READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

TITLE 237. JUVENILE RULES

PART I. RULES

Subpart A. DELINQUENCY MATTERS

CHAPTER 2. COMMENCEMENT OF PROCEEDINGS, ARREST PROCEDURES, WRITTEN ALLEGATION, AND PRE-ADJUDICATORY DETENTION

PART D. PRE-ADJUDICATORY DETENTION

Rule 241. Notice of Detention Hearing.

Notice of the detention hearing, including date, time, place, and purpose, shall be given to:

- 1) the juvenile;
- 2) the juvenile's guardian;
- 3) the juvenile's attorney;
- 4) the juvenile probation officer;
- 5) the attorney for the Commonwealth; [and]
- 6) **the victim; and**
- 7) any other appropriate persons.

Comment

Notice should be as timely as possible. Because there is a seventy-two hour time restriction, notice may be oral. Every possible attempt should be made to notify all interested persons.

If a guardian has not been notified, a rehearing is to be ordered under Rule 243 upon submission of an affidavit by the guardian.

The attorney for the Commonwealth or its designee is to notify the victim of the date, time, place,

and purpose of the hearing. See Victim's Bill of Rights, 18 P. S. § 11.201 et seq.

Any persons may be subpoenaed to appear for the detention hearing. See Rule 123 and 42 Pa.C.S. § 6333. However, nothing in these rules requires the attendance of the victim unless subpoenaed.

Official Note: Rule 241 adopted April 1, 2005, effective October 1, 2005. Amended May 26, 2011, effective July 1, 2011.

Rule 242. Detention Hearing.

*	*	*	*	*
Comment				
*	*	*	*	*

The procedures of paragraph (D) deviate from the procedures of the Juvenile Act. See 42 Pa.C.S. § 6331. Under paragraph (D), a petition does not have to be filed within twenty-four hours of the juvenile's detention; rather, the petition should be filed within twenty-four hours of the conclusion of the detention hearing if the juvenile is detained. See Rule 800. If the juvenile is not detained, a petition may be filed at any time prior to the adjudicatory hearing. However, the juvenile's attorney should have sufficient notice of the allegations prior to the adjudicatory hearing to prepare for the defense of the juvenile. See Rule 330 for petition requirements, Rule 331 for service of the petition, and Rule 363 for time of service.

The victim may be present at the hearing. See Rule 132 and 18 P. S. § 11.201 et seq. Any persons may be subpoenaed to appear for the hearing. See Rule 123 and 42 Pa.C.S. § 6333. However, nothing in these rules requires the attendance of the victim unless subpoenaed. If the victim is not present, the victim is to be notified of the final outcome of the proceeding. See Victim's Bill of Rights, 18 P. S. § 11.201 et seq.

See 42 Pa.C.S. §§ 6332, 6336, and 6338 for the statutory provisions concerning informal hearings and other basic rights.

Official Note: Rule 242 adopted April 1, 2005, effective October 1, 2005. Amended April 21, 2011, effective July 1, 2011. Amended April 29, 2011, effective July 1, 2011. Amended May 26, 2011, effective July 1, 2011.

PART B. INTAKE AND INFORMAL ADJUSTMENT

Rule 311. Intake Conference.

*	*	*	*	*
Comment				
*	*	*	*	*

Nothing in these rules is intended to confer a right upon any person, not already afforded by law, to attend an intake conference. **If the attorney for the Commonwealth objects pursuant to paragraph (E)(2), the court is to conduct a hearing on the motion. The attorney for the Commonwealth or its designee is to notify the victim of the date, time, place, and purpose of the hearing conducted pursuant to paragraph (E)(3). The victim may be present at the hearing on the objections and is to be afforded the opportunity to submit an oral and/or written victim-impact statement. See Rule 132 and the Victim's Bill of Rights, 18 P. S. § 11.201 et seq.**

* * * * *

Comment

* * * * *

Prior to informally adjusting the written allegation, the juvenile probation officer is to give the victim an opportunity to [comment] submit an oral and/or written victim-impact statement if the victim so chooses. [In addition] The juvenile probation officer is to include the payment of restitution agreed to be owed to the victim as a condition of successful completion of an informal adjustment by a juvenile. **If the victim is not present**, the victim is to be notified of the final outcome of the [hearing] proceeding. See Victim's Bill of Rights, 18 P. S. § 11.201 et seq.

If a petition is filed because the juvenile has not successfully completed the requirements of an informal adjustment, the procedures of Rule 330 are to be followed.

Official Note: Rule 312 adopted April 1, 2005, effective October 1, 2005. Amended February 12, 2010, effective immediately. Amended May 26, 2011, effective July 1, 2011.

Rule 408. Ruling on Offenses.

* * * * *

Comment

* * * * *

Pursuant to paragraph (B), if the court finds that the juvenile did not commit all of the alleged delinquent acts, the court, upon its own motion, is to expunge the records pursuant to 18 Pa.C.S. § 9123(a)(1). Absent cause shown, the court is to expunge the records pursuant to Rule 172. In its order, the court is to specify the case reference number or other identifying number so the order only applies to the specified case. See Comment to Rule 170 for further definition of a reference number.

If the court finds that the juvenile did not commit all of the alleged delinquent acts and dismisses the petition, the victim, if not present, shall be notified of the final outcome of the proceeding. See Victim's Bill of Rights, 18 P. S. § 11.201 et seq.

Comment

Under paragraph (A), absent evidence to the contrary, evidence of the commission of acts that constitute a felony is sufficient to sustain a finding that the juvenile is in need of treatment, supervision, or rehabilitation. *See* 42 Pa.C.S. § 6341(b).

If the court determines that the juvenile is not in need of treatment, supervision, or rehabilitation and the court enters an order terminating jurisdiction, the victim, if not present, shall be notified of the final outcome of the proceeding. *See* Victim's Bill of Rights, 18 P. * * * * *

Comment

* * * * *

Additionally, nothing in this rule is intended to prohibit the emergency transfer of a juvenile from a placement facility to a detention facility pending reconsideration of the dispositional order and this rule is not intended to preclude a motion for modification of a dispositional order after the juvenile has been detained.

Under paragraph (B), the attorney for the Commonwealth or its designee is to notify the victim of the date, time, place, and purpose of the review hearing. Prior to ordering the change in the dispositional order, the court is to give the victim an opportunity to submit an oral and/or written victim-impact statement if the victim so chooses. See Victim's Bill of Rights, 18 P.S. § 11.201 *et seq.*

Rule 632. Early Termination of Court Supervision by Motion.

A. *Motion.* Any party may move for early termination of court supervision. The motion shall state with specificity why early termination is sought and why the requirements of Rule 631(A) have not been met.

B. *Notice.*

1) In addition to the service requirements of Rule 345, any party moving for early termination shall serve the motion on the juvenile probation officer.

2) The victim shall be provided notice of the motion for early termination of court supervision.

C. *Objection.*

1) A party or the juvenile probation officer may object to the motion under paragraph (A) and request a hearing.

2) Such objection shall be made within thirty days of [receipt] the date of the motion; otherwise, objections are deemed waived.

D. *Court's determination.* The court shall:

1) Rule on the motion and any objections without a hearing; or

2) Schedule a hearing.

E. Hearing. If objections have been made pursuant to paragraph (C) and/or the court has determined a hearing is necessary, the court shall hold a hearing and give each party, the victim, and the juvenile probation officer an opportunity to be heard before the court enters its final order.

[**E. Court's motion.** The court, *sua sponte*, may schedule a hearing for early termination of court supervision upon a request by the juvenile probation officer. All parties shall receive notice of the hearing.]

F. Termination. When the requirements of paragraphs (A) through [(D)] (E) have been met [or pursuant to its own motion under paragraph (E)] and the court is satisfied that there are compelling reasons to discharge the juvenile prior to the completion of the requirements of Rule 631(A), the court may order an early discharge of the juvenile from its supervision.

Comment

If a party has moved for early termination of court supervision of a juvenile pursuant to paragraph (A) or the court has scheduled a hearing pursuant to paragraph (E), the attorney for the Commonwealth or its designee is to notify the victim of the motion for early termination and/or the date, time, place, and purpose of the hearing.

The victim may be present at the hearing and is to be afforded the opportunity to submit an oral and/or written victim-impact statement. See Rule 132 and the Victim's Bill of Rights, 18 P. S. § 11.201 *et seq.*

For the submission of victim-impact statements by victims of personal injury crimes prior to the release or transfer of a juvenile from a placement facility, see Victim's Bill of Rights, 18 P. S. § 11.201(8.1)(iii).

Any persons may be subpoenaed to appear for the hearing. See Rule 123 and 42 Pa.C.S. § 6333. However, nothing in these rules requires the attendance of the victim unless subpoenaed. If the victim is not present, the victim is to be notified of the final outcome of the proceeding.

For procedures on motions, see Rule 344. For filing and service requirements, see Rule 345.

If all parties are in agreement with the termination, the court may terminate court supervision without a hearing.

For procedures on the dispositional order, see Rule 515. See also, 42 Pa.C.S. § 6352. For collection of outstanding restitution regardless of court supervision status, see 42 Pa.C.S. § 9728.

EXPLANATORY REPORT

May 2011

The Supreme Court of Pennsylvania has adopted the modifications to Rules 241, 242, 311, 312, 360, 406, 408, 409, 500, 512, 600, 610, 631, and 632 with this Recommendation. These changes are effective July 1, 2011.

Under the Purposes Clause of the Juvenile Act, the court shall make findings and enter an order consistent with the protection of the public interest that provides balanced attention to the protection of the community, the imposition of accountability for offenses committed, and the development of competencies to enable the juvenile to become a responsible and productive member of the community. See 42 Pa.C.S. § 6301(b)(2).

Part of the juvenile's accountability is confronting the victim and seeking to repair the harm inflicted. These proposed rule changes emphasize that the victim must be part of the court process. The victim must receive notice of hearings and be afforded the opportunity to attend the proceedings and submit an oral and/or written victim-impact statement. See Rules 132, 241, 242, 311, 312, 360, 370, 371, 390, 406, 408, 409, 500, 512, 513, 600, 610, and 632.

Further, when there is a proposed change in the dispositional order pursuant to Rule 610, the victim must be given notice and an opportunity to be heard. This is especially important if the change is substantially different from the original court order. See Rule 610.

If the court schedules a hearing to terminate court supervision, the victim must be afforded an opportunity to be heard before the court enters its final order. See Rules 631 and 632.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Amendments to the Water Quality Regulations, Water Code and Comprehensive Plan to Update Water Quality Criteria for Toxic Pollutants in the Delaware Estuary and Extend These Criteria to Delaware Bay

Summary:

By Resolution No. 2010-13 on December 8, 2010, the Delaware River Basin Commission (DRBC or “Commission”) approved amendments to its Water Quality Regulations, Water Code and Comprehensive Plan to update the Commission’s human health and aquatic life stream quality objectives (also called “water quality criteria”) for toxic pollutants in the Delaware Estuary (DRBC Water Quality Zones 2 through 5) and extended application of the criteria to Delaware Bay (DRBC Water Quality Zone 6).

Effective Date:

Upon publication in the *Pennsylvania Bulletin*. The rule was incorporated by reference into the *Code of Federal Regulations* effective March 23, 2011.

Supplemental Information:

The Delaware River Basin Commission is a federal-state regional agency charged with managing the water resources of the Delaware River Basin without regard to political boundaries. Its members are the governors of the four basin states—Delaware, New Jersey, New York, and Pennsylvania—and the North Atlantic Division Commander of the U.S. Army Corps of Engineers, representing the federal government.

Notice of the proposed amendments appeared in the *Pennsylvania Bulletin* (40 Pa.B. 4278) on July 31, 2010, as well as in the *Federal Register* (75 FR 41106) on July 15, 2010, the *Delaware Register of Regulations* (14 DE Reg. 70-83 (08/01/2010)) on August 1, 2010, the *New Jersey Register* (42 N.J.R. 1702(a)) on August 4, 2010, and the *New York State Register* (p. 6) on July 21, 2010. A public hearing was held on September 23, 2010 and written comments were accepted through October 1, 2010. The commission received two written submissions and no oral testimony on the proposed changes. The Commission made minor revisions to the proposed amendments in response to the comments received. A comment and response document setting forth the Commission’s responses and revisions in detail was approved by the Commission simultaneously with adoption of the final rule.

Resolution No. 2010-13, the text of the final rule, a copy of the comment and response document, and a basis and background document published simultaneously with the proposed rule are available on the Commission’s web site, at http://www.state.nj.us/drbc/toxics_info.htm.

Rule Text:

DRBC Resolution No. 2010-13 amends Article 3 of the *Water Code* and Article 3 of the *Administrative Manual*—

Part III Water Quality Regulations as set forth below. Additions are printed in **BOLD FACE** and deletions are printed in [**BOLD FACE ENCLOSED IN BRACKETS**]. **BOLD FACE UNDERSCORE** indicates changes made in response to comments received during the public comment period. Asterisks indicate ellipsis of rule text retained without changes. [Editor’s instructions appear in normal text in brackets.]

C. *Aquatic Life Objectives for Toxic Pollutants*. It is the policy of the Commission to designate numerical stream quality objectives for the protection of aquatic life for the Delaware River Estuary **and Bay (Zones 2 through 6 [5])** which correspond to the designated uses of each zone. Aquatic life objectives for the protection from both acute and chronic effects are herein established on a pollutant-specific basis for:

D. *Human Health Objectives for Toxic Pollutants*. It is the policy of the Commission to designate numerical stream quality objectives for the protection of human health for the Delaware River Estuary **and Bay (Zones 2 through 6 [5])** which correspond to the designated uses of each zone. Stream quality objectives for protection from both carcinogenic and systemic effects are herein established on a pollutant-specific basis for:

* * * * *

3.10.3.D.6. A rate of ingestion of water of 2.0 liters per day is assumed in calculating objectives for river zones where the designated uses include public water supplies after reasonable treatment. A rate of ingestion of fish of [**6.5**] 17.5 grams per day (equivalent to consuming a 1/2 pound portion every [**35**] 13 days) is assumed in calculating freshwater and marine stream quality objectives for the protection of human health. [**A rate of ingestion of fish of 37 grams per day (equivalent to consuming a 1/2 pound portion every 6 days) is assumed in calculating marine stream quality objectives for human health.**]

3.10.3.D.8. Numerical criteria for toxic pollutants to protect the taste and odor of ingested water and fish shall be applied as stream quality objectives in [**the Estuary**] **Zones 2—6** if these criteria are more stringent than the calculated human health objectives for carcinogens or systemic toxicants.

Criteria for cadmium, chromium (trivalent), copper, nickel, silver and zinc are hardness-dependent and are expressed as the dissolved form (see Section 3.10.3.C.2. on form of metal).

PROPOSED RULEMAKING

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 541, 543, 545, 627a,
629a AND 631a]

Table Game Rules for Minibaccarat, Midibaccarat and Baccarat

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 13A02(1)—(4) (relating to regulatory authority), proposes to rescind Chapters 541, 543 and 545 (relating to Minibaccarat; Midibaccarat; and Baccarat) and add Chapters 627a, 629a and 631a (relating to Minibaccarat; Midibaccarat; and Baccarat) to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

With this proposed rulemaking, the Board is proposing to replace the temporary regulations in Chapter 541 with the permanent regulations in Chapter 627a, temporary regulations in Chapter 543 with the permanent regulations in Chapter 629a and the temporary regulations in Chapter 545 with the permanent regulations in Chapter 631a.

Explanation of Chapter 627a

Chapter 627a contains the rules governing the play of Minibaccarat. Section 627a.1 (relating to definitions) contains the definitions of terms used throughout the chapter. In § 627a.2 (relating to Minibaccarat table physical characteristics), the physical characteristics of the table are specified.

The remaining sections address the following: the number of decks of cards used for play of the game; the opening of the Minibaccarat table for play; the shuffling of cards; the value of the cards and the point count of each hand; permissible wagers; dealing procedures; the payout odds for all permissible wagers and the amount of vigorish collected on winning or tie wagers made on the Banker's Hand; and how irregularities in play are to be handled.

Based on public comments received regarding the temporary regulations, the amount of vigorish collected if the Banker's Hand and the Player's Hand are a tie has been updated. The certificate holders commented that the vigorish typically collected is less than 25%, as was required under the temporary regulation. Certificate holders may now charge a vigorish up to 25% as specified in the operator's Rules Submission.

Explanation of Chapter 629a

Chapter 629a contains the rules governing the play of Midibaccarat. Section 629a.1 (relating to definitions) contains the definitions of terms used throughout the chapter. In § 629a.2 (relating to Midibaccarat table physical characteristics), the physical characteristics of the table are specified.

The remaining sections address the following: the number of decks of cards used for play of the game; the opening of the Midibaccarat table for play; the shuffling of cards; the value of the cards and the point count of each hand; permissible wagers; dealing procedures; the

payout odds for all permissible wagers and the amount of vigorish collected on winning or tie wagers made on the Banker's Hand; and how irregularities in play are to be handled.

Based on public comments received regarding the temporary regulations, the amount of vigorish collected if the Banker's Hand and the Player's Hand are a tie has been updated. The certificate holders commented that the vigorish typically collected is less than 25%, as was required under the temporary regulation. Certificate holders may now charge a vigorish up to 25% as specified in the operator's Rules Submission.

Explanation of Chapter 631a

Chapter 631a contains the rules governing the play of Baccarat. Section 631a.1 (relating to definitions) contains the definitions of terms used throughout the chapter. In § 631a.2 (relating to Baccarat table physical characteristics), the physical characteristics of the table are specified.

The remaining sections address the following: the number of decks of cards used for play of the game; the opening of the Midibaccarat table for play; the shuffling of cards; the value of the cards and the point count of each hand; permissible wagers; dealing procedures; the payout odds for all permissible wagers and the amount of vigorish collected on winning or tie wagers made on the Banker's Hand; the continuation of the player dealing the cards; and how irregularities in play are to be handled.

Based on public comments received on the temporary regulations, the amount of vigorish collected if the Banker's Hand and the Player's Hand are a tie has been updated. The certificate holders commented that the vigorish typically collected is less than 25%, as was required under the temporary regulation. Certificate holders may now charge a vigorish up to 25% as specified in the operator's Rules Submission.

Affected Parties

Certificate holders that elect to offer the games of Minibaccarat, Midibaccarat or Baccarat will be required to comply with these chapters. The requirements for the games are standard throughout the industry, consistent with 4 Pa.C.S. Part II (relating to gaming) and necessary for the protection of the gaming public and the revenues generated from table games.

The Board has experienced increased regulatory demands resulting from the implementation of table games including the review of Rules Submissions, table layouts, signage and gaming guides.

Fiscal Impact

Commonwealth. The Board will have to review each certificate holder's table games Rules Submissions, table layouts, signage and gaming guides to ensure compliance with the regulatory requirements in this proposed rulemaking. These reviews will be conducted by existing Bureau of Gaming Operations and the Bureau of Casino Compliance staff, so the Board does not project that it will incur any significant cost increases as a result of this proposed rulemaking.

Political subdivisions. This proposed rulemaking will not have fiscal impact on the political subdivisions of this Commonwealth. Host municipalities and counties will benefit from the local share funding mandated by the act of January 7, 2010 (P. L. 1, No. 1).

Private sector. This proposed rulemaking will result in additional costs for certificate holders that elect to offer Minibaccarat, Midibaccarat or Baccarat. Certificate holders will be required to purchase the table games they elect to offer and to hire and train employees to operate the games. The costs for table game equipment do vary depending on the type and number of tables purchased. The costs are expected to be offset by the revenues generated from table game operations.

General public. This proposed rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

This proposed rulemaking will require certificate holders to do the following: post signs at gaming tables; have complete sets of rules for all the games they offer available for public inspection; produce a gaming guide summarizing the rules of the games they offer; and file Rules Submissions for each table game they elect to offer. The Rules Submissions are standardized checklists for each game, relatively simple to fill out and available on the Board's web site.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking, within 30 days after the date of publication in the *Pennsylvania Bulletin*, to Susan A. Yocum, Assistant Chief Counsel, Pennsylvania Gaming Control Board, P. O. Box 69060, Harrisburg, PA 17106-9060, Attention; Public Comment on Table Games Rules; Regulation # 125-151.

Contact Person

The contact person for questions about this proposed rulemaking is Susan Yocum, Assistant Chief Counsel, (717) 265-8356.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on June 9, 2011, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee. A copy of this material is available to the public upon request and is available on the Board's web site at www.pgcb.state.pa.us.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the

General Assembly and the Governor of comments, recommendations or objections raised.

GREGORY C. FAJT,
Chairperson

(Editor's Note: Proposed Chapters 627a, 629a and 631a reference proposed Chapters 601a and 603a, which will be adopted on or before the date of final adoption of this proposed rulemaking.)

Fiscal Note: 125-151. No fiscal impact; (8) recommends adoption.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Dragon 7—A Banker's Hand which has a Point Count of 7 with a total of three cards dealt and the Player's Hand which has a Point Count of less than 7.

Natural—A hand which has a Point Count of 8 or 9 on the first two cards dealt.

§ 627a.2. Minibaccarat table physical characteristics.

(a) Minibaccarat shall be played on a table having numbered positions for no more than nine seated players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The dimensions of a Minibaccarat table shall be approved by the Bureau of Gaming Operations.

- (1) The name or logo of the certificate holder.
- (2) Separate areas designated for the placement of wagers on the Banker's Hand, Player's Hand and Tie Hand for each player.
- (3) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds shall be posted at each Minibaccarat table.
- (4) An area designated for the placement of cards for the Player's Hand and Banker's Hand.

(d) If marker buttons are used for the purpose of marking vigorish, the marker buttons shall be placed in the table inventory float container or in a separate rack designed for the purpose of storing marker buttons. If a separate rack is used, the rack shall be placed in front of the table inventory float container during gaming activity.

(e) Each Minibaccarat table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance. § 627a.3. Cards; number of decks.

(b) If an automated card shuffling device is utilized, Minibaccarat shall be played with 12 to 16 decks of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design. The backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Minibaccarat table shall be changed at least once every 24 hours.

§ 627a.4. Opening of a table for gaming.

(a) Except as provided in subsection (e), after receiving six or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, they shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked.

(d) When an automated card shuffling device is utilized, all the decks in one batch of cards shall be spread for inspection on the table separate from the decks in the other batch of cards. After the first player is afforded an opportunity to visually inspect the cards, each batch of cards shall separately be turned face down on the table and stacked.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 627a.5. Shuffle and cut of the cards; continuous shuffling dealing shoe or device.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each dealing shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. If the cards have been manually shuffled, the dealer shall leave the entire stack of cards intermixed but not entirely squared off (leave them feathered) so that the floorperson can verify that the shuffle did not result in any uneven distribution of cards.

(b) After the cards have been shuffled and, when applicable, reshuffled, the dealer shall offer the stack of cards, with backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table and,

working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut by the next person entitled to cut the cards, as determined by subsection (b).

(f) Prior to commencement of play, the dealer shall remove the first card from the dealing shoe and place it, and an additional number of cards equal to the face value of the first card drawn, in the discard rack after all cards have been shown to the players. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

(g) If there is no gaming activity at a Minibaccarat table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack, and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) If there is no automated shuffling device in use, the cards shall be mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section.

(2) If an automated shuffling device is in use, the cards shall be stacked and placed into the automated shuffling device to be shuffled. The batch of cards already in the shuffler shall then be removed. Unless a player so requests, the batch of cards removed from the shuffler need not be spread for inspection and reshuffled prior to being dealt, if:

(i) The automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(ii) The shuffled cards have been secured, released and prepared for play in accordance with procedures approved by the Bureau of Gaming Operations.

(h) In lieu of the dealing and shuffling requirements in this section, a certificate holder may utilize a dealing shoe or other device designed to automatically reshuffle the cards provided that the device and the procedures for dealing and shuffling the cards through use of this device are approved by the Bureau of Gaming Laboratory Operations.

§ 627a.6. Value of cards; point count of hand.

(a) The value of the cards in each deck shall be as follows:

(1) Any card from 2 to 9 shall have its face value.

(2) Any 10, jack, queen or king shall have a value of zero.

(3) Any ace shall have a value of one.

(b) The point count of a hand shall be a single digit number from 0 to 9 and shall be determined by totaling the value of the cards in the hand. If the total of the cards in a hand is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the point count of the hand. Examples of this rule are as follows:

(1) A hand composed of an ace, 2 and 4 has a Point Count of 7.

(2) A hand composed of an ace, 2 and 9 has a total of 12 but a Point Count of only 2 since the left digit of the number 12 is discarded.

§ 627a.7. Wagers.

(a) The following are permissible wagers in the game of Minibaccarat:

(1) A wager on the Banker's Hand which shall:

(i) Win if the Banker's Hand has a Point Count higher than that of the Player's Hand unless EZ Baccarat is being played and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

(ii) Lose if the Banker's Hand has a Point Count lower than that of the Player's Hand.

(iii) Tie if the Banker's Hand and the Player's Hand have the same Point Count and either:

(A) Be returned to the player.

(B) If the licensee charges vigorish in accordance with § 627a.12(h) (relating to payout odds; vigorish), be charged a vigorish up to 25% of the wager.

(iv) Be returned to the player if EZ Baccarat is being played and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

(2) A wager on the Player's Hand which shall:

(i) Win if the Player's Hand has a Point Count higher than that of the Banker's Hand.

(ii) Lose if the Player's Hand has a Point Count lower than that of the Banker's Hand or if EZ Baccarat is being played and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

(iii) Tie and be returned to the player if the Point Counts of the Banker's Hand and the Player's Hand are equal.

(3) A Tie Wager which shall:

(i) Win if the Point Counts of the Banker's Hand and the Player's Hand are equal.

(ii) Lose if Point Counts of the Banker's Hand and the Player's Hand are not equal.

(4) If offered by a certificate holder, a Dragon Bonus Wager on the Player's Hand or Banker's Hand, or both, which shall:

(i) Win if the selected hand is:

(A) A Natural and the other hand is not a Natural.

(B) A Natural 9 and the other hand is a Natural 8.

(C) Not a Natural and has a Point Count that exceeds the Point Count of the other hand by four or more points.

(ii) Lose if the selected hand is:

(A) A Natural 8 and the other hand is a Natural 9.

(B) Not a Natural and has a Point Count less than or equal to the Point Count of the other hand.

(C) Not a Natural and has a Point Count that exceeds the Point Count of the other hand by less than four points.

(iii) Tie if the selected hand is a Natural and the other hand is a Natural of equal Point Count and either:

(A) Be returned to the player.

(B) If the licensee charges a vigorish in accordance with § 627a.12(h), be charged a vigorish up to 25% of the wager.

(5) A Dragon 7 Insurance Wager, if the table is designated for play as an EZ Baccarat table, which shall:

(i) Win if the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

(ii) Lose if the Point Counts of the Banker's Hand and the Player's Hand do not result in a Dragon 7.

(b) Wagers at Minibaccarat shall be made by placing value chips or plaques on the appropriate areas of the Minibaccarat layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(c) A wager may not be made, increased or withdrawn after the dealer has announced "no more bets."

§ 627a.8. Hands of player and banker; procedure for dealing initial two cards to each hand.

(a) There shall be two hands dealt in the game of Minibaccarat, one of which shall be designated the Player's Hand and the other designated the Banker's Hand.

(b) Prior to dealing any cards, the dealer shall announce "no more bets."

(c) The dealer shall then deal an initial four cards from the dealing shoe in accordance with one of the following options selected by the certificate holder in its Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) The dealer shall remove cards from the dealing shoe with his left hand and place them face up on the appropriate area of the layout with his right hand. The first and third cards dealt shall constitute the first and second cards of the Player's Hand and shall be placed on the area designated for the Player's Hand. The second and fourth cards dealt shall constitute the first and second cards of the Banker's Hand and be placed on the area designated for the Banker's Hand.

(2) The dealer shall remove cards from the dealing shoe with his left hand and place them face down on the layout. The first and third cards dealt shall constitute the first and second cards of the Player's Hand and be placed on the area designated for the Player's Hand. The second and fourth cards dealt shall constitute the first and second cards of the Banker's Hand and be placed underneath the right corner of the dealing shoe until the Player's Hand is called as provided in § 627a.9 (relating to procedure for dealing a third card). The second and

fourth cards shall then be turned face up and placed on the area designated for the Banker's Hand.

(d) Players may not touch, handle, remove or alter any cards used to play Minibaccarat.

§ 627a.9. Procedure for dealing a third card.

(a) After the dealer positions the cards in accordance with § 627a.8(c)(1) or (2) (relating to hands of player and banker; procedure for dealing initial two cards to each hand), the dealer shall announce the Point Count of the Player's Hand and the Banker's Hand.

(b) Following the announcement of the Point Counts of each hand, the dealer shall determine whether to deal a third card to each hand in conformity with § 627a.10 (relating to rules for determining whether a third card shall be dealt).

(c) After the dealer positions the cards in accordance with § 627a.8(c)(1) or (2), any third card required to be dealt shall first be dealt face up to the Player's Hand and then to the Banker's Hand.

(d) In no event may more than one additional card be dealt to either hand.

(e) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. Upon completion of that hand, the dealer shall announce "last hand." At the completion of one more hand, the cards shall be reshuffled.

§ 627a.10. Rules for determining whether a third card shall be dealt.

(a) If either the Player's Hand or the Banker's Hand is a Natural, no more cards may be dealt to either hand.

(b) If the Point Count of the Player's Hand and the Banker's Hand is 0 to 7 on the first two cards, the Player's Hand shall:

(1) Draw (take a third card) if the Player's Hand has a Point Count of less than 6.

(2) Stay (not take a third card) if the Player's Hand has a Point Count of 6 or more.

(c) If the Point Count of the Player's Hand and the Banker's Hand is 0 to 7 on the first two cards, the Banker's Hand shall draw or stay in accordance with the following requirements:

(1) If the Player's Hand does not receive a third card, the Banker's Hand shall be dealt a third card if the Point Count of the Banker's Hand is 5 or less.

(2) If the Player's Hand is dealt a third card and:

(i) The Banker's Hand has a Point Count of less than 3, the Banker's Hand shall be dealt a third card.

(ii) The Banker's Hand has a Point Count of 7, the Banker's Hand may not be dealt a third card.

(iii) The Banker's Hand has a Point Count of 3, 4, 5 or 6, the Banker's Hand shall be dealt or not dealt a third card in accordance with Table 1 as follows:

Table 1

Point Count of Banker's Hand After Two Cards	Value of the Third Card Drawn by Player's Hand									
	0	1	2	3	4	5	6	7	8	9
3	D	D	D	D	D	D	D	D	S	D
4	S	S	D	D	D	D	D	D	S	S
5	S	S	S	S	D	D	D	D	S	S
6	S	S	S	S	S	S	D	D	S	S

(d) In Table 1, the first vertical column labeled "Point Count of Banker's Hand" refers to the Point Count of the Banker's Hand after the first two cards have been dealt to the Banker's Hand.

(e) In Table 1, the first horizontal row at the top labeled "Value of the Third Card Drawn by Player's Hand" refers to the value of the third card drawn by the Player's Hand, not the Point Count of the Player's Hand.

(f) In Table 1, the letter "D" means that the Banker's Hand shall draw a third card and the letter "S" means that the Banker's Hand shall stay.

(g) To use Table 1, first find the Point Count of the Banker's Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player's Hand. The symbol located where the intersection occurs determines whether the Banker's Hand shall draw a third card or stay. For example, if the Point Count of the Banker's Hand after two cards is 5 and the value of the third card drawn by the Player's Hand is 4, the table shows that the Banker's Hand shall draw a third card.

§ 627a.11. Announcement of result of round; payment and collection of wagers.

(a) After each hand has received all the cards to which it is entitled under §§ 627a.8, 627a.9 and 627a.10 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer shall announce the final Point Count of each hand indicating which hand has won the round. If two hands have equal Point Counts, the dealer shall announce "tie hand." If the table is designated for play as an EZ Baccarat table and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7, the dealer shall announce "Dragon 7."

(b) After the result of the round is announced, the dealer responsible for the wagers on the table shall first collect each losing wager. After the losing wagers are collected, the dealer shall, starting at the highest numbered player position at which a winning wager is located, mark or collect the vigorish owed by that player, unless the table is designated for play as an EZ Baccarat table in which vigorish is not collected. Immediately thereafter, the dealer shall pay that player's winning wager and then, proceeding in descending order to the next highest numbered player position at which a winning wager is located, repeat this procedure until the vigorish owed by each player is either marked or collected and each winning wager is paid.

(c) At the conclusion of a round of play, the dealer shall remove all cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 627a.12. Payout odds; vigorish.

(a) A winning wager made on the Player's Hand shall be paid at odds of 1 to 1.

(b) A winning Tie Wager shall be paid at odds of at least 8 to 1.

(c) Except as otherwise provided in subsection (h), a winning wager made on the Banker's Hand shall be paid at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to either 4% or 5% of the amount won, as specified in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), unless the certificate holder is offering EZ Baccarat in which vigorish is not collected.

(d) If a certificate holder offers the Dragon Bonus Wager, a vigorish may not be extracted on a winning Dragon Bonus Wager. Winning Dragon Bonus Wagers shall be paid out at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

Hand	Paytable A	Paytable B	Paytable C
Win by 9 Points	30 to 1	20 to 1	30 to 1
Win by 8 Points	10 to 1	8 to 1	10 to 1
Win by 7 Points	6 to 1	7 to 1	4 to 1
Win by 6 Points	4 to 1	4 to 1	4 to 1
Win by 5 Points	2 to 1	3 to 1	2 to 1
Win by 4 Points	1 to 1	1 to 1	2 to 1
Natural winner	1 to 1	1 to 1	1 to 1
Natural Tie	Push	Push	Push

(e) A winning Dragon 7 Insurance Wager shall be paid at odds of 40 to 1.

(f) When collecting the vigorish, the certificate holder may round off the vigorish to 25 cents or the next highest multiple of 25 cents.

(g) A dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2, may collect the vigorish from a player at the time the winning payout is made or may defer it to a later time provided, however, that outstanding vigorish shall be collected prior to reshuffling the cards in a dealing shoe or when the player leaves the gaming table, whichever occurs first. The amount of any vigorish not collected at the time of the winning payouts shall be tracked by placing a coin or marker button containing the amount of the vigorish owed in a rectangular space in front of the

dealer on the layout imprinted with the number of the player owing the vigorish. The coin or marker button may not be removed from the layout until the vigorish owed is collected.

(h) A certificate holder may, if specified in its Rules Submission under § 601a.2, elect to charge every player at a Minibaccarat table a vigorish up to 25% of the player's wager on the Banker's Hand if the Point Counts of the Banker's Hand and the Player's Hand are equal, unless the certificate holder is offering EZ Baccarat in which vigorish is not collected. The vigorish authorized by this subsection shall be collected at the end of the round of play and prior to any cards being dealt for the next round of play. If a certificate holder elects to charge the vigorish authorized by this subsection, the vigorish otherwise required by subsection (c) may not be collected.

(i) The type and percentage of vigorish charged at a Minibaccarat table applies to all players at that table. The same type and percentage of vigorish shall be used for all Minibaccarat tables located within a licensed facility.

§ 627a.13. Irregularities.

(a) A card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

(b) A third card dealt to the Player's Hand that is not disclosed, when no third card is authorized under § 627a.10 (relating to rules for determining whether a third card shall be dealt), shall become the third card of the Banker's Hand if the Banker's Hand is required to draw under § 627a.10(c). If the Banker's Hand is required to stay, the card dealt in error shall become the first card of the next hand.

(c) If a card dealt in error under the circumstances described in subsection (a) or (b) is disclosed at the time it is dealt or a card is found face up in the dealing shoe, the dealer shall, in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Place the disclosed card and an additional number of cards equal to the face value of the disclosed card from the dealing shoe in the discard rack without disclosing the additional cards.

(2) Use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and be placed in the discard rack upon completion of the dealing procedure.

(d) If there are insufficient cards remaining in the dealing shoe to complete a round of play, that round shall be void and all wagers shall be returned. A new round shall commence after the entire set of cards are reshuffled and placed in the dealing shoe.

629a.13. Irregularities.

§ 629a.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Dragon 7—A Banker's Hand which has a Point Count of 7 with a total of three cards dealt and the Player's Hand which has a Point Count of less than 7.

Natural—A hand which has a Point Count of 8 or 9 on the first two cards dealt.

§ 629a.2. Midibaccarat table physical characteristics.

(a) Midibaccarat shall be played on a table having numbered positions for no more than nine seated players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The dimensions of a Midibaccarat table shall be approved by the Bureau of Gaming Operations.

(c) The layout for a Midibaccarat table shall be approved by the Bureau of Gaming Operations and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) Separate areas designated for the placement of wagers on the Banker's Hand, Player's Hand and Tie Hand.

(3) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds shall be posted at each Midibaccarat table.

(4) An area designated for the placement of cards for the Player's Hand and Banker's Hand.

(5) If a certificate holder offers the Dragon Bonus Wager, separate areas designated for the placement of the Dragon Bonus Wager for each player.

(6) If a certificate holder offers EZ Baccarat in which vigorish is not collected:

(i) Separate areas designated for the placement of the Dragon 7 Insurance Wager for each player.

(ii) Inscriptions that advise patrons that a wager on the Banker's Hand that results in a Dragon 7 shall push and be returned to the player. If the information is not inscribed on the layout, a sign containing the information shall be posted at each Midibaccarat table.

(7) Numbered areas that correspond to the seat numbers for the purpose of marking vigorish unless the dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), collects the vigorish from a player at the time the winning payout is made or the table is designated for play as an EZ Baccarat table in which vigorish is not collected.

(d) If marker buttons are used for the purpose of marking vigorish, the marker buttons shall be placed in the table inventory float container or in a separate rack designed for the purpose of storing marker buttons. If a separate rack is used, the rack shall be placed in front of the table inventory float container during gaming activity.

(e) Each Midibaccarat table must have a drop box and a tip box attached on the same side of the gaming table

as, but on opposite sides of, the dealer, in locations approved by the Bureau of Casino Compliance. The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(f) Each Midibaccarat table must have a discard bucket on the dealer's side of the table in a location approved by the Bureau of Casino Compliance.

§ 629a.3. Cards; number of decks.

(a) Midibaccarat shall be played with six to eight decks of cards that are identical in appearance and two cover cards.

(b) The decks of cards opened for use at a Midibaccarat table shall be changed after the play of each shoe.

§ 629a.4. Opening of a table for gaming.

(a) Except as provided in subsection (d), after receiving six or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked.

(d) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(c) do not apply.

§ 629a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), the dealer shall shuffle the cards so that they are randomly intermixed. The dealer shall leave the entire stack of cards intermixed but not entirely squared off (leave them feathered) so that the floorperson can verify that the shuffle did not result in any uneven distribution of cards.

(b) After the cards have been shuffled by a dealer, the dealer shall offer the stack of cards, with backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table and, working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut by the next person entitled to cut the cards, as determined by subsection (b).

(f) Prior to commencement of play, the dealer shall remove the first card from the dealing shoe and place it, and an additional number of cards equal to the face value of the first card drawn, in the discard bucket after all cards have been shown to the players. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

§ 629a.6. Value of cards; point count of hand.

(a) The value of the cards in each deck shall be as follows:

(1) Any card from 2 to 9 shall have its face value.

(2) Any 10, jack, queen or king shall have a value of zero.

(3) Any ace shall have a value of one.

(b) The Point Count of a hand shall be a single digit number from 0 to 9 and shall be determined by totaling the value of the cards in the hand. If the total of the cards in a hand is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the Point Count of the hand. Examples of this rule are as follows:

(1) A hand composed of an ace, 2 and 4 has a Point Count of 7.

(2) A hand composed of an ace, 2 and 9 has a total of 12 but a Point Count of only 2 since the left digit of the number 12 is discarded.

§ 629a.7. Wagers.

(a) The following are permissible wagers in the game of Midibaccarat:

(1) A wager on the Banker's Hand which shall:

(i) Win if the Banker's Hand has a Point Count higher than that of the Player's Hand unless EZ Baccarat is being played and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

(ii) Lose if the Banker's Hand has a Point Count lower than that of the Player's Hand.

(iii) Tie if the Banker's Hand and the Player's Hand have the same Point Count and either:

(A) Be returned to the player.

(B) If the licensee charges vigorish in accordance with § 629a.12(h) (relating to payout odds; vigorish), be charged a vigorish up to 25% of the wager.

(iv) Be returned to the player if EZ Baccarat is being played and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

(2) A wager on the Player's Hand which shall:

(i) Win if the Player's Hand has a Point Count higher than that of the Banker's Hand.

(ii) Lose if the Player's Hand has a Point Count lower than that of the Banker's Hand or if EZ Baccarat is being played and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

(iii) Tie and be returned to the player if the Point Counts of the Banker's Hand and the Player's Hand are equal.

(3) A Tie Wager which shall:

(i) Win if the Point Counts of the Banker's Hand and the Player's Hand are equal.

(ii) Lose if Point Counts of the Banker's Hand and the Player's Hand are not equal.

(4) If offered by a certificate holder, a Dragon Bonus Wager on the Player's Hand or Banker's Hand, or both, which shall:

(i) Win if the selected hand is:

(A) A Natural and the other hand is not a Natural.

(B) A Natural 9 and the other hand is a Natural 8.

(C) Not a Natural and has a Point Count that exceeds the Point Count of the other hand by four or more points.

(ii) Lose if the selected hand is:

(A) A Natural 8 and the other hand is a Natural 9.

(B) Not a Natural and has a Point Count less than or equal to the Point Count of the other hand.

(C) Not a Natural and has a Point Count that exceeds the Point Count of the other hand by less than four points.

(iii) Tie if the selected hand is a Natural and the other hand is a Natural of equal Point Count and either:

(A) Be returned to the player.

(B) If the licensee charges a vigorish in accordance with § 629.12(h), be charged a vigorish up to 25% of the wager.

(5) A Dragon 7 Insurance Wager, if the table is designated for play as an EZ Baccarat table, which shall:

(i) Win if the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

(ii) Lose if the Point Counts of the Banker's Hand and the Player's Hand do not result in a Dragon 7.

(b) Wagers at Midibaccarat shall be made by placing value chips or plaques on the appropriate areas of the Midibaccarat layout. A verbal wager accompanied by cash may be accepted provided the verbal wager is confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(c) A wager may not be made, increased or withdrawn after the dealer has announced "no more bets."

§ 629a.8. Hands of player and banker; procedure for dealing initial two cards to each hand.

(a) There shall be two hands dealt in the game of Midibaccarat, one of which shall be designated the Player's Hand and the other designated the Banker's Hand.

(b) Prior to dealing any cards, the dealer calling the game shall announce "no more bets."

(c) The dealer shall then deal an initial four cards from the dealing shoe. The first and third cards dealt shall be placed face down on the area designated for the Player's Hand and the second and fourth cards dealt shall be placed face down on the area designated for the Banker's Hand.

(1) After all four cards have been dealt, the dealer shall place the Banker's Hand underneath the right corner of the dealing shoe. The dealer shall then hand the

two cards of the Player's Hand, face down, to the player with the highest wager on the Player's Hand. After viewing the Player's Hand, the player shall return the two cards, face up, to the dealer, who shall place the cards face up on the area designated for the Player's Hand and announce the point count of the Player's Hand.

(2) The dealer shall then hand the two cards of the Banker's Hand, face down, to the player with the highest wager on the Banker's Hand. After viewing the Banker's Hand, the player shall return the two cards, face up, to the dealer, who shall place the cards face up on the area designated for the Banker's Hand and announce the point count of the Banker's Hand.

(3) Any third card required to be dealt to the Player's Hand shall be placed face down on the area designated for the Player's Hand. The dealer shall then hand the card, face down, to the player who was handed and returned the Player's Hand. After viewing the card, the player shall return the card, face up, to the dealer, who shall place the card face up on the area designated for the Player's Hand.

(4) Any third card required to be dealt to the Banker's Hand shall be placed face down on the area designated for the Banker's Hand. The dealer shall then hand the card, face down, to the player who was handed and returned the Banker's Hand. After viewing the card, the player shall return the card, face up, to the dealer, who shall place the card face up on the area designated for the Banker's Hand.

(5) If two or more players wager an equally high amount on the Player's Hand, the player making the wager who is closest to the dealer moving counterclockwise around the table shall be handed the Player's Hand and any third card required to be dealt. If two or more players wager an equally high amount on the Banker's Hand, the player making the wager who is closest to the dealer moving counterclockwise around the table shall be handed the Banker's Hand and any third card required to be dealt.

(d) The dealer or floorperson assigned to the table may require any player to relinquish the right to turn over the cards in accordance with subsection (c) if the player unreasonably delays the game or violates either the act or this part. If the voluntary or compulsory relinquishment of that right occurs, the dealer shall offer it to the player immediately to the right of the previous player. If the player does not accept it or there is not a player in that position, the dealer shall offer it to each of the other players in turn counterclockwise around the table for the remainder of that round of play. If no player accepts the cards, the dealer shall turn the cards over and place them on the designated areas of the layout.

§ 629a.9. Procedure for dealing a third card.

(a) After the dealer positions the cards in accordance with § 629.8(c) (relating to hands of player and banker; procedure for dealing initial two cards to each hand), the dealer shall announce the Point Count of the Player's Hand and the Banker's Hand.

(b) Following the announcement of the Point Counts of each hand, the dealer shall determine whether to deal a third card to each hand in conformity with § 629a.10 (relating to rules for determining whether a third card shall be dealt). Any third cards required to be dealt shall be dealt as provided in § 629.8(c).

(c) In no event may more than one additional card be dealt to either hand.

(d) When the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. Upon completion of that hand, the dealer shall announce “last hand.” At the completion of one more hand, the cards shall be replaced with new decks of cards.

§ 629a.10. Rules for determining whether a third card shall be dealt.

(a) If the Player’s Hand or the Banker’s Hand is a Natural, no more cards may be dealt to either hand.

(b) If the Point Count of the Player’s Hand and the Banker’s Hand is 0 to 7 on the first two cards, the Player’s Hand shall:

(1) Draw (take a third card) if the Player’s Hand has a Point Count of less than 6.

(2) Stay (not take a third card) if the Player’s Hand has a Point Count of 6 or more.

(c) If the Point Count of the Player’s Hand and the Banker’s Hand is 0 to 7 on the first two cards, the Banker’s Hand shall draw or stay in accordance with the following requirements:

(1) If the Player’s Hand does not receive a third card, the Banker’s Hand shall be dealt a third card if the Point Count of the Banker’s Hand is 5 or less.

(2) If the Player’s Hand is dealt a third card and:

(i) The Banker’s Hand has a Point Count of less than 3, the Banker’s Hand shall be dealt a third card.

(ii) The Banker’s Hand has a Point Count of 7, the Banker’s Hand may not be dealt a third card.

(iii) The Banker’s Hand has a Point Count of 3, 4, 5 or 6, the Banker’s Hand shall be dealt or not dealt a third card in accordance with Table 1 as follows:

Table 1

Value of the Third Card Drawn by Player’s Hand

Point Count of Banker’s Hand After Two Cards	0	1	2	3	4	5	6	7	8	9
3	D	D	D	D	D	D	D	D	S	D
4	S	S	D	D	D	D	D	D	S	S
5	S	S	S	S	D	D	D	D	S	S
6	S	S	S	S	S	S	D	D	S	S

(d) In Table 1, the first vertical column labeled “Point Count of Banker’s Hand” refers to the Point Count of the Banker’s Hand after the first two cards have been dealt to the Banker’s Hand.

(e) In Table 1, the first horizontal row at the top labeled “Value of the Third Card Drawn by Player’s Hand” refers to the value of the third card drawn by the Player’s Hand, not the Point Count of the Player’s Hand.

(f) In Table 1, the letter “D” means that the Banker’s Hand must draw a third card and the letter “S” means that the Banker’s Hand must stay.

(g) To use Table 1, first find the Point Count of the Banker’s Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player’s Hand. The symbol located where the intersection occurs determines whether the Banker’s Hand must draw a third card or stay. For example, if the Point Count of the Banker’s Hand after two cards is 5 and the value of the third card drawn by the Player’s Hand is 4, the table shows that the Banker’s Hand must draw a third card.

§ 629a.11. Announcement of result of round; payment and collection of wagers.

(a) After each hand has received all the cards to which it is entitled under §§ 629a.8, 629a.9 and 629a.10 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer shall announce the final Point Count of each hand indicating which hand has won the round. If two hands have equal Point Counts, the dealer shall announce “tie hand.” If the table is desig-

nated for play as an EZ Baccarat table and the Point Counts of the Banker’s Hand and the Player’s Hand result in a Dragon 7, the dealer shall announce “Dragon 7.”

(b) After the result of the round is announced, the dealer responsible for the wagers on the table shall first collect each losing wager. After the losing wagers are collected, the dealer shall, starting at the highest numbered player position at which a winning wager is located, mark or collect the vigorish owed by that player, unless the table is designated for play as an EZ Baccarat table in which vigorish is not collected. Immediately thereafter, the dealer shall pay that player’s winning wager and then, proceeding in descending order to the next highest numbered player position at which a winning wager is located, repeat this procedure until the vigorish owed by each player is either marked or collected and each winning wager is paid.

(c) At the conclusion of a round of play, all cards on the layout shall be picked up by the dealer and placed in the discard bucket.

§ 629a.12. Payout odds; vigorish.

(a) A winning wager made on the Player’s Hand shall be paid at odds of 1 to 1.

(b) A winning Tie Wager shall be paid at odds of at least 8 to 1.

(c) Except as otherwise provided in subsection (h), a winning wager made on the Banker’s Hand shall be paid at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to either 4% or 5% of the amount won, as specified in the certificate holder’s Rules Submission under § 601a.2 (relating to table games Rules Submissions),

unless the certificate holder is offering EZ Baccarat in which vigorish is not collected.

(d) If a certificate holder offers the Dragon Bonus Wager, a vigorish may not be extracted on a winning Dragon Bonus Wager. Winning Dragon Bonus Wagers shall be paid out at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

<i>Hand</i>	<i>Paytable A</i>	<i>Paytable B</i>	<i>Paytable C</i>
Win by 9 Points	30 to 1	20 to 1	30 to 1
Win by 8 Points	10 to 1	8 to 1	10 to 1
Win by 7 Points	6 to 1	7 to 1	4 to 1
Win by 6 Points	4 to 1	4 to 1	4 to 1
Win by 5 Points	2 to 1	3 to 1	2 to 1
Win by 4 Points	1 to 1	1 to 1	2 to 1
Natural winner	1 to 1	1 to 1	1 to 1
Natural Tie	Push	Push	Push

(e) A winning Dragon 7 Insurance Wager shall be paid at odds of 40 to 1.

(f) When collecting the vigorish, the certificate holder may round off the vigorish to 25 cents or the next highest multiple of 25 cents.

(g) A dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2, may collect the vigorish from a player at the time the winning payout is made or may defer it to a later time provided, however, that outstanding vigorish shall be collected prior to beginning play with a new dealing shoe of cards or when the player leaves the gaming table, whichever occurs first. The amount of any vigorish not collected at the time of the winning payouts shall be tracked by placing a coin or marker button containing the amount of the vigorish owed in a rectangular space in front of the dealer on the layout imprinted with the number of the player owing the vigorish. The coin or marker button may not be removed from the layout until the vigorish owed is collected.

(h) A certificate holder may, if specified in its Rules Submission under § 601a.2, elect to charge every player at a Midibaccarat table a vigorish up to 25% of the player's wager on the Banker's Hand if the Point Counts of the Banker's Hand and the Player's Hand are equal, unless the certificate holder is offering EZ Baccarat in which vigorish is not collected. The vigorish authorized by this subsection shall be collected at the end of the round of play and prior to any cards being dealt for the next round of play. If a certificate holder elects to charge the vigorish authorized by this subsection, the vigorish otherwise required under subsection (c) may not be collected.

(i) The type and percentage of vigorish charged at a Midibaccarat table shall apply to all players at that table. The same type and percentage of vigorish shall be used for all Midibaccarat tables located within a licensed facility.

§ 629a.13. Irregularities.

(a) A card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

(b) A third card dealt to the Player's Hand that is not disclosed, when a third card is not authorized under § 629a.10 (relating to rules for determining whether a third card shall be dealt), shall become the third card of

the Banker's Hand if the Banker's Hand is required to draw under § 629a.10(c). If the Banker's Hand is required to stay, the card dealt in error shall become the first card of the next hand.

(c) If a card dealt in error under the circumstances described in subsection (a) or (b) is disclosed at the time it is dealt or a card is found face up in the dealing shoe, the dealer shall, in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Place the disclosed card and an additional number of cards equal to the face value of the disclosed card from the dealing shoe in the discard bucket without disclosing the additional cards.

(2) Use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with the rules of this chapter and be placed in the discard bucket upon completion of the dealing procedure.

(d) If there are insufficient cards remaining in the dealing shoe to complete a round of play, that round shall be void and all wagers shall be returned. A new round shall commence after the entire set of cards has been replaced and the new set of cards have been placed in the dealing shoe.

§ 631a.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Curator—The player who accepts the dealing shoe and who is responsible for dealing the cards in accordance with this chapter and the instructions of the dealer calling the game.

Dragon 7—A Banker's Hand which has a Point Count of 7 with a total of three cards dealt and the Player's Hand which has a Point Count of less than 7.

Natural—A hand which has a Point Count of 8 or 9 on the first two cards dealt.

§ 631a.2. Baccarat table physical characteristics.

(a) Baccarat shall be played on a table having numbered positions for 10 to 14 seated players.

(b) The layout for a Baccarat table shall be approved by the Bureau of Gaming Operations and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) Separate areas designated for the placement of wagers on the Banker's Hand, Players Hand and Tie Hand.
- (3) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds shall be posted at each Baccarat table.
- (4) An area designated for the placement of cards for the Player's Hand and Banker's Hand.
- (5) If a certificate holder offers the Dragon Bonus Wager, separate areas designated for the placement of the Dragon Bonus Wager for each player.
- (6) If a certificate holder offers EZ Baccarat:
 - (i) Separate areas designated for the placement of the Dragon 7 Insurance Wager for each player.
 - (ii) Inscriptions that advise patrons that a wager on the Banker's Hand that results in a Dragon 7 shall tie and be returned to the player.
- (7) Numbered areas that correspond to the seat numbers for the purpose of marking vigorish unless the dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), collects the vigorish from a player at the time the winning payout is made or the table is designated for play as an EZ Baccarat table in which vigorish is not collected.

(c) If marker buttons are used for the purpose of marking vigorish, the marker buttons shall be placed in the table inventory float container or in a separate rack designed for the purpose of storing marker buttons. If a separate rack is used, the rack shall be placed in front of the table inventory float container during gaming activity.

(d) Each Baccarat table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, in locations approved by the Bureau of Casino Compliance. The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each Baccarat table must have a discard bucket on dealer's side of the table in a location approved by the Bureau of Casino Compliance.

§ 631a.3. Cards; number of decks.

(a) Baccarat shall be played with six to eight decks of cards that are identical in appearance and two cover cards.

(b) The decks of cards opened for use at a Baccarat table shall be changed after the play of each shoe.

§ 631a.4. Opening of a table for gaming.

(a) Except as provided in subsection (d), after receiving six or more decks of cards at the table, the dealer calling the game shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked.

(d) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(c) do not apply.

§ 631a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), one or more of the dealers shall wash and stack the cards, after which each of the dealers shall shuffle the stack of cards independently.

(b) After shuffling the cards and, when applicable, reshuffling them, the dealer calling the game shall offer the stack of cards, with backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table or, in the case of a reshuffle, the last curator and working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut by the next person entitled to cut the cards, as determined by subsection (b).

(f) Prior to commencement of play, the dealer shall remove the first card from the dealing shoe and place it, and an additional number of cards equal to the face value of the first card drawn, in the discard bucket after all cards have been shown to the players. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

§ 631a.6. Value of cards; point count of hand.

(a) The value of the cards in each deck shall be as follows:

- (1) Any card from 2 to 9 shall have its face value.
- (2) Any 10, jack, queen or king shall have a value of zero.
- (3) Any ace shall have a value of one.

(b) The Point Count of a hand shall be a single digit number from 0 to 9 and be determined by totaling the value of the cards in the hand. If the total value of the cards in a hand is a two-digit number, the left digit of the

number shall be discarded and the right digit shall constitute the Point Count of the hand. Examples of this rule are as follows:

(1) A hand composed of an ace, 2 and 4 has a Point Count of 7.

(2) A hand composed of an ace, 2 and 9 has a total value of 12 but a Point Count of only 2 since the left digit in the number 12 is discarded.

§ 631a.7. Dealing shoe; selection of the player to deal cards.

(a) Cards used to play Baccarat shall be dealt from a manual dealing shoe specifically designed for that purpose.

(b) After the cards have been shuffled and placed in the dealing shoe, the dealer calling the game shall offer the dealing shoe to the player in seat number one at the table. If that player rejects the dealing shoe or if there is no one in seat number one, the dealer shall offer the dealing shoe to each of the other players in turn counterclockwise around the table until one of the players accepts the dealing shoe.

(c) The player that accepts the dealing shoe shall be designated as the curator.

(d) Notwithstanding subsections (b) and (c), the dealer may act as the curator if either:

(1) A player who accepts the dealing shoe and any other player to whom the dealing shoe is relinquished under § 631a.14 (relating to continuation of curator as dealer; selection of a new curator) designates the dealer calling the game as the curator.

(2) No player to whom the dealing shoe is offered accepts the dealing shoe.

Except as provided in subsection (d), after the cards are dealt to each hand, the dealer calling the game shall place the cards face up in front of himself. Any third cards that are required to be

dealt shall first be dealt face up to the Player's Hand and then to the Banker's Hand by the curator.

(d) A certificate holder may, in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), elect to use the following procedures in lieu of the procedures in subsection (c) and § 631a.10(a) (relating to procedure for dealing a third card), after all four cards have been dealt:

(1) The curator shall place the Banker's Hand underneath the right corner of the dealing shoe.

(2) The dealer calling the game shall then hand the two cards of the Player's Hand, face down, to the player with the highest wager on the Player's Hand. After viewing the Player's Hand, the player shall return the two cards, face up, to the dealer calling the game who shall place the cards face up on the area of the layout designated for the Player's Hand and announce the Point Count of the Player's Hand.

(3) The dealer calling the game shall then hand the two cards of the Banker's Hand, face down, to the player with the highest wager on the Banker's Hand. (e) The dealer or floorperson assigned to the table may require any player to relinquish the right to turn over the

cards in accordance with subsection (d) if the player unreasonably delays the game or violates either the act or this part. If the voluntary or compulsory relinquishment of that right occurs, the dealer shall offer it to the player immediately to the right of the previous player and, if he does not accept it or there is no player in that position, the dealer shall offer it to each of the other players in turn counterclockwise around the table for the remainder of that round of play. If no player accepts the cards, the dealer shall turn the cards over and place them on the designated areas of the layout.

§ 631a.10. Procedure for dealing a third card.

(a) Except as provided in § 631a.9(d) (relating to hands of player and banker; procedure for dealing initial two cards to each hand), after the initial four cards have been dealt and the dealer calling the game places the cards face up in front of himself, the dealer calling the game shall announce the Point Count of the Player's Hand and the Banker's Hand.

(b) Following the announcement of the Point Counts of each hand, the dealer calling the game shall instruct the curator whether to deal a third card to either or both hands in conformity with § 631a.11 (relating to rules for determining whether a third card shall be dealt). Any third cards required to be dealt shall be dealt as provided in § 631a.9(c) or (d).

(c) In no event may more than one additional card be dealt to either hand.

(d) When the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. Upon completion of that hand, the dealer calling the game shall announce "last hand." At the completion of one more hand, the cards shall be replaced with new decks of cards.

§ 631a.11. Rules for determining whether a third card shall be dealt.

(a) If the Player's Hand or the Banker's Hand is a Natural, no more cards may be dealt to either hand.

(b) If the Point Count of the Player's Hand and the Banker's Hand is 0 to 7 on the first two cards, the Player's Hand shall:

(1) Draw (take a third card) if the Player's Hand has a Point Count of less than 6.

(2) Stay (not take a third card) if the Player's Hand has a Point Count of 6 or more.

(c) If the Point Count of the Player's Hand and the Banker's Hand is 0 to 7 on the first two cards, the Banker's Hand shall draw or stay in accordance with the following requirements:

(1) If the Player's Hand does not receive a third card, the Banker's Hand shall be dealt a third card if the Point Count of the Banker's Hand is 5 or less.

(2) If the Player's Hand is dealt a third card and:

(i) The Banker's Hand has a Point Count of less than 3, the Banker's Hand shall be dealt a third card.

(ii) The Banker's Hand has a Point Count of 7, the Banker's Hand may not be dealt a third card.

(iii) The Banker's Hand has a Point Count of 3, 4, 5 or 6, the Banker's Hand shall be dealt or not dealt a third card in accordance with Table 1 as follows:

Table 1

Point Count of Banker's Hand After Two Cards	Value of the Third Card Drawn by Player's Hand									
	0	1	2	3	4	5	6	7	8	9
3	D	D	D	D	D	D	D	D	S	D
4	S	S	D	D	D	D	D	D	S	S
5	S	S	S	S	D	D	D	D	S	S
6	S	S	S	S	S	S	D	D	S	S

(d) In Table 1, the first vertical column labeled "Point Count of Banker's Hand" refers to the Point Count of the Banker's Hand after the first two cards have been dealt to the Banker's Hand.

(e) In Table 1, the first horizontal row at the top labeled "Value of the Third Card Drawn by Player's Hand" refers to the value of the third card drawn by the Player's Hand, not the Point Count of the Player's Hand.

(f) In Table 1, the letter "D" means that the Banker's Hand must draw a third card and the letter "S" means that the Banker's Hand must stay.

(g) To use Table 1, first find the Point Count of the Banker's Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player's Hand. The symbol located where the intersection occurs determines whether the Banker's Hand must draw a third card or stay. For example, if the Point Count of the Banker's Hand after two cards is 5 and the value of the third card drawn by the Player's Hand is 4, the table shows that the Banker's Hand must draw a third card.

§ 631a.12. Announcement of result of round; payment and collection of wagers.

(a) After each hand has received all the cards to which it is entitled under §§ 631a.9, 631a.10 and 631a.11 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer calling the game shall announce the final Point Count of each hand indicating which hand has won the round. If the two hands have equal Point Counts, the dealer shall announce "tie hand." If the table is designated for play as an EZ Baccarat table and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7, the dealer shall announce "Dragon 7."

(b) After the result of the round is announced, the dealer or dealers responsible for the wagers on the table shall first collect each losing wager. After the losing wagers are collected, the dealer or dealers responsible for the wagers on the table shall, starting at the highest numbered player position at which a winning wager is located, pay that player's winning wager and immediately thereafter mark or collect the vigorish owed by that player unless the table is designated for play as an EZ Baccarat table in which vigorish is not collected. The dealer shall then proceed in descending order to the next highest numbered player position at which a winning wager is located and repeat this procedure until each winning wager is paid and the vigorish owed by each player, if any, is either marked or collected.

(c) At the conclusion of a round of play, all cards on the layout shall be picked up by the dealer and placed in the discard bucket.

§ 631a.13. Payout odds; vigorish.

(a) A winning wager made on the Player's Hand shall be paid at odds of 1 to 1.

(b) A winning Tie Wager shall be paid at odds of at least 8 to 1.

(c) Except as provided in subsection (h), a winning wager made on the Banker's Hand shall be paid at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to either 4% or 5% of the amount won, as specified in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), unless the certificate holder is offering EZ Baccarat in which vigorish is not collected.

(d) If a certificate holder offers the Dragon Bonus Wager, a vigorish may not be extracted on a winning Dragon Bonus Wager. Winning Dragon Bonus Wagers shall be paid out at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

<i>Hand</i>	<i>Paytable A</i>	<i>Paytable B</i>	<i>Paytable C</i>
Win by 9 Points	30 to 1	20 to 1	30 to 1
Win by 8 Points	10 to 1	8 to 1	10 to 1
Win by 7 Points	6 to 1	7 to 1	4 to 1
Win by 6 Points	4 to 1	4 to 1	4 to 1
Win by 5 Points	2 to 1	3 to 1	2 to 1
Win by 4 Points	1 to 1	1 to 1	2 to 1
Natural winner	1 to 1	1 to 1	1 to 1
Natural Tie	Push	Push	Push

(e) A winning Dragon 7 Insurance Wager shall be paid out at odds of 40 to 1.

(f) When collecting the vigorish, the certificate holder may round off the vigorish to 25 cents or the next highest multiple of 25 cents.

(g) A dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2, may collect the vigorish from a player at the time the winning payout is made or may defer the collection of the vigorish to a later time provided, however, that outstanding vigorish shall be collected prior to beginning play with a new dealing shoe of cards or when the player leaves the gaming table, whichever occurs first. The amount of any vigorish not collected at the time of the winning payout shall be tracked by placing a coin or marker button containing the amount of the vigorish owed in a rectangular space in front of the dealer on the layout imprinted

with the number of the player owing the vigorish. The coin or marker button may not be removed from the layout until the vigorish owed is collected.

(h) A certificate holder may, if specified in its Rules Submission under § 601a.2, elect to charge every player at a Baccarat table a vigorish up to 25% of the player's wager on the Banker's Hand if the Point Counts of the Banker's Hand and the Player's Hand are equal, unless the certificate holder is offering EZ Baccarat in which vigorish is not collected. The vigorish authorized by this subsection shall be collected at the end of the round of play and prior to any cards being dealt for the next round of play. If a certificate holder elects to charge the vigorish authorized by this subsection, the vigorish otherwise required by subsection (c) may not be collected.

(i) The type and percentage of vigorish charged at a Baccarat table shall apply to all players at that table. The same type and percentage of vigorish shall be used for all Baccarat tables located within a licensed facility.

§ 631a.14. Continuation of curator as dealer; selection of a new curator.

(a) The curator, after any round of play, may either pass the dealing shoe or remain as curator except that:

(1) The curator shall pass the dealing shoe whenever the Banker's Hand loses.

(2) The dealer calling the game or a floorperson or above may order the curator to pass the dealing shoe if the curator unreasonably delays the game, repeatedly makes invalid deals or violates either the act or this part.

(b) When a voluntary or compulsory relinquishment of the dealing shoe occurs, the dealer shall offer the dealing shoe to the player immediately to the right of the previous curator and, if that player does not accept the dealing shoe or there is no player in that position, the dealer shall offer the dealing shoe to each of the other players in turn counterclockwise around the table. The first player to accept the dealing shoe when offered shall become the new curator.

§ 631a.15. Irregularities.

(a) A card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

(b) A third card dealt to the Player's Hand that is not disclosed when no third card is authorized under § 631a.11 (relating to rules for determining whether a third card shall be dealt) shall become the third card of the Banker's Hand if the Banker's Hand is required to draw under § 631a.11(c). If the Banker's Hand is required to stay, the card dealt in error shall become the first card of the next hand.

(c) If a card dealt in error under the circumstances in subsection (a) or (b) is disclosed at the time it is dealt or a card is found face up in the dealing shoe, the dealer calling the game shall, in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Place the disclosed card and an additional number of cards equal to the face value of the disclosed card from the dealing shoe in the discard bucket without disclosing the additional cards.

(2) Use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with the rules of this chapter and be placed in the discard bucket upon completion of the dealing procedures.

(d) If there are insufficient cards remaining in the dealing shoe to complete a round of play, that round shall be void and all wagers shall be returned. A new round shall commence after the entire set of cards has been replaced and the new set of cards have been placed in the dealing shoe.

The permit requires no other numeric effluent limitations and compliance with the Pennsylvania Nutrient Management Act and the Clean Stream Law constitutes compliance with the state narrative water quality standards.

In addition to the effluent limits, the permit contains the following major special conditions.

1. Compliance with the farm's Nutrient Management Plan
2. Compliance with the farm's Preparedness, Prevention and Contingency Plan

Both Operators shall fully implement the Country View Family Farms, LLC Nutrient Management Plan approved on December 6, 2010. When an amended Nutrient Management Plan is approved by the Bradford County Conservation District or State Conservation Commission, both Operators shall fully implement the amended Nutrient Management Plan.

B. AEU Expansion

The expansion of this CAFO farm from 1319 AEU's to 2735.95 AEU's is contingent upon all proposed manure storage facilities being constructed before populating the barns with additional animals. The proposed facilities are those discussed in the operation's Nutrient Management Plan approved on December 6, 2010 and those facilities authorized for construction in a state Water Quality Management Permit.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment notice receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a

summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northeast Region: Eric Supey, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915.

Gudz Estate, 206 N. 14th Street, Easton City, **Northampton County**. The applicant proposes to remediate the site to meet the Residential Statewide Health Standard for soil. A summary of the Notice of Intent to Remediate is expected to be published in a local newspaper serving the general area sometime in the near future.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

In accordance with 25 Pa. Code § 127.45, a person may oppose the proposed plan approval by filing a written protest with the Department's Northwest Region.

If a plan approval has not undergone the above public notice process the change to an operating permit must be treated as a significant modification. In these situations the Department should follow the procedures described in §§ 127.421 to 127.431 for state only operating permits or §§ 127.521 to 127.524 for Title V operating permits.

The plan approval is for the construction of two CFB boilers operating in parallel with a net generating capacity of 90 megawatts. Other air emission sources at the facility include a totally-enclosed tire shredding and preparation area and material handling operations such as TDF conveyance; limestone, sand, ash & lime storage & handling; anhydrous ammonia handling; wire/metals. Sources also include roadways and a diesel fire pump. Control technology for each CFB will be a TurboSorp scrubber for SOx control (Best Available Control Technology (BACT) and Best Available Technology (BAT)), fabric filter for PM10 & PM2.5 control (BACT and BAT), a Regenerative Selective Catalytic Reduction (RSCR) system for NOx control (Lowest Achievable Emission Rate (LAER), BACT and BAT) and energy efficiency for greenhouse gas (GHG) control (BACT and BAT). Best available technology for other sources will be the control of emissions through inherent low-emitting designs, bin vents filters, or good operating practices.

This construction will result in facility emissions of less than 854,324 tpy of CO2(e), 691 tpy of CO, 0.034 tpy of lead, 27.7 tpy of VOC, 143 tpy of SOx, 253 tpy of NOx, 53.1 tpy of PM2.5, 99.3 tpy of PM10, 9.9 tpy of a single HAP, and 24.9 tpy of all HAPs combined. Dispersion modeling was conducted for the proposed CRE facility with representative emission source data, terrain data, and meteorological data. The impacts of the emissions of carbon monoxide, nitrogen dioxide, particulate matter less than 2.5 micrometers, particulate matter less than 10 micrometers, and sulfur dioxide from the proposed facility are estimated by modeling to be less than the significant impact levels established by the U.S. EPA; therefore, it is estimated by modeling that these emissions from the proposed facility will not cause or significantly contribute to air pollution in violation of the National Ambient Air Quality Standards or PSD increment standards.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accord-

ance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapters 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*		greater than 6.0; less than 9.0	
pH*			

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Pro-

gram Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. As proposed, the restoration of the stream channel section, shall include but not be limited to, construction of a temporary rock construction access along the stream left and right over-bank, complete removal of the 12-foot (wide) by 18-foot (long) concrete slab, and stabilization of stream bank along both stream banks that were affected by the concrete road section. Construction of the temporary access road shall be with clean AASHTO rock with minimal Number 1 gradation. Upon completion of the concrete slab removal, the temporary construction access road shall be completely removed with the area graded, scarified, and vegetative cover established to good condition. The concrete slab road section shall be completely removed from the stream channel, floodway and floodplain. Removal of the slab shall be completed in dry work conditions by dam and pumping, fluming or diverting stream flow around the work area. The concrete slab and its encased pipes shall be properly disposed. Since Jack Dents Branch is both a wild trout and stock trout fishery, no in-stream activity shall be conducted in or along the stream channel between October 1 to December 31 and March 1 to June 15 without prior written approval from the Pennsylvania Fish and Boat Commission. As proposed, the project poses no impact to wetlands in restoring 20-feet of the natural channel cross-section. The project is located along the northern right-of-way of Jack Dent Road, approximately 1.8-miles east of Medix Grade Road and Jack Dent Road intersection.

EA17-009. Lawrence Township, P. O. Box 508, Clearfield, PA 16803. Montgomery Creek 52A Acid Mine Drainage Treatment System, Lawrence Township, **Clearfield County**, ACOE Baltimore District

The applicant proposes to treat Acid Mine Drainage (AMD) from several sources along an unnamed tributary of Montgomery Creek (Cold Water and Migratory Fishery). Montgomery Creek, in this location, is impaired due to low pH and high metals. The AMD originates from the abandoned strip mines upgradient of the area. As proposed, the treatment system will consist of a limestone cell, two bioreactors, two settling basins, and two small anoxic limestone drains. Topographical constraints will only allow treatment of approximately 75% of the average daily flow. Analytical data of the seeps show that the combined discharges contribute approximately 18.3 lbs/day of acidity, 12.7 lbs/day of iron, and 9.5 lbs/day of aluminum to Montgomery Creek. The project is anticipated to result in downstream water quality improvements by reducing acidity, iron, and aluminum loadings. The system is designed to discharge water that is net alkaline, have a pH greater than 6.5, and iron and aluminum concentrations of less than milligram per liter. A 0.1707 acre wetland will be permanently impacted during the construction of the limestone cell. The current AMD drainage channel will be altered by the treatment system and three outfalls will be placed along the UNT to Montgomery Creek. The total impact to the channels is estimated to be 720.44 feet. There will be approximately 6.24 acres of total earth disturbance, which includes the construction spoil and borrow areas. Onsite wetland mitigation is not proposed due to space and topographical constraints. Instead, a \$1,000 contribution to the Pennsylvania Wetland Replacement Fund is proposed. Mitigation for the stream channel impact is improved water quality

downstream of the treatment system. The applicant is requesting Waiver 16 under Chapter 105.12 of Dam Safety and Waterway Management. (Clearfield, PA Quadrangle Latitude: 41° 1' 29.4"; Longitude: 78° 29' 3.1").

Project proposes to breach and remove Duck Marsh Pond No. 26 dam and an unnamed dam across a tributary to Mosquito Creek (HQ-CWF) for the purpose of eliminating a threat to public safety and restoring the stream to a free flowing condition. The project will restore approximately 2800 feet of stream channel. The dams are located approximately 1.5 miles southeast of the intersection of the Quehanna Highway (SR 2004) and Ardell Road. (The Knobs, PA Quadrangle; Latitude: 41° 14' 03", Longitude: -78° 19' 36").

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard se-

lected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water

Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

SPECIAL NOTICES

**CERTIFIED EMISSION REDUCTION CREDITS IN
 PENNSYLVANIA'S ERC REGISTRY**

Emission reduction credits (ERCs) are surplus, permanent, quantified and federally enforceable emission reductions used to offset emission increases of oxides of nitrogen (NOx), volatile organic compounds (VOCs) and

the following criteria pollutants: carbon monoxide (CO), lead (Pb), oxides of sulfur (SOx), particulate matter (PM), PM-10 and PM-10 precursors.

The Pennsylvania Department of Environmental Protection (PADEP) maintains an ERC registry in accordance with the requirements of 25 Pa. Code § 127.209. The ERC registry system provides for the tracking of the creation, transfer and use of ERCs. Prior to registration

of the credits, ERC Registry Applications are reviewed and approved by the Department to confirm that the ERCs meet the requirements of 25 Pa. Code §§ 127.206—127.208. Registration of the credits in the ERC registry system constitutes certification that the ERCs satisfy applicable requirements and that the credits are available for use. The following registered and certified ERCs in the ERC Registry are currently available for use as follows:

- (1) To satisfy new source review (NSR) emission offset ratio requirements;
- (2) To “net-out” of NSR at ERC-generating facilities;
- (3) To sell or trade the ERCs for use as emission offsets at new or modified facilities.

The certified ERCs shown below, expressed in tons per year (tpy), satisfy the applicable ERC requirements contained in 25 Pa. Code §§ 127.206—127.208. ERCs created

from the curtailment or shutdown of a source or facility expires for use as offsets 10 years after the emission reduction occurs. ERCs generated by the over control of emissions by an existing facility do not expire for use as offsets. However, credits in the registry that are not used in a plan approval will be discounted if new air quality requirements are adopted by the Department or U.S. Environmental Protection Agency (EPA).

For additional information concerning this listing of certified ERCs, contact the Bureau of Air Quality, Division of Permits, Department of Environmental Protection, 12th Floor, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-4325. This Pennsylvania ERC registry report, ERC Registry application and instructions are located at www.depweb.state.pa.us, select Air, Bureau of Air Quality, Permits, Emission Reduction Credits.

Request for Comments on the Proposed Total Maximum Daily Loads (TMDLs) Developed for the Plum Run Watershed in Adams County Pennsylvania

The Department of Environmental Protection will accept comments on the proposed TMDLs developed for the Plum Run Watershed in Adams County, PA. These TMDLs were established in accordance with the requirements of Section 303(d) of the Clean Water Act. The Pennsylvania Integrated Water Quality Monitoring and Assessment Report included impaired stream segments in this watershed. The listings of these waterbodies were due to use impairments caused by excessive siltation from agriculture.

There currently are no state or federal instream numerical water quality criteria for siltation. Therefore, the Department utilized a reference watershed approach to implement the applicable narrative criteria. These proposed TMDLs set allowable loadings of sediment in the Plum Run Watershed. The sediment loadings were allocated among cropland, hay/pasture land, transitional land and stream bank categories present in the watershed. Data used in establishing these TMDLs was generated using a water quality analysis model (AVGWLF) designed by the Pennsylvania State University.

The following table shows the estimated current sediment loadings for the watershed. Overall load reductions necessary in order to meet the TMDLs are also identified.

Summary of TMDL Based Load Reductions in the Plum Run Watershed

POLLUTANT	EXISTING LOAD (lbs./yr.)	EXISTING LOAD (lbs./day)	TMDL (lbs./yr.)	TMDL (lbs./day)	PERCENT REDUCTION
Sediment	1,511,400	4,141	1,140,374	3,124	25%

The data and all supporting documentation used to develop the proposed TMDLs are available from the Department. The proposed TMDLs and information on the TMDL program can be viewed on the Department's website (www.dep.state.pa.us/watermanagement_apps/tmdl/). To request a copy of any of the proposed TMDLs contact:

Gary M. Gocek, Water Program Specialist
Watershed Protection Division, Central Office
Pennsylvania Department of Environmental Protection
Rachel Carson State Office Building
Harrisburg, PA 17105
Phone: 717-772-1674, e-mail: ggocek@state.pa.us

The Department will consider all comments in developing the final TMDLs, which will be submitted to EPA for approval. Written comments will be accepted at the above address and must be postmarked by 45 days after publication in the *PA Bulletin*. A public meeting to discuss the technical merits of the TMDLs will be held upon request.

DEPARTMENT OF PUBLIC WELFARE

Discontinuance of Disproportionate Share Hospital Payments

The Department of Public Welfare (Department) is announcing its intent to discontinue five classes of disproportionate share hospital (DSH) payments for Fiscal Year (FY) 2011-2012 because funding for these DSH payments has not been included in the Commonwealth's proposed 2011-2012 budget. These five classes of DSH payments are discretionary payments made to hospitals by the Department.

The five DSH payments proposed to be discontinued are:

- (1) DSH payments to certain qualifying hospitals based on obstetrical and neonatal intensive care cases.
- (2) DSH payments to certain qualifying Medical Assistance enrolled acute care general hospital burn centers.
- (3) DSH payments to qualifying hospitals based on the designation as a Critical Access Hospital or as a qualifying rural hospital.

Discontinuance of the Hospital Quality Incentive Pilot Program and the Hospital Quality Care Investment Grant Program

The Department of Public Welfare (Department) is announcing its intent to discontinue the Hospital Quality Incentive Pilot Program (Pilot Program) and Hospital Quality Care Investment Grant Program (Grant Program). The Pilot Program was established to provide and reward a hospital's performance on various quality related measures. More specifically, the Department provided for incremental adjustments to the scheduled increases to be applied to inpatient disproportionate share hospital and Direct Medical Education payments based on the hospital's performance on these quality measures. Through an application process, the Grant Program provided an incentive for acute care general hospitals to initiate quality improvement projects by offsetting some of the costs related to the implementation of the project.

The Commonwealth's budget in Fiscal Year (FY) 2010-2011 did not provide funding for the Pilot Program and funding is not included in the Commonwealth's proposed

2011-2012 budget. Additionally, the Commonwealth's budget in FY 2010-2011 did not provide funding for the Grant Program and funding is not included in the Commonwealth's proposed FY 2011-2012 budget.

Fiscal Impact

The FY 2010-2011 fiscal impact, as a result of discontinuing the Pilot Program the Grant Program is a savings of \$2.254 million (\$1.000 million in State General Funds and \$1.254 million in Federal Funds upon approval by the Centers for Medicare and Medicaid Services).

The FY 2011-2012 fiscal impact, as a result of discontinuing the Pilot Program and the Grant Program is a savings of \$2.226 million (\$1.000 million in State General Funds and \$1.226 million in Federal Funds upon approval by the Centers for Medicare and Medicaid Services).

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Public Welfare, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Acting Secretary

Fiscal Note: 14-NOT-706. No fiscal impact; (8) recommends adoption.

B. Additional Disproportionate Share Payments

Additional disproportionate share payments are made to inpatient facilities, with a Medicaid inpatient utilization rate of not less than 1%, which have provided services to persons who have been determined to be low income by meeting the income and resource standards for the State's General Assistance Program.

The payment adjustments are paid directly proportional to the payment received for either general assistance recipients for all hospital services or Title XIX recipients, 21 years of age or older but under 65 years of age, for services rendered by institutions for mental diseases under the fee-for-service and capitation programs.

The following hospitals are eligible for this payment adjustment:

C. Additional Class of Disproportionate Share Payments

Effective March 1, 1998, the Department established a new class of disproportionate share payments to hospitals which render uncompensated care and which the Department has determined are experiencing significant revenue loss as a result of MA program revisions under the act of May 16, 1996 (P. L. 175, No. 35).

Effective January 15, 1999, the Department established a new class of disproportionate share payments to include a Charity Care component of the Community Access Fund. A disproportionate share payment will be made to qualifying hospitals based on each hospital's percentage of charity care cost to the total charity care costs of all qualifying hospitals. The Department also established a disproportionate share payment for those hospitals which the Department has determined advanced its goal of enhanced access to multiple types of medical care in economically distressed areas of this Commonwealth.

The following hospitals qualify for this payment:

Medical Assistance Program Fee Schedule for Consolidated and Person/Family Directed Support Waiver-Funded Select Services, Targeted Service Management and Community Mental Retardation Base-Funded Program

The Department of Public Welfare (Department) announces the proposed payment rates for select services funded through the Consolidated and Person/Family Directed Support waivers (waivers) and Targeted Service Management (TSM) to the Medical Assistance (MA) Program Fee Schedule effective July 1, 2011. These proposed fee schedule payment rates also serve as the Department's established fees under 55 Pa. Code § 4300.115(a) (relating to Department established fees) for base-funded services managed through county programs for individuals with mental retardation under the Mental Health and Mental Retardation Act of 1966 (50 P. S. §§ 4104—4704) and 55 Pa. Code Chapter 4300 (relating to county mental health and mental retardation fiscal manual).

As part of the Department's efforts to continue to align rates and rate-setting methodology across all offices and programs, the Department used a market-based approach to develop the fee schedule rates. This process includes a review of the service definitions and a determination of allowable cost components which reflect costs that are reasonable, necessary and related to the delivery of the service.

In developing rates for each of the MA fee schedule services, the Department evaluated independent data sources such as a Commonwealth-specific compensation study and data from approved cost reports, as applicable, and considered the expected expenses for the delivery of services under the waivers for the following major allowable cost categories:

- Wages for direct care workers and other program staff, such as supervisors and program specialists, when applicable.
- Employee-related expenses related to health insurance and other benefits, employer taxes, paid time off and training time.
- Productivity related to the amount of time a direct care staff person is expected to be engaged in activities for which a claim can be submitted.
- Program indirect expenses, including transportation-related costs.
- Administration-related expenses.

The Department established a Statewide MA fee schedule rate for each service and adjusted each fee schedule rate by geographical area factors to reflect consideration for differences in wages observed across this Commonwealth.

The fee schedule rates were established by the Department to fund the fee schedule services at a level sufficient to encourage provider participation and promote provider choice, while at the same time ensuring cost effectiveness and fiscal accountability.

The services selected for inclusion on the MA fee schedule are identified under the following categories: Select Community-Based Services; and Agency with Choice/Financial Management Services, with benefits and excluding Benefits.

All services that were placed on the MA fee schedule in Fiscal Year (FY) 2010-2011 will remain on the MA fee schedule for FY 2011-2012. These services include Companion, Behavior Support, Therapy (Physical, Occupational, Speech and Language, Individual Behavior, Group Behavior and Visual/Mobility) Nursing, Home Finding, Homemaker/Chore, Supports Broker, Older Adult Day, Supplemental Habilitation and Additional Individualized Staffing.

The Department has identified the following new services to be placed on the MA fee schedule in FY 2011-2012, effective July 1, 2011: supports coordination, home and community habilitation unlicensed, licensed day habilitation (adult training), prevocational services, supported employment, transitional work and all waiver funded respite services, excluding respite camp which is a vendor service.

There is no cost of living adjustment applied to any of the proposed fee schedule rates for FY 2011-2012.

The proposed fee schedule rates are contingent on the final budget enacted by the General Assembly. The proposed fee schedule rates should be used to process claims submitted to the Provider Reimbursement and Operations Management Information System in electronic format (PROMISE™) for services provided during FY 2011-2012 until a notice announcing final fee schedule rates is published.

Medical Assistance Program Fee Schedule for Services in the Adult Autism Waiver

This notice announces the Department of Public Welfare's (Department) fees for certain services provided to Adult Autism Waiver participants effective July 1, 2011.

Rate-Setting Methodology

As part of the Department's efforts to continue to align rates and rate-setting methodology across all offices and programs, the Department used a market-based approach to develop the fee schedule rates. The Department reviewed the service definitions and determined the allow-

able cost components. The allowable cost components are the costs that are considered reasonable, necessary and related to the delivery of the service. Costs were determined by evaluating independent data sources (for example, Pennsylvania-specific compensation study) and considering expected expenses for the following major categories of allowable costs:

- Direct care worker wages and other program staff wages for supervisors and program specialists, when applicable.
- Employee-related expenses related to health insurance and other benefits, employer taxes, paid time off and training time.
- Productivity related to the amount of time a direct care staff person is expected to be engaged in direct service program activities.
- Program indirect expenses.
- Administration-related expenses.

The Department also considered provider participation and promotion of provider choice, while at the same time ensuring cost effectiveness and fiscal accountability when it developed the fee schedule rates.

The Department has made changes in the fees for the following services: Behavioral Specialist Plan Development; Behavioral Specialist-Ongoing; Community Inclusion; Day Habilitation Services; Family Counseling; Family Training; Job Assessment and Finding; Nutritional Consultation; Counseling; Occupational Therapy; Speech Therapy; Residential Habilitation Services; Respite Services; Supports Coordination-Plan Development; Supports Coordination-Ongoing; Supported Employment; Temporary Crisis Services; and Transitional Work Services.

Nursing Facility Assessment Program for Fiscal Year 2011-2012

This notice announces the proposed assessment amount, the proposed assessment methodology and the

estimated aggregate impact on nursing facilities that will be subject to the assessment under the Nursing Facility Assessment Program (Assessment Program) in Fiscal Year (FY) 2011-2012.

Background

Article VIII-A of the Public Welfare Code (code) authorizes the Department of Public Welfare (Department) to impose an annual monetary assessment on private and county nursing facilities in this Commonwealth each fiscal year through FY 2011-2012. See 62 P. S. §§ 801-A—815-A. Under Article VIII-A of the code, the Department may impose the assessment only to the extent that the assessment revenues qualify as the State share of Medical Assistance (MA) Program expenditures eligible for Federal financial participation (FFP). See 62 P. S. § 803-A. To ensure receipt of FFP, Article VIII-A requires the Department to seek a waiver from the Federal Centers for Medicare and Medicaid Services (CMS) if necessary to implement the Assessment Program. See 62 P. S. § 812-A. For FY 2011-2012, the Department submitted a request to CMS for an amendment to the Assessment Program. The implementation of the changes to the Assessment Program is contingent on CMS's approval of the request.

For each fiscal year that the Assessment Program is implemented, the code authorizes the Secretary of the Department (Secretary) to determine the aggregate amount of the assessment and the annual assessment rate in consultation with the Secretary of the Budget. See 62 P. S. § 804-A. The law specifies that annual assessment rates must be sufficient to generate at least \$50 million in additional revenue, but not more than the maximum aggregate assessment amount that qualifies for Federal matching funds. See 62 P. S. § 805-A.

The Secretary must publish a notice in the *Pennsylvania Bulletin* before imposing an annual assessment for a FY. The notice must specify the amount of the assessment being proposed, explain the proposed assessment methodology, identify the estimated assessment amount and aggregate impact on nursing facilities subject to the assessment and provide interested persons a 30-day period to comment. See 62 P. S. § 805-A.

This notice announces the assessment amounts, rates and methodology that the Department is proposing to implement in FY 2011-2012 and the estimated aggregate impact on nursing facilities that will be subject to the assessment in FY 2011-2012.

Proposed Assessment Methodology and Rates

During FY 2011-2012, the Department is proposing to maintain the same assessment methodology that was used in FY 2010-2011.

The following nursing facilities will continue to be exempt from the Assessment Program in FY 2011-2012:

- (1) State owned and operated nursing facilities.
- (2) Veteran's Administration nursing facilities.
- (3) Nursing facilities that have not been licensed and operated by the current or previous owner for the full calendar quarter prior to the calendar quarter in which an assessment is collected.
- (4) Nursing facilities that provide nursing facility services free of charge to all residents.

Under the proposed rate structure, the Department will assess nonexempt nursing facilities at two rates. One rate will apply to three categories of nursing facilities: county nursing facilities; nursing facilities that have 50 or fewer licensed beds; and grandfathered Continuing Care Retirement Community (CCRC) nursing facilities.¹ The other rate will apply to all other nonexempt facilities, including nursing facilities that began participation in a CCRC on or after July 1, 2010. Using the applicable rate, the Department will calculate each nonexempt facility's quarterly assessment amount by multiplying its assessment rate by the facility's non-Medicare resident days during the calendar quarter that immediately preceded the assessment quarter.

The Department also proposes to increase the assessment rates for nonexempt nursing facilities from the rates in FY 2010-2011. The proposed assessment rates for FY 2011-2012 are as follows:

- (1) For county nursing facilities, for nursing facilities that have 50 or fewer licensed beds, and for grandfathered CCRC nursing facilities, the assessment rate will be \$6.59 per non-Medicare resident day.
- (2) For all other nonexempt nursing facilities, the assessment rate will be \$28.04 per non-Medicare resident day.

Aggregate Assessment Amounts and Fiscal Impact

The Department estimates that if the proposed assessment rates are implemented the annual aggregate assessment fees for nonexempt nursing facilities will total \$434.130 million. The Department will use the State

¹ The Department will consider a nursing facility to be a grandfathered CCRC nursing facility if it meets either of the following:

(1) The nursing facility was assessed the CCRC assessment rate prior to July 1, 2010, and continues to qualify for the CCRC assessment rate under the guidelines under which it was approved for the CCRC rate.

(2) The nursing facility was not assessed at the CCRC assessment rate prior to July 1, 2010, but the nursing facility meets all of the following:

(i) The nursing facility submitted a request to the Department to be assessed at the CCRC rate on or before June 23, 2010.

(ii) The CCRC which controls or owns the nursing facility submitted an application for a certificate of authority (COA) to the Insurance Department on or before June 23, 2010.

(iii) The nursing facility demonstrates that the CCRC incurred significant costs prior to June 5, 2010, in pursuing certification as a CCRC. (Examples of significant costs include costs incurred to obtain plan or site reviews, an enforceable construction contract, lease, contract for consulting services, zoning and certificate of occupancy.)

(iv) The nursing facility qualifies for the CCRC rate under the criteria in effect for FY 2009-2010 published at 40 Pa.B. 767 (February 6, 2010).

(v) The CCRC receives a COA during FY 2010-2011.

A detailed explanation of a grandfathered CCRC nursing facility is contained in the notice published at 40 Pa.B. 7297 (December 18, 2010), which is available online at <http://www.pabulletin.com/secure/data/vol40/40-51/2417.html>

revenue derived from the assessment fees and any associated Federal matching funds to support payments to qualified MA nursing facility providers in accordance with applicable laws and regulations.

Payment for Nursing Facility Services Provided by County and Nonpublic Nursing Facilities; Notice of Change in Methods and Standards of Setting Payment Rates

The Department of Public Welfare (Department) is announcing its intent to revise the Medical Assistance (MA) payment methodology and standards for payment of MA nursing facility services in Fiscal Year (FY) 2011-2012 to authorize the continued use of a budget adjustment factor (BAF) in setting payment rates for nursing facility services.

Background

Since 1996, the Department has used a case-mix prospective payment methodology to set per diem rate payments for MA nursing facility providers. One of the reasons the Department adopted this payment methodology was that the prior retrospective cost-based payment system had proven to be "highly inflationary" and change was necessary to curb an "explosive growth of nursing facility expenditures." See 25 Pa.B. 4477 (October 14, 1995). In 2006, the Department noted that "[s]ince the case-mix payment system was implemented in 1996, MA nursing facility payment rates have risen more than 56% and, since 2000, have increased by 27.4% overall. During this same period, expenditures for MA nursing facility services have grown to nearly \$3 billion and expenditures for MA services to the elderly and disabled now consume approximately 70% of the \$14 billion MA Program budget." See 36 Pa.B. 3207 (June 24, 2006).

Realizing that the MA Program could not continue to sustain the pace at which long-term care expenditures were growing, the Department amended the Commonwealth's Title XIX State Plan and issued regulations changing the case-mix payment methodology effective

July 1, 2005 to include use of a BAF in annual rate-setting. See 35 Pa.B. 6232 (November 12, 2005). The next year, after engaging in an extensive public process, the Department took steps to continue the use of the BAF through FY 2007-2008. See 36 Pa.B. 3207.

The Department adopted use of a BAF to moderate or cap the rate at which nursing facility payment rates increase from one year to the next. The General Assembly endorsed this policy change and amended section 443.1(7)(i) and (iii) of the Public Welfare Code (62 P.S. § 443.1(7)(i) and (iii)) in 2007 (P.L. 49, No. 16, June 30, 2007) and again in 2008 (P.L. 557, No. 44, July 4, 2008) to mandate continued use of the BAF through FY 2010-2011, subject to approval by the Federal Centers for Medicare and Medicaid Services (CMS). Since the implementation of the BAF, case-mix per diem rates have increased on an annual average basis by \$4.60 per day and in the aggregate by 16.62% overall from FY 2004-2005 through FY 2010-2011. In contrast, had the BAF not been used, rates would have increased on an annual average basis by \$7.18 per day and overall by 25.93%, well in excess of either the Consumer Price Index or the CMS Nursing Home without Capital Market Basket Index.

Under section 443.1(7)(iii)(A) of the Public Welfare Code, the current statutory provision mandating use of the BAF expires June 30, 2011. Because it would be fiscally irresponsible to revert to a payment methodology that produces unsustainable rate increases, particularly given current economic conditions, the Department is proposing and expects that the General Assembly will enact legislation to mandate continued use of a BAF in FY 2011-2012, subject to CMS approval. Use of the BAF has assured, and will continue to assure, that payments to nursing facilities under the MA Program are consistent with efficiency and economy.

Further, during the past 5 years the BAF has been in place, the Department has uncovered no evidence that the quality of care in this Commonwealth MA nursing facilities has been adversely impacted by use of the BAF. To the contrary, MA nursing facility providers continue to deliver a high quality of care. The Department does not expect the quality of care to decline in FY 2011-2012, and will continue our enforcement and monitoring activities to ensure that is the case.

In addition, although the BAF has served to moderate the overall aggregate increases in case-mix per diem rates, the adjusted case-mix per diem rate payments, together with the other supplemental payments to nursing facilities authorized under the Commonwealth's approved State Plan, have been and will continue to be sufficient to assure that MA recipients have equal access to medically necessary nursing facility services. The vast majority of licensed nursing facilities in this Commonwealth participate as providers in the MA Program, and the MA Program pays for more days of nursing facility care than all other payors combined. The Department does not expect this to change if the BAF continues in FY 2011-2012.

Proposed BAF Methodology for FY 2011-2012

As previously noted, the Department intends to submit a State Plan Amendment (SPA) to CMS to continue use of the BAF. Under the proposed SPA, the Department will apply a BAF and make adjustments to nonpublic nursing facility and county payment rates in FY 2011-2012. As in prior years, the BAF will limit the estimated Statewide day-weighted average payment rate for MA nursing facility services for county and nonpublic nursing facilities so that the average payment rate in effect for the FY is

limited to the amount permitted by the funds appropriated by the General Appropriations Act for the FY. For nonpublic nursing facilities, however, the Department is proposing to change the manner in which the BAF is calculated.

Nonpublic Nursing Facilities

Since 2005, the Department calculated one BAF each rate-setting year, and applied that BAF to the nursing facility payment rates in effect for the rate-setting year. Instead of calculating one BAF for the FY, the nursing facility industry requested and the Department is proposing to calculate a BAF each quarter of FY 2011-2012 for nonpublic nursing facilities as follows.

Quarterly BAF Formula

Prior to establishing the MA nonpublic nursing facility quarterly rates for the 2011-2012 rate year, the Department will use the following formula to determine the Quarterly BAF:

Annual target rate divided by the weighted average quarterly rate at 100% equals the Quarterly BAF.

If the Quarterly BAF as calculated is greater than 1.0, the Quarterly BAF will equal 1.0.

Terms Related to the BAF Determination

The following words and terms, when used in the 2011-2012 BAF determination, have the following meaning, unless the context clearly indicates otherwise:

Annual per diem adjustment—The per diem amount of adjustment from the base rate allowed by the funds appropriated by the General Appropriations Act for the 2011-2012 rate year. The annual per diem adjustment is the annual target rate minus the base rate.

Annual target rate—The base rate multiplied by one plus the percentage rate of change permitted by the funds appropriated by the General Appropriations Act for the 2011-2012 rate year.

Base days—The source of days for the day-weighted calculation used in determining the base rate and the weighted-average quarterly rates at 100%. The base days are the sum of each nonpublic nursing facility's paid facility days, therapeutic leave days and 1/3 of the hospital bed reserve days from the PROMISE data file used to determine disproportionate share payments preceding the rate year used to determine the base rate.

Base rate—For fiscal year 2011-2012, the projected Statewide day-weighted average rate for fiscal year 2010-2011 based on the funds appropriated for fiscal year 2010-2011.

Quarterly BAF—The BAF applied to each nonpublic nursing facility's quarterly rate, as calculated for the quarter.

Weighted-average quarterly rate at 100%—The Statewide day-weighted average of the nonpublic nursing facilities' quarterly rates, as applicable, determined in accordance with 55 Pa. Code Chapter 1187 (relating to nursing facility services), calculated using base days, prior to application of a BAF.

County Nursing Facilities

Under the proposed SPA, the Department will continue to calculate and apply the BAF to county nursing facility payment rates as it has in prior rate-setting years. Specifically, the Department will adjust each county nursing facility's per diem rate by multiplying the rate by a BAF. A county nursing facility's per diem rate for an MA resident will be the facility's July 1, 2010, per diem rate as calculated under 55 Pa. Code Chapter 1189, Subchapter D (relating to rate setting) and 55 Pa. Code

§ 1189.91(b) (relating to per diem rates for county nursing facilities) multiplied by the county BAF.

Use of the calculations previously described is contingent upon the approval by CMS of the SPA.

Fiscal Impact

No fiscal impact is anticipated as a result of these changes through June 30, 2012. The amount of funding available for this program is dependent upon the funds appropriated by the General Assembly in the forthcoming fiscal year. Therefore, until a budget bill is passed and enacted, any estimated fiscal impact associated with this notice is solely based on the funding levels as proposed in the Governor's Executive Budget.

Public Comment

Interested persons are invited to submit written comments regarding the BAF formulas to the Department of Public Welfare/Department of Aging, Office of Long-Term Living, Bureau of Policy and Strategic Planning, Forum Place, 5th Floor, 555 Walnut Street, Attention: Marilyn Yocum, Harrisburg, PA 17101-1919. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

GARY D. ALEXANDER,
Acting Secretary

Fiscal Note: 14-NOT-707. Under the proposed State Plan Amendment, the Department of Public Welfare will apply a budget adjustment factor (BAF) and make adjustments to county and nonpublic nursing facility payment rates in 2011-12. The BAF shall limit the estimated statewide day-weighted average payment rate for medical assistance nursing facility services for county and nonpublic nursing facilities so that the average payment rate in effect for that fiscal year is limited to the amount permitted by the funds appropriated by the General Appropriations Act for the fiscal year. Until a budget bill is passed and an appropriation level set, we cannot estimate the fiscal impact associated with this notice. (8) recommends adoption.

Payment for Nursing Facility Services Provided by County Nursing Facilities; Medicaid Day One Incentive Payments to County Nursing Facilities for Fiscal Year 2011-2012

This announcement is to provide advance notice that the Department of Public Welfare (Department) intends to continue to make Medicaid Day One Incentive (MDOI) payments to qualified county nursing facilities through Fiscal Year (FY) 2011-2012.

Background

The Department instituted the MDOI payments in FY 2006-2007 to encourage county nursing facilities to continue to serve as safety net providers by giving them a financial incentive to provide services to individuals who are Medical Assistance (MA) eligible on the day of admission.

For FYs 2006-2007 through 2010-2011, the Department provided MDOI payments to qualified county nursing facilities. The qualifying criteria and formula used to

determine these payments, as set forth in the Commonwealth's approved State Plan, are as follows:

To qualify for MDOI payments, the nursing facility must be a county nursing facility both during the entire quarter for which the MDOI installment payment is being made and at the time the MDOI installment payment is made.

The Department will calculate each qualified county nursing facility's MDOI quarterly installment payment based on the following formula:

(i) The total funds allocated for the MDOI payments for the rate year will be divided by the total MA days for all county nursing facilities to determine the MDOI per diem for the rate year. The total MA days used for each county nursing facility will be the MA days identified on the most recent PROMISE data file used to determine the facility's eligibility for disproportionate share incentive payments.

(ii) The MDOI per diem for the rate year will be multiplied by each qualified county nursing facility's paid MA days identified on the most recent PROMISE data file used to determine eligibility for disproportionate share incentive payments, to determine its annual MDOI amount.

(iii) Each qualified county nursing facility's annual MDOI amount will be divided by four to determine the facility's MDOI quarterly installment payments for the rate year.

The MDOI installment payments for each quarter of the rate year will be paid in the first month of the following quarter.

For FY 2011-2012, the Department intends to use a portion of the revenues generated from the FY 2011-2012 Nursing Facility Assessment Program (the act of June 30, 2007 (P. L. 49, No. 16) and public expenditures certified by the Department as the State share of the MDOI payments to qualified county nursing facilities. To authorize the continuance of the MDOI payments for FY 2011-2012, and the increase in the funding level for the MDOI payments for FY 2011-2012, the Department will submit a State Plan Amendment (SPA) to the Federal Centers for Medicare and Medicaid Services (CMS).

If CMS approves the SPA the Department will have the authority to continue to make MDOI payments to county nursing facilities for FY 2011-2012 and increase the funding level for the MDOI for FY 2011-2012.

The MDOI payments to county nursing facilities will provide incentives to county nursing facilities to provide services to individuals who are MA eligible on the day of admission. Nursing facilities are often reluctant to admit residents whose only source of coverage for nursing facility services is MA. County nursing facilities have traditionally acted as the safety net for those residents who have been denied admission to other nursing facilities. The MDOI payments are intended to assure that county nursing facilities continue to provide access to care for these individuals.

Fiscal Impact

The estimated increase in annual aggregate expenditures during FY 2011-2012 is \$20.575 million in State funds.

Payments to Nonpublic and County Nursing Facilities; Proposed Rates for State Fiscal Year 2011-2012

This notice announces the Department of Public Welfare's (Department) proposed annual case-mix per diem payment rates for State Fiscal Year (FY) 2011-2012 for nonpublic and county nursing facilities that participate in the Medical Assistance (MA) Program.

Nonpublic Nursing Facility Per Diem Rates

As required by the case-mix payment methodology set forth in 55 Pa. Code Chapter 1187, Subchapter G (relating to rate setting), the Department intends to set an annual MA per diem rate for each nonpublic nursing facility provider. Each facility's annual per diem rate will have four components: resident care, other resident related, administrative and capital. For each quarter of FY 2011-2012, the Department will adjust the resident care component of each facility's rate by multiplying the resident care cost component by the facility's MA case-mix index for the appropriate picture date.

In calculating the proposed rates, the Department assumed that peer group prices for FY 2011-2012 will be set as specified in 55 Pa. Code § 1187.94(1)(v) (relating to peer grouping for price setting), which provides for a 3-year phase-out of the use of county nursing facility costs in computing nonpublic nursing facility rates. Under § 1187.94(1)(v), the phase-out median used to establish peer group prices for rate year 2011-2012 will equal 25% of the interim median plus 75% of the median calculated in accordance with 55 Pa. Code § 1187.96 (relating to price- and rate-setting computations).

Further, in computing the resident care cost component of the proposed rates, the Department assumed that the changes described in the proposed rulemaking, Transition to RUG-III Version 5.12 and Latest Assessment published at 40 Pa.B. 6525 (November 13, 2010), will be adopted. Under those rules, each nursing facility will receive a blended resident care rate for FY 2011-2012 which equals 50% of the nursing facility's RUG v. 5.01 resident care rate from the prior rate quarter adjusted by the percent increase or decrease in the RUG v. 5.12 resident care rate and 50% of the nursing facility's RUG v 5.12 resident care rate.

Finally, in calculating the proposed rates, the Department assumed that the General Assembly will enact legislation, and the Centers for Medicare and Medicaid Services (CMS) will approve a State Plan Amendment (SPA) authorizing the continued use of a "budget adjustment factor" (BAF) in setting MA nursing facility payment rates for FY 2011-2012. A detailed description of the proposed BAF formulas for FY 2011-2012 is contained in the Payment for Nursing Facility Services Provided by County and Nonpublic Nursing Facilities; Notice of Change in Methods and Standards of Setting Payment Rates notice published at 41 Pa.B. 3303 (June 25, 2011), which is available online at <http://www.pabulletin.com/secure/data/vol41/41-26/index.html>. Under that proposed formula, the BAF will limit the estimated Statewide day-weighted average payment rate for MA nursing facility services for county and nonpublic nursing facilities so that the average payment rate in effect for the FY is limited to the amount permitted by the funds appropriated by the General Appropriations Act for the FY. However, instead of calculating one BAF for the FY, a BAF will be calculated each quarter of FY 2011-2012 for nonpublic nursing facilities.

County Nursing Facility Per Diem Rates

As required by the rate methodology set forth in 55 Pa. Code Chapter 1189, Subchapter D (relating to rate setting), the Department intends to set an annual MA per diem rate for each county nursing facility provider. As specified in 55 Pa. Code § 1189.91(b) (relating to per diem rates for county nursing facilities), for each rate year beginning on or after July 1, 2007, the per diem rate paid to a county nursing facility for a rate year will be the facility's prior rate year per diem multiplied by a BAF determined in accordance with the formula in the Commonwealth's approved State Plan. As previously noted, the Department will be submitting an SPA to CMS to include the BAF formula which the Department will use in FY 2011-2012. Under the proposed SPA, the Department will continue to calculate and apply an annual BAF to setting county nursing facility payment rates.

The proposed annual per diem rates for FY 2011-2012, July Quarterly BAF which will be applied to nonpublic nursing facility rates and the annual BAF which will be applied to county nursing facilities are available on the Department's web site at www.dpw.state.pa.us/provider/doingbusinesswithdpw/longtermcarecasemixinformation/index.htm and at local county assistance offices throughout this Commonwealth or by contacting Marilyn Yocum, Department of Public Welfare, Office of Long-Term Living at (717) 705-3705. The proposed rates and BAFs were computed based upon the level of funding provided in the Governor's Budget.

Fiscal Impact

If the proposed payment rates are adopted as final, the rates will result in an estimated decreased cost of \$59.274 million (\$26.632 million in State funds) for per diem rate payments to nonpublic nursing facilities and an estimated decreased cost of \$12.275 million (\$5.515 million in State funds) for per diem rate payments for county nursing facilities' FY 2011-2012 rates compared to the facilities' proposed FY 2010-2011 per diem rates. The amount of funding available for this program is dependent upon the funds appropriated by the General Assembly in the forthcoming fiscal year. Therefore, until a budget bill is passed and enacted, any estimated fiscal impact associated with this notice is solely based on the funding levels as proposed in the Governor's Executive Budget.

Public Comment

Interested persons are invited to submit written comments regarding the proposed annual rates for FY 2011-2012 to Department of Public Welfare/Department of Aging, Office of Long-Term Living, Bureau of Policy and Strategic Planning, Forum Place, 5th Floor, 555 Walnut Street, Attention: Marilyn Yocum, Harrisburg, PA 17101-1919. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Fiscal Note: 14-NOT-708. The amount of funding available for this program is dependent upon the funds appropriated by the General Assembly for the forthcoming fiscal year; therefore, until a budget bill is passed and enacted, any estimated fiscal impact associated with this notice is solely based on funding levels as proposed in the Governor's Executive Budget. Based on the proposed budget, this action will not result in a loss of revenue or an increase in program costs to the Commonwealth or its political subdivisions. (8) recommends adoption.

Rate Setting Methodology for Consolidated and Person/Family Directed Support Waiver- and Base-Funded Services for Individuals Participating in the Office of Developmental Programs Service System

The purpose of this notice is to announce that, effective July 1, 2011, the Department of Public Welfare (Department) is revising the methodology used in the Prospective Payment System to develop rates for residential eligible and transportation per diem and trip, funded through the Consolidated and Person/Family Directed Support (P/FDS) waivers (waivers) and for the same service that is provided with base funding from that waiver funded service location.

The methodology described in this notice does not include the Medical Assistance program fee schedule services or rates.

Background

Beginning in 2009, the Department began implementation of a Statewide rate setting system to establish provider payment rates consistently across the Commonwealth. The Department continues to move in a direction to align rates and rate-setting methodologies across programs.

Rate-Setting Methodology for Residential Eligible Cost-based Services

The proposed payment rates for residential eligible cost report-based services were developed from the data in the Year 3 cost reports (Version 6.0—FY 2009-2010 Historical Expense Period) submitted by providers and approved in the desk review process, where the procedure codes and service locations in the cost reports were the same as those entered in the Support and Service Directory (SSD) as of December 31, 2010. Procedure codes and service locations included in the cost reports, but not entered in the SSD as of December 31, 2010, were not included in

calculating proposed payment rates. The rates were also calculated using the following methodologies.

Outlier Review Process

The "total unit cost" for a provider and service was equal to the total expenses for that provider and service divided by the total available units for that provider and service as provided in the submitted cost reports. The total utilization included adjustments based on a review of the cost report data compared to available Home and Community Services Information System and Provider Reimbursement and Operations Management Information System in electronic format (PROMISE™) data.

The Department identified and adjusted for outliers at the total unit cost level for each of the providers' cost-based services submitted in Year 3 approved cost reports. For all services with 20 or more unique unit costs (that is, unit costs by provider and service from separate, approved—Year 3 cost reports), the Department applied the following for each service:

- The average and standard deviation (SD) values were calculated, excluding extreme outliers, based on the total unit costs for all providers from the Year 3 cost report data.
- Total unit costs that were greater than the average plus one SD or were less than the average minus two SD were flagged as outliers.
- For total unit costs that were flagged as outliers and were within +/- 5% of the provider's average Fiscal Year (FY) 2010-2011 rate for that service and applicable service locations, the total unit cost was accepted and did not undergo a review.
- For total unit costs that were flagged as outliers and were not within +/- 5% of the provider's average FY 2010-2011 rate for that service and applicable service locations, the total unit cost did undergo a review, as described below.

Total Unit Cost Review

The Department performed a standardized review of all total unit cost outliers that were not within +/- 5% of the average FY 2010-2011 rate. The review consisted of an evaluation of the Individual Service Plans (ISPs) for waiver participants receiving services at the service locations impacted by the outlier unit cost. The Department established a structured review process and review procedures to ensure consistency across the Commonwealth. The review allowed the Department to determine whether the outlier unit cost was justified (such as an individual with complex needs).

- Total unit cost outliers that were justified based on the ISP reviews were not adjusted.
- Total unit cost outliers that were greater than the average unit cost plus one SD and were not justified based on the ISP reviews, were adjusted to the maximum unit cost below the average plus one SD for that service.
- Total unit cost outliers that were less than the average unit cost minus two SD and were not justified based on the ISP reviews, were adjusted to the minimum unit cost above the average minus two SD for that service.

For all cost-based services with less than 20 unique total unit costs, the Department did not perform an outlier review on the total unit costs for those services because not enough data points were available to produce statistically valid ranges.

Cost of Living Adjustment and Rate Adjustment Factor (RAF)

After the unit costs for each cost-based procedure code were adjusted as previously described, a total cost of living increase of 0% (0% for FY 2009-2010 and 0% for FY 2010-2011) was applied to the FY 2009-2010 unit costs for each procedure code to establish each provider's proposed payment rates for FY 2011-2012.

The Department compared projected FY 2011-2012 State and Federal expenditures to the corresponding FY 2011-2012 budget appropriation for the Consolidated and P/FDS waiver programs to determine if a RAF was necessary for the FY 2011-2012 rates. State and Federal expenditures were projected using the proposed payment rates and projected utilization, which was based on actual FY 2010-2011 utilization and utilization trend factors determined by the Department. A RAF -0.71% was applied to the unit costs for all residential eligible cost-based services.

Rate Assignment Process

A provider was assigned the average of its cost report rates for an existing service at a new service location, if the provider submitted cost report data at other locations for the service in the cost report. A provider was assigned the area adjusted average of all providers' cost report rates for new services, if the provider did not submit cost report data for the service in the provider's cost report (that is, the provider did not provide this service at any service location in FY 2009-2010).

The Department established a provider's rate as the lowest rate calculated based on all approved cost reports if a provider:

- Did not attempt a cost report submission by the published deadline.
- Attempted a cost report submission but the provider failed to successfully upload to the cost report submission to the web site.
- Successfully submitted a cost report but did not resubmit as requested during the desk review process.

Providers who failed the desk review on their initial cost report submission and who resubmitted their cost report, but whose resubmission still failed the desk review process were assigned the 25th percentile rate calculated based on all approved cost reports for all services.

Rate Setting Methodology for Per Diem and Trip Transportation Cost-Based Services

The proposed payment rates for Per Diem and Trip transportation services were developed from the data submitted in the Year 3 transportation cost reports (FY 2009-2010 Historical Expense Period) submitted by providers and approved in the desk review process, where the procedure codes and service locations in the transportation cost reports were the same as those entered in the SSD as of December 31, 2010. The Department reviewed the transportation cost reports which were submitted by the transportation providers and compared the services where costs were allocated in the cost report to the service offered in the SSD. Where there was an exact match between what was reported on the cost report and what was in the SSD, the cost report based rate was used for rate setting. If there was not an exact match but the provider submitted a cost report, the area average rate was assigned to the services offered in the SSD, but not reported on the cost report.

If the transportation provider did not submit a cost report, the lowest rate was assigned for the services offered in the SSD. If there was a new provider that started services in FY 2010-2011 and did not have historical experience, the area average rate was assigned. If an agency was signed up in the SSD to provide Per Diem and Trip transportation services, but they are considered a public carrier or are no longer providing Per Diem or Trip transportation service and have not been deleted from the SSD, \$.01 was assigned as the rate.

There is no Cost of Living Adjustment applied to the proposed cost-based services rates for FY 2011-2012. All proposed payment rates for all waiver-funded services are contingent on the final budget enacted by the General Assembly. The proposed rates should be used to process claims submitted to the PROMISE™ for services provided during FY 2011-2012 until a notice announcing final rates is published.

There is no anticipated fiscal impact. The amount of funding available for this program is dependent upon the funds appropriated by the General Assembly in the forthcoming fiscal year. Trauma Disproportionate Share Payments

The Department of Public Welfare (Department) is announcing its intent to amend the qualifying criteria and payment methodology and increase funding for an additional class of disproportionate share hospital payments to hospitals that qualify as trauma centers for the purpose of improving access to readily available and coordinated trauma care for the citizens of this Commonwealth. The Department is increasing funding for these payments as a result of additional funding allocations in the Commonwealth's 2010-2011 budget. The qualifying criteria and payment methodology are being amended as a result of requirements established in the Pennsylvania Trauma Systems Stabilization Act (62 P. S. §§ 801-H—808-H).

Level I and Level II Trauma Centers

A hospital located in this Commonwealth shall qualify as a trauma center (qualified trauma center) if it is accredited by the Pennsylvania Trauma Systems Foundation (Foundation) as a Level I or Level II trauma center.

An out-of-State hospital will qualify as a trauma center (out-of-State qualified trauma center) if the hospital operates a trauma center that annually discharges more than 30 patients, who qualify as trauma patients under the Pennsylvania Trauma Outcome Study (PTOS) for 2 of the preceding 4 years or is West Virginia University Hospital and meets each of the following requirements:

(1) Is accredited as a Level I or Level II trauma center by the Foundation; or has obtained verification from the American College of Surgeons as a Level I or Level II trauma center; and is formally designated as a Level I or Level II trauma center by its home state.

(2) Pays to the Foundation the annual participation fee the out-of-State hospital would be charged were it accredited by the Foundation as a Level I or Level II trauma center.

Out-of-State qualified trauma centers shall submit to the Foundation on an annual basis the following:

(1) A copy of the clinical patient data the hospital submits to the National Trauma Database regarding residents in this Commonwealth who receive trauma services from the hospital.

(2) The total and Commonwealth resident-specific number of PTOS trauma visits and patient days for individuals who are Medical Assistance (MA) recipients and those who are uninsured. The definition of what constitutes a PTOS trauma case shall be the same for both Commonwealth and out-of-State hospitals.

There will be no changes to the payment methodology for Level I and Level II trauma centers, including out-of-State hospitals.

Level III Trauma Centers

The Foundation will accredit Level III trauma centers using standards based on the American College of Surgeons guidelines for Level III trauma centers. In addition

to these standards, a hospital shall meet all of the following criteria to qualify for Level III accreditation:

(1) Provide comprehensive emergency services.

(2) Have, on an annual basis, at least 4,000 inpatient admissions from its emergency department.

(3) For trauma centers accredited or seeking accreditation prior to October 23, 2010:

(a) Be located in a county without an accredited Level I or Level II trauma center.

(b) Not be located within 25 miles travel distance from a Level I or Level II trauma center.

(4) For trauma centers accredited or seeking accreditation on or after October 23, 2010:

(a) Be located in a county of the third to eighth class.

(b) Not be located within 25 miles travel distance from a Level I, Level II or Level III trauma center.

The Department will allocate 10% of the total available funds to hospitals accredited or seeking accreditation as Level III trauma centers for up to 4 years, with documented evidence of progression towards accreditation and achievement of benchmarks as verified and established by the Foundation in collaboration with the Department (qualified Level III trauma centers).

(1) Fifty percent of this amount available for Level III trauma centers will be distributed equally among qualified Level III trauma centers.

(2) Fifty percent of the total amount available for Level III trauma centers will be distributed on the basis of each qualified Level III trauma center's percentage of MA and uninsured PTOS trauma cases and patient days compared to the Commonwealth Statewide total number of MA and uninsured PTOS trauma cases and patient days for qualified Level III trauma centers.

For these payments, the Department will calculate payment to each qualified Level III trauma center using PTOS data provided by the Foundation. For purposes of calculating the hospital specific portion of the payment, the Department shall count all MA days, uninsured PTOS trauma cases and patient days, irrespective of the home state of the patient. Payment to each qualified Level III trauma center may not be greater than 50% of the average Statewide annual payment to a Level II trauma center.

Fiscal Impact

The Fiscal Year 2010-2011 fiscal impact of the trauma payments is \$25.523 million (\$11.322 million in State funds).

Clean Water and Drinking Water State Revolving Fund Programs; Public Meeting on Federal Fiscal Year 2011 Intended Use Plans

The Pennsylvania Infrastructure Investment Authority (PENNVEST) and the Department of Environmental Pro-

tection (Department) have prepared the Federal Fiscal Year (FY) 2011 Intended Use Plans (IUPs). The IUPs include a list of drinking water, wastewater treatment, nonpoint source and pollution abatement projects to be considered for a design and engineering or construction loan or grant from funds the Commonwealth expects to receive from the Federal FY 2011 Drinking Water State Revolving Fund (DWSRF) and Clean Water State Revolving Fund (CWSRF) programs. In accordance with United States Environmental Protection Agency (EPA) guidelines on the development of the IUPs, a public meeting has been scheduled for July 20, 2011 at 1:30 p.m. in the 2nd Floor Auditorium, Rachel Carson State Office Building, 400 Market Street, Harrisburg, PA. This meeting is scheduled for the purpose of receiving comments from the public regarding the Federal FY 2011 IUPs. Interested persons are invited to express their views on the narrative portion of the IUPs, including the program guidelines for the Nonpoint Source Program, the set aside work plan or the priority rating or ranking of projects on the IUPs. Persons wishing to offer comments at the public meeting should contact the Division of Technical and Financial Assistance at the address or telephone number listed at the end of this notice or by e-mail to vbkasi@state.pa.us by 4 p.m. on July 19, 2011. Where written statements are prepared and will be submitted at the meeting, speakers will be asked to restrict the oral portion of the statement to a summary of the written comments.

The projects to be considered for a loan or grant from the DWSRF and CWSRF programs must meet the Federal requirements for funding in accordance with the Federal Safe Drinking Water Act and Clean Water Act. Accordingly, the projects included in the IUPs are expected to meet the requirements applicable to use of the DWSRF and CWSRF loan or grant funds. Projects listed in the FY 2011 IUPs are on the Commonwealth's Project Priority Lists (PPLs) and are expected to proceed with design and engineering or construction within the next 2 years. A project must appear on a PENNVEST-approved IUP before it can receive a loan or grant from the SRF programs. A project's readiness to proceed and the reasonable availability of alternative funds also have a bearing on project selection for the IUPs. Consequently, the rank ordered list of projects on the PPLs does not solely dictate the order in which projects will be chosen for inclusion in an IUP.

The DWSRF will be capitalized with approximately \$27.1 million in Federal funds and approximately \$5.4 million of State funds. Approximately \$7.3 million of these funds will be set aside for technical assistance to small systems, operator training and certification and source water assessment and protection, as authorized under the Safe Drinking Water Act. The DWSRF IUP also includes a narrative work plan that describes how these set-aside funds will be used. A minimum of approximately \$1.08 million will be set aside for program administration. Finally, an additional \$8.1 million must be set-aside for additional subsidization to disadvantaged communities and \$5.4 million for green infrastructure projects that fall into one or more of the following categories: (1) water efficiency; (2) energy efficiency; (3) environmentally innovative; (4) green stormwater infrastructure and meet the EPA criteria for green infrastructure.

The CWSRF will be capitalized with approximately \$58.4 million of Federal funds and approximately \$11.6

million of State funds. A minimum of approximately \$2.33 million will be set aside for program administration costs. Finally, an additional \$5.4 million must be set aside for additional subsidization to disadvantaged communities and \$11.6 million must be set aside for green infrastructure projects that fall into one or more of the following categories: (1) water efficiency; (2) energy efficiency; (3) environmentally innovative; (4) green stormwater infrastructure and meet the EPA criteria for green infrastructure.

It is not necessary to appear at the public meeting to present comments on the narrative portion of the IUPs, the set aside work plan or the PPLs. Interested persons may also submit written comments to the Department at the address that follows. Written comments will be considered equivalent to oral statements presented at the meeting. To be considered by the Department and PENNVEST, the written comments must be received by the Division of Technical and Financial Assistance by close of business, August 1, 2011.

Persons in need of accommodations as provided for in the Americans with Disabilities Act of 1990 should contact Veronica Kasi at (717) 772-4053 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

A copy of the IUPs, the PPLs and the DWSRF set aside work plan may be obtained by contacting the Division of Technical and Financial Assistance at (717) 772-4053 or through the Department's web site at http://www.depweb.state.pa.us/portal/server.pt/community/drinking_water_and_facility/regulation/10535.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Extension of the Fuel Cost Recovery Surcharge

Public Meeting held
June 9, 2011

Commissioners Present: Robert F. Powelson, Chairperson;
John F. Coleman, Jr., Vice Chairperson; Tyrone J.
Christy; Wayne E Gardner; James H. Cawley

Extension of the Fuel Cost Recovery Surcharge;
R-2009-2108518; S.P. 28209

Order

By the Commission

The Pennsylvania Public Utility Commission (Commission) by its Fuel Cost Recovery Surcharge Order at Special Permission Number 28209, ratified June 1, 2006, authorized call or demand, paratransit, and airport transfer carriers under the jurisdiction of this Commission to adjust rates and fares to offset significant increases in the cost of fuel. The fuel surcharge became effective on July 1, 2006, and was extended on June 21, 2007, June 24, 2008, June 18, 2009 and June 16, 2010. It is currently scheduled to terminate on June 30, 2011.

In letters submitted by the Pennsylvania Taxicab and Paratransit Association, as well as other carriers, the Commission has been asked to extend the fuel cost recovery surcharge. The letters cite the concern of additional expenses to the industry as the reason for this request.

Initially, all call or demand, paratransit, and airport transfer carriers were authorized to collect the surcharge found on the Fuel Surcharge page of the Commission's website. The average price of fuel was posted on the third Friday of each month, with the effective date of the surcharge being the first day of the subsequent month. The Commission determined the average cost of unleaded regular gasoline based upon gasoline prices in the index of the Energy Information Administration of the U.S. Department of Energy. The amount of the fuel surcharge was determined by locating the average price of gasoline on a chart, also displayed on that page, and selecting the corresponding fuel surcharge in the column for the respective type of transportation.

Determination of the amounts to be charged was based on the cost of gasoline per trip. The constants used for calculations were those based upon statistics from the Taxicab, Limousine and Paratransit Association: The average trip length of 6.8 miles for call or demand carriers and 13.61 miles for paratransit and airport transfer carriers; the average miles per gallon per vehicle of 15.04 for call or demand carriers and 13.01 for paratransit and airport transfer carriers; and \$1.35 per gallon of unleaded regular gasoline (the average cost in 2002 according to

Energy Information Administration of the Department of Energy). The cost per trip was calculated by multiplying the price of gasoline by the ratio of miles per trip to miles per gallon. The cost per trip at \$1.35 per gallon would serve as the base line. The results are tabulated in the chart below.

* The amount is per trip.

** The amount is per paying passenger per trip.

The Commission's intention was to create flexibility for both the carriers and the Commission. By establishing gasoline prices which would "trigger" a change in the surcharge, it would no longer be necessary to monitor the surcharge at different intervals. This flexibility would also aid in eliminating the need for emergency petitions, as was the case following Hurricane Katrina in 2005.

In the process of considering this request, the Commission has analyzed current information available from the Energy Information Administration of the U.S. Department of Energy, the American Automobile Association, and OPIS Energy Group. Data from these groups indicate that the retail price of gasoline will continue to increase throughout the summer months and even beyond, due to increased demand and the uncertainty of supply.

Many refineries have failed to return from unplanned outages and maintenance. Should more unplanned outages occur, there will be a significant impact on the future path of prices. Several analysts expect to see refinery maintenance remain relatively high even into June. High import volumes also play a part in keeping supplies adequate. Additionally, there remain many trouble spots across the globe that could affect the crude oil supply, prices, and gasoline prices (e.g., Venezuela, Nigeria, Iran, etc.). Projections such as this indicate that the cost of gasoline will remain a problem for the transportation industry.

Based on our review, it appears that an extension of the Fuel Cost Recovery is an appropriate way to address the high costs and instability of gasoline prices at the present time. As in previous orders the industry is reminded it should not continue to rely on this measure as a means of relief and members of the industry will have the responsibility of taking appropriate measures.

The Commission has received several comments regarding the advantages and disadvantages of the structure of the Fuel Cost Recovery Surcharge as it currently exists. In the subsequent period of the extension, the Bureau of Transportation and Safety will be analyzing and evaluating the Fuel Cost Recovery Surcharge for possible improvements.

After due consideration, we have determined that fuel costs are not likely to decrease. Based upon the evidence available, we are of the opinion that the passenger motor carrier industry continues to have a need for the Fuel Cost Recovery Surcharge to permit the recovery of fuel expenditures; *Therefore,*

It Is Ordered That:

1. The Fuel Cost Recovery Surcharge established at Special Permission No. 28209 be and is hereby extended until June 30, 2012, unless changed, cancelled, or extended by the Commission.

2. On the third Friday of every month, the Commission shall post on its website at www.puc.state.pa.us/transport/motor/fuel_surcharge.aspx the average cost of unleaded regular gasoline upon which the surcharge will be determined.

3. Call or demand, paratransit, and airport transfer carriers rendering transportation service under the jurisdiction of the PA Public Utility Commission shall notify the public by placing a notice in all vehicles, which shall read: "The PA Public Utility Commission has authorized a fuel surcharge under Special Permission No. 28209. The surcharge has been extended and shall terminate on June 30, 2012. The current surcharge is (insert current charge here) per trip for each paying passenger."

4. The Fuel Cost Recovery Surcharge established at Special Permission No. 28209 be continued until midnight, June 30, 2012, at which time it will expire.

5. The Secretary of this Commission shall duly certify this order and deposit same with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.

STATE BOARD OF EDUCATION

Approval of PSSA-M Performance Level Descriptors and Performance Level Cut Scores

At a special public meeting held May 26, 2011, the State Board of Education (Board) approved new Pennsylvania System of School Assessment-Modified (PSSA-M) performance level descriptors and performance level cut scores for the PSSA-M in reading and science in certain grades recommended to the Board by the Department of Education (Department). The approved performance level descriptors and PSSA-M performance level cut scores are based upon the recommendations of teachers and administrative staff who participated in a workshop facilitated by the Department's assessment contractor.

The performance level descriptors and performance level cut scores in grades 8 and 11 for science and grades 4 through 8 and grade 11 for reading were established for the first time as 2011 was the first year in which the PSSA-M reading and science assessments were administered.

The Board's action was taken under general authority granted to it by the Public School Code of 1949 (24 P. S. §§ 1-101—27-2702) and in accordance with specific provisions of the Board's regulations codified in 22 Pa. Code Chapter 4 (relating to academic standards and assessment). The approved PSSA-M performance level cut scores are described in the Appendix to this notice. The approved performance level descriptors are available for review on the Department's web site at www.education.state.pa.us.

Development and Approval of Descriptors and Scores

As part of the State assessment system established by the regulations, the Board delegated to the Department the very important task of developing specific criteria for each of the performance levels prescribed by 55 Pa. Code § 4.51 (b)(4) (relating to State assessment system)—advanced, proficient, basic and below basic. Specifically, the Department is directed by 22 Pa. Code § 4.51 to "consult with educators, students, parents and citizens," and then to "develop and recommend to the Board for its approval specific criteria for" each performance level.

As reported to the Board at its May 26, 2011, meeting, the Department met with educators from across this Commonwealth to assist the Department in developing the performance level descriptors and scores. Based on these efforts as described in detail for the Board at its meeting, the Department recommended the performance level descriptors and scores that the Board ultimately adopted at its May 26, 2011, meeting. Before adopting the performance level descriptors and scores on May 26, 2011, the Board provided members of the public in attendance with the opportunity to comment on the Department's recommendation. Before adopting the performance level descriptors and scores on May 26, 2011, the Board also

received a detailed presentation on the process used to develop the cut scores at its regular public meeting held on May 18, 2011. The Board provided members of the public in attendance with the opportunity to comment on the process used to develop the cut scores.

The approved performance levels (as listed in the Appendix) will be applied to the 2011 PSSA-M test scores, which will be publicly released in September 2011. The Performance Level Descriptors, due to their length, are not included here but may be accessed on the Department's web site at www.education.state.pa.us. The Department and the Board will review the descriptors and scores periodically based on actual experience in using them and consider revisions as appropriate, using the same process prescribed by 22 Pa. Code § 4.51(b)(4).

Persons with questions or who need additional information regarding the Board's approval of these performance level descriptors and performance level cut scores may contact Karen Molchanow, Acting Executive Director, State Board of Education, 333 Market Street, Harrisburg, PA 17126-0333, (717) 787-3787 or TDD (717) 787-7367. Persons with questions or needing additional information regarding the development and implementation of them should contact John Weiss, Director, Bureau of Assessment and Accountability, 333 Market Street, Harrisburg, PA 17126-0333, (717) 787-4234 or TDD (717) 787-7367.

NOTICES

TREASURY DEPARTMENT

Unclaimed Property Owners

Last year, the Pennsylvania Treasury returned over \$100 million of unclaimed property.

Search www.patreasury.org or call (800) 222-2046 to see if we have money for you. Each year, Treasury receives millions of dollars in unclaimed property, things like:

- * abandoned bank accounts
- * forgotten stocks
- * uncashed checks
- * certificates of deposit
- * life insurance policies
- * safe deposit box contents
- * uncashed refunds
- * expired gift cards

The Treasury works hard to find the rightful owners of unclaimed property. The names listed here have property worth more than \$250 awaiting them. Is your name here? If so, file a claim at www.patreasury.org.

Even if you don't see your name, visit www.patreasury.org to perform a free search. You can even search for your friends and neighbors. Treasury estimates that approximately 1 in 10 Pennsylvanians has property waiting to be claimed.

Treasurer
