READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

This order shall be processed in accordance with Pa. R.J.A. 103(b) and shall be effective immediately.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1910. ACTIONS FOR SUPPORT

Rule 1910.11. Office Conference. Subsequent Proceedings. Order.

(a)(1) The office conference shall be conducted by a conference officer.

(2) A conference officer who is a lawyer employed by a judicial district shall not practice family law before a conference officer, permanent hearing officer or permanent or standing master employed by the same judicial district.

Official Note: Conference officers preside at office conferences under [**Support**] Rule 1910.11. Hearing officers preside at hearings under [**Support**] Rule 1910.12. The appointment of masters to hear actions in divorce or for annulment of marriage is authorized by [**Divorce**] Rule 1920.51.

(b) If the defendant fails to appear at the conference before the officer as directed by the court, the conference may proceed without the defendant.

(c) At the conference, the parties shall furnish to the officer true copies of their most recent federal income tax returns, their pay stubs for the preceding six months, verification of child care expenses and proof of medical coverage which they may have or have available to them. In addition, they shall provide copies of their income and expense statements in the form required by Rule 1910.27(c), completed as set forth below.

(1) For cases which can be determined according to the guideline formula, the income and expense statement need show only income and extraordinary expenses.

(2) For cases which are decided according to *Melzer v. Witsberger*, 505 Pa. 462, 480 A.2d 991 (1984), the entire income and expense statement must be completed.

(d) The conference officer may make a recommendation to the parties of an amount of support which is calculated in accordance with the guidelines. If an agreement for

support is reached at the conference, the officer shall prepare a written order substantially in the form set forth in Rule 1910.27(e) and in conformity with the agreement for signature by the parties and submission to the court together with the officer's recommendation for approval or disapproval. The court may enter the order in accordance with the agreement without hearing the parties.

(e) At the conclusion of the conference or promptly thereafter, the conference officer shall prepare a conference summary and furnish copies to the court and to both parties. The conference summary shall state:

(1) the facts upon which the parties agree [,];

(2) the contentions of the parties with respect to facts upon which they disagree [,]; and

(3) the conference officer's recommendation [,]; if any, of

(i) the amount of support and by and for whom the support shall be paid [,]; and

(ii) the effective date of any order.

(f) If an agreement for support is not reached at the conference, the court, without hearing the parties, shall enter an interim order calculated in accordance with the guidelines and substantially in the form set forth in Rule 1910.27(e). [**The order shall state**] Each party shall be provided, either in person at the time of the conference or by mail, with a copy of the interim order and written notice that any party may, within [**ten**] twenty days after the date of receipt or the date of the mailing of [**a copy of**] the interim order, whichever occurs first, file a written demand with the domestic relations section for a hearing before the court.

(g) A demand for a hearing before the court shall not stay the interim order entered under subdivision (f) unless the court so directs.

(h) If no party demands a hearing before the court within the [**ten**] twenty day period, the interim order shall constitute a final order.

(i) If a demand is filed, there shall be a hearing de novo before the court. The domestic relations section shall schedule the hearing and give notice to the parties. The court shall hear the case and enter a final order substantially in the form set forth in Rule 1910.27(e) within sixty days from the date of the written demand for hearing.

(j)(1) Promptly after receipt of the notice of the scheduled hearing, a party may move the court for a separate listing where:

(i) there are complex questions of law, fact or both [,]; or

(ii) the hearing will be protracted [,]; or

(iii) the orderly administration of justice requires that the hearing be listed separately.

(2) If the motion for separate listing is granted, discovery shall be available in accordance with Rule 4001 et seq.

[**(k) No motion for post-trial relief may be filed to the final order of support.**]

Official Note: The rule relating to discovery in domestic relations matters generally is Rule 1930.5.

(k) No motion for post-trial relief may be filed to the final order of support.

Explanatory Comment—1995

Rule 1910.11(e) is amended to eliminate the need for a party to request a copy of the conference summary.

In conformity with the amendment of Pa.R.C.P. 236, subdivision (f) is amended to require that the parties be served with a copy of the order, rather than notice that it has been filed. In addition, subdivision (f) is amended to require the court to enter an interim order on the basis of the conference summary, expediting the commencement of support payments. The language of subdivisions (g) and (i) is also changed to conform with the amended language of subdivision (f).

Because the court is required to enter a guideline order on the basis of the conference officer's recommendation, there is no need for (g)(2), which provided for a hearing before the court where an order was not entered within five days of the conference. It is eliminated accordingly.

Pursuant to subdivision (g), support payments are due and owing under the interim order which continues in effect until the court enters a final order after the hearing de novo. The provision for an interim order serves two purposes. First, it ensures that the obligee will receive needed support for the period during which the judicial determination is sought. Second, it eliminates the motive in delay in seeking a judicial determination. Therefore, the plaintiff and the dependent children are not prejudiced by allowing the court sixty days, rather than the original forty-five, in which to enter its final order.

Explanatory Comment—2006

The time for filing a written demand for a hearing before the court has been expanded from ten to twenty days. The purpose of this amendment is to provide ample opportunity for litigants and counsel to receive notice of the entry of the order, to assure commonwealth-wide consistency in calculation of time for filing and to conform to applicable general civil procedural rules.

Rule 1910.12. Office Conference. Hearing. Record. Exceptions. Order.

(a) There shall be an office conference as provided by Rule 1910.11(a) through (d).

(b)(1) At the conclusion of a conference attended by both parties, if an agreement for support has not been reached, and the conference and hearing are not scheduled on the same day, the court, without hearing the parties, shall enter an interim order calculated in accordance with the guidelines and substantially in the form set forth in Rule 1910.27(e), and the parties shall be given notice of the date, time and place of a hearing. A record hearing shall be conducted by a hearing officer who must be a lawyer.

(2) If the defendant, having been properly served, fails to attend the conference, the court shall enter an interim order calculated in accordance with the guidelines and substantially in the form set forth in Rule 1910.27(e). Within **[ten] twenty** days after the date of **receipt or the date of mailing of the interim order, whichever occurs first**, either party may demand a hearing before a hearing officer. If no hearing is requested, the order shall become final.

(3) A hearing officer employed by a judicial district shall not practice family law before a conference officer, hearing officer or permanent or standing master employed by the same judicial district.

Official Note: Conference officers preside at office conferences under **[Support]** Rule 1910.11. Hearing officers preside at hearings under **[Support]** Rule 1910.12. The appointment of masters to hear actions in divorce or for annulment of marriage is authorized by **[Divorce]** Rule 1920.51.

(c)(1) Except as provided in subdivision (c)(2), promptly after conclusion of the conference, a party may move the court for a separate listing of the hearing where:

(i) there are complex questions of law, fact or both[,]; or

(ii) the hearing will be protracted[,]; or

(iii) the orderly administration of justice requires that the hearing be listed separately.

(2) Where the conference and hearing are scheduled on the same day, all requests for separate listing must be presented to the court at least seven days prior to the scheduled court date.

(3) If the motion for separate listing is granted, discovery shall be available in accordance with Rule 4001 et seq.

Official Note: The rule relating to discovery in domestic relations matters generally is Rule 1930.5.

(d) The hearing officer shall receive evidence, hear argument and file with the court a report containing a recommendation with respect to the entry of an order of support. The report may be in narrative form stating the reasons for the recommendation and shall include a proposed order substantially in the form set forth in Rule 1910.27(e) stating:

(1) the amount of support calculated in accordance with the guidelines[,];

(2) by and for whom it shall be paid[,]; and

(3) the effective date of the order.

A copy of the report shall be furnished to all parties at the conclusion of the hearing.

(e) The court, without hearing the parties, shall enter an interim order **consistent with the proposed order of the hearing officer. [The order shall state] Each party shall be provided, either in person at the time of the hearing or by mail, with a copy of the interim order and written notice** that any party may, within **[ten] twenty** days after the date of **receipt or the date of mailing of the order, whichever occurs first**, file with the domestic relations section written exceptions to **[that] the report [with the domestic relations section] of the hearing officer and interim order.**

Official Note: Objections to the entry of an interim order consistent with the proposed order may be addressed pursuant to Rule 1910.26.

(f) Within **[ten] twenty** days after the date of **receipt or the date of mailing of the report** by the hearing officer, **whichever occurs first**, any party may file exceptions to the report or any part thereof, to rulings on objections to evidence, to statements or findings of facts, to conclusions of law, or to any other matters occurring during the hearing. Each exception shall set

forth a separate objection precisely and without discussion. Matters not covered by exceptions are **[demand] deemed** waived unless, prior to entry of the final order, leave is granted to file exceptions raising those matters. If exceptions are filed, any other party may file exceptions within **[ten] twenty** days of the date of service of the original exceptions.

(g) If no exceptions are filed within the **[ten] twenty**-day period, the **interim** order shall constitute a final order.

(h) If exceptions are filed, the interim order shall continue in effect. The court shall hear argument on the exceptions and enter an appropriate final order substantially in the form set forth in Rule 1910.27(e) within sixty days from the date of the filing of exceptions to the interim order. No motion for post-trial relief may be filed to the final order.

Explanatory Comment—1995

Language is added to subdivision (b) to acknowledge that the conference and hearing can be held on the same day, and to provide for the immediate entry of an interim order in judicial districts where the hearing occurs at a later date. New subdivision (b)(2) permits entry of a guideline order after a conference which the defendant, though properly served, fails to attend. New subdivision (c)(2) is intended to prevent delays in the hearing of complex cases by requiring that requests for separate listing be made at least seven days in advance where the conference and hearing are scheduled on the same day.

In addition, the phrase “record hearing” in subdivision (a) replaces the reference to a “stenographic record” in recognition of the variety of means available to create a reliable record of support proceedings.

Amended subdivision (e) allows an interim order to be entered and served on the parties at the conclusion of the hearing, rather than after the expiration of the exceptions period as was true under the old rule. In addition, the amended subdivision requires that the interim order include language advising the parties of their right to file exceptions within ten days of the date of the order.

Support payments are due and owing under the interim order which continues in effect until the court enters a final order after considering the parties’ exceptions. Therefore, extension of the deadline for entering the final order by fifteen days does not prejudice the persons dependent upon payment of the support.

Explanatory Comment—2006

The time for filing exceptions has been expanded from ten to twenty days. The purpose of this amendment is to provide ample opportunity for litigants and counsel to receive notice of the entry of the order, to assure commonwealth-wide consistency in calculation of time for filing and to conform to applicable general civil procedural rules.

CHAPTER 1915. ACTIONS FOR CUSTODY, PARTIAL CUSTODY AND VISITATION OF MINOR CHILDREN

Rule 1915.4-2. Office Conference. Hearing. Record. Exceptions. Order.

* * * * *

(d) At the conclusion of the conference if an agreement relating to partial custody or visitation has not been reached, the parties shall be given notice of the date, time and place of a hearing, which may be the same day, but

in no event shall be more than **[45] forty-five** days from the date of the conference. The hearing shall be conducted by a hearing officer who must be a lawyer, and a record shall be made of the testimony.

(e) The hearing officer shall receive evidence and hear argument. The hearing officer may recommend to the court that the parties and/or the subject child or children submit to examination and evaluation by experts pursuant to Rule 1915.8.

(f) Within **[10] ten** days of the conclusion of the hearing, the hearing officer shall file with the court and **[served] serve** upon all parties a report containing a recommendation with respect to the entry of an order of partial custody or visitation. The report may be in narrative form stating the reasons for the recommendation and shall include a proposed order, including a specific schedule for partial custody or visitation.

(g) Within **[ten] twenty** days after the date **[of] the hearing officer's report [by the hearing officer] is mailed or received by the parties, whichever occurs first**, any party may file exceptions to the report or any part thereof, to rulings on objections to evidence, to statements or findings of fact, to conclusions of law, or to any other matters occurring during the hearing. Each exception shall set forth a separate objection precisely and without discussion. Matters not covered by exceptions are deemed waived unless, prior to entry of the final order, leave is granted to file exceptions raising those matters. If exceptions are filed, any other party may file exceptions within **[ten] twenty** days of the date of service of the original exceptions.

(h) If no exceptions are filed within the **[ten] twenty**-day period, the court shall review the report and, if approved, enter a final order.

(i) If exceptions are filed, the court shall hear argument on the exceptions within **[45] forty-five** days of the date the last party files exceptions, and enter an appropriate final order within **[15] fifteen** days of argument. No motion for Post-Trial Relief may be filed to the final order.

Explanatory Comment—1994

These new rules provide an optional procedure for using hearing officers in partial custody and visitation cases. The procedure is similar to the one provided for support cases in Rule 1910.12: a conference, record hearing before a hearing officer and argument on exceptions before a judge. The terms “conference officer” and “hearing officer” have the same meaning here as in the support rules.

It is important to note that use of the procedure prescribed in Rules 1915.4-1 and 1915.4-2 is optional rather than mandatory. Counties which prefer to have all partial custody and visitation cases heard by a judge may continue to do so.

These procedures are not intended to replace or prohibit the use of any form of mediation or conciliation. On the contrary, they are intended to be used in cases which are not resolved through the use of less adversarial means.

Explanatory Comment—2006

The time for filing exceptions has been expanded from ten to twenty days. The purpose of this amendment is to provide ample opportunity for litigants and counsel to receive notice of the entry

of the order, to assure commonwealth-wide consistency in calculation of time for filing and to conform to applicable general civil procedural rules.

CHAPTER 1920. ACTIONS OF DIVORCE OR FOR ANNULMENT OF MARRIAGE

Rule 1920.55-2. Master's Report. Notice. Exceptions. Final Decree.

- (a) After conclusion of the hearing, the master shall:
- (1) file the record and the report within;
 - (i) twenty days in uncontested actions or [,];
 - (ii) thirty days after the receipt of the transcript by the master in contested actions [,]; and
 - (2) immediately serve upon counsel for each party, or, if unrepresented, upon the party, a copy of the report and recommendation and written notice of the right to file exceptions.

(b) Within [ten] twenty days of the **date of receipt or the date of mailing** of the master's report and recommendation, **whichever occurs first**, any party may file exceptions to the report or any part thereof, to rulings on objections to evidence, to statements or findings of fact, to conclusions of law, or to any other matters occurring during the hearing. Each exception shall set forth a separate objection precisely and without discussion. Matters not covered by exceptions are deemed waived unless, prior to entry of the final decree, leave is granted to file exceptions raising those matters.

(c) If exceptions are filed, any other party may file exceptions within [ten] twenty days of the date of service of the original exceptions. The court shall hear argument on the exceptions and enter a final decree.

(d) If no exceptions are filed, the court shall review the report and, if approved, shall enter a final decree.

(e) No Motion for Post-Trial Relief may be filed to the final decree.

Explanatory Comment—1995

The amendments create alternative procedures for appeal from the recommendation of a master in divorce. Rule 1920.55-1 states that, if the court chooses to appoint a master, the exceptions procedure set forth in Rule 1920[-].55-2 will be used unless the court has, by local rule, adopted the alternative procedure of Rule 1920.55-3.

Explanatory Comment—2006

The time for filing exceptions has been expanded from ten to twenty days. The purpose of this amendment is to provide ample opportunity for litigants and counsel to receive notice of the report and recommendation, to assure commonwealth-wide consistency in calculation of time for filing and to conform to applicable general civil procedural rules.

Rule 1920.55-3. Master's Report. Notice. Hearing De Novo. Final Decree.

- (a) No record shall be made of the hearing in proceedings held pursuant to this rule.
- (b) After the conclusion of hearing, the master shall:
- (1) file the report within;
 - (i) twenty days in uncontested actions or [,];
 - (ii) thirty days in contested actions [,]; and

(2) immediately serve upon counsel for each party, or, if unrepresented, upon the party, a copy of the report and recommendation, and written notice of the right to demand a hearing de novo.

(c) Within [ten days after] twenty days of the date the master's report is mailed or received, **whichever occurs first**, any party may file a written demand for a hearing de novo. If a demand is filed, the court shall hold a hearing de novo and enter a final decree.

(d) If no demand for de novo hearing is filed within **the [ten days of the date the report is mailed] twenty-day period**, the court shall review the report and recommendation and, if approved, shall enter a final decree.

(e) No Motion for Post-Trial Relief may be filed to the final decree.

Explanatory Comment—1995

The amendments create alternative procedures for appeal from the recommendation of a master in divorce. Rule 1920.55-1 states that, if the court chooses to appoint a master, the exceptions procedure set forth in Rule 1920[-].55-2 will be used unless the court has, by local rule, adopted the alternative procedure of Rule 1920.55-3.

Explanatory Comment—2006

The time for filing exceptions has been expanded from ten to twenty days. The purpose of this amendment is to provide ample opportunity for litigants and counsel to receive notice of the report and recommendation, to assure commonwealth-wide consistency in calculation of time for filing and to conform to applicable general civil procedural rules.

CHAPTER 1930. RULES RELATING TO DOMESTIC RELATIONS MATTERS GENERALLY

Rule 1930.4. Service of Original Process in Domestic Relations Matters.

(a) Persons Who May Serve. Original process in all domestic relations matters may be served by the sheriff or a competent adult:

- (1) by handing a copy to the defendant; or
- (2) by handing a copy;

(i) at the residence of the defendant to an adult member of the family with whom the defendant resides; but if no adult member of the family is found, then to an adult person in charge of such residence; or

(iii) at any office or usual place of business of the defendant to the defendant's agent or to the person for the time being in charge thereof.

- (3) or pursuant to special order of court.

Official Note: See Rule 76 for the definition of "competent adult." **Service upon an incarcerated person in a domestic relations action must also include notice of any hearing in such action, and specific notice of the incarcerated individual's right to apply to the court for a writ of habeas corpus ad testificandum to enable him or her to participate in the hearing. The writ is available where an incarcerated individual wishes to testify as provided by statute or**

rule, as well as where the individual's testimony is sought by another. *Vanaman v. Cowgill*, 363 Pa. Super. 602, 526 A.2d 1226 (1987). See 23 Pa.C.S.A. § 4342(j) and Rule 1930.3. In determining whether a writ of habeas corpus ad testificandum should be issued, a court must weigh the factors set forth in *Salemo v. Salemo*, 381 Pa. Super. 632, 554 A.2d 563 (1989).

RULES AND REGULATIONS

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CHS. 63, 65, 71 AND 73]

Fishing

The Fish and Boat Commission (Commission) amends Chapters 63, 65, 71 and 73. The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. Effective Date

This final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

B. Contact Person

For further information on this final-form rulemaking, contact Laurie E. Shepler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's website at www.fish.state.pa.us.

C. Statutory Authority

The amendment to § 63.20 (relating to permits for the protection and management of trout and salmon) is published under the statutory authority of section 2904 of the code (relating to permits for protection and management of particular fish). The amendments to §§ 63.46, 71.6 and 73.1 (relating to sale, purchase or barter of injurious, nonnative species; prohibited acts; and transportation) are published under the statutory authority of section 2102 of the code (relating to rules and regulations). The amendment to § 65.24 is published under the statutory authority of section 2307 of the code (relating to waters limited to specific purposes).

D. Purpose and Background

The final-form rulemaking is designed to update, modify and improve the Commission's fishing regulations. The specific purpose of the amendments is described in more detail under the summary of changes.

E. Summary of Changes

(1) *Section 63.20*. The requirements for when and where an angler needs a trout/salmon permit are, and historically have been, in § 63.20. With the recent simplification of the specially regulated trout programs in Chapter 65 (relating to special fishing regulations), the special trout regulations were amended to expressly provide, among other things, that a trout/salmon permit is required in those waters and the requirement in § 63.20 was deleted.

Upon a closer review of the amendments, the Commission has determined that as a result of the amendment to § 63.20, the Commission's law enforcement officers may no longer cite someone under section 2908 of the code (relating to penalties) for fishing in a specially regulated trout water without the required trout/salmon permit. They may only issue a citation under section 2102 of the code. Section 2908 of the code allows imposition of an additional penalty for not having the required permits.

To allow the Bureau of Law Enforcement to initiate an enforcement action under section 2908 of the code for failing to possess a trout/salmon permit while fishing in a specially regulated trout water, an amendment restoring this provision to § 63.20 was required. Accordingly, the Commission amended § 63.20 to read as set forth in the proposed rulemaking.

(2) *Sections 63.46, 71.6 and 73.1*. From time to time, the Commission has found it desirable to specifically prohibit the sale, purchase or barter, possession, introduction, importation and transportation of certain injurious, nonnative species. There are currently nine species listed. They are snakehead (all species), black carp (*Mylopharyngodon piceus*), bighead carp (*Hypophthalmichthys nobilis*), silver carp (*Hypophthalmichthys molitrix*), zebra mussel (*Dreissena polymorpha*), quagga mussel (*Dreissena bugensis*), round goby (*Neogobius melanostomus*), tubenose goby (*Proterothinus marmoratus*) and European rudd (*Scardinius erythrophthalmus*).

The Commission proposed adding the rusty crayfish (*Orconectes rusticus*) and ruffe (*Gymnocephalus cernuus*) to this list. Rusty crayfish have been introduced into this Commonwealth and have expanded their range primarily in the Susquehanna River basin. They are an aggressive riverine species, and the Commission should provide regulatory disincentives to relocating rusty crayfish from one water body to another. Ruffe is an invasive species in the Great Lakes. However, it has not yet been captured in the Pennsylvania waters of Lake Erie. This species has the potential to compete with yellow perch and should be prevented from being introduced into this Commonwealth. Accordingly, the Commission amended §§ 63.46, 71.6 and 73.1 to read as set forth in the proposed rulemaking.

(3) *Section 65.24*. Since 1999, Cross Creek Lake has been regulated and managed under § 65.9 (relating to big bass special regulations). The lake also is regulated and managed under § 65.11 (relating to panfish enhancement special regulation). When Cross Creek Lake was added to these special regulations programs, the Commission intended that it be removed from the miscellaneous special regulations under § 65.24. However, due to an oversight, the change did not occur at that time. The Commission accordingly proposed to amend § 65.24 to delete the miscellaneous special regulation. The Commission adopted the deletion as set forth in the proposed rulemaking.

F. Paperwork

The final-form rulemaking will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will impose no new costs on the private sector or the general public.

H. Public Involvement

A notice of proposed rulemaking was published at 36 Pa.B. 1655 (April 8, 2006). The Commission did not receive public comments concerning the proposed rulemaking.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided and no comments were received.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 63, 65, 71 and 73, are amended by amending §§ 63.20, 63.46, 65.24, 71.6 and 73.1 to read as set forth in 36 Pa.B. 1655.

(b) The Executive Director will submit this order and 36 Pa.B. 1655 to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and 36 Pa.B. 1655 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

PROPOSED RULEMAKING

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Proposed Temporary Amendments to the Water Quality Regulations, Water Code and Comprehensive Plan to Extend the Designation of the Lower Delaware River as a Special Protection Water

Summary

The Delaware River Basin Commission (Commission) will hold a public hearing to receive comments on a proposed amendment to the Commission's *Water Quality Regulations, Water Code and Comprehensive Plan* to extend through September 30, 2007, the temporary classification of the Lower Delaware River as Significant Resource Waters (SRW). The SRW classification was enacted by Commission Resolution No. 2005-2 on January 19, 2005, and initially was due to expire on September 30, 2005. Based upon analysis of additional water quality data, the Commission proposed to decide by that date whether to classify certain sections of the Lower Delaware River as Outstanding Basin Waters and whether to make the SRW classification permanent for some or all of the Lower Delaware. By Resolution No. 2005-15 approved on September 26, 2005, the temporary classification was extended through September 30, 2006, to allow time for the Commission to evaluate implementation options and establish numeric values for existing water quality. To complete its evaluation of implementation approaches, the Commission is proposing to extend the temporary classification for up to 12 months more. If approved, the classification would thus expire on September 30, 2007, unless the Commission should either permanently classify the Lower Delaware River or once again extend the temporary classification by rule amendment prior to that date.

Permanent classification is anticipated, following an additional notice and comment rulemaking when the Commission has resolved remaining implementation issues. Extending the temporary classification will help to protect the exceptional scenic, recreational and water quality values of the Lower Delaware from degradation in the interim.

Dates

The public hearing will take place on Wednesday, September 27, 2006, during the Commission's regular business meeting, which will be held at the Commission's office building, located at 25 State Police Drive, West Trenton, NJ, beginning at 1:30 p.m. Driving directions are available on the Commission's website, www.drbc.net. Persons wishing to testify are asked to register in advance with the Commission Secretary, at (609) 883-9500, Ext. 203. Written comments will be accepted through the close of the public hearing; however earlier submittals would be appreciated.

Supplementary Information

The Lower Delaware extends from the southern boundary of the Delaware Water Gap National Recreation Area at River Mile (RM) 209.4 to the head of tide at Trenton, NJ, RM 144.4. The effect of temporary classification of

the Lower Delaware as SRW has been to make this portion of the main stem Delaware River and its drainage area subject to all applicable provisions of the Commission's Special Protection Waters regulations, Section 3.10.3A.2 of the Commission's *Water Quality Regulations*, except those that depend for implementation upon the use of numeric values for existing water quality.

Key provisions of the Special Protection Waters Regulations that will continue to apply within the drainage area to the Lower Delaware River if the proposed extension of the SRW classification is approved include but are not limited to the following: subsections 3.10.3A.2.c.1 through 3, in part requiring that no new or expanded wastewater discharges may be permitted in waters classified as Special Protection Waters until all nondischarge-load reduction alternatives have been fully evaluated and rejected because of technical or financial infeasibility; subsections 3.10.3A.2.d.1. through 7., setting forth requirements for wastewater treatment facilities; and subsections 3.10.3A.2.e.1. and 2., conditioning project approval on the existence of an approved Non-Point Source Pollution Control Plan for the project area and requiring that approval of a new or expanded withdrawal and/or wastewater discharge project be subject to the condition that new connections to the project system be limited to service areas regulated by a nonpoint source pollution control plan approved by the Commission.

Previous register notices concerning designation of the Lower Delaware River as Special Protection Waters include notices published at 69 FR 57008 (September 23, 2004) (proposed Special Protection Waters designation); FR 48923 (August 22, 2005) (proposed extension); 34 Pa.B. 5557 (October 9, 2004) (proposed designation); and 35 Pa.B. 5005 and 5013 (September 10, 2005) (temporary amendment and proposed extension). The proposed designation and extension, as well as the final rulemakings establishing and extending temporary designation, approved by Resolutions Nos. 2005-2 and 2005-15 respectively, were also published on the Commission's website, www.drbc.net.

Further Information, Contacts

Resolution No. 2005-2, temporarily amending the *Water Quality Regulations, Water Code and Comprehensive Plan* of the Commission by designating the Lower Delaware River a Special Protection Water, and Resolution No. 2005-15, extending the temporary amendment approved by Resolution No. 2005-2, are available on the Commission's website at www.drbc.net or upon request from the Delaware River Basin Commission, P. O. Box 7360, West Trenton, NJ 08628-0360. Maps depicting the designated area are also available on the website. For further information, please contact Pamela M. Bush, Commission Secretary and Assistant General Counsel, Delaware River Basin Commission, at (609) 883, 9500, Ext. 203.

It is proposed to amend Section 3.10.3A.2.g.6 of the *Water Quality Regulations and Water Code* by replacing the last paragraph of that section with the following:

Sections 3.10.3A.2.g.2.(b) and 3.10.3A.2.g.6). shall expire on September 30, 2007 unless extended by amendment to this rule.

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 65]

Fishing

The Fish and Boat Commission (Commission) proposes to amend Chapter 65 (relating to special fishing regulations). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. Effective Date

The proposed rulemaking, if approved on final-form rulemaking, will go into effect upon publication in the *Pennsylvania Bulletin* or January 1, 2007, whichever occurs later.

B. Contact Person

For further information on the proposed rulemaking, contact Laurie E. Shepler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission's website at www.fish.state.pa.us.

C. Statutory Authority

Proposed §§ 65.17 and 65.18 (relating to Catch and Release Lakes Program; and Brood Stock Lakes Program) are published under the statutory authority of section 2102 of the code (relating to rules and regulations). The proposed amendment to § 65.24 (relating to miscellaneous special regulations) is published under the statutory authority of section 2307 of the code (relating to waters limited to specific purposes).

D. Purpose and Background

The proposed rulemaking is designed to update, modify and improve the Commission's fishing regulations. The specific purpose of the proposed regulations and amendments is described in more detail under the summary of proposals.

E. Summary of Proposals

(1) *Sections 65.17 and 65.24.* Over the years, the Commission has regulated a number of ponds and lakes with no-kill regulations for all species under § 65.24. These lakes and ponds include Pine Township Park Pond, Allegheny County; Raccoon Creek State Park Upper Pond, Beaver County; Bear Gap Reservoir, McWilliams Reservoir and Klines Reservoir; Columbia and Northumberland Counties; and Lower Burrell Pond Park, West-

moreland County. In an effort to simplify and consolidate the Commission's regulations, the Commission proposes the establishment of a new special regulations program called the Catch and Release Lakes Program into which these six lakes and ponds and other impoundments may be designated. Waters in this program will be regulated as catch and release for all species on a year-round basis. The Commission proposes this new section to read as set forth in Annex A.

If the new program is adopted, Commission staff will recommend that the six waters previously named, as well as Owl Creek Reservoir, Schuylkill County, be considered for inclusion in the program. If designated into the new program, the miscellaneous regulations for the six lakes in § 65.24 will no longer be required. Therefore, the Commission further proposes that the miscellaneous special regulations for these six lakes be eliminated to read as set forth in Annex A.

(2) *Section 65.18.* Effective January 1, 2007, amendments to the Commission's regulations pertaining to muskellunge and muskellunge hybrids, northern pike and pickerel will go into effect. Among other things, the amendments provide for a year-round open season for these species on Commonwealth inland waters. Although the new year-round open season will provide additional angling opportunities, the Commission also must take into account the United States Food and Drug Administration mandated withdrawal period of 21 days that is associated with use of fish anesthetics during esocid culture operations. It is important that harvest and consumption of muskellunge and muskellunge hybrids, northern pike and pickerel in brood stock lakes are restricted during the withdrawal period. Therefore, the Commission proposes to restrict harvest of these species from April 1 through May 31 by creating a new program called the Brood Stock Lakes Program into which the brood stock lakes may be designated. The Commission proposes to add this section to read as set forth in Annex A. If the new program is adopted, Commission staff will recommend that the following lakes be designated into the new program: Canadhota Lake, Edinboro Lake, Sugar Lake, Conneaut Lake, Union City Reservoir, Woodcock Lake, Tamarack Lake, Lake Wallenpaupack, Lower Woods Pond, Belmont Lake, Prompton Dam, Duck Harbor Pond, Miller Pond and Howard Eaton Reservoir.

(3) *Section 65.24.* Harris Pond, Luzerne County, becomes congested with several species of aquatic plants each year beginning in late spring. This congestion affects the boat launch and interferes with shore fishing from most access points on the lake. Current fisheries management efforts to control the vegetation at Harris Pond include the periodic stocking of sterile triploid grass carp. Grass carp stocking began in 1997 and continued in 2004. The Commission is aware of the harvest of grass carp from Harris Pond, which runs counter to agency efforts to control vegetation. Therefore, the Commission proposes to make the harvest of grass carp from Harris Pond illegal. The Commission accordingly proposes to amend § 65.24 to read as set forth in Annex A.

F. Paperwork

The proposed rulemaking will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. However, the Commission will incur relatively nominal costs to print and post new signs for waters included in

the Catch and Release Lakes Program and the Brood Stock Lakes Program. The proposed rulemaking will impose no new costs on the private sector or the general public.

H. *Public Comments*

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P. O. [58 PA. CODE CH. 51]
Pennsylvania Automated Licensing Service

The Fish and Boat Commission (Commission) proposes to amend Chapter 51 (relating to administrative provisions). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The proposed rulemaking pertains to issuing agents providing licenses and permits through a point-of-sale system, the Pennsylvania Automated Licensing Service (PALS), that is currently under development.

A. Effective Date

The proposed rulemaking, if approved on final-form rulemaking, will go into effect upon publication in the *Pennsylvania Bulletin* or December 1, 2006, whichever occurs later.

B. Contact Person

For further information on the proposed rulemaking, contact Jason E. Oyler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7827. This proposed rulemaking is available on the Commission's website at www.fish.state.pa.us.

C. Statutory Authority

The proposed amendments to §§ 51.32 and 51.36 (relating to resident and nonresident licenses; and lost license certificates) and the addition of §§ 51.37 and 51.38 (relating to application and prerequisites for becoming an issuing agent for the Pennsylvania Automated Licensing Service; and operation of the issuing agent for the Pennsylvania Automated Licensing Service) are published under the statutory authority of section 2711 of the code (relating to issuing agents).

D. Purpose and Background

The proposed rulemaking is designed to improve, clarify and update the Commission's issuing agent regulations and to accommodate the implementation of PALS. The specific purpose of the proposed regulations and amendments is described in more detail under the summary of proposals.

E. Summary of Proposals

The Commission currently relies on approximately 1,200 issuing agents throughout this Commonwealth to sell and issue approximately 850,000 fishing licenses and

600,000 permits through a paper-based system. In the near future, the Commission will automate the distribution and sale of its licenses and permits through the use of point-of-sale methodologies. To date, over 30 states have automated, or are in the process of automating, their licensing systems. The primary goals of automation are to make delivery of fishing license services more convenient for the license buyers and to provide improved control over the flow of revenues from the issuing agents and to facilitate more effective communications among the license buyer, issuing agent and the Commission.

Upon review of the current regulations regarding the establishment and operations of fishing license issuing agents, the Commission has identified the need to make a series of changes and additions that will allow for a more effective and efficient means of establishing issuing agent policies and guidelines for the automated distribution of licenses and permits.

At this time, the Commission is retaining the current issuing agent regulations applicable to the issuance of paper licenses and permits and proposes to add §§ 51.37 and 51.38 to govern the issuance of licenses and permits through PALS. The Commission anticipates that paper licenses will remain available as a backup during the transition to PALS.

In addition, the Commission proposes to amend § 51.32 to allow for additional methods to prove residency when purchasing a license. The Commission also proposes to amend § 51.36 to provide a procedure for issuing lost license certificates through PALS.

The Commission proposes to amend §§ 51.32 and 51.36 and add §§ 51.37 and 51.38 to read as set forth in Annex A.

F. Paperwork

The proposed rulemaking will create a new paperwork requirement in that all issuing agents will be required to enter into a standard Fishing License Issuing Agent Agreement that governs the point-of-sale system and associated equipment. Current paperwork requirements pertaining to applications for new issuing agents and bonding have not changed.

G. Fiscal Impact

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. However, the Commission will incur costs associated with processing agent applications and with the standard

Fishing License Issuing Agent Agreement that all PALS agents will be required to sign. For new agents, these costs will be offset by the application fee.

The Commission also will incur costs associated with increased banking fees to the Commission for weekly electronic funds transfers from its issuing agents. These costs will be offset by increased interest earned due to the more timely remittance of license revenues.

The proposed rulemaking will impose a \$150 application fee for new issuing agents under PALS. This fee will only be assessed on new applications for issuing agents and will not be applied to issuing agents that are currently agents with the Commission at the time that the final-form rulemaking is adopted. The fee represents an increase in the application fee that new issuing agents are currently charged from \$100 to \$150. The Commission proposes increasing the fee due to inflation and to accommodate the cost of additional staff review of applications for issuing agents under PALS.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000 within 30 days after publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.state.pa.us/Fish/reg comments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt. Electronic comments submitted in any other manner will not be accepted.

NOTICES

DEPARTMENT OF AGRICULTURE

General Quarantine Order

Recitals

A. Scrapie is an infectious disease of ovine animals (such as sheep) and caprine animals (such as goats) and is believed to be caused by a prion agent.

B. There is no vaccine to protect animals against Scrapie. There is currently no accurate, feasible live-animal test for the presence of Scrapie—nor is there a known cure or treatment for this disease.

C. Scrapie is known to be transmissible from infected to uninfected ovine animals and caprine animals by birthing tissues and fluids.

D. Scrapie is specifically designated a “dangerous transmissible disease” of animals 3 Pa.C.S. § 2321(a)(40) (relating to dangerous transmissible diseases).

E. The Department of Agriculture (Department) has broad authority under 3 Pa.C.S. §§ 2301—2389 (relating to the Domestic Animal Law) to regulate the keeping and handling of domestic animals to exclude, contain or eliminate dangerous transmissible diseases, such as Scrapie.

F. The Department also has broad authority under the Domestic Animal Law to issue general quarantines with respect to any area or locality within this Commonwealth to exclude, contain or eliminate dangerous transmissible diseases, such as Scrapie.

G. Scrapie is of particular concern to the ovine animal and caprine animal production industries, in that presence of Scrapie may result in the Department ordering the condemnation and destruction of the entire affected flock or herd and may severely limit the market for product of this Commonwealth.

H. Scrapie is known to be present in ovine animals and caprine animals in states outside of this Commonwealth and is occasionally diagnosed among ovine animals and caprine animals within this Commonwealth.

I. As a condition of maintaining this Commonwealth’s “Scrapie Consistent State Status” under the United States Department of Agriculture’s (USDA’s) ongoing Scrapie eradication effort, it is critical that the Department have the ability to promptly and accurately identify the source of a Scrapie-infected ovine animal or caprine animal originating within this Commonwealth.

Order of Quarantine.

With the foregoing recitals incorporated into this Order by reference, the Pennsylvania department of agriculture (PDA) hereby establishes a General Quarantine under authority of the Domestic Animal Law, at 3 Pa.C.S.A. § 2329(d). The terms of this Order are as follows:

1. *Quarantine Area.* This General Quarantine is applicable to the entire Commonwealth of Pennsylvania.

2. *Prohibitions.*

i. *Importation.* No ovine or caprine animal shall be imported into the Commonwealth of Pennsylvania without a PDA-approved form of individual identification.

ii. *Through-shipment.* No ovine or caprine animal that is being shipped through the Commonwealth of Pennsylvania to another destination shall be temporarily unloaded from the vehicle or conveyance in which it is being transported without a PDA-approved form of individual identification.

3. *Individual Identification of Animals.* All ovine animals and caprine animals born within the Commonwealth shall be identified by a PDA-approved form of individual identification prior to being transported live from their premises of birth.

4. *Types of PDA-approved Individual Identification.* PDA-approved forms of identification include the following:

(a) An ear tag that has been issued by the United States Department of Agriculture (USDA).

(b) A USDA-Approved Custom Ear Tag.

(c) A registration tattoo, if:

(i) The tattoo is legible; and

(ii) A registration certificate or a Certificate of Veterinary Inspection, listing the tattoo and registry, accompanies the tattooed ovine animal or caprine animal at all times from transport from premises of birth.

(d) A USDA-Approved Custom Tattoo.

(e) A USDA Animal Identification Number (AIN)—whether an ear tag or other USDA-approved form of identification affixed to or accompanying the ovine animal or caprine animal at all times from transport from premises of birth.

(f) Another form of identification approved by PDA in writing.

5. *Violations/Penalties.* Any person violating the requirements of this Order shall be subject to criminal prosecution and/or civil penalties of up to \$10,000 per violation.

6. *No Restriction on Further Action by PDA.* This Order shall not be construed as limiting PDA’s authority to establish additional quarantine or testing requirements or take any actions otherwise permitted under applicable statute or regulation.

7. *Effective Date.* This Order is immediately effective September 1, 2006, and shall remain in effect unless rescinded or modified by subsequent order.

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permit-

ting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

PA 48-306-011: Northampton Generating Co. (1 Horwith Drive, Northampton, PA 18067) for modification of their facility, to satisfy four conditions before approval to modify an operation may be granted by Department of Environmental Protection (Department) in the Borough of Northampton, **Northampton County**.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department intends to issue Plan Approval No. 48-306-011 to Northampton Generating Company, 1 Horwith Drive, Northampton, PA 18067 for their facility in the Borough of Northampton, Northampton County. This plan approval will be incorporated into the Title V operating permit No. 45-00021 through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

The PSD regulations require specific sources of air pollution, such as the proposed modification of the facility, to satisfy four conditions before approval to modify an operation may be granted by Department. First, all pollutants that are subject to this regulation must be controlled by the best available control technology. Second, particulate and SO₂ air pollutant emissions must not cause violations of the allowable annual, 24 hour, or 3-hour air quality class increments applicable in the area where the source is to be located; nor any class increments applicable in any other areas which would be impacted by the source. Third, the maximum allowable increase in concentrations of all pollutants must not cause a violation of either the National primary or secondary ambient air quality standards. Finally, the pollutant emissions from the proposed source must not adversely impact upon soils, vegetation and visibility in the vicinity of the proposed plant site.

The company has requested to increase its annual CO emission limit from 425.2 tpy to 753.4 tpy. The company will not alter the originally established BAT limit of 172 lb/hr. The company has requested to remove the existing percent SO₂ removal requirements, since the low sulfur fuels that are presently being combusted can not practically be removed at the rate as specified in the permit. Presently the company has a SO₂ emissions limit of 0.129 lb/mmBtu and reduction requirements of 92% both on 24-hr block average. The company has also proposed to clarify the existing limitations on alternate fuels. The present air pollution control equipment, baghouses for particulate control, Selective Non Catalytic Reduction (SNCR) for NOX control, and Lime injection for SO₂ controls will not be altered in any manner to facilitate the above proposals. These control units will operate in their normal manner (These control technologies were evaluated under PSD application No. 48-306-008).

A preliminary review of the information submitted by the Northampton Generating Company indicates that the proposed operation of the plant facility will meet all applicable air quality requirements including the four stated previously. Based upon these findings, Department plans to approve the application and issue a permit for the facility.

The following table summarizes the potential emissions from maximum operation of the facility according to the application submitted and the Department's own analysis;

<i>Pollutant</i>	<i>Units</i>	<i>Pounds/hour</i>	<i>Tons/year</i>
PM10	0.088 lb/mmBtu	10.1	34.7
SOx	0.129 lb/mmBtu	147.8	557.8
CO	0.15 lb/mmBtu	172	753.4
NOx	0.1 lb/mmBtu	115	449.6
VOC	0.005 lb/mmBtu	5.74	23.4

The emissions of these pollutants are within all applicable emissions limitations and will not cause an exceedance of the National Ambient Air Quality Standards. NO_x, SO₂, and PM emissions from the proposed modification will not increase at a significant rate. A decrease in NO_x and SO_x emissions will occur from the previously approved allowable level due to this proposal. No net increase will occur in total particulate, and sulfur oxides emissions from this project, therefore, the particulate and SO_x emissions do not affect the allowable annual, 24 hour or 3 hour air quality class increments applicable in the area. The increase in operating hours will not affect the emission rate of any of the other pollutants the facility emits.

The requested change will not affect any of the modeled CO concentrations since the facility's short-term CO emission limits will remain in effect. Furthermore, since CO does not have any long-term NAAQS or PSD standards associated with it, a modeling demonstration is unnecessary for NGC's requested increase in its annual allowable CO emission limits. NGC's short-term (1 and 8 hour) CO emission rates remain unchanged from their previous limits. An increase in annual allowable CO emission limits does not lead to substantial (PSD triggering) increases in other criteria pollutants emitted by NGC.

To assure compliance with the applicable standards, the Department will place the following conditions on the plan approval.

1. The emission rates for the pollutant from the facility shall not exceed the following emission limits.

<i>Pollutant</i>	<i>Units</i>	<i>Pounds/hour</i>	<i>Tons/year</i>
PM10	0.088 lb/mmBtu	10.1	34.7
SOx	0.129 lb/mmBtu	147.8	557.8
CO	0.15 lb/mmBtu	172	753.4
NOx	0.1 lb/mmBtu	115	449.6
VOC	0.005 lb/mmBtu	5.74	23.4

The facility must cease operation or obtain prior approval under applicable regulations if any of the pollutant exceeds the total annual emissions tons per year limit.

2. This plan approval allows the use of high carbon ash, petroleum coke, coal (anthracite/bituminous), paper processing residual (filter cake), and virgin wood chips, as an alternative fuel in conjunction with anthracite culms in the circulating fluidized boiler. The co-firing rates for all of the approved fuels shall not exceed the following tons per hour limitations calculated based on a monthly basis:

- a. Coal (anthracite or bituminous)—15 TPH.
- b. Petroleum Coke—32 TPH.
- c. Paper processing residual (fiber-reject, filter-cake, sludge press cake) from paper recycling processes—25 TPH, subject to the approval of the Bureau of Waste Management
- d. Virgin woodchips—20 TPH, subject to the approval of the Bureau of Waste Management.
- e. High carbon ash—50 TPH.
- f. Total charging rate for all fuels combined shall not exceed 105 TPH.
- g. Total fuel charging rate shall include a minimum of 50%, by weight, anthracite-waste.

3. The total annual heat input of the boiler shall not exceed 10,038,960 million Btus per year on a 12 month rolling sum basis.

4. The fuel samples shall be taken daily and analyzed to determine: ash content (% by weight); sulfur content (% by weight); and heat value (Btus per pound). Quarterly reports are to be submitted to the Regional Air Quality Program Manager within 30 days of the end of the quarter.

5. Visible air contaminant shall not be emitted in such a manner that the opacity of the emissions is equal to or greater than 10% for a period or periods aggregating more than 3 minutes in any 1 hour; or equal to or greater than 30% at any time.

6. The facility is subject to all applicable requirements of NSPS Subpart Da.

7. The company shall operate and maintain certified CEMs for NO_x, SO₂, CO and opacity to show compliance with the NO_x, SO₂, CO and opacity emission rates from the boiler.

1. Name and address and telephone number of the person submitting the comment.
2. Identification of the proposed Plan Approval No. 48-306-011.
3. Concise statement regarding the relevancy of the information or any objections to issuance of the Plan Approval.

Request for a public fact finding conference or hearing may also be made by writing the Department at the address shown as follows. A public conference may be held if the Department in its discretion decides that such a conference is warranted on the basis of the information received. Persons who have submitted comments or have requested a conference will be notified of the decision to hold a conference by publication in this newspaper or in the *Pennsylvania Bulletin* or by telephone, when the the Department determines the notification by telephone is

sufficient. Comments and requests must be received by the Department no later than 30 days after final publication date.

08-00003D: CraftMaster Manufacturing, Inc. (P. O. Box 311, Towanda, PA 18848) for installation of a cyclonic separator on the Line I Press to replace the existing chevron type mist eliminator at their Towanda plant in Wysox Township, **Bradford County**. The respective facility is a major facility for which a Title V operating permit (08-00003) has been issued. The Department of Environmental Protection intends to issue a plan approval to authorize the applicant to perform the installation and operation. Air contaminant emissions are not expected to increase as a result of this project.

The Department's review of the information contained in the application indicates that the proposed cyclonic separator will comply with all applicable requirements pertaining to air contamination sources and the emission of air contaminants including 25 Pa. Code §§ 123.13 and 123.41. Based on this finding, the Department intends to issue a plan approval for the proposed installation. Additionally, if the Department determines that the sources and the air cleaning devices are operating in compliance with the plan approval conditions, the conditions established in the plan approval will be incorporated into the operating permit via an administrative amendment under 25 Pa. Code § 127.450.

The Department proposes to place in the plan approval the following conditions to ensure compliance with all applicable regulatory requirements:

1. Within 180 days after initial startup of the cyclonic separator, the permittee shall perform stack testing on the exhaust of the Line I Press to determine compliance with the PM emission limitation of 0.04 gr/dscf. The permittee shall test for the total particulate matter emissions, which includes filterable and condensable PM. Stack testing shall be performed in accordance with the applicable provisions of 25 Pa. Code Chapter 139 (relating to sampling and testing) using test methods and procedures approved by the Department. Testing shall be performed while the process is operating at its maximum rate of production.

2. At least 60 days prior to stack testing, the permittee shall submit two copies of a test protocol to the Department's Northcentral Region for review and approval. The test protocol shall describe the test methods and procedures to be used in the performance of testing, and shall include dimensioned sketches of the exhaust systems showing the locations of all proposed sampling ports. The test protocol shall also identify all process parameters, which will be monitored and recorded during testing to verify the rate of production during testing and to verify that all associated air cleaning devices are operating normally during testing.

3. At least 14 days prior to stack testing, the permittee shall notify the Department (Northcentral Regional Office and Central Office, Source Testing Section) of the actual dates and times that testing will occur so that Department personnel can arrange to be present during testing. The Department is under no obligation to accept the results of the testing without having been given proper notification.

4. Within 60 days following the completion of the stack testing, the permittee shall submit two copies of a test report to the Department's Northcentral Region for review and approval. The test report shall contain the results of the testing, a description of the test methods and procedures actually used, copies of all raw test data with sample calculations and copies of all process data recorded during testing and operating load calculations (material throughput). Since the testing is required for the purpose of demonstrating compliance with the particulate matter emission limitation identified in this plan approval, the results of the testing shall be expressed in units identical to the units of the limitation identified in this plan approval (gr/dscf).

5. Conditions contained in Title V operating permit 08-00003 remain in effect unless superseded or amended by conditions contained in this plan approval. If there is a conflict between a condition or requirement contained in this plan approval and a condition or requirement contained in Title V operating permit 08-00003, the permittee shall comply with the condition or requirement contained in this plan approval rather than the conflicting condition or requirement contained in Title V operating permit 08-00003.

6. Issuance of an operating permit for the cyclonic separator is contingent upon the air cleaning device being installed, maintained and operated as described in the plan approval application and supplemental materials submitted with the application, and in accordance with all conditions contained in this plan approval and upon satisfactory demonstration that any air contaminant emissions are in compliance with all limitations specified in this plan approval, as well as in compliance with the requirements specified in 25 Pa. Code §§ 123.13, 123.31 and 123.41.

Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Chief, Facilities Permitting Section, Department of Environmental Protection, Air Quality Program, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, (570) 327-0512.

Copies of the application and the Department's review of the application are available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at (570) 327-3693.

47-309-001: United States Gypsum Co. (125 South Franklin Street, Chicago, IL 60606) for construction of a gypsum wallboard manufacturing facility in Derry Township, **Montour County**.

The proposed facility, which will be located adjacent to PPL Montour, LLC's Montour Steam Electric Station, will utilize as its primary raw material sludge (synthetic gypsum) resulting from the operation of flue gas desulfurization scrubbers which are currently under construction by PPL. The facility will incorporate two 35 mmBtu per hour natural gas-fired dryer mills, two 30 mmBtu per hour natural gas-fired calcining kettles, a 207.5 mmBtu per hour natural gas-fired board kiln dryer and various associated material handling and processing operations (storage, conveying, crushing, mixing, and the like).

The burners in the dryer mills and board kiln dryer will be low nitrogen oxides burners. PM emissions including PM10 from the dryer mills, the process exhausts from the calcining kettles and various material handling and processing operations will be controlled by a total of 22 fabric collectors (five of which will not exhaust to the outside atmosphere). Fugitive PM/PM10 emissions from material handling operations occurring outside of enclosed buildings and from the use of plant roadways will be controlled by the inherent moisture content of the synthetic gypsum received from PPL as well as by paving all plant roadways, using a vacuum type road sweeper, limiting the speed limit of vehicles to 15 miles per hour, storing all materials inside of a roofed and partially enclosed "rock shed," equipping all conveyors located outside of an enclosed building with three sided covers, and the like

The air contaminant emissions from the proposed facility are not expected to exceed 89.69 tons of NOx, 147.35 tons of CO, 41.76 tons of VOCs, 140.03 tons of PM including 102.83 PM10, .93 ton of SOx and 2.9 tons of HAPs per year.

The facility will be a major (Title V) facility for CO and PM10 and will be required to obtain a Title V operating permit.

The Department of Environmental Protection's (Department) review of the information submitted by United States Gypsum Company indicates that the proposed gypsum wallboard manufacturing facility should comply with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement of 25 Pa. COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous

Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based

effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

HAZARDOUS SITES CLEANUP UNDER THE ACT OF OCTOBER 18, 1988

Settlement Under the Hazardous Sites Cleanup Act and Comprehensive Environmental Response, Compensation and Liability Act

F. E. Cooper Site; Broad Top Township, Bedford County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C.A.

§§ 9601—9675), has entered into a proposed settlement with Broad Top Township (Settlor).

The proposed settlement resolves claims of the Department with the Settlor under HSCA, CERCLA and other applicable law for response costs that have been expended and will be incurred by the Department at the F. E. Cooper Site located in Broad Top Township, Bedford County.

Based on information that the Department has obtained concerning the Settlor and the Site and based on the information certified by the Settlor in this Consent Order and Agreement, the Department has determined that Settlor: (1) did not conduct or permit the generation, transportation, storage, treatment or disposal of any hazardous substances at the Site; (2) did not contribute to the release or threatened release of hazardous substances at the Site through any act or omission.

The Settlor grants the Department and its designated agents, including contractors and responsible persons under the direction of the Department, access to and entry upon the property to perform response actions at the property. Use restrictions on activities that would disturb or interfere with the bedrock groundwater are required over a designated area of the site until remaining contamination becomes abated. No access to the Juniata River within the designated area shall be allowed.

The proposed settlement obligates the Settlor to remit \$1 to the Department. The Department believes that the proposed settlement is fair, reasonable, practicable, in the public interest and in furtherance of the statutory goals of HSCA and CERCLA.

For a period of 60 days beginning with the August 26, 2006, publication date of this notice, the public is invited to review the Consent Order and Agreement, Monday through Friday, from 8 a.m. to 4 p.m., at the Department's Southcentral Region Office located at 909 Elmerton Avenue, Harrisburg, PA 17110, by contacting Crystal Snook at (717) 705-6648.

After review, the public may submit written comments on the Consent Order and Agreement before October 25, 2006, by mailing them to Crystal Snook at the Department's Harrisburg Office at the address noted previously. A person adversely affected by the settlement may also file an appeal from the Consent Order and Agreement to the Environmental Hearing Board.

Questions concerning this Notice should be directed to Crystal Snook at the telephone number and address noted previously.

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated

substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. Construction of the listed gas pipeline crossings temporarily impact 1,250.0 feet of waterway and 4.77 acres of wetland, while permanently impacting 1.64 acres of wetland. All gas transmission lines under streambeds shall be constructed so there will be a minimum of 3 feet of cover between the top of the pipe and the lowest point in the streambed. Trench plugs or clay dikes shall be used at every waterway and wetland crossing to ensure the existing hydrology is not altered. The western terminus of TL-453 EXT1 is located along the eastern right-of-way of SR 0244 approximately 1,950 feet south of Genesee Township Road No. 410 and SR 0244 intersection. This permit also will authorize construction, operation, maintenance and removal of temporary construction crossings, causeways, stream diversions and cofferdams. Temporary structures shall be constructed of clean rock that is free of fines; and upon completion of construction activities, all temporary structures shall be removed with disturbed areas being restored to original contours and elevations. If upon investigation the Department determines the gas transmission line approved by this permit is serving to degrade water quality, stream profile, meander pattern or channel geometries, then the permittee shall be required to implement all measures necessary to mitigate the degradation. Construction of the gas pipelines will permanently impact 1.64 acres of wetland, for which the permittee has agreed to replace with a minimum of 1.64 acres of wetland mitigation prior to the construction authorized by this permit.

DEPARTMENT OF PUBLIC WELFARE

Establishment of an Additional Class of Disproportionate Share Payments

The Department of Public Welfare's (Department) intends to establish an additional class of disproportionate share hospital (DSH) payments for certain qualifying hospitals.

Effective August 29, 2005, the Department changed its acute care general hospital limit for its General Assistance (GA) Medical Assistance (MA) recipients to one admission per State fiscal year. Acute care general hospitals may continue to serve GA recipients, regardless of whether the GA recipient has exhausted the annual acute care general hospital admission benefit, even though hospitals may not be eligible for MA Program payment for the subsequent admission within the State fiscal year. Therefore, to ameliorate the anticipated increased level of uncompensated care that certain acute care general hospitals may incur, the Department is establishing a one-time additional DSH payment.

The Department intends to consider an acute care general hospital to be eligible for this additional class of DSH payment, if the acute care general hospital meets one of the following criteria:

a) The acute care general hospital's calculated cost of care for projected additional GA admissions is greater than the 75th percentile of the calculated cost for projected additional GA admissions for all acute care general hospitals.

b) The acute care general hospital is located in a rural area designated by Federal Office of Management and Budget and the acute care general hospital's calculated cost of care for projected additional GA admissions exceeds the 70th percentile of the calculated cost of care for projected additional GA admissions for all rural acute care general hospitals.

c) The acute care general hospital is eligible to receive a DSH payment under one of the following provisions of the Department's Medicaid State Plan:

1) Augmented Payments for Certain High Medical Assistance Hospitals.

2) Additional Class of Disproportionate Share Payments for hospitals which advance access to multiple types of medical care in economically distressed areas.

3) Additional Class of DSH Payments for hospitals that provide a high volume of services to MA eligible recipients and low-income populations in medically underserved areas.

4) Additional Class of DSH Payments for general acute care hospitals that provide high volume of MA acute care and psychiatric services that incur significant uncompensated care costs (pending CMS approval).

Payments to eligible acute care general hospitals will be made as follows:

a) Except for Academic Medical Centers, acute care general hospitals that are eligible for a payment under criterion c) above will be paid 75% of their calculated cost of care for projected additional GA admissions. Academic Medical Centers eligible for a payment under criterion c) above will be paid 50% of their calculated cost of care for projected additional GA admissions.

b) All remaining eligible acute care general hospitals will be paid their proportionate share of the available funds on the basis of the proportion of each acute care general hospital's calculated cost of care for projected additional GA admissions compared to the calculated cost of care for projected additional GA admissions of all remaining eligible acute care general hospitals.

c) All eligible acute care general hospitals will receive a one-time payment during fiscal year 2006-2007.

In making these payments, the Department will ensure that no acute care general hospital will receive any DSH payment that is in excess of its hospital-specific DSH upper payment limit and the Commonwealth will not exceed its aggregate annual DSH allotment.

Fiscal Impact

For Fiscal Year 2005-2006, the fiscal impact as a result of this additional class of DSH payments will be \$22.247 million in total funds (\$10 million in State General funds and \$12.247 million in Federal funds). This program will be funded for 1 year only.

DEPARTMENT OF TRANSPORTATION

Finding

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Deputy Secretary for Highway Administration (Deputy Secretary) makes the following written finding:

The Department of Transportation (Department) plans to reconstruct Germantown Avenue, SR 4007, Section 14B, from Allen Lane to West Mermaid Lane in the City of Philadelphia. The Colonial Germantown and Chestnut Hill Historic Districts, the National Register Listed Fairmount Park and Route 23 Trolley Line are within the project limits.

The Germantown Avenue paving stones will be relaid, and trees in Fairmount Park will be identified for protection during construction. Also, coordination with consulting parties and the public will continue throughout final design and construction of the project.

The Deputy Secretary considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 and has concluded that there is no feasible

and prudent alternative to the project as designed and all reasonable steps have been taken to minimize the effect. No adverse environmental effect is likely to result from this project.

The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

State Board of Education Regulation #6-301 (IRRC #2543)

Prekindergarten

August 16, 2006

We submit for your consideration the following comments on the proposed rulemaking published in the June 17, 2006 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Board of Education (Board) to respond to all comments received from us or any other source.

1. General.—Clarity.

The term "school entity" is used in some sections of this rulemaking and the terms "school district" or "school district or area vocational technical school" are used in other sections. For consistency, one term should be used.

Chapter 4. Academic Standards and Assessment

2. Section 4.13. Strategic plans.—Implementation procedures; Clarity.

Subsection (c)

The following language is being added to this subsection: "Each plan, as received and filed by the Department, becomes an extension of this chapter uniquely adapted to each school entity and can only be changed by the strategic planning committee approved by the local school board." The Board has explained that the purpose of this

new language is to reinforce the importance of strategic plans that are developed by local school boards. We recognize the value of the strategic plan. However, a strategic plan filed by a school entity cannot become an “extension of this chapter,” unless it is promulgated as a rulemaking in accordance with the Regulatory Review Act (71 P. S. §§ 745.2—745.15) and the Commonwealth Documents Law (45 P. S. §§ 1101—1602). Therefore, the sentence should be rewritten to delete this phrase.

Subsection (c)(4)

The last sentence of this subsection states the following: “Achievement goals must demonstrate a connection to the academic standards under § 4.12, including, but not limited to, annual improvement goals for student scores on State and local assessment.” We have two concerns. First, the phrase “but not limited to” is unnecessary and should be deleted. Second, because all of § 4.12 does not apply to achievement goals, the Board should list the specific subsections that do apply.

Subsection (c)(6)(i)(C)

This subsection includes the phrase “significant student subgroups.” This phrase is unclear and should either be amended or defined.

Subsections (c)(7), (c)(8), and (c)(13)

The titles of these subsections contain adjectives such as “struggling,” “effective” and “capable.” These terms are vague. The *Pennsylvania Code* and *Bulletin Style Manual* discourages the use of indefinite terms (§ 6.16(b)(6)). These terms should be defined, deleted or replaced with terms that can be measured.

Subsection (c)(8)

The title of this subsection includes the phrase “instructional leaders” but the text references “school leaders.” The Board should use one term consistently and define it.

3. Section 4.20. Prekindergarten education.—Clarity.

Paragraph (3)

The last sentence of this paragraph states the following: “If a program is limited to an attendance area, children with disabilities shall live in that attendance area to participate in the program.” The phrase “attendance area” is unclear and should be defined in the final-form regulation.

Paragraph (6)

The second sentence of this paragraph states the following: “Programs of high quality ordinarily have a student/teacher ration of 17 students for one teacher and one teacher aide in classroom (2 adults for every 17 students).” This is non-regulatory language because it is not a binding norm and it should be deleted.

Paragraph (7)(iii)

This paragraph includes the phrase “rigorous standard of quality.” This phrase is unclear and should be defined.

4. Section 4.41. Scheduling.—Clarity.

Subsection (e) uses the term “alternative prekindergarten program” to indicate a program that obtains prior approval from the Department to have less than 2 1/2 hours of instruction in a day. However, § 4.20(8) uses the term “meritorious prekindergarten program” to indicate a program that doesn’t meet all of the regulatory requirements, but receives approval from the Secretary to operate. One term should be used consistently throughout the regulation.

Also, the term “meritorious educational program” is defined in Section 11.8 of the Board’s existing regulations. The Board should define “meritorious prekindergarten program” in that section and cross-reference the definition in Section 4.3 of this proposed regulation. Or, if a “meritorious prekindergarten program” fits the definition of “meritorious educational program,” then that term should be used.

Chapter 11. Student Attendance

5. Section 11.1. School term.—Clarity.

This section requires “public prekindergartens, when offered, and kindergartens, elementary and secondary schools” to be kept open each school year for a minimum of 180 days of instruction for students. The last sentence of this section states the following:

However, when a meritorious educational program warrants, the Secretary may, upon request, approve a school term containing a minimum of 990 secondary or 900 elementary and 450 kindergarten hours of instruction as the equivalent of 180 school days.

The Board has explained that the Department of Education may approve prekindergarten programs that operate only three or four days a week. We have two concerns. First, if such a program is approved, how could it meet the requirements of this section? Second, the sentence quoted above should be amended to include the phrase “prekindergarten, when offered.” This would make it consistent with the first sentence of this section.

6. Section 11.3. Minimum required hours.—Clarity.

Subsection (a) mandates 2 1/2 hours of instruction time for students in a “preK” program. The mandated hour requirement of this subsection should include a reference to the exception provided under § 4.41(e).

Chapter 12. Students and Student Services

7. Section 12.1. Free education and attendance.—Clarity.

Since prekindergarten is defined under § 12.16, relating to definitions, the following text should be deleted from Subsection (c): “defined in § 12.16 (relating to definitions) as a program for children who are at least 3 years old and completed prior to the school district’s entry age for kindergarten.”

8. Section 12.41. Student services.—Clarity.

Subsection (b)(1) uses the phrase “nutritional services or referrals.” This phrase should be defined in the final-form regulation.

9. Miscellaneous clarity.

- The word “school” which appears after “and” and before “experiencing” under § 4.13(c)(13) should be plural.
- The phrase “but not limited to” under § 4.20(8) is not needed.

TREASURY DEPARTMENT

Unclaimed Property Owners

Each year, the Treasury Department receives millions of dollars in unclaimed property from abandoned bank accounts, forgotten stocks, checks that have not been cashed, certificates of deposit, safe deposit box contents, life insurance policies and other sources. Treasury maintains custody of this unclaimed property, while working hard to return it to its rightful owners.

The following is a list of owners whose unclaimed property was reported and delivered to the Treasury Department. If you find your name, you can file a claim on Treasury's website at www.patresury.org. From this site, you can download a claim form and follow the progress of your claim. You may also file a claim by calling the Bureau of Unclaimed Property at 1 (800) 222-2046 Monday—Friday, 7:30 a.m.—4:30 p.m. Written inquiries may be sent to the Bureau of Unclaimed Property, P. O. Box 1837, Harrisburg, PA 17105-1837, Attention Research Department.

Please take a few minutes to look for your name and Claim What Is Yours!
