READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Effective Dates of Statutes

The effective dates specified above for laws and appropriation acts were contained in the applicable law or appropriation act. Where no date is specified or where the effective date specified is prior to the date of enactment, the effective date is 60 days after final enactment except for statutes making appropriations or affecting budgets of political subdivisions. See 1 Pa.C.S. §§ 1701—1704 (relating to effective dates of statutes).

Advance Copies of Statutes

Section 1106 of Title 1 of the Pennsylvania Consolidated Statutes provides that the prothonotaries of each county shall file advance copies of statutes in their offices for public inspection until the Laws of Pennsylvania are generally available. Section 2406(h) of The Administrative Code of 1929 provides that the Department of General Services shall distribute advance sheets of the Laws of Pennsylvania to each law judge of the courts, to every county and public library of this Commonwealth, and to each member of the General Assembly. These copies shall be furnished without charge. The Department shall also mail one copy of each law enacted during any legislative session to any person who pays to it the sum of \$20.

Requests for annual subscriptions for advance copies of statutes should be sent to the State Bookstore, State Records Center Building, 1825 Stanley Drive, Harrisburg, PA 17103, accompanied by a check or money order in the sum of \$20, payable to the "Commonwealth of Pennsylvania."

Legislative Bills and Documents

Copies of Senate Bills and Documents may be obtained from: Document Room, Senate of Pennsylvania, Room 34A, Main Capitol Building, Harrisburg, PA 17120, (717) 787-6732.

Copies of House Bills and Documents may be obtained from: Document Room, House of Representatives, 35 Main Capitol Building, Harrisburg, PA 17120, (717) 787-5320.

THE COURTS

Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

PART V. PROFESSIONAL ETHICS AND CONDUCT [204 PA. CODE CH. 89]

Amendment to the Rules of Organization and Procedure of the Board; Order No. 52; Doc. R-122

In this Order, the Disciplinary Board of the Supreme Court of Pennsylvania is adopting a technical correction to its Rules of Organization and Procedure relating to the procedure for reinstatement of suspended or disbarred attorneys.

Rule 208(g) of the Rules of Disciplinary Enforcement provides that the Supreme Court may tax the expenses of a formal proceeding against the attorney who is disciplined. Rule 218(e) similarly provides that the Supreme Court may tax the expenses of a reinstatement proceeding against the formerly admitted attorney seeking reinstatement. The Rules of the Board provide that a formerly admitted attorney cannot apply for reinstatement until the formerly admitted attorney pays any expenses that were taxed against the formerly admitted attorney by the Supreme Court in connection with the formal proceeding that led to his or her suspension or disbarment, but the Rules of the Board are silent as to whether a formerly admitted attorney who has failed to pay the expenses of a previous reinstatement proceeding as ordered by the Supreme Court is also barred from applying for reinstatement. This Order amends the Rules of the Board to correct that omission. As amended by this Order, 204 Pa. Code § 89.272(b) will also prohibit a formerly admitted attorney from applying for reinstatement until any previously taxed expenses from a reinstatement proceeding have been paid.

The Disciplinary Board of the Supreme Court of Pennsylvania hereby finds that the amendment to the Rules of Organization and Procedure of the Board adopted hereby is not inconsistent with the Pennsylvania Rules of Disciplinary Enforcement and is necessary and appropriate for the administration of the affairs of the Board.

The Board, acting pursuant to Rule 205(c)(10) of the Pennsylvania Rules of Disciplinary Enforcement, orders:

(1) Title 204 of the *Pennsylvania Code* is hereby amended as set forth in Annex A hereto.

(2) The Secretary of the Board shall duly certify this Order and deposit the same with the Administrative Office of Pennsylvania Courts as required by Pa.R.J.A. 103(c).

(3) The amendments adopted hereby shall take effect upon publication in the *Pennsylvania Bulletin*.

(4) This Order shall take effect immediately.

By the Disciplinary Board of the Supreme Court of
Pennsylvania

ELAINE BIXLER,
Secretary

NORTHAMPTON COUNTY

Rules of Civil Procedure N206 and N1035; Misc. No. 1998-CM-2451**Order of Court**

And Now, this 3rd day of April, 1998, Northampton County Rules of Civil Procedure N206 (Motions and Rules—Notice of Intent to Present) and N1035 (Motion for Summary Judgment) are hereby amended as follows hereto, effective thirty (30) days after publication in the *Pennsylvania Bulletin*.

Seven (7) certified copies of the within rules shall be filed with the Administrative Office of Pennsylvania Courts; two (2) certified copies shall be distributed to the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*; and one (1) certified copy shall be filed with the Pennsylvania Civil Procedural Rules Committee. One (1) copy of these rules shall be kept available in the

Office of the Clerk of Courts. A copy is directed to be published in the Northampton County Reporter.

By the Court

ROBERT A. FREEDBERG,
President Judge

Rule N206. Motions and Rules. Notice of Intent to Present.

Motions and petitions which request a definitive order or decree and which are not governed by any other statute or rule of court may be presented to the appropriate Motions Judge in Motions Court only after a copy of the motion or petition and the proposed order of court have been served on all counsel of record and any unrepresented party at least three (3) business days prior to the intended date of presentation. Notice of the date, time and place of presentation must accompany the copy of the motion or petition and proposed order of court. Service may be made in any manner, including facsimile transmission, which results in the delivery of the required documents at least three (3) business days before the day of presentation. The presenting party must attach to the motion or petition a certification of compliance with this rule setting forth the date on which the motion or petition was served on counsel and unrepresented parties.

For purposes of this rule, a rule to show cause will not be considered a definitive order or decree unless it contains a stay of proceedings. If a rule contains a stay of proceedings, the notice requirements of this rule must be met before presentation will be permitted by the Court.

Explanatory Comment: The purpose of this rule is to foster the use of Motion Court practice for all matters which are not likely to require lengthy evidentiary hearings or involve argument on complex legal issues. Nevertheless, sufficient notice and receipt of the motion or petition and proposed order of court is required by law and fundamental fairness. Counsel desiring to take advantage of Motions Court practice must be diligent in complying with the notice requirement. For purposes of this rule, the use of the term "business day" and the computation of the required three (3) day notice period shall be governed by and construed consistent with Pa. R.C.P. 106 (Computation of Time).

Rule N1035. Motion for Summary Judgment.

A. A motion for summary judgment shall state specifically the grounds relied upon.

B. A motion for summary judgment shall be submitted for decision no later than ninety (90) days prior to the date scheduled for commencement of trial, unless otherwise allowed by order of court.

Comment: Pa.R.C.P. 1035.2 provides that motions for summary judgment are to be filed "within such time as not to unreasonably delay trial." Rule of Judicial Administration 703 allows judges 90 days to decide matters prior to reporting a matter as undecided to the Administrative Office of Pennsylvania Courts. In order to afford the court reasonable time to decide the summary judgment motion without delaying trial, and consistently with its responsibilities in other matters, the moving party must list the summary judgment motion on an argument list at least 90 days prior to the trial date and timely file a brief in support of the motion. See Rule N210(c).

PROPOSED RULEMAKING

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 53, 65 AND 93]

Commission Property, Fishing and Boating

The Fish and Boat Commission (Commission) proposes to amend Chapters 53, 65 and 93 (relating to Commission property; special fishing regulations; and boat registration and numbering). The Commission is publishing these amendments as a notice of proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The proposed amendments relate to Commission property, fishing and boating.

A. Effective Date

These proposed amendments will, if approved on final rulemaking, go into effect upon publication of an order adopting the regulations.

B. Contact Person

For further information on the proposed changes, contact Laurie E. Shepler, Assistant Counsel (717) 657-4546, P. O. Box 67000, Harrisburg, PA 17106-7000. This proposal is available electronically through the Commission's Web site (<http://www.fish.state.pa.us>).

C. Statutory Authority

These proposed amendments are published under the statutory authority of sections 741, 2102 and 5122 of the code (relating to control of property; rules and regulations; and registrations, licenses, permits, plates and statistics).

D. Purpose and Background

The proposed amendments are designed to update, modify and improve Commission regulations pertaining to Commission property, fishing and boating. The specific purpose of the proposed amendments is described in more detail under the summary of proposal.

E. Summary of Proposal

1) *Section 53.13 (relating to domestic water supply reservoirs)*. For many years, the Commission has pursued an active program of encouraging agreements from municipal water supplies to allow fishing in the waters of domestic water supply reservoirs. The Commission has entered into agreements with numerous municipal authorities to make these reservoirs subject to Commission property regulations and establish additional restrictions. This course of action is beneficial to the angling public since it provides important fishing opportunities. It is also beneficial to the operators of the water supply reservoirs since it makes Commission property regulations and additional restrictions applicable to these sites.

In reviewing the regulation applicable to this program (§ 53.13), it appears that it can be streamlined. The regulation currently provides that additional restrictions contained in agreements between municipal authorities and the Commission shall be fully enforceable when posted at the site. The regulation goes on to list some of the additional restrictions applicable to many of the water supply reservoirs with which the Commission has agreements. Including the specific list of additional restrictions in the regulation text appears unnecessary since the

regulation also provides that the additional restrictions are fully enforceable when approved by the Executive Director and posted at the site. Therefore, the Commission proposes to amend this section to read as set forth in Annex A.

2) *Section 65.24 (relating to miscellaneous special regulations)*. Angling at the Fairmount fishway on the Schuylkill River has reached the point where a change in regulations is necessary for the well being of users as well as fish, including migratory species such as American shad, gizzard and hickory shad and striped bass. Fairmount Dam (river mile 9.0) is the first barrier that migratory species encounter as they come up the Schuylkill River. A fish passage facility was open for use in the spring of 1979 and was successful in passing migratory species, including American shad, gizzard shad, river herring and a host of warmwater/coolwater species. Aside from problems in maintaining an operational facility due to debris clogging the facility, fish have utilized this facility annually. At the same time, anglers began to frequent the site because 1) it provides much needed shore access along the river; and 2) the dam provides excellent habitat for fish moving up the river. The Commission made an exception to the restriction prohibiting angling within 100 feet of a fishway so anglers could take advantage of the access at the fishway. Over the years, as water quality in the Schuylkill and Delaware continued to improve so did the density of fish congregating downstream of the dam and along the fishway wall. Angling interest did likewise, including those who opted to use snagging gear, particularly when schools of gizzard shad made snagging very easy. In addition, enterprising anglers with specialized nets would break through fences on the top of the fishway and place homemade gill nets in the vertical slots between individual pools. Despite herculean efforts by various waterways conservation officers and their deputies, illegal angling activities at the fishway continue to increase. Thus, the Commission proposes to amend this section to no longer permit fishing within 100 feet of the Fairmount fishway.

3) *Section 93.2 (relating to permanent and temporary registration)*. At its October 1997 meeting, the Senate Game and Fisheries Committee asked the Commission staff to look at regulatory actions to address concerns related to Senate Bill 686. This bill, introduced by Senator Leonard Bodack, would change the code so that when a person receives a new boat registration, it would be valid for 2 years from the date of issuance. Thereafter, it is presumed that renewals would be issued on the same 2-year cycle. Thus, if a person obtained a new registration in July 1997, it would expire in July 1999 and so on.

Under the current cycle, renewals are sent out in the winter, and the vast majority of renewals are issued by March 31. This enables Commission staff to complete action on most renewals before they are inundated with new registrations in the summer. The Commission is able to process hundreds of thousands of new and renewal boat registrations each year with a very small staff of five permanent and four seasonal employees because the current law is effective in its timing of renewals vis-a-vis the bulk of new registrations. If Senate Bill 686 becomes law in its present form, more and more renewals will need to be processed in the same summer months when staff are handling most new registrations. Eventually, over a pe-

riod of several years, it is likely that the majority of renewals and new registrations will be concentrated in the same months.

The Commission believes that its staff's efforts to provide the best possible service to boat registration customers depend, in part, on the ability to schedule the renewal cycle so that it does not conflict with the timing of the bulk new registrations. Changing over to a renewal cycle based on the month the boat is first registered would entail additional costs in terms of computer programming. The Commission fears that, if renewals become concentrated in the same months when most new registrations are issued, it may also face additional personnel costs.

Even though the Commission would like to maintain the current cycle whereby most renewals are handled in February and March, it agrees that some changes may be desirable to ensure that persons who obtain new boat registrations get fair value for their registration fees. The Commission recently approved changes to the boat registration regulations, effective January 1998, to permit the transfer of boat registrations so that persons who change boats in the middle of a registration cycle can keep on the same cycle at a cost of \$5. Prior to this change, which was instituted as a direct result of Senator Bodack's inquiry, a registrant had to pay for a new registration when he changed boats regardless of the timing or the circumstances.

The Commission is now proposing a further change in regulations to ensure that no matter when someone obtains a new registration, he will get to boat during two boating seasons on their initial registrations. Under current regulations, October 1 is the cutoff point for determining the duration of a new registration. Thus, a person who obtains a new registration in September 1997, will need to renew in March 1999, while a person who obtains a new registration in October 1997, will not need to renew until March 2000. Although it might seem the September registrant is being shortchanged, it is important to remember that, in most cases, the registrant had use of the boat for at least 60 days prior to September under the temporary registration sticker. Thus, even under the current regulations, a September registrant would be able to boat in July and August of one boating season and all of the following boating season under a single 2-year registration.

The Commission is proposing an amendment, to read as set forth in Annex A, to make it clear that the expiration date of a 2-year registration will cover at least two boating seasons.

F. Paperwork

The proposed amendments will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The proposed amendments will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed amendments will impose no new costs on the private sector or the general public.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed amendments to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically at "regulations@fish.state.pa.us." A subject heading of the proposal and a return name and address must be included in each transmission. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

The registrant shall display the new biannual validation decals in accordance with § 93.5 and shall carry the registration card onboard the boat while it is operating. **[In determining the expiration date of the new biannual registration, the Commission will use the following guidelines:**

(i) Application received on or before September 30 of the first year of the biannual registration cycle: New validation expires at the end of the current registration cycle.

(ii) Application received between October 1 of first year of the biannual registration cycle and September 30 of the second year of the cycle: New validation expires at the end of the next registration cycle.

(iii) Application received after October 1 of the second year of the biannual registration cycle: Validation expires after 2 years.]

(d) Expiration of new registration. In determining the expiration date of a new biannual registration, the Commission will ensure that the duration of temporary and permanent registrations issued to the registrant, taken together, allow the operation of the boat during at least two boating seasons. For purposes of this section, a boating season is the period between the Saturday before Memorial Day and Labor Day.

[58 PA. CODE CH. 61]

Fishing

The Fish and Boat Commission (Commission) proposes to amend Chapter 61 (relating to seasons, sizes and creel limits). The Commission is publishing these amendments as a notice of proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The proposed amendments relate to fishing.

A. Effective Date

These proposed amendments will, if approved on final rulemaking, go into effect on January 1, 1999, or upon publication of an order adopting the regulations, whichever occurs later.

B. Contact Person

For further information on the proposed changes, contact Laurie E. Shepler, Assistant Counsel (717) 657-4546), P. O. Box 67000, Harrisburg, PA 17106-7000. This proposal is available electronically through the Commission's Web site (<http://www.fish.state.pa.us>).

C. Statutory Authority

These proposed amendments are published under the statutory authority of section 2102 of the code (relating to rules and regulations).

D. Purpose and Background

The proposed amendments are designed to update, modify and improve Commission regulations pertaining to fishing. The specific purpose of the various amendments is described in more detail under the summary of proposal.

E. Summary of Proposal

Sections 61.1 and 61.2 (relating to Commonwealth inland waters; and Delaware River and River Estuary). Management of American shad, hickory shad, gizzard shad and river herring (alewife and blueback herring) stocks are a real challenge to today's fisheries managers. Restoration efforts to one extent or the other for one or more of these species are occurring in the Susquehanna River basin and the Delaware River drainage, specifically the Lehigh River and to a lesser extent the Schuylkill River.

Recently, the Commission amended its prohibition of harvest of American shad in the Susquehanna River to include hickory shad and river herring (alewife and blueback herring) and increased the coverage to include all tributaries. Hickory shad are listed as a candidate species in § 75.3 (relating to candidate species) and, as such, could achieve endangered or threatened status in the future. The Commission is concerned that existing regulations, particularly as applied to the Delaware River, Estuary and tributaries, are not in harmony with the candidate species listing or the intent of restoration efforts.

Also, river specific and Statewide regulations are not clear as to the harvest of gizzard shad, particularly those longer than 8 inches (those 8 inches or less are considered baitfish) taken by hook and line either for personal consumption or use as bait for larger gamefish, such as muskellunge or striped bass. Gizzard shad occur in various waters across this Commonwealth with many landlocked populations maintained through natural reproduction, while others are of a migratory nature congregating in large concentrations downstream of dams. Harvest of this species should pose no threat to the stock but needs to be regulated from the standpoint of natural resource conservation ethics. Therefore, the Commission proposes to amend § 61.1 by adding no open season for hickory shad, by adding gizzard shad with an open year-round season with a 50 fish possession limit, and by adding a 50 fish daily possession limit for herring. The Commission also proposes to amend § 61.2 by adding hickory shad with a no open season.

F. Paperwork

The proposed amendments will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The proposed amendments will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed amendments will impose no new costs on the private sector or the general public.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed amendments to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*.

Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically at "regulations@fish.state.pa.us." A subject heading of the proposal and a return name and address must be included in each transmission. If an acknowledgment of electronic comments is not received by the sender within

2 working days, the comments should be retransmitted to ensure receipt.

NOTICES

DELAWARE RIVER BASIN COMMISSION

Commission Meeting and Public Hearing

The Delaware River Basin Commission will hold a public hearing on Tuesday, April 21, 1998. The hearing will be part of the Commission's regular business meeting which is open to the public and scheduled to begin at 9:30 a.m. in the Seminar Room of the Burlington Meeting House at 340 High Street, Burlington, NJ.

In addition to the subjects listed below which are scheduled for public hearing, the Commission will also address the following: Minutes of the March 25, 1998 business meeting; announcements; General Counsel's Report; report on Basin hydrologic conditions; overview of Water Snapshot '96-'98; and public dialogue.

The subjects of the hearing will be as follows:

Applications for Approval of the Following Projects under Article 10.3, Article 11 and/or Section 3.8 of the Compact:

1. *Superior Tube Company D-96-13.* A groundwater withdrawal project to withdraw up to 13 million gallons (mg)/30 days of water as part of the applicant's groundwater remediation system from new Well Nos. MW-18, MW-19, MW-20, MW-22 and PW-3D, and to limit the withdrawal from all wells to 13 mg/30 days. The project is located in Lower Providence Township, Montgomery County, in the Southeastern Pennsylvania Ground Water Protected Area.

2. *Superior Tube Company D-97-23.* A project to consolidate discharges from the applicant's industrial wastewater treatment system, ground water remediation treatment system, and noncontact cooling water into one new outfall to Perkiomen Creek, at a combined average monthly rate of approximately 0.273 million gallons per day (mgd). The existing effluents are currently discharged to tributaries of the Perkiomen Creek (an unnamed tributary and French Run). The proposed outfall will be located just to the west of the applicant's specialty metal tube manufacturing plant site just north of Route 422 on the east side of the Perkiomen Creek in Lower Providence Township, Montgomery County, PA.

3. *Newmanstown Water Authority D-97-40 CP.* A groundwater withdrawal project to supply up to 6 mg/30 days of water to the applicant's distribution system from new Well No. 5, and to limit the withdrawal from Well Nos. 1, 4 and 5 to 10.3 mg/30 days. The project is located in Millcreek Township, Lebanon County, PA.

4. *AES Ironwood Power, Inc. D-97-45.* A project to construct a 700 megawatt gas-fired combined cycle electric generation facility in South Lebanon Township, Lebanon County, PA. The applicant proposes to meet its water needs of up to 4.5 mgd by diversion of up to 2.25 mgd from an existing quarry discharge to Tulpehocken Creek (located in the Delaware River Basin), and by diversion of up to 2.25 mgd from a portion of the City of Lebanon sewage treatment plant wastewater discharge from Quittapahilla Creek (located in the Susquehanna River Basin). While the diversion of water from the discharge to Quittapahilla Creek is an importation of water into the Delaware River Basin, the proposed project is designed to have no discharge to surface or groundwater.

5. *Fairton Federal Correctional Institution D-98-5 CP.* A groundwater withdrawal project to supply up to 8.53 mg/30 days of water to the applicant's prison facility from existing Well Nos. 1 and 2, and to limit the withdrawal from all wells to 8.53 mg/30 days. The project is located in Fairfield Township, Cumberland County, NJ.

6. *Evansburg Water Company D-98-12 CP.* A groundwater withdrawal project to supply up to 0.9 mg/30 days of water to the applicant's Evansburg Division system from Well No. 102, and to limit the withdrawal from all wells to 2.6 mg/30 days. The project is located in Lower Providence Township, Montgomery County, in the Southeastern Pennsylvania Ground Water Protected Area.

Documents relating to these items may be examined at the Commission's offices. Preliminary dockets are available in single copies upon request. Please contact Thomas L. Brand at (609) 883-9500 ext. 221 concerning docket-related questions. Persons wishing to testify at this hearing are requested to register with the Secretary at (609) 883-9500 ext. 203 prior to the hearing.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of May, 1998

The Department of Banking of the Commonwealth of Pennsylvania, under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of May, 1998, is 8 1/2%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. 96-221). Further preemption was instituted with the signing of Pub. L. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which such individual occupies or has occupied as his principal residence.

Each month the Department of Banking is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 6.00 to which was added 2.50

percentage points for a total of 8.50% that by law is rounded off to the nearest quarter at 8 1/2%.

DEPARTMENT OF EDUCATION**Application of Bethel College and Seminary, St. Paul, Minnesota for Approval to Operate in Pennsylvania**

Under 24 Pa.C.S. § 6503(e) (relating to certification of institutions), the Department of Education (Department) will consider the application of Bethel College and Seminary of St. Paul, MN for a Certificate of Authority approving the institution's request to own and operate Seminary of the East, currently a Pennsylvania Nonprofit Corporation. On or before July 1, 1998, the Pennsylvania corporation will be dissolved, and control of all of its assets and programs will be absorbed into Bethel College and Seminary, with Bethel as the surviving entity. Semi-

nary of the East will be an extension program in this Commonwealth operated by Bethel Seminary as Bethel Seminary of the East with approval to award Master of Divinity degrees.

In accordance with 24 Pa.C.S. § 6503(e), the Department will act upon the application without hearing, unless within 30 days after the publication of this notice in the *Pennsylvania Bulletin* a written request for public hearing is filed with the Department, along with a notice of intervention, a petition to intervene or protest in accordance with 1 Pa. Code § 35.23 and 35.24 (relating to protest) or 1 Pa. Code §§ 35.27—35.32 (relating to intervention).

All petitions to intervene, protest and request for hearing shall be filed with Dr. Warren D. Evans, Chartering/Governance/Accreditation Specialist, 333 Market Street, Harrisburg, PA 17126-0333, (717) 787-6576 on or before 4 p.m. on the due date prescribed by this notice. Persons wishing to review the application should phone or write to the aforementioned office to schedule a time for an in-office review. Duplicate copies of the application are not available.

Persons with a disability who wish to attend the hearing, if held, and require an auxiliary aid, service or other accommodation to participate, should contact Suzanne B. Markowicz at (717) 787-6576 to discuss how the Department may best accommodate their needs.

Preproposal Conference/Funding Workshop

The Department of Education, Bureau of Vocational-Technical Education, will conduct a preproposal conference/funding workshop on Monday, April 27, 1998 to review funding priorities and application procedures for the following competitive grant program:

<i>Grant Program</i>	<i>Eligible Applicants</i>
Single Parent/Displaced Homemaker and Sex Equity	School Districts, Area Vocational-Technical Schools, Intermediate Units, Postsecondary Institutions

Grant applications for 1998-99 will be distributed at a preproposal conference/funding workshop. Attendance at these meetings is not a prerequisite for application for this grant program.

Organizations interested in being placed on the mailing list to receive copies of the Single Parent/Displaced Homemaker and Sex Equity grant application guidelines may call the Bureau of Vocational-Technical Education at (717) 787-5293.

The Single Parent/Displaced Homemaker and Sex Equity preproposal conference/funding workshop will be held on Monday, April 27 at the Holiday Inn in Carlisle, on Route 11—1 mile off of Exit 16 of the Pennsylvania Turnpike. The workshop will begin at 1 p.m. and is expected to conclude by 4 p.m. Registration for this workshop will be 1/2 hour prior to the beginning time.

Contact Kathy Weidinger at the Bureau of Vocational-Technical Education at (717) 787-5293 to preregister for this funding workshop.

DEPARTMENT OF ENVIRONMENTAL PROTECTION
Applications, Actions and Special Notices

APPLICATIONS

APPLICATIONS RECEIVED UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the Field Office indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Field Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the Field Office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact the Secretary to the Board at (717) 787-3483. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

PA 0020460, Amendment No. 4. Sewage, **Pennridge Wastewater Treatment Authority**, 180 Maple Avenue, P. O. Box 31, Sellersville, PA 18960.

This application is for an amendment of an NPDES permit to discharge treated sewage from Pennridge Wastewater Treatment Plant in West Rockhill Township, **Bucks County**. This is an existing discharge to the East Branch Perkiomen Creek.

The receiving stream is classified for warm water fish, trout stocking, potable water supply, industrial water supply, livestock water supply, wildlife water supply, irrigation, boating, fishing, water contact sports and esthetics.

The proposed effluent limits for phosphorus for Outfall 001, based on an average flow of 4.0 mgd are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Average Weekly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Phosphorus as P (4-1-98 to 9-30-98)	2.0	3.0	4.0

The EPA waiver is not in effect.

PA 0055565. Industrial waste, **Wings Field Associates**, 1501 Narcissa Road, Blue Bell, PA 19422.

This application is for renewal of an NPDES permit to discharge treated stormwater from an oil/water separator serving the Wings Field fueling facilities and stormwater runoff from the rest of the facility in Whitpain Township, **Montgomery County**. This is an existing discharge to Prophecy Creek.

The receiving stream is classified for the following uses: trout stocking fishery, aquatic life, water supply and recreation.

The proposed effluent limits for Outfall 001 (oil/water separator), based on an average storm event are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Total Recoverable Petroleum Hydrocarbons			monitor/report

Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewater into the surface waters of this Commonwealth. The Department of Environmental Protection (Department) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management and total residual chlorine control (TRC). Any major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Operations indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on the Department's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

Applications under the Pennsylvania Clean Streams Law

(Part II Permits)

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection (Department).

Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number; identification of the plan or application to which the protest is addressed; and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to a given protest. Each commentator will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact the Secretary to the Board at (717) 787-3483. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

INDIVIDUAL PERMITS

(PAS)

NPDES Individual

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision of 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determina-

tion regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the office noted above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

HAZARDOUS SITES CLEANUP

Under the Act of October 18, 1988

Notice of Opening of the Administrative Record Notice of a Proposed Interim Response Under the Hazardous Sites Cleanup Act

Gettysburg Foundry Site

Operable Unit 2 (Waste Removal)

Cumberland Township, Adams County

The Department of Environmental Protection (Department) under the authority of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.101—6020.1304) (HSCA) will begin an interim response on the property known as the Gettysburg Foundry Site (site) located approximately

5 miles south of Gettysburg on Business Route 15 (Emmitsburg Road) in Cumberland Township, Adams County.

The site, in operation from 1957 to March 1997, manufactured aluminum castings. During the process of melting aluminum material in the furnace, combined pieces of dirt, steel and aluminum would rise to the surface of the melted material. This dross was skimmed off and sent to another part of the plant for handling. At that time, the steel was removed by magnets and the rest of the material was screened to remove dirt and dust from the aluminum. The aluminum was sent back to the furnace, and the dirt and dust (referred to as aluminum dross fine waste) was disposed in two onsite pits. This waste is also currently stored in two buildings onsite. This waste is approximately 37% salt, and also contains elevated levels of lead and aluminum. Baghouse dust from the facility's air pollution control device was also mixed in with the dross fines. The dust is characteristically hazardous under TCLP for cadmium and lead. The buildings in which this waste is stored are in poor condition. The roof and wall of the Ball Mill Building are collapsing, threatening to expose this waste to the elements. There are approximately 500—700 drums which reportedly contain draw bench sludge, on a cement pad at the site. These drums are in deteriorating condition and some are leaking.

There is a threat to the public health and the environment from the continued release and threat of release of contaminants from the waste piles at this site.

Proposed Response

The Department considered two alternatives: 1) no action; and 2) removal of waste to prevent direct contact threats from the waste. The Department prefers the second alternative which is protective of human health and the environment.

Alternative 1—No Action

This alternative involves taking no action to remove, remediate or contain the contaminated media at the site. This alternative is not protective of human health and the environment, and does not comply with Applicable, Relevant and Appropriate Requirements (ARARs). This response would not be cost effective since the cost of the final remedy might increase if there was a further release of waste from the site.

Alternative 2—Waste Removal

This alternative involves removing the aboveground waste at the site. Under this alternative, the waste which is exposed to the environment or which is in deteriorating containers would be removed. This would include the waste piles stored in the buildings and drummed waste.

This alternative would be protective of human health and the environment. Removing the waste would prevent further releases to the environment until a final remedial action can be taken. It would also have the added benefit of preventing surface water from coming in contact with the waste and dispersing the waste around the site or offsite.

The Department is providing this notice under sections 505(b) and 506(b) of the HSCA. The publication of this notice starts the administrative record period under the HSCA. The administrative record that contains information about this site and which supports the Department's decision to perform this action at Gettysburg Foundry Site is available for public review and comment at the Department's Southcentral Regional Office, located at

One Ararat Boulevard, Harrisburg, PA 17110, by contacting Barbara Faletti at (717) 657-4125. A copy of the administrative record is also available at the Adams County Public Library at 140 Baltimore Street, Gettysburg, PA and may be reviewed during regular library hours.

The administrative record will be open for comment from the date of publication of this notice in the *Pennsylvania Bulletin* and will remain open for 90 days. Persons may submit written comments regarding this action to DEP before July 17, 1998, by mailing them to Barbara Faletti at One Ararat Boulevard, Harrisburg, PA 17110.

The public will have an opportunity to present oral comments regarding the proposed response action at a public hearing. The hearing has been scheduled for Tuesday, June 2, 1998, at 7 p.m., at the Adams County Library, 140 Baltimore Street, Gettysburg, PA. Persons wishing to present formal oral comments at the hearing should register before 4 p.m., Friday, May 29, 1998, by calling Mary Ann Fischer at (717) 541-7969. If no person registers to present oral comments by May 29, 1998, the hearing will not be held. Persons interested in finding out if persons have registered, and if the hearing will be held, should also contact Mary Ann Fischer at the same number. If a hearing is not requested, a public meeting will still be held on June 2, 1998.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate in the proceedings should contact Mary Ann Fischer at (717) 541-7969, or through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 1

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department must provide a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Southeast Regional Office: Environmental Cleanup Program Manager; Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, (610) 832-5950.

Wheelabrator Falls, Inc., Falls Township, **Bucks County**. Darryl D. Borrelli, Manko, Gold & Katcher, Suite 500, 401 City Avenue, Bala Cynwyd, PA 19004, has submitted a Notice of Intent to Remediate site groundwater contaminated with lead, heavy metals and solvents. The applicant proposes to remediate the site to meet Statewide health and background standards. A final report was simultaneously submitted.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 2

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use a site-specific standard or who intend to remediate a site in a Special Industrial Area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific cleanup standard, in whole or in part, and for sites determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified, a municipality may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period a municipi-

pality may request that the person identified, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of a site. For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northeast Regional Field Office, Joseph Brogna, Regional Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (717) 826-2511.

Bethlehem Works Site, City of Bethlehem, Northampton County. Edwin B. Wilson, Director, Environmental Assessment and Remediation, Bethlehem Steel Corporation, 1170 Eighth Avenue, Bethlehem, PA 18016 has submitted a Notice of Intent to Remediate concerning the remediation of site soils and groundwater suspected to be contaminated with polychlorobiphenyls, lead, metals, solvents, BTEX (benzene, toluene, ethylbenzene and xylene) compounds and polyaromatic hydrocarbons. The applicant proposes to remediate the site to meet the site-specific standard. A summary of the Notice of Intent to Remediate was reported to have been published in both the *Easton Express Times* and *The Morning Call* on or about March 31, 1998.

Northwest Regional Office: Craig Lobins, Environmental Cleanup Program Manager, 230 Chestnut Street, Meadville, PA 16335, (814) 332-6648.

Brown Boiler, Franklin Township, Venango County, 1026 Chestnut Street, Franklin, PA 16323 has submitted a Notice of Intent to Remediate soil contaminated with PAHs. The applicant proposes to remediate the site to meet the Special Industrial Area standard. The Notice of Intent to Remediate was reported to have been published in the *Herald News* on February 6, 1998.

Roger's Steel, City of Corry, Erie County, Eagle Street and Mead Avenue, Erie, PA, has submitted a Notice of Intent to Remediate soil contaminated with lead. The applicant proposes to remediate the site to meet the Special Industrial Area standard. The Notice of Intent to Remediate was reported to have been published in the *Corry Journal* on March 9, 1998.

tion of a new 90.0 acre construction and demolition waste landfill, located in Hazle Township, **Luzerne County.** The application was received in the Regional Office on March 17, 1998 and was found to be administratively complete as of March 30, 1998.

AIR POLLUTION

Public Notice

Notice of Plan Approval and Operating Permit Applications

Non-major Sources and Modifications

The Department of Environmental Protection (Department) has developed an integrated plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application and at one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Offices identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits have 30 days to submit protests or comments. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department's Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the act.

This plant is subject to Subpart I of the Federal Standards of Performance for New Stationary Sources.

Notice of Intent to Issue Title V Operating Permits

Under 25 Pa. Code § 127.521, the Department of Environmental Protection (Department) intends to issue a Title V Operating Permit to the following facilities. These

facilities are major facilities subject to the operating permit requirements under Title V of the Federal Clean Air Act and 25 Pa. Code Chapter 127, Subchapters F and G (relating to operating permit requirements; and Title V operating permits).

Copies of the Title V application, proposed permit and other relevant information are available for public inspection and additional information may be obtained by contacting the regional office noted.

Interested persons may submit written comments, suggestions or objections concerning the proposed Title V permit to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall include the name, address and telephone number of the person submitting the comments, along with the reference number of the proposed permit. The commentator should also include a concise statement of objections to the permit issuance and the relevant facts upon which the objections are based.

The Department reserves the right to hold a public hearing on the proposed action based upon the information received during the public comment period and will provide notice of any scheduled public hearing at least 30 days in advance of the hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation where the facility is located.

REASONABLY AVAILABLE CONTROL TECHNOLOGY (RACT)

Notice of Proposed Revision to the State Implementation Plan for Oxides of Nitrogen (NOx) and Volatile Organic Compounds (VOC); Public Hearing; and Intent to Revise Operating Permit for Large Municipal Waste Combustors

The Department of Environmental Protection (Department) has made a preliminary determination to approve a Reasonably Available Control Technology (RACT) plan as amendments to the State Implementation Plan (SIP) for the two municipal waste combustors owned and operated by Montenay Energy Resources of Montgomery County, Inc. (Montenay), located at 10 Highland Avenue, Plymouth Township, Montgomery County. The proposed SIP revisions do not adopt new regulations. It incorporates the provisions and requirements contained in the RACT approvals for the facility to comply with current regulations. The preliminary determination, if finally approved, will be incorporated into Montenay's Operating Permit and will be submitted to the United States Environmental Protection Agency (EPA) as a revision to Pennsylvania's SIP.

The following is a summary of the preliminary RACT determinations for Application No. OP-46-0010A:

<i>Sources</i>	<i>Emission Limit (tons/year/unit)</i>	<i>Control Technique</i>	<i>Implementation Schedule</i>
Two Municipal Waste Combustors	615 NOx	Source Monitoring and Recordkeeping	Pending on the Issuance of Operating Permit

Also note that under section 111(d)/129 of the Clean Air Act, the United States Environmental Protection Agency (EPA) promulgated Emission Guidelines (EG) to control the emission of combustor gases from existing large municipal waste combustors (MWCs). (See 60 FR 65382, Dec. 19, 1995 and 62 FR 45116, Aug. 25, 1997). The guidelines are codified at 40 CFR Part 60, Subpart Cb (relating to emission guidelines and compliance times for large municipal waste combustors that are constructed on or before September 20, 1994). The Subpart Cb requirements apply to any existing large MWC unit that is capable of combusting more than 250 tons per day of municipal solid waste.

The Department intends to submit a section 111(d)/129 State Plan for large MWCs to the EPA as soon as practical. In accordance with the plan, the Department will implement the EG by incorporating the applicable requirements of 40 CFR Part 60, Subpart Cb into Federally Enforceable State Operating Permits (FESOPs). The revised FESOPs will serve as the legally enforceable mechanism to implement these Cb requirements.

One public hearing will be held for the purpose of receiving comments on the proposed SIP revision and implementing of the emission guidelines. The hearing will be held on May 19, 1998, at the Department's Southeast Regional Office, Lee Park, 555 North Lane, Suite 6010, Conshohocken, PA from 7 p.m. until all scheduled comments are received. The hearing will represent the opportunity for oral comment to the Department on these proposals and will not be a question and answer session. Persons wishing to present testimony at the hearing are requested to contact Clarke Rupert, the Department's Community Relations Coordinator, at (610) 832-6020 to register prior to the hearing. Written comments or suggestions concerning the proposals should be submitted to Francine Carlini, Air Quality Program Manager, DEP, Southeast Regional Office, Lee Park, 555 North Lane, Suite 6010, Conshohocken, PA 19428 on or before May 19, 1998. Written comments should include the name, address and telephone number of the person submitting the comments, along with the reference number of the proposed permit. Commentators should also include a concise statement of objections to the issuance of the revised permit and the relevant facts upon which the objections are based.

Individuals in need of an accommodation as provided for in the Americans With Disabilities Act should contact Clarke Rupert at (610) 832-6020 or through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Copies of the pertinent documents are available for review at the Department's Southeast Regional Office. Appointments for scheduling a review may be made by calling (610) 832-6003.

MINING

APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the appli-

cable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Ebensburg District Office, 437 South Center Street, P. O. Box 625, Ebensburg, PA 15931-0625.

Coal Applications Received

56980104. Dunamis Resources, Inc. (One Energy Place, Suite 4000, Latrobe, PA 15650), commencement, operation and restoration of bituminous strip mine in Lincoln Township, **Somerset County**, affecting 27.2 acres, receiving stream North Branch of Quemahoning Creek and tributaries. Application received March 26, 1998.

5960107. Godin Brothers, Inc. (136 Godin Drive, Boswell, PA 15531), revision for a stream variance to conduct mining activities within 100 feet of an unnamed tributary to Quemahoning Creek. The primary purpose is for the construction of a haulroad crossing over an unnamed tributary to Quemahoning Creek. The haulroad crossing will be installed approximately 340 feet below where the unnamed tributary crosses T-655. SMP acres—128.6—receiving streams unnamed tributaries to and Quemahoning Creek, located in Jenner Township, **Somerset County**. Application received: March 27, 1998.

Greensburg District Office, R. D. 2, Box 603-C, Greensburg, PA 15601.

03970103. Marquise Mining Corporation (3889 Menoher Boulevard, Johnstown, PA 15905). Application received to revise permit for alternate erosion and sedimentation controls and to temporarily relocate two township roads at a bituminous surface mining site located in Kiskiminetas Township, **Armstrong County**, affecting 184 acres. Application received March 31, 1998.

Greensburg District Office, R. D. 2, Box 603-C, Greensburg, PA 15601.

Noncoal Applications Received

0291031R. Collier Stone Co. (80 Noblestown Road, Carnegie, PA 15106). NPDES renewal application (PA0203114) received for a noncoal quarry located in Collier Township, **Allegheny County**. Receiving streams: Scotts Run and Robinson Run to Chartiers Creek. Renewal application received: March 23, 1998.

APPLICATIONS RECEIVED UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT

ENCROACHMENTS

The following Dam Safety and Encroachment permit applications, requests for Environmental Assessment approval and requests for water quality certification have been received by the Department of Environmental Protection (Department). Section 401(a) of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)) requires the State to certify that the involved projects will not violate the applicable provisions of 33 U.S.C.A. §§ 1311—1313, 1316 and 1317, as well as relevant State requirements. Initial requests for 401 certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Safety or Encroachment Permit or the approval of Environmental Assessments must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

E46-794. Encroachment. **Upper Merion Municipal Utility Authority**, 175 West Valley Forge Rd., King of Prussia, PA 19406. To construct and maintain a discharge structure in the Schuylkill River from the Trout Run Water Pollution Control Center (Valley Forge, PA Quad-

rangle N: 20.1 inches; W: 4.6 inches, in Upper Merion Township, **Montgomery County**. Work includes:

1. Construction of a 6-foot diameter precast discharge structure. Surrounded by rip rap protection in the Schuylkill River.

2. Installation of a 36-inch diameter reinforced concrete discharge pipe beneath the 100 year floodplain, adjacent wetland and beneath the river bed of the Schuylkill River.

This work is located approximately 50 feet into the river from the shore line at a point approximately 120 feet upstream of the existing catfish dam lock structure, and along the southern bank of the river. This structure will replace a sanitary sewer plant outfall structure located in Trout Run.

E46-801. Encroachment. **Sandy Run Country Club**, 200 E. Valley Green Rd., Oreland, PA 19075-0116. To maintain a 120-foot long, 12-foot high, gabion wall which has been previously constructed. Also to construct and maintain an additional 96 linear feet of 12-foot high gabion wall adjacent to an irrigation pond located within the floodway of Sandy Run Creek (TSF). This site is situated at the Sandy Run Country Club located near Walnut Avenue and west of Valley Green Road (Germantown, PA Quadrangle N: 10.0 inches; W: 21.9 inches) in Springfield Township, **Montgomery County**.

ACTIONS

FINAL ACTIONS TAKEN UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System (Program (NPDES))]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

Part I Permits

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, 400 Market Street, Second Floor, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program in the Department's Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following final reports.

Southeast Regional Office: Environmental Cleanup Program Manager; Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, (610) 832-5950.

ACTIONS TAKEN UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT

ENCROACHMENTS

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment Approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board, (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and sections 5 and 402 of The Clean Streams Law (35 P. S. §§ 691.5 and 691.402) and notice of final action for certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)). (Note: Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description.)

SPECIAL NOTICES

Public Hearing Notice

102/NPDES/STORMWATER CONSTRUCTION ACTIVITIES

The Department of Environmental Protection (DEP) Water Management Program will be holding a fact finding hearing on the following Stormwater NPDES permit application: Liberty Property Trust, 45 Liberty Boulevard, PAS10-G309.

The hearing is scheduled for May 28, 1998, at 1:30 p.m. at Chester County Conservation District Office, Government Services Center, Conference Room 380, 610 Westtown Road, West Chester, PA 19382-4519, Chester County. The hearing is being held to solicit pertinent comments on this application. The application is for stormwater construction activities, with a discharge to Valley Creek Watershed. A copy of this application is available for review in the Southeast Regional Office's Record Management Section, (610) 832-6268. Those interested in reviewing the application should call to schedule a date to review the file. The project sponsor is: Liberty Property Trust, 65 Valley Stream Parkway, Great Valley Corporate Center, Malvern, PA 19355.

Comments received will be considered by DEP in completing its review and prior to taking final action concerning the application. The hearing will not be a question and answer session.

Persons intending to make a presentation at the hearing should submit written notice to the Regional Manager, Water Management Program at the above address.

The notice should include name, address and telephone number, whether you are opposed or in favor of the project and a brief statement about your presentation. Comments should be kept brief and, depending on the number of speakers, may be limited to 10 minutes per speaker. Where groups are represented, a spokesperson is requested to present the group's concerns. Anyone wishing to present written material directly to DEP may do so within 30 days following the hearing.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate in the proceedings, should contact Sharon Moore, at (610) 832-6073. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

CERTIFIED EMISSION REDUCTION CREDITS IN PENNSYLVANIA'S ERC REGISTRY

Emission reduction credits (ERCs) are surplus, permanent, quantified and Federally enforceable emission reductions used to offset emission increases of oxides of nitrogen (NOx), volatile organic compounds (VOCs) and the following criteria pollutants: carbon monoxide (CO), lead (Pb), oxides of sulfur (SOx), particulate matter (PM), PM-10 and PM-10 precursors.

The Department of Environmental Protection (DEP) maintains an ERC registry in accordance with the requirements of 25 Pa. Code § 127.209. This computerized ERC registry system provides for the tracking of the creation, transfer and use of ERCs. Prior to registration of the credits, ERC Registry Applications are reviewed and approved by the Department to confirm that the ERCs meet the requirements of 25 Pa. Code §§ 127.206—127.208. Registration of the credits in the ERC registry system constitutes certification that the ERCs satisfy applicable requirements and that the credits are available for use. The following registered, and certified ERCs in the ERC Registry are currently available for use as follows:

- (1) To satisfy new source review (NSR) emission offset ratio requirements;
- (2) To net-out of NSR at ERC-generating facilities;
- (3) To sell or trade the ERCs for use as emission offsets at new or modified facilities.

The certified ERCs shown, expressed in tons per year (tpy), satisfy the applicable ERC requirements contained in 25 Pa. Code §§ 127.206—127.208. ERCs created from the curtailment or shutdown of a source or facility expire for use as offsets 10 years after the emission reduction occurs. ERCs generated by the overcontrol of emissions by an existing facility do not expire for use as offsets. However, credits in the registry which are not used in a plan approval will be discounted if new air quality requirements are adopted by DEP or United States Environmental Protection Agency (EPA).

For additional information concerning this listing of certified ERCs, contact Virendra Trivedi, Bureau of Air Quality, Division of Permits, Department of Environmental Protection, 12th Floor, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-4325.

Availability of Technical Guidance

Technical guidance documents are on DEP's World Wide Web site (<http://www.dep.state.pa.us>) at the Public Participation Center. The "January 1998 Inventory" heading is the Governor's List of Nonregulatory Documents. The "Search the Inventory of Technical Guidance Documents" heading is a database of the Inventory. The "Final Documents" heading is the link to a menu of the various DEP bureaus and from there to each bureau's final technical guidance documents. The "Draft Technical Guidance" heading is the link to DEP's draft technical guidance documents.

DEP will continue to revise its documents, as necessary, throughout 1998.

Ordering Paper Copies of DEP Technical Guidance

Persons can order a bound paper copy of the latest Inventory or an unbound paper copy of any of the final documents listed on the Inventory by calling DEP at (717) 783-8727.

In addition, bound copies of some of DEP's documents are available as DEP publications. Persons should check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Here is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone

number is listed with each document. Persons who have questions or comments in general should call Jonathan Brightbill at (717) 783-8727.

1998 Governor's Awards Applications Available for DEP Clients

The Department of Environmental Protection's (Department) Office of Pollution Prevention and Compliance Assistance recently released the 1998 Application for the Governor's Awards for Environmental Excellence. The award is presented annually by the Governor to companies, organizations, nonprofit organizations, government agencies and municipalities that demonstrate accomplishment as Pennsylvania's environmental innovators.

Award categories include pollution prevention, energy efficiency/renewables, recycling and market development, land use, technology innovation, management system, technical assistance provider, industrial recycling and education/outreach. If you or anyone you know of has actively demonstrated pollution prevention tactics, devised industrial innovations which help to save energy, developed goals and objectives which are environmentally sound, or have proactively worked to educate residents about the environmental benefits of P2/E2, let the Department know about it. We encourage you to participate in this highly rewarding program.

A panel of judges from both the public and private sector including educational institutions and environmental organizations will choose 1998 award recipients. Projects and programs will be evaluated on the following criteria: environmental impact; economic impact; energy impact/program results; innovation; management commitment; cooperative efforts; transferability; social impact and educational efforts.

Applications must be received no later than 4 p.m. on June 23rd, 1998. Postmarks are not acceptable. Mail or deliver to the Department of Environmental Protection, P.O. Box 8772, 15th Floor, Rachel Carson State Office Building, Harrisburg, PA 17105-8772.

For further information, contact Barbara Yuricich directly at (717) 772-8908 or Rosemary Mape at (717) 772-8907 or access the application directly on DEP's

website at <http://www.dep.state.pa.us> (choose Pollution Prevention and Compliance Assistance).

DEPARTMENT OF GENERAL SERVICES

Design Professional Selections

The Selections Committee for the Department of General Services (Department) will meet to consider selections of Design Professionals for the following projects:

Project No. DGS 251-36—Construction of New Maintenance Building, District 9-0 Headquarters, Hollidaysburg, Blair County, PA. Construction Cost: \$645,000. The scope of work includes, but is not limited to, construction of an approximately 12,000 square foot, one story, insulated metal structure, including all utilities which will provide space for storage, repair area and offices.

Project No. DGS A 404-101—Addition to and renovation of Carlson Library, Clarion University, Clarion, Clarion County, PA. Construction Cost: \$11,000,000. The scope of work includes, but is not limited to, demolition of Carlson Classroom Building of the Carlson Library and construction of an approximately 28,000 gsf addition. Also, renovation of structural, electrical, mechanical and plumbing systems of the Tower and North Wings of the Library (approximately 80,500 gsf). In addition to traditional library functions this project will provide for instructional media, audiovisual services, microcomputer access, teleconferencing and video production. Key features are reader spaces, lounge and vending area (available for extended hours), a 30 station microcomputer laboratory, space for archives, special collections, art gallery, service and staff areas.

Project No. DGS 503-18—Installation of Updated High Voltage Distribution Cables throughout System, Danville State Hospital, Danville, Montour County, PA. Construction Cost: \$450,000. The addition to the Treatment Building of 2,400 sq. ft. per level (two levels) shall include a dental suite, multipurpose rooms, interview rooms, janitor storage and separate inmate and staff toilet facilities.

Requirements and Information

Note—Project Program

A Project Program, prepared by the Using Agency, for the above advertised projects may be available and can be obtained upon request to the Selections Committee, Department of General Services, Room 104, 18th and Herr Streets, Harrisburg, PA 17125, (717) 783-8468.

Instructions for Filing Application

Professionals will not be considered by the Committee until all of the following requirements are met.

(a) Signed Revised 1994 Form 150, not more than 1 year old as of the deadline date stated in paragraph (d) must be filed with the Department for the requesting professional firm and the designated key consultants listed on the requesting professional firm's application (Form 150-S). All signatures on Form 150 must be original signatures. Consultants listed on the requesting professional firm's application (Form 150-S) shall be deemed to be designated key consultants. If these documents are not on file with the Department, the requesting professional firm must submit them with firm's application (Form 150-S). A photocopy of Form 150 without an original signature of a principal of the firm is not acceptable. Revised 1994 Form 150, Architect/Engineer Questionnaire, may be obtained upon request to the Selections Committee, Department of General Services, Room 104, 18th and Herr Streets, Harrisburg, PA 17125, (717) 783-8468.

(b) The requesting professional firm shall obtain from each consultant listed in the requesting professional firm's application (Form 150-S) a signed letter of certification on the consultant's letterhead, attesting to the firm's consent to participate in the requesting professional firm's application (Form 150-S) for the specific project. Signed letters of certification from consultants are required and constitute a part of the requesting professional firm's application (Form 150-S) for the specific project. All signatures on letters of certification must be original signatures.

(c) The requesting professional firm must submit six signed copies of Revised 1994 Form 150-S, Specific Project Form, for each project herein advertised in which the firm is interested and qualified to perform. All signatures on Form 150-S must be original signatures. For architectural projects and, when appropriate, for engineering projects, the professional shall supply photographs showing a maximum of two different views of each of the three projects described in Question 14, Page 5 of the application (Form 150-S). The requesting professional firm or Joint Venture members must be the Professional of Record for the projects described in Question 14, Page 5 of the application (Form 150-S). It is not acceptable to list work performed by key consultants. The identification and appropriate supportive information concerning each photograph shall include the name, project title, location and the name of the professional of record. Renderings and brochures will not be accepted in lieu of photographs. The photographs shall be attached to each copy of the application, (Form 150-S). The pages of each copy of revised 1994 Form 150-S must be stapled with photographs and consultant's letters of certification followed by photocopies of licenses of registered professionals included as the last section of the application. Do not bind the application (Form 150-S) in any way to any other documentation. Do not bind the application (Form 150-S) in a binder of any type. Revised 1994 Form 150-S may be obtained upon request to the Selections Committee, Department of General Services, Room 104, 18th and Herr Streets, Harrisburg, PA 17125, (717) 783-8468.

(d) A complete project submission, which consists of documents described in paragraphs (a), (b) and (c) must be received on or before the close of business (5 p.m.) Monday, May 11, 1998, and addressed to the Selections Committee, Department of General Services, Room 104, 18th and Herr Streets, Harrisburg, PA 17125. Fax applications are not acceptable.

Project submissions must be made on the current 1994 forms. Outdated forms are not acceptable.

(e) The Selections Committee may at its discretion establish interviews with any or all of the professionals who have requested consideration for appointment as designer for the above projects. If an interview is required, the professional will be notified by the Committee as to the date, time and location.

(f) Additional information, in writing, may be requested by the Committee as required. *Additional Services—Indoor Air Quality Assessment Program and Hazardous Materials.*

The professional firm selected to design a project will be expected to perform and administer, when required by the Department as Additional Services, an Indoor Air Quality Assessment Program during building or renovation commissioning and the sampling, testing, inspection and monitoring for removal of any asbestos, other hazardous waste or contaminants encountered during project design or construction, unless otherwise stated in the scope.

The professional agrees to comply with the terms of the agreement and specifically as it relates to the professional liability insurance and the general liability insurance requirements.

The Selections Committee encourages responses from small firms, minority firms, women-owned firms and firms who have not previously performed State work, and will consider Joint Ventures, which will enable them to participate in this program.

All applications submitted are subject to review by the Selections Committee. The Selections Committee disclaims any liability whatsoever as to its review of the applications submitted and in formulating its recommendations for selection. All recommendations for selection made by the Committee shall be final under the act of July 22, 1975, (P. L. 75, No. 45).

DEPARTMENT OF REVENUE

Cigarette Tax Notice

Under section 227-A of the Fiscal Code (72 P.S. § 227-A) (relating to administration powers and duties), the Department of Revenue (Department) hereby announces the lowest cost of the stamping agent, wholesaler and retailer, respectively, effective upon publication of this notice, as follows:

	<i>Premium Brands</i>	<i>Generic Brands</i>
	<i>(a.k.a. Kings & Regulars)</i>	
Cost of the Stamping Agent (for sales to wholesalers)	\$16.94	\$14.24
Cost of the Wholesaler (for sales to retailers)	\$17.62	\$14.81
Cost of the Retailer (for sales to retail customers)	\$18.68	\$15.70

The Department considers these costs as presumptive minimum costs. Cigarette stamping agents, wholesalers and retailers are prohibited from selling cigarettes at a price lower than their respective presumptive minimum costs. These costs are listed on a per carton basis, 10 packs of cigarettes per carton, 20 cigarettes per pack. To determine the presumptive minimum price per pack of cigarettes, one should divide the costs listed above by ten and round to the nearest hundredth of a percent. For example, the presumptive minimum price of a pack of cigarettes sold by a retailer to a consumer is \$1.87 for premium brands (\$18.68/10), \$1.57 for generic brands (\$15.70/10).

Cigarette dealers who either sell cigarettes under a different packaging setup (that is, eight packs per carton) or sell cigarettes that do not qualify as premium or generic brands (that is, sub-generic, foreign or specialty cigarettes) as described above are prohibited from selling cigarettes at a price lower than the cost of the stamping agent, cost of the wholesaler or cost of the retailer, respectively, as further defined and explained in the Department's cigarette tax regulations, 61 Pa. Code Article III.

Cigarette dealers wishing to prove a cost different from the Department's presumptive costs stated above must

follow the procedures listed under 61 Pa. Code Chapter 76 (relating to unfair sales of cigarettes).

DEPARTMENT OF TRANSPORTATION

Finding

Chester County

Pursuant to the provisions of 71 P. S. Section 2002(b), The Secretary of Transportation makes the following written finding:

The Department of Transportation plans to replace the existing Bridge which carries Cream Road (S. R. 3085) over an unnamed tributary to Muddy Run in Lower Oxford Township, Chester County. The bridge will be replaced in-situ with a two lane, reinforced concrete culvert. There will be minimal approach work. The construction of this project will require 0.008 acres of right-of-way from the Ferguson's Mill property, which is a contributing element to the Ferguson's Mill/Hogg Historic District.

The effect of this project on the Ferguson's Mill/Hogg Historic District will be mitigated by the following measures to minimize harm to the resource:

1. The existing bridge will be replaced with a structure that blends into the historic environment.
2. Prior to construction of the new bridge, the Ferguson's Mill/Hogg Historic District will be documented with archivally stable, 35mm, 5"x7" black and white photographs depicting streetscapes and landscape features. The photographs will be keyed to a clear, concise plan of the district showing the buildings and structures

in relationship to the surrounding landscape; they will be accompanied by a narrative documenting the historic development of the district.

The environmental, economic, social, and other effects of the proposed project as enumerated in Section 2002 of the Administrative Code, have been considered. It has been concluded that there is no prudent and feasible alternative to the project as designed and all reasonable steps have been taken to minimize such effects.

No adverse environmental effect is likely to result from the replacement of the bridge.

INDEPENDENT REGULATORY REVIEW COMMISSION

Actions Taken by the Commission

The Independent Regulatory Review Commission met publicly at 11 a.m., Tuesday, April 7, 1998, and took the following actions:

Regulations Approved:

Department of Public Welfare # 14-424: Medical Assistance Income (amends 55 Pa. Code Chapter 181)

Commissioners Present: Alvin C. Bush, Vice Chairperson; Arthur Coccodrilli; Robert J. Harbison, III; John F. Mizner

Public Meeting held
April 7, 1998

Department of Public Welfare—Assistance Income; Doc. No. 14-424

Order

On March 13, 1998, the Independent Regulatory Review Commission (Commission) received this regulation from the Department of Public Welfare (DPW). This rulemaking amends 55 Pa. Code Chapter 181. The authority for this regulation is found under sections 201(2) and 403(b) of the Public Welfare Code (62 P. S. §§ 201(2) and 403(b)). Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*.

Under this amendment, the Veterans Affairs aid and attendance benefit received by a Medical Assistance (MA) recipient in a nursing facility will not be counted as income when determining the amount of income a recipient is expected to pay toward his cost of care in a nursing facility.

We have reviewed this regulation and find it to be in the public interest. In response to both a Court Order issued by the United States District Court for the Eastern District of Pennsylvania, and a written directive from the Department of Health and Human Services, DPW is required to promulgate this regulation to continue receiv-

ing Federal funding for the MA Program. By order of the Court, the regulation must also be applied retroactively to March 1, 1991.

Therefore, it is Ordered That:

1. Regulation No. 14-424 from the Department of Public Welfare, as submitted to the Commission on March 13, 1998, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Implementation of the Telecommunications Act of 1996; Doc. No. M-00960799F0002

On September 6, 1996, the Pennsylvania Public Utility Commission (Commission) entered an Order on Reconsideration (September 96 Order) regarding implementation of the Telecommunications Act of 1996 (TA-96). The September 96 Order determined that Commonwealth Telephone Company (Commonwealth) qualified as a Rural Telephone Company (RTC) but that ALLTEL Communications, Inc. (ALLTEL) and United Telephone Company of Pennsylvania, Inc. (United) should not receive that designation without submitting more data.

The Commission also required ALLTEL and United to file supplemental data within 30 days. In September 1996, ALLTEL and United submitted letters supporting RTC designation based on the Commission's determination for Commonwealth Telephone in the September 96 Order. In October 1996, AT&T Communications of Penn-

sylvania, Inc. submitted reply comments that challenged the ALLTEL and United data and suggested that the Commission require more information.

The Commission has determined, after a careful review of the comments and reply, that a final opportunity to file additional comments and a reply is necessary given the issue and the passage of time. Consequently, the Commission is providing this public notice for comments and reply comments. The deadline for comments shall be 14 days dating from publication in the *Pennsylvania Bulletin*. The deadline for submitting reply comments shall be 21 days dating from publication in the *Pennsylvania Bulletin*.

Persons or entities submitting any comments or reply must file an original and 13 copies of any comment or reply comment with the Office of the Secretary in PUC Doc. No. P-00960799F0002. One copy must be filed in Doc. No. I-00940035.

The contact person at the Commission is Joseph K. Witmer, Assistant Counsel, Law Bureau (717) 787-3663. A copy of the ALLTEL and United data, as well as the AT&T Reply, can be obtained from Lisa Higley in the Office of the Secretary at (717) 787-1013.

Petition of Metropolitan Edison Company for Waiver of the Landlord-Tenant Provisions of Chapter 56, 52 Pa. Code §§ 56.121—56.126, under § 56.222 with Respect to the Electric Service Account of Thomas R. Killhullen; Doc. No. P-00971254

Commissioners present: John M. Quain, Chairperson; Robert L. Bloom, Vice Chairperson; John Hanger; David Rolka; Nora Mead Brownell

Public Meeting held
 February 26, 1998

Opinion and Order

By the Commission:

Metropolitan Edison Company has filed a petition concerning the account of Thomas R. Killhullen, a residential service customer. None of the individuals listed in the petition's certificate of service have filed an answer to the petition. The Commission will therefore deem the allegations set forth in the petition as admitted facts.

History of the Proceedings

On September 9, 1997, Metropolitan Edison Company (Met Ed or the Company) petitioned the Commission for a waiver of the Commission's Landlord Ratepayer regulations concerning termination at residential dwellings where service is in the name of the landlord. The regulations are at 52 Pa. Code §§ 56.121—56.126. Met Ed also requests waiver of the Commission's regulations regarding wintertime termination procedures at 52 Pa. Code § 56.100. The Company cites as authority for its request the Commission's regulation at § 56.222 which permits application for modification or exemption from the requirements of a regulation if unreasonable hardship to a person or utility results from compliance with a section of Chapter 56.

Mr. Kilhullen is an electric service customer who has three accounts with Met Ed: (1) the Kilhullen home; (2) the Pool Service Station; and (3) an account for service to 10 rental cottages that are all served by one meter. Met Ed's petition concerns the account for service to the 10 rental cottages. Nine of the cottages are occupied by tenants. The tenth cabin is used for the storage of lawn mowers and other equipment. At the time of the filing of Met Ed's petition, this account was \$23,234.06 in arrears. This arrearage has accumulated since May 3, 1993.

Pursuant to the terms of the Commission's Landlord Ratepayer regulations, current bills may be paid by tenants when the utility issues a termination notice to the landlord. 52 Pa. Code § 56.125. These payments result in the continuation of service. Met Ed states that Mr. Kilhullen's rental cabin account arrearage has continued to rise because payments are generally made on the account only when termination notices are issued, and those payments are made by tenants only for the current bill. Consequently, the arrearage continues to grow. A payment history for this account from August 1, 1995 through July 31, 1997 was attached to the Met Ed petition.

Met Ed's representatives have maintained contact with Mr. Kilhullen and attempted to establish payment arrangements with him. According to the Company's petition, "Mr. Kilhullen has steadfastly refused to make payment arrangements with the Company."

The Company has issued numerous termination notices to Mr. Kilhullen as a result of his failure to pay for electric service to the rental cottages. In response, Mr. Kilhullen has made sporadic payments, some with checks that were returned for nonpayment. At other times, tenants have made payments of current bills in order to continue service. Mr. Kilhullen's daughter, who is allegedly one of the tenants, generally makes the payments which have prevented Met Ed from terminating service to the rental cottages.¹

Met Ed states that while it is reluctant to initiate service termination procedures under the circumstances of this case, the Company is concerned about the customer's failure to make regular payments for electric service and the apparent abuse of the Commission's Landlord Ratepayer regulations. Met Ed avers that the customer's failure to meet his payment responsibility has required the Company and the other Met Ed ratepayers to subsidize Mr. Kilhullen's electric service.

Because termination of service would affect all the tenants in the rental cottages, Met Ed has notified the Monroe County United Way which stands ready to provide assistance to Mr. Kilhullen's tenants if it is required. Met Ed's CARE representative also is prepared to assist the tenants in the event of termination of electric service.

Discussion

The fact situation set forth in Met Ed's petition clearly describes a misuse of the protections provided by the Commission's Chapter 56 regulations and the Public Utility Code at 66 Pa. C.S. §§ 1521, et seq. The payment history of this account indicates that the minimum number of payments necessary to require service to be continued has been made and no more. Indeed, the petition suggests that there has been collusion between the landlord and one of the tenants, his daughter, to

make these tenant payments. Such behavior is clearly egregious and contrary to the public interest. Nonetheless, the relief sought by Met Ed cannot be granted.

Met Ed requests a waiver of the Commission's Landlord Ratepayer regulations. Section 56.222 allows for an application for modification or exemption of a Chapter 56 regulation. However, the granting of a waiver, exemption or modification is not possible in this instance since the requirements of the Public Utility Code override the regulations, and it is axiomatic that the Commission does not have the authority to waive a statute.

The Commission's enabling legislation contains provisions that are essentially identical to our Landlord Ratepayer regulations. The tenants' right to continued service upon payment of current bills is found at 66 Pa.C.S. (§ 1527. Since Met Ed is requesting a waiver of a tenant's right protected by statute, its request cannot be granted.²

The statute does provide a remedy to utilities when a landlord ratepayer is two or more months in arrears in his utility payments. Section 1533 gives the affected utility the right to petition the court of common pleas of the county where the leased premises are located to appoint a receiver to collect the rent payments otherwise due the landlord ratepayer. 66 Pa.C.S. § 1533. The statute authorizes the receiver appointed by the court to collect the rent directly from the tenants and to pay all overdue and subsequent utility bills from the rent collected. This section applies only to premises like Mr. Kilhullen's that are not individually metered by the utility. In this manner, the tenants receive continued utility service and the utility receives payments for current service and towards the accumulated arrearages. The receiver is to continue collection of the rents until the landlord ratepayer has paid the undisputed amount of all outstanding utility bills and otherwise satisfied the court that he is ready to resume his obligations to the utility and the tenants.

The statute does not require Met Ed to carry account arrearages that accrue after one of the tenants makes payment pursuant to section 1527. Section 1528(2) provides that Met Ed may include in any termination notice sent to the tenant the amount due, including any arrearage from an earlier bill due from the tenant. Met Ed can utilize this provision to limit the amount of arrearages that accumulate.

Met Ed's petition alleges that Mr. Kilhullen's daughter, who has made payments to Met Ed so as to prevent termination of service, is not a tenant. Sections 1526(a)(5) and 1527(b) of the Public Utility Code expressly allow Met Ed to request identification in order to verify that Mr. Kilhullen's daughter is actually a tenant.

Met Ed's petition also alleges that Mr. Kilhullen made some rent payments with checks that were returned for nonpayment. The Commission's regulation at 56 Pa. Code § 56.94 states that a utility can refuse checks from a ratepayer if the ratepayer has tendered a check within the past year which has been returned for insufficient funds. The regulation at § 56.94 is applicable in this case because it involves residential service.

Additionally, if Met Ed believes it is appropriate, it may initiate criminal proceedings against Mr. Kilhullen. Issuing checks which are returned for insufficient funds

¹The statute defines a tenant as ". . . contractually obligated to make rental payments to the landlord ratepayer pursuant to a rental agreement . . ." 66 Pa.C.S. § 1521. Met Ed does not allege whether Ms. Kilhullen fits the statutory definition of a tenant.

²Section 1530 of the statute states that "[a]ny waiver of a tenant's rights under this chapter shall be void and unenforceable." While this section was probably intended to apply to leases, there is nothing in the section which limits its application to leases, and it could well be argued that such language *expressly* restricts the Commission's waiver authority under § 56.222 of our regulations.

constitutes a violation of section 4105 of the Crimes Code, 18 Pa.C.S. § 4105. Met Ed's petition suggests that Mr. Kilhullen and his daughter are colluding to make the minimum number of payments in order to continue service. These actions, if proven to be true, could also constitute theft of services pursuant to 18 Pa.C.S. § 3926. If Mr. Kilhullen's conduct is as egregious as Met Ed suggests, it should consult the Monroe County District Attorney about initiating criminal proceedings.

Met Ed has indicated a reluctance to terminate service in this case. A utility should not be reluctant to pursue those collection procedures that are available to it under the Public Utility Code. The collection of damages and the appointment of a receiver, however, are remedies that must be pursued through the Court of Common Pleas since the Commission is without authority to award damages, and the statute specifies the process for appointing a receiver.

Met Ed also requests, pursuant to 52 Pa. Code § 56.222, a waiver of the wintertime termination procedures at 52 Pa. Code § 56.100. Section 56.222 does not provide for a waiver but for a modification or temporary exemption from any section in Chapter 56. However, § 56.100(2) sets forth the procedure to be followed for winter termination. The instant petition does not contain all of the information that is necessary to determine whether a wintertime termination would be justified. If the Company wishes to institute winter termination procedures against Mr. Kilhullen, it should file a request with the Commission for permission to terminate service accompanied by a utility report containing the information as described in 52 Pa. Code § 56.152.

It is understandable that applying the Landlord Ratepayer regulations has proven to be a difficult proposition for the utility industry. Moreover, full compliance

with the regulations may be further compromised by a customer's abuse of the administrative process. Given this difficulty in interpreting and applying the Landlord Ratepayer regulations, we have attached to this Opinion and Order a summary of these regulations provided by the Commission's Bureau of Consumer Services in the hope that it might prove helpful to jurisdictional utilities confronting Landlord Ratepayer concerns.

The purpose of this summary is to provide an outline of applicable regulations and laws rather than an interpretation of such provisions. The summary is not intended to have any precedential value, and is provided merely for the information of the utility industry.

In conclusion and for the reasons set forth above, we hold that we must deny the Petition of Metropolitan Edison Company to waive the Commission's Landlord Ratepayer provisions of Chapter 56 with regard to termination of service to the rental cottages of Thomas R. Kilhullen and to waive the Commission's wintertime termination procedures at 52 Pa. Code § 56.100; *Therefore,*

It Is Ordered That:

1. The Petition of Metropolitan Edison is denied consistent with the discussion in the body of this Opinion and Order without prejudice to the Company's right to seek authority for winter termination or to pursue alternative remedies as set forth herein.
2. A copy of this Opinion and Order, with attachment, shall be served on the Office of Consumer Advocate and the Small Business Advocate.
3. A copy of this Opinion and Order, with attachment, shall be published in the *Pennsylvania Bulletin*.

Bureau of Consumer Services' of the Landlord Ratepayer Termination and Discontinuance Law (66 Pa.C.S. §§ 1521—1533)

This is a summary of the above cited law pertaining to the termination of regulated fixed utility service to rental locations where the account is billed in the name of someone other than the tenant. It is sometimes difficult to determine if a particular location is subject to this law because the account is billed to a person or entity that is not the landlord/owner of the property. The law defines "landlord ratepayer" so as to encompass third parties who act on behalf of the landlord. Services covered by the law are gas, electric, steam, sewer and water supplied by a PUC regulated utility. Specific types of accounts not covered by this law are nursing homes, hotels and motels. Hospitals and other similar facilities also are not covered by this law. Note however, that the PUC has termination and discontinuance procedures for nursing homes, hospitals, domiciliary care homes and other similar facilities (see 52 Pa. Code § 55.101). For the complete definitions pertaining to the landlord ratepayer termination and discontinuance see 66 Pa.C.S. § 1521.

Summary of Termination Notice Activity and the Highlights of Events or Actions Associated with the Notice Activity

<i>Notice Activity</i>	<i>Events or Actions Associated With Notice Activity</i>
37-day notice to landlord or responsible party for billing to property covered by statute	<ul style="list-style-type: none"> • Notice must be in writing. • Method of notice to landlord ratepayer: 1) Certified mail if utility receives signed return receipt; 2) Personal service of landlord ratepayer or agent during normal working hours and posting of the landlord ratepayer's principle place of business or business address; 3) If personal service is unsuccessful, notice can be by first class mail. This notice can be sent on the same day as the attempt at personal contact; 4) If the landlord ratepayer's place of business is in another state and there is no agent in this state, notice is to be by certified and first class mail on the same day. See 66 Pa. C.S. § 1525(b). • Appropriate government agencies are to be served with a copy of the notice. • The notice must state that the landlord ratepayer is to provide the names and addresses of every affected tenant; and, advise the landlord of the right to contact the Commission. The notice also must include: the date tenants will be notified of termination, the amount owed and the date of termination. • The list of affected tenants must be provided within seven (7) days or arrangements made to satisfy the reason for termination. The utility is permitted to pursue legal action to obtain the list of affected tenants.

<i>Notice Activity</i>	<i>Events or Actions Associated With Notice Activity</i>
	<ul style="list-style-type: none"> • If landlord ratepayer files a complaint with the PUC within the 7/ day termination period, action is stayed pending adjudication. However, the landlord ratepayer remains obligated to pay all undisputed portions of the bill. • During the 7/day period between notice to the landlord and the 30/day notice to tenants (described below) a representative of the utility “shall visit the affected premise” and attempt to obtain the name and address of the affected tenants by contacting one or more of the tenants.
<p>30-day termination notice to affected tenants.</p>	<ul style="list-style-type: none"> • Notice to tenants is to be by first class mail or hand delivery. If hand delivery is not made on the first attempt (between the hours of 8 a.m. to 5 p.m. Monday through Friday), a second try must be made. The second attempt must be made between 6:00 p.m. and 10:00 p.m. Monday through Friday or 8 a.m. to 5 p.m. on Saturday or Sunday. • Notice must explain rights of tenants to continued service or for restoration of service by paying the prior monthly day bill and each subsequent bill for current service. Payment by tenant(s) does not change the name the account is listed under. Tenants can deduct payments from rent without retribution by landlord. • Tenants have 30 days to pay each subsequent monthly bill after notice by the utility of the amount of each monthly bill. • Notice must contain: 1) The date the notice is rendered; 2) The date of scheduled termination; 3) Amount of prior current months bill; 4) Tenants rights and how to contact the utility and PUC. If tenants do not pay all of the current months bill or all of any subsequent monthly bill, the partial payment must be returned to the tenant(s) who made the partial payment. • Utility is permitted to require “reasonable identification” from tenant(s) who elect to pay the prior 30 day bill and subsequent monthly bills. “Reasonable identification” is defined at 66 Pa.C.S. §§ 1526(a)(5) and 1527(b). • If unit(s) are or can be individually metered with little or no cost and no major revisions to the distribution facilities, tenant(s) can subscribe to service in their name.
<p>10-day notice to be given to affected tenants prior to day of termination. This notice is required by regulation in 52 Pa. Code § 56.126. It is not required by law in Title 66. The PUC has proposed changes to Chapter 56 that remove the landlord ratepayer termination and discontinuance procedures from the regulations. If they are removed this notice will no longer be required.</p>	<ul style="list-style-type: none"> • If possible, the notice is to be conspicuously posted in common areas of property and hand delivered to the address of each affected tenant. • All information required in the 30/day notice must be included in the 10/day notice. • All of the tenants options are also applicable during the 10 days leading up to termination.
<p>30-day notice of termination to tenants for failure to pay subsequent monthly bills (after paying the initial 30 day bill for continuation of service)</p>	<ul style="list-style-type: none"> • The 30/day notice of termination is to be hand-delivered to each affected tenant. If no name is obtained, the notice is to be hand-delivered to each unit by unit number. • The notice is to include the amount due, which includes the arrearage due by the tenants, a statement regarding the rights of the tenants to file a complaint and the phone numbers and addresses for the utility and PUC. • The utility is under no obligation to continue to supply service if the tenants do not pay the arrears on their agreement for continued service. • The utility is again permitted to require “reasonable identification” as a condition for accepting payment from a tenant(s). See 66 Pa.C.S. § 1527(b).

Other considerations and summary of some important aspects of the law and regulation when handling landlord ratepayer termination and/or discontinuance to tenants.

- The Pennsylvania Commonwealth Court has held that tenants with a medical condition must be treated in accordance with the medical certification provisions in 52 Pa. Code, Chapter 56.
- It is important to remember that a utility is permitted to require “reasonable identification” from someone alleging to be a tenant prior to their being an obligation on the part of the utility to honor the rights of the tenant.
- Utilities are not under an obligation to continue providing service when a tenant(s) has entered an agreement to pay the bill in the landlord’s name and does not make the monthly payments. When a tenant defaults on a payment arrangement, the utility is permitted to start termination at the 30/day point. If the tenant(s) come forward again, the company can require payment of the arrears owed by the tenant(s) on their agreement to pay the monthly bills.
- A utility is not obligated to accept a check from the landlord ratepayer to stop termination action if the landlord ratepayer has issued a check in the last year that was returned for insufficient funds or due to stopped payment. See 52 Pa. Code § 56.94(1).

- If a landlord ratepayer is two or more months in arrears with monthly payments, the affected utility has the right to petition the court of common pleas of the county where the property with delinquency is located to have a receiver appointed to collect rent payments for the purpose of paying the arrears and current bills. See 66 Pa.C.S. § 1533 for the complete details of this provision of the law.
- In addition to the procedures set forth in the statutes and regulations outlined above, a utility can utilize other means to collect unpaid amounts from landlords. As noted above, the utilities can file a petition to appoint a receiver under the provisions of 66 Pa.C.S. § 1533. A utility can also initiate a civil action against a landlord for damages in the amount of the unpaid utility bills. In appropriate circumstances, a utility can initiate criminal proceedings against landlords who do not pay their bills.
- If a landlord ratepayer presents a check for payment of a bill that is returned for insufficient funds, the utility may prosecute the landlord criminally under 18 Pa.C.S. § 4105. In certain cases, the landlord's failure to pay may be so egregious that it constitutes theft of services under 18 Pa.C.S. § 3926. If the landlord ratepayer is convicted of either of these offenses, the utility may request that the court order restitution in the amount of the unpaid utility bill as part of any sentence imposed.

Telecommunications

P-00971314. Service Electric Telephone Company, Inc. (SETI). Petition of Service Electric Telephone Company, Inc. (SETI) for designation as an Eligible Telecommunications Carrier under section 214(e) of the Telecommunications Act of 1996 and sections 54.201—54.207 of the Rules of the Federal Communications Commission.

On December 19, 1997, Service Electric Telephone Company, Inc. (SETI) filed a petition (SETI Petition) with the Pennsylvania Public Utility Commission (Commission) requesting designation as an Eligible Telecommunications Carrier (ETC) for purposes under section 214(e) of the Telecommunications Act of 1996 and sections 54.201—54.207 of the Rules of the Federal Communications Commission.

The Commission has made several ETC designations in order to assure the uninterrupted receipt of Universal Service Fund (USF) support for other local exchange carriers (LECs). SETI, however, submitted a petition after the Commission's final public meeting for 1997. The Commission's review in this proceeding follows the process used in the prior proceedings. This includes the requirement that there be a Lifeline Program in place, before any ETC designation is granted, consistent with the FCC's requirements.

The Commission has also determined that the solicitation of public comment is appropriate. Consequently, the Commission is providing this public notice for comments and reply comments. The deadline for comments shall be 7 days dating from publication in the *Pennsylvania Bulletin*. The deadline for submitting reply comments shall be 14 days dating from publication in the *Pennsylvania Bulletin*.

Persons or entities submitting comments must file an original and 13 copies of any comment or reply comment with the Office of the Secretary in PUC Doc. No. P-00971314. One copy must also be filed in PUC Doc. No. I-00940035.

The contact person at the Commission is Joseph K. Witmer, Assistant Counsel, Law Bureau (717) 787-3663. A copy of the SETI Petition may be obtained from Lisa Higley in the Office of the Secretary at (717) 787-1013.

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". A qualified small business concern is an independently owned, operated for profit, business employing 100 or fewer employes and is not a subsidiary or affiliate of a corporation otherwise not qualified.

Such penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter. The small business concern must include on every invoice submitted to the Commonwealth: "(name of vendor) is a qualified small business concern as defined at 4 Pa. Code § 2.32".

For information on the required payment date and annual interest rate, please call the Pennsylvania Department of Commerce, Small Business Action Center, 483 Forum Building, 783-5700.

GET A STEP AHEAD IN COMPETING FOR A STATE CONTRACT!

The Treasury Department's Bureau of Contracts and Public Records can help you do business with state government agencies. Our efforts focus on guiding the business community through the maze of state government offices. The bureau is, by law, the central repository for all state contracts over \$5,000. Bureau personnel can supply descriptions of contracts, names of previous bidders, pricing breakdowns and other information to help you submit a successful bid on a contract. We will direct you to the appropriate person and agency looking for your product or service to get you "A Step Ahead." Services are free except the cost of photocopying contracts or dubbing a computer diskette with a list of current contracts on the database. A free brochure, "Frequently Asked Questions About State Contracts," explains how to take advantage of the bureau's services.
