# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

## ***Pennsylvania Bulletin***

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

## **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

*Bulletin* before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

## **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

## ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

## **How to Find Documents**

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

GENERAL INFORMATION AND FINDING AIDS: (717) 783-1530**

### Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [ ] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

#### § 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

# THE GOVERNOR

## Title 4—ADMINISTRATION

### PART I. GOVERNOR'S OFFICE

[4 PA. CODE CH. 5]

[Executive Order No. 1998-1]

### Governor's Green Government Council

March 25, 1998

*Whereas*, the Constitution of the Commonwealth declares that the people of the Commonwealth have the right to clean air, pure water, and the preservation of the natural, scenic, historic, and aesthetic values of the environment; that Pennsylvania's public natural resources are the common property of all the people, including generations yet to come; and that the Commonwealth, as trustee of these resources, shall conserve and maintain them for the benefit of all the people (Pa. CONST. Art. I, § 27); and

*Whereas*, Pennsylvania's economy, health and safety, and quality of life of its citizens are dependent on the careful stewardship of resources, a healthy economy and the development of technologies to enable economic growth while improving the Commonwealth's environment; and

*Whereas*, the Commonwealth has long recognized its own responsibility for cleaning up Pennsylvania's environment, specifically under Executive Order 1973-9, Environmental Protection by State Agencies, which addresses compliance by all agencies with environmental laws and regulations and minimizing pollution in building design and construction, and Executive Order 1980-3, Life Cycle Costing, which requires agencies to use life cycle costing for building construction and major equipment acquisition; and

*Whereas*, in January 1996, Pennsylvania established the Office of Pollution Prevention and Compliance Assistance within the Department of Environmental Protection to spearhead efforts to assist Pennsylvania's businesses and industries to achieve economic savings while improving environmental quality; and

*Whereas*, Commonwealth agencies can demonstrate their commitment to improving the environment by using Strategic Environmental Management to realize economic savings and environmental enhancement; and

*Whereas*, with the approach of the twenty-first century, the Commonwealth's government needs to join Pennsylvania business and industry in shifting its environmental expectations beyond compliance toward the goal of zero emissions achieved through pollution prevention and energy efficiency; and

*Whereas*, Commonwealth agencies, through their management practices, can have quantifiable, positive environmental, and economic impacts;

*Now, Therefore*, I, Thomas J. Ridge, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws, do hereby establish the Governor's Green Government Council (hereinafter referred to as "Council").

## Annex A

## TITLE 4. ADMINISTRATION

## PART I. GOVERNOR'S OFFICE

## CHAPTER 5. COUNCILS AND COMMITTEES

**Subchapter 000. GOVERNOR'S GREEN GOVERNMENT COUNCIL**

Sec.	
5.951.	Purpose of the Governor's Green Government Council (Council).
5.952.	Responsibilities of the Governor's Green Government Council (Council).
5.953.	Composition of the Governor's Green Government Council (Council).
5.954.	Responsibilities of Commonwealth agencies.
5.955.	Responsibilities of the Department of Environmental Protection.
5.956.	Cooperation with other Commonwealth entities.
5.957.	Environmental compliance.
5.958.	Funding.

**§ 5.951. Purpose of the Governor's Green Government Council (Council).**

The purpose of the Council is to, cooperatively across agency jurisdictions, facilitate the incorporation of environmentally sustainable practices, including strategic environmental management, into Commonwealth government's planning, operations, and policymaking and regulatory functions, and to strive for continuous improvement in environmental performance with the goal of zero emissions. Strategic Environmental Management includes an environmental management system with a strong pollution prevention and energy efficiency program, effective community involvement, measurable economic and environmental performance goals, environmental accounting and life cycle analysis.

**§ 5.952. Responsibilities of the Governor's Green Government Council (Council).**

(a) The Council is responsible for providing advice and assistance in the preparation and review of agency Green Plans and the implementation of initiatives undertaken to fulfill these plans.

(b) The Council is responsible for providing advice and assistance in prioritizing initiatives undertaken to incorporate environmentally sustainable practices into Commonwealth government's planning, operations, policymaking and regulatory functions and to strive for continuous improvement in environmental performance with the goal of zero emissions.

**§ 5.953. Composition of the Governor's Green Government Council (Council).**

(a) The Council consists of the following members, each of whom shall be appointed by and serve at the pleasure of the Governor:

(1) The Secretaries of the Departments of Environmental Protection and General Services, who chair the Council jointly.

(2) Other individuals the Governor may appoint.

(b) Independent agencies shall be invited and encouraged to participate fully in the Council's efforts to foster the incorporation of environmentally sustainable practices throughout Commonwealth government.

**§ 5.954. Responsibilities of Commonwealth agencies.**

(a) Each executive agency, and all independent agencies participating voluntarily in the initiative under this subchapter, shall develop an annual plan, to be known as a green plan, outlining the actions the agency will take in the coming year to incorporate environmentally sustainable practices into its planning, operations, policymaking, and regulatory functions and to strive for continuous improvement in environmental performance with the goal of zero emissions. The green plan will also include the measures to be used to evaluate the effectiveness of the agency's actions. To facilitate their incorporation into the annual budget process, these plans shall be submitted to the Council for advice and assistance on or before June 1 of each year.

(b) Each agency shall assign a deputy secretary or individual in an equivalent position to be responsible to the agency head for overseeing agency activity directed toward incorporating environmentally sustainable practices into the agency's management and operations.

(c) Each agency shall identify a green team leader responsible for assuring the development and implementation of the agency's activities to incorporate environmentally sustainable practices into their management and operations and assign resources, as necessary, to support them.

(d) Initially, participating Commonwealth agencies shall focus on planning and operations, particularly energy efficiency, including building design and management, procurement of environmentally friendly commodities and services, vehicle purchases and management and recycling.

(e) All agencies under the Governor's jurisdiction shall cooperate fully with the Governor's Green Government Council (Council) and provide staff assistance and information as needed for the Council to carry out its functions effectively.

**§ 5.955. Responsibility of the Department of Environmental Protection.**

The Department of Environmental Protection shall assemble the individual agencies' green plans and submit them, together with an executive summary, including a progress report, to the Governor on or before September 1 of each year.

**§ 5.956. Cooperation with other Commonwealth entities.**

The Governor's Green Government Council (Council) shall cooperate with other Commonwealth entities, including the 21st Century Environment Commission; the Privatize, Retain, Innovate, Modify and Eliminate Initiative (PRIME); and the Governor's Market Development Task Force for Recycled Materials. The Council shall use information from these entities in developing the Commonwealth's Green Plan and shall, in turn, provide them with information.

**§ 5.957. Environmental compliance.**

Commonwealth agencies shall ensure that their government facilities and activities comply with applicable Federal and Commonwealth environmental laws and regulations. Source reduction and resource efficiency, including energy efficiency, shall, when feasible, be used to achieve compliance.

**§ 5.958. Funding.**

Each agency shall provide sufficient funds to develop and implement its green plan.

*Governor*

**Fiscal Note:** GOV 98-1. No fiscal impact; (8) recommends adoption.

### Effective Dates of Statutes

The effective dates specified above for laws and appropriation acts were contained in the applicable law or appropriation act. Where no date is specified of where the effective date specified is prior to the date of enactment, the effective date is 60 days after final enactment except for statutes making appropriations or affecting budgets of political subdivisions. See 1 Pa.C.S. §§ 1701—1704 (relating to effective dates of statutes).

### Advance Copies of Statutes

Section 1106 of Title 1 of the Pennsylvania Consolidated Statutes provides that the prothonotaries of each county shall file advance copies of statutes in their offices for public inspection until the Laws of Pennsylvania are generally available. Section 2406(h) of The Administrative Code of 1929 provides that the Department of General Services shall distribute advance sheets of the Laws of Pennsylvania to each law judge of the courts, to every county and public library of this Commonwealth, and to each member of the General Assembly. These copies shall be furnished without charge. The Department shall also mail one copy of each law enacted during any legislative session to any person who pays to it the sum of \$20.

Requests for annual subscriptions for advance copies of statutes should be sent to the State Bookstore, State Records Center Building, 1825 Stanley Drive, Harrisburg, PA 17103, accompanied by a check or money order in the sum of \$20, payable to the "Commonwealth of Pennsylvania".

### Legislative Bills and Documents

Copies of Senate Bills and Documents may be obtained from: Document Room, Senate of Pennsylvania, Room 34A, Main Capitol Building, Harrisburg, PA 17120, (717) 787-6732.

Copies of House Bills and Documents may be obtained from: Document Room, House of Representatives, 35 Main Capitol Building, Harrisburg, PA 17120, (717) 787-5320.

### BEAVER COUNTY

#### Educational Seminar Pertaining to Children of Divorcing Parents; No. 10471 of 1998

##### Order

Now, this 27th day of March, 1998, it is hereby Ordered that the following Local Rule be adopted. This Rule is to be effective thirty (30) days after publication in the *Pennsylvania Bulletin*. A copy of the Local Rule is to be sent to the Beaver County Legal Journal and the Beaver County Law Library.

By the Court

ROBERT C. REED,  
*President Judge*

#### Local Rule No. 1920. Educational Seminar Pertaining to Children of Divorcing Parents

All parties to divorce and custody actions filed on or after June 1, 1994, where the interests of children under the age of eighteen (18) are involved, shall, unless excused by the Court, complete a program which we have entitled the Educational Seminar Pertaining to Children of Divorcing Parents (the "Seminar"). Parties to support actions may be required by the Court to complete the Seminar. Parties to other pending actions may also be ordered to complete the Seminar.

All parties shall register for the first available Seminar after the date the defendant has been served with process. Counsel for the plaintiff shall require the plaintiff to register for the Seminar and shall have a copy of the attached notice and registration form served on the defendant at the same time as the complaint.

Failure of a party to successfully complete the Seminar will result in sanctions by the Court, including contempt.

Every complaint in divorce or custody shall set forth in a separate attached statement, the names, addresses and phone numbers of the parties, and the names and ages of all children under eighteen (18). This Rule shall become effective not less than thirty (30) days after the date of publication in the *Pennsylvania Bulletin*.

### FRANKLIN AND FULTON COUNTIES

#### Adoption of Civil Action Rule 39-1302; Miscellaneous Docket

##### Order of Court

March 19, 1998, the following Civil Action Rules are amended for the Court of Common Pleas of the 39th Judicial District of Pennsylvania, both the Franklin and

Fulton County Branches: 39-1302 and 39-1303, to be effective thirty (30) days after publication in the *Pennsylvania Bulletin*.

*By the Court*

JOHN R. WALKER,  
*President Judge*

*Rule 39-1302. Filing for Arbitration, Selection of Arbitration Panels, Scheduling.*

**39-1302.1 Filing for Arbitration.**

a. After the case is at issue in the Franklin County Branch, a praecipe for arbitration shall be filed with the Prothonotary by either party to an action with the appropriate filing fee.

b. A true copy of such praecipe shall be served by the filing party on the other party not more than seven days following the date of the filing.

c. At the time of the filing of the praecipe, the Prothonotary shall assign the new available arbitration date which shall be not less than forty days following the date of filing.

d. No more than one case shall be assigned to each available date.

**39-1302.2 Selection and Composition of Arbitration Panels.**

a. The Court Administrator shall divide the members of the Bar into three groups based on seniority in the Bar.

b. Commencing 1998, in October of each year the Court Administrator shall select one member from each group to create panels of three arbitrators each. The most senior member of each panel shall serve as the Chairman thereof.

**39-1302.3 Arbitration Dates and Schedule.**

a. Each year arbitrators shall be scheduled for each Friday which is a business day.

b. The first arbitration panel picked shall serve on the first arbitration date for the following year with subsequently selected panels serving on the succeeding arbitration dates.

c. The Court Administrator shall submit the list of panels and arbitration dates to the Court not later than the second Monday of each October for the entry by the Court of an order confirming the same.

d. Following the entry of such order, the Court Administrator shall promptly serve notice of the same upon all members of the Bar.

**39-1302.4**

After a case is at issue in Fulton County, a panel of three (3) attorneys from Fulton County shall be appointed, the most senior of whom shall be the chairman. It is the responsibility of the chairman to schedule the hearing pursuant to 39th Judicial District C.R. 39-1303.1.

**39-1302.5**

If for any reason it is not possible to fill a panel of three (3) arbitrator's in Fulton County, the Court Administrator shall randomly select additional names from the attorneys in Franklin County.

**39-1302.6**

In Fulton County cases the chairperson shall fix the date, time and place of hearing. The date set for the hearing shall not be more than sixty (60) days nor less than thirty (30) days after the appointment of the Board. Requisite notice of the date, time and place of the hearing shall be given by the Chairperson by regular mail, to the parties' attorneys of record, or to the parties if no attorney has appeared for them.

**Rule 39-1303. Notice.**

**39-1303.1.**

In all cases at issue in the 39th Judicial District, at least five (5) days prior to the hearing, each party shall provide the members of the panel other than the Chairperson with copies of all pleadings and appearances filed by that party. This may be done either personally, by deposit into the Courthouse mail receptacle of the member or by ordinary first class mail.

Copies of the pleadings to be furnished pursuant to this Rule need not be true and attested, signed or verified.

# RULES AND REGULATIONS

## Title 58—RECREATION

### FISH AND BOAT COMMISSION

#### [58 PA. CODE CHS. 51 AND 63]

#### Administration and Fishing

The Fish and Boat Commission (Commission) by this order amends Chapters 51 and 63 (relating to administrative provisions; and general fishing regulations). The Commission is publishing these amendments under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The amendments deal with administration and fishing.

#### A. *Effective Date*

These amendments will go into effect upon publication of this order adopting the amendments.

#### B. *Contact Person*

For further information on the amendments, contact Laurie E. Shepler, Assistant Counsel, (717) 657-4546, P. O. Box 67000, Harrisburg, PA 17106-7000. This final rulemaking is available electronically through the Commission's Web site at <http://www.fish.state.pa.us>.

#### C. *Statutory Authority*

These amendments are published under the statutory authority of sections 2102 and 2711 of the code (relating to rules and regulations; and issuing agents).

#### D. *Purpose and Background*

The amendments are designed to update, modify and improve Commission regulations pertaining to issuing agents and the display of fishing licenses and verification of license purchase. The specific purpose of the amendments is described in more detail under the summary of changes.

#### E. *Summary of Changes*

1) Sections 51.31, 51.34 and 51.35 (relating to responsibility of issuing agents; and stamps and permits; and operation of issuing agency). The Commission's staff recently undertook a review of the current licensing process, and beginning in 1998, the application form will no longer be used. The new process provides that the applicant will give the issuing agent the applicant's driver's license or other positive form of identification (as already required), and the agent will copy the information from the driver's license to the reverse side of the license. To address concerns about signatures being required on the display side of the license, staff were able to modify the reverse side of the license to include the signature of the applicant. This change, coupled with some other modifications to the reverse side of the form, will allow the Commission to eliminate the application form. Although the signature will still appear over the face of the trout stamp, this is hardly discernable except upon close inspection. The Commission has adopted changes to the issuing agent regulations set forth in Chapter 51, as proposed, to reflect the revised process for issuing licenses.

2) Section 63.2 (relating to display of fishing license). Current practice in the Bureau of Law Enforcement provides that when a resident is apprehended for fishing without a license in his possession and claims that he previously purchased a valid fishing license but left it

elsewhere, the apprehending officer will give the individual 7 days to produce the original license certificate. Current practice also provides that if it is inconvenient for the individual to produce the certificate in person, the officer may permit the individual to mail the original license certificate to the officer, and upon receipt, the officer will examine and verify it and return it to the individual. To codify this existing practice, the Commission has amended its regulations to add a new subsection (§ 63.2(c)), describing the process by which officers deal with claims that a person fishing without a license has left it elsewhere. The Commission adopted the amendment as proposed with a clarification suggested by the Bureau of Law Enforcement's staff, namely, that when the original license certificate is produced, it must show that it was purchased on a date and time prior to the date and time of apprehension.

#### F. *Paperwork*

The amendments will increase paperwork and create new paperwork requirements by virtue of the implementation of the new form for persons fishing without a license in possession.

#### G. *Fiscal Impact*

The amendments will have no adverse fiscal impact on the Commonwealth or its political subdivisions but will result in minor additional costs to the Commission as a result of the publication of the form to be given to persons caught fishing without a license in possession. The amendments will impose no new costs on the private sector or the general public in that the procedure relating to persons fishing without a license in possession codifies the Commission's existing practice.

#### H. *Public Involvement*

A notice of proposed rulemaking containing the proposed amendments was published at 27 Pa.B. 5784 (November 8, 1997). During the public comment period, the Commission did not receive any written comments. However, after the public comment period but prior to consideration by the Commission, the Commission received one written comment, favoring the new provision for persons caught fishing without a license in possession, and three written comments, opposing the proposal. Copies of all public comments were provided to the Commissioners.

#### *Findings*

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240)(45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder (1 Pa. Code §§ 7.1 and 7.2).

(2) A public comment period was provided and that all comments received were considered.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

#### *Order*

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 51 and 63, are amended by amending §§ 51.31, 51.34 and 51.35 to read as set forth at 27 Pa.B. 5784 and by amending § 63.2 to read as set forth at Annex A.

(b) The Executive Director will submit this order, 27 Pa.B. 5784 and Annex A to the Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order, 27 Pa.B. 5784 and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

PETER A. COLANGELO,  
*Executive Director*

**Fiscal Note:** 48A-72. (1) Fish Fund; (2) Implementing Year 1998-99 is \$2,000; (3) 1st Succeeding Year 1999-00 is \$0; 2nd Succeeding Year 2000-01 is \$0; 3rd Succeeding Year 2001-02 is \$0; 4th Succeeding Year 2002-03 is \$0; 5th Succeeding Year 2003-04 is \$0; (4) Fiscal Year 1997-98\$N/A; Fiscal Year 1996-97\$N/A; Fiscal Year 1995-96\$N/A; (8) recommends adoption.

#### Annex A

### TITLE 58. RECREATION

## PART II. FISH AND BOAT COMMISSION

### Subpart B. FISHING

#### CHAPTER 63. GENERAL FISHING REGULATIONS

##### § 63.2. Display of fishing license and verification of license purchase.

(a) *Officers designated to check licenses.* A person fishing in waters of this Commonwealth or in boundary waters shall show his fishing license upon the request of a waterways conservation officer, deputy waterways conservation officer or other officer authorized to enforce the code or this title under section 903 of the code (relating to delegation of enforcement powers).

(b) *Display on outer garment.* It is unlawful for a person required by Chapter 27 of the code (relating to fishing licenses) to purchase a fishing license to fish in the waters of this Commonwealth or in boundary waters unless the person displays the license certificate on a hat or outer garment while fishing. A warning will be issued for a first violation of this section if the person has a valid fishing license in his possession and about his person and shows it upon request. An institutional license issued under section 2708 of the code (relating to institutional licenses) may be displayed or maintained by the person fishing or by the person attending the person who is fishing.

(c) *Fishing without a license in possession.*

(1) When a resident of this Commonwealth is apprehended for fishing without a license in his possession and claims that he previously purchased a valid fishing license for that year, the officer apprehending the individual shall give the individual 7 days to produce the original of the license certificate, if the individual provides to the officer's satisfaction, at the time of apprehension, positive proof of identity and a residence address within this Commonwealth. The original license certificate shall show all required permits and a purchase date and time prior to the date and time of apprehension.

(2) If it is inconvenient for the individual to produce the certificate in person, the officer may permit the individual to mail the original license certificate to the

officer together with a stamped, self-addressed return envelope. If the officer permits the individual to mail the original license certificate to the officer, the officer shall provide the individual with a receipt or other documentation allowing the individual to fish during the period that the original license certificate is not in his possession.

(3) Upon receipt of the original license certificate, the officer shall examine and verify it and return it to the licensee.

(4) If the person apprehended fails to send the original license certificate and required permits to the officer within the time allotted, the officer shall institute summary proceedings against the individual in the manner prescribed by law.

## FISH AND BOAT COMMISSION

### [58 PA. CODE CH. 65]

#### Fishing

The Fish and Boat Commission (Commission) by this order amends Chapter 65 (relating to special fishing regulations). The Commission is adopting this regulation under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The regulation deals with fishing.

##### A. *Effective Date*

This regulation will go into effect on January 1, 1999.

##### B. *Contact Person*

For further information on the regulation, contact Laurie E. Shepler, Assistant Counsel, (717) 657-4546, P. O. Box 67000, Harrisburg, PA 17106-7000. This final rulemaking is available electronically through the Commission's Web site (<http://www.fish.state.pa.us>).

##### C. *Statutory Authority*

This regulation is published under the statutory authority of section 2102 of the code (relating to rules and regulations).

##### D. *Purpose and Background*

The regulation is designed to update, modify and improve Commission regulations pertaining to fishing. The specific purpose of the regulation is described in more detail under the summary in Part E of this Preamble.

##### E. *Summary*

Angler opinions from the 1991 Trout Angler Telephone Survey resulted in strong support for the creation of more limited kill areas on wild trout fisheries. The same general theme was supported by the participants of the recent Wild Trout Workgroup. In keeping with this concept, the Commission adopted a new All Tackle Selective Harvest Program. This regulation is designed to enhance wild trout fisheries, while providing anglers with an opportunity for limited harvest of larger individuals.

The All Tackle Selective Harvest Program provides an alternative to the current Selective Harvest Program, where angling is limited to the use of artificial lures only (including flies and streamers). The regulation appeals to a broad spectrum of anglers, as fishing is permitted with the use of artificial lures, flies, streamers, natural bait, baitfish or fishbait. Both spinning and fly fishing gear is

permitted in these areas. This regulation provides for year-round angling (no closed season) with a 12-inch minimum length limit on brown trout and a 9-inch minimum length limit for all other salmonid species. The daily creel limit is two trout (combined species) from 8 a.m. on the opening day of regular trout season to midnight Labor Day. No harvest is permitted from mid-

night Labor Day to 8 a.m. on the opening day of regular trout season of the following year.

Waters for the All Tackle Selective Harvest Program include the following. In addition, the Commission's staff expect to have several new waters to add to this Program. However, time did not permit staff to complete all of the necessary landowner contacts.

County	Water	Description
Westmoreland	Camp Run	Currently managed as a Class A wild brook trout fishery and unstocked. From the headwaters downstream to the mouth, a distance of 4.1 miles.
Cameron	Hunts Run	Currently managed as a Class A wild brown trout fishery and unstocked. From the confluence with McNuff Branch downstream to the mouth, a distance of 4.7 miles.
Potter	Sinnemahoning Creek East Fork	Currently managed as a Class A wild brown trout fishery and unstocked. From the confluence with Wild Boy Run downstream to the confluence with Camp Run, a distance of 2.9 miles.
Union	Cherry Run	Currently managed as a Class A wild brown trout fishery and unstocked. From a point 2.7 miles upstream from the mouth downstream to the mouth, a distance of 2.7 miles.

F. Paperwork

The regulation will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The regulation will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The regulation will impose no new costs on the private sector or the general public.

H. Public Involvement

A notice of proposed rulemaking containing the proposed regulation was published at 27 Pa.B. 6333 (December 6, 1997). After the public comment period, the Commission received one comment, opposing the new program. A copy of this public comment was provided to the Commissioners.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the regulation adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240)(45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder (1 Pa. Code §§ 7.1 and 7.2).

(2) A public comment period was provided and all comments received were considered.

(3) The adoption of the regulation of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 65, are amended by adding § 65.4b to read as set forth at 27 Pa.B. 6333 (December 6, 1997).

(b) The Executive Director will submit this order and 27 Pa.B. 6333 to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and 27 Pa.B. 6333 and deposit the same with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

C. Statutory Authority

This regulation is published under the statutory authority of section 2102 of the code (relating to rules and regulations).

#### D. Purpose and Background

The regulation is designed to update, modify and improve Commission regulations pertaining to fishing. The specific purpose of the regulation is described in more detail under the summary of changes.

#### E. Summary of Changes

Fishing for panfish in this Commonwealth represents one of the most popular forms of recreational angling. Panfish may include sunfish, yellow perch, crappies, catfish, rock bass, suckers, eels, carp and white bass. The popularity of this broad array of species has been documented in United States Fish and Wildlife surveys which show that, in this Commonwealth, with the exception of trout, anglers spend more time fishing for these species than any other. In 1991, anglers spent at least 8,023,000 days fishing for panfish in this Commonwealth. By comparison, 11,125,000 angler days were directed towards trout and 7,186,000 angler days were directed towards black bass.

In most inland waters in this Commonwealth, harvest of panfish is regulated with a 50 fish combined species creel limit. Size restrictions and seasonal harvest restrictions do not apply. As might be expected, those individual species that comprise the panfish group exhibit different levels of popularity among anglers and different levels of vulnerability to capture by anglers. This regulation is specifically directed to lake populations of bluegill, pumpkinseed and redear sunfish referred to as sunfish; black crappie and white crappie referred to as crappie; and yellow perch.

Lake angler surveys conducted by the Commission (1978—1990) show that 47% of all fishing time is spent in pursuit of sunfish, crappie and yellow perch, as defined above. The ease with which these species are caught, as described by their high catch rate in creel surveys, contributes to their broad popularity and provides an ideal means by which to introduce youth and others to fishing. Their ease of capture, however, particularly in waters containing more robust populations, may in certain cases, contribute to reduced availability of desirable size fish. Desirable size panfish represent the size most anglers like to catch. Carefully crafted harvest restrictions have increased the abundance of larger individuals of various other species within this Commonwealth. For example, black bass populations have improved through the Conservation Lake and Big Bass programs. Examination of sunfish, crappie and yellow perch size structure data revealed that many panfish populations across the State yield good numbers of desirable size fish; however, some waters were identified where angler harvest was suspected to reduce the abundance of desirable size fish.

The Commission's goals for a small group of panfish study lakes are to 1) increase the number of desirable size panfish available to anglers; and 2) increase the number of satisfied anglers targeting panfish. To meet these goals, the Commission has identified the following objectives that will serve to gauge progress toward goal achievement and ultimately provide a benchmark by which to judge success of this initiative:

- 1) Increase the number of sunfish over 7 inches and number of crappie and yellow perch over 9 inches available for harvest, as measured in biological assessment catches (example: net catch, electrofishing catch);
- 2) Increase the number of satisfied anglers targeting sunfish, crappie and yellow perch as measured through angler contact surveys; and

- 3) Increase the number of desirable size panfish harvested, as measured by creel surveys on selected waters.

Minimum length limits and creel limits represent some of the best tools available to reduce angler harvest and increase the number of larger panfish. Minimum length limits have the most utility in fostering an increase in abundance of desirable size panfish sufficient to reach objectives. A reduced creel limit may have less utility initially, but as populations of desirable size fish increase, they will play a more important role.

The Commission therefore has adopted § 65.11 (relating to panfish enhancement special regulations). This special regulation imposes a 7-inch length limit for sunfish (principally bluegill, pumpkinseed and redear sunfish), a 9-inch length limit for crappie (black and white crappie) and a 9-inch length limit for yellow perch. Any one or all three length regulations might apply to any given lake. The Commission also has adopted the following daily creel limits for the waters to be subject to the regulation: 20 for each species group with a length limit and a total creel limit of 20 (combined species). The Commission adopted this regulation as proposed with one change: a total creel limit of 20 (combined species) instead of the proposed 50.

The Commission has some concerns that anglers may view the regulation as the "answer to all problems" when it comes to panfish. Thus, some commentary on fisheries biology and angler expectations seems to be in order. Numerous biological and physical elements combine to shape the abundance and size structure of panfish populations, in addition to angler harvest. For example, density of predators, density of other competing species, quantity of aquatic vegetation (that affords necessary nursery and food producing habitat for panfish), quantity of forage organisms and water quality are a few elements that affect the abundance of desirable size panfish. All of these elements combine to influence the number of young produced, their growth rate and the rate at which they survive to adulthood or desirable size. Survival is influenced by natural loss (predation, for example) and by loss due to angler harvest. This illustrates that angler removals represent just one component that could influence the abundance of desirable size panfish.

Biologists will propose for Commission consideration study waters for inclusion in the program based upon their understanding of these elements and based upon a review of panfish population data throughout the State. In addition, measurable guidelines have been developed to indicate when a panfish population might be reduced in quality due to angler harvest, and where the special regulations might be expected to attain target objectives. It should be known that biologists use other management tools, in addition to special regulations, to enhance panfish abundance every day (for example, predator-prey balance is frequently adjusted by stocking a predator fish, and manipulation of over-winter lake water levels is frequently carried out to adjust the quantity of macrophyte habitat available for some panfish).

Using measurements of vital rates such as growth and mortality, coupled with assumptions relative to production of young, Commission biologists predict that the special regulation applied to selected lakes will, over time, yield an approximate 50% increase in abundance of sunfish age 3 and older as well as crappie and yellow perch age 4 and older (all desirable size fish). However, it has also been determined that immediately after imposition of the regulation, there will be a reduction in angler harvest, simply because it will take several years for fish

to increase in number below the newly established minimum size limit and before the increase will yield measurable quantities of fish above the length limit. An overall measurable increase is expected in about 5 years based upon model computations and past experience with other warmwater species. Increases will only be realized in waters where fishing intensity reduces the abundance of desirable size panfish. That is, the special regulation should not be considered to yield similar effects where abundance of desirable size individuals is below expectations for other biological or physical reasons. For example, restricting harvest at a lake with a stunted panfish population might increase the stunting problem, so care will be used in selecting experimental lakes for inclusion in the program.

The Commission believes that the panfish special regulation in selected lakes will: (1) meet objectives, since computations using measured vital rates indicate that substantive increases in abundance of larger fish will be attained after a number of years; and (2) be well received by anglers since angler opinion surveys demonstrate that those anglers polled favored panfish harvest restrictions similar to those as adopted.

F. Paperwork

The regulation will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The regulation will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The regulation will impose no new costs on the private sector or the general public.

H. Public Involvement

A notice of proposed rulemaking containing the proposed regulation was published at 27 Pa.B. 5614 (November 1, 1997). Instead of the usual 30-day public comment period, the notice provided for a 60-day public comment period. During the public comment period, the Commission received three written comments. One favored the proposal as written, one generally supported a creel limit for panfish but thought that it should be set at 15 (not 20) and one opposed the proposed creel limit. The Commission also received one comment after the public comment period opposing the proposed regulation. Copies of all public comments were provided to the Commissioners.

Findings

The Commission finds that:

<i>Species</i>	<i>Seasons</i>	<i>Minimum Size</i>	<i>Daily Limit</i>
Sunfish (bluegill, pumpkinseed and redear)	Open year-round	7 inches	20 (combined species)
Crappie (black and white)		9 inches	
Yellow perch		9 inches	
Other species—inland seasons and size and creel limits apply.

(1) Public notice of intention to adopt the regulation adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder (1 Pa. Code §§ 7.1 and 7.2).

(2) A public comment period was provided and that all comments received were considered.

(3) The adoption of the regulation of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 65, are amended by adding § 65.11 to read as set forth in Annex A.

(b) The Executive Director will submit this order and Annex A to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and Annex A and deposit the same with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

(b) It is unlawful to fish in designated and posted "Panfish Enhancement Special Regulation" waters except in compliance with the following seasons and size and creel limits:

# PROPOSED RULEMAKING

## FISH AND BOAT COMMISSION

[58 PA. CODE CHS. 61 AND 65]

### Fishing; Extension of Public Comment Period

On January 3, 1998, the Fish and Boat Commission (Commission) published a notice of proposed rulemaking in the *Pennsylvania Bulletin* at 28 Pa.B. 45, seeking public comments, objections or suggestions about proposed changes to its current bass regulations. Specifically, the Commission sought public comments on proposed amendments to 58 Pa. Code §§ 61.1, 65.8 and 65.9 (relating to Commonwealth inland waters; warmwater/coolwater species special conservation waters; and big bass special regulations). The notice of proposed rulemaking provided for a 90-day public comment period from the date of publication. By notice dated March 14, 1998 in the *Pennsylvania Bulletin* at 28 Pa.B. 1322, the Commission extended the public comment period for these proposed amendments until May 15, 1998.

The Commission again extends the public comment period to June 15, 1998.

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

### Applications, Actions and Special Notices

---

#### APPLICATIONS

#### APPLICATIONS RECEIVED UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

#### DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

##### (Part I Permits)

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

**PA 0051942.** Sewage, **Stephen and Margaret Brower**, 40 Grays Lane, Elverson, PA 19520.

This application is for renewal of an NPDES permit to discharge treated sewage from a small flow sewage treatment plant in Warwick Township, **Chester County**. This is an existing discharge to unnamed tributary to French Creek.

The receiving stream is classified for the following uses: high quality warm water fishery, high quality cold water fishery, aquatic life, water supply and recreation.

The proposed effluent limits for Outfall 001, based on an average flow of 400 gpd are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD <sub>5</sub> (5-1 to 10-31)	10	20

**PA 0011169.** Industrial waste, SIC: 3351, **Brush Wellman, Inc.**, P. O. Box 973, Reading, PA 19603.

This application is for renewal of an NPDES permit for an existing discharge of treated industrial and sanitary waste to an unnamed tributary of the Schuylkill River and the Schuylkill River, in Perry Township, **Berks County**.

The receiving streams are classified for warm water fishes, recreation, water supply and aquatic life. For the purpose of evaluating effluent requirements for TDS, NO<sub>2</sub>-NO<sub>3</sub>, fluoride and phenolics, the existing downstream potable water supply intake considered during the evaluation was the Pottstown Borough Authority located on the Schuylkill River. The discharge is not expected to impact any potable water supply.

Part C requirements for toxics are briefly listed as:

1. Water quality based effluent goals for total lead and free cyanide.
2. Requirements to submit the first phase of a toxics reduction evaluation within 2 years of permit issuance.
3. Conditions for future permit modifications.
4. Procedures for granting time extensions to achieve final water quality based effluent limitations.
5. Procedures for demonstrating alternative site-specific bioassay based effluent limitations.
6. Procedures for demonstrating alternative method detection limits.

**PA 0024961.** Sewage, SIC: 4952, **Oley Township Municipal Authority**, P. O. Box 19, Oley, PA 19547.

This application is for renewal of an NPDES permit for an existing discharge of treated sewage to the Manatawny Creek, in Oley Township, **Berks County**.

The receiving stream is classified for cold water fishes, recreation, water supply and aquatic life. For the purpose of evaluating effluent requirements for TDS, NO<sub>2</sub>-NO<sub>3</sub>, fluoride and phenolics, the existing downstream potable water supply intake considered during the evaluation was Pottstown Water Supply located on the Schuylkill River. The discharge is not expected to impact any potable water supply.

The proposed effluent limits for Outfall 001 for a design flow of 0.40 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Average Weekly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>

**PA 0037966-A2** SIC: 4952, **Moshannon Valley Joint Sewer Authority**, P. O. Box 581, Phillipsburg, PA 16866-0581.

This amendment is necessary to make the NPDES permit consistent with the pending Water Quality Management Permit No. 1498404, which will rerate the existing sewage treatment plant to 1.732 mgd annual average flow.

This proposed action is to amend the NPDES permit for an increase in discharge of treated sewage to Moshannon Creek in Rush Township, **Centre County**.

The receiving stream is classified for the following uses: warm water fishery, aquatic life, water supply and recreation.

For the purpose of evaluating effluent requirements for TDS, NO<sub>2</sub>-NO<sub>3</sub>, fluoride and phenolics, the existing downstream potable water supply (PWS) considered during the evaluation is Milton intake located on the Susquehanna River, 155 miles downstream.

The proposed effluent limits for Outfall 001, based on an annual average design flow of 1.732 mgd, are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Average Weekly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>

#### **Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges**

---

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewater into the surface waters of this Commonwealth. The Department of Environmental Protection (Department) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management and total residual chlorine control (TRC). Major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Operations indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on the Department's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

### Applications under the Pennsylvania Clean Streams Law

#### (Part II Permits)

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection.

Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number; identification of the plan or application to which the protest is addressed; and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protest or protests. Each commentator will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact the Secretary to the Board at (717) 787-3483. **INDIVIDUAL PERMITS****(PAS)**

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the office noted above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

**LAND RECYCLING AND ENVIRONMENTAL REMEDIATION****Under Act 2, 1995****Preamble 1****Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).**

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department must provide a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under

the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

*Northeast Regional Field Office, Joseph Brogna, Regional Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (717) 826-2511.*

**James Meilinger Property**, Bethlehem Township, **Northampton County**. Terrence Shannon, Project Director with Synergist, Inc., 10 Enterprise Drive, Carbondale, PA 18407 (on behalf of his client, Nancy Meilinger, 1375 Van Buren Road, Easton, PA 18045) has submitted a Notice of Intent to Remediate concerning the remediation of site soils suspected to be contaminated with lead. The applicant proposes to remediate the site to meet the Statewide human health standard.

**Former Penn Linen and Uniform Service**, Hanover Township, **Lehigh County**. John Chen, Environmental Engineer, Unitog Rental Services, 1300 Washington Street, Kansas City, MO 64105, has submitted a Notice of Intent to Remediate concerning the remediation of site soils suspected to be contaminated with solvents (tetrachloroethylene). The applicant proposes to remediate the site to meet the Statewide human health standard.

**Teel Residence**, Upper Mt. Bethel Township, **Northampton County**. Kevin Van Kuren, President, Hydrocon Services, Inc., 2945 South Pike Avenue, Allentown, PA 18103 has submitted a Notice of Intent to Remediate (on behalf of his client, Dorothy Teel, 2445 North Delaware Drive, Mt. Bethel, PA 18343) concerning the remediation of site soils contaminated with polyaromatic hydrocarbons. The applicant proposes to remediate the site to meet the Statewide human health standard. A Final Report was simultaneously submitted. See additional *Pennsylvania Bulletin* notice.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 2

**Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).**

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a

release of a regulated substance at a site. Persons intending to use a site-specific standard or who intend to remediate a site in a Special Industrial Area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific cleanup standard, in whole or in part, and for sites determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified, a municipality may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, a municipality may request that the person identified, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of a site. For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

**AIR POLLUTION**

**Public Notice**

**Notice of Plan Approval and Operating Permit Applications**

**Non-major Sources and Modifications**

The Department of Environmental Protection (Department) has developed an integrated plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application and at one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Offices identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits have 30 days to submit protests or comments. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with the Department's Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the

objections. If the Department's schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the act.

#### Notice of Intent to Issue Title V Operating Permits

Under 25 Pa. Code § 127.521, notice is given that the Department of Environmental Protection (Department) intends to issue a Title V Operating Permit to the following facilities. These facilities are major facilities subject to the operating permit requirements under Title V of the Federal Clean Air Act and 25 Pa. Code Chapter 127, Subchapters F and G (relating to operating permit requirements; and Title V operating permits).

Copies of the Title V application, proposed permit and other relevant information are available for public inspection and additional information may be obtained by contacting the regional office noted.

Interested persons may submit written comments, suggestions or objections concerning the proposed Title V permit to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall include the name, address and telephone number of the person submitting the comments, along with the reference number of the proposed permit. The commentator should also include a concise statement of objections to the permit issuance and the relevant facts upon which the objections are based.

The Department reserves the right to hold a public hearing on the proposed action based upon the information received during the public comment period and will provide notice of any scheduled public hearing at least 30 days in advance of the hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation where the facility is located.

## MINING

### APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. § 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

## APPLICATIONS RECEIVED UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT

### ENCROACHMENTS

The following Dam Safety and Encroachment permit applications, requests for Environmental Assessment approval, and requests for water quality certification have been received by the Department of Environmental Protection. Section 401(a) of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)) requires the State to certify that the involved projects will not violate the applicable provisions of 33 U.S.C.A. §§ 1311—1313, 1316 and 1317, as well as relevant State requirements. Initial requests for 401 certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Safety or Encroachment Permit or the approval of Environmental Assessments must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

#### ACTIONS

#### FINAL ACTIONS TAKEN UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

**[National Pollution Discharge Elimination System Program (NPDES)]**

**DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER**

**(Part I Permits)**

The Department of Environmental Protection has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514), and 2 Pa.C.S. §§ 501—508 and 701—704

(relating to the Administrative Agency Law) to the Environmental Hearing Board, 400 Market Street Floor 2, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audio tape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

## INDIVIDUAL PERMITS

(PAR)

The following parties have submitted Notices of Intent (NOIs) for Coverage under (1) General NPDES Permit(s) to discharge wastewater into the surface waters of the Commonwealth. The approval for coverage under these general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in the general permit; (2) General Permit(s) for Beneficial Use of Sewage Sludge or Residential Septage by Land Application in Pennsylvania. The approval of coverage for land application of sewage sludge or residential septage under these general permits is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices, and other conditions set forth in the respective general permit. The Department of Environmental Protection approves the following coverages under the specified General Permit.

The EPA Region III Regional Administrator has waived the right to review or object to this permit action under the waiver provision: 40 CFR 123.24.

The application and related documents, effluent limitations, permitting requirements, and other information are on file and may be inspected and arrangement made for copying at the contact office noted.

### LAND RECYCLING AND ENVIRONMENTAL REMEDATION

**Under Act 2, 1995**

**Preamble 3**

**The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908)**

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, please contact the Environmental Cleanup Program in the Department of Environmental Protection Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following final reports.

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment Approval, and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, telephone (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and proce-

dures may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board, (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

**Actions on applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. ### Availability of Technical Guidance

Technical guidance documents are on DEP's World Wide Web site (<http://www.dep.state.pa.us>) at the Public Participation Center. The "January 1998 Inventory" heading is the Governor's List of Non-regulatory Documents. The "Search the Inventory of Technical Guidance Documents" heading is a database of the Inventory. The "Final Documents" heading is the link to a menu of the various DEP bureaus and from there to each bureau's final technical guidance documents. The "Draft Technical Guidance" heading is the link to DEP's draft technical guidance documents.

DEP will continue to revise its documents, as necessary, throughout 1998.

#### *Ordering Paper Copies of DEP Technical Guidance*

Persons can order a bound paper copy of the latest Inventory or an unbound paper copy of any of the final documents listed on the Inventory by calling DEP at (717) 783-8727.

In addition, bound copies of some of DEP's documents are available as DEP publications. Persons should check with the appropriate bureau for more information about the availability of a particular document as a publication.

#### *Changes to Technical Guidance Documents*

Here is the current list of recent changes. Persons who have any questions or comments about a particular document should call the contact person whose name and phone number is listed with each document. Persons who have questions or comments in general should call Jonathan Brightbill at (717) 783-8727.

## DEPARTMENT OF TRANSPORTATION

### Retention of Engineering Firms

#### Fayette, Greene, Washington and Westmoreland Counties Project Reference No. 08430AG2175

The Department of Transportation will retain an engineering firm for an Open-End Contract for various engineering and/or environmental services on various projects located in Engineering District 12-0, that is Fayette, Greene, Washington and Westmoreland Counties. The Contract will be for a sixty (60) month period with projects assigned on an as-needed basis. The maximum amount of the Open-End Contract will be \$1.0 million.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Specialized experience and technical competence of firm.
- c. Past record of performance with respect to cost control, work quality, ability to meet schedules, and previous experience on Open-End Contracts. The specific experience of individuals employed by the firm shall be considered.
- d. Location of Consultant in respect to the District.
- e. Available staffing for this assignment and the ability to meet the Department's needs.
- f. Projected workload for the next two 2) calendar years.

The work and services required under this Contract may encompass a wide range of environmental studies and engineering efforts with the possibility of several different types of projects with short completion schedules being assigned concurrently. The anticipated types of projects include, but not limited to, bridge replacements or bridge rehabilitation with minor approach work, environmental studies, roadway betterments (3R type), minor capital improvement projects (bridges or roadway), railroad grade crossing projects, and minor location studies, etc.

The engineering work and services which may be required under this Contract include, but are not limited to: perform field surveys; plot topography and cross sections; prepare submission for utility verification and relocations engineering; prepare all pertinent submissions and materials necessary for the Department to prepare the application to PUC and for the PUC field conference; attend and supply any required information for all PUC meetings and hearings during the design of the project; develop erosion control details and narrative; prepare right of way plans; complete structure designs including type, size, and location reports, core boring layouts and foundation designs and reports; develop traffic control plans with narratives; conduct soils investigations and prepare soils reports; investigate utility involvement on projects; provide material for and participate in value engineering reviews; coordinate contacts with railroad officials and procure railroad related costs, permits, and insurance; collect signal timing, accident data and other traffic flow data; document engineering study findings and activities; alternative analysis to assess impacts and mitigation; and prepare construction plans, specifications, and estimates.

The areas of environmental study required under the Contract may include, but are not limited to: air quality; noise; energy; vibration; hazardous waste; surface water and ground water quality; surface water and ground water hydrology; terrestrial ecology including threatened and endangered species; wetlands; soils; geology; farmlands; visual quality; socio-economic resources; cultural resources; Section 4(f) Evaluations; early coordination and; scoping correspondence; meeting minutes; public meeting and hearing presentations; visualization materials, handouts and displays; technical basis reports (TBRs) and/or technical files; NEPA environmental documents; Section 106 documents; mitigation plans and reports; wetland and floodplain findings; and preliminary engi-

neering plans, and remote sensing/mapping innovations. The format and content of all documents will be consistent with applicable State and Federal regulations, policies and guidelines.

The engineering services and environmental studies identified above are the general work activities that can be expected under this Open-End Contract. A more specific and project-related Scope of Work will be outlined for each individual Work Order developed under this Open-End Contract.

The second copy of the letter of interest and required forms, (see general requirements and information section shall be sent to: Mr. Michael H. Dufalla, P.E., District Engineer, District 12-0, P. O. Box 459, Uniontown, PA 15401.

Any technical questions concerning the requirements for this project should be directed to: Mr. William Oshnack, District 12-0, at (724) 439-7321.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

**Montour and Northumberland Counties  
Project Reference No. 08430AG2176**

The Department of Transportation will retain an engineering firm to provide supplementary construction inspection staff of approximately five (5) inspectors, under the Department's Inspector-in-Charge, for construction inspection and documentation services for S.R. 0054, Section 014 and S.R. 0054, Section A14, in Montour and Northumberland Counties.

The project designated S.R. 0054, Section 014 will provide a new bridge across the Susquehanna River from Riverside to Danville with associated roadway construction. The project designated S.R. 0054, Section A14 will provide construction of the approach roadway to the bridge which will feature a unique cut and cover through the historic district of Danville. The construction will take approximately two (2) years.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Number of available inspectors in each payroll classification.
- c. Number of NICET certified inspectors in each payroll classification.
- d. Review of inspectors' resumes with the emphasis on construction inspection, capabilities and specialized experience in structures, asphalt paving, drainage, CPM scheduled usage, construction documentation system and soils.
- e. Understanding of Department's requirements, policies, and specifications.
- f. Past performance.

g. Workload.

The qualifications and experience required of the firm's inspectors will be established by the Department, and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

It is anticipated that the supplementary construction inspection staff for this assignment will consist of the following number of inspectors who meet the requirements for the following inspection classifications:

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Manager (TCM-1) (NICET Highway Construction Level 4 or equivalent)	1 (1)
Transportation Construction Ins. Super. (TCIS) (NICET Highway Construction Level 3 or equivalent)	2 (2)
Transportation Construction Inspector (TCI) (NICET Highway Construction Level 2 or equivalent)	2 (2)

The number(s) in parenthesis above indicate the number of inspectors in each Classification that must meet at least one of the following requirements:

1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of Highway Construction, or subfield of Highway Materials, at the Level required for the Inspection Classification.
2. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
3. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
4. Hold a Bachelor of Science Degree in Civil Engineering or a Bachelor of Science Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.
5. Hold an Associate Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

One inspector in the TCIS and TCI classification must be certified by the Northeast Center of Excellence for Pavement Technology (NECEPT) as a Field Technician.

Since this project is a large bridge, all of the inspectors assigned must have a climbing ability.

The maximum reimbursement per hour of inspection for each Department Payroll Classification for calendar year of 1998:

<i>Payroll Classification</i>	<i>Maximum Straight Time Reimbursement Per Hour Of Inspection</i>
(TCM-1)	\$44.93
(TCIS)	\$39.36
(TCI)	\$34.43

The maximum reimbursement per hour of inspection includes all costs for providing construction inspection services at the project site during the normal work week.

Maximum reimbursement per hour of inspection for subsequent calendar years, if applicable, will be established at the scope of work meeting.

The firm selected may be required to attend a pre-construction conference with the Department and the construction contractor for this project. Under the supervision and direction of the Department, the selected firm will be required to keep records and document the construction work; prepare current and final estimates for payment to the construction contractor; assist the Department in obtaining compliance with the labor standards, safety and accident prevention, and equal opportunity provisions of the contract item; and perform other duties as may be required.

The goal for Disadvantaged Business Enterprise (DBE) participation in this Agreement shall be fifteen percent (15%) of the total contract price. Additional information concerning DBE participation in this Agreement is contained in the General Requirements and Information Section after the advertised project(s).

Letters of interest for this project must include a letter, signed by the individuals you propose for all TCM-1 and/or TCIS positions, giving their approval to use their name in your letter of interest for this specific project.

The maximum number of resumes to be included in the letter of interest shall be as follows:

<i>Classification</i>	<i>No. of Resumes</i>
TCM-1	2
TCIS	3
TCI	3

The second copy of the letter of interest and required forms, (see general requirements and information section shall be sent to: Mr. Paul E. Heise, P.E., District Engineer, District 3-0, P. O. Box 218, Montoursville, PA 17754,

Any technical questions concerning the requirements for this project should be directed to: Mr. John P. Ryan, P.E., District 3-0, at (717) 368-4233.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

**Allegheny and Beaver Counties  
Project Reference No. 08430AG2177**

The Department of Transportation will retain an engineering firm to provide supplementary construction inspection staff of approximately twelve (12) inspectors, under the Department's Inspector-in-Charge, for construction inspection and documentation services on the following projects:

1. S.R. 3077, Section A05, Allegheny County. Local Name: Beaver Grade Widening. This project involves the reconstruction of Beaver Grade Road and Coraopolis Heights Road to improve sight distance and add turning lanes. Also included is concrete curb gutter, drainage, driveway adjustments, new traffic signal installation at their intersection, signing, pavement markings, and widening for a right turn lane on Beaver Grade Road at the intersection with Thorn Run Road.

2. S.R. 0065, Section B13, Beaver County. Local Name: Mercer Road. This project involves the milling and resurfacing with bituminous wearing course and bituminous binder course of Mercer Road in Beaver County. Also included is paved shoulders, rebuilding inlets, driveway adjustments, and guide rail.

3. S.R. 0051, Section B16, Beaver County. Local Name: Ohio River Boulevard. This project involves concrete patching, bituminous wearing course, bituminous binder course, guide rail, and drainage for Ohio River Boulevard in Beaver County.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Review of inspectors' resumes with emphasis on construction inspection capabilities and specialized experience in the Maintenance and Protection of Traffic, soils, concrete, asphalt paving, drainage, guide rail, signing, pavement markings, and signals.
- c. Understanding of Department's requirements, policies, and specifications.
- d. Past performance.
- e. Number of NICET certified inspectors in each payroll classification.
- f. Number of available inspectors in each payroll classification.
- g. Workload.

The qualifications and experience required of the firm's inspectors will be established by the Department, and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

It is anticipated that the supplementary construction inspection staff for this assignment will consist of the following number of inspectors who meet the requirements for the following inspection classifications:

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Ins. Super. (TCIS) (NICET Highway Construction Level 3 or equivalent)	3 (3)
Transportation Construction Inspector—Materials (TCI-Materials) (NICET Highway Materials Level 2 or equivalent)	3 (2)
Transportation Construction Inspector (TCI) (NICET Highway Construction Level 2 or equivalent)	3 (2)
Technical Assistant (TA) (NICET Highway Construction Level 1 or equivalent)	3 (0)

The number(s) in parenthesis above indicate the number of inspectors in each Classification that must meet at least one of the following requirements:

- 1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of Highway Construction, or subfield of Highway Materials, at the Level required for the Inspection Classification.

- 2. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.

- 3. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.

- 4. Hold a Bachelor of Science Degree in Civil Engineering or a Bachelor of Science Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

- 5. Hold an Associate Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

The maximum reimbursement per hour of inspection for each Department Payroll Classification for calendar year of 1998:

<i>Payroll Classification</i>	<i>Maximum Straight Time Reimbursement Per Hour Of Inspection</i>
(TCIS)	\$39.36
(TCI-Materials)	\$35.51
(TCI)	\$34.43
(TA)	\$23.67

The maximum reimbursement per hour of inspection includes all costs for providing construction inspection services at the project site during the normal work week.

Maximum reimbursement per hour of inspection for subsequent calendar years, if applicable, will be established at the scope of work meeting.

The firm selected may be required to attend a pre-construction conference with the Department and the construction contractor for this project. Under the supervision and direction of the Department, the selected firm will be required to keep records and document the construction work; prepare current and final estimates for payment to the construction contractor; assist the Department in obtaining compliance with the labor standards, safety and accident prevention, and equal opportunity provisions of the contract item; supply one (1) inspector certified in computer documentation and perform other duties as may be required.

The firm selected will be required to supply the following equipment at no direct cost to the Department:

- 1 Nuclear Densometer Gauges/License
- 1 Vehicle for the Transportation of Nuclear Gauges
- 3 Base Radio Stations
- 9 Two-Way Radios
- 3 Computers/Printers/Monitors
- 3 Fax Machines
- 3 Copiers

The goal for Disadvantaged Business Enterprise (DBE) participation in this Agreement shall be fifteen percent (15%) of the total contract price. Additional information concerning DBE participation in this Agreement is contained in the General Requirements and Information Section after the advertised project(s).

Letters of interest for this project must include a letter, signed by the individuals you propose for all TCIS positions, giving their approval to use their name in your letter of interest for this specific project.

The maximum number of resumes to be included in the letter of interest shall be as follows:

<i>Classification</i>	<i>No. of Resumes</i>
TCIS	4
TCI-M	4
TCI	4

No resumes are required for the TA Classification.

The second copy of the letter of interest and required forms, (see general requirements and information section shall be sent to: Mr. Henry Nutbrown, P.E., District Engineer, District 11-0, 45 Thoms Run Road, Bridgeville, PA 15017. Attention Mr. Richard Curry, P.E.

Any technical questions concerning the requirements for this project should be directed to: Mr. Bob Collins, P.E., District 11-0, at (412) 429-4928.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

The number(s) in parenthesis above indicate the number of inspectors in each Classification that must meet at least one of the following requirements:

- 1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of Highway Construction, or subfield of Highway Materials, at the Level required for the Inspection Classification.
- 2. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
- 3. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
- 4. Hold a Bachelor of Science Degree in Civil Engineering or a Bachelor of Science Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.
- 5. Hold an Associate Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

The maximum reimbursement per hour of inspection for each Department Payroll Classification for calendar year of 1998:

<i>Payroll Classification</i>	<i>Maximum Straight Time Reimbursement Per Hour Of Inspection</i>
(TCIS)	\$39.36
(TCI-Materials)	\$35.51
(TCI)	\$34.43
(TA)	\$23.67

The maximum reimbursement per hour of inspection includes all costs for providing construction inspection services at the project site during the normal work week.

Maximum reimbursement per hour of inspection for subsequent calendar years, if applicable, will be established at the scope of work meeting.

The firm selected may be required to attend a pre-construction conference with the Department and the construction contractor for this project. Under the supervision and direction of the Department, the selected firm will be required to keep records and document the construction work; prepare current and final estimates for

payment to the construction contractor; assist the Department in obtaining compliance with the labor standards, safety and accident prevention, and equal opportunity provisions of the contract item; one (1) inspector certified in computer documentation and perform other duties as may be required. *Firms applying must have qualified personnel capable of climbing structures during painting, rehabilitation, or construction.*

The firm selected will be required to supply the following equipment at no direct cost to the Department:

- 1 Camera (type digital)
- 1 Computer/Printer/Monitor
- 1 Fax Machine
- 1 Copier

The goal for Disadvantaged Business Enterprise (DBE) participation in this Agreement shall be fifteen percent (15%) of the total contract price. Additional information concerning DBE participation in this Agreement is contained in the General Requirements and Information Section after the advertised project(s).

Letters of interest for this project must include a letter, signed by the individuals you propose for all TCIS positions, giving their approval to use their name in your letter of interest for this specific project.

The maximum number of resumes to be included in the letter of interest shall be as follows:

<i>Classification</i>	<i>No. of Resumes</i>
TCIS	2
TCI-M	2
TCI	4

No resumes are required for the TA Classification.

The second copy of the letter of interest and required forms, (see general requirements and information section shall be sent to: Mr. Henry Nutbrown, P.E. District Engineer, District 11-0, 45 Thoms Run Road, Bridgeville, PA 15017. Attention: Mr. Richard Curry, P.E.

Any technical questions concerning the requirements for this project should be directed to: Mr. Bob Collins, P.E., District 11-0, at (412) 429-4928.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

**Allegheny County  
Project Reference No. 08430AG2179**

The Department of Transportation will retain an engineering firm to provide supplementary construction inspection staff of approximately twenty (20) inspectors, under the Department's Inspector-in-Charge, for construction inspection and documentation services on the following projects:

1. S.R. Group 111-97-7135-4, Allegheny County. This project involves bituminous resurfacing, drainage work, and base work on various state roads in Wilkinsburg, Plum, Edgewood, Forest Hills, and Churchill, all in Allegheny County.

2. S.R. 0051, Section A40, Allegheny County. Local Name: Traffic Route 51. This project involves concrete pavement patching at various locations on Traffic Route 51, along with bituminous and concrete overlay of two (2) bridge decks. The job is located in Elizabeth Borough, and is approximately 5.3 miles in length.

3. S.R. 0019, Section A25, Allegheny County. Local Name: Washington Road. This project involves the milling and resurfacing of Washington Road with superpave wearing surface. Also included is concrete patching, drainage work, curbs, sidewalks, and pavement markings, and is located in Mount Lebanon, Allegheny County.

4. S.R. Group 111-98-7135-6, Allegheny County. This project involves the milling and resurfacing on nine (9) roads in Franklin Park, McCandless, Marshall Township, Pine Township, and Leetsdale, all in Allegheny County. Also included is drainage, loop sensors, paved shoulders, and bituminous gutter work.

5. S.R. 0376, Section A18, Allegheny County. Local Name: I-376/Grant Street to Greensburg Pike. This project involves concrete patching and spall repair on I-376 from the Bates St. Ramp to the Greensburg Pike Ramp, located in the City of Pittsburgh, Edgewood, and Churchill I Allegheny County. Also included is crack scaling, loop sensors and pavement markings. The majority of the work will be done on weekends.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Review of inspectors' resumes with emphasis on construction inspection capabilities and specialized experience in the Maintenance and Protection of traffic, soils, structures, concrete, asphalt paving, drainage, curbs, sidewalks, loop sensors, and pavement markings.
- c. Understanding of Department's requirements, policies, and specifications.
- d. Past performance.
- e. Number of NICET certified inspectors in each payroll classification.
- f. Number of available inspectors in each payroll classification.
- g. Workload.

The qualifications and experience required of the firm's inspectors will be established by the Department, and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

It is anticipated that the supplementary construction inspection staff for this assignment will consist of the following number of inspectors who meet the requirements for the following inspection classifications:

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Ins. Super. (TCIS) (NICET Highway Construction Level 3 or equivalent)	5 (5)

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Inspector (TCI) (NICET Highway Construction Level 2 or equivalent)	10 (7)
Technical Assistant (TA) (NICET Highway Construction Level 1 or equivalent)	5 (0)

The number(s) in parenthesis above indicate the number of inspectors in each Classification that must meet at least one of the following requirements:

1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of Highway Construction, or subfield of Highway Materials, at the Level required for the Inspection Classification.

The Department of Transportation will retain an engineering firm for an Open-End Contract for various geotechnical engineering services on various projects located in Engineering District 11-0, that is Allegheny, Beaver and Lawrence Counties. The Contract will be for a sixty (60) month period with project assigned on an as-needed basis. The required services may encompass a wide range of design, review and consultation efforts with the possibility of several different types of projects having short completion schedules. The anticipated types of projects may include, but are not limited to, bridge replacements or bridge rehabilitations with minor approach work, roadway betterments (3R type), Capital Improvement Projects (bridges or roadways), maintenance type remediation and minor location studies. The maximum amount of the Open-End Contract will be one million (\$1,000,000) dollars.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Open-End Contract based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting the letters of interest:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Understanding of Department's requirements, design manuals, policies and specifications.
- c. Specialized experience and technical competence of firm. The specific experience of individuals who constitute the firms shall be considered.
- d. Past record of performance with respect to cost control, work quality, ability to meet schedules and previous experience on Open-End Contracts.
- e. Location of consultant in respect to the District. This will include ability/provisions for quick responses to District requests.
- f. Method of controlling quality of projects and submissions. Consideration will be given to coordination between disciplines, subconsultants, etc.

The firm may be required to perform, but will not be limited to, the following geotechnical engineering services: review of geotechnical work performed by private engineering firms; perform geotechnical design for major Department designed projects; perform geotechnical investigations under a Health and Safety Plan; develop Health and Safety Plans (HASPs) for projects; investigate and prioritize slope movements and other geologic hazards for future programming; install and/or monitor geotechnical instruments; perform geophysical investigations; geotechnical consultation during and after construction; review projects developed by local municipalities; drilling inspection in accordance with D.M. 4/D.M. 1 qualifications and criteria; review of wetland designs from a geological or geotechnical perspective emergency response to geologic hazards; review and comment on Department procedures and documents; review of right-of-way relinquishments; investigate tunnels and design any necessary remediations; review of requests of mine

variances; review of permit requests; assist in evaluating the level of effort needed to complete geotechnical work tasks; investigate stability of retaining systems; develop specifications; water quality sampling and evaluation; review erosion and sedimentation plans from a geological or geotechnical perspective; develop experimental work plan activities and other research activities; review preliminary area reconnaissances (PAR'S), initial site assessments (ISA'S), preliminary site investigations (PSI'S), detailed site investigations (DSI'S) and waste management plans; prepare and review pavement designs; respond to requests from maintenance for various types of investigations; develop and administer subsurface boring sampling and testing contracts; perform stability analyses of slopes and retaining structures; preparation of erosion and sedimentation plans; perform scour analyses and developing remedial solutions; review of contour grading plans; review of storm water management plans; develop remediation schemes for acid mine drainage (AMD) problems; and preparation of geotechnical engineering reports. These services may include, but not be limited to, the following specific items: attend field views and prepare minutes; prepare submissions for field views and safety review meeting; perform related field surveys; plot topography and cross sections. Most of the drilling and testing services will be provided by the Department through separate service purchase contracts with other contractors. However, the firm may be required to let separate contracts for drilling and will have to have soil. Rock and water testing capabilities. The soil and rock testing will be performed at an AASHTO Materials Reference Laboratory (AMRL) accredited laboratory and the water testing must be performed at a Pennsylvania Department of Environmental Resources certified laboratory. Some tests may be required to be performed under a HASP.

The primary services to be provided are geotechnically related; however, other services may be required and they may include, but not be limited to, the following items: prepare submissions and materials necessary for the Department to prepare the application to Public Utility Commission (PUC) for the PUC field conference; attend and supply any required information for all PUC meetings and hearings during project design; develop erosion control details and narrative; develop right-of-way plans; prepare type, size and location reports; prepare hydraulic report for waterway approval; prepare bridge drawings; prepare traffic control plans and narrative; investigate utility and property involvement; prepare and disseminate right-of-entry letters; prepare prints and information required for a value engineering review; make the necessary investigations and adjustments to the design as a result of the value engineering review comments; make all necessary contact with railroad officials for any railroad-related costs estimates, permits, insurance, approvals and other required information; alternatives using benefit/cost analysis; document geotechnical study activities and findings; attend coordination and status meetings with District personnel and prepare minutes; and construction plans, specifications including special provisions and estimates.

The format and content of all documents, plans and specifications will be consistent with applicable State and Federal regulations and guidelines.

The firm may be required to perform any or all of the following environmental studies: air quality; surface water and groundwater hydrology; terrestrial ecology;

wetlands; soils; geology; farmland; hazardous waste; visual quality; socioeconomic, cultural; Section 4(f) and Section 106 documents; and other related studies not identified above. The environmental studies will be conducted in accordance with Department policy and accepted analysis techniques and methodologies.

The reports and other written graphic material to be prepared may include, but are not limited to, early coordination and scoping correspondence; meeting minutes; public meetings and hearing presentations; handouts and displays; technical basis reports; NEPA environmental documents; Section 106 documents; Section 4(f) evaluations; mitigation plans and reports; and wetland and floodplain findings.

The firm may also be required to perform any or all of the following in order to ensure a complete investigation has been performed: plans and lists of areas where soil, rock and water will be impacted and demolition will occur during proposed construction activities.

The geotechnical, geological and geophysical engineering services identified above are the general work activities that can be expected under this Open-End Contract. A more specific and project-related scope of work will be outlined for each individual Work Order developed under this Open-End Contract.

The second copy of the letter of interest and required forms, (see general requirements and information section shall be sent to: Mr. Henry Nutbrown, P.E., District Engineer, District 11-0, 45 Thoms Run Road, Bridgeville, PA 15017.

Any technical questions concerning the requirements for this project should be directed to: Mr. William R. Adams, Jr., P.E., District 11-0, at (412) 429-4919.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

#### **General Requirements and Information**

Firms interested in providing the above work and services are invited to submit two copies of a Letter of Interest are required information for each Project Reference Number for which the applicant wishes to be considered.

The first copy of the Letter of Interest and required information must be submitted to: Mr. Charles W. Alwein, P.E., Chief, Consultant Selection Committee, 7th Floor, Forum Place, 555 Walnut Street, P. O. Box 3060, Harrisburg, Pennsylvania 17105-3060. Note: The Zip Code for express Mailing is 17101-1900.

The Letter of Interest and required information must be received within twenty (20) calendar days of this Notice. The Deadline for receipt of a Letter of Interest at the above address is 4:30 P.M. prevailing time of the twentieth day.

The second copy of the letter of interest and required information must be submitted to the appropriate District Engineer/Administrator or the Bureau Director as indicated in the individual advertisement. This copy must be postmarked or delivered on or before the deadline indicated above.

If an individual, firm, or corporation not authorized to engage in the practice of engineering desires to submit a Letter of Interest, said individual, firm, or corporation may do so as part of a Joint Venture with an individual, firm, or corporate which is permitted under the state law to engage in the practice of engineering.

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The Act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act, WBEs or combinations thereof).

Proposing DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Each Letter of Interest must include the following information and the information must be packaged and presented in the following order:

1. Transmittal Letter (Maximum of two (2) 8 1/2" x 11" typed pages, one side)

The subject heading of the transmittal letter must include the project reference number for which the applicant wishes to be considered, the firm's legal name, fictitious name (if applicable), and the firm's federal identification number. If the project advertisement indicated the Department will retain an engineering firm for the project, the applicant must indicate in the body of their transmittal letter the names and Professional Engineer License Number of individuals who are directing heads or employees of the firm who have responsible charge of the firm's engineering activities, and whose names and seals shall be stamped on all plans, specifications, plats, and reports issued by the firm.

2. Project Organizational Chart (one page, one side, maximum size 11" x 17")

This Chart must show key staff from the prime and each subconsultant and their area of responsibility.

3. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project" (one Form 255 for the project team)

The Standard Form 255 must be signed, dated, and filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project.

Under Item 4 of this form, Column A must specify only the number of subconsultant personnel and Column B must specify only the number of prime consultant personnel to be assigned to work on this project reference number. Do not include the total personnel for either the subconsultant or prime consultant under Item 4 unless the total personnel are necessary to provide the required work and services.

The prime and each subconsultant may include no more than one page each for Items 10 and 11.

If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be currently certified by the Department of Transportation, and the name of the DBE and the work to be performed must be indicated in Item No. 6. If a Woman Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

4. Standard Form 254, "Architect-Engineer for Related Services Questionnaire"

A Standard Form 254, not more than one (1) year old as of the date of this advertisement, must accompany each Letter of Interest for the firm, each party to a Joint Venture, and for each subconsultant the firm or Joint Venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor, or a Company, unless an acceptable Standard Form 254 for the prime and each subconsultant/subcontractor is on file in both the Bureau of Design and the Engineering District Office or Central Office Bureau identified in the individual project advertisement.

If the Standard Form 254 is not submitted with the Letter of Interest, the transmittal letter shall indicate the dates that the Standard Forms 254 were submitted to the Bureau of Design and appropriate Engineering District/Central Office Bureau.

These Forms must be assembled with the prime's form first, followed by the form for each subconsultant in the same order as the subconsultants appear in Item 6 of Form 255.

5. Workload Projection Graph (Not required for Construction Inspection Services)

Separate Workload Projection Graphs for the prime and each subconsultant shown in Item 6 of the Form 255 must be included and must indicate the firm's current and anticipated workload compared to the anticipated capacity available for the next two-year time frame. The Workload Projection Graphs must be submitted for the office(s) where the work would be performed and must only include the personnel classifications required for providing the advertised services and work.

6. Authorization Letters (For Construction Inspections Services, if required)

If the advertisement requires a letter signed by individuals giving their approval to use their name in the Letter of Interest, the letters from proposed prime employees must be first, followed by subconsultant employees, in the same order as shown in Item 6 of Form 255.

### 7. Registration To Do Business

Firms with out-of-state headquarters or corporations not incorporated in Pennsylvania must include, with each Letter of Interest, a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

### 8. Overhead Rates (one page)

A single page summary must indicate the latest audited overhead rate developed in accordance with Federal Acquisition Regulations (FAR) for the prime consultant and each subconsultant. If a FAR rate is not available, the latest rate available from a Certified Public Accountant must be indicated. New firms should indicate how long the firm has been in existence and when an audited overhead rate would be available.

### 9. Additional Information

Additional information, not to exceed ten (10) one sided 8 1/2" x 11" pages or five (5) double sided 8 1/2" x 11" pages may be included at the discretion of the submitting firm.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services.

### Order

On June 12, 1996, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Revenue (Department). This rulemaking deletes § 9.4 and adds § 47.19 to 61 Pa. Code. The authority for this regulation is section 2301 of the Tax Reform Code (72 P. S. § 9301). The proposed regulation was published in the June 22, 1996 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on January 28, 1998. The Department submitted a request to toll this regulation on February 13, 1998. The revised regulation was submitted on March 12, 1998.

The regulation converts a statement of policy relating to Public Transportation Assistance Fund taxes and fees into a new regulation. The revenue generated by these fees and taxes are deposited into the Public Transportation Assistance Fund (Fund) in the State Treasury. The Fund is used for public transit programs and capital projects. The regulation includes provisions for a tire fee, motor vehicle lease tax, motor vehicle rental fee and public utility realty tax. The Department claims that the regulation will not impose additional costs on the Commonwealth, local governments or regulated community.

We have reviewed this regulation and find it to be in the public interest. The rulemaking is necessary because it codifies a statement of policy into regulatory provisions and simultaneously clarifies and refines these provisions.

*Therefore, It Is Ordered That:*

1. Regulation No. 15-373 from the Department of Revenue, as submitted to the Commission on March 12, 1998, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

*State Board of Certified Real Estate Appraisers—General Provisions/Standards of Professional Conduct; Doc. No. 16A-704*

#### Order

On January 19, 1996, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the State Board of Certified Real Estate Appraisers (Board). This rulemaking will add a new Subchapter C to 49 Pa. Code Chapter 36. It is authorized by sections 3 and 7(a)(6) of the Assessors Certification Act (act) (63 P.S. §§ 458.3 and 458.7(a)(6)). The proposed regulation was published in the February 3, 1996 edition of the *Pennsylvania Bulletin*, with a 30-day public comment period. The final-form regulation was submitted to the Commission on March 2, 1998.

This new regulation will establish formal standards of professional conduct for Certified Pennsylvania Evaluators (CPEs) licensed by the Board. The standards are modeled after the Code of Ethics and Standards of Professional Conduct of the International Association of Assessing Officers. Subjects addressed include general duties, public review of assessments and records, professional qualifications, conflicts of interest, limitations on activities, advertising and promotion and reporting of unethical practices. CPE responsibilities are restricted to assessing the valuation of real property in Pennsylvania for ad valorem taxation purposes.

The House Professional Licensure Committee approved the final-form regulation at its meeting on March 18, 1998.

We have reviewed this regulation and find it to be in the public interest. This regulation will impact approximately 476 persons currently licensed as CPEs, as well as candidates for licensure as CPEs. The proposal will guide CPEs in their relations with assessment offices, public officials and the general public, and enhance the integrity and reliability of real estate assessments in Pennsylvania.

*Therefore, It Is Ordered That:*

1. Regulation No. 16A-704 from the State Board of Certified Real Estate Appraisers, as submitted to the Commission on March 2, 1998, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

*Commissioners Present:* Alvin C. Bush, Vice Chairperson; Arthur Coccodrilli; Robert J. Harbison, III; John F. Mizner

Public Meeting held  
March 26, 1998

*Department of Community and Economic Development—Private Activity Bonds—Allocation; Doc. No. 4-65*

#### Order

On February 23, 1998, the Independent Regulatory Review Commission (Commission) received this regulation from the Department of Community and Economic Development (Department). This rulemaking amends 12 Pa. Code Chapter 63. The authority for this regulation is contained in section 7(4) of the Tax Exempt Bond Allocation Act (73 P.S. § 397.7(4)). Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*.

We have reviewed this regulation and find it to be in the public interest. The Federal Internal Revenue Code of 1986 (26 U.S.C.A. § 146) imposes a ceiling on the aggregate amount of private activity bonds that may be issued in any calendar year by or on behalf of the Commonwealth and its political subdivisions. The Department's proposed amendments are necessary because the existing regulation provides only the allocations for the calendar year 1997, which are no longer current.

*Therefore, It Is Ordered That:*

1. Regulation No. 4-65 from the Department of Community and Economic Development, as submitted to the Commission on February 23, 1998, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

*Environmental Quality Board—Coal Mining Permitting and Performance Standards; Doc. No. 7-307*

#### Order

On April 16, 1997, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Quality Board (EQB). This rulemaking amends 25 Pa. Code Chapters 86—90. It is authorized by: sections 3, 4, 4.2 and 4.6 of the Surface Mining Conservation and Reclamation Act (52 P.S. §§ 1396.3, 1396.4, 1396.4b, and 1396.4f); sections 5 and 315 of The Clean Streams Law (35 P.S. §§ 691.5 and 691.315); section 3.2(a) of the Coal Refuse Disposal Control Act (52 P.S. § 30.53b(a)); and section 1920-A of The Administrative Code of 1929 (71 P.S. § 510-20). The proposed regulation was published in the May 3, 1997 edition of the *Pennsylvania Bulletin*, with a 60-day public comment period. The final-form regulation was submitted to the Commission on February 24, 1998.

The amendments are comprehensive and relate to permitting and performance standards for surface coal mining, underground coal mining and coal refuse disposal operations. The proposal provides notification to the owner or operator of an existing oil or gas well an opportunity to object to a mining application, as well as other safeguards designed to help protect the integrity of existing wells.

We have reviewed this regulation and find it to be in the public interest. This rulemaking grew out of the Department of Environmental Protection's Regulatory Basics Initiative and compliance with Governor Ridge's Executive Order #1996-1. Consequently, the amendments revise existing regulatory standards to be no more stringent than Federal requirements. The EQB estimates that the regulated community will experience cost savings of approximately \$28,000 annually.

*Therefore, It Is Ordered That:*

1. Regulation No. 7-307 from the Environmental Quality Board, as submitted to the Commission on February 24, 1998, is approved; and
2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

*Environmental Quality Board—Water Supply Protection/Replacement (Mining); Doc. No. 7-315*

**Order**

On April 16, 1997, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Quality Board (EQB). This rulemaking amends 25 Pa. Code Chapters 87 and 88. The authority for this regulation is found in section 4.2(a) of the Surface Mining Conservation and Reclamation Act (act) (52 P. S. §§ 1396.4b(a)). The proposed regulation was published in the May 3, 1997 *Pennsylvania Bulletin* with a 60-day public comment period. The final-form regulation was submitted to the Commission on February 24, 1998.

The amendments in the EQB's regulations address two major areas: water supply replacement for a degraded water supply within 1,000 feet of a coal mining operation; and revegetation of previously disturbed and unreclaimed areas. The proposal will affect approximately 480 coal mine operators. It will also affect water supply owners and users. More expeditious replacement of degraded water supplies is anticipated.

We have reviewed this regulation and find it to be in the public interest. The proposal brings the EQB's regulations into conformity with 1992 and 1996 amendments to the Surface Mining Conservation and Reclamation Act and with several decisions by the Environmental Hearing Board.

*Therefore, It Is Ordered That:*

1. Regulation No. 7-315 from the Environmental Quality Board, as submitted to the Commission on February 24, 1998, is approved; and
2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

# STATE CONTRACTS INFORMATION

## DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

**EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.**

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". A qualified small business concern is an independently owned, operated for profit, business employing 100 or fewer employes and is not a subsidiary or affiliate of a corporation otherwise not qualified.

Such penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter. The small business concern must include on every invoice submitted to the Commonwealth: "(name of vendor) is a qualified small business concern as defined at 4 Pa. Code § 2.32".

For information on the required payment date and annual interest rate, please call the Pennsylvania Department of Commerce, Small Business Action Center, 483 Forum Building, 783-5700.

## GET A STEP AHEAD IN COMPETING FOR A STATE CONTRACT!

The Treasury Department's Bureau of Contracts and Public Records can help you do business with state government agencies. Our efforts focus on guiding the business community through the maze of state government offices. The bureau is, by law, the central repository for all state contracts over \$5,000. Bureau personnel can supply descriptions of contracts, names of previous bidders, pricing breakdowns and other information to help you submit a successful bid on a contract. We will direct you to the appropriate person and agency looking for your product or service to get you "A Step Ahead." Services are free except the cost of photocopying contracts or dubbing a computer diskette with a list of current contracts on the database. A free brochure, "Frequently Asked Questions About State Contracts," explains how to take advantage of the bureau's services.
