DEPARTMENT OF EDUCATION

Application of Franklin and Marshall College for Approval of Amendment of Articles of Incorporation

Under 24 Pa.C.S. § 6503(e) (relating to certification of institutions), the Department of Education (Department) will consider the application of Franklin and Marshall for a Certificate of Authority approving the institution's request for amendment of its Articles of Incorporation that will add a new Section 16 as required by Act 55 of 1997, The Institutions of Purely Public Charity Act.

In accordance with 24 Pa.C.S. § 6503(e), the Department will act upon the application without hearing, unless within 30 days after the publication of this notice in the *Pennsylvania Bulletin* a written request for public hearing is filed with the Department, along with a notice of intervention, a petition to intervene or protest in accordance with 1 Pa. Code § 35.23 and 35.24 (relating to

protest) or 1 Pa. Code §§ 35.27—35.32 (relating to intervention).

All petitions to intervene, protest and request for hearing shall be filed with Dr. Warren D. Evans, Chartering/Governance/Accreditation Specialist, 333 Market Street, Harrisburg, PA 17126-0333, (717) 787-6576 on or before 4 p.m. on the due date prescribed by this notice. Persons wishing to review the application should phone or write to the aforementioned office to schedule a time for an in-office review. Duplicate copies of the application are not available.

Persons with a disability who wish to attend the hearing, if held, and require an auxiliary aid, service or other accommodation to participate, should contact Suzanne B. Markowicz at (717) 787-6576 to discuss how the Department may best accommodate their needs.

Applications, Actions and Special Notices

APPLICATIONS

APPLICATIONS RECEIVED UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards

and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

Applications for National Pollutant Discharge Elimination System (NPDES) permit to discharge to State waters.

Southeast Regional Office: Regional Manager, Water Management, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, (610) 832-6130.

PA 0057363. Sewage, **ARCCA Real Estate Corporation**, 2288 Second Street Pike, Penns Park, PA 18943.

This application is for issuance of an NPDES permit to discharge treated sewage from a sewage treatment plant in Wrightstown Township, **Bucks County**. This is a new discharge to dry swale to Neshaminy Creek.

The receiving stream is classified for the following uses: warm water fishery, aquatic life, water supply and recreation.

The proposed effluent limits for Outfall 001, based on an average flow of 2,000 gpd are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅		
(5-1 to 10-31)	10	20
(11-1 to 4-30)	20	40
Suspended Solids	10	20
Ammonia (as N)		
(5-1 to 10-31)	3.0	6.0
(11-1 to 4-30)	9.0	18.0
Total Residual Chlorine	0.5	1.3
Fecal Coliform	200 colonies/100 ml as a geometric average	
Dissolved Oxygen	minimum of 3.0 mg/l at all times	
pH	within limits of 6.0—9.0 standard units at all times	

The EPA waiver is in effect.

PA 0035769. Industrial waste, **Moyer Packing Company**, P. O. Box 395, Souderton, PA 18964-0395.

This application is for renewal of an NPDES permit to discharge treated process wastewater and stormwater from an industrial wastewater treatment plant located in Franconia Township, **Montgomery County**. This is an existing discharge to Skippack Creek and unnamed tributary to Skippack Creek.

The receiving stream is classified for the following uses: trout stocking fishery aquatic life, water supply and recreation.

The proposed effluent limits for Outfall 001, based on an average flow of 750,000 gallons per day are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅			
(5-1 to 10-31)	10	20	25

(5-1 to 10-31)	1.2	2.4	3.0
(11-1 to 4-30)	3.6	7.2	9.0

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Phosphorus as P (4-1 to 10-31)	0.8	1.6	2.0
Oil and Grease	15	25	30
Total Residual Chlorine (1st month to 12th month)	1.0		2.34
(13th month to 60th month)	0.024		0.094
Fecal Coliform	200 colonies/100 ml as a geometric average		
Dissolved Oxygen	minimum of 5.0 mg/l at all times		
Osmotic Pressure	90 milliosmoles/Kg as a maximum daily		
pH	within limits of 6.0—9.0 standard units at all times		

Other Conditions:

The EPA waiver is in effect.

Permission to discharge stormwater associated with industrial activities through Outfalls 002 and 003.

Monitoring Requirements at monitoring point 101 for stormwater from northwest of rendering facility.

Northeast Region: Environmental Protection Manager, Water Management, 2 Public Square, Wilkes-Barre, PA 18711-0790, (717) 826-2553.

PA 0063771. Sewerage, **New Milford Municipal Authority**, P. O. Box 1111, New Milford, PA 18834.

This proposed action is for issuance of an NPDES permit to discharge treated sewage into Martin's Creek in New Milford Township, **Susquehanna County**.

The receiving stream is classified for the following uses: cold water fishery, aquatic life, water supply and recreation.

For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing downstream potable water supply (PWS) considered during the evaluation is Danville Borough Water Authority on the Susquehanna River.

The proposed effluent limits for Outfall 001, based on a design flow of 0.250 mgd are:

<i>Parameter</i>	<i>Monthly Average (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅	25.0	50.0
Total Suspended Solids	30.0	60.0
Fecal Coliform (5-1 to 9-30)	200/100 ml as a geometric mean	
(10-1 to 4-30)	2,000/100 ml as a geometric mean	
pH	6.0—9.0 standard units at all times	
Total Residual Chlorine	1.0	2.0

The EPA waiver is in effect.

Southcentral Regional Office: Regional Water Management Program Manager, One Ararat Boulevard, Harrisburg, PA 17110, (717) 657-4590.

PA 0008265, Amendment No. 2. Industrial waste, SIC: 2611 and 2621, **Appleton Papers, Inc.**, P. O. Box 359, Appleton, Wisconsin 54912-0359.

This application is for amendment of an NPDES permit for an existing discharge of treated industrial waste to Frankstown Branch, in Blair Township, **Blair County**.

The receiving stream is classified for warm water fishes, recreation, water supply and aquatic life. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing downstream potable water supply intake considered during the evaluation was United Water Company located near Harrisburg. The discharge is not expected to impact any potable water supply.

The proposed effluent limits for Outfall 001 for a design flow of 4.84 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Total Arsenic			effluent limitation is deleted
Total Residual Chlorine			effluent limitation is deleted

Additional requirements are the submission of an annual temperature report and completion of Phase II of a Toxics Reduction Evaluation.

The EPA waiver is not in effect.

PA 0038415. Sewage, SIC: 4952, **East Pennsboro Township Board of Commissioners**, c/o Robert L. Gill, Manager, 98 South Enola Drive, Enola, PA 17025.

This application is for amendment of an NPDES permit for an existing discharge of treated sewage to Conodoguinet Creek, in East Pennsboro Township, **Cumberland County**.

The receiving stream is classified for warm water fishes, recreation, water supply and aquatic life. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing downstream potable water supply intake considered during the evaluation was Steelton Municipal Waterworks located in Steelton. The discharge is not expected to impact any potable water supply.

The proposed effluent limits for Outfall 001 for a design flow of 3.70 mgd are:

<i>Parameter</i>	<i>Average</i>	<i>Instantaneous</i>
	<i>Monthly (mg/l)</i>	<i>Maximum (mg/l)</i>
Total Residual Chlorine	0.5	1.6

The EPA waiver is not in effect.

PA 0051781. Industrial waste, SIC: 4941, **Reading Area Water Authority**, 815 Washington Street, Reading, PA 19601.

This application is for renewal of an NPDES permit for an existing discharge of treated industrial waste to Maiden Creek, in Ontelaunee Township, **Berks County**.

The receiving stream is classified for warm water fishes, recreation, water supply and aquatic life. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing downstream potable water supply intake considered during the evaluation was Pottstown Water Supply located on the Schuylkill River. The discharge is not expected to impact any potable water supply.

The proposed effluent limits for Outfall 001 for a design flow of 2.76 mgd are:

<i>Parameter</i>	<i>Average</i>	<i>Maximum</i>	<i>Instantaneous</i>
	<i>Monthly (mg/l)</i>	<i>Daily (mg/l)</i>	<i>Maximum (mg/l)</i>

Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewater into the surface waters of this Commonwealth. The Department of Environmental Protection (Department) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management and total residual chlorine control (TRC). Major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Operations indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on the Department's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

Applications under the Pennsylvania Clean Streams Law

(Part II Permits)

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection (Department). Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number; identification of the plan or application to which the protest is addressed; and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protest. Each writer will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

INDIVIDUAL PERMITS

(PAS)

Stormwater Individual

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision, 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the Regional Office or County Conservation District Office indicated as the responsible office, within 30 days from the date of this public notice. A copy of the written comments should be sent to the County Conservation District Office. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the County Conservation District Office or the Department Regional Office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 1

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Southcentral Regional Office, Environmental Cleanup Program Manager, One Ararat Boulevard, Harrisburg, PA 17110, (717) 657-4592.

Moats Service Center, Providence Township, **Lancaster County**. William E. Stephens, Stephens Environmental Consulting, Inc., 191 Slicers Mill Road, Rising Sun, MD 21911, has submitted a Notice of Intent to Remediate site soils and groundwater contaminated with PCBs, lead, solvents, BTEX, PHCs and PAHs. The applicant proposes to remediate the site to meet the Statewide health standard. A summary of the Notice of Intent to Remediate was reported to have been published February 19, 1998, in the *Lancaster New Era*.

Southwest Field Office: John J. Matviya, Environmental Cleanup Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-5217.

soil contaminated with PAHs. The applicant proposes to remediate the site to meet the Statewide health standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 2

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use a site-specific standard or who intend to remediate a site in a Special Industrial Area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific cleanup standard, in whole or in part, and for sites determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified, a municipality may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period a municipality may request that the person identified, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of a site. For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Southwest Field Office: John J. Matviya, Environmental Cleanup Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-5217.

Application was received in the Southeast Regional Office on April 2, 1998.

AIR POLLUTION

Notice of Plan Approval and Operating Permit Applications

Nonmajor Sources and Modifications

The Department of Environmental Protection (Department) has developed an integrated plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permit-

ting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application and at one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Offices identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits have 30 days to submit protests or comments. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department's Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act and regulations adopted under the act.

OPERATING PERMITS

Applications received and intent to issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001-4015).

Notice of Intent to Issue Title V Operating Permits

Under 25 Pa. Code § 127.521, the Department of Environmental Protection (Department) intends to issue a Title V Operating Permit to the following facilities. These facilities are major facilities subject to the operating permit requirements under Title V of the Federal Clean Air Act and 25 Pa. Code Chapter 127, Subchapters F and G (relating to operating permit requirements; and Title V operating permits).

Copies of the Title V application, proposed permit and other relevant information are available for public inspection and additional information may be obtained by contacting the regional office noted.

Interested persons may submit written comments, suggestions or objections concerning the proposed Title V permit to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall include the name, address and telephone number of the person submitting the comments, along with the reference number of the proposed permit. The commentator should also include a concise statement of objections to the permit issuance and the relevant facts upon which the objections are based.

The Department reserves the right to hold a public hearing on the proposed action based upon the information received during the public comment period and will provide notice of any scheduled public hearing at least 30 days in advance of the hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation where the facility is located.

The facility's air emission sources include two natural gas fired boilers, a continuous weld furnace fired by natural gas, two natural gas fired galvanize furnaces and a pipe coating section. The facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments due to the facility's potential to emit of volatile organic compounds and particulate matter.

33-00055: Glen-Gery Corp., Hanley Plant (P. O. Box 68, Route 28, Summerville, PA 15864) located in Summerville Borough, **Jefferson County**. The facility's major sources of emissions include two tunnel kilns which primarily emit sulfur oxides and hydrogen fluoride.

REASONABLY AVAILABLE CONTROL TECHNOLOGY

(RACT)

Carbidie Corporation, Westmoreland County

As per 40 CFR 51.102(d), the Department of Environmental Protection (Department) will hold a public hearing on May 21, 1998, at 10 a.m. in the Allegheny Conference Room, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

The hearing is to take testimony concerning the Department's intent to issue a Reasonably Available Control Technology (RACT) Operating Permit (PA-65-000-720) to Carbidie Corporation. Carbidie operates a powdered metal facility in Hempfield Township, Westmoreland County. RACT for this facility has been determined to be the installation of a Ross dryer with condenser, sealed screen enclosures, fixed lids for mixers and storage tanks and a cool water chiller.

Those wishing to present testimony during the hearing should contact Community Relations Coordinator, Betsy Mallison at (412) 442-4182 by May 20, 1998 to register.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact Betsy Mallison or the Pennsylvania

AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Those who are unable to attend the hearing, but wish to comment, should provide written comments to Noor Nahar, Air Pollution Control Engineer, Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222. Comment period is open for 30 days after the appearance of this public notice.

Reasonably Available Control Technology; Public Hearing

Bird-In-Hand Woodworks, Inc.

The Department of Environmental Protection (Department) has made a preliminary determination to approve a revised Reasonably Available Control Technology (RACT) Plan and proposes to revise the State Implementation Plan (SIP) for the Bird-In-Hand Woodworks, Inc. at 245 Reading Road, East Earl Township, Lancaster County.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in RACT Operating Permit No. 36-2022A for the existing facility to comply with current regulations. The preliminary VOC RACT revision involves the addition of an EPA control technology guidance emission limitation and the removal of a ton per year VOC emission limitation.

The preliminary RACT determination, when finally approved, will be incorporated into an Operating Permit for the facility and will be submitted to the United States Environmental Protection Agency (EPA) as a revision to Pennsylvania's SIP.

An appointment to review the pertinent documents at the Southcentral Regional Office may be scheduled by contacting Mary Disanto at (717) 540-5018 between 8 a.m. and 3:30 p.m., Monday through Friday, except holidays.

One public hearing will be held for the purpose of receiving comments on the proposal. The hearing will be held on May 20, 1998, at the Department of Environmental Protection, Lancaster District Office, 1661 Old Philadelphia Pike, Lancaster, PA 17602 from 1 p.m. until all scheduled comments on the proposal are received.

Those wishing to comment are requested to contact Susan Frank at (717) 541-7969 at least 1 week in advance of the hearing to schedule their testimony. Commentators are requested to provide two written copies of their remarks at the time of the hearing. Oral testimony will be limited to a maximum of 10 minutes per individual. Organizations are requested to designate an individual to present testimony on behalf of the organization. Written comments may be submitted to Michelle Rudisill, Air Pollution Control Engineer, One Ararat Boulevard, Harrisburg, PA 17110 on or before May 20, 1998.

Persons with a disability who wish to attend the hearing scheduled for May 20, 1998, at the Lancaster District Office and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact Susan Frank directly at (717) 541-7969 through the AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

MINING

APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Greensburg District Office, R. D. 2, Box 603-C, Greensburg, PA 15601.

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704

(relating to the Administrative Agency Law), to the Environmental Hearing Board, 400 Market Street, Second Floor, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

INDIVIDUAL PERMITS

(PAR)

The following parties have submitted Notices of Intent (NOIs) for Coverage under (1) General NPDES Permit(s) to discharge wastewater into the surface waters of this Commonwealth. The approval for coverage under these general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in the general permit; (2) General Permit(s) for Beneficial Use of Sewage Sludge or Residential Septage by Land Application in Pennsylvania. The approval of coverage for land application of sewage sludge or residential septage under these general permits is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective general permit. The Department of Environmental Protection approves the following coverages under the specified General Permit.

The EPA Region III Regional Administrator has waived the right to review or object to this permit action under the waiver provision: 40 CFR 123.24.

The application and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted.

**SEWAGE FACILITIES ACT
PLAN APPROVAL**

Plan revision approval granted April 6, 1998 under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

Regional Office: Water Management Program Manager, Southcentral Regional, One Ararat Boulevard, Harrisburg, PA 17110.

Location: West Lampeter Township, Lancaster County, 852 Village Road, P. O. Box 237, Lampeter, PA 17537.

The proposed development is located on the west side of Gypsy Hill Road (S. R. 2039), approximately 5,700 feet north of its intersection with S. R. 0222, West Lampeter Township, Lancaster County.

The approved project consists of upgrading the existing Mill Creek Pump Station from 3.0 mgd to 5.76 mgd. All service flows through the pump station are treated at the south train of the Lancaster Municipal Authority Wastewater Treatment Plant.

Any required NPDES permits or WQM permits must be obtained in the name of the municipality or authority.

Location: Warwick Township, Lancaster County, P. O. Box 308, Lititz, PA 17543.

The proposed development is located on the north side of West Woods Drive, approximately 2,600 feet west of S. R. 0501, Warwick Township, Lancaster County.

The approved project consists of a two lot subdivision. Lot No. 1 is 25 acres and is proposed to have 173 residential dwelling units. Lot No. 2 is 2.6 acres and is proposed for a 60 bed nursing care facility. The total sewage flows of 44,550 gallons per day (gpd) of wastewater will be treated by the Lititz Borough Wastewater Treatment Plant.

Any required NPDES permits or WQM permits must be obtained in the name of the municipality or authority.

HAZARDOUS SITES CLEANUP

Under the Act of October 18, 1988

Public Notice of Proposed Consent Decree Millcreek Dump Site Millcreek Township, Erie County

Under section 122 of the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C.A. § 9622, and section 1113 of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1304), notice is hereby provided that the Department of Environmental Protection (Department) has entered into a Consent Decree concerning settlement of the Department's Complaint against Lincoln Metal Processing Company (Lincoln). The Department's Complaint concerns the response costs that the Department has incurred and will incur to cleanup the Millcreek Dump Site in Erie County, PA. The Department's Complaint is filed in the United States District Court for the Western District of Pennsylvania, at Doc. No. 93-297 (Erie).

The Department has incurred over \$700,000 in past response costs, and estimates that it will incur over \$4 million in response costs in the future at the Millcreek Dump Site. However, based upon Lincoln's limited ability to pay, the Department has agreed to settle its Complaint against Lincoln for \$55,000. The specifics of the Department's settlement with Lincoln are set forth in the Consent Decree.

The Department will receive and consider comments relating to the Consent Decree for 60 days from the date of this public notice. The Department has the right to withdraw its consent to the Consent Decree if the comments concerning the Consent Decree disclose facts or considerations which indicate the Consent Decree is inappropriate, improper, inadequate or not in the public interest. After the public comment period, the Department's settlement with Lincoln shall become final upon the filing of the Department's response to significant written comments to the Consent Decree and upon the United States District Court's approval of the Consent Decree.

Copies of the Consent Decree are available for inspection at the Department's office at 230 Chestnut Street, Meadville, PA, and at the United States District Court-house in Erie, PA. Comments may be submitted, in writing, to Hal Beavers, Project Manager, Department of Environmental Protection, Hazardous Sites Cleanup, 230 Chestnut Street, Meadville, PA 16335-3481. Further information may be obtained by contacting Hal Beavers at (814) 332-6648. TDD users may contact the Department through the Pennsylvania Relay Service at 1 (800) 654-5984.

Notice of Proposed Remedial Response DuPont/New Castle Junk Yard Site City of New Castle and Union Township, Lawrence County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites

Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1304), is proposing a response action for the DuPont/New Castle Junk Yard Site (site). The site is located in the northwestern industrial section of the City of New Castle, and Union Township, in Lawrence County, PA. The site consists of two adjacent properties: an inactive junkyard/battery recycling facility, and an inactive china manufacturing facility with an associated china waste disposal area. Investigations of the site revealed elevated levels of hazardous substances in the groundwater, surface water, sediments and surface and subsurface soil/fill/waste materials. Significant levels of arsenic, cadmium, lead and zinc were detected in groundwater samples. Onsite surface and subsurface soil, waste and sediment samples revealed elevated levels of antimony, copper, lead and mercury. Surface water samples from the adjacent Shenango River also indicated offsite lead contamination and migration. Surface soil/sedimentation and waste samples from the junkyard property revealed elevated levels of semi-volatile organic compounds, pesticides and polychlorinated biphenyls. The Department's objectives for the site are: prevent human exposure to hazardous substances in surface soil/fill/waste materials; reduce or prevent migration of hazardous substances into the groundwater and nearby surface water and sediments that would result in continuing contamination; satisfy all Applicable, Relevant and Appropriate Requirements (ARARs) relating to disposal of wastes; prevent human exposure to contaminated surface water; restore surface water and sediments in the wetland areas to ecologically-based criteria. The Department considered seven remedial response alternatives in order to achieve these objectives at the site:

Alternative 1. No Action/Institutional Controls

Alternative 2. Onsite Containment of all Contaminated Materials with a Soil Cover.

Alternative 3. Onsite Containment of All Contaminated Materials with an Impermeable Hazardous Waste Cap.

Alternative 4. Offsite Disposal of Battery Casings and Contaminated Soils and Sediments, Containment of Slag Fill.

Alternative 5. Active Remediation of Battery Casings and Contaminated Soils and Sediments by Soil Washing, Containment of Slag Fill.

Alternative 6. Active Remediation of Battery Casings by Offsite Thermal Treatment, Containment of Remaining Contaminated Materials.

Alternative 7. Active Remediation of Battery Casings and Contaminated Soils and Sediments by Ex-Situ Stabilization, Containment of Slag Fill.

Each alternative was evaluated with respect to seven comparison criteria of: long-term risks and effectiveness; reduction of toxicity, mobility or volume of hazardous substances; short-term risks and effectiveness; implementability; cost; cost-benefit analysis and ARARs. Furthermore, this comparative analysis evaluated the relative performance of each alternative in relation to each specific comparison criterion. The comparative analysis identified advantages and disadvantages of each alternative so that tradeoffs between the alternatives could be determined.

Based on the comparative analysis the Department proposes to implement Alternative 7A (ex-situ stabilization, capping with soil cover) with groundwater treatment Option 1 (no action/monitoring) as the remedial response at the site. Alternative 7A would include excavation and onsite treatment of battery casings and contaminated soils and sediments using a stabilization treatment technology. With groundwater treatment Option 1, no active groundwater remediation would occur at the site. The proposed onsite treatment process would use a stabilization treatment technology to convert the leachable hazardous substances (primary lead) to insoluble mineral complexes. The treatment residuals would be expected to be of the general consistency of soil and would be backfilled within the junkyard portion of the site.

This notice is being provided under section 506(b) of the HSCA. The administrative record which contains the information that forms the basis and documents the selection of this response action is available for public review and comment. The administrative record is located at the Department's Northwest Regional Office, 230 Chestnut Street, Meadville, PA 16335, and is available for review Monday through Friday from 8 a.m. to 4 p.m. Please telephone beforehand for an appointment, (814) 332-6648.

The administrative record will be open for comment from April 25, 1998 until July 24, 1998. Persons may submit written comments into the record during this time only, by sending them to Harold E. Nye, Project Manager, at the Department Northwest Regional Office or by delivering them to the office in person.

In addition, persons may present oral comments, for inclusion in the administrative record, at a public hearing scheduled for May 27, 1998, at 7 p.m. at the City of New Castle Municipal Building, 230 North Jefferson Street, New Castle, PA 16101. Persons wishing to present comments must register with Steve Curcio at the Department's Northwest Regional Office before May 22, 1998, by telephone or in writing. Persons interested in finding out if anyone has registered should contact Steve Curcio.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate in the proceedings, should call Steve Curcio at (814) 332-6816 or through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of

contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program in the Department's Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following final reports:

SPECIAL NOTICES

Announcement of Resource Recovery Demonstration Grants Under the Solid Waste-Resource Recovery Development Act Act 198 of 1974

In accordance with 25 Pa. Code §§ 76.13 and 76.82(c) of the Solid Waste-Resource Recovery Development Act Rules and Regulations, the Department of Environmental Protection (Department) has approved grants to the following application sponsors under the Pennsylvania Solid Waste-Resource Recovery Development, act of July 20, 1974 (P. L. 572, No. 198).

The grant offerings are subject to completion of a contract with the Department in accordance with the Scope of Work approved by the Bureau of Land Recycling and Waste Management. Grants are limited to no more than the maximum amount provided in the grant offering, up to 75% of the total eligible demonstration project costs.

Inquiries concerning this notice should be directed to Carl Hursh, Chief, Recycling and Markets, Department of Environmental Protection, Bureau of Land Recycling and Waste Management, Rachel Carson State Office Building, P. O. Box 8472, Harrisburg, PA 17105-8472.

Final Submission Date for Municipal Recycling Program Performance Grant Applications Under Section 904 of the Municipal Waste Planning, Recycling and Waste Reduction Act (Act 101)

The Department of Environmental Protection (Department) announces a request for Recycling Performance Grant applications from municipalities with recycling programs under the Municipal Waste Planning, Recycling and Waste Reduction Act (act) (53 P. S. §§ 4000.101—4000.1904). Municipalities include counties, cities, boroughs, incorporated towns, townships and home rule municipalities.

Recycling Performance Grants will be awarded to municipalities based upon the weight of source separated recyclable materials identified in section 1501(c)(1)(i) of the act recovered by municipal recycling programs, and the population of the municipality. Municipalities awarded grants will receive a base award of \$5 for each ton of eligible recyclable materials marketed, and \$1 per ton for each percentage of waste diverted from disposal. The weight of eligible materials allowable from nonresidential (commercial and institutional) sources will be limited to no more than the weight of eligible materials from residential sources. The Department will not award grants calculated to be less than \$10.

Eligible materials include: clear glass, colored glass, aluminum, steel and bimetallic cans, high-grade office paper, newsprint, corrugated paper, other marketable grades of paper and plastics. Grants will be awarded only for properly documented eligible materials that were recycled or marketed on or after January 1, 1997, to and including December 31, 1997. Grant funds will not be awarded for residues, materials not listed as eligible or any materials which cannot be documented as being recycled into a new product or use.

Documentation to support all claims that eligible recyclable materials were generated within the municipality and recycled or marketed must be retained at the offices of the municipal applicant for 4 years. The supporting documentation is not required to be submitted with the application.

Acceptable Supporting Documentation. Weight slips or receipts verifying that the materials were recycled or marketed are required as supporting documentation for the grant application. The documentation must be on the letterhead of the hauler or market or on forms provided by the hauler or market; must bear a signature of an authorized representative verifying that the materials were received; and must identify the type and weight of the materials received. Estimates of weight will not be accepted except in cases: 1) where the material is packaged in uniform bales and the average weight of a bale can be demonstrated; or, 2) when multiple generators contribute to a known quantity of marketed material and the hauler or market estimates the quantities allocatable to any individual establishment, or lists each establishment, and verifies the estimate with his/her signature.

Supporting documentation must be available for review by representatives of the Department, the Office of the Attorney General and the Office of the Treasurer or their agents. Although the supporting documentation is not required to be submitted with the grant application, any documentation provided must conform to the above requirements or the materials claimed will not be credited toward the grant.

Applications must be on the forms provided by the Department for materials recycled in calendar year 1997. The Department will mail a calendar year 1997 grant application form to all municipalities on record with recycling programs and all previous Recycling Performance Grant applicants. The deadline for submission of grant applications is 3 p.m. September 30, 1998. Applications received by the Department after that date will be returned. All grant awards are predicated on the receipt of recycling fees required by sections 701 and 702 of the act, and the availability of monies in the Recycling Fund.

Inquiries concerning this notice should be directed to Carl Hursh, Chief, Recycling and Markets, Department of Environmental Protection, Bureau of Land Recycling and Waste Management, Rachel Carson State Office Building, P. O. Box 8472, Harrisburg, PA 17105-8472.

DEPARTMENT OF LABOR AND INDUSTRY

Draft Request of Waivers

The Appropriations Act for fiscal year 1998, passed by Congress and signed by President Clinton, included language that allows states to request waivers of the laws which govern employment and training programs. The Department of Labor and Industry (Department) on behalf of the Commonwealth of Pennsylvania has developed a draft request of waivers.

The waiver authority applies to the Job Training Partnership Act (JTPA) and to the Wagner-Peyser Act, which governs the public employment service. A waiver allows the State to be exempted from specific statutory or regulatory requirements. The waiver provisions are intended to provide flexibility to states and local areas in implementing reforms to the workforce development system in exchange for accountability for results.

This comprehensive package includes 24 waivers, 23 JTPA waivers of which 9 are Administrative, 8 are Programmatic and 6 are for Youth; and 1 Wagner-Peyser waiver. The waivers will simplify administration, improve outcomes, reduce costs, enhance customer service, eliminate duplication, consolidate programs and set the course for workforce development and employment and training programs in this Commonwealth.

Copies of the waiver request package may be obtained by contacting: John C. Vogel, Director, Bureau of Employment Services and Training, 12th Floor, Labor and Industry Building, 7th and Forster Streets, Harrisburg, PA 17120.

Sub-State Resource Distribution

Under 20 CFR 652.4, the Department of Labor and Industry (Department) is making public the following sub-state resource distributions. These distributions are for activities under the Wagner-Peyser Act as amended by the Job Training Partnership Act (JTPA) and are for the Program Year 1998 (July 1, 1998—June 30, 1999). Under section 4 of the Wagner-Peyser Act, the Governor has designated the Department as the State agency vested with all powers necessary to cooperate with the United States Employment Service in the operation of the public Employment Service System.

The basic purpose of the Employment Service System is to improve the functioning of the Nation's labor markets by bringing together individuals who are seeking employment and employers who are seeking workers. The Bureau of Employment Services and Training and the Office of Job Center Field Operations in the Department of Labor and Industry administer a labor exchange system which has the capacity:

1. to assist job seekers in finding employment;
2. to assist employers in filling jobs;
3. to facilitate the match between job seekers and employers;

4. to participate in a system for clearing labor between the states, including the use of standardized classification systems issued by the Secretary under JTPA section 462(c)(3); and

5. to meet the work test requirements of the State Unemployment Compensation system.

The sub-state resource distributions are for activities funded under section 7(a) of the Wagner-Peyser Act. Section 7(a) authorizes 90% of the amounts allocated to each state to be used to support the basic labor exchange service.

The distributions are listed by the 28 Pennsylvania Service Delivery Areas. The monetary figures represent planned cost for personal salaries and personal benefits of Job Service/Job Center personnel delivering Wagner-Peyser section 7(a) direct services within each Service Delivery Area (SDA).

The following formula was utilized in producing the sub-state resource distribution: 60% based on the civilian

labor force within the SDA; 30% based on the number of unemployed within the SDA; 5% based on the number of non-college bound public and private high school graduates; and 5% based on the number of public and non-public high school dropouts (ages 21 and under).

The funding formula reflects Pennsylvania's Employment and Training Plan, the joint goals of the Job Training Partnership and Wagner-Peyser Acts Programs and the funding methodology from the Federal Government.

An interested party wishing to comment on the sub-state resource distribution must do so in writing by the close of business on May 15, 1998. Comments should be forwarded to: John C. Vogel, Director, Bureau of Employment Services and Training, 12th Floor, Labor and Industry Building, Seventh and Forster Streets, Harrisburg, PA 17120.

DEPARTMENT OF TRANSPORTATION

Duty of Issuing Agent to Verify Purchase Price of Vehicle at Time of Sale/Registration

Addendum

The Department of Transportation, Bureau of Motor Vehicles, pursuant to the authority contained in the Act of April 17, 1997, P. L. 6, No. 3 (75 Pa.C.S. § 1318(d)), published at 27 Pa.B. 3286 (July 6, 1997), the manner by which issuing agents shall verify that the purchase price of a motor vehicle, as stated upon the application for certificate title and/or registration, approximates the fair market value of the motor vehicle.

As provided in the notice appearing at 27 Pa.B. 3286 (July 6, 1997), the Department approved several nationally recognized publications which issuing agents may use to determine the fair market value of a motor vehicle.

Further, the notice also prescribes the method for authenticating the fair market value when the purchase price, in certain circumstances, appearing on the application for title and/or registration is less than the appropriate, approved publication's stated retail value for the particular motor vehicle.

As provided in the notice appearing at 27 Pa.B. 3286, the certificate of title/registration applicant and the seller shall, on a form provided by the Department, explain and attest before a notary public the reason why the purchase price is less than the appropriate, approved publication's stated retail value for the vehicle.

Presently, the form in these instances required by the Department to be completed by both the applicant for title/registration and the seller is the Form MV3, "Motor Vehicle Verification of Fair Market Value by the Issuing Agent." The Department, however, after review and discussion with issuing agents and other affected persons, has determined that completion of this form is not required for a new vehicle being sold to the first retail customer; for reconstructed vehicles, recovered theft vehicles, specially constructed vehicles, flood vehicles, or vehicles that were formerly police or taxi vehicles; for lease buyout vehicles by the lessee; or for vehicles transferred upon the death of owner(s).

Moreover, as part of the Department's continuing commitment to review its procedures and make amendment to the same when it eliminates unnecessary or burdensome requirements, the Department has also determined that when the Form MV-3 is required and when the vehicle is purchased out-of-state, only the signature of the Pennsylvania purchaser/applicant is necessary on the form and not that of the out-of-state seller.

Further information on the Department's procedures for verifying the purchase price of a vehicle at the time of sale/registration may be found at 27 Pa.B. 3286 (July 6, 1997).

Questions, comments, or suggestions may be submitted to the new contact person: Randolph Swartz, Manager, Research & Support Operations Section, 1101 South Front Street, Riverfront Office Center, Third Floor, Harrisburg, Pennsylvania, 17104; (717) 787-9720.

Retention of Engineering Firms

Statewide

Project Reference No. 08430AG2183

The Department of Transportation will retain an engineering firm to provide fabrication inspection of prestressed/precast concrete products under the supervision of the Chief Structural Materials Engineer. This inspection will be performed "Statewide" and at out-of-state locations as directed by the Chief Structural Materials Engineer. The Contract will include inspection of reinforced concrete pipe and other items incidental to highway construction designated by the Department. Inspection will be conducted in accordance with the Department's Publication No. 145. The Contract will be for a period of twenty-four (24) months, commencing January 1, 1999.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The selected firm will be required to furnish approximately fifteen (15) to thirty (30) qualified inspectors at various Statewide and out-of-state fabrication shops as the workload dictates. Occasional field inspection at projects sites is required. Attendance may be required at pre-fabrication meetings with Department engineers and fabrication personnel. The selected firm will be required to furnish two (2) inspection supervisors (one in the eastern region, one in the western region) to provide direct daily supervision of the inspection activities.

Under the direction of the Department, the selected firm will be required to keep records and document the

fabrication process; provide quality assurance inspection and perform acceptance tests; submit weekly progress reports; exercise control over materials and workmanship to ensure conformance to specifications; provide a detailed final report and a tabulated list of prestressed/precast concrete quantities shipped to Department projects.

The selected firm must provide all necessary test equipment listed in Publication 145 including a slump cone, air meter and all specification references at each assigned plant.

The project manager may be required to perform professional services as a Staff Engineer, including but not limited to plant approval, quality control plan and mix design review, at the direction of the Department.

The selected firm must also provide the services of a Specifications Engineer and a Forensics Engineer when required. The Specifications Engineer will be required to work in conjunction with Department staff to coordinate and review specification changes from the clearance transmittal process through final implementation. In addition, the selected firm will be asked to participate in the forensic analysis of concrete items by providing the services of a specialized concrete engineer, well versed in the concrete technology field, if directed by the Department.

The job descriptions for all classifications may be obtained from the Structural Materials Engineer who is identified at the end of this solicitation.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Review of the inspector's qualifications with emphasis on prestressed/precast concrete fabrication inspection experience.
- c. Understanding of Department requirements, policies and specifications including the ACI and AASHTO references.
- d. Review of the firm's "supervision plan" for the plant inspection staff.
- e. Number of qualified prestressed/precast concrete fabrication inspectors available for this agreement.
- f. Key personnel experienced with precast and prestressed concrete plant fabrication inspection and practices.
- g. Firm's past performance of prestressed/precast inspection in fabrication plants.
- h. Firm's in-house training program.
- i. Branch office in Pennsylvania.

The qualifications and experience required of the firm's inspectors will be established by the Department, and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

The qualifications and experience required for ninety (90) percent of the inspectors are as follows:

1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) as a technician, Level II or higher in Construction Materials Testing/Concrete, Transportation/Highway Construction, or Transportation/Highway Materials OR

2. Be certified by the American Concrete Institute (ACI) as Concrete Field Testing Technician-Grade I, OR

3. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required concrete fabrication experience for the specified Inspection Classification acceptable to the Department, OR

4. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required concrete fabrication experience for the specified Inspection Classification acceptable to the Department, OR

5. Hold a Bachelor of Science Degree in Civil Engineering or a Bachelor of Science in Civil Engineering Technology with the required concrete fabrication experience for the specified for the Inspection Classification acceptable to the Department, OR

6. Hold an Associate Degree in Civil Engineering Technology with the required concrete fabrication experience for the specified Inspection Classification acceptable to the Department.

The staff assigned to prestressed concrete fabrication inspection must be high school graduates with no less than three (3) years in concrete construction of which one (1) year is in the prestressed concrete fabrication field.

The staff assigned to precast box culvert fabrication inspection must be high school graduates with no less than three (3) years in concrete construction of which one (1) year is in the prestressed concrete fabrication field or the precast concrete box culvert fabrication field.

The staff assigned to precast concrete inspection must be high school graduates with no less than three (3) years in construction of which one year is in the concrete fabrication field.

The Staff Engineer (Manager) of the inspection personnel must be a Professional Engineer registered in Pennsylvania with a minimum of three (3) years of prestressed/precast fabrication related experience. One (1) year must be directly related to prestressed concrete plant fabrication.

An Inspection Supervisor is required to be a Professional Engineer registered in the Commonwealth of Pennsylvania or meet the requirements of a prestressed concrete inspector. The Inspection Supervisor is required to provide direct supervision of the inspection staff by making routine visits to assigned plants.

Also, the following minimum qualifications will be taken into consideration:

- a. Ability to speak, write, read and understand the English language.
- b. Have basic knowledge of prestressed/precast concrete fabrication.
- c. Prior experience in prestressed/precast concrete plant fabrication inspection.
- d. Capable of acting as a direct representative of the Engineer.

The maximum straight time reimbursement per hour of inspection for each Department Payroll Classification for calendar years 1999 and 2000 will be as follows:

<i>Payroll Classification</i>	<i>Maximum Straight Time Reimbursement Per Hour Of Inspection</i>	
	1999	2000
Prestressed Concrete- Box Culvert Inspector (PS/BC-I) *	\$41.92	\$43.38

Forensics Engineer *	\$88.55	\$88.55

Letters of Interest for this project must include a letter, signed by the individuals you propose for the classifications marked with an asterisk (*) above giving their approval to use their name in your letter of interest for this specific project.

The second copy of the letter of interest and required forms, (see general requirements and information section shall be sent to: Director, Bureau of Construction and Materials, 1118 State Street, Harrisburg, PA 17120. Attention: Mr. William Miller.

Any technical questions concerning the requirements for this project should be directed to: Mr. William J. Miller, P.E., Chief Structural Materials Engineer, Bureau of Construction & Materials at (717) 787-1950.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

General Requirements and Information

Firms interested in providing the above work and services are invited to submit two copies of a Letter of Interest are required information for each Project Reference Number for which the applicant wishes to be considered.

The first copy of the Letter of Interest and required information must be submitted to:

Mr. Charles W. Allwein, P.E., Chief Consultant Selection Committee 7th Floor, Forum Place 555 Walnut Street P.O. Box 3060 Harrisburg, Pennsylvania 17105-3060

Note: The Zip Code for express Mailing is 17101-1900

The Letter of Interest and required information must be received within twenty (20) calendar days of this Notice. The Deadline for receipt of a Letter of Interest at the above address is 4:30 P.M. prevailing time of the twentieth day.

The second copy of the letter of interest and required information must be submitted to the appropriate District Engineer/Administrator or the Bureau Director as indicated in the individual advertisement. This copy must be postmarked or delivered on or before the deadline indicated above.

If an individual, firm, or corporation not authorized to engage in the practice of engineering desires to submit a Letter of Interest, said individual, firm, or corporation may do so as part of a Joint Venture with an individual, firm, or corporation which is permitted under the state law to engage in the practice of engineering.

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The Act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act, WBEs or combinations thereof.

Proposing DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Each Letter of Interest must include the following information and the information must be packaged and presented in the following order:

1. Transmittal Letter (Maximum of two (2) 8 1/2" x 11" typed pages, one side)

The subject heading of the transmittal letter must include the project reference number for which the applicant wishes to be considered, the firm's legal name, fictitious name (if applicable), and the firm's federal identification number. If the project advertisement indicated the Department will retain an engineering firm for the project, the applicant must indicate in the body of their transmittal letter the names and Professional Engineer License Number of individuals who are directing heads or employees of the firm who have responsible charge of the firm's engineering activities, and whose names and seals shall be stamped on all plans, specifications, plats, and reports issued by the firm.

2. Project Organizational Chart (one page, one side, maximum size 11" x 17")

This Chart must show key staff from the prime and each subconsultant and their area of responsibility.

3. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project" (one Form 255 for the project team)

The Standard Form 255 must be signed, dated, and filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project.

Under Item 4 of this form, Column A must specify only the number of subconsultant personnel and Column B must specify only the number of prime consultant personnel to be assigned to work on this project reference number. Do not include the total personnel for either the subconsultant or prime consultant under Item 4 unless the total personnel are necessary to provide the required work and services.

The prime and each subconsultant may include no more than one page each for Items 10 and 11.

If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be currently certified by the Department of Transportation, and the name of the DBE and the work to be performed must be indicated in Item No. 6. If a Woman Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

4. Standard Form 254, "Architect-Engineer for Related Services Questionnaire"

A Standard Form 254, not more than one (1) year old as of the date of this advertisement, must accompany each Letter of Interest for the firm, each party to a Joint Venture, and for each subconsultant the firm or Joint Venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor, or a Company, unless an acceptable Standard Form 254 for the prime and each subconsultant/subcontractor is on file in both the Bureau of Design and the Engineering District Office or Central Office Bureau identified in the individual project advertisement.

If the Standard Form 254 is not submitted with the Letter of Interest, the transmittal letter shall indicate the dates that the Standard Forms 254 were submitted to the Bureau of Design and appropriate Engineering District/Central Office Bureau.

These Forms must be assembled with the prime's form first, followed by the form for each subconsultant in the same order as the subconsultants appear in Item 6 of Form 255.

5. Workload Projection Graph (Not required for Construction Inspection Services)

Separate Workload Projection Graphs for the prime and each subconsultant shown in Item 6 of the Form 255 must be included and must indicate the firm's current and anticipated workload compared to the anticipated capacity available for the next two-year time frame. The Workload Projection Graphs must be submitted for the office(s) where the work would be performed and must only include the personnel classifications required for providing the advertised services and work.

6. Authorization Letters (For Construction Inspections Services, if required)

If the advertisement requires a letter signed by individuals giving their approval to use their name in the Letter of Interest, the letters from proposed prime employees must be first, followed by subconsultant employees, in the same order as shown in Item 6 of Form 255.

7. Registration To Do Business

Firms with out-of-state headquarters or corporations not incorporated in Pennsylvania must include, with each Letter of Interest, a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

8. Overhead Rates (one page)

A single page summary must indicate the latest audited overhead rate developed in accordance with Federal Acquisition Regulations (FAR) for the prime consultant and each subconsultant. If a FAR rate is not available, the latest rate available from a Certified Public Accountant must be indicated. New firms should indicate how long the firm has been in existence and when an audited overhead rate would be available.

9. Additional Information

Additional information, not to exceed ten (10) one sided 8 1/2" x 11" pages or five (5) double sided 8 1/2" x 11" pages may be included at the discretion of the submitting firm.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services. Bradley L. Mallory Secretary of Transportation

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Petition of Millersburg Ferry Boat Association for Declaratory Order; Doc. No. P-00981356

Millersburg Ferry Boat Association (Millersburg), by its counsel, has filed a petition requesting a declaratory order that the operation of the ferry does not constitute the provision of common carrier services as defined in section 102 of the Public Utility Code. The petition is docketed at P-00981356.

According to Millersburg, the ferry does not provide a monopoly service nor does it provide the exclusive means of crossing the Susquehanna River. In this regard, Millersburg asserts that the ferry cannot be seen as a necessity for it is a seasonal venture that does not run on a schedule, but instead runs when there is a sufficient number of visitors to make the running profitable. Millersburg also asserts that the provision of transportation service by the ferry is merely incidental to its primary purpose of providing amusement and a unique historical experience to its passengers. As such, Millersburg concludes that the provision of transportation service by the ferry can be analogized to the provision of

horse and carriage service which is not subject to the Pennsylvania Public Utility Commission's (Commission) jurisdiction. 52 Pa. Code § 41.20. In conclusion, Millersburg avers that the costs and expenses imposed by Commission regulation, both in terms of compliance with Commission regulations and the cost of annual assessments, are a substantial and unnecessary burden upon Millersburg.

Persons desiring to be heard or to protest this filing should file a petition to intervene and answer with the Secretary, Pennsylvania Public Utility Commission, P. O. Box 3265, Harrisburg, PA 17105-3265 in accordance with 52 Pa. Code § 1.1 et seq. All petitions to intervene and answers should be filed on or before the 20th day following publication of this notice. Copies of the petition are on file with the Commission and are available for public inspection. The contact person is Assistant Counsel Stanley E. Brown at (717) 783-3968.
