READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

PROPOSED RULEMAKING

DEPARTMENT OF BANKING AND SECURITIES

[10 PA. CODE CH. 57]

Debt Management Services Continuing Education

The Department of Banking and Securities (Department) proposes to add Chapter 57 (relating to debt management services continuing education) to read as set forth in Annex A. This chapter is proposed under the authority of section 9(c) of the Debt Management Services Act (act) (63 P. S. § 2409(c)).

Purpose

The proposed rulemaking sets forth the continuing education requirements for credit counselors and supervisors employed by a debt management services licensee. The proposed rulemaking will satisfy the Department's obligation under section 9(c) of the act to promulgate regulations delineating the continuing education requirements for credit counselors and supervisors employed by debt management services licensees.

Explanation of Regulatory Requirements

Proposed § 57.1 (relating to definitions) defines the words and terms used in Chapter 57.

Proposed § 57.11 (relating to continuing education requirements) sets forth the continuing education requirements for credit counselors and supervisors.

Proposed § 57.12 (relating to course format) clarifies the acceptable formats for continuing education units.

Proposed § 57.13 (relating to former registered certifying organizations) explains how the Department will treat continuing education units obtained from a certifying organization which is no longer on the provider list.

Proposed § 57.21 (relating to reporting) sets forth the information a licensee shall report to the Department and how and when the information is to be reported.

Proposed § 57.22 (relating to recordkeeping) sets forth the recordkeeping requirements for licensees.

Proposed § 57.23 (relating to compliance) explains how the Department will verify compliance.

Proposed § 57.24 (relating to enforcement) sets forth the Department's enforcement powers.

Proposed § 57.31 (relating to registration) explains the method for registering as an acceptable certifying organization.

Proposed § 57.32 (relating to criteria) sets forth the Department's criteria for the designation of an acceptable continuing education provider.

Proposed § 57.33 (relating to verification) explains how the Department will verify that a certifying organization continues to meet the criteria of § 57.32.

Affected Parties

The proposed rulemaking would affect debt management services providers licensed by the Department.

Fiscal Impact

State government

The proposed rulemaking would have a de minimus impact on the Department. The Department already

regulates the debt management services providers. Proposed Chapter 57 only adds another item that the Department will review in its investigations and examinations. The proposed rulemaking will not have impact on the Commonwealth and its political subdivisions.

Regulated community

The proposed rulemaking would have a de minimus impact on the regulated community. Credit counselors employed by debt management services licensees already complete continuing education to obtain and maintain credit counselor certification. Proposed Chapter 57 would only add the cost of attendance of continuing education for supervisors if the supervisors are not also certified as credit counselors.

Paperwork

The proposed rulemaking would require the regulated community to maintain documentation to verify that the credit counselors and supervisors in its employ completed the continuing education requirements.

Effective Date and Sunset Date

Chapter 57 will be effective upon final-form publication in the *Pennsylvania Bulletin*. The regulations do not have a sunset date because the Department will periodically review the effectiveness of the regulations.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 24, 2014, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to IRRC and to the Chairpersons of the House Commerce Committee and the Senate Banking and Insurance Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to the Office of Chief Counsel, Department of Banking and Securities, Attention: Public Comment on Regulation 3-52, 17 N. Second Street, Suite 1300, Harrisburg, PA 17101-2290, fax (717) 783-8427, ra-pabankreg@pa.gov within 30 days after publication in the *Pennsylvania Bulletin*.

PHILADELPHIA PARKING AUTHORITY

[52 PA. CODE CHS. 1001, 1011 AND 1051]
Annual Filing Requirements

The Philadelphia Parking Authority (Authority), on March 24, 2014, adopted a proposed rulemaking order to modify existing annual filing requirements to eliminate reference to the term "expire" when used in conjunction with a certificate of public convenience and that filing requirement. While the Authority's regulations do not provide for the expiration of certificates of public convenience, some industry members have expressed confusion over the use of this term. The proposed regulation is intended only for those clarification purposes.

*Proposed Rulemaking Order; Philadelphia Taxicab and
Limousine Regulation; Annual Information Review;*
Doc. No. 126-9

Proposed Rulemaking Order

By the Authority:

In accordance with of the act of July 16, 2004, (P.L. 758, No. 94), 53 Pa.C.S. §§ 5701 et seq., as amended, (the "act"),¹ the Authority formally commences its rulemaking process to promulgate a regulation to clarify annual information update procedures for the Philadelphia taxi-

cab and limousine industries and to amend regulations to reflect applicable statutory changes as provided in Act 64 of 2013.² The Authority seeks comments from all interested parties on the proposed regulation, which are found at Annex A to this Order.

A. Background and discussion.

The Authority's existing regulations require all regulated parties to make an annual information filing (renewal) with the Authority to assure that the individual or business entity is in continuing compliance with the act and the Authority's orders and regulations. This annual update or "renewal" process was an issue during the promulgation of the regulations because the regulations use to term expired as to certificates of public convenience. See 41 Pa.B. 6499, 6526 (December 11, 2011).

The proposed regulation will eliminate the use of the word expired as to taxicab, limousine and dispatcher certificates of public convenience to eliminate confusion. Because driver certificates and broker registrations do expire, the term will continue to apply in that context. Driver certificates and broker registrations will continue to be subject to an annual approval process.

B. The regulation.

We propose amending the below referenced sections to reflect the current budget statutes and to eliminate the use of the confusing term "expired" in connection with certificates of public convenience. Under the regulations, certificates of public convenience do not expire.

§ 1001.43. Authority fee schedule.

We propose amending subsections (a) and (b) of this section to accurately reflect the applicable provisions of sections 5707 and 5710 of the act. Section 5710 is new and specifically deals with the use of fees and the creation of a fee schedule. The act was amended to eliminate the original deemed approved budgetary language and replace that approval process with one that requires compliance with Article VI of the act of April 9, 1929 (P.L. 177, No. 175), known as The Administrative Code of 1929 as required by the new 5707 (a) of the act. The act's annual budget process was amended by the Legislature in response to a negative decision of the Commonwealth Court of Pennsylvania.³

§ 1011.3. Annual rights renewal process.

We propose amending this section to eliminate the use of the term "expired" in relation to a certificate of public convenience which can expire under our regulations. The same forms will be used and the term expired will continue to be used in relation to taxicab driver certificates and broker registrations, which can expire under the regulations.

A new subsection (g) was created to differentiate taxicab, limousine and dispatcher certificates of public convenience from driver certificates and broker registrations. The annual filing procedure will remain the same for these certificate holders. The failure to make this important regulatory filing will continue to result in an out of service designation. In addition, the identification of issues that would have prohibited the original application of a certificate holder from approval will render the certificate holder's vehicles ineligible for attachment of a TLD inspection sticker, if the underlying issue is not corrected. This annual filing and review process often

² See Act of July 9, 2013, P.L. 455, No. 64 ("Act 64")

evidences issues that are in need of correction by the certificate holder. Those issues include outstanding regulatory penalties, moving violations, out of date insurance filings and other issues that are generally corrected by the certificate holder when brought to their attention during this review.

This is one of the reasons that this annual information review is important, it causes the regulated parties and the regulator to re-examine key compliance issues and make corrections where necessary. The same substantive changes were made to the annual information filing process for limousines in section 1051.3 (relating to annual rights renewal process), although in that section only limousine drivers and limousine certificates of public convenience need be referenced.

§ 1011.4. *Annual assessments and renewal fees.*

We propose amending this section to create consistency with the statutory changes of Act 64. The applicable subsections of § 5707 (relating to budget and assessments) are now referenced. Subsection (b) notes the assessment payment time line required by Act 64. Also, subsection (c) has been amended to change the optional assessment payment installment dates from the set June 15 date, to 15 days after notice of the assessment is made to the certificate holder. We understand that the Commonwealth's budget is often not completed by June 15, this change will permit all parties flexibility in exercising this payment option. The same changes were made to section 1057.1 (relating to annual assessments and renewal fees), which applies to limousine service.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 29, 2014, the Authority submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Urban Affairs Committee and the Senate Consumer Protection and Professional Licensure Committee. In addition to submitting the proposed rulemaking, the Commission provided IRRC and will provide the Committees with a copy of a detailed Regulatory Analysis Form. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Authority, the General Assembly and the Governor of comments, recommendations or objections raised.

Conclusion

The Authority, therefore, formally commences its rulemaking process to promulgate this regulation to become part of 52 Pa. Code Part II in a manner consistent with Annex A to this Order. The Authority seeks comments from all interested parties on this proposed body of regulations, which are found at Annex A to this Order. The Authority hereby advises that all comments submitted in response to this Order will be posted, without redaction of name, address, or other personal information or comment provided, on the website of the Independent Regulatory Review Commission, which may be reached at (717) 783-5417.

Accordingly, under sections 13 and 17 of the act (53 Pa.C.S. §§ 5722 and 5742); section 5505(d) of the Parking

Authorities Act (act of June 19, 2001) (P. L. 287, No. 22), as amended (53 Pa.C.S. §§ 5505(d)(17), (23) and (24)); sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. Code §§ 7.231—7.234, the Authority proposes adoption of the regulations set forth in Annex A; *Therefore,*

It Is Ordered That:

1. A proposed rulemaking be opened to consider the regulation set forth in Annex A.
2. The Executive Director shall submit this proposed rulemaking Order and Annex A to the Office of Attorney General for review as to form and legality.
3. The Executive Director shall submit this proposed rulemaking Order and Annex A for review and comments to the Independent Regulatory Review Commission and the Legislative Standing Committees.

DEPARTMENT OF AGRICULTURE

Referendum on Continuation of the Pennsylvania Peach and Nectarine Research Program

Under the applicable provisions of 3 Pa.C.S. Chapter 45 (relating to Agricultural Commodities Marketing Act), a review referendum was held from March 17, 2014, to March 31, 2014, to determine if the producers affected by the Pennsylvania Peach and Nectarine Research Program (program) desired to continue the program for an additional 5 years. To pass, a majority of eligible producers voting had to vote in favor of the program's continuation. An impartial Teller Committee met on April 10, 2014, to count the ballots. The following results were submitted by the Teller Committee: a total of 41 eligible votes were cast with 37 producers voting in favor of and 4 voting against the continuation of the program. An additional eight ballots were invalid because they did not meet the eligibility requirements. Votes favoring continuation of the program by number of producers represented 90% of eligible votes and votes against continuation of the program represented 10% of eligible votes. Because a majority of the votes were cast in favor of the program, the program shall continue for 5 years, effective immediately.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Revision to the Notice of a Substantial Amendment for the Community Development Block Grant—Disaster Recovery 2012 Allocation

Due to additional information needing to be added to the original substantial amendment of the Commonwealth of Pennsylvania for Fiscal Year 2012 Community Development Block Grant—Disaster Recovery (CDBG-DR) Action Plan of March 24, 2014, a revision to that substantial amendment is being proposed by the Department of Community and Economic Development (Department). Notice is hereby given for a public comment period to review the revised substantial amendment. The public comment period is from May 10, 2014, through May 17, 2014.

The United States Department of Housing and Urban Development (HUD) issued a notice at 77 FR 22583 (April 16, 2012), which awarded \$27,142,501 of CDBG-DR funds to the Commonwealth to be administered by the Department. An Action Plan for these funds was submitted to HUD on July 23, 2012, and subsequently approved. As the needs for disaster relief in the various areas of funding have changed since the submission of the original plan, due to completion of the first round of applications for assistance by affected municipalities, changes need to be made to those areas in the original Action Plan. In addition a more definitive unmet needs survey has been completed and is presented in the revised substantial amendment. These changes, based on the Pennsylvania Citizen Participation Plan for the Consolidated Plan, constitute a significant change in the distribution of funds under the program and thus necessitate a substantial amendment to the original Action Plan.

The revised substantial amendment to the Action Plan and supporting documentation is available for a 7-day public comment period and can be viewed on the Department's web site under the CDBG-DR section at <http://www.newpa.com/community/documents-publications/cdbg->

dr. The draft is also made available to the Tri-County Branch of the Pennsylvania Association of the Blind for transfer to electronic media. The text is available to hearing-impaired persons by means of the Department's web site at the link listed previously. A translation into Spanish will also be available on the Department's web site. The final version of the substantial amendment will be submitted to HUD no later than May 24, 2014.

Persons who would like to provide written comment on the revised substantial amendment to the CDBG-DR Action Plan may send those comments electronically to RA-DCEDcdbg&homequestions@pa.gov or mail to the attention of Mary J. Smith, Department of Community and Economic Development, Center for Community Financing, 400 North Street, 4th Floor, Harrisburg, PA 17120. Comments must be received before 4 p.m. on May 19, 2014.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION**

**UNDER ACT 2, 1995
PREAMBLE 1**

**Acknowledgment of Notices of Intent to Remediate
Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall

not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operat-

ing Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

25-01021: Team Hardinger Transportation (1314 West 18th Street, Erie, PA 16502-1517) to issue a State Operating Permit for the coating operation which is located in the City of Erie, **Erie County**. The facility's primary emission sources include a surface coating booth equipped with dry filters for overspray. Coatings are applied with HVLP and electrostatic spray guns. The booths are heated with an air make-up unit rated at 5.3 mmbtu/hr. The heater is fired with natural gas. The facility has an emission limit of 10 TPY for VOC emissions in any 12-month rolling period. The facility is an area source of emissions. The operating permit contains requirements from plan approval 25-1021A, applicable emission restrictions, testing requirements, monitoring requirements, reporting requirements, work practice requirements, and additional requirements in accordance with the Clean Air Act.

43-00361: Butler Petroleum Corp.—Elliot Oil Division (408 Erie Street, Grove City, PA 16127) to issue a Synthetic Minor Operating Permit for this petroleum products distribution facility, located in the Grove City, **Mercer County**. In order to remain classified as a "Bulk Gasoline Plant" and not a "Bulk Gasoline Terminal" this facility has elected to limit gasoline throughput to no more than 20,000 gallons per day.

This operating permit issuance incorporates a GP-2 (General Plan Approval and General Operating Permit, BAQ-GPA/GP-2) for two 12,000 gallon gasoline storage tanks, Subpart BBBB—National Emission Standards for Hazardous Air Pollutants for Source Category: Gasoline Distribution Bulk Terminals, Bulk Plants, and Pipeline Facilities, and the applicable requirements from 25 Pa. Code §§ 129.57, 129.60, 129.61 and 129.62.

The primary sources of emissions from this facility are the gasoline storage and transferring equipment. If gasoline throughput at this facility were at the maximum rate of 20,000 gallons per day, the VOC emissions from this facility would be 24.8 tons per year. Actual throughputs and VOC emissions are expected to be well below these estimates. Emissions of all other criteria pollutants are well below major source thresholds.

Noncoal Applications Received

Effluent Limits—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

Table 2

Parameter	30-day Average	Daily Maximum	Instantaneous Maximum
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal

minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*		greater than 6.0; less than 9.0	
pH*			

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
West Earl Township	157 Metzler Rd, Brownstown PA 17508	Lancaster

Plan Description: The planning module for the Lamar Weaver Subdivision, DEP Code No. A3-36959-192-2, APS Id 834122, providing for the creation of a 1.132 acre lot using an individual on lot sewage disposal system is disapproved. The property is located on the east side of South Fairmount Road, approximately 800 feet north of Wissler Road in West Earl Township. This plan is disapproved because the preliminary hydrogeologic study inaccurately characterized the background nitrate-nitrogen concentration in the groundwater under the proposed subdivision. All of the water sample locations were about 1/4 mile away from the proposed lot and only one of those samples was within the same drainage basin as the proposed lot. Also, the proposed groundwater recharge easement used to mitigate the plume from the proposed on lot sewage disposal system is insufficient in size and position to be acceptable. The easement does not provide enough recharge down gradient of the proposed system to mitigate the impact prior to the plume moving down a well-defined drainage swale and onto the neighbor's property.

HAZARDOUS SITES CLEANUP ACT OF OCTOBER 18, 1988

Notice of Prompt Interim Response McQuaid Property and Nearby Areas Borough of Aspinwall and Township of O'Hara, Allegheny County Southwest Region

The Pennsylvania Department of Environmental Protection ("DEP"), under the authority of the Hazardous Sites Cleanup Act, 35 P. S. Section 6020.101 et. Seq. ("HSCA"), has initiated a prompt interim response at the McQuaid Property and Nearby Areas ("Site"). This response has been initiated pursuant to Sections 501(a) and 505(b) of the HSCA, 35 P. S. Sections 6020.501(a) 6020.505(b). The Site consists of properties located in a residential area of the Borough of Aspinwall and the Township of O'Hara in Allegheny County. The McQuaid Property is located at 37 Western Ave and the Nearby Areas are in the immediate vicinity of it.

An on-going investigation conducted by DEP at the Site indicates that these areas have been impacted or have the potential to be impacted by TCE and/or PCE contamination in the groundwater and soil. This contamination can potentially result in elevated levels of PCE/TCE in the indoor air of buildings in the area. Pending completion of the investigation, the extent of the contamination has yet to be determined.

The current and/or potential threat from the Site to human health or welfare from the Site to human health

or welfare is the direct contact threat to persons entering buildings where there is the potential for exposure to hazardous substances in the air. The Site is in a residential area.

The Department considered the following two alternatives to address the threats at the Site: (Alternative 1) No action and (Alternative 2) Installation of vapor intrusion mitigation systems in impacted buildings. Alternative 2 was chosen because it complies with the applicable, relevant, and appropriate requirements.

This notice is being provided under Section 506(b) of the Hazardous Sites Cleanup Act. The Administrative Record which contains information forming the basis and documenting the selection of this response action is available for public review and comment at the Department's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222 and is available for review between 9 a.m. and 4 p.m.

The Administrative Record will be open for comment until August 9, 2014. Persons may submit written comments into the record, during this time only, by sending them or delivering them to Edward Litwin, Project Manager, Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222.

In addition, persons may present oral comments for inclusion in the Administrative Record at a public hearing scheduled for June 26, 2014, at 6:30 p.m. at the Aspinwall Borough Building located at 217 Commercial Ave., Aspinwall, PA 15215. Persons wishing to present comments must register with John Poister at the Department's Southwest Regional Office, in writing at: 400 Waterfront Drive, Pittsburgh, PA 15222 or by telephone at (412) 442-4203 before noon, June 26th.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate in the proceeding, should contact John Poister at (412) 442-4203 or through the Pennsylvania AT&T Relay Service at (800) 654-5954 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-

specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

SPECIAL NOTICES

Consent Order and Agreement; Treatment of Post-Mining Discharges and Seeps at the Addison and Stutzman Mine Sites

Mineral Resources Management, District Mining Operations, Cambria Office, 286 Industrial Park Road, Ebensburg, PA 15931-4119

The Commonwealth of Pennsylvania, Department of Environmental Protection (Department), pursuant to Sections 4.2 and 4.3 of the Surface Mining Conservation and

Reclamation Act, 52 P. S. §§ 1396.4b and 1396.4c; Section 5 of the Clean Streams Law, 35 P. S. § 691.5; and Section 1917-A of the Administrative Code of 1929, 71 P. S. § 510-17, and in settlement of a Complaint docketed at 596 M.D. 2009 before the Commonwealth Court of Pennsylvania has entered into a Consent Order and Agreement (COA) between the Department, Bituminous Coals, Inc. (BCI), and Fetterolf Mining, Inc. (FMI) concerning the treatment of post-mining discharges and seeps at the Addison and Stutzman Mine sites (jointly, the Sites). Both BCI and FMI are operated by Mr. M. Mitchell Fetterolf, who serves as President, Treasurer, and Chief Executive Officer.

The Addison Mine site, located in Addison Township, Somerset County, Pennsylvania, includes permitted mining activities at three sites: Addison #1 (MDP No. 40A77SM11), Addison #1 Mine (MDP No. 5679116), and the Addison Strip (SMP No. 56773136). Between 1981 and 2009, the Department determined there were numerous effluent limit violations as a result of BCI's mining discharge and subsequent treatment attempts.

The Stutzman Mine, MDP No. 56800103, is located in Stonycreek Township, Somerset County, Pennsylvania. In February 1986, the Department discovered four seep locations both on and off the site previously permitted to FMI and requested that FMI implement a permanent abatement plan for the seep treatment.

The Department also notified BCI and FMI in October 2004, that the initial bonds posted for the Sites in the amounts of \$504,640 and \$8,700 were insufficient to guarantee payment of perpetual treatment of the post-mining discharges and seeps. Jointly, BCI and FMI claimed in a June 2005, letter that they lacked the financial resources to provide for perpetual payment and in September 2005, notified the Department that treatment of the discharges and seeps would cease when then-current materials had exhausted. The Department immediately took over treatment of the discharges and seeps after BCI and FMI ceased treatment activity on December 31, 2005. The Department then notified BCI and FMI in January 2006, of its intention to forfeit the bonds for the Sites. Those bonds are currently held by the Mid Continent Insurance Company.

On November 12, 2009, the Department filed a Complaint with the Commonwealth Court seeking that BCI and FMI be required to resume or begin to treat all of the discharges and seeps resulting from the operator's mining activity, and to post long-term financial guarantees so as to provide for those treatments.

Under the terms of the COA, in settlement of litigation, BCI and FMI have agreed to construct and/or repair the treatment systems for the discharges and seeps on the Sites. Rather than collecting on the forfeited bonds, the Department will direct funds from the Mid Continent Insurance Company, Inc., to a treatment trust that has been established with the Clean Streams Foundation for the perpetual treatment of the mine discharges resulting from the mining operations.

Copies of the COA are located at the Department's South Central Region Office of Chief Counsel at 909 Elmerton Avenue, Harrisburg, Pennsylvania, or by telephone at 717-787-8790 and the Cambria District Mining Office, 286 Industrial Park Road, Ebensburg, Pennsylvania or by telephone at (814) 472-1900. Copies may be reviewed on request by any person during normal busi-

ness hours, or an electronic copy of the COA is available upon request. Electronic copies can be requested by emailing Nels J. Taber, Regional Counsel, at ntaber@pa.gov.

Pennsylvania's 2014-2015 Annual Ambient Air Monitoring Network Plan; Available for Public Comment

On October 17, 2006, the United States Environmental Protection Agency (EPA) promulgated final amendments to the National ambient air monitoring requirements for criteria pollutants at 40 CFR Parts 53 and 58 (relating to ambient air monitoring reference and equivalent methods; and ambient air quality surveillance). See 71 FR 61236 (October 17, 2006). The EPA's final rule requires state and local agencies to enhance air monitoring to "improve public health protection and better inform the public about air quality in their communities." Under 40 CFR 58.10 (relating to annual monitoring network plan and periodic network assessment), air quality state and local monitoring agencies must adopt an annual air-monitoring network plan and make the plan available for public inspection for at least 30 days prior to final submission to the EPA Regional Administrator. The plan, which is due July 1, 2014, must include a statement of purpose for each monitor and evidence that siting and operation of each monitor meets Federal requirements. The EPA may also provide an opportunity for review and comment prior to approving or disapproving a state's Monitoring Network Plan.

On May 10, 2014, the 2014-2015 Annual Ambient Air Monitoring Network Plan (Plan) will be made available for public comment on the Department of Environmental Protection's (Department) web site at www.dep.state.pa.us/dep/deputate/airwaste/aq/default.htm. The Plan has been updated to address changes that have been made in the Commonwealth's ambient air monitoring network and to identify changes that are anticipated to occur in the remainder of 2014 and in 2015.

The public is invited to submit comments on this network plan. Comments must be received by the Department on or before June 9, 2014. Written comments should be sent to the attention of Nicholas Lazor, Chief, Division of Air Quality Monitoring, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468, RA-epair@pa.gov. Use "Annual Monitoring Network Plan" as the subject line.

Proposed Annual Monitoring Network Plan for Philadelphia; Available for Public Comment

Part 58 of 40 CFR (relating to ambient air quality surveillance), requires state and local air pollution control agencies to adopt and submit to the United States

Environmental Protection Agency (EPA) Regional Administrator an Annual Monitoring Network Plan (AMNP) by July 1, 2014. The AMNP provides for the establishment and maintenance of an air quality surveillance system that consists of a network of monitoring stations. A proposed AMNP must be made available for public inspection for at least 30 days prior to submission to the EPA.

Air Management Services is the local air pollution control agency for the City of Philadelphia under the Department of Public Health. Philadelphia has an air monitoring network of ten air monitoring stations that house instruments that measure ambient levels of air pollutants.

The proposed AMNP is available for public inspection on the City's web site at www.phila.gov/health/airmanagement/PublicMeetings.html and at the Office of Air Management Services, 321 University Avenue, 2nd Floor, Philadelphia, PA 19104, during normal business hours. For further information, contact Henry Kim, Chief of Program Services at (215) 685-9439.

Written comments on the proposed AMNP should be sent to Henry Kim, Chief of Program Services, Air Management Services, 321 University Avenue, 2nd Floor, Philadelphia, PA 19104. Only written comments will be accepted. Comments received by facsimile will not be accepted. Persons wishing to file comments on the proposed AMNP must submit comments by June 9, 2014.

Proposed State Implementation Plan Revision; Redesignation Request and Maintenance Plan for the Philadelphia-Wilmington, PA-NJ-DE Nonattainment Area for the 1997 Annual and 2006 24-Hour Fine Particulate Matter National Ambient Air Quality Standards; Public Hearing

Particulate matter includes both solid and liquid particles suspended in the air. Fine particle pollution describes particulate matter that is less than or equal to 2.5 micrometers in diameter (PM_{2.5}). PM_{2.5} concentrations above the Federal health-based standard pose a serious human health threat. With significant improvements in air quality in the Philadelphia Area, this nonattainment area now meets the 1997 annual and the 2006 24-hour PM_{2.5} National Ambient Air Quality Standards (NAAQS). Therefore, the Department of Environmental Protection (Department) intends to submit a request to the United States Environmental Protection Agency (EPA) to redesignate the area to attainment.

The Department is seeking public comments on the redesignation request and a proposed revision to the State Implementation Plan (SIP) containing the 2007 comprehensive inventory as required under section 172(c)(3) of the Federal Clean Air Act (CAA) (42 U.S.C.A. § 7502(c)(3)) and a maintenance plan demonstrating that the area can maintain the 2006 24-hour PM_{2.5} health-based NAAQS for the next 10 years as required under section 175A(a) of the CAA (42 U.S.C.A. § 7505a(a)). Upon the EPA approval, the maintenance plan will also establish new motor vehicle emission budgets for transportation conformity purposes.

The request to redesignate the area to attainment and the proposed SIP revision are available on the Department's web site at www.dep.state.pa.us (select "Air," then "Bureau of Air Quality," then "Regs/Plan," then "Clean Air Plans") or through the contact persons listed as follows.

The Department will hold a public hearing to receive comments on the proposal on Thursday, June 12, 2014, at 1 p.m. at the DEP Southeast Regional Office, 2 East Main Street, Norristown, PA 19401. Persons wishing to present testimony at the hearing should contact Alex Haas at P. O. Box 8468, Harrisburg, PA 17105, (717) 787-9495 or alehaas@pa.gov to reserve a time. Witnesses should keep testimony to 10 minutes and should provide two written copies of their statement at the hearing.

If by Tuesday, June 10, 2014, no person has expressed an interest in testifying at the hearing, the hearing will be cancelled. The Department will provide public notice on the Bureau of Air Quality web page at www.dep.state.pa.us (DEP Keyword: "Air") if the hearing is cancelled. Persons may also contact the Department to find out if the hearing is cancelled by contacting Alex Haas.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact Alex Haas. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

The Department must receive comments no later than June 13, 2014. Written comments should be sent to the attention of Nancy Herb, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468, nherb@pa.gov. Use "Philadelphia PM2.5 Redesignation" as the subject line in written communication.

Public Notice of the Availability of National Pollutant Discharge Elimination System General Permit for Discharges from Small Flow Treatment Facilities (PAG-04)

Under The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and sections 1905-A, 1917-A and 1920-A of The Administrative Code of 1929 (71 P.S. §§ 510-5, 510-17 and 510-20), the Department of Environmental Protection (Department), by this notice, informs the public of the availability of the National Pollution Discharge Elimination System (NPDES) PAG-04 General Permit for Discharges from Small Flow Treatment Facilities. The General Permit will become effective at 12 a.m. on Monday, May 12, 2014.

The PAG-04 General Permit is intended to provide NPDES permit coverage to existing and proposed Small Flow Treatment Facilities (SFTF) for discharges from these facilities to waters of the Commonwealth. SFTFs are treatment works designed to adequately treat sewage flows of not greater than 2,000 gallons per day for final disposal using a stream discharge or other methods approved by the Department.

Notice of the availability of a draft PAG-04 General Permit was published at 44 Pa.B. 96 (January 4, 2014). A

30-day comment period was provided as part of the draft permit publication. No public comments were received.

The proposed Notice of Intent (NOI) fee for coverage under this General Permit is \$100 for SFTF that are not Single Residence Sewage Treatment Plants. The Department anticipates that once coverage under the General Permit is authorized, coverage will continue without the need to submit a separate, subsequent NOI for renewal of coverage as long as the PAG-04 General Permit is renewed, unless the Department specifically requires the submission of a separate, subsequent NOI in writing. The permittee shall be responsible for complying with the final renewed, reissued or amended General Permit. If the permittee is unable to comply with the renewed, reissued or amended General Permit, the permittee must submit an application for an individual NPDES permit within 90 days of the final General Permit publication.

One modification was made to the draft permit in response to a comment received from the United States Environmental Protection Agency (EPA). The Department has clarified that where an EPA-approved Total Maximum Daily Load (TMDL) is in effect for a water body, the Department may require an applicant to apply for an individual NPDES permit where the SFTF discharge under the PAG-04 General Permit would not be consistent with the TMDL.

The permit document package can be accessed through the Department's eLibrary web site at www.elibrary.dep.state.pa.us (select "Permit and Authorization Packages," then "Point and Non-Point Source Management," then "National Pollutant Discharge Elimination System—NPDES," then "General Permits" and "PAG-04—General Permit for Discharges from Small Flow Treatment Facilities").

For PAG-04 General Permit NOIs, the Department will publish notice in the *Pennsylvania Bulletin* for approvals of coverage only (see 25 Pa. Code § 92a.84(c)(3) (relating to public notice of general permits)).

Request for Applications for Watershed Protection and Restoration Grants and Surface Mining Conservation and Reclamation Act Grants through the Growing Greener Plus Program

As part of the 2014 Department of Environmental Protection's (Department) Growing Greener Plus Program (Growing Greener), applications are now being accepted for watershed protection and restoration grants. Under 27 Pa.C.S. §§ 6101—6119 (relating to Environmental Stewardship and Watershed Protection Act), the Department is authorized to allocate these grants to a variety of eligible applications including: counties, authorities and other municipalities; county conservation districts; watershed organizations recognized by the Department who promote local watershed conservation efforts, councils of government and other authorized organizations involved in the restoration and protection of the environment in this Commonwealth.

For the upcoming grant round, the Department will invest in projects that will ultimately protect or restore,

or both, the Commonwealth's watersheds from impairment due to nonpoint source pollution. Examples of special priority areas include: projects located in "priority" watersheds that reduce the source of impairment; "priority" type activities that lead to water quality restoration or protection; and projects that support the installation of agricultural Best Management Practices to achieve compliance with existing agricultural water quality requirements.

Examples of eligible projects include those that will reduce nonpoint source pollution in watersheds where streams are impaired, projects that will help reduce Total Maximum Daily Load pollutants and integrating stormwater management into watershed management and water conservation strategies.

Through the same application process, applicants can also apply for funding through the Department's Surface Mining Conservation and Reclamation Act (SMCRA) Grant Programs and the Section 319 Nonpoint Source Grant Program. SMCRA grants are available to various entities including municipalities, municipal authorities and nonprofit organizations for projects meeting SMCRA Set Aside or Bond Forfeiture grant requirements. Section 319 grants focus on funding similar projects to Growing Greener but with special emphasis within targeted watersheds.

The deadline for submitting applications to the Department's Growing Greener Grants Center (Center) is July 11, 2014. Applications must be postmarked no later than July 11, 2014. If hand delivered, the package must be received by the Center by 4 p.m. on July 11, 2014, at the address that follows. Late submissions will not be considered.

To request or download an application or obtain more information concerning the Growing Greener Program, visit the Growing Greener web site at www.dep.state.pa.us (DEP Keyword: Growing Greener). Persons can send e-mails to GrowingGreener@state.pa.us or contact the Center at (717) 705-5400. Written requests should be addressed to the DEP Grants Center, 15th Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8776, Harrisburg, PA 17105-8776.

HOUSING FINANCE AGENCY

Homeowner's Emergency Mortgage Assistance Program; No Longer in a Period of High Unemployment

On April 18, 2014, it was announced by the Department of Labor and Industry (Department) that the Commonwealth's seasonably adjusted unemployment rate for March 2014 was 6%. It was previously announced by the Department that the February 2014 unemployment rate was 6.2% and that the January 2014 rate was 6.4%. Thus the average unemployment rate for the 3-month period of January, February and March 2014 was 6.2%.

Section 405-C(f.1) of the Housing Finance Agency Law (act) (35 P. S. § 1680.405c), provides as follows:

(f.1) The twenty-four (24) month limit on assistance available under this act established in subsection (f) and referenced in sections 401-C(a)(5), 403-C(f) and 404-C(a)(5) and (12) shall increase to thirty-six (36) months if during the month the homeowner submits an application for assistance the average rate of total unemployment in the Commonwealth, as seasonally adjusted, for the period consisting of the most recent three (3) months for which such data for the Commonwealth is published before the close of such month equals or exceeds six and one-half (6.5) percent.

Similarly, section 406-C(2.1) of the act (35 P. S. § 1680.406c) provides as follows:

(2.1) The forty (40) percent ratio established under paragraphs (1) and (2) shall be reduced to thirty-five (35) percent if during the month the homeowner submits an application for assistance the average rate of total unemployment in the Commonwealth, as seasonally adjusted, for the period consisting of the most recent three (3) months for which such data for the Commonwealth is published before the close of such month equals or exceeds six and one-half (6.5) percent.

In furtherance of the statutory provisions, the Housing Finance Agency's (Agency) guidelines for the Homeowner's Emergency Mortgage Assistance Program in 12 Pa. Code Chapter 31 (relating to Housing Finance Agency) provide in 12 Pa. Code § 31.210 (relating to periods of high unemployment):

(a) *Months of assistance available.* The 24 month limit on mortgage assistance available under § 31.203(d), and the 24 month periods referred to in §§ 31.202(d)(1), 31.203(a)(3)(ii), 31.204(c)(2) and 31.206(a) and (d)(2) shall increase to 36 months if during the month the homeowner submits an application for assistance the Agency has determined that a period of high unemployment exists.

(b) *Housing expense formula.* The 40% ratio referred to in §§ 31.204(c) and (e) and 31.205(c)(3) (relating to agency review; and financial hardship due to circumstances beyond the homeowner's control) shall be reduced to 35% if during the month the homeowner submits an application for assistance the Agency has determined that a period of high unemployment exists.

(c) *Definition; declaration.* There shall be a "period of high unemployment" if the average rate of unemployment in this Commonwealth equals or exceeds 6.5%. This determination will be made by the Agency on a monthly basis based upon seasonably adjusted unemployment figures for the most recent 3 months for which the data for this Commonwealth is published. If the Agency determines that a period of high unemployment exists, the Agency will immediately publish a notice to that effect in the *Pennsylvania Bulletin* consistent with this section.

The Agency published a notice at 39 Pa.B. 1372 (March 14, 2009) announcing that a Period of High Unemployment existed and that the 36-month and 35% figures would be applicable to applications received during February 2009. The notice also indicated that the Agency would continue to monitor unemployment figures on a monthly basis and if the 3-month calculation would produce an average result of less than 6.5% the Agency would publish a new notice to inform the public that the Commonwealth is no longer in a Period of High Unemployment and that the 36-month and 35% figures are changed back to 24 months and 40%, respectively.

As indicated previously, the average unemployment rate for the 3-month period of January, February and March 2014 was 6.2%. Consequently, the 24-month and 40% provisions will be applicable to applications received on or after July 1, 2014.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Petition of the City of Titusville for a Declaratory Order that the Provision of Water Service to Isolated Customers in the Townships of Oil Creek and Cherrytree Does Not Constitute Provision of Public Utility Service Under 66 Pa.C.S. § 102

Public Meeting held
April 23, 2014

Commissioners Present: Robert F. Powelson, Chairperson; John F. Coleman, Jr., Vice Chairperson; James H. Cawley; Pamela A. Witmer; Gladys M. Brown

Petition of the City of Titusville for a Declaratory Order that the Provision of Water Service to Isolated Customers in the Townships of Oil Creek and Cherrytree Does Not Constitute Provision of Public Utility Service Under 66 Pa.C.S. § 102; Doc. No. P-2013-2376600

Tentative Order

By the Commission:

On July 29, 2013, the City of Titusville (the City or Titusville), filed the above-captioned petition (Petition) for a declaratory order. In accordance with 52 Pa. Code § 5.42, the City served a copy of its Petition on the Office of Consumer Advocate (OCA), the Office of Trial Staff (OTS),¹ the Office of Small Business Advocate (OSBA) and each of the 101 customers located outside of the City's corporate limits. Titusville also served a copy of the Petition on the Boards of Supervisors of the two townships in which the 101 affected customers reside, namely, Oil Creek and Cherrytree Townships. No answers were filed to Titusville's Petition.

¹ Due to the restructuring at the Commission, OTS is now part of the Commission's Bureau of Investigation and Enforcement (hereinafter "I & E").

Section 331(f) of the Public Utility Code provides that the Commission “may issue a declaratory order to terminate a controversy or remove uncertainty.” 66 Pa.C.S. § 331(f). In its Petition, the City seeks a determination that its provision of water service to the 101 extraterritorial customers does not make the water service subject to the Commission’s jurisdiction. The City asserts that the service it provides to these 101 customers is not service “to or for the public” within the meaning of Section 102 of the Public Utility Code. 66 Pa.C.S. § 102.

In its Petition, the City states that it has a total of 2,454 customers. The City has approximately 5,600 residents concentrated in a 2.6 square mile area, and 2,353 customers within the City.² The City also states that it is primarily residential and is adjoined on the north, east and west sides by the Township of Oil Creek located in Crawford County, and on the south by the Township of Cherrytree located in Venango County.

The City provides water service to nine customers in Cherrytree Township, which is overwhelmingly rural and agricultural, and 92 customers in Oil Creek Township, which is also overwhelmingly rural and agricultural. Of the nine customers in Cherrytree Township, all but one are residential customers and the remaining customer is a park owned by the Commonwealth of Pennsylvania. The customers within Oil Creek Township are primarily residential, but include a small number of businesses, the Township of Oil Creek’s office building, and one church.

According to the City’s Petition, the 101 customers outside of the City’s corporate limits are in close proximity to the City’s boundaries and the City’s water mains. The customers in Cherrytree Township, beginning in the 1940s, were allowed to connect to the City’s water main for, as described by the City, “unknown reasons” other than their location to the City’s water main. Petition at 2. The customers in Oil Creek Township who have connected to the City’s water mains are generally located in the area of Route 8, which traverses the City, North Perry Street and West Spring Street. According to the City, these connections have existed prior to 1970 and it is similarly unknown why the connections were permitted other than location. The City points out that, prior to last year, the City’s water system and assets were owned by the Titusville Municipal Authority (Authority); however, the Authority was dissolved in 2013.³

Finally, the City has stated that the City does not, and never has held itself out as engaged in the business of supplying water to the public. As stated previously, the customers in Cherrytree and Oil Creek Townships were permitted to connect to the City’s mains because the customers were in close proximity to the City’s boundaries and existing City water mains. Moreover, the City avers that it has never built or extended a water line or water main in order to serve or obtain more customers in Cherrytree or Oil Creek Townships.

Titusville has requested by this Petition a declaration that the City is not subject to the Commission’s jurisdiction so that it may save the cost and time burdens of tariff and reporting requirements, while simultaneously ensuring that these nonresident customers continue to

receive water service under terms that are acceptable to the Commission and the customers.⁴

Based upon our consideration of these facts and circumstances, the Commission finds that it is appropriate to issue a Declaratory Order in response to the subject Petition.

Initially, it should be emphasized that the City has passed an ordinance, dated June 18, 2013, that provides that the City will apply the same rules, regulations, and rates to the customers outside as those within City limits.⁵ Additionally, attached to the Petition is an affidavit of the Mayor of Titusville stating that the City will not repeal or modify the aforementioned ordinance without providing advance notice to the Commission. These commitments were made to ensure that the 101 extraterritorial customers will not be subject to potential discrimination without the opportunity for Commission oversight.

In the Commission’s judgment, the circumstances here are similar to those presented to the Commission in the matters of *Lehigh Valley Cooperative Farmers v. City of Allentown*, 54 Pa. P.U.C. 495 (1980); Petition of New Albany Borough, Docket No. P-00991775, 200 Pa. PUC Lexis 34 (2000); Petition of Laceyville Borough, Docket No. P-2008-2064117 (2008) and Petition of Cochranon Borough, Docket No. P-2008-2035741 (2009), wherein the Commission concluded that service to a number of isolated individuals outside of the municipal boundaries under special circumstances did not constitute public utility service subject to the Commission’s jurisdiction.

In *Lehigh Valley*, New Albany Borough, Laceyville Borough and Cochranon Borough, the Commission reiterated that the test to determine whether a party is rendering service to the public is set forth in *Borough of Ambridge v. Pa. Public Service Commission*, 165 A. 47 (Pa. Super. 1933). In *Ambridge*, the Commission noted,

We find the distinction between public and private rendition of such service put definitely on the readiness to serve all members of the public to the extent of capacity: The test is, therefore whether or not such person holds himself out, expressly or impliedly, as engaged in the business of supplying his product or service to the public, as a class, or to any limited portion of it, as contradistinguished from holding himself out as serving or ready to serve only particular individuals. The public or private character of the enterprise does not depend, however, upon the number of persons by whom it is used, but upon whether or not it is open to the use and service of all members of the public who may require it, to the extent of its capacity; and the fact that only a limited number of persons may have occasion to use it does not make it a private undertaking if the public generally has a right to such use.

See also, Petition of Chicora Borough, P-00981355 (May 22, 1998).

More recently, the Commission applied the same rationale in Joint Application of Seven Fields Development Corporation, A-220007 and A-210062F2000 (October 1, 1999). In that case, the Commission granted an application filed by a jurisdictional utility seeking to transfer its assets used in the operation of its water system to the

² Titusville is a third class City under Pennsylvania classifications and is located in the southeast corner of Crawford County, Pennsylvania. The City was founded by Jonathan Titus in 1796 and incorporated as a City in 1866. Under Section 102 of the Public Utility Code, the City is a municipal corporation.

³ The Titusville Municipal Authority was created in 1955 as a financing authority as opposed to a bona fide operating municipal authority, which would be exempt from Commission regulation. However, over the years, the Authority discontinued meeting on a regular basis and in 2013, Titusville City Council voted to disband the Authority.

⁴ Titusville has indicated that the rates, terms and conditions of service for the 101 customers outside of the City are identical to the rates, terms and conditions of service of customers inside of the City. Specifically, by way of an email dated February 19, 2014, the City has indicated that Titusville customers, both inside and outside of the City, pay a base rate of \$5.89, a readiness to serve charge of \$6.00, and a water usage rate of \$1.45 per thousand gallons.

⁵ By email dated February 19, 2014, Titusville confirmed that the ordinance remains in full force and effect.

Borough of Seven Fields. The Commission noted that the borough would be providing water service to three customers that were located outside of the borough's limits. Moreover, the Commission took note of the fact that the borough committed to continue providing water service solely to these three customers at the same terms of service as are or will be offered to customers within the boundaries of the borough. Also, as in the instant case, the Borough of Seven Fields presented an affidavit to the effect that it did not intend to offer service to the general public outside of its boundaries in the future. In the Seven Fields case, the Commission concluded that the limited nature of water service to such a defined group of customers should not realistically be subject to its jurisdiction. (Order at p.4).

In *Pilot Travel Center, LLC v. Pa. Public Utility Commission*, 933 A.2d 123 (Pa. Cmwlth. 2007), appeal denied, 938 A.2d 1054 (Pa. 2007), the Commonwealth Court, in affirming the Commission's view on this issue, concluded:

The test for determining whether utility services are being offered "for the public" is whether or not such person holds himself out, expressly or impliedly, as engaged in the business of supplying his product or service to the public, as a class, or to any limited portion of it, as distinguished from holding himself out as serving or ready to serve particular individuals. The private or public character of a business does not depend upon the number of persons who actually use the service; rather, the proper characterization rests upon whether or not the service is available to all members of the public who may require it.

933 A.2d at 128.

In applying the standards enunciated in *Ambridge, Lehigh Valley*, Seven Fields, Laceyville Borough, Cochranon and *Pilot Travel Center* to the facts of the case sub judice, we find that the limited extraterritorial service provided by the City is not subject to Commission jurisdiction. The extraterritorial service being provided by Titusville is provided to a limited number of customers and is not available to the general public. Moreover, the City clearly states that it will continue to provide service solely to the 101 customers that it is presently serving outside of its boundaries and that it is not soliciting additional customers nor will it provide service to any additional extraterritorial customers in the future. Indeed, Titusville, by way of this Petition, has assured the Commission that it has no intention of ever offering water service to any other customers that are located outside of the City corporate limits.⁶ Moreover, the City is not holding itself out as providing service to the public. See *Bethlehem Steel Corp. v. Pa. Public Utility Commission*, 713 A.2d 1110 (Pa. 1998). Based upon the facts as stated in the City's Petition, the service by Titusville to the 101 customers in Oil Creek and Cherrytree Townships who are located in close proximity to the City's water mains does not constitute the provision of water service to or for the public.

Finally, we note that an express condition of this exemption is that the City apply the same rates outside as well as within the City's corporate limits and that the City does not add any additional customers outside of

⁶ At various points around the City's boundaries, there are tracts of vacant land that could be developed for housing or commercial use. If that occurs, the City has indicated that it will not allow any connections to its mains. Similarly, there are occupied structures situated close to, but beyond, the City's boundaries that are not, but could be connected. They are served by their own wells. Again, the City has indicated that they will not allow these individuals to connect to the City's mains. Petition at 2 and 3.

Titusville's corporate limits. Absent any contrary responses from concerned parties, the Commission herein concludes that the extraterritorial service provided by Titusville is not subject to the jurisdiction of this Commission; *Therefore*,

It Is Ordered That:

1. The Petition for Declaratory Order filed by the City of Titusville on July 29, 2013, at Docket No. P-2013-2376600 is hereby granted.

2. The provision of water service by the City of Titusville to the 101 customers located outside of the City's boundaries is deemed to be non-jurisdictional because it is not service "to or for the public" within the intent of Section 102 of the Public Utility Code, 66 Pa.C.S. § 102.

3. A copy of this Tentative Order shall be served upon the City of Titusville and each of the individuals and offices listed in Titusville's certificate of service.

4. The Secretary shall certify this Tentative Order and deposit it with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.

5. The City of Titusville is directed to cause to be published in a newspaper of general circulation in the Titusville area notice of this Tentative Order.

6. If no objection to this Tentative Order is filed with the Commission within 20 days of the publication date in the *Pennsylvania Bulletin*, this Tentative Order shall become final.
