbrook Interchange in Chester County and end at South Gulf Road in Montgomery County. The major features of the project are as follows:

1. Widening of Route 202 to six lanes
2. Widening of Route 422 from the PA Turnpike to Route 202
3. Widening of I-76 (Schuylkill Expressway) from Croton Road to Route 202
4. Construction of a new interchange between 202 and I-76
5. Construction of a new interchange between 202 and 422
6. Upgrade of all support systems including signing, lighting, electrical, guide rail and barriers
7. Widening and redecking of all mainline 202 bridges from Chesterbrook to 422

The anticipated duration of the construction is 5 years.

The required services will include the following:

Analyze contractor's CPM schedules and monitor progress during construction; review, make recommendations, and prepare correspondence for signatures on specific utility, structure, roadway and other related facilities problems during the construction phase; attend preconstruction meeting; review and evaluate value engineering efforts submitted to the Department for all elements of construction; monitor and track all submissions including shop drawings for timely responses from appropriate agency or individual; review any design or construction change requests from the contractor and prepare recommendations and responses; coordinate and participate in community relations including personal contacts and community meetings; assist Department in public relations and press releases; review and prepare responses on potential claims and assist in claim negotiations; furnish change order evaluation assistance; and expedite and assist in routine problem solving for field design and construction.

The consultant will be required to establish a project field office within the project limits of the Route 202 corridor which includes access to computer facilities, paper copying capabilities, essential office equipment and must be staffed on a full time basis including a secretary, as needed.

It should be noted that construction contractors (prime or subcontractor), who are performing work on one or all of the previous mentioned construction contracts, cannot be a member of the Construction Management Team.

The consultant will be required to staff a full-time construction management team consisting of a Project Manager (P. E. requirement), two Construction Engineers (one must be a P. E.), two Schedule Engineers and one Technician and a secretary/receptionist, as needed.

The following factors, listed in their order of importance, will be considered by the Committee during their evaluation of the firms submitting letters of interest:

- a. The specific experience of individuals listed in the firm's letter of interest, including familiarity with the Department's specifications and procedures.
- b. Specialized experience and technical competence of firm.
- c. Past record of performance with respect to cost control, work quality and ability to meet schedules.

d. Current workload and capacity of firm to perform the work within the time limitations.

e. Special requirements of this construction management assignment.

Firms shortlisted for this project may be required to make an oral presentation.

The goal for Disadvantaged Business Enterprise (DBE) participation in this agreement shall be 15% of the total contract price. Additional information concerning DBE participation in this agreement is contained in the General Requirements and Information section after the advertised projects.

Technical questions concerning the requirements for this project should be directed to Jeff Wendel, P. E., District 6-0, at (610) 524-6685 or Marshall Linton, P. E., at District 6-0, at (610) 964-6684.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

Bucks, Chester, Delaware, Montgomery and Philadelphia Counties
Reference No. 08430AG1996

The Department of Transportation will retain an engineering firm to provide staff for review and documentation of preliminary submittals of Developers' Highway Access Permits and review of documentation of traffic, construction and hydraulic considerations for Highway Occupancy permit applications for driveways of all classifications and other roadway improvements. The selected engineering firm will also assist the final inspection of permit work. Other traffic related services may be required including provision of qualified technical personnel to the Traffic Unit on a full-time basis. The assignment could be in any of the five counties comprising District 6-0 (Bucks, Chester, Delaware, Montgomery and Philadelphia).

The selected firm will be required to perform timely and accurate reviews under the supervision and direction of the District Traffic Engineer. The selected firm will be required to provide qualified engineers to document the review; meet with developers, provide for the safe, swift and accurate implementation of Highway Occupancy permits; and to perform other duties as may be required.

The selected firm will be required to provide the following personnel:

One Manager with a professional Engineer's License.

Six Registered Professional Engineers by the Commonwealth of Pennsylvania or an equivalent combination of a Bachelors Degree in Transportation Engineering and 5 years of highway development experience.

Two Engineers possessing Pennsylvania Engineer-in-Training Certificates with a minimum of 2 years of highway development experience.

The consultant will use his own offices and will be located in Pennsylvania within the District 6-0 jurisdictional area (Bucks, Chester, Delaware, Montgomery and Philadelphia Counties).

The selected firm shall not be permitted to review any access permit for which the firm has a conflict of interest.

The contract will be for a period of 30 months.

Technical questions concerning the requirements for this project should be directed to Barry Snyder, District 6-0, at (610) 768-3083.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

Northampton County
Reference No. 08430AG1997

The Department of Transportation will retain an engineering firm to perform final design, consultation services during construction, and shop drawing reviews for the bridge replacement and safety improvements of S. R. 0191, Section 02B, the East Branch Bushkill Creek Bridge, in the Village of Edelman, Plainfield Township, Northampton County within Engineering District 5-0. The S. R. 0191, Section 02B bridge is the replacement of an existing 30 lineal foot, single span reinforced concrete T-beam structure with a new 115 foot two span, 40 foot wide curb-to-curb prestressed concrete bridge on a new alignment approximately 300 feet upstream of the existing bridge location. Also involved is the realignment of the horizontal geometry of S. R. 0191 to reduce the severity of the curvilinear approaches both north and south of the proposed bridge location. Approximately 900 feet of roadway improvements on each side of the new structure will be constructed. The estimated construction cost is \$1.45 million.

The firm selected will be required to perform the following: prepare final right-of-way plans; prepare final design/construction plans, specifications and cost estimates; review shop drawings; and provide consultation during construction.

The firm selected will be required to submit final right-of-way plans within 45 days from Notice To Proceed and submit a final PS&E package to the District within 9 months from Notice To Proceed.

The goal for Disadvantaged Business Enterprise (DBE) participation in this agreement shall be 15% of the total contract price. Additional information concerning DBE participation in this agreement is contained in the General Requirements and Information section after the advertised projects.

Technical questions concerning the requirements for this project should be directed to Donald E. Lerch, P. E., District 5-0, at (610) 791-6019 or Jack W. Hubbard, District 5-0, at (610) 791-6020.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

General Requirements and Information

Firms interested in performing any of the above services are invited to submit letters of interest to: Director, Consultant Selection Committee, Room 1118, Transportation and Safety Building, Harrisburg, PA 17120.

A separate letter of interest and required forms must be submitted for each project for which the applicant wishes to be considered. The letter of interest and required forms must be received within 13 calendar days of this notice. The deadline for receipt of a letter of interest at the above address is 4:30 p.m. of the thirteenth day.

If the project advertisement indicates that the Department will retain an engineering firm, letters of interest will only be accepted from individuals, firms or corporations duly authorized to engage in the practice of engineering. If an individual, firm or corporation not authorized to engage in the practice of engineering desires to submit a letter of interest, said individual, firm or

corporation may do so as part of a joint venture with an individual, firm or corporation which is permitted under State law to engage in the practice of engineering.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act), WBEs or combinations thereof. Proposed DBE firms must be certified at the time of submission of the letter of interest. If the selected firm fails to meet the goal established, it shall be required to demonstrate its good faith efforts to attain the goal. Failure to meet the goal and to demonstrate good faith efforts may result in being barred from Department contracts in the future.

Responses are encouraged by small engineering firms, disadvantaged business enterprise engineering firms and other engineering firms who have not previously performed work for the Department of Transportation.

Each letter of interest must include in the heading, the firm's Federal Identification Number and the Project Reference Number indicated in the advertisement. The letter of interest must also include the following:

1. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project."

2. Standard Form 254, "Architect-Engineer and Related Services Questionnaire" not more than 1 year old as of the date of this advertisement, must accompany each letter of interest for the firm, each party to a joint venture and for each subconsultant the firm or joint venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor or a company. Please disregard the statements on Standard Form 255 that indicate a Standard Form 254 is only required if not already on file with the contracting office. The Department does not maintain a file for Standard Form 254 for contracting purposes; therefore, this Form is required for the prime consultant and each subconsultant as stated above.

3. Two copies of the Department's Form D-427 (Rev. 6-89), "Current Workload" for the firm submitting the letter of interest. At least one copy of Form D-427 must remain free and not bound in any way to any other portion of the letter of interest or accompanying documentation. Copies of Form D-427 are available upon request from the above address or by contacting the Department's Consultant Agreement Division at (717) 783-9309.

4. Firms with out-of-State headquarters or corporations not incorporated in Pennsylvania must include with each letter of interest a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registra-

tion to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

The Standard Form 255 must be filled out in its entirety including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project. If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be presently certified by the Department of Transportation, and the name of the firm and the work to be performed must be indicated in Item 6. If a Women Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

The Standard Form 254 must be signed and dated and must be less than 1 year old as of the date of this advertisement. A Standard Form must accompany each letter of interest for the firm submitting the letter of interest, each party to a joint venture, and for each subconsultant shown under Item 6 of the Standard Form 255.

Unless other factors are identified under the individual project reference number, the following factors, listed in their order of importance, will be considered by the Committee during their evaluation of the firms submitting letters of interest:

a. Specialized experience and technical competence of firm.

b. Past record of performance with respect to cost control, work quality, and ability to meet schedules. The specific experience of individuals who constitute the firms shall be considered.

c. Current workload and capacity of firm to perform the work within the time limitations.

d. Location of consultant.

e. Special requirements of the project.

f. Other factors, if any, specific to the project.

The Department currently limits its participation in the remuneration of principals or consultant employees performing work on projects to \$72,800 per annum or \$35 per hour or their actual audited remuneration, whichever is less. The Department currently limits its participation in the consultant's indirect payroll costs (overhead) on design and miscellaneous projects to 130% of the direct payroll cost or the consultant's actual audited overhead rate, whichever is less. The Department currently limits its participation in the consultant's indirect payroll costs (overhead) on construction inspection projects to 85.2% of the direct payroll cost or the consultant's actual audited overhead rate, whichever is less. The Department's limitations will apply to the projects advertised above unless the Department policy is revised prior to the negotiation of an agreement or contract.

The assignment of the above services will be made to one of the firms responding to this notice, but the Committee reserves the right to reject all letters of interest submitted, to cancel the solicitations requested under this notice, and/or to readvertise solicitation for these services.

ENVIRONMENTAL HEARING BOARD

DEP v. Chester Stuckey; Doc. No. 96-025-SA-R

The Department of Environmental Protection (Department) and Chester Stuckey have agreed to a settlement of the above matter.

The parties have agreed to a settlement, the major provisions of which include that Chester Stuckey's Mine Official Certificates are suspended and shall be surrendered to the Department for a period of 1 year commencing as of January 23, 1996 and continuing through January 23, 1997. Following completion of the suspension period, on January 24, 1997, the Department will return Mine Foreman Certificate No. 1147, Assistant Mine Certificate No. 2004 and Mine Examiner Certificate No. 843 to Chester Stuckey without requiring him to undergo further examination.

Copies of the full agreement are in the possession of:

Gail A. Myers, Assistant Counsel, Department of Environmental Protection, Office of Chief Counsel, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4262;

Chester Stuckey, 2585 Jefferson Avenue, Washington, PA 15301;

and at the offices of the Environmental Hearing Board, and may be reviewed by any interested person on request during normal business hours.

Persons who are aggrieved by the above settlement have a right to appeal to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457. Appeals must be filed within 20 days of this publication.

If information concerning this notice is required in an alternative form, contact the Secretary to the Board at (717) 783-3483. TDD users may telephone the Board through the AT&T Pennsylvania Relay Service at 1 (800) 654-5984.

The Environmental Hearing Board is empowered to approve this settlement if no objection is timely filed with the Board.

ENVIRONMENTAL QUALITY BOARD

Areas Unsuitable for Coal Mining; Notice of Hearing

Petition #56959901. The Environmental Quality Board (EQB) and the Department of Environmental Protection invite all interested persons to attend a public hearing on a proposal to designate a portion of Shade Township, Somerset County, as unsuitable for surface mining operations. The petition area includes approximately 565 acres located northeast of the village of Reels Corners.

The hearing will be held at 7 p.m. on Wednesday, July 10, 1996, in the Central City Ambulance Service Building, located at 506 Sunshine Avenue, Central City, PA 15926.

The hearing concerns Petition No. 56959901, which was submitted by the Shade Township Supervisors.

The petitioners alleged that surface and underground mining could result in the degradation or loss of surface and groundwater resources, including aquifers and aquifer recharge areas.

The hearing will be legislative and fact-finding in nature where interested persons will be afforded an opportunity to present oral or written testimony and comments on the merits of the petition. Persons wishing to present oral testimony must register with the Department before 4:30 p.m. on Friday, July 5, 1996, and must bring three copies of the testimony to the hearing. Persons can register by calling (717) 783-8846 between 8 a.m. and 4:30 p.m., Monday through Friday. It is requested that only one person from each organization present testimony. Written comments will be accepted by the Department of Environmental Protection, Bureau of Mining and Reclamation, Room 213 Executive House, P. O. Box 8461, Harrisburg, PA 17105-8461 until 4:30 p.m., July 25, 1996, when the public record will close. Submission of comments by facsimile (fax) will not be accepted. Comments may also be submitted electronically to the Board at RegComments@a1.dep.state.pa.us and must be received by July 25, 1996.

Persons with a disability who require an auxiliary aid, service or other accommodation to participate in the proceedings should contact M. C. McCommons directly at (717) 787-4761, or through the AT&T Relay Service by calling 1 (800) 654-5984 (TDD users) or 1 (800) 654-5988 (voice users) before 4:30 p.m. on Wednesday, July 3, 1996, to discuss how the EQB may best accommodate their needs.

Insurance Commissioner

[Pa.B. Doc. No. 96-936. Filed for public inspection June 7, 1996, 9:00 a.m.]

Proposed Deregulation of Life and Annuity Forms

The Insurance Commissioner proposes to deregulate certain life insurance and annuity forms, as authorized by section 354 of The Insurance Company Law of 1921 (40 P. S. § 477b). This statement announces and explains the Commissioner's proposal, and seeks comments regarding the proposal from interested parties. Comments may be submitted as noted below.

Statutory Authority

Section 354 of The Insurance Company Law of 1921 (40 P. S. § 477b) requires that all policy forms for life insurance and annuities, and other lines of business, be submitted to the Insurance Commissioner for prior approval before issuance to any consumer in the Commonwealth. However, that law gives the Commissioner express authority to exempt forms from the prior approval requirement.

Section 354 provides:

It shall be unlawful for any insurance company . . . doing business in this Commonwealth, to issue, sell or dispose of any policy, contract or certificate . . . or use applications, riders or endorsements, in connection therewith, until the forms of the same have been submitted to and formally approved by the Insurance Commis-

sioner . . . except any forms which, in the opinion of the Insurance Commissioner, do not require [her] approval [Emphasis added.]

The regulations implementing section 354 merely repeat, and do not elaborate on, the provision authorizing the exemption of forms from filing and approval. See 31 Pa. Code § 89.3(a).

Insurers Subject to the Filing Requirement

Section 354 applies only to insurance companies, associations and exchanges, which terms are defined at section 101 of The Insurance Company Law (40 P. S. § 361).

Lines of Business to Which Exemption May be Applied

By its terms, section 354 regulates life insurance and annuity¹ business, including:

Group and Individual Life Insurance
Group and Individual Annuities

Forms Which Are Deregulated

The Commissioner's proposal extends to certain group and individual lines of business offered by life insurers only.

Group Forms Which Are Not Deregulated

The Commissioner's proposal to deregulate certain group forms does not extend to the following:

Group universal and group variable life policies and certificates and all riders, amendments, endorsements and applications used with them;

Individual retirement annuity (IRA) group annuity policies and certificates and all riders, amendments, endorsements and applications used with them;

Synthetic guaranteed investment contracts and certificates and all riders, amendments, endorsements and applications used with them; and

Group annuity policies issued to policyholders other than employers, trustees of employer funds, labor unions, police fraternities, firemen's fraternities, teachers' associations or federations, multiple employer trusts, labor union trusts, association trusts, associations, or trustees of collective trusts. All certificates, riders, amendments, endorsements and applications used with the aforementioned group annuity policies.

Continuing Authority of the Commissioner

Notwithstanding the implementation of this proposal, the Commissioner will retain complete authority to request and be provided a copy of any form being issued in this Commonwealth, as provided by section 903 of The Insurance Department Act of 1921 (40 P. S. § 323.3).

The Commissioner also will retain complete authority to reassume regulatory authority over the types of forms deregulated hereunder at her discretion.

Notwithstanding the deregulation of the forms specified herein, all such forms must continue to comply with applicable Pennsylvania law including, but not limited to:

Uniform Policy Provisions (40 P. S. § 510)
Standard Nonforfeiture Law for Life Insurance (40 P. S. § 510.1)
Group Life Insurance Act (40 P. S. § 532.1 *et seq.*)

Continuing Policy of the Department

¹ Section 354 does not regulate the approval of Credit Insurance forms or Fraternal Benefit Society forms, and, therefore, these are not affected by the deregulation proposed herein.

Section 354 of The Insurance Company Law of 1921 (40 P. S. § 477b) does not regulate guaranteed investment contracts without annuity provisions and funding agreement contracts without annuity provisions. However, section 202 of The Insurance Company Law of 1921 (40 P. S. § 382) does not authorize life insurance companies to issue such contracts in the Commonwealth.

Deregulated Commercial Lines Life Insurance and Annuity Forms

The following insurance forms may be used without prior approval consistent with compliance with appropriate statutory and regulatory requirements:

1) Individual Traditional Term Life policies (not including indeterminate premium, limited benefit¹, modified premium² or single premium term life policies).

2) Individual Traditional Whole Life policies, (not including interest sensitive, indeterminate premium, limited benefit¹ or modified premium² whole life policies).

3) Individual Traditional Endowment policies (not including interest sensitive, indeterminate premium or modified premium² endowment policies).

4) Individual Traditional Term Life riders (not including indeterminate premium, limited benefit¹ or modified premium² term life riders).

5) Individual Traditional Cost of Living, Guaranteed Purchase Option, Spouse Term, Child Term, Family Term, Other Insured, Dividend Additions, Business Exchange and Substitute Insured riders.

6) Individual Fixed Immediate Annuity policies, not including policies with market value adjustment or providing payments of interest only, and all riders, amendments and endorsements used with them.

7) Individual Annuity applications, except individual variable annuity applications.

8) Group Term Life policies and certificates. All riders, amendments, endorsements and applications used with them.

9) Group Whole Life policies and certificates. All riders, amendments, endorsements and applications used with them.

10) Group Annuity policies issued to employers, trustees of employer funds, labor unions, police fraternities, firemen's fraternities, teachers' associations or federations, multiple employer trusts, labor union trusts, association trusts, associations, or trustees of collective trusts. All certificates, riders, amendments, endorsements and applications used with them.

Effective Date

This proposal will not become effective until final action by the Commissioner following receipt and consideration of comments from interested persons. Filings made prior to the effective date cannot be used absent the prior approval of the Commissioner.

Duration of Deregulation

The Commissioner intends that the deregulation will remain in effect until a subsequent notice is issued by the Commissioner. The Commissioner intends that any such subsequent notice will be effective upon 90 days notice to the industry. The Commissioner further intends to review the implementation of this proposal at its 12 month anniversary, and annually thereafter, to ascertain

¹ Limited benefit life insurance policies are defined at 31 Pa. Code § 87.12.

² Modified premium life insurance policies are defined at 31 Pa. Code § 87.13.

whether additional forms should be deregulated, or whether she should reassume regulatory jurisdiction over forms previously deregulated.

Records Maintenance

Insurers will be required to maintain complete and accurate specimen copies of all deregulated forms which are issued to Pennsylvania residents. Such records shall include the date the form was first issued in the Commonwealth and specimen copies of all applications, certificates, riders, amendments and endorsements used with the deregulated policies. The records specified herein should be maintained until at least 2 years after a claim can no longer be reported under the form. (See Insurance Department Notice 1994-01.)

Pennsylvania's Current Stature in the Marketplace

At the present time approximately 23 states provide for some alternative other than requiring that life insurance and annuity forms issued in the market place be filed on a prior approval basis.

Four of our neighboring states provide for some deregulation of life and annuity forms: New Jersey, Ohio, Delaware, and the District of Columbia. Maryland, West Virginia, and New York continue to have regulatory schemes similar to Pennsylvania's prior approval system.

Anticipated Savings to the Commonwealth

The Insurance Department receives approximately 3,500 filings in the proposed deregulated categories each year. Implementation of this deregulation proposal will save the Department approximately 1,700 man hours per year. The Commissioner intends to redeploy these man hours within the Insurance Department to ensure the timely review and approval of form filings in other product lines.

Anticipated Costs to the Commonwealth

Implementation of this proposal is anticipated to cost the Commonwealth approximately \$12,000 per year in retaliatory fees that would otherwise be collected.

Anticipated Savings to the Insurance Industry

It is anticipated that this proposal will save the insurance industry approximately \$1.2 million per year, assuming that each form filing requires 10 man hours at an average salary of \$70,000 to:

- * prepare submission to the Insurance Department;
- * review, discuss and respond to Insurance Department inquiries regarding the filing; and
- * distribute, file and store copies of the approval received from the Department.

It is anticipated that the expense savings realized by insurers from this proposal will be passed along to Pennsylvania consumers in the form of lower rates.

Additionally, implementation of this proposal will permit insurers to bring their products to market quicker, allowing the industry to better respond to market conditions. Consumers will also benefit by having new products available more expeditiously.

Submission of Comments

Comments on this proposal must be filed with the Insurance Department no later than July 8, 1996. Thereafter, the Insurance Department will analyze the comments on the proposal, ascertain whether a public hearing or meeting is warranted, and make a final determination in this matter.

Comments should be directed to Gregory S. Martino, Deputy Insurance Commissioner, 1311 Strawberry Square, Harrisburg, PA 17120.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Petition of National Fuel Gas Distribution Corporation; Doc. Nos. P-00961054 and P-00961055

Petition of National Fuel Gas Distribution Corporation requesting: 1) Permission to Expand Participation In Low

Income Residential Assistance (LIRA) Rate; 2) Permission to Revise Rates Charged Under the Existing LIRA Rate; 3) Permission to Implement a Funding Mechanism to Provide for Recovery of Costs of Expanded LIRA Program; and 4) Waiver of Certain Provisions Under Chapter 56 of the Commission's Regulations. Docket No. P-00961054; Petition of National Fuel Gas Distribution Corporation Requesting Permission to Terminate Existing Base-Rate Charge for Recovery of Take-or-Pay Charges. Docket No. P-00961055.

National Fuel Gas Distribution Corporation (National Fuel), by its counsel, filed on May 1, 1996, with the Pennsylvania Public Utility Commission (Commission), two petitions. By the first petition (Docket No. P-00961054), National Fuel seeks permission to expand eligibility of its customers for the Low Income Residential Assistance (LIRA) plan. It wishes to create three tiers of rates for customers in the program. It also seeks to create a funding mechanism for the program and it asks waivers for certain rules contained in Chapter 56 of the Commission's regulations. Through the second petition (Docket No. P-00961054), National Fuel seeks permission to discontinue the surcharge contained in its rates to recover contract reformation, or take-or-pay, costs, billed to it by interstate natural gas pipelines under orders of the Federal Energy Regulatory Commission. It also asks that any over-recovered funds be applied to the LIRA plan.

Anyone desiring to comment regarding these petitions should file answers in the appropriate dockets with the Secretary, Pennsylvania Public Utility Commission, P. O. Box 3265, Harrisburg, PA 17105-3265 and provide copies to National Fuel. All such pleadings are due within 20 days of the date of publication of notice in the *Pennsylvania Bulletin*. Reply comments may be filed no later than 10 days thereafter. Copies of the National Fuel petitions are on file with the Commission and are available for public inspection. **Pennsylvania Public Utility Commission, Bureau of
Transportation and Safety v. Frederick J. Fischer;
A-00066385C9601 FS. 1 and 3**

Complaint

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania, empowered to regulate motor carriers and brokers within this Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Transportation and Safety and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. That Frederick J. Fischer, respondent, maintains a principal place of business at P. O. Box 112, Tylers Mill Road, Sewell, NJ 08080.

2. That at all times relevant to this Complaint, respondent held a certificate of public convenience issued by this Commission at Application Docket No. A-00066385, FS. 1 and 3.

3. That pursuant to Section 512 of the Public Utility Code, 66 Pa. Code § 512, and 52 Pa. Code Chapter 32, respondent is required to maintain evidence of current insurance on file with this Commission.

4. That respondent has failed to maintain evidence of cargo insurance, in violation of the Public Utility Code and regulations cited in Paragraph 3 of this complaint.

5. That as a result of failure to maintain evidence of current insurance on file with this Commission, the Bureau of Transportation and Safety Prosecutory Staff requests that the Commission revoke respondent's certificates of public convenience or order such other remedy as the Commission may deem to be appropriate.

Wherefore, the Bureau of Transportation and Safety Prosecutory Staff hereby requests that the Commission revoke the certificates of public convenience held by Frederick J. Fischer, at Docket No. A-00066385, FS. 1 and 3, for failure to maintain current evidence of insurance on file with the Commission and order such other remedy as the Commission may deem to be appropriate.

Respectfully submitted,

Kenneth E. Nicely, Director
Bureau of Transportation and Safety
P. O. Box 3265
Harrisburg, PA 17105-3265

Verification

I, Kenneth E. Nicely, hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief and that I expect to be able to prove the same at any hearing held in this matter. I

understand that the statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 relating to unsworn falsification to authorities.

Notice to Plead

A. You must file an answer within 20 days of the date of service. The date of service is the mailing date as indicated at the top of the Secretarial cover letter for this complaint and notice to plead. 52 Pa. Code § 1.56(a). The answer must raise all factual and legal arguments that you wish to claim in your defense and must include the docket number of this complaint. Your answer must be verified and the original and two copies sent to: John G. Alford, Secretary, Pennsylvania Public Utility Commission, P. O. Box 3265, Harrisburg, PA 17105-3265.

B. If you fail to answer this complaint within 20 days of the date of service as identified in Paragraph A above, the Bureau of Transportation and Safety will request that the Commission enter an order revoking your certificate of public convenience; contract carrier permit; or brokerage license or imposing such other remedy as may be appropriate.

C. In lieu of an answer, you may elect not to contest this complaint by causing your insurer to file proper evidence of current insurance in accordance with the Commission's regulations. The proof of insurance must be filed with the Secretary of the Commission at the address set forth in paragraph A. Upon receipt of the proof of insurance from your insurer, the complaint proceeding shall be closed.

D. If you file an answer which either admits or fails to deny the allegations of the complaint, the Bureau of Transportation and Safety will request that the Commission enter an order revoking your certificate of public convenience; contract carrier permit; or brokerage license.

E. If you file an answer which contests the complaint, the matter will be assigned to an Administrative Law Judge for hearing and decision.
