Pennsylvania Vegetable Marketing and Research Program Amendment Referendum

Under the applicable provisions of 3 Pa.C.S. Chapter 45 (relating to Agricultural Commodities Marketing Act), an amendment referendum was held from October 22 to November 5, 2012, to determine if the producers affected by the Pennsylvania Vegetable Marketing and Research Program (program) desired to make changes to the program as described in the original ballot mailing to producers. To pass, a majority of eligible producers voting had to vote in favor of the amendment referendum and the representative acreage must be in the majority as well. An impartial Teller Committee met on November 15, 2012, to count the ballots. The following results were

submitted by the Teller Committee: a total of 341 eligible votes were cast with 266 producers voting in favor of and 75 producers voting against the amendment referendum. An additional 21 ballots were invalid because they were either incomplete or ineligible due to the acreage requirement. Eligible producers voting in favor of the program's amendment referendum represented 78% of the votes and 75% of production acreage. Producers voting against the proposed amendments represented 22% of the votes and 25% of production acreage. Because a majority of the votes and represented acreage were cast in favor of the referendum, the program amendment referendum shall become effective immediately.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Federal Fiscal Year 2013 Action Plan

The Department of Community and Economic Development (Department) proposes to adopt the Commonwealth's Action Plan for Federal Fiscal Year (FFY) 2013 and the Program Year that starts on January 1, 2013. The 2013 Action Plan is an update of the Commonwealth's Consolidated Plan for FFY 2009-2013.

The 2013 Action Plan updates documents previously submitted to the United States Department of Housing and Urban Development (HUD). These documents include the nonhousing community development plan and changes that the Department may have implemented concerning the HUD programs administered by the Commonwealth. The programs administered by the Department are the Community Development Block Grant (CDBG), HOME Investment Partnerships, Emergency Solutions Grant, Housing Opportunities for People with AIDS, Neighborhood Stabilization Program and Community Development Block Grant—Disaster.

This summary is designed to provide an opportunity for citizens, local governmental officials and interested organizations of this Commonwealth to comment about the Action Plan. Written comments should be submitted to Brenda Bubb, Center for Community Financing, Department of Community and Economic Development, 400 North Street, 4th Floor Commonwealth Keystone Building, Harrisburg, PA 17120-0225. Written comments must be received by January 10, 2013, to be included as testimony in the Action Plan.

Public Hearing

The public hearing will be conducted electronically by means of the Internet. The format will be more accessible in that persons who wish to make a comment or discuss policy may participate on December 21, 2012, directly from their personal computers or from any computer location that has Internet access, such as a public library. Access to the public hearing by means of the Internet will occur between 9 a.m. and 11 a.m.

Individuals or organizations may give testimony or comments by means of the Internet. Comments will be accepted about topics related to community development, housing, homelessness and the content of the Commonwealth's Draft Action Plan for FFY 2013, as well as the process by which public input is gathered. The Commonwealth encourages public participation in this process. Anyone who wants to participate must register in advance. Contact Brenda Bubb at (717) 720-7404 to receive registration instructions for the Internet meeting at least 24 hours prior to the meeting date. During the hearing, if support is required, call (717) 787-5327. The hearing will be shortened if there is no one to testify or if there is minimal response.

Persons with a disability who wish to attend the public hearing should contact Brenda Bubb, 4th Floor Commonwealth Keystone Building, 400 North Street, Harrisburg, PA 17120-0225 or at (717) 720-7404, to discuss how the

Department can accommodate their needs. Text telephone calls can be placed through the Pennsylvania AT&T Relay System at (800) 654-5984. Calls will be relayed to the Department's number listed previously.

Purpose

The Commonwealth's 2013 Action Plan is the annual update to the Five-Year Consolidated Plan for FFY 2009-2013. This Action Plan will describe how the programs will be administered in 2013. HUD must approve this Plan for the Commonwealth and organizations within this Commonwealth to receive funding under most HUD housing, homelessness and community development programs. Applicants for funding from Federal housing programs must obtain certification that their proposed use of HUD assistance will be consistent with the applicable plan for the area. The Consolidated Plan creates a unified strategy for housing, homelessness and community development programs, as well as the necessary linkages for building successful neighborhoods and communities.

The plan will have a major impact on the type, location and number of affordable housing units generated and preserved in this Commonwealth, as well as the infrastructure and public facilities, services and other economic and community development initiatives that communities in this Commonwealth will undertake.

Content

The Consolidated Plan for FFY 2009-2013 will be updated by means of this document. The most significant change is the inclusion of the Community Development Block Grant for Disaster Recovery Program, which is a component of CDBG, and is to be used by the Commonwealth to guide the distribution of the initial allocation of \$27,142,501 toward meeting unmet housing, infrastructure and economic revitalization needs in counties designated as Presidential Disaster Areas during 2011 as further directed by Pub. L. No. 112-55 and HUD's Notice of Funding Availability provided at 77 FR 22583 (April 16, 2012). In addition, the Commonwealth will conduct an analysis of impediments to Fair Housing and will update its Commonwealth Fair Housing Plan.

Public Review

The Consolidated Plan is available on the Internet or in hardcopy for public comment December 10, 2012, through January 10, 2013, at the locations listed as follows:

1. County Offices, DCED Regional Offices and Pennsylvania's 27 District Libraries: call (717) 720-7404 for the locations.
2. Audio Cassette copies of the Consolidated Plan can be obtained by contacting the Tri-County Branch of the Pennsylvania Association of the Blind: Harrisburg Area Radio Reading Services, 1800 North Second Street, Harrisburg, PA 17102, (717) 238-2531.
3. The Draft Action Plan 2013 can be viewed on the Internet at <http://www.newpa.com/community/documents-publications>.

The final plan will be made available again at these same locations following HUD approval.

Other Conditions: Outfalls 002 and 003, which discharge to the receiving waters known as South Fork Tenmile Creek, serve as combined sewer overflows (CSOs) necessitated by stormwater entering the sewer system and exceeding the hydraulic capacity of the sewers and/or the treatment plant. These are permitted to discharge only for such reason. There are at this time no specific effluent limitations on the outfalls. Each discharge shall be monitored for cause, frequency, duration, and quantity of flow.

The permittee shall continue the work to remove the above two CSO Outfalls 002 and 003 from their system, as required in their CSO Long Term Control Plan (LTCP). This LTCP calls for the following actions:

Completion of: Sewer Separation Tasks by the end of 2015, and Submittal and Completion of: Post Construction Compliance Monitoring Plan during the next NPDES permit renewal period.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During

this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the De-

partment, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401–7671q) and regulations adopted under the Federal Clean Air Act.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001–4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

09-0024J: Waste Management of Pennsylvania, Inc. (1000 New Ford Mill Rd, Morrisville, PA 19067) for a landfill expansion known as the Valley Fill, at the Tullytown Resource and Recovery Facility (TRRF) in Tullytown Borough, **Bucks County**. TRRF is a major facility. The Valley Fill will “piggyback” an area of approximately six acres of the existing TRRF. Emissions of volatile organic compounds (VOC) and hazardous air pollutants (HAPs) shall be controlled by both an interim and final landfill gas collection and control system (GCCS). Landfill gas collected by the GCCS will be routed to an off-site user with a portion used in an on-site engine

to generate power for on-site use. Two existing flares at the TRRF have sufficient capacity to serve as back-up control devices in the event the landfill gas cannot be transmitted to the end users. The final GCCS shall be designed and operated according to the specifications and operational standards of the New Source Standards of Performance (NSPS) for Municipal Solid Waste Landfills 40 CFR Part 60, Subpart WWW. The interim and final GCCS comprise Best Available Technology (BAT) for the source. The Valley Fill shall be limited to controlled emissions increases of 10.5 tons/yr of volatile organic compounds (VOC) and 1.0 tons/yr of hazardous air pollutants (HAPs), calculated after closure. Emissions of particulate matter (PM₁₀/PM_{2.5}) from landfill operations will remain below 100 tons/yr, as currently permitted. Emissions from the flares will remain below existing permitted levels. The facility is also subject to the requirements of National Emissions Standard for Hazardous Air Pollutants for Source Categories (Maximum Achievable Control Technology), Subpart AAAA: Municipal Solid Waste Landfills and will comply with all applicable requirements. Based on the findings presented above, the Department intends to issue a plan approval for the proposed project. The following is a summary of the conditions that the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable air quality regulatory requirements:

1. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the two 2370 brake horsepower, natural-gas fired reciprocating internal combustion engines shall incorporate a "clean burn" electronic control system to control NO_x emissions. Additionally, the carbon monoxide, volatile organic compounds, and formaldehyde emissions from each engine shall be controlled by an Emit Technologies model ELX-6200H-2022F-63CEE-362 oxidation catalyst unit. The permittee shall not operate any of the engines without the simultaneous operation of each respective oxidation catalyst at any time.

2. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the permittee shall only use natural gas as fuel for each engine in this plan approval.

1. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the following air contaminant emissions from the exhaust of the respective oxidation catalyst associated with its respective engine (Source IDs P101 and P102) shall not exceed the limitations listed below:

(a) nitrogen oxides (NO_x, expressed as NO₂)—0.50 gm/bhp-hr, 2.61 lb/hr, and 11.44 tons in any 12 consecutive month period,

(a) In addition to the stack testing required by this plan approval every 2500 hours of operation and no sooner than forty-five (45) days from the previous test, the owner or operator shall perform periodic monitoring for NO_x and CO emissions to verify continued compliance upon each of the engines in this plan approval which has a rated capacity greater than 500 brake horsepower and subjected to the BAT as stated in Section B, Conditions 1 and 2, herein. A portable gas analyzer may be used to satisfy the requirements of this condition utilizing three test runs of twenty (20) minutes for each test run. The Department may alter the frequency of portable analyzer tests based on the test results. The frequency of portable gas analyzer tests may be altered with written Departmental approval. The portable gas analyzer shall be used and maintained according to the manufacturer's specifications and the procedures specified in ASTM D 6522 or equivalent as approved by the Department.

46-00198: Blommer Chocolate Co. (1101 Blommer Drive, East Greenville, PA 18041) for a renewal of the Title V Operating Permit in Upper Hanover Township, **Montgomery County**. The facility processes cocoa beans and cocoa nibs to create cocoa powder, cocoa butter, and chocolate liquor for utilization in the food industry. As a result of potential emissions of volatile organic compounds (VOCs), the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments, and is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G. As shown in a recent stack test, the inlet gases to the regenerative thermal oxidizer may contain low concentrations of VOCs, so the efficiency of the thermal oxidizer may not reach 98 percent as permitted. The regenerative thermal oxidizer does reduce VOC emissions to less than 20 ppmvd, as methane (6 ppmvd, as propane), which corresponds to a mass emission rate of 0.09 pound VOC per hour (0.39 ton VOC per year). Language was added to the Title V Operating Permit reflecting the reduction of VOC emissions below these levels. Frequency of monitoring and recording pressure drops across baghouses were changed from daily to weekly due to data provided by the facility showing little or no changes in pressure drop across each baghouse from week to week. The changes to condition in the permit does not reflect any change in air emissions from this facility.

23-00084: FPL Energy MH50, L.P. (100 Green Street, Marcus Hook, PA 19061-0426) for a renewal of the Title V Operating Permit in the Borough of Marcus Hook, **Delaware County**. The facility is primarily used for providing steam to processes at the Sunoco Refinery and electrical energy to the grid. As a result of potential emissions of nitrogen oxides, the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments, and is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G. The proposed Title V Operating Permit does not adopt any new regulations and does not reflect any change in air emissions from the facility. The facility is not subject to Compliance Assurance Monitoring (CAM) pursuant to 40 CFR Part 64. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

The facility's major source of emissions includes the Plastic Material and Resins manufacturing area which primarily emits Volatile Organic Compounds (VOCs). The actual emissions of the pollutants from the facility for 2011 are, NO_x: 2.3790 TPY (tons per year), CO: 1.9990 TPY, SO_x: 0.0140, VOC: 34.9360 TPY, PM-10: 0.0720 TPY and HAPs: 0.51 TPY. These sources have the potential to emit major quantities of regulated pollutants above Title V emission thresholds. The proposed Title V Operating Permit contains all applicable requirements including Federal and State regulations.

- show the removal of three vent condensers (C06, C07 and C08)
- added source 125, diesel fire pump
- show the replacement of a 12.6 MMBtu/hr natural gas-fired boiler with a 8.4 MMBtu/hr natural gas-fired boiler
- changed Source 123 (R-Coater) from Group G01 (Subpart RR) to Group G02 (Subpart 4J).
- increase the required minimum temperature of the REECO RTO to 1,545°F, with a provision that this temperature may be modified based on future testing.
- added requirement that the oxidizers in the new Subpart 5H source group be used to control emissions from the Source 115 vessels at all times that those vessels are operating or generating emissions.

The various changes proposed in this permit modification are expected to have a minimal impact on emissions from the facility.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application and request for Section 401 water quality certification application may be submitted by any person or any officer or head of any Federal, state or local government agency or authority to the Department at the address of the district mining office indicated before each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When an NPDES number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. A separate notice will be provided after the draft NPDES permit is prepared.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*		greater than 6.0; less than 9.0	
pH*			

*The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91–96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the con-

struction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

E64-290. Tennessee Gas Pipeline, 1001 Louisiana Street, Houston, TX 77002. Berlin & Palmyra Township, **Wayne County**, Army Corps of Engineers Philadelphia District.

To construct and maintain various water obstructions and encroachments associated with the Wayne County portion of the Tennessee Gas Pipeline Northeast Upgrade Project, Loop 321, including twenty-seven (27) wetland crossings and sixteen (16) stream crossings associated with the pipeline and access roads, temporarily impacting 9.77 acres of wetlands and approximately 363 feet of stream channel. The water obstructions and encroachments are shown in the attached tables.

The project begins at the intersection of Adams Pond Road and State Route 2011 (White Mills, PA Quadrangle Lat: 41°33'43.63"; Long: -75°11'13.86") in Berlin Township and ends on the east side of Mushpaw Road approximately 3.5 miles from the intersection of Crickett Hill Road (White Mills, PA Quadrangle Lat: 41°30'46.458"; Long: -75°03'48.4") in Palmyra Township, Wayne County. DEPARTMENT OF PUBLIC WELFARE

Medical Assistance Program Fee Schedule; Addition of Procedure Code for Vaccine Administration

In accordance with 55 Pa. Code § 1150.61(a) (relating to guidelines for fee schedule changes), the Department of Public Welfare (Department) announces the addition of the following procedure code to the Medical Assistance (MA) Program Fee Schedule for the administration of an intradermal influenza vaccine, effective for dates of service on and after December 15, 2012.

<i>Procedure Code</i>	<i>Description</i>	<i>MA Fee</i>
90654	Influenza virus vaccine, split virus, preservative free, for intradermal use	\$10

The United States Food and Drug Administration recently approved Fluzone Intradermal® vaccine. Procedure code 90654 is being added to the MA Program Fee Schedule as a result of the approval of an intradermal vaccine. The use of this procedure code, rather than the vaccine administration code that is already on the fee schedule, will allow for identification of the vaccine that is administered.

The Department will issue an MA Bulletin to providers enrolled in the MA Program specifying the procedures for billing of the administration of the vaccine.

Fiscal Impact

It is anticipated that adding a procedure code for the administration of a vaccine to the MA Program Fee Schedule will have no fiscal impact because there is an existing procedure code on the fee schedule that is being used for vaccine administration. The addition of this procedure code will not increase the number of administration fees that are paid.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Public Welfare, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered for any subsequent revision to the MA Program Fee Schedule.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).
