READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE COURTS

Title 225—RULES OF EVIDENCE

[225 PA. CODE ART. VIII]

Proposed Amendment of Rule 803.1 and Revision of Comment

The Committee on Rules of Evidence is planning to recommend that the Supreme Court of Pennsylvania approve the Amendment of Pa.R.E. 803.1 and Revision of Comment. The changes are being proposed to provide for the admissibility of certain statements made at or near the time of the acts, events or conditions at issue.

This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's consideration in formulating this proposal. Please note that the Committee Report should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the explanatory Report.

The text of the proposed changes precede the Report. Additions are bold, and deletions are in bold and brackets.

We request that interested persons submit suggestions, comments, or objections concerning this proposal to the Committee through counsel:

Richard L. Kearns
Staff Counsel
Supreme Court of Pennsylvania
Committee on Rules of Evidence

Chair

Annex A

TITLE 225. RULES OF EVIDENCE

ARTICLE VIII. HEARSAY

Rule 803.1. Hearsay Exceptions; Testimony of Declarant Necessary.

The following statements, as hereinafter defined, are not excluded by the hearsay rule if the declarant testifies at the trial or hearing and is subject to cross-examination concerning the statement:

* * * * *

(2) *Written, Adopted, or Electronically Recorded Statement.* A statement made at or near the time of the reported acts, events, or conditions, that was written by the declarant, adopted in writing by the declarant, or electronically recorded, provided that the statement is disclosed in a timely manner.

Comment

Pa.R.E. 803.1(2) has no exact counterpart in the Federal Rules of Evidence, or in prior Pennsylvania law.

A declarant's written, adopted or recorded statement made at or near the time of the reported acts, events, or conditions is a valuable source of evidence in determining the facts in issue. The hearsay dangers under this exception are minimal in that the declarant is subject to questioning under oath by the parties at trial. The requirement that the statement must be written, adopted in writing, or electronically recorded minimizes the danger that the statement will be inaccurately reported.

The rule recognizes the evidentiary value of a statement obtained while the facts are fresh in the mind of the declarant. The rule is not intended to encourage the creation of statements as a substitute or supplement for the declarant's testimony at trial. For these reasons, a statement prepared weeks or more after the reported acts, events, or conditions should not generally be treated as "made at or near the time of the reported acts, events, or conditions."

The requirement of timely disclosure is intended to operate in concert with the discovery provisions of Pa.R.Civ.P. 4003.4 and Pa.R.Crim.P. 573 to eliminate unfair surprise, and to permit investigation of the authenticity and accuracy of the statement.

[(2)] (3) *Statement of Identification.* A statement by a witness of identification of a person or thing, made after perceiving the person or thing, provided that the witness testifies to the making of the prior identification.

* * * * *

[(3)] (4) *Recorded Recollection.* A memorandum or record concerning a matter about which a witness once had knowledge but now has insufficient recollection to enable the witness to testify fully and accurately, shown to have been made or adopted by the witness when the matter was fresh in the witness' memory, providing that the witness testifies that the record correctly reflects that knowledge. If admitted, the memorandum or record may be read into evidence and received as an exhibit, but may be shown to the jury only in exceptional circumstances or when offered by an adverse party.

REPORT

Proposed Amendment of Rule 803.1 and Revision of Comment Hearsay Exceptions; Testimony of Declarant Necessary

Changes

The Committee on Rules of Evidence is planning to recommend that the Supreme Court of Pennsylvania approve the amendment of Rule 803.1 and Revision of Comment.

The Committee has considered different versions of this proposal over several meetings. Members of the committee have generally been favorable to the basic premise of the proposal, but some concerns have been voiced.

One concern has been that the rule will encourage the preparation of statements by the parties on the eve of trial that will be offered in evidence or read by the witness as a substitute or supplement for testimony presented in the traditional question and answer form. I have been persuaded that this is a valid concern, but I still think that a statement made at or near the time of the reported acts, events, or conditions is a valuable piece of evidence. Therefore, the proposed rule restricts the use of recorded statements to statements made at or near the time of the acts, events, or conditions. This language is derived from F.R.E. 803(6), Pa.R.E. 803(6) and the Uniform Business Records as Evidence Act 42 Pa.C.S. 6108.

Some members of the Committee have noted that statements like those covered by the proposed rule might be admissible under other rules, for example as a prior inconsistent statement—Pa.R.E. 803.1(1); recorded recollection—Pa.R.E. 803.1(3); for impeachment—Pa.R.E. 613(b); or for rehabilitation—Pa.R.E. 613(c). In fact, statements like those covered by the proposed rule might be admissible under these rules and others, but the proposed rule is intended to simplify the process for admission of a particularly valuable kind of evidence, that poses minimal hearsay risks. The trial court will not have to decide whether the statement is inconsistent, as required by 803.1(1), or whether the witness has insufficient recollection, as required by 803.1(3). The trial court will not be obligated to give limiting instructions, as required under 613(b) and (c).

The proposed rule may be of particular value in dealing with what appears to be a growing problem in criminal cases. A witness, often the victim, will give a statement to the police at the time of the incident, but because of intimidation the witness, at trial, will testify, "I don't remember." If there is a recorded statement conforming to the proposed rule, the statement will not be excluded by the hearsay rule and the impact of the intimidation will be reduced.

Prior to the recent case of *Crawford v. Washington*, 541 U.S. 36 (2004), there might have been some concern about whether the proposed rule complied with a criminal defendant's 6th amendment right to confront the witnesses against him. The Supreme Court has now eliminated that concern. It has said:

(W)hen the declarant appears for cross-examination at trial, the Confrontation Clause places no constraints at all on the use of his prior testimonial statements The Clause does not does not bar the admission of a statement so long as the declarant is present at trial to defend or explain it. *Crawford v. Washington*, at fn. 9.

PENNSYLVANIA COURTS****Security Equipment Purchases and Upgrades for Pennsylvania's Courts of Common Pleas**

The Administrative Office of Pennsylvania Courts (AOPC) announces a project to support security equipment purchases and upgrades for Pennsylvania's courts of common pleas. Funding is available to reimburse counties for the purchase of magnetometers (multi-point), X-ray machines, card key access systems (non-RFID or biometric based technology) and wireless duress alarm systems. Purchases must follow county procurement code policies or procedures. Courts must notify the AOPC Office of Judicial Security by March 15, 2007 if they desire to participate in this project. The deadline for installation of all equipment is June 15, 2007.

The contact person for the AOPC is Kyle Ramberger, Judicial Security Specialist, Office of Judicial Security: (717) 795-2000, Ext. 4089, Kyle.Ramberger@pacourts.us, 5001 Louise Drive, Mechanicsburg, PA 17055.

PROPOSED RULEMAKING

DEPARTMENT OF AGRICULTURE

[7 PA. CODE CHS. 21, 23, 25 AND 27]

Dog Law Proposed Regulations; Extended Public Comment Period

The Department of Agriculture (Department) published a notice of proposed rulemaking regarding proposed amendments to the Dog Law regulations at 36 Pa.B. 7596 (December 16, 2006). The public comment period established in the proposed rulemaking was 60 days. Therefore, the close of the public comment period for the proposed rulemaking would be February 14, 2007. However, under this notice the Department extends the original deadline by 30 days. The public comment period for this proposed rulemaking will therefore expire on March 16, 2007.

Further information is available by contacting Mary Y. Bender, Bureau of Dog Law Enforcement, (717) 787-4833.

DEPARTMENT OF ENVIRONMENTAL PROTECTION**Applications, Actions and Special Notices****APPLICATIONS**

**THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT
APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION
SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM)
PERMITS**

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

II. Applications for New or Expanded Facility Permits, Renewal of Major Permits and EPA Nonwaived Permit Applications

Southeast Region: Water Management Program Manager, 2 East Main Street, Norristown, PA 19401.

PA0056413. Lower Salford Township Mainland Sewage Treatment Plant. The Department of Environmental Protection is withdrawing the Intent to Issue Notice published at 36 Pa.B. 7470 (December 9, 2006).

PA0045021, Industrial Waste, SIC 3479, Material Sciences Corporation, 120 Enterprise Avenue, Morrisville, PA 19037-3797. This proposed facility is located in Falls Township, **Bucks County**.

Description of Proposed Activity: Material Sciences Corporation conducts coil coating operations to steel, galvanized and metal coils. From the coating and rinsing operation wastewater is generated and afforded treatment prior to discharge.

The receiving stream, Biles Creeks, is in the State Water Plan Watershed 2E and is classified for WWF and migratory fishes. The nearest downstream public water supply intake for Bristol Borough Water Treatment plant is located on Delaware River and is 17.5 miles below the point of discharge.

The proposed effluent limits for Outfall 001 are based on a design flow of 0.0334 mgd.

<i>Parameters</i>	<i>Concentration (mg/l)</i>		
	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Instantaneous Maximum</i>

In addition to the effluent limits, the permit contains the following major Other Requirements:

1. Abandon IWWTP.
2. Public Nuisance.
3. Small Stream Discharge.
4. Applicable BAT/BCT.
5. Approved Chemical Additives.
6. Requirements to Submit Chemical Additives Information.
7. Approved Test Methods.
8. Change in Ownership.
9. Proper Sludge Disposal.
10. Watershed TMDL/WLA.
11. Inst. Max Limitation.
12. Stormwater Requirements.

PA0052647, Industrial Waste, Borough of Pottstown Water Authority, SIC 4941, 100 East High Street, Pottstown, West Pottsgrove Township, **Montgomery County**, PA 19464. Borough of Pottstown Water Treatment Plant is located at 668 Old Reading Road, Stowe, PA 19464.

Description of Activity: This application is for an NPDES permit to discharge industrial wastewater from filter backwash and sedimentation basin cleaning operations.

The receiving river, Schuylkill River, is in the State Water Plan Watershed 3E-Perkiomen and is classified for WWF, migratory fishes, aquatic life, water supply and recreation. The nearest downstream potable water supply is Phoenixville and is approximately 8 miles below the point of discharge.

The proposed effluent limits for Outfall 001 are based on a monthly average discharge rate of 0.22 mgd:

Parameters	Mass (lb/day)		Concentration (mg/l)		
	Average	Maximum	Average	Maximum	Instantaneous
	Monthly	Daily	Monthly	Daily	Maximum (mg/l)
Total Suspended Solids			30	60	75

Manganese, Total			1.0	2.0	2.5
pH (Std Units)			6.0 (Minimum)		9.0
Total Residual Chlorine			0.5	1.0	1.2

The proposed effluent limits for Outfall 002 are based on a monthly average discharge rate of 0.0098 mgd:

Parameters	Mass (lb/day)		Concentration (mg/l)		
	Average	Maximum	Average	Maximum	Instantaneous
	Monthly	Daily	Monthly	Daily	Maximum (mg/l)
pH (Std Units)			6.0 (Minimum)		
Total Residual Chlorine			0.40		0.94

In addition to the effluent limits, the permit contains the following major special conditions:

1. Solids Disposal According to Applicable Regulations.
2. Sedimentation Basin Cleaning Requirements.

PA0026018, Sewage, **West Chester Borough**, 401 East Gay Street, West Chester, PA 19380. This existing facility is located in East Bradford Township, **Chester County**.

Description of Proposed Activity: This application is for the renewal of an NPDES permit for an existing discharge of treated sewage from the West Chester Taylor Run sewage treatment plant.

The receiving stream, Taylor Run, is in the State Water Plan Watershed 3H and is classified for trout stocking, migratory fish, aquatic life, water supply, recreation and fishing. Taylor Run is a tributary to East Branch Brandywine Creek, which flows into Brandywine Creek. There are no public water supply intakes identified downstream in this Commonwealth. The State Line is approximately 14 river miles downstream of the discharge. A Wilmington, DE, water supply intake is located on Brandywine Creek approximately 7.5 river miles downstream of the State Line.

The proposed sewage effluent limits for Outfall 001 are based on a design flow of 1.5 mgd and are as follows:

Parameters	Mass (lb/day)		Concentration (mg/l)		
	Monthly	Weekly	Monthly	Weekly	Instantaneous
	Average	Average	Average	Average	Maximum (mg/l)
CBOD ₅	313	475	25	40	50
Total Suspended Solids	188	282	15	23	30
Ammonia as N

(11-1 to 3-31)	25		2.0		4.0
Fecal Coliform			200/100 ml (Geo Mean)		1,000/100 ml
Dissolved Oxygen			5.0 (min.)		
pH (Std Units)			6.0 (min.)		9.0
Total Residual Chlorine			0.05		0.15
Total Nitrogen	Monitor and Report		Monitor and Report		

The proposed effluent limits for stormwater Outfalls 002—004 are based on an average rainfall event and are as follows:

Parameters	Average Monthly (mg/l)	Average Weekly (mg/l)	Maximum Daily (mg/l)	Instantaneous Maximum (mg/l)
CBOD ₅				
COD				
Oil and Grease				
pH (Std Units)				
Total Suspended Solids				
Total Kjeldahl Nitrogen				
Phosphorus (as P)				
Iron (Dissolved)				

In addition to the effluent limits, the permit contains the following major special conditions:

1. Notification of Designation of Operator.
2. Average Weekly Reporting.
3. Remedial Measures if Unsatisfactory Effluent.
4. No Stormwater.
5. Acquire Necessary Property Rights.
6. Discharge to Small Stream.
7. Change of Ownership.
8. Total Residual Chlorine Requirement.
9. Sludge Disposal Requirement.
10. Chronic WET Testing.
11. Exemption from Pretreatment Program.
12. Imax Requirements.
13. 2/Month Monitoring Requirements.
14. Requirements Applicable to Stormwater Outfalls.
15. Certified Operator.

Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

PA0065102, Sewage, **Daniel Bittenbender**, R. R. 5, Box 5647, Saylorsville, PA 18353. This proposed facility is located in Hamilton Township, **Monroe County**.

Description of Proposed Activity: Application for NPDES permit to discharge treated sewage from a single-family residence.

The receiving stream, UNT to Lake Creek, is in the State Water Plan Watershed 1E and is classified for HQ-CWF. The nearest downstream public water supply intake for the City of Easton is located on the Delaware River.

The proposed effluent limits for Outfall 001 based on a design flow of 0.0007 mgd.

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
BOD ₅	10	20
Total Suspended Solids	10	20
Fecal Coliform	200/100 ml as a geometric mean	
pH	6.0 to 9.0 standard units at all times.	

In addition to the effluent limits, the permit contains the following major special conditions:

1. Since the proposed treatment system uses ultraviolet disinfection, no monitoring is required for Total Residual Chlorine.

PA-0065145, Sewage, **Dunn Lake, LLC**, 103 Indian Springs Road, Kennett Square, PA 19348. This proposed facility is located in Ararat Township, **Susquehanna County**.

Description of Proposed Activity: NPDES Permit for a new, treated sewage discharge.

The receiving stream, East Branch Lackawanna River, is in the State Water Plan Watershed 5A and is classified for HQ-CWF. The nearest downstream public water supply intake for the Pennsylvania American Water Company is located at the Stillwater Reservoir on the Lackawanna River over 10 miles below the point of discharge.

The proposed effluent limits for Outfall 001 based on a design flow of 0.019 mgd.

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Annual Average (lbs./Year)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅	5.0		10.0

Total Nitrogen	5.0, Offset by Credits		10.0
Total Phosphorus	0.10, Offset by Credits		0.20
Dissolved Oxygen	A minimum of 6.0 mg/l at all times.		
Fecal Coliform	200/100 ml as a geometric mean		
(5-1 to 9-30)	2,000/100 ml as a geometric mean		
(10-1 to 4-30)	6.0 to 9.0 standard units at all times.		
pH	6.0 to 9.0 standard units at all times.		
Total Residual Chlorine	Nondetectable		
Kjeldahl-N	Report		
NO ₂ -NO ₃ as "N"	Report		
Total Net Nitrogen		0	
Total Net Phosphorus		0	

The permit contains conditions which authorize the permittee to apply nutrient reduction credits to meet the nitrogen and phosphorus effluent limits, under the Department's Trading of Nutrient and Sediment Reduction Credits Policy and Guidelines (392-0900-001, December 30, 2006). The conditions include the requirement to report any such credits in monthly supplemental DMRs submitted to the Department.

PA-0028568, Sewage, **Bangor Borough Authority**, 54 Market Street, P. O. Box 51, Bangor, PA 18013. This proposed facility is located in Washington Township, **Northampton County**.

Description of Proposed Activity: Renewal of NPDES Permit.

The receiving stream, Martin's Creek, is in the State Water Plan Watershed 01F and is classified for: Aquatic Life: TSF, migratory fishes, water supply and recreation. The nearest downstream public water supply intake for the City of Easton is located on Delaware River is approximately 25 miles below the point of discharge. The proposed effluent limits for Outfall 001 based on a design flow of 1.6 mgd.

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Average Weekly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>
CBOD ₅	25	40	50
Total Suspended Solids	30	45	60

(10-1 to 4-30)	2,000/100 ml as a geometric mean		
pH	6.0 to 9.0 standard units at all times.		
Total Residual Chlorine	0.18		0.42

In addition to the effluent limits, the permit contains the following major special conditions:

1. Special Condition for Whole Effluent Toxicity Testing.

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

Application No. PA 0260100, Sewage, **James Lyons**, 9 Mathias Road, Littlestown, PA 17340. This facility is located in Germany Township, **Adams County**.

Description of activity: The application is for issuance of an NPDES permit for new discharge of treated sewage.

The receiving stream, a UNT to Piney Creek, is in Watershed 13-D and classified for WWF, water supply, recreation and fish consumption. The nearest downstream public water supply intake for City of Frederick Maryland is located on the Monocacy River, approximately 41 miles downstream. The discharge is not expected to affect the water supply.

The proposed effluent limits for Outfall 001 for a design flow of 0.0004 mgd are:

PA0253332, Sewage, Etna Borough, 437 Butler Street, Etna, PA 15223. This application is for issuance of an NPDES permit to discharge combined sewage from combined sewer outfalls in the Borough of Etna, **Allegheny County**.

Outfalls:

A-68 CSO(8) CSO(1) CSO(1A) CSO(2) CSO(3) CSO(4) CSO(5) CSO(7)

which discharge to the receiving waters known as Allegheny River, Pine Creek and serve as combined sewer overflows necessitated by stormwater entering the sewer system and exceeding the hydraulic capacity of the sewers and/or the treatment plant and are permitted to discharge only for such reason. There are at this time no specific effluent limitations on the outfalls. Each discharge shall be monitored for cause, frequency, duration and quantity of flow.

Other Conditions: The Borough of Etna is required to implement the nine minimum technology based controls on a system wide basis and develop a long-term control plan.

PUBLIC WATER SUPPLY (PWS) PERMIT

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on a permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within the 30-day comment period will be considered in the formulation of the final determinations regarding the application. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of Environmental Protection (Department) of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and are available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability who require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the

Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northeast Region: Ronald S. Brezinski, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Thomas Kellogg Property, Lower Macungie Township, **Lehigh County**. Mark Zunich, GemChem, Inc., 53 North Cedar Street, Lititz, PA 17543 has submitted a Notice of Intent to Remediate (on behalf of his client, Thomas Kellogg, 1190 Dorney Road, Breinigsville, PA 18031) concerning the remediation of soils impacted by No. 2 home heating oil as a result of an accidental release. The applicant proposes to meet the Statewide Health Standard. The future use of the property will remain residential. A summary of the Notice of Intent to

Remediate is expected to be published in a local newspaper serving the general area sometime in the near future.

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Former Brownstown Restaurant, West Earl Township, **Lancaster County**. GemChem, Inc., 53 North Cedar Street, Lititz, PA 17543, on behalf of Ernie Capezzi, 23 Warwick Road, Lititz, PA 17543-8580, submitted a Notice of Intent to Remediate site soils contaminated with No. 2 fuel oil from a removed leaking underground storage tank. The property was formerly a restaurant and residential/commercial use is planned for the future. The applicant is seeking to remediate to the Residential Statewide Health Standard.

Former Sell's Garage, Arendtsville Borough, **Adams County**. Alliance Environmental Services, Inc., 1820 Linglestown Road, Harrisburg, PA 17110, on behalf of Arendtsville Borough, P. O. Box 508, Arendtsville, PA 17303-0508, submitted a Notice of Intent to Remediate site soils and groundwater contaminated with petroleum hydrocarbons. The property was formerly an automobile and truck repair garage. The proposed future use of the site is open space and a community park. The applicant is seeking to remediate to a special industrial area standard.

CNH America, LLC, New Holland Borough, **Lancaster County**. RMT, Inc., 527 Plymouth Road, Plymouth Meeting, PA 19462, on behalf of CNH America, LLC, 700 State Street, Racine, WI 53404, submitted a Notice of Intent to Remediate site soils and groundwater contaminated with chlorinated solvents. The property is and will remain an industrial manufacturing site. The applicant is seeking to remediate to the Site-Specific Standard.

Columbia Gas of Pennsylvania Service Center, Gettysburg Borough, **Adams County**. The RETEC Group, Inc., 300 Baker Avenue, Concord, MA 01742-2131, on behalf of Columbia Gas of Pennsylvania, 1020 North Harley Street, York, PA 17404 and NiSource Corporate Services Company, 300 Frieberg Parkway, Westborough, MA 01581-3900, submitted a Notice of Intent to Remediate site soils and groundwater contaminated with PAHs. The property was formerly a manufactured gas facility and future use is for a homeless shelter. The applicant is seeking to remediate to the Site-Specific Standard.

Former Columbia Petroleum Corporation Facility, West Manchester Township, **York County**. Patriot Environmental Management, LLC, P. O. Box 629, Douglassville, PA 19518, on behalf of Richland Partners, LLC d/b/a/ Leffler Energy, P. O. Box 659, Douglassville, PA 19518-0659, submitted a Notice of Intent to Remediate groundwater contaminated with leaded gasoline. The property was used for storage and distribution of petroleum products and will be used commercially in the future. The applicant is seeking to remediate to the Nonresidential Statewide Health Standard.

Former Schmidt & Ault/Regis Paper Company, York City and Spring Garden Township, **York County**. Alliance Environmental Services, Inc., 1820 Linglestown Road, Harrisburg, PA 17110, on behalf of Tyler Run, LLC, 427 Kings Mill Road, York, PA 17403-3573, submitted a Notice of Intent to Remediate site soils and groundwater contaminated with benzene, chlorinated solvents and PCBs. The property was a former cardboard box manufacturing site and also used to wholesale/retail petroleum fuels, and is being considered for mixed commercial and

residential use in the future. The applicant is seeking to remediate to both the Site-Specific and Statewide Health Standards.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State

operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Mark Wejkszner, New Source Review Chief, (570) 826-2531.

48-323-011: Victaulic Co. (P. O. Box 31, Easton, PA 18044) for construction of a burn-off oven and associated air cleaning device at their Forks Facility at 4901 Kesslersville Road, Forks Township, **Northampton County**.

48-313-102: Praxair Distribution, Inc. (145 Shimersville Road, Bethlehem, PA 18015) for reactivation of an acid gas scrubbing system at their facility in Bethlehem, **Northampton County**.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

07-03049B: A.P. Green Refractories, Inc. (R. D. No. 1, Box 588D, Claysburg, PA 16625) for replacement of an existing dust collector (CD19) on the No. 2 Castable Line at the facility in Greenfield Township, **Blair County**.

36-05093C: Martin Limestone, Inc. (P. O. Box 550, Blue Ball, PA 17506) for installation of a replacement recycled asphalt paving system at the company's Denver asphalt plant in East Cocalico Township, **Lancaster County**.

36-05127B: Martin Limestone, Inc. (404 Martindale Road, Ephrata, PA 17522) for addition of equipment to process recycled asphalt pavement at their Burkholder Asphalt Plant in Earl Township, **Lancaster County**. This project is subject to 40 CFR Part 60, Subpart I—Standards of Performance for Hot Mix Asphalt Facilities.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, William Charlton, New Source Review Chief, (412) 442-4174.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Thomas McGinley, New Source Review Chief, (484) 250-5920.

09-0007C: Waste Management Disposal Services of Pennsylvania, Inc.—G.R.O.W.S. Landfill (1121 Bordentown Road, Morrisville, PA 19067) for construction of an expansion, known as 'GROWS North' and installation of two backup enclosed flares in Falls Township, **Bucks County**. The approval will allow the owner/operator to direct landfill gas generated at the GROWS North Expansion to a treatment system and then sent to Exelon Generation Company's Fairless Hills Steam Generating Station. Each backup enclosed flare shall be designed for a maximum of 5,000 standard cubic feet per minute (SCFM) flow rate at 50% methane. Each flare shall have a minimum destruction and removal efficiency for NMOC of 98% (by weight) or the NMOC concentration in the exhaust gas shall be less than 20 ppmv (dry basis as hexane at 3%), whichever is less stringent. The facility is a major facility for VOC. The landfill is subject to 40 CFR Part 60 Subpart WWW, Standards of Performance for Municipal Solid Waste Landfills, and 40 CFR Part 63 Subpart AAAA, National Emission Standards for Hazardous Air Pollutants: Municipal Solid Waste Landfills.

Under this approval, fugitive emissions of VOC from the GROWS North Expansion shall not exceed 20.62 tons/year (on a 12-month rolling basis), calculated after they are closed in accordance with 40 CFR 60.751. The facility shall not exceed a maximum of 100 tpy of PM emissions (on a 12-month rolling basis). The facility shall have a maximum of 13.80 tons of NO_x emissions from the two enclosed flares. The owner/operator will comply with the monitoring, recordkeeping, reporting and work prac-

tice standards to keep the facility operating within all applicable air quality requirements.

09-0193: Basic Chemical Solutions, LLC (5 Steel Road East, Morrisville, PA 19067) for installation of nine Above Ground Acid Storage Tanks with the Associated Air Pollution Control Devices (storage tanks) at the Basic Chemical Solutions, LLC, chemicals manufacturing new facility located at 5 Steel Road East, Falls Township, **Bucks County**. The installation of storage tanks may result in the emissions of: 5.63 tpy of HAPs. The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Mark Wejkszner, New Source Review Chief, (570) 826-2531.

48-303-057: Pikes Creek Asphalt—Division of Reading Materials, Inc. (P. O. Box 1467, 2052 Lucon Road, Skippack, PA 19474) for modification of a batch asphalt plant to increase the amount of recycled asphalt pavement in the mixture, and to install a new air cleaning device (baghouse) at their Pikes Creek Asphalt Plant, at R. R. No. 2 and Trojan Road, Lehman Township, **Luzerne County**. Particulate emissions from the plant will be controlled by the installation of a new air-cleaning device. Expected particulate emission rate will be less than 0.02 grain/dscf. The company will operate the facility and maintain the equipment in accordance with the good engineering practices to assure proper operation of the system. The Plan Approval will be incorporated into the company's State-only Operating Permit No. 40-00048 when operational. The operating permit will contain recordkeeping and operating restrictions that are designed to keep the facility operating within all applicable air quality requirements.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

06-05066E: Exide Technologies (P. O. Box 13995, Reading, PA 19612-3995) for modification of the secondary lead smelting system controlled by two sets of cooling tubes, two fabric collectors, two venturi scrubbers and two spray chambers in the Laureldale Borough and Muhlenberg Township, **Berks County**. The modification will limit the emissions of SO₂ from the smelter system to a 12-month rolling average of 86 ppmv and a rolling 12-month total of 240 tons. These limits will exempt the facility from 40 CFR Part 51, Regional Haze Regulations and Best Available Retrofit Technology. The plan approval will include monitoring, work practices, recordkeeping and reporting requirements to keep the source operating within the applicable requirements. The facility is presently covered by the Title V Operating Permit 06-05066. The plan approval will be incorporated into this permit in accordance with 25 Pa. Code § 127.450 (Administrative Amendment).

36-03135D: Shared Mail Acquisitions, LLC (72 Industrial Circle, Leola, PA 17540-0129) for construction of a heatset printing press at their facility in Upper Leacock Township, **Lancaster County**. This printing facility is a non-Title V (State-only) facility. The addition of this new printing press will result in less than 5 tpy of VOC and less than 1 tpy of HAP emissions after control by the existing thermal oxidizer. Conditions for monitoring, recordkeeping and work practice standards are included to keep the facility operating within the applicable requirements.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, David Aldenderfer, Program Manager, (570) 327-3637.

17-00017A: Rescar, Inc. (450 Osborne Street, Dubois, PA 15801) for installation of an air cleaning device, a cartridge collector, on a railcar abrasive blasting operation in the City of Dubois, **Clearfield County**.

The facility in which the railcar abrasive blasting operation is located is not a major (Title V) facility for any air contaminant.

The railcar abrasive blasting operation consists of two work stations in which railcar interiors and exteriors are cleaned of old paint, rust, content residue and the like by abrasive blasting. The proposed cartridge collector will be used to control the PM emissions including PM10 from the abrasive blasting operation and will replace the fabric collector currently used for that purpose.

Following the installation of the proposed cartridge collector, the PM emissions including PM10 from the abrasive blasting operation are not expected to exceed 73.4 tpy. This represents an increase of 32.75 tpy in the amount of PM emissions allowed from the abrasive blasting operation. This increase is due to the fact that the air flow associated with the cartridge collector is greater than the air flow associated with the fabric collector it replaces. This increase constitutes a modification of the abrasive blasting operation.

The Department of Environmental Protection's (Department) review of the information submitted by Rescar, Inc. indicates that the abrasive blasting operation will comply with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants, including 25 Pa. Code § 123.13, following the installation of the proposed cartridge collector. Based on this finding, the Department proposes to issue plan approval for the installation of the cartridge collector and the associated modification of the abrasive blasting operation.

The following is a summary of the conditions the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable regulatory requirements:

1. The PM emissions from the abrasive blasting operation shall either be controlled by the existing fabric collector or the proposed cartridge collector. At no time shall abrasive blasting occur unless one of these two collectors is operating.

2. All conditions contained in State-only operating Permit 17-00017 shall remain in effect unless amended or superseded by a condition contained herein. If there is a conflict between a condition or a requirement contained in this plan approval and a condition or requirement contained in State-only operating Permit 17-00017, the permittee shall comply with the condition or requirement contained in this plan approval rather than with the conflicting condition or requirement contained in State-only operating Permit 17-00017.

3. The concentration of PM in the exhaust of the cartridge collector shall not exceed .04 grain per dry standard cubic foot of effluent gas volume.

4. Spare cartridges shall be kept onsite for the cartridge collector.

5. The cartridge collector shall be equipped with instrumentation to monitor the pressure differential across the collector on a continuous basis.

6. The air compressor used to supply compressed air to the cartridge collector shall be equipped with an air dryer and oil trap.

7. Dust shall only be removed from the cartridge collector dust hopper by means of an enclosed system into an enclosed container.

19-00006C: Del Monte Corporation (6670 Low Street, Bloomsburg, PA 17815) for construction of a new pet food manufacturing line in the company's Bloomsburg Plant in South Centre Township, **Columbia County**.

The facility in which the pet food manufacturing line will be located is a major (Title V) facility for SOx and has been issued a Title V operating permit (19-00006).

The proposed new pet food manufacturing line will consist of bulk grain, meal, and the like railcar/truck unloading operations, 11 grain, meal, and the like storage silos, four 9 million Btu per hour natural gas-fired dryers and various pieces of milling, mixing, conveying, and the like equipment. The PM emissions including PM10 will be controlled by a total of 25 fabric collectors (14 of which will not be exhausted to the outside atmosphere) and four wet centrifugal collectors. The wet centrifugal collectors will be used on the four dryers, each of which will also be equipped with low NOx burners.

The air contaminant emissions from the proposed pet food manufacturing line are not expected to exceed 19.78 tons of PM (including up to 16.28 tons PM10), 23.76 tons of NOx, 26.28 tons of CO, 1.05 tons of VOCs, .09 ton of SOx and .31 tons of HAPs per year.

The Department's review of the information submitted by Del Monte Corporation indicates that the proposed pet food manufacturing line should comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the PM emission requirements of 25 Pa. Code § 123.13, the malodorous air contaminant emission requirement of 25 Pa. Code § 123.31 and the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue plan approval for the construction of the proposed pet food manufacturing line. Additionally, if the Department determines that the pet food manufacturing line is operating in compliance with all conditions of the plan approval and all applicable regulatory requirements following its construction, the Department intends to incorporate the plan approval conditions into Title V Operating Permit 19-00006 by means of the administrative amendment requirements of 25 Pa. Code § 127.450.

The following is a summary of the conditions the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable requirements:

1. All unloading of bulk materials (grain, meal, and the like) from trucks shall occur inside an enclosed building with all windows and doors shut during the actual unloading. All unloading of bulk materials from railcars shall occur by unloading the materials from the bottom of the railcars into a hopper located under the tracks.

2. No more than a combined total of 272,261 tons of bulk material shall be unloaded from trucks and railcars in any 12-consecutive month period.

3. The fugitive PM emissions from the unloading of bulk materials from trucks and railcars shall not exceed 4.56 tons in any 12-consecutive month period of which no more than 1.06 tons in any 12-consecutive month period shall be PM10.

4. All fabric collectors installed to control PM/PM10 from the pet food manufacturing line shall be as described in the application and supplemental materials submitted for plan approval.

5. The PM emitted from the fabric collector controlling the outdoor hammermill shall not exceed .0025 grain per dry standard cubic foot of effluent gas volume and .63 ton in any 12-consecutive month period and the PM10 emitted shall not exceed .0025 grain per dry standard cubic foot of effluent gas volume and .63 ton in any 12-consecutive month period. Additionally, there shall be no visible air contaminant emissions from the fabric collector other than water vapor or steam.

6. The PM emitted from the fabric collector controlling the two mechanically-loaded ground corn silos shall not exceed .0025 grain per dry standard cubic foot of effluent gas volume and .09 ton in any 12-consecutive month period and the PM10 emitted shall not exceed .0025 grain per dry standard cubic foot of effluent gas volume and .09 ton in any 12-consecutive month period. Additionally, there shall be no visible air contaminant emissions from the fabric collector other than water vapor or steam.

7. The PM emitted from each of the 9 fabric collectors controlling the 9 pneumatically-loaded silos shall not exceed .0025 grain per dry standard cubic foot of effluent gas volume and .18 ton in any 12-consecutive month period and the PM10 emitted shall not exceed .0025 grain per dry standard cubic foot of effluent gas volume and .18 ton in any 12-consecutive month period. Additionally, there shall be no visible air contaminant emissions from any of these fabric collectors other than water vapor or steam.

8. Each fabric collector exhausting to the outdoor atmosphere shall be equipped with instrumentation to monitor the pressure differential across the collector on a continuous basis.

9. The air compressors supplying compressed air to the fabric collector shall be equipped with an air dryer and oil trap.

10. Spare bags shall be kept onsite for all fabric collectors.

11. The outdoor hammermill and all conveyors located outdoors shall be completely enclosed.

12. The combined heat input of the burners incorporated in each dryer shall not exceed 9 million Btu per hour, all burners shall be low NOx burners and all burners shall be fired on natural gas only.

13. The water used in the wet centrifugal collectors shall be clean water used on a "once-through" basis. Additionally, the water flow rate to each centrifugal collector shall not be less than 12-gallons per minute at any time the collector is operating.

14. Each wet centrifugal collector shall be equipped with a pressure gauge to monitor the pressure of the water supplied to the collector, instrumentation to monitor the water flow rate to the collector (in gallons per minute) and an alarm system which shall be activated if the water flow rate is below the required rate.

15. The PM emitted from each of the 4 wet centrifugal collectors shall not exceed .005 grain per dry standard cubic foot of effluent gas volume and 3.22 tons in any 12-consecutive month period and the PM10 emitted shall not exceed .005 grain per dry standard cubic foot of effluent gas volume and 3.22 tons in any 12-consecutive month

period. Additionally, there shall be no visible air contaminant emissions other than water vapor or steam.

16. The NOx emissions from each of the 4 dryers shall not exceed .151 pound per million Btu of heat input, 1.36 pounds per hour and 5.94 tons in any 12-consecutive month period, the CO emissions shall not exceed .167 pound per million Btu of heat input, 1.5 pounds per hour and 6.57 tons in any 12-consecutive month period, the VOC emissions shall not exceed .0054 pound per million Btu of heat input, .049 pound per hour and .21 tons in any 12-consecutive month period, the SOx emissions shall not exceed .01 pound per hour and .02 ton in any 12-consecutive month period and the HAPs emissions shall not exceed .072 ton in any 12-consecutive month period.

17. Within 180 days of the commencement of operation of each dryer, stack testing shall be performed on the respective dryer to determine the PM, NOx and CO emission rates. The PM stack testing shall include a determination of the condensable PM emission rate. The permittee shall also perform PM10 stack testing if the Department ever determines that it is needed. All testing shall be performed using test procedures acceptable to the Department while the dryer is operating at maximum capacity.

18. The total combined NOx emissions from the four existing boilers identified in Title V Operating Permit 19-00006 as Sources 031, 032, 034 and 035 shall not exceed 78.61 tons in any 12-consecutive month period following the commencement of operation of the second dryer, 71.03 tons in any 12-consecutive month period following the commencement of operation of the third dryer and 67.25 tons in any 12-consecutive month period following the commencement of operation of the fourth dryer.

19. The total combined amount of No. 6 fuel oil burned in the two existing boilers identified in Title V Operating Permit 19-00006 as Sources 031 and 032 shall not exceed 1,712,500 gallons in any 12-consecutive month period following the commencement of operation of the second dryer, 1,437,500 gallons in any 12-consecutive month period following the commencement of operation of the third dryer and 1,300,000 gallons in any 12-consecutive month period following the commencement of operation of the fourth dryer.

20. The VOC and volatile HAP emissions resulting from the use of ink in the packaging area shall not exceed .051 ton and .015 ton, respectively, in any 12-consecutive month period. Additionally, no more than 14 gallons of ink shall be used in any 12-consecutive month period and the ink shall not contain more than 2.164 pounds of volatile HAPs per gallon.

21. The VOC and volatile HAP emissions from the use of hot melt adhesives in the packaging area shall not exceed .156 ton and zero tons, respectively, in any 12-consecutive month period. Additionally, no more than 52,000 pounds of hot melt adhesives shall be used in any 12-consecutive month period.

22. Comprehensive accurate records shall be maintained of the amount of bulk material delivered by railcar each month, the amount of bulk material delivered by truck each month, the total combined amount of natural gas burned in the dryers each month, the amount of NOx emitted from the dryers each month and the identity, quantity VOC content and volatile HAP content of each ink, hot melt adhesive, and the like used in the packaging area each month. These records shall be submitted to the Department on a semi-annual basis.

A copy of the plan approval application is available for public inspection during normal business hours at the address listed. Persons interested in inspecting the application must schedule an appointment in advance.

Persons wishing to protest the issuance of plan approval or provide the Department with additional information which he/she believes should be considered in the Department's review of the respective plan approval application may do so by submitting the protest or information in writing to the Department at the address listed below.

Protests or comments must be received by the Department within 30 days of the last date of publication of this notice in order to be considered. Each protest or comment should include the name, address and telephone number of the person submitting the protest or comment and a concise statement explaining the relevancy of the protest or comment being presented to the Department.

A public hearing may be held if the Department, in its discretion, decides that such a hearing is warranted based on the information received. Persons protesting the issuance of plan approval, submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in a local newspaper of general circulation in the South Centre Township area or by letter or telephone if the Department feels that that notification is sufficient.

Written comments, protests or requests for a public hearing should be directed to David W. Aldenderfer, Environmental Program Manager, Air Quality Program, Department of Environmental Protection, 208 West Third Street, Suite 101, Williamsport, PA 17701-6448.

10-021P: Indspec Chemical Corp. (133 Main Street, Petrolia, PA 16050) for installation of a new 9,949 gallon Styrene Storage Tank at their facility in Petrolia Borough, **Butler County**.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue a plan approval to install a new 9,949 gallon Styrene Storage Tank at the facility in Petrolia Borough, Butler County. The facility currently has a Title V permit which was issued 11/2/2000. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V operating permit through an administrative amendment at a later date.

As a general summary, the following requirements are applicable to the board breaker and the control device:

1. (a) The permittee shall maintain a record of the daily throughput of styrene in the storage tank.

(b) The records shall be made available to the Department upon request.

2. (a) The permittee shall maintain combination flame arrester/conservation vents on the styrene tank.

(b) The permittee shall maintain the temperature and level indicators on the styrene tank.

3. 40 CFR Part 63 NESHAPS for Source Categories 40 CFR 63.1417 Subpart OOO—National Emission Standards for Hazardous Air Pollutant Emissions: Manufacture of Amino/Phenolic Resins

(a)—(d) [Do Not Apply]

(e) Notification of Compliance Status. For existing and new affected sources, a Notification of Compliance Status shall be submitted within 150 days after the compliance dates specified in 63.1401. For equipment leaks, the Notification of Compliance Status shall contain the information specified in 40 CFR Part 63, Subpart UU. For storage vessels, continuous process vents, batch process vents and aggregate batch vent streams, the Notification of Compliance Status shall contain the information listed in subsection (e)(1)—(6) of this section.

(1) The results of any emission point applicability determinations, performance tests, design evaluations, inspections, continuous monitoring system performance evaluations, any other information used to demonstrate compliance and any other information, as appropriate, required to be included in the Notification of Compliance Status under 40 CFR Part 63, Subpart WW and subpart SS, as referred to in 63.1404 for storage vessels; under 40 CFR Part 63, subpart SS, as referred to in 63.1405 for continuous process vents; under 63.1416(f)(1)—(3) for continuous process vents; under 63.1416(d)(1) for batch process vents; and under 63.1416(e)(1) for aggregate batch vent streams. In addition, each owner or operator shall comply with subsection (e)(1)(i) and (ii) of this section.

(i) For performance tests, applicability determinations, and estimates of organic HAP emissions that are based on measurements, the Notification of Compliance Status shall include one complete test report, as described in subsection (e)(1)(ii) of this section, for each test method used for a particular kind of emission point. For additional tests performed for the same kind of emission point using the same method, the results and any other required information shall be submitted, but a complete test report is not required.

(ii) A complete test report shall include a brief process description, sampling site description, description of sampling and analysis procedures and any modifications to standard procedures, quality assurance procedures, record of operating conditions during the test, record of preparation of standards, record of calibrations, raw data sheets for field sampling, raw data sheets for field and laboratory analyses, documentation of calculations and any other information required by the test method.

(2) For each monitored parameter for which a maximum or minimum level is required to be established, the Notification of Compliance Status shall contain the information specified in subsection (e)(2)(i)—(iv) of this section, unless this information has been established and provided in the operating permit.

(i) The required information shall include the specific maximum or minimum level of the monitored parameter(s) for each emission point.

(ii) The required information shall include the rationale for the specific maximum or minimum level for each parameter for each emission point, including any data and calculations used to develop the level and a description of why the level indicates proper operation of the control device or control technology.

(iii) The required information shall include a definition of the affected source's operating day, as specified in

63.1416(c)(2)(ii), for purposes of determining daily average values or batch cycle daily average values of monitored parameters. The required information shall include a definition of the affected source's blocks, as specified in 63.1416(c)(2)(ii), for purposes of determining block average values of monitored parameters.

(iv) For batch process vents, the required information shall include a definition of each batch cycle that requires the control of one or more batch emission episodes during the cycle, as specified in 63.1413(e)(1)(iii) and 63.1416(c)(2)(ii).

(3) When the determination of applicability for process units, as made following the procedures in 63.1400(g), indicates that a process unit is an APPU, an identification of the APPU and a statement indicating that the APPU is an APPU that produces more than one intended product at the same time, as specified in 63.1400(g)(1), or is a flexible operations process unit as specified in 63.1400(g)(2)—(4).

(4) [Reserved]

(5) The results for each predominant use determination for storage vessels belonging to an affected source subject to this subpart that is made under 63.1400(h)(6).

(6) Notification that the owner or operator has elected to comply with 63.1416(h), Reduced Recordkeeping Program. The same kind of emission point using the same method, the results and any other required information shall be submitted, but a complete test report is not required.

(ii) A complete test report shall include a brief process description, sampling site description, description of sampling and analysis procedures and any modifications to standard procedures, quality assurance procedures, record of operating conditions during the test, record of preparation of standards, record of calibrations, raw data sheets for field sampling, raw data sheets for field and laboratory analyses, documentation of calculations and any other information required by the test method.

(2) For each monitored parameter for which a maximum or minimum level is required to be established, the Notification of Compliance Status shall contain the information specified in subsections (e)(2)(i)—(iv) of this section, unless this information has been established and provided in the operating permit.

(i) The required information shall include the specific maximum or minimum level of the monitored parameters for each emission point.

(ii) The required information shall include the rationale for the specific maximum or minimum level for each parameter for each emission point, including any data and calculations used to develop the level and a description of why the level indicates proper operation of the control device or control technology.

(iii) The required information shall include a definition of the affected source's operating day, as specified in 63.1416(c)(2)(ii), for purposes of determining daily average values or batch cycle daily average values of monitored parameters. The required information shall include a definition of the affected source's blocks, as specified in 63.1416(c)(2)(ii), for purposes of determining block average values of monitored parameters.

(iv) For batch process vents, the required information shall include a definition of each batch cycle that requires the control of one or more batch emission episodes during the cycle, as specified in 63.1413(e)(1)(iii) and 63.1416(c)(2)(ii).

(3) When the determination of applicability for process units, as made following the procedures in 63.1400(g), indicates that a process unit is an APPU, an identification of the APPU and a statement indicating that the APPU is an APPU that produces more than one intended product at the same time, as specified in 63.1400(g)(1), or is a flexible operations process unit as specified in 63.1400(g)(2)—(4).

(4) [Reserved]

(5) The results for each predominant use determination for storage vessels belonging to an affected source subject to this subpart that is made under 63.1400(h)(6).

(6) Notification that the owner or operator has elected to comply with 63.1416(h), Reduced Recordkeeping Program.

(7)—(9) [Does Not Apply]

Copies of the application, the Department's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at 230 Chestnut Street, Meadville, PA 16335.

Any persons wishing to provide the Department with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the address shown in the preceding paragraph. The Department will consider any written comments received within 30 days of the publication of this notice. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed Permit No.10-021P.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the comments received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, when the Department determines telephone notification is sufficient. Written comments or requests for a public hearing should be directed to Carolyn L. Cooper, P. E., New Source Review, 230 Chestnut Street Meadville, PA 16335, (814) 332-6940.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should by contacting Carolyn L. Cooper, P. E., or the Pennsylvania AT&T Relay service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

If a plan approval has not undergone the public notice process, the change to an operating permit must be treated as a significant modification. In these situations the Department should follow the procedures described in 25 Pa. Code §§ 127.421 to 127.431 for State-only operating permits or 25 Pa. Code §§ 127.521—127.524 for Title V operating permits.

42-158K: Temple—Inland Forest Products Corp. (149 Temple Drive, Kane, PA 16735) for addition of the board breaker, a new source that had been previously included in Plan Approval 42-158D, for the Temple-Inland Mt. Jewett Complex Operations in Mt. Jewett Township, **McKean County**.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue a plan approval for the Temple-Inland Mt. Jewett Complex Operations in Mt. Jewett Township, McKean County to add the board breaker, a new source that had been previously included in Plan Approval 42-158D, but not included in the new PAL permit. The facility currently has a Title V Permit No. 42-00158, which was issued on 10/02/2006. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V operating permit through an administrative amendment at a later date.

As a general summary, the following requirements are applicable to the board breaker and the control device:

1. Under 40 CFR 52.21(aa), the PAL is established for particulate emissions from all affected sources at the facility as 264.55 tpy calculated on a 12-month rolling sum.

2. This source is subject to the subgroup entitled General PAL Requirements found in the existing Title V Permit.

3. This source is subject to the CAM Requirements found in the existing Title V Permit. Copies of the application, the Department's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at 230 Chestnut Street, Meadville, PA 16335.

Persons wishing to provide the Department with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the address shown in the preceding paragraph. The Department will consider any written comments received within 30 days of the publication of this notice. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed Permit No. 42-158K.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department, in its discretion, decides that such a hearing is warranted based on the comments received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, when the Department determines telephone notification is sufficient. Written comments or requests for a public hearing should be directed to Carolyn L. Cooper, P. E., New Source Review, 230 Chestnut Street Meadville, PA 16335, (814) 332-6940.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should by contacting Carolyn L. Cooper, P. E., or the Pennsylvania AT&T relay service at (800) 654-5984 (TDD) to discuss how the Department may accommodate your needs.

If a plan approval has not undergone the above public notice process, the change to an operating permit must be treated as a significant modification. In these situations the Department should follow the procedures described in 25 Pa. Code §§ 127.421 to 127.431 for State-only operating permits or 25 Pa. Code §§ 127.521—127.524 for Title V operating permits.

43-305B: Champion Carrier Corp. (2755 Kirila Road, Hermitage, PA 16148-9019) for post modification approval

of Booth No. 1 at the truck body manufacturer in the City of Hermitage, **Mercer County**.

In accordance with 25 Pa. Code §§ 127.44(d) and 127.424(d), the Department of Environmental Protection (Department) intends to issue a plan approval for post modification of the No. 1 surface coating booth from a water wash type control to a dry filter system. Particulate emissions will be reduced slightly and VOC emissions will remain the same. This booth and the two existing booths total emissions combined are restricted to 23.19 tpy of VOC or less during any consecutive 12-month rolling period. In addition, the facility is required to comply with 25 Pa. Code § 129.52. The plan approval will contain monitoring requirements for the pressure drop gauge indicating the pressure drop across the filters. Recordkeeping requirements of the pressure drop, filter changes and total VOC emissions are also included in the plan approval. The plan approval will also include additional requirements to ensure the source is operated in compliance with the Department's regulations contained in 25 Pa. Code Chapters 121—143 and the requirements of the Federal Clean Air Act. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into a State-only Operating Permit through an administrative amendment at a later date. Issuance of the plan approval is recommended with the appropriate conditions in the plan approval.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter G.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Edward Jurdon Brown, Facilities Permitting Chief, (484) 250-5920.

15-00002: Quebecor World Atglen, Inc. (4581 Lower Valley Road, West Sadsbury Township, PA 19310) for renewal of the Title V Operating Permit issued on 11-7-2001. The facility is a printing company that employs two printing processes—publication rotogravure and in a very limited circumstances, flexography—to provide printing to the publishing industry in West Sadsbury Township, Chester County. As a result of potential emissions of VOCs, the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments, and is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G. The proposed Title V Operating Renewal does not reflect any change in air emissions from the facility. The facility is subject to the Compliance Assurance Monitoring regulation under 40 CFR Part 64. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

46-00061: Department of Corrections—Graterford State Correctional Institute (Graterford Road, Collegeville, PA 19426) for renewal of the Title V Operating Permit issued on December 19, 2001. The facility operates three anthracite coal fired boilers and on No. 2 fuel oil fired boiler in Skippack Township, **Montgomery County**. As a result of potential emissions of NO_x and SO_x, the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments, and is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G. This Title V Operating Permit was also revised to incorporate plan approval 46-329-014 for three standby diesel generators in accordance with the requirements of 25 Pa. Code § 127.450. The proposed Title V Operating

Renewal does not adopt any new regulations and does not reflect any change in air emissions from the facility. The facility is not subject to Compliance Assurance Monitoring under 40 CFR Part 64. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

Intent to Issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter F.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

28-03013: Grove Bowersox Funeral Home (50 South Broad Street, Waynesboro, PA 17268) for a natural minor permit renewal for a crematorium at Waynesboro Borough, **Franklin County**.

36-05145: Craig Manufacturing Corp. (P. O. Box 901, Adamstown, PA 19501) for operation of the utility box manufacturing process at their facility in West Cocalico Township, **Lancaster County**. The synthetic minor facility has limitations to keep emissions less than 50 tpy of VOC, 25 tpy of combined HAPs and 10 tpy of a single HAP. The operating permit will include emission restrictions, work practice standards, monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, Matthew Williams, New Source Review Chief, (814) 332-6940.

42-00177: Bradford Forest, Inc. (444 High Street, P. O. Box 369, Bradford, PA 16701-0369) for reissuance of a Natural Minor Operating Permit to operate a wood processing facility in Bradford City, **McKean County**. The facility's primary emission sources include three wood fired boilers, sawmill and wood working operations and three parts washers.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

Coal Applications Received

Effluent Limits—The following coal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to: (1) surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; and mined areas backfilled and revegetated; and (2) drainage (resulting from a precipitation event of less than or equal to a 1-year 24-hour event) from coal refuse disposal piles.

California District Office: 25 Technology Drive, Coal Center, PA 15423, (724) 769-1100.

Permit No. 32850701 and NPDES Permit No. PA0213683. AMFIRE Mining Company, LLC (One Energy Place, Latrobe, PA 15650). To renew the permit for the Clymer Refuse Disposal Site in Cherryhill Township, **Indiana County** and related NPDES permit. No additional discharges. Application received: January 8, 2007.

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931, (814) 472-1900.

56823143 and NPDES No. PA0605841. Croner, Inc. (P. O. Box 260, Friedens, PA 15541). Permit renewal for the continued operation and restoration of a bituminous surface mine in Quemahoning Township, **Somerset County**, affecting 202.0 acres. Receiving streams: UNTs

to Beaverdam Creek and Beaverdam Creek classified for the following use: HQ-CWF. The first downstream potable water supply intake from the point of discharge is Hooversville Municipal Authority, Stonycreek River. Application received: January 17, 2007.

Greensburg District Mining Office: Armbrust Professional Center, 8205 Route 819, Greensburg, PA 15601, (724) 925-5500.

63980101 and NPDES Permit No. PA0202151. Neiswonger Construction, Inc. (17592 Route 322, Strattanville, PA 16258). Renewal application for commencement, operation and reclamation to a bituminous surface mine, located in Somerset Township, **Washington County**, affecting 173 acres. Receiving stream: UNT to North Branch of Pigeon Creek, classified for the following use: WWF. There is no potable water supply intake within 10 miles downstream from the point of discharge. Renewal application received: January 22, 2007.

Noncoal Applications Received

Effluent Limits

The following noncoal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity ¹			
pH ¹		greater than 6.0; less than 9.0	

¹ The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931, (814) 472-1900.

Permit No. 4074SM12 and NPDES Permit No. PA0599352. New Enterprise Stone and Lime Company, Inc. (P. O. Box 77, New Enterprise, PA 16664). Renewal of NPDES Permit, Jefferson Township, **Somerset County**. Receiving streams: Kooser Run and UNTs to Kooser Run classified for the following use: HQ-CWF. There are no potable water supply intakes within 10 miles downstream. Application received: January 17, 2007.

Knox District Mining Office: P. O. Box 669, 310 Best Avenue, Knox, PA 16232-0669, (814) 797-1191.

37010301. Quality Aggregates, Inc. (200 Neville Road, Neville Island, PA 15225). Renewal of NPDES Permit No. PA0241881, Slippery Rock Township, **Lawrence County**. Receiving streams: nine UNTs of Slippery Rock Creek, classified for the following use: CWF. The first downstream potable water supply intakes from the point of discharge are Camp Allegheny and Ellwood City. NPDES Renewal application received: January 24, 2007.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901, (570) 621-3118.

6276SM2A1C10. Martin Limestone, Inc. (P. O. Box 550, Blue Ball, PA 17506). Correction to an existing quarry operation to add another access road in East Earl Township, **Lancaster County** affecting 232.0 acres, receiving stream: Conestoga Creek. Application received: January 22, 2007.

7775SM10C and NPDES Permit No. PA0011789. Lehigh Cement Company (537 Evansville Road, Fleetwood, PA 19522). Renewal of NPDES Permit for discharge of treated mine drainage from a quarry operation in Maiden Creek Township, **Berks County**, receiving stream: UNT to Lake Ontelaunee, classified for the following use: WWF and migratory fishery to Schuylkill River. Application received: January 23, 2007.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of

an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401(a) of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

ACTIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Plan Description: Disapproval of a revision to the Official Sewage Plan of Southampton Township, Cumberland County. The proposed Amos Leid subdivision consists of one residential building lot of 2.24 acres to be served by individual onlot sewage disposal system. The plan was disapproved because in the preliminary hydrogeologic study, after discounting samples that were not geologically linked to the tract and using the sample closest to the proposed lot, the groundwater sample showed a nitrate-nitrogen level of 10.9 mg/l, in excess of the US EPA maximum contaminant level. Under section 606 of The Clean Streams Law, when groundwater at a site is already polluted, a proposal for a new discharge to that polluted groundwater cannot be approved.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Prompt Interim Response

Tomstown TCE Site Quincy Township, Franklin County, PA

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) has initiated a prompt interim response at the Tomstown TCE Site (Site). The prompt interim response has been initiated under Sections 501(a) and 505(b) of the HSCA (35 P. S. §§ 6020.501(a) and 6020-505(b)).

The site is located in Quincy Township, Franklin County. Groundwater serving a number of residential wells in the area of Tomstown is contaminated with trichloroethylene (TCE), a VOC. This residential area is located about 2-3 miles north of Waynesboro. The nearest public water supply is approximately 1 mile away.

The Department considered three alternatives:

1. *Institutional Controls.* The Department would use institutional controls to limit the use of groundwater.

Individuals would be notified of the health risks for continued use of contaminated private water supplies. Institutional controls such as deed notices or deed restrictions would be placed on record that would alert new property owners, during property transactions, of the contaminated groundwater. Deed notices are attached to the deed to inform prospective property purchasers of the contamination present at the property. Deed restrictions placed on property deeds would restrict or limit future site activities to prevent human contact with contaminated groundwater and place limitations on the use of groundwater without adequate treatment. This alternative would not remove the actual exposure of the residents to the hazardous substances in the groundwater and would not be protective of human health and the environment unless the individual property owners initiated measures to limit their exposure. This alternative would not comply with applicable or relevant and appropriate requirements (ARARs) for the site. The annual analytical cost for the groundwater monitoring in this alternative is \$4,000.

2. *Bottled Water*. This alternative provides for the Department to furnish commercial bottled water to the impacted residences. Bottled water would be delivered regularly to each residence that has a water supply contaminated in excess of the Maximum Contaminant Level (MCL) of 5 ppb for TCE. This would effectively remove the risk posed by ingestion, but would not remove the risk posed by inhalation and dermal contact. This alternative would reduce the negative health impact of using the contaminated groundwater for private water supplies and thus provide an increase in protection of human health and the environment. The present cost of this alternative for the known 11 residential supplies that exceed the MCL for TCE is approximately \$3,800 per year.

3. *Point-Of-Entry Water Treatment Units*. This alternative provides for the Department to install carbon treatment systems on the supply line of private wells that are contaminated. The Department will provide continuing laboratory monitoring of these systems and provide maintenance of these units until a final remedial decision for the site. This is not a permanent solution and would require continued action to monitor and maintain the units. The remedy would need to be continued until the Department completes an investigation of the area to determine the possible source of contamination and final remediation alternatives. The carbon treatment systems would effectively remove the risk posed by ingestion, inhalation and dermal contact. This alternative will be protective of human health and the environment. Initial installation of a carbon treatment system is estimated to cost \$3,670 per unit, currently 1 unit. Annual carbon change out and UV light replacement is estimated at \$1,415. Sampling and analytical monitoring costs are estimated at \$1,040 a year per system.

The Department has selected Alternatives 2 and 3 as prompt interim responses. Alternative 2, Bottled Water, was initiated on January 1, 2007, for residences with water supply contamination levels greater than 5 ppb of TCE but less than 25 ppb. Bottled water delivery will continue until a more permanent solution is provided. Alternative 3, Point-of-Entry Water Treatment Systems, will be provided for residences that have TCE levels greater than 25 ppb TCE in their water supply. The Department has determined by risk analysis that this level presents an unacceptable inhalation threat in addi-

tion to the ingestion threat. This is not a permanent solution and would require continued action to monitor and maintain the units.

The Department is providing this notice under sections 505(b) and 506(b) of the HSCA (35 P. S. §§ 6020.505(b) and 6020.506(b)) and the publication of this notice in the *Pennsylvania Bulletin* starts the administrative record period under HSCA. The Administrative Record which contains information about this site and which supports the Department's decision to perform this action at the site is available for public review and comment. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation

performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service,

(800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law (35 §§ 691.1—691.702) and Notice of Final Action for Certification under section 401 of the FWPCA (33 U.S.C.A. § 1341).

The project is located approximately 3.5 miles northeast of the center of the Borough of Rockwood.

Northwest Region: Watershed Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

E10-415. Kaclik Development Associates, LP, 215 Executive Drive, Suite 200, Cranberry Township, PA 16066. The Shoppes at Heritage Creek commercial development, in Adams Township, **Butler County**, ACOE Pittsburgh District. (Butler, PA Quadrangle N: 40° 41' 44"; W: 80° 02' 17"). To relocate and restore approximately 325 feet of a tributary to Kaufman Run for the construction of a commercial development, driveways and parking lots, south of Route 228 in Adams Township. A 100-foot, 24-inch diameter culvert, an 84-foot long, 24-inch diameter culvert and several utility crossings will be installed and maintained in the tributary, which has a drainage area of less than 100 acres.

E10-420. Grace Community Church, P. O. Box 2467, Cranberry Township, PA 16066. Church expansion in Cranberry Township, **Butler County**, ACOE Pittsburgh District. (Baden, PA Quadrangle N: 40° 40' 57"; W: 80° 08' 08"). To include the following activities as part of the expansion of the Grace Community Church:

1. To install and maintain a precast Con/Span arch culvert with a 20-feet by 6-feet waterway opening and having a length of 75-feet, with associated fill in a tributary to Brush Creek (WWF) for a new access driveway.

2. To realign approximately 165 feet of the stream channel and fill an adjoining de minimis (0.022 acre) area of wetland (PEM/PSS) for the expansion of the existing parking lot and associated grading.

3. To relocate and maintain an 8-inch diameter sanitary sewer line across the tributary to Brush Creek (WWF).

4. To expand the existing stormwater detention basin disturbing a portion of an adjoining de minimis (0.009 acre) area of wetland (PEM).

5. To construct and maintain a 12-foot by 6-foot wooden footbridge over a drainage swale having a drainage area of less than 100 acres.

E10-422. FPS Construction, Inc., 120 Frankstowne Lane, Butler, PA 16002. Adams Township, **Butler County**, ACOE Pittsburgh District. To install and maintain a 60-foot long, 83-inch by 128-inch arch culvert pipe in Robinson Run (CWF) with associated fill to construct a private driveway. A de minimis amount of wetland (0.017 acre) will be filled in association with the installation of the culvert. (Butler, PA Quadrangle N: 40° 45' 37"; W: 79° 54' 54").

E25-710. Girard Township Supervisors, 10140 Ridge Road, Girard, PA 16417. T-544 Elk Park Road over Elk Creek, in Girard Township, **Erie County**, ACOE Pittsburgh District (Fairview, PA Quadrangle N: 1.1 inches; W: 14.1 inches). The applicant proposes to remove the existing structure and to construct and maintain a single span precast, prestressed concrete I girder bridge having a clear span of 123.5 feet and an underclearance of 16.09 feet on a 90° skew across Elk Creek on T-544 (Elk Park Road) 1.32 miles SW of the intersection of SR 5 and SR 18. Project includes riprap rock protection of abutments. Elk Creek is a perennial stream classified as a migratory fishery and WWF. The project proposes to impact approximately 120 feet of stream.

E43-330. Grove City Properties, LP, Springfield Towne Centre, in Springfield Township, **Mercer County**, ACOE Pittsburgh District (Mercer, PA Quadrangle N: 3.9 inches; W: 3.74 inches). The applicant proposes to construct the Springfield Towne Center, a commercial retail facility to consist of a 192,000 square-foot Wal-Mart Supercenter, 32,000 square-foot shops, a future fuel station and two 1-acre outparcels in Springfield Township, Mercer County, approximately 500 feet east of the intersection of the northbound Interstate I-79 entrance ramp and SR 208 on the north side of SR 208 (Mercer, PA Quadrangle N: 3.9 inches; W: 3.74 inches) in Springfield Township. The project involves: 1) to fill 0.68 acre of PEM/PSS/PFO/POW wetlands; 2) to fill 270 linear feet of a UNT to Black's Run, a perennial stream classified as WWF; and 3) to create 1.95 acres of new wetlands onsite. The project proposes to directly impact 0.68 acre of PEM/PSS/PFO/POW wetlands and 270 feet of a UNT to Black's Run and to create 1.95 acres of new wetlands on site.

E43-331. Mercer County, 503 Mercer County Courthouse, Mercer, PA 16137. County Bridge 1502 on McCarty Road over Pine Run, in Fairview Township, **Mercer County**, ACOE Pittsburgh District (Grove City, PA Quadrangle N: 41° 11' 12"; W: 80° 03' 52"). To remove the existing structure and install and maintain a precast box culvert having a waterway opening of 14 feet by 5 feet and a length of 40 feet across Pine Run on T-691. The project will impact .13 acre of wetland (PEM, PSS1, PFO1) during construction, with permanent impacts of .033 acre of wetland.

E43-332. Mercer County, 503 Mercer County Courthouse, Mercer, PA 16137. County Bridge 2811 on Riggs Road over Little Deer Creek, in Shenango Township, **Mercer County**, ACOE Pittsburgh District (Sharon West, PA Quadrangle N: 41° 08' 17"; W: 80° 30' 36"). To remove the existing structure and install and maintain a prestressed concrete adjacent box beam bridge with a waterway opening of 28 feet by 3.17 feet and a length 24.75 feet, across Little Deer Creek on T-301. The project will impact 0.089 acre of wetland (PEM, PSS1, PFO1) during construction, with permanent impacts of 0.029 acre of wetland.

E43-333, Department of Transportation, District 1-0, P. O. Box 398, Oil City, PA 16301. SR 0718, Segment 0120, Offset 0774 Across Shenango River (WWF), in City of Sharon, **Mercer County**, ACOE Pittsburgh District (Sharon West, PA Quadrangle N: 19.7 inches; W: 1.2 inches). To remove the existing structure and to construct a temporary causeway and to construct and maintain a steel plate girder bridge having two spans of 102 feet centerline of bearing to centerline of bearing and an average underclearance of 19.0 feet on a 90° skew across the Shenango River on SR 0718 (State Street), Segment 0120, Offset 0774 in downtown Sharon.

E43-334, Mercer County, 503 Mercer County Courthouse, Mercer, PA 16137. County Bridge 3108 on Diamond Road over a tributary to Wolf Creek, in Pine Township, **Mercer County**, ACOE Pittsburgh District (Grove City, PA Quadrangle N: 41° 11' 12"; W: 80° 03' 18"). To remove the existing structure and install and maintain a prestressed concrete adjacent box beam bridge with a waterway opening of 25 feet by 5.25 feet and a length of 24 feet, across a tributary to Wolf Creek (WWF) on T-878. The project will impact 0.116 acre of wetland (PEM, PSS1, PFO1). Applicant proposes contribution to the Pennsylvania Wetland Replacement Fund for compensation for the 0.116 acre of wetland impact.

E43-335, Mercer County, 503 Mercer County Courthouse, Mercer, PA 16137. County Bridge 3116 on Chestnut Street over Wolf Creek, in Grove City Borough, **Mercer County**, ACOE Pittsburgh District (Grove City, PA Quadrangle N: 41° 09' 48"; W: 80° 04' 50"). To remove the existing structure and install and maintain a two span continuous multigirder bridge with one pier located at mid-span, with a waterway opening of 298 feet by 15.55 feet and a length of 24 feet, across Wolf Creek (CWF) on Chestnut Street. A temporary crossing with 10, four-foot diameter corrugated metal pipes, spaced 6 feet apart at a total length of 60-feet will be installed for removing the existing structure. The project proposes to impact approximately 135 feet of stream. No wetland impacts are proposed with this project.

Availability of Technical Guidance

Technical guidance documents are available on the Department of Environmental Protection's (Department) website at www.depweb.state.pa.us (DEP Keyword: Technical Guidance). The "Final Documents" heading is the link to a menu of the various Department bureaus where each bureau's final technical guidance documents are posted. The "Draft Technical Guidance" heading is the link to the Department's draft technical guidance documents.

The Department will continue to revise its nonregulatory documents, as necessary, throughout 2007.

Ordering Paper Copies of Department Technical Guidance

The Department encourages the use of the Internet to view and download technical guidance documents. When this option is not available, persons can order a paper copy of any of the Department's draft or final technical guidance documents by contacting the Department at (717) 783-8727.

In addition, bound copies of some of the Department's documents are available as Department publications. Check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Final Technical Guidance

DEP ID: 381-5511-014 Title: Guidance on the Utilization of Disadvantaged Business Enterprise (DBE) Firms for Participation under the Clean Water and Drinking Water State Revolving Fund Loan Programs. Description: This guidance provides Department staff and loan program borrowers specific information on steps to be taken to meet mandated Federal procedures for the solicitation of Minority and Women's Business enterprise firms for participation in the construction of sewage, stormwater and drinking water projects funded under the Clean Water and Drinking Water State Revolving fund loan programs. Substantive revisions were made to the guidance to update Disadvantaged Business Enterprise (DBE) firm source list website addresses, to add several forms to assist construction contractors with DBE firm solicitation efforts and to revise the Department's review checklist. Notice for public comment on the substantive revisions to the guidance was published at 36 Pa.B. 6159 (October 7, 2006). During the 30-day public comment period, the Department did not receive any public comments on the draft technical guidance. No changes have been made to the guidance from its draft form, issued on October 7, 2006.

Contact: Tony Maisano, Department of Environmental Protection, Bureau of Water Standards and Facility Regulation, Rachel Carson State Office Building, 11th Floor, P. O. Box 8467, Harrisburg, PA 17105-8467; (717) 787-0122; amaisano@state.pa.us. Effective Date: February 10, 2007

Draft Technical Guidance—Substantive Revision

DEP ID: 562-3000-802. Title: Coal Mining Applicant Violator System (AVS) Compliance Manual. Description: The AVS is a National computer system managed by the Federal Office of Surface Mining Reclamation and En-

forcement to track coal mining permit information and permittee ownership and control information for the states where coal is mined. The system also tracks violation information such as outstanding Federal violations, unpaid Federal Civil Penalties and Reclamation Fees, and outstanding State Failure to Abate Cessation Orders and Civil Penalties. Prior to the issuance of a coal mining activities permit, the Department's District Mining Office must conduct a compliance check through the AVS, as well as the Department's mainframe computer system, to ensure that there are no outstanding violations, civil penalties or reclamation fees for that company. In addition, prior to the issuance, renewal or amendment of a surface coal mining license, the Department's Bureau of Mining and Reclamation must conduct a compliance check through the AVS, as well as the Department's mainframe computer system, to ensure there are no outstanding Order, Cessation Orders, Consent Order and Agreements or Decrees, or Bond Forfeiture Declarations. This guidance provides the procedures the Department will use for conducting the compliance checks referenced above. Previously, the guidance pertained only to the issuance of coal mining permits. Substantive revisions were recently made to the guidance to provide provisions that now make the guidance also applicable for conducting compliance checks of surface coal mining operations prior to the issuance of a new mine operator license, a mine operator license renewal, or mine operator license amendment.

Written Comments: The Department is seeking comments on the substantive revisions to technical guidance #562-3000-802. Interested persons may submit written comments on this draft technical guidance document by March 12, 2007. Comments submitted by facsimile will not be accepted. The Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Bruce Carl, Department of Environmental Protection, Bureau of Mining and Reclamation, P. O. Box 8461, 5th Floor, Rachel Carson State Office Building, Harrisburg, PA 17105-8461, brcarl@state.pa.us.

Contact: Questions regarding the draft technical guidance document should be directed to Carl at (717) 787-5103, brcarl@state.pa.us. Effective Date: Upon publication of notice as final in the *Pennsylvania Bulletin*.

Proposed Revision to the State Implementation Plan for the Youngstown-Warren-Sharon, OH-PA 8-Hour Ozone Nonattainment Area; Public Hearing

Ground-level ozone concentrations above the Federal health-based standard are a serious human health threat and can also cause damage to crops, forests and wildlife. The Youngstown-Warren-Sharon, OH-PA 8-hour Ozone Nonattainment Area has met the health-based National ambient air quality standard for ozone based on 2003—2005 concentrations. Therefore, the Department of Environmental Protection (Department) plans to submit a request to the United States Environmental Protection Agency (EPA) to redesignate the Pennsylvania portion of this nonattainment area to attainment of the 8-hour

ozone National ambient air quality standard. The Department is seeking public comment on the 8-hour ozone redesignation request, the 2002 base year inventory and a State Implementation Plan revision setting forth a Maintenance Plan demonstrating that the area can maintain the health-based ozone standard for the next 10 years as required under section 175A(a) of the Federal Clean Air Act (42 U.S.C.A. § 7505a). The Maintenance Plan, once approved by the EPA, will also establish new motor vehicle emission budgets for purposes of transportation conformity.

This proposal is available on the Department's website at www.depweb.state.pa.us (choose "Air Topics") or through the contact persons listed.

The Department will hold a public hearing to receive comments on the proposals on Wednesday, March 14, 2007, at 1 p.m. at the offices of the Mercer County Regional Planning Commission, 2491 Highland Road, Hermitage, PA 16148. Persons wishing to present testimony at the hearing should contact Yvette House, P. O. Box 8468, Harrisburg, PA 17105, (717) 787-9495 or yhouse@state.pa.us to reserve a time. Persons who do not reserve a time will be able to testify as time allows. Witnesses should keep testimony to 10 minutes and should provide two written copies of their statement at the hearing.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact Yvette House at (717) 787-9495 or yhouse@state.pa.us. TDD users may contact the AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

The Department must receive comments no later than March 16, 2007. Written comments should be sent to the attention of J. Wick Havens, Chief, Division of Air Resource Management, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468, jhavens@state.pa.us. Use "Mercer Ozone SIP" as the mail addressee or in the subject line.

DEPARTMENT OF GENERAL SERVICES

Request for Information

The Commonwealth is seeking proposals from qualified organizations or individuals with an interest in utilizing the approximately 1,780 acres comprising the current Graterford Pennsylvania State Correctional Campus located in the suburbs of Philadelphia. The purpose of this request is to determine if any interest exists to privatize the construction of two new 2,000 bed facilities (one maximum-security and one medium-security) and approvals to construct an additional 2,000 bed medium-security facility to be located in eastern Pennsylvania within a 50-mile radius of the existing Graterford campus, in exchange for all or part of the Graterford real estate. The Commonwealth plans to review all proposals that would effectively fund the necessary construction previously

mentioned. The Commonwealth wishes to remain flexible and encourages interested parties to present any unique strategies that may accomplish the listed objective. Any potential agreement will be contingent on legislation.

For more information on Proposal No. RFI-BRE-2007-1, which is due on March 5, 2007, visit www.dgs.state.pa.us or call (717) 787-5546.

DEPARTMENT OF TRANSPORTATION

Finding Butler County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Chief Engineer for Highway Administration, Department of Transportation (Department) makes the following written finding:

The Federal Highway Administration and the Department are planning the completion of the existing half-diamond interchange located along Interstate 79 at Little Creek Road (SR 3025), within Jackson Township and Harmony Borough, Butler County. The proposed project will provide for traffic movements in the southern quadrants. The existing ramps would also be upgraded to conform with current design criteria.

An Environmental Assessment (EA) was prepared to evaluate the potential environmental impacts caused by the subject project. The Federal Highway Administration issued a Finding of No Significant Impact on January 11, 2007, determining that the proposed alternative will have no significant impact on the human environment.

The EA and supporting documentation find that there is no practicable alternative to construction of the preferred alternative, and the proposed action includes all practicable measures to minimize harm to the environment, which may result from the proposed project.

Mitigation measures will be taken to minimize harm as stipulated in the EA. The proposed project has no Section 4(f) use.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code have been considered, and it has been concluded that all reasonable planning was completed to avoid, minimize or mitigate the environmen-

tal effects that are likely to result from the construction of this project.

FISH AND BOAT COMMISSION

Transportation of Live Fish Out of Lake Erie Watershed; Temporary Changes to Fishing Regulations

The Executive Director of the Fish and Boat Commission (Commission), acting under the authority of 58 Pa. Code § 65.25 (relating to temporary changes to fishing regulations), has taken immediate action to make it unlawful to transport or cause the transport of live fish out of the Pennsylvania portion of the Lake Erie watershed. Waters included in the Pennsylvania portion of the Lake Erie watershed are Twentymile Creek, Orchard Beach Run, Sixteenmile Creek, Twelvemile Creek, Eightmile Creek, Sevenmile Creek, Sixmile Creek, Fourmile Creek, Millcreek, Cascade Creek, Walnut Creek, Trout Run, Godfrey Run, Elk Creek, Crooked Creek, Raccoon Creek, Turkey Creek, Conneaut Creek, Ashtabula Creek and their tributaries.

The Executive Director has found that this action is necessary and appropriate for the protection, preservation and management of fish. These temporary modifications will go into effect immediately and will remain in effect until January 1, 2008, unless the Commission, by appropriate action, adopts the new regulation. The Commission, under a separate notice of proposed rulemaking, will seek public comments on a permanent change to the Commission's fishing regulations.

2007 Additions to List of Class A Wild Trout Waters

The Fish and Boat Commission (Commission) has approved the additions to the list of Class A Wild Trout Streams as set forth in 36 Pa.B. 7775 (December 16, 2006). Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries. The Commission manages these stream sections for wild trout with no stocking.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

State Board of Education Regulation #6-303 (IRRC #2583)

Certification of Professional Personnel

January 25, 2007

We submit for your consideration the following comments on the proposed rulemaking published in the November 25, 2006 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Board of Education (Board) to respond to all comments received from us or any other source.

1. Requirements related to instructional certificates issued on or after January 1, 2012.— Economic impact; Need; Reasonableness; Feasibility; Timetable for compliance.

Section 49.85(b) establishes grade level limitations for instructional certificates issued on or after January 1, 2012. These limitations relate to eight paragraphs of certifications listed in the regulation.

As described in the Preamble, the Board held extensive discussions in the course of developing this regulation. Despite this outreach, these provisions generated extensive public comment from professional associations, individual school districts, colleges and individuals. While there was favorable public comment, most of the commentators raised concerns with the amendments. Their comments included statements that the regulation will:

- Result in less flexibility to staff elementary schools.
- Put Pennsylvania student education graduates at a distinct disadvantage with those from other states; discourage teacher candidates from enrolling in Pennsylvania teacher preparation programs; and make Pennsylvania graduates less employable in other states. Every state on the eastern seaboard (with the exception of Georgia) has a K—6 certification (or something comparable) along with early childhood and Middle School certifications.
- Force graduating teachers to obtain dual certification (K—6 and 4—8) in order to be appropriately prepared to teach children in their future classes.

- Require future teachers to choose a certificate before they have the opportunity to experience the realities of teaching a range of age groups.

- Increase costs for the 95 colleges and universities with teacher education programs. Additional costs would also be placed on students because of the extra course work required and on the State, which helps to fund public education.

- Inappropriately place grade 4 and grade 8 in the same certificate preparation program when children in these grades are developmentally different.

- Require compliance before teacher education programs can adjust their programs.

- Narrow the preparation of elementary certificate holders at a time when teachers are expected to work with a broader range of performance in their classes.

- Lead to over-specialization at lower grade levels at a time when many curriculum experts are suggesting a wider range of content in teacher preparation programs.

- Lead to shortages in upper-elementary certified and special education teachers.

The commentators have raised significant, valid concerns with the proposed amendments. We will evaluate the Board's response to these concerns to determine if the Regulatory Review Act's criteria of economic impact, need, reasonableness, feasibility and timetable for compliance have been met.

2. Requirements outside the regulation.—Reasonableness; Clarity.

Sections 49.16(b), 49.17(a), 49.83(3), 49.85(d) and 49.86(a) refer to guidelines, standards and criteria that will be established outside this regulation. A regulation has the full force and effect of law. It establishes binding norms on the regulated entity and the agency that promulgated the regulation. The vague provisions in question would allow requirements to be imposed at the Board's or Secretary's discretion without the opportunity for comment or review through the regulatory process. Without adequate notice as to what requirements the Board is imposing, it would be difficult, if not impossible, for regulated parties to discern what actions on their part would constitute compliance. We urge the Board to evaluate all of the vague phrases identified above. The Board should either delete the language or add the needed detail that would allow the regulated community to know how to comply with the regulation.

3. Section 49.13. Policies.—Reasonableness; Timetable for compliance.

Number of credits and hours

Several commentators suggested changes to the number of required credits and hours specified in Subparagraph (b)(4)(i). Their concerns are that the new requirements could interfere with national accreditations or take time away from core studies. The Board should explain why the numbers of credits and hours specified in Subparagraph (b)(4)(i) are appropriate.

Timetable for compliance

Commentators questioned whether there will be enough time to implement the changes in a final regulation by January 1, 2010. One commentator does not believe there will be enough special education faculty available to meet the requirements. The Board should explain why compliance is needed by January 1, 2010, and how teacher education programs can reasonably comply.

4. Section 49.17. Continuing professional education.—Reasonableness.

Ensure compliance

Paragraph (a)(7) requires the plan to "... include a description of how the school entity will ensure that all professional employees participate in continuing education focused on teaching diverse learners in inclusive settings." A commentator suggests that this is overly prescriptive and should only require the school entity to "offer opportunities" for professional employees to participate. The Board should explain why it is necessary to require the plan to describe how the school entity will "ensure" professional employees participate. The Board should also explain how the school entity could comply with this requirement.

5. Section 49.85. Limitations.—Reasonableness; Clarity.

Subsection (b)

We have five concerns with this subsection.

First, the Board should explain why the January 1, 2012 implementation date for transitioning to the proposed breakdown of instructional certificates under this subsection is reasonable and appropriate. Because teacher education programs take at least four years to complete, commentators fear that they will have less than a year to adequately revise programs to reflect the proposed new certifications.

Second, why has the Board chosen to include an overlap at age 11 between Elementary/Middle and Secondary certifications, but not between Early Childhood and Elementary/Middle certifications?

Third, the breakdown of certifications as Special Education/Primary and Special Education/Middle is not clear. Why does Special Education/Primary include up to age 14? Why does Special Education/Middle include pre-kindergarten, kindergarten and grades one through three?

Fourth, we question whether the proposed plan to replace the K—12 special certification with one of three dual certifications can be done within a 120 credit hour framework. In what timeframe does the Board anticipate students in education programs will be able to complete a dual certificate?

Finally, will the Special Education/Primary certification qualify teachers to teach K—5 or will they also have to have certification for K—3 and 4—8?

Paragraphs (b)(5), (6) and (7)

A commentator expressed concern about the Board's effort to split the special education certifications into different grade levels. The commentator also stated that the Council for Exceptional Children Standards does not group special needs children into grade levels. We also note that special needs students are not always functioning at the grade level in which they are currently placed. Therefore, the Board should explain why it is appropriate to create three different special education certifications that explicitly group students by grade level.

Subsection (f)

This subsection limits the exception to shortages of certified personnel "that apply Statewide." Shortages could be local or could be caused by factors such as the pay or location of a school. Why did the Board restrict exceptions to a finding that a shortage is statewide?

Paragraph (f)(1)

Under this paragraph, the Secretary must provide a written notice to the Board that an exception has been granted. This notification must include "... relevant information and justification of the need for the exception." Can the Board object to the Secretary's decision to grant an exception? Also, what criteria will the Secretary use in granting the exception? The Board should include these criteria in the final-form regulation.

Paragraph (f)(2)

Under this paragraph, exceptions are limited to 3 years. Can an exception be renewed? Is there a limitation to the number of times the same exception can be granted? If so, this information should be set forth in the final-form regulation.

6. Section 49.86. Accelerated program for Early Childhood and Elementary/Middle level certificateholders.—Reasonableness; Clarity.

Subsection (a) states that "The Department will establish standards for an accelerated program. . . ." However, this section does not provide the details on how those standards will be developed. What process will the Department use to "establish standards"? How will the public have input?

7. Sections 49.142. Vocational Instructional I. and 49.143. Vocational Instructional II.—Reasonableness; Clarity.

These sections require applicants to have completed a minimum amount of credits or classroom hours in classes relating to "accommodations and adaptations for students with disabilities" and "English language learners in an inclusive setting." Are courses readily available to meet these new subject requirements?

**Department of Transportation Regulation
#18-408 (IRRC #2584)**

Roadside Rest Areas

January 25, 2007

We submit for your consideration the following comments on the proposed rulemaking published in the November 25, 2006 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Department of Transportation (Department) to respond to all comments received from us or any other source.

Section 443.2. Prohibited activities or actions.—Fiscal impact; Protection of public safety; Reasonableness; Implementation procedures; Clarity.

In the existing Chapter 443, this section consists of a list of prohibited activities. The proposed regulation adds new language to the list. In the proposed regulation, the opening paragraph of this section reads: "The following specified activities or actions [shall be] prohibited in roadside rest areas." Subsections (1)—(17) comprise the list of prohibited activities. We have identified the following areas for comment.

Obeying all signs and areas where driving or parking is not permitted

In the proposed regulation, the following statement has been added to Subsection (1): "Drivers shall obey all posted traffic signs and markings." This statement does not describe prohibited activities, and is broader than the existing language in this subsection which reads: "Driving

or parking of a vehicle in areas other than those provided." Traffic signs and markings do more than inform drivers about the areas where parking or driving is prohibited. The new language should either be moved to a different section or re-written to match the style of the list. One possible re-write is: "Failure to comply with all posted traffic signs and markings." The new statement should also be the only statement in Subsection (1) and the existing language, which is limited to preserving "no parking" and "no driving" areas, should be written as the new Subsection (2).

Time limits on parking

The existing language in Subsection (2) reads: "Parking or standing of a vehicle for more than 2 hours in a single 24-hour period or in excess of the posted time limit." The new language added by the proposed regulation states that vehicles left for longer than 24 hours are "subject to removal and storage at the sole cost and expense of the owner." There are two concerns.

First, as noted above on Subsection (1), this new language is not describing a prohibited activity. It describes a penalty. This new language should be moved to a new section added to the final-form regulation that describes the fines and penalties for violations of the provisions of Chapter 443. For example, people, who park their vehicles for more than two hours at rest areas would be subject to fines pursuant to Section 8 of the act of June 7, 1961 (P. L. 257, No. 151) (36 P. S. § 478.18), and "vehicles unattended for more than 24 hours will be considered abandoned and subject to removal and storage at the sole cost and expense of the owner." The regulation should also state that public notices listing the fines for violations of the parking and other rules, including a warning that a vehicle is subject to towing after 24 hours, will be conspicuously posted at rest areas.

Second, it is unclear what a driver should do in an emergency situation when the vehicle won't run or it is unsafe to operate, and the driver may not be able to resolve the situation in less than two hours. The Department should consider providing an exception for emergencies when operators or owners alert the Department that they intend to move the vehicle as soon as possible but they may need more than two hours to get help with towing or emergency repairs. This would prevent dangerous or costly situations when people try to get vehicles out of rest areas before the vehicles are ready and safe for the open road.

Defacing facilities, skateboarding, smoking or not smoking, igniting fires and sleeping

The proposed regulation adds numerous new prohibited activities to Subsections (3) and (4). They read:

(3) Defacing or damaging buildings or other facilities[.], *skateboarding, rollerblading, skating, biking or sledding, riding of all-terrain vehicles or smoking in areas designated as "No Smoking."*

(4) Igniting or maintaining fires for heating or cooking equipment, except in areas or facilities designed for the purpose, *camping overnight or setting up a tent, sleeping anywhere but in a legally parked vehicle, or remaining anywhere but in a legally parked vehicle for more than 2 hours.*

Subsections (3) and (4) are too long and contain unrelated subjects. The purpose of a list is to delineate items, conditions or terms, and to avoid long statements or sentences. The existing language in the two subsections

should continue to stand alone as parts of the list, and the new language should be set forth as at least three new subsections.

Emergencies and minor repairs

Subsection 443.2(8) of the proposed regulation expressly prohibits the "maintenance or repairing of vehicles or attachments to vehicles" at rest areas "except in emergencies." The Pennsylvania Motor Truck Association (PMTA) suggests the addition of specific language to allow for minor repairs to commercial vehicles placed out of service by law enforcement after roadside inspections. PMTA claims that the exception for emergencies may not be interpreted by law enforcement officers to include minor repairs. In these cases even though the required repairs are minor, commercial vehicles would need to be towed at considerable expense to owners or operators. It is our understanding that the intent of the Department for this regulation is that a rest area should provide temporary parking for the broadest number of travelers and their vehicles. To this end, other provisions in this regulation limit parking to two hours. If a minor repair or adjustment can be completed during this two-hour period at a rest area, we do not see why this activity should be prohibited. We recommend that that the exception in this subsection be extended to include minor repairs or adjustments that can be performed in two hours or less.

Expressive activities and distributing written materials

New language in Subsections 443.2(17)(iii) and (iv) prohibits picketing, similar expressive activities, and distributing written materials. There are two issues.

First, Subsection 443.2(17)(iii) sets forth a complete prohibition on picketing and other types of expressive activity and, unlike Subsection 443(17)(iv), it does not allow for this type of activity with "the written agreement of the Department." Subsection 443.2(17)(iii) needs to be amended in the final-form regulation to allow for such activity with a written agreement from the Department.

Second, there is no indication of how a person would apply for a "written agreement" with the Department or what criteria would be used by the Department in determining what activities would be allowed. These subsections should include a reference to a regulation that outlines the process whereby the public could file a request for a "written agreement."

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:
 The payment date specified in the contract.
 30 days after the later of the receipt of a proper invoice or receipt of goods or services.
 The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.
