READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 231—RULES OF CIVIL PROCEDURE

PART I. GENERAL

[231 PA. CODE CH. 1910]

Amendment of Rule 1910.16-4 of the Rules of Civil Procedure; No. 547 Civil Procedural Rules Doc.

Amended Order

Per Curiam

And Now, this 3rd day of August, 2011, upon the recommendation of the Domestic Relations Procedural Rules Committee; the proposal having been published for public comment in the *Pennsylvania Bulletin*, 41 Pa.Bull. 1618 (March 26, 2011) and West's *Pennsylvania Reporter*, 13 A.3d No. 2 (April 1, 2011):

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that Rule 1910.16-4 of the Pennsylvania Rules of Civil Procedure is amended in the following form.

This order shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective in 30 days.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1910. ACTIONS FOR SUPPORT

Rule 1910.16-4. Support Guidelines. Calculation of Support Obligation. Formula.

* * * * *

(d) *Divided or Split Physical Custody When Each Party Has Primary Custody of One or More of the Children. Varied Custodial Schedules.*

(1) *Divided or Split Physical Custody When Each Party Has Primary Custody of One or More of the Children.* When calculating a child support obligation, and one or more of the children reside **primarily** with each party, the court shall offset the parties' respective child support obligations and award the net difference to the obligee as child support. For example, if the parties have three children, one of whom resides with Father and two of whom reside with Mother, and their net monthly incomes are \$2,500 and \$1,250 respectively, Father's child support obligation is calculated as follows. Using the schedule in Rule 1910.16-3 for two children at the parties' combined net monthly income of \$3,750, the amount of basic child support to be apportioned between the parties is \$1,190. As Father's income is 67% of the parties' combined net monthly income, Father's support obligation for the two children living with Mother is \$797. Using the schedule in Rule 1910.16-3 for one child, Mother's support obligation for the child living with Father is \$273. Subtracting \$273 from \$797 produces a net basic support amount of \$524 payable to Mother as child support.

[(2)] (A) When calculating a combined child support and spousal or alimony pendente lite obligation, and one or more children reside with each party, the court shall, except as set forth in subdivision [(3)] (B) below, offset the obligor's spousal and child support obligation with the obligee's child support obligation and award the net difference to the obligee as spousal and child support.

[(3)] (B) When one or more of the children resides with each party and the obligee's net income is 10% or less of the parties' combined net monthly income, then, in calculating the spousal support or alimony pendente lite obligation, the court shall deduct from the obligor's income both the support owed for the child or children residing with the obligee, as well as the direct support the obligor provides to the child or children living with the obligor, calculated in accordance with the guidelines as if the child or children were not living with the obligor.

(2) *Varied Custodial Schedules.* When the parties have more than one child and each child spends different amounts of partial or shared custodial time with the obligor, the trier of fact shall add the percentage of time each child spends with the obligor and divide by the number of children to determine the obligor's percentage of custodial time. If the average percentage of time the children spend with the obligor is 40% or more, the provisions of subdivision (c) above apply.

Example 1. The parties have two children and one child spends 50% of the time with the obligor and another spends 20% of the time with the obligor. Add those percentages together and divide by the number of children (50% plus 20% = 70% divided by 2 children = 35% average of the time with the obligor). Pursuant to subdivision (c), the obligor does not receive a reduction in the support order for substantial parenting time.

Example 2. The parties have three children. Two children spend 50% of the time with the obligor and the third child spends 30% of the time with the obligor. Add the percentages of custodial time for all three children together and divide by the number of children (50% plus 50% plus 30% = 130% divided by three children = 43.33% average percentage of time with the obligor). Pursuant to subdivision (c), the obligor receives a reduction in the support order for substantial parenting time.

Official Note: In cases with more than one child and varied partial or shared custodial schedules, it is not appropriate to perform a separate calculation for each child and offset support amounts as that method does not consider the incremental increases in support for more than one child built into the schedule of basic child support.

PROPOSED RULEMAKING

ENVIRONMENTAL QUALITY BOARD

Safe Drinking Water Program Fees; Withdrawal of Proposed Rulemaking

The Environmental Quality Board (Board), at the direction of Chairperson Michael L. Krancer, is withdrawing the proposed safe drinking water program fees rulemaking from further consideration. The proposed rulemaking, which was approved by the Board at the Board's November 16, 2010, meeting, proposed new and revised fees for community water systems, bottled, vended, retail and bulk water systems and public water systems to supplement State costs for administering the Commonwealth's Drinking Water Program. In subsequent review of the proposed rulemaking after Board action, it was determined that there is no compelling justification for an increase in fees that would most likely be passed on to the customers of public water systems. The rulemaking is currently being reviewed for form and legality by the Office of Attorney General; however, by the Board's formal withdrawal of the rulemaking, further action on the proposed rulemaking is suspended.

Questions concerning the withdrawal of the safe drinking water program fees rulemaking should be directed to Michele Tate, Regulatory Coordinator, Department of Environmental Protection, (717) 783-8727, mtate@pa.gov.

(Editor's Note: The safe drinking water program fees rulemaking was not deposited with the Legislative Reference Bureau and was not printed in the Pennsylvania Bulletin.)

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Natural Gas Distribution Company Business Practices; 52 Pa. Code §§ 62.181—62.185; SEARCH Final Order and Action Plan for Increasing Effective Competition in Pennsylvania's Retail Natural Gas Supply Services Market

Public Meeting held
December 1, 2011

Commissioners Present: Robert F. Powelson, Chairperson; John F. Coleman, Jr., Vice Chairperson, statement follows; Wayne E. Gardner; James H. Cawley; Pamela A. Witmer, Statement

Proposed Rulemaking: Natural Gas Distribution Company Business Practices; 52 Pa. Code §§ 62.181—62.185; Doc. No. L-2009-2069117;

SEARCH Final Order and Action Plan for Increasing Effective Competition in Pennsylvania's Retail Natural Gas Supply Services Market; Doc. No. I-00040103F0002

Order Withdrawing Rulemaking

By the Commission:

On December 16, 2011, the proposed rulemaking initiated at this docket on natural gas distribution company (NGDC) business practices and standards will expire and will be deemed to have been withdrawn by operation of law. In light of the work already accomplished by natural gas stakeholders in this area, the input offered by commenters, the partial overlap with another pending rulemaking, and the advice provided by the Independent Regulatory Review Commission, by this order, we are discontinuing this rulemaking and directing that a new rulemaking proceeding be initiated consistent with the direction set forth in this order.

Discussion

Background

In its October 2005 *Report to the General Assembly on Competition in Pennsylvania's Retail Natural Gas Market*, Docket No. I-00040103, the PUC determined that there was not effective competition in the market based on the low participation rate of NGSs in the market. The lack of uniformity among NGDC business standards, operating rules, and business barriers was identified as a possible barrier to market entry and participation. A collaborative of stakeholders (Stakeholders Exploring Avenues to Remove Competitive Hurdles—SEARCH) was convened to discuss various ways to increase effective competition. The SEARCH Report proposed that some standardization of business rules among NGDCs could increase the number of NGSs participating in the statewide retail market. The Commission accepted this proposal in its Final Search Order and Action Plan, and directed that a proposed rulemaking be initiated to revise and, when feasible, to standardize NGDC business practices, operating rules and supplier coordination tariffs. See Final SEARCH Order entered September 11, 2008 at Docket No. I-00040103F0002.

Proposed Rulemaking Order

On May 1, 2009, the Commission issued the instant proposed rulemaking consistent with the direction provided in the Final SEARCH Order. The proposed rulemaking order set forth business practices and standards that would govern the business relationship between NGDCs and NGSs in regard to financial transactions, communications (information and data and exchange) and system operational rules for the management of gas on an NGDC's system (imbalance trading, tolerance bands, cash out and penalties, and nominations and capacity). The order also directed (1) the initiation of a stakeholder working group to develop these standards and a model Supplier Coordination Tariff format, and (2) the establishment of a standing working group to develop electronic data communication standards and formats. Proposed Rulemaking Order at p. 12, O.P. 7 & 8. Finally, the proposed rulemaking order permitted NGDCs to recover reasonable costs directly attributable to implementing these standards.

The proposed rulemaking order provided for public comment. Specifically, the order stated that comments

could be submitted no later than 45 days after its publication date in the *Pennsylvania Bulletin*. Reply comments could be submitted no later than 15 days thereafter. The order was published in the *Pennsylvania Bulletin* on October 17, 2009 at 39 Pa.B. 6078. The public comment period ended December 16, 2009. Seventeen comments¹ were filed; eight reply comments were filed.²

IRRC Comments

On January 15, 2010, the Independent Regulatory Commission (IRRC) provided its comments on the proposed rulemaking to the Commission. In its comments, IRRC was especially critical of the proposed regulations, citing the lack of data provided by the Commission to support the need for standardizing NGDC business practices, and to quantify the potential costs for NGDCs and their ratepayers to implement the various proposals in the rulemaking. IRRC Comments, pp. 1-2. IRRC complained that:

[w]ithout this information, we cannot determine the potential benefit if this regulation could reduce or eliminate the barrier. It is also difficult to determine whether any such benefits outweigh the costs in time and effort imposed on NGDCs and their ratepayers by this regulation.

IRRC Comments, p. 2.

IRRC also focused on the Proposed Rulemaking Order's stakeholder process which was to run concurrently with the rulemaking process, and advised that:

[g]iven the numerous concerns expressed by commentators with this regulation, the PUC needs to initiate an extensive stakeholder process that includes meetings and opportunities for the review of and comments on draft revisions. It would be prudent for the PUC to complete this process before it moves to submit a final-form version of this regulation.

IRRC Comments, p. 2.

Finally, IRRC was concerned about the overlap of the subject matter of the instant proposed rulemaking with that of the proposed rulemaking order on Natural Gas Distribution Companies and the Promotion of Competitive Retail Markets that it recently disapproved on November 3, 2011:

According to the [order], the language in Section 62.184 is similar to that of language found in another PUC proposed rulemaking which appeared in the July 11, 2009 *Pennsylvania Bulletin*. See § 62.226 of proposed PUC Regulation #57-269 (IRRC #2772) (PUC Docket #L-2008-2069114). This is not the only similarity. In addition, Section 62.224(a)(8) of the earlier proposed regulation includes provisions concerning supplier coordination tariffs (SCTs). These tariffs are also addressed in this current proposed regulation in Section 62.185(b).

Promulgating two separate regulations with similar provisions and intent might lead to possible confusion

and conflict between the two. The PUC should either explain the need for the two separate rulemakings, or give strong consideration to combining the two into one rulemaking.

IRRC Comments, p. 3.

Disposition

According to Section 745.5a(b) of the Regulatory Review Act, 71 P.S. §§ 745.1—745.15, if an agency does not deliver a final-form regulation within two years from the close of the public comment period, the regulation is deemed withdrawn and the rulemaking ends. 71 P.S. § 745.5a(b) (relating to final-form regulations and final-omitted regulations; procedures for review). "Delivery" involves delivery of the final-form regulation by the agency and its response to all comments received, or just the final-omitted regulation, to the Committees and IRRC.

The instant rulemaking on standardizing NGDC business practices expires on December 16, 2011. Considering the concerns with the proposed regulations identified by IRRC, and the overlap of subject matter between this rulemaking and the one at Docket No. L-2008-2069114, it would seem reasonable to permit the rulemaking to expire and be deemed withdrawn by operation of law.

However, because this Commission has a duty to oversee the competition in the retail natural gas market, we prefer to be proactive. In our judgment, certain efficiencies can be achieved by standardizing some NGDC business practices that will benefit all participants in the retail market. The SEARCH stakeholders have invested considerable time and effort in their review of the issues related to NGDC business practices and it seems inefficient not to use their work as a platform upon which to build. For this reason, we believe that the better course of action is to discontinue this rulemaking and direct that a new rulemaking on NGDC business practices and standards, including system operating rules and supplier tariffs, be commenced within six months from the entry date of this order.

We acknowledge and accept that the biggest problem with the instant rulemaking is the lack of supporting data to demonstrate the need for standardizing business practices and the costs relating to various proposals in the rulemaking. IRRC Comments, pp. 1-2. The need for standard business practices was first explored in the PAPUC' Report to the General Assembly on Competition in Pennsylvania's Retail Natural Gas Supply Market (Report) which was written in 2005, four years previous to the initiation of the proposed rulemaking. Also, SEARCH, which was convened in accordance with Section 2204(g) of the Public Utility Code,³ was an exploration committee rather than a collaborative group or an on-the-record proceeding, where costs for the various proposals to increase competition were considered but not quantified.

We also acknowledge IRRC's comment about the need to engage stakeholders in a collaborative process. IRRC's Comments, p. 2. It is noted that the instant rulemaking did call for a collaborative to be convened to work on issues relating to a business practices rulemaking. The Office of Competitive Market Oversight did convene the SEARCH stakeholders for the purpose of finding common

³ Section 2204(g) directed that five years after the effective date of Chapter 22, the Commission was to initiate an investigation on whether effective competition existed in Pennsylvania's retail natural gas market. If the Commission found that effective competition did not exist, the Commission was to reconvene the stakeholders to explore avenues for encouraging increased competition in the market. 66 Pa.C.S. § 2204(g) (relating to investigation and report to the General Assembly).

ground, and began to move forward on one proposal to create an index to the NGDCs' supplier coordination tariffs to allow for easy reference to the tariffs during 2010. However, these efforts did not achieve the consensus needed to move forward on this matter.

We acknowledge IRRC's criticisms and comments, and will ensure that a new rulemaking on NGDC business practices and standards, including system operating rules and supplier tariffs, is drafted and promulgated consistent with this advice.

Conclusion

The use by NGDCs of a common set of business practices and standards should increase efficiency in industry operations and may increase the participation of NGSs in the retail natural gas supply market. Consequently, by this order, the Commission directs that the instant rulemaking, set to expire on December 16, 2011, be discontinued and that a new rulemaking proceeding to review NGDC business practices and standards be initiated within six months of the entry date of this order; *Therefore,*

It Is Ordered That:

1. The Proposed Rulemaking regarding Natural Gas Distribution Company Business Practices at Docket No. L-2009-2069117 is hereby discontinued.
2. A copy of this Order shall be served on all parties that filed comments to the Proposed Rulemaking at this docket and on all jurisdictional natural gas distribution companies and licensed natural gas suppliers.
3. The Office of Competitive Market Oversight shall electronically send a copy of this order to all persons on

the contact list for Stakeholders Exploring Avenues to Remove Competitive Hurdles (SEARCH).

4. A copy of this order shall be posted at the Commission's website at the SEARCH Order Action Plan webpage: http://www.puc.state.pa.us/naturalgas/naturalgas_search_order_action_plan.aspx.

5. A notice of withdrawal of the Notice of Proposed Rulemaking shall be published in the *Pennsylvania Bulletin*.

6. The Office of Competitive Market Oversight working with the Law Bureau shall initiate, within six months of the entry date of this order, a rulemaking proceeding on natural gas distribution company business practices and standards, including system operating rules and supplier tariffs, consistent with the direction provided herein.

7. Docket No. L-2009-2069117 is closed.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of January 2012

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of January, 2012, is 4 3/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.37 to which was added 2.50 percentage points for a total of 4.87 that by law is rounded off to the nearest quarter at 4 3/4%.

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Revisions to Schedule of Prices for State Parks

A. Summary and Background

Under section 314 of the Conservation and Natural Resources Act (71 P. S. § 1340.314) and 17 Pa. Code

§ 11.224 (relating to prices), the Department of Conservation and Natural Resources (Department), Bureau of State Parks, is revising its price schedule for State Park activities, uses and privileges. The new schedule, which is in Section D as follows, includes price increases for Commonwealth residents and non-Commonwealth residents for certain boating facilities, swimming pools, cottages, yurts, cabins and walled tents. In addition, a new price is being instituted for summer boat trailer storage during the boating season.

The new price schedule, which is comparable to those of state parks in neighboring states, is needed to increase revenue to the Bureau of State Parks. In addition to offsetting inflation, it narrows the gap between Pennsylvania State Parks and private facilities, resulting in a more favorable competitive climate for the private sector.

The new price schedule eliminates a maximum price per site for backpack/river camping to address the large size of the groups impacting the natural resource. It also eliminates park-specific rack and shoreline mooring prices for Moraine State Park. Moraine State Park mooring and rack prices will fall under the same price range as all other parks with mooring and rack spaces.

For comparison purposes, the current price schedule along with the new price schedule can be found at the Pennsylvania State Parks web site at <http://www.dcnr.state.pa.us/stateparks/prices/index.htm> (select the 2012-2013 Prices). It can also be obtained by calling Pennsylvania State Parks Reservations and Information at (888) PA-PARKS. When the new price schedule becomes effective, it will be posted on the State Parks web site.

B. Contact Person

Questions may be directed to David Sariano, Assistant Director, Bureau of State Parks, Rachel Carson State Office Building, P. O. Box 8551, Harrisburg, PA 17105-8551, (717) 787-6640 or dsariano@pa.gov. Persons with a disability may use the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users).

C. Effective Date

The effective date of the new price schedule is January 1, 2012. Therefore, it will apply to boating and swimming pools in the 2012 season. For cabins, yurts, cottages and walled tents, it will apply to reservations made for the 2013 season.

Applications, actions and special notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications concern, but are not limited to, discharges regarding industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFO). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Waste; Discharge into Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the United States Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on NPDES applications are invited to submit statements to the contact office noted before the application within 30 days from the date of this public notice. Persons wishing to comment on WQM permit applications are invited to submit statements to the office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The condition includes the requirement to report the application of these credits in Supplemental Discharge Monitoring Reports (DMRs) submitted to the Department.

* The compliance date for Net Total Nitrogen and Net Total Phosphorus will begin on October 1, 2012. Since these reporting requirements are annual loads, the reporting on compliance with the annual limitations will be required to be reported on the Supplemental DMR—Annual Nutrient Summary by November 28, 2013. This facility is required to monitor and report for Net Total Nitrogen and Net Total Phosphorus from the effective date of the permit until September 30, 2012.

You may make an appointment to review the DEP files on this case by calling the File Review Coordinator at 570-327-3693.

* This permit contains conditions which authorize the permittee to apply nutrient reduction credits to meet the Net Total Nitrogen and the Net Total Phosphorus effluent mass limits, under the Department's Trading of Nutrients and Sediment Reduction Credits Policy and Guidelines (Document #392-0900-001, December 30, 2006). The condition includes the requirement to report the application of these credits in Supplemental Discharge Monitoring Reports (DMRs) submitted to the Department.

* The compliance date for Net Total Nitrogen and Net Total Phosphorus will begin on the Permit Effective Date. Since these reporting requirements are annual loads, the reporting on compliance with the annual limitations will be required to be reported on the Supplemental DMR—Annual Nutrient Summary by November 28, 2012.

In addition, the permit contains the following major special conditions:

- In the event that the final treated reuse water does not meet the effluent limitations required by this permit (i.e., off-specification water), the off-specification water may be recycled back to the headworks of the Spring Creek Pollution Control Facility (SCPCF) and not be considered a discharge to the High Purity Water Wetland and/or Slab Cabin Run. When off-specification water is recycled back to the SCPCF and not discharged to the High Purity Water Wetland and/or Slab Cabin Run, the total volume of water, date and time of the recycling shall be recorded and included with the standard monthly reporting submissions required by this permit.

- This permit approves offsets for TN and TP for use in permits PA0234028 and PA0026239. One permitted facility may provide an offset to the other permitted facility based on treatment performance. The monthly offset shall be reported as

pounds offset for that month on the DMR Supplemental form for Nitrogen and Phosphorous. For the permitted facility giving an offset to the other permitted facility, the offset will be reported as a negative value. For the permitted facility receiving the offset, the offset will be reported as a positive value. The offsets described in this paragraph are not to be considered permanent and may vary month to month. These offsets shall not be used to adjust the nutrient cap loads in future permits.

You may make an appointment to review the DEP files on this case by calling the File Review Coordinator at 570-327-3693.

**STATE CONSERVATION COMMISSION
 NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR
 NPDES PERMITS FOR CAFOs**

The State Conservation Commission has taken the following actions on previously received applications for nutrient management plans under 3 Pa.C.S. Chapter 5, for agricultural operations that have or anticipate submitting applications for new, amended or renewed NPDES permits or NOIs for coverage under a general permit for CAFOs under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Persons aggrieved by an action may appeal under 3 Pa.C.S. § 517, section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law) to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service at (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge actions, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary of the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for PWS permits to construct or substantially modify public water systems.

Persons wishing to comment on permit applications are invited to submit statements to the office listed before the application within 30 days of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding an application. A comment should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and related documents are on file at the office listed before the application and available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability that require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION**

UNDER ACT 2, 1995

PREAMBLE 1

**Acknowledgment of Notices of Intent to Remediate
Submitted under the Land Recycling and Environmental
Remediation Standards Act (35 P. S.
§§ 6026.101—6026.907)**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area

remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northeast Region: Eric Supey, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915.

Cricket Hill Golf Course, RR 2, Cricket Hill Road, Berlin Township, **Wayne County**. Martin P. Gilgallon, Pennsylvania Tectonics, Inc., 826 Main Street, Peckville, PA 18452 has submitted a "Revised" Notice of Intent to Remediate (on behalf of his client, FNB Holding Corp., 4866 State Route 52, Jeffersonville, NY 12748), concerning the remediation of soil and groundwater found to have been impacted by leaded and unleaded gasoline and diesel fuel as a result of the disposal of these contaminants into an on-lot septic system. The "original" Notice of Intent to Remediate, received on October 28, 2009, only included the remediation of soil. The applicant proposes to remediate the site to meet the Residential Statewide Health Standard for soil and groundwater. The current and future use of the property is as a golf course. A summary of the Notice of Intent to Remediate is expected to be published in a local newspaper serving the general area sometime in the near future.

Jeras Corporation Property (Runk Barn), 2175 Pirma Avenue, South Whitehall Township, **Lehigh County**. Chris Jacangelo, J. Rockwood & Associates, Inc., P. O. Box 1006, Easton, PA 18044 has submitted a Notice of Intent to Remediate (on behalf of his client, Jeras Corporation, 1802 N. Cedar Crest Boulevard, Allentown, PA 18104), concerning the remediation of soil found to have been impacted by No. 2 fuel oil as a result of a pitted and corrosive underground storage tank, which was observed during the tank's removal process. The

applicant proposes to remediate the site to meet the Residential statewide Health Standard for soil. The current and future use of the property is residential. A summary of the Notice of Intent to Remediate is expected to be published in a local newspaper serving the general area sometime in the near future.

Former Northern Carrier, 626 West Lackawanna Avenue, Scranton City, **Lackawanna County**. Sandra L. Szempruch-Koza, MEA, Inc., 1365 Ackermanville Road, Bangor, PA 18013 has submitted a Notice of Intent to Remediate (on behalf of her client, Penn Security Bank and Trust Company, 150 N. Washington Avenue, Scranton, PA 18503), concerning the remediation of soil found to have been impacted by No. 2 heating oil, waste oil, and leaded gasoline during the uncovering and removal of three (3) 4,000-gallon and two (2) 3,000-gallon underground storage tanks. The applicant proposes to remediate the site to meet the Non-Residential Statewide Health Standard for soil. The current and likely future use of the property is commercial. A summary of the Notice of Intent to Remediate was published in *The Scranton Times* on November 14, 2011.

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Rutherford Intermodal Transfer Facility, 5050 Paxton Street, Harrisburg, PA 17111, Swatara Township, **Dauphin County**. Marshall Miller & Associates, 534 Industrial Park Road, Bluefield, VA 24605, on behalf of Consolidated Rail Corporation, Two Commerce Square, 2001 Market Street, Philadelphia, PA 19101 and Norfolk Southern Railway Company, 1200 Peachtree Street, NE, Box 13, Atlanta, GA 30309, submitted a revised Notice of Intent to Remediate groundwater contaminated with BTEX, PHCs, and PAHs. The site will be remediated to the Site-Specific standard and will remain an intermodal transfer facility.

Ephrata Marketplace, 830 to 870 East Main Street, Ephrata, PA 17522, Ephrata Township, **Lancaster County**. Advantage Engineers LLC, 910 Century Drive, Mechanicsburg, PA 17055, on behalf of Ephrata GF, LP, 1000 North Front Street, Suite 500, Wormleysburg, PA 17043, submitted a Notice of Intent to Remediate site soils and groundwater contaminated with PCBs, VOCs, PAHs and metals. The site will be remediated to the Statewide Health standard. Future use of the site is a commercial strip mall.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing

the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first.

Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

09-0024I: Waste Management of Pennsylvania, Inc.—WMPI (1000 New Ford Mill Road, Morrisville, PA 19067) for installation of a landfill gas fired 2233 brake horsepower (bhp) generator engine at the Tullytown Resource Recovery Facility (TRFF) in Tullytown Borough, **Bucks County**. The landfill is a Title V facility. The engine will employ lean burn technology to minimize formation of nitrogen oxides (NOx). The engine will be limited to emissions of 0.41 g/bhp-hr formaldehyde. The project is subject to the requirements of Non-attainment New Source Review, codified at 25 Pa. Code § 127.203(b)(1)(ii). Emissions that are required to be offset are 33.1 tons of VOC. WMPI will offset the net increases of VOC, at the offset ratio of 1.3:1, in accordance with 25 Pa. Code § 127.210. A total of 43.03 tons of VOC ERC, that WMPI has already procured, are authorized for this project. The engine is subject to the requirements of New Source Standards of Performance (NSPS) for Stationary Spark Ignition Internal Combustion Engines, 40 CFR Part 60, Subpart JJJJ. The company will comply with all required monitoring, recordkeeping and testing requirements.

43-356B: Hermitage Municipal Authority (800 North Hermitage Road, Hermitage, PA 16148-3220) for modification of sources permitted in Plan Approval 43-356A. The facility will remove C101 (Selective Catalytic Reduction) from Source 101 (Combined Heat & Power Unit) and requests a correction to the emission limits for Source 105 (Emergency Generator). This equipment is located at the Bobby Run Water Pollution Control Plant in the City of Hermitage, **Mercer County**. Sources modified in this plan approval include 101 and 105.

Pursuant to 25 Pa. Code §§ 127.44(b) and 127.424(b), the Pennsylvania Department of Environmental Protection (DEP) intends to issue Plan Approval 43-356B to the Hermitage Municipal Authority for the operation of a combined heat and power unit and an emergency generator, at the Bobby Run Water Pollution Control Plant located in the City of Hermitage, Mercer County. The Plan Approval will subsequently be incorporated into a facility Operating Permit through an administrative amendment in accordance with 25 Pa. Code § 127.450.

Plan Approval No. 43-356B is for the modification of the combined heat and power unit and emergency generator. Based on the information provided by the applicant and DEP's own analysis, the combined subject sources will have the potential to emit approximately 16.6 tons of year of nitrogen oxides; 2.41 tons per year of carbon monoxide; 1.02 tons per year of particulate matter; 0.76 tons per year of sulfur oxides and 0.51 tons per year of volatile organic compounds.

The Plan Approval will contain testing, monitoring, recordkeeping, reporting, work practice and additional requirements designed to keep the facility operating within all applicable air quality requirements.

65-00354: Sunoco Partners Marketing & Terminals L.P. (1734 Old Route 66, Delmont, PA, 15626) for operation of a Petroleum Marketing Terminal, known as the Delmont Terminal, located at 1734 Old Route 66 in Salem Township, **Westmoreland County**. The facility currently has Title V Operating Permit, No. TVOP-65-00354.

The facility currently has three gasoline, one ethanol, one diesel fuel, and one kerosene storage tanks. It also has gasoline and diesel tank truck loading racks, with emissions controlled by a vapor refrigeration unit, (VRU) or alternately, a backup vapor combustion unit. (VCU) Maximum annual emissions are estimated to be 99.72 tons of VOC and emissions of 1.76 tons of all HAPs combined, with the vapor combustion unit in operation. Gasoline throughput at the facility shall not exceed 483,296,354 gallons in any consecutive 12-month period. The facility is subject to state requirements as well as 40 CFR 60 Subpart XX, related to standards of performance for bulk gasoline terminals, 40 CFR Subpart Ka related to standards of performance for storage vessels for petroleum liquids, and 40 CFR 63 Subpart BBBBBB related to national emission standards for hazardous air pollutants for source category: gasoline distribution bulk terminals, bulk plants, and pipeline facilities. The Operating Permit contains appropriate emission limitations, testing, monitoring, recordkeeping, reporting requirements, and work practice standards. Further details on the conditions and the reasons for their inclusion are available upon request

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are

available for public review during normal business hours at 400 Waterfront Drive, Pittsburgh, PA 15222.

Interested persons may submit written comments, suggestions or objections concerning the proposed Plan Approval to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall include the following:

Name, address and telephone number of the commentator.

Identification of the proposed Operating Permit No. TVOP-65-00354.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such a notification is sufficient. Written comments or requests for a public hearing should be directed to Martin Hochhauser, P.E., Operating Permits, 400 Waterfront Drive, Pittsburgh, PA, 15222, 412-442-4057.

The facility's source is a coal preparation plant. The potential emission of all air contaminants are below their respective major emission thresholds. The proposed state only operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

49-00040: Reagent Chemical & Research, Inc. (145 Happy Hollow Road, Coal Township, PA 17866-7733) for issuance of a state only operating permit for their facility in Coal Township, **Northumberland County**. The facility's sources include a limestone storage operation, two skeet target production lines and two parts washers. The potential emission of all air contaminants are below their respective major emission thresholds. The proposed state only operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

49-00009: Masonite Corp. (PO Box 112, Northumberland, PA 17857-0112) for issuance of a state only operating permit for their facility in Point Township, **Northumberland County**. The facility's sources include two combustion units, five surface coating spray booths and associated cleanup operations, a prefinish line, a gluing operation, a milling & sanding operation, an emergency generator and a parts washer. The potential emission of all air contaminants are below their respective major emission thresholds. The proposed state only operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

41-00067: Glenn O. Hawbaker, Inc. (711 East College Ave., Bellefonte, PA 16823) for issuance of a State-Only (Synthetic Minor) Operating Permit renewal for operation of their Montoursville Plant No. 15 facility in Loyalsock Township, **Lycoming County**.

The facility operates oil preheater, a drum mix asphalt plant, a RAP processing system, an Eagle mobile crushing

unit, fuel oil storage tanks, Kolberg mobile crushing and screening unit, and a Nordberg mobile crushing unit.

The facility has the potential to emit up to 29.03 tons of PM/PM10, 5.02 tons of HAPs, 79.88 tons of SO_x, 75.44 tons of NO_x, 30.22 tons of VOCs, and 77.10 tons of CO per year.

The facility is not a major (Title V) facility for any air contaminant.

The Department of Environmental Protection (Department) proposes to issue State-Only (Synthetic Minor) Operating Permit 41-00067. The Department intends to incorporate into the operating permit all applicable conditions of approval contained in the RFD exemptions for various insignificant air-contaminant sources and air-contaminant sources authorized under general plan approvals/general operating permits. The proposed renewal operating permit contains all applicable requirements including Federal and State regulations. In addition, monitoring, recordkeeping and reporting conditions regarding compliance with all applicable requirements are included.

60-00020: Pik Rite, Inc. (60 Pik Rite Lane, Lewisburg, PA 17837-6840) for issuance of a state only operating permit for their facility in Buffalo Township, **Union County**. The facility's source is a surface coating operation. The potential emission of all air contaminants are below their respective major emission thresholds. The proposed state only operating permit contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

This is a State Only Operating Permit Application submittal.

30-00177: Coresco, LLC (308 Dents Run Road, Morgantown, WV 26501) for bituminous coal and lignite surface mining at their Dooley Run Terminal in Dunkard Township, **Greene County**. This is a State Only Operating Permit Application submittal.

65-00792: Metalor Electrotechnics USA Corp. (1003 Corporate Lane, Export, PA 15632) for fabricated metal products at Metalor Plant #5 in Export Borough, **Westmoreland County**. This is a State Only Operating Permit Application submittal.

65-00316: BFS Petroleum Products, Inc. (1768 Mileground Road, Morgantown, WV 26505) for petroleum distribution at their Vandergrift Bulk Plant in Vandergrift Borough, **Westmoreland County**. This is a State Only Operating Permit Application submittal.

30-00130: BFS Petroleum Products, Inc. (1768 Mileground Road, Morgantown, WV 26505) for petroleum distribution at their Bruceton Petroleum (PA Division) Plant in Franklin Township, **Westmoreland County**. This is a State Only Operating Permit Application submittal.

32-00375: Rosebud Mining Company (301 Market Street, Kittanning, PA 16201), Natural Minor Operating

Permit for the operation of a coal preparation plant, known as the Lowry Deep Mine, located in White Township, **Indiana County**.

The facility contains air contamination sources consisting of screens, conveyers, storage piles, and one 277-bhp emergency diesel generator engine. Raw coal throughput of the facility is limited to 800,000 tons per year. Facility emissions are 15.12 tons per year of PM10, 0.82 tons per year of NO_x, 0.08 tons per year of CO. The facility is limited to a maximum opacity from any processing equipment of 20 percent. The facility is subject to state requirements as well as 40 CFR 60, Subpart Y—Standards of Performance for Coal Preparation and Processing Plants and 40 CFR 60, Subpart IIII—Standards of Performance for Stationary Compression Ignition Internal Combustion Engines. The permit includes emission limitations, operational requirements, monitoring requirements, and recordkeeping requirements for the facility.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of this State Only Operating Permit may submit the information to Martin L. Hochhauser, P.E., Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA, 15222. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments,

Identification of the proposed Operating Permit (specify Operating Permit OP-32-00375), and

Concise statements regarding the relevancy of the information or objections to issuance of the Operating Permit.

All comments must be received prior to the close of business 30 days after the date of this publication. In accordance with 25 Pa. Code § 127.428, prior to issuing an operating permit, the Department may hold a fact-finding conference or hearing at which the petitioner, and a person who has properly filed a protest under § 127.426 (relating to filing protests) may appear and give testimony. The Department is not required to hold a conference or hearing. The applicant, the protestant and other participants will be notified of the time, place and purpose of a conference or hearing, in writing or by publication in a newspaper or the *Pennsylvania Bulletin*, unless the Department determines that notification by telephone will be sufficient.

32-00398: Western Allegheny Energy, LLC (301 Market Street, Kittanning, PA 16201), Natural Minor Operating Permit for the operation of a coal preparation plant, known as the Knob Creek Mine, located in Young Township, **Indiana County**.

The facility contains air contamination sources consisting of screens, conveyers, storage piles, and one 277-bhp emergency diesel generator engine. Raw coal throughput of the facility is limited to 800,000 tons per year. Facility emissions are 13.99 tons per year of PM10, 0.81 tons per year of NO_x, 0.08 tons per year of CO. The facility is limited to a maximum opacity from any processing equipment of 20 percent. The facility is subject to state requirements as well as 40 CFR 60, Subpart Y—Standards of Performance for Coal Preparation and Processing Plants and 40 CFR 60, Subpart IIII—Standards of Performance for Stationary Compression Ignition Internal Combustion Engines. The permit includes emission limitations, operational requirements, monitoring requirements, and recordkeeping requirements for the facility.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of this State Only Operating Permit may submit the information to Martin L. Hochhauser, P.E., Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA, 15222. Each written comment must contain the following:

63-00110: World Kitchen, Inc. (100 Eighth Street, Charleroi, PA 15022) In accordance with 25 Pa Code §§ 127.424 and 127.425 the Department of Environmental Protection (DEP) gives notice that they intend to issue a Synthetic Minor State Only Operating Permit (SOOP) to World Kitchen, Inc. to authorize the continued operation of a pressed and blown glass manufacturing facility at their Charleroi Plant located in Charleroi Boro, **Washington County**. The facility consists of systems for the receiving, batching and storage of raw materials (controlled with 3 baghouses), one melting tank with associated molding and mold swabbing operations, a chrome plating operation (controlled with a composite mesh pad), and miscellaneous natural gas combustion sources including 5 kilns, 4 firepolishers, 5 forehearths, and 1 lehr). To stay below major source thresholds, facility will limit the charge to the melting furnace and limit the use of sodium sulfate. Emissions from the facility, on a 12-month rolling basis, after taking synthetic minor limitations are limited to 35 tons PM₁₀, 95 tons SO_x, 65 tons NO_x, 10 tons VOC, 25 tons CO, 0.29 tons HF, 0.04 tons HCl, and 0.0094 tons Chromium.

The facility is subject to 60 CFR 63, Subpart N (related to chrome plating), 40 CFR 98, Subpart N (related to mandatory greenhouse gas reporting), and 25 Pa. Code Chapters 121—145. The proposed SOOP contains conditions related to restrictions, testing, monitoring, recordkeeping, reporting and work practice standards. DEP believes that these conditions ensure compliance with all applicable Federal and State regulations.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of the Operating Permit may submit the information to Barbara Hatch, Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA, 15222, 412-442-5226. S10-003: South Eastern Pennsylvania Transportation Authority, Berridge/Courtland Maintenance Shop. (at 200 West Wyoming Avenue, Philadelphia, PA 19140) for the operation of a public transportation in the City of Philadelphia, **Philadelphia County**. The facility's air emission source includes two each 12.553 MMBTU/hr boilers, two each 5.021 MMBTU/hr boilers, one 2.95 MMBTU/hr and one 3.95 MMBTU/hr heaters, and one 1 MMBTU/hr, two each 0.5 MMBTU/hr and nine each 1.21 MMBTU/hr hot water heaters, six pressure washers, two space heaters, one Catalyst Regeneration Unit, Stage 2 Vapor Recovery Units, Spray Booths, Printing Presses and a 200 KW emergency generator.

The operating permit will be issued under 25 Pa. Code, 3 Philadelphia Code and Air Management Regulation XIII. Permit copies and other supporting information are available for public inspection at AMS, 321 University Avenue, Philadelphia, PA 19104. For further information, contact Edward Wiener at (215) 685-9426.

Persons wishing to file protest or comments on the above operating permit must submit the protest or comments within 30 days from the date of this notice. Any protests or comments filed with AMS must include a concise statement of the objections to the permit issuance and the relevant facts upon which the objections are based. Based upon the information received during the public comment period, AMS may modify the operating permit or schedule a public hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a local newspaper at least thirty days before the hearing.

PLAN APPROVALS

Receipt of Plan Approval Applications and Intent to Issue Plan Approvals, and Intent to Issue Amended Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter B And Subchapter F. These actions may include the administrative amendments of an associated operating permit.

54-310-055: Richard E Pierson Construction Co., Inc.—Middleport Quarry (PO Box 4309, Woodstown, NJ 08098-0430) for replacement of a crushing plant with

a new crushing plant with water sprays at Middleport Quarry for their facility in Walker Township, **Schuylkill County**.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to Richard E Pierson Construction Company, Inc. (Middleport Quarry) (PO Box 4309, Woodstown, NJ 08098-0430) for their facility located in Walker Twp, Schuylkill County. This Plan Approval No. 54-310-053 will be incorporated into a Synthetic Minor Permit through an administrative amendment at a later date.

Plan Approval No. 54-310-055 is for the replacement of a crushing plant with a new crushing plant with water sprays at Middleport Quarry. The crushing operation is subject to NSPS Subpart OOO requirements. The company shall be subject to and comply with 25 Pa. Code § 123.31 for malodorous emissions. These limits will meet BAT requirements for this source. The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915.

Any person(s) wishing to provide DEP with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the address shown in the preceding paragraph. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed permit No.: 54-310-055.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Ray Kempa, Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915, Phone 570-826-2511 within 30 days after publication date.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.20a). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S.

§§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department. A copy of the application is available for inspection at the district mining office indicated before each application. Notices of requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application and request for Section 401 water quality certification application may be submitted by any person or any officer or head of any Federal, state or local government agency or authority to the Department at the address of the district mining office indicated before each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When an NPDES number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. A separate notice will be provided after the draft NPDES permit is prepared.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT

limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

NPDES No. PA0225070 on Surface Mining Permit No. 40663031. Jeddo-Highland Coal Company (46 Public Square, Suite 600, Wilkes-Barre, PA 18701) new NPDES Permit for an anthracite surface mine and coal refuse reprocessing operation in Foster Township, **Luzerne County**, affecting 536.0 acres. Receiving streams: Black Creek and Sand Run, classified for the following use: cold water fishes. Application received: October 7, 2011.

This permit is issued as a "Non-Discharge" permit with applicable BMP's.

Unless otherwise noted, the proposed effluent limits in this permit are BAT limits described above for coal mining activities.

The outfall(s) listed below discharge to Black Creek and Sandy Run.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the Commonwealth to certify that the involved projects will not violate the sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA, the issuance of a Dam Permit or Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment shall submit comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted before an application. Comments should contain the

name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on working days at the office noted before the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should

contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications Received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification under section 401(a) of the FWPCA.

WATER OBSTRUCTIONS AND ENCROACHMENTS

Northeast Region: Watershed Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, Telephone 570-826-2511.

E64-289. Ken & Kris Tanji, 285 East Shore Drive, Lake Ariel, PA 18436, in Lake Township, **Wayne County**, U.S. Army Corps of Engineers, Philadelphia District.

To remove the existing structure and to construct and maintain a boathouse cantilevered over approximately 1,220 square feet of Lake Ariel. The boathouse extends into the lake approximately 35 feet from the shoreline. The project is located at 285 East Lake Shore Drive (Lake Ariel, PA Quadrangle, Latitude: 41°26'56"; Longitude: -75°22'33").

E52-230. Municipal Authority of the Township of Westfall, 155 Westfall Town Drive, Matamoras, PA 18336, in Westfall Township, **Pike County**, U.S. Army Corps of Engineers, Philadelphia District.

To construct and maintain a sewage pump station in the floodplain of the Delaware River (WWF, MF). The project is located on the south side of Mountain Avenue approximately 0.2 mile west of its intersection with US Route 6 (Port Jervis South, NY-NJ-PA Quadrangle, Latitude: 41°21'31.8"; Longitude: -74°43'10").

E40-720. PPL Bell Bend, LLC, 38 Bombay Lane, Suite 2, Berwick, PA 18603, in Salem Township, **Luzerne County**, U.S. Army Corps of Engineers, Philadelphia District.

To authorize the following water obstructions and encroachments associated with the Bell Bend Nuclear Power Plant Project:

1. (Impact A) To remove the existing bridge and to construct and maintain a 60-foot wide, 5-span concrete vehicular bridge across the relocated Walker Run (CWF) and created riparian wetlands. The bridge has a 400-foot span and an approximate 11-foot underclearance. (Latitude: 41°05'10"; Longitude: -76°10'03")

2. (Impact B) To remove the existing vehicular bridge and to construct and maintain a 60-foot wide, 3-span concrete bridge across an UNT to Walker Run (CWF) and adjacent wetlands (EV). The bridge has a 408-foot span and an approximate 45-foot underclearance. (Latitude: 41°05'08"; Longitude: -76°09'46")

3. (Impact C) To construct and maintain a 10-foot wide, 4-span pre-fabricated metal truss utility bridge across an UNT to Walker Run (CWF) and adjacent wetlands (EV). The bridge has a 340-foot span and an approximate 30-foot underclearance and carries an 8-inch diameter DIP water line, a 10-inch diameter DIP sewer line, a 12-inch diameter cement lined DIP water line (fire) and four 6-inch diameter steel electrical conduits. (Latitude: 41°05'11"; Longitude: -76°09'40")

4. (Impact D) To construct and maintain a combined 87-foot wide, 4-span concrete vehicular bridge and adjacent utility bridge across an UNT to Walker Run (CWF) and adjacent wetlands (EV). The bridges have a 410-foot

span and an underclearance of 23 feet and 15 feet, respectively. (Latitude: 41°05'09"; Longitude: -76°09'27")

5. (Impact E) To construct and maintain a 28-foot wide, 6-span concrete railroad bridge across an UNT to Walker Run (CWF) and adjacent wetlands (EV). The bridge has a 535-foot span and an approximate 11-foot underclearance. (Latitude: 41°05'09"; Longitude: -76°09'25")

6. (Impact F) To construct and maintain a 60-foot wide, 5-span concrete bridge across approximately 390 feet of wetlands. The bridge has a 508-foot span and an approximate 10-foot underclearance. (Latitude: 41°04'55"; Longitude: -76°09'21")

7. (Impact G) To construct and maintain a stream enclosure of an UNT to Lake Took-a-While (CWF) consisting of a 125-foot long, 48-inch diameter reinforced concrete pipe with concrete endwalls for the purpose of constructing a railroad crossing. The invert will be depressed 6-inches below streambed elevation. (Latitude: 41°05'15"; Longitude: -76°08'37")

8. (Impact H) To remove the existing stream enclosure and to construct and maintain a stream enclosure of an UNT to Walker Run (CWF) consisting of a 428-foot long, 36-inch diameter reinforced concrete pipe with the invert depressed 12-inches below streambed elevation. (Latitude: 41°05'15"; Longitude: -76°09'41")

9. (Impact I) To fill 0.12 acre of wetlands for the purpose of constructing the proposed power block. (Latitude: 41°05'23"; Longitude: -76°10'05")

10. (Impact J) To fill 0.06 acre of wetlands for the purpose of constructing the switchyard expansion. (Latitude: 41°05'18"; Longitude: -76°08'55")

11. (Impact K) To fill 0.98 acre of wetlands and 617 feet of a tributary to the Susquehanna River known as the North Branch Canal Outfall Channel for the purpose of constructing the intake structure and associated parking and access road. (Latitude: 41°05'13"; Longitude: -76°07'58")

12. (Impact M) To construct and maintain a water intake and blowdown pipeline crossing of a tributary to the Susquehanna River known as the North Branch Canal Outfall Channel and approximately 950 feet of wetlands, temporarily impacting 0.78 acre of wetlands. (Latitude: 41°05'18"; Longitude: -76°08'00")

13. (Impact N) To construct and maintain an intake structure in and adjacent to the west bank of the Susquehanna River (WWF, MF). To excavate and maintain a 120-foot by 220-foot area along the west bank of the Susquehanna River to an approximate depth of 1-foot below the riverbed for the purpose of constructing the intake structure. (Latitude: 41°05'14"; Longitude: -76°07'52")

14. (Impact O) To construct and maintain a 24-inch diameter blowdown diffuser pipe anchored to a 116.5-foot long by 7-foot wide concrete pad set on the river bed covered with riprap. The pipe extends approximately 325 feet into the Susquehanna River (WWF, MF) from the shoreline. (Latitude: 41°05'06"; Longitude: -76°07'51")

15. (Impact P, Q & R) To construct and maintain various aerial transmission line crossings of wetlands throughout the project area. (Impact P—Latitude: 41°05'21"; Longitude: -76°09'42"; Impact Q—Latitude: 41°05'21"; Longitude: -76°09'21"; Impact R—Latitude: 41°05'03"; Longitude: -76°08'59")

16. (Impact U) To construct and maintain various stormwater outfalls to the Walker Run, Susquehanna River and tributaries thereto.

17. (Impact V) To relocate approximately 3,440 feet of Walker Run with the construction and maintenance of approximately 4,474 feet of new stream channel using natural stream design techniques.

The project includes 2.57 acres of permanent wetland impacts and 997 feet (0.21 acre) of permanent stream impacts. The project also includes 7.33 acres of temporary wetland impacts and 2,200 feet (1.42 acres) of temporary stream impacts.

The project is located approximately 4.5 miles northeast of the intersection of U.S. Route 11 and U.S. Route 93, directly south of Beach Grove Road and to the west and to the south of the existing PPL Nuclear Power Plant Facility. The project is bisected by Confers Lane (Berwick, PA Quadrangle Latitude: 41° 5' 17.57"; Longitude: -76° 9' 42.08") in Salem Township, Luzerne County.

E64-290. Tennessee Gas Pipeline Company, 1001 Louisiana Street, Houston, TX 77002, in Berlin Township & Palmyra Township, **Wayne County**, U.S. Army Corps of Engineers, Philadelphia District.

To construct and maintain 28 water obstructions and encroachments in and along Swamp Brook (HQ-CWF) and unnamed tributaries thereof, and unnamed tributaries to Indian Orchard Brook (HQ-CWF) and impacting approximately 4,700 linear feet of wetlands (PEM, PFO, PSS). This work is associated with Tennessee Gas Pipeline Company's Northeast Upgrade Project which includes the installation of approximately 21.83 miles of pipeline in Pennsylvania, of which 8.12 miles is located in Wayne County. The project begins approximately 0.10 mile west from the intersection of State Route 2001 and Adams Pond Road in Berlin Township and ends on the north side of Juniper Way approximately 0.80 mile north of the its intersection with State Route 0590 in Palmyra Township. (White Mills & Narrowsburg, PA Quadrangle, Latitude: Beginning 41° 33' 47.823" N, Ending 41° 29' 58.201" N; Longitude: Beginning -75° 11' 31.943" W, Ending -75° 08' 57.650" W).

E52-231. Tennessee Gas Pipeline Company, 1001 Louisiana Street, Houston, TX 77002, in Milford Township, Westfall Township & Lackawaxen Township, **Pike County**, U.S. Army Corps of Engineers, Philadelphia District.

To construct and maintain 94 water obstructions and encroachments in and along Tinkwig Creek (HQ-CWF) and unnamed tributaries thereof, West Falls Creek (HQ-CWF) and unnamed tributaries thereof, Pinchot Brook (EV) and unnamed tributaries thereof, Dimock Meadow Brook (EV) and unnamed tributaries thereof, Vandermark Creek (HQ-CWF) and unnamed tributaries thereof, Deep Brook (EV) and unnamed tributaries thereof, Delaware River (WWF) and unnamed tributaries thereof Cummins Creek (HQ-CWF) and unnamed tributaries thereof, Laurel Brook (HQ-CWF), Crawford Branch (HQ-CWF), Rosetown Creek (HQ-CWF), and unnamed tributaries to Vantine Brook (HQ-CWF) and impacting approximately 6,670 linear feet of wetlands (PEM, PFO, PSS). This work is associated with Tennessee Gas Pipeline Company's Northeast Upgrade Project Loops 321 and 323 which includes the installation of approximately 21.83 miles of pipeline in Pennsylvania, of which 9.27 miles is located in Pike County. The project begins on the north side of Juniper Way approximately 0.80 mile north of the its intersection with State Route 0590 in Lackawaxen Township and ends on the southeast side of U.S. Route 0209 approximately 0.70 mile southwest of the its intersection with U.S. Route 0006 in Milford Township (White Mills, Narrowsburg, Milford, Port Jervis South, PA Quadrangle,

Latitude: Beginning 41° 29' 58.201" N, Ending 41° 19' 45.260" N; Longitude: Beginning -75° 08' 57.650" W, Ending -74° 46' 14.907" W).

E45-568. Robert H. Grammes, P. O. Box 155, Kresgeville, PA 18333, in Polk Township, **Monroe County**, U.S. Army Corps of Engineers, Philadelphia District.

To maintain seven check dams and boulder bank stabilization in and along a 240-foot reach of a tributary to Pohopoco Creek (CWF, MF). The project is located on the west side of Keller Road (T429) approximately 0.3 mile south of its intersection with Beltzville Drive (Pohopoco Mountain, PA Quadrangle, Latitude: 40° 53' 49.5"; Longitude: -75° 31' 11.0") in Polk Township, Monroe County.

E05-362: Pa. Department of Transportation, Engineering District 9-0, 1620 North Juniata Street, Hollidaysburg, Pennsylvania 16648, in Snake Spring Township, **Bedford County**, Army Corps of Engineers, Baltimore District

To: 1) remove the existing structure, 2) construct and maintain a single span, prestressed concrete beam bridge skewed 80° having a normal clear span of 112.30 feet, a width of 31.40 feet, and an minimum underclearance of 7.28 feet across Cove Creek (EV, MF), 3) remove a gravel bar from Cove Creek (EV, MF) having a length of 175.0 feet, an average width of 35.0 feet, and an average depth of 1.5 feet, 4) stabilize approximately 73.0 feet of the left streambank and 71.0 feet of the right streambank of Cove Creek (EV, MF) with rock, and 5) temporarily impact 0.09 acre of PEM EV wetland, all for the purpose of improving transportation safety and roadway standards. The project will involve the use of two staged causeways for construction and demolition. The project is located along SR 1004 (Everett West, PA Quadrangle, N: 1.0 inch, W: 6.7 inches; Latitude: 40°00'20", Longitude: -78°25'21") in Snake Spring Township, Bedford County.

E21-424: Mount Holly Springs Borough Authority, 200 Harman Street, Mount Holly Springs, Pennsylvania 17065, in Mount Holly Springs Borough, **Cumberland County**, ACOE Baltimore District

To construct and maintain a blower platform with an area of 296.0 square feet, a screening chamber with an area of 428.0 square feet, an influent manhole with an area of 20.0 square feet, a decant pumping station and control panel with an area of 50.0 square feet, and 3,940.0 square feet of new paving; all within the 100-year FEMA floodplain of Mountain Creek (TSF, MF). The purpose of the project is to improve the existing Mount Holly Springs Borough Wastewater Treatment Plant. The project is located at 11 Mill Street in Mount Holly Springs Borough, Cumberland County (Mount Holly Springs, PA Quadrangle; N: 23.36 inches, W: 8.92 inches; Latitude: 40°07'23"; Longitude: -77°11'20").

E21-426: Susan E. Sanders, Shippensburg Public Library, 73 West King Street, Shippensburg, Pennsylvania 17257, in Shippensburg Borough, **Cumberland County**, ACOE Baltimore District

To remove an existing building and construct and maintain: 1) a building addition onto the existing library facility, a parking area, and a pedestrian bridge in the floodway of Middle Spring Creek (HQ-CWF, MF). The project is located at 73 West King Street in the Borough of Shippensburg, Cumberland County (Shippensburg, PA

Quadrangle; N: 9.03 inches, W: 3.27 inches; Latitude: 40°02'59", Longitude: -77°31'24"). The purpose of the project is to renovate and expand the public library.

E36-894: Pa. Department of Transportation, Engineering District 8-0, 2140 Herr Street, Harrisburg, Pennsylvania 17103, in Martic Township, **Lancaster County**, Army Corps of Engineers, Baltimore District

To: 1) remove the existing pipe and install and maintain a 7.6-foot x 4.8-foot reinforced concrete pipe culvert having a length of 30.0 feet in Clark Run (HQ-CWF, MF) at its confluence with Tucquan Creek (Holtwood, PA Quadrangle; N: 20.7 inches, W: 12.6 inches; Latitude: 39°51'51", Longitude: -76°20'23"), 2) relocate and maintain 205.0 feet of Clark Run (HQ-CWF, MF) upstream of the pipe culvert replacement (Holtwood, PA Quadrangle; N: 20.7 inches, W: 12.6 inches; Latitude: 39°51'51", Longitude: -76°20'23"), 3) relocate and maintain 325.0 feet of Clark Run (HQ-CWF, MF) upstream of the road crossing at Douts Hill Road (Holtwood, PA Quadrangle; N: 21.4 inches, W: 12.7 inches; Latitude: 39°52'5", Longitude: -76°20'26"), and 4) temporarily impact 0.01 acre of PEM EV wetland at the stream relocation at Douts Hill Road (Holtwood, PA Quadrangle; N: 21.4 inches, W: 12.7 inches; Latitude: 39°52'5", Longitude: -76°20'26"), all for the purpose of improving transportation safety. The project is located along SR 3017 (River Road) in the area of Tucquan Glen in Martic Township, Lancaster County.

E67-895: Kenneth and Elaine Beinhower, 260 Old York Road, New Cumberland, Pennsylvania 17070, in Fairview Township, **York County**, ACOE Baltimore District

To construct and maintain a 460.0-foot long, 48.0-inch reinforced concrete pipe in an unnamed tributary to Marsh Run (WWF, MF) for the purpose of providing a storage area of excess fill material. The project is located at the intersection of Marsh Run Road and State Route 1003 (Steelton, PA Quadrangle; N: 13.62 inches, W: 13.50 inches; Latitude: 40°12'00", Longitude: -76°50'48") in Fairview Township, York County.

ACTIONS

THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT
FINAL ACTIONS TAKEN FOR NPDES PERMITS AND WQM PERMITS

The Department has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and NOIs for coverage under General Permits. This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Wastes; Discharges to Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Description of Existing Activity: The application is for a renewal of an NPDES permit for an existing discharge of treated Sewage.

The receiving stream(s), the Tioga River, is located in State Water Plan watershed 4-A and is classified for Cold Water Fishes, aquatic life, water supply and recreation. The discharge is not expected to affect public water supplies.

The proposed effluent limits for Outfall 001 are based on a design flow of 1.3 MGD:

Parameters	Mass (lb/day)			Concentration (mg/l)		
	Average Monthly	Weekly Average	Minimum	Average Monthly	Weekly Average	Instant. Maximum
Flow (MGD)	Report	Report Daily Max	XXX	XXX	XXX	XXX
pH (S.U.)	XXX	XXX	6.0	XXX	XXX	9.0
Total Residual Chlorine	XXX	XXX	XXX	0.5	XXX	1.6
COD ₅	270	430	XXX	25	40	50
Total Suspended Solids	320	485	XXX	30	45	60
Fecal Coliform (CFU/100 ml)				200		
May 1 - Sep 30	XXX	XXX	XXX	Geo Mean 2,000	XXX	1,000
Oct 1 - Apr 30	XXX	XXX	XXX	Geo Mean	XXX	10,000
Total Phosphorus	21	32	XXX	2.0	3.0	4.0

The proposed monitoring requirements and, where appropriate, effluent limits for implementation of the Chesapeake Bay Tributary Strategy are as follows for Outfall 001:

Parameters	Mass (lbs)			Concentration (mg/l)	
	Monthly	Annual	Minimum	Monthly Average	Maximum
Ammonia—N	Report	Report		Report	
Kjeldahl—N	Report			Report	
Nitrate-Nitrite as N	Report			Report	
Total Nitrogen	Report	Report		Report	
Total Phosphorus	Report	Report		Report	
Net Total Nitrogen	Report	23744		Report	
Net Total Phosphorus	Report	3166			

* This permit contains conditions which authorize the permittee to apply nutrient reduction credits to meet the Net Total Nitrogen and the Net Total Phosphorus effluent mass limits, under the Department's Trading of Nutrients and Sediment Reduction Credits Policy and Guidelines (Document #392-0900-001, December 30, 2006). The condition includes the requirement to report the application of these credits in Supplemental Discharge Monitoring Reports (DMRs) submitted to the Department.

* The compliance date for Net Total Nitrogen and Net Total Phosphorus will begin on 9/30/2012. Since these reporting requirements are annual loads, the reporting on compliance with the annual limitations will be required to be reported on the Supplemental DMR—Annual Nutrient Summary by November 28, 2012.

In addition, the permit contains the following major special conditions:

- Solids Management
- CSO Conditions
- Chesapeake Bay Requirements

You may make an appointment to review the DEP files on this case by calling the File Review Coordinator at 570-327-3693.

The EPA Waiver is not in effect.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board’s rules of practice and procedure may be obtained from the Board. The appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in

and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Proposed Interim Response

Berkley Products Company Plant Site, West Earl Township and Akron Borough, Lancaster County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) is proposing an interim response at the Berkley Products Company Plant Site, 405 South 7th Street, Akron PA 17501.

The Berkley Products Company Site (Berkley) is located at 405 South 7th Street in West Earl Township and is bordered by the Borough of Akron, Lancaster County, Pennsylvania. The approximately 2.5 acre facility is located on a hillside sloping from South 7th Street at the front to South 9th Street at the rear. Residential properties surround most of the site, but a few commercial properties are also present. Berkley is an operating facility producing customized coatings and has manufac-

tured coatings at the facility since 1955. During most of their operation, solvents were used as drying agents in the coatings and for cleaning the manufacturing equipment. In 1980, Berkley submitted a Part A Application for Resource Conservation and Recovery Act (RCRA) Interim Status as a treatment and storage facility. By then Berkley was blending waste for cement kiln fuel and consolidating waste for shipment to various disposal facilities. The waste streams included toluene, trichloroethene (TCE), other individual solvents and chemicals, and solvent and chemical mixtures. The facility is in the RCRA Corrective Action Program, but is financially unable to address environmental problems. Soil, groundwater, and surface water contamination have been identified.

The proposed response will consist of excavation and offsite disposal of all contaminated soil that exceeds statewide health standards under Chapter 250 Title 25 of the Land Recycling and Remediation Standards Act. The Department considered consolidation and capping or excavation and off-site thermal desorption before selecting the proposed response. The proposed response for groundwater contamination consists of in-situ chemical oxidation of groundwater plume hotspots, enhanced in-situ bioremediation, institutional controls, and monitored natural attenuation. After the in-situ injections, continued monitoring and further injections as necessary to attain the groundwater statewide health standards will be conducted as operation and maintenance activities. Groundwater monitoring will be initiated to track the groundwater remediation progress. After groundwater has attained the remediation standards at the property boundary, monitored natural attenuation will over time return the groundwater beneath the plant property to the maximum beneficial use of the groundwater as the long term final remediation goal. Institutional controls will be utilized to restrict groundwater use and ensure the use of vapor mitigation systems installed in the affected and potentially affected residences under a previous HSCA interim response. The Department considered the proposed groundwater response actions individually and in alternate combinations before selecting the proposed response.

The Department is providing this notice under sections 505(b) and 506(b) of HSCA (35 P. S. Sections 6020.505(b) and 6020.506(b)), and the publication of this notice starts the administrative record period under HSCA. The Administrative Record which contains information about this site and which supports the Department's decision to perform this action at the site is available for public review and comment. The Administrative Record can be examined from 8 a.m. to 4 p.m. at the Department's Southcentral Regional Office located at 909 Elmerton Avenue, Harrisburg, PA 17110, by contacting David Hrobuchak, at (717) 705-4843. The Administrative Record may also be reviewed at the Akron Borough Municipal Office, 117 South Seventh Street, Akron, PA 17501, by calling (717) 859-1600.

The Administrative Record will be open for comment beginning December 17, 2011, and will remain open for 90 days. Persons may submit written comments regarding this action to the Department before March 16, 2012, by mailing them to Mr. Hrobuchak at the Department's Southcentral Regional Office address.

The public will have an opportunity to present oral comments regarding the proposed action at a public hearing. The hearing has been scheduled for January 25, 2012, at 7 p.m. at the Akron Elementary School, 125 South 11th Street, Akron, PA. Persons wishing to present

formal oral comments at the hearing should register before 4 p.m., January 20, 2012, by calling Mr. Hrobuchak at the above number. An informational meeting will be held prior to the hearing.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should call Mr. Hrobuchak at the above number or through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the

25-00967: Spectrum Control, Inc. (8061 Avonia Road, Fairview, PA 16415) on November 30, 2011, for revocation of their State Operating Permit for the electronic connector manufacturing facility in Fairview Township, **Erie County**. The plant removed the TCE degreaser (Source 102) which previously was approved under a plan approval. The facility has two degreasers that use N-Propyl Bromide and one degreaser that uses N-Methyl-pyrrolidone. The degreasers were exempt from plan approval because the VOC combined emissions are less than 2.7 TPY and there are no HAPs. The facility no longer requires a plan approval and the operating permit was therefore revoked.

ACTIONS ON COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Actions on applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law; the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.20a). The final action on each application also constitutes action on the NPDES permit application and, if noted, the request for a Section 401 Water Quality Certification. Mining activity permits issued in response to applications will also address the application permitting requirements of the following statutes: the Air Quality Pollution Act (35 P. S. §§ 4001—4014); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1002).

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in

and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

The project will result in 61 linear feet of temporary stream impacts and 21,191 square feet (0.49 acres) of PEM/PSS wetland impacts all for the purpose of installing a natural gas pipeline and a water line with associated access roadways.

E4129-017 EXCO Resources (PA), LLC, 3000 Ericson Drive, Suite 200, Warrendale, PA 15086, Mifflin Township, **Lycoming County**, ACOE Baltimore District.

To construct, operate, and maintain a surface water withdrawal along Larry's Creek (EV) adjacent to the intersection of Route 973 and Quenshukeny Road (Saladasburg Quadrangle 41°17'51"N 77°11'52"W). The proposed withdrawal will include two submersible pumps with related materials placed on the stream bed. The project will result in 66 square feet of stream impact all for the purpose of obtaining water for use to develop multiple Marcellus Shale wells.

E4129-013: Chief Gathering, LLC, 6051 Wallace Road, Suite 210, Wexford, PA 15090, Franklin & Jordan Townships, **Lycoming County**, ACOE Baltimore District.

To construct, operate, and maintain:

(1) one 12 inch gas pipeline impacting 76 linear feet of an unnamed tributary to Little Muncy Creek (CWF, MF) and 485 square feet of adjacent palustrine forested (PFO) wetland (Lairdsville Quadrangle 41°14'16"N 76°35'57"W),

(2) one 12 inch gas pipeline across an unnamed tributary to Little Muncy Creek (CWF, MF) impacting 64 linear feet (Lairdsville Quadrangle 41°14'01"N 76°35'12"W),

(3) one 12 inch gas pipeline across an unnamed tributary to Little Muncy Creek (CWF, MF) impacting 63 linear feet (Lairdsville Quadrangle 41°13'36"N 76°34'16"W),

(4) one 12 inch gas pipeline across an unnamed tributary to Little Muncy Creek (CWF, MF) impacting 65 linear feet (Lairdsville Quadrangle 41°13'29"N 76°34'16"W),

(5) one 12 inch gas pipeline across an unnamed tributary to German Run (CWF, MF) impacting 69 linear feet (Lairdsville Quadrangle 41°12'15"N 76°35'09"W),

(6) one 12 inch gas pipeline impacting 352 square feet of a palustrine emergent (PEM) wetland adjacent to an

unnamed tributary to German Run (Lairdsville Quadrangle 41°12'14"N 76°35'09"W),

(7) one 12 inch gas pipeline across an unnamed tributary to German Run (CWF, MF) impacting 63 linear feet (Lairdsville Quadrangle 41°12'11"N 76°35'16"W),

(8) one 12 inch gas pipeline impacting 3562 square feet of a palustrine emergent (PEM) wetland adjacent to an unnamed tributary to German Run (Lairdsville Quadrangle 41°12'28"N 76°35'52"W),

(9) one 12 inch gas pipeline across an unnamed tributary to German Run (CWF, MF) impacting 62 linear feet (Lairdsville Quadrangle 41°12'30"N 76°35'52"W),

(10) one 12 inch gas pipeline across an unnamed tributary to German Run (CWF, MF) impacting 79 linear feet (Lairdsville Quadrangle 41°12'34"N 76°36'09"W),

(11) one 12 inch gas pipeline across an unnamed tributary to Little Muncy Creek (CWF, MF) impacting 81 linear feet (Lairdsville Quadrangle 41°13'12"N 76°34'07"W),

(12) one 12 inch gas pipeline across an unnamed tributary to West Branch Run (CWF, MF) impacting 26 linear feet (Lairdsville Quadrangle 41°12'51"N 76°32'53"W).

The project will result in 648 linear feet of temporary stream impacts and 4399 square feet of wetland impacts from utility line crossings. These crossings will accumulate a total of 0.09 acres of watercourse impacts and 0.10 acres of wetland impacts all for the purpose of installing a natural gas gathering line with associated access roadways for Marcellus well development.

E4129-015 Southwestern Energy Production Company, 2350 North Sam Houston Parkway East, Suite 125, Houston, Texas 77032, Jackson Township, **Lycoming County**, ACOE Baltimore District.

To construct, operate, and maintain a surface water withdrawal along Blockhouse Creek (EV) adjacent to Route 284 west of Route 15 (White Pine Quadrangle 41°29'48"N 77°10'06"W). The proposed withdrawal will include the construction of an 18 inch diameter T-intake set below the stream bed and a temporary cofferdam. The project will result in 737 square feet of temporary stream impacts all for the purpose of obtaining water to use to develop multiple Marcellus Shale wells.

EROSION AND SEDIMENT CONTROL

The following Erosion and Sediment Control permits have been issued.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Issuance of a General Permit to Conduct Research and Development Involving the Beneficial Use of Residual Waste (WMGR097R017)

Under the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904) and residual waste regulations for a General Permit to operate residual waste processing facilities and the beneficial use of residual waste other than coal ash, the Department of Environmental Protection (Department) by this notice informs the public of the issuance of General Permit Number WMGR097R017 to

Clean Earth, Inc., 334 South Warminster Road, Hatboro, PA 19040; Site: 212 Colvin Road, Williamsport, PA 17701. This permit is for research and development activities to support the processing prior to beneficial use of residual waste. The project involves stabilizing drill cuttings using cement, diatomaceous earth, soils, sands, clays, vermiculite, lime, lime kiln dust, cement kiln dust and coal ash for beneficial use at brownfield remediation sites. The permit was issued by the Department on November 29, 2011.

Persons interested in reviewing the general permit may contact Scott E. Walters, Chief, General Permits/Beneficial Use Section, Division of Municipal and Residual Waste, Bureau of Waste Management, P. O. Box 8472, Harrisburg, PA 17105-8472, (717) 787-7381. Nutrient Credit Trading Program; Notice of Certification Request

The Department of Environmental Protection (Department) provides notice of the following certification request that has been submitted under the Nutrient Credit Trading Program (Trading Program). See 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution reduction activities in the Chesapeake Bay Watershed), published at 40 Pa.B. 5790 (October 9, 2010).

Nutrient credit trading is a market-based program that provides incentives for entities to create nutrient reduction credits (credits) by going beyond statutory, regulatory or voluntary obligations and goals to remove nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients.

The information described in this notice relates to a certification request submitted from November 21, 2011, through November 30, 2011.

Background

Before a credit can be used by an NPDES permittee, a three-step process is followed: (1) the certification request must be approved; (2) generation of the credits must be verified; and (3) the credits must be registered.

Approval is also known as certification, which is a written approval by the Department for the use of a pollutant reduction activity to generate credits. Certifications are based on at least: (1) a written request describing the qualifying pollutant reduction activity that will reduce the pollutant loadings delivered to the applicable watershed; (2) the calculation to quantify the pounds of reductions expected; and (3) a verification plan that, when implemented, ensures that the qualifying pollutant reduction activity has taken place.

Once the credits are certified, they must be verified to be applied toward an NPDES permit for compliance with effluent limits. Verification means implementation of the verification plan contained in the certification. Verification plans require annual submittal of documentation to the Department that demonstrates that the qualifying pollutant reduction activity has taken place for the applicable compliance year.

The credits also need to be registered by the Department before they can be applied toward an NPDES permit for compliance with effluent limits. Registration occurs only after credits have been certified, verified and a contract has been submitted. The Department registers credits for use during the compliance year in which the qualifying pollutant reduction activity has taken place. The Department provides registered credits with an annual registry number for reporting and tracking purposes.

Certification Request

The following request is being reviewed by the Department. The Department will accept written comments on this proposed pollutant reduction activity for 30 days.

Applicant

TeamAg, Inc. on behalf of Oregon Dairy Farm, LLC and in coordination with Lancaster Farmland Trust

Pollution Reduction Activity Description

This certification request is for nutrient reduction credits to be generated from the pollutant reduction activity of continuous no-till and cover crops.

Written Comments

Interested persons may submit written comment on this proposed pollutant reduction activity by January 17, 2012. The Department will accept comments submitted by e-mail, but comments submitted by facsimile will not be accepted. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Ann Roda, Interstate Waters Office, Department of Environmental Protection, P. O. Box 2063, Harrisburg, PA 17105-2063, (717) 787-4785, aroda@pa.gov.

For further information about this certification request or the Trading Program contact Ann Roda, at the previ-

ously listed address or phone number or visit the Department's web site at www.depweb.state.pa.us (DEP Keywords: "Nutrient Trading").

Nutrient Credit Trading Program; Notice of Registration

The Department of Environmental Protection (Department) provides notice of the following credit registrations recorded under the Nutrient Credit Trading Program (Trading Program). The request for registrations were submitted under 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution reduction activities in the Chesapeake Bay Watershed), published at 40 Pa.B. 5790 (October 9, 2010).

Nutrient trading is a market-based program that provides incentives for entities to create nutrient reduction credits by going beyond statutory, regulatory or voluntary obligations and goals by removing nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System permittees to meet their effluent limits for nutrients and sediment. Currently, the focus of the program is on the Chesapeake Bay Watershed.

This notice relates to the registrations of credits through November 30, 2011. For background information related to these credits, see the Department's certifications published at:

- 40 Pa.B. 5021 (August 28, 2010)—ElectroCell Technologies, Inc.
- 41 Pa.B. 3939 (July 16, 2011)—Wyoming Valley Sanitary Authority

The Department has registered the following credits.

<i>Seller/Generator</i>	<i>Location of Use</i>	<i>Credits Registered</i>	<i>Credit Generating Activity / Generator</i>	<i>Compliance Year</i>
ElectroCell Technologies, Inc.	Elkland Borough, Elkland, PA	1,722 Nitrogen	The operation of the Patz® OZy™ unit on a farm located in Lancaster County and the land applied nutrients.	October 2010—September 2011

Pennsylvania's Draft Phase 2 Chesapeake Bay Watershed Implementation Plan

The United States Environmental Protection Agency (EPA) published on December 29, 2010, the Chesapeake Bay Total Maximum Daily Load (TMDL) for nutrients (nitrogen and phosphorus) and sediment. The six watershed states and the District of Columbia submitted Phase 1 Chesapeake Watershed Implementation Plans (WIP) to show how the states and the District of Columbia, in partnership with Federal and local governments, will achieve and maintain the TMDL nitrogen, phosphorus and sediment limits necessary to meet Chesapeake Bay water quality standards.

Pennsylvania's Phase 1 Chesapeake WIP (Phase 1 WIP) outlined the State's plan to address nutrient and sediment loadings that drain to the Chesapeake Bay. The Phase 1 WIP was prepared following the EPA's November 4, 2009, guidance that outlined their expectations for WIPs, and was revised based on public comments, workgroup input and comments received from the EPA. Pennsylvania's Phase 1 WIP was prepared to address the EPA's expectations for the TMDL. The Phase 1 WIP is based on a foundation that addresses three core elements: 1) milestone implementation and tracking; 2) supporting the implementation of advanced technologies and nutrient trading; and 3) enhancing common sense compliance efforts. The Phase 1 WIP was prepared through an open process that solicited significant input from a variety of constituency groups.

The EPA announced on August 1, 2011, revised nutrient and sediment allocations for the Chesapeake Bay TMDL. The allocations are the result of the EPA's development of a revised Chesapeake Bay Watershed Model. Using the revised allocations, the EPA's "Guide for Chesapeake Bay Jurisdictions for the Development of Phase II Watershed Implementation Plans" issued on March 30, 2011, and the EPA's October 17, 2011, "Questions & Answers: Phase 2 WIPs," the EPA expects the states to develop a Phase 2 WIP so that local partners: (1) are aware of the WIP strategies; (2) understand their contribution to meeting the TMDL allocations; and (3) have been provided the opportunity to suggest any refinements to the WIP strategies. The EPA has established a December 15, 2011, deadline for submission of the draft Phase 2 Chesapeake WIP, and a March 30, 2012, deadline for the final plan. The EPA expects the Phase 2 Chesapeake WIP to contain greater detail about the first stage of implementation, which will last from when the EPA established the Chesapeake Bay TMDL in December 2010 until 2017.

The Department of Environmental Protection (Department) submitted the Commonwealth's draft Phase 2 WIP to the EPA on December 15, 2011. In developing the draft Phase 2 WIP, the process provided a valuable opportunity for the Department to interact with Commonwealth leaders from local-level organizations such as conservation districts, municipalities, planning commissions and authorities. The Department's general approach was to engage groups in discussions about the level of effort needed to meet TMDL goals. The discussions resulted in the Department receiving valuable new input and ideas that shaped the formation of this draft Phase 2 WIP.

Interested persons are invited to submit written comments regarding the draft Phase 2 WIP from December 17, 2011, through January 30, 2012. Notice of availability of the draft Phase 2 WIP for public comment has been posted on the Department's web site at www.depweb.state.pa.us (DEP Keywords: Chesapeake Bay). Comments submitted by facsimile will not be accepted. Written comments should be submitted to the Department of Environmental Protection, Interstate Waters Office, P. O. Box 2063, Harrisburg, PA 17105-2063 or ep-chesapeakebayprogram@pa.gov. A return name and address must be included in each e-mail transmission.

Questions regarding the draft Phase 2 WIP should be directed to the Interstate Waters Office at (717) 772-4785 or at the e-mail address provided previously.

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agencies must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Pennsylvania Gaming Control Board Regulation #125-156 (IRRC #2914)

Practice and Procedure; Server Supported Slot Systems; Compulsive and Problem Gambling

December 7, 2011

We submit for your consideration the following comments on the proposed rulemaking published in the October 8, 2011 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

1. Section 403a.7. Temporary emergency orders.— Clarity.

Subsection (h)

This subsection states an informational hearing will be held at “a location determined by the Executive Director or a designee.” How will the notice of the location be conveyed to the person affected? Is this notice required to be in writing?

Existing Subsection (l)

Existing Subsection (l) discusses required procedures relating to the disposition of a temporary emergency order, and included in Paragraphs (2) and (3) is the role of the Office of Enforcement Counsel. In the Preamble, the Board explains it is proposing to delete Subsection (l) because it is duplicative of hearing procedures in Chapter 494a. We did not find any direct reference to the Office of Enforcement Counsel in Chapter 494a. The Board should explain how the role of the Office of Enforcement Counsel is adequately addressed in Chapter 494a.

Existing Subsection (o)

This existing subsection states that “any resolution adopted is a final order of the Board for purposes of appeal.” In the Preamble, the Board states this provision is being deleted since the forms of service are addressed in Section 491a.5. While Section 491a.5 addresses service, it does not appear to contain an equivalent provision stating “any resolution adopted is a final order of the Board for purposes of appeal.” The Board should review the deletion of existing Subsection (o) and further explain why this provision is not needed.

2. Section 437a.2. Gaming service provider registration applications.—Clarity.

Subsection (e) requires reimbursement for “additional” costs. It is not clear what costs are involved and what specific “additional” costs must be reimbursed. The same concern applies to Subsection 437a.3(c). The Board should clarify these provisions.

3. Section 461a.1. Definitions.—Clarity.

Section 1.7(e) of the *Pennsylvania Code and Bulletin Style Manual* states, “The term being defined may not be included as part of the definition.” The definitions of “server supported slot machine,” “server supported slot system” and “slot machine server” use the terms being defined. We recognize that these definitions are being moved from existing Subsection 461a.20(a) and are similar to the existing definitions. However, for clarity, we ask the Board to review these definitions and amend them to conform to the *Pennsylvania Code and Bulletin Style Manual*.

4. Section 461a.20. Server supported slot systems.—Clarity and Ambiguity.

Clarity of approvals

Throughout this proposed section, licensed facilities that hold table game operation certificates (certificate holders) are required to obtain certain approvals from the Board or the Bureau of Gaming Laboratory Operations. For example, Section 461a.20(g) states, in part, the following: “. . . terminals in secure, restricted locations within the licensed facility as approved by the Bureau of Gaming Laboratory Operations.” We are concerned that the proposed rulemaking does not include the procedures for obtaining the necessary approvals. To assist the regulated community in understanding how to submit the requests for certain approvals, we suggest that the final-form regulation include the procedures or appropriate cross-references to where the procedures can be found. We have identified the following sections that contain references to approvals:

- § 461a.20(b)(1)
- § 461a.20(e)
- § 461a.20(f)
- § 461a.20(g)
- § 461a.20(k)(1)
- § 461a.20(m)
- § 461a.20(n)

General requirements in this chapter

Subsection (a) states a licensee may use a server supported slot system that complies with Section 461a.7 “and the general requirements of this chapter.” The phrase “and the general requirements of this chapter” is vague. The Board should either delete this phrase or replace it with specific cross-references to the provisions a server supported slot system must meet.

As directed by the Board

Paragraph (a)(2) requires a server supported slot system to automatically verify the authenticity of copies every 24 hours “and as directed by the Board.” It is not clear what the phrase “and as directed by the Board” means. As written, this phrase could supersede the requirements of the regulation. We recommend deleting this phrase.

5. Section 491a.2. Definitions.—Clarity.

The Board should review the definition of “consent agreement.” It is not clear what is intended by the phrase “a voluntary agreement or proposal to an act . . .”

6. Section 493a.9. Preliminary motions.—Need; Clarity.

Existing Subsection (f) states it “supplements” 1 Pa. Code §§ 35.177—35.180. The Board is amending Subsection (f) to state it now “supersedes” 1 Pa. Code §§ 35.177—35.180. Similar amendments are shown in Subsections 493a.10(e) and 494a.4(e). We did not see an explanation of these amendments in the Preamble. Why is the Board making these amendments?

7. Section 494a.7. Exceptions.—Reasonableness.

We question whether this section allows enough time for the presiding officer to issue a supplemental report and recommendation. A response can be filed under Subsection (d) on day 15 after the date of service of the exceptions. Under Subsection (f), the presiding officer must issue a supplemental report and recommendation “within 20 days of receipt of exceptions unless exigent circumstances require a longer period of time.” Under these timeframes, the presiding officer may only have five days after receiving a response to exceptions to issue a supplemental report and recommendation. We are concerned that in practice it may be more common to extend the 20-day time period than to meet it. We recommend that the Board review the timeframes in Section 494a.7 and explain why they are reasonable.

8. Section 495a.2. Form of documents.—Reasonableness.

Subsection (a), as amended, states the Board may establish requirements for pleadings filed with the Clerk and Subsection (b) states that Subsection (a) supersedes 1 Pa. Code § 33.2. As amended, Section 495a.2 would allow the Board to amend the requirements without notice and no longer state how a person can find the most current requirements. We recommend that the Board either not amend Section 495a.2 or, alternatively, amend it so that persons can readily receive notice of the Board’s requirements and comply with it.

9. Section 495a.6. Number of copies.—Clarity.

Subsection (b) provides for electronic filings, but does not specify what types of electronic filings the Board will accept, such as email. We recommend that this section specify or cross-reference what electronic filings will be accepted.

10. Section 501a.4. Reports.—Clarity.

Subparagraph (b)(4)(v) is vague by requiring “other information as requested by the Director of OCPG.” The Board should delete this subparagraph or amend it to require specific information related to the annual summary.

11. Section 511a.3. Criteria for exclusion.—Clarity.

Subparagraph (a)(4)(iv) uses the vague phrase “in close proximity” to the licensed facility. It is not clear what would constitute a violation of this provision. The Board should replace the phrase “in close proximity” with a clear standard so that the regulated community can comply and the Board can enforce this standard.

Insurance Services Office, Inc.; Private Passenger Automobile; Alternative Rating Plan; Rate Filing

On November 29, 2011, the Insurance Department (Department) received from Insurance Services Office, Inc. (ISO) a filing for an alternative rating plan to the standard ISO Personal Vehicle Manual rating system.

The model underlying the proposed Risk Analyzer Personal Auto Rating Plan Manual is based on a wide variety of characteristics affecting the risk of loss, such as traffic density, driving patterns, topography and weather. This alternate rating plan is not being filed on behalf of insurers and will not be incorporated into ISO's Personal Vehicle Manual or Personal Auto Program. ISO participating insurers that would elect to adopt this alternative rating plan would need to file with the Department to do so and establish their own effective date for their introduction of the plan. The filing provides information to enable the adoption of the plan on a revenue neutral basis with, at most, a +/- 15% deviation from the current territorial rates for an individual consumer.

Relief Plan for the 717 NPA

Public Meeting held
December 1, 2011

Commissioners Present: Robert F. Powelson, Chairperson; John F. Coleman, Jr., Vice Chairperson; Wayne E. Gardner; James H. Cawley; Pamela A. Witmer

Relief Plan for the 717 NPA; P-2009-2136951

Final Order

By the Commission:

Before the Commission is a petition that was filed on behalf of the Pennsylvania telecommunications industry on October 20, 2009 for approval of a relief plan to implement an all services distributed overlay in the 717 area code. In October 2011, the Federal Communications Commission (FCC) released the updated projected forecasts prepared by the North American Numbering Plan Administrator (NANPA) for Pennsylvania's ten area codes. Given that the projected forecast for the exhaustion of the 717 area code has been extended from the previously reported date of the third quarter of 2012 to the fourth quarter of 2016, we are dismissing the 717 area code relief petition filed on October 20, 2009.

Background

History of Area Code Relief for the 717 NPA

A. The Geographic Split of the 717 Area Code

The 717 NPA is one of Pennsylvania's original four area codes. On June 28, 1996, the telecommunications industry asked the Commission to decide how to relieve the shortage of numbering resources or NXX codes in the 717 NPA as the industry could not reach a consensus.¹ The unavailability of NXX codes² for assignment to telecommunications carriers in a given area code leads to the exhaust of that area code. Accordingly, the Commission opened a docket at P-00961071 that ultimately led to the geographic split of the 717 NPA in 1999.³ Accordingly, the 717 NPA presently includes all or part of the following

¹ A consensus is established when substantial agreement has been reached. Substantial agreement means more than a simple majority, but not necessarily unanimity. CLC Principles and Procedures, May 1998, at § 6.8.8.

² An NXX code comprises 10,000 telephone numbers in a specific area code and is identified by the second set of three digits in a ten-digit telephone number, NPA-NXX-XXXX.

³ The geographic split of the 717 NPA resulted in the creation of the 570 NPA. See Petition of NPA Relief Coordinator Re: 717 Area Code Relief Plan, Docket No. P-00961071 (Order entered May 21, 1998).

counties: Mifflin, Juniata, Perry, Dauphin, Lebanon, Berks, Fulton, Franklin, Cumberland, Adams, York and Lancaster.

B. The May 29, 2001 Industry Relief Plan

Despite the area code relief that had just been implemented for the 717 NPA in the prior year, in May of 2000, the telecommunications industry was advised by the NANPA,⁴ Neustar, Inc., in its role as the neutral third party NPA Relief Planner for Pennsylvania, that relief planning for the 717 NPA was again necessary in light of the fact that the area code was expected to exhaust by the second quarter of 2001. Relief planning was necessary under the INC Guidelines,⁵ which provide that when the projected exhaust date of an area code is to occur within 36 months, the NANPA is required to prepare relief options and to conduct an industry meeting with the goal of reaching industry consensus regarding the form of relief for the NPA.

On February 20, 2001, Neustar notified the industry that a meeting was necessary to discuss relief alternatives for the 717 NPA. The meeting was convened on April 18, 2001. After discussion of several alternatives, the industry reached a consensus to adopt an all services distributed overlay⁶ as the form of relief for the 717 NPA. However, by that time, the projected exhaust date for the 717 NPA had been pushed forward to the fourth quarter of 2003, which was still within the 3-year time-period required by the INC Guidelines. Accordingly, On May 29, 2001, Neustar, acting on behalf of the Pennsylvania telecommunications industry, filed a petition with the Commission requesting approval of its relief plan to implement an overlay for the geographic area covered by 717 NPA.

On September 5, 2001, the Commission entered an Order at the above-captioned docket seeking comments from interested parties regarding what type of relief should be implemented in the 717 NPA and when this relief should be implemented.

While the May 29, 2001 industry relief plan was pending before the Commission, the 717 NPA experienced an unprecedented and efficient use of numbering resources due to the implementation of 1,000-block number pooling⁷ and other number conservation measures such as NXX code reclamation.⁸ Furthermore, the FCC mandated that all wireless carriers participate in pooling as of

⁴ The NANPA is the entity that allocates numbering resources and monitors the viability of area codes to determine when all of the telephone numbers (or NXX codes) available in the area code are nearing exhaust.

⁵ The Industry Numbering Committee Guidelines provide that when an area code is nearing exhaust, the NANPA, which then becomes the NPA Relief Planner, convenes a meeting of the industry to discuss relief alternatives. NPA Code Relief Planning & Notification Guidelines, INC97-0404-016, reissued Nov. 8, 1999, at § 5.5. If the industry reaches a consensus, then its consensus plan is filed with the Commission and the Commission has an opportunity to take action at that point. NPA Code Relief Planning & Notification Guidelines, INC97-0404-016, reissued Nov. 8, 1999, at § 5.6.

⁶ An overlay is when a new area code is introduced to serve the same geographic area as the existing area code. NPA Code Relief Planning & Notification Guidelines, INC97-0404-026, June 21, 2002 at § 6.3. With the overlay method, 10-digit local dialing is required by federal rules. 47 CFR § 52.19(c)(3)(ii).

⁷ Thousand-block number pooling is the process by which a 10,000 block of numbers is separated into ten sequential blocks of 1,000 numbers and allocated separately to providers within a rate center. See Petition of Representative Keith R. McCall and Members of the Northeast Delegation of the Pennsylvania House of Representatives Requesting that Additional Authority be Delegated to the Pennsylvania Public Utility Commission to Implement Additional Number Conservation Measures, CC Docket No. 99-200 and NSD-L-01-113 (Order released December 28, 2001) (McCall Order). By order entered on August 9, 2001 at Docket No. M-00001427, the Commission, with the consensus of the industry, ordered the implementation of a voluntary pool in 717, which subsequently became mandatory at the direction of the FCC in the McCall Order. Accordingly, the Commission implemented mandatory 1,000-block pooling in the 717 NPA in March of 2002.

⁸ NXX code reclamation involves the return of unused NXX codes to the NANPA. Within six months of receiving an NXX code, a carrier must assign at least one number to an end user or the entire NXX code must be returned to the NANPA. 47 C.F.R. § 52.15(g)(iii). The Commission implemented NXX code reclamation in the 717 NPA in August of 2000.

November 24, 2002.⁹ Presently, wireless carriers implemented pooling and were participating in Pennsylvania's mandatory pools, including the numbering pool in 717.

As a result of these number conservation measures, in May of 2003, the NANPA again revised the projected exhaust date for the 717 NPA to the fourth quarter of 2007, which was now more than four years away. Consequently, by Order entered April 1, 2003, the Commission dismissed the May 29, 2001 industry relief plan.

C. 2009 Relief Planning for the 717 NPA

The April NRUF (Number Resource Utilization Forecast) and NPA Exhaust Analysis April 24, 2009 Update ("April 2009 NRUF Report") indicated that the 717 NPA would exhaust during the third quarter of 2012. Based upon the projected exhaust date, NANPA notified the Commission and the Industry on July 1, 2009, that NPA relief needed to be addressed. The Industry met via conference call on September 10, 2009, to discuss various relief alternatives.

At the September 10th meeting, the participants discussed the attributes of the relief alternatives presented by Neustar in the IPD and reached consensus to recommend to the all services distributed overlay plan as the preferred method of relief for the 717 NPA. All existing customers would retain the 717 area code and would not have to change their telephone numbers. Consistent with FCC regulations, the relief plan would require ten-digit dialing for all calls within and between the 717 NPA and the new NPA. The industry recommends that all local and toll calls between the 717 NPA and the new NPA be dialed as 10-digits, or permissively as 1+10 digits at each service provider's discretion. All local and toll calls originating in the 717 NPA or the new NPA and terminating in other NPAs (NPAs other than the 717 or new NPA) must be dialed as 1 +10 digits. Operator services calls would require customers to dial 0+10 digits.

Industry participants also had reached consensus to recommend to the Commission a thirteen-month schedule for implementation of the overlay. The recommended schedule was as follows:

Recommended Implementation Schedule for All Services Distributed Overlay

<i>Event</i>	<i>Timeframe</i>
Network Preparation Period	6 months
Permissive 10-Digit Dialing and Customer Education Period (Calls within 717 NPA can be dialed using 7 or 10 digits)	6 months
Mandatory dialing begins at the end of the Permissive Dialing Period	
First Code Activation after end of Permissive dialing period (Effective date for codes from the new NPA)	1 month (after Mandatory Dialing Date)
Total Implementation Interval	13 months

The Industry stated that adhering to the proposed timeframe would avoid the denial or delay of service to telecommunications providers' customers due to the unavailability of CO codes.

On October 24, 2009, Neustar, acting on behalf of the Pennsylvania telecommunications industry, filed a peti-

tion with the Commission requesting approval of its recommendation to implement an all services distributed overlay for the geographic area covered by the 717 NPA which would create a new area code to service the area. By Order entered December 24, 2009, the Commission requested the submission of any written comments on the relief plan and scheduled public input hearings throughout the entire 717 geographic region¹⁰ so that oral testimony related to the form of relief for the 717 NPA can be received from interested parties as well. The Commission denied the industry consensus recommendation for an all services distributed overlay relief plan for the 717 NPA, pending receipt of the comments. The Commission has taken no further action on the petition.

Since those public input hearings were held, Neustar has updated its projected forecasts for the exhaustion of the Pennsylvania area codes, including 717. In October 2011, the Federal Communications Commission (FCC) released those updated projections. Based on the new data, the forecasted exhaust dates for the 717 area code has been extended from the previously reported date of the third quarter of 2012 to the fourth quarter of 2016.

Discussion

Pursuant to the INC Guidelines, the NANPA is charged with the responsibility of predicting the expected exhaust period for an NPA by analyzing the historical growth data available for the NPA as well as any expected changes to the NXX demands in the future.¹¹ As previously stated, once the NANPA projects the exhaust date for the an NPA to occur within 36 months, the INC Guidelines require it to prepare relief options and to conduct industry meetings with the goal of reaching industry consensus regarding the form of relief for the NPA.

However, since the filing of the October 24, 2009 area code relief petition, the 717 NPA has experienced efficient use of numbering resources due in large part to the diligent efforts of the Commission and others to conserve our numbering resources. Currently, there are approximately 96 NXX codes available for assignment to carriers in the 717 area code. Furthermore, from October 2009, when the 717 area code relief petition was filed, through October 2011, or approximately 25 months, an average of 0.760 codes per month were assigned to carriers. We believe that the decrease in code demands and subsequent code assignments will continue in the 717 area code.

Section 5.11 of the NPA Code Relief Planning and Notification Guidelines provides that if during the period after the NANPA has filed an industry relief plan but prior to regulatory approval of that plan it is determined that the NPA will not exhaust in the next 5 years, a relief plan may be withdrawn. Since the new projected exhaust date of the 717 area code is approximately five years out, which is the requisite period of time specified in INC Guidelines for withdrawing a filed relief plan, we believe there is good cause to dismiss the NANPA's petition for approval of its relief plan in the 717 NPA pursuant to our delegated authority over NPA relief. 47 CFR 52.19(c)(3)(ii).

Additionally, based on our analysis of the current numbering resources available in the 717 area code, adequate resources exist for carriers to receive numbers in a timely fashion. Nevertheless, we encourage the industry and the NANPA to work together with the

Commission to ensure the efficient use of our finite numbering resources in the 717 area code so that new area codes are not unnecessarily opened in the Commonwealth. Based on the foregoing reasons, we dismiss the October 24, 2009 relief plan for the 717 NPA; *Therefore,*

It Is Ordered That:

1. Neustar's petition filed with the Commission on behalf of the Pennsylvania telecommunications industry at the above docket for approval of its relief plan for the 717 area code is dismissed.

Pennsylvania Public Utility Commission, Bureau of Investigation and Enforcement v. Chhabra Transport, Inc.;
Doc. No. C-2011-2256910; A-00121215

COMPLAINT

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities within the Commonwealth. The Commission has delegated its authority to initiate proceedings, which are prosecutory in nature to the Investigation and Enforcement and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Investigation and Enforcement hereby represents as follows:

1. That Chhabra Transport, Inc., Respondent, maintains a principal place of business at 6710 A Chestnut Street, Upper Darby, PA 19082.

2. That Respondent was issued a Certificate of Public Convenience by this Commission on January 12, 2005, at A-00121215.

3. That Respondent was advised by letter dated May 10, 2005, that its medallion authority was being transferred to the Philadelphia Parking Authority. At that time, Respondent was advised that its taxicab service which had an origin and destination outside of the City of Philadelphia remained subject to the regulatory oversight of the PA PUC. Respondent was also told that, if it chose to retain the authority under the jurisdiction of this Commission, an acceptable tariff must be filed showing the rates for the transportation service. Respondent failed to file an acceptable tariff.

4. That Respondent was advised by letter dated August 31, 2009, that it failed to file a valid tariff with this Commission as required by 52 Pa. Code § 23.11(a). Respondent was given an additional 60 days to file an acceptable tariff. Again, Respondent failed to file an acceptable tariff.

5. That, on April 16, 2010, a Complaint was instituted against Respondent at C-2010-2129893 for failure to file

an acceptable tariff. Respondent was given 30 days to file an answer to the complaint or to file a tariff and pay a \$250 penalty. No response was received; therefore, the Complaint was adjudicated by Secretarial Letter dated July 8, 2011.

6. That, to date, Respondent has failed to file an acceptable tariff showing the rates for the transportation service provided. This is a violation of 52 Pa. Code § 23.11(a) and § 29.314(b)(6). The Bureau of Investigation and Enforcement's penalty for this violation is cancellation of the Certificate of Public Convenience.

Wherefore, the Bureau of Investigation and Enforcement hereby requests that the Commission cancel Chhabra Transport, Inc.'s Certificate of Public Convenience at A-00121215 for the illegal activity described in the complaint and order such other remedy as the Commission may deem to be appropriate.

Respectfully submitted,

*Pennsylvania Public Utility Commission, Bureau of
Investigation and Enforcement v. Flomar Cab Co.;*
Doc. No. C-2011-2258062; A-00121409

COMPLAINT

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities within the Commonwealth. The Commission has delegated its authority to initiate proceedings, which are prosecutory in nature to the Investigation and Enforcement and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Investigation and Enforcement hereby represents as follows:

1. That Flomar Cab Co., Respondent, maintains a principal place of business at 44 Poplar Drive, Richboro, PA 18954.

2. That Respondent was issued a Certificate of Public Convenience by this Commission on March 7, 2005, at A-00121409.

3. That Respondent was advised by letter dated May 10, 2005, that its medallion authority was being transferred to the Philadelphia Parking Authority. At that time, Respondent was advised that its taxicab service which had an origin and destination outside of the City of Philadelphia remained subject to the regulatory oversight of the PA PUC. Respondent was also told that, if it chose to retain the authority under the jurisdiction of this Commission, an acceptable tariff must be filed showing the rates for the transportation service. Respondent failed to file an acceptable tariff.

4. That Respondent was advised by letter dated August 31, 2009, that it failed to file a valid tariff with this Commission as required by 52 Pa. Code § 23.11(a). Respondent was given an additional 60 days to file an acceptable tariff. Again, Respondent failed to file an acceptable tariff.

5. That, on March 10, 2010, a Complaint was instituted against Respondent at C-2010-2131176 for failure to file an acceptable tariff. Respondent was given 30 days to file an answer to the complaint or to file a tariff and pay a \$250 penalty. No response was received; therefore, the Complaint was adjudicated by Secretarial Letter dated July 8, 2011.

6. That, to date, Respondent has failed to file an acceptable tariff showing the rates for the transportation service provided. This is a violation of 52 Pa. Code § 23.11(a) and § 29.314(b)(6). The Bureau of Investigation and Enforcement's penalty for this violation is cancellation of the Certificate of Public Convenience.

Wherefore, the Bureau of Investigation and Enforcement hereby requests that the Commission cancel Flomar Cab Co.'s Certificate of Public Convenience at A-00121409 for the illegal activity described in the complaint and order such other remedy as the Commission may deem to be appropriate.
