DEPARTMENT OF AGING DEPARTMENT OF PUBLIC WELFARE

Pennsylvania Long-Term Care Commission; Notice of Public Input Meeting

On January 31, 2014, Governor Tom Corbett issued an Executive Order creating the Pennsylvania Long-Term Care Commission (Commission). Part of the Governor's Healthy Pennsylvania plan is to ensure access to quality, affordable health care in this Commonwealth. The Commission consists of 25 members, including consumers and their families and representatives from Area Agencies on Aging, the physical disabilities community, medical community, providers of long-term care, managed care organizations and members of the General Assembly. Secretary of Public Welfare Beverly Mackereth and Secretary of Aging Brian Duke serve as the Commission's cochairs.

Governor Corbett has charged the Commission with evaluating and developing recommendations to improve this Commonwealth's long-term care system, including identifying effective ways to provide a better coordinated approach to delivering services and support and ensuring quality health care for older residents of this Commonwealth and individuals with physical disabilities. The Commission must report its findings and recommendations to the Governor by December 31, 2014.

The Commission believes that public input is critical to fulfilling its mission. Over the past several months, the

Commission held a series of public input meetings throughout this Commonwealth. Meetings were held on April 11, 2014, in Harrisburg, May 8, 2014, in Mercer, May 9, 2014, in Allison Park, May 30, 2014, in Williamsport, June 6, 2014, in Blue Bell and June 20, 2014, in Lords Valley. An additional meeting will be held at the time and location noted as follows. The Commission invites interested persons to attend the meeting and offer their input to assist the Commission in understanding the current long-term care system and recommending ways in which it can be improved.

While the Commission will accept all comments, the Commission is particularly interested in receiving feedback on the following topics:

- *Prevention and caregiver support:* What services, supports and other activities are currently available or should be provided to consumers and their caregivers to improve health and well-being, prevent or delay nursing facility admissions and enable consumers to remain in their own homes as long as possible?

- *Accessibility:* How do consumers currently obtain privately and publically funded long-term services and supports and how could the process, including intake and assessment, be improved to provide better access to individuals and families who need those services and supports? What is the capacity of the health care system to meet the growing number and needs within long-term care?

- *Provision of service:* What should be done to improve coordination of social, medical and long-term care services within the long-term care continuum? What are best practices in care coordination? What changes should be made to promote a person-centered system for the delivery of long-term care services?

- *Quality outcomes and measurement:* What measures are currently being taken or should be adopted, to monitor the quality and cost-effectiveness of long-term care services and supports? What information and data is, or should be, collected and used to measure quality of care and to promote and improve health outcomes for consumers?

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION**UNDER ACT 2, 1995
PREAMBLE 1****Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable

requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

- (iii) 1.3 tons/year and 0.0019 lb/MMBtu of particulate matter (filterable only);
- (iv) 4.6 tons/year and 0.0066 lb/MMBtu of PM₁₀ and PM_{2.5} (filterable and condensable);
- (v) 2.7 tons/year and 3 ppmdv 15% O₂ of volatile organic compounds (VOCs);

(vi) 0.3 ton/year and 0.000288 lb/MMBtu of formaldehyde;

(vii) 0.8 ton/year of sulfur oxides (SO_x), expressed as SO₂; and

(viii) Greenhouse gases (GHGs) at a rate of 0.87 lb CO₂e/bhp-hr (12-month rolling average).

2. Pursuant to the Best Available Control Technology requirements of 40 CFR § 52.21, the Titan 130S combustion turbine shall not combust natural gas in excess of 1,373.71 MMscf/year.

(a) The permittee shall only fire pipeline-quality natural gas as fuel to operate the combustion turbines.

(b) The total sulfur content of the natural gas shall be equal to or less than 0.6 grains per 100 scf.

4. (a) Within 180 days of initial start-up of the natural gas-fired combustion turbine, the permittee shall conduct EPA reference method testing programs to determine the emission rates of NO_x, CO, VOCs, formaldehyde, particulate matter, total PM₁₀ and total PM_{2.5} while the turbine is operating at plus or minus 10 percent of peak process load.

(b) The operating parameters associated with the turbine and oxidation catalyst being monitored shall also be monitored during the initial and subsequent EPA reference method testing programs.

5. The permittee shall determine the sulfur content of the natural gas transported throughout their transmission pipeline system and combusted in the facility's turbines by complying with the terms and conditions of an EPA-approved sulfur monitoring program that has been specifically designed for the permittee's pipeline network.

6. In addition to the required source testing, every 2,500 hours of operation and no sooner than forty-five (45) days from the previous test, the permittee shall perform periodic monitoring for NO_x and CO emissions.

7. The permittee shall follow the manufacturers' recommended procedures during periods of startup and shutdown. The number and duration of startup and shutdown events shall be minimized to the extent feasible in accordance with good operating practices.

8. The centrifugal compressor associated with the combustion turbine shall incorporate dry seals to control fugitive leaks from the source.

9. 41-00084B: Panda Patriot, LLC (4100 Spring Valley Road, Suite 1001, Dallas, TX 75244) to incorporate 242 tons per year of nitrogen oxide (NO_x) emission reduction credits (ERCs) and 6.82 tons per year of volatile organic compounds (VOC) ERCs prior to the commencement of operation of Source IDs P103 and P104 in **Clinton County**. The proposed facility's Plan Approval 41-00084A was issued on January 31, 2013, to Moxie Energy LLC for construction of a natural-gas-fired combined-cycle power plant to produce approximately 900 MW at the Moxie Patriot Generation Plant in Clinton Township, Lycoming County. On January 30, 2014, the Department received notice from Panda Patriot, LLC, informing the Department that Moxie Patriot, LLC had been purchased by Panda Patriot, LLC with no change in the federal Tax ID number and the facility should be identified as the Panda Patriot Generation Plant. The Department issued a revision of Plan Approval 41-00084A on March 25, 2014, to incorporate the name change for the facility.

Panda Patriot has purchased 242 tons of NO_x ERCs and only 6.82 tons of the required 69.2 tons of VOC ERCs. The balance of the VOC ERCs (62.4 tons) will be purchased prior to the operation of the facility. The proposed NO_x ERCs were purchased from Techneglas, Inc. located in Luzerne County, Pennsylvania. The proposed VOC ERCs were purchased from Bennington Paperboard Co. located in Rensselaer County, New York. The Department intends to issue Plan Approval 41-00084B for the Panda Patriot Generation Plant located in Clinton Township, Lycoming County, to incorporate 242 tons of NO_x ERCs and 6.82 tons of VOC ERCs. The plan approval will offset the total net increase in potential to

emit (PTE) for NO_x and a portion of the net increase in PTE for VOC and make the ERCs federally enforceable prior to the ERCs expiring.

The Department's review of the information submitted by Panda Patriot, LLC indicates that the proposed ERCs will comply with the requirements of 25 Pa. Code § 127.208, relating to ERC use and transfer requirements. Based on these findings, the Department intends to approve the application and issue a plan approval for the transfer and use of the ERCs. The Department has included the following conditions in the proposed plan approval.

1. This plan approval is granted solely for the transfer and use of ERCs according to 25 Pa. Code § 127.208(2), and does not authorize a person to construct, modify, or reactivate an air contaminant source or allow for the installation of an air cleaning device on an air contaminant source.

2. This plan approval authorizes the transfer and use of 242 tpy of NO_x ERCs from Techneglas Inc. to Panda Patriot, LLC to meet the offset emissions requirements of 25 Pa. Code Chapter 127.

3. This plan approval authorizes the transfer and use of 6.82 tpy of VOC ERCs from Bennington Paperboard Co. to Panda Patriot, LLC to meet the offset emissions requirements of 25 Pa. Code Chapter 127.

4. Techneglas Inc. created NO_x ERCs from shutdown of sources at their plant in Luzerne County. The 242 tpy of NO_x ERCs were generated from shutdown of sources per the following schedule: 141.52 tpy on August 11, 2004 and 100.48 tpy on August 15, 2004.

5. Bennington Paperboard Co. created VOC ERCs from shutdown of sources at their plant in Rensselaer County, New York. The 6.82 tpy of VOC ERCs were generated from shutdown of sources on August 20, 2008.

6. These ERCs are to be used to satisfy offset emissions requirements of Plan Approval 41-00084A in accordance with 25 Pa. Code §§ 127.206—127.210, for the NO_x and VOC emissions increases from the proposed facility.

7. Upon the issuance of this plan approval, the ERCs are no longer subject to expiration under 25 Pa. Code § 127.206(f), except as specified in 25 Pa. Code § 127.206(g). If the NO_x and VOC ERCs identified in this plan approval are not used and subsequently re-entered into the ERC registry, the applicable 10-year expiration date may not be extended.

8. This approval satisfies the requirements of 25 Pa. Code Chapter 127, Subpart E (relating to new source review) including 25 Pa. Code §§ 127.205(4), 127.208(2), 127.209(c) and 127.210.

Any person(s) wishing to protest issuance of the plan approval that they believe should be considered in the Department's review of the respective plan approval application may do so by submitting the protest or comments in writing to the Department at the address listed below. Protests or comments must be received by the Department within 30 days from the last date of this publication in order to be considered. Each written protest or comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed plan approval (specify Plan Approval 41-00084B) and a concise statement explaining the relevancy of the protest or comments to issuance of the plan approval.

A public hearing may be held, if the Department in its discretion, decides that such a hearing is warranted

based on the information received. All persons protesting the issuance of the plan approval, submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in a newspaper of general circulation in the area, or by letter or telephone, if the Department determines such notification is sufficient.

A copy of the plan approval application and all pertinent document used in the evaluation of the application are available for public review between 8 a.m. and 4 p.m. at the Department's North Central Regional Office. Appointments for scheduling a review may be made by calling the Department at 570.327.0550. Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Environmental Program Manager, Department of Environmental Protection, Air Quality Program, North Central Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, 570.327.3648.

Proposed Revision to the State Implementation Plan to Meet the Requirements of Reasonably Available Control Technology set forth by the Clean Air Act Under the 8-Hour Ozone NAAQS; Public Hearing

The Clean Air Act Amendments of 1990 (CAA) requires Philadelphia County (Philadelphia) to submit to the U.S. Environmental Protection Agency (EPA) a State Implementation Plan (SIP) revision demonstrating that Philadelphia has implemented all necessary Reasonably Available Control Technology (RACT) controls on all major stationary sources of volatile organic compounds (VOC) and oxides of nitrogen (NO_x).

The Philadelphia Department of Public Health, Air Management Services (AMS) is now seeking public comment on a proposed SIP revision that updates Philadel-

phia's RACT demonstration for the 1997 8-hour ozone National Ambient Air Quality Standards (NAAQS).

On December 13, 2013 (78 FR 75902), EPA conditionally approved Philadelphia's 1997 8-hour ozone RACT demonstration provided in the 2006 and 2010 SIP revisions, based upon a commitment from AMS to submit additional SIP revisions to provide source-specific RACT determinations for certain major sources of VOC and NO_x in Philadelphia and a certification that previously adopted source-specific RACT controls approved by EPA in the Pennsylvania's SIP under the 1-hour ozone NAAQS for the remaining sources in Philadelphia County (as listed in 40 CFR 52.2020(d)(1)) continue to adequately represent RACT for the 1997 8-hour ozone NAAQS.

This SIP revision is intended to partially satisfy AMS' commitment by addressing source-specific RACT determinations for the following major sources of NO_x:

- **Exelon—Delaware Station** (1325 N. Beach Street, Philadelphia, PA 19125), with three 15.5 MW combustion turbines and one 17.5 MW combustion turbine

- **Exelon Generating Company—Richmond Station** (3901 N. Delaware Avenue, Philadelphia, PA 19137), with two 66 MW combustion turbines

- **Exelon Generating Company—Schuylkill Station** (2800 Christian Street, Philadelphia, PA 19146), with one 233 MMBTU/hr combustion turbine, one 284 MMBTU/hr combustion turbine, and one 2.75 MW emergency generator

- **Veolia Energy Philadelphia—Edison Station** (908 Sansom Street, Philadelphia, PA 19107), with two 283 MMBTU/hr boilers and two 335 MMBTU/hr boilers

- **Veolia Energy—Schuylkill Station** (2600 Christian Street, Philadelphia, PA 19146), with two 795 MMBTU/hr boilers, one 761 MMBTU/hr boiler, one 1119 MMBTU/hr boiler, and one 1515 MMBTU/hr combustion turbine.

In addition, AMS is revising the RACT plan approvals for the following facilities:

- **Veolia Energy Philadelphia—Edison Station** (908 Sansom Street, Philadelphia, PA 19107): AMS is adding emission limits of 185.93 tons of NO_x per rolling 12 month period for the Boilers #1 and #2 and 220.1 tons of NO_x per rolling 12 month period for Boilers #3 and #4.

- **Veolia Energy—Schuylkill Station** (2600 Christian Street, Philadelphia, PA 19146): AMS is adding an emission limit of 365.6 tons of NO_x per rolling 12 month period for Boiler #23.

Anyone affected by the proposed updates to the SIP revision may submit written comments or a request for a public hearing by mail to Air Management Services, 321 University Avenue, 2nd Floor, Philadelphia, PA 19104, Attn: Karen Smith within thirty (30) days from today. If requested, AMS will hold a public hearing to discuss these issues on July 31, 2014, at 6 PM at the Spellman Building, 321 University Avenue, 1st Floor Conference Room, Philadelphia, PA 19104. Persons with a disability who desire to attend the meeting and require an auxiliary aid, service, or other accommodation to participate in the proceedings should contact Alison Riley at (215) 685-9422 to discuss how AMS may accommodate their needs.

If no request for public hearing is received by 4 PM on July 28, 2014, the hearing will be cancelled and notice of the cancellation will be published on Wednesday, July 30, 2014, on AMS' web site <http://www.phila.gov/health/>

[AirManagement/PublicMeetings.html](http://www.phila.gov/health/AirManagement/PublicMeetings.html). Interested parties may also call (215) 685-7572 to find out if the hearing has been cancelled.

The update and other supporting information are available for inspection at the offices of AMS during normal business hours or on AMS' website at <http://www.phila.gov/health/AirManagement/PublicMeetings.html>. For further information, please call Karen Smith at (215) 685-7572.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*		greater than 6.0; less than 9.0	
pH*			

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Waterways and Wetlands Program Manager, 2 East Main Street, Norristown, PA 19401, Telephone 484-250-5900

E46-1107. Pennsylvania Department of Transport, District 6; 7000 Geerdes Blvd, King of Prussia, PA 19406, Warrington Township in Bucks County and Horsham and Montgomery Townships, **Montgomery County;** ACOE Philadelphia District.

To perform the below listed water obstruction and encroachment activities across three perennial tributaries to Little Neshaminy Creek (WWF-MF, Watercourses 5, 6, & 7) and one perennial tributary to Mill Creek (TSF/MF, Watercourse 2) to facilitate the proposed S.R. 2038 Section WD2/County Line Road widening Project to five lanes commencing from east of Stump Road and ending to just east of Lower State Road:

1. To replace the existing 27" x 42" diameter elliptical corrugated metal pipe, 43 feet long, which carries a UNT to Little Neshaminy Creek under SR 2038/County Line Road, with a proposed construction and maintenance of a 27" by 42" diameter reinforced concrete elliptical pipe, 46 feet long, and depressed 6 inches.
2. To construct and maintain an outfall structure at the discharge point of the proposed 27" by 42" diameter elliptical pipe and the placement of approximately 17.74 linear feet of riprap along the pipe and at the discharge outfall covering approximately 0.005-acre.
3. To replace and relocate the alignment an existing 24" diameter concrete pipe, 36 feet long, which is perpendicular to the roadway and carries stormwater discharge to a UNT of Little Neshaminy Creek, with a proposed construction and maintenance of 30" diameter reinforced

concrete pipe, 84 feet long. The proposed pipe configuration will be depressed 6 inches, remedy the scour hole associated with the existing pipe, and align the crossing with the downstream section of the stream. This new pipe configuration will also place approximately 14 linear feet of riprap protection at the outfall of the new pipe, impact approximately 102.88 linear feet of stream, and eliminate approximately 35 linear feet of open channel that currently leads to the existing pipe.

4. To accommodate the road widening goal of the project, a UNT to Little Neshaminy Creek which runs on the north side of Limekiln Pike and also flows on the east side of SR 2038/County Line Road and passes under SR 2038 at one point via two 40" by 30" diameter corrugated elliptical metal pipes with lengths of 250 feet and 242 feet respectively is proposed to be filled, realigned and rechanneled. Approximately 150 linear feet of the existing channel will form a new channel 35 feet north of its present location. Approximately 306 linear feet of new open channel will be created, amounting to approximately 0.068 acre of stream impacts and 604.65 linear feet of permanent impacts of which approximately 315 linear feet of open channel will be lost. Approximately 145 feet long 38" by 60" reinforced concrete elliptical pipe, depressed 6", is proposed for the realignment to be carried under County Line Road.

5. To fill and maintain approximately 1362.79 linear feet of swale (0.031 acre) that runs parallel to County Line Road.

6. To fill approximately 0.020 acre of wetland (Wetland 1) and fill approximately 11 linear feet the existing stream that abuts the wetland. At the point where this stream discharges through a 24 inch diameter concrete pipe, a proposed 25 feet long, 36" reinforced concrete pipe, depressed 6 inches, will be connected to the existing 24" pipe. A proposed 20 linear feet (0.008 acre) placement of riprap protection at the outfall of the new pipe brings the total permanent impact of 29.47 linear feet to the stream.

Section WD2 of the project runs along County Line Road commencing approximately 1,400 feet east of Stump Road and extends in an easterly direction ending near the intersection Kulp and County Line Roads. The part of the project that runs in the north-south direction intersects County Line Road approximately at Road Station 330+60, commences approximately 200 south of the intersection of Guinness Lane and Limekiln Pike and runs north crossing County Line Road ending approximately 1,100 feet from the intersection of County Line Road and Limekiln Pike. SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted Under the Pennsylvania Sewage Facilities Act (35 P. S. § 750.5)

Southeast Region: Clean Water Program Manager, 2 East Main Street, Norristown, PA 19401. Telephone 484.250.5970

Plan Location:

Township	Township Address	County
Worcester	1721 Valley Forge Road P. O. Box 767 Worcester, PA 19490	Montgomery

On June 12, 2014, the Southeast Regional office approved the Act 537 sewage facilities plan update for Worcester Township, Montgomery County (APS ID 835419 AUTH ID 1013914). This approval provides for the following:

1. The extension of public sewerage facilities to the Hickory Hill service area. This area is shown in Exhibit 6, titled Hickory Hill Planning Area, on Page 110 of the Plan. The Hickory Hill service area will be served by a low pressure sewer system. The sanitary sewer layout is depicted in Exhibit 9, titled Proposed Low Pressure Sanitary Sewer Schematic, on Page 126 of the Plan.

a. The low pressure sewer system that will serve the properties that abut Hickory Hill Drive (south of Landis Road), Crest Terrace and Green Briar Drive will connect to the existing gravity sewer line in Conestoga Lane.

b. The low pressure sewer system that will serve the properties along Landis Road, Hickory Hill Drive (between Landis Road and Valley Forge Road) and Valley Forge Road will connect directly to the Valley Green Wastewater Treatment Plant.

2. Sewage flows from the Hickory Hill service area will be conveyed to the Valley Green Wastewater Treatment Plant. A total of 74 properties are within the service area and the total sewage flow is projected to be 26,100 gallons per day. Connections to the Valley Green Wastewater Treatment Plant should be coordinated with the expansion of the facility.

3. Worcester Township will own and operate the shared force mains proposed as part of the project. Construction of the proposed low pressure sanitary sewer system will commence within 3 months after DEP's issuance of a Part 2 permit for the project. Construction will be completed within 6 months after the start of construction, as stated in the Plan's implementation schedule.

4. Worcester Township will adopt a connection ordinance within 3 months from the date of this approval letter. A copy of the adopted ordinance should be sent to the Department within 30 days of adoption.

This approval is specifically made contingent upon Worcester Township acquiring all necessary property rights by easement or otherwise, providing for the satisfactory construction, operation, maintenance, and replacement of all sewerage structures associated with this project in, along, or across private property, with full rights of ingress, egress and regress. Please contact DEP in the event that the proposed sanitary sewer line routing is altered in any way. Additional sewage facilities planning may be required.

The Township has indicated that up to 87 EDUs may be conveyed through the proposed low-pressure sanitary sewer system, largely as a result of potential subdivisions or increased sewage flows from commercial properties. Please assure that Application Mailers for Sewage Facilities Planning Modules are submitted to DEP prior to any new subdivisions or changes in use at existing properties. Sewage facilities planning modules may be required.

The Department recommends that Worcester Township adopt a grinder pump ordinance to ensure the proper operation and maintenance of the privately owned grinder pumps.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final

report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Pennsylvania State Clean Diesel Grant Program; Extension of the Grant Application Acceptance Period

The Department of Environmental Protection (Department) is extending the grant application acceptance period for the Fiscal Year 2013 Pennsylvania State Clean Diesel Grant Program (Program). Applicants have the opportunity to apply for \$202,037.22 that has been made available under the Federal Diesel Emission Reduction Act by the United States Environmental Protection Agency (EPA). This funding is available through the Program for eligible diesel emission reduction projects that will improve air quality and protect public health and the environment in this Commonwealth by reducing emissions from diesel-powered vehicles and engines.

The Department is seeking applications for projects that will replace, repower or retrofit fleet diesel-powered highway and nonroad vehicles. Funding is available for public and private entities which operate diesel-powered fleets throughout this Commonwealth. These entities may include school districts, municipal authorities, political subdivisions, other State agencies, nonprofit entities, cor-

porations, limited liability companies or partnerships incorporated or registered in this Commonwealth. Projects must use technologies certified or verified by the EPA or the California Air Resources Board to lower diesel emissions. The technology may be a single technology or a combination of available technologies. The majority of the fleet's annual operation time must occur within this Commonwealth.

The Department will not reimburse grant recipients for project costs incurred prior to the grant performance period set forth in the applicable grant agreement.

The grant application package including guidance, instructions and application forms is available by contacting Samantha Harmon, Department of Environmental Protection, Bureau of Air Quality, 12th Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-9702. The application package is also available electronically on the Department's web site at www.dep.state.pa.us (DEP Keyword "Clean Diesel").

The Department began accepting applications on April 26, 2014. See 44 Pa.B. 2586 (April 26, 2014). The Department is extending the grant application acceptance deadline to July 11, 2014. Applications must be post-marked on or before July 11, 2014. Faxes and electronic submissions will not be accepted.

Amendments to The Clinical Laboratory Act

Governor Corbett signed the act of December 18, 2013 (P. L. 1232, No. 122) (Act 122) into law, resulting in significant changes to The Clinical Laboratory Act (act) (35 P. S. §§ 2151—2165) regarding licensure requirements, specimen collection, acceptance and handling services, and new sanctioning authority for the Department of Health (Department).

Under Act 122, a clinical laboratory will require licensure (a permit) from the Department if the clinical laboratory operates within this Commonwealth or performs testing on any specimen accepted or collected within this Commonwealth. These requirements apply regardless of the location of the clinical laboratory. In addition, Act 122 also prohibits specific activities that might be used to induce a health care provider or health care practitioner to refer specimens to a particular clinical laboratory. Finally, the Department is now authorized to impose civil fines of up to \$500 per day on any person or clinical laboratory that violates the act or the Department's regulations. The fining authority is in addition to any other penalty that may be currently imposed by the Department.

Additional information regarding Act 122 can be found on the Bureau of Laboratories' web site at www.health.state.pa.us/labs under the "Clinical Lab Licensure" section. Questions and requests for additional information may be sent to Mary McCormick, Director, Division of Laboratory Improvement, Bureau of Laboratories, 110 Pickering Way, Exton, PA 19341-1310, mamccormic@pa.gov. Applications for clinical laboratory licensure may be downloaded from the Bureau's web site or applicants may contact Mary McCormick for application materials.

Availability of Grant Funds through the State Lead Program

The Department of Health's (Department) State Lead Program (Program) is accepting applications for small grants from public post-secondary schools and 2- and 4-year public and private colleges and universities to support community-based initiatives that educate communities at-risk for lead poisoning to make them more lead safe and to provide information on other potential environmental hazards around the home.

Lead paint and the dust that results from the breakdown of the paint can lead to serious health issues, including loss of IQ, attention deficit disorder, attention deficit hyperactivity disorder, coma and even death.

Homes built before 1978 are more likely to have lead paint in them and according to the 2010 Census, this Commonwealth ranks fourth in the Nation in the number of homes built before 1978. While there has been a reduction in the number of elevated blood lead levels in children 7 years of age and under in this Commonwealth, 1,817 cases were confirmed in 2012.

Grantees awarded funds through the Program must use the funds for activities and materials to improve knowledge across this Commonwealth regarding lead poisoning and remediation of lead hazards. Grantees may also use funds to provide training on other environmental home hazards in addition to lead hazards. Funded services may include, but are not limited to:

- 1) Providing training or education for vulnerable populations to raise awareness of lead poisoning and lead hazards around the home.
- 2) Strengthening infrastructure by educating and working with landlords or contractors, or both, to increase capacity to prevent illnesses and injuries associated with the home environment.
- 3) Developing and educating community based groups or coalitions to focus on lead poisoning and other environmental health hazards and how to reduce their risk.
- 4) Developing and implementing a lead teaching module for students in applicable majors within the post-secondary setting.
- 5) Developing partnerships with community based groups (day care centers, parent teacher organizations) to provide information and education to parents and caregivers on the dangers of lead poisoning, proper remediation and other environmental issues present in homes.
- 6) Developing a program for teachers and education professionals to receive continuing education credits.

Applications will be rated upon the creativity and efficacy with which the proposed services will meet the previously listed goals. Successful applicants will be awarded small grants up to \$9,000 in State Fiscal Year July 1, 2014, through June 30, 2015, and up to \$3,000 for the period of July 1, 2015, through September 30, 2015, for a total up to \$12,000.

Purpose: The Program will provide small grants to successful applicants in an effort to decrease the incidence of preventable child illness due to the presence of lead and health hazards in housing. Applicants are encouraged to identify and provide services to populations that are most at-risk for lead poisoning or other environmentally related illness or injury. Partnerships with organizations that are working toward similar goals are strongly encouraged to support building community infrastructure to address lead poisoning, lead hazards and other environmental home hazards.

The primary focus on this initiative is on lead poisoning, prevention and remediation; however, grantees may also include supplementary activities addressing other environmental hazards around the home such as radon and mold. Applicants are encouraged to assess their communities and draw upon existing resources and services in reaching high-risk populations and reducing health disparities.

Funds: Funding for this project is contingent upon Department approval. Project funds must be used to educate community and at-risk groups on the dangers of lead poisoning and prevention methods to eliminate lead and other environmental home hazards.

Requirements: Eligible applicants include public and private institutions of higher learning located in this Commonwealth. Eligible applicant must have a Federal Tax ID number. Institutions with multiple ID numbers may submit more than one application, however only one application per institution will be awarded under this initiative. Individuals may not apply. Each grantee will attend an educational presentation from the Department within 6 months of the grant award. This presentation will provide information on lead and environmental home health hazards and will be made at the grantee's campus or business location.

To conduct business with this Commonwealth, grantees are required to have an SAP vendor identification number. Applicants who do not have an SAP vendor identification number may apply for one by contacting Central Vendor Management Unit at (877) 435-7363 or locally at (717) 346-2676 or <http://www.vendorregistration.state.pa.us> (click on "Non-Procurement Vendor Site" then "Non-Procurement Registration Form").

Application Deadline: It is anticipated that 15 awards up to \$12,000 in total each as previously outlined will be made under this grant opportunity. To apply for funding, a complete application must be received in the Bureau of Family Health (Bureau) by Friday, July 11, 2014. Applications may be mailed to the address set forth as follows. Applications may not be faxed or e-mailed. Late applications will not be accepted regardless of the reason.

Application Process: Complete the 2014-2015 Application and the Proposed Budget. An authorized official of the organization must sign and date the application. Submit an original and three complete copies of the application (including the narrative, budget, budget narrative and any supporting attachments). Applicants can apply for one or both funding time periods mentioned previously. Applications must be page-numbered and unbound. Incomplete applications will not be reviewed.

Award Determination: Funding decisions are contingent upon the availability of allocated Program funds and Department approval. Applications are scored by a three-member review panel using a rating scale with the following preestablished criteria:

1. The degree of need for the proposed activity, as justified by the applicant.
2. The extent to which the activity can demonstrate a change in awareness and actions.
3. The reasonableness of the proposed expenditures/purchases.
4. The likelihood that the proposed activity will be of on-going, systemic benefit to the target population.
5. The development of partnerships.

Notification of Award: Applicants shall be notified of their award status within 4 weeks of the submission due date. This is a reimbursement only program and no funds are provided at the start of the project. This Program reimburses applicants for actual and approved costs incurred by the successful applicant and shall not exceed the approved amount.

Eligible Costs: Applicants may apply for funding reimbursement of multiple purchases or activities under the grant. However, the maximum cumulative award to any one applicant, as identified by Federal ID number, is \$9,000 per State fiscal year and the terms describe previously and funds may not supplant existing funds. The grantee is the sole owner of any items purchased

with grant funds. The budget section of the application must include a budget narrative detailing by line item how project funds will be used. Price quotes, estimates, catalog samples or any other proof of cost must be submitted for every purchase proposed.

Expenses eligible for reimbursement under this project include, but are not limited to:

1. Education, which includes, but is not limited to, the following: training materials, books, workbooks, brochures, posters, and translation of educational materials into different languages and for different populations.

2. Technology, which includes, but is not limited to videos, CDs and DVDs.

3. Coalition development (for example, meeting expenses (but see Ineligible Costs)).

Ineligible Costs: The following costs are not eligible for reimbursement under this Program:

1. Administrative/indirect costs (that is, costs not uniquely attributable in full to the programmatic activity).

2. New building construction or structural renovation of an existing space.

3. Capital expenses or equipment.

4. Staffing/personnel.

5. One-time consumables (that is, event tickets, food/refreshments or child care).

By applying for small grant funding, applicants acknowledge and affirm that they will abide by the previously listed spending limitations.

Summary Report and Invoice Procedures: Approved applicants shall be reimbursed with one check for all approved expenses. To receive reimbursement of approved expenses, awardees must submit an invoice and receipts to the Bureau within 30 calendar days following completion of funded activity and no later than June 1, 2015, for the first funded time period and no later than October 15, 2015, for the second funded time period.

Questions should be directed to Scott Steffen, EPA State Lead Program, Division of Community Systems Development and Outreach, (717) 772-2763, rsteffen@pa.gov.

Applications should be submitted to the Department of Health, Bureau of Family Health, Division of Community Systems Development and Outreach, State Lead Program, Health and Welfare Building, 7th Floor East Wing, 625 Forster Street, Harrisburg, PA 17120.

Only printed applications received by July 11, 2014, will be accepted. No e-mail or faxed bids will be accepted. Go to www.health.state.pa.us/lead to download the full application, attachments and forms.

Persons with a disability who require an alternative format of this document (for example, large print, audiotape, Braille) should contact Scott Steffen, Division of Community Systems Development and Outreach, 7th Floor East, Health and Welfare Building, 625 Forster Street, Harrisburg, PA 17112, (717) 772-2763, or for speech and/or hearing impaired persons V/TT (717) 783-6514, or the Pennsylvania AT&T Relay Service (800) 654-5984.

Availability of Traumatic Brain Injury (TBI) Grant Funds to Support TBI Education and Public Awareness of the Causes and Consequences of TBI

The Bureau of Family Health's (Bureau) Division of Child and Adult Health Services is accepting applications for funding for schools, community sports programs and providers of recreational opportunities for youth, to support education and awareness of the causes and consequences of concussion and mild to severe traumatic brain injury (TBI) in youth. Funding for up to \$5,000 is available to develop trainings and materials to reach the identified population. Funded activities will expand or develop programs, or both, for the targeted audience about the risks and consequences of TBI. This training and education improves knowledge and awareness of TBI and increases state and local capacity for treatment and intervention.

Funding will be used to develop trainings, materials, and education and awareness activities that target professionals (for example, practitioners, teachers, athletic trainers, coaches and school nurses), community sports programs, community members and/or providers of recreational opportunities which could result in physical injury and should teach appropriate intervention strategies in the event an individual sustains an injury which could result in TBI in the identified population of school aged youth.

For the purpose of this funding opportunity, a TBI is defined as an insult to the brain, not of a degenerative or congenital nature, caused by an external physical force that may produce a diminished or altered state of consciousness, which results in impairment of cognitive abilities or physical functioning or in the disturbance of behavioral or emotional functioning. These impairments may be either temporary or permanent and cause partial or total functional disability or psychosocial maladjustment.

Youth with concussions/mild head injury often do not receive intervention because the extent of the injury is not recognized. Currently, approximately 200 high schools and colleges in this Commonwealth are utilizing preplay neuropsychological testing to develop a "baseline" or "benchmark" of an athlete's level of cognitive functioning in the event that the youth has a concussion while participating in sports. Additional screening tools are also available that can be utilized after a youth sustains a concussion/head injury to determine if further evaluation or action is needed. While attention to the causes and consequences of concussion and TBI in youth has grown dramatically over the past 5 years, the majority of State high schools are not using any kind of concussion management program and junior high/middle schools and recreational programs have been particularly underserved.

The learning objectives of the proposed education and awareness activities must incorporate education on TBI, not just concussion, and should include the following:

1. How to recognize the warning signs that indicate a concussion/mild head injury has occurred.
2. How to manage concussions/mild head injuries.
3. How to intervene in the event that a concussion/mild head injury is suspected.

Project funds must be used to reimburse purchases and activities occurring prior to January 17, 2015.

Eligible applicants are public and private organizations, community-based programs and agencies in this Commonwealth. Entities must have a Federal Tax ID number. Individuals may not apply. Informal groups without Federal Tax ID numbers are encouraged to partner with a sponsor organization who may apply on behalf of the group. For-profit organizations may apply. However, no applicant may take a profit from these funds.

Eligible applicants may include but are not limited to: sports organizations (such as football, baseball, cheerleading, hockey and soccer); schools; recreation providers; community organizations; park and recreation centers; camps; and parent groups and organizations. Individual athletic directors, coaches, trainers or school nurses interested in these grants are encouraged to partner with an eligible sponsor organization.

To apply for funding, a complete application must be postmarked and mailed to the Department no later than September 15, 2014. Applications may be mailed or hand-delivered. Applications may not be faxed. Late applications will not be accepted regardless of the reason. The Department expects to notify all applicants of award status by October 1, 2014. It is anticipated that nine awards of up to \$5,000 or less will be made. This is a reimbursement program. Grantees must spend their own funds first and then be reimbursed by the Department.

Application Process: Complete Attachment A "FY 2014-2015 APPLICATION" and attach a clear and concise narrative of no more than five typewritten pages single spaced that includes the following information, labeled by section:

1. The organization's justified need for the awareness and educational activity in their particular program or community.
2. The identified target audience for the training.
3. A description of the awareness and education activities that address the learning objectives under the Purpose section of this funding opportunity, including who will do the training and the training content (any training/educational material used must be described).
4. A description of how funds will be expended.
5. How the proposed activity will be evaluated or measured for a change in awareness and education on head injury and TBI, specifically.

An authorized official of the organization who can bind the organization to the contents of the application must sign and date Attachment A. Submit an original and three complete copies of the application, which includes Attachment A, a narrative addressing the five points previously listed, and any supporting documentation. Applications should be page-numbered and unbound. Incomplete applications will not be reviewed.

Eligible Costs: The maximum cumulative award to any one applicant (as identified by Federal Tax ID number) is \$5,000 per fiscal year. Funds may be used for reimbursement of the costs incurred prior to January 17, 2015. The budget section of the application must include a budget narrative detailing by line item how project funds will be used. Expenses eligible for reimbursement under this project include, but are not limited to:

1. Purchase of a concussion screening program.
2. Purchase of educational materials.

3. Fees paid to consultants with expertise to provide training regarding TBI.

4. Post-training consultation with the training consultant for the program after the initial training.

5. Training costs.

Ineligible Costs: The following costs are not eligible for reimbursement under this project:

1. Administrative/indirect costs.
2. Purchases/activities mandated by the Americans with Disabilities Act.
3. New building construction or structural renovation of an existing space.
4. Capital expenses or equipment.

Summary Report and Invoice Procedures: To receive reimbursement of approved expenses, awardees must submit the following documentation, found in Attachment B, to the Bureau no later than February 16, 2015:

1. A summary report of activities and evaluation of increased knowledge as a result of such training activities.
2. Attendance list, including person's position and involvement with youth.
3. Plan for continuing TBI awareness and education.
4. Invoice with expense documentation supporting line item amounts.

Funding decisions are contingent upon the availability of Fiscal Year 2014-2015 funds and Department approval. The approval will be based upon preestablished criteria, including:

1. Does the applicant justify the need for the awareness and educational program in their particular program or community.
2. Is the audience for the proposed activity within the intended target audience.
3. Do the proposed awareness and education activities meet the learning objectives.
4. Are the proposed expenditures/purchases eligible for reimbursement and an efficient use of Department funds.
5. Can the proposed evaluation method demonstrate a change in awareness and knowledge.
6. Will the activity proposed provide an ongoing benefit to the community.

DEPARTMENT OF PUBLIC WELFARE

New Class of Disproportionate Share Hospital Payments

The Department of Public Welfare (Department) is announcing its intent to create a new class of disproportionate share hospital (DSH) payments for those acute care general hospitals that provide a significant amount of services to the indigent and Medical Assistance (MA) populations residing in Pennsylvania (PA) cities with a per capita income substantially below the Statewide average. These payments provide additional financial

support to hospitals providing inpatient hospital services and serve an inordinate amount of MA beneficiaries in impoverished areas of this Commonwealth.

Qualifying Criteria

For a hospital to qualify for this class of DSH payment, it must meet all of the following proposed criteria, based on its Fiscal Year (FY) 2011-2012 PA MA hospital cost report unless otherwise specified:

(a) The hospital is enrolled in PA MA as an acute care general hospital.

(b) The hospital provides at least 20,000 inpatient days of care to MA beneficiaries.

(c) The hospital has an MA inpatient utilization rate of at least 25% as determined by dividing the hospital's MA days by its total days of inpatient care.

(d) The hospital has a negative 3-year average change in net patient revenue according to the Health Care Cost Containment Council's Fiscal Year 2012 Financial Analysis, Volume One, General Acute Care Hospitals.

(e) The hospital is located in a county in this Commonwealth which contains a city with a population of 30,000 or more and that city has a per capita income below 60% of the average per capita income for the Commonwealth as documented in the 2010 United States census data.

Payment Determination

The Department intends to pay each qualifying hospital a proportionate amount of the funding allocated to this payment based on the hospital's ratio of MA inpatient days to the total MA inpatient days for all qualifying hospitals. The hospital's ratio is multiplied by the total amount allocated for these payments to determine its payment amount. The data used for purposes of this determination will be based on the FY 2011-2012 PA MA hospital cost report.

Fiscal Impact

The FY 2013-2014 impact is \$4.128 million (\$1.989 million in State general funds).

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Public Welfare, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Proposed Fee Schedule Rates and Department-Established Fees for Consolidated and Person/Family Directed Support Waivers Services, Targeted Services Management and the Community Intellectual Disability Base-Funded Program

The purpose of this notice is to announce the Department of Public Welfare's (Department) proposed Fee Schedule Rates for select services funded through the Consolidated and Person/Family Directed Support waivers, the Department-established fees for residential ineligible services and fee for Targeted Service Management (TSM) effective July 1, 2014. These proposed Fee Schedule Rates also serve as the Department-established fees under 55 Pa. Code § 4300.115(a) (relating to Department established fees) for base-funded services managed through county programs for individuals with an intellectual disability under the Mental Health and Intellectual Disability Act of 1966 (50 P.S. §§ 4104—4704), 55 Pa. Code Chapter 4300 (relating to county mental health and mental retardation fiscal manual) and 55 Pa. Code Chapter 51 (relating to Office of Developmental Programs home and community-based services).

Fee Schedule Rates

The Fee Schedule Rates are identified under the following categories: Select Community-Based Services and Agency with Choice/Financial Management Services (AWC/FMS), including benefit allowance and excluding benefit allowance.

The Select Community-Based Services include behavior support, companion, home and community habilitation unlicensed, homemaker/chore, licensed day habilitation (adult training), prevocational services, therapy (physical, occupational, speech and language, individual behavior therapy, group behavior therapy and visual/mobility), nursing, older adult day, supplemental habilitation, additional individualized staffing, supported employment, supports broker, supports coordination, transitional work and all waiver-funded respite care services, excluding respite camp which is a vendor service.

AWC/FMS (including and excluding benefit allowance) includes home and community habilitation unlicensed, companion services, unlicensed in-home and out-of-home respite, supported employment, supports broker and homemaker/chore services. There are two separate tables for AWC/FMS, one provides the fee schedule rate including a benefit allowance and the other provides the fee schedule rate excluding a benefit allowance. The benefit allowance is provided as an option for the managing employer to include benefits such as disability insurance, life insurance, retirement savings and paid time off to the support service worker.

The proposed fee schedule rates should be used to process claims submitted to the Provider Reimbursement and Operations Management Information System (PROMISE™) in electronic format for services provided until a notice announcing final fee schedule rates is published.

Enhanced Communication Services

Effective July 1, 2014, the Enhanced Communication Services modifier is available for the following Consolidated Waiver fee schedule services behavioral support, companion, supported employment, transitional work, prevocational services, home and community habilitation unlicensed, licensed day habilitation (adult training), therapy (physical, occupational, speech and language, individual behavior therapy, group behavior therapy and

visual/mobility), nursing, older adult day, supplemental habilitation, additional individualized staffing, supports broker and all waiver-funded respite care services, excluding respite camp which is a vendor service.

Enhanced Communication Services can be provided to individuals who meet all of the following:

- Enrolled in the Consolidated Waiver.
- Deaf.
- Determined to need services that are provided by staff who are proficient in sign language.

Providers seeking the Enhanced Communication Services Rate will need to submit a request to the Office of Developmental Programs. The request must include documentation that the provider has sign language proficient staff and can meet the communication needs of individuals who are deaf at all times during services. The Office of Developmental Programs will also review the records of each individual that receives Enhanced Communication Services to ensure that he is in need of the service.

Department-Established Fees

The Department-established fees represent a per-person, per-day net fee based on the size of the home (such as a 1-individual home or 2-individual home) and type of home (defined by licensed, unlicensed or family living home). The fee does not include consideration for payment by the participant, as it is the provider's responsibility to collect that portion of payment from the participant.

The proposed Department-established fees should be used to process claims submitted to the PROMISE™ for services provided until a notice announcing final Department-established fees is published.

Rate-Setting Methodology for Consolidated and Person/Family Directed Support Waiver- and Base-Funded Services for Individuals Participating in the Office of Developmental Programs Service System

The purpose of this notice is to announce the methodology used in the Prospective Payment System to develop rates, effective July 1, 2014, for residential habilitation eligible and transportation trip services, funded through the Consolidated and Person/Family Directed Support waivers and for the same service that is provided with base funding in a waiver-funded service location.

Rate-Setting Methodology for Residential Habilitation Eligible Services

The following methodology applies to the residential habilitation eligible proposed payment rates. In accordance with 55 Pa. Code § 51.72 (relating to cost-based rate assignment), the Fiscal Year (FY) 2014-2015 proposed rates for the residential habilitation eligible services were developed from expenses and utilization data reported in approved Year 6 cost reports (FY 2012-2013 Historical Expense Period), submitted by providers and approved in the desk review process, when the procedure codes and service locations in the cost reports were the same as those entered in the Home and Community Services Information Systems (HCSIS) Services and Supports Directory (SSD) as of December 31, 2013. The FY 2014-2015 residential habilitation eligible proposed rates will be effective for services delivered on or after July 1, 2014, are subject to the adjustments described as follows, and are assigned at the Master Provider Index (MPI)—Service Location Code—Procedure Code/Modifier level based, on the methodology outlined as follows.

Residential Outlier Review Process

The “total unit cost” for a provider and service is defined as the total expenses reported in the approved

cost report for that provider and service divided by the total available units reported in the approved cost report for that provider and service, including any applicable utilization adjustments based on a review of the cost report data compared to available HCSIS and Provider Reimbursement and Operations Management Information System (PROMISE™) data.

As required under 55 Pa. Code § 51.74 (relating to approval of a cost-based rate for nontransportation HCBS), the Department identified and adjusted for outliers at the total unit cost level for each of the providers' residential habilitation eligible services submitted in the Year 6 approved cost reports, as applicable. For all residential habilitation eligible services with 20 or more unique unit costs (unit costs by provider and service from separate, approved Year 6 cost reports), the Department applied the following process for each service:

- The average and standard deviation (SD) values were calculated, excluding extreme outliers, based on the total unit costs for all providers from the Year 6 cost report data.
- Total unit costs that were greater than the average plus one SD or were less than the average minus two SD were flagged as outliers.
- Total unit costs that were flagged as outliers were subject to a review, as described as follows.

Total Unit Cost Review

The Department performed a standardized review of all total unit cost outliers. The review consisted of an evaluation of the Individual Support Plans (ISP) for waiver participants receiving services at the service locations impacted by the outlier unit cost. The review allowed the Department to determine whether the outlier unit cost was justified (such as an individual with complex needs) and the following was applied:

- Total unit cost outliers that were supported by the ISP reviews were not adjusted.
- Total unit cost outliers that were greater than the average unit cost plus one SD and that were not supported by the ISP reviews were adjusted to the maximum unit cost from an approved Year 6 cost report below the average plus one SD for that service.
- Total unit cost outliers that were less than the average minus two SD and that were not supported by the ISP reviews were adjusted to the minimum unit cost from an approved Year 6 cost report above the average minus two SD for that service.

For all residential habilitation eligible services with fewer than 20 unique unit costs, the Department did not perform the standardized outlier review on the total unit costs because there were not enough data points available to produce statistically valid ranges. The Department, however, did review the unit costs for these services in an effort to standardize rates across services. The review consisted of a comparison of the following:

- Other unit costs for that service, as applicable.
- The average unit cost and range of unit costs for similar services with 20 or more unit costs.
- The FY 2013-2014 Statewide average unit cost for that service based on FY 2013-2014 approved cost report data.

If based on the review, a unit cost appeared unreasonably high or low; the Department reviewed the ISPs for waiver participants receiving services at the service locations impacted by the high/low unit cost to determine if the unit costs were justified. Adjustments to unit costs were made based on the Department's review of the ISPs.

Vacancy Factor

In accordance with 55 Pa. Code § 51.74, and as done in FY 2012-2013 and FY 2013-2014, a vacancy factor was incorporated into the residential habilitation rates to recognize that providers may not deliver services at full capacity. The vacancy factor adjusts the full capacity rate to account for days when the residential provider cannot bill due to a participant not receiving services. The provider cannot bill for days when a participant is not receiving services, but rather the provider is paid a higher rate for days when the participant is receiving services.

After the unit costs for each residential habilitation eligible service were adjusted through the outlier review process, a single, standardized vacancy factor of 97% was applied to reflect payment to providers for an average number of vacant days. For example, a unit cost of \$100 (after the outlier review) would be adjusted to a unit cost of \$103.09 (\$100/0.97) after the vacancy factor was applied. The single standardized vacancy factor was based on an analysis of historical PROMISE™ utilization data.

Enhanced Communication Services

Effective July 1, 2014, an Enhanced Communication Services modifier will be available for residential habilitation eligible services. The Enhanced Communication Services can be provided to individuals who meet all the following:

- Enrolled in the Consolidated Waiver.
- Deaf.
- Determined to need services that are provided by staff who are proficient in sign language.

Providers seeking the Enhanced Communication Services rate will need to submit a request to the Office of Developmental Programs. The request must include documentation that the provider has sign language proficient staff and can meet the communication needs of individuals who are deaf at all times during services. The Office of Developmental Programs will also review the records of each individual that receives Enhanced Communication Services to ensure that the individual is in need of the service and the provider's current rate to ensure that the provider is not already receiving a rate that includes the increased cost to provide Enhanced Communication Services.

Transportation Trip Services

The FY 2014-2015 proposed rates for transportation trip services were developed from expenses and utilization data reported in the approved Year 6 transportation cost reports that are based on the FY 2012-2013 historical expense period, when the procedure codes submitted by providers are the same as those entered in the SSD as of March 31, 2014. The FY 2014-2015 transportation trip proposed rates will be effective for services delivered July 1, 2014, through June 30, 2015, are subject to the adjustments described as follows, and are assigned to the MPI—Service Location Code—Procedure Code/Modifier level based on the methodology outlined as follows.

Transportation Trip Outlier Review Process

The “total unit cost” for a provider and transportation trip service is defined as total expenses reported in the approved transportation cost report for that provider and service divided by the total utilization reported in the approved transportation cost report for that provider and service. The total expenses are equal to Schedule A, Line 12 of the cost report (total net expenses). The total utilization is equal to Schedule A, Line 13 of the cost report. These rates reflect consideration for trips with and without aides (as reported by the provider), which means each provider will be paid one payment rate for each trip service (that is, there will not be separate rates for trips with an aide versus without an aide).

The Department reviewed the development of each transportation trip unit cost submitted in approved transportation cost reports for accuracy, reasonableness and to ensure compliance with the Department’s allowable cost policies. To support the Department’s efforts to continue to standardize rates for similar services, the Department reviewed unit costs that were at the upper or lower end of the range of unit costs for each transportation trip service. No adjustments were made as a result of the review.

Cost of Living (COLA)

In accordance with 55 Pa. Code § 51.74(9), after the unit costs for each residential habilitation eligible and transportation trip service were adjusted as previously described, a total COLA of 0.00% was applied (0.00% for FY 2012-2013 and 0.00% for FY 2013-2014) to establish each provider’s proposed rates for FY 2014-2015 (prior to application of the rate adjustment factor).

Rate Adjustment Factor (RAF)

In accordance with 55 Pa. Code § 51.74(10), the Department performed an analysis of the aggregate projected expenditures compared to the amount proposed to be appropriated for the waiver program, an assessment of the current year’s billing trends and an analysis of provider-specific impacts of any potential RAF to determine if an RAF would need to be applied prospectively to the residential habilitation eligible rates. The Department used information from this analysis to determine that an RAF was not necessary for the proposed residential habilitation eligible rates.

Rate Assignment Process

For the FY 2014-2015 residential habilitation eligible and transportation trip services, in accordance with 55 Pa. Code § 51.72, the Department assigned proposed payment rates to providers with approved Year 6 cost reports using the following methodology:

- The provider’s cost-based payment rate for existing services and service locations submitted in the cost reports, based on the methodology previously described.
- The average of the provider’s cost-based payment rates for an existing service at a new service location if the provider submitted cost report data for that service at other service locations.
- The area adjusted average payment rate calculated based on all approved cost reports for a new service for which the provider did not deliver at any service location in FY 2012-2013.

The Department assigned proposed payment rates to existing providers who do not have approved Year 6 cost reports based on the following methodology:

- The lowest payment rates calculated based on all approved cost reports for an existing service for which the provider delivered at any service location in FY 2012-2013.
- The area adjusted average payment rate calculated based on all approved cost reports for a new service for which the provider did not deliver at any service location in FY 2012-2013.

The Department assigned the area adjusted average rate calculated based on all approved cost reports to new providers who did not provide any cost-based services in FY 2012-2013.

All proposed payment rates for all waiver-funded services are contingent on the final budget enacted by the General Assembly. The proposed payment rates should be used to process claims submitted to the PROMISE™ in electronic format for services provided until a notice announcing final rates is published.

Fiscal Impact

It is anticipated that there will be an approximate cost to the Commonwealth of \$29.289 million (\$13.788 million State funds) in FY 2014-2015 and subsequent years. A new cost for FY 2014-15, which has been included, is the Enhanced Communication Service for individuals enrolled in the Consolidated Waiver. The total amount for cost-based Enhanced Communication Services was included in the Waiver Appropriation of the Governor’s Executive Budget at \$3.096 million (\$1.479 million State funds). The amount of funding available for this program is dependent upon the funds appropriated by the General Assembly for the forthcoming fiscal year; therefore, until a budget bill is passed and enacted, the fiscal impact associated with this notice is estimated.

STATE TAX EQUALIZATION BOARD

2013 Common Level Ratios

The State Tax Equalization Board has established a Common Level Ratio for each county in the Commonwealth for the calendar year 2013. The ratios were mandated by Act 267-1982.

The law requires the State Tax Equalization Board to use statistically acceptable techniques, to make the methodology for computing ratios public and to certify, prior to July 1, the ratio to the Chief Assessor of each county each year.

The statistical acceptable technique which the Board used for the 2013 Common Level Ratio is to determine the arithmetic mean of the individual sales ratios for every valid sale received from the county for the calendar year 2013.

The methodology used is to include every valid sale from 1% to 500% to compute an average mean. Using this average mean as a base, the State Tax Equalization Board has defined high and low limits by multiplying and dividing this computed average mean by 4. After the high and low limits are defined; the extreme upper sales ratio limit is 200%. Using these computed limits, the State Tax Equalization Board has utilized the valid sales, rejecting those sales, which exceed the limits. The resulting arithmetic mean ratio is the ratio which the State Tax Equalization Board is certifying as the Common Level Ratio for each county for 2013.

The Common Level Ratios for 2013 are as follows.
