READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 3000. JUDGMENTS

**Subchapter D. ENFORCEMENT OF MONEY
JUDGMENTS FOR THE PAYMENT OF MONEY**

Rule 3111. Service of the [**writ on garnishee; effect**]
Writ on Garnishee. Effect.

(a) The writ shall be served by the sheriff upon the garnishee in the manner prescribed by Rule 402(a) except as otherwise provided by Rules 3112 and 3113. The sheriff shall furnish the garnishee with an additional copy of the writ for each defendant. If the garnishee served was not named in the writ he shall be added as a garnishee and return made accordingly.

(b) Service of the writ upon the garnishee shall attach all property of the defendant which may be attached under these rules which is in the possession of the garnishee. It shall also attach all property of the defendant which may be attached under these rules and which comes into the garnishee's possession thereafter until judgment against the garnishee even though no such property of the defendant was in the garnishee's possession at the time of service.

Official Note: For limitations on the power to attach tangible personal property see Rule 3108(a).

See Rule 3111.1 providing that service of the writ does not attach the first \$10,000 of each account of the defendant in which any funds are deposited electronically on a recurring basis and are identified as funds that upon deposit are exempt from attachment, or each account of the defendant in which funds on deposit exceed \$10,000 at any time, if all funds are deposited electronically on a recurring basis and are identified as being funds that upon deposit are exempt from attachment.

(c)(1) **If a garnishment has not been acted upon within one year of the filing of the garnishment, the garnishee or the defendant may file a petition to terminate the garnishment. The petition shall include a notice that the plaintiff has twenty days to respond to the filing of the petition and that upon failure to do so, the garnishment may be terminated.**

(2) **Any response to the petition shall be filed within twenty days of the filing of the petition and set forth the reasons not to terminate the garnishment.**

(3) **If no response to the petition is filed, upon praecipe, the writ of garnishment shall be terminated.**

Official Note: If a response is filed to the petition to terminate the garnishment, it shall be resolved pursuant to motion and answer practice. See Rule 208.1 et seq.

[(c)] (d) Service of the writ upon the garnishee shall also subject the garnishee to the mandate and injunctive orders of the writ restraining the garnishee from paying any debt to or for the account of the defendant and from delivering any property of the defendant which may be attached under these rules to anyone except the sheriff or otherwise disposing thereof until further order of the court or discontinuance or termination of the attachment.

[(d)] (e) Violation of the mandate and injunctive orders of the writ may be punished as a contempt.

**Rule 3129.3. Postponement of Sale. New Notice.
Failure of Plaintiff to Attend Sale.**

(a) Except as provided by subdivision (b) or special order of court, new notice shall be given as provided by Rule 3129.2 if a sale of real property is stayed, continued, postponed or adjourned.

(b)(1) If the sale is stayed, continued, postponed or adjourned to a date certain within one hundred thirty days of the scheduled sale, notice of which sale was given as provided by Rule 3129.2, and public announcement thereof, including the new date, is made to the bidders assembled at the time and place fixed for the sale, no new notice as provided by Rule 3129.2 shall be required, but there may be only two such stays, continuances, postponements or adjournments within the one hundred thirty day period without new notice.

(2)(i) **When the sale is stayed, continued, postponed or adjourned as provided by subdivision (b)(1), the plaintiff shall file**

(A) a notice of the date of continued sheriff's sale with the prothonotary at least fifteen days before the continued sale date, and

(B) a certificate of filing with the sheriff confirming the filing of the notice of the date of continued sheriff's sale with the prothonotary.

The sheriff shall continue the sale to the next available sale date if the notice of the date of continued sheriff's sale has not been timely filed. This continuance imposes a new obligation on the plaintiff to meet the requirements described in (b)(2)(i)(A) and (B).

(ii) **Non-compliance with this subdivision is not a basis for setting aside the sheriff's sale unless raised prior to the delivery of the sheriff's deed. The sale shall be set aside only upon a showing of prejudice.**

Official Note: This subdivision supersedes other provisions of these rules limiting the number of times a sale may be continued, including the provisions of subdivision (b)(1).

(3)(i) **The notice required by subdivision (b)(2) shall be substantially in the following form:**

The sheriff shall return the writ of execution to the prothonotary and file a return pursuant to Rule 3139 indicating that the real property was not sold because the plaintiff or a representative of the plaintiff was not present at the sale. Thereafter, the writ may be reissued pursuant to Rule 3106.

Rule 3135. Sheriff's [deed to real property] Deed to Real Property. Correction of [deed] Deed.

(a) When real property is sold in execution and no petition to set aside the sale has been filed, the sheriff, at the expiration of twenty days but no later than 40 days after either the filing of the schedule of distribution or the execution sale if no schedule of distribution need be filed, shall execute and acknowledge before the prothonotary a deed to the property sold. The sheriff shall forthwith deliver the deed to the appropriate officers for recording and for registry if required. Confirmation of the sale by the court shall not be required.

Official Note: See Rule 3136(a) governing the filing of the schedule of distribution.

(b) If the sheriff has made a defective return of the execution proceeding or has executed a defective deed, including the erroneous description of the real estate, the court upon petition of the purchaser or the purchaser's successors in title may correct the return or deed or order that a new return or deed be executed.

(c) If the plaintiff has failed to give notice to a lienholder, junior in lien priority to the mortgage being foreclosed upon or the judgment being executed, the plaintiff, or its assigns, or the purchaser at the sheriff's sale may file a petition with rule to show cause requesting that:

(1) the lien held by the junior lienholder be divested, or

(2) if the plaintiff, or its assigns, is the purchaser at the sheriff's sale, another sheriff's sale be held in which only the junior lienholder specified in the petition may be the only bidder allowed other than the senior lienholder who acquired the property at the sheriff's sale, or

(3) such relief as may be approved by order of court.

Explanatory Comment

The Rules of Civil Procedure governing sheriff's sales have been amended in three respects:

Current Rule 3111 governing the service of the writ on the garnishee provides for a continuing garnishment of defendant's property until the underlying judgment is satisfied. Because garnishments can languish indefinitely without any action taken on them, the amendment introduces a procedure that would allow a defendant or a third-party garnishee to petition the court for termination of the garnishment provided that there has been no activity on the garnishment for at least one year. The plaintiff has the opportunity to respond to the petition and set forth the reasons the garnishment should not be terminated.

Current Rule 3129.3 governs the procedures for postponing or continuing a sheriff's sale. The rule, however, is silent as to providing notice of the date to which a sheriff's sale has been postponed. As a remedy, the amendment to Rule 3129.3 requires the plaintiff to file a notice of the date of continued sheriff's sale with the prothonotary at least 15 days before the continued sale date. The plaintiff must also file a certificate of filing with the sheriff's office confirming the filing of the notice with the prothonotary.

The failure to timely file the notice results in the sheriff continuing the sale until the next available sale date. However, noncompliance is not a basis for setting aside the sale unless it is raised prior to the delivery of the sheriff's deed. A sale will only be set aside upon a showing of prejudice.

The amendment to Rule 3135, which governs the correction of the sheriff's deed to real property, addresses the situation when a junior lienholder has failed to receive notice of mortgage foreclosure and has not been divested of its interest. Currently, the plaintiff is required to hold the sheriff's sale again even though the junior lienholder typically has no interest in purchasing the mortgage. To remedy this duplication of effort and resources, the amendment allows for a plaintiff, its assigns, or the purchaser at the previously held sheriff's sale to file a petition with a rule to show cause requesting that (1) the lien held by the junior lienholder be divested, (2) another sheriff's sale be held in which only the junior lienholder specified in the petition may be the only other bidder allowed other than the senior lienholder who acquired the property at the previously held sheriff's sale, or (3) other relief approved by the court.

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE. CH. 51]

Administrative Provisions; Resident and Nonresident Fishing Licenses

The Fish and Boat Commission (Commission) amends Chapter 51 (relating to administrative provisions). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code).

A. *Effective Date*

The final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on the final-form rulemaking, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The amendment to § 51.32 (relating to resident and nonresident licenses) is published under the statutory authority of section 2102 of the code (relating to rules and regulations).

D. *Purpose and Background*

The final-form rulemaking is designed to improve, enhance and update the Commission's administrative regulations. The specific purpose of the amendment is described in more detail under the summary of change.

E. *Summary of Change*

Under former § 51.32(d), a Senior Resident Lifetime Fishing License became invalid when the holder establishes residency in another state. While not as specific as § 51.32(d), § 51.32(a) and (c) have been interpreted to mean that other fishing licenses become invalid upon a change in residency.

With the advent of multiyear fishing licenses, the Commission anticipates some confusion arising among anglers who purchase a multiyear license, move out-of-State and expect to be able to continue fishing with the multiyear license. The Commission believes that the benefits of providing clarity to anglers and encouraging fishing outweigh revenue to be gained by requiring license holders to purchase a new fishing license after they change their state of residence. License holders will still be required to display their license and possess a positive means of identification as required under section 2703(a) of the code (relating to possession and display of licenses).

The Commission amends § 51.32 to provide that a resident fishing license will remain valid for the year or years for which it is issued regardless of whether the holder is no longer a bona fide resident of this Commonwealth. The Commission amends § 51.32 to read as set forth in the proposed rulemaking published at 43 Pa.B. 5462 (September 14, 2013).

F. *Paperwork*

The final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. *Fiscal Impact*

The final-form rulemaking will not have an adverse fiscal impact on the Commonwealth or its political subdivisions. Fiscal impacts to the Commission will be nominal.

The final-form rulemaking will not impose new costs on the private sector or the general public. It will result in a cost savings to anglers who purchase a resident license and then move out of this Commonwealth prior to the expiration of the license. These anglers will not be required to purchase a nonresident license until their current license expires.

H. *Public Involvement*

Notice of proposed rulemaking was published at 43 Pa.B. 5462. The Commission did not receive public comments concerning the proposed rulemaking.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendment adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the Commission did not receive public comments concerning the proposed rulemaking.

(3) The adoption of the amendment of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 51, are amended by amending § 51.32 to read as set forth at 43 Pa.B. 5462.

(b) The Executive Director will submit this order and 43 Pa.B. 5462 to the Office of Attorney General for approval as to legality and form as required by law.

(c) The Executive Director shall certify this order and 43 Pa.B. 5462 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

JOHN A. ARWAY,
Executive Director

Fiscal Note: Fiscal Note 48A-250 remains valid for the final adoption of the subject regulation.

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 63]

Fishing; Authorized Devices

The Fish and Boat Commission (Commission) amends Chapter 63 (relating to general fishing regulations). The

Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code).

A. *Effective Date*

The final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on the final-form rulemaking, contact Wayne Melnick, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The amendments to §§ 63.6 and 63.10 (relating to authorized devices for game fish, baitfish and fishbait; and ice fishing) are published under the statutory authority of section 2102 of the code (relating to rules and regulations).

D. *Purpose and Background*

The final-form rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the amendments is described in more detail under the summary of changes.

E. *Summary of Changes*

Section 63.6 limits the number of hooks per line to three (a single hook, as defined in this Commonwealth, may contain up to three points). Recently, several individuals and a representative from a tournament angling organization requested that the Commission accommodate use of the "Alabama rig." The Alabama rig is an umbrella type rig that contains five lures on short wire lines that merge to one point for attachment to a fishing line. The Alabama rig has been observed to be used in this Commonwealth by the Division of Fisheries Management staff as fished with three hooked lures and two "teaser" lures not containing hooks. After the Bureau of Fisheries and the Bureau of Law Enforcement explored the issue, a sound biological or enforcement reason was not found to change the regulation to allow for this type of tackle.

Although initial interest to change the regulation came from a black bass organization, changes to the regulation would affect other species as well. Striped bass anglers also use this type of device.

With respect to black bass, it appears that use of the rig in other states has been directed to a rather small component of black bass populations, that is, bass that occupy habitats that were lightly exploited or that were previously not vulnerable to capture using conventional gear types. Where habitats exist and are occupied by black bass in this Commonwealth, the Commission might expect an increase in catch. The fraction of catch that is harvested is typically low for black bass, 7% as measured in the 2007 Susquehanna River Creel survey. Likewise, the percentage of released bass that perish is typically low (10-12%) as measured in reservoirs in this Commonwealth and elsewhere using conventional tackle. Commission staff presume that catch and release loss associated with the Alabama Rig will likewise be low.

Commission staff looked at the regulations of surrounding states and found that there is not a real consensus in terms of a limit on hooks. Several states allow more than three hooks or do not have a limit on hooks. New Jersey allows up to nine hooks or three treble hooks per line while New York allows five baits/lures. Virginia and West

Virginia do not have limits on rods or hooks except for trout fishing. Ohio is the only state that has a regulation that closely mirrors the Commonwealth's with a two-rod/three-hook maximum. The Commission therefore proposed that § 63.6 be amended to provide that there will not be a restriction on the number of hooks used for fishing for game fish or baitfish.

After the Commission approved the publication of the proposed rulemaking, staff discovered that there is a reference in § 63.10 to the number of hooks that are permitted to be attached to each line while fishing. That number is limited to three. To be consistent with the previously proposed changes to § 63.6, the Commission also adopts the change to § 63.10 in this final-form rulemaking.

In response to the proposed rulemaking, the Commission received a comment from the Ohio Department of Natural Resources, Division of Wildlife, expressing concerns that implementing the new rule on the Pymatuning Reservoir where Pennsylvania and Ohio exercise concurrent jurisdiction will cause confusion among anglers fishing in the lake. The Commission, therefore, on final-form rulemaking, adopts the amendments except on the Pymatuning Reservoir.

The Commission amends §§ 63.6 and 63.10 to read as set forth in Annex A.

F. *Paperwork*

The final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. *Fiscal Impact*

The final-form rulemaking will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will not impose new costs on the private sector or the general public.

H. *Public Involvement*

Notice of proposed rulemaking was published at 43 Pa.B. 5466 (September 14, 2013). The Commission received five comments. Prior to the official public comment period, the Commission received three comments concerning the proposal, two of which supported it and one of which opposed it. The Commission received one comment opposing it during the official public comment period. After the public comment period, the Commission received the comment from the Ohio Department of Natural Resources. Copies of the public comments were provided to the Commissioners.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the public comments received were considered.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 63, are amended by amending §§ 63.6 and 63.10 to read as set forth in Annex A.

(*Editor's Note:* Section 63.10 was not included in the proposed rulemaking published at 43 Pa.B. 5466.)

(b) The Executive Director will submit this order and Annex A to the Office of Attorney General for approval as to legality and form as required by law.

(c) The Executive Director shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

Executive Director

Annex A

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart B. FISHING

CHAPTER 63. GENERAL FISHING REGULATIONS

§ 63.6. Authorized devices for game fish, baitfish and fishbait.

(a) It is unlawful to fish for game fish with more than three lines of any description, whether fished by rod or by hand, at one time except while ice fishing in accordance with § 63.10 (relating to ice fishing). There is not a restriction on the number of hooks used for fishing for game fish, except when fishing in the Pymatuning Reservoir where no more than three hooks shall be attached to each line used in fishing. Rods, lines and hooks shall be under the immediate control of the person using them. A fishing device shall be deemed to be under the immediate control of the person using it if, when the terminal device (hook, bait or lure) is taken by a fish, the person using the device has direct control over it and it is not connected at that point to a casting or depth placement aid such as a casting boat or downrigger. Casting or depth placement aids such as downriggers or small remote controlled boats are not prohibited by this chapter.

(b) It is unlawful to fish for baitfish with more than three lines of any description, whether fished by rod or by hand, at one time; a dip-net or minnow seine not over 4 feet square or 4 feet in diameter, and a minnow trap, with not more than two openings, which may not exceed 1 inch in diameter. There is not a restriction on the number of hooks used for fishing for baitfish, except when fishing in the Pymatuning Reservoir where no more than three hooks shall be attached to each line used in fishing. Rods, lines, hooks, nets and seines used in fishing for fishbait and baitfish shall be under the immediate control of the person using the same. For the purposes of this subpart, gizzard shad (*Dorosoma cepedianum*) 8 inches or less in length are considered baitfish.

(c) For purposes of this section, a hook is considered a fishing device with no more than three points or barbs.

(d) It is unlawful to use more than three lines at any time, except while ice fishing in accordance with § 63.10, when fishing for game fish, baitfish or both.

(e) It is unlawful to use any type of net or seine to catch or take game fish. A landing net may be used to land game fish legally caught by hook and line.

(b) It is unlawful while ice fishing to use more than five fishing devices, which may consist of rods, hand lines, tip ups or any combination thereof. Each device shall contain a single fishing line. There is not a restriction on the number of hooks that may be used for ice fishing, except when fishing in the Pymatuning Reservoir where no more than three hooks shall be attached to each line used in fishing.

(c) Rods, lines and tip-ups used in ice fishing shall be under the immediate control of the person using the same.

(d) It is unlawful to fish through holes in the ice that measure more than 10 inches between the farthest points as measured in any direction.

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 65]

Special Fishing Regulations; Mentored Youth Fishing Day Program

The Fish and Boat Commission (Commission) amends Chapter 65 (relating to special fishing regulations). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code).

A. *Effective Date*

The final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on the final-form rulemaking, contact Laurie E. Shepler, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

Section 65.20 (relating to Mentored Youth Fishing Day Program) is published under the statutory authority of section 2102 of the code (relating to rules and regulations).

D. *Purpose and Background*

Most often, parents or guardians are the source of both instruction and serve as mentors to young anglers and hunters. The role of a mentor is that of long-term development and socialization. An instructor can teach someone to fish, while a mentor helps them become an angler (Duda M.D., 2010). That is, while proper instruction is important, it alone does not guarantee adoption. This is especially true if a mentor or other social support is absent.

Benefits of mentored experiences also extend to the parents or mentors. A 2007 survey of trout anglers in this Commonwealth showed that 98% of those surveyed would go trout fishing more if asked by a child (Responsive Management, 2008). Of that number, 84% indicated that being asked by a child to take them fishing was a strong encouragement to go trout fishing more in this Commonwealth.

Mentored opportunities differ from educational programs significantly in that mentored experiences extend beyond the instructional period. Mentors plan and discuss the trip with apprentices before, during and after. An instructor only has contact with the young angler during the presentation. It is this premise on which youth hunts and mentored hunting programs are based (DJ Case & Associates, 2007) (Responsive Management, 2011) (Responsive Management and Southwick Associates, 2012). This premise is the supporting rationale behind the Commission's Mentored Youth Fishing Day Program.

On March 23, 2013, the Commission piloted a Mentored Youth Trout Fishing Day on 12 waters in the regional opening day zone, covering 18 southcentral and southeast counties. This day was accomplished by the Commission's Executive Director, acting under the authority of § 65.25 (relating to temporary changes to fishing regulations). The temporary change was published at 43 Pa.B. 114 (January 5, 2013).

To participate, anglers 16 years of age or older (adult anglers) were required to possess a valid Pennsylvania fishing license and current trout/salmon permit and be accompanied by a youth, less than 16 years of age, who registered with the Commission. Youth anglers must have been registered with the Commission and accompanied by an adult angler to participate. During the Mentored Youth Trout Fishing Day, the minimum size limit for trout was 7 inches and the creel limit was two trout per day (combined species). Other Commonwealth inland regulations applied. It was unlawful for adult anglers to fish in waters designated under the Mentored Youth Trout Fishing Day Program without a valid fishing license and trout permit and without being accompanied by a registered youth.

A total of 5,110 youth registered to participate in the Mentored Youth Trout Fishing Day pilot, accompanied by 3,846 adult mentors. A survey of mentors conducted by the Commission showed that 90% of the registered youth participated, resulting in an estimated 7,300 youth and their mentors taking part. These anglers fished an estimated 22,000 hours and released nearly 15,000 trout while harvesting slightly more than 6,000. Public, partner and staff feedback received before, during and immediately after the pilot day was predominantly positive. The results of the 2013 pilot program support expansion of the program to create additional opportunities for parents and mentors to take the children in their lives fishing as a way to reactivate anglers of all ages.

E. Summary of Change

Under this final-form rulemaking, the Executive Director may annually designate Mentored Youth Fishing Days and, when doing so, he will identify the species, waters, dates, creel and minimum size limits and other limitations that will apply. The specific details of these mentored youth fishing opportunities will be published in the *Pennsylvania Bulletin*. The Commission also will post the Mentored Youth Fishing Day Program guidelines to the Commission's web site and promote it through various media outlets.

On final-form rulemaking, the Commission adopts § 65.20 with the following changes. In the proposed regulation, youth anglers (less than 16 years of age) were required to be "registered" with the Commission. However, the Commission determined that it is preferable to issue permits to youth anglers instead of registering them through other means. Youth anglers will be able to obtain a permit from the Commission free of charge through the

existing Pennsylvania Automated Licensing Service (PALS). Issuance of permits through PALS will allow the Commission to collect information regarding youth anglers. Specifically, this process will provide the Commission with more customer data for marketing purposes and allow for better assessment of lifelong license buying habits.

In addition to the free permit, the Commission will accept a voluntary youth fishing license for youth wishing to participate in the Mentored Youth Fishing Day Program. Voluntary youth fishing licenses will be available through PALS for \$1, and the Commission will be able to count them as licenses for the purpose of leveraging Sport Fish Restoration dollars from the United States Fish and Wildlife Service. Regardless of whether the youth opts for a free permit or a voluntary license, he will be issued a document that will resemble an adult license and will be able to be displayed for the purpose of participating in Mentored Youth Fishing Day opportunities.

On final-form rulemaking, the Commission also includes language requiring adult anglers to obtain a trout/salmon permit when the Mentored Youth Fishing Day Program relates to trout. This requirement is consistent with other special fishing regulations in Chapter 65 dealing with trout.

The Commission adds § 65.20 to read as set forth in Annex A.

F. Paperwork

The final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will not have an adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will not impose new costs on the private sector or the general public.

H. Public Involvement

Notice of proposed rulemaking was published at 43 Pa.B. 7099 (December 7, 2013). The Commission did not receive public comments concerning the proposed rulemaking.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendment adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the Commission did not receive public comments concerning the proposed rulemaking.

(3) The adoption of the amendment of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

(a) The regulations of the Commission, 58 Pa. Code Chapter 65, are amended by adding § 65.20 to read as set forth in Annex A.

(b) The Executive Director will submit this order and Annex A to the Office of Attorney General for approval as to legality and form as required by law.

(c) The Executive Director shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 69]

Fishing; Lake Erie and Boundary Lakes

The Fish and Boat Commission (Commission) amends Chapter 69 (relating to fishing in Lake Erie and boundary lakes). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code).

A. Effective Date

The final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

B. Contact Person

For further information on the final-form rulemaking, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. Statutory Authority

The amendments to § 69.12 (relating to seasons, sizes and creel limits—Lake Erie, Lake Erie tributaries and Presque Isle Bay including peninsula waters) are published under the statutory authority of section 2102 of the code (relating to rules and regulations).

D. Purpose and Background

The final-form rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the amendments is described in more detail under the summary of change.

E. Summary of Change

At the October 2012 Commission meeting, 45 waters were moved from the Early Season Trout Stocked Waters Program to the Approved Trout Waters Open to Year-Round Fishing Program. Included in these changes were the Water Works Ponds (East Basin Pond and West Basin Pond) on Presque Isle Bay. Regulations under the Approved Trout Waters Open to Year-Round Fishing Program permit fishing for trout year-round; however, from March 1 through the opening day of trout season, only catch and release fishing is permitted for trout. The current regulations on Lake Erie tributary streams and the Water Works Ponds prohibit fishing from 12:01 a.m. on the Friday before the first Saturday after April 11 until 8 a.m. on the first Saturday after April 11. This was irrelevant under the Early Season Trout Stocked Waters Program since fishing was not permitted from April 1 to the opening day. However, with the change in designation to approved trout waters open to year-round fishing, fishing is permitted during the period that is currently closed to fishing immediately prior to the opening day. The Commission therefore amends § 69.12 so that the section does not conflict with the regulations for approved trout waters open to year-round fishing.

The Commission amends § 69.12 to read as set forth in the proposed rulemaking published at 43 Pa.B. 5467 (September 14, 2013).

F. Paperwork

The final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will not have an adverse fiscal impact on the Commonwealth or its political subdi-

H. Public Involvement

Notice of proposed rulemaking was published at 43 Pa.B. 5467. The Commission did not receive public comments concerning the proposed rulemaking.

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 93]

Boating; Registration and Numbering

The Fish and Boat Commission (Commission) amends Chapter 93 (relating to boat registration and numbering). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code).

A. Effective Date

The final-form rulemaking will go into effect on April 1, 2014.

B. Contact Person

For further information on the final-form rulemaking, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg,

PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. Statutory Authority

The amendments to § 93.2 (relating to permanent and temporary registration) are published under the statutory authority of section 5122 of the code (relating to registrations, licenses, permits, plates and statistics). The amendments to § 93.13 (relating to issuing agents) are published under the statutory authority of section 5304 (relating to issuing agents).

D. Purpose and Background

The final-form rulemaking is designed to improve, enhance and update the Commission's boating regulations. The specific purpose of the amendments is described in more detail under the summary of changes. The Commission solicited the advice of its Boating Advisory Board regarding the amendments prior to final adoption.

E. Summary of Changes

Currently, the Commission and authorized issuing agents issue temporary boat registrations to persons applying for the registration of boats in this Commonwealth. Temporary boat registration is used for boats that are new or were not previously registered in this Commonwealth, boats being transferred between owners and boats currently registered in this Commonwealth as unpowered that are being changed to a power boat registration status. Under current regulations, applicants complete Form REV-336, Application for Pennsylvania Boat Registration and/or Title, and are issued a Temporary Validation Decal (T-decal) to affix to the boat.

The annual cost to the Commission to produce, distribute and account for the T-decals is estimated to be \$42,000. The Commission proposes to eliminate the use of the T-decal to save approximately \$42,000 annually in decal production costs, postage for mailing decals to issuing agents and personnel costs associated with accounting and inventorying of the decals. Elimination of the T-decals will also result in time and cost savings to issuing agents in that they will no longer have to issue T-decals, maintain a supply or pay \$52 for each lost decal.

Issuing agents will continue to collect currently required registration information on Form REV-336. Form REV-336 is a carbonless, three-copy form used in the registration process. The green copy, or customer copy, is provided to the applicant upon completion of the registration process by the issuing agent. Boaters will continue to be required to produce the green customer copy of Form REV-336 to verify a temporary registration but will no longer be required to display T-decals on the side of the boat that has been registered.

Currently, boaters shall remove previously issued or expired registration decals from boats. With the elimination of the T-decals, an empty space following the registration number sequence on the hull of the boat will indicate that the boat may have a temporary registration status. Upon request by a waterways conservation officer (WCO), a boater will be required to produce the green customer copy of Form REV-336 as proof of the temporary registration. Elimination of the T-decal will not change the current requirement to carry and produce the customer copy of Form REV-336. It is also expected that elimination of the T-decal may increase customer contact between boaters and WCOs and provide WCOs with an opportunity to share additional educational information with boaters.

The Commission therefore amends §§ 93.2 and 93.13 to read as set forth in the proposed rulemaking published at 43 Pa.B. 5463 (September 14, 2013).

F. Paperwork

The final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will result in cost savings to the Commission in the amount of approximately \$42,000 per year in decal production costs, postage for mailing decals to issuing agents and personnel costs associated with accounting and inventorying of the decals. The final-form rulemaking will not impose new costs on the private sector or the general public. The final-form rulemaking will result in cost savings to issuing agents in that they will no longer have to issue T-decals, maintain a supply or pay \$52 for each lost decal.

H. Public Involvement

Notice of proposed rulemaking was published at 43 Pa.B. 5463. The Commission did not receive public comments concerning the proposed rulemaking.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the Commission did not receive public comments concerning the proposed rulemaking.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 93, are amended by amending §§ 93.2 and 93.13 to read as set forth at 43 Pa.B. 5463.

(b) The Executive Director will submit this order and 43 Pa.B. 5463 to the Office of Attorney General for approval as to legality and form as required by law.

(c) The Executive Director shall certify this order and 43 Pa.B. 5463 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect on April 1, 2014.

PROPOSED RULEMAKING

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 63]

Fishing; General Fishing Regulations

The Fish and Boat Commission (Commission) proposes to amend Chapter 63 (relating to general fishing regulations). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code).

A. *Effective Date*

The proposed rulemaking, if approved on final-form rulemaking, will go into effect upon final-form publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on the proposed rulemaking, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The proposed amendment to § 63.2 (relating to display of fishing license and verification of license purchase) are published under the statutory authority of section 2703 of the code (relating to possession and display of licenses). The proposed amendments to § 63.20 (relating to permits for protection and management of trout and salmon) are published under the statutory authority of section 2904 of the code (relating to permits for protection and management of particular fish).

D. *Purpose and Background*

The proposed rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the proposed amendments is described in more detail under the summary of proposals.

E. *Summary of Proposals*

Under § 63.2(b), anglers required under Chapter 27 of the code (relating to fishing licenses) to purchase a license to fish in the waters of this Commonwealth or boundary waters shall display the actual fishing license certificate on a hat or outer garment while fishing. Starting sometime in March 2014, the Commission will make license buttons available for sale. Therefore, § 63.2 must be amended to allow for the display of license buttons as an alternative to the current display requirement. Under the proposal, a license holder will be required to carry the license certificate on his person if a license button is displayed instead of the license certificate.

In the notice published at 43 Pa.B. 7602 (December 28, 2013), the Executive Director exercised his authority under § 65.25 (relating to temporary changes to fishing regulations) to allow the display of license buttons as an alternative to the current display requirement. The temporary modification went into effect on January 1, 2014, and will remain in effect until the Commission, by appropriate action, amends § 63.2. In the absence of action, the temporary modification will expire on December 31, 2014.

Under § 63.20(d)(3), a person who purchases a senior resident lifetime fishing license and who wishes to fish for trout or salmon is required to purchase one trout/salmon permit and is then exempt from the requirement to purchase a trout/salmon permit for subsequent years. This effectively means that those licensees may purchase one trout/salmon permit that is valid for the licensee's lifetime. About 70% of seniors purchase a trout/salmon permit, which mirrors the rate for other anglers.

Since it was instituted in 1979, the Commission has sold 463,714 senior resident lifetime fishing licenses. In 1979, that category of license sales accounted for 1.31% of total license sales (13,179 out of 1,004,003). When license sales peaked in 1990, the sale of senior resident lifetime fishing licenses also reached an all-time high of 18,645. As this Commonwealth's population has aged, so too has the percentage of senior resident lifetime fishing licenses compared to total license sales, with that category accounting for 1.97% of total sales in 2013 (17,004 out of 860,672).

Even more significantly, senior resident lifetime fishing licenses have grown to comprise nearly 50% of all senior licenses sold. Residents 65 years of age and older may purchase either a senior resident lifetime fishing license for \$50 or a senior resident annual fishing license for \$10. In 1979, senior resident lifetime licenses and senior resident annual licenses totaled 87,247, but the lifetime category only accounted for 15.11% of that total. In 2013, of the 34,790 combined senior resident lifetime and senior resident annual licenses, 48.9% were for the lifetime license. As this Commonwealth's seniors continue to account for a larger percentage of the total population (and of anglers), the relative number of anglers buying the lifetime license is expected to continue to rise.

According to the Commission's Stocked Trout Program: Cost Report (March 2009), the Commission's trout program accounts for 36% of the Fish Fund annual expenditures, and the cost of trout production continues to rise. The Commission can no longer afford to allow anyone required to purchase a senior resident lifetime fishing license to fish for trout without paying for the privilege to do so annually.

One thing that the Commission can do by regulation is to require senior resident lifetime license holders to purchase a trout/salmon permit each year that the license holder desires to fish for trout. At the same time, the Commission can establish that a senior resident lifetime license holder who purchased a trout/salmon permit before a certain date will remain exempt from the requirement to purchase a permit annually. To use a common term, those individuals will be grandfathered.

With the grandfathering clause, there will not be additional revenues generated in the first year of the proposed amendment since the licensees who purchase a permit under the regulation will presumably buy it anyway. Assuming senior resident lifetime license holders continue to make up about 50% of all senior license buyers, an estimated 8% drop in sales and associated Federal funds due to the new annual requirement, and 70% of seniors will continue to purchase a trout/salmon permit, staff estimate the generation of about \$300,000 in additional annual revenues by the fifth year that the change is in place.

Similar to § 63.20(d)(3), a person who purchases a senior resident lifetime license and fishes in Lake Erie or

its tributaries is only required to purchase one special permit which is valid for the licensee's lifetime under section 2907.2(c) of the code (relating to Lake Erie fishing permits). However, requiring those anglers to annually purchase a special permit to fish in Lake Erie and its tributaries will require an act of the General Assembly.

The Commission also noted the need for a number of housekeeping changes to § 63.20. In § 63.20(b), eliminating the list of licenses to which the requirement applies makes it clear that any license holder must possess a trout/salmon permit or a combination trout/salmon permit and Lake Erie permit to fish for trout. While section 2907.2(c) of the code already requires all anglers to have a special permit to fish in Lake Erie and its tributaries or a combination trout/salmon permit and Lake Erie permit to fish in those parts of the Lake Erie watershed, adding the combination trout/salmon permit and Lake Erie permit makes it clear that the license holder shall have a valid permit to fish for trout in other parts of the Lake Erie watershed (for example, lakes stocked with trout). Since license holders no longer need to affix a stamp to their licenses, that requirement in § 63.20(b) should be deleted. In addition, because the Commission no longer issues trout stamps, § 63.20(c) is no longer necessary and should be deleted.

The Commission proposes to amend §§ 63.2 and 63.20 to read as set forth in Annex A.

F. Paperwork

The proposed rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The proposed amendment to § 63.2 will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed amendment to § 63.2 will not impose new costs on the private sector or the general public because the license button is purely voluntary.

The proposed amendments to § 63.20 will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed amendments to § 63.20 will not impose new costs on the private sector or the general public except that future purchasers of a senior resident lifetime fishing license will be required to purchase a trout/salmon permit annually. The fee for a trout/salmon permit is set at \$8 by section 2715(a.1)(1) of the code (relating to license, permit and issuing agent fees).

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P.O. Box 67000, Harrisburg, PA 17106-7000 within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

**ADVANCE NOTICE OF PROPOSED RULEMAKING
BY THE COMMISSION:**

On January 9, 2014, the Commission entered an Order at Docket No. C-2012-2307244 disposing of a joint petition filed by the Commission's Bureau of Investigation and Enforcement (I&E) and West Penn Power Company (West Penn) on February 13, 2013. The petition sought approval of a settlement entered into by I&E and West Penn to resolve an investigation undertaken by I&E relating to a fatal accident that occurred in June 2009 when West Penn's electric distribution line fell onto a tree. A woman residing on the affected property located in Westmoreland County was killed when she came into contact with the line.

As part of the non-monetary remedies in the West Penn Order, the Commission approved provisions that required West Penn to, among other things, (1) modify its training program to ensure that its linemen and line supervisors are properly trained in automatic splice installations, including preparation of the conductor, and that refresher

STATEMENTS OF POLICY

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 57]

Class A Wild Trout Streams

The Fish and Boat Commission (Commission) amends § 57.8a (relating to Class A wild trout streams). The Commission publishes this statement of policy under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code).

A. *Effective Date*

The amendments to § 57.8a will go into effect upon final-form publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on this statement of policy, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This statement of policy is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The amendments to § 57.8a are published under the statutory authority of section 321 of the code (relating to administration and enforcement) that provides that the Commission shall administer and enforce the code and other laws of the Commonwealth regarding the protection, propagation and distribution of fish.

D. *Purpose and Background*

In October 2009, the Commission approved the Strategic Plan for Management of Trout Fisheries in Pennsylvania 2010-2014 (plan). The plan was developed based on input provided by a work group that consisted of Commission staff, anglers affiliated with a variety of sportsmen's organizations and independent trout anglers that are not affiliated with an organized group. This plan has guided the direction of trout management for the Commission since that time.

The plan identifies opportunities for improvement of trout management in this Commonwealth, issues that affect the improvements and strategies for addressing those issues. One of the key issues addressed in the plan is the protection of Class A wild trout waters. Issue 2 of the plan states "There are a number of streams that may hold Class A biomass trout populations that have not been officially designated as Class A streams by the [Commission]. This leads to inadequate water quality protection for these waters and inconsistent application of fisheries management strategies." The identified strategy to address this specific issue is "By 2014, sample waters identified by [Commission] staff as likely to support a Class A wild trout biomass and designate appropriately." These evaluations have been ongoing. It should be noted that this issue is separate from the identification of unassessed Class A waters, which the Commission has been addressing since adoption of the plan. The waters to which Issue 2 of the plan applies are waters for which historical data is present but which have not been officially designated as Class A.

A work group, comprised of several Commissioners and Commission staff, was formed to gather background

information related to the Class A issue. Using this information, the Commission identified several changes to the current policy that should be made so that Class A waters can be properly identified and protected.

E. *Summary of Revisions*

One change to § 57.8a addresses the criteria that must be met to designate a stream section with a mixed wild brown trout/rainbow trout or wild brook trout/rainbow trout population as a Class A water. These populations are not addressed in the current policy.

Another change addresses the criteria for removing a water from the Class A list. With the change, removal of a water from Class A status will be limited to those waters in which some environmental or human induced physical change has occurred that is highly unlikely to be reversible and thus renders the stream incapable of sustaining a Class A trout population.

The Commission adopts these changes to § 57.8a as set forth in proposed statement of policy published at 43 Pa.B. 5469 (September 14, 2013).

F. *Paperwork*

This final-form statement of policy will not increase paperwork and will not create new paperwork requirements.

G. *Fiscal Impact*

This final-form statement of policy will not have an adverse fiscal impact on the Commonwealth or its political subdivisions. This final-form statement of policy will not impose new costs on the private sector or the general public.

H. *Public Involvement*

Although not required to publish a proposed statement of policy to adopt revisions to a statement of policy, the Commission published the proposed amendments at 43 Pa.B. 5469 and sought public comments because of the heightened public interest in this issue. The Commission did not receive public comments concerning the proposed statement of policy.

Finding

The Commission finds that the adoption of the amendments to § 57.8a is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The statements of policy of the Commission, 58 Pa. Code Chapter 57, are amended by amending § 57.8a to read as set forth at 43 Pa.B. 5469.

(b) The Executive Director shall certify this order and 43 Pa.B. 5469 and deposit them with the Legislative Reference Bureau as required by law.

(c) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

Executive Director

Fiscal Note: Fiscal Note 48A-251 remains valid for the final adoption of the subject regulation.

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

This is a renewal of the Title V Operating Permit. As a major source, the facility is subject to the Title V permitting requirements of the Clean Air Act Amendments as adopted by the Commonwealth under 25 Pa. Code, Chapter 127, Subchapter G.

The main sources at this facility are three (3) Keeler Boilers and one (1) Emergency Generator. The boilers are subject to 40 CFR Part 63, Subpart JJJJJJ. The Emergency Generator is subject to 40 CFR Part 63, Subpart ZZZZ. Contact: Muhammad Zaman, Environmental Program Manager—Telephone: 570-327-3648

19-00006: Big Heart Pet Brands (6670 Low Street, Bloomsburg, PA 17815) for an application for the significant modification to the Title V Operating Permit TVOP 19-00006 to incorporate terms and conditions contained in the previously issued Plan Approval 19-00006D. The proposed significant modification authorizes the operation of two (2) vertical coolers and independent wet centrifugal collectors to control the air contaminant emissions from the coolers at their Bloomsburg facility in South Centre Township, **Columbia County**. Big Heart Pet Brands has the following potential emissions for all sources at the facility: 44.28 TPY of carbon monoxide; <100.00 TPY of nitrogen oxides; 107.77 TPY of sulfur oxides; 49.82 TPY of particulate matter; 5.10 TPY of volatile organic compounds; 0.66 TPY of total hazardous air pollutants and 30,418 TPY of greenhouse gases.

Big Heart Pet Brands has demonstrated compliance with all applicable air quality regulatory requirements pertaining to the operation of all air contamination sources and the emission of air contaminants authorized by the previously issued plan approval. Based on these findings, the Department intends to modify the Title V operating permit TVOP 19-00006 in order to authorize the continued operation of the two (2) vertical coolers and the wet centrifugal collectors.

The following is a summary of the conditions contained in the previously issued plan approval the Department proposes to place in the Title V operating permit to be issued to ensure compliance with all applicable air quality regulatory requirements:

1. The concentration of particulate matter (PM/PM₁₀) emissions from each wet centrifugal collector associated with the vertical coolers shall not exceed 0.005 grain per dry standard cubic foot (gr/dscf) of exhaust gas.

2. The particulate matter (PM/PM₁₀) emissions from the exhaust of each wet centrifugal collector shall not exceed 0.89 pound per hour and 3.90 tons in any 12 consecutive month period.

3. The permittee shall not permit the emission into the outdoor atmosphere any visible air contaminants from each wet centrifugal collector associated with the vertical coolers other than water vapor or steam.

4. Each wet centrifugal collector shall be supplied with fresh water without recirculation. Water from the cooling jackets of the extruders can be utilized in each wet centrifugal collector.

5. Each wet centrifugal collector shall be equipped with instrumentation to continuously monitor the water pressure and flow rate to each collector. An alarm shall be activated when the flow rate is below the required rate.

6. The water feed rate to each wet centrifugal collector associated with the vertical coolers shall not be less than 12 gallons per minute at any time.

7. The vertical coolers shall be equipped with interlocks to prevent the operation of said coolers without the simultaneous operations of the respective wet centrifugal collector.

8. The air contaminant emissions from each vertical cooler shall be controlled by an independent wet centrifugal collector at all times each cooler is operational.

9. The permittee shall keep records of the flow rate of water to each wet centrifugal collector at least once per shift. These records shall be retained for a minimum of five (5) years and shall be made available to the Department upon request.

All pertinent documents used in the authorization of the operation of the above sources included in the previous issued plan approval are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-3693.

Any person(s) wishing to provide the Department with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the Department of Environmental Protection at the address shown in the preceding paragraph. A 30-day comment period from the date of this publication will exist for the submission of comments. Each written comment must contain the following: Name, address and telephone number of the person submitting the comments; Identification of the proposed permit (specify Permit No. TVOP 19-00006); Concise statements regarding the relevancy of the information or objections to issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the information received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or by the *Pennsylvania Bulletin*, or by telephone, where the Department of Environmental Protection determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Muhammad Q. The modification incorporates the requirements from 25 Pa. Code §§ 129.301—129.310, Control of NO_x Emissions from Glass Melting Furnaces. The permittee has requested an alternative compliance schedule for Source ID #201—Melting Furnace (Lines 5-8) as permitted under the PA Glass Melting Furnace NO_x Rule. The language contained in 25 Pa. Code § 129.304(c)(2) allows the permittee to submit a petition in writing, requesting an alternative compliance schedule. In the petition PCC has proposed an extension of the compliance date for Source ID #201 to coincide with its next cold shut down scheduled to occur May 1, 2019. During the next scheduled cold shutdown in 2019, downstream emission control equipment consisting of Selective Catalytic Reduction equipment will be installed to achieve compliance with new 7.0 lb/ton NO_x emission limitation. The milestones of the installation and design of SCR (Selective Catalytic Reduction) control equipment have been included in the permit in the compliance schedule section.

The facility's potential emissions are calculated to be 0.40 tpy NO_x, 0.60 tpy CO, 0.01 tpy SO_x, 0.25 tpy VOC, and 0.50 tpy PM. The facility is required to perform weekly visual inspections of the site. The facility must maintain records of the temperature of the sand bath and afterburner every two hours during operation and amount of fuel used on a monthly basis. The afterburner is limited to 0.04 gr/dscf PM. The proposed authorization is subject to State and Federal Regulations. The permit includes additional operational requirements, monitoring requirements, and recordkeeping requirements.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at the Department's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. Appointments for scheduling a review must be made by calling 412-442-4000.

Any person may submit comments, a request for the Department to hold a public hearing, or a protest to the operating permit or a proposed condition thereof, by filing such submissions in writing with the Department at the Southwest Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Proposed Interim Response

Churchville TCE Site, Upper Southampton and Northampton Townships Bucks County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.102—6020.1303), is proposing an interim response action at the Churchville TCE Site, Upper Southampton and Northampton Townships, Bucks County, Pennsylvania.

The Churchville TCE Site is located near the intersection of Bustleton Pike, Churchville Lane and Bristol Road on the border of Upper Southampton and Northampton Townships. The Department sampled forty private residential wells between May 2011 and December 2013. To date, this sampling revealed that five residences have Tetrachloroethylene (PCE) and/or Trichloroethylene (TCE) in their private drinking water supply above their respective Safe Drinking Water Act Maximum Contaminant Levels.

To address the release and threat of release of hazardous substances at the Site and corresponding threats to human health and the environment, the Department proposes to implement a response action at the Site under Section 501(a) of HSCA, 35 P. S. § 6020.501(a). The Department hereby proposes the installation of a water-line, including the water mains and the lateral connections to the public water supply. This proposed alternative complies with Applicable, Relevant and Appropriate Requirements (ARARs) and is feasible and cost-effective. Other possible alternatives include no action or the installation and continued monitoring and maintenance of whole-house carbon filtration units and/or supplying bottled water. All alternatives with the exception of the no action alternative include groundwater use restrictions.

This notice is being provided pursuant to Section 506(b) of HSCA, 35 P. S. § 6020.506(b). The administrative record which contains the information that forms the

basis and documents the selection of this response action is available for public review and comment. The administrative record is located at the Department's office at 2 East Main Street, Norristown, PA 19401 and is available for review Monday through Friday from 8:00 am until 4:00 pm. Those interested in examining the Administrative Record at the Department's office should contact Margaret Pollich at 484.250.5731 to arrange for an appointment. Additional copies of the administrative record are available for review at the Upper Southampton and Northampton Township Buildings.

The administrative record will be open for comment from March 22, 2014 until June 20, 2014. Persons may submit written comments into the record during this time only, by sending them to Margaret Pollich, Solid Waste Specialist at the Pennsylvania Department of Environmental Protection, 2 East Main Street, Norristown, PA 19401 or by email at mpollich@pa.gov. In addition, persons may present oral comments, for inclusion in the administrative record, at the public hearing. The Department has scheduled the hearing on May 7, 2014 at 7 PM at the Northampton Township Building, 55 Township Road, Richboro, PA 18954. Individuals wishing to present comments must register by calling the Department's Community Relations Coordinator, Lynda Rebarchak, at 484.250.5820.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings, should call Ms. Rebarchak at 484.250.5820 or the Pennsylvania AT & T Relay Service at 1-800-654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If re-

quired, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984. The Department has received the following plans and reports:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Mining Activity NPDES Permit Notice of Settlement

California District Office: 25 Technology Drive, Coal Center, PA 15423, 724-769-1100

Notice of Settlement of NPDES Permit Appeal pursuant to 25 Pa. Code Section 92a.88

Rosebud Mining Company (Logansport Mine) v. Commonwealth of Pennsylvania, Department of Environmental Protection; EHB Docket No. 2013-004-R

The above matter involved the appeal of the National Pollutant Discharge Elimination System Permit No. PA0235407 ("NPDES Permit"), which was incorporated into the revised Bituminous Coal Mining Activity Permit No. 3991301 (Coal Mining Permit), both of which were issued to Rosebud on December 10, 2012, authorizing operations at the Logansport Mine. The NPDES Permit authorized the discharge of treated wastewater from mine drainage treatment facilities at Outfalls 001, 002, 003, 004 and 005 to waters of the Commonwealth.

The Department's final action to resolve this NPDES Permit appeal was a settlement as reflected by a February 2014 Consent Order and Agreement entered into by the Department and Rosebud. The major provisions of the settlement require Rosebud to agree to abide by new proposed effluent limitations based upon Rosebud's combining certain outfalls and relocating certain outfalls to the Allegheny River. Rosebud agreed not to challenge these effluent limitations upon their final issuance by the Department and in the interim agreed to abide by the terms and conditions in the existing NPDES Permit, until such time as Rosebud has completed the combining and relocation of the outfalls and the new Amended Permit is issued by the Department. The public notice of a draft Amended Permit was published in the *Pennsylvania Bulletin*, Vol. 44, No. 5, February 1, 2014, page 677.

Copies of the full agreement are in the possession of Charney Regenstein, Assistant Counsel, Commonwealth of Pennsylvania, Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4262; and Kevin J. Garber, Babst, Calland, Clements and Zomnir, P.C., Two Gateway Center, 603 Stanwix Street, 6th Floor, Pittsburgh, PA 15222, (412) 394-5400 and may be reviewed by an interested person on request during normal business hours.

Any person believing himself aggrieved by the above Consent Order and Agreement has a right to appeal to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, Pennsylvania 17105-8457 Appeals must be filed within thirty (30) days of this publication.

If information concerning this notice is required in an alternative form, please contact the Secretary to the Board at (717) 787-3483. TDD users may telephone the Board through the AT&T Pennsylvania Relay Service at 1-800-654-5984.

Clean Air Interstate Rule; Proposed 2018 New Unit Annual and Ozone Season CAIR Nitrogen Oxides Allowance Allocations

In accordance with 25 Pa. Code §§ 145.211(d)(3) and 145.221(d)(3) (relating to timing requirements for CAIR NO_x allowance allocations; and timing requirements for CAIR NO_x Ozone Season allowance allocations), the Department of Environmental Protection (Department) is providing notice and an opportunity to comment on the proposed 2018 annual and ozone season Clean Air Interstate Rule (CAIR) nitrogen oxides (NO_x) allowance allocations for new units. The Commonwealth's total 2018 NO_x budget for the annual CAIR program contains 82,541 NO_x allowances and the Commonwealth's total 2018 NO_x budget for the ozone season CAIR program contains 35,143 NO_x allowances.

New unit CAIR NO_x allocations for the annual and ozone season programs are made in accordance with 25 Pa. Code §§ 145.212(e) and 145.222(e) (relating to CAIR NO_x allowance allocations; and CAIR NO_x Ozone Season allowance allocations). CAIR NO_x allowances and CAIR NO_x Ozone Season allowances are issued in amounts equal to each new unit's 2013 annual and ozone season emissions prior to making regular allocations to other units.

For each new unit receiving a CAIR NO_x allocation, Table 1 lists the following information: Facility name, County, ORIS Code, Unit ID, 2013 Annual NO_x Emission, 2013 Ozone Season NO_x Emission, Operation Date, 2018 Annual New Unit Allocation and 2018 New Unit Ozone Season Allowance Allocation.

Clean Air Interstate Rule; 2014 Allocation of 2013 Vintage Nitrogen Oxides Allowances Set Aside to Offset Sulfur Dioxide Emissions

In accordance with 25 Pa. Code § 145.212(f)(2) (relating to CAIR NO_x allowance allocations), the Department of

Environmental Protection (Department) is providing notice of the issuance of 2013 vintage Clean Air Interstate Rule (CAIR) nitrogen oxides (NO_x) allowances to owners or operators of certain CAIR sulfur dioxide (SO₂) units for the purpose of offsetting SO₂ emissions. These units were exempted under the Federal Acid Rain Program provisions in section 405(g)(6)(A) of the Clean Air Act (42 U.S.C.A. § 7651(g)(6)(A)) and therefore did not receive SO₂ allowances, yet are subject to the CAIR SO₂ Trading Program. The Department allocated the CAIR NO_x allowances identified in this notice on a ratio of 1 CAIR NO_x allowance to every 8 tons of SO₂ emitted in 2013 in response to written requests submitted to the Department by January 31, 2014. Up to 1.3% of the Commonwealth's CAIR NO_x Annual Trading Program budget is available for allocation to these units, as described in 25 Pa. Code § 145.212(f)(2) and (4).

The Commonwealth's CAIR NO_x Annual Trading Program budget contained 99,049 CAIR NO_x allowances for 2013; 97,761 of the CAIR NO_x allowances were allocated at 40 Pa.B. 297 (January 9, 2010). The remaining 1,288 CAIR NO_x allowances, 1.3% of the CAIR NO_x Annual Trading Program budget for 2013, were set aside for this allocation. Six requests were dated prior to the January 31, 2014, deadline for additional CAIR NO_x allowances.

The Department is allocating these allowances on a ratio of 1 CAIR NO_x allowance to every 8 tons of SO₂ emitted by the unit in 2013, minus any excess CAIR NO_x allowances already allocated to the unit for the 2013 control period that were not used to cover NO_x emissions for the 2013 control period. The result is an allocation of 988 CAIR NO_x allowances.

For every facility that submitted a request, the table lists the facility name, ORIS number and unit identification number and the number of CAIR NO_x allowances to be allocated.

<i>Facility Name</i>	<i>ORIS #</i>	<i>Unit ID</i>	<i># of NO_x Allowances</i>
Cambria Cogen	10641	1 & 2	320
Colver Power Project	10143	AAB01	344
Ebensburg Power Company	10603	31	49
Scrubgrass Generating Plant	50947	1 & 2	170
WPS Westwood Generation	50611	31	39
Wheelabrator Frackville	50879	GEN1	66

There were 1,288 CAIR NO_x allowances set aside and 988 CAIR NO_x allowances being issued. In accordance with 25 Pa. Code § 145.212(f)(5), the Department may consider requests, in writing, for the remaining NO_x allowances. The remaining NO_x allowances would be allocated by the Department on a pro rata basis; the allocations would be subject to a 30-day public comment period after providing notice in the *Pennsylvania Bulletin*.

Owners and operators of qualifying units should be aware that CAIR NO_x allowances do not constitute property rights and that actions at the Federal or State level, including court proceedings in *EPA v. EME Homer City Generation, L.P.*, U.S. No. 12-1182, could affect these allocations.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the

Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Questions concerning this notice should be directed to Randy Bordner, Chief, Stationary Source Section, Bureau of Air Quality, (717) 772-3921, ranbordner@pa.gov. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Nutrient Credit Trading Program: Actions

The Department of Environmental Protection (Department) has approved the following requests for certification of pollutant reduction activities to generate nitrogen (N) and phosphorus (P) credits under 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution reduction activities in the Chesapeake Bay Watershed). Proposed pollutant reduction activities include the installation of advanced wastewater treatment processes (AWT) at sewage treatment plants and the following agriculture best management practices: continuous no-till planting methods (CNT); conservation tillage planting methods (CT); planting cover crops (CC); and the export of poultry litter (EPL). These certification request approvals authorize the generation of nitrogen and/or phosphorus credits for use by facilities with National Pollutant Discharge Elimination System (NPDES) permits in the compliance year in which the credits are generated. These approvals are valid until September 30, 2015, provided the pollution reduction activities are implemented, maintained and verified in accordance with the plans contained in the approved certification requests. The approvals are listed chronologically by Certification Date.

INDEPENDENT REGULATORY REVIEW COMMISSION

Action Taken by the Commission

The Independent Regulatory Review Commission met publicly at 10 a.m., Thursday, February 27, 2014, and announced the following:

Action Taken—Regulation Disapproved:

Department of Banking and Securities #3-51: Assessments (adds Chapter 5 to 10 Pa. Code)

Disapproval Order

Public Meeting Held
February 27, 2014

Commissioners Voting: John F. Mizner, Esq., Chairperson; George D. Bedwick, Vice Chairperson; W. Russell Faber; Lawrence J. Tabas, Esq.; Dennis A. Watson, Esq.

*Department of Banking and Securities—
Assessments;
Order Issued March 5, 2014
Regulation No. 3-51 (#3021)*

On September 10, 2013, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Banking and Securities (Department). This rulemaking adds Chapter 5 to 10 Pa. Code. The proposed regulation was published in the September 14, 2013 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on January 8, 2014.

This final-form rulemaking establishes an assessment schedule for the Commonwealth's state-chartered institutions. Section 5.5(a) of the rulemaking sets forth criteria for the adjustment of assessments based upon an optional adjustment for inflation. We find that this section of the rulemaking is not in the public interest. We believe the inflation adjustment would be difficult to implement because the mechanism for determining what the adjustment should be is unclear. 71 P.S. § 745.5b(3).

As explained by the Department at the Commission's meeting, if the Department determines that an adjustment is needed, it will be based on the June Consumer Price Index indicated by the "Consumer Price Index—All Urban Consumers: U.S. All Items 1982-1984 = 100" (CPI) published by the United States Department of Labor, Bureau of Labor Statistics, or other similar index published by the United States Department of Labor, Bureau of Labor Statistics of the prior year. The Department will determine the rate of adjustment by calculating the percentage change of the immediate prior June CPI to the

June CPI issued twelve months prior. This percentage increase will be applied to the next two semi-annual assessments. While this method of implementing the inflation adjustment may be appropriate, Section 5.5(a) does not clearly set forth that this is the methodology that will be used in implementing the CPI. Therefore, we suggest that the methodology be clarified in the regulation. This will ensure a more stable and predictable regulatory environment as the assessment schedule and the inflation adjustment is implemented in the future.

We have determined that this regulation is consistent with the statutory authority of the Department (71 P. S.

§ 733-202.C) and the intention of the General Assembly. However, after considering all of the other criteria of the Regulatory Review Act discussed above, we find promulgation of this regulation is not in the public interest.

By Order of the Commission:

This regulation is disapproved.

GEORGE D. BEDWICK,
Vice Chairperson

INSURANCE DEPARTMENT

Affordable Care Act; Guidance for Compliance Submissions; Notice 2014-04

The Affordable Care Act—that is, Patient Protection and Affordable Care Act (Pub. L. No. 111-148) and the Health Care and Education Reconciliation Act of 2010 (Pub. L. No. 111-152), collectively and as amended—along with regulations and subregulatory guidance issued pursuant thereto (collectively, the ACA), sets forth market reform requirements for plan years beginning on or after January 1, 2015, for, inter alia, individual and small group health insurance policies that provide “major medical” coverage, which is comprehensive health coverage, including PPO and HMO coverage. The ACA also sets forth requirements for a plan to be a qualified health plan (QHP), so that the plan may be certified for offering on an exchange. Finally, the ACA contains several provisions that will impact rate development.

The Insurance Department (Department) provides the following guidance to insurance entities seeking to demonstrate compliance with the ACA relative to new or modified policy forms offered, issued or renewed in this Commonwealth. This guidance applies to new policy forms, as well as to policy forms for which an insurance entity (insurer) is not seeking to make any changes other than as necessary to make the policy form comply with the ACA. Further, it applies to any plan an insurer anticipates may be certified as a QHP.

If an insurer is required under the act of December 22, 2011 (P. L. 614, No. 134) to file a policy form or policy form modification with the Department for prior approval, it should file the form in SERFF and is requested to submit a “Compliance Checklist and Certification” as described as follows to assist the Department in its review. If an insurer is intending to use after January 1, 2015, a form not required to be filed, that is, a “product” as contemplated by the ACA, the Department requests that the form be submitted in SERFF in conjunction with any rate filing. For any form not required to be filed, the Commonwealth will accept as evidence of satisfying the ACA market reform requirements a “Compliance Checklist and Certification,” with the Market Reform portion of the Compliance Checklist filled out and the Certification executed by an authorized representative of the insurer. In each case, it is suggested that the Compliance Checklist and Certification be substantially identical to the “Compliance Checklist and Certification” as Attachment A. Attachment A is also available on the Department’s web site at www.insurance.pa.gov. File a form with each policy form or policy form modification being submitted.

If an insurer is anticipating that any form/product along with its associated plans may be certified as a QHP and offered on an exchange, the Commonwealth will accept as evidence of satisfying the ACA QHP requirements a Compliance Checklist and Certification, with both the Market Reform and the QHP portions of the Compliance Checklist filled out and the Certification executed by an authorized representative of the insurer,

where the Compliance Checklist and Certification is substantially identical to the "Compliance Checklist and Certification" following as Attachment A. Attachment A is also available on the Department's web site. File a Compliance Checklist and Certification with each form/product and its associated plans being submitted. In addition to any Federally-facilitated exchange filing requirement (that is, HIOS), also include the QHP Application Templates in the SERFF filing, as instructed in SERFF.

Further, with respect to the ACA rating requirements, including those amending the Public Health Service Act (PHSA) (42 U.S.C.A. §§ 201—300mm-61) and as further explained in Federal regulations, the Department requests that an actuarial memorandum be submitted as part of a rate filing for a product or plan subject to the ACA. In that actuarial memorandum, submitters are requested to:

- State the anticipated loss ratio (see ACA § 1001, PHSA § 2718, noting also compliance with 31 Pa. Code § 89.83(b) (relating to rates)).
- State the actuarial level of coverage (see ACA § 1302(d)).
- State the insurer's intention regarding whether the product or plan will be offered on or off the Federal Marketplace.
- Specify compliance with the rating requirements in the ACA, that is, use of no rating factors other than: (i) age (premium band ratio not exceeding 3:1 and Federally approved standard age curve); (ii) tobacco use (premium band ratio not exceeding 1.5:1); (iii) family size (as specified in Federal regulation); and (iv) geography (State rating regions as Federally approved, listed in Attachment B and also shown in map form on the Department's web site) (see ACA § 1201, PHSA § 2701).
- Specify compliance with the single risk pool per market (individual or small group) requirement (see ACA § 1312).

Additional information may be found in the general instructions in SERFF.

Finally, while certain forms and rates referenced in this notice are subject to review and approval by the Department prior to use, the Department reminds filing entities that those forms and rates (and all forms and rates used in this Commonwealth) remain subject to, and must comply in all respects with, the Commonwealth's insurance laws and regulations and the Department retains its ability to take after-use enforcement action and seek any available remedy for noncompliant forms or rates. An insurer will be responsible for assuring that all of its insureds are provided the full benefits provided by the ACA.

Questions regarding this notice may be directed to Peter Camacci, Director, Bureau of Life, Accident and Health Insurance, Insurance Department, 1311 Strawberry Square, Harrisburg, PA 17120, (717) 787-0762, pcamacci@state.pa.us.

Compliance Checklist and Certification

If an entity (the "Company") submits a form filing to the Commonwealth, or intends to use after January 1,

2014 a form not required to be filed, that is, a "product" as contemplated by the ACA, where that form/product is intended to comply with the market reform requirements or the market reform and qualified health plan requirements of the Affordable Care Act (ACA), the Commonwealth will accept as demonstrating compliance with those requirements a compliance checklist and certification submitted with your contract/ endorsement via SERFF as a Form Schedule document, substantially identical to this Compliance Checklist and Certification. These ACA requirements apply only to policies for health insurance coverage referred to as "major medical" in the statute, which is comprehensive health coverage, including PPO and HMO coverage. This checklist identifies the requirements for small group and individual plans, and, where specified, for grandfathered plans (coverage in effect prior to March 23, 2010).
