# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

### **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

### ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

### **How to Find Documents**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacode.com](http://www.pacode.com).

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at [www.pabulletin.com](http://www.pabulletin.com).

### Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [ ] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

#### § 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

[ 4 PA. CODE CH. 1 ]

[ EXECUTIVE ORDER NO. 2015-04 ]

#### Governor's Office of Transformation, Innovation, Management and Efficiency ("GO TIME")

February 5, 2015

*Whereas*, the Commonwealth faces significant fiscal challenges which require that it make every effort to maximize efficiency, and find new ways of modernizing, and innovating the operations of state government while continuing to deliver services at the highest level; and

*Whereas*, the administration believes that inter-agency coordination and collaboration is critical to providing high quality services and ensuring the most efficient use of resources; and

*Whereas*, there are many opportunities for the Commonwealth to enter into partnerships with the private sector in order to develop and pursue innovative new practices; and

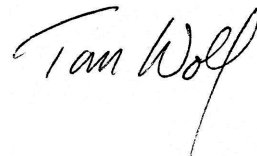

*Whereas*, the Commonwealth, as a major purchaser of goods and services, can benefit from economies of scale in procurement, and leverage the collective buying power of its many agencies to reduce costs; and

*Whereas*, the employees of state agencies are best positioned to understand the strengths and opportunities within their agency, and to make recommendations for improvement where possible; and

*Whereas*, the above initiatives, if appropriately administered, should generate over \$150 million in cost savings for the 2015-2016 fiscal year; and

*Whereas*, the Governor believes that these goals can be best achieved through coordination among agencies and partners to ensure a government that is responsive to the concerns and needs of the people it serves.

*Now, Therefore*, I, Thomas W. Wolf, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws, do hereby establish the Governor's Office of Transformation, Innovation, Management and Efficiency within the Governor's Office of Administration and do order and direct as follows.

#### EXPLANATORY REPORT

#### Proposed Rescission and Replacement of Orphans' Court Forms G-02, G-03, and G-04, and Proposed Adoption of Forms G-05 and G-06

In 2013, the Supreme Court of Pennsylvania constituted a 38-member Elder Law Task Force to formulate a plan for substantive improvements in the way Pennsylvania's court system interacts with elders, including the topics of guardianship, elder abuse and neglect, and overall access to justice. In 2014, the Task Force delivered a comprehensive 284-page report detailing 130 specific recommendations to help lay the foundation for improvements in tackling issues in the courts and by other government entities. The report in its entirety can be viewed at: <http://www.pacourts.us/courts/supreme-court/committees/supreme-court-boards/elder-law-task-force>

The report contained a number of specific recommendations for amendment of the Orphans' Court Procedural Rules. The recommendations are currently under consideration by the Committee. The report also suggested modification of current statewide forms for guardianship matters and the addition of several new forms to assist in monitoring guardianships.

Herein, the Committee proposes to rescind and replace the following forms with those recommended by the Task Force:

- Form G-02 Annual Report—Guardian of Estate
- Form G-03 Annual Report—Guardian of Person
- Form G-04 Guardian's Inventory

The proposed modifications are not limited to format improvements. The amended forms are intended to enhance the amount and type of information collected from guardians to allow closer monitoring of guardianship activity. The Task Force observed, and the Committee concurs, that more information collected at the beginning of the guardianship can alleviate later problems after the guardian assumes his or her duties.

The Committee proposes to add the following new forms:

- Form G-05 Certificate of Filing
- Form G-06 Deposition of Written Interrogatories of Physician or Licensed Psychologist

The goal of the proposed Certificate of Filing form is to facilitate best practices identified by the Task Force. The objective of this form is to facilitate information sharing among interested parties, while protecting the privacy and best interests of the incapacitated person. Per the recommendations from the Elder Law Task Force, it would become a best practice for the judge at the time a guardian is appointed, to identify the interested parties entitled to notice from the guardian that a required report has been filed with the court.

The Certificate of Filing is a proposed new statewide form available for guardians to use in order to certify on the court docket that the guardian has provided such notice of filing to the interested parties. The Certificate of Filing form instructs the recipient that a copy of the Certificate along with proper identification will be required to access and view the filed documents. Also included in Instructions for Document Access is a section to be modified locally to set forth the county-specific process for requesting documentation.

The purpose of the proposed Deposition of Written Interrogatories of Physician or Licensed Psychologist form is to facilitate another best practice identified by the Task Force. The form is intended to be completed by the evaluator and reflect the evaluator's assessment of the capacity of the alleged incapacitated person. In uncontested matters, this form may be submitted to the court in the place of sworn testimony. With this form, it is believed that the evaluator can be relieved of the burden of testifying in person, as well as avoiding unnecessary fees in uncontested cases. Moreover, the need for one less witness to appear should ease scheduling difficulties. This form is not intended to replace the need for live testimony in contested cases.

Currently, a licensed psychologist or treating physician is permitted by statute to submit his or her evaluation by deposition in lieu of live testimony. 20 Pa.C.S. § 5518. However, the form of this written deposition (or interrogatories) varies by county. The proposed form included in this proposal would become a mandatory statewide form to be used by each and every evaluator who is providing testimony by deposition regarding the capacity of an alleged incapacitated person.

Through the formal rulemaking process, the Committee will consider at a later time whether these best practices should be codified as requirements under the procedural rules. During the interim, these new forms are proposed to be made available for statewide use.

The Committee invites the bench, bar, and public to submit their comments, suggestions, or objections to this proposal.

## Annex A

### TITLE 246. MINOR COURT CIVIL RULES

#### PART I. GENERAL

#### CHAPTER 500. ACTIONS FOR THE RECOVERY OF POSSESSION OF REAL PROPERTY

#### Rule 515. Request for Order for Possession.

\* \* \* \* \*

**Official Note:** The fifteen days in subdivision A of this rule, when added to the 16 day period provided for in Rule 519A, will give the defendant time to obtain a supersedeas within the appeal period. See Rules 1002, 1008, 1009 and 1013.

The 1995 amendment to section 513 of The Landlord and Tenant Act of 1951, 68 P. S. § 250.513, established a ten-day period from a judgment for possession of real estate arising out of a residential lease; therefore, the filing of the request for order for possession in subparagraph B(1) is not permitted until after the appeal period

has expired. In cases arising out of a residential lease, the request for order for possession generally must be filed within 120 days of the date of the entry of the judgment.

Subparagraph B(2) provides that in a case arising out of a residential lease, if a supersedeas (resulting from an appeal or writ of certiorari) or bankruptcy stay is stricken, dismissed, lifted, or otherwise terminated, thus allowing the plaintiff to proceed with requesting an order for possession, the request may be filed only within 120 days of the date the supersedeas or bankruptcy stay is stricken, dismissed, lifted, or otherwise terminated. **When a supersedeas has been terminated in a case that has been appealed to a court of common pleas, the plaintiff may request an order for possession from the magisterial district judge as long as the request is made within 120 days of the date of the entry of the judgment, and judgment has not been entered by the court of common pleas. The entry of a compulsory arbitration award pursuant to Pa.R.C.P. No. 1307(c) is not a bar to the issuance of an order for possession. After a court of common pleas enters judgment, the judgment of the magisterial district court is extinguished and may no longer be executed upon in any court. All further process must take place in the court of common pleas.**

The time limits in which the plaintiff must request an order for possession imposed in subdivision B apply only in cases arising out of residential leases and in no way affect the plaintiff's ability to execute on the money judgment. See Rule 516, Note, and Rule 521A.

At the time the plaintiff files the request for an order for possession, the magisterial district court should collect server fees for all actions through delivery of possession. Thereafter, if the order for possession is satisfied 48 hours or more prior to a scheduled delivery of possession, a portion of the server costs may be refundable. See Rules 516 through 520 and [ **Section 2950(d) of the Judicial Code, 42 Pa.C.S. § 2950(d)** ] **44 Pa.C.S. § 7161(d)**.

#### Rule 516. Issuance and Reissuance of Order for Possession.

\* \* \* \* \*

**Official Note:** The order for possession deals only with delivery of possession of real property and not with a levy for money damages. A plaintiff who seeks execution of the money judgment part of the judgment must proceed under Rule 521A, using the forms and procedure there prescribed. The reason for making this distinction is that the printed notice requirements on the two forms, and the procedures involved in the two matters, differ widely.

Subdivision B provides for reissuance of the order for possession for one additional 60 day period. However, pursuant to subdivision C, in cases arising out of a residential lease, the request for reissuance of the order for possession must be filed within 120 days of the date of the entry of the judgment or, in a case in which the order for possession is issued and subsequently superseded by an appeal, writ of certiorari, supersedeas, or a stay pursuant to a bankruptcy proceeding, only within 120 days of the date the appeal, writ of certiorari, or supersedeas is stricken, dismissed, or otherwise terminated, or the bankruptcy stay is lifted. **When a supersedeas has been terminated in a case that has been appealed to a court of common pleas, the plaintiff may request an order for possession from the magisterial district judge as long as the request**

is made within 120 days of the date of the entry of the judgment, and judgment has not been entered by the court of common pleas. The entry of a compulsory arbitration award pursuant to Pa.R.C.P. No. 1307(c) is not a bar to the issuance of an order for possession. After a court of common pleas enters judgment, the judgment of the magisterial district court is extinguished and may no longer be executed upon in any court. All further process must take place in the court of common pleas. The additional 60 day period need not necessarily immediately follow the original 60 day period of issuance. The written request for reissuance may be in any form and may consist of a notation on the permanent copy of the request for order for possession form, "Reissuance of order for possession requested," subscribed by the plaintiff. The magisterial district judge shall mark all copies of the reissued order for possession, "Reissued. Request for reissuance filed \_\_\_\_\_ (time and date)." A new form may be used upon reissuance, those portions retained from the original being exact copies although signatures may be typed or printed with the mark "/s/." There are no filing costs for reissuing an order for possession, for the reissuance is merely a continuation of the original proceeding. However, there may be additional server costs for service of the reissued order for possession.

\* \* \* \* \*

CHAPTER 1000. APPEALS

APPEAL

Rule 1007. Procedure on Appeal.

\* \* \* \* \*

**Official Note:** As under earlier law, the proceeding on appeal is conducted de novo, but the former rule that the proceeding would be limited both as to jurisdiction and subject matter to the action before the magisterial district judge (see *Crowell Office Equipment v. Krug*, 213 Pa. Super. 261, 247 A.2d 657 (1968)) has not been retained. Under subdivision B, the court of common pleas on appeal can exercise its full jurisdiction and all parties will be free to treat the case as though it had never been before the magisterial district judge, subject of course to the Rules of Civil Procedure. The only limitation on this is contained in subdivision C, which makes clear that an appeal from a supplementary action filed pursuant to Rule 342 is not intended to reopen other issues from the underlying action that were not properly preserved for appeal.

**When a supersedeas has been terminated in a case that has been appealed to a court of common pleas, the plaintiff may request an order for possession from the magisterial district judge as long as the request is made within 120 days of the date of the entry of the judgment, and judgment has not been entered by the court of common pleas. The entry of a compulsory arbitration award pursuant to Pa.R.C.P. No. 1307(c) is not a bar to the issuance of an order for possession. After a court of common pleas enters judgment, the judgment of the magisterial district court is extinguished and may no longer be executed upon in any court. All further process must take place in the court of common pleas.**

REPORT

*Proposed Amendment of the Official Notes to Pa.R.C.P.M.D.J. Nos. 515—516 and 1007*

Request for Order of Possession

I. Introduction

The Minor Court Rules Committee ("Committee") is planning to propose to the Supreme Court of Pennsylvania the amendment of the Official Notes to Pa.R.C.P.M.D.J. Nos. 515—516 and 1007. These rules address the timeframe for requesting an order for possession. The Committee is making this recommendation to clarify where a plaintiff may file a request for an order for possession when an appeal has been taken.

II. Discussion

Currently, Rules 515 and 516 address a request for an order for possession, and issuance and reissuance of the order. In a residential landlord tenant case, when a judgment for possession has been rendered by a magisterial district judge, the plaintiff may request an order for possession after the 10th day and within 120 days following the date of entry of the judgment. See Rule 515B. In the event an appeal of the judgment operates as a supersedeas or the matter is stayed pursuant to bankruptcy proceedings, the plaintiff may request an order for possession only within 120 days of the date the supersedeas or bankruptcy stay is stricken, dismissed, lifted, or otherwise terminated. See Rule 515B(2). An order of possession is valid for a 60 day period, and may be reissued for one additional 60 day period. See Rules 516B(1), 519C. In residential lease cases, a plaintiff must file a written request for reissuance of an order for possession when the order has been issued, and, subsequently, an appeal operates as a supersedeas or bankruptcy proceedings stay the matter. See Rule 516C. Rule 1007 sets forth the procedures for the appeal in the court of common pleas.

The Committee received correspondence suggesting that it review the rules governing the filing of a request for an order for possession when an appeal has been filed. Specifically, the Committee was asked to review the situation where a magisterial district judge enters judgment in a residential landlord tenant case, the tenant appeals and obtains a supersedeas, the appeal goes before a board of arbitrators pursuant to Pa.R.C.P. Nos. 1301—1314, an arbitration award is entered, and the supersedeas is terminated for nonpayment of rent into escrow prior to expiration of the thirty day period for entry of the award in the court of common pleas. The Rules are silent on this scenario, leading to ambiguity about where the plaintiff should file a request for an order for possession.

The Committee discussed the situation described above, and agreed that only a judgment entered by the court of common pleas should preclude the plaintiff from requesting an order for possession from the magisterial district court. Once the court of common pleas has entered a judgment on an appeal (including entry of judgment of a compulsory arbitration award pursuant to Pa.R.C.P. No. 1307(c)), the judgment of the magisterial district court is extinguished, and may no longer be executed upon in any court. However, prior to the entry of judgment by the court of common pleas, the plaintiff may request an order for possession from the magisterial district court, even if the board of arbitrators has entered an arbitration award, so long as no supersedeas or bankruptcy stay remains in effect.

While reviewing the Official Note to Rule 515, the Committee noted that the statutory reference to the section of the Judicial Code governing fees for constables was outdated. The Committee will recommend updating the constable fee schedule reference to reflect statutory changes.

Finally, the Committee is concurrently seeking comments on a proposal that would rescind the rules governing writs of certiorari and making correlative rule changes, including changes to Rules 515—516. The Committee has not reprinted those proposed changes in this publication, but will ensure that any final recommendation to the Court on this matter conforms to the current status of that proposal.

### III. Proposed Changes

The Committee plans to propose the amendment of the Official Notes to Rules 515—516 and 1007 by adding the following language:

When a supersedeas has been terminated in a case that has been appealed to a court of common pleas, the plaintiff may request an order for possession from the magisterial district judge as long as the request is made within 120 days of the date of the entry of the judgment, and judgment has not been entered by the court of common pleas. The entry of a compulsory arbitration award pursuant to Pa.R.C.P. No. 1307(c) is not a bar to the issuance of an order for possession. After a court of common pleas enters judgment, the judgment of the magisterial district court is extinguished and may no longer be executed upon in any court. All further process must take place in the court of common pleas.

The Committee will also propose the amendment of the Official Note to Rule 515 to reflect that constable fees are governed by 44 Pa.C.S. § 7161(d).

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995  
PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**08-00052A: REV LNG, LLC** (1002 Empson Road, Ulysses, PA 16948) for the construction of two (2) 1,380 bhp Caterpillar G3516B LE 4-stroke, ultra-lean burn, natural gas-fired compressor engines, each equipped with 2-way oxidation catalysts for the production of liquefied natural gas, at the proposed Clark Facility located in Herrick Township, **Bradford County**. The facility will also include one (1) 402 bhp Cummins QSK19G lean burn, natural gas-fired generator engine equipped with a 2-way oxidation catalyst; one (1) 335 bhp Aggreko D146TIC rich burn generator engine equipped with a 3-way catalyst; liquid natural gas storage tanks; truck loading equipment; various fugitive emissions.

The Department of Environmental Protection's (Department's) review of the information submitted by REV LNG, LLC indicates that the air contamination sources to be constructed will comply with all regulatory requirements, including monitoring, recordkeeping, and reporting requirements, and pertaining to air contamination sources and the emission of air contaminants including the National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines, 40 CFR Sections 63.6580 through 63.6675, the Standards of Performance for Stationary Spark Ignition Internal Combustion Engines, 40 CFR Sections

60.4230 through 60.4248, 25 Pa. Code Chapter 123 and the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed construction.

The emissions from each proposed compressor engine included in this project will not exceed the following limits: 0.50 g/bhp-hr and 6.67 TPY NO<sub>x</sub>, 0.17 g/bhp-hr and 2.27 TPY CO, 0.10 g/bhp-hr and 1.34 TPY VOCs, 0.000588 lb/MMBtu and 0.03 TPY SO<sub>x</sub>, 0.00999 lb/MMBtu and 0.44 TPY PM/PM<sub>10</sub>/PM<sub>2.5</sub>, 0.05 g/bhp-hr and 0.67 TPY formaldehyde; no visible emissions equal to or greater than 10% for a period or periods aggregating more than three minutes in any 1 hour and equal to or greater than 30% at any time; for both generator engines, combined NO<sub>x</sub> emissions less than 100 lbs/hr, 1,000 lbs/day, 2.75 tons per ozone season and 6.6 TPY.

In addition to the emission limitations, the following is a brief description of the types of conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements.

Require each compressor engine to be equipped with an air-to-fuel rate controller, hour meter, catalyst temperature monitor and alarm; restrict the compressor engines to natural gas firing only; require performance testing for both compressor engines to verify compliance with the emissions limitations; require periodic portable analyzer testing for NO<sub>x</sub> and CO; follow applicable monitoring, reporting and recordkeeping requirements.

The proposed facility will be a State Only facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specifications of the application for Plan Approval 08-00052A, the applicant will subsequently apply for a State Only Operating Permit in accordance with 25 Pa. Code Subchapter F.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-0550.

**59-00004I: Ward Manufacturing, LLC** (117 Gulick Street, P. O. Box 9, Blossburg, PA 16912-0009) has submitted an application to the Pennsylvania Department of Environmental Protection (Department) for plan approval to construct a metal castings shot blast machine and for the installation of an air cleaning device, an existing cartridge collector, for the control of air contaminant emissions from the proposed shot blast machine at their facility located in Blossburg Borough, **Tioga County**.

The Department's review of the information submitted by Ward Manufacturing, LLC indicates that the air contamination source to be constructed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including 25 Pa. Code § 123.13, and the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed construction.

The emissions from the proposed source included in this project will not exceed the following limits: 0.01 gr/dscf of PM.

In addition to the emission limitations, the following is a brief description of the conditions the Department

intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements.

The air contaminant emissions from the Metcast model M-14D metal castings shot blast machine shall be controlled by an existing Farr Tenkay model 32D cartridge collector. The cartridge collector shall be equipped with instrumentation to monitor the pressure differential across the collector on a continuous basis. This instrumentation is to be maintained in operable condition at all times. The permittee shall keep on hand a sufficient quantity of spare cartridges for the cartridge collector in order to be able to immediately replace any cartridges requiring replacement due to deterioration resulting from routine operation of the shot blast machine.

The facility is a major (Title V) facility. If the Department determines that the source is constructed and operated in compliance with the plan approval conditions and the specification of the application for Plan Approval 59-00004I, the requirements established in the plan approval will be incorporated into Title V Operating Permit 59-00004 pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. No increase in allowable emissions is associated with the proposed modification to the initial plan approval issued on April 16, 2014. The proposed plan approval modification contains all applicable regulatory requirements including monitoring, recordkeeping and reporting conditions.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. **MINING ACTIVITY NPDES DRAFT PERMITS**

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

*Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

\*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

*Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES)

Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

To construct and maintain a 6 foot chain link fence around an existing natural gas gate station owned by UGI Penn Natural Gas. The fence will be topped with 3 strands of barbed wire. The total perimeter of the fence line is approximately 634 feet in length in Muncy Township—Lycoming County which is located within the floodway/floodplain of Carpenters Run.

The project proposes to construct approximately 60 posts with chain link fence. The bore holes will be 12 to 18 inches in diameter below existing grade. The proposed

improvements will not have any effect on the floodway which is located on Carpenters Run and is classified as Warm Water Fishery (WWF) waterway. The proposed modifications will not permanently impact wetlands, cultural or archaeological resources, national/state/local parks, forests recreational areas, landmarks wildlife refuge or historical sites.

Permanent and temporary impacts are proposed to on-site wetlands, streams and floodways.

The project is a Joint Permit Application due to the proposed project not meeting the terms and conditions of the General Permit 07 (Minor Road Crossings).

The project is located in Quadrangle New Freeport, Sub-basin 20E (Wheeling—Buffalo Creek Watershed).

**PUBLIC WATER SUPPLY PERMITS**

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be

sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also

available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

#### HAZARDOUS SITES CLEANUP ACT OF OCTOBER 18, 1988

##### Notice of Interim Response

##### General Alloy Casting Company Site, Rochester Township, Beaver County

The Pennsylvania Department of Environmental Protection ("DEP"), under the authority of the Hazardous Sites Cleanup Act, 35 P. S. Section 6020.101 et. Seq. ("HSCA"), has proposed an interim response at the General Alloy Casting Company Site ("Site"). The Site consists of old foundry waste disposal areas located on the side of a steep ravine above McKinley Run in the Township of Rochester, Beaver County.

The Department conducted a Remedial Investigation of the Site and determined that arsenic, antimony, chro-

mium, cobalt, nickel and lead have been released at the Site at concentrations that exceed applicable cleanup standards. These substances are hazardous substances as defined by the Hazardous Sites Cleanup Act.

The Department considered the following three alternatives to address the threats at the Site: 1) no action; 2) regrade slope with cut and fill, place stream in culvert; and 3) excavate toe of fill, place riprap along the stream channel, manage storm water.

Alternative 3 was chosen because it complies with the applicable or relevant and appropriate requirements and is cost effective.

This notice is being provided under Section 506 (b) of the Hazardous Sites Cleanup Act. The Administrative Record which contains information forming the basis and documenting the selection of this response action is available for public review and comment at the Department's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222 and is available for review between 9 a.m. and 4 p.m.

The Administrative Record will be open for comment until June 7, 2015. Persons may submit written comments into the record, during this time only, by sending them or delivering them to Terry Goodwald, Project Manager, Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222.

In addition, persons may present oral comments for inclusion in the Administrative Record at a public hearing scheduled for May 5, 2015 at 5:00 p.m. at the Rochester Township Municipal Building located at 1013 Elm Street, Rochester, PA 15074. Persons wishing to present comments must register with John Poister at the Department's Southwest Regional Office, in writing at: 400 Waterfront Drive, Pittsburgh, PA 15222 or by telephone at (412) 442- 4203 before noon, May 5, 2015.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate in the proceeding, should contact John Poister at (412) 442-4203 or through the Pennsylvania AT&T Relay Service at (800) 654-5954 (TDD) to discuss how the Department may accommodate their needs.

#### LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

##### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate

that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and

cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. *Project Description:* The Pennsylvania Infrastructure Investment Authority, which administers the Commonwealth's State Revolving Fund, is intended to be the funding source for this project. The Hawthorn Redbank Redbank Municipal Authority proposes to replace approximately 44,900 lineal feet of existing waterlines and hydrants in Hawthorn Borough, Alcola and Shermin Heights areas of Redbank Township Clarion County and Walker Flats area of Redbank Township, Armstrong County. In addition, existing curb boxes, water service valves and meters to each customer will be replaced.

The Department's review of the project concluded that the project is eligible to be categorically excluded from the environmental review process, and a subsequent public review confirmed that there are no exceptional circumstances that warrant an Environmental Assessment.

### Bond Rate Guidelines for the Calculation of Land Reclamation Bonds on Coal Mining Operations

The Department of Environmental Protection (Department) announces the 2015 bond rate guidelines for anthracite and bituminous coal mining operations. These rates become effective April 5, 2015. The authority for bonding coal mining operations is found under The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the Surface Mining Conservation and Reclamation Act (52 P.S. §§ 1396.1—1396.19b), the Coal Refuse Disposal Control Act (52 P.S. §§ 30.51—30.66) and 25 Pa. Code Chapter 86, Subchapter F (relating to bonding and insurance requirements). The unit costs listed in these guidelines will be used in calculating the land reclamation bonds for surface coal mining operations including surface mines, coal refuse disposal sites, coal refuse reprocessing sites, coal processing facilities and the surface facilities of underground mining operations.

The procedures for calculating land reclamation bonds are described in Technical Guidance Document 563-2504-001, "Conventional Bonding for Land Reclamation—Coal," which is available on the Department's web site at [www.elibrary.dep.state.pa.us](http://www.elibrary.dep.state.pa.us). The Department calculated the rate of inflation using the Consumer Price Index (Northeast Urban) from the United States Department of Labor, Bureau of Labor Statistics, averaged for the calendar years 2010—2014, resulting in a rate of 1.94%. This rate of inflation will be used in calculating bond amounts for permit renewal or permit midterm bond liability reviews from April 5, 2015, through April 5, 2016.

The Department may review the adequacy of bonds on existing permits based on the bond rate guidelines at any time. The Department will conduct these reviews before issuing permit renewals. The Department may conduct similar reviews at the midterm of a permit and before approving a permit revision.

These bond rate guidelines do not apply to bonds ensuring replacement of water supplies under section 3.1(c) of the Surface Mining Conservation and Reclamation Act (52 P.S. § 1396.3a(c)) or to bonds ensuring compliance with the requirements of The Bituminous Mine Subsidence and Land Conservation Act (52 P.S. §§ 1406.1—1406.21).

#### General Methodology

The Department developed the bond rate guidelines for 2015 from the unit costs for competitively bid contracts for mine reclamation. Contract bid data is available for various unit operations needed to complete reclamation of a mine site for the years 1998—2014. For most categories, a 3-year (2012—2014) average was used to calculate the guidelines. Some categories required another approach due to limited data. For example, there were no contracts in 2012 or 2013 that included selective grading. Therefore, a 4-year average of available data was used for the 2015 selective grading bond rate.

In general, the costs for a given unit operation for each year are determined using the weighted average of the three lowest total bids for each contract. However, grading costs were calculated using a frequency distribution in combination with the weighted averages.

In the event that a unit operation necessary to calculate a reclamation bond is not listed in Table 1 or 2, then any additional cost information available will be used. If enough data is still not available, the rate will be set from a standard reference like *Means Building Construction Cost Data* or *Walker's Building Estimator's Reference Book*.

The fees associated with the Land Maintenance Bond Program are presented in Table 3. There has been no change in these rates for 2015.

The bond rate guidelines are available electronically at [www.portal.state.pa.us/portal/server.pt/community/bonding/20883/mine\\_site\\_reclamation\\_bond\\_rates/1150271](http://www.portal.state.pa.us/portal/server.pt/community/bonding/20883/mine_site_reclamation_bond_rates/1150271). For background information and supporting documentation regarding bonding rate guidelines, contact the Bureau of Mining Programs, Division of Permitting and Compliance, P. O. Box 8461, Harrisburg, PA 17105-8461, (717) 787-5103.

#### *Mine Sealing Costs*

The mine sealing bond rate guidelines are presented in Table 2. Mine sealing and borehole sealing bond rate guidelines remain the same for 2015.

#### *Effective Date*

The bond rate guidelines in this notice become effective April 5, 2015.

<sup>3</sup> Mine sealing costs are minimum costs. Additional costs per mine seal will be assessed based on specific design criteria, such as the thickness of the seal and the volume of backfill material required, using appropriate material, equipment and labor costs from BAMR bid abstracts or from an industry-standard cost estimation publications, for example, *Means Estimating Handbook* or *Walker's Building Estimator's Reference Book*.

**Rates to be Used for Calculating Long-Term Operation and Maintenance Cost Bonds for Water Supply Replacement; Mining Operations**

The Department of Environmental Protection (Department) announces the rates to be used to calculate bond amounts for water supply replacement operation and maintenance costs for anthracite and bituminous coal and industrial mineral mining operations. The authority for bonding mining operations is found under The Clean Streams Law (35 P. S. §§ 691.1—691.1001), the Surface Mining Conservation and Reclamation Act (52 P. S.

§§ 1396.1—1396.19b), the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66), The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21), the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326) and the regulations promulgated thereunder at 25 Pa. Code Chapters 77 and 86 (relating to noncoal mining; and surface and underground coal mining; general).

The rates are used in calculating the water supply operation and maintenance bond amounts for replacement water supplies affected by activities at mining operations including surface mines, coal refuse disposal

sites, coal refuse reprocessing sites, coal processing facilities, underground coal mining operations and industrial mineral surface mines. The procedures for calculating water supply operation and maintenance bonds are described in Technical Guidance 562-4000-102, "Increased Operation and Maintenance Costs of Replacement Water Supplies," which is available on the Department's eLibrary web site at [www.elibrary.dep.state.pa.us](http://www.elibrary.dep.state.pa.us).

The Department may review the adequacy of bonds on existing permits at any time. The Department will conduct these reviews before issuing permit renewals. The Department may conduct similar reviews at the midterm of a permit and before approving a permit revision.

#### *Rates*

The Department calculated the rate of inflation and rate of return using 5-year averages. For the rate of inflation, the Consumer Price Index (Northeast Urban) from the United States Department of Labor, Bureau of Labor Statistics, was averaged for the calendar years 2010—2014, resulting in a rate of 1.94%. For the rate of return, the interest rate for the 20-year Treasury bill as reported by the Federal Reserve was averaged for the calendar years 2010—2014 resulting in a rate of 3.276%.

For background information and supporting documentation regarding the rates, contact the Bureau of Mining Programs, Division of Permitting and Compliance, P. O. Box 8461, Harrisburg, PA 17105-8461, (717) 787-5103.

#### *Effective Date*

The rates in this notice will become effective on April 1, 2015. They will remain in effect until new rates are published. It is anticipated that these new rates will be published in February 2016, to be effective April 1, 2016.

Each party must bring documents, photographs, drawings, claims files, witnesses, and the like, necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Insurance Commissioner (Commissioner) may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend the previously-referenced administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing, should contact Donna R. Fleischauer, Human Resources Director at (717) 705-4194.

# PENNSYLVANIA PUBLIC UTILITY COMMISSION

## Americom Technologies, Inc.

Public Meeting held  
February 12, 2015

*Commissioners Present:* Robert F. Powelson, Chairperson;  
John F. Coleman, Jr., Vice Chairperson; James H.  
Cawley; Pamela A. Witmer; Gladys M. Brown

*Americom Technologies, Inc.; A-310345*

### Tentative Order

*By the Commission:*

Americom Technologies, Inc. (Americom or the Company), whose utility code is 310345, is a telecommunications interexchange reseller certificated at A-310345 on April 29, 1996.

Because Americom appeared to be an inactive business entity, Commission staff attempted to reach the Company to determine whether it should be considered an active utility in Pennsylvania. In doing so, staff spoke by telephone with a former employee who handled the filing of annual assessment reports and annual financial reports for the Company. This former employee advised that Americom has been out of business for about ten years.

The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the ordering of such other remedy as the Commission may deem appropriate. 66 Pa.C.S. §§ 504, 505, 506, and 3301. Based on the above facts, we tentatively conclude that it is appropriate to revoke Americom's certificate of public convenience without the necessity of a formal complaint as being in the public interest. Furthermore, the Commission may take other appropriate action, including the imposition of penalties under section 3301, in lieu of cancellation, if Americom seeks relief from this Tentative Order; *Therefore,*

*It is Ordered That:*

1. Revocation of Americom Technologies, Inc.'s certificate of public convenience is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, and the Bureau of Investigation & Enforcement, and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment within 30 days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary and shall advise the affected Bureaus within the Commission in writing that the certificate of public convenience held by Americom Technologies, Inc., utility code 310345, is cancelled, that its name be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administrative Services, and that the docket may be closed.

## Keystone Telecom, Inc.

Public Meeting held  
February 12, 2015

*Commissioners Present:* Robert F. Powelson, Chairperson;  
John F. Coleman, Jr., Vice Chairperson; James H.  
Cawley; Pamela A. Witmer; Gladys M. Brown

*Keystone Telecom, Inc.; A-310086*

### Tentative Order

*By the Commission:*

Keystone Telecom, Inc. (Keystone or the Company), whose utility code is 310086, is a telecommunications interexchange reseller certificated at A-310086 on August 25, 1992.

Because Keystone appeared to be an inactive business entity, Commission staff attempted to reach the Company to determine whether it should be considered an active utility in Pennsylvania. Commission staff's attempts to reach Keystone by mail and by telephone have been unsuccessful, and, in fact, the telephone number listed for the Company is no longer in service.

The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the ordering of such other remedy as the Commission may deem appropriate. 66 Pa.C.S. §§ 504, 505, 506, and 3301. Based on the above facts, we tentatively conclude that it is appropriate to revoke Keystone's certificate of public convenience without the necessity of a formal complaint as being in the public interest. Furthermore, the Commission may take other appropriate action, including the imposition of penalties under section 3301, in lieu of cancellation, if Keystone seeks relief from this Tentative Order; *Therefore,*

*It is Ordered That:*

1. Revocation of Keystone Telecom, Inc.'s certificate of public convenience is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, and the Bureau of Investigation & Enforcement, and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment within 30 days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary and shall advise the affected Bureaus within the Commission in writing that the certificate of public convenience held by Keystone Telecom, Inc., utility code 310086, is cancelled, that its name be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administrative Services, and that the docket may be closed.

**Telecarrier Services, Inc.**

Public Meeting held  
February 12, 2015

*Commissioners Present:* Robert F. Powelson, Chairperson;  
John F. Coleman, Jr., Vice Chairperson; James H.  
Cawley; Pamela A. Witmer; Gladys M. Brown

*Telecarrier Services, Inc.; A-311239; A-311239F0002*

**Tentative Order**

*By the Commission:*

Telecarrier Services, Inc. (Telecarrier or the Company), whose utility code is 311239, is a telecommunications interexchange reseller and a competitive local exchange carrier certificated at A-311239 and A-311239F0002, respectively, on April 17, 2003.

Because Telecarrier appeared to be an inactive business entity, Commission staff attempted to reach the Company to determine whether it should be considered an active utility in Pennsylvania. Commission staff's attempts to reach Telecarrier by mail and telephone have been unsuccessful. Our letters have come back as non-deliverable, return to sender, and both telephone numbers listed for the Company are no longer in service. Additionally, based on Commission records, the Company has not filed annual reports in several years. Telecarrier currently has no NXX Codes.

The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the ordering of such other remedy as the Commission may deem appropriate. 66 Pa.C.S. §§ 504, 505, 506, and 3301. Based on the above facts, we tentatively conclude that it is appropriate to revoke Telecarrier's certificates of public convenience without the necessity of a formal complaint as being in the public interest. Furthermore, the Commission may take other appropriate action, including the imposition of penalties under section 3301, in lieu of cancellation, if Telecarrier seeks relief from this Tentative Order; *Therefore,*

*It is Ordered That:*

1. Revocation of Telecarrier Services, Inc.'s certificates of public convenience are hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, and the Bureau of Investigation & Enforcement, and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment within 30 days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary and shall advise the affected Bureaus within the Commission in writing that the certificates of public convenience held by Americom Technologies, Inc., utility code 310345, are cancelled, that its name be stricken from all active utility lists maintained by the Commission's Bureau of Technical

Utility Services and the Assessment Section of the Bureau of Administrative Services, and that the docket may be closed.
