APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years, subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final

determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial

area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first.

Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001–4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790. Contact: Ray Kempa, New Source Review Chief—Telephone: 570-826-2507.

PA No. 58-329-008: Tennessee Gas Pipeline Co. (1001 Louisiana Street, Houston, TX 77002) for construction and operation of three (3) natural gas fired simple cycle combustion turbines and an emergency generator at their facility in Clifford Township, **Susquehanna County**.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue Plan Approval No. 58-329-008 to Tennessee Gas Pipeline Company, 1001 Louisiana Street, Houston, TX 77002, for their facility located in Clifford Township, Susquehanna County. The facility currently has Title V Permit No. 58-00001. This plan approval will be incorporated into the Title V operating permit through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

Plan Approval No. 58-329-008 is for the construction and operation of three (3) natural gas fired simple cycle combustion turbines and an emergency generator at the facility located in Clifford Township, Susquehanna County. These new turbines and generator will replace existing three recuperated turbines and generator operating at the facility under Title V operating permit No. 58-00001. These three combustion turbines will be used to move gas through the pipeline system. Natural gas will be used as a fuel for the turbines and generator.

The proposed sources are subject to the various state and federal New Source Performance Standard (NSPS) requirements.

A review of the information submitted by the Tennessee Gas Pipeline Co. indicates that the proposed project will meet all applicable State and Federal NSPS air quality

requirements. Based upon these findings, the Department plans to approve the application and issue a permit for the facility.

The following table summarizes the potential emissions from maximum operation of the turbines and generator according to the application submitted and the Department's own analysis:

<i>Pollutant</i>	<i>Total Project (TPY)</i>
NOx	54.45
CO	71.60
VOC	19.21
SO ₂	2.00
PM/PM ₁₀	3.90
Formaldehyde	0.89
Total HAPs	1.01

The emissions of these pollutants are within all applicable emissions limitations and will not cause an exceedance of the National Ambient Air Quality Standards.

To assure compliance with the applicable standards, the Department will place conditions in the plan approval.

The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, the Department's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Any person(s) wishing to provide the Department with additional information which they believe should be considered prior to the issuance of this permit may submit the information to the address shown in the preceding paragraph. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed permit No. 58-329-008.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where the Department determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Raymond Kempa, P. E., Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, Phone 570-826-2511 within 30 days after publication date.

**COAL AND NONCOAL MINING
ACTIVITY APPLICATIONS**

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401

Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department

at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the

request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental

media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

Interstate Pollution Transport Reduction; Final 2009 Ozone Season NOx Emission Limits for Nonelectric Generating Units

The Department of Environmental Protection (Department) is providing notice for the final nonelectric generating unit (non-EGU) 2009 ozone season NOx emission limitations established in accordance with 25 Pa. Code § 145.8(d) (relating to transition to the Clean Air Interstate Rule (CAIR) NOx trading programs).

A public comment period was held from October 10 through October 26, 2009, on these proposed limits. The public comment period offered the public an opportunity to review the information and data as a way to ensure that the information was correct. One comment was received. No changes to the emission limitations were made.

The commentator commented on the current Pennsylvania CAIR and on future rules that might replace CAIR. The commentator suggested that the Department reconsider the implementation of the non-EGU budget program by including non-EGUs in the CAIR trading program, and revisit the issue during development of EPA’s CAIR replacement rule. The comment is beyond the scope of the proposed non-EGU 2009 ozone season NOx emission limitations. The Department addressed the issue in the preamble of Pennsylvania’s 2008 CAIR rulemaking. The Department will review EPA’s CAIR replacement rule when it is promulgated and will address policy issues at that time.

In this notice, the NOx emissions cap provides 181 tons of NOx emissions for non-EGUs and the other units that need to address their emissions through accounting adjustments, including units that previously participated in the NOx Budget Trading Program; emissions from these units were below the 25-ton exemption threshold. Adjustments were also made for the permanent retirement of NOx allowances due to generation of emission reduction credits. The Department will also use a portion of the 181 tons of the budgeted NOx emissions, if necessary, to address mistakes or miscalculations. This year, the Department is using 121 tons of the 181 tons of NOx for account adjustments, leaving 60 tons available for any additional adjustments at the end of the control period.

As proposed, the Department made accounting adjustments for the following facilities:

Retired Units: Naval Surface Warfare Division Unit 98; Shenango Unit Nos. 6 and 9 (the generation of emission offsets for small non-NOx Budget Trading Program units resulted in a permanent NOx accounting adjustment of 45 tons).

Exempt Units: Each of the following units has a 25-ton NOx permit limit: Armagh Compressor Station (Unit 31301); Entriken Compressor Station (Unit 31601); and the Naval Surface Warfare Division (Unit 100). The Naval Surface Warfare Division (Unit 99) has a 1-ton NOx permit limit. All of these 25-ton exempt status units account for a total adjustment of 76 tons of NOx emissions.

Units subject to the requirements in 25 Pa. Code § 145.8 are required to meet the monitoring and reporting requirements of the EPA's CAIR, found in 40 CFR Part 96, Subpart HHHH (relating to monitoring and reporting) and maintain general accounts and account representatives under 40 CFR Part 96, Subparts BBBB and FFFF (relating to CAIR designated representative for CAIR NOx ozone season sources; and CAIR NOx ozone season allowance tracking system). The "Non-EGU 2009 Ozone Season NOx Limits" table that follows lists the following: facility name, ORIS code, unit ID for each

non-EGU unit, operating year, heat input for 2008 ozone season, calculated 2009 rate and 2009 ozone season limit. A copy of this table can also be found at the Department's Air Quality web site at www.depweb.state.pa.us (DEP keyword "Air Quality").

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Questions concerning this notice should be directed to Randy Bordner, Chief, Stationary Source Section, Bureau of Air Quality to ranbordner@state.pa.us or at (717) 772-3921. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Nutrient and Sediment Reduction Credit Trading Program; Notice of Actions

The Department of Environmental Protection (Department) hereby provides notice of the following actions under the Nutrient and Sediment Reduction Credit Trading Program (Trading Program). These actions were taken under The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Final Trading of Nutrient and Sediment Reduction Credits—Policy and Guidelines (Policy) (DEP ID# 392-0900-001). The Policy calls for a transparent system of credit reviews and approvals.

Trading is a market-based program that provides incentives for entities to create nutrient reduction credits by going beyond statutory, regulatory or voluntary obligations and goals by removing nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients and sediment. Currently, the focus of the program is on the Chesapeake Bay Watershed.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board. Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

For further information about these certifications or the Trading Program, contact Ann Smith, Water Planning Office, Department of Environmental Protection, P. O. Box 2063, Harrisburg, PA 17105-2063, (717) 787-4726, annsmith@state.pa.us or visit the Department's web site at www.depweb.state.pa.us (DEP Keywords: "Nutrient Trading").

The following proposals have been certified by the Department. These certifications are considered final actions of the Department.

EnergyWorks BioPower, LLC (370 Spicer Road, Gettysburg, PA 17325). This certification is applicable to the operation of the Gettysburg Energy and Nutrient Recovery Facility that, as described, will process poultry manure from a farm in Adams County in an enclosed facility to generate renewable energy, nutrient reductions and an ash by-product that can be used for fertilizer or for a feed supplement. This certification includes a verification plan and authorizes the generation of nitrogen and phosphorous credits. Notice of the proposal for this certification was published for comment in the *Pennsylvania Bulletin* at 39 Pa.B. 2749 (May 30, 2009).

Lycoming County Conservation District (542 County Farm Road, Suite 202, Montoursville, PA 17754). This certification is applicable to the export of poultry litter from the Chesapeake Bay Watershed for Client WhCWaT0001. This certification includes a verification plan and authorizes the generation of nitrogen and phosphorous credits. Notice of the proposal for this certification was published for comment in the *Pennsylvania Bulletin* at 39 Pa.B. 4177 (July 18, 2009).

Nutrient and Sediment Reduction Credit Trading Program; Notice of Proposals

The Department of Environmental Protection (Department) hereby provides notice of the following proposals that have been submitted under the Nutrient and Sediment Reduction Credit Trading Program (Trading Program). These proposals were submitted under The Clean Streams Law (35 P. S. §§ 691.1—691.1001), and the Final Trading of Nutrient and Sediment Reduction Credits—Policy and Guidelines (Policy) (DEP ID# 392-0900-001). The Policy calls for a transparent system of credit reviews and approvals.

Trading is a market-based program that provides incentives for entities to create nutrient reduction credits by going beyond statutory, regulatory or voluntary obligations and goals by removing nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients and sediment. Currently, the focus of the program is on the Chesapeake Bay Watershed.

The proposals described in this notice relates to the submitted proposals through February 12, 2010.

Background

Before a credit can be used by an NPDES permittee, a three-step process is followed: (1) the credit or offset proposal must be approved; (2) it must be verified; and (3) it must be registered.

Approval is also known as certification, which is a written approval by the Department for the use of proposed or implemented activities to generate credits (in some cases the person generating the credits is not permitted to transfer them to another person, in which case they are called “offsets”). Certifications are based on at least: (1) a credit or offset proposal describing the qualifying activities that will reduce the nutrient loadings delivered to the applicable watershed; (2) the calculation to quantify the pounds of reductions expected; and (3) a verification plan that, when implemented, ensures that the qualifying nutrient reduction activities have taken place. The proposals described in this Notice apply to the Chesapeake Bay Watershed.

Once the credits or offsets are certified, they must be verified. Verification means implementation of the verification plan contained in a certification, as required by the Department. Verification plans require annual submittal of documentation to the Department that demonstrates that the qualifying nutrient reduction activities have taken place for the applicable compliance year.

The credits or offsets also need to be registered by the Department before they can be used to meet effluent limits in an NPDES permit. Registration occurs only after credits or offsets have been certified and verified and a trading contract for credits has been submitted to the Department. For the Chesapeake Bay Watershed, the Department will register credits on an annual basis for use during the compliance year in which the qualifying nutrient reduction activities have taken place and will provide such credits with an annual registry number for reporting and tracking purposes.

The Department has received 87 proposals that have been submitted for review to generate nutrient reduction credits in the Chesapeake Bay Watershed. Of those, 57

have been approved, one has been withdrawn and the remaining need additional clarification prior to qualifying for certification.

New Proposals Under Review

The following new proposals are being reviewed by the Department. The Department will accept written comments on these proposed projects for 30 days.

<i>Proposal Applicant</i>	<i>Proposal Description</i>
Lycoming County Conservation District	Nitrogen credits to be generated by the implementation of best management practices with six landowners located in Lycoming County.

For further information about this proposal or the Trading Program, or to submit comments, contact Ann Smith, Water Planning Office, Department of Environmental Protection, P. O. Box 2063, Harrisburg, PA 17105-2063, (717) 787-4726, annsmith@state.pa.us or visit the Department's web site at www.depweb.state.pa.us (DEP Keywords: “Nutrient Trading”).

DEPARTMENT OF LABOR AND INDUSTRY

Public Comment on the Proposed Federal Fiscal Year 2011 Combined Agency State Plan Attachments; Times Announced for Public Comment

The Department of Labor and Industry, Office of Vocational Rehabilitation (OVR), under the Rehabilitation Act of 1973, as amended in the Workforce Investment Act of 1998, announces a period of public comment on its proposed Federal Fiscal Year (FFY) 2011 Combined Agency State Plan Attachments. The FFY 2011 begins on October 1, 2010, and ends on September 30, 2011.

The purpose of this period of comment is to provide individuals, advocates and other interested parties and/or organizations opportunities to present their views and recommendations regarding Vocational Rehabilitation (VR) services for persons with disabilities. In this Commonwealth, these services are provided by OVR through a network of 21 District Offices and the Hiram G. Andrews Center (HGAC).

OVR is required, under law, to develop and implement a Combined Agency State Plan, which must be reviewed and, as necessary, revised annually when there are changes to its VR program. These revisions take the form of updates to existing Attachments. The Plan currently in effect is for FFY 2010 and is a compliance document now on file with the Commissioner, Rehabilitation Services Administration and United States Department of Education. It is the blueprint for the provision of VR services to persons with disabilities living in this Commonwealth.

This period of public comment allows interested parties an opportunity to provide input regarding the Commonwealth's public VR program. Specifically, comment is being solicited regarding the following State Plan Attachments: input and recommendations of the Pennsylvania Rehabilitation Council; comprehensive system of personnel development; annual estimate of individuals to be served and costs of services; OVR's goals and priorities; order of selection; distribution of Supported Employment Funds; and innovation and expansion activities. In addition to the Vocational Rehabilitation State Plan, the agency's Bureau of Blindness and Visual Services will accept public comment on the Business Enterprise Program, Specialized Services for Children and Adults and Independent Living Services for older persons who are blind, which are unique to their funding.

Following is the pertinent information for the upcoming public meetings. Meeting sites are accessible and interpreters for people who are deaf or hard of hearing will be present at each public meeting. For additional information, reasonable accommodation requests or alternative format requests, call the OVR District Office conducting the public meeting they wish to attend. If an individual or organization's representative is unable to attend a public meeting, but wishes to provide testimony, written comments may be mailed to the appropriate OVR District Office serving the area in which the individual/organization member resides. Written comments must be received by 5 p.m., Wednesday, April 14, 2010.

Individuals/organizations wishing to obtain a copy of the proposed FFY 2011 Combined Agency State Plan Attachments or other information should call the contact person listed for the appropriate OVR District Office serving their county's geographical area.

Copies of the approved FFY 2010 Combined Agency State Plan Attachments and the proposed FFY 2011 Combined Agency State Plan Attachments, will be available on the OVR web site, www.dli.state.pa.us, by using "Disability Services" as the Keyword.

DEPARTMENT OF STATE

Official Forms

The Department of State (Department), Corporation Bureau (Bureau) proposes to amend 19 Pa. Code Appendix B (relating to official forms), to read as set forth in Annex A.

A. Effective Date

The proposed amendment will be effective upon publication of the final-form in the *Pennsylvania Bulletin*.

B. Statutory Authority

The Department has the authority to promulgate Bureau sample forms and instructions under 15 Pa.C.S. § 133 (relating to powers of Department of State) (Associations Code). Section 133(a)(1) of the Associations Code, 15 Pa.C.S. § 133(a)(1), specifies that sample filing forms shall not be agency regulations and are therefore explicitly excluded from the requirements of section 612 of The Administrative Code of 1929 (71 P. S. § 232), and review under the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506) and the Regulatory Review Act (71 P. S. §§ 745.1—745.15). Section 133(a)(1) of the Associations Code does, however, require that the forms and instructions be subject to the opportunity for public comments under section 201 of the July 31, 1968 (P. L. 769, No. 240) (45 P. S. § 1201) Commonwealth Documents Law.

C. Description of Proposed Revisions

Fictitious Name Amendment, Withdrawal, Cancellation
 (DSCB: 54-312-313)

This proposal revises one of the existing forms and instructions currently published in the *Pennsylvania Code*. The form (DSCB: 54-312-313) relates to Fictitious Name Amendment, Withdrawal or Cancellation. The Department has updated the form so that it better comports with 54 Pa.C.S. § 312 (relating to amendment). In light of the statement that the amendment, “without reference to any other filing, sets forth all information with respect to the fictitious name which would be required in an original filing under the Fictitious Names Act,” the second part box 6 of the previous form is unnecessary and has been omitted.

The Fictitious Name Amendment, Withdrawal, Cancellation form and instructions currently published in 19 Pa. Code is being deleted and replaced with the revised form set forth in Annex A. Even though Rule 2.10(a) of the *Pennsylvania Code* and *Bulletin Style Manual* recommends that forms be referenced in regulations rather than adopted in regulations, section 133 of the Associations Code (15 Pa.C.S. § 133) requires that the forms and instructions be published in the *Pennsylvania Code*.

Procedure for Continuation of Business Domestic Limited Partnership and Domestic Limited Liability Company
 (DSCB: 15-8103A/8103B)

This form is eliminated in its entirety. Section 8103 of the Associations Code (15 Pa.C.S. § 8103), to which the form relates, was repealed by act 34 of 2001 (P. L. 418). This section had permitted a limited partnership or limited liability company upon certain circumstances to reduce the vote of the limited partners and members to a majority in interest, but required that those entities wishing to take advantage of the section make a special filing with the Department. The General Association Act Amendments Act of 2001 repealed section 8103 because that act transferred the substance of the section to 15 Pa.C.S. §§ 8571 and 8971. The provisions in 15 Pa.C.S. §§ 8571 and 8971 that replaced section 8103 do not require a filing and instead provide that the default rule will be a vote by a majority in interest. Therefore, this form is eliminated.

D. Fiscal Impact

Although this proposal would have no measurable fiscal impact upon the Commonwealth, its political subdivisions, or the private sector, a formal fiscal analysis was not conducted because these forms are exempt from the requirements of section 612 of The Administrative Code of 1929.

E. Paperwork Requirements

This proposal would not create new paperwork.

F. Regulatory Review

Under section 133(a) of the Association Code, sample forms are exempt from the requirements of the Regulatory Review Act (71 P. S. §§ 745.1—745.15), but shall be subject to the opportunity of public comment requirement under section 201 of the act of July 31, 1968 (P. L. 769, No. 240).

G. Public Comment

Under section 133(a)(1) of the Association Code, which requires that publication of these forms be subject to the opportunity for public comment, the Department invites interested persons to submit written comments, suggestions or objections regarding this proposal to Martha H. Brown, Assistant Counsel, Department of State, 301 North Office Building, Harrisburg, PA 17120, within 30 days following publication of this notice in the *Pennsylvania Bulletin*. Subsections (d) and (e) require the coating operation to maintain certain records. However, they are unclear as to the format in which these records must be maintained. Also, will requests for submission of records by the Department under Subsection (e) be made orally or in writing? These items should be clarified in the final-form regulation.
