READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 31—INSURANCE

INSURANCE DEPARTMENT

[31 PA. CODE CH. 86]

Premium and Retirement Deposit Funds

The Insurance Department (Department) amends Chapter 86 (relating to premium and retirement deposit funds). The Department is publishing the amendments as a final-form rulemaking.

Statutory Authority

The Department is amending Chapter 86 under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412) and sections 202 and 354 of The Insurance Company Law of 1921 (40 P. S. §§ 382 and 477b).

Comments and Response

A notice of proposed rulemaking was published at 30 Pa.B. 886 (February 19, 2000) with a 30-day comment period ending January 31, 2000. During the 30-day comment period, comments were received from the Insurance Federation of Pennsylvania, Inc. (IFP) in favor of the proposal.

During its regulatory review, the Independent Regulatory Review Commission (IRRC) did not submit comments to the Department.

Affected Parties

The rulemaking applies to insurers and fraternal benefit societies marketing life insurance policies and who are licensed to do the business of life insurance in this Commonwealth.

Fiscal Impact

State Government

There is no anticipated increase in cost to the Department resulting from the recognition within the modified chapter of flexible premium life insurance and annuity products. The establishment of limits for each type of premium payment contract should not substantially increase compliance monitoring by the Department.

General Public

There will be no adverse fiscal impact on consumers who purchase life insurance policies and annuity contracts and place money in the premium deposit funds or retirement deposit funds of the policies or contracts.

Political Subdivisions

The final-form rulemaking will have no fiscal impact on political subdivisions.

Private Sector

It is anticipated that the final-form rulemaking will have a fiscal impact on insurance companies and fraternal benefit societies to the extent that there will be, in contrast to prior practice, a clear limit on the amount of money that may be held by insurers under a premium deposit fund of a flexible premium life insurance policy. The Department believes it unlikely that this new limit will result in insurers collecting substantially less money in connection with life insurance policies.

Paperwork

The adoption of this final-form rulemaking will not impose additional paperwork on the Department or the insurance industry. Although the final-form rulemaking imposes additional deposit limits on premium deposit funds and retirement deposit funds, it does not impose additional requirements resulting in additional paperwork.

Effectiveness/Sunset Date

This final-form rulemaking becomes effective upon final publication in the *Pennsylvania Bulletin*. No sunset date has been assigned.

Contact person

Questions regarding this final-form rulemaking should be directed to Peter J. Salvatore, Regulatory Coordinator, Office of Special Projects, 1326 Strawberry Square, Harrisburg, PA 17120, (717) 787-4429. In addition, questions or comments may be E-mailed to psalvato@ins.state.pa.us or faxed to (717) 772-1969.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 9, 2000, the Department submitted a copy of the notice of proposed rulemaking, published at 30 Pa.B. 886, to IRRC and to the Chairpersons of the House and Senate Committees for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing these final-form regulations, the Department has considered all comments from IRRC, the Committees and the public.

Under section 5.1(d) of the Regulatory Review Act (71 P. S. § 745.5a(d)), on May 31, 2000, these final-form regulations were deemed approved by the House and Senate Committees. Under section 5.1(g) of the Regulatory Review Act, IRRC met on June 8, 2000, and approved the final-form regulations.

Findings

The Commissioner finds that:

(1) Public notice of intention to adopt this rulemaking as amended by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of this rulemaking in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statutes.

Order

The Commissioner, acting under the authorizing statutes, orders that:

(1) The regulations of the Department, 31 Pa. Code Chapter 86, are amended by amending §§ 86.2—86.4 and 86.10 to read as set forth at 30 Pa.B. 886.

(2) The Commissioner shall submit this order and 30 Pa.B. 886 to the Office of General Counsel and Office of

Attorney General for approval as to form and legality as required by law.

(3) The Commissioner shall certify this order and 30 Pa.B. 886 and deposit them with the Legislative Reference Bureau as required by law.

(4) The order shall take effect upon final publication in the *Pennsylvania Bulletin*.

M. DIANE KOKEN,
Insurance Commissioner

(Editor's Note: For the text of the order of the Independent Regulatory Review Commission, relating to this document, see 30 Pa.B. 3299 (June 24, 2000).)

Fiscal Note: Fiscal Note 11-188 remains valid for the final adoption of the subject regulation.

PROPOSED RULEMAKING

DEPARTMENT OF AGRICULTURE

[7 PA. CODE CH. 21]

Dog Shelters

The Department of Agriculture (Department), under the specific authority conferred by section 207(b) of the Dog Law (act) (3 P.S. § 459-207(b)), proposes to amend § 21.24 (relating to shelters). Section 101 of the act (3 P.S. § 459-101) states this is an act "... relating to dogs, regulating the keeping of dogs; providing for the licensing of ... kennels ..." and "... providing for the protection of dogs..." The Department has a duty to assure the proper and humane care of dogs kept in captivity. Section 207(b) of the act confers upon the Department the power to promulgate regulations regarding the maintenance of kennels. It states, "(A)ll kennels shall be maintained in a sanitary and humane condition in accordance with standards and sanitary codes promulgated by the secretary."

Background

The current provisions in § 21.24, relating to shelters for dogs, became effective April 12, 1996. They require kennels that house dogs in a primary enclosure with wire flooring to provide a solid draft free resting surface to allow the dogs to rest comfortably. Section 21.24 was originally enacted to protect the health and safety of dogs, assure their humane treatment and to bring the Department into closer compliance with the Federal regulations regarding the sheltering of dogs in kennels.

The Department vigorously enforced the regulations and all kennels with wire or mesh flooring were brought into compliance with the rest board requirements. However, the Department soon began receiving complaints concerning the health of dogs deteriorating due to fecal matter and urine collecting on the rest boards. It was impossible for kennel owners to keep the rest boards sanitized at all times, thus creating unsanitary conditions for the dogs. Concerns were voiced and written complaints were filed by licensed veterinarians, the Pennsylvania Pet Breeders Association and owners of pet store kennels. The complaints stated that illness and disease was occurring at a higher rate with rest boards in place than had occurred prior to the enactment of the regulations requiring rest boards. In addition, the Federal regulations were changed, setting aside the rest board requirement.

The proposed amendment will allow for the removal of rest boards, which will address the safety and health issues that have arisen subsequent to their use. At the same time, the proposed amendment addresses the comfort, safety and humane treatment of the dogs by requiring that, "(A) dog may be sheltered in a primary enclosure having wire flooring provided the wire is coated with a vinyl type coating. The coated wire flooring must be kept in good repair and shall be made of mesh construction that does not allow the dog's feet to pass through any opening in the floor and does not otherwise cause injury to the dog. The coated wire shall be constructed of sufficient diameter (gauge) to provide a rigid floor area sufficient to support the weight of dogs housed in the enclosure so that the wire floor does not bend or sag from

the weight of the dogs." The proposed amendment requires a kennel owner to install vinyl coated wire before removing any rest boards. Kennel owners may keep rest boards in place, but will still be required to install vinyl coated wire flooring meeting the standards of these regulations and will be required to keep the rest boards sanitized. The ability to remove the rest boards and the added language concerning vinyl coated wire has been agreed to by a representative for pet store kennels, a representative of the Pennsylvania Legislative Animal Network, and representatives for the Pet Breeders Association and various dog clubs.

The proposed amendment is intended to update the Department's policy regarding the sheltering of dogs in kennels. The proposed amendment is consistent with the Department's duties under the act and brings the Department into closer compliance with Federal regulations regarding the sheltering of dogs in kennels.

In the interest of continuing to carry out the policy of the act, to assure the health, safety and humane treatment of dogs, the Department proposes to amend § 21.24 to effectuate the changes referred to previously.

Summary of Proposed Change

Section 21.24.(d). This section will be changed by eliminating the language requiring that a "solid resting surface" be provided for dogs being housed in a primary enclosure having wire flooring. Language will be added to require that the wire flooring in primary enclosures must be "vinyl coated" and be "constructed of sufficient diameter (gauge) to provide a rigid floor area sufficient to support the weight of dogs housed in the enclosure so that the wire floor does not bend or sag from the weight of the dogs." All other requirements, such as a draft free area and wire constructed in a manner which does not allow the dog's feet to pass through any opening in the floor, shall remain unchanged. Kennel owners will be required to install vinyl coated wire flooring before removing any rest boards. Kennel owners may keep rest boards in place, but will still be required to install vinyl coated wire flooring meeting the standards of these regulations and will be required to keep the rest boards sanitized.

Fiscal Impact

Commonwealth

The proposed amendment will impose minimal costs and have minimal fiscal impact upon the Commonwealth. The proposed change will not increase or decrease the regulatory workload. The Department already inspects kennels on a regular basis and the proposed change will not affect inspection schedules or the time required to inspect a kennel.

Political Subdivisions

The proposed amendment will impose no costs and have no fiscal impact upon political subdivisions.

Private Sector

The proposed amendment will impose minimal costs on private sector organizations and individuals. There will not be an increased cost to the regulated community. The regulated community will have an increase in costs initially, because it will be required to replace current wire flooring with a vinyl coated wire flooring. However,

the regulated community has requested the proposed change. The regulated community believes the change will decrease the health problems associated with the rest board requirement and thereby decrease veterinary and health care costs. In addition, the elimination of rest boards will decrease the sanitary expenses by reducing the man-hours required to clean the kennels.

General Public

The proposed amendment will impose no costs and have no fiscal impact on the general public. The general public should benefit through reduced costs to the industry.

Paperwork Requirements

The proposed amendment will not result in an appreciable increase of paperwork. The Department has already developed the appropriate forms and procedures to administer kennel inspections. Only small changes will be required.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)) on July 10, 2000, the Department submitted a copy of the proposed amendment to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Agriculture and Rural Affairs Committee and the Senate Agriculture and Rural Affairs Committee. In addition to submitting the proposed amendment, the Department has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1 "Regulatory Review and Promulgation." A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to any portion of the proposed amendment it will notify the Department within 10 days after the close of the Committee's review period. The notification shall specify the regulatory review criteria which have not been met by that portion of the proposed amendment to which an objection is made. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the amendment, by the Department, the General Assembly and the Governor of objections raised.

Public Comment Period

The public comment period for this proposal shall be 30 days from the date of publication in the *Pennsylvania Bulletin*.

**ENVIRONMENTAL
QUALITY BOARD**

[25 PA. CODE CH. 240]

Radon Certification; Continuing Education

The Environmental Quality Board (Board) proposes to amend § 240.306 (relating to continuing education program). The amendment is being proposed to modify the requirements for a continuing education program by certified persons performing radon-related work in this Commonwealth outlined in § 240.306 to read as set forth in Annex A.

This proposal was adopted by the Board at its meeting of June 20, 2000.

A. Effective Date

This proposed amendment will go into effect upon publication in the *Pennsylvania Bulletin* as final rule-making.

B. Contact Person

For further information contact Michael A. Pyles, Chief, Division of Radon, P. O. Box 8469, Rachel Carson State Office Building, Harrisburg, PA 17105-8469, (717) 783-3594, or Marylou Barton, Assistant Counsel, Bureau of Regulatory Counsel, P. O. Box 8464, Rachel Carson State Office Building, Harrisburg, PA, 17105-8464, (717) 787-7060. Information regarding submitting comments on this proposal appears in Section I of this Preamble. Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TTD users) or (800) 654-5988 (voice users). This proposal is available electronically through the Department of Environmental Protection's (Department) Web site (<http://www.dep.state.pa.us>).

C. Statutory Authority

This proposed rulemaking is being made under the authority of section 13 of the Pennsylvania Radon Certification Act (63 P. S. § 2013) and section 1920-A of The Administrative Code of 1929 (71 P. S. § 510-21).

D. Background and Purpose

The Department is responsible for maintaining a certification program for persons conducting radon-related work in this Commonwealth, and a component of that certification program is a continuing education program. Currently § 240.306 requires that a certified person conducting radon-related activities in this Commonwealth participate in a continuing education program consisting of a minimum of 16 hours of Department-approved courses or seminars on radon testing or mitigation each year. The proposed amendment would reduce this minimum continuing education requirement to 8 hours each year.

The purpose of this proposed reduction in the required number of continuing education hours is to conform this Commonwealth's regulations with the recommendations of National bodies which set standards in this area, as well as with the requirements for continuing education in neighboring states with active radon certification programs, and provide relief to the radon regulated community of this Commonwealth from a regulation that is unnecessarily burdensome.

The National Environmental Health Association (NEHA), and the National Radon Safety Board (NRSB), both of which have standards for continuing education by persons conducting radon-related activities, recommend a minimum of 8 hours of continuing education each year. Likewise, the neighboring states of New Jersey and Ohio have active radon certification programs and require a minimum of 8 hours of continuing education each year.

The radon regulated community of this Commonwealth participated in a series of eight radon regulatory workshops in 1996. At that time, the regulated community and members of organizations involved with the radon issue represented at these workshops recommended that the minimum continuing education requirement for certified persons performing radon-related work in this Commonwealth be reduced from 16 hours each year to 8 hours each year. The participants believed that the 16-hour minimum requirement is unnecessarily burdensome. In February 2000, staff from the Department's Radon Division surveyed the workshop participants to confirm their views on this amendment. The results of this survey indicate that participants continue to support this reduction of hours.

E. Benefits, Costs and Compliance

Executive Order 1996-1 requires a cost/benefit analysis of the proposed amendment.

Benefits

This proposed rulemaking would benefit about 200 certified radon laboratory, testing and mitigation persons who take continuing education courses to fulfill the requirements of § 240.306. By reducing the minimum number of required continuing education hours from 16 hours each year to 8 hours each year, the estimated savings per certified person per year is expected to be \$150. Thus, the total savings to the community of certified radon laboratory, testing and mitigation persons is estimated to be about \$30,000 per year.

Costs

There are no additional costs to the Commonwealth, its citizens or regulated community associated with this proposal.

Compliance Costs

The proposed amendment is not expected to impose any additional compliance costs on the regulated community.

F. Pollution Prevention

Not applicable.

G. Sunset Review

This regulation will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulation effectively fulfills the goals for which it was intended.

H. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on July 11, 2000, the Department submitted a copy of this proposed amendment to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House and Senate Environmental Resources and Energy Committees. In addition to submitting the proposed amendment, the Department has provided IRRC and the Committees with a detailed regulatory analysis form prepared by the Department in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to any portion of the proposed amendment, it will notify the Department within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria which have not been met by the portion of the proposed amendment to which an objection has been made. The Regulatory Review Act specifies detailed procedures for review by the General Assembly and the Governor of objections raised by IRRC prior to final publication of the amendment by the Department.

I. Public Comments

Written Comments—Interested persons are invited to submit comments, suggestions or objections regarding the proposed amendment to the Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477 (express mail: Rachel Carson State Office Building, 15th Floor, 400 Market Street, Harrisburg, PA 17101-2301). Comments submitted by facsimile will not be accepted. Comments, suggestions or objections must be received by the Board by August 21, 2000 (within 30 days of publica-

tion in the *Pennsylvania Bulletin*). Interested persons may also submit a summary of their comments to the Board. The summary may not exceed one page in length and must be received by August 21, 2000 (within 30 days following publication in the *Pennsylvania Bulletin*). The one-page summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final regulation will be considered.

Electronic Comments—Comments may be submitted electronically to the Board at RegComments@dep.state.pa.us and must also be received by the Board by August 21, 2000. A subject heading of the proposal and a return name and address must be included in each transmission. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

NOTICES

DELAWARE RIVER BASIN COMMISSION

Meetings and Public Hearing

The Delaware River Basin Commission (Commission) will hold an informal conference followed by a public hearing on Wednesday, July 26, 2000. The hearing will be part of the Commission's regular business meeting. Both the conference session and business meeting are open to the public and will be held at the Commission offices at 25 State Police Drive, West Trenton, NJ.

The conference among the Commissioners and staff will begin at 10:30 a.m. It will include a presentation by Delaware Water Coordinator Gerald Kauffman on an integrated resource plan to address water supply problems in New Castle County, DE. Summaries of the following four meetings also will be offered: June 26 meeting on the Estuary PCB Monitoring Plan; July 13 meeting of the Water Management Advisory Committee; and July 20 meetings of the Toxics Advisory Committee and Flow Management Technical Advisory Committee. A brief account of briefings on the Christina River TMDL also will be provided.

The subjects of the public hearing to be held during the 1:30 p.m. business meeting will include, in addition to the dockets listed below, a proposed Resolution concerning the control of certain toxic substances, including PCBs, in the Delaware Estuary.

The dockets scheduled for public hearing are as follows:

1. *Village of Deposit D-99-64 CP*. An application for approval of a groundwater withdrawal project to supply up to 5.4 million gallons (mg)/30 days of water to the applicant's distribution system from new Well No. 5 in the West Branch Delaware River watershed, and to increase the existing withdrawal limit from all wells from 15 mg/30 days to 30 mg/30 days. The project is located in the Village of Deposit, Delaware County, New York.

2. *Borough of Dublin D-2000-11 CP*. An application for approval of an increase in groundwater withdrawal allocation from 4.36 mg/30 days to 6.9 mg/30 days for the applicant's public water distribution system from existing Wells Nos. 1, 2, 3 and 5 in the mixed zone of the Lockatong and Brunswick Formations. The project is located in Dublin Borough, Bucks County in the South-eastern Pennsylvania Groundwater Protected Area.

3. *Little Washington Treatment Company D-2000-24*. An application to upgrade and expand the applicant's Willistown Woods (formerly Chesterdale) sewage treatment plant (STP) from 0.12 million gallons per day (mgd) advanced secondary treatment to 0.225 mgd tertiary treatment. The STP is located just south of State Route 3 in Willistown Township at its border with Westtown Township, both in Chester County, PA, and will continue to serve portions of Willistown and Westtown Townships. Treated effluent will continue to discharge to a tributary of Hunters Run in the Ridley Creek watershed.

4. *Dennis C. Christman D-2000-42*. An application to construct a 0.08 mgd STP to replace failing onlot septic systems at the applicant's Christman Lake development located off Christman Road (Township Route 771) in Windsor Township, Berks County, PA. The proposed plant is designed to provide secondary treatment by the se-

quencing batch reactor process. Treated effluent will discharge to a marsh area that flows 120 feet directly to an unnamed tributary of Maiden Creek in the Schuylkill River watershed.

In addition to the public hearing, the Commission will address the following at its 1:30 p.m. business meeting: minutes of the June 16, 2000 business meeting; announcements; report on hydrologic conditions in the basin; and reports of the Executive Director and General Counsel.

Documents relating to the dockets and other items may be examined at the Commission's offices. Preliminary dockets are available in single copies upon request. Please contact Thomas L. Brand at (609) 883-9500, ext. 221 concerning docket-related questions. Persons wishing to testify at this hearing are requested to register in advance with the Secretary at (609) 883-9500, ext. 203.

Individuals in need of an accommodation as provided for in the Americans with Disabilities Act who wish to attend the hearing should contact the Commission Secretary, Pamela M. Bush, directly at (609) 883-9500, ext. 203 or through the New Jersey Relay Service at (800) 852-7899 (TTY) to discuss how the Commission may accommodate their needs.

DEPARTMENT OF AGRICULTURE

Temporary Order Designating Chronic Wasting Disease a Dangerous Transmissible Disease

The Department of Agriculture (Department) hereby designates Chronic Wasting Disease (CWD) a "dangerous transmissible disease," under authority of section 2322(d) of the Agriculture Code (code) (3 Pa.C.S.A. § 2322(d)). This designation will facilitate the Department's efforts to detect and contain CWD and will assist Pennsylvania's deer and elk industry in developing control programs for the disease.

CWD is a disease of deer, elk and other cervidae and is a member of the group of diseases known as transmissible spongiform encephalopathies (TSEs). Other more well known TSEs are scrapie and bovine spongiform encephalopathy (BSE) or "mad cow" disease. All are thought to be caused by a prion protein that has converted to an abnormal infectious prion protein. There is some evidence, in the case of BSE, that humans may become infected through consumption of meat products containing central nervous system tissues, thus there is a significant public health interest concerning all TSEs.

Recently, several western states instituted import regulations that require deer or elk entering those states be from herds that are participating in a surveillance program and that the state of origin have authority to take action in the event that CWD is diagnosed. To support our deer and elk industry and to keep these markets

open, it will be necessary for the Department to assist in the development and oversight of a surveillance program and to take action in the event that a case of CWD is diagnosed. The authority to do so will depend on the designation of CWD as a "dangerous transmissible" disease.

The Department has authority under the Domestic Animal Law provisions of the code (3 Pa.C.S.A. §§ 2301—2389) to regularly monitor the domestic animal population of this Commonwealth to determine the prevalence, incidence and location of transmissible diseases. The Department has authority under this act to declare a particular disease not contained in the original act to be a "dangerous transmissible" disease through issuance of a temporary order.

This order is a temporary order, as required under section 2322(d) of the code. This order shall take effect as

of July 15, 2000, and shall remain in effect until no later than July 14, 2001. This Department may: (1) Reissue this temporary order to extend the designation beyond July 14, 2000; (2) Allow this temporary order to expire on July 14, 2000; (3) Supplant this temporary order with a formal regulation designating CWD a "dangerous transmissible disease"; or (4) Modify this temporary order.

Questions regarding this temporary order may be directed to John I. Enck, Jr. VMD, Director, Bureau of Animal Health and Diagnostic Services, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 783-6677.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of August 2000

The Department of Banking of the Commonwealth of Pennsylvania, under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of August 2000, is 8 3/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. 96-221). Further preemption was instituted with the signing of Pub. L. 96-399, which overrode State interest rate limitations on an individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department of Banking is required by State law to compute and announce the ceiling rate on residential mortgages in Pennsylvania. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 6.23 to which was added 2.50 percentage points for a total of 8.73 that by law is rounded off to the nearest quarter at 8 3/4%.

Notice of Hearing

Under the Teacher Certification Law, 24 P. S. §§ 2070.1—2070.18 (act), the Professional Standards and Practices Commission (Commission) has initiated hearing procedures to consider the application of Frank Ceraso for reinstatement of his teaching certificate.

On or about April 18, 2000, Frank Ceraso filed an application for reinstatement of his teaching certificate under section 16 of the act (24 P. S. § 2070.16), 1 Pa. Code §§ 35.1 and 35.2 (relating to applications generally and contents of applications) and 22 Pa. Code § 233.14 (relating to reinstatement). Under section 16 of the act, the Department of Education on June 30, 2000, recommended to the Commission that the application be denied. In accordance with the act, and the General Rules of Administrative Practice and Procedure, the Commission will appoint a hearing examiner to serve as presiding officer to conduct the proceedings and hearings as might be necessary, and to prepare a proposed report to the Commission containing findings of fact, conclusions of law and a recommended decision on the application.

Interested parties desiring to participate in these hearing procedures must file a notice of intervention or a petition to intervene in accordance with 1 Pa. Code §§ 35.27—35.32 within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Persons objecting to

the approval of the application may also, within 30 days after publication of this notice in the *Pennsylvania Bulletin*, file a protest in accordance with 1 Pa. Code § 35.23.

All notices and petitions to intervene and protest shall be filed with Carolyn Angelo, Executive Director of the Professional Standards and Practices Commission, at 333 Market Street, Harrisburg, PA 17126-0333, on or before 4 p.m. on the due date prescribed by this notice. Persons with a disability who wish to attend the hearings and

require an auxiliary aid, service or other accommodation to participate, should contact Suzanne B. Markowicz at (717) 787-6576 to discuss how the Commission may best accommodate their needs.

CAROLYN ANGELO,
Executive Director

APPLICATIONS

APPLICATIONS RECEIVED UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived his right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the Field Office indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Field Office the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Managers will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application, and related documents, proposed effluent limitations and special conditions received and other information are on file and may be inspected and arrangements made for copying at the Field Office that has been indicated above the application.

Applications for National Pollutant Discharge Elimination System (NPDES) Permit to discharge to State waters.

Northeast Region: Environmental Protection Manager, Water Management, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2553.

PA 0029637. Industrial waste, SIC: 3672, **Chroma Video, Inc.**, P. O. Box 119, White Mills, PA 18473-0119.

This proposed action is for renewal of an NPDES permit to discharge treated process wastewater cooling water into the Lackawanna River in Texas Township, **Wayne County**.

The receiving stream is classified for the following uses: High quality, trout stocking fishery, aquatic life, water supply and recreation.

Effluent limits were evaluated at the point of discharge.

The proposed effluent limits are as follows:

Outfall 001

Noncontact cooling water (.025 mgd)

<i>Parameter</i>	<i>Monthly Average (mg/l)</i>	<i>Daily Maximum (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
pH		6 to 9 standard units at all times	

Outfall 002

Noncontact cooling water (.03 mgd) and Process Water (.0025 mgd)

<i>Parameter</i>	<i>Monthly Average (mg/l)</i>	<i>Daily Maximum (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Oil and Grease	15	30	—
pH	6 to 9 standard units at all times

Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewaters into the surface waters of this Commonwealth. The Department of Environmental Protection (Department) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management, and total residual chlorine control (TRC). Any major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Office indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Managers will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on the DEP's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

INDIVIDUAL PERMITS (PAS)

NPDES Individual

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the office noted above the application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 1

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Envi-

Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified as follows proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Notice of Plan Approval and Operating Permit Applications

Nonmajor Sources and Modifications

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Offices

identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits must submit the protest or comment within 30 days from the date of this notice. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act and regulations adopted under the act.

OPERATING PERMITS

Applications received and intent to issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001-4015).

Northeast Regional Office, Air Quality Program, Two Public Square, Wilkes-Barre, PA 17811-0790, (570) 826-2531.

Notice of Intent to Issue Title V Operating Permits

Under 25 Pa. Code § 127.521, notice is given that the Department of Environmental Protection (Department) intends to issue a Title V Operating Permit to the following facilities. These facilities are major facilities subject to the operating permit requirements under Title V of the Federal Clean Air Act and 25 Pa. Code Chapter 127, Subchapters F and G (relating to operating permit requirements; and Title V operating permits).

Appointments to review copies of the Title V application, proposed permit and other relevant information must be made by contacting Records Management at the regional office telephone number noted below. For additional information, contact the regional office noted.

Interested persons may submit written comments, suggestions or objections concerning the proposed Title V permit to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall include the name, address and telephone number of the person submitting the comments, along with the reference number of the proposed permit. The commentator should also include a concise statement of any objections to the permit issuance and the relevant facts upon which the objections are based.

The Department reserves the right to hold a public hearing on the proposed action based upon the information received during the public comment period and will provide notice of any scheduled public hearing at least 30 days in advance of the hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation where the facility is located.

Southeast Regional Office: Air Quality Program, 555 North Lane, Conshohocken, PA 19428, (610) 832-6242.

23-00004: American Ref-Fuel Co. of DV, L. P. (10 Highland Avenue, Chester, PA 19013) in the City of Chester, **Delaware County**. The facility's primary function is burning of municipal waste to be converted to electricity through the use of combustors, steam systems and turbines. The facility's major emission points include six municipal waste combustors and support equipment, which emit major levels of NO_x, CO, VOC, PM-10, SO₂, and hydrochloric acid. Additionally, the facility is subject to the NSPS requirements of 40 CFR 60, Subpart Cb.

15-00010: Lukens Steel Co. (50 South First Avenue, Coatesville, PA 19320) in the City of Coatesville, **Chester County**. The facility's major emission points include electric arc furnaces and numerous steel forming processes, which emit major levels of nitrogen oxides (NO_x), sulfur oxides (SO_x), volatile organic compounds (VOCs), and particulate matter (PM).

09-00013: Wheelabrator Falls, Inc. (1201 New Ford Mill Road, Morrisville, PA 19067) in Falls Township, **Bucks County**. The facility's primary function is burning of municipal waste to be converted to electricity through the use of combustors, steam systems and turbines. The facility's major emission points include two municipal waste combustors, and support equipment, which emit major levels of NO_x, SO_x, CO, and hydrochloric acid. Additionally, the facility is subject to the NSPS requirements of 40 CFR 60, Subpart Cb.

46-00033: Waste Management Disposal Serv of PA (1425 Sell Road, Pottstown, PA 19464) in West Pottsgrove Township, **Montgomery County**. The facility's major emission points include a landfill, two turbines and an enclosed flare, which emit major levels of nitrogen oxides (NO_x), sulfur oxides (SO_x), carbon monoxides (CO) and volatile organic compounds (VOCs).

Southwest Regional Office: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4174.

TV-11-00378: Colver Power Project (141 Interpower Drive, Colver, PA 15927) for their cogeneration power plant in Cambria Township, **Cambria County**. Process operations used at this site to generate electricity are a waste coal-fired circulating fluidized bed boiler, a diesel fire pump, a diesel generator, fuel handling system that include a crusher and a dryer and some other insignificant sources.

TV-56-00181: Southern Alleghenies Disposal Service, Inc. (Westpointe Corporate Center One, Suite 2000, 1550 Coraopolis Heights Road, Moon Township, PA 15108) for their Southern Alleghenies Landfill in Conemaugh Township, **Somerset County**. This facility is defined as a Title V facility and is therefore subject to the permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G.

TV-03-00023: Allegheny Energy Supply Co., LLC—Armstrong Power Station (800 Cabin Hill Drive, Greensburg, PA 15601-1689) in Washington Township, **Armstrong County**. The facility's major sources of emissions include two electric generating steam boilers, an emergency diesel generator, a wastewater treatment system and fugitive emissions from coal handling.

PLAN APPROVALS

Applications received and intent to issue Plan Approvals under the Air Pollution Control Act (35 P. S. §§ 4001—4015).

Southcentral Regional Office: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4702.

07-05033A: Grannas Bros. Stone & Asphalt Co., Inc. (P. O. Box 488, Hollidaysburg, PA 16648) for the installation of a recycled asphalt product (RAP) processing system on the existing drum mix asphalt plant controlled by wet suppression. The RAP system is subject to 40 CFR Part 60, Subpart OOO Standards of Performance for Nonmetallic Mineral Processing Plants.

22-05043: Harman Stove Co. (325 Mountain House Road, Halifax, PA 17032) for a surface coating operation controlled by dry filters in Jackson Township, **Dauphin County**.

36-05087A: Morgan Corporation (One Morgan Way, P. O. Box 588, Morgantown, PA 19543) for a spray booth controlled by dry filters for their facility located in Ephrata Borough, **Lancaster County**.

38-03027: RE-TECH Division of TEREX (300 North 4th Street, Lebanon, PA 17046) for the construction of a surface coating process in Lebanon City, **Lebanon County**.

Northwest Regional Office: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, (814) 332-6940.

PA-42-190A: Hoffman Carbon, Inc. (105 Lafferty Hollow, P. O. Box 357, Bradford, PA 16701) for modification of an existing powdered graphite automotive electric

motor brush manufacturing process, to duct the baghouse outside of the building, and to add additional machining equipment in Bradford, **McKean County**.

PA-33-125A: Energy Resources, Inc.—Brockway Tipple (Route 219, P. O. Box 259, Brockway, PA 15824) for post construction of a coal crusher (350 tons/hour) in Snyder Township, **Jefferson County**. This source is subject to Federal NSPS, 40 CFR Part 60, Subpart Y.

PA-25-070D: Gunitite EMI Corp. (603 West 12th Street, Erie, PA 16501) to emit # 11 Cleaning Mill outdoors and to eliminate all grinding operations except one which will be controlled with the dust collector from the # 11 Cleaning Mill at the EMI Plant in the City of Erie, **Erie County**. Gunitite EMI Corporation is a Title V facility.

Notice of Intent to Issue a Plan Approval and Amend a Title V Operating Permit

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue a plan approval to Molded Fiber Glass Co. (55 Fourth Avenue, Union City, PA 16438) in Union City, Erie County. The facility currently has a Title V Operating Permit, TVOP-25-00035. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V operating permit through an administrative amendment at a later date.

Plan Approval No. PA-25-035A is for construction of a surface coating operation and for defining a VOC plantwide applicability limit (PAL). This construction will result in a PAL for VOC emissions of 164.15 tons per year, calculated on a baseline emission rate of 124.25 tons per year and a one-time growth factor of 39.9 tons per year.

MINING

APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to these applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection. A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code

§§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chs. 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Hawk Run District Office, P. O. Box 209, Off Empire Road, Hawk Run, PA 16840.

Coal Applications Received

17000106. G & S Timber, Inc. (P. O. Box 207, Curwensville, PA 16833), commencement, operation and restoration of a bituminous surface mine-auger permit in Bigler Township, **Clearfield County** affecting 7.3 acres. Receiving streams: unnamed stream to Upper Morgan Run to Clearfield Creek to West Branch Susquehanna River. Application received June 29, 2000.

Pottsville District Office, 5 West Laurel Boulevard, Pottsville, PA 17901-2454.

54980103C. Gale Coal Company, Inc. (1441 Oak Road, Pottsville, PA 17901), correction to an existing anthracite surface mine operation to include fly ash disposal, an incidental boundary correction and a stream variance in Frailey Township, **Schuylkill County** affecting 431.5 acres, receiving stream—Middle Creek. Application received July 3, 2000.

54763209R3. Gilberton Coal Company (P. O. Box 423, Gilberton, PA 17934), renewal of an existing coal refuse reprocessing/disposal operation in Butler Township and Ashland Borough, **Schuylkill County** affecting 109.0 acres, receiving stream—Mahanoy Creek. Application received July 6, 2000.

54803204R3. Gilberton Coal Company (P. O. Box 423, Gilberton, PA 17934), renewal of an existing coal refuse reprocessing operation in Butler Township, Schuylkill County and Conyngham Township, **Columbia County** affecting 24.6 acres, receiving stream—none. Application received July 6, 2000.

BUREAU OF DEEP MINE SAFETY

The Bureau of Deep Mine Safety has received a request for variance from the Consolidation Coal Company. The following notification contains a summary of this request. A complete copy of the variance request may be obtained from Allison Gaida by calling (724) 439-7469 or from the BDMS web site at <http://www.dep.state.pa.us/dep/deputate/minres/dms/dms.htm>.

The Department is publishing a summary of the request in order to solicit comments from affected parties on the proposed variance request. Comments may be used by the Bureau to assist in its investigation of the variance request. Comments will be accepted for 30 days following the publication of this notice. All comments should be addressed to Richard E. Stickler, Director, Bureau of Deep Mine Safety, Fayette County Health Center, 100 New Salem Road, Room 167, Uniontown, PA 15401.

Section 702 of the Bituminous Coal Mine Act (act) (52 P. S. §§ 701 and 702) provides a mechanism for operators to obtain variances from specific requirements of the act to accommodate the adoption of new machinery, equipment, tools, supplies, methods or processes.

Section 228(a) requires that certified persons conduct certain examinations within 3 hours immediately preceding the beginning of a coal-producing shift, and before any workmen in such shift other than those who may be designated to make the examinations prescribed in the section enter the underground areas of such mine.

Summary of the request: Consolidation Coal Company requests a variance to conduct pre-shift examinations within 3 hours preceding the beginning of any 8-hour interval during which any person is scheduled to work or travel underground and establish the 8-hour intervals of time subject to these examinations at the Dilworth Mine.

APPLICATIONS RECEIVED UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT

ENCROACHMENTS

The following permit applications and requests for Environmental Assessment approval and requests for water quality certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)), requires the State to certify that the involved projects will not violate the applicable provisions of 33 U.S.C.A. §§ 1311—1313, 1316 and 1317 as well as relevant State requirements. Initial requests for 401 certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Safety or Encroachment Permit, or the approval of Environmental Assessments must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act

(32 P. S. § 679.302) and requests for certification under section 401 of the Federal Water Pollution Control Act.

ACTIONS

FINAL ACTIONS TAKEN UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions under The Clean Streams Law (35 P. S. §§ 691.1—691.1001).

Northeast Regional Office: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

Approvals to Use NPDES and/or Other General Permits

The following parties have submitted (1) Notices of Intent (NOIs) for Coverage under General NPDES Permits to discharge wastewater into the surface waters of this Commonwealth; (2) NOIs for Coverage under General Permits for Beneficial Use of Sewage Sludge or Residential Septage by Land Application in Pennsylvania; or (3) Notifications for First Land Application of Sewage Sludge.

The approval of coverage under these General Permits may be subject to one or more of the following: pollutant or effluent discharge limitations, monitoring and reporting, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective general permit. The Department of Environmental Protection (Department) has reviewed the NOIs and determined that they comply with administrative requirements of the respective permit application. Also, the Department has evaluated the First Land Application of Sewage Sludge for the sites applying for coverage under PAG-7, PAG-8 and PAG-9 and determined that the sites are suitable for land application of sewage sludge.

The EPA Region III Regional Administrator has waived the right to review or object to this permit action under the waiver provision: 40 CFR 123.24.

The application and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted.

SEWAGE FACILITIES ACT PLAN APPROVAL

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) to the Environmental Hearing Board, 400 Market Street, Floor 2, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure are also available in Braille or on audio tape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Plan approval granted under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

Northeast Regional Office: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

Location: Jefferson Township, **Lackawanna County**. The approved sewage facilities plan update revision provides for construction of a wastewater conveyance system to transport collected wastewater from Jefferson Township to the Scranton Sewer Authority's wastewater system. The conveyance system consists of a pump station, force mains and gravity sewers along Route 247 and Marshwood Road, that will connect to an existing sewer line in the Borough of Dunmore. The wastewater collection system to be constructed in Jefferson Township will include the following general service areas: Moosic Lakes, Jefferson Heights, Route 247, Route 348 from Happy Acres to Belair, Happy Acres, Floral Estate, Belair Acres, Cortez Road to Lake Spangenberg Road, Lake Spangenberg Road to Lake Spangenberg, Lake Spangenberg and Lake Loretta, Saco, High View Trailer Park, Golf Course and Wimmers Road. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 2

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environ-

mental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, please contact the Environmental Cleanup Program Manager in the Department's Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908) and Chapter 250 Administration of Land Recycling Program.

Provisions of 25 Pa. Code § 250.8 Administration of Land Recycling Program requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the Land Recycling and Environmental Remediation Standards Act (act). Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigations, concentration of regulated substances in environmental media, benefits of reuse of the property, and in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the content of the plans and reports, please contact the Environmental Cleanup Program Manager in the Department's Regional Office under which the notice of the plan and report appears. If information concerning the plan and report is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

ACTIONS TAKEN UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT

ENCROACHMENTS

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514), and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and sections 5 and 402 of The Clean Streams Law (35 P. S. §§ 691.5 and 691.402) and notice of final action for certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)). (Note: Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description).

The Form 150-ASP can be downloaded from the

Professional Selections Web Site of the Department of General Services' Internet Home Page at <http://www.dgs.state.pa.us>. In addition, the Form 150-ASP can be obtained by e-mail by addressing a request to pbianchi@state.pa.us.

(b) The requesting professional firm shall obtain from each consultant listed in Question 9, page 4 of the requesting professional firm's application (Form 150-ASP) a signed letter of certification on the consultant's letterhead, attesting to the firm's consent to participate in the requesting professional firm's application (Form 150-ASP) for the specific project. Signed letters of certification from consultants are required and constitute a part of the requesting professional firm's application (Form 150-ASP) for the specific project. The signature on the letter of certification must be an original signature.

(c) The requesting professional firm must submit six copies of Form 150-ASP, Application for Specific Project, for each project herein advertised in which the firm is interested and qualified to perform. At least one of the six copies submitted must contain all original signatures. For architectural projects and, when appropriate, for engineering projects, the Professional shall supply photographs showing a maximum of two different views of each of the three relevant projects described in Question 12, Pages 7 through 9 of the application (Form 150-ASP). The requesting professional firm or joint venture firm must be the Professional of Record for the projects described in Question 12, Pages 7 through 9 of the application (Form 150-ASP). It is not acceptable to list work performed by Key Consultants. The identification and appropriate supportive information concerning each photograph shall include the name, project title, location, and the name of the Professional of Record. Color photo copies are acceptable, however, renderings and brochures will not be accepted in lieu of photographs. The photographs shall be attached to each copy of the application, (Form 150-ASP). The pages of each copy of Form 150-ASP must be stapled with photographs and consultant's letters of certification followed by the resume(s) of Key Personnel (listed in Question 10 and/or 11 on Pages 5 and/or 6) included as the last section of the application. Do not bind the application (Form 150-ASP) in any way to any other documentation. Do not bind the application (Form 150-ASP) in a binder of any type.

(d) A complete project submission, which consists of documents described previously in paragraphs (a), (b) and (c), must be received on or before the close of business (5 p.m.) Friday, August 11, 2000, and addressed to the Selections Committee, Department of General Services, Room 104, 18th and Herr Streets, Harrisburg, Pennsylvania 17125. Fax applications are not acceptable.

Project submissions must be made on the Form 150-ASP. Applications submitted on any other form are unacceptable and will not be considered by the Committee.

(e) The Selections Committee may at its discretion establish interviews with any or all of the Professionals who have requested consideration for appointment as designer for the above projects. If an interview is required, the Professional will be notified by the Committee as to the date, time and location.

(f) Additional information, in writing, may be requested by the Committee as required.

Additional Services—Indoor Air Quality Assessment Program and Hazardous Materials

The Professional firm selected to design a project to perform and administer, when required by the Depart-

ment as Additional Services, an Indoor Air Quality Assessment Program during Building or Renovation Commissioning and the sampling, testing, inspection and monitoring for removal of any asbestos, other hazardous waste or contaminants encountered during project design or construction, unless otherwise stated in the Scope.

The Selections Committee encourages responses from small firms, minority firms, women-owned firms and firms who have not previously performed State work, and will consider joint ventures, which will enable them to participate in this program.

All applications submitted are subject to review by the Selections Committee. The Selections Committee disclaims any liability whatsoever as to its review of the applications submitted and in formulating its recommendations for selection. All recommendations for selection made by the Committee shall be final under the act of May 15, 1998 (P. L. 358, No. 57).

DEPARTMENT OF HEALTH

Application of Mt. Lebanon Surgical Center for Exception

Under 28 Pa. Code § 51.33 (relating to requests for exceptions), the Department of Health (Department) hereby gives notice that Mt Lebanon Surgical Center has requested an exception to the requirements of 28 Pa. Code § 571.1 which requires compliance with minimum standards contained in the following publication: *Guidelines For Design and Construction of Hospitals and Healthcare Facilities*. Mt. Lebanon Surgical Center requests exceptions to 9.5F1 and 9.5F2, to use the existing treatment room for VISX Laser Vision Correction in lieu of an Operating Room, 9.5F5c, to eliminate the requirements for a scrub sink outside the room, ventilation requirements for the treatment room rather than the Operating Room, and two vacuum outlets instead of the three required.

The request is on file with the Department. Persons may receive a copy of the request for exception by requesting a copy from Department of Health, Division of Acute and Ambulatory Care, Room 532, Health and Welfare Building, Harrisburg, PA 17120, (717) 783-8980, Fax: (717) 772-2163, E-mail address: jinks@state.pa.us.

Those persons who wish to comment on this exception request may do so by sending a letter by mail, E-mail or facsimile to the Division and address listed.

Comments received by the Department within 10 days after the date of publication of this notice will be reviewed by the Department before it decides whether to approve or disapprove the request for exception.

Persons with disability who wish to obtain a copy of the request and/or provide comments to the Department and require an auxiliary aide service or other accommodation to do so, should contact Director, Division of Acute and Ambulatory Care at (717) 783-8980, V/TT: (717) 783-6514

Laboratories Approved to Determine Analyses of Blood and/or Serum for Controlled Substances Under the Clinical Laboratory Act, the Vehicle Code, the Fish and Boat Code, and the Game and Wildlife Code

The following laboratories are licensed by the Department of Health under the Clinical Laboratory Act (35 P. S. §§ 2151—2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a) and are currently approved by the Department under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood and/or serum for the determination of controlled substances. This approval is based on demonstrated proficiency in tests conducted by the Bureau of Laboratories of the Department of Health. These laboratories are also approved and designated for purposes of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance;

reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance) and the Game and Wildlife Code, 34 Pa.C.S. § 2502 (relating to hunting or furtaking under the influence of alcohol or controlled substance), as qualified to perform the types of services which will reflect the presence of controlled substances or their biotransformation products in blood and/or serum.

Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform screening and/or confirmatory analyses on blood and/or serum. Laboratories approved to perform screening analyses are designated on the approval list by an "S" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to screen both blood and serum would therefore have "SBSe" listed after their laboratory name. Laboratories approved to offer confirmatory analyses will be designated on the approval list by a "C" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to perform confirmatory analyses on both serum and blood would therefore have "CBSe" listed after the name of their laboratory.

Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic blood and/or serum analysis services from any of the listed laboratories should determine that the laboratory employs techniques and procedures acceptable for the medicolegal purposes. They should also determine that the director of the facility is agreeable to performing analyses for forensic purposes. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. That specification should be predicated upon the purpose for which the analysis is being sought.

The list of approved laboratories will be revised semiannually and published in the *Pennsylvania Bulletin*. Questions regarding this list should be directed to M. Jeffery Shoemaker, Ph.D., Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464, ext. 3273.

Persons with a disability who require auxiliary aid service should contact Dr. Shoemaker at V/TT: (717) 783-6514 for speech and/or hearing impaired persons or the Pennsylvania AT&T Relay Service at (800) 654-5984 [TT].

Laboratories Approved to Perform Blood Lead and/or Erythrocyte Protoporphyrin Determinations Under the Clinical Laboratory Act

The following laboratories are licensed in accordance with the Clinical Laboratory Act (35 P. S. §§ 2151—2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a), and are currently approved under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood for lead or erythrocyte protoporphyrin content. This approval is based on demonstrated proficiency in periodic evaluations conducted by the Bureau of Laboratories (Bureau) of the Department of Health (Department).

Lead poisoning is a reportable noncommunicable disease. Approved laboratories which offer blood lead or erythrocyte protoporphyrin testing services are required to inform the Department of actual or possible incidents of this condition in accordance with 28 Pa. Code § 27.4 (relating to reportable noncommunicable diseases and conditions). In addition, the Department requests laboratories to submit reports on children under 6 years of age and pregnant women, on whom laboratory tests confirm venous blood lead concentrations of 15 micrograms per deciliter or higher. The Department's collection and review of these latter reports would be consistent with the most recent revision of the guideline titled, *Preventing Lead Poisoning in Young Children*, which was published in 1991 by the United States Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and is available from them.

All reports must be sent to the Department of Health, Division of Environmental Health, P. O. Box 90, Harrisburg, PA 17108. Report forms are available on request from the Division of Environmental Health.

Erythrocyte protoporphyrin determinations may be performed as an adjunct determination to substantiate blood lead levels of 25 micrograms per deciliter or higher. Since erythrocyte protoporphyrin concentrations may not increase as a result of low level exposures to lead, direct blood lead analysis is the only reliable method for identifying individuals with blood lead concentrations below 25 micrograms per deciliter.

Persons seeking blood lead or erythrocyte protoporphyrin analyses should determine that the laboratory employs techniques and procedures acceptable for the purpose for which the analyses are sought. Laboratories offering blood lead analysis only are designated with the letter "L" following the name of the laboratory. Those offering erythrocyte protoporphyrin analysis only are designated with the letter "P". Laboratories offering both services are designated with the letters "LP."

Blood lead analyses performed for occupational safety and health purposes must be conducted by a laboratory which also meets the requirements of the Occupational Safety and Health Administration of the United States Department of Labor as specified in 29 CFR 1910.1025(j)(2)(iii).

The list of approved laboratories will be reviewed semiannually and if there are any changes to the list, a notice to that effect will be published in the *Pennsylvania Bulletin* at that time.

The Department's blood lead proficiency testing program is approved by the United States Department of Health and Human Services (HHS) in accordance with the requirements contained in the Clinical Laboratory Improvement Amendments of 1988 (42 CFR 493.901 and 493.937) which are administered by the Health Care Financing Administration (HCFA). Participation in these programs may therefore be used to demonstrate acceptable performance for approval purposes under both Federal and Commonwealth statutes.

Questions regarding this list should be directed to Dr. M. Jeffery Shoemaker, Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464, ext. 3273.

Persons with a disability who require auxiliary aid service should contact Dr. Shoemaker at V/TT: (717) 783-6514 for speech and/or hearing impaired persons or the Pennsylvania AT&T Relay Service at (800) 654-5984 [TT].

8. *Retailer Incentive Awards:* The Lottery may conduct a separate Retailer Incentive Game for retailers who sell Pennsylvania Happy Birthday/Best Wishes instant lottery game tickets. The conduct of the game will be governed by 61 Pa. Code § 819.222 (relating to retailer bonuses and incentives).

9. *Unclaimed Prize Money:* For a period of 1 year from the announced close of Pennsylvania Happy Birthday/Best Wishes, prize money from winning Pennsylvania Happy Birthday/Best Wishes instant lottery game tickets will be retained by the Secretary for payment to the persons entitled thereto. If no claim is made within 1 year of the announced close of the Pennsylvania Happy Birthday/Best Wishes instant lottery game, the right of a ticket holder to claim the prize represented by the ticket, if any, will expire and the prize money will be paid into the State Lottery Fund and used for purposes provided for by statute.

10. *Governing Law:* In purchasing a ticket, the customer agrees to comply with and abide by the State Lottery Law (72 P. S. §§ 3761-101—3761-314), the regulations contained in 61 Pa. Code Part V (relating to State Lotteries) and the provisions contained in this notice.

11. *Termination of the Game:* The Secretary may announce a termination date, after which no further tickets from this game may be sold. The announcement will be disseminated through media used to advertise or promote Pennsylvania Happy Birthday/Best Wishes or through normal communications methods.

DEPARTMENT OF TRANSPORTATION

Contemplated Sale of Land No Longer Needed for Transportation Purposes

Notice is hereby given that the Department of Transportation, pursuant to 71 P. S. § 513(e)(7), intends to sell certain land owned by the Department.

The following property is available for sale by the Department.

Parcel No. 39—East Deer Township, Allegheny County. This parcel contains approximately 28,000± s. f. or 0.643 acres of land situated at the end of Riddle Run Road off Murry Hill Road in East Deer Township. The property will be sold in “as is condition”. The estimated fair market value of the parcel is \$23,500.00. It has been determined that the land is no longer needed for present or future Transportation purposes.

Interest public entities are invited to express their interest in purchasing the site within 30 calendar days from the date of publication of this notice to: Raymond S. Hack, District Engineer, Pennsylvania Department of Transportation, Engineering District 11-0, 45 Thoms Run Road, Bridgeville, Pennsylvania 15017.

Retention of Engineering Firms

Bedford County

Project Reference No. 08430AG2578

The Department will retain an engineering firm to provide supplementary construction inspection staff of approximately twenty-four (24) inspectors, under the Department's Inspector(s)-in-Charge for construction inspection and documentation services on the following projects:

1. S. R. 0030, Section 07A, Bedford County
Local Name: Snake Spring Valley Run Bridge
This project involves the construction of a single-span, cement concrete structure and 0.62 km of bituminous roadway on a relocated alignment.
2. S. R. 0030, Section 07B, Bedford County
Local Name: Bedford Route 30 Widening East
This project involves the reconstruction and widening of 5.14 km of S. R. 0030 with areas of relocation, construction of two (2) structures, retaining walls, bituminous and cement concrete roadway, major drainage, guide rail, traffic signals, and intersection and interchange work.
3. S. R. 0030, Section 07C, Bedford County
Local Name: Bedford Route 30 Widening West
This project involves the reconstruction and widening of 2.34 km of S. R. 0030 with the construction of four (4) structures, bituminous and cement concrete roadway, retaining walls, major drainage, guide rail, traffic signals, and intersection work.
4. S. R. 0030, Section 017, Bedford County
Local Name: Bedford Bypass Rehabilitation
This project involves the rehabilitation of 4.13 km of concrete roadway and structures with bituminous pavement overlay and the construction of a 0.25 km local connector road.

Department policy requires firms providing construction inspection services to have a Federal Acquisition Regulation (FAR) field overhead rate established. The Department's current policy (SOL-430-91-34) requires a firm to submit their proposed field and office cost allocation approach, before the beginning of the fiscal year where the separate overhead rates would apply. This approach must comply with the provisions set forth in Part 31 of the Federal Acquisition Regulations (48 CFR Chapter 1) which governs the determination of the eligibility of costs making up the firm's Direct and Indirect Costs.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The final ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the final ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Review of inspectors' resumes with emphasis on construction inspection capabilities, Department and District experience and supervisory experience.
- b. Specialized experience in asphalt paving, concrete paving and patching, drainage, earthwork, structures, CPM schedule usage, and Construction Documentation System (CDS).

c. Number of NICET and NECEPT certified inspectors in each payroll classification.

d. Past performance, with particular emphasis being placed on the firm's demonstrated commitment to: 1) customer service, 2) customer satisfaction, 3) partnering, and 4) dedicated support staff.

e. Understanding of Department's requirements, policies, and specifications.

f. Ability to provide two (2) CDS operators or persons capable of inputting data into personal computer, and two (2) licensed nuclear operators (TCI-M classification).

The qualifications and experience required of the firm's inspectors will be established by the Department, and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

It is anticipated that the supplementary construction inspection staff for this assignment will consist of the following number of inspectors who meet the requirements for the following inspection classifications:

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Manager 2 (TCM-2) (NICET Highway Construction Level 4 or equivalent)	1 (1)
Transportation Construction Manager 1 (TCM-1) (NICET Highway Construction Level 4 or equivalent)	2 (2)
Transportation Construction Ins. Super. (TCIS) (NICET Highway Construction Level 3 or equivalent)	4 (4)
Transportation Construction Inspector—Materials (TCI-Materials) (NICET Highway Materials Level 2 or equivalent)	2 (2)
Transportation Construction Inspector (TCI) (NICET Highway Construction Level 2 or equivalent)	13 (4)
Technical Assistant—1 (TA-1) (NICET Highway Construction Level 1 or equivalent)	1 (0)
Technical Assistant (TA) (NICET Highway Construction Level 1 or equivalent)	1 (0)

The numbers in parenthesis above indicate the number of inspectors in each Classification that must meet at least one of the following requirements:

1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of Highway Construction, or subfield of Highway Materials, at the Level required for the Inspection Classification.
2. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
3. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
4. Hold a Bachelor of Science Degree in Civil Engineering or a Bachelor of Science Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.
5. Hold an Associate Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

The maximum hourly payroll rate for each Department Payroll Classification for calendar year 2000 shall be as shown:

<i>Payroll Classification</i>	<i>Maximum Straight Time Hourly Payroll Rate (Year 2000)</i>
(TCM-2)	\$26.50
(TCM-1)	\$23.22
(TCIS)	\$20.34
(TCI-Materials)	\$17.55
(TCI)	\$17.05
(TA-1)	\$13.80
(TA)	\$11.72

If applicable, the maximum straight time hourly payroll rate for subsequent calendar years will be established at the scope of work meeting.

The maximum hourly payroll rate is the maximum hourly rate paid to an employee in a specific Department Payroll classification. The Department reserves the right to negotiate hourly payroll rates of compensation of individuals based on knowledge, experience and education up to the payroll classification maximum hourly payroll rate.

The firm selected may be required to attend a pre-construction conference with the Department and the construction contractor for this project. Under the supervision and direction of the Department, the selected firm will be required to keep records and document the construction work; prepare current and final estimates for payment to the construction contractor; assist the Department in obtaining compliance with the labor standards, safety and accident prevention, and equal opportunity provisions of the contract item; and perform other duties as may be required. Firms applying must have qualified personnel capable of climbing structures during painting, rehabilitation, or construction.

The firm selected will be required to supply the following equipment:

<i>Quantity</i>	<i>Item</i>
2	Nuclear Densometer Gauges/License
2	Vehicle for Transporting Nuclear Gauge
16	Two-Way Radios
2	Base Radio Station
6	Cellular Phones (for Engineer's employees only)
2	Repeaters
2	Two-Way Radio Repeater Station
2	Camera—Digital

The Department will directly reimburse the selected engineering firm for the above equipment, for use by the consultant inspection staff at their actual cost not to exceed the maximum direct reimbursement shown below. The engineering firm is required to include their billing rates for each type of equipment in the letter of interest.

- Nuclear Densometer @ \$660.00 each Maximum/month Gauge
- Vehicle for Gauge @ \$650.00 each Maximum/month
- Two-way Radio @ \$ 25.00 each Maximum/month
- Radio Base Station @ \$ 35.00 each Maximum/month
- Cell Phone Usage* As per invoice
- Repeaters As per invoice
- Two-way Radio As per invoice
- Repeater Station As per invoice
- Camera—Digital As per invoice

If the equipment is self-owned, reimbursement will be based on actual cost of ownership not to exceed the

maximum allowable. If equipment is from an outside supplier, the engineer must secure a minimum of three written quotes. The Department reserves the right to request additional quotes.

* Cost of phone and activation fees are not eligible for direct reimbursement

The Department will reimburse for actual miles driven on the project as directed by the Department, and a maximum of \$32.50/day for either mileage to and from the work site or lodging. An inspector will not be reimbursed for a combination of the two during the same day. Mileage will be reimbursed for the most direct route from the inspector's residence or the Consultant's office, whichever is less, to the project site and return at the lesser of the maximum mileage rate established by the Commonwealth or the firm's current policy. The first 15 miles each day of an inspector's commute from and to his/her residence or the consultant's office to the work location is considered normal commuting travel and will not be eligible for mileage reimbursement. Lodging will be reimbursed at a maximum rate of \$32.50/day, in lieu of mileage, but receipts for all costs must be provided to the Department with the Engineer's invoice. Lodging will only be reimbursed for employees whose home or headquarters is more than 65 miles from the project.

The goal for Disadvantaged Business Enterprise (DBE) participation in this Agreement shall be fifteen percent (15%) of the total contract price. Additional information concerning DBE participation in this Agreement is contained in the General Requirements and Information Section after the advertised project(s).

Letters of interest for this project must include a letter, signed by the individuals you propose for all TCM-2, TCM-1 and TCIS positions, giving their approval to use their name in your letter of interest for this specific project.

The maximum number of resumes to be included in the letter of interest shall be as follows:

<i>Classification</i>	<i>No. of Resumes</i>
TCM-2	2
TCM-1	3
TCIS	5
TCI-M	3
TCI	16
TA-1	0
TA	0

This project reference assignment is considered non-complex. The letter of interest shall be limited to a maximum of five (5) pages, 8 1/2" x 11", one sided (any pages beyond 5 will not be reviewed by the Department), plus an organizational chart (up to 11" x 17" size), and additional resumes. (See the General Requirements and Information Section).

The Letter of Interest submission shall be sent to:

Mr. Earl L. Neiderhiser, P.E., District Engineer
 Engineering District 9-0
 1620 North Juniata Street
 Hollidaysburg, PA 16648

The Letter of Interest submission for this project reference number must be received at the address listed above by 4:30 p.m. prevailing time on the twentieth (20) day following the date of this Notice.

Any technical questions concerning the requirements for this project should be directed to Kevin L. Stern, P.E., phone number 814-696-7139, fax number 814-696-7146.

Adams County**Project Reference No. 08430AG2579**

The Department of Transportation will retain an engineering firm for a specific project agreement to provide environmental studies, preliminary engineering, final design, services during construction and viewers plans. This project is for the addition of a middle left turn lane and passing lanes at various locations along S. R. 0030, Section 014, Route 30, for an approximate length of 6.5 miles. This project is located on S. R. 0030 in Adams County, Hamilton, Mt. Pleasant and Berwick Townships beginning at Township road, T-514 and extending through New Oxford and Abbottstown to the Adams and York County line. The design of this project is expected to have an overall duration of approximately seventy-two (72) months with shorter, varying schedules for individual phases. The estimated construction cost of the new roadway is approximately \$3.8 million and 6.5 miles in length.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Experienced in highway design, geotechnical design, and hydrological/hydraulic analysis. Past record of performance with respect to cost control, work quality, and ability to meet schedules. The specific experience of individuals employed by the firm shall be considered.
- b. Available staffing for this assignment and the ability to meet the Department's needs.
- c. Specialized experience and technical competence with similar projects, including experience in working on environmental studies and providing right-of-way plans.
- d. Location of Consultant in respect to the District.

The selected firm may be required to provide a variety of services. They may include the following: project administration; field surveys; plotting of topography and cross sections; utility investigation and coordination; geotechnical studies; core borings, foundation designs; preliminary right-of-way investigation; safety reviews; pavement and drainage designs; field views; environmental studies and documentation; interagency permits; preliminary line, grade and typical section development; drainage and roadway design; highway signing and pavement marking plans; right-of-plans; traffic control plans; erosion and sedimentation control plans; and structure designs; and P. S. and E. package; electronic data transfer; engineering services during construction including shop drawing review and consultation services; including preparing plans for a potential Board of Viewers review.

The design of this project will be developed using English units.

Welcom's Open Plan software is to be used for project management and tracking.

A project specific Quality Development Plan prepared by the selected firm will be required for the project.

The Department is seeking a multi-disciplined team with environmental, geotechnical, and highway design experience.

The goal for Disadvantaged Business Enterprise (DBE) participation in this Agreement shall be fifteen (15%) percent of the total contract price. Additional information concerning DBE participation in this Agreement is contained in the General Requirements and Information section after the advertised project(s).

This project reference assignment is considered complex. The letters of interest shall be limited to a maximum five (5) pages, 8 1/2" x 11", one sided, plus an organizational chart (up to 11" x 17" size), and additional resumes, if applicable. (See the General Requirements and Information Section.)

The Letter of Interest and required forms shall be sent to:

Barry G. Hoffman, P.E., District Engineer
Engineering District 8-0
2140 Herr Street
Harrisburg, PA 17103
Attention: Rich Deen, Project Manager

The Letter of Interest submission for this project reference number must be received at the address listed above by 4:30 p.m. prevailing time on the twentieth (20th) day following this Notice.

Any technical questions concerning the requirements for this project should be directed to Rich Deen, District 8-0, at (717) 787-5596, fax number (717) 705-5493.

General Requirements and Information

Firms interested in providing the above work and services are invited to submit a Letter of Interest with the required information for each Project Reference Number for which the applicant wishes to be considered.

The Letter of Interest and required information must be submitted to the person designated in the individual advertisement.

The Letter of Interest and required information must be received by the Deadline indicated in the individual advertisement.

For District projects, all consultants, both prime consultants and subconsultants, who desire to be included in a Letter of Interest must have an Annual Qualification Package on file with the appropriate District Office, by the deadline stipulated in the individual advertisements.

For Statewide projects, all consultants, both prime consultants and subconsultants, who desire to be included in a Letter of Interest must have an Annual Qualification Package on file with Central Office, Bureau of Design by the deadline stipulated in the individual advertisements.

Information concerning the Annual Qualification Package can be found in Strike-off Letter No. 433-99-04 or under the Notice to all Consultants published in the February 27, 1999 issue of the *Pennsylvania Bulletin*.

By submitting a letter of interest for the projects that request engineering services, the consulting firm is certifying that the firm is qualified to perform engineering services in accordance with the laws of the Commonwealth of Pennsylvania. A firm not conforming to this requirement may submit a letter of interest as a part of a joint venture with an individual, firm or corporation which is permitted under State law to engage in the practice of engineering.

The letter of interest must include full disclosure of any potential conflict of interest by the prime or any subconsultant based on Engineering Involvement Restrictions Guidelines as established in Strike-off Letter No. 433-00-02 published March 27, 2000. If there are no potential conflicts you shall include the following statement: "I have reviewed Strike-off Letter No. 433-00-02 and determine that there are no potential conflicts of interest for anyone on this project team."

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit a Letter of Interest on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Transportation Equity Act for the 21st century (TEA-21) and currently certified by the Department of Transportation shall have the opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The TEA-21 requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they are defined prior to the act, WBEs or combinations thereof).

Proposed DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Letters of Interest for will be considered non-responsive and eliminated from further consideration for any of the following reasons:

1. Letters of Interest not received on time.
2. Project of interest is not identified.
3. An Annual Qualification Package for the prime consultant and all subconsultants is not on file with the organization receiving the Letter of Interest.
4. Conflict of Interest evaluation statement is not included.
5. A Disadvantaged Business Enterprise (DBE) participation goal is established for the Project Reference Number but no DBE/WBE is identified and no good faith effort is included.
6. Firm submitted a Letter of Interest on more than one (1) Joint Venture or a firm submitted a Letter of Interest as a prime and was also included as a subconsultant, to another firm. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm, or firms, involved.

In addition to the above reasons, a Letter of Interest for Construction Inspection Services will be considered non-responsive for any of the following reasons:

1. Prime consultant or any subconsultant does not have a Federal Acquisition Regulation (FAR) Audit Field Overhead Rate on file with the Department.

2. Using an individual's resume without including a letter granting the individual's approval for TCIS and higher positions.

3. Exceeding the maximum number of resumes in a payroll classification.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the designated standing committees may issue comments within 20 days of the close of the public comment period, and the Commission may issue comments within 10 days of the close of the committee comment period. The Commission comments are based upon the criteria contained in section 5a(h) and (i) of the act (75 P. S. § 745.5a(h) and (i)).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulations must be submitted by the dates indicated.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Issued</i>	<i>Final-Form Submission Deadline</i>
50-114	Pennsylvania Securities Commission Registration of Securities; Investment Adviser Representatives; and Administration	7/6/00	6/5/02
15-414	Department of Revenue Personal Income Tax	7/6/00	6/5/02

Pennsylvania Securities Commission Regulation No. 50-114

Registration of Securities; Investment Adviser Representatives; and Administration

July 6, 2000

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)) which has not been met. The Pennsylvania

Securities Commission (PSC) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by June 5, 2002, the regulation will be deemed withdrawn.

1. Section 303.012. Investment adviser registration procedure.—Clarity.

Subsection (a) Registration depository

This subsection requires forms to be filed with the PSC or with a central repository designated by order of the PSC. There are similar requirements in sections 303.014, 303.015 and 306.061. The comments of the Investment Council Association of America, Inc. (ICAA) indicated the phrase “central registration depository” could be confused with the Central Registration Depository. The PSC should explain what repository will be designated by order of the PSC, and how notice will be given to the affected parties.

Subsection (b) Audited balance sheet

The Investment Company Institute (ICI) and the Financial Planning Association (FPA) commented the \$500 threshold to file an audited balance sheet in paragraph (1) should be \$1,200 to be consistent with changes made by the Securities and Exchange Commission (SEC). The PSC should increase the threshold to \$1,200 or explain why the \$500 threshold is appropriate.

Paragraph (1) requires an applicant to include an audited balance sheet under certain conditions. The ICI and FPA suggest allowing out-of-State investment advisers to file copies of their home state audited balance sheet. Where out-of-State filing requirements are the same as Pennsylvania’s requirements, the PSC should consider allowing copies.

Paragraph (2) appears to have a typographical error. It should state “. . . as of a date. . . .”

2. Section 303.014. Investment adviser representative registration procedures.—Need; Clarity.

Subsections (a) and (b) Federally covered advisers

The ICI commented these subsections should also apply to Federally covered advisers. The PSC should amend the regulation to clarify the scope of these subsections.

Subsection (b) Filing of forms

In this subsection, the ICI doesn’t believe both the investment adviser and the investment adviser representative should have to file amendments to Form U-4. The ICI believes “or” should be used to eliminate duplicative filings. The PSC should explain why both filings are needed.

3. Section 303.015. Notice filing for Federally covered advisers.—Economic Impact; Need; Clarity.

Subsection (b) Annual filings

The ICI commented the Investment Adviser Registration Depository (IARD) does not require a full filing each year. Only Items 2(A) and 5(F) of Part 1A of Form ADV are required. The PSC should amend the regulation to be consistent with IARD or explain the need for a full filing each year.

4. Section 303.021. Registration and notice filing procedures for successors to a broker-dealer, investment adviser or Federally covered adviser.—Reasonableness.

Subsection (c) Registered investment advisers

The ICI commented that registered investment advisers should be added to this subsection. The PSC should add them or explain why registered investment advisers were not included.

5. Section 303.032. Examination requirements for investment advisers and investment adviser representatives.—Economic Impact; Need; Reasonableness; Clarity.

Subsection (a) Out-of-State registrants

The ICI and the FPA commented paragraphs (1) and (2) will require out-of-State registrants to re-take examinations after 2 years, which is inconsistent with the North American Securities Administrators Association, Inc. (NASAA) Model Rule. They suggest rewording the regulation to clarify how the 2-year limit applies to out-of-State registrants. The PSC should explain the intent of paragraphs (1) and (2).

Subsection (c) Waivers of examination requirements

The FPA commented that Certified Public Accountants (CPA) and attorneys should not qualify for waiver from examination requirements under subsection (c). The FPA believes the CPA and the bar examinations do not test the same information as the Series 65 examination. The PSC should explain why CPAs and attorneys qualify for waivers.

The Certified Financial Planners Board of Standards commented the NASAA model rule has been updated, and the appropriate board in section (c)(1)(ii)(A) is the Certified Financial Planner Board of Standards, Inc. The PSC should review section (c)(1)(ii)(A) for consistency with the NASAA model rule.

6. Section 303.042. Investment adviser capital requirements.—Reasonableness.

Subsection (a)(5) Net worth requirements

This subsection requires an investment adviser who meets certain conditions to maintain a positive net worth at all times. This provision applies when:

- The adviser’s principal place of business is in Pennsylvania; and
- The adviser accepts prepayment of advisory fees more than 6 months in advance and in an amount of more the \$500 per client.

This provision is consistent with the NASAA Model Rule on Capital and Bonding Requirements of Investment Advisers. However, the ICI and the FPA commented that the Federal SEC is proposing to increase the \$500 threshold to \$1200 for Federally registered advisers. The PSC should increase the threshold to \$1,200 or explain why the \$500 threshold is appropriate.

Subsection (d) Appraisal of assets

Under this subsection, the PSC “may” require an appraisal to determine the net worth of an asset under the net worth formulation. The conditions which would trigger the appraisal requirement are not included in the regulation. We request the PSC explain when an appraisal would be required.

7. Section 303.051. Surety bonds.—Reasonableness; Clarity.

Subsection (a)(1) Bonding requirement

This subsection provides that an investment adviser who does not meet the minimum net worth requirements “may” be required to maintain a surety bond to cover the net worth deficiency. Section 202(e)-1(a)(2) of the NASAA model rule on “Bonding Requirements for Certain Investment Advisers” states that the investment advisers who

do not meet the minimum net worth requirements “shall” be bonded. We request the PSC explain why the requirements in the proposed regulation and the model rule are different and under what circumstances a bond would not be necessary.

Subsection (c) Evidence

Under this subsection, a broker-dealer or investment adviser “shall provide evidence of the existence of a surety bond” at the PSC’s request. Under what circumstances would the PSC make this request?

8. Section 304.012. Investment adviser required records.—Consistency with the statute; Clarity.

Subsection (a) Recordkeeping

Subsection (a) contains an extensive list of recordkeeping requirements. In its comments, the ICI pointed out that subsection (j) lists the instances in which the recordkeeping requirements do not apply. The ICI suggested that the exemptions in subsection (j) be referenced in subsection (a). For improved clarity, the PSC should add this reference to subsection (a).

Subsections (a)(12)(iv) and (a)(13)(v) both contain definitions of “investment adviser representative.” Although these definitions are consistent with the NASSA Model Rule, they are inconsistent with the definition of “investment adviser representative” in the Pennsylvania Securities Act (70 P. S. § 1-102(j.1)). We object to a definition that is inconsistent with the statutory definition. If the PSC does not reference the statutory definition of this term in the final regulation, it should justify any changes made to the definition.

9. Section 304.052. Investment adviser compensation.—Clarity.

Disclosure of charges

This section requires investment advisers to “adequately” disclose their charges for providing investment advice in writing to each client. For improved clarity, the PSC should specify what constitutes “adequate” disclosure.

10. Section 305.011. Supervision of agents, investment adviser representatives and employes.—Clarity.

Subsection (a) Supervision requirements

In paragraph (1) the term “timely” is used to require broker-dealers and investment advisers to “timely detect and prevent any violations of statutes, rules regulations or orders. . . .” The term “timely” is vague. The PSC should consider establishing a specific period of time.

Subsection (c) Out-of-State investment advisers

This subsection establishes the requirements for written procedures. In its comments, the ICI expressed concern regarding imposing recordkeeping requirements on out-of-State investment advisers when the investment advisers are registered in the state where they maintain a place of business. For improved clarity, the PSC should add language that clarifies what requirements apply to out-of-State investment advisers.

Subsection (c) Recordkeeping

Subsections (c)(9) and (c)(10)(iii) require written records to be maintained. However, the requirements do not specify the amount of time that the records should be kept. The PSC should clarify in these two subsections how long the written records must be maintained.

11. Section 305.061. Withdrawal of registration or notice filing.—Clarity.

Form filing

Subsection (c) provides that a Federally covered adviser is to file Form ADV-W to withdraw a notice filing. In its comments, the ICAA suggests that the PSC amend the language to allow for the electronic version of the form to be filed. To avoid confusion, the regulation should list the acceptable methods by which the forms may be submitted.

12. Section 404.011. Investment adviser brochure disclosure. and Section 404.012. Wrap fee brochure disclosure.—Clarity.

Disclosure

These sections establish the disclosure that investment advisers must provide to their clients. In its comments, the ICI recommends that the PSC incorporate the proposed changes to the Federal rules which govern an adviser’s disclosure obligations. To avoid potential confusion and to avoid the final regulation being inconsistent with Federal rules, we suggest the PSC monitor the SEC action on this issue, and if the SEC rules are finalized, amend the final regulation to be consistent with Federal rule changes.

**Department of Revenue
Regulation No. 15-414
Personal Income Tax**

July 6, 2000

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)) which has not been met. The Department of Revenue (Department) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by June 5, 2002, the regulation will be deemed withdrawn.

1. Section 101.1 Definitions.—Consistency with statute; Clarity.

Supplemental unemployment benefit plan

The definition includes the phrase “established or maintained by an employer or by an employe organization, or by both.” Section 7301(d)(vi) of the act (72 P. S. § 7301(d)(vi)) uses the phrase “payments made by employers or labor unions.” The Department should explain how the phrase in the definition is consistent with 72 P. S. § 7301(d)(vi).

Subparagraphs (i) and (ii)

In subparagraphs (i) and (ii), why is the phrase “Under the plan” needed, since the definition states these are attributes of the plan? In subparagraphs (i) and (ii) what is meant by the phrase, “or subject in any manner to anticipation, assignment or pledge by”? Finally, why is the phrase “(whether or not the separation is temporary)” needed in subparagraph (i)? The Department should delete these phrases or explain why they are necessary.

Subparagraph (i)(A)

Clause (A) references a “permanent” reduction in work force. The Department should explain how “permanent” is determined, and how “permanent” relates to the phrase “(whether or not the separation is temporary)” in subparagraph (i).

Subparagraphs (i)(E) and (ii)(B)

Subparagraphs (i)(E) and (ii)(B)(III) use the phrases "similar circumstances" and "similar acts." What criteria will the Department use to determine similarity?

2. Section 101.6 Compensation.—Duplication; Clarity.

In subsection (c) "supplemental unemployment benefits" is referenced and included in existing paragraph (6). Under the proposed amendments, supplemental unemployment benefits would also be listed in paragraph (9). For clarity, the Department should incorporate the provisions for supplemental unemployment benefits under one paragraph.

Given the definition of "supplemental unemployment benefit plan" in section 101.1, the Department should explain why the qualifying phrase "whether payable on a periodic basis or in the form of cash, services or property" is needed in section 101.6(c).

Pennsylvania Compensation Rating Bureau; F-Classification and USL&HW Rating Value Filing

On June 30, 2000, the Insurance Department (Department) received from the Pennsylvania Compensation Rat-

ing Bureau (PCRB) a filing for rate changes in Workers' Compensation F-Classifications to be effective October 1, 2000.

The filing proposes a change in the USL&HW Compensation Coverage Percentage from 99.5% to 78.7%. Also, proposed changes to manual rates for individual F-Classifications range from an increase of 3.0% to a decrease of 7.0% for an overall reduction in manual rates for F-Classifications of 4.26%.

Copies of the filing are available for public inspection during normal working hours, by appointment, at the Department's offices in Harrisburg, Philadelphia, Pittsburgh and Erie.

Interested parties are invited to submit written comments, suggestions or objections to Kenneth Creighton, ACAS, Insurance Department, Office of Rate and Policy Regulation, Bureau of Property and Casualty Insurance, Actuarial Review Division, 1311 Strawberry Square, Harrisburg, PA 17120 (e-mail at kcreight@ins.state.pa.us).

Review Procedure Hearings; Cancellation or Refusal of Insurance

The following insureds have requested a hearing as authorized by the act of June 17, 1998 (P. L. 464, No. 68) in connection with the termination of the insured's automobile policy. The hearing will be held in accordance with the requirements of the act; 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure); and 31 Pa. Code §§ 56.1—56.3 (relating to Special Rules of Administrative Practice and Procedure). This administrative hearing will be held in the Insurance Department's Regional Offices in Philadelphia, PA. Failure by the appellant to appear at the scheduled hearing may result in dismissal with prejudice.

The hearing will be held in Room 1701, State Office Building, 1400 Spring Garden Street, Philadelphia, PA 19130.

Appeal of Dennis and Linda Ponnock; file no. 00-280-01937; Liberty Mutual Insurance Group; doc. no. PH00-07-002; September 29, 2000, at 3 p.m.

Parties may appear with or without counsel and offer relevant testimony or evidence. Each party must bring documents, photographs, drawings, claims files, witnesses and the like necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Commissioner may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Insurance Commissioner will issue a writ-

ten order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend the above-referenced administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing should contact Tracey Pontius, Agency Coordinator, at (717) 787-4298.

Clean Water State Revolving Fund Projects Federal FY 2000 and 2001 Project Priority List and FY 2000 Intended Use Plan

Notice is hereby given that the Pennsylvania Infrastructure Investment Authority and the Department of Environmental Protection have received approval from the Environmental Protection Agency (EPA) of the final combined fiscal year 2000 and 2001 sewerage construction Project Priority List (PPL) and the final fiscal year 2000 Intended Use Plan (IUP) list of municipal sewerage projects to be considered for a construction loan from Pennsylvania's Federal fiscal year 2000 appropriation for the Clean Water State Revolving Fund (CWSRF) program.

A public hearing was held on February 23, 2000, for the purpose of receiving comments from the public regarding the combined FY 2000/2001 CWSRF PPL and the FY 2000 IUP. Interested persons were invited to express their views on the priority rating or ranking of projects on the PPL and the IUP at the public hearing.

The projects to be considered for a loan from the CWSRF must meet the Federal requirements for funding in accordance with Title II and Title VI of the Water Quality Act. Accordingly, the projects included in the IUP are rated under Pennsylvania's approved project priority

rating system and are expected to meet the requirements applicable to use of the CWSRF loan funds. Projects listed on the FY 2000 IUP are on Pennsylvania's CWSRF PPL and are projects that have or are expected to proceed to construction in the near future. Other projects on the CWSRF sewerage construction PPL are projects that are in development or will be developed for future construction loan consideration. Any project removed from an IUP is maintained on the PPL unless otherwise completed.

The final combined FY 2000/2001 CWSRF PPL and the final FY 2000 CWSRF IUP list of projects follow this notice. Copies of these lists, as well as the narrative portion of the CWSRF Intended Use Plan, are available for public review in the offices listed at the end of this notice. In addition, based on new or additional information related to project ratings or other relevant factors, prior fiscal year IUP lists have been revised and are available by contacting these same offices:

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:
 The payment date specified in the contract.
 30 days after the later of the receipt of a proper invoice or receipt of goods or services.
 The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.

GET A STEP AHEAD IN COMPETING FOR A STATE CONTRACT!

The Treasury Department's Bureau of Contracts and Public Records can help you do business with state government agencies. Our efforts focus on guiding the business community through the maze of state government offices. The bureau is, by law, the central repository for all state contracts over \$5,000. Bureau personnel can supply descriptions of contracts, names of previous bidders, pricing breakdowns and other information to help you submit a successful bid on a contract. We will direct you to the appropriate person and agency looking for your product or service to get you "A Step Ahead." Services are free except the cost of photocopying contracts or dubbing a computer diskette with a list of current contracts on the database. A free brochure, "Frequently Asked Questions About State Contracts," explains how to take advantage of the bureau's services.
