

NOTICES

DEPARTMENT OF AGRICULTURE

General Quarantine Order; Chronic Wasting Disease Program Requirements for Herd Certification Program and Herd Monitoring Program

Recitals

A. Chronic Wasting Disease (CWD) is considered an infectious, progressive and always fatal disease of susceptible species of the genera *Cervus*, *Odocoileus* and *Alces* including elk, white-tailed deer, moose, mule deer, black-tailed deer, sika deer, red deer and hybrids thereof.

B. There is no known treatment for CWD infection, no successful vaccine against this disease and no reliable live animal test for this disease.

C. CWD is believed to be transmissible from infected to uninfected cervids by ingestion of infected or contaminated materials occurring through shared environment or close contact.

D. CWD has been designated a “dangerous transmissible disease” of animals by order of the Secretary of Agriculture under the provisions of the Domestic Animal Law (Law) (3 Pa.C.S. §§ 2301—2389), at 3 Pa.C.S. § 2321(d).

E. The Department of Agriculture (Department) has broad authority under the Law to regulate the keeping, transport and handling of domestic animals to exclude, contain or eliminate dangerous transmissible diseases, such as CWD.

F. The Department also has broad authority under the Law to prohibit the importation of domestic animals, conveyances, containers, goods, products or materials in an effort to keep dangerous transmissible diseases, such as CWD, from entering this Commonwealth.

G. CWD may negatively impact this Commonwealth’s wild and domestic (farmed or captive) cervid populations. CWD is of particular concern to the captive/farmed cervid industry, in that presence of CWD infection in a herd has resulted in the destruction of an entire herd and severely limited the market for product within and outside this Commonwealth.

H. In 2012, CWD infection was confirmed in two domestic white-tailed deer on a farm in the Commonwealth. CWD was diagnosed in free ranging deer in the Commonwealth from testing done in association with the Pennsylvania Game Commission’s 2012 and 2013 hunter harvest program. It has also been detected in cervids in Maryland, New York, Virginia, and West Virginia, and is known to be present in a number of other states and several Canadian provinces.

I. On August 4, 2006, the Department issued a General Quarantine Order addressing the CWD threat. That General Quarantine Order, published at 36 Pa.B. 4612 (August 19, 2006), required persons who own or maintain one or more CWD-susceptible animals to enroll and participate in either the CWD Herd Certification Program or the CWD Herd Monitoring Program.

J. On February 4, 2011, the Department rescinded and supplanted the referenced August 4, 2006 General Quarantine Order to reflect the experience the Department

had gained in administering the referenced General Quarantine Order, as well as its current understanding of the threat posed by CWD. That General Quarantine Order, published at 41 Pa.B. 727 modified requirements to the mandatory CWD Herd Certification and the CWD Herd Monitoring Programs to improve disease control procedures in the Commonwealth.

K. On October 19, 2013, the Department published a revised General Quarantine Order, at 43 Pa.B. No. 42, 6218 (October 19, 2013), which rescinded and supplanted the referenced February 4, 2011, General Quarantine Order. The purpose of the October 19, 2013 General Quarantine Order was to harmonize Commonwealth program standards with Federal regulations in 9 CFR Parts 55 and 81 which establish minimum national standards addressing State CWD herd certification programs for interstate cervid commerce and to impose improved disease control and monitoring procedures intended to better contain the spread of CWD in the captive deer population.

L. On February 22, 2014, the Department published a revised General Quarantine Order, at 44 Pa.B. No. 8, 1011 (February 22, 2014), which rescinded and supplanted the referenced October 19, 2013 General Quarantine Order. The purposed of the February 22, 2014, General Quarantine Order was to clarify certain provisions of the October 19, 2013 General Quarantine Order related to the time period for compliance. The amendments provided in the February 22, 2014 General Quarantine Order provided the regulated community a time period to understand and come into compliance with the new provisions, and established a date by which the regulated community was required to be in compliance with all of the provisions of that General Quarantine Order.

M. By this General Quarantine Order, the Department is amending and supplanting the referenced February 22, 2014, General Quarantine Order in order to allow for fifty-percent (50%) testing under the Herd Monitoring Program requirements as set forth in Section 10 of this General Quarantine Order. This General Quarantine Order and all of its provisions shall become effective as set forth in Section 14 (related to effective date), by which time the regulated community shall be in compliance with all aspects of this General Quarantine Order. As set forth at Section 14 of this Order (related to effective date), the regulated community shall continue to have until August 1, 2014, to come into compliance with the requirements of Section 9 (related to CWD Herd Certification Program) and Section 10 (related to CWD Herd Monitoring Program). All other requirements of this General Quarantine Order shall become effective as of the date of publication in the *Pennsylvania Bulletin*. As was the case with the February 22, 2014 General Quarantine Order, the Department continues to reinstate the provisions of the February 4, 2011 General Quarantine Order, published at 41 Pa.B. 727 (February 5, 2011), until such time, August 1, 2014, as all of the provisions of this General Quarantine Order shall become effective.

Order of General Quarantine

Any such request for a change in anniversary date shall be in writing signed by the program participant and mailed to the Department at the address set forth in Section 6 (related to obtaining a program enrollment form) of this General Quarantine Order.

C. *Compliance.* Persons currently enrolled under the Herd Certification or Herd Monitoring Program established under the authority of the February 4, 2011 General Quarantine Order shall have until August 1, 2014 to both elect a level of participation and within which to come into compliance with any new or different requirements imposed by this General Quarantine Order.

Such persons shall be subject to the requirements of the February 4, 2011 General Quarantine Order until such time as the provisions of the Herd Certification Program (established by Section 9. of this General Quarantine Order) and the Herd Monitoring Program (established by Section 10. of this General Quarantine Order) become effective.

4. *Program Enrollment Requirement.*

a. Any person or business that owns or maintains one or more of any of the CWD-susceptible species of the genera *Cervus*, *Odocoileus* or *Alces* including elk, white-tailed deer, moose, mule deer, black-tailed deer, sika deer, red deer or hybrids thereof, in captivity within this Commonwealth shall enroll in one of two programs—CWD Herd Certification Program and CWD Herd Monitoring Program—established under this General Quarantine Order. Enrollment in the CWD Herd Certification Program is not mandatory. A person may choose to voluntarily enroll in the CWD Herd Certification Program and adhere to the more stringent requirements estab-

lished under that program. A person who does not choose to enroll in the CWD Herd Certification Program, shall be required to enroll in the CWD Herd Monitoring Program.

b. A person required to adhere to the provisions of this General Quarantine Order shall provide the Department with a completed program enrollment form, as described in Sections 5 through 8 (related to meeting the program enrollment requirement; required adherence to Herd Certification or Herd Monitoring protocols, obtaining a program enrollment form, contents of the program enrollment forms, delivering the program enrollment form) of this General Quarantine Order. The program enrollment form utilized shall be the form developed and approved by the Department. The program enrollment form will be available on the Department's website (www.agriculture.state.pa.us) and will be made available in paper form for those not having internet access. The requirements of this General Quarantine Order are applicable to any type of location or operation at which CWD-susceptible cervids are maintained, including private residences, farms, hunting ranches, zoological displays and menageries. Each separate location, operation and herd will be assigned a state premises identification number which identifies that individual herd's status. The state premises identification number begins with 'PA' and followed by six alphanumeric characters.

c. When multiple program herds reside on the same premises, or where herds owned by the same person reside on more than one premises, a separate program enrollment form shall be required for each program herd on each premises, which shall mean each separate level of Certified Status and each Monitoring herd held in captivity. For example, where one herd of CWD-susceptible species will be enrolled in the CWD Herd Certification Program and another is enrolled in the CWD Herd Monitoring Program, a separate program enrollment form shall be required for each of those herds denoting a different program. Separation between perimeter fences shall be no less than 30 feet for animals on different programs for the same participant or between different participants.

d. Prior to transferring or bringing a CWD-susceptible species onto a premises not currently or not previously enrolled in the CWD program, a person shall submit to an inspection of the premises prior to approval of such premises to hold and maintain a CWD-susceptible species. Such inspection shall be carried out by a PDA official in order to assure the person has proper enclosures and fencing to maintain the CWD-susceptible species so as to prevent ingress and egress of cervids. Failure to submit to such an inspection or the failure to have erected proper enclosures and fencing in a manner that will prevent ingress and egress of cervids may result in any or all of the following actions:

- i. The denial of the addition of a CWD-susceptible species to the premises;
- ii. Criminal or civil penalties as allowed under the Law;
- iii. Equitable relief as allowed under the Law;
- iv. Such other action as allowed under the Law.

5. *Meeting the Program Enrollment Requirement; Required Adherence to Herd Certification or Herd Monitoring Protocols.* Farmed or captive CWD-susceptible cervids present on each premises described in Section 4 (related to program enrollment requirement) shall be enrolled by the cervid owner in either the CWD Herd Certification Program or the CWD Herd Monitoring Program (which

are described as follows). A cervid owner who is required to enroll one or more CWD-susceptible cervids under this General Quarantine Order, and who enrolls the animals in either the CWD Herd Certification Program or the CWD Herd Monitoring Program, shall be referred to as a "program participant" throughout this General Quarantine Order. The program participant shall be responsible to maintain the subject animal or herd in compliance with all of the requirements of the program in which it is enrolled. The Department will promptly mail or deliver program enrollment forms to any person who requests the forms. Enrollment shall be completed by delivering a completed program enrollment form to the Department by any of the means described in Section 8 (related to delivering the program enrollment form).

6. *Obtaining a Program Enrollment Form.* The program enrollment forms described in Section 7 (related to contents of the program enrollment forms) (for either the CWD Herd Certification Program or the CWD Herd Monitoring Program) may be obtained by:

9. *CWD Herd Certification Program.*

a. *Program established.* The Chronic Wasting Disease Herd Certification Program (Herd Certification Program), as established by the August 19, 2006, General Quarantine Order; Chronic Wasting Disease Program, published at 36 Pa.B. 4612 (August 19, 2006) and amended by the February 4, 2011, General Quarantine Order; Chronic Wasting Disease Program, published at 41 Pa.B. 727 (February 5, 2011) and the October 19, 2013, General Quarantine Order; Chronic Wasting Disease Program Requirements for Herd Certification Program and Herd Monitoring Program, published at 43 Pa.B. 6218 (October 19, 2013) is hereby continued and modified by this General Quarantine Order in the manner established herein.

b. *Voluntary Program.* Enrollment in the CWD Herd Certification Program is purely voluntary for those with CWD susceptible species. The CWD Herd Certification Program establishes criteria which are more stringent than those required by the mandatory CWD Herd Monitoring Program. A participant voluntarily enrolling in the CWD Herd Certification Program shall be required to meet all of the criteria established thereunder or the Department, at its sole discretion, may:

i. Reduce or roll-back the program participant's "Herd Status" to a previous year or to "First Year Status"; or

ii. Remove the program participant from the CWD Herd Certification Program and place the program participant in the CWD Herd Monitoring Program.

c. *Status of Herd.* The Herd Certification Program is a 5-year process by which a herd of farmed or captive CWD-susceptible cervids may achieve "Fully Certified Status." The Department shall record the date of enrollment of a particular herd of farmed or captive CWD-susceptible cervids in the Herd Certification Program. The status of that enrolled herd shall be determined in the following manner:

i. *First Year "HC-1" Status.* A designation of "HC-1" shall be assigned to a herd of cervids enrolled in the Herd Certification Program for the first twelve (12) months from the date of enrollment of that herd of cervids in the Herd Certification Program. Only those cervids listed on the program participant's enrollment form and which have been verified through inspection, as set forth in Subsection 9.o. (related to department inspections) or a whole herd visual or hands-on inventory verification as set forth in Subsection 9.n. (related to whole herd visual or hands-on inventory verification) of this General Quarantine Order to bear the approved forms of identification shall be assigned a "HC-1" status. Failure to maintain compliance with all of the provisions of the Herd Certification Program may result in removal of the herd from the voluntary Herd Certification Program and placement into the mandatory Herd Monitoring Program, the imposition of civil or criminal penalties as allowed under Section 2383 of the Domestic Animal Law (3 Pa.C.S.A. § 2383) or any other equitable action established thereunder or any combination thereof.

ii. *Subsequent Year Status.* On the anniversary date of enrollment in each year following that date of initial enrollment the status of the program participant's herd may be upgraded by one year. The upgrade shall only

occur if the program participant has maintained compliance and is currently in compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order. The status of each subsequent twelve month period from the program participant's anniversary date, until reaching "Fully Certified" status, shall be designated as follows:

A. For months 13-24 the designation of "HC-2" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

B. For months 25-36 the designation of "HC-3" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

C. For months 37-48 the designation of "HC-4" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

D. For the months 49-60 the designation of "HC-5" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

E. Upon reaching 60 months from the initial anniversary date of the program participant, the designation of "Fully Certified" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

iii. *Fully Certified Status.* On the anniversary date of the fifth year after the initial anniversary date (that is, after 5 consecutive years of program participation and compliance have been completed), the status of the program participant's herd may be upgraded to "Fully Certified." The upgrade shall only occur if the program participant is in compliance with and has remained in compliance with all of the requirements of the CWD Herd Certification Program and the General Quarantine Order. The subject herd shall be classified as "Fully Certified" so long as the herd remains CWD-free and continues to maintain compliance with all provisions of the Herd Certification Program and this General Quarantine Order.

iv. *Previously Enrolled Herds.* The status of herds enrolled in the CWD Herd Certification Program under the February 4, 2011 Order of General Quarantine which are in compliance with that Order as of the effective date of this General Quarantine Order will maintain their existing certification status under this Order of General Quarantine if they elect to enroll in and agree to comply with the provisions of the CWD Herd Certification Program established under this Order of General Quarantine. If the program participant elects to withdraw his herd from the CWD Herd Certification Program, he shall enroll the herd in the CWD Herd Monitoring Program. Thereafter, any subsequent enrollment of the herd in the CWD Herd Certification Program shall result in the herd being assigned "First Year Status" and the 5-year process required to attain "Fully Certified" status shall begin again.

v. *New herd assembled from current Herd Certification Program participants.* If the herd is composed solely of animals obtained from herds already enrolled in the Program, the newly assembled herd will have the same status as the lowest status of any herd that provided animals for the new herd.

d. *Duty to Report Suspects and Dead Cervids and Dead Cervids found in an advanced state of decomposition.* The program participant, the owner of a herd of farmed or captive CWD-susceptible cervids and any caretaker of that herd shall report any suspect cervid, dead cervid or dead cervid found in an advanced state of decomposition as set forth herein. Failure to comply with any of the provisions of this subsection including, failure to report a suspect cervid, the death of a cervid within the time periods set forth herein or the discarding, removal or disposal of carcasses, parts, offal or tissues in a manner which is inconsistent with the provisions of this subsection or without the required verifications shall constitute a violation of this General Quarantine Order.

i. *Suspect Cervid*—Any cervid that shows signs that are consistent with CWD (such as staggering, drooling, wasting or unusual behavior) shall be immediately reported to the designated regional office of the Bureau of Animal Health in the Pennsylvania Department of Agriculture. The suspect cervid shall not be removed from the premises of the program participant until such time as the Department has been able to assess the animal and issue an order or guidance with regard to the holding, harvesting, testing and removal of such animal. Failure to immediately report a suspect cervid or abide by the removal provisions of this section shall constitute a violation of this General Quarantine Order.

ii. *Dead cervid*—Upon the discovery of any dead farmed or captive CWD-susceptible cervid aged 12 months or older, the program participant, owner or caretaker shall take the following steps and comport with the following protocols:

A. Record the death and include the animal as part of the Ongoing Annual Recordkeeping Requirements, established by Subsection 9.k. of this Order of General Quarantine.

B. Record the death and include the animal as part of the Ongoing Movement of Cervids Recordkeeping and Reporting Requirements, established by Subsection 9.l. of this Order of General Quarantine. Such information shall be reported within ten (10) business days of discovery of the death, on forms developed, approved and provided by the Department and shall set forth that information required by subparagraph 9.l.ix. of this Order of General Quarantine.

C. Have the dead cervid tested. The entire carcass, head or tissue samples from the carcass shall be transported for testing in accordance with the requirements of Subsections 9.f. or 9.g. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects, and testing protocol for other farmed or captive CWD-susceptible cervids), as applicable, of this General Quarantine Order.

iii. *Dead cervid found in an advanced state of decomposition*—Upon the discovery of any dead farmed or captive CWD-susceptible cervid aged 12 months or older, in an advanced state of decomposition, the program participant, owner or caretaker shall report this death to the designated regional office of the Department within 48 hours. The program participant, owner or caretaker shall take the following steps and comport with the following protocols:

A. The dead cervid, including all parts and offal, shall not be removed from the premises of the program participant, except that the entire carcass or head of the carcass may be transported for testing as set forth in Subsection 9.f.i. (related to mandatory testing for farmed or captive

CWD-susceptible cervids designated as CWD suspects) of this General Quarantine Order or tissue samples may be collected and sent for testing as set forth at Subsection 9.f.ii. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) of this General Quarantine Order.

B. Where only the head or tissue samples are sent for testing, the carcass, parts and offal of the dead cervid shall not be removed from the premises of the program participant until test results have been received or a determination made that the carcass is untestable and shall only be disposed of in a manner approved by and set forth in writing by the Department.

C. Dead cervid carcasses considered to be untestable by the program participant or owner shall be verified as such by a Department or a USDA, APHIS representative prior to removal or disposal of such carcass, parts and offal. The Department or USDA, APHIS representative may determine that the entire carcass shall be collected and moved directly to a laboratory for collection and potential testing.

iv. *Failure to abide by the requirements of this Subsection d.* (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition) shall be a violation of this General Quarantine Order and may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386) and the reduction of Herd Certification Program status or cancellation of program enrollment and placement in the mandatory Herd Monitoring Program.

e. *Mandatory Testing.* A program participant with a herd that is enrolled in the Herd Certification Program shall be responsible to ensure that a farmed or captive CWD-susceptible cervid is tested in accordance with Subsection 9.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) or 9.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids), as applicable, if any of the following occur after the date of enrollment in the Herd Certification Program:

i. The cervid shows signs (such as staggering, drooling, wasting or unusual behavior) that are consistent with CWD and the cervid dies or is killed.

ii. The cervid is 12 months of age or older and is sent to a slaughter facility.

iii. The cervid is 12 months of age or older and dies for any reason (including accident, natural causes, slaughter, harvesting, hunting, culling or any other cause).

f. *Mandatory Testing for Farmed or Captive CWD-Susceptible Cervids designated as CWD Suspects.* If a dead farmed or captive CWD-susceptible cervid is required to be tested because it showed signs (such as staggering, drooling, wasting or unusual behavior) that are consistent with CWD before it died or was killed, as described in Subsection 9.e.i. (related to mandatory testing), it shall be tested according to either of the following procedures:

i. A person shall immediately notify the Department of the dead CWD-susceptible cervid and do the following:

A. Collect either the entire carcass of the cervid or the entire head of the cervid with official identification devices attached in situ.

B. Deliver the carcass or head with official identification devices attached in situ for CWD testing. The

properly completed chain of custody forms and sample submission forms required under Subsection 9.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the carcass or head. The carcass or head shall bear a proper form of identification and be delivered within 72 hours of the cervid's death to either a Department laboratory or to a laboratory that has been approved in advance by the Department or USDA or both, to perform CWD testing. Results of samples submitted without the proper and required official identification or the properly completed chain of custody forms and sample submission forms may not be recognized by the Department in determining herd certification status and shall be considered a violation of this General Quarantine Order. Any such violation may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386) as well as the reduction of Herd Certification Program status or cancellation of program enrollment and placement in the mandatory Herd Monitoring Program.

ii. As an alternative to the CWD testing procedure described in paragraph (i), the following procedure shall be followed:

A. Tissue samples shall be collected by one of the following:

I. A USDA, APHIS Category II accredited practitioner of veterinary medicine.

II. An authorized State official. A Department-certified CWD Sampling Technician does not meet the requirements of this subparagraph.

III. An authorized Federal official.

B. Tissue samples shall be collected and preserved within 72 hours of the cervid's death.

C. Tissues samples shall consist of the obex and the medial retropharyngeal lymph nodes preserved in formalin; and in a separate container that does not contain formalin or any other preservative, a small portion of the ear or other skin that is attached to the official identification of the subject cervid.

D. The tissue samples shall be delivered within 72 hours of the cervid's death to the Pennsylvania Veterinary Laboratory or to a laboratory that has been approved in advance by the Department or USDA or both, for CWD testing. It is the owner's responsibility to report the death within a time frame that allows for collection and preservation of the tissue samples within 72 hours of the cervid's death as required by Subsection B. above and protect the carcass from further degradation until tissue samples can be collected.

E. Properly completed chain of custody forms and sample submission forms as required under Subsection 9.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the tissue samples.

g. *Testing Protocol for Other Farmed or Captive CWD-Susceptible Cervids.* If a farmed or captive CWD-susceptible cervid does not exhibit signs (as described in Subsection 9.d.i. (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition)) that are consistent with CWD, and is required to be tested because it is 12 months of age or older and was either sent to a slaughter facility or died for any reason, as described in Subsections 9.e.ii. and 9.e.iii. (related to mandatory testing), the Department shall be notified by the program participant, who shall

send the Department records setting forth the official identification of each farmed or captive CWD-susceptible cervid that was sent to slaughter or died for any reason set forth in Subsection 9.e.ii. and 9.e.iii. (related to mandatory testing), along with the name and address of the slaughter facility where each animal was slaughtered or the name and address of the place where the animal died or was harvested and the cause of death as required under Subsection 9.k. and 9.l. (related to ongoing annual recordkeeping requirements and ongoing movement of cervids recordkeeping and reporting requirements) of this General Quarantine Order. In such cases, each farmed or captive CWD-susceptible cervid shall be tested according to the following procedures:

i. Tissue samples shall be collected by one of the following:

A. A USDA, APHIS Category II accredited practitioner of veterinary medicine.

B. An authorized State official.

C. An authorized Federal official.

D. A Department-certified CWD Sampling Technician.

ii. Tissue samples shall be collected and preserved within 72 hours of the cervid's death.

iii. Tissues samples shall consist of the obex and the medial retropharyngeal lymph nodes preserved in formalin; and in a separate container that does not contain formalin or any other preservative, a small portion of the ear or other skin that is attached to the official identification of the subject cervid.

iv. Properly completed chain of custody forms and sample submission forms as required under Subsection 9.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the tissue samples.

v. The tissue samples shall, within 30 days of collection, be delivered to the Pennsylvania Veterinary Laboratory or to a laboratory that has been approved in advance by the Department or USDA, or both, to perform CWD testing.

vi. As an alternative to the testing protocol described in paragraphs i, ii, iii, iv and v of this Subsection 9.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids), the following protocols shall be followed:

A. Within 72 hours of the cervid's death, collect and deliver either the entire carcass of the cervid with official identification devices attached in situ or the entire head of the cervid with official identification devices attached in situ to a Department laboratory for CWD testing, or to a laboratory that has been approved in advance by the Department or USDA or both to perform CWD testing.

B. The program participant/herd owner shall be responsible for properly identifying the cervid carcass or head and delivering it in a manner that does not destroy or make the animal untestable.

C. The person who delivers the carcass or head need not be an approved tissue collector as described in Subsection 9.g.i. (related to testing protocol for other farmed or captive CWD-susceptible cervids).

D. The name, address and signature of the person collecting, or the person in possession of the carcass, and the person delivering the carcass or head shall be set forth in writing and such writing shall be attached to the

chain of custody forms and sample submission forms required by this General Quarantine Order.

E. The properly completed chain of custody forms and sample submission forms required under Subsection 9.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the carcass or head.

F. Results of samples submitted without the proper and required official identification or the properly completed chain of custody forms and sample submission forms may not be recognized by the Department in determining herd certification status and shall be considered a violation of this General Quarantine Order. Any such violation may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386), as well as the reduction of Herd Certification Program status or cancellation of program enrollment and placement in the mandatory Herd Monitoring Program.

h. Impact of Late Notice, Delivery or Untestable Samples on Enrollment Status.

i. It is the program participant/herd owner's responsibility to assure good quality tissue is submitted for testing and ensure that all required samples are collected properly and in a timely manner as required by Subsections 9.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 9.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids) of this General Quarantine Order. All required tissues shall be collected regardless of sample condition (e.g. autolyzed or frozen). In cases where sample quality is poor, the Department shall be notified and a determination made on samples to be submitted.

ii. Failure to abide by the requirements of this section shall be a violation of this General Quarantine Order and may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386) and the reduction of Herd Certification Program status or cancellation of program enrollment and placement in the mandatory Herd Monitoring Program. Where the history of sample collections and submissions from the program participant/herd owner demonstrates a pattern of lack of submission of required samples, untimely submission of samples or poor performance including incorrect tissues submitted, poor tissue quality, or non-compliance with the provisions and requirements of Subsections 9.e. (related to mandatory testing), 9.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 9.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids) of this General Quarantine Order, the Department may seek such additional remedies, including injunctive relief as is allowed under the Domestic Animal Law. Adherence to the 72-hour deadlines established in Subsections 9.f.i.B, f.ii.B, f.ii.D. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and g.ii. and g.vi.A. (related to testing protocol for other farmed or captive CWD-susceptible cervids) will be considered a mitigating factor by the Department in any reevaluation of herd status.

i. Chain of Custody of Samples; Submission of Samples. A person may obtain chain of custody forms and sample submission forms from the Department by submitting a written request for such forms or by downloading the forms from the Department's website (www.agriculture.state.pa.us).

i. A person submitting a sample (whether tissue samples, an entire carcass or an entire head) for testing under the Herd Certification Program shall complete a chain of custody form and a sample submission form, and shall submit those forms along with the sample that is delivered for testing.

ii. The chain of custody form shall clearly identify the premises, including the address of the premises and the name and signature of the herd owner, on which the cervid resided and from which it was taken, official identification of the cervid, the date of sampling, and the persons (in chronological order) who handled the sample from the point it was taken until it is delivered to the Pennsylvania Veterinary Laboratory or a Department-approved laboratory or a USDA-approved laboratory for CWD testing.

iii. The chain of custody form shall bear the signature, printed name and other identifying information with respect to each person who handles the sample.

iv. The completed chain of custody form and the sample submission form shall be provided to a responsible person at the laboratory to which the sample is delivered.

j. *Identification of Subject Animals.* Each farmed or captive CWD-susceptible cervid that is within a herd enrolled in the Herd Certification Program and is either 12 months of age or older or is transported alive from the enrolled premises, regardless of its age at the time of movement, shall have at least two forms of the Department and USDA, APHIS-approved animal identification attached. One form of identification shall be official. In accordance with 9 CFR Parts 71, 77, 78, and 86 "Traceability for Livestock Moving Interstate," official identification shall not be removed from animals. If the other form of identification is not official, it shall be unique to the animal on the enrolled premises. Other forms of secondary identification in addition to being unique to the animal in the herd, must be permanent and tamper-resistant. If duplicate (non-unique to the animal in the herd) secondary identification occurs, that duplication shall be resolved, corrected in the inventory paperwork, and promptly reported to the Department. Forms of identification that are Department-approved and USDA, APHIS-approved, "official" forms of identification for purposes of this provision include the following:

i. A legible and unique tattoo approved by the Department and USDA, APHIS.

ii. A USDA, APHIS-issued ear tag, bearing a unique number provided by USDA, APHIS that utilizes one of the following numbering systems:

C. The premises-based numbering system using a Premises Identification Number (PIN) in conjunction with a livestock production numbering system.

D. Any other numbering system approved by USDA, APHIS and the state veterinarian.

iii. An electronic implant device, such as a microchip that utilizes a nationally unique 15 digit animal identification number starting with '840' provided an appropriate reader is immediately available wherever the animal is located.

iv. Any other identification device approved by the Department and USDA, APHIS.

k. *Ongoing Annual Recordkeeping Requirements.* A program participant with a herd that is enrolled in the Herd Certification Program shall maintain up-to-date herd inventory records with respect to the subject herd for a period of 5 years and shall make these records available for inspection by the Department upon request. The original record forms, once completed are to be submitted by the last day of the month comprising the program participant's anniversary date to the Department's headquarters in Harrisburg by mail, attached to an email or faxed. The participant must keep copies of all the submitted forms if the original forms have been submitted by mail or keep the original completed forms, when records are submitted electronically, for a period of 5 years and make them available upon request by Department officials. If the Department identifies discrepancies with the submitted records, a complete set of these records forms and incomplete forms shall be returned to the program participant with a deadline for completion. Each year the program participant shall provide a current, updated annual inventory report to the Department. The anniversary date for each current certified herd program participant shall remain the same as under the previous quarantine order, unless the program participant submits a request in writing to the Department to change the anniversary date. New certified herd program participant's anniversary dates shall be determined by the date of their initial enrollment in the program. Any anniversary date change will be at the Department's discretion. The annual inventory reports shall be kept and filed on forms developed, approved and provided by the Department. iii. Exception—This reporting requirement is not applicable to additions to a herd as described in Subsection 9.q. (related to additions to the herd).

iv. Failure to report—Failure to report theft, escapes, or ingress of wild cervids within prescribed deadlines shall be a violation of this General Quarantine Order and may result in imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386) and loss of program enrollment and placement in the Herd Monitoring Program.

n. *Whole herd visual or hands-on inventory verification.* Whole herd inventories, either on a yearly basis (visual inventory) or every three years (hands-on inventory) as set forth specifically below, shall be required and shall be carried out by an Accredited Category II Veterinarian, at the program participant's expense.

i. Whole herd inventories shall be done by either visual or hands-on verification, as set forth in paragraphs iii. and iv. of this Subsection 9.n. (related to whole herd visual or hands-on inventory verification). Whole herd inventories shall be reported on forms provided by the Department. It shall be the responsibility of the program participant to ensure all such forms are properly completed, signed, and mailed to the Department by the due date established in this General Quarantine Order.

Current Herd Certification Program participants shall be required to have a visual or hands-on herd inventory completed by an Accredited Category II veterinarian by the last day of the month comprising the program participant's anniversary date as selected by the owner/program participant. In all cases the owner/program participant shall be responsible for assembling, handling, and restraining the animals and for all costs incurred to complete the visual or hands-on herd inventory. The owner/program participant shall be responsible for resolving any herd inventory discrepancies within a timeframe acceptable to USDA, APHIS, VS and the Department.

iv. Whole herd visual herd inventory verification. Herd inventories shall be visually verified at least every 12 months and shall be due to the Department by the last day of the month comprising the program participant's anniversary date. However, additional inventory verifications may be performed at the discretion of the Department.

Accredited Category II veterinarians are approved to and shall be utilized to perform annual visual herd inventory verification. Those animals 12 months of age and older shall be bearing approved animal identification ear tags meeting the criteria of Subsection 9.j. (related to identification of subject animals) of this General Quarantine Order of which, at least, one form is visible and legible from a distance, within a pen or other suitable enclosure.

A. Where visual verification of the entire herd inventory is not possible, such as where an animal is not bearing a form of approved animal identification that can be visually inspected, the unidentified animal or animals shall be individually restrained for examination or a hands-on inventory of the entire herd shall be conducted. This process shall be completed in a timeframe acceptable to the Department or USDA APHIS.

B. The owner/program participant shall be responsible for assembling or restraining the herd in a manner that will allow the Accredited Category II veterinarian conducting the inventory to confirm the identification of each animal through inspection of one of the two forms of the Department and USDA, APHIS-approved animal identification meeting the criteria established by Subsection 9.j. (related to identification of subject animals) of this General Quarantine Order. A Department or USDA APHIS employee or agent shall have the authority to require the owner/program participant to assemble and restrain the herd for purposes of inventory verification or other compliance issues.

C. A hands-on inventory may require physical restraint of individual animals in chutes or chemical restraint methods which shall be done by and provided by the owner/program participant.

v. Whole herd hands-on inventory verification. A whole herd hands-on inventory verification for all Herd Certification Program participants who do not participate in the whole herd annual visual inventory verification option shall be required and performed at no greater than three year intervals, by the last day of the month comprising the program participant's anniversary date, by a USDA APHIS Category II accredited veterinarian. Such inventory verification reports shall be due to the Department by the last day of the month comprising the program participant's anniversary date in the year in which the hands-on inventory is performed. The whole herd hands-on inventory report shall be sent to the Department's headquarters in Harrisburg, Pennsylvania and may be sent via mail, email or fax. The owner or participant may elect to change the anniversary date for the Herd Certification Program, at the Department's discretion.

A. The owner/program participant shall be responsible for assembling and restraining all the animals in a manner that will allow the Accredited Category II veterinarian conducting the inventory to confirm the identification of such animal through inspection of all forms of the Department and USDA, APHIS-approved animal identification meeting the criteria established by Subsection 9.j. (related to identification of subject animals) of this General Quarantine Order of those animals 12 months of age and older. A Department or USDA APHIS employee or agent shall have the authority to require the owner/

program participant to assemble and restrain all animals in the herd for purposes of inventory verification or other compliance issues.

C. A hands-on inventory may require physical restraint of individual animals in chutes or chemical restraint methods which shall be done by and provided by the owner/program participant.

vi. Reconciliation of herd inventory. All herd inventories verified through either visual or hands-on verification during inventories conducted by a USDA APHIS Category II accredited veterinarian shall be reconciled with written inventories, including respective official identification, required to be kept by the owner/program participant under Subsections 9.k. (related to ongoing annual recordkeeping requirements) and 9.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) of this General Quarantine Order.

A. The reconciliation of herd inventories done through visual or hands-on verification and the owner/program participant's required written inventory records and reports shall be the duty of the owner/program participant.

B. A discrepancy in herd inventories done through visual or hands-on verification and the owner/program participant's written inventory records and reports shall be prima facie evidence of a violation of the recordkeeping provisions of this General Quarantine Order.

C. If duplicate (non-unique to the animal in the herd) secondary identification is observed during inventories conducted by a USDA APHIS Category II accredited veterinarian that duplication shall be resolved within a time frame acceptable to the Department.

vii. Whole herd inventory noncompliance—Failure to comply with the provisions of this Subsection 9.n. (related to whole herd visual or hands-on inventory verification) shall be a violation of this General Quarantine Order and may result in imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

o. Department Inspections. The Department or its agents acting under the authority and direction of the Department will, at least once per calendar year and as many times as may be necessary to assure compliance with this General Quarantine Order or in response to complaints, inspect the premises upon which an enrolled herd of farmed or captive CWD-susceptible cervids is maintained. The Department may conduct additional inspections at reasonable times. Inspections may include records review, herd inventory with individual animal identification (ID), inspecting fences to assure compliance with the height, maintenance and ingress and egress provisions of Subsection 9.p (related to fencing) and other measures within the scope of authority of the Department and necessary to determine compliance with the Herd Certification Program and this General Quarantine Order.

i. Independent Inspections. Department inspections are separate and apart from the requirements of Subsection 9.n. (related to whole herd visual or hands-on inventory verification) and shall not be construed to meet the requirements thereof. Department inspections shall not constitute and shall not be done as a substitute for whole

herd visual or hands-on inventory verification required by Subsection 9.n. of this General Quarantine Order.

ii. Interference with officer or employee of the department. As established at section 2385 of the Domestic Animal Law (3 Pa.C.S.A. § 2385), a person who willfully or intentionally interferes with an employee or officer of the department in the performance of duties or activities authorized under the Domestic Animal Law, which includes this General Quarantine Order, commits a misdemeanor of the third degree and shall, upon conviction, be subject to a term of imprisonment of not more than one year or a fine of not more than \$2,500, or both.

p. *Fencing*. A herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Certification Program shall be maintained so as to prevent ingress and egress of cervids. Fence height shall be a minimum of 8 feet, although a 10-foot height is recommended.

q. *Additions to the Herd*. The following requirements apply regardless of the period of time the cervid is in the herd (Example: when a buck is moved to an enrolled herd for breeding season). The addition of a CWD-susceptible cervid to a herd enrolled in the Herd Certification Program shall be done in accordance with all of the following requirements:

i. The addition of each cervid shall be documented consistent with and in the manner required by Subsection 9.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) and shall be set forth in the annual report required by Subsection 9.k. (related to ongoing annual recordkeeping requirements) of this General Quarantine Order.

ii. No CWD-susceptible cervid may be added to a herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Certification Program unless the CWD-susceptible cervid to be added originates from that herd or a herd that is also enrolled in and in good standing in the Pennsylvania Herd Certification Program.

iii. The added CWD-susceptible cervid shall be from a herd of an equal or greater certification status, as established in Subsection 9.c. (related to status of herd).

iv. Cervids sourced from out-of state herds must originate from fully certified (five year status) herds as required by 9 CFR Part 81 of the Code of Federal Regulations.

v. CWD-susceptible cervids shipped interstate or intrastate shall not be stopped over at or exposed to any cervid operation that does not meet the requirements set forth in this subsection or that is not in compliance with this General Quarantine Order.

A. Where a CWD-susceptible cervid is stopped over or unloaded at another premises on which CWD-susceptible cervids are kept or otherwise exposed to other CWD-susceptible cervids, those CWD-susceptible cervids shall be from a herd of equal certification status.

B. Where the stop over premises maintains CWD-susceptible cervids of a lower certification status, the incoming CWD-susceptible cervid(s) certification status shall be lowered to at least the certification status of the herd maintained on the stop over premises.

C. Where the stop over premises is within the Commonwealth and has a certification status greater than that of the CWD-susceptible species stopped over or unloaded at that premises, the certification status of the CWD-susceptible species maintained at the stop over

premises shall be reduced to at least the certification status of the stopped over or incoming CWD-susceptible cervids.

vi. Failure to comply with the intrastate movement requirements shall result in adjustment of the herd certification status of the receiving program participant. The herd certification status shall be reduced to the herd certification status of the incoming cervid(s) or a lower status or the receiving program participant's herd being removed from the voluntary herd certification program and placed in the mandatory herd monitoring program.

vii. Failure to comply with interstate movement requirements shall result in removal from the voluntary Herd Certification Program and placement in the mandatory Herd Monitoring Program.

viii. A violation of any of the provisions of this Subsection 9.q (related to additions to the herd) may also result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

r. *Usage of semen, embryos, germ plasm, urine, and other cervid by-products*. Semen, embryos, germ plasm, urine and other cervid by-products may be used in a herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Certification Program if the following are met:

i. The donor animal is from a herd of equal or greater herd status as the destination herd. The source herd shall not have a CWD-positive animal, a CWD-suspect animal or a CWD-exposed animal at time of collection of the cervid by-product. The source herd shall not have CWD identified within the 60 months prior to collection.

ii. Out-of-state donor animals shall meet the same Tuberculosis and Brucellosis testing requirements as would be applicable if the donor animal, itself, was being imported.

iii. Records shall be maintained for 5 years from the date of receipt by the seller and buyer including (as applicable) collection date, animal identification, including the official identification number, with respect to the cervid from which the cervid by-product was collected, animal identification, including the official identification number, with respect to the cervid that received the cervid by-product, date of sale, the CWD status of the source premises, and both buyer and seller name, address and telephone number. If a donor animal is from outside this Commonwealth, records of negative Tuberculosis and Brucellosis testing shall also be maintained. Records shall demonstrate that semen, embryos, urine and other cervid by-products from CWD-positive, CWD-suspect, CWD-exposed, and CWD quarantined herds have been destroyed, including the date and method of destruction.

s. *Intrastate Movement of Enrolled Cervids*. Farmed or captive CWD-susceptible cervids that are enrolled under the Herd Certification Program may be moved intrastate only if all of the following requirements are fulfilled:

i. The cervid shall only be sold, lent, leased, consigned, exchanged, bartered, gifted, boarded, moved including for breeding purposes, given, harvested or otherwise transferred to a person or entity that is currently enrolled in either the CWD herd certification or CWD herd monitoring program established by this General Quarantine Order.

ii. The identification requirements delineated in Subsection 9.j. (related to identification of subject animals) of this General Quarantine Order are followed and obeyed.

iii. The movement is properly and fully recorded in a manner that meets all of the requirements established under Subsection 9.k. (related to ongoing annual recordkeeping requirements) of this General Quarantine Order.

iv. The movement is properly and fully recorded in a manner that meets all of the requirements established under Subsection 9.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) of this General Quarantine Order.

v. The herd addition requirements established under Subsection 9.q. (related to additions to the herd) of this General Quarantine Order are followed and obeyed.

vi. A cervid enrolled under the Herd Certification Program shall not be moved back onto a certified herd property, if that cervid has entered onto the premises of a monitored herd or a non-enrolled premises, such as a stop-over premises or a fairground, even if such movement was for display purposes only.

vii. All other applicable intrastate movement requirements established by the Domestic Animal Law, its attendant regulations or an order of the Department are followed and obeyed.

t. *Bills of Sale.* All program participants shall create and have in their possession and shall keep as a part of their records for a period of five (5) years a bill of sale for each cervid purchased or sold. The bill of sale shall have information necessary to comply with the recordkeeping provisions of Subsection 9.l.vi., vii., viii. ix. and x. (related to ongoing movement of cervids recordkeeping and reporting requirements). For each cervid transferred by a means other than sale, including barter, lease, loan, exchange or otherwise, a written document of the transaction setting forth the type of transfer and the information required in the Bill of Sale shall be created. Such document shall be maintained as a part of the program participants file for a period of five (5) years. All documents required by this subsection shall be made available to the Department, its employees or agents, upon request.

u. *Changes of Status or Change of Program for Non-Compliance.* If a herd is enrolled in the CWD Herd Certification Program, and the program participant fails to meet the applicable requirements of the voluntary Herd Certification Program as described in this General Quarantine Order or the enrolled herd is not maintained in accordance with the applicable requirements of this General Quarantine Order, the Department may, as it determines is appropriate and for reasons more specifically set forth in the Herd Certification Program provisions of this General Quarantine Order, change the herd certification status of the enrolled herd to a lower status, or remove the herd from the voluntary CWD Herd Certification Program and enroll it under the mandatory CWD Herd Monitoring Program. These actions may be taken for violations such as failure to meet applicable mandatory testing requirements, animal identification requirements, reporting requirements, recordkeeping requirements, herd addition requirements, interstate or intrastate movement requirements or any other requirements imposed by this General Quarantine Order. Herd Certification Program participants found in violation of this Order shall be subject to imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

10. *CWD Herd Monitoring Program.*

a. *Program established.* The Chronic Wasting Disease Herd Monitoring Program (Herd Monitoring Program) as established by the August 4, 2006, General Quarantine Order; Chronic Wasting Disease Program (36 Pa.B. 4612 (August 19, 2006) described in Section 2 (related to October 19, 2013 and February 4, 2011 general quarantine order; chronic wasting disease program) and continued by the February 4, 2011, General Quarantine Order; Chronic Wasting Disease Program (41 Pa.B. 727 (February 5, 2011)), as the Chronic Wasting Disease Herd Monitoring Program (Herd Monitoring Program), is continued as otherwise modified by this Order in the manner established herein.

b. *Mandatory Program.* Enrollment in the CWD Herd Monitoring Program is mandatory, if not participating in the voluntary CWD Herd Certification Program, for those that own CWD-susceptible species. The CWD Herd Monitoring Program establishes criteria which are less stringent than those required by the CWD Herd Certification Program. Failure to enroll in the mandatory CWD Herd Monitoring Program or failure to comply with the criteria established in this General Quarantine Order may result in the imposition of penalties, such as criminal and civil penalties, injunctive, civil and equitable relief, as is allowed under the Domestic Animal Law (3 Pa.C.S.A. § 2301 et seq.).

c. *Previously Enrolled Herds.* The status of herds enrolled in the CWD Herd Monitoring Program under the February 4, 2011 Order of General Quarantine which are in compliance with that Order as of the effective date of this General Quarantine Order will maintain their existing status under this Order of General Quarantine if they elect to enroll in and agree to comply with the provisions of the CWD Herd Monitoring Program established under this Order of General Quarantine.

d. *Duty to Report Suspects and Dead Cervids and Dead Cervids found in an advanced state of decomposition.* The program participant, the owner of a herd of farmed or captive CWD-susceptible cervids and any caretaker of that herd shall report any suspect cervid, dead cervid or dead cervid found in an advanced state of decomposition as set forth herein. Failure to comply with any of the provisions of this subsection including failure to report a suspect cervid, the death of a cervid within the time periods set forth herein or the discarding, removal or disposal of carcasses, parts, offal or tissues in a manner which is inconsistent with the provisions of this subsection or without the required verifications shall constitute a violation of this General Quarantine Order.

i. *Suspect Cervid—*Any cervid that shows signs that are consistent with CWD (such as staggering, drooling, wasting or unusual behavior) shall be immediately reported to the designated regional office of the Bureau of Animal Health in the Pennsylvania Department of Agriculture. The suspect cervid shall not be removed from the premises of the program participant until such time as the Department has been able to assess the animal and issue an order or guidance with regard to the holding, harvesting, testing and removal of such animal. The program participant and owner shall be responsible for testing one-hundred percent (100%) of all such suspect cervids that die or are harvested for any reason, including an order of the Department to harvest such suspect cervid. All suspect cervids tested shall count towards the fifty-percent (50%) total testing requirement for that herd. Failure to immediately report a suspect cervid or abide by an order of the Department, testing require-

ments or removal provisions of this section shall constitute a violation of this General Quarantine Order.

ii. Dead Cervid—At least fifty-percent (50%) of all dead cervids shall be tested. Upon the discovery of any dead farmed or captive CWD-susceptible cervid aged 12 months or older, the program participant, owner or caretaker shall take the following steps and comport with the following protocols:

A. Record the death and include the animal as part of the Ongoing Annual Recordkeeping Requirements, established by Subsection 10.k. of this Order of General Quarantine.

B. Have the dead cervids tested. The entire carcass, head or tissue samples from the carcass shall be transported for testing in accordance with the requirements of Subsections 10.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) or 10.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids), as applicable, of this General Quarantine Order.

iii. Dead cervid found in an advanced state of decomposition—At least fifty-percent (50%) of all dead cervids shall be tested. Upon the discovery of any dead farmed or captive CWD-susceptible cervid aged 12 months or older in an advanced state of decomposition, the program participant, owner or caretaker shall report this death to the designated regional office of the Department within 48 hours. These cervids shall be tested as set forth in Subsection 10.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and in accordance with the provisions set forth herein. The program participant, owner or caretaker shall take the following steps and comport with the following protocols:

A. The dead cervid, including all parts and offal, shall not be removed from the premises of the program participant, except that the entire carcass or head of the carcass may be transported for testing as set forth in Subsection 10.f.i. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) of this General Quarantine Order or tissue samples may be collected and sent for testing as set forth at Subsection 10.f.ii. of this General Quarantine Order.

B. Where only the head or tissue samples are sent for testing, the carcass, parts and offal of the dead cervid shall not be removed from the premises of the program participant until test results have been received or a determination that the carcass is untestable and shall only be disposed of in a manner approved by and set forth in writing by the Department.

C. Dead cervid carcasses considered to be untestable by the program participant or owner shall be verified as such by a Department or USDA, APHIS representative prior to removal or disposal of such carcass, parts and offal. The Department or USDA, APHIS representative may determine that the entire carcass shall be collected and moved directly to a laboratory for collection and potential testing.

iv. Failure to abide by the requirements of this Subsection d. (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition) shall be a violation of this General Quarantine Order and may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

e. *Mandatory Testing.* Fifty-percent (50%) of all mortalities, due to the causes set forth below, shall be tested. The mandatory testing requirements established herein shall become effective upon enrollment and shall apply to all cervids regardless of the herd of origin. A program participant with a herd that is enrolled in the Herd Monitoring Program shall be responsible to ensure that a farmed or captive CWD-susceptible cervid is tested in accordance with Subsections 10.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) or 10.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids), as applicable, if any of the following occur:

i. The cervid is 12 months of age or older and is sent to a slaughter facility.

ii. The cervid is 12 months of age or older and dies for a reason such as slaughter, harvesting, hunting, culling or any cause other than natural causes and those set forth in Subsection 10.d. of this General Quarantine Order.

f. *Mandatory Testing for Farmed or Captive CWD-Susceptible Cervids designated as CWD Suspects.* If a dead farmed or captive CWD-susceptible cervid is required to be tested because it showed signs (such as staggering, drooling, wasting, or unusual behavior) that are consistent with CWD before it died, as set forth in Subsection 10.d. (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition) it shall be tested according to either of the following procedures:

i. A person shall immediately notify the Department of the dead CWD-susceptible cervid and do the following:

A. Collect either the entire carcass of the cervid or the entire head of the cervid with official identification devices attached in situ.

B. Deliver the carcass or head with official identification devices attached in situ for CWD testing. The properly completed chain of custody forms and sample submission forms required under Subsection 10.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the carcass or head. The carcass or head shall bear a proper form of identification and be delivered within 72 hours of the cervid's death to either a Department laboratory, or to a laboratory that has been approved, in advance, by the Department or USDA, or both, to perform CWD testing. Results of samples submitted without the proper and required official identification or the properly completed chain of custody forms and sample submission forms may not be recognized by the Department and shall be considered a violation of this General Quarantine Order. Any such violation may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

ii. As an alternative to the CWD testing procedure described in paragraph (i), the following procedure shall be followed:

A. Tissue samples shall be collected by one of the following:

I. A USDA, APHIS Category II accredited practitioner of veterinary medicine.

II. An authorized State official. A Department-certified CWD Sampling Technician does not meet the requirements of this subparagraph.

III. An authorized Federal official.

B. Tissue samples shall be collected and preserved within 72 hours of the cervid's death.

C. Tissues samples shall consist of the obex and the medial retropharyngeal lymph nodes preserved in formalin; and in a separate container that does not contain formalin or any other preservative, a small portion of the ear or other skin that is attached to the official identification of the subject cervid.

D. The tissue samples shall be delivered within 72 hours of the cervid's death to the Pennsylvania Veterinary Laboratory or to a laboratory that has been approved in advance by the Department or USDA, or both, for CWD testing. It is the owner's responsibility to report the death within the a time frame that allows for collection and preservation of the tissue samples within 72 hours of the cervid's death as required by Subsection B. above and protect the carcass from further degradation until tissue samples can be collected.

E. Properly completed chain of custody forms and Sample Submission Forms as required under Subsection 10.i. (related to chain of custody of samples: submission of samples) of the General Quarantine Order shall accompany the tissue samples.

g. *Testing Protocol for Other Farmed or Captive CWD-Susceptible Cervids.* Other than farmed or captive CWD-susceptible cervids that exhibit signs that are consistent with CWD (as described in Subsection 10.d.i.—related to suspect cervids), fifty-percent (50%) of all mortalities, due to any cause, shall be tested. If a farmed or captive CWD-susceptible cervid exhibits signs consistent with CWD they shall be sampled and tested in accordance with Department orders. If a dead farmed or captive CWD-susceptible cervid is found in an advanced state of decomposition it shall be tested in accordance with Subsection 10.f. protocols (related to mandatory testing for farmed or captive CWD-Susceptible cervids designated as CWD suspects). All other cervids required to be tested because they are 12 months of age or older and were either sent to a slaughter facility or died for any reason, as described in Subsection 10.e. (related to mandatory testing) shall be tested either in accordance with the protocols established in Subsection 10.f. or this Subsection 10.g.. The program participant shall notify the Department and shall send the Department records setting forth the official identification of each farmed or captive CWD-susceptible cervid that was sent to slaughter or died for any reason set forth in Subsection 10.e. (related to mandatory testing), along with the name and address of the slaughter facility where each animal was slaughtered or the name and address of the place where the animal died or was harvested and the cause of death (see Subsection 10.k.—related to ongoing annual recordkeeping requirements). In such cases, the selected farmed or captive CWD-susceptible cervid shall be tested according to the following procedures:

i. Tissue samples shall be collected by one of the following:

A. A USDA, APHIS Category II accredited practitioner of veterinary medicine.

B. An authorized State official.

C. An authorized Federal official.

D. A Department-certified CWD Sampling Technician.

ii. Tissue samples shall be collected and preserved within 72 hours of the cervid's death.

iii. Tissues samples shall consist of the obex and the medial retropharyngeal lymph nodes preserved in formalin; and in a separate container that does not contain formalin or any other preservative, a small portion of the ear or other skin that is attached to the official identification of the subject cervid.

iv. Properly completed chain of custody forms and sample submission forms as required under Section 10.i. (related to chain of custody samples; submission of samples) of this General Quarantine Order shall accompany the tissue samples.

v. The tissue samples shall, within 30 days of collection, be delivered to the Pennsylvania Veterinary Laboratory or a laboratory that has been approved in advance by the Department or USDA, or both, to perform CWD testing.

vi. As an alternative to the testing protocol described in paragraph, i., ii., iii., iv., and v. of this Subsection 10.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids) the following protocols shall be followed:

A. Within 72 hours of the cervid's death, collect and deliver either the entire carcass of the cervid with official identification devices attached in situ or the entire head of the cervid with official identification devices attached in situ to a Department laboratory for CWD testing, or to a laboratory that has been approved in advance by the Department or USDA, or both, to perform CWD testing.

B. The program participant/herd owner shall be responsible for properly identifying the cervid carcass or head and delivering it in a manner that does not destroy or make the animal untestable.

C. The person who delivers the carcass or head need not be an approved tissue collector as described in Subsection 10.g.i. (related to testing protocol for other farmed or captive CWD-susceptible cervids).

D. The name, address, and signature of the person collecting, or the person in possession of the carcass, and the person delivering the carcass or head shall be set forth in writing and such writing shall be attached to the chain of custody forms and sample submission forms required by this General Quarantine Order.

E. The properly completed chain of custody forms and sample submission forms required under Subsection 10.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the carcass or head.

F. Results of samples submitted without the proper and required official identification or the properly completed chain of custody forms and sample submission forms may not be recognized by the Department and shall be considered a violation of this General Quarantine Order. Any such violation may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

h. *Impact of Late Notice, Delivery or Untestable Samples.*

i. It is the program participant/herd owner's responsibility to assure good quality tissue is submitted for testing and ensure that all required samples are collected properly and in a timely manner as required by Sections 10.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 10.g. (related to testing protocol for other farmed or

captive CWD susceptible cervids) of this General Quarantine Order. All required tissues shall be collected regardless of sample condition (e.g. autolyzed or frozen). In cases where sample quality is poor, the Department shall be notified and a determination made on samples to be submitted.

ii. Failure to abide by the requirements of this section shall be a violation of this General Quarantine Order and may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386). Where the history of sample collections and submissions from the program participant/herd owner demonstrates a pattern of lack of submission of required samples, untimely submission of samples or poor performance including incorrect tissues submitted, poor tissue quality or non-compliance with the provisions and requirements of Subsections 10.d. (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition), 10.e. (related to mandatory testing), 10.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 10.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids) of this General Quarantine Order, the Department may seek such additional remedies, including injunctive relief as is allowed under the Domestic Animal Law. Adherence to the 72-hour deadlines established in this Subsection 10.f.i.B., 10.f.ii.B., 10.f.ii.D. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 10.g.ii. and 10.g.vi.A. (related to testing protocol for other farmed or captive CWD susceptible cervids) will be considered a mitigating factor by the Department in any penalty assessed.

i. *Chain of Custody of Samples; Submission of Samples.* A person may obtain chain of custody forms and sample submission forms from the Department by submitting a written request for such forms or by downloading the forms from the Department's website (www.agriculture.state.pa.us).

i. A person submitting a sample (whether tissue samples, an entire carcass or an entire head) for testing under the Herd Monitoring Program shall complete a chain of custody form and a sample submission form, and shall submit those forms along with the sample that is delivered for testing.

ii. The chain of custody form shall clearly identify the premises, including the address of the premises and the name and signature of the herd owner, on which the cervid resided and from which it was taken, official identification on the cervid, the date of sampling, and the persons (in chronological order) who handled the sample from the point it was taken until it is delivered to the Pennsylvania Veterinary Laboratory or a Department-approved laboratory, or a USDA-approved laboratory for CWD testing.

iii. The chain of custody form shall bear the signature, printed name and other identifying information with respect to each person who handles the sample.

iv. The completed chain of custody form and the sample submission form shall be provided to a responsible person at the laboratory to which the sample is delivered.

j. *Identification of Subject Animals.* Each farmed or captive CWD-susceptible cervid that is within a herd enrolled in the Herd Monitoring Program shall have at least one form of the Department and/or USDA, APHIS-approved official animal identification attached if it is

transported from the enrolled premises or is tested for CWD as required by Subsection 10.d. (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition) or Subsection 10.e. (related to mandatory testing) of this General Quarantine Order. In accordance with 9 CFR Parts 71, 77, 78, and 86 "Traceability for Livestock Moving Interstate", official identification shall not be removed from animals. Identification devices shall be submitted with tissues or remain in place when heads or carcasses are submitted for testing. Forms of identification that are Department-approved or USDA, APHIS-approved, or both, are considered "official" forms of identification for purposes of this provision and include the following:

i. A legible and unique tattoo approved by the Department or USDA, APHIS.

ii. A USDA, APHIS-issued ear tag, bearing a unique number provided by USDA, APHIS that utilizes one of the following numbering systems:

A. The National Uniform Eartagging System (NUES).

B. The Animal Identification Number (AIN) bearing 15 digits starting with '840.'

C. The premises-based numbering system using a Premises Identification Number (PIN) in conjunction with a livestock production numbering system.

iv. Any other identification device approved by the Department and USDA, APHIS.

k. *Ongoing Annual Recordkeeping Requirements.* A program participant with a herd that is enrolled in the Herd Monitoring Program shall maintain up-to-date herd inventory records with respect to the subject herd for a period of 5 years, shall make these records available for inspection by the Department upon request, and shall mail or deliver a copy of these records to the Department no later than one month after each anniversary of the "date of enrollment" in the Herd Monitoring Program. These records shall be kept and filed on forms developed, approved and provided by the Department. The forms will be made available on the Department's website (www.agriculture.state.pa.us) and will be available in paper form for those program participants that do not have internet access. The program participant shall be required to complete all fields on the recordkeeping forms and incomplete forms shall be returned to the program participant with a deadline for completion. These records shall include the following information with respect to each subject cervid:

B. The contact information (name, complete address, telephone number and where applicable, Pennsylvania Dealer/Hauler or Cervidae Livestock Operations license number or both where both types of licenses are held) of any dealer, hauler or broker or Pennsylvania cervid livestock operation utilized in such transaction.

C. The date of death and cause of death (if known) of any subject cervid that dies and the CWD test result for that animal, if required to be tested.

D. The corresponding official identification as set forth in Subsection 10.j. (related to identification of subject animals) of this General Quarantine Order, for each such animal removed from the herd.

vi. If the subject cervid is new to the herd since the "date of enrollment," or previous annual inventory report, designation of whether the subject was born to the herd or acquired from outside the herd. If the subject cervid was acquired from outside the herd the following information shall be provided:

A. The source of the subject cervid including contact information (name, complete address, telephone number and when available, email address) of the source herd.

The program participant shall file a signed, written report with the designated Department's regional office within ten (10) business days of the incident. Such report shall be filed either by mail, fax or email. The signed written report shall set forth the date on which the wild CWD-susceptible cervid or any other CWD-susceptible cervid gained entrance and any action taken by the program participant, including the date on which the wild CWD susceptible cervid or any other CWD susceptible cervid was removed from the enclosure, the method of removal, the cause of incident, such as break in the fence or a gate left open and any action taken to prevent the ingress of wild CWD susceptible cervids or any other CWD susceptible cervid from occurring again.

iii. Exception—This reporting requirement is not applicable to additions to a herd as described in Subsection 10.p. (related to additions to the herd).

iv. Failure to report—Failure to report theft, escapes, or ingress of wild cervids within prescribed deadlines shall be a violation of this General Quarantine Order and may result in imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

n. *Inspections.* The Department or agents acting under authority and direction of the Department may, at its discretion, inspect the premises upon which an enrolled herd of farmed or captive CWD-susceptible cervids is maintained to assure compliance with this General Quarantine Order or in response to complaints. The Department may conduct additional inspections at reasonable times.

i. General scope—Inspections may include records review, checking individual animal identification, whole herd inventory with individual animal identification, inspecting fences to assure compliance with the height, maintenance and ingress and egress provisions of Subsection 10.o. (related to fencing) and other measures within the scope of authority of the Department and necessary to determine compliance with the Herd Monitoring Program. A program participant shall cooperate with the Department, and shall facilitate the inspection by making premises, animals and records available to the Department without delay.

ii. Inspection noncompliance—Failure to comply shall be a violation of this General Quarantine Order and may result in imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

iii. Interference with officer or employee of the department. As established at section 2385 of the Domestic

Animal Law (3 Pa.C.S.A. § 2385), a person who willfully or intentionally interferes with an employee or officer of the department in the performance of duties or activities authorized under the Domestic Animal Law, which includes this General Quarantine Order, commits a misdemeanor of the third degree and shall, upon conviction, be subject to a term of imprisonment of not more than one year or a fine of not more than \$2,500, or both.

o. *Fencing.* A herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Monitoring Program shall be maintained so as to prevent ingress and egress of cervids. Fence height is to be a minimum of 8 feet, although a 10-foot minimum height is recommended.

p. *Additions to the Herd.* The following requirements apply regardless of the period of time the cervid is in the herd (Example: when a buck is moved to an enrolled herd for breeding season). The addition of a CWD susceptible cervid to a herd enrolled in the Herd Monitoring Program shall be done in accordance with all of the following requirements:

i. The addition of each cervid shall be documented consistent with and in the manner required by Subsection 10.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) and shall be set forth in the annual report required by Subsection 10.k. (related to ongoing annual recordkeeping requirements) of this General Quarantine Order.

ii. Cervids sourced from out-of-state herds must originate from fully certified herds as required by 9 CFR Part 81 of the Code of Federal Regulations.

iii. A violation of any of the provisions of this Subsection 10.p. (related to additions to the herd) may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

q. *Usage of semen, embryos, germ plasm, urine, and other cervid by-products.* Semen, embryos, germ plasm, urine and other cervid by-products may be used in a herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Monitoring Program if the following are met:

i. The donor animal is from a herd enrolled in the CWD Herd Monitoring Program, CWD Herd Certification Program, or an equivalent USDA, APHIS-approved out-of-state Herd Certification Program. The source herd shall not have a CWD-positive animal, CWD-suspect animal, or CWD-exposed animal at time of collection of the cervid by-product. The source herd shall not have CWD identified within the 60 months prior to collection.

ii. Out-of-state donor animals shall meet the same Tuberculosis and Brucellosis testing requirements as would be applicable if the donor animal, itself, was being imported.

iii. Records shall be maintained for 5 years from the date of receipt by the seller and buyer including (as applicable) collection date, animal identification including the official identification if available, with respect to the cervid from which the cervid by-product was collected, animal identification including the official identification if available, with respect to the cervid that received the cervid by-product, date of sale, the CWD status of the source premises, and both buyer and seller name, address and telephone number. If a donor animal is from outside the Commonwealth, records of negative Tuberculosis and Brucellosis testing shall also be maintained. Records shall

demonstrate that semen, embryos, urine and other cervid by-products from CWD-positive, CWD-suspect, CWD-exposed and CWD-quarantined herds have been destroyed, including the date and method of destruction.

r. *Limitations on Intrastate Movement of Enrolled Cervids.* Farmed or captive CWD-susceptible cervids that are enrolled under the Herd Monitoring Program may be transported intrastate to destinations including hunting preserves, slaughter facilities, other Herd Monitoring Program participating herds or new premises obtaining cervids for the first time; only if all of the following requirements are fulfilled:

i. The cervid shall only be sold, lent, leased, consigned, exchanged, bartered, gifted, boarded, moved including for breeding purposes, given, harvested or otherwise transferred to a person or entity that is currently enrolled in either the Herd Certification Program or the Herd Monitoring Program established by this General Quarantine Order.

ii. The identification requirements delineated in Subsection 10.j. (related to identification of subject animals) of this General Quarantine Order are followed and obeyed.

iii. The movement is properly and fully recorded in a manner that meets all of the requirements established under Subsection 10.k. (related to ongoing annual recordkeeping requirements) of this General Quarantine Order.

iv. The movement is properly and fully recorded in a manner that meets all of the requirements established under Subsection 10.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) of this General Quarantine Order.

v. The herd addition requirements established under Subsection 10.p. (related to additions to the herd) of this General Quarantine Order are followed and obeyed.

vi. All other applicable intrastate movement requirements established by the Domestic Animal Law, its attendant regulations or an order of the Department are followed and obeyed.

s. *Bills of Sale.* All program participants shall create and have in their possession and shall keep as a part of their records for a period of five (5) years a bill of sale for each cervid purchased or sold. The bill of sale shall have information necessary to comply with the recordkeeping provisions of Subsection 9.l. (related to CWD herd certification program, ongoing movement of cervids recordkeeping and reporting requirements). For each cervid transferred by a means other than sale, including barter, lease, loan, exchange or otherwise, a written document of the transaction setting forth the type of transfer and the information required in the Bill of Sale shall be created. Such document shall be maintained as a part of the program participants file for a period of five (5) years. All documents required by this subsection shall be made available to the Department, its employees or agents, upon request.

t. *Noncompliance.* If a herd is enrolled in the mandatory CWD Herd Monitoring Program, and the program participant fails to meet the applicable requirements of this Order or the enrolled herd is not maintained in accordance with the applicable requirements of this Order, the Department may, as it determines is appropriate, take enforcement action. This action may be taken for violations such as failure to meet applicable mandatory testing requirements, animal identification requirements,

reporting requirements, recordkeeping requirements or any other requirements imposed by this Order. Herd Monitoring Program participants found in violation of this Order shall be subject to imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

11. *Participation of non CWD-susceptible cervids in the Herd Certification Program or Herd Monitoring Program.* Any contrary provision of this Order notwithstanding, persons may voluntarily enroll farmed or captive cervids that are not CWD-susceptible cervids (example: reindeer) in either the Herd Certification Program or the Herd Monitoring Program. Voluntary enrollment shall subject the owner/program participant to all provisions of the Program in which they enroll and the owner/program participant shall be required to meet and comply with all of the standard and edicts of either Program including those requirements that are specifically stated for CWD susceptible species.

12. *Violations/Penalties.* Any person violating the requirements of this Order shall be subject to imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

13. *No Restriction on Further Action by the Department.* This Order shall not be construed as limiting the Department's authority to establish additional quarantine or testing requirements on imported cervids.

14. *Effective Date.* Sections A through M of the "Recitals" and Sections 1. through 8. and 11. through 14. of this "Order of General Quarantine" shall become effective immediately upon publication in the *Pennsylvania Bulletin*. This Order in its entirety shall become effective as of August 1, 2014 and shall remain in effect unless rescinded or modified by subsequent order.

Interstate/International Quarantine Order; Chronic Wasting Disease Importation Requirements for Farmed or Captive Chronic Wasting Disease-Susceptible Cervids

Recitals

A. Chronic Wasting Disease (CWD) is considered an infectious, progressive and always fatal disease of susceptible species of the genera *Cervus*, *Odocoileus* and *Alces* including, but not limited to moose, white-tailed deer, mule deer, black-tailed deer, sika deer, elk and red deer, and hybrids thereof.

B. There is no known treatment for CWD infection, no successful vaccine against this disease and no feasible live animal test that can detect the presence of CWD.

C. CWD has negatively impacted this Commonwealth's wild and domestic (farmed or captive) cervid populations. CWD is of particular concern to the captive or farmed cervid industry, in that presence of CWD infection in a herd has resulted in the destruction of an entire herd and severely limited the market for product within and outside this Commonwealth.

D. CWD is transmissible from infected to uninfected CWD-susceptible cervids by ingestion of contaminated materials occurring through shared environment or close contact.

E. CWD has been designated a "dangerous transmissible disease" of animals under 3 Pa.C.S. § 2321(d) (relating to dangerous transmissible diseases) by order of the Secretary of Agriculture under 3 Pa.C.S. §§ 2301—2389 (relating to the Domestic Animal Law).

F. The Department of Agriculture (Department) has broad authority under the Domestic Animal Law to regulate the keeping, transport and handling of domestic animals in order to exclude, contain or eliminate dangerous transmissible diseases, such as CWD.

G. The Department also has broad authority under the Domestic Animal Law to prohibit the importation of domestic animals, conveyances, containers, goods, products or materials in an effort to keep dangerous transmissible diseases, such as CWD, from entering this Commonwealth.

H. In 2012 CWD infection was confirmed in two domestic white tailed deer on a farm in the Commonwealth. CWD was diagnosed in free ranging deer in the Commonwealth from testing done in association with the Pennsylvania Game Commission's 2012 and 2013 hunter harvest program. It has also been detected in free-ranging cervids in New York, Maryland, Virginia, and West Virginia, and is known to be present in a number of other states and several Canadian provinces.

I. The Department seeks to establish reasonable requirements, in accordance with its authority under the Domestic Animal Law (3 Pa.C.S. §§ 2301—2389) and consistent with federal regulations—at 9 CFR 81 (related to Chronic Wasting Disease in Deer, Elk and Moose)—and United States Department of Agriculture guidance and policy related to quarantine of CWD infected and exposed cervidae, to allow CWD-susceptible species of cervids to be imported into or shipped through this Commonwealth, while protecting against the introduction of CWD into this Commonwealth's cervid population.

Order of Quarantine

With the foregoing recitals incorporated into this Order by reference, the Pennsylvania Department of Agriculture (PDA) hereby establishes an Interstate and International Quarantine under authority of the Domestic Animal Law, at 3 Pa.C.S. § 2329(c). The terms of this Order are as follows:

1. *Area of Quarantine.* The Quarantined Area affected by this Interstate and International Quarantine Order is any State, foreign nation, province or territory other than the Commonwealth of Pennsylvania.

2. *Prohibitions.*

i. *Importation.* No farmed or captive CWD-susceptible cervid shall be imported into the Commonwealth of Pennsylvania without a PDA-issued importation permit, two forms of USDA/APHIS-approved animal identification (described in Paragraph 3) and the certificate of veterinary inspection and related paperwork required by this Order. No cervids declared as CWD positive, CWD suspect, or CWD exposed shall be imported into the Commonwealth of Pennsylvania or off-loaded within the Commonwealth of Pennsylvania. Pennsylvania will issue importation permits only and exclusively to farmed or captive CWD-susceptible cervids originating from fully certified CWD Herd Certification Program herds. The provisions of this subsection 2.i. also apply to CWD-

susceptible species which will be transported through the Commonwealth of Pennsylvania on their way to a final destination in a state other than the Commonwealth of Pennsylvania, but which will be off-loaded at a stop-over site or premises in the Commonwealth of Pennsylvania during transit. No CWD-susceptible cervid shall be off-loaded at any premises in the Commonwealth that is not enrolled in the Commonwealth's Chronic Wasting Disease Herd Certification or Herd Monitoring Program.

ii. *Through-shipment.* Consistent with the provisions of subsection i. (related to importation) of this Section 2, no cervids declared as CWD positive, CWD suspect, or CWD exposed shall be imported into the Commonwealth of Pennsylvania or off-loaded within the Commonwealth of Pennsylvania. No farmed or captive CWD-susceptible cervid that is being shipped through this Commonwealth of Pennsylvania to another destination shall be temporarily unloaded from the vehicle or conveyance in which it is being transported without a PDA-issued importation permit (as described in Section 5 of this Order), two forms of USDA/APHIS-approved animal identification (as described in Section 3 of this Order) and the certificate of veterinary inspection (as described in Section 4 of this Order) and related paperwork required by this Order.

iii. *Movement to slaughter.* Any farmed or captive CWD-susceptible cervid that is moved interstate for immediate slaughter to a recognized slaughtering establishment in Pennsylvania shall meet the identification requirement in paragraph 3, the certificate of veterinary inspection required by paragraph 4 listing the slaughter facility as the destination, and the permit requirement in paragraph 5. No cervids declared as CWD positive, CWD suspect, or CWD exposed shall be imported for slaughter in Pennsylvania.

3. *Animal identification requirement.* Any farmed or captive cervid that is imported into the Commonwealth of Pennsylvania, or that is temporarily unloaded from the vehicle or conveyance in which it is being transported while in transit through this Commonwealth of Pennsylvania to another destination, shall have two forms of animal identification. One form of identification shall qualify as USDA, APHIS-approved "official" animal identification. The second device may be either a second form of USDA, APHIS-approved "official" animal identification or a USDA, APHIS-approved form of individual animal identification unique to that animal within the herd and linkable to the CWD database. Consultation with USDA and PDA on currently acceptable forms of identification is strongly recommended when anticipating importation of cervids. Currently, USDA, APHIS-approved forms of "official" identification are:

i. A legible and unique tattoo approved by the Department and USDA, APHIS.

ii. A USDA, APHIS-issued ear tag, bearing a unique number provided by USDA, APHIS that utilizes one of the following numbering systems:

A. The National Uniform Eartagging System (NUES).

B. The Animal Identification Number (AIN) bearing 15 digits starting with '840.'

C. The premises-based numbering system using a Premises Identification Number (PIN) in conjunction with a livestock production numbering system.

D. Any other numbering system approved by USDA, APHIS and the state veterinarian.

iii. An electronic implant device, such as a microchip that utilizes a nationally unique 15 digit animal identifica-

tion number starting with '840' provided an appropriate reader is immediately available wherever the animal is located.

iv. Any other identification device approved by the Department and USDA, APHIS.

4. *Certificate of veterinary inspection and health documentation requirements.* Any farmed or captive cervid that is imported into the Commonwealth of Pennsylvania, or that is temporarily unloaded from the vehicle or conveyance in which it is being transported while in transit through the Commonwealth of Pennsylvania to another destination, shall be accompanied by an official certificate of veterinary inspection (CVI) written within the preceding 30 days by a USDA Category II accredited veterinarian or equivalent position of the State, foreign nation, province or territory of origin indicating that the animal identified in that document is not known to be exposed to or infected with any infectious or contagious disease.

i. A single CVI may pertain to any number of farmed or captive cervids, but the CVI shall identify each of the subject farmed or captive cervids by its official approved form of animal identification, as described above in Paragraph (3).

ii. The CVI shall verify that the subject farmed or captive cervids identified in the document have satisfied all applicable testing requirements of the Commonwealth of Pennsylvania related to Brucellosis and Tuberculosis.

iii. The CVI or its separate accompanying verification shall confirm that the subject CWD-susceptible farmed or captive cervids originates from a herd of origin that has been classified as 'Certified' in a government-administered CWD herd certification program with components as determined by 9 CFR Part 55.24. PDA will be the final arbiter of whether or not a particular CWD herd certification program is acceptable, but will make this determination in accordance with any applicable USDA or other national standards.

5. *Importation permit requirement.* Pennsylvania will issue importation permits only and exclusively to farmed or captive CWD-susceptible cervids originating from fully certified CWD Herd Certification Program herds. This restriction also applies to those CWD-susceptible species which will be transported through Pennsylvania on their way to a final destination in a state other than Pennsylvania, but which will be off-loaded at a stop-over site in Pennsylvania during transit. Persons meeting the definition of a hauler under the provisions of the Domestic Animal Law shall be subject to the licensure requirements contained therein. Pennsylvania cervid operations enrolled or required to be enrolled under the "General Quarantine Order; Chronic Wasting Disease Program Requirements for Herd Certification Program and Herd Monitoring Program," shall obtain and document the hauler information required by the provisions of that Order.

This importation permit may be obtained through PDA's Bureau of Animal Health and Diagnostic Services, at (717) 783-5304. Applicants should apply to PDA for this importation permit at least 30 days in advance of the planned importation or shipping date. The application verifies that the importation requirements have been met. The following information is required including animal identification, from which premises, to which premises, CWD herd status, Tuberculosis herd status, Brucellosis herd status, dealer/hauler information, and date of movement. Premises, except slaughter facilities, importing

farmed or captive CWD-susceptible cervids must be enrolled in one of the CWD programs with the Pennsylvania Department of Agriculture.

6. *Criminal and/or civil penalties.* Any person violating the requirements of this Order shall be subject to criminal prosecution and/or civil penalties of up to \$10,000 per violation.

7. *PDA's authority.* This Order shall not be construed as limiting PDA's authority to establish additional quarantine or testing requirements on imported cervids.

8. By this Order, the Department is rescinding and supplanting the referenced August 19, 2006, General

Quarantine Order to harmonize Commonwealth standards with Federal regulations in 9 CFR Parts 55 and 81 which establish minimum national standards addressing State CWD herd certification programs for interstate cervidae commerce.

9. *Effective date.* This Order is effective upon publication in the *Pennsylvania Bulletin*.

PROPOSED NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs

This notice provides information about agricultural operations that have submitted nutrient management plans (NMPs) for approval under 3 Pa.C.S. Chapter 5 and that have or anticipate submitting applications for new, amended or renewed NPDES permits, or Notices of Intent (NOIs) for coverage under a general permit, for CAFOs, under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Based upon preliminary reviews, the State Conservation Commission (SCC) or County Conservation Districts (CCD) working under a delegation agreement with the SCC have completed an administrative review of NMPs described. These NMPs are published as proposed plans for comment prior to taking final actions. The NMPs are available for review at the CCD office for the county where the agricultural operation is located. A list of CCD office locations is available at <http://www.nacdnet.org/about/districts/directory/pa.phtml> or can be obtained from the SCC at the office address listed or by calling (717) 787-8821.

Persons wishing to comment on an NMP are invited to submit a statement outlining their comments on the plan to the CCD, with a copy to the SCC for each NMP, within 30 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the NMPs. Comments should include the name, address and telephone number of the writer and a concise statement to inform the SCC of the exact basis of the comments and the relevant facts upon which they are based. Comments should be sent to the SCC, Agriculture Building, Room 310, 2301 North Cameron Street, Harrisburg, PA 17110.

Persons with a disability who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information should contact the SCC through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Southwest Regional Office: Regional Clean Water Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, Telephone: 412.442.4000.

Application No. PA0267716, Concentrated Animal Feeding Operation (CAFO), **Hillcrest Saylor Dairy LLC (Hillcrest Saylor Dairy Farm)**, 3684 Kingwood Road, Rockwood, PA 15557-7802.

Hillcrest Saylor Dairy LLC has submitted an application for an Individual NPDES permit for a new CAFO known as Hillcrest Saylor Dairy Farm, located in Middlecreek Township, **Somerset County**.

The CAFO is situated near Middle Creek in Watershed 19-F, which is classified for Trout Stocking. The CAFO is designed to maintain an animal population of approximately 1,248 animal equivalent units (AEUs) consisting of 600 mature dairy cows, 379 dairy heifers, 60 dry cows, and 209 calves. The milk cow manure is collected as liquid manure, while all other manure is collected as a solid bedded penpack. Additional food waste, approximately 30 ton/week, (374,400 gallons/yr) will be imported onto the farm and run through the manure digester. Milking parlor wastewater is directed into the manure handling system.

A release or discharge to waters of the Commonwealth under normal operating conditions is not expected. Normal operating conditions are defined as conditions below a 25-year, 24-hour storm event.

The Department has conducted administrative and technical reviews of the application. Based on the preliminary review and application of lawful standards and regulations, the Department has made a tentative determination to issue an NPDES permit for the operation subject to the terms and conditions and monitoring and reporting requirements specified in the permit.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to

Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This

approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401–7671q) and regulations adopted under the Federal Clean Air Act.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001–4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

46-0040B: National Label Co., Inc. (2025 Joshua Road, Lafayette Hill, PA 19444) to route the air emissions from an existing Fisher-Kreke Gravure Press/Laminator Press (Source 101) to the new regenerative thermal oxidizer (Source C03) in Whitemarsh Township, **Montgomery County**. The plan approval is for a non-Title V facility and will consist of a change of duct work from an existing RTO to a new RTO. Post-controlled potential VOC emissions are calculated to be no more than 17.1 tons (including cleanup operations), while projected actual VOC emissions (including clean-up operations) will not exceed 9.2 tons/yr. Overall emissions will decrease as the new RTO has a greater reduction efficiency (98%) compared to the old RTO (90%). Estimated VOC emissions will be less than 2.05 tons/year from this coating line. The use of thermal oxidizer to destroy VOC emissions meets Department's BAT criteria for this type of process. The company will operate the sources and maintain the system in accordance with the good engineering practices to assure proper operation of the system. The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Richard Baum, Co-Executors of the Estate of Jack H.
Goodyear ("the Estate"). The late Mr. Goodyear was the
owner of the property located at 177 Wissahickon Avenue,
North Wales, Montgomery County, PA ("the Property").
The Property is one of five parcels which comprise the
North Penn Area 7 Superfund Site ("the Site") which
encompasses 650 acres of land, located in Lansdale and
North Wales Boroughs and Upper Gwynedd Township,
Montgomery County, PA. The Property is a one acre
parcel in the Site area.

The former Spray-Fin, Inc. operated a paint finishing
business on the Property from approximately 1963
through 2004. During its operation of the Property,
Spray-Fin, Inc. used trichloroethylene ("TCE") in its
operations. TCE and PCE are organic solvents that are
used for a variety of purposes, including degreasing,
metal cleaning, and dry cleaning of clothing. These
contaminants were found in a number of wells within the
Site area, and TCE was found in the groundwater at the

Property. The past and present conditions at Property and the Site constitute a “release” of hazardous substances as defined in Section 103 of HSCA, 35 P. S. § 6020.103.

The U.S. Environmental Protection Agency (“EPA”) issued a Record of Decision for the Site which outlined the remedy for soil contamination, known as OU2 for the Site. Pursuant to Section 501(a) of HSCA, 35 P. S. § 6020.501(a), the Department has taken response actions to abate the release and threatened release of hazardous substances at the Property and the Site. The Department’s response actions included, among other things, oversight of certain remedial activities including the removal of contaminated soil at the Property. The Department has incurred response costs related to its response actions at the Site and the Property. The Department and the EPA anticipate that they will expend future response costs at the Site and the Property to address contaminated groundwater and vapor intrusion within the Site area.

Based on its ownership of the Property, the Estate is a responsible party pursuant to Section 701 of HSCA, 35 P. S. § 6020.701. The Department has determined that it is in the public interest to resolve its response cost claim against Estate. Consequently, the Department and the Estate have signed a Consent Order and Agreement, in which the Estate agreed to reimburse the Department’s past response costs incurred at the Property in the amount of Eighty-Nine Thousand Four Hundred Twenty Dollars and Eighty-Seven Cents (\$89,420.87).

This notice is provided under Section 1113 of HSCA, 35 P. S. § 6020.1113, which states that, “settlement shall become final upon the filing of the Department’s response to significant written comments.” The Consent Order and Agreement, which contains the specific terms of the agreement is available for public review and comment. The agreement can be examined from 8 a.m. to 4 p.m. at the Department’s Southeast Regional Office, located at 2 East Main Street in Norristown, PA 19401, by contacting either Dennis Kutz at (484) 250-5784 or Gina M. Thomas, Esquire at (484) 250-5930. Mr. Kutz and Ms. Thomas may also be contacted electronically at dkutz@pa.gov and githomas@pa.gov, respectively. A public comment period on the Consent Order and Agreement will extend for 60 days from today’s date. Persons may submit written comments regarding the agreement within 60 days from today’s date, by submitting them to Mr. Kutz at the above address.

North Penn Area 7 Superfund Site
Lansdale Borough, North Wales Borough, and
Upper Gwynedd Township, Montgomery County**

The Department of Environmental Protection (“Department”), under the authority of the Pennsylvania Hazardous Sites Cleanup Act (“HSCA”), 35 P. S. § 6020.1113, has entered into a Consent Order and Agreement with Park House Properties, LLC (“Park House”), which intends to buy the property located at 177 Wissahickon Avenue, North Wales, Montgomery County, PA (“the Property”). The Property is one of five parcels which comprise the North Penn Area 7 Superfund Site (“the Site”) which encompasses 650 acres of land, located in Lansdale and North Wales Boroughs and Upper Gwynedd Township, Montgomery County, PA. The Property is a one acre parcel in the Site area.

The former Spray-Fin, Inc. operated a paint finishing business on the Property from approximately 1963

through 2004. During its operation of the Property, Spray-Fin, Inc. used trichloroethylene (“TCE”) in its operations. TCE and PCE are organic solvents that are used for a variety of purposes, including degreasing, metal cleaning, and dry cleaning of clothing. The past and present conditions at Property and the Site constitute a “release” of hazardous substances as defined in Section 103 of HSCA, 35 P. S. § 6020.103.

The U.S. Environmental Protection Agency (“EPA”) issued a Record of Decision for the Site which outlined the remedy for soil contamination, known as OU2 for the Site. Pursuant to Section 501(a) of HSCA, 35 P. S. § 6020.501(a), the Department has taken response actions to abate the release and threatened release of hazardous substances at the Property and the Site. The Department’s response actions included, among other things, oversight of certain remedial activities including the removal of contaminated soil at the Property. The Department has incurred response costs related to its response actions at the Site and the Property. The Department and the EPA anticipate that they will expend future response costs at the Site and the Property to address contaminated groundwater and vapor intrusion within the Site area.

In connection with its purchase of the site, Park House desires to resolve its potential liability to the Department for reimbursement of certain response costs to be incurred at the Site. The Department has determined that it is in the public interest to resolve its claim against Park House. Consequently, the Department and Park House have signed a Consent Order and Agreement, in which the Park House agreed to pay a de minimis portion of the Department’s response costs which will be incurred at the Property in the amount of Twelve Thousand and Five Hundred Dollars (\$12,500).

This notice is provided under Section 1113 of HSCA, 35 P. S. § 6020.1113, which states that, “settlement shall become final upon the filing of the Department’s response to significant written comments”. **LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION**

**UNDER ACT 2, 1995
PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to

publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

DRINKING WATER STATE REVOLVING FUND SPECIAL NOTICE

Special Notice Under the Federal Safe Drinking Water Act (SDWA); 42 U.S.C. 300f, et. seq.

*Southwest Region: Water Supply Management Program
Manager, 400 Waterfront Drive, Pittsburgh, Pa 15222-
4745*

Project Location:

<i>Applicant</i>	<i>Applicant Address</i>	<i>County</i>
Glendale Valley Municipal Authority	1800 Beaver Valley Road Flinton, PA 16640	Cambria

Project Description: The Pennsylvania Infrastructure Investment Authority, which administers the Commonwealth's State Revolving Fund, is intended to be the funding source for this project.

Water quality issues have troubled the Glendale Yearound system since purchase by the Authority in 2008. High levels of manganese, hydrogen sulfide and distribution line sediment are some of the issues causing water quality complaints. Efforts to treat these issues, primarily in the operation of a greensand filter, have been costly and ineffective. This project will eliminate the need for operation of the greensand filter in favor of purchase of finished water from the Reade Township Municipal Authority (RTMA). RTMA water will be purchased at the Reade/White Township boundary and will be used to serve all GVMA water customers. The project will also provide fire hydrants to areas which currently have no fire protection.

Description:

The proposed project will interconnect the currently independent systems from Read Township Municipal Authority.

The proposed water interconnection will consist of approximately 8,000 linear feet of water main connecting the two systems. A booster pump station will also be installed to push water to the elevation of the existing Yearound storage tank.

The Department's review of the project and the information received in the Environmental Report for the project has not identified any significant, adverse environmental impact resulting from this proposal. The Department hereby approves the Environmental Assessment.

Project Location:

<i>Applicant</i>	<i>Applicant Address</i>	<i>County</i>
Northern Cambria Municipal Authority	1202 Philadelphia Avenue Northern Cambria, PA 15714-3188	Cambria

Project Description: The Pennsylvania Infrastructure Investment Authority, which administers the Commonwealth's State Revolving Fund, is intended to be the funding source for this project.

The proposed project is a result of a consent order and agreement, dated March 8, 2011 and amended on January 10, 2012, May 16, 2012, and September 11, 2013 between the Northern Cambria Municipal Authority and the DEP. The COA established requirements for the development of an additional groundwater source or sources to replace three of five mine pool sources that were determined to be surface water influenced. Although the remaining two sources can still be utilized, there is still some concern over the long term viability of these sources, and the Authority plans to eliminate all of the mine pool sources as part of this project. The Authority agreed to develop an additional well (the Krumenacker Well #2) and also to interconnect, and buy in bulk, from the nearby Carrolltown water system (by 2016).

The Authority is proposing to expand their Spangler water treatment plant to accommodate the additional water from the new well. The Barnsboro water treatment plant, which treated water from several of the mine pool sources, will be converted to a disinfection booster station. Proposed modifications will include the disconnection of the existing raw water sources into the plant, the elimination of the softening system and the removal of the existing clearwell. Following completion of the modifications, the Barnsboro water treatment plant will be operated solely as a distribution system pumping and chlorine booster station. A new sodium hypochlorite chemical feed system will replace the existing gas chlorination system. The Authority is also replacing all of the meters in their distribution system.

The Department's review of the project and the information received in the Environmental Report for the project has not identified any significant, adverse environmental impact resulting from this proposal. The Department hereby approves the Environmental Assessment.

Project Location:

<i>Applicant</i>	<i>Applicant Address</i>	<i>County</i>
Southwestern Pennsylvania Water Authority	PO Box 187 1442 Jefferson Road Jefferson, PA 15344	Greene

Project Description: The Pennsylvania Infrastructure Investment Authority, which administers the Commonwealth's State Revolving Fund, is intended to be the funding source for this project. The Southwestern Pennsylvania Water Authority proposes the construction of Phase I of the expansion of their treatment plant capacity. Currently, the Authority has reached its maximum design hydraulic capacity based on the recent AWSR. Additional areas of expansions have dictated greater demand thus, the expansion of the WTP. The Phase I expansion includes the addition of four gravity filters; the installation of two ultraviolet reactors; retrofitting four existing gravity filters with air scour, replacement of four high service pumps and the installation of variable frequency drives at the Tin Can Hollow Water Treatment Plant.

A Second Opinion Review was submitted for this project and reviewed. The Department's review of the project and the information received in the Environmental Report for the project has not identified any significant, adverse environmental impact resulting from this proposal. The Department hereby approves the Environmental Assessment.

Final Technical Guidance—New Guidance

DEP ID: 394-2125-001. *Title:* Aquifer Testing Guidance for Public Water Systems. *Description:* Department regulations at 25 Pa. Code Chapter 109 (relating to safe drinking water) require an aquifer test for some proposed public water systems (PWS) that intend to utilize ground-water sources. An aquifer test and derivation of aquifer hydraulics are necessary for public health and compliance

with the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17). This technical guidance document outlines recommended aquifer testing procedures for systems that require a permit and for all other PWS's that intend to pump more than 100,000 gallons per day. Information provided in this technical guidance is a stand-alone document and replaces the corresponding procedures in Part II of the Public Water Supply Manual (Department ID: 383-2125-108) pertaining to aquifer testing. This policy reflects and supplements the Department's regulations in 25 Pa. Code Chapter 109. This guidance was published as draft at 43 Pa.B. 5660 (September 21, 2013) for a 30-day public comment period. Comments were received from one commentator. Subsequent to publication, the Department completed minor edits to account for the public comments and to improve readability and accuracy of the document. Revisions to the draft technical guidance document resulting from the public comments are described in the accompanying comment-response document.

DEPARTMENT OF PUBLIC WELFARE

Additional Class of Disproportionate Share Payment

The Department of Public Welfare (Department) is announcing its intent to establish a new class of disproportionate share hospital (DSH) payments to certain qualifying hospitals that provide a high volume of services to the Medical Assistance (MA) population to ensure their participation in the MA Program. This payment is intended to improve access to inpatient and ancillary outpatient services in this Commonwealth; support a regional medical campus and academic medical programs that provide integrated patient centered medical services; and promote the supply of requisite medical professionals to treat the MA population. The Department intends to allocate funding for this additional class of DSH payment to qualifying hospitals for Fiscal Year (FY) 2013-2014.

The Department determines a hospital eligible for this additional class of DSH payment if the hospital meets all of the criteria listed as follows. Unless otherwise stated, the source of the information is the State FY 2010-2011 MA cost report (MA-336).

1. The hospital is enrolled in the MA Program as a general acute care hospital.
2. The hospital ranked at or above the 92nd percentile of all acute care hospitals on the total acute care inpatient days provided to MA beneficiaries.
3. The hospital ranked at or above the 94th percentile of all acute care hospitals on Net Pennsylvania (PA) MA Outpatient Revenues.
4. The hospital is accredited as an Adult Level I Trauma Center and a Pediatric Level I Trauma Center according to the Pennsylvania Trauma Systems Foundation's 2012 Annual Report.
5. The hospital is part of an academic medical center that includes a regional medical campus in a county of the fourth class.

The Department will divide the total payment proportionately among all qualifying hospitals based on each hospital's total MA acute care inpatient days to total MA acute care inpatient days for all qualified hospitals. In making these payments, the Department will ensure that no hospital will receive any DSH payment that is in excess of its hospital-specific DSH upper limit and the Commonwealth will not exceed its aggregate DSH allotment.

Fiscal Impact

The FY 2013-2014 impact, as a result of the funding allocation for this payment is \$5.379 million (\$2.5 million in State general funds and \$2.879 million in Federal funds upon approval by the Centers for Medicare and Medicaid Services).

Code § 69.31(b) (relating to seasons), has determined that the 2014 total allowable commercial catch for walleye from the Commonwealth waters of Lake Erie is 4,000 pounds. The Executive Director of the Commission, acting under the authority of 58 Pa. Code § 69.31(c), has established that the 2014 total allowable commercial catch for yellow perch from the Commonwealth waters of Lake Erie is 100,000 pounds. Mentored Youth Fishing Day Program

The Executive Director of the Fish and Boat Commission (Commission), acting under the authority of 58 Pa. Code § 65.25 (relating to temporary changes to fishing regulations), at 43 Pa.B. 7603 (December 28, 2013) and 44 Pa.B. 973 (February 15, 2014), previously took

immediate action to allow individuals participating in the Mentored Youth Fishing Day Program to fish for trout on March 22, and April 5, 2014, beginning at 8 a.m. and ending at 7:30 p.m., on waters designated by the Executive Director that are normally closed to trout fishing on those dates. The Executive Director subsequently cancelled both days because the waters included in the Mentored Youth Fishing Day Program were covered in ice and were not expected to completely thaw in advance of the program.

Now acting under the authority of 58 Pa. Code § 65.20 (relating to Mentored Youth Fishing Day Program) which went into effect on March 22, 2014 at 44 Pa.B. 1764 (March 22, 2014), the Executive Director has designated May 10, 2014, as a Mentored Youth Fishing Day for trout. This designation will be effective upon publication of this notice in the *Pennsylvania Bulletin*.

To participate, anglers 16 years of age or older (adult anglers) must possess a valid Pennsylvania fishing license and current trout/salmon permit and be accompanied by a youth (less than 16 years of age) who has obtained a mentored youth permit or a voluntary youth license from the Commission. Youth anglers must obtain a mentored youth permit or a voluntary youth license from the Commission and be accompanied by an adult angler to participate.

The minimum size will be 7 inches; the creel limit will be 2 trout (combined species). Other Commonwealth inland regulations will apply. It is unlawful to fish in waters designated as part of the Mentored Youth Fishing Day Program except in compliance with the requirements of 58 Pa. Code § 65.20 when participating in the program.

From 8 a.m. to 7:30 p.m., the identified waters will be open only to program participants. After 7:30 p.m., the waters will be open to all licensed anglers. To ensure that plenty of stocked trout are available to anglers on the Mentored Youth Fishing Day, all program waters will be closed to fishing from 12 p.m. on May 9, 2014, until 8 a.m. on May 10, 2014.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

State Board of Nursing
Regulation #16A-5126 (IRRC #3046)
**Continuing Education; Reporting of Crimes and
 Discipline**
April 2, 2014

We submit for your consideration the following comments on the proposed rulemaking published in the February 1, 2014 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Board of Nursing (Board) to respond to all comments received from us or any other source.

1. Section 21.29a. Reporting of crimes and disciplinary action.—Protection of the public health, safety and welfare.

This new section requires registered nurses to report crimes and disciplinary actions to the Board within specified time frames. We note that § 21.29(c)(4) of the Board's existing regulations requires registered nurses to disclose, among other things, pending criminal charges on their application for license renewal. We believe that the public safety may be better protected if this new section included a similar requirement to disclose any pending criminal charges and disciplinary actions. We ask the Board to consider this recommendation as it prepares the final-form regulation.

Similar language is being proposed for practical nurses at § 21.156b and at § 21.723a for licensed dietitian-nutritionists. We ask the Board to consider this recommendation for those sections as well.

2. Section 21.131. Continuing education.—Statutory authority; Reasonableness; Clarity.

Under Subsection (b), applicants for initial licensure are not required to meet continuing education requirements for the first renewal immediately following licensure. One of the proposed amendments to this subsection deletes the phrase "by examination." Does the deletion of this phrase allow applicants for initial licensure by reciprocity in the Commonwealth to be exempt from continuing education requirements for the first renewal immediately following licensure? If so, we ask the Board to provide the statutory basis for this exemption and why it believes this is reasonable.

3. Miscellaneous clarity.

Section 21.131(h)(4) includes a reference to Section 14(a)(4)(i) of the Professional Nursing Law. To be consistent with other sections of the Board's regulations, we recommend that the appropriate *Purdon's* citation be included in the final-form regulation.
