READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE COURTS

Title 201—RULES OF JUDICIAL ADMINISTRATION

[201 PA. CODE CH. 30]

Judicial Administration Governing Court Interpreters for Persons with Limited English Proficiency and for Persons Who are Deaf; Notice of Proposed Rules

The Administrative Office of Pennsylvania Courts is planning to recommend that the Supreme Court of Pennsylvania adopt these proposed rules of judicial administration that provide for a court interpreter certification program and prescribe procedures for requesting and obtaining certified or otherwise qualified court interpreters.

Specifically, the proposed rules direct and empower the Court Administrator to: establish a program for certifying court interpreters; compile a list of certified court interpreters; create guidelines for courts to use in selecting otherwise qualified interpreters when a certified court interpreter is not available; prepare a fee schedule for court interpreters; and establish standards of professional conduct and a disciplinary system for court interpreters. In addition, the proposed rules provide the procedures judges and court personnel are to use to identify the need for an interpreter and to obtain, appoint and remove a court interpreter. The proposed rules also provide: a procedure for waiver of the right to an interpreter; for telephonic interpretation under specific circumstances; and confidentiality of certain communications between the court interpreter and the person with limited English proficiency or person who is deaf. Finally, the proposed rules state how the cost of the court interpreter is to be allocated.

The Report highlights the considerations underlying these proposed rules. I request that interested persons submit suggestions, comments, or objections concerning this proposal to the Interpreter Certification Program through

Oswaldo Aviles
Interpreter Program Administrator
Administrative Office of Pennsylvania Courts

3106.	Oath for Interpreters.
3107.	Cost of Providing Interpreters for Persons with Limited English Proficiency.
3108.	Costs of Providing Interpreters for Persons who are Deaf.

GENERAL PROVISIONS

Rule 3001. Scope.

These rules shall govern the appointment and use of interpreters for persons with limited English proficiency and persons who are deaf in all court proceedings within the Unified Judicial System.

Rule 3002. Definitions.

For purposes of these rules:

(a) *Appellate Court Prothonotary*—Means the prothonotary responsible for the appellate court in which the judicial proceeding is conducted or his or her designee.

(b) *Certified Interpreter*—Means a person who is certified in accordance with the guidelines established by the Court Administrator for the certification and appointment of interpreters.

(c) *Court Administrator*—Means the Court Administrator of Pennsylvania.

(d) *Deaf*—Means an impairment of hearing which results in the inability to hear well enough in order to process information, understand or communicate in a spoken language.

(e) *Direct Victim*—Means an individual against whom a crime has been committed or attempted and who, as a direct result of the criminal act or attempt, suffers physical or mental injury, death or the loss of earnings under this act. The term shall not include the alleged offender.

(f) *District Court Administrator*—Means the court administrator responsible for the administration of the courts of the judicial district in which the judicial proceeding is conducted or his or her designee.

(g) *Immediate family member*—Means a spouse, child, parent or an individual who stands in loco parentis to a child in a proceeding pursuant to 42 Pa.C.S. Ch. 63 (relating to juvenile matters).

(h) *Interpret*—Means either:

(1) within the context of court interpreters for persons with limited English proficiency, to convey spoken and written English into the language of the person with limited English proficiency and to convey spoken and written statements by that person into English; or

(2) within the context of court interpreters for persons who are deaf, to convey spoken English in a manner understood by the deaf person through, but not limited to, American Sign Language and transliteration or the use of Computer-Aided-Real-Time Captioning (CART) or similar

procedure, and to convey the communications made by the deaf person into spoken English.

(i) *Interpreter*—Includes both a certified interpreter and an otherwise qualified interpreter for persons with limited English proficiency and the deaf.

(j) *Judicial proceeding*—Means an action, appeal or proceeding in any court of the Commonwealth of Pennsylvania and includes any proceeding conducted by a presiding judicial officer as defined by Pa.R.J.A. 3002(o).

(k) *Limited ability to speak or understand English*—Means the ability to speak exclusively or primarily a language other than English and the inability to sufficiently speak and understand English so as to fully participate and be understood in a judicial proceeding.

(l) *Otherwise qualified interpreter*—Means a person who meets the pertinent requirements of the guidelines established by the Court Administrator for qualification and appointment of interpreters.

(m) *Person who is deaf*—Means a principal party in interest or a witness who is deaf.

(n) *Person with limited English proficiency*—Means a principal party in interest or a witness who has limited ability to speak or understand English.

(o) *Presiding judicial officer*—Includes justices, judges, magisterial district judges, and appointive judicial officers such as arbitrators, masters and other like officers.

(p) *Principal party in interest*—Means a person involved in a judicial proceeding who is a named party, a defendant or direct victim in a criminal proceeding, a defendant, parent of a defendant, or direct victim in a proceeding pursuant to 42 Pa.C.S. Ch. 63 (relating to juvenile matters), or a plaintiff or defendant in a proceeding pursuant to 23 Pa.C.S. Ch. 61 (relating to protection from abuse).

(q) *Roster*—Means the list of certified and otherwise qualified interpreters maintained and distributed by the Court Administrator.

(r) *Staff Interpreter*—Means a certified or otherwise qualified interpreter who is an employee of the appellate court or judicial district and whose principal duty consists of providing services as an interpreter and functions related to interpreting.

(s) *Transliteration*—Means to convey spoken or written English in an English-based sign system and the process of conveying an English-based sign system in spoken or written English.

Comment: The definition of “Certified Interpreter” set forth in subsection (b) contains the requirement that the interpreter be certified by the Court Administrator. An interpreter who is certified pursuant to another jurisdiction or organization’s policies is nonetheless not a certified interpreter under these rules if that individual has not been certified by the Court Administrator. Therefore, persons charged with applying these rules should take care to confirm that an interpreter who purports to be certified has in fact been certified by the Court Administrator. A “Staff Interpreter” pursuant to subsection (r) is a full-time employee of the appellate court or judicial district whose sole duty is to provide interpretation services. Persons employed as staff interpreters—even those employed as such on or before the date of the enactment of these rules—will be required to be certified in their language of expertise by the Court Administrator in order to attain certified status under these rules, if such certification is available.

Rule 3003. Interpreter Certification Program.

(a) *Interpreter program*.—The Court Administrator shall establish a program for the certification, appointment and use of interpreters for persons with limited English proficiency and persons who are deaf in judicial proceedings.

(b) *List of certified interpreters*.—The Court Administrator shall compile, maintain and disseminate a current list of interpreters certified by the Court Administrator for the courts through any means deemed appropriate by the Court Administrator, including, but not limited to, a written directory which shall be maintained on file with the office of the clerk of courts in each judicial district, and through publication on the official World Wide Web site of the Administrative Office of the Pennsylvania Courts.

(c) *Guidelines for court selection of otherwise qualified interpreters*.—The Court Administrator shall provide guidelines to the courts for the selection and use of otherwise qualified interpreters in order to ensure that the highest standards of accuracy are maintained in all judicial proceedings subject to the provisions of this chapter.

(d) *Fee schedule*.—The Court Administrator shall prescribe, subject to periodic review, a schedule of reasonable fees for services rendered by certified interpreters and otherwise qualified interpreters used in judicial proceedings.

(e) *Discipline of interpreters*.—The Court Administrator shall have the authority to revoke or suspend an interpreter’s certification or roster status for violations of these Rules or any conduct which calls into question the interpreter’s ability to properly perform his or her duties.

(f) *Standards of professional conduct*.—

(1) The Court Administrator shall establish and adopt a code of ethics and professional conduct for interpreters for persons with limited English proficiency and persons who are deaf.

(2) The Court Administrator shall establish and administer a process to review and respond to allegations of violations of the code of ethics and professional conduct for interpreters for persons with limited English proficiency and persons who are deaf including, but not limited to, decertification and other disciplinary measures pursuant to Pa.R.J.A. 3003(e).

Rule 3004. Interpreter Certification Requirements; Renewal of Certification; Waiver and Reciprocity of Examination Requirement.

(a) In order to become certified or otherwise qualified, interpreters shall meet the requirements established by the Court Administrator for the appointment and certification of interpreters.

(b) *Renewal of roster status*.—To renew their roster status, every two years all interpreters must:

(1) satisfy any continuing education requirements established by the Court Administrator;

(2) pay the renewal fee determined by the Court Administrator; and

(3) follow all guidelines, complete all forms and abide by reporting deadlines as established by the Court Administrator for the fulfillment of the foregoing requirements.

(c) *Waiver and reciprocity of examination requirement*.—Upon presentation of satisfactory proof to the

Court Administrator, the written and oral proficiency examination requirements shall be waived for any interpreter who has successfully completed all the requirements of the Federal Court Interpreter Certification Examination (FCICE) administered by the Administrative Office of the United States Courts; an oral proficiency examination administered in accordance with the standards of the Consortium for State Court Interpreter Certification in another Consortium member state; or the National Association of Judiciary Interpreters and Translators (NAJIT) oral proficiency examination. Reciprocity for interpreters from other jurisdictions could be granted at the discretion of the Court Administrator. These interpreters must comply with all additional program requirements.

Rule 3005. Confidentiality of Communications.

An interpreter appointed under this chapter shall not be permitted or compelled to testify in any judicial proceeding as to any statements made by the person with limited English proficiency or person who is deaf interpreted by the interpreter when the person with limited English proficiency or person who is deaf is engaged in a confidential communication as provided by any statute or general rule, including, but not limited to:

- (a) 42 Pa.C.S. § 5916 (relating to confidential communications to attorney);
- (b) 42 Pa.C.S. § 5928 (relating to confidential communications to attorney);
- (c) 42 Pa.C.S. § 5942 (relating to confidential communications to news reporters);
- (d) 42 Pa.C.S. § 5943 (relating to confidential communications to clergymen);
- (e) 42 Pa.C.S. § 5944 (relating to confidential communications to psychiatrists or licensed psychologists);
- (f) 42 Pa.C.S. § 5945 (relating to confidential communications to school personnel);
- (g) 42 Pa.C.S. § 5945.1 (relating to confidential communications with sexual assault counselors); and
- (h) 42 Pa.C.S. § 5945.2 (relating to confidential communications to crime stopper or similar anticrime program).

Rule 3006. Telephonic Interpretation.

In the event that a certified or otherwise qualified interpreter for persons with limited English proficiency cannot be found to interpret in person, one may be appointed pursuant to this chapter to interpret via telephone provided that the judicial proceeding: is expected to be no more than 30 minutes in duration; is non-evidentiary; and does not involve more than one interpreter. If neither a certified nor otherwise qualified interpreter can be procured to interpret via telephone, the court may utilize a telephone interpreter provided by a commercial telephone interpreter service. Prior to utilizing a telephone interpreter provided by a commercial telephone interpreter service, however, the court must conduct a voir dire to determine his or her qualifications.

Rule 3007. Waiver of Interpreter.

The person with limited English proficiency or person who is deaf may waive the right to an interpreter provided the waiver is conducted in the presence of the presiding judicial officer and the person seeking to waive is represented by counsel. The presiding judicial officer shall ascertain from the person with limited English proficiency or person who is deaf whether the waiver is

knowing, voluntary, and intelligent. If the judicial proceeding is conducted in a court of record, the foregoing determination shall be made on the record. The person with limited English proficiency or person who is deaf must be provided with an interpreter during the waiver process. In addition, the waiver shall be in writing: (1) signed by the person with limited English proficiency or person who is deaf, with a representation that the person was told of the right to an interpreter and that the person chose not to have an interpreter at the judicial proceeding; and (2) signed by the presiding judicial officer with a certification that the waiver was made knowingly, voluntarily, and intelligently. The written waiver shall be made a part of the record of the judicial proceeding.

Comment: When persons with limited English proficiency or persons who are deaf waive their right to an interpreter pursuant to Pa.R.J.A. 3007 they are divesting themselves of an important due process safeguard. For this reason, the presiding judicial officer should take great care to ensure that the person's waiver is knowing, voluntary and intelligent. When deciding whether to permit waiver the presiding judicial officer should consider not only the needs of the person with limited English proficiency or person who is deaf but also the needs of the presiding judicial officer and others involved in the proceedings to accurately understand that person. If the presiding judicial officer feels that the interpreter is necessary for the presiding judicial officer or others involved in the proceedings to accurately understand the person with limited English proficiency or person who is deaf, the waiver request should be denied.

PROCEDURES FOR NOTIFICATION, DETERMINATION OF NEED, PROCUREMENT AND APPOINTMENT OF INTERPRETERS

Rule 3101. Notice of Need for Interpreter.

(a) *Persons required to give notice; timing and form of notice.*—

(1) If a principal party in interest is a person with limited English proficiency or a person who is deaf and is in need of an interpreter, either the principal party in interest or his or her attorney shall give notice of the need for an interpreter as soon as is practicable after learning of the need. The notice shall be made to the presiding judicial officer in writing, if practicable. If written notice is not practicable, oral notice is acceptable provided it conveys all of the information required in subsection (b) of this rule. If a presiding judicial officer has not yet been assigned to the matter or is otherwise not known, notice shall be made to the Appellate Court Prothonotary or District Court Administrator.

(2) If the person with limited English proficiency or person who is deaf is a witness, notice of the need for an interpreter shall be given by the party that intends to call the person as a witness as soon as is practicable after learning of the need. The notice shall be made to the presiding judicial officer in writing, if practicable. If written notice is not practicable, oral notice is acceptable provided it conveys all of the information required in subsection (b) of this rule. If a presiding judicial officer has not yet been assigned to the matter or is otherwise not known, notice shall be made to the Appellate Court Prothonotary or District Court Administrator.

(3) If the person with limited English proficiency or person who is deaf is a direct victim, the notice of the need for an interpreter shall be given by the Commonwealth as soon as is practicable after learning of the need. The notice shall be made in writing to the presiding

judicial officer, if practicable. If written notice is not practicable, oral notice is acceptable provided it conveys all of the information required in subsection (b) of this rule. If a presiding judicial officer has not yet been assigned to the matter or is otherwise not known, notice shall be made to the Appellate Court Prothonotary or District Court Administrator.

(b) *Content of Notice.*—The notice required under this rule shall set forth the:

- (1) caption of the judicial proceeding;
- (2) name of the person filing the notice;
- (3) name of the person with limited English proficiency or deaf person for whom the interpreter is sought;
- (4) in the case of persons with limited English proficiency:
 - (i) the language spoken by the person with limited English proficiency for whom the interpreter is sought, specifying any particular dialect or regional version of said language; and
 - (ii) the country of origin of the person with limited English proficiency for whom the interpreter is sought;
- (5) in the case of persons who are deaf:
 - (i) the type of sign language or method of communication used by the deaf person to communicate;
 - (ii) the country of origin of the deaf person for whom an interpreter is sought when said person uses a foreign sign language to communicate; and
 - (iii) a description of any educational, physical, mental or other particular condition which may limit the deaf person's ability to communicate;
- (6) relationship of the person with limited English proficiency or deaf person to the proceedings (i.e. party, witness, victim, etc.); and
- (7) date, time and location of the judicial proceeding(s) for which the interpreter is needed, if known.

Comment: Subsection (a) requires that notice be given as soon as practicable after learning of the need. The fact that no specific time limit is given is in recognition of the fact that situations may arise in which significant advance notice is not feasible. Nevertheless, the party responsible for giving notice under these rules must notify the presiding judicial officer as soon as the need for an interpreter is known so as to avoid unnecessary delay. The party responsible for giving notice should take the initiative in giving notice of the need for an interpreter. The notice shall be made to the presiding judicial officer in writing, if practicable. There may, however, be situations where written notice is not practicable due to time constraints, in these situations oral notice is acceptable provided it conveys all of the information required in subsection (b) of this rule. The party responsible for giving notice is encouraged to use the notice form prepared by the Court Administrator so as to ensure that all information required by subsection (b) is provided.

In the case of a deaf juror, the District Court Administrator should follow the judicial district's existing policies pursuant to the American's with Disabilities Act (ADA), 42 U.S.C. §§ 12101 et seq., to ensure proper accommodation of a deaf juror. Juror summonses and/or questionnaires should advise prospective jurors to give notice of need for an accommodation prior to the date they report for jury duty.

Rule 3102. Determination of Need for Interpreter.

(a) Once the presiding judicial officer receives notice of the need for an interpreter pursuant to Pa.R.J.A. 3101, he or she must determine whether the person for whom the interpreter is sought is a person with limited English proficiency or deaf person. In making this determination, the presiding judicial officer shall follow the policy guidelines established by the Court Administrator for determination of need for interpreters for persons with limited English proficiency or the deaf. If, after considering the notice of need, the presiding judicial officer requires additional information in order to make the determination, he or she may request any additional filings from the parties or conduct any proceedings he or she deems necessary including, but not limited to, conducting the voir dire for determination of need for an interpreter for persons with limited English proficiency established by the Court Administrator.

(b) If the presiding judicial officer determines that the person for whom the interpreter is sought is a person with limited English proficiency or deaf person, he or she shall forward a copy of the notice of need for an interpreter and his or her determination of need to the Appellate Court Prothonotary or District Court Administrator as soon as is practicable.

(c) If, during the course of the judicial proceedings, and without regard to whether notice of need for an interpreter was given, the presiding judicial officer determines that a principal party in interest, witness, or direct victim is a person with limited English proficiency or that a principal party in interest, witness, direct victim or juror is deaf and is in need of an interpreter, he or she shall give notice to the Appellate Court Prothonotary or District Court Administrator as provided in subsection (b) of this rule.

(d) If the appellate court or judicial district employs staff interpreters and one certified or otherwise qualified in the applicable language is readily available, the presiding judicial officer may appoint that staff interpreter to the new judicial proceeding pursuant to Pa.R.J.A. 3104. In this situation, the presiding judicial officer need not give the notice required under subsection (b) of this rule.

Comment: Subsection (a) requires that the presiding judicial officer make the determination of need for an interpreter. Subsection (a) further requires that the presiding judicial officer follow the guidelines established by the Court Administrator for determining whether the person for whom the interpreter is sought is a person with limited English proficiency or person who is deaf. Subsection (a) also allows the presiding judicial officer to acquire additional information in order to make the determination of need by way of supplemental filings, hearings, and any other means typically within the presiding judicial officer's power in handling the particular judicial proceeding and, in the case of persons with limited English proficiency, suggests using the voir dire established by the Court Administrator for assessing the level of English proficiency of the individual in question.

Subsection (b) states that once the presiding judicial officer determines that an interpreter is needed he or she must give notice to the Appellate Court Prothonotary or District Court Administrator by forwarding copies of the notice of need and determination of need as soon as is practicable so that a certified interpreter, if available, can be procured expeditiously pursuant to Pa.R.J.A. 3103. The original notice of need and determination of need should be made part of the record of the proceeding. If

the notice of need was oral, the presiding judicial officer should forward a written statement or order containing the information required in Pa.R.J.A. 3101(b) to the Appellate Court Prothonotary or District Court Administrator, which should subsequently be made part of the record of the proceeding. If an interpreter must be procured quickly the presiding judicial officer may supply the notice required in subsection (b) in oral form; however, the notice of need and determination of need still must be made part of the record of the proceeding.

Subsection (c) is intended to clarify that even if notice of the need for an interpreter is not given by one of the individuals required to give notice under Pa.R.J.A. 3101(a), the presiding judicial officer may sua sponte determine the need for an interpreter and thereby start the appointment process in motion if he or she deems it appropriate to do so under these rules.

Subsection (d) recognizes that some appellate courts or judicial districts may employ staff interpreters for the appropriate language who may be readily available and thus requiring the notice set forth in Pa.R.J.A. 3102(b) and the actions set forth in Pa.R.J.A. 3103 would be unnecessary and time consuming. In this case, the presiding judicial officer shall be guided by the procedures established within the particular judicial district for obtaining the services of a staff interpreter.

Rule 3103. Procurement of Certified and Otherwise Qualified Interpreters.

(a) Once the Appellate Court Prothonotary or District Court Administrator receives both the notice and determination of need for an interpreter from the presiding judicial officer, the Appellate Court Prothonotary or District Court Administrator shall procure a certified interpreter in the manner provided by the guidelines established by the Court Administrator for the appointment of certified interpreters.

(b) If the Appellate Court Prothonotary or District Court Administrator cannot procure a certified interpreter in the manner set forth in subsection (a) above, he or she shall procure an otherwise qualified interpreter in the manner provided by the guidelines established by the Court Administrator for the appointment of otherwise qualified interpreters. Once an otherwise qualified interpreter is identified and arrangements are made to procure his or her services for the judicial proceeding, the Appellate Court Prothonotary or District Court Administrator shall notify the presiding judicial officer in writing. The notice shall also contain a statement by the Appellate Court Prothonotary or District Court Administrator that he or she procured the otherwise qualified interpreter in the manner provided by the guidelines established by the Court Administrator for the appointment of otherwise qualified interpreters as well as a brief statement of the efforts made to procure a certified interpreter.

(c) If the Appellate Court Prothonotary or District Court Administrator cannot procure either a certified interpreter or an otherwise qualified interpreter in the manner set forth in subsections (a) and (b) above, he or she shall notify the presiding judicial officer in writing of the steps taken to procure a certified and otherwise qualified interpreter and the reasons why none could be obtained.

Comment: Subsection (a) requires the Appellate Court Prothonotary or District Court Administrator to follow the Court Administrator's guidelines for appointing a certified interpreter and to make the necessary arrangements to secure the interpreter's services for the judicial proceed-

ing if one is found. If a certified interpreter cannot be found subsection (b) requires the Appellate Court Prothonotary or District Court Administrator to obtain an otherwise qualified interpreter in the manner provided in the Court Administrator's guidelines. The notice under subsection (b) must contain sufficient information so as to allow the presiding judicial officer to make the determinations required under Pa.R.J.A. 3104(b). In procuring either a certified or otherwise qualified interpreter, and when the person requiring the interpreter is a person with limited English proficiency, the Appellate Court Prothonotary or District Court Administrator may obtain the services of an interpreter to translate via telephone subject to the limitations of Pa.R.J.A. 3006. Pursuant to subsection (c), if the Appellate Court Prothonotary or District Court Administrator cannot procure a certified or otherwise qualified interpreter he or she shall promptly notify the presiding judicial officer of the efforts undertaken to procure such interpreters and the reasons why they could not be obtained. In the event that neither a certified nor an otherwise qualified interpreter can be procured, the Appellate Court Prothonotary or District Court Administrator shall contact the Court Administrator's office for guidance. A copy of the notices required under subsections (a), (b), or (c) should be made part of the record of the proceedings.

Rule 3104. Appointment of Interpreters.

(a) *Appointment of a certified interpreter.*—The presiding judicial officer shall appoint the certified interpreter procured pursuant to Pa.R.J.A. 3103(a), or the staff interpreter obtained pursuant to Pa.R.J.A. 3102(d), unless a certified interpreter is unavailable.

(b) *Appointment of an otherwise qualified interpreter.*—

(1) An otherwise qualified interpreter shall be appointed by the presiding judicial officer if the presiding judicial officer determines that the Appellate Court Prothonotary or District Court Administrator made a good faith effort to procure a certified interpreter and a certified interpreter was not available and also that the Appellate Court Prothonotary or District Court Administrator properly procured an otherwise qualified interpreter pursuant to Pa.R.J.A. 3103(b). In making the foregoing determinations the presiding judicial officer shall consider the efforts made by the Appellate or District Court Administrator and whether these efforts complied with the requirements of Pa.R.J.A. 3103.

(i) *Persons with limited English proficiency.*—Prior to the appointment of the otherwise qualified interpreter for a person with limited English proficiency, the presiding judicial officer shall state on the record that:

(A) a certified interpreter was not available;

(B) the Appellate Court Prothonotary or District Court Administrator properly procured the otherwise qualified interpreter pursuant to Pa.R.J.A. 3103(b);

(C) the presiding judicial officer conducted the voir dire for qualifying interpreters for persons with limited English proficiency; and

(D) the otherwise qualified interpreter has read, understands and agrees to abide by the policies and regulations governing the certification and appointment of interpreters and the code of ethics and professional conduct for court interpreters for persons with limited English proficiency, as established by the Court Administrator.

(ii) *Persons who are deaf.*—

Prior to the appointment of the otherwise qualified interpreter for a person who is deaf, the presiding judicial officer shall state on the record that:

(A) a certified interpreter was not available;

(B) the Appellate Court Prothonotary or District Court Administrator properly procured the otherwise qualified interpreter pursuant to Pa.R.J.A. 3103(b);

(C) the otherwise qualified interpreter is certified by the National Association of the Deaf (NAD), the Registry of Interpreters for the Deaf (RAD) or similar registry to the best of the knowledge of the presiding judicial officer;

(D) the otherwise qualified interpreter has read, understands and agrees to abide by the policies governing certification and appointment of interpreters for the deaf, the code of ethics for court interpreters for persons who are deaf, and the code of ethics and professional conduct for court interpreters as established by the Court Administrator; and

(E) the otherwise qualified interpreter has complied with the requirements of the Sign Language Interpreter and Transliterator State Registration Act, 63 P. S. § 1725.1 et seq., and is registered with the Office for the Deaf and Hard of Hearing (ODHH) within the Department of Labor and Industry of the Commonwealth.

(2) In ascertaining whether an individual is able to interpret and should be appointed as an otherwise qualified interpreter, the presiding judicial officer shall follow the guidelines established by the Court Administrator for the appointment of otherwise qualified interpreters for persons with limited English proficiency or for persons who are deaf.

(c) *Additional interpreter(s).*—After consideration of the length of the judicial proceeding and the number of persons requiring interpreters involved, the presiding judicial officer may appoint, as provided for in subsections (a) and (b), an additional interpreter or provide for additional interpretation in a manner deemed appropriate by the presiding judicial officer. In making this determination, the presiding judicial officer shall follow the guidelines established by the Court Administrator for the appointment of additional interpreters for persons with limited English proficiency or for persons who are deaf.

(d) *Immediate family.*—The presiding judicial officer may appoint, as provided in subsections (a) and (b), an interpreter or provide for additional interpretation, as provided in subsection (c), for an immediate family member of a principal party in interest.

Comment: The appointment process outlined in this subchapter is comprised of four main steps: (1) notice of need for an interpreter (Pa.R.J.A. 3101); (2) determination of need for an interpreter (Pa.R.J.A. 3102); (3) procurement of a certified or otherwise qualified interpreter (Pa.R.J.A. 3103); and (4) formal appointment of the interpreter (Pa.R.J.A. 3104). If a certified or otherwise qualified staff interpreter for the language is readily available, however, the presiding judicial officer may dispense with the third step. See Pa.R.J.A. 3102(d).

Subsection (a) of Pa.R.J.A. 3104 authorizes the presiding judicial officer to appoint a certified interpreter after the steps outlined in Pa.R.J.A. 3101, 3102, and 3103 have been taken. In addition, subsection (a) permits the presiding judicial officer to appoint a certified interpreter sua sponte if it is appropriate. If the presiding judicial officer determines sua sponte that an interpreter is needed, he or she must notify the Appellate Court Prothonotary or District Court Administrator of the need for a certified interpreter pursuant to Pa.R.J.A. 3102(b). If the judicial proceeding is conducted in a court of record, the formal appointment of either a certified interpreter or an other-

wise qualified interpreter should always be done on the record at the first appearance of the interpreter at the proceeding. Subsection (c) allows for the appointment of a team of interpreters if the judicial proceeding is a jury trial, is likely to be more than two hours in duration, or, in the case of a deaf person, whenever the limitations and particularities of the deaf person's form of communication (such as when the deaf person is a foreign national who does not communicate in any of the forms of sign language spoken in this country) requires it.

Rule 3105. Replacement or Removal of Interpreter.

(a) The presiding judicial officer shall dismiss an interpreter and obtain the services of another interpreter in accordance with this subchapter if the interpreter:

(1) Fails to follow the standards prescribed by law or by the code of ethics and professional conduct for court interpreters for persons with limited English proficiency or for persons who are deaf (whichever is applicable) established by the Court Administrator by engaging in conduct such as, but not limited to:

(i) knowingly and willfully making false, misleading, or incomplete interpretation while serving in an official capacity;

(ii) knowingly and willfully disclosing confidential or privileged information obtained while serving in an official capacity;

(iii) failing to reveal potential conflicts of interest;

(iv) misrepresenting his or her credentials; or

(v) failing to appear as scheduled without good cause.

(2) Is unable to effectively communicate with the presiding judicial officer or the person with limited English proficiency or the person who is deaf, including where the interpreter self-reports such inability.

(b) In the event a presiding judicial officer removes an interpreter for the grounds specified in subsection (a)(1) he or she shall notify the Court Administrator.

Comment: Subsection (b) requires that a presiding judicial officer inform the Court Administrator whenever an interpreter has to be removed for failing to follow standards prescribed by law or the code of ethics and professional conduct for judiciary interpreters established by the Court Administrator, the code of ethics of the Registry of Interpreters for the Deaf (RID), the National Association for the Deaf (NAD) or any other professional organization regulating the interpreter. This mandatory reporting requirement allows the Court Administrator to enforce the applicable standards and code of ethics and professional conduct governing court interpreters. In addition to reporting violations resulting in removal of a court interpreter, the presiding judicial officer is encouraged to report any other suspected violations of legal standards, the code of ethics and professional conduct, failure to follow Interpreter Certification Program guidelines, the Sign Language Interpreter and Transliterator State Registration Act, 63 P. S. § 1725.1 et seq., and the standards of the Department of Labor and Industry's Office of the Deaf and Hard of Hearing (ODHH), even if the suspected violations are not sufficient to cause the presiding judicial officer to remove the interpreter.

Rule 3106. Oath for Interpreters.

Before commencement of interpreter duties, an interpreter shall take the following oath:

Do you solemnly swear or affirm that you will make an accurate, complete and impartial interpretation

from the English language into the (target language), and vice-versa, of any communication put through you using your best skill, judgment and ability and that you will abide by the Code of Ethics and Professional Responsibility for judiciary interpreters, and so you do swear or affirm?

Once the oath is administered, the interpreter becomes an officer of the court for the duration of his or her appointment.

Rule 3107. Cost of Providing Interpreters for Persons with Limited English Proficiency.

(a) *General rule.*—An interpreter appointed pursuant to Rule 3104 is entitled to a reasonable fee for interpreter services and shall be reimbursed for actual and reasonable expenses in accordance with the compensation schedule approved by the Court Administrator.

(b) *Principal party in interest.*—If the person with limited English proficiency is a defendant, party or a direct victim in a judicial proceeding for a criminal matter or juvenile proceeding pursuant to 42 Pa.C.S. Ch. 63 (relating to juvenile matters), or a plaintiff or defendant in a protection from abuse proceeding pursuant to 23 Pa.C.S. Ch. 61 (relating to protection from abuse), the payment of the cost of providing the interpreter shall be the responsibility of the county of the court or the appellate court that has jurisdiction over the judicial proceeding for which the interpreter was appointed.

(c) *Witness.*—If the person with limited English proficiency is compelled to appear as a witness in a judicial proceeding for a criminal matter or juvenile proceeding pursuant to 42 Pa.C.S. Ch. 63 (relating to juvenile matters), the payment of the cost of providing the interpreter shall be the responsibility of the county of the court that has jurisdiction over the judicial proceeding for which the interpreter was appointed.

(d) *Payment determination.*—Except as provided in subsections (b) and (c), disposition of all or part of the cost of providing interpreter services shall be in the discretion of the presiding judicial officer and in accordance with the compensation schedule established by the Court Administrator, unless the principal party in interest is indigent. If the principal party in interest is indigent, the cost of providing interpreter services shall be the responsibility of the county of the court or the appellate court that has jurisdiction over the judicial proceeding for which the interpreter was appointed. The presiding judicial officer may order reimbursement to the county of the court or the appellate court that has jurisdiction over the judicial proceeding for which the interpreter was appointed for its responsibilities under this subchapter. In determining the amount of actual and reasonable expenses to be paid to the interpreter, the presiding judicial officer shall follow the fee schedule for interpreters established by the Court Administrator.

Comment: The compensation schedule referred to in subsection (a) will be published in the *Pennsylvania Bulletin* and the official web site of the Administrative Office of the Pennsylvania Courts and will be subject to periodic review. In a judicial district comprised of more than one county, the county of the court that has jurisdiction over the judicial proceedings is the county in which the cause of action arose.

Rule 3108. Costs of Providing Interpreters for Persons who are Deaf.

(a) *General rule.*—Except as provided in subsection (b), an interpreter appointed in accordance with Rule 3104 is

entitled to a reasonable fee for the services of the interpreter and shall be reimbursed for actual and reasonable expenses by the county of the court that has jurisdiction over the judicial proceeding in accordance with the compensation schedule approved by the Court Administrator. Except as provided in subsection (b), expenses related to interpreters appointed for appellate judicial proceedings shall be the responsibility of the appellate court.

(b) *Payment determination of certain costs.* Disposition of all or part of the cost of providing an interpreter appointed in accordance with Rule 3104(d) shall be in the discretion of the court that has jurisdiction over the judicial proceeding and in accordance with the compensation schedule approved by the Court Administrator. In no event shall the cost of providing interpreter services be the responsibility of the person who is deaf. If the principal party in interest is indigent, the cost of providing interpreter services shall be the responsibility of the county of the court or the appellate court that has jurisdiction over the judicial proceeding for which the interpreter was appointed. The presiding judicial officer may order reimbursement to the county or the appellate court for its responsibilities under this chapter.

Comment: The compensation schedule referred to in subsection (a) will be published in the *Pennsylvania Bulletin* and the official web site of the Administrative Office of the Pennsylvania Courts and will be subject to periodic review. In a judicial district composed of more than one county, the county of the court that has jurisdiction over the judicial proceedings is the county in which the cause of action arose.

REPORT

Proposed Uniform Rules Governing Court Interpreters For Persons With Limited English Proficiency And For Persons Who Are Deaf.

I. Background

In March of 2003 the Supreme Court's Committee on Racial and Gender Bias in the Justice System recommended to the Supreme Court the implementation of an Interpreter Certification Program in order to establish the qualifications of persons providing interpreting services to the Courts, provide improved access to court services and guarantee due process for persons with limited English proficiency and persons who are deaf. As a result of this recommendation, the Supreme Court asked the Administrative Office of Pennsylvania Courts to consider the possibility of establishing such a program. In September 2004 the Administrative Office of Pennsylvania Courts joined the Consortium for State Court Interpreter Certification at the National Center for State Courts. Following the Consortium's model and guidance, the Court Administrator started the process of creating an interpreter certification program. In November 2006, the General Assembly passed and the Governor signed Act 172 of 2006. Act 172, which went into effect on January 29, 2007, amends Title 42 (Judiciary and Judicial Procedure) and Title 2 (Administrative Law and Procedure) and mandates the use of certified or otherwise qualified interpreters in the courts of Pennsylvania and authorizes the creation of an Interpreter Certification Program under the auspices of the Court Administrator of Pennsylvania.

The Supreme Court recognized that uniform standards were needed to: (1) ensure a statewide pool of available interpreters possessing the basic qualifications necessary to perform competent court interpretation, as often judges

were unable to identify or locate properly trained and qualified court interpreters in a timely manner; (2) educate judges and court personnel on the proper means of identifying the need for an interpreter and for securing a properly qualified court interpreter so they can determine when an interpreter is required and how to quickly obtain one; (3) establish guidelines for compensation of court interpreters as well as a means to allocate the cost in a manner that is most equitable under the circumstances; and (4) establish ethical guidance to ensure that interpreters clearly understand their role in the judicial system so that they may faithfully serve without overstepping their role.

Therefore, in order to foster uniform standards, the Court Administrator is recommending the adoption of new rules for: implementing an interpreter certification program; establishing qualification and certification requirements for court interpreters; establishing procedures for determining the need for court interpreters and for their procurement and appointment; establishing a fee schedule and criteria for allocating the cost of the court interpreter; and establishing a code of ethics and disciplinary procedure for court interpreters.

II. Discussion

Pennsylvania is one of the most linguistically diversified states in the nation. According to the 2000 Census, Pennsylvania ranks sixth among the states with 135 different languages spoken within its territory. In February 2005, a survey of the sixty judicial districts conducted by the Administrative Office of the Pennsylvania Courts revealed that there were fifty-seven (57) languages in use throughout the state court system. The United States is rapidly becoming the most linguistically diverse country in the world. As a result, the need for the use of qualified interpreters in the courts is growing.

Even before the passage of Act 172, the Supreme Court recognized the need to ensure the competence of court interpreters and joined the National Center for State Courts Consortium for State Court Interpreter Certification. This membership provides access to testing instruments, and the opportunity to build on the experience of other member states in certifying court interpreters. The information learned through the Consortium enabled the Interpreter Certification Program to prepare for the testing and certification that would be mandated by the then-pending legislation that ultimately became Act 172.

The following rules provide the structure for an interpreter certification program that will result in the creation of a statewide roster of qualified and certified interpreters and also prescribe procedures for requesting and procuring interpreters for court cases. The program will certify both foreign language interpreters and interpreters for the deaf. To become certified, court interpreters will be required to pass a series of examinations that assess the interpreter's knowledge of English and the target language, interpreting skills, and knowledge of words and phrases particular to the judicial process. Successful interpreters will be placed on the roster of interpreters certified to work in the courts of Pennsylvania, a roster from which court interpreters must be selected by judicial districts, absent exigent circumstances.

The rules also prescribe the method by which interpreters are requested and selected. While recognizing that each judicial district deals with administrative issues such as the hiring of interpreters in different ways, it was nonetheless decided that a uniform approach to request-

ing interpreters was advisable to ensure that judges, attorneys and court administrators throughout the state understand their role and obligations. Such an understanding should result in fewer cases being delayed due to the need to procure an interpreter. A standard procedure should also help ensure that only certified or otherwise qualified interpreters are hired.

III. Proposed Rules

To address the issues discussed above, the Court Administrator proposes the adoption of the following rules of judicial administration: *Uniform Rules Governing Court Interpreters for Persons with Limited English Proficiency and Persons Who are Deaf*. Upon adoption of these rules the following previous rule must be rescinded: Pa. R.J.A. 1903.

President Judge

L205.2. Filing Legal Papers with the Prothonotary.

(a) *Size of Paper.* All pleadings, motions, petitions, briefs, and other legal documents filed with the prothonotary shall be on paper size 8 1/2 inches by 11 inches, unless otherwise required by rule or order of court. **Any document more than three pages in length may be printed on both sides of the paper.**

(b) . . .

A. . . .

B. *Motion Cover Sheet.* The procedure set forth in this section shall apply to every request for relief and/or application to the court for an order, whether by petition, motion, preliminary objection, exception, or stipulation, that the filing party desires to bring before the court or family court hearing officer, except a motion for a continuance (see rule L205.2(b)c regarding continuance) **and exceptions to a Family Court Order (see Rule L1910.12 regarding exceptions).**

Note: The use of this cover sheet is also required in orphans' court; see, Lyc. Co. O.C.R. L3.4.

1. A cover sheet substantially in the form set forth in subsection 7 of this section shall be attached to the front of every request for a court order to which this rule applies. **[, with the exception of any]** Any request for relief on the front of which an applicable Pennsylvania Rule of Civil Procedure requires a specific order or notice to be attached **shall include that order or notice directly following the cover sheet.**

L208.3 Motions. Procedures. Briefs.

(a) *Motion procedure.*

A. . . .

B. *Briefs.* Briefs may be ordered by the court and, if so ordered, the time for filing will be set forth on the executed motion cover sheet. If briefs are ordered, the original and **[two copies] one copy** shall be filed with the prothonotary, who shall forward **[them] the copy** to the judge. All parties shall be served with a copy of the brief contemporaneously with the filing of the brief. Where briefs are required and are not timely filed, the court may treat the request for relief as having been submitted by the defaulting party and proceed ex parte, or impose such other sanction as it shall deem appropriate.

. . .

L212. Pretrial Conferences and Trial Scheduling.

A. . . .

B. *Pretrial Conferences.*

1. . . .

2. Not less than seven days before the date set for the pretrial conference, each party shall file the original and **[two copies] one copy** of the pretrial statement and serve a copy on all other parties. The prothonotary shall forward the **[two copies] copy** to the trial judge as soon as possible.

L1301. Compulsory Arbitration.

A. **[Compulsory arbitration of matters as authorized] All civil cases that fall within the jurisdictional limits set by Section 7361 of the Judicial Code, 42 Pa.C.S. [Section 101, et seq. shall apply to all civil cases which are at issue wherein the amount in controversy (exclusive of interest and costs) shall**

be Twenty-Five Thousand Dollars (\$25,000) or less, including appeals from a civil judgment of a district justice, except those involving title to real estate or actions in equity. Such actions] § 7361, shall be submitted to **[and heard by a board of] compulsory arbitration [consisting], in accordance with the provisions of [three attorneys] Section 7361.** The amount in controversy generally will be determined from the pleadings **[or by an agreement of reference filed by the attorneys]. [However, the]** The court on its own motion, or on the motion of any party may, based upon affidavits, depositions, stipulation of counsel or after hearing, determine that the amount actually in controversy does not exceed **[twenty-five thousand Dollars (\$25,000) and] the jurisdictional amount for arbitration and may enter an order [certifying] submitting the case to [a board of arbitration. In the event that a case within arbitration limits is consolidated with a case involving more than arbitration limits after the former has been referred to a board of arbitrators, the order of consolidation will remove the same from the jurisdiction of the board of arbitrators] compulsory arbitration.**

B. . . .

L1308. Compensation for Arbitrators.

A. Each of the three members of an arbitration panel shall receive compensation in the amount of **[\$100.00] \$200.00** per case for which the member serves as an arbitrator. A substitute arbitrator who does not serve shall receive \$50.00.

B. Each arbitrator shall be entitled to receive additional compensation at the rate of **[twenty-five (\$25.00) dollars] \$50.00** per hour in any case in which the actual time spent in the hearing exceeds three and one-half (3 1/2) hours.

DISCIPLINARY BOARD OF THE SUPREME COURT

Collection Fee and Late Payment Penalty for 2008-2009 Assessment Year

Notice is hereby given that in accordance with Pennsylvania Rule of Disciplinary Enforcement 219(d)(2) and 219(h)(2), The Disciplinary Board of the Supreme Court of Pennsylvania (Board) has established the collection fee for checks returned as unpaid and the late payment penalty for the 2008-2009 Assessment Year as follows:

Where a check in payment of the annual registration fee for attorneys has been returned to the Board unpaid, the collection fee will be \$50 per returned item.

At the time the final notices are transmitted by certified mail to an attorney who fails to timely file an annual registration form and pay the fee, the late payment penalty will be \$100. After 30 days, the names of every attorney who has failed to respond to the notice shall be certified to the Supreme Court, at which time the late payment penalty will be increased to \$200.

PROPOSED RULEMAKING

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CHS. 2380, 2390, 6400 AND 6500]

Individual Support Plan for Individuals with Mental Retardation

The Department of Public Welfare (Department) under the authority of the Public Welfare Code (62 P.S. §§ 901—922 and 1001—1087) intends to amend the regulations set forth in Annex A.

Purpose of Regulation

The purpose of this proposed regulatory amendment is to update and clarify regulations regarding the comprehensive plan to provide services for individuals with mental retardation. The process of developing and implementing a plan to provide these services has changed. The proposed amendment is needed to clarify the individual plan development process and the provider's role in developing and implementing the individual plan.

Background

Current regulations specify that a provider shall develop and implement an Individual Program Plan (IPP) or Individual Written Program Plan (IWPP). The IPP and IWPP were the sole documents to be used by providers to organize and manage services provided for individuals served by the Office of Developmental Programs (ODP), formerly the Office of Mental Retardation (OMR). Each provider created an IPP or IWPP for every individual served. An individual could easily have several plans: one for his residential program; one for the vocational program; and one for day services. In some cases, individuals and their families would attend multiple meetings to update plans for each provider, and the plans would conflict with each other.

As part of the regulatory development process, an individual and family-focused work group was convened. The group offered suggestions for the language to be used in the regulatory revisions some of which are incorporated into the proposed amendments. The group also requested ODP add regulatory language specifying when individuals and families receive information prior to the plan development meeting and requested the 3 month review summary within 30 days of completion of review. ODP agreed the addition would be beneficial, and added this language to the proposed amendments. These time frames were acceptable to the workgroup, which was composed of an individual receiving services, families, providers, provider associations and administrative entity representatives.

In 2002, OMR (now ODP) implemented the Individual Support Plan (ISP) to resolve these problems by replacing multiple plans with one comprehensive plan. The ISP is the single document used to coordinate all supports and services for an individual, to eliminate the need for each provider to have its own plan. The individual and his family or friends, as applicable, meet with all providers at the same time to develop and plan how to meet the needs and wants of the individual. This creates consistency and ensures that everyone is working together to meet the individual's needs and personal goals.

The creation and coordination of the ISP is conducted by the supports coordinator. Supports coordination assists

waiver participants with locating, coordinating and monitoring needed services and supports. With the improvements in planning for the individual needs and wants moving from a provider-directed IPP or IWPP to a supports coordinator-facilitated ISP, the current regulations need to conform to these improvements. The proposed amendments are consistent with the current process for developing or implementing the ISP. The proposed regulations do, however, change the acronyms "IPP" or "IWPP" to the more generic "IP," and change existing regulatory language to reflect the preferred process for developing an IP. This regulatory change provides for consistent and uniform language throughout the relevant regulations. It also allows for changes to occur, if necessary, in the type of format used to document and coordinate all supports and services provided to an individual in the future.

Requirements

§§ 2380.3, 2390.5, 6400.4 and 6500.4 regarding definitions

These sections are being amended to define the IP and supports coordinator.

§§ 2380.33, 2390.33 and 6400.44 regarding program specialist

These sections state the responsibilities of a program specialist. The proposed change to these sections reflects that a program specialist is required to provide the completed assessment prior to planning meetings. The other proposed change is the addition of information on how a provider is required to coordinate and develop an IP for individuals who do not have an assigned supports coordinator.

§§ 2380.35 and 6400.45 regarding staffing

These sections describe the conditions under which a person may be unsupervised. This section requires that staffing ratios specified in the IP must be implemented as written.

§ 6500.44 regarding supervision

This section describes the conditions under which a person may be left unsupervised. This section requires that staffing ratios specified in the IP must be implemented as written.

§ 2380.101 regarding program activities and services

This section states that the program activities shall be provided as specified in the IP. The change in this section is that the general term "services" was added to the section heading and subsection (c).

§ 2390.91 regarding activities and services

This section states that the activities for an individual shall include work experience and other developmentally-oriented work training and shall be provided as specified in the IP. The change in this section is that the general term "services" was added to the section heading and the text of the regulation. The term "work training activities" was changed to "work training endeavors."

§§ 2380.103(1), 2390.95(1), 6400.122(1) and 6500.112(1) regarding development of the individual plan

These sections define the development of the IP. Specific changes to these sections include a new section for an individual who does not have an assigned supports coordinator. It indicates what procedures are to be fol-

lowed by the program specialist or family living specialist when there is no supports coordinator.

§§ 2380.104, 6400.123 and 6500.113 regarding review of the IP

These sections define the review and revision process for the IP. The most prominent enhancement to these sections is that the time frame for quarterly reviews is now three calendar months in all three chapters.

§ 2390.97 regarding review of the IP

This section defines the review process for IPs. It provides that the time frame for review is at least every 3-calendar months.

§§ 2380.105, 6400.124 and 6500.114 regarding participation in the development of the IP

These sections outline who must participate in the development of the IP. The amendment describes the duties of the program specialist or family living specialist.

§ 2390.96 regarding content of the IP

This section states the content requirements for the IP. The change adds provisions for individuals without an assigned supports coordinator and outlines procedures that are to be followed regarding the development and content of the individual's plan.

§§ 2380.106, 6400.125 and 6500.115 regarding content of IP

These sections define the content required for the IP. The proposed amendment specifies that a program specialist or family living specialist shall review certain areas of the IP and document any missing or incomplete items. The program specialist shall also prepare the IP for individuals without a supports coordinator.

§§ 2380.107, 6400.126 and 6500.116 regarding implementation of the IP

These sections require that the IP shall be implemented as written.

§§ 2380.108, 2390.98, 6400.127 and 6500.117 regarding copies of the IP

These sections outline the requirements regarding copies of the IP. The changes require the program specialist or family living specialist to send a written summary of each three month review to all interested parties. The program specialist or family living specialist shall also keep documentation for those persons who have opted not to receive a written copy of the reviews.

§§ 6400.163 and 6500.133 regarding use of prescription medications

These sections relate to prescription medications. The acronym IPP is replaced with "IP."

Affected Individuals and Organizations

Currently, the majority of individuals receiving services through ODP are required to have an ISP. It is the only form approved for documenting services and facilitating payment through ODP under Chapters 2380, 2390, 6400 and 6500. The ISP eliminates the need for each provider to have its own plan. The benefits to individuals and families include having only one plan meeting to attend in which all providers are required to be present. Previously, some individuals and families were being asked to attend meetings separately with the various providers which created an unnecessary hardship.

As part of the regulatory development process, the individual and family-focused workgroup requested that

ODP add certain regulatory language to specify that individuals and families receive assessment information prior to the plan development meeting. Providers will be required to distribute copies of their assessment information and 3-month review summary to individuals and families within 30 days of the meeting. The provider shall also forward the assessment data that will be used during the plan meeting to planning team members no later than 30 days before the meeting.

Accomplishments and Benefits

The proposed amendments codify the current process for developing and implementing the ISP. The proposed regulations do, however, revise the acronyms "IPP" or "IWPP" to the more generic "IP" and change the existing regulatory language to reflect the preferred process for developing an IP. This regulatory revision provides for consistent and uniform language throughout Chapters 2380, 2390, 6400 and 6500. It also allows for changes to occur in the type of format used to document and coordinate all supports and services for an individual if necessary in the future. The regulatory revisions are necessary to ensure that ODP has the necessary authority to enforce the new requirements and protect the health and welfare of individuals receiving services.

Fiscal Impact

There is no cost associated with clarifying and updating plan regulations for the Commonwealth, local government or individuals receiving services. The regulation work group identified one additional cost to providers related to copies of reviews and assessment information that are required to be sent to them on a quarterly basis. This information previously was only sent to the Supports Coordinator and the individual. It will now be sent to the individual's family, if appropriate, as well. However, a provision allows families to opt not to receive this information. Electronic distribution of materials to families is permitted if the family has a means to receive and read information in electronic form. Mailing and copying costs should be minimal for providers. Additionally, because the regulations clarify that only the form approved by the Department will be accepted as the IP, providers who create both a regulatory IPP and the Department-requested ISP can cease this practice. Regulations will allow for the single IP document which will eliminate the cost of staff time in creating a second document.

Paperwork Requirements

Providers will need to provide copies of their assessment information and three month review summary to individuals and families. The amount of paperwork will depend on the page count of each provider's assessment information and the three month review summary. The proposed regulations permit electronic distribution. The proposed regulations add a 30-day time frame for providers to send review summary information to individuals and families. The proposed amendments also state that the provider must forward assessment data to be used during the plan meeting to planning team members no later than 30 days before the meeting. No new forms are required by the amended regulations.

Effective Date

This regulatory amendments will be effective upon final publication in the *Pennsylvania Bulletin*.

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to the Department at the following address:

Wendy Dixon, Human Services Program Specialist, Office of Developmental Programs, Department of Public Welfare, P. O. Box 2675, Harrisburg, PA 17105-2675, raodpregscomment@state.pa.us, within 30 calendar days after the date of publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Reference Regulation No. 14-512 when submitting comments.

Persons with a disability who require an auxiliary aid or service may submit comments by using the AT&T Relay Service at (800) 654-5984 (TTY users) or (800) 654-5988 (voice users).

Regulatory Review Act

Under section 5(a) of the Regulatory Review Act (act) (71 P. S. § 745.5(a)), on April 16, 2008, the Department submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Health and Human Services and the Senate Committee on Public Health and Welfare. In addition to submitting the proposed rulemaking, the Department has provided the IRRC and the Committees with a copy of a Regulatory Analysis Form prepared by the Department. A copy of this form is available to the public upon request.

Under section 5(g) of the act, if the IRRC has any comments, recommendations or objections to any portion of the proposed regulation, it may notify the Department and the Committees within 30 days after the close of the public comment period. The notification shall specify the regulatory review criteria that have not been met. The act specifies detailed procedures for review by the Department, the General Assembly and the Governor, of any comments, recommendations or objections raised, prior to final publication of the regulations.

INSURANCE DEPARTMENT

[31 PA. CODE CH. 84b]

Actuarial Opinion and Memorandum

The Insurance Department (Department) proposes to amend Chapter 84b (relating to actuarial opinion and memorandum) to read as set forth in Annex A. The proposed rulemaking is made under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412) and section 301 of The Insurance Department Act (act) (40 P. S. § 71).

Purpose

The purpose of the proposed rulemaking is to update Chapter 84b to include amendments made by the Na-

tional Association of Insurance Commissioners (NAIC) to Model Regulation 822, entitled "Actuarial Opinion and Memorandum Regulation." That regulation requires all life insurance companies and fraternal benefit societies to submit actuarial opinions based on an asset adequacy analysis, commonly known as "Section 8 opinions." Several of these changes are required for the Department to maintain accreditation by the NAIC beginning in 2009.

A copy of the copyrighted NAIC model regulation was provided to the Legislative Standing Committees, the Independent Regulatory Review Commission (IRRC), the Governor's Office of Policy and Planning, the Governor's Office of General Counsel and the Attorney General to assist in their analysis of this proposed rulemaking. Copies of NAIC model regulations are available to the general public by contacting the NAIC.

Explanation of Regulatory Requirements

The following is a description of the changes contained in the proposed rulemaking:

Section 84b.1 (relating to purpose) is being amended to add reference to supporting memoranda and recognize the regulation's additional purpose to provide guidance on the meaning of adequacy of reserves.

Section 84b.2 (relating to applicability) is being amended to reflect that the regulation will be applied in a manner to recognize an appointed actuary's professional judgment in performing duties specified by the regulation while retaining the Commissioner's authority to require specific methods of actuarial analysis and assumptions when necessary to ensure adequacy of reserves.

Section 84.3 (relating to scope) is being amended to eliminate the references to companies that are exempted from performing an asset adequacy analysis.

Section 84b.4 (relating to definitions) is being amended to modify definitions to reflect the elimination of the exemption from the performance of an asset adequacy analysis, change references to the sections of the chapter in accordance with the elimination, delete definitions no longer necessary because references in the regulation have been deleted, and make other modifications as a matter of form.

Section 84b.5 (relating to general requirements) is being amended to reflect the elimination of the exemption from the performance of an asset adequacy analysis. In addition, changes are proposed to clarify that the actuarial opinion applies to both directly issued and assumed business, and to replace outdated annual statement exhibit number references with descriptive language.

Sections 84b.6 and 84b.7 (relating to required opinions; and statement of actuarial opinion not including an asset adequacy analysis) are being rescinded to comply with amendments made to the NAIC model regulation reflecting the requirement that one type of opinion is to be filed for all companies except for companies doing business in one state.

Section 84b.8 (relating to statement of actuarial opinion based on an asset adequacy analysis) is being revised to conform with IRRC standards, to eliminate the requirement that certain statements be included in the actuarial memorandum verbatim by permitting actuarial opinions to contain statements that comply with the general regulatory requirements. Changes are also proposed to simplify and clarify the requirements and as a matter of form, and to reflect where statements may be omitted, at the Commissioner's discretion, for a company domiciled and doing business in this Commonwealth only. Section

84b.8 is also being revised to remove the table from the body of the regulation. This table will be made readily available on the Department's website.

Section 84b.9 (relating to description of actuarial memorandum including an asset adequacy analysis) is being revised to comply with the NAIC model regulation by requiring a regulatory asset adequacy issues summary to be submitted each year, specifying the contents of the summary, and specifying the information and data required in the actuarial memorandum. Changes are also being proposed to correct references to sections which are being amended and to the heading of the section to conform to the contents therein.

Section 84b.10 (relating to additional considerations for analysis) is being rescinded to comply with the NAIC model regulation by deleting aggregation, allocation and interest scenario requirements concerning an asset adequacy analysis.

Section 84b.11 (relating to insurance company disciplinary action) is being revised to correct references to the applicable section of law referenced.

Affected Parties

The proposed rulemaking will apply to life insurance companies and fraternal benefit societies doing business in this Commonwealth.

Fiscal Impact

State Government

There will be no increase in cost to the Department as a result of the adoption of the proposed amendment to Chapter 84b. As part of its solvency monitoring responsibilities, the Department currently reviews statements of actuarial opinion and supporting memoranda. Thus, this proposed rulemaking will not require any additional staff time or resources to perform the analysis.

General Public

Since the proposed rulemaking concerns the solvency requirements applied to insurers, the public will benefit from a financially sound insurance industry that has the ability to fulfill its contractual obligations under life insurance policies.

Political Subdivisions

The proposed rulemaking will not impose additional costs on political subdivisions. However, because the proposed rulemaking promotes stability in this Commonwealth's insurance industry, political subdivisions' tax revenues would benefit as a result of fewer insurer insolvencies. Fewer insolvencies would result in less unemployment and would also increase incentives for insurers to market new insurance products in this Commonwealth.

Private Sector

The proposed rulemaking may impose additional costs on insurers that are currently exempt from submitting an actuarial opinion based on an asset adequacy analysis. The amount of the additional cost will depend on the type and extent of the asset adequacy analysis that the insurer's actuary believes is necessary to submit an actuarial opinion. The rulemaking provides the actuary flexibility to use professional judgment in performing the analysis.

Paperwork

The adoption of this proposed rulemaking would not impose additional paperwork on the Department. Insur-

ers that currently do not prepare an actuarial memorandum because the actuarial opinion is not based on an asset adequacy analysis will be required to prepare an actuarial memorandum under the proposed rulemaking. In addition, insurers are required under the proposed rulemaking to submit a regulatory asset adequacy issues summary each year. The amount of additional paperwork in preparing the memorandum and summary will depend on the type and extent of the asset adequacy analysis performed.

Effectiveness/Sunset Date

The proposed rulemaking will become effective January 1, 2009. The Department continues to monitor the effectiveness of regulations on a triennial basis; therefore, no sunset date has been assigned.

Contact Person

Questions or comments regarding the proposed rulemaking may be addressed in writing to Peter J. Salvatore, Regulatory Coordinator, Insurance Department, 1326 Strawberry Square, Harrisburg, PA 17120, within 30 days following the publication of this notice in the *Pennsylvania Bulletin*. Questions and comments may also be e-mailed to psalvatore@state.pa.us or faxed to (717) 705-3873.

Under the Regulatory Review Act (act) (71 P. S. §§ 745.1—745.15), the Department is required to write to all commentators, requesting whether or not they wish to receive a copy of the final-form rulemaking. To better serve our stakeholders, the Department has made a determination that all commentators will receive a copy of the final-form rulemaking when it is made available to IRRC and the legislative standing committees.

Regulatory Review

Under section 5(a) of the act (71 P. S. § 745.5(a)), on April 16, 2008, the Department submitted a copy of this proposed rulemaking to IRRC and to the Chairpersons of the Senate Banking and Insurance Committee and the House Insurance Committee. In addition to the submitted proposed rulemaking, the Department has, as required by the act, provided IRRC and the committees with a copy of a detailed Regulatory Analysis Form prepared by the Department. A copy of that material is available to the public upon request.

IRRC will notify the Department of any objections to any portion of the proposed rulemaking within 30 days of the close of the public comment period. The notification shall specify the regulatory review criteria that have not been met by that portion. The act specifies detailed procedures for the Department, the Governor, and the General Assembly to review these objections before final publication of the regulations.

JOEL SCOTT ARIO,
Acting Insurance Commissioner

Fiscal Note: 11-235. No fiscal impact; (8) recommends adoption.

Annex A

TITLE 31. INSURANCE

PART VI. LIFE INSURANCE

CHAPTER 84b. ACTUARIAL OPINION AND MEMORANDUM.

§ 84b.1. Purpose.

The purpose of this chapter is to promulgate [**standards**] requirements for statements of actuarial opin-

ions and for supporting memoranda as required by section 301 [(f)](g) of the act (40 P. S. § 71 [(f)](g) and to provide guidance on the meaning of adequacy of reserves.

§ 84b.2. Applicability.

This chapter applies to life insurance companies and fraternal benefit societies doing business in this Commonwealth. This chapter shall be applied in a manner that allows the appointed actuary to utilize professional judgment in performing the asset adequacy analysis and developing the actuarial opinion and supporting memoranda, consistent with relevant actuarial standards of practice. However, the Commissioner will have the authority to require specific methods of actuarial analysis and actuarial assumptions when, in the Commissioner's judgment, these specifications are necessary for an acceptable opinion to be rendered relative to the adequacy of reserves and related items.

§ 84b.3. Scope.

[(a) Types of opinions. Except with respect to companies which are exempted under § 84b.6 (relating to required opinions), a statement of opinion on the adequacy of the reserves and related actuarial items based on an asset adequacy analysis in accordance with § 84b.8 (relating to statement of actuarial opinion based on asset adequacy analysis), and a memorandum in support thereof in accordance with § 84b.9 (relating to description of actuarial memorandum including an asset adequacy analysis) shall be required each year. A company so exempted shall file a statement of actuarial opinion under § 84b.7 (relating to statement of actuarial opinion not including an asset adequacy analysis).

(b) Filing upon request. The Commissioner may require a company otherwise exempt under this chapter to submit a statement of actuarial opinion and to prepare a memorandum in support thereof in accordance with §§ 84b.8 and 84b.9 if, in the opinion of the Commissioner, an asset adequacy analysis is necessary with respect to the company. In forming the opinion, the Commissioner will take into consideration issues such as the nature of the business insured, the type of assets owned by the company and the company's financial ratios determined in accordance with § 84b.6(c).]

A statement of opinion on the adequacy of the reserves and related actuarial items based on an asset adequacy analysis in accordance with § 84b.8 (relating to statement of actuarial opinion based on asset adequacy analysis), and a memorandum in support thereof in accordance with § 84b.9 (relating to description of actuarial memorandum including an asset adequacy analysis and regulatory asset adequacy issues summary) shall be required each year.

§ 84b.4. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

* * * * *

Actuarial opinion—[With respect to §§ 84b.8 , 84b.9 and 84b.10 (relating to statement of actuarial opinion based on asset adequacy analysis; description of

actuarial memorandum including an asset adequacy analysis; and additional considerations for analysis), the] The opinion of an appointed actuary regarding the adequacy of the reserves and related actuarial items based on an asset adequacy [test] analysis in accordance with § 84b.8 (relating to statement of actuarial opinion based on an asset adequacy analysis) and with applicable actuarial standards. [With respect to § 84b.7 (relating to statement of actuarial opinion not including an asset adequacy analysis), the opinion of an appointed actuary regarding the calculation of reserves and related items, in accordance with § 84b.7 and with actuarial standards which specifically relate to this opinion.]

* * * * *

Appointed actuary—A qualified actuary who is appointed or retained either directly by the board of directors or by the authority of the board of directors through an executive officer of the company, provided that the executive officer is not the qualified actuary of the company, to prepare the statement of actuarial opinion and supporting memorandum as required by [§]301 [(f)](g) of the act (40 P. S. § 71 [(f)](g)).

Asset adequacy analysis—An analysis that meets the standards and other requirements referred to in § 84b.5(d) (relating to general requirements). [It may take many forms, including cash flow testing, sensitivity testing or applications of risk theory.]

* * * * *

[First priority company—A company designated by the NAIC as a company which should be assigned a first priority in the scheduling of a state's company financial reviews.]

* * * * *

[Noninvestment grade bonds—Bonds designated as classes 3, 4, 5 or 6 by the NAIC Securities Valuation Office, or a successor thereto.]

* * * * *

[Second priority company—A company designated by the NAIC as a company which should be assigned a second priority in the scheduling of a state's company financial reviews.]

§ 84b.5. General requirements.

(a) Submission of statement of actuarial opinion.

(1) A company shall include on or attach to Page 1 of the annual statement for each year [beginning with 1994], the statement of an appointed actuary, entitled "Statement of Actuarial Opinion," setting forth an opinion relating to reserves and related actuarial items held in support of policies and contracts, in accordance with § 84b.8 (relating to statement of actuarial opinion based on asset adequacy analysis). [A company exempted under § 84b.6 (relating to required opinions) from submitting a statement of actuarial opinion in accordance with § 84b.8 shall include on or attach to Page 1 of the annual statement a statement of actuarial opinion rendered by an appointed actuary in accordance with § 84b.7 (relating to statement of actuarial opinion not including an asset adequacy analysis).]

(2) [If in the previous year a company provided a statement of actuarial opinion in accordance with § 84b.7, and in the current year fails to meet the exemption criteria of § 84b.6(c)(1), (2) or (5), the statement of actuarial opinion in accordance with § 84b.8 is not required until August 1 following the date of the annual statement. In this instance, the company shall provide a statement of actuarial opinion in accordance with § 84b.7 with appropriate qualification noting the intent to subsequently provide a statement of actuarial opinion in accordance with § 84b.8.

(3) In the case of a statement of actuarial opinion required to be submitted by a foreign or alien company, the Commissioner may accept the statement of actuarial opinion filed by the company with the insurance supervisory regulator of another state if the Commissioner determines that the opinion reasonably meets the requirements applicable to a company domiciled in this Commonwealth.

(4)] Upon written request by the company, the Commissioner may grant an extension of the date for submission of the statement of actuarial opinion.

(b) *Qualified actuary requirements.* A “qualified actuary” is an individual who:

* * * * *

(5) Has not failed to notify the Commissioner of any action taken by [a commissioner] the insurance regulatory authority of another state similar to that under paragraph (4).

(c) *Appointed actuary notification.* The company shall give the Commissioner written notice of the name, title—and, in the case of a consulting actuary, the name of the firm—and the manner of appointment or retention of each person appointed or retained by the company as an appointed actuary and shall state in the notice that the person meets the requirements in subsection (b). Once notice is furnished, no further notice is required with respect to this person, but the company shall give the Commissioner written notice if the actuary ceases to be appointed or retained as an appointed actuary or to meet the requirements in subsection (b). The notice of the appointment or termination of the appointment shall be provided to the Commissioner by [January 30, 1995, or] the date of the appointment or termination of the appointment [unless previously provided to the Commissioner]. The notice of termination [shall] must disclose the reasons for termination. Additionally, the terminated actuary shall furnish to the Commissioner and to the company a description of valuation reserve issues that the actuary considered as material at the time of termination or a statement that no material issues exist. The description [shall] must include issues concerning valuation requirements, reserve adequacy, asset adequacy analysis assumptions or methodology and internal controls on the valuation system.

(d) *Standards for asset adequacy analysis.* The asset adequacy analysis required by this chapter [shall] must:

* * * * *

(e) *Liabilities to be covered.*

(1) Under the authority of section 301 [(f)(4)](g)(5)(B) of the act (40 P. S. § 71 [(f)(4)](g)(5)(B)), the statement

of actuarial opinion [shall] must apply to reserves and related actuarial items associated with all in force business on the statement date, whether directly issued or assumed, regardless of when or where issued (for example, [reserves of Exhibits 8, 9 and 10, and claim liabilities of Exhibit 11, Part I of the annual statement and equivalent items of the separate account annual statement or statements)] aggregate reserve for insurance and annuity contracts, liability for deposit-type contracts, liability for contract claims and equivalent items in the separate account statement or statements).

* * * * *

(*Editor’s Note:* As part of this proposed rulemaking, the Department is proposing to rescind the §§ 84b.6 and 84b.7, which appear in 31 Pa. Code pages 84b.5—84b-12, serial pages (229447)—(22945).)

§ 84b.6. [Required opinions] (Reserved).

§ 84b.7. [Statement of actuarial opinion not including an asset adequacy analysis] (Reserved).

§ 84b.8. Statement of actuarial opinion based on an asset adequacy analysis.

(a) [*General description.* The statement of actuarial opinion submitted in accordance with this section shall consist of:

(1) An opening paragraph as provided in subsection (b)(1) identifying the appointed actuary and the individual’s qualifications.

(2) A scope paragraph as provided in subsection (b)(2) identifying the subjects on which an opinion is to be expressed and describing the scope of the appointed actuary’s work, including a tabulation delineating the reserves and related actuarial items which have been analyzed for asset adequacy and the method of analysis, and identifying the reserves and related actuarial items covered by the opinion which have not been so analyzed.

(3) A reliance paragraph as provided in subparagraphs (i)—(iii):

(i) If the appointed actuary has deferred to other experts in developing data, procedures or assumptions (for example, anticipated cash flows from currently owned assets, including variation in cash flows according to economic scenarios), the reliance paragraph should include a statement as provided in subsection (b)(3)(i)(A) or (B), supported by a statement of each expert in the form prescribed by subsection (e).

(ii) If the appointed actuary has examined the underlying asset and liability records, the reliance paragraph should include a statement as provided in subsection (b)(3)(ii).

(iii) If the appointed actuary has not examined the underlying records, but has relied upon listings and summaries of policies in force or asset records prepared by the company or a third party, the reliance paragraph should include a statement as provided in subsection (b)(3)(iii)(A) or (B).

(4) An opinion paragraph as provided in subsection (b)(4) expressing the appointed actuary’s opinion with respect to the adequacy of the supporting assets to mature the liabilities.

(5) One or more additional paragraphs will be needed in individual company cases as follows:

(i) If the appointed actuary considers it necessary to state a qualification of the opinion.

(ii) If the appointed actuary must disclose the method of aggregation for reserves of different products or lines of business for asset adequacy analysis.

(iii) If the appointed actuary must disclose reliance upon any portion of the assets supporting the Asset Valuation Reserve (AVR) or other mandatory or voluntary statement reserves for asset adequacy analysis.

(iv) If the appointed actuary must disclose an inconsistency in the method of asset allocation used at the prior opinion date with that used for this opinion.

(v) If there is an inconsistency in the method of analysis used at the prior opinion date with that used for this opinion.

(vi) If the appointed actuary must disclose whether additional reserves of the prior opinion date are released as of this opinion date, and the extent of the release.

(vii) If the appointed actuary chooses to add a paragraph briefly describing the assumptions which form the basis for the actuarial opinion.

(b) *Recommended language.* The following paragraphs shall be included in the statement of actuarial opinion in accordance with this section. The language is that which in typical circumstances should be included in a statement of actuarial opinion. The language may be modified as needed to meet the circumstances of a particular case, but the appointed actuary shall use language which clearly expresses the individual's professional judgment. The opinion shall retain all pertinent aspects of the language provided in this subsection.

(1) The opening paragraph shall indicate the appointed actuary's relationship to the company and the individual's qualifications to sign the opinion.

(i) For a company actuary, the opening paragraph of the actuarial opinion shall include a statement such as follows:

"I, (name), am (title) of (insurance company name) and a member of the American Academy of Actuaries. I was appointed by, or by the authority of, the Board of Directors of said insurer to render this opinion as stated in the letter to the Commissioner dated (date). I meet the Academy qualification standards for rendering the opinion and am familiar with the valuation requirements applicable to life and health insurance companies."

(ii) For a consulting actuary, the opening paragraph of the actuarial opinion shall contain a statement such as follows:

"I, (name), a member of the American Academy of Actuaries, am associated with the firm of (name of consulting firm). I have been appointed by, or by the authority of, the Board of Directors of (name of company) to render this opinion as stated in the letter to the Commissioner dated (date). I meet the Academy qualification standards for rendering the

opinion and am familiar with the valuation requirements applicable to life and health insurance companies."

(2) The scope paragraph shall include a statement such as follows:

"I have examined the actuarial assumptions and actuarial methods used in determining reserves and related actuarial items listed below, as shown in the annual statement of the company, as prepared for filing with state regulatory officials, as of December 31, 19 (year). Those reserves and related actuarial items which have been subjected to asset adequacy analysis are tabulated as shown in the following table of Reserves and Liabilities."

(3) The reliance paragraph shall include a statement such as follows:

(i) If the appointed actuary has relied on other experts to develop certain portions of the analysis, the reliance paragraph shall include a statement such as either (A) or (B) as follows:

(A) "I have relied on (name), (title) for (such as, anticipated cash flows from currently owned assets, including variations in cash flows according to economic scenarios) and, as certified in the attached statement, . . ."

(B) "I have relied on personnel as cited in the supporting memorandum for certain critical aspects of the analysis in reference to the accompanying statement."

Such a statement of reliance on other experts shall be accompanied by a statement by each expert in the form prescribed by subsection (e).

(ii) If the appointed actuary has examined the underlying asset and liability records, the reliance paragraph shall also include a statement such as follows:

"My examination included such review of the actuarial assumptions and actuarial methods and of the underlying basic asset and liability records and such tests of the actuarial calculations as I considered necessary."

(iii) If the appointed actuary has not examined the underlying records, but has relied upon listings and summaries of policies in force or asset records prepared by the company or a third party, the reliance paragraph shall include a statement such as either clause (A) or clause (B) as follows:

(A) "I have relied upon listings and summaries (of policies and contracts, of asset records) prepared by (name and title of company officer certifying in-force records) as certified in the attached statement. In other respects my examination included such review of the actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary."

(B) "I have relied upon (name of accounting firm) for the substantial accuracy of the in-force records inventory and information concerning other liabilities, as certified in the attached statement. In other respects my examination included review of the actuarial assumptions and actuarial methods and tests of the actuarial calculations as I considered necessary."

Such a statement of reliance shall be accompanied by a statement by each person relied upon in the form prescribed by subsection (e).

(4) The opinion paragraph shall include a statement such as follows:

“In my opinion the reserves and related actuarial items identified above:

Are computed in accordance with presently accepted actuarial standards consistently applied and are fairly stated, in accordance with sound actuarial principles;

Are based on actuarial assumptions which produce reserves at least as great as those called for in any contract provision as to reserve basis and method, and are in accordance with all other contract provisions;

Meet the requirements of the valuation law and regulations of the state of (state of domicile) and are at least as great as the minimum aggregate amounts required by the state in which this statement is filed.

Are computed on the basis of assumptions consistent with those used in computing the corresponding items in the annual statement of the preceding year-end, with any exceptions noted below;

Include provision for all reserves and related actuarial items which ought to be established.

The reserves and related actuarial items, when considered in light of the assets held by the com-

pany with respect to such reserves and related actuarial items including, but not limited to, the investment earnings on such assets, and the considerations anticipated to be received and retained under such policies and contracts, make adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual obligations and related expenses of the company.

The actuarial methods, considerations and analyses used in forming my opinion conform to the appropriate Standards of Practice as promulgated by the Actuarial Standards Board, which standards form the basis of this statement of opinion.

This opinion is updated annually as required by statute. To the best of my knowledge, there have been no material changes from the applicable date of the annual statement to the date of the rendering of this opinion which should be considered in reviewing this opinion.

General description. The statement of actuarial opinion required under § 84b.5 (relating to general requirements) must consist of the following:

(1) An opening paragraph that meets the following requirements:

- (i) Identifies the actuary's name and title.
- (ii) Identifies the insurance company employing the actuary, or if a consulting actuary, the name of the firm with which the actuary is associated.
- (iii) States that the actuary is a member of the American Academy of Actuaries (Academy) and that the actuary meets the Academy qualification standards for rendering the opinion.

(iv) States that the actuary was appointed by, or by the authority of, the board of directors of the insurer to render the opinion and is familiar with the valuation requirements applicable to life and health insurance companies.

(v) States the date of the notification letter sent to the Commissioner with respect to the appointment.

(2) A scope paragraph that meets the following requirements:

- (i) Describes the extent of the appointed actuary's work.
- (ii) Includes a tabulation that meets the following requirements:

(A) Reconciles the reserves and related actuarial items that are covered by the opinion to the annual statement of the company.

(B) Identifies the reserves and related actuarial items that have been analyzed for asset adequacy and the method of analysis.

(C) Identifies the reserves and related actuarial items that have not been analyzed for asset adequacy.

(D) Indicates, for each applicable annual statement item the formula reserves, additional actuarial reserves, analysis method, other amount, and total amount in a format consistent with the “Reserves and Liabilities” Table as adopted by the NAIC in the Actuarial Opinion and Memorandum Model Regulation No. 822.

(iii) Includes a statement that the actuary has examined the actuarial assumptions and actuarial methods used in determining reserves and related actuarial items that are included in the tabulation and reported in the annual statement of the company, as prepared for filing with state regulatory officials, as of December 31 of the relevant year.

(3) A reliance paragraph that meets the following requirements:

- (i) Documents the appointed actuary's reliance on other experts to develop certain portions of the analysis in accordance with subsection (c) and

states that the actuary has reviewed the information relied upon for reasonableness.

(ii) If the appointed actuary has examined the underlying asset and liability records, includes the following statements:

(A) The examination included a review of the actuarial assumptions and actuarial methods and of the underlying basic asset and liability records and tests of the actuarial calculations, as considered necessary by the actuary.

(B) The actuary reconciled the underlying basic asset and liability records to the applicable exhibits and schedules of the company's current annual statement.

(iii) If the appointed actuary has not examined the underlying records, but has relied upon data (for example, listings and summaries of policies in force or asset records) prepared by the company, includes the following:

(A) Documentation of the reliance in accordance with subsection (c).

(B) A statement that, in forming the opinion on specified types of reserves, the actuary relied upon data prepared by a company officer certifying in force records or other data.

(C) The name and title of the company officer certifying in force records or other data.

(D) A statement confirming that the actuary evaluated that data for reasonableness and consistency and reconciled that data to the applicable exhibits and schedules of the company's current annual statement.

(E) A statement confirming that the actuary's examination included review of the actuarial assumptions and actuarial methods used and tests of calculations, as considered necessary by the actuary.

(4) An opinion paragraph that meets the following requirements:

(i) States that the reserves and related actuarial items identified in the tabulation:

(A) Are computed in accordance with presently accepted actuarial standards consistently applied and are fairly stated, in accordance with sound actuarial principles.

(B) Are based on actuarial assumptions that produce reserves at least as great as those called for in any contract provision as to reserve basis and method, and are in accordance with other contract provisions.

(C) Meet the requirements of the valuation law and regulations of the state of [state of domicile].

(D) Are computed on the basis of assumptions consistent with those used in computing the corresponding items in the annual statement of the preceding year-end, with any changes in actuarial assumptions noted as exceptions in a separate paragraph. The adoption for new issues or new claims or other new liabilities of an actuarial assumption that differs from a corresponding assumption used for prior new issues or new claims or other new liabilities is not a change in actuarial assumption within the meaning of this clause.

(E) Provide for all reserves and related actuarial items that ought to be established.

(ii) Includes a statement substantially similar to the following, except that the statement may be omitted, at the discretion of the Commissioner, for an opinion filed on behalf of a company doing business only in this Commonwealth:

"The reserves and related actuarial items, when considered in light of the assets held by the company with respect to such reserves and related actuarial items including, but not limited to, the investment earnings on such assets, and the considerations anticipated to be received and retained under such policies and contracts, make adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual obligations and related expenses of the company."

(iii) States that the actuarial methods, considerations and analyses used in forming the actuary's opinion conform to the appropriate Standards of Practice as promulgated by the Actuarial Standards Board, which standards form the basis of this statement of opinion.

(iv) Includes one of the following items, as applicable:

(A) A statement that the opinion is updated annually as required by statute, and to the best of the actuary's knowledge, there have been no material changes from the applicable date of the annual statement to the date of the rendering of the opinion that should be considered in reviewing the opinion.

(B) A description of the material changes that occurred between the date of the statement for which the opinion is applicable and the date of the opinion that should be considered in reviewing the opinion.

(v) States that the impact of unanticipated events subsequent to the date of the opinion is beyond the scope of the opinion.

(vi) States that the asset adequacy portion of the opinion should be viewed recognizing that the company's future experience may not follow all the assumptions used in the analysis.

(vii) Includes the date and signature, address and telephone number of the appointed actuary.

(5) One or more paragraphs addressing the following items to the extent applicable:

(i) Disclosure of any qualification of the opinion.

(ii) Disclosure of any inconsistency in the method of asset allocation used at the prior opinion date with that used for the opinion.

(iii) Disclosure of any inconsistency in the method of analysis used at the prior opinion date with that used for the opinion.

(iv) Identification of the existence and extent of additional actuarial reserves released subsequent to the prior opinion date.

(v) At the option of the appointed actuary, assumptions forming the basis for the actuarial opinion.

(b) *Adverse opinions.* If the appointed actuary is unable to form an opinion, the appointed actuary shall refuse to issue a statement of actuarial opinion. If the appointed actuary's opinion is adverse or qualified, the appointed actuary shall issue an adverse or qualified actuarial opinion explicitly stating the reason for the opinion. This statement should follow the scope paragraph and precede the opinion paragraph.

(c) *Reliance on information furnished by other persons.* If the appointed actuary relies upon other persons regarding the accuracy or completeness of any data underlying the actuarial opinion or appropriateness of any other information used by the appointed actuary in forming the actuarial opinion, the actuarial opinion must:

(1) Precisely identify the items subject to reliance and the persons relied upon.

(2) Include a signed, dated certification from each person upon whom the actuary is relying that includes the following:

(i) The name, title, company, address and telephone number of the person upon whom the actuary is relying.

(ii) The items on which the person is providing information.

(iii) A statement as to the accuracy, completeness or reasonableness, as applicable, of the items.

§ 84b.9. Description of actuarial memorandum including an asset adequacy analysis and regulatory asset adequacy issues summary.

(a) *General.*

(1) In accordance with section 301 [(f)(3)](g) of the act (40 P. S. § 71 [(f)(3)](g)), the appointed actuary shall prepare a memorandum to the company describing the analysis done in support of the opinion regarding the reserves [under a § 84b.8 (relating to statement of actuarial opinion based on asset adequacy analysis) opinion]. The memorandum shall be made available for examination by the Commissioner upon the Commissioner's request but will be returned to the company after examination and will not be considered a record of the Department or subject to automatic filing with the Commissioner.

* * * * *

(4) In accordance with section 301(g) of the act, the appointed actuary shall prepare a regulatory asset adequacy issues summary, the contents of which are specified in this section. The regulatory asset adequacy issues summary shall be submitted by March 15 of the year following the year for which a statement of actuarial opinion based on asset adequacy is required. The regulatory asset adequacy issues summary shall be kept confidential to the same extent and under the same conditions as the actuarial memorandum.

(b) *Details of the memorandum section documenting asset adequacy analysis.* When an actuarial opinion [under § 84b.8] is provided, the memorandum [shall] must demonstrate that the analysis has been done in accordance with the standards for asset adequacy referred to in § 84b.5(d) and additional standards under this chapter. It [shall] must specify the following:

(1) For reserves:

* * * * *

(vi) Identification of any explicit or implied guarantees made by the general account in support of benefits provided through a separate account or under a separate account policy or contract and the methods used by the appointed actuary to provide for the guarantees in the asset adequacy analysis.

(vii) Documentation of assumptions, so that an actuary reviewing the actuarial memorandum could form a conclusion as to reasonableness, established for of the following:

- (A) Lapse rates (both base and excess).
- (B) Interest crediting rate strategy.
- (C) Mortality.
- (D) Policyholder dividend strategy.
- (E) Competitor or market interest rate.
- (F) Annuitization rates.
- (G) Commissions and expenses.
- (H) Morbidity.

(2) For assets:

* * * * *

(vi) Documentation of assumptions, so that an actuary reviewing the actuarial memorandum could form a conclusion as to reasonableness, established for the following:

- (A) Default costs.
- (B) Bond call function.
- (C) Mortgage prepayment function.
- (D) Determining market value for assets sold due to disinvestments strategy.
- (E) Determining yield on assets acquired through the investment strategy.

(3) [Analysis] For the analysis basis:

* * * * *

(v) Rationale for degree of rigor in analyzing different blocks of business including the level of materiality that was used in determining how rigorously to analyze different blocks of business.

(vi) Criteria for determining asset adequacy including the precise basis for determining if assets are adequate to cover reserves under moderately adverse conditions or other conditions as specified in relevant actuarial standards of practice.

(vii) [Effect of Federal income taxes, reinsurance and other relevant factors] Whether the impact of Federal Income Taxes was considered and the method of treating reinsurance in the asset adequacy analysis.

(4) Summary of [results] material changes in methods, procedures or assumptions from prior year's asset adequacy analysis.

(5) [Conclusion] Summary of results.

(6) Conclusions.

(c) *Details of the regulatory asset adequacy issues summary*

(1) The regulatory asset adequacy issues summary must include the following:

(i) Descriptions of the scenarios tested, including whether those scenarios are stochastic or deterministic, and the sensitivity testing done relative to those scenarios. If negative ending surplus results under certain tests in the aggregate, the actuary should describe those tests and the amount of additional reserve as of the valuation date which, if held, would eliminate the negative aggregate surplus values. Ending surplus values shall be determined by either extending the projection period until the in force and associated assets and liabilities at the end of the projection period are immaterial or by adjusting the surplus amount at the end of the projection period by an amount that appropriately estimates the value that can be reasonably be expected to arise from the assets and liabilities remaining in force.

(ii) The extent to which the appointed actuary uses assumptions in the asset adequacy analysis that are materially different than the assumptions used in the previous asset adequacy analysis.

(iii) The amount of reserves and the identity of the product lines that had been subjected to asset adequacy analysis in the prior opinion but were not subject to analysis for the current opinion.

(iv) Comments on any interim results that may be of significant concern to the appointed actuary.

(v) The methods used by the actuary to recognize the impact of reinsurance on the company's cash flows, including both assets and liabilities, under each of the scenarios tested.

(vi) Whether the actuary has been satisfied that all options whether explicit or embedded, in any asset or liability, including but not limited to those affecting cash flows embedded in fixed income securities, and equity-like features in any investments have been appropriately considered in the asset adequacy analysis.

(2) The regulatory asset adequacy issues summary must contain the name of the company for which the regulatory asset adequacy issues summary is being supplied and shall be signed and dated by the appointed actuary rendering the actuarial opinion.

(d) *Conformity to standards of practice.* The memorandum [shall] must include a statement [such as follows] substantially similar to the following:

"Actuarial methods, considerations and analyses used in the preparation of this memorandum conform to the appropriate Standards of Practice as promulgated by the Actuarial Standards Board, which standards form the basis for this memorandum."

(e) *Use of assets supporting the interest maintenance reserve and the asset valuation reserve.* An appropriate allocation of assets in the amount of the Interest Maintenance Reserve (IMR), whether positive or negative, shall be used in an asset adequacy analysis. Analysis of risks regarding asset default may include an appropriate allocation of assets supporting the Asset Valuation Reserve (AVR); these AVR assets may not be applied for other risks with respect to reserve adequacy. Analysis of these and other risks may include assets

supporting other mandatory or voluntary reserves available to the extent not used for risk analysis and reserve support. The amount of the assets supporting the IMR, AVR and other mandatory or voluntary reserves used in the analysis shall be disclosed in the table of reserves and liabilities of the opinion. The method used for selecting particular assets or allocated portions of assets shall be disclosed in the memorandum.

(f) *Documentation.* The appointed actuary shall retain on file, for at least 7 years, sufficient documentation so that it will be possible to determine the procedures followed, the analyses performed, the bases for assumptions and the results obtained.

§ 84b.10. [Additional considerations for analysis] (Reserved).

(*Editor's Note:* As part of this proposed rulemaking, the Department is proposing to rescind the text of § 84b.10 which appears in 31 Pa. Code pages 84b.22—84b.24, serial pages (229464), (266393) and (266394).)

§ 84b.11. **Insurance company disciplinary action.**

A company willfully making a false filing of an actuarial opinion or supporting memorandum with the Commissioner or failing to demonstrate a good faith effort to comply with this chapter or section 301[(f)](g) of the act (40 P. S. § 71[(f)](g)) may be subject to a civil penalty not to exceed \$50,000, following notice and a hearing.

[31 PA. CODE CH. 139]

Prohibited Phrases

The Insurance Department (Department) proposes to rescind Chapter 139 (relating to prohibited phrases). This rulemaking is proposed under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 422 and 412) and section 354 of The Insurance Company Law of 1921 (40 P. S. § 477b).

Purpose

The purpose of this rulemaking is to rescind Chapter 139 to eliminate obsolete, unnecessary regulations. Chapter 139 was adopted at 2 Pa.B. 1516 (August 11, 1972).

The chapter was adopted to prohibit the use of the phrases "legal reserve," "old line reserve" or similar phrases to describe an insurer doing business in this Commonwealth and required that the phrases be eliminated from policies or other insurance forms.

Chapter 89b (relating to approval for life insurance, accident and health insurance and property and casualty insurance filing and form) gives the Department the authority to review all policies and forms filed with the Department. The Department has not encountered any problems or issues related to Chapter 139 in any market conduct examination or enforcement action and believes the provisions of Chapter 139 are no longer necessary as they are standard practices for licensed insurance companies.

Affected Parties

The rescission of the chapter affects insurers doing the business of insurance in this Commonwealth.

Fiscal Impact

There is no fiscal impact as a result of the proposed rulemaking.

Paperwork

The proposed rulemaking will affect all licensed insurers domiciled in this Commonwealth, but no additional paperwork requirements will be imposed.

Effectiveness/Sunset Date

The rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*. Since this is a rescission, no sunset date has been assigned.

Contact Person

Questions or comments regarding the proposed rulemaking may be addressed in writing to Peter J. Salvatore, Regulatory Coordinator, Insurance Department, 1326 Strawberry Square, Harrisburg, PA 17120, within 30 days following the publication of this notice in the *Pennsylvania Bulletin*. Questions and comments may also be e-mailed to psalvatore@state.pa.us or faxed to (717) 705-3873.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (act) (71 P. S. § 745.5(a)), on April 16, 2008, the Department submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Banking and Insurance Committee and the House Insurance Committee. In addition to the submitted proposed rulemaking, the Department has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Department. A copy of that material is available to the public upon request.

Under section 5(g) of the act, if IRRC has objections to any portion of the proposed rulemaking, it will notify the Department within 10 days after the close of the Committees' review. The notification shall specify the regulatory review criteria that have not been met by that portion. The act specifies detailed procedures for the Department, the Governor and the General Assembly to review these objections before final publication of the regulations.

JOEL SCOTT ARIO,
Acting Insurance Commissioner

Fiscal Note: 11-237. No fiscal impact; (8) recommends adoption.

STATE BOARD OF EDUCATION

[22 PA. CODE CH. 42]

Program Approval

The State Board of Education (Board) proposes to amend Chapter 42 (relating to program approval) to read as set forth in Annex A. The Board is acting under the authority of section 2603-B of the Public School Code of 1949 (24 P. S. § 26-2603-B).

Purpose

The purpose of amending Chapter 42 is to update and clarify the regulations that establish requirements for the approval of certain programs offered by postsecondary degree-granting institutions in this Commonwealth. The provisions of Chapter 42 apply to specialized associate degree programs offered by a licensed trade, business, correspondence or beauty culture school; an incorporated 2-year college, college, seminary or university that lead to degrees that have not had prior approval; upper division undergraduate programs at two 2-year colleges or community colleges; and additional educational offerings of a foreign corporation approved to operate at a specific site in this Commonwealth. The Board last revised Chapter 42 in 1986.

Requirements of the Proposed Rulemaking

The proposed rulemaking establishes a waiver process for private licensed schools meeting certain criteria for the past 10 years from needing a team site visit; permits 2-year colleges, colleges, universities, seminaries and graduate degree granting institutions to request a waiver from certain aspects of the program approval application process; requires new graduate degree programs to document the academic need and workforce demand for each program or educational offering; and removes sections addressing vocational degree programs which are no longer used.

Affected Parties

The proposed rulemaking affects the students and professional employees of the degree-granting postsecondary institutions of this Commonwealth. This includes all institutions of postsecondary education, domestic or foreign, including out-of-State and out-of-country, legally authorized to award college credits or grant degrees in this Commonwealth.

Cost and Paperwork Estimates

The proposed rulemaking will clarify current requirements. It does not impose any new costs or savings for the Department of Education. The proposed rulemaking may save postsecondary institutions approximately \$41,250 annually.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Sunset Date

The Board will review the effectiveness of Chapter 42 every 4 years in accordance with the Board's policy and practice respecting all regulations promulgated by the Board. Thus, no sunset date is necessary.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (act) (71 P. S. § 745.5(a)), on April 10, 2008, the Board submitted a copy of this proposed rulemaking and a copy of the Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate Committees on Education. A copy of this material is available to the public upon request.

Under section 5(g) of the act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

(7) The accommodations and facilities of the institution, including the adequacy of the library and learning resources necessary to support all aspects of the degree and program.

* * * * *

(c) The committee shall evaluate all documentation submitted by the applicant[, conduct a site visit] (in accordance with Department guidelines) to evaluate the program, conduct a site visit if not waived under § 42.11 (relating to application), and submit a written report, with recommendations, to the Department. This report shall be submitted to the institution by the Department for [the institution's reaction] response by the institution. The committee's report and the institution's [reaction] response are the primary basis on which the Secretary makes a decision.

§ 42.13. Approval.

(a) [A program may receive initial approval, including institutional authorization to award the degree specified, for a period of 3 to 6 years during which the program is subject to periodic review by the Department.

(b) A program may receive approved status upon completion of initial approval when it has met all prescribed conditions.] An institution may be granted authority to offer the program and award the degree specified. The institution's implementation of the degree program remains subject to periodic review by the Department. The Department shall be notified immediately by the chief executive officer or [his] a designee if the school has new management or ownership. [In order to] To assure the maintenance of the quality of programs, the institution shall be subject to visitation and inspection by the Department and action, when appropriate, as specified in § 42.14 (relating to revocation of degree-granting privilege).

UPPER-DIVISION UNDERGRADUATE PROGRAM APPROVAL FOR [JUNIOR] 2-YEAR OR COMMUNITY COLLEGES

§ 42.21. Approval Criteria.

(a) A [junior] 2-year or community college may offer an upper-division program not culminating in a baccalaureate degree when approval of the Department is obtained based upon the following criteria:

* * * * *

(4) [The advice of the regional coordinating council of the region in which the junior or community college is located.

(5)] For a [junior] 2-year college, evidence of financial support for the proposed upper-division program.

[(6)] (5) For a community college, an estimate of the cost to the Commonwealth of funding the proposed upper-division program.

(b) If a [junior] 2-year college desires to grant a baccalaureate degree at the end of upper-division programs, it should [make application] apply to the

Department to become a college in accordance with [the provisions of] Chapter 40 (relating to institutional approval).

APPROVAL OF ADDITIONAL PROGRAMS NOT PREVIOUSLY APPROVED

§ 42.31. Applicability.

At a [junior] 2-year college, college, university, seminary or foreign corporation, additional programs [which] that lead to degrees and [which] that have not had prior approval, as appropriate, may be instituted only after receiving approval from the Secretary. An institution with charter status shall also comply with § 40.56 (relating to additional programs).

§ 42.32. Approval process.

* * * * *

(b) An institution having no prior approval for graduate programs and requesting approval of a program leading to a graduate degree shall also comply with §§ 42.41—[42.47] 42.45 (relating to graduate program approval procedure).

(c) [An institution having charter status shall also comply with § 40.56 (relating to additional programs).] The procedure for a request of waiver from the application process is as follows:

(1) An approved Pennsylvania 2-year college, college, university, seminary or graduate degree granting institution may request a waiver from the application process for program approval if it meets the following criteria for the 10 consecutive years just prior to the request for waiver. To be eligible, an institution shall have:

- (i) Maintained its current institutional status.
(ii) Not undergone major corporate change.
(iii) Maintained compliance with applicable statutes and regulations.
(iv) Maintained good standing with its institutional accrediting agency, if applicable.
(v) Not been under corrective action status as defined in § 31.2 (relating to definitions).

(2) A waiver may not be granted to add a new degree level, programs leading to new degrees, new broad areas of curricular content, new locations of operation within this Commonwealth for State-supported institutions or for changing institutional status.

(3) Institutions shall request the waiver in writing following the form and content described in guidelines issued by the Department and posted on the Department's web site.

(4) The Department will provide written notification to the institution regarding the status of the waiver request within 30 business days of receipt. The notification will advise the institution that its request is approved, request additional information to be submitted within 30 business days necessary for the Department to make a determination, or provide an explanation why the institution must proceed through the regular application process.

(5) Foreign corporations operating within this Commonwealth shall comply with this section to obtain approval to revise their educational offerings.

(d) Initial approval of programs, including institutional authorization to award the degree specified, is provisional. Annual reports, or more frequent reports if requested, shall be sent to the Department by the institution as requested.

(e) Following provisional approval, an institution may receive final approval for the requested programs when, in the opinion of the Secretary, it has met prescribed conditions.

(f) Programs requiring accreditation at the time of provisional approval will need the designation before the program will be recommended for final approval by the Secretary.

GRADUATE PROGRAM APPROVAL PROCEDURE

§ 42.41. Statement of philosophy and need.

An institution applying for approval to grant graduate degrees shall submit a statement of its philosophy of graduate education as part of the application. This statement [shall] must set forth the philosophy of the institution with respect to research, instruction and the goals of graduate education, including the major categories of graduate programs to be provided and the institution's provisions for affirmative action and equal educational opportunity. The statement [shall] must show the total planning of the institution for graduate instruction and [shall] must include the evaluation procedures used to determine future developments. The statement also [shall] must document how the proposed graduate instruction fulfills the educational needs of this Commonwealth and [does not duplicate education already provided in the institution's service region and this Commonwealth] must document the academic need and workforce demand for each program or educational offering.

§ 42.45. Application.

[An institution desiring approval to offer graduate programs shall, after consultation with the Department, submit an application to the Department on forms provided by the Department.] The application, evaluation and approval of graduate

programs shall follow the procedures in § 42.32 (relating to approval process). The application [may] shall be filed [not later than] by July 1 of the calendar year preceding the academic year in which the institution desires the approval.

STATEMENTS OF POLICY

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 57]

Wind Powered Projects

The Fish and Boat Commission (Commission) proposes to adopt a statement of policy in Chapter 57 (relating to statements of policy) that relates to wind power projects. Although not required to publish a proposal to adopt a statement of policy, the Commission is publishing the proposed statement of policy in this manner and is seeking public comment because of the heightened public interest in this issue. The Commission is publishing this proposal under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. *Effective Date*

The proposed statement of policy, if approved, will go into effect upon publication of an order adopting the statement of policy in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on the proposed statement of policy, contact Jason E. Oyler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposal is available electronically through the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The proposed statement of policy is published under the statutory authority of section 321 of the code (relating to administration and enforcement) that provides that the Commission administer and enforce the code and other laws of this Commonwealth regarding the protection, propagation and distribution of fish.

D. *Purpose and Background*

The development of clean, renewable energy sources is a goal supported by the Commission because it will reduce our society's dependence on the burning of fossil fuels that has been linked to local, regional and global environmental change. Recent incentives to pursue clean energy goals have caused an increase in proposed wind power projects across this Commonwealth. However, wind energy project development potentially poses significant impacts to several species under the Commission's jurisdiction and their habitats. These impacts can be either direct (such as, those landscape activities associated with project construction such as the footprint of the windmill and all support facilities) or indirect (such as, individual species or community behavioral responses to the development). The impacts may be short-term, only occurring during construction activities, or long-term, persisting for the life of the project.

Commission staff within the Bureau of Fisheries, Division of Environmental Services, presently review various permits and plans that are required by local, State and

Federal regulatory authorities for wind power project development. These permits include the Department of Environmental Protection's (Department) 25 Pa. Code Chapter 105 (relating to dam safety and waterway management) and the United States Army Corps of Engineers section 404 permits for stream or wetland encroachments; the Department's NPDES permits for stormwater releases; and County Conservation District Erosion and Sedimentation (E&S) Control permits or plans. The staff provided comments to the appropriate regulatory agencies about potential risks to jurisdictional species and their habitats and recommended ways to avoid, minimize or mitigate potential harm. This function is consistent with the Commission's "Resource First" mission. The Commission is particularly concerned with developments in high-risk watersheds that include Exceptional Value and High Quality Designated Watersheds (25 Pa. Code Chapter 93 (relating to water quality standards)) and Class A Wild Trout (58 Pa. Code § 57.8a (relating to Class A wild trout streams)) and Wilderness Trout Stream (58 Pa. Code § 57.4 (relating to wilderness trout streams)) watersheds. Recommendations by Commission staff on wind power projects conform to the Pennsylvania Municipalities Planning Code (53 P. S. §§ 10101—70105) and the Pennsylvania Model Ordinance for Wind Energy Facilities in Pennsylvania. Specific comments about rare species are consistent with the Department's *Policy for Pennsylvania Natural Diversity Inventory (PNDI) Coordination During Permit Review and Evaluation* (Document 400-0200-001). Commission staff also participate on the Governor's Pennsylvania Wind and Wildlife Collaborative.

To address wind energy project development and its potential to significantly impact species under the Commission's jurisdiction and their habitats, the Commission proposes the following statement of policy.

E. *Summary of Proposal*

The Commission proposes to adopt a statement of policy on wind power projects that provides for coordination of all agency concerns on proposed wind power projects with the appropriate local, State and Federal agencies to avoid, minimize and mitigate harmful impacts to the species under the Commission's jurisdiction, as well as, the habitat of those species. Under the proposal, Commission staff will seek the collection of adequate data to identify and quantify risks, avoid harmful impacts, avoid ecologically sensitive areas, reduce habitat fragmentation and develop mitigation strategies for unavoidable impacts.

F. *Paperwork*

As the Commission already reviews permit applications for wind development projects brought before local, State and Federal permitting agencies, the proposal will not increase paperwork and will not create new paperwork requirements.

G. *Fiscal Impact*

The proposal will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposal will impose no new costs on the private sector or the general public.

H. *Public Comments*

Interested persons are invited to submit written comments, objections or suggestions about the proposed statement of policy to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/regcomments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt. Electronic comments submitted in any other manner will not be accepted.

DOUGLAS J. AUSTEN, Ph.D.,
Executive Director

Fiscal Note: 48A-202. No fiscal impact; (8) recommends adoption.

Annex A

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart A. GENERAL PROVISIONS

CHAPTER 57. STATEMENTS OF POLICY

Subchapter A. FISHERIES POLICIES

§ 57.12. Policy on wind power projects.

It is the policy of the Commission to have its staff fully coordinate agency concerns in the review of wind power development projects with all involved local, State and Federal regulatory agencies to avoid, minimize and mitigate harmful impacts to fish, other aquatic life, reptiles, amphibians and their habitats. Commission staff will seek the collection of adequate data for risk analysis when necessary in the environmental review process, the avoidance of threatened and endangered species and their habitats, the avoidance of ecologically sensitive areas when siting projects, the reduction of habitat fragmentation, and the development of mitigation strategies for unavoidable impacts.

DEPARTMENT OF AGRICULTURE

Agricultural Product Promotion Matching Grant for 2009

The Department of Agriculture (Department) announces the application period (May 27, 2008—July 8, 2008) for grants under the Pennsylvania Agricultural Product Promotion Matching Grant Program (Program). See 7 Pa. Code Chapter 105 (relating to Pennsylvania Agricultural Product Promotion Matching Grant Program—Statement of Policy).

The Program provides matching funds to Pennsylvania nonprofit agricultural product promotion and marketing organizations for projects intended to increase consumer awareness of Pennsylvania agricultural products and thereby increase sales of these products. The application, work plan and budget should reflect January 1, 2009, as the project start date and the project completion date will be December 31, 2009.

Applications for the Program will be accepted by the Department beginning Tuesday, May 27, 2008, and continue through Tuesday, July 8, 2008. Applications must be received by 4 p.m. in the Bureau of Market Development on the closing date. Information on this Program may be obtained from Frank Jurbala, Director, Bureau of Market Development, Department of Agriculture, 2301 North Cameron Street, Room 310, Harrisburg, PA 17110-9408, or documents to apply can be accessed at www.agriculture.state.pa.us.

Vegetable Marketing and Research Program

Under the applicable provisions of 3 Pa.C.S. Chapter 45 (relating to Agricultural Commodities Marketing Act), a review referendum was held from March 10, 2008, to March 24, 2008, to determine if the producers affected by the Vegetable Marketing and Research Program wanted to continue the program for an additional 5 years. To pass, a majority of eligible producers voting had to vote in favor of the program's continuation. An impartial Teller Committee met on April 3, 2008, to count the ballots. The Teller Committee reported there were 486 eligible votes cast. Four hundred nine voted in favor of the program and 77 voted against continuation of the program. An additional five ballots were invalid because they were either unsigned, deceased or no longer farming. Votes favoring continuation of the program by number of producers represented 84.16% of eligible votes and votes against continuation of the program represented 15.84% of eligible votes. Because a majority of the votes were cast in favor of the program, the Pennsylvania Vegetable Marketing and Research Program shall continue for 5 years, effective immediately.

Individuals with Disabilities Education Act—Part B; Application for Federal Grant

To receive a grant under the Individuals with Disabilities Education Act (act), the Department of Education (Department) must submit a State Plan Assurance to the United States Department of Education (USDE) by June 30, 2008. The application assures that the Department by June 30, 2008, will adopt the Department State Plan to ensure compliance with the Individuals with Disabilities Education Act—Part B (as amended by Pub. L. No. 108-446 and Pub. L. No. 110-161). Moreover, the Department assures that throughout the period of the grant (July 1, 2008, to June 31, 2009), the Commonwealth will operate consistent with all requirements of IDEA-2004 and applicable regulations.

The IDEA-B funds, received under 34 CFR Subpart B (relating State Eligibility), will be used to render special education services and programs to children with disabilities eligible for services under the act as well as provide training and technical assistance to professional staff who render services to children with disabilities.

The Department and the State Board of Education has completed amending special education regulations in 22 Pa. Code Chapters 14 and 711 (related to special educa-

tion services and programs; and charter school services and programs for children with disabilities) are pending final adoption through the regulatory review process. The State Plan (draft) is based on the version of the State Board (for Chapter 14) and the version of the Department's (Chapter 711) proposed amendments. The Department will make, at the conclusion of the public comment period for the State Plan, any necessary revisions based upon the final rules publication in the *Pennsylvania Bulletin*.

This notice is seeking public input to the State Plan (draft). Copies of the State Plan (draft) are available by calling Nancy Zeigler at (717) 783-6134. Alternative formats of the documents (for example, Braille, large print or cassette tape) are available upon request. Public comment is welcomed in alternative formats such as Braille, taped comments and telephone comments for the disabled. Individuals who are disabled and wish to submit comments by telephone should call Nancy Zeigler at (717) 783-6134.

In addition, opportunity for public testimony is being provided by the Department. Testimony may be scheduled by calling Nancy Zeigler (8 a.m. to 4 p.m., Monday through Friday) no later than May 23, 2008. The public hearings will be conducted as follows:

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

II. Applications for New or Expanded Facility Permits, Renewal of Major Permits and EPA Nonwaived Permit Applications

Southeast Region: Water Management Program Manager, 2 East Main Street, Norristown, PA 19401.

PA0054313, SEW, SIC 8811, **Sherry Stangil and Rosalie Alosi**, 3176 Walnut Street, Springtown, PA 18081. This proposed facility is located in Springfield Township, **Bucks County**.

Description of Proposed Activity: renewal of an NPDES permit to discharge 800 gpd of treated sewage into a UNT to Cooks Creek.

The receiving stream, UNT to Cooks Creek, is in the State Water Plan Watershed 2D and is classified for: exceptional value stream. The nearest downstream public water supply intake for NWRA and PECO is located on Delaware River and is 22.5 miles below the point of discharge.

The proposed effluent limits for Outfall 001 are based on a design flow of 800 gpd.

Northcentral Region: Watershed Management Program Manager, 208 West Third Street, Williamsport, PA 17701.

PA0233544, CAFO, SIC 0213, **Joel D. Knoebel**, 182 Center School Road, Elysburg, PA 17824. This proposed facility is located in Cleveland Township, **Columbia County**.

Description of Proposed Activity: Cleveland Pork is a proposed finishing hog farm, totaling 580.24 Animal Equivalent Units. Construction will consist of a single barn with a concrete, underbarn manure storage facility.

The water body nearest the finishing hog facility is a UNT to Mugser Run in the Roaring Creek Watershed (SWP-05E) and has a designated use of HQ-CWF.

Except for the chronic or catastrophic rainfall events defined as over 25 year/24 hour rain storms, the CAFO permit is a nondischarge NPDES permit. Where applicable compliance with 40 CFR Federal effluent limitation guidelines is required. The permit requires no other numeric effluent limitations. Compliance with the Pennsylvania Nutrient Management Act and The Clean Streams Law constitutes compliance with state narrative water quality standards.

In addition to the effluent limits, the permit contains the following major special conditions.

1. Compliance with the Farm's Nutrient Management Plan.
2. Compliance with the Farm's Preparedness, Prevention and Contingency Plan.
3. Compliance with the Farm's Erosion and Sedimentation Control Plan for plowing and tilling.
4. Erosion and Sedimentation Control Plan requirements for stormwater during construction activities.
5. Animal mortality handling and disposing requirements.
6. Certification requirements for manure storage facilities.
7. Requirements for storage of feed and other raw materials.
8. Best Management Practices requirements.
9. Maintenance of a 7 inch freeboard within the manure storage facility.
10. Submission to the Department of Environmental Protection of a registered professional engineer's certification for the design and construction of the manure storage facility.

The EPA waiver will not be in effect.

PUBLIC WATER SUPPLY (PWS) PERMIT

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on a permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within the 30-day comment period will be considered in the formulation of the final determinations regarding the application. Comments should include the name, address and telephone number of the

writer and a concise statement to inform the Department of Environmental Protection (Department) of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and are available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability who require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental

Trimpi, Trimpi Associates, Inc., 1635 Old Plains Road, Pennsburg, PA 18073, Jim Bernhardt, Haly Oil Company, 2413 Yellow Springs Road, Malvern, PA 19355 on behalf of Jim Rolli, 222 West Lancaster Avenue, Ardmore, PA 19426 has submitted a Notice of Intent to Remediate. Soil at the site has been impacted with release of No. 2 fuel oil. The future use of the site is residential/commercial.

Northeast Region: Ronald S. Brezinski, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Proposed Turkey Hill Minit Market No. 289, Hazle Township, **Luzerne County**. Christopher Candela, ATC Associates, Inc., 920 Germantown Pike, Suite 200, Plymouth Meeting, PA 19462 has submitted a Notice of Intent to Remediate (on behalf of his client, Turkey Hill Minit Markets, 257 Centerville Road, Lancaster, PA 17603), concerning the remediation of groundwater found or suspected to have been impacted by lead and bis (2-ethylhexyl) phthalate. The applicant proposes to remediate the site to meet the Statewide Health Standard. Future use of the site will be nonresidential. A summary of the Notice of Intent to Remediate is expected to be published in a local newspaper serving the general area sometime in the near future.

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Columbia Gas of Pennsylvania Service Center, Gettysburg Borough, **Adams County**. ENSR, 2 Technology Park Drive, Westford, MA 01866-3140, on behalf of NiSource Corporate Services Company, 300 Frieberg Parkway, Westborough, MA 01581-3900; and Gettysburg Borough, 59 East High Street, Gettysburg, PA 17325, submitted a Notice of Intent to Remediate concerning remediation of soils and groundwater on adjacent properties that may be contaminated with PAHs. The applicant seeks to remediate the site to a combination of the Statewide Health and Background Standards.

Ronald Crosson Residence, Bratton Township, **Mifflin County**. Trimpi Associates, Inc., 1635 Old Plains Road, Pennsburg, PA 18073, on behalf of Ronald Crosson, 674 Pine Glenn Road, Lewistown, PA 17044 and State Farm, P. O. Box 172, Concordville, PA 19331, submitted a Notice of Intent to Remediate site soils contaminated with No. 2 fuel oil. The applicant seeks to remediate the site to the Residential Statewide Health Standard. The site is and will remain a residence.

Warriors Mark Fuel Tanker Release, Warriors Mark Township, **Huntingdon County**. ATC Associates, 101 Allegheny Street, Hollidaysburg, PA 16643, on behalf of Sel-Lo Oil, R. D. 2, Box 629, Altoona, PA 16601, submitted a Notice of Intent to Remediate site soils contaminated with gasoline that was released in a truck accident. The applicant intends to remediate the site to the Statewide

Health Standard, and the site will remain as a support embankment for the roadway.

Bellwood Ambulance Service Facility, Antis Township and Bellwood Borough, **Blair County**. ATC Associates, Inc., 101 Allegheny Street, Hollidaysburg, PA 16643, on behalf of Bellwood Ambulance Service, 601 North Third Street, Bellwood, PA 16617, submitted a Notice of Intent to Remediate site soils and groundwater contaminated with gasoline. The site will continue to operate as a limited medical transportation facility.

Northcentral Region: Environmental Cleanup Program Manager, 208 West Third Street, Williamsport, PA 17701.

Makdad Industrial Supply (Keystone Refrigeration), Sandy Township, **Clearfield County**, ATC Associates, Inc., 103 North Meadows Drive, Suite 215, Wexford, PA 15090 on behalf of Roger McCoy, 245 East Mountain Road, Port Matilda, PA 16870 has submitted a Notice of Intent to Remediate soil contaminated with lead and groundwater contaminated with benzene, ethylbenzene, naphthalene, 1,2,4-TMB and 1,3,5-TMB. The applicant proposes to remediate the site to meet the Site-Specific Standard. The intended future use of the property is nonresidential (commercial or industrial).

MECx—Red Rock Job Corp., Cherry Township, **Sullivan County**, Northridge Group, Inc., 1172 Ridge Road, Northumberland, PA 17857 on behalf of MECx, LLC, 1112 Presidential Drive, Quakertown, PA 18951 has submitted a Notice of Intent to Remediate soil contaminated with No. 2 heating oil. The applicant proposes to remediate the site to meet the Statewide Health Standard. The site will remain a right-of-way area.

DETERMINATION FOR APPLICABILITY FOR MUNICIPAL WASTE GENERAL PERMITS

Applications for Determination of Applicability for General Permit received. Under the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003); the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904); and Municipal Waste Regulations for a General Permit to Operate Municipal Waste Processing Facilities and/or the Beneficial Use of Municipal Waste.

Southwest Region: Regional Solid Waste Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

General Permit Application No. WMGM028SW004. Magellan LFG Monroeville, LLC, 5160 Parkstone Drive, Chantilly, VA 20151. Magellan LFG Monroeville, LLC, 602 Thomas Street Extension, Monroeville, PA 15146. Determination of Applicability application requesting coverage under existing Department of Environmental Protection's General Permit No. WMGM028 for conversion of landfill gas to high Btu pipeline quality natural gas at a municipal waste landfill in Monroeville Borough, **Allegheny County**, was received in the Regional Office on April 11, 2008.

General Permit Application No. WMGM028SW005. Magellan LFG Monroeville, LLC, 5160 Parkstone Drive, Chantilly, VA 20151. Magellan LFG Valley, LLC, 801 Raymaley Road, Harrison City, PA 15636. Determination of Applicability application requesting coverage under the existing Department of Environmental Protection's (Department) General Permit No. WMGM028 for conversion of landfill gas to high Btu pipeline quality natural gas at a municipal waste landfill in Shade Township, **Somerset County**, was received in the Regional Office on April 11, 2008.

Comments concerning the application should be directed to Carl Spadaro, Acting Facilities Manager, Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222-4745. Persons interested in obtaining more information about the general permit application may contact the Department's Southwest Regional Office at (412) 442-4000. TDD users may contact the Department through the Pennsylvania Relay Service (800) 654-5984. Public comments must be submitted within 30 days of this notice and may recommend revisions to, and approval or denial of the application.

OPERATE WASTE PROCESSING OR DISPOSAL AREA OR SITE

Application received under the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904) and Regulations to Operate Solid Waste Processing or Disposal Area or Site.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all

the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984. Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Ray Kempa, New Source Review Chief, (570) 826-2531.

58-302-008: Donald Dean & Sons, Inc. (P. O. Box 246, Montrose, PA 18801) for installation of a wood fired boiler at their facility in Bridgewater Township, **Susquehanna County.**

35-318-094: Gentex Optics, Inc. (P. O. Box 336, Carbondale, PA 18407) for installation of a new Regenerative Thermal Oxidizer to control emissions at their facility in Fell Township, **Lackawanna County.**

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

06-05066G: Exide Technologies (P. O. Box 14294, Reading, PA 19612-4294) for modification of the secondary lead smelter furnaces in Laureldale Borough/Muhlenberg Township, **Berks County.** The modification involves a

request to change the permit limits on the water flow rate through the wetted scrubbers controlling the furnaces. The furnaces are subject to 40 CFR Part 60, Subpart L, Standards of Performance for New Stationary Sources and Part 63, Subpart X, National Emission Standards for HAPs.

22-03052C: HNI Corp. (325 Mountain Road, Halifax, PA 17032) for construction of three spray booths for stove parts coating operation in Jackson Township, **Dauphin County**.

67-05115A: Recycling Technologies International, LLC (76 Acco Drive, York, PA 17404) for installation of five dust collection systems for rubber particulate collection during rubber tire reclamation at their Acco Drive facility in York Township, **York County**.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, M. Gorog and B. Hatch, Environmental Engineer Managers, (412) 442-4163/5226.

26-00573A: Johnson Matthey, Inc. (456 Devon Park Drive, Wayne, PA 19087) for installation of catalyst production facility in Smithfield Borough, **Fayette County**.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, George Monasky, New Source Review Chief, (814) 332-6940.

10-346B: Scrap Salvage and Surplus, Inc. (690A Glenwood Way, Butler, PA 16001) for installation of a baghouse to control PM emissions from torch cutting operations in Center Township, **Butler County**.

20-040E: Advanced Cast Products, Inc. (18700 Mill Street, Meadville, PA 16335) for construction of a new sand mold casting line in Vernon Township, **Crawford County**. This is a Title V facility.

25-124C: Mayer Brothers Construction Co. (1225 West 18th Street, Erie, PA 16502) for modification of an existing hot mix asphalt plant to burn No. 5 fuel oil as an alternate fuel in Erie City, **Erie County**.

25-179B: Erie Sewer Authority (68 Port Access Road, Erie, PA 16507-2202) for modification of the pressure drop range across the two scrubbers that control the incinerators in Erie City, **Erie County**. This is a Title V facility.

62-032C: Ellwood National Forge—Irvine Plant (One Front Street, Irvine, PA 16329) for installation of two new gas neutralizer emissions control devices on the existing four nitride furnaces in Brokenstraw Township, **Warren County**. This is a Title V facility.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

01-05029C: Reliant Energy Wholesale Generation, LLC (121 Champion Way, Canonsburg, PA 15317) for modifications to several conditions contained in plan approval No. 01-05029 which addresses the natural gas-fired 900 MW combined cycle electric generating facility at the Hunterstown Station in Straban Township, **Adams County**. The modifications to the existing plan approval include: deletion of the auxiliary boiler operating hour

restriction, visible emission restriction during periods of startup and shutdown, a definition of warm startup and conditions to address combustion turbine run back and startup trip events. The facility is subject to the following: 40 CFR Part 60, Subpart GG—Standards of Performance for Stationary Gas Turbines; 40 CFR Part 60, Subpart Da—Standards of Performance for Electric Utility Steam Generating Units; and 40 CFR Part 60, Subpart Dc—Standards of Performance for Small Industrial-Commercial-Institutional Steam Generating Units.

67-02004B: P. H. Glatfelter Co. (228 South Main Street, Spring Grove, PA 17362-0500) to receive comments on the proposed Reasonably Available Control Technology Plan and amendment to the State Implementation Plan (SIP) for the P. H. Glatfelter Co. in Spring Grove Borough, **York County**. The proposed SIP revision does not adopt any new regulations. It incorporates the requirements that include emission limitations for the significant VOC sources at the plant. The Department of Environmental Protection will hold one public hearing on Wednesday, May 28, 2008, at the Department of Environmental Protection, Southcentral Regional Office, 909 Elmerton Avenue, Harrisburg, PA 17110, from 9 a.m. until all scheduled comments are received. Persons wishing to present testimony should contact Brian Wetzel, Southcentral Regional Office at (717) 705-4882. Written comments may be submitted to the Southcentral Regional Office until June 11, 2008.

67-05004N: P. H. Glatfelter Co. (228 South Main Street, Spring Grove, PA 17362-0500) for replacement of two Head Air Foils with pressure type air bars on their facility's Blade Coater in Spring Grove Borough, **York County**. VOC emissions are expected to increase by 1.27 tpy. The plan approval will include monitoring, recordkeeping, reporting and work practice standards designed to keep the facility operating within all applicable air quality requirements.

67-05115A: Recycling Technologies International, LLC (76 Acco Drive, York, PA 17404) for construction of a new processing facility to recycle rubber tires controlled by five dust collection systems for rubber particulate collection during rubber tire reclamation in York Township, **York County**. The facility's potential annual emissions for PM are estimated to be 43.2 tpy. The plan approval will contain monitoring, testing, recordkeeping, reporting and work practice conditions to ensure the facility complies with the applicable air quality requirements.

Public Hearings

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

Intent to Issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter F.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19428, Janine Tulloch-Reid, Facilities Permitting Chief, (484) 250-5920.

23-00046: Container Research Corp. (Hollow Hill Road, Glen Riddle, PA 19037) for operation of one boiler unit and two paint spray booths in Aston Township, Delaware County. The main emissions from this facility are VOCs. This action is a renewal of the original State-only Operating Permit (Synthetic Minor), which was issued in September, 2002. The renewal contains conditions including monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, David Aldenderfer, Program Manager, (570) 327-3637.

55-00017: Modular Structures of PA, Inc. (P. O. Box 407, Selinsgrove, PA 17870) for the operation of a modular home manufacturing facility in Monroe Township, Snyder County.

The facility incorporates various modular home manufacturing operations, including a framing operation, a plumbing operation, an interior finishing operation and an exterior finishing operation, as well as two spray booths, a 1.76 mmBtu/hr propane-fired heater, a .45 mmBtu/hr wood-fired heater and 13 small natural gas-fired space heaters (with a total combined heat input of 1.675 mmBtu/hr). The PM emissions from the spray booths are controlled by spray booth filters.

The facility has the potential to emit up to 25 tons of VOCs, 5.17 tons of VHAPs, 2.41 tons of NO_x, 1.95 tons of CO, .71 ton of PM/PM₁₀ and .05 ton of SO_x per year.

The Department of Environmental Protection (Department) proposes to incorporate into the operating permit to be issued conditions requiring compliance with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants as well as conditions previously contained in Operating Permits 55-399-004 and 55-399-004A.

The conditions previously contained in Operating Permit 55-399-004 include:

1. Conditions limiting the VOC emissions from the facility to no more than 25 tpy and requiring the maintenance of records of the identity, quantity and VOC content of the VOC-containing materials used in the facility.

The conditions previously contained in Operating Permit 55-399-004A include:

2. A condition limiting the VOC emissions from the facility's two spray booths to no more than 6.0 tpy.

3. A condition limiting the VOC content of all stains applied in the spray booths to no greater than 6.8 pounds per gallon.

4. A condition requiring all stains applied in the two spray booths to be applied by brush, roller or wiping cloth and all other coating or finishing materials to be applied with a high volume low pressure spray system.

5. A condition prohibiting the use in the spray booths of any materials containing methylene chloride, 1,1,1-trichloroethane or greater than .5% formaldehyde, by weight.

6. A condition prohibiting the application of coating or finishing materials in a spray booth which is not equipped with a full set of spray booth filters.

7. Conditions requiring all solvents used for spray line cleaning to be flushed into a closed container, requiring all containers of cleanup solvent to be closed except when in actual use and prohibiting the disposal of waste cleanup solvents by means of evaporation.

8. A condition requiring the maintenance, and periodic reporting, of records of the identity, quantity and VOC content of all voc-containing materials used in the spray booths.

The Department additionally proposes to incorporate the following new condition into the operating permit to be issued:

9. A condition requiring the semi-annual submission of reports of the identity, quantity and VOC content of all VOC-containing materials used in the facility each month.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based

effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person

submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

Coal Applications Received

Effluent Limits—The following coal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

and WWF. There are no potable water supply intakes within 10 miles downstream. Application received March 21, 2008.

Knox District Mining Office: P. O. Box 669, 310 Best Avenue, Knox, PA 16232-0669, (814) 797-1191.

16920107 and NPDES Permit No. PA0211435. RFI Energy, Inc. (P. O. Box 162, Sligo, PA 16255). Renewal of an existing bituminous surface strip, tippel refuse disposal and beneficial use of coal ash operation in Perry Township, **Clarion County** affecting 274.0 acres. Receiving streams: UNTs to Cherry Run, classified for the following use: CWF. There are no potable surface water supply intakes 10 miles downstream. Application for reclamation only. Application received April 4, 2008.

Moshannon District Mining Office: 186 Enterprise Drive, Philipsburg, PA 16866, (814) 342-8200.

17080104 and NPDES No. PA0256757. P & N Coal Company, Inc. (P. O. Box 332, Punxsutawney, PA 15767). Commencement, operation and restoration of a bituminous coal surface mine, including auger and mining, in Ferguson Township, **Clearfield County**, affecting 234.0 acres. Receiving stream: Snyder Run, classified for the following use: CWF. There are no potable water supply intakes within 10 miles downstream. The application includes a stream encroachment to mine through and restore UNTs to Snyder Run and conduct mining activities within 100 feet of Snyder Run. Application received March 11, 2008.

17990111 and NPDES No. PA0238341. Larry D. Baumgardner Coal Company, Inc. (P. O. Box 186, Lanse, PA 16849), revision of an existing bituminous surface mine for an Insignificant Permit Boundary Correction in Decatur Township, **Clearfield County**, affecting 109.2 acres. 53070802. Jeremy Tucker (102 Card Creek Road, Roulette, PA 16746). Commencement, operation and restoration of a bluestone operation in Roulette Township, **Potter County**, affecting 5.0 acres. Receiving streams: Laninger Creek, tributary to Allegheny River. Application received July 13, 2007. Application returned March 19, 2008.

Noncoal Applications Received

Effluent Limits—The following noncoal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

(2000 Highway 35, Morgan, NJ 08879), renewal of NPDES Permit for discharge of treated mine drainage from a quarry operation in Tobyhanna Township, **Monroe County**, receiving stream: UNT to Lehigh River, classified for the following use: HQ-CWF. Application received April 8, 2008.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions

of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401(a) of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, 2 East Main Street, Norristown, PA 19401.

E46-1025. Weis Markets Inc., 1000 South 2nd Street, P. O. Box 471, Sunbury, PA 17801, Douglass Township, **Montgomery County**, ACOE Philadelphia District.

To construct and maintain a super market which will include the realignment of a water course segment of an UNT to Swamp Creek (TSF) by:

1. Filling 30 feet of the UNT and relocating 40 feet of the UNT.
2. Stabilizing and regarding 160 feet of the UNT to Swamp Creek.

This project is located approximately 250 feet southeast of the intersection of Route 100d and SR 63 (Sassamansville, PA USGS Quadrangle N: 14.2 inches; W: 0.2 inch) in Douglas Township, Montgomery County.

Northeast Region: Watershed Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

E54-333. Steven Macbeth, 108 Berger Lane, Hamburg, PA 19526, in Port Clinton Borough, **Schuylkill County**, United States Army Corps of Engineers, Philadelphia District.

To construct and to maintain a steel foot bridge having a span of 29 feet and an underclearance of 7.5 feet across Rattling Run Creek (CWF). The project is located 0.2 mile west and 0.6 mile south of the intersection of SR 0061 and Clinton Street (Auburn, PA Quadrangle N: 14.78 inches; W: 3.43 inches).

E40-687. Randall and Robin Mark, 251 Machell Avenue, Dallas, PA 18612, in Harveys Lake Borough, **Luzerne County**, United States Army Corps of Engineers, Baltimore District.

To construct and maintain a 430 sq. ft. addition to an existing 1,000 sq. ft. boat dock including a 476 sq. ft. boathouse on the existing dock in Harveys Lake (HQ-CWF). The project is located 2.0 mile west and 0.9 mile north of the intersection of SR 0118 and SR 0415 (Harveys Lake, PA Quadrangle N: 19.25 inches; W: 4.50 inches).

E35-417. Department of Transportation, Engineering District 4-0, 55 Keystone Industrial Park, Dunmore, PA 18512, in Roaring Brook Township, **Lackawanna County**, United States Army Corps of Engineers Baltimore District.

To construct and maintain a 275 foot long 42 inch diameter corrugated stream enclosure in a tributary to Roaring Brook (CWF). The project is located at SR 0084, Segment 0024, Offset 1911 (Olyphant, PA Quadrangle N: 1.9 inches; W: 11.1 inches).

Southcentral Region: Watershed Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

E01-281. R & J Builders, Inc., Gary Jackson, 50 Citizens Way, Suite 200, Frederick, MD 21701, Cumberland Township, **Adams County**, ACOE Baltimore District.

To fill in 0.06 acre of a de minimis wetland in order to construct a home located along the north side of Fairfield and Fairplay Roads (Fairfield, PA Quadrangle N: 13.5 inches; W: 2.75 inches, Latitude: 39° 49' 28"; Longitude: 77° 16' 11") in Cumberland Township, Adams County.

E06-635: Westrum Land Development, Joe Benyo, 370 Commerce Drive, Suite 100, Fort Washington, PA 19034-2619, Ruscombmanor Township, **Berks County**, ACOE Philadelphia District

To construct and maintain an 18.0-inch diameter RCP outfall structure impacting 0.003 acre of wetlands. Also to remove dual 64.0 foot long, 24.0-inch diameter RCP stormwater culverts and to install and maintain a 24.3 foot long, 36.0-inch RCP pipe, impacting 0.005 acre of wetlands, and to remove a 44.0-foot long, 18.0-inch, RCP, and to replace it with a 62.1 foot long, 15.0-inch RCP, impacting 0.021 acre of wetlands, both for the purpose of conveying stormwater across Erhardt Lane. In addition, the existing Erhardt Lane will be widened, impacting an area of 0.008 acre of wetlands, and another area of 0.011 acre of wetlands. The proposed project will impact a total of 0.048 acre of PFO EV wetlands associated with an UNT to Furnace Creek (CWF) for the purpose of constructing an age-qualified, active adult residential community located off of SR 662 (Fleetwood, PA Quadrangle N: 8.00 inch; W: 9.75 inches, Latitude: 40° 25' 03" N; Longitude: 79° 49' 12" W) in Ruscombmanor Township, Berks County.

E36-837: Mitch Newman, D. R. Horton Inc., 700 East Gate Drive, Suite 110, Mt. Laurel, NJ 08054-3810, East Hempfield Township, **Lancaster County**, ACOE Baltimore District.

To construct and maintain a 36.0-foot wide three span bridge having a normal span of 36.0 feet, and an underclearance of 8.0 feet, and two 6.0-foot wide pedestrian ford crossings, each having a length of 36.0 feet, all impacting Millers Run (CWF) for the purpose of constructing a residential subdivision near the intersection of SR 741 and McGovernville Road (Lancaster, PA Quadrangle N: 12.7 inches; W: 16.0 inches, Latitude 40° 04' 10"; Longitude 76° 31' 50") in East Hempfield Township, Lancaster County.

Southwest Region: Watershed Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

E65-922. Blue Mountain Homes LMB, Inc., P. O. Box 488, Greensburg, PA 15601. To restore a previously relocated tributary to Jack's Run (WWF) in Hempfield Township, **Westmoreland County**, Pittsburgh ACOE District (Greensburg, PA Quadrangle N: 12.7 inches; W: 4.60 inches, Latitude 40° 19' 11"; Longitude 79° 31' 59"). The applicant proposes to restore in a different location approximately 50' of a previously relocated tributary to Jack's Run (WWF). The project is located approximately 25' north of Caddy Drive and 390' west of Essex Drive.

Northwest Region: Watershed Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

E25-719, Gary T. Brotherson, 1801 West 8th Street, Erie, PA 16505. Groin structures, concrete ramps, sea wall, fill material and floodway activity, in Millcreek Township, **Erie County**. ACOE Pittsburgh District (Swanville, PA Quadrangle N 42° 6' 17.8"; W 80° 10' 2.3").

The applicant proposes to construct and maintain seven low-profile groin structures, at elevation below (lakeward of) the Ordinary High Water Mark (OHWM), on the following properties: Gary T. Brotherson properties (Tax ID Numbers 33-6-19-117, identified as the location of Proposed Groin 1; Tax ID 33-6-19-116, designated as Lot 4, identified as the location of Proposed Groin 2; Tax ID 33-6-19-110, designated as Lot 9, identified as the location of Proposed Groin 3; Tax ID 33-6-19-107, designated as

Lot 13, identified as the location of Proposed Groin 4; Tax ID 33-6-19-114, designated as Lot 20, identified as the location of Proposed Groin 5), located at the Forest Park Beach Subdivision in Millcreek Township; Janet Haggerty property (Tax ID Number 33-6-19-97.01, designated as Lot 23, identified as the location of Proposed Groin 6), located at the Forest Park Beach Subdivision in Millcreek Township; and, John Gerbracht property (Tax ID Number 33-6-19 designated as Lot 27, identified as the location of Proposed Groin 7), located at the Forest Park Beach Subdivision in Millcreek Township. The groins would be constructed of 2 foot by 2 foot by 6 foot (2' by 2' by 6') concrete blocks, pinned to the shale bedrock.

In addition, the applicant proposes to construct and place eight concrete ramps, 12 feet by 18 feet (12' by 18') each, on the east and west sides of the landward ends of Proposed Groins 1—4, located partially or entirely lakeward of the OHWM. Ramps are proposed to be constructed on properties owned by Gary T. Brotherson (Tax ID Numbers 33-7-19-144.19 and 33-6-19-117 for ramps associated with Proposed Groin 1; Lot 3—5, for ramps associated with Proposed Groin 2; Lot 8 and Lot 9, for ramps associated with Proposed Groin 3; and, Lot 12 and 13, for ramps associated with Proposed Groin 4).

The applicant further proposes the construction and placement of a concrete seawall, the portion of which is located lakeward of the OHWM, to be attached to the landward end of Proposed Groins 1—4, and the 12' by 18' concrete ramps. The portion of this seawall located lakeward of the OHWM, would extend a lateral distance along the Lake Erie shoreline of 205 feet, from an area near Proposed Groin 2 on the east side, westerly past Proposed Groin 3, and terminate at a location west of Proposed Groin 4. A proposed concrete stairway is also located on the Proposed Groin 4/seawall/ramp interface. The portion of the seawall located lakeward of the OHWM will intersect with property owned by Gary T. Brotherson (Lot 5) on the east, westward onto property owned by Angelo Arduini (Tax ID Number 33-6-19-113, designated as Lot 6 and Lot 7) and then further west across properties owned by Gary T. Brotherson (Lot 8—13).

The applicant also proposes to construct a portion of three foundation structures, lakeward of the OHWM, on Lots designated as Lot 8—13. This construction will include the placement of 2,250 square feet of fill in this area, which is approximately 830 cubic yards of clean fill, landward of the proposed seawall, but lakeward of the OHWM, for a lateral distance along the Lake Erie shoreline of 205 feet.

Proposed Groin 1 would extend into Lake Erie a distance not to exceed 45 feet from the OHWM, to the Ordinary Low Water Mark (OLWM), but not lakeward of that elevation. A portion of the west ramp at Proposed

Groin 1 would also be located lakeward of the OHWM a distance of 2 feet. Proposed Groin 2 would extend into Lake Erie a distance not to exceed 37 feet from the OHWM, to the OLWM, but not lakeward of that elevation. A portion of the east and west ramps at Proposed Groin 2 would also be located lakeward of the OHWM a distance of 4 feet and 12 feet, respectively. Proposed Groin 3 would extend 55 feet from the OHWM, to the OLWM, but not lakeward of that elevation. Both east and west ramps at Proposed Groin 3 would be located lakeward of the OHWM. Proposed Groin 4 would extend 64 feet from the OHWM, to the OLWM, but not lakeward of that elevation. Both east and west ramps would be located lakeward of the OHWM. The total area of disturbance in this area, between Proposed Groin 1 to Proposed Groin 4, lakeward of the OHWM, including the placement of groins, ramps, steps, fill, and foundations, would be 4,970 square feet.

Proposed Groin 5 would extend lakeward 57 feet from the OHWM, to an elevation landward of the OLWM. Proposed Groin 6 would extend lakeward 32 feet from the OHWM, to an elevation landward of the OLWM. Proposed Groin 7 would extend lakeward 14 feet, 6 inches from the OHWM, to an elevation landward of the OLWM. The total area of disturbance in this area, between Proposed Groin 5 to Proposed Groin 7, would be 770 square feet. All groins are proposed to be no higher than 18 inches above the Lake Erie nearshore bottom profile.

The project also involves to remove the existing bridge, and to construct and maintain a bridge over Marshall Run with a clear span of 20 feet and an underclearance of approximately 5.8 feet and to construct and maintain a retaining wall with fill with the floodway of Marshall Run, and to construct and maintain utility line crossings of Marshall Run. Marshall Run is a perennial stream classified as a CWF and MF.

ENVIRONMENTAL ASSESSMENT

*Cambria District: Environmental Program Manager,
286 Industrial Park Road, Ebensburg, PA 15931-4119.*

EA0409-002. Department of Environmental Protection, Bureau of Abandoned Mine Reclamation, Cambria Office, 286 Industrial Park Road, Ebensburg, PA 15931. Abandoned Mine Land Reclamation Project, in South Beaver Township, **Beaver County,** Pittsburgh ACOE District.

The applicant proposes to backfill an abandoned surface mine, which includes a total of 2,600 linear feet of dangerous highwall. The project will include the backfilling of 0.274 acre of PEM wetland and 1.70 acres of open water that have developed within the open surface mine pit. Proposed mitigation includes 0.444 acre of wetland and 0.500 acre of open water (New Galilee Quadrangle N: 1.5 inches; W: 16.0 inches).

ACTIONS

**THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT
FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE
ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY
MANAGEMENT (WQM) PERMITS**

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Southeast Region: Environmental Cleanup Program Manager, 2 East Main Street, Norristown, PA 19401.

Pier 60, City of Philadelphia, Philadelphia County. Bill Schmidt, P. E., Pennoni Associates, Inc., 300 Market Street, 2nd Floor, Philadelphia, PA 19104 on behalf of James L. Dougherty, Philadelphia Entertainment Development Partner, 39 Norwich-Westerly Road, Mashanutket, CT 06338 has submitted a Final Report concerning remediation of site soil and groundwater contaminated with PAH's, lead and arsenic. The report is intended to document remediation of the site to meet the Site-Specific Standard.

Tompson Residence, Borough of Bristol, Bucks County. Richard Trimpi, Trimpi Associates, Inc., 1635 Old Plains Road, Pennsburg, PA 18073 on behalf of Anthony Tompson, 232 Franklin Street, Bristol, PA 19007 has submitted a Final Report concerning remediation of

site soil contaminated with petroleum. The report is intended to document remediation of the site to meet the Statewide Health Standard.

Wawa Convenience Store, Towamencin Township County. Keith D'Ambrosio, Whitestone Associates, Inc., 1600 Manor Drive, Suite 220, Chalfont, PA 18914 on behalf of Matthew Winter, Wawa, Inc., 260 Baltimore Pike, Wawa, PA 19063 has submitted a Final Report concerning remediation of site groundwater contaminated with MTBE. The report is intended to document remediation of the site to meet the Site-Specific Standard.

Warrington Shop Center, Warrington Township, Bucks County. Thomas Jones, Penn Environmental & Remediation, Inc., 2755 Bergey Road, Hatfield, PA 19440 on behalf of Joan D'Agostino, Juniper Warrington Associates, 624 Harpers Lane, Huntington Valley, PA 19006 has submitted a Final Report concerning remediation of site soil and groundwater contaminated with chlorinate solvents. The report is intended to document remediation of the site to meet the Statewide Health Standard.

Northeast Region: Ronald S. Brezinski, Regional Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Endless Mountain Health Systems, Montrose Borough, Susquehanna County. Karl Pfizenmayer, Storb Environmental, Inc., 410 North Easton Road, Willow Grove, PA 19090 has submitted a Final Report (on behalf of his client, Endless Mountain Health Systems, 3 Grow Avenue, Montrose, PA 18801), concerning the remediation of soils and groundwater found to have been impacted by No. 2 fuel oil as a result of a storage tank incident. The report was submitted to document attainment of the Statewide Health Standard for both soils and groundwater.

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Former SKF USA, Inc. Facility, City of Altoona, Blair County. Environmental Standards, Inc., 1140 Valley Forge Road, Valley Forge, PA 19482-0810, on behalf of SKF USA, Inc., 1111 Adams Avenue, Norristown, PA 19403-2403 and 800 Logan Boulevard, LP, P. O. Box 2566, Altoona, PA 16603, submitted a combined remedial investigation, risk assessment and Final Report concerning remediation of site groundwater impacted by petroleum hydrocarbons and chlorinated solvents from both onsite and offsite sources. The report is intended to document remediation of the site to the Site-Specific Standard and is enrolled in the One Cleanup Program between DEP and EPA.

Ronald Crosson Residence, Bratton Township, Mifflin County. Trimpi Associates, Inc., 1635 Old Plains Road, Pennsburg, PA 18073, on behalf of Ronald Crosson, 674 Pine Glenn Road, Lewistown, PA 17044 and State Farm, P. O. Box 172, Concordville, PA 19331, submitted a final report concerning remediation of site soils contaminated with No. 2 fuel oil. The report is intended to document remediation of the site to the Residential Statewide Health Standard.

Schoppert Residence, Fairview Township, York County. Environmental Standards, 1140 Valley Forge Road, Valley Forge, PA 19482, on behalf of Michelle Schoppert, 727 Old Quaker Road, Lewisberry, PA 17339 and Lewis Environmental Group, 155 Railroad Plaza, Royersford, PA 19468, submitted a final report concerning remediation of site soils contaminated with No. 2 fuel oil

released from an aboveground storage tank. The report is intended to document remediation of the site to the Statewide Health Standard.

Conestoga Wood Specialties, East Earl Township, Lancaster County. Hafer Environmental Services, Inc., P. O. Box 4418, Reading, PA 19606, on behalf of Conestoga Wood Specialties, 245 Reading Road, Earl, PA 17519, submitted a remedial investigation report concerning remediation of site soils and groundwater contaminated with No. 2 fuel oil. The applicant is seeking to remediate the site to a combination of Statewide Health and Site-Specific Standards.

Northcentral Region: Environmental Cleanup Program Manager, 208 West Third Street, Williamsport, PA 17701

MECx—Red Rock Job Corp., Cherry Township, Sullivan County, Northridge Group, Inc., 1172 Ridge Road, Northumberland, PA 17857 on behalf of MECx, LLC, 1112 Presidential Drive, Quakertown, PA 18951 has submitted a Final Report within 90 days of the release concerning remediation of site soil contaminated with No. 2 heating oil. The report is intended to document remediation of the site to meet the Statewide Health Standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamina-

tion, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Southeast Region: Environmental Cleanup Program Manager, 2 East Main Street, Norristown, PA 19401.

Harvey Gray, Inc., Upper Makefield Township, **Bucks County**. Tarek Selim, Penn E & R, 2755 Bergey Road, Hatfield, PA 19440, Tom Imperato, Toll Brothers, Inc., 250 Gibraltar Road, Horsham, PA 19044 on behalf of Harvey Gray, Harvey Gray, Inc., 1708 Fite Ter, Langhorne, PA 19047 has submitted a Final Report concerning the remediation of site groundwater and soil contaminated with PAH's. The Final Report demonstrated attainment of the Statewide Health Standard and was approved by the Department of Environmental Protection on April 2, 2008.

142 Pennsylvania Avenue Site, Lower Merion Township, **Montgomery County**. Michael Gonshor, Roux Associates, Inc., 1222 Forest Parkway, Suite 190, West Deptford, NJ 08066 on behalf of Joann Magnatta, Main Line Health Real Estate, LP, 937 Haverford Road, Bryn Mawr, 19010 has submitted a Final Report concerning the remediation of site soil contaminated with No. 2 fuel oil. The Final Report demonstrated attainment of the Statewide Health Standard and was approved by the Department of Environmental Protection on March 24, 2008.

Northeast Region: Ronald S. Brezinski, Regional Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Synthetic Thread Facility, City of Bethlehem, **Lehigh County**. Thomas Martinelli, JMT Environmental Technologies, Inc., P. O. Box 22044, Lehigh Valley, PA 18002-2044 submitted a Final Report (on behalf of his client, Alan France, 903 Chestnut Street, Emmaus, PA 18049), concerning the remediation of site soils found to have been impacted by petroleum related compounds as the result of releases from three underground storage tanks containing No. 2 heating oil. The report demonstrated attainment of the Statewide Health Standard for soils and was approved on April 15, 2008.

OPERATE WASTE PROCESSING OR DISPOSAL AREA OR SITE

Permit Issued under the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904) and Regulations to Operate Solid Waste Processing or Disposal Area or Site.

Southeast Region: Regional Solid Waste Manager, 2 East Main Street, Norristown, PA 19401.

Permit No. 101680. Waste Management Disposal Service of Pennsylvania, Inc., 1000 New Ford Mill Road, Morrisville, PA 19067, the GROWS North Landfill, located in Falls Township, **Bucks County**. This amended waste management permit is for the following: adding the Echo Point Sand and Gravel Facility as an offsite borrow area; relocating and redesigning the public convenience center and, modifying the Radiation Protection Action Plan by relocating the isolation staging area. The latter two are covered under the Waste Management Disposal Services of Pennsylvania, Inc.'s GROWS Landfill permit and utilized jointly with Waste Management Disposal Services of Pennsylvania, Inc.'s GROWS Landfill and Waste Management of Pennsylvania, Inc.'s Tullytown Resource Recovery Facility Landfill. The permit was issued by the Southeast Regional Office on April 7, 2008.

Permit No. 100148. Waste Management Disposal Service of Pennsylvania, Inc., 1000 New Ford Mill Road, Morrisville, PA 19067, the GROWS Landfill, located in Falls Township, **Bucks County**. This amended waste management permit is for the following: adding the Echo Point Sand and Gravel Facility as an offsite borrow area; relocating and redesigning the public convenience center and, modifying the Radiation Protection Action Plan by relocating the isolation staging area. The latter two are covered under the Waste Management Disposal Services of Pennsylvania, Inc.'s GROWS Landfill permit and utilized jointly with Waste Management Disposal Services of Pennsylvania, Inc.'s GROWS North Landfill and Waste Management of Pennsylvania, Inc.'s Tullytown Resource Recovery Facility Landfill. The permit was issued by the Southeast Regional Office on April 7, 2008.

Permit No. 101494. Waste Management of Pennsylvania, Inc., 1000 New Ford Mill Road, Morrisville, PA 19067, the Tullytown Resource Recovery Facility Landfill, located in Falls Township and Tullytown Borough, **Bucks County**. This amended waste management permit is for the following: adding the Echo Point Sand and Gravel Facility as an off-site borrow area; relocating and redesigning the public convenience center and, modifying the Radiation Protection Action Plan by relocating the isolation staging area. The latter two are covered under the Waste Management Disposal Services of Pennsylvania, Inc.'s GROWS Landfill permit and utilized jointly with Waste Management Disposal Services of Pennsylvania, Inc.'s GROWS Landfill and GROWS North Landfill. The permit was issued by the Southeast Regional Office on April 7, 2008.

Permit No. 101494. Waste Management of Pennsylvania, Inc., 1000 New Ford Mill Road, Morrisville, PA 19067. This permit modification is for the relocation of portions of existing utilities (including leachate force main, condensate drain pipe and gas pipeline) and construction of a service road at the Tullytown Resource Recovery Facility located in Falls Township and the Borough of Tullytown, **Bucks County**. The permit modification was issued by the Southeast Regional Office on April 7, 2008.

HAZARDOUS WASTE TREATMENT, STORAGE AND DISPOSAL FACILITIES

Permits issued, suspended, expired, denied, revoked, reinstated or returned under the Solid Waste Management Act of July 7, 1980 (P. L. 380, No. 97) (35 P. S. §§ 6018.101—6018.1003) and Regulations to Operate a Hazardous Waste Treatment, Storage or Disposal Facility.

Southcentral Region: Regional Solid Waste Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4706.

PAR000514182. National Standard, LLC, 1631 Lake Street, Niles, MI 49120. Post Closure Permit issued on April 25, 2008 for National Standard, LLC's Mount Joy Site, located at 1000 East Main Street, Mount Joy, PA 17552, Mount Joy Borough, **Lancaster County**.

AIR QUALITY

General Plan Approval and Operating Permit Usage Authorized under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127 to construct, modify, reactivate or operate air contamination sources and associated air cleaning devices.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Sachin Shankar, New Source Review Chief, (484) 250-5920.

09-310-079GP: KPK Development Co. (1082 Temperance Lane, Richboro, PA 18954) on April 11, 2008, to operate a portable nonmetallic mineral processing plant in Falls Township, **Bucks County**.

09-329-009GP: KPK Development Co. (1082 Temperance Lane, Richboro, PA 18954) on April 11, 2008, to operate a diesel or No. 2 fuel-fired IC engines in Falls Township, **Bucks County**.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Ray Kempa, New Source Review Chief, (570) 826-2531.

64-310-021GP3: E. R. Linde Construction (9 Collan Park, Honesdale, PA 18431) on April 14, 2008, to construct and operate a Portable Crushing Operation with watersprays at their site in Palmyra Township, **Wayne County**.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

GP3-67-03124C: Kinsley Construction, Inc. (P. O. Box 2886, York, PA 17405-2886) on April 10, 2008, for Portable Nonmetallic Mineral Processing Plants under GP3 in East Manchester Township, **York County**.

GP9-67-03124C: Kinsley Construction, Inc. (P. O. Box 2886, York, PA 17405-2886) on April 10, 2008, for Diesel or No. 2 Fuel-fired Internal Combustion Engines under GP9 in East Manchester Township, **York County**.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, Mark Gorog and Barb Hatch, Environmental Engineer Managers, (412) 442-4163/5226.

GP5-26-00572: Texas Keystone, Inc. (560 Epsilon Drive, Pittsburgh, PA 15238-2837) general permit (GP-5) is effective April 4, 2008, to allow for the operation of a natural gas compressor site. The facility is located in Wharton Township, **Fayette County**. Authorization to operate under this GP will expire on April 4, 2013.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, George Monasky, New Source Review Chief, (814) 332-6940.

GP-25-996A: Advanced Finishing USA (7410 Klier Drive East, Fairview, PA 16415) on April 8, 2008, for two burnoff ovens (BAQ-GPA/GP-4) in Fairview Township, **Erie County**.

Plan Approvals Issued under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and regulations in 25 Pa. Code Chapter 127, Subchapter B relating to construction, modification and reactivation of air contamination sources and associated air cleaning devices.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Sachin Shankar, New Source Review Chief, (484) 250-5920.

46-0041E: Bluegrass Folding Carton Company, LLC (1035 Longford Road, Phoenixville, PA 19460) on April 10, 2008, to install a new offset lithographic press in its Oaks Plant at 1035 Longford Road, Upper Providence Township, **Montgomery County**. This plan approval will authorize the construction of the press and the transfer and use of VOC emission reduction credits. The press is described in the Applicant's application of December 12, 2007.

Based on the information provided by the Applicant and Department of Environmental Protection's (Department) own analysis, the installation of the press has a potential to emit 12.5 tpy of VOCs. Due to this proposed installation, there is a net increase of 36.26 tons of VOC emissions at this facility calculated for a 10-year period in accordance with 25 Pa. Code § 127.203(a)(2).

Copies of the application, the Department's analyses and other documents used in evaluation of the application are available for public inspection during normal business hours at the address to follow.

To assure compliance with the applicable standards, the Department will place the following conditions on the plan approval:

This Plan Approval is issued to the permittee for the installation of a sheetfed, nonheatset, offset lithographic print press, No. 3 Press.

25 Pa. Code § 127.208—ERC Use and Transfer Requirements

The permittee shall use 47.14 tons from 107.5 tons VOC ERC, generated in 2005 from permanent shut down of its North Wales Plant, to offset the net VOC emission increase of 36.26 tons. Any remaining ERC will expire on June 1, 2015, unless used in accordance with 25 Pa. Code § 127.208.

25 Pa. Code § 27.210—Offset Ratios

The permittee shall provide VOC ERC at a 1.3:1.0 ratio to offset the VOC net emissions increase of 36.26 tons as per 25 Pa. Code §§ 127.203(b)(1)(ii), 127.205(3) and 127.210.

25 Pa. Code § 127.25—Compliance Requirement

The No. 3 Press shall be installed, maintained and operated in accordance with the plans submitted with the application and as approved herein.

25 Pa. Code § 127.12b—Plan Approval Terms and Conditions

Emission Restrictions

1. The total VOC from No. 3 Press shall not exceed 12.5 tpy in a 12-month rolling sum.

2. The permittee shall meet one of the following requirements for the fountain solution used on the press:

a. Maintain the as applied VOC content of the fountain solution at or below 5.0% by weight, or

b. Maintain the as applied VOC content of the fountain solution at or below 8.5% by weight and refrigerate the fountain solution to 60° F or less, or

c. Maintain the as applied VOC content of the fountain solution at or below 10.0% by weight and refrigerate the fountain solution to 55° F or less.

3. The permittee shall meet one of the following requirements for blanket and roller cleaning solutions used on the press:

a. VOC content, as applied, is less than or equal to 30% by weight; or

b. VOC composite partial vapor pressure, as used, is less than or equal to 10mmHg at 68° F.

4. Except specialty inks, the VOC content in the inks, as applied, shall not exceed 30% by weight.

Testing Requirements

1. The permittee shall determine the VOC content of fountain solution by one of the following procedures:

a. Analysis by USEPA Method 24 of a fountain solution sample, or

b. Calculation which combines USEPA Method 24 analytical VOC content data for the concentrated materials used to prepare the press ready fountain solution and records of the proportions in which they are mixed. The calculation shall only be performed once for each press ready fountain solution and kept in the form of a batch log. The analysis of the concentrated fountain solution may be performed by the suppliers of those materials.

2. The permittee shall determine the VOC content or VOC composite partial vapor pressure of cleaning solutions by one of the following procedures:

a. Analysis by USEPA Method 24 of a cleaning solution sample for VOC content or by an appropriate method for composite partial vapor pressure; or

b. Calculation which combines USEPA Method 24 analytical VOC content data for the concentrated materials used to prepare the press ready cleaning solution and records of the proportions in which they are mixed. The calculation shall only be performed once for each press ready cleaning solution and kept in the form of a batch log. The analysis of the concentrated cleaning solution may be performed by the suppliers of those materials; or

c. Calculation for VOC composite partial vapor pressure which combines analytical VOC vapor pressure data for the concentrated materials used to prepare the press ready cleaning solution and records of the proportions in which they are mixed. The analysis and vapor pressure determinations of the concentrated materials may be performed by the suppliers of the materials.

Monitoring Requirements

If using an automatic blanket wash system that mixes cleaning solution at the point of application, the permittee must demonstrate compliance with the VOC limitations for the blanket cleaning solutions and shall document that flow meters or fixed volume spray systems result in the VOC content of the mixed solution complies with the VOC content in the blanket cleaning solutions.

Recordkeeping Requirements

1. The permittee shall collect and record the applicable information specified below:

a. The ink usage in pounds or gallons in a monthly basis; the percent by weight VOC and HAP content, as

applied and, an estimate of VOC and HAP emissions. Alternately, the ink with the highest VOC and HAP content may be used to represent all inks used by the press.

b. The fountain solution and additive usage in pounds or gallons in a monthly basis; the percent by weight or weight to volume ration (lbs/gal) VOC and HAP content and, an estimate of VOC and HAP emissions.

c. The blanket and roller cleaning solution usage in pounds or gallons in a monthly basis; the percent by weight or weight to volume ration (lbs/gal) VOC and HAP content and, an estimate of VOC and HAP emissions.

d. For each month of operation, an estimate of VOC and HAP emissions during the latest 12 months.

2. The records shall be maintained at the facility for a minimum of 5 years and shall be made available to an authorized Department representative at any time during normal work hours.

Work Practice Requirements

1. The permittee shall keep all solvent containers closed at all times unless filling, draining, or performing cleanup operations.

2. The permittee shall keep all solvent laden shop towels in a closed container when not being used.

Any person wishing to provide the Department with additional information they believe should be considered prior to the issuance of the Plan Approval may submit the information to the address shown below. Each written comment shall include the following:

1) Name, address and telephone number of the person submitting the comments.

2) Identification of the proposed Plan Approval No. 46-0041E.

3) Concise statement regarding the relevancy of the information or any objections to issuance of the Plan Approval.

Requests for a public fact finding conference or hearing may also be made by writing the Department at the address to follow. A public conference may be held, if the Department in its discretion decides that such a conference is warranted on the basis of the information received. All persons who have submitted comments or have requested a conference will be notified of the decision to hold such a conference by publication in this newspaper or the *Pennsylvania Bulletin*, or by telephone, where the Department determines such notification by telephone is sufficient.

15-00067: Herr Foods, Inc. (273 Old Baltimore Pike, Nottingham, PA 19362) on April 10, 2008, for a Non-Title V Facility, State-only, Synthetic Minor Permit in West Nottingham Township, **Chester County**. Herr Foods, Inc. is a manufacturing-food preparations facility. The sources of emissions include boilers and product lines. The company took an emission limit of 24.9 tpy of NOx. Monitoring, recordkeeping and reporting requirements have been added to the permit to address applicable limitations.

46-00161: Reading Material, Inc.—Sanatoga Asphalt Plant (394 Sanatoga Road, Pottstown, PA 19446) on April 10, 2008, for operation their batch asphalt plant in Lower Pottsgrove Township, **Montgomery County**. The permit is for a non-Title V (State-only) facility. The Sanatoga Asphalt Plant is a 6-ton batch plant consisting of a dryer, knockout box, baghouse and stack. As part of the existing plant, the company operates a 30-ton recycled asphalt pavement crushing and screening operation and a portable nonmetallic mineral processing plant. The permit will include monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

23-00050: Crozer Keystone Health Systems—Taylor Hospital (175 East Chester Pike, Ridley Pike, PA 19078) on April 11, 2008, for a Non-Title V Facility, State-only, Natural Minor Permit in Ridley Park Township, **Delaware County**. The sources of emissions are five boilers and two emergency generators. Monitoring, recordkeeping and reporting requirements have been added to the permit to address applicable limitations.

09-00046: RJM Manufacturing, Inc.—d/b/a TaraTape (250 Canal Road, Fairless Hills, PA 19030) on April 11, 2008, for renewal of Title V Operating Permit No. 09-00046, originally issued on January 8, 2001 in Falls Township, **Bucks County**. Based on a facility-wide VOC limit of 24.9 tpy, the permit type has been changed from Title V to State-only (Synthetic Minor). The State-only Operating Permit (SOOP) is for the operation of three (30 coating lines) two flexographic presses, an extruder and other miscellaneous sources, as well as a catalytic oxidizer that controls VOC emissions from one of the coating lines. The renewed SOOP will include monitoring, recordkeeping, reporting and work practice re-

quirements designed to keep the facility operating within all applicable air quality requirements. In addition to the change in permit type, the following major changes will be addressed in the renewed SOOP:

The phrase "d/b/a TaraTape" has been added to the owner name.

The following sources and emission points, along with corresponding source capacity and throughput listings, permit maps, conditions and emission restrictions, have been removed from Sections A (Site Inventory List), D (Source Level Requirements) and F (Emission Restriction Summary), of the SOOP, as applicable:

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317)

and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, 2 East Main Street, Norristown, PA 19401.

E15-781. West Whiteland Township, 222 North Pottstown Pike, Exton, PA 19341, West Whiteland Township, **Chester County**, ACOE Philadelphia District.

To construct and maintain a new pedestrian bridge required to connect an existing sidewalk along eastbound culvert of Lincoln Highway over Valley Creek (CWF-MF). The new 60-foot span bridge is 8.0 feet wide. The low chord of the new bridge is located above the FEMA 100-year flood plain elevation.

The site is located approximately 200 feet southwest of the intersection of Exton Square Parkway and Lincoln Highway (Downingtown, PA, USGS Quadrangle N: 5.1 inches; W: 0.1 inch).

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

E01-279: TimBar Packaging and Display Corporation, 148 North Penn Street, Hanover, PA 17331, New Oxford Borough, **Adams County**, ACOE Baltimore District.

To place and maintain fill in 0.11 acre of Palustrine Forested (PFO) wetland within the watershed of a UNT to the South Branch Conewago Creek (WWF) (McSherrystown, PA Quadrangle N: 20.3 inches; W: 8.5 inches, Latitude: 39° 51' 42"; Longitude: 77° 03' 38"), for the purpose of constructing a parking lot and associated loading dock for the expansion of Timbar Corporation, east of the South College Street and Stone Road intersection in New Oxford Borough, Adams County. The applicant will provide 0.22 acre of replacement wetland onsite.

Southwest Region: Watershed Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

E02-1578. North Fayette Township, 400 North Branch Road, Oakdale, PA 15071. To construct a culvert in North Fayette Township, **Allegheny County**, Pittsburgh ACOE District (Clinton, PA Quadrangle N: 9.3 inches; W: 1.1 inches, Latitude: 40° 25' 34"; Longitude: 80° 15' 28). To construct and maintain a 48 inch diameter culvert (depressed 6.0 inches below the natural stream bed) approximately 80.0 feet in length in a UNT to Half Crown Run (WWF) to provide access to the Yard Waste Compost Site. The project is located on the north side of Kelso Road, approximately 3,500.0 feet north from the intersection of Kelso and Patridge Roads and will impact approximately 80.0 linear feet of stream channel.

E32-477. LMC Enterprises and Heritage Oaks, LP 1 Highpoint Place, P. O. Box 399, Indiana, PA 15701-3251. To place and maintain fill in wetlands in White Township, **Indiana County**, Pittsburgh ACOE District (Indiana, PA Quadrangle N: 22.4"; W: 7.9", Latitude: 40° 37' 23"; Longitude: 79° 11' 00"). To place and maintain fill in 0.19 acre of wetlands in the McCarthy Run Watershed and to place and maintain fill in approximately 400 feet of a UNT to McCarty Run (CWF) for the purpose of constructing two office/apartment buildings. The project is located at the eastern corner of Philadelphia Street and Heritage Run Road. To compensate for the stream impacts the applicant shall provide approximately 400 feet of stream mitigation located approximately 500 feet downstream of the project area in a UNT to McCarthy Run (CWF). To compensate for the wetland impacts, the applicant has made a payment to the Wetland Replacement Fund.

E63-594. Tanager Properties Limited Partnership, Greensboro, NC 27408-7616. To widen SR 1041 and add a ramp to Interstate 79 in North and South Strabane Townships, **Washington County**, Pittsburgh ACOE District (Washington East, PA Quadrangle N: 17.00 inches; W: 6.0 inches, Latitude: 40° 13' 30"; Longitude: 80° 12' 50"). To construct and maintain a 25' extension to an existing 98' long concrete box culvert (with 15' of wing wall and 9' of rip-rap scour protection), a 31' extension and 60' of outlet protection to an existing 320' elliptical plate culvert and to extend an existing 131' long culvert 13' upstream (with a 14' wing wall and 5' of rip-rap inlet protection) and 11' downstream (with 9' of wing wall and 6' of rip-rap scour protection), all on a UNT to Chartiers Creek (WWF) and to remove the existing structure and to construct and maintain a 46.5' wide bridge having a single 70' span and including 49' of wing wall and scour

protection, over Chartiers Creek (WWF), to install 96' of storm drain, to place and maintain fill and excavate rock basins in the floodplain of a UNT to Chartiers Creek and to place fill in approximately 0.03 acre of wetland (PEM) for the purpose of widening SR 1041 (Racetrack Road) and adding a ramp to Interstate 79 in North Strabane and South Strabane Townships, **Washington County**. To compensate for the unavoidable impacts to wetlands, the permittee has made a contribution to the Pennsylvania Wetlands Replacement Project.

E65-445-A1. Toro Development Company, 100 Sandune Drive, Pittsburgh, PA 15232. **Request for Comment and Notice of Public Meeting
For the Proposed Total Maximum Daily Load
(TMDL) for Craig Run Watershed in
Armstrong and Indiana Counties**

Greensburg District Mining Office: Armbrust Building, 8205 Route 819, Greensburg, PA 15601.

The Department of Environmental Protection (Department) is holding a public meeting on May 28, 2008, beginning at 2 p.m. at the Greensburg District Office in Greensburg, PA to discuss and accept comments on a proposed TMDL. The proposed TMDL was established in accordance with the requirements of the 1996 Section 303(d) of The Clean Water Act. One stream segment in the Craig Run Watershed has been identified as impaired on the 1996 Pennsylvania 303(d) list due to high concentrations of metals; additional segments were identified in 1998, 2002, 2004 and 2006. The listed segment and miles degraded are shown in the following table:

<i>Stream Code</i>	<i>Stream Name</i>	<i>Miles Degraded</i>
46415	Craig Run	1.0

The proposed plan provides calculations of the stream's total capacity to accept metals (aluminum, iron and manganese) and pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

<i>Parameter</i>	<i>Criterion value (mg/l)</i>	<i>Total Recoverable/Dissolved</i>
Aluminum	0.75	Total Recoverable
Iron	1.5	Total Recoverable
Manganese	1.00	Total Recoverable
pH	6.0—9.0	NA

The primary pollutant source for the watershed is abandoned mine workings. This watershed was heavily mined for coal in the 20th century. The effects of this are still present. The TMDL consists of load allocations, which are made to nonpoint sources of pollution and waste load allocations, which are made to permitted point sources.

The TMDL was developed using Monte Carlo Simulation to determine long-term average concentrations that each stream segment could accept and still meet water quality criteria 99% of the time. Monte Carlo Simulation allows for the expansion of a dataset based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the TMDL.

The TMDL sets allowable loading rates for metals, sediment and acidity at specified points in the watershed. The basis of information used in the establishment of this TMDL is field data collected throughout 2005 and 2006.

The data and all supporting information used to develop the proposed TMDL are available from the Department. To request a copy of the proposed TMDL and an information sheet, contact Scott Bradley at (724) 925-5519 between 8 a.m. and 3 p.m., Monday through Friday, at Greensburg District Mining Office, Armbrust Building, 8205 Route 819, Greensburg, PA 15601. E-mail will be received at sbradley@state.pa.us. Directions to the meeting place can also be obtained through this contact.

The proposed TMDL can be viewed and printed by accessing the Department's web site at www.dep.state.pa.us (PA Keyword: TMDL).

Written comments will be accepted at the previous address and must be postmarked by June 26, 2008. Persons who plan to make a presentation at the public meeting should notify the Department no later than 3 p.m. Friday, May 23rd. The Department will consider all comments in developing the final TMDL, which will be submitted to the EPA for approval.

**Request for Comments and
Notice of Public Meeting for the
Proposed Total Maximum Daily Loads
(TMDLs) Developed for the Harbridge
Run Watershed**

The Department of Environmental Protection (Department) is holding a public meeting on May 28, 2008, at 11 a.m., at Greensburg District Mining Office, Armbrust Building, 8205 Route 819, Greensburg, PA. The purpose of the meeting is to discuss and accept comments on the proposed TMDLs developed for the Harbridge Run Watershed in Westmoreland County. In accordance with the requirements of Section 303(d) of The Clean Water Act, stream segments in Harbridge Run have been identified as impaired due to siltation from abandoned mining activities.

The proposed TMDLs set allowable loadings for sediment in Harbridge Run in order for the stream to meet water quality standards. The TMDLs set allowable loading rates for metals and sediment at specified points in the watersheds. All of the allocations made in these TMDLs are load allocations made to nonpoint sources of pollution.

The data and all supporting documentation used to develop the proposed TMDLs are available from the Department. The proposed TMDL and information on the TMDL program can be viewed on the Department's web site at www.dep.state.pa.us (Keyword: TMDL). To request a copy of any of the TMDLs, contact Tom Kovalchuk, Armbrust Building, 8205 Route 819, Greensburg, PA, at (724) 925-5520 or tkovalchuk@state.pa.us.

Written comments will be accepted at the previous address and must be postmarked no later than 60 days from the date of this bulletin notice. The Department will

consider all comments in developing the final TMDL, which will be submitted to U.S. Environmental Protection Agency for approval.

Solar Workgroup Meeting

The Solar Workgroup will hold a meeting on May 1, 2008, at 10 a.m. in Room 105 of the Rachel Carson State Office Building, 400 Market Street, Harrisburg, PA. The Solar Workgroup consists of members from the solar industry and local government officials. The purpose of the meeting is to provide a forum for the industry members and local government officials to discuss potential issues that may arise as solar installations become more prevalent Statewide. The meeting will stimulate information sharing and possible development of tools and resources to facilitate the deployment of solar installations.

The agenda and materials for the May 1, 2008, meeting will be available at the meeting. Questions concerning this meeting should be directed to Libby Dodson, Office of Energy and Technology Deployment, Division of Energy Promotion, 400 Market Street, Harrisburg, PA 17101, (717) 772-8907, ldodson@state.pa.us.

Persons with a disability who require accommodations to attend the May 1, 2008, meeting of the Solar Workgroup should contact Libby Dodson directly at (717) 772-8907 or through the Pennsylvania AT&T Relay Services at (800) 654-5984 (TDD) to discuss how the Department of Environmental Protection may accommodate their needs.

United States Nuclear Regulatory Commission and the Commonwealth; Notice of Agreement

Effective March 31, 2008, the Commonwealth entered into an Agreement with the United States Nuclear Regulatory Commission (NRC) to assume regulatory authority over certain radioactive materials in the Commonwealth. Under the Agreement, as authorized by the Federal Atomic Energy Act of 1954 and State Radiation Protection Act of 1984 (35 P. S. §§ 7110.101—7110.703), the NRC transferred to the Commonwealth the responsibility for licensing, rulemaking, inspection and enforcement activities for: (1) radioactive byproduct materials produced as a result of processes related to the production or utilization of special nuclear material (SNM); (2) uranium and thorium source materials; (3) SNM in quantities not sufficient to form a critical mass; and (4) accelerator-produced or other radioactive materials under NRC jurisdiction as provided by the Energy Policy Act of 2005.

Approximately 700 licenses, mostly for medical and industrial uses of radioactive material, were transferred to the Commonwealth's jurisdiction under the Agreement. The Department of Environmental Protection (Department), Bureau of Radiation Protection is the lead program administrator for the Commonwealth under the Agreement. The NRC will retain jurisdiction over regulation of commercial nuclear power reactors, uranium enrichment facilities, research reactors, uranium mill tailings, import or export of radioactive material, licensing for ocean disposal of low-level radioactive waste and Federal facilities using radioactive materials in the State. In addition, NRC will retain authority for the review, evaluation and approval of certain sealed sources and devices containing radioactive materials manufactured in the State and distributed throughout the country.

In response to the Commonwealth's application for Agreement Status, the NRC reviewed the Commonwealth's radiation control program to ensure it was adequate to protect public health and safety and was compatible with the NRC's program for regulating the radioactive materials covered in the Agreement. A notice announcing the NRC's proposed Agreement with the Commonwealth was published for public comment in the *Federal Register* on June 18, 2007 (72 FR 33541), June 25, 2007 (72 FR 34728), July 2, 2007 (72 FR 36069) and July 9, 2007 (72 FR 37268). During the public comment period, which concluded on July 18, 2007, the NRC received input from two individuals on the proposal; however, the comments did not contain any new information to change the NRC's analysis of the integrity and adequacy of the Commonwealth's radiation control program.

For further information concerning the Agreement, visit the Department's web site at www.depweb.state.pa.us (DEP Keyword: Radiation Protection) or contact Ben Seiber, Bureau of Radiation Protection at (717) 787-2480, bseiber@state.pa.us.

Notice of EMSOF Funding Priorities

Under 28 Pa. Code §§ 1001.22 and 1001.23 (relating to criteria for funding; and allocation of funds), the Department of Health (Department) gives notice of priorities for the distribution by the regional emergency medical services (EMS) councils of funding from the Emergency Medical Services Operating Fund (EMSOF) for the fiscal year beginning July 1, 2008, and ending June 30, 2009.

EMSOF moneys are to be used to provide funding to maintain, improve and develop the quality of the EMS system within this Commonwealth. The Department finds that EMSOF is not sufficient to fully fund the EMS system. Therefore, it gives notice, under 28 Pa. Code § 1001.22(d), that recipients of EMSOF funding from regional EMS councils may be required to contribute

funds toward all purchases, acquisitions and projects for which the Department permits the use of EMSOF moneys.

Each regional EMS council shall prioritize the distribution of its EMSOF allocation based upon the Statewide EMS Development Plan and its regional EMS development plan, subject to the funding priorities set forth in this notice. By October 30, 2008, the regional EMS councils shall notify the providers and other appropriate entities of the established funding priorities, the application process, acquisition documentation requirements and processing deadlines. Each regional EMS council must complete all documents required for the distribution of EMSOF funding by June 30, 2009.

The Department may increase the amount of the initial payment or reimbursement from EMSOF based upon the EMS development plans (State and regional) or documented financial hardship of a provider of EMS. A provider of EMS that seeks additional funds due to financial hardship shall be required to submit a financial disclosure statement and other documentation deemed necessary by the Department.

A provider of EMS applying for EMSOF funding must be in full compliance with all regulations, policies and priorities of the State and regional EMS systems.

Funds for purchases, acquisitions and projects for the fiscal year beginning July 1, 2008, and ending June 30, 2009, must be expended by the regional EMS council by June 30, 2009, unless a written request for an extension of time, not to exceed 90 calendar days, is submitted by the regional EMS council and approved by the Department prior to June 30, 2009.

Funding Priorities:

These priorities are not ranked. The priorities must be considered before there is any regional distribution of EMSOF moneys for initiatives that are not listed. All funding must be distributed consistent with the regional and Statewide EMS development plans. Consequently, if the priorities in this notice have been funded and additional funding is available, the request to use EMSOF money towards nonpriority items must still be supported by the Statewide and regional EMS development plans.

- Development or improvement of an organizational risk management program (safety measures, hazard recognition/mitigation and the necessary organizational structure and support processes) proposed by an ambulance service. Proposals for funding must be comprehensive and include safe vehicle operations. Approval by the Department is required prior to funding.

- Recruitment and retention programs, including scholarships/tuition reimbursement for first responder (FR), emergency medical technician (EMT) and paramedic training in areas with high prehospital personnel vacancy rates as determined by the regional EMS council and approved by the Department.

- Equipment required to meet basic life support (BLS) and advanced life support (ALS) ambulance service licensure.

- Capnography equipment (especially wave-form end-tidal CO₂ monitors).

- An ambulance for ambulance services that is older than 10 years or has more than 200,000 miles on it. Limit to one per fiscal year.

- Software/computer equipment to enable services to collect and transmit EMS patient care reports electronically.

- Quality assurance/improvement program.
- EMS personnel protective respiratory equipment approved by the Department to protect the EMS practitioner from communicable diseases transmitted from person to person through airborne mechanisms.
- Costs associated with investigating a potential merger or consolidation of services. These costs include but are not limited to consulting fees, studies, legal fees, and statistical analysis.
- Costs associated with the actual merger or consolidation of services.
- Funding will be provided for the additional cost of reflective chevron markings on back of a new ambulance purchased by an ambulance service.

When two or more ambulance companies have consolidated, for the first 5 years after the ambulance companies completed consolidation the entity may be deemed eligible to receive funding not to exceed the amount of the combined total for which the individual companies would have been eligible had they not consolidated.

Emergency Preparedness and Response Funding Requests

Emergency preparedness and response funding requests must be based on local and response roles of services, regional needs, and needs identified by threat vulnerability analysis. Purchases must be coordinated with county emergency, fire service, HAZMAT and hospital organizations in the applicant's service area to assure interoperability and to prevent duplication. Funding requests related to response to all hazard and emergency preparedness must have a clear connection to the regional EMS catastrophic plan and the regional EMS development plan. Priority will be given to fund the ambulance services in each region that have committed to participating in the EMS strike team capability project and respond to requests for EMS, both interstate and intrastate, as identified in the State and regional mass casualty plans.

Provider Equipment

Purchases by providers of EMS are not limited to equipment. If an EMS provider requests EMSOF moneys to purchase equipment, the Eligible Provider Equipment List identifies equipment for which EMSOF funds will be made available to purchase. This chart identifies the types of providers of EMS eligible for equipment purchases supported by EMSOF funding and the maximum allowable cost upon which the EMSOF contribution will be calculated.

EMSOF funds will fund 60% of the maximum allowable cost of an equipment item for rural providers and will fund 50% of the maximum allowable cost of an equipment item for nonrural providers. An eligible provider is responsible for the balance of the purchase price. The provider may purchase an item for an amount that exceeds the maximum allowable cost, but the provider will be responsible for any amount exceeding that figure. The last two columns of the chart identify the percentage of EMSOF contribution towards the purchase price, up to the maximum allowable cost of the item, based upon whether the provider operates in a rural or nonrural area.

Paramedic Examinations

Funding may be provided to services to cover the cost of the State written test for paramedic certification taken by their personnel at 100% of the cost of two examination attempts up to a maximum allowable cost of \$300 per person.

Questions regarding the Eligible Provider Equipment List or other matter addressed in this notice should be directed to Joseph W. Schmider, Director, Bureau of Emergency Medical Services, Department of Health, 1032 Health and Welfare Building, Seventh and Forster Streets, Harrisburg, PA 17120, (717) 787-8740. Speech or hearing impaired persons may use VTT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984. Persons with a disability who require an alternative format of this notice (for example, large print, audiotape, Braille) should contact Joseph W. Schmider at the previously listed address or telephone numbers.

Pennsylvania Cancer Control, Prevention and Research Advisory Board Meeting

The Pennsylvania Cancer Control, Prevention and Research Advisory Board, established under the Pennsylvania Cancer Control, Prevention and Research Act (35 P. S. § 5633), will hold a meeting on Wednesday, June 25, 2008, from 8:30 a.m. to 2 p.m., at the Dixon University Center, 2986 North Second Street, Harrisburg, PA 17110.

For additional information, contact Kathleen A. Zitka, Chief, Department of Health, Comprehensive Cancer Control Section, Room 1011, Health and Welfare Building, Harrisburg, PA at (717) 787-5251.

Persons with disabilities who wish to attend the meeting and requiring an auxiliary aid, service or other accommodation should contact Kathleen A. Zitka at (717) 787-5251 or for speech and/or hearing impaired persons at V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Services at (800) 654-5984 (TT).

This meeting is subject to cancellation without notice.

HOUSING FINANCE AGENCY

2009 Low Income Housing Tax Credit Allocation Plan Public Hearing

The Housing Finance Agency (Agency), as the Administrator of the Federal Low Income Housing Tax Credit Program for the Commonwealth, provides notice of a public hearing to obtain public comment on the proposed 2009 Low Income Housing Tax Credit Allocation Plan. This public hearing will be held at 9 a.m. on Thursday, May 1, 2008, at the Housing Finance Agency, 211 North Front Street, Harrisburg, PA. Copies of the proposed allocation plan are available upon written request at the following address, by phone at (717) 780-3948 or through the Agency's web site at www.phfa.org.

Persons with a disability and wish to attend this meeting and require an auxiliary aid, service or other accommodation to participate should contact the Secretary by Wednesday, April 30, 2008, to discuss how the Agency may best accommodate their needs.

Individuals wishing to comment on the plan but unable to attend the scheduled hearing are invited to provide written comments to the address shown no later than Wednesday, April 30, 2008, Manager, Tax Credit Program, Housing Finance Agency, P. O. Box 8029, Harrisburg, PA 17105-8029, TTY for hearing impaired (717) 780-1869.

Written comments must be submitted prior to the date of the scheduled hearing or at the public hearing. Persons

who plan to attend the public hearing should contact the Agency at (717) 780-3948.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Environmental Quality Board Regulation #7-422 (IRRC #2658)

Diesel Vehicle Idling; and Auxiliary Power Systems

April 16, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the January 12, 2008 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

1. General—Need; Reasonableness; Implementation procedures; Feasibility.

Compliance Assistance Plan

The Preamble describes a Compliance Assistance Plan which will include an educational component to inform the regulated community about idling restrictions and the availability of financial assistance programs for the purchase or lease of mobile idling reduction equipment. We support this approach and request that, in the Preamble to the final-form regulation, the EQB provide detailed information on the scope of financial assistance programs available, the actual availability of the financial assistance, to whom the assistance is available and how to apply for the financial assistance.

Need for the regulation

In our conversations with the trucking industry, it is clear that the current cost of fuel is reducing idling substantially without regulation. The management of these companies is currently focused on the cost of fuel and reducing wasteful fuel consumption practices such as idling. Some are tracking the use of fuel by each indi-

vidual driver. In light of these cost driven changes, the EQB should explain why this regulation is needed.

Identifying a violation

At the core of this regulation is the simple concept of limiting idling to five minutes in an hour. This accomplishes an improvement to air quality by simply turning off an engine when it is not needed. However, the regulation is complicated regarding affected vehicles and exemptions. First, it is difficult to identify what vehicles are affected. The definition of "commercial motor vehicle" specifies a weight of vehicle affected but also includes factors unrelated to emissions, such as the number of passengers, compensation and transporting hazardous materials. Second, the undefined term "diesel-powered" is used in the body of the regulation in combination with "commercial motor vehicle." Third, after it is determined that the vehicle is a "diesel-powered commercial motor vehicle," a vehicle could be exempt based on several conditions including:

- Whether the vehicle is "model year 2007 or newer and exhibits a label" issued by the California Air Resources Board (CARB);
- Whether "the outside air temperature at the location of the vehicle is less than 40° F or greater than 75° F";
- Whether the vehicle "is parked at a location equipped with stationary idle reduction technology that is available for use";
- Whether idling is necessary for a vehicle "to operate work-related operations other than propulsion";
- Whether idling is necessary "to operate defrosters, heaters, air conditioners or cargo refrigeration equipment . . . to prevent a safety or health emergency and not for the purpose of a rest period"; and
- Whether there is a mechanical problem that qualifies for exemption.

While the exemptions are individually reasonable, taken in total, the regulation presents a complicated process both in determining what vehicles are affected and what exemptions may apply. The EQB should explain what alternatives it considered to limit idling and why this complicated regulatory scheme was chosen as the best way to limit idling and enforce its provisions to accomplish the stated goal to improve air quality.

Uniformity between states

The Preamble states:

Idling restrictions have been adopted by 14 states, the District of Columbia and many local jurisdictions, including this Commonwealth's two most populated urban areas, Philadelphia and Allegheny Counties. The Federal government does not regulate commercial highway diesel vehicle idling, and generally considers the regulation of these vehicles in use to be the prerogative of state government. In March 2006, recognizing that reducing unnecessary diesel vehicle idling would be a public health benefit and that a multiplicity of state and local rules was a "barrier to greater implementation of idling control technologies," the EPA released a model state idling law. (EPA Model State Idling Law, EPA420-S-06-001) The model was a result of five workshops across the country in which affected stakeholders participated.

In written comments provided on the regulation and in discussions with commentators, it is clear that the regulated community seeks a uniform regulation between states to ease compliance.

Unfortunately, while the EPA provided a framework with its Model State Idling Law, portions of the EPA's model cause concerns related to our criteria for determining whether a regulation is in the public interest. For example, see our comment on the definition of "commercial motor vehicle." (Issue 2 relating to Section 121.1) The EPA Model State Idling Law document says that this definition was reached by a consensus of stakeholders that recommended a weight classification to determine applicability. However, the EPA's definition includes factors extraneous to the weight of the vehicle and emissions, such as hauling hazardous materials. We further note that the exemptions included in the EQB's regulation differ in several instances from those in the EPA Model State Idling Law. The EQB should explain whether this regulation is consistent with the states that already have idling restrictions and particularly with neighboring states. The EQB should also explain whether it believes complete uniformity among states is being accomplished based on the EPA Model State Idling Law. If the requirements among states are not uniform, the EQB should explain what efforts it is making to coordinate development of a regulation that is as uniform as possible with other states.

Enforcement

The Preamble describes widespread vehicle idling in Pennsylvania. The Regulatory Analysis Form, Question (20a) states that vehicles idle in Pennsylvania to avoid idling restrictions in New York and New Jersey. While a compliance assistance plan may accomplish some degree of reduction, it is not clear how the regulation will be enforced to the degree needed to accomplish air quality improvement. As noted in these comments, Section 126.612(c)(2) makes a vague reference to an "other enforcing agency," but it is not clear what that is. Can the Department of Environmental Protection alone dedicate enough resources to enforce this regulation? Does the

EQB expect other law enforcement agencies to enforce idling restrictions among their other duties, particularly given the complicated process required to identify a violation? The EQB should explain how this regulation will be enforced to accomplish air quality improvement.

Other exemptions

Commentators requested several additional exemptions for unique and specific circumstances. Again, although overall the regulation is complicated, many exemptions are individually reasonable. If the EQB determines numerous exemptions are needed, it should also consider commentators' requests for exemptions in situations such as transportation of special needs children, public utility work in extreme weather, idling as part of the manufacturer operating requirements and periodic stops required for waste collection.

2. Section 121.1. Definitions.—Reasonableness; Need; Clarity.

Commercial motor vehicle

This definition is not clear for several reasons.

First, the Preamble states this definition was "adapted from 49 CFR 390.5." As explained below, portions of this definition do not appear to be relevant to emissions from vehicles. This definition would be much simpler to understand, comply with and enforce if it only designated a weight limit and a number of passengers. The EQB should explain why a definition applicable to Federal Motor Carrier Safety Regulations under the United States Department of Transportation, used verbatim, is the most appropriate way to define and regulate vehicle emissions in Pennsylvania.

Second, we see no need to use the word "commercial" in the term because emissions occur regardless of whether the vehicle is engaged in commerce or not. The EQB should explain why the word "commercial" is needed to designate vehicles affected by the regulation.

Third, Paragraph (i) states:

The vehicle has a gross vehicle weight rating or gross combination weight rating, or gross vehicle weight or gross combination weight, of 4,536 kg (10,001 pounds) or more, whichever is greater.

Different weights are considered within Paragraph (i), but not all terms are defined. The term "gross vehicle weight rating" is defined in existing regulation and the term "gross combination weight rating" is defined in the proposed regulation. However, the terms "gross vehicle weight" and "gross combination weight" are not defined in this regulation and are therefore ambiguous. For example, the regulation does not state whether the term "gross vehicle weight" includes the load or not, whereas the defined terms make that specification. We recommend that the EQB review and explain the need for four different weight ratings in Paragraph (i). If it determines four different weight ratings are needed, it should define "gross vehicle weight" and "gross combination weight" in the final-form regulation.

Fourth, Paragraph (iv) states:

The vehicle is used in transporting material found by the Secretary of the United States Department of Transportation to be hazardous under 49 U.S.C. § 5103 (relating to general regulatory authority) and transported in a quantity requiring placarding under regulations prescribed by the Secretary of the United States Department of Transportation under 49 CFR,

Subtitle B, Chapter I, Subchapter C (relating to hazardous materials regulations).

Why did the EQB include transporting hazardous materials and placarding as determinative factors in the scope of vehicles that must comply with emission standards?

Finally, Paragraph (ii) includes a vehicle transporting more than eight passengers for compensation and Paragraph (iii) includes a vehicle transporting more than 15 passengers not for compensation. What constitutes “compensation”? The regulation would be clearer if it only specified a number of passengers and did not involve compensation. We recommend that the EQB also take into consideration the existing definition in Section 121.1 of “passenger car,” defined as “a motor vehicle designed primarily for transportation of persons and having a design capacity of 12 persons or less.” The EQB should explain why the regulation needs two provisions based on the number of passengers and conditioned on compensation.

Undefined terms

We recommend defining the following terms which are used in the regulation, but are not defined:

- “Bus terminal” is used in Subsection 126.612(d).
- “Passenger bus” is used in Paragraph 126.612(a)(2).
- “School bus” is used in Paragraph 126.612(a)(11).
- “Stationary idling technology” is used in Paragraph 126.612(a)(1).

3. Section 126.601. Applicability.—Reasonableness; Clarity.

Diesel-powered commercial motor vehicle

Beginning in this section and used thereafter, the regulation uses the phrase “diesel-powered commercial motor vehicles.” In addition to our comment on the definition of “commercial motor vehicle,” the regulation does not define the phrase “diesel-powered.” The regulation should clearly establish what a “diesel-powered” vehicle is because it establishes who must comply with the regulation.

Owners and operators of “locations”

The Preamble describes the locations in Section 126.601 as follows:

The locations affected include, for example, warehouses, terminals, truck stops, other retail locations, schools, parking lots, rest areas and roadway rights-of-way. The proposed rulemaking would regulate idling at off-road sites by highway vehicles, but not by construction, agricultural or other off-road vehicles or equipment, or by locomotives, marine vessels or aircraft.

The intent described in the Preamble is not reflected in the language of the regulation. We agree with commentators who expressed uncertainty as to whether their equipment or situations fall under the regulation. We also question what actions are required when the regulation places the burden of compliance on the owner or operator of a “location.” How can they act responsibly, recognizing they may not own the vehicle? Other commentators expressed concern that this might affect emission limitations on a facility. We recommend rewriting Section 126.601 to take into consideration public comment on this provision and to clearly state the applicability of the regulation.

4. Section 126.611. Idling restriction.—Reasonableness.

This section states “No person subject to this subchapter may cause *or allow* the engine . . . to idle for more than 5 minutes in a 60-minute period. . . .” (Emphasis added.) As noted in our comment on “owners and operators of locations” in Section 126.601, in many instances the person the regulation charges with preventing idling is not the driver or owner of the idling vehicle. How can a person reasonably comply if the person, who by regulation cannot allow a vehicle to idle, is not able to enter, take action to turn off the idling vehicle, or could be otherwise liable for damage to the vehicle or its contents? The EQB should explain the reasonableness of this requirement for persons who are not operating the vehicle and what measures must be taken to comply. In addition, the EQB should also explain how this provision will affect a facility already subject to air quality regulations or permits relating to emissions.

5. Section 126.612. Exemptions.—Statutory authority; Need; Reasonableness; Feasibility; Clarity.

Outside temperature less than 40° F or greater than 75° F

The exemption in Paragraph (a)(1) is conditioned upon the outside air temperature. The exemption allows idling when “the outside temperature at the location of the vehicle is less than 40° F or greater than 75° F.” We support an exemption that allows time for owners and operators to install alternative means of heating and cooling sleeping berths. We also support allowing drivers to rest comfortably so that they can drive safely through the Commonwealth.

Our concern lies with the reasonableness and feasibility of this provision. As written, a violation could automatically occur due to a natural temperature fluctuation at dusk or dawn. If a driver in good faith allows the vehicle to idle under this exemption, an outside temperature increase or decrease would automatically cause a violation of this provision. Compliance should not require a driver trying to rest to also monitor the outside temperature during the rest period. We recommend that the EQB rewrite this provision so that drivers can reasonably comply.

Stationary idle reduction technology that is available for use

The exemption in Paragraph (a)(1) also states: “This exemption does not apply if the vehicle is parked at a location equipped with stationary idle reduction technology that is available for use.” As written, the regulation automatically triggers a violation when stationary idle reduction technology becomes available for use. This places a burden on a driver to monitor the availability of stationary idling technology during a rest period. We recommend rewriting this provision to continue the exemption for the full rest period if the stationary idling technology is not available at the time the driver begins the rest period.

Model year 2007 or newer engine

Subsection (b) states:

The restriction on idling in § 126.611 does not apply to a vehicle that has a model year 2007 or newer engine and exhibits a label issued by CARB under 13 CCR 1956.8(a)(6)(C) (relating to exhaust emissions standards and test procedures—1985 and subsequent model heavy-duty engines and vehicles) showing that the vehicle’s engine meets an optional NOx idling emission standard.

This is a wholesale exemption from the idling reduction requirement for these newer vehicles. Despite the reduction in some emissions from these newer vehicles, unnecessary idling of these vehicles still produces emissions which are as unnecessary as emissions from older model vehicles. The EQB should explain why it is in the public interest to allow newer vehicles to idle without restriction, particularly when idling is deemed unnecessary for other vehicles.

If the EQB believes this exemption is in the public interest, the regulation should explain what meets the requirement that the vehicle "exhibits a label issued by CARB." If the label is in the door frame or otherwise not visible from outside the vehicle, the driver would have to be woken up to demonstrate the exemption is valid. The regulation should specify in what way(s) this label must be displayed to facilitate compliance with and enforcement of the regulation without interrupting the driver's rest period.

Other enforcing agency

Paragraph (c)(2) allows the vehicle owner or operator to verify a mechanical problem to "the Department or other enforcing agency." The phrase "other enforcing agency" is vague. The regulation should specify who has authority to enforce this regulation and accept verification of a mechanical problem.

Statutory authority for Subsection (d)

The EQB cites the Air Pollution Control Act as statutory authority for this regulation. Subsection (a) of 35 P. S. § 4012 (relating to powers reserved to political subdivisions) of the Air Pollution Control Act states:

Nothing in this act shall prevent counties, cities, towns, townships or boroughs from enacting ordinances with respect to air pollution which will not be less stringent than the provisions of this act, the Air Pollution Control Act or the rules and regulations promulgated under this act or the Clean Air Act. . . .

Subsection (d) of the regulation states:

A county, city, town, township, borough or local air authority with idling regulations in existence before _____ (*Editor's Note:* The blank refers to the effective date of adoption of this proposed rule-making.) may approve alternative compliance plans for bus terminals to minimize idling.

Unless the EQB can establish that Subsection (d) is consistent with its statutory authority, we recommend deleting Subsection (d) in its entirety.

6. Sections 126.701. Applicability and 126.702. Auxiliary power systems.—Possible conflict with other regulations.

Sections 126.701 and 126.702 only require a "model year 2007 or newer engine" and do not include the requirement specified in Section 126.612(b) for "a label issued by CARB under 13 CCR 1956.8(a)(6)(C)." Why do these requirements differ?

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Extension of the Fuel Cost Recovery Surcharge

Public Meeting held
April 9, 2008

Commissioners Present: Wendell F. Holland, Chairperson;
James H. Cawley, Vice Chairperson; Tyrone J. Christy;
Kim Pizzingrilli

*Extension of the Fuel Cost Recovery
Surcharge Special Permission 28207*

Order

By the Commission:

Tristate Household Goods Conference, Inc. (Tristate), a tariff publishing agency, represents approximately 275 PUC household good carriers. Substantially large increases in the cost of diesel fuel, which were unanticipated, motivated Tristate to request the implementation of the Fuel Cost Recovery Surcharge. The Fuel Cost Recovery Surcharge Special Permission 28207 was approved in Public Meeting held April 17, 2003, and extended in the Public Meetings held April 15, 2004, April 7, 2005, March 16, 2006 and April 13, 2007. The extension was approved for duration of one year unless changed, cancelled or extended. The current surcharge grants approval to temporarily increase the Tristate tariff to recover temporarily increased fuel costs when transporting household goods for moves more than 40 miles (weight and distance) and moves that are 40 miles or less (hourly) by the use of a Fuel Cost Recovery Surcharge. Tristate filed a request on February 6, 2008, to permit members of its conference to continue assessing a fuel cost recovery surcharge to defray the continuing rise in costs of diesel fuel.

The surcharge is determined by a formula which attempts to approximate the amount of fuel used on a particular trip and multiplies that amount by the increased cost of fuel, allowing the carrier to recover only the additional fuel charges incurred. The formula includes the following constant factors: (1) base price per gallon of fuel¹; (2) average vehicle fuel consumption of 5 miles per gallon; and (3) a terminal factor which allows the carrier to recover the additional cost of fuel used in traveling to and from the carrier's terminal to the origin point of the

¹ The proposed base price is \$1.267, which was the price of a gallon of diesel fuel according to the Department of Energy report of Retail On-Highway Diesel Prices for the Central Atlantic Region as of February 15, 2002. Tristate proposes this as a base price since fuel prices have steadily increased from that date.

move. The formula also includes one variable factor, the current month's diesel fuel price.²

Moves of **40 miles or less** will be divided into 4 categories according to average mileage: 5 mile average for trips ranging from 1 to 10 miles, 15 mile average for trips ranging from 10 to 20 miles, 25 mile average for trips ranging from 20 to 30 miles, and 35 mile average for trips ranging from 30 to 40 miles. An example calculation for an 8 mile move is as follows³:

Origin of move to destination 8 miles	=	5 miles average
Terminal factor	=	40 miles
Total miles	=	45 miles
Average miles per gallon	=	5
Fuel used	=	9 gallons
DOE current Fuel Price as of 3/17/03	=	\$1.949
Base fuel Price	=	\$1.267
Fuel price difference	=	\$.682
Gallons × Fuel price difference	=	9 × .682 = \$6.14

Moves of **more than 40 miles** will be calculated using actual mileage from the move's origin to destination and return. An example calculation for a 100 mile move is as follows:

Origin of move to destination	=	100 miles
Empty Return (dest. to origin)	=	100 miles
Terminal factor	=	40 miles
Total miles	=	240 miles
Average miles per gallon	=	5
Fuel used	=	48 gallons
DOE current Fuel Price as of 3/17/03	=	\$1.949
Base fuel Price	=	\$1.267
Fuel price difference	=	\$.682
Gallons × Fuel price difference	=	48 × .682 = \$32.75

On February 6, 2008, Tristate filed a request to again extend the Fuel Cost Recovery Surcharge. The request was filed in response to the volatile nature of the petroleum market, which continues to produce unanticipated increases in diesel fuel prices.

In support of the request for extension, Tristate has submitted data from the Department of Energy for the Central Atlantic Region. The average price of diesel fuel for the period of January 2007 to December 2007, was \$2.94 per gallon, an increase of \$.13 per gallon over the previous year. During that time, prices ranged from \$2.68 per gallon to \$3.57 per gallon.

Additional support for an extension can be found in the March 14, 2008, edition of *Short Term Energy Outlook*, in which the Department of Energy reported that several factors will result in continued price fluctuations in the market. Instability in the relations with OPEC nations has kept the prices of crude at a high level. Demand was also increased as a result of greater need for home heating oil.

The Federal Department of Transportation has responded to the escalating fuel costs for interstate transportation by approving a fuel surcharge on a similar sliding scale. The Federal Fuel Surcharge became effective May 15, 2000, and continues in effect.

Under 66 Pa.C.S. § 1301, the Commission is required to ensure that all rates charged by a public utility are just and reasonable. Additionally, the Commission is

² This figure is determined by the Department of Energy's report of Retail On-Highway Diesel Prices for the Central Atlantic Region. The current month's diesel fuel price will be effective beginning the 15th day of each month through the 14th day of the subsequent month.

³ All fuel surcharges shall be calculated and provided to the customer as part of the Estimate of Charges.

obligated to address industry-wide problems "without creating a chaotic rate structure impossible to manage or police." Emergency Fuel Surcharge, 47 Pa.P.U.C. 389, 391 (1974). The current surcharge addresses the problem of rising fuel costs, while being just and reasonable in that carriers are compensated only for the additional cost of the fuel used.

Based on our review, it appears that the extension of the Fuel Cost Recovery Surcharge for transportation of household goods is necessary, is an appropriate means to address this regulatory problem and will result in just and reasonable rates. In order to prevent financial hardship, it is imperative that Pennsylvania household goods carriers be afforded an opportunity to temporarily adjust rates to offset escalating fuel costs using the proposed extended Fuel Cost Recovery Surcharge and, accordingly, we shall allow the proposed extended surcharge to become effective for a period of one year unless changed, cancelled or further extended.

Therefore,

It is Ordered That:

1. Tristate members rendering service under authority of this Commission shall charge a Fuel Cost Recovery Surcharge on transportation provided for over 40 mile charges and for 40 miles or less hourly charges in accordance with all other tariff rules of this Commission. The Fuel Recovery Surcharge is to be extended effective April 18, 2008.

2. The Extended Fuel Recovery Surcharge shall be in effect for 1 year to April 18, 2009, unless changed, cancelled or further extended by the Commission.

3. Copies of this order shall be served by the Secretary to the Office of Consumer Advocate and Office of Small Business Advocate. The Secretary shall forward this Order to the *Pennsylvania Bulletin* for publication.

4. Each carrier shall post a copy of this Extended Fuel Cost Recovery Surcharge along with the original Fuel Cost Recovery Surcharge dated April 17, 2003, in a conspicuous place in the office and vehicles. In addition, each carrier shall include the surcharge as a separate line item of the Estimate of Charges provided to prospective shippers and on the Bill of Lading.

5. The rates collected to the Extended Fuel Cost Recovery Surcharge are subject to refund in the event that any formal complaints are filed, within 30 days of the date of publication of this order, and are successful in challenging the surcharge.

Retail Markets Working Group; Doc. No. M-00072009

Under the Pennsylvania Public Utility Commission's Final Policy Statement on Default Service and Retail Electric Markets (Policy Statement) adopted May 10, 2007, at Docket No. M-00072009¹, Commission staff is convening the Retail Markets Working Group (RMWG). The purpose of the RMWG is to develop policy recommen-

dations in certain areas to enhance customer choice and the development of robust and effective retail markets.²

Sections 69.1812—69.1817 of the Policy Statement identify the topics referred to the RMWG. These topic areas are information and data access, rate and bill ready billing, purchase of receivables, customer referral program, supplier tariffs and retail choice ombudsman.

The Commission has directed the Law Bureau to oversee the RMWG. To initiate the working group process, and to determine the nature and type of subgroup meetings to be held, staff requests all parties interested in participating in the RMWG to submit position papers on the enumerated topics. Each party should include in its position paper the contact persons³ for each issue on which it intends to participate along with a concise summary of its position regarding each issue.

Position papers should be filed (original and 10 copies) with the Secretary's Bureau, Pennsylvania Public Utility Commission, P. O. Box 3265, Harrisburg, PA 17105-3265. Position papers will be posted on the Commission's web site www.puc.state.pa.us. Therefore no separate service on other parties is necessary. To facilitate the timely posting of comments to the Commission's web site, each position paper should also be submitted by electronic mail to Assistant Counsel Lawrence F. Barth at lbarth@state.pa.us.

Position papers should be submitted no later than 45 days after publication of this notice in the *Pennsylvania Bulletin*. Reply position papers should not be submitted.

Direct any questions regarding this notice to Assistant Counsel Barth at (717) 772-8579 or the e-mail address appearing previously.
