READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Friedman, Commonwealth Court of Pennsylvania; the Honorable Paul W. Tressler, Montgomery County Court of Common Pleas; and the Honorable Donald E. Machen, Allegheny Court of Common Pleas expired on July 28, 2001.

Under 18 Pa.C.S. § 9311(a) (relating to selection of special independent prosecutor's panel), the Court Administrator of Pennsylvania is required to determine and supervise the procedure for selecting members of the panel.

In accordance with 18 Pa.C.S. § 9311(a), a panel composed of one judge of the Commonwealth Court and two judges of the Courts of Common Pleas were chosen at random. The judges selected were: the Honorable Dante R. Pellegrini, Commonwealth Court of Pennsylvania; the Honorable Thomas J. Terputac, Senior Judge, Washington County Court of Common Pleas; and the Honorable Margherita Patti Worthington, Monroe County Court of Common Pleas.

Title 246—MINOR COURT CIVIL RULES

PART I. GENERAL

[246 PA. CODE CHS. 200—500 AND 1000]

Satisfaction of Money Judgments

Introduction

In response to comments received after the proposal's first publication, the Minor Court Rules Committee has revised its proposal to renumber Pa. R.C.P.D.J. No. 325, adopt entirely new Pa. R.C.P.D.J. Nos. 211, 341, and 342, and amend or revise the Notes to Pa. R.C.P.D.J. Nos. 306, 315, 324, 402, 514, 518, 1001, and 1007 to provide a procedural mechanism for the entry of satisfaction of money judgments rendered by district justices, and to make other technical or "housekeeping" amendments to these rules. The original proposal and Report were published at 31 Pa.B. 1319 (March 10, 2001). The Committee has not submitted this proposal for review by the Supreme Court of Pennsylvania.

The following explanatory Revised Report highlights the Committee's considerations in formulating this proposal and the revisions made since the first publication. The Committee's Revised Report should not be confused with the official Committee Notes to the rules. The Supreme Court does not adopt the Committee's Notes or the contents of the explanatory Reports.

The text of the proposed changes precedes the Revised Report. Except for proposed entirely new rules, additions are shown in bold; deletions are in bold and brackets.

We request that interested persons submit suggestions, comments, or objections concerning this proposal to the Committee through counsel, Michael F. Krimmel, Counsel, Supreme Court of Pennsylvania, Minor Court Rules Committee, 5035 Ritter Road, Suite 700, Mechanicsburg, PA 17055, or e-mail to: minorcourt.rules@supreme.court.state.pa.us no later than Friday, September 14, 2001.

TITLE 246. MINOR COURT CIVIL RULES

PART I. GENERAL

CHAPTER 200. RULES OF CONSTRUCTION; GENERAL PROVISIONS

Rule 211. Abolished, Consolidated, or Changed Magisterial Districts; Subsequent Filings.

When these rules specify that a party is to file or serve an ancillary or supplementary action in the court which rendered a judgment or issued other process, but that court no longer exists or its magisterial district boundaries have been changed, the party may file or serve the ancillary or supplementary action only in the court in which the original record of the proceedings containing the judgment is filed.

Official Note: This rule provides a procedure for filing or serving an ancillary or supplementary action, when the action should be filed or served in the court which rendered the judgment or issued other process, but that court has been abolished, consolidated or otherwise changed. Such actions may include a request for order of execution or a request for a certified copy of a judgment (see Rule 402), an objection to levy or other property claim (see Rule 413), a request for order of possession (see Rule 515), or a request for entry of satisfaction (see Rule 341), among others. The rule provides that, under these circumstances, the action may be filed or served only in the court which has become the official custodian of the original record, even though that court did not render the judgment.

Adopted _____, effective _____.

CHAPTER 300. CIVIL ACTION

Rule 306. Numbering and Filing of Complaints.

* * * * *

Official Note: It was felt that this rule contained all the provisions concerning office procedures that should be required by rule. [It is hoped, however, that close supervision by the State Court Administrator will bring about] The Court Administrator of Pennsylvania publishes

the *District Justice Automated Office Clerical Procedures Manual* that prescribes uniform filing, record keeping and other office procedures.

“Complaints filed in the case by a defendant” means cross-complaints filed pursuant to Rule 315. Supplementary actions filed pursuant to Rule 342 shall be numbered and filed as miscellaneous docket actions.

Amended June 30, 1982, effective 30 days after July 17, 1982; Note revised _____, effective _____.

Rule 315. Claim by Defendant.

A. The defendant, by filing [**his own**] a complaint at least five [**(5)**] days before the date set for the hearing, may assert in the case any claim against the plaintiff [**which**] that is within the jurisdiction of a district justice. Such a claim need not arise from the same transaction or occurrence from which the plaintiff's claim arose, nor need it be the same type of claim.

B. The rules governing the form, processing, and service of a plaintiff's complaint shall apply also to the defendant's complaint, and a date and time for the hearing of both complaints together shall be set which shall not be less than [**twelve (12)**] 12 or more than [**thirty (30)**] 30 days from the filing of the defendant's complaint.

* * * * *

D. If the defendant files a cross-complaint, the district justice shall promptly notify the plaintiff of the time and date set for the hearing of both complaints together. If the plaintiff has an attorney of record [**named in the complaint form filed by him**], the notice shall be given to the attorney of record instead of to the plaintiff.

Official Note: Subdivision A of this rule permits the defendant to file a cross-complaint against the plaintiff at least five days before the date originally set for the hearing, if it is for a claim cognizable by a district justice. [**See the Judicial Code, § 1515(a)(3)**] **See Section 1515(a)(3) of the Judicial Code, 42 Pa.C.S. § 1515(a)(3), [as amended by § 10(18) of the Judiciary Act Repealer Act, Act of April 28, 1978, P.L. 202, No. 53,]** as to waiver of jurisdictional limits, a defendant filing a cross-complaint being considered a “plaintiff” as to the cross-complaint within the meaning of this statute. [**Such a claim need not comply with the counterclaim rules found in Pa. R.C.P. Nos. 1031(a) and 1046.**] The requirement that a cross-complaint be filed at least five days before the hearing [**limitation**] is intended to give the district justice time to notify the plaintiff or [**his**] the plaintiff's attorney, under subdivision D of the rule, of any new hearing time and date [**, so that he will not arrive at the office of the district justice with his witnesses only to find that the original date of the hearing has been changed to a later date**]. Notice under subdivision D is not a substitute for the service required under subdivision B. If the defendant does not file [**within the five day period, he can**] an action at least five days before the hearing, the defendant may still file a complaint against the plaintiff but it will not be processed [**under the cross-complaint rules**] as a cross-complaint.

No provision has been made for a stay of the district justice proceedings upon notice by the defendant [**that**

he intends] of intention to commence an action in the court of common pleas on a claim against the plaintiff not within district justice jurisdiction. It was thought that no such provision was necessary, for if the plaintiff prevails in the district justice action the defendant may appeal, the appeal operates as an automatic supersedeas of the money judgment, the case is heard de novo, and the defendant may assert [**his**] a claim in the court of common pleas, possibly as a counterclaim. [**See Pa. R.C.P.J.P. Nos.**] **See Rules 1002, 1007, and 1008.**

Since a cross-complaint is in the nature of a responsive pleading, there is no fee for filing it.

* * * * *

No cross-complaint may be filed in a supplementary action filed under Rule 342. See Rule 342 and Note.

Amended Oct. 17, 1975, effective in 90 days; Jan. 29, 1976, effective in 30 days; April 25, 1979, effective in 30 days; June 30, 1982, effective 30 days after July 17, 1982; amended _____, effective _____.

Rule 324. Notice of Judgment, Dismissal or Continuance, and the Right to Appeal.

A. The district justice shall promptly give or mail to the parties written notice of judgment, dismissal or continuance. The written notice shall be given or mailed to all parties, but if any party has an attorney of record [**named in the complaint form**], the written notice shall be given or mailed to the attorney of record instead of to the party.

B. [**Notice**] The written notice of judgment shall contain:

(1) advice as to the right of the parties to appeal, the time within which the appeal must be taken, and that the appeal is to the court of common pleas [**.**] ,

(2) a statement advising that, except as otherwise provided in the rules, if the judgment holder elects to enter the judgment in the court of common pleas, all further process must come from the court of common pleas and no further process may be issued by the district justice, and

(3) a statement advising that unless the judgment is entered in the court of common pleas the judgment debtor may file a request for entry of satisfaction with the district justice if the judgment debtor pays in full, settles, or otherwise complies with the judgment.

Official Note: As to subdivision B(2), see Rule 402(D) and Note. As to subdivision B(3), see Rule 341.

Amended effective Feb. 1, 1973; amended Oct. 17, 1975, effective in 90 days; April 25, 1979, effective in 30 days; June 30, 1982, effective 30 days after July 17, 1982; amended effective Dec. 1, 1983; amended March 27, 1992, effective June 25, 1992 [**The March 27, 1992, Order provided in part: “In promulgating this Order, the Court recognizes that the District Justice Automation Project will be affected by said Rule changes and that, therefore, those Rules which affect the Project will become effective as the District Justice offices are brought on-line.”**]; amended and Note added _____, effective _____.

Rule [**325**] 210. Practices Prohibited.

* * * * *

[Amended] Rule 325 amended June 30, 1982, effective 30 days after July 17, 1982; renumbered Rule 210 _____, effective _____.

SATISFACTION OF MONEY JUDGMENTS

Rule 341. Request for Entry of Satisfaction; Service; Entry of Satisfaction.

A. If a judgment debtor has paid in full, settled, or otherwise complied with a judgment rendered in a district justice court, anyone interested in the judgment may request the entry of satisfaction of the judgment by filing a written request in the office of the district justice who rendered the judgment.

B. A request for entry of satisfaction by anyone other than the judgment creditor must be served upon the judgment creditor in accordance with the rules in the 300 Series regarding service of the complaint.

C. Within 90 days from the date of service of the request for entry of satisfaction, the judgment creditor shall enter satisfaction in the office of the district justice in which the request for entry of satisfaction was filed.

Official Note: Subdivision A provides a mechanism for a judgment debtor, or anyone interested in the judgment, to file a written request for entry of satisfaction in the office of the district justice who rendered the judgment. See Section 8104(a) of the Judicial Code, 42 Pa.C.S. § 8104(a).

The party requesting the entry of satisfaction must pay any costs for the entry of satisfaction. See Section 8104(a) of the Judicial Code, 42 Pa.C.S. § 8104(a).

Subdivision B is intended to provide a number of alternative methods of service. See Rules 307, 308, 309, 310, 311, 312 and 313. When permitted, service by mail should be at the option of the person filing the request for entry of satisfaction.

Upon the entry of satisfaction, the judgment debtor may file a true copy of the entry of satisfaction in any other district justice court in which the judgment may have been entered pursuant to Rule 402. Nothing in this rule is intended to suggest that it is the obligation of the judgment creditor to enter satisfaction in any court other than the court specified in subdivision C.

These procedures also apply to satisfaction of money judgments rendered in actions for the recovery of possession of real property (landlord/tenant actions). See Rules 514 and 518.

If a judgment creditor does not comply with the provisions of this rule, the judgment debtor may proceed under Rule 342.

A party may contest the entry of satisfaction by filing a petition to strike the entry of satisfaction with the court of common pleas.

Adopted _____, effective _____.

Rule 342. Failure of Judgment Creditor to Enter Satisfaction; Supplementary Action.

A. If the judgment creditor does not enter satisfaction within the 90 day period after service of the request as specified in Rule 341(C), the judgment debtor may commence a supplementary action for damages by filing a civil complaint in the office of the district justice in which the request for entry of satisfaction was filed.

B. (1) Except as provided in subparagraph B(2), upon the filing of a complaint as provided in subdivision A, the action shall proceed as a civil action in accordance with the rules of the 300 Series.

(2) No claim under Rule 315 will be permitted in a supplementary action filed pursuant to this Rule.

Official Note: A judgment debtor may seek damages pursuant to Section 8104(b) of the Judicial Code, 42 Pa.C.S. § 8104(b). The action commenced under subdivision A of this Rule is a supplementary proceeding in the matter in which the judgment was entered. As such, it must be filed in the office of the district justice in which the request for entry of satisfaction was filed. Also, the supplementary action shall be numbered and filed as a miscellaneous docket action. See Rule 306 and Note. Because the supplementary action is merely a continuation of the underlying action, there are no filing costs for it, however there may be costs for service of the action.

Subdivision B provides that, once a supplementary action is filed under subdivision A, the proceedings in the action, including the form of the complaint, setting the hearing date, service, and hearing, should proceed as if a regular civil action, except that no cross-complaints under Rule 315 will be permitted. See Rules 304 through 381. While it is not the intent of this rule to limit defenses that may be raised in a supplementary action, only those issues arising from the Rule 342 supplementary action are to be considered at the hearing. Therefore, subparagraph B(2) makes clear that no cross-complaints are permitted to be filed.

When rendering judgment in an action filed pursuant to this rule, the district justice may determine if the judgment debtor is entitled to damages under Section 8104(b) of the Judicial Code, 42 Pa.C.S. § 8104(b), and whether satisfaction should be entered on the underlying judgment.

A party may appeal from a judgment in an action filed pursuant to this rule, but issues on appeal are limited to those raised in the action filed under this rule. See Rule 1007.

Adopted _____, effective _____.

CHAPTER 400. EXECUTION OF JUDGMENTS FOR THE PAYMENT OF MONEY

Rule 402. Request for Order of Execution. Entry of Judgment in Court of Common Pleas.

A. Execution of a judgment for the payment of money rendered by a district justice may be ordered by a district justice in whose office the judgment was rendered or entered, provided the plaintiff files in that office

(1) not before the expiration of [**thirty (30)**] **30** days from the date the judgment is entered by the district justice, and

(2) within five [**(5)**] years of that date,

a request for an order of execution [**on a form which shall be prescribed by the State Court Administrator**].

* * * * *

C. The plaintiff may enter the judgment, for the purpose of requesting an order of execution thereon, in an office of a district justice other than that in which it was rendered only if [:

(1) **the office of the district justice in which the judgment is entered for execution is that of the district justice of the magisterial district within the boundaries of which the district justice who rendered the judgment conducted his magisterial business, or**

(2)] levy is to be made outside the county in which the judgment was rendered and the office in which the judgment is entered for execution is that of a district justice whose magisterial district is situated in the county in which levy is to be made. The plaintiff may enter the judgment in such other office by filing therein a copy of the record of the proceedings containing the judgment, certified to be a true copy by the district justice in whose existing office the judgment was rendered or by any other official custodian of the record.

D. (1) The plaintiff may enter the judgment in the court of common pleas in any county. When so entered, the indexing, revival and execution of the judgment shall be in accordance with procedures applicable in the court of common pleas.

(2) The judgment may be entered in the court of common pleas by filing with the prothonotary a copy of the record of the proceedings containing the judgment, certified to be a true copy by the district justice in whose office the judgment was rendered or by any other official custodian of the record.

(3) The judgment may be entered in the court of common pleas after [thirty (30)] 30 days from the date the judgment is entered by the district justice. The judgment may not be entered in the court of common pleas after five [(5)] years from the date the judgment is entered by the district justice.

(4) Except as provided in subparagraph D(5) of this rule, once the judgment is entered in the court of common pleas all further process must come from the court of common pleas and no further process may be issued by the district justice.

(5) If the judgment has been entered in the court of common pleas and satisfaction of the judgment is entered in the court of common pleas, the district justice may enter the satisfaction on the docket of the district justice proceedings upon filing by any party in interest of proof of the entry of satisfaction.

Official Note: Under subdivision A of the rule, the execution proceedings are commenced by requesting an "order of execution." [on a new form or form to be prescribed by the State Court Administrator. This is in accordance with the purpose of simplifying district justice procedures sought to be achieved throughout these rules. See the note to Rule 304.] The request may not be filed before the expiration of [thirty (30)] 30 days from the date [of] the judgment is entered by the district justice. This will give the defendant an opportunity to obtain a supersedeas within the appeal period. The request must be filed within five [(5)] years of the date [of] the judgment is entered by the district justice. No provision has been made for revival of [the] a judgment in district justice proceedings.

Subdivision C provides for entering the judgment, for the purpose of requesting an order of execution, in an office of a district justice other than that in which the judgment was rendered [, but imposes certain limitations upon the use of this procedure. The first instance in which this can be done, set forth in C(1), will provide a procedure for use in the case of abolished, consolidated or changed magisterial districts. The second instance, set forth in C(2), provides for a transfer of the judgment] when levy is to

be made outside the county in which the judgment was rendered. Compare Pa. R.C.P. No. 3002.

As to Subdivision D, [see the Judicial Code, § 1516, 42 Pa.C.S. § 1516.] see Section 1516 of the Judicial Code, 42 Pa.C.S. § 1516. The [thirty] 30 day limitation in the rule appears to be required by this Section. Certification by the district justice should not be done before the expiration of [thirty (30)] 30 days after the date of entry of the judgment. The only method available to renew a judgment would be to record the judgment in the Prothonotary's office prior to the expiration of the five-year period and then follow the applicable Rules of Civil Procedure for the [Revival of a Judgment, Rule 1521 and 3025 et seq.] revival of judgments. See Pa.R.C.P. No. 3025 et seq. Also, [Subdivision] subdivision D makes clear that when the judgment is entered in the court of common pleas, all further process shall come from the court of common pleas and that no further process shall be issued by the district justice except that the district justice may enter proof of satisfaction of a judgment that had been entered in the court of common pleas and subsequently satisfied. This exception is necessary so that procedures exist for entering satisfaction of all judgments with the magisterial district court, regardless of whether the judgment has been certified to and satisfied at the court of common pleas.

Amended Jan. 29, 1976, effective in 30 days; amended effective March 24, 1977; amended April 25, 1979, effective in 30 days; June 30, 1982, effective 30 days after July 17, 1982; March 27, 1992, effective June 25, 1992; amended December 15, 2000, effective January 1, 2001; amended _____, effective _____.

Rule 1007. Procedure on Appeal.

* * * * *

B. [The] Except as otherwise provided in subdivision C, the action upon appeal [shall] may not be limited with respect to amount in controversy, joinder of causes of action or parties, counter-claims, added or changed averments or otherwise because of the particulars of the action before the district justice.

C. When an appeal is taken from a supplementary action filed pursuant to Rule 342, only those issues arising from the Rule 342 action are to be considered.

Official Note: As under earlier law, the proceeding on appeal is conducted de novo, but the former rule that the proceeding would be limited both as to jurisdiction and subject matter to the action before the district justice [(see *Crowell Office Equipment v. Krug*, 213 Pa.Super. 261, 247 A.2d 657, (1968)] (see *Crowell Office Equipment v. Krug*, 213 Pa. Super. 261, 247 A.2d 657 (1968)) has not been retained. Under subdivision B, the court of common pleas on appeal can exercise its full jurisdiction and all parties will be free to treat the case as though it had never been before the district justice, subject of course to the Rules of Civil Procedure. **The only limitation on this is contained in subdivision C, which makes clear that an appeal from a supplementary action filed pursuant to Rule 342 is not intended to reopen other issues from the underlying action that were not properly preserved for appeal.**

REVISED REPORT

Proposed Renumbering of Pa. R.C.P.D.J. No. 325, Proposed New Pa. R.C.P.D.J. Nos. 211, 341, and 342, and Proposed Amendments to or Revisions to the Notes of Pa. R.C.P.D.J. Nos. 306, 315, 324, 402, 514, 518, 1001, and 1007

ENTRY OF SATISFACTION OF MONEY JUDGMENTS

I. Background

The Committee undertook a review of the issue of the entry of satisfaction of money judgments in response to a request from the Administrative Office of Pennsylvania Courts (AOPC). AOPC advised the Committee that on several occasions, individuals against whom money judgments have been rendered reported that the judgments have appeared on their credit reports as outstanding when in fact the judgments were satisfied (paid in full). AOPC requested that the Committee review the need for some procedural mechanism for judgment debtors to request entry of satisfaction and for judgment creditors to enter satisfaction of judgments rendered by district justices. Currently, there is no such formal mechanism. This issue has come to the forefront because of the increased use by credit reporting agencies of data contained in the District Justice Automated System (DJS) to check for district justice judgments rendered against applicants for credit. Prior to automation, this was not a significant issue because there was no efficient way for credit reporting agencies to check for district justice judgments in the numerous district justice courts throughout the Commonwealth. The Committee learned, however, that since the 550-plus district justice courts have been fully automated via the DJS, several credit reporting agencies routinely request reports from AOPC to identify civil judgments that may have been entered against applicants for credit. The information requested by the credit reporting agencies is public record, and is provided in accordance with the AOPC's Access to District Justice Records Policy, 204 Pa. Code § 213.1 et seq.

The Committee was concerned that the information provided to credit reporting agencies may not be complete because satisfaction of judgment information is not entered in district justice civil cases. The Committee, therefore, wished to establish simplified procedures by which a judgment debtor may request an entry of satisfaction and a judgment creditor may enter a satisfaction in district justice court.

In conjunction with proposed new rules and amendments to, or revisions to the Notes of, existing rules regarding entry of satisfaction, the Committee also recognized the need to renumber Rule 325, and for several technical or "housekeeping" amendments to Rules 306, 315, 324, 402, and 1007.

In response to comments received after the proposal's first publication, the Minor Court Rules Committee made revisions to the original proposal. Because of the nature and extent of the revisions, the Committee deemed it necessary and appropriate to republish the proposal for additional comments. The original proposal and Report were published at 31 Pa.B. 1319 (March 10, 2001).

II. Discussion of Rule Changes

A. Request for and Entry of Satisfaction—New Rules

The Committee considered a number of options for incorporating into the rules a procedure for entry of

satisfaction of money judgments. The Committee decided that, no matter the approach, any new rules or amendments must be based on and consistent with Section 8104 of the Judicial Code, 42 Pa.C.S. § 8104, relating to duty of judgment creditor to enter satisfaction. It was suggested that one approach for dealing with satisfaction of judgments would be to simply notify the judgment creditor, via the Notice of Judgment form required by Rule 324 (Notice of Judgment, Dismissal or Continuance, and the Right to Appeal), that the judgment creditor has a duty to notify the court of satisfaction and that failure to do so could result in an action for damages under Section 8104. This approach would not necessarily have required a rule change, but only a request to AOPC to amend the Notice of Judgment form. The Committee, however, opted for a more formal and comprehensive rules-based approach.

There was also discussion about incorporating entry of satisfaction into an amendment to Rule 324 by requiring that the notice of judgment contain a notice that it is the obligation of the judgment creditor to timely notify the district court that a judgment has been satisfied.

Ultimately, however, the Committee decided that, in accordance with Section 8104, the burden should be on the judgment debtor to request an entry of satisfaction. Further, given the need for an entirely new procedure, the Committee decided that it was most appropriate to incorporate entry of satisfaction into the rules via entirely new rules dealing exclusively with this issue.

It was at first suggested that the Committee position the new rules immediately following the rules relating to civil judgments, perhaps as a new rule 326. Upon closer review of the existing rules, however, it seemed more appropriate to create an entirely new subset within the 300 series entitled "SATISFACTION OF MONEY JUDGMENTS." Also, in the course of this discussion, the Committee decided to renumber and move the existing Rule 325 because the subject matter of that rule more appropriately belongs in the 200 Series. (The renumbering of Rule 325 is addressed later in this Report.)

1. *New Rule 341*

The Committee is proposing an entirely new Rule 341, entitled "Request for Entry of Satisfaction; Service; Entry of Satisfaction." Subdivision A of the new rule would provide a mechanism for a judgment debtor, or anyone with an interest in the judgment, to request an entry of satisfaction by filing a written request with the district justice who rendered the judgment.

Subdivision B of the new rule would address service of the request for entry of satisfaction. Unless the judgment creditor is the requesting party, the request would need to be served upon the judgment creditor in accordance with the existing rules regarding service of an original complaint. The proposed Note would make reference to Rules 307, 308, 309, 310, 311, 312 and 313.

Subdivision C of the new rule would provide that a judgment creditor would have 90 days from the date of service of the request for entry of satisfaction to enter satisfaction with the district justice who rendered the judgment, which satisfaction would forever discharge the judgment. It is the Committee's intention that, once satisfaction is entered, the satisfaction would appear in the DJS data as the final disposition of the case so that it is clear to inquiring credit agencies that the judgment has been paid. The proposed Note would also make clear that once the satisfaction is entered, the judgment debtor may file a true copy of the entry of satisfaction in any other district justice court in which the judgment may have

been entered pursuant to Rule 402. It is not the Committee's intention that the judgment creditor be required to enter the satisfaction in any court other than the district court in which judgment was rendered.

The Committee incorporates a number of clarifying statements in the proposed Note to the new rule. First, the Committee makes clear that if there are to be costs for the entry of satisfaction, the party requesting the entry of satisfaction would be responsible for payment of the costs. This is required by 42 Pa.C.S. § 8104(a). See *Beechwood v. Shieldmakers Enters.*, 6 Pa. D. & C.4th 508 (1990). Also, the Note makes clear that the procedures set forth in the new rule also apply to satisfaction of money judgments rendered in actions for the recovery of possession of real property (landlord/tenant actions). Finally, the Note states that a party may contend that satisfaction should not have been entered in a matter by filing a petition to strike entry of satisfaction with the court of common pleas. Although all other procedures relating to satisfaction are handled at the DJ level under these proposed rules, the Committee felt that petitions to strike an entry of satisfaction would be more appropriately handled at the common pleas level since the decision to strike an entry of satisfaction is an exercise of the court's general equitable powers.

2. *New Rule 342*

The Committee is proposing an entirely new Rule 342, entitled "Failure of Judgment Creditor to Enter Satisfaction; Supplementary Action." Subdivision A of this new rule would provide a procedural mechanism for a judgment debtor to commence a supplementary action for liquidated damages under 42 Pa.C.S. § 8104(b) if the judgment creditor does not enter satisfaction as required by Rule 341. The supplementary action is to be filed in the office of the district justice in which the request for entry of satisfaction was filed. Further, the proposed Note makes clear that the action is to be indexed to the district justice's miscellaneous docket and a separate docket transcript is to be prepared for it. However, it is the Committee's intention that the supplementary action should be linked to the underlying action in the District Justice Automated System (DJS). Because the "Rule 342 action" is supplementary to the underlying judgment, there is no filing fee, however there may be costs for service of the action.

Subdivision B provides that the supplementary action is to proceed in accordance with the 300 Series rules as if a regular civil action. The Committee had considered an abbreviated hearing process similar to that provided for in Rules 420 and 421 when a party wishes to file an ancillary property claim in a case in which execution is underway. The Committee decided, however, that full due process (including notice, service and hearing requirements) should be afforded since the supplementary "Rule 342 action" could result in a judgment for liquidated damages being entered against the judgment creditor. After hearing in a "Rule 342 action" the district justice may determine if the judgment debtor is entitled to liquidated damages for the judgment creditor's failure to enter satisfaction, and may direct that satisfaction be entered in the underlying judgment. Subdivision B does include one exception to the general rule that the Rule 342 action proceed as a regular civil action: no claims under Rule 315 (cross-complaints) will be permitted. While it was not the intent of the Committee in drafting this rule to limit defenses that may be raised in a supplementary action, the Committee did believe that only those issues arising from the Rule 342 supplement-

tary action are to be considered at the hearing. Therefore, subdivision B(2) makes clear that no cross-complaints are permitted to be filed.

Either party may appeal from a district justice's judgment in a "Rule 342 action" in accordance with the regular appellate rules (that are discussed in greater detail below).

B. *Correlative Rule Changes*

1. *Correlative Revision to the Note to Rule 306*

The Committee proposes a revision to the Note to Rule 306 to make clear that the phrase "[c]omplaints filed in the case by a defendant" means cross-complaints filed pursuant to Rule 315 and that these complaints are to be indexed to the same docket number as the plaintiff's underlying complaint. The Note clarifies the difference in the case of supplementary actions filed pursuant to the new Rule 342, that being the Rule 342 actions are to be docketed to the district justice's miscellaneous docket with a separate docket number and transcript.

Also, the Committee recommends an unrelated "house-keeping" revision to the Note to make reference to the *District Justice Automated Office Clerical Procedures Manual* as the main source of uniform filing, record keeping and other district court office procedures.

2. *Correlative Amendment to Rule 315*

The Committee proposes a revision to the Note to Rule 315 to make clear that no cross-complaint may be filed in a supplementary action filed under Rule 342. See discussion *supra* Part II.A.2.

3. *Correlative Amendment to Rule 324*

In addition to the new Rules 341 and 342, the Committee also proposes an amendment to Rule 324 to require that the Notice of Judgment form contain a statement advising that, upon satisfaction of a judgment, the judgment debtor may file a request for entry of satisfaction. The Committee recognized the need for this additional statement in the notice because most defendants in civil actions appear *pro se* and, absent a clear notice, may not know that they can request an entry of satisfaction that could effect the status of their personal credit history.

The Committee further proposes an amendment to the rule (not directly related to satisfaction of judgments) to require that the Notice of Judgment form contain a statement advising that if the judgment holder elects to enter the judgment in the court of common pleas, all further process must come from the court of common pleas and no further process may be issued by the district justice. The Note to Rule 402 was revised effective January 1, 2001 to clarify this restriction, and the Committee concluded that it should also be clearly stated in the notice of judgment so that a judgment holder can make an informed decision about entering a judgment in the court of common pleas. This is important because there are advantages and disadvantages to entering a judgment in the court of common pleas. Many judgment holders opt to enter the judgment in the court of common pleas because, once entered, it can act as a lien against real property. However, judgment holders must be aware that execution of the judgment at the common pleas level can be much more costly and complicated than at the district justice level. By making this restriction clear in the notice of judgment, a judgment holder can consider all factors before deciding to enter a judgment in the court of common pleas.

Also, the Committee proposes a minor amendment to further clarify that the district justice must give or mail

written notice of judgment to the parties or the parties' attorneys of record. Finally, the Committee proposes the addition of a Note to Rule 324 to make cross-references to Rules 402(D) and the new Rule 341.

4. *Correlative Amendment to Rule 402*

As stated above, the Note to Rule 402 was revised effective January 1, 2001 to clarify that if the judgment holder elects to enter the judgment in the court of common pleas, all further process must come from the court of common pleas and no further process may be issued by the district justice. Upon further consideration, and in light of the important considerations relating to satisfaction of judgments, the Committee concluded that this restriction should be more prominently pronounced in the rule. Accordingly, the Committee recommends an amendment to Rule 402 to state clearly the restriction on further process from the district justice court after a judgment has been entered in the court of common pleas. The Committee did, however, want to provide a means for a district justice make an entry of satisfaction on the district justice docket if a judgment has been entered in the court of common pleas and then satisfied in the court of common pleas. This is necessary to prevent district justice judgments that are entered in the court of common pleas and then satisfied from remaining open on the district justice's docket and appearing on that docket as if they have not been satisfied. To accomplish this, the Committee recommends dividing Rule 402(D) into five numbered subparagraphs to fully outline the procedures for entering a judgment in the court of common pleas, with a new subparagraph (5) to read "if the judgment has been entered in the court of common pleas and satisfaction of the judgment is entered in the court of common pleas, the district justice may enter the satisfaction on the docket of the district justice proceedings upon filing by any party in interest of proof of the entry of satisfaction."

5. *Correlative Revisions to the Notes to Rules 514 and 518*

Because the procedures for the entry of satisfaction set forth in the new Rules 341 and 342 also apply to the satisfaction of money judgments rendered in actions for the recovery of possession of real property (landlord/tenant actions), the Committee proposes revisions to the Notes of Rules 514 (relating to judgment in landlord/tenant actions) and 518 (relating to satisfaction of order for possession by payment of rent and costs) to cross reference new Rule 341. The Committee also included a clarification to the Note to Rule 518 that "rent actually in arrears" means the sum set forth on the order for possession.

6. *Correlative Amendments to Rules 1001 and 1007*

The Committee recognized the need for minor amendments to appellate Rules 1001 and 1007 to fully provide for appeals from judgments rendered in "Rule 342 actions." First, the Committee proposes an amendment to Rule 1001(6) to make clear that a claimant in an appeal can include a defendant with respect to a defendant's supplementary action brought pursuant to new Rule 342. Likewise, the Committee proposes an amendment to Rule 1001(7) to make clear that a defendant in an appeal can include a plaintiff with respect to a defendant's supplementary action filed pursuant to Rule 342.

The Committee further proposes that Rule 1007 be amended by the addition of a subdivision C to restrict appeals from "Rule 342 actions" to issues that arise from the Rule 342 action. This is intended to make clear that

an appeal from a supplementary action filed pursuant to Rule 342 is not intended to reopen other issues from the underlying action that were not properly preserved for appeal.

C. *Technical and "Housekeeping" Amendments*

In conjunction with the substantive changes discussed above, the Committee is proposing that Rule 325 be renumbered and moved. The Committee also proposes a new Rule 211 to deal with subsequent filings in abolished, consolidated, or changed magisterial districts. Finally, the Committee identified a number of technical and "housekeeping" amendments needed in Rules 324 and 402.

1. *Renumbering and Moving Rule 325*

In contemplating the new rules relating the entry of satisfaction, the Committee reviewed the entire 300 Series, particularly Rules 322, 323 and 324, all relating to judgments. Upon review of Rule 325, relating to practices prohibited, the Committee determined that the content of the rule relates not only to civil actions, but to actions for the recovery of possession of real property (landlord/tenant actions) as well. Accordingly, the Committee determined that Rule 325 should be moved out of the 300 Series (relating to Civil Action), and into the 200 series (relating to Rules of Construction; General Provisions), and further, that it be renumbered as new Rule 210.

2. *New Rule 211*

In further contemplating the new rules, the Committee recognized that it needed to make provision for the filing of a request for entry of satisfaction when the office of the district justice who rendered the judgment has been abolished, consolidated or otherwise changed by reestablishment (redistricting) of magisterial districts. This situation is currently provided for in Rule 402 as it relates to requesting an order of execution. The Committee determined that this situation could arise in a number of circumstances and decided to propose a general rule in the 200 Series to deal with the situation. Accordingly, the Committee proposes a new Rule 211 entitled "Abolished, Consolidated, or Changed Magisterial Districts; Subsequent Filings." This new rule is intended to cover all situations in which a party wishes to file or serve an ancillary or supplemental action, such as a request for order of execution or a request for a certified copy of a judgment (under Rule 402), an objection to levy or other property claim (under Rule 413), a request for order of possession (under Rule 515), or a request for entry of

satisfaction (under Rule 341), among others, when the action should be filed or served in the office of the district justice who rendered the judgment or issued other process, but that office has been abolished, consolidated or otherwise changed. The proposed rule provides that, under these circumstances, the action may be filed or served only with the district justice who has become the official custodian of the original record, even though that district justice did not render the judgment.

Of course, as a corollary to this proposal, the Committee proposes that Rule 402(C)(1) be deleted because it becomes unnecessary with the addition of new Rule 211.

3. *Other Technical or "Housekeeping" Changes*

Also, in Rules 315, 402, and 1007, the Committee proposes minor changes to correct citation form, to address gender neutrality issues in the rules, to conform to modern drafting style, and to make other minor corrections and clarifications.

DISCIPLINARY BOARD OF THE SUPREME COURT

Notice of Disbarment

Notice is hereby given that David Christian Wise having been disbarred from the practice of law in the State of Missouri by Order dated March 9, 2001, the Supreme Court of Pennsylvania issued an Order on August 2, 2001, disbaring David Christian Wise from the practice of law in this Commonwealth. In accordance with Rule 217(f), Pa.R.D.E., since this formerly admitted attorney resides outside of the Commonwealth of Pennsylvania, this notice is published in the *Pennsylvania Bulletin*.

RULES AND REGULATIONS

Title 55—PUBLIC WELFARE

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CH. 3800]

Notice of Delay of the Implementation Date of §§ 3800.187 and 3800.188 Relating to Administration and Medications Administration Training

The Department of Public Welfare (Department) is announcing its intent to delay the implementation date of §§ 3800.187 and 3800.188 in Chapter 3800 (relating to child residential and day treatment facilities) regarding medications administration training of nonmedical staff persons.

Under Chapter 3800, §§ 3800.187 and 3800.188 were scheduled to take effect June 26, 2000 (29 Pa.B. 3295). The Department previously published a notice of delay of the implementation date on July 28, 2000, extending the implementation date to July 1, 2001 (30 Pa.B. 3794). The Department hereby extends the implementation date until January 2, 2002. This extension is necessary to give training providers sufficient opportunity to develop a program that will fully comply with the Statement of Policy as specified in the Office of Children, Youth and Families' Bulletin # 3800-99-01, issued December 31, 1999, § 3800.188a (relating to medications administration training) or superseding policy statement relating to medications administration training. The extension will also provide time for training providers to effectively implement the approved Medication Administration Training program.

All other aspects of Chapter 3800 remain the same.

FEATHER O. HOUSTON,
Secretary

Title 58—RECREATION

GAME COMMISSION

[58 PA. CODE CH. 139]

Corrective Amendment to 58 Pa. Code § 139.2

The Game Commission has discovered a discrepancy between the agency text of 58 Pa. Code § 139.2 (relating to definitions) as deposited with the Legislative Reference Bureau and the official text published at 30 Pa.B. 2366, 2367 (May 13, 2000) and as currently appearing in the *Pennsylvania Code*. The definition of "field possession limit" was inadvertently omitted.

Therefore, under 45 Pa.C.S. § 901: The Game Commission has deposited with the Legislative Reference Bureau a corrective amendment to 58 Pa. Code § 139.2. The corrective amendment to 58 Pa. Code § 139.2 is effective as of May 13, 2000, the date the amendment appeared in the *Pennsylvania Bulletin*.

The correct version of 58 Pa. Code § 139.2 appears in Annex A.

Annex A

TITLE 58. RECREATION

PART III. GAME COMMISSION

CHAPTER 139. SEASONS AND BAG LIMITS

§ 139.2. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Antlered deer—A deer having two or more points to one antler, or with one antler 3 inches or more in length.

Antlered elk—An elk having at least one spike visible above the hairline.

Antlerless deer—A deer without antlers, or a deer with antlers both of which are less than 3 inches in length.

Antlerless elk—An elk without antlers, or an elk with no visible spike above the hairline.

Client—Any person who receives the services of a guide.

Closed season—Periods of the calendar year and hours during which it is unlawful to take game or wildlife.

Daily limit—The maximum number permitted to be taken by one person in 1 day during the open season.

Early small game hunting season—A designated period when only squirrels and grouse may be hunted and taken.

Field possession limit—The maximum number of legally taken wildlife of a species which a person may legally possess or transport between the place of taking and the person's permanent place of residence.

Field possession limit—deer—When multiple harvests of deer per day are authorized, only one deer at a time may be harvested. Before harvesting additional deer, the deer previously harvested shall be lawfully tagged.

Guide—Any person who assists another person to hunt or take game by locating game, calling game or directing another to game.

Hunting hours—The period each day of the open season, Sundays excepted, when game and wildlife may be lawfully taken.

Regular small game hunting season—The designated period of time when resident small game species may be hunted and taken.

Season limit—The maximum number of wildlife which may be taken during a designated open season or license year.

GAME COMMISSION

[58 PA. CODE CHS. 139 AND 141]

Deer Hunting

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 12, 2001, meeting, adopted the following changes:

Amend § 139.2 (relating to definitions) to define regular and special firearms deer seasons.

Amend § 141.43 (relating to deer) to allow the special firearms hunters the opportunity to cooperate with the early muzzleloader and archery hunters while hunting deer.

These amendments are adopted under the authority of 34 Pa.C.S. (relating to the Game and Wildlife Code) (code).

Amendment to § 139.2

1. *Introduction*

To more effectively manage the wildlife resources of this Commonwealth, the Commission, at its April 10, 2001, meeting proposed, and at its June 12, 2001, meeting adopted, changing § 139.2 to add definitions of "regular firearms deer season" and "special firearms deer season." Both terms are currently used in the code without being defined. These changes were adopted under the authority contained in sections 322(c)(1) and 2102(b)(1) of the code (relating to powers and duties of commission; and regulations).

2. *Purpose and Authority*

In the course of establishing various deer seasons, the Commission has used the terms "regular firearms deer season" and "special firearms deer season." Neither of these terms is currently defined in the code. The adopted changes will remedy these deficiencies.

Both of the new terms will be used to fix and regulate deer seasons. Section 322(c) of the code specifically empowers the Commission to ". . . fix seasons . . . and daily, season and possession limits for any species of game or wildlife." Section 2102(b) of the code mandates that the Commission promulgate regulations relating to seasons and bag limits. These sections provide authority for the adopted additions.

3. *Regulatory Requirements*

No new regulatory requirements will be added by the adopted changes.

4. *Persons Affected*

Individuals wishing to hunt deer will be affected by the adopted changes.

Amendment to § 141.43

1. *Introduction*

To more effectively manage the deer population in this Commonwealth, the Commission has established some special firearms deer seasons prior to the regular seasons. Section 141.43(e) currently allows holders of appropriate licenses or stamps to cooperate with hunters using other firearms during seasons that run concurrently. Therefore, at its meeting held on April 10, 2001, the Commission proposed, and at its meeting held on June 12, 2001, the Commission adopted, changing § 141.43(e) to allow holders of appropriate licenses and permits to cooperate during the special firearms seasons where they run concurrently with the specified seasons. These changes were adopted under authority contained in sections 322(c)(6) and 2102(a) of the code.

2. *Purpose and Authority*

As was indicated in the introduction, § 141.43(e) currently allows archery, flintlock muzzleloader and muzzleloader deer hunters to cooperate when their seasons run concurrently. The adopted change adds to this list special firearms season deer hunters.

Section 322(c)(6) of the code directs the Commission to: "Limit the number of hunters or furtakers in any designated area and prescribe the lawful methods of hunting or taking furbearers in these areas." Section 2102(a) of the code provides that: "The commission shall promulgate such regulations as it deems necessary and appropriate concerning . . . methods and means of hunting or furtaking . . ." These provisions provide the authority for the adopted changes.

3. *Regulatory Requirements*

No additional regulatory requirements will be imposed as a result of the adopted changes. In fact, the adopted changes will relax a restriction.

4. *Persons Affected*

Persons wishing to cooperate to hunt deer during special firearms seasons may be affected by the adopted changes.

Comment and Response Summary

No official comments were received regarding these adopted changes.

Cost and Paperwork Requirements

The adopted changes would not result in any additional cost or paperwork.

Effective Date

The adopted changes will be effective on final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

Contact Person

For further information regarding these changes, contact David E. Overcash, Director, Bureau of Law Enforcement, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 139 and 141, are amended by amending §§ 139.2 and 141.43 to read as set forth at 31 Pa.B. 2931 (June 9, 2001).

(b) The Executive Director of the Commission shall submit this order and 31 Pa.B. 2931, to the Legislative Reference Bureau as required by law.

(c) This order is effective upon final publication in the *Pennsylvania Bulletin*.

VERNON R. ROSS,
Executive Director

Fiscal Note: Fiscal Note 48-131 remains valid for the final adoption of the subject regulations.

PROPOSED RULEMAKING

ENVIRONMENTAL QUALITY BOARD

[25 PA. CODE CHS. 86—88 AND 90]
Coal Mine Permits/Road Requirements

The Environmental Quality Board (Board) proposes to amend Chapters 86—88 and 90 to read as set forth in Annex A. The proposed amendments address criteria for approval/denial of coal mine permits and performance standards concerning roads used in conjunction with coal surface mines and coal refuse disposal operations.

This proposal was adopted by the Board at its meeting of July 17, 2001.

A. Effective Date

These proposed amendments will go into effect upon publication in the *Pennsylvania Bulletin* as a final-form rulemaking.

B. Contact Persons

For further information contact J. Scott Roberts, Director, Bureau of Mining and Reclamation, P. O. Box 8461, Rachel Carson State Office Building, Harrisburg, PA 17105-8461, (717) 787-5103; or Bo Reiley, Assistant Counsel, Bureau of Regulatory Counsel, P. O. Box 8464, Rachel Carson State Office Building, Harrisburg, PA 17105-8464, (717) 787-7060. Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). These proposed amendments are available electronically through the Department of Environmental Protection's (Department) website (<http://www.dep.state.pa.us>).

C. Statutory Authority

The amendments are proposed under the authority of section 4.2 of the Surface Mining Conservation and Reclamation Act (52 P. S. § 1396.4b(a)); section 3.2 of the Coal Refuse Disposal Control Act (52 P. S. § 30.53b); and section 1920-A of The Administrative Code of 1929 (71 P. S. § 510-20).

D. Background and Purpose

This proposed rulemaking amends existing provisions relating to criteria for approval/denial of coal mine permits and performance standards concerning haul roads and access roads used in conjunction with coal surface mines and coal refuse disposal operations. Approximately 600 operators of anthracite and bituminous surface mines and coal refuse disposal operations will be affected by these proposed amendments. This proposed rulemaking is necessary to clarify the existing regulations and to make the regulations consistent with Federal regulations.

During the surface coal mining permit application approval process under § 86.37 (relating to criteria for permit approval or denial), it was established practice for a mining permit applicant to submit a permit application that included a mining plan for the entire permit area. Any necessary waiver approvals related to distance limitations (such as waiver for mining activities within 300 feet of an occupied dwelling) were typically included in the mining plan for the initial bonding increment. The mining permit applicant would provide bonding to cover

the initial increment of mining, and the Department, in issuing the mining permit, authorized mining activities only for that initial increment. When the permittee provided bonding for subsequent increments to be mined and obtained the necessary waiver approvals for that increment, the Department authorized mining activities for that specific increment.

The Environmental Hearing Board (EHB) in *Peter Blose vs. DEP and Seven Sisters Mining Company, Inc.* (No. 98-034-R) (March 7, 2000) (*Blose*) held that this established practice was contrary to § 86.37(a)(2), and that the Department may not approve a permit if any coal mining activities are proposed within 300 feet of an occupied dwelling located on the entire permit area if the waiver for allowing mining activities had not been obtained.

The proposed amendment to § 86.37(a)(5) would allow the Department to continue to review and approve mining permits following those procedures in place prior to the EHB's decision in *Blose*. These procedures, while still fully protective of occupied dwellings, have the additional benefits of ensuring that both the amount of bond calculated to ensure proper reclamation of the site and all erosion and sedimentation plans are as current as possible.

Sections 87.160(a), 88.138(a), 88.231(a), 88.335(a) and 90.134(a) are proposed for change by deleting the requirement for a road maintenance plan for roads to be retained (upon completion of the mining and reclamation activities) as part of the postmining land use. This requirement for a road maintenance plan is proposed for deletion because it is more stringent than the corresponding Federal requirements. In addition, since the landowner has agreed to the retention of the road as a postmining land use and will be responsible for its maintenance, the Department has never required a maintenance plan after the completion of mining and reclamation activities. Therefore, the Board also proposes to delete this requirement because it is unnecessary.

Section 90.134(a) (relating to haul roads and access roads: general) is also proposed for change to include a requirement that haul roads and access roads used in conjunction with coal refuse disposal activities must be designed, constructed and maintained to control or prevent erosion. This amendment is proposed to address a condition placed on the Commonwealth's approved coal mining regulatory program by the Federal Office of Surface Mining. The proposed amendment makes this specific requirement consistent with the requirements for other coal mining operations.

These proposed amendments were reviewed and discussed with the Mining and Reclamation Advisory Board (MRAB), the Department's advisory body for regulations pertaining to the surface mining of coal. A draft of the proposed rulemaking was reviewed and discussed with the MRAB at its meeting on April 26, 2001. The MRAB supports the proposed rulemaking.

E. Summary of Regulatory Requirements

The following sections are proposed for change along with a description of the specific change.

§ 86.37. Criteria for permit approval or denial.

Section 86.37(a)(5) is being amended to require that areas within the proposed permit area that are proposed for surface mining activities and are covered by the operator's bond, must include the appropriate approvals/waivers for mining activities proposed within barrier areas. Currently, these approvals/waivers must be provided for all areas within the proposed permit area.

§§ 87.160, 88.138, 88.231, 88.335 and 90.134. Haul roads and access roads.

The Board proposes to amend §§ 87.160(a), 88.138(a), 88.231(a), 88.335(a) and 90.134(a) by deleting the requirements for a road maintenance plan for roads to be retained (upon completion of the mining and reclamation activities) as part of the postmining land use. These requirements for a road maintenance plan are not found in the Federal counterpart to these sections (30 CFR 816.150). Since the landowner has agreed to the retention of the road as a postmining land use and will be responsible for its maintenance, the Department has never required a maintenance plan after completion of mining and reclamation activities. Therefore, the Board proposes these amendments because the requirements are unnecessary.

Section 90.134(a) is also proposed for change to include a requirement that haul roads and access roads used in conjunction with coal refuse disposal activities must be designed, constructed and maintained to control or prevent erosion. This amendment is proposed to address a recent condition placed on the Commonwealth's approved coal mining regulatory program by the Federal Office of Surface Mining. This amendment will make § 90.134(a) consistent with the requirements for other coal mining operations and the counterpart Federal regulations (30 CFR 816.150(b)(1)).

F. Benefits, Costs and Compliance

Executive Order 1996-1 requires a cost/benefit analysis of the proposed amendments.

Benefits

The coal mining industry and the Department will benefit from these amendments. In the case of proposed amendments to § 86.37, a permit applicant would benefit by avoiding the costs to prepare and publicize a permit revision should the specific types of activities proposed in barrier areas after permit issuance require public notice. The cost savings for that would not be easily quantifiable because of the inability to estimate or predict with much degree of accuracy the number of proposals that would be submitted that require public notice. In the case of proposed changes to §§ 87.160, 88.138, 88.231, 88.335 and 90.134, a permittee would benefit by reduction in costs of preparing maintenance plans for mining roads to be retained (upon completion of the mining and reclamation activities) as part of the postmining land use. The Department will benefit by reduction in the amount of staff time needed to review the plans. The estimated cost savings related to deleting the requirement for road maintenance plans is \$47,750 annually for the industry and \$19,100 annually for the Department.

Compliance Costs

The proposed amendments will impose no additional compliance costs on the regulated community.

Compliance Assistance Plan

The Department will provide written notification of the amendments to the coal mining industry.

G. Pollution Prevention

The proposed rulemaking will not modify the pollution prevention approach by the regulated community and maintains the multimedia pollution prevention approach of existing requirements in Chapters 86—88 and 90.

H. Sunset Review

These amendments will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the amendments effectively fulfill the goals for which they were intended.

I. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 8, 2001, the Department submitted a copy of the proposed amendments to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the Senate and House Environmental Resources and Energy Committees. In addition to submitting the proposed amendments, the Department has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to any portion of the proposed amendments, it will notify the Department within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria that have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the amendments, by the Department, the Governor and the General Assembly.

J. Public Comments

Written Comments—Interested persons are invited to submit comments, suggestions or objections regarding the proposed amendments to the Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477 (express mail: Rachel Carson State Office Building, 15th Floor, 400 Market Street, Harrisburg, PA 17101-2301). Comments submitted by facsimile will not be accepted. Comments, suggestions or objections must be received by the Board by September 17, 2001. Interested persons may also submit a summary of their comments to the Board. The summary may not exceed one page in length and must also be received by September 17, 2001. The one-page summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final-form rulemaking will be considered.

Electronic Comments—Comments may be submitted electronically to the Board at RegComments@state.pa.us and must also be received by the Board by September 18, 2001. A subject heading of the proposal and a return name and address must be included in each transmission. If an acknowledgement of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

CHAPTER 86. SURFACE AND UNDERGROUND COAL MINING: GENERAL

Subchapter B. PERMITS

REVIEW, PUBLIC PARTICIPATION AND APPROVAL, DISAPPROVAL OF PERMIT APPLICATIONS AND PERMIT TERMS AND CONDITIONS

§ 86.37. Criteria for permit approval or denial.

(a) A permit or revised permit application will not be approved unless the application affirmatively demonstrates and the Department finds, in writing, on the basis of the information in the application or from information otherwise available, which is documented in the approval, and made available to the applicant, that the following apply:

* * * * *

(5) [The proposed permit area] The area covered by the operator's bond and upon which the operator proposes to conduct surface mining activities within the boundary of the proposed surface or coal mining activities permit is not one of the following:

(i) Included within an area designated unsuitable for mining under Subchapter D (relating to areas unsuitable for mining).

(ii) Within an area which has been included in a petition for designation under § 86.124(a)(6) (relating to procedures: initial processing, recordkeeping and notification requirements).

(iii) On lands subject to the prohibitions or limitations of Subchapter D.

(iv) Within 100 feet (30.48 meters) of the outside right-of-way line of any public road, except as provided for in Subchapter D.

(v) Within 300 feet (91.44 meters) from any occupied dwelling, except as provided for in Subchapter D.

(vi) Within 100 feet (30.48 meters) of a stream, except as provided for in § 86.102 (relating to areas where mining is prohibited or limited).

NOTICES

DEPARTMENT OF AGRICULTURE

Dog Control Facility Bill Reimbursement Grant Program

The Department of Agriculture (Department) gives notice of the guidelines and conditions under which it will award up to \$175,000 in grants under its Year 2002 Dog Control Facility Bill Reimbursement Program (Program). The Program will award bill reimbursement grants of up to \$7,500-per-recipient to humane societies or associations for the prevention of cruelty to animals that meet the guidelines and conditions of this Program. The Program will be funded from the Dog Law Restricted Account, from funds which are surplus funds for the limited purposes set forth in the Dog Law (3 P. S. § 459-1002(b)).

A proposed version of these guidelines and conditions was published at 31 Pa.B. 3416 (June 30, 2001). The Department invited public and legislative review of these proposed guidelines and conditions, in accordance with the regulation at 7 Pa. Code § 23.4 (relating to guidelines and conditions). A single comment was received. The President of the Federated Humane Societies of Pennsylvania recommended that the total maximum amount available for grants under the Program be raised from \$100,000 to \$175,000. This recommendation was based on the assumption there will be more applicants for funds under this year's Program due to the revision of eligibility criteria for applicants. The criteria were revised to allow a humane society or association for the prevention of cruelty to animals that has an operating budget of \$250,000 or less to apply, whereas in prior years this operating budget cap was \$150,000. The Department accepts the commentator's recommendation, and has revised these guidelines and conditions accordingly.

The Department invites applications for grants under the Program, in accordance with the final guidelines and conditions that follow.

Guidelines and Conditions for the Year 2002 Dog Control Facility Bill Reimbursement Grant Program

1. Definitions.

The following words and terms, when used in these guidelines and conditions, have the following meanings:

Department—The Department of Agriculture.

Dog control—The apprehending, holding and disposing of stray or unwanted dogs, or as otherwise defined in the Dog Law (3 P. S. § 459-102).

Eligible Bill—A document seeking payment for materials, services or utilities from a grant recipient, setting forth the following:

- i. The date the document is issued.
- ii. The name and address of the humane society or association for the prevention of cruelty to animals to which the bill is issued.
- iii. If for materials, a description of the materials and the date of delivery.
- iv. If for services, a description of the nature of the services and the dates upon which the services were rendered.

- v. If for utilities (such as electricity, water, sewer, waste disposal and similar purposes), a statement of the period for which the utility, for which payment is sought, was provided.

- vi. The name, address and telephone number of the entity issuing the document.

Humane society or association for the prevention of cruelty to animals—A nonprofit society or association duly incorporated under 15 Pa.C.S. Ch. 53 Subch. A (relating to incorporation generally) for the purpose of prevention of cruelty to animals, or as otherwise defined in the Dog Law (3 P. S. § 459-102).

Program—The Year 2002 Dog Control Facility Bill Reimbursement Program.

2. Eligibility.

A humane society or association for the prevention of cruelty to animals is eligible to apply to receive a grant under the Program if that humane society or association for the prevention of cruelty to animals:

- a. Has been in operation for at least 1 year immediately preceding the application date.
- b. Has performed dog control functions for at least 1 year immediately preceding the application date.
- c. Has, in the performance of its dog control functions, accepted at least 100 stray or unwanted dogs into its facility within the year immediately preceding the application date.
- d. Is not a party to a contract with the Department under which the Department pays that humane society or association for the prevention of cruelty to animals for dog control activities performed in the year 2002.
- e. Agrees—as a condition of receiving any grant money under the Program—to continue to perform dog control activities through the year 2002.
- f. Has a total operating budget of \$250,000 or less for the 2002 calendar year or, if its budget is on a basis other than calendar year, has a total operating budget of \$250,000 or less for each fiscal year comprising any portion of calendar year 2002.

3. Use of Grant Funds.

The Department will allocate a specific maximum grant amount to a successful grant applicant through a written grant agreement. This maximum grant amount will be specified in the grant agreement, and will not exceed \$7,500 with respect to any application. The maximum grant amount will be retained by the Department and used to reimburse the grant recipient for eligible bills the grant recipient has paid with respect to materials, services or utilities provided to the grant recipient from January 1, 2002, through December 31, 2002. The total reimbursement the Department will pay a grant recipient will not exceed the maximum grant amount. Any money remaining in a grant allocation beyond the termination date of the grant agreement will lapse into the Dog Law Restricted Account. If a bill covers materials, services or utilities provided, in whole or in part, before January 1, 2002, or after December 31, 2002, that bill is not an eligible bill and will not be reimbursed by the Department under the Program.

4. Application Process.

- a. *Application required.* A humane society or association for the prevention of cruelty to animals seeking a

grant under the Program must complete a written application form and deliver it to the Department no later than 30 days from the date this notice is published in the *Pennsylvania Bulletin*. Applications received by the Department beyond that date will not be considered.

b. *Obtaining an application form.* The Department will provide grant application forms upon request. Requests for application forms should be directed to Richard Hess, Director, Bureau of Dog Law Enforcement, Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110-9408 (717) 787-4833, fax: (717) 772-4352.

c. *Contents of grant application form.* A grant application form shall require the following information:

- i. The name and address of the applicant.
- ii. Information to verify that the applicant is a humane society or association for the prevention of cruelty to animals and otherwise meets the eligibility requirements set forth in paragraph 2.
- iii. The maximum grant amount sought by the applicant—not to exceed \$7,500.
- iv. A description of the eligible bills for which the grant applicant intends to seek reimbursement, including a description (and copies, if available) of bills received by the applicant in 2001 for the same type of materials, services or utilities for which reimbursement will be sought under the grant agreement.
- v. Other information as the Department might reasonably require.

5. Review and approval of grant application.

a. *Review and notification.* The Department will review each timely grant application and provide the applicant written notification of whether the Department awards the grant, denies the grant or awards a grant in some amount less than the applicant sought. This written notification will be mailed no later than 60 days from the date this notice is published in the *Pennsylvania Bulletin*, to the address provided by the applicant on the grant application form. If an application is incomplete or the Department requires additional information or documentation in order to evaluate the grant request, it will so advise the applicant.

b. *Review criteria.* The Department will consider the following, among other factors, in determining whether to award a grant application:

- i. The number of applications received and the availability of funds for the grants sought.
- ii. The relative contribution of the applicant to dog control activities in the area it serves.
- iii. The relative contribution of the applicant to dog control as compared to the relative contribution of other applicants.

iv. The relative importance of the grant to the continued operation of the applicant's dog control facility.

v. The expense or logistical difficulty the Department would encounter if the applicant's dog control facility was no longer in operation.

6. Grant agreement.

a. *Grant agreement required.* A successful grant applicant must execute a grant agreement with the Department, setting forth the terms and conditions under which the grant money will be used by the Department to reimburse the grant recipient for payment of eligible bills.

b. *Reimbursement requests.* The grant agreement will set forth the exact procedure by which a grant recipient shall seek reimbursement from the Department for payment of eligible bills. The basic reimbursement request procedure will be as follows:

By May 15, 2002, the grant recipient will: (1) deliver copies of the eligible bills it has paid between January 1 and April 30, 2002; (2) verify that these bills have been paid and are eligible for reimbursement; and (3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 4-month period.

By September 15, 2002, the grant recipient will: (1) deliver copies of the eligible bills it has paid between May 1 and August 31, 2002; (2) verify that these bills have been paid and are eligible for reimbursement; and (3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 4-month period.

By January 15, 2003, the grant recipient will: (1) deliver copies of the eligible bills it has paid between September 1 and December 31, 2002; (2) verify that these bills have been paid and are eligible for reimbursement; and (3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 4-month period.

c. *Payment by the Department.* The Department will reimburse a grant recipient for eligible bills within 60 days of receiving a complete and timely reimbursement request.

d. *Termination.* The Department may terminate a grant agreement at any time by providing the grant recipient written notice of termination at the address set forth on the grant application.

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Notice of Proposed Transfer of Lands from DCNR, Bureau of Forestry, to Department of Transportation

The Department of Conservation and Natural Resources (DCNR), acting through the Bureau of Forestry, is preparing to transfer 3.663 acres of land in Lycoming County, Clinton Township, to the Department of Transportation (Department) via an Interdepartmental Agreement.

This transfer will enable the Department to exercise jurisdictional control for its existing stocking area located along the westerly side of U.S. Rt. 15 (the Montgomery Pike) on Bald Eagle Ridge.

As is the policy of DCNR, the public is hereby notified of this transfer. A 30-day period for public inquiry and/or comment will be in effect commencing August 20, 2001, and ending September 18, 2001. Oral or written comments or questions concerning this proposed transfer may be addressed to Dr. James R. Grace, State Forester, Bureau of Forestry, P. O. Box 8552, Harrisburg, PA 17105-8552, (717) 787-2703. These oral and/or written comments will become part of the official document used in the final decision process.

If, in the duration of the 30-day comment period, a significant amount of public concern develops, the Secretary of DCNR may schedule a public informational meeting.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS

NPDES APPLICATIONS

PART I PERMITS

Under the Federal Clean Water Act and The Clean Streams Law, the following parties have applied for an NPDES permit or to renew their current permit to discharge controlled wastewaters into the waters of this Commonwealth or to conduct other activities required by the NPDES permit. For renewal applications listed in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements. For all new permit applications, renewal application with major changes or applications for permits not waived by EPA, the Department, based upon preliminary reviews, also made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications listed in Section II. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement, to the office noted before the application within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant. Following the comment period, the Department's Water Management Program Manager will make a final determination regarding these applications. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The renewal application, including proposed effluent limitations and special conditions, is available on file. For new permit applications, information submitted with the applications is available on file. The information may be inspected and arrangements made for copying at the office indicated before the application.

Persons with a disability, who require an auxiliary aid service, including TDD users or other accommodations to seek additional information, should contact the Department through the Pennsylvania AT&T Relay service at (800) 654-5984.

PA# PAG123519, CAFO, **M & M Farms**, Monte Edgin, R. R. 1, Box 42, Shirleysburg, PA 17260.

This proposed facility is located in Cromwell Township, **Adams County**.

Description of Proposed Activity: (project description). Operation of a 2,200 head swine finishing operation, proposing to construct a second 2,200 head finishing operation on the same farm. This operation will have a total of 576.8 AEUs and a Concentration of 11.536 AEUs/Acre. Each barn will utilize 700,000 concrete manure storage structure under the facility.

The receiving stream, Old Womans Run Creek, is in the State Water Plan watershed 12C-Aughwick Creek and is classified for: CWF.

The proposed effluent limits for the operation/activity include: Except for the chronic or catastrophic rainfall events defined as over the 25 year/24 hour rain storms, the CAFO general permit is a Pa. Code discharge NPDES permit. Where applicable, compliance with 40 CFR Federal effluent limitation guidelines is required. The general permit requires no other numeric effluent limitations and compliance with Pennsylvania Nutrient Management Act and the Clean Stream Law constitutes compliance with the State narrative water quality standards.

Application No. PA, Industrial Waste, SIC Code 2015, **Pennfield Farms, Inc.** (Pennfield Farm Poultry IWTF), P. O. Box 70, Fredericksburg, PA 17026.

This facility is located in Bethel Township, **Lebanon County**.

Description of activity: The application is for renewal of an NPDES permit for an existing discharge of treated industrial waste.

The receiving stream, Deep Run, is in Watershed 7-D and classified for warm water fishery, water supply and recreation and fish consumption. The nearest downstream public water supply intake for Pennsylvania American Water Company is located on Swatara Creek, approximately 28 miles downstream. The discharge is not expected to affect the water supply.

The proposed effluent limits for Outfall 001 based on a design flow of 0.60 MGD are:

Parameter	Mass (lb/day)		Concentration (mg/l)		
	Average Monthly	Maximum Daily	Average Monthly	Maximum Daily	Instantaneous Maximum

WATER QUALITY MANAGEMENT PERMITS

CONTROLLED INDUSTRIAL WASTE AND SEWAGE WASTEWATER APPLICATIONS UNDER THE CLEAN STREAMS LAW

PART II PERMITS

The following permit applications or requests for plan approval have been received by the Department of Environmental Protection (Department). The applications are listed in two categories. Section I lists all municipal and industrial permits and Section II lists oil and gas related permit applications.

Persons wishing to comment on any of the applications are invited to submit a statement to the office noted before the application within 15 days from the date of this public notice. Comments received within this 15-day comment period will be considered in making the final decision regarding the application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department reserves the right to hold a public hearing if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation of the area. If no hearing is held, the Department's Water Management Program Manager will make a final determination regarding the applications after a complete review. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

A copy of the permit application or proposed plan is on file in the office indicated and is open to public inspection. Appointments to review the application may be made by contacting Records Management at the indicated telephone number.

NPDES Stormwater Individual Permit

The following parties have applied for an NPDES permit to discharge stormwater associated with a construction activity into waters of this Commonwealth.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices (BMPs) which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the appropriate Department Regional Office noted before the application within 30 days from the date of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate DEP Regional Office during the 30-day public comment period.

Following the 30-day comment period, the appropriate Regional Office Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the office identified in this notice.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified Regional Office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is pub-

lished in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

NOTICE OF PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (DEP) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

Notice is hereby given that DEP has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the DEP Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the DEP providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with DEP Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If DEP schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identi-

fied. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121 through 143, the Federal Clean Air Act and regulations adopted under the Act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

33-167B: Laurel Energy, LP Sandy Lands Mine (Route 2023, Reynoldsville, PA 15851) for post-construction of a diesel fuel-powered electric generator (1226 EKW), with SCR Catalyst control in McCalmont Township, **Jefferson County**.

43-278A: Cobra Metal, Inc. (3rd and Brentwood Avenue, Transfer, PA 16154) for construction of a Brass and Copper Turnings Rotary Dryer controlled by new afterburner and existing cyclone and baghouse in Pymatuning Township, **Mercer County**.

42-195A: Ram Forest Products Inc. (HCR 1 Box 15A, Shinglehouse, PA 16748) for construction of a wood fired boiler rated at 39.4 MMBTU/hr and controlled by Multiclones in Ceres Township, **McKean County**. The source is subject to New Source Performance Standards 40 CFR Part 60 Subpart Dc.

61-200A: Webco Industries, Inc. (363 Seneca Street, Oil City, PA 16301) for post construction plan approval of two existing gas-fired annealing furnaces for various steel tubing products in Oil City, **Venango County**.

20-175A: Cardinal Home Products, Tel-O-Post Division (205 North Pymatuning Street, Linesville, PA

16424) for post-construction of surface coating operations, including red, gray and staining in Linesville, **Crawford County**.

37-023C: Orion Power MidWest, L.P.—New Castle Plant (State Route 168 South, West Pittsburgh, PA 16160) for installation of selective Pa. Code catalytic reduction (SNCR) NO_x Control on Nos. 3, 4 and 5 boilers in Taylor Township, **Lawrence County**. This facility is a Title V facility.

43-170D: Werner Co.—Greenville Division (93 Werner Road, Greenville, PA 16125) for modification to existing plan approval to reduce the emission limit and establish a new emission factor for the pultrusion process in Sugar Grove Township, **Mercer County**.

37-003B: ESSROC Cement Corp. (Second Street, Bessemer, PA 16112) for installation of a baghouse (12,000 cfm), on clinker loadout system in Bessemer Borough, **Lawrence County**. This facility is a Title V facility.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

15-0027E: Johnson Matthey, Inc. (456 Devon Park Drive, Wayne, PA 19087) for installation of a 400-kilowatt (kW) Caterpillar Emergency Generator at their Catalytic System Manufacturing facility in Tredyffrin Township, **Chester County**. The facility is major for volatile organic compounds (VOC)/nitrogen oxides (NO_x). This installation results in a NO_x net emission increase of 0.5 ton per year from the facility. The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

15-0058A: Martin Limestone, Inc. (Quarry Road, P. O. Box 1081, Honey Brook, PA 19344) for installation of a replacement primary crusher and a new cone crusher, located at Martin Limestone's quarry in Honey Brook Township, **Chester County**. The quarry is a Pa. Code Title V (State only) facility. The installation of the primary crusher will result in emissions of particulate matter of 2.4 tons per year. The installation of the cone crusher will result in emissions of particulate matter of 2.2 tons per year. The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Contact: Ronald Davis, New Source Review Chief, (717) 705-4702.

06-5090A: Chiyoda America, Inc. (P. O. Box 470, Morgantown, PA 19543-0470) for modification of a decorative coating facility controlled by thermal oxidizers in Caernarvon Township, **Berks County**. This decorative coating facility is a Pa. Code Title V (State only) facility. This modification will result in a reduction in the potential and actual emission of volatile organic compounds (VOC) per year by an amount of 24 tons. The allowable Potential emission from the facility will be set at 49 tons

of VOC per year. The applicant will be required to record the coating usages and calculate the VOC emissions monthly. Limits will be placed on the VOC emissions from the facility. The approval will include monitoring, record keeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

36-05107B: Pepperidge Farm, Inc. (2195 North Reading Road, Denver, PA 17517) for modification of the No. 8 Cracker Line and Bread Line volatile organic compound (VOC) emission controls at the Denver Bakery in East Cocalico Township, **Lancaster County**. This commercial baking operation is a Pa. Code Title V facility. No emission increases are expected from this modification. The plan approval will include monitoring, testing, record keeping and reporting requirements designed to keep the source operating within all applicable air quality requirements.

36-05092: Greiner Industries, Inc. (1650 Steel Way, Mount Joy, PA 17552-9515) for construction of three new spray-paint bays controlled by dry filters in Mount Joy Township, **Lancaster County**. This steel fabrication plant is a Pa. Code Title V (State only) facility. The new spray-paint bays will result in estimated emissions of 16.19 tons per year of Volatile Organic Compounds, 8.86 tons per year of combined Hazardous Air Pollutants and 11.79 tons per year of particulate matter. Greiner Industries has emission caps for less than 50 tons per year of VOCs, 25 tons per year of HAPs and 100 tons per year of Particulates. The plan approval will include monitoring, record keeping and reporting requirements designed to keep the sources operating within all applicable air quality requirements.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481; Contact: Devendra Verma, New Source Review Chief, (814) 332-6940.

10-079B: BNZ Materials, Inc. (191 Front Street, Zelenople, PA 16063) for installation of a wet scrubber at their plant in Zelenople, **Butler County**. The facility currently has a Title V permit No. 10-00079. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V operating permit through an administrative amendment at a later date. This installation will result in no change in emissions.

PUBLIC HEARINGS

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Contact: Leif Ericson, Program Manager, (717) 705-4702.

22-05007: The Harrisburg Authority (1670 South 19th Street, Harrisburg, PA 17104) for modification and operation of the Harrisburg Materials, Energy, Recycling and Recovery Facility in the City of Harrisburg, **Dauphin County**.

Plan Approval No. 22-05007 authorizes physical modifications that will limit the capacity of each of the two existing combustor units to less than 250 tons per day of municipal waste. The plan approval will include conditions for shakedown and testing of the de-rated combustors.

The plan approval will include the following conditions for operating and testing of the de-rated combustors as well as monitoring of their performance and record keeping:

*Conditions***General Requirements**

1. The Harrisburg Materials, Energy, Recycling and Recovery Facility is to be modified in accordance with the plans submitted with the application (as herein approved).

2. This plan approval authorizes temporary operation of the sources covered by this Plan Approval provided the following conditions are met:

a. The Department must receive written notice from The Harrisburg Authority of the completion of construction and The Harrisburg Authority's intent to commence operation at least 5 working days prior to the completion of construction. The notice must state when construction will be completed and when The Harrisburg Authority expects to commence operation (progress reports, and the like)

b. Operation is authorized only to facilitate the start-up and shakedown of sources and air cleaning devices, to permit operations pending the issuance of an Operating Permit or to permit the evaluation of the sources for compliance with all applicable regulations and requirements.

c. This condition authorizes temporary operation of the sources for a period of 180 days from the date of commencement of operation, provided the Department receives notice from The Harrisburg Authority under subpart a.

d. The Harrisburg Authority may request an extension if compliance with all applicable regulations and Plan Approval requirements has not been established. The extension request shall be submitted in writing at least 15 days prior to the end of this period of temporary operation and shall provide a description of the compliance status of the sources, a detailed schedule for establishing compliance and the reasons compliance has not been established.

e. The notice submitted by The Harrisburg Authority under subpart a., prior to the expiration of this Plan Approval, shall modify the plan approval expiration date. The new plan approval expiration date shall be 180 days from the date of the commencement of operation.

3. The HMERRF is subject to portions of 40 CFR Part 60, Subpart Cb—Emission Guidelines for Municipal Waste Combustors and portions of the related Subpart Eb—Standards of Performance for Large Municipal Waste Combustors. Copies of all requests, reports, applications, submittals and other communications shall be forwarded to both the Department and EPA.

4. All correspondence to the Department and EPA shall be addressed to:

Leif Ericson	Director
Air Quality Program	Air Protection Division
Manager	U.S. EPA Region III
Southeastern Regional	1650 Arch Street
Office	Philadelphia, PA
909 Elmerton Avenue	19103-2029
Harrisburg, PA 17110	

5. Within 120 days after the date of this approval, the permittee shall submit a Title V operating permit application to the Department in accordance with 25 Pa. Code Chapter 127, Subchapters F and G.

6. The permittee shall cease operation of the waste combustor units no later than midnight June 18, 2003,

unless otherwise approved by the Department and retrofitted with all necessary emissions control equipment capable of meeting all of the applicable requirements of 40 CFR 60 Subpart Cb.

Definitions

7. The following definitions apply to the provisions of this plan approval:

Four-Hour Block: refers to the arithmetic average of four consecutive hourly averages measured over the 4-hour time periods from 12 a.m. to 4 a.m.; 4 a.m. to 8 a.m.; 8 a.m. to 12 p.m.; 12 p.m. to 4 p.m.; 4 p.m. to 8 p.m.; and 8 p.m. to 12 a.m..

24-Hour Block: refers to the 24 hour period rolling arithmetic averaging period calculated from the 6 preceding 4-hour block averaging periods.

245 TPD Steam Limit: refers to the 54,189 lbs/hour of steam which is the steam flow calculated by the applicant as corresponding to 245 tons per day waste feed rate averaged over any 24-hour block for each waste combustor unit as verified by testing.

250 TPD Steam Limit: refers to the 55,295 lbs/hour of steam which is the steam flow calculated by the applicant as corresponding to 250 tons per day waste feed rate averaged over any 4-hour block for each waste combustor unit as verified by testing.

Monitoring Equipment: refers to all equipment and instrumentation necessary to determine process variables including, without limitation, devices to measure steam flow, temperatures, carbon monoxide (CO) and oxygen levels, fan amperage, computer systems, electronics and other parameters.

Startup commences with the introduction of municipal waste into the empty combustor unit.

Shutdown commences with the cessation of charging of the combustor with municipal waste for the express purpose of shutting down the combustor unit.

Steam interlock system refers to technology that automatically stops waste charging to the combustors when the monitored steam flow exceeds the values corresponding to the waste feed limits previously specified.

Programmable logic control system is the electronic hardware and computer software elements integral to the steam interlock system.

Operating Requirements

8. The municipal waste combustor units shall be operated and maintained in accordance with good air pollution prevention practices or control practices.

9. The permittee shall install, maintain and operate equipment and instrumentation necessary to determine process variables and to demonstrate compliance with the provisions of this plan approval or subsequent operating permits.

10. The Department shall control access to the facility's programmable logic control system. The permittee shall provide justification and notify the Department in writing at least 24 hours in advance of any requested access to the system.

11. Any modification of the steam interlock control program requires the written approval of both the Department and the EPA. All requests for modifications shall be submitted in writing with justification to both agencies.

12. The facility director, operations supervisor and all shift supervisors shall obtain and keep current either an ASME provisional or operator certification.

13. Neither waste combustor unit shall be operated without an individual bearing either an ASME provisional or operator certification on-site.

14. Neither combustor shall be operated in excess of the 245 TPD steam limit as defined in Condition 7.

15. Neither combustor shall be operated in excess of the 250 TPD steam limit as defined in Condition 7.

Testing Requirements

16. The permittee shall conduct stack emission testing on each waste combustor unit according to the schedule specified in Paragraph 11 of the January 9, 2001, Consent Order and Agreement between the Department and the City.

17. The previous testing is required under the January 9, 2001, Consent Order and Agreement to determine the dioxin/furan, particulate matter, carbon monoxide, lead, cadmium, mercury and nitrogen oxides emissions and inlet temperatures for each electrostatic precipitator control device. All testing shall be conducted in accordance with 40 CFR Part 60, Appendix A and 25 Pa. Code Chapter 139 as follows:

a. Each unit being tested shall be operated at 80% to 100% of the 245 TPD steam limits using waste representative of the waste normally fired, without any segregation or separation

b. Dioxin/furan—EPA Method 23

c. PM—EPA Method 5

d. Visible emissions—EPA Method 9

e. Carbon monoxide—EPA Method 10, 10A or 10B

f. Cadmium, lead and mercury—EPA Method 29

g. Nitrogen oxides—EPA Method 7E

18. Each IBW/Martin municipal waste combustor is subject to a maximum NO_x emission limit of 300 ppm, dry volume, corrected to 7% oxygen. NO_x emissions shall be verified annually by stack testing as previously defined.

19. At least 45 days prior to each stack test, the permittee shall submit a test protocol to the Department and EPA.

20. The permittee shall notify the Department and EPA at least 7 days prior to each test.

21. The following operating information shall be submitted for each test period:

a. Municipal solid waste feed rate in tons per hour

b. Boiler steam flow in pounds per hour, temperature in degrees Fahrenheit and pressure in pounds per square inch gage

c. Boiler oxygen value in percent

d. Boiler furnace temperature in degrees Fahrenheit

e. ESP inlet (economizer outlet) temperature in degrees Fahrenheit

f. Boiler carbon monoxide value at ESP outlet in ppmv @ 7% oxygen

g. Forced draft fan and overfire air fan amperage and discharge pressures in amps and inches water column

22. The permittee shall submit a summary of the emission test results for dioxin/furan, particulate matter, visible emissions, lead, cadmium, mercury, nitrogen oxides and carbon monoxide to the Department and EPA within 45 days of completion of each stack test.

23. The permittee shall submit a complete test report, including all information described in Conditions Nos. 17 and 21 to the Department and EPA within 60 days of completion of each stack test.

24. The permittee shall comply with all applicable performance and testing procedures and monitoring requirements set forth in 40 CFR 60.38(b) of Subpart Cb and 40 CFR 60.58b(c), (d), (g) and (i)(6) and (7) or other equipment methods approved by the Department. The provisions of 40 CFR 60.58b(c)(8)-(11) and 60.58b(g)(5) and (6) and 60.58d(2)(v) are not applicable procedures for purposes of this plan approval.

Conditional Requirements

25. If stack test results indicate that dioxin/furan emissions from either combustor unit have exceeded 1,500 ng/dscm during any test, the permittee shall institute the following measures:

a. conduct a bimonthly stack test of the units which exceeded 1,500 ng/dscm according to the Testing Requirements section of this permit until a time the permittee can demonstrate dioxin/furan concentrations of 1,500 ng/dscm or less for two consecutive bimonthly stack tests

b. conduct monthly inspections and repairs of these areas for the associated boilers

- | | |
|------------------------------|-------------------------------------|
| (1) sifting valves | (6) vibration pan seal and doors |
| (2) front boiler door panels | (7) air pre-heater seals |
| (3) boiler inspection ports | (8) ESP seals |
| (4) quench basins | (9) expansion joints |
| (5) MSW feed chutes | (10) boiler/stoker connection seals |

The bimonthly stack testing is in addition to testing referenced in Condition No. 16.

26. If stack test results indicate that dioxin/furan emissions from either combustor unit have exceeded 1,500 ng/dscm during any test, the Department specifically and expressly reserves the right to require additional measures with respect to dioxin/furan emissions. These measures include, without limitation, the right to deny, suspend or revoke any approval or permit and the right to order cessation of the units.

27. Subsequent to the first dioxin/furan test required by this permit, the ESP inlet (economizer outlet) temperature for each unit shall not exceed by 30 degrees Fahrenheit the highest 4-hour block arithmetic average flue gas temperature measured at the ESP inlet during 4 consecutive hours of each stack test required under Condition No. 18 and demonstrating compliance with the applicable dioxin/furan limit of 1,500 ng/dscm at 7% oxygen, total mass.

Until the ESP inlet (economizer outlet) temperature is established during testing, the temperature limit is 600 degrees Fahrenheit.

28. In the event the ESP inlet (economizer outlet) temperature exceeds the previous limits, the permittee shall slow the waste feed to reduce the temperature below the applicable limit and shall implement the procedures in the revised Operational and Maintenance Manual.

29. In the event the ESP inlet (economizer outlet) temperature does not drop below the previous limit after any two 4-Hour Blocks, which occur in a 24 hour period, the permittee shall immediately cease feeding waste, begin visual inspection of the baffle walls and conduct the following:

a. Check the flue gas pressure drop across the economizer against values recorded previously at similar loads when the economizer outlet temperature remained below the previous limits; in the event of an increase in pressure drop of more than 1/2 inch in water gage, thoroughly clean the economizer section.

b. Compare the difference between furnace temperature and economizer inlet temperature to levels recorded previously at similar loads when the economizer outlet temperature remained below the limit in this paragraph. Routinely inspect the refractory baffle wall and the metal division wall during off-line cleaning to assure that they are still intact and conduct off-line cleaning.

30. If the ESP temperature data is unavailable and cannot be restored within 4 hours, the permittee will cease feeding waste to the combustor units until the ESP inlet temperature is restored, unless the permittee takes manual temperatures, takes the economizer inlet temperature and repairs the system within 24 hours or the next business day.

Monitoring Requirements

31. The permittee shall provide a single dedicated dial-up modem accessible to the Department and EPA with remote access to monitor operating system parameters as follows:

a. remote access shall be operable and available to the Department and EPA until midnight on June 18, 2003

b. the system shall monitor these parameters:

actual furnace temperature	carbon monoxide
steam flow set point	oxygen
steam flow	ESP inlet temperature
an indicator of feeder operation	average steam flow

c. data shall be available on a real-time basis and a 30 day historical basis; trend charts shall indicate any exceedances of the 245 TPD and 250 TPD steam limits.

32. The permittee shall maintain and operate a steam interlock control system to ensure that waste charging does not exceed the applicable steam flow limit for each unit referenced in Conditions Nos. 14 and 15.

Recordkeeping and Reporting

33. The permittee shall report exceedances of each unit's 245 TPD-equivalent steam limit to the Department and EPA within 24 hours or the next business day. The permittee shall provide a written description of each exceedance, its cause and the corrective measures taken to the Department and EPA within 10 days.

34. The permittee shall observe the following procedures for exceedances of each unit's 250 TPD-equivalent steam limit:

a. immediately cease feeding waste to the units

b. report each exceedance to the Department and EPA within 24 hours or the next business day

c. provide a written description of each exceedance, its cause and the corrective measures taken to the Department and EPA within 10 days

d. not restart the unit unless the Department determines that the unit is physically limited to operating at the 250 TPD-equivalent steam limit

35. In addition to the records required under 25 Pa. Code § 129.95, the permittee shall maintain records of the following for each municipal waste combustor:

a. Tons of municipal waste combusted and steam produced per day

b. Hours of operation

c. Summary of maintenance performed on the combustors, control devices and monitoring devices

d. Duration of all start-ups, shutdowns and malfunctions of the combustors, control devices and monitoring devices

e. Testing, calibration, adjustments and maintenance of all continuous monitoring devices

36. No later than 21 days after the end of each calendar month, the permittee shall submit a report containing, but not limited to, the information referenced in Condition No. 35 to the Department.

37. All records required by this operating permit shall be maintained onsite for the most recent 5-year period and made available to Department representatives upon request.

Operating Permit No. 22-05007 will provide for the derated operation of the combustors and will include conditions for compliance monitoring and ongoing testing of the de-rated units. Operation of the waste combustors beyond June 18, 2003 is contingent upon compliance with the applicable requirements of 40 CFR 60, Subpart Cb—Emissions Guidelines and Compliance Times for Large Municipal Waste Combustors.

A public hearing will be held for the purpose of receiving comments on the proposed actions. The hearing will be held on September 25, 2001, at the Community Life Building, 1119 South Cameron Street, Harrisburg, PA 17103 from 7 p.m. until all scheduled comments on the proposed action are received.

Those wishing to comment are requested to contact Sandra Roderick at (717) 705-4931 at least 1 week in advance of the hearing to schedule their testimony. Commentators are requested to provide two written copies of their remarks at the time of the hearing. Oral testimony will be limited to a maximum of 10 minutes per individual. Organizations are requested to designate an individual to present testimony on behalf of the organization.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter G.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701; Contact: Muhammad Zaman, Facilities Permitting Chief, (570) 327-3637.

19-00003: Bloomsburg University (400 East Second Street, Bloomsburg, PA 17815) for their state university in Bloomsburg, **Columbia County**. The facility's major air contamination sources are five anthracite coal fired boilers used to provide steam and heat for the entire university campus. This facility has the potential to emit major quantities of Nitrogen Oxides (NO_x), Particulate Matter (PM) and Sulfur Oxides (SO_x). As a result of the potential emissions, the facility is a major stationary

source as defined in Title I, Part D of the Clean Air Act Amendments. The facility is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code, Chapter 127, Subchapter G. The facility has taken restriction on fuel throughput to limit Nitrogen Oxide emissions below major emission thresholds and avoid Reasonably Available Control Technology (RACT) requirements for NO_x emissions. The facility has the potential to emit Carbon Monoxide (CO), Hazardous Air Pollutants (HAPS) and volatile organic compounds (VOCs) below the major emission thresholds. This Title V operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

53-00005: Dominion Transmission Corp.—Greenlick Station (625 Liberty Avenue, Pittsburgh, PA 15222-3199) for their Natural Gas Transmission facility in Stewardson Township, **Potter County**. The Title V Operating Permit revision is to incorporate conditions from Plan Approval 53-0003B for operation of a 26.5 MMBtu/hr natural gas pipeline heater. The installation of the heater increases the facility's potential to emit nitrogen oxides by 4.20 tons per year, carbon monoxide by 42.18 tons per year and volatile organic compounds by 6.61 tons per year. This Title V operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

36-03038: Evans Eagle Burial Vaults, Inc. (15 Graybill Road, Leola, PA 17540) for the operation of a cremation chamber in Upper Leacock Township, **Lancaster County**. The primary emissions from the cremation chamber are nitrogen oxides and particulate matter. The potential-to-emit nitrogen oxides are 2 tons per year and particulate matter is about 850 lbs per year. The permit will contain additional record keeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

22-03046: Handwerk Materials, Inc. (2052 Lucon Road, Skippack, PA 19474-0196) for the operation of a limestone quarry in Lower Swatara Township, **Dauphin County**. The primary emission is particulate matter. The potential-to-emit particulate matter, after control, is about 9 tons per year. The permit will contain additional record keeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the

Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Notice of Final Action on Request for Certification Under Section 401 of the Federal Clean Water Act and Waiver of Permit under Dam Safety and Encroachment Act

The Department of Environmental Protection (Department), under section 401(a) of the Federal Clean Water Act (33 U.S.C.A. § 1341(a)), certifies that the construction and operation herein described will comply with the applicable provisions of sections 301—303, 306 and 307 of that Act and that the construction will not violate applicable Federal and State water quality standards, provided that Consolidation Coal Company (Consol) complies with the provisions of the July 23, 2001, Consent Order and Agreement between the Department and Consol. In addition, the Department waives the requirement for a permit under the Pennsylvania Dam Safety and Encroachments Act (35 P. S. §§ 693.1—693.27).

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's Rules of Practice and Procedure, may be obtained from the Board. The appeal form and the Board's Rules and Practice and Procedure are also available in Braille or on audio tape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

DEP Reviewing Office: McMurray District Mining Office, 3913 Washington Road, McMurray, PA 15317.

Certification Request Initiated by: Consolidation Coal Company, 1800 Washington Road, Pittsburgh, PA 15241.

Date of Initial Pennsylvania Bulletin Notice: June 19, 1999

Project Description: Consol proposes to construct and maintain passive treatment facilities in approximately 21 acres of existing wetlands (PEM) to treat mine drainage that currently flows into the wetlands from the former Hutchinson and Angelcyk Mines. The proposed project will enhance the existing wetlands with recontouring and berm construction to increase detention time and thereby to improve the quality of the discharges to Little Sewickley Creek (TSF). The existing wetlands which are to be enhanced were created and are sustained by the discharges from abandoned Pittsburgh and Redstone coal seam mines.

Location: The site is located approximately 0.5 mile east of Cowansburg (Irwin, PA Quadrangle N: 05 inch; W: 17.0 inches) (the discharge from the wetland is located at Latitude 40°15'07" Longitude 79°45'00") in Sewickley Township, Westmoreland County.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications and requests for Environmental Assessment approval and requests for Water Quality Certification have been received by the Department of Environmental Protection. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341(a)), requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Initial requests for 401 Water Quality Certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Permit or Water Obstruction and Encroachment Permit, or the approval of an Environmental Assessment must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of

comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between the hours of 8 a.m. and 4 p.m. on each working day at the office noted before the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

E51-190. Sun Pipe Line Company, #4 Hog Island Road, North Pier, Philadelphia, PA 19153, City of Philadelphia, **Philadelphia County**, ACOE Philadelphia District.

To perform maintenance work along a 25-foot reach of two 24-inch existing Sun Pipe Lines. The utility lines convey crude oil across the John Heinz National Wildlife Refuge from the Hog Island Wharf to the Darby Creek Tank Farm. The project area will have a disturbance to 0.06 acre of wetlands immediately adjacent John Heinz National Wildlife Refuge impoundment along Darby Creek (WWF-MF). The project site is located 2,000 feet southwest of the intersection of 86th Street and Lyons Street (Lansdowne, PA Quadrangle N: 1.85 inches; W: 0.78 inch).

E51-191. City of Philadelphia, Dept of Streets, Bridge Unit, 830 Municipal Services Building, 1401 JFK Boulevard, Philadelphia, PA 19102, **Philadelphia County**, ACOE Philadelphia District.

To replace, construct and maintain the Germantown Avenue Bridge crossing the Wissahickon Creek (TSF). The project involves the removal of the existing 9-span concrete T-beam bridge. The bridge replacement is part of a larger project to rehabilitate Germantown Avenue from Northwestern Avenue to Hillcrest Avenue. The proposed bridge will be a 3-span, continuous steel I-beam bridge. It will be approximately 313 feet long, consisting of three continuous spans of approximately 102 feet, 109 feet and 102 feet respectively. The proposed bridge will contain an associated stormwater management drainage-way and outfall and will include pedestrian sidewalks on the east and west side. The bridge will be shifted approximately 75 feet upstream from where it is presently located. The shifting of the bridge will alleviate the sharp curve and facilitate better traffic patterns. The project site is located

100 feet southeast of the intersection of Northwestern Avenue and Germantown Avenue (Germantown, PA Quadrangle N: 15.3; W: 14.4).

E15-672. West Vincent Associates, 707 Eagleview Road, Box 562, Exton, PA 19341, West Vincent Township, **Chester County**, ACOE Philadelphia District.

To install and maintain four utility line crossings of an unnamed tributary of Birch Run Creek (EV), associated with the Weatherstone Development. The utilities will be placed in the bed of Fellowship Road and bored under an existing 30-inch RCP culvert. This site is located along Fellowship Road approximately 1,500 feet north of Conestoga Road (S.R. 0401), (Downingtown, PA Quadrangle N: 21.0 inches; W: 9.0 inches).

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701, (570) 327-3636.

E55-159. Pennsylvania Department of Transportation, 715 Jordan Avenue, Montoursville, PA, 17754. Dry Run crossing, in Centre Township, **Snyder County**, ACOE Baltimore District (Middleburg, PA Quadrangle N: 16.5 inches; W: 6 inches).

The permit application proposes to remove the existing single span arch structure and replace it with a single span adjacent box beam concrete bridge. This structure is proposed to have a span of 40 feet and a design underclearance of 6.5 feet. This project also proposes to install a temporary roadway constructed of four 48 inch culvert pipes and associated fill. This project proposes to impact 140 linear feet of Dry Run, which is designated as a Cold Water Fishery and does not impact any wetlands.

Southwest Region: Water Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

E04-277. Beaver County, 469 Constitution Boulevard, New Brighton, PA 15066-3105. Marion Township, **Beaver County**, ACOE Pittsburgh District.

To construct and maintain stream habitat enhancement, bank and channel stabilization and riparian buffers along 1,460 linear feet of Brush Creek (WWF) and to remove silt and gravel bars from the channel of said stream for the purpose of mitigation of stream impacts association with the Cranberry Interchange/I-79 Connector Project (DEP Permit No. E10-206) in Cranberry Township, Butler County. The project is located at Brush Creek Park, approximately 900 feet north from the intersection of Brush Creek and S.R. 588 (Zelienople, PA Quadrangle N: 6.5 inches; W: 15.5 inches).

E30-200. Greene County, 93 East High Street, Waynesburg, PA 15370. Cumberland Township, **Greene County**, ACOE Pittsburgh District.

To remove the existing County Bridge No. 13 and to construct and maintain a bridge having a normal clear span of 13.55 m and an underclearance of 2.33 m across Muddy Creek (WWF) located on T-660 (Dugan Hill Road) at a point approximately 110 m south of its intersection with S.R. 21 (Mather, PA Quadrangle N: 0.62 inch; W: 3.39 inches).

E63-514. Washington County Planning Commission, 100 West Beau Street, Suite 701, Washington, PA 15301. Buffalo Township, **Washington County**, ACOE Pittsburgh District.

To remove the existing bridge (Brownlee Bridge #38) and to construct and maintain a new bridge having a span of 65 feet with an underclearance of 15.0 feet across the channel of Buffalo Creek (HQ-WWF) for the purpose

of improving highway safety. The bridge is located on T-472, approximately 300 feet west from the intersection of T-472 and L.R. 62135 (Washington West, PA Quadrangle N: 0.2 inch; W: 16.8 inches).

Northwest Region: Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

E10-341. Northwest Savings Bank, 108 Liberty Street, Warren, PA 16365. Northwest savings bank retaining wall along tributary to Little Buffalo Creek, in Buffalo Township, **Butler County**, ACOE Pittsburgh District (Freeport, PA Quadrangle N: 13.5 inches; W: 13.0 inches).

To construct and maintain a retaining wall, having a maximum height of 12 feet and associated fill within the left 50-foot floodway of a tributary to Little Buffalo Creek and a de minimis area (0.02 acre) of adjacent wetland, extending a total of approximately 250 feet downstream from S.R. 356, south of S.R. 2015 for construction of a Northwest Savings Bank building, associated driveway, parking lot, stormwater detention basin outfall and emergency spillway.

E20-504. William M. Densmore, 11393 North Shore Drive, Conneaut Lake, PA. Earthen Dock Rehabilitation, in Summit Township, **Crawford County**, ACOE Pittsburgh District (Harmonsburg, PA Quadrangle N: 2.9 inches; W: 7.6 inches).

To rehabilitate the existing concrete walls supporting an existing 40 ft. long by 10 ft. wide dock located approximately 0.76 mile northeast of Conneaut Lake Park at the northern end of Conneaut Lake.

E20-506. Randolph Township, 28631 Guys Mills Rd, Guys Mills, PA 16327. T-740 McFadden Road and T-756 Gilbert Road Across Woodcock Creek, in Randolph Township, **Crawford County**, ACOE Pittsburgh District.

To remove the existing culverts, backfill a scour hole extending approximately 100 feet downstream from the roadway with limestone riprap and to install and maintain twin 40-foot long, 112-inch wide by 75-inch high corrugated metal pipe arch culverts, including concrete block headwall, endwall and wingwalls in Woodcock Creek on T-740, McFadden Road approximately 0.2 mile south of S.R. 1018, Guys Mills Road (Townville, PA Quadrangle N: 3.6 inches; W: 10.5 inches).

To remove the existing culvert and to install and maintain a 40-foot long, 81-inch wide by 59-inch high corrugated metal pipe arch culvert with concrete block headwall, endwall and wingwalls in Woodcock Creek on T-756, Gilbert Road approximately 0.8 mile north of S.R. 198 (Townville, PA Quadrangle N: 3.6 inches; W: 9.35 inches).

E42-282. Pennsylvania Department of Transportation, Engineering District 2-0, 1924-30 Street, P. O. Box 342, Clearfield, PA. 16830-3226. S.R. 0219, Section C08, Bradford Bypass Extension, in Bradford Township, **McKean County**, ACOE Pittsburgh District (Bradford, PA Quadrangle N: 9.1 inches; W: 3.5 inches).

The project involves construction of earthen embankments and other structures within the 100-year floodplain and floodway of East Branch Tunungwant Creek and will impact 2.03 acres of existing wetlands for extension of the existing limited access highway including a two lane bridge structure and exit and entrance ramps. Project includes construction of 2.69 acres of replacement wetlands.

EA10-017NW, Stream Restoration Incorporated, 3016 Unionville Road, Cranberry Township, PA 16066. Erico Bridge Abandoned Mine Restoration Project, in Cranberry Township, **Butler County**, ACOE Pittsburgh District (Eau Claire, PA Quadrangle N: 0.25 inch; W: 15 inches).

To conduct the following activities associated with the abatement of numerous abandoned mine drainage seeps located at an approximately 20 acre site, 1.7 miles southeast of Murrinsville (intersection of Route 58 and Route 308):

1. To remove approximately 25,500 cubic yards of coal refuse and to construct and maintain a passive acid mine drainage treatment system including an anoxic limestone drain, a settling pond/wetland complex and a horizontal flow limestone bed within 50 ft of Seaton Creek (CWF) to treat discharges (300 gpm) contributing acidity, iron, manganese, sulfates and sediments to Seaton Creek, a tributary in the headwaters of Slippery Rock Creek (CWF).

2. To impact approximately 8 acres of degraded wetlands from the construction of the passive treatment system and from the removal of the coal refuse.

3. To create approximately 10 acres of wetlands within the passive treatment system and the footprint of the removed coal refuse.

To restore existing adjacent wetlands that have been impacted by the abandoned mine drainage.

FINAL ACTIONS TAKEN UNDER THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT—NPDES AND WQM PART II PERMITS INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications and requests for plan approval.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

Southwest Region: Water Management Program Manager; 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Borough of Plum	4575 New Texas Road Pittsburgh, PA 15239	Allegheny County

Plan Description: The approved plan provides for the installation of a sanitary sewer line along New Texas Road starting approximately 4,000 lineal feet southeast of the intersection of Saltsburg Road (S.R. 0400) and New Texas Road (S.R. 2075) and proceeding along the left side of New Texas Road approximately 2,200 lineal feet. The sanitary line also branches off New Texas Road along several local roads (Carpenter Drive, Yettman Drive and McKim Drive) and various rear yards of existing lots. Approximately 63 single family residential dwellings are currently being serviced by on-lot septic systems and will be serviced by the sanitary line. The sanitary line will tie into an existing line located along Shady Hollow. The sewage will be treated at the Holiday Park Sewage Treatment Plant which is maintained and operated by the Plum Borough Municipal Authority. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site where one of the Act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the

selection of residential or Pa. Code residential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final reports:

Northeast Regional Field Office, Joseph Brogna, Regional Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

Thurmond, Design Team Leader, US Army Corps of Engineers, Geotechnical and Water Resources Branch, 10 S. Howard Street, Baltimore, MD 21201 has submitted a Final Report concerning the remediation of site soils found or suspected to have been contaminated with polycyclic aromatic hydrocarbons and BTEX compounds. The report was submitted to document remediation of the site to meet the Statewide health standard. A Notice of Intent to Remediate was simultaneously submitted. See additional *Pennsylvania Bulletin* notice.

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Ameristeel Facility, Spring Garden Township, **York County**. ARM Group Inc., 1129 West Governor Road, P. O. Box 797, Hershey, PA 17033-0797 (on behalf of W. D. Brougher, 1200 Country Club Road, York, PA 17403) submitted a combined Remedial Investigation and Final Report concerning remediation of site groundwater contaminated with solvents. The report is intended to document remediation of the site to the site-specific standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, Administration of the Land Recycling and Environmental Remediation Standards Act (Act) requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the Land Recycling and Environmental Remediation Standards Act. Plans and reports required by provisions of the Act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from

the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or Pa. Code residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341(a)).

Except as otherwise noted, the Department of Environmental Protection certifies that the construction and operation herein described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State Water Quality Standards.

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Cleans Streams Law (35 P. S. §§ 691.—691.702) and Notice of Final Action for Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)). (Note: Water Obstruction and Encroachment Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description.)

Permits Issued and Actions on 401 Certifications:

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

To remove an existing pedestrian bridge and 35-foot section of retaining wall and to construct and maintain a 5-foot wide wooden pedestrian bridge consisting of a 42-foot span and to install and maintain associated rock riprap protection within and along Shipley Run (WWF-MF), a tributary to Muckinpatres Creek. The site is located approximately 580 feet north of the intersection of Hannum Avenue & Hutchinson Terrace (Lansdowne PA Quadrangle, N: 4.5 inches; W: 7.9 inches).

E23-378. Joyfor Joint Venture, 1604 Walnut Street, Philadelphia, PA 19103, Newtown Square, Newtown Township, **Delaware County**, ACOE Philadelphia District.

To perform the following activities associated with the construction of the Marville at Newtown Square Commercial Development, Parcel "B," located approximately 700 feet north of the intersection of West Chester Pike and Alice Grim Boulevard (Media, PA Quadrangle N: 8.0 inches; W: 19.5 inches).

1. To construct and maintain a 54 linear-foot arch bridge, consisting of a 14-foot by 7.25-foot waterway opening, in and along an unnamed tributary to Crum Creek (CWF) associated with the construction of a proposed ring road. Work also includes the installation of a 15-inch R.C.P. storm sewer across the top of the proposed arch bridge.

2. To place and maintain fill within an unnamed tributary to Reese's Run (CWF) and an adjacent wetland (PEM/PSS) to facilitate the construction of a hotel, associated parking facilities and an access road. The project will impact 0.53 acre of wetland and approximately 600 linear feet of an unnamed tributary of Reese's Run, a tributary to Crum Creek.

The permittee is required to provide a minimum of 1.23 acres of replacement wetlands.

Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

E40-558. John and Susan Halbing, 20 Winding Way, Dallas, PA 18612. Harveys Lake Borough, **Luzerne County**, Army Corps of Engineers Baltimore District.

To remove the existing structure and to construct and maintain a pile supported private recreational dock having a surface area of approximately 1,700 S.F. and extending 50 feet from the shore of Harveys Lake. The project is located along the northern shore at Pole 120 (Noxen, PA Quadrangle N: 0.7 inch; W: 4.2 inches).

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701.

E08-367—Denied. Endless Mountains Energy LLC or Calpine, Pilot House, Second Floor, Lewis Wharf, Boston, MA 02110. Intake pipeline, in Wysox Township, **Bradford County**, ACOE Baltimore District (Towanda, PA Quadrangle N: 1.4 inches; W: 7.62 inches).

To construct and maintain a river water intake structure consisting of two 84-inch long by 30-inch diameter wedge-wire stainless steel intake screens which will be mounted on a manifold which projects up from the river bed and to construct and maintain approximately 170 lineal feet of 24-inch diameter intake pipeline which will extend from the intake structure to a pump station located on the eastern bank of the Susquehanna River and to construct and maintain a submerged single-port 8-inch diameter Tideflex effluent diffuser and 160-lineal feet of 24-inch diameter outfall piping located approximately 160 feet offshore of the east bank of the Susquehanna River.

E17-335. Eagle Environmental II, LP, 11 New Street, Englewood Cliffs, NJ 07632. Residual Waste Landfill, in Chest Township, **Clearfield County**, ACOE Baltimore District (Westover, PA Quadrangle N: 1.19 inches; W: 2.30 inches).

To construct, operate and maintain a residual waste landfill and its appurtenant structures in the Pine Run Watershed; and to construct, operate and maintain a treated leachate outfall structure in Chest Creek for the operation of the Royal Oak Residual Waste Landfill. The construction of the landfill appurtenant structure shall be limited to three treated stormwater outfalls and a maximum wetland impact of 0.17-acre. The effluent outfall structure shall be constructed with a submerged 8-inch diameter high-density polyethylene pipe in the channel of Chest Creek. The project is located along the eastern right-of-way of SR 0036 approximately 1.7-miles east of T-412 and T-409 intersection in Chest Township, Clearfield County. The permittee shall construct the 0.42-acre of on-site replacement wetlands prior to commencing the wetland impacts authorized by this permit.

E17-356. Huston Township Sewer Authority, P. O. Box 121, Penfield, PA 15840-0121, in Huston Township, **Clearfield County**, ACOE Baltimore River Basin District (Penfield, PA Quadrangle N: 16.5 inches; W: 8.6 inches).

To install, operate and maintain a 2-inch diameter polyethylene pipe crossing Eric Hollow Run, Mill Run, Moose Run, Tyler Run, Bennetts Branch-Sinnemahoning Creek, four unnamed tributaries to Bennetts Branch and eight wetlands for the collection, conveyance and treatment of municipal wastewater. All utility lines crossing beneath waterways shall be encased in concrete. The project is located along SR 0255 approximately 2.5-miles north of SR 0153 and SR 0255 intersection. This also authorizes the construction, operation and maintenance of an outfall structure to treated wastewater effluent to an existing abandon mine pool. All wetland impacts associated to the collection and conveyance system shall be temporary, as such the permittee will not need to mitigate with replacement wetlands.

Southwest Region: Water Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

E02-1336. Pennsylvania Department of Transportation, Engineering District 11-0, 45 Thoms Run Road, Bridgeville, PA 15017. Findlay Township, **Allegheny County**, ACOE Pittsburgh District.

To remove the existing bridge and to construct and maintain a new bridge having a clear span of 8.23 meters (27.0 feet) with an underclearance of 2.83 meters (7.28 feet) across Raredon Run (WWF), to relocate and maintain approximately 328.0 feet of the channel of an unnamed tributary to Raredon Run (WWF) located just west of said bridge, to relocate and maintain approximately 393.6 feet of an unnamed tributary to Raredon Run (WWF) located just east of said bridge and to place and maintain fill in a de minimis area of PEM/PSS wetland equal to 0.03 acre for the purpose of improving highway safety. The project is located on S.R. 3088 Sect A01, Station 0+241.570, Offset 0000, Segment 0010 (Aliquippa, PA Quadrangle N: 3.5 inches; W: 7.4 inches).

Public Hearing Notice

The Department of Environmental Protection (DEP) will conduct a public hearing on Thursday, September 27, 2001, beginning at 7 p.m. in the Marienville Area Civic Association building, adjacent to the Jenks Township Building, in downtown Marienville, PA. The hearing is in response to comments received on two applications from Pennsylvania General Energy for discharges of stormwater associated with oil and gas development construction activities. These applications are for new National Pollutant Discharge Elimination System (NPDES) permits to discharge stormwater from construction activities to Salmon Creek, Little Salmon Creek and an unnamed tributary to Salmon Creek in Kingsley and Jenks Townships, Forest County. The NPDES applications are numbered PAS102703 and PAS102704.

Any person who wishes to present testimony at the hearing should submit a written notice of intent to Robert Gleeson, Oil & Gas Management, DEP, 230 Chestnut Street, Meadville, PA 16335-3494, on or before September 20, 2001. The written notice should include the person's name, address, telephone number and a brief statement as to the nature of the testimony to be offered at the hearing. Testimony may be presented in either written or oral form. All testimony should be concise, to the point and relevant to the permit issue. Oral testimony will be limited to a maximum of 5 minutes per speaker. Those presenting written testimony can submit a written copy of the comments and any relevant documents at the hearing. Written testimony can also be sent to Robert Gleeson in the Meadville Oil & Gas Program either prior to the hearing or until October 3, 2001.

After the hearing DEP will prepare a document including a summary of the written and oral comments submitted at the hearing, DEP's responses to the comments and the reasons for the responses. DEP will make its decision on the applications following completion of this summary.

Interested persons may obtain further information or inspect and copy public forms and related documents at the DEP Regional Office, 230 Chestnut Street, Meadville between the hours of 8 a.m. and 4 p.m. Monday through Friday. Appointments for file reviews can be made by calling (814) 332-6340.

BUREAU OF DEEP MINE SAFETY

REQUEST FOR VARIANCE

The Department of Environmental Protection (Department), Bureau of Deep Mine Safety (Bureau), has received a request for variance from Mears Enterprises, Inc. for the Ondo Mine. The following notification contains a summary of this request. A complete copy of the variance request may be obtained from Allison Gaida by calling (724) 439-7469 or from the BDMS website at <http://www.dep.state.pa.us/dep/deputate/minres/dms/dms.htm>.

The Department is publishing a summary of the request in order to solicit comments from affected parties on the proposed variance request. Comments may be used by the Bureau to assist in its investigation of the variance request. Comments will be accepted for 30 days following the publication of this notice. All comments should be addressed to: Richard E. Stickler, Director, Bureau of Deep Mine Safety, Fayette County Health Center, 100 New Salem Road, Room 167, Uniontown, PA 15401.

Section 702 of the Pennsylvania Bituminous Coal Mine Act (52 P. S. §§ 701 and 702) provides a mechanism for operators to obtain variances from specific requirements of the Act to accommodate the adoption of new machinery, equipment, tools, supplies, methods or processes.

Section 224(b) states that whenever any working place in a mine approaches within 50 feet of abandoned workings certified by an engineer or within 200 feet of any abandoned workings which cannot be inspected, or within 200 feet of any other abandoned workings, boreholes shall be drilled sufficiently close to each other to ensure that the advancing face will not hole through into the abandoned workings.

Summary of the Request: Mears Enterprises, Inc. requests a variance to drill holes to determine whether or not the projected mining will be negatively impacted by the country banks adjacent to the Ondo Mine.

Laboratories Approved to Perform Blood Lead and/or Erythrocyte Protoporphyrin Determinations Under the Clinical Laboratory Act

The following laboratories are licensed in accordance with the Clinical Laboratory Act (35 P. S. §§ 2151—2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a), and are currently approved under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood for lead or erythrocyte protoporphyrin content. This approval is based on demonstrated proficiency in periodic evaluations conducted by the Bureau of Laboratories of the Department of Health (Department).

Lead poisoning is a reportable noncommunicable disease. Approved laboratories which offer blood lead or erythrocyte protoporphyrin testing services are required to inform the Department of actual or possible incidents of this condition in accordance with 28 Pa. Code § 27.4 (relating to reportable noncommunicable diseases and conditions). In addition, the Department requests labora-

tories to submit reports on children under 6 years of age and pregnant women, on whom laboratory tests confirm venous blood lead concentrations of 15 micrograms per deciliter or higher. The Department's collection and review of these latter reports would be consistent with the most recent revision of the guideline titled *Preventing Lead Poisoning in Young Children*, which was published in 1991 by the United States Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and is available from them.

Reports must be sent to the Department of Health, Division of Environmental Health, P. O. Box 90, Harrisburg, PA 17108. Report forms are available on request from the Division of Environmental Health.

Erythrocyte protoporphyrin determinations may be performed as an adjunct determination to substantiate blood lead levels of 25 micrograms per deciliter or higher. Since erythrocyte protoporphyrin concentrations may not increase as a result of low level exposures to lead, direct blood lead analysis is the only reliable method for identifying individuals with blood lead concentrations below 25 micrograms per deciliter.

Persons seeking blood lead or erythrocyte protoporphyrin analyses should determine that the laboratory employs techniques and procedures acceptable for the purpose for which the analyses are sought. Laboratories offering blood lead analysis only are designated with the letter "L" following the name of the laboratory. Those offering erythrocyte protoporphyrin analysis only are designated with the letter "P." Laboratories offering both services are designated with the letters "LP."

Blood lead analyses performed for occupational safety and health purposes must be conducted by a laboratory which also meets the requirements of the Occupational Safety and Health Administration of the United States Department of Labor as specified in 29 CFR 1910.1025(j)(2)(iii).

The list of approved laboratories will be reviewed semiannually and if there are any changes to the list, a notice to that effect will be published in the *Pennsylvania Bulletin* at that time.

The Department's blood lead proficiency testing program is approved by the United States Department of Health and Human Services in accordance with the requirements contained in the Clinical Laboratory Improvement Amendments of 1988 (42 CFR 493.901 and 493.937) which are administered by the Health Care Financing Administration. Participation in these programs may therefore be used to demonstrate acceptable performance for approval purposes under both Federal and Commonwealth statutes.

Questions regarding this list should be directed to Dr. M. Jeffery Shoemaker, Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464, ext. 3273.

DEPARTMENT OF PUBLIC WELFARE

Ongoing List of Behavioral Health Managed Care Organizations

The Department of Public Welfare's (Department) is maintaining an ongoing list of qualified behavioral health managed care organizations (BH-MCO) as potential contractors for the HealthChoices Behavioral Health Program (HCBHP) and requesting new submissions for consideration. The development of this list was introduced at 31 Pa.B. 888 (February 10, 2001) as the first step in a two-step process for obtaining a behavioral health contractor, should the need arise. HCBHP is a mandatory managed care program for Medicaid recipients in this Commonwealth. Additional information about HCBHP is available at the Department's website www.dpw.state.pa.us/omap/dpwomap.asp

The list of qualified BH-MCOs would be utilized in the following circumstances:

* Contract negotiations with a potential contractor selected through a Request for Proposal (RFP) process fail;

* A potential contractor selected through a RFP process fails the Readiness Review process; or

* An existing contractor terminates the contract or is terminated by the Department.

As stated in the previous announcement, the list of qualified BH-MCOs will be opened periodically for new submissions. New submissions are being requested from MCOs not currently included on the list. MCOs selected for the list of qualified bidders will remain active on the list for 2 years. After 2 years they will be required to resubmit information.

The following is a list of requirements necessary to qualify as a potential HCBHP contractor:

* One year experience with a State behavioral health Medicaid program.

* Not currently under suspension or debarment by the Commonwealth or any other state or Federal government.

* Licensed by the Departments of Health and Insurance of the Commonwealth.

* Management Information System (MIS) experience in processing UB 92 and HCFA 1500 forms.

* MIS capacity to produce person-level encounter data in compliance with the HCBHP requirements.

To apply as a potential HCBHP contractor, submit a letter of interest on official corporate letterhead by September 28, 2001, to Karen Rosenthal, Office of Mental Health and Substance Abuse Services, Room 236, Beechmont Building, P. O. Box 2675, Harrisburg, PA 17105. Letters may be faxed to (717) 772-7964.

Submit the following information to the Department of Public Welfare, Division of Procurement, P. O. Box 2675, Room 106, Health and Welfare Building, Commonwealth and Forster St., Harrisburg, PA 17105-2675 by 2 p.m. October 26, 2001.

List of Deliverables:

1. Describe experience in providing services to Medicaid recipients including:

* Type of behavioral health (mental health and drug and alcohol) services covered.

* Description of categories of aid/population covered.

* Number of years experience with Medicaid programs.

2. Provide a report on the number of claims processed (for Medicaid population) in the most recent 6-month period, including timeliness of processing clean claims and the number of claims paid/rejected.

3. Provide a flow chart of the MIS.

4. Provide a file layout/specification of a person-level encounter report.

5. Provide a copy of current Commonwealth license from the Departments of Health and Insurance.

6. Provide a copy of the most recent audited, annual filing with a state insurance department.

7. Provide a copy of the most recent annual audited company financial statement.

8. Outline a plan to start up or expand (if currently operating in this Commonwealth) operations in this Commonwealth.

9. Provide the name, address and phone number of three references familiar with the MCOs operations (one must provide reference from a State Medicaid program).

Department staff will verify the information submitted by the MCOs. As part of the verification process, the Department may conduct an onsite visit. Each MCO will be notified of its qualification status.

The second step of the process is outlined in the event that the list is utilized to obtain a contractor. The Department will:

- * Contact the vendors on the list and verify their continued interest in obtaining a HCBHP contract.
- * Inform the vendors of the county or counties requiring a BH-MCO contractor.
- * Release a procurement document that contains the requirements for the HCBHP to the interested vendors on the list along with instructions on how to submit a bid.
- * Evaluate all responses to the procurement document and select a contractor.

The previous two-step process will not replace the RFP process to obtain a HCBHP contract in the remainder of the State. The procurement process for the Northeast, Northwest, Southwest Expansion and the Central zones will follow the same procedure as followed in the Southeast, Southwest and Lehigh/Capital zones, which required a response to a RFP.

Any questions may be directed to Raymond Klabe, Office of Mental Health and Substance Abuse Services, Room 247, Beechmont Building, P. O. Box 2675, Harrisburg, PA 17105, (717) 772-7984, fax: (717) 772- 7964.

Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TDD Users) or (800) 654-5988 (Voice Users). Persons who require an alternate format should contact Thomas Vracarich, Office of Legal Counsel, (717) 783-2209.

Approved Speed-Timing Devices and Appointment of Maintenance and Calibration Stations

[Addendum]

The Department of Transportation, Bureau of Motor Vehicles, under the authority of Section 3368 of the Vehicle Code (75 Pa. C.S. § 3368), published at 31 Pa.B. 706 on February 3, 2001, a notice of speed timing devices and maintenance and calibration stations approved for use until the next comprehensive list is published and subject to interim amendment.

The notice requires additional clarification. The list of electronic speed-timing devices approved, for use only by members of the State Police, included devices identified as KR-10 and KR-10SP Stationary Radar manufactured by Kustom Signals, Incorporated, 9325 Pflumm, Lenexa Kansas 66214. Prior to July 30, 1990, KR-10 and KR-10SP Stationary Radar were manufactured under the corporate name of Kustom Electronics, Incorporated, 8320 Nieman Road, Lenexa, Kansas 66214, and were approved speed-timing devices.

Since the devices currently in use may indicate either of these manufacturer names on the device housing, dependent on the device's date of manufacture, the Department includes both manufacturer names in the notice for the purpose of clarity.

By the authority contained in 75 Pa.C.S. § 3368(c)(2), the Department hereby gives notice of the addition of the following speed-timing devices to the list of approved electronic speed timing devices (radar) when used in the stationary mode only:

(1) KR-10, Stationary Radar (identified on the housing as KR-10). Manufactured by Kustom Electronics, Incorporated, 8320 Nieman Road, Lenexa, Kansas 66214.

(2) KR-10SP, Stationary Radar (identified on the housing as KR-10SP). Manufactured by Kustom Electronics, Incorporated, 8320 Nieman Road, Lenexa, Kansas 66214.

Other approved speed-timing devices and appointment of maintenance and calibration stations appear at 31 Pa.B. 706 (February 3, 2001).

Comments, suggestions or questions may be directed to Peter Gertz, Manager, Administrative and Technical Support Section, Vehicle Inspection Division, Bureau of Motor Vehicles, Riverfront Office Center, 1101 South Front Street, Harrisburg, PA 17104, or by telephoning (717) 783-5842.

Disadvantaged Business Enterprise Participation in FAA Funded Contracts

Under the authority contained in the Transportation Act for the 21st Century, act of June 9, 1998, Pub. L. No. 105-178, 112 Stat. 113 (23 U.S.C.A. § 101), and in keeping with the requirements of Part 26 of Title 49 of the *Code of Federal Regulations*, the Pennsylvania Department of Transportation (Department) provides public notice of its revised goal for participation by Disadvantaged Business Enterprises (DBEs) in its Federally assisted contracts.

Pending receipt of public comments, the Department's revised goal is a work in progress. However, the Department proposes an overall goal of 9.39% for DBE participation in Department contracts funded in whole or in part with Federal moneys.

As a recipient of Federal funds from the United States Department of Transportation (US DOT) through its agencies, including the Federal Aviation Administration, the Department must comply with the goal setting provisions of the new US DOT DBE regulation, set forth in 49 CFR Part 26, effective March 4, 1999. The Department is mandated to submit a goal and methodology for Federally assisted contracts in accordance with the provisions of 49 CFR Sections 26.45 and 26.51. The goal and methodology must be submitted to the Federal Highway Administration by August 1, 2001. An important part of this process is providing notice to the public concerning the goal and methodology used to arrive at the final goal and affording the public the opportunity to provide comments on the goal proposal.

To comply with the goal setting provisions of the new DBE regulation, the Department employed the two-step process outlined in 49 CFR 26.45. Under step one, PENNDOT baseline goal using the goals of sub-recipient airports meeting the \$250,000 threshold. U. S. DOT regulations allow recipients to "use the goal of another DOT recipient" (49 CFR 26.45 c (4)) to establish a step-1 baseline goal. The first step in identifying qualifying recipients was to determine which recipients had received block grants of \$250,000 or more for in Airport Improvement Grants. However, only four subrecipient airports had FAA approved goals. Given this, the Department created "working goals" for the other airports for the purpose of computing a Department-wide baseline goal.

The goals for the other airports were created by averaging the approved goals of airports within a 100-mile radius of the subrecipient. When these goals are weighted according to the amount of Federal moneys they receive, they yield the step-1 baseline goal.

Under Step-2 of the goal setting process, the Department examined all relevant evidence in its jurisdiction to determine what adjustments, up or down, were needed to arrive at the overall goal. Step 2 necessarily took into account other conditions or variables impacting DBEs in the Commonwealth. As part of the adjustment phase, the Department gave due consideration to the specific types of work being contracted under the various AIG block grants.

Consistent with the public participation requirement for this process, the Department is making the proposed revised goal and methodology available for inspection and review for 45 days from the date of this notice. The Department considers the overall goal and methodology a work in progress pending input from the public. To review the DBE goal documents, contact any of the following locations:

Disadvantaged Business Enterprise Participation in FTA Funded Contracts

Under the authority contained in the Transportation Act for the 21st Century, Act of June 9, 1998, Pub. L. No 105-178, 112 Stat. 113 (23 U.S.C. § 101), and in keeping with the requirements of Part 26 of Title 49 of the Code of Federal Regulations, the Pennsylvania Department of Transportation (Department) provides public notice of its revised goal for participation by Disadvantaged Business Enterprises (DBEs) in its Federally assisted contracts.

Pending receipt of public comments, the Department's revised goal is a work in progress. However, the Department proposes an overall goal of 4.63 percent for DBE participation in Department contracts funded in whole or in part with Federal monies.

As a recipient of Federal funds from the United States Department of Transportation (US DOT) through its agencies, including the Federal Transit Administration, the Department must comply with the goal setting provisions of the new US DOT DBE regulation, set forth in 49 CFR Part 26, effective March 4, 1999. The Department is mandated to submit a goal and methodology for Federally assisted contracts in accordance with the provisions of 49 CFR Sections 26.45 and 26.51. The goal and methodology must be submitted to the Federal Highway Administration by August 1, 2001. An important part of this process is providing notice to the public concerning the goal and methodology used to arrive at the final goal and affording the public the opportunity to provide comments on the goal proposal.

To comply with the goal setting provisions of the new DBE regulation, the Department employed the two-step process outlined in 49 CFR Section 26.45. Under step one, PENNDOT created a baseline goal using the FTA approved goals of transit authorities throughout the Commonwealth. U.S. DOT regulations allow recipients to "use the goal of another DOT recipient" (49 CFR § 26.45 c (4)) to establish a step-1 baseline goal. The FTA-approved goals were averaged to produce PENNDOT's baseline goal.

Under Step-2 of the goal setting process, the Department examined all relevant evidence in its jurisdiction to determine what adjustments, up or down, were needed to arrive at the overall goal. Step 2 necessarily took into account other conditions or variables impacting DBEs in the Commonwealth. As part of the adjustment phase, the Department gave due consideration to the geographical location of the predominantly rural PENNDOT FTA sub-recipients.

Consistent with the public participation requirement for this process, the Department is making the proposed revised goal and methodology available for inspection and review for forty-five days from the date of this notice. The Department considers the overall goal and methodology a work in progress pending input from the public. To review the DBE goal documents, contact any of the following locations:

Finding Clarion County

Pursuant to the provisions of 71 P. S. Section 2002(b), The Secretary of Transportation makes the following written finding:

The Federal Highway Administration, the Pennsylvania Department of Transportation and Clarion County are planning the construction of a new bridge to carry Bigley Road (T-576/T-573) over Toby Creek in Paint and Highland Townships, Clarion County. The previous bridge was destroyed during the July 1996 flood.

The project is located in State Game Lands No. 72 and will require the acquisition of right-of-way from State Game Lands No. 72, which is a Section 2002/Section 4(f) resource. It has been determined that there is no prudent and feasible alternative to the use of the resource and that necessary planning has been incorporated into the project to minimize harm to the resource.

Mitigation measures will be taken to minimize harm as stipulated in the Categorical Exclusion Evaluation (CEE)/Programmatic Section 4(f) Evaluation. Mitigation measures include the following:

- Implementation of an approved Erosion and Sedimentation Control Plan.
- Fill slopes of 1:1.5 (1.5:1) for the roadway embankments on the east and west approaches.
- Reduced total length of roadway approach improvements.
- Payment of fair market value of land acquired through implementation of the Uniform Relocation Assistance and Real Property Acquisitions Policies Act of 1970.
- Transfer abandoned right-of-way no longer needed for the proposed bridge and approaches back to the Pennsylvania Game Commission (PGC).
- Regrade and reseed all disturbed and abandoned bridge areas, including temporary construction easements, under the guidance of the PGC.
- Stockpile any tree eight (8) inches or greater in diameter in an area(s) designated by the PGC for timber sale.

The environmental, economic, social, and other effects of the proposed project as enumerated in Section 2002 of the Administrative Code, have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize such effects.

Secretary

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(d) and (g) of the Regulatory Review Act (71 P.S. § 745.5(d) and (g)) provide that the designated standing committees may issue comments within 20 days of the close of the public comment period, and the Independent Regulatory Review Commission (Commission) may issue comments within 10 days of the close of the committees' comment period. The Commission's Comments are based upon the criteria contained in subsection 5.1(h) and (i) of the Regulatory Review Act (71 P.S. § 745.5a(h) and (i)).

The Commission issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted by the date indicated.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Issued</i>	<i>Final-form Submission Deadline</i>
14-469	Department of Public Welfare Protective Services	08/02/01	07/02/03

(31 Pa.B. 2799 (June 2, 2001))

Department of Public Welfare Regulation No. 14-469 Protective Services August 2, 2001

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P.S. § 745.5a(h) and (i)) which have not been met. The Department of Public Welfare (Department) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by July 2, 2003, the regulation will be deemed withdrawn.

1. Section 3490.4. Definitions.—Legislative intent; Reasonableness; Implementation procedures; Clarity.

This proposed regulation contains a new definition of "imminent risk." Several commentators, including the House Children and Youth Committee, and Senator Vincent Hughes, Minority Chair, Senate Public Health and Welfare Committee, expressed concerns with the possible breadth of the new definition.

What type of conduct does the Department intend to identify? How does the definition meet the legislative intent of the Child Protective Services Law (23 Pa.C.S.A. §§ 6301—6385)? Will the new definition increase the number of reports and the degree of intervention? The Department should address these concerns.

2. Law enforcement officials.—Consistency with statute; Clarity.

The terms "law enforcement officials" or "appropriate law enforcement officials" are used in sections 3490.34(f), 3490.105a(b)(1), 3490.106a(f) and 3490.191(b)(1). These provisions relate to the release of confidential reports.

By both existing regulations at 55 Pa. Code § 3490.91(a)(9) and (10) and the statute at 23 Pa.C.S.A. § 6340(9), the release of child abuse reports to law enforcement officials is limited to specific situations such as when the information is relevant to an investigation of an alleged crime. The regulation should clearly identify that the only law enforcement officials who may receive child abuse reports are those investigating an alleged crime.

3. Section 3490.60. Services available through the county agency.—Reasonableness; Consistency with other regulations; Clarity.

Subsection (b) Multidisciplinary team.

Subsection (b)(2) states that the county "shall make available a multidisciplinary team . . . to assist in the development of a family service plan for the child, *when appropriate*" [emphasis added]. However, an existing provision at section 3490.62 requires a county agency to arrange for a review by the multidisciplinary team (MDT) when the county receives a second report of child abuse involving the same victim.

Does "when appropriate" mean when there is a second report of child abuse involving the same victim? Alternatively, is the Department developing a new standard for the use of an MDT? The regulation should clearly explain when a county agency is to arrange for an MDT to assist in developing a family service plan. What benchmarks or indicators should be used in determining the need for an MDT?

Subsection (c) Investigative team.

This subsection replicates the words of the statute at 23 Pa.C.S.A. § 6365(c) by stating "[t]he county agency and the district attorney shall develop a protocol for the convening of investigative teams . . ." In addition, subsection (c)(3) states "[t]he district attorney shall convene an investigative team in accordance with the protocol."

Although the Department has the authority to require action by county agencies, it does not have authority over the district attorneys. Therefore, we question why the proposed regulation mandates action by the district attorneys. We suggest that the Department rephrase the proposed language in this section to require county agencies to work in conjunction with district attorneys. As an alternative, the subsection could reference the applicable subsection of the statute.

4. Section 3490.70. Expunction and amendment of report by the county agency.—Clarity.

Existing language in subsection (a) states that a county agency will expunge a record of child abuse when it receives notification from ChildLine. However, the proposed subsection (b) requires that a child abuse record be maintained when a family is accepted for services. It is our understanding that subsection (b) is an exception to subsection (a). This is unclear. Language should be added to subsection (a) to reference subsection (b) as an exception.

5. Section 3490.122. Responsibilities of an applicant, prospective operator or legal entity of a child care service.—Reasonableness; Clarity.

In subsection (d), the regulation states that a person may not be hired if he or she has been convicted of crime as specified at 23 Pa.C.S.A. § 6344, an equivalent crime under Federal law or an equivalent out-of-state crime "as determined by the Department." This language is vague. When and how will the Department make determinations

concerning the equivalency of crimes? The regulation should include the criteria for this determination.

Blue Cross of Northeastern Pennsylvania, Pennsylvania Blue Shield and First Priority Health; Age-Gender-Industry Rating; Rate Filing

To achieve consistency in rating across the community rated product lines of Blue Cross of Northeastern Penn-

sylvania, Pennsylvania Blue Shield and First Priority Health, on July 9, 2001, these plans submitted a filing to request the Insurance Department's approval to utilize a common Age-Gender-Industry Rating methodology for Traditional, PPO (that is, Access Care II) and FPH (that is, HMO and POS) community rated groups. For new business, the methodology defines a "Community Rated" group as an employer group that has two eligible contracts up to a maximum of 50 eligible contracts for enrollment in BCNEPA/PBS (including Traditional and PPO) and/or FPH. For existing business, a "Community Rated" group will be defined as an employer group that has a minimum of two enrolled contracts up to a maximum of 50 enrolled contracts in any combination of BCNEPA/PBS and FPH.

The proposed Age-Gender-Industry Rating methodology will be applicable to the following community rated products: Blue Cross Basic, Blue Shield Medical-Surgical, Major Medical (with/without Rx), Blue Cross Prescription Drug Rider, Access Care II Hospital, Access Care II Rx Rider, Access Care II Medical-Surgical, First Priority Health HMO and First Priority Health POS. The proposed methodology will not be applicable to Blue Shield Dental and Vision Riders at this time. In addition, because its pool of subscribers already reflects a narrowly defined age pool, the methodology will not be used to adjust rates for the 65 Special Community group product.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Default Order

Public Meeting held
July 26, 2001

Commissioners Present: Glen R. Thomas, Chairperson; Robert K. Bloom, Vice Chairperson; Aaron Wilson, Jr.; Terrance J. Fitzpatrick

Law Bureau Prosecutory Staff v. Echo Communications, Inc. (2000.0348); C-00015452

Default Order

By the Commission:

On October 30, 1998, the Commission entered an Order approving the application of Echo Communications, Inc. (Echo Communications) at A-310707 and A-310707,

F0002, for authority to offer telecommunications services as a reseller of interexchange (IXC) toll services and a competitive local exchange carrier (CLEC), respectively, within Pennsylvania. Although a tariff was filed on December 30, 1998, this tariff was insufficient and was not approved by the Commission. No certificate of public convenience was ever issued formalizing the company's provisional authority to compete as either an IXC reseller or as a CLEC because satisfactory initial tariffs regarding these services were never filed with the Commission.

On February 22, 2001, Law Bureau Prosecutory Staff mailed a letter to Echo Communications stating that its IXC reseller and CLEC authorities may be rescinded if the Commission did not receive initial tariffs within 60 days from the date of the letter.

Having not received tariffs from Echo Communications within the specified time, on May 22, 2001, Law Bureau Prosecutory Staff filed a formal complaint against Echo Communications. The complaint charged that Echo Communications violated Section 1302 of the Public Utility Code, 66 Pa.C.S. § 1302, relating to the filing of tariffs, by not filing initial tariffs within the prescribed time. Section 1302 provides in pertinent part:

Under such regulations as the commission may prescribe, every public utility shall file with the commission, within such time and in such form as the commission may designate, tariffs showing all rates established by it and collected or enforced, or to be collected or enforced, within the jurisdiction of the commission.

According to the post office receipt, service of the complaint was perfected on May 23, 2001. To date, more than 20 days later, no answer has been filed to the complaint and no tariffs have been filed. Moreover, our records show that Echo Communications has no reported CLEC or IXC customers at this time; *Therefore, It Is Ordered:*

1. That the allegations in Law Bureau Prosecutory Staff's complaint are deemed admitted and the complaint is thereby sustained.

2. That the Secretary serve a copy of this order upon all jurisdictional telecommunication carriers and also cause a copy of this order to be published in the *Pennsylvania Bulletin* with a 20-day comment period.

3. That Echo Communications immediately cease providing service to any new customers and, within 10 days of the entry date of this order, provide a written notice to any existing customers directing each to select an alternative carrier service provider within 30 days of the date of the notice. Such notice must include a statement of the Commission's intent to cancel Echo Communication's provisional authority absent adverse public comment within the 20-day time constraint established pursuant to Ordering Paragraph No. 2, above.

4. That absent the filing of adverse comment, 30 days after publication in the *Pennsylvania Bulletin* and without further action by the Commission, Echo Communications' provisional authority at A-310707 and A-310707, F0002, shall be cancelled, and the company's name stricken from all active-utility lists maintained by the Tariff and Annual Report Section of the Commission's

Bureau of Fixed Utility Services and the Assessment Section of the Bureau of Audits.

*Law Bureau Prosecutory Staff v. LEC-Link (2000.0348);
C-00015466*

Default Order

By the Commission:

On November 16, 1998, the Commission entered an Order approving the application of LEC-Link at A-310678 for authority to offer telecommunications services as a reseller of interexchange (IXC) toll services within Pennsylvania. However, no certificate of public convenience was ever issued formalizing the company's provisional authority to compete as an IXC reseller because the initial tariff regarding this service was never filed with the Commission.

On March 8, 2001, Law Bureau Prosecutory Staff mailed a letter to LEC-Link stating that its IXC reseller authority may be rescinded if the Commission did not receive an initial tariff within 60 days from the date of the letter.

Having not received a tariff from LEC-Link within the specified time, on May 22, 2001, Law Bureau Prosecutory Staff filed a complaint against LEC-Link. The Complaint charged that LEC-Link violated Section 1302 of the Public Utility Code, 66 Pa.C.S. § 1302, relating to the filing of tariffs, by not filing an initial tariff within the prescribed time. Section 1302 provides in pertinent part:

3. That LEC-Link immediately cease providing service to any new customers and, within 10 days of the entry date of this order, provide a written notice to any existing

customers directing each to select an alternative carrier service provider within 30 days of the date of the notice. Such notice must include a statement of the Commission's intent to cancel LEC-Link's provisional authority absent adverse public comment within the 20-day time constraint established pursuant to Ordering Paragraph No. 2, above.

4. That absent the filing of adverse comment, 30 days after publication in the *Pennsylvania Bulletin* and without further action by the Commission, LEC-Link's provisional authority at A-310678, shall be cancelled, and the company's name stricken from all active-utility lists maintained by the Tariff and Annual Report Section of the Commission's Bureau of Fixed Utility Services and the Assessment Section of the Bureau of Audits.

Complaint

Pennsylvania Public Utility Commission, Bureau of Transportation and Safety v. Vermack Enterprises, Inc;
Doc. No. A-00114954C01

Complaint

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania, empowered to regulate motor carriers and brokers within this Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Transportation and Safety and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. That Vermack Enterprises, Inc., respondent, maintains a principal place of business at 105 N. Keyser Avenue, Old Forge, PA 18518.

2. That all times relevant to this Complaint, respondent held a certificate of public convenience issued by this Commission at Application Docket No. A-00114954.

3. That pursuant to Section 512 of the Public Utility Code, 66 Pa.C.S. § 512, and 52 Pa. Code Chapter 32; respondent is required to maintain evidence of current insurance on file with this Commission.

4. That respondent has failed to maintain evidence of bodily injury and property damage liability insurance and cargo insurance, in violation of the Public Utility Code and regulations cited in Paragraph 3 of this complaint.

5. That as a result of failure to maintain evidence of current insurance on file with this Commission, the Bureau of Transportation and Safety Prosecutory Staff requests that the Secretary of the Commission revoke respondent's certificate of public convenience.

Wherefore, the Bureau of Transportation and Safety Prosecutory Staff hereby requests that the Secretary of the Commission revoke the certificate of public convenience held by Vermack Enterprises, Inc. at Docket No. A-00114954, for failure to maintain evidence of current insurance on file with the Commission.

POINT TRANSFER
27 WEST 735 SYCAMORE LANE
WEST CHICAGO IL 60185

In re: A-00114773C0001
A-00114773

Dear Respondent:

On October 10, 2000, the Bureau of Transportation and Safety instituted a complaint against Scott Hewitt, t/a Point Transfer, respondent, alleging failure to maintain proper evidence of current insurance in violation of the Public Utility Code. The respondent was duly notified that if acceptable evidence of insurance or an answer was not filed, the Bureau would request that the Secretary of the Commission revoke the certificate of public convenience issued to the respondent at A-00114773.

The complaint and notice were published in the December 9, 2000 issue of the *Pennsylvania Bulletin*; to date, more than twenty (20) days later, neither evidence of insurance nor an answer to the complaint has been filed. Therefore, the allegation in the complaint is deemed to be admitted.

The complaint at A-00114773C0001 is hereby sustained and the right(s) and the certificate of public convenience issued to the respondent at A-00114773 be and are hereby revoked; and the respondent has no other operating authority. The respondent is hereby notified to cease and desist from providing service previously authorized under the certificate of public convenience.

Should respondent wish to again provide Pennsylvania intrastate transportation, the filing of a new application and a \$100.00 fee is required. The application and fee shall be filed with the Secretary, Pennsylvania Public Utility Commission, P. O. Box 3265, Harrisburg, PA 17105-3265.

TRI-STATE ARMORED SERVICES, INC.
219 NORTH WHITE HORSE PIKE
HAMMONTON, NJ 08037

Re: Tri-State Armored Services, Inc.

Dear Respondent:

On March 13, 2001, the Bureau of Transportation and Safety instituted a Complaint against Tri-State Armored Services, Inc., respondent, alleging failure to pay outstanding assessments of \$4,388, a violation of the Public Utility Code at 66 Pa.C.S. § 510(c).

In accordance with 52 Pa. Code § 5.61, the Notice of the Complaint notified respondent that it must file an Answer to the Complaint within twenty (20) days of the

date of service. The Notice further specified that, if respondent failed to answer the Complaint within twenty (20) days, the Bureau of Transportation and Safety would request the Commission to cancel respondent's Certificate of Public Convenience, direct the Pennsylvania Department of Transportation to put an administrative hold on the respondent's motor vehicle registrations and notify the Pennsylvania Department of Revenue and respondents insurance carriers that respondent's Certificate is revoked.

The Complaint was published in the *Pennsylvania Bulletin*, Volume 31, No. 10, May 26, 2001. To date, more than twenty (20) days later, respondent has failed to file an Answer to the Complaint.

Therefore, the allegations in the Complaint are deemed to be admitted. The Complaint is hereby sustained and the Certificate of Public Convenience, issued to respondent at A-00115548 F.2 is hereby canceled.

Furthermore, respondent will NOT be able to register any new vehicles or renew any existing vehicle registrations until all past due assessments are paid, all past due fines are paid, all insurance filings are up to date, and it holds an active Certificate of Public Convenience issued by this Commission.

This Secretarial Cancellation Letter will also be served on:

The Department of Revenue
Bureau of Audit Programs
Sales and Use Taxes
Tenth Floor, Strawberry Square
Harrisburg, PA 17128-1061

and on respondent's insurance carriers:

Additionally, respondent is hereby notified to cease and desist from further violations of the Public Utility Code, 66 Pa.C.S. §§ 1.1 et seq. and the regulations of the Commission, 52 Pa. Code §§ 1.1 et seq. In view of the cancellation of respondent's Certificate of Public Convenience, it is specifically prohibited from rendering service as a common carrier by motor vehicle in intrastate commerce in the Commonwealth of Pennsylvania.

TURNPIKE COMMISSION

Retention of an Engineering Firm

Open End Contract Geotechnical-Engineering Services Systemwide

Reference No. 3-141

The Turnpike Commission (Commission) will retain an engineering firm for an Open-End Contract for various geotechnical-engineering services on various projects over the entire Turnpike system. This contract will be for a period of 2 years or \$500,000, whichever occurs first.

The firm may be required to perform, but will not be limited to, the following geotechnical engineering services: review geotechnical work performed by private engineering firms; perform geotechnical design for Commission designed projects; prepare scopes of work; investigate slope movements and other geologic hazards for future programming; install and/or monitor geotechnical instruments; provide geotechnical consultation during and after construction; provide drilling inspection in accordance with PennDOT Design Manual Part 4/Publication 293 qualifications and criteria; provide emergency response to geologic hazards; review and comment on Commission procedures and documents; investigate stability of retaining systems; develop specifications; prepare cost estimates; prepare, using DARWin software, and review pavement designs; respond to requests from construction and maintenance for various types of investigations; perform stability analyses of slopes and retaining structures; prepare erosion and sedimentation plans; perform scour analyses and develop remedial solutions; perform settlement analyses and develop remedial solutions; review contour grading plans; review value engineering proposals; prepare prints and information required for a value engineering review; prepare geotechnical engineering reports; attend field views and prepare minutes; prepare submissions for field view meetings; perform field reconnaissance; plot topography and cross sections; and attend coordination and status meetings with Commission personnel and prepare meeting minutes.

In most cases, the Commission will provide drilling and sampling services through separate open-end drilling contracts. However, the firm may be required to let separate contracts for drilling and will be required to have soil, rock and water testing capabilities including resilient modulus testing. The soil and rock testing must be performed at an AASHTO Materials Reference Laboratory accredited laboratory and the water testing must be performed at a Department of Environmental Resources certified laboratory. Some tests may be required to be performed under a Health and Safety Plan (HASP).

The firm may be required to perform two-dimensional resistivity surveys utilizing computerized multiple-electrode (more than four) systems. Data collected must be analyzed using finite element or finite difference two-dimensional modeling programs.

Environmental related work may include, but not be limited to, the following: perform geotechnical investigations under a HASP; develop HASPs for projects; develop remediation for acid mine drainage problems; review preliminary area reconnaissance, initial site assessments, preliminary site investigations, detailed site investigations and waste management plans.

The format and content of all documents, plans and specifications will be consistent with applicable State and Federal regulations and guidelines.

The geotechnical, geological and engineering services previously identified are the general work activities that can be expected under this Open-End Contract. A more specific and project-related scope of work will be outlined for each individual Work Order developed under this Open-End Contract.

The following factors will be considered by the Commission during the evaluation of the firms submitting Letters of Interest for these projects:

a. Specialized experience and technical competence of prime consultant and subconsultants. The Team must clearly demonstrate an ability to analyze available data to make decisions and develop documents to complete the project in a timely and cost effective manner.

b. Past record of performance with respect to cost control, work quality, ability to meet schedules and previous experience on similar projects. The consultant should identify similar projects that have been completed by that firm as the prime, the magnitude of the project and the client.

c. The specific experience and number of individuals who constitute the firm.

d. Workload of the prime consultant and subconsultants for all Pennsylvania Department of Transportation (Department) and Commission projects.

e. Other factors, if any, specific to the project.

Address these items and any necessary further details in a brief yet comprehensive manner in the letter of interest.

Questions and inquiries concerning this Project should be directed to Kenneth M. Heirendt, P.G., Turnpike Commission, Western Regional Office, at (724) 755-5187 or by e-mail to kheirendt@paturnpike.com. Direct contractual questions to George M. Hatalowich at (717) 986-8737, or by e-mail to ghatalow@paturnpike.com.

General Requirements and Information

Firms interested in providing the previous work and services are invited to submit a Letter of Interest with the required information. The Letters of Interest must include the following:

1. One page transmittal letter clearly identifying the project reference number, brief description of the project from the advertisement, the firm's Federal identification number, the firm's legal name, contact person or project manager, address of corporate office and project office. (If the firm has multiple offices, the location of the office performing the work must be identified.)

2. A three page expression of interest on the advertised project. Each firm should demonstrate their ability to perform the specific requirements indicated for each project and provide explanation that the firm has successfully completed similar type projects of the same magnitude.

3. An organization chart for the Project, identifying key personnel and any subconsultants and their roles. Any deviation from the subconsultant's listed in the letter of interest will require written approval from the Commission.

4. Tabulation or listing of workload for the prime consultant and all subconsultants for all Department and Commission projects. Do not submit the firms workload represented graphically.

5. An Annual Qualification Package similar to the one submitted to the Department for the current year that is in the same District as this project or one that is best suited for this project. A copy of the Annual Qualification Package printed directly from the Department's Engineering and Construction Management Systems website is acceptable.

The Annual Qualification Package copy should contain at a minimum the following information for the prime consultant and all subconsultants and attached to the back of the letter of interest (subs to follow primes):

- Standard Form (SF) 254—Architect-Engineer and Related Services Questionnaire in its entirety, not more than 1 year old as of the date of the advertisement.

- Resumes of key personnel expected to be involved in the project. (limit to one 8 1/2 x 11 page, one side, per person). Only resumes of key personnel should be included.

- Copy of the firm's registration to do business in this Commonwealth as provided by the Department of State for firms with out-of-state headquarters or corporations not incorporated in this Commonwealth.

- A copy of the Department's DBE/WBE Certification, if applicable.

If a Joint Venture responds to a project advertisement, the Commission will not accept separate letters of interest from joint venture constituents. A firm will not be permitted to submit a letter of interest on more than one joint venture for the same project reference number. Also, a firm that responds to a project as a prime may not be included as a designated subconsultant to another firm that responds to the same project advertisement. This does not preclude a firm from being set forth as a designated subconsultant to more than one prime consultant responding to the project advertisement.

Firms interested in performing the previous services are invited to submit a letter of interest and required information to George M. Hatalowich, Engineering Contract Manager, Turnpike Commission Administration Building, 700 South Eisenhower Boulevard, Middletown, PA 17057 (street address). Our mailing address is P. O. Box 67676, Harrisburg, PA 17106-7676.

The letter of interest and required information must be received by 12 p.m. Friday, August 31, 2001. Any letters of interest received after this date and time will be time-stamped and returned.

Based on an evaluation of acceptable letters of interest received in response to these solicitations, one firm will be selected for this project. The order of preference will be established for the purpose of negotiating an agreement with the highest ranked firm established by the Technical Review Committee and approved by the Selection Committee. Technical Proposals or Requests for Proposals will not be requested prior to selection.

The Commission reserves the right to reject all letters of interest, to cancel solicitation requested under this notice and/or to readvertise solicitation for the work and services.

BRADLEY L. MALLORY,
Chairperson

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:

The payment date specified in the contract.

30 days after the later of the receipt of a proper invoice or receipt of goods or services.

The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.

GET A STEP AHEAD IN COMPETING FOR A STATE CONTRACT!

The Treasury Department's Bureau of Contracts and Public Records can help you do business with state government agencies. Our efforts focus on guiding the business community through the maze of state government offices. The bureau is, by law, the central repository for all state contracts over \$5,000. Bureau personnel can supply descriptions of contracts, names of previous bidders, pricing breakdowns and other information to help you submit a successful bid on a contract. We will direct you to the appropriate person and agency looking for your product or service to get you "A Step Ahead." Services are free except the cost of photocopying contracts or dubbing a computer diskette with a list of current contracts on the database. A free brochure, "Frequently Asked Questions About State Contracts," explains how to take advantage of the bureau's services.

Those bids received before the deadline will be evaluated beginning the 1st business day of the month immediately following the deadline. The evaluation cycle will take an estimated 25 Commonwealth business days (subject to workload and holidays). Bids received after the deadline (but on or before the deadline for the next quarter) will be held and evaluated after the deadline for the next quarter. There will be no exceptions. To receive copy of bid package fax request to (717) 787-0725 or call our faxback system at (717) 705-6001.
