READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE COURTS

Title 231—RULES OF CIVIL PROCEDURE

PART III. FAMILY COURT RULES

[231 PA. CODE PART III]

Recommendation 55; Proposed Amendments to the Rules Relating to Domestic Relations Matters

The Domestic Relations Procedural Rules Committee proposes the following new rules governing family law matters. The Committee solicits comments and suggestions from all interested persons prior to submission of these proposed rules to the Supreme Court of Pennsylvania.

Written comments relating to the proposed rules must be received no later than Friday, April 19, 2002 and must be directed to:

Patricia A. Miles, Esquire
Counsel, Domestic Relations Procedural Rules Committee
5035 Ritter Road, Suite 700
Mechanicsburg, Pennsylvania 17055
Fax (717) 795-2116
E-mail patricia.miles@supreme.court.state.pa.us

The introductory comments which precede the proposed rules will not constitute part of the rules and will not officially be adopted or promulgated by the Supreme Court.

Recommendation 55 Family Court Rules

Introduction

In late 2000, the Domestic Relations Procedural Rules Committee of the Pennsylvania Supreme Court first published, as Recommendation 55, a proposed new set of rules governing family law matters. Extensive comments were submitted and all were reviewed and considered by the committee. In addition, committee members met with members of the judiciary, family law practitioners, domestic relations personnel and others to hear their concerns about the proposed rules as published. As a result of the comments and suggestions received, Recommendation 55 has been revised substantially. Because of the revisions and because of the widespread interest in these family court rules, the committee is publishing the revised recommendation for further comment.

The committee's goals remain unchanged—to make it easier for the public to gain access to the family court system and to assure that family matters are concluded fairly and expeditiously. However, in order to address the major concerns expressed in the comments to the first draft, in particular the issues of cost, personnel and space, the case management requirement has been removed from the current proposal. In addition, because the Supreme Court of Pennsylvania has not mandated continuing legal education for the judiciary, the proposal to require judges presiding over family court matters to obtain certain related instruction also has been withdrawn. Nevertheless, the committee encourages judges who preside over family court matters to voluntarily avail themselves of programs in the substantive and procedural aspects of the law, as well as family and child dynamics, domestic violence and other related topics.

There also are two new provisions in this revised version of Recommendation 55. First, there is the requirement of unified docketing. Several judicial districts already assign the same primary case number to different aspects of a family law case, such as support and equitable distribution, to facilitate consistency and efficiency of operation. Second, the proposed rules allow the domestic relations sections, which often are the parties' first point of contact with the judicial system in a family matter, to facilitate the entry of agreed-upon custody orders.

Finally, it remains the committee's plan to recommend that the Supreme Court establish a set of Family Court Rules separate from the Pennsylvania Rules of Civil Procedure. The Pa.R.C.P. 1900 series originally set aside for domestic relations matters is insufficient to contain all of the rules for protection from abuse, custody, support, divorce and paternity. If a separate set of rules is established, eventually all of the rules now in the 1900 series of the Pa. Rules of Civil Procedure will be rearranged, renumbered and relocated to the Pennsylvania Family Court Rules.

TITLE 231—RULES OF CIVIL PROCEDURE

PART III. FAMILY COURT RULES

GENERAL RULES

Rule 101. Actions Governed by Family Court Rules.

(a) *Divorce, Annulment, Dissolution of Marriage.*

(1) Equitable Distribution.

(2) Alimony/Alimony Pendente Lite.

(3) Counsel Fees, Costs and Expenses.

(4) Special Relief.

(b) *Child Custody.*

(1) Legal Custody.

(2) Physical Custody.

(3) Partial Custody/Visitation.

(c) *Support.*

(1) Child Support.

(2) Spousal Support.

(3) Modification and Enforcement.

(d) *Paternity.*

(e) *Protection From Abuse.*

Rule 102. Commencement of Action.

(a) *Centralized Filing.* Each judicial district shall establish a Family Court Filing Unit either as a separate and distinct office of the district's family court division, or as a separate and distinct unit of the prothonotary's or court administrator's office. Actions for divorce, annulment, child custody (except as set forth in subdivision (b) below), paternity and protection from abuse shall be commenced by filing a pleading in the Family Court Filing Unit. Child support, spousal support and alimony pendente lite actions shall be initiated at the Domestic Relations Section.

(b) *Custody Agreements.* If, at a support proceeding, the parties have agreed upon a schedule of custody, partial custody or visitation regarding their child(ren) and it appears that the entry of a custody order incorporating

the parties' agreement will facilitate the payment and collection of child support, the conference officer, hearing officer or master may provide the parties with a form custody complaint and form custody stipulation, along with information as to where to file the completed documents and the filing fee.

(c) *Unified Docketing.* All actions under these Family Court Rules which involve identical parties shall be entered on the court's docket under the same primary case number. Additional letters or numbers may be added parenthetically to specify the type of action, judge assigned or other identifying information.

Rule 103. Consolidation of Family Court Matters.

(a) *General Rule.* To the extent it is practical and appropriate, two or more actions under these Family Court Rules involving the same parties and common questions of law and/or fact should be consolidated for hearing or trial.

(b) *Trial Continuity.* Whenever possible, trials before a judge or hearings before a master shall be scheduled to be heard on consecutive days. If not held on consecutive days, then the trial or hearing shall be concluded within ninety (90) days of the date of the commencement of the trial or hearing, unless a shorter time frame is required by statute or another procedural rule.

(c) *Prompt Decisions.*

(1) Except as provided in subdivision (2) below, in any matter brought under these Family Court Rules, a decision by a conference officer, master or judge shall be entered, filed and served upon counsel for the parties, or any party not represented by counsel, not later than fifteen (15) days after the conference, hearing or trial concludes, unless a shorter time frame is required by statute or another procedural rule.

(2) The time for entering and filing a decision may be extended if, within fifteen (15) days of the conclusion of the conference, hearing or trial, the court extends the date for such decision by order entered of record showing good cause for the extension. In no event shall an extension delay entry of the decision more than forty-five (45) days after the conclusion of the conference, hearing or trial.

Rule 104. Continuing Education for Family Court Personnel.

(a) *Program Development.* Courses of instruction that include, at a minimum, the following topics shall be developed or approved by the Administrative Office of Pennsylvania Courts (AOPC):

- (1) The substantive law and procedural aspects of the areas of law governed by these Family Court Rules;
- (2) Domestic violence;
- (3) Child development;
- (4) Family dynamics;
- (5) Addictions and treatments;
- (6) Asset valuation
- (7) Community resources.

(b) *Initial Training.* Within one (1) year of being assigned to cases governed by these Family Court Rules, each master, hearing officer, conciliator, mediator and other court personnel designated by the president or administrative judge of the judicial district shall successfully complete the coursework developed or approved by the AOPC.

(c) *Continuing Education.* Each master, hearing officer, conciliator, mediator and other court personnel designated by the president or administrative judge who is assigned to cases governed by these Family Court Rules shall successfully complete six (6) hours of continuing education developed or approved by the AOPC each calendar year after the calendar year in which the initial training was completed.

(d) *Compliance.* The AOPC shall monitor compliance with the educational requirements of this rule.

Title 25—LOCAL COURT RULES

DAUPHIN COUNTY

Promulgation of Local Rule 215; No. 1793 S 1989

Order

And Now, this 6th day of December, 2001, Dauphin County Local Rule of Civil Procedure 215 is promulgated as follows:

Rule 215. Preferences.

A trial list preference may be requested in all cases in which a jury previously has been impaneled and sworn, or which were listed and available for trial in the preceding civil trial session but were not reached. Such preference shall be presented in the form of an application for preference. The application must be filed with the Prothonotary at least three weeks prior to the first day of the trial session. Copies must be served upon all other counsel and the Court Administrator's Office. The Calendar Judge will determine the order of preference.

This rule shall be effective 30 days after publication in the *Pennsylvania Bulletin*.

DAUPHIN COUNTY

Promulgation of Local Rule 215.1; No. 1793 S 1989

Order

And Now, this 6th day of December, 2001, Dauphin County Local Rule of Civil Procedure 215.1 is amended as follows:

Rule 215.1. Jury Trials.

* * * * *

(2) ***Attachment—Listing a case for trial shall have the effect of attaching all counsel of record for the trial term specified. The attachment shall be effective as of the date of the filing of the certificate of readiness unless a prior scheduling order has been issued.***

The Dauphin County Court will defer to a scheduling/attachment order from another court of equal or higher jurisdiction so long as

- (a) The foreign order is earlier in time; and
- (b) The party with the scheduling conflict timely moves for a continuance and attaches a copy of the foreign order.

(3) *Objections and Motions for Continuance.*

(a) * * *

(b) Objections and motions for continuance submitted in accordance with Rule [215.1(2)(a)] 215.1(3)(a) will be heard by the Calendar Judge, as provided for in Rule 215.1(5) on the Friday of the third week prior to the trial session, or as otherwise scheduled by the Court.

[(3)] (4) *Compilation of Trial List.*

(a) * * *

(b) * * *

(c) [A trial list preference may be requested in all cases in which a jury previously has been impaneled and sworn, or which were listed and available for trial in the preceding civil trial session but were not reached. Such preference shall be presented in the form of an application for preference. The application must be filed with the Prothonotary at least three weeks prior to the first day of the trial session. Copies must be served upon all other counsel and the Court Administrator's Office. The Calendar Judge will determine the order of preference.

(d)] * * *

[(4)] (5) *Calendar Judge.*

* * * * *

These amendments shall be effective 30 days after publication in the *Pennsylvania Bulletin*.

President Judge

[Pa.B. Doc. No. 02-79. Filed for public inspection January 18, 2002, 9:00 a.m.]

DAUPHIN COUNTY

Promulgation of Local Rule 1901; No. 1793 S 1989

Order

And Now, this 6th day of December 2001, Dauphin County Local Rule of Judicial Administration 1901 is amended as follows:

Rule 1901. Termination of Inactive Civil Matters.

[A list shall be prepared for general call in January of each year of such civil matters as may be designated from time to time by the Court in which no steps or procedures have been taken for two years or more prior thereto. Notice of impending dismissal shall be given to counsel of record and to parties for whom no appearance has been entered at least thirty days prior to the call of said list as provided by the Pennsylvania Rules of Judicial Administration.

Unless written objection to dismissal is filed in such matter and a copy thereof served upon the Court Administrator at least five days prior to the call of the list, the case shall be stricken from the list and the Prothonotary shall enter an order as of course dismissing the matter with prejudice for failure to prosecute. In cases where objections to dismissal are filed and served, the Court may dismiss the matter if cause for continuance is not shown at the call of the list.]

1. On or about October 1st of each year, the Prothonotary shall prepare a list of all civil matters in which there has been no docket activity for the preceding two years. The list shall include the names and addresses of counsel of record and/or pro se litigants.

2. Upon receipt of the list, the Court Administrator shall prepare a Rule to Show Cause for signature by the Civil Calendar Judge. The rule shall contain substantially the following language:

RULE TO SHOW CAUSE

The Prothonotary of Dauphin County, having determined that no docket activity appears in the record of the above captioned matter for a period in excess of two years,

IT IS HEREBY ORDERED that a Rule is granted on all parties to show cause, if any they have, why the captioned action shall not be dismissed with prejudice.

This Rule is returnable within 45 days of the posting date. Any response or objection shall be in proper petition form and include:

- a. A brief procedural history of the action setting forth with particularity the party who initiated each procedural step.
- b. Specific reason(s) for failure to advance the case since the last docket entry, including any non-docket activity.
- c. A statement indicating whether opposing counsel or pro se litigant concurs in the objection to the termination.
- d. A specific and comprehensive proposal for moving the case to final resolution.
- e. Whether hearing or argument is requested on the objection.

NOTICE

Failure to file a timely response to this Rule in the manner prescribed will be cause for dismissal of this case with prejudice to any party asserting a claim for relief.

3. The Court Administrator shall make service of the Rule by regular mail to the last address of record of the parties or their counsel of record.

4. In any case where notice by mail cannot be given or where the Rule has been returned undelivered, the Court Administrator shall provide notice as set forth above, by publication in the manner provided by rule of court for publication of legal notices.

5. All objections to termination in which no hearing/argument is requested shall be considered on the pleadings and an appropriate order entered by the Civil Calendar Judge.

6. Any objection to termination in which hearing and/or argument is requested shall be heard at a time fixed by the Calendar Judge. An appropriate order disposing of the motion, which may include scheduling provisions and/or specific judicial assignment, shall follow.

7. In cases where no response or objection is filed, the Calendar Judge shall enter an order as of course dismissing the matter with prejudice for failure to prosecute.

COMMENT

Amended Rule 1901 is intended to provide a more comprehensive method for the termination of inactive civil matters. The amended rule more closely tracts the requirements of Pa.R.J.A. 1901 and eliminates the prior practice of a "call of the list."

This rule shall be effective 30 days after publication in the *Pennsylvania Bulletin*.

Promulgation of Local Rule 4019; No. 1793 S 1989

Order

And Now, this 10th day of December 2001, Dauphin County Local Rule of Civil Procedure 4019 is amended as follows:

Rule 4019. Discovery Disputes.

* * * * *

(4) Procedure for failure to provide discovery; Motion for Sanctions.

(a) If a party fails to respond timely to interrogatories or a request for production of documents or fails to appear in response to a notice of deposition, and no extension of time has been granted, the party issuing the discovery request may file a motion for sanctions.

(b) A written notice of intention to seek sanctions, specifically listing the sanctions sought, shall be sent to the defaulting party(ies) by certified mail, return receipt requested, at least thirty days before filing a motion for sanctions.

(c) If the requested discovery is received within said thirty-day notice period, no motion for sanctions shall be filed.

(d) A motion for sanctions shall state (1) the discovery requested and (2) proposed sanctions appropriate pursuant to Pa.R.Civ.P. 4019. A written certificate of service of the written notice of intention to seek sanctions under subparagraph (b) and a copy of the notice shall be attached. If attorneys' fees and expenses are sought, reasonable documentation of time devoted and expenses incurred shall be attached to the motion.

(e) The Calendar Judge shall conduct a hearing on the motion, even if the default that prompted the motion has been corrected before the hearing date.

This rule shall be effective 30 days after publication in the *Pennsylvania Bulletin*.

Rule WJ507 Retention of Court Reporter Notes; No. 3 of 2002

Administrative Order

And Now This 3rd day of January, 2002, *It Is Hereby Ordered* that Westmoreland County Rule of Judicial Administration WJ507 is rescinded, and new Rule WJ507 is adopted.

By the Court

CHARLES H. LOUGHRAN,
President Judge

Rule WJ507. Retention of Court Reporter Notes and Transcripts.

A. Raw Notes of Testimony

1. "Raw notes" are those on paper tapes and/or other media in the original state in which they existed when taken at the time of testimony.

2. Court reporters will transcribe notes of all Termination of Parental Rights and Adoption proceedings. The transcript and printed raw notes of testimony will be filed in the record, and retained.

3. The court reporter may destroy the raw notes 60 days after the date of filing of the transcript. The court reporter shall retain the notes until the court rules on any objections of the transcript.

4. In any case in which no transcript has been prepared, the raw notes shall be retained for seven years from the date of testimony.

5. Notwithstanding the provisions of this subsection, any party may petition the court for an order directing the retention of particular court reporter notes for a period of time beyond that required herein.

B. Transcripts

1. The original of all transcripts will be filed with the appropriate record keeper. With the exception of subsections 2 and 3, Transcripts filed with the Prothonotary, Clerk of the Orphans' Court, and Clerk of Courts are subject to the retention periods set forth in the *County Records Manual*.

2. Transcripts filed in juvenile matters may be destroyed when the subject reaches the age of 25, or 10 years after the last action in the case, whichever is later.

3. Transcripts for Divorce or Annulment cases may be destroyed 5 years after the Final Decree in Divorce or Annulment is entered.

C. Record Retention Disposal Log

Disposal of raw notes shall be accomplished as provided in Section 2.3 of the *Supreme Court's Record Retention and Disposition Schedule*. When completing Disposal Log Forms, the raw notes need not be listed on the Records Disposal Log by caption and case number, but may be listed merely by date of hearing.

Comment: The requirements of this Rule are derived from the *Supreme Court Record Retention and Disposition Schedule*.

NOTICES

DEPARTMENT OF AGRICULTURE

Temporary Order Designating Chronic Wasting Disease a Dangerous Transmissible Disease

The Department of Agriculture (Department) hereby designates Chronic Wasting Disease (CWD) a "dangerous transmissible disease," under authority of section 2322(d) of the Agriculture Code (code) (3 Pa.C.S. § 2322(d)). This designation will facilitate the Department's efforts to detect and contain CWD and will assist this Commonwealth's deer and elk industry in developing control programs for the disease.

CWD is a disease of deer, elk and other cervidae and is a member of the group of diseases known as transmissible spongiform encephalopathies (TSEs). Other more well known TSEs are scrapie and bovine spongiform encephalopathy (BSE) or "mad cow" disease. All are thought to be caused by a prion protein that has converted to an abnormal infectious prion protein. There is some evidence, in the case of BSE, that humans may become infected through consumption of meat products containing central nervous system tissues, thus there is a significant public health interest concerning all TSEs.

Recently, several western states instituted import regulations that require deer or elk entering those states be from herds that are participating in a surveillance program and that the state of origin have authority to take action in the event that CWD is diagnosed. To support our deer and elk industry and to keep these markets open, it will be necessary for the Department to assist in the development and oversight of a surveillance program

and to take action in the event that a case of CWD is diagnosed. The authority to do so will depend on the designation of CWD as a "dangerous transmissible" disease.

The Department has authority under the Domestic Animal Law provisions of the code (3 Pa.C.S. §§ 2301—2389) to regularly monitor the domestic animal population of this Commonwealth to determine the prevalence, incidence and location of transmissible diseases. The Department has authority under this act to declare a particular disease not contained in the original act to be a "dangerous transmissible" disease through issuance of a temporary order.

This order is a temporary order, as required under section 2322(d) of the code. This order shall take effect as of January 5, 2002, and shall remain in effect until no later than January 4, 2003. This Department may: (1) reissue this temporary order to extend the designation beyond January 4, 2003; (2) allow this temporary order to expire on January 4, 2003; (3) supplant this temporary order with a formal regulation designating CWD a "dangerous transmissible disease"; or (4) modify this temporary order.

Questions regarding this temporary order may be directed to John I. Enck, Jr. VMD, Director, Bureau of Animal Health and Diagnostic Services, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 783-6677.

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Proposed Exchange of Lands

The Department of Conservation and Natural Resources (Department), acting through the Bureau of Forestry (Bureau), and The Pennsylvania State University (Penn State) are proposing to negotiate an exchange of lands in Centre and Franklin Counties, PA.

The Bureau is proposing to acquire from Penn State approximately 55 acres of land in Ferguson Township, Centre County, along the northwesterly slope of Tussey Mountain. This property will become an addition for the Rothrock State Forest.

In return, the Bureau proposes to convey to Penn State approximately 28 acres of land in Mont Alto Borough and Quincy Township, Franklin County, adjoining Penn State's Mont Alto Campus.

As is the policy of the Department, the public is hereby notified of this exchange. A 30-day period for public inquiry and/or comment will be in effect commencing January 22, 2002, and ending February 20, 2002. Oral or written comments or questions concerning this proposed exchange may be addressed to Daniel A. Devlin, Chief, Resources Planning and Information Division, Bureau of Forestry, P. O. Box 8552, Harrisburg, PA 17105-8552; (717) 783-0389. These oral and/or written comments will become part of the official document used in the final decision process.

If, in the duration of the 30-day comment period, a significant amount of public concern develops, the Secretary of the Department may schedule a public informational meeting.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS

NPDES APPLICATIONS

PART I PERMITS

Under the Federal Clean Water Act and The Clean Streams Law, the following parties have applied for an NPDES permit or to renew their current permit to discharge controlled wastewaters into the waters of this Commonwealth or to conduct other activities required by the NPDES permit. For renewal applications listed in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements. For all new permit applications, renewal application with major changes or applications for permits not waived by EPA, the Department, based upon preliminary reviews, also made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications listed in Section II. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement, to the office noted before the application within 30 days from the date of this public notice. Comments received within this 30-day comment period will

be considered in the formulation of the final determinations regarding this application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant. Following the comment period, the Department's Water Management Program Manager will make a final determination regarding these applications. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The renewal application, including proposed effluent limitations and special conditions, is available on file. For new permit applications, information submitted with the applications is available on file. The information may be inspected and arrangements made for copying at the office indicated before the application.

Persons with a disability, who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information, should contact the Department through the Pennsylvania AT&T Relay service at (800) 654-5984.

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

PA#0246531, CAFO, **Hostetter Management Company**, 120 Lake Street, P.O. Box 526, Ephrata, PA 17522-0526. This proposed facility is located in Lurgan Township, **Franklin County**.

Description of Proposed Activity: The McClay's Mill farm comprises an existing 1200 head farrow-to-feeder sow with a total AEUs of 655.88. An estimated quantity of total annual manure production is 7541 tons with the liquid manure stored primarily in a single stage HDPE lined lagoon. Of the 3,568,703 gallons of liquid manure generated on the farm, 1,466,790 gallons is used on the farm and 2,101,913 gallons is exported from the farm to several area farmers.

The receiving stream, Paxton Run/Conodoquinet Creek, is in the State Water Plan watershed 7-Band is classified for: HQ-CWF.

The proposed effluent limits for the operation/activity include: except for the chronic or catastrophic rainfall events defined as over the 25 year/24 hour rain storms, the CAFO general permit is a nondischarge NPDES permit. Where applicable, compliance with 40 CFR Federal effluent limitation guidelines is required. The general permit requires no other numeric effluent limitations and compliance with Pennsylvania Nutrient Management Act and The Clean Stream Law constitutes compliance with the State narrative water quality standards.

PA#0246549, CAFO, **Hostetter Management Company**, 120 Lake Street, P.O. Box 526, Ephrata, PA 17522-0526. This proposed facility is located in Metal Township, **Franklin County**.

Description of Proposed Activity: The Willow Hill farm is an existing sow-nursery swine farm with a total AEUs of 753.2. An estimated quantity of total annual manure production is 8422 tons. This operation uses two separate facilities that are both attached to one HDPE lined manure storage structure. This structure holds approximately 1.5 million gallons of manure with adequate freeboard storage. A proposed expansion of the operation would add an additional gilt-grower and finisher to this operation. An additional 720 animals would be added to the farm. This expansion would utilize the existing HDPE liner. All 2,477,972 gallons of manure is exported from the farm.

The receiving stream, West Branch Conococheague Creek, is in the State Water Plan watershed 13-C and is classified for: CWF.

The proposed effluent limits for the operation/activity include: except for the chronic or catastrophic rainfall

events defined as over the 25 year/24 hour rain storms, the CAFO general permit is a nondischarge NPDES permit. Where applicable, compliance with 40 CFR Federal effluent limitation guidelines is required. The general permit requires no other numeric effluent limitations and compliance with Pennsylvania Nutrient Management Act and The Clean Stream Law constitutes compliance with the State narrative water quality standards.

PAG#123529, CAFO, **Jay Deiter Farm**, 2040 River Road, Bainbridge, PA 17502. This proposed facility is located in Conoy Township, **Lancaster County**.

Description of Proposed Activity: The Jay Deiter farm is an existing dairy and grain farm proposing to construct a new 3,600 wean to finish swine operation with a total AEUs of 588.8. Manure produced by the dairy operation is stored in a slurry store structure. Manure produced by the swine will be stored in a concrete manure storage facility located under the swine barn. Estimated quantity of total annual manure production is 8,958.2 tons. Manure will be utilized on crops produced by Jay Deiter with additional manure being exported to a neighboring farm.

The receiving stream, tributary to the Susquehanna River, is in the State Water Plan watershed 7-G and is classified for: WWF.

The proposed effluent limits for the operation/activity include: except for the chronic or catastrophic rainfall events defined as over the 25 year/24 hour rain storms, the CAFO general permit is a nondischarge NPDES permit. Where applicable, compliance with 40 CFR Federal effluent limitation guidelines is required. The general permit requires no other numeric effluent limitations and compliance with Pennsylvania Nutrient Management Act and The Clean Stream Law constitutes compliance with the State narrative water quality standards.

PAG#123530, CAFO, **Leon G. Burkholder**, 1440 Division Highway, Ephrata, PA 17522-8832. This proposed facility is located in Ephrata Township, **Lancaster County**.

Description of Proposed Activity: The Leon G. Burkholder Ephrata farm is an existing swine and steer operation with total AEUs of 340.7. The estimated quantity of total annual manure production is 4,090.3 tons from the 2200 head of swine and 125 head of steers. The manure from the swine is liquid and housed in an in-ground reinforced concrete manure storage facility with an approximate 365 days worth of storage space. Approximately 592,000 gallons of swine manure is used on the farm with 184,100 gallons exported from the farm. The steer manure is maintained as dry manure with 100% being exported to neighboring farms.

The receiving stream, a tributary to Conestoga River, is in the State Water Plan watershed 7-J and is classified for: WWF.

The proposed effluent limits for the operation/activity include: except for the chronic or catastrophic rainfall events defined as over the 25 year/24 hour rain storms, the CAFO general permit is a nondischarge NPDES permit. Where applicable, compliance with 40 CFR Federal effluent limitation guidelines is required. The general permit requires no other numeric effluent limitations and compliance with Pennsylvania Nutrient Management Act and The Clean Stream Law constitutes compliance with the State narrative water quality standards.

PA#0246573, CAFO, Hostetter Management Company, 120 Lake Street, P. O. Box 526, Ephrata, PA 17522-0526. This proposed facility is located in Heidelberg Township, **Lebanon County**.

Description of Proposed Activity: The Marlin Martin farm is an existing swine operation with total AEUs of 460.65. The estimated quantity of total annual manure production is 5296 tons from the 3719 head of swine. The manure from the swine is collected in a lagoon located beside his swine facility. The manure that is not exported

to eight neighboring farms is land applied in the spring and fall on the Martin farm.

The receiving stream, Hammer Creek, is in the State Water Plan watershed 7-J and is classified for: WWF.

The proposed effluent limits for the operation/activity include: except for the chronic or catastrophic rainfall events defined as over the 25 year/24 hour rain storms, the CAFO general permit is a nondischarge NPDES permit. Where applicable, compliance with 40 CFR Federal effluent limitation guidelines is required. The general permit requires no other numeric effluent limitations and compliance with Pennsylvania Nutrient Management Act and The Clean Stream Law constitutes compliance with the State narrative water quality standards.

Final Notice is hereby given that the Department of Environmental Protection, after public notice, has on December 27, 2001, issued a National Pollutant Discharge Elimination System Permit to **Permit No. PA 0010502, Letterkenny Army Depot**, One Overcash Avenue, Building 618, Chambersburg, PA 17201-4150.

PART II PERMITS**

The following permit applications or requests for plan approval have been received by the Department of Environmental Protection (Department).

Persons wishing to comment on any of the applications are invited to submit a statement to the office noted before the application within 15 days from the date of this public notice. Comments received within this 15-day comment period will be considered in making the final decision regarding the application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department reserves the right to hold a public hearing if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation of the area. If no hearing is held, the Department's Water Management Program Manager will make a final determination regarding the applications after a complete review. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

A copy of the permit application or proposed plan is on file in the office indicated and is open to public inspection. Appointments to review the application may be made by contacting Records Management at the indicated telephone number.

NPDES Stormwater Individual Permit

The following parties have applied for an NPDES permit to discharge stormwater associated with a construction activity into waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices (BMPs) which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the appropriate Department Regional Office noted before the application within 30 days from the date of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations

CAFO Notices of Intent Received

PAG120004, Norman G. Laffey, Sr. (Glenville Farms), 2391 Glenville Road, Cochranville, PA 19330. Norman G. Laffey has submitted an application for an existing Concentrated Animal Feeding Operation (CAFO) known as Glenville Farms, located on 2391 Glenville Road, West Fallowfield Township, **Chester County**. The CAFO is

situated in the Pequea Watershed, which is classified as a Trout Stocking Fishery (TSF) and Migratory Fish (MF). This is an existing CAFO facility with approximately 1,190 Animal Equivalent Units (AEUs) consisting of 675 dairy cows, 125 dry cows, 75 open heifer, 175 bred and 90 calves.

The facility has two manure storage within the facility, namely north storage and south storage.

North Storage: This storage pond consist of a clay liner of 12" compacted clay with a 4" concrete cover. The pond has a side slopes consisted of 18" of compacted clay. This pond was built in 1992.

South Storage: This storage pond consist of a 60 mil HPDE liner with a geotextile fabric pad. This storage has a storage capacity of approximately 1.6 million gallons with 2' freeboard. This pond was built in 2000.

The facility was inspected by a licensed professional engineer and found in proper working order and are functioning per design. Manure from these facilities are sprayed onto 829 acre fields owned/leased by Norman G. Laffey, Sr. in accordance with the approved Nutrient Management Plan.

The proposed effluent limits for the operation/activity include: except for the chronic or catastrophic rainfall events defined as over the 25 year/24 hour rain storms, the CAFO general permit is a nondischarge NPDES permit. Where applicable, compliance with 40 CFR Federal effluent limitations guidelines is required. The general permit requires no other numeric effluent limitations and compliance with Pennsylvania Nutrient Management Act and The Clean Streams Law constitutes compliance the State narrative water quality standards.

The Department has conducted administrative and technical reviews of the application. Based on the preliminary reviews of the application of lawful standards and regulations, including the Final CAFO Strategy, the Department has made a tentative determination to issue a General NPDES permit for the operation subject to the terms and conditions and monitoring and reporting requirements specified in the draft permit.

The permit application and proposed draft permit are on file at the Southeast Regional Office of the Department. Persons may make an appointment to review the files by calling Records Management at (610) 832-6270.

The Environmental Protection Agency permit review waiver provision under 40 CFR 123.24(e) applies to this General NPDES permit.

Persons wishing to comment on the proposed permit are invited to submit written comments to the previous address within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in formulating the Department's final determination regarding the application. All comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the basis of the comment and the relevant facts upon which it is based. A public meeting/hearing may be held if the Department considers the public response or interest significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time the determination may be appealed to the Environmental Hearing Board.

PUBLIC WATER SUPPLY (PWS) PERMIT

Under the Pennsylvania Safe Drinking Water Act, the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on the permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. Comment responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made

within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

AIR QUALITY

NOTICE OF PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (DEP) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

DEP has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the DEP Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the DEP providing a copy of the proposed

document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with DEP Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If DEP schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act and regulations adopted under the Act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001-4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

25-197B: Erie Bronze and Aluminum Co. (6300 Ridge Road, P. O. Box 8099, Erie, PA 16505) for post construction plan approval of a sand reclamation system and dust collector for a no-bake molding process in the City of Erie, **Erie County**.

24-123C: Superior Greentree Landfill, Inc. (635 Toby Road, Kersey, PA 15846) for installation of temporary candlestick flares in Fox Township, **Elk County**. The facility currently has a Title V Operating Permit No. 24-00123. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V operating permit through an administrative amendment at a later date.

33-033A: Owens Brockway Glass Container, Inc.—Plant 18 (Cherry Street, Brockway, PA 15824) for reactivation of Glass Melting Furnace B and construction of two fore hearths, two lehrs and two container forming lines and associated facilities and equipment in Brockway, **Jefferson County**. Some of these sources may be subject to Federal New Source Performance Standard, 40 CFR, Part 60, Subpart CC. The facility is a Title V facility.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

09-0048A: Haines and Kibblehouse, Inc., P. O. Box 196, Skippack, PA, 19474 for the modification of a batch asphalt plant in Hilltown Township, **Bucks County**. This modification allows the asphalt plant to use "on-specification" waste derived liquid fuel (WDLF) with a production limitation of 300,000 tons per year. An additional amount of production not to exceed 195,000 tons per year is allowed with the use of LPG as fuel. This

installation will not result in any increase in emissions of volatile organic compounds (VOC) or oxides of nitrogen (NO_x). The Plan Approval will require the company to perform stack tests within 180 days of using WDLF. Every shipment of WDLF will be analyzed and it must meet the 'on-specification' requirement.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Contact: Ronald Davis, New Source Review Chief, (717) 705-4702.

36-05026A: R. R. Donnelley & Sons Co. (1375 Harrisburg Pike, Lancaster, PA 17601) for installation of one web offset printing press located in Lancaster City, **Lancaster County**. The existing thermal oxidizer will control the new source. The facility currently has a Title V Operating Permit No. 36-05026. This operating permit will, in accordance with 25 Pa. Code § 127.450, be amended to include the new equipment through an administrative amendment at a later date.

R. R. Donnelley & Sons Co. is a major volatile organic compound (VOC) emitting facility as defined in 25 Pa. Code § 121.1. The proposed increase in emissions from the modifications will subject the facility to the major New Source Review (NSR) requirements of 25 Pa. Code Chapter 127, Subchapter E.

The proposed equipment installation is contained in the NSR Plan Approval application number 36-05026A. The preliminary NSR determination will be submitted to the United States Environmental Protection Agency (EPA) for review. When approved, the NSR Plan Approval will be issued and incorporated into the facility's existing Title V Operating Permit.

The following are the conditions that will appear in the Plan Approval pending final review:

1. The destruction efficiency of the control device shall be at least 90% for captured VOCs as demonstrated through the Department-approved testing procedure in accordance with 25 Pa. Code Chapter 139.

2. The temperature of the combustion chambers of each control device shall be maintained at 1,375°F or at least the temperature at which compliance with the destruction efficiency of Condition No. 3 was demonstrated during the most recent compliance test when controlling emissions from the presses that are operating. The temperature of the combustion chamber shall not fluctuate more than 25°F below the demonstrated compliance temperature. Data shall be collected at least once per shift while presses are operating to determine compliance with this temperature restriction.

3. No person shall permit the emission into the outdoor atmosphere of particulate matter from any process previously listed, at any time, in a manner that the concentration of particulate matter in the effluent gas exceeds 0.04 grain per dry standard cubic foot.

4. No person shall permit the emission into the outdoor atmosphere of sulfur oxides from a source in a manner that the concentration of the sulfur oxides, expressed as SO₂, in the effluent gas exceeds 500 parts per million, by volume, dry basis.

5. a. The weighted average VOC content of all heatset inks shall not exceed 45% by weight.

- b. The fountain solution VOC content shall not exceed 3% by weight as applied.

- c. The cleaning solutions used for automatic and manual cleaning shall have a VOC composite partial vapor pressure of less than or equal to 10 mm Hg of 20°C

or contain less than 30% by weight of VOCs. Use of higher vapor pressure cleaners shall be limited to less than 5% by weight of the total manual cleaning solution used.

6. The permittee shall obtain 74.4 tons of VOC Emission Reduction Credits prior to commencing operation of press LCM-688.

7. The installation of LCM-688 accounts for a 30-ton VOC increase at the facility. This increase, when aggregated with Source ID 110 of the Title V Operating Permit, will be limited to 88.6 tons of VOCs per year based on a 12-month rolling total.

8. Monitoring Requirements

The following factors shall be used to calculate VOC emissions:

a. Ink VOC—20% retained in the substrate, 100% capture of VOC not retained in the substrate.

b. Automatic Blanket Wash VOC—40% capture.

c. Fountain Solution VOC—70% capture.

d. Manual Cleaning Solvent VOC—50% retained in shop towels (if management practices listed are followed.)

(1) The manual cleaning solvent retention factor of 50% may be used to calculate emissions from the use of shop towels if the following practices are followed:

(a) Used, solvent-contaminated towels are to be stored in containers that are closed whenever practicable when not in use.

(b) Used, solvent-contaminated towels are to be disposed of or cleaned by an acceptable means.

(c) The cleaning solvent shall have a composite VOC vapor pressure of no more than 10 mm Hg at 20°C.

e. Dryers—100% of captured VOC ducted to thermal oxidizer. Negative pressure must be maintained.

These factors may be modified upon a written request by the permittee and approved by the Department.

9. For calculation purposes, the total quantities of each pollutant shall be determined from the actual VOCs in each material. At the permittee's discretion, the highest VOC content for a group of materials may be substituted for the actual VOC content of each material in the group. The records shall be kept in a manner, which allows verification of compliance without additional calculations.

10. For all materials containing VOCs, data necessary to document compliance with the limitations of this section and the emissions limitations for the individual press shall be collected and recorded at least monthly, usage, density (if needed for calculation purposes), VOC content (including documentation of as-applied content for fountain solution and low-VOC cleaning solvents) and vapor pressure of cleaning solvents. Monthly records shall be maintained onsite for the most recent 5-year period.

11. The company shall keep all containers containing VOCs and hazardous air pollutants (HAP) closed whenever practical when not in use. This includes containers containing cleanup solvents and used liquids containing VOCs and HAPs. Solvent laden wipes shall be kept in closed containers whenever practical when not in use.

12. The company shall comply with the applicable recordkeeping and reporting requirements addressed in 25 Pa. Code §§ 135.5 and 135.3, respectively.

13. Emission statements addressed in 25 Pa. Code § 135.21 shall be calculated on a month-by-month basis if applicable.

14. Within 180 days after the initial startup, the company shall conduct a performance test as per the Pennsylvania Source Testing Manual and 25 Pa. Code Chapter 139. The stack test shall be performed to measure actual VOC emissions including the following:

a. Inlet and outlet concentration of VOC for the thermal oxidizer to determine destruction efficiency.

b. Gas flow to the inlet and outlet of the thermal oxidizer.

c. Temperature and moisture content at the inlet and outlet of the thermal oxidizer.

d. Gas flow and temperature from the heatset dryers used with the Heidelberg Harris M-3000 (LCM-688) heatset press.

15. Within 45 days after the initial start-up, a test procedure and a sketch with dimensions, including the location of sampling ports and other data to ensure the collection of representative samples, shall be submitted to the Regional Air Quality Program Manager.

16. The stack test shall be performed over a period or periods as necessary to accurately determine the maximum emissions during that time.

17. At least 15 days prior to the test, the Regional Air Quality Program manager shall be informed of the date and time of the test.

An appointment to review the pertinent documents at the Southcentral Regional Office may be scheduled by contacting Jackie Tribby at (717) 705-4700 between 8 a.m. and 3:30 p.m., Monday through Friday, except holidays.

Interested persons may submit written comments, suggestions or objections to Leif Ericson, Air Quality Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110 within 30 days of this notice. Written comments should include the name, address and telephone number of the person submitting the comments along with the reference number of the proposed permit

The Department reserves the right to hold a public hearing on the proposed action based upon the information received during the public comment period and will provide notice of any scheduled public hearing at least 30 days in advance of the hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation where the facility is located.

36-03056A: Weaver Industries, Inc. (425 South 4th Street, Denver, PA 17517) for the replacement of an existing dust collector with a cartridge dust collector at its graphite processing facility in Denver Township, **Lancaster County**. The facility is a non-Title V (State only) facility. The particulate emissions remain unchanged. The plan approval will include conditions designed to keep the source operating within all applicable air quality requirements.

38-03037: Pemcor, Inc. (220 North 10th Street, Lebanon, PA 17042) for installation and operation of a printing shop in the City of Lebanon, **Lebanon County**. Total estimated annual emissions for the various lithographic presses are around 15 tons of volatile organic compounds and less than one ton of hazardous air pollutants.

67-03091A: AMZ Manufacturing Corporation (2206 Pennsylvania Avenue, York, PA 17404-1790) for the con-

trol of two existing plating lines by an existing dry mesh-pad mist eliminator at its plating and metal finishing facility in the City of York, **York County**. The facility is a non-Title V (State only) facility. The facility's potential annual emissions of PM-10 will remain unchanged. The plan approval will contain work practice standards and emission restrictions, as well as monitoring record keeping and reporting requirements.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701; Contact: David Aldenderfer, Program Manager, (570) 327-3637.

18-00005B: Dominion Transmission Corp. (625 Liberty Avenue, Pittsburgh, PA 15222-3199) for installation of air cleaning devices, electronic fuel gas injection systems, on two 1,100 horsepower natural gas-fired reciprocating internal combustion compressor engines (Engines 1 and 2) at the Finnefrock Compressor Station in Leidy Township, **Clinton County**. The Finnefrock Compressor Station is a major facility, which has been issued a Title V operating permit (#18-00005).

The proposed air cleaning devices will replace existing air cleaning devices and are intended to better assure compliance with the nitrogen oxides and volatile organic compound emission limitations previously established for the respective engines under the reasonably available control technology requirements of 25 Pa. Code §§ 129.91—129.95 as well as with the carbon monoxide emission limitation to which the engines are currently subject. This installation will not result in any change in the amount of any air contaminant allowed to be emitted from the engines but may result in a reduction in the emission rate of one or more air contaminants from the levels now actually occurring.

The following is a summary of the conditions the Department of Environmental Protection proposes to place in the plan approval to ensure compliance with all applicable air quality regulatory requirements:

1. Following the installation of the electronic fuel gas injection systems on Engines 1 and 2, the nitrogen oxides emissions from each engine shall not exceed a rate of 14.55 pounds per hour, the carbon monoxide emissions shall not exceed a rate of 8.38 pounds per hour and the volatile organic compound emissions shall not exceed a rate of 4.0 pounds per hour.

2. Within 120 days of completion of installation of an electronic fuel gas injection system on an engine, stack testing shall be performed on the respective engine for nitrogen oxides, carbon monoxide and volatile organic compounds.

3. Semiannual nitrogen oxides portable analyzer testing shall be performed on the engines.

4. Records shall be maintained of the number of hours per month that each engine is operated as well as the amount of fuel used each month in each engine.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481; Contact: Devendra Verma, New Source Review Chief, (814) 332-6940.

62-141D: National Fuel Gas Supply Corp. (P. O. Box 2081 Erie, PA 16512) for the Roystone Station in Sheffield Township, **Warren County**. The facility was issued Title V Operating Permit 62-00017 on December 26, 2000. The facility currently has a Title V permit No. 62-00141. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V operating permit through an administrative amendment at a later date.

Plan approval No. 62-141D is for the minor modification of units 1 through 8 (installed under plan approval 62-329-004A). The plan approval will clarify existing stack test requirements as well as reflect the NO_x, CO and NMHC emission rates at full load and full rate. The plan approval will also reflect the revised model number of the engines due to the previous update. The #/hr and TPY emissions will also increase for CO (36 TPY) and NMHC (27 TPY), but will not trigger NSR or PSD review. The revised permit will include the emission limits for CO and NMHC. The facility will be required to continue performing NO_x emission tests on the engines on a semi-annual basis using a Department approved portable analyzer. The Plan Approval and Operating Permit will contain additional record keeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

37-003C: ESSROC Cement Corp. (2nd Street, Bessemer, PA 16112) for installation of baghouses on #4 and #5 Clinker Coolers in Bessemer Borough, **Lawrence County**. The facility currently has a Title V permit, No. 37-00003. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V operating permit through an administrative amendment at a later date. This installation will result in no increase in emissions.

33-033A: Owens Brockway Glass Container, Inc.—Plant 18 (Cherry Street, Brockway, PA 15824) for construction of two forehearths attached to Glass Melting Furnace Line B at their plant in Brockway, **Jefferson County**. The facility currently has a Title V Operating Permit (33-00033). This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V Operating Permit through an administrative amendment at a later date. This construction will result in a .7 tpy NO_x increase. This construction is subject to 40 CFR Part 60, Subpart CC.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter G.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Contact: Leif Ericson, Program Manager, (717) 705-4702.

67-05024: Lehigh Cement Co. (200 Hokes Mill Road, York, PA 17404) for incorporation of a name change from the previous Lehigh Portland Cement Co. in West Manchester Township, **York County**. The administrative amendment will not impact facility emissions or daily operations in any way. All conditions in the facility's Title V operating permit will remain in place.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701; Contact: Muhammad Zaman, Facilities Permitting Chief, (570) 327-3637.

49-00007: Merck and Co., Inc. (P. O. Box 600, Danville, PA 17821) for their pharmaceutical production facility (Cherokee Plant) in Riverside Borough, **Northumberland County**. The proposed Title V Operating Permit revision allows for a compliance extension of 1 year for 4 wastewater tanks. With this approval, if granted by the Department, Merck would have until October 21, 2003, to come into compliance with Pharmaceutical MACT requirements, 40 CFR Part 63 Subpart GGG, for these four wastewater tanks. This extension would be granted under section 112(i)(3)(b) of The Clean Air Act and 40 CFR 63.6(i). The four wastewater tanks for which the compli-

ance extension is being asked would be permanently removed from service no later than October 21, 2003. The revised Title V operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

59-00008: Tennessee Gas Pipeline Company (El Paso Corp., Nine Greenway Plaza, 1626B, Houston, TX 77046) for their natural gas transmission (Station 315 Wellsboro) in Charleston Township, **Tioga County**. The facility's sources include a natural gas fired combustion turbine, auxiliary engine, boiler and space heaters, which emit major quantities of nitrogen oxides (NOx). The facility also emits minor quantities of carbon monoxide (CO), particulate matter, sulfur dioxide (SO₂), volatile organic compounds (VOCs) and hazardous air pollutants (HAPs). The facility is also subject to all applicable regulatory requirements of Reasonably Available Control Technology (RACT) for NOx emissions. The proposed Title V Operating Permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

Intent to Issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter F.

48-309-084B: Hercules Cement Co. (501 Center Street, P. O. Box 69, Stockertown, PA 18083) for operation of clinker operations and associated air cleaning device in Stockertown, **Northampton County**.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Contact: Leif Ericson, Program Manager, (717) 705-4702.

22-03017: Hoover Funeral Homes and Crematory, Inc. (6011 Linglestown Road, Harrisburg, PA 17112) for operation of a crematory in Lower Paxton Township, **Dauphin County**. Actual emissions of particulate matter, nitrogen oxides and sulfur oxides are estimated at less than 1 ton per pollutant, annually. The natural minor operating permit will contain additional record keeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

22-03035: Humane Society of Harrisburg Area, Inc. (7790 Grayson Road, Harrisburg, PA 17111) for operation of a cremation chamber at the shelter in Swatara Township, **Dauphin County**. Actual emissions of particulate matter, nitrogen oxides and sulfur oxides are estimated at less than 1 ton per pollutant, annually. The natural minor operating permit will contain additional record keeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

36-03071: Humane League of Lancaster County (2195 Lincoln Highway East, Lancaster County, PA 17602) for operation of two cremation chambers for the shelter in East Lampeter Township, **Lancaster County**. Actual emissions of particulate matter, nitrogen oxides and sulfur oxides are estimated at less than 1 ton per pollutant, annually. The natural minor operating permit will contain additional record keeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

36-03133: Spanglers Flour Mill, Inc. (19 North Market Street, Mount Joy, PA 17552) for operation of a flour

milling operation in Mount Joy Borough, **Lancaster County**. There is a potential to emit 46 tons per year of particulate matter. The natural minor operating permit shall contain additional record keeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701; Contact: David Aldenderfer, Program Manager, (570) 327-3637.

17-00024: Al Hamilton Contracting Co. (Little Beth Plant, R. D. 1, Box 87, Woodland, PA 16881) for their coal crushing and preparation facility in Bradford Township, **Clearfield County**. The facility's main sources include two rotary breakers, two screeners, conveyor belts and stockpiles area. The facility has the potential to emit nitrogen oxides (NOx), sulfur oxides (SOx), carbon monoxides (CO) and particulate matter less than 10 microns in size (PM10) below the major emission thresholds. The proposed operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

49-00049: RunnerLess Knits (301 North 5th Street, Sunbury, PA 17801) for their textile facility in Sunbury Township, **Northumberland County**. The facility's main source is one #2 fuel oil fired boiler. The facility has the potential to emit sulfur oxides (SOx), nitrogen oxides (NOx), carbon monoxide (CO) and particulate matter less than 10 microns in size (PM10) below the major emission thresholds. The proposed operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

49-00050: Mertz Greenhouses (R. R. 2, Box 492A, Northumberland, PA 17857) for their greenhouse facility in Point Township, **Northumberland County**. The facility's main sources are two anthracite coal fired boilers. The facility has the potential to emit sulfur oxides (SOx), nitrogen oxides (NOx), carbon monoxide (CO) and particulate matter less than 10 microns in size (PM10) below the major emission thresholds. The proposed operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

37-00296: Select Industries, Inc. (420 North Cascade Street, New Castle, PA 16107) for a Natural Minor Operating Permit to operate a lithographic, surface coating facility in New Castle, **Lawrence County**.

43-00290: Winner Steel, Inc. (277 Sharpsville Avenue, Sharon, PA 16146) for a Natural Minor Operating Permit for operation of two galvanizing-line furnaces in the City of Sharon, **Mercer County**.

PUBLIC HEARINGS

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790; Contact: Michael Saffo, Facilities Permitting Chief, (570) 826-2531.

39-0064: Howmet Castings—An Alcoa Business (2175 Avenue C, Bethlehem, PA 18017-2119) to accept testimony concerning the Department's decision to approve, with conditions, the Reasonably Available Control Technology (RACT) plan to meet the requirements under 25 Pa. Code §§ 129.91—129.95, concerning emissions of volatile organic compounds (VOC) from the shell room in the City of Bethlehem, **Lehigh County**.

The Department will conduct a public hearing on February 25, 2002, beginning at 1 p.m. at the Department's Bethlehem District Office at 4530 Bath Pike, Bethlehem, PA.

The proposed SIP revisions do not adopt any new regulations. They incorporate the provisions and requirements contained in the RACT approval for the facility to comply with current regulations.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P.S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P.S. §§ 3301—3326); The Clean Streams Law (35 P.S. §§ 691.1—691.1001); The Coal Refuse Disposal Control Act (52 P.S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P.S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P.S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments or objections or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. Such NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submit-

ting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Coal Applications Received

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications and requests for Environmental Assessment approval and requests for Water Quality Certification have been received by the Department of Environmental Protection. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341(a)), requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Initial requests for 401 Water Quality Certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Permit or Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request

are available for inspection between the hours of 8 a.m. and 4 p.m. on each working day at the office noted before the application.

Persons with a disability and wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications Received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

E15-680. East Caln Township, P. O. Box 232, Downingtown, PA 19335, East Caln Township, **Chester County**, ACOE Philadelphia District.

To reconstruct and maintain the Norwood Road Bridge Crossing over an unnamed tributary of the East Branch Brandywine Creek (WWF-MF). The proposed construction will replace the 5.25-foot high by 15-foot wide stone arch structure with a 35.5 linear foot of 4-foot high by 22-foot wide precast bridge and associated wing-walls. The project site is located 1,000 feet south of the intersection of Woodmont Drive and Norwood Road (Downingtown, PA Quadrangle—4.45 inches North: 10.65 inches West).

E15-679. Wilmer L. Hostetter, 481 Limestone Road, Oxford, PA Upper Oxford Township, **Chester County**, ACOE Philadelphia District.

To construct and maintain rock gabions associated with a 24-inch diameter RCP outfall from stormwater basin "C" for the Turners Pond Residential subdivision impacting 9 linear feet of unnamed tributary to the Big Elk Creek, East Branch (HQ—TSF-MF), for the purpose of scour protection. The site is located approximately 2,000 feet southwest of the intersection of Kimble Road and Baltimore Pike (Oxford, PA-USGS Quadrangle, N: 10.80 inches; W: 5.90 inches).

Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

E48-319. David Seyfried, 144 South Liberty Street, Nazareth, PA 18064-2319, in Nazareth Borough, **Northampton County**, U.S. Army Corps of Engineers, Philadelphia District.

To place and maintain fill in the floodway of Schoeneck Creek (WWF) for the purpose of constructing a driveway to serve a single family dwelling. The project is located northeast of the intersection of East Chestnut Street and Miller Street (Nazareth, Quadrangle N: 21.7 inches; W: 7.3 inches).

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701, (570) 327-3636.

E41-496. Muncy Creek Township, 575 Route 442, Muncy, PA 17754. Renovation of Soccer Field, in Muncy Creek Township, **Lycoming County**, ACOE Baltimore District (Muncy, PA Quadrangle N: 14.1 inches; W: 0.4 inch).

To place fill in 800 square feet (0.018 acre) of a palustrine emergent wetland system for the purpose of renovating a soccer field at Kiess Park. The site is located approximately 3,000 feet east of the SR 442/SR 405 intersection, on the south side of SR 422. Total earth disturbance for the project will be less than one acre.

E47-075. Mahoning Township, 1101 Bloom Road, Danville, PA 17821. Unnamed tributary to Blizzard Run Dredging, in Mahoning Township, **Montour County**, ACOE Baltimore District (Danville, PA Quadrangle N: 4.7 inches; W: 4.1 inches).

The application proposes to dredge 1,000 linear feet of an unnamed tributary to Blizzard Run in order to prevent frequent out-of-bank occurrences. The application proposes to widen and deepen the existing channel to support greater frequency flows through the channel. This project will impact 1,000 linear feet of stream and does not propose to impact any wetlands.

E59-422. Delores Monacelli, 3704 Bellaire Road, Philadelphia, PA 19154. Private Stream Crossing, in Sullivan Township, **Tioga County**, ACOE Baltimore District (Roseville, PA Quadrangle N: 7.8 inches; W: 5.4 inches).

The application proposes to apply for a maintenance permit for a 6-foot diameter metal culvert pipe that measures 20 linear feet and associated stone headwalls. This project impacted 25 linear feet of Gaffers Run, which is a High Quality Cold Water Fishery and does not impact any wetlands.

Southwest Region: Water Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

E03-403. Pennsylvania Department of Transportation, Engineering District 10-0, P. O. Box 429, Indiana, PA 15701-0429. Boggs, Rayburn and Valley Townships, **Armstrong County**, ACOE Pittsburgh District.

To remove the existing structure and to construct and maintain a two span prestressed concrete I-beam bridge having a normal clear span of 84.6 meters and an underclearance of 14.5 meters over South Fork Pine Creek (HQ-CWF). Also to permanently place and maintain fill in a de minimis area of PEM/PSS wetland equal to 0.005 acre and to temporarily place and maintain fill in 0.035 acre of PEM/PSS wetland as part of bridge construction. Also during construction to construct and maintain two temporary cofferdams in South Fork Pine Creek. The project is located on S.R. 0028, Section 153 near its intersection with Township Road T-566 (Mosgrove, PA Quadrangle N: 19.6 inches; W: 10.0 inches).

To remove the existing county bridge No. 56 and to construct and maintain a 25-foot long CON/SPAN culvert with natural bottom, having a normal clear span of 48 feet and an underclearance of 8.5 feet across Job Creek (TSF) located on T-447 at a point approximately 100 feet west of S.R. 3007 (New Freeport, PA Quadrangle N: 15.73 inches; W: 1.2 inches).

E32-438. Pennsylvania Department of Transportation, Engineering District 10-0, P. O. Box 429, Indiana, PA 15701. Burrell and Center Townships, **Indiana County**, ACOE Pittsburgh District.

To remove the existing structures and to construct and maintain the following structures and activities as part of the S.R. 0119, Section 496, Indiana South Improvement Project:

1. To extend and maintain an existing 3,000 mm x 2,400 mm, 22 meter long reinforced concrete arch culvert for 5.0 meters up stream and 11.0 meters downstream in Weirs Run (CWF). Also to construct and maintain a 3,000 mm x 2,400 mm, 16 meter long reinforced concrete box culvert in Weirs Run (CWF). The invert will be depressed 0.3 meter. This culvert is located on Divinney Hollow Road. Also to relocate and maintain 120 meters of Weirs Run (CWF). Station 112 + 638 in Burrell Township (Bolivar, PA Quadrangle N: 15.6 inches; W: 11.2 inches).

2. To operate and maintain a 1,800 mm x 1,600 mm, 60 meter long reinforced concrete arch culvert in an unnamed tributary to Blacklick Creek (CWF). Station 113 + 760 in Burrell Township (Bolivar, PA Quadrangle N: 17.2 inches; W: 10.3 inches).

3. To construct and maintain a 3-span prestressed concrete bridge having 2 spans at 30.32 meters and 1 span at 35.81 meters and a minimum underclearance of 6.77 meters over Blacklick Creek (TSF). Also, to construct and maintain temporary causeways and cofferdams for pier construction in Blacklick Creek (TSF). Station 115 + 100 to 115 + 200 in Burrell Township (Bolivar, PA Quadrangle N: 19.3 inches; W: 9.4 inches).

4. To extend and maintain an existing 1,500 mm diameter, 20-meter long reinforced concrete pipe for 15 meters downstream in an unnamed tributary to Two Lick Creek (CWF). Station 115 + 900 in Burrell Township (Bolivar, PA Quadrangle N: 20.5 inches; W: 8.9 inches).

5. To construct and maintain a 3,300 mm x 2,400 mm, 52.0 meter long reinforced concrete box culvert in an unnamed tributary to Two Lick Creek (CWF). The invert will be depressed 0.3 meter. Also to relocate and maintain 80 meters of this unnamed tributary to Two Lick Creek (CWF). Station 117 + 638.100 in Center Township (Bolivar, PA Quadrangle N: 22.4 inches; W: 6.8 inches).

6. To construct and maintain a 1,500 mm diameter, 60 meter long reinforced concrete pipe in an unnamed tributary to Two Lick Creek (CWF) and to relocate and maintain 100 meters of this unnamed tributary to Two Lick Creek (CWF). Station 119 + 300 to 119 + 400 in Center Township (Indiana, PA Quadrangle N: 2.0 inches; W: 5.5 inches).

7. To extend and maintain a 6,706 mm x 3,658 mm, 45 meter long reinforced concrete arch culvert for 15.65 meters upstream and 8.05 meters downstream in Tearing Run (CWF). Station 121 + 538 Center Township (Indiana, PA Quadrangle N: 5.5 inches; W: 4.5 inches).

8. To permanently place and maintain fill in 3.67 acres of wetland (0.62 acre PEM, 1.23 acres PSS, 1.82 acres PFO) and to temporarily place and maintain fill in 0.07 acre of PEM/PSS wetland for the purpose of widening the highway. To compensate for wetland impacts, the applicant proposes constructing 10.16 acres of replacement wetlands within the floodplains of Blacklick Creek (Indiana, PA Quadrangle N: 5.5 inches; W: 4.5 inches).

Northwest Region: Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

ACTIONS

FINAL ACTIONS TAKEN UNDER THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT—NPDES AND WQM PART II PERMITS

INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications and requests for plan approval. The actions are listed in two categories. Section I lists all municipal and industrial permits and Section II lists oil and gas related permits.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

I. Municipal and Industrial Permit Actions under The Clean Streams Law Act of June 22, 1937 (P. L. 1987, No. 394) (35 P. S. §§ 691.1—691.1001).

APPROVALS TO USE NPDES AND/OR OTHER GENERAL PERMITS

The following parties have submitted: (1) Notices of Intent (NOIs) for Coverage under (1) General NPDES Permits to Discharge Wastewater into the Waters of the Commonwealth. The approval for coverage under these general NPDES permits is subject to applicable effluent limitations. Monitoring, reporting requirements and other conditions set forth in the general permit; (2) General Permits for Beneficial Use of Sewage Sludge or Residential Septage by Land Application in Pennsylvania; (3) General NPDES Permit Authorizing the Discharge of Stormwater Associated with Construction Activities to Waters of the Commonwealth; (4) Notification for First Use Application of Sewage Sludge.

The approval of coverage for land application of sewage sludge or residential septage under these general permits is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. The Department of Environmental Protection approves the following coverage under the specific General Permit.

The EPA Region III Administrator has waived the right to review or object to this permit action under the waiver provision 40 CFR 123.23(d).

The application and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted.

PUBLIC WATER SUPPLY PERMITS

The Department of Environmental Protection (Department) has taken the following actions on applications received under the Safe Drinking Water Act for the construction, substantial modification or operation of a public water system.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed

with the Environmental Hearing Board within 30 days from the date of issue of the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals granted under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Carroll Township	555 Chestnut Grove Rd. Dillsburg, PA 17019	York

Plan Description: The approved plan provides for a 29 lot single-family residential subdivision on 27 acres with total estimated sewage flows of 11,600 gpd to be treated by a combination of individual on lot sewage disposal systems and small flow treatment facilities. The proposed subdivision is located on Jennifer Lane, along the north side of Al Pat Drive, east of Chestnut Grove Road in Carroll Township, York County. Any required NPDES Permits or WQM Permits must be obtained in the name of the lot owner.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Carroll Township	555 Chestnut Grove Road Dillsburg, PA 17019	York

Plan Description: The approved plan provides for revisions to the township's proposed sewage conveyance system with a two-phase approach for establishing a sanitary sewer system to address the long-term sewage disposal needs of the township. The plan is consistent with the concept of expanding the Dillsburg Area Authority Plant with ultimate construction of a wastewater treatment plant on the Yellow Breeches Creek. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Strausstown Borough	P. O. Box 325 Strausstown, PA 19559	Berks

Plan Description: The approved plan provides for the construction of a sanitary sewer collection and conveyance system to serve the Borough of Strausstown and areas of Upper Tulpehocken Township immediately adjacent to the Borough. Until the sewerage is complete, the plan provides for an ordinance establishing an on-lot sewage disposal system management program. The plan also provides for the construction of a 65,000 gpd wastewater treatment plant with discharge to Jackson Creek. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

PREAMBLE 2

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site where one of the Act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final reports:

Northeast Regional Field Office, Joseph A. Brogna, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

ICI Explosives USA Inc.—Wakefield Property, Walker Township, Schuylkill County. RBR Consulting, Inc., 650 Shady Drive, Beaver Falls, PA 15010 and URS Corporation, 1400 Union Meeting Road, Suite 202, Blue Bell, PA 19422 submitted a Final Report (on behalf of their client, ICI Explosives USA Inc.) summarizing the site characterization, residual risk assessment and remediation related to soil, groundwater, surface water and sediment found or suspected to have been contaminated with lead and other metals, polycyclic aromatic hydrocarbons, polychlorinated biphenyls and volatile organic compounds. The report was submitted to demonstrate attainment of remediation of the site under a combination of the Statewide health and site-specific standards. A revised Notice of Intent to Remediate was simultaneously submitted.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, Administration of the Land Recycling and Environmental Remediation Standards Act (Act) requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the Act. Plans and reports required by provisions of the Act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation

report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

NOTICE OF ACTION ON FIRST LAND APPLICATION OF NON-EXCEPTIONAL VALUE SEWAGE SLUDGE UNDER GENERAL PERMIT PAG-8

The Department of Environmental Protection (Department) has previously approved coverage under General Permit PAG-8 for the generators of nonexceptional quality sewage sludge. General Permit PAG-08-0004 authorizes the beneficial use of nonexceptional quality sewage sludge by land application to a reclamation site. The purpose of this notice is to advise the public that the Department

has reviewed the Notice for First Application of Sewage Sludge for the Philadelphia Water Department, 1101 Market Street, 4th Floor, Philadelphia, PA 19107-2934, Rattler Mountain Site (Permit No. 59018001), located in Morris Township, Tioga County affecting 182.8 acres and has determined that the site is suitable for land application of nonexceptional quality sewage sludge effective December 5, 2001.

These actions of the Department may be appealed to the Environmental Hearing Board (Board) at 2nd Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457 by an aggrieved person under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). Appeals must be filed within 30 days of the date of this issue of the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practices and procedure may be obtained from the Board.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341(a)).

Except as otherwise noted, the Department certifies that the construction and operation herein described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State Water Quality Standards.

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717)

787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law (35 §§ 691.1—691.702) and Notice of Final Action for Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)). (Note: Water Obstruction and Encroachment Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description.)

E62-378, James Gourley, R. D. 1 Box 89, Sugar Grove, PA 16350-9611. Gourley Farm Stream Restoration/Protection Project in Sugar Grove Township, **Warren County**, ACOE Pittsburgh District (Sugar Grove, PA Quadrangle N: 18.0 inches; W: 12.0 inches).

To conduct the following activities associated with restoration of approximately 125 feet of the channel of a

tributary to Stillwater Creek (CWF) and stabilization of the area adjacent to an existing dairy barn east of S.R. 69 approximately 0.6 mile south of S.R. 957:

1. Realign approximately 125 feet of the channel beginning at the downstream face of the S.R. 69 bridge and extending downstream.

2. Establish an elevated floodplain area to the left side of the channel and stream fencing to eliminate the use of the channel by livestock beginning at the downstream face of S.R. 69 bridge extending downstream to approximately 10 feet upstream of the barn, a distance of approximately 50 feet.

Construct and maintain a concrete pad with curb along the left side of the stream beginning just upstream of the existing dairy barn and extending downstream to a filter area northeast of the barn, a total distance of approximately 400 feet.

SPECIAL NOTICES

CERTIFIED EMISSION REDUCTION CREDITS IN PENNSYLVANIA'S ERC REGISTRY

Emission reduction credits (ERCs) are surplus, permanent, quantified and Federally enforceable emission reductions used to offset emission increases of oxides of nitrogen (NOx), volatile organic compounds (VOCs) and the following criteria pollutants: carbon monoxide (CO), lead (Pb), oxides of sulfur (SOx), particulate matter (PM), PM-10 and PM-10 precursors.

The Department of Environmental Protection (DEP) maintains an ERC registry in accordance with the requirements of 25 Pa. Code § 127.209. The ERC registry system provides for the tracking of the creation, transfer and use of ERCs. Prior to registration of the credits, ERC Registry Applications are reviewed and approved by the Department to confirm that the ERCs meet the requirements of 25 Pa. Code §§ 127.206—127.208. Registration of the credits in the ERC registry system constitutes certification that the ERCs satisfy applicable requirements and that the credits are available for use. The following registered and certified ERCs in the ERC Registry are currently available for use as follows:

- (1) To satisfy new source review (NSR) emission offset ratio requirements;

- (2) To "net-out" of NSR at ERC-generating facilities;

- (3) To sell or trade the ERCs for use as emission offsets at new or modified facilities.

The certified ERCs shown are expressed in tons per year (tpy), satisfy the applicable ERC requirements contained in 25 Pa. Code §§ 127.206—127.208. ERCs created from the curtailment or shutdown of a source or facility expires for use as offsets 10 years after the emission reduction occurs. ERCs generated by the overcontrol of emissions by an existing facility do not expire for use as offsets. However, credits in the registry which are not used in a plan approval will be discounted if new air quality requirements are adopted by the Department or the United States Environmental Protection Agency.

For additional information concerning this listing of certified ERCs, contact Virendra Trivedi, Bureau of Air Quality, Division of Permits, Department of Environmental Protection, 12th Floor, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-4325.

Availability of Technical Guidance

Technical guidance documents are on DEP's website (www.dep.state.pa.us) at the public participation center. The "December 2001 Inventory" heading is the Governor's list of nonregulatory guidance documents. The "Final Documents" heading is the link to a menu of the various DEP bureaus and from there to each bureau's final technical guidance documents. The "Draft Technical Guidance" heading is the link to DEP's draft technical guidance documents.

DEP will continue to revise its nonregulatory documents, as necessary, throughout 2002.

Ordering paper copies of DEP Technical Guidance

DEP encourages the use of the Internet to view guidance documents. When this option is not available, persons can order a bound paper copy of the latest inventory or an unbound paper copy of any of the final documents listed on the inventory by calling DEP at (717) 783-8727.

In addition, bound copies of some of DEP's documents are available as DEP publications. Check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with the document. Persons who have questions or comments in general should call Joe Sieber at (717) 783-8727.

Bond Rate Guidelines for the Calculation of Land Reclamation Bonds on Coal Mining Operations

The Department of Environmental Protection (Department) announces the bond rate guidelines for 2002 for anthracite and bituminous coal mining operations. The authority for bonding coal mining operations is found under The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the Surface Mining Conservation and Reclamation Act (52 P.S. §§ 1396.1—1396.19a), the Coal Refuse Disposal Control Act (52 P.S. §§ 30.51—30.66) and the regulations promulgated thereunder at 25 Pa. Code Chapter 86, Subchapter F (relating to bonding and insurance requirements). The unit costs listed in these guidelines will be used in calculating the land reclamation bonds for surface coal mining operations including surface mines,

coal refuse disposal sites, coal refuse reprocessing sites, preparation facilities and the surface facilities of underground mining operations. The procedures for calculating land reclamation bonds are described in technical guidance number 563-2504-001, "Conventional Bonding for Land Reclamation—Coal," which is available on the Department's website (www.dep.state.pa.), at the Public Participation Center.

The bond rate guidelines will be applied as prescribed in the effective date section of this notice. The Department may review the adequacy of bonds on existing permits based on the bond rate guidelines at any time. The Department will conduct these reviews before issuing permit renewals. The Department may conduct similar reviews at the mid-term of a permit and before approving a permit revision.

The bond rate guidelines do not apply to bonds assuring replacement of water supplies under subsection 3.1(c) of the Surface Mining Conservation and Reclamation Act or to bonds ensuring compliance with the requirements of the Bituminous Mine Subsidence and Land Conservation Act.

General Methodology

The Department developed the bond rate guidelines using a database of unit costs provided by the Bureau of Abandoned Mine Reclamation (BAMR). The BAMR database lists costs for the various unit operations needed to complete reclamation of a mine site. These costs were obtained from bids on recent reclamation contracts.

The bond rate guidelines for Year 2002 are listed in Table 1. Not all unit operations included in the BAMR database are included in Table 1. Certain unit operations, such as "clearing and grubbing" are not normally needed when reclaiming bond forfeiture sites. Some unit operations listed in the database were combined to streamline the guidelines. In the event that a unit operation necessary to calculate a reclamation bond is not listed in Table 1, then any additional cost information available from the BAMR will be used. If enough data is still not available, the rate will be set from a standard reference like "Means Building Construction Cost Data."

For background information and supporting documentation regarding bonding rate guidelines, contact the Bureau of Mining and Reclamation, Division of Monitoring and Compliance, P. O. Box 8461, Harrisburg, PA 17105-8461, (717) 787-5103 or on the website at <http://www.dep.state.pa.us/dep/deputate/minres/BMR/BMRhome.htm>.

Effective Date

The bond rate guidelines in this notice become effective in 30 days.

Mine Sealing ⁶ Hydraulic shaft seal w/bulkhead	shaft (11 to 15 ft. diameter)	9,200
Mine Sealing ⁶ Hydraulic shaft seal w/bulkhead	shaft (16 to 20 ft. diameter)	10,700
Mine Sealing ⁶ Hydraulic shaft seal w/bulkhead	shaft (21 to 25 ft. diameter)	14,200
Mine Sealing ⁶ Nonhydraulic drift/slope seal	drift/slope	3,900
Mine Sealing ⁶ Hydraulic drift/slope seal w/bulkhead	drift/slope	6,200

¹ Includes seed bed preparation, lime, fertilizer, seed and mulch. This unit operation is used on sites that conserve and replace existing soils.

² Seed Type 1 does not include Crown Vetch. Seed Type 2, used on steep slope areas, includes Crown Vetch. Both used at application rate of 50 pounds per acre.

³ Three tons per acre application rate.

⁴ Typically used for lining of ponds or ditches crossing fill material.

⁵ Unit cost not from the BAMR bids, includes dewatering, grading, topsoil placement and revegetation.

⁶ Mine sealing costs are minimum costs. Additional costs per mine seal will be assessed based on specific design criteria, such as the thickness of the seal and the volume of backfill material required, using appropriate material, equipment and labor costs from the BAMR bid abstracts or from an industry-standard cost estimation publications, for example, *Means Estimating Handbook* or *Walker's Building Estimator's Reference Book*.

Public Notice of Proposed Revision to Pennsylvania General Permit for Beneficial Use of Biosolids by Land Application (PAG-8)

In accordance with the provisions of the Federal Clean Water Act, The Clean Streams Law (35 P. S. §§ 691.1—691.1001), sections 1905-A, 1917-A and 1920-A of The Administrative Code of 1929 (71 P. S. §§ 510-5, 510-17 and 510-20), the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003) and the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904), the Department of Environmental Protection (Department) issues this general permit for use by eligible persons for the beneficial use of biosolids that will be land applied, who are required in 25 Pa. Code Chapters 91, 92 or 271, as applicable, to obtain a permit for the beneficial use of biosolids in this Commonwealth. The general permit shall only be valid

for eligible persons that have submitted an administratively complete and acceptable application, hereinafter referred to as Notice of Intent, to the Department on the prescribed form.

The Department, by this notice, seeks public comments on the proposed revisions to PAG-8. The general permit being proposed to be revised now was last issued on May 24, 1997, and is scheduled to expire on May 23, 2002.

The proposed revisions are necessary to clarify the general permit as it relates to biosolids and to clarify previous language. There is no change to the current permit application fee of \$500.

The following paragraph summarizes proposed revisions to the current permit documents:

The general permit has been reorganized and made more concise. In many instances, repetitive regulatory language was replaced by the appropriate regulatory reference. A definition of biosolids has been proposed to be added and this term replaces “sewage sludge” where appropriate. Storage requirements were clarified and enhanced notification requirements were added in this proposal. An annual soils sampling requirement at land application sites has also been proposed. Appendices are proposed to be removed because the information is readily obtainable from the regulations or other resources.

The permit documents package will continue to be available from the Department’s Regional and Central Offices until it is replaced or updated.

Copies of this notice are available from the Department’s Bureau of Water Supply and Wastewater Management, P. O. Box 8467, Harrisburg, PA 17105-8467, (717) 783-3795 (e-mail address: trutrutma@state.pa.us and on the Department’s website at www.dep.state.pa.us directLINK “participate”; scroll down to “Proposals Open for Comment”; then choose “Other Proposals.”

This notice provides a process and an opportunity for public comments and input prior to finalization of the proposed revisions. The Department invites public comments on the proposed revisions and other recommended changes that should be made to the general permit. Comments must be submitted within 30 days from the date of the publication of this notice in the *Pennsylvania Bulletin*. If there is significant public interest in the general permit or if requested, the comment period may be extended at the discretion of the Department for an additional 15 day period. Only the comments received within the specified period will be considered in the formulation of the final general permit. Persons wishing to comment should include their name, address and telephone number and a concise comment statement to inform the Department of the exact basis of the comment and the relevant facts upon which it is based. A public meeting or hearing may be held if the Department considers the public interests and/or comments significant. Written comments should be submitted to the previous address. Comments will not be accepted by facsimile or voice mail. Comments will also be accepted by electronic mail and should be sent to jafrika@state.pa.us by the applicable deadline.

Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). Following the specified comment period, the Department will review the submitted comments, prepare a written comment and response document and prepare final documents package for this

permit. An availability of the final permit documents will be announced in the *Pennsylvania Bulletin*.

Public Notice of Proposed Revision to Pennsylvania General Permit for Beneficial Use of Exceptional Quality Biosolids by Land Application (PAG-7)

In accordance with the provisions of the Federal Clean Water Act, The Clean Streams Law (35 P. S. §§ 691.1—691.1001), sections 1905-A, 1917-A and 1920-A of The Administrative Code of 1929 (71 P. S. §§ 510-5, 510-17 and 510-20), the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003) and the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904), the Department of Environmental Protection (Department) issues this general permit for use by eligible persons for the beneficial use of exceptional quality biosolids that will be sold, given away or otherwise distributed in a bag or other container or that will be land applied, who are required in 25 Pa. Code Chapters 91, 92 or 271, as applicable, to obtain a permit for the beneficial use of biosolids in this Commonwealth. The general permit shall only be valid for eligible persons that have submitted an administratively complete application, hereinafter referred to as Notice of Intent, to the Department on the prescribed form and have met all applicable technical requirements.

The Department, by this notice, seeks public comments on the proposed revisions to PAG-7. The general permit being proposed for revision was last issued on May 24, 1997, and is scheduled to expire on May 23, 2002.

The proposed revisions are necessary to clarify the general permit as it relates to biosolids and to clarify previous language. There is no change to the current permit application fee of \$500.

The following paragraph summarizes proposed revisions to the current permit documents:

The general permit has been reorganized and made more concise. In many instances, repetitive regulatory language was replaced by the appropriate regulatory reference. A definition of exceptional quality biosolids has been proposed to be added and this term replaces the term "any sewage sludge" where appropriate. As an incentive for biosolids generators to produce exceptional quality products, proposed language was added to exclude exceptional quality biosolids from waste processing and transportation placard requirements. Appendices are proposed to be removed because the information is readily obtainable from the regulations or other resources.

The permit documents package will continue to be available from the Department's Regional and Central Offices until it is replaced or updated.

Copies of this notice are available from the Department's Bureau of Water Supply and Wastewater Management, P. O. Box 8467, Harrisburg, PA 17105-8467, (717) 783-3795 (e-mail address: trutrouma@state.pa.us) and on the Department's website at www.dep.state.pa.us directLINK "participate"; scroll down to "Proposals Open for Comment"; then choose "Other Proposals."

This notice provides for a process and an opportunity for public comments and input on the proposed revisions. The Department invites public comments on the proposed revisions and other recommended changes that should be made to the general permit. Comments must be submitted within 30 days from the date of the publication of this notice in the *Pennsylvania Bulletin*. If there is significant public interest in the general permit, or if formally requested, the comment period may be extended at the discretion of the Department for an additional 15 day period. Only the comments received within the specified period will be considered in the formulation of the final general permit. Persons wishing to comment should include their name, address and telephone number and a concise comment statement to inform the Department of the exact basis of the comment and the relevant facts upon which it is based. A public meeting or hearing may be held if the Department considers the public interests and/or comments significant. Written comments should be submitted to the previous address. Comments will not be accepted by facsimile or voice mail. Comments will also be accepted by electronic mail and should be sent to jafrika@state.pa.us by the applicable deadline.

Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). Following the specified comment period, the Department will review the submitted comments, prepare a written comment and response document and prepare final documents package for this permit. An availability of the final permit documents will be announced in the *Pennsylvania Bulletin*.

Laboratories Approved to Determine Analyses of Blood and/or Serum for Controlled Substances

The following laboratories are licensed by the Department of Health (Department) under the Clinical Laboratory Act (35 P.S. §§ 2151—2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a) and are currently approved by the Department under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood and/or serum for the determination of controlled substances. This approval is based on demonstrated proficiency in tests conducted by the Bureau of Laboratories of the Department. These laboratories are also approved and designated for purposes of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance) and the Game and Wildlife Code, 34 Pa.C.S. § 2502 (relating to hunting or furtaking under the influence of alcohol or controlled substance), as qualified to perform the types of services which will reflect the presence of controlled substances or their biotransformation products in blood and/or serum.

Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform screening and/or confirmatory analyses on blood and/or

serum. Laboratories approved to perform screening analyses are designated on the approval list by an "S" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to screen both blood and serum would therefore have "SBSe" listed after their laboratory name. Laboratories approved to offer confirmatory analyses will be designated on the approval list by a "C" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to perform confirmatory analyses on both serum and blood would therefore have "CBSe" listed after the name of their laboratory.

Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic blood and/or serum analysis services from any of the listed laboratories should determine that the laboratory employs techniques and procedures acceptable for the medicolegal purposes. They should also determine that the director of the facility is agreeable to performing analyses for forensic purposes. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. That specification should be predicated upon the purpose for which the analysis is being sought.

The list of approved laboratories will be revised semiannually and published in the *Pennsylvania Bulletin*. Questions regarding this list should be directed to M. Jeffery Shoemaker, Ph.D., Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464, ext. 3273.

Persons with a disability who require auxiliary aid service should contact Dr. Shoemaker at V/TT: (717) 783-6514 for speech and/or hearing impaired persons or the Pennsylvania AT & T Relay Service at (800) 654-5984 [TT].

Laboratories Approved to Determine Urine Controlled Substance Content

The following laboratories are licensed by the Department of Health (Department) under the Clinical Laboratory Act (35 P.S. §§ 2151—2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a) and are currently approved by the Department under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of urine for the determination of controlled substances or their biotransformation products. This approval is based on demonstrated proficiency in tests conducted by the Bureau of Laboratories of the Department. These laboratories are also approved and designated for purposes of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance) and the Game and Wildlife Code, 34 Pa.C.S. § 2502 (relating to hunting or furtaking under the influence of alcohol or controlled substance), as qualified to perform the types of services which will reflect the presence of controlled substances or their biotransformation products in urine.

Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform screening and/or confirmatory urine drug analyses. Laboratories approved to perform screening tests only are designated on the approval list by an "S" after the laboratory's name. Laboratories approved to perform confirmatory testing only are designated by a "C" following the laboratory's name. Those approved to perform both screening and confirmatory analyses are designated by the letters "SC." Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic urine drug analysis services from any of the listed laboratories should determine that the laboratory employs techniques and procedures acceptable for the purpose. They should also determine that the director of the facility is agreeable to performing analyses for that purpose. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. Laboratories Approved to Perform Blood Lead and/or Erythrocyte Protoporphyrin Determinations

The following laboratories are licensed in accordance with the Clinical Laboratory Act (35 P. S. §§ 2151—2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a), and are currently approved under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood for lead or erythrocyte protoporphyrin content. This approval is based on demonstrated proficiency in periodic evaluations conducted by the Bureau of Laboratories of the Department of Health (Department).

Lead poisoning is a reportable noncommunicable disease. Approved laboratories which offer blood lead or erythrocyte protoporphyrin testing services are required to inform the Department of actual or possible incidents of this condition in accordance with 28 Pa. Code § 27.4 (relating to reportable noncommunicable diseases and conditions). In addition, the Department requests laboratories to submit reports on children under 6 years of age

and pregnant women, on whom laboratory tests confirm venous blood lead concentrations of 15 micrograms per deciliter or higher. The Department's collection and review of these latter reports would be consistent with the most recent revision of the guideline titled, *Preventing Lead Poisoning in Young Children*, which was published in 1991 by the United States Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and is available from them.

The reports must be sent to the Department of Health, Division of Environmental Health, P. O. Box 90, Harrisburg, PA 17108. Report forms are available on request from the Division of Environmental Health.

Erythrocyte protoporphyrin determinations may be performed as an adjunct determination to substantiate blood lead levels of 25 micrograms per deciliter or higher. Since erythrocyte protoporphyrin concentrations may not increase as a result of low level exposures to lead, direct blood lead analysis is the only reliable method for identifying individuals with blood lead concentrations below 25 micrograms per deciliter.

Persons seeking blood lead or erythrocyte protoporphyrin analyses should determine that the laboratory employs techniques and procedures acceptable for the purpose for which the analyses are sought. Laboratories offering blood lead analysis only are designated with the letter "L" following the name of the laboratory. Those offering erythrocyte protoporphyrin analysis only are designated with the letter "P." Laboratories offering both services are designated with the letters "LP."

Blood lead analyses performed for occupational safety and health purposes must be conducted by a laboratory which also meets the requirements of the Occupational Safety and Health Administration of the United States Department of Labor as specified in 29 CFR 1910.1025(j)(2)(iii) (relating to lead).

The list of approved laboratories will be reviewed semiannually and if there are any changes to the list, a notice to that effect will be published in the *Pennsylvania Bulletin* at that time.

The Department's blood lead proficiency testing program is approved by the United States Department of Health and Human Services in accordance with the requirements contained in the Clinical Laboratory Improvement Amendments of 1988 (42 CFR 493.901 and 493.937 (relating to approval of proficiency testing programs; and toxicology)) which are administered by the Health Care Financing Administration. Participation in these programs may therefore be used to demonstrate acceptable performance for approval purposes under both Federal and Commonwealth statutes.

Questions regarding this list should be directed to Dr. M. Jeffery Shoemaker, Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464, ext. 3273.

Persons with a disability who require auxiliary aid service should contact Dr. Shoemaker at V/TT: (717) 783-6514 for speech and/or hearing impaired persons or the Pennsylvania AT&T Relay Service at (800) 654-5984 [TT].

Food Stamp Heating and Nonheating Standard Utility Allowances and Telephone Allowance

Regulations at 55 Pa. Code § 501.7(a)(2) and (3) (relating to treatment of income) establish the amounts of the heating and nonheating standard utility allowances (SUAs) and telephone allowance for the Food Stamp Program. In addition, these regulations provide for revision of these amounts by publication of a notice in the *Pennsylvania Bulletin*. The allowances have been approved by the Food and Nutrition Service (FNS) of the United States Department of Agriculture and are effective October 1, 2001.

The heating and nonheating SUAs are established in accordance with the requirements of 7 CFR 273.9(d)(6)(iii)(A) and (B). Notice is hereby given that the Department of Public Welfare (Department) is increasing the heating SUA from \$292 to \$333 and the nonheating SUA from \$155 to \$181. These allowances remain as shown until revised by publication of a notice in the *Pennsylvania Bulletin*.

The Department recommends that the revisions of these allowances be codified in 55 Pa. Code § 501.7(a)(2).

The telephone allowance is established in accordance with the requirements of 7 CFR 273.9(d)(6)(iii)(A) and (B). Notice is hereby given that the Department is increasing the telephone allowance from \$24 to \$26. This allowance remains as shown until revised by publication of a notice in the *Pennsylvania Bulletin*.

The Department recommends that the revisions of this allowance be codified in 55 Pa. Code § 501.7(a)(3).

The citations in 55 Pa. Code § 501.7(a)(1), (2) and (3) have been revised to reflect increases in the allowance approved by FNS and the references to the redesignated paragraphs in 7 CFR 273.9(d)(6).

Public comments may be made by contacting Edward J. Zogby, Director, Bureau of Policy, Office of Income Maintenance, Room 431, Health and Welfare Building, Harrisburg, PA 17120.

Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Annex A

TITLE 55. PUBLIC WELFARE

PART II. PUBLIC ASSISTANCE MANUAL

Subpart L. FOOD STAMP PROGRAM

CHAPTER 501. FOOD STAMP DISCRETIONARY PROVISIONS

§ 501.7. Treatment of income.

(a) *Income deductions.*

(1) *Heating standard utility allowance (SUA) and nonheating SUA—7 CFR 273.9(d)(6)(i)(C).* A CAO will offer an eligible household the opportunity to use the heating SUA, nonheating SUA or the household's actual utility costs except for actual telephone costs when computing the combined shelter and utility cost. The SUAs include a nonheating SUA and a heating SUA. The heating SUA is available to households which incur out-of-pocket heating or cooling, or both, costs, even if paid irregularly, separate and apart from their rent or mortgage payments. A household that receives energy assistance payments made under the Low Income Home Energy Assistance Program (LIHEAP) is entitled to the heating SUA even if it does not incur out-of-pocket costs. The nonheating SUA is available to households which incur utility costs exclusive of heating or cooling costs, or both.

(2) *Standard utility allowance amounts—7 CFR 273.9(d)(6) [(iii) and (vi)].* The nonheating SUA amount is [§155] \$181 and the heating SUA amount is [§292] \$333 per month effective October 1, [2000] 2001. The heating SUA/nonheating SUA amounts are approved by FNS and reviewed annually by the Department in accordance with provisions of 7 CFR 273.9(d)(6)[(vi)] (relating to income and deductions). Future adjustments will be issued by the Department as a notice in the *Pennsylvania Bulletin* and codified in this subpart.

(3) *Telephone allowance—7 CFR 273.9(d)(6)[(v)(C)].* The telephone allowance is [§24] \$26 per month effective October 1, [2000] 2001, regardless of the amount of the telephone charge. This allowance is available to households which incur telephone expenses. The Department has developed a method, that is FNS approved, for calculating the mandatory telephone allowance. Future adjustments will be issued by the Department as a notice in the *Pennsylvania Bulletin* and codified in this subpart.

**Finding
Delaware County**

Under the provisions of section 2002(b) of The Administrative Code (71 P. S. § 2002(b)), the Secretary of Transportation makes the following written finding:

The Department of Transportation (Department) plans to replace the existing Market Street Bridge over Amtrak's Northeast Corridor line and SEPTA's R-2 line in Marcus Hook Borough and Lower Chichester Township, Delaware County. The project will require the acquisition of land from the Marcus Hook Borough park. However, the total proposed Borough Parkland area will be increased by 14 sq. meters (151 sq. feet) due to the conversion of existing highway right-of-way to parkland.

Impacts to the park will be mitigated by the deeding of land by the Department for additional park space and the replacement of recreation equipment. The area of disturbance will be graded and grass will be planted after construction of the new structure, approach roadway widening and Maiden Lane widening.

The Secretary has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code, and has concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize the effect.

No adverse environmental effect is likely to result from the replacement of this bridge.

Secretary

HEALTH CARE COST CONTAINMENT COUNCIL

Mandated Benefits

Section 9 of the Health Care Cost Containment Act (35 P. S. §§ 449.1—449.19) requires that the Health Care Cost Containment Council (Council) review proposed mandated health benefits on request of the executive and legislative branches of government. The Council has been requested by Senator Edwin G. Holl, Chairperson of the Senate Banking and Insurance Committee, to review Senate Bill 636, Printer's Number 674 (Schwartz), the Colorectal Cancer Early Detection Act. Senate Bill 636 would require health insurance policies to provide coverage for colorectal cancer screening examinations and laboratory tests for cancer for eligible nonsymptomatic individuals in accordance with the most recently published American Cancer Society guidelines for colorectal cancer screenings. Eligible individuals include: (1) individuals 50 years of age or older; and (2) individuals under 50 years of age who are at high risk for colorectal cancer according to the most recently published colorectal cancer screening guidelines of the American Cancer Society. Covered screenings include: (1) fecal-occult blood test, (2) flexible sigmoidoscopy, (3) colonoscopy, (4) barium enema and (5) other procedures as the Department of Health deems appropriate.

Following is a list of the documentation received. This information is available for public review and comment at the Council offices during regular business hours (8:30 a.m. to 5 p.m.) until February 22, 2002. Additional comments on this information must be received by this time. Council offices are located at 225 Market Street, Suite 400, Harrisburg, PA 17101. Send comments to Flossie Wolf at this address.

Review Procedure Hearings; Cancellation or Refusal of Insurance

The following insureds have requested a hearing as authorized by the act of June 17, 1998 (P. L. 464, No. 68), in connection with the termination of the insured's automobile policy. The hearing will be held in accordance with the requirements of the act; 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure); and 31 Pa. Code §§ 56.1—56.3 (relating to Special Rules of Administrative Practice and Procedure). The administrative hearings will be held in the Insurance Department's regional offices in Harrisburg and Philadelphia, PA. Failure by the appellants to appear at the scheduled hearing may result in dismissal with prejudice.

The following hearings will be held in the Administrative Hearings Office, Capitol Associates Building, Room 200, 901 North Seventh Street, Harrisburg, PA 17102.

Appeal of John L. Michael; file no. 01-182-08625; American Horizon Property and Casualty; doc. no. P02-01-005; February 21, 2002, at 10:30 a.m.

Appeal of Robert A. Kiehl; file no. 01-181-08089; Progressive Insurance Company; doc. no. P02-01-004; February 26, 2002, at 1:30 p.m.

The following hearings will be held in the Philadelphia Regional Office, Room 1701 State Office Building, 1400 Spring Garden Street, Philadelphia, PA 19130.

Appeal of William J. McBride; file no. 01-267-02742; Pennsylvania Risk Plan (Allstate Insurance Company); doc. no. PH02-01-003; February 21, 2002, at 1 p.m.

Appeal of Denise Campbell; file no. 01-280-03083; Liberty Mutual Insurance Group; doc. no. PH01-08-037; February 22, 2002, at 1 p.m.

Appeal of David F. Gillespie; file no. 01-267-06200; Erie Insurance Company; doc. no. PH02-01-002; February 22, 2002, at 3 p.m.

Parties may appear with or without counsel and offer relevant testimony or evidence. Each party must bring documents, photographs, drawings, claims files, witnesses and the like necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Insurance Commissioner (Commissioner) may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Commissioner will issue a written order

resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend the above-referenced administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing, should contact Tracey Pontius, Agency Coordinator, at (717) 787-4298.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Medallion Program, Inspection Procedures; Doc. No. M-00011589

Public Meeting held
December 19, 2001

Commissioners Present: Glen R. Thomas, Chairperson; Robert K. Bloom, Vice Chairperson; Aaron Wilson, Jr.; Terrance J. Fitzpatrick

Order

By the Commission:

The Medallion Act, 66 Pa.C.S. §§ 2401—2416, provides for Commission oversight of taxicab service in cities of the first class (Philadelphia). The Medallion Act provides that a vehicle may not be operated as a taxicab in cities of the first class unless a certificate of public convenience is issued authorizing the operation of the taxicab and a medallion is attached to the hood of the vehicle. See 66 Pa.C.S. § 2404(a). The medallion is reissued annually, consistent with the fiscal year (July 1—June 30) of the

program. See 66 Pa.C.S. §§ 2406 and 2414(b). Under section 2406 of the Medallion Act, 66 Pa.C.S. § 2406, a medallion may not be reissued unless all outstanding Commission fines, penalties and fees have been paid and unless all insurance, tariff and vehicle inspection requirements are current. The Medallion Act authorizes the Commission to require, by order or regulation, that each medallion holder submit to a periodic inspection of its taxicab by Commission personnel. See 66 Pa.C.S. § 2404. The Medallion Act further requires that a medallion holder is required to have its vehicle inspected by the Commission prior to issuance of a medallion. See 66 Pa.C.S. § 2404.¹

Currently the Commission performs annual (reissuance) medallion inspections in April, May and June. During this period, Commission personnel inspect approximately 1,600 taxicabs. These inspections are in addition to other duties required of the enforcement staff and significantly impact staff's ability to meet its ongoing responsibilities. While the Commission schedules inspections during the 3 month period in an attempt to evenly distribute the workload, scheduling of the inspections is voluntary and the bulk of the inspections occur in June. Also, medallion holders frequently fail to appear for scheduled inspections, creating lost time and requiring rescheduling. These factors further frustrate efforts of Commission enforcement staff to perform their duties.

There is a need for a more structured annual inspection program. Therefore, we will implement an annual inspection program that evenly divides the inspections over the current 3 month period (April, May, June). The inspections will be performed by appointment on a Commission designated date. The Commission will notify a medallion holder of the inspection date for a particular vehicle. The medallion holder should then contact the Commission's Philadelphia office to schedule an appointment time for that designated date. A medallion holder who presents a vehicle for inspection which fails, will be fined for equipment defects. Reinspection will occur at the earliest convenience of the Commission.² Inspections will be performed only if renewal applications and fees have been filed and paid. All outstanding fines must also be satisfied.

The inspection schedule will go into effect with the 2002-2003 medallion year. For that year, the inspection schedule will be as follows:

	<i>Medallion #</i>	<i>Inspection Month</i>
Group A	1—534	April, 2002
Group B	535—1067	May, 2002
Group C	1068—1600	June, 2002

The following year, 2003-2004, the groups will be rotated as follows:

	<i>Medallion #</i>	<i>Inspection Month</i>
Group B	535—1067	April, 2003
Group C	1068—1600	May, 2003
Group A	1—534	June, 2003

This rotation will continue in subsequent years, so that in 2004-2005, the first group to be inspected (April, 2004) will be medallion numbers 1068—1600 (Group C). Commission staff will provide an inspection schedule, listing specific dates on which designated medallion holders are

¹The Commission has promulgated regulations consistent with this statutory mandate. 52 Pa. Code § 30.33.

²If the vehicle presented for inspection fails and it is currently in service, that vehicle will be placed out-of-service immediately. Upon repair, the medallion holder may schedule a reinspection.

to present vehicles for inspection. This schedule will be included in the annual renewal application currently mailed to all medallion holders. Each medallion holder should contact the Commission to schedule an appointment time for the designated inspection date.

We believe that scheduling inspections evenly over the 3-month period will significantly aid our enforcement personnel in the diligent execution of their duties. While the Commission's workload will continue to be extremely heavy during the reinspection cycle, we believe that it will be more manageable. Medallion owners who choose not to schedule or honor an inspection appointment are cautioned that their vehicles may not be inspected prior to the July 1 deadline due to the Commission's workload. While the Commission will strive to accommodate all medallion owners' inspection needs, we strongly urge medallion owners to schedule inspections and honor appointments.

Therefore It Is Ordered That:

1. A Medallion inspection schedule, as set forth in this Order, is hereby implemented, to be effective with the 2002-2003 Medallion year.
2. The Secretary shall serve a copy of this Final Order on all current Medallion owners, by first class mail.
3. The Secretary shall have this Order published in the *Pennsylvania Bulletin*.

In re: A-00107755C0101
A-00107755

Dear Respondent:

On October 11, 2001, the Bureau of Transportation and Safety instituted a complaint against Dol-Jon, Inc., respondent, alleging failure to maintain proper evidence of current insurance in violation of the Public Utility Code. The respondent was duly notified that if acceptable evidence of insurance or an answer was not filed, the Bureau would request that the Secretary of the Commission revoke the certificate of public convenience issued to the respondent at A-00107755.

The complaint and notice were published in the December 8, 2001 issue of the PA Bulletin; to date, more than twenty (20) days later, neither evidence of insurance nor an answer to the complaint has been filed. Therefore, the allegation in the complaint is deemed to be admitted.

The complaint at A-00107755C0101 is hereby sustained and the right(s) and the certificate of public convenience issued to the respondent at A-00107755 be and are hereby revoked; and the respondent has no other operating authority. The respondent is hereby notified to cease and desist from providing service previously authorized under the certificate of public convenience.

DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:

The payment date specified in the contract.

30 days after the later of the receipt of a proper invoice or receipt of goods or services.

The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.
