READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

PART V. PROFESSIONAL ETHICS AND CONDUCT [204 PA. CODE CH. 83]

Notice of Proposed Amendments to the Pennsylvania Rules of Disciplinary Enforcement Relating to the Conservators for Interests of Clients

The Disciplinary Board of the Supreme Court (Board) of Pennsylvania is considering recommending to The Supreme Court of Pennsylvania that it amend the Pennsylvania Rules of Disciplinary Enforcement, as set forth in Annex A, to make a number of changes in the rules relating to conservators appointed to protect the interests of clients of absent attorneys.

The proposed amendments reflect the experience of the Board with conservatorships under existing Rules 321, 322, 324, 325 and 328 of the Pennsylvania Rules of Disciplinary Enforcement over the past several years. Among the important changes being proposed are the following:

1. A provision would be added to provide that in cases where the Office of Disciplinary Counsel serves as a conservator, that office still has the authority to investigate and/or prosecute possible misconduct based on evidence obtained during its service as conservator.

2. Under the current rules, the presumption is that conservators will serve without compensation. In cases where nondisciplinary counsel conservators are appointed, the Board is proposing that they be compensated under a written agreement with the Office of Disciplinary Counsel at an hourly rate identical to that received by court-appointed counsel at the noncourt appearance rate in the judicial district where the conservator was appointed.

3. Pa.R.D.E. 321(a) would be amended to require the written concurrence of disciplinary counsel when applications to appoint conservators are filed by any other interested person. This provision would ensure that no attorney will be appointed as conservator until any compensation issues are resolved to Office of Disciplinary Counsel's satisfaction.

4. New Pa.R.D.E. 322(c) would require that the conservator make reasonable effort to identify and send written notice to all clients of the absent attorney whose files were opened within 5 years of the appointment, regardless of whether the case is active or not, and shall also identify and send written notice to all clients whose cases are active, regardless of the age of the file. All clients whose files are identified as both inactive and older than 5 years shall be given notice of the appointment of a conservator by publication of a notice all aspects of which are to be approved by the appointing court.

Interested persons are invited to submit written comments regarding the proposed amendments to the Office of the Secretary, The Disciplinary Board of the Supreme

Court of Pennsylvania, First Floor, Two Lemoyne Drive, Lemoyne, PA 17043, on or before September 8, 2008.

ELAINE M. BIXLER,
Secretary
Disciplinary Board of the
Supreme Court of Pennsylvania

(c) [The conservator shall send written notice to all clients of the absent attorney of the fact of the appointment of a conservator, the grounds which required such appointment, and the possible need of the clients to obtain substitute counsel. All such notices shall include the name, address and telephone number of any lawyer referral service or similar agency available to assist in the location of substitute counsel. The conservator shall, if necessary, send a second written notice to all clients of the absent attorney whose files appear to be active. The conservator shall deliver all such receipts to the appointing court at the time of filing the application for discharge. On approval by the appointing court of the application for discharge, all files remaining in the possession of the conservator shall be destroyed by the conservator in a secure manner which protects the confidentiality of the files.]

(1) The conservator shall make a reasonable effort to identify all clients of the absent attorney whose files were opened within five (5) years of the appointment of the conservator, regardless of whether the case is active or not, and a reasonable effort to identify all clients whose cases are active, regardless of the age of the file. The conservator shall send all such clients, and former clients, written notice of the appointment of a conservator, the grounds which required such appointment, and the possible need of the clients to obtain substitute counsel. All such notices shall include the name, address and telephone number of any lawyer referral service or similar agency available to assist in the location of substitute counsel. The conservator shall, if necessary, send a second written notice to all clients of the absent attorney whose files appear to be active.

(2) All clients whose files are identified by the conservator as both inactive and older than five (5) years shall be given notice by publication of the appointment of a conservator, the grounds which required such appointment, and the possible need of the clients to obtain substitute counsel. All such notices shall include the name, address and telephone number of any lawyer referral service or similar agency available to assist in the location of substitute counsel. The specific method of publication shall be approved by the appointing court, as to both the method, and duration, of publication. The conservator shall deliver proofs of publication to the appointing court at the time of filing the application for discharge.

(3) A file may be returned to a client upon the execution of a written receipt, or released to substitute counsel upon the request of the client and execution of a written receipt by such counsel. The conservator shall deliver all such receipts to the appointing court at the time of filing the application for discharge. On approval by the appointing court of the application for discharge, all files remaining in the possession of the conservator shall be destroyed by the conservator in a secure manner which protects the confidentiality of the files.

(e) The conservator shall file a written report with the appointing court and the Board no later than 30 days after the date of appointment covering the matters specified in subdivisions (a) through (c) of this rule. If those duties have not been accomplished, then the conservator shall state what progress has been made in that regard. Thereafter, the conservator shall file a similar written report every [30] 60 days until discharge.

(f) In the case of a deceased attorney, the Conservator shall notify the executor of the estate of the Disciplinary Board's need to be reimbursed by the estate for the costs and expenses incurred in accordance with Rule 328(c) (relating to compensation and expenses of conservator.)

Rule 324. Bank and other accounts.

(c) The conservator may engage the services of a certified public accountant when considered necessary to assist in the bookkeeping and auditing of the financial accounts and records of the absent attorney.

(1) If the state of the financial accounts and records of the absent attorney, or other relevant circumstances, render a determination as to ownership of purported client funds unreasonable and impractical, the conservator shall petition the appointing court for permission to pay all funds held by the absent attorney in any trust, escrow, or IOLTA account, to the Disciplinary Board for any unreimbursed costs of the conservatorship and to the Lawyers Fund For Client Security for any awards made to clients of the absent attorney. In the event there are funds remaining in the accounts, the court in its discretion may direct that said funds be paid to the Disciplinary Board, the Lawyers Fund for Client Security or the Interest On Lawyers Trust Account (IOLTA) Board. Any petition filed under this subsection shall be served by publication, the specific method and duration of which shall be approved by the appointing court.

Rule 325. Duration of conservatorship.

Appointment of a conservator pursuant to these rules shall be for a period of no longer than six months. The appointing court shall have the power, upon application of the conservator and for good cause, to extend the appointment for an additional three months. Any order granting such an extension shall include findings of fact in support of the extension. **No additional extensions shall be granted absent a showing of extraordinary circumstances.**

Rule 328. Compensation and expenses of conservator.

(a) A conservator [shall normally serve without compensation, but where a conservatorship is expected to be prolonged or require greater effort than normal the appointing court may, with the prior written approval of the Board Chairman, order that the conservator be compensated on an agreed basis. Any such agreement shall be filed with the Office of the Secretary.] not associated with the Office of Disciplinary Counsel shall be compensated pursuant to a written agreement between the conservator and the Board Chair. Compensation under such an agreement shall be paid at reasonable intervals, and at an hourly rate identical to that received by court-appointed counsel at the non-court appearance rate in the judicial district where the conservator was appointed. Where the conservator believes that extraordinary circumstances justify an enhanced hourly rate, the conservator may apply to the Board Chair for enhanced compensation. Such an application shall be granted only in those situations where extraordinary circumstances are shown to justify enhanced compensation.

[(b) Upon the completion of a conservatorship, the appointing court, with the prior written approval of the Board Chairman, shall have the power to award compensation or to increase compensation previously agreed to upon application of the conservator and upon demonstration by the conservator that the nature of the conservatorship was extraordinary and that failure to award or increase previously agreed compensation would work a substantial hardship on the conservator. In such event, compensation shall be awarded only to the extent that the efforts of the conservator have exceeded those normally required or reasonably anticipated at the time the original compensation agreement was approved.]

[(c) (b) The necessary expenses (including, but not limited to, the fees and expenses of a certified public accountant engaged pursuant to Enforcement Rule 324(c)) and any compensation of a conservator or any attendant staff shall, if possible, be paid by the absent attorney or his or her estate. [If not so paid, then upon certification by the president judge of the appointing court and approval by the Board Chairman, the] Any expenses and any compensation of the conservator that are not reimbursed to the Board shall be paid as a cost of disciplinary administration and enforcement. [See Enforcement Rule 219(a) (relating to periodic assessment of attorneys).] Payment of any costs incurred by the Board pursuant to this rule that have not been reimbursed to the Board may be made a condition of reinstatement of a

formerly admitted attorney or may be ordered in a disciplinary proceeding brought against the absent attorney.

RULE L1302

ARBITRATION

(a) All cases which are at issue, where the amount in controversy (exclusive of interest and costs) shall be \$50,000 or less, except those involving title to real estate,

equity actions, actions upon bail bonds and recognizances, actions upon penal statutes, and other actions which do not involve the recovery of money damages, including divorce, mandamus and quo warranto, shall be submitted to and heard and decided by a Board of Arbitration which shall be composed of three (3) attorneys. The Prothonotary shall maintain a list of available arbitrators who shall all be members of the Bar actively engaged in the practice of law primarily in McKean County.

After an arbitration panel has been selected and all parties notified thereof, any party or their counsel may request that an Arbitrator disqualify themselves if their impartiality might reasonably be questioned including but not limited to instances where: they have a personal bias or prejudice concerning a party, or personal knowledge of disputed evidentiary facts concerning the proceeding; or they have served as a lawyer in the matter in controversy or they have a substantial financial interest in the matter in controversy.

(b) Cases which are not at issue, and whether or not suit has been filed, may be submitted to a Board of Arbitration by agreement of reference signed by all parties or their counsel. The agreement of reference shall define the issues to be submitted to the Board, and, when agreeable to the parties, shall also contain stipulations with respect to facts agreed or defenses waived. When a case is submitted to the Board by agreement of reference, the agreement shall take the place of pleadings and shall be filed of record in the office of the Prothonotary and shall be assigned a number and term.

(c) Cases shall be placed on the arbitration list by one or more of the parties in the case or their counsel filing a Praeceptum for Arbitration, together with a listing fee in the amount of \$100. Ten days after the case has been praeciped onto the list, if no objection thereto have been filed, the Prothonotary shall promptly appoint a panel of three (3) arbitrators to hear and decide the case, and shall forward copies of all pleadings and other documents filed in the case to all arbitrators. The chairman so appointed shall forthwith establish the time, date and place of trial and notify all counsel of record, unrepresented parties, and members of the arbitration panel thereof at least 30 days in advance unless a shorter time is stipulated to. All trials shall be held within 60 days of the date the chairman is appointed by the Court. In the event the matter is settled prior to hearing but after the chairman has scheduled a hearing, \$50 of the filing fee shall be paid to the chairman as reimbursement for office expenses. In the event the matter has been settled prior to hearing and before the chairman has scheduled a hearing, \$50 of the filing fee shall be refunded to the party who paid it. In either event the remaining \$50 shall be retained by the Prothonotary to reimburse expenses. The filing fee shall be charged to the party first listing the case for hearing, and only be assessed one time per case.

(d) Each member of a Board of Arbitrators who has signed the award shall receive as compensation for his services in each case a fee of Two Hundred Fifty (\$250.00) Dollars. In cases requiring hearings of unusual duration or involving questions of unusual complexity, the Court, on petition of the members of the Board and for cause shown, may allow additional compensation. The members of a Board shall not be entitled to receive their fees until after filing an award with the Prothonotary. When the same is filed, the Prothonotary shall issue an order for payment of such fees which shall be immediately paid

from County funds as in the case of all other County debts. Fees paid to Arbitrators shall not be taxed as costs nor follow the award as other costs.

(e) Before entering upon their duties the members of the Board of Arbitrators shall subscribe to an oath to perform their duties and decide the case submitted to them justly and equitably, and with due diligence, which oath shall be filed with their award. In all cases, a decision by majority of the members of the Board of Arbitrators shall be conclusive. **If a case is listed for arbitration and is settled before hearing counsel shall notify the Chairman of the Board of Arbitrators of the terms of the settlement and the Board of Arbitrators shall enter an award consistent with the terms of settlement and file the same with the Prothonotary.**

(f) The Board of Arbitrators, or a majority of the members thereof, shall conduct the hearing before them with due regard to the law and according to the established rules of evidence, and shall have the general powers of a court including, but not limited to, the following powers:

(1) To issue subpoenas to witnesses to appear before the Board as in other civil actions, and to issue an attachment upon allowance by the Court for failure to comply therewith.

(2) To compel the production of all books, papers and documents which they shall deem material to the case.

(3) To administer oaths or affirmations to witnesses, to determine the admissibility of evidence, to permit testimony to be offered by deposition, and to decide the law and facts of the case submitted to them.

(4) To adjourn their meetings from time to time. Requests for continuances shall be made to the Court of Common Pleas.

(a) If, after the appointment of a Board of Arbitrators, but before hearings, one of the members thereof shall die or become incapable of acting, or shall refuse to attend the hearing, or shall remove or depart from the county, the remaining members of the Board shall, upon agreement of the parties, proceed to hear the matter at issue.

(b) If a member of the Board dies or becomes incapable of acting, or shall fail or refuse to perform his duties, after hearing but before an award shall be made, the case shall be decided and the award signed by the remaining members of the Board. If they cannot agree, the matters shall be heard de novo by a new Board, to consist of the remaining members plus a third to be appointed by the Prothonotary.

(c) The Board shall have the right to proceed *ex parte* in a proper case if, after due notice, one of the parties fails to appear at the hearing and does not request a continuance for good cause.

(d) The Board of Arbitrators shall file an award with the Prothonotary within 20 days after the hearing. The award shall be signed by all or a majority of the members of the Board. The Prothonotary shall file the award and enter the same in the proper dockets and transmit a copy

thereof by mail to the parties or their counsel. The Prothonotary shall record any award in the judgment index as verdicts are now recorded.

(e) The award, if any, unless appealed from as herein provided, shall be final and shall have all the attributes and legal effect of a judgment entered by a court of competent jurisdiction. If no appeal is taken within the time allotted therefor, execution process may be issued on the award as in the case of other judgments.

(f) An appeal from an award by the Board of Arbitrators may be taken pursuant to procedure established in the Pennsylvania Rules of Civil Procedure.

(g) All appeals shall be de novo. Despite any costs which a successful appellant may recover from the adverse party, he shall nevertheless not be entitled to recover the arbitrators' fees paid by him as a condition of taking his appeal.

(h) Any party may file exceptions with the Court from the decision of the Board of Arbitration within twenty (20) days from the filing of the award for either or both of the following reasons and for no other:

(1) That the arbitrators misbehaved themselves in the conduct of the case;

(2) That the actions of the Board was procured by corruption or other undue means. If such exceptions shall be sustained, the award of the Board shall be vacated by the Court.

(g) Any case not arbitrable under the foregoing provisions of this Rule may be submitted to arbitration according to the procedure herein provided, by stipulations of all Parties thereto or their counsel.

(h) This Rule shall apply to cases involving more than one claim, including counter claims, if none of such claims exceed \$25,000.

(i) This Rule shall govern cases pending in the Court of Common Pleas of McKean County on the effective date hereof, and all such cases to which the rule shall be applicable which are listed for trial shall be stricken from the trial list and referred to arbitration under the provisions hereof.

(j) The Prothonotary shall provide such printed forms as shall be appropriate to effectuate the provisions of this rule.

(k) All rules of this court or portions thereof which are inconsistent herewith are hereby repealed.

CERTIFICATION

I hereby certify that this is a true and correct copy of the proposed changes to McKean County Local Rule 1302.

RULES AND REGULATIONS

Title 49—PROFESSIONAL AND VOCATIONAL STANDARDS

State Board of Social Workers, Marriage and Family Therapists and Professional Counselors

[49 PA. CODE CH. 47]

Biennial Renewal Fees

The State Board of Social Workers, Marriage and Family Therapists and Professional Counselors (Board) amends § 47.4 (relating to licensure fees).

Effective Date

The amendment will be effective upon publication of the final-form rulemaking in the *Pennsylvania Bulletin*. The increased fees will be effective for the biennial renewal period beginning March 1, 2009.

Statutory Authority

Section 18(c) of the Social Workers, Marriage and Family Therapists and Professional Counselors Act (act) (63 P. S. § 1918(c)) requires the Board to increase fees by regulation to meet or exceed projected expenditures if the revenues raised by fees, fines and civil penalties are not sufficient to meet Board expenditures.

Background and Purpose

The Board's current biennial license renewal fees for licensed social workers were established on December 1, 1990. (See 20 Pa.B. 5937.) The Board's current biennial license renewal fees for the newer licensee classifications of licensed clinical social workers, marriage and family therapists and professional counselors were originally established at 32 Pa.B. 5885 (November 27, 2002) and were set at that time at the same level as those in effect for licensed social workers (\$45). Under section 18(c) of the act, the Board is required by law to support its operations from the revenue it generates from fees, fines and civil penalties. In addition, the act provides that the Board must increase fees if the revenue raised by fees, fines and civil penalties is not sufficient to meet expenditures over a 2-year period. The Board raises virtually all of its revenue through biennial renewal fees.

At its Board meeting on February 13, 2007, the Department of State's Offices of Revenue and Budget presented a summary of the Board's revenue and expenses for Fiscal Years (FY) 2004-2005 and 2005-2006, and projected revenue and expenses through 2016-2017. The Offices of Revenue and Budget project a deficit of \$67,350.37 in FY 2008-2009, a deficit of \$416,350.37 in FY 2010-2011, a deficit of \$338,350.37 in FY 2011-2012, a deficit of \$841,350.37 in FY 2012-2013, a deficit of \$827,350.37 in FY 2013-2014, a deficit of \$1,397,350.37 in FY 2014-2015, a deficit of \$1,453,350.37 in FY 2015-2016, and a deficit of \$2,097,350.37 in FY 2016-2017. The major reason for the projected deficits is that the renewal fees for social workers have not been increased since 1990 and the renewal fees for licensed clinical social workers, marriage and family therapists and professional counselors have not been increased since their inception in 2002. Those fees have carried the Board for almost 17 years for social workers and 5 years for the other newer licensee catego-

ries. As a result of the projected deficits, the Offices of Revenue and Budget recommended that the Board raise fees to meet or exceed projected expenditures, in compliance with section 18(c) of the act. The Budget Office anticipates that the proposed new biennial renewal fees will enable the Board to meet its estimated expenditures for at least 9 years.

Although the \$30 fee increase is significant, it is not surprising. As already stated, the fees for licensed social workers have not been increased since 1990 and the fees for licensed clinical social workers, marriage and family therapists and professional counselors have not been increased since they were originally established in 2002. Also, in spite of the proposed increase, the Board's new renewal fee of \$75 every 2 years will still be lower than a majority of the surrounding states. For example, in New York, social workers and clinical social workers pay \$155 every 3 years. In New Jersey, social workers pay \$120 every 2 years and clinical social workers pay \$160 every 2 years. In Delaware, clinical social workers pay \$102 every 2 years. In Ohio, social workers pay \$60 every 2 years. In West Virginia, social workers and clinical social workers pay \$65 every 2 years. Finally, in Maryland, social workers and clinical social workers pay \$200 every 2 years. None of the surrounding states have separate licensee categories for marriage and family therapists or professional counselors.

Summary of Comments and the Board's Response

Notice of proposed rulemaking was published at 37 Pa.B. 5264 (September 29, 2007). The Board received comments from the National Association of Social Workers, Pennsylvania Chapter (NASW-PA); and the Pennsylvania Society for Clinical Social Work (PSCSW). In addition, as part of their review under the Regulatory Review Act, the House Professional Licensure Committee (HPLC) and the Independent Regulatory Review Commission (IRRC) submitted comments. The following represents a summary of those comments and the Board's response.

The NASW-PA recognized the need to raise fees to meet anticipated expenses, however they would prefer to see a gradual increase over the next three biennial renewal periods rather than a large one-time increase. Likewise, the PSCSW suggested that the Board consider a more graduated schedule of fee increases over the next few years in order to reduce the burden on licensed social workers. IRRC noted the concerns of these public commentators and recommended that the Board consider implementing incremental fee increases in order to lessen the financial burden on licensees.

The Department of State is still reviewing the possibility of implementing graduated fee increases to determine if that approach is feasible under the enabling acts governing the boards and commissions under the Bureau of Professional and Occupational Affairs. The Board is concerned that phasing in fee increases may not be feasible given the language in section 18(c)(1) of the act, 63 P. S. § 1918(c)(1), which provides that "[i]f the revenues raised by fees, fines and civil penalties imposed pursuant to this act are not sufficient to meet expenditures over a 2-year period, the board shall increase those fees by regulation so that the projected revenues will meet or exceed projected expenditures." At this time, the Offices of Revenue and Budget determined that a \$30 fee was necessary to avoid projected deficits in 2008-2009

and thereafter. Therefore, to avoid the projected deficits and to comply with the requirement to increase the fees so that projected revenue will meet or exceed projected expenditures, the Board has determined to go forward with the proposed increase at this time. Finally, while an increase of \$30 (from \$45 to \$75) is statistically significant, it amounts to \$15 per year for the biennial renewal period. As noted previously, the new fee will still be lower than the fees imposed by a majority of the surrounding states.

The HPLC questioned the 17-year lapse since the last biennial fee increase. As noted previously, the Board established the biennial renewal fee for social workers in 1990. In 2002, three new categories of license were created (licensed clinical social workers, marriage and family therapists and professional counselors), which had the effect of more than doubling the licensee population of the Board. At that time, biennial renewal fees for those classifications were set at the same level as that for social workers at \$45. The additional revenues from the new licensure categories continued to outpace expenditures until now. Because the revenues produced by those fees were adequate, there was no need to increase fees under section 18(c) of the act. However, a recent unanticipated increase in the expenses of the Board over the last few years has depleted the Board's surplus and the Board is now facing increasing deficits for the foreseeable future unless the biennial renewal fee is increased at this time.

The HPLC requested additional fiscal information explaining the major cost centers where significant increases had occurred in the previous 5 years. The major expense categories that have significantly increased are board administration, legal office, hearing examiners, enforcement and investigation and professional health monitoring. Specifically, the Board's administrative expenses increased from \$172,529.99 in FY 2002-2003 to \$245,880.18 in FY 2006-2007. Part of this increase is due to the Board's share of costs for the renovations related to the expansion of the office space utilized by the Health Licensing Division of the Bureau of Professional and Occupational Affairs. These costs were allocated between all health-related boards based on licensee population.

Legal office costs increased from \$75,326.65 in FY 2002-2003 to a high of \$195,493.34 in FY 2005-2006 followed by a decrease to \$152,681.01 in FY 2006-2007. Still these costs have essentially doubled in only 5 years. These include the costs of the Board's legal counsel, and the costs of prosecuting, adjudicating and defending disciplinary matters before the Board. Similarly, the hearing expenses incurred have nearly doubled over these 5 years, from \$6,208.09 in FY 2002-2003 to \$11,336.18 in FY 2006-2007. Enforcement and investigation costs saw the most dramatic increases in expenses—from \$23,957.99 in FY 2002-2003 to \$86,096.00 in FY 2006-2007.

The increases in enforcement and investigation, legal office costs and hearing expenses are the result of a combination of factors. Doubling the licensee population of the Board since 2002 obviously results in an increase in potential disciplinary actions. In addition, the Board's and the Department's presence on the internet has resulted in increased public awareness of the complaint process and has made it easier to file a complaint against a licensee. For example, in FY 2002-2003, a total of 74 disciplinary files were opened. In FY 2006-2007, there were 163 disciplinary files opened (down from 222 in FY 2005-2006). Each complaint file must be investigated to determine if a violation of the act or regulations of the Board occurred. The legal office must then prosecute

those matters where a violation is found. The Board incurs hearing expenses for each matter actually prosecuted, and the Board incurs additional legal costs defending any appeals.

Finally, costs related to professional health monitoring increased from only \$2,095.18 in FY 2002-2003 to \$5,156.02 in FY 2006-2007. This increase is a result of an increase in the number of the Board's licensees who are participating in the Department's Professional Health Monitoring Program (PHMP). The number of participants in this program increased from 6 in FY 2005-2006 to 9 in FY 2006-2007. PHMP costs are allocated based on the number of open cases.

These cost categories represent the bulk of the Board's budget. Overall, the Board's expenditures increased from \$349,932.98 in FY 2002-2003 to \$580,132.58 in FY 2005-2006 and \$591,199.77 in FY 2006-2007. Thus, the Board must set its fees at a level that will produce approximately \$1.2 million per biennial renewal period to meet or exceed its expenses as required by the act. There are approximately 14,500 Board licensees. Therefore, at \$75 per licensee, the anticipated revenue from biennial renewal fees, which makes up the bulk of the Board's revenue, will be approximately \$1,087,500. The remaining revenue comes from other user fees and from civil penalties imposed by the Board.

Fiscal Impact

The final-form rulemaking increases the biennial renewal fee for licensed social workers, clinical social workers, marriage and family therapists and professional counselors from \$45 to \$75 each biennial renewal period. The rulemaking should have no other fiscal impact on the private sector, the general public or political subdivisions.

Paperwork Requirements

The final-form rulemaking will require the Board to alter some of its forms to reflect the new biennial renewal fees; however, the final-form rulemaking should not create additional paperwork for the private sector.

Sunset Date

The act requires that the Board monitor its revenue and costs on a fiscal year and biennial basis. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 19, 2007, the Board submitted a copy of the proposed rulemaking, published at 37 Pa.B. 5264 (September 29, 2007), to IRRC and to the Chairpersons of the HPLC and the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC) for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC, the HPLC and the SCP/PLC, were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Board has considered all comments from IRRC, the HPLC and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on June 11, 2008, the final-form rulemaking was approved by the HPLC. On July 9, 2008, the final-form rulemaking was deemed approved by SCP/PLC. Under section 5.1(e) of the Regulatory Review Act, IRRC met on July 10, 2008, and approved the final-form rulemaking.

The amendment of § 141.4 was adopted under this authority.

2. *Regulatory Requirements*

The final-form rulemaking amended Chapter 141, Appendix G to replace the Sunrise/Sunset Table with an up-to-date Hunting Hours Table and Migratory Game Bird Hunting Hours Table to accurately reflect the dates and hours of legal hunting for the 2008-2009 hunting year.

GAME COMMISSION
[58 PA. CODE CH. 147]
Special Permits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 24, 2008, meeting, adopted the following rule-making:

Amend § 147.675 (relating to validity of permit) to expand the eligibility period for the validity of DMAP permits to include open seasons for antlered deer during the regular firearms season while also providing clarification that DMAP harvest permits are valid only to harvest antlerless deer.

The final-form rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 38 Pa.B. 3244 (June 14, 2008).

1. *Purpose and Authority*

At the April 2008 Commission meeting, the Commission adopted the creation of a bifurcated regular firearms season in Wildlife Management Units 2D, 2G, 3C and 4B during which the first 5 days will be limited to the harvest of antlered deer only and the last 7 days open to

the harvest of both antlered and antlerless deer. The Commission has recognized that the intentional shortening of the regular firearms season for antlerless deer would also have the unintentional affect of causing a resulting 1 week reduction in the time periods during which DMAP permits would be valid. In its continuing interest to assist landowners in achieving deer densities consistent with their land use goals through the use of licensed hunters, the Commission amended § 147.675 to expand the eligibility period for the validity of the DMAP permits to include open seasons for antlered deer during the regular firearms season. In an effort to curb confusion, the Commission also amended § 147.675 to clarify that DMAP harvest permits are valid only to harvest antlerless deer.

Section 2901(b) of the code (relating to authority to issue permits) provides that "The commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendment of § 147.675 was adopted pursuant to this authority.

2. *Regulatory Requirements*

The final-form rulemaking amends § 147.675 to expand the eligibility period for the validity of DMAP permits to include open seasons for antlered deer during the regular firearms season while also providing clarification that DMAP harvest permits are valid only to harvest antlerless deer.

3. *Persons Affected*

Persons wishing to hunt white-tailed deer within this Commonwealth under a DMAP harvest permit may be affected by the final-form rulemaking.

4. *Comment and Response Summary*

There were no official comments received regarding this final-form rulemaking.

5. *Cost and Paperwork Requirements*

The final-form rulemaking should not result in any additional cost or paperwork.

6. *Effective Date*

The final-form rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. *Contact Person*

For further information regarding the final-form rulemaking, contact Richard R. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendment adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of this amendment of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 147, are amended by amending § 147.675 to read as set forth at 38 Pa.B. 3244.

[55 PA. CODE CHS. 108 AND 187]

Family Violence and TANF and GA; and Support From Relatives Not Living With the Client

Statutory Authority

The Department of Public Welfare (Department) under the authority of sections 201(2) and 403(b) the Public Welfare Code (62 P. S. §§ 201(2) and 403(b)); Titles I and III of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) (Pub. L. No. 104-193); and 23 Pa.C.S. §§ 4301—4381, 5103, 7101—7901 and 8101—8418 intends to propose the regulations in Chapter 108 (relating to Family Violence and TANF and GA) and amend the regulations in Chapter 187 (relating to support from relatives not living with the client) as set forth in Annex A.

Purpose of Regulation

The purpose of this proposed rulemaking is to add a new Chapter 108 to 55 Pa. Code. The Department proposes to codify requirements that support victims of domestic violence who apply for or receive benefits under the Temporary Assistance for Needy Families (TANF) or General Assistance (GA) cash assistance programs.

The proposed rulemaking also amends 55 Pa. Code Chapter 187 by amending regulations relating to domestic violence that will be incorporated into the newly proposed Chapter 108.

The Department will apply the policies in this proposed rulemaking to help identify victims of domestic violence, refer them to appropriate services, waive certain TANF or GA program requirements when appropriate and protect the confidentiality of domestic violence victims.

Background

Concerned about the pervasiveness of domestic violence and its impact on families needing assistance, Congress addressed these issues in PRWORA under the "Family Violence Option" (FVO) in 42 U.S.C.A. §§ 602(a)(7) and 608(a)(7)(C)(iii) (relating to eligible states; state plan; and prohibitions; requirements). The Department recognizes that clients may rely on public assistance as a means to escape domestic violence, address safety issues and become financially independent of abusive partners or family members. Domestic violence can interfere with a client's ability to comply with welfare requirements, causing the loss of needed benefits. At times, welfare requirements such as cooperating in establishing paternity and establishing and enforcing child support, engaging in job training, looking for work and getting a job, can place victims and their families at risk of further domestic violence.

States that adopt the FVO may waive one or more public assistance program requirements for a victim of domestic violence if complying with those requirements would make it more difficult for the victim to escape domestic violence, unfairly penalize the individual or place the individual at risk of further domestic violence. Under the FVO, states certify that they will develop a system to screen for victims of domestic violence and refer them to appropriate counseling and supportive services. The Commonwealth elected to adopt the FVO in its 1997 TANF State Plan and confirmed this election in subsequent plans submitted to the Federal Department of Health and Human Services, Administration for Children and Families.

In implementing the FVO, the Department developed policies to provide applicants and recipients with information about domestic violence, the availability of supportive services and the option to waive certain program requirements such as support cooperation, time limits and work. One or more program requirements may be waived if compliance would make it more difficult for the individual to escape domestic violence or unfairly penalize individuals who are victims, have been victims or who are at risk of further domestic violence.

Requirements

The following is a summary of the specific provisions in the proposed rulemaking:

§ 108.1. (relating to purpose).

The Department describes reasons for adoption of the FVO and ways in which it will use policies to assist victims of domestic violence who apply for or receive TANF or GA cash assistance. The Department will use the policies in this chapter to help identify victims of domestic violence; refer victims to counseling, shelter or other appropriate services; and waive certain TANF or GA program requirements when appropriate.

§§ 108.3—108.5 (relating to universal notification; written notification; and individual notification).

The Department describes universal notification policies relating to domestic violence, referral to domestic violence services, confidentiality protections and waivers of TANF or GA program requirements.

The Department describes the requirements for providing written and oral notification to applicants and recipients.

§§ 108.7 and 108.8. (relating to requirements subject to waiver based on domestic violence; and claiming good cause based on domestic violence).

The Department describes standards for waivers of support cooperation, work requirements, time limits, minor parent live-at-home rules, verification and other TANF or GA program requirements, based on domestic violence.

§ 108.9. (relating to time limits).

The Department currently provides up to 12 months of cash assistance benefits that do not count towards the 60-month TANF time limit to victims of domestic violence. In 2002, the Department codified regulations governing these benefits in Chapter 281 (relating to time-out benefits) which sunset effective July 1, 2004. This rulemaking proposes to codify the time-out provisions of obsolete Chapter 281 that relate to victims of domestic violence under Chapter 108.

The Department also provides Extended TANF benefits to victims of domestic violence who are otherwise eligible as provided in § 141.53 (relating to eligibility based on domestic violence). This proposed rulemaking codifies under Chapter 108 that victims of domestic violence may receive Extended TANF and cross references § 141.53.

§ 108.10. (relating to verification).

The Department explains the verification form to be completed by an individual who wishes to establish good cause for a waiver of TANF or GA program requirements based on domestic violence.

§§ 108.11 and 108.12. (relating to time frames for good cause waiver determinations based on domestic violence; and notice of good cause waiver determinations based on domestic violence).

The Department describes policies relating to the time frames within which it will determine an individual's eligibility for domestic violence waivers and policies relating to written notice of its determination.

§§ 108.14–108.16 (relating to safeguarding information; alternate address; and DRS responsibility for the FVI).

The Department describes policies relating to safeguarding information about victims of domestic violence. The Department explains that a victim of domestic violence may use an alternate address for receipt of mail. The Department also explains how confidential information is safeguarded by requiring the DRS to place a Family Violence Indicator (FVI) on Department files.

§ 108.17. (relating to Agreement of Mutual Responsibility (AMR)).

The Department describes the policy for completing an AMR for an individual who has disclosed domestic violence.

§§ 187.22 and 187.27 (relating to definitions; and waiver of cooperation for good cause).

The Department proposes to amend regulations relating to domestic violence from this chapter and add cross references to Chapter 108. The Department also proposes minor technical revisions to this chapter. For example, the acronym "CAO" is replaced with the term "Department."

Affected Individuals and Organizations

This proposed rulemaking affects applicants and recipients who are victims of domestic violence. This proposed

rulemaking also affects community referral agencies such as counseling, shelter and other domestic violence service providers.

Accomplishments and Benefits

This proposed rulemaking will benefit TANF and GA applicants and recipients who are victims, have been victims, or are at risk of further victimization due to domestic violence.

Individuals who disclose domestic violence will be referred for appropriate voluntary counseling and supportive services. Those individuals who request and receive a waiver of TANF or GA program requirements will be temporarily excused from those requirements when compliance could jeopardize their safety, make it more difficult for them to escape domestic violence or place them at risk of further violence. Individuals who receive waivers of the 60-month time limit on receipt of TANF benefits will have more time to avail themselves of programs and supportive services that are designed to move them toward self-sufficiency.

Approximately 3,500 individuals currently receiving cash assistance have good cause waivers for child support or work requirements.

According to a study by Richard Tolman and Jody Raphael in "A Review of the Research on Welfare and Domestic Violence." *Journal of Social Issue* and Sharmila Lawrence's issue brief titled "Domestic Violence and Welfare Policy: Research Findings That Can Inform Policies on Marriage and Child Well-Being" from the Research Forum on Children, Families and the New Federalism. National Center for Children in Poverty, approximately 25% of current welfare recipients have a history of domestic violence. With the current TANF population, these regulations could benefit approximately 30,000 individuals and families.

Fiscal Impact

There are no costs or savings associated with these proposed regulations.

Paperwork Requirements

A new written consent form is needed to allow the Department to release information to a third party about the applicant or recipient that is not subject to disclosure as provided under proposed § 108.14 (relating to safeguarding information). Completion of this form should not have a significant impact on CAO workload as it will be used under limited circumstances.

Effective Date

This proposed rulemaking is effective upon final publication in the *Pennsylvania Bulletin*.

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to the Department at the following address: Edward J. Zogby, Director, Bureau of Policy, Room 431, Health and Welfare Building, Harrisburg, PA 17120, (717) 787-4081, within 30 calendar days after the date of publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Persons with a disability who require an auxiliary aid or service may submit comments by using the AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Regulatory Review Act

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 5, 2008, the Department submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Health and Human Services and the Senate Committee on Public Health and Welfare. In addition to submitting the proposed rulemaking, the Department has provided IRRC and the Committees with a copy of a Regulatory Analysis Form prepared by the Department. A copy of this form is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has any comments, recommendations or objections to any portion of the proposed rulemaking, it may notify the Department and the Committees within 30 days after the close of the public comment period. The notification shall specify the regulatory review criteria that have not been met. The Regulatory Review Act specifies detailed policies for review by the Department, the General Assembly and the Governor, of any comments, recommendations or objections raised, prior to final publication of the regulations.

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 24, 2008, meeting, proposed the following rule-making:

Amend § 143.243 (relating to general) to expand the list of species that mentored youth are eligible to pursue to include coyotes.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the June 24, 2008, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until October 17, 2008.

1. Purpose and Authority

Since the successful implementation of the Mentored Youth Hunting Program in the fall of 2006, the Commission has been seeking input from sportsmen and sporting organizations on ways to improve this innovative new program. Towards this end, two organizations, the Governor's Youth Council for Hunting, Fishing and Conservation and the PA Fox and Coyote Hunters Association, have organized to recommend that the program could be improved with the addition of coyotes to the list of species that may be lawfully pursued by mentored youth. In its continuing interest to find new opportunities to expose youth to this State's wildlife resources and enduring hunting heritage, the Commission is proposing to amend § 143.243 by expanding the list of species that mentored youth are eligible to pursue to include coyotes.

Section 2722(g)(2) of the code (relating to authorized license-issuing agents) provides that the Commission shall adopt regulations for "The administration, control and performance of activities conducted pursuant to the provisions of this chapter." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendment of § 143.243 was proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend § 143.243 to expand the list of species that mentored youth are eligible to pursue to include coyotes.

3. Persons Affected

Mentored youth wishing to hunt or trap within this Commonwealth may be affected by the proposed rule-making.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in any additional cost or paperwork.

5. *Effective Date*

The proposed rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. *Contact Person*

For further information regarding the proposed rulemaking, contact Richard A. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Special Permits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 24, 2008, meeting, proposed the following rulemaking:

Amend §§ 147.721—147.726 and 147.728 and 147.729 (relating to commercial wildlife pest control) by changing the name of the permit, and to update and expand nuisance wildlife control operator standards.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the June 24, 2008, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until October 17, 2008.

1. *Purpose and Authority*

Chapter 147, Subchapter T provides the regulatory structure for the Commission to authorize persons to engage in nuisance wildlife control activities. The Commission has identified that these regulations have over time become inadequate to address the needs of the Commission and the public concerning the persistent problem of nuisance wildlife and therefore needed to be amended. Some notable recommendations generated by the Commission include the renaming of permit holders as "nuisance wildlife control operators" rather than the current "wildlife pest control agents," the expansion of applicant eligibility standards to permit application from nonresidents, new requirements for the control of rabies vector species and, finally, new testing standards for applicants working in deer control. Therefore, the Commission is proposing to amend §§ 147.721—147.726 and 147.728 and 147.729 to update and expand nuisance wildlife control operator standards.

Section 2901(b) of the code (relating to authority to issue permits) provides "the commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to §§ 147.721—147.726 and 147.728—147.729 were proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking will amend §§ 147.721—147.726 and 147.728—147.729 to update and expand nuisance wildlife control operator standards.

3. *Persons Affected*

Persons wishing to engage in nuisance wildlife control activities within this Commonwealth will be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in any additional cost or paperwork.

5. *Effective Date*

The proposed rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

[58 PA. CODE CH. 147]
Special Permits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 24, 2008, meeting, proposed the following rule-making:

Amend §§ 147.301—147.307 and 147.309 (relating to wildlife rehabilitation) to update and expand wildlife rehabilitation standards.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the June 24, 2008, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until October 17, 2008.

1. Purpose and Authority

The Commission has been working in consultation with the Wildlife Rehabilitation Council (Council) to update and amend the wildlife rehabilitation regulations in an effort to redress concerns the Commission and Council share respecting the inadequacy of current permitting standards. Some notable recommendations generated include the creation of new rehabilitation facility caging and sanitation requirements for all wildlife, new requirements for the rehabilitation of rabies vector species and, finally, new application, qualification and testing standards for permit applicants. Therefore, the Commission is proposing to amend §§ 147.301—147.307 and 147.309 to update and expand wildlife rehabilitation standards.

Section 2901(b) of the code (relating to authority to issue permits) provides "the commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or

wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to §§ 147.301—147.307 and 147.309 were proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend §§ 147.301—147.307 and 147.309 to update and expand wildlife rehabilitation standards.

3. Persons Affected

Persons wishing to rehabilitate game or wildlife within this Commonwealth will be affected by the proposed rulemaking.

[58 PA. CODE CH. 147]
Special Permits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 24, 2008, meeting, proposed the following rule-making:

Amend §§ 147.322, 147.324 and 147.325 (relating to application for deer control permit; privileges authorized under the permit; and special conditions of permit) to expand the list of authorized applicants to also include homeowners associations and nonprofit land-holding organizations.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the June 24, 2008, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until October 17, 2008.

1. Purpose and Authority

In developed landscapes, lower deer populations result in fewer deer/human conflicts. Therefore, alternative herd reduction tools are necessary for communities to address growing deer populations. Although the Commission is directed by law to use hunting in managing white-tailed deer, hunting is not always feasible in an urbanized setting. Currently, only political subdivisions may apply for a Deer Control Permit. Recognizing that urban deer issues do not always affect an entire township or borough, the Commission is proposing to amend §§ 147.322, 147.324 and 147.325 to expand the list of authorized applicants to also include homeowners associations and nonprofit land-holding organizations. This does not change the requirements or review process of an application. It merely makes this tool available to more groups experiencing unacceptable levels of deer/human conflicts in a developed area.

Section 2901(b) of the code (relating to authority to issue permits) provides "the commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game

or wildlife in this Commonwealth." The amendments to §§ 147.322, 147.324 and 147.325 were proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend §§ 147.322, 147.324 and 147.325 to expand the list of authorized applicants to also include homeowners associations and nonprofit land-holding organizations.

3. Persons Affected

Homeowners associations and nonprofit land-holding organizations wishing to engage in deer control activities within this Commonwealth may be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking should not result in any additional cost or paperwork.

5. Effective Date

The proposed rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. Contact Person

For further information regarding the proposed rule-making, contact Richard A. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of September 2008

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of September, 2008, is 6 3/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 4.32 to which was added 2.50 percentage points for a total of 6.82 that by law is rounded off to the nearest quarter at 6 3/4%.

In accordance with the publication requirements in section 1607.1(c), the Department of Education provides the following update:

Student Selection Process per Legislative Mandate

1. Which high schools are available?

Duquesne students (grade 8) will attend West Mifflin Area High School and East Allegheny High School beginning in the fall of 2008.

2. How many students will be assigned to each high school?

Students will be assigned so that 65% of the students will attend West Mifflin Area High School and 35% of the students will attend East Allegheny High School.

3. Who is eligible to attend either of these high schools?

All Duquesne residents who want to continue in public school for the 2008-09 school year are eligible to participate in the selection process—this includes 8th grade students who will be entering 9th grade in the fall of 2008.

Private, religious or charter school students need to first register as Duquesne students in the elementary school office to be eligible and to take part in the selection process.

4. How will the selection process work?

After reviewing the information provided about each school, students must select either West Mifflin Area High School or East Allegheny High School as their school choice.

Each student must complete a selection card and return it to the Duquesne Education Center office by February 5, at 4:00 p.m.

Younger siblings who wish to attend the same high school as their older siblings will be placed first.

If the number of students selecting a school exceeds the determined enrollment number, then all interested students selecting that school will be placed in a lottery.

5. Selecting a high school will not be determined on a first come first serve basis.

Every student who completes and returns the school selection card during the selection process has an equal chance of getting his or her first choice school.

6. How will the lottery work?

If necessary, the lottery drawing will take place on Friday, February 8, 2008 at a public meeting with community members in attendance. The lottery process will be explained before the lottery takes place.

7. How does selection work for siblings?

Siblings in grade 8 will attend the same high school that their older brother or sister has chosen unless a parent or guardian specifies otherwise. For this purpose, in order to be considered for sibling status, applicants must meet one of the following criteria:

- a. Brothers or sisters of the same parent(s) or legal guardian(s).
- b. Children that reside in the same household and have the same legal guardian.

* Legal proof of guardianship and residence is required for both instances.

8. What happens if a student does not receive his or her "first choice" school?

If a student is involved in the lottery drawing and does not receive the school he or she selected, then that student may choose to be put on a waiting list for their first choice school. A student's number on the waiting list will be determined by the number he or she draws in the lottery.

9. What about students who enroll in Duquesne after the selection process has taken place?

Students transferring to Duquesne City School District after the selection process has concluded will be given a choice between West Mifflin Area and East Allegheny. If a student's first choice school already has students assigned up to its determined enrollment level, then he or she will be assigned to the other school. If a student wants to be placed on the waiting list for his or her first choice school, then his or her name will be added to the bottom of the waiting list, below the students who took part in the selection process.

10. What happens if a student hands in a selection card after the scheduling period or does not return a selection card?

If a student does not complete and return the school selection card during the selection process, then the student will be assigned to his or her first choice only if space is available because the determined enrollment number has not been reached. If space is not available in the students' first choice school, then the student will be assigned to the other school.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION**

UNDER ACT 2, 1995

PREAMBLE 1

**Acknowledgment of Notices of Intent to Remediate
Submitted under the Land Recycling and Envi-
ronmental Remediation Standards Act (35 P. S.
§§ 6026.101—6026.908).**

Sections 302—305 of the Land Recycling and Environ-
mental Remediation Standards Act (act) require the
Department of Environmental Protection (Department) to
publish in the *Pennsylvania Bulletin* an acknowledgment
noting receipt of Notices of Intent to Remediate. An
acknowledgment of the receipt of a Notice of Intent to
Remediate is used to identify a site where a person
proposes to, or has been required to, respond to a release
of a regulated substance at a site. Persons intending to
use the Background Standard, Statewide Health Stan-
dard, the Site-Specific Standard or who intend to remedi-
ate a site as a special industrial area must file a Notice of
Intent to Remediate with the Department. A Notice of
Intent to Remediate filed with the Department provides a
brief description of the location of the site, a list of known
or suspected contaminants at the site, the proposed
remediation measures for the site and a description of the
intended future use of the site. A person who demon-
strates attainment of one, a combination of the cleanup
standards or who receives approval of a special industrial
area remediation identified under the act will be relieved
of further liability for the remediation of the site for any
contamination identified in reports submitted to and
approved by the Department. Furthermore, the person
shall not be subject to citizen suits or other contribution
actions brought by responsible persons not participating
in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act,
there is a 30-day public and municipal comment period
for sites proposed for remediation using a Site-Specific
Standard, in whole or in part, and for sites remediated as
a special industrial area. This period begins when a
summary of the Notice of Intent to Remediate is pub-
lished in a newspaper of general circulation in the area of
the site. For the sites identified, proposed for remediation
to a Site-Specific Standard or as a special industrial area,
the municipality within which the site is located may
request to be involved in the development of the remedia-
tion and reuse plans for the site if the request is made
within 30 days of the date specified. During this comment

period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984. Final plan approvals and operat-

ing permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

The proposed engine will be replace an older engine onsite at the Northern Tier Solid Waste Authority landfill.

The Department's review of the information submitted by PPL Renewable Energy indicates that the proposed engine will meet all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants, including the BAT requirements of 25 Pa. Code §§ 127.1 and 127.12, the fugitive air contaminant emission requirement of 25 Pa. Code § 123.1, the PM emission limitation of 25 Pa. Code § 123.13, the SOx emission limitation of 25 Pa. Additionally, if the Department determines that the proposed engine is in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into a State-only operating permit by means an administrative amendment under 25 Pa. Code § 127.450.

The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

12-00008A: GKN Sinter Metals Emporium, Inc. (P. O. Box 493, Emporium, PA 15834), for the proposed construction and operation of an Abbott Furnace Company draw furnace (PF74) and a Bernd Fiand induction hardener (PF99) incorporating two quench stations at their Airport Road plant located in Emporium Borough, **Cameron County**. The PM emissions from the draw furnace and the induction hardener will be controlled by the proposed two-stage electrostatic precipitator (ESP).

The Department of Environmental Protection's (Department) review of the information contained in the application indicates that the construction of the draw furnace and induction hardener (Source ID P105) controlled by the proposed ESP (ID C105) meets all applicable air

quality regulatory requirements pertaining to air contamination sources and the emission of air contaminants, including BAT Requirements of 25 Pa. Code §§ 127.1 and 127.12. Based on these findings, the Department intends to issue a plan approval for the construction of the draw furnace and induction hardener (Source ID P105) controlled by the proposed ESP (ID C105). Additionally, if the Department determines that the respective draw furnace and induction hardener are operating in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into State-only operating permit by means of an administrative amendment under 25 Pa. Code § 127.450.

Based upon this finding, the Department proposes to issue a plan approval for the construction of the draw furnace and induction hardener and installation of the ESP to control PM emissions from the draw furnace and induction hardener. The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

1. Under the BAT provisions in 25 Pa. Code §§ 127.1 and 127.12, the air contaminant emissions from the induction hardener and draw furnace shall be controlled by a United Air Specialists, Inc. model PSG-32-3 two-stage wet ESP.

2. Under the BAT provisions in 25 Pa. Code §§ 127.1 and 127.12, the concentration of PM to the outdoor atmosphere of the combined exhaust from the induction hardener and draw furnace shall not exceed 0.0005 grain per dry standard cubic foot.

3. Under the BAT provisions in 25 Pa. Code §§ 127.1 and 127.12, the opacity of the combined exhaust to the outdoor atmosphere from the induction hardener and draw furnace shall not exceed 0%, by U.S. Environmental Protection Agency (EPA) Test Method 9, at all times.

4. The permittee shall monitor, at least once each month, during normal induction hardener and draw furnace operation, the visible emissions of the combined exhaust from the induction hardener and draw furnace. If visible emissions are present in the exhaust, the permittee shall within the same day or next operating day obtain a certified individual to read the opacity by means of U.S. EPA Test Method 9 during normal induction hardener and draw furnace operation.

5. The permittee shall install, maintain and operate instrumentation to continuously measure and record the temperature of the exhaust entering the ESP. The temperature of the exhaust entering the ESP shall not exceed 150° F. The temperature monitoring system shall be electronically interlocked with the induction hardener and draw furnace to immediately shut down the induction hardener and draw furnace should the exhaust temperature to the ESP exceed 150° F. The temperature records shall be retained for a minimum of 5 years and shall be made available to the Department upon request.

6. The permittee shall monitor and record at least once each day the status of the indicator light on each power pack access door of each module of the ESP. If an indicator lamp is flashing or is not lit, the permittee shall within the same day perform the troubleshooting procedures and repairs/corrective actions contained on pages 17—20 of the manufacturer's manual. The permittee shall record the troubleshooting procedures performed and the repairs/corrective actions made. In addition, the permittee shall record the output voltages to the ionizer section and collection section of each affected module before and after

the repairs/corrective actions made. The output voltage to the ionizer section shall be 10.0—11.5 KVDC and the output voltage to the collection section shall be 4.5—7.3 KVDC. Repairs/corrective actions that can be made during troubleshooting shall be performed the same day; repairs that require replacement parts shall be completed within 15 days of diagnosis. If either the ionizer section output voltage or the collection section output voltage is outside of the above ranges, the induction hardener and draw furnace shall not be operated until the voltages are restored to within the above required ranges. The records shall be retained for a minimum of 5 years and shall be made available to the Department upon request.

7. The permittee shall manually clean and inspect the internal components of the ESP at least once every 3 months in accordance with the manual cleaning and inspection procedures specified on pages 14—16 of the manufacturer's manual. The induction hardener and the draw furnace shall not be operated during ESP cleaning.

8. The permittee shall perform the weekly inspection and maintenance operations specified on pages 13 and 14 of the manufacturer's manual.

9. The permittee shall keep records of the results of the monthly visible emissions readings of the combined exhaust from the induction hardener and draw furnace. In addition, the permittee shall keep records of the U.S. EPA Test Method 9 opacity measurements and resulting averages and any corrective actions taken if the average opacity exceeds 0%. The records shall be retained for a minimum of 5 years and shall be made available to the Department upon request.

10. The permittee shall keep the following records of each manual cleaning of the ESP: date of cleaning, type of detergent used (including MSDS), detergent strength, water temperature, type of agitation/impingement used, duration of soaking, rinse procedure and dry-out time. The records shall be retained for a minimum of 5 years and shall be made available to the Department upon request.

11. The permittee shall keep records of the results of each weekly inspection and the repairs/corrective actions made. The records shall be retained for a minimum of 5 years and shall be made available to the Department upon request.

12. The permittee shall keep records of the amount of Aquacool used each month in the induction hardener. The records shall be retained for a minimum of 5 years and shall be made available to the Department upon request.

A copy of the plan approval application and the Department's review is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at (570) 327-3693. Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Manager, Facilities Permitting Section, Department of Environmental Protection, Air Quality Program, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, (570) 327-0512.

The facility's main sources include modular structure plumbing, sealing, adhesive and paint operations, parts washers and 41 space heaters. The facility has the potential to emit PM/PM10/PM2.5, NOx, CO and SOx emissions below the major thresholds. The facility has taken a synthetic minor restriction to limit the VOCs and combined and individual HAPs emissions below the major threshold. The proposed operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

17-00033: RES Coal, LLC (224 Grange Hall Road, Armagh, PA 15920) for the renewal of a State-only operating permit for the operation of a coal processing facility (Clearfield Siding) in Boggs Township, **Clearfield County**.

The facility incorporates a rotary breaker, a radial stacking conveyor, a railcar loading operation, various stockpiles and three diesel fuel-fired emergency generators (approximately 10 horsepower, approximately 40 horsepower and 150 horsepower). The air contaminant emissions from the facility are not expected to exceed 31.3 tons of PM/PM10, 27.2 tons of NOx, 5.9 tons of CO, 2.2 tons of VOCs, 1.8 tons of SOx and .02 ton of HAPs per year.

The Department of Environmental Protection (Department) proposes to renew State-only Operating Permit 17-00033. The Department intends to incorporate into the renewal all conditions currently contained in State-only Operating Permit 17-00033 with these exceptions, additions and changes:

1. Conditions requiring the performance of weekly inspections of the facility to detect the presence of visible air contaminant emissions, visible fugitive air contaminant emissions and malodorous air contaminant emissions, and the maintenance of records of the results of these inspections, have been removed from the permit as the types of sources existing at this facility are not likely to generate visible air contaminant emissions or malodorous air contaminant emissions and the requirement to observe the facility for the presence of fugitive air contaminant emissions only once per week is misleading. The observations need to be regularly performed every day, all day, as part of the normal operation of the facility, in order to be truly effective in preventing excessive fugitive air contaminant emissions.

2. A condition requiring malfunctions to be reported to the Department has been changed to exempt malfunctions which are not resulting in, or potentially resulting in, air contaminant emissions in excess of an applicable air contamination emission limitation or are not resulting in, or potentially resulting in, noncompliance with a permit condition.

3. A condition requiring facility haul roads to be "saturated" with water has been removed from the permit as the Department does not have the regulatory authority to require haul roads to be "saturated" with water. The Department does have the regulatory authority to require, and is requiring in the permit, the use of a water truck for road dust control and compliance with 25 Pa. Code §§ 123.1 and 123.2 requirements pertaining to the prevention and control of fugitive dust from the use of roadways.

4. A condition requiring an operable water truck to be available onsite at all times and to be used, as needed, for the prevention and control of fugitive dust from plant roadways and stockpile areas has been relocated from Section D of the permit (Source Level Requirements) to Section C (Site Level Requirements).

5. Three diesel fuel-fired emergency generators, which exist at the facility but which were not previously incorporated in the permit, have been added to the permit along with conditions specifying the applicable 25 Pa. Code § 123.13 PM emission limitation and applicable 25 Pa. Code § 123.21 SOx emission limitation and a condition limiting the fuel used in the generators to virgin diesel fuel to which no reclaimed/reprocessed oil, waste oil or other waste materials have been added.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, Matthew Williams, New Source Review Chief, (814) 332-6940.

33-00108: Brookville Hospital (100 Hospital Road, Brookville, PA 15825-1367) for reissuance of Natural Minor Permit to operate a general medical and surgical hospital. The major emitting sources included: 1) Five natural gas or/No. 2 fuel oil fueled Boilers and; 2) Two, No. 2 fuel oil fueled emergency generators in Brookville Borough, **Jefferson County**. The facility is natural minor because the emission of pollutants from the facility is less than Title V threshold limits.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or

local government agency or authority to the Department at the address of the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Where a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining

that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated above each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The 12 individual homes will be served by one single large volume onlot sewer system. The five cabins and clubhouse will be served by individual onlot sewer systems. The Department of Environmental Protection's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal.

Plan Location: on the northwest side of Otterbein Church Road, 1,000 feet southwest of Paxton Run Road.

The project is located on the northwest side of Newburg Road at its intersection with Otterbein School Road. The Department of Environmental Protection's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the owner.

Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Granted under section 5 of the Pennsylvania Sewage Facilities Act (35 P. S. § 750.5)

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Conewago Township	3279 Old Hershey Road Elizabethtown, PA 17022	Dauphin County

Plan Description: The proposed Aberdeen Mills Subdivision, A3-22910-161-2 consists of a new residential lot served by an individual onlot disposal system and a Small Flow Treatment Facility. The plan was disapproved because the hydrogeologic study included in the planning module submission that was received by the Department of Environmental Protection indicated that the lot will pollute the groundwater of this Commonwealth in violation of The Clean Streams Law and Chapter 71, § 71.64(c)(1) requires that the lot be unsuitable for onlot sewage disposal before a Small Flow Treatment Facility can be used.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Hopewell Township	R. R. 1 Box 95 James Creek, PA 16657	Huntingdon County

Plan Description: The proposed Official Plan revision consisting of a 75-acre tract that currently has seven lots, two of the seven lots will be split into two lots each resulting in four new lots. The four lots are to use two Small Flow Treatment Facilities discharging to dry swales leading to a UNT Shy Beaver Creek.

The plan was disapproved for the following reasons:

1. The Operation and Maintenance agreement is not sufficient to assure the long term sewage needs of the subdivision.
2. Section H of the planning module was checked indicating a discharge to a dry swale. However, no easements to the point of first use or copies of certified letters and certified mail receipts by which you had notified all down stream property owners were enclosed.
3. The Project Narrative states the remaining lots in the subdivision will utilize conventional onlot sewage disposal systems, as approved by the Hopewell Township Sewage Enforcement Officer. Nothing in this module indicates that the other lots will be able to find suitable locations for onlot systems. In fact, the plot plan only shows locations of soil test pits (conducted by Mark Mills, your Soil Scientist) located on those lots that are unsuitable for onlot systems.
4. The soil test pits and percolations test conducted by the Township SEO are not shown on the plot plan.
5. The planning information fails to address any existing or proposed water supplies within 200 feet of either side of the dry drainage channel from point of discharge to point of First Use (POFU) and the potential impact on existing or proposed water supplies.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
North Hopewell Township	13081 High Point Road Felton, PA 17322	York County

Plan Description: Windy Brae Manor, A3-67947-160-3: The plan consists of a 70 lot single-family residential development (mobile home park expansion) on 40.69 acres with total estimated sewage flows of 5,264 gpd tributary to an existing onsite wastewater treatment plant that is privately owned. The proposed development is located on the east and west sides of Mt. Olivet Road, approximately 0.7 mile north of Plank Road in North Hopewell Township, York County. The plan was disapproved because information requested in the Department of Environmental Protection's incomplete letter for this project dated September 14, 2006, was not received within the required time frame for resubmission.

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Draft Technical Guidance—Substantive Revision

DEP ID: 563-2112-203 Title: Boundary Changes to Mining Permits. Description: This draft guidance substantially revises and renames technical guidance No. 563-2112-203: Insignificant Boundary Corrections for Surface Mining Activities (effective April 7, 1998). The former guidance pertained only to coal surface sites and described the Department's allowance for very small changes to boundaries of a permit area under specific conditions. Since the finalization of the previous guidance, the Department recognized the need to alter the guidance document to accommodate larger scope boundary changes in various types of permits, including both coal and noncoal mining permits. In addition to these changes, the document also includes procedures for the Department to follow to make reasonable changes to existing permits when boundaries are modified and clarifies provisions for public participation and outside agency review of boundary change requests. Written Comments: The Department

is seeking comments on the substantive revisions to draft technical guidance No. 563-2112-203. Interested persons may submit written comments on this guidance document by September 15, 2008. Comments submitted by facsimile will not be accepted. The Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to William Allen, Department of Environmental Protection, Bureau of Mining and Reclamation, Rachel Carson State Office Building, 5th Floor, P. O. Box 8461, Harrisburg, PA 17105-2454, wallen@state.pa.us. Contact: Questions regarding the draft technical guidance document should be directed to William Allen at (717) 783-9580, or wallen@state.pa.us. Effective Date: Upon publication of notice as final in the *Pennsylvania Bulletin*.

Nutrient and Sediment Reduction Credit Trading Program; Nutrient Trading Program Activities and NPDES Permits

The Department of Environmental Protection (Department) provides notice of the following actions regarding the Nutrient and Sediment Reduction Credit Trading Program (Trading Program). These actions were taken in relation to the Interim Final Policy (Policy) and Guidelines for Nutrient and Sediment Trading issued in 2005 and the Final Trading of Nutrient and Sediment Reduction Credits—Policy and Guidelines (Policy) (DEP ID No. 392-0900-001) (see 36 Pa.B. 7999 (December 30, 2006)). The Policy called for a transparent system of credit reviews and approvals.

Trading is a market-based program that provides incentives for entities to create nutrient reduction credits by going beyond statutory, regulatory or voluntary obligations and goals by removing nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients and sediment. Currently, the focus of the program is on the Chesapeake Bay Watershed.

The actions described in this notice relate to: (1) submitted proposals; (2) approved proposals; and (3) registered credits, through August 5, 2008.

Background

Before a credit can be used by an NPDES permittee, a three-step process is followed. First, the credit or offset proposal must be approved, second, it must be verified and third, it must be registered.

Approval is also known as certification, which is a written approval by the Department for the use of proposed or implemented activities to generate credits (in some cases the person generating the credits is not permitted to transfer them to another person, in which case they are called "offsets"). Certifications are based on at least: (1) a credit or offset proposal to be submitted describing the qualifying activities that will reduce the nutrient loadings delivered to the applicable watershed; (2) the calculation to quantify the pounds of reductions expected; and (3) a verification plan that, when implemented, ensures that the qualifying nutrient reduction activities have taken place. Proposals, certifications and registrations described in this Notice apply to the Chesapeake Bay Watershed.

Once the credits or offsets are certified, they must be verified. "Verification" means implementation of the verification plan contained in a certified credit or offset proposal as required by the Department. Verification plans require annual submittal of documentation to the

Department that demonstrates that the qualifying nutrient reduction activities have taken place for the applicable compliance year.

The credits or offsets also need to be registered by the Department before they can be used in an NPDES permit. "Registration" occurs only after credits or offsets have been certified and verified, and a trading contract for credits has been submitted to the Department. For the Chesapeake Bay Watershed, the Department will register credits on an annual basis for use during the compliance year in which the qualifying nutrient reduction activities have taken place and will provide such credits with an annual registry number for reporting and tracking purposes.

The Department has received 57 proposals that have been submitted for review to generate nutrient reduction credits in the Chesapeake Bay Watershed. Of those, 29 have been approved, 21 are in review, 1 has been withdrawn and the remaining need additional clarification prior to certification.

Proposals under Review

The following proposals are being reviewed by the Department.

<i>Proposal Applicant</i>	<i>Proposal Description</i>
1. Cumberland County Conservation District	Nitrogen and Phosphorus credits generated by the installation of animal waste systems.
2. Lancaster County Conservation District	Nitrogen credits generated by implementation of no-till and Nitrogen and Phosphorus credits generated by manure export.
3. Borough of Tyrone Wastewater Treatment Facility	Nitrogen and Phosphorus credits generated by existing treatment process.
4. Bradford County Conservation District	Nitrogen credits generated by implementation of no-till.

Certifications:

To date, there are no new certifications.

Verifications and Registrations:

To date, there are no verifications and registrations.

Future notices:

In the future, the Department plans to provide notice in the *Pennsylvania Bulletin* at three separate times during the Trading Program.

First, notice will be provided when a complete proposal to generate credits or offsets has been received. Submitted proposals will be reviewed for technical feasibility, consistency with the Department's Trading Program, and legal and policy requirements.

Second, upon approval of a proposal (certification), the Department will provide notice in the *Pennsylvania Bulletin* of the proposal details including the generation method and number of credits or offsets to be certified. This notice will include the chance for informal public input into the certification decisions.

Finally, the Department will also provide notice in the *Pennsylvania Bulletin* when the credits and offsets have been verified and registered.

For further information about the previous information or the Department's Nutrient Trading Program, contact Ann Smith, Water Planning Office, P.O. Box 2063, Harrisburg, PA 17105-2063, (717) 787-4726, annsmith@state.pa.us or visit the Department's web site at www.depweb.state.pa.us (DEP Keywords: "Nutrient Trading").

DEPARTMENT OF TRANSPORTATION

Finding Bradford county

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 575(b)), the Director of the Bureau of Design, as designated by the Secretary of Transportation, makes the following written finding:

The Federal Highway Administration (FHWA) and the Department of Transportation (Department) are planning to remove and replace the existing bridge carrying SR 2010 over the former Lehigh Valley Railroad (now owned and operated by Norfolk Southern Railroad) along with associated roadway work, in Wyalusing Township, Bradford County. This project will require right-of-way from both the National Register of Historic Places-eligible former Lehigh Valley Railroad and the National Register of Historic Places-listed Ellen and Charles F. Welles property.

The subject project is considered a Level 2 Categorical Exclusion in accordance with 23 CFR Part 771.117 (relating to categorical exclusions) as published in the August 28, 1987, *Federal Register*.

Both the former Lehigh Valley Railroad property and the Welles property are section 2002/section 4(f) resources. Impact to each resource will constitute a use of the section 2002/section 4(f) resource.

Based upon studies, there is no prudent and feasible alternative to the proposed action.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code have been considered. It has been concluded that there is no feasible and prudent

alternative to the project as designed, and all reasonable steps have been taken to minimize harm to section 2002 resource.
