Maximum Lawful Rate of Interest for Residential Mortgages for the Month of May 2000

The Department of Banking (Department) under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of May 2000 is 9%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. 96-221). Further preemption was instituted with the signing of Pub. L. 96-399, which overrode State interest rate limitations on an individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as the principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 6.33 to which was added 2.50 percentage points for a total of 8.83 that by law is rounded off to the nearest quarter at 9%.

Secretary

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

APPLICATIONS RECEIVED UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standard and regulations the Department of Environmental Protection (Department) proposes to issue a permit to discharge subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision to 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid service or other accommodations to participate in the proceeding should contact the Secretary to the Board at (717) 787-3483. TDD users may contact the Department through the Pennsylvania AT&T Relay service at (800) 654-5984.

PA 0026077. SIC: 4952, Sewage, **Borough of Carlisle**, 53 West South Street, Carlisle, PA 17013.

This application is for amendment of an NPDES permit for an existing discharge of treated sewage to Conodoguinet Creek, in Middlesex Township, **Cumberland County**.

The receiving stream is classified for warm water fishes, recreation, water supply and aquatic life. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing downstream potable water supply intake considered during the evaluation was the Pennsylvania American Water Company located in Silver Spring Township, Cumberland County. The discharge is not expected to impact any potable water supply.

The proposed amended effluent limits for Outfall 001 for a design flow of 4.625 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Average Weekly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>

Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewaters into the surface waters of this Commonwealth. The Department of Environmental Protection (Department) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements. The updates will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management and total residual chlorine control (TRC). Major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Office indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on the Department's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

Applications under the Pennsylvania Clean Streams Law

(Part II Permits)

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection (Department).

Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department at

the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number; identification of the plan or application to which the protest is addressed; and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protest or protests. Each commentator will be notified in writing of the time and place if a hearing or conference concerning the plan or action or application to which the protest relates is held. To insure consideration by the Department prior to final

action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact the Secretary to the Board at (717) 787-3483. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

NPDES Individual

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. The proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision of 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments reviewed within this 30-day permit will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the office noted above the application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 1

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—304 and 305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intends to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified as proposed for remediation to a site-specific standard or as a special industrial

area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Nonmajor Sources and Modifications

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Offices identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits must submit the protest or comment within 30 days from the date of this notice. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the act.

OPERATING PERMITS

Applications received and intent to issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015).

Northeast Regional Office: Air Quality Program, Two Public Square, Wilkes-Barre, PA 17811-0790, (570) 826-2531.

40-313-033B: Coates Electrographics (Country Club Road, P. O. Box 160, Dallas, PA 18612) for operation of a toner production line and associated air cleaning device in Dallas Borough, **Luzerne County**.

66-320-001: Procter & Gamble Paper Products Co. (P. O. Box 32, Mehoopany, PA 18629) for operation of rotogravure printing operation on Route 87 in Washington Township, **Wyoming County**.

48-320-011: Alcom Printing Group Inc. (Lehigh Litho Inc.) (2285 Avenue A, LVIP, Bethlehem, PA 18017) for operation of three lithographic printing presses in Bethlehem, **Northampton County**.

54-399-027: Goulds Pumps (PA) Inc. (500 East Centre Street, Ashland, PA 17921) for operation of the argon, oxygen, decarbonization AOD System for foundry operation in Ashland Borough, **Schuylkill County**.

Southcentral Regional Office: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4702.

21-05025: Department of the Army (HQ Carlisle Barracks, Carlisle, PA 17013) for a synthetic minor operating permit for combustion units, emergency generators, space heaters and hot water heaters at the Carlisle Barracks in Carlisle Borough, **Cumberland County**.

Notice of Intent to Issue Title V Operating Permits

Under 25 Pa. Code § 127.521, the Department of Environmental Protection (Department) intends to issue a Title V Operating Permit to the following facilities. These facilities are major facilities subject to the operating permit requirements under Title V of the Federal Clean Air Act and 25 Pa. Code Chapter 127, Subchapters F and G (relating to operating permit requirements; Title V operating permits).

Appointments to review copies of the Title V application, proposed permit and other relevant information must be made by contacting Records Management at the regional office telephone number noted. For additional information, contact the regional office noted.

Interested persons may submit written comments, suggestions or objections concerning the proposed Title V permit to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall include the name, address and telephone number of the persons submitting the comments, along with the reference number of the proposed permit. The commentator should also include a concise statement of any objections to the permit issuance and the relevant facts upon which the objections are based.

The Department reserves the right to hold a public hearing on the proposed action based upon the information received during the public comment period and will provide notice of any scheduled public hearing at least 30 days in advance of the hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation where the facility is located.

Southeast Regional Office: Air Quality Program, 555 North Lane, Conshohocken, PA 19428, (610) 832-6242.

23-00030: Swarthmore College (500 College Avenue, Swarthmore, PA 19081-1397) located in Swarthmore Borough, **Delaware County**. The facility's major emission points include: 14 boilers and 10 emergency generators which emit major levels of nitrogen oxides (NOx).

09-00037: CMS Gilbreth (3001 State Road, Croydon, PA 19021) located in Bristol Township, **Bucks County**. The facility's major emission points include: flexographic and rotogravure printing presses, electroplating operations, and air pollution control devices which emit major levels of volatile organic compounds (VOCs).

46-00036: Ford Electronics & Refrigeration LLC (2750 Morris Road, Lansdale, PA 19446) located in Worcester Township, **Montgomery County**. The facility's major emission points include: six wave Soldering machines, five Selective Soldering machines, a Coil Soldering—Servo and an In-line Package machine which emit major levels of volatile organic compounds (VOCs) and nitrogen oxides (NOx).

46-00041: Jefferson Smurfit Corp. (U. S.) (1035 Longford Road, Phoenixville, PA 19460) located in Upper Providence Township, **Montgomery County**. The facility's major emission points include: six sheetfed, non-heatset, offset lithographic presses, two boilers, an emergency generator, and a finishing department which emit major levels of VOCs.

46-00089: SPRA-FIN, Inc. (177 Wissahickon Avenue, North Wales Borough) located in Upper Gwynedd Township, **Montgomery County**. The facility's major emission points include: three spray booths which emit major levels of volatile organic compounds (VOCs).

46-00010: Montenay Montgomery, L. P. (1155 Conshohocken Road, Conshohocken, PA 19428) located in Plymouth Township, **Montgomery County**. The facility's major emission points include: municipal waste combustors, which emit major levels of nitrogen oxides (NOx) and carbon monoxide (CO).

23-00017: PECO Energy Co. (One Industrial Highway, Eddystone, PA 19022-1585) located in Eddystone Borough, **Delaware County**. The facility's major emission points include: fossil fuel fired boilers, and auxiliary electrical generating equipment, which emit major levels of nitrogen oxides (NOx), carbon monoxide (CO), particulate matter (PM), and sulfur oxides (SOx).

Northeast Regional Office: Air Quality Program, Two Public Square, Wilkes-Barre, PA 17811-0790, (570) 826-2531.

66-00001: Procter & Gamble Paper Products Co. (P. O. Box 32, Mehoopany, PA 18629) in Washington Township, **Wyoming County**. The facilities operate a paper manufacturing facility and primarily emits nitrogen oxides (NOx), sulfur oxides (SO₂), carbon monoxide (CO) and volatile organic compounds (VOCs).

54-00006: CIN CAP VI, LLC (US Route 209, P. O. Box 312, Tremont, PA 17981) in Frailey Township, **Schuylkill County**. The facilities' major source of emissions are from one fluidized bed boiler that primarily emits nitrogen oxides (NOx) and sulfur oxides (SO₂).

48-00005: Hercules Cement Co. (501 Center Street, Stockertown, PA 18083) in Stockertown Borough, **Northampton County**. The facilities' major sources of emissions include two dry process kilns that primarily emit nitrogen oxides (NOx) and sulfur oxides (SO₂).

40-00032: Celotex Corporation (P. O. Box 663, Pittston, PA 18640) located in Exeter Township, **Luzerne County**. The facility's major source of emissions include the mineral wool manufacturing area which primarily emit volatile organic compounds (VOCs) and particulate matter (PM10).

39-00024: GEO Specialty Chemicals (2409 North Cedar Crest Blvd., Allentown, PA 18104) located in South Whitehall Township, **Lehigh County**. The facility's major source of emissions include the industrial organic chemicals manufacturing area which primarily emit volatile organic compounds (VOCs).

35-00008: Gentex Corp. (P. O. Box 315, Carbondale, PA 18407) located in Fell Township, **Lackawanna County**. The facility's major source of emissions include the Ophthalmic goods manufacturing area which primarily emit volatile organic compounds (VOCs).

Southwest Regional Office: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4174.

TV-63-00074: Langeloth Metallurgical Co., LLC (P. O. Box 608, 10 Langeloth Plant Drive, Langeloth, PA 15054) for their electrometallurgical product manufacturing facility in Smith Township, **Washington County**. Company produces and refines molybdenum trioxide, ferromolybdenum alloys, and nickel/cobalt catalysts at this site.

TV-65-00173: Dynamic Metal Forming, Inc. (Franklin Street, P. O. Box 302, Scottdale, PA 15683) for their steel pipe and tubes product manufacturing facility in Scottdale Borough, **Westmoreland County**. Process operations used at this site to manufacture cold drawn metal tube include drawing; annealing; cleaning; coating with lubricant; polishing, and cutting.

TV-65-00016: Latrobe Steel Co. (2626 Ligonier Street, Latrobe, PA 15650) located in the Borough of Latrobe, **Westmoreland County**. The facility's major sources of emissions include two electric arc furnaces, an argon oxygen decarburization vessel, numerous heat treating furnaces, various rolling grinding, welding and sawing/shearing operations, scarfing and descaling machines, a boiler miscellaneous heating units, a pickle tank, a precision forging machine and a slag handling building.

TV-30-00063: Consolidation Coal Co. (CONSOL) (P. O. Box 100, Osage, WV 26543) for their Robena Preparation Plant located in Monongahela, **Greene County**. As a result of the potential levels of volatile organic compounds (VOCs) and particulate matter (PM10) emitted from this facility is a major stationary source as defined in Title I, Part D of the Clean Air Amendments. The facility is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code, Chapter 127, Subchapter G.

PA-65-053A and TV-65-0053: Dura-Bond Steel Corp. (P. O. Drawer 518, Export, PA 15632) for their miscellaneous metal parts finishing facility located in Export, **Westmoreland County**. As a result of the levels of volatile organic compounds (VOCs) emitted, the facility is a major source as defined in Title I, Part D of the Clean Air Amendments.

PA-11-288A: Johnstown America Corp. (17 Johns Street, Johnstown, PA 15901) for their railcar fabrication facility located in Johnstown, **Cambria County**. As a result of the levels of volatile organic compounds (VOCs)

emitted, the facility is a major source as defined in Title I, Part D of the Clean Air Amendments.

PLAN APPROVALS

Applications received and intent to issue Plan Approvals under the Air Pollution Control Act (35 P. S. §§ 4001—4015).

Northeast Regional Office: Air Quality Program, Two Public Square, Wilkes-Barre, PA 17811-0790, (570) 826-2531.

48-307-059: Lehigh Heavy Forge Corp. (1275 Daly Avenue, Bethlehem, PA 18015) for reactivation of Forge 2, Furnaces 6 and 14 in Bethlehem, **Northampton County**.

Southcentral Regional Office: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4702.

06-010031I: Lucent Technologies, Inc. (P. O. Box 13396, Reading, PA 19612-3396) for photocenter and photolithographic operations controlled by a catalytic oxidizer in Muhlenberg Township, **Berks County**.

06-01069J: East Penn Manufacturing Co., Inc. (P. O. Box 147, Lyon Station, PA 19536-0147) for lead grid casting machines in Richmond Township, **Berks County**. These sources are subject to 40 CFR Part 60, Subpart KK—Standards of Performance for New Stationary Sources.

36-320-023B: R. R. Donnelley & Sons, Co. (391 Steelway, P. O. Box 3780, Lancaster, PA 17604-3133) for installation of two web heatset offset printing presses at the Lancaster Steelway Facility in Lancaster City, **Lancaster County**.

67-329-001B: Republic Services Group of PA IV, LLC (4400 Mt. Pisgah Rd., York, PA 17402) for modification of emission factors associated with three internal combustion engines at the Modern Landfill, Lower Windsor and Windsor Townships, **York County**. This source is subject to 40 CFR Part 63, Subpart WWW, New Source Performance Standards for Municipal Solid Waste Landfills.

67-03087: David Edward Ltd. (252 North Franklin Street, Red Lion, PA 17353) for installation of a wood-fired boiler controlled by a multiclone in Red Lion Borough, **York County**.

67-05016B: R. H. Sheppard Co., Inc. (P. O. Box 877, Hanover, PA 17331-0877) for construction of three core center machines and one sand silo controlled by a packaged bed scrubber and bin vent collector, respectively, at Plant No. 7 in Hanover Borough, **York County**.

67-05026C: DONSCO, Inc. (P. O. Box 2001, Wrightsville, PA 17368) for installation of a shotblast machine controlled by an existing fabric filter at the Wrightsville foundry in Wrightsville, **York County**.

Southwest Regional Office: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4174.

PA-26-516A: Amerikohl Mining, Inc. (P. O. Box 427, Acme, PA 15601) for operation of portable coal crusher at Nicholson II Surface Mine in Springfield Township, **Fayette County**.

Northwest Regional Office: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, (814) 332-6940.

PA-10-328A: IMTEC Inc. (90 Pattison Street, Evans City, PA 16033) for installation of a coating line with a heated dryer in Evans City, **Butler County**.

PA-25-0918A: Medical Manufacturing Corp. (2205 East 33rd Street, Erie, PA 16510) for installation of absorbent equipment to control ethylene oxide emissions from the aeration room in the City of Erie, **Erie County**. The source is subject to the ETO MACT standard of 40 CFR 63 Subpart O.

PA-37-309A: Kasgro Rail Corp. (40 Furnace Street, New Castle, PA 16101) for reactivation of a rail car spray painting operation (300 rail cars per year) in New Castle, **Lawrence County**.

MINING

APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to these applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chs. 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity

within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Knox District Office, P. O. Box 669, Knox, PA 16232.

Revision to an existing sand and gravel operation in East Lackawannock Township, **Mercer County** affecting 107.0 acres. Receiving streams: Unnamed tributary to Beaver Run. Revision to allow mining below the groundwater elevation and for a post-mining land use of unmanaged water impoundment. Application received March 28, 2000.

APPLICATIONS RECEIVED UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT

ENCROACHMENTS

The following permit applications and requests for Environmental Assessment approval and requests for water quality certification have been received by the Department of Environmental Protection (Department). section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)), requires the State to certify that the involved projects will not violate the applicable provisions of 33 U.S.C.A. §§ 1311—1313, 1316 and 1317 as well as relevant State requirements. Initial requests for 401 certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Safety or Encroachment Permit, or the approval of Environmental Assessments must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Application received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401 of the Federal Water Pollution Control Act.

Southeast Regional Office: Program Manager, Water Management Program, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

E09-800. Encroachment. **Ralph Moyer**, P. O. Box 318, Perkasio, PA 18944. To maintain a driveway crossing constructed across a de minimis area, 0.05 acre, of wetlands (PFO) adjacent to an unnamed tributary of Cooks Creek (EV) for access to a proposed single-family dwelling. The site is located approximately 700 feet northeast of the intersection of State Road (SR 4067) and Quarry Road (T-439), (Hellertown, PA USGS Quadrangle N: 2.6 inches; W: 12.3 inches) in Springfield Township, **Bucks County**.

Northeast Regional Office: Soils and Waterways Section, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

E35-322. Encroachment, **Lackawanna County Performing Arts Authority**, Attn: Ray Alberigi, Chairperson, 200 Adams Avenue, Scranton, PA 18503. To construct and maintain a 600 foot long, riprap lined trapezoidal shaped channel change having an approximate 15 foot bottom width and 2:1 side slopes, to construct and maintain a foot bridge to maintain a 210 foot long stream enclosure consisting of dual 30 inch plastic corrugated

pipes, to construct and maintain an 8 inch sanitary sewer line and to place fill in 0.14 acre of wetlands for the purpose of constructing an amphitheater along with its access road, parking facilities and other associated structures. The project is located along a tributary to Covey Swamp Creek (CWF) and approximately 1,000 feet south of the Montage Ski Area. (Avoca, PA Quadrangle N: 17.9 inches; W: 5.2 inches), City of Scranton, **Lackawanna County** (Baltimore District, U. S. Army Corps of Engineers).

Northcentral Region: Water Management, Soils and Waterways Section, F. Alan Sever, Chief, 208 West Third St., Suite 101, Williamsport, PA 17701.

E19-201. Encroachment. **Vincent Lushinski**, R. R. 1, Box 763, Shamokin, PA 17872. To remove the existing structure and to construct and maintain a single span bridge across Mugser Run located off SR 3008 approximately 2 miles west of Route 42 (Mt. Carmel, PA Quadrangle N: 18.1 inches; W: 8.55 inches) in Cleveland Township, **Columbia County**. Estimated stream disturbance is 30 feet; stream classification is HQ-CWF.

Southwest Regional Office: Soils and Waterways Section, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

E02-1302. Encroachment. **City of Pittsburgh**, Department of Engineering and Construction, City County Building Room 301, 414 Grant Street, Pittsburgh, PA 15219-2445. To construct and maintain a Stream Improvement Project (No. S2:213-101.1) consisting of placing rip-rap for a distance of approximately 60 feet along the right bank of an unnamed tributary to Sawmill Run (WWF), to prevent further stream bank erosion located approximately 100 feet south from the intersection of McNeilly Road and Rockford Avenue (Pittsburgh West, PA Quadrangle N: 1.4 inches; W: 1.75 inches) in the City of Pittsburgh, **Allegheny County**.

ACTIONS

FINAL ACTIONS TAKEN UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514), and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions under The Clean Streams Law (35 P. S. §§ 691.1—691.1001).

Approvals to Use NPDES and Other General Permits

The following parties have submitted (1) Notices of Intent (NOIs) for coverage under General NPDES Permits to discharge wastewater into the surface waters of this Commonwealth; (2) NOIs for coverage under General Permits for Beneficial Use of Sewage Sludge or Residential Septage by Land Application in Pennsylvania; or (3) Notifications for First Land Application of Sewage Sludge.

The approval of coverage under these General Permits may be subject to one or more of the following: pollutant or effluent discharge limitations, monitoring and reporting, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective general permit. The Department of Environmental Protection (Department) has reviewed the NOIs and determined that they comply with administrative requirements of the respective permit application. Also, the Department has evaluated the First Land Application of Sewage Sludge for the sites applying for coverage under PAG-7, PAG-8, and PAG-9 and determined that the sites are suitable for land application of sewage sludge.

The EPA Region III Regional Administrator has waived the right to review or object to this permit action under the waiver provision: 40 CFR 123.24.

The application and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted.

The Department has acted on the following requests for coverage under the specific General Permit as follows:

**SEWAGE FACILITIES ACT
PLAN APPROVAL**

Plan Approval granted under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

Northeast Regional Office: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

Thomas J. Chickey Apartment Building. The project is located in Hop Bottom Borough, **Susquehanna County** with a discharge to Martins Creek approximately 1/8 mile upstream from the point where the watercourse crosses under State Route 167 in the center of Hop Bottom Borough. The project consists of the construction of a small flow treatment facility to serve an existing 4 unit apartment building located at 21 North Center Street, Hop Bottom Borough, which currently has a malfunctioning onlot septic system.

Regional Office: Water Management Program Manager, Southcentral Region, 909 Elmerton Ave., Harrisburg, PA 17110.

Location: Ontelaunee Township, Berks County, P. O. Box 746, Leesport, PA 19533. The approved plan provides for extension of public sewers from the existing Leesport Authority system to provide service to the northwestern section of the township and the State Route 61 corridor. Additionally, extensions of public sewer lines from the existing Maiden creek Authority system will provide sewer service to the south and southwest portions of the Township. The remainder of the Township will remain under an onlot disposal system (OLDS) management district. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Location: Mount Joy Township, Lancaster County, 159 Merts Drive, Elizabethtown, PA 17022. The approved plan provides for improvements to the Mount Joy Township Municipal Authority's conveyance system to expand capacity. Additionally, participation in an expansion of the Elizabethtown regional sewage treatment plant is authorized. Non-sewer service portions of the Township are to be addressed in greater detail in a separate planning document. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Location: West Lampeter Township, Lancaster County, 852 Village Road, P. O. Box 237, Lampeter, PA 17537. The plan was disapproved because the Township

failed to address the eight deficiencies identified in the Department's February 12, 1998 letter. As indicated in the Department's letter dated January 13, 2000, failure to respond within 30 days of the date of that letter would result in the Department taking final action on the technically incomplete document. The original deficiencies are:

1. The sewage disposal needs identification and analysis is inadequate. Your needs analysis should address the entire municipality and include a field survey of any potential sewer service areas to accurately identify malfunctioning systems and system malfunction rates. Additionally, an evaluation of the age of the systems (pre or post regulation), lot size (replacement area availability), type of systems in use (septic tank, cesspool, old well, and the like), system repair type (BTG?) and history, and system type v. general soils type should be included. The information must be effectively mapped. Refer to the Department's brochure, Sewage Disposal Needs Identification, March 1996, for additional information.

2. Well test data in your plan is extremely old and must be updated. Additionally, all well samples were not tested for Total Coliform, Fecal Coliform and Nitrate-Nitrogen as required. A minimum sampling rate of 15% is appropriate for your general plan, however, higher rates are appropriate in any sewer project areas. Refer to the Department's brochure Sewage Disposal Needs Identification Guidance, March 1996 for additional information concerning sampling rates and necessary information to collect.

3. The plan does not indicate how elevated groundwater nitrate-nitrogen levels (evident in the samples taken) will impact new land development. These elevated areas should be mapped, with areas above 5 ppm clearly indicated. Review zoning, subdivision and any other applicable land use ordinances to ensure procedures are established in the Township's land development process to reflect the impact of degraded groundwater. Specifically, your plan should examine the requirements for preliminary hydrogeologic studies and the use of de-nitrification technology for new land development proposing the use of onlot sewage disposal. Additionally, the use of Component 1 (mini-modules) should be eliminated in areas of elevated nitrates or hazardous geology.

4. Since you have been implementing the public sewer alternatives in your 1990 plan, your 1998 plan's alternative analysis and selection must be updated as appropriate to reflect your current situation. It appears that several options are possible to accomplish this, depending on to what extent the Suburban Lancaster Sewer Authority (SLASA) addresses the sewer extensions proposed in your 1990 plan. For example, if the SLASA plan proposes the same sewer extensions as your 1990 plan, reproducing them in your 1998 plan is unnecessary. However, if the SLASA plan limits discussion to existing sewers and capacity issues, your 1998 plan should include the sewer

extension information. Whatever option is selected, your 1998 Act 537 Plan must "dovetail" with the SLASA plan as it applies to public sewer service in your municipality and it must also completely address onlot sewage disposal issues in your municipality.

5. Your selection of an Onlot Disposal System (OLDS) Management Ordinance in 1990 to address system maintenance in the portions of your municipality dependent on OLDS was an excellent idea that was ahead of its time. If that portion of your plan was also implemented, please provide information about your program and its success in your resubmission. If OLDS Management has not yet been implemented, I can provide you with sample ordinances for your consideration that were obtained from other municipalities who have successfully completed their programs.

6. Your plan's implementation schedule is obviously out of date.

7. Consistency issues such as the historic preservation, rare and endangered species protection, wetlands protection and prime agricultural lands preservation have not been addressed.

8. Lancaster County Planning Commission comments are out of date, as well as, your public notice, public comment period, etc. Your resubmission must be adopted by the municipality and all submission requirements found in Chapter 71, Section 71.31 must be observed.

Plan Revision Approval granted March 28, 2000 under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 2

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program Manager in the Department's Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final reports:

Southeast Regional Office: Environmental Cleanup Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, (610) 832-5950.

Former Scott Technical Center, Tinicum Township, **Delaware County**. Christopher Orzechowski, RT Environmental Services, Inc., 215 W. Church Road, King of Prussia, PA 19406, has submitted a Final Report concerning remediation of site soil contaminated with solvents and polycyclic aromatic hydrocarbons. The report is intended to document remediation of the site to meet the Statewide health standard.

Ashbourne Cleaners Site, Cheltenham Township, **Montgomery County**. Greg Van Hook, MEI Environmental Group, Inc., 6205 Easton Road, Pipersville, PA 18947, has re-submitted a Remedial Investigation/Final Report concerning remediation of site groundwater contaminated with solvents. The report is intended to document remediation of the site to meet site-specific standards.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediations Standards Act (35 P. S. §§ 6026.101—6026.908) and Chapter 250 Administration of Land Recycling Program.

Provisions of 25 Pa. Code § 250.8 Administration of Land Recycling Program requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the Land Recycling and Environmental Remediations Standards Act (act). Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of reuse of the property, and in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation

performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program Manager in the Department's Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has acted upon the following plans and reports:

Nitrogen Oxides (NOx) Allowance Program

Revised Title V/State Only Operating Permits to include Conditions relating to NOx Allowance Requirements in 25 Pa. Code §§ 123.101—123.120

The Department of Environmental Protection (Department) has revised the following Operating Permits to include revised allocations under the provisions of 25 Pa. Code §§ 123.101—123.120 (relating to NOx allowance requirements) as specified in Appendix E.

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514), and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Copies of these permits and other relevant information are available for review at the address given as follows:

ACTIONS TAKEN UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT ENCROACHMENTS

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval, and requests for Water Quality Certification under Section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rule of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717)

787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and sections 5 and 402 of The Clean Streams Law (35 P. S. §§ 691.5 and 691.402) and notice of final action for certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)). (Note: Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description.)

2. To install and maintain an additional 72-inch-diameter effluent pipe across Garrison Run under the stream enclosure between Junction Structure No. 1 and Junction Structure No. 2 to provide additional wet weather discharge capacity to the outfall to Lake Erie.

WATER QUALITY CERTIFICATION

Notice of Final Action on Request for Certification under Section 401 of the Federal Water Pollution Control Act

Except as otherwise noted, the Department of Environmental Protection (Department), under Section 401(a) of the Federal Clean Water Act (33 U.S.C.A. § 1341(a)) certifies that the construction and operation herein described will comply with the applicable provisions of sections 301–303, 306 and 307 of that act, and that the construction will not violate applicable Federal and State water quality standards, provided the following requirements are met.

Final or proposed action on certain other certification requests for projects which require both a Water Obstruction and Encroachment permit and either a United States Army Corps of Engineers individual permit or a Nationwide permit 14, 18 or 26 will be published with Applications and Actions filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1–693.27).

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501–508 and 701–704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedures may be obtained from the Board. The appeal form and the Board's rules of practice and procedures are also available in braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Certification Request Initiated by: Erie Western Pennsylvania Port Authority, Raymond P. Schreckengost, Executive Director, 17 West Dobbins Landing, Erie, PA 16507-1424.

Date of Initial Pennsylvania Bulletin Notice: March 4, 2000.

Project Description: The Erie-Western Pennsylvania Port Authority has requested a State certification, under Section 401(a) of the Federal Clean Water Act (33 U.S.C.A. § 1341(a)) that the discharge of dredged material from the East Avenue Launch Ramp into the Lake Erie Harbor Confined Disposal Facility (CDF) will comply with the applicable provisions of sections 301–303, 306 and 307 of the Federal Clean Water Act.

This request was necessitated by conditions imposed by the Department's Water Obstruction and Encroachment

Permits E25-404A and E25-581 issued to the Erie-Western Pennsylvania Port Authority requiring Federal Water Act Section 401 certification for the disposal of dredged material into the CDF prior to each dredging and disposal event. The Erie-Western Pennsylvania Port Authority has sampled and tested the sediments in accordance with Attachment A "Sample Collection and Testing Protocol" of both Water Obstruction and Encroachments Permits E25-404A and E25-581. Laboratory testing was conducted in accordance with the United States Army Corps of Engineer's Inland Testing Manual and the document "Ecological Evaluation of Proposed Discharge of Dredged or Fill Material in Navigable Waters." Based upon this sampling and laboratory testing, the Erie-Western Pennsylvania Port Authority indicates that the approximately 450 cubic yards of basin sediments from the East Avenue Launch Ramp (Erie North, PA N: 3.6 inches; W: 8.9 inches) discharged into the Lake Erie Harbor Confined Disposal Facility (Erie North, PA N: 4.7 inches; W:10.3 inches) will have a relatively insignificant effect on the water quality of Lake Erie. This 401 Water Quality Certification is only for this single activity. Any subsequent dredging of the East Avenue Launch Ramp basin and use of the CDF will require separate 401 Water Quality Certification.

Location: Lake Erie Harbor Confined Disposal Facility (Erie North, PA N: 4.7 inches; W: 10.3 inches).

Final Action on Request: Certification granted. This is a one-time certification for the above described project.

The Department of Environmental Protection (Department) under section 401(a) of the Federal Clean Water Act (33 U.S.C.A. § 1341(a)), certifies that the construction and operation herein described will comply with the applicable provisions of sections 301–303, 306 and 307 of that act, and that the construction will not violate applicable Federal and State water quality standards, provided the following requirements are met.

Final or proposed action on certain other certification requests for projects which require both a Water Obstruction and Encroachment permit and either a United States Army Corps of Engineers individual permit or a Nationwide permit 14, 18 or 26 will be published with Applications and Actions filed under the Dam Safety and Encroachments Act (32 P. INSURANCE DEPARTMENT

Aetna USHealthCare Medical and Pharmacy; Rate Filing

On March 31, 2000, Aetna USHealthCare submitted a rate filing to increase the Individual Advantage product rates for all service areas. The filing represents an increase of 14% on medical and 30% on pharmacy over the approved July 1, 1999—June 30, 2000 base medical and pharmacy rates. This is equivalent to an overall increase of 15.6%. The estimated rate increase will effect approximately 14,000 members and will result in additional annual premium income of approximately \$3.5 million (\$2.8 million on medical and \$0.7 million on pharmacy). The proposed effective date is July 1, 2000.

A copy of the filing is available for public inspection during normal working hours, by appointment, at the Insurance Department's Harrisburg, Philadelphia, Pittsburgh and Erie Regional Offices.

Interested parties are invited to submit written comments, suggestions or objections to Cherri Sanders-Jones, Actuary, Bureau of Accident and Health Insurance, Insurance Department, 1311 Strawberry Square, Harrisburg, PA 17120, within 30 days after publication of this notice in the *Pennsylvania Bulletin*.

Review Procedure Hearings; Cancellation or Refusal of Insurance

The following insured has requested a hearing as authorized by the act of June 17, 1998 (P. L. 464, No. 68) in connection with the termination of the insured's automobile policy. The hearing will be held in accordance with the requirements of the act; 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure); and 31 Pa. Code §§ 56.1—56.3 (relating to Special Rules of Administrative Practice and Procedure). These administrative hearings will be held in the Insurance Department's Offices in Harrisburg, PA. Failure by the appellant to appear at the scheduled hearing may result in dismissal with prejudice.

The hearing will be held in Capitol Associates Building, 901 North Seventh Street, Second Floor Hearing Room, Harrisburg, PA 17102.

Appeal of Darren and Elaine Wansley; file no. 00-181-01571; Colonial Insurance Co. of Wisconsin; doc. no. P00-03-030; May 9, 2000, at 10 a.m.

Parties may appear with or without counsel and offer relevant testimony or evidence. Each party must bring documents, photographs, drawings, claims files, witnesses and the like necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Commissioner may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when

the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Insurance Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend the above-referenced administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing should contact Tracey Pontius, Agency Coordinator at (717) 787-4298.

Fuel Surcharge; S. P. 28204

Commissioners Present: John M. Quain, Chairperson; Robert K. Bloom, Vice-Chairperson; Nora Mead Brownell; Aaron Wilson, Jr.; Terrance J. Fitzpatrick

Public Meeting
March 30, 2000

Order

By the Commission:

The Pennsylvania Public Utility Commission (Commission) is aware of the recent surge in the retail price of fuel. To prevent financial hardships and even bankruptcy, it is imperative that passenger motor carriers under the jurisdiction of this Commission be afforded an opportunity to adjust rates and fares to offset unanticipated fuel expenditures.

To permit call or demand, paratransit and airport transfer carriers to recover unanticipated increased fuel costs, we are hereby authorizing a fuel surcharge of \$0.25 per paying passenger. The fuel surcharge is to be in addition to existing officially filed tariff rates.

To permit call or demand motor carriers of First Class Cities to recover increased fuel costs, we are hereby requiring that each call or demand carrier of First Class Cities to charge the authorized fuel surcharge of \$0.25 per paying passenger, in addition to the authorized meter rate. Call or demand carriers of First Class Cities are also required to charge the authorized fuel surcharge of \$0.25 per paying passenger, in addition to the flat rate of \$20, for transportation to or from the Philadelphia International Airport. This requirement is consistent with the Commission's decision at R-901703, entered January 11, 1991, which requires that all call or demand carriers in First Class Cities charge uniform rates.

We have determined that the authorized fuel surcharge is just and reasonable for both the passenger carrier and the paying passenger. *Therefore,*

It Is Ordered That:

1. Call or demand carriers, paratransit carriers and airport transfer motor carriers rendering service under jurisdiction of this Commission may establish a fuel surcharge under Special Permission No. 28204.

2. Call or demand carriers of First Class Cities are required to charge the authorized fuel surcharge of \$0.25 per paying passenger, in addition to the authorized meter rate.

3. Call or demand carriers of First Class Cities are required to charge the authorized fuel surcharge of \$0.25 per paying passenger, in addition to the flat rate of \$20.

4. The surcharge shall become effective on April 1, 2000, and shall terminate on June 30, 2000.

5. Motor carriers establishing a fuel surcharge and call or demand carriers of First Class Cities shall notify the public by placing notice in all vehicles. The notice shall read "The PA Public Utility Commission has authorized the establishment of a fuel surcharge under Special Permission No. S. P. 28204. The surcharge of \$0.25 per paying passenger is effective on April 1, 2000 and shall terminate on June 30, 2000."

6. The Secretary shall duly certify this order and deposit same with the Legislative Reference Bureau of publication in the *Pennsylvania Bulletin*.
