READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

[4 PA. CODE CH. 6]

[Executive Order 2002-1]

Commonwealth Internal Operations Emergency Preparedness Steering Committee

March 22, 2002

Whereas, the functions and services of the Commonwealth of Pennsylvania are essential to the well being of all of Pennsylvania's citizens; and

Whereas, the safety and well being of both the customers and employees of Commonwealth operations are of the highest priority; and

Whereas, the investment the Commonwealth has made in physical assets, resources, systems, and equipment is extensive and is the valued property of all Pennsylvanians; and

Whereas, there is a need to prepare for, prevent, rapidly respond to, and recover from emergency situations, including those stemming from natural causes and those resulting from individuals and/or groups whose intent is to cause harm; and

Whereas, there is a need to have an integrated approach for emergencies, including preparation, prevention, response, and recovery among all Commonwealth agencies; and

Whereas, all Commonwealth agencies must operate in a well coordinated and prepared approach to ensure the effective continuation of government operations and the safety of individuals.

Now, Therefore, I, Mark S. Schweiker, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws of the Commonwealth, do hereby direct all agencies under my jurisdiction to update, test, and be prepared to implement emergency preparedness plans for their internal operations. These plans are to include actions that each agency will take to ensure continuity of their essential operations in the event of a short or long-term emergency. The plans must be consistent with agency responsibilities outlined in the Commonwealth of Pennsylvania Emergency Operations Plan maintained by the Pennsylvania Emergency Management Agency.

The activities that agencies pursue in carrying out this Executive Order are to be consistent with the direction of the Governor's Task Force on Security outlined in Executive Order 2001-6. To provide leadership and guidance with emergency preparedness for internal government operations, as an appendage to the Governor's Task Force on Security, I do hereby establish the Commonwealth Internal Operations Emergency Preparedness Steering Committee whose primary objective is to oversee the development, coordination, and maintenance of agency internal emergency plans.

Governor

Fiscal Note: Gov. 02-1. No fiscal impact; (8) recommends adoption.

STATEMENTS OF POLICY

Title 55—PUBLIC WELFARE

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CH. 6000]

Incident Management

Purpose

The purpose of this subchapter is to establish processes that will protect the health and safety, enhance the dignity and protect the rights of individuals receiving supports and services.

Applications

This subchapter applies to:

(1) Individuals who receive mental retardation supports and services authorized by a County Mental Health/Mental Retardation Program or who receive supports and services from licensed mental retardation facilities.

(2) Individuals who receive funds from the mental retardation system, either directly or indirectly, to provide or secure supports or services for individuals authorized to receive services from a County Mental Retardation Program and employees of facilities licensed by the Department of Public Welfare's (Department) Office of Mental Retardation (OMR) are to report incidents as defined within this subchapter.

(3) The following chapters within 55 Pa. Code:

(a) Chapter 20 (relating to licensure or approval of facilities and agencies)

(b) Chapter 2380 (relating to adult training facilities)

(c) Chapter 2390 (relating to vocational facilities)

(d) Chapter 6400 (relating to community homes for individuals with mental retardation)

(e) Chapter 6500 (relating to family living homes)

(f) Chapter 6600 (relating to intermediate care facilities for persons with mental retardation)

Background

Providers of mental retardation services and supports, including private and State operated Intermediate Care Facilities for Persons with Mental Retardation, County Mental Health and Mental Retardation Programs and the OMR are partners in the effort to assure the health, safety and rights of persons receiving supports and services. Each reports certain incidents, collects information about those incidents and takes action based on those reports. The development and expansion of community-based supports and services and the increasing flexibility people enjoy to choose a wide variety of both traditional and nontraditional supports have increased the need to establish consistent Statewide processes for reporting, investigating, analyzing trends to prevent the risk of recurrence and taking corrective action in response to incidents.

Services and supports provided through the mental retardation service system are designed to enable each individual to determine the individual's own personal goals and to make decisions about the services and supports the individual receives. While respecting individual and family privacy concerns and the right to individual and family decision making in regard to ser-

vices and supports, the public services system must ensure that safeguards are in place to protect the health, safety and rights of anyone receiving these services and supports.

Discussion

The incident management processes described within this subchapter are more than standardized reporting processes. The primary goal of an incident management system is to assure that when an incident occurs the response will be adequate to protect the health, safety and rights of the individual. This subchapter communicates clear and specific methodologies to assure appropriate responses at the provider, county and State levels. The standardization of reporting, the time frames for reporting, investigation and follow-up are key to conducting individual, provider, countywide and Statewide analysis of incidents. The continuous review and analysis of reported incidents at the provider, county and State levels is aimed at uncovering trends and formulating action to prevent recurrence.

Reportable incidents are to be submitted electronically by means of a web-based system developed by the OMR. The methodology for reporting incidents in the web-based system is documented in a user manual that will be available prior to the effective date of the subchapter.

The incident management processes described in this subchapter expect that certified investigators conduct investigations at the provider, county and State levels. This will assure that all incidents, which require investigation, receive a thorough investigation that meets established standards. A training program and certification process will be established by the OMR.

This subchapter is also applicable to individuals or families who are their own providers.

In addition to the OMR reporting processes described in this statement of policy, reporting requirements of other laws, regulations and policies must also be followed.

Effective Date

The amendments are effective March 25, 2002.

Examples of mechanical restraints include anklets, wristlets, camisoles, helmets with fasteners, muffs and mitts with fasteners, poseys, waist straps, head straps, restraining sheets and similar devices. A device used to provide support for functional body position or proper balance and a device used for medical treatment, such as a wheelchair belt or helmet for prevention of injury during seizure activity are not considered mechanical restraints.

(iii) *Chemical.* A chemical restraint is a drug used to control acute, episodic behavior that restricts the movement or function of an individual. A drug ordered by a licensed physician as part of an ongoing treatment program is not a chemical restraint. A drug ordered by a licensed physician for a specific, time-limited stressful event or situation to assist the individual to control the individual's own behavior, is not a chemical restraint. A drug ordered by a licensed physician as pretreatment prior to medical or dental examination or treatment is not a chemical restraint.

(2) The documentation of restraint usage does not include:

(i) The use of a protective device as defined within applicable regulations.

(ii) The use of a safety or support device designed to assure proper body positioning or balance, and the like.

Examples would include the unauthorized removal of personal property, refusal of access to the telephone, privacy violations, breach of confidentiality, and the like. Restrictions that are imposed by court order or consistent with a waiver of licensing regulations are not included.

(o) *Suicide attempt.* The intentional and voluntary attempt to take one's own life is reportable. A suicide attempt is limited to the actual occurrence of an act and does not include suicidal threats.

§ 6000.466. Sequence of reporting.

Many real life occurrences may result in events that may be classified under multiple types of incidents. In an attempt to assist the point person in identifying an appropriate order for reporting incidents that may be classified under multiple categories, the following sequence is suggested. This sequence may not be appropriate in all situations but should be used as a guide in selecting the most appropriate category.

- (1) Death.
- (2) Suicide attempt.
- (3) Hospitalization or psychiatric hospitalization.
- (4) Emergency room visit.
- (5) Neglect, physical abuse, psychological abuse, sexual abuse or verbal abuse.

§ 6000.474. Families.

The Office of Mental Retardation (OMR) joins families in concern about the health and safety of their relatives who receive supports and services through its licensed and funded programs. This subchapter specifies the process for providers, counties and the OMR to report and investigate incidents that jeopardize the health and

safety of individuals receiving services. In addition to the requirements placed on those providing and overseeing services, the OMR also relies on families to report incidents that may affect the family member's health and safety.

(1) *Notification to families.* Family members of individuals who receive services outside the family home, have a right to receive timely, accurate and complete information regarding their relative's health and safety. Unless otherwise indicated by family members receiving services outside the family home:

(i) Family members shall be notified of the reportable incidents.

(ii) Family members shall be notified with 24 hours of occurrence or when they are discovered.

(iii) Family members shall be notified of the outcome of any investigation when it is complete.

(2) *Notification of incidents by families.*

(i) If a family member observes or suspects abuse, neglect or inappropriate conduct, whether services are provided out of the home or in the home, the family member should contact the county supports coordinator and may also contact OMR directly at 1-888-565-9435.

(ii) In the event of a death, the family is to notify the supports coordinator. The supports coordinator assumes the role of the point person as described in § 6000.467 (relating to reporting roles).

(D) When a family reports questionable conduct that may constitute abuse, an investigation shall be conducted by a certified investigator.

(E) If a provider staff is present when an incident occurs or becomes aware of abuse, the provider shall report the incident in Home and Community Based Services Information System (HCSIS). The provider is responsible for investigating the situations that directly involve its staff or volunteers.

(F) If provider staff observes abuse that does not involve the provider staff, the provider should report the situation to the supports coordinator who will assume the role of point person and file an incident report in HCSIS. The supports coordinator in conjunction with the county Incident Manager will determine if a certified investigator will investigate or a referral to Childline or law enforcement, or both, will be made. The county certified investigator will document in HCSIS either the summary of the investigator's investigation or that of Childline/law enforcement.

(ii) Families are encouraged to cooperate to assure fairness and accuracy of the report.

(4) *When the family is the provider of service.*

(i) When a family member is the provider, that is, is identified in the individual plan as the provider and is receiving remuneration, incidents needing investigation by the provider (see § 6000.465 (relating to reportable incidents)) shall be reported to the supports coordinator who will initiate an incident report.

(ii) If that the family provider is the target of an investigation, the family provider may request that the county assign a certified investigator, unrelated to the target, that is also a family member of a person with mental retardation.

(5) *When individuals and families purchase community services.* Families and individuals may purchase services from community organizations and individual people who are not licensed or otherwise regulated by the OMR, who have no contractual relationship with the county and who are therefore not covered by this subchapter.

(i) Entities such as YM/WCAs, community recreational programs, adult education programs and clubs are included.

(6) *Incidents involving children 18 and under.* Any act of abuse or neglect which constitutes criminal conduct shall be reported under 23 Pa.C.S. §§ 6301—6385 (relating to Child Protective Services Law), if applicable, and to local law enforcement. Families may contact their support coordinator for assistance in making the reports.

(7) *Reporting deaths.* Death of a family member can be an emotionally trying time and the sympathies of the people who are responsible to administer supports and services shall be extended to family members at those times. Family members shall notify the supports coordinator of the death of an individual receiving services as soon as possible.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard or who intend to remediate a site as a special industrial area, must file a Notice of

Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

NOTICE OF PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing

the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the Department Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act and regulations adopted under the Act.

Proposed Revision to the State Implementation Plan for Oxides of Nitrogen and VOCs

Public Hearing and Notice of Intent to Issue a Revised Air Quality Title V Operating Permit

41-00005: Textron Lycoming (652 Oliver Street, Williamsport, PA 17701) for modification and clarification of various reasonable available control technology (RACT) determinations made by the Department on April 21, 1999, for their facility in the City of Williamsport, **Lycoming County**.

In accordance with 25 Pa. Code §§ 129.91—129.95, the Department has made a preliminary determination to approve an amendment of a previously-submitted RACT plan and an amendment to the State Implementation Plan (SIP) for various air contamination sources at the Textron Lycoming facility.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amendment of the RACT approval for the facility which are intended to comply with current regulations.

The preliminary RACT determination, if finally approved, will result in the revision of Title V Operating Permit 41-00005 and will be submitted to the EPA as a revision to the Commonwealth's SIP.

The following is a summary of the preliminary RACT determination/revisions which the Department proposes to incorporate into Title V Operating Permit 41-00005, as a revision to that permit:

1. Air contamination source: 23 spray booth degreasers (P206). RACT revision: revise VOC emission limit of 15.7 tons in any 12 consecutive month period to 24.69 tons in any 12 consecutive month period.

2. Air contamination source: six small Cooper tanks (P203). RACT revision: revise VOC emission limit of 2.4 tons in any 12 consecutive month period which applies to the combination of these tanks and 5 large Cooper tanks (P202) to 36.54 tons in any 12 consecutive month period.

3. Air contamination source: 55 dip degreasing tanks (P204). RACT revision: revise VOC emission limit of 15.45 tons in any 12 consecutive month period to 4.8 tons in any 12 consecutive month period. Also revise source identification to reflect the existence of 76 dip degreasing tanks rather than 55.

4. Air contamination source: 21 corrosion protection tanks (P205). RACT revision: revise VOC emission limit of 10.95 tons in any 12 consecutive month period to 2.76 tons in any 12 consecutive month period. Also revise source identification to reflect the existence of 26 corrosion protection tanks rather than 21.

5. Air contamination source: three check valve tables (P250). RACT determination: VOC containing materials shall not be used.

6. Air contamination source: fluorescent dye penetrant booth (P233). RACT determination: VOC emissions not to exceed 3 pounds per hour, 15 pounds per day or 2.7 tons in any 12 consecutive month period.

There will additionally be a number of clarifications to air contamination source identifications, none of which involve a revision of a RACT-established emission limitation or requirement.

A public hearing will be held for the purpose of receiving comments on the proposed operating permit revision and the proposed Title V Operating Permit revision, RACT revision and SIP revision. The hearing will be held on June 5, 2002, at 1 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA. The public is invited to comment on the proposal. Persons interested in commenting are invited to appear at the public hearing.

Persons wishing to present testimony at the hearing should contact Daniel Spadoni at (570) 327-3659 at least 1 week in advance of the hearing to reserve a time to present testimony. Oral testimony will be limited to a maximum of 10 minutes per individual and two written

copies of the oral testimony are requested. Each organization is requested to designate one witness to present testimony on its behalf.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact Daniel Spadoni at (570) 327-3659 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

A copy of the revision request, the Department's analysis and other documents used in the evaluation of the request are available for public review during normal business hours at the Department of Environmental Protection, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling (570) 327-3693.

Those unable to attend the hearing, but wishing to comment or provide the Department with additional information, which they believe should be considered prior to the revision of Title V Operating Permit 41-00005, may submit the comments or information to the Department at the following address. Each written comment must contain the name, address and telephone number of the person submitting the comments or information as well as a concise statement regarding the relevancy of the comments or information provided.

Written comments or information should be directed to David W. Aldenderfer, Air Quality Environmental Program Manager, Department of Environmental Protection, 208 West Third Street, Suite 101, Williamsport, PA 17701. Comments or information must be received by the Department by no later than June 20, 2002, to be considered.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments or objections or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Income Limits for the Categorically Needy Non-money Payment Medicaid Program

The Department of Public Welfare (Department) increased the income limits codified in 55 Pa. Code § 181.1(f)(1), (2) and (4) (relating to general policy on MA income common to all categories of MA) effective January 1, 2002.

The regulations in 55 Pa. Code § 181.1(f)(1), (2) and (4) establish that the income limits for the Categorically Needy Nonmoney Payment Medicaid Program for aged, blind and disabled persons are based on the Supplemental Security Income (SSI) Federal benefit rate payable under Title XVI of the Social Security Act (42 U.S.C.A. §§ 1381—1383c). Effective January 1, 2002, the Federal benefit rate was increased due to the Federal cost-of-living increase.

As required under 55 Pa. DEPARTMENT OF REVENUE

[Correction]

Cigarette Tax Notice

(Editor's Note: An error appeared at 32 Pa.B. 1928 (April 13, 2002). The costs of the retailer (for sale to retail customers) was incorrect. The correct amounts appear in this notice.)

Under section 227-A of the Fiscal Code (72 P. S. § 227-A) relating to administration powers and duties, the Department of Revenue (Department) announces the lowest cost of the stamping agent, wholesaler and retailer, respectively, effective April 1, 2002, as follows:

	<i>Premium Brands (a.k.a. Kings and Regulars)</i>	<i>Generic Brands</i>
Cost of the Stamping Agent (for sales to wholesalers)	\$30.74	\$28.04
Cost of the Wholesaler (for sales to retailers)	\$31.97	\$29.17
Cost of the Retailer (for sales to retail customers)	\$33.89	\$30.92

The Department considers these costs as presumptive minimum costs. Cigarette stamping agents, wholesalers and retailers are prohibited from selling cigarettes at a price lower than their respective presumptive minimum costs. These costs are listed on a per carton basis, 10 packs of cigarettes per carton, 20 cigarettes per pack. To determine the presumptive minimum price per pack of cigarettes, one should divide the costs listed in this notice by 10 and round to the nearest hundredth of a percent. For example, the presumptive minimum price of a pack of cigarettes sold by a retailer to a consumer is \$3.39 for premium brands (\$33.89/10), \$3.10 for generic brands (\$30.92/10).

Cigarette dealers who either sell cigarettes under a different packaging setup (that is, eight packs per carton) or sell cigarettes that do not qualify as premium or generic brands (that is, subgeneric, foreign or specialty cigarettes) as described in this notice are prohibited from selling cigarettes at a price lower than the cost of the stamping agent, cost of the wholesaler or cost of the retailer, respectively, as further defined and explained in the Department's cigarette tax regulations, 61 Pa. Code Part I, Subpart B, Article III (relating to cigarette and beverage taxes).

Cigarette dealers wishing to prove a cost different from the Department's presumptive costs as stated in this notice must follow the procedures listed under 61 Pa. Code Chapter 76 (relating to unfair sales of cigarettes).

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(d) of the Regulatory Review Act (71 P.S. § 745.5(d)) provides that the designated standing Committees may issue comments within 20 days of the close of the public comment period, and the Independent Regulatory Review Commission (Commission) may issue comments within 10 days of the close of the Committees' comment period. The Commission's comments are based upon the criteria contained in section 5.1(h) and (i) of the Regulatory Review Act (71 P.S. § 745.5a(h) and (i)).

The Commission issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted by the date indicated.

Department of Agriculture Regulation No. 2-138 Agricultural Area Security Program; Agricultural Conservation Easement Purchase Program; Agricultural Security Area Program

April 11, 2002

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P.S. § 745.5a(h) and (i)) which have not been met. The Department of Agriculture (Department) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by March 11, 2004, the regulation will be deemed withdrawn.

1. Section 138e.16. Minimum criteria for application.—Reasonableness; Clarity.

Subsection (a)(2)(i) requires a farmland tract to be at least 50 acres in size. A similar requirement proposed in § 138e.255(b)(3)(i)(B) contains a lesser standard of at least 25 acres. The Department should either make both of these requirements 25 acres or explain why different standards are appropriate.

2. Section 138e.73. Survey requirements.—Fiscal impact; Reasonableness.

In the Preamble, the Department states this rule-making is not expected to impose appreciable costs on political subdivisions. However, commentators state that it will cost more to meet the new survey requirements and are concerned that these costs could be prohibitive. We have three questions.

First, what is the cost of a typical land survey that meets the proposed requirements in the regulation? How does this cost compare to the cost of land surveys the Department has accepted for properties that are already in the Agricultural Conservation Easement Program?

Second, what are the benefits of the proposed survey requirements?

Finally, do the benefits of the requirements outweigh the costs?

Subsection (a) General requirement.

This subsection requires a survey to “comply with the most current boundary survey measurement standards published by the Pennsylvania Society of Land Surveyors.” There are three concerns.

First, where are the Pennsylvania Society of Land Surveyors standards published?

Second, how can a person determine whether the standards they have are the most current standards?

Third, there may be a time delay between when a property survey was performed and the application for an easement. If the Pennsylvania Society of Land Surveyors changes their standards in that time period, would a survey still be acceptable if it met the Pennsylvania Society of Land Surveyors standards at the time the survey was conducted?

Subsection (c) Monumentation.

What qualifies as an “unmovable monument”?

Also, the last sentence of this subsection requires use of 5/8-inch “rebar.” To be consistent with the prior sentence, it should require use of 5/8-inch “reinforcing bar.”

3. Section 138e.91. Recommendation for purchase.—Fiscal impact; Reasonableness; Clarity.

Subsection (1)

Subsection (1) and paragraph (1)(x) require the filing of 25 copies of documents and specify the copies “shall be individually collated and three-hole punched, but not stapled.” This provision constitutes a significant paper burden, and in some instances may already be outdated. If the Department can accommodate electronic filing of documents, an alternative should be added to allow a county board to submit one copy of this document electronically.

Subsection (8)

This subsection references a “conservation plan agreement form as described in § 138e.222(a). . . .” Section 138e.222(a) describes an agreement, but does not mention a form. These provisions should be consistent with each other.

One commentator expressed concern that a fully-executed conservation plan agreement may not be available prior to State Board review. The Department should explain the need for a fully-executed conservation plan agreement at this point in the process.

4. Section 138e.93. Postsettlement recording and reporting procedures.—Reasonableness; Need; Clarity.

Subsection (b) Prompt recording of the deed of agricultural conservation easement and other documents and Subsection (c) Prompt recording of agricultural security area; reporting to the State Board.

The body of subsections (b) and (c) require actions “promptly.” These requirements are vague. The regulation should provide specific timeframes.

Also, what happens if a local government unit fails to record these documents?

Subsection (d) Reporting the agricultural conservation easement purchase to the State Board.

Paragraph (1)(iii) requires the county board to file a copy of the settlement sheet. One commentator stated a settlement sheet is not used for all settlements. Unless the Department can establish a need for a settlement sheet in all settlements, paragraph (1)(iii) should only require a copy of the settlement sheet if one was used in the settlement.

Paragraph (1)(iv) requires the county board to file “a marked-up title insurance commitment document. . . .” The county board is allowed 10 days after settlement to file this document. If a title insurance policy has been issued, the county board should be allowed to file this document in lieu of a marked-up title insurance commitment document.

5. Section 138e.102. Allocation of funds to counties.—Reasonableness; Fiscal impact.

This provision requires “the written certification of the county governing body that the specific amount of county matching funds . . . is available and intended for the purchase.” One commentator believes it would be more appropriate for this certification to come from a County Executive or Chief Fiscal Officer. If certification from a county official is sufficient, the regulation should allow it.

6. Section 138e.104. Installment sales.—Clarity.

It is not clear what provision paragraph (d)(5) describes. This provision should be reworded to clearly state the intent.

7. Section 138e.202. Inspections.—Reasonableness.

Existing subsection (a) requires the county board to complete the first inspection within 1 year from the date of the easement sale. The proposed language requires an inspection to be completed “within 1 year of the date of easement sale and in sufficient time to be included in the annual report.” For sales that occur later in a year, such as in December, there would only be a few months to complete the first inspection to meet the annual report deadline of March 1. Is it practical for a county board to complete an inspection in sufficient time to include the land in the annual report rather than allowing a full year?

8. Section 138l.1. Definitions.—Consistency with statute; Clarity.

General

This section defines three terms that are also defined in 3 P. S. § 903. The definitions of the following terms differ from the definitions contained in the statute: “eligible counties,” “planning commission” and “Secretary.” The Department should use the statutory definitions in the final-form regulation, or justify any changes.

Economic viability of farmland for agricultural production

Clarity would be improved if the last phrase of this definition that references the criteria in § 138e.16(a) was moved to the beginning of the definition.

Interim review

The phrase “interim review” is used in the definition of “interim review.” A term should not be used to define itself.

9. Section 138l.18. Public hearing by local government unit on ASA proposal.—Consistency with statute; Clarity.

Subsection (b)(ii)(A) states that “any person who proposed a modification to the ASA” should be provided a written hearing notice. In 3 P. S. § 906(c) of the statute, the term “landowner” is used. The term “person” should be changed to “landowner” in the regulation.

10. Section 138l.19. Decision of local government unit.—Consistency with statute.

Subsection (b) lists the factors that are to be considered for an ASA proposal or proposed modifications, as does 3 P. S. § 908(a) of the Act. Absent from subsection (b) of the regulation is a reference to existing utilities found in the Act. To be consistent with the statute, the regulation should include this provision regarding utilities.

Environmental Quality Board Regulation No. 7-374

Great Lakes Initiative

April 11, 2002

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)) which have not been met. The Environmental Quality Board must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by March 12, 2004, the regulation will be deemed withdrawn.

Section 93.8a. Toxic substances.—Consistency with other regulations; Clarity.

There are two incorrect citations.

First, the definition of “bioaccumulative chemicals of concern (BCCs)” in subsection (j)(1) refers to a list of BCCs in Federal regulations at 40 CFR Part 132 Table 6, Subpart A. However, the Federal definition of BCCs at 40 CFR 132.2 uses the term “section” rather than “subpart” in referring to “section A of Table 6” in 40 CFR Part 132. The final-form regulation should not use the word “subpart” in referencing Table 6 in 40 CFR Part 132.

A similar concern exists in subsection (j)(2). It refers to 40 CFR Part 132, Appendix F, Procedure 3, Subpart D. The subsection incorrectly uses the term “subpart” in referring to provisions of Appendix F, Procedure 3. The Federal regulations refer to the provisions of Procedure 3 in Appendix F as “sections.” To avoid confusion, the subsection in the final-form regulation should not use the word “subpart” in referencing 40 CFR Part 132, Appendix F, Procedure 3, Subpart D (relating to deriving TMDLs, WLAs, and LAs for Point and Nonpoint Sources: WLAs in the Absence of a TMDL; and Preliminary WLAs for Purposes of Determining the Need for WQBELs for OWGL).

Pennsylvania Public Utility Commission Regulation No. 57-225

Street Railway Transportation

April 11, 2002

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)) which have not been met. The Pennsylvania Public Utility Commission (PUC) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by March 11, 2004, the regulation will be deemed withdrawn.

General.—Consistency with existing regulations.

This proposed rulemaking from the PUC deletes existing Chapter 35, relating to street railway transportation. We have one concern with this proposed rulemaking.

There are three other sections of Title 52 that contain references to, or terminology from, the deleted Chapter. These include: 1) § 5.11(b), relating to applications generally, which references § 35.1; 2) § 29.73, relating to posting notice prohibiting conversation, which uses the term “street railway cars”; and 3) § 33.1, relating to definitions, which uses the term “street railway” in the definition of “carrier.”

These terms and reference to § 31.1 should be deleted in the final-form regulation, as they will become obsolete with the deletion of Chapter 35.

Limousine Carriers Operating Within Allegheny County

Public Meeting held
April 11, 2002

Commissioners Present: Glen R. Thomas, Chairperson; Robert K. Bloom, Vice Chairperson; Aaron Wilson, Jr., Concurring and Dissenting Statement follows; Terrance J. Fitzpatrick; Kim Pizzigrilli

Regulation of Limousine Carriers Operating within Allegheny County; Doc. No. M-00021609

Order

By the Commission:

On April 2, 2002, Act No. 23, HB 1402 was enacted. HB 1402 amended the Public Utility Code by providing, inter alia, for Commission oversight of limousine service in counties of the second class. HB 1402 provides that in order to operate limousine service in a county of the second class, a carrier must have a certificate of public convenience issued by this Commission. Prior to passage of HB 1402, the Commission lacked jurisdiction over limousine service provided within counties of the second class by virtue of the Second Class County Port Authority Act (55 P. S. §§ 551—563.5). See Also: *Port Authority of Allegheny County v. Pennsylvania Public Utility Commission*, 431 A.2d 243 (Pa. 1981); 52 Pa. Code § 41.13.

In light of the extension of Commission jurisdiction granted by HB 1402, all carriers providing service within Allegheny County must file applications for authority with the Commission.¹ Given the exigency of a carrier's business demands, the Commission will endeavor to process these applications as quickly and efficiently as possible. Toward this end, we will provide all applicants with Emergency Temporary Authority (ETA), since an immediate need for limousine service can be assumed. 52 Pa. Code § 3.384.² Carriers are required to submit an application³ for ETA immediately, but no later than 60 days from the date of entry of this Order. Given the unique circumstances involved, we will waive the filing fee for ETA applications filed within the 60-day period.

Carriers must file simultaneously with the ETA application acceptable evidence of insurance. Initially, the Commission will accept temporary proof of insurance, including an insurance binder, a copy of the declaration page from an insurance policy, or a copy of the Form 'E' certificate of insurance. 52 Pa. Code § 32.2. Within 60 days of the grant of ETA, a carrier will be required to file a Form "E" certificate of insurance. Failure by a carrier to

¹ We note that some limousine carriers currently hold authority from the Commission to serve all points in Pennsylvania. This authority was granted prior to enactment of HB 1402 and, by necessity, did not include authority to serve points within Allegheny County, since the Commission never had jurisdiction over those services.

² We will dispense with the requirement for supporting shipper statements, normally required to be filed with ETA applications. However, an applicant will need to include an applicant's statement as well as all other required documentation. 52 Pa. Code § 3.383(c).

³ Forms are available at our web site, <http://puc.paonline.com>, or from our Pittsburgh office upon request.

file a Form 'E' within 60 days of the grant of ETA will result in revocation of the ETA.

Following approval of an ETA application, a carrier will be required to file an application for Permanent Authority, with the required fee, within 30 days of date of approval.⁴ Filing of an application for Permanent Authority automatically extends a carrier's ETA.⁵ ETA will automatically be revoked for carriers who fail to file an application for Permanent Authority within 30-day period.

Following the submission of applications for Permanent Authority, the Commission will process these applications in the normal course, including publication. It will be incumbent upon applicants to comply with our evidentiary criteria outline in 52 Pa. Code § 41.14.

Therefore, It Is Ordered:

1. Any carrier providing limousine service within Allegheny County must file an application for ETA with the Commission within 60 days of the date of entry of this Order. The filing fee is hereby waived.

2. Any carrier filing an application for ETA must file acceptable temporary proof of insurance simultaneously with its application.

3. Within 60 days of the date of approval of the ETA by this Commission, a carrier must file an acceptable Form 'E' certificate of insurance with this Commission.

4. Failure to file the Form 'E' certificate of insurance within the 60 day period will be cause for cancellation of the ETA.

5. Applications for Permanent Authority must be filed within 30 days of the date of approval of an application for ETA. The filing of an application for Permanent Authority automatically extends the ETA. There is no requirement to file for Temporary Authority following the approval of the ETA. If a carrier fails to file an application for Permanent Authority within the 30 day period, the ETA will automatically terminate.

6. Any applications for ETA filed more than 60 days after the date of entry of this Order will be subject to the requirements of 52 Pa. Code Chapter 3, including payment of the applicable fees.

7. This Order shall be served on all currently certificated limousine carriers as well as on all noncertificated limousine carriers listed in the Pittsburgh/Allegheny County telephone directory. We direct the Bureau of Transportation and Safety to provide these lists to the Secretary's Bureau for service.

8. This Order shall be published in the *Pennsylvania Bulletin* and posted on the Commission's website.

JAMES J. MCNULTY,
Secretary

Concurring and Dissenting Statement of Commissioner Wilson

On April 2, 2002, the General Assembly passed a new law that now regulates limousine service in counties of the second class (Allegheny County). Nine days later, the Commission issues this expedited order implementing that legislation because, in part, the law was effective on April 2, 2002.

⁴ We waive any conflicting filing requirements. 52 Pa. Code § 3.383.

⁵ Our regulations envision filing an application for Temporary Authority in order to extend ETA. 52 Pa. Code § 3.383(c). We are waiving this requirement and permitting extension of ETA by the timely filing of an application for Permanent Authority.

I generally support issuance of the Implementation Order. However, I dissent from the proposal to waive the \$100 filing fee for Applicants seeking Emergency Temporary Authority (ETA) in Allegheny County. I do so for several reasons.

First, the Commission's resources are already constrained by multiple revocation, suspension, and reinstatement cases in which the Commission does not recover any application fee. Second, this exemption applies only to ETA Applicants in Allegheny County and not to all applicants seeking ETA authority anywhere in the Commonwealth. This denial of equal protection is unreasonable and cannot be justified by any express language or exigent circumstances in the law. Third, the waiver imposes unequal regulatory costs and may result in unreasonable discrimination in rates and services in violation of sections 1304 and 1502 of the Public Utility Code. Finally, the application fee is not so burdensome as to constitute a regulatory barrier to competition nor is there evidence that the economic vitality of transportation services in Allegheny County is jeopardized by a \$100 filing fee.

I also have one other concern. Although we have no exact number on the pool of potential applications, the Implementation Order does not inform any Applicant of their right to formally appeal any decision of our Staff directly to the Commissioners under 52 Pa. Code § 5.44 or our regulations. By advising the regulated community of their appeal option, we minimize the potential for uneven or arbitrary decisions given the press of time.
