READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

Proclamation of Disaster Emergency

June 29, 2009

Whereas, Investigations made at my direction have disclosed that localized and unusually high winds and heavy rains in parts of Southwestern Pennsylvania on June 16 and 17, have resulted in extensive damage to private homes and caused other adverse impacts upon the general population of Southwestern Pennsylvania; and

Whereas, as the storm waters receded, the extent of damage to private homes was revealed; and

Whereas, the serious impact of this storm in both the immediate and long-term affect on homeowners represents a major hardship requiring a comprehensive Federal, State and local partnership for effective recovery; and

Whereas, the emergency situation has been of such magnitude and severity as to render essential the Commonwealth's supplementation of county and municipal efforts and resources and the activation of all applicable State, county and municipal emergency response plans; and

Now Therefore, pursuant to the provisions of Subsection 7301(c) of the Emergency Management Services Code (35 Pa.C.S. § 7101 et seq.), I do hereby proclaim the existence of a disaster emergency in Allegheny and Westmoreland Counties and, in accordance with the State Emergency Operations Plans, I authorize and direct that the Pennsylvania Emergency Management Agency Director or his designee assume command and control of the emergency operations and that all Commonwealth agencies and departments under the direction of the Pennsylvania Emergency Management Agency Director or his designee utilize all available resources and personnel as is deemed necessary to cope with the magnitude and severity of this emergency situation; and

Further, I hereby transfer up to \$3,000,000 in unused appropriated funds to the Pennsylvania Emergency Management Agency. The aforementioned funds shall be used for disaster-related expenses incurred by various State agencies and Departments. These funds shall be credited to a special account established by the Office of the Budget. All Commonwealth agencies purchasing supplies or services in response to this emergency are authorized to utilize the emergency procurement procedures set forth in Section 516 of the Commonwealth Procurement Code, 62 Pa.C.S. Section 516. This Proclamation shall serve as the written determination of the basis for the emergency under Section 516; and

Further, I have directed that the emergency response and recovery aspects of all the Commonwealth agencies and departments and all applicable county, municipal, and other disaster emergency response and recovery plans be activated and that all state, county, and municipal actions taken to implement those plans be coordinated through the Pennsylvania Emergency Management Agency.

Given under my hand and the Seal of the Governor, at the city of Harrisburg, on this twenty-ninth day of June in the year of our Lord two thousand nine, and of the Commonwealth the two hundred and thirty-third.

A handwritten signature in black ink that reads "Edmond G. Rendell". The signature is written in a cursive style with a large, prominent initial "E".

Effective Dates of Statutes

The effective dates specified previously for laws and appropriation acts were contained in the applicable law or appropriation act. Where no date is specified or where the effective date specified is prior to the date of enactment, the effective date is 60 days after final enactment except for statutes making appropriations or affecting budgets of political subdivisions. See 1 Pa.C.S. §§ 1701—1704 (relating to effective dates of statutes).

Advance Copies of Statutes

Section 1106 of Title 1 of the *Pennsylvania Consolidated Statutes* provides that the prothonotaries of each county shall file advance copies of statutes in their offices for public inspection until the *Laws of Pennsylvania* are generally available. Section 2406(h) of The Administrative Code of 1929 provides that the Department of General Services (Department) shall distribute advance sheets of the *Laws of Pennsylvania* to each law judge of the courts, to every county and public library of this Commonwealth and to each member of the General Assembly. These copies shall be furnished without charge. The Department shall also mail one copy of each law enacted during any legislative session to any person who pays to it the sum of \$20.

Requests for annual subscriptions for advance copies of statutes should be sent to the State Bookstore—PHMC, Commonwealth Keystone Building, 400 North Street, Harrisburg, PA 17120, accompanied by a check or money order in the sum of \$20, payable to the “Commonwealth of Pennsylvania.”

In Re: Amended Regulations for IOLTA Program;
Disciplinary Rules; No. 77; No. 1

Order

Per Curiam:

And Now, this 22nd day of June 2009, it is hereby ordered that the Regulations for the Pennsylvania Interest on Lawyers Trust Account (IOLTA) Program are amended as follows.

Whereas prior distribution and publication of these regulations would otherwise be required, it has been determined that immediate promulgation is required in the interest of justice and efficient administration.

This Order shall be processed in accordance with Pa.R.J.A. No. 103(b) and shall be effective immediately.

PATRICIA NICOLA,
Chief Clerk
Supreme Court of Pennsylvania

PENNSYLVANIA INTEREST ON LAWYERS TRUST ACCOUNT PROGRAM

THE PENNSYLVANIA INTEREST ON LAWYERS TRUST ACCOUNT BOARD

Promulgated by the Pennsylvania Interest on
Lawyers Trust Account Board and Approved by the
Supreme Court of Pennsylvania

These regulations are to be read and applied in connection with the Pennsylvania Rules of Professional Conduct. Nothing in these regulations shall be construed to relieve a lawyer of any provision of the Pennsylvania Rules of Professional Conduct. Where these regulations contain directives pertaining to the Interest on Lawyers Trust Account program which are more specific than those set forth in the Pennsylvania Rules of Professional Conduct, the provisions of these regulations shall control.

QUESTIONS AND ANSWERS CONCERNING PENNSYLVANIA IOLTA

Statement of Purpose

The following is a representation of the questions most frequently asked of the Pennsylvania Interest on Lawyers Trust Account Board (the "IOLTA Board") and the answers given. Some of the answers paraphrase the actual Rules of Professional Conduct or Regulations of the

IOLTA Board. Reference should be made to the Rules and to the Regulations when appropriate.

What is the Basic Concept of IOLTA?

Clients and third persons frequently transfer monies to lawyers to hold. Rule 1.15 of the Pennsylvania Rules of Professional Conduct generally requires the lawyer to deposit all monies of clients and third persons ("Rule 1.15 Funds") in a Trust Account. When the amount is large or if the funds will be held for an extended period of time, lawyers invest them for the benefit of the owner. These funds are known as Nonqualified Funds. But when the funds are nominal in amount or expected to be held for a short time, they cannot practically be invested to benefit the owner of the funds. These funds are Qualified Funds.

Rule 1.15 of the Pennsylvania Rules of Professional Conduct requires a lawyer to deposit Qualified Funds in a particular type of Trust Account: an income producing interest-bearing IOLTA Account. The result is that funds that would otherwise earn no income interest can be put to constructive use.

The lawyer's Eligible Institution bank transfers the income interest earned on IOLTA Accounts ("IOLTA Funds"), no less frequently than quarterly, to the IOLTA Board. The IOLTA Board distributes the IOLTA Funds for the delivery of civil legal assistance to the poor and disadvantaged, educational legal clinical programs and internships administered by law schools, the administration of justice, and for the administration and development of the IOLTA program.

How do lawyers comply with the IOLTA requirements of Rule 1.15?

IOLTA Accounts may be maintained only at Eligible Institutions approved by the Supreme Court of Pennsylvania.

An "Enrollment Form for Lawyers and Law Firms" can be used to direct the Eligible Institution financial institution to open or convert one or more of the lawyer's Trust Account(s) to income producing interest-bearing IOLTA Accounts. Submit the second copy of the enrollment form, along with a list of all the lawyers who use the IOLTA Account in the regular course of their practice, to the IOLTA Board.

On an annual basis as part of the licensing process, lawyers are required to certify compliance with Rule 1.15 of the Pennsylvania Rules of Professional Conduct regarding the handling of funds and other property of clients or third persons ("Third Party Owners") and the maintenance of their IOLTA Accounts.

What will happen if a lawyer does not comply with Rule 1.15?

If a lawyer does not comply with the requirements outlined in Rule 1.15 of the Pennsylvania Rules of Professional Conduct, he or she will be subject to the same disciplinary penalties as any lawyer who does not comply with any of the other requirements for the practice of law in Pennsylvania.

The IOLTA Board will refer to the Office of Disciplinary Counsel the names of lawyers who do not comply with IOLTA.

Are any exemptions from IOLTA participation allowed?

Yes, a lawyer may apply for an exemption from the requirement that all Qualified Funds be placed in an

IOLTA Account. However, the exemption will be granted by the IOLTA Board only for one of the reasons specified in Rule 1.15. Write to the IOLTA Board if you believe any of the permitted exemptions apply. Exemptions will be granted if:

(A) the nature of the lawyer's practice does not require the routine maintenance of a Trust Account in Pennsylvania;

(B) the establishment of an IOLTA Account would work an undue hardship on the lawyer or would be extremely impractical, based either on the geographical distance between the lawyer's principal office and the closest Eligible Institution approved financial institution or on other compelling and necessitous factors;

(C) the lawyer's historical annual Trust Account experience, based on information from the Eligible Institution financial institution in which the lawyer deposits Rule 1.15 Funds, demonstrates the service charges on the Trust Account would significantly and routinely exceed any income interest generated.

What funds are to be placed in IOLTA Accounts?

Qualified Funds are monies of a client or third person received by a lawyer, that in the good faith judgment of the lawyer, are nominal in amount or which the lawyer reasonably expects to be held for such a short period of time, such that sufficient interest income will not be generated to justify the expense of earning income interest to benefit the client or third person.

A lawyer will not be liable for damages or held to have breached his or her professional responsibility because monies are deposited in an IOLTA Account pursuant to the lawyer's judgment in good faith that the monies are Qualified Funds.

However, the lawyer should review the funds held in his/her IOLTA Account at reasonable intervals to determine whether circumstances have changed that require changes with respect to the Rule 1.15 Funds held in the IOLTA Account.

Who pays taxes on the interest income earned on IOLTA accounts?

Nobody. The Internal Revenue Service (IRS) has ruled that there are no tax consequences to the Third Party Owner, the lawyer or the IOLTA Board. Also, there is no IRS reporting requirement for the lawyer, Eligible Institution financial institution or Third Party Owner since all IOLTA accounts will use the Tax Identification Number of the IOLTA Board.

May a lawyers still open a separate account for funds of Third Party Owners?

Certainly. Rule 1.15 Funds are defined to include funds received from a client or third person in connection with a client-lawyer relationship, as an escrow agent, settlement agent, representative payee, or as a Fiduciary. Rule 1.15 Funds also include funds received as an agent, having been designated as such by a client or having been selected as such because of a client-lawyer relationship or the lawyer's status as a lawyer. The lawyer must determine whether Rule 1.15 Funds are Qualified Funds or Nonqualified Funds. Nonqualified Funds shall be placed in a Trust Account or in another investment vehicle specifically agreed upon by the lawyer and the Third Party Owner. Nonqualified Funds which are Fiduciary Funds shall be placed either in a Trust Account or in another investment or account which is authorized by the law applicable to the entrustment or the terms of the

instrument governing the Fiduciary Funds. A lawyer must determine whether funds of Third Party Owners are Qualified Funds or Nonqualified Funds. Nonqualified Funds shall be placed in a Trust Account or in another investment vehicle specifically agreed upon by the lawyer and the Third Party Owner.

How does the IOLTA program affect financial institutions?

Financial institutions are not mandated to participate in IOLTA. However, financial institutions that wish to offer Trust Accounts into which lawyers can deposit Rule 1.15 Funds (whether Qualified or Nonqualified Funds) must be approved by the Supreme Court of Pennsylvania. A list of Eligible Institutions approved financial institutions can be obtained from the Disciplinary Board.

An IOLTA Account is an unsegregated Trust Account for the deposit of Qualified Funds by a lawyer. The income rate of interest payable on an IOLTA Account cannot be less than the highest rate of interest or dividend generally available from the Eligible Institution financial institution to its non-IOLTA Account customers when the IOLTA Account meets or exceeds the same minimum balance and other account eligibility qualifications. Eligible Institutions Financial institutions remit income earned the interest at least quarterly to the IOLTA Board.

Eligible Institutions Financial institutions must transmit to the IOLTA Board and to the lawyer who maintains the IOLTA Account a statement showing certain information. This includes, at a minimum, the name of the account, the service charges or fees deducted, if any, and the amount remitted from the lawyer's IOLTA Account. If available, the Eligible Institution financial institution shall also provide information regarding the average daily balance in the account.

Where do IOLTA Funds go?

Income Interest earned on IOLTA Accounts may be used only for the following purposes:

- (1) delivery of civil legal assistance to the poor and disadvantaged in Pennsylvania by non-profit corporations which are tax-exempt under the Internal Revenue Code;
- (2) educational legal clinical programs and internships administered by law schools located in Pennsylvania;
- (3) the administration of justice in Pennsylvania; and
- (4) the administration and development of the IOLTA program in Pennsylvania.

All disbursements and allocations of IOLTA funds are subject to the prior approval of the Supreme Court of Pennsylvania.

Who is the IOLTA Board?

The IOLTA Board is the Pennsylvania Interest on Lawyers Trust Account Board composed of nine members appointed by the Supreme Court of Pennsylvania.

What if a lawyer mistakenly deposits funds which are not Qualified Funds into an IOLTA Account?

As long as the lawyer used good faith judgment, the lawyer will not be liable in damages for placing Nonqualified Funds into an IOLTA Account, nor will the lawyer be held to have breached any fiduciary duty or responsibility because monies were deposited into an IOLTA Account. Additionally, if timely requested, a refund of income earned on an IOLTA Account and IOLTA interest received by the IOLTA Board attributable to the mistaken deposit, net of an administrative charge, will be made to the lawyer for distribution to the Third Party Owner.

May all lawyers in a law firm use the same IOLTA Account?

Yes. If a law firm established an IOLTA Account, each lawyer who deposits all Qualified Funds in that account will be deemed to be in compliance with IOLTA. This account must be set up according to IOLTA regulations. However, each lawyer is ultimately responsible to ensure that he or she is in compliance with IOLTA.

Can a lawyer deposit Qualified Funds into a credit union or brokerage account?

Rule 1.15 Funds in IOLTA Accounts, if maintained at credit unions and brokerages, may not be insured. Since all IOLTA Accounts must be insured, only those approved financial institutions which issue IOLTA Accounts can be used as depositories for Qualified Funds. The owner of the Rule 1.15 Funds must qualify for membership in the credit union in order for the funds to be insured.

Where may a lawyer deposit Qualified Funds?

IOLTA Accounts must be maintained in an Eligible Institution. An Eligible Institution is a Financial Institution which has been approved as a depository for trust accounts pursuant to Rule 221(h) of the Pennsylvania Rules of Disciplinary Enforcement ("Pa.R.D.E."). Financial Institutions include those entities which are identified in Rule 1.15(a)(4) and Pa.R.D.E. 221(a)(2). Information regarding Eligible Institutions can be found at www.paiolta.org. Eligible Institutions have various deposit insurance arrangements, and some may not have deposit insurance for some deposit arrangements. Lawyers are reminded of their responsibility under Rule 1.15(b) to safeguard appropriately all funds and property in the lawyer's possession in connection with a client-lawyer relationship.

What if a lawyer only practices law for part of the year?

The lawyer must comply with the IOLTA rules, even if he or she only practices law for part of the year.

What types of legal employment are excluded from IOLTA?

A lawyer whose employment does not result in the handling of Rule 1.15 Funds funds of a client or third person will generally be excluded from IOLTA. Examples include corporate or governmental lawyers, judges, and law school professors as long as they do not maintain a private practice.

What are some factors which should be used to determine whether monies are Qualified Funds?

Factors which can be used to determine which monies are Qualified Funds include: (1) the cost to the lawyer of establishing and maintaining account(s) benefitting the client or third person; (2) the Eligible Institution's financial institution's service charges; (3) the minimum deposit requirements; (4) the accounting fees; (5) the tax reporting requirements; (6) the nature of the transaction(s) or proceedings(s) involved; and (7) the likelihood of delay in the relevant transaction(s) or proceeding(s).

Must a lawyer who receives funds while acting as a fiduciary deposit those funds into an IOLTA Account?

Rule 1.15, as amended on September 4, 2008, specifically includes funds received by a lawyer as a personal representative, guardian, conservator, receiver, trustee, agent under durable power of attorney, or other similar positions as Rule 1.15 Funds. As such, those funds, pursuant to Rule 1.15(b), must be maintained separate from the lawyer's own property. Pursuant to Rule 1.15(d), Fiduciary Funds continue to be governed by the law, procedure and rules governing the requirements of confi-

dentiality and notice applicable to the fiduciary entrustment. Pursuant to the provisions of Rule 1.15(e), the delivery, accounting and disclosure of Fiduciary Funds continues to be governed by the law, procedure and rules governing the requirements of fiduciary administration, confidentiality, notice and accounting applicable to the fiduciary entrustment. If the Fiduciary Funds are Qualified Funds, they may be deposited in an IOLTA Account, or they may be maintained in another account consistent with the Fiduciary entrustment. Rule 1.15(d), as amended in April 2005, specifically excludes funds which the lawyer receives while acting as fiduciary for an estate, trust, guardianship or conservatorship. However, Comment 7 to the Rule, as amended in April, 2005, does state that funds received by a lawyer while serving as an executor or trustee, if nominal in amount or expected to be held for such a short period of time that sufficient interest will not be generated to justify maintaining a segregated account may, in the discretion of the lawyer, be deposited into an IOLTA Account, although such deposit is not required.

Must a lawyer who receives funds of clients or third persons other than in connection with a client-lawyer relationship deposit those funds in a Trust Account, including an IOLTA Account?

Under certain circumstances, yes. The responsibilities of a lawyer which are identified in Rule 1.15 with respect to funds of clients or third persons are not restricted to funds received in connection with a client-lawyer relationship. The lawyer's responsibilities with respect to such funds may arise under Rules of Professional Conduct 1.15, 5.7 or both.

As amended by Order of the Supreme Court of Pennsylvania dated September 4, 2008, the definition of Rule 1.15 Funds specifically includes funds which the lawyer receives from a client or third person as an escrow agent, settlement agent, representative payee, as an agent having been designated as such by a client, or having been selected as an agent as a result of a client-lawyer relationship or the lawyer's status as a lawyer. Those funds are subject to Rule 1.15 and must be kept separate from the lawyer's own property. Pursuant to Rule 1.15(k), all Nonqualified Funds which are not Fiduciary Funds shall be placed in a Non-IOLTA Account or in another investment vehicle specifically agreed upon by the lawyer and the Third Party Owner. Qualified Funds must be placed in an IOLTA Account.

Rule of Professional Conduct 5.7 provides that a lawyer is subject to the Pennsylvania Rules of Professional Conduct with respect to the provision of both legal and nonlegal services: (i) if a lawyer provides nonlegal services that are not distinct from legal services; Rule of Professional Conduct 5.7 (e) defines "nonlegal services" as "services that might reasonably be performed in conjunction with and in substance are related to the provision of legal services, and that are not prohibited as unauthorized practice of law when provided by a non lawyer." Even if the nonlegal services are distinct from legal services, the lawyer is still subject to the Rules of Professional Conduct: (i) (ii) if the lawyer provides nonlegal services that are distinct from legal services, but the lawyer knows or reasonably should know that the recipient of the services might believe that the recipient of the services is receiving the protection of a client-lawyer relationship, or (ii) (iii) if the lawyer is an owner, controlling party, employee, agent, or is otherwise affiliated with an entity providing nonlegal services and the lawyer knows or reasonably should know that the recipi-

ent of the service might believe that the recipient is receiving the protection of a client-lawyer relationship. In each of these three cases, the lawyer will be subject to the obligations of Rule 1.15 of the Pennsylvania Rules of Professional Conduct and these regulations as if a client-lawyer relationship existed with the recipient of the services. The lawyer then must deposit all funds of the client or a third person which are received in connection with that relationship in a Trust Account, regardless of whether the funds resulted from legal or nonlegal services. If the funds are Qualified Funds, those funds are to be placed in an IOLTA Account.

Who pays the service charges for IOLTA Accounts?

Account service charges on an IOLTA Account will be paid by offsetting the service charges against income interest earned on that account.

Bank charges pertaining to the lawyer's practice (e.g. check printing charges, overdraft charges, charges for temporary extensions of credit, etc.) and costs billable to others (e.g. overdraft charges on deposited items, certified checks, wire transfers, etc.), will be the responsibility of the lawyer.

Annex A

TITLE 204. JUDICIAL SYSTEM GENERAL PROVISIONS

PART V. PROFESSIONAL ETHICS AND CONDUCT

Subpart A. PROFESSIONAL RESPONSIBILITY

CHAPTER 81. RULES OF PROFESSIONAL CONDUCT

Subchapter B. RULES FOR INTEREST ON LAWYERS TRUST ACCOUNTS

Preamble: Statement of Purpose

Rule 1.15 of the Pennsylvania Rules of Professional Conduct ("Pa.R.P.C.") has, since the adoption of the Rules of Professional Conduct, required lawyers to segregate property of clients and third persons from the lawyer's own property, and by extension, not to profit by use of property belonging to clients or third persons. This provision of the Pa.R.P.C. for the protection of the client or third person, is designed to ensure the ethical conduct of lawyers, and may not be waived by the client or third person. Pa.R.P.C. 1.15 mandates the maintenance of IOLTA Accounts for certain funds received by a lawyer in connection with a client-lawyer relationship or as otherwise described in the definition of Rule 1.15 Funds. In addition, Pa.R.P.C. mandates the maintenance of Trust Accounts (including IOLTA Accounts for Qualified Funds) if, under Pa.R.P.C. 5.7, the lawyer is subject to the Pa.R.P.C. and the lawyer receives funds in connection with services (legal or nonlegal) to the recipient of those services. IOLTA generates income where formerly there was none; this income will aid the citizens of the Commonwealth of Pennsylvania by improving access to the civil legal system by those who otherwise could not afford legal representation, improving the legal educational system in Pennsylvania via funding for legal clinical programs and internships, and assisting in the general administration of justice in Pennsylvania.

Section 81.101: Definitions

The following words and phrases when used in these regulations shall have the meanings given to them in this section unless the context clearly indicates otherwise:

~~*Board.* The Pennsylvania Interest on Lawyer Trust Account Board.~~

~~*Eligible Institution.* An Eligible Institution is a Financial Institution which has been approved as a depository of Trust Accounts pursuant to Pa.R.D.E. 221(h).~~

~~*Fiduciary.* A Fiduciary is a lawyer acting as a personal representative, guardian, conservator, receiver, trustee, agent under a durable power of attorney, or other similar position. A lawyer acting as a settlement agent, escrow agent, common law agent (other than agent under a durable power of attorney), or representative payee is not acting as a Fiduciary.~~

~~*Fiduciary Funds.* Fiduciary Funds are Rule 1.15 Funds which the lawyer holds as a Fiduciary. Fiduciary Funds may be either Qualified Funds or Nonqualified Funds. Funds held by a lawyer acting as a settlement agent, escrow agent, common law agent (other than as an agent under a durable power of attorney) or in a similar capacity are not Fiduciary Funds.~~

~~*Financial Institution.* A Financial Institution is an entity which is authorized by federal or state law and licensed to do business in the Commonwealth of Pennsylvania as one of the following: a bank, bank and trust company, trust company, credit union, savings bank, savings and loan association or foreign banking corporation, the deposits of which are insured by an agency of the federal government, or as an investment adviser registered under the Investment Advisers Act of 1940 or with the Pennsylvania Securities Commission, an investment company registered under the Investment Company Act of 1940, or a broker dealer registered under the Securities Exchange Act of 1934.~~

~~*Financial Institution.* A financial institution approved by the Supreme Court of Pennsylvania pursuant to Rule 221 of the Pennsylvania Rules of Disciplinary Enforcement ("Pa.R.D.E."). A financial institution will be a bank, bank and trust company, trust company, savings and loan association, credit union, savings bank or foreign banking institution authorized to do business in the Commonwealth of Pennsylvania, whose deposits are insured by the Federal Deposit Insurance Corporation or an alternate share insurer, and who has been specifically approved as a financial institution within the meaning of Pa.R.D.E. 221.~~

~~*Good faith.* Honesty in fact in the conduct or transaction concerned.~~

~~*Interest on Lawyer Trust Account (IOLTA) Account.* An IOLTA Account is an income producing Trust Account from which funds may be withdrawn upon request as soon as permitted by law. Qualified Funds are to be held or deposited in an IOLTA Account.~~

~~*Interest on Lawyer Trust Account or IOLTA Account.* An unsegregated Trust Account with an approved financial institution for the deposit of Qualified Funds by a lawyer.~~

~~*IOLTA Board.* The IOLTA Board is the Pennsylvania Interest On Lawyers Trust Account Board.~~

~~*Lawyer.* A member in good standing of the bar of the Supreme Court of Pennsylvania, who is not an active or senior member of the judiciary. The term "lawyer" also includes a partnership of lawyers, a professional associa-~~

tion of lawyers, and a professional corporation or other organization whose members or shareholders are engaged in the practice of law.

Member of the Judiciary. An individual who has been admitted to the Pennsylvania Bar and who has been appointed or elected and is serving as a judicial official of any state or of the United States of America and whose position prohibits the individual from the practice of law within the territorial jurisdiction when the individual serves as a judge. This term shall not include a lawyer who is permitted to and who voluntarily chooses to maintain active lawyer status in Pennsylvania so long as the judicial position does not prevent him or her from practicing law in Pennsylvania.

Non-IOLTA Account. A Non-IOLTA Account is an income producing Trust Account from which funds may be withdrawn upon request as soon as permitted by law in which a lawyer deposits Rule 1.15 Funds. Only Nonqualified Funds are to be held or deposited in a Non-IOLTA Account. A Non-IOLTA Account shall be established only as:

(i) a separate client Trust Account for the particular client or matter on which the net income will be paid to the client or third person; or

(ii) a pooled client Trust Account with sub-accounting by the Eligible Institution or by the lawyer which will provide for computation of net income earned by each client's or third person's funds and the payment thereof to the client or third person.

Nonqualified Funds. Nonqualified Funds are Rule 1.15 Funds, whether cash, check, money order or other negotiable instrument, which are not Qualified Funds. Rule 1.15 Funds, whether cash, check, money order, or other negotiable instrument received by a lawyer in a representative capacity, and which are not Qualified Funds.

Qualified Funds. Qualified Funds are Rule 1.15 Funds which are nominal in amount or are reasonably expected to be held for such a short period of time that sufficient income will not be generated to justify the expense of administering a segregated account or separately accounting for the income earned on the Rule 1.15 Funds. Rule 1.15 Funds, whether cash, check, money order, or other negotiable instrument received by a lawyer in a representative capacity which, in the good faith judgment of the lawyer, are nominal in amount or are reasonably expected to be held for such a short period of time that sufficient interest income will not be generated to justify the expense of earning interest to benefit the client or third person owner of the funds. See Regulation Section 81.104(c) for further guidance.

Regulations. These regulations adopted by the IOLTA Board, and approved by the Supreme Court of Pennsylvania, as they may be amended from time to time.

Received by a lawyer in connection with a client-lawyer relationship, or under circumstances such that the lawyer is subject to the obligations of Rule 1.15 of the Pennsylvania Rules of Professional Conduct and these Regulations as if a client-lawyer relationship existed. See Regulation Section 81.104. A lawyer who receives funds while acting as a fiduciary for an estate, trust, guardianship, or conservatorship does not receive those funds in a representative capacity.

Rule 1.15 Funds. Rule 1.15 Funds are funds which the lawyer receives from a client or third person in connection with a client-lawyer relationship, or as an escrow agent, settlement agent or representative payee, or as a Fiduciary, or receives as an agent, having been designated as such by a client or having been so selected as a result of a client-lawyer relationship or the lawyer's status as such. Funds which the lawyer receives in connection with a client-lawyer relationship, or under circumstances described in Pa.R.P.C. 5.7(a), (b), or (c), excluding funds which the lawyer receives while acting as fiduciary for an estate, trust, guardianship or conservatorship. Rule 1.15 Funds include all funds of a client or third person received by a lawyer, in a representative capacity, from any person.

Third Party Owner. The client or third person whose funds are in the custody of a lawyer.

Trust Account. A Trust Account is an account in an Eligible Institution in which a lawyer holds Rule 1.15 Funds. A Trust Account must be maintained either as an IOLTA Account or as a Non-IOLTA Account. An interest-bearing account maintained in a financial institution, as defined in Rule of Disciplinary Enforcement 221, in which or with respect to which a lawyer holds Rule 1.15 Funds, including but not limited to an IOLTA Account.

Section 81.102: Scope

(a) All lawyers who are admitted to practice in the Commonwealth of Pennsylvania and who receive Rule 1.15 Funds with respect to such practice are subject to the requirements of Pa.R.P.C. 1.15.

Section 81.102: Scope

(a) All lawyers who are admitted to practice in the Commonwealth of Pennsylvania and who receive Rule 1.15 Funds with respect to such practice are subject to the requirements of Pa.R.P.C. 1.15.

(ba) All lawyers who are admitted to maintain a place of practice in the Commonwealth of Pennsylvania and who receive Qualified Funds with respect to such practice must comply with the requirement that Qualified Funds be placed in an IOLTA Account as provided in Pa.R.P.C. 1.15 unless and to the extent an exemption is granted pursuant to Pa.R.P.C. 1.15(nh) and Section 81.1098 of these regulations.

(cb) Each lawyer must register his or her IOLTA Account with the Disciplinary Board of the Supreme Court of Pennsylvania annually.

Section 81.103: Lawyers

(a) If a lawyer is required to maintain a Trust Account, the lawyer shall comply with these regulations and participate in IOLTA if the lawyer meets either of the circumstances set forth in (i) or (ii):

(i) Practices law in Pennsylvania: The lawyer practices law from an office within the Commonwealth of Pennsylvania.

(ii) Practices law in and out of Pennsylvania: If a lawyer primarily practices outside of Pennsylvania but also handles Qualified Funds related to the practice of law in Pennsylvania, has an office within the Commonwealth, then the lawyer must deposit Qualified Funds related to the lawyer's generated in Pennsylvania practice in a Pennsylvania IOLTA Account.

(b) Nothing herein shall be construed to require a lawyer who does not receive Rule 1.15 Funds funds of a Third-Party-Owner to maintain an IOLTA Account.

(c) Law Firm Compliance: A lawyer may use an IOLTA Account in common with other lawyers in his or her firm, whether organized as a partnership, professional association, professional corporation, limited liability company or partnership, or other form of organization. However, each lawyer has an individual duty to comply with Pa.R.P.C. and these regulations.

(i) A law firm may register its IOLTA account and submit a list of all lawyers in the firm who use the

IOLTA Account for the maintenance of all Qualified Funds received by the lawyer.

(ii) Each lawyer using the IOLTA Account for the deposit of all Qualified Funds received by him or her will be in compliance with IOLTA.

(d) Newly admitted lawyer: A lawyer newly admitted to the bar of the Supreme Court of Pennsylvania must comply with these regulations within sixty (60) days of admission to the bar.

(e) Change of employment: A lawyer who changes employment status must comply with these regulations within sixty (60) days of the change, unless the lawyer no longer meets the requirements of subsections (a)(i)—(ii) of this Section 81.103 or is no longer required to maintain a Trust Account.

(f) Subsequent eligibility: Any lawyer not having met the requirements of subsections (a)(i)—(ii) of this Section 81.103, who subsequently meets the requirements of subsections (a)(i)—(ii) and who must maintain a Trust Account, must comply with these regulations within sixty (60) days of subsequent eligibility.

Section 81.104: Rule 1.15 Funds

(a) ~~Rule 1.15 Funds are funds received by a lawyer in a representative capacity from or on behalf of a Third Party Owner. Generally: Pa.R.P.C. 1.15 requires the lawyer to maintain Rule 1.15 Funds funds of a Third Party Owner separate from the lawyer's own property, and to identify and safeguard the Rule 1.15 Funds funds appropriately. A lawyer may not personally profit from Rule 1.15 Funds.~~

(b) ~~(i) Received in connection with a client-lawyer relationship: Rule 1.15 Funds are funds received in connection with a client-lawyer relationship.~~

(c) ~~(ii) Funds received while acting as a Fiduciary: Funds received by a lawyer while acting as a personal representative, guardian, conservator, receiver, trustee, agent under durable power of attorney, or other similar fiduciary position are Rule 1.15 Funds. Rule 1.15(l) requires all Fiduciary Funds to be placed in a Trust Account or in another investment or account which is authorized by the law applicable to the entrustment or the terms of the instrument governing the Fiduciary Funds. If the Fiduciary Funds are Qualified Funds and are deposited in a Trust Account, that account must be an IOLTA Account.~~

(i) ~~Pa.R.P.C. 1.15 clarifies that a Fiduciary is not required to liquidate Fiduciary Funds in order to transfer non-income producing fiduciary account balances to an IOLTA Account.~~

(ii) ~~Pa.R.P.C. 1.15 does not prohibit a Fiduciary from making an investment in accordance with applicable law or the instrument governing the Fiduciary Funds.~~

(iii) ~~Funds which are controlled by a non-lawyer professional co-fiduciary are not considered Rule 1.15 Funds.~~

(iv) ~~Fiduciary Funds may always be placed in an investment or account authorized by the law applicable to the entrustment or authorized by the terms of the instrument (be it a trust agreement, will or other instrument) governing the Fiduciary Funds. However, all Fiduciary Funds in the possession of a lawyer are subject to the obligations of safeguarding, notification and recordkeeping set forth in Pa.R.P.C. 1.15 Pa.R.P.C.1.15(d) specifically excludes from its application funds received by the lawyer while acting as fiduciary for an estate, trust, guardianship, or conservatorship. However, if these funds are nominal in amount or reasonably expected to be~~

~~held for such a short period that sufficient interest will not be generated to justify maintaining a segregated account, these funds may be deposited in an IOLTA Account.~~

(d) ~~Other Rule 1.15 Funds: Funds which the lawyer receives from a client or third person as an escrow agent, settlement agent or representative payee are Rule 1.15 Funds. Funds received by a lawyer from a client or third person as an agent are Rule 1.15 Funds, if the lawyer has been designated to receive the funds as a result of a client-lawyer relationship or the lawyer's status as a lawyer.~~

(e) ~~(iii) Received in connection with nonlegal services: Under Rule 5.7 of the Pennsylvania Rules of Professional Conduct, there are three situations involving the provision of nonlegal services by a lawyer which trigger the applicability of the Pennsylvania Rules of Professional Conduct. These situations will trigger applicability of Pa.R.P.C. 1.15, in addition to those situations specifically identified in Pa.R.P.C. 1.15 These include:~~

(iA) ~~if a lawyer provides nonlegal services that are not distinct from legal services,~~

(iiB) ~~if the lawyer provides nonlegal services that are distinct from legal services, but the lawyer knows or reasonably should know that the recipient of the services might believe that the recipient of the services is receiving the protection of a client-lawyer relationship, or and~~

(iiiC) ~~if the lawyer is a owner, controlling party, employee, agent, or is otherwise affiliated with an entity providing nonlegal services and the lawyer knows or reasonably should know that the recipient of the service might believe that the recipient is receiving the protection of a client-lawyer relationship.~~

~~In each of these three cases, the lawyer will be subject to the obligations of Pa.R.P.C. Rule 1.15 of the Pennsylvania Rules of Professional Conduct and these Regulations as if a client-lawyer relationship existed with the recipient of the services. If a lawyer receives funds in connection with a relationship described in any of these situations, the funds are Rule 1.15 Funds and must be deposited either in an IOLTA Account or in a Non-IOLTA Trust Account for the benefit of the Third Party Owner.~~

(f) ~~Factors which should be used to determine whether, under the tests of Pa.R.P.C. 5.7, the nonlegal services (and funds received in connection therewith) are subject to the Pa.R.P.C. include:~~

(i1) ~~whether funds received in connection with the nonlegal services are maintained completely separate from funds received in connection with legal services;~~

(ii2) ~~whether the lawyer has advised the Third Party Owner in clear, unambiguous terms that the lawyer is acting in a nonlegal capacity, and is not receiving funds in connection with a client-lawyer relationship;~~

(iii3) ~~whether the Third Party Owner can reasonably expect to have the protection of the client-lawyer relationship cover the entire matter;~~

(iv4) ~~whether the lawyer performs both legal and nonlegal services from the same office; and~~

(v5) ~~whether the lawyer uses different letterhead in connection with legal and nonlegal services.~~

(iv) ~~Certain funds handled routinely by a lawyer may not be Rule 1.15 Funds. Rule 1.15 Funds are received by the lawyer in connection with a client-lawyer relationship. Rule 1.15 Funds are also funds received by the lawyer in connection with the provision of nonlegal~~

services under any of the circumstances described in Section 81.104(a)(iii) of these Regulations. These Rule 1.15 Funds must be deposited in an IOLTA Account or a Trust Account for the benefit of the Third Party Owner.

For example, if the lawyer as an agent for a title insurance company handles title insurance and real estate matters in connection with a client-lawyer relationship, or if the provision of title insurance and other services in connection with the real estate matter is not distinct from legal services provided to that recipient, or if the lawyer knows or has reason to know that the recipient of the services believes the relationship to be that of client-lawyer, funds received by the lawyer in connection with the relationship are Rule 1.15 Funds and must be placed in a Trust Account. If the Rule 1.15 Funds are Qualified Funds, the funds must be deposited in an IOLTA Account. The lawyer as title insurance agent may be required to maintain a separate settlement account for each underwriter to process funds handled by that lawyer in connection with acting as a title insurance agent. If the funds deposited in the settlement account are Qualified Funds, each settlement account must be an IOLTA Account.

(b) Subaccounting refers to a process whereby Nonqualified Funds are segregated by the lawyer or the lawyer's financial institution by Third Party Owner, and interest on each subaccount is separately calculated, reported, and paid to the Third Party Owner. Subaccounting attributes all of the interest earned on the Rule 1.15 Funds to the Third Party Owner.

(i) Nothing in these regulations shall be construed to prohibit a lawyer from maintaining and administering a separate subaccount for each Third Party Owner from whom Rule 1.15 Funds are received.

(ii) A lawyer who directly maintains a subaccounting system for Rule 1.15 Funds must comply not only with Pa.R.P.C. regarding such funds, but must also comply with applicable laws and regulations of the United States and of the Internal Revenue Service in particular.

(iii) Nothing in these regulations shall be construed to prohibit a lawyer from delegating to a financial institution the responsibility for maintaining and administering a separate subaccount for each Third Party Owner from whom the lawyer receives Rule 1.15 Funds.

(g) Qualified Funds: The lawyer should apply an economic benefits test to determine whether Rule 1.15 Funds are Qualified Funds. Rule 1.15 Funds are not Qualified Funds if the lawyer will hold the funds for such a length of time, or if the Rule 1.15 Funds are of sufficient amount that the income interest generated on the funds will exceed the cost of earning and conveying the income interest to Third Party Owner.

(i) Law firm compliance v. lawyer responsibility: A lawyer who is an employee or member of a law firm that maintains an IOLTA Account is presumed to be in compliance with IOLTA regulations when the lawyer uses only the law firm approved IOLTA Account for the deposit of all Qualified Funds entrusted to him or her. However, the lawyer is ultimately responsible to assure that he or she is in compliance with Pa.R.P.C. 1.15 and these regulations.

(ii) Good faith judgment: A lawyer must use good faith judgment in determining whether Rule 1.15 Funds are Qualified Funds. A lawyer will not be liable for damages or be held to have breached a fiduciary duty or responsibility because the lawyer deposited funds into an IOLTA

Account pursuant to the lawyer's judgment in good faith that the funds were Qualified Funds.

(iii) Nominal Rule 1.15 Funds: Funds that when considered alone are not large enough to earn net income interest for the Third Party Owner thereof are Qualified Funds.

(iv) Funds held for a short time: Funds which are not expected to be held for sufficient time to provide net income interest for the Third Party Owner are Qualified Funds.

(v) Factors which should be used to determine whether funds can reasonably be expected to generate net income interest for the Third Party Owner include:

(1) the cost to the lawyer of establishing and maintaining account(s) benefitting Third Party Owners;

(2) the account and service charges of the Eligible Institution financial institution in which the account is maintained;

(3) the minimum deposit requirements of the Eligible Institution financial institution in which the account is maintained;

(4) accounting fees likely to be incurred by the lawyer in connection with the funds;

(5) the lawyer's anticipated tax reporting requirement costs incurred in connection with the funds;

(6) the nature of the transaction(s) or proceeding(s) involved; and

(7) the likelihood of delay in the relevant transaction(s) or proceeding(s).

(hd) Examples of Rule 1.15 Funds, and Qualified Funds and Nonqualified Funds:

(i) Fiduciary Funds Estates, trusts, guardianships, etc.: Funds held by a lawyer as a personal representative, trustee, guardian, attorney-in-fact or the like are specifically included in excluded from the definition of Rule 1.15 Funds. However, if these funds are nominal in amount or reasonably expected to be held for such a short period that sufficient income interest will not be generated to justify the expense of earning income interest for the client or third person, these funds may be deposited in an IOLTA Account. If Fiduciary Funds are Qualified Funds and are deposited in a Trust Account, that account must be an IOLTA Account.

(ii) Conveying accounts/real estate closings: Funds generated from real estate closings will be Qualified are Rule 1.15 Funds, if the lawyer receives the funds in connection with a client-lawyer relationship or if Pa.R.P.C. 5.7 (a), (b), or (c) apply. Generally, these funds will be Qualified Funds, as they are held for a short period of time and are not expected to provide income interest for the Third Party Owner.

(iii) Advanced costs, fees, and refundable retainer accounts: Such advances are Rule 1.15 Funds. They are also Qualified Funds when they are nominal or held for a short period of time, and will remain Qualified Funds until earned/expended by the lawyer and thereby removed from the IOLTA Account.

(iv) Proceeds from dispute settlements/lawsuits: Generally Settlement funds are Rule 1.15 Funds. Such funds are also Qualified Funds if the settlement proceeds are nominal in amount or held for a short period of time. If settlement proceeds are not Qualified Nonqualified

Funds, they must be placed in a Trust Account or other investment vehicle specifically agreed upon by the lawyer and the Third Party Owner.

Section 81.105: Eligible Institutions Approved Financial Institutions

(a) The Supreme Court of Pennsylvania approves Financial Institutions in which a lawyer may maintain a Trust Account. Financial Institutions which are approved as depositories of Trust Accounts are Eligible Institutions. ~~A This list of Eligible Institutions approved financial institutions is published from time to time pursuant to Pa.R.D.E. 221.~~

(b) In order to be approved as an Eligible Institution, the Financial Institution must comply not only with applicable provisions of Pa.R.P.C. 1.15, but also Pa.R.D.E. 221.

(c) All lawyers must deposit Rule 1.15 Funds which are not Qualified Funds in a Trust Account with an Eligible Institution approved financial institution, unless an agreement exists between the Third Party Owner and the lawyer to use another investment vehicle. However, if the funds are Fiduciary Funds they may be maintained in an investment or account which is authorized by the law applicable to the entrustment or the terms of the instrument governing the Fiduciary Funds.

(d) All lawyers must deposit Rule 1.15 Funds which are Qualified Funds in an IOLTA Account with an Eligible Institution approved financial institution. Moreover, each financial institution must send a report to the lawyer showing the interest and account service charges concerning the IOLTA Account. The financial institution must report this same information to the IOLTA Board, and must also report the average daily balance in the account during the remittance period, if that information is available. However, if the funds are Fiduciary Funds, they may be maintained in an investment or account which is authorized by the law applicable to the entrustment or the terms of the instrument governing the Fiduciary Funds.

(e) Acceptable account title: The lawyer must specifically identify an IOLTA account with the words "IOLTA Trust Account" or "IOLTA Escrow Account" and the name of the lawyer or the law firm who maintains the account in the main title of the account.

(f) Acceptable title on checks/deposit slips: The word "IOLTA" need not be placed on checks or deposit slips.

(g) Provision of Information. The Eligible Institution must provide the following information to the IOLTA Board and to the lawyer who maintains the IOLTA Account at the time of each remittance:

- (i) The name of the account;
- (ii) The service charges or fees deducted, if any;
- (iii) The amount of income remitted from the account;
- (iv) The rate of income applicable to each account; and
- (v) If available, the average daily balance in the IOLTA Account.

(h) Credit unions: IOLTA Accounts maintained in credit unions may not be insured. IOLTA Accounts must not be established in a credit union unless only Rule 1.15 Funds of owners who are or are eligible to be members of the credit union are deposited into the account.

Section 81.106: Income Interest on IOLTA Accounts

(a) The rate of interest or dividend paid on IOLTA Accounts shall be not less than the highest rate of

interest or dividend generally available from the Eligible Institution ~~financial institution to non-IOLTA customers when the IOLTA Account meets depositors generally for accounts with the same minimum balance or other eligibility qualifications and other account eligibility requirements.~~

(b) An Eligible Institution ~~A financial institution~~ shall be deemed to have satisfied the requirements of subsection (a) of this regulation only if the Eligible Institution is in compliance with Comparability Guidance published by the IOLTA Board from time to time. ~~rate of interest offered by the financial institution on IOLTA Accounts is not less than the rate of interest identified from time to time by the Board as the "safe harbor" rate in the Board's "Guidelines for Financial Institutions".~~

(c) Each Eligible Institution shall file with the IOLTA Board a Compliance Certification Form, certifying compliance with Comparability Guidance in effect from time to time. The Eligible Institution shall be responsible for filing a new Compliance Certification Form when information previously provided to the IOLTA Board becomes inaccurate. ~~Under no circumstances may the rate of interest payable on an IOLTA Account be less than the rate paid by the depository institution on negotiable order of withdrawal accounts or super negotiable order of withdrawal accounts.~~

(d) Remittance of income interest: ~~All~~Any income interest earned under the IOLTA program must be remitted to the IOLTA Board at least every quarter. The following information must be provided to the Board and to the lawyer who maintains the IOLTA Account at the time of each remittance:

- (i) The name of the account;
- (ii) The service charges or fees deducted, if any;
- (iii) The amount of interest remitted from the account; and
- (iv) If available, the average daily balance in the IOLTA Account.

Section 81.107: Service Charges on IOLTA Accounts

(a) Eligible Institutions ~~Financial institutions~~ may impose reasonable service charges for the administration of IOLTA Accounts. An Eligible Institution ~~A financial institution~~ may not deduct service charges from the principal balance in an IOLTA Account. Reasonable service charges, as well as regular account maintenance fees and transaction charges, can be deducted against the total amount of income interest to be paid on the IOLTA Account to which the service charges apply.

(b) All costs associated with check printing, overdraft charges, charges for a temporary extension of credit and similar bank charges shall not be assessed against the principal balance in or income interest earned or ~~on any~~ accrued income interest earned on an IOLTA Account. The lawyer maintaining the account shall be responsible for these costs.

(c) Costs for services such as overdrafts on deposited items, stopped payments, certified checks, and wire transfers at the request of the lawyer or a Third Party Owner ~~beneficial owner~~ shall not be assessed against principal balance in or income interest earned on an IOLTA Account. The lawyer or the Third Party Owner ~~beneficial owner~~ shall be responsible for these costs.

(d) Charges imposed by an Eligible Institution to file reports required by Pa.R.D.E. 221(m) shall be paid by the lawyer maintaining the Trust Account.

(e) As a general rule, a lawyer may not co-mingle the lawyer's own funds with Rule 1.15 Funds. However, the lawyer may deposit funds in an IOLTA Account in order to cover costs which may not be charged to the income or principal held in the IOLTA Account. The lawyer must maintain accurate records regarding those funds.

Section 81.108 Subaccounting and Recordkeeping

(a) Subaccounting refers to a process whereby the lawyer or the lawyer's Eligible Institution segregates Nonqualified Funds by Third Party Owner, and income on each subaccount is separately calculated, reported, and paid to the Third Party Owner. Subaccounting attributes all of the income earned on the Rule 1.15 Funds while in a Trust Account to the Third Party Owner.

(i) Nothing in these regulations shall be construed to prohibit a lawyer from maintaining and administering a separate subaccount for each Third Party Owner from whom Rule 1.15 Funds are received.

(ii) A lawyer who directly maintains a subaccounting system for Rule 1.15 Funds must comply not only with Pa.R.P.C. regarding such funds, but must also comply with applicable laws and regulations of the United States and of the Internal Revenue Service in particular.

(iii) Nothing in these regulations shall be construed to prohibit a lawyer from delegating to an Eligible Institution the responsibility for maintaining and administering a separate subaccount for each Third Party Owner from whom the lawyer receives Rule 1.15 Funds.

Section 81.1098: Exclusion and Exemptions from IOLTA Participation

(a) ~~Certain lawyers, because of their employment, are excluded from Pa.R.P.C. 1.15 (g).~~ A lawyer who does not receive Rule 1.15 Funds is excluded from IOLTA. Examples include lawyers employed full time in a corporate capacity, by local, state or federal government, as a law clerk, professor, or as a member of the judiciary. A lawyer who does not have an office in Pennsylvania, does not receive Rule 1.15 Funds in a representative capacity from Third Party Owners in the Commonwealth, and who is not otherwise required to maintain Rule 1.15 Funds in a Trust Account in the Commonwealth is not subject to IOLTA excluded from Pa.R.P.C. 1.15(g). A lawyer who is retired or no longer practices law need not maintain an IOLTA Account.

(b) Pa.R.P.C. 1.15(nh) permits limited exemptions from the requirement that all Qualified Funds must be maintained in an IOLTA Account. No exemption is automatic, although exemptions will be routinely granted under specified circumstances. The IOLTA Board may declare a lawyer exempt from the requirement of maintaining an IOLTA Account; alternatively, a lawyer may submit a written request for exemption.

(c) Nonqualified Funds are to be deposited in a Non-IOLTA Trust Account or in another investment vehicle specifically agreed upon by the lawyer and Third Party Owner, and the IOLTA Board is without power to grant an exemption from this requirement. If a lawyer is exempt from the requirement of maintaining an IOLTA Account, the lawyer must still deposit Qualified Funds in a Non-IOLTA Trust Account or in another investment vehicle specifically agreed upon by the lawyer and the Third Party Owner. Fiduciary Funds remain subject to the provisions of Pa.R.P.C. 1.15(l) and Section 81.104(c).

(d) Under the following circumstances, the IOLTA Board will routinely grant an exemption from the requirement that a lawyer maintains all Qualified Funds in an IOLTA Account:

(i) Low balance account: Any Trust Account which historically, generally based upon 12 consecutive months of activity, has an average daily balance of \$5,000 ~~Three Thousand Five Hundred (\$3,500) Dollars or less~~ (or such other amount as the IOLTA Board announces from time to time) will be exempt from being an IOLTA Account. The IOLTA Board may exempt from IOLTA, without application, a low balance account. A lawyer requesting an exemption based on a low balance account must, as a part of the written request for exemption, include an account analysis or written statement that demonstrates the amount of the average daily balance.

(ii) Account service charges routinely exceed income interest: Some Trust Accounts may have an average daily balance of more than \$5,000 ~~\$3,500~~, but because of the account service charges or the interest or dividend rates of the Eligible Institution financial institution, the charges would routinely exceed income interest earned on the Trust Account. In these cases, an exemption may be requested. A lawyer requesting an exemption based on these circumstances must, as part of the written request for exemption, include an account analysis or written statement that clearly shows the income interest earned, or the income interest that would have been earned, on the account each month for the past 12 months, plus the account service charges imposed on the account for each of the last 12 months.

(iii) Extreme impracticality or undue hardship: Under limited circumstances it would be unduly burdensome for a lawyer to maintain a Trust Account as an IOLTA Account. When claiming extreme impracticality or undue hardship, the lawyer should provide appropriate details demonstrating undue hardship. An example includes the lack of an Eligible Institution approved financial institution that offers IOLTA Accounts in the lawyer's geographical location.

(iv) Other compelling and necessitous reasons: There may be compelling and necessitous reasons justifying an exemption from the requirement that the lawyer maintain a Trust Account as an IOLTA Account. A lawyer who demonstrates a compelling and necessitous reason for not complying with IOLTA may request an exemption. A philosophical objection to IOLTA does not constitute a compelling and necessitous reason for an exemption.

(e) An exemption from the requirement that a lawyer shall maintain Qualified Funds in an IOLTA Account will remain in effect until the first to occur of:

(i) Three (3) years from the date that the exemption was granted; or

(ii) A change in the circumstances that formed the basis for the exemption, such that under Pa.R.P.C. 1.15 and these regulations the lawyer must deposit Qualified Funds in an IOLTA Account.

(f) A lawyer to whom an exemption has been granted and who desires to maintain the exemption must reapply for an exemption within six (6) months prior to the expiration of the exemption.

(g) A lawyer who has been granted an exemption and who has experienced a change in circumstances as described in Section 81.109(e)(ii) shall notify the IOLTA Board of that fact promptly and shall comply with the requirement that Qualified Funds be maintained in an IOLTA Account.

(he) Income Interest waived by a Third Party Owner: An exemption from the requirement that a Trust Account be maintained as an IOLTA Account will not be granted based on an agreement between a lawyer and Third Party Owner purportedly waiving the Third Party Owner's right to income interest or granting the lawyer the power to direct income interest earned on Rule 1.15 Funds to the lawyer or to another person of the lawyer's choice.

Section 81.1109: Requests for Exemptions and Reconsideration

(a) If the IOLTA Board denies a lawyer's request for an exemption from maintenance of an IOLTA Account, the lawyer may, within 30 days of written notice of denial from the IOLTA Board, request in writing a reconsideration of the IOLTA Board's decision. All requests for reconsideration shall set forth in detail additional facts, if any, not brought before the IOLTA Board in the request for exemption, as well as the reasons, if any, why an exemption should be granted.

(b) If the IOLTA Board has determined that a lawyer is exempt from the requirement of maintaining an IOLTA Account, the lawyer may, within 30 days of written notice from the IOLTA Board that the lawyer is exempt, request in writing a reconsideration of the IOLTA Board's decision. All requests for reconsideration shall set forth in detail facts, if any, why the lawyer should maintain an IOLTA Account, and the manner, if any, in which the ~~Board and the~~ purposes of the IOLTA program will be furthered by the lawyer's maintenance of an IOLTA Account.

(c) Notice shall be deemed to have been given to a lawyer under the provisions of subsections (a) and (b) of this Section 81.1109 upon the deposit by the IOLTA Board, postage prepaid, with the United States Postal Service of its written determination regarding the exemption, if any, of the lawyer from IOLTA.

(d) The IOLTA Board may delegate to its staff or to a committee of the IOLTA Board the authority to determine exemptions from IOLTA or to reconsider exemption denials or determinations.

Section 81.1110: Annual Certification of Compliance with Pa.R.P.C. 1.15

On or before July 1 of each year, each lawyer who is required by Pa.R.D.E. 219 to pay an annual fee must also file with the Administrative Office a signed statement on the prescribed form stating his or her familiarity and compliance with Pa.R.P.C. 1.15 in regards to handling funds, maintaining IOLTA Accounts and Pa.R.D.E. 221. Each lawyer is directed to Pa.R.D.E. 219(d).

Section 81.1121: Refunds

(a) The IOLTA Board may return income interest paid to the IOLTA Board under certain circumstances. If a lawyer mistakenly places Nonqualified Funds in an IOLTA Account, or if the lawyer reasonably believed that Rule 1.15 Funds were Qualified Funds, but the Rule 1.15 Funds were in fact not Qualified Funds, then the lawyer may apply for a refund of income interest paid to IOLTA.

(b) The following guidelines apply to applications for return of income interest:

(i) The lawyer must make the application in writing on firm letterhead.

(ii) The application must be accompanied by verification from the Eligible Institution ~~financial institution~~ in which the IOLTA Account is maintained of the income interest earned on the Rule 1.15 Funds for which a refund is sought. As needed for auditing purposes, the IOLTA Board may request additional documentation.

(iii) The application must be received by the IOLTA Board within six months after the Rule 1.15 Funds have been disbursed from the IOLTA Account.

(iv) The refund will be remitted to the lawyer for his/her distribution to the Third Party Owner. The IOLTA Board will issue an IRS (Internal Revenue Service) form 1099 to the lawyer who, in turn, is responsible for issuing an IRS form 1099 to the Third Party Owner.

(v) If the Eligible Institution ~~financial institution~~ has imposed a service charge with respect to the deposit, only the net amount of income interest paid to the IOLTA Board (reduced by applicable service charges) will be refunded.

(vi) The IOLTA Board ~~program~~ may deduct a processing charge from the refund.

Section 81.1131: Violations

(a) The IOLTA Board will refer to the Office of Disciplinary Counsel the name, address and circumstances surrounding any lawyer who, not being exempted from the maintenance of an IOLTA Account, fails or refuses to comply with the IOLTA provisions of Pa.R.P.C. 1.15 and these regulations.

(b) The IOLTA Board may reconsider its determination of IOLTA compliance based upon information obtained by the Office of Disciplinary Counsel during its investigation of a referral from the IOLTA Board for non-compliance.

RULES AND REGULATIONS

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 75]

Fishing

The Fish and Boat Commission (Commission) amends Chapter 75 (relating to endangered species). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The amendments add the Rabbitsfoot Mussel and the Snuffbox Mussel to the list of endangered species and the Sheepnose Mussel to the list of threatened species.

A. Effective Date

The final-form rulemaking will go into effect immediately upon publication of an order in the *Pennsylvania Bulletin*.

B. Contact Person

For further information on the final-form rulemaking, contact Jason E. Oyler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at <http://www.fish.state.pa.us>.

C. Statutory Authority

The amendments to §§ 75.1 and 75.2 (relating to endangered species; and threatened species) are published under the statutory authority of section 2305 of the code (relating to threatened and endangered species).

D. Purpose and Background

The final-form rulemaking is designed to update, modify and improve the Commission's regulations pertaining to endangered and threatened species. The specific purpose of the amendments is described in more detail under the summary of changes.

E. Summary of Changes

(1) Salamander Mussel (*Simpsonaias ambigua*). The Salamander Mussel was proposed as an addition to the endangered species list. However, the Commission deferred any action to list the species for at least 60 days.

(2) Rabbitsfoot Mussel (*Quadrula cylindrica cylindrica*). The notice of proposed rulemaking indicated that the Rabbitsfoot met the criterion for population reduction over the next three generations (A.2) for the endangered criterion. After further analysis and reevaluation, the Commission determined that the Rabbitsfoot does not meet the A criterion but rather meets the B criterion as follows. The Commission therefore adopted the amendment adding the Rabbitsfoot to the endangered species list.

CRITERIA B

B.4.a

As related to fragmentation, six extant locations for Rabbitsfoot are known. Based upon its historic range in this Commonwealth, the Rabbitsfoot population is severely fragmented.

B.4.b

B.4.b.3. A total of 13 historic subpopulations are known for the Rabbitsfoot: Allegheny River (pools 5, 6 and 9),

French Creek, LeBoeuf Creek, Muddy Creek, Conneaut Creek, Pymatuning Creek, Shenango River, Beaver River, Ohio River (New Cumberland and Montgomery pools), Monongahela River. Seven subpopulations are considered extant: Allegheny River (East Brady, Althom), French Creek, LeBoeuf Creek, Muddy Creek, Conneaut Creek, and Shenango River, representing a 46% subpopulation decline. Aside from the French Creek subpopulation, remaining subpopulations are small and vulnerable to pollution events.

B.4.b.4. The number of areas of occupancy is conservatively projected to decline by at least 40%. Based upon recent survey data (within the past 25 years), seven subpopulations are known. The Conneaut Creek (0.75 river mile), LeBoeuf Creek (0.75 river mile), Shenango River (0.1 river mile), Allegheny River (2 subpopulations, totaling 5 river miles) and Muddy Creek subpopulations are considered vulnerable to the threats of chronic (sedimentation) or localized pollution events.

(3) Snuffbox (*Epioblasma triquetra*). The notice of proposed rulemaking indicated that the Snuffbox met the criteria for population reduction of greater than 80% in the next 10 years (A.2) and a documented continuing decline (B.4.b). After further analysis and reevaluation, the Commission determined that the Snuffbox also meets the criteria for endangered status for a 80% population reduction over the past three generations (A.1) and severe fragmentation and continuing decline (B.4.a and B.4.b). The Commission therefore adopted the amendment adding the Snuffbox to the endangered species list.

CRITERIA A

A.1

As related to a decline in area of occupancy, extent of occurrence or quality of habitat, twenty subpopulations of Snuffbox are known from the Commonwealth: Ohio River (New Cumberland and Montgomery pools), Allegheny River (pools 5, 6, 7, 8, Kinzua Dam downstream to pool 9), French Creek, LeBoeuf Creek, Woodcock Creek, Muddy Creek, West Branch French Creek, Conneaut Outlet, Beaver River, Shenango River, Pymatuning Creek, Little Shenango River, Dunkard Creek, Little Mahoning Creek, and Lake Erie. No recent surveys have documented live Snuffbox in Lake Erie, Ohio River (New Cumberland and Montgomery pools), Beaver River, or the Allegheny River (pools 5, 6, 7 and 8). The upper Allegheny River, LeBoeuf Creek, West Branch French Creek, Conneaut Outlet, Little Mahoning Creek, Shenango River, Little Shenango River and Dunkard Creek subpopulations are considered very small, unknown or declining. This status provides a suspected 80% population reduction decline over the past three generations (~81 years).

A.2

As related to a decline in area of occupancy, extent of occurrence or quality of habitat, 20 subpopulations of Snuffbox are known from the Commonwealth: Ohio River (New Cumberland and Montgomery pools), Allegheny River (pools 5, 6, 7, 8, Kinzua Dam downstream to pool 9), French Creek, LeBoeuf Creek, Woodcock Creek, Muddy Creek, West Branch French Creek, Conneaut Outlet, Beaver River, Shenango River, Little Shenango River, Pymatuning Creek, Dunkard Creek, Little Mahoning Creek, and Lake Erie. No recent surveys have documented live Snuffbox in Lake Erie, Ohio River (New

Cumberland and Montgomery pools), Beaver River, or the Allegheny River (pools 5, 6, 7 and 8). The upper Allegheny River, LeBoeuf Creek, West Branch French Creek, Conneaut Outlet, Little Mahoning Creek, Shenango River, Little Shenango River, and Dunkard Creek subpopulations are considered very small, unknown or declining. Combined with threats, a projected total population reduction of 80% is expected in the next three generations (~81 years).

As related to actual or potential levels of exploitation, the lock and dam system in the Allegheny and Ohio Rivers, combined with maintenance/commercial sand and gravel dredging have destroyed Snuffbox habitat, eliminated habitat continuity and genetically isolated upstream subpopulations from other subpopulations. Large impoundments such as the Allegheny Reservoir, Pymatuning Reservoir and Shenango River Lake have also destroyed Snuffbox habitat and eliminated genetic/host connectivity to downstream subpopulations.

As related to the effects of introduced taxa, hybridization, pathogens, pollutants, competitors or parasites, zebra mussels have destroyed the Lake Erie subpopulation and colonized the Allegheny River, Ohio River and French Creek. Mortality from zebra mussel infestation is expected. Anthropogenic disturbances such as acute or chronic pollution events could destroy remaining live Snuffbox in Dunkard Creek or other subpopulations. Sedimentation from oil and gas developments, forestry and agricultural practices could have an adverse effect on mussel/host interactions. The Snuffbox uses a unique strategy (fish capture) to lure hosts and transmit glochidia (*parasitic larvae phase of freshwater mussels*). Excessive turbidity associated with increased sedimentation would likely alter host numbers or behavior and reduce Snuffbox recruitment.

CRITERIA B

B.4.a

The Snuffbox is severely fragmented across its present range in this Commonwealth. This means that the Snuffbox is found in small and relatively isolated subpopulations that may go extinct with a reduced probability of recolonization.

B.4.b

B.4.b.3. Twenty historic subpopulations of Snuffbox are known from the Commonwealth: Ohio River (New Cumberland and Montgomery pools), Allegheny River (pools 5, 6, 7, 8, Kinzua Dam downstream to pool 9), French Creek, LeBoeuf Creek, Woodcock Creek, Muddy Creek, West Branch French Creek, Conneaut Outlet, Beaver River, Shenango River, Pymatuning Creek, Little Shenango River, Dunkard Creek, Little Mahoning Creek and Lake Erie. No recent surveys have documented live Snuffbox in Lake Erie, Ohio River (New Cumberland and Montgomery pools), Beaver River or the Allegheny River (pools 5, 6, 7, 8, Kinzua Dam downstream to pool 9). The upper Allegheny River, LeBoeuf Creek, West Branch French Creek, Conneaut Outlet, Little Mahoning Creek, Shenango River, Little Shenango River and Dunkard Creek subpopulations are considered very small, unknown or declining. This status provides an inferred 80% decline.

(4) Sheepnose (*Plethobasus cyphus*). The notice of proposed rulemaking indicated that the Sheepnose met the threatened criterion of 50% population reduction in the next 10 years (A.2). At the time, the Sheepnose also met at least one endangered criterion. However, exercising its best professional judgment, the Bivalve Subcom-

mittee of the Pennsylvania Biological Survey (PABS) recommended that it be listed as a threatened species due to evidence of reproduction and recruitment in the one subpopulation/location in which it exists. The Commission therefore proposed that the Sheepnose be listed as threatened. After further analysis and reevaluation, the Commission determined that the Sheepnose also meets the threatened criterion for extent of occupancy in stream or river miles (B.3) and the endangered criterion for historic population reduction (A.1). Despite the species' meeting at least one endangered criterion, the Commission adopted the amendment adding the Sheepnose to the threatened species list based on the PABS Bivalve Subcommittee's prior finding of evidence of reproduction and recruitment in the one subpopulation/location in which it exists.

CRITERIA A

A.1

As related to decline in area of occupancy, extent of occurrence or quality of habitat, nine historic subpopulations of Sheepnose are known from the Commonwealth: Allegheny River (pools 5, 6, 7 and 8), Ohio River (New Cumberland, Montgomery and Pittsburgh pools), Monongahela River and Beaver River. This species was previously considered extirpated from the Commonwealth, that is, a suspected 100% historic population reduction. However, a population of Sheepnose was recently discovered in the middle Allegheny River. This is the Commonwealth's only known extant Sheepnose population. In an historic context, if the middle Allegheny River (Kinzua Dam downstream to pool 9) population is assumed to be a historically present subpopulation, this provides a suspected 90% population reduction over the past four generations (100 years).

A.2

As related to decline in area of occupancy, extent of occurrence or quality of habitat, nine historic subpopulations of Sheepnose are known from the Commonwealth: Allegheny River (pools 5, 6, 7 and 8), Ohio River (New Cumberland, Montgomery, and Pittsburgh pools), Monongahela River and Beaver River. This species was previously considered extirpated. A recently discovered population in the middle Allegheny River subpopulation is the only subpopulation considered extant. This subpopulation appears to be thriving and expanding its range. With continuation of the threats detailed as follows, the Sheepnose status provides a projected 50% population reduction suspected to be met over the next three generations (~75 years).

A localized or catastrophic pollution event in this stretch of the Allegheny River would have a devastating impact on this population. Combined with the threats described as follows, the Sheepnose is likely to achieve a projected 50% population reduction over the next three generations (75 years).

As related to actual or potential levels of exploitation, the lock and dam system in the Allegheny and Ohio Rivers, combined with maintenance/commercial sand and gravel dredging have destroyed Sheepnose habitat, eliminated habitat continuity and genetically isolated subpopulations occurring in the Allegheny and Monongahela River systems. Sedimentation from oil and gas developments, forestry and agricultural practices could have an adverse effect on mussel/host interactions and reduce Sheepnose recruitment. The Sheepnose produces narrow, red lanceolate packets of glochidia called conglutinates. These conglutinates resemble fish prey items, specifically worms. Excessive turbidity associated

with increased sedimentation would likely alter host numbers or behavior (such as, ability of fish to find and consume conglomerates) thereby reducing Sheepnose recruitment.

As related to the effects of introduced taxa, hybridization, pathogens, pollutants, competitors or parasites, zebra mussels have colonized the Allegheny and Ohio Rivers. Mortality from zebra mussel infestation is expected. Anthropogenic disturbances such as acute or chronic pollution events could destroy the remaining Allegheny River Sheepnose subpopulation.

CRITERIA B

B.3

As related to extent of occupancy, the Allegheny River subpopulation occupies 25 river miles. Greater than 10 river miles and less than 50 river miles meets threatened status.

(5) Rayed Bean (*Villosa fabalis*). The Rayed Bean was proposed as an addition to the threatened species list. However, the Commission deferred any action to list the species until the results of ongoing and pending studies can be considered.

The Commission adopted the amendments to §§ 75.1 and 75.2 as set forth in Annex A.

F. Paperwork

The final-form rulemaking will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The amendments will have no direct adverse fiscal impact on the Commonwealth or its political subdivisions. The amendments will impose no new direct costs on the private sector or the general public. The direct regulatory significance of designating a mussel species as endangered or threatened is limited to prohibiting persons from taking, catching, killing or possessing these mussels in this Commonwealth. Because none of the species listed have any commercial or recreational significance because of their rarity, there are no direct fiscal impacts from providing these protections.

The private sector and regulated community have asserted that designation of certain mussels as endangered or threatened may have indirect fiscal impacts on them and the Commonwealth because of impacts on permitting decisions by the Department of Environmental Protection and other agencies. If an endangered or threatened species is found in an area slated for development, applicants for permits may be required to conduct additional studies or adjust the project to avoid adverse impacts on these mussels and their habitat. These are fiscal impacts resulting from regulatory and statutory authorities other than those under the aegis of the Commission. Many of the additions to the list are found in the same watersheds as species already listed so there would be little additional burden placed on projects in those areas.

H. Public Comments

A notice of proposed rulemaking, containing the amendments and seeking public comments, was published at 38 Pa.B. 6617 (December 6, 2008). The original public comment period was December 6, 2008, through January 6, 2009. On January 30, 2009, the Commission extended the comment period until March 15 and directed staff to hold a public meeting on the listings in the greater Pittsburgh area prior to the April meeting. A notice extending the public comment period until March 15 and

advising the public of the meeting on March 2, 2009, in Kittanning was published at 39 Pa.B. 1074 (February 21, 2009).

The Commission received a total of 174 public comments, including oral and written comments provided at the March 2nd meeting. During the formal comment period of December 6, 2008, through January 6, 2009, and the extended comment period of January 31 through March 15, 2009, the Commission received 169 comments: 106 comments favor the proposal, 62 comments oppose it and one is undetermined. The Commission received five comments between January 7 and January 30, of which four support the proposal and one opposes it. The opposing comments were submitted by employees of the sand and gravel dredging industry (including a form letter signed by 30 employees of Glacial Sand and Gravel Company) and road building and extraction industries, including the Associated Pennsylvania Constructors, PA Aggregates and Concrete Association, PA Coal Association, The Marcellus Shale Committee representing the Independent Oil and Gas Association of PA and the PA Oil and Gas Association, and the three active Allegheny and Ohio River commercial sand and gravel dredging companies. The Commission also received opposing comments from the Department of Transportation (which was later clarified), the Port of Pittsburgh Authority, Freeport Terminals, Campbell Transportation, the National Waterways Foundation and Laborers Local 1058. The supporting comments were submitted by individuals, biologists, the PABS Mollusk Technical Advisory Committee, the Little Juniata River Association, The Nature Conservancy, Pennsylvania Environmental Council, Juniata Valley Audubon, The Moshannon Group of the Sierra Club, American Rivers, Freshwater Mollusk Conservation Society, the United States Department of the Interior, Fish and Wildlife Service, the United States Environmental Protection Agency, Mountain Watershed Association, Penn State University Sea Grant Program, Sustainable Environmental and Economic Partnership, French Creek Valley Conservancy, North Branch Land Trust, Wildlands Conservancy, Allegheny County Sportsmen's League, Center for Healthy Environments and Communities, the Carnegie Museum of Natural History and the Delaware River Network. Copies of all public comments and the transcript from the March 2 meeting were provided to the Commissioners. The Commissioners also were provided with copies of a comment/response document, which is available on the Commission's web site at www.fishandboat.com under "Featured Topics."

In response to the comments and the interest in the proposed listings by members of industry, the environmental community and the general public, the Commission, through its staff, conducted further analysis, clarified the A.2 criterion after consultation with PABS and reevaluated each of the proposed species as it relates to the objective criteria.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2 (relating to notice of proposed rulemaking required; and adoption of regulations).

(2) A public comment period was provided, and all public comments received were considered.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 75, are amended by amending §§ 75.1 and 75.2 to read as set forth in Annex A.

(b) The Executive Director will submit this order and Annex A to the Office of Attorney General for approval as to legality and form as required by law.

(c) The Executive Director shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect on immediately upon publication in the *Pennsylvania Bulletin*.

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart B. FISHING

CHAPTER 75. ENDANGERED SPECIES

§ 75.1. Endangered species.

(a) *General.* The species of fish, amphibians and reptiles listed in subsections (b) and (c) are classified endangered. The catching, taking, killing, possessing, importing to or exporting from this Commonwealth, selling, offering for sale or purchasing of any individual of these species, alive or dead, or any part thereof, without a special permit from the Executive Director is prohibited.

(b) *Fish.* The following species are endangered:

- (1) Northern brook lamprey, *Ichthyomyzon fossor*.
- (2) Shortnose sturgeon, *Acipenser brevirostrum*.
- (3) Lake sturgeon, *Acipenser fulvescens*.
- (4) Atlantic sturgeon, *Acipenser oxyrinchus*.
- (5) Spotted gar, *Lepisosteus oculatus*.
- (6) Hickory shad, *Alosa mediocris*.
- (7) Cisco, *Coregonus artedi*.
- (8) Silver chub, *Macrhybopsis storeriana*.
- (9) Gravel chub, *Erimystax x-punctatus*.
- (10) Bridle shiner, *Notropis bifrenatus*.
- (11) River shiner, *Notropis blennioides*.
- (12) Ghost shiner, *Notropis buchanaui*.
- (13) Ironcolor shiner, *Notropis chalybaeus*.
- (14) Blackchin shiner, *Notropis heterodon*.
- (15) Redfin shiner, *Lythrurus umbratilis*.
- (16) Longnose sucker, *Catostomus catostomus*.
- (17) Bigmouth buffalo, *Ictiobus cyprinellus*.

- (18) Black bullhead, *Amerius melas*.
- (19) Mountain madtom, *Noturus eleutherus*.
- (20) Tadpole madtom, *Noturus gyrinus*.
- (21) Northern madtom, *Noturus stigmosus*.
- (22) Burbot, *Lota lota* (inland populations only).
- (23) Threespine stickleback, *Gasterosteus aculeatus*.
- (24) Banded sunfish, *Enneacanthus obesus*.
- (25) Warmouth, *Lepomis gulosus*.
- (26) Longear sunfish, *Lepomis megalotis*.
- (27) Iowa darter, *Etheostoma exile*.
- (28) Eastern sand darter, *Etheostoma pellucida*.

(c) *Reptiles and amphibians.* The following species are endangered:

- (1) Bog Turtle, *Glyptemys muhlenbergii*.
- (2) New Jersey Chorus Frog, *Pseudacris triseriata kalmi*.
- (3) Coastal Plain Leopard Frog, *Rana sphenoccephala*.
- (4) Massasauga Rattlesnake, *Sistrurus catenatus*.
- (5) Kirtland's Snake, *Clonophis kirtlandii*.
- (6) Eastern Mud Salamander, *Pseudotrion m. montanus*.

- (7) Eastern Spadefoot Toad, *Scaphiopus holbrookii*.
- (8) Rough Green Snake, *Opheodrys aestivus*.

(d) *Invertebrates.* The following species are endangered:

- (1) Northern riffleshell mussel, *Epioblasma torulosa rangiana*.
- (2) Clubshell mussel, *Pleurobema clava*.
- (3) Dwarf wedgemussel, *Alasmidonta heterodon*.
- (4) Eastern pearlshell mussel, *Margaritifera margaritifera*.
- (5) Rabbitsfoot mussel, *Quadrula cylindrica cylindrical*.
- (6) Snuffbox mussel, *Epioblasma triquetra*.

§ 75.2. Threatened species.

(a) *General.* The species of fish, amphibians and reptiles listed in subsections (b) and (c) are classified as threatened. The catching, taking, killing, possessing, importing to or exporting from this Commonwealth, selling, offering for sale or purchasing, of any individual of these species, alive or dead, or any part thereof, without a special permit from the Executive Director is prohibited.

(b) *Fish.* The following species are threatened:

- (1) Mountain brook lamprey, *Ichthyomyzon greeleyi*.
- (2) Skipjack herring, *Alosa chrysochloris*.
- (3) Goldeye, *Hiodon alosoides*.
- (4) Mooneye, *Hiodon tergisus*.
- (5) Bigmouth shiner, *Notropis dorsalis*.
- (6) Southern redbelly dace, *Phoxinus erythrogaster*.
- (7) Spotted sucker, *Minytrema melanops*.
- (8) Brindled madtom, *Noturus miurus*.
- (9) Bluebreast darter, *Etheostoma camurum*.
- (10) Spotted darter, *Etheostoma maculatum*.
- (11) Tippecanoe darter, *Etheostoma tippecanoe*.
- (12) Gilt darter, *Percina evides*.

(c) *Amphibians and reptiles*. The following species are threatened:

- (1) Green Salamander, *Aneides aeneus*.
- (2) Red-bellied Turtle, *Pseudemys rubriventris*.

(d) *Invertebrates*. The following species are threatened: Sheepnose mussel, *Plethobasus cyphus*.

[Pa.B. Doc. No. 09-1217. Filed for public inspection July 10, 2009, 9:00 a.m.]

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 401a, 403a, 405a, 491a, 493a, 494a, 495a, 497a, 499a AND 511a]

Rules of Practice and Procedures

The Pennsylvania Gaming Control Board (Board), under its general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. § 1205 (relating to license or permit application hearing process; public input hearings), amends Chapters 401a, 403a, 405a, 491a, 493a, 494a, 495a, 497a, 499a and 511a to read as set forth in Annex A.

Purpose of the Final-Form Rulemaking

This final-form rulemaking makes a number of revisions to the Board's practice and procedure regulations to: improve their clarity; conform to current practice; and simplify some of the existing requirements.

Explanation of Amendments to Chapters 401a, 403a, 405a, 491a, 493a, 494a, 495a, 497a 499a and 511a

Throughout this proposed rulemaking, the phrase "report or recommendation" has been replaced with "report or report and recommendation." This reflects what the presiding officer actually does.

The Board has also eliminated the definition of the term "hearing officer" and various provisions and references to the term. The existing provisions in Chapter 491a (relating to general rules of practice) include hearing officers and presiding officers, but in practice, the Board only uses presiding officers. Therefore, the provisions related to hearing officers are not needed. The Board has also deleted the definition of "presiding officer" from § 491a.2 (relating to definitions) and placed it in § 401a.3 (relating to definitions) because the term is used in more than just Subpart H (relating to practice and procedure).

In § 405a.6 (relating to enforcement action), an incorrect citation to § 493.2(d) in subsection (c) has been replaced with the correct citation to § 493a.5 (relating to answers to complaints, petitions, motions and other filings requiring a response).

In § 491a.3 (relating to Office of the Clerk), the address for the Office of the Clerk has been updated to reflect the current location.

In § 491a.7(c) (relating to presiding officers), "issues of law" has been added to "a fact in issue" as a matter that the presiding officer will not discuss with one party without giving notice and an opportunity to participate to the other parties.

In §§ 491a.8 and 493a.9 (relating to hearings generally; and prehearing and other conferences), language has been

added to allow the use of video conferencing. This will make it easier for parties to participate in prehearing conferences and hearings.

Section 491a.8(j), which makes hearing transcripts available for public inspection, has been expanded to include language stating that if the Board receives a request for a hearing transcript that has not been prepared, the Board will prepare the transcript and make it available for public inspection within 30 days.

Section 493a.2 (relating to complaints) has been rewritten to improve its organization, eliminate duplicative provisions and move provisions related to answers to § 493.5 (relating to answers to complaints, petitions, motions and other filings requiring a response).

In § 493a.4 (relating to petitions generally), duplicative provisions have been deleted.

In § 493a.5, the section title has been changed and the section has been amended to delete duplicative provisions and add provisions pertaining to answers that previously were in § 493a.2.

In §§ 493a.5, 493a.10, 493a.13 and 494a.6 (relating to motions for summary judgment and judgment on the pleadings; consent agreements; and reopening of records deadlines) have been shifted from date of service to date of filing. This will make it easier for the Board to determine if answers have been filed in a timely manner.

A new § 493a.10a (relating to motions to protect confidential information) has been added to Chapter 493a. What is considered to be confidential information under the act has been a controversial issue. Accordingly, the Board is adding this new section to establish a process that can be used in proceedings to address this issue.

In § 494a.8 (relating to rehearing or reconsideration), a new subsection (b) has been added to clarify that filing a petition for rehearing or reconsideration does not toll the 30-day appeal period.

In § 495a.1 (relating to form of documentary filings generally), subsection (d) has been amended to allow parties to indicate a fax number or email address when papers may be served instead of a mailing address. This is being done to make it easier and faster to serve documents.

Section 495a.6 (relating to number of copies) has been revised to only require that the original copy of documents be filed with the Board. Because the Board is using an electronic internal filing system, multiple copies of documents are no longer needed.

In § 497a.1 (relating to date of filing), new provisions have been added that allow documents to be submitted by means of electronic transmission. However, documents will not be deemed to be officially filed until the Board receives any required filing fees.

In § 499a.4 (relating to notice of appearance or withdrawal), subsection (c) has been deleted. The Board has never required and can not foresee a need to require a practitioner to file a power of attorney authorizing the practitioner to represent their client.

In § 499a.6 (relating to contemptuous conduct), subsection (a) has been amended to include contemptuous conduct before a presiding officer, as well as the Board, as a basis for exclusion from a hearing.

Comment and Response Summary

Notice of proposed rulemaking was published at 38 Pa.B. 5441 (October 4, 2008).

The Board received comments from Downs Racing, L.P. (Downs), Greenwood Gaming and Entertainment, Inc. (Greenwood) and Sands Bethworks Gaming, LLC (Sands). By letter dated December 3, 2008, the Independent Regulatory Review Commission (IRRC) also submitted comments. All of these comments were reviewed by the Board and are discussed in detail as follows.

IRRC pointed out that although § 403a.7 (relating to temporary emergency orders) uses the term “presiding officer,” there is no applicable definition to this term. Section 491a.2 (relating to definitions) defines that term, but that section applies only to Subpart H, not Subpart A (relating to general provisions), where § 403a.7 is located.

The Board concurs with IRRC. In response, the definition of “presiding officer” has been deleted from § 491a.2 and placed in § 401a.3 (relating to definitions), which applies to the entire part.

IRRC expressed concern that the amendments to §§ 493a.5, 493a.6, 493a.10 and 493a.12; which change the trigger dates for responsive filings from the date of service to the date of filing, could make it difficult for parties who are served several days after filing to respond in a timely manner.

The Board notes that if a party is slow in providing service, the disadvantaged responding party is able to file a motion under § 497a.5 (relating to extensions of time and continuances) requesting additional time. Moreover, because this rulemaking will allow for electronic service, the Board does not expect that slow service will be an issue in the future. In addition, the existing regulation allows 10 days for the filing of answers to motions for summary judgment. While the Board thinks this is sufficient, it will monitor actual practice and consider using a longer period if experience shows that more time should be allotted.

Comments from the licensed facilities primarily offered opposition to the new proposed § 493a.10a. As the comments submitted by the licensed facilities raised substantially the same objections, references to the commentators, as follows, includes Greenwood, Downs and Sands.

The commentators stated that the process contained in § 493a.10a for filing a Motion to Protect Confidential Information unreasonably shifts the burden of protecting the information from the Board to the filing parties. They pointed to current procedure under § 407a.3, whereby filing parties simply mark any information they deem confidential, as the proper way for the Board to implement its statutory duty to protect the confidential information of the licensees. They believe the effect of the proposed proposed rulemaking would be to require a licensee to prevail on a motion seeking the confidentiality of material already defined and protected by the Right-to-Know Law (65 P. S. §§ 67.101—67.3104) as confidential. IRRC echoed the commentators on this point and asked the Board to explain its authority in that regard.

The Board does not agree that § 493a.10a relieves the Board of its statutory duty to protect confidential information. The intent of § 493a.10a was not to establish an adversarial situation that requires the filing party to prevail on a contested motion to protect information from disclosure to the public. The Motion to Protect Confidential Information is intended to give the filing party the opportunity to clarify for the Board exactly what information should be protected and why that information falls within the scope of the protections provided by the act and the Board’s regulations. Having this information on the record will assist the Board in dealing with requests for information made under the law.

In response to these comments, however, the Board has removed the language; “a party or individual may seek to protect confidential information” in § 493a.10a(a), and replaced it with; “a party or individual may designate information as confidential.” This clarifies that the purpose of the Motion to Protect Confidential Information is for the filing party to identify for the record the confidential information in its pleadings and provide the reason it should be so designated. If the Motion is acted on favorably, the Board will protect the confidential information from disclosure to other parties, under the act and its regulations.

The commentators also expressed concern over the treatment of the material sought to be protected during the pendency of the Motion to Protect Confidential Information. They questioned if the procedure in the proposed regulation would permit the information in question to be disclosed to another party prior to an interim ruling on the Motion by the Director of Hearings and Appeals.

The Board agrees that information sought to be designated confidential should be protected during the time it takes the Director of Hearings and Appeals to issue an interim order on the Motion to Protect Confidential Information. The process established by § 493a.10a will enable the Director to issue an interim order in a short amount of time. In response to the comments, however, the Board has added language to the final-form regulation ensuring that all information that is the subject of the Motion to Protect Confidential Information will be treated as confidential during its pendency.

The commentators also felt that compliance with § 493a.10a would create a negative fiscal impact on the filing parties. They assert that the necessity of filing a separate Motion to Protect Confidential Information with every pleading would significantly increase costs to the industry without any identifiable benefit. IRRC also commented that compliance with this section will result in some costs to the regulated community.

The Board acknowledges that compliance with proposed regulation § 493a.10a will result in some additional cost to licensed facilities that appear regularly before the Board. The Board feels, however, that the additional cost will be minimal and is justified in establishing a clear record of what the filing party considers to be confidential information and the justification for protecting it as such.

Finally, the commentators felt that the term “pleading and other papers” in the proposed § 493a.10a was vague. IRRC raised this concern in its comments, as well. In response, the Board has changed this language to “any papers filed with the Clerk.” This should clarify that anything filed with the Clerk can be the subject of a Motion to Protect Confidential Information.

In addition to reiterating some of the concerns of the licensed facilities, IRRC also raised several other issues regarding § 493a.10a. IRRC noted that § 493a.10a(a) refers only to “information,” while subsection (b) refers to “information” and “documents” in separate paragraphs, and subsection (c) only refers to “documents.”

The Board’s intent was to treat any “documents that contain confidential information” as confidential. No distinction between “documents” and “information” was intended. The proposed regulation has been changed to make clear and consistent reference to confidential information.

IRRC asked whether the interim order issued by the Director of Hearings and Appeals and the final order issued by the Board would protect the substance of the Motion to Protect Confidential Information, as well as the documents attached to it.

The Board has added language to the final-form rulemaking which clarifies that, to the extent that the motion contains confidential information, that information will be protected by both the Director's interim order and the final order of the Board.

Finally, IRRC questioned whether the Motion to Protect Confidential Information is intended to apply to information other than the information described in 4 Pa.C.S. § 1206.

In response to this question, the Board notes that this section is intended to apply to any information that is confidential under the act and the Board's regulations, as well as any other statutes.

Additional Revisions

In § 405a.6(c), the Board has corrected an incorrect citation to § 493.2(d) by replacing it with the correct citation to § 493a.5.

On March 19, 2009, IRRC voted to disapprove final-form Regulation No. 125-93. IRRC was concerned that that the final-form regulation would unreasonably disadvantage the regulated community and would be likely to create confusion amongst the regulated community. This confusion would be created by using the filing date instead of the date of service which is used by most other administrative agencies.

On April 22, the Board adopted, and submitted to IRRC, a revised final-form rulemaking. The Board disagreed with IRRC's conclusion that the regulated community would be unreasonably disadvantaged because the provisions of the final-form regulation would apply equally to the Board and other regulated entities. However, the Board agreed that using the filing date instead of the date of service could be confusing. To address this concern the Board made three other changes.

First, the Board amended §§ 493a.5(a), 493a.10(c), 493a.12(f) and 494a.6(c) of the final-form rulemaking to return to the preexisting language which ties the response periods to the date of service instead of the date of filing. This will eliminate the potential for confusion for parties that also deal with other regulatory agencies that use the date of service for calculating response dates.

Second, the Board deleted § 497a.1(c) which would have tied the filing date to receipt of filing fees. The Board agrees that this could make it difficult for parties to accurately determine filing deadlines. Additionally, the Board is considering eliminating fees for most filings, so there is no need for this provision.

Lastly, to address the Board's original concern that adequate time be provided to all parties for filing responses under § 493a.5(a), the time period for filing answers has been increased from 20 days to 30 days. This will ensure that mailing delays do not adversely affect any parties' ability to respond. For the same reason, the time period for filing responses to motions for summary judgments under § 493a.10(c) has been increased from 10 days to 15 days.

Affected Parties

This final-form rulemaking will affect entities and individuals who are involved in Board proceedings.

Fiscal Impact

Commonwealth

Because most of the revisions in this final-form rulemaking reflect current Board practice or reflect relatively minor changes, there will be no significant costs or savings to the Board or other state agencies as a result of these revisions. The Board will experience some savings from being allowed to file and serve some documents electronically.

Political Subdivisions

This final-form rulemaking will have no fiscal impact on political subdivisions of this Commonwealth.

Private Sector

Entities and individuals who are involved in Board proceedings will experience some slight savings from being required to submit fewer copies of documents and being able to file and serve documents electronically. Individuals who participate in videoconferencing for hearings should also experience savings from reduced travel. Parties seeking to protect confidential information may experience some increased costs related to filing motions to protect confidential information, but since this process replaces a matter that was previously dealt with at prehearing conferences, the costs should not be significant.

General Public

This final-form rulemaking will have no fiscal impact on the general public.

Paperwork Requirements

This final-form rulemaking reduces the number of copies of documents that must be filed with the Board and allows electronic service to replace mailing of documents to provide service.

Parties seeking to protect confidential information will have to file a motion to protect confidential information, but this will eliminate the need to resolve this issue as part of a prehearing conference.

Effective Date

This final-form rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

Contact Person

The contact person for questions about this final-form rulemaking is Richard Sandusky, Director of Regulatory Review at (717) 214-8111.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 24, 2008, the Board submitted a copy of this proposed rulemaking, published at 38 Pa.B. 5441, and a copy of the Regulatory Analysis Form to IRRC and to the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee (Committees).

Under section 5(c) of the Regulatory Review Act (71 P. S. § 745.5(c)), IRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Board has considered all comments received from IRRC, the Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), the final-form rulemaking was

deemed approved by the Committees on May 20, 2009. Under section 5.1(e) of the Regulatory Review Act (71 P.S. § 745.5a(e)) IRRC met on May 21, 2009, and approved the final-form rulemaking.

Findings

The Board finds that:

(1) Public notice of intention to adopt these amendments was given under sections 201 and 202 of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2 (relating to notice of proposed rulemaking required; and adoption of regulations).

(2) The final-form rulemaking is necessary and appropriate for the administration and enforcement of 4 Pa.C.S. Part II (relating to gaming).

Order

The Board, acting under 4 Pa.C.S. Part II, orders that:

(a) The regulations of the Board, 58 Pa. Code Chapters 401a, 403a, 405a, 491a, 493a, 494a, 495a, 497a, 499a and 511a are amended by amending §§ 403a.7, 491a.2, 491a.3, 491a.7—491a.9, 493a.2, 493a.4, 494a.4, 494a.5, 494a.8, 495a.1, 495a.6, 499a.4, 499a.6, 511a.6 and 511a.9 and by deleting § 491a.6 to read as set forth at 38 Pa.B. 5441 and by amending §§ 401a.3, 405a.6, 493a.5, 493a.10, 494a.6 and 497a.1; and by adding § 493a.10a to read as set forth in Annex A, with ellipses referring to the existing text of the regulations.

(b) The Chairperson of the Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(c) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

GREGORY FAJT,
Chairperson

(Editor's Note: The proposal to amend § 493a.12, included in the proposed rulemaking at 38 Pa.B. 5441 has been withdrawn by the Board. Section 405a.6, included in this final-form rulemaking, was not included in the proposed rulemaking at 38 Pa.B. 5441.)

(Editor's Note: For the text of the order of the Independent Regulatory Review Commission relating to this document, see 39 Pa.B. 2902 (June 6, 2009).)

Fiscal Note: Fiscal Note 125-93 remains valid for the final adoption of the subject regulation.

Annex A

TITLE 58. RECREATION

PART VII. GAMING CONTROL BOARD

Subpart A. GENERAL PROVISIONS

CHAPTER 401a. PRELIMINARY PROVISIONS

§ 401a.3. Definitions.

The following words and terms, when used in this part, have the following meanings, unless the context clearly indicates otherwise:

* * * * *

Presiding officer—

(i) A member of the Board, or other person designated by the Board to conduct a proceeding.

(ii) This definition supersedes 1 Pa. Code § 31.3 (relating to the definitions).

* * * * *

CHAPTER 405a. BUREAU OF INVESTIGATIONS AND ENFORCEMENT

§ 405a.6. Enforcement action.

(a) Upon a determination by the Office of Enforcement Counsel that sufficient facts exist to support enforcement action against a person holding a license, permit, certification or registration issued by the Board, the Office of Enforcement Counsel will initiate a complaint in accordance with § 493.2 (relating to complaints), including a proposed order for an enforcement action and serve the complaint in accordance with § 491a.5 (relating to service by the Board).

(b) The complaint for an enforcement action will include a statement of the facts, the statute, regulation or statement of conditions that the person is being charged with violating and the remedy sought. The proposed order will be accompanied by a certificate of service demonstrating the date of service.

(c) Within 20 days from the date of service of complaint for an enforcement action, the person may file a notice of defense in accordance with § 493a.5 (relating to answers to complaints, petitions, motions and other filings requiring a response) and serve a copy of the notice of defense on the Office of Enforcement Counsel. Failure to file a notice of defense for an enforcement action complaint within 20 days will be deemed:

(1) A waiver by the person of any right to an administrative hearing before the Board.

(2) An admission by the person of all matters and facts alleged in the proposed order for enforcement action.

(3) Consent by the person to the entry of a final order by the Board disposing of the enforcement matter.

(d) Upon the person's failure to request a hearing within the prescribed 20 days, the Office of Enforcement Counsel will present the proposed enforcement order to the Board. The Board may, by resolution, adopt the proposed enforcement order.

(e) The Clerk will send a copy of the Board's final order to the person by first class mail.

Subpart H. PRACTICE AND PROCEDURE

CHAPTER 493a. PLEADINGS

§ 493a.5. Answers to complaints, petitions, motions and other filings requiring a response.

(a) Answers to complaints, petitions, motions and other filings requiring a response shall be filed with the Clerk and served on all other parties within 30 days after the date of service of the complaint, petition, motion or other pleading, unless a different time is prescribed by the Board or presiding officer.

(b) Failure to file a timely answer to a complaint or petition will constitute an admission of all matters and facts contained in the filing and may result in the waiver of the right to a hearing.

(c) Answers may contain the following:

(1) Admissions of the matter complained of and the alleged facts, in whole or in part.

(2) New matter or explanation by way of defense.

(3) Legal objections.

(4) Affirmative defenses.

(5) A request for a hearing.

(d) This section supplements 1 Pa. Code §§ 35.35—35.40.

§ 493a.10. Motions for summary judgment and judgment on the pleadings.

(a) *Motion for judgment on the pleadings.* After the pleadings are closed, but within a time so that the hearing is not delayed, a party may move for judgment on the pleadings.

(b) *Motion for summary judgment.* After the pleadings are closed, but within a time so that the hearing is not delayed, a party may move for summary judgment based on the pleadings and depositions, answers to interrogatories, admissions and supporting affidavits.

(c) *Answers to motions.* An answer to a motion for summary judgment or a motion for judgment on the pleadings, including an opposing affidavit to a motion for summary judgment, may be filed with the Clerk and served on all other parties within 15 days of the date of service of the motion. An answer to a motion for summary judgment may be supplemented by pleadings and depositions, answers to interrogatories or further affidavits and admissions.

(d) *Decisions on motions.* If a motion is granted in whole or in part by a presiding officer, it will be in the form of a report or report and recommendation. The Board will make a final ruling on a motion for judgment on the pleadings or a motion for summary judgment.

(e) *Supplementation.* This section supplements 1 Pa. Code Chapter 35, Subchapter D (relating to motions).

§ 493a.10a. Motions to protect confidential information.

(a) A party or individual may designate information as confidential under § 407a.3 (relating to confidential information) in any papers filed with the Clerk by filing a Motion to Protect Confidential Information.

(b) A Motion to Protect Confidential Information must:

(1) Set forth the specific reasons why the information should be deemed to be confidential information and, therefore, protected.

(2) Label as confidential all documents or portions of documents in the filing containing the confidential information that the party or individual is seeking to protect.

(c) Upon the filing of the Motion to Protect Confidential Information, the Director of Hearings and Appeals will review the motion and accompanying filings and, upon determining that a substantial basis exists, shall issue an interim order to protect the information, whether in the motion or the accompanying filings, from disclosure until the Board considers the matter in accordance with 65 Pa.C.S. §§ 701—716 (relating to open meetings). At all times during the pendency of the motion, the information in the motion and the accompanying filings shall be treated as confidential.

CHAPTER 494a. HEARING PROCEDURE

§ 494a.6. Reopening of record.

(a) After the conclusion of the hearing, a party in a proceeding may file with the presiding officer, prior to the issuance of a report or report and recommendation, a petition to reopen the proceeding for the purpose of taking additional evidence. The petition must set forth clearly the facts claimed to constitute grounds requiring reopening of the proceeding, including material changes of fact or law alleged to have occurred since the hearing was concluded.

(b) After the issuance of a report or report and recommendation by a presiding officer and before the Board issues its final order, a party in a proceeding may file with the Board, a petition to reopen the proceeding for the purpose of taking additional evidence. The petition must set forth clearly the facts claimed to constitute grounds requiring reopening of the proceeding, including material changes of fact or law alleged to have occurred since the issuance of a report or report and recommendation.

(c) Answers may be filed within 10 days of service of the petition. If no answers are filed, objections to the granting of the petition are waived.

(d) After the filing of the petition and answer, the Board or presiding officer will grant or deny the petition.

(e) Prior to filing a report or report and recommendation, the presiding officer, after notice to the parties, may reopen the proceedings for the receipt of further evidence on his own motion, if the presiding officer has reason to believe that the facts or law have changed as to require, or that the public interest requires, the reopening of the proceedings.

(f) Prior to the issuance of a final order, the Board, after notice to the parties, may reopen the proceeding for the receipt of further evidence, if the Board has reason to believe that the facts or law have changed as to require, or that the public interest requires, the reopening of the proceeding.

(g) This section supersedes 1 Pa. Code §§ 35.231—35.233 (relating to reopening of record).

CHAPTER 497a. TIME

§ 497a.1. Date of filing.

(a) Whenever a pleading or other document is required or permitted to be filed under this part or by statute, it will be deemed to be filed on one of the following dates:

(1) On the date actually received in the Office of the Clerk.

(2) On the date deposited with an overnight express package delivery service as shown on the express delivery receipt attached to or included within the envelope containing the document.

(3) On the date deposited in the United States mail as shown by the United States Postal Service stamp on the envelope or on a United States Postal Service Form 3817 certificate of mailing. A mailing envelope stamped by an in-house postage meter does not constitute proof of the date of mailing.

(4) On the date that the pleading or other document is received by electronic transmission in the Office of the Clerk.

(b) Failure to include a legible delivery receipt with the document may result in an untimely filing.

(c) Subsections (a) and (b) supersede 1 Pa. Code § 31.11 (relating to timely filing required).

PENNSYLVANIA GAMING CONTROL BOARD
[58 PA. CODE CH. 441a]
Slot Machine Licensing

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 1205 and 1206 (relating to license or permit application hearing process; public input hearings; and Board minutes and records) amends Chapter 441a (relating to slot machine licenses) to read as set forth in Annex A.

Purpose of the Final-Form Rulemaking

This final-form rulemaking amends the provisions related to licensing hearings for applicants for slot machine licenses.

Explanation of Amendment to Chapter 441a

Section 441a.7 (relating to licensing hearings for slot machine licenses) lays out the procedures for the conduct of slot machine licensing hearings. Through this final-form rulemaking, the Board is expanding these provisions.

Specifically, the Board will require the Bureau of Investigations and Enforcement (BIE) to report any information concerning an applicant, which was obtained from sources in the public domain, at the licensing hearing.

Additionally, the Board may request that an applicant respond to questions that may relate to confidential information at the licensing hearing. The applicant will have the option of waiving the right to confidentiality and answering the questions at the public hearing or requesting that the matter be heard in executive session. The applicant will be required to state, on the record, the reasons why it believes the information is confidential and should be heard in executive session.

The final-form rulemaking also makes it clear that under no circumstances will an applicant be required to waive the right to confidentiality as a condition to receiving a slot machine license.

Adoption of these new provisions will provide additional guidance to applicants for slot machine licenses on the conduct of the licensing hearings and ensure that all information permitted by law will be contained in the public record.

Comment and Response Summary

Notice of proposed rulemaking was published at 38 Pa.B. 2269 (May 17, 2008).

The Board received comments from Sands Casino Resort Bethlehem (Sands) during the public comment period. On July 16, 2008, the Independent Regulatory Review Commission (IRRC) also filed comments. Both of these comments were considered by the Board and are discussed as follows.

Sands and IRRC expressed concerns that requiring an applicant to provide a "sufficient reason" as to why information should be treated as confidential could be perceived to be coercive and may conflict with 4 Pa.C.S. § 1206(f).

The Board believes that the proposal was consistent with the act. The proposed provision stated that information obtained by the Board or BIE from sources, not in the public domain, is considered to be confidential. It also repeat the provision in 4 Pa.C.S. § 1206(f) that the Board may not require an applicant to waive any confidentiality

as a condition for approval of a license. This language was included in the regulation to emphasize an applicant's right to have certain information treated as confidential. All this regulation does is clarify that an applicant has a choice as to how to proceed during a licensing hearing if a question arises that may involve confidential information. The applicant may elect to waive the confidentiality privilege or request that the matter be heard in executive session. However, because not all information provided as part of a licensing application is considered confidential, it is entirely appropriate for the Board to require an applicant to describe how the information requested would fall into one of the categories of protected information in 4 Pa.C.S. § 1310(a) (relating to application) or the Board's regulations.

IRRC asked how the Board would determine what is a "sufficient" reason. IRRC believe the term is vague and should be defined or that criteria for determining what is sufficient should be added to the regulation.

The Board's intention in this provision is simply to have the applicant state the reason, on the record, why the information should be treated as confidential. In essence what the Board expects an applicant to do is to state how the information falls into one of the categories of protected information listed in 4 Pa.C.S. § 1310(a) or the Board's regulations. To clarify this intent, § 441a.7(r)(2) (relating to licensing hearings for slot machine licenses) has been revised and the term "sufficient" has been deleted.

IRRC also asked that with the deletion of 4 Pa.C.S. § 1206(a), what the Board's authority is to hear confidential information in executive session.

The statutory basis for the Board to hear information protected under 4 Pa.C.S. § 1206(f) in executive session is found in 65 Pa.C.S. § 708 (relating to executive sessions), which allows an agency to hold an executive session to "discuss agency business which, if conducted in public, would violate a lawful privilege or lead to the disclosure of information or confidentiality protected by law..." Because the confidentiality of this information is protected by law, it can be heard in executive session.

Next, IRRC asked if the Board had intended to cite 4 Pa.C.S. § 1206(f) in the proposed rulemaking instead of 4 Pa.C.S. § 1310(a).

That was the Board's intent and the citation has been corrected in the final-form rulemaking.

IRRC asked if a transcript would be made of an executive session, and if so, would the transcript be made available for release in accordance with 4 Pa.C.S. § 1206(f). IRRC also asked that if a transcript is not prepared, how would an applicant's meaningful appellate rights be protected.

A transcript will be prepared for any executive session and the transcript will be released under the circumstances outlined in 4 Pa.C.S. § 1206(f) pertaining to the release of confidential information. In the case of an appeal, the transcripts of any executive sessions will be released upon the lawful order of a court of competent jurisdiction.

IRRC also inquired how the Board will publish an order, when the Board renders a decision which is based on confidential information, without revealing the confidential information.

The Board's order does not have to contain the confidential information; it only needs to state that the Board

has reviewed the information and state if any of the information was the basis for the Board's approval or disapproval.

Lastly, IRRRC suggested that the Board include detailed administrative procedures for conducting an executive session.

The Board has not adopted this suggestion. Based on past experience with licensing hearings, the Board does not see a need to add detailed procedures for the conduct of executive sessions.

Additional Revisions

On March 19, 2009, IRRRC voted to disapprove final-form Regulation No. 125-86. IRRRC was concerned that the final-form rulemaking might not fully preserve a slot machine license applicant's right under the act to protect certain information as confidential.

On April 22, 2009, the Board adopted and submitted to IRRRC, a revised final-form rulemaking. While it was never the Board's intent to abridge an applicant's right to have confidential information protected the Board agreed that the language of the final-form rulemaking could be improved by incorporating additional revisions as suggested by IRRRC. More specifically, the Board has made two additional changes.

First, subsection (r)(1) has been revised by deleting the phrase "Request, at the licensing hearing, that the matter be heard in executive session." and replacing it with "Invoke the protection afforded the applicant by 4 Pa.C.S. § 1206(f) and have the matter heard in executive session." This more appropriately reflects the protection afforded by the statute.

Second, also subsection (r)(2) has been amended by adding a reference to § 407a.3(a) (relating to confidential information) of the Board's regulations. This section describes in detail the types of information that the Board deems to be confidential. By adding this reference, slot machine applicants will be provided additional guidance as to what the Board considers to be confidential information.

Affected Parties

Applicants for slot machine licenses will be affected by this final-form rulemaking.

Fiscal Impact

Commonwealth

There will be no new costs or savings to the Board or other Commonwealth agencies as a result of this final-form rulemaking.

Political Subdivisions

This final-form rulemaking will have no fiscal impact on political subdivisions of this Commonwealth.

Private Sector

Applicants for slot machine licenses will not experience any increased costs or savings as a result of this final-form rulemaking.

General Public

This final-form rulemaking will have no fiscal impact on the general public.

Paperwork requirements

There are no new paperwork or reporting requirements associated with this final-form rulemaking.

Effective Date

The final-form rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

Contact Person

The contact person for questions about this final-form rulemaking is Richard Sandusky, Director of Regulatory Review at (717) 214-8111.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on May 1, 2008, the Board submitted a copy of this proposed rulemaking, published at 38 Pa.B. 2269 and a copy of the Regulatory Analysis Form to IRRRC and to the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee (Committees).

Under section 5(c) of the Regulatory Review Act (71 P. S. § 745.5(c)), IRRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Board has considered all comments received from IRRRC, the Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), the final-form rulemaking was deemed approved by the Committees on May 20, 2009. Under section 5.1(e) of the Regulatory Review Act (71 P. S. § 745.5a(e)) IRRRC met on May 21, 2009, and approved the final-form rulemaking.

Findings

The Board finds that:

(1) Public notice of intention to adopt this amendment was given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2 (relating to notice of proposed rulemaking required; and adoption of regulations).

(2) The final-form rulemaking is necessary and appropriate for the administration and enforcement of 4 Pa.C.S. Part II (relating to gaming).

Order

The Board, acting under 4 Pa.C.S. Part II, orders that:

(a) The regulations of the Board, 58 Pa. Code Chapter 441a, are amended by amending § 441a.7 to read as set forth in Annex A, with the ellipses referring to the existing text of the regulation.

(b) The Chairperson of the Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(c) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

GREGORY FAJT,
Chairperson

(Editor's Note: For the text of the order of the Independent Regulatory Review Commission relating to this document, see 39 Pa.B. 2902 (June 6, 2009).)

Fiscal Note: Fiscal Note 125-86 remains valid for the final adoption of the subject regulation.

Annex A

TITLE 58. RECREATION

PART VII. GAMING CONTROL BOARD

Subpart C. SLOT MACHINE LICENSING

CHAPTER 441a. SLOT MACHINE LICENSES

§ 441a.7. Licensing hearings for slot machine licensees.

* * * * *

(r) Information obtained by BIE during an applicant's background investigation based upon public record or upon information otherwise in the public domain will be heard by the Board during the licensing hearing. Information submitted by an applicant under 4 Pa.C.S. § 1310(a) (relating to slot machine license application character requirements) or obtained by the Board or BIE as part of a background investigation from any source not in the public domain is considered confidential. The Board may not require an applicant to waive any confidentiality provided for in 4 Pa.C.S. §§ 1206(f) and 1310(a) as a condition for the approval of a slot machine license or any other action of the Board. The Board may request that an applicant respond to inquiries related to confidential information during a licensing hearing to promote transparency in the regulation of gaming in this Commonwealth. An applicant who does not waive the right to confidentiality shall:

(1) Invoke the protection afforded the applicant under 4 Pa.C.S. § 1206(f) and have the matter heard in executive session.

(2) Provide the reason on the record explaining the basis for the invocation of confidentiality under § 407a.3(a) (relating to confidential information).

(s) At its discretion, the Board may terminate, recess, reconvene and continue the licensing hearing.

(t) An applicant may raise an objection to the conduct of the hearing, procedure, process or rulings of the Board as it relates to its own hearing or to the hearing of a competitive applicant as follows:

(1) An objection may be raised orally by stating the objection during the hearing of an applicant and the objection shall be stenographically recorded upon the record. The Board may request written briefing of the basis of the objection prior to issuing a ruling.

(2) An objection relating to the hearing of an applicant or to a hearing of a competitive applicant may be raised by means of written objection filed with the Clerk no later than 2 business days after the action or event giving rise to the objection. A written objection must clearly and concisely set forth the factual basis for the objection and be accompanied by a legal brief addressing the legal basis supporting the objection.

(3) If an applicant objects to an action or event in the hearing of another applicant, the caption of the objection must include the docket numbers of both proceedings conspicuously displayed and shall be served upon counsel for the other applicant by electronic means.

(4) In the event an objection is filed to the hearing of another applicant, counsel for that applicant may file a responsive brief within 2 business days of electronic service.

(5) An objection not raised as provided in paragraphs (1)—(3) will be deemed waived.

(u) Each Category 1 and Category 3 applicant may file a brief up to 25 pages in length within 10 days of the completion of the hearing with respect to all applications within its category. Each Category 2 applicant may file a brief up to 25 pages in length within 10 days of the completion of the hearing with respect to all applications that meet the same location criteria as the applicant as specified in subsection (n)(1)(i)—(iii). At the prehearing conferences, applicants in any category may waive the opportunity to file briefs.

(v) At the conclusion of the presentation of all testimony and evidence, the Board will cause the record to be transcribed. The transcript and evidence shall become part of the evidentiary record for the Board's consideration. For good cause shown, the Board may seal portions of the record.

(w) Following submission of the applicants' briefs, all applicants will have an opportunity to make final remarks in the form of oral argument before the Board in a manner and time prescribed by the Board. At the prehearing conferences, applicants in any category may waive the opportunity for oral argument.

(x) Upon the conclusion of the licensing hearings and upon review of the evidentiary record in its entirety, the Board will consider, approve, condition or deny the slot machine license applications. A final order, accompanied by the Board's written decision, will be served on the applicants for slot machine licenses.

(y) An applicant may appeal the denial of a slot machine license to the Pennsylvania Supreme Court as provided in the act.

(z) This subsection pertains exclusively to intervention in a licensing hearing for a slot machine license under this section and is not applicable to other hearings before the Board. The right to intervene in a hearing under this section is within the sole discretion of the Board.

(1) A person wishing to intervene in a licensing hearing for a slot machine license shall file a petition in accordance with this subsection.

(2) A person may file a petition to intervene under this subsection if the person has an interest in the proceeding which is substantial, direct and immediate and if the interest is not adequately represented in a licensing hearing.

(3) Petitions to intervene in a licensing hearing may be filed no later than 45 days prior to the commencement of the first scheduled licensing hearing, in the category of license for which the applicant, in whose hearing the petitioner seeks to intervene, has filed an application unless, in extraordinary circumstances for good cause shown, the Board authorizes a late filing. At the same time the petitioner files its petition with the Board, a complete copy of the petition to intervene shall be served on the Chief Enforcement Counsel and the applicant in whose licensing hearing the petitioner seeks to intervene.

(4) Petitions to intervene must set out clearly and concisely the facts demonstrating the nature of the alleged right or interest of the petitioner, the grounds of the proposed intervention, the position of the petitioner in the proceeding and a copy of the written statement to be offered under paragraph (6). The petitioner shall fully and completely advise the applicant and the Board of the specific issues of fact or law to be raised or controverted and cite provisions or other authority relied on.

(5) The applicant may file an answer to a petition to intervene, and in default thereof, will be deemed to have waived any objection to the granting of the petition. If made, answers shall be filed within 10 days after the date the petition is filed with the Board, unless for cause the Board prescribes a different time. A complete copy of the answer to the petition to intervene shall be served on the Chief Enforcement Counsel and the petitioner who seeks to intervene.

(6) Except when the Board determines that it is necessary to develop a comprehensive evidentiary record, the participation of a person granted the right to intervene in a licensing hearing will be limited to the presentation of evidence through the submission of written statements attested to under oath. The written statements shall be part of the evidentiary record.

(aa) This section supersedes any conflicting provisions of Subpart H (relating to practice and procedure) and 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure).

PROPOSED RULEMAKING

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 61]

Fishing

The Fish and Boat Commission (Commission) proposes to amend Chapter 61 (relating to seasons, sizes and creel limits). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. *Effective Date*

The proposed rulemaking, if approved on final-form rulemaking, will go into effect on January 1, 2010.

B. *Contact Person*

For further information on the proposed rulemaking, contact Laurie Shepler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The proposed amendments to §§ 61.2 and 61.8 (relating to Delaware River and River Estuary; and Lehigh River, Schuylkill River and Tributaries) are published under the statutory authority of section 2102(b) of the code (relating to rules and regulations).

D. *Purpose and Background*

The proposed rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the proposed amendments is described in more detail under the summary of proposal.

E. *Summary of Proposal*

(1) *American Shad on the Delaware River.* Since the mid-1980s, the daily creel limit for American shad in the Delaware River, the West Branch and the Estuary has been six fish with no minimum length limit, and there has been a year-round season. While in years past, American shad was a popular gamefish and anglers often harvested them for consumption, in more recent years it has principally become a catch-and-release fishery. A large-scale creel survey in 2002 resulted in an estimated angler catch of 35,281 shad, of which 6,627 (19%) were harvested (Versar 2003). The 2002 harvest rate was about a third of the estimated 1986 creel survey harvest rate (49%) but was close to the estimated harvest rate for the 1995 (20%) survey. Individual angler trip data voluntarily submitted to the Delaware River and Estuary Angler Logbook Program from 2002 to 2006 indicated that anglers harvested a total of 139 shad of the 1,748 caught (8%) from 496 trips. Three or more shad were harvested on only four trips.

In 2007, the Atlantic States Marine Fisheries Commission's (ASMFC's) Shad and River Herring Technical Committee and American Shad Stock Assessment Subcommittee developed a coast wide stock assessment that indicated that adult American shad stocks in the Delaware River have been declining since 1994. Nevertheless, the annual production of juvenile shad has remained stable. In some other coastal rivers, adult shad stocks have declined as well. Despite the continued depressed

abundance and documented low harvest rates of adult American shad in the Delaware River and River Estuary, the creel limit of American shad in this Commonwealth has remained at six fish per day.

The Commission therefore proposes a reduction of the daily creel limit of American shad to three fish in cooperation with the other boundary states (New Jersey, New York and Delaware). Resource managers from all four states participating in the Delaware River Fish and Wildlife Cooperative Technical Committee (DRFWCTC) have verbally agreed that this reduction in the daily creel limit will not negatively impact angler use, and it is a proactive protective measure given the declining status of shad stocks in the Delaware River and other coastal river systems.

At a recent meeting between the Commission and the New Jersey Department of Environmental Protection, Division of Fish and Wildlife (NJDEP), New Jersey staff indicated that their organization is actively pursuing a reduced daily creel limit from the current six fish to three fish in the Delaware River. Their Freshwater Fishery Council has approved the proposed reduction and will solicit public comments this summer. New Jersey staff expect to have the reduced creel limit in place by January 1, 2010; however, due to the fact that the freshwater and marine divisions of the agency have jurisdiction over different parts of the river, the proposed regulation will only pertain to the Delaware River mainstem waters from the New Jersey/New York State border, downstream to the Commodore Barry Bridge. In the remaining 2.9 river miles, from of the Commodore Barry Bridge to the Delaware State line, the creel limit will remain at six in New Jersey until at least 2011, when it is anticipated that New Jersey's Marine Fishery Council will reduce the creel limit in that section to three.

New York is moving forward with a proposed amendment to reduce the American shad creel limit to three per day in the upper Delaware River. They indicated that a 2010 date for implementation is extremely optimistic and that 2011 is more realistic.

Delaware's only recreational shad angling occurs on the Brandywine Creek, and it is extremely limited. Delaware is moving to reduce the creel limit of herring (they do not make a distinction between American shad and river herring) from 10 combined/day to six combined/day. They anticipate doing this in conjunction with a change in the commercial regulations, but they do not anticipate this change occurring for the 2010 season.

In the interest of coordination with the regulations of New Jersey and New York, the Commission proposes that effective January 1, 2010, the reduced creel limit be applied to the West Branch and the entire Delaware River mainstem from the confluence of the East and West Branches downstream to the Commodore Barry Bridge as set forth in Annex A.

The Commission further proposes that for the remaining 2.9 miles downstream of the Commodore Barry Bridge, the current daily limit of six remain in effect until such time as New Jersey's Marine Council effectuates a change. At that time, the Commission will seek public comments on an amendment that reduces the creel limit of the lower section to three, with an effective date that coincides with the Marine Council's regulation change.

(2) *River Herring on the Delaware, Lehigh and Schuylkill Rivers.* Since the mid-1980's, the daily creel limit for river herring, a term applied collectively to blueback herring and alewife, in the Delaware River, West Branch and Estuary, has been a total of 35 herring, with no minimum length limit, and the season is open year-round. River herring are popular with striped bass anglers who use them either as live or cut bait. Principally, this fishery exists during the spring when river herring and striped bass are migrating into the Delaware River and Estuarine waters. Traditionally, anglers jigged for river herring for use as bait at the onset of a trip and during the trip. However, it has been alleged that an illegal transport fishery has developed in which entrepreneurs catch river herring from the Delaware River and transport them to the New Jersey coast for sale as bait to coastal anglers.

In 2002, catch and harvest of river herring in the Delaware River and Estuary were estimated in a large-scale creel survey (Versar 2003). This survey resulted in an estimate of a total catch of 7,553 river herring of which 4,916 (65%) were harvested. Most of the fish harvested were taken from tidal waters (1,465 fish, Delaware Memorial Bridge to Trenton, NJ) and the lower reach of the nontidal Delaware River (5,105 fish, Trenton, NJ upstream to Delaware Water Gap). Field observations by the creel clerks during the course of the 2002 survey indicated that only a small number of anglers target river herring. Many of these anglers were noted to have elaborate live-wells in their vehicles for keeping river herring alive, which accounted for the relatively high estimated harvest rates.

The ASMFC's Draft Amendment 2 to the Interstate Fishery Management Plan for Shad and River Herring states that river herring abundance has declined precipitously since the mid-1990's and remains depressed along the Atlantic Coast. The Commission therefore is proposing a reduction in the daily creel limit to ten along with the other Delaware River and Estuary boundary states of New York and New Jersey. Delaware's herring creel limit is already ten per day. The proposed action will unify regulations throughout the Delaware River. Resource managers participating in the DRFWCTC from all four states have verbally agreed that a reduction of the daily creel limit would not negatively impact angler use. This creel limit reduction is designed to allow for the continued use of river herring as a bait source by the individual angler, while reducing the economic incentive for the illegal sale of the fish for bait. New Jersey researchers conducted an informal survey of the most likely impacted commercial guides fishing the Delaware River. The results of the survey indicated strong support for the proposed reduction in the daily creel limit.

At a recent meeting between the Commission and the NJDEP, New Jersey staff indicated that their organization is actively pursuing the reduced river herring creel limit. Their Freshwater Fishery Council has already approved the proposed reduction, and public comments will be solicited this summer. New Jersey staff expect to have the reduced river herring creel limit in place by January 1, 2010; however, due to the fact that the freshwater and marine divisions of the agency have jurisdiction over different parts of the river, the proposed regulation will only pertain to the Delaware River mainstem waters from the New Jersey/New York State border, downstream to the Commodore Barry Bridge. In the remaining 2.9 river miles from of the Commodore Barry Bridge to the Delaware State line, the creel limit will remain at 35 in New Jersey until at least 2011, when

it is anticipated that New Jersey's Marine Fishery Council will reduce the creel limit in that section to 10.

New York is not proposing any changes to its river herring creel limits due to the fact that they do not anticipate river herring ascending that far up the Delaware River.

Delaware's only recreational shad angling occurs on the Brandywine Creek, and it is extremely limited. Delaware is moving to reduce its creel limit of herring (they do not make a distinction between American shad and river herring) from ten combined/day to six combined/day. They anticipate doing this in conjunction with a change in the commercial regulations, but they do not anticipate this change occurring for the 2010 season.

In the interest of coordination with the regulations of New Jersey, the Commission proposes that effective January 1, 2010, the reduced creel limit be applied to the West Branch and the entire Delaware River mainstem from the confluence of the East and West Branches downstream to the Commodore Barry Bridge as set forth in Annex A. Given the anadromous fish restoration efforts on the two major tributaries to the Delaware, the Commission also proposes imposing a ten fish per day creel limit on the Lehigh and Schuylkill Rivers as set forth in Annex A.

The Commission further proposes that for the remaining 2.9 miles downstream of the Commodore Barry Bridge, the current daily limit of 35 river herring remain in effect until such time as New Jersey's Marine Council effectuates a change. At that time, the Commission will seek public comments on an amendment that reduces the creel limit of the lower section to 10, with an effective date that coincides with the Marine Council's regulation change.

After the Commission approved publication of this notice of proposed rulemaking containing proposed amendments to its regulations pertaining to river herring, ASFMC approved Amendment 2 to the Interstate Fishery Management Plan for Shad and River Herring. The amendment prohibits commercial and recreational fisheries of river herring beginning January 1, 2012, unless a state or jurisdiction develops and submits for approval a sustainable management plan by January 1, 2010. The amendment defines a sustainable fishery as "a commercial and/or recreational fishery that will not diminish the potential future stock reproduction and recruitment." Submitted plans must clearly demonstrate that the state or jurisdiction's river herring fisheries meet this new definition of sustainability through the development of sustainability targets that must be achieved and maintained.

ASMFC's approval of Amendment 2 was taken in response to widespread concern regarding the decline of river herring stocks. While many populations of blueback herring and alewife, collectively known as river herring, are in decline or remain depressed at stable levels, lack of fishery-dependent and independent data makes it difficult to ascertain the status of river herring stocks coastwide. Between 1985 and 2007, commercial landings of river herring decreased by 97% from 13.6 million pounds to 317,000 pounds.

The Commission's approach to its river herring regulations could be influenced by the recent ASMFC action. Currently, the Commission is working with other state agencies with jurisdiction that includes parts of the Delaware River or Delaware Estuary to develop a coordinated interstate approach for future regulations. This coordinated approach could result in the Commission's

final adoption of amendments that are the same as or similar to those proposed in this notice of proposed rulemaking, or it could mean more conservative regulations, up to a total moratorium on the river herring fishery.

F. *Paperwork*

The proposed rulemaking will not increase paperwork and will not create new paperwork requirements.

G. *Fiscal Impact*

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will impose no new costs on the private sector or the general public.

H. *Public Comments*

Interested persons are invited to submit written comments, objections or suggestions about the proposed rule-

making to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/regcomments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt. Electronic comments submitted in any other manner will not be accepted.

[58 PA. CODE CH. 73]

Fishing

The Fish and Boat Commission (Commission) proposes to amend Chapter 73 (relating to transportation of live fish into the Commonwealth). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. *Effective Date*

The proposed rulemaking, if approved on final-form rulemaking, will go into effect immediately upon publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on the proposed rulemaking, contact Laurie Shepler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The proposed amendment to § 73.3 (relating to transportation and importation of VHS-susceptible species of fish) is published under the statutory authority of section 2102(c) of the code (relating to rules and regulations).

D. *Purpose and Background*

The proposed rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the proposed amendment is described in more detail under the summary of proposal.

E. *Summary of Proposal*

Viral hemorrhagic septicemia (VHS) is an infectious disease found in a variety of fish species. Effective January 1, 2009, the Commission adopted § 73.3 to help prevent the spread of the disease in this Commonwealth. Under § 73.3(d), it is unlawful to import or cause the importation of VHS-susceptible species of fish into this Commonwealth from a VHS-affected or VHS-at risk region, except as follows: (1) VHS-susceptible species of live fish may be imported into the United States if the requirements of 9 CFR 93.910—93.916 are met; or (2) VHS-susceptible species of dead fish may be imported into the United States if the fish are recreationally caught and are for human consumption.

At the time of adoption, the language of § 73.3(d)(1) was consistent with the interim rule of the United States Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) that was slated to go into effect on January 9, 2009. However, by notice published in the (74 FR 1), the United States Department of Agriculture announced that it has delayed the effective date of the interim rule indefinitely to provide APHIS with time to make some adjustments to the interim rule that are necessary for the rule to be successfully implemented. The provisions of § 73.3(d)(1), therefore, have no effect.

Accordingly, the Commission proposes that § 73.3(d) be amended to delete paragraph (1) as set forth in Annex A. This amendment is a "housekeeping" change that is limited to the movement of live VHS-susceptible species of fish from the Canadian provinces of Ontario and Quebec. It will not affect the Commission's regulations with respect to intrastate and interstate transportation or the international movement of dead fish. Under § 73.3(d)(2), VHS-susceptible species of dead fish may be imported into the United States from Ontario and Quebec

if the fish are recreationally caught and are for human consumption. However, until such time as APHIS adopts a rule pertaining to the international movement of live fish, the Commission's regulations will be silent on the subject. Prior orders issued by APHIS regarding international movement of live VHS-susceptible species of fish will govern, but the Commission's waterways conservation officers will not be able to enforce them.

By notice published at 39 Pa.B. 1368 (March 14, 2009), the Executive Director, acting under the authority of 58 Pa. Code § 65.25 (relating to temporary changes to fishing regulations), already has taken immediate action to rescind § 73.3(d)(1). This temporary modification went into effect immediately and will remain in effect until the Commission, by appropriate action, rescinds the regulation.

F. *Paperwork*

The proposed rulemaking will not increase paperwork and will not create new paperwork requirements.

G. *Fiscal Impact*

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will impose no new costs on the private sector or the general public.

H. *Public Comments*

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/reg comments. PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 401a, 435a AND 441a]

Employee Revisions and Pennsylvania Race Horse Development Fund

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and specific authority contained in 4 Pa.C.S. §§ 1311, 1311.1, 1311.2, 1321 and 1406 proposes to amend Chapters 401a, 435a, and 441a to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

This proposed rulemaking makes minor revisions to provisions related to employees to improve the clarity and effectiveness of the Board's regulations. It also revises the time frame within which distributions of funds received by Category 1 slot machine licensees from the Pennsylvania Race Horse Development Fund must be made.

Explanation of Amendments to Chapters 401a, 435a and 441a

In § 401a.3 (relating to definitions), the definition of "gaming employee" has been amended to include employees of certified vendors whose duties require the employee to be on the gaming floor or in a restricted area. This makes the definition consistent with the existing requirement pertaining to these employees in § 437a.7(b) (relating to registered and certified vendor responsibilities).

In § 435a.1 (relating to general provisions), a new subsection (n) has been added which requires slot machine licensees to contact the Bureau of Licensing to verify that the license, permit or registration of an individual who currently holds a license, permit or registration is still valid before the slot machine licensee allows them to work in the licensed facility. Licenses, permits and registrations are not licensed facility specific. This allows the individuals to seek employment at other licensed facilities without having to obtain a new license, permit or registration. Requiring the slot machine licensee to contact the Bureau of Licensing will insure that an individual's license, permit or registration is in good standing.

In § 441a.18 (relating to employee status report), subsection (b) is being amended to require that the monthly status report prepared by the slot machine licensee also include the expiration date of employees who hold a license or a permit. This is being done so that the slot machine licensees can more easily track when renewal applications should be filed by these employees.

In § 441a.19 (relating to notice of employee misconduct and offenses and employee resignations), is being amended to simplify the process for reporting terminations of slot machine licensee employees. Currently, slot machine licensees must report terminations within 5 days. This has resulted in slot machine licensees having

to file multiple reports throughout any given week. By changing to weekly reporting, slot machine licensees will have to make fewer filings and will be less likely to inadvertently fail to report a termination.

In § 441a.22 (relating to Category 1 slot machine licensees), subparagraphs (i) and (ii) in subsection (b)(3) are being amended. Currently, these subparagraphs require the transfer of funds received for purses or health and pension benefits to occur within 36 hours of receipt. However, if the funds are received late in the day prior to a weekend or holiday, slot machine licensees have sometimes not been able to comply with the 36-hour requirement. To remedy this problem, the language in both of these subparagraphs is being changed to require that the transfer of funds be completed by the close of the next business day.

Affected Parties

This proposed rulemaking will affect slot machine licensees, manufacturers, manufacturer designees, suppliers and certified vendors.

Fiscal Impact

Commonwealth

Under this proposed rulemaking, the Bureau of Licensing will have to respond to additional inquiries from slot machine licensees seeking to confirm the status of individuals who were employed at another licensed facility. The Bureau of Licensing will also receive fewer employee termination reports. Neither of these changes is anticipated to have any significant fiscal impact on the Board.

Political Subdivisions

This proposed rulemaking will have no direct fiscal impact on political subdivisions of this Commonwealth.

Private Sector

Slot machine licensees, manufacturers, manufacturer designees, suppliers and certified vendors will have to verify the status of new employees that hold a license, permit or registration. However, the Board intends to allow the verification to be done by telephone or e-mail, so the costs associated with completing these verifications should be minimal.

The change in the timing for slot machine licensees to transfer funds received for purses or health and pension benefits will eliminate the potential for any sanctions related to noncompliance with the existing requirement.

General Public

This proposed rulemaking will have no fiscal impact on the general public.

Paperwork requirements

There will be some reduction in the number of termination reports that will have to be filed by slot machine licensees and reviewed by the Bureau of Licensing.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking, within 30 days after the date of publication in the *Pennsylvania Bulletin* to Richard Sandusky, Director of Regulatory Review, Pennsylvania Gaming Control Board, P. O. Box 69060, Harrisburg, PA 17106-9060, Attention: Public Comment on Regulation No. 125-104.

Contact Person

The contact person for questions about this proposed rulemaking is Richard Sandusky, Director of Regulatory Review at (717) 214-8111.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on June 30, 2009, the Board submitted a copy of this proposed rulemaking and a copy of the Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee. A copy of this material is available to the public upon request and is available on the Board's web site at www.pgcb.state.pa.us.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

[52 PA. CODE CH. 62]

[L-2008-2069114/57-269]

Natural Gas Distribution Companies and the Promotion of Competitive Retail Markets

The Pennsylvania Public Utility Commission (Commission) on March 26, 2009, adopted a proposed rulemaking order which ensures that consumers of natural gas will be able to shop for gas that is marketed on a level playing field for all market participants.

Executive Summary

The purpose of this proposed rulemaking order is to remove barriers to retail competition in the market for natural gas supplies in this Commonwealth. To facilitate the completion of our responsibility under the Natural Gas Choice and Competition Act (Competition Act), 66 Pa.C.S. §§ 2201—2212, the Commission is undertaking this rulemaking proceeding. Section 2204(g) of the Competition Act required the Commission to investigate as to whether there is “effective competition for natural gas supply” 5 years after passage of the Competition Act. If the Commission found there is no effective competition, the Competition Act required it to explore avenues for encouraging increased competition in the Commonwealth. Having found that there is no effective competition in the Commonwealth, the Commission is initiating three different rulemaking proceedings to encourage competition.

This rulemaking addresses issues pertaining to natural gas distribution companies (NGDCs). It does this by requiring NGDCs to remove the effect of certain costs from base rates and to record them as if they were recovered through fuel acquisition costs so that there will be a more accurate price to compare for shoppers. Moreover, the proposed regulations require that NGDCs record and report gas supply costs on a monthly basis so as to provide consumers with more accurate price signals. Rules for programs by which NGDCs purchase the accounts receivables of electric generation suppliers are also included as are rules requiring that the release of interstate pipeline capacity held by NGDCs be nondiscriminatory and at the applicable pipeline rate. NGDCs are also given the opportunity to recover their incremental costs of implementing these rules as well as a direct recovery of the Commissions annual assessments from customers.

Natural Gas Distribution Companies and the Promotion of Competitive Retail Markets; Doc. No. L-2008-2069114

Proposed Rulemaking Order

By the Commission:

The Competition Act was enacted by the Legislature in 1999 with the purpose of restructuring the natural gas industry to allow the retail sale of natural gas in an open market. Based upon our experience to date, we are initiating a rulemaking proceeding to adopt regulations governing the relationships between NGDCs and the Natural Gas Suppliers (NGSs) which sell, or seek to sell natural gas to end users on the NGDC distribution systems. We initiated this rulemaking to comply with the Legislature’s directive, explained below, and to ensure that consumers of natural gas will be able to shop for gas that is marketed on a level playing field for all market participants.

The Competition Act allows individual customers to choose from independent suppliers of gas which are not necessarily affiliated with the local gas utility. Additionally, the Competition Act in section 2204(g), required the Pennsylvania Public Utility Commission (Commission) to initiate a look-back appraisal of how retail competition is progressing after passage of the Competition Act. This investigation was to include participation of all interested parties so that a thorough examination of retail competition might be completed. *Id.*

In October 2006, we issued our *Report to the General Assembly on Pennsylvania’s Retail Natural Gas Supply Market (Report to the General Assembly)*,¹ in which we determined that effective competition did not exist in Pennsylvania’s retail natural gas market. If the Commission found that “effective competition” did not exist, it was to reconvene the stakeholders in the natural gas industry to “explore avenues . . . for encouraging increased competition in this Commonwealth.” *Id.* As the Report to the General Assembly noted:

Based on the factors we have adopted to consider whether “effective competition” exists for purposes of Section 2204(g), these findings support the ultimate conclusion that there is a lack of “effective competition” in Pennsylvania’s retail natural gas supply market at this time.

Report to the General Assembly at 67. We, therefore, convened the Natural Gas Stakeholders Group to explore avenues for increasing competition.

The work and report of that stakeholders’ working group is detailed in our Final Order and Action Plan² (*Action Plan*) issued in September 2008. We concluded that there were a number of steps which we could take to help promote the development of competition in the retail markets for natural gas supply in the Commonwealth. There were three areas in which we believed it was

² *Investigation into the Natural Gas Supply Market: Report on Stakeholders’ Working Group (SEARCH); Action Plan for Increasing Effective Competition in Pennsylvania’s Retail Natural Gas Supply Services Market*, Docket No. L-00040103F0002, Final Order and Action Plan entered September 11, 2008.

appropriate to commence rulemakings to adopt regulations which were consistent with the goal of nurturing a robust retail market for natural gas. *Action Plan* at 7.

Today we address the first of those areas, that relating to NGDCs and their relation to the retail supply market. *Action Plan* at 13-23. There are five issues which address the duties, rights and obligations of NGDCs. They are set forth in Annex A and discussed immediately as follows.

1. Reformulation of the Price to Compare

The Price to Compare (PTC) lies at the heart of retail choice. It is the means by which consumers can judge whether the price offered by an NGS is more or less than the default service rate. We have found that there are two obstacles to market entry, originally identified by suppliers, which impede the growth of the market:

The first barrier involved the costs that are incurred in the acquisition of natural gas supply, but that were excluded from the NGDC's PTC. Because the NGDC's PTC does not include all of the costs of gas supply acquisition, the PTC may present an artificially low price, making it difficult for the NGSs to compete against the NGDCs for customers. *Report to the General Assembly*, p. 60.

The second barrier identified by suppliers was the quarterly adjustment of the PTC pursuant to Section 1307(f). 66 Pa.C.S. § 1307(f). This adjustment creates a lag in recognizing increased gas costs so that consumers are confused as to the actual cost of the natural gas over time, and are lulled into thinking that the PTC is an annual fixed rate. In actuality, the NGDC's PTC represents a variable price with quarterly true-ups. *Report to the General Assembly*, p. 61.

Action Plan at 14.

The proposed regulation in § 62.223 is intended to remove the effect of those natural gas procurement costs now included in NGDC base rates which mask and understate the true cost of the commodity. Eventually, as NGDCs file base rate proceedings under 66 Pa.C.S. § 1308(d), these procurement costs will permanently be removed from base rates. The purpose of this regulation is to make the PTC rate reflect the same type of commodity costs which are incurred and charged to their customers by the NGSs. The more commonality between the elements of the NGDC and NGS natural gas supply costs, the easier it will be for consumers to compare prices and make choices among those offers of natural gas for sale. As much as possible that comparison should be one of apples to apples. This change should help make that so.

Generally, purchase gas cost (PGC) expenses include the cost of the natural gas itself as well as everything spent to get the gas through the interstate pipeline system to the city gate:

[T]he terms "natural gas costs" and "gas costs" include the direct costs paid by a natural gas distribution company for the purchase and the delivery of natural gas to its system in order to supply its customers. Such costs may include costs paid under agreements to purchase natural gas from sellers; costs paid for transporting natural gas to its system; costs paid for natural gas storage service from others, including the costs of injecting and withdrawing natural gas from storage; all charges, fees, taxes and rates paid in connection with such purchases, pipeline gathering, storage and transportation; and costs paid for employing futures, options and other risk

management tools. "Natural gas" and "gas" include natural gas, liquified natural gas, synthetic natural gas and any natural gas substitutes.

66 Pa.C.S. § 1307(h). However, there are elements of gas procurement expense which remain in base rates. We are not going to specify every individual cost which should be removed from base rates. Differences in operations and nomenclature would make such a task unwieldy and risk missing some costs because the specific name was not included. However, it should be obvious that this will apply to all fuel procurement-related costs. This includes, for example, operation and maintenance expense, any procurement-related investment costs, and payroll costs for employees involved in supply acquisition.

By creating the net gas procurement adjustment tariff rider to recognize the amount of procurement costs currently in base rates and moving the impact of these costs along with the PGC costs to the PTC, there will be a more valid comparison between NGDC and NGS rates and, therefore, an accurate PTC. We believe these can be adjusted annually within the context of the section 1307(f) process. Nonetheless, we recognize that these proceedings may require more time, at least initially. Therefore, we will direct that it be filed contemporaneously with the NGDC's section 1307(f) filing, but docketed separately. The two cases may be consolidated for litigation purposes, but the 1307(f) rate, which must be implemented based upon a firm schedule, can go into effect when scheduled without waiting for the conclusion of the determination of the tariff rider.

We shall also require NGDCs to adjust their PGC gas cost monthly, instead of quarterly. We have noted that under the present approach the NGDC gas price does not reflect actual market fluctuations which may be due to changes in weather, the seasons and other factors. *Action Plan* at 16. As a result, it operates as an impediment to making valid comparisons between offers from NGSs and NGDCs. For the PTC to become a meaningful price indicator, it must be adjusted on a timely basis. Monthly adjustments should accomplish this. Therefore, we will suspend and waive the requirement in 52 Pa. Code § 53.64(i)(5) that the PGC be adjusted quarterly and require that it be adjusted on a monthly basis.

This waiver shall be effective for a period of 3 years from the date each NGDC files rates in its first proceeding under 66 Pa.C.S. § 1307(f) after this rule becomes effective. Two years after the rule becomes effective, the Commission shall conduct a review of the retail markets in order to gauge the success of the waiver. This will also allow time to take appropriate action based upon the results of that review before the waiver expires.

2. Purchase of Receivables

NGS commentators have stated that the use of purchase of receivables (POR) "programs can promote efficiencies, reduce costs to consumers and reduce barriers to market entry by alternative natural gas suppliers." *Action Plan* at 17. Some Pennsylvania utilities have POR programs now.³ Moreover, we have recently adopted interim guidelines for voluntary POR programs.⁴ The guidelines were drafted to be consistent with the law and the Commission's policy to promote the use of POR programs to increase supplier participation in the retail natural gas supply market.

³ Columbia Gas of Pennsylvania, PECO Energy Company and Duquesne Light Company.

⁴ *Establishment of Interim Guidelines for Purchase of Receivables (POR) Programs*, Docket Nos. Docket No. M-2008-2068982 and I-00040103F0002, Order entered December 19, 2008.

We are now proposing a regulation in § 62.224 to make permanent rules for the establishment of POR programs. We have substantially adopted the interim guidelines with a few modifications. The programs appear to have worked well for those utilities that are using them now and we are aware it will be some time before these rules reach final approval. As new programs come on line through the guidelines the industry will gain new experience. If need be, we can modify these proposed rules as we find appropriate.

Under the rules, we will require the NGDCs and NGSs to negotiate the parameters of any discount arrangements. We are not going to impose such strictures at this time. Additionally, we will allow NGDCs which agree to share their gains or losses with their customers to include losses, after an appropriate period of time, as part of their uncollectible expense when they next file a base rate case. In the *Action Plan* order, we recognized that POR programs can be beneficial for NGSs and their customers. *Action Plan* at 11-13. The efficiencies created by such programs can be helpful for NGDCs too. Moreover, we are proposing to allow NGDCs to share losses and gains from these programs with their customers. This will make the benefits of the POR programs evident to all participants.

In a departure from the interim guidelines, we will not require NGSs participating in POR programs to use only NGDC consolidated billing services. By forcing NGSs to use the utility's billing system we forbid them to build other nonsupply value added services into the billing program. This could have the effect of stifling innovative products such as demand response, efficiency or green products. Moreover, we are not convinced that more advanced supply products can be billed through existing NGDC billing systems. If that is so, it could stifle innovative supply products.

3. Mandatory Capacity Assignment

We have noted in our *Action Plan* that it might be helpful to the development of the retail markets if the ability of NGDCs to control their capacity on interstate natural gas pipelines were not as strong. *Action Plan* at 18-20. We also were aware that such a change would require a change in the existing law found at 66 Pa.C.S. § 2204(d)—(f). *Id.* Until such a change is made, we have decided to formalize our regulations in harmony with the existing law in order to give both NGDCs and NGSs some guidance and to ensure that requirements that the release, assignment or transfer of capacity by a NGDC shall be on a nondiscriminatory basis and shall be at the applicable contract rate for such capacity. This regulation will be found in § 62.225.

4. NGDC Costs of Competition Related Activities

In our *Action Plan*, we concluded that the NGDCs "should be able to recover *reasonable* costs that are *prudently* incurred in connection with the implementation of any changes designed to promote the development of effective competition in the retail market." *Action Plan* at 21. Such costs also include expenses associated with increasing customer participation in the market such as modifications to NGDC billing systems or increased consumer education activities. *Id.* We determined that we would allow NGDCs to recover these costs through a surcharge with an automatic adjustment mechanism. We are proposing such a mechanism today in § 62.226. However, we note that to the extent it helps promote competition, the surcharge for competition related activities benefits all customers and, therefore, it should be paid by all customers, shoppers and non-shoppers alike.

Because of that, this surcharge should not be considered in the calculation of the price to compare.

5. Regulatory Assessments

We are also creating a surcharge (§ 62.227) to allow NGDCs to recover the cost of their annual regulatory assessments to fund the Commission, Office of Consumer Advocate and Office of Small Business Advocate. *See*, 66 Pa.C.S. § 510, 71 P.S. § 309-4 and 73 P.S. § 399.46. The surcharge would be calculated and adjusted annually. This is similar to how NGDCs recover the state taxes they pay each year. Insofar as the costs of the annual assessments have been collected in base rates in the past, we are directing that the effect of those costs be removed from base rates until such time as the NGDC again files a rate case under 66 Pa.C.S. § 1308(d).⁵

Insofar as all customers have paid these costs in the past, all customers should continue to pay them through the new surcharge. Therefore, it is to be applied to shoppers, non-shoppers and all classes of customers alike. Because of that, this surcharge should not be considered in the calculation of the price to compare.

As we stated in the *Action Plan*:

The Commission is very much aware of consumer concerns about a company's recovery of costs outside of a base rate case. However, the establishment of a surcharge with an automatic adjustment clause that allows for the timely recovery of regulatory assessments which will include costs of the Commission actions to promote and facilitate natural gas competition can be a fair and efficient means to recover costs from stakeholders.

Action Plan at 23.

Accordingly, under section 501 of the Public Utility Code, 66 Pa.C.S. § 501, and the Commonwealth Documents Law, Act of July 31, 1968, P.L. 769, *as amended*, 45 P.S. §§ 1201, *et seq.*, and regulations promulgated thereunder at 1 Pa. Code §§ 7.1—7.4, we propose to add the regulations in §§ 62.221—62.227 as noted previously and as set forth in Annex A; *Therefore*,

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on June 26, 2009, the Commission submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House and Senate Committees (Committees). In addition to submitting the proposed rulemaking, the Commission provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Commission. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to any portion of the proposed rulemaking, it will notify the Commonwealth within 30 days of the close of the public comment period. The notification shall specify the regulatory review criteria that has not been met by the portion of the proposed rulemaking to which an objection is made. The Regulatory Review Act specified detailed procedures for review, prior to final publication of the amendments, by the Commission, the General Assembly and the Governor of objections raised.

It Is Ordered That:

1. The proposed rulemaking at the previous-captioned docket will consider the regulations set forth in Annex A.

⁵ We are making such a requirement for all costs which had been embed in base rates, but will now be collected through a surcharge mechanism as a result of this order.

2. The Secretary shall submit this order and Annex A to the Office of Attorney General for review as to form and legality and to the Governor's Budget Office for review of fiscal impact.

3. The Secretary shall submit this order and Annex A for review and comment to IRRC Review Commission and Legislative Standing Committees.

4. The Secretary shall certify this order and Annex A, and deposit them with the Legislative Reference Bureau to be published in the *Pennsylvania Bulletin*.

5. An original and 15 copies of any comments referencing the docket number of the proposed regulations be submitted within 45 days of publication in the *Pennsylvania Bulletin* to the Pennsylvania Public Utility Commission, Attn: Secretary, P. O. Box 3265, Harrisburg, PA 17105-3265.

6. A copy of this order and Annex A shall be served upon the Energy Association of Pennsylvania, all jurisdictional natural gas utilities, the Office of Trial Staff, the Office of Consumer Advocate and the Office of Small Business Advocate.

Statement of Chairperson Cawley

The *Natural Gas Choice and Competition Act*, 66 Pa.C.S. §§ 2201—2212 (Competition Act), was enacted by the Legislature in 1999 with the purpose of restructuring the natural gas industry to allow the retail sale of natural gas in an open market. Based upon our experience to date, this Commission is initiating a rulemaking proceeding to adopt regulations governing the relationships between Natural Gas Distribution Companies (NGDCs) and the Natural Gas Suppliers (NGSs) which sell, or seek to sell, natural gas to end users on the NGDCs' distribution systems. This rulemaking is being initiated to comply with the Legislature's directive to ensure that consumers of natural gas will be able to shop for gas that is marketed on a level playing field for all market participants.

As part of this rulemaking, we are advancing some relatively broad provisions with regard to capacity release. Being very broad, these regulations may not be sufficiently specific to address every alleged inequity in the allocation of upstream transportation and storage capacity and the costs of this capacity assigned to NGSs that assume the firm service obligations of their retail customers. For this reason, I strongly encourage NGSs that regard existing release capacity provisions in NGDC tariffs as a barrier to retail natural gas competition: (1) to provide specific examples of these barriers in the Pennsylvania retail market; and (2) to suggest alternative regulatory language (to that set forth in Annex A to the Commission's Order) that would resolve these barriers within the bounds of existing legislation, and that would reasonably accommodate the operational constraints of NGDCs.

JAMES H. CAWLEY,
Chairperson

Statement of Vice Chairperson Tyrone J. Christy

Before the Commission for consideration is the initiation of a proposed rulemaking proceeding to promulgate regulations that are designed to encourage increased natural gas supply competition among our jurisdictional Natural Gas Distribution Companies (NGDCs) and li-

censed Natural Gas Suppliers (NGSs). The genesis of this rulemaking is the Commission's *Report to the General Assembly on Pennsylvania's Retail Natural Gas Supply Market* that was released in October 2005. In that report, the Commission determined that effective competition did not exist in Pennsylvania's retail natural gas market, and reconvened the stakeholders in the natural gas industry to identify existing barriers to competition. In our SEARCH Final Order and Action Plan issued on September 11, 2008, the Commission identified several initiatives to eliminate these barriers to competition. The rulemaking before us today, which addresses five specific issues regarding the NGDCs, is the first of these pre-identified initiatives.

I have some specific concerns with certain aspects of this proposed rulemaking that I request parties to consider addressing in their comments, which are due within 45 days of publication in the *Pennsylvania Bulletin*. First, with regard to the Price to Compare, the proposed rulemaking intends to remove natural gas procurement related costs from NGDC base rates and include them within the Price to Compare. The amount of these embedded gas procurement costs would be determined in individual NGDC proceedings held in conjunction with the first purchased gas cost proceeding after the regulations become final. At this time, the Commission is not attempting to identify every individual gas cost that should be removed from base rates. These costs likely will vary from NGDC to NGDC and it may be difficult to reach consensus on this issue. Also, if these costs are not avoidable and are included within the Price to Compare, then they may not be recovered by the NGDCs, potentially resulting in stranded costs. Under this scenario, consumers of the NGDCs who choose not to shop will be paying higher costs to support those customers who do choose to shop.

Furthermore, once the amount of these costs are identified and included within the Price to Compare, the proposed regulations require NGDCs to adjust their Price to Compare on a monthly basis, instead of quarterly. The alleged purpose of the monthly adjustment requirement is that the present approach does not reflect actual market prices and does not allow for meaningful price comparisons between offers from NGSs and the NGDC Price to Compare.

I am inclined to disagree with the proposed requirement to implement monthly NGDC pricing as I question whether it is sound public policy to make SOLR service volatile or "ugly" simply to encourage fixed price offers from competitive natural gas suppliers. I believe that the existing quarterly adjustment process represents a fair compromise between annual and monthly adjustments and should be retained. This allows natural gas consumers to have some period of stability in their gas costs.

However, I have an overriding concern regarding the entire Price to Compare concept, whether it will be adjusted quarterly or monthly. Today, when natural gas customers decide to switch to an alternative supplier, many of these customers have no idea if the offered price will continue to be more attractive than the NGDC's Price to Compare. Simply providing the currently effective Price to Compare does not allow consumers to make informed decisions when considering offers from competitive suppliers. More information is necessary, especially if natural gas customers are exposed to NGS proposals

which require a long term commitment. Consumers need to be provided projected natural gas price forecasts to make informed, educated choices. I request that commenters address whether the Commission should develop a monthly projection of natural gas prices for the ensuing twelve months based upon the best available market information. This information could be posted on our web site and the Commission could require each NGDC to provide this information to its customers on a regular basis. Without this type of information being readily available, consumers will be unaware if the choice they are making today will continue to be the right choice two, four or six months down the road.

Natural gas consumers need to be informed as much as possible in order to make reasoned decisions if the competitive gas market is to succeed. In my opinion, the development of gas price forecasts will help reduce the number of cases where marketers take advantage of uninformed consumers with price offers that in reality cost consumers more than if they simply not had shopped. These gas price forecasts are readily available and should be made available to all natural gas customers.

Another area of concern is the currently effective migration riders, which are not made easily available to consumers. Again, without the knowledge of what it will cost a customer to switch to an alternative supplier, that customer is literally gambling as to what decision to make.

Therefore, I request that commentators address my proposal, or offer other proposals that would better educate and inform Pennsylvania consumers. Because of my disagreement with the proposed monthly adjustments, I will concur in the result only of this proceeding for the purpose of seeking comments from interested parties.

TITLE 52. PUBLIC UTILITIES

PART I. PUBLIC UTILITY COMMISSION

Subpart C. FIXED SERVICE UTILITIES

CHAPTER 62. NATURAL GAS SUPPLY CUSTOMER CHOICE

Subchapter G. NATURAL GAS DISTRIBUTION COMPANIES AND COMPETITION

§ 62.221. Purpose.

To foster a competitive retail marketplace for natural gas service to residential and small commercial customers, it is essential that consumers be able to compare the price of gas purchased from their incumbent NGDCs with that offered for sale by NGSs. This subchapter sets forth a number of regulatory changes which will provide a more level playing field between NGDCs and NGSs and, therefore, promote competition for natural gas supplies.

§ 62.222. Definitions.

The following words and terms, when used in this subchapter, have the following meanings, unless the context clearly indicates otherwise:

Act—66 Pa.C.S. §§ 2201—2212 (relating to Natural Gas Choice and Competition Act).

GPC—*Gas procurement charge*—A mechanism by which the effect of natural gas procurement costs removed from an NGDC’s base rates are recovered.

GPRR—*Gas procurement reduction rate*—An equal off-setting credit to the GPC, billed to all residential and small commercial customers.

NGDC—*Natural gas distribution company*—As defined in section 2202 of the act (relating to definitions).

NGPA—*Net gas procurement adjustment*—A tariff rider designed to create a rate neutral adjustment to currently existing base rates and the PGC rate to develop a reasonable PTC by shifting SOLR costs related to procurement from the base rate cost of distribution to the PTC.

NGS—*Natural gas supplier*—As defined in section 2202 of the act.

Natural gas supply service—The provision of natural gas to end users as defined in § 62.72 (relating to definitions).

PGC—*Purchase gas cost*—Natural gas costs which are collected, with adjustments, by NGDCs from their customers under 66 Pa.C.S. § 1307(f) (relating to sliding scale of rates; adjustments).

POR—*Purchase of receivables*—Program by which an NGDC purchases the accounts receivable of NGSs.

PTC—*Price to compare*—A line item that appears on a retail customer’s monthly bill for SOLR service. The PTC is equal to the sum of all unbundled natural gas costs and natural gas procurement costs-related charges to a default service customer for that month of service.

SOLR—*Supplier of last resort*—A supplier approved by the Commission under section 2207(a) of the act (relating to obligation to serve) to provide natural gas supply services to customers who:

- (i) Contracted for natural gas that was not delivered.
- (ii) Did not select an alternative NGS.
- (iii) Are not eligible to obtain competitive natural gas supply.
- (iv) Return to the supplier of last resort after having obtained competitive natural gas supply.

Small business customer—As defined in § 62.72.

§ 62.223. PTC.

(a) An NGDC shall establish a GPC. The GPC shall be added to the cost of supply rate developed under 66 Pa.C.S. § 1307(f) (relating to sliding scale of rates; adjustments) to create a comparable PTC. The GPC shall be adjusted and reconciled annually in conjunction with the § 1307(f) process to become effective with new PGC rates.

(b) An NGDC shall remove all natural gas procurement costs from its base rates as part of its next filing under 66 Pa.C.S. § 1308(d) (relating to voluntary changes in rates). The expenses shall be recovered through a separate GPC surcharge. The NGDC shall include a proposed tariff rider to establish a GPC within the requirements of 66 Pa.C.S. § 1307 (relating to sliding scale of rates; adjustments).

(c) An NGDC, in its next purchased gas cost filing under 66 Pa.C.S. § 1307(f), shall submit a proposed tariff rider to establish a NGPA within the requirements of 66 Pa.C.S. § 1307.

(d) The NGPA shall be designed to create a rate neutral adjustment to currently existing base rates and

the PGC rate to develop a reasonable PTC by shifting SOLR costs related to procurement from the base rate cost of distribution to the PTC.

(e) The proposed NGPA tariff rider shall establish a GPC on a per MCF/DTH basis to be applied to customers' bills receiving SOLR service for the recovery of gas procurement costs currently recovered through base rates, and a GPRR on a per MCF/DTH basis, as an equal offsetting credit to the GPC, billed to all residential and small commercial customers.

(f) The GPC and NGPA riders must identify:

(1) How the surcharge will be calculated.
(2) Which costs will be recovered through the surcharge by:

(i) Customer class and cost category

(ii) Federal Energy Regulatory Commission account number including the specific sub-accounts used to recover eligible procurement costs.

(g) The NGPA rider shall remain in effect until establishment of new base rates and a PGC rider following a base rate proceeding under 66 Pa.C.S. § 1308(d).

(h) The GPC shall be adjusted monthly.

(i) The GPC shall be subject to audit.

(j) An NGDC shall adjust its PGC monthly.

§ 62.224. POR programs.

(a) *Program design.*

(1) An NGDC may purchase accounts receivable from licensed NGSs which operate on the NGDC system and who wish to sell the receivables.

(2) An NGDC may purchase receivables associated with natural gas supply service charges and may not purchase other receivables that may be incurred by NGSs. The NGS shall certify that charges do not include receivables for any other products or services.

(3) An NGDC may voluntarily purchase NGS accounts receivable at a discount to recover incremental costs associated with POR program development, implementation and administration.

(4) When an NGDC chooses to purchase accounts receivable at a discount, it shall negotiate the discount rate with the NGS on its distribution system.

(i) It shall give fair notice to the NGSs of the time and place of negotiation.

(ii) It shall apply the same discount rate to all accounts receivable it purchases on its system.

(iii) It shall renegotiate the discount rate not less than once every 5 years.

(5) POR programs must include only receivables on residential and small business customer accounts.

(6) When an NGDC purchases accounts receivable from an NGS through a Commission-approved POR program and the accounts receivable are comprised only of charges for basic natural gas supply, the NGDC may terminate service to customers for failure to pay NGS supply charges.

(7) To ensure that an NGDC's affiliated suppliers do not receive an advantage over nonaffiliated suppliers, a POR program shall be designed and implemented in accordance with §§ 62.141 and 62.142 (relating to standards of conduct).

(8) An NGDC POR program shall be included in a supplier coordination tariff, as defined by Commission rules, regulations and orders, and approved by the Commission prior to implementation.

(9) An NGDC may include the difference between its cost of the purchased receivables and the amounts it has actually collected as part of its uncollectible expense in its next base rate case when it agrees to share with its customers the losses or gains associated with POR program collections.

(10) The NGDC shall track its POR program purchases and collections.

(b) *Customer care.*

(1) An NGS shall follow Commission regulations relating to customer service including Chapter 56 (relating to standards and billing standards), §§ 62.71—62.80 (relating to customer information disclosure) and § 62.114 (relating to standards of conduct and disclosure for licensees).

(2) An NGS shall respond to customer complaints regarding rate disputes in not more than 30 days consistent with §§ 56.141, 56.151 and 62.79 (relating to dispute procedures; general rule; and complaint handling process).

(3) An NGDC shall follow 66 Pa.C.S. Chapter 14 (relating to responsible utility customer protection) and Chapter 56 when terminating service to a customer for failure to pay NGS natural gas supply charges purchased under the POR program.

(4) Reconnection of service to NGS customers following termination shall be made in accordance with 66 Pa.C.S. Chapter 14 and applicable regulations in Chapter 56.

(5) An NGDC shall agree to inform all customers that service may be terminated for failure to pay NGS supply charges by a separate bill insert that specifically describes the policy for termination of service.

(6) An enrollment letter issued by an NGDC at the time of selection of the NGS must inform customers that service may be terminated for failure to pay NGS supply charges.

(c) *Satisfaction of the security requirements for licensing.* An NGS's accounts receivable may be used to satisfy in full or in part the security required for licensing as a natural gas supplier.

§ 62.225. Release, assignment or transfer of capacity.

(a) An NGDC holding contracts for firm storage or transportation capacity, including gas supply contracts with Commonwealth producers, or a city natural gas distribution operation, may release, assign or transfer the capacity or Commonwealth supply, in whole or in part, associated with those contracts to licensed NGSs or large commercial or industrial customers on its system.

(1) A release, assignment or transfer shall be made on a nondiscriminatory basis.

(2) A release, assignment or transfer shall be at the applicable contract rate for capacity or Pennsylvania supply and be subject to applicable contractual arrangements and tariffs.

(3) The amount released, assigned or transferred shall be sufficient to serve the level of the customers' requirements for which the NGDC has procured the capacity determined in accordance with the NGDC's tariff or procedures approved in its restructuring proceedings.

§ 62.226. NGDC costs of competition related activities.

(a) As part of its next annual filing under 66 Pa.C.S. § 1307(f) (relating to sliding scale of rates; adjustments), an NGDC may include a proposed tariff rider to establish a nonbypassable reconcilable surcharge filed within the requirements of 66 Pa.C.S. § 1307 designed to recover the reasonable and prudently incurred costs of implementing and promoting natural gas competition within this Commonwealth.

(b) The surcharge shall be calculated annually and adjusted to account for past over- or under-collections in conjunction with the § 1307(f) process to become effective with new PGC rates.

(c) The surcharge shall be recovered on a per unit basis on each unit of commodity which is sold or transported over its distribution system without regard to the customer class of the end user.

(d) Before instituting the surcharge, an NGDC shall remove the amounts attributable to promoting retail competition from its base rates. This may be done through a 66 Pa.C.S. § 1308 (relating to voluntary changes in rates) rate case filed at least 5 years after first seeking recovery through a 66 Pa.C.S. § 1307 nonbypassable mechanism.

(e) Until an NGDC which seeks a nonbypassable recovery of its costs of promoting retail competition files a base rate case under 66 Pa.C.S. § 1308(d), the NGDC shall eliminate the effect of recovery of these costs in base rates though the filing of a credit to its base rates equal to the amount in base rates. This may be established through the filing of a fully allocated cost of service study and a proposed tariff rider in the NGDC's proceeding under 66 Pa.C.S. § 1307(f) to establish a revenue neutral adjustment clause to credit base rates for the costs associated with promoting retail competition that are currently reflected in base rates and to recover fully those costs through a nonbypassable reconcilable surcharge. The credit and surcharge shall be adjusted at least annually through the 66 Pa.C.S. § 1307(f) process.

(f) The revenue neutral adjustment clause rider shall remain in effect until establishment of new base rates under 66 Pa.C.S. § 1308(d) which include a fully allocated cost of service study to remove these costs from base rates.

(g) The surcharge shall be subject to audit.

§ 62.227. Regulatory assessments.

(a) As part of its next annual filing under 66 Pa.C.S. § 1307(f) (relating to sliding scale of rates; adjustments), an NGDC shall include a proposed tariff rider to establish a nonbypassable reconcilable surcharge filed within the requirements of 66 Pa.C.S. § 1307 designed to recover the NGDC regulatory assessment payments made under to 66 Pa.C.S. § 510 (relating to assessment for regulatory expenses upon public utilities).

(b) The surcharge shall be calculated annually and include costs associated with regulatory assessments for the Commission in 66 Pa.C.S. § 510, the Office of Consumer Advocate under section 904-A.1 of The Administrative Code of 1929 (71 P.S. § 309-4.1) regarding assessment upon public utilities, disposition, appropriation and disbursement of the assessments, and the Office of Small Business Advocate under section 6 of the Small Business Advocate Act (73 P.S. § 399.46) regarding assessment upon public utilities; disposition, appropriation and dis-

bursement of the assessments. The NGDC shall include the following in its annual filing:

(1) Copies of its most recent annual bills for the Commission for each assessment.

(2) Copies of adjusted bills or refunds received since its prior filing.

(3) Proof of payment of each bill.

(c) The surcharge shall be recovered on a per unit basis on each unit of commodity which is sold or transported over its distribution system without regard to the customer class of the end user.

(d) The surcharge shall be adjusted annually to account for past over- or under-collections in conjunction with the § 1307(f) process to become effective with new PGC rates.

(e) Before instituting the surcharge, an NGDC shall remove the amounts attributable to the regulatory assessments from its base rates. This may be done through a 66 Pa.C.S. § 1308 (relating to voluntary changes in rates) rate case filed at least 5 years after first seeking recovery through a 66 Pa.C.S. § 1307 nonbypassable mechanism.

(f) Until an NGDC which seeks a nonbypassable recovery of its regulatory assessments files a base rate case under 66 Pa.C.S. § 1308(d), the NGDC shall eliminate the effect of recovery of assessment payments in base rates though the filing of a credit to its base rates equal to the amount of assessment costs in base rates. This may be established through a fully allocated cost of service study and a proposed tariff rider in the NGDC's next proceeding under 66 Pa.C.S. § 1307(f) to establish a revenue neutral adjustment clause to credit base rates for the assessment costs reflected in rates and to recover fully those assessment costs through a nonbypassable reconcilable surcharge. The credit and surcharge shall be adjusted at least annually through the 66 Pa.C.S. § 1307(f) process.

(g) The revenue neutral adjustment clause rider shall remain in effect until establishment of new base rates under 66 Pa.C.S. § 1308(d) which include a fully allocated cost of service study to remove these costs from base rates.

(h) The surcharge shall be subject to audit.

SUSQUEHANNA RIVER BASIN COMMISSION

[25 PA. CODE CHS. 806 AND 808]

Amendments to Project Review Regulations

Summary: This document contains proposed rules that would amend project review regulations to include provisions specifically requiring Susquehanna River Basin Commission (Commission) approval of projects undergoing Federal Energy Regulatory Commission (FERC) and Nuclear Regulatory Commission (NRC) licensing actions that affect the basin's water resources; restricting the use of docket reopening petitions to avoid abuses of process; amending the "Approval by Rule" (ABR) process to standardize ABR notice procedures and allow for project sponsors to utilize approved water sources at approved

drilling pad sites without the need for modification of the ABR; clarifying that the public hearing requirement for rulemaking shall be applicable to the proposed rulemaking stage of that process; and further providing for the time period within which administrative appeals must be filed.

Dates: Comments on these proposed rules may be submitted to the Commission on or before August 15, 2009. The Commission has scheduled two public hearings on the proposed rules, to be held August 4, 2009, in Harrisburg, PA, and August 5, 2009, in Elmira, NY. The locations of the public hearings are listed in the addresses section of this document. Additionally, individuals wishing to testify are asked to notify the Commission in advance, if possible, at the regular or electronic addresses given.

Addresses: Comments may be mailed to Richard A. Cairo, Susquehanna River Basin Commission, 1721 North Front Street, Harrisburg, PA 17102-2391 or email to rcairo@srbc.net.

The public hearings will be held on Tuesday, August 4, 2009, at 10 a.m., at the Rachel Carson State Office Building, 400 Market Street, Harrisburg, PA 17101, and Wednesday, August 5, 2009, at 7 p.m., at the Holiday Inn—Elmira Riverview, 760 East Water Street, Elmira, NY 14901. Those wishing to testify are asked to notify the Commission in advance, if possible, at the regular or electronic addresses given.

For Further Information Contact: Richard A. Cairo, General Counsel, (717) 238-0423, Ext. 306, fax (717) 238-2436, rcairo@srbc.net. Also, for further information on the proposed rulemaking, visit the Commission’s web site at www.srbc.net.

Supplementary information:

Background and Purpose of Amendments:

The Commission adopted final-form rulemaking on December 5, 2006, published at 71 FR 78570, December 29, 2006, establishing: (1) the scope and procedures for review and approval of projects under section 3.10 of the Susquehanna River Basin Compact, Pub. L. No. 91-575; 83 Stat. 1509 et seq. (the compact); (2) special standards under section 3.4(2) of the compact governing water withdrawals, consumptive use of water; diversions of the basin’s waters, water conservation and water use registration; and (3) procedures for hearings, administrative appeals, and enforcement actions.

18 CFR 806.4(a) contains broad authority for the review and approval of water resources projects by the Commission, including projects on or crossing the boundary between two member states, projects in a member state having a significant effect on the water resources in another member state, and projects affecting the Commission’s comprehensive plan. Nevertheless, there is no express provision in § 806.4 specifically requiring that projects affecting the water resources of the basin and undergoing licensing actions by the FERC or the NRC be approved by the Commission, although that is its current practice. To remove any uncertainty regarding the need for approval of such projects, the Commission proposes to insert language covering certain projects involved in FERC and NRC licensing procedures.

18 CFR 806.22(f), which was adopted by the Commission as a final rule on December 4, 2008, and published in the *Federal Register* on December 23, 2008, at p. 78618, provides an ABR procedure for consumptive use related to natural gas well development that is separate from the pre-existing ABR process for projects supplied by

public water systems, which is contained in 18 CFR 806.22(e). The Commission proposes to modify the public notice provisions related to both ABR provisions to make them consistent, and simplify the administration of the natural gas ABR procedure to allow project sponsors to utilize all approved sources at any approved drilling pad site without the need to register its own water source approvals or the need to modify each ABR issued for subsequently issued approvals. It also would allow for registration of other approved sources to allow for use at the project sponsor’s approved drilling pad sites.

18 CFR 806.32 allows for the reopening of a project approval upon the motion of the Commission, or upon application of the project sponsor or any interested party for the purpose of making additional orders that may be necessary to mitigate or avoid adverse impacts or otherwise protect the public health, safety and welfare or water resources. In two recent cases, interested parties whose § 808.2 administrative appeals were denied, then attempted to use § 806.32 to obtain administrative review of the same matter. The Commission believes that one administrative proceeding seeking relief on a particular issue is sufficient. Therefore the Commission proposes to amend § 806.32 to limit the filing of a petition to reopen where the matter has already been considered by the Commission in an administrative appeal proceeding under § 808.2.

18 CFR 808.1 sets forth the public hearing requirements for various commission actions, including rulemaking. It is the practice of the Commission to meet this public hearing requirement at the proposed rulemaking stage. However, the current regulation does not make this intent clear, referring only to “rulemaking.” To clarify the rule and make it consistent with the Commission’s current practice, new language is added to § 808.1(a)(2) and (c).

Finally, 18 CFR 808.2 9(a) specifies that an administrative appeal shall be filed within 30 days of the action or decision of the Commission or Executive Director. In the case of appeals of project approvals, however, the Commission believes that due process safeguards require that the appeal period run from the time constructive notice of the action is given by the Commission for aggrieved persons other than the project sponsor. Therefore, the Commission proposes to amend this provision to allow an appeal period of 30 days from the date a notice of a project approval appears in the *Federal Register*. For project sponsors, the 30 day appeal period would run from the date of receipt of actual notice.

List of subjects in 18 CFR Parts 806 and 808: Administrative practice and procedure, Water resources.

Accordingly, for the reasons set forth in the preamble, the Susquehanna River Basin Commission proposes to amend 18 CFR Parts 806 and 808 as follows:

PART 806—REVIEW AND APPROVAL OF PROJECTS

Subpart C—Standards for Review and Approval

1. The authority citation for Part 806 continues to read as follows:

Authority: Secs. 3.4, 3.5(5), 3.8, 3.10 and 15.2, Pub. L. No. 91-575, 84 Stat. 1509 et seq.

2. In § 806.4, revise paragraph (a) to read as follows:

§ 806.4—Projects requiring review and approval.

(a) * * *

* * * * *

(7) Any hydroelectric project regulated by the United States Federal Energy Regulatory Commission and initiating a licensing or license amendment process pursuant to 18 CFR Part 4 that may affect the water resources of the basin.

(8) Any nuclear power project regulated by the United States Nuclear Regulatory Commission and initiating a licensing, renewal, license amendment or license uprate process pursuant to 10 CFR Part 55 that may affect the water resources of the basin.

(9) Any other project so determined by the Commissioners or Executive Director pursuant to § 806.5 or 18 CFR part 801. Such project sponsors shall be notified in writing by the Executive Director.

* * * * *

2. In § 806.22, revise paragraphs (e) and (f) to read as follows:

§ 806.22—Standards for consumptive use of water.

* * * * *

(e) * * *

(1) * * *

(i) * * *

(B) Send a copy of the NOI to the appropriate agencies of the member state, and to each municipality and county in which the project is located. The project sponsor shall submit a copy of the United States Postal Service return receipt, or other proof of service acceptable to the Commission, for such notifications within 10 days of submittal of the NOI.

(ii) Within 10 days after submittal of an NOI under paragraph (e)(1)(i) of this section, the project sponsor shall submit to the Commission proof of publication in a newspaper of general circulation in the location of the project, a display ad notice of its intent to operate under an approval by rule, which contains a sufficient description of the project, its purpose, the proposed public water supply source(s), the requested consumptive use amount and its location. This notice shall also contain the address, electronic mail address and telephone number of the Commission. The Commission may further prescribe the form and manner of such notice.

* * * * *

(f) * * *

(2) Notification of Intent: Prior to undertaking a project or increasing a previously approved quantity of consumptive use, the project sponsor shall submit a Notice of Intent (NOI) on forms prescribed by the Commission, and the appropriate fee, along with any required attachments. The project sponsor shall send a copy of the NOI to the appropriate agencies of the member state, and to each municipality and county in which the project is located. The project sponsor shall submit a copy of the United States Postal Service return receipt, or other proof of service acceptable to the Commission, for such notifications within 10 days of submittal of the NOI.

(3) Within 10 days after submittal of an NOI under paragraph (f)(2) of this section, the project sponsor shall submit to the Commission proof of publication in a newspaper of general circulation in the location of the project of a display ad notice of its intent to operate under an approval by rule, which contains a sufficient description of the project, its purpose, any new proposed water source(s), the requested consumptive use amount and its location. This notice shall also contain the address,

electronic mail address and telephone number of the Commission. The Commission may further prescribe the form and manner of such notice.

* * * * *

(11) A project sponsor issued an approval by rule pursuant to paragraph (f)(9) of this section may utilize any water source approved for use by the project sponsor for natural gas well development pursuant to § 806.4 or this section, at the applicable drilling pad site subject to any approval or authorization required by the member state to utilize such source(s).

(12) The following additional sources of water may be utilized by a project sponsor in conjunction with an approval by rule issued pursuant to paragraph (f)(9) of this section:

(i) Water withdrawals or diversions approved by the Commission pursuant to § 806.4 (a) and issued to persons other than the project sponsor, provided any such source is approved for use in natural gas well development, the project sponsor has an agreement for its use, and at least 10 days prior to use, the project sponsor registers such source with the Commission on a form and in a manner as prescribed by the Commission, and provides a copy of same to the appropriate agency of the member state.

(ii) Sources of water other than those subject to paragraph (f)(12)(i) of this section, including, but not limited to, public water supply, wastewater discharge or other reclaimed waters, provided such sources are first approved by the Executive Director pursuant to this section. Any request to utilize such source(s) shall be submitted on a form and in a manner as prescribed by the Commission, and shall be subject to review pursuant to the standards set forth in subpart C of this part. Any approval issued hereunder shall be further subject to any approval or authorization required by the member state to utilize such source(s). The notice requirements related to agencies of member states, municipalities and counties contained in paragraph (f)(2) of this section, and the notice requirements contained in paragraph (f)(3) of this section, shall likewise be applicable to any request submitted hereunder.

Subpart D—Terms and Conditions of Approval

3. In § 806.32, revise paragraph (a) to read as follows:

§ 806.32—Reopening/modification.

(a) Once a project is approved, the Commission, upon its own motion, or upon petition of the project sponsor or any interested party, may at any time reopen any project approval and make additional orders or otherwise modify or impose such additional conditions that may be necessary to mitigate or avoid adverse impacts or to otherwise protect the public health, safety, and welfare or water resources. Whenever a petition for reopening is filed by an interested party, the burden shall be upon that interested party to show, by a preponderance of the evidence, that a significant adverse impact or a threat to the public health, safety and welfare or water resources exists that warrants reopening of the docket. Notwithstanding the foregoing, any petition filed by a party who previously sought the same or similar relief identified in the petition pursuant to the administrative appeals process under § 808.2 will not be eligible for consideration by the Commission absent new facts not known or readily discernable at the time of consideration of the petitioner's previous request for administrative appeal filed pursuant to § 808.2.

* * * * *

PART 808—HEARINGS AND ENFORCEMENT ACTIONS

Subpart A—Conduct of Hearings

4. The authority citation for Part 808 continues to read as follows:

Authority: Secs. 3.4, 3.5(5), 3.8, 3.10 and 15.2, Pub. L. No. 91-575, 84 Stat. 1509 et seq.

5. In § 808.1, revise paragraphs (a) and (c) to read as follows:

§ 808.1—Public hearings.

(a) * * *

(2) Proposed rulemaking.

* * * * *

(c) Notice of public hearing. At least 20 days before any public hearing required by the compact, notices stating the date, time, place and purpose of the hearing including issues of interest to the Commission shall be published at least once in a newspaper of general circulation in the area affected. Occasions when public hearings are required by the compact include, but are not limited to, amendments to the comprehensive plan, drought emergency declarations, and review and approval of diversions. In all other cases, at least 10 days prior to the hearing, notice shall be posted at the office of the Commission (or on the Commission web site), mailed by first class mail to the parties who, to the Commission's knowledge, will participate in the hearing, and mailed by first class mail to persons, organizations and news media who have made requests to the Commission for notices of hearings or of a particular hearing. With regard to rulemaking, the Commission shall convene at least one public hearing on any proposed rulemaking it approves for public review and comment. For any such hearing(s), notices need only be forwarded to the directors of the *New York Register*, the *Pennsylvania Bulletin*, the *Maryland Register* and the *Federal Register*, and it is sufficient that this notice appear only in the *Federal Register* at least 20 days prior to the hearing and in each individual state publication at least 10 days prior to any hearing scheduled in that state.

6. In § 808.2, revise paragraph (a) to read as follows:
§ 808.2—Administrative appeals.

(a) A project sponsor or other person aggrieved by any action or decision of the Commission or Executive Director may file a written appeal requesting a hearing. Except with respect to project approvals or denials, such appeal shall be filed with the Commission within 30 days of the action or decision. In the case of a project approval or denial, such appeal shall be filed by a project sponsor within 30 days of receipt of actual notice, and by all others within 30 days of publication of notice of the action taken on the project in the *Federal Register*.

DEPARTMENT OF ENVIRONMENTAL PROTECTION**Applications, Actions and Special Notices****APPLICATIONS**

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT
APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION
SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM)
PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PA0011070, Industrial Waste, SIC 2521 and 2222, **Knoll, Inc.**, 1235 Water Street, P. O. Box 157, East Greenville, PA 18041. This facility is located in Upper Hanover Township, **Montgomery County**.

The application is for renewal of a NPDES permit to discharge 400 gpd of treated process water (MP 101), 40,000 gpd of treated sewage wastewater (MP 201), and 31,100 gpd of noncontact cooling water (MP 301) from Outfall 001 of the Knoll, Inc., facility located in Upper Hanover Township, Montgomery County. This is an existing discharge to Perkiomen Creek. At the point of discharge, Perkiomen Creek is in the State Water Plan 3E and is classified for T5F. The facility has two stormwater outfalls, namely 002 and 003. Outfall 002 receives stormwater from Fabrication Building areas, while Outfall 003 receives stormwater from Lubin Building areas. Outfall 003 also receives, in an emergency, 21,500 gpd of noncontact cooling water (MP103) from Lubin Building areas. Both of these outfalls discharge into Perkiomen Creek adjacent to Outfall 001.

The proposed effluent limits for Outfall 001 are based on an average flow of 71,500 gpd:

* This permit contains special conditions pertaining to Chesapeake Bay Nutrient Requirements. Part C Special Condition Number Six establishes Annual Mass Load Effluent Limitations for Total Net Nitrogen and Total Net Phosphorus of 66,483 ppy and 8,310 ppy, respectively. Part C Special Condition Number Seven establishes a compliance schedule for the Nitrogen and Phosphorus effluent limitations. The compliance schedule requires certification of substantial completion (plant fully operational) by July 21, 2014, and compliance with the Net Total Nitrogen and Net Total Phosphorus effluent limitations by September 30, 2016.

* This permit contains conditions which authorize the permittee to apply nutrient reduction credits to meet the Net Total Nitrogen and the Net Total Phosphorus effluent mass limits, under the Department of Environmental Protection's (Department) Trading of Nutrients and Sediment Reduction Credits Policy and Guidelines (Document No. 392-0900-001, December 30, 2006). The condition includes the requirement to report the application of these credits in Supplemental Discharge Monitoring Reports (DMRs) submitted to the Department.

In addition to the effluent limits, the permit contains the following major special conditions:

1. Whole Effluent Toxicity (WETT) requirement.
2. Chesapeake Bay Nutrient Requirements.

** Total Annual Ammonia load will be required to be reported on the Supplemental DMR—Annual Nutrient Summary.

Application No. PA 0038415, Sewage, **East Pennsboro Township**, 98 South Enola Drive, Enola, PA 17025. This facility is located in East Pennsboro Township, **Cumberland County**.

Description of activity: The application is for amendment of an NPDES permit for an existing discharge of treated sewage.

The receiving stream, Conodoguinet Creek, is in Watershed 7-B, and classified for WWF, water supply, recreation and fish consumption. The nearest downstream public water supply intake for Steelton Municipal Waterworks is located on the Susquehanna River, approximately 3.85 miles downstream. The discharge is not expected to affect the water supply.

The proposed permit amendment revises the interim milestone dates in the schedule for complying with the Chesapeake Bay nutrient cap loads, and clarifies the effective date for compliance with the cap loads. The final date for complying with the nutrient cap loads has not been amended.

Persons may make an appointment to review the Department of Environmental Protection's files on this case by calling the file review coordinator at (717) 705-4732.

Description of Proposed Activity: The applicant requests renewal of an NPDES permit for the discharge of treated sewage from a sewage treatment plant serving a utility maintenance center. Treatment consists of a septic tank, surface sand filter, phosphorus treatment and chlorine tablet disinfection.

For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride, phenolics, sulfate and chloride, there is no downstream potable water supply to consider before the discharge reaches Lake Erie.

The receiving stream, UNT to Elk Creek, is in Watershed 15 and classified for: CWF, MF.

Description of Proposed Activity: Renewal of an existing discharge of treated sewage and oil and gas production wastewater from an indirect discharge.

For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride, phenolics, sulfate and chloride, the existing/proposed downstream potable water supply, considered during the evaluation is the Beaver Falls Municipal Authority-Eastvale intake located on the Beaver River and is approximately 15 miles below point of discharge.

The receiving stream, the Mahoning River, is in Watershed 20-A and classified for: WWF, aquatic life, water supply and recreation.

The proposed effluent limits for Outfall 001 are based on a design flow of 17 mgd.

III. WQM Industrial Waste and Sewerage Applications under The Clean Streams Law (35 P. S. §§ 691.1—691.1001)

Greensburg District Mining Office: Armbrust Professional Center, 8205 Route 819, Greensburg, PA 15601, (724) 925-5500.

PA0251674 submitted by **Purco Coal, Inc.**, 22 Van Voorhis Lane, Monongahela, PA 15063, (724) 258-4749. The proposed treatment facilities and discharge point will be located at the site of the former Watkiss Mine in Stewart Township, **Fayette County**.

Description of proposed activity: To construct treatment facilities for mine drainage that emanates from a reclaimed strip mine, known as the Watkiss Mine, which has degraded a UNT to Jonathan Run, designated as an EV stream. The applicant proposes to collect and treat the acid mine drainage prior to discharge at a point along the headwaters to the UNT to Jonathan Run (Latitude: 39° 52' 48.3503"; Longitude: 79° 33' 10.2581").

A potable water supply is located about 5 miles downstream of the discharge along the Youghiogheny River.

After evaluating the costs and environmental impacts of possible nondischarge alternatives, the Department of Environmental Protection (Department) has tentatively decided to issue a permit authorizing the discharge because collection and treatment will improve the water quality of the receiving stream.

Because the receiving stream has been degraded, the Department determined effluent limitations based on instream water chemistry from a reference reach of stream that was upgradient of any mining activities, drained a similar geology as the receiving stream, and for which there was instream water quality data available. As a reference reach, the Department used monitoring data from the upper reaches of a UNT to Cucumber Run. Based on this information, the Department developed the following proposed final effluent limitations:

<i>Parameter</i>	<i>TSS</i>	<i>Aluminum</i>	<i>Iron</i>	<i>Manganese</i>
Concentration	Mg/l	mg/L	mg/l	mg/l
Average Monthly	35	0.23	0.05	0.10
Maximum Daily	70	0.46	0.10	0.20
Instantaneous Maximum	90	0.58	0.13	0.25

Alkalinity must exceed Acidity; pH > 6 and < 9

Because it is unlikely that the proposed treatment system will achieve compliance with all of the proposed effluent limitations, the Department intends to enter into an enforceable agreement that will establish interim effluent limitations and a compliance schedule that will periodically review available cost-effective and environmentally sound technologies to improve treatment of the mine drainage.

Any interested persons may submit comments within 30 days after publication of this notice to the Department. The period for comment may be extended at the discretion of the Department. The Department will hold a public hearing upon the written request of an interested person prior to termination of the public comment period. The request for public hearing should indicate the interest of the party filing the request and the reasons for requesting a hearing.

PERMITS FOR CONCENTRATED ANIMAL FEEDING OPERATIONS (CAFO)**

This notice provides information about agricultural operations that have submitted nutrient management plans (NMPs) for approval under the act of July 6, 2005 (Act 38 of 2005, 3 Pa.C.S. §§ 501—522) (hereinafter referred to as Act 38), and that have or anticipate submitting applications for new, amended or renewed NPDES permits, or Notices of Intent (NOIs) for coverage under a general permit, for CAFOs, under 25 Pa. Code Chapter 92. This notice is provided in accordance with 25 Pa. Code Chapter 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

Based upon preliminary reviews, the State Conservation Commission (SCC), or County Conservation Districts (CCD) working under a delegation agreement with the SCC, have completed an administrative review of NMPs described. These NMPs are published as proposed plans for comment prior to taking final actions. The NMPs are available for review at the CCD office for the county where the agricultural operation is located. A list of CCD office locations is available at www.pacd.org/districts/directory.htm or can be obtained from the SCC at the office address listed or by calling (717) 787-8821.

Persons wishing to comment on an NMP are invited to submit a statement outlining their comments on the plan to the CCD, with a copy to the SCC for each NMP, within 30 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the NMPs. Comments should include the name, address and telephone number of the writer and a concise statement to inform the SCC of the exact basis of the comments and the relevant facts upon which they are based.

The address for the SCC is Agriculture Building, Room 407, 2301 North Cameron Street, Harrisburg, PA 17110.

Persons with a disability who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information should contact the SCC through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PERMIT**

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on a permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within the 30-day comment period will be considered in the formulation of the final determinations regarding the application. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of Environmental Protection (Department) of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration

of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and are available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability who require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is pub-

lished in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northeast Region: Ronald S. Brezinski, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Former Reinhard Elementary School, 309—315 Northampton Street, Hellertown Borough, Northampton County.

Christopher T. Kotch, Barry Isett & Associates, Inc., P. O. Box 147, 85 South Route 100 and Kressler Lane, Trexlertown, PA 18087 has submitted a Notice of Intent to Remediate (on behalf of his client, Hellertown Borough, 685 Main Street, Hellertown, PA 18041), concerning the remediation of soil found to have been impacted by No. 2 fuel oil as a result of a release from a 6,000-gallon underground storage tank during the tank removal process. The applicant proposes to remediate the site to meet the Statewide Health Standard. The exact future use of the property is as yet unknown. A summary of the Notice of Intent to Remediate is expected to be published in a local newspaper serving the general area sometime in the near future.

(USRI) facility, a municipal waste transfer facility located at 6101 Tacony Street in the City of Philadelphia. The revised application was submitted under a stipulation and agreement entered into between the Department of Environmental Protection and USRI, which resulted in the May 28, 2009, dismissal of USRI's appeal filed before the Environmental Hearing Board, Docket No. 2008-231-L. The revised application was received by the Southeast Regional Office on June 2, 2009.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all

the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, M. Gorog and B. Hatch, Environmental Engineer Managers, (412) 442-4163/5226.

30-00055A: Shannopin Materials, LLC (304 Dents Run Road, Morgantown, WV 26501) for installation of a limestone and coal transportation terminal and coal-slurry processing plant at the former Shannopin Mining Company, Inc., coal preparation plant in Monongahela Township, **Greene County**.

32-00375B: Rosebud Mining Co. (301 Market Street, Indiana, PA 16201-9642) an application for a plan approval to increase production of the coal preparation plant at the Lowry Mine in White Township, **Indiana County**.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, George Monasky, New Source Review Chief, (814) 332-6940.

25-035B: Molded Fiber Glass (55 Fourth Avenue, Union City, PA 16438) for installation of two reaction injection molding presses at their facility in Union City Borough, **Erie County**. This is a Title V facility.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, William R. Weaver, New Source Review Chief, (717) 705-4702.

06-05079E: United Corrstack, LLC (720 Laurel Street, Reading, PA 19602) for construction of a 482 mmBtu/hr circulating fluidized bed boiler and a 30 MW steam turbine in the City of Reading, **Berks County**. This plan approval is to modify certain conditions in previously approved Plan Approval 06-05079D. The boiler is being constructed adjacent to the company's existing plant.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, George Monasky, New Source Review Chief, (814) 332-6940.

25-053E: Urick Foundry Co. (1501 Cherry Street, Erie, PA 16502) for construction for the modernization of the sand cooling system at their foundry which includes construction of a larger rotary shakeout drum and multi-cooler and installation of three new baghouses to replace an existing baghouse in Erie City, **Erie County**. This is an onlot facility. The public notice is required for sources required to obtain a Plan Approval in accordance with 25 Pa. Code § 127.44. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the onlot operating permit through an administrative amendment at a later date. The source shall comply with the following conditions, which will satisfy the requirements of 25 Pa. Code § 127.12b (pertaining to plan approval terms and conditions) and will demonstrate BAT for the source:

- Source 206, 207, 208, 209A and 210:
- Subject to 25 Pa. Code § 123.21.
- Emissions shall comply with 25 Pa. Code §§ 123.1 and 123.31 for fugitive and odor emissions respectively.
- No person may permit the emission into the outdoor atmosphere of filterable particulate matter (FPM) in a manner that the concentration of filterable PM in the effluent gas exceeds 0.01 gr/dscf.
- Stack test for FPM.
- A broken bag detector shall be maintained in good working order, to monitor the condition of the fabric collector associated with this source. This detector system shall automatically alert the operator of a problem with the control device.
- A magnehelic gauge or equivalent shall be maintained and operated to monitor the pressure differential across the baghouse.
- The permittee shall maintain a record of all preventive maintenance inspections of the control devices. The records of the maintenance inspections shall include, at a

minimum, the dates of the inspections, the name of the person performing the inspection, any problems or defects identified, any actions taken to correct the problems or defects, record of any bag/cartridge replacement, any mechanical repairs and/or adjustments, the date and time of any alarms sounded to indicate a problem with the control device with the corrective action taken, and any routine maintenance performed.

- The permittee shall record the following from the operational inspections of the baghouse (these records may be done with strip charts recorders, data acquisition systems or manual log entries):
 - Pressure differential—daily defined as once per calendar day.
 - The permittee shall perform a daily operational inspection of the control device.
 - The permittee shall perform weekly maintenance inspections of the control device.
 - The permittee shall maintain and operate a magnehelic gauge or similar device to measure the pressure drop across the control device. All gauges employed shall have a scale such that the expected normal reading shall be no less than 20% of full scale and be accurate within +/- 2% of full scale reading.
 - Control device operating parameters, including pressure drop, shall be operated in a range defined by the manufacturer or in a range developed during compliant stack testing. The pressure drop range shall be determined within 90 days after startup of the control device and shall be indicated to the Department in writing prior to administratively amending into the facility operating permit. The pressure drop range shall be made part of the facility operating permit.
 - The permittee shall keep on hand, for emergency replacement, 25% of the total number of filter elements used for the control device.
 - The permittee shall operate the control device at all times that the source is in operation.
 - The permittee shall maintain and operate the source and control device in accordance with the manufacturer's specifications and in accordance with good air pollution control practices.
 - VOC emissions from Source 206 shall not exceed 0.005 ppt of metal inoculated.
 - VOC emissions from Source 208 shall not exceed 1.2 ppt of castings processes.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter G.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, Muhammad Zaman, Facilities Permitting Chief, (570) 327-0512.

41-00002: Koppers, Inc. (P. O. Box 189, Montgomery, PA 17750-0189) for renewal of the Title V Operating Permit for their facility in Clinton Township, **Lycoming County**. The facility's sources include one creosote wood waste-fired boiler controlled by a multi-clone collector and electrostatic precipitator, one gasoline-fired water pump, one storage tank, one fuel feeding system controlled by a fabric collector and one diesel-fired emergency generator, which have the potential to emit major quantities of NOx, CO and SOx. The facility has the potential to emit, VOCs,

VHAPs, PM/PM10 and below the major emission thresholds. The creosote wood waste-fired boiler (Source ID 031) is subject to the Standards of Performance for New Stationary Sources, 40 CFR Part 60 Subpart Db, Section 60.40b—60.48b. In addition, the creosote wood waste-fired boiler is subject to Compliance Assurance Monitoring requirements of 40 CFR Part 64. The facility is subject to the Reasonably Available Control Technology requirements of 25 Pa. Code §§ 129.91—129.95 for NOx emissions. The proposed Title V Operating Permit renewal contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

Intent to Issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter F.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19428, Janine Tulloch-Reid, Facilities Permitting Chief, (484) 250-5920.

23-00035: Community Light and Sound, Inc. (333 East 5th Street, Chester, PA 19013-4511) for renewal of a non-Title V, State-only, Synthetic Minor Permit in Chester City, **Delaware County**. Community Light and Sound is a manufacturer of household audio and video equipment. The facility has taken site level restriction limits of 24.9 tpy for VOC's and 9.9 tpy for any single HAP and 24.9 tpy for combined HAPs. The restrictions will ensure that Community Light and Sound remains under the emission thresholds. Monitoring, recordkeeping and reporting requirements have been added to the permit to address applicable limitations.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, William R. Weaver, New Source Review Chief, (717) 705-4702.

36-03019: Flury Foundry (1160 Elizabeth Avenue, Lancaster, PA 17601) for the foundry operations in the City of Lancaster, **Lancaster County**. This is a renewal of the State-only operating permit issued in 2004.

34-03007: Dominion Transmission, Inc.—Perulack Compressor Station (445 West Main Street, Clarksburg, WV 26301) for natural gas fired 4,735 bhp engine driven gas compressors and 814 bhp auxiliary generator in Lack Township, **Juniata County**. The primary emissions from the sources are NOx with potential to emit 66 tons of NOx per year. The sources are controlled with a low NOx combustion system. This operating permit will incorporate Plan Approval No. 34-03007A.

38-03012: Sheridan Supply Co., Inc. (7 Furnace Road, Newmanstown, PA 17073) for operation of a crushing facility in Millcreek Township, **Lebanon County**. This is a renewal of the State-only operating permit issued in June 2004.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, David Aldenderfer, Program Manager, (570) 327-3637.

12-00011: Micron Research Corp. (P. O. Box 269, Emporium, PA 15834) for their carbon graphite manufacturing operation in Shippen Township, **Cameron County**. The facility's main sources include mixing operation, five natural gas-fired carbon bake furnaces, ten electric induction furnaces and various crushing, milling and screening sources. The facility has the potential to emit PM10, NOx, CO, VOCs, combined and individual HAPs and SOx emissions below the major thresholds. The

proposed operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

19-00031: Press Enterprise, Inc. (3185 Lackawanna Avenue, Bloomsburg, PA 17815) for issuance of a State-only operating permit for operation of their facility in Scott Township, **Columbia County**. The facility's main sources include two 8-color heatset web offset lithographic printing presses, each incorporating two natural gas-fired dryers, two 8-color nonheatset web offset lithographic printing presses, two remote reservoir cold cleaning machines, an 80 kilowatt natural gas-fired emergency generator and five natural gas-fired space heaters (with a total combined heat input of 0.65 mmBtu/hr). The facility has the potential to emit SOx, CO, NOx, PM10, VOCs and HAPs below the major emission thresholds. The Department of Environmental Protection intends to issue State-only Operating Permit 19-00031. The proposed operating permit contains all applicable requirements including Federal and State regulations. In addition, monitoring, recordkeeping and reporting conditions regarding compliance with all applicable requirements are included.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481, Matthew Williams, New Source Review Chief, (814) 332-6940.

20-00266: Electro Tech, Inc. (100 West Poplar Street, Meadville, PA 16335) for issuance of a Natural Minor Operating Permit to operate a hard chromium electroplating facility in the City of Meadville, **Crawford County**. This operation plates small metal parts primarily used in the plastic injection molding industry. The primary emission sources include three electroplating lines, a parts washer and a natural gas furnace.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department

at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining

that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Coal Applications Received

Effluent Limits—The following range of effluent limits will apply to NPDES permits issued in conjunction with the associated coal mining activity permit and, in some cases, noncoal mining permits:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (Total)	1.5 to 3.0 mg/l	3.0 to 6.0 mg/l	3.5 to 7.0 mg/l
Manganese (Total)	1.0 to 2.0 mg/l	2.0 to 4.0 mg/l	2.5 to 5.0 mg/l
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l
Aluminum (Total)	0.75 to 2.0 mg/l	1.5 to 4.0 mg/l	2.0 to 5.0 mg/l
pH ¹		greater than 6.0; less than 9.0	
Alkalinity greater than acidity ¹			

¹The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; and mined areas backfilled and revegetated; and drainage (resulting from a precipitation event of less than or equal to a 1-year 24-hour event) from coal refuse disposal piles.

California District Office: 25 Technology Drive, Coal Center, PA 15423, (724) 769-1100.

03091301 and NPDES Permit No. PA0235822, TJS Mining, Inc., (2340 Smith Road, Shelocta, PA 15774), to operate the TJS No. 7 Deep Mine in Manor Township, **Armstrong County** a new underground mine and related NPDES permit. Surface Acres Proposed 24.6, Underground Acres Proposed 688.0, Subsidence Control Plan

Acres Proposed 412.5. Receiving streams: Garretts Run, UNT No. 9 to Garretts Run, and the Allegheny River, all classified for the following use: WWF. Application received February 26, 2009.

17921602 and NPDES Permit No. PA0214191, King Coal Sales, Inc., (P. O. Box 712, Phillipsburg, PA 16866), to renew the permit for the Cunard Coal Preparation Facility in Morris Township, **Clearfield County** and related NPDES permit. No additional discharges. Application received June 22, 2009.

30841307 and NPDES Permit No. PA0213438, Emerald Coal Resources, LP, (158 Portal Road, P. O. Box 1020, Waynesburg, PA 15370), to revise the permit for the Emerald Mine No. 1 in Franklin Township, **Greene County** and related NPDES permit to install the No. 8 Bleeder Shaft Facility and add a new NPDES discharge point. Surface Acres Proposed 61.0. Receiving stream, UNT to Toll Gate Run, classified for the following use: WWF. Application received April 20, 2009.

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931, (814) 472-1900.

56920113 and NPDES No. PA0212300. Action Mining, Inc., 1117 Shaw Mines Road, Meyersdale, PA 15552, permit renewal for the continued operation and restoration of a bituminous surface mine in Summit and Elk Lick Townships, **Somerset County**, affecting 106.0 acres. Receiving streams: UNTs to/and Casselman River classified for the following uses: CWF and WWF. There are no potable water supply intakes 10 miles downstream. Application received June 24, 2009.

Moshannon District Mining Office: 186 Enterprise Drive, Philipsburg, PA 16866, (814) 342-8200.

14090103 and NPDES No. PA0257176. River Hill Coal Company, Inc. (P. O. Box 141, Kylertown, PA 16847). Commencement, operation and restoration of a

bituminous surface and auger mine in Snow Shoe Township, **Centre County**, affecting 224.7 acres. Receiving stream: North Fork Beech Creek, classified for the following use: CWF. There are no potable water supply intakes within 10 miles downstream. Application received June 15, 2009.

17880126 and NPDES No. PA0116599. Waroquier Coal Company (P. O. Box 128, Clearfield, PA 16830). Revision of an existing bituminous surface for an Incidental Boundary Extension in Lawrence Township, **Clearfield County**, affecting 295.4 acres. Receiving streams: UNTs to West Branch Susquehanna, classified for the following uses: CWF and WWF. There are no potable water supply intakes within 10 miles downstream. Application received March 24, 2009.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901, (570) 621-3118.

54840106R5. City of Philadelphia, Trustee, Acting by the Board of Directors of City Trusts for Girard Estate, (21 South 12th Street, Philadelphia, PA 19107), renewal of an existing anthracite surface mine operation in West Mahanoy and Butler Townships, **Schuylkill County** affecting 447.0 acres, receiving stream: none. Application received June 17, 2009.

54940102R3. Gale Coal Company, Inc., (1441 Oak Road, Pottsville, PA 17901), renewal of an existing anthracite surface mine operation for reclamation activities only in Blythe Township, **Schuylkill County** affecting 102.0 acres, receiving stream: none. Application received June 17, 2009.

Noncoal Applications Received

Effluent Limits—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

Parameter	Table 2		
	30-day Average	Daily Maximum	Instantaneous Maximum
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

Moshannon District Mining Office: 186 Enterprise Drive, Philipsburg, PA 16866, (814) 342-8200.

08090302 and NPDES No. PA0257168. Calvin C. Cole, Inc. (27321 Route 22, Milan, PA 18831). Commencement, operation and restoration of a shale and limestone operation in Burlington Borough/Burlington Township, **Bradford County**, affecting 19.2 acres. Receiving stream: Sugar Creek, classified for the following use: CWF. There are no potable water supply intakes within 10 miles downstream. Application received June 4, 2009.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person

commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Floodplain Management Act (32 P. S. § 679.302) and requests for certification under section 401(a) of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

Northeast Region: Watershed Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

E40-699. Luzerne County Redevelopment Authority, 16 Luzerne Street, Suite 210, West Pittston, PA 18643, in Jenkins Township, **Luzerne County**, United States Army Corps of Engineers, Baltimore District.

To construct and maintain the Knox Mine Disaster Memorial Enhancement Project with work consisting of excavation and placement of fill in approximately 0.62 acre of the floodway/floodplain of the Susquehanna River (WWF) and the construction of pads, a wooden viewing platform, signage, landscape areas and other site amenities within the same area. The project is located along the left bank of the Susquehanna River approximately 1 mile upstream of the Eighth Street Bridge (Pittston, PA Quadrangle Latitude: 41° 18' 47"; Longitude: 75° 48' 48").

Southcentral Region: Watershed Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

E22-547: Steelton Borough, Jeffrey Wright, 123 North Front Street, Steelton, PA 17112, Steelton Borough, **Dauphin County**, United States Army Corps of Engineers, Baltimore District.

To construct and maintain a 48-inch SLCPP outfall to the Susquehanna River (WWF) temporarily impacting 0.03 acre of palustrine emergent wetland (Hershey, PA Quadrangle N: 16.5 inches; W: 8.0 inches, Latitude: 40° 12' 32"; Longitude: 76° 48' 4") for the purpose of separating Steelton Borough's combined sewer system in Steelton Borough, Dauphin County.

Southwest Region: Watershed Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

E11-337. Borough of Ebensburg, 300 West High Street, Ebensburg, PA 15931.

To fill in wetlands and extend an existing culvert in Cambria Township, **Cambria County**, United States Army Corps of Engineers, Pittsburgh District (Nanty Glo, PA Quadrangle N: 15.9"; W: 3.3", Latitude: 40° 27' 43"; Longitude: 78° 46' 23"). The applicant proposes to place and maintain fill in 0.02 acre of wetland in the South Branch of Blacklick Creek Watershed (CWF), to extend and maintain an existing 36" diameter 160' CMP culvert by 19' on both ends, to replace and maintain an existing culvert with a 57' long, 18" diameter culvert, (both watersheds are less than 100 acres and are tributary to the South Branch of Blacklick Creek) all for the purpose of extending the runway safety area at the Ebensburg Airport.

Northwest Region: Watershed Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

E20-577, Conneaut Lake Borough, P. O. Box 198, Conneaut Lake, PA 16316. ACTIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35

P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute

provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapproval Granted under the Pennsylvania Sewage Facilities Act (35 P. S. § 750.5)

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Douglass Township	1068 Douglass Drive Boyertown, PA 19512	Berks County

Plan Description: The Brookwood Estates Subdivision (DEP Code No. A3-06930-104-2) is a 21 lot residential subdivision (one lot is to remain open space) that will generate a total of 12,000 gallons of sewage per day with each to be served by individual onlot septic systems. This plan was disapproved because five of the proposed lots did not meet the minimum lot size established by the preliminary hydrogeologic study. Also, the site suitability testing did not fully define the proposed absorptions areas on some of the proposed lots.

**Notice Proposed Consent Order and Agreement
Hazardous Sites Cleanup Act
America Zinc and Chemical Company Site
Smith Township, Washington County**

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.101—6020.1305) (HSCA), is proposing a consent order and agreement (CO&A) with Cyprus Amax Minerals Company (Cyprus) regarding the American Zinc and Chemical Company Site (Site). The Site includes approximately 155 acres and is located in Smith Township, Washington County near Burgettstown and the villages of Langeloth and Slovan. As the result of former zinc smelting operations, the Site is contaminated with lead, arsenic, cadmium, zinc, copper, tin and antimony.

The Department's CO&A with Cyprus calls for Cyprus' undertaking the remedial investigation, cleanup and post-remediation care of the Site under one of three Remediation Standards described in Chapter 3 of Act 2. The Department will be subsidizing certain limited aspects of this work.

This notice is being provided under section 506(b) of HSCA. The CO&A is available for public review and comment. The CO&A is located at the Department's Regional Office located at 400 Waterfront Drive, Pittsburgh, PA 15222 and is available for review Monday through Friday from 8 am until 4 pm by contacting this office at (412) 442-4000. In addition, the CO&A can be viewed online at <http://www.depweb.state.pa.us/southwestro/cwp/view.asp?a=3&Q=546290&southwestroNav=|>.

The CO&A will be open for comment from July 11, 2009, until September 9, 2009. Persons may submit written comments into the record during this time only, by sending them to Terry Goodwald at 400 Waterfront Drive, Pittsburgh, PA 15222 or by delivering them to this office in person.

On request, the Department will convene a public meeting to discuss and hear comment on the proposed CO&A. Persons wishing to present oral comment at a public meeting should register with Katy Gresh before August 10, 2009, by telephone at (412) 442-4000, kagresh@state.pa.us. Persons interested in the meeting's time and location, should one be scheduled, can also contact Katy Gresh.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings should call Katy Gresh at (412) 442-4000 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION
UNDER ACT 2, 1995
PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Depart-

ment) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Northeast Region: Ronald S. Brezinski, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Powers Residence, 30 Frutchey Court, Upper Mount Bethel Township, **Northampton County**. Thomas S. Jones, Penn Environmental & Remediation, Inc., 2755 Bergey Road, Hatfield, PA 19440 has submitted a Final Report (on behalf of his client, Richard Powers, 30 Frutchey Court, Mount Bethel, PA 18343), concerning the remediation of soil found to have been impacted by No. 2 fuel oil as a result of a release from a 550-gallon underground storage tank. The report was submitted to document attainment of the Statewide Health Standard. A public notice regarding the submission of the Final Report was published in *The Express-Times* on June 20, 2009.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION
UNDER ACT 2, 1995
PREAMBLE 3**

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania*

Bulletin a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Northeast Region: Ronald S. Brezinski, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

GP5-08-289: Fortuna Energy, Inc. (337 Daniel Zenker Drive, Horseheads, NY 14845) on June 16, 2009, to construct and operate four natural gas-fired compressor engines each rated at 1,150 brake-horsepower and a 250,000 Btu/hr glycol dehydrator under the General Plan Approval and/or General Operating Permit for Natural Gas, Coal Bed Methane or Gob Gas Production or Recovery Facilities (BAQ-GPA/GP-5) at the Thomas Compressor Station in Troy Township, **Bradford County**.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, Mark Gorog and Barb Hatch, Environmental Engineer Managers, (412) 442-4163/5226.

GP3-30-00168A: Fayette Coal & Coke, Inc. (195 Enterprise Lane, Connellsville, PA 15425) on June 25, 2009, for the installation and operation of a Spyder Vibratory Screen rated at 250 tph in addition to the existing equipment (two crushers and a screen) at their Hilltop Surface Mine facility located in Dunkard Township, **Greene County**.

GP9-30-00168A: Fayette Coal & Coke, Inc. (195 Enterprise Lane, Connellsville, PA 15425) on June 25, 2009, for the installation and operation of a 110 bhp Cummins IC Engine in addition to the existing 300 bhp Caterpillar IC Engine at their Hilltop Surface Mine facility located in Dunkard Township, **Greene County**.

Plan Approvals Issued under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and regulations in 25 Pa. Code Chapter 127, Subchapter B relating to construction, modification and reactivation of air contamination sources and associated air cleaning devices.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Sachin Shankar, New Source Review Chief, (484) 250-5920.

23-0003M: ConocoPhillips Company (4101 Post Road, Trainer, PA 19061-3812) on June 22, 2009, for upgrading its south side cooling tower at their Trainer facility in Trainer Borough, **Delaware County**. This facility is a Title V facility. This upgrading will result in VOC emission increase of 0.74 tpy. The Plan Approval and Operating Permit will contain recordkeeping requirements and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

09-0019C: Miller & Son Paving, Inc. (887 Mill Creek Road, Rushland, PA 18956) on June 23, 2009, for consumption of on-specification waste-derived liquid fuel as an additional fuel by the rotary dryer of an existing batch hot mix asphalt (HMA) plant at their facility, in Wrightstown Township, **Bucks County**. The plan approval is for a non-Title V facility. Based on information in the application, the potential emissions for CO, NOx and PM will increase with the consumption of WDLF at the facility. However, the facility will maintain its Synthetic Minor status. Miller & Son will be required to perform stack testing for the batch HMA plant to demonstrate compliance with the requirements of 40 CFR Part 60, Subpart I, and assure the control of emissions consistent with the BAT. Miller & Son will continue to monitor and maintain records of HMA production on a monthly and 12-month rolling basis to ensure compliance with the HMA production limitation and site-level emission restrictions. The permit will include monitoring, recordkeeping, reporting and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

46-0172B: Gemalto, Inc. (101 Park Drive, Montgomeryville, PA 18936) on June 24, 2009, for installation of a new Sakurai Screen Press at an existing facility in Montgomeryville, **Montgomery County**. This press is being installed to replace an existing screen press. The primary pollutant of concern is VOCs. Cephalon is categorized as a Synthetic Minor facility and the proposed operation of this press should not cause the facility to exceed any major thresholds. The Plan Approval will contain recordkeeping and operating restrictions designed to keep the facility operating within the allowable emissions and all applicable air quality requirements.

Plan Approval Revisions Issued including Extensions, Minor Modifications and Transfers of Ownership under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code §§ 127.13, 127.13a and 127.32.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P.S. § 679.302) and The Clean Streams Law (35 P.S. §§ 691.1—691.702) and Notice of Final Action for Certification under section 401 of the FWPCA (33 U.S.C.A. § 1341).

Permits, Environmental Assessments and 401 Water Quality Certifications Issued:

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, 2 East Main Street, Norristown, PA 19401.

E46-1037. Upper Gwynedd Township, P. O. Box 1, West Point, PA 19486, Upper Gwynedd Township, **Montgomery County**, United States Army Corps of Engineers, Philadelphia District.

To construct and maintain an approximately 200-foot long, 8-foot wide, 15-foot high pedestrian bridge across Wissahickon Creek (TSF).

The site is located just north of the existing Summeytown Pike Bridge over Wissahickon Creek in Upper Gwynedd Township, **Montgomery County** (Lansdale, PA USGS Quadrangle N: 16.2 inches; W: 5.8 inches).

The issuance of this permit also constitutes approval of a Water Quality Certification under section 401(a) of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

EA46-021. Brennan Marion, Fort Washington Properties, LP, 1805 Berks Road, Worcester, PA 19490, Springfield and Upper Dublin Townships, **Montgomery County**, United States Army Corps of Engineers, Philadelphia District.

A request for an Environmental Assessment approval for impacts associated with the construction, operation and maintenance of the nonjurisdictional dam within the boundary of an off-stream reconfigured abandoned quarry. The proposed dam will provide stormwater management for Piszek Property residential subdivision. The work also includes authorizations under General Permit Numbers 4, 5 and 7 for two stormwater outfalls, one utility line stream crossing, and two minor road crossings across Sandy Run (TSF) and adjacent wetlands (PFO).

The site is located approximately 700 feet southeast of the intersection of Camp Hill Road and Pennsylvania Avenue (Germantown, PA Quadrangle N: 22.3 inches; W: 8.3 inches).

E46-1034. Department of Transportation, 7000 Geerdes Boulevard, King of Prussia, PA 19406, Montgomery Township, **Montgomery County**, United States Army Corps of Engineers, Philadelphia District.

To construct and maintain the proposed approximately 9-mile segment of SR 6202 Parkway (Parkway). This project has been divided into three design/construction Sections (701, 711 and 721). The limit for the entire project is between Welsh Road (SR 0063) in Montgomery Township, Montgomery County (Ambler, PA USGS Quadrangle N: 17.0 inches; W: 14.75 inches) and the existing SR 0611 Bypass in Doylestown Township, Bucks County (Doylestown, PA USGS Quadrangle N: 7.5 inches; W: 2.5 inches) and traverses through Montgomery Township in Montgomery County and Warrington, New Britain and Doylestown Townships in Bucks County. The Parkway

includes a four-lane roadway between Welsh and Horsham Roads (SR 0463) and a two-lane roadway between Horsham Road and the SR 0611 Bypass. In addition, a 12-foot-wide shared-use path will be constructed within the right-of-way of the Parkway. The project proposes to permanently impact a total of approximately 6.23 acres of wetland (PEM/PSS/PFO). The construction of a total of 9.30 acres of wetland replacement is proposed at the Kansas Road mitigation site located near the intersection of County Line and Kansas Roads in Warrington Township, Bucks County.

This permit is for Section 711 and is the second submission for the SR 6202 construction project. The limit of work extends between County Line and Pickertown Roads in Warrington Township, Bucks County.

The construction work in Section 711 includes the following water obstruction and encroachment activities:

1. To place fill and impact a UNT to Mill Creek (WWF and MF) at Station 25+59 (Doylestown, PA Quadrangle N: 1.7 inches; W: 11.0 inches, Latitude: 40° 02' 34.749" North; Longitude: 75° 12' 14.011" West). Fill for the Parkway will result in a permanent impact of 165 linear feet.

2. To place fill and impact a UNT to Mill Creek (WWF and MF) at Station 25+46 (Doylestown, PA Quadrangle N: 1.7 inches; W: 11.0 inches, Latitude: 40° 15' 34.767" North; Longitude: 75° 12' 13.553" West). Fill for the Parkway will result in a permanent impact of 184 linear feet.

3. To place fill and provide conveyance of hydrology with 138 feet of 48-inch RCP and 75 feet of 48-inch RCP that will be depressed 0.5 feet and impacted a UNT to Mill Creek (WWF and MF) at Station 26+27 (Doylestown, PA Quadrangle N: 1.7 inches; W: 11.0 inches, Latitude: 40° 15' 35.356" North; Longitude: 75° 12' 13.604" West). Plastic utility conduit will be installed in ground above the pipes. Fill for Parkway will result in a permanent impact of 374 linear feet.

4. To place fill and provide conveyance of hydrology with 105 feet of 48-inch RCP that will be depressed 0.5 feet and impact a UNT to Mill Creek (WWF and MF) at Station 26+58 (Doylestown, PA Quadrangle N: 1.7 inches; W: 11.0 inches, Latitude: 40° 15' 35.412" North; Longitude: 75° 12' 14.224" West). Fill for the Parkway will result in a permanent impact of 82 linear feet and temporary impact of 25 linear feet.

5. Temporary disturbance of an intermittent tributary to Mill Creek (WWF and MF) for the construction of SUP at Station 18+74 (Doylestown, PA Quadrangle N: 2.4 inches; W: 11.0 inches, Latitude: 40° 15' 43.168" North; Longitude: 75° 12' 3.986" West) will temporarily impact 25 linear feet.

6. To place fill and impact a UNT to Mill Creek (WWF and MF) at Station 20+02 (Doylestown, PA Quadrangle N: 2.4 inches; W: 11.0 inches, Latitude: 40° 15' 43.709" North; Longitude: 75° 12' 5.648" West). Fill for the Parkway will result in a permanent impact of 145 linear feet.

7. Crossing of existing stream and forested wetland by installing a 48-foot by 12-foot bridge with a length of 102 feet with a minimum underclearance of 12 feet within a UNT intermittent tributary to Mill Creek (WWF and MF) at Station 39+88 (Doylestown, PA Quadrangle N: 2.4 inches; W: 10.8 inches, Latitude: 40° 15' 46.698" North; Longitude: 75° 12' 6.697" West). Plastic utility conduit

will be installed on the structure. The proposed structure and adjacent fill will not result in permanent impacts. The proposed crossing will result in the discharge (that is, placement) of 2,750 ft² and 1,935 cy³ of fill in the 100-year floodplain of the UNT to Mill Creek.

8. To place fill and impact a UNT to Mill Creek (WWF and MF) at Station 54+58 (Doylestown, PA Quadrangle N: 3.1 inches; W: 10.5 inches, Latitude: 40° 15' 59.865" North; Longitude: 75° 11' 59.024" West). Fill for the Parkway will result in a permanent impact of 235 linear feet.

9. To place fill and impact a UNT to Mill Creek (WWF and MF) at Station 56+30 (Doylestown, PA Quadrangle N: 3.1 inches; W: 10.4 inches, Latitude: 40° 16' 14.43" North; Longitude: 75° 11' 57.392" West). Fill for the Parkway will result in a permanent impact of 2,035 linear feet.

10. To place fill and impact a UNT to Mill Creek (WWF and MF) at Station 56+60 (Doylestown, PA Quadrangle N: 3.1 inches; W: 10.4 inches, Latitude: 40° 15' 58.646" North; Longitude: 75° 11' 56.342" West). Fill for the Parkway will result in a permanent impact of 2,132 linear feet.

11. To place fill and provide conveyance of hydrology with 83 feet of 24-inch RCP that will be depressed 0.5 feet and impact a forested wetland tributary to Neshaminy Creek (TSF and MF) at Station 66+33 (Doylestown, PA Quadrangle N: 3.4 inches; W: 10.0 inches, Latitude: 40° 16' 6.612" North; Longitude: 75° 11' 46.777" West). Fill for the Parkway will result in a permanent impact of 0.32 acre and temporary impact of 0.07 acre.

12. To place fill and provide conveyance to hydrology with 73 feet of 36-inch RCP that will be depressed 0.5 feet and impact a UNT to Neshaminy Creek (TSF and MF) at Station 66+56 (Doylestown, PA Quadrangle N: 3.4 inches; W: 10.0 inches, Latitude: 40° 16' 6.934" North; Longitude: 75° 11' 42.293" West). Fill for the Parkway will result in a permanent impact of 60 linear feet.

13. To place fill and provide conveyance of hydrology with two 86-foot lengths of 24-inch RCP and on 101-foot length of 36-inch RCP that will be depressed 0.5 feet and impact a forested wetland and UNT to Neshaminy Creek (TSF and MF) at Station 77+13 (Doylestown, PA Quadrangle N: 3.6 inches; W: 9.6 inches, Latitude: 40° 16' 10.548" North; Longitude: 75° 11' 33.856" West). Plastic utility conduit will be installed in ground above the pipes. Fill for the Parkway will result in a permanent impact of 114 linear feet of stream and 0.51 acre of wetland and temporary impact to 25 linear feet of stream and 0.06 acre of wetland.

14. To place fill and impact a UNT to Neshaminy Creek (TSF and MF) at Station 92+21 (Doylestown, PA Quadrangle N: 3.6 inches; W: 9.6 inches, Latitude: 40° 16' 21.836"; Longitude: 75° 11' 21.694" West). Fill for the Parkway will result in a permanent impact of 550 linear feet.

The owner proposes to create, restore, enhance and protect wetlands, streams, and riparian habitat as compensatory mitigation for impacts at the Kansas Road mitigation site.

The issuance of this permit also constitutes approval of a Water Quality Certification under section 401(a) of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

E09-933. Department of Transportation, 7000 Geerdes Boulevard, King of Prussia, PA 19406, New Britain, **Warrington and Doylestown Townships**, United States Army Corps of Engineers, Philadelphia District.

Plan Revision Approval under the Municipal Waste Planning, Recycling and Waste Reduction Act of 1988, Act 101

Southwest Region: Waste Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222.

The Department of Environmental Protection (Department) approved the Westmoreland County Municipal Waste Management Plan Revision on January 27, 2009.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the

Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

The plan revision is a public document and may be viewed at the Department Regional Office previously noted.

Questions concerning this approval should be directed to Sally Lohman, Chief, Waste Planning Section, Department of Environmental Protection, Bureau of Waste Management, Division of Waste Minimization and Planning, P. O. Box 8472, Harrisburg, PA 17105-8472 or to Sharon Svitek, Regional Planning and Recycling Coordinator, Bureau of Waste Management at the previous Regional Office.

ADVERTISEMENT FOR PROPOSALS

In accordance with Act 101 and Section 272 of the PA Solid Waste Rules and Regulations (as amended), the County of Pike is seeking waste disposal capacity for municipal waste (MSW) for a minimum of 5 years, with an option to extend said capacity for up to 5 additional years, for a total of 10 years. Pike County is hereby soliciting responses to qualify facilities to provide processing/disposal capacity for County-generated MSW, to begin on or after January, 2010.

Copies of Pike County's Facility Qualification Request (FQR) may be obtained from the Pike County Human Development Office, Pike County Administrative Building, 506 Broad Street, Milford, PA 18337 or by calling (570) 296-3434. All responses must be made on the Submittal Form and in accordance with the Instructions to Respondents provided in the FQR. The Respondent must submit the original and three copies to the address listed above, Attention Christine Obser by 3 p.m. EDT on Tuesday, August 11, 2009. Qualified facilities will be notified once all applications have been reviewed by the Pike County Solid Waste Advisory Committee.

Pike County reserves the right to reject any or all responses and to waive any informalities in the solicitation process.

CATEGORICAL EXCLUSION

Northwest Regional Office, Water Supply Management, 230 Chestnut Street, Meadville, PA 16335.

Location: Borough of Grove City, Mercer County, Grove City, PA 16127-0110.

Description: The Pennsylvania Infrastructure Investment Authority, which administers the Commonwealth's State Revolving Fund, is intended to be the funding source for this project. The Borough of Grove City proposes to replace approximately 2,500 water meters in residences and businesses in the Borough of Grover City. The work will also include the installation of backflow prevention valves at approximately 300 commercial businesses locations in the Borough.

The Department's review of the project and the information received has not identified any significant, adverse environmental impact resulting from this proposal. The Department hereby categorically excludes this project from the State Environmental Review Process.

[Pa.B. Doc. No. 09-1229. Filed for public inspection July 10, 2009, 9:00 a.m.]

The Department of Environmental Protection (Department) hereby announces the following grants to counties under the Pennsylvania Municipal Waste Planning, Recycling and Waste Reduction Act of 1988, Act 101 (P. L. 556) sections 208 and 901 of the Waste Tire Recycling Act/Small Business and Household Pollution Prevention Act (Act 190 of 1996).

Planning grants are awarded to counties for 80% of approved costs for preparing municipal waste management plans as required by Act 101, for carrying out related studies, surveys, investigations, inquiries, research and analysis, including those related to siting, environmental mediation, education programs on pollution prevention and household hazardous waste and providing technical assistance to small businesses for pollution prevention. Grants may be awarded for feasibility studies and project development for municipal waste processing or disposal facilities, except for facilities for the combustion of municipal waste that are not proposed to be operated for the recovery of energy. All grant awards are predicated on the receipt of recycling fees required by sections 701 and 702 of Act 101, and the availability of monies in the Recycling Fund.

Inquiries regarding the grant offerings should be directed to Sally Lohman, Chief, Waste Planning Section, Department of Environmental Protection, Bureau of Waste Management, Division of Waste Minimization and Planning, P. O. Box 8472, Harrisburg, PA 17105-8472.

Alternative Fuels Incentive Program; Program Opportunity Notice

The Department of Environmental Protection (Department), Bureau of Air Quality, announces an opportunity to apply for grants under the PA Clean Diesel/Alternative Fuels Incentive Grant Program to improve this Commonwealth's air quality and reduce consumption of imported oil through the use of alternatively fueled/electric ground service equipment at airports/airlines that will help the state's economy and environment. The Department is seeking applications for innovative, advanced fuel and vehicle technology projects resulting in cleaner advanced ground service equipment within this Commonwealth.

Grant funds awarded under the PA Clean Diesel/Alternative Fuels Incentive Program can be used to cover costs of early replacement and repower with certified engine configurations (fleet only), incremental cost of the purchase of alternative fuel/electric dedicated vehicles (fleet only) and/or cost to install fleet refueling/recharging equipment for dedicated vehicles. Eligible applicants include airports and airlines. Project costs cannot be incurred before the submittal of an application during the grant open opportunity time period.

Requests for the application package, including guidance, instructions and application forms, can be obtained

by contacting Kelley Matty, Division of Air Resource Management, Bureau of Air Quality, Department of Environmental Protection, 12th Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-9494. The application package is also available electronically on the Department's web site at <http://www.depweb.state.pa.us> (DEP Keywords "Alternative Fuels").

Applications must be postmarked or received by 4 p.m. on August 14, 2009. Faxes will not be accepted. Use staples only, no binding or cover pages.

Availability of Technical Guidance

Technical guidance documents are available on the Department of Environmental Protection's (Department) web site at <http://www.depweb.state.pa.us> (DEP Keywords: "Technical Guidance"). The "Final Documents" heading is the link to a menu of the various Department bureaus where each bureau's final technical guidance documents are posted. The "Draft Technical Guidance" heading is the link to the Department's draft technical guidance documents.

The Department will continue to revise its nonregulatory documents, as necessary, throughout 2009.

Ordering Paper Copies of Department Technical Guidance

The Department encourages the use of the Internet to view and download technical guidance documents. When this option is not available, persons can order a paper copy of any of the Department's draft or final technical guidance documents by contacting the Department at (717) 783-8727.

In addition, bound copies of some of the Department's documents are available as Department publications. Check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Final Technical Guidance—Minor Revision

DEP ID: 294-2309-001. Title: Radon Certification Policy. Description: This document contains guidelines used by the Bureau of Radiation Protection to administer a radon certification program for persons conducting radon gas and radon progeny testing and laboratory analysis and mitigation of radon contamination in buildings. The policy is established under the authority of the Radon Certification Act (act) (63 P. S. §§ 2001—2014) and the Radiation Protection Act (35 P. S. §§ 7110.101—7110.703). It is also an implementation of the radon certification regulations in 25 Pa. Code Chapter 240 (relating to radon certification), which were promulgated under the act. A minor revision was made to the guidance that clarified the term DEPARTMENT APPROVED PROTOCOLS. Contact: For additional information concerning radon certification, individuals may contact the Bureau of

Radiation Protection at (717) 783-3594 or RA-EPRadon@state.pa.us. Persons in need of accommodations as provided for in the Americans With Disabilities Act of 1990 should contact the Department directly at (717) 783-3594 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs. Effective Date: This technical guidance document will be effective upon publication in the *Pennsylvania Bulletin*.

General Permits for Beneficial Use of Exceptional Quality Biosolids by Land Application (PAG-07), Beneficial Use of Biosolids by Land Application (PAG-08) and Beneficial Use of Residential Septage (PAG-09); Public Notice of Availability

The Department of Environmental Protection (Department) by this notice is reissuing its General Permits for Beneficial Use of Exceptional Quality Biosolids by Land Application (PAG-07), Beneficial Use of Biosolids by Land Application (PAG-08) and Beneficial Use of Residential Septage (PAG-09) which expired on July 2, 2009, and by this notice are retroactively extended until July 11, 2009, for an additional 5 years. In accordance with the provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003), on April 3, 2004, the Department issued general permits for use by eligible persons for the following: (1) the beneficial use of exceptional quality biosolids that will be sold, given away or other-

wise distributed in a bag or other container or that will be land applied (PAG-07); (2) the beneficial use of biosolids by land application (PAG-08); and (3) the beneficial use of residential septage by land application (PAG-09). These general permits were scheduled to expire on April 3, 2009, but were extended to July 11, 2009. The permits were published as draft in the *Pennsylvania Bulletin* at 39 Pa.B. 1062 (February 21, 2009).

The Department received ten unique comments from ten individuals. In addition, the Department received approximately 250 form letters; however, the comments in those form letters related to requests to changes in the regulations therefore, it was not appropriate to address them in the permit language. In response to the comments received the following changes were made in the final form permits: Language was added to PAG-08 and PAG-09 to clarify that soil incorporation shall be conducted to be consistent with a farming operation's conservation plan, and to provide clarity to the PAG-07 and PAG-08 permits, a definition for "biosolids mixed with residual waste."

Copies of the final form permits are available by contacting the Department of Environmental Protection, Bureau of Water Standards and Facility Regulation, Division of Water Management, Rachel Carson State Office Building, P. O. Box 8774, Harrisburg, PA 17105-8774, by means of e-mail to dwilson@state.pa.us or by calling (717) 787-8184. The general permits are also available on the Department's web site at www.depweb.state.pa.us (DEP Keyword: "Biosolids Publications"). Persons with a disability may contact the Department by using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDL users) or (800) 654-5988 (voice users).

Stream Redesignation Evaluations; Water Quality Standards Review

Under 25 Pa. Code § 93.4d (relating to processing of petitions, evaluations and assessments to change a designated use) the Department of Environmental Protection (Department) gives notice that an evaluation will be conducted on all or a portion of the streams listed to determine the proper Aquatic Life Use or Special Protection designations in the Commonwealth's Water Quality Standards.

<i>Stream Name</i>	<i>County</i>	<i>Tributary To</i>
Unnamed Tributary (04646) to Bushkill Creek (Sobers Run)—Basin, from the source to the confluence with Bushkill Creek	Northampton	Bushkill Creek
Larrys Creek—Basin, from the source to the confluence with West Branch Susquehanna River	Lycoming	West Branch Susquehanna River

Persons who have technical data concerning the water quality, instream habitat or biological condition of these stream sections are encouraged to make it available to the Department for consideration in the assessment. These assessments may lead to recommendations to the Environmental Quality Board (Board) for redesignation.

Data should be submitted to Tony Shaw, Division of Water Quality Standards, Bureau of Water Standards and Facility Regulation, P. O. Box 8467, Harrisburg, PA 17105-8467, tshaw@state.pa.us. Data should be submitted no later than 30 days following publication of this notice. Questions concerning this evaluation can be directed to Tony Shaw at (717) 787-9637.

Sobers Run, a tributary to Bushkill Creek, is currently designated High Quality-Cold Water Fishes (HQ-CWF) from the source to the mouth, and has been petitioned for redesignation as Exceptional Value (EV). This assessment may lead to a recommendation to the Board for redesignation. The Sobers Run study area will include the entire Sobers Run basin.

Larrys Creek, a tributary to West Branch Susquehanna River, is currently designated HQ-CWF from the basin source to Second Fork Larrys Creek and Warm Water Fishes (WWF) from Second Fork Larrys Creek to the mouth. First Fork Larrys Creek, a tributary to Larrys Creek is currently designated HQ-CWF from basin source to mouth. Recent sampling efforts have indicated that the current designated use for Larrys Creek basin should be reassessed. This assessment may lead to a recommendation to the Board for redesignation. The Larrys Creek study area will include the entire Larrys Creek basin.

Persons in need of accommodations as provided for in the Americans With Disabilities Act of 1990 should contact Tony Shaw directly at (717) 787-9637 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Laboratories Approved to Determine Analyses of Blood and/or Serum for Controlled Substances

The following laboratories are licensed by the Department of Health (Department) under the Clinical Laboratory Act (35 P.S. §§ 2151—2165) and/or the Federal Clinical Laboratories Improvement Act of 1967 (42 U.S.C.A. § 263a) and are currently approved by the Department under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood and/or serum for the determination of controlled substances. This approval is based on demonstrated proficiency in periodic tests conducted by the Department's Bureau of Laboratories. These laboratories are also approved and designated for purposes of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance) and the Game and Wildlife Code, 34 Pa.C.S. § 2502 (relating to chemical test to determine amount of alcohol), as qualified to perform the types of services which will reflect the presence of controlled substances or their biotransformation products in blood and/or serum.

Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform screening and/or confirmatory analyses on blood and/or serum. Laboratories approved to perform screening analyses are designated on the approval list by an "S" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to screen both blood and serum

would therefore have "SBSe" listed after their laboratory name. Laboratories approved to offer confirmatory analyses are designated on the approval list by a "C" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to perform confirmatory analyses on both serum and blood would therefore have "CBSe" listed after their laboratory name.

Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic blood and/or serum analysis services from any of the listed laboratories should determine that the laboratory employs techniques and procedures acceptable for medicolegal purposes. They should also determine that the director of the facility is agreeable to performing analyses for forensic purposes. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. That specification should be predicated upon the purpose for which the analysis is being sought.

The Vehicle Code contains a provision (75 Pa.C.S. § 1547(c)(3)(ii)) that permits test results on blood or urine for alcohol or controlled substances to be introduced into evidence at legal proceedings in this Commonwealth if the laboratory is located in another state and is not licensed and approved by the Department to provide these services. This section states that the test results may be admissible into evidence at summary or criminal proceedings in which the defendant is charged with a violation of section 3802 (driving under the influence of alcohol or controlled substance) if the laboratory that performed the test is licensed by the state in which the facility is located and licensed under the Federal Clinical Laboratory Improvement Amendments of 1988 (Pub. L. No. 100-578, 102 Stat. 2903). A similar provision appears in the Fish and Boat Code at 30 Pa.C.S. § 5125(c)(3)(ii).

The name or location of a laboratory is sometimes changed but the personnel and testing procedures of the facility remain unchanged. When changes of this type occur, the Clinical Laboratory Permit number does not change. If questions arise about the identity of a laboratory due to a name or location change, the Clinical Laboratory Permit number should be used as the primary identifier. To assist in identifying a laboratory that performed a test if the name or location of the facility changed, the Clinical Laboratory Permit number of the facility at the time the list was prepared is included in the list of approved laboratories above the name of the laboratory.

The list of approved laboratories will be revised approximately semiannually and published in the *Pennsylvania Bulletin*. Questions regarding this list should be directed to M. Jeffery Shoemaker, Ph.D., Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464.

Persons with a disability who require an alternative format of this notice (for example, large print, audiotape, Braille) should contact Dr. Shoemaker at the previously referenced address or phone number. Persons who are speech or hearing impaired may use V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

[Pa.B. Doc. No. 09-1249. Filed for public inspection July 10, 2009, 9:00 a.m.]

Laboratories Approved to Determine Blood Alcohol Content

The following laboratories are licensed by the Department of Health (Department) under the Clinical Laboratory Act (act) (35 P. S. §§ 2151—2165) and are currently approved by the Department under 28 Pa. Code §§ 5.50 and 5.103 (relating to approval to provide special analytical services; and blood tests for blood alcohol content) to perform alcohol analyses of blood and/or serum and plasma. This approval is based on demonstrated proficiency in periodic tests conducted by the Department's Bureau of Laboratories.

Since procedures for determining the alcohol content of serum and plasma are identical and results obtained from serum or plasma derived from a blood sample are the same, laboratories that demonstrate reliability in the determination of alcohol in serum are approved to analyze both serum and plasma for alcohol content. These laboratories are also approved and designated under the provisions of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine the amount of alcohol or controlled substance), and the Game and Wildlife Code, 34 Pa.C.S. § 2501 (relating to hunting or fur taking under the influence of alcohol or controlled substance) as qualified to perform the types of specialized

services which will reflect the presence of alcohol in blood and/or serum and plasma. Laboratories located outside this Commonwealth may not provide blood and/or serum and plasma alcohol testing services in this Commonwealth unless they are licensed by the Department and approved for that purpose.

Persons seeking forensic blood and/or serum and plasma analysis services from the following designated laboratories should determine that the laboratory employs techniques and procedures acceptable for forensic purposes, and that the director of the facility is agreeable to performing determinations for this purpose. The list of approved laboratories will be revised approximately semi-annually and published in the *Pennsylvania Bulletin*.

The name or location of a laboratory is sometimes changed but the personnel and testing procedures of the facility remain unchanged. When changes of this type occur, the Clinical Laboratory Permit number does not change. If questions arise about the identity of a laboratory due to a name or location change, the Clinical Laboratory Permit number should be used as the primary identifier. To assist in identifying a laboratory that performed a test if the name or location of the facility changed, the Clinical Laboratory Permit number of the facility at the time the list was prepared is included in the list of approved laboratories above the name of the laboratory.

The Department's blood alcohol and serum/plasma alcohol proficiency testing programs are approved by the United States Department of Health and Human Services in accordance with the requirements contained in the Clinical Laboratory Improvement Amendments of 1988 (42 U.S.C. § 263a), and implementing regulations 42 CFR 493.901 and 493.937, which are administered by the Centers for Medicare and Medicaid Services. Participation in these programs may therefore be used to demonstrate acceptable performance for approval purposes under both Federal and Commonwealth statutes.

Questions regarding this list should be directed to Dr. M. Jeffery Shoemaker, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464.

The Commonwealth's Vehicle Code at 75 Pa.C.S. § 1547(c)(3)(ii) also permits test results on blood or urine for alcohol or controlled substances to be introduced into evidence in certain legal proceedings in Pennsylvania if the laboratory is located in another state and is not licensed and approved by the Department to provide forensic blood and/or serum and plasma analysis services. This section states that the test results will be admissible into evidence at summary or criminal proceedings in which the defendant is charged with a violation of 75 Pa.C.S. § 3802 (driving under the influence of alcohol or controlled substance) or any other violation of the Vehicle Code arising out of the same action if the laboratory that performed the test is licensed to conduct the test by the state in which the facility is located and licensed pursuant to the Clinical Laboratory Improvement Amendments of 1988 (Pub. L. No. 100-578, 102 Stat. 2903). A similar provision appears in the Fish and Boat Code at 30 Pa.C.S. § 5125(c)(3)(ii).

Persons with a disability who require an alternative format of this notice (for example: large print, audiotope, Braille) should contact Dr. Shoemaker at the previously referenced address or phone number. Persons who are speech or hearing impaired may use V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

The symbols S and B indicate the following:

S = approved for serum and plasma analyses

B = approved for blood analyses

SB = approved for serum, plasma and blood analyses

[Pa.B. Doc. No. 09-1250. Filed for public inspection July 10, 2009, 9:00 a.m.]

Laboratories Approved to Determine Urine Controlled Substances

The following laboratories are licensed by the Department of Health (Department) under the Clinical Laboratory Act (35 P.S. §§ 2151—2165) and are currently approved by the Department under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of urine for the determination of controlled substances or their biotransformation products.

This approval is based on demonstrated proficiency in periodic tests conducted by the Department's Bureau of Laboratories. These laboratories are also approved and designated for purposes of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance), and the Game and Wildlife Code, 34 Pa.C.S. § 2502 (relating to chemical test to determine amount of alcohol), as qualified to perform the types of services which will reflect the presence of controlled substances or their biotransformation products in urine.

Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform screening and/or confirmatory urine drug analyses. Laboratories approved to perform screening tests only are designated on the approval list by an "S" after the laboratory's name. Laboratories approved to perform confirmatory testing only are designated by a "C" following the laboratory's name. Those approved to perform both screening and confirmatory analyses are designated by the letters "SC." Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic urine drug analysis services from any of the listed laboratories should determine that the laboratory employs techniques and procedures acceptable for the purpose. They should also determine that the director of the facility is agreeable to performing analyses for that purpose. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. That specification should be predicated upon the purpose for which the analysis is being sought. The list of approved laboratories will be revised approximately semiannually and published in the *Pennsylvania Bulletin*.

The Commonwealth's Vehicle Code contains a provision (75 Pa.C.S. § 1547(c)(3)(ii)) that permits test results on blood or urine for alcohol or controlled substances to be introduced into evidence at legal proceedings in Pennsylvania if the laboratory is located in another state and is

not licensed and approved by the Department to provide these services. This section states that the test results may be admissible into evidence at summary or criminal proceedings in which the defendant is charged with a violation of section 3802 (relating to driving under the influence of alcohol or controlled substance) or any other violation of that title arising out of the same action if the laboratory that performed the test is licensed by the state in which the facility is located and licensed pursuant to the federal Clinical Laboratory Improvement Amendments of 1988 (Pub. L. No. 100-5768, 102 Stat. 2903). A similar provision appears in the Fish and Boat Code at 30 Pa.C.S. § 5125(c)(3)(ii).

The name or location of a laboratory is sometimes changed but the personnel and testing procedures of the facility remain unchanged. When changes of this type occur, the Clinical Laboratory Permit number does not change. If questions arise about the identity of a laboratory due to a name or location change, the Clinical Laboratory Permit number should be used as the primary identifier. To assist in identifying a laboratory that performed a test if the name or location of the facility changed, the Clinical Laboratory Permit number of the facility at the time the list was prepared is included in the list of approved laboratories above the name of the laboratory.

Questions regarding this list should be directed to M. Jeffery Shoemaker, Ph.D., Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464.

Persons with a disability who require an alternative format of this notice (for example, large print, audiotape, Braille) should contact Dr. Shoemaker at the previously referenced address or phone number. Persons who are speech or hearing impaired may use V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

[Pa.B. Doc. No. 09-1251. Filed for public inspection July 10, 2009, 9:00 a.m.]

Laboratories Approved to Perform Blood Lead and/or Erythrocyte Protoporphyrin

The following laboratories are licensed in accordance with the Clinical Laboratory Act (35 P. S. §§ 2151—2165), and are currently approved under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood for lead or erythrocyte protoporphyrin content. This approval is based on demonstrated proficiency in periodic evaluations conducted by the Bureau of Laboratories of the Department of Health (Department).

Lead poisoning is a reportable noncommunicable disease. Approved laboratories which offer blood lead testing services are required to inform the Department of actual or possible incidents of this condition in accordance with 28 Pa. Code § 27.34 (relating to reporting cases of lead poisoning.) These regulations specify the following requirements for reporting by clinical laboratories:

(1) A clinical laboratory shall report all blood lead test results on both venous and capillary specimens for persons under 16 years of age to the Department's Childhood Lead Poisoning Prevention Program, Division of Maternal and Child Health, Bureau of Family Health.

(2) A clinical laboratory shall report an elevated blood lead level in a person 16 years of age or older to the Department's Division of Environmental Health Epidemiology, Bureau of Epidemiology or to other locations as designated by the Department. An elevated blood lead level is defined by the National Institute for Occupational Safety and Health (NIOSH). As of January 26, 2002, NIOSH defines an elevated blood lead level as a venous blood lead level of 25 micrograms per deciliter (µg/dL) or higher. The Department will publish in the *Pennsylvania Bulletin* any NIOSH update of the definition within 30 days of NIOSH's notification to the Department.

(3) A clinical laboratory which conducts blood lead tests of 100 or more specimens per month shall submit results electronically in a format specified by the Department.

(4) A clinical laboratory which conducts blood lead tests of less than 100 blood lead specimens per month shall submit results either electronically or by hard copy in the format specified by the Department.

(5) A laboratory which performs blood lead tests on blood specimens collected in this Commonwealth shall be licensed as a clinical laboratory and shall be specifically approved by the Department to conduct those tests.

(6) Blood lead analyses requested for occupational health purposes on blood specimens collected in this Commonwealth shall be performed only by laboratories which are licensed and approved as specified in paragraph (5), and which are also approved by the Occupational Safety and Health Administration of the United

States Department of Labor under 29 CFR 1910.1025(j)(2)(iii) (relating to lead).

(7) A clinical laboratory shall complete a blood lead test within 5 work days of the receipt of the blood specimen and shall submit the case report to the Department by the close of business of the next work day after the day on which the test was performed. The clinical laboratory shall submit a report of lead poisoning using either the hardcopy form or electronic transmission format specified by the Department.

(8) When a clinical laboratory receives a blood specimen without all of the information required for reporting purposes, the clinical laboratory shall test the specimen and shall submit the incomplete report to the Department.

Erythrocyte protoporphyrin determinations may be performed as an adjunct determination to substantiate blood lead levels of 25 micrograms per deciliter or higher. Since erythrocyte protoporphyrin concentrations may not increase as a result of low-level exposures to lead, direct blood lead analysis is the only reliable method for identifying individuals with blood lead concentrations below 25 micrograms per deciliter.

Persons seeking blood lead or erythrocyte protoporphyrin analyses should determine that the laboratory employs techniques and procedures acceptable for the purpose for which the analyses are sought. Laboratories offering blood lead analysis only are designated with the letter "L" following the name of the laboratory. Those offering erythrocyte protoporphyrin analysis only are designated with the letter "P." Laboratories offering both services are designated with the letters "LP."

The list of approved laboratories will be revised approximately semiannually and published in the *Pennsylvania Bulletin*.

The name or location of a laboratory is sometimes changed but the personnel and testing procedures of the facility remain unchanged. When changes of this type occur, the Clinical Laboratory Permit number does not change. If questions arise about the identity of a laboratory due to a name or location change, the Clinical Laboratory Permit number should be used as the primary identifier. To assist in identifying a laboratory that performed a test if the name or location of the facility changed, the Clinical Laboratory Permit number of the facility at the time the list was prepared is included in the list of approved laboratories above the name of the laboratory.

The Department's blood lead proficiency testing program is approved by the United States Department of Health and Human Services (HHS) in accordance with the requirements contained in the Clinical Laboratory Improvement Amendments of 1988 (42 CFR 493.901 and 493.937) which are administered by the Centers for Medicare and Medicaid Services (CMS). Participation in these programs may therefore be used to demonstrate acceptable performance for approval purposes under both Federal and Commonwealth statutes.

Questions regarding this list should be directed to Dr. M. Jeffery Shoemaker, Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464.

Persons with a disability who require an alternative format of this notice (for example: large print, audiotape, Braille) should contact Dr. Shoemaker at the previously

referenced address or phone number. Persons who are speech or hearing impaired may use V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

DEPARTMENT OF PUBLIC WELFARE

Designated Exceptional Durable Medical Equipment

Purpose of Notice

In accordance with the Department of Public Welfare's (Department) currently approved State Plan the Department is required to publish an annual list of exceptional durable medical equipment (DME) by notice in the *Pennsylvania Bulletin* in July of each year. Interested persons may petition the Department to consider additions to the exceptional DME list by submitting a written request to the Department. Requests received on or before December 31 will be considered in developing the list for the following July.

During calendar year 2008, the Department received no written requests to add or remove items of DME from the list of exceptional DME. Therefore, this notice makes no changes in either the acquisition cost or the list of qualifying DME.

"Exceptional DME" is defined as DME that has an acquisition cost of \$5,000 or more and is either Specially Adapted DME or other DME that is designated as Exceptional DME by the Department annually by notice in the *Pennsylvania Bulletin*.

"Specially Adapted DME" is DME that is uniquely constructed or substantially adapted or modified in accordance with the written orders of a physician in the particular use of one resident, making its contemporaneous use by another resident unsuitable.

The list of Exceptional DME that has been designated by the Department is as follows:

(1) *Air fluidized beds.* The pressure relief provided by this therapy uses a high rate of airflow to fluidize fine particulate material (for example, beads or sand) to produce a support medium that has characteristics similar to liquid. May have a Gortex cover.

(2) *Powered air flotation bed (low air loss therapy).* A semi-electric or total electric bed with a fully integrated powered pressure-reducing mattress which is characterized by all of the following:

(a) An air pump or blower with a series of interconnected woven fabric air pillows which provides sequential inflation and deflation of the air cells or a low interface pressure throughout the mattress allowing some air to escape through the support surface to the resident. May have a Gortex cover;

(b) Inflated cell height of the air cells through which air is being circulated is 5 inches or greater;

(c) Height of the air chambers, proximity of the air chambers to one another, frequency of air cycling (for alternating pressure mattresses), and air pressure provide adequate patient lift, reducing pressure and prevent bottoming out;

(d) A surface designed to reduce friction and shear;

(e) May be placed directly on a hospital bed frame; and

(f) Automatically readjusts inflation pressures with change in position of bed (for example, head elevation, and the like).

(3) *Augmentative communication devices.* Used by residents who are unable to use natural oral speech as a primary means of communication. The specific device requested must be appropriate for use by the resident and the resident must demonstrate the abilities or potential abilities to use the device selected. Portable devices need to supplement, aid or serve as an alternative to natural speech for residents with severe expressive communication disorders. Nonportable devices may be covered only if required for visual enhancement or physical access needs that cannot be accommodated by a portable device.

(4) *Ventilators (and related supplies).*

(a) Used by residents 21 years of age and older who require full ventilator support for a minimum of 8 hours per day to sustain life.

(b) Used by residents 20 years of age and younger who require ventilator support to sustain life (no minimum time requirement).

DEPARTMENT OF REVENUE

Pennsylvania \$60,000 Triple Bingo Instant Lottery Game

Under the State Lottery Law (72 P. S. §§ 3761-101—3761-314) and 61 Pa. Code § 819.203 (relating to notice of instant game rules), the Secretary of Revenue hereby provides public notice of the rules for the following instant lottery game:

1. *Name:* The name of the game is Pennsylvania \$60,000 Triple Bingo.

2. *Price:* The price of a Pennsylvania \$60,000 Triple Bingo instant lottery game ticket is \$3.

3. *Play Symbols:*

(a) Each Pennsylvania \$60,000 Triple Bingo instant lottery game ticket will contain six play areas designated as "Card 1," "Card 2," "Card 3," "Card 4," "Card 5" and "Card 6." The 77 play symbols located in the six play areas are: The numbers 1 through 75, "FREE" symbol and a Moneybag symbol. The "FREE" symbol is a free space. The Moneybag symbol is a free space, and when it appears in a winning pattern, the prize triples.

(b) Each ticket will also contain a "CALLER'S CARD" area. The "CALLER'S CARD" area will consist of 30 spaces on a 10 by 3 grid. The play symbols that may be located in each space on the grid are: The letter B with a number 1 through 15; the letter I with a number 16 through 30; the letter N with a number 31 through 45; the letter G with a number 46 through 60; and the letter O with a number 61 through 75.

(c) Each ticket will also contain a separate Bingo "Bonus" area containing two prize play symbols. The prize play symbols and their captions, which may be located in the Bingo "Bonus" area, are: \$9⁰⁰ (NIN DOL), \$10⁰⁰ (TEN DOL), \$18⁰⁰ (EGHTN), \$30⁰⁰ (THIRTY), \$60⁰⁰ (SIXTY), \$90⁰⁰ (NINTY) and \$100 (ONE HUN). The Bingo "Bonus" area is played separately from the rest of the game.

4. *Prizes:* The prizes that can be won in this game are: \$3, \$6, \$10, \$30, \$60, \$90, \$150, \$300, \$1,000, \$3,000, \$30,000 and \$60,000. The prizes that can be won in the Bingo "Bonus" area are: \$9, \$10, \$18, \$30, \$60, \$90 and \$100. The player can win up to four times on each ticket.

5. *Approximate Number of Tickets Printed For the Game:* Approximately 9,600,000 tickets will be printed for the Pennsylvania \$60,000 Triple Bingo instant lottery game.

6. *Determination of Prize Winners:*

(a) Holders of tickets matching the "CALLER'S CARD" play symbols in an "X" pattern, extending through the "FREE" space and through to each of the four corner spaces, on "Card 6," shall be entitled to a prize of \$60,000.

(b) Holders of tickets matching the "CALLER'S CARD" play symbols in an "X" pattern, extending through the

“FREE” space and through to each of the four corner spaces, on “Card 5,” shall be entitled to a prize of \$30,000.

DEPARTMENT OF STATE

Election for the Office of Judge of The Superior Court of Pennsylvania

On June 15, 2009, the Secretary of the Commonwealth received written notice that Judge Maureen Lally-Green has revoked her declaration of candidacy for retention as a Judge of the Superior Court of Pennsylvania. Under the Constitution and laws of the Commonwealth, an election for the judicial office held by Judge Lally-Green will occur as part of the Municipal Election to be held November 3, 2009.

In the Municipal Election, the electors of the Commonwealth will elect four Judges of the Superior Court of Pennsylvania. Each elector will be entitled to vote for up to four candidates, with the four candidates receiving the largest number of valid votes being elected.

In the Municipal Primary held May 19, 2009, the electors of the Democratic Party and the Republican Party each nominated three candidates for the office of Judge of the Superior Court. By law, each of the certified Statewide political parties of the Commonwealth—the Democratic Party, the Republican Party and the Libertarian Party—will be permitted to nominate one additional candidate for Superior Court by submitting to the Secretary of the Commonwealth, no later than September 14, 2009, a nomination certificate in the form prescribed by law and prepared in accordance with the applicable rules of the political party. See 25 P. S. §§ 2938.3, 2953 and 2954 (relating to vacancy due to revocation of declaration of candidacy for retention; filling of certain vacancies in public office by means of nomination certificates and nomination papers; and number, form and requirements of nomination certificates to fill certain vacancies). Political bodies will be permitted to nominate a candidate by filing with the Secretary of the Commonwealth, no later than September 14, 2009, nomination papers prepared and submitted in accordance with the requirements of the Pennsylvania Election Code. *See id.*

Questions respecting this notice may be directed to Shauna Graves, Assistant Counsel, Department of State at (717) 265-7632 or shgraves@state.pa.us.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 645.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>

**Pennsylvania Gaming Control Board
Regulation #125-102 (IRRC #2757)
Key Employees and Complimentary
Services or Items**

June 25, 2009

We submit for your consideration the following comments on the proposed rulemaking published in the April 25, 2009 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

1. Section 401a.3. Definitions—Need; Economic impact.

The Board states it has amended the definition of “key employee” to expand the list of positions that require a key employee license. Several licensees have commented that this amendment is unnecessary and costly. The licensees state they are not aware of any problems that the amendment is designed to address.

It is our understanding that the key employee license requires a significantly more detailed background and financial review of an employee compared to a gaming license. The Board should provide the following to justify its proposed amendment:

- Explain the specific problem or problems the amendment addresses.
- Explain the difference between the requirements for a gaming employee and a key employee license, including the difference in costs.
- Explain how the benefits derived from the amendment justify the cost imposed.

2. Section 465a.7. Complimentary services or items.—Need; Economic impact; Clarity.

Submit internal controls for complimentary services to the Board for approval

The existing regulation in Subsection (a) requires licensees to maintain a written record of internal controls, but specifically does not require Board approval of them. The amendment to Subsection (a) would now require Board approval of internal controls for complimentary services and items. Commentators believe the existing regulation is sufficient and oppose the amendment because they believe it is unnecessary. The commentators believe this provision would curtail operating flexibility and would lead to frivolous compliance issues. The Board should provide further justification for the need to approve these internal controls and explain the economic impact of the amendment.

Clarity of approval process

The Board is amending Subsection (a) to require slot machine licensees to “submit internal controls for complimentary services and items to the Board for approval under § 465a.2 (relating to internal control systems and audit protocols).” The cross-reference to “approval under § 465a.2” is not clear because Section 465a.2 contains two approval processes. Under Section 465a.2, Subsection (a) is an approval process for initial internal controls and Subsection (f) is an approval process for amendments to internal controls. Since licensees under existing regulation already have approved internal controls, but did not have to obtain approval of internal controls for complimentary services, will the Board consider the filings pursuant to this rulemaking to be an initial filing or an amendment? The Board should clarify the approval process that will be used, the information required for submittal of internal controls for complimentary services and the cross-reference to “approval under § 465a.2.”

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Implementation Order

Public Meeting held
June 18, 2009

Commissioners Present: James H. Cawley, Chairperson;
Tyrone J. Christy, Vice Chairperson; Kim Pizzigrilli;
Wayne E. Gardner; Robert F. Powelson, Statement

*Smart Meter Procurement and Installation; Doc. No.
M-2009-2092655*

Implementation Order

By the Commission:

The Pennsylvania General Assembly (General Assembly) has directed that electric distribution companies with more than 100,000 customers file smart meter technology procurement and installation plans with the Commission for approval. 66 Pa.C.S. § 2807(f). This Implementation Order will establish the standards each plan must meet and provide guidance on the procedures to be followed for submittal, review and approval of all aspects of each smart meter plan. This Implementation Order will also establish minimum smart meter capability and guidance on the Commission's expectations for deployment of smart meters.

Background and History of this Proceeding

Governor Edward Rendell signed Act 129 of 2008 ("the Act" or "Act 129") into law on October 15, 2008. The Act took effect 30 days thereafter on November 14, 2008. Among other things, the Act specifically directed that within 9 months of its effective date, electric distribution companies ("EDCs") are to file, with the Commission for approval, a smart meter technology procurement and installation plan. 66 Pa.C.S. § 2807(f)(1). Each EDC

smart meter plan must describe the smart meter technologies the EDC proposes to install, upon request from a customer at the customer's expense, in new construction and in accordance with a depreciation schedule not to exceed 15 years. 66 Pa.C.S. § 2807(f)(1) and (2). The Act also establishes a requirement for EDCs to make available to third parties direct meter access and electronic access to meter data by third parties, upon customer consent. 66 Pa.C.S. § 2807(f)(3). The Act further defines minimum smart meter technology capabilities. 66 Pa.C.S. § 2807(g). Finally, the Act establishes acceptable cost recovery methods. 66 Pa.C.S. § 2807(7).

On March 30, 2009, the Commission issued a Secretarial Letter seeking comments on a draft staff proposal and additional questions regarding EDC smart meter procurement and installation. Comments were due by April 15, 2009, with reply comments due April 27, 2009. On April 9, 2009, the Commission, at the request of several interested parties, issued a Secretarial Letter extending the comment period to April 20, 2009, and the reply comment period to April 29, 2009.

The following parties filed comments: West Penn Power Company, d/b/a Allegheny Power ("Allegheny"); Citizen Power ("Citizen"); Constellation NewEnergy, Inc. ("Constellation"); Duquesne Light Company ("Duquesne"); Elster Integrated Solutions ("Elster"); The Energy Association of Pennsylvania ("EA"), Exelon Energy ("Exelon"); Metropolitan Edison Company, Pennsylvania Electric Company, Pennsylvania Power Company (collectively "FirstEnergy"); the Industrial Energy Consumers of Pennsylvania ("IECPA"); Office of Consumer Advocate ("OCA"); PECO Energy Company ("PECO"); PPL Electric Utilities Corporation ("PPL"); Sensus Metering Systems ("Sensus"); Tendril Networks, Inc. ("Tendril"); and Trilliant, Inc. ("Trilliant"). The following parties filed reply comments: Duquesne; EA; FirstEnergy; IECPA; PECO; and PPL.¹

Discussion

In this section the Commission will outline the standards each plan must meet and provide guidance on the procedures to be followed for submittal, review and approval of all aspects of each smart meter plan. This section will also establish guidance on the Commission's expectations for the deployment of smart meters, as well as minimum smart meter capabilities. This section will also describe requirements regarding access to smart meters and data. Finally, in this section the Commission will provide guidance on EDC smart meter technology cost recovery.

A. Plan Approval Process

Within 9 months after the effective date of Act 129, each EDC with more than 100,000 customers is to file a smart meter technology procurement and installation plan with the Commission for approval. 66 Pa.C.S. § 2807(f)(1) and (6). As Act 129 became effective on November 14, 2008, the smart meter plans must be submitted on or before August 14, 2009. Each smart meter plan shall include: a summary of the EDC's current deployment of smart meter technology, if any; a plan for future deployment, complete with dates for key milestones and measurable goals; and such other information as is required by this Order. The plans shall be served on the Office of Consumer Advocate, the Office of Small

¹ Wal-Mart Stores East, LP and Sam's East Inc. filed a Petition for Extension of Time to file reply comments, which this Commission denied in a letter dated May 6, 2009. While we rejected Wal-Mart's and Sam's petition, we did receive and consider their reply comments submitted on May 1, 2009.

Business Advocate, the Office of Trial Staff, and Electric Generation Suppliers licensed to provide service in the Commonwealth.

Comments to the smart meter plans will be permitted to be filed by September 25, 2009. Following the receipt of comments, the plans will be referred to the Office of Administrative Law Judge for such proceedings as may be deemed necessary. There will be at least one technical conference scheduled for each plan during October, 2009, at which the filing EDC will present personnel with in-depth knowledge of the plan who can respond to questions regarding all aspects of the plan. The technical conference(s) shall be transcribed and the transcript(s) will become part of the record in the proceeding.² Any evidentiary hearings that may be necessary shall be held during November 2009.

At the conclusion of the technical conference and any evidentiary hearings that may be necessary, an initial decision will be issued resolving all issues raised in the proceeding. It is anticipated that an Initial Decision will be issued on or before January 29, 2010. Parties will be permitted to file Exceptions and Reply Exceptions as set forth in Section 5.533 of the Commission's Regulations, 52 Pa. Code § 5.533. Parties are strongly encouraged to pursue settlement opportunities during the proceeding. It is expected that the comments and technical conference(s) will promote settlement efforts.

Several parties provided comments on the staff proposal's plan approval process. The EA asserted that the plan approval process should be a collaborative process rather than an adversary proceeding. We note that, after smart meter plans are referred to the OALJ, the proceedings will be conducted in accordance with the Commission's Rules of Administrative Practice and Procedure. This does not mean that the plan approval process must be a contentious adversary proceeding. We encourage parties to seek collaborative solutions to issues that arise during the plan approval process. Nevertheless, due process considerations require that we preserve the right of the parties to litigate if cooperative solutions cannot be reached and obtain an adjudication from the Commission.

Several commentators, including the OCA, expressed concern that the plan approval process described in the staff proposal did not provide adequate time for review of smart meter plans. They noted that Act 129 does not prescribe the period for reviewing and approving smart meter plans. Consequently, they argued that the plan approval process can and should be extended so that the review of smart meter plans is not unduly constrained.

In addition, the OCA and other commentators asserted that the proposed plan approval process should be modified to improve coordination with other proceedings required by Act 129. They point out that, under the plan approval process as described in the staff proposal, comments would be due and technical conferences would be held during August and September, 2009. During that same period, the EDCs, the statutory advocates, the ALJs and many other interested stakeholders will be engaged in Act 129 proceedings regarding Energy Efficiency and Conservation Plan approvals. These commenters conclude that the plan approval process should be modified so that it is better integrated with Energy Efficiency and Conservation Plan approvals.

² Any technical conference should be conducted as informally as possible, consistent with the good order of the proceedings. Lay persons will be permitted to directly ask questions of the EDC representatives, although such lay persons must be affiliated with an admitted Party of Record.

Allegheny, on the other hand, asserted that Initial Decisions should be issued quickly due to the time necessary to implement plans following their approval. In addition, Duquesne expressed its support for the plan approval process described in the staff proposal.

While the Commission agrees with the need to complete the plan approval process expeditiously, we are persuaded that the process, and its results, will be improved considerably if we extend the time period for reviewing and approving plans. We will not, however, adopt OCA's proposal as that proposal does not provide the ALJs with adequate time to prepare an initial decision following the receipt of briefs and reply briefs in December 2009.

Accordingly, as outlined previously, we will require smart meter plans to be filed with the Commission on or before August 14, 2009. Comments may be filed with the Commission on or before September 25, 2009. Technical conferences will be held during October 2009, with evidentiary hearings, if necessary, to be held during November 2009, and Initial Decisions to be issued on or before January 29, 2010. Any party may file Exceptions and/or Reply Exceptions to the Initial Decisions, in accordance with Commission Regulations, before the Commission issues its final decision.

B. Smart Meter Deployment

Act 129 requires EDCs to furnish smart meter technology: (1) upon request from a customer that agrees to pay the cost of the smart meter at the time of the request; (2) in new building construction; and (3) in accordance with a depreciation schedule not to exceed 15 years. 66 Pa.C.S. § 2807(f)(2). The Commission recognizes that a fully functional smart meter involves more than just the meter hardware attached to the customer's premises. A fully functional smart meter that supports the capabilities required by Act 129 and as outlined as follows, involves an entire network, to include the meter, two-way communication, computer hardware and software, and trained support personnel. The Commission also recognizes that it may take time for EDCs to select and install the required smart meter network components, and to train support personnel.

1. Network Development and Installation Milestones

As EDCs will need time to develop and install the entire smart meter network, the Commission is granting a network development and installation grace period of up to 30 months following plan approval. During this grace period the Commission will not require EDCs to install a smart meter at a customer's premises. However, during this grace period, the Commission will require EDCs to provide interval data capable meters, if the existing meter is not capable of providing interval data, and direct access to the customer's interval data to third-parties, such as EGSs or CSPs, upon customer request.³ The access to this interval data should be available in real-time, if requested, and in a manner consistent with RTO requirements. In addition, EDCs will be permitted to continue to offer their already established and approved time-of-use rate programs.

The Commission also directs all covered EDCs to include in their smart meter procurement and installation plan filing a proposal for meeting specific milestones within this 30 month grace period. Each covered EDC must include a justification and its plan for meeting the following milestones:

³ These interval capable meters are not smart meters as they will not have the capabilities outlined in section C of this Order. However, they are capable of providing real-time pulse data that enables the recording of usage at set intervals.

- Assessment of needs and technological solutions.
- Selection of technologies and vendors.
- Establishment of network designs.
- Establishment of plans for training personnel.
- Establishment of plans for installation, testing and rollout of support equipment and software.
- Installation, testing and rollout of support equipment and software.
- Establishment of plans to design, test and certify EDI transaction capability consistent with this order.
- Establishment of plans for installation of meters consistent with the rollout requirements described as follows.

Each plan must include a schedule to meet each of these milestones, as well as specific reporting deadlines when the EDC will provide this Commission with reports on the status of its plan.

Several commentators provided input regarding the proposed 18 month network development and installation grace period. Overall, the topic of an 18 month grace period was the issue that generated the most consensus. The general take on the issue was that 18 months was not nearly enough time for the EDCs to have their smart meter networks up and running. Among those holding this position was: the EA, Allegheny, PPL, FirstEnergy, PECO and Duquesne. Specifically, PPL noted that just the selection and procurement process for the meters would take 18 months, while a separate 18 month period would be required for planning and development associated with meter data management and an additional couple of years for the installation and integration of such systems.

FirstEnergy urged the Commission to remain flexible with its time lines, due to the inherent differences of the EDCs' service territories and starting points. The EA, FirstEnergy and PECO asserted that the 18 month grace period should not commence until a vendor contract is approved. PECO anticipated delays in the marketplace due to the high number of EDCs purchasing smart meters and network equipment at the same time and suggested delaying the start of the grace period until a final vendor contract is signed and approved. The EA supports the use of key goals and milestones for each EDC and encourages flexibility of such goals, as all EDCs are unique.

It seems clear that the suggested 18 month grace period is not a sufficient amount of time for the EDCs to design and install their smart meter networks. The Commission agrees that some flexibility must be provided in the design and installation of a smart meter network, as some EDCs face greater logistical challenges than others do. Therefore, the Commission has established a period of up to 30 months for each EDC to assess its needs, select technology, secure vendors, train personnel, install and test support equipment and establish a detailed meter deployment schedule consistent with the statutory requirements. This grace period will commence upon Commission approval of an EDC's smart meter plan. This will afford each EDC more time and flexibility in the design and development process to ensure that it can meet the demands and challenges unique to each service territory.

2. Customer Request

As pointed out previously, the Commission will not require EDCs to deploy smart meters until after the

EDC's Commission approved network development and installation grace period ends. Once this grace period expires, each covered EDC must supply a smart meter upon request by a customer, per Act 129.

The Commission recognizes that deployment of smart meters on a piecemeal or individual basis could involve greater costs than a systematic systemwide deployment. The General Assembly recognized this as well when it included the proviso that the customer requesting the smart meter must agree to pay for the cost of the smart meter. However, the Commission does not believe it was the intent of the General Assembly for this customer to pay the entire cost of the smart meter and its supporting infrastructure. Such a requirement would be so cost-prohibitive that no customer would request a smart meter. Furthermore, the customer would be paying for the smart meter directly and also through the EDC's cost recovery mechanism. Such a result would be an absurd, impossible and unreasonable outcome, which is contrary to the rules of statutory construction. See 1 Pa.C.S. § 1922(1). To avoid this absurd result, the Commission believes that only the incremental costs over and above the cost for systemwide deployment are to be paid by customers requesting early deployment of a smart meter.

The Commission directs each covered EDC to include in its smart meter plan a proposal to install individual smart meters in advance of the EDC's systemwide deployment and after the network installation grace period. This proposal should include an itemization of the incremental costs. If an EDC cannot provide the incremental costs at the time of its initial filing, it will have to seek Commission approval of these incremental charges prior to the expiration of the approved network grace period. If an EDC does not obtain approval of these incremental costs prior to the end of the grace period it must install individual smart meters at its own expense. Such costs are not recoverable from ratepayers.

Several commentators expressed concerns regarding the costs associated with installing smart meters at customer request under 66 Pa.C.S. § 2807(f)(2)(i). OCA agreed that a customer should pay for the incremental costs of installing a meter prior to the scheduled rollout. However, OCA does not feel that the customer should have to provide payment upfront to cover the costs, but rather the costs should be recovered through an increased customer charge on the customer's monthly bill. OCA also warns that care must be taken to ensure that the customer is not being subjected to any sort of double recovery. PECO and FirstEnergy maintain that the customer must pay these costs as a lump sum at the time of the request, as stated in Act 129.

FirstEnergy submits that 52 Pa. Code § 57.20(h) provides that "a service watt-hour meter which is removed from service shall be tested for 'as found' registration accuracy." FirstEnergy requests that the Commission provide EDCs with a blanket waiver of this requirement, as the meters are not being replaced due to any perceived malfunction and will not be put back into service. FirstEnergy posits that such a waiver will eliminate unnecessary costs associated with systemwide smart meter installation.

Duquesne states that the incremental costs to an individual customer would be astronomical because reading the new meters without having deployed the entire infrastructure would require the purchasing of trucks and the hiring of meter readers and administrative office workers to manually enter the meter reads.

The Commission interprets the Act to mean that a customer must pay the costs of installing a meter at the time of the request, and hence disagrees with OCA's assertion that the costs should be embedded in a customer charge. The EDC needs to be reimbursed for the task of installing a meter on a piecemeal basis, and the easiest way to accomplish that recovery is not through a customer charge increase, but rather by receiving an upfront payment from the customer.

As for Duquesne's worry about the incremental costs being astronomical, the Commission believes there is confusion when Duquesne says it is worried about reading meters before the new infrastructure is in place. The Commission is not requiring an EDC to do anything extraordinary during this smart meter procurement and installation grace period. The requirement to install interval capable meters during the grace period or smart meters at the request of a customer is intended to support rate structures, energy efficiency or demand response programs offered by the EDC or a third party at the request of a customer. These types of programs have been in place and offered to customers for decades. All the Commission is requiring is that EDCs facilitate these programs in a cost effective manner that provides access to the data needed to support these programs without unnecessary or unreasonable barriers. Therefore, the Commission expects the EDCs to provide a plan for supporting these programs in such a manner that does not require unreasonable or imprudent costs. Furthermore, all incremental costs that EDCs plan on recovering from a customer must first be reviewed and approved by the Commission. Staff believes these costs will be reasonable and by no means astronomical.

The Commission agrees with FirstEnergy that the costs of complying with 52 Pa. Code § 57.20(h) are unnecessary and will grant a waiver of this provision for watt-hour meters that are being replaced with smart meters in accordance with an approved plan. The Commission believes it would add unreasonable and unnecessary costs to require the EDCs to test every meter removed for the purposes of upgrading to a smart meter.

3. New Construction

As with all equipment, meters have a useful life. EDCs determine how much to invest in meter equipment based on its useful life and have an opportunity to depreciate that investment over the useful life of the meter. In addition, EDCs have an opportunity to recover the cost of the meter from ratepayers. Therefore, if a meter is replaced prior to the end of its useful life, the EDC will not be able to take advantage of the full depreciation of that meter or the ratepayers will pay an increased rate to cover the cost of both meters. The Commission believes that the intent of the Act's provision for installing smart meters in new construction was to avoid this waste and added expense.

Again, the Commission will not require deployment of smart meters in new construction during an EDC's approved network grace period. However, the Commission will direct all covered EDCs to develop a plan to install smart meters in new construction that is begun after the network grace period. Therefore, the Commission directs each covered EDC to include in its smart meter plan a proposal for deployment of smart meters in new construction. Such a proposal should include a plan to identify new developments and construction early enough to incorporate it into the system-wide deployment proposal.

Several parties commented on the proposed rollout of smart meters in new construction. OCA posits that smart

meters should be installed on new construction from the beginning, even during the network installation grace period. OCA asserts that while the smart meters will not be fully functional, the smart meters should still be able to provide the necessary billing data. FirstEnergy, PECO and PPL disagree, noting that while the meter may be able to provide billing data, the method for providing that data may not be compatible with its existing systems. FirstEnergy does not object to providing smart meters on new construction after the grace period, provided that the Commission allows for flexibility in making the smart meters fully functional and that the customer pays the incremental costs. Duquesne asserted that installation of smart meters should be addressed in the same manner as installation at customer request. Duquesne notes that customer preference should determine which meter to install between the end of the grace period and system-wide deployment.

The Commission agrees with FirstEnergy, PECO and PPL that installation of smart meters on new construction during the grace period would not be practical or cost-effective as the EDCs will not have selected the technology they will employ. Furthermore, the smart meter may not be compatible with its existing meter reading technology. As such, the Commission directs EDCs to handle any new construction customer that requests a smart meter during the grace period under the procedures addressed above for customer requested meters.

4. Systemwide Deployment

The Commission believes that it was the intent of the General Assembly to require all covered EDCs to deploy smart meters systemwide when it included a requirement for smart meter deployment "in accordance with a depreciation schedule not to exceed 15 years." It is this systemwide deployment that will provide the foundation for the EDCs' smart meter installation plans. Therefore, it is crucial for the EDCs to develop a plan that will best meet the needs of their service territory, while at the same time operating in a manner that is both cost and time effective.

The EDCs shall detail their systemwide deployment plans to the Commission, including any type of tiered rollout the company proposes, as well as the associated costs and benefits incurred from such a rollout. This systemwide plan should also incorporate a coordination element with the new construction deployment component. Furthermore, the Commission will require all EDCs to file a "Smart Meter Progress" report on an annual basis that will update the status of their installation plans, including the number of customers who received meters in the prior year, the estimated number of customers scheduled to receive meters in the coming year, and all costs associated with the meter plan incurred during the previous year.

It should also be noted that Act 129 uses the language "not to exceed 15 years." An EDC is encouraged to expedite the deployment process if it will provide increased customer benefits in a cost-effective manner. Again, the primary goal of the EDC deployment plan should be to implement a deployment and installation schedule that best balances the overall efficiency and timeliness of the smart meter installations with the costs incurred.

OCA commented that the Commission needs to clarify whether the 15 year depreciation schedule outlined in Act 129 commences upon plan approval or following the grace

period. The Commission believes that the 15 year depreciation period should commence upon plan approval, and that the grace period is simply a period of time within that 15 year time frame.

C. Smart Meter Capabilities

Act 129 defines smart meter technology as including metering technology capable of bidirectional communication that records electricity usage on at least an hourly basis, including related electric distribution system upgrades to enable the technology. 66 Pa.C.S. § 2807(g). The Act further states that the smart meter technology must provide customers with direct access to and use of price and consumption information, to include: (1) direct information on their hourly consumption; (2) enable time-of-use rates and real-time price programs; and (3) effectively support the automatic control of electricity consumption by, the customer, the EDC or a third-party, at the customer's request. 66 Pa.C.S. § 2807(g).

The Act further requires that default service providers submit time-of-use rates and real-time pricing plans by January 1, 2010, or at the end of the applicable generation rate cap period, whichever is later. Default service providers must offer the time-of-use rates and real-time pricing plans to all customers that have been provided with smart meter technology. 66 Pa.C.S. § 2807(f)(5). Real-time pricing is defined as "a rate that directly reflects the different cost of energy during each hour." 66 Pa.C.S. § 2806.1(m). A time-of-use rate is defined as "a rate that reflects the costs of serving customers during different time periods, including off-peak and on-peak periods, but not as frequently as each hour." *Id.*

The Commission believes that the smart meter capability requirements set out in Act 129 are minimal requirements. The Commission also recognizes that smart meter technology can support more than demand response and pricing programs. Smart meters have the ability to support maintenance and repair functions, theft detection, system security, consumer assistance programs, customer-generator net metering, and other programs that increase an EDC's efficiencies and reduce operating costs. Therefore, the Commission directs that a covered EDC's smart meter technology must support the following capabilities:

1. Bidirectional data communications capability.
2. Remote disconnection and reconnection.
3. Ability to provide 15-minute or shorter interval data to customers, EGSs, third-parties and the regional transmission organization ("RTO") on a daily basis, consistent with the data availability, transfer and security standards adopted by the RTO.
4. A minimum of hourly reads delivered at least once per day.
5. Onboard meter storage of meter data that complies with nationally recognized nonproprietary standards such as ANSI C12.19 and C12.22 tables.
6. Open standards and protocols that comply with Nationally recognized nonproprietary standards, such as IEEE 802.15.4.
7. Ability to upgrade these minimum capabilities as technology advances and becomes economically feasible.
8. Ability to monitor voltage at each meter and report data in a manner that allows EDC to react to the information.
9. Remote programming capability.

10. Communicate outages and restorations.
11. Ability to support net metering of customer-generators.
12. Support automatic load control by EDC, customer and third-parties, with customer consent.
13. Support time-of-use and real-time pricing programs.
14. Provide customer direct access to consumption and pricing information.

While the Commission believes that all of the previously-listed capabilities will further facilitate the consumer's ability to intelligently control their electric use and costs, we are cognizant that the costs of some of these added capabilities may exceed any benefit they may provide. Therefore, the Commission reserves the authority to waive the requirement for any of the Commission imposed requirements as described in section E.1. This waiver authority does not extend to the minimum requirements delineated in 66 Pa.C.S. § 2807(g).

Several commentators provided input regarding the smart meter capabilities listed in the staff proposal. We will address each of the major issues raised by commentators relating to smart meter capabilities.

1. Remote disconnect, reconnect, service limiting and prepay capabilities

In their comments, Allegheny and PECO favor requiring smart meters to support remote disconnect and reconnect, as well as service limiting and prepaid service programs. Duquesne supported remote disconnect and reconnect for single phase, self-contained and class 200 or less meters, but suggested that revisions to Chapter 56 need to be considered before committing to these capabilities. PPL noted that there are institutional impediments to deployment of remote disconnect and reconnect capability. In addition, PPL and OCA noted that remote disconnect and reconnect, as well as, service-limiting and prepay functionality involves significant public policy considerations that raises process and safeguard issues. OCA is further concerned that by requiring smart meters to support remote disconnect, service limiters and prepaid service sends a strong signal to EDCs to implement these capabilities. OCA specifically stated that "the use of smart meter technology to terminate customers, limit service, or require prepayment of service raise significant concerns for the health and safety of the residents of the Commonwealth."⁴

The Commission agrees in part with Allegheny, OCA, PECO and PPL. Specifically, the Commission agrees that the significant policy implications of service limiting and prepaid service should be addressed in another proceeding prior to requiring such capability in smart meters. Therefore, we have removed support for service-limiting, and prepaid service as a minimum capability requirement. This does not preclude EDCs from including these capabilities, however, an EDC cannot employ these capabilities unless it is approved by the Commission and consistent with regulations governing such programs, such as 52 Pa. Code § 56.17.

The Commission does not believe that the same policy uncertainties exist with regard to remote disconnect and reconnect. The policy issues and procedures regarding termination and reconnection of service are addressed in the Public Utility Code ("Code"), at 66 Pa.C.S. §§ 1401—1418 and this Commission's regulations. Requiring the

⁴ OCA Comments at page 10.

ability to remotely disconnect and reconnect service in no way abrogates an EDC's obligation to adhere to the Code or this Commission's regulations. Therefore, the Commission will require that smart meters have a capability to remotely disconnect and reconnect service as it provides the ability to increase safety, efficiency and cost benefits.

Ability to provide 15-minute reads

Duquesne, FirstEnergy, PECO, PPL and OCA do not support the inclusion of 15-minute or shorter interval data capability. Instead the parties support hourly data intervals. Duquesne supports hourly and real time pulse data. OCA and PECO assert that the 15-minute or shorter requirement goes beyond Act 129. PECO notes that this requirement is not practical or useful for residential or small commercial customers and that mandating collection of this data may result in increased costs with no benefits. PPL adds that there is less need today than in the past for 15-minute interval data as settlements are conducted on an hourly basis.

However, PPL also recognized that some demand side management programs require less than hourly data intervals. To accommodate this limited group of customers, PPL recommended that the Commission direct that EDC Smart Meter Plans demonstrate how this need will be met. An example offered by PPL involves access protocols for parties to obtain pulse data when hourly data is not sufficient.

Constellation, Elster and Trilliant support the inclusion of the 15-minute or shorter interval data capability. Constellation contends that each meter should be programmable so that a 1-, 5-, 15-, 30- or 60-minute interval could be set. This interval should be based on customer requirements rather than administratively set by the Commission. Elster notes that typical residential systems are capable of providing 15-minute interval data. The interval selected may be more or less frequent depending on specific utility application. Trilliant adds that systems should be configurable to intervals between 5- and 60-minutes. Elster, however, notes that the shorter data intervals will increase costs.

The Commission agrees with Constellation, Elster and Trilliant and concludes that the ability to provide 15-minute or shorter interval data is appropriate. We stress however, that the ability to provide 15-minute or shorter interval data does not mean that EDCs must collect this data on all customers at all times. The ability to provide 15-minute or shorter interval data will allow for EDCs and third parties with customer consent to offer and support rate plans that utilize this level of granularity. The Commission will therefore require that EDC smart meter plans demonstrate how the need for 15-minute or shorter data intervals will be met.

2. Meter storage

Duquesne supports on board meter storage of meter data that complies with Nationally recognized non-proprietary standards without specifying one particular standard. FirstEnergy supports ANSI C12.22 and C12.19 or their equivalents. PPL indicates that standards should be followed as appropriate, but questions why it is necessary to follow standard protocol for storage in the meter that is unlikely to be communicated anywhere but the EDC repository.

The Commission agrees with FirstEnergy and has added the ANSI C12.22 standard. The ANSI C12.19 and C12.22 are standards for storage and transport of register data over a network. The Commission is aware that a number of factors including memory size, number of data

channels being recorded and interval length can impact the number of storage days. The intent of a minimum number of storage days is to ensure that adequate monthly billing data is retrieved before the data is overwritten. Therefore, rather than reference a specific number of days, the Commission requires that EDC smart meter plans incorporate provisions ensuring that all billing data is retrieved before data is overwritten and recoverable following communications outages.

3. Open standards and protocols

Tendril suggests that the Commission should accept any Nationally recognized, nonproprietary standard. Trilliant adds that protocols should be focused at a high level, such as IEEE 802.15.4 (open standard for radio technology). Allegheny notes, for example, that ZigBee is built upon this standard. Elster, however, emphasizes that there is more than one protocol. Duquesne cites the existence of 14 HAN solutions, open or otherwise. The Commission agrees that protocols should be focused at a high level, such as IEEE 802.15.4, and therefore, directs compliance with this standard. The Commission also encourages EDCs to adopt other open protocols and standards that enhance interoperability that are developed subsequent to this order, to the extent available at the time the vendor contract is solicited.

4. Upgradability

Duquesne suggests that technology should be evaluated to accommodate future upgrades, noting that some capabilities can be upgraded as technology advances and becomes economically feasible, while other capabilities are costly to implement without complete meter and system replacement. Duquesne emphasizes that it is difficult to implement a system now to accommodate unknown technical advances. Similarly, PPL notes that it is more important to build flexibility into smart meter systems than it is to anticipate every future need.

The Commission agrees with Duquesne that some capabilities can be upgraded as technology advances and becomes economically feasible, while other capabilities are costly to implement without complete meter and system replacement. The Commission, therefore, directs that EDC smart meter plans identify capabilities that have the potential to be upgraded without complete system replacement as technology advances and becomes economically feasible.

5. Ability to monitor voltage

PPL asserts that it is premature to assume that voltage monitoring has value and that an operations management system and remotely controlled equipment exists to make use of the data. PPL adds that this capability may be appropriate in certain evolutions of the smart grid. The Commission disagrees with PPL in that this feature will serve to enhance reliability aspects associated with the grid. The Commission, therefore, will require that smart meters have a capability to support the ability to monitor voltage.

6. Direct access to consumption and pricing information

Allegheny noted that most smart metering vendors support two standards for a home-area-network ("HAN") protocols, proprietary and ZigBee. Duquesne recommended that usage information should be validated and made available within 48 hours through a HAN or Internet. Duquesne also recommended that the pricing information should reflect the tariff rate and be made available through the Internet or HAN. FirstEnergy

commented that pricing information should be provided through the Internet, noting that HAN type devices will be a competitive offering that should not be dictated by regulation. FirstEnergy and PECO also recommended that validated usage data should be made available in a minimum of 48 hours. PECO posits that data from the meter to a HAN device be limited to raw consumption data. Tendril comments that the Commission should not establish a single standard protocol for delivery of usage information, noting that this information should be available through any and all means that match customer preferences. Regarding pricing data, Tendril encourages a reliance on open standards such as the Smart Energy Profile data standard established by the ZigBee Alliance.

Regarding the comments related to validated consumption data, the Commission agrees in part with FirstEnergy and PECO. We accept that this data should be made available to customers or their designated third-parties within 48 hours, but we adopt this as a minimum standard, at least initially. Ideally, as noted by various parties, the information should be available the next day. Allegheny has already proposed to do this in 24 hours and FirstEnergy noted a 48 hour delay could be shortened as experience is gained.

Regarding comments on the use of open standards and protocols for meter connectivity with other devices, the Commission will not require compliance with one set of standards. Nor will we establish a new standards working group but will instead allow the industry to continue to develop uniform standards for communications firmware and software that would impact consumer products and services in the marketplace. However, the Commission will require EDC smart meters to have a capability to provide raw near real-time consumption data through a HAN or similarly capable method with open protocols. This delivery method should also be capable of providing pricing signals to support real-time and time-of-use pricing programs, as well as energy efficiency and demand response programs. Smart meters should support EDC and EGS time-of-use and real-time-pricing programs. Similarly, smart meters should support EDC, EGS and CSP energy efficiency and demand response programs. An EDC should not use these systems to gain competitive advantage for only its pricing and demand response programs.

D. Access to Smart Meters and Data

Act 129 requires EDCs to make available to third parties, including electric generation suppliers and providers of conservation and load management services, with customer consent, direct access to the meter and electronic meter data. 66 Pa.C.S. § 2807(f)(3). The Commission believes that the true usefulness of smart meters is to provide information to empower customers to control their electric use, for knowledge itself is power.⁵

For customers to be empowered they, or their designated representatives, must have direct access to their consumption data and price data. Therefore, the Commission directs that all covered EDCs must provide at least the following access to their smart meters and data:

1. Nondiscriminatory access for retail electric suppliers and third-parties, such as EGSs, and conservation and load management service providers;
2. Open, nonproprietary two-way access for electric suppliers and third-parties, such as EGSs, and conservation and load management service providers; and

3. Full electronic access to customers and their representatives to meter data upon customer consent.

The Commission further directs that each EDC plan must address standards and formats for electronic data communications with customers and third parties. There are many approaches for requesting and providing meter-level data today, such as, electronic bulletin board, pass-key protected web sites, compact disk, and the like. In addition, EDI (ASC X12 standards) capability has been built by the electricity industry in the Commonwealth to facilitate a reliable, secure economic approach for communicating verified customer data for electric choice. Regardless of the standard or format identified, compliance with Commission orders relating to electronic data communications and the approved Internet protocol at Docket No. M-00960890F0015, is required for third-party access to verified EDC meter data. The third-party must be EDI tested and certified with the EDC and is free to transcribe that data into any format to meet the customer's specific needs.

To achieve the capabilities of smart meter technology, however, EDCs are required to implement an EDI transaction relating to enrollment of customers who elect service on a real-time-price or time-of-use rate program, and a new historical interval usage transaction in order to provide customers and their designated agents with 12 months of interval usage data under Commission orders at Docket No. M-00960890F0015. Also, the historical usage data transaction must facilitate third-party exchange of historical interval usage data recorded at the meter level. An EDI transaction will also need to be developed and implemented for the exchange of monthly, billing quality, interval usage data recorded at the meter level versus the current practice of providing usage data at the account level. These and other developments necessary for the implementation of smart meter technology plans require EDC and third-party participation in the Commission's Electronic Data Exchange Working Group ("EDEWG"). Therefore, EDCs are directed to propose EDI capabilities for this purpose through the EDEWG for Commission review no later than January 1, 2010. In developing these proposals, EDCs are encouraged to look at any applicable national standards, such as those developed by the North American Energy Standards Board. EDCs shall identify in their plans target dates for the testing and certification of these EDI transactions with their business partners in order to meet the smart metering implementation deadline as specified in this Order.

In general, most commentators who addressed the direct meter access issue agree that allowing direct access to the meter itself raises security and safety concerns. PPL commented that communications are separate from metering company responsibilities and is concerned that the term "direct access" can be interpreted as direct access to raw unvalidated data. Citizen stated that smart meter information should be accessible to customers from a web site and directly from the meter, if not cost prohibitive. Duquesne supports direct access to and use of price and consumption information, but does not support direct access to its meters for security reasons. FirstEnergy posits that access to the meter should be strictly prohibited, but that access to the meter data should be permitted under conditions that protect privacy and security. FirstEnergy also encourages the adoption of Nationally recognized standards and protocols. PECO expressed a concern about network security and manage-

⁵ Francis Bacon.

ment risks and does not want a mandate that provides customers and third-parties unrestricted access to the EDC's metering network.

Constellation noted that curtailment service providers and EGSs require direct access to the meter to poll interval data and that should not be burdened by installing their own equipment to collect this data. Exelon suggests that there should be consistency across service territories regarding technological capabilities, protocols and processes. Tendril commented that direct, near real-time access to information is critical and that it is extremely important to accommodate two-way communication through the meter interface.

In response to comments on this issue, the Commission interprets the phrase, "make available direct meter access and electronic access to customer meter data," at 66 Pa.C.S. § 2807(f)(3), as the customer's or customer designated third-party's ability to receive price and meter data in a timely manner and format that is useful and beneficial to the customer in terms of cost and value. Examples of customer benefits from direct access may include, but not be limited to, direct load control, automated appliance control and demand response pricing through the grid.

Additionally, the Commission notes that the EDC, who owns the meter, is responsible for providing direct access through the installation of a smart meter and infrastructure that will enable the end user to receive metered price and consumption information, at least in near real-time and in a format that is not proprietary or unduly discriminatory. Many industry standards groups are engaged in addressing and defining business practices and requirements for smart metering products, services and open data communications that will preserve the integrity, reliability and security of the National grid, the local distribution system and the consumer's data. The National Institute of Standards Technology, the North American Energy Standards Board, and the Utility Communications Architecture International Users Group are worthy of EDC participation for achieving the smart metering requirements of Act 129. Therefore, we direct EDCs to adhere to common industry and communications standards for providing consumers direct access to smart meters and data under this Order.

Nevertheless, for security reasons we determine that a distinction should be made between access to the physical meter and access to the meter information, and we will not require EDCs to allow customers and their designated agent to tamper or physically access the meter itself. However, this directive is not intended to preclude third-parties, with customer consent, from obtaining raw meter data through meter pulse leads, a secure web-portal or other secure means reasonably available to the customer or designated third-party. We agree with the OCA and Sensus that some residential and small commercial customers may find it beneficial to receive consumption and pricing information, and in this regard we will require all EDCs to install a smart meter that is capable of communicating raw data on at least a near real-time basis to in-home devices installed by the customer or customer designated agent. Additionally, we will require EDCs to provide all customers and their designated third-parties access to the following: validated, bill quality consumption data within 48 hours of the meter read; written detailed disclosure of data definitions and characteristics; and written update notices of changes in data characteristics as the changes become effective.

E. EDC Cost Recovery

Act 129 allows an EDC to recover reasonable and prudent costs of providing smart meter technology, to include annual depreciation and capital costs over the life of the smart meter technology and the cost of any system upgrades required to enable the use of the smart meter technology, incurred after November 14, 2008, less operating and capital cost savings realized by the electric distribution company from the installation and use of the technology. Smart meter technology is deemed to be a new service offered for the first time under section 2804(4)(vi).

1. Cost Recovery Mechanism

An EDC may recover smart meter technology costs through: (1) base rates, including a deferral for future base rate recovery of current basis with carrying charge as determined by the Commission; or (2) on a full and current basis through a reconcilable automatic adjustment clause under Section 1307. 66 Pa.C.S. § 2807(f)(7). However, in no event shall lost or decreased revenues by an EDC due to reduced electricity consumption or shifting energy demand be considered a cost of the smart meter technology recoverable under a reconcilable automatic adjustment clause under section 1307(b), except that decreased revenues and reduced energy consumption may be reflected in the revenue and sales data used to calculate rates in a subsequent distribution rate base rate proceeding filed under section 1308 (relating to voluntary change in rates), or a recoverable cost. 66 Pa.C.S. § 2807(f)(4).

Act 129 allows an EDC to recover "all reasonable and prudent costs of providing smart meter technology." To determine what these costs are, each EDC will document all costs relating to its smart meter deployment and installation plan. These costs will include both capital and expense items relating to all plan elements, equipment and facilities, as well as an analysis of all related administrative costs. More specifically, these costs would include, but not be limited to, capital expenditures for any equipment and facilities that may be required to implement the smart meter plan, as well as depreciation, operating and maintenance expenses, a return component based on the EDC's weighted cost of capital, and taxes. Administrative costs would include, but not be limited to, incremental costs relating to plan development, cost analysis, measurement and verification, and reporting. In addition, the plan should include cost estimates for testing, upgrades, maintenance and personnel training. The EDC must also provide sufficient support to demonstrate that all such costs are reasonable and prudent with respect to its smart meter plan. Consistent with Section 315(a), the burden of proof shall be on the EDC. 66 Pa.C.S. § 315(a).

The Commission recognizes that some of the requirements for smart meters outlined in Section C of this Order go beyond the minimum requirements set forth in Act 129. To ensure that these additional smart meter functions are cost-effective, we direct that each smart meter plan filing include cost data that quantifies the costs to meet the minimum requirements set forth in Act 129, the costs to meet all of the requirements set forth in section C, and the individual incremental costs of each added function, less any operating and capital cost savings. Specifically, we direct that the plan filing shall quantify the costs to deploy and operate smart meter technology that is capable of the following minimum requirements set forth in 66 Pa.C.S. § 2807(g):

- Bidirectional data communications.
- Recording usage data on at least an hourly basis once per day.
- Providing customers with direct access to and use of price and consumption information.
- Providing customers with information on their hourly consumption.
- Enabling time-of-use rates and real-time price programs.
- Supporting the automatic control of the customer's electric consumption.

In addition, each plan filing shall include the individual incremental costs for deploying and operating the following smart meter technology capabilities:

- Ability to remotely disconnect and reconnect.
- Ability to provide 15-minute or shorter interval data to customers, EGSs, third-parties and an RTO on a daily basis, consistent with the data availability, transfer and security standards adopted by the RTO.
- Onboard meter storage of meter data that complies with Nationally recognized nonproprietary standards such as ANSI C12.19 and C12.22 tables.
- Open standards and protocols that comply with Nationally recognized nonproprietary standards, such as IEEE 802.15.4.
- Ability to upgrade these minimum capabilities as technology advances and becomes economically feasible.
- Ability to monitor voltage at each meter and report data in a manner that allows an EDC to react to the information.
- Ability to remotely reprogram the meter.
- Ability to communicate outages and restorations.
- Ability to support net metering of customer-generators.

The deployment and operating costs to be presented shall include a breakdown of all incremental costs and any associated potential operational and maintenance cost savings for each functionality and configuration. All cost estimates must be supported by estimates from at least two vendors where available. To the extent that an EDC or another party demonstrates that a particular Commission imposed requirement is not cost-effective, the Commission will have the option of waiving a particular requirement for that EDC or all EDCs. This waiver authority does not extend to the minimum requirements delineated in 66 Pa.C.S. § 2807(g). Any EDC that is unable to provide this cost data with its August 14, 2009, filing can petition the Commission for permission to file such data at a later date. Any such filing shall include a proposed filing date.

Furthermore, the Commission recognizes that consideration of these cost issues may benefit from further discussion prior to the August 14, 2009, filing deadline. To facilitate this discussion, the Commission will convene a stakeholder meeting no later than July 17, 2009.

The Commission will allow each EDC to develop a reconcilable adjustment clause tariff mechanism in accordance with 66 Pa.C.S. § 1307 and include this mechanism in its smart meter plan. Such a mechanism shall be designed to recover, on a full and current basis from each customer class, all prudent and reasonable smart meter

costs less operating and capital cost savings realized by the EDC from the installation and use of smart meter technology. The mechanism shall be set forth in the EDC's tariff, accompanied by a full and clear explanation as to its operation and applicability to each customer class. The tariff mechanism will be subject to an annual review and reconciliation in accordance with 66 Pa.C.S. § 1307(e). Such annual review and reconciliation will be scheduled to coincide with the submission of the "Smart Meter Progress" annual report outlined in section B.1 previously.

2. Allocation of Costs to Customer Classes

The Commission will require that all measures associated with an EDC's smart metering plan shall be financed by the customer class that receives the benefit of such measures. To ensure that proper allocation takes place, it will be necessary for the utilities to determine the total costs related to their smart metering plans, as discussed in section E.1. Once these costs have been determined, we will require the EDC to allocate those costs to the classes whom derive benefit from such costs. Any costs that can be clearly shown to benefit solely one specific class should be assigned wholly to that class. Those costs that provide benefit across multiple classes should be allocated among the appropriate classes using reasonable cost of service practices.

OCA stated that it feels traditional rate base procedures would be the preferred method for recovery, rather than an adjustment mechanism that may be unnecessarily complicated. OCA also says that if an adjustment mechanism is used only reasonable net costs should be included in the surcharge. PECO, FirstEnergy, and EA counter by asserting that including the costs in base rates is the best method for cost recovery. PECO asserts that an EDC should use whatever method it sees fit, as the Act allows for recovery through either method, noting its belief that the methods are not mutually exclusive. FirstEnergy states that OCA's claim that base rates are the preferred method of recovery is premature and that EDCs deserve the chance to design and submit a plan for recovery before it is rejected.

A number of commentators agree that care should be taken to ensure the proper allocation of costs amongst customer classes. IECPA recommends that the Commission should allow any customer or customer class that has previously paid to have smart meters installed to be exempt from all costs of the smart meter program. EA strongly objects to that recommendation, saying that a fully functional smart meter involves an entire network and that these comments ignore the costs of upgrading the systems that support smart meters. They go on to note that eliminating an entire class from paying its share of reasonable costs before the submission of a single smart meter plan is premature, ignores the policy underlying Act 129, and undercuts the role of the Commission in reviewing and approving cost recovery mechanisms. Finally, EA, PECO and Duquesne suggested that under-depreciated abandoned assets need to be recovered as stranded costs and that the Commission should allow for accelerated depreciation of assets that are retired early.

The Commission believes the EDCs should install smart meters in a manner that coincides with the full depreciation of existing meters, so as to minimize the stranded costs. However, in the event that there are stranded costs that need to be recovered the Commission agrees with EA, PECO and Duquesne that the EDCs should be allowed to seek recovery of those costs through

an accelerated depreciation schedule, to be included in the EDC's cost recovery plan.

The Commission also agrees with FirstEnergy that it is premature to deem one method of recovery preferable to another. The Commission interprets 66 Pa.C.S. § 2807(f)(7) as permitting an EDC to use either method of cost recovery at its discretion.

The Commission disagrees with IECPA's basic premise that a customer or entire customer class should be exempt from all costs associated with these smart meter plans. We agree with the EA that it is premature to suggest such a blanket exemption.

Conclusion

This Implementation Order establishes the Commission's smart meter technology procurement and installation standards each EDC with greater than 100,000 customers must meet. This Order also provides guidance on the procedures to be followed for submittal, review and approval of all aspects of each smart meter plan. In addition, it establishes the minimum smart meter capabilities and guidance on deployment of smart meter technology. We extend our thanks to those who participated by providing comments on this important and timely energy program. We would especially like to note our appreciation for the cooperation and courtesy extended by all, which was essential in meeting the aggressive timelines established by the General Assembly for Act 129 implementation. *Therefore,*

Statement of Commissioner Robert F. Powelson

Today we take another important step in implementing Act 129 of 2008—setting forth standards for smart meter deployment.

If we are serious about “consumer-driven” electricity here in the Commonwealth, we need to work aggressively to ensure advanced metering infrastructure (“AMI”) and dynamic pricing deliver their intended benefits to businesses and residential ratepayers alike.

To achieve that goal, I strongly encourage all EDCs to deploy smart meter technologies and the required communications networks as rapidly as possible in order to give customers the ability to monitor and effectuate changes in their usage patterns.

Further, well-constructed time-of-use and real-time rate structures, implemented on a timely basis, will offer residential and small commercial customers the potential to alter their behavior in response to the true costs of electricity going forward. To be frank, it is pointless to have smart meters if you are still going to have “dumb” rates.

Lastly, I would like to compliment the Law Bureau on drafting a very clear and concise Implementation Order for smart meter deployment.

ROBERT F. POWELSON,
Commissioner

It Is Ordered That:

1. The Commission establishes specific smart meter technology minimum capabilities and procedures for submittal, review and approval of all aspects of each smart meter plan to include cost recovery.

2. The electric distribution companies with greater than 100,000 customers adhere to the guidelines for smart meter technology procurement and installation identified in this Implementation Order.

3. The Director of Operations convene a stakeholder meeting no later than July 17, 2009, to discuss issues related to the costs and benefits associated with the Commission imposed smart meter capability requirements.

4. All electric distribution companies that are required to file a smart meter technology procurement and installation plan file such a plan consistent with the directives contained in this order by August 14, 2009.

5. All electric distribution companies that are required to install smart meter technology are exempt from compliance with 52 Pa. Code § 57.20(h) for testing watt-hour meters that are being replaced with smart meters in accordance with an approved smart meter technology procurement and installation plan.

6. All EDCs may recover the reasonable and prudent costs of providing smart meter technology in accordance with the procedures set forth in this Implementation Order.

7. This Implementation Order be published in the *Pennsylvania Bulletin* and served on the Office of Consumer Advocate, Office of Small Business Advocate, Office of Trial Staff, all jurisdictional electric distribution companies and all parties that filed comments under this docket.

*In Re: NOS Communications, Inc. (2007 TRS Reports);
Doc. No. A-310043F0002*

Rescission Order

On June 1, 2009, the Commission entered a Tentative Order at this docket against NOS Communications, Inc. (the Respondent), a competitive local exchange carrier certificated at A-310043F0002, for failure to file its 2007 Telecommunications Relay Service (TRS) Annual Access Line Summary Report and TRS Annual Tracking Report (hereinafter collectively referred to as “TRS Reports”) and for failure to have current contact information on file with the Commission. The Tentative Order is awaiting publication in the *Pennsylvania Bulletin*. Even before the Tentative Order was entered, however, the Respondent's outside consultant contacted Commission staff regarding the Tentative Order and immediately filed the two missing reports on June 1, 2009, and agreed to send a letter to the Secretary's Bureau to update the company's contact information; *Therefore,*

It Is Ordered That:

1. The Tentative Order entered June 1, 2009, is hereby rescinded.

2. A copy of this Order be published in the *Pennsylvania Bulletin*.

*Pennsylvania Public Utility Commission,
Bureau of Transportation and Safety v. Jose A. Mercado;
Doc. No. C-2009-2051302*

CORRECTED COMPLAINT

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities within the Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Transportation and Safety and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. That Jose A. Mercado, Respondent, maintains his principal place of business at 11 West Monroe Avenue, West Hazleton, Luzerne County, PA 18202-2169.

2. That Respondent filed an application for a Certificate of Public Convenience on October 16, 2006. Respondent's application was approved by this Commission on April 13, 2007, conditioned upon the filing of specific requirements within sixty (60) days. On November 27, 2007, his application was dismissed by this Commission for failure to comply with the specific requirements. Therefore, on the date of the violation alleged in this Complaint, Respondent did not hold a Certificate of Public Convenience issued by this Commission.

3. That Respondent, on June 18, 2008, at approximately 6:15 a.m., at Old Field Boulevard, Pittstown Township, Luzerne County, PA, permitted a certain 2000 Dodge van bearing Pennsylvania License No. FBF9761, Vehicle Identification No. 2B5WB35Z4YK137877, to be operated. At that time, Enforcement Officer Thomas J. Kepping, a duly authorized officer of this Commission, found said vehicle to be transporting passengers from Hazleton, PA to TJ Maxx, Pittston, PA, for compensation.

4. That Respondent, in performing the act described in Paragraph 3 of this Complaint, violated the Public Utility Code, 66 Pa.C.S. § 1101, in that Respondent transported persons for compensation between points in the Commonwealth of Pennsylvania while not then holding a Certificate of Public Convenience issued by this Commission. The penalty is \$1,000. Future violations may result in possible criminal prosecution with penalties up to \$10,000 and 1 year in prison.

Wherefore, the Bureau of Transportation and Safety Prosecutory Staff hereby requests that the Commission fine Jose A. Mercado the sum of one thousand dollars (\$1,000) for the illegal activity described in this complaint and order such other remedy as the Commission may deem to be appropriate.

Respectfully submitted,

Wendy J. Keezel, Chief of Enforcement
Motor Carrier Services & Enforcement Division

NOTICE

A. You must file an answer within twenty (20) days of the date of service of this complaint. The date of service is the mailing date as indicated at the top of the Secretarial cover letter for this complaint and notice, 52 Pa. Code § 1.56(a). An answer is a written explanation of circumstances wished to be considered in determining the outcome. The answer shall raise all factual and legal arguments that you wish to claim in your defense and must include the reference number of this complaint. Your answer must be verified and the original and three (3) copies sent to:

James J. McNulty, Secretary
Pennsylvania Public Utility Commission
P. O. Box 3265
Harrisburg, PA 17105-3265

B. If you fail to answer this complaint within twenty (20) days, the Bureau of Transportation and Safety will request that the Commission issue a Secretarial Letter imposing a penalty.

C. You may elect not to contest this complaint by paying the fine proposed in this complaint by certified check or money order. Payment must be made to the Commonwealth of Pennsylvania and should be forwarded to:

James J. McNulty, Secretary
Pennsylvania Public Utility Commission
P. O. Box 3265
Harrisburg, PA 17105-3265.

Your payment is an admission that you committed the alleged violation and an agreement to cease and desist from further violations. Upon receipt of your payment, the complaint proceeding shall be closed. In such case, to prevent the suspension of your vehicle registration(s), you

must file an Affidavit with the PA Public Utility Commission, Bureau of Transportation and Safety, P. O. Box 3265, Harrisburg, PA 17105-3265, stating that you understand the rules and regulations of the Commission and that you will no longer provide transportation between points in the Commonwealth of Pennsylvania without filing a new application together with the appropriate filing fee to obtain a Certificate of Public Convenience issued by this Commission. If no affidavit is received within the twenty (20) day time period, the Bureau of Transportation will proceed with the request for suspension of your vehicle registration(s). Your response should be directed to the PA, Compliance Office, Bureau of Transportation and Safety, P. O. Box 3265, Harrisburg, PA 17105-3265.

D. If you file an answer which admits or fails to deny the allegations of the complaint, the Bureau of Transportation and Safety will request that the Commission issue a Secretarial Letter imposing a penalty.

E. If you file an answer which contests the complaint, the matter will be assigned to an administrative law judge for hearing and decision. The judge is not bound by the optional fine.

Tentative Order

Public Meeting held
June 18, 2009

Commissioners Present: James H. Cawley, Chairperson; Tyrone J. Christy, Vice Chairperson; Kim Pizzingrilli; Wayne E. Gardner; Robert F. Powelson

In Re: Starvox Communications, Inc. (2007 Annual Report); Doc. No. A-311382

Tentative Order

By the Commission

Starvox Communications, Inc. (Starvox) has failed to file its 2007 Annual Report pursuant to section 504 of the Public Utility Code. 66 Pa.C.S. § 504. Specifically, 66 Pa.C.S. § 504 provides that:

The commission may require any public utility to file periodical reports, at such times, and in such form, and of such content, as the commission may prescribe, and special reports concerning any matter whatsoever about which the commission is authorized to inquire, or to keep itself informed, or which it is required to enforce.

Starvox is a reseller of interexchange toll services certified at A-311382. Commission staff's several attempts to reach Starvox by mail and phone to file the missing report have been unsuccessful. Telephone calls to the last known business address of Starvox confirmed that the number is disconnected and no information is available for any new phone numbers. Additionally, Starvox's former outside consultant has advised Commission staff that Starvox has been out of business for over a year.

STATE CONSERVATION COMMISSION

Action on Odor Management Plans for Concentrated Animal Operations, and Concentrated Animal Feeding Operations and Volunteers Complying with Pennsylvania's Facility Odor Management Program

The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the ordering of such other remedy as the Commission may deem appropriate. 66Pa.C.S. §§ 504, 505, 506 and 3301. Based on the previous facts, we tentatively conclude that it is appropriate to revoke Starvox's certificate of public convenience without the necessity of a formal complaint as being in the public interest. Furthermore, the Commission may take other appropriate action, including the imposition of penalties under section 3301, in lieu of cancellation, if Starvox seeks relief from this Tentative Order; *Therefore,*

It Is Ordered That:

1. The revocation of Starvox Communications, Inc.'s certificate of public convenience is hereby tentatively approved as being in the public interest.
2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, and the Office of Trial Staff, and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.
3. The absence of the filing of adverse public comment within 30 days after publication in the *Pennsylvania Bulletin*, this Tentative Order shall become final without further action by the Commission.
4. Upon this order becoming final, and without further action by the Commission, the certificate of public convenience held by Starvox Communications, Inc. at A-311382 shall be canceled, and Starvox Communications, Inc.'s name stricken from all active utility lists maintained by the Commission's Bureau of Fixed Utility Services and the Assessment Section of the Bureau of Administrative Services.

TREASURY DEPARTMENT

Request for Qualifications (RFQ) Legal Counsel for Affirmative Litigation

I. Overview

The Chief Counsel to the Treasurer of the Commonwealth is the chief attorney for Treasury. Treasury has independent responsibility and authority in regard to taking all appropriate steps to safeguard the financial integrity of the funds of the Commonwealth.

Treasury intends to create a panel of qualified law firms to serve as legal counsel (Counsel) on its behalf, under the direction and control of the Chief Counsel, on matters regarding affirmative litigation. The litigation is expected to focus on the recovery of damages to Treasury and the Commonwealth from vendors and others in a variety of matters, including securities fraud, complex litigation, class actions, and other types of affirmative litigation as determined by the Chief Counsel. The purpose of this RFQ process is to prequalify law firms for retention as Counsel on particular matters when the need arises.

From this panel, Treasury may select one or more firms to represent its interests in a particular matter. The term of the panel designations made under this RFQ will run from the date Treasury retains the law firm until December 31, 2012. This RFQ does not affect written agreements for matters already assigned to outside counsel. Firms that currently serve as outside counsel that wish to serve on the panel at the conclusion of, or in addition to, their appointment on an existing matter must complete this RFQ.

Treasury reserves the right to reject any and all responses to this RFQ, or cancel this RFQ without issuing another RFQ. There is no guarantee that the designation as a member of a panel will result in an appointment as Counsel in any matter.

II. Scope of Services for Counsel Serving on Panel

The scope of services to be provided by a respondent law firm (firm) selected to be on a panel will be subject to a written agreement between Treasury and such firm. Services that may be required of Counsel include evaluating potential damages suffered by Treasury, Commonwealth funds and/or the Commonwealth and the potential for recovery; all aspects of prelitigation and litigation; and providing the Chief Counsel with advice on various litigation issues.

Applicants should have significant experience and expertise in State and Federal complex litigation generally, and a strong understanding of all relevant Federal and State laws. Counsel may be selected for the panel at the discretion of Treasury, and may be removed from the panel at any time.

III. Response Contents

Responses are to follow the following format:

A. Cover Letter

Include a cover letter of no more than one page indicating the name, title, location, telephone number, fax number and e-mail address of the party responsible for negotiating on behalf of your firm. If the day-to-day contact person for your firm is different than the person negotiating on behalf of your firm, include this person's name, title, location, telephone number, fax number and e-mail address.

B. Qualifications of the Firm

1. Provide a brief overview of the firm.

2. As Appendix A, list four matters that best represent the firm's relevant experience providing for each matter: a brief factual summary, identifying caption, jurisdiction, court term and number, whether you represented plaintiff or defendant, resolution (trial, settlement, arbitration) and dollar amounts involved.

Note: Do not include additional appendices or list more than four matters. The only information that is to be included in Appendix A is described previously.

3. Provide names, addresses and telephone numbers of no more than three government references. (Not mandatory.)

C. Assigned Professionals

Provide the name, work address, and relevant experience for individuals whom your firm anticipates will be assigned to work with Treasury. Describe the role and responsibility for each individual.

D. Legal and Firm Issues

1. Does your firm have an equal employment opportunity policy and program? If so, will your firm provide information to Treasury regarding its policy and program upon request?

2. Disclose and explain any significant negative events in your firm's recent history including criminal charges, civil litigation or administrative actions involving allegations of securities law violations by your firm or its employees during the past 5 years.

3. Are there any other lines of business conducted by your firm that could complement or conflict with your role as Counsel in litigation for Treasury? Disclose any arrangements that might present an actual or apparent conflict of interest with the role of Counsel.

E. Additional Information

Provide any additional information that you deem appropriate.

IV. Appointment of Counsel

Nothing in this RFQ, or any communication between the Chief Counsel or Treasury and firm, shall be deemed to grant firm a right to appointment as Counsel. Appointment as Counsel and appropriate compensation shall only become effective upon execution of a written agreement.

Firms may be contacted at any point prior to appointment about potential appointment. Once selected, Counsel will be required to work closely with the Chief Counsel or her designee in the litigation. Counsel shall seek direction from the Chief Counsel or her designee for any significant issue in the litigation and otherwise report to the Chief Counsel on a regular basis. Counsel's assignment to litigate a specific matter is at the sole discretion of Treasury, and Counsel can be removed from that litigation at any time, with or without cause, without any duty of explanation for removal, and without the reimbursement of any expenses, fees or other moneys.

V. Compensation of Counsel

Counsel must have the resources to bear all costs and expenses of litigation and attorneys' fees. Payment of Counsel's fees and reimbursement of expenses will only be made on a contingency basis, and will be made from any recovery in the matter that is litigated by Counsel. The Chief Counsel, Treasury and/or any other Commonwealth entity shall not directly reimburse Counsel for any

fees or expenses in any matter that is assigned to Counsel. In the event that there is no recovery in the matter litigated by Counsel, or such recovery does not exceed Counsel's fees and expenses, Counsel will bear the costs of such services, and will not seek reimbursement from the Chief Counsel, Treasury or any other Commonwealth entity.

The reimbursement of expenses, and calculation of the contingency fee, shall be determined by the written agreement entered into between Counsel and Treasury.

VI. Reservation of Rights

Any responses to the RFQ will be a public record and not protected by the attorney-client privilege or work product doctrine. Treasury will not reimburse any expenses incurred by a firm in submitting a response to this RFQ, including any expenses associated with an interview in Harrisburg or Philadelphia, PA, should Treasury determine that such an interview is necessary in evaluating the firm's qualifications. Responding to this RFQ does not bind or otherwise obligate Treasury to include the firm on the panel. Appointment to the panel will not bind or otherwise obligate Treasury to retain the listed firm for legal services or guarantee any other form of retention, agreement, contract, or professional relationship. Treasury reserves the right to negotiate with and enter into a

written agreement with a firm that may or may not have been a respondent to the RFQ. Treasury reserves the right to reject any or all RFQ responses in its discretion in whole or in part, to advertise for new responses, to abandon the need for such services, and/or to cancel the RFQ if it is in the best interest of Treasury or the Commonwealth. Nothing in this RFQ is intended to limit or constrain the discretion of the Treasurer in exercising any authority, duties, prerogatives, or powers established or recognized in the Pennsylvania Constitution, statutes, Executive Orders, regulations, case law or contract.

PROPOSED RULEMAKING

ENVIRONMENTAL QUALITY BOARD

[25 PA. CODE CHS. 301, 302, 303 AND 305]

Administration of the Water and Wastewater Systems Operators' Certification Program

The Environmental Quality Board (Board) proposes to rescind Chapters 301, 303 and 305 (relating to general provisions; certification of operators; and plant requirements) and create a new Chapter 302 (relating to administration of the water and wastewater systems operations' certification program). These regulations describe the process the State Board for Certification of Water and Wastewater System Operators (Certification Board) will follow to administer the program and identify the duties and responsibilities of the Department of Environmental Protection (Department) and the operators and owners of this Commonwealth's drinking water and wastewater treatment systems. These regulations also establish standards for operator certification, recertification, certification renewal and security training; define the certification renewal period and requirements for certification renewal; establish appropriate fees; and define classifications and subclassifications for certification.

This proposal was adopted by the Board at its meeting of April 21, 2009.

A. *Effective Date*

These proposed amendments will go into effect upon publication in the *Pennsylvania Bulletin* as final-form rulemaking.

B. *Contact Persons*

For further information, contact Veronica Kasi, Chief, Division of Technical and Financial Assistance, P. O. Box 8467, Rachel Carson State Office Building, Harrisburg, PA 17105-8467, (717) 772-4053 or Marc Roda, Attorney, P. O. Box 8464, Rachel Carson State Office Building, Harrisburg, PA 17105-8464, (717) 787-7060. Information regarding submitting comments on this proposal appears in Section J of this preamble. Persons with a disability may use the Pennsylvania AT&T Relay Service by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). This proposal is available electronically through the Department's web site at www.depweb.state.pa.us.

C. *Statutory Authority*

The proposed rulemaking is being made under the authority of section 4(c) of the Water and Wastewater Systems Operators' Certification Act (63 P.S. § 1004(c)) (act), which directs the adoption of rules and regulations necessary to implement the act.

D. *Background and Purpose*

This proposed rulemaking describes the policies and procedures the Certification Board will follow to implement their responsibilities and duties under the act. This includes the procedures to be followed by applicants to become certified for the first time, to renew their certification, and to apply for reciprocity based on certification received from another state. The regulations also describe the procedure the Certification Board will follow for the review of all applications for certification, including the review of criminal history records. The regulations also

define requirements for the suspension or revocation of an operator's certification, upon petition by the Department and for the review of Department decisions related to operator training programs and courses.

The proposed rulemaking also establishes the standards and requirements for operators of water and wastewater systems to become certified and maintain their certification. It also establishes the duties and responsibilities of operators and owners related to the operation of a community or nontransient noncommunity water system, water distribution system, wastewater treatment system treating more than 2,000 gallons per day (gpd) and a satellite wastewater collection system with a pump station. The role and responsibilities of the Department and the procedures it must follow to implement these duties are also defined. Finally, the procedure for establishing fees for program administration is established.

The proposed rulemaking ensures that Pennsylvania's Operator Certification Program continues to meet the new Federal requirements established in the 1996 Amendments to the Federal Safe Drinking Water Act (SDWA) for all State drinking water programs. This proposed rulemaking is more stringent than the Federal guidelines in one area. The Federal guidelines apply only to drinking water system operators; this proposed rulemaking also applies to wastewater system operators. The decision to include wastewater system operators in the new requirements was made early in the process by the Certification Board and the Department after significant public input. This was done to improve program consistency and implementation.

The Department and the Certification Board worked very closely with the Small Systems Technical Assistance Center for Small Systems (TAC) and the Certification Program Advisory Committee (CPAC) to draft Chapter 302. All elements of the overall structure of the Operator Certification Program were discussed in-depth with the respective committees. This resulted in consensus on the essential requirements and standards for certification and the roles and responsibilities of operators and system owners.

E. *Summary of Regulatory Requirements*

The proposed rulemaking rescinds Chapters 301, 303 and 305 and replaces them with new language in Chapter 302. It also establishes the administrative requirements for:

- Conducting the Certification Board administrative hearings.
- Processing certification, certification renewal and recertification applications.
- Administering certification examinations.
- Reviewing and acting on an operator's criminal history records.

This proposed rulemaking ensures that Pennsylvania's Operator Certification Program meets the new Federal requirements established in the 1996 Amendments to the SDWA for all State drinking water programs. This proposed rulemaking is more stringent than the Federal guidelines in one area. The Federal guidelines apply only to drinking water system operators; this proposed rulemaking also applies to wastewater system operators. The decision to include wastewater system operators in the

new requirements was made early in the process by the Certification Board and the Department after significant public input. This was done to improve program consistency and implementation. Consistent with these Federal guidelines, this proposed rulemaking defines the:

- Classification and subclassification method for approximately 10,000 system operators and their treatment systems.
- Minimum education, experience and examination requirements for all operators to become certified.
- Requirements and conditions that must be met to maintain certification.
- Duties and responsibilities of operators and owners related to the operation of a community or nontransient noncommunity water system, water distribution system,

wastewater treatment system treating more than 2,000 gpd, and a satellite wastewater collection system with a pump station.

To support the administration of the Operator Certification Program, the proposed rulemaking includes fees for system owners, training providers, approved examination providers and operators. The Department developed the new fee structure with input from TAC, CPAC, the Certification Board and individual stakeholders. A major focus of the discussions that was incorporated into the structure was the necessity for all entities to pay a fair share of the program costs. The comments received from these meetings were provided to the Board, as well as written comments submitted by the Pennsylvania Rural Water Association and the Eastern Pennsylvania Water Pollution Control Operators Association. The final proposed fee structure is summarized in Table 1.

1 examination session per year	Approved Examination Provider	\$400
New License (3 yr)	Operator	\$150
License Renewals (3 yr)	Operator	\$60
Exam Session (per 4 hrs)	Operator	\$35
Postpresentation Credit Application Fee	Operator	\$250
Annual Service Fee	Class A Systems (> 5 mgd)	\$500
	Class B Systems (1 to 5 mgd)	\$150
	Class C Systems (100,000 gpd to 1 mgd)	\$100
	Class D Systems (< 100,000 gpd)	\$ 65
	Class E Systems	\$ 65
Department Classroom Courses	Course attendees	\$10 per hour
Department Web-based Courses	Course attendees	\$30 per hour
Department Onsite Training	Systems asking for the training	\$1,600 per course

Note: To insure no person is covering a large percentage of the total costs, a maximum fee of \$10,000 is proposed. This fee structure results in 37% of the program costs covered by operators, 53% by systems and 10% by the training and examination providers.

The Board is specifically seeking public comment on one aspect of the Operator Certification Program, relating to reciprocity. The Board is proposing to grant reciprocity for only the Part 1 General Examination to operators

certified in other states. This would require any certified operator from another state to take the treatment technology specific examinations before being granted certification in this Commonwealth.

F. *Benefits, Costs and Compliance*

Benefits

The intended results of these regulations are to protect the environment, ensure the public's health and safety and promote the long-term sustainability of this Common-

wealth's drinking water and wastewater treatment systems by ensuring that certified operators with the appropriate knowledge, skills and abilities are available to make the necessary process control decisions. Therefore, the biggest beneficiary of these regulations is the general public.

The classification and subclassification frame work more accurately reflects what the operator needs to understand to operate a system effectively and successfully. This frame work was developed in partnership with representatives of the regulated community to meet their needs. In addition, in some instances, once certified, many operators will receive an increase in pay. Finally, the system owners may also benefit from cost savings realized through more effective and efficient operation of their water or wastewater system.

Implementation of these regulations will ensure continued approval of Pennsylvania's Operator Certification Program by the Environmental Protection Agency (EPA). This approval is reviewed on an annual basis. If the EPA chooses not to approve the program, the State stands to

lose approximately \$5.8 million per year in Federal funding for the State Revolving Loan Fund, administered by the Pennsylvania Infrastructure Investment Authority.

Compliance Costs

Individuals responsible for making process control decisions at a drinking water or wastewater treatment system in this Commonwealth must be appropriately certified for that system. A process control decision is any decision that changes or maintains water quality or water quantity to protect public health or the environment. Owners of a drinking water community or nontransient noncommunity water system, drinking water distribution system, wastewater treatment system treating more than 2,000 gpd or a satellite wastewater collection system with a pump station must designate at least one certified operator to make all the process control decisions for the system.

The estimated costs to the operator to comply with provisions of these regulations are summarized in Table 2.

Table 2. Estimated Costs to the Operator

<i>Requirement</i>	<i>Cost</i>	<i>Description / Comments</i>
Initial certification	\$150	Paid to the Department, this fee is incurred when a person submits an application to become a certified operator. This certification is valid for 3 years.
Certification Renewal	\$60	Paid to the Department, this cost is incurred once every 3 years after the initial certification period.
Examination fee: for both initial certification and certain upgrades to license	\$35 per examination session	Paid to the Department. Operators are allowed to take as many examinations as they think they can complete in 4 hours. Most operators are able to complete the necessary examinations needed for the more common treatment systems within one or two sessions.
Examination Provider Registration fee	Varies	Paid to the Approved Examination Provider. These fees are not established by the Department, however, we recommend less than \$100. Fees are designed to allow the Approved Examination Provider the ability to recover incurred costs.
Criminal History Record	\$10	One time fee charged by the Pennsylvania State Police.
Continuing Education	\$240—\$900	Paid to one of the Department's Approved Training Providers. Depends on number of hours needed and average cost per hour for training

These regulations propose to charge an annual service fee for system owners, based on the amount of flow the system is permitted to treat. The assessment of this fee is tied to the classification of the system and the certification class needed by the system owner's designated available operators. The maximum fee that any one owner of more than one system pays is \$10,000. This fee structure is summarized in Table 1. The only other cost for compliance for the owner is the actual costs for hiring a certified operator. The average cost to hire a certified operator is between \$30,000 and \$80,000 per year (based

on a limited survey of operators completed in 2003). It is strongly advised that owners hire more than one certified operator. However, unless there are problems at the system, this responsibility is left to the owner. If necessary, the Department does have the authority to order the owner to hire additional certified operators, to address specific environmental compliance problems. In addition, the owner may choose to cover the operator's costs for obtaining continuing education contact hours. This is an arrangement negotiated between the owners and their certified operators.

Compliance Assistance Plan

The Department is implementing a comprehensive training and compliance assistance strategy to assist operators and owners who are required to comply with provisions of the Operator Certification Program. This includes web-based training through the Department's EarthWise Academy, additional classroom training as needed, a comprehensive training approval process and packaged training programs. This comprehensive strategy is designed to take advantage of existing training expertise in the industry; and promote a market for training providers to meet the training needs of this program. Additional compliance assistance is available through the Drinking Water Capability Enhancement Program, the Wastewater Diagnostics Program and the Drinking Water and Wastewater Outreach Assistance Provider Programs.

Paperwork Requirements

The following is a list of paperwork requirements for the operator as established in Chapter 302. Beyond the operator's time and the program fees identified previously, there are no additional costs for this paperwork.

1. Certification Examination Registration Form (to register to take an examination).
2. Application for Certification Action (for certification, recertification, certification upgrade or certification through reciprocity).
3. Application for Certification Renewal (done once every 3 years).
4. Criminal History Report from the Pennsylvania State Police.
5. Application for Exemption (only needed if operator will not be able to complete requirements for initial certification or certification renewal due to extenuating circumstances such as military service or health problems).
6. The development and approval of standard operating procedures, if the operator and owner choose to utilize this tool to ensure all process control decisions are made by an available operator.
7. The development and approval of a process control plan that describes all the operational procedures for a drinking water or wastewater treatment system. This will only be required by the Department on a case-by-case basis; depending on the level of noncompliance at the system and the existence of equivalent plans, such as an operation and maintenance plan, an emergency response plan or standard operating procedures.
8. The development of a management plan, if an operator wants to serve as a circuit rider, where the individual is responsible for more than one drinking water or wastewater treatment system. The Management Plan identifies the systems, their characteristics, points of contact and the number of visits the operator will complete in a designated time frame. System specific plans must also be developed for each system to include procedures to be followed by personnel at the system when the circuit rider is not at the system.
9. The operator shall notify the owner in writing of any violations or potential violations at the system. Recommendations, if the operator has any, for resolving the problem should also be included.

The owner will need to report the names, addresses and level of certification of all operators designated as available operators for the system on an annual basis. Changes in available operators must be reported within 10 days. If the owner chooses to designate an operator in responsible charge to utilize standard operating procedures, the names, addresses and level of certification of these operators must also be reported to the Department on an annual basis.

Any training provider who would like to provide training to operators to meet the training or continuing education requirements must become an approved training sponsor, and have all courses approved. This process is documented in the "Training Provider Manual for the Pennsylvania Water and Wastewater System Operator Training Program," DEP ID: 383-2300-002.

An entity who would like to become an approved examination provider must become approved and comply with the Certification Board guidelines for the scheduling of examinations and the registration of applicants.

G. Pollution Prevention

The Pollution Prevention Act of 1990 (42 U.S.C. §§ 13101—13109) established a National policy that promotes pollution prevention as the preferred means for achieving State environmental protection goals. The Department encourages pollution prevention, which is the reduction or elimination of pollution at its source, through the substitution of environmentally-friendly materials, more efficient use of raw materials, and the incorporation of energy efficiency strategies. Pollution prevention practices can provide greater environmental protection with greater efficiency because they can result in significant cost savings to facilities that permanently achieve or move beyond compliance. These regulations were incorporated the following pollution prevention incentives:

By ensuring that qualified, certified operators are making all operational decisions in the Commonwealth's drinking water and wastewater treatment systems, pollution prevention efforts will be enhanced. The water and wastewater treatment system operator is the key element in overall process control. By improving the certified operator's capabilities, more effective treatment and removal of pollutants and better use of available resources will result. Testing and training programs are designed to focus on different ways the operator can more effectively operate their system to minimize and prevent pollution and conserve energy.

H. Sunset Review

These regulations will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulations effectively fulfill the goals for which they were intended.

I. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on June 30, 2009, the Department submitted a copy of these proposed amendments to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House and Senate Environmental Resources and Energy Committees (Committees). In addition to submitting the proposed amendments, the Department provided IRRC and the Committees with a copy of a detailed regulatory analysis form prepared by the Department. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed regulations within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria that have not been met. The Regulatory Review Act specifies detailed procedures for review of these issues by the Department, the General Assembly and the Governor prior to final publication of the regulations.

J. Public Comments

Written Comments. Interested persons are invited to submit comments, suggestions or objections regarding the proposed rulemaking to the Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477 (express mail: Rachel Carson State Office Building, 16th Floor, 400 Market Street, Harrisburg, PA 17101-2301). Comments submitted by facsimile will not be accepted. The Board must receive any comments, suggestions or objections by August 10, 2009. Interested persons may also submit a summary of their comments to the Board. The summary may not exceed one page in length and must also be received by August 10, 2009. The one-page summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final regulation will be considered.

Electronic Comments. Comments may be submitted electronically to the Board at RegComments@dep.state.pa.us and must also be received by the Board by August 10, 2009. A subject heading of the proposal and a return name and address must be included in each transmission. If the sender does not receive an acknowledgement of electronic comments within 2 working days, the comments should be retransmitted to ensure receipt.

JOHN HANGER,
Chairperson

Fiscal Note: 7-433. No fiscal impact; (8) recommends adoption.

Subchapter A. GENERAL PROVISIONS

Sec.

- 302.101. Definitions.
- 302.102. Purpose.
- 302.103. Scope.

§ 302.101. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Accelerated certification—A method of upgrading a system's available operators' certificates to accommodate a change in the system's capacity or treatment technology.

Act—The Water and Wastewater Systems Operators' Certification Act (63 P. S. §§ 1001—1015.1).

Activated carbon adsorption—A water treatment process designed to improve the quality of water being treated by using activated granular or powdered carbon to remove specific organic chemical compounds by adsorption.

Activated sludge—The treatment technology that mechanically introduces air into wastewater to achieve microbiological suspended growth treatment such as extended aeration, sequential batch reactors, contact stabilization, conventional, step fed or oxidation ditch.

Administrative Code—The Administrative Code of 1929 (71 P. S. §§ 51—732).

Administrative hearing—A meeting of the Board, or Board-designated agent, held upon petition of the Department to revoke, suspend, modify or reinstate an operator's certificate in accordance with 2 Pa.C.S. Chapter 5 Subchapter A and Chapter 7 Subchapter A (relating to Administrative Agency Law).

Aeration—A water treatment process designed to improve the quality of water being treated by introducing air or oxygen into water to remove undesirable dissolved gases, to remove volatile organic compounds or to oxidize inorganic compounds so they can be removed as particulates.

Applicant—A person seeking certification as a water or wastewater system operator.

Application for certification action—A written request for the Board to take a certification action using approved Department forms.

Available operator—A certified operator who is onsite or able to be contacted as needed to make process control decisions in a timely manner to protect public health and the environment.

Bioperable operator—A certified operator who holds a valid certificate for both water and wastewater systems.

Bioperable training—Department-approved continuing education training that has content that is applicable to both water and wastewater systems.

Board—The State Board for Certification of Water and Wastewater Systems Operators.

Board-designated agent—A Board, or committee member who completes certain duties on behalf of the Board.

Board guidelines—The guidelines established to carry out the powers and duties of the Board. These guidelines are documented in the State Board for Certification of Water and Wastewater Systems Operator's Guidelines, "Operator Certification Program," DEP ID: 150-0200-002.

Board Secretary—A Department-recommended staff member who acts on behalf of the Board to implement administrative aspects of the program.

CHR—Criminal History Record—A report of criminal history record issued by the Pennsylvania State Police under 18 Pa.C.S. Chapter 91 (relating to criminal history record information).

Cartridge or bag filtration—For drinking water, a process for the purpose of substantial particulate removal by straining with bag or cartridge filters manufactured of various materials and pore sizes.

Certificate program—A type of Department-approved training.

Certification—The process by which an individual obtains a water or wastewater system operator's certificate.

Certification action—Action taken by the Board related to a certification examination or recertification or the issuance of an initial certificate, certificate renewal or certificate through reciprocity.

Certification Program Advisory Committee—The advisory committee created under the act.

Certified operator—An operator who holds a valid certificate in accordance with the act.

Chemical addition—A water treatment process designed to improve the quality of the water being treated through the addition of chemicals such as lime, soda ash, caustic soda and permanganate.

Circuit rider—A management program in which a certified operator may make process control decisions at more than one system of different ownership.

Class—An alphabetic letter assigned by the Department to a water or wastewater system based upon the classification of a system or an alphabetic letter assigned to an individual's certificate.

Classification—The size or type of a water or wastewater system.

Clean Streams Law—The Clean Streams Law (35 P. S. §§ 691.1—691.1001).

Collection system—A system of pipelines or conduits, pumping stations and force or gravity mains used for collecting and conveying wastes to a point of treatment and disposal.

Community water system—A public water system which serves at least 15 service connections used by year-round residents or regularly serves at least 25 year-round residents.

Consecutive system—

(i) A public water system that obtains all of its water from another public water system and resells the water to a person, provides treatment to meet a primary maximum contaminant level or provides drinking water to an interstate carrier.

(ii) The term does not include bottled water and bulk water systems as defined in § 109.1 (relating to definitions).

Contact hour—The standard unit of measure for participation in a Department-approved education experience.

Continuing education—Approved activities to include training, outreach programs, contact hours, meetings, presentations and other activities designed to increase the knowledge, skills and abilities of system operators.

Conventional filtration—For drinking water, a series of processes implemented for the purpose of substantial particulate removal consisting of coagulation, flocculation, sedimentation and filtration.

Corrosion control and sequestering—A water treatment process designed to mitigate the adverse effects of corrosion in drinking water.

Diatomaceous earth filtration—For drinking water, a process for the purpose of substantial particulate removal, in which a precoat cake of diatomaceous earth filter media is deposited on a support membrane (septum) and, while the water is filtered by passing through the cake on the septum, additional filter media, known as body feed, is continuously added to the feed water, to maintain the permeability of the filter cake.

Direct filtration—

(i) For drinking water, a series of processes implemented for the purpose of substantial particulate removal consisting of coagulation and filtration.

(ii) The term normally includes flocculation after coagulation, but does not include sedimentation.

Distribution system—Pipelines, appurtenances, devices and facilities that convey potable water under pressure to customers.

Drinking water environmental laboratory supervisor—An individual having the knowledge, skills and abilities necessary to supervise laboratory procedures and the reporting of analytical data for an environmental laboratory operated by a drinking water system in accordance with industry, State and Federal standards.

Environmental laboratory—A facility engaged in the testing or analysis of environmental samples.

Environmental sample—A solid, liquid, gas or other specimen taken for the purpose of testing or analysis as required by an environmental statute.

Environmental statute—A statute administered by the Department relating to the protection of the environment or protection of public health, safety and welfare.

Examination—A test module or grouping of test modules administered by the Board or its designated agent used in part to determine the competency of applicants for certification or recertification.

Fee—A nonrefundable cost charged to an applicant assigned to cover the expenses of the program.

Fixed film treatment—A wastewater treatment technology that uses a fixed contact media to achieve treatment such as trickling filters and rotating biological contactors.

Gaseous chlorine disinfection—A water treatment process designed to inactivate pathogenic organisms from water being treated utilizing gaseous chlorine.

GED—General equivalency diploma.

Grandparented—The temporary exemption for an existing operator of an existing system, as of February 21, 2002, from the initial educational and examination requirements for certification where a system was not required by prior law to have a certified operator. A grandparented operator may be the operator in responsible charge.

Groundwater—Water beneath the surface of the ground that exists in a zone of saturation.

Hydraulic design capacity—The maximum monthly design flow at which a drinking water or wastewater system is expected to consistently provide the required treatment or at which a distribution or collection system is expected to properly function without creating a backup, surcharge or overflow.

Industrial wastewater treatment system—Any system that treats industrial waste or pollution, but not sewage, as those terms are defined in section 1 of The Clean Streams Law (35 P. S. § 691.1).

Ion exchange and greensand—A water treatment process such as greensand filtration, ion exchange or activated alumina designed to improve the quality of water being treated by removal of inorganic constituents.

Investigation—A detailed inquiry as to the nature, circumstances and official records regarding an applicant or certified operator's criminal conviction as identified in a criminal history record.

Master certificate—A certificate authorizing an operator to make process control decisions at any water or wastewater system of a specific size, regardless of the treatment technology subclassifications used by that system.

Membrane filtration—For drinking water, a process that uses a thin film that acts as a selective barrier (semipermeable) to the transport of matter to remove contaminants from water and includes such processes as electro dialysis, reverse osmosis, nanofiltration, ultrafiltration, microfiltration or other similar technologies.

NPDES—The National Pollutant Discharge Elimination System as authorized under section 402 of the Federal Clean Water Act (33 U.S.C.A. § 1342).

Nongaseous chemical disinfection—A water treatment process designed to inactivate pathogenic organisms from water being treated utilizing nongaseous chemical elements or compounds.

Noncommunity water system—A public water system which is not a community water system.

Nontransient noncommunity water system—A noncommunity water system that regularly serves at least 25 of the same persons over 6 months per year.

Operator—

(i) An individual who works with water or wastewater system processes or portions thereof.

(ii) The term includes, but is not limited to, an individual who may be gaining experience to obtain certification in appropriate subclassifications within classifications of certification. These individuals will have a working knowledge of system operation.

Operator-in-responsible-charge—An individual designated by the owner to be the certified operator who makes the process control decisions that directly impact the quality and or quantity of water.

Operator-in-training—An applicant for certification who has passed the certification examination but does not meet the experience requirements.

Order of the Department—An order of the Department issued under section 4(b)(2) of the act (63 P. S. § 1004(b)(2)) and also include orders of the Department issued under section 4(b)(1.1) of the act.

Owner—A person who owns or is the holder of an applicable permit for the operation of a water or wastewater system.

Ozonation—The water treatment process designed to inactivate pathogenic organisms from water being treated utilizing ozone.

Permitted average daily discharge flow—The hydraulic design capacity of a wastewater treatment system.

Person—

(i) An individual, company, corporation, political subdivision, municipality, municipal authority, partnership, firm, association, trust, estate, public or private institution, or any agency of Federal or State government.

(ii) The term also includes the officers, directors, employees and agents of any partnership, firm, association, company, corporation, municipality, municipal authority, public or private institution or any agency of Federal or state government.

Petition—A written request from the Department to the Board to take an action to modify, suspend, revoke or reinstate a certified operator's certificate.

Political subdivision—Any county, city, borough, town, township, school district, institution or any authority created by any one or more of the foregoing.

Postpresentation credit—Precertification or continuing education credit for a training course not previously approved by the Department. An operator may obtain postpresentation credit upon application to the Department.

Process control decision—A decision that maintains or changes the water quality or quantity of a water system or wastewater system in a manner that may affect the public health or environment.

Process control plan—A plan developed by an operator in responsible charge that outlines the facilities, methods, activities and treatment alternatives necessary to meet permit requirements and provide long term and reliable system operations.

Professional engineer—An engineer registered under the Engineer, Land Surveyor and Geologist Registration Law (63 P. S. §§ 148—158.2), who has been examined in civil, sanitary or environmental engineering and determined proficient.

Psychometrics—The analytical methodology and design of tests to evaluate and measure psychological variables such as intelligence and aptitude.

Recertification—The process by which an individual's water or wastewater system operator certificate, previously certified under the act, obtains a new certificate following expiration, suspension or revocation of the previous certificate.

Renewal of certification—The process by which an individual extends for another period of time an existing, valid water system or wastewater system operator's certificate under the act.

Satellite collection system—A wastewater system, with at least one pump station, which is designed to convey in excess of 2,000 gallons per day of untreated wastewater to a wastewater system owned by a different entity.

Serving an average—The hydraulic design capacity of a water system.

Single entity collection system—A wastewater collection system where the collection system relies on treatment from a wastewater treatment system owned by the owner of the collection system.

Site-specific—A certificate to allow a grandparented operator to make process control decisions for an identified system or part thereof, which is not transferable and is not valid if treatment methods change or the grandparented operator no longer works at a system.

Slow sand filtration—For drinking water, a process for the purpose of substantial particulate removal by physical and biological mechanisms during the passage of raw water through a bed of sand at low velocity, generally less than 0.4 meter per hour.

Subclassification—A number assigned by the Department to a water or wastewater system based upon the treatment process used by that system or the number assigned to an operator's certificate based upon meeting the certification requirements for a specific treatment process.

System—A water or wastewater system.

Track—A combination of approved education and experience requirements necessary to qualify for operator certification.

Training approval process guidelines—Department guidelines authorized by the act that set standards for training sponsors, courses, course content, training approval criteria and training provider approval criteria.

Training provider—A person who designs or delivers any type of education or training activities, courses or programs.

Training sponsor—A training provider approved by the Department to provide training to water and wastewater system operators in this Commonwealth in accordance with the Department's training approval process guidelines.

Treatment—The physical, chemical or biological process necessary to change, modify or maintain the chemical or biological nature of water.

Treatment ponds and lagoons—A wastewater treatment technology that utilizes a pond, lagoon or wetlands with anaerobic or facultative biological processes for the treatment of wastewater and meets the following criteria:

(i) A design hydraulic detention time in the treatment process of 15 days or greater.

(ii) A biological treatment process that does not have any return activated sludge system.

(iii) A biological treatment process that is impacted by diurnal fluctuations as a result of photosynthesis.

Trigger parameter—A set-point for a designated biological, chemical or physical parameter that requires a response by the operator in responsible charge.

Ultraviolet disinfection—A water treatment process that inactivates pathogenic organisms using light with a wavelength range of 4,000 to 40 angstroms.

Upgrade—The certification process an existing certified operator follows to increase the operator's authority to make process control decisions at a system of a specific flow or a system with specific treatment technologies.

Wastewater—A substance that contains the waste products or excrement or other discharge from the bodies of human beings or animals and noxious or deleterious substances being harmful or inimical to the public health, or to animal or aquatic life, or to the use of water for domestic water supply or for recreation, or which constitutes pollution under The Clean Streams Law.

Wastewater environmental laboratory supervisor—An individual having the necessary knowledge, skills and abilities necessary to supervise laboratory procedures and reporting of analytical data for an environmental laboratory operated by a wastewater or industrial waste system in accordance with industry, State and Federal standards.

Wastewater system—A structure designed to collect, convey or treat wastewater and from which effluent in excess of 2,000 gallons per day is discharged into waters of this Commonwealth.

Water system—A community water system or a nontransient noncommunity water system as those terms are defined in section 3 of the Pennsylvania Safe Drinking Water Act (35 P. S. § 721.3).

§ 302.102. Purpose.

(a) The purpose of this chapter is to protect the environment and the public's health and safety by ensuring that certified operators with the appropriate knowledge, skills and abilities make appropriate process control decisions during the operation of water and wastewater treatment systems, water distribution systems and wastewater collection systems.

(b) This chapter establishes the training, education, experience and examination standards necessary for operator certification.

(c) This chapter also establishes the administrative processes and procedures the Board will follow to implement the Board's duties and responsibilities under the act.

§ 302.103. Scope.

(a) A person may not make a process control decision at a water or wastewater system unless that person is Board-certified with a valid certificate with the appropriate class and subclassifications for the size and treatment technologies of a water or wastewater system and is designated by the owner as the available operator.

(b) To become certified by the Board, the applicant shall:

(1) Apply for certification in accordance with § 302.201 (relating to form of application).

(2) Pass the appropriate examinations as defined in § 302.702 (relating to examination requirements) or an equivalent examination as defined in § 302.304 (relating to issuance of a certificate through reciprocity).

(3) Meet minimum education requirements as defined in § 302.701 (relating to minimum education requirements).

(4) Meet the experience requirements as defined in § 302.703 (relating to experience requirements).

(c) The following are exempt from the requirements of this chapter:

(1) A wastewater treatment system with a permitted average daily discharge flow of less than 2,000 gallons per day.

(2) A wastewater treatment system regulated under Chapter 73 (relating to standards for onlot sewage treatment facilities). An industrial wastewater system used to treat, recycle or impound industrial or agricultural wastes within the boundaries of the industrial or agricultural property.

(3) An industrial waste pretreatment system in which treated wastewater is released to a collection system of a wastewater treatment plant that is regulated by this chapter.

(4) An industrial waste treatment system that is an NPDES permitted point source discharge.

(5) A water treatment device that serves a single private residence.

(6) A system designed to only collect and treat stormwater.

(7) Other systems that are exempted by the Department by rules and regulations, guidelines or policy.

(d) Operators of industrial wastewater treatment facilities may voluntarily obtain a wastewater system operator's certificate consistent with this chapter.

Subchapter B. GENERAL REQUIREMENTS FOR APPLICATIONS FOR CERTIFICATION ACTIONS

Sec.

302.201. Form of application.

302.202. Operator certification program fees.

§ 302.201. Form of application.

(a) An applicant for examination or a certification action shall submit a complete application with required documentation using the appropriate Department-approved forms to the Board's Secretary.

(b) In addition to the forms described in subsection (a), an application for certification action for either certification or recertification must include:

(1) An original or copy of the applicant's Pennsylvania State Police criminal history record, issued no more than 90 days prior to the date the application is received by the Board Secretary.

(2) For education purposes, one of the following:

(i) A copy of the applicant's high school diploma or GED or a statement of completion of high school or achievement of GED.

(ii) Written verification by the applicant's supervisor or another certified operator with direct knowledge of the applicant's experience working as an operator in a water or wastewater system before February 21, 2002.

(3) Documentation of the applicant's experience as defined in § 302.704 (relating to determining qualifying experience) and verified by the applicant's supervisor or another certified operator with the knowledge of the applicant's experience.

(4) An official copy of the applicant's college transcripts, if applicable.

(5) Copies of certificates of completion of Department-approved training courses if applicable.

(6) The applicant's signature, affirmed by a notary public.

(7) The applicable fees specified in § 302.202 (relating to operator certification program fees).

(c) In addition to the forms described in subsection (a), an application for certification action for certificate upgrade must include:

(1) An official copy of the applicant's college transcripts, if applicable.

(2) Documentation of the applicant's additional experience for the additional class or subclassification as defined in §§ 302.703 and 302.704 (relating to experience requirements; and determining qualifying experience), verified by the applicant's supervisor or another certified operator with the knowledge of the applicant's experience.

(3) Copies of certificates of completion of Department-approved training courses, if applicable.

(4) The applicant's signature, affirmed by a notary public.

(5) The applicable fees specified in § 302.202.

(d) In addition to the forms described in subsection (a), an application for certification action for certificate renewal must include:

(1) Proof of completed continuing education.

(2) The applicant's signature, affirmed by a notary public.

(3) The applicable fees specified in § 302.202.

(e) In addition to the forms described in subsection (a), an application for certification action for reciprocity must include:

(1) An original or copy of the applicant's Pennsylvania State Police criminal history record, issued no more than 90 days prior to the date the application is received by the Board Secretary.

(2) A copy of the applicant's operator certificate issued by another state, territory or Board-approved register as defined in § 302.305 (relating to Board-approved reciprocity register).

(3) For education purposes, one of the following:

(i) A copy of the applicant's high school diploma or GED or a statement of completion of high school or achievement of GED.

(ii) Written verification by the applicant's supervisor or another certified operator with direct knowledge of the applicant's experience working as an operator in a water or wastewater system before February 21, 2002.

(4) Documentation of the applicant's experience as defined in § 302.704 and verified by the applicant's supervisor or another certified operator with the knowledge of the applicant's experience.

(5) A copy of the applicant's official transcripts from college, if applicable.

(6) Copies of certificates of completion of Department-approved training courses if applicable.

(7) The applicant's signature, affirmed by a notary public.

(8) The applicable fees specified in § 302.202.

§ 302.202. Operator certification program fees.

(a) An application for a certification action or postpresentation credit must be accompanied by a nonrefundable check or money order payable to the "Commonwealth of Pennsylvania." The applicant's client ID should be printed on the check or money order.

(b) Applications to become an approved training provider, course and conference approvals, course rosters and requests for examination sessions must be accompanied by a nonrefundable check or money order payable to the "Commonwealth of Pennsylvania."

(c) Annual reports as described in § 302.1202(b) (relating to duties of owners) must be accompanied by a nonrefundable check or money order payable to the "Commonwealth of Pennsylvania." The systems' Public Water Supply ID or NPDES Permit Number should be printed on the check or money order.

(d) The fees are as follows:

Operators:

Initial Certification Class A, B, C, D	\$150
Initial Certification Class Dc, Dn, Class E	\$100
Certification through Reciprocity Class A, B, C, D	\$150
Certification through Reciprocity Class Dc; Dn, Class E	\$100
Certificate Renewal	\$60
Examination Session	\$35
Replacement of Certificate or Pocket Card	\$25
Postpresentation Credit Application	\$250

Training:

Training Provider Approval Application	\$90
Brief Course Approval	\$115
Full Course Approval	\$300
Conference Approval	\$70
Course Rosters	\$1 per name

Classroom Courses offered by the Department are \$10 per contact hour maximum per person.

Web-based Courses offered by the Department are \$30 per contact hour maximum per person. Onsite Training offered by the Department is \$1,600 per event.

Approved Examination Providers:

Ten or more examination sessions per year	\$800
Five to ten examination sessions per year	\$700
Two to five examination sessions per year	\$600
One examination session per year	\$400

Owners:

Annual Service Fee Class A System	\$500
Annual Service Fee Class B System	\$150
Annual Service Fee Class C System	\$100
Annual Service Fee Class D and E Systems	\$65

(e) The maximum fee a training provider or owner will be charged is \$10,000 per year.

(f) An operator holding a valid certificate as of ____ (Editor's Note: The blank refers to the effective date of adoption of this proposed rulemaking.), is not required to pay the certification fees identified in subsection (b). The operator is subject to all other fees in this section.

(g) The fees identified in subsection (b) are in addition to any fees charged by an approved examination provider as defined in § 302.605 (relating to use of materials and electronic devices by the applicant during examination).

(h) No person regulated by this act shall pay more than a total of \$10,000 annually to the Commonwealth operator certification fees specified under this act.

(i) The Department will review the adequacy of the fees established in this section at least once every 3 years and provide a written report to the Environmental Quality Board. The report will identify any disparity between the amount of program income generated by the fees and the costs to administer these programs, and it will contain recommendations to modify fees to eliminate the disparity, including recommendations for regulatory amendments to modify program fees.

Subchapter C. BOARD PROCEDURES AND ACTIONS

Sec.	
302.301.	Board procedures for certification action.
302.302.	Issuance of certificate for certification or recertification.
302.303.	Issuance of upgraded certificate.
302.304.	Issuance of certificate through reciprocity.
302.305.	Board-approved reciprocity register.
302.306.	Certificate renewal.
302.307.	Extensions.
302.308.	Suspensions, revocation or modification of an operator's certificate.
302.309.	Board review of Department training decisions.

§ 302.301. Board procedures for certification action.

(a) The Department, under the supervision of the Board Secretary, will review the application for certification action for completeness.

(b) If the application is not complete, the applicant will be notified, in a timely manner from receipt of the application, of the specific information required to make the application complete.

(c) When an application is complete, the Board Secretary will review the application using policy and procedures defined by the Board in guidelines and make a recommendation for action to the Board designating the

appropriate class and subclassification. The Board will make the final determination on the appropriate class and subclassification.

(d) The Board will take an action on a complete application within two scheduled Board meetings after the Board Secretary has completed the review of the application, provided the application is complete and contains sufficient information for the Board to make a decision.

(e) The Board Secretary will issue the operator's certificate within 60 days of Board action. A certificate will include the issuance and expiration dates, class and subclassifications, client ID and certification identification numbers and pocket card for identification purposes.

(f) The issuance date on the certificate corresponds with the date of Board action and the operator is assigned to the current 3-year renewal cycle (either the first day of January, April, July or October). The certificate is valid for a 3 year period and will expire on the date indicated unless suspended, modified or revoked by the Board prior to expiration.

(g) The Board will deny an application for certification action for failure to meet the requirements of the act, the regulations promulgated under this act, and other Department rules and regulations related to the operation of a water or wastewater system.

(h) The Board authorizes the Board Secretary to deny an application for certification action without Board review for failure to:

(1) Meet the requirements for reciprocity as defined in § 302.304 (relating to issuance of certificate through reciprocity).

(2) Meet processing deadlines.

(3) Successfully pass an examination for certification.

(i) When the Board denies an application for certification action, the Board Secretary will notify the applicant in writing within 60 days of the Board decision, describing the applicant's right to appeal the action to the Environmental Hearing Board.

(j) Within 4 weeks of receiving a written request of a certified operator and payment of a fee as established in § 302.202 (relating to operator certification program fees) for the replacement of a certificate or wallet card, the Board Secretary will fulfill the request.

§ 302.302. Issuance of certificate for certification or recertification.

The Board may approve a complete application for certification action for either certification or recertification with a designated class and subclassification when the applicant has met the requirements for certification as defined in § 302.103 (relating to scope). The Board will also complete the review of the applicant's criminal history record in accordance with §§ 302.402 and 302.403 (relating to CHR investigations; and review of CHRs by the Board) before approving a complete application for certification action for certification or recertification.

§ 302.303. Issuance of upgraded certificate.

(a) The Board will approve a complete application for certification action to upgrade an existing certificate to the appropriate class when the applicant meets the additional experience requirements defined in § 302.703 (relating to experience requirements) for the upgrade in class. The Board will also approve a complete application for certification action to upgrade an operator-in-training

as defined in § 302.1004 (relating to operator-in-training status) when the operator-in-training has met the minimum experience requirements for certification defined in § 302.703.

(b) The Board will approve a complete application for certification action to upgrade an existing certificate to add another subclassification when the applicant passes the Part II Treatment Technology Specific Examination as defined in § 302.601 (relating to general provisions) that corresponds to a subclassification defined in §§ 302.1002 and 302.1003 (relating to certification classes and subclassifications of water system operators; and certification classes and subclassifications of wastewater system operators) and completes 1 year additional experience requirement, if applicable, as defined in §§ 302.703 and 302.704 (relating to experience requirements; and determining qualifying experience).

(c) The Board will replace the applicant's existing certificate with an upgraded certificate that maintains the operator's current 3 year renewal cycle. Those applicants that were upgraded from the operator-in-training status will be issued a certificate in accordance with procedures defined in § 302.301 (relating to Board procedures for certification action).

(d) Additional changes in continuing education requirements as defined in § 302.803 (relating to phased schedule for continuing education requirements) resulting from an upgrade will not be enforced until the certified operator's next full 3 year renewal cycle.

(e) Class Dc, Dn and grandparented certificates will not be upgraded.

§ 302.304. Issuance of certificate through reciprocity.

(a) The Board may issue a certificate to an applicant holding a valid water or wastewater, or both, operator certificate from another state, territory, the District of Columbia or a Board-approved reciprocity register, when the applicant meets the requirements for certification defined in § 302.103 (relating to scope) and demonstrates the out-of-State certificate was issued as the result of passing an examination comparable to one administered by the Board.

(b) The Department will determine whether the content of the examination is comparable to an examination prepared by the Department and obtain confirmation from the state, territory or Board approved registry that issued the applicant's certificate that the applicant holds a valid certificate, and is in compliance with applicable laws, regulations and other requirements.

(c) Operators previously certified in this Commonwealth are not eligible to apply for reciprocity if:

(1) The Board revoked, suspended or modified their certificate in accordance with § 302.308 (relating to suspensions, revocation or modification of an operator's certificate).

(2) The operator failed to meet the continuing education requirements for their most recent 3 year renewal cycle.

§ 302.305. Board-approved reciprocity register.

(a) The Board recognizes the Association of Boards of Certification Registry and United States Military or Coast Guard discharge papers documenting water or wastewater operation as reciprocity registers.

(b) The Board may recognize additional certification registers upon request by a certified operator or the entity maintaining the register.

§ 302.306. Certificate renewal.

(a) Certified operators meeting the requirements of the act, this part, and other Department rules and regulations related to the operation of a water or wastewater system, and Department and Board guidelines will be eligible for certificate renewal without further examination.

(b) The Board will attempt to notify certified operators when renewal is due at least 60 days prior to certificate expiration. Failure to receive a renewal application from the Board does not release a certified operator from the requirements of the act, this part, and other Department rules and regulations related to the operation of a water or wastewater system.

(c) Certified operators shall meet the continuing education requirements as defined in § 302.803 (relating to phased schedule for continuing education requirements) as a condition of renewal.

(d) Continuing education must be successfully obtained during the certified operator's 3 year certification period. A certified operator who fails to complete the continuing education requirements within the 3 year cycle shall apply for recertification.

(e) The Board will not renew a certificate for an operator who fails to meet the continuing education requirements, unless the operator has applied for and been granted, an extension in accordance with § 302.307 (relating to extensions).

(f) A certificate will not be deemed expired if the Board Secretary has received a complete application for certification action for renewal before the expiration date of the certificate. This provision will be in force until the Board takes action on the application. If approved, the certificate will be issued with an expiration date that maintains the operator's prior 3 year cycle.

(g) A certificate renewal issued by the Board after the certificate has expired will have the effective issuance date of the first day of the month in the next quarter (January, April, July or October) following Board action. The expiration date will be 3 years after the expiration date of the lapsed certificate.

(h) Within 24 months following the date of expiration, an operator who has completed the continuing education, but whose certificate has expired, may renew the certificate by submitting a complete application for certification action for renewal. A certified operator who fails to renew the certificate within 24 months of the expiration date shall apply for recertification.

(i) The Board Secretary will submit a listing of applicants for certificate renewal to the Board that the Department has determined have not met the continuing education requirements as defined in § 302.802 (relating to continuing education requirements for certificate renewal). The listing will include the applicants' name, their classes and subclassifications of certification and the number of approved hours of continuing education completed.

(j) An operator shall submit any postpresentation credit applications for training that was not preapproved by the Department in accordance with training approval process guidelines within 90 days after certificate expiration.

(k) After the Board has taken action to deny an application for certificate renewal due to lack of continuing education, the Board Secretary will send a certified letter to the operator notifying them of the Board's decision. If possible, the Board Secretary will send a copy of this letter to the appropriate Department regional program manager and the owners of systems when the operator is identified by the owners as an available operator for the systems.

(l) The operator has 14 days from receipt of the certified letter to submit additional documentation of completed continuing education for review by the Department to the Board Secretary. If the Department approves the additional documentation showing compliance with the requirement for continuing education, the Board Secretary will issue a valid certificate to the operator. If not, the operator is no longer certified, and shall apply for recertification.

§ 302.307. Extensions.

(a) The Board may grant a time extension to a certified operator to meet the requirements of the act, this part, and other Department rules and regulations related to the operation of a water or wastewater system provided that:

(1) The certified operator requests an extension in writing with appropriate justification no later than 90 days after certificate expiration, except in extenuating circumstances.

(2) The certified operator agrees to meet all requirements within a specific time period established by the Board.

(3) Any Board extension is consistent with only those specific powers and duties granted to the Board.

(b) The Board Secretary will provide an explanation of the Board's decision and any requirements for compliance in writing to the certified operator.

(c) Circumstances that justify an extension include:

(1) Military service that curtails an operator's ability to access continuing education, mandated training or Board testing.

(2) Health related circumstances that curtail an operator's ability to participate in continuing education, mandated training or Board testing.

(3) Other extreme circumstances.

§ 302.308. Suspensions, revocation or modification of an operator's certificate.

(a) The Board may take action to suspend, revoke, modify or reinstate an operator's certificate upon petition by the Department.

(b) The Board may suspend, revoke or modify a certificate for misconduct for reasons including:

(1) Negligence in operating a system.

(2) Fraud.

(3) Falsification of State, local or Federal documents or records.

(4) Failure to use reasonable care and professional judgment in performing the duties of a certified operator.

(5) Violation of State or Federal laws and the rules and regulations promulgated thereunder associated with the operation of a water or wastewater treatment system.

(6) Creating a clear or potential threat to public health, safety or the environment.

(7) Failure to comply with the duties assigned to a certified operator.

(c) Suspension, revocation, modification or reinstatement of an operator's certificate will become effective immediately upon the Board's action.

(d) The Board may suspend or modify a certificate for a specific time period or require additional education, training or reexamination as a condition of reinstatement.

(e) Within 5 days of the Board taking an action to suspend, revoke, modify or reinstate an operator's certificate, the Board Secretary will notify the Department, the certified operator and the certified operator's employer in writing of the Board action to suspend, revoke or modify an operator's certificate.

§ 302.309. Board review of Department training decisions.

(a) A training provider or sponsor may request the Board to review a Department action to do the following:

- (1) Approve, disapprove, revoke or suspend a training provider's status as an approved sponsor of training for certification and continuing education.
- (2) Approve, deny, revoke or suspend the approval of any course for certification and continuing education.
- (3) Assess an instructor's qualifications.
- (4) Assign appropriate continuing education contact hours.

(b) Within 75 days of receiving notification from the Department, a training provider or sponsor will submit a request to the Board to review the Department's decision. The request must include the following:

- (1) The reasons for the Department's decision.
- (2) The reasons why the Board review is necessary.
- (3) Any circumstances that merit consideration by the Board to reverse or modify the Department's decision.
- (4) The desired action from the Board.

(c) The Board will take action on any training decision request within 120 days of completion of a scheduled Board meeting dealing with the training action.

Subchapter D. CRIMINAL HISTORY RECORDS

Sec.

- 302.401. Submission of CHRs.
- 302.402. CHR investigation.
- 302.403. Review of CHRs by the Board.
- 302.404. Board actions as the result of its review of a CHR.

§ 302.401. Submission of CHRs.

(a) The Board requires a CHR to accompany an application whenever an applicant does one or more of the following:

- (1) Submits an application for certification. A CHR is not required for subsequent renewals.
- (2) Submits an application requesting certification by reciprocity.
- (3) Submits an application for recertification.

(b) An applicant holding a bioperable certification shall meet the requirements in subsection (a) for each separate water and wastewater certificate.

(c) The date of issuance on a CHR must be no more than 90 days before the date when the application is received by the Board Secretary.

§ 302.402. CHR investigations.

(a) The following criminal activities require further investigation:

- (1) A felony.
- (2) A misdemeanor that appears to be related directly to activities associated with carrying out duties and responsibilities as a certified operator.
- (3) A misdemeanor that appears to pose a threat to public health, safety or the environment.

§ 302.403. Review of CHRs by the Board.

(a) The Board will review all CHRs submitted with applications for certification action in accordance with the act and this chapter.

(b) A preliminary review committee will conduct a review, and if necessary, conduct appropriate investigations and make a recommendation to the Board for action. The membership of this committee will include:

- (1) A Board member.
- (2) A Department employee.
- (3) Board legal counsel.

(c) The Board or Board-designated agent will conduct an evaluation of all applicants with a conviction noted on their CHR to determine the appropriate category in this section. Convictions meeting the criteria in § 302.402 (relating to CHR investigations) require the Department to conduct an investigation and submit a written report to the Board or Board-designated agent.

(d) If the preliminary review committee feels the conviction may be related to the operation of a drinking water or wastewater treatment system, they will instruct the Board Secretary to send the applicant a certified letter notifying them of this potential and offering them the opportunity to appear at the next regularly scheduled Board meeting to present any information they feel is relevant or related to the conviction. The Department employee on the committee will also solicit further information from the appropriate regional office as it relates to the circumstances that resulted in the conviction and the applicant's record as an operator.

(e) The preliminary review committee will provide reasons for their recommendation and any associated documentation.

(f) These recommendations will be assigned into the following two categories:

- (1) Recommend approval of the application for certification action.
- (2) Recommend that the full Board review the CHR and investigation findings.

(g) A certified operator will not be denied a temporary certification for renewal pending a final action of the Board on a CHR. In this case, a letter will be sent extending the certified operator's existing certificate until the Board takes final action.

(h) An applicant for certification will not be denied admittance to the certification exam pending a final action on a CHR.

(i) The Department will complete the investigation in a timely manner based on circumstances related to the necessary collection of information needed to make a recommendation.

§ 302.404. Board actions as the result of a CHR.

(a) The Board will act on all CHRs submitted with an application for certification action.

(b) The Board will find no further action is necessary when an applicant's CHR shows no convictions.

(c) Based on the Board's authority under 18 Pa.C.S. Chapter 91 (relating to criminal history record information), the Board may deny an application for certification action based on a conviction of either:

(1) A felony related to the trade, occupation or profession for which the certification is sought.

(2) A misdemeanor related to the trade, occupation or profession for which the certification is sought.

(d) The Board will review the recommendations of the preliminary review committee before taking action. Based on this review, the Board will do one of the following:

(1) Agree with the preliminary review committee and take action on the CHR accordingly.

(2) Disagree with the preliminary review committee and take action on the CHR accordingly.

(e) The Board Secretary will notify an applicant in writing of the Board's decision to deny an application for certification action based on the applicant's CHR.

(f) If an application for certification action is denied, the Board will identify the reasons for the decision, since this decision prohibits the individual from practicing as a certified operator in this Commonwealth.

(g) An applicant wishing to appeal a Board action shall petition the EHB.

Subchapter E. ADMINISTRATIVE HEARINGS OF THE BOARD

Sec.

302.501. General requirements.

§ 302.501. General requirements.

(a) The Department may file with the Board Secretary a written petition under section 4(b)(1) of the act (63 P. S. § 1004(b)(1)), by submitting a written request containing the following information:

(1) The factual basis of the petition including the dates, times and places of the occurrences and the names of the responsible parties with sufficient specificity that the respondent can file an answer and prepare a defense to the allegations.

(2) The statutes or regulations, or both, allegedly violated and underlying the petition.

(3) The relief requested.

(4) An identification of the Department attorney or contact person, including the address and telephone number, who can receive service on behalf of the Department.

(b) Upon receipt of a petition, the Board Secretary will:

(1) Provide a copy of the petition to the operators named in the petition, sent by certified mail.

(2) Schedule the petition for hearing before the Board or a hearing officer appointed by the Board. As necessary, the Board Secretary may schedule prehearing conferences and issue orders needed to dispose of prehearing issues.

(c) Requests to reschedule or cancel a hearing must be in writing and be received by the Board Secretary at least 14 days prior to the date of the hearing. Continuance of a hearing is at the discretion of the Board. The Board may continue a hearing upon its own motion.

(d) The hearings of the Board will be in accordance with 2 Pa.C.S. Chapter 5 Subchapter A and Chapter 7 Subchapter A (relating to Administrative Agency Law).

(e) The Chairperson of the Board is authorized to sign decisions and orders on behalf of the Board.

(f) An order of the Board will be effective immediately unless otherwise indicated within the order.

(g) Decisions on the petition may be appealed to the EHB.

Subchapter F. PREPARATION AND ADMINISTRATION OF CERTIFICATION EXAMINATIONS

Sec.

302.601. General provisions.

302.602. Approved examination providers.

302.603. Examination eligibility.

302.604. Examination administration.

302.605. Use of materials and electronic devices by the applicant during examination.

§ 302.601. General provisions.

(a) The Department will prepare and the Board will administer valid certification examinations using general psychometric principles to measure the applicant's knowledge, skills and abilities necessary to make process control decisions that meet permit requirements, maintain system reliability and ensure the protection of the environment, public health and safety.

(b) Certification and recertification examinations will consist of a two part examination. Part I of the examination will measure the applicant's knowledge, skills and abilities common to all water or wastewater systems regardless of size. Part II of the examination will measure the applicant's knowledge, skills and abilities necessary to operate specific treatment technologies or system components.

(c) There will be separate stand-alone examinations for wastewater collection systems, either satellite or single entity; water distribution or consecutive systems without treatment and Dc or Dn systems.

(d) There will be a Part II examination for laboratory supervisor for a water system and a Part II examination for laboratory supervisor for a wastewater system.

(e) There will be a master examination for either water or wastewater systems for operators wanting a master certificate to operate all available treatment technologies and system components.

(f) The Department will annually review examinations for relevancy. The Department may use third party contractors, members of the Board or the Certification Program Advisory Committee, Department staff or other qualified individuals as subject matter experts for the content and validation of the examinations.

(g) The Board may use third-party examination proctors for administration of examinations, provided the proctors have completed the necessary training defined by Board guidelines.

(h) Paper and test materials remain the property of the Board.

(i) Individual examination scores will be confidential and will not be disclosed to the public.

§ 302.602. Approved examination providers.

(a) The Board may use consultants, nonprofit water and wastewater industry associations and organizations, the Department or educational institutions to assist in

the administration of the examinations for certification. The Board Secretary will approve all examination providers in accordance with Board guidelines.

(b) Approved examination providers may charge a fee to an applicant to cover the cost of personnel, facility rental and other incurred costs related to the registration and administration of the examination.

(c) Approved examination providers will not at any time be in possession of any Department-developed examination materials or examination content.

(d) Approved examination providers will administer examinations in accordance with Board guidelines.

§ 302.603. Examination eligibility.

(a) An applicant for examination shall submit a request for examination using approved Board forms to one of the approved examination providers. The applicant shall also pay any fees defined by the approved examination provider for processing this request.

(b) An individual is not required to meet experience requirements of the act, regulations or guidelines as a condition for examination.

(c) An individual is not required to successfully attain any training as a condition for examination.

(d) An individual that attends five or more examination sessions without applying for certification shall pay the examination session fees defined in § 302.202 (relating to operator certification program fees) before being allowed to attend additional examination sessions.

(e) A certified operator is not required to retake an examination already successfully passed unless:

(1) The individual fails to renew their certification within 2 years from the expiration date of the certification.

(2) The individual fails to complete the required amount of continuing education within the 3-year renewal cycle.

(3) The Board takes action to suspend or modify the certification. A certified operator whose license is revoked may not apply to become recertified or to reexamine.

§ 302.604. Examination administration.

(a) The proctors and Department staff shall follow all procedures for the administration of an examination as defined in Board guidelines.

(b) The examination proctor will provide a written report to the Board regarding any applicant violating this section or Board guidelines.

(c) The Board may make exceptions to a written examination or other examination requirements when an applicant or representative makes a "reasonable accommodation" request under the Americans With Disabilities Act of 1990 (42 U.S.C.A §§ 12101—12213) in written form to the Board, the request documents the reason for the accommodation and the request is submitted to the Board Secretary in writing at least 15 days before the date of the examination.

(d) The Board may make exceptions to the scheduled date and location of an examination upon written request by an applicant based on religious preference, jury duty or other compelling reasons.

§ 302.605. Use of materials and electronic devices by the applicant during examination.

(a) The use of nonprogrammable calculators by applicants during the examination is permitted.

(b) The use of hand held computers or other devices that can store technical information, electronic communication devices, personal music players or other memory storage devices or printed materials other than the materials provided by the examination proctor during the examination is not permitted during the examination.

(c) An applicant may use special electronic devices, if the applicant has submitted a written request to the Board Secretary for approval and has received written approval from the Board.

Subchapter G. EDUCATION, EXAMINATION AND EXPERIENCE REQUIREMENTS

Sec.

302.701. Minimum education requirements.

302.702. Examination requirements.

302.703. Experience requirements.

302.704. Determining qualifying experience.

302.705. Accelerated certification requirements for system modifications.

§ 302.701. Minimum education requirements.

(a) An applicant for certification shall obtain a high school diploma or a GED to meet one of the minimum education requirements.

(b) The Board may grant an education exemption to the requirements in subsection (a) if the applicant provides written verification by the applicant's supervisor or another certified operator with direct knowledge of the applicant's experience working as an operator in a water or wastewater system before February 21, 2002.

(c) Experience used to meet the equivalency for a high school diploma or GED cannot be used as experience for certification.

§ 302.702. Examination requirements.

(a) An applicant for certification in wastewater shall obtain a passing score on a Part I General Examination and one or more of the Part II Treatment Technology Specific Examinations, a Master Examination or a Collection System Examination.

(b) An applicant for certification in drinking water shall obtain a passing score on a Part I General Examination and one or more of the Part II Treatment Technology Specific Examinations for Class A, B and C, a Part I General Examination for Class D, a Master Examination, a Dc or Dn Small System Examination or a Distribution Examination.

(c) An applicant shall obtain a minimum numerical score of correctly answered questions based on general psychometric principles to pass an examination for certification.

(d) An applicant's score on an examination is independent and not conditional on the results of any other type of certification examination.

(e) Test results are valid indefinitely, unless the applicant must apply for recertification as determined by the Board.

§ 302.703. Experience requirements.

(a) To meet the requirements for certification, the Department will provide an applicant with two different experience tracks.

(b) Track I identifies the experience requirement necessary to qualify for certification when the applicant meets the basic educational requirement in § 302.701 (relating to minimum education requirements).

(1) *Track I experience requirements for wastewater treatment system operators.*

Class	Minimum Experience
A	4 years
B	3 years
C	2 years
D	1 year
E	1 year

(2) *Track I experience requirements for water system operators.*

Class	Minimum Experience
A	4 years
B	3 years
C	2 years
D	1 year
E	1 year
Dc	6 months
Dn	6 months

(c) An applicant for operator certification using Track I may supplement up to 50% of the required experience by successfully completing additional education beyond the minimum education requirement defined in § 302.701. One month of experience can be credited for the successful completion of every 10 contact hours of Department-approved training courses in water or wastewater, as applicable, or 1.5 months experience may be credited for the successful completion of one college credit in water or wastewater from an accredited college or university.

(d) Track II provides a reduction in the experience requirements defined in subsection (b) when the applicant has successfully earned one of the following:

- (1) A certificate of completion of a Department-approved certificate program in water or wastewater, or both (CP).
- (2) An associate degree in a water or wastewater, or both, operation approved by the Department (ASP).
- (3) An associate degree in environmental sciences, physical sciences, engineering or engineering technology not approved by the Department (AS).
- (4) A bachelor's or graduate degree in biology, chemistry, environmental sciences, physical sciences, sanitary or environmental engineering or engineering technology from a Nationally accredited college or university (BS/BA).

(e) The required experience under Track II is:

(1) *Track II experience requirements for wastewater treatment system operators.*

Class	CP	ASP	AS	BS/BA
A	2 years	1 year	3.5 years	2 years
B	1 year	6 months	2.5 years	1 year
C	6 months	6 months	1.5 years	6 months
D	6 months	6 months	6 months	6 months
E	6 months	6 months	6 months	6 months

(2) *Track II experience requirements for water system operators.*

Class	CP	ASP	AS	BS/BA
A	2 years	1 year	3.5 years	2 years
B	1 year	6 months	2.5 years	1 year
C	6 months	6 months	1.5 years	6 months
D	6 months	6 months	6 months	6 months
E	6 months	6 months	6 months	6 months
Dc	0	0	6 months	0

Class	CP	ASP	AS	BS/BA
Dn	0	0	6 months	0

(f) When education is applied to meet the experience requirements for certification under Track II, the credit can only be applied once and is not cumulative.

§ 302.704. Determining qualifying experience.

(a) The Board will determine if the applicant's experience meets the experience requirements defined in § 302.703 (relating to experience requirements).

(b) Experience for certification is achieved by participating in a combination of activities related to process control under the supervision of a certified operator who holds the appropriate subclassifications.

(c) The Board will consider the following activities for qualifying experience:

- (1) Operating mechanical equipment related to process control.
- (2) Maintaining mechanical equipment related to process control.
- (3) Collecting and analyzing chemical and biological samples related to process control and regulatory compliance activities.
- (4) Performing calculations related to process control.
- (5) Preparing or standardizing chemical and biological solutions.
- (6) Interpreting, compiling and completing monitoring data.
- (7) Recommending appropriate process control measures.
- (8) Participating in onsite assessment, inspection or evaluation of plant processes.
- (9) Calibrating chemical feed systems.
- (10) Using equipment to monitor and measure flows through a water or wastewater system.

(d) An applicant for a wastewater certificate may apply experience as defined in subsection (c) as follows:

- (1) Experience working at an activated sludge wastewater system qualifies an applicant for an activated sludge wastewater certificate (Subclassification 1), the fixed film wastewater certificate (Subclassification 2) and the treatment pond and lagoon wastewater certificate (Subclassification 3).
- (2) Experience working at a fixed film wastewater system qualifies an applicant for a fixed film wastewater certificate (Subclassification 2) and a treatment pond and lagoon wastewater certificate (Subclassification 3).
- (3) Experience working at a treatment pond and lagoon wastewater system qualifies the applicant for the treatment pond and lagoon wastewater certificate (Subclassification 3).

(4) Experience working at a satellite collection system or a single entity collection system qualifies the applicant for a Class E Subclassification 4 wastewater certificate.

(5) Experience for class may be obtained at a wastewater system with the classification level requested or two classification levels alphabetically lower.

(e) An applicant for a water certificate may apply experience as defined in subsection (c) as follows:

- (1) Experience working at a conventional filtration, direct filtration, diatomaceous earth filtration or slow sand filtration water system qualifies an applicant for any of the following:

(i) The filtration water certificates (Subclassifications 1, 2, 3, 4, 5 and 6).

(ii) The chemical treatment water certificates (Subclassifications 7, 8, 9 and 10).

(iii) The gaseous chlorine and nongaseous chemical disinfection water treatment certificates (Subclassifications 11 and 12).

(2) Experience working at a cartridge or bag filtration or membrane filtration water system qualifies an applicant for any of the following:

(i) The cartridge or bag filtration and the membrane filtration water certificates (Subclassifications 5 and 6).

(ii) The chemical treatment water certificates (Subclassifications 7, 8, 9 and 10).

(iii) The gaseous chlorine and nongaseous chemical disinfection water treatment certificates (Subclassifications 11 and 12).

(3) Experience working at a corrosion control and sequestering, chemical addition, ion exchange and greensand or aeration and activated carbon adsorption water system qualifies an applicant for any of the following:

(i) The chemical treatment water certificates (Subclassifications 7, 8, 9 and 10).

(ii) The gaseous chlorine and nongaseous chemical disinfection water treatment certificates (Subclassifications 11 and 12).

(4) Experience working at a gaseous chlorine disinfection or nongaseous chemical disinfection water system qualifies an applicant for the gaseous chlorine and nongaseous chemical disinfection water treatment certificates (Subclassifications 11 and 12).

(5) Experience working at an ultraviolet water system qualifies an applicant for the ultraviolet water treatment certificate (Subclassification 13).

(6) Experience working at an ozonation water system qualifies an applicant for the ozonation water treatment certificate (Subclassification 14).

(7) Experience for a class may be obtained at a water system at the classification level requested or two classification levels alphabetically lower.

(8) Experience working at a Dc water system qualifies an applicant for only the Class D water certificate with the gaseous chlorine and nongaseous chemical disinfection water treatment certificates (Subclassifications 11 and 12).

(9) Experience working at a Dn water system qualifies an applicant for only the Class D water certificate without any subclassifications.

(f) One year of experience is equal to 220 working days or 1,760 hours of employment.

(g) Experience will be prorated for time periods less than 1 year.

(h) Experience is counted up to the first day of the month after the applicant submits an application for certification action.

(i) An applicant's experience at a wastewater system may be used to meet no more than half the experience requirement for a drinking water certification of the same classification level or a level alphabetically lower. The remaining experience must be operating experience at a drinking water system as defined in subsection (c).

(j) An applicant's experience at a water system may be used to meet no more than half the experience requirement of a wastewater certification of the same classification level or a level alphabetically lower. The remaining experience must be operating experience at a wastewater system as defined in subsection (c).

§ 302.705. Accelerated certification requirements for system modifications.

(a) An operator certificate upgrade is required when an increase in treatment capacity of the system no longer qualifies the available operator to make process control decisions for that system. When the capacity of the system is increased, the existing available operators will qualify for an accelerated certification upgrade by applying for an upgrade in class before the larger system becomes operational. Additional experience or training is not required.

(b) An operator certificate upgrade is required when the addition of a different treatment technology to a system no longer qualifies the available operators to make process control decisions for that system. When a different treatment technology is added to the system, the existing available operators may qualify for an accelerated certification upgrade if:

(1) The owner obtains the appropriate NPDES, public water supply or The Clean Streams Law permit from the Department with approval of the accelerated certification program.

(2) The operator successfully completes an onsite, Department-approved training program from the manufacturer or consulting engineer on the proper operation and maintenance of the new treatment technology.

(3) The operator passes the appropriate Part II Technology Specific examination for the new treatment technology.

(4) The manufacturer or consulting engineer provides the Board and the Department with written documentation that the available operators for the system have successfully completed the formalized startup training and assistance program and are competent in the operation of the treatment technology.

(c) The available operators of the system undergoing an upgrade may continue to make process control decisions for the system if the conditions for accelerated certification as defined in subsection (a) or (b) are met. If not, the owner of the system will find another available operator with the appropriate class and subclassifications to make process control decisions until the existing certified operators at the system meet the additional examination requirements defined in § 302.702 (relating to examination requirements) and any additional experience requirements defined in § 302.703 (relating to experience requirements).

Subchapter H. CONTINUING EDUCATION AND TRAINING

Sec.

302.801. Training and continuing education.

302.802. Continuing education requirements for certificate renewal.

302.803. Phased schedule for continuing education requirements.

302.804. System security training requirements.

§ 302.801. Training and continuing education.

(a) The Department will designate all approved training and continuing education into one of the following categories:

- (1) Wastewater.
 - (2) Water.
 - (3) Bioperable.
 - (4) Security training as established in § 302.804 (relating to system security training requirements).
- (b) The Department may approve, deny, suspend or revoke any training sponsor, training program, training course or conference session.

(c) The Department may audit, examine, inspect and review the activities and documentation of approved training sponsors, training programs, approved instructors, courses, course content, conference sessions, teaching materials and facilities as related to water operator training and wastewater operator training and continuing education.

(d) The Department will develop training approval process guidelines that define the standards for the approval of training providers as training sponsors, training programs, instructors, courses and course content, conference sessions and other teaching materials and facilities used for the development and delivery of water and wastewater operator training and continuing education.

§ 302.802. Continuing education requirements for certificate renewal.

- (a) Only contact hours for training approved by the Department will be used by a certified operator to meet the continuing education requirements for certificate renewal.
- (b) A certified operator is required to successfully obtain the designated continuing education contact hours as defined in § 302.803 (relating to phased schedule for continuing education requirements) for certification renewal for the appropriate class.
- (c) Bioperable operators will meet the continuing education requirements for each water and wastewater certificate held.
- (d) A certified operator may not apply excess contact hours to a subsequent 3 year renewal cycle.
- (e) For the purpose of meeting the continuing education requirement, the contact hours associated with a Department-approved course may only be applied once within an operator's 3 year renewal cycle.
- (f) A Department-approved instructor holding an operator's certificate may be granted continuing education contact hours for teaching a Department-approved training course provided the instructor delivers the course within the instructor's 3 year renewal cycle and provides documentation to the Department that the course was completed, with the total amount of hours of training delivered. The contact hours for a specific course can be granted only once within the 3 year renewal cycle in which the course is taught.
- (g) A certified operator is credited continuing education contact hours in the 3 year renewal cycle in which the training provider documents successful completion of the training.
- (h) Certified operators that have successfully completed the Department's Drinking Water Corrosion Control Treatment Course or Bio-solids Management Course may be granted a one-time credit for the contact hours for continuing education during the initial renewal cycle, regardless of the date of completion.

§ 302.803. Phased schedule for continuing education requirements.

(a) The number of required contact hours of continuing education for certificate renewal is as follows:

(1) *Contact hour requirements for wastewater system certified operators.*

<i>Operator Class</i>	<i>Contact Hours for First 3 Year Renewal Cycle</i>	<i>Contact Hours for Subsequent 3 Year Renewal Cycle</i>
A	15	30
B	15	30
C	15	30
D	8	15
E	8	15
Grandparented	8	15

(2) *Contact hour requirements for water system certified operators.*

<i>Operator Class</i>	<i>Contact Hours for First 3 Year Renewal Cycle</i>	<i>Contact Hours for Subsequent 3 Year Renewal Cycle</i>
A	15	30
B	15	30
C	15	30
D	8	15
E	8	15
Dc	4	9
Dn	3	6
Grandparented	8	15

(b) The first 3 year renewal cycle is defined as either the first 3 year period in which a certified operator holds a valid certificate after being transferred from an annual renewal cycle, or the first cycle after receiving certification.

(c) The subsequent 3 year renewal cycle is every 3 year period after the operator's first 3-year renewal cycle.

§ 302.804. System security training requirements.

- (a) Every certified operator shall successfully complete a Department-approved system security training course.
- (b) A certified operator shall meet the system security training requirement before the conclusion of the operator's first subsequent 3 year renewal period after ____ (*Editor's Note: The blank refers to the effective date of adoption of this proposed rulemaking.*).
- (c) A certified operator shall successfully demonstrate the knowledge, skills and abilities contained in the Department's system security training course using a Department-approved learning assessment method.
- (d) The contact hours associated with the system security training also qualifies as approved continuing education within an operator's 3 year renewal cycle.
- (e) A Department-approved training sponsor may, upon written agreement with the Department, deliver the Department's system security course that is approved to meet the requirements of this section.
- (f) Bioperable operators need to successfully complete the Department-approved system security training course only once.
- (g) The Department may require certified operators to attend and successfully complete additional Department-approved system security courses upon written notification.

Subchapter I. SYSTEM CLASSIFICATION AND SUBCLASSIFICATIONS

Sec.

302.901. Classifications and subclassifications of water systems.

302.902. Classifications and subclassifications of wastewater systems.

§ 302.901. Classifications and subclassifications of water systems.

(a) Water systems will be classified into one of five classifications being designated as Classification A, B, C, D or E as follows:

(1) *Classification A.* Water systems serving an average of more than 5 million gallons a day.

(2) *Classification B.* Water systems serving an average of greater than 1 million gallons a day but less than or equal to 5 million gallons a day.

(3) *Classification C.* Water systems serving an average of greater than 100,000 gallons a day but less than or equal to 1 million gallons a day.

(4) *Classification D.* Water systems serving and average of less than or equal to 100,000 gallons a day.

(5) *Classification E.* Distribution and consecutive water systems, without treatment.

(b) Upon written request by the owner, the Department may reclassify a water system serving no more than 500 individuals or having no more than 150 connections, where the source of water for the system is exclusively groundwater, as a Dc or Dn water system. A water system that requires only disinfection will be classified as a Dc system, a water system that requires no treatment as a Dn system.

(c) Each water system Classification A, B and C must be assigned one or more of the following 14 treatment subclassifications that identifies the treatment methods used to process water at that system. Classifications D and E may have one or more of the following 14 treatment subclassifications if the system or operator uses the specified treatment methods to process drinking water at that system.

- (1) Subclassification 1—Conventional Filtration.
- (2) Subclassification 2—Direct Filtration.
- (3) Subclassification 3—Diatomaceous Earth Filtration.
- (4) Subclassification 4—Slow Sand Filtration.
- (5) Subclassification 5—Cartridge or Bag Filtration.
- (6) Subclassification 6—Membrane Filtration.
- (7) Subclassification 7—Corrosion Control and Sequestering.
- (8) Subclassification 8—Chemical Addition.
- (9) Subclassification 9—Ion Exchange and Greensand.
- (10) Subclassification 10—Aeration and Activated Carbon Adsorption.
- (11) Subclassification 11—Gaseous Chlorine Disinfection.
- (12) Subclassification 12—Nongaseous Chemical Disinfection.
- (13) Subclassification 13—Ultraviolet Disinfection.
- (14) Subclassification 14—Ozonation.

(d) Upon written notice provided to the owners and available operators of the system, the Department may

change the classification or subclassification of a water system because of changes in the conditions or circumstances at the system.

§ 302.902. Classifications and subclassifications of wastewater systems.

(a) Wastewater systems will be classified into one of five classifications being designated as Classification A, B, C, D or E as follows:

(1) *Classification A.* Wastewater systems with a permitted average daily discharge flow greater than 5 million gallons a day or unlimited permitted discharge flows.

(2) *Classification B.* Wastewater systems with a permitted average daily discharge flow greater than 1 million gallons per day but less than or equal to 5 million gallons a day.

(3) *Classification C.* Wastewater systems with a permitted average daily discharge flow greater than 100,000 gallons a day but less than or equal to 1 million gallons a day.

(4) *Classification D.* Wastewater systems with a permitted average daily discharge flow equal to or less than 100,000 gallons.

(5) *Classification E.* A wastewater satellite collection system with at least one pump station.

(b) Each wastewater system Classification A, B, C and D must be assigned one or more of 4 treatment subclassifications that identifies the treatment or collection methods, or both, used to process wastewater at that system:

- (1) Subclassification 1—Activated Sludge.
- (2) Subclassification 2—Fixed Film.
- (3) Subclassification 3—Treatment Ponds and Lagoons.
- (4) Subclassification 4—Single Entity Collection Systems.

(c) Upon written notice provided to the owners and available operators of the system, the Department may change the classification or subclassification of a wastewater system because of changes in the conditions or circumstances at the system.

Subchapter J. OPERATOR CLASSES AND SUBCLASSIFICATIONS

Sec.

302.1001. General provisions.

302.1002. Certification classes and subclassifications of water system operators.

302.1003. Certification classes and subclassifications of wastewater system operators.

302.1004. Operator-in-training status.

302.1005. Grandparented operators.

302.1006. Laboratory supervisor certification.

§ 302.1001. General provisions.

(a) A certified operator may hold only one valid water certificate and one valid wastewater certificate. Each valid certificate may include one or more appropriate classes and subclassifications.

(b) A certified operator holding a valid Class A, B, C or D and the Class E water or wastewater certificate and all the water or wastewater treatment technology subclassifications, will be issued either a water or wastewater master certificate for that class.

§ 302.1002. Certification classes and subclassifications of water system operators.

(a) There are 7 water classes and 14 water treatment technology subclassifications that correspond to the water

system classifications and treatment technology subclassifications defined in § 302.901 (relating to classification and subclassifications of water systems).

(b) To hold a valid Class A, B or C water certificate, the operator shall meet all the certification requirements set forth in § 302.103 (relating to scope) for at least one water treatment technology subclassification defined in § 302.901 (relating to classification and subclassifications of water systems).

(c) To hold a valid Class D or E water certificate, the operator shall meet the certification requirements in § 302.103 but is not required to have a subclassification, unless the operator is involved in making process control decisions involving one of the subclassification treatment technologies defined in § 302.901.

(d) A Dc or Dn certificate is a stand-alone certificate and does not include any water treatment technology subclassifications.

(e) Water operators with a Class A, B, C or D water certificate that also make process control decisions in the distribution system shall also have the Class E certificate.

§ 302.1003. Certification classes and subclassifications of wastewater system operators.

(a) There are five wastewater classifications and four wastewater treatment technology subclassifications that correspond to the wastewater treatment system classifications and treatment technology subclassifications defined in § 302.902 (relating to classifications and subclassifications of wastewater systems).

(b) Certified wastewater operators holding an A, B, C or D classification will have at least one wastewater treatment technology subclassification.

(c) The Class E wastewater classification will be combined with Subclassification 4 as a stand alone certificate for operators of wastewater collection systems who meet the requirements for certification as defined in § 302.103. (relating to scope).

(d) Wastewater operators with a Class A, B, C or D wastewater certificate that also make process control decisions in the collection system shall also have the E4 certificate.

§ 302.1004. Operator-in-training status.

(a) The operator-in-training status shall apply to an individual passing the certification examinations who has not yet met the minimum education and experience requirements in §§ 302.701 and 302.703 (relating to minimum education requirements; and experience requirements).

(b) An operator-in-training status is valid until the individual demonstrates the education and experience requirements as defined in §§ 302.701 and 302.703 have been met and the Board issues a certificate.

(c) An individual with operator-in-training status will not independently make process control decisions or serve as the available operator for a water or wastewater system.

(d) An operator-in-training may concurrently hold a water and wastewater operator-in-training status.

§ 302.1005. Grandparented operators.

(a) This section applies to those operators of nontransient noncommunity water systems, satellite wastewater collection systems containing a pump stations

or single entity wastewater collection systems who were granted a grandparented certificate by the Board.

(b) Grandparented certificates are site, size and technology specific and not transferable to any other water or wastewater system.

(c) A grandparented certificate is temporary and will expire within 3 years of the date of issuance. A certified operator who was grandparented shall meet the conditions for certification renewal including the submittal of an application for certification action for renewal defined in § 302.201 (relating to form of application) and completion of the continuing education requirements defined in § 302.802 (relating to continuing education requirements for certificate renewal).

(d) The grandparented certificate is no longer valid if one of the following applies:

(1) The certified operator moves to another water or wastewater system.

(2) The system subclassification changes because of a modification or addition, or both, of treatment technology.

(3) There are violations attributed to the operator that threaten the public health, the environment and public safety.

(e) If a grandparented certificate is no longer valid, the operator shall meet the requirements for certification as identified in § 302.103 (relating to scope).

§ 302.1006. Laboratory supervisor certification.

(a) There will be a laboratory supervisor subclassification (15) for individuals responsible for the supervision of testing or analysis of environmental samples and reporting of analytical data for water supply systems in a Pennsylvania-accredited environmental laboratory operated by a water system.

(b) There will be a laboratory supervisor Subclassification (5) for individuals responsible for supervision of the testing or analysis of environmental samples and reporting of analytical data for wastewater systems in a Pennsylvania-accredited environmental laboratory operated by a wastewater or industrial waste system.

(c) A certified operator, including those holding a master certificate, will not be qualified by the Department for a laboratory supervisor certificate without meeting the requirements in this section.

(d) Laboratory supervisor certification is not required to qualify for a master certificate in water or wastewater.

(e) An applicant for laboratory supervisor's certification for drinking water or wastewater shall have 2 years of experience in the testing and analysis of environmental samples for water or wastewater systems.

(f) An applicant for laboratory supervisor's certification for drinking water or wastewater systems shall hold a valid operator's certificate and demonstrate the knowledge, skills and abilities needed to be a laboratory supervisor by obtaining a passing score on either the Part II Laboratory Supervisor for Water Systems or Part II Laboratory Supervisor for Wastewater Systems examination.

Subchapter K. PROFESSIONAL ENGINEERS

Sec.

302.1101. General provisions.

302.1102. Issuance of initial certification for a professional engineer.

302.1103. Experience requirements for professional engineers.

§ 302.1101. General provisions.

(a) This subchapter applies to a professional engineer registered under the Engineer, Land Surveyor and Geologist Registration Law (63 P. S. §§ 148—158.2) who has been successfully examined in civil, environmental or sanitary engineering and is a certified operator, or an applicant for operator certification.

(b) A professional engineer applying for certification action shall meet the same requirements as provided for by the act, this part, and other Department rules and regulations related to the operation of a water or wastewater system, except for those provided for in this subchapter.

§ 302.1102. Issuance of initial certification for a professional engineer.

A professional engineer shall submit an application for certification action in accordance with § 302.201 (relating to form of application). The engineer shall also meet the requirements for certification in § 302.103 (relating to scope). When requesting a certificate under this subchapter, the applicant shall provide written proof of a valid professional engineer's license.

§ 302.1103. Experience requirements for professional engineers.

In addition to those activities defined in § 302.704 (relating to determining qualifying experience), other activities specifically associated with the responsibilities and duties of a professional engineer may be eligible as qualifying experience for an applicant. These activities include the following:

- (1) Plant start-up activities.
- (2) Development of standard operating procedures.
- (3) An operation and maintenance plan, or an emergency response plan for a water or wastewater system.
- (4) Consulting activities associated with water or wastewater system operations.
- (5) Activities associated with testing pilot technology.
- (6) Activities related to operational inspections completed by a professional engineer.

Subchapter L. SYSTEM OPERATION

Sec.

- 302.1201. Duties of operators.
- 302.1202. Duties of owners.
- 302.1203. Process control decisions.
- 302.1204. Standard operating procedures.
- 302.1205. Number of required certified operators.
- 302.1206. Operator in responsible charge.
- 302.1207. Operation of multiple treatment systems (Circuit Rider).
- 302.1208. Programmable logic controls (PLCs) and supervisory control and data acquisition systems (SCADA).
- 302.1209. Satellite collection systems.

§ 302.1201. Duties of operators.

(a) A certified operator shall comply with applicable Federal and State laws, the act, this part, and other Department rules and regulations related to the operation of water and wastewater systems to protect the environment and public health and safety. A certified operator shall provide for the suitable operation and maintenance of a water or wastewater system utilizing available resources needed to comply with applicable laws, rules and regulations and permit conditions or requirements. The Department will recognize the ability of the certified operator to meet these requirements is in part dependent upon the available resources and responsibilities assigned by the system owner.

(b) Available operator tasks necessary to control the operation and provide for the maintenance of a water or wastewater system may include:

- (1) Controlling the selection of, or flow from, an existing permitted source to a water system.
- (2) Controlling the selection of flow to a water distribution system.
- (3) Controlling the flow from a wastewater system to the waters of this Commonwealth as defined in the NPDES or The Clean Streams Law permit for the system.
- (4) Controlling the processing of raw, treated or finished water or wastewater.
- (5) Preparing and controlling chemical or biological, or both, addition for water or wastewater treatment.
- (6) Observing and taking the necessary actions in response to variations in operating conditions.
- (7) Adjusting system processes based on monitoring data.
- (8) Performing calculations for process control.
- (9) Operating valves or gates, or both, either manually or by remote control.
- (10) Starting or stopping pumps or increasing or decreasing pump rates.
- (11) Providing for proper source water protection.
- (12) Directing the actions of certified and noncertified operators.

(13) Taking an action to maintain a system's equipment to prevent pollution or a permit violation.

(14) Overseeing or performing the collection, analysis and interpretation of all process control and self-monitoring samples of the water or wastewater systems.

(15) Preparing and submitting applicable reports to the appropriate persons or agencies.

(16) Developing, approving or using a process control plan that is specific to the treatment needs and conditions of the system.

(c) Certified operators shall submit a written report to the system owner documenting any known violations or system conditions that may potentially cause or are causing violations of any Department regulation or permit conditions or requirements. This written report shall be sent to the owner by registered mail with a return receipt requested, by hand carrying the report to the owner and receiving a signed receipt, or by any mail service with a receipt requested. The report must include the following:

- (1) The name of the certified operator filing the report.
- (2) The date.
- (3) The nature of the violation or system conditions.
- (4) The suspected cause of the violation or system conditions, including the lack of needed resources.
- (5) The degree of severity or threat to public health, safety or the environment of the violation or system conditions.
- (6) Any actions or mitigating measures associated with process control necessary to prevent or eliminate a violation of applicable water or wastewater system laws, rules and regulations and permit conditions and requirements.

(d) The available operators making process control decisions are responsible for those decisions and conse-

quences, unless the owner fails to respond to a written report as required in subsection (c) or there is a deliberate action with malice or negligence on the part of an employee under the supervision of the available operator.

§ 302.1202. Duties of owners.

(a) An owner of a water or wastewater system shall:

- (1) Comply with the applicable Federal and State laws.
 - (2) Comply with the rules and regulations and permits associated with a water or wastewater system to protect the environment, public health and safety.
 - (3) Insure all process control decisions at the systems are made by available operators with a valid operator's certificate with the appropriate classes and subclassifications.
 - (4) Post the names of the available operators in the treatment area of the system, including the method of contacting them if they are not onsite.
 - (5) Take appropriate action in a timely manner to written reports required under § 302.1201(c) (relating to duties of operators) from certified operators and make a "good faith" effort to address problems and concerns identified in these reports.
 - (6) Provide a copy of all current, relevant water and wastewater permits to all available operators.
- (b) On an annual basis, a system owner shall report to the Department:
- (1) The system name, address, phone number and e-mail address (if available).
 - (2) The name and title of the system representative providing the information.
 - (3) The system owner name, address, phone number and e-mail address (if available).
 - (4) The Public Water System Identification number, NPDES permit numbers or Water Quality Management Part II permit numbers for the system.
 - (5) The name, client ID, address, phone number and email (if available) of all available operators employed by the owner at the system and the operators' classes and subclassifications.
 - (6) The designation of an operator in responsible charge if the owner chooses to develop and utilize standard operating procedures.

(c) A system owner shall notify the Department in writing within 10-calendar days of the addition, loss, change or replacement of an available operator. The owner shall provide at that time the name, client ID, and class and subclassification of all operator changes.

(d) Upon written request from an owner, the Department will provide current water and wastewater permits to the operator in responsible charge designated by the owner.

§ 302.1203. Process control decisions.

(a) An available operator shall make all process control decisions. These decisions may be made onsite, from a remote site, by the use of standard operating procedures approved by the operator in responsible charge, or by using a programmable logic control (PLC) system as provided by § 302.1208 (relating to programmable logic controls (PLCs) and supervisory control and data acquisition systems (SCADA)).

(b) A certified operator can make process control decisions for systems with a smaller hydraulic design capac-

ity, provided they are certified with the appropriate treatment technology-based subclassifications.

(c) The Department may require a system to have a process control plan that includes, as necessary, the following:

- (1) A flow diagram of the entire treatment process.
- (2) The identification of individual treatment units by type.
- (3) A description of the treatment process provided by each treatment unit.
- (4) The anticipated level of treatment provided by each treatment unit.
- (5) The normal influent and effluent operating ranges for each wastewater or water treatment unit.
- (6) A description of the average and seasonal characteristics of the raw water or wastewater influent.
- (7) Any standard operating procedures.
- (8) The methods to be utilized to monitor and adjust treatment processes.
- (9) The identification of the key processes and equipment associated with these processes.
- (10) An outline of how key processes and equipment will be monitored if the system is without staff during daily operations.
- (11) The trigger parameters for each unit that requires a process control decision.
- (12) A preventive and emergency maintenance plan for all process control-related equipment including a replacement parts inventory and emergency repair method.
- (13) The procedures for emergency operations when security has been breached or natural disasters threaten public safety, the environment and property.
- (14) The wastewater treatment methods and strategies to assure proper treatment during wet weather operations.
- (15) A plan for wasting, treating and disposing of solids associated with wastewater treatment.

(d) Plans required under other Department rules and regulations applicable to the operation of a drinking water or wastewater system may satisfy the requirement for a process control plan as determined by the Department.

(e) The Department taking an action necessary to protect the environment and public health during designated emergency situations, to obtain compliance with permit requirements, and rules and regulations or to address permit requests and compliance issues is not considered a process control decision. Other actions not considered to be process control decisions include actions taken by:

- (1) Local government to approve new residential, industrial or commercial land development creating additional treatment, collection or distribution demands upon a system or to comply with a pretreatment program.
- (2) Emergency personnel to protect property and lives.

§ 302.1204. Standard operating procedures.

(a) Standard operating procedures are written documents outlining the actions necessary to make process control decisions given established operational quantitative and qualitative parameters for the system or treatment units within the system.

(b) Standard operating procedures must:

(1) Include the name of the operator in responsible charge.

(2) Identify the operators that may utilize the standard operating procedures to make process control decisions.

(3) Include the treatment processes covered by the standard operating procedures and the treatment processes that are not covered and require the operator to contact the operator in responsible charge for a decision on the appropriate process control.

(4) Identify the trigger parameters for the treatment processes and the appropriate actions to be taken for each treatment process.

(c) Standard operating procedures shall be approved in writing and dated by the operators in responsible charge, and available at the system for review.

(d) The use of standard operating procedures is an optional method, available to the operator in responsible charge, to allow operators under the operator in responsible charge's direct supervision to implement process control decisions. The decision to use standard operating procedures depends on the complexity and personnel of the system.

(e) An operator in responsible charge using standard operating procedures shall notify the system owner that these standard operating procedures are in use.

(f) The Department may request a copy of a system's standard operating procedures to determine the use of the procedures by the operators or the effectiveness of the procedures to insure compliance with appropriate permits, rules and regulations and laws.

(g) Standard operating procedures may be in an electronic form to facilitate searching for, and retrieval of, information by an operator. These standard operating procedures must be in an electronic form that cannot be changed without evidence of tampering. The standard operating procedures must also indicate where the original signed paper copy or copies are maintained and the name of the operator in responsible charge who signed them. The content of the electronic version of the standard operating procedures must be identical to the current signed paper standard operating procedures. If differences are found between the electronic form and the original signed paper copy of the standard operating procedures, the original signed paper copy will be considered the official version of the standard operating procedures.

§ 302.1205. Number of required certified operators.

A system shall have the number of available operators necessary to comply with Federal and State laws, and rules and regulations associated with water or wastewater systems to protect the environment and public health and safety.

§ 302.1206. Operator in responsible charge.

(a) A system owner shall provide to the Department on an annual basis the name, client ID, and certificate number of any operators in responsible charge. The system owner shall notify the Department of changes in the operators in responsible charge within 10 days of the change. System owners shall notify the operators in responsible charge of this designation in writing.

(b) An operator in responsible charge shall hold a valid certificate with the classes and subclassifications as defined in §§ 302.1002 and 302.1003 (relating to certifica-

tion classes and subclassifications of water system operators; and certification classes and subclassifications of wastewater system operators) that correspond to the system's classification and subclassification as defined in §§ 302.901 and 302.902 (relating to classifications and subclassifications of water systems; and classifications and subclassifications of wastewater systems).

(c) A grandparented operator can be designated as the operator in responsible charge.

(d) The duties of the operator in responsible charge will include:

(1) The approval of any standard operating procedures.

(2) The development of a process control plan when requested by the Department.

(e) The operator in responsible charge, who is the approving authority for the standard operating procedures for a system, is accountable for any permit violations or violations of any applicable rules and regulations which may occur when an operator follows these standard operating procedures.

§ 302.1207. Operation of multiple treatment systems (Circuit Rider).

(a) An available operator may make process control decisions at more than one system. A circuit rider shall meet all the requirements of the act, this part, and other Department rules and regulations related to the operation of a water or wastewater system.

(b) An owner may use the services of a circuit rider to meet the requirements of the act, this part, and other Department rules and regulations related to the operation of a water or wastewater system.

(c) A system owner shall notify the Department within 10 days when a circuit rider is employed to operate the system.

(d) A circuit rider shall develop and submit a general work plan to the owner of each system that includes:

(1) The name and location of the circuit rider's primary business.

(2) The name and location of each system to be included in the circuit rider program.

(3) The classification and subclassification of each system included in the circuit rider program.

(4) The number of hours per week the circuit rider works at each system, with the method of documentation to be used for each visit.

(e) A circuit rider shall develop and submit a system specific management plan to the owner of each system describing the information relevant to the owner's system. This management plan must include:

(1) The names and contact information of the available operators for that system, with a copy of the operators' certificate to be prominently displayed at the system.

(2) The standard operating procedures and a process control plan for the system.

(3) The name and method of contacting the circuit rider in case of an emergency.

(4) An estimate of the response time necessary to be physically present at the system.

(f) An available operator may not make process control decisions at more than one system until the owner has approved the specific management plan for the system.

(g) The general work plan and the system specific management plans developed for a circuit rider program shall be made available to the Department upon request.

(h) The circuit rider shall report any changes to the general work plan and provide appropriate documentation within 10 days to the owners of all the participating systems.

(i) The circuit rider shall report changes to the system specific management plan and provide appropriate documentation within 10 days to the specific owner of the system identified in the management plan.

(j) The Department may require the circuit rider to be present at a system for the purposes of Department inspection or investigation.

(k) The Department may direct an owner or available operator to cease participation in a circuit rider program if one of the following applies:

(1) The system is in violation for failure to meet the requirements of the act, this part, or other Department rules and regulations related to the operation of a water or wastewater system.

(2) There is a threat to public health, safety and the environment.

(3) Changes have occurred at the system that are not included in the system specific management plan.

§ 302.1208. Programmable logic controls (PLCs) and supervisory control and data acquisition systems (SCADA).

(a) An owner may use a PLC and SCADA system to monitor, maintain or make decisions regarding any process control activity within the water or wastewater system.

(b) A system shall have an available operator to interface with the PLC or SCADA system. The available operator will approve the operational strategy for the PLC and SCADA.

(c) A system utilizing PLC and SCADA systems shall have a backup emergency plan for making process control decisions when, or if, the PLC and SCADA system is inoperable.

(d) If an owner wants to have a PLC and SCADA system oversee more than one water or wastewater system simultaneously, the system specific management plan developed under § 302.1207 (relating to the operation of multiple treatment systems) must also identify and demonstrate how process control decisions not performed by the PLC and SCADA system will be made and demonstrate how continual staffing and monitoring of systems controlled by a PLC and SCADA system will be maintained.

§ 302.1209. Satellite collection systems.

A satellite collection system shall be required to retain the services of a Class E certified operator when:

(1) The satellite collection system is publicly owned.

(2) It is determined by the Department that a privately owned satellite collection system has in the past, or is not currently properly operated and/or properly maintained, or both; or has in the past, or is currently, experiencing sanitary sewer overflows within any portion of the satellite collection system.

(3) The owner of a privately owned satellite collection system can petition the Department after demonstrating a period of compliance to have the requirement for a certified operator removed.

NOTICES

TREASURY DEPARTMENT

Unclaimed Property Owners

Each year, the Treasury Department (Department) receives millions of dollars in unclaimed property from abandoned bank accounts, forgotten stocks, checks that have not been cashed, certificates of deposit, safe deposit box contents, life insurance policies and other sources. Treasury maintains custody of this unclaimed property, while working hard to return it to its rightful owners.

The following list of unclaimed property was reported and delivered to the Department. If you find your name, you can file a claim on Treasury's web site at www.patreaury.org. From this site, you can download a claim form and follow the progress of your claim. Persons may also file a claim by calling the Bureau of Unclaimed Property at (800) 222-2046, Monday through Friday, 7:30 a.m.—4:30 p.m. Written inquiries may be sent to the Bureau of Unclaimed Property, P. O. Box 1837, Harrisburg, PA 17105-1837, Attention Research Department.

Some accounts have been reported without the name and address of the owner. If you have done business with any of these companies and believe you may be entitled to unclaimed property, contact the Bureau of Unclaimed Property for further assistance. Note that original documents will be required to file a claim.

ROB MCCORD,
Treasurer
