### Maximum Lawful Rate of Interest for Residential Mortgages for the Month of September 2014

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of September, 2014, is 5 1/2%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary

Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the

Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.98 to which was added 2.50 percentage points for a total of 5.48 that by law is rounded off to the nearest quarter at 5 1/2%.

## DEPARTMENT OF EDUCATION

### Annual Certification under Section 7201-B(e) of the Tax Reform Code

August 6, 2014

William R. Hite, Jr., Ed.D.  
Superintendent  
School District of Philadelphia  
440 North Broad Street, Suite 301  
Philadelphia, PA 19130

I am writing pursuant to Section 7201-B(e) of the Tax Reform Code, Act 52 of 2013, 72 P.S. § 7201-B(e). That section provides that a city of the first class may impose a one percent sales and use tax that may be used by a school district of the first class in an amount up to \$120,000,000. Effective July 1, 2014, the City of Philadelphia has imposed this additional sales and use tax. However, the use of these funds by the School District of Philadelphia must be authorized by the Secretary of Education.

Pursuant to Section 7201-B(e)(1), as Secretary of Education, I am to consider whether “the school district . . . began implementation of reforms that provide for [the district’s] fiscal stability, educational improvement and operational control.” In my judgment, the School District of Philadelphia has begun implementation of such reforms in all three areas described in the statute.

From a fiscal standpoint, the District continues to make the kinds of changes that are necessary to establish long-term fiscal stability. The District has negotiated a new, three-year contract with the administrators’ union that will generate over \$20 million in savings. The District has also pursued the sale of many surplus and unused school buildings, which could generate over \$30 million. The District has also undertaken other reforms to reduce costs and increase efficiency. This includes the creation of the Office of Strategic Partnerships, which has raised funds and improved the capacity to access and utilize financial and in-kind support for schools. There have also been changes and improvement to transportation policies and the procurement process to reduce costs and increase efficiency.

Several new programs and initiatives demonstrate that the District continues to make key changes that improve its operational control, while simultaneously maximizing the educational improvement opportunities for students:

- The District released an action plan describing its vision for the District, which includes: 100% of students graduating, ready for college and career; 100% of 8-year-olds reading on grade level; 100% of schools with great principals and great teachers; and all the revenue the District needs with zero deficit. The action plan includes strategies and tactics for achieving these laudable goals.
- The District launched the School Redesign Initiative, which calls upon teachers, school leaders, families, community groups, and others to work together to redesign schools to meet the needs of 21st century learning.
- The District implemented the Authorizer Quality Initiative, a set of new charter school authorizing policies, standards, and procedures.
- The District has focused on improving career and college readiness. As part of this effort, the District will

open three neighborhood-based high schools this fall, all of which focus on college and career readiness, student resiliency, and personalized learning. The District also created career academies at Roxborough and Lincoln High Schools to better connect students with pathways to higher education and the workplace. Additionally, the District has partnered with the Community College of Philadelphia to develop a dual enrollment program to enable students to experience college-level coursework and earn college credits.

- The District has also focused on improving early learning. The District has spearheaded an early literacy campaign, in conjunction with external partners, to help meet the goal of all 8-year-olds reading at grade level.

- The District further expanded its student-focused approach to the staff assignment and transfer process and redesigned its principal selection process to attract outstanding leaders.

- The District debuted the School Progress Report, a new tool that looks at all the schools on multiple dimen-

sions and is designed to help support, respond to, and improve schools.

Finally, in an effort to be more transparent with its finances, the District posted all of its budget information, including details about outside contracts and employee salaries online in conjunction with the City of Philadelphia's Open Data initiative.

As a result of the foregoing, I hereby certify that the requisites of Section 7201-B(e) of the Tax Reform Code have been satisfied. I authorize the Pennsylvania Department of Revenue to disburse to the District, on or before the tenth day of every month, the total amount of money contained in the Local Sales and Use Tax Fund as of the last day of the previous month up to a maximum of \$120,000,000 pursuant to section 7201-B(e)(2) of the Tax Reform Code.

CAROLYN C. DUMARESQ, Ed.D.,

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to pub-

lish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application, and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments; Identification of the proposed Plan Approval/Operating Permit including the permit number; and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that such a hearing is warranted based on the information received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin*, or by telephone, when the Department determines this notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Subchapters D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations

on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the EPA for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

*Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

\*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

#### *Effluent Limits for Noncoal Mining Activities*

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

\* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals

Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

## PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

#### HAZARDOUS SITES CLEANUP ACT OF OCTOBER 18, 1988

##### Notice of Proposed Interim Response Philipsburg Rod and Gun Club Rush Township, Centre County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.102–6020.1305), is proposing an interim response at Philipsburg Rod and Gun Club, Rush Township, Centre County, Pennsylvania. This response is proposed pursuant to Sections 501(a) and 505(b) of the HSCA (35 P. S. §§ 501(a) and 505(b)). Philipsburg Rod and Gun Club (PRGC) is located within Black Moshannon State Park on Beaver Road in the Rush Township, Centre County. The site is a trap shooting range located on land that PRGC leases from the Department of Conservation and Natural Resources (DCNR) and consists of the shot fall zone plus any locations where the lead, or associated contaminants from the shot, may have migrated. The environmental investigations at the PRGC site have identified extensive soil and limited groundwater contamination. Soil contamination of lead and other metals associated with the shot exceed the Departments Statewide Health Standards (SHS) for soil. Shallow groundwater is also contaminated with lead above the SHS for groundwater.

The Department proposes to conduct a targeted removal action in the area where soil contamination is present above the SHS. The following alternatives were reviewed for this removal action.

**Alternative 1. No Further Action**—The “No Further Action” alternative does not reduce the toxicity, mobility, or volume of contamination and therefore does not meet the criteria of being protective of human health or the environment.

**Alternative 2. Stabilization of impacted soil**—The lead shot will be excavated and recovered and the soil will be stabilized. Stabilization involves in situ or ex situ mixing of contaminated soil with an amendment to significantly decrease the leachability of lead. This remedy will reduce the concentration and mobility of the lead remaining at the Site. The total estimated project cost for this Alternative is \$835,319.

**Alternative 3. Stabilization and Capping**—This Alternative is the same as Alternative 2, but with the addition of a low permeable cap to reduce surface water infiltration. The remedy should reduce the concentration and mobility of the lead remaining at the Site. It will also provide an impermeable cap to limit direct exposure pathways and leaching of the lead to the groundwater. The total estimated project cost for this alternative is \$1,530,858.

**Alternative 4. Excavation and Nonhazardous Disposal**—Contaminated soil will be excavated and treated on site to render it nonhazardous. The soil will then be disposed off-site in a permitted residual/municipal waste landfill.

The proposed response is Alternative 2 above, as it is the most cost effective. By removing the most severe contamination and addressing the other area through institutional controls, the potential exposure can be limited while still removing a significant mass of contamination.

This notice is being provided pursuant to Section 506(b) of HSCA. The administrative record which contains the information that forms the basis and documents the selection of this response action is available for public review and comment. The administrative record is located at the Black Moshannon State Park Office, 4216 Beaver Road, Philipsburg, PA and at the Department’s North-central Regional Office, 208 West Third Street, Williamsport, PA and is available for review Monday through Friday from 9:00 a.m. to 4:00 p.m. For reviews at the Department’s North-central Regional Office appointments must be made in advance by contacting 570.327.0550 and requesting to review the Philipsburg Rod and Gun Club administrative record.

The administrative record will be open for comment from August 9 2014 until November 9, 2014. Persons may submit written comments into the record during this time only, by sending them to Randy Farmerie at PADEP 208 West Third Street, Suite 101 Williamsport, PA 17701 or by delivering them to this office in person. In addition, persons may present oral comments, for inclusion in the administrative record, at a public hearing. The Department has scheduled the hearing on September 22, 2014 at 7:30 p.m. at the Rush Township Building, 150 North Richard Street, Philipsburg, PA 16866. The public hearing will be preceded by a public meeting at the same location beginning at 6:30 p.m. Persons wishing to present comments at the public hearing must register at the hearing location before the public hearing begins.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accom-

modations to participate in the proceedings, should call Dan Spadoni at 570.327.3659 or through the Pennsylvania AT & T Relay Service at 1-800-654-5984 (TDD) to discuss how the Department may accommodate their needs.

**Settlement under the Comprehensive  
Environmental Response, Compensation and  
Liability Act and the Hazardous Sites Cleanup Act**

The Department of Environmental Protection (“Department”), under the authority of the Hazardous Sites Cleanup Act (HSCA), 35 P. S. Sections 6020.101—6020.1305, has entered into an Amendment to a Consent Order and Agreement between the Department and Destination Maternity Corporation (successor to Mother Works, Inc.) relating to property located at 456 North 5th Street, Philadelphia, PA.

On July 31, 1995, the Department entered in to a Consent Order and Agreement with Mother Works, Inc. (“MWI”), wherein MWI agreed to take certain actions related to the property in exchange for a Covenant Not To Sue from the Department. One of the conditions of this Consent Order and Agreement was an institutional control in the form of a restriction limiting land use to a certain zoning classification. In July of 2014, MWI approached the Department and provided documentation demonstrating that this institutional control was no longer necessary at the Site. Consequently, the Department has entered into an Amendment to the Consent Order and Agreement which deletes the zoning use restriction.

Copies of the Amendment to Consent Order and Agreement are maintained in the Department’s files for the Southeast Region and may be obtained upon request to Anderson Lee Hartzell, Regional Supervising Counsel, 2 East Main Street, Norristown, PA 19401.

**LAND RECYCLING AND  
ENVIRONMENTAL REMEDIATION**

**UNDER ACT 2, 1995  
PREAMBLE 2**

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act’s remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media;

benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. **The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

# DEPARTMENT OF PUBLIC WELFARE

## Availability of Pennsylvania's Statewide Transition Plan for Home and Community-Based Settings; Public Input Meetings

The Department of Public Welfare (Department) is making available for public review and comment Pennsylvania's proposed Statewide Transition Plan for Home and Community-Based Settings. Comments on this notice and comments received at the public input meetings will be used to formulate Pennsylvania's Final Statewide Transition Plan that will be submitted to the Centers for Medicare and Medicaid Services (CMS).

### *Background*

On January 16, 2014, CMS published a final rule for home and community-based services (HCBS) in the *Federal Register* with an effective date of March 17, 2014. See 79 FR 2948. This final rule, among other things, amends the Medicaid regulations for HCBS waivers under section 1915(c) of the Social Security Act (42 U.S.C.A. § 1396n(c)) to provide requirements regarding person-centered plans of care, characteristics of settings that are home and community-based as well as settings that may not be home and community-based. See 42 CFR Parts 430, 431, 435, 436, 440, 441 and 447. These requirements reflect CMS's intent that individuals receiving services and supports through Medicaid waivers receive services in settings that are integrated in and support full access to the greater community.

All 1915(c) Medicaid waivers must comply with these requirements. In this Commonwealth there are ten 1915(c) Medicaid HCBS waivers:

- Adult Autism Waiver
- AIDS Waiver
- Aging Waiver
- Attendant Care Waiver
- COMMCARE Waiver
- Consolidated Waiver
- Independence Waiver
- Infant, Toddlers and Families Waiver
- OBRA Waiver
- Person/Family-Directed Support Waiver

The final rule recognized that a transition period may be needed for states with existing approved 1915(c) HCBS waivers to meet the provisions of the final rule. The final rule provides the Commonwealth with the opportunity to develop a transition plan that encompasses a period of up to 5 years after the effective date of the regulation to meet the provisions of the final rule. For more details about the Home and Community-Based Services Final Rule, refer to the CMS HCBS web page at <http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Long-Term-Services-and-Supports/Home-and-Community-Based-Services/Home-and-Community-Based-Services.html>.

### *Transition Plan*

The Department has made Pennsylvania's proposed Statewide Transition Plan for all ten 1915(c) Medicaid

HCBS waivers available at <http://www.dpw.state.pa.us/dpworganization/officeoflongtermliving/hcbswaiver/index.htm>. The proposed Statewide transition plan includes the steps the Department anticipates taking to assess compliance in the following areas: Unallowable Settings; Settings that are Presumed not Eligible; Qualifications for all Home and Community-Based Settings; and Requirements for Provider-Owned or Controlled Home and Community-Based Residential Settings.

The Department will hold five public input meetings throughout this Commonwealth to receive comments on the proposed Statewide transition plan.

## PHILADELPHIA PARKING AUTHORITY

### Authorization of Wheelchair Accessible Taxicab Medallions; Doc. No. 14-003

#### Order

*By the Authority:*

The Philadelphia Parking Authority (the "Authority"), regulates all taxicab and limousine service in the City of Philadelphia (the "City").<sup>1</sup> The Authority is currently empowered to issue and sell 45 new taxicab medallions.<sup>2</sup>

#### *Background*

In 2012 the General Assembly increased the statutory ceiling on the number of Philadelphia taxicab medallions from 1,600 to 1,615.<sup>3</sup> Each of those 15 new medallions is required to be affixed to a vehicle capable of providing wheelchair accessible taxicab service.<sup>4</sup> Act 119 also increased that statutory ceiling by 15 medallions on June 1, 2013, and an additional 15 each June 1, thereafter until the statutory ceiling reaches 1,750.<sup>5</sup> The primary impetus for Act 119 was the failure of existing medallion owners to address the transportation needs of the disabled community. In order to begin to address this short coming in Philadelphia's public transportation system, the Authority will restrict all 45 of the new medallions authorized as of the date of this order for use on wheelchair accessible vehicles ("WAVs").<sup>6</sup>

*Therefore,*

*It Is Ordered That:*

1. The Director of the Authority's Taxicab and Limousine Division ("TLD"), or his designee (the "Director"), shall administer the sale of the 45 Philadelphia taxicab medallions currently authorized by Act 119 (collectively the "45 medallions"). Each of the 45 medallions is hereby designated a WAV medallion, in perpetuity.

2. Prior to the effective date of Act 119, 1,600 medallions were authorized for issuance by statute. One of those medallions had been surrendered by the owner, which made that medallion nontransferable. However, a 1,600th medallion remains available for issuance. That medallion will be numbered "1601" (the number used to identify the surrendered and nontransferable medallion will not be used again). This issue was addressed in the Board's Order dated March 28, 2013, at Docket No. P-12-02-01.

3. In the event that the review of the Authority's March 28, 2013 Order is finally resolved in the Authority's favor, the Director is also authorized to administer the sale of medallion 1601, as provided in this Order. Medallion 1601 will be sold as a WAV medallion.

4. The 45 medallions will be identified by a numbering system to include "WP" (Wheelchair Philadelphia) before the number assigned to the medallion. The first of the 45 Medallions will be identified as "WP-1602," the second will be "WP-1603," and so on. Medallion 1601 will be identified as "WP-1601."

5. Each medallion authorized by this Order will be sold separately by sealed competitive bid, as provided by the Authority's regulations.

6. Each sealed bid for a medallion must be filed with the TLD Clerk, by hand delivery, at the TLD's headquarters at 2415 South Swanson Street, Philadelphia, PA 19148.

7. In order to be considered filed, a medallion bid must be time stamped by the TLD's Clerk.

8. The Clerk may only time stamp a medallion bid as follows:

a) Between 9:00 a.m. and 4:00 p.m. on the business day preceding the date of the scheduled medallion sale; or

b) Between 9:00 a.m. and 9:30 a.m. on the day of the scheduled medallion sale.

9. The upset price for each medallion will be \$475,000.

10. The Director may, in his discretion, remove any medallion from a scheduled bid opening date. In this case, the sale of that medallion will be rescheduled for sale as provided in this Order.

11. The Director may, in his discretion, remove any medallion from a scheduled bid opening date and place the medallion before this Board for a new sale authorization, pursuant to such terms and conditions as the Board may then impose.

12. The sealed bids for the medallions will be opened by the Director at the TLD's headquarters at 11:00 a.m. at 2415 South Swanson Street, Philadelphia, PA 19148 as follows:

a) On October 22, 2014: Medallion Nos. WP-1602 and 1603.

<sup>4</sup> See 53 Pa.C.S. § 5711(c)(2)(i).

<sup>5</sup> See 53 Pa.C.S. § 5711(c)(2)(ii).

<sup>6</sup> In our Final Rulemaking Order No. 126-5, entered on June 12, 2014, the Authority committed to restricting all 150 of the Act 119 medallions to WAV use.
