READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

SUPREME COURT

Establishment of the Committee on Rules of Evidence; No. 203 Supreme Court Rules Doc. No. 1

Order

Per Curiam:

And Now, this 8th day of September, 1998, pursuant to Article V, Section 10(c) of the Constitution of Pennsylva-

nia, the Court hereby establishes the Committee on Rules of Evidence.

1. The Committee shall

(a) Assist and advise the Supreme Court in the preparation, adoption, promulgation and revision of rules of evidence governing proceedings in the courts of the Commonwealth.

(b) Assist and advise the Supreme Court on the implementation of the Judiciary Article of the Constitution of Pennsylvania as it relates to rules of evidence.

2. The Committee shall be composed of nine members of the bench or bar of the Commonwealth. One of the members shall be designated by the Court as Chair and one as Vice-Chair of the Committee. Initial appointments shall be for one, two or three-year terms and shall commence on the 1st day of October, 1998. Thereafter appointments shall be for three years and members shall serve no more than two consecutive three-year terms.

3. There shall be an Official Reporter to the Committee, who shall serve for an initial term of three years.

4. Members of the Committee shall serve without compensation, except for reimbursement of expenses incurred on behalf of the Committee.

5. The Court Administrator of Pennsylvania shall exercise discretion to provide such staff and other assistance as may be necessary to assist the Committee in performing its duties.

6. This Order shall be effective October 1, 1998.

RULES AND REGULATIONS

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CHS. 53, 65 AND 93]

Commission Property, Fishing and Boating

The Fish and Boat Commission (Commission) by this order amends Chapters 53, 65 and 93. The Commission is publishing these amendments under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The amendments concern Commission property, fishing and boating.

A. *Effective Date*

These amendments will go into effect upon publication of this order adopting the amendments.

B. *Contact Person*

For further information on the amendments, contact Laurie E. Shepler, Assistant Counsel, (717) 657-4546, P. O. Box 67000, Harrisburg, PA 17106-7000. This final rulemaking is available electronically through the Commission's Web site at <http://www.fish.state.pa.us>.

C. *Statutory Authority*

These amendments are published under the statutory authority of sections 741, 2102 and 5122 of the code (relating to control of property; rules and regulations; and registrations, licenses, permits, plates and statistics).

D. *Purpose and Background*

The amendments are designed to update, modify and improve Commission regulations pertaining to Commission property, fishing and boating. The specific purpose of the amendments is described in more detail under the summary of changes.

E. *Summary of Changes*

1) *Section 53.13 (relating to domestic water supply reservoirs)*. For many years, the Commission has pursued an active program of encouraging agreements from municipal water supplies to allow fishing in the waters of domestic water supply reservoirs. The Commission has entered into agreements with numerous municipal authorities to make these reservoirs subject to Commission property regulations and establish additional restrictions. This course of action is beneficial to the angling public since it provides important fishing opportunities. It is also beneficial to the operators of the water supply reservoirs since it makes Commission property regulations and additional restrictions applicable to these sites.

In reviewing the regulation applicable to this program, it appeared that it can be streamlined. The regulation currently provides that additional restrictions contained in agreements between municipal authorities and the Commission shall be fully enforceable when posted at the site. The regulation goes on to list some of the additional restrictions applicable to many of the water supply reservoirs with which the Commission has agreements. Including the specific list of additional restrictions in the regulation text appears unnecessary since the regulation also provides that the additional restrictions are fully enforceable when approved by the Executive Director and posted at the site. Accordingly, the Commission has amended the regulation to address this issue.

2) *Section 65.24 (relating to miscellaneous special regulations)*. Angling at the Fairmount fishway on the Schuylkill River has reached the point where a change in regulations is necessary for the well being of users as well as fish, including migratory species such as American shad, gizzard and hickory shad and striped bass. Fairmount Dam (river mile 9.0) is the first barrier that migratory species encounter as they come up the Schuylkill River. A fish passage facility was open for use in the spring of 1979 and was successful in passing migratory species, including American shad, gizzard shad, river herring and a host of warmwater/coolwater species. Aside from problems in maintaining an operational facility due to debris clogging the facility, fish have utilized this facility annually. At the same time, anglers began to frequent the site because: 1) it provides much needed shore access along the river; and 2) the dam provides excellent habitat for fish moving up the river. The Commission made an exception to the restriction prohibiting angling within 100 feet of a fishway so anglers could take advantage of the access at the fishway. Over the years, as water quality in the Schuylkill and Delaware continued to improve so did the density of fish congregating downstream of the dam and along the fishway wall. Angling interest did likewise, including those who opted to use snagging gear, particularly when schools of gizzard shad made snagging very easy. In addition, enterprising anglers with specialized nets would break through fences on the top of the fishway and place homemade gill nets in the vertical slots between individual pools. Despite herculean efforts by various waterways conservation Officers and their deputies, illegal angling activities at the fishway continue to increase. Thus, the Commission has amended this section to no longer permit fishing within 100 feet of the Fairmount fishway.

3) *Section 93.2 (relating to permanent and temporary registration)*. At its October 1997 meeting, the Senate Game and Fisheries Committee asked the Commission staff to look at regulatory actions to address concerns related to Senate Bill 686. This bill, introduced by Senator Leonard Bodack, would change the code so that when a person receives a new boat registration, it would be valid for 2 years from the date of issuance. Thereafter, it is presumed that renewals would be issued on the same 2-year cycle. Thus, if a person obtained a new registration in July 1997, it would expire in July 1999 and so on.

Under the current cycle, renewals are sent out in the winter, and the vast majority of renewals are issued by March 31. This enables Commission staff to complete action on most renewals before they are inundated with new registrations in the summer. The Commission is able to process hundreds of thousands of new and renewal boat registrations each year with a very small staff of five permanent and four seasonal employees because the current law is effective in its timing of renewals vis-a-vis the bulk of new registrations. If SB 686 becomes law in its present form, more and more renewals will need to be processed in the same summer months when staff are handling most new registrations. Eventually, over a period of several years, it is likely that the majority of renewals and new registrations will be concentrated in the same months.

The Commission believes that its staff's efforts to provide the best possible service to boat registration customers depend, in part, on the ability to schedule the renewal cycle so that it does not conflict with the timing

of the bulk new registrations. Changing over to a renewal cycle based on the month the boat is first registered would entail additional costs in terms of computer programming. The Commission fears that, if renewals become concentrated in the same months when most new registrations are issued, it may also face additional personnel costs.

Even though the Commission would like to maintain the current cycle whereby most renewals are handled in February and March, it agrees that some changes may be desirable to ensure that persons who obtain new boat registrations get fair value for their registration fees. The Commission recently approved changes to the boat registration regulations, effective January 1998, to permit the transfer of boat registrations so that persons who change boats in the middle of a registration cycle can keep on the same cycle at a cost of \$5. Prior to this change, which was instituted as a direct result of Senator Bodack's inquiry, a registrant had to pay for a new registration when the registrant changed boats regardless of the timing or the circumstances.

The Commission has amended its regulations to ensure that no matter when someone obtains a new registration, the registrant will get to boat during two boating seasons on their initial registrations. Under current regulations, October 1 is the cutoff point for determining the duration of a new registration. Thus, a person who obtains a new registration in September 1997 will need to renew in March 1999, while a person who obtains a new registration in October 1997 will not need to renew until March 2000. Although it might seem the September registrant is being shortchanged, it is important to remember that, in most cases, the registrant had use of the boat for at least 60 days prior to September under the temporary registration sticker. Thus, even under the current regulations, a September registrant would be able to boat in July and August of one boating season and all of the following boating season under a single 2-year registration. The Commission has amended § 93.2 to make it clear that the expiration date of a 2-year registration will cover at least two boating seasons.

F. Paperwork

The amendments will not increase paperwork and will not create any new paperwork requirements.

G. Fiscal Impact

The amendments will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The amendments will impose no new costs on the private sector or the general public.

H. Public Involvement

A notice of proposed rulemaking containing the proposed amendments was published at 28 Pa.B. 1837 (April 18, 1998). The Commission did not receive any public comments regarding the proposed amendments.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201, 1202) and the regulations promulgated thereunder 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the Commission did not receive any comments.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 53, 65 and 93, are amended by amending §§ 53.13, 65.24 and 93.2 to read as set forth at 28 Pa.B. 1837. (*Editor's Note:* A proposal to amend § 65.24 remains outstanding at 28 Pa.B. 3058 (July 4, 1998).)

(b) The Executive Director will submit this order and 28 Pa.B. 1837 to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and 28 Pa.B. 1837 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

Executive Director

Fiscal Note: Fiscal Note 48A-79 remains valid for the final adoption of the subject regulations.

FISH AND BOAT COMMISSION
[58 PA. CODE CHS. 91, 95, 97, 109 AND 113]
Boating

The Fish and Boat Commission (Commission) by this order amends 58 Pa. Code Chapters 91, 95, 97, 109 and 113. The Commission is publishing these amendments under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code). The amendments concern boating.

A. Effective Date

These amendments will go into effect upon publication of this order adopting these amendments.

B. Contact Person

For further information on the amendments, contact Laurie E. Shepler, Assistant Counsel, (717) 657-4546, P. O. Box 67000, Harrisburg, PA 17106-7000. This final rulemaking is available electronically through the Commission's Web site at <http://www.fish.state.pa.us>.

C. Statutory Authority

These amendments are published under the statutory authority of section 5123 of the code (relating to general boating regulations).

D. Purpose and Background

The amendments are designed to update, modify and improve Commission regulations pertaining to boating. The specific purpose of the amendments is described in more detail under the summary of changes. Prior to consideration by the Commission on final rulemaking, the Commission's Boating Advisory Board considered the proposed amendments and recommended adoption by the Commission.

E. Summary of Changes

1) *Section 91.2 (relating to definitions)*. The Commission's Bureau of Law Enforcement has reported that many boat operators are not counting passengers being towed behind their boats as being included in the number of persons allowed on the boat as rated by the capacity plate. To clarify this requirement, the Commission amended the definition of "passenger."

2) *Sections 91.4 and 109.3 (relating to age of operator; and personal watercraft)*. The Commission recently amended § 109.3 to provide that: (1) no one 11 years old or younger may operate a personal watercraft; (2) persons 12 to 15 years of age may operate a personal watercraft alone, with no passengers on board, only if they have in their possession a Boating Safety Certificate issued or recognized by the Commission; and (3) persons 12 to 15 years of age may operate a personal watercraft with or without a Boating Safety Certificate if accompanied by someone at least 18 years of age. This is somewhat different from the requirements of § 91.4 that provides that persons 11 years of age or younger must be accompanied by someone at least 16 years of age to operate a motorboat of 10 horsepower or more. This section also requires persons 12 to 15 years of age to obtain a Boating Safety Certificate to operate boats alone with no restrictions on passengers. If they do not have a Certificate, they must be accompanied by someone at least 16 years of age. The primary difference between boats of 10 horsepower or more and personal watercraft is that no one 11 years or age or younger may operate a personal watercraft, and persons 12 to 15 years of age may not operate a personal watercraft with passengers unless the passengers are at least 18 years of age. The new § 109.3 is somewhat difficult to understand or to explain, especially with the different age of operator requirements in § 91.4. To simplify the regulations, the Commission proposed to amend § 91.4 and to delete § 109.3(h) in its entirety. On final rulemaking, the Commission, in the interest of clarity, struck the proposed text of § 91.4 in the notice of proposed rulemaking and substituted it with the text to read as set forth in Annex A. The Commission also deleted § 109.3(h) in its entirety, as proposed.

3) *Section 91.6 (relating to certificates)*. The Commission currently issues Boating Safety Education Certificates free of charge to residents who have successfully completed a National Association of State Boating Law Administrators (NASBLA), an approved Commission, a United States Power Squadrons (Squadrons) or a United States Coast Guard Auxiliary (Auxiliary) classroom boating course. The NASBLA recommends that the states recognize, for reciprocity, courses that have been approved by the NASBLA and recognized by the United States Coast Guard (Guard). The Commission therefore proposed to amend this section to accept Boating Safety Education Certificates from boaters coming into this Commonwealth from out-of-State that are issued by another state or province or by the Auxiliary or Squadrons in another state or province. On final rulemaking, the Commission determined that in addition to accepting certificates issued by the Auxiliary and the Squadrons, the Commission should accept certificates from private organizations such as the American Sailing Association that sponsors and teaches a Nationally known sailing school. Certificates issued by private companies or Internet programs will not be accepted. The Commission adopted the amendment to read as set forth in Annex A.

4) *Section 95.3 (relating to lights for boats)*. The Federal Rules of the Road exclude boats less than 7 meters in

length from the requirement of displaying an anchor light when not in a channel or other area where boats normally navigate. The Commission intended, with § 95.3 (d), to remove this exemption to require lights on all boats on all waters of this Commonwealth. Instead, a strict reading of the regulation leads to an interpretation that only those boats less than 7 meters are required to display anchor lights. The Commission amended this regulation to clarify that an anchor light is required on all boats at all times on most waters of this Commonwealth.

5) *Section 97.1 (relating to personal flotation devices)*. This section prohibits the use of recreational vessels without one personal flotation device (PFD) for each person on board. The code does not define the word "recreational," and the word "vessel" is a boat that is defined as "every description of watercraft constructed or sold for the primary purpose of being used as a means of transportation on water." The use of these two terms together creates several problems. One is that the requirement appears not to apply to vessels used in commerce since they are not used for recreation. Second, the strict definition of "vessel" excludes certain other craft from the requirement. If the vessel was not intended as a means of transportation on water, its passengers do not have to have PFDs. The Commission therefore amended this section to replace the term "recreational vessel" with the broader term "boat" since it was not the original intent of this regulation to limit the PFD requirement to recreational vessels only.

6) *Section 109.3 (relating to personal watercraft)*. A request has been received by the Bureau of Law Enforcement to amend this section so that the number of water skiers towed by a personal watercraft is limited to one. Law enforcement officers have noticed an increase in situations where operators are exceeding the carry capacity of personal watercraft by pulling more than one skier while having a full capacity of passengers on board. If an emergency were to occur or a skier wanted to board the vessel, the skier would be unable to do so. This creates an unsafe boating practice that needs to be more clearly addressed in the regulations. Therefore, the Commission amended this section to address this concern.

7) *Chapter 113 (relating to Aids to Navigation and Obstructions to Navigation)*. The United States began conversion of the United States Aids to Navigation System (System) to harmonize with the International Association of Lighthouse Authorities (IALA) Maritime Buoyage System in 1985, and completed the conversion for all Coast Guard maintained aids in 1989. The System has not changed in substance. It remains primarily a lateral aids to navigation system. The major changes are the introduction of the yellow special mark, the replacement of the black and white mid-channel aids with the red and white safe water mark, and most notably, the replacement of the older black port-hand buoys with green buoys. Information and regulatory marks remain the same as that of the Uniform State Waterway Marking System (USWMS). The states were not required to change to the System, but the Commission felt that since the USCG was making the change, the Commonwealth should as well. The Commission started replacing the black buoys and black and white mid-channel buoys when they were no longer serviceable; the Commission replaced them with the green buoys and the red and white safe water buoys. All buoys in this Commonwealth now conform to the System. The USCG has proposed rules that would eliminate the USWMS. The Commission therefore amended Chapter 113 to reflect the current practice.

F. *Paperwork*

The amendments will not increase paperwork and will not create new paperwork requirements.

G. *Fiscal Impact*

The amendments will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The amendments will impose no new costs on the private sector or the general public.

H. *Public Involvement*

A notice of proposed rulemaking containing the proposed amendments was published at 28 Pa.B. 1533 (March 28, 1998). The Commission did not receive any public comments regarding the proposed amendments.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the Commission did not receive any comments.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 91, 95, 97, 109 and 113, are amended by amending §§ 91.2, 95.3, 97.1, 109.3, 113.1 and 113.2 to read as set forth at 28 Pa.B. 1533, and by amending §§ 91.4 and 91.6 to read as set forth in Annex A.

(b) The Executive Director will submit this order, 28 Pa.B. 1533 and Annex A to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order, 28 Pa.B. 1533 and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

Executive Director

Fiscal Note: Fiscal Note 48A-77 remains valid for the final adoption of the subject regulations.

Annex A

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart C. BOATING

CHAPTER 91. GENERAL PROVISIONS

§ 91.4. Age of operator.

(a) The following age restrictions apply to the operation of a motorboat propelled by a motor greater than 10 horsepower (other than personal watercraft):

(1) A person 11 years of age or younger may not operate such a watercraft unless at least one person 16 years of age or older is present onboard.

(2) A person 12 through 15 years of age may not operate such a watercraft unless the person has obtained and has in his possession a Boating Safety Education Certificate or at least one person 16 years of age or older is present onboard.

(b) The following age restrictions apply to the operation of personal watercraft:

(1) A person 11 years of age or younger may not operate a personal watercraft.

(2) A person 12 through 15 years of age may not operate a personal watercraft unless he has obtained and has in his possession a Boating Safety Education Certificate.

(3) A person 12 through 15 years of age may not operate a personal watercraft if there are any passengers onboard 15 years of age or younger.

§ 91.6. Certificates.

(a) A certificate, license or other document required under this subpart or the code shall be carried when the boat is in operation and shall be carried so that it can be handed to an officer authorized to enforce this subject.

(b) A Boating Safety Education Certificate is one issued to an individual by one of the following:

(1) The Commission or another state or province for successful completion of a boating safety education program approved by the Commission and the National Association of State Boating Law Administrators.

(2) The United States Coast Guard Auxiliary or the United States Power Squadrons or other organizations approved by the Executive Director in another state or province for successful completion of a boating safety education program approved by the National Association of State Boating Law Administrators.

PROPOSED RULEMAKING

ENVIRONMENTAL QUALITY BOARD

[25 PA. CODE CHS. 121, 126 AND 139]

Gasoline Volatility Requirements

The Environmental Quality Board (Board) proposes to amend Chapters 121, 126 and 139 to read as set forth in Annex A. The proposed amendments will eliminate the use of Federal reformulated gasoline (RFG) as a compliant fuel in the Pittsburgh-Beaver Valley Area during the ozone season. In addition, the proposed amendments will make a technical language correction relating to sampling procedures.

The Board approved the proposed amendments at its July 21, 1998, meeting.

A. *Effective Date*

These proposed amendments will be effective upon publication in the *Pennsylvania Bulletin* as final rule-making.

B. *Contact Persons*

For further information, contact Terry Black, Chief, Regulation and Policy Development Section, Division of Compliance and Enforcement, Bureau of Air Quality, 12th Floor, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-1663, or R. A. Reiley, Assistant Counsel, Bureau of Regulatory Counsel, Office of Chief Counsel, 9th Floor, Rachel Carson State Office Building, P. O. Box 8464, Harrisburg, PA 17105-8464, (717) 787-7060. Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). This proposal is available electronically through the Department of Environmental Protection (Department) Web site (<http://www.dep.state.pa.us>).

C. *Statutory Authority*

This action is being taken under the authority of section 5 of the Air Pollution Control Act (35 P. S. § 4005) which grants to the Board the authority to adopt regulations for the prevention, control, reduction and abatement of air pollution.

D. *Background and Summary of the Proposed Amendments*

These amendments propose to eliminate the use of RFG as a compliant fuel in the Pittsburgh-Beaver Valley Area during the ozone season. Because of concerns with implementation of the current regulation as it relates to RFG, the Department is eliminating the RFG provisions. Since refiners and marketers have been supplying low Reid vapor pressure (RVP) gasoline during the ozone season, these proposed amendments will have minimal practical consequences. These amendments also propose to correct technical language relating to sampling procedures.

These proposed amendments were submitted to and approved by the Air Quality Technical Advisory Committee and the Small Business Assistance Program Compliance Advisory Committee.

E. *Summary of the Regulatory Revisions*

The Department is proposing to delete definitions for the term "Federal Reformulated Gasoline or RFG" and

eliminate RFG from the term "compliant fuel." The Department also proposes to eliminate the references to RFG in §§ 126.301—126.303. In addition, the Department proposes to clarify the record retention requirements in § 126.302(c) (relating to recordkeeping and reporting) that records shall be kept onsite. Finally, the Department proposes to correct technical language in § 139.4(18) (relating to references).

F. *Benefits, Costs and Compliance*

Executive Order 1996-1 requires a cost/benefit analysis of the proposed amendments.

Compliance Costs

There will be no increased cost to the regulated community as a result of this proposal. Since low RVP gasoline is already required in the area, there will be no additional cost to the public or to local or State government. Low RVP gasoline on average is 2 ¢ per gallon less than RFG gasoline.

Compliance Assistance Plan

The Department plans to educate and assist the public and regulated community with understanding the newly revised requirements and how to comply with them. This will be accomplished through the Department's ongoing regional compliance assistance program.

Paperwork Requirements

There will be no additional recordkeeping and reporting costs for an entity that sells or transfers gasoline intended for use in the seven-county Pittsburgh-Beaver Valley Area during the ozone season.

G. *Sunset Review*

These proposed amendments will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the amendments effectively fulfill the goals for which they were intended.

H. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 8, 1998, the Department submitted a copy of the proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate and House Environmental Resources and Energy Committees. In addition to submitting the proposed amendments, the Department has provided IRRC and the Committees with a copy of a detailed regulatory analysis form prepared by the Department. A copy of this material is available to the public upon request.

If IRRC has objections to any portion of the proposed amendments, it will notify the Department within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for the Department, the Governor and the General Assembly to review these objections before final publication of the amendments.

I. Public Comment and Public Hearing
Public Hearing

The Board will hold one public hearing for the purpose of accepting comments on the proposed amendments. The hearing will be held at 2 p.m. on November 2, 1998, at the Department's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA.

Persons wishing to present testimony at the hearing are asked to contact Kate Coleman at the Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477, (717) 787-4526, at least 1 week in advance of the hearing to reserve a time to present testimony. Oral testimony will be limited to 10 minutes for each witness and three written copies of the oral testimony must be submitted at the hearing. Each organization is requested to designate one witness to present testimony on its behalf.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate, should contact Kate Coleman at (717) 787-4526 or through the Pennsylvania AT&T relay service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Written Comments

In lieu of or in addition to presenting oral testimony at the hearing, interested persons may submit written comments, suggestions or objections regarding the proposed amendments to the Environmental Quality Board, 15th Floor, Rachel Carson State Office Building, P. O. Box 8477, Harrisburg, PA 17105-8477. Comments received by facsimile will not be accepted. Comments must be received by December 2, 1998. In addition to the written comments, interested persons may also submit a summary of their comments to the Board. This summary may not exceed one page in length and must be received by December 2, 1998. The summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final-form regulations will be considered.

Electronic Comments

Comments may be submitted electronically to the Board at RegComments@dep.state.pa.us. A subject heading identifying the proposal and return name and address must be included in each transmission. Comments submitted electronically must also be received by the Board by December 2, 1998.

INSURANCE DEPARTMENT

[31 PA. CODE CH. 84]

Tables Approved for Use in Determining Minimum Nonforfeiture Standards and Minimum Standards for Valuation

The Insurance Department (Department) proposes to amend Chapter 84 (relating to tables approved for use in determining minimum nonforfeiture standards and minimum standards for valuation) to read as set forth in Annex A, under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412), section 301(c)(1) of The Insurance Department Act of 1921 (40 P. S. § 71(c)(1)) and section 410F (e)(8)(F) of The Insurance Company Law (40 P. S. § 510.1(e)(8)(F)).

Purpose

The purpose of the proposed amendments to Chapter 84 is to adopt new mortality tables for use in determining the minimum reserves for annuities. These new minimum standards apply to annuities issued on or after the effective date of adoption of the proposed amendments. The proposed mortality tables are based on historical experience and have been developed by the Society of Actuaries. In December 1996, the National Association of Insurance Commissioners adopted the proposed mortality tables as part of its Model Rule (Regulation) For Recognizing A New Annuity Mortality Table For Use In Determining Reserve Liabilities For Annuities. The Department's adoption of the proposed mortality tables will help to assure the solvency of insurance companies by requiring adequate reserves based on the most recent mortality tables.

The Insurance Federation of Pennsylvania, representing a substantial portion of the life insurance industry operating in this Commonwealth, has expressed a desire that the new annuity mortality tables set forth in the proposed rulemaking be adopted for use in this Commonwealth in determining the minimum reserves.

Explanation of Regulatory Requirements

The following is a description of the significant features of and changes contained in the proposed rulemaking:

Section 84.3 (relating to 1983 Table "a"). This section provides for the use of the Annuity 2000 Mortality Table excluding mortality rates independent of sex and the 1994 GAR Table as additional mortality tables which may be used to determine minimum reserves for annuities issued prior to the effective date of adoption of the proposed amendment and as the mortality tables which must be used to determine minimum reserves for annuities on and after the effective date of adoption of the proposed amendment.

Affected Parties

This proposed rulemaking will apply to life insurance companies marketing annuity contracts in this Commonwealth.

Fiscal Impact

State Government

There will be no increase in cost to the Department due to the adoption of new annuity tables since the proposed rulemaking does not impose additional requirements on the insurance industry which the Department must monitor for compliance.

General Public

It is unlikely that there will be any adverse fiscal impact on the consumers who purchase annuity contracts. The general public will be purchasing annuity contracts from more financially stable insurers.

Political Subdivisions

The proposed rulemaking will strengthen the solvency requirements of insurance companies issuing annuity contracts. Increasing insurance company solvency requirements has the potential to minimize insurance company insolvencies which could result in less erosion of the tax base since insurers pay premium taxes on premium income and pay salaries which are taxed.

Private Sector

The proposed rulemaking may have some fiscal impact on insurance companies marketing annuity contracts. Insurers will be required to expend the time necessary to determine if their current annuity reserve standards meet the new requirements. To the extent that the standards do not comply with the new requirements, an insurance company must increase the reserves for contracts issued on or after the effective date of adoption of the proposed amendment to Chapter 84.

Paperwork

The adoption of this proposed rulemaking will not impose additional paperwork on the Department and the insurance industry. The proposed rulemaking provides for the use of additional mortality tables and does not impose additional requirements resulting in additional paperwork.

Effectiveness/Sunset Date

The proposed rulemaking will become effective upon final adoption and publication in the *Pennsylvania Bulletin* as final rulemaking. No sunset date has been assigned.

Contact Person

Questions or comments concerning this proposed rulemaking may be addressed in writing to Peter J. Salvatore, Regulatory Coordinator, 1326 Strawberry Square, Harrisburg, PA 17120, within 30 days of the publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 14, 1998, the Department submitted a copy of these proposed amendments to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Insurance Committee and the Senate Banking and Insurance Committee. In addition to submitting the proposed amendments, the Department has provided IRRC and the Committees with

a copy of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of that material is available to the public upon request.

If IRRC has objections to any portion of the proposed amendments, it will notify the Department within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for the Department, the Governor and the General Assembly to review these objections before final publication of the amendments.

[31 PA. CODE CH. 125] Title Insurance Rebates

The Insurance Department (Department) hereby proposes to amend Chapter 125 (relating to title insurance rebates) to read as set forth in Annex A, under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412), sections 701(4) and 731 of The Insurance Company Law of 1929 (40 P. S. §§ 910-1(4) and 910-31) and sections 635 and 636 of The Insurance Company Act of 1921 (40 P. S. §§ 275 and 276).

Purpose

The purpose of this proposal is to amend Chapter 125 to make it consistent with the act of December 21, 1995 (P. L. 714, No. 79) (Act 79). This Chapter, adopted in 1968, identified and defined prohibited rebating and inducement activities associated with title insurance transactions.

Explanation of Regulatory Requirements

The Department has determined that § 125.1(b) (relating to prohibited rebates and inducements) and §§ 125.5—125.9 should be deleted from the chapter as sections without statutory basis or are redundant and unnecessary.

Section 125.1(b) is being deleted as the controlling law, section 730 of the Insurance Company Law (40 P. S. § 910-30), was repealed in 1995. Section 10 of Act 79, further amended section 731 of The Insurance Company Law (40 P. S. § 910-31) having to do with "Commissions; Other Considerations Prohibited." Act 79 specifically identifies and defines activities which constitute per se unlawful inducements. Sections 125.5—125.9 do not enhance the prohibitions already delineated in section 10 of Act 79, and are, therefore, found to be redundant.

Minor revisions to § 125.3 (relating to increasing the charge or fee) have been made to clarify the nature of the prohibited activity.

External Comments

Comments regarding these proposed amendments were solicited from the Pennsylvania Land Title Association (PLTA), which represents the title insurance industry. The PLTA agreed with the Department that this chapter should be amended as recommended.

Fiscal Impact

There is no fiscal impact as a result of the proposed amendments.

Paperwork

The proposed amendments will affect all licensed title insurers, agents and approved attorneys in this Commonwealth.

Effectiveness/Sunset Date

The proposed rulemaking will become effective upon final publication in the *Pennsylvania Bulletin*. Because the rulemaking proposes to amend the chapter, no sunset date has been assigned.

Contact Person

For information on this matter, contact Peter J. Salvatore, Regulatory Coordinator, 1326 Strawberry Square, Harrisburg, PA 17120 within 30 days of this publication.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 14, 1998, the Department submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Insurance Committee and the Senate Banking and Insurance Committee. In addition to the submitted proposed rulemaking, the Department has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of that material is available to the public upon request.

If IRRC has objections to any portion of the proposed amendments, it will notify the Department within 10 days after the close of the Committees' review period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for the Department, the Governor and the General Assembly to review these objections before final publication of the proposal.

STATE HORSE RACING COMMISSION

[58 PA. CODE CHS. 163 AND 165]

Rules of Racing

The State Horse Racing Commission (Commission) acting under the authority conferred by section 202(a) of the Race Horse Industry Reform Act (4 P. S. § 325.202(a)) (act), hereby proposes to amend Chapters 163 and 165 (relating to rules of racing; and administrative rules) of the Commission's regulations.

Chapter 163 of the Commission's regulations governs all of the facets of racing including matters such as, entries, licensing of owners, trainer and jockeys, racing violations, medication/drug violations, the power of the Board of Stewards and the Breeders Fund Program. Chapter 163 also includes the Commission's regulations regarding racing entries. Specifically, the Commission proposes to amend §§ 163.95 and 163.531 (relating to coupled entries; and definitions). The proposed amendments will help clarify and update the present rules of racing and bring them into conformance with surrounding racing jurisdictions.

Summary of Proposed Major Amendments

Entries and Subscriptions

Section 163.95 (Coupled entries)

At the request of the Pennsylvania Thoroughbred Horsemen's Association (THA), the Commission proposes

to amend the so-called "coupled entry" rule. The proposed amendment will eliminate an outdated rule of racing and make it more consistent with § 163.119 (relating to double entry in the same ownership) of the Commission's regulations. Additionally, the proposed amendment will bring the Commission's regulation into parity with Delaware and Florida racing jurisdictions.

Specifically, the coupled entry rule is activated when an owner or trainer attempts to enter more than one horse in the same race. An "entry" as defined in the Commission's regulations is a horse, which is made eligible to run in a particular race. That entry is thereafter known as a "starter." As presently promulgated, when an owner or trainer enters two or more horses in the same race, the two horses are combined as one entry for purposes of betting. Thus, a wager placed on one horse is considered a wager on both horses (the entry). Historically, two or more horses owned or trained by the same persons were coupled to avoid any potential collusion between the owner or trainer and the jockeys of the two horses, which could affect the outcome of the race. Today, in this heavily regulated industry the potential for collusion has been greatly diminished, if not completely eradicated.

The practical effect of the proposed amendment is to "uncouple" the entry in the race but only as to trainers. Thus, when two or more horses entered in a race are trained by the same trainer, the two horses may race as an independent or uncoupled entry, which has been shown to increase betting interest with the public. The coupled-entry requirement however, will remain in effect as to horses owned wholly or in part by the same person.

Pennsylvania Breeder's Fund Program

Section 163.531 Definitions.

At the request of the Pennsylvania Horse Breeders Association (PHBA), the Commission proposes to amend the regulations governing the Pennsylvania Breeders' Fund Program (Fund), which was established in 1974. Historically, the Fund was designed to stimulate and sustain the Commonwealth's thoroughbred breeding industry, whose product would in turn, support live racing programs at the licensed thoroughbred racetracks by providing, in essence, an incentive to breed horses in this Commonwealth. The Fund, by providing monetary awards to breeders, stallion owners and owners of registered Pennsylvania-bred (Pa-Bred) horses, offers the thoroughbred industry economic advantages to help offset the high-risk enterprise of breeding racehorses. The Fund is financed by 7/10 of 1% of the total thoroughbred pari-mutuel handle. It provides for individual award payments, purse bonus supplements, PA-Bred stakes races and expenses incurred by the PHBA in its role as program administrator. Additionally, an amount equal to 1/3 of 1% of each thoroughbred racetrack's daily pari-mutuel handle is utilized in conjunction with Fund moneys by that racetrack to provide for owner bonuses earned by PA-Bred horses racing there.

As presently promulgated, the definition of "Pennsylvania-bred horse" requires only that the foaling occur in this Commonwealth for the horse to be eligible for program registration and all its entitlements. The definition was originally designed to simplify matters for Commonwealth breeders unfamiliar with the incentive programs and which would attract breeders from surrounding states to come to this Commonwealth and breed horses. However, due to increased sums of PA-Bred moneys as a result of off-track wagering facilities, full card simulcasting and the downsides being experienced in

breeding programs in surrounding states, out-of-State breeders are now quick to take advantage of the overly-broad definition of a PA-Bred. Out-of-State breeders are entering this Commonwealth simply to foal their horse (and gaining eligibility into the program) and immediately leaving this Commonwealth without necessarily contributing to the commerce of this Commonwealth's thoroughbred industry. The proposed rulemaking will amend the definition by requiring that during the year of foaling, the foal or its dam spend a minimum of 90 days at a facility in this Commonwealth. The PHBA and the Commission believe the proposed amendment will modify the current trend and ensure that Fund program participants contribute more significantly to this Commonwealth's commerce than the current definition requires.

Finally, the Commission will also propose to amend or entirely delete several other sections, including § 163.537 (relating to records of expenses) within the Breeders Fund Program to clarify and update, when appropriate, the language of the regulations relating to such matters as the registration, eligibility, appeals and awards of Pa-Bred horses. Specifically, § 163.537, which was promulgated in the mid-1970s prior to the enactment of Race Horse Industry Reform Act in 1981 (4 P. S. §§ 325.101—325.402), presently requires the PHBA to submit quarterly estimates to the Commission. This is inconsistent with section 325.223(g) of the act (4 P. S. § 325.223(g)), which only requires annual estimates. The Commission and the Pennsylvania Breeding Fund Advisory Board propose to delete this section because of this inconsistency and because they believe section 325.223(g) of the act adequately addresses the expense-records requirement.

Section 165.118(j) (Trifecta)

For purposes of uniformity and consistency, this section is proposed to be amended to delete the existing restriction regarding coupled entries in Trifecta races. The Commission does not believe there is any further legitimate reason to continue this restriction, especially in light of the preceding proposed amendment.

Fiscal Impact

Commonwealth

The Commission has determined that the amendments will have no adverse fiscal impact on the Commonwealth.

Political Subdivisions

The proposed amendments will not have any direct fiscal impact on political subdivisions.

Private Sector

The proposed amendments will not have any negative fiscal impact on the private sector within this Commonwealth. There may be limited fiscal impact upon out-of-State breeders who enter this Commonwealth to become eligible for the Breeders' Fund Program. The impact should be offset as a result of the commerce generated with the new 90-day requirement for the dam and foal, which will have to be met to qualify for the Pa-Bred registration.

General Public

The proposed amendments will not have any fiscal impact on the general public. The proposed amendments will, however, bring the Commission's regulations relating to coupled entries and the Breeders' Fund Program into conformity with the other racing jurisdictions.

Paperwork Requirements

The proposed amendments will not generate any new substantial paperwork for the public or the Commonwealth.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 14, 1998, the Commission submitted a copy of the proposed amendments to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate State Government Committees. In addition to submitting the proposed amendments, the Commission has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Commission in compliance with Executive Order 1996-1.

If IRRC has objections to any portion of the proposed amendments, it must notify the Commission within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the regulation, by the Commission, the General Assembly and the Governor of objections raised.

Contact Person

Individuals interested in commenting on the proposed amendments or who require further information may contact Benjamin H. Nolt, Jr., Executive Secretary, State Horse Racing Commission, Room 304 Agriculture Building, 2301 N. Cameron Street, Harrisburg, PA 17110-9408, (717) 787-5196, within 30 days of publication of this notice in the *Pennsylvania Bulletin*.

TITLE 58. RECREATION

PART IV. HORSE RACING COMMISSION

CHAPTER 163. RULES OF RACING

ENTRIES AND SUBSCRIPTIONS

§ 163.95. Coupled entries.

(a) The term "entry" means a horse made eligible to run in a race. When starters in a race include two or more horses owned [**or trained**] by the same person, [**trained in the same stable or trained by the same management,**] they shall be coupled as an entry, with no exceptions. A wager on one horse in the entry shall be a wager on all horses in the entry. If a race is split in two or more divisions, horses in an entry shall be seeded in separate divisions, but the divisions in which they compete and their post positions shall be drawn by lot.

(b) Horses owned wholly or in part by the same person or the spouse of the person or trained by the same trainer shall be coupled and run as an entry. **A trainer may not have any ownership interest in any other horse in the same race unless the horses are coupled as a single wagering interest.**

* * * * *

(d) Starters in a race which include two horses of different ownership trained by the same person, trained in the same stable or trained by the same management may not be coupled as an entry and shall constitute separate wagering interests. In no case may more than two horses having common trainer ties as defined in this section start in a race.

PENNSYLVANIA BREEDERS' FUND PROGRAM

§ 163.531. Definitions.

The following words and terms, when used in this part, have the following meanings, unless the context clearly indicates otherwise:

Breeder—A breeder is the owner of the dam at the time of foaling and when held under a lease or in partnership, only the lease or partnership will be recognized for purposes of which it is filed with the Jockey Club.

Pennsylvania-bred horse— A Pennsylvania-bred horse is a thoroughbred horse foaled in [Pennsylvania] this Commonwealth, which during the year of foaling, the foal or its dam spent a minimum of 90 days at a facility in this Commonwealth and is subsequently registered with the Pennsylvania Horse Breeders Association and the Jockey Club.

* * * * *

§ 163.532. Eligibility for Pennsylvania-bred races.

To be eligible for preferences in races in which Pennsylvania-breds are preferred and to be eligible for entry in races which are restricted by condition to registered Pennsylvania-breds, a horse shall be registered as a Pennsylvania-bred with the Pennsylvania Horse Breeders Association at the time of entry. [To be eligible for the registration, the horse shall have been foaled in this Commonwealth.]

§ 163.533. [Eligibility of breeders for awards] (Reserved).

[In order for a Pennsylvania-bred horse to be eligible to earn an award for its breeder, under section 17.1(b)(3) of the act of December 11, 1967 (P. L. 707, No. 301) (15 P. S. § 2667.1) (Repealed), in a race conducted by a pari-mutuel permit holder in this Commonwealth, the horse shall be registered as a Pennsylvania-bred with the Pennsylvania Horse Breeders Association prior to entry for the race.]

§ 163.534. [Eligibility of owners of Pennsylvania sires for awards] (Reserved).

[In order for a sire of this Commonwealth to be eligible to earn an award for its owner, under section 17.1(b)(4) of the act of December 11, 1967 (P. L. 707, No. 331) (15 P. S. § 2667.1) (Repealed), the sire shall have been registered as a sire of this Commonwealth with the Pennsylvania Horse Breeders Association during each breeding season when the sire covered the dams that, as a result of that cover, produced Pennsylvania-breds. A sire of this Commonwealth not registered with the Pennsylvania Horse Breeders Association prior to 1975 may be registered with the Pennsylvania Horse Breeders Association, for years prior to 1975 if registered by December 31, 1975. To be eligible for a sire award, it is not necessary that the foal entitling the sire owner to the award be itself registered but only that it have been foaled in this Commonwealth by a sire registered as set forth in this section.]

§ 163.537. [Records of expenses] (Reserved).

[The Pennsylvania Breeders Association will maintain a complete record of reasonable and necessary expenses and will submit quarterly estimates to the Commission, on the basis of which the Commission may disburse advances. The quarterly estimated statements of expenses and advances shall be reconciled annually with a certified statement of expenses to be prepared by an auditor approved in advance by the Commission. The Commission will thereafter review them and after approval of allowable items shall then reimburse the Pennsylvania Breeders Association for expenses the Commission finds reasonable and appropriate to this program. If advances on account of expenses exceeds actual expenses as approved at the end of a given year, the excess shall be deemed disbursed on account of the ensuing year's expenses.]

CHAPTER 165. ADMINISTRATIVE RULES

Subchapter E. PARI-MUTUEL WAGERING

DEPARTMENT OF AGRICULTURE

Application Period for Agricultural and Rural Youth Organization Grant Program

The Department of Agriculture (Department) announces the opening of the application period for funding from the Agricultural and Rural Youth Organization Grant (ARYOG) Program for 1999. Grant applications will be accepted at Room 310, Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110-9408, from October 19 to December 4, 1998. Applications must be postmarked by December 4, 1998, to be considered for funding. Telefax submissions are not acceptable.

The ARYOG Program was created by the General Assembly through the passage of Act 33, effective August 6, 1991. The program is funded through the Rural Rehabilitation Corporation assets. For program guidelines, see the Agricultural and Rural Youth Organization Grant Program policy statement published in the April 4, 1992, edition of the *Pennsylvania Bulletin* (7 Pa. Code Chapter 137f).

The objective of the ARYOG Program is to encourage projects which will increase knowledge and awareness of agricultural issues and other issues specific to rural areas within this Commonwealth. This educational effort is directed toward the youth of this Commonwealth.

For this application year, the Agricultural and Rural Youth Organization Grant Program will award direct grants of up to \$2,500. Four matching grants of up to \$10,000 will be offered.

Schedule for General Inspection and Testing of Weights and Measures

The Department of Agriculture (Department) hereby gives notice of its schedule for the general testing and inspection of commercially used weighing and measuring devices.

Section 4112 of the Agriculture Code (3 Pa.C.S. § 4112) requires the Department inspect all commercially used weighing and measuring devices for accuracy at least once every 12 months unless a different inspection interval is prescribed by the Department in its inspection schedule. This notice establishes that inspection schedule.

A. 12 Month Inspection Period.

The Department will (as required by § 4112(b) of the Agriculture Code) inspect the following types of commercially used weighing and measuring devices for accuracy at intervals of no greater than 12 months:

- Small capacity retail computing scales
- Retail package shipping scales
- Vehicle scales
- Small platform scales which weigh items to 1,000 pounds
- Truck-mounted fuel oil meters
- Truck-mounted liquid petroleum gas meters
- Compressed natural gas meters
- Retail motor fuel dispensers

The foregoing inspections may be conducted by a State Inspector employed by the Department, by a county sealer or city sealer performing the inspection in accordance with a memorandum of understanding with the Department, or by a Certified Examiner of Weights and Measures.

The Department will (as required by § 4112(c) of the Agriculture Code) inspect the following types of commercially used weighing and measuring devices for accuracy by June 30, 1999, and thereafter at intervals of no greater than 12 months:

Universal Product Code scanning systems

Price look up devices

Inspections of Universal Product Code scanning systems and price look up devices may be conducted by a State Inspector employed by the Department or by a county sealer or city sealer performing the inspection in accordance with memorandum of understanding with the Department. A Universal Product Code scanning system or price look up device is exempt from this annual inspection and testing if it is inspected at least annually on an unannounced basis as part of a private certification program which conforms with the examination procedures for price verification as adopted by the National Conference of Weights and Measures.

B. 36-Month Inspection Period.

The Department will inspect all types of commercially used weighing and measuring devices not specifically

assigned a 12-month inspection interval above by June 30, 1999, and thereafter at intervals of no greater than 36 months.

C. Revisions to the Inspection Schedule.

The Department may revise this inspection schedule from time to time. The revisions will be published in the *Pennsylvania Bulletin*.

D. Further Information.

Further information is available by contacting the Department at the following address or telephone number: Bureau of Ride and Measurement Standards, Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 787-6772.

The foregoing Inspection Schedule is effective as of publication.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of October 1998

The Department of Banking of the Commonwealth of Pennsylvania, under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of October, 1998, is 8 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. 96-221). Further preemption was instituted with the signing of Pub. L. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department of Banking is required by State law to compute and announce the ceiling rate on residential mortgages in Pennsylvania. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the U. S. Treasury. The latest yield rate on long-term government securities is 5.64 to which was added 2.50 percentage points for a total of 8 1/4% that by law is rounded off to the nearest quarter at 8 1/4%.

Applications, Actions and Special Notices

APPLICATIONS

APPLICATIONS RECEIVED UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standard and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate in the proceeding, should contact the Secretary to the Board at (717) 787-3483. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PA 0082309. Fairview Township Authority, 599 Lewisberry Road, New Cumberland, PA 17070-2399, has applied to renew its current NPDES Permit, PA 0082309, to allow the continued discharge of controlled wastewaters into the waters of this Commonwealth. The Department of Environmental Protection (Department) has made a tentative determination to renew the permit, subject to the current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management and total residual chlorine control (TRC). Major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions, under waiver provision 40 CFR 123.

Persons wishing to comment on the proposed permit are invited to submit a statement to the following address within 30 days from the date of this public notice. Comments received within this 30-day period will be considered before taking a final permit action. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Regional Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Department of Environmental Protection, Southcentral Regional Office, Regional Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110-8200.

Following the 30-day comment period, the Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin*, at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file in the Regional Office. Persons may make an appointment to review the Department files on this case by calling Mary DiSanto, File Review Coordinator, at (717) 705-4732.

Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewaters into the surface waters of this Commonwealth. The Department of Environmental Protection (Department) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management and total residual chlorine control (TRC). Major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Operations indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on the Department's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

Applications under the Pennsylvania Clean Streams Law

(Part II Permits)

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection (Department). Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number; identification of the plan or application to which the protest is addressed; and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protest. Each writer will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Stormwater Individual

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharge.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the Regional Office or County Conservation District Office indicated as the responsible office, within 30 days from the date of this public notice. A copy of the written comments should be sent to the County Conservation District Office. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the County Conservation District Office or the Department Regional Office indicated above the application.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION**

Under Act 2, 1995

Preamble 1

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to

Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department must provide a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Southcentral Regional Office: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110-8200, (717) 705-4705.

Electric Motor Supply, Inc., East Hempfield Township, **Lancaster County**. Electric Motor Supply, Inc., 1000 Fifth Street, Altoona, PA 16601, has submitted a Notice of Intent to Remediate site soils contaminated with solvents and BTEX. The applicant proposes to remediate the site to meet the Statewide health standard. A summary of the Notice of Intent to Remediate was reported to have been published in the *Lancaster Intelligence New Era* on September 9, 1998.

Northcentral Regional Office: Michael C. Welch, Environmental Cleanup Program Manager, 208 West Third Street, Suite 101, Williamsport, PA 17701-6448, (717) 321-6525.

Penn Fuel Gas—Lewisburg, Lewisburg Borough, **Union County**. Key Environmental, Inc., on behalf of their client Penn Fuel Gas, Inc., 55 South Third Street, Oxford, PA 19363 has submitted a Notice of Intent to Remediate soil, groundwater and sediment contaminated with lead, heavy metals, BTEX, PAHs, phenolics and cyanide. The applicant proposes to remediate the site to meet the Statewide health standard or the site-specific standard, as appropriate. A summary of the Notice of Intent to Remediate was reported to have been published in the *Sunbury Daily Item* on August 3, 1998.

Southwest Field Office: John J. Matviya, Environmental Cleanup Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-5217.

Chambers, Chambers Environmental Group, Inc., 485 East College Avenue, Suite A, Pleasant Gap, PA 16823 has submitted a Notice of Intent to Remediate soil

contaminated with BTEX and lead. The applicant proposes to remediate the site to meet the Statewide health standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 2

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use a site-specific standard or who intend to remediate a site in a Special Industrial Area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific cleanup standard, in whole or in part, and for sites determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified, a municipality may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period a municipality may request that the person identified, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of a site. For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

SOLID AND HAZARDOUS WASTE RESIDUAL WASTE PROCESSING FACILITIES

Applications received under the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904), and residual waste regulations for a general permit to operate residual waste processing facilities and the beneficial use of residual waste other than coal ash.

Central Office: Division of Municipal and Residual Waste, 14th Floor, Rachel Carson State Office Building, 400 Market Street, Harrisburg, PA 17101-2301.

General Permit Application No. WMGR059. International Paper Company, Lock Haven Mill, P. O. Box 268, Lock Haven, PA 17745. An application for the beneficial use of bottom ash derived from the combustion of bituminous coal and tire derived fuel as anti-skid material.

Comments on the general permit application may be submitted to Ronald C. Hassinger, Chief, General Permits and Beneficial Use Section, Division of Municipal and Residual Waste, P. O. Box 8472, Harrisburg, PA 17105-8472. Persons interested in examining the application may make arrangements by calling the Division of Municipal and Residual Waste at (717) 787-7381. TDD users may contact the Department through the Pennsylvania Relay Service, (800) 654-5984. Arrangements can also be made for persons with disabilities who wish to inspect the application. Public comments must be submitted to the Department within 60 days of the date of this notice and may recommend revisions to, and approval or denial of the application.

AIR QUALITY

Plan Approval and Operating Permit Applications Nonmajor Sources and Modifications

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Offices identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits must submit the protest or comment within 30 days from the date of this notice. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the act.

OPERATING PERMITS

Applications received and intent to issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015).

Southcentral Regional Office: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4702.

31-310-019F: New Enterprise Stone and Lime Co., Inc. (P. O. Box 77, New Enterprise, PA 16664) for operation of a limestone crushing plant in Warriors Mark Township, **Huntingdon County**.

31-310-025C: U. S. Silica Co. (P. O. Box 187, Berkeley Springs, WV 25411) for a silica sandstone dry screening operation in Brady Township, **Huntingdon County**.

36-323-001B: Mount Joy Wire Corp. (1000 East Main Street, Mount Joy, PA 17552) for operation of wire tempering lines in Mount Joy Borough, **Lancaster County**.

36-320-029: The Continental Press, Inc. (520 East Bainbridge Street, Elizabethtown, PA 17022) for operation of sheet fed lithographic printing presses in Elizabethtown Borough, **Lancaster County**.

67-310-007C: County Line Quarry, Inc. (South Front Street, York, PA 17368) for operation of a quartzite crushing plant in Wrightsville Borough, **York County**.

28-318-036: The Appalachian Mill Collection, Inc. (11427 Church Hill Road, Mercersburg, PA 17236) for operation of a wood surface coating line in Mercersburg Borough, **Franklin County**.

Southwest Regional Office: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4174.

63-00884: Mine Technik America, Inc. (2045 West Pike Street, Houston, PA 15342) for operation of mining machinery mfg. at Houston Facility in Chartiers Township, **Washington County**.

65-00793: Wilson's Scrap Metals, Inc. (R. D. 2, Box 374, Rte. 286) for operation of metal smelting and refining at Coreco Metal Separator System, Bell Township, **Westmoreland County**.

65-00061: RAM Terminals, Inc. (One Fifth Street, New Kensington, PA 15068) for operation of crushing and screening at New Kensington Crushing Plant in New Kensington, **Westmoreland County**.

Notice of Intent to Issue Title V Operating Permits

Under 25 Pa. Code § 127.521, the Department of Environmental Protection (Department) intends to issue a Title V Operating Permit to the following facilities. These facilities are major facilities subject to the operating permit requirements under Title V of the Federal Clean Air Act and 25 Pa. Code Chapter 127, Subchapters F (relating to operating permit requirements) and G (relating to Title V operating permits).

Appointments to review copies of the Title V application, proposed permit and other relevant information must be made by contacting Records Management at the regional office telephone number noted. For additional information, contact the regional office noted.

Interested persons may submit written comments, suggestions or objections concerning the proposed Title V permit to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall

include the name, address and telephone number of the person submitting the comments, along with the reference number of the proposed permit. The commentator should also include a concise statement of objections to the permit issuance and the relevant facts upon which the objections are based.

The Department reserves the right to hold a public hearing on the proposed action based upon the information received during the public comment period and will provide notice of any scheduled public hearing at least 30 days in advance of the hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation where the facility is located.

Southeast Regional Office: Air Quality Program, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, Attn: Edward Brown, (610) 832-6242.

23-00016: PQ Corp. (1201 West Front Street, Chester, PA 19013) located in City of Chester, **Delaware County**. The facility's major emission points include sodium silicate furnace and potassium silicate furnace which emit major levels of NO_x.

46-00051: Schlosser Steel, Inc. (2641 Township Line Road, Hatfield, PA 19440) located in Hatfield Township, **Montgomery County**. The facility's major emission points include structural steel painting operation which emit major levels of VOC.

Northeast Regional Office: Air Quality Program, Two Public Square, Wilkes-Barre, PA 17811-0790, Attn: Michael Safko, (717) 826-2531.

40-00023: GFC Foam, Inc. (25 Jaycee Drive, Valmont Industrial Park, West Hazleton, PA 18201) for flexible foam manufacturing process lines and ancillary processes and space heaters in West Hazleton Borough, **Luzerne County**.

Northwest Regional Office: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, Attn: Eric Gustafson, (814) 332-6940.

43-00003: Cooper Energy Services (150 Lincoln Avenue, Grove City, PA 16127) located in Grove City Borough, **Mercer County**. Cooper Energy Service's air emission sources include several natural gas fired combustion units, three electric induction furnaces, sand silos and associated sand handling system, three engine test pits, shotblast and spinblast rooms, a metal spray booth and parts cleaning/painting booth. The facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments due to the facility's potential to emit of Particular Matter and Volatile Organic Compounds.

PLAN APPROVALS

Applications received and intent to issue Plan Approvals under the Air Pollution Control Act (35 P. S. §§ 4001—4015).

Northeast Regional Office: Air Quality Program, Two Public Square, Wilkes-Barre, PA 17811-0790, (717) 826-2531.

61-399-007D: A. G. Industries, Inc. (671 Colbert Avenue, Oil City, PA 16301) for minor modification of Plan Approval 61-399-007C to clarify the facility's status as a small, existing hard chromium electroplating facility subject to 40 CFR Part 63, Subpart N in Oil City, **Venango County**.

**REASONABLY AVAILABLE CONTROL
TECHNOLOGY
(RACT)**

Applications received and intent to issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and regulations for an Operating Permit to comply with 25 Pa. Code § 129.91 for Reasonable Available Control Technology.

Northcentral Regional Office: Air Quality Program, 208 West Third Street, Suite 101, Williamsport, PA 17701, (717) 327-3637.

08-313-004H: Osrsm Sylvania Products, Inc. (Hawes Street, Towanda, PA 18848) for construction of a chemical reactor (M-1) to be controlled by an existing air cleaning device (a packed bed scrubber) in Towanda Borough, **Bradford County**.

**Proposed Revision to the State Implementation Plan for Volatile Organic Compounds (VOC).
Approval of a Reasonably Available Control Technology Plan for Conestoga Wood Specialties, Inc., East Earl Township, Lancaster County.**

The Department of Environmental Protection (Department) has made a preliminary determination to approve a Reasonably Available Control Technology (RACT) Plan, and proposes to revise the State Implementation Plan (SIP) for Conestoga Wood Specialties, Inc. at 245 Reading Road, East Earl, PA 17519.

The proposed SIP revision does not adopt new regulations. It incorporates the provisions and requirements contained in RACT Plan Approval No. 36-2017B for the existing facility to comply with current regulations. The preliminary VOC RACT determination for the surface

coating operation is a high solids top coat and sealer system coating reformulations.

The preliminary RACT determination, when finally approved, will be incorporated into a Plan Approval/Operating Permit for the facility and will be submitted to the United States Environmental Protection Agency (EPA) as a revision to Pennsylvania SIP.

The facilities potential VOC emissions shall be limited to approximately 95 tons per year. Additional conditions require monitoring, testing, reporting and recordkeeping requirements for the VOC sources at the facility.

An appointment to review the RACT plan, plan approval and other pertinent documents at the Southcentral Regional Office may be scheduled by contacting Mary DiSanto at (717) 705-4732 between 8 a.m. and 3:30 p.m., Monday through Friday, except holidays.

One public hearing will be held for the purpose of receiving comments on the proposal. The hearing will be held on October 27, 1998, at Goodville Fire Hall, Goodville, PA 17528 beginning at 1 p.m. until such a time as all scheduled comments on the proposal are received.

The public is invited to comment on the proposed plan and SIP revision. Persons interested in commenting are invited to appear at the public hearing, and should contact Sandra Roderick at (717) 705-4931 at least 1 week in advance of the hearing to reserve a time to present testimony. Commentators are requested to provide a written copy of their remarks at the time of the hearing. Oral testimony will be limited to a maximum of 10 minutes per individual. Persons interested in submitting written comments should send their comments to Ranjan Roy, Air Pollution Control Engineer, 909 Elmerton Avenue, Harrisburg, PA 17110-8200 on or before October 22, 1998.

Persons with a disability who wish to attend the above hearing, and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact Sandra Roderick at (717) 705-4931 or through the AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

**Doverspike Brothers Coal Co.
Jefferson County**

The Department of Environmental Protection (Department) will conduct a public hearing on October 20, 1998, beginning at 1 p.m. in the Air Quality Conference Room of the Department's Regional Office Building located at 230 Chestnut Street, Meadville, PA 16335-3407.

The hearing is for the Department to accept testimony concerning the Department's decision to approve, with conditions, Reasonably Available Control Technology (RACT) plan by Doverspike Brothers Coal Co., Box 271, Punxsutawney, PA to meet the requirements under 25 Pa. Code §§ 129.91—129.95 (RACT), concerning the emissions of oxides of nitrogen (NOx) and volatile organic compounds (VOC) from various air contamination sources. The final RACT proposal will be submitted to the United States Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan. This facility is located in Jefferson County.

The proposed SIP revisions do not adopt new regulations. They incorporate the provisions and requirements

contained in the RACT approval for the facility to comply with current regulations.

The preliminary RACT determination, if finally approved, will be incorporated into Plan Approval and/or Operating Permit for the facility and will be submitted to the EPA as a revision to Pennsylvania's State Implementation Plan.

The following is a summary of the preliminary NO_x and VOC RACT determination for facility (major sources only):

Source

Thermal Dryer

NO_x RACT and VOC RACT

- The average dryer feed rate shall not exceed 289 ton per hour. This shall be calculated over a 24-hour operating period.
- Daily dryer throughputs and hours of operation shall be recorded and maintained at the site. Records shall be retained for at least 5 years and shall be made available to the Department upon request.
- The source shall be operated and maintained in accordance with the manufacturer's specifications. The source shall also be operated and maintained in accordance with good air pollution control practices.

A public hearing will be held for the purpose of receiving comments on the above proposed Plan Approval and/or Operating Permit and the proposed SIP revisions. The public hearing is scheduled on Tuesday, October 20, 1998, 1 p.m.—3 p.m., at the Air Quality Conference Room, Regional Conference Room, 230 Chestnut Street, Meadville, PA 16335-3407.

Persons wishing to present testimony at the hearing should contact Lori McNabb, Air Pollution Control Engineer, 270 Chestnut Street, Meadville, PA 16335-3494, (814) 332-6940 at least 1 week in advance of the hearing to reserve a time to present testimony. Oral testimony will be limited to a maximum of 10 minutes and two written copies of the oral testimony are required. Each organization is requested to designate one witness to present testimony in its own behalf.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact Lori McNabb at (814) 332-6940 or the Pennsylvania AT&T relay service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Those unable to attend the hearing but wish to comment should provide written comments to the above noted contact person. Comments should be submitted within 30 days of the date of this publication notice.

All the pertinent documents (applications, review memos and draft approvals) are also available for review from 8 a.m. to 4 p.m. at the Meadville Regional office (Air Quality). Appointments for scheduling a review must be made by calling the contact person noted previously.

MINING

APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor de-

sires to have the conference conducted in the locality of the proposed mining activities.

Ebensburg District Office, 437 South Center Street, P. O. Box 625, Ebensburg, PA 15931-0625.

INDIVIDUAL PERMITS

(PAR)

The following parties have submitted Notices of Intent (NOIs) for Coverage under (1) General NPDES Permit(s) to discharge wastewater into the surface waters of this Commonwealth. The approval for coverage under these general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in the general permit; (2) General Permit(s) for Beneficial Use of Sewage Sludge or Residential Septage by Land Application in Pennsylvania. The approval of coverage for land application of sewage sludge or residential septage under these general permits is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective general permit. The Department of Environmental Protection approves the following coverages under the specified General Permit.

The EPA Region III Regional Administrator has waived the right to review or object to this permit action under the waiver provision: 40 CFR 123.24.

The application and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program in the Department's Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final report:

Southwest Field Office: John J. Matviya, Environmental Cleanup Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-5217.

Former O'Donnell's Ambulance Service, North Huntingdon, **Westmoreland County**. Tim O'Donnell, 160 Bush Creek Road, Irwin, PA 15642 and Jeffrey S. Chambers, Chambers Environmental Group, Inc., 485 East College Avenue, Pleasant Gap, PA 16823 has submitted a Final Report addressing soil contaminated with BTEX and lead. The report is intended to document remediation of the site to meet the Statewide health standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 4

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908) and Chapter 250 Administration of Land Recycling Program.

Provisions of Chapter 250.8 Administration of Land Recycling Program requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the Act 2 (Land Recycling and Environmental Remediation Standards Act) remediation standards. Plans and reports required by provisions of Act 2 for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of reuse of the property, and in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program in the Department's Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has acted upon the following plans and reports:

Southcentral Regional Office: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110-8200, (717) 705-4705.

Former Murata Electrics NA, Inc., CREDC Property, Carlisle Borough, **Cumberland County**. Alliance Environmental Services, Inc., 2595 Interstate Drive, Harrisburg, PA 17110 submitted a final report concerning the remediation of site groundwater contaminated with heavy metals and solvents and site soils contaminated with solvents. The final report demonstrated attainment of the background standard for groundwater and the site specific standard for soils. The final report was approved by the Department on September 4, 1998.

Northcentral Regional Office: Michael C. Welch, Environmental Cleanup Program Manager, 208 West Third Street, Suite 101, Williamsport, PA 17701, (717) 321-6525.

Friedman's Express—Bloomsburg Truck Terminal, City of Bloomsburg, **Columbia County**. RT Environmental Services, Inc., on behalf of their client Friedman's Express, 79 North Mountain Top Boulevard, Mountain Top, PA 18707 has submitted a final report concerning the remediation of site soil and groundwater. The final report demonstrated attainment of the Statewide health standard and was approved by the Department on September 3, 1998.

ACTIONS TAKEN UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT ENCROACHMENTS

The Department of Environmental Protection (Department) has taken the following actions on previously received Dam Safety and Encroachment permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) to the Environmental Hearing Board, 400 Market Street, Floor 2, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the

Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of the written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and sections 5 and 402 of The Clean Streams Law (35 P. S. §§ 691.5 and 691.402) and notice of final action for certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)). (*Note: Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description.*)

Availability of Technical Guidance

Technical Guidance Documents are on DEP's World Wide Web site (<http://www.dep.state.pa.us>) at the Public Participation Center. The "July 1998 Inventory" heading is the Governor's List of Non-regulatory Documents. The "Search the Inventory of Technical Guidance Documents" heading is a database of the Inventory. The "Final Documents" heading is the link to a menu of the various DEP bureaus and from there to each bureau's final technical guidance documents. The "Draft Technical Guidance" heading is the link to DEP's draft technical guidance documents.

DEP will continue to revise its documents, as necessary, throughout 1998.

Ordering Paper Copies of DEP Technical Guidance

Persons can order a bound paper copy of the latest Inventory or an unbound paper copy of any of the final documents listed on the Inventory by calling DEP at (717) 783-8727.

In addition, bound copies of some of DEP's documents are available as DEP publications. Persons should check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Here is the current list of recent changes. Persons who have any questions or comments about a particular document should call the contact person whose name and phone number is listed with each document. Persons who have questions or comments in general should call Joe Sieber at (717) 783-8727.

Watershed Restoration and Assistance Program Grants Application; Instructions Available and Proposals Accepted

The Department of Environmental Protection (Department) announces that application instructions for the 1998 Watershed Restoration and Assistance Program (WRAP) Grants are available and proposals are being accepted through October 30, 1998.

WRAP grants provide incentives and support to communities that develop and undertake small-scale watershed restoration and protection measures, including projects which improve and protect water quality and fix impairment caused by non-point pollution sources. The improvement plans and projects will be locally generated and voluntarily implemented. The funds will be granted directly to local watershed organizations, local governments and conservation districts.

This is primarily a reimbursement program, however, the Department may authorize an initial payment to nonprofit entities who demonstrate the need. Matching funds are not necessarily required. Applications will be accepted in three categories according to the funding requested; from \$100 to \$2,500, from \$2,501 to \$10,000, or from \$10,001 to \$50,000. Applicants for these grants should be a group of people with an interest in a particular watershed which must be wholly or partly contained within the borders of this Commonwealth.

Applicants must be formally organized to be able to receive a grant. Eligible applicants are as follows:

- Incorporated nonprofit watershed associations and conservation organizations.
- Local governments (counties, townships, towns, cities, boroughs, planning commissions, utility authorities or other units of local government).
- Conservation districts.

Other interested parties may form partnerships with an eligible applicant.

Completed applications (proposals) must be received by the Bureau of Watershed Conservation no later than October 30, 1998. Grant awards will be announced on or about December 1, 1998. Applicants having proposals approved should intend to have the project completed by June 30, 1999.

Inquiries concerning this notice or requests for an application instruction packet should be directed to the Department of Environmental Protection, Watershed Restoration and Assistance Program Grants, P. O. Box 8555, Harrisburg, PA 17105-8555, (717) 787-5259. To view the WRAP Grant application instructions electronically, access the Pennsylvania homepage at www.state.pa.us or the DEP website at www.dep.state.pa.us (choose Subjects/Water Management/Watersheds).

DEPARTMENT OF HEALTH

Application of Cornwall Manor Health Center for Exception to 28 Pa. Code § 203.1

Under 28 Pa. Code § 51.33 (relating to requests for exceptions), the Department of Health (Department) hereby gives notice that Cornwall Manor Health Center has requested an exception to the requirements of 28 Pa. Code § 203.1, referencing the National Fire Protection Association's Life Safety Code, NFPA 101, which requires special locking arrangements to conform to the requirements of section 5-2.1.6. The nursing home is requesting a waiver from the requirement of the Code to

have the locked doors release automatically after 15 seconds of continuous pressure on the release device, as required. The nursing home is installing an Alpha Technology, Inc. Alpha Watch II locking system that allows normal passage to all persons through the locked doors, excepting those residents wearing transponders that lock the doors on approach. The special locking arrangement is proposed to be installed on emergency egress doors and those utilized by visitors to the facility, and certain doors utilized or controlled by staff will be equipped with J. R. Watch (silver) devices that will lock the doors at all times; however, both types of devices will be de-energized during non-emergency conditions by keypads at each door, and during emergency conditions caused by power outages or activation of the fire alarm/smoke detection systems.

The request is on file with the Department. Persons may receive a copy of the request for exception by requesting a copy from: Division of Safety Inspection, Room 922, Health & Welfare Building, Harrisburg, PA 17120, (717) 787-1911, fax (717) 787-1491, E-Mail Address: PPETRESK@HEALTH.STATE.PA.US.

Those persons who wish to comment on this exception request may do so by sending a letter by mail, e-mail or facsimile to the Division and address listed.

Comments received by the Department within 10 days after the date of publication of this notice will be reviewed by the Department before it decides whether to approve or disapprove the request for exception.

Persons with a disability who wish to obtain a copy of the request and/or provide comments to the Department and require an auxiliary aide service or other accommodation to do so, should contact Peter P. Petresky at (717) 787-1911, V/TT: (717) 783-6514 for speech and/or hearing impaired persons or the Pennsylvania AT&T Relay Service at (800) 654-5984 [TT].

Application of Hickory House Nursing Home for Exception to 28 Pa. Code § 203.1

Under 28 Pa. Code § 51.33 (relating to requests for exceptions), the Department of Health (Department) hereby gives notice that Hickory House Nursing Home has requested an exception to the requirements of 28 Pa. Code § 203.1, referencing the National Fire Protection Association's Life Safety Code, NFPA 101 (code), which requires special locking arrangements to conform to the requirements of section 5-2.1.6. The nursing home is requesting a waiver from the requirement of the code to have the locked doors release automatically after 15 seconds of continuous pressure on the release device, as required. The nursing home is installing a "code alert" locking system that allows normal passage to all persons through the locked doors, excepting those residents wearing transponders that lock the door(s) on approach. The special locking arrangement is proposed to be installed on only three doors in the facility, which will be de-energized during non-emergency conditions by keypads at each door, and during emergency conditions caused by power outages or activation of the fire alarm/smoke detection systems.

The request is on file with the Department. Persons may receive a copy of the request for exception by requesting a copy from: Division of Safety Inspection, Room 922 Health & Welfare Building, Harrisburg, PA 17120, Telephone (717) 787-1911, Fax (717) 787-1491, E-Mail Address: PPETRESK@HEALTH.STATE.PA.US.

Those persons who wish to comment on this exception request may do so by sending a letter by mail, e-mail or facsimile to the Division and address listed within this notice.

Comments received by the Department within 10 days after the date of publication of this notice will be reviewed by the Department before it decides whether to approve or disapprove the request for exception.

DEPARTMENT OF TRANSPORTATION

Finding

Bucks County

Pursuant to the provisions of 71 P. S. Section 2002(b), the Secretary of Transportation makes the following written finding:

The Department of Transportation plans to construct 14.2 Kilometers (8.9 miles) of four lane limited access highway on new alignment from US 202 south of PA 63 (in Upper and Lower Gwynedd Townships between Upper State Road and Stump Road) to connect with the existing PA 611 bypass and US 202 bypass (in Doylestown Town-

ship); along with improving the capacity and operational efficiency of seven related off-line intersections. Bicycle and pedestrian accommodations in this alternative entail an independent 4.3m (14 foot) wide multi-use bike/pedestrian trail beyond and generally parallel to the north bound lanes. This project will require the acquisition of right-of-way from the Heckler Farmstead, Henry Farmstead, and the McHenry Farmstead, which have all been determined eligible for listing on the National Register of Historic Places. The effect of this project on the Heckler Farmstead, Henry Farmstead, and McHenry Farmstead will be mitigated by the mitigation measures outlined in the Record of Decision and the Final Environmental Impact Statement/ Section 4(f) Evaluation Report that were prepared for this project.

I have considered the environmental, economic, social and other effects of the proposed project as enumerated in Section 2002 of the Administrative Code, and have concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize such effects.

No adverse environmental effect is likely to result from the construction of this section of highway.

Secretary

Finding

Cambria County

Pursuant to the provisions of 71 P. S. Section 2002(b), the Secretary of Transportation makes the following written finding:

The Department of Transportation plans to replace the existing Johns Street Bridge which carries S. R. 3023 (Johns Street) over the Little Conemaugh River in the City of Johnstown, Cambria County. The existing Johns Street Bridge has been determined eligible for listing on the National Register of Historic Places. The effect of this project on the Johns Street Bridge will be mitigated by the mitigation measures outlined in the Categorical Exclusion Evaluation/Section 2002 Evaluation that was prepared for the project.

I have considered the environmental, economic, social, and other effects of the proposed project as enumerated in Section 2002 of the Administrative Code, and have concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize such effect.

No adverse environmental effect is likely to result from the replacement of this bridge.

Finding

Clinton County

Pursuant to the provisions of 71 P. S. Section 2002(b), the Secretary of Transportation makes the following written finding:

The Department of Transportation plans to replace the existing Mackeyville Bridge, which carries S. R. 2004 (Maple Avenue) over Fishing Creek in the Village of Mackeyville and Lamar Township, Clinton County. The existing Mackeyville Bridge is a contributing element in the National Register eligible Mackeyville Historic District, and the project will require the acquisition of 0.04 hectares (0.099 acres) from the Mackeyville Historic District. The effect of this project on the Mackeyville Historic District will be mitigated by the mitigation measures outlined in the Categorical Exclusion Evaluation/Section 4(f) Evaluation that was prepared for this project. The Section 4(f) Evaluation meets the same requirements as Section 2002 of Pennsylvania Act 120.

I have considered the environmental, economic, social, and other effects of the proposed project as enumerated in Section 2002 of the Administrative Code, and have concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize such effect.

No adverse environmental effect is likely to result from the replacement of this bridge.

Notice to Contractors/Engineers

The Department plans to construct an 1,869.5 ft. steel deck truss, including approach spans over the Conrail Railroad and Lehigh River in Northampton County as part of the S. R. 33 Extension Section 001. The cost of the structure is estimated at a cost range of \$20-\$30 million. The contract anticipated bid opening date is March 1999 subject to FHWA Authorization. The Department is permitting a contractor designed concrete alternate bridge structure. Due to the cost and complexity of the bridge design and construction, the Department is making available preliminary design information.

On request to PennDOT District 5-0 Bridge Unit, 1713 Lehigh Street, Allentown, Pennsylvania 18103-4727, (610) 798-4142, bidders may secure copies of the Type Size and Location Report, Foundation Recommendation Report and preliminary unofficial version of the Alternate Bridge Special Provision Part B. The cost for a single copy of this information is \$100.00. Remittance for the Type Size and Location Report, Foundation Recommendation Report and preliminary unofficial version of the Alternate Bridge

Special Provision Part B are to be made payable to the Pennsylvania Department of Transportation and must accompany your request. The information supplied by the Department or its authorized agents is of a preliminary nature and has been developed for the exclusive use of the Department to aid in the project design. Do not consider any of the data supplied or made available to you by the Department or its authorized agent as positive, representations of any of the conditions existing in the field. This information is not a part of the plans, proposal, or contract and is not to be considered a basis for computation of the unit prices used for bidding purposes. No claims will be considered based on any information in Type Size and Location Report, Foundation Recommendation Report and preliminary unofficial version of the Alternate Bridge Special Provision Part B. No refund for Type Size and Location Report, Foundation Recommendation Report and preliminary unofficial version of the Alternate Bridge Special Provision Part B will be made by the Department.

Retention of Engineering Firms

Franklin County Project Reference No. 08430AG2244

The Department of Transportation will retain a consultant firm to provide right-of-way acquisition assistance services for S. R. 0030, Section 016. The project is located in Franklin County, in the Borough of Chambersburg and in Guilford Township on U.S. Route 30 from Chambersburg Borough to Fayetteville, from Segment 0410 offset 1410 to Segment 0490 offset 0600, an approximate length of 3.2 miles. This portion of U.S. 30 is known locally as Lincoln Way East. The project consists of approximately 107 claims including 72 commercial, 29 residential and 6 relocations.

The selected firm will be required to provide the professional right-of-way acquisition assistance services necessary to clear the right-of-way for this project. The required services include, but are not limited to, title searches, negotiations, relocation assistance, declaration of taking, title settlement services, property management and coordination with appraisers selected by the Department. The firm should be large enough and have sufficient personnel to perform these tasks.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating this agreement based on the Department's evaluation of the letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The selected firm will be required to coordinate all work through the Department's designated representative. All acquisition will be accomplished in compliance with Federal and State regulations, including but not limited to the Pennsylvania Eminent Domain Code, the State Highway Law and Pennsylvania Real Estate Law, the Housing Replacement Authorization Act, and the Uniform Relocation Assistance and Real Property Acquisition Policies Act.

The majority of the work and services will be required within eighteen (18) months from the notice to proceed.

The consultant will be required to provide on-site office space. Lodging for individuals assigned to this project for sixty (60) days or more will be limited to \$790 per month. The allowance could include living space rental, furnishings, basic telephone service and utilities. No subsistence or to/from job mileage will be reimbursed for these individuals. Normal Department mileage/subsistence/lodging rates will apply to individuals assigned to this project for less than sixty (60) days.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Staff experience on similar assignments.
- c. Past performance on similar assignments.
- d. Familiarity with Pennsylvania right-of-way regulations.
- e. Number of staff/titles available to work on project.
- f. Other factors necessary to provide the required services.

The District's copy of the Letter of Interest and required forms (see general requirements and information section) shall be sent to: Mr. Barry G. Hoffman, P.E., District Engineer, District 8-0, 2140 Herr Street, Harrisburg, PA 17103-1699.

Any technical questions concerning the requirements for this project should be directed to: Mr. Marlin N. Brownawell, District 8-0, at (717) 787-4861.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

Dauphin County
Project Reference No. 08430AG2245

The Department of Transportation will retain an engineering firm to perform preliminary engineering, environmental studies, and final design, for S. R. 3020, Section 001, Union Deposit Road in Lower Paxton Township, Dauphin County. This project includes realignment of an intersection, replacement of an existing structure and safety improvements to approximately 2.3 miles of S. R. 3020 from S. R. 3017 (Rutherford Road) to S. R. 2099 (Nye's Road). The estimated cost of construction is \$1.4 million.

The required services will include: field surveys; plotting of topography and cross-sections; pavement and drainage design; alignment studies; field views; safety review, Step 9 and value engineering submissions and meetings; traffic control plans; foundation design; structure design; erosion and sedimentation pollution control plans and narrative; utility and property involvement investigations; right-of-way plans, including preparations of viewers plans; preparation of environmental studies and documentation; interagency permits; wetland mitigation plans; construction plans, specifications and estimates; a project management plan; quality control plan; and transfer of electronic files.

The following factors, listed in order of importance will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the letter of interest in accordance with the "General Requirements and Information" section.
- b. Use of micro-station CADD.
- c. Specialized experience with Department criteria and technical competence of firm.
- d. Development of a Quality Control Plan for this particular project to be submitted to the Department for approval.
- e. Other factors, if any, specific to the project.

The District will announce the three (3) firms that have been shortlisted for further consideration at an open public meeting to be held at Engineering District 8-0, 2140 Herr Street, Harrisburg, PA 17103-1699, at 1:30 P.M. on November 10, 1998, Conference Room "A". Please specify a contact person, phone number and address in your letter of interest.

The goal for Disadvantaged Business Enterprise (DBE) participation in this Agreement shall be fifteen (15%) percent of the total contract price. Additional information concerning DBE participation in this Agreement is contained in the General Requirements and Information section after the advertised project(s).

The District's copy of the Letter of Interest and required forms (see general requirements and information section) shall be sent to: Mr. Barry G. Hoffman, P.E., District Engineer, District 8-0, 2140 Herr Street, Harrisburg, PA 17103-1699, Attention: Michael C. Lapano, Project Manager.

Any technical questions concerning the requirements for this project should be directed to: Mr. Michael Lapano, District 8-0, at (717) 787-7482.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

Erie County
Project Reference No. 08430AG2246

The Department of Transportation will retain an engineering firm to perform final design and provide consultation during construction for S. R. 4034, Section A90 in Harborcreek Township and the City of Erie, Erie County. This project involves the construction of a new four lane, controlled access highway between Interstate 90 and McClelland Avenue a distance of approximately 4,800m. Also included will be the relocation and construction of several existing roads in the project area affected by the new highway. This project is a part of the East Side Access corridor for which the Final Environmental Impact Statement (FEIS) was approved on March 3, 1997. The estimated project construction cost is \$23.0 million.

This section of the East Side Access corridor will span Four-mile Creek and Wintergreen Gorge. The design of the structure to span these natural features will not be a part of this assignment; however, the selected consultant will be required to effectively coordinate and share information as required with the structural designer. The Wintergreen Gorge structure design assignment will be advertised separately.

The selected firm will be required to provide the following engineering and design services for final design; field surveys; right-of-way plan preparation; roadway design; traffic studies; traffic signal design; erosion and sedimentation pollution control plan preparation; wetland replacement sites; pavement marking and signing plan preparation; utility coordination; PUC and railroad coordination.

dination; traffic control plan preparation; coordination with environmental review agencies, the City of Erie, Harborcreek Township, Penn State Erie-The Behrend Campus, the area public and the Department; soils and geological investigations; noise studies and analysis and preparation of final construction drawings, specifications and cost estimates. All final designs must be in accordance with the mitigation summary that is a part of the FEIS.

Consultation during construction will consist of alternate design review and shop drawing review.

Firms that are under contract, or are being considered, to provide engineering services to a land developer or local municipality for a site that is along the project corridor will not be considered for this assignment. Firms are to state in their letter of interest that they are not under contract nor are being considered for a contract with a land developer or local municipality with interests in the project area.

Letters of interest will be evaluated at the Engineering District 1-0 office with emphasis on the following factors:

- a. Ability to package and present the Letter of Interest in accordance with the "General Requirements and Information" section.
- b. Proven ability to meet project schedules and control costs.
- c. Experience and competence of project manager and key personnel.
- d. Innovations and flexibility in thinking, particularly with respect to the needs of the local community.
- e. Past performance record on similar projects.
- f. Past performance record of listed subconsultants.
- g. Availability of listed staff.
- h. Current workload.

In addition to the limits stated in the General Requirements and Information section following the advertised project(s), the following requirements shall apply to Letters of Interest submitted for this project reference number:

1. Standard Form 255, Item No. 7 - No more than ten (10) total pages of resumes, one-sided.
2. Standard Form 255, Item No. 8 - No more than eight (8) project descriptions are to be included.

The goal for Disadvantaged Business Enterprise (DBE) participation in this Agreement shall be fifteen (15%) percent of the total contract price. Additional information concerning DBE participation in this Agreement is contained in the General Requirements and Information section after the advertised project(s).

The District's copy of the Letter of Interest and required forms (see general requirements and information section) shall be sent to: Mr. John L. Baker, P.E., District Engineer, Engineering District 1-0, 1140 Liberty Street, Franklin, PA 16323, Attention: Mr. Michael L. McMullen, P.E.

Engineering District 1-0 will announce the firms that have been shortlisted at an open, public meeting to be held in the District office. All firms that have submitted a letter of interest will be notified of the time and date. Specify two (2) contact persons in the letter of interest.

Any technical questions concerning the requirements for this project should be directed to: Mr. William G.

Petit, P.E., District 1-0, at (814) 437-4270 or Mr. Michael L. McMullen, P.E., District 1-0, at (814) 437-4331.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

**Union County
Project Reference No. 08430AG2247**

The Department of Transportation will retain an engineering firm to perform preliminary engineering, environmental studies, final design and engineering services during construction for S. R. 0204, Section 004, the replacement of the bridge over Penns Creek and roadway approaches, in the Village of New Berlin, in Union County.

The project consists of the replacement of the existing 4-span open steel deck I-beam bridge at an existing length of 242 feet, with a new multi-span bridge structure. Construction will also include any needed approach work. Estimated construction cost is \$2.7 million.

The required services for this project will include field surveys; environmental studies to include wetlands, mitigation, groundwater resources investigation, determination of effects report, Par/Isa, CEE, agency coordination, archeology, historic survey and agricultural lands; utilities; horizontal and vertical geometry; geological studies; core borings; type size and location; drainage; preliminary field view; safety review; line, grade and typical section; erosion and sedimentation control plan; hydrologic and hydraulic report; waterway encroachment permit; preliminary right-of-way plan; maintenance and protection of traffic during construction plan; public involvement; Step 9; foundation design; and construction plans, specifications and estimate. Work also included will be construction consultation and shop drawing review. The project will be performed in metric units.

The Department will establish an order of ranking of a minimum of three (3) firms. The following factors, listed in order of importance, will be considered during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the letter of interest in accordance with the "General Requirements and Information" section.
- b. How the required work tasks will be accomplished and how the required services will be performed.
- c. Specialized experience, previous experience, technical competence of individuals who constitute the firm. Of particular importance are the key people assigned to the project and their ability to provide innovative solutions to complex problems.
- d. Past record of performance with respect to cost control, work quality, ability to meet schedules and ability to work with accelerated schedules.
- e. Current workload and capacity of firm to perform work.
- f. Listing of subconsultants.
- g. Location of office to perform work.

The District will announce the firms that have been shortlisted at an open public meeting scheduled for November 13, 1998 at 10:00 A.M. at Engineering District 3-0, 715 Jordan Avenue, Montoursville, PA 17754. All candidates that submitted a letter of interest will be notified if the date is changed. Specify a contact person in the letter of interest.

The goal for Disadvantaged Business Enterprise (DBE) participation in this Agreement shall be fifteen (15%) percent of the total contract price. Additional information concerning DBE participation in this Agreement is contained in the General Requirements and Information section after the advertised project(s).

The District's copy of the Letter of Interest and required forms (see general requirements and information section) shall be sent to: Mr. Paul E. Heise, P.E., District Engineer, District 3-0, 715 Jordan Avenue, Montoursville, PA 17754.

Any technical questions concerning the requirements for this project should be directed to: Mr. Wayne F. Frey, P.E., District 3-0, at (717) 368-4328.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

General Requirements and Information

Firms interested in providing the above work and services are invited to submit two copies of a Letter of Interest and required information for each Project Reference Number for which the applicant wishes to be considered.

The first copy of the Letter of Interest and required information must be submitted to: Mr. Charles W. Allwein, P.E., Chief, Consultant Selection Committee, 7th Floor, Forum Place, 555 Walnut Street, P. O. Box 3060, Harrisburg, Pennsylvania 17105-3060. Note: The Zip Code for express Mailing is 17101-1900.

The Letter of Interest and required information must be received within twenty (20) calendar days of this Notice. The Deadline for receipt of a Letter of Interest at the above address is 4:30 P.M. prevailing time of the twentieth day.

The second copy of the letter of interest and required information must be submitted to the appropriate District Engineer/Administrator or the Bureau Director as indicated in the individual advertisement. This copy must be postmarked or delivered on or before the deadline indicated above.

If an individual, firm, or corporation not authorized to engage in the practice of engineering desires to submit a Letter of Interest, said individual, firm, or corporation may do so as part of a Joint Venture with an individual, firm, or corporate which is permitted under the state law to engage in the practice of engineering.

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation

Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The Act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act, WBEs or combinations thereof).

Proposing DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Each Letter of Interest must include the following information and the information *must be* packaged and presented in the following order:

1. Transmittal Letter (Maximum of two (2) 8 1/2" x 11" typed pages, one side)

The subject heading of the transmittal letter must include the project reference number for which the applicant wishes to be considered, the firm's legal name, fictitious name (if applicable), and the firm's federal identification number. If the project advertisement indicated the Department will retain an engineering firm for the project, the applicant must indicate in the body of their transmittal letter the names and Professional Engineer License Number of individuals who are directing heads or employees of the firm who have responsible charge of the firm's engineering activities, and whose names and seals shall be stamped on all plans, specifications, plats, and reports issued by the firm.

2. Project Organizational Chart (one page, one side, maximum size 11" x 17")

This Chart must show key staff from the prime and each subconsultant and their area of responsibility.

3. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project" (one Form 255 for the project team)

The Standard Form 255 must be signed, dated, and filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project.

Under Item 4 of this form, Column A must specify only the number of subconsultant personnel and Column B must specify only the number of prime consultant personnel to be assigned to work on this project reference number. Do *not* include the total personnel for either the subconsultant or prime consultant under Item 4 unless the total personnel are necessary to provide the required work and services.

The prime and each subconsultant may include no more than one page each for Items 10 and 11.

If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be currently certified by the Department of Transportation, and the name of the DBE and the work to be performed must be indicated in Item No. 6. If a Woman Business Enterprise

(WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

4. Standard Form 254, "Architect-Engineer for Related Services Questionnaire"

A Standard Form 254, not more than one (1) year old as of the date of this advertisement, must accompany each Letter of Interest for the firm, each party to a Joint Venture, and for each subconsultant the firm or Joint Venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor, or a Company, unless an acceptable Standard Form 254 for the prime and *each* subconsultant/subcontractor is on file in both the Bureau of Design and the Engineering District Office or Central Office Bureau identified in the individual project advertisement.

If the Standard Form 254 is not submitted with the Letter of Interest, the transmittal letter shall indicate the dates that the Standard Forms 254 were submitted to the Bureau of Design and appropriate Engineering District/Central Office Bureau.

These Forms must be assembled with the prime's form first, followed by the form for each subconsultant in the same order as the subconsultants appear in Item 6 of Form 255.

5. Workload Projection Graph (Not required for Construction Inspection Services)

Separate Workload Projection Graphs for the prime and each subconsultant shown in Item 6 of the Form 255 must be included and must indicate the firm's current and anticipated workload compared to the anticipated capacity available for the next two-year time frame. The Workload Projection Graphs must be submitted for the office(s) where the work would be performed and must only include the personnel classifications required for providing the advertised services and work.

6. Authorization Letters (For Construction Inspections Services, if required)

If the advertisement requires a letter signed by individuals giving their approval to use their name in the Letter of Interest, the letters from proposed prime employees must be first, followed by subconsultant employees, in the same order as shown in Item 6 of Form 255.

7. Registration To Do Business

Firms with out-of-state headquarters or corporations not incorporated in Pennsylvania must include, with each Letter of Interest, a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

8. Overhead Rates (one page)

A single page summary must indicate the latest audited overhead rate developed in accordance with Federal Acquisition Regulations (FAR) for the prime consultant and each subconsultant. If a FAR rate is not available, the latest rate available from a Certified Public Accountant must be indicated. New firms should indicate how long the firm has been in existence and when an audited overhead rate would be available.

9. Additional Information

Additional information, not to exceed ten (10) one sided 8 1/2" x 11" pages or five (5) double sided 8 1/2" x 11" pages may be included at the discretion of the submitting firm.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services.

ENVIRONMENTAL HEARING BOARD

Montenay Montgomery Limited Partnership v. DEP; EHB Doc. No. 97-180-C

The Commonwealth of Pennsylvania, Department of Environmental Protection (Department) and Montenay Montgomery Limited Partnership (MMLP) have agreed to a settlement of the above matter. The Commonwealth had issued a Plan Approval, PA-46-0010, on July 29, 1997, authorizing MMLP to process Form S waste types at its municipal waste incinerator located in Plymouth Township, Montgomery County, PA, (facility) and to install selective noncatalytic reduction equipment. MMLP filed a timely appeal of the Plan Approval.

The parties have agreed to a settlement, the major provisions of which include: MMLP may operate its facility in compliance with the temperature limitation at the inlet to the baghouse set forth in 40 CFR 60.34b, which temperature may exceed 300 degrees Fahrenheit; MMLP shall install a carbon injection system or an equivalent mercury control system or technique; and MMLP shall pay a civil penalty for past violations.

Copies of the full Consent Order and Adjudication are in the hands of: Eli Brill, Dechert Price & Rhoads, 4000 Bell Atlantic Tower, 1717 Arch Street, Philadelphia, PA 19103-2793; and Douglas G. White, Assistant Counsel, Department of Environmental Protection, Office of Chief Counsel—Southeast Region, Lee Park, 555 E. North Lane, Suite 6015, Conshohocken, PA 19428-2233, (610) 632-6300 and at the office of the Environmental Hearing Board and may be reviewed by an interested party on request during normal business hours.

A person believing himself aggrieved by the above settlement may have the right of an appeal to the Environmental Hearing Board, 2nd Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457.

Appeals must be filed within 20 days of this publication.

The Environmental Hearing Board is empowered to approve this settlement which becomes final if no objection is timely made.

FISH AND BOAT COMMISSION

Domestic Water Supply Reservoirs

The Fish and Boat Commission (Commission) has entered into agreements with certain owners of domestic

water supply reservoirs. The Commission's regulation at 58 Pa. Code § 53.13 (relating to domestic water supply reservoirs) provides that except as otherwise provided therein, domestic water supply reservoirs subject to an agreement between the owners thereof and the Commission are subject to the Commission's property regulations and other general fishing and boating regulations. This regulation further provides that when the agreement between the Commission and the owners of a domestic water supply reservoir specifies additional, alternative or different restrictions or conditions and the Executive Director, on behalf of the Commission, approves the conditions or restrictions for posting at the site and enforcement, the posted conditions or restrictions are fully enforceable when posted at the site. It is unlawful to violate conditions, restrictions or prohibitions posted by the Commission at the site of a domestic water supply reservoir with which the Commission has an agreement.

Notice is hereby given that the following specific restrictions are in effect and posted at the site.

Inflatable boats must exceed 7 feet in length and be constructed of durable corded fabric reinforced with cloth and coated and have at least two separate buoyance/air chambers, excluding inflatable flooring or bottom.

PETER A. COLANGELO,
Executive Director

FISH AND BOAT COMMISSION

Special Designations

The Executive Director, acting under the authority of 58 Pa. Code § 65.21 (relating to waters limited to specific purposes—exclusive use areas), designates a section of Little Muddy Run, Clearfield County, from the spillway to the Janesville Dam to Township Route 919, a distance of approximately 300 feet, as being for the exclusive use of children 12 and under. The Executive Director also designates a section of Pine Creek in Valley View, Schuylkill County, 250 yards from the Gap Street Bridge west to the waterfalls below the nursery for the exclusive use of children 12 and under and special populations. This stream section previously had been designated as being for the exclusive use of children 12 and under only.

Notice is further given that the Executive Director, acting under the authority of 58 Pa. Code § 67.1 (relating to nursery waters and exhibition areas), hereby designates a section of the East Branch of the Clarion River where the East and West Branch meet to form the Clarion upstream to the Venners Island Bridge (approximately 1/4 mile) as a nursery water to which the penalties of section 2106 of the Fish and Boat Code (30 Pa.C.S. § 2206) (relating to fishing in hatchery or nursery waters), applies.

All of these designations shall be effective when the waters are so posted after publication of this notice in the *Pennsylvania Bulletin*.

INDEPENDENT REGULATORY REVIEW COMMISSION

Actions Taken by the Commission

The Independent Regulatory Review Commission met publicly at 11 a.m., Thursday, September 10, 1998, and took the following actions:

Regulations Approved:

Pennsylvania Liquor Control Board #54-53: Promotion (amends 40 Pa. Code §§ 13.1 and 13.51)

Environmental Quality Board #7-329: Radiological Health (amends 25 Pa. Code Chapters 216, 218, 221, 223, 227 and 228)

Department of Community and Economic Development #4-68: Neighborhood Assistance Program (amends 12 Pa. Code Chapter 135)

Department of Labor & Industry #12-49: Workers' Compensation Self-Insurance (amends 34 Pa. Code Chapter 125)

Department of Health #10-152: Drugs Which May Be Used By Qualified Optometrists (amends 28 Pa. Code Chapter 6)

Regulations deemed approved under Section 5 (g) of the Regulatory Review Act—Effective September 10, 1998.

Pennsylvania Liquor Control Board #54-54: Wine in Kegs; Sale by Limited Winery Licensees (amends 40 Pa. Code §§ 11.104 and 11.111)

Commissioners Present: Alvin C. Bush, Vice Chairperson; Arthur Coccodrilli; Robert J. Harbison, III; John F. Mizner

Public Meeting held
September 10, 1998

Pennsylvania Liquor Control Board—Promotion; Regulation No. 54-53

Order

On January 16, 1998, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Liquor Control Board (Board). This rulemaking amends 40 Pa. Code §§ 13.1 and 13.51. The authority for this regulation is found in section 207(i) of the Pennsylvania Liquor Code (47 P. S. § 2-207(i)). The proposed regulation was published in the January 31, 1998 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on August 7, 1998.

The regulation permits Pennsylvania manufacturers and licensees to accept things of value that fall under the definition of "routine business entertainment." "Routine business entertainment" includes meals, beverages and tickets or passes to concerts, theaters, arts, sporting or charitable events. The value of routine business entertainment is limited to \$800 per year per recipient. The donor of routine business entertainment is required to accompany the recipient.

We have reviewed this regulation and find it to be in the public interest. The regulation allows flexibility for manufacturers and licensees in providing routine business entertainment while also guarding against undue influence through the implementation of reasonable restrictions.

Therefore, It Is Ordered That:

1. Regulation No. 54-53 from the Pennsylvania Liquor Control Board, as submitted to the Commission on August 7, 1998, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

Commissioners Present: Alvin C. Bush, Vice Chairperson; Arthur Coccodrilli; Robert J. Harbison, III; John F. Mizner

Public Meeting held
September 10, 1998

Environmental Quality Board—Radiological Health; Regulation No. 7-329

Order

On October 16, 1997, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Quality Board (EQB). This rulemaking amends 25 Pa. Code Chapters 216, 218, 221, 223, 227 and 228. The authority for this regulation is the Radiation Protection Act (35 P. S. § 7110.101, et seq.) and Section 1920-A of The Administrative Code of 1929 (71 P. S. § 510-20). The proposed regulation was pub-

lished in the November 1, 1997 *Pennsylvania Bulletin* with a 60-day public comment period. The final-form regulation was submitted to the Commission on August 11, 1998.

The amendments update existing regulations by increasing protection to workers and patients for medical diagnosis and treatment applications, including reduction of unnecessary radiation exposure. The regulation also incorporates technological advances that have occurred since the existing regulations were drafted in the early 1980's.

We have reviewed this regulation and find it to be in the public interest. By addressing health and safety concerns, the updated regulation will ensure a reduction in unnecessary radiation exposure for both patients and the workers.

Therefore, It Is Ordered That:

1. Regulation No. 7-329 from the Environmental Quality Board, as submitted to the Commission on August 11, 1998, is approved; and
2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

Commissioners Present: Alvin C. Bush, Vice Chairperson; Arthur Coccodrilli; Robert J. Harbison, III; John F. Mizner

Public Meeting held
September 10, 1998

*Department of Community and Economic Development
Neighborhood Assistance Program; Regulation No. 4-68*

Order

On August 12, 1998, the Independent Regulatory Review Commission (Commission) received this regulation from the Department of Community and Economic Development (Department). This rulemaking amends 12 Pa. Code Chapter 135. The authority for this regulation is contained in section 8905A of the Neighborhood Assistance Act (act) (72 P. S. § 8905-A). Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*.

Under the act, the Department is required to promulgate regulations, in the first month of the fiscal year, which establish special program priorities. With this final-omitted rulemaking, the Department is simply changing the fiscal year from 1996-97 to 1997-98 in the sections of its regulations relating to the special program priorities. The special program priorities remain unchanged.

We have reviewed this regulation and find it to be in the public interest. The regulation is necessary to reflect the special program priorities in the Neighborhood Assistance Act for fiscal year 1997-98.

Therefore, It Is Ordered That:

1. Regulation No. 4-68 from the Department of Community and Economic Development, as submitted to the Commission on August 12, 1998, is approved; and
2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

Department of Labor and Industry—Workers' Compensation Self-Insurance; Regulation No. 12-49

Order

On November 7, 1997, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Labor and Industry (Department). This rulemaking amends 34 Pa. Code Chapter 125. The authority for this regulation is section 435 of the Workers' Compensation Act (77 P. S. § 991). The proposed regulation was published in the November 22, 1997 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on August 18, 1998.

The proposal includes amendments to conform with Act 57 of 1996 (Act 57). Those changes include: expanding the 5% Safety Committee discount from 1 year to 5 years; revising security requirements for letters of credits from banks; excluding political subdivisions and the Commonwealth from security requirements; and authorizing a single board to oversee the operation of several funds. Amendments unrelated to Act 57 revise requirements for group self-insurance funds to allow contributions based on each fund's loss cost multiplier instead of the State Workers' Insurance Fund rate. Amendments which impact individual self-insured employers include revisions in security requirements and discounting of the required amount in specific cases.

We have reviewed this regulation and find it to be in the public interest. The Department's regulations will now be consistent with Act 57. Smaller banks may benefit from the rating changes for letters of credit. Revisions to security requirements ensure that self-insured employers vulnerable to dramatic increases have posted additional security. Self-insurers in a strong financial condition may benefit from discounting provisions.

Therefore, It Is Ordered That:

1. Regulation No. 12-49 from the Department of Labor and Industry, as submitted to the Commission on August 18, 1998, is approved; and
2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

*Department of Health—Drugs Which May Be Used By
Qualified Optometrists; Regulation No. 10-152*

Order

On January 21, 1998, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Health. This rulemaking amends 28 Pa. Code Chapter 6. The authority for this regulation is section 2 of the Optometry Practice and Licensure Act (63 P. S. § 244.2). The proposed regulation was published in the January 31, 1998 *Pennsylvania*

Bulletin with a 30-day public comment period. The final-form regulation was submitted to the Commission on August 10, 1998.

The proposal expands the list of drugs which qualified optometrists may administer and prescribe to conform to Act 130 of 1996 (Act 130). Act 130 changed the definition of the "practice of optometry" to allow certified optometrists to administer and prescribe certain legend and nonlegend drugs. Act 130 authorized the Secretary of Health to approve drugs for treatment of specific areas of the eye.

The regulation also contains activities prohibited in Act 130. Prohibitions include: treatment beyond 6 weeks without consultation with a physician; prescription for some systemic conditions; treatment for glaucoma; and administration or prescription of a Schedule I or II controlled substance.

Senator Jeffrey E. Piccola, prime sponsor of Act 130, submitted a letter in support of the regulation.

We have reviewed this regulation and find it to be in the public interest. The proposal is consistent with the provisions of Act 130. In some instances, patients will have flexibility in choosing a provider for initial eye care. Depending on the choices made by patients, there may be an impact on the practice of ophthalmologists as well as optometrists.

Therefore, It Is Ordered That:

1. Regulation No. 10-152 from the Department of Health, as submitted to the Commission on August 10, 1998, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

Pennsylvania Liquor Control Board—Wine in Kegs; Sale by Limited Winery Licensees; Regulation No. 54-54

Order

On May 11, 1998, the Independent Regulatory Review Commission (Commission) received the proposed version of this regulation from the Pennsylvania Liquor Control Board (Board). This rulemaking would amend 40 Pa. Code §§ 11.104 and 11.111 to allow the Board and limited wineries to sell sparkling grape wine in glass containers larger than 5 liters. The authority for this regulation is 47 P. S. § 2-207(i). The proposed version of this regulation was published in the June 6, 1998 *Pennsylvania Bulletin* with a 30-day public comment period.

The final-form version of this regulation was submitted to the Commission on August 20, 1998. The final-form version of this regulation contains no changes from the initially proposed version. We did not file any comments on the proposed version of this regulation. Furthermore, we did not receive any negative recommendations on the final-form version of this regulation from the House Liquor Control Committee or the Senate Law and Justice Committee.

Therefore:

The Commission will notify the Legislative Reference Bureau that Regulation No. 54-54 from the Pennsylvania

Liquor Control Board, as submitted to the Commission on August 20, 1998, was deemed approved under section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) on September 10, 1998.

Review Procedure Hearings; Cancellation or Refusal of Insurance

The following insured has requested a hearing, as authorized by section 9(a) of the act of June 5, 1968 (P. L. 140, No. 78) (40 P. S. § 1008.9(a)) in connection with his company's termination of the insured's automobile policies. All administrative hearings are held in the Insurance Department Offices in Harrisburg, PA. Failure by the appellant to appear at the scheduled hearing may result in dismissal with prejudice.

The hearing will be held in the Capitol Associates Building, 901 North Seventh Street, Second Floor Hearing Room, Harrisburg, PA 17102.

Appeal of Joseph R. Sarnitsky; file no. 98-193-04463; Pennsylvania National Insurance Co.; doc. no. P98-08-009; October 14, 1998, at 10 a.m.

Parties may appear with or without counsel and offer relevant testimony or evidence to support their respective positions. The representative of the company must bring relevant claims files, documents, photographs, drawings, witnesses and the like necessary to substantiate the case. The insured must bring any evidence which the insured may want to offer at the hearing. The hearing will be held in accordance with the requirements of sections 9 and 10 of the act (40 P. S. §§ 1008.9 and 1008.10) and 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure).

After the hearing and receipt of the stenographic transcript, the Insurance Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The order of the Commissioner is subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend the above-referenced administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing should contact Tracey Pontius, Agency Coordinator at (717) 787-4298.

Pennsylvania Public Utility Commission, Bureau of Transportation and Safety v. D & T Limousine Service, Inc.; Doc. No. A-00109546C98 F.3

Complaint

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities within the Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Transportation and Safety and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. That D & T Limousine Service, Inc., respondent, maintains its principal place of business at 12720 Bellaire Avenue, Cleveland, Ohio 44135.
2. That respondent was issued a certificate of public convenience by this Commission on September 21, 1994, at Application Docket No. A-00109546.
3. That respondent, on April 10, 1998, at approximately 11:00 a.m., at Route 120 Chapman Township, Clinton County, Pennsylvania, permitted a certain 1995 Dodge truck bearing Ohio License No. QTJ372, Vehicle Identification No. B4HB15X0SK532114, to be operated.
4. That the vehicle described in Paragraph 3 of this complaint was inspected by Enforcement Officer Leonard J. Coval, a duly authorized officer of this Commission, on the date and at the place specified in Paragraph 3 and the following violations were disclosed:
 - (a) Vehicle failed to display a currently valid and legible certificate of inspection.
 - (b) Horn inoperative.
5. That respondent, on April 10, 1998, at approximately 11:30 a.m., at Route 120, Chapman Township, Clinton County, Pennsylvania, permitted a certain 1995 Dodge truck bearing Ohio License No. SOC586, Vehicle Identification No. 2B4HB15X5SK578506, to be operated.
6. That the vehicle described in Paragraph 5 of this complaint was inspected by Enforcement Officer Leonard

J. Coval, a duly authorized officer of this Commission, on the date and at the place specified in Paragraph 5 and the following violations were disclosed:

(a) Vehicle failed to display a currently valid and legible certificate of inspection.

(b) Odometer inoperative.

7. That respondent, by failing to have an operative horn in its vehicle while in operation, violated 52 Pa. Code § 29.402(1), 67 Pa. Code §§ 175.76, 175.80(b)(3), and 75 Pa.C.S. § 4535 and, by failing to maintain safe and reasonable facilities for the proper safety of its patrons and public, violated 66 Pa.C.S. § 1501.

8. That respondent, by displaying a certificate of inspection issued for another vehicle, violated 67 Pa. Code §§ 175.41 and 175.45 and 75 Pa.C.S. § 4703.

9. That respondent, by failing to have a properly calibrated odometer in its vehicle, violated 52 Pa. Code § 29.402(1) and 67 Pa. Code § 175.74.

Wherefore, the Bureau of Transportation and Safety Prosecutory Staff hereby requests that the Commission fine D & T Limousine Service, Inc. the sum of seven hundred dollars (\$700.00) for the illegal activity described in this complaint and order such other remedy as the Commission may deem to be appropriate.

Respectfully submitted,

George T. Mahan, Director
Bureau of Transportation and Safety
P. O. Box 3265
Harrisburg, PA 17105-3265

Verification

I, George T. Mahan, hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief and that I expect to be able to prove the same at any hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 relating to unsworn falsification to authorities.

Notice

A. You must file an answer within twenty (20) days of the date of service of this complaint. The date of service is the mailing date as indicated at the top of the Secretarial cover letter for this complaint and notice, 52 Pa. Code § 1.56(a). The answer shall raise all factual and legal arguments that you wish to claim in your defense and must include the reference number of this complaint. Your answer must be verified and the original and three (3) copies sent to:

James J. McNulty, Secretary
Pennsylvania Public Utility Commission
P. O. Box 3265
Harrisburg, PA 17105-3265

B. If you fail to answer this complaint within twenty (20) days, the Bureau of Transportation and Safety will request that the Commission issue a Secretarial Letter imposing a penalty. The penalty could include a fine, the suspension or revocation of your certificate of public convenience or other remedy.

C. You may elect not to contest this complaint by paying the fine proposed in this complaint by certified

check or money order. Payment must be made to the Pennsylvania Public Utility Commission, P. O. Box 3265, Harrisburg, PA 17105-3265. Your payment is an admission that you committed the alleged violation and an agreement to cease and desist from further violations. Upon receipt of your payment, the complaint proceeding shall be closed.

D. If you file an answer which either admits or fails to deny the allegations of the complaint, the Bureau of Transportation and Safety will request that the Commission issue a Secretarial Letter imposing a penalty (see B).

E. If you file an answer which contests the complaint, the matter will be assigned to an administrative law judge for hearing and decision. The judge is not bound by the optional fine set forth in C, above.

Solicitation of Public Comment Regarding Reporting Guidelines for Biennial Updates of Network Modernization Plans under Chapter 30 of the Public Utility Code; Doc. No. M-00930441

On August 27, 1998, the Commission adopted a motion which reopened the docket in *Re Implementation of Chapter 30 of the Public Utility Code*, Docket No. M-00930441, to receive comments from interested parties to assist in developing reporting guidelines for use by all companies required to file biennial updates of their Network Modernization Plans under section 3003(b)(6) of the Public Utility Code.

By order entered August 27, 1993, in this docket, the Commission provided guidance with respect to what information should be included in a company's Network Modernization Plan. Since this original order, and especially since enactment of Chapter 30 of the Public Utility Code, the telecommunications industry has experienced substantial technological, market and legislative changes. These changes have had a major impact on how telecommunications carriers intend to and will carry out their responsibilities to modernize their networks under Chapter 30. For example, the Federal Telecommunications Act of 1996 has impacted how incumbent local exchange carriers will meet their interconnection responsibilities and how they will offer unbundled network elements to new entrants. Similarly, in light of evolving technology, the Commission needs to examine closely how to define "broadband" availability and to determine how a company's Network Modernization Plan accelerates deployment of a universally-available, state-of-the-art, interactive, public-switched broadband telecommunications network.

Further, in previous updates to Bell Atlantic-Pennsylvania, Inc.'s Network Modernization Plans, the Commission has requested the following information: (1) detail on the location for upgrades in switches, the location for the placement of fiber access lines, and other upgrades or expansions; (2) statement of actual and projected investment to build the modified network; (3) description of network architecture; (4) projection of deployment schedule; (5) statement of progress toward

universal broadband capability as measured in percentages referenced to access lines in urban, suburban and rural categories, as well as percentages referenced to total access lines; and (6) detail on broadband deployment, including use of consistent school listings. Based again on evolving technology and market forces, the Commission feels that it must develop parameters for reporting so that it is able to fairly and consistently evaluate what is provided by each company. For example, if, in addition to the information it has sought to date, the Commission seeks reporting information which provides specificity with respect to services which are available and being subscribed to, broken down by customer class, that is, residential, business and institutional, how should that level of detail be provided?

The Commission is inviting public comment on appropriate reporting guidelines for filing biennial Network Modernization Plan updates, including but not limited to the issues set forth above. The deadline for filing initial comments is October 20, 1998. Reply comments may be filed no later than October 27, 1998. Anyone submitting comments or reply comments must file an original and four copies with the Commission's Secretary for filing at Docket No. P-00930441. Any person submitting comments or reply comments should also file a diskette containing an electronic read-only version of their comments in Microsoft Word 6.0 format, clearly identifying the party, docket number, nature of filing and contact person.

The contact persons at the Commission regarding this proceeding are Carl S. Hisiro, Assistant Counsel, Law Bureau (717) 783-2812 (legal), and James B. Strausbaugh, Bureau of Fixed Utility Services (717) 787-4700 (technical). A copy of the August 27, 1998 motion as well as the subsequent Commission order memorializing the motion may be obtained from the Office of the Secretary at (717) 787-1013.

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". A qualified small business concern is an independently owned, operated for profit, business employing 100 or fewer employes and is not a subsidiary or affiliate of a corporation otherwise not qualified.

Such penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter. The small business concern must include on every invoice submitted to the Commonwealth: "(name of vendor) is a qualified small business concern as defined at 4 Pa. Code § 2.32".

For information on the required payment date and annual interest rate, please call the Pennsylvania Department of Commerce, Small Business Action Center, 483 Forum Building, 783-5700.

GET A STEP AHEAD IN COMPETING FOR A STATE CONTRACT!

The Treasury Department's Bureau of Contracts and Public Records can help you do business with state government agencies. Our efforts focus on guiding the business community through the maze of state government offices. The bureau is, by law, the central repository for all state contracts over \$5,000. Bureau personnel can supply descriptions of contracts, names of previous bidders, pricing breakdowns and other information to help you submit a successful bid on a contract. We will direct you to the appropriate person and agency looking for your product or service to get you "A Step Ahead." Services are free except the cost of photocopying contracts or dubbing a computer diskette with a list of current contracts on the database. A free brochure, "Frequently Asked Questions About State Contracts," explains how to take advantage of the bureau's services.

4300-434 The printing of full and reduced size plans using state-of-the-art analog and digital equipment. Reproduce and reduce Highway Letting Plans from an original plan sheet of 22" x 36" to 22" x 36" and 22" x 36" to 12" x 18". The reproduction of plan sheets would not involve the usage of ammonia print. Full size sets of plan sheets must be copied 5 to 25 times and each set of half size plan sheets must be copied 40 to 100 times. A set of plans may include 300 to 2,000 sheets. Original may be mylar, vellum or regular bond paper. Originals could be full size, half size or CD ROM disk. Price per set of plans includes two fasteners on the 22" side (full size) and 12" side (half size), collating, wrapping, labeling, pick-up and delivery. Original plans must be insured at replacement costs applicable at the time of pick-up and the carrier bonded. Original plans may be picked up at the 6th Floor Reproduction Room located at 555 Walnut Street, Harrisburg, PA and returned there with completion of reproduction work. Delivery is to be within 48 hours of receipt of pick-up. Reproduced plans will be delivered to the Publication Sales Store, 6th Floor Forum Place, 555 Walnut Street, Harrisburg, PA. Delivery hours are between 8 a.m. and 2 p.m. Basic 48-hour delivery time. Billing will be separate for each project by order requested.

PROPOSED RULEMAKING

ENVIRONMENTAL QUALITY BOARD

[25 PA. CODE CHS. 121 AND 129]

Mobile Equipment Repair and Refinishing

The Environmental Quality Board (Board) proposes to amend Chapters 121 and 129 (relating to general provisions; and standards for sources) to read as set forth in Annex A. The proposed changes to Chapter 121 add definitions of terms used in the substantive sections of Chapter 129. A new § 129.75 establishes requirements to control volatile organic compound (VOC) emissions from mobile equipment repair and refinishing facilities.

This notice is given under Board order at its meeting of January 20, 1998.

A. *Effective Date*

These proposed amendments will be effective upon publication in the *Pennsylvania Bulletin* as final rule-making.

B. *Contact Persons*

For further information, contact Terry Black, Chief, Regulation and Policy Development Section, Division of Compliance and Enforcement, Bureau of Air Quality, 12th Floor Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-1663, or M. Dukes Pepper, Jr., Assistant Counsel, Bureau of Regulatory Counsel, Office of Chief Counsel, 9th Floor Rachel Carson State Office Building, P. O. Box 8464, Harrisburg, PA 17105-8464, (717) 787-7060.

C. *Statutory Authority*

This action is being taken under the authority of section 5(a)(1) of the Air Pollution Control Act (35 P. S. § 4005(a)(1)), which grants to the Board the authority to adopt regulations for the prevention, control, reduction and abatement of air pollution.

D. *Background of the Proposed Amendments*

These amendments propose to establish controls on the VOC emissions from mobile equipment repair and refinishing facilities. These proposed amendments implement the recommendations of the Southeast and Southwest Pennsylvania Ozone Stakeholder Working Groups. The Southwest Ozone Stakeholders recommended a point of sale regulation which would preclude the sale of noncomplying finishes. The Southeast Ozone Stakeholders recommended limiting the VOC content of automobile refinish material to the levels imposed in the South Coast Air Quality Management District (SCAQMD).

Subsequent to the recommendations of the Ozone Stakeholders, a separate stakeholder group was formed composed of representatives of the mobile equipment repair and refinishing community, equipment suppliers and members of the public. This stakeholder group identified a number of problems with a point of sale regulation and the SCAQMD limits and recommended establishing limitations on the VOC content of finishes along with equipment specifications and work practice requirements. The proposed amendments incorporate the recommendations of this stakeholder group.

The Department of Environmental Protection (Department) also consulted with the Air Quality Technical Advisory Committee (AQTAC) in the development of this proposal. At its August 21, 1997, meeting, the AQTAC recommended adoption of the proposed amendments.

E. *Summary of Regulatory Revisions*

The proposed changes to Chapter 121 add definitions of terms used in the substantive provisions in Chapter 129. The definitions include "antique motor vehicle," "automotive pretreatment," "automotive primer-surfacer," "automobile primer-sealer," "automotive specialty coating," "automotive topcoat," "classic motor vehicle," "mobile equipment" and "touchup repair."

A new § 129.75 (relating to mobile equipment repair and refinishing), establishes allowable VOC content requirements for coatings used in this source category. Section 129.75(b) establishes exceptions to the general applicability of the rules where the coating is done in an automobile assembly plant or by an individual who does not receive compensation for application of the coatings. Subsection (e) establishes the VOC content of automobile refinish coatings, and subsection (f) provides the methodology for calculating VOC emissions. Subsections (g) and (h) establish application techniques and time frames for existing and new facilities applying coatings regulated by this section. Subsections (j) and (k) establish the requirements for cleaning spray guns associated with this source category and housekeeping, pollution prevention and training requirements for individuals applying mobile equipment repair and refinishing coatings. Finally, subsection (l) requires the owner or operator of a facility subject to this section to obtain a permit for operation of the facility.

Under these requirements, a person who applies mobile equipment repair and refinishing coatings will have to provide notice to the Department and comply with applicable VOC content requirements for coatings. In addition to application technique and cleaning requirements, the proposed amendments establish training, pollution prevention and permitting requirements that are phased-in under a schedule set forth in the proposed amendments.

This proposed regulatory revision will be submitted to the Environmental Protection Agency as an amendment to the State Implementation Plan.

F. *Benefits, Costs and Compliance*

Executive Order 1996-1 requires a cost/benefit analysis of the proposed amendments.

Benefits

Overall, the citizens of the Commonwealth will benefit from these recommended changes because they provide appropriate controls on VOC emissions from mobile equipment and repair and refinishing facilities.

Compliance Costs

These proposed amendments will increase compliance costs requiring facilities to obtain a permit. Equipment costs will also be slightly higher but the increase in equipment costs will be recovered by savings in operating costs. There may be some increases in costs associated with the training requirement.

Compliance Assistance Plan

The Department plans to educate and assist the public and the regulated community with understanding the

newly revised requirements and how to comply with them. The proposed amendments require that persons applying mobile equipment repair and refinishing coatings receive training in proper use and handling of coatings, solvents and wash products. This will be accomplished through Department-sponsored training.

Paperwork Requirements

The proposed regulatory revisions will increase the paperwork related to this class of facilities by requiring permits, reporting and recordkeeping.

G. Sunset Review

These regulations will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulations effectively fulfill the goals for which they were intended.

H. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 8, 1998, the Department submitted a copy of the proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate and House Environmental Resources and Energy Committees. In addition to submitting the proposed amendments, the Department has provided IRRC and the Committees with a copy of a detailed regulatory analysis form prepared by the Department. A copy of this material is available to the public upon request.

If IRRC has objections to any portion of the proposed amendments, it will notify the Department within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for the Department, the Governor and the General Assembly to review these objections before final publication of the amendments.

I. Public Information Meetings

The Department will hold 12 public information meetings Statewide to discuss the proposed regulatory requirements and respond to questions from the public and automobile refinish industry. A morning session and an evening session will be held in each of the Department's six regional offices as follows:

October 5, 1998—7 p.m. October 6, 1998—9 a.m.	Southwest Regional Office 400 Waterfront Drive Pittsburgh, PA.
October 7, 1998—7 p.m. October 8, 1998—9 a.m.	Northcentral Regional Office 208 North Third Street Williamsport, PA.
October 14, 1998—7 p.m. October 15, 1998—9 a.m.	Northwest Regional Office 230 Chestnut Street Meadville, PA.
October 19, 1998 9 a.m. and 7 p.m.	Southcentral Regional Office 909 Elmerton Avenue Harrisburg, PA.
October 27, 1998 9 a.m. and 7 p.m.	Southeast Regional Office Lee Park, 555 North Lane Conshohocken, PA.

October 5, 1998—7 p.m.
October 6, 1998—9 a.m.

Southwest Regional Office
400 Waterfront Drive
Pittsburgh, PA.

October 28, 1998
9 a.m. and 7 p.m.

Northeast Regional Office
Two Public Square
Wilkes-Barre, PA.

J. Public Comment and Public Hearings

Public Hearings

The Board will hold six public hearings for the purpose of accepting comments on the proposed amendments. The hearings will be held at 7 p.m. on the following dates and at the following locations:

October 29, 1998	Southcentral Regional Office 909 Elmerton Avenue Harrisburg, PA.
November 2, 1998	Southwest Regional Office 400 Waterfront Drive Pittsburgh, PA.
November 4, 1998	Northwest Regional Office 230 Chestnut Street Meadville, PA.
November 5, 1998	Northcentral Regional Office 208 North Third Street Williamsport, PA.
November 9, 1998	Northeast Regional Office Two Public Square Wilkes-Barre, PA.
November 10, 1998	Southeast Regional Office Lee Park, 555 North Lane Conshohocken, PA.

The Department is specifically requesting comments on three issues.

First, the proposed amendments apply to all mobile equipment repair and refinishing facilities regardless of their size or the amount of material used. The Department requests comments on this approach.

Second, the Department is proposing that these facilities meet the permitting requirements contained in Chapter 127 of the Department's regulations. The Department is proposing to implement the permit program through the use of a general permit. The Department is also considering establishing a permit by rule for smaller facilities having less impact on air quality. The Department is requesting comments on these as well as any alternative permitting or approval methods that will simplify compliance with these requirements.

Finally, the Department is requesting comments on the applicability of the provisions related to application techniques, housekeeping, pollution prevention and training measures to rural areas of this Commonwealth where the VOC reductions may not have a significant impact on attainment.

Persons wishing to present testimony at the hearings must contact Kate Coleman at the Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477, (717) 787-4526, at least 1 week in advance of the hearing to reserve a time to present testimony. Oral testimony will be limited to 10 minutes for each witness and three written copies of the oral testimony must be submitted at the hearing. Each organization is requested to designate one witness to present testimony on its behalf.

Persons with a disability who wish to attend the hearings and require an auxiliary aid, service or other accommodations to participate, should contact Kate Coleman at (717) 787-4526 or through the Pennsylvania AT&T relay service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Written Comments

In lieu of or in addition to presenting oral testimony at the hearings, interested persons may submit written comments, suggestions or objections regarding the proposed amendments to the Environmental Quality Board, 15th Floor Rachel Carson State Office Building, P. O. Box 8477, Harrisburg, PA 17105-8477. Comments received by facsimile will not be accepted. Comments must be received by December 10, 1998. In addition to the written comments, interested persons may also submit a summary of their comments to the Board. This summary may not exceed one page in length and must be received by December 10, 1998. The summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final-form regulations will be considered.

Electronic Comments

Comments may be submitted electronically to the Board at Regcomments@dep.state.pa.us. A subject heading of the proposal and return name and address must be included in each transmission. Comments submitted electronically must also be received by the Board by December 10, 1998.

JAMES M. SEIF,
Chairperson

ARTICLE III. AIR RESOURCES

CHAPTER 121. GENERAL PROVISIONS

§ 121.1. Definitions.

The definitions in section 3 of the act (35 P. S. § 4003) apply to this article. In addition, the following words and terms, when used in this article, have the following meanings, unless the context clearly indicates otherwise:

* * * * *

Antique motor vehicle—A motor vehicle, but not a reproduction thereof, manufactured more than 25 years prior to the current year which has been maintained in or restored to a condition which is substantially in conformance with manufacturer specifications.

* * * * *

Automobile primer-sealer—A coating applied to mobile equipment and mobile equipment components prior to the application of a topcoat for the purpose of providing corrosion resistance, promoting the following:

- (i) Adhesion of subsequent coatings.
- (ii) Color uniformity.

(iii) The ability of the undercoat to resist penetration by the topcoat.

* * * * *

Automotive pretreatment—A primer that contains a minimum of 0.5% acid, by weight, that is applied directly to bare metal surfaces of mobile equipment and mobile equipment components to provide corrosion resistance and to promote adhesion of subsequent coatings.

Automotive primer-surfacer—A coating applied to mobile equipment and mobile equipment components prior to the application of topcoat for the purpose of:

- (i) Filling surface imperfections in the substrate.
- (ii) Providing corrosion resistance.
- (iii) Promoting adhesion of subsequent coatings.

Automotive specialty coating—Coatings, including, but not limited to, elastomeric coatings and adhesion promoters for plastic parts, antiglare/safety coatings, bright metal trim repair coatings, impact resistant coatings, rubberized asphaltic underbody coatings, uniform finish blenders, weld-through primers applied to automotive surfaces and lacquer topcoats applied to a classic motor vehicle or to an antique motor vehicle.

Automotive topcoat—A coating or series of coatings applied over an automotive primer-surfacer, automotive primer-sealer or existing finish on the surface of mobile equipment and mobile equipment components for the purpose of protection or beautification.

* * * * *

Classic motor vehicle—A motor vehicle, but not a reproduction thereof, manufactured at least 15 years prior to the current year which has been maintained in or restored to a condition which is substantially in conformity with manufacturer specifications and appearance.

* * * * *

Mobile equipment—Equipment which may be driven or is capable of being driven on a roadway including, but not limited to:

- (i) Automobiles.
- (ii) Trucks, truck cabs, truck bodies and truck trailers.
- (iii) Buses.
- (iv) Motorcycles.
- (v) Utility bodies.
- (vi) Camper shells.
- (vii) Mobile cranes.
- (viii) Bulldozers.
- (ix) Street cleaners.
- (x) Golf carts.
- (xi) Ground support vehicles, used in support of aircraft activities at airports.
- (xii) Farm equipment.

* * * * *

Touch up repair—The application of automotive topcoat finish materials to cover minor finishing imperfections equal to or less than 1 inch in diameter.

* * * * *

**CHAPTER 129. STANDARDS FOR SOURCES
SOURCES OF VOCs**

(Editor's Note: Section 129.75 is proposed to be added and is printed in regular type to enhance readability.)

§ 129.75. Mobile equipment repair and refinishing.

(a) Except as provided in subsection (b), the requirements of this section apply to a person who applies mobile equipment repair and refinishing or color matched coatings to mobile equipment or mobile equipment components.

(b) This section does not apply to a person who applies surface coatings to mobile equipment or mobile equipment components under one of the following circumstances:

- (1) The surface coating process is subject to the miscellaneous metal parts finishing requirements of § 129.52 (relating to surface coating processes).
- (2) The surface coating process is at an automobile assembly plant.
- (3) The person applying the coatings does not receive compensation for the application of the coatings.

(c) The owner and the operator of an existing facility shall provide the Department with an identification of each facility to which this section applies on or before _____ (Editor's Note: The blank refers to a date 120 days from the effective date of adoption of this proposal), including:

- (1) The name of the facility.
- (2) The location and address of the facility.
- (3) The responsible official at the facility.
- (4) The telephone number of the facility.
- (5) The number of employes at the facility.

(d) After _____ (Editor's Note: The blank refers to the effective date of adoption of this proposal), the owner and operator of a new facility subject to this section shall provide notification to the Department immediately upon start-up of the facility which starts operation.

(e) Beginning _____ (Editor's Note: The blank refers to a date 12 months from the effective date of adoption of this proposal), a person may not apply to mobile equipment or mobile equipment components any automotive pretreatment, automotive primer-surfacer, automotive primer-sealer, automotive topcoat and automotive specialty coatings including any VOC-containing materials added to the original coating supplied by the manufacturer, that contain VOC's in excess of the limits specified in Table III.

*Table III
Allowable Content of VOCs in Mobile Equipment Repair and Refinishing Coatings
Allowable VOC Content
(as applied)
Weight of VOC per Volume of Coating (minus water and non-VOC solvents)*

Coating Type	Limit	
	Pounds per Gallon	Grams per Liter
Automotive pretreatment primer	6.5	780
Automotive primer-surfacer	4.8	575
Automotive primer-sealer	4.6	550
Automotive topcoat		
single stage-topcoat	5.0	600
2 stage basecoat/clearcoat	5.0	600
3 or 4-stage basecoat/clearcoat	5.2	625
Automotive specialty	7.0	840

(f) A person who provides mobile equipment repair and refinishing coatings subject to this section shall provide documentation concerning the VOC content of the coatings calculated in accordance with the following:

(1) The mass of VOC per combined volume of VOC and coating solids, less water and exempt compounds shall be calculated by the following equation:

$$VOC = \frac{(W_v - W_w - W_{ex})(D_c)}{100\% - (W_w)(D_c/D_w) - (W_{ex})(D_c/D_{ex})}$$

where:

VOC = VOC content in grams per liter (g/l) of coating less water and non-VOC solvents.

W_v = weight of total volatiles, % (100% - weight % nonvolatiles).

W_w = weight of water, %.

W_{ex} = weight of non-VOC solvents, %.

D_c = density of coating, g/l at 25° c.

D_w = density of water, g/l at 25° c (0.997 x 10³).

D_{ex} = density of exempt solvent, g/l, at 25° c.

To convert from grams per liter to pounds per gallon (lb/gal), multiply the result (VOC content) by 8.345 x 10⁻³ (lb/gal/g/l).

(2) The VOC content of a multistage topcoat shall be calculated by the following equation:

$$VOC_{multi} = \frac{VOC_{bc} + \sum_{i=0}^M VOC_{mci} + 2(VOC_{cc})}{M + 3}$$

where:

VOC_{multi} = VOC content of multistage topcoat, g/l.

VOC_{bc} = VOC content of basecoat, g/l.

VOC_{mci} = VOC content of the midcoat(s), g/l.

VOC_{cc} = VOC content of the clear coat, g/l.

M = number of midcoats.

(g) Beginning _____ (*Editor's Note:* The blank refers to a date 12 months from the effective date of adoption of this proposal), a person at an existing facility subject to this section shall use one or more of the following application techniques to apply any finish material listed in Table III:

- (1) Flow/curtain coating.
- (2) Dip coating.
- (3) Roll coating.
- (4) Brush coating.
- (5) Cotton-tipped swab application.
- (6) Electrodeposition coating.
- (7) High volume low pressure (HVLP) spraying.
- (8) Electrostatic spray.

(9) Other coating application methods that the person has demonstrated and the Department has determined achieve emission reductions equivalent to HVLP or electrostatic spray application methods.

(h) A new facility which starts operation after _____ (*Editor's Note:* The blank refers to the effective date of adoption of this proposal) shall use one or more of the following application techniques to apply to mobile equipment and mobile equipment components any finish material listed in Table III:

- (1) Flow/curtain coating.
- (2) Dip coating.
- (3) Roll coating.
- (4) Brush coating.
- (5) Cotton-tipped swab application.
- (6) Electrodeposition coating.
- (7) High volume low pressure HVLP spraying.
- (8) Electrostatic spray.

(9) Other coating application methods that the person has demonstrated and the Department has determined

achieve emission reductions equivalent to HVLP or electrostatic spray application methods.

(i) The following situations are exempt from the application equipment requirements in subsections (g) and (h):

(1) The use of airbrush application methods for stenciling, lettering and other identification markings.

(2) The application of coatings sold in nonrefillable aerosol containers.

(3) The application of touch-up and repair finish materials by brush.

(j) Spray guns used to apply mobile equipment repair and refinishing coatings shall be cleaned by one of the following:

(1) An enclosed spray gun cleaning system that is kept closed when not in use.

(2) Unatomized discharge of solvent into a paint waste container that is kept closed when not in use.

(3) Disassembly of the spray gun and cleaning in a vat that is kept closed when not in use.

(4) Atomized spray into a paint waste container that is fitted with a device designed to capture atomized solvent emissions.

(k) The owner and operator of a facility subject to this section shall implement the following housekeeping and pollution prevention and training measures:

(1) Fresh and used coatings, solvent, and cleaning solvents, shall be stored in nonabsorbent, nonleaking containers. The containers shall be kept closed at all times except when filling or emptying.

(2) Cloth and paper, or other absorbent applicators, moistened with coatings, solvents or cleaning solvents, shall be stored in closed, nonabsorbent, nonleaking containers.

(3) Handling and transfer procedures shall minimize spills during the transfer of coatings, solvents and cleaning solvents.

(4) Ensure that a person who applies mobile equipment repair and refinishing coatings has completed training in the proper use and handling of the mobile equipment repair and refinishing coatings, solvents and waste products to minimize the emission of air contaminants and to comply with this section.

(l) On or before _____ (*Editor's Note:* The blank refers to a date 15 months after the effective date of adoption of this proposal) the owner and operator of a facility subject to this section shall apply for a permit in accordance with Chapter 127 (relating to construction, modification, reactivation and operation of sources).
