READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 4—ADMINISTRATION

PART I. GOVERNOR'S OFFICE

[4 PA. CODE CH. 1]

[EXECUTIVE ORDER NO. 2008-06]

Office of Diversity Management

July 29, 2008

Whereas, the Commonwealth is committed to creating a culture of inclusion that values and promotes diversity and equal opportunity in all aspects of Commonwealth employment, business, and service;

Whereas, diversity and a culture of inclusion generally means to the Commonwealth the presence and participation of individuals from various races, religions, ethnic and national origins, socio-economic backgrounds, genders, abilities, and beliefs;

Whereas, Commonwealth offices under the Governor's jurisdiction invest significant resources to create and support diversity efforts;

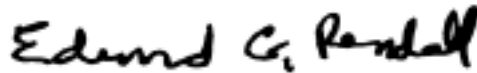

Whereas, historically, the Commonwealth's efforts to recruit, retain, and contract with diverse individuals and businesses have been largely decentralized, lacking a comprehensive enterprise-wide strategic plan;

Whereas, an effective enterprise diversity management policy requires coordinated implementation of diversity policies, programs, initiatives, structures, and strategies related to all aspects of Commonwealth work, including employment, procurement, and communications;

Whereas, effective strategic diversity management practices will further enhance Commonwealth employee productivity and customer service, nurture the development of employees at all levels, and strengthen the State's economy by increasing the pool of diverse employees, citizens, and businesses; and

Whereas, although the Commonwealth has a Chief Diversity Officer, no central coordination of diversity efforts currently exists to govern, evaluate, encourage, and monitor agency diversity planning, investment, and effectiveness. Therefore, it is imperative to establish an Office of Diversity Management to facilitate an effective, coordinated diversity strategy that leverages best practices and resources across Commonwealth agencies.

Now, Therefore, I, Edward G. Rendell, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws of the Commonwealth, do hereby establish the Office of Diversity Management, the Governor's Executive Diversity Council, and the Governor's Diversity Planning Council, all as hereinafter set forth, in order to ensure that diversity management strategies and best practices are considered, implemented, and evaluated across Commonwealth agencies.

Rule 513. Requirements for Issuance; **Dissemination of Arrest Warrant Information.**

(A) **For purposes of this rule, "arrest warrant information" is defined as the criminal complaint in cases in which an arrest warrant is issued, the arrest warrant, any affidavit(s) of probable cause, and documents or information related to the case.**

(B) ISSUANCE OF ARREST WARRANT

(1) In the discretion of the issuing authority, advanced communication technology may be used to submit a complaint and affidavit(s) for an arrest warrant and to issue an arrest warrant.

[(B)] (2) No arrest warrant shall issue but upon probable cause supported by one or more affidavits sworn to before the issuing authority in person or using advanced communication technology. The issuing authority, in determining whether probable cause has been established, may not consider any evidence outside the affidavits.

[(C)] (3) Immediately prior to submitting a complaint and affidavit to an issuing authority using advanced communication technology, the affiant must personally communicate with the issuing authority by any device which, at a minimum, allows for simultaneous audio-visual communication. During the communication, the issuing authority shall verify the identity of the affiant, and orally administer an oath to the affiant.

(C) DISSEMINATION OF ARREST WARRANT INFORMATION

(1) Delay in Dissemination

(a) When an arrest warrant is issued following the filing of a complaint, the affiant or the attorney for the Commonwealth may request that the availability of the arrest warrant information for inspection or dissemination be delayed. The arrest warrant affidavit shall include the facts and circumstances that are alleged to establish good cause for delay in inspection and dissemination.

(b) Upon a finding of good cause, the issuing authority shall order that the availability of the arrest warrant information for inspection or dissemination be delayed until the warrant has been executed or for a period of 10 days after the warrant is issued, whichever occurs first.

(c) In those counties in which the attorney for the Commonwealth requires that complaints and arrest warrant affidavits be approved prior to filing as provided in Rule 507, only the attorney for the Commonwealth may request a delay in the inspection or dissemination of the arrest warrant information.

(2) Extension of Delay in Dissemination of Arrest Warrant Information

(a) The period of the delay in inspection or dissemination may be extended by a judge of the court of common pleas in the judicial district in which the arrest warrant is issued upon good cause shown by the attorney for the Commonwealth until the warrant has been executed or for a period of not more than 30 days, whichever occurs first, unless the time period is extended as provided in paragraph (c).

(b) The motion requesting an extension shall include a copy of the original order to delay inspection or dissemination, a copy of the arrest warrant information, and an additional affidavit listing the facts and circumstances that are alleged to establish good cause for the continued delay in inspection or dissemination of the arrest warrant information.

(c) Until the warrant is executed, upon motion with additional good cause shown, the judge may grant an unlimited number of extensions of the time that the arrest warrant information shall not be inspected or disseminated. Each extension shall be until the warrant has been executed or for a period of not more than 30 days, whichever occurs first.

(d) The motion and any record of the hearing on the motion, the order extending the delay in inspection or dissemination of the arrest warrant information, the original order to delay inspection or dissemination, and the arrest warrant information shall not be inspected or disseminated and shall be filed with the clerk of courts in the judicial district in which the arrest warrant is issued.

(e) A copy of the order extending the delay of inspection or dissemination of the arrest warrant information promptly shall be provided to the proper issuing authority.

(f) Until the order delaying inspection or dissemination of the arrest warrant information and any extensions thereof expires, the clerk of courts and issuing authority shall not make the arrest warrant information available for public inspection and dissemination.

Comment

This rule was amended in 2008 to add provisions concerning the delay in inspection or dissemination of arrest warrant information. Paragraph (A) provides a definition of the term "arrest warrant information" that is used throughout the rule. Paragraph (B) retains the existing requirements for the issuance of arrest warrants. Paragraph (C)(1) establishes the procedures for a temporary delay in the inspection or dissemination of arrest warrant information prior to the execution of the warrant. Paragraph (C)(2) establishes the procedures for extension of the delay in inspection or dissemination of arrest warrant information.

Issuance of Arrest Warrants

Paragraph **[(A)] (B)(1)** recognizes that an issuing authority either may issue an arrest warrant using advanced communication technology or order that the law enforcement officer appear in person to apply for an arrest warrant.

This rule does not preclude oral testimony before the issuing authority, but it requires that such testimony be reduced to an affidavit prior to issuance of a warrant. All affidavits in support of an application for an arrest warrant must be sworn to before the issuing authority prior to the issuance of the warrant. The language "sworn to before the issuing authority" contemplates, when advanced communication technology is used, that the affiant would not be in the physical presence of the issuing authority. See paragraph **[(C)] (B)(3)**.

This rule carries over to the arrest warrant the requirement that the evidence presented to the issuing authority be reduced to writing and sworn to, and that only the writing is subsequently admissible to establish that there was probable cause. In these respects, the procedure is similar to that applicable to search warrants. See Rule 203.

For a discussion of the requirement of probable cause for the issuance of an arrest warrant, see *Commonwealth v. Flowers*, 24 Pa. Super. 198, 369 A.2d 362 (**[Pa. Super.]** 1976).

The affidavit requirements of this rule are not intended to apply when an arrest warrant is to be issued for noncompliance with a citation, with a summons, or with a court order.

An affiant seeking the issuance of an arrest warrant, when permitted by the issuing authority, may use advanced communication technology as defined in Rule 103.

When advanced communication technology is used, the issuing authority is required by this rule to (1) determine that the evidence contained in the affidavit(s) establishes probable cause, and (2) verify the identity of the affiant.

The "visual" requirement in paragraph **[(C)] (B)(3)** must allow, at a minimum, the issuing authority to see the affiant at the time the oath is administered and the information received.

Under Rule 540, the defendant receives a copy of the warrant and supporting affidavit at the time of the preliminary arraignment.

Delay in Dissemination of Arrest Warrant Information

Paragraph **(C)** was added in 2008 to address the potential dangers to law enforcement and the general public and the risk of flight when arrest warrant information is disseminated prior to the execution of the arrest warrant. The paragraph provides that the affiant or the attorney for the Commonwealth may request, for good cause shown, the delay in the inspection or dissemination of the arrest warrant information for 10 days or until execution, whichever occurs first. Upon a finding of good cause, the issuing authority must delay the inspection or dissemination.

The initial request for delay in inspection or dissemination is intended to provide a very limited delay in public access to arrest warrant information in those cases in which there is concern that pre-execution disclosure of the existence of the arrest warrant will endanger those serving the warrant or will impel the subject of the warrant to flee. This initial request is intended to be an expedited procedure with the request submitted to an issuing authority.

Once the arrest warrant is executed, or when 10 days have elapsed from the issuance of the warrant and the warrant has not been executed, whichever occurs first, the information must be available for inspection or disseminated unless the period of delay is extended pursuant to paragraph **(C)(2)**.

Recognizing that an extension of the period of delay beyond the initial 10-days impacts on the public's right of access to this information, the extension may only be granted by a judge of the court of common pleas.

When determining whether good cause exists to delay inspection or dissemination of the arrest warrant information, for either the initial request for the delay or for any extension, the issuing authority or judge must consider whether the presumption of openness is rebutted by other interests that include, but are not limited to, whether revealing the information would encourage flight or resistance, the need to protect the safety of police officers executing the warrant, the necessity of preserving the integrity of ongoing criminal inves-

tigations, and the availability of reasonable alternative means to protect the interest threatened by disclosure.

Magisterial district judges, Philadelphia bail commissioners, and Philadelphia Municipal Court judges do not have authority to extend the delay in inspection or dissemination beyond the initial 10-day period; the request for the delay to be extended must be presented to a judge of the court of common pleas.

When the order delaying inspection or dissemination of the arrest warrant information expires, the clerk of courts and the issuing authority must make the arrest warrant information available for inspection and dissemination.

Nothing in this rule is intended to limit the dissemination of arrest warrant information to court personnel as needed to perform their duties. Nothing in this rule is intended to limit the dissemination of arrest warrant information to or by law enforcement as needed to perform their duties.

Rule 513.1. Sealing of Arrest Warrant.

(A) For purposes of this rule, "arrest warrant information" is defined as the criminal complaint in cases in which an arrest warrant is issued, the arrest warrant, any affidavit(s) of probable cause, and documents or information related to the case.

(B) At the request of the attorney for the Commonwealth, the arrest warrant information shall be sealed upon good cause shown at the time the complaint is filed or any time thereafter.

(C) Submission to Judge or Justice of Request for Sealed Arrest Warrant.

When the attorney for the Commonwealth intends to request that the arrest warrant information be sealed at the time the complaint is filed, the attorney for the Commonwealth shall present the arrest warrant information to a judge of the court of common pleas or an appellate court justice or judge. The arrest warrant affidavit(s) shall include the facts and circumstances that are alleged to establish good cause for the sealing of the arrest warrant information.

(1) When the judge or justice orders the arrest warrant information sealed, the order shall:

(a) certify that for good cause shown the arrest warrant information is sealed and state the date and time that the sealing of the arrest warrant information shall expire; and

(b) when requested by the attorney for the Commonwealth, specify that the arrest warrant information be released to any law enforcement agency listed in the order.

(2) When the judge or justice issues the sealed arrest warrant, the judge or justice also shall issue an order designating the proper issuing authority before whom the case shall proceed upon execution of the warrant.

(3) When the sealed arrest warrant is issued, the sealed arrest warrant information, the sealing order, and the order designating the proper issuing authority shall be filed with the clerk of courts in the judicial district in which the charges are being filed.

(4) Upon execution of the sealed arrest warrant, the affiant shall file a copy of the sealed arrest warrant information with the proper issuing authority along with copies of the order sealing the arrest warrant information and the order designating the proper issuing authority. Thereafter, the case will proceed before the proper issuing authority.

(D) Submission to Judge or Justice of Request for Sealing of Previously Issued Arrest Warrant.

Any time after the complaint has been filed and the warrant issued, the attorney for the Commonwealth may request that the arrest warrant information be sealed by presenting a copy of the arrest warrant information to a judge of the court of common pleas or an appellate court justice or judge. The attorney also shall present an additional affidavit(s) listing the facts and circumstances that are alleged to establish good cause for the sealing of the arrest warrant information.

(1) When the judge or justice orders the arrest warrant information sealed, the order shall

(a) certify that for good cause shown the arrest warrant information is sealed and state the date and time that the sealing of the arrest warrant information shall expire, and,

(b) when requested by the attorney for the Commonwealth, specify that the arrest warrant information be released to any law enforcement agency listed in the order.

(2) When the order sealing a previously issued arrest warrant is issued, copies of the sealed arrest warrant information and the order shall be filed with the clerk of courts in the judicial district in which the charges are filed. If the sealed arrest warrant was issued for a complaint previously filed with another issuing authority, a copy of the sealed arrest warrant and order shall be filed with the issuing authority of the magisterial district where the complaint was filed. The issuing authority shall ensure that the arrest warrant information remains sealed pursuant to the terms of the judge's order.

(3) Upon execution of the sealed arrest warrant, the affiant shall file a copy of the sealed arrest warrant with the proper issuing authority. Thereafter, the case will proceed before the proper issuing authority.

(E) The arrest warrant information shall be sealed for a period of not more than 60 days, unless the time period is extended as provided in paragraph (E)(1) or (E)(2).

(1) Upon motion of the attorney for the Commonwealth for good cause shown, the justice or judge who sealed the

arrest warrant information shall extend the period of time that the arrest warrant information will remain sealed. If the justice or judge is unavailable, another justice or judge shall be assigned to decide the motion.

(2) Upon motion for good cause shown, the justice or judge shall grant an unlimited number of extensions of the time that the arrest warrant information shall remain sealed. Each extension shall be for a period of not more than 30 days.

(3) If the motion requesting any extension pursuant to paragraphs (E)(1) or (E)(2) is granted, the motion and any record of the hearing on the motion shall be sealed and transmitted with the extension order to the clerk of courts and a copy of the extension order shall be transmitted to the proper issuing authority.

(F) Upon motion of the attorney for the Commonwealth, the justice or judge shall order the arrest warrant information to be unsealed.

(G) Defendant's Access to Sealed Arrest Warrant Information.

(1) After the sealed arrest warrant is executed, a copy of the arrest warrant information shall be given to the defendant at the preliminary arraignment as provided in Rule 540, unless otherwise ordered as provided in paragraph (G)(2).

(2) Upon motion of the attorney for the Commonwealth, the justice or judge who issued the warrant, for good cause shown and after hearing, may delay giving the defendant a copy of the sealed arrest warrant information for periods of not more than 30 days. In no case shall the delay extend beyond the date of the preliminary hearing.

(3) If the justice or judge is unavailable, another justice or judge shall be assigned to decide the motion.

(H) Until the order sealing the arrest warrant information and any extensions thereof expires, the judge and clerk of courts shall not make the arrest warrant information available for public inspection and dissemination.

Comment

This rule was adopted in 2008 to codify and further define the practice of temporarily sealing arrest warrants previously recognized in case law such as *Commonwealth v. Fenstermaker*, 515 Pa. 501, 530 A.2d 414 (1987). Unlike existing case law, which only addresses the sealing of arrest warrants after execution, the procedures in this rule apply to all arrest warrants.

Magisterial district judges, bail commissioners, and municipal court judges do not have authority to seal arrest warrant information; the request for the warrant to be sealed must be presented to a judge of the court of common pleas or a justice or judge of an appellate court.

The rule establishes a standard of "good cause" for temporarily sealing the arrest warrant information. When determining whether good cause exists to seal the arrest warrant information, the justice or judge should consider, for example, whether revealing the arrest warrant information would encourage flight or resistance, defeat an ongoing criminal investigation, or endanger an undercover agent or informant. Similarly, when determining whether there is good cause to extend the time that the arrest warrant information is to remain sealed or to delay providing a copy of the arrest warrant information to the defendant, in addition to examining the Commonwealth's need to have the arrest warrant information sealed, the justice or judge should consider any pertinent information about the case, such as whether additional co-defendants

are still at large. The justice or judge should also consider the defendant's need to have the arrest warrant information to prepare his or her case.

The rule assumes that access to a sealed arrest warrant will be severely limited and generally will not be entered onto law enforcement computer systems such as The Commonwealth Law Enforcement Assistance Network (CLEAN) and the National Crime Information Center system (NCIC). However, in order to assist in the execution of the warrant, the attorney for the Commonwealth may request that the sealing order provide that the sealed arrest warrant information may be provided to specified law enforcement agencies.

The initial request to seal usually will occur at the time of the filing of the complaint. However, there may be circumstances in which the initial request to seal is made after the complaint has been filed and the arrest warrant issued. Allowance of this procedure is provided in paragraph (D). However, the requester should recognize that information already may have been released to the public prior to the request. Additionally, the requester may request that the sealing order provide for the withdrawal of the arrest warrant information that may have been added to law enforcement systems, such as CLEAN and NCIC.

Paragraphs (C)(4) and (D)(2) require that the order sealing the arrest warrant information be filed with the proper issuing authority. This is to ensure that the case proceeds with the proper issuing authority for such procedures as the preliminary arraignment.

Under paragraph (E), an order sealing the arrest warrant information is limited in duration to not more than 60 days. Extension of this period may be granted only upon the showing of good cause for the extension. Each extension of the order is limited to no more than 30 days duration.

The judge issuing the order to seal has the discretion to set the appropriate duration of the order and whether there are any conditions for unsealing the order. For example, a judge may order that the arrest warrant information must be unsealed 15 days from issuance or automatically upon execution of the warrant.

Paragraph (F) provides that the attorney for the Commonwealth may move to unseal the arrest warrant information and the judge or justice must order the information unsealed. Ordinarily, this will occur in circumstances in which law enforcement wishes to publicize the existence of a previously sealed warrant in order to obtain public assistance in the apprehension of the defendant. The judge or justice may not deny the motion.

When a sealed copy of the arrest warrant information has been given to the defendant, nothing in this rule is intended to preclude the attorney for the Commonwealth from requesting that the justice or judge issue a protective order to prevent or restrict the defendant from disclosing the arrest warrant or the contents of the affidavit. See Rule 573(F).

Until the order sealing the arrest warrant information terminates, the judge and the clerk of courts shall not make the arrest warrant information available for inspection and dissemination.

Delay in Dissemination of Arrest Warrant Information; Sealing of Arrest Warrant Information*Introduction*

The Committee has been examining at some length the question of an issuing authority's obligation to disseminate

arrest warrant information¹ to the public prior to the execution of the arrest warrant. The Committee recognizes the strong tradition and policy in Pennsylvania of maintaining the openness of the courts and court records. At the same time, the Committee recognizes that disclosure of arrest warrant information prior to execution has the potential for injury or loss of life to the executing officers in addition to the possibility of flight on the part of the defendant. This concern has been heightened by the increased level of automation of court records and increased accessibility of this information. As a result, the Committee has been struggling to reach a balance between the interests of safety and public access. Ultimately, the Committee concluded that reasonable limitations on pre-execution disclosure should be put into place, regardless of whether that information is disseminated electronically or was physically available for inspection at the issuing authority's office.

In August 2007, the Committee published for comment a proposal that would have added a procedure for delaying the dissemination of pre-execution arrest warrant information.² Based on comments received, the Committee realized that the limited procedure contemplated in the original proposal did not sufficiently address the safety needs that prompted the question nor ensure that the defendant's or the public's right to access were not unduly impinged.

The Committee concluded that the best method of addressing these questions was by the creation of a "two-tiered" system for access to arrest warrant information. As originally conceived, the first tier provided for a limitation on dissemination of the arrest warrant information, requested by the affiant or the attorney for the Commonwealth, for no more than 10 days or until the warrant is executed, whichever is sooner. The second tier, which was based on the sealing of search warrant procedures in Rule 211, could have been used to extend the time under which public access to arrest warrant information is limited or could have been used as a sealing order from the start.

In devising this approach, the Committee concluded that detailing procedures for sealing arrest warrants would have the added benefit of providing definition to a practice currently established only in caselaw, see *Commonwealth v. Fenstermaker*, 515 Pa. 501, 530 A.2d 414 (1987).³ The Committee determined that, while the authority of a court to seal arrest warrants was generally recognized, gaps exist in the practice. This point is highlighted in *Fenstermaker* that explicitly left open the question of public access to pre-execution arrest warrant information.

The Committee believed then, as it still believes, that judges, practitioners, and the public would benefit from the clarity and uniformity that a detailed rule would provide as to how access to arrest warrant information

¹"Arrest warrant information" is defined under the proposed amendments as the criminal complaint in cases in which an arrest warrant is issued, the arrest warrant, any affidavit(s) of probable cause, and documents or information related to the case.

²The original Report was published at 37 Pa.B. 4178 (August 4, 2007).

³In *Fenstermaker*, a newspaper filed a motion for access to the probable cause affidavits for an executed arrest warrant. The Supreme Court of Pennsylvania noted that there were important policy considerations which underlay a general right to public access to court records, such as discouraging perjury, enhancing police and prosecutorial performance, and promoting a public perception of fairness in the arrest warrant process. However, the Court found that the public's right to inspect judicial documents is not absolute and the decision regarding public access to arrest warrant affidavits is best left to the discretion of the court. The remedy the Court supported was to require that affidavits be sealed under a court order, not simply upon the request of one of the parties.

may be restricted and the standards for determining if such restrictions should be granted. This clarity and uniformity would provide law enforcement and prosecutors with the tools to ensure public safety while ensuring that defense and public interests are protected.

In December 2007, the Committee published for comment the revised proposal that contained this approach.⁴ The Committee again received a number of insightful comments and, as a result, determined to revise the proposal further.

A few commentators raised concerns that the delay in dissemination procedures as published did not permit the judge to whom a request for delay was addressed any discretion to refuse to grant the delay. They argued that this was contrary to the intent of the holding in *Fenstermacher* that there should be a judicial determination of the sufficiency of good cause to seal an arrest warrant.

While the Committee still considers that the delay in dissemination procedure is not a "sealing" procedure and that *Fenstermacher* specifically excludes pre-execution warrants, the Committee believes that inclusion of a good cause requirement and judicial approval are not incompatible with the underlying principle of the proposal, i.e., an expedited means of temporarily delaying public disclosure to ensure the protection of law enforcement.

Additional concerns were raised regarding the specific procedures to be followed for the execution of sealed arrest warrants, especially with regard to the preliminary arraignment. There were also concerns about whether the rule would unduly restrict dissemination of the warrant information to law enforcement.

The Committee concluded that part of the problem with the proposal as published was that the second portion of the proposal mixed procedures for extending the delay in dissemination with procedures similar to the sealing of search warrants. The Committee determined that the distinction would be clearer if the two concepts, delay in dissemination and sealing, were placed in separate rules. The first would provide a limited delay in public access to arrest warrant information, Rule 513(C)(1) and (C)(2), while the second rule would provide procedures for sealing an arrest warrant in the traditional sense, new Rule 513.1.

Rule 513

The proposed amendments to Rule 513 contain only a delay in dissemination procedure providing for: (1) an initial 10-day delay by the issuing authority for good cause; and (2) extension of the delay presented to a common pleas judge and based on good cause to justify the extension. This delay in dissemination would be applicable only to the public, while the police and court personnel would have access to the information.

Rule 513 would be reorganized with an initial paragraph (A) containing a definition of "arrest warrant information" and the current text of the rule appearing as paragraph (B), titled "Issuance of Arrest Warrant." Paragraph (C), titled "Dissemination of Arrest Warrant Information," would contain two paragraphs providing procedures for: (1) the initial delay in dissemination; and (2) the extension of the delay of dissemination. The paragraph (C)(1) procedures for the initial delay in dissemination are similar to the Committee's original proposal. An

affiant or attorney for the Commonwealth may request that an issuing authority delay dissemination of arrest warrant information, in any form, to the public for 10 days only or until the warrant is executed, whichever occurs sooner. Under paragraph (C)(2), the delay could be extended by a judge of the court of common pleas for no more than 30 days at a time. The standard for both the initial request for delay and the extension of delay is one of "good cause."

Rule 513.1

New Rule 513.1, which is based on the procedures for sealing search warrants contained in Rule 211, would provide procedures by which, upon a showing of good cause, a common pleas judge must order the arrest warrant information to be sealed. There are two circumstances in which sealing may be requested under Rule 513.1. Paragraph (C) sets forth the procedures for sealing of the arrest warrant information at the time of the issuance of the arrest warrant. Paragraph (D) provides the procedure to be used for requesting the sealing of an arrest warrant that has already been issued.

The procedures in paragraph (C) would require that the sealing order contain the expiration date of the seal as well as designation of the issuing authority before whom the defendant should be brought upon execution of the warrant.

Originally, the Committee preferred that the rules provide that the common pleas judge would issue only the sealing order and that the police would then file the order, complaint, and probable cause affidavit with the proper issuing authority. However, the Committee concluded that a more realistic procedure is to provide that most of the initial procedures/paperwork in a sealed case should remain at the common pleas court, at least until execution of the arrest warrant. The Committee envisions that the general course of the case, once the common pleas judge orders the sealing, will be that the arrest warrant information will be filed in the clerk of courts' office as a miscellaneous docket case. When the warrant is executed, the attorney for the Commonwealth or the police officer take copies of all the original filings to the issuing authority designated in the sealing order, and, thereafter, the case will proceed as any other case before the issuing authority and, if it is held for court, it will be merged with the miscellaneous case previously filed in the clerk of courts' office.

The Committee also believes that the concept of sealing should be very restrictive, even with regard to entry of the warrant information onto the various law enforcement systems such as CLEAN and NCIC. Paragraph (C)(1)(b) therefore places the burden on the attorney for the Commonwealth, if he or she wants the information releasable to law enforcement, to specifically request that the sealing order permit this availability.

The procedures under paragraph (D) would mirror those in paragraph (C) to a great extent. In proposing this procedure, the Committee accepts that there may be cases in which a later "pulling back" of the arrest warrant information would be beneficial. It should be understood, however, that under this procedure, because the warrant already has been issued without restrictions, the information would have been available to the public.

⁴ This *Supplemental Report* was published at 37 Pa.B. 6395 (December 8, 2007).

The standard for sealing the arrest warrant information also is one of good cause. The Comment provides direction on the application of this standard to requests to seal the arrest warrant information and it utilizes language taken from *Fenstermacher*.

Rule 513.1(G) recognizes the defendant's access to the sealed arrest warrant information may be limited in exceptional circumstances even after execution and preliminary arraignment. The paragraph provides that, upon a further finding of good cause, the defendant may be denied access to the arrest warrant information for a period of no more than thirty days or the date of the preliminary hearing.

Correlative Changes

The Committee is also proposing that Rule 504 (Contents of the Complaint) be amended to include the requirement that the complaint contain a notation indicating that the arrest warrant information had been sealed. In addition, the Comments to Rules 540 (Preliminary Arraignments) and 547 (Return of Transcript and Original Papers) would be revised to include cross-references to new Rule 513.1.

DISCIPLINARY BOARD OF THE SUPREME COURT

Notice of Hearing

A Petition for Reinstatement to the active practice of law has been filed by Mark Allan Kovler and will be the subject of a hearing on November 3, 2008, before a hearing committee designated by the Board. PROPOSED RULEMAKING

STATE BOARD OF BARBER EXAMINERS

[49 PA. CODE CH. 3]

Student Records and Curriculum

The State Board of Barber Examiners (Board) proposes to add § 3.71a (relating to notification) and to amend §§ 3.72, 3.87, 3.90 and 3.103, pertaining to student records in barbershops and barber schools, to read as set forth in Annex A.

A. *Effective Date*

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

B. *Statutory Authority*

The proposed rulemaking is authorized under section 15-A.4(b) of the act of June 19, 1931 (P. L. 589, No. 202) (63 P. S. § 566.4(b)), known as the Barbers' License Law (act).

C. *Background and Purpose*

Under section 3(a) of the act (63 P. S. § 553(a)), prior to taking the barber's license examination, an applicant is required to have completed a barbering study and training period of at least 1,250 hours in not less than 9 months in either a licensed barbershop under the instruction of a licensed teacher or a licensed manager-barber, or in a licensed barber school under the instruction of a licensed teacher. Section 5 of the act (63 P. S. § 555) requires barbershops and barber schools to keep a daily record of the attendance of each student. The Board's existing regulations require barbershops and barber schools to maintain student records for inspection by the Board. As of May 23, 2008, there were 20 barber schools in this Commonwealth as compared to 2,744 barbershops. Currently, the Board is not notified that a student is training in a barbershop. Due to the large number of barbershops, it is not feasible for the Board to inspect all of those shops to determine whether a student is training in a shop at any given point in time. If the Board cannot determine whether a student is training in a shop, then the Board cannot ensure that the shop is keeping proper records and that either a barber-manager or barber-teacher is instructing the student. To remedy this situation, the proposed rulemaking would require the shop owner or the shop owner's designee to notify the Board, on a form provided by the Board, of each student to be trained in the shop before the student begins training. It would also make it clear that the shop owner is responsible for ensuring that the Board is properly notified of each student to be trained in the shop and for maintaining all student records in a file available for inspection.

Section 5 of the act was amended on June 28, 2002, to eliminate the requirement for barbershops and barber schools to keep a record of blood test results. Currently, §§ 3.72(a) and 3.87(a) (relating to student's records) require barbershops and barber schools to keep a student's blood test results on file. The proposed rulemaking would delete this requirement to be consistent with the amendments to the act.

Currently, § 3.72(b) requires a manager-barber or barber-teacher who is training a student in a barbershop to keep quarterly reports of the hours earned by the

student. Likewise, § 3.87(b) requires barber schools to keep quarterly reports of the hours earned by the student. It is not feasible for the Board to inspect every barbershop and barber school on a quarterly basis to determine whether they are maintaining the quarterly hours as required. Therefore, to ensure that barbershops and barber schools are maintaining the quarterly hours as required, the proposed rulemaking would require barbershops and barber schools to submit quarterly reports to the Board of the hours earned by each student. In addition, barbershops and barber schools are currently required to maintain student records for a 5-year period and to forward the student's file to the Board if the shop or school closes within the 5-year period. Situations have arisen in which a barbershop or barber school has closed without forwarding its records to the Board, in which case some students have been unable to document that they had completed the training period required to take the barber's license examination. The proposed requirement that barbershops and barber schools submit quarterly reports of student hours to the Board would assure that students would not be adversely affected if a barbershop or barber school failed to preserve its records for a 5-year period as required.

On December 22, 2005, section 12(b) of the act (63 P. S. § 562(b)), was amended to delete the requirement that class and instruction hours in barber schools have to be at 7 but not more than 8 hours per day. Consistent with this statutory amendment, the proposed rulemaking would remove the same language that was deleted from the act. In its current form, § 3.90 (relating to student curriculum) does not address part-time work by students. Proposed amendments to § 3.90 would provide for part-time study by permitting a student to earn credit for the number of hours per day that the student is in attendance, up to a maximum of 8 hours of credit per day and 40 hours of credit per week. By permitting part-time study in barber schools, students who cannot attend barber school on a full-time basis will still have the opportunity to become barbers. In addition, the proposed rulemaking would delete the requirement that each student shall have the opportunity to devote at least 5 hours per day (out of the 7 to 8 previously required) to practical work and replaces it with the requirement that each student have the opportunity to devote at least 60% of class time to practical work.

The Board's current regulations provide that a student may request a transfer of credits for hours or months of study between a barbershop and a barber school if the student passes a test that is based on the number of hours attended and the subjects pursued and the test is devised by the shop or school to place him in the appropriate courses. However, they do not specify whether credits can be transferred from out-of-State barbershops and barber schools, nor do they provide for transfers of credits between barbershops. The proposed amendments would clarify that credits can be transferred between a barbershop and a barber school, or between barbershops, whether the barbershop or barber school is in-State or out-of-State.

Finally, the proposed rulemaking would add a fee of \$30 for certification of student status or student training hours. This fee will cover the administrative cost of providing the certification upon request.

D. Description of Proposed Amendments

The proposed rulemaking proposes to add § 3.71a (relating to notification) to require the barbershop owner or shop owner's designee to notify the Board of students to be trained in a barbershop before the student begins training, so that the Board can keep track of students training in barbershops and ensure that they are properly trained and supervised. The proposed rulemaking would make it clear that the shop owner is responsible for ensuring that proper notification is provided to the Board.

The proposed rulemaking proposes to amend §§ 3.72 and 3.87 to require barbershops and barber schools, respectively, to submit quarterly reports of student hours to the Board so that the Board can ensure that the quarterly reports required under these sections are being properly kept and so that the Board will have a record of student hours in the event that barbershops and barber schools fail to preserve their records as required under these sections. The proposed rulemaking also proposes to amend § 3.72 to clarify that the barbershop owner is responsible for keeping a student's records in a file.

The proposed rulemaking would also amend §§ 3.72 and 3.87 to delete the requirement for barbershops and barber schools, respectively, to keep a student's blood test results on file. These amendments are consistent with an amendment to the act that deleted this requirement.

The proposed rulemaking proposes to amend § 3.90 to delete the requirement that the daily schedule at barber schools must be at least 7 but not more than 8 hours for each day the school is in session. This amendment is consistent with an amendment to the act that deleted this requirement. The proposed rulemaking also proposes to amend § 3.90 to allow for part-time student attendance at barber schools so that students who cannot attend school on a full-time basis will have the opportunity to become barbers. In addition, the requirement that each student shall have an opportunity to devote at least 5 hours per day to practical work has been amended to provide that each student shall have an opportunity to devote at least 60% of class time to practical work.

The proposed rulemaking would also amend § 3.90 to permit a student to request a transfer of credits for hours or months of study between barbershops, regardless of whether the barbershop is in-State or out-of-State and to clarify that credits can be transferred between a barber-shop and a barber school, regardless of whether the barbershop or barber school is in-State or out-of-State.

The proposed rulemaking proposes to amend § 3.103 (relating to fees) to include a fee of \$30 to cover the administrative cost of providing a certification of student status or student training hours.

E. Fiscal Impact and Paperwork Requirements

The Board is unable to determine the specific costs associated with the proposed amendments, but it is anticipated that there will be some administrative costs to barbershops and schools in complying with the notification, recordkeeping and reporting requirements relating to students.

The proposed rulemaking will impose additional paperwork requirements upon the Commonwealth, with respect to maintaining records of students being trained in barbershops and with maintaining quarterly reports. The proposed rulemaking will impose a minimal paperwork requirement upon the private sector by requiring shop owners to notify the Board, on a form provided by the Board, of each student to be trained in the shop. Barber-

shops and barber schools are already required to keep quarterly reports of the hours earned by a student. The regulation requiring barbershops and barber schools to submit the quarterly reports to the Board will not create any additional paperwork; it will only require them to provide reports that should already exist.

F. Sunset Date

The Board continuously monitors the cost effectiveness of its regulations. Therefore, no sunset date has been assigned.

G. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on October 3, 2008, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria that have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly, and the Governor of comments, recommendations or objections raised.

H. Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding this proposed rulemaking to Christopher McNally, Board Counsel, State Board of Barber Examiners, P. O. Box 2649, Harrisburg, PA 17105-2649, within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*. For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the

Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State

operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

The existing fabric collectors will be replaced by the proposed fabric collectors and filters.

The Department of Environmental Protection's (Department) review of the information contained in the application submitted by GTP indicates that the calciners controlled by the proposed fabric collectors and filters will comply with all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants, including the fugitive air contaminant emission requirement of 25 Pa. Code § 123.1, the PM emission limitation of 25 Pa. Code § 123.13 and the visible emission limitation of 25 Pa. Code § 123.41. The plan approval, if issued, will subsequently be incorporated in an operating permit by means of an administrative amendment in accordance with 25 Pa. Code § 127.450 at a later date.

Based upon this finding, the Department proposes to issue a plan approval for the installation of the fabric collector and absolute filter to control PM emissions from the calciners. The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

The following is a summary of the conditions the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable requirements:

1. The concentration of PM/PM10 in the exhaust of the cyclone collector used to control the PM/PM10 emissions from the pellet cooler shall not exceed .02 grain per dry standard cubic foot of effluent gas volume. Additionally, the visible air contaminant emissions from the cyclone exhaust shall not equal or exceed 10% opacity (excluding water vapor and steam) at any time.

2. The exhaust of the cyclone collector used to control the PM/PM10 emissions from the pellet cooler shall be equipped with a Bindicator particulate detection and alarm system.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Where a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Prompt Interim Response

Industrial Solvents & Chemical Company Newberry Township, York County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) has initiated a prompt interim response to provide vapor mitigation systems to certain residences in the vicinity of the Industrial Solvents & Chemical Company Site (Site).

The Site is located at 210 Stevens Road, York Haven, Newberry Township, York County, PA, immediately adjacent to Interstate 83. The Site is located in a rural area and is surrounded by residential, commercial and light industrial land use. Industrial Solvents Chemical Company (ISSC) was a former chemical product distributor and solvent recycling facility. The 9-acre site was a solvent reprocessing facility from 1979 until the Department revoked ISSC's operating permit in August 1989. The operator abandoned the facility in 1990 after declaring bankruptcy. Many documented releases occurred during operation of the facility. Over 600,000 gallons of waste in aboveground tanks and approximately 6,700 drums of waste were abandoned at the Site. The onsite soil and on- and off-site groundwater are contaminated with VOCs.

The Department conducted an interim response to stabilize conditions at the Site beginning in August 1990. In October 1991, the Site was placed on the Pennsylvania Priorities List of Hazardous Sites for Remedial Response. A responsible party group, the ISSC Steering Committee, formed in August 1993, signed a Consent Order and Agreement (COA) to conduct the waste characterization. Under additional COAs the responsible party group has removed all containerized waste from the Site and provided public water service to residences impacted above Health Standards by March 1997.

The Statement of Decision for the final response was signed in August 1998. The response included alternate water supplies for impacted residences to provide for future protectiveness, eliminate direct contact threats on Site, reduce the migration of groundwater contamination off the Site and treat surface water throughout the area of the groundwater contamination plume. The Site was removed from the Pennsylvania Priority List on October 31, 1998. Work on the final extension of the existing waterline was completed on July 5, 1999. The design for the asphalt cap at the ISSC facility was completed in June 2003 and the remedial response was completed by November 2004. The Department continues to monitor down-gradient residential wells.

The Department's Waste Management Program and Environmental Protection Agency (EPA), under EPA RCRA Corrective Action Program, conducted an Environmental Indicator Study of the Site and consequently an additional study was conducted for groundwater, indoor air, and slab soil gas. Based on the information obtained from the studies, chlorinated VOCs were detected in soil vapor samples on and off the Site. Exceedance of the vapor intrusion screening levels for soil vapor was found in the area of the plant property in sampling conducted during April and May of 2005. Indoor air sampling in October 2006 and January 2007 detected indoor air parameters above their respective indoor air standards within three residences in the vicinity of the Site.

The Department considered two alternatives: (1) Institutional controls, no action for vapor intrusion affecting indoor air of residential homes; and (2) Installation of vapor mitigation systems to remove the vapor intrusion pathway and institutional controls. The Department has selected Alternative 2 as the preferred alternative because it is protective, cost effective and mitigates the vapor intrusion threat immediately upon completion. Vapor intrusion will be addressed through site-specific engineering controls consisting of installing vapor mitigation systems to eliminate the route of exposure resulting in an indoor air direct contact or inhalation threat. This is not a final remedial action; further investigation will be conducted to determine the extent of the vapor intrusion threat from the Site.

The Department is providing this notice under sections 505(b) and 506(b) of HSCA (35 P. S. §§ 6020.505(b) and 6020.506(b)) and publication of this notice starts the administrative record period under HSCA. The administrative record which contains information about this Site and which supports the Department's decision to perform these actions at the Site is available for public review and comment. The administrative record can be examined from 8 a.m. to 4 p.m. at the Department's office at 909 Elmerton Avenue, Harrisburg, PA 17110, by contacting Steve DeMars at (717) 705-4832.

The administrative record will be open for comment from today's date and will remain open for 90 days. Persons may submit written comments regarding these actions to the Department before January 16, 2009, by mailing them to Steve DeMars at the previous address.

The public will have an opportunity to present oral comments regarding the chosen action at a public hearing. The hearing has been scheduled for December 11, 2008, at 7 p.m. at the Newberry Township Administration Building, 1915 Old Trail Road, Etners, PA. Persons wishing to present formal oral comments at that hearing should register before 4 p.m., December 5, 2008, by calling Lauri Lebo at (717) 705-4703. An informational meeting will be held following the hearing.

Persons with a disability, who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact Lauri Lebo at the previous number or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for se-

lecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release

of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. Purpose of Notice

The purpose of this notice is to announce that effective October 18, 2008, the Department of Public Welfare (Department) is increasing the maximum Medical Assistance (MA) payment limit for services provided by a practitioner to an MA recipient during any one period of hospitalization.

Section 2 of Act 2008-44 amended the act of June 13, 1967 (P. L. 31, No. 21), known as the Public Welfare Code, to add section 443.10. Section 443.10(3) authorizes the Department to establish the maximum payment limit to a practitioner for services provided to an MA recipient during a period of inpatient hospitalization by publication of Notice in the *Pennsylvania Bulletin*.

The current maximum payment to a practitioner for services provided during a single hospitalization is the lowest of the practitioner's usual and customary charge to the general public for the same service; the MA maximum allowable fee; or the maximum payment limit of \$1,000. See 55 Pa. Code § 1150.51(e) (relating to general payment policies). Effective with hospital discharges on and after October 18, 2008, the maximum payment limit is \$1,250 unless a service or procedure provided during the hospitalization has a fee which exceeds \$1,250. If the fee for a service or procedure exceeds \$1,250, that fee is the maximum payment limit for the period of hospitalization.

Fiscal Impact

The cost of implementing this change is estimated at \$0.866 (\$0.439 million in State funds) in Fiscal Year (FY) 2008-2009 and \$1.484 million (\$0.751 million in State funds) in FY 2009-2010.

STATE BOARD OF EDUCATION

Affordability of Post-Secondary Education; Public Hearings

Notice is hereby given that the Council of Higher Education of the State Board of Education has scheduled a series of five regional public hearings to receive input from college students, recent graduates, parents, higher education officials and others regarding the affordability of post-secondary education in this Commonwealth. This issue has been and is increasingly a serious concern of the Council. It is the first issue addressed in the Master Plan for Higher Education approved by the Board in September 2005. With costs to attend college continuing to escalate, combined with relatively flat Federal, State and institutional financial aid and increasingly restricted public and private loan markets, the Council of Higher Education seeks to understand how these factors are impacting the ability of those wishing to attend college to afford postsecondary education without taking on worrisome debt burdens that must be repaid after graduation.

The dates and locations of the five regional public hearings are as follows. Hearings will begin at 10 a.m., and will continue until all testimony is received. A lunch break may be scheduled if necessary. Individuals must register in advance to present testimony at the hearing. Participants will each be assigned a 10-minute time slot to present their testimony. Participants will be assigned a 10-minute time slot when they register. Those registered to present testimony are requested to arrive approximately 30 minutes prior to their scheduled time slot and be prepared to present their testimony prior to their designated time.

Persons interested in presenting testimony must telephone or email the State Board of Education office at (717) 787-3787, (TTY) (717) 783-8445 or babaker@state.pa.us, Monday through Friday (excluding holidays), between 8:30 a.m. and 4 p.m. by the deadlines listed for each location as listed.

Testimony is limited to no more than 10 minutes. Those registered to testify must provide 25 copies of their written comments at the time testimony is presented. Written comments may be more extensive than the testimony presented during the 10-minute time slot.

Individuals with disabilities needing special accommodations in order to participate or attend the hearings, such as sign language interpreter services, must contact the State Board of Education office at the previously listed telephone number by the deadline date for registration at each session. Alternative formats of the documents (for example, Braille, large print, cassette tape) can be made available to members of the public upon request to the State Board Office.

Individuals unable to attend the hearing are encouraged to submit written comments directly to the State Board of Education on or before 4 p.m., November 5, 2008. Copies of testimony will be provided to each member of the State Board of Education. Comments

should be sent to Council of Higher Education, State Board of Education, 333 Market Street, Harrisburg, PA 17126-0333.

Persons with disabilities are invited to submit testimony in alternative formats such as Braille or taped testimony and by means of the telephone. Written and alternative formats of testimony will be afforded the same thoughtful consideration by the Committee as oral testimony. Written and alternative formats of testimony may be as long as the writer wishes; 25 copies of written testimony are required.

Should registrants scheduled to provide testimony need to cancel their participation, the State Board requests that they immediately notify the State Board office by calling (717) 787-3787 or email at babaker@state.pa.us.
