READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

PROPOSED RULEMAKING

DEPARTMENT OF REVENUE

[61 PA. CODE CHS. 31, 46 AND 60]

Sales and Use Tax; Prebuilt Housing

The Department of Revenue (Department), under section 270 of the Tax Reform Code of 1971 (TRC) (72 P. S. § 7270), proposes to delete §§ 31.30, 46.8 and 61.18 (relating to house trailers and mobile homes; industrialized housing; and sale and installation of prefabricated housing) and proposes to add § 31.33 (relating to prebuilt housing) to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

The proposed rulemaking codifies legislative changes relating to prebuilt housing in sections 201(g)(8) and (vv)—(zz), 202(f) and 204(60) of the TRC (72 P. S. §§ 7201(g)(8) and (vv)—(zz), 7202(f) and 7204(60)).

Explanation of Regulatory Requirements

Proposed § 31.33 sets forth the new rules relating to prebuilt housing. Definitions for use in the section are set forth in subsection (a). Imposition rules for a builder for sales and trade-ins are set forth in subsection (b).

Consistent with section 202(f) of the TRC which provides that a manufacturer may elect to precollect the tax from the builder at the time of sale to the builder, subsection (c) describes the rules which govern the precollection. Subsection (d) explains that no exemptions apply to the sale of prebuilt housing.

Subsection (e) explains that the provisions of this regulation do not apply to the sale and installation of prefabricated buildings, components and accessories which do not qualify as prebuilt housing and are governed by § 31.11 (relating to definitions). Similarly, subsection (f) explains that the section does not apply to the repair and maintenance of prebuilt housing and once again § 31.11 applies.

Upon adoption of § 31.33, provisions inconsistent with this section (§§ 31.30, 46.8 and 60.18) will be deleted from the *Pennsylvania Code*.

Affected Parties

Manufacturers, builders and purchasers of prebuilt housing may be affected by this proposed rulemaking.

Fiscal Impact

The Department has determined that this proposed rulemaking will have minimal fiscal impact on the Commonwealth.

Paperwork

This proposed rulemaking will not create additional paperwork for the public or the Commonwealth.

Effectiveness/Sunset Date

This proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*. The regulations are scheduled for review within 5 years of final-form publication. No sunset date has been assigned.

Contact Person

Interested persons are invited to submit in writing any comments, suggestions or objections regarding the pro-

posed amendment to Mary R. Sprunk, Office of Chief Counsel, Department of Revenue, Dept. 281061, Harrisburg, PA 17128-1061, within 30 days after the date of the publication of this notice in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on November 4, 2004, the Department submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Finance and the Senate Committee on Finance. In addition to submitting the proposed rulemaking, the Department has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Department.

The Committees may, at any time prior to the submittal of the final-form rulemaking, convey to the Department and IRRC, their comments, recommendations and objections to the proposed rulemaking. IRRC may, within 30 days of the close of the public comment period, submit to the Department and Committees any comments, recommendations and objections to the proposed rulemaking. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review of objections raised, prior to final publication of the amendments, by the Department, the General Assembly and the Governor.

GREGORY C. FAJT,
Secretary

Fiscal Note: 15-426. No fiscal impact; (8) recommends adoption.

TITLE 61. REVENUE

PART I. DEPARTMENT OF REVENUE

Subpart B. GENERAL FUND REVENUES

ARTICLE II. SALES AND USE TAX

CHAPTER 31. IMPOSITION

§ 31.30. (Reserved).

(Editor's Note: As part of this proposed rulemaking, the Department is proposing to delete the text of § 31.30 which appears at 61 Pa. Code pages 31-38 to 31-54, serial pages (265204) to (265210). Section 31.33 is proposed to be adopted and is printed in regular text to enhance readability.)

§ 31.33. Prebuilt housing.

(a) *Definitions.* The following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

Prebuilt housing— Prebuilt housing which qualifies either as:

(i) Manufactured housing, including mobile homes, which bears the label required by and referred to in the Manufactured Housing Construction and Safety Standards Authorization Act (35 P. S. §§ 1656.1—1656.9).

(ii) Industrialized housing as defined in the Industrialized Housing Act (35 P. S. §§ 1651.1—1651.12).

(iii) The term includes all components or accessories transferred at the time of the sale of the prebuilt housing.

Prebuilt housing builder— A person, including a prebuilt housing manufacturer, who makes a prebuilt housing sale to a prebuilt housing purchaser.

Prebuilt housing manufacturer— A manufacturer of prebuilt housing.

Prebuilt housing manufacturer's selling price—

(i) The total value of anything paid or delivered or promised to be paid or delivered, whether it be money or otherwise, by a prebuilt housing builder to a prebuilt housing manufacturer, for prebuilt housing, add-ons, insurance, seals, deposits, dues, optional equipment and similar charges whether or not the charges are separately stated on one or more purchase agreements.

(ii) The term does not include amounts representing delivery charges, erection charges or set-up fees.

Prebuilt housing purchaser— A person who purchases prebuilt housing in a transaction and who intends to occupy the unit for residential purposes in this Commonwealth. Temporary installation by a prebuilt housing builder for display purposes of a unit held for resale will not be considered occupancy for residential purposes.

Prebuilt housing sale— A sale of prebuilt housing to a prebuilt housing purchaser, including a sale to a landlord, without regard to whether the person making the sale is responsible for installing the prebuilt housing or whether the prebuilt housing becomes real estate upon installation.

Purchase price— The purchase price of prebuilt housing shall be 60% of the prebuilt housing manufacturer's selling price. A prebuilt housing manufacturer of prebuilt housing who elects to precollect tax from the prebuilt housing builder shall have the option to collect tax on 60% of the prebuilt housing manufacturer's selling price or on 100% of the prebuilt housing manufacturer's cost of the materials and equipment incorporated into the prebuilt housing.

Used prebuilt housing— Prebuilt housing that was previously subject to a prebuilt housing sale to a prebuilt housing purchaser.

(b) *Imposition of tax.*

(1) *Prebuilt housing builder sales.* A prebuilt housing builder is required to pay tax upon the purchase price of prebuilt housing sold to a prebuilt housing purchaser within this Commonwealth, if the prebuilt housing builder has not paid the applicable tax to the prebuilt housing manufacturer. The prebuilt housing builder is required to pay tax without regard to whether the prebuilt housing is sold as tangible personal property or as real estate. The prebuilt housing builder's written contract with the prebuilt housing purchaser should clearly indicate that the prebuilt housing builder paid applicable tax.

(2) *Trade-in.* The value of a trade-in by a prebuilt housing purchaser to a prebuilt housing builder in connection with the purchase of housing may not be used to reduce the purchase price upon which the prebuilt housing builder is required to pay tax.

(3) *Used prebuilt housing.* Sales tax is not imposed upon the purchase price of used prebuilt housing.

(c) *Prebuilt housing manufacturer's election to collect tax.*

(1) Although the law requires the prebuilt housing builder to pay tax directly to the Department, the law also provides that the prebuilt housing manufacturer has the option to collect tax from the prebuilt housing builder at the time of the purchase of the prebuilt housing by the prebuilt housing builder from the prebuilt housing manufacturer. If the prebuilt housing manufacturer elects to collect tax, the prebuilt housing manufacturer is required to use either of the following to establish the purchase price:

(A) Sixty percent of the prebuilt housing manufacturer's selling price.

(B) One hundred percent of the prebuilt housing manufacturer's cost of materials and equipment incorporated into or as a component of the housing.

(2) If a prebuilt housing manufacturer is also acting as a prebuilt housing builder, the purchase price of the prebuilt housing shall be 60% of the prebuilt housing manufacturer's selling price.

(3) A prebuilt housing manufacturer is not permitted to alternate between these two methods of calculation without prior authorization from the Department.

(d) *Exemptions.* No exemptions apply to the sale of prebuilt housing. Prebuilt housing manufacturers are therefore not required to obtain exemption certificates from prebuilt housing builders. Unless the prebuilt housing manufacturer elects to precollect the tax, the prebuilt housing builder is obligated to remit tax to the Commonwealth on its sale of prebuilt housing to a prebuilt housing purchaser.

(e) *Prefabricated buildings and components which do not qualify as prebuilt housing.* The changes in the law as outlined in this section relate only to prebuilt housing as that term is defined. Therefore, the sale and installation of prefabricated buildings, components and accessories which do not qualify as prebuilt housing are governed by § 31.11 (relating to definitions). Sales of prefabricated buildings, components and accessories, which do not include installation, qualify as sales of tangible personal property. Examples include construction site trailers, travel trailers and modular space units.

(f) *Repair and maintenance of prebuilt housing.* This section relates only to prebuilt housing sales and does not apply to the repair and maintenance of prebuilt housing. The application of tax upon charges made for the repair and maintenance of prebuilt housing is governed by § 31.11.

This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101– 6026.908).

Sections 302-305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of

Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

Coal Applications Received

Effluent Limits

The following coal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

Oaks Water Treatment Plant Expansion, Lower Perkiomen Valley Regional Sewer Authority (LPVRSa).

The project proposes to modify the existing treatment plant facility to accommodate the increase in sewage from 9.5 mgd to 14.5 mgd. The two major impacts of the project are the expansion of the footprint of the existing wastewater treatment plant main building and the raising of the grade of the entire site above the 100-year floodplain elevation at the confluence of the Perkiomen Creek (WWF-MF) and Schuylkill River. The work associated with obstruction and encroachment within the floodplain will involve the following:

1. Construction and maintenance of additional 27,000 square feet of structure to the main wastewater treatment plant.
2. Construction and maintenance of a new 28,000 square foot maintenance building.
3. Removal of approximately 1,000 square feet of the existing Grid Chambers Building.
4. Minor grading activities involving the removal of 62,000 square feet of pavement, raising the height of manholes, and removal of fence to accommodate the grading work.

 PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101– 6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documenta-

tion supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. Request for Comment and Notice of Public Meeting For the Proposed Total Maximum Daily Load (TMDL) for the Elk Creek Watershed

The Department of Environmental Protection (Department) is holding a public meeting on December 15, 2004, beginning at 6 p.m. at the Elk County Court House Annex in Ridgway, PA, to discuss and accept comments on a proposed TMDL, established in accordance with the requirements of the 1996 Section 303(d) of the Clean Water Act. Five stream segments in the Elk Creek Watershed have been identified as impaired on the 1996-303(d) list due to depressed pH and/or high concentrations of metals. The listed segments and miles degraded are shown in the following table:

Stream Code	Stream Name	Miles Degraded
50459	Elk Creek	16.3
50459	Elk Creek (North Branch)	0.8
50518	Elk Creek (South Branch)	3.6
50473	Daguscahonda Run	6.0
50513	Iron Run	1.0

The proposed plan provides calculations of stream's total capacity to accept metals (aluminum, iron, manganese, and acidity), pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

Parameter	Criterion value (mg/l)	Total Recoverable/ Dissolved
Aluminum	0.1 of the 96 hour LC 50 0.75	Total Recoverable
Iron	1.5 0.3	Total Recoverable Dissolved
Manganese	1.00	Total Recoverable
pH	6.0—9.0	NA

The primary pollutant source for the watershed is abandoned mine workings. This watershed was heavily mined for coal and clay in the late 19th and to the mid 20th centuries. The effects of this are still present. Mining continues today in the watershed. All of the allocations made in the TMDL are load allocations (LA), which are made to nonpoint sources of pollution.

The TMDL was developed using Monte Carlo Simulation to determine long-term average concentrations that each stream segment could accept and still meet water quality criteria 99 percent of the time. Monte Carlo Simulation allows for the expansion of a data set based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the TMDL.

The TMDL sets allowable loading rates for metals and acidity at specified points in the watershed. The basis of information used in the establishment of this TMDL is field data collected over the past three years.

The data and all supporting information used to develop the proposed TMDL are available from the Department. To request a copy of the proposed TMDL and an information sheet, contact Elias Heferle, Water Pollution Biologist, Knox District Mining Office, P. O. Box 669, Knox, PA 16232, (814) 797-1191. E-mail will be received at ehferle@state.pa.us. Directions to the Elk County Court House Annex can also be obtained through this contact. The TMDL can be viewed and printed by accessing the Department's website at www.dep.state.pa.us (PA Keyword: TMDL).

Written comments will be accepted at the previously listed address and must be postmarked by January 19, 2005. Persons who plan to make a presentation at the public meeting should notify the Department no later than 4 p.m. Friday, December 10, 2004. The Department will consider all comments in developing the final TMDL, which will be submitted to the Environmental Protection Agency for approval.

Individuals who plan to make a presentation at the public meeting should contact John Mital, Moshannon District Mining Office, at (814) 342-8200 no later than 4 p.m. on Wednesday, December 22, 2004. The Department will consider all comments in developing the final TMDL for the Sterling Run Watershed, which will be submitted to the Environmental Protection Agency for approval.

The proposed TMDL for the Sterling Run Watershed was established in accordance with the requirements of the Clean Water Act, Section 303(d). One stream segment in the Sterling Run Watershed has been identified as impaired on the 1996 Pennsylvania Section 303(d) list due to depressed pH and/or high concentrations of metals. The listed segment and miles degraded are shown in the following table:

<i>Stream Code (Segment ID)</i>	<i>Stream Name</i>	<i>Miles Degraded</i>
25573 (7151)	Sterling Run	9.7

The proposed plan provides calculations of the stream's total capacity to accept metals (aluminum, iron, manganese, and acidity), pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

<i>Parameter</i>	<i>Criterion value (mg/l)</i>	<i>Total Recoverable/ Dissolved</i>
Aluminum	0.75	Total Recoverable
Iron	1.5	Total Recoverable
Manganese	1.00	Total Recoverable
PH	6.0—9.0	NA

The primary pollutant source for the watershed is abandoned mine workings. This watershed was mined for coal in the 1900s. The effects of this are still present.

The proposed TMDL was developed using Monte Carlo Simulation to determine long-term average concentrations that each stream segment could accept and still meet

water quality criteria 99% of the time. Monte Carlo Simulation allows for the expansion of a data set based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the proposed TMDL. The proposed TMDL for the Sterling Run Watershed sets allowable loading rates for metals and acidity at specified points in the watershed. Field data collected over the past 2 years was used to establish the proposed TMDL for the Sterling Run Watershed. The data and all supporting information used to develop the proposed TMDL are available from the Department.

The Department will accept written comments on the proposed TMDL for the Sterling Run Watershed. All written comments must be postmarked by January 19, 2005, and sent to John Mital, Geologic Specialist, Department of Environmental Protection, Moshannon District Mining Office, 186 Enterprise Drive, Philipsburg, PA 16866, (814) 342-8200, jmital@state.pa.us.

To request a copy of the proposed TMDL and associated information sheet or to obtain directions to the Clearfield County Multiservice Center, contact John Mital at the phone number or e-mail address listed previously.

The proposed TMDL for the Sterling Run Watershed can be accessed through the Department's website at www.dep.state.pa.us (DEP Keyword TMDL).

Persons with a disability who require accommodations to attend this meeting should contact the Department at (814) 472-1900 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users) to discuss how the Department may accommodate their needs.

Proposed Revision to the State Implementation Plan for Architectural and Industrial Maintenance Coatings; Sherwin-Williams Company Variance Application for Clear Wood Coatings—Varnishes; Public Hearings

The Sherwin-Williams Company (Sherwin-Williams) has submitted an application, dated September 29, 2004, to the Department of Environmental Protection (Department) for a variance from the volatile organic compound (VOC) content limits in 25 Pa. Code § 130.603 (relating to standards) for “clear wood finishes—varnishes.” The Sherwin-Williams variance application was submitted in accordance with 25 Pa. Code § 130.606 (relating to application for variance), which provides that a person who cannot comply with the VOC content limits in 25 Pa. Code § 130.603(a) may apply in writing to the Department for a variance. In accordance with 25 Pa. Code § 130.606, the application for variance must address the specific grounds upon which the variance is sought, the proposed date by which compliance with 25 Pa. Code § 130.603(a) will be achieved and a compliance report detailing the methods by which compliance will be achieved. The Department will submit each Variance Order to the United States Environmental Protection Agency for approval as a State Implementation Plan (SIP) revision.

In accordance with 25 Pa. Code § 130.606, the Department will not grant a variance unless the applicant demonstrates in writing to the Department’s satisfaction that:

- (1) It is technologically infeasible for the applicant to comply with 25 Pa. Code § 130.603(a).
- (2) The public interest in issuing the variance would outweigh the public interest in avoiding increased emissions of air contaminants that would result from issuing the variance.
- (3) The compliance program proposed by the applicant can reasonably be implemented and will achieve compliance as expeditiously as possible.

Sherwin-Williams claims in the September 29, 2004, application for variance that it is technologically infeasible for Sherwin-Williams to formulate certain “clear wood coatings—varnishes” to comply with the VOC content limit for “clear wood coatings—varnishes” specified in 25 Pa. Code § 130.603(a) “. . . without creating unacceptable safety hazards, application, handling and performance problems for nonprofessional users; or substantially decreasing the solids content and thus increasing the number of coats required to achieve desired film thickness.” In the application for variance, Sherwin-Williams describes a research and development compliance plan by which compliance with the regulations will be achieved, and Sherwin-Williams indicates that the company’s research and development efforts are directed toward a targeted compliance goal of January 1, 2010.

In accordance with 25 Pa. Code § 130.610 (relating to public hearings), the Department will hold public hearings on the Sherwin-Williams variance application to seek public comment on the following:

- (1) Whether a variance from 25 Pa. Code § 130.603(a) is necessary.
- (2) Under what conditions a variance from 25 Pa. Code § 130.603(a) is necessary.

- (3) To what extent a variance from 25 Pa. Code § 130.603(a) is necessary.

In addition to the previous, the Department will also seek comments on a Department-proposed Variance Order for issuance to Sherwin-Williams, as well as proposed revisions to the SIP. The Department-proposed Variance Order for issuance to Sherwin-Williams includes a requirement that compliance with 25 Pa. Code § 130.603 will be achieved by January 1, 2010, and that incremental progress reports will be sent to the Department to assure timely compliance. A variance issued by the Department shall cease to be effective upon failure of the party to whom the variance was granted to comply with a term or condition of the variance.

Based on data provided by Sherwin-Williams regarding sales in this Commonwealth of the materials for which the variance is requested, the Department estimates that, if the variance is granted, Statewide VOC emissions will be approximately 0.3 ton per day higher than if Sherwin-Williams were to market coatings at the compliance level. For the five-county Southeast Pennsylvania ozone nonattainment area, the granting of the variance will result in VOC emissions approximately 0.08 ton per day higher than if the affected materials were formulated at compliance levels.

Public Hearings

The Department will hold two public hearings to receive comments on the variance application submitted by Sherwin-Williams, as well as the proposed SIP revisions and the Department-proposed Variance Order. The public hearings will be held as follows:

December 21, 2004, 10 a.m., Southeast Regional Office, Stoney Creek Conference Room, 2 East Main Street, Norristown, PA 19401

December 22, 2004, 1 p.m., Southcentral Regional Office, Juniata River Room, 909 Elmerton Avenue, Harrisburg, PA 17110

Individuals who wish to present testimony at the hearings should reserve a time by contacting Susan Ferree, P. O. Box 8468, Harrisburg, PA 17105, (717) 787-9495 or sferree@state.pa.us. Persons who do not reserve a time will be able to testify as time allows. Witnesses should keep testimony to 10 minutes and should provide two written copies at the hearing. Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact Wick Havens at (717) 787-9495. TDD users should contact the AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Written Comments

Written comments on the variance application submitted by Sherwin-Williams, as well as the proposed SIP revisions, and the Department-proposed Variance Order, should be sent by 12 p.m. on January 20, 2005, to Terry Black, Chief, Regulation and Policy Development Section, Division of Air Resource Management, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468.

stricted Account. These grants are available to reimburse airport owners for local real estate taxes paid on those portions of an airport which are aviation related areas, as defined in 74 Pa.C.S. § 5102 (relating to definitions). Prior to applying for a grant, each public airport owner shall enter into an agreement with the Department. This agreement shall specify that the owner shall continue, for a period of not less than 10 years, to maintain the property, for which the grant will be sought, as an airport at least equal in size and capacity as that indicated in the owner's initial grant application. This agreement shall be a covenant, which runs with the land and shall apply to any subsequent purchases of land. Upon acceptance of a grant, the covenant shall be deemed extended for 1 additional year. A violation of the agreement shall make the owner liable for the repayment of the total appropriation for the year plus a penalty of two times the grant. In any action wherein the owner is found to have violated the agreement, the Department will receive all costs of prosecution.

The final date for submission of applications for reimbursement of local real estate taxes paid in calendar year ending December 31, 2004, is the close of business on February 1, 2005. The Department of Transportation (Department), Bureau of Aviation, is accepting applications for Tax Reimbursement Grants from qualifying owners of public airports who have paid local real estate taxes for the calendar year ending December 31, 2004.

Each year, under 74 Pa.C.S. §§ 6121—6124 (relating to reimbursement of local real estate taxes for public airports) and 67 Pa. Code Chapter 477 (relating to local real estate tax reimbursement grants), the owner of a public airport shall be eligible for a grant from the local real estate tax reimbursement portion of the Aviation Re-

Finding

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Deputy Secretary for Highway Administration makes the following written finding:

The Federal Highway Administration and the Department of Transportation (Department) plan to reconstruct SR 2001 (Milford Road) from its intersection with SR 0739 in Delaware Township south to its intersection with U.S. Route 209 at Bushkill, PA for an approximate project length of 21.7 kilometers (13.5 miles). Included in the reconstruction are correction of substandard horizontal and vertical roadway curvature and replacement of the existing bridge and culvert crossings of Randalls Creek, Bear Road Run, Toms Creek, Briscoe Creek (Alicia's Creek), Hornbecks Creek and Dingman's Creek. Also included in the project are resurfacing, shoulder improve-

ments, signing, guiderail adjustments and a curve straightening on SR 0739 between the SR 2001 and U.S. Route 209 intersections.

The subject project will use approximately 15.3 hectares (37.8 acres) of the National Park Service (NPS) property within the designated boundaries of the Delaware Water Gap National Recreation Area.

The environmental, economic, social and other effects of the proposed project as enumerated in Section 2002 of the Administrative Code have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize effects. To minimize the harm to the Section 2002 protected property impacted by the project, the Department will minimize travel lane widths and use a 1.5 to 1 horizontal to vertical slope ratio in the area of the Delaware Water Gap National Recreation Area. Based on a meeting with the NPS, the replacement of parkland will involve a mutually agreeable combination of acreage and land value. In addition, the NPS will receive fair market value payment for all viable timber within those areas of the Delaware Water Gap National Recreation Area that is to be acquired for right-of-way purposes. The Department has committed to pursue the use of the Delaware River floodplain site offered by the NPS to conduct the proposed project's wetland mitigation efforts.

The Deputy Secretary for Highway Administration has considered the environmental, economic, social, and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 and has concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize effects.

GARY L. HOFFMAN, P. E.,
Deputy Secretary for Highway Administration

ENVIRONMENTAL HEARING BOARD

**Hatfield Township Municipal Authority v. DEP; EHB
Doc. No. 2003-165-K—Notice of Settlement and
Time Period for Public Comment**

The Department of Environmental Protection (Department) and Hatfield Township Municipal Authority (Hatfield) have agreed to a settlement of the previously captioned matter. The case involved Hatfield's appeal of the Department's issuance to it on June 23, 2003, of a Modification to Solid Waste and/or Processing Permit which, among other things, addressed the Department's Radiation Protection Action Plan requirements of 25 Pa. Code § 271.114 (relating to transition period). The terms of the parties' settlement is embodied in a Stipulation of Settlement, the major terms of which include, but are not limited to the following:

1. Hatfield has agreed to withdraw its appeal, without prejudice, given that the Department will reconsider all issues raised in the appeal as part of its review of Hatfield's application for a Minor Permit Modification/

Radiation Protection Action Plan dated December 29, 2003, and supplemented on April 30, 2004 and July 15, 2004 (collectively revised application);

2. The Department has agreed that:

a. Hatfield's withdrawal of the appeal is without prejudice to Hatfield's right to challenge or appeal the Department's future action on its revised application; and

b. Hatfield will not assert the doctrine of administrative finality in any appeal of the Department's action related to Hatfield's June 23, 2003, Modification of Solid Waste and/or Processing Permit or the revised application.

The parties wish to have the Stipulation of Settlement entered by the Environmental Hearing Board (Board) as an Order of the Board. Before the Board would do that, however, it is providing public notice of the intended settlement and of the parties' request that the Board enter their Stipulation of Settlement as an Order of the Board. Copies of the full Stipulation of Settlement can be obtained by contacting Gina M. Thomas, Esq., Department of Environmental Resources, Southeast Regional Counsel, 2 East Main Street, Norristown, PA 17401, (484) 250-5861 or Steven A. Hann, Esquire, Hamburg, Ruben, Mullin, Maxwell & Lupin, 375 Morris Road, Lansdale, PA 19446, (215) 661-0400. Copies of the Stipulation of Settlement are also available at the office of the Board and may be reviewed by interested parties on request during normal business hours. Interested members of the public may comment to the Board on the Stipulation of Settlement for a period of 30 days from the date of this notice.

FISH AND BOAT COMMISSION

**Change to List of Class A Wild Trout Waters;
Young Womans Creek, Clinton County**

The Fish and Boat Commission (Commission) has removed a section of Young Womans Creek from the list of Class A Wild Trout Streams as published at 34 Pa.B. 4655 (August 21, 2004). Specifically, the Commission removed Young Womans Creek, Section 02, Clinton County, from Beechwood Trail downstream to 1.2 kilometers upstream of the confluence with the Left Branch of Young Womans Creek, a distance of 5.7 miles. The Commission removed this section of stream, which was listed as a Class A wild brown trout water, because the Commission documented the total brown trout biomass to be below the set criterion of at least 40 kg/hg for two consecutive stream examinations. By removing this water from the Class A wild trout streams list, the Commission will increase its flexibility in how it manages the stream section without jeopardizing water quality protection.
