READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

Title 4—GOVERNOR'S OFFICE

[4 PA. CODE CH. 6]

[EXECUTIVE ORDER NO. 2002-2 AS AMENDED]

Governor's Task Force on Early Childhood Care and Education

July 15, 2002

Whereas, all infants are born ready to learn; and

Whereas, the majority of a child's brain development occurs in the first five years of a child's life, building the foundation for future learning and success; and

Whereas, the Commonwealth has a duty to assess every setting where our children spend their days, whether under the care of their parents, a relative, neighbor, or a center-based setting; and

Whereas, early identification of developmental delay and other risk factors is crucial to improving a child's individual linguistic, cognitive, social, and emotional development and thus, school readiness; and

Whereas, involved, informed parents, caregivers, and educators are critical to ensure the early identification of developmental delay; and

Whereas, school readiness is a critical workforce issue, with early skill building leading to greater academic achievement and graduates with the knowledge necessary to allow Pennsylvania to compete in the 21st Century economy; and

Whereas, it is the duty of the Commonwealth to invest resources on research-based, cost-effective programs or models with a documented record of success.

Now, Therefore, I, Mark S. Schweiker, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws, do hereby establish the Governor's Task Force on Early Childhood Care and Education.

Governor

Fiscal Note: GOV 02-8. No fiscal impact; (8) recommends adoption. Federal funds will be used to pay for the costs of this task force. This Executive Order was previously submitted as GOV 02-2.

[246 PA. CODE CH. 300]

Return, Waiver and Failure of Service; Reinstatement

Introduction

The Minor Court Rules Committee is planning to recommend that the Supreme Court of Pennsylvania approve a revision to the Note to Pa. R.C.P.D.J. No. 314 to clarify the costs for reinstating a civil complaint. The Committee has not submitted this proposal for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's considerations in formulating this proposal. The Committee's Report should not be confused with the official Committee Notes to the rules. The Supreme Court does not adopt the Committee's Notes or the contents of the explanatory Reports.

The text of the proposed changes precedes the Report. Additions are shown in bold; deletions are in bold and brackets.

We request that interested persons submit suggestions, comments, or objections concerning this proposal to the Committee through counsel,

TITLE 246. MINOR COURT CIVIL RULES

PART I. GENERAL

CHAPTER 300. CIVIL ACTION

Rule 314. Return, Waiver and Failure of Service; Reinstatement.

* * * * *

Official Note:

* * * * *

Subdivision E provides for the reinstatement, upon written request of the plaintiff, of a complaint that has been dismissed without prejudice for failure to make service under subdivision D. Compare Pa.R.C.P. No. 401(b). The written request for reinstatement may be in

any form and may consist of a notation on the permanent copy of the complaint form, "Reinstatement of complaint requested," subscribed by the plaintiff. The district justice shall mark all copies of the reinstated complaint, "Complaint reinstated. Request for reinstatement filed on _____ (date)." If it is necessary to use a new form for the reinstated complaint, the reinstated complaint, except for service portions thereof, shall be an exact copy of the original complaint, although signatures may be typed or printed with the mark "/s/" indicating an actual signature. The language in subdivision E that a complaint may be reinstated "at any time" will permit reinstatement after a faulty service without waiting for further proceedings in the case. Reinstatement must occur within the period of the statute of limitations from the date of the last filing or reinstatement. **[Since a reinstated complaint is merely a continuation of the original action, there is no filing fee for reinstating a complaint. However,] The cost for reinstating a complaint is specified in Section 1725.1 of the Judicial Code, 42 Pa.C.S. § 1725.1. In addition,** there may be additional server costs for service of the reinstated complaint.

Amended October 17, 1975, effective in 90 days; amended effective March 24, 1977; amended April 25, 1979, effective in 30 days; June 30 1982 effective 30 days after July 17, 1982; March 27, 1992, effective June 25, 1992; amended February 12, 2002, effective immediately; **Note revised _____, effective _____.**

REPORT

Proposed Revision to the Note to Pa. R.C.P.D.J. No. 314

Clarification Regarding Costs for Reinstating a Complaint

The Committee reviewed the Note to Pa. R.C.P.D.J. No. 314 in response to an inquiry. It was reported to the Committee that there may be confusion among the district justice courts as to what costs, if any, are to be charged when a civil complaint is reinstated pursuant to Rule 314E. The Committee recognized that the Note to Rule 314, as currently written, provides that, "[s]ince a reinstated complaint is merely a continuation of the original action, there is no filing fee for reinstating a complaint." Pa. R.C.P.D.J. No. 314, Note. While this statement is technically correct, the Committee further recognized that Section 1725.1(a)(10) of the Judicial Code, 42 Pa.C.S. § 1725.1(a)(10), specifies costs for the reinstatement of a complaint.¹

Accordingly, the Committee proposes that the Note to Rule 314 be revised to remove any confusion about the costs for reinstatement of a civil complaint. The revised Note would read, in pertinent part, "[t]he cost for reinstating a complaint is specified in Section 1725.1 of the Judicial Code, 42 Pa.C.S. § 1725.1."

[Pa.B. Doc. No. 02-1416. Filed for public inspection August 16, 2002, 9:00 a.m.]

¹The cost for reinstating a complaint is currently \$6.50. Under current law, the costs are adjusted annually pursuant to Section 1725.1(f) of the Judicial Code, 42 Pa.C.S. § 1725.1(f).

G. The lawyer shall examine and cross-examine witnesses and present evidence, request the Court to enter clear and specific orders for the provision of services, treatment, evaluation, assessment and protection, as appropriate to the representation. Adopted by the Board of Judges of the Court of Common Pleas on May 16, 2002. Effective 30 days after publication in the *Pennsylvania Bulletin*.

Commentary to Rules 1702 through 1705

The Court seeks to ensure the provision of competent and effective counsel in Dependent Court for Philadelphia parents and children. These rules arise from the belief that Dependent Court work is a sensitive and important practice in which lawyers are entrusted with the protec-

tion of the fundamental rights of parents and children. Members of the dependency bar participate in decisions that will critically affect a family's future and may expose a parent to criminal liability. Untrained or ineffective parents' lawyers may risk full termination of their clients' parental rights and the loss of their children forever. Unskilled child advocates may fail to adequately protect a child from further abuse or may relegate a child to a life of foster care adrift. Quality advocacy can protect children and preserve families. Ineffective lawyering may have devastating consequences for children and families.

These rules recognize the interdisciplinary nature of Dependent Court work. The problems that families bring to Court are not strictly legal problems; to be effective, lawyers must be conversant with many fields. Medical, psychological and social work practice are integral to dependency work, as these disciplines provide information about child abuse and neglect, the treatment of substance abuse, family dysfunction, child development, and many other relevant topics.

Dependent Court practitioners should be competent in the following areas:

a. Relevant federal and state laws, agency regulations, Court decisions and Court rules;

b. Use of expert witnesses and scientific and medical evidence, including but not limited to, psychiatric and pathological evidence;

c. Child development, needs and abilities;

d. Family dynamics and dysfunction, including cultural aspects of families and the use of kinship care;

e. Substance abuse and rehabilitation/treatment programs and resources;

f. Public benefits including Temporary Assistance to Needy Families (TANF), Supplemental Security Income (SSI), adoption assistance, kinship foster care subsidy, medical assistance and managed care;

g. Information on accessible child welfare, family preservation, medical, educational and mental health resources, including placement, evaluation/diagnostic, and treatment services; and other services which may constitute reasonable efforts to preserve and/or reunify families; and

h. risk assessment and case plans.

Preamble

The purpose of Pennsylvania's juvenile justice system is to provide programs of supervision, care and rehabilitation which are consistent with the protection of the public interest and which provide balanced attention to the protection of the community, the imposition of accountability for offenses committed and the development of competencies to enable children to become responsible and productive members of the community.

Secure detention services must be understood within the context of the services available within the juvenile justice system, and within the broader context of the purpose of the system, and of the juvenile justice process. A child admitted to a juvenile detention center is provided access to a wide range of services, custody, supervision, and assessments.

The "Standards Governing the Use of Secure Detention Under The Juvenile Act" adopted by the Juvenile Court Judges' Commission were developed with an understanding that overcrowding in juvenile detention centers presents danger to both residents and staff and can severely disrupt programs and services. Consequently, juvenile court judges and chief juvenile probation officers should take a leadership role in advocating for adequate juvenile detention services and alternatives, in monitoring detention center populations at the local level, and in developing strategies to be undertaken as facilities approach capacity.

These Standards were also developed on the premise that decisions regarding admissions to secure detention facilities must be based on a commitment to utilize the most appropriate level of care consistent with the circumstances of the individual case. When the admission of a child to a secure detention facility is being considered by a judge, master, or juvenile probation officer, preference should be given to nonsecure alternatives which could reduce the risk of flight or danger to the child or community.

§ 200.1. Scope.

(a) These standards shall be applied in determining whether a child who is alleged to be or has been found to be a delinquent child may be detained. A child who is alleged to be or has been found to be a dependent child may not be detained in a secure detention facility unless the child is also alleged to be or has been found to be a delinquent child.

(b) Even though eligibility criteria may indicate that a particular child may be detained, detention is not mandatory. In every situation in which secure detention is to be considered, forms of control short of secure detention which could substantially reduce the risk of flight or danger to the child or the community shall be given preference.

(c) Preadjudication detention may never be imposed as a means of punishment or to apply sanctions.

(d) Secure detention is not to be used when a child alleged to be delinquent cannot be released solely because there is no parent, guardian or custodian able to assume responsibility or adequately supervise the child.

§ 200.2. Statement of reasons requirement.

(a) If secure detention is ordered or authorized, except as provided in subsections (b) and (c) whether at intake or at a detention or other hearing before a Juvenile Court Judge or Juvenile Court Master, a contemporaneous written statement of reasons and facts shall accompany the detention decision specifying the following:

(1) There is a reasonable basis to believe that the child has committed the act for which he is being detained—in the case of judicial authorities, that probable cause exists—and that the child is not excluded from the jurisdiction of Juvenile Court by age or another reason.

(2) That the child's detention is permitted under this subchapter.

(3) The alternatives to secure detention which were considered and rejected.

(4) The reason or reasons why secure detention is required and alternatives are not appropriate. Separate reasons need not be given for each alternative considered.

(b) If secure detention is ordered after the child is found to have committed a delinquent act but prior to the Court's determination that residential placement will be ordered at disposition, the Court shall indicate on the record or in a court order why secure detention is required and alternatives are not appropriate. Separate reasons need not be given for each alternative considered.

(c) Once the court has determined that residential placement will be ordered or continued, if previously ordered, no statement of reasons is required regarding the use of secure detention pending placement.

§ 200.3. Detention required to protect the person or property of others or of the child.

A child may not be detained in secure detention under 42 Pa.C.S. §§ 6325, 6326 and 6331 (relating to detention of child; release of delivery to court; and release from detention or commencement of proceedings) for the purpose of protecting the person or property of others or of the child unless one of the following exists:

(1) The child is alleged to be a delinquent child on the basis of acts which would constitute the commission of, conspiracy, solicitation or an attempt to commit any of the following crimes:

(i) Criminal homicide, 18 Pa.C.S. §§ 2502, 2503 or 2504 (relating to murder; voluntary manslaughter or involuntary manslaughter).

(ii) Rape, 18 Pa.C.S. § 3121 (relating to rape).

(iii) Robbery, 18 Pa.C.S. § 3701 (relating to robbery).

(iv) Robbery of motor vehicle, 18 Pa.C.S. § 3702 (relating to robbery of motor vehicle).

(v) Aggravated assault, 18 Pa.C.S. § 2702 (relating to aggravated assault).

(vi) Involuntary deviate sexual intercourse, 18 Pa.C.S. § 3123 (relating to involuntary deviate sexual intercourse).

(vii) Aggravated Indecent Assault, 18 Pa.C.S. § 3125 (relating to aggravated indecent assault).

(viii) Kidnapping, 18 Pa.C.S. § 2901 (relating to kidnapping).

§ 200.6. Postadjudication detention pending disposition.

A child whom the court has found to have committed the act by reason of which the child was alleged to be delinquent or whom the court has found to be a delinquent child may not be held in secure detention pending disposition unless one of the following exists:

- (ii) The child's employment and student status.
- (iii) The nature of the child's family relationships.
- (iv) The child's past and present residences.

A delinquent child whom the court has committed to an institution or other placement, who was otherwise ordered removed from his home at disposition may not be held in secure detention pending transfer to the placement unless one of the following exists:

(b) Detention under this section may not be authorized routinely or because nonsecure alternatives do not exist in adequate numbers, but only in the exceptional and extraordinary case.

(c) Secure detention is not to be used when a child alleged to be delinquent cannot be released solely because there is no parent, guardian or custodian able to assume responsibility or adequately supervise the child.

It is not intended that the child be present during these reviews.

(b) At any time after the filing of a petition and before the entry of an adjudication order, the Court, on proper motion, may suspend the proceedings and enter a consent decree continuing the child under supervision in the child's own home under terms and conditions negotiated with the probation department and agreed to by all parties affected.

§ 200.344. Findings.

(a) After hearing the evidence on the petition, the Court shall make and file its findings as to whether the acts ascribed to the child were committed by him if the petition alleged delinquency; or, if dependency was alleged, whether the child is a dependent child.

(b) If the Court finds that the child is not a dependent child or that the allegations of delinquency have not been established, it shall dismiss the petition and order the child discharged from any detention or restriction which has been previously ordered.

§ 200.345. Finding of delinquency.

A finding that the child committed the acts by reason of which the child was alleged to be delinquent shall be made only on proof beyond a reasonable doubt, while a finding that a child is dependent shall be based on clear and convincing evidence.

§ 200.346. Finding of need for treatment, supervision or rehabilitation.

(a) When there is a finding that the child committed a delinquent act, the Court shall proceed immediately, or at a postponed hearing, to hear evidence as to whether the child is in need of treatment, supervision or rehabilitation and therefore delinquent, and to make and file its findings thereon.

(b) In the absence of evidence to the contrary, evidence of the commission of acts which constitute a felony shall be sufficient to sustain a finding that a child is in need of treatment, supervision or rehabilitation.

D. Under authority of the Domestic Animal Law allows (at 3 Pa.C.S.A. § 2329(c)), PDA established an Interstate/International Quarantine with respect to captive cervids on January 19, 2002 (January 19, 2002 Order). This Interstate/International Quarantine Order was published at 32 *Pennsylvania Bulletin* 438 (January 26, 2002). In summary, the January 19, 2002 Order prohibited the importation of captive cervids unless: (1) the captive cervids originated from a state/province in which CWD is not known to exist; or (2) the captive cervids originated from a farm/herd of origin that has been enrolled in a state-approved CWD monitoring program for at least five years.

E. By Order issued on July 29, 2002 and effective August 1, 2002, the Pennsylvania Game Commission has banned the importation of cervids into the Commonwealth of Pennsylvania.

F. The referenced July 29, 2002 Order of the Pennsylvania Game Commission imposes restrictions that are more stringent than those imposed by PDA in its January 19, 2002 Interstate/International Quarantine Order, thereby obviating the need for PDA to enforce its January 19, 2002 Interstate/International Quarantine Order.

G. In light of the foregoing, PDA deems it appropriate to suspend enforcement of its January 19, 2002 Interstate/International Quarantine Order to prevent confusion among persons who would be affected by both PDA's January 19, 2002 Interstate/International Quarantine Order and the referenced July 29, 2002 Order of the Pennsylvania Game Commission.

Order

The Pennsylvania Department of Agriculture, pursuant to the authority granted it under the Domestic Animal Law and § 1702 of the Administrative Code of 1929 (71 P. S. § 442), hereby suspends enforcement of the Interstate/International Quarantine Order issued on

January 19, 2002 and published at 32 *Pennsylvania Bulletin* 438 (January 26, 2002).

The period of this suspension shall be for no more than one year (until August 1, 2003), within which time PDA will monitor the efficacy of the July 29, 2002 Order of the Pennsylvania Game Commission and developments with respect to the prevalence, spread and detection of CWD in the cervid population and issue an Order extending the suspension of enforcement of the January 19, 2002 Interstate/International Quarantine Order, rescinding or otherwise modifying that Order.

This Order is effective August 1, 2002.

Order of Quarantine; Plum Pox Virus

Whereas, the Plant Pest Act (3 P. S. §§ 258.1—258.27) empowers the Pennsylvania Department of Agriculture (PDA) to take various measures to detect, contain and eradicate plant pests in this Commonwealth; and

Whereas, the powers granted PDA under the Plant Pest Act include (at 3 P. S. § 258.21) the power to establish quarantines to prevent the dissemination of plant pests within this Commonwealth; and

Whereas, Plum Pox Virus—a plant pest indigenous to Europe—is a serious plant pest that injures and damages stone fruits such as peaches, nectarines, plums, and apricots by drastically reducing the fruit yields from these stone fruit trees and by disfiguring the fruit to the point it is unmarketable; and

Whereas, as a result of the presence of Plum Pox Virus in several townships and boroughs, PDA has issued a series of quarantine orders establishing and adjusting a quarantine area; and

Whereas, to date these quarantine orders have established a quarantine area covering the following:

1. Adams County: Latimore Township and Huntington Township (29 Pa.B. 5735—November 6, 1999)
2. Cumberland County: South Middleton Township (30 Pa.B. 3269—July 1, 2000)
3. Adams and Cumberland Counties: Dickinson Township (Cumberland County) and portions of Menallen Township and Tyrone Township (Adams County)(30 Pa.B. 4357—August 19, 2000)
4. Adams and Cumberland Counties: the Borough of York Springs (Adams County) and the Borough of Mount Holly Springs (Cumberland County) (30 Pa.B. 5852—November 11, 2000)
5. York County: Washington Township and Franklin Township (31 Pa.B. 3560—July 7, 2001)
6. Cumberland County: Southampton Township (31 Pa.B. 3559—July 7, 2001)
7. Franklin County: Quincy Township and the Borough of Mont Alto (31 Pa.B. 5117—September 8, 2001)

Whereas, Plum Pox Virus has since been detected on stone fruit trees located in Monaghan Township and Conewago Township, York County—areas adjoining or near the current quarantine area; and

Whereas, Plum Pox Virus has the potential to cause serious damage to the stone fruit production industry within this Commonwealth; and

Whereas, Plum Pox Virus is transmitted from infected trees by aphids and by budding or grafting, and can be spread into new areas by movement of infected nursery stock; and

Whereas, the movement of Plum Pox Virus-infected fruit trees poses a danger to stone fruit trees in non-infected areas; and

Whereas, there is no known control for Plum Pox Virus other than destruction of infected trees.

Now, therefore, under authority of Section 21 of the Plant Pest Act (act of December 16, 1992, P. L. 1228, No. 162)(3 P. S. § 258.21), the Pennsylvania Department of Agriculture hereby establishes a quarantine effective in the following areas:

1. Monaghan Township, York County; and
2. Conewago Township, York County.

This quarantine prohibits the movement of stone fruit trees and stone fruit budwood within the quarantined area, and prohibits the movement of stone fruit trees and stone fruit budwood out of the quarantined area.

This quarantine order also prohibits the planting of stone fruit trees (apricot, nectarine, peach and plum) in

the quarantined area. This prohibition applies to both fruit-bearing and ornamental varieties of stone fruit trees. Examples of common varieties of ornamental stone fruit trees include purpleleaf plum, flowering almond, flowering peach, purpleleaf sandcherry, flowering cherry, and weeping cherry.

PDA will consult with the United States Department of Agriculture, European experts and scientific authorities with respect to the most efficacious measures by which to contain and eliminate this serious plant pest. PDA will issue further restrictions under authority of this Quarantine Order, as is required under the Plant Pest Act (at 3 P. S. § 258.21(a)). These restrictions may address aphid control, elimination or reduction of aphid habitat, destruction of Plum Pox Virus-infected stone fruit trees and budwood, destruction of endangered or exposed stone fruit trees or budwood and any other measures necessary to the containment and elimination of the Plum Pox Virus in this Commonwealth.

This Order applies to commercial orchards, commercial nurseries, homeowners and all persons within the quarantine areas described above.

This quarantine is effective as of July 23, 2002.

Only comments from the general public regarding the projects received will be heard at the September 10, 2002, public hearing.

The Board will then evaluate all recommendations submitted for its consideration and final funding decisions will be approved at the annual meeting on November 13, 2002.

Annual Meeting

The Board has scheduled an annual meeting on November 13, 2002, 1 p.m., Fish and Boat Commission, 1601 Elmerton Ave., Erie Room, Harrisburg, PA. A full report will be presented on the allocation of moneys from the Fund. The Board will consider all presentations made at the public hearing and the plans outlined by the professional technical staffs of the Fish and Boat Commission, Game Commission and the Department.

The Fish and Boat Commission, the Game Commission and the Department will administer the recommendations funded by the Board. Project Submissions to the Department for WRCF Funding In 2002

- *2003 Rare Plant Inventory within Northwestern Pennsylvania*

Objectives: Search for new occurrences of rare plant communities and Plants of Special Concern in PA. Stewardship projects at Presque Isle, Erie National Wildlife Refuge and State Game Land 122 will be maintained and a stewardship project to restore rare habitat on the privately owned Edinboro Lake Fen in Erie County will be initiated. Continue searching for *Spiacea virginiana* on the Youghiogheny River. Provide advice to the Presque Isle Invasive Plant Control program and assess the effectiveness of the invasive species removal effort. Search for *Carex chordorhiza* will be continued in Tioga County.

Justification: There is a great need for additional inventory in northwestern region of this Commonwealth for Plants of Special Concern in PA. If rare plants or rare natural communities are identified prior to development, a development can be altered or constructed in a manner that will allow the plants to survive. Discovery of the rare natural communities allows conservation groups to make an effort to purchase a property before it is threatened by development. Landowners often decide to contribute a property after they have been informed that the property has Statewide or global significance.

Sponsor: The Cleveland Museum of Natural History

Cost: \$15,000

- *Herbarium and Field Studies of Pennsylvania Plants of Special Concern*

Objectives: Provide essential data from herbarium specimens deposited at Carnegie Museum to PNDI for use in managing and conserving this Commonwealth's natural resources, and provide important services to staff of other organizations that are involved in conservation efforts in this Commonwealth: (1) data recording and specimen verification; (2) discover and document new taxa for this

Commonwealth; (3) field survey for POSCIP species; and (4) herbarium services to the Heritage Program.

Justification: Specimen label data and accurate identification of specimens are essential to efforts to monitor populations of POSCIP species. Correct taxonomic determinations are critical not only to the reliability of the PNDI database as a tool for environmental review, but also for various organizations and individuals, which rely on specimen label data for personal and professional studies.

Sponsor: Carnegie Museum of Natural History

Cost: \$19,230

- *Documenting the Native and Introduced Flora Associated with Glacial Lakes in Northwest PA, with Emphasis on Invasive Alien Species*

Objectives: Compile for each glacial lake in western Pennsylvania a list of plant species presently documented with herbarium specimens. Conduct field studies to produce more complete and current lists of the floras of these lakes. Map the locations of invasive alien plant species. Map the locations and assess the size and condition of occurrences of plant species of special concern. Map the major habitat areas of the lakes. Collect data that will assist community ecologists in characterizing aquatic natural communities. Provide baseline data from which changes in population sizes of rare species and invasive species can be detected. Provide recommendations for conservation planners and stewards regarding protection of rare plants and management of invasive species.

Justification: Glacial Lakes are among the most treasured natural features of this Commonwealth. Of the 2,500 glacial lakes in this Commonwealth only 50 were naturally formed. These lakes are important scenic and recreational resources and are the focus of much tourism activity. Glacial lakes also comprise habitat for many species of plants and animals that would not otherwise inhabit this Commonwealth.

Sponsor: Western Pennsylvania Conservancy

Cost: \$40,167

- *Continued Field Surveys of Aquatic and Terrestrial Plant Species of Special Concern in Eastern Pennsylvania and PNDI Project Review Assistance*

Objective: Expand the coverage of the PNDI database by conducting field inventories of poorly studied or completely undocumented sites of probable occurrence of plant species of special concern. Specific deliverables: PNDI field survey reports to be submitted to PNDI East for data entry. Recommend changes in the status of plant species of special concern as necessary. Recommendations submitted to the Rare Plant Forum for changes in the Plants of Special Concern lists. Survey aquatic vascular of northeastern Commonwealth lakes and coordinate with the Environmental Protection Agency's (EPA) water quality sampling program. Vascular plant survey data for lakes on the EPA's survey list. Provide services to project review staff at PNDI to assist in evaluating the potential impact of proposed development on occurrences of listed species.

Justification: In an effort to protect the natural biological diversity in this Commonwealth, land development proposals must be screened by PNDI to identify those that pose a threat to endangered, threatened, rare or candidate species. Additional surveys are needed to develop more complete data on which to base species classifications.

Sponsor: Morris Arboretum of the University of Pennsylvania

Cost: \$32,216

Project Submissions to the Game Commission for Funding in 2002

- *Evaluating the Distribution and Abundance of Reintroduced Otters in the Allegheny River Drainage: Applications of GIS, Genetic and Digital Technologies for Management of a Rare Species*

Objectives: In 1999, the Pennsylvania river otter reintroduction project was initiated to restore river otters to the Allegheny River drainage. To date, the project has released otters along Tionesta and Laurel Hill Creeks and the Allegheny and Youghiogheny Rivers. Verify the persistence of otters at reintroduction areas, delineate the current distribution of reintroduced otter populations in the Allegheny River drainage, use spatially referenced habitat data to develop and evaluate GIS-based models for documenting expansion and predicting the future distribution of otter populations throughout the Allegheny River drainage. Develop unique genetic tags for use in identifying individual otters through analysis of their scats deposited along shorelines.

Justification: Although initial radio tracking efforts and subsequent surveys suggest that the reintroduction project has been successful in restoring otters to western Pennsylvania, there has been no systematic approach implemented to evaluate long-term success of reintroduced populations. There is also a need to establish and refine techniques and protocols for monitoring the status and distribution of reintroduced otter populations.

Sponsor: Frostburg State University

Cost: \$52,140

- *Preparation and Deposition of Vertebrate Specimens from Shippensburg University and Other Collections into the State Museum of Pennsylvania*

Objectives: Organize and install all Shippensburg Vertebrate Museum specimens that have been transferred to the State Museum including specimens preserved in fluids and accessory collections. Organize and archive electronically if possible all paperwork concerning the above specimens including all trapline records, specimen sheets, accession records and any other pertinent paperwork. This will focus on those specimen sheets and paperwork that has not been bound to date.

Justification: With the closure of the Shippensburg Vertebrate Museum and transfer of the collection to the State Museum, the Curator of the Natural History Museum will need assistance with organizing, cataloging, storing and care of the collection of mammals and birds.

Sponsor: Nature Conservancy

Cost: \$26,638

- *IBA Monitoring Project*

Objectives: Continue and expand avian inventories and monitoring on forested Important Bird Areas (IBA), with a strong emphasis on volunteer training and involvement. Develop a Statewide model for forest bird monitoring. Recommend bird trails to enhance nature-based tourism, as appropriate.

Justification: The IBA Program and international program that began in this Commonwealth in 1996 provides a successful strategy for protecting habitats for birds and other wildlife. With the scientific assistance of this Commonwealth's Ornithological Technical Committee and

Audubon's Science Department, 78 IBA sites have been identified in PA. These sites represent biologically diverse and environmentally significant natural areas and provide critical habitat for birds, other wildlife and humans.

Sponsor: National Audubon

Cost: \$20,650

- *Susquehanna River Birding & Wildlife Trail*

Objectives: Identify, assess, highlight and connect bird and wildlife observation sites, nature centers and cultural sites. Generate locally based conservation and protection activities for bird and wildlife. Gain economic benefits from nature tourism for local communities. Produce web sites and other communication tools to guide wildlife watchers.

Justification: The Susquehanna Birding and Wildlife Trail will benefit key wildlife sites, such as IBAs, wetlands, nature centers, mammal areas and other sites by generating locally based conservation. Local communities will benefit economically through increased tourism.

Sponsor: National Audubon

Cost: \$50,000

- *Wild Action Grant*

Objectives: Provide financial and resource support for 20 schools and/or youth groups to create wildlife habitats and outdoor learning areas and incorporate these areas into school curriculum, club programming and after-school programs. Support a minimum of 500 students/youth members in developing these habitats for wildlife and outdoor learning. Promote partnerships between schools, youth organizations, community groups and State agencies in implementing action projects that foster wildlife conservation and earth stewardship.

Justification: To ensure habitat conservation for native plants and wildlife both now and in the future, it is essential that habitat conservation education programs be implemented in our schools and youth organizations. Loss of habitat for native plants and animals is a concern in which students can make a tangible difference.

Sponsor: Game Commission

Cost: \$4,000

- *The Effects of Forest Fragmentation on the Reproductive Success of Black-Capped Chickadees in PA*

Objective: Test if woodlot size influences the reproductive success of Black-capped Chickadees. Test if Black-capped Chickadees are affected by edge effects that are produced by forest fragmentation.

Justification: The information garnered by this project has the potential to provide evidence that forest fragmentation does affect common, resident birds such as Black-capped Chickadees.

Sponsor: Villanova University

Cost: \$4,350

- *Elwood City Hibernacula Protection*

Objective: Protect a critical bat hibernacula through construction of two bat friendly gates. By gating the mine we will protect the general public from the hazards of the mine. Produce a map of the mine to aid future population survey.

Justification: This abandoned limestone mine is a hibernacula for over 30,000 bats of five species, including the Federally endangered Indiana Bat. In hibernation, bats are vulnerable to disturbance and destruction. This

hibernacula is one of the two largest known in this Commonwealth and is currently accessible to the general public. Bats are long lived and have slow reproductive rates. This hibernacula is located in an area used by a high priority for protection, with high visibility and is in critical need of protection.

Sponsor: Sanders Environmental Inc.

Cost: \$7,600

- *Design and Survey Protocols for the 2nd Pennsylvania Breeding Bird Atlas*

Objective: Serve as the "kick-off" for Pennsylvania's 2nd Breeding Bird Atlas Project scheduled to begin January 1, 2004. We propose to conduct the design phase for the next Atlas over the course of 15 months preceding the official start of Atlas recordkeeping. Design sampling protocols to allow rigorous statistical comparisons of distribution and abundance for all breeding birds of this Commonwealth using data collected by volunteer and select paid staff atlasers. Develop an interactive computer infrastructure for data entry, analysis and archival in concert with the Cornell Laboratory of Ornithology.

Justification: Pennsylvania's 1st Breeding Bird Atlas was a monumental undertaking by professional and amateur ornithologists in this Commonwealth, and the results provided a wealth of information. From its inception, the 1st Atlas was intended to provide a baseline for subsequent efforts that would reliably track changes in composition, distribution and abundance through time.

- *Conservation and Management of Fish, Herptiles and Aquatic species—Special Projects*

Objectives: PNDI Reviews and Impact evaluation, Timber rattlesnake conservation and management, PFBC/TNC Liaison.

Justification: Presently, 54 fish, 12 herptiles and 2 freshwater mussels are on the Commonwealth's endangered, threatened and/or candidate species lists. The position provides much needed baseline data and technical assistance in nongame and endangered species conservation.

- *A Radio-Telemetry Study of Habitat Use by Spotted Turtles*

Objectives: Determine, using radiotelemetry, habitat, use and movements of spotted turtles utilizing vernal pond habitats. Evaluate the effects of various human impacts, including timber management, forest roads and hiking trails, on spotted turtle habitat use. Use the information collected in meeting the first two objectives to make recommendations for conserving viable spotted turtle populations.

Justification: Populations of spotted turtles are declining throughout their range, most likely from a combination of habitat loss/degradation and overcollecting. These turtles utilize a variety of aquatic habitats, including vernal ponds. Little is known about the terrestrial habitat requirements of these turtles or how human impacts, such as timber harvest, forest roads or trails, affect turtle movements.

- *Survey of Fishes of Special Concern in Western Pennsylvania*

Objectives: Determine the status of the southern redbelly dace, least brook lampray, and gravel chub in Bull Creek. Prepare report on the status of these species based on this survey and other known data. Make recommendations for conservation, recovery and listing for these species.

Justification: I surveyed all the known historic sites for the southern redbelly dace, excepting those in Beaver County, and have not detected it. This work will finish this status survey and provide the basis for reassignment into endangered or extirpated status. There are records from the Bull Creek drainage for the endangered gravel chub from the late 1970s early 1980s, but its status there is unknown now.

- *Timber Rattlesnake Den Inventory and Assessment*

Objectives: Classify historic sites as dens, basking areas or rookeries. To verify/confirm and ground truth den locations using Global Positioning Systems (GPS). To describe habitat and use GPS to determine habitat boundaries. Assess threats to viable dens. Assess captured rattlesnakes for relative health and reproductive condition and mark them with PIT tags for research and identification purposes. Assist in ongoing population genetics study by obtaining blood samples. Rattlesnake and den habitat information will be entered into a database and submitted to the Fish and Boat Commission Nongame and Endangered Species Unit and Element Occurrences will be reported to PNDI.

Justification: The timber rattlesnake is designated as a candidate species to be listed as threatened or endangered in this Commonwealth. Given that the timber rattlesnake dens are central to the life history of this species, protecting dens is paramount to their conservation

- *Crayfish Identification and Curation For PA*

Objectives: Provide 300 crayfish identifications for State employees, private citizens, students, and the like. Identification results will be sent in writing to the collector and/or relevant agency. Preserve and maintain all crayfish specimens and associated documentation at the Pennsylvania Crayfish Reference Collection housed at Lock Haven University. Purchase two GPS units to be used in crayfish collection. These units will be lent to collectors in this Commonwealth to facilitate GPS data collection for the construction of a GIS database.

Justification: During the 2002-2003 time frame, the Nature Conservancy and Western Pennsylvania Conservancy are constructing a classification of stream types from a "bottom-up" database of stream systems in this Commonwealth that will include crayfish. Additionally, crayfish collected during normal or targeted stream surveys are often either discarded or stored without further consideration, primarily because crayfish identification can be extremely difficult. No facility or professional biologist within this Commonwealth, except the PCRC, has until now been available to identify and curate these specimens.

- *Inventory and Ecological Studies of Aquatic Snails in this Commonwealth*

Objectives: In conjunction with the Nature Conservancy, this project would help to better define the role that gastropods play in streams, lakes and wetlands in this Commonwealth. Examine sites across this Commonwealth, examining species present and measuring chemical and physical parameters. Coordinate the identification and compilation of data with museum and university experts as necessary. Produce a final report that will detail the fauna documented at all sites, any relationships between water quality and snail species and use of this data into the ongoing aquatic classification project by PNDI.

Justification: Ongoing research by PNDI is focusing on examining the various constituents of lotic zoological communities, primarily freshwater mussels, fishes and macroinvertebrates. Distributional data for these groups, along with abiotic data, are being examined to classify aquatic systems using a "bottom-up" approach. A data set for aquatic gastropods is not currently available due to lack of research.

- *Survey of Inland Populations of Burbot in this Commonwealth*

Objectives: Survey all known and potential locations of Burbot populations outside of the Lake Erie catchment basin in this Commonwealth. Determine age/size structure of extant populations, habitat selectivity or extant populations, important breeding/nursery habitats of extant populations.

Justification: Glacial relict populations of burbot exist in the headwaters of the Susquehanna and Allegheny Rivers. Susquehanna populations are known only to exist in New York. Specimens have not been collected in the Pennsylvania portion of the Susquehanna. The absence of records may be due to lack of adequate sampling, extirpation or natural distribution.

- *Appalachian Cottontail Distribution in this Commonwealth*

Objective: Determine the current distribution of Appalachian cottontail rabbits in this Commonwealth relative to the historical range as reported in literature. Determine an index of abundance for the Appalachian cottontail rabbit in selected locations to allow future comparisons and trend analysis. Determine general associations between selected habitat conditions and the presence/absence of Appalachian cottontail rabbits at selected trap locations. Produce management recommendations to conserve and enhance the Appalachian cottontail rabbit populations in this Commonwealth.

Justification: The current distribution and population trend of the Appalachian cottontail rabbit in this Commonwealth is unknown. This rabbit has declined substantially in adjoining states where monitoring efforts have been completed and has been identified in Commonwealth literature as either "at risk" and current biological survey classification as "Status Undetermined" due to lack of information. Prudent management decisions cannot be

made without current information about this rabbit's population status and distribution.

- *Biodiversity Conservation Plan: Inventory of Human Resources*

Objectives: Biodiversity Conservation Plan enters Phase 2 which is beginning to fill the gaps in our knowledge about the biodiversity in this Commonwealth. One of the gaps not fully addressed is an inventory of existing human resources and expertise in Pennsylvania biodiversity both internal and external to this Commonwealth. Expand the human resource inventory to all aspects of biodiversity (education, policy, stewardship, land management, and the like) as well as to update the database of taxonomists. Create a web-based directory of PA biodiversity experts with keyword search capability, identify expertise necessary for biodiversity conservation in this Commonwealth, determine what is presently lacking, begin to develop strategies for increasing the needed expertise and integrate the results into the Biodiversity Conservation Plan.

Justification: This project is critical to the development of a Pennsylvania Biodiversity Conservation Plan which specifically addresses recommendations in the *21st Century Environment Commission Report* (1998) and other documents. Conservation biodiversity is vital to the state's ecological health, economic vigor and quality of life of all citizens.

- *Refining the Natural Communities in PA through Zoological Studies on State Forest Lands*

Objectives: Filling data gaps sampling ponds that were either not sampled or only sampled 1 or 2 months during the first 2 years of this study due to drought or time constraints. An estimated 30,000 specimens will be examined and identified to family level. Identifications to the finest level possible with current keys and equipment available.

Justification: The current classification of natural communities in this Commonwealth is based primarily on assemblages of plants. It is a goal of this study to determine if invertebrate data can be used to define vernal pool community types; it would create a more comprehensive tool for land use planning, natural lands management and for designations of conservation areas.

- *County Natural Heritage Inventories*

Objectives: Complete county natural heritage inventories in two counties (Mercer and Huntingdon) and initiate and perform inventories on five additional counties in western Pennsylvania. Each project runs on a 2-year schedule and additional counties will begin each year as others are

completed. Products from the inventories include a report detailing the most significant ecological resources in the county under study, full scale maps covering the entire county, online information and findings and public presentations and education. The inventories will be available in both paper and electronic formats and will include GIS maps with a layer of Natural Heritage Area polygons.

Justification: Final results provide a list of the most important biological sites, identify the resources and map their locations. Sites are prioritized and recommendations are included regarding the management of the biological resources present. The inventory produces a written report and maps of the entire county with Natural Heritage Areas identified. These studies were conceived as tools to assist in planning at both the county and municipal levels and have been used effectively in that capacity.

Sponsor: Western Pennsylvania Conservancy

Cost: \$370,510

- *Counties Natural Areas Inventories*

Objectives: Complete the identification of sites with rare

species and exemplary natural communities in Schuylkill and Lebanon Counties, initiate three new county inventories for rare, threatened and endangered species and exemplary natural communities; provide these data to county and municipal officials, conservation organizations, the development community and the public to make better informed conservation decisions in the respective counties.

Justification: The 21st Century Environment Commission Report recommended funding for the completion of the NAI's as a step toward preserving this Commonwealth's natural diversity. To preserve that diversity, land use planners and others must know what that diversity is and where it is represented on the landscape.

Under the Federal Clean Water Act and The Clean Streams Law, the following parties have applied for an NPDES permit or to renew their current permit to discharge controlled wastewaters into the waters of this Commonwealth or to conduct other activities required by the NPDES permit. For renewal applications listed in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements. For all new permit applications, renewal application with major changes or applications for permits not waived by the EPA, the Department, based upon preliminary reviews, also made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications listed in Section II. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement, to the office noted before the application, within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant. Following the comment period, the Department's Water Management Program Manager will make a final determination regarding these applications. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The renewal application, including proposed effluent limitations and special conditions, is available on file. For new permit applications, information submitted with the applications is available on file. The information may be inspected and arrangements made for copying at the office indicated before the application.

Persons with a disability, who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information, should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the Department Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be

held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act and regulations adopted under the Act.

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES

permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

SEWERAGE WASTEWATER**

The Department of Environmental Protection has taken the following actions on previously received permit applications and requests for plan approval.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Proposed Interim Response

East Tenth Street Site, Marcus Hook Borough, Delaware County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.102—6020.1303), is proposing an interim response at the East Tenth Street Site (Site), Marcus Hook Borough, Delaware County, PA.

The Site is located on the Marcus Hook 7.5 Minute Series Quadrangle (Latitude 39 49' 10"; Longitude 75 24' 44" W). The Site is approximately 36 acres in size and lies

about 600 yards northwest of the Delaware River. The Site is bordered on the northeast, east and southeast by oil refineries operated by Tosco (formerly the B. P. Refinery) and Sun Oil Co. Mixed commercial/residential properties are located across East 10th Street northwest of the Site. Additional residential areas including the Marcus Hook Elementary School are west and southwest of the Site.

The Department initiated a HSCA response at the Site under a Response Justification Document dated March 24, 1998. The Department conducted a prompt interim response to remove hazardous wastes and materials from a garage building on the Site during the summer of 2000. The Department is involved in an ongoing investigation of Site conditions. This investigation has produced evidence of particular areas where there are hazards to public health and the environment that should be addressed before the completion of Site activities.

The Department considered taking no action and the use of institutional or engineering controls as alternative means of addressing these hazards to the public health and the environment before selecting the proposed interim response. The proposed interim response will address removal of contaminated soils and materials from several lots on the Site where investigation has found exceedances of the Statewide Health Standard promulgated under the Land Recycling and Environmental Remediation Standards Act.

An Administrative Record, which contains more detailed information concerning the interim response action, is available for public inspection. The Administrative Record may be examined from 8 a.m. to 4 p.m. at the Department's Southeast Regional Office, Suite 6010, Lee Park, 555 North Lane, Conshohocken, PA 19428, (610) 832-6000. Individuals interested in examining the Administrative Record should contact April Flipse at (610) 832-5937 to arrange for an appointment.

An additional copy of the Administrative Record is available for review at the Marcus Hook Library, Tenth and Green Streets, Marcus Hook, PA.

A public hearing is scheduled under section 506(d) of the HSCA for September 26, 2002, at 7 pm in the Council Room, Marcus Hook Borough Hall, Tenth and Green Streets, Marcus Hook, PA. Persons wishing to present formal oral comments regarding this prompt interim response may do so by registering with the Department before the meeting. Individuals may register by calling Lynda Rebarchak, Community Relations Coordinator, at (610) 832-6219. Persons with a disability who wish to attend the September 26, 2002, meeting and require auxiliary aid, service or other accommodation to participate in the proceedings should contact Lynda Rebarchak to advise how the Department may accommodate their needs.

The public may also submit written comments regarding the Department's interim response action during the period of public comment. Under section 506(c) of the HSCA, the Department has established a period for public comment, which shall run from the date of this notice through November 17, 2002. Written comments should be addressed to April Flipse at the previous address.

Notice of Prompt Interim Response

Marino Brothers Scrap Yard, Rochester Borough, Beaver County

The Department, under the authority of the HSCA, has initiated a prompt interim response at Marino Brothers

Scrap Yard (scrap yard), Railroad Street, Rochester Borough, Beaver County. This response has been initiated under sections 501(a) and 505(b) of the HSCA.

The scrap yard is located between Railroad Street and the Ohio River in the Borough of Rochester, Beaver County, encompasses approximately 3 acres and is occupied by several buildings that date back to the early 1900s. Beginning in the late 1800s, the property has been used for various industrial purposes. Since the 1960s, the Marino family used the property as a scrap yard. The current owner of the property is the Borough of Rochester.

The Department conducted a site characterization of the scrap yard. The results of this characterization revealed elevated levels of PCBs, antimony, arsenic, cadmium, chromium, lead, mercury, thallium and zinc in the surface soils. The levels of the contaminants exceed the Statewide Health Standards under the Land Recycling and Environmental Remediation Standards Act. In addition, light nonaqueous phase liquids were found in the shallow groundwater.

The contamination described extends down through the soils to depths below the elevation of the existing storm outflow. This old outflow is partially blocked due to a collapse in several sections of the line. In its present condition, the line has the potential to be a conduit to the Ohio River for contamination from the surrounding soils resulting in a release or a threat of release of hazardous substances from the site. The Borough of Rochester and the Pennsylvania Department of Transportation (PennDOT) are replacing this stormwater line with a new line in a different location. This will require excavation and removal of contaminated material so that a new stormwater pipe can be installed.

This response specifically addressed the threats to human health and the environment as they relate to the old stormwater outflow and the installation of a new outflow.

The following alternatives were analyzed:

Alternative 1. No action—This alternative involves no response by the Department to address the threats associated with the old stormwater outflow at the site. Stormwater would continue to be directed to the old outflow, causing backup of the water into the Sewer Authority line. Stormwater that did make its way into the old line would potentially be contaminated with sewage and site related contaminants. This water would continue to be discharged to the Ohio River.

Alternative 2. Excavation and proper handling of contaminated soils associated with the construction of a new stormwater outflow—This alternative involves the excavation of the trench for the installation of the new stormwater outflow through the site. The Department's contractor would work in conjunction with the PennDOT contractor and the Borough of Rochester's contractor to complete the installation of a new line and permanently seal the old outflow line. Specifically, the Department's contractor will be responsible for excavating the contaminated soils required to install the new line at the elevations spelled out in Rochester Borough's design specifications. Contaminated soils will be properly staged onsite and handled in accordance with waste management regulations.

The Department has determined that Alternative #2 is the most appropriate response to address the threats associated with the existing stormwater outflow pipe at the Marino site. This alternative is more protective of

human health and the environment than Alternative #1 and is cost effective. The Department mobilized its contractor on June 7, 2002, and, working with the Borough of Rochester's contractor, has completed excavation work and placement of the new stormwater pipe. Contaminated material from the excavation has been staged onsite and will be properly disposed of off-site when arrangements are made with a disposal facility.

This notice is being provided under sections 505(b) and 506(b) of the HSCA. The administrative record which contains the information that forms the basis and documents the selection of this response action is available for public review and comment. Notice of Prompt Interim Response

Banning Mine #4 Site, Rostraver Township, Westmoreland County

The Department, under the authority of the HSCA, has initiated a prompt interim response at Banning Mine #4 (Site), Budds Ferry Road, Rostraver Township, Westmoreland County. This response has been initiated under sections 501(a) and 505(b) of the HSCA.

The Site is located at the end of Budds Ferry Road in Rostraver Township, Westmoreland County, PA. The Site consists of a former coal washing plant and refuse disposal pile. At least six underground storage tanks are located at the Site. An unknown quantity of fuel oil has been released to the environment from one of the tanks. The released product has traveled from the Site into a drainage channel along a former old railroad bed that now serves as a public hiking/biking trail. The drainage ditch discharges into a mine drainage treatment plant or directly to the Youghiogheny River.

The Department began an emergency response at the Site on May 26, 2002, to address the imminent threat to the public health and the environment. The Department constructed a siphon dam along the drainage ditch to prevent the oil from reaching the treatment plant or the Youghiogheny River. Absorbent booms and pads were placed along the drainage ditch to remove the accumulated oily substance. Two underground storage tanks were located near the oil observed on the surface of the Site.

One tank was determined to contain approximately 20,000 gallons of what appeared to be #6 fuel oil and water and the second tank contained approximately 2,000 gallons of what appeared to be kerosene and water. Approximately 18,000 gallons of material was removed from the #6 fuel oil tank. Visible contaminated soil at the Site was excavated and placed into roll-off boxes. The removed liquid and excavated soil will be disposed at an appropriate facility.

The current site conditions continue to present a substantial danger to the public health and the environment. Released hazardous substances remain in the drainage ditch along the public hiking/biking trail. There is a direct contact threat with the hazardous substances present in the drainage ditch due to the proximity to the trail. There remains a threat to surface waters from the released material. There remains a risk of contaminating Site groundwater from the released material at the Site and the material accumulated in the drainage ditch. There remains a direct contact threat to the hazardous substances contained in the tanks at the Site, as the Site is unsecured. A further release of hazardous materials is possible from the two underground storage tanks that have not been completely emptied and properly closed. There remains a fire threat due to the ignitable chemicals remaining onsite.

The Department considered several alternatives at the Site, including: no action, securing of the site and removal and disposal of the released hazardous substances at the Site. The Department determined that removal and disposal of the hazardous substances was the appropriate course of action. This alternative was selected because it complied with all applicable laws and regulations and was determined to be the most environmentally sound procedure for this site.

The Department began a prompt interim response to remove and dispose of the waste at the Site on June 11, 2002. All hazardous materials at the Site will be removed and properly disposed. The Department, following the public hearing and comment period, will complete a Statement of Decision and Response to comments.

This notice is being provided under sections 505(b) and 506(b) of the HSCA. The administrative record which contains the information that forms the basis and documents the selection of this response action is available for public review and comment. The administrative record is located at the Department's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA and is available for review Monday through Friday from 8 a.m. to 4 p.m.

The administrative record will be open for comment from August 17, 2002, until November 17, 2002. Persons may submit written comments into the record during this time only, by sending them to Kevin Halloran, Environmental Cleanup Program, 400 Waterfront Drive, Pittsburgh, PA 15222.

In addition, persons may present oral comments, for inclusion in the administrative record, at a public hearing. The Department has scheduled the hearing on September 18, 2002, at 7 p.m. at the Belle Vernon Area High School, 250 Crest Avenue, Belle Vernon, PA. Persons wishing to present comments must register before September 18, 2002, with Betsy Mallison, 400 Waterfront Drive, Pittsburgh, PA 15222, (412) 442-4182. If no person registers to present oral comments, the hearing will not be held. Persons interested in finding out if anyone has registered and if the hearing will be held should contact Betsy Mallison at (412) 442-4182.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings, should call Betsy Mallison at (412) 442-4000 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.
