DEPARTMENT OF AGRICULTURE

Guidance

Recitals

A. Act 119 of October 9, 2008, amended numerous sections of the Dog Law (law) (3 P. S. §§ 459-101—459-1205). The amendments to section 903 of the law added authority for the Department of Agriculture (Department) to impose civil penalties, and placed certain restrictions on the issuance of those penalties. See 3 P. S. § 459-903(a) and (g).

B. The amendments to section 903(a)(1) of the law require that for a first violation the law or its attendant regulations, the Department must issue a Notice of Violation (NOV) setting forth a summary of the violation and affording a reasonable time period for correction of the violation. Where the kennel owner takes the actions necessary to correct the violation, within the time period set forth in the NOV, no civil penalty will be issued for that violation. See 3 P. S. § 459-903(a)(1).

C. The amendments to section 903(a)(2) of the law further state that where a violation has not been corrected in the time period established by the NOV, or where the kennel owner has already been issued a NOV in that calendar year and the Department finds a subsequent violation of the law or its attendant regulations, a civil penalty may issue. See 3 P. S. § 459-903 (a)(2).

D. The amendments to section 903(g) of law further limit the use of civil penalties by the Department. The Department may not issue a civil penalty and pursue a criminal penalty for the same violation of the law or its attendant regulations, at the same time. See 3 P. S. § 459-903(g).

E. To clarify the implementation of these new provisions, which become effective December 8, 2008, the Department has decided to publish this Guidance Document.

Guidance Document

This Guidance Document establishing the Department's intent and procedure with regard to the issuance of civil fines and penalties under the law.

The Bureau of Dog Law Enforcement (Bureau) is tasked with enforcing the law in this Commonwealth.

It will not be the practice of the Bureau to issue civil penalties for violations found on the initial kennel inspection. Rather, civil penalties are to be used for remedial purposes in order to promote compliance with this act and the regulations after a violations has been found.

Upon finding a violation of the law, the Bureau will not assess a civil fine during the first kennel inspection that the violation is found. Instead, the Bureau can issue a NOV, which is a warning setting forth the violations found and establishing the time period the kennel owner will have to fix the violations delineated in the NOV and come into compliance with the act or regulations. The time frame shall be reasonable and shall take into consideration the amount of time it will take to bring the violations into compliance.

Upon an unannounced follow-up inspection, if the violations outlined in the NOV has not been corrected within the time frame established in the NOV, the Bureau may

decide to assess a civil penalty for the violations that has not been corrected, the amount of which will be based on the gravity of the violation, the harm to the public, the effect of the violation on the dogs, the willfulness of the violation, the previous history of the violator in following the law, and the benefit received by not following the law.

The Bureau will only impose a civil penalty where the kennel owner has already been issued a NOV and has failed to take the remedial measures required in the NOV or where a NOV has already been issued to that kennel owner in any calendar year and the Department finds violations again. As with all Commonwealth agencies, the Bureau may always determine, based on facts specific to each case, to issue a NOV instead of assessing a civil penalty.

The criminal penalties provided for within the law may always be assessed, just as under the law as it existed prior to the passage of Act 119 of 2008. They are to be used to punish offenders and deter future violations of the law.

Year 2009 Dog Control Facility Bill Reimbursement Grant Program

The Department of Agriculture (Department) gives notice that it intends to award up to \$550,000 in grants under its Year 2009 Dog Control Facility Bill Reimbursement Program (Program). The Program will award bill reimbursement grants of up to \$15,000 per recipient to humane societies or associations for the prevention of cruelty to animals that meet the guidelines and conditions of this Program. The Program will be funded from the Dog Law Restricted Account, from funds which are hereby declared to be "surplus" funds for the limited purposes set forth in section 1002(b) of the Dog Law (3 P. S. § 459-1002(b)).

The Department hereby gives notice that although it proposes the Program for year 2009, there is not likely to be a similar program in 2010. Humane societies or associations for the prevention of cruelty to animals are hereby provided notice of this fact and—for budgeting and financial planning purposes—should proceed on the assumption that the Department will not be offering a year-2010 version of the Program or, at best, will be offering a significantly scaled-back version of the Program.

In fulfillment of 7 Pa. Code § 23.4 (relating to guidelines and conditions), the Department invites public and legislative review of the proposed guidelines and conditions set forth as follows. Commentators should submit their comments, in writing, so they are received by the Department no later than November 21, 2008, 30 days from the date the proposed guidelines and conditions are published in the *Pennsylvania Bulletin*. Comments should be directed to Sue West, Director, Bureau of Dog Law Enforcement, Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110-9408.

The Department will review and consider all written comments in preparing the final guidelines and conditions for the Program. The final guidelines and conditions for

the Program will be published in the *Pennsylvania Bulletin* after the close of the comment period referenced. The Department will invite the submission of grant applications at that time.

The proposed guidelines and conditions for the Program are as follows.

**Proposed Guidelines and Conditions for the
Year 2009**

**Dog Control Facility Bill Reimbursement
Grant Program**

1. *Definitions.*

The following words and terms, when used in these guidelines and conditions, have the following meanings:

Department—The Department of Agriculture.

Dog control—The apprehending, holding and disposing of stray or unwanted dogs, or as otherwise defined in the Dog Law (3 P. S. § 459-102).

Eligible Bill—A document seeking payment for materials, services (other than veterinary services and spaying/neutering services) or utilities from a grant recipient, setting forth the following:

- i. The date the document is issued.
- ii. The name and address of the humane society or association for the prevention of cruelty to animals to which the bill is issued.
- iii. If for materials, a description of the materials and the date of delivery. Invoices and/or receipts for materials must set forth or be accompanied by a written description of the intended use of the material and the date the material is used. Materials may not include computers, computer equipment or software. Examples of eligible materials include the following:
 - Cleaning supplies;
 - Office supplies—typical supplies used to carry on daily office duties;
 - Materials for building and repair projects; and
 - Purchases of medication, needles, and the like . . .
- iv. If for services, the services must be other than veterinary services or spaying/neutering services, and shall include a description of the nature of the services and the dates upon which the services were rendered. Examples of services include the following:
 - Labor charges with respect to which the invoice details the exact service performed and the date of performance;
 - Cremation services with respect to which the invoice either verifies that only dogs were cremated or—in the event that animals other than dogs were cremated—separates the dogs from those other animals and identifies a charge attributable to only the cremation of the dogs.
 - Exterminator services with respect to which the invoice identifies the date of the service and identifies location of the service.
 - Property, casualty and liability insurance services (excluding workers compensation insurance).

v. If for utilities (such as electricity, water, sewer, waste disposal and similar purposes), a statement of the period for which the utility, for which payment is sought, was provided.

vi. The name, address and telephone number of the entity issuing the invoice or receipt.

Humane society or association for the prevention of cruelty to animals (SPCA)—A nonprofit society or association duly incorporated under 15 Pa.C.S. Chapter 53, Subchapter A (relating to incorporation generally) for the purpose of prevention of cruelty to animals, or as otherwise defined in the Dog Law (3 P. S. § 459-102).

Program—The Year 2009 Dog Control Facility Bill Reimbursement Program.

2. *Eligibility.*

A humane society or association for the prevention of cruelty to animals is eligible to apply to receive a grant under the Program if that humane society or association for the prevention of cruelty to animals:

- a. Has been in operation for at least 1 year immediately preceding the application date.
- b. Has performed dog control functions for at least 1 year immediately preceding the application date.
- c. Has, in the performance of its dog control functions, accepted at least 100 stray or unwanted dogs into its facility within the year immediately preceding the application date.
- d. Is not a party to a contract with the Department under which the Department pays that humane society or association for the prevention of cruelty to animals for dog control activities performed in the year 2009.
- e. Agrees—as a condition of receiving any grant money under the Program—to continue to perform dog control activities and to accept stray or unwanted dogs from the Department's State Dog Wardens performing dog control functions, through the year 2009.
- f. Agrees—as a condition of receiving any grant money under the Program—to accept stray or unwanted dogs as described in the preceding paragraph without regard to whether the stray or unwanted dog originates from a county other than the county in which the humane society or association for the prevention of cruelty to animals is located.
- g. Has a valid Pennsylvania 2009 "Non Profit" kennel license, and operates only a nonprofit kennel at the facility for which grant reimbursement is requested. Facilities which house kennel operations other than a nonprofit facility (that is, boarding kennel and/or commercial kennel) at the same location are not eligible to participate in this program.
- h. If the Humane Society/SPCA has a total operating budget of \$350,000 or less for the 2009 calendar year or, if its budget is on a basis other than calendar year, has a total operating budget of \$350,000 or less for each fiscal year comprising any portion of calendar year 2009, the maximum grant amount will not exceed \$15,000.
- i. If the Humane Society/SPCA has a total operating budget exceeding \$350,000 for the 2009 calendar year or, if its budget is on a basis of other than calendar year, has a total operating budget over \$350,000 for each fiscal year comprising any portion of calendar year 2009, the maximum grant amount will not exceed \$10,000.

3. *Use of Grant Funds.*

The Department will allocate a specific maximum grant amount to a successful grant applicant through a written grant agreement. This maximum grant amount will be specified in the grant agreement, and will not exceed \$15,000 with respect to any application.

The maximum grant amount will be retained by the Department and used to reimburse the grant recipient for eligible bills the grant recipient has paid with respect to materials, services or utilities provided to the grant recipient from March 1, 2009, through December 31, 2009. The total reimbursement the Department will pay a grant recipient will not exceed the maximum grant amount. Any money remaining in a grant allocation beyond the termination date of the grant agreement will lapse into the Dog Law Restricted Account. If a bill covers materials, services or utilities provided, in whole or in part, before March 1, 2009, or after December 31, 2009, that bill is not an eligible bill and will not be reimbursed by the Department under the Program.

4. *Application Process.*

- v. Verification that, in the event a grant is awarded, the applicant will continue to perform dog control activities, and to accept stray or unwanted dogs from the Department's State Dog Wardens performing dog control functions, through the year 2009.
- vi. Other information as the Department might reasonably require.

5. *Review and approval of grant application.*

a. *Review and notification.* The Department will review each timely grant application and provide the applicant written notification of whether the Department awards the grant, denies the grant or awards a grant in some amount less than the applicant sought. This written notification will be mailed no later than 30 days from the date the Bureau of Dog Law Enforcement receives the grant application, to the address provided by the applicant on the grant application form. If an application is

incomplete or the Department requires additional information or documentation to evaluate the grant request, it will so advise the applicant within 30 days from the date it receives the grant application.

a. *Grant agreement required.* A successful grant applicant must execute a grant agreement with the Department, setting forth the terms and conditions pursuant to which the grant money will be used by the Department to reimburse the grant recipient for payment of eligible bills.

b. *Reimbursement requests.* The grant agreement will set forth the exact procedure by which a grant recipient shall seek reimbursement from the Department for payment of eligible bills. The basic reimbursement request procedure will be as follows:

By August 15, 2009, the grant recipient will: (1) deliver copies of the eligible bills it has paid between March 1, 2009 and July 31, 2009; (2) verify that these bills have been paid and are eligible for reimbursement; and (3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 5-month period.

By January 15, 2010, the grant recipient will: (1) deliver copies of the eligible bills it has paid between August 1, 2009 and December 31, 2009; (2) verify that these bills have been paid and are eligible for reimbursement; and (3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 5-month period.

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Retention of an Engineering Firm Project Reference No. FDC-500-912

The Department of Conservation and Natural Resources (Department) will retain an engineering firm for an Open-End Contract for bridge design projects located on State park and State forest land in this Commonwealth. The contract will be for a 12 month period with four 12 month extensions possible. Projects will be assigned on an as-needed basis to ensure proper and safe operation of Department infrastructure and facilities. The contract will be for various bridge projects at facilities located throughout the State.

Letters of Interest for this contract will only be accepted from individuals or firms or corporations duly authorized to engage in the practice of engineering. If an individual, firm or corporation not authorized to engage in the practice of engineering desires to submit a letter of interest, said individual, firm or corporation may do so as part of a joint venture with an individual, firm, or corporation which is permitted under State law to engage in the practice of engineering.

The services will generally be civil and structural design efforts associated with bridge designs with the possibility of several different projects being designed under short completion schedules. The anticipated types of projects are bridge replacement and rehabilitation (single and multi-span). Projects may include minimal work on the roadways leading up to the bridge approaches and design work associated with water and sewage systems impacted by the project. Structural evaluations of existing bridges to determine if replacement or rehabilitation is more cost effective may also be necessary.

Typically the engineering firm shall be required to furnish a complete set of contract documents (plans and specifications), suitable for public bid and in accordance with a prescribed Department format and in accordance with applicable State and Federal codes and requirement.

Areas of related environmental study associated with these design projects may include, but are not limited to, wetlands, soil, geology, 25 Pa. Code Chapters 102 and 105 (relating to erosion and sediment control; and dam safety and waterway management) permits and Corps of Engineers 404 permits, Act 537 planning and the Department of Environmental Protection's water quality management requirements. The environmental studies shall be conducted in accordance with accepted analysis techniques and methodologies and may include any or all of the following to ensure a complete environmental investigation has been performed; provide all necessary environmental services, material and equipment necessary to collect, analyze and organize data, assess impacts, prepare reports and design mitigation plans. The reports and other graphic material to be prepared may include, but are not limited to, plans of study, meeting minutes, preparation of permit application documents, mitigation plans and reports and wetland and floodplain findings.

The engineering firm may be required to perform any or all of the following duties: attend site visits; prepare minutes; perform necessary field surveys; plot topography

and cross sections; develop erosion control plans; prepare type, size and location reports; prepare construction drawings, specifications, and estimates; procure core borings; provide soil and foundation engineering reports; investigate utility involvement; evaluate alternatives using benefit/cost analysis; develop other details and narratives; inspect major and unusual structures; develop rehabilitation strategies; and also, review shop drawings, catalog cuts and occasional attendance at construction job conferences may be required.

The dollar amount of the contract shall be at the discretion of the Department for the first year. The extent of the work for the subsequent 4 years of the contract will be dependent on the availability of additional funds and additional projects for those years, also at the discretion of the Department.

The services shall include, but not be limited to, a preliminary meeting in the Bureau of Facility Design and Construction, 8th Floor, Rachel Carson State Office Building, 400 Market Street, Harrisburg, PA, for this project. The contract shall be based on the hours of service and qualifying expenses not exceeding the contract amount. The design work will be reviewed by the engineering staff of the Bureau of Facility Design and Construction, and when acceptable, approved by same staff.

SPECIAL PROVISIONS CONCERNING DISADVANTAGED BUSINESSES AND ENTERPRISE ZONE BUSINESSES FOR REQUESTS FOR PROPOSALS

"Disadvantaged Business Information"

The Commonwealth encourages participation by Small Disadvantaged Businesses as prime contractors, joint ventures, and subcontractors/suppliers, and by Socially Disadvantaged Businesses as prime contractors.

Small Disadvantaged Businesses are small businesses that are owned or controlled by a majority of persons, not limited to members of minority groups, who have been deprived of the opportunity to develop and maintain a competitive position in the economy because of social disadvantages. The term includes: 1) Department of General Services Bureau of Minority & Women Business Opportunities (BMWBO)-certified Minority Business Enterprises (MBEs) and Women Business Enterprises (WBEs) that qualify as small businesses and 2) United States Small Business Administration (SBA)-certified Small Disadvantaged Businesses (SDBs) or 8(a) small disadvantaged business concerns.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons, and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

Socially disadvantaged businesses are businesses in the United States that BMWBO determines are owned or controlled by a majority of persons, not limited to members or minority groups, who are subject to racial or ethnic prejudice or cultural bias, but which do not qualify as small businesses. For a business to qualify as "socially disadvantaged," the offeror must include in its proposal clear and convincing evidence to establish that the business has personally suffered racial or ethnic prejudice or cultural bias stemming from the business person's color, ethnic origin or gender.

Questions regarding this Program can be directed to Department of General Services, Bureau of Minority &

Women Business Opportunities, Room 611, North Office Building, Harrisburg, PA 17125, gs-bmwbo@state.pa.us, (717) 787-6708, fax (717) 772-0021.

Program information and a database of BMWBO-certified minority- and women-owned businesses can be accessed at www.dgs.state.pa.us, Keyword: BMWBO. The federal vendor database can be accessed at www.ccr.gov by clicking on Dynamic Small Business Search (certified companies are so indicated).

“Information Concerning Small Businesses in Enterprise Zones”

The Commonwealth encourages participation by small businesses whose primary headquarters facility is physically located in areas designated by the Commonwealth as Designated Enterprise Zones, as prime contractors, joint ventures and subcontractors/suppliers.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

There is no database or directory of small business located in Designated Enterprise Zones. Information on the location of *Designated Enterprise Zones* can be obtained by contacting Aldona M. Kartorie, Center for Community Building, Department of Community and Economic Development, 4th Floor Keystone Building, 400 North Street, Harrisburg, PA 17120-0225, (717) 720-7409, fax (717) 787-4088, akartorie@state.pa.us.

“Disadvantaged Businesses Information”

To receive credit for being a Small Disadvantaged Business or a Socially Disadvantaged Business, entering into a joint venture agreement with a Small Disadvantaged Business, or subcontracting with a Small Disadvantaged Business (including purchasing supplies and/or services through a purchase agreement), a company must include proof of Disadvantaged Business qualification in the Disadvantaged Business submittal of the proposal:

a) Small Disadvantaged Businesses qualifying as a result of MBE/WBE certification from BMWBO must provide a photocopy of their BMWBO certificate.

b) Disadvantaged Businesses qualifying as a result of certification from the United States. Small Business Administration as an 8(a) or Small Disadvantaged Business must submit proof of Small Business Administration Certification. The owners of such businesses must also submit proof of United States citizenship.

c) Companies claiming Small Disadvantaged Business status, whether as a result of BMWBO certification or Small Business Administration certification as an 8(a) or Small Disadvantaged Business, must attest to the fact that the business has 100 or fewer employees.

d) Companies claiming Small Disadvantaged Business status, whether as a result of BMWBO certification or Small Business Administration certification as an 8(a) or Small Disadvantaged Business, must submit proof that their gross annual revenues are less than \$20,000,000 (\$25,000,000 for those businesses in the information technology sales or service business). This can be accomplished by including a recent tax or audited financial statement.

Companies claiming status as a Socially Disadvantaged Business must include in the Disadvantaged Business submittal of the proposal clear and convincing evidence to establish that the business has personally suffered racial or ethnic prejudice or cultural bias stemming from the business person’s color, ethnic origin or gender. The submitted evidence of prejudice or bias must:

a) Be rooted in treatment which the business person has experienced in American society, not in other countries.

b) Show prejudice or bias that is chronic and substantial, not fleeting or insignificant.

c) Indicate that the businessperson’s experience with the racial or ethnic prejudice or cultural bias has negatively impacted on his or her entry into and/or advancement in the business world.

BMWBO shall determine whether the contractor has established that a business is socially disadvantaged by clear and convincing evidence.

In addition to these verifications, this portion of the proposal should include the following information:

- The name and telephone number of your project (contact) person for the Small Disadvantaged Business(es).

- The company name, address, telephone number of the prime contact person for each **specific** Small Disadvantaged Business or Socially Disadvantaged Business included in the proposal. The contractor must specify the Small Disadvantaged Business(es) to which it is making commitments. The contractor will not receive credit by stating it will find a Small Disadvantaged Business after the contract is awarded or by listing several companies and stating it will select one later.

- The specific work, goods or services the Small Disadvantaged Business(es) will perform or provide.

- The location where the Small Disadvantaged Business(es) will perform these services.

- The time frame for the Small Disadvantaged Business(es) to provide or deliver the goods or services.

- The amount of capital, if any, the Small Disadvantaged Business(es) will be expected to provide.

- The form and amount of compensation each Small Disadvantaged Business will receive. In the Disadvantaged Business submittal of the proposal, provide the estimated dollar value of the contract to each Small Disadvantaged Business.

- The percent of the total value of services or products purchased/subcontracted under the proposal that will be provided by the Small Disadvantaged Business(es).

- In the case of a joint venture agreement, a copy of the agreement, signed by all parties, must be included in the Disadvantaged Business portion of the proposal. If subcontracting, a signed subcontract or letter of intent must be included in the Disadvantaged Business portion of the proposal.

- Include in the Disadvantaged Business Submittal any and all information concerning the contractor’s proposed utilization of small businesses located in *Designated Enterprise Zones* as required by [**Enter Section or Part # of the Enterprise Zone Small Business Utilization Response**], Enterprise Zone Small Business Utilization Response.

The Disadvantaged Business submittal of the proposal must be clearly identified as Disadvantaged Business information and sealed in an envelope separately from the remainder of the proposal. Only one copy of the Disadvantaged Business section is needed.

The dollar value of the commitment to each Small Disadvantaged Business must be sealed in the same envelope with the Disadvantaged Business submittal of the proposal. The selected contractor's Disadvantaged Business commitment amount, name of the Disadvantaged Business, services to be provided including timeframe for performing services will be included as a contractual obligation when the contract is executed.

Offerors may submit, within the same proposal envelope, alternate proposals for differing utilization of Small Disadvantaged Businesses or Socially Disadvantaged Businesses. For example, a proposal may be submitted by prime contractor with a Small Disadvantaged Business as a subcontractor while an alternate proposal may be submitted by the Small Disadvantaged Business as the prime contractor. If an alternate proposal is offered, it must include separately sealed Technical, Price and Disadvantaged Business submittals for the alternate. The alternate proposal will be scored separately. Only the higher-scored proposal (prime proposal or alternate proposal) will be eligible for participation for Best and Final Offers.

"Enterprise Zone Small Business Utilization Response"

To receive credit for being an enterprise zone small business or entering into a joint venture agreement with an enterprise zone small business or subcontracting with an enterprise zone small business, a company must include the following information in the Disadvantaged Business submittal of the proposal:

- Proof of the location of the business' headquarters (such as a lease or deed or Department of State corporate registration).
- Confirmation of the enterprise zone in which it is located (obtained from the local enterprise zone office).
- Proof of United States citizenship of the owners of the business.
- Certification that the business employs 100 or fewer employees.
- Proof that the business's gross annual revenues are less than \$20,000,000 (\$25,000,000 for those businesses in the information technology sales or service business). This can be accomplished by including a recent tax or audited financial statement.

In addition to these verifications, this portion of the Submittal should include the following information:

- The company name, address, name and telephone number of the primary contact person for each Enterprise Zone Small Business included in the proposal. The contractor must specify the Enterprise Zone Small Business to which it is making commitments. The contractor will not receive credit by stating that it will find a Enterprise Zone Small Business after the contract is awarded or by listing several companies and stating it will select one later.
- The specific work, goods or services the Enterprise Zone Small Business will perform or provide.
- The location where the Enterprise Zone Small Business will perform these services.

"Disadvantaged Business Participation"

The following options will be considered as part of the final criteria for selection:

Priority Rank 1. Proposals submitted by Small Disadvantaged Businesses.

Priority Rank 2. Proposals submitted from a joint venture with a Small Disadvantaged Business as a joint venture partner.

Priority Rank 3. Proposals submitted with subcontracting commitments to Small Disadvantaged Businesses.

Priority Rank 4. Proposals submitted by Socially Disadvantaged Businesses.

Each proposal will be rated for its approach to enhancing the utilization of Small Disadvantaged Businesses and/or Socially Disadvantaged Businesses. To the extent that a proposal is submitted by a Small Disadvantaged Business or a Socially Disadvantaged Business, the Small Disadvantaged Business or Socially Disadvantaged Business cannot enter into subcontract arrangements for more than 40% of the total estimated dollar amount of the contract. "Enterprise Zone Small Business Participation"

The following options will be considered as part of the final criteria for selection:

Priority Rank 1. Proposals submitted by an Enterprise Zone Small Business will receive the highest score.

Priority Rank 2. Proposals submitted by a joint venture with an Enterprise Zone Small Business as a joint venture partner will receive the next highest score for this criterion.

Priority Rank 4. Proposals with no Enterprise Zone Small Business Utilization shall receive no points under this criterion.

To the extent that a proposal is submitted as a prime contractor by an Enterprise Zone Small Business, the Enterprise Zone Small Business cannot enter into contract or subcontract arrangements for more than 40% of the total estimated dollar amount of the contract.

“Contract Requirements—Disadvantaged Business Participation and Enterprise Zone Small Business Participation”

Contracts containing Disadvantaged Business participation must also include a provision requiring the contractor to meet and maintain those commitments made to Disadvantaged Businesses and/or Enterprise Zone Small Businesses at the time of proposal submittal or contract negotiation, unless a change in the commitment is approved by the BMWBO. Commitments to Disadvantaged Businesses and/or Enterprise Zone Small Businesses made at the time of proposal submittal or contract negotiation must be maintained throughout the term of the contract. Any proposed change must be submitted to BMWBO which will make a recommendation as to a course of action to the contracting officer.

The contractor shall complete the Prime Contractor's Quarterly Utilization Report (or similar type document containing the same information) and submit it to the contracting officer of the agency that awarded the contract and BMWBO within 10 workdays at the end of each quarter the contract is in force. If there was no activity, the form must also be completed, stating “No activity in this quarter.” This information will be used to determine the actual dollar amount paid to Small Disadvantaged Business and/or Enterprise Zone Small Business subcontractors and suppliers, and Small Disadvantaged Businesses and/or Enterprise Zone Small Businesses involved in Joint Ventures. Also, it is a record of fulfillment of the commitment your firm made and for which it received Disadvantaged Business and Enterprise Zone Small Business points.

SPECIAL PROVISIONS CONCERNING DISADVANTAGED BUSINESSES AND ENTERPRISE ZONE BUSINESSES FOR REQUESTS FOR PROPOSALS

"Disadvantaged Business Information"

The Commonwealth encourages participation by Small Disadvantaged Businesses as prime contractors, joint ventures, and subcontractors/suppliers, and by Socially Disadvantaged Businesses as prime contractors.

Small Disadvantaged Businesses are small businesses that are owned or controlled by a majority of persons, not limited to members of minority groups, who have been deprived of the opportunity to develop and maintain a competitive position in the economy because of social disadvantages. The term includes: 1) Department of General Services Bureau of Minority & Women Business Opportunities (BMWBO)-certified Minority Business Enterprises (MBEs) and Women Business Enterprises (WBEs) that qualify as small businesses; and 2) United States Small Business Administration (SBA)-certified Small Disadvantaged Businesses (SDBs) or 8(a) small disadvantaged business concerns.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons, and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

Socially disadvantaged businesses are businesses in the United States that BMWBO determines are owned or controlled by a majority of persons, not limited to members or minority groups, who are subject to racial or ethnic prejudice or cultural bias, but which do not qualify as small businesses. For a business to qualify as "socially disadvantaged," the offeror must include in its proposal clear and convincing evidence to establish that the business has personally suffered racial or ethnic prejudice or cultural bias stemming from the business person's color, ethnic origin or gender.

Questions regarding this Program can be directed to Department of General Services, Bureau of Minority & Women Business Opportunities, Room 611, North Office Building, Harrisburg, PA 17125, gs-bmwbo@state.pa.us, (717) 787-6708, fax (717) 772-0021.

Program information and a database of BMWBO-certified minority- and women-owned businesses can be accessed at www.dgs.state.pa.us, Keyword: BMWBO. The Federal vendor database can be accessed at www.ccr.gov by clicking on Dynamic Small Business Search (certified companies are so indicated).

"Information Concerning Small Businesses in Enterprise Zones"

The Commonwealth of Pennsylvania encourages participation by small businesses whose primary headquarters facility is physically located in areas designated by the Commonwealth as Designated Enterprise Zones, as prime contractors, joint ventures and subcontractors/suppliers.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

There is no database or directory of small business located in Designated Enterprise Zones. Information on the location of *Designated Enterprise Zones* can be obtained by contacting: Aldona M. Kartorie, Center for Community Building, PA Department of Community and Economic Development, 4th Floor Keystone Building, 400 North Street, Harrisburg, PA 17120-0225, (717) 720-7409, fax (717) 787-4088, akartorie@state.pa.us.

APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION**UNDER ACT 2, 1995****PREAMBLE 1****Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment

noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.45, the Department of Environmental Protection (Department) intends to issue a Plan Approval PA-30-00177 to allow the construction of a coal transport facility consisting of belt lines, stockpile and haul road and other supporting equipment for the purpose of transporting coal across the state line into West Virginia at the Dooley Run Terminal, located in Dunkard Township, Greene County.

Emissions from the facility are estimated to be 43.99 tons of PM per year and 12.85 tons of PM under 10 microns (PM₁₀) per year. The proposed facility is subject to the applicable requirements of 25 Pa. Code Chapter 127, related to construction, modification, reactivation and operation of sources. The Department believes that the facility will meet these requirements by complying with the following Plan Approval conditions:

Special Conditions

1. This Plan Approval authorizes the construction of a new onground stockpiling, underground reclaim and transfer system for the purpose of transporting coal across the state line into West Virginia. The facility will be located at Coresco, LLC's Dooley Run Terminal in Dunkard Township, Greene County. This Plan Approval authorizes the owner/operator the allowable throughput of 3,000,000 tpy through this facility.

2. Per 25 Pa. Code § 123.1(a), there shall be no visible fugitive emissions from this facility at any time, except those that are a direct result of stockpiling or use of roads. Per 25 Pa. Code § 123.1(c), permittee shall take all reasonable actions to prevent PM arising from stockpiling or use of roads from becoming airborne. Per 25 Pa. Code § 123.2, visible fugitive emissions shall not cross permittee's property line at any time.

3. The Owner/Operator shall maintain the coal moisture content at or above 5% and will monitor to assure that the moisture content is maintained.

4. A road sweeper and/or a pressurized water truck shall be available to the site and shall be used for dust suppression purposes. Inplant roads and areas of vehicle traffic shall be watered, as needed on a preventative basis, and earth or other material transported from the site shall be removed promptly such that visible fugitive emissions do not cross the property line in accordance with 25 Pa. Code §§ 123.1 and 123.2. Other methods of dust control shall be used when weather conditions make inplant road watering hazardous, as necessary, to prevent visible fugitive emissions from crossing the property line in accordance with 25 Pa. Code §§ 123.1 and 123.2.

5. All conveying equipment and front-end loaders used to stockpile, transfer and load coal shall maintain a minimal amount of drop height at all times so as to prevent fugitive emissions. The use of heavy equipment (such as, high-lifts, bulldozers, and the like) to move coal shall be limited to clean up around the underground feeders.

6. All coal transfer points and conveyors shall be fully or partially enclosed.

7. Water sprays shall be installed on all transfer points, and stockpile and be operated as needed when the facility is in operation. The plant shall not be operated in the event that the dust suppression systems are incapable of operation, unless coal moisture content makes operation of water sprays unnecessary.

8. The Owner/Operator shall use existing or manmade wind barriers, where possible, to prevent fugitive emissions from crossing the property line.

9. The first 500 feet inplant roads shall be paved and maintained so as to prevent fugitive emissions from crossing the property line.

10. The Owner/Operator shall post the following:

a. A speed limit of 15 mph or less on all inplant roads.

b. A requirement stating, "All loaded trucks entering or exiting the plant property shall be properly tarpaulin covered."

11. Coal stockpiling operations shall occur in those areas delineated in the site plan from which coal can be reclaimed through the underground feeders and which are within the effective range of the fixed water spray heads.

12. The Department may require additional controls and/or practices based on evaluation of the operation after startup.

13. A person may not permit the emission into the outdoor atmosphere of any malodorous air contaminants from any source in such a manner that the malodors are detectable outside the property of the person on whose land the source is being operated.

14. Owner/operator shall perform a daily inspection of the facility for the presence of fugitive or malodorous emissions. If such emissions are noted, immediate actions shall be taken to correct them. (25 Pa. Code § 127.12b)

15. Owner/operator shall maintain records of all fugitive and malodor inspections performed, and records of all dust control and road maintenance activities. Records shall include date, time, area of operation, hours or mileage of the water truck, and descriptions of any roadway maintenance activities.

16. The Owner/Operator shall maintain records of the 12-month rolling total or the following:

- a. Tons of coal delivered to the Facility.
- b. Tons of coal shipped from the Facility.

17. All records shall be maintained onsite for a minimum of 5 years, and shall be made available to the Department upon request.

18. The permittee shall report each malfunction that may result in an emissions increase to the Department. For purposes of this condition a malfunction is defined as any sudden, infrequent and not reasonably preventable failure of air pollution control or process equipment; or, operating in a nonpermitted manner.

a. When the malfunction poses an imminent and substantial danger to the public's health and safety or potential harm to the environment, the permittee shall report the incident to the Department within 1 hour.

b. The report shall describe the:

1. Name and location of the facility;
2. Nature and cause of the malfunction;
3. Time when the malfunction or breakdown was first observed;
4. Expected duration of excess emissions; and
5. Estimated rate of emissions.

c. The owner or operator shall notify the Department immediately when corrective measures have been accomplished.

d. Unless otherwise required by specific reporting requirements, any malfunction that is not subject to the notice requirements of paragraph a. of this permit condition, shall be reported to the Department within 24-hours (or the next business day) by telephone and within 5 days by mail of discovery. The report shall contain the same information required by subsection b.1—5.

19. Upon determination by the Owner/Operator that the sources covered by this Plan Approval are in compliance with all conditions of the Plan Approval the Owner/Operator shall contact the Department's reviewing engineer and schedule the Initial Operating Permit Inspection.

20. Upon completion of Initial Operating Permit Inspection and determination by the Department that the sources covered by this Plan Approval are in compliance with all conditions of the Plan Approval the Owner/

Operator shall submit a State-only Operating Permit application at least 60 days prior to the expiration date of the Plan Approval.

General Conditions

21. Words and terms that are not otherwise defined in this plan approval shall have the meanings set forth in section 3 of the Air Pollution Control Act (APCA).

22. The issuance of this plan approval does not prevent the future adoption by the Department of any rules, regulations or standards, or the issuance of orders necessary to comply with the requirements of the Federal Clean Air Act (CAA) or the APCA, or to achieve or maintain ambient air quality standards. The issuance of this plan approval shall not be construed to limit the Department's enforcement authority.

23. This plan approval authorizes temporary operation of the sources covered by this plan approval provided the following conditions are met.

a. When construction, installation, modification or reactivation is being conducted, the permittee should provide written notice to the Department of the completion of the activity approved by this plan approval and the permittee's intent to commence operation at least 5 working days prior to the completion of said activity. The notice shall state when the activity will be completed and when the permittee expects to commence operation. When the activity involves multiple sources on different time schedules, notice is required for the commencement of operation of each source.

b. Under 25 Pa. Code § 127.12b(d), temporary operation of the sources to facilitate the shakedown of sources and air cleaning devices, to permit operations pending the issuance of a permit under 25 Pa. Code Chapter 127, Subchapter F or G (relating to operating permits; and Title V operating permits) or to permit the evaluation of the air contaminant aspects of the source.

c. This plan approval authorizes a temporary operation period not to exceed 180 days from the date of commencement of operation, provided the Department receives notice from the permittee under paragraph (a), previously.

d. The permittee may request an extension of the 180-day shakedown period if further evaluation of the air contamination aspects of the sources is necessary. The request for an extension should be submitted, in writing, to the Department at least 15 days prior to the end of the initial 180-day shakedown period and shall provide a description of the compliance status of the source, a detailed schedule for establishing compliance, and the reasons compliance has not been established. This temporary operation period will be valid for a limited time and may be extended for additional limited periods, each not to exceed 180 days.

e. The notice submitted by the permittee under subpart a previously, prior to the expiration date of the plan approval, shall modify the plan approval expiration date on Page 1 of this plan approval. The new plan approval expiration date shall be 180 days from the date of commencement of operation.

24. The permittee shall maintain and operate the sources and associated air cleaning devices in accordance with good engineering practice as described in the plan approval application submitted to the Department.

25. The records, reports or information obtained by the Department or referred to at public hearings shall be available to the public, except as provided in paragraph a of this condition.

a. Upon cause shown by the permittee that the records, reports or information or a particular portion thereof, but not emission data, to which the Department has access under the act, if made public, would divulge production or sales figures or methods, processes or production unique to that person or would otherwise tend to affect adversely the competitive position of that person by revealing trade secrets, including intellectual property rights, the Department will consider the record, report or information, or particular portion thereof confidential in the administration of the act. The Department will implement this section consistent with sections 112(d) and 114(c) of the CAA (42 U.S.C.A. §§ 7412(d) and 7414(c)). Nothing in this section prevents disclosure of the report, record or information to Federal, State or local representatives as necessary for purposes of administration of Federal, State or local air pollution control laws, or when relevant in a proceeding under the act.

26. This plan approval will be valid for a limited time, as specified by the expiration date contained on page 1 of this plan approval. Except as provided in §§ 127.11a and 127.215 (relating to reactivation of sources; and reactivation), at the end of the time, if the construction, modification, reactivation or installation has not been completed, a new plan approval application or an extension of the previous approval will be required.

a. If construction has commenced, but cannot be completed before the expiration of this plan approval, an extension of the plan approval must be obtained to continue construction. To allow adequate time for departmental action, a request for the extension should be postmarked at least 30 days prior to the expiration date. The Department will not issue an extension after the plan approval expires. The request for an extension should include the following:

1. A justification for the extension.
2. A schedule for the completion of the construction.

If construction has not commenced before the expiration of this plan approval, then a new plan approval application must be submitted and approval obtained before construction can commence.

b. If the construction, modification or installation is not commenced within 18-months of the issuance of this plan approval or if there is more than an 18-month lapse in construction, modification or installation, a new plan approval application that meets the requirements of 25 Pa. Code Chapter 127, Subchapters B, D and E (related to plan approval requirements; prevention of significant deterioration of air quality; and new source review) shall be submitted.

27. This plan approval may not be transferred from one person to another except when a change of ownership is demonstrated to the satisfaction of the Department and the Department approves the transfer of the plan approval in writing.

a. Section 127.12a (relating to compliance review) applies to a request for transfer of a plan approval. A compliance review form shall accompany the request.

b. This plan approval is valid only for the specific source and the specific location of the source as described in the application.

28. Under 35 P.S. § 4008, no person shall hinder, obstruct, prevent or interfere with the Department or its personnel in the performance of any duty authorized under the APCA.

a. The permittee shall also allow the Department to have access at reasonable times to said sources and associated air cleaning devices with such measuring and recording equipment, including equipment recording visual observations, as the Department deems necessary and proper for performing its duties and for the effective enforcement of the APCA and regulations adopted under the act.

b. Nothing in this plan approval condition shall limit the ability of the Environmental Protection Agency (EPA) to inspect or enter the premises of the permittee in accordance with section 114 or other applicable provisions of the CAA.

29. This plan approval may be terminated, modified, suspended or revoked and reissued if one or more of the following applies:

a. The permittee constructs or operates the source subject to the plan approval in violation of the act, the CAA, the regulations promulgated under the act or the CAA, a plan approval or permit or in a manner that causes air pollution.

b. The permittee fails to properly or adequately maintain or repair an air pollution control device or equipment attached to or otherwise made a part of the source.

c. The permittee fails to submit a report required by this plan approval.

d. The EPA determines that this plan approval is not in compliance with the CAA or the regulations thereunder.

30. The permittee, or any other person, may not circumvent the new source review requirements of 25 Pa. Code Chapter 127, Subchapter E by causing or allowing a pattern of ownership or development, including the phasing, staging, delaying or engaging in incremental construction, over a geographic area of a facility which, except for the pattern of ownership or development, would otherwise require a permit or submission of a plan approval application.

31. No person may permit the use of a device, stack height which exceeds good engineering practice stack height, dispersion technique or other technique which, without resulting in reduction of the total amount of air contaminants emitted, conceals or dilutes an emission of air contaminants which would otherwise be in violation of this plan approval, the APCA or the regulations promulgated thereunder, except that with prior approval of the Department, the device or technique may be used for control of malodors.

32. Reports, test data, monitoring data, notifications shall be submitted to the:

Regional Air Program Manager
Department of Environmental Protection
400 Waterfront Drive
Pittsburgh, PA 15222

33. If required by section 112(r) of the CAA, the permittee shall develop and implement an accidental release program consistent with requirements of the CAA, 40 CFR Part 68 (relating to chemical accident prevention provisions) and the Federal Chemical Safety Information, Site Security and Fuels Regulatory Relief Act.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of the Plan Approval may submit the information to Noor Nahar, Department of

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam

Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Where a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located

in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

HAZARDOUS SITES CLEANUP UNDER THE ACT OF OCTOBER 18, 1988

Proposed Interim Response

Everglade Junkyard Site Surface Soils and Waste

Hempfield Township, Westmoreland County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA), (35 P. S. §§ 6020.101—6020.1305) is proposing a response action for the surface soils and waste at the Everglade Junkyard Site (Site). The Site is located on Everglade Road about 1 mile south of Route 30 in Hempfield Township, Westmoreland County. The Site is the location of the former Everglade Iron and Steel Company. Contaminants at this Site include PCBs, lead and VOCs. These contaminants exceed Statewide Health Standards under the Land Recycling and Environmental Remediation Standards Act.

The following alternatives were evaluated: (1) no action; (2) construct fence around the Site; (3) excavate and dispose of waste, debris and all contaminated surface soil; and (4) remove and dispose of waste, large debris and PCB hotspots; cover remaining contaminated material with clean soil. The selected alternative is number four. This alternative was chosen because it complies with the applicable, relevant and appropriate requirements and is the most cost effective.

This proposed response consists of removal of waste, large debris and soil contaminated with elevated levels of PCBs. Impacted areas would then be covered with clean soil and revegetated. A soil management plan and deed restrictions would be used to ensure that the cap remains intact and the contaminated material is handled properly if disturbed.

This notice is being provided under section 506(b) of HSCA. The administrative record which contains the information that forms the basis and documents the selection of this response action is available for public review and comment. The administrative record is located at 400 Waterfront Drive, Pittsburgh, PA 15222 and is available for review Monday through Friday from 8 a.m. to 4 p.m.

The administrative record will be open for comment from November 8, 2008, until February 6, 2009. Person may submit written comments to the administrative record during this time by sending them to Dawna Saunders at 400 Waterfront Drive, Pittsburgh, PA 15222 or by delivering them to this office in person.

In addition persons may present oral comments, for inclusion in the administrative record at a public hearing. The Department has scheduled the hearing on December 9, 2008, at 6 p.m. at the Hempfield Township Municipal Building. Persons wishing to present comments for inclusion in the Administrative Record may do so at this time.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings should call Helen Humphreys at (412) 442-4000 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation

performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a

Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. Request for Comment and Notice of Public Meeting for the Proposed Total Maximum Daily Load (TMDL) for the Hazle, Quakake and Black Creek Watersheds in Carbon and Luzerne Counties

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901.

The Department of Environmental Protection (Department) is holding a public meeting on December 4, 2008, beginning at 10 a.m. at the Pottsville District Office in Pottsville, PA to discuss and accept comments on a proposed TMDL. The proposed TMDL was established in accordance with the requirements of the 1996 section 303(d) of The Clean Water Act. The Hazle, Quakake and Black Creek Watersheds have been identified as impaired on the 1996 Pennsylvania 303(d) list due to high concentrations of metals.

The proposed plan provides calculations of the stream's total capacity to accept metals (aluminum, iron and manganese) and pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

<i>Parameter</i>	<i>Criterion value (mg/l)</i>	<i>Total Recoverable/Dissolved</i>
Aluminum	0.75	Total Recoverable
Iron	1.5	Total Recoverable
Manganese	1.00	Total Recoverable
pH	6.0 to 9.0	NA

The primary pollutant source for the watershed is abandoned mine workings. This watershed was heavily mined for coal in the 19th and 20th centuries. The effects of this are still present. The TMDL consists of load allocations, which are made to nonpoint sources of pollution and waste load allocations, which are made to permitted point sources.

The TMDL was developed using Monte Carlo Simulation to determine long-term average concentrations that each stream segment could accept and still meet water quality criteria 99% of the time. Monte Carlo Simulation allows for the expansion of a dataset based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the TMDL.

The TMDL sets allowable loading rates for metals, sediment and acidity at specified points in the watershed. The basis of information used in the establishment of this TMDL is field data between 2006 and 2008.

The data and all supporting information used to develop the proposed TMDL are available from the Department. To request a copy of the proposed TMDL and an information sheet, contact James Andrews at (570) 621-3118 between 8 a.m. and 4 p.m., Monday through Friday, at Pottsville District Mining Office, 5 West Laurel Boulevard, Pottsville, PA 17901. E-mail will be received at jameandrew@state.pa.us. Directions to the meeting place can also be obtained through this contact.

The TMDL can be viewed and printed by accessing the Department's web site at www.dep.state.pa.us (PA Keyword: TMDL).

Written comments will be accepted at the previous address and must be postmarked by December 26, 2008. Persons who plan to make a presentation at the public meeting should notify the Department no later than 4

p.m. Wednesday, November 26, 2008. The Department will consider all comments in developing the final TMDL, which will be submitted to the Environmental Protection Agency for approval.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Interim Final Technical Guidance:

DEP ID: 254-2212-504. Title: Guidelines for the Development and Implementation of County Municipal Waste Management Plan Revisions. Description: This technical guidance document provides the Department regional staff and county recycling coordinators with updated information to aid in their development and review of county waste management plans. In response to recent court decisions, the guidance was updated to include revised instructions for the development of waste management plans that include waste flow control provisions, including supplemental considerations that must now be evaluated for flow control involving publicly-owned or publicly-controlled facilities. The procedures to classify revisions to county waste management plans as either substantial or nonsubstantial have also been modified in the guidance document to clarify the responsibilities of the county in each situation. The appendix to the guidance document was also updated to include the most current court decisions impacting county waste management. Written Comments: Interested persons may submit written comments on the substantive revisions to the interim final technical guidance document by December 8, 2008. The Department will accept comments submitted by e-mail, but comments submitted by facsimile will not be accepted. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Sally Lohman, Department of Environmen-

tal Protection, Bureau of Waste Management, P. O. Box 8472, Harrisburg, PA 17105-8472, (717) 787-7382, slohman@state.pa.us. Contact: Sally Lohman, Department of Environmental Protection, Bureau of Waste Management, P. O. Box 8472, Harrisburg, PA 17105-8472, (717) 787-7382, slohman@state.pa.us. Interim Final Effective Date: November 8, 2008.

Draft Technical Guidance—Substantive Revision:

DEP ID: 391-2000-017. Title: Implementation Guidance Temperature Criteria. Description: Updates were made to this technical guidance document to clarify procedures applicable to 316(a) demonstrations, including consideration of situations where there is an incomplete mix between the discharge flow and the receiving water. The screening criterion included in the guidance document was also updated to clarify when thermal limits should be applied. In addition, temperature issues regarding POTW discharges to High Quality (HW)/Exceptional Value (EV) and Cold Water Fishes (CWF) streams are also addressed in the guidance. Finally, the guidance was modified to expand recommended thermal monitoring frequencies and to provide for guidance to address the maximum 2° F per hour delta requirement in 25 Pa. Code Chapter 93 (relating to water quality standards). Written Comments: Interested persons may submit written comments on the substantive revisions to this technical guidance document by January 7, 2009. The Department will accept comments submitted by e-mail, but comments submitted by facsimile will not be accepted. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Thomas Starosta, Department of Environmental Protection, Bureau of Water Standards and Facility Regulation, Division of Planning and Permits, P. O. Box 8774, Harrisburg, PA 17105-8774, tstarosta@state.pa.us. Contact: Questions regarding the technical guidance document should be directed to Thomas Starosta at (717) 787-4317, tstarosta@state.pa.us. Effective Date: Upon publication of notice as final in the *Pennsylvania Bulletin*.

DEP ID: 383-2127-103. Title: Permitting of Bulk Water Hauling Systems. Description: The Pennsylvania Safe Drinking Water Regulations (25 Pa. Code Chapter 109 (relating to safe drinking water)) define a bulk water hauling system as a public water system which provides water piped into a carrier vehicle and withdrawn by a similar means into the user's storage facility or vessel. The term includes, but is not limited to, the sources of water, treatment, storage or distribution facilities. The term does not include a public water system which provides only a source of water supply for a bulk water hauling system. All systems that meet the definition of a bulk water hauling system are required to obtain a public water supply permit as outlined in § 109.1005(d) (relating to permit requirements). This guidance document includes substantive revisions to provide a clearer description of systems which are bulk water hauling systems. The revised guidance also clarifies when systems are required to obtain a permit and what information should be included in a complete permit application. The guidance document also specifies those situations where a permit may be rescinded or amended. Written Comments: Interested persons may submit written comments on this draft technical guidance document by December 8, 2008. The Department will accept comments submitted by e-mail, but comments submitted by facsimile will not be accepted. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Godfrey C. Maduka, Bureau of Water Standards and Facility Regulation, P. O. Box 8774, Harris-

burg, PA 17105-8774, gomaduks@state.pa.us. Contact: Questions regarding the draft technical guidance document should be directed to Godfrey C. Maduka at (717) 787-8184, gomaduka@state.pa.us. Effective Date: Upon publication of notice as final in the *Pennsylvania Bulletin*.

Notice to Rescind Technical Guidance:

DEP ID: 291-3350-001. Title: Monitoring and Reporting Methodology for Individuals Occupationally Exposed to Medical X-rays While Wearing Protective Apparel. Description: On 37 Pa.B. 473 (January 27, 2007), the Department published notice of the availability of draft document No. 291-3350-001 for public comment. The document was intended to provide guidance concerning the reporting of occupational exposure resulting from diagnostic X-ray procedures and included alternate ways to determine doses to individuals who receive exposure from medical X-ray radiation, while wearing protective apparel. Since the document was issued as draft, the Department received Agreement State status from the United States Nuclear Regulatory Commission (NRC). The Department has incorporated the regulations of the NRC, as well as its guidance to ensure program compatibility and regulatory consistency. Since the NRC has preexisting guidance covering the same issues covered by the draft technical guidance, the Department has decided to rescind draft technical guidance document No. 291-3350-001 and will use the NRC's guidance which is contained in Regulatory Information Summary (RIS) 2002-06 "Evaluating Occupational Dose for Individuals Exposed to NRC-Licensed Material and Medical X-rays." Peer group and Store peer group system

According to the Preamble, the inclusion of these definitions will allow the Department to implement “Federally-mandated cost containment measures,” yet the regulation does not explain what these measures entail. The final-form regulation should explain this phrase.

Also, the definition for “peer group” refers to “criteria selected by the Department,” and the definition for “store peer group system” refers to “common characteristics” or “criteria that affect food prices.” For both terms, the final-form regulation should provide examples of such criteria and characteristics.

2. Section 1103.1. Authorization and reauthorization process and requirements.—Reasonableness; Implementation procedures; Clarity.

Subsections (b)(5) and (c)(2) refer to “any information necessary” for the Department to determine whether the store qualifies as an above-50-percent-store. The same phrase is used in Subsection 1105.6(h). This phrase is vague and the final-form regulation should provide examples of the relevant “information” needed.

Subsection (d)(7) states that if the Department does not receive from the store the information requested to determine if the store qualifies as an above-50-percent-store within 20 calendar days, then the Department will terminate a store’s authorization or reauthorization. How did the Department determine this was an appropriate timeframe?

3. Section 1103.4. Selection criteria for authorization and reauthorization.—Reasonableness.

Under Paragraph (15), the Department will provide notice by September 15 of minimum technology requirements for the following calendar year. Given that the magnitude of the technology change is not known, does notice by September 15 allow a store sufficient time to purchase, test and implement the new technology in all circumstances?

4. Section 1103.8. Store peer group system.—Clarity.

Subsection (b) states that the Department will create peer groups “based upon at least two criteria selected by

the Department” This subsection lists a measure of geography as one criterion, but it does not explain the second. The final-form regulation should explain both criteria.

5. Section 1107.1a. Disqualifications.—Implementation procedures.

For how long must a store violate this section before it will be subject to a one year disqualification? Will the store receive notice of the violation and be given an opportunity to cure it before it is disqualified? What happens after the one year period ends? How does the store become “re-authorized”? The final-form regulation should address these issues.

State Board of Dentistry
Regulation #16A-4617 (IRRC #2720)

Dental Hygiene Scope of Practice;
Local Anesthesia

October 29, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the August 30, 2008 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Board of Dentistry (Board) to respond to all comments received from us or any other source.

1. Administration of local anesthesia by a dental hygienist.—Statutory authority; Protection of the public health, safety and welfare.

The General Dental Law (Law) states that a person engages in the practice of dentistry when he “administers anesthetic agents.” 63 P. S. § 121. It further limits the administration of general anesthesia, deep sedation, conscious sedation and nitrous oxide/oxygen analgesia to licensed dentists. 63 P. S. § 130c. As the Board noted in the preamble to its 1995 revisions to Chapter 33, the Law “only confers the authority upon dentists to administer anesthesia.” 25 Pa.B. 2494 (June 24, 1995). While the Law does not extend the privilege of administering anesthesia to dental hygienists, it does permit them to perform “intra-oral procedures which the hygienists have been educated to perform and which require their competence and skill but which do not require the professional competence and skill of the dentist.” 63 P. S. § 121.

In seeking to allow dental hygienists to administer local anesthesia, it appears the Board has determined that such action is an intra-oral procedure, rather than the administration of an anesthetic agent. On what basis did the Board make that determination? How does the administration of local anesthesia differ from administration of other anesthetic agents? Finally, how did the Board conclude that administration of local anesthesia is not a skill that requires the professional competence and skill of a dentist?

In addition to answering these questions, the final-form regulation should further explain the Board’s statutory authority for allowing dental hygienists to administer local anesthesia, and how allowing them to do so protects the public health, safety and welfare.

2. Section 33.1. Definitions.—Clarity.

Act 51 of 2007 created the “public health dental hygiene practitioner” and the Board has defined that

term in this proposal. We recommend that the term be added to the Board’s existing definition of “board regulated practitioner.”

The second sentence of the definition of “Local anesthesia” applies only to § 33.115 of the proposed regulation. We recommend that the sentence be moved to that section.

3. Section 33.115. Local anesthesia permit.—Clarity.

Subsection (c)(3) requires a dental hygienist seeking a local anesthesia permit to provide “acceptable documentation” to the Board. We recommend that the final-form regulation specify the type of documentation that would be acceptable to the Board. Similar language appears in Sections 33.116(b)(2) and (3).

Under Subsection (c)(3)(iii)(C), dental hygienists must “certify” certain information to the Board. We recommend that the regulation specify how certain information can be “certified.”

4. Section 33.116. Certification of public health dental hygiene practitioners.—Statutory authority; Need; Implementation procedures; Clarity.

Subsection (b)(3) requires public health dental hygiene practitioners to provide the Board with acceptable documentation that professional liability insurance has been obtained. We have four concerns. First, what is the Board’s statutory authority for requiring public health dental hygiene practitioners to obtain professional liability insurance?

Second, it is our understanding that no other practitioner regulated by the Board is required by statute or regulation to obtain professional liability insurance. What is the need for requiring public health dental hygiene practitioners to obtain professional liability insurance?

Third, a commentator has noted that some employers of public health dental hygiene practitioners provide liability coverage for the practitioner. Would the Board consider the coverage provided by an employer acceptable? If so, and as noted in our comment on § 33.115, what would be considered acceptable proof of coverage? This should be included in the final-form regulation.

Finally, if coverage provided by an employer is less than the minimum amount specified in the regulation, will supplemental coverage for the difference be required? This should be specified in the final-form regulation.

5. Section 33.205. Practice as a dental hygienist.—Clarity.

Under Subsection (a)(1), what are “subgingival agents”? Since this term is used in other sections of the proposed regulation, we recommend it be defined in § 33.1, relating to definitions.

6. Section 33.205b. Practice as a public health dental hygiene practitioner.—Consistency with other statutes and regulations; Clarity; Implementation procedures.

Subsection (c) lists the places that a public health dental hygiene practitioner can practice. We have three concerns.

First, what is meant by the following terms: schools; correctional facilities; and federally qualified health centers? We suggest that these terms be defined.

Second, under the Public School Code of 1949 (24 P. S. §§ 14-1401 and 14-1403) and the Department of Education’s regulations (28 Pa. Code § 23.35), dental hygienists can practice in school districts if they are certified to do

so by the Department of Education. In developing the final-form regulation, the Board needs to ensure that it is consistent with these existing statutory and regulatory provisions that apply to dental hygienists that practice in school districts.

Third, Subsection (d) requires dental records to be maintained for five years. However, it is not clear what format these records may be kept in. Must they be written or are electronic records acceptable?

7. Section 33.302. Auxiliary personnel performing radiologic procedures.—Statutory authority; Protection of the public health, safety and welfare.

Under Subsection (a), what is the Board’s statutory authority for allowing public health dental hygiene practitioners to perform radiological procedures without the supervision of a dentist? Is the health and safety of the public adequately protected if a public health dental hygiene practitioner is allowed to perform these procedures, which would include diagnosis?

8. Miscellaneous clarity.

Under § 33.116(c), should the phrase “local anesthesia permit” be replaced with the phrase “certificate of public health dental hygiene practitioner”?
