DEPARTMENT OF AGRICULTURE

Holding and Humane Disposition of Stray Unlicensed Dogs

The Department of Agriculture (Department) gives notice that effective January 1, 2009, it shall increase the amount it reimburses humane societies and societies for the prevention of cruelty to animals that maintain compounds for the humane disposition of stray unlicensed dogs apprehended running at large. The current reimbursement amount is \$20 per dog. As of January 1, 2009, the reimbursement amount for the care and disposal of such dogs at the facilities shall increase to \$30 per dog. No other fee will be paid by the Department for the care and disposal of stray unlicensed dogs with respect to which this \$30 per dog sum is accepted.

This reimbursement is authorized under the regulation at 7 Pa. Code § 25.1 (relating to general), which allows the Secretary of the Department to determine an appropriate reimbursement amount (over \$5) on a funds-available basis. The reimbursement payments will be funded from the Dog Law Restricted Account, from funds which are hereby declared to be "surplus" funds for the limited purposes set forth in section 1002(b) of the Dog Law (3 P. S. § 459-1002(b)).

The referenced \$30 per dog payments shall be applicable to dogs apprehended on or after January 1, 2009, and will continue on a funds-available basis until further notice.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

| <i>Location</i> | <i>Permit Authority</i> | <i>Application Type or Category</i> |
|-----------------|-------------------------|--|
| Section I | NPDES | Renewals |
| Section II | NPDES | New or amendment |
| Section III | WQM | Industrial, sewage or animal waste; discharge into groundwater |
| Section IV | NPDES | MS4 individual permit |
| Section V | NPDES | MS4 permit waiver |
| Section VI | NPDES | Individual permit stormwater construction |
| Section VII | NPDES | NOI for coverage under NPDES general permits |

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person

shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Where a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES

permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of

contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits

of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. The Department of Environmental Protection (Department) hereby announces the following grants to counties under the Pennsylvania Municipal Waste Planning, Recycling and Waste Reduction Act of 1988, Act 101, P. L. 556, section 901 and section 208 of the Waste Tire Recycling Act/Small Business and Household Pollution Prevention Act (Act 190 of 1996).

Planning grants are awarded to counties for 80% of approved costs for preparing municipal waste management plans as required by Act 101, for carrying out related studies, surveys, investigations, inquiries, research and analysis, including those related to siting, environmental mediation, education programs on pollution prevention and household hazardous waste and providing technical assistance to small businesses for pollution prevention. Grants may be awarded for feasibility studies and project development for municipal waste processing or disposal facilities, except for facilities for the combustion of municipal waste that are not proposed to be operated for the recovery of energy. All grant awards are predicated on the receipt of recycling fees required by sections 701 and 702 of Act 101 and the availability of moneys in the Recycling Fund.

**Request for Comment and Notice of Public Meeting.
Proposed Total Maximum Daily Load (TMDL) for
the Redbank Creek Watershed in Jefferson, Clarion
and Armstrong Counties**

The Department of Environmental Protection (Department) is holding a public meeting to discuss and accept comments on proposed TMDL for the Redbank Creek Watershed in Jefferson, Clarion and Armstrong Counties. The meeting will be held on March 10, 2009, beginning at 9 a.m. at the Knox District Office in Knox, PA. The proposed TMDL was developed in accordance with the requirements of The Clean Water Act, section 303(d). One stream segment in the Redbank Creek Watershed has been identified as impaired on the 1996 Pennsylvania 303(d) list due to high concentrations of metals and depressed pH. The listed segment and miles degraded are shown in the following table:

| <i>Stream Code</i> | <i>Stream Name</i> | <i>Miles Degraded</i> |
|--------------------|--------------------|-----------------------|
| 48064 | Redbank Creek | 1.4 |

The proposed plans provide calculations of the stream's total capacity to accept metals (aluminum, iron, manganese and acidity), pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

| <i>Parameter</i> | <i>Criterion value (mg/l)</i> | <i>Total Recoverable/Dissolved</i> |
|------------------|-------------------------------|------------------------------------|
| Aluminum | 0.75 | Total Recoverable |
| Iron | 1.5 | Total Recoverable |
| Manganese | 1.00 | Total Recoverable |
| pH | 6.0 to 9.0 | NA |

The primary pollutant source for the Redbank Creek Watershed is abandoned mine workings. The watershed was heavily mined for coal in the late 19th century and mining continues on a smaller scale today. The effects of this are still present. The TMDL consists of load allocations, which are made to nonpoint sources of pollution and waste load allocations which are established for permitted point sources.

The TMDL was developed using Monte Carlo Simulation to determine long-term average concentrations that each stream segment could accept and still meet water quality criteria 99% of the time. Monte Carlo Simulation allows for the expansion of a data set based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the TMDL.

The TMDL sets allowable loading rates for metals and acidity at specified points in the watershed. The basis of information used in the establishment of this TMDL is field data collected over a year period.

The data and all supporting information used to develop the proposed TMDL are available from the Department. To request a copy of the proposed TMDL and an information sheet, contact Ely Heferle, Water Pollution Biologist, Knox District Mining Office, White Memorial Building, P. O. Box 669, Knox, PA 16232-0669, (814) 797-1191. E-mail will be received at eheferle@state.pa.us. Directions to the Knox District Office can also be obtained by contacting this address.

The proposed TMDL for the Redbank Creek Watershed can be accessed through the Department's web site

(www.dep.state.pa.us) by typing "TMDL" in the DEP Keyword field and clicking GO.

Written comments will be accepted at the previous address and must be postmarked by April 1, 2009. Persons who plan to make a presentation at the public meeting should notify the Department no later than 4 p.m. Monday, March 9, 2009. The Department will consider all comments in developing the final TMDL, which will be submitted to the Environmental Protection Agency for approval.

Persons with a disability who require accommodations to attend this meeting should contact the Department at (814) 797-1191 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users) to discuss how the Department may accommodate their needs.

**Request for Comment and Notice of Public Meeting.
Proposed Total Maximum Daily Load (TMDL)s for
the Lower Clarion River and Deer Creek
Watersheds in Clarion County**

The Department of Environmental Protection (Department) is holding public meetings to discuss and accept comments on proposed TMDLs for the Lower Clarion River and Deer Creek Watersheds in Clarion County. The meetings will be held on February 24, 2009, beginning at 9 a.m. at the Knox District Office in Knox, PA. The proposed TMDLs were developed in accordance with the requirements of The Clean Water Act, section 303(d). One stream segment in the Lower Clarion River Watershed and one segment in the Deer Creek Watershed have been identified as impaired on the 1996 Pennsylvania 303(d) list due to high concentrations of metals and depressed pH. The listed segments and miles degraded are shown in the following table:

| <i>Stream Code</i> | <i>Stream Name</i> | <i>Miles Degraded</i> |
|--------------------|--------------------|-----------------------|
| 49224 | Clarion River | 4.3 |
| 49407 | Deer Creek | 10.6 |

The proposed plans provide calculations of the stream's total capacity to accept metals (aluminum, iron, manganese and acidity), pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

| <i>Parameter</i> | <i>Criterion value (mg/l)</i> | <i>Total Recoverable/Dissolved</i> |
|------------------|-------------------------------|------------------------------------|
| Aluminum | 0.75 | Total Recoverable |
| Iron | 1.5 | Total Recoverable |
| Manganese | 1.00 | Total Recoverable |
| pH | 6.0 to 9.0 | NA |

Coastal and Estuarine Land Acquisition Conservation Program; Federal Fiscal Year 2010 Grant Solicitation

The Coastal Resources Management Program of the Department of Environmental Protection (Department) is soliciting land acquisition grant proposals to submit to

the National Oceanic and Atmospheric Administration (NOAA) through the Coastal and Estuarine Land Conservation Program (CELCP). This solicitation is for preliminary candidate proposals and is for funding awards under NOAA's Federal Fiscal Year 2010 Funding cycle.

CELCP places an emphasis on "ecologically valuable" lands. The geographic areas covered by CELCP are the designated Delaware Estuary Coastal Zone Watershed and the Lake Erie Coastal Zone Watershed. Grant applications may be made for the purchase of land acquisitions or interests; these may be in fee-simple title or as conservation easements. A major condition of the CELCP Program is that the title or easement must be held by a governmental/public entity. Further, grant awards must be matched dollar-for-dollar (may include in-kind match but not other Federal funds) and are capped at \$3 million each (Federal share). Land trusts may hold subeasements for management and stewardship on CELCP-funded properties and may assist in the development of proposals, but they may not hold title to any property acquired with CELCP funds.

Each coastal state may nominate up to three candidate projects to NOAA for this National, competitive process. The Department will select the three Pennsylvania candidate projects for submission to NOAA employing the guidelines issued by the Federal agency. NOAA will develop a ranked list of projects eligible for funding. Once NOAA receives final appropriations from the United States Congress, the agency will make final determinations as to which projects are selected for funding within amounts available. Federal funding awards, based upon the final CELCP funding appropriated, are expected to be made between March 1, 2010, and October 1, 2010.

The Federal Funding Opportunity (FFO) Announcement, *Federal Register* notice, Description and Scope of Work Formats and CELCP Checklist will be listed on the Department's web site at www.depweb.state.pa.us (DEP Keywords "Coastal Zone Management Program/Coastal Zone") as soon as NOAA publishes the materials. These materials contain detailed information about the grant application submission and review process. Applications should follow the format listed in the FFO. The FFO Announcement also contains several links to the NOAA CELCP web site for further explanations of program requirements and additional guidance. In addition, the web site contains the Pennsylvania CELCP plan, as reference for applicants submitting proposals. Applicants should closely review the *Federal Register* notice, FFO and Pennsylvania CELCP plan to understand eligibility requirements, ranking criteria and the types of acquisition projects the program may fund.

Proposals must be submitted no later than March 2, 2009, to Jeff Dewey, Department of Environmental Protection, Water Planning Office, P. O. Box 2063, 400 Market Street, Harrisburg, PA 17105-2063, and must include the following:

1. A project description.
2. Scope of work.
3. Proposed budget.
4. A project application checklist.
5. Maps of the site/project location.

Additionally, applicants may submit supplemental materials listed in the Federal announcement, such as a copy of a property appraisal, title opinion or evidence of a willing seller.

*Pennsylvania Public Utility Commission, Bureau of
Transportation and Safety v. A Philadelphia
Airport Connect; Doc. No. C-2008-2068284*

COMPLAINT

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities

within the Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Transportation and Safety and other Bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. That A Philadelphia Airport Connect, respondent, maintain its principal place of business at 5 Carre Avenue, Essington, PA 19029.

2. That respondent was issued a certificate of public convenience by this Commission on August 22, 2001, at Application Docket No. A-00117577.

3. That, on September 7, 2004, the Bureau of Transportation and Safety instituted a complaint at A-00117577C0401 against respondent alleging that respondent violated 52 Pa. Code § 3.3811(a)(1)(v) for failing to file an application with this Commission prior to abandoning or discontinuing service. The complaint was served on respondent on September 24, 2004.

4. That an answer was filed on October 18, 2004, which denied the allegations in the complaint and requested the Commission to dismiss the Complaint. Therefore, by Opinion and Order entered October 25, 2007, the complaint was sustained and a Settlement Agreement was approved. Respondent was ordered to pay a civil penalty of five hundred dollars (\$500). The Order was sent by Certified Mail and served on respondent on October 27, 2007. To date, no payment was made on the \$500.00 fine.

A certificate holder has an obligation to comply with the Commission's rules and regulations. A certificate of public convenience is neither a contract nor a property; it is a privilege. Where that privilege is violated, the Commission may, for due cause, exercise its power to revoke a carrier's privilege to operate. *Paradise v. Pennsylvania Public Utility Commission*, 132 A.2d 754, 184 Pa. Superior Court 8 (1957).

Tentative Order

Public Meeting held
December 18, 2008

Commissioners Present: James H. Cawley, Chairperson; Tyrone J. Christy, Vice Chairperson; Robert F. Powelson; Kim Pizzingrilli; Wayne E. Gardner

Petition of Laceyville Borough for a Declaratory Order that its Provision of Water Service to an Isolated Group of Customers does not Constitute the Provision of Public Utility Service Under 66 Pa.C.S. § 102; Doc. No. P-2008-2064117

Tentative Order

By the Commission:

On September 17, 2008, Laceyville Borough (the Borough or Laceyville) filed the above-captioned petition for declaratory order. In accordance with 52 Pa. Code § 5.42, the Borough served a copy of its petition on the Office of Consumer Advocate, the Office of Trial Staff, the Office of Small Business Advocate, and on each of the 17 affected customers located outside of Laceyville's corporate boundaries. No answers were filed to Laceyville's petition.

Section 331(f) of the Public Utility Code, 66 Pa.C.S. § 331(f), provides that the Commission "may issue a declaratory order to terminate a controversy or remove uncertainty." By its petition, the Borough seeks a determination that its provision of water service to the 17 customers that are physically proximate to the Borough, but not within the corporate boundaries of the Borough, is not subject to Commission jurisdiction. The Borough asserts that the service it provides to these 17 customers is not service "to or for the public" within the meaning of section 102 of the Public Utility Code, 66 Pa.C.S. § 102.

In its petition, the Borough notes that its water supply is located in an adjacent municipality, Braintrim Township. With the exception of the water main leading from the water supply to the Borough, all of the Borough's water mains are located within the municipal boundaries of the Borough. The Borough serves 17 residential water service connections outside the Borough's municipal boundary. These extraterritorial customers own property that is in close proximity to the Borough's water mains and are connected thereto by one and two-inch lateral service lines.

By letter dated November 18, 2008, the Borough states that while the 17 customers outside of the Borough's corporate limits receive service at the same terms as customers that reside inside Borough boundaries, the rates to customers outside of the Borough's corporate limits are substantially lower than the rates charged to Borough residents.¹

Furthermore, the Borough asserts in its Petition that 15 of the 17 extraterritorial connections to the Borough's water system were made in the mid 1960s, although the exact date is unknown. The two additional extraterritorial connections along the same water main were added in 1995 in conjunction with a Laceyville Borough Municipal Authority sewer project that brought public sewer to these two residents. On this specific issue, it is clarified in the Petition that the Borough did not solicit the extraterritorial customers, rather, because of sulfur in the water table, the extraterritorial customers requested to

¹ At the August 5, 2008 meeting, Borough Council raised the water rate to a quarterly fee of \$10.00 plus \$4.00 per thousand gallons for those customers within the geographical boundaries of the Borough. Rates for extraterritorial customers remained unchanged, i.e., a flat semiannual fee of \$10 plus \$2.00 per thousand gallons.

connect to the Borough's water supply which has been treated to remove sulfur. We agree that under these circumstances, it is appropriate to issue a Declaratory Order in response to the subject petition.

In support of its petition, the Borough states that it is currently subject to the Commission's jurisdiction and complies with the Commission's reporting and tariff requirements.² The Borough states that these requirements are unreasonably burdensome given that the Borough only serves 17 extraterritorial customers. The Borough seeks to avoid these requirements, but at the same time retain service to the existing extraterritorial customers. The Borough notes that it has existing water supply issues that resulted in the declaration of an emergency in January 2008. To this end, the Borough is currently in the process of installing a new well at considerable expense. In addition to the 17 extraterritorial customers the Borough has 145 connections within the Borough.

In its petition, the Borough alleges that all of the customers in question are located in Braintrim Township. The nearest alternative water purveyor to the 17 customers, other than the Borough, is the Wyalusing Municipal Authority, which is located approximately eight miles from the extraterritorial customers of Laceyville. To the best of the Borough's knowledge, Wyalusing is not interested in connecting the extraterritorial customers of Laceyville to its system.

In further support of its petition, the Borough states that it has not solicited any potential customers outside of its municipal limits and does not intend to solicit any in the future. In addition, the Borough has passed a resolution that provides that the Borough will apply the same rules, regulations, and rates to the customers outside as those within Borough limits. Attached to the petition is an affidavit of the President of Borough Council stating that the Borough will not repeal or sunset the aforementioned resolution without advising the Commission regarding same. These commitments were made to ensure that the 17 extraterritorial customers will not be subject to potential discrimination without the opportunity for Commission oversight.

The Borough submits that its circumstances are similar to those presented to the Commission in the matters of *Lehigh Valley Cooperative Farmers v. City of Allentown*, 54 Pa. P.U.C. 495 (1980) and *Petition of New Albany Borough*, Docket No. P-00991775, 200 Pa. PUC Lexis 34 (2000), wherein the Commission concluded that service to a number of isolated individuals outside of the municipal boundaries under special circumstances did not constitute public utility service subject to the Commission's jurisdiction. We agree.

In *Lehigh Valley* and *New Albany Borough*, the Commission reiterated that the test to determine whether a party is rendering service to the public is set forth in *Borough of Ambridge v. Pa. Public Service Commission*, 165 A. 47 (Pa. Super. 1933). In *Ambridge*, the Commission noted,

We find the distinction between public and private rendition of such service put definitely on the readiness to serve all members of the public to the extent of capacity: The test is, therefore whether or not such person holds himself out, expressly or impliedly, as engaged in the business of supplying his product or service to the public, as a class, or to any limited portion of it, as contradistinguished from holding

himself out as serving or ready to serve only particular individuals. The public or private character of the enterprise does not depend, however, upon the number of persons by whom it is used, but upon whether or not it is open to the use and service of all members of the public who may require it, to the extent of its capacity; and the fact that only a limited number of persons may have occasion to use it does not make it a private undertaking if the public generally has a right to such use.

See also, Petition of Chicora Borough, P-00981355 (May 22, 1998).

More recently, the Commission applied the same rationale in *Joint Application of Seven Fields Development Corporation*, A-220007 and A-210062F2000 (October 1, 1999). In that case, the Commission granted an application filed by a jurisdictional utility seeking to transfer its assets used in the operation of its water system to the Borough of Seven Fields. The Commission noted that the Borough would be providing water service to three customers that were located outside of the borough's limits. Moreover, the Commission took note of the fact that the borough committed to continue providing water service solely to these three customers at the same terms of service as are or will be offered to customers within the boundaries of the borough. Also, as in the instant case, the Borough of Seven Fields presented an affidavit to the effect that it did not intend to offer service to the general public outside of its boundaries in the future. In the *Seven Fields* case, the Commission concluded that the limited nature of water service to such a defined group of customers should not realistically be subject to its jurisdiction. (Order at p.4).

Most recently, in *Pilot Travel Center, LLC v. Pa. Public Utility Commission*, 933 A.2d 123 (Pa. Cmwlth. 2007), appeal denied, 938 A.2d 1054 (Pa. 2007), the Commonwealth Court, in affirming the Commission's view on this issue, concluded:

The test for determining whether utility services are being offered "for the public" is whether or not such person holds himself out, expressly or impliedly, as engaged in the business of supplying his product or service to the public, as a class, or to any limited portion of it, as distinguished from holding himself out as serving or ready to serve particular individuals. The private or public character of a business does not depend upon the number of persons who actually use the service; rather, the proper characterization rests upon whether or not the service is available to all members of the public who may require it.

933 A.2d at 128.

In applying the standards enunciated in *Ambridge*, *Lehigh Valley*, *Seven Fields* and *Pilot Travel Center* to the facts of the case *sub judice*, we find that the limited extraterritorial service provided by the Borough is not subject to Commission jurisdiction. The extraterritorial service being provided by the Borough is provided to a limited number of customers and is not available to the general public. Moreover, the Borough clearly states that it will continue to provide service solely to the 17 customers that it is presently serving outside of its boundaries and that it is not soliciting additional customers. In our opinion, such service does not constitute the provision of water service to or for the public.

² Although Commission staff was unable to determine the date of certification, Commission records show that the Borough has been filing annual reports since 1958.

Finally, we note our expectation that an express condition of this exemption is that the Borough apply the same rates outside as well as within Borough limits. We also note that if Laceyville Borough's certificate of public convenience is canceled, the 17 extraterritorial customers will no longer be served by a jurisdictional municipal corporation and, as such, will not have recourse to the Commission's consumer protections. Rather, their recourse will be with the local government and courts of common pleas.

Under these circumstances, no certificate of public convenience is needed by the Borough and, absent any contrary responses from concerned parties, this Commission will cancel the operating authority issued to Laceyville Borough; *Therefore,*

It Is Ordered:

1. That the Petition for Declaratory Order filed by Laceyville Borough on September 17, 2008, at P-2008-2064117 is hereby granted.

2. That the provision of water service by Laceyville Borough to the 17 customers located outside of the Borough's boundaries is deemed to be non-jurisdictional because it is not service "to or for the public" within the intentment of Section 102 of the Public Utility Code, 66 Pa.C.S. § 102.

3. That a copy of this Tentative Order shall be served upon Laceyville Borough and upon each of the 17 customers listed in Laceyville's certificate of service.

4. That the Secretary shall certify this Tentative Order and deposit it with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.

5. That Laceyville Borough is directed to cause to be published in a newspaper of general circulation in the Laceyville Borough area, notice of this Tentative Order and of the Commission's intent to cancel the Laceyville Borough certificate of public convenience at A-221750 absent adverse public comment within the 20-day time constraint established in the *Pennsylvania Bulletin*.

6. That if no objection to this Order is filed with the Commission within 20 days of the publication date in the *Pennsylvania Bulletin*, this Tentative Order shall become final, and the Commission's Secretary's Bureau shall cancel the operating authority of Laceyville Borough and mark this file as closed. The Secretary's Bureau shall also then cause Laceyville Borough to be deleted from the active lists of the Finance and Tariff Section of the Commission's Bureau of Fixed Utility Services and the Assessment Section of Administrative Services.
