# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

### **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

### ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

### **How to Find Documents**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacode.com](http://www.pacode.com).

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us](http://www.legis.state.pa.us).

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at [www.pabulletin.com](http://www.pabulletin.com).

**SUBSCRIPTION INFORMATION: (717) 766-0211  
GENERAL INFORMATION AND FINDING AIDS: (717) 783-1530**

### Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [ ] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

#### § 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

# RULES AND REGULATIONS

## Title 49—PROFESSIONAL AND VOCATIONAL STANDARDS

STATE BOARD OF PHARMACY

[ 49 PA. CODE CH. 27 ]

### Cancer Drug Repository Program

The State Board of Pharmacy (Board) adds §§ 27.501—27.506 (relating to Cancer Drug Repository Program) to read as set forth in Annex A.

#### *Effective Date*

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin*.

#### *Statutory Authority*

This final-form rulemaking is authorized under section 6(k)(9) of the Pharmacy Act (act) (63 P. S. § 390-6(k)(9)) and sections 3 and 7 of the Cancer Drug Repository Program Act (CDRPA) (62 P. S. §§ 2923 and 2927).

#### *Background and Purpose*

The CDRPA created the Cancer Drug Repository Program (Program) to permit pharmacies to voluntarily accept donated cancer drugs and to dispense those drugs to indigent persons as provided in the CDRPA. It also requires the Board to promulgate regulations to implement the CDRPA.

#### *Summary of Comments and Responses to the Proposed Rulemaking*

The Board published notice of proposed rulemaking at 41 Pa.B. 1337 (March 12, 2011), followed by a 30-day public comment period. The Board received comments from The Pennsylvania Medical Society (PMS); the Pennsylvania Society of Oncology and Hematology (PSOH); the United States Department of Health and Human Services, Food and Drug Administration (FDA); and the Pennsylvania Pharmacists Association (PPA). The Board also received comments from the House Professional Licensure Committee (HPLC) and the Independent Regulatory Review Commission (IRRC) as part of their review of proposed rulemaking under the Regulatory Review Act (71 P. S. §§ 745.1—745.12). The Board did not receive comments from the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC).

#### *General Comments*

The FDA commented generally that it is opposed to medication reuse and redispensing programs because of the risks to patient safety. The PPA also expressed concerns with the overall concept behind the law and the regulations. The Board acknowledges these concerns; however, promulgation of these regulations is mandated by the General Assembly under the CDRPA and the Board believes the final-form regulations make the Program as safe as possible within the statutory framework. The PSOH commented generally that it supported the proposed rulemaking and believes the necessary safeguards for quality assurance have been incorporated.

The HPLC commented that the proposed rulemaking was published approximately 2 years and 7 months past the deadline in the CDRPA—90 days from the effective

date of the CDRPA. The Board acknowledges that the rulemaking process has taken much longer to complete than anticipated by the General Assembly.

IRRC asked how the Board will make the availability of the Program known to the citizens of this Commonwealth, and whether the Board has considered listing the pharmacies that participate in the Program on its web site. The Board will add a notice to the public regarding the availability of the Program and, when available, a list of the pharmacies that participate in the Program on the Board's web site. Further, the Board believes that participating pharmacies also will advertise the availability of the Program at the pharmacies.

Further, IRRC noted that the Regulatory Analysis Form submitted with the proposed rulemaking stated there will not be costs or savings to the regulated community. A comment from IRRC further referenced the comments from the PPA, which indicated there would be costs to participating pharmacies to comply with the regulations associated with additional manpower, storage facilities and paperwork, as well as possibly additional liability insurance costs. The PMS expressed similar concerns about the potential increased risk of professional liability exposure to pharmacists. The existence of these costs, if any, would depend on several unknown and unknowable factors including how many pharmacies participate in the Program, how many cancer drugs are donated and whether participating pharmacies have existing space and manpower to run the Program. If there are relatively few drugs donated, the pharmacy may not have additional costs in the form of manpower or space. Further, the insurance market would determine whether additional liability insurance is required and, if so, how much. The increase in additional liability insurance may depend on how many cancer drugs are donated and dispensed, which translates into exposure risk. Additionally, given section 6 of the CDRPA (62 P. S. § 2926), regarding immunity, there may not be an increase in liability insurance premiums. In other words, whether there would be increased costs would be speculative at best, and the determination of those costs, if any, is impossible for the Board to estimate with meaningful figures.

IRRC also asked the Board to quantify the potential savings an eligible cancer patient could realize by obtaining medication through the Program. According to the American Cancer Society, the average cost of a 30-day cancer drug prescription was more than \$1,600 in 2006, and it is even higher today. Many cancer drugs cost more than drugs for other illnesses. Some of the newer cancer treatments can cost as much as \$10,000 for a month's supply. Estimating the potential savings to eligible cancer patients would also depend on several unknowable factors. Cost savings would depend on how many eligible cancer patients participate in the Program. Savings to a specific patient would depend on how much of a patient's prescribed medication is available through the Program. It seems unlikely that all of the patient's cancer drug regimen would be available. Also, the amount available may vary from month to month, and the patient's drug regimen may vary, depending upon the patient's therapeutic responses to previously prescribed medications and the advancement of the disease. Cancer drugs vary greatly in cost depending on the particular drug or combination of drugs involved.

For these reasons, the Board finds that it is unable to estimate the possible costs to participating pharmacies or the possible savings to eligible cancer patients with meaningful figures.

#### *Purpose*

In regard to § 27.501 (relating to purpose), the HPLC suggested that "Pennsylvania" be added before "residents who are indigent." The Board agrees and made this amendment to be consistent with § 27.506(b) (relating to patient eligibility), specifically pertaining to financial eligibility for the Program, and in response to the HPLC recommendation.

#### *Definitions*

The Board received several comments regarding the proposed definition of "original sealed and tamper-evident unit dose packaging." The HPLC recommended adding "unopened" before word "sealed" to align with statutory language. The Board made that amendment. IRRC noted that the definition implies that injectable, topical and aerosol medications would be considered oral medications and available as single unit doses. The HPLC, the PPA and the FDA provided similar comments. The Board amended the definition as suggested by the HPLC and the FDA to address these comments. In response to the concerns regarding whether injectables, topical and aerosols can be packaged in unit doses, the Board is aware that unit dose packaging of solid oral medications is the most common type of unit dose packaging and that there are existing unit dose packaging systems not only for oral solids, but also for liquids such as ampules, vials and prefilled syringes, and for topical ointments and creams. Although perhaps less common, companies are developing unit dose spray (aerosol) drug delivery systems.

Regarding the terminology "tamper-evident," the PPA noted that the term is commonly used for over-the-counter drugs, not for prescription drugs which are the subject of the rulemaking. The PPA suggested that including the term in the final-form rulemaking may confuse practitioners. Further, as the FDA indicated, the tamper-evident feature may be added to the package after adulteration, and the receiving pharmacist would not be aware of it. The Board agrees with these concerns but declined to delete "tamper-evident" because it would be inconsistent with the terminology in section 4 of the CDRPA (62 P. S. § 2924). In addition, the FDA did not raise concerns about the use of the terminology "tamper-evident" as it applies to this final-form rulemaking, only that it would be difficult, if not impossible, for a pharmacist to ensure the safety of recycled drugs even if they were in "tamper-evident" packaging.

The HPLC and the FDA pointed out that the FDA "registers" repackagers, rather than "licensing" them. Accordingly, "licensed" was replaced with "registered" in the definition of "original unopened, sealed and tamper-evident unit dose packaging" as amended in the final-form rulemaking. The Board amended the definition because it essentially defined the term with the same term. That is, as defined in the proposed rulemaking "original unopened, sealed and tamper-evident unit dose packaging" must be in the manufacturer's or repackager's unopened original tamper-evident packaging. Instead, the final-form rulemaking has been amended to clarify that an "original unopened, sealed and tamper-evident unit dose packaging" is one that has been visually inspected by a licensed pharmacist to determine that the packaging appears to be unbreached and undamaged.

#### *Participation in the Program*

Section 27.503(b)(4) and (5) (relating to participation in the Cancer Drug Repository Program) has been reversed for clarity because the Board agreed that it simply makes more sense to first require the certification by a pharmacist and then require that pharmacist's information. The HPLC recommended changing "certification of a pharmacist" to "certification by a pharmacist." This recommendation also was accepted.

In subsection (c), "donated prescription drugs" was changed to "donated cancer drugs" to conform to the defined term "cancer drug" as recommended by the HPLC and IRRC.

The heading of subsection (d) has been changed from "donations of cancer drugs and supplies" to "donations of cancer drugs." As IRRC and the HPLC noted, the CDRPA does not provide for the donation of supplies. Similar changes were made throughout subsection (d) and other sections of the final-form rulemaking. Other comments asking for clarification of what constituted eligible supplies have been made moot by this change.

Regarding subsection (d)(1), as IRRC noted, the CDRPA requires donations from a closed drug delivery system. The definition of "closed drug delivery system" in the CDRPA is limited to a "system in which the actual control of a unit dose medication is maintained by a health care facility, health clinic, hospital, pharmacy or physician's office *rather than an individual patient.*" (Emphasis added.) Accordingly, "An individual who is 18 years old or older or a" has been deleted. This change is made throughout the final-form rulemaking and addresses some of the FDA's and the PPA's noted safety concerns about accepting donations from individuals.

IRRC also commented that the forms that will be used to implement the Program be amended to ensure consistency with the act and these regulations. The Board has updated the forms accordingly.

#### *Drugs*

IRRC asked how § 27.504(a)(2) (relating to drugs) comports with section 5(a)(9)(xi) of the act (63 P. S. § 390-5(a)(9)(xi)) which provides that "[t]he acceptance back and redistribution of any unused drug, or a part thereof, after it has left the premises of any pharmacy, whether issued by mistake or otherwise, unless it is in the original sealed container" is an act of "grossly unprofessional conduct of a pharmacist." This is a common problem when a stand-alone act is enacted which appears to conflict with an existing statute, rather than amending the existing statute. In this instance, section 4(1) of the CDRPA allows the acceptance of donated cancer drugs in single-unit doses if the "outside packaging is opened but the single-unit-dose packaging is unopened." Section 27.504(2) is in accord with the CDRPA. Principles of statutory construction require that the Board construe the two statutes (the act and the CDRPA) together, if possible, and when they cannot be reconciled the statute enacted later prevails. Therefore, the Board construes this provision as meaning that the "single-unit dose packaging" is considered the original sealed container as it pertains to drugs that are part of the Program for purposes of section 5(a)(9)(xi) of the act.

The FDA noted concerns that "even if packaged in a way mandated by § 27.504, the receiving pharmacist may not be able to tell if the product or package was further manipulated . . ." Evident in the comments of the FDA are concerns about donated drugs coming from individuals outside the closed drug delivery system. Given that

subsection (a)(1) and (2) essentially tracks that of the CDRPA, and the final-form regulations allow donations only from closed drug delivery systems, the Board feels that the FDA's concerns largely are addressed.

#### *Repositories*

IRRC noted that § 27.505(b) (relating to repositories) contains language including only a portion of section 5 of the CDRPA (62 P. S. § 2925). Accordingly, the remaining language from section 5 of the CDRPA ("The cancer drugs may be distributed to another participating physician's office, pharmacy, hospital or health clinic for dispensing by a pharmacist as allowed by Federal or State law.") was added for consistency. In addition, the Board added "health care facility" to the list to be consistent with the definition of "closed drug delivery system."

Regarding subsection (b), the requirement that the participating pharmacy "inspect all cancer drugs prior to dispensing to determine if they are adulterated or misbranded" was changed to require the pharmacy to "visually" inspect the drugs "in a manner as to be able to reasonably determine" if they are adulterated or misbranded. The PPA noted concerns that a pharmacist could check for obvious signs of adulteration or misbranding, but that a pharmacist could not establish conclusively whether the drug is adulterated or misbranded. The FDA made similar comments that the receiving pharmacist may not be able to tell if the package was manipulated. The Board agrees, and adds that the drugs will remain in the closed drug delivery system, so the likelihood of intentional adulteration or misbranding is minimized, and the requirements for proper storage and destruction of drugs within 6 months prior to the expiration date will minimize inadvertent adulteration or misbranding. The visual inspection adds to the minimization of adulterated or misbranded drugs. The Board does not believe that the drafters of the legislation intended to require an absolute determination, which as the FDA points out, is nearly impossible and would require "complex laboratory analyses" of every donated cancer drug. A similar change was made to subsection (e)(4). Subsection (e)(4) and (5) serves to inform the patient that a visual inspection of the donated cancer drug has been conducted and that nobody can guarantee the safety of the drug.

The PPA recommended addition of "in a manner in compliance with all applicable Federal and State laws" to subsection (c) regarding destruction or disposition of donated cancer drugs that are not accepted into the Program for dispensing. The PPA recommended this to reflect that the National attention on proper disposal or destruction inevitably will result in forthcoming legislation. The Board finds this recommendation reasonable and amended the final-form rulemaking accordingly.

The HPLC requested an explanation as to how the Board will make certain repackaging fees (as addressed in subsection (g)) are reasonable. The Board believes that the limitation on the fee which is tied to the Department of Public Welfare's method of payment for pharmaceutical services in 55 Pa. Code § 1121.55 (relating to method of payment) sets a reasonable limit on what handling fees may be charged. The participating pharmacy certainly is permitted to charge less than the fee limit.

#### *Patient eligibility*

Section 27.506 contains conditions of medical, insurance and financial eligibility to receive donated cancer drugs under the Program. Proposed subsection (a) contained requirements that the patient is diagnosed with cancer,

does not possess adequate prescription drug coverage and is not eligible for State Medical Assistance prescription drug coverage.

The HPLC noted that several commentators asked what type of proof would be necessary to satisfy these criteria. The PPA and the PMS submitted questions such as whether the pharmacist will require documentation of the cancer diagnosis. After several discussions regarding this particular section, the Board determined that to require a pharmacy or pharmacist who volunteers to participate in the Program to research a patient's diagnosis to determine eligibility is well beyond what should be required. Several other states with similar eligibility requirements for similar programs require the patient to sign a certification that he meets each requirement. Consequently, the final-form rulemaking has been revised to require that the patient certify that he meets the eligibility requirements for participation in the Program, as it is done in many other states.

Subsection (b) establishes the criteria for financial eligibility. Subsection (b)(1) states that a Pennsylvania resident who meets the eligibility requirements is financially eligible as an "indigent patient" as long as he meets the income standards in subsection (b)(2).

Final-form subsection (b)(2) sets the income limits for eligibility and bases them upon the family income for the prior year not exceeding 350% of the prior year's United States Department of Health and Human Services Federal Poverty Income Guidelines for the appropriate family size. The Board originally proposed that current income be the guide. IRRC pointed out that it would be difficult to calculate a person's current year income before the end of the year. For ease of administration, the Board concluded that financial eligibility should be based on family income for the prior year, as compared to 350% of the prior year's Federal Poverty Income Guidelines. The proposed subsection noted that revisions to the income limits will be published as a notice in the *Pennsylvania Bulletin*. IRRC questioned whether the Board considered publishing the guidelines on an annual basis rather than only when the guidelines change. Alternatively, IRRC noted, the income guidelines could be posted on the Board's web site. The Board notes that the United States Department of Health and Human Services updates the income limits annually and publishes a notice of the revised limits in the *Federal Register* (see 78 FR 5182 (January 24, 2013)), so the Board had already anticipated that there would be an annual update. The Board has given consideration to IRRC's comments and agreed to adopt both suggestions. Accordingly, the final-form rulemaking was amended to make it clear that revisions to the income limits will be published as a notice in the *Pennsylvania Bulletin* and posted on the Board's web site at least once a year as the Federal guidelines change. In addition, proposed Appendix A has not been adopted.

#### *Fiscal Impact and Paperwork Requirements*

The final-form rulemaking will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will impose additional paperwork requirements upon the Board in the form of the processing of applications for participation in the Program. The final-form rulemaking also contains recordkeeping requirements for the regulated community. There may be costs to participating pharmacies associ-

ated with manpower, storage facilities for donated cancer drugs, paperwork requirements and increased liability insurance premiums. There may be substantial savings to indigent cancer patients who participate in the Program and will be able to obtain at least a portion of their cancer drugs at no cost.

#### *Disapproval by IRRC*

As stated in its disapproval order of June 14, 2013, IRRC disapproved the final rulemaking for two reasons. The first reason IRRC disapproved the final rulemaking was because it required a patient to certify that he meets the eligibility criteria of the Program and IRRC was concerned that the self-certification requirement, without any additional requirement for independent verification and review, could create a liability issue under section 1128b of the Social Security Act (42 U.S.C.A. § 1320a-7b), regarding criminal penalties for acts involving Federal health care programs, for pharmacies wishing to participate in the Program. The Board reviewed this concern, but did not amend the revised final-form rulemaking in response, noting that the Program does not meet the statutory definition of "Federal health care program" subject to the cited section and that self-certification of eligibility by the patient would make the patient liable for providing false information, not the pharmacy.

The second reason stated for disapproval was that IRRC concluded that § 27.506(b) lacked clarity with regard to the income limits. IRRC recommended the Board consider one of two alternatives. IRRC suggests that if Appendix A is retained, that changes be made by means of publication of a notice in the *Pennsylvania Bulletin* annually and whenever changes are made, and that the changes also be posted on the Board's web site. In the alternative, IRRC suggested that Appendix A be deleted and that the formula in § 27.506(b)(2) be relied upon. IRRC also noted a concern that Appendix A references current income levels instead of prior year income levels. This was a concern about administering this provision because it would be very difficult, if not impossible, to accurately calculate a current annual income prior to the end of that year. As a result, the Board determined it was reasonable to incorporate all of IRRC's suggestions and revised this section accordingly.

#### *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on March 2, 2011, the Board submitted a copy of the notice of proposed rulemaking, published at 41 Pa.B. 1337, to IRRC and the Chairpersons of the HPLC and the SCP/PLC for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC, the HPLC and the SCP/PLC were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Board considered comments from IRRC, the HPLC, the SCP/PLC and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on April 24, 2013, the final-form rulemaking was approved by the HPLC. On May 15, 2013, the final-form rulemaking was deemed approved by the SCP/PLC. Under section 5.1(e) of the Regulatory Review Act, IRRC met on May 16, 2013, and disapproved the final-form rulemaking. IRRC issued its disapproval order on June 14, 2013.

The Board delivered the revised final-form rulemaking, together with a copy of IRRC's disapproval order and the supporting report required under section 7(c) of the Regulatory Review Act (71 P. S. § 745.7(c)) to IRRC, the HPLC and the SCP/PLC on July 24, 2013. Under section 7(c.1) of the Regulatory Review Act, IRRC met on August 22, 2013, and approved the final-form rulemaking. Under section 7(d) of the Regulatory Review Act, the final-form rulemaking was deemed approved by the HPLC and by the SCP/PLC on September 5, 2013.

#### *Additional Information*

§ 27.501. Purpose.

This section and §§ 27.502—27.506 establish a Cancer Drug Repository Program under the Cancer Drug Repository Program Act (62 P. S. §§ 2921—2927) through which unused cancer drugs may be redispensed to cancer patients by pharmacies approved by the Board for the purpose of dispensing unused cancer drugs to Pennsylvania residents who are indigent.

§ 27.502. Definitions.

The following words and terms, when used in §§ 27.501 and 27.503—27.506, have the following meanings, unless the context clearly indicates otherwise:

- (ii) The side effects of a prescription drug used to treat cancer or its side effects.

*Original unopened, sealed and tamper-evident unit dose packaging*—Single unit dose packaging of a drug product from a manufacturer or a repackager registered with the Federal Food and Drug Administration, or from a licensed Pennsylvania pharmacy, that has been visually inspected by a licensed pharmacist employed by or under contract with the participating pharmacy who has determined that the packaging appears to be unbreached and undamaged, and includes oral medications, injectables, topicals and aerosols.

§ 27.503. Participation in the Cancer Drug Repository Program.

(a) *Participation.* A pharmacy holding a current unrestricted permit may apply for approval to participate in the Cancer Drug Repository Program as an approved cancer drug repository as provided in this chapter.

(b) *Application.* A pharmacy may apply for approval to participate in the Cancer Drug Repository Program by submitting the following information to the Board, on a form provided by the Board:

- (1) The name, street address and telephone number of the pharmacy.
- (2) Identification and background information of the pharmacy's ownership.
- (3) A description of all pharmacy services provided and the location and manner in which those services are provided.
- (4) A certification by a licensed pharmacist who is employed by or under contract with the pharmacy that the pharmacy meets the eligibility requirements for participation in the Cancer Drug Repository Program under subsection (c).
- (5) The name and telephone number of the licensed pharmacist employed by or under contract with the pharmacy who made the certification required under paragraph (4).

(c) *Eligibility.* A pharmacy is eligible to participate in the Cancer Drug Repository Program if the pharmacy:

- (2) Delegates to a licensed pharmacist employed by or under contract with the pharmacy the responsibility to receive delivery of donated cancer drugs at the designated delivery area in the pharmacy.
- (3) Agrees to participate in the Cancer Drug Repository Program in accordance with the act, this chapter and the Cancer Drug Repository Program Act (62 P. S. §§ 2921—2927).

(d) *Donations of cancer drugs.*

(1) A pharmacy, health care facility, drug manufacturer or wholesale drug distributor may donate legally obtained cancer drugs to an approved participating pharmacy if the drugs meet the eligibility requirements under § 27.504 (relating to drugs) as determined by a licensed pharmacist employed by or under contract with an approved participating pharmacy.

(2) To be considered for donation, a cancer drug must be accompanied by a cancer drug repository donor form on a form provided by the Board that:

(i) Is signed by the entity's authorized representative.

(ii) States that to the best of the donor's knowledge the donated drug has been properly stored and that the drug has never been opened, used, tampered with, adulterated or misbranded.

(e) *Changes in approval status.* The Board may refuse, revoke or suspend approval of a pharmacy's participation in the Cancer Drug Repository Program upon proof satisfactory to it that the pharmacy has violated the Cancer Drug Repository Program Act, the act, or any Federal or State law, rule or regulation.

§ 27.504. Drugs.

(a) *Eligible drugs.* Unless otherwise prohibited by Federal or State statute or regulation, a cancer drug may be accepted by a licensed pharmacist at an approved participating pharmacy for dispensing in a Cancer Drug Repository Program if the drug meets one of the following criteria:

(1) The drug is in its original unopened, sealed and tamper-evident unit dose packaging.

(2) The drug is packaged in single unit doses, when the outside original packaging is opened but the single-unit-dose packaging is unopened.

(b) *Ineligible drugs.* A cancer drug may not be accepted by a licensed pharmacist at an approved participating pharmacy for dispensing if the drug meets any one of the following criteria:

(1) The drug bears an expiration date that is earlier than 6 months after the date the drug will be restocked.

(2) The drug shows evidence of having been adulterated or misbranded.

(3) The drug is designated by the Drug Enforcement Agency as a controlled substance under 21 CFR Part 1308 (relating to schedules of controlled substances).

(4) The drug is subject to restricted distribution by the Food and Drug Administration under 21 CFR 314.520 or 314.610 (relating to approval with restrictions to assure safe use; and approval based on evidence of effectiveness from studies in animals).

(5) The drug requires refrigeration, freezing or other special temperature requirements beyond controlled room temperature.

(6) The drug has been previously compounded.

(c) *Drug categories.* Unless otherwise ineligible under this section, an approved participating pharmacy may accept a cancer drug in any of the categories of the American Hospital Formulary Service Pharmacologic-Therapeutic Classification.

(d) *Recalls.* An approved participating pharmacy shall handle a recall of any drug in its Cancer Drug Repository Program as if the drug had been delivered directly to the pharmacy by the manufacturer.

#### § 27.505. Repositories.

(a) *Donation site receipt.* An approved participating pharmacy shall designate an area within the pharmacy at which its licensed pharmacist shall personally receive delivery from the donor or its designee, and provide the donor or its designee with written acknowledgement of any donation of a cancer drug.

(b) *Donation site compliance.* An approved participating pharmacy that accepts donated cancer drugs under the Cancer Drug Repository Program shall comply with all applicable Federal and State laws relating to the storage, distribution, dispensing, disposal and destruction of cancer drugs and visually inspect all cancer drugs prior to dispensing in a manner as to be able to reasonably determine if they are adulterated or misbranded. The cancer drugs shall only be dispensed by a licensed pharmacist according to State law pursuant to a prescription issued by a prescribing practitioner. The cancer drugs may be distributed to another participating physician's office, pharmacy, hospital, health care facility or health clinic for dispensing by a pharmacist as allowed by Federal or State law.

(c) *Disposition.* The approved participating pharmacy repository shall destroy or dispose of donated drugs in a manner in compliance with applicable Federal and State laws if they are not accepted into the Cancer Drug Repository Program for the purpose of dispensing. A record of destruction or disposal of donated drugs that are not accepted or dispensed under the Cancer Drug Repository Program shall be maintained by the participating pharmacy for at least 2 years, and include the following:

- (1) The date of destruction.
- (2) The name, strength and quantity of the cancer drug destroyed.
- (3) The name of the person or firm that destroyed the drug.
- (4) The source of the drugs destroyed.

(d) *Storage.* Drugs received in the Cancer Drug Repository Program shall be stored separately from the rest of the approved participating pharmacy's stock.

(e) *Informed consent.* Prior to dispensing a cancer drug in its Cancer Drug Repository Program, an approved participating pharmacy shall inform the patient that the drug was previously dispensed but was unused and then donated to the approved participating pharmacy in the drug's original unopened, sealed and tamper-evident unit dose packaging to be restocked and redistributed. The approved participating pharmacy may not dispense the drug if the patient does not sign a cancer drug repository informed consent form as supplied by the Board. The

informed consent form shall be maintained for at least 2 years after the patient signs it. The form must include the following information:

(1) The drug being dispensed has been donated and may have been previously dispensed.

(2) The drug was unused, although previously dispensed.

(3) The drug was donated to the approved participating pharmacy in the drug's original unopened, sealed and tamper-evident packaging to be restocked and redistributed.

(4) A visual inspection has been conducted by the pharmacist in a manner as to be able to reasonably determine that the drug has not expired, has not been adulterated or misbranded, and is in its original unopened, sealed and tamper-evident packaging.

(5) The dispensing pharmacist, the prescribing or administering practitioner, the cancer drug repository, the Board and any other participant of the Cancer Drug Repository Program cannot guarantee the safety of the drug being dispensed or administered, and that the pharmacist has determined that the drug appears to be safe to dispense or administer based on the accuracy of the donor's form submitted with the donated drug and the visual inspection required to be performed by the pharmacist before dispensing or administering.

(f) *Recordkeeping.* Drugs used in the Cancer Drug Repository Program must be easily auditable and every dose accounted for by the approved participating pharmacy's maintenance of recordkeeping meeting the following requirements:

(1) The approved participating pharmacy must record receipt of the drug on a repository donor form as developed by the Board.

(2) The approved participating pharmacy must record dispensing the drug on a repository dispensing form as developed by the Board.

(3) The approved participating pharmacy shall record the following information for all cancer drugs received, dispensed and distributed or disposed of or destroyed in the Cancer Drug Repository Program:

- (i) Name and strength of the cancer drug.
- (ii) Quantity of the cancer drug.
- (iii) Expiration date of the cancer drug.
- (iv) Lot number of the cancer drug.
- (v) Name of pharmacy that originally dispensed the cancer drug.
- (vi) Name of the donor of the cancer drug.
- (vii) Name of the person to whom the cancer drug was originally prescribed.
- (viii) Name of the person to whom the cancer drug was dispensed.
- (ix) Date the cancer drug was dispensed.
- (x) Name of the prescribing practitioner who wrote the prescription for the cancer drug to be dispensed under the Cancer Drug Repository Program.
- (xi) Date the cancer drug was disposed of or destroyed.
- (xii) Whether a handling fee was charged and the amount of the fee.

(4) The approved participating pharmacy shall maintain records required under this section for at least 2 years.

(g) *Handling fee.* An approved participating pharmacy may charge a handling fee for distributing or dispensing cancer drugs under the Cancer Drug Repository Program, not to exceed 250% of the Medical Assistance dispensing fee more specifically set forth in the Method of Payment for Pharmaceutical Services provided in 55 Pa. Code Chapter 1121 (relating to pharmaceutical services). (See 55 Pa. Code § 1121.55 (relating to method of payment).) Cancer drugs donated under the Cancer Drug Repository Program may not be resold.

(h) *Theft and diversion.* An approved participating pharmacy shall develop, implement and enforce a policy to deter and minimize theft and diversion of cancer drugs it receives in the form of donations made under the Cancer Drug Repository Program.

**§ 27.506. Patient eligibility.**

(a) *Conditions of eligibility.* To be eligible for the Cancer Drug Repository Program, a patient shall certify that the patient meets the following criteria:

- (1) The patient is diagnosed with cancer.
- (2) The patient does not possess or has limited prescription drug coverage related to the treatment of the

patient's cancer so that the coverage limits prevent the patient from obtaining cancer drugs.

(3) The patient does not meet the eligibility requirements under the State Medical Assistance Program that provides prescription drug coverage related to the treatment of cancer.

(b) *Financial eligibility for the Cancer Drug Repository Program.*

(1) A Pennsylvania resident who meets the eligibility requirements in subsection (a) is financially eligible as an "indigent patient" for the Cancer Drug Repository Program if the resident meets the income standards in this subsection.

(2) The income limits for eligibility for the Cancer Drug Repository Program are based upon the prior year's family income not to exceed 350% of the prior year's Department of Health and Human Services Federal Poverty Income Guidelines for the appropriate family size. The income limits will be published as a notice in the *Pennsylvania Bulletin* and posted on the Board's web site at least once a year as the Federal Poverty Income Guidelines change.

(3) There are no resource limits for determining eligibility under the Cancer Drug Repository Program.

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. In accordance with 25 Pa. Code § 92a.32(d), the proposed discharge of stormwater associated with construction activities will be managed in accordance with the requirements of 25 Pa. Code Chapter 102. These determinations are published as proposed actions for comments prior to taking final actions.

## STATE CONSERVATION COMMISSION

### PROPOSED NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs

This notice provides information about agricultural operations that have submitted nutrient management plans (NMPs) for approval under 3 Pa.C.S. Chapter 5 and that have or anticipate submitting applications for new, amended or renewed NPDES permits, or Notices of Intent (NOIs) for coverage under a general permit, for CAFOs, under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Based upon preliminary reviews, the State Conservation Commission (SCC) or County Conservation Districts (CCD) working under a delegation agreement with the SCC have completed an administrative review of NMPs described. These NMPs are published as proposed plans for comment prior to taking final actions. The NMPs are available for review at the CCD office for the county where the agricultural operation is located. A list of CCD office locations is available at <http://www.nacdnet.org/about/districts/directory/pa.phtml> or can be obtained from the SCC at the office address listed or by calling (717) 787-8821.

Persons wishing to comment on an NMP are invited to submit a statement outlining their comments on the plan to the CCD, with a copy to the SCC for each NMP, within 30 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the NMPs. Comments should include the name, address and telephone number of the writer and a concise statement to inform the SCC of the exact basis of the comments and the relevant facts upon which they are based. Comments should be sent to the SCC, Agriculture Building, Room 310, 2301 North Cameron Street, Harrisburg, PA 17110.

Persons with a disability who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information should contact the SCC through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**LAND RECYCLING AND  
ENVIRONMENTAL REMEDIATION**

**UNDER ACT 2, 1995**

**PREAMBLE 1**

**Acknowledgment of Notices of Intent to Remediate  
Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop

and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

**PLAN APPROVAL AND OPERATING PERMIT  
APPLICATIONS  
NEW SOURCES AND MODIFICATIONS**

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing

the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

**Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.**

**67-03052B: BIMAX, Inc.** (158 Industrial Road, Glen Rock, PA 17327) for installation of a natural gas fired RTO and a wet scrubber in Springfield Township, **York County**.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received an application and intends to issue a Plan Approval to the abovementioned company for the abovementioned project. This plan approval may be incorporated into the company's facility-wide permit via an administrative amendment at a later date.

**30-00089C: Dominion Transmission, Inc.** (501 Martindale Street, 4th Floor, DL Clark Building, Pittsburgh, PA 15212). to issue a Plan Approval to authorize construction and temporary operation of the following proposed sources and controls at the Dominion Transmission ("Dominion") Crayne Compressor Station ("Crayne"), a natural gas transmission station in Franklin Township, **Greene County**: one (1) Solar Taurus 60 natural gas-fired compressor turbine rated at 7,700 hp (at ISO conditions) equipped with dry low-NO<sub>x</sub> combustion system and an oxidation catalyst; one (1) 5.2 MMBtu/hr natural gas fired boiler; and four (4) Capstone C200 microturbine gensets. Three (3) existing microturbine gensets will be removed from service as part of this project.

In accordance with 25 Pa. Code §§ 127.44—127.46, the Department of Environmental Protection ("Department") intends to issue Air Quality Plan Approval PA-30-00089C to authorize construction and temporary operation of the following proposed sources and controls at the Dominion Transmission ("Dominion") Crayne Compressor Station ("Crayne"), a natural gas transmission station located in Franklin Township, **Greene County**: one (1) Solar Taurus 60 natural gas-fired compressor turbine rated at 7,700 hp (at ISO conditions) equipped with dry low-NO<sub>x</sub> combustion system and an oxidation catalyst; one (1) 5.2 MMBtu/hr natural gas fired boiler; and four (4) Capstone C200 microturbine gensets. Three (3) existing microturbine gensets will be removed from service as part of this project.

The installation of the proposed Solar Taurus 60 turbine, boiler, and replacement of the three (3) existing microturbine gensets with four (4) new microtrbine gensets will result in a potential to emit (PTE) increase of approximately 21 tons of nitrogen oxides (NO<sub>x</sub>), 9 tons of carbon monoxide (CO), 2 tons of volatile organic compounds (VOC), 2 tons of sulfur oxides (SO<sub>x</sub>), 3 tons of

total particulate matter (PM, PM<sub>10</sub>, and PM<sub>2.5</sub>), 0.1 ton of formaldehyde, 0.3 ton of total hazardous air pollutants (HAP), and 42,216 tons of carbon dioxide equivalents (CO<sub>2e</sub>) per year. Best available technology (BAT) for the proposed natural gas-fired turbine includes good combustion practices including dry low-NO<sub>x</sub> combustion; installation and operation of an oxidation catalyst; minimization of startup and shutdown events; and proper maintenance and operation. The authorization is subject to State regulations including 25 Pa. Code §§ 123.1, 123.2, and 123.31; and Federal New Source Performance Standards (NSPS) including 40 CFR Part 60 Subpart KKKK for stationary combustion turbines. The Plan Approval has been conditioned to ensure compliance with all applicable rules and includes NO<sub>x</sub>, CO, VOC, PM<sub>10</sub>, PM<sub>2.5</sub>, and visible emission limits; limitation of fuel sulfur content; and testing, work practice, monitoring, recordkeeping, and reporting conditions. The proposed increase in facility-wide PTE at Crayne will not exceed any of the major source thresholds for criteria or hazardous air pollutants, but will exceed 100,000 tpy CO<sub>2e</sub>. Dominion has requested that a facility-wide limitation on annual CO<sub>2e</sub> emissions be included in the plan approval such that the facility remains below the 100,000-ton CO<sub>2e</sub> major source threshold.

A person may oppose the proposed plan approval by filing a written protest with the Department through Devin P. Tomko, Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA, 15222. Additional written comments may also be submitted. Each protest or set of written comments must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval (PA-30-00089C) and concise statements regarding the relevancy of the information or objections to issuance of the Plan Approval.

All comments must be received prior to the close of business 30 days after the date of this publication.

A public hearing may be held, if the Department, in its discretion, decides that such a hearing is warranted based on the information received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing in writing or by publication in the newspaper and the *Pennsylvania Bulletin*, or by telephone, where the Department determines such notification by telephone is sufficient.

For additional information, you may contact Devin P. Tomko at 412-442-5231.

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

#### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

##### *Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

\*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

##### *Effluent Limits for Noncoal Mining Activities*

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*			
pH*		greater than 6.0; less than 9.0	

\* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge

limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

To place and maintain fill and to construct the following water obstructions and encroachments in 1.55 acres of other wetlands as part of the Highlands at Archbald Residential Subdivision;

1. To temporarily impact 0.01 acre of wetland A for a 36 inch utility crossing,
2. To permanently impact 1.28 acres of wetlands B, C, D, 1, and 5 for the construction of road crossings and associated grading, and,
3. To permanently impact 0.26 acre of wetlands 2, 3, 4, 7, and 8 for grading impacts.

The project is located at the intersection of Eynon Jermyn Road and Columbus Drive Archbald Borough, Lackawanna County (Olyphant, PA Quadrangle, Latitude: 41°30'29.9"; Longitude: -75°33'42.4").

*Northcentral Region: Waterways & Wetlands Program Manager, 208 West Third Street, Williamsport, PA 17701, 570-327-3636*

**E59-520. Upper Susquehanna River Mitigation Bank—Phase 2 (USRMB2)**, 380 Southpointe Blvd., Suite 405, Canonsburg, PA 15317-8550. First Pennsylvania Resources, LLC in Brookfield Township, **Tioga County**, ACOE Baltimore District (Potter Brook, PA Quadrangle Lat: 41° 56' 03"; Long: -77° 36' 21").

First Pennsylvania Resource and Resource Environmental Solutions propose to construct and maintain a Upper Susquehanna River Mitigation Bank—phase 2 (USRMB2). The 129.3 acre site is located approximately 5 miles northwest of Westfield in Brookfield Township—Tioga County, which is located over unnamed tributary to Cowanesque River. The site is primarily forested and agricultural land, bound on all sides by mid-successional forest. The project drains to the Cowanesque River.

The scope of work of the USRMB2 is to restore, augment and preserve self-sustaining, functional stream, wetland and riparian corridors functions and values, which have been degraded as a result of historical land use practices on the Site. The restoration of the Site will focus on dynamic improvement of the overall holistic functions of the onsite riparian corridor including stream, wetland and upland riparian areas.

The specific functional improvement goals include, but are not limited to:

1. Re-establish floodplain wetland presence and establish a high level of wetland functional diversity;
2. Increase onsite flood capacity, storage and attenuation;
3. Re-establish the hydraulic connectivity of onsite stream channels to their historical flood prone areas

(specifically providing for the re-establishment of the interaction of channel flow with the floodplain during bankfull flow and greater events);

4. Re-establish stream stability and appropriate channel geometry including dimension, pattern and profile characteristics;

5. Remove an in-line impoundment (pond) to re-establish upstream and downstream channel connectivity re-establishing the opportunity for aquatic organism movement within site streams;

6. Remove source causes and correct existing historical channel alterations, both direct and indirect, including berms, culverts, livestock degradation and agricultural impacts;

7. Reduce stream bank erosion and resulting sediment contributions to the stream system;

8. Re-establish a stable in-stream sediment transport regime;

9. Improve riparian nutrient and organic matter cycling;

10. Improve aquatic and riparian terrestrial habitat;

11. Re-establish a diverse forested riparian corridor composed of native species; and

12. Provide perpetual protection of the Site through appropriate legal protections to ensure the continuity of the functional improvement goals once established into perpetuity.

The jurisdictional impacts associated with the USRMB2 include 1.29 acres of total wetland impacts (combined temporary and permanent) and 3,718 linear feet (LF) of temporary stream impacts to unnamed tributary to Cowanesque River, which is classified with a designated use of Cold Water Fishery (CWF).

**E60-215. Silvermoon Development**, 145 Dustin Avenue, West Milton, PA 17886-8042. Silvermoon Fairfield Project, in Kelly Township, **Union County**, ACOE Baltimore District (Northumberland, PA Quadrangle N: 40°59' 40.60"; W: -76°52'25.69").

To: 1) fill 0.135 acre of wetland in the Silvermoon Development located in the southwest corner of the Zeigler Road and SR 15 intersection; 2) construct and maintain replacement wetlands within the Silvermoon Development in order to create a suitable building site for a car dealership. This project proposes to permanently impact 0.135 acre of PEM wetlands in the drainage area of the West Branch Susquehanna River, which is classified as a warm water fishery.

*Southwest Region: Waterways & Wetlands Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.*

Applicant proposes to

1. Replace a 60 foot long section of a 185 foot long 48 inch diameter RCP culvert with a 140 foot long 54 inch RCP culvert extension on an unnamed tributary to Jennings Run (WWF) with a drainage area of 128 acres;

2. Replace a 62 foot long 15 inch diameter pipe with a 101 foot long 42 inch diameter pipe on an unnamed tributary to Coal Lick Run (WWF) with a drainage area less than 100 acres;

3. Replace a 104 foot long 60 inch diameter pipe and a 169 foot long 60 inch diameter pipe with 157 foot long and 181 foot long 60 inch diameter pipes, respectively, on another unnamed tributary to Coal Lick Run (WWF) with a drainage area less than 100 acres;

4. Construct and maintain associated stormwater outfalls on unnamed tributaries to Jennings Run (WWF) and Coal Lick Run (WWF);

5. Permanently maintain fill in 0.096 acre of PEM wetland and temporarily impact 0.338 acre of PEM wetland.

Wetland mitigation will be via debiting from the Jacobs Creek Advanced Wetland Compensation Site located 2 miles east of Mount Pleasant, PA; stream mitigation will be constructed on site. The project is located west of Uniontown Pa. (New Salem Quadrangle starting N 5.0 inches, W 0.7 inch, Latitude: 39° 54' 8", Longitude: 79° 45' 16"; and extending west N 4.5 inches, W 2.5 inches, Latitude: 39° 53' 58", Longitude: 79° 46' 03") in South Union Township, Fayette County.

The project will utilize a temporary causeway for construction. In addition the project will relocate a small unnamed tributary to the Clarion River that flows along the roadway approach. The project will impact approximately 200 linear feet of the Clarion River and 128 linear feet of the UNT to Clarion River.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environ-

mental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. **Department of Banking and Securities**

**Regulation #3-51 (IRRC #3021)**

**Assessments**

**November 14, 2013**

We submit for your consideration the following comments on the proposed rulemaking published in the September 14, 2013 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Department of Banking and Securities (Department) to respond to all comments received from us or any other source.

**1. Need; Reasonableness; Fiscal impact.**

According to the Department, this proposed rulemaking would establish an assessment schedule for State-chartered institutions (institutions) which would provide adequate and sustainable funding for the Department and streamline reporting and billing requirements for institutions. Information provided in the Regulatory Analysis Form (RAF) indicates that the rulemaking will increase costs to the institutions by \$3,550,000 in Fiscal Year (FY) 2014-2015; \$6,386,000 in FY 2015-2016; \$9,224,000 in FY 2016-2017 and \$9,739,000 in FY 2017-2018 over what would be collected in FY 2012-2013.

Figures provided in the RAF also indicate that the assessment schedule would produce surpluses of \$4,937,000 in FY 2014-2015; \$5,286,000 in FY 2015-2016 and \$7,621,000 in FY 2016-2017. Given the increased cost that this proposal will impose on the regulated community, we question how the Department determined that the projected surpluses are appropriate.

**2. Implementation procedures.**

As noted above, this proposed rulemaking would establish an assessment schedule for institutions. It is our understanding that the Department currently assesses these institutions, but the current assessment system is not administered via any particular rule or regulation. As such, there is nothing in this proposal that deletes the current assessment system. We ask the Department to explain how it currently collects fees from institutions and how it will transition to the new assessment schedule. Will the Department discontinue its current assessment system? Assuming that this proposal is ultimately adopted as a formal regulation, how and when would the regulated community be notified of the change?

**3. Section 5.5. Adjustments to assessments; invoicing.—Implementation procedures; Reasonableness; Need; Fiscal impact.**

*Subsection (a)*

This section sets forth the criteria for adjustments to assessments based upon an optional adjustment for inflation which would be applied to all institutions. It allows the Department to increase the amount of the assessment up to the increase in the Consumer Price Index or other similar index published by the United States Department of Labor Bureau of Labor Statistics, if the projected assessments are insufficient to provide for the Department's budget due to inflation.

We have several questions on how this provision will be implemented and why the Department believes this approach is reasonable.

- First, what safeguards are in place to ensure that the need for additional funding is based on inflation? Do the Pennsylvania General Assembly and the budgetary process have any input or oversight on whether an adjustment is needed?

- Second, will the Department notify the regulated community in advance about the imposition of the inflation adjustment? How and when would the regulated community be notified of the inflation adjustment?

- Third, how often are the cited inflation indices updated? Do the inflation indices correlate to the semiannual assessment notices of this rulemaking?

- Fourth, how did the Department determine that the cited inflation indices are most appropriate for all Pennsylvania State-chartered institutions?

- Finally, what criteria will the Department use when deciding which inflation index to use?

We ask the Department to respond to these questions and to adjust the final-form rulemaking as it deems appropriate to provide for fair and uniform administration of adjustments of assessments.

*Subsection (b)*

This subsection allows for an optional adjustment to be applied only to specific institutions based upon their Uniform Financial Institutions Rating System or Uniform Interagency Rating System composite rating. What is the need for this surcharge and why does the Department believe it is the most reasonable approach to assessing certain institutions? How did the Department determine that a 30 percent surcharge is appropriate for an institution with a composite rating of four and that a 50 percent surcharge is appropriate for an institution with a composite rating of five?

In addition, we note that this subsection provides the Department with discretion as to whether the surcharge will be imposed. What criteria will guide the Department in its determination that this surcharge is appropriate? Will the surcharge be imposed to close a budgetary gap or will it be imposed to encourage institutions to improve their composite ratings?

**4. Section 5.6. Implementation schedule.—Reasonableness; Fiscal impact.**

This section provides for a phase-in of the new assessment schedule; however, the phase-in only applies to banks, bank and trust companies, saving banks, savings associations and trust companies. The Department notes that the phase-in will not apply to credit unions because the collective impact of the assessments on the budgets of credit unions would be modest. A commentator has asked the Department to consider the merits of imposing the new assessment schedule on an incremental basis for credit unions with larger assets. As the Department prepares the final-form rulemaking, we ask it to consider the recommendation of the commentator as a way to lessen the immediate fiscal impact it would have on larger credit unions.

**Environmental Quality Board**

**Regulation #7-483 (IRRC #3022)**

**Oil and Gas Well Fee Amendments**

**November 14, 2013**

We submit for your consideration the following comments on the proposed rulemaking published in the September 14, 2013 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regula-

tory Review Act (RRA) (71 P. S. § 745.5b). Section 5.1(a) of the RRA (71 P. S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

**1. Section 78.1. Definitions.—Clarity and lack of ambiguity; Need.**

*Conventional well*

EQB proposes to define conventional well as “a bore hole drilled or being drilled for the purpose of or to be used for the production of oil or gas from a conventional formation.” Commentators question whether secondary and tertiary recovery or disposal injection wells would be considered conventional wells under this definition. The commentators further state that both the regulated community, as well as regulators, would benefit from a more detailed definition of a conventional well. Specifically, commentators suggest using the description of a conventional well in Section E of the Preamble as the basis for a more detailed definition of conventional well in the regulation.

We ask EQB to consider the commentators’ suggestion or ensure that the definition of a conventional well in the final-form regulation is clear and lacks ambiguity for the regulated community.

*Subsection (a)*

EQB proposes to delete the current subsection (a) which states that certain words and terms used in the chapter are defined by other statutes. EQB did not address this deletion in the Preamble. We ask EQB to explain the need for removing this subsection in the final-form regulation.

**2. Section 78.19. Permit application fee schedule.—Economic or fiscal impacts; Reasonableness.**

The Department’s Oil and Gas Program (Program) is funded primarily through the oil and gas well permit fee.

The Department of Environmental Protection (Department) is required to evaluate the oil and gas well permit fee every three years and recommend any changes to the fee necessary “to address any disparity between program income generated by the fees and the Department’s cost of administering the program with the objective of ensuring fees meet all program costs and programs are self-sustaining.” 25 Pa. Code § 78.19(f). However, the Oil and Gas Act (Act) requires the permit fee to bear a “reasonable relationship” to the cost of administering the Act. 58 P. S. § 601.201(d).

Based on the most recent evaluation, EQB proposes to change the current oil and gas well permit fee from a sliding fee schedule to a fixed fee for most wells. The change would result in a fixed \$5,000 fee for each nonvertical unconventional well (an increase of \$1,800 or 36 percent from the current average permit fee of \$3,200), and a fixed \$4,200 fee for each vertical unconventional well (an increase that is more than double the current average permit fee of \$2,000).

As noted above, permit fees must bear a “reasonable relationship” to the cost of the Program. In reviewing the Regulatory Analysis Form and Preamble, we do not see an explanation regarding how the proposed permit fees relate to the anticipated Program costs. Given that EQB proposes significant increases for unconventional well permits, we ask EQB to explain how it arrived at the anticipated Program costs to support the reasonableness of the increases. We will review EQB’s response to these concerns as part of our consideration of the final-form regulation.

See 58 Pa.C.S. § 2302(e) (relating to unconventional gas well fee). Consistent with Act 13, the certification date to the Department is the date an acceptable certificate of well plugging is filed with and time-stamped by the Department. The certification date is the date of the official Department time-stamp placed on the certificate of well plugging. Note that the date plugging was physically completed, as supplied by the producer on the certificate of well plugging, is not the certification date to the Department for purposes of 58 Pa.C.S. § 2302(e). The Pennsylvania Public Utility Commission (Commission) encourages producers to maintain time-stamped copies of all certificates of well plugging filed with the Department.

Regarding reclassified unconventional wells, the date an acceptable reclassification document<sup>1</sup> amending a well's classification is filed with and time-stamped by the Department is the reclassification date. The reclassification date is the date of the official Department time-stamp placed on that document. The Commission encourages producers to maintain time-stamped copies of all documents amending well classifications filed with the Department.

### **Delegation of Additional Authority Regarding Motor Carrier Abandonment and Discontinuance of Service Applications**

Public Meeting held  
November 14, 2013

*Commissioners Present:* Robert F. Powelson, Chairperson; John F. Coleman, Jr., Vice Chairperson; James H. Cawley; Pamela A. Witmer; Gladys M. Brown

*Delegation of Additional Authority  
Regarding Motor Carrier Abandonment  
and Discontinuance of Service Applications;  
Doc. No. M-2013-2389253*

### **Opinion and Order**

*By the Commission:*

In order to deal efficiently with the numerous routine and non-controversial matters that require agency approval, the Pennsylvania Public Utility Commission (Commission) has explicitly delegated its approval authority as to certain matters that are deemed to be routine, ministerial and non-policy making in nature to certain Bureau Directors. By this Order, the Commission is delegating additional authority to the Bureau of Technical Utility Services' Motor Carrier Compliance Office (Motor Carrier Compliance Office) to approve or disapprove applications to voluntarily abandon or discontinue motor carrier service. In lieu of action at public meeting, the approval or disapproval of these applications will be addressed by Secretarial Letter.

### *Discussion*

Consistent with the Commission's prior delegations of authority, items which are clearly policymaking, rule-making or adjudicative in nature are not appropriate for delegation to Commission staff and will, accordingly, be reviewed by the Commission and resolved at public meeting. Policymaking, rulemaking and adjudication decisions determine the direction of the agency on key issues and determine the rights and obligations of persons subject to the Commission's jurisdiction. These represent the core functions of the Commission as an administrative agency, and they should remain with the Commission.

On the other hand, items which are routine, ministerial and non-policymaking in nature are candidates for delegation to Commission staff. Pursuant to the Commission's regulations, motor carriers of passengers or household goods in use must file an application to abandon or discontinue service if such a motor carrier intends to voluntarily abandon or discontinue service in whole or in part. See 52 Pa. Code § 3.381. Currently, these applications to voluntarily abandon or discontinue service are reviewed by the Motor Carrier Compliance Office and approved or disapproved by the Commission at public meeting.

Because the approval or disapproval of these applications to voluntarily abandon or discontinue service is routine and ministerial in nature, the Commission desires to delegate authority to approve or disapprove such applications to the Motor Carrier Compliance Office. Therefore, by this Order, the Motor Carrier Compliance Office is hereby given authority to approve or disapprove applications of motor carriers, filed pursuant to 52 Pa. Code § 3.381, to voluntarily abandon or discontinue

service.<sup>1</sup> To carry out this authority, the Motor Carrier Compliance Office will prepare a Secretarial Letter determining whether a motor carrier's application to abandon or discontinue service has been approved. That Secretarial Letter will then be forwarded to the Commission's Secretary's Bureau for formal issuance in lieu of public meeting action.<sup>2</sup> The Secretarial letter will have the same authority as a Commission order. See *West Penn Power Co. v. Pa. P.U.C.*, 174 Pa.Super. 123, 100 A.2d 110 (1954).

Under this new procedure, due process controls will be maintained. An affected party may appeal the staff action (the approval or disapproval of the application) to the full Commission by filing a petition for appeal from actions of staff pursuant to 52 Pa. Code § 5.44 within 20 days after service of notice of the action. In addition, any action taken by staff under this delegated authority, including the issuance of the Secretarial Letter, shall provide notice of the parties' right to appeal the action, pursuant to 52 Pa. Code § 5.44(b). Furthermore, the Motor Carrier Compliance Office will continue to publish a notice of all applications to voluntarily abandon or discontinue service in the *Pennsylvania Bulletin* to allow interested parties to comment as necessary prior to staff action.

Furthermore, the Motor Carrier Compliance Office will continue to exercise discretion and good judgment in determining whether an application to voluntarily abandon or discontinue service should nevertheless be placed on the public meeting agenda. In certain situations, even a routine matter may be significant and require a Commissioner-level determination. When this occurs, the Bureau Director should place the item on the public meeting agenda for full Commission review. The calendar sheet of the public meeting agenda item will explain the circumstances regarding the application that is not "routine."

The Motor Carrier Compliance Office is encouraged to establish guidelines delineating the aforementioned situations when an otherwise routine application will be placed on the public meeting agenda. The Law Bureau will also update the Commission's Rules of Practice and Procedures Manual where necessary to reflect the delegation of authority set forth in this Order. Additionally, a copy of this Order will be published in the *Pennsylvania Bulletin* and posted on the Commission's website at [www.puc.pa.gov](http://www.puc.pa.gov).

#### Conclusion

The delegation of authority to the Motor Carrier Compliance Office to approve or disapprove applications to voluntarily abandon or discontinue service will allow the Commission to efficiently deal with these numerous routine and non-controversial applications by reducing the number of these applications appearing on the public meeting agendas. Additionally, the procedures established in this Order will allow the Commission to maintain proper due process controls on the application approval process; *Therefore*,

#### *It Is Ordered That:*

1. The Motor Carrier Compliance Office is hereby given authority to approve or disapprove applications of motor

<sup>1</sup> We note that pursuant to Section 215(D)(4) of the Commission's Rules of Practice and Procedure, the Motor Carrier Compliance Office has previously been delegated authority to cancel certificates of public convenience for "non-voluntary" abandonment or discontinuance of service in matters where the carrier had failed to file an application to abandon or discontinue service and a complaint has been filed against the carrier alleging the same. See Procedures Manual at § 215(D)(4).

2. The Motor Carrier Compliance Office shall prepare a Secretarial Letter determining whether a motor carrier's application to abandon or discontinuance service is approved.

3. Once the Motor Carrier Compliance Office has prepared a Secretarial Letter determining whether a motor carrier's application to abandon or discontinue service has been approved, that Office shall then forward that Secretarial Letter to the Commission's Secretary's Bureau for formal issuance.

4. The Motor Carrier Compliance Office shall publish a notice of all applications to voluntarily abandon or discontinue service in the *Pennsylvania Bulletin* to allow interested parties to comment as necessary prior to staff action.
