READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE COURTS

Title 249—PHILADELPHIA RULES

PHILADELPHIA COUNTY

Joint General Court Regulation; Court of Common Pleas and Traffic Court; No. 98-1

Procedure for Sale of Motor Vehicles Impounded for Driving Without Operating Privileges or Registration Pursuant to 75 Pa.C.S. § 6309.2

On July 2, 1996, Governor Thomas Ridge signed Act No. 1996-93 which authorizes the impoundment and sale of motor vehicles under certain specified situations. The within Joint General Court Regulation sets forth the procedure to be followed in implementing Section 6309.2, which authorizes the impoundment and sale of motor vehicles for driving without operating privileges or registration.

1. *Motor Vehicles Eligible for Impoundment.* Motor vehicles are subject to immobilization and impoundment for two reasons:

a. Motor vehicles driven by an unlicensed person, or while the person's operating privilege is suspended, revoked, cancelled, recalled or disqualified; or

b. Motor vehicle itself is not registered, or for which the registration is suspended for failure to secure or maintain financial responsibility.

2. *Prerequisite to Immobilization and Impoundment.* The bases identified in Section 1 above must be verified with the applicable Department of Motor Vehicles by the Philadelphia Police Department before the motor vehicle may be immobilized and impounded.

3. *Prerequisites to Impoundment.* A defendant's motor vehicle may not be impounded for a 24 hour period after it is immobilized so as to enable the owner or operator of the immobilized motor vehicle to appear in Traffic Court within 24 hours of the vehicle's immobilization and furnish proof of registration and financial responsibility and compliance with Titles 42 and 75. During that 24 hour period, however, the motor vehicle shall be immobilized and may be transferred to a secure location for safe keeping.

4. *Designation of Enforcement Officer.* The Traffic Court may, from time to time, appoint such "appropriate towing and storage agents" as may be necessary to undertake the impoundment and notification required by Act No. 1996-93.

5. *Impoundment.* Upon expiration of the 24 hour period as set forth above, if a certificate of release has not been issued evidencing compliance with 75 Pa.C.S. § 6309.2(b) and Sections 2 and 3 above, the Traffic Court shall notify the appointed towing and storage agents to impound the vehicle and store same at an appropriate location.

6. *Notice of Impoundment.* When applicable, the appropriate law enforcement officer shall issue a citation or summons to the operator of the motor vehicle. The appropriate towing and storage agent shall notify the title owner of the vehicle or combination and any lienholder and, if applicable, the owner of the load, of the fact that the motor vehicle has been impounded pursuant to 75

Pa.C.S. § 6309.2 and of their right to reclaim the said motor vehicle by showing compliance with 75 Pa.C.S. § 6309.2(b). The notice shall be substantially in the form set forth hereunder as Exhibit "A". Notice shall be sent to the addresses on file at the appropriate departments of motor vehicle by regular mail, which the Court finds to be the most expeditious means, and a Certificate of Mailing shall be obtained. Notice shall be deemed to have been provided upon the mailing of the letters as set forth herein.

7. *Obtaining Leave of Court to Sell Vehicle.* A Civil Cover Sheet, Petition and Motion Court Cover Sheet shall be filed with the Prothonotary and Civil Administration setting forth, inter alia, that prior to impounding the motor vehicle, the operator and owner of the motor vehicle were given 24 hours to obtain a certificate of release as provided in 75 Pa.C.S. § 6303.2(b), and further setting forth the efforts made to notify the operators, owners, and lienholders of record, and the fact that no certificate of release has been issued. Copies of the notices sent to the appropriate parties and the Certificates of Mailing shall be attached to the Petition. Upon review of the Petition, the President Judge of the Court of Common Pleas, or his designee, if satisfied that the required Notices were sent, that no certificate of release was issued, that the owner or operator of the impounded motor vehicle have not complied with 75 Pa.C.S. § 6309.2, and that the requisite fines and costs have not been paid, may enter an Order authorizing the Traffic Court, through its authorized agent, to sell at public auction the motor vehicles described in the said Petition. The Order shall be substantially in the form set forth hereunder as Exhibit "B".

8. *Notice of Auction Date and Rights of Owners of Record and Lienholders of Record Pending Auction.* Notice of the auction dates shall be provided as set forth in Section 6 above. Notice of the public auction shall also be provided by publication at least five (5) days before the auction in either *The Philadelphia Inquirer* or *The Philadelphia Daily News*, or as otherwise directed by the Court of Common Pleas. At any time prior to the auction date, any operator, owner, or lienholder, may obtain the release of the motor vehicle upon compliance with 75 Pa.C.S. § 6309.2(b) and upon payment of the fines, fees and costs as set forth in the Notice and as may be incurred thereafter. Upon issuance of the Certificate of Release by the Traffic Court, the motor vehicle must be picked up before the auction set forth in the notice provided as required in Section 6 above. In the event a vehicle scheduled to be auctioned on a specific date scheduled in accordance with the procedures set forth herein is not auctioned on that date, the said vehicle may be auctioned on a subsequent date provided, however, that the interested parties are provided new Notices setting forth the date of the rescheduled auction, substantially as set forth in Sections 6 and 8.

9. *List of Successful Bidders.* At the auction, the Traffic Court and/or its authorized agent, shall maintain a list of the successful bidders. The said list shall be submitted to the Court of Common Pleas within thirty (30) days after the auction so that an order may be entered, if necessary, directing the appropriate departments of transportation to extinguish title of the prior owners or lienholders of record and to issue certificates of ownership to the successful bidders. The order shall substantially be in the form set forth hereunder as Exhibit "C".

10. *Disposition of Proceeds of the Auction.* The proceeds from the auction shall be used to satisfy the various fines and costs in the following order: costs of sale (auctioneer and legal advertising); Traffic Court's costs as may be established from time to time as authorized in Section 6309.2(d); towing and storage costs; and outstanding fines due as a result of violations of the Motor Vehicle Code. Any remaining proceeds shall be subject to the demands of the original owner and lienholders, of record as their interest may appear. If not claimed within one year, any such remaining proceeds shall be forfeited to the City of Philadelphia or utilized as otherwise provided by the Court of Common Pleas.

11. *Post-Auction Petition or Relief.* Proceedings instituted after the sale or auction of any motor vehicle conducted as authorized by 75 Pa.C.S. § 6309.2 and the within Joint General Court Regulation disputing the underlying facts or offenses rendering the motor vehicle subject to sale or auction shall not invalidate the sale or auction. In the event relief is granted and the underlying offenses discharged, the only entitlement the owner and lienholder may have, if raised within the applicable limitations period, shall be the return of any remaining proceeds from the sale or auction of the motor vehicle as provided in Section 10 above.

12. *Effective Date.* This Joint General Court Regulation shall become effective immediately.

This Joint General Court Regulation is promulgated in accordance with Act 1996-93, the May 8, 1996 Order of the Supreme Court of Pennsylvania, Eastern District, No. 168 Judicial Administration, Docket No. 1, Phila. Civ. R. 51 and Pa.R.C.P. 239. As required by Pa.R.C.P. 239, the original Joint General Court Regulation shall be filed with the Prothonotary in a docket maintained for General Court Regulations issued by the President Judge of the Court of Common Pleas, and copies shall be submitted to the Administrative Office of Pennsylvania Courts, the Legislative Reference Bureau and the Civil Procedural Rules Committee. Copies of the Regulation shall also be submitted to Legal Communications, Ltd., *The Legal Intelligencer*, Jenkins Memorial Law Library and the Law Library for the First Judicial District.

RULES AND REGULATIONS

Title 22—EDUCATION

STATE BOARD OF EDUCATION

[22 PA. CODE CH. 14]

Special Education Services and Programs; Extended School Year Services

The State Board of Education (Board) amends Chapter 14 (relating to special education services and programs) under authority of sections 1372, 2603-B and 2604-B of the Public School Code of 1949 (24 P. S. §§ 13-1372, 26-2603-B and 26-2604-B).

Notice of proposed rulemaking was published at 27 Pa.B. 2428 (May 17, 1997) with an invitation to submit written comments within 30 days.

Purpose

Chapter 14 governs the Commonwealth's operation of special education services and programs for eligible students. The amendments to §§ 14.1 and 14.34 (relating to definitions; and ESY services) define extended school year (ESY) services for eligible students and clarify requirements for the identification of students in need of ESY and the program itself.

ESY services address the needs of eligible students who lose behavioral patterns or skills (regression) during an interruption in educational programming and who do not recover those behavior patterns or skills (recoupment), making it unlikely that the student will attain or maintain the goals reflected in the Individualized Education Program (IEP) or make reasonable progress from year to year.

Public Comments and Responses

The Board received comments from two education organizations, three school districts and one law firm. The Board considered the public comments received during the public comment period, as well as additional public comments received after the close of the comment period. Comments were received from the House Education Committee on July 3, 1997; the Senate Education Committee on July 2, 1997; and the Independent Regulatory Review Commission (IRRC) on July 16, 1997.

IRRC recommended defining the terms "regression" and "recoupment" in § 14.1. The Board concurs and the definitions are added on final-form.

In its comments to the Department of Education (Department) regarding a proposed amendment to Chapter 342 (relating to special education services and programs), IRRC recommended adding a cross reference to ESY services in existing § 342.32 (relating to ISP), which outlines IEP development. The Board concurs with this recommendation, and the Department placed a cross reference in § 14.32(f)(3)(iii).

IRRC recommended moving the proposed revisions of § 14.34(d) to subsection (a) and incorporating the sub-heading "Scope" to the new subsection (a). Also, IRRC recommended adding a citation to the specific Federal laws and regulations referenced in this subsection. The Board made these changes on final-form.

IRRC and one public commentator suggested that the phrase "other factors" in proposed § 14.34(a) was vague.

In response, the Board added three examples of other factors in § 14.34(c). These factors were drawn directly from Remedial Order # 2 under *Armstrong v. Kline*, 476 F. Supp. 583 (E. D. Pa. 1979). To accommodate the addition of subsection (c), the Board moved the last sentence from proposed subsection (a) to a separate subsection, § 14.34(d).

IRRC recommended rewording of the last sentence in proposed § 14.34(b) for clarity. This was done on final-form.

IRRC, the House and Senate Education Committees, and some public commentators expressed concerns about the accuracy of the analysis of the fiscal impact of the proposed amendments. The cost estimates provided with the proposed amendments were developed using predictions from survey responses from all 29 intermediate units and 22 urban school districts, as well as analysis of data submitted annually by intermediate units to the Department regarding the number of children receiving ESY services. Given the difficulty in predicting the outcome of case-by-case decisionmaking by IEP teams in 501 school districts, the Board is satisfied with the original cost estimates and does not agree that additional fiscal analysis would produce more reliable predictive conclusions. As stated with the proposed amendments, the costs of ESY services are expected to be offset by Federal funds within the Individuals with Disabilities Education Act (IDEA) Part B subgrants of the intermediate units. Finally, concerns about the fiscal impact of the amendments need to be weighed against the costs of litigation promised by the *Armstrong* plaintiff's counsel if the amendment were not promulgated.

Affected Parties

These amendments will benefit Commonwealth students who are eligible for special education services and programs and who need ESY services to enable them to receive a free appropriate public education. The amendments also affect the parents and guardians of these students, as well as all school districts and intermediate units by providing clear policy for ESY services.

Cost and Paperwork Estimates

Costs imposed on State government will be for providing training and technical assistance to school districts and intermediate units in interpreting and implementing the amendments and accompanying revised standards under Chapter 342. These efforts are ongoing for various sections of the regulations, so the changes in amendments will not materially affect the State's costs.

The number of students entitled to ESY services should not increase significantly as a result of these amendments, since each district must consider all eligible students for ESY services if regression and limited recoupment capacity warrant this consideration. Costs may increase slightly because of the demand expectations created by bringing attention to the issue. ESY services are already being provided to approximately 3,000 students in this Commonwealth. The Board is not aware of students in this Commonwealth who are entitled to ESY services but are not receiving them. As a result of the Department's analysis of fiscal impact, the maximum increase in the number of students served would be less than 10%. Given an average cost of services of \$1,968, a 10% increase would result in a total added cost across

this Commonwealth of approximately \$590,000. These costs are expected to be offset by Federal IDEA Part B funds within the budgets of intermediate units. The fiscal impact on school districts should be minimal.

Amendments to §§ 14.1, 14.32 and 14.34 will not substantially alter paperwork, accounting or reporting requirements already in place.

Effective Date

These amendments will become effective upon final publication in the *Pennsylvania Bulletin*.

Sunset Date

The effectiveness of Chapter 14 (including §§ 14.1 and 14.34) will be reviewed by the Board every 4 years, in accordance with the Board's policy and practice respecting regulations and standards promulgated by the Department and Board. Thus, no sunset date is necessary.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on May 7, 1997, the Board submitted a copy of the notice of proposed rulemaking published at 27 Pa.B. 2428 to IRRC and to the Chairpersons of the House and Senate Committees on Education for review and comment. In compliance with section 5(b.1) of the Regulatory Review Act, the Board also provided IRRC and the Committees with copies of the comments received as well as other documentation.

In preparing these final-form regulations, the Board has considered the comments received from IRRC, the Committees and the public.

These final-form regulations were deemed approved by the Committees on December 31, 1997, and were approved by IRRC on January 13, 1998, in accordance with section 5(c) of the Regulatory Review Act.

Contact Person

The official responsible for information on the Board's process of promulgating these final-form regulations is Dr. Peter H. Garland, Executive Director, State Board of Education, 333 Market Street, Harrisburg, PA 17126-0333, (717) 787-3787. The official responsible for implementation of these final-form regulations is William Penn, Director, Bureau of Special Education, 333 Market Street, Harrisburg, PA 17126-0333, (717) 783-6913.

Findings

The Board finds that:

(1) Public notice of the intention to adopt these amendments was given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder in 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law and all comments were considered.

(3) The amendments are necessary and appropriate for the administration of the Public School Code of 1949 (24 P. S. §§ 1-101—27-2702).

Order

The Board, acting under the authorizing statute, orders that:

(a) The regulations of the Board, 22 Pa. Code Chapter 14, are amended by amending §§ 14.1, 14.32 and 14.34 to read as set forth at Annex A, with ellipses referring to the existing text of the regulations.

(b) The Executive Director will submit this order and Annex A to the Office of General Counsel and the Office of Attorney General for review and approval as to legality and form as required by law.

(c) The Executive Director of the Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order is effective upon final publication in the *Pennsylvania Bulletin*.

PETER H. GARLAND,
Executive Director

(Editor's Note: The amendment of § 14.32 was not included in the proposal at 27 Pa.B. 2428.)

(Editor's Note: For the text of the order of the Independent Regulatory Review Commission relating to this document, see 28 Pa.B. 588 (January 31, 1998).)

Fiscal Note: Fiscal Note 6-260 remains valid for the final adoption of the subject regulations.

TITLE 22. EDUCATION

PART I. STATE BOARD OF EDUCATION

CHAPTER 14. SPECIAL EDUCATION SERVICES AND PROGRAMS

§ 14.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

* * * * *

ESY—Extended school year services—Special education or related services provided outside of a standard schedule of school days within a school term, for the purpose of ensuring the provision of a free appropriate public education to an eligible student.

* * * * *

Recoupment—Recovery of skills or behavioral patterns, or both, specified on the IEP to a level demonstrated prior to the interruption of educational programming.

Regression—Reversion to a lower level of functioning evidenced by a measurable decrease in the level of skills or behaviors which occurs as the result of an interruption in educational programming.

* * * * *

§ 14.32. IEP.

* * * * *

(f) The IEP of each exceptional student shall contain the following:

* * * * *

(3) A statement of the specific special education services and programs and related services to be provided to the student, including if appropriate the following:

* * * * *

(iii) ESY services as provided for in §§ 14.34 and 342.34 (relating to ESY services).

* * * * *

§ 14.34. ESY services.

(a) This section may not be construed or applied to require more than is required by Federal law and regula-

tions, particularly the requirements of the Individuals with Disabilities Education Act (20 U.S.C.A. §§ 1400—1485) and its implementing regulations.

(b) An eligible student is entitled to ESY services if regression caused by interruption in educational programming and limited recoupment capacity, or other factors, makes it unlikely that the student will attain or maintain skills and behavior relevant to established IEP goals and objectives.

(c) Examples of other factors in addition to regression and recoupment include:

(1) The extent to which the student has mastered and consolidated an important skill or behavior at the point when educational programming would be interrupted.

(2) The extent to which a skill or behavior is particularly crucial to reaching the goals of self-sufficiency and independence from caretakers.

(3) The extent to which successive interruptions in educational programming reduce a student's motivation and trust and may lead to an irreversible withdrawal from the learning process.

(d) School districts are responsible for considering the need for ESY services for each eligible student, including each student placed by the district in an approved private school or other placement site not operated by the school district.

(e) Consideration of the need for ESY services shall occur at the IEP team meeting to be convened at least annually, or more frequently if conditions warrant consistent with § 14.32(i)(3) (relating to IEP). Consideration means that ESY services are raised and discussed at the IEP team meeting. In making a determination that a student is eligible for ESY services, the IEP team shall rely on criteria in Chapter 342 (relating to special education services and programs) and applicable judicial decisions.

(f) The need for ESY services will not be based on any of the following:

(1) The desire or need for day care or respite care service.

(2) The desire or need for a summer recreation program.

(3) The desire or need for other programs or services which, while they may provide educational benefit, are not required to ensure the provision of a free appropriate public education.

DEPARTMENT OF EDUCATION

[22 PA. CODE CH. 342]

Special Education Services and Programs; Extended School Year Services

The Department of Education (Department) amends § 342.34 (relating to ESY services) to read as set forth in Annex A, under the authority of section 1372 of the Public School Code of 1949 (24 P.S. § 13-1372) and § 14.3 (relating to standards).

Notice of proposed rulemaking was published at 27 Pa.B. 2423 (May 17, 1997).

Purpose

Chapter 342 governs the Commonwealth's operation of special education services and programs for eligible students. Amendments to § 342.34 establish definitions, criteria and procedures for considering and documenting the need for extended school year (ESY) services for eligible students under Chapter 14 (relating to special education services and programs).

ESY services address the needs of eligible students who lose behavioral patterns or skills (regression) during an interruption in educational programming and who do not recover those behavior patterns or skills (recoupment), making it unlikely that the student will attain or maintain the goals as reflected in the Individualized Education Program (IEP) or make reasonable progress from year to year.

Public Comments and Responses

The Secretary of Education (Secretary) reviewed comments submitted to the State Board of Education (Board) by two education organizations, three school districts and one law firm. The Secretary considered the public comments received during the public comment period, as well as additional public comments received after the close of the comment period. Comments were received from the House Education Committee on July 3, 1997; from the Senate Education Committee on July 2, 1997; and the Independent Regulatory Review Commission (IRRC) on July 16, 1997.

IRRC recommended that the acronym, "ESY," be defined in § 342.34(a). The definition was added on final form.

IRRC and at least one public commentator expressed concerns about the clarity of the factors to be considered by IEP teams. To increase clarity, the Secretary added a reference to § 14.34 in subsection (b), because both § 14.34 and § 342.24 (relating to ESY services; and instructional support) mention factors to be considered.

IRRC and at least one public commentator pointed out that the phrase, "disabilities thought of as severe," in subsection (c) is not defined and is therefore open to a host of different interpretations. IRRC recommended that the requirement to pay particular attention to students with disabilities thought of as severe be eliminated. The Secretary did not eliminate this requirement because it is drawn directly from Remedial Order # 2 under *Armstrong v. Kline*, 476 F. Supp. 583 (E. D. Pa. 1979). However, the Secretary concurs that the phrase, "disabilities thought of as severe," may be interpreted differently. Therefore, specific examples of disabilities thought of as severe were added to subsection (c). These examples were drawn directly from Remedial Order # 2 under *Armstrong v. Kline*. The Secretary believes that this revision satisfies the expressed concerns while maintaining the court's requirement to pay particular attention to students who are more likely to need ESY services.

IRRC pointed out that subsection (c) lacked clarity because the first sentence prescribed duties for IEP teams and the second sentence prescribed duties for school districts. The Secretary concurs and changed the second sentence on final form. IRRC also suggested that the second sentence be split into its own subsection. The Secretary believes that, for clarity, the two sentences need to be read as a unit, and therefore need to be in one subsection.

During review of the proposed standards in light of public comment, Department staff became aware that a literal reading of subsection (e)(1) was that goals make progress, when, in fact, students make progress on goals. The Secretary modified the subsection for clarity on final form.

IRRC recommended that the phrase, "other appropriate measures," in subsection (e)(6), be made more specific to narrow the range of interpretations. The Secretary concurs with this recommendation and substituted the word "equivalent" for "appropriate" on final form.

IRRC pointed out a typographical error in subsection (e)(6). "Ecological like skills" should have read "ecological life skills." The correction was made on final-form.

IRRC recommended that a cross-reference to subsection (f), regarding documentation of ESY on IEPs, be added to § 342.32, regarding IEPs. The Secretary concurs that a cross-reference is helpful. However, the Secretary believes that the logical place for a cross-reference is in Chapter 14, which specifically requires IEPs to contain statements about ESY if appropriate. Therefore, a cross-reference to both §§ 14.34 and 342.34 was added by the Board to § 14.32(f)(3)(iii).

IRRC, the House and Senate Education Committees, and some public commentators expressed concerns about the accuracy of the analysis of the fiscal impact of the proposed amendment. The cost estimates provided with the proposed amendment were developed using predictions from survey responses from all 29 intermediate units and 22 urban school districts, as well as analysis of data submitted annually by intermediate units to the Department regarding the number of children receiving ESY services. Given the difficulty in predicting the outcome of case-by-case decisionmaking by IEP teams in 501 school districts, the Secretary is satisfied with the original cost estimates and does not agree that additional fiscal analysis would produce more reliable predictive conclusions. As stated with the proposed amendment, the costs of ESY services are expected to be offset by Federal funds within the Individuals with Disabilities Education Act (IDEA) Part B subgrants of the intermediate units. Finally, concerns about the fiscal impact of the regulation need to be weighed against the costs of litigation promised by the *Armstrong* plaintiff's counsel if the amendment was not adopted.

Affected Parties

The amendments will benefit Commonwealth students who are eligible for special education services and programs and who need ESY services to enable them to receive a free appropriate public education. The amendments also affect the parents and guardians of these students, as well as all school districts and intermediate units by providing clear policy for implementation and dispute resolution.

Cost and Paperwork Estimates

Costs imposed on State government will be for providing training and technical assistance to school districts and intermediate units in interpreting and implementing the new amendment. These efforts are ongoing for various sections of the amendment, so the amendment will not materially affect the State's costs.

The number of students entitled to ESY services should not increase significantly as a result of this amendment, since each district must consider all eligible students for

ESY services if regression and limited recoupment capacity warrant this consideration. Costs may increase slightly because of the demand expectations created by bringing attention to the issue. ESY services are already being provided to approximately 3,000 students in this Commonwealth. The Department is not aware of students in this Commonwealth who are entitled to ESY services but are not receiving them. As a result of the Department's analysis of fiscal impact, the maximum increase in the number of students served would be less than 10%. Given an average cost of services of \$1,968, a 10% increase would result in a total added cost across the Commonwealth of approximately \$590,000. These costs are expected to be offset by Federal IDEA Part B funds within the budgets of intermediate units. The fiscal impact on school districts should be minimal.

The amendment to § 342.34 will not substantially alter paperwork, accounting or reporting requirements already in place.

Effective Date

This amendment will become effective upon final publication in the *Pennsylvania Bulletin*.

Sunset Date

The effectiveness of Chapter 342 (including § 342.34) will be reviewed by the Department and Board every 4 years, in accordance with the Board's policy and practice respecting all regulations and standards promulgated by the Department and Board. Thus, no sunset date is necessary.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on May 7, 1997, the Department submitted a copy of the notice of proposed rulemaking published at 27 Pa.B. 2423 to IRRC and to the Chairpersons of the House and Senate Committees on Education for review and comment. In compliance with section 5(b.1) of the Regulatory Review Act, the Board also provided IRRC and the Committees with copies of the comments received as well as other documentation.

In preparing this final-form regulation, the Department has considered the comments received from IRRC, the Committees and the public.

This final-form regulation was deemed approved by the Committees on December 31, 1997, and was approved by IRRC on January 13, 1998, in accordance with section 5(c) of the Regulatory Review Act.

Contact Person

The official responsible for information on the process of promulgating this final-form regulation and for their implementation is William Penn, Director, Bureau of Special Education, 333 Market Street, Harrisburg, PA 17126-0333, (717) 783-6913.

Findings

The Department finds that:

(1) Public notice of the intention to adopt this amendment was given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder in 1 Pa. Code, §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law and all comments were considered.

(3) The amendment is necessary and appropriate for the administration of the Public School Code of 1949 (24 P. S. §§ 1-101—27-2702).

Order

The Department of Education, acting under authorizing statute orders that:

(a) The regulations of the Department, 22 Pa. Code Chapter 342, are amended by amending § 342.34 to read as set forth in Annex A.

(b) The Secretary will submit this order and Annex A to the Office of General Counsel and the Office of Attorney General for review and approval as to legality and form as required by law.

(c) The Secretary will certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order is effective upon final publication in the *Pennsylvania Bulletin*.

Secretary

§ 342.34. ESY services.

(a) The following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

ESY services—Extended school year services.

IEP—Individual Education Program.

Recoupment—Recovery of skills or behavioral patterns, or both, specified on the IEP to a level demonstrated prior to the interruption of educational programming.

Regression—Reversion to a lower level of functioning evidenced by a measurable decrease in the level of skills or behaviors which occurs as the result of an interruption in educational programming.

(b) Factors such as those listed in this section and § 14.34 (relating to ESY services) shall be considered by IEP teams whenever relevant, but no single factor is determinative of need for ESY services.

(c) When considering the need for ESY services, the IEP team shall pay particular attention to students with disabilities that are thought of as severe (that is, students with autism/pervasive developmental disorder, serious emotional disturbance, severe levels of mental retardation, degenerative impairments with mental involvement and severe multiple disabilities) and to IEP goals that are associated with self-sufficiency and independence from

caretakers. IEP teams may not limit their consideration of need for ESY services to students with particular types or degrees of disability, particular student goals, particular methods of programming provided during the regular school term, or the availability of retrospective data on regression and recoupment.

(d) ESY services shall be designed to attain or maintain skills and behaviors relevant to established IEP goals and objectives.

(e) Reliable sources of information regarding a student's educational needs, propensity to progress, recoupment potential, and year-to-year progress may include the following:

(1) Progress on goals in consecutive IEPs.

(2) Progress reports maintained by educators, therapists and others having direct contact with the student before and after interruptions in the education program.

(3) Reports by parents of negative changes in adaptive behaviors or in other skill areas.

(5) Observations and opinions by educators, parents and others.

(6) Results of tests including criterion-referenced tests, curriculum-based assessments, ecological life skills assessments and other equivalent measures.

(f) Documentation that ESY services have been considered shall be made on each eligible student's IEP. When determined to be necessary by the IEP team, ESY services shall be reflected on a student's IEP.

MINING

APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department

on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

HAZARDOUS SITES CLEANUP

Under the Act of October 18, 1988

Proposed Settlement Under the Hazardous Sites Cleanup Act and Comprehensive Environmental Response, Compensation and Liability Act

McAdoo Associates Superfund Site Kline Township and McAdoo Borough, Schuylkill County

The Department of Environmental Protection (Department), along with the United States of America, under the authority of section 1113 of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. § 6020.1113) and section 122 of the Federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), as amended, of 1980, 42 U.S.C.A. § 9622, has entered into a proposed Consent Decree with the United States of America and a group of settling defendants (defendants) subsequent to *Commonwealth of Pennsylvania, Department of Environmental Protection v. Air Products and Chemicals, Inc., et al.*, Civil Action No. 97-7144 and *The United States of America v. Air Products and Chemicals, Inc., et al.*, Civil Action No. 97-7140. The proposed Consent Decree was lodged on December 9, 1997, with the United States District Court for the Eastern District of Pennsylvania. The proposed Consent Decree is intended to comprise a global settlement with respect to remaining issues involving the Kline Township portion of the McAdoo Associates Superfund Site (site). The site is located in or near the Borough of McAdoo, Schuylkill County.

The proposed Consent Decree would settle actions that the Department brought under sections 507 and 1103 of the HSCA and section 107(a) of CERCLA and would compel the settling defendants to undertake certain response actions and to reimburse the Commonwealth of Pennsylvania for response costs incurred at the site. The proposed Consent Decree also settles claims of some of the settling defendants against others of the settling defendants arising out of an earlier settlement relative to the site in *United States and Commonwealth of Pennsylv-*

vania v. Air Products and Chemicals, Inc., et al., Civil Action No. 87-7352 (E.D. Pa.) (consent decree entered June 3, 1988) (1988 decree).

Under the terms of the proposed Consent Decree: (1) those settling defendants that settled under the 1988 decree (Air Products parties) will receive \$1.2 million from those settling defendants that did not settle with the United States and the Commonwealth of Pennsylvania under the 1988 decree (Alcan parties) and from the escrow account to resolve the Air Product parties' claims for contribution against the Alcan parties (\$170,000), and to resolve the Air Products parties' reauthorized claim for reimbursement from the United States Environmental Protection Agency (EPA) Hazardous Substance Superfund under the 1988 decree (\$1.03 million); (2) The Air Products parties will implement a groundwater monitoring remedy selected under a Record of Decision for the site issued on September 30, 1991 for Operable Unit 2 (OU2) at the site; (3) the settling defendants will pay the United States and the Commonwealth of Pennsylvania past costs relating to OU2 at the site (totaling \$75,000 and \$5,000 respectively); and (4) the United States will recover, on behalf of the EPA Hazardous Substance Superfund from the Alcan parties, the sum of \$970,000, plus a designated share of interest that has accrued on funds that the Alcan parties paid into an escrow account pending finalization of a 1992 consent decree, whose entry was vacated by the United States Court of Appeals in *United States v. Alcan Aluminum, Inc.* 25 F.3d 1174 (3d Cir. 1994). The Commonwealth of Pennsylvania, under the terms of the proposed Consent Decree, will not receive any of the aforementioned interest.

The proposed Consent Decree includes a covenant not to sue by the Commonwealth of Pennsylvania under sections 507, 701, 702, 1101 and 1102 of the HSCA. The settling defendants also receive contribution protection under section 705 of the HSCA.

This notice is provided under section 1113 of the HSCA, 35 P. S. § 6020.1113. Section 1113 of the HSCA provides that the settlement shall become final upon the filing of the Department's response to significant written comments. The proposed Consent Decree which contains the specific terms of the settlement, is available for public review and comment. The proposed Consent Decree can be examined from 8 a.m. to 4 p.m. Monday through Friday at the Department's Northeast Regional Office located at 2 Public Square, Wilkes-Barre, PA 18711, by contacting Woodrow Cole at (717) 826-2511 or through the PA AT&T Relay Service at (800) 654-5984 (TDD). A public comment period on the proposed Consent Decree will extend for 60 days from today's date. The Department will accept written comments concerning the proposed Consent Decree until April 22, 1998. Comments concerning the proposed Consent Decree can be sent to Woodrow Cole at the above address.

Proposed Response Under the Hazardous Sites Cleanup Act

Ashland Metals Site Butler Township, Schuylkill County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101 et. seq.), proposes to initiate an interim response action at the Ashland Metals Site (site) located in Butler Township, Schuylkill County.

The purpose of this response is to eliminate the threat to the public health and the environment caused by the

presence of lead contamination in the site soils, waste piles and building. This will be accomplished by the removal of site waste materials to an approved disposal facility and by the placement of a soil cover over the entire site. The actions taken under this phase of the response will eliminate the pathway of concern, direct contact, for the public and the environment.

The site (EPA identification no. PAD086727435) is located on approximately 13 acres in Butler Township, Schuylkill County, PA. It is located at 40°46'13" north latitude and 76°20'26" west longitude on the USGS Ashland, PA 7.5 minute quadrangle. The site is bordered by Germanville Road to the south, to the west by the Conrail right-of-way, and to the north and east by Mahanoy Creek. The Giordano Waste Materials HSCA Site is located directly across Germanville Road. The Giordano site is related to the Ashland Metals site in that both were used in the battery recycling operation and both sites exhibit similar physical as well as chemical contamination characteristics.

The site is a defunct battery recycling facility. Several buildings are onsite including the former processing building used for site operations, an office building and a garage/repair shop. Waste piles of chopped battery casings, waste acid tanks and trailers filled with whole and chopped battery casings are present. Vegetation at the site is sparse, with most of the site subject to erosion. Although no mining operations have occurred onsite, the site contains a surficial fill layer consisting of coal tailings from the area. A fence is present along the southern portion of the site, adjacent to Germanville Road.

A recent site study conducted by Foster Wheeler Environmental Corp. working as a Department General Technical Assistance Contractor revealed the presence of significant quantities of buried chopped and whole battery casings scattered throughout the site. Significant levels of lead contamination are associated with the media surrounding these buried wastes. The Foster Wheeler study confirmed the presence of significant levels of lead contamination as presented in earlier site studies and quantified the extent of surface, soil, surface water and groundwater contamination at the site. Wastes present in above ground storage tanks were sampled. Containerized waste on the site were inventoried and also sampled. The results, which were presented in a site Technical Directive Memorandum (TDM) to the Department, indicated that hazardous levels of contamination were present throughout the site in site soils, containers and waste/debris piles.

Releases have occurred from the site during the battery recycling operations. The releases include lead, and lead by-products found in batteries, acids and waste whole and chopped battery casings. Acids were collected in an acid holding tank which is still located onsite. The efficiency of this collection system is questionable, and releases of acids occurred during normal plant operations. Battery casings were chopped and stored and/or disposed of onsite. Waste piles present onsite were found to contain high levels of lead and could present the largest source of contamination from the site, impacting site soils and groundwater.

Previous site investigations have determined that areas of site contamination consist of site soils, waste piles, debris and containers within site buildings, acid storage tanks, stockpiled battery casings and buried battery casings. Toxic Characteristic Leaching Procedure (TCLP) data indicate that all of the waste types exhibited TCLP lead concentrations characteristic of hazardous waste.

Total lead concentrations in soils throughout most of the site exceed 1,000 ppm. Lead has also been demonstrated to be present in groundwater associated with the site.

These significant concentrations of lead contaminated surface media as well as wastes placed on the surface pose a significant threat to the public health and the environment. Lead is a hazardous substance, as defined by section 103 of the HSCA, 35 P. S. § 6020.103, as well as the Comprehensive Environmental Response and Liability Act of 1980 (Public Law 96-510, 94 Stat. 2767), as amended.

Response Category

The chosen response at this site will be conducted as an interim response under section 501 of the HSCA utilizing the Hazardous Sites Cleanup Fund. The Department may undertake an interim response whenever the cost of the response is expected to be less than \$2,000,000, and the duration of the response is expected to be no longer than 12 months. The proposed response is estimated to cost less than \$2,000,000 and is expected to be completed within 12 months.

The proposed response action includes the offsite treatment and disposal of contaminated waste/debris piles and building materials, and placement of a clay and soil/vegetative cover over the site. These actions are appropriate for an interim response. The Department may undertake any interim response which it deems necessary or appropriate to protect the public health, safety and welfare or the environment where there is a release or threat of release of a hazardous substance. The Department has determined that the proposed response action will achieve the response action objectives established by the Department, as discussed in the following and be protective of public health, safety and welfare, and the environment. Additional response action may be needed to achieve a complete and final cleanup for the site.

The response action objective established by the Department for the site is to prevent human exposure to site media with concentrations of contaminants above health-based levels.

To achieve this objective, the following alternatives were considered:

- *Alternative 1:* No further action. This alternative provides a baseline against which other alternatives can be compared. Under this alternative, no activities would be implemented at the site. Because no response actions would be implemented with this alternative, neither the human nor the environmental risks associated with the site would decrease.

- *Alternative 2:* Removal of all site surface waste/debris piles and building contents along with the demolition of the site building, as well as the construction of a site fence to limit access. All surface waste and demolition material will be sent to an offsite disposal facility. The estimated cost for this alternative is \$650,000. The remedy would not be a permanent remedy since the mobility, toxicity and volume of the contaminants in site soils would not be significantly altered, although the direct contact pathway would be reduced.

- *Alternative 3:* Removal of all site surface waste/debris piles and building contents along with the demolition of the site building. All waste and demolition material will be sent to an offsite disposal facility. The entire area of the site would be covered with clean clay, soil and/or mine spoil material and stabilized (erosion control, topsoil addition and revegetation). The estimated cost for

this alternative is \$2,000,000. This alternative would significantly reduce the potential for contact with the contaminated soil on site and be protective to the community by eliminating the nuisance and physical and chemical threats presented by site buildings and contaminated soil.

- *Alternative 4:* Removal of waste, debris, soil, buried battery casings and building material with lead levels in excess of 1,000 mg/kg, offsite disposal of the material removed, and stabilizing the site. The estimated cost for this alternative is \$7,000,000. This alternative would significantly reduce the potential for contact with site contaminants and significantly reduce environmental threats to the community and the environment, however, the cost of this remedy is out of the scope of an HSCA interim response.

Proposed Response

The Department has selected Alternative 3, the removal of all surface waste and debris along with the removal of all wastes within the site processing building to an offsite disposal facility and the implementation of institutional and engineering controls. Also, the remains of the site processing building as well as the maintenance garage and related structures would be demolished and the debris disposed of at an approved offsite disposal facility. The institutional and engineering controls under this alternative include a clean soil cover and deed notices. This alternative will protect human health by isolating the contamination from human contact. Isolating the contamination will eliminate the direct contact, inhalation and ingestion pathways. Deed notices will be implemented to help ensure the contamination will remain isolated and that the groundwater at the site will not be utilized. This alternative meets the requirements of an HSCA interim response.

The administrative record, which contains the information that forms the basis and documents the selection of this response action, is available for public review. The administrative record will be available for public inspection from 8 a.m. to 4 p.m., Monday through Friday, at the Department's Northeast Regional Office located at 2 Public Square, Wilkes-Barre, PA 18711.

Written comments concerning the response or information in the administrative record will be accepted in person, if delivered, or by mail, if postmarked, on or before May 22, 1998, to the attention of Joseph Iannuzzo, Project Officer, Hazardous Sites Cleanup Program, at the Northeast Regional Office address.

Additionally, the public will have an opportunity to present oral comments at a public hearing. The public hearing has been scheduled for April 7, 1998 at 1 p.m. at the Butler Township Municipal Building which is located on Route 61 in Butler Township. Persons wishing to present oral testimony must register on or before March 24, 1998 by calling Joseph Iannuzzo at (717) 826-2589. Persons interested in finding out if anyone has registered or the location of the hearing should contact Joseph Iannuzzo. The Department may cancel the hearing if no one registers to present comments by the above date.

The Department is providing this notice under section 506(b) of the HSCA. The date of publication of this notice in the *Pennsylvania Bulletin* initiates the minimum 90-day public comment period on the administrative record, as provided under that act. Questions concerning this site may be directed to Joseph Iannuzzo at (717) 826-2589.

Persons with a disability who wish to attend the public hearing referenced above and require an auxiliary aid,

service or other accommodation to participate in the proceedings, should contact Joseph Iannuzzo directly or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Notice of Settlement Under the Hazardous Sites Cleanup Act

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C.A. §§ 9601—9675), has entered into a settlement relating to the cleanup of the AIW Frank/Mid-County Mustang National Priority List (NPL) Superfund Site (site) in Exton, PA. The settlement involves a Consent Order and Agreement between the Department and Lewis and Ruth Frame (Frames), who are potentially responsible parties as owners of a portion of the site during a release of hazardous substances at the site.

The site consists of approximately 16 acres along Business Route 30 just east of the intersection of Ship Road in Exton, PA. Between approximately 1975 and 1996, the AIW Frank Corporation used a portion of the site, the AIW Frank property, for manufacturing Styrofoam products. During AIW Frank's operations, and during the time when the Frames owned the AIW Frank property, hazardous substances were released on and about the property, leading to soil and groundwater contamination.

The United States Environmental Protection Agency (EPA) and the Department have concurred on the appropriate remedial response for the site as documented in an EPA Record of Decision (ROD) dated September 29, 1995. The remedial action includes excavation and disposal of contaminated soils, removal of drums and extraction and treatment of groundwater, as well as long term monitoring of groundwater at the site. Under the terms of the proposed Consent Order and Agreement, the Frames will perform certain remedial work at the site, and will reimburse a portion of the costs incurred by the Department in connection with the site.

This notice is provided under section 1113 of the HSCA (35 P. S. § 6020.1113). The Department will provide for a 60-day public comment period on the proposed Consent Order and Agreement from the date of publication of this notice. The proposed Consent Order and Agreement may be examined from 8 a.m. to 4 p.m. at the Department's office at Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, by contacting David Ewald at (610) 832-6200 or Paul Rettinger at (610) 832-6300 during normal business hours. Persons may submit written comments to David Ewald at the above address. The Department will provide a response to all significant written comments received during the public comment period, and the proposed Consent Order and Agreement authorizes the Department to withhold or withdraw its consent in the event that the Department determines, based on comments received during the public comment period, that the Consent Order and Agreement is inappropriate, improper or not in the public interest.

Notice of Settlement Under the Hazardous Sites Cleanup Act

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) and the Comprehensive Environmental Response, Com-

pensation and Liability Act (CERCLA) (42 U.S.C.A. §§ 9601—9675), has entered into a settlement relating to the cleanup of the Nicolet HSCA Site (site) located at 600 and 700 East Washington Street, Borough of Norristown, Montgomery County, PA. The settlement involves a Consent Order and Agreement between the Department and Reading Company (Reading) and Reading Real Estate Company (Reading Real Estate), who are potentially responsible parties as, respectively, a sublessor and an owner of a portion of the site during a release of hazardous substances.

The site consists of two adjacent parcels of land totaling approximately 7.65 acres. One of the parcels (the Reading Real Estate Property) was subleased by Reading and is currently owned by Reading Real Estate. During Reading Real Estate's ownership, the Reading Real Estate Property was leased to Reading and subleased by Reading to Nicolet, Inc., which used the site for fabricating asbestos-containing products, during which hazardous substances, including asbestos, were released on the site.

As result of the Department's investigation of the site, the Department has proposed an interim response at the site as documented in a Department Statement of Decision (SOD) dated December 10, 1997. The interim response includes removal of all hazardous materials, and further investigation of the site to identify any additional materials or contaminated soil which pose a threat to the public health or safety or to the environment. Under the terms of the proposed Consent Order and Agreement, Reading and Reading Real Estate will make an immediate payment of \$75,000 for response costs to be incurred by the Department in connection with the site.

This notice is provided under section 1113 of the HSCA (35 P. S. § 6020.1113). The Department will provide for a 60-day public comment period on the proposed Consent Order and Agreement from the date of publication of this notice. The proposed Consent Order and Agreement may be examined from 8 a.m. to 4 p.m. at the Department's office at Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, by contacting David Ewald at (610) 832-6200 or Paul Rettinger at (610) 832-6300 during normal business hours. Persons may submit written comments to David Ewald at the above address. The Department will provide a response to all significant written comments received during the public comment period, and the proposed Consent Order and Agreement authorizes the Department to withhold or withdraw its consent in the event that the Department determines, based on comments received during the public comment period, that the Consent Order and Agreement is inappropriate, improper or not in the public interest.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation

standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program in the Department's Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Bureau of Deep Mine Safety

The Bureau of Deep Mine Safety has approved a request for variance from **Maple Creek Mining, Inc.** The following notification contains a summary of this request. Complete copies of the variance request may be obtained from Matthew A. Bertovich by calling (724) 439-7304.

Summary of the Request: Maple Creek Mining has requested permission to have shelter hole intervals not in excess of 135 feet along the track haulage entries in all development areas of the Maple Creek Mine.

The basis for the Bureau's approval can be summarized in the following statements:

1. Crosscuts that will serve as shelter holes will be maintained free of obstructions and debris, other than normal roof to ground support, such as posts and/or cribs. Clearance will be maintained for a depth of at least 15 feet the entire width of the crosscut except where the posts and/or cribs are built. To provide access into the crosscut, at least one 4-foot minimum width opening will be provided between such cribs and/or posts.

2. Pedestrians will have the right-of-way on the track haulage. Vehicle operators will stop until the pedestrian has reached a shelter hole or has walked past.

3. Locomotives used to transport supplies or equipment must be of sufficient size (tonnage) to be able to stop their loads within a safe distance.

4. All vehicles will be operated at speeds which will allow quick and safe stops under prevailing track conditions.

5. Shelter holes will be maintained at all switch throws and doors unless a crosscut designated as a shelter hole is within 15 feet.

6. Supply cars and equipment shall be pulled by a locomotive in the direction of travel. When it is necessary to push nonpropelled (supply cars, and the like) track haulage equipment, it shall be done only from the last available track switch. Trip lights shall be used on the end that does not have a locomotive coupled.

7. Personnel working along track haulage roads will be provided with flashing or reflective warning devices which will be readily visible to approaching track-mounted vehicles. These devices will be placed not less than 50 feet from either end of the work site.

8. All personnel will be adequately trained and instructed concerning shelter hole procedures and safety precautions.

9. Signs will be posted at the entrance to the track haulageway where the variance is in effect that states "Extended Shelter Hole Intervals."

10. A copy of the approved variance will be posted on the mine bulletin board.

11. A means of identifying shelter hole locations shall be provided by means of a reflective indicator/marker that is visible from along the track haulage travelway. Markers shall be of standardized color and design.

This approval is limited to a variance from the distance requirements for shelter holes contained in section 268(b) of the Bituminous Coal Mine Act. All other terms and requirements of section 268 shall remain in effect. Continued authorization for operation under the approval is contingent upon compliance with the measures described in the approved plan.

Office of Vocational Rehabilitation; Public Meetings

The Department of Labor and Industry, Office of Vocational Rehabilitation, (OVR) under the Rehabilitation Act of 1973 as amended in 1992, announces a series of public meetings to be conducted throughout the Commonwealth. The purpose of the meetings is to provide individuals, advocates and other interested parties and/or organizations the opportunity to present their views and recommendations regarding vocational rehabilitation services for persons with disabilities. In Pennsylvania, those services are provided by OVR through a network of 15 District Offices and the Hiram G. Andrews Center.

OVR is required, under law, to develop and implement a State Plan and a Strategic Plan, both of which must be reviewed and, as necessary, revised annually. These Plans, currently in effect for the period 1998 through 2000, are compliance documents filed with the Commissioner, Rehabilitation Services Administration, United States Department of Education. Together they are the blueprints for provision of vocational rehabilitation services to persons with disabilities in the Commonwealth of Pennsylvania. Customer input received through this series of public meetings will be used to measure the effectiveness of Office of Vocational Rehabilitation's State and Strategic Plans and will form the basis upon which those Plans may be revised. Copies of Office of Vocational Rehabilitation's State and/or Strategic Plans are available upon request.

Testimony relevant to any aspect of vocational rehabilitation services for persons with disabilities is invited. Input focusing on customer awareness/understanding of OVR services, customer satisfaction with OVR services, and recommendations for improvements to OVR services will be particularly helpful.

All meeting sites are accessible and interpreters for people who are deaf or hard of hearing will be present at each public meeting. For additional information, reasonable accommodation requests, or alternative format requests please call the OVR District Office conducting the public meeting you wish to attend.

If an individual or organization is unable to attend the public meetings, but wishes to give testimony, written comments may be mailed to the appropriate District Office serving the area in which the individual/organization resides. Written comments should be submitted to that District Office by Friday, April 24, 1998.

A listing of OVR District Offices and the Hiram G. Andrews Center, their addresses and toll-free telephone numbers follows. The OVR public meetings are planned for the first 2 weeks of April, 1998. Persons/organizations wishing to obtain information regarding the specific time

and location of the meeting(s) in their area, copies of the OVR State and Strategic Plans, or other information regarding OVR services should contact the OVR District Office in their area.

DEPARTMENT OF PUBLIC WELFARE

Public Notice of the Department's Intent to Establish a New Class of Disproportionate Share Payments

The purpose of this announcement is to provide prior public notice of the Department of Public Welfare's (Department) intent to establish a new class of disproportionate share payments effective March 1, 1998.

The Department intends to make this payment, in addition to the classes of payment already provided under the Medical Assistance Program, to those hospitals which

render uncompensated care and which the Department has determined are experiencing significant revenue loss as a result of Medical Assistance Program revisions under Act No. 1996-35.

The Department intends to consider a hospital eligible for these payments if:

- based on the Department's determination of GA/MNO discontinued eligibility, the hospital's annual net patient revenue loss exceeds \$3.2 million and the hospital received less than \$1.8 million in annual direct medical education payments in fiscal year 1996-97; or
- based on the Department's determination of GA/MNO discontinued eligibility, the hospital's annual net patient revenue loss exceeds \$3.2 million, the hospital received annual direct medical education payments of over \$1.8 million in FY 1996-97 and the hospital's loss of total annual Medical Assistance revenue is less than 15%; or
- based on the Department's determination of GA/MNO discontinued eligibility, the hospital's annual net patient revenue loss exceeds \$2.5 million with a percentage loss of net patient revenue exceeding 6%; or
- the hospital was eligible for disproportionate share as a rural hospital as defined under the Department's disproportionate share payment policy in calendar year 1997.

The Department will allocate \$10 million from the State General Fund for this additional class of disproportionate share payments. The payments will be made to qualifying hospitals based on their percentage of discontinued revenue to the total discontinued revenue of all qualifying hospitals. The payments to hospitals may not exceed the Commonwealth's aggregate annual disproportionate share allotment, and no hospital may receive disproportionate share payments in excess of its hospital-specific limit.

Fiscal Impact

For Fiscal Year 1997-98, the fiscal impact as a result of the disproportionate share payment will be \$21.45 million in total funds (\$10 million in State General funds and \$11.45 million in Federal funds).

The goal for Disadvantaged Business Enterprise (DBE) participation in this Agreement shall be fifteen (15%) percent of the total contract price. Additional information concerning DBE participation in this Agreement is contained in the General Requirements and Information section after the advertised project(s).

The second copy of the letter of interest and required forms (see general requirements and information section) shall be sent to: Mr. Robert J. Horutz, P.E., District Liaison Engineer, District 4-0, P. O. Box 111, Scranton, PA 18501.

Any technical questions concerning the requirements for this project should be directed to: Mr. Robert J. Horutz, P.E., Liaison Engineer, Engineering District 4-0, at (717) 963-4064.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

General Requirements and Information

Firms interested in providing the above work and services are invited to submit two copies of a Letter of Interest and required information for each Project Reference Number for which the applicant wishes to be considered.

The first copy of the Letter of Interest and required information must be submitted to:

Mr. Charles W. Allwein, P.E., Chief
Consultant Selection Committee
7th Floor, Forum Place,
555 Walnut Street
P. O. Box 3060
Harrisburg, Pennsylvania 17105-3060

Note: The Zip Code for express Mailing is 17101-1900

The Letter of Interest and required information must be received within twenty (20) calendar days of this Notice. The Deadline for receipt of a Letter of Interest at the above address is 4:30 p.m. prevailing time of the twentieth day.

The second copy of the letter of interest and required information must be submitted to the appropriate District Engineer/Administrator or the Bureau Director as indicated in the individual advertisement. This copy must be postmarked or delivered on or before the deadline indicated above.

If an individual, firm, or corporation not authorized to engage in the practice of engineering desires to submit a Letter of Interest, said individual, firm, or corporation may do so as part of a Joint Venture with an individual, firm, or corporate which is permitted under the state law to engage in the practice of engineering.

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum

opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The Act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act), WBEs or combinations thereof.

Proposing DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Each Letter of Interest must include the following information and the information must be packaged and presented in the following order:

1. Transmittal Letter (Maximum of two (2) 8 1/2" x 11" typed pages, one side)

The subject heading of the transmittal letter must include the project reference number for which the applicant wishes to be considered, the firm's legal name, fictitious name (if applicable), and the firm's federal identification number. If the project advertisement indicated the Department will retain an engineering firm for the project, the applicant must indicate in the body of their transmittal letter the names and Professional Engineer License Number of individuals who are directing heads or employees of the firm who have responsible charge of the firm's engineering activities, and whose names and seals shall be stamped on all plans, specifications, plats, and reports issued by the firm.

2. Project Organization Chart (one 8 1/2" x 11" page, one side)

This Chart must show key staff from the prime and each subconsultant and their area of responsibility.

3. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project" (one Form 255 for the project team).

The Standard Form 255 must be signed, dated, and filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project. Under Item 4 of this form, Column A must include the number of subconsultant personnel and Column B must include the number of prime consultant personnel to be assigned to work on this project reference number. The prime and each subconsultant may include no more than one page each for Items 10 and 11.

If a Disadvantage Business Enterprise (DBE) goal is specified for the project, the DBE must be currently certified by the Department of Transportation, and the name of the DBE and the work to be performed must be indicated in Item No. 6. If a Woman Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

4. Standard Form 254, "Architect-Engineer for Related Services Questionnaire"

A Standard Form 254, not more than one (1) year old as of the date of this advertisement, must accompany each Letter of Interest for the firm, each party to a Joint Venture, and for each subconsultant the firm or Joint Venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor, or a Company, unless an acceptable Standard Form 254 for the prime and each subconsultant/subcontractor is on file in both the Bureau of Design and the Engineering District Office or Central Office Bureau identified in the individual project advertisement.

If the Standard Form 254 is not submitted with the Letter of Interest, the transmittal letter shall indicate the dates that the Standard Forms 254 were submitted to the Bureau of Design and appropriate Engineering District/Central Office Bureau.

These Forms must be assembled with the prime's form first, followed by the form for each subconsultant in the same order as the subconsultants appear in Item 6 of Form 255.

5. Workload Projection Graph (Not required for Construction Inspection Services)

Separate Workload Projection Graphs for the prime and each subconsultant shown in Item 6 of the Form 255 must be included and must indicate the firm's current and anticipated workload compared to the anticipated capacity available for the next two-year time frame. The Workload Projection Graphs must be submitted for the office(s) where the work would be performed and must only include the personnel classifications required for providing the advertised services and work.

6. Authorization Letters (if required)

If the advertisement requires a letter signed by individuals giving their approval to use their name in the Letter of Interest, the letters from proposed prime employees must be first, followed by subconsultant employees, in the same order as shown in Item 6 of Form 255.

7. Registration To Do Business

Firms with out-of-state headquarters or corporations not incorporated in Pennsylvania must include, with each Letter of Interest, a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

8. Overhead Rates (one page)

A single page summary must indicate the latest audited overhead rate developed in accordance with Federal Acquisition Regulations (FAR) for the prime consultant and each subconsultant. If a FAR rate is not available, the latest rate available from a Certified Public Account must be indicated. New firms should indicate how long the firm has been in existence and when an audited overhead rate would be available.

9. Additional Information

Additional information, not to exceed ten (10) one sided 8 1/2" x 11" pages or five (5) double sided 8 1/2" x 11" pages may be included at the discretion of the submitting firm.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who

submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services.

Pennsylvania Public Utility Commission, Bureau of Transportation and Safety v. Sheila's Delivery Service, Inc.; Doc. No. A-00110505C9701

Complaint

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania, empowered to regulate motor carriers and brokers within this Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Transportation and Safety and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. In response to the Federal Authorization Aviation Act of 1994, which, inter alia, amended the Interstate Commerce Act at 49 U.S.C. §§ 14501(c) and 41713(b), this Commission on December 20, 1994, issued an order at P-00940884 which set forth new application procedures for motor carriers of property. The order directed that former contract carriers of property would be deemed to be common carriers of property. As common carriers of property, they were now required to file evidence of cargo insurance with this Commission, as required by 52 Pa. Code § 32.13, in addition to bodily injury and property damage insurance, as required by 52 Pa. Code § 32.12.

2. That by virtue of the Commission's order at Docket No. P-00940884, Sheila's Delivery Service, Inc., respondent, which has its principal place of business at 827B Woodlyn Avenue, Sharon Hill, PA 19079, who held contract carrier authority at Docket No. A-00110505, was deemed to now hold common carrier authority.

3. The Commission, by letter dated November 8, 1996, directed the respondent, to file acceptable evidence of cargo insurance.

4. That pursuant to Section 512 of the Public Utility Code, 66 Pa.C.S. § 512 and 52 Pa. Code Chapter 32, respondent is required to maintain evidence of current insurance on file with this Commission.

5. That respondent has failed to maintain evidence of cargo insurance, in violation of the Public Utility Code, 66 Pa.C.S. § 512, and 52 Pa. Code § 32.13.

6. That as a result of failure to maintain evidence of current cargo insurance on file with this Commission, the Bureau of Transportation and Safety Prosecutory Staff requests that the Commission revoke respondent's certificate of public convenience or order such other remedy as the Commission may deem to be appropriate.

Wherefore, the Bureau of Transportation and Safety Prosecutory Staff hereby requests that the Commission revoke the certificate of public convenience held by Sheila's Delivery Service, Inc. at Docket No. A-00110505, for failure to maintain current evidence of insurance on file with the Commission or order such other remedy as the Commission may deem to be appropriate.

Respectfully submitted,

Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. In response to the Federal Authorization Aviation Act of 1994, which, inter alia, amended the Interstate Commerce Act at 49 U.S.C. §§ 14501(c) and 41713(b), this Commission on December 20, 1994, issued an order at P-00940884 which set forth new application procedures for motor carriers of property. The order directed that former contract carriers of property would be deemed to be common carriers of property. As common carriers of property, they were now required to file evidence of cargo insurance with this Commission, as required by 52 Pa. Code § 32.13, in addition to bodily injury and property damage insurance, as required by 52 Pa. Code § 32.12.

2. That by virtue of the Commission's order at Docket No. P-00940884, Rieder Transportation Co., Inc., respondent, which has its principal place of business at 214 Orlando Avenue, Gloucester City, NJ 08030, who held contract carrier authority at Docket No. A-00107367, was deemed to now hold common carrier authority.

3. The Commission, by letter dated November 8, 1996, directed the respondent, to file acceptable evidence of cargo insurance.

4. That pursuant to Section 512 of the Public Utility Code, 66 Pa.C.S. § 512 and 52 Pa. Code Chapter 32, respondent is required to maintain evidence of current insurance on file with this Commission.

5. That respondent has failed to maintain evidence of cargo insurance, in violation of the Public Utility Code, 66 Pa.C.S. § 512, and 52 Pa. Code § 32.13.

6. That as a result of failure to maintain evidence of current cargo insurance on file with this Commission, the Bureau of Transportation and Safety Prosecutory Staff requests that the Commission revoke respondent's certificate of public convenience or order such other remedy as the Commission may deem to be appropriate.

WHEREFORE, the Bureau of Transportation and Safety Prosecutory Staff hereby requests that the Commission revoke the certificate of public convenience held by Rieder Transportation Co., Inc. at Docket No. A-00107367, for failure to maintain current evidence of insurance on file with the Commission or order such other remedy as the Commission may deem to be appropriate.

Respectfully submitted,

Joseph W. Farrell

and Safety

PROPOSED RULEMAKING

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CHS. 3480 AND 3490]

Protective Services

The Department of Public Welfare (Department) under the authority of Articles VII and IX of the Public Welfare Code (62 P.S. §§ 701—704 and 901—922); 42 Pa.C.S. §§ 6301—6365 (relating to Juvenile Act); section 2168 of the County Code (16 P.S. § 2168); section 405 of the County Institution District Law (62 P.S. § 2305); and of 23 Pa.C.S. §§ 6301—6385 (relating to the Child Protective Services Law) (CPSL), proposes to amend Chapter 3490 (relating to protective services) to read as set forth in Annex A.

Purpose

It is the purpose of Chapter 3490 to encourage more complete reporting of suspected child abuse; to the extent permitted by this chapter, to involve law enforcement agencies, as permitted by this chapter, in responding to child abuse; and to establish in each county, protective services for the purpose of investigating the reports swiftly and competently, providing protection for children from further abuse and providing rehabilitative services for children and parents involved so as to ensure the child's well-being and to preserve, stabilize and protect the integrity of family life wherever appropriate. It is also the purpose of this chapter to ensure that each county children and youth agency establish a program of protective services for neglected children with policies and procedures to assess the risk of harm to a child and with the capabilities to respond adequately to meet the needs of families and children who may be at risk and to prioritize the response and services to children most at risk.

It is also the purpose of this chapter to provide for investigations of reports of suspected abuse of students by school employes and screen applicants for employment in schools to determine whether or not the applicant has a prior history of abusing children. It is also the purpose of this chapter to establish a training and certification program for all county children and youth agency staff who provide direct services to abused and neglected children.

Need for the Proposed Amendments

These proposed amendments are needed to implement the act of December 16, 1994 (P. L. 1286, No. 151) (Act 151) and Act 10 of 1995 (Special Session), clarify existing regulations that need to be changed and delete Chapter 3480.

Children deserve to grow up in safe, nurturing homes. Sadly, many are victims of child abuse and neglect. It is a problem that has devastating effects on children, families and our Commonwealth. In 1995, over 6,000 children in this Commonwealth were abused by their parents or other individuals responsible for their care and 33 died from abuse. These proposed amendments will improve the ability to protect children from abuse and neglect.

Requirements

a. Section 3490.4 (relating to definitions). The definition of "child abuse" has been amended to:

1. Require the county children and youth agencies to investigate only those reports of suspected serious physical injury that are reported within 2 years of the date the alleged abuse occurred. It is reasoned that if a child has not been abused within 2 years that further abuse is unlikely. This amendment allows the county agencies to concentrate their efforts on preventing reabuse of children who have been abused and are more likely to be abused than on children who have not been abused within 2 years.

2. Include situations of imminent risk of serious physical injury to or sexual abuse or sexual exploitation of a child. This proposed amendment would prevent the abuse of children when there is a high probability of abuse.

3. Require mandated reporters to make a report of suspected child abuse when they have reasonable cause to suspect, on the basis of their medical, professional or other training and experience, that a child coming before them in their professional or official capacity is an abused child. The standard of when they are mandated to report has been changed from "reasonable cause to believe" to "reasonable cause to suspect." This should result in protection for more children and a slight increase in the number of reports of suspected child abuse.

b. Section 3490.39 (relating to expunction from the Statewide Central Register) requires the Department to establish a subfile of the names of perpetrators of indicated and founded reports of child abuse and student abuse in the Statewide Central Register when the Social Security number or date of birth of the person responsible for the abuse is known. These reports will remain on file indefinitely. This will aid the county agencies in protecting future children who are abused by a perpetrator known to have abused a child previously and after the rest of the record of the previous abuse has been expunged.

c. Section 3490.56 (relating to the county agency or Department's investigation of suspected child abuse perpetrated by persons employed or supervised by child caring agencies and residential facilities) requires child care agencies and residential facilities to develop and implement a plan of supervision or alternative arrangements for the individual under investigation as the alleged perpetrator when the child is allegedly abused by an employe of the agency or facility. The plan must be approved by the county agency. This will protect the child reported as abused and other children in the care of the agency or facility until the investigation is completed and a decision is made regarding the future employment status of the employe.

d. Sections 3490.61 and 3490.235 (relating to supervisory review and child contacts; and services available through the county agency for neglected children) require the county agency supervisor to review reports of suspected abuse that are under investigation and reports of suspected neglect that are being assessed on an ongoing and regular basis to ensure the safety of the child and the progress made toward reaching a status determination. These sections also require the county agency to assure that contacts are made with the child and parents as often as necessary for the protection of the child but no less often than once a week when the child is at high risk of abuse or neglect. These changes are proposed as a result of the Department's experience in reviewing county agency performance relating to case planning and client contacts.

e. Section 3490.105(a) (relating to request by a perpetrator to amend or expunge an indicated report of child abuse received by ChildLine after June 30, 1995) requires perpetrators of indicated reports of child abuse who seek to have the report amended or expunged to request the Secretary of the Department to amend or expunge the report within 45-calendar days of the mailing date of the letter from ChildLine. This protects the child from having to testify at a hearing about something that may have happened a long time ago and that the child may have forgotten.

f. Section 3490.108 (relating to cooperation of county agencies and law enforcement agencies) requires the county agencies and law enforcement officials to cooperate and coordinate their investigations of reports of suspected child abuse to the extent permitted by law. The law was amended in 1982 to require reporting of certain types of child abuse to law enforcement officials but did not provide for cooperation between the two agencies. This proposed amendment builds on this change by requiring closer cooperation and coordination of these two agencies which will help to reduce the trauma to children of having to repeat what happened to them numerous times to numerous people. The Office of Children, Youth and Families in the Department and the Pennsylvania District Attorneys Association have formed a workgroup to foster better working relationships between the two agencies. It will also provide greater protection for abused and neglected children because of the possibility of criminal prosecution and incarceration.

The proposed amendment does not provide specific requirements relating to when or how coordination should occur, because there will be occasions when cooperation and coordination will be difficult because of the circumstances of the abuse.

g. Section 3490.109 (relating to report from law enforcement agencies) requires law enforcement agencies to notify the county agency if a criminal investigation has been undertaken and the results of the investigation and prosecution on child abuse reports referred to them by the county agency. Prior to Act 151, county agencies were required to notify law enforcement officials of certain instances of suspected child abuse. However, there was not a requirement for law enforcement officials to notify the county agency of the results of the referrals. There is no statistical data on the disposition of referral made by county agencies to law enforcement officials. This change will provide necessary information on criminal justice outcomes from law enforcement referrals by county agency staff.

h. Sections 3490.131—3490.137, under the center heading "Verification of Existence of Child Abuse and Student Abuse Records for School Employes," require administrators of schools to require all applicants for position as school employes, including independent contractors and their employes who work directly with children, to submit a clearance statement from the Statewide Central Register which is the State repository of all founded and indicated reports of child abuse and student abuse. A clearance determines if the applicant's name is on file as a perpetrator of child abuse or student abuse. An administrator or independent contractor may not hire an applicant if the applicant is a perpetrator of a founded report of child abuse or student abuse. This prevents persons who have abused a child in the past from working in a school where they may abuse a child in the future. While the law does not prohibit an administrator or contractor from hiring a perpetrator of an indicated report of child

abuse or student abuse, it encourages the administrator to request the applicant for additional information, thereby, allowing the administrator to make an informed decision based on information obtained from the Statewide Central Register.

i. Subchapter B (relating to students in public and private schools) provides for reporting and investigating reports of suspected serious bodily injury or sexual abuse or sexual exploitation of a student by a school employe. School administrators are required to report suspected student abuse to the district attorney and local law enforcement officials. The law enforcement official is required to investigate the allegation and to report the suspected student abuse to the county agency if the official has reasonable cause to suspect that the child was abused by a school employe. The county agency is required to investigate the report to determine whether the report is a founded, indicated or unfounded report of student abuse. Unfounded reports are expunged from the State and county files within 120-calendar days of when the report was received at ChildLine. Founded and indicated reports are expunged from the Statewide Central Register when the child turns 23 years of age. However, except for the identity of the child, information on founded and indicated reports of student abuse are maintained indefinitely when the Social Security number or date of birth of the school employe who abused the student is known. A person responsible for the abuse in an indicated report of student abuse has the right to request the Secretary of the Department to amend or expunge the report. Subchapter B will provide protection for children who are abused by a school employe and prevent perpetrators of child abuse and student abuse from being employed in positions where they may abuse another child.

j. Subchapter C (relating to general protective services) requires each county agency to administer a program of general protective services for neglected children who have been assessed as needing protective services to prevent abuse, neglect and exploitation; keep children in their own homes when possible; overcome problems that result in dependency; provide temporary substitute care; reunite families when children have been placed in out-of-home care; provide permanent legally assured care for children who cannot return home; and provide services for children adjudicated dependent by a court. "Neglect" is defined as: acts or omissions by a parent or the primary person responsible for the care of a child which result in a failure to provide the essentials of life and which create a potential for harm to the child's safety, functioning or development. A child may not be considered neglected based solely on environmental factors that are beyond the control of the parent or the primary person responsible for the child's care including inadequate housing, furnishings, income, clothing and medical care. For purposes of the definition of "neglect," the following terms have the following definitions:

(i) "Essentials of life"—Food, shelter, clothing, health care, personal care, education as required by law, proper supervision and protection from physical, sexual or emotional injury.

(ii) "Primary person who is responsible for the care of a child"—A person who provides or arranges ongoing care and supervision to a child in lieu of parental care and supervision.

(iii) "Potential for harm"—Likely, if permitted to continue, to have a detrimental effect on the child's health, development or functioning. The term does not include

imminent risk as defined in the definition of "child abuse" in § 3490.4 (relating to definitions).

This subchapter establishes provisions for county agencies to receive and assess reports of suspected child neglect. The subchapter establishes those services that county agencies must have available for neglected children and their families both during and after the assessment. It establishes recordkeeping procedures for county agencies for general protective services. This subchapter defines what neglect is and establishes the requirements for general protective services. The purposes of the subchapter are to protect children who are neglected and protect neglected children from being abused. The county agencies are currently providing general protective services under Chapter 3480.

k. Subchapter D (relating to staff orientation, training and certification requirements) provides that the Department, in conjunction with a steering committee cochaired by a representative of the Department and a representative from the Pennsylvania Children and Youth Administrators, Inc., establish a training and certification program for county agency staff who provide direct services. County staff who had regular employment status on June 30, 1996, were certified and not required to complete any of the required training courses. Staff hired on or after July 1, 1996, will be required to complete 120 hours of CORE training and be recommended by the person's supervisor for certification. Staff who are not certified as direct service workers may not provide protective services. The proposed amendments also require annual training for direct service workers. The certification requirements will insure that all direct service workers have met minimum training requirements and have been approved by the county agency as certified direct service workers. This will result in better services to children and their families and aid in recruiting and retaining staff who will be better qualified to provide services.

l. Subchapter D (relating to risk assessment) requires that the Department and the county agencies establish a State-approved risk assessment process to aid in determining the amount of risk to a child if the child remains in the child's own home or is returned home from placement. The county agencies are using a State-approved risk assessment process. Risk assessment is a valuable tool for staff to help to determine the risk of harm to a child and to determine what services are necessary to protect the child until agency involvement is no longer needed.

m. Section 3490.331 (relating to annual report on required activities) requires the Department to include in the annual report to the Governor and General Assembly the number of reports of suspected child abuse and neglect, student abuse, the number of children the county agency is providing services to, the cost to implement the CPSL, the number of reports made to law enforcement officials and any recommendations for Legislative change. This report will provide more complete information on the scope of the problem of abuse and neglect, the number of children receiving services from the county agencies, the cost to implement the law and changes needed to provide even service improvement to abused and neglected children.

n. Section 3490.361 (relating to requirements for agencies providing protective services) requires private agencies providing protective services arranged by the county agency to comply with §§ 3130.21(4), 3130.39 and 3130.40 (relating to responsibilities of county executive

officers; services and facilities which may be used; and delivery of services through other service providers).

o. Section 3490.362 (relating to requirements for persons providing services arranged or provided by the county agency) requires professional persons providing services to abused and neglected children to have a valid license issued by the Department of State when their profession is subject to mandatory licensure. This will insure that services to abused and neglected children and their families are provided by qualified staff.

p. Section 3490.401 (relating to intercounty transfer of cases) proposes requirements relating to the transfer of information from one county to another county when the child or parent moves to another county and the case is being investigated for suspected child abuse, being assessed for suspected child neglect or was accepted by the county agency for protective services. These revisions are proposed as a result of the Department's experience in reviewing county agency performance relating to this issue.

Affected Individuals and Organizations

The proposed amendments will affect children and youth and their families. It will also affect public and private children and youth agencies, law enforcement officials, school employes and persons whose employment, occupation or practice of their profession bring them into direct contact with children.

Fiscal Impact

(a) *Public Sector*

(1) The cost for FY 1997—98 is in the appropriation for payments to counties for child welfare services and is based on information provided to the Department through the needs-based budgeting process.

(2) The estimate for FY 1998—99 is based on previous spending patterns of the county agencies.

(3) The estimate for FYs 1999—00 through 2000—02 includes an annual increase of 3%.

Year	1997-98	1998-99	1999-00	2000-01	2001-02
State	\$853	\$878	\$904	\$931	\$958
Counties	213	219	226	233	239
Total	\$1,066	\$1,097	\$1,130	\$1,164	\$1,197

(The figures are in thousands)

(b) Estimated savings to the State and counties as a result of the proposed amendments.

Any savings were factored into the estimated budgets that counties submitted to the Department.

Private Sector

These proposed amendments require an applicant for employment in a school to pay up to \$10 to the Department to verify whether or not the applicant's name is on file in the Statewide Central Register of founded and indicated reports of child abuse and student abuse. In Calendar Year 1996, ChildLine received 192,149 requests for clearance statements from applicants for employment where the applicants have direct contact with children. Of these 192,149, 88,000 were as a result of the amendment that requires applicants for employment in schools to receive a clearance statement from ChildLine. We estimate the number of requests will increase by 5% a year.

	1997	1998	1999	2000	2001
Total	\$924	\$970	\$1,018	\$1,069	\$1,123

(c) *General Public*

There will be no costs to the general public, except for persons applying for employment in a school who are required to pay a \$10 fee to verify whether or not the person's name is on file in the Statewide Central Register of founded and indicated reports of child abuse and student abuse.

Paperwork Requirements

School administrators will be required to complete a portion of a form and send it to the district attorney and law enforcement officials when making a report of suspected student abuse. It will take approximately 15 minutes to complete this form.

Law enforcement officials will be required to complete the other portion of the form and send it to the county agency when the law enforcement official receives a report of suspected student abuse. It will take approximately 15 minutes to complete this form.

It is estimated that the costs to complete the form for reporting suspected student abuse will be nominal.

Law enforcement officials will also complete a brief form and send it to the county agency advising it of the status of a referral of suspected child abuse or student abuse that was made to law enforcement. This is a new requirement. It will take approximately 10 minutes to complete this form. While approximately 8,000 reports of suspected child abuse are made to law enforcement officials annually, it is not anticipated that this will impact in any significant way on the budgets of law enforcement agencies.

County agencies are required to assess the risk to an abused or neglected child and complete a risk assessment process. It is estimated that it takes approximately 20 minutes to complete the risk assessment process.

Protective service supervisors are required to complete an Individual Training Needs Assessment (ITNA) annually for each of their staff. The ITNA is a component of the certification and training program and is used to determine the training needs of a protective service worker. It takes approximately 45 minutes to complete an ITNA.

Effective Dates

These proposed amendments become effective upon publication in the *Pennsylvania Bulletin* as final rule-making.

Sunset Date

No sunset date has been established for these proposed amendments. The Secretary of the Department is required by the law and these proposed amendments to submit an annual report to the Governor and the General Assembly on the implementation of the law. The report must include recommendations to amend the law, thus, the Department is continuously evaluating the effectiveness of the law and the need for amendments.

Public Comment Period

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed amendments to the Department of Public Welfare, Joseph L. Spear, P. O. Box 2675, Harrisburg, PA 17105-2675, (717) 787-3986, fax (717) 787-0414 within 30-calendar

days after the date of publication in the *Pennsylvania Bulletin*. All comments received within 30-calendar days will be reviewed and considered in the preparation of the final-form regulations. Comments received after the 30-day comment period will be considered for any subsequent revisions of these amendments.

Regulatory Review Act

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 10, 1998, the Department submitted a copy of these proposed amendments to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Aging and Youth and the Senate Committee on Public Health and Welfare. In addition to submitting the proposed amendments, the Department has provided IRRC and the committees with a copy of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1. A copy of this material is available to the public upon request.

If IRRC has objections to any portion of the proposed amendments, it will notify the Department within 10 days of the close of the Committees' comment period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review, prior to final publication, of the amendments of objections raised, by the Department, the General Assembly and the Governor.

Direct contact with students—Access to children by a school employe who has routine and unsupervised access to children in the course of carrying out the employe's responsibilities in a school.

Independent contractor and the contractor's employes—A person employed in a position on a contractual basis with a school who has direct contact with students.

Position—The job classification of a school employe as defined and determined by existing law, State regulation or the school board or governing authority including administrative and supervisory staff, teachers, paraprofessionals, support staff or others.

(i) Public—School districts, intermediate units and area vocational-technical schools.

(ii) Registered—Nonpublic (religiously affiliated schools).

(iii) Licensed—Private academic schools that are licensed by the Department of Education (including residential facilities that hire their own staff to teach residents of the facility).

When a substitute seeks to have his name added to another school's substitute list, the substitute shall provide a current clearance statement to the additional school. The fact that a substitute appears on one school's substitute list is not sufficient evidence to allow another school to add his name to its substitute list.

(h) The administrator shall make a copy of the clearance statement and place it in the employe's personnel record.

§ 3490.133. Responsibilities of an applicant.

(a) An applicant shall submit a request for a clearance statement to the Department on the form

(c) The provisional period may not exceed:

(1) Thirty calendar days for residents of this Commonwealth.

A child will not be considered neglected based solely on environmental factors that are beyond the control of the parent or the primary person responsible for the child's care including inadequate housing, furnishings, income, clothing and medical care. For purposes of the definition of "neglect," the following terms have the following definitions:

(i) *Essentials of life*—Food, shelter, clothing, health care, personal care, education as required by law, proper supervision and protection from physical, sexual or emotional injury.

(ii) *Primary person who is responsible for the care of a child*—A person who provides or arranges ongoing care and supervision to a child in lieu of parental care and supervision.

(iii) *Potential for harm*—Likely, if permitted to continue, to have a detrimental effect on the child's health, development or functioning. The term does not include imminent risk as defined in the definition of "child abuse" in § 3490.4 (relating to definitions).

Report—A verbal or written statement to the county agency from someone alleging that a child is neglected.

COUNTY RESPONSIBILITIES

§ 3490.231. Functions of the county agency for general protective services.

Each county agency is responsible for administering a program of general protective services to neglected children that is consistent with the Department's objectives to:

- (1) Keep children in their own homes, whenever possible.
- (2) Prevent abuse, neglect and exploitation of children.
- (3) Overcome problems that could result in dependency.
- (4) Provide temporary, substitute placement in a foster family home, the home of a relative or residential child-care facility for children in need of this care.
- (5) Reunite children and their families, whenever possible, when children are in temporary, substitute placement.
- (6) Provide a permanent, legally assured family for children in temporary, substitute care who cannot be returned to their own home.
- (7) Provide services and care ordered by the court for children who have been adjudicated dependent.

§ 3490.232. Receiving reports and assessing the need for services.

(a) The county agency shall be the sole civil agency responsible for receiving and assessing all reports of suspected neglect. This subchapter does not limit section 6304 of the Juvenile Act (relating to powers and duties of probation officers).

(b) The county agency shall provide 24-hours-per-day/7-days-per-week telephone access to receive reports of suspected neglect.

(c) Upon receipt of a report, the county agency shall make an initial determination whether or not to:

- (1) Accept the report for an assessment.
- (2) Refer the information for other services provided by the county agency.
- (3) Refer the person to another agency.

(d) When the county agency accepts the report for an assessment, the county agency shall see the child immediately if emergency protective custody has been taken, is needed, or if it cannot be determined from the report whether or not emergency protective custody is needed. Otherwise, the county agency shall prioritize the response time for an assessment to assure that children who are most at risk receive an assessment first.

(e) The county agency shall use a State-approved risk assessment process as required by § 3490.321 (relating to establishment of standards for a risk assessment process) to:

- (1) Aid in its assessment of whether to accept the family for services.
- (2) Insure that its assessment is comprehensive.
- (3) Help determine the need for general protective services.

(f) The county agency shall complete an assessment to determine whether or not the child is neglected and whether or not the family should be accepted for general protective services within 60-calendar days from the date the agency received the report and accepted the report for an assessment under subsection (c)(1).

(g) The county agency shall see the child and visit the child's home during the assessment period. The home visits shall occur as often as necessary to complete the assessment and insure the safety of the child. There shall be a least one home visit.

(h) The county agency shall interview the child, if age appropriate, and the custodial parent or the primary

person who is responsible for the care of the child. The county agency shall also conduct interviews with those persons who are known to have or may reasonably be expected to have information that would be helpful to the county agency in determining whether or not the child is neglected and in need of general protective services.

(i) The county agency may make unannounced home visits.

(j) The county agency shall provide or arrange appropriate services when necessary to protect the child during the assessment period.

(k) The county agency shall initiate the appropriate court proceedings and assist the court during all stages of the court proceedings if the county agency determines that an assessment or protective services, or both, are in the best interest of a child and if an offer of an assessment, a home visit or services is refused by the parent or the primary person who has responsibility for the care of the child.

§ 3490.233. Protective custody.

(a) A child suspected of being neglected may be taken into protective custody under §§ 3490.15—349.17 and 3490.57.

(b) The director or a hospital or other medical facility or a physician examining or treating a child may take a child into protective custody if protective custody is immediately necessary in the director's or physician's judgment to protect the child and as indicated by the following examples:

(1) Medical indications of prolonged neglect, the seriousness of the neglect, statements of the parents indicating they are unlikely to seek necessary treatment for the neglect, which if not treated would lead to serious physical neglect.

(2) There is medical evidence that the child's physical condition constitutes a medical emergency which requires immediate hospitalization to prevent more serious neglect or serious physical impairment.

(3) The parents, after being advised that the child's physical condition constitutes a medical emergency will make no immediate arrangement for medically adequate alternative treatment.

§ 3490.234. Notifications.

(a) The county agency shall notify the custodial parent or the primary person who is responsible for the care of the child of the receipt of the report and that the county agency will do an assessment to determine the need for general protective services. The notification shall be made verbally at the time of the initial interview.

(b) The county agency shall provide written notice to the parents of the child suspected of being neglected and the primary person who is responsible for the care of the child of the county agency's decision to accept the family for general protective services because of neglect within 7-calendar days of making the decision. If the Department accepts the family for services, it shall include in the notice:

(1) The reasons why the Department accepted the family for services.

(2) The right of the custodial parent or the primary person responsible for the care of the child to appeal the county agency's decision that the child is neglected and is in need of services.

(3) The request for an appeal shall be received by the county agency within 45-calendar days of the mailing date of the written notice in this subsection.

(4) How to appeal the county agency's decision that the child is neglected and is in need of services.

(5) The appeal request shall specify the reasons why the child is not neglected and services are not needed.

§ 3490.235. Services available through the county agency for neglected children.

(a) The county agency shall provide, arrange or otherwise make available the same services for neglected children as for abused children under § 3490.60 (relating to services available through the county agency).

(e) The county agency supervisor shall review each report of suspected child neglect which is being assessed on a regular and ongoing basis to determine the safety of the child and the progress made toward reaching a determination on the need for protective services. The supervisor shall maintain a log of these reviews.

(f) When a case has been accepted for service and a family service plan has been developed under Chapter 3130, the county agency supervisor shall, within 10-calendar days of the completion of the family service plan, review the plan to assure that the level of activity, in person contacts with the child, oversight, supervision and services for the child and family which are contained in the plan, are consistent with the level of risk determined by the county agency for the case. Documentation of this review shall be in the case record.

(g) When a case has been accepted for services, the county agency shall monitor the safety of the child and assure that contacts are made with the child, parents and service providers. The contacts may occur by phone or in person but face-to-face contacts with the parent and the child shall occur as often as necessary for the protection of the child but at least:

(1) Once a week until the case is no longer designated as high risk by the county agency, if the child remains in or returns to the home in which the neglect occurred and the county agency has determined a high level of risk exists for the case.

(2) Once a month for 6 months or case closure when the child is either of the following:

(i) Placed out of the home or setting in which the neglect occurred.

(ii) Not at a high risk of abuse or neglect.

(h) A periodic assessment of the risk of harm to the child shall be conducted as required by the State-approved risk assessment process.

(i) Except when ordered by the court in a proceeding brought under the Juvenile Act, a county agency is not required to duplicate services which are the statutory responsibility of another agency.

(j) The county agency shall aid the child and the family in obtaining benefits and services for which they may qualify under Federal, State and local programs.

§ 3490.236. General protective services records.

(a) Records for reports that are accepted for general protective services shall be maintained under § 3130.43 (relating to family case records). In addition to the information required by § 3130.43, the records shall contain the following information:

The written appeal request shall be made to the county agency administrator and specify the reasons why the child is not neglected and in need of services.

(d) The county agency shall review the request and issue a written decision to the person who made the

request within 45-calendar days of the receipt of the appeal. If the agency denies the request, the person who made the request shall be advised in writing of his right to a hearing before the Department's Bureau of Hearings and Appeals and that this request shall be made within 45-calendar days of the date of the letter from the county agency notifying the person of the agency's decision denying the request.
