Part I

General Information for Contractors

A. *Purpose.* This request for proposals (RFP) provides to those interested in submitting proposals for the subject procurement ("Offerors") sufficient information to enable them to prepare and submit proposals for the Commonwealth Financing Authority ("CFA") to provide the CFA with solar energy economic modeling advisory services. ("Project").

B. *Issuing Office.* This RFP is issued for the Commonwealth of Pennsylvania by the CFA ("Issuing Office"). The Issuing Office is the sole point of contact for this RFP. All communications concerning this RFP must be directed in writing to:

Scott D. Dunkelberger, Executive Director
Commonwealth Financing Authority
Commonwealth Keystone Building
400 North Street
4th Floor
Harrisburg, PA 17120

C. *Scope.* This RFP contains instructions governing the proposals to be submitted and the material to be included therein, including:

- a description of the deliverables and services to be provided;
- requirements which must be met to be eligible for consideration.

D. *Problem Statement.* The CFA is soliciting proposals for firms interested in providing solar energy economic modeling advisory services to the CFA for the Solar Energy Program. The Solar Energy Program provides financial assistance in the form of grant and loan funds

that will be used by eligible applicants to promote the generation and use of solar energy and the manufacture or assembly of solar equipment in the Commonwealth.

E. *Type of Contract.* It is proposed that if a contract is entered into as a result of this RFP, it will be a firm, fixed-price contract. Negotiations may be undertaken with contractors whose proposals, price and other factors show them to be qualified, responsible and capable of performing the work. The selected contractor will be expected to enter into a standard contract and the selected contractor will be subject to the specifications and requirements set forth in this package.

F. *Rejection of Proposals.* The CFA reserves the right to reject any and all proposals received as a result of this request or to negotiate separately with competing contractors.

G. *Incurring Costs.* The CFA is not liable for any cost incurred by contractors prior to issuance of a contract.

H. *Amendment to the RFP.* If it becomes necessary to revise any part of this RFP, an amendment will be issued to all contractors who received the basic RFP.

I. *Response Date.* To be considered, proposals must arrive at the Issuing Office on or before the time and date specified in the cover letter to this RFP. Contractors mailing proposals should allow sufficient mail delivery time to insure timely receipt of the proposal. The proposal shall be enclosed and sealed in an envelope which is clearly marked "Proposal for CFA Solar Energy Economic Modeling Advisory Services RFP". It is the responsibility of each contractor to ensure that its proposal is received at the Issuing Office prior to the date and time specified in the cover letter to this RFP, regardless of medium used. In the event that, due to inclement weather, natural disaster, or other cause, the Commonwealth offices are officially closed on the date the proposals are due, the deadline for submission shall be automatically postponed until the next Commonwealth business day, unless the contractors are otherwise notified by the CFA. The time for submission of proposals shall remain the same.

J. *Proposals.* To be considered, contractors must submit a complete response to this RFP, using the format provided in Part II. Fifteen (15) copies of each proposal must be submitted to the Issuing Office. No other distribution of proposals will be made by the contractor. Proposals must be signed, in ink, by an official authorized to bind the contractor to its provisions. An official authorized to bind the Offeror to its provisions must sign the proposal. If the official signs the Proposal Cover Sheet (Appendix B to this RFP) and the Proposal Cover Sheet is attached to the Offeror's proposal, the requirement will be met. For this RFP, the proposal must remain valid for at least 120 days. Moreover, the contents of the proposal of the successful respondent will become contractual obligations if a contract is entered into.

K. *Small Diverse Business Information.* The Issuing Office encourages participation by small diverse businesses as prime contractors, and encourages all prime contractors to make a significant commitment to use small diverse businesses as subcontractors and suppliers.

A Small Diverse Business is a DGS-verified minority-owned business, woman-owned business, veteran-owned business or service-disabled veteran-owned business.

A small business is a business in the United States which is independently owned, not dominant in its field of operation, employs no more than 100 full-time or full-time equivalent employees, and earns less than \$7 million in gross annual revenues for building design, \$20 million in gross annual revenues for sales and services and \$25 million in gross annual revenues for those businesses in the information technology sales or service business.

Questions regarding this Program can be directed to:

Department of General Services
Bureau of Small Business Opportunities
Room 611, North Office Building
Harrisburg, PA 17125

The Department's directory of BSBO-verified minority, women, veteran and service disabled veteran-owned businesses can be accessed from: Searching for Small Diverse Businesses.

L. Oral Presentation. Contractors who submit proposals may be required to make an oral presentation of their proposal to the CFA. Such presentations provide an opportunity for the contractor to clarify the proposal to insure thorough mutual understanding. The Issuing Office will schedule these presentations.

M. Economy of Preparation. Proposals should be prepared simply and economically, providing a straightforward, concise description of the contractor's ability to meet the requirements of this RFP.

N. Contractor Responsibilities. The selected contractor will be required to assume responsibility for all services offered in the proposal whether or not the selected contractor provides those services or subcontracts them. Further, CFA will consider the selected contractor to be the sole point of contact with regard to contractual matters. CFA reserves the right to approve any and all subcontracts.

O. Proposal Contents.

A. Confidential Information. The Commonwealth is not requesting, and does not require, confidential proprietary information or trade secrets to be included as part of Offerors' submissions in order to evaluate proposals submitted in response to this RFP. Accordingly, except as provided herein, Offerors should not label proposal submissions as confidential or proprietary or trade secret protected. Any Offeror who determines that it must divulge such information as part of its proposal must submit the signed written statement described in subsection c. below and must additionally provide a redacted version of its proposal, which removes only the confidential proprietary information and trade secrets, for required public disclosure purposes.

B. Commonwealth Use. All material submitted with the proposal shall be considered the property of the Commonwealth of Pennsylvania and may be returned only at the Issuing Office's option. The Commonwealth has the right to use any or all ideas not protected by intellectual property rights that are presented in any proposal regardless of whether the proposal becomes part of a contract. Notwithstanding any Offeror copyright designations contained on proposals, the Commonwealth shall have the right to make copies and distribute proposals internally and to comply with public record or other disclosure

requirements under the provisions of any Commonwealth or United States statute or regulation, or rule or order of any court of competent jurisdiction.

C. Public Disclosure. After the award of a contract pursuant to this RFP, all proposal submissions are subject to disclosure in response to a request for public records made under the Pennsylvania Right-to-Know-Law, 65 P. S. § 67.101, et seq. If a proposal submission contains confidential proprietary information or trade secrets, a signed written statement to this effect must be provided with the submission in accordance with 65 P. S. § 67.707(b) for the information to be considered exempt under 65 P. S. § 67.708(b)(11) from public records requests. If financial capability information is submitted in response to Part II of this RFP such financial capability information is exempt from public records disclosure under 65 P. S. § 67.708(b)(26).

P. News Releases. News releases pertaining to this project may not be made by the selected contractor without prior CFA approval, and then only in coordination with the Issuing Office.

Q. Debriefing Conference. Contractors whose proposals are not selected will be notified of the name of the selected contractor and will be given the opportunity to be debriefed. The Issuing Office will schedule the time and location of the debriefing.

R. Period of Contract. The contract will be entered into as soon after the final selection as feasible, subject to the availability of funds, and will operate for one year from that date. The CFA retains the right to extend the completion date if necessary for the successful completion of work, without any increase in contract price. Additionally, at the discretion of the CFA, the contract awarded as a result of this RFP may be extended for an additional period or periods of time not to exceed one year, if the services being rendered are judged to be exceptionally effective and of benefit to the Commonwealth. Conversely, the CFA may choose to terminate the contractual arrangement upon 30 days notice if, in the CFA's opinion, the services being provided are not adequate, are not of benefit to the Commonwealth, or are no longer needed.

S. Expenses. The proposed cost of the contractor should include all travel and miscellaneous expenses.

T. Payment. The successful contractor will be permitted to bill the CFA bimonthly for reimbursement under this contract.

U. Questions. In order to allow sufficient time for the Issuing Office to respond to questions concerning the contents of the proposal, such questions must be submitted to the Issuing Office in writing on or before the time and date specified in the cover letter to this RFP.

V. Cost Data. All cost data for the proposal shall be submitted in a separate sealed envelope within the sealed proposal and kept separate from the technical proposal. Failure to meet this requirement will result in automatic disqualification of the proposal. The successful contractor will be required to provide the specified services at the prices quoted in its proposal.

W. Contractor's Representation and Authorization. Each contractor by submitting its proposal understands, represents and acknowledges that:

1. The contractor understands and acknowledges that all information provided by, and representations made by, the contractor in the proposal are material and important and will be relied upon by the Issuing Office in

awarding the contract(s). Any misstatement shall be treated as fraudulent concealment from the Issuing Office of the true facts relating to the submission of this proposal. A misrepresentation shall be punishable under Section 4904 of Title 18 Pa.C.S.A.

2. The price(s) and amount of this proposal have been arrived at independently and without consultation, communication or agreement with any other contractor or potential contractor.

3. Neither the price(s) nor the amount of the proposal, and neither the approximate price(s) nor the approximate amount of this proposal, have been disclosed to any other firm or person who is a contractor or potential contractor, and they will not be disclosed on or before the proposal submission deadline specified in the cover letter to this RFP.

4. No attempt has been made or will be made to induce any firm or person to refrain from bidding on this contract, or to submit a proposal higher than this proposal, or to submit any intentionally high or noncompetitive proposal or other form of complementary proposal.

5. The proposal is made in good faith and not pursuant to any agreement or discussion with, or inducement from, any firm or person to submit a complementary or other noncompetitive proposal.

6. To the best knowledge of the person signing the proposal for the contractor, the contractor, its affiliates, subsidiaries, officers, directors and employees are not currently under investigation by any governmental agency and have not in the last four years been convicted or found liable for any act prohibited by State or Federal law in any jurisdiction, involving conspiracy or collusion with respect to bidding on any public contract, except as disclosed by the contractor in its proposal.

7. To the best of the knowledge of the person signing the proposal for the contractor and except as otherwise disclosed by the contractor in its proposal, the contractor has no outstanding, delinquent obligations to the Commonwealth including, but not limited to, any state tax liability not being contested on appeal or other obligation of the contractor that is owed to the Commonwealth.

8. The contractor is not currently under suspension or debarment by the Commonwealth, or any other state, or the federal government, and if the contractor cannot certify, then it shall submit along with the proposal a written explanation of why such certification cannot be made.

9. The contractor has not, under separate contract with the Issuing Office, made any recommendations to the Issuing Office concerning the need for the services described in the proposal or the specifications for the services described in the proposal.

10. Each contractor, by submitting its proposal, authorizes all Commonwealth agencies to release to the Commonwealth information related to liabilities to the Commonwealth including, but not limited to taxes, unemployment compensation, and workers' compensation liabilities.

X. *RFP Protest Procedure.*

1. Any offeror or prospective offeror, who is aggrieved in connection with the RFP or award of the contract solicitation or award of a contract, may file a protest as provided in the Procurement Code, Act 57 of 1998, 62 Pa.C.S.A. Section 1711.1.

Part II Information Required from Contractors

Offerors must submit their proposals in the format, including heading descriptions, outlined below. To be considered, the proposal must respond to all requirements in this part of the RFP. Offerors should provide any other information thought to be relevant, but not applicable to the enumerated categories, as an appendix to the Proposal. All cost data relating to this proposal and all Small Diverse Business cost data should be kept separate from and not included in the Technical Submittal. Each Proposal shall consist of the following three separately sealed submittals:

The Issuing Office reserves the right to request additional information which, in the Issuing Office's opinion, is necessary to assure that the Offeror's competence, number of qualified employees, business organization, and financial resources are adequate to perform according to the RFP.

The Issuing Office may make investigations as deemed necessary to determine the ability of the Offeror to perform the Project, and the Offeror shall furnish to the Issuing Office all requested information and data. The Issuing Office reserves the right to reject any proposal if the evidence submitted by, or investigation of, such Offeror fails to satisfy the Issuing Office that such Offeror is properly qualified to carry out the obligations of the RFP and to complete the Project as specified.

Part III Criteria for Selection

A. All proposals received from contractors will be reviewed and evaluated by the CFA. Prior to the final selection, the CFA may conduct discussions with contractors for the purpose of obtaining best and final offers.

B. The following areas of consideration will be used in making the selection:

1. *Understanding the Problem.* This refers to the contractor's understanding of the CFA's needs that generated the RFP, of the CFA's objectives in asking for the services or undertaking the study, and of the nature and scope of the work involved.

2. *Contractor Qualifications.* This refers to the ability of the contractor to meet the terms of the RFP, especially the time constraints and the quality, relevancy, and recency of studies and projects completed by the contractor. This also includes the contractor's financial ability to undertake a project of this size.

3. *Professional Personnel.* This refers to the competency of professional personnel who would be assigned to the job by the contractor. Qualifications of professional personnel will be measured by experience and education, with particular reference to experience in providing financial advisory services.

4. *Soundness of Approach.* Emphasis here is on the techniques for collecting and analyzing data, sequence and relationships of major steps, and methods for managing the service. Of equal importance is whether the technical approach is completely responsive to all written specifications and requirements contained in the RFP and if it appears to meet CFA objectives.

5. *Small Diverse Business Participation.* Each proposal will be rated for its approach to enhancing the utilization of Small Diverse Businesses.

6. *Cost.* This area will be a significant but not deciding factor in the selection process.

Part IV Work Statement

The Commonwealth Financing Authority (CFA) is soliciting proposals from firms interested in providing solar energy economic modeling consulting services to the CFA for the Solar Energy Program. The Solar Energy Program provides financial assistance in the form of grant and loan funds that will be used by eligible applicants to promote the generation and use of solar energy and the manufacture or assembly of solar equipment in the Commonwealth. Eligible applicants include businesses, economic development organizations and political subdivisions. The Program is administered by the Department of Community and Economic Development (DCED) under the direction of the CFA. Independent solar energy economic modeling consulting services will be used to advise the CFA on the current solar energy market to determine the type and amount of financial assistance necessary to incentivize and maximize solar deployment in the Commonwealth. The CFA has over \$30 million in funds ready to deploy under the Solar Energy Program. The Contractor will be expected to provide the following deliverables:

1. Provide the CFA Board with information on the current solar energy market, including purchase and installation prices, solar panel efficiency, life expectancy of installations, solar energy financing models, solar renewable energy credit (SREC) markets and other trends in the development of solar energy. The CFA Board

is seeking information on the solar energy market in the Commonwealth, neighboring states in the PJM market and the national level.

2. Provide information on all forms of incentives currently available to solar energy projects, including federal and state grants, loans, tax credits and depreciation benefits.

3. Provide typical solar energy economic models, including but not limited to direct ownership, sale-leaseback, leasing arrangements and power purchase agreement (PPA) structures. Economic modeling should include typical purchase and installation costs, tax credit and depreciation benefits, energy pricing (should include energy pricing assumptions for each electric utility market in the Commonwealth), inflation and cost increase assumptions, solar energy renewable credit (SREC) pricing and forward SREC contract assumptions, operation and maintenance expenses, insurance and other administrative costs. The economic models should provide information on typical return on investments (ROI) for the overall project including, but not limited to, the simple payback for investors and the 10-year internal rate of return (IRR). For PPA structures, advise the board on how fair market value is determined at the end of the PPA term.

4. Review Solar Energy Program guidelines and evaluation criteria to provide recommendations for changes necessary to maximize the deployment of solar energy in the Commonwealth.

The Contractor will be expected to perform the following services:

5. Attend CFA Board meetings, staff review committee meetings, and briefings to provide information and answer questions on solar energy economic modeling.

6. Provide all other solar energy economic modeling analysis services as reasonably requested by the CFA.

DEPARTMENT OF AGING

DEPARTMENT OF HUMAN SERVICES

Availability of Discussion Document on Managed Long-Term Services and Supports; Public Input Meetings

On February 27, 2015, Governor Tom Wolf unveiled a package of legislative and budgetary actions to provide choice and protections for seniors as they age. As a result, the Department of Human Services (Department) in partnership with the Department of Aging will pursue the implementation of managed long-term care and engage stakeholders to ensure that the system is person-centered, breaks down barriers and fills in the gaps that currently exist in the long-term care services and supports system. This initiative, which was recommended by the Pennsylvania Long-Term Care Commission, will result in a more strategic care delivery system and improved health outcomes for seniors and people with disabilities.

The University of Pittsburgh was engaged by the Department to develop a discussion document as the basis for policy development and contracting for a managed care program for Medicaid beneficiaries who require long-term services and supports (LTSS). This discussion document outlines key decision points and offers recommendations for a Medicaid managed long-term services and supports (MLTSS) program based on a review of the literature and relevant experiences from other states that have implemented or experimented with these types of programs. The overall objectives of the MLTSS initiative are to:

- Improve care coordination in the LTSS system to ensure consumers have access to comprehensive person-centered supports and services.
- Improve and expand service delivery in the LTSS system to ensure that consumers have access to appropriately qualified providers of care.
- Improve quality and outcomes in the LTSS system by utilizing alternative care delivery systems to provide the right service, at the right time and in the right location.
- Enhance transitions from more to less intensive settings to ensure continuity of care and prevent unnecessary readmissions.
- Make the LTSS system more fiscally sustainable.

The discussion document is available at <http://www.dhs.state.pa.us/foradults/managedlongtermsupports/index.htm> or by contacting the Department of Human Services, Office of Long-Term Living at (717) 783-8412. Persons who wish to request a copy of the discussion document in an alternate format, contact the Department at the number previously listed.

The Department will hold six public input meetings throughout this Commonwealth to receive comments on the Department's wish to move forward with the implementation of the MLTSS.

Substantial Amendment to the 2014-2018 Consolidated Plan and 2014 Action Plan and Adoption of the 2015 Action Plan; Public Hearing

The Department of Community and Economic Development (Department) is amending the Commonwealth's Consolidated Plan for 2014-2018 and the 2014 Action Plan and adopting the 2015 Action Plan. The Action Plan is the annual application to the United States Department of Housing and Urban Development (HUD) for Federal funds administered by the Commonwealth. The HUD funding programs covered by the Action Plan and administered by the Department are the Community Development Block Grant (CDBG), the HOME Investment Partnerships (HOME), the Emergency Solutions Grant (ESG), Community Development Block Grant-Disaster Recovery (CDBG-DR) and Neighborhood Stabilization Program (NSP 1 and 3) programs. The Department of Health administers the Housing Opportunities for Persons with AIDS (HOPWA) program. Interested persons may view the Plan at <http://www.newpa.com/community/federal-program-resource-library/consolidated-plan-and-related-documents> or request a copy following the same procedures as listed under Written Comments.

Public Hearing

The second public hearing for the Substantial Amendment and 2015 Action Plan will be conducted electronically by means of the Internet on Wednesday, June 17, 2015. Access to the discussion by means of the Internet will occur between the hours of 1 p.m. and 2 p.m. This more widely available personal computer access will replace the onsite public hearing. The format will be more accessible than an in-person hearing because those who wish to make comment or discuss policy may participate directly from their personal computer or from a computer located at their public library.

Individuals or organizations may give testimony or comments by means of the Internet. Citizen comments will be taken on the Amendment and Action Plan and the Commonwealth's intended use and method of distribution of the 2015 Federal funding from HUD. The Commonwealth encourages public participation in this process.

Anyone who wants to participate must register in advance. Contact Megan L. Snyder at (717) 720-7404 to receive registration instructions for the Internet hearing at least 24 hours prior to the hearing date. During the hearing, if support is required, call (717) 787-5327. The hearing will be shortened if there is no one to testify or there is minimal response.

Individuals with a disability who wish to participate in the public hearing should contact Megan L. Snyder, Department of Community and Economic Development,

Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg, PA 17120-0225, (717) 720-7404 or TDD at (717) 346-0308 to discuss how the Department can accommodate their needs.

Written Comments

Written testimony, instead of Internet testimony, must be submitted by 5 p.m. on Monday, June 29, 2015. Submit comments to Megan L. Snyder, Department of Community and Economic Development, Center for Community Financing, 400 North Street, 4th Floor, Commonwealth Keystone Building, Harrisburg, PA 17120-0225, RA-DCED cdbg&homequestions@pa.gov.

Proposed Exchange of Property

The Department of Conservation and Natural Resources (Department), acting through the Bureau of Forestry, and the Game Commission are proposing to negotiate an exchange of property interests in Benezette Township, Elk County.

The Game Commission proposes to convey 291.43 acres of State Game Lands 311 along the north and south sides of Gray Hill Road just west of Benezette. In return, the Bureau of Forestry proposes to convey 291.43 acres of Elk State Forest that is adjacent to State Game Lands 311 and near the Thunder Mountain Equestrian Trail just north of Benezette. An environmental review was conducted by the Bureau of Forestry regarding the exchange and the review was approved by the State Forester.

As is the policy of the Department, the public is hereby notified of this exchange. A 30-day period for public inquiry or comment, or both, will be in effect beginning June 6, 2015, and ending July 5, 2015. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appro-

priate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation

to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The expected combined potential emissions from the sources are: 29.64 tons per year of VOCs; 1.13 tons per year of SO_x and less than one ton per year each of NO_x, CO, PM and HAPs. The facility is a Title V facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12, and the Reasonably Available Control Technology requirements of 25 Pa. Code § 129.91. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

Code §§ 127.424, 127.425 and 127.521, the Department of Environmental Protection (DEP) is providing notice that it intends to issue a Title V Operating Permit renewal to Dura-Bond Steel Corporation for their facility located in Export Borough, **Westmoreland County**. Dura Bond is a specialty fabricator and coater of steel pipe and metal products.

The primary operations at this facility include shot blasting, sand blasting, coating and fabrication. The steel pipes and other metal products are cleaned by sandblasting or shot blasting. After cleaning, the materials are coated in the spray area using airless spray guns. Materials are then placed in the day down area for drying and curing. Sometimes, they are forced cured using portable natural gas heaters. Fabrication work is done in a separate building. It includes typical machine shop/metal fabrication equipment such as grinders, welding stations, saws, torching, etc. There are several baghouses to control particulate emissions.

The pollutants of concern from this facility are VOCs from the coating and cleaning operations and small amount of particulate matters. The overall facility's potential VOC emission is limited to 92 tons per 12 consecutive month period. Other insignificant emissions are NO_x, SO_x and CO from the use of natural gas fired heaters. The reported emissions inventory for the year 2013 were 16.17 tpy of VOCs and 13.71 tpy of PM₁₀. Dura Bond is major for HAPs and subject to 40 CFR 63, Subpart MMMM. 	30-day Average	Daily Maximum	Instantaneous Maximum
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

As proposed, the above listed activities will permanently impact 61-feet of stream and 160-square feet of wetland; whereas, temporary impacts of 21-feet of stream and 160-square feet of wetland will also be incurred. Any in-stream construction activity shall be performed in dry work conditions by boring, dam and pumping, fluming or diverting stream flow around the stream section where activities are to be conducted. Since the above listed streams are wild trout fisheries, no in-stream repair, replacement or maintenance activities on equestrian trail crossings shall be conducted between October 1 and December without prior written approval of the Pennsylvania Fish & Boat Commission. The Quehanna Equestrian Trails is generally located along the western right-of-way of Upper Three Run Road approximately 2.1-miles north of Pottersdale Road and Upper Three Runs Road intersection. The 160-square feet of permanent wetland impact being incurred for the Twelve Mile Run equestrian ford crossing has been deemed de minus, for which mitigation shall not be required.

41-661. Brett Snyder, 599 Lyons Barr Road, Montoursville, PA 17754. Snyder Property along Loyalsock Creek in Fairfield Township, **Lycoming County**, ACOE Baltimore District (Montoursville North, PA Quadrangle Lat: 41° 16' 36"; Long: -76° 55' 01").

To construct and maintain an existing single family home in Fairfield Township—Lycoming County, which is located within the floodway/floodplain of Loyalsock Creek. The project proposes three fill areas which would be offset by a borrow pit area located within the floodway.

The project will have a no net fill with approximately 1,200 cubic yards of cut and 1,200 cubic yards of fill. Approximately 1,184 cubic yards of material will be removed from a borrow pit located within the floodway of Loyalsock Creek. Excavated material from construction operations will be disposed out of the floodway. The proposed project and calculations show a balance in cut/fill which will have no effect on the flood storage capacity.

The proposed project will not permanently impact wetlands, cultural or archaeological resources, national/state/local parks, forests recreational areas, landmarks wildlife refuge or historical sites. Loyalsock Creek is classified with a designated use of Trout Stocked Fishery (TSF) and with an existing use of Exceptional Value (EV).

The application is proposing to operate and maintain an existing 200 linear foot (lf) long reinforced concrete pipe (RCP) stream enclosure and to construct and maintain an extension of the existing stream enclosure with a 160 lf, 60-inch diameter, RCP stream enclosure within an unnamed tributary (UNT) to Chartiers Creek (WWF), for the purpose of expanding the existing John Sisson, Inc. Mercedes-Benz dealership building and parking lot, located at 470 Washington Road (Washington East, PA USGS Topographic Quadrangle; Lat: 40° 11' 19"; Long: -80° 12' 42"), in South Strabane Township, Washington County. The permanent impacts to 160 linear feet of watercourse will be mitigated, downstream from the proposed structure, by restoring 181 lf of the same UNT to Chartiers Creek.

717-705-4707**PUBLIC WATER SUPPLY PERMITS**

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific

standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Kennametal produces cemented tungsten carbide at this facility.

The facility is made up of eight attritors and four ballmills where heptane is added to make the carbide slurry. The heptane is used to prevent oxidation. The attritors have water cooling jackets on the lids. The ballmills are equipped with a cool water jacket which is supplied by municipal water. The drying room is equipped with 3 vacuum dryers; each utilizes a condenser which employs vacuum technology to collect and contain greater than 95% of the vapors of each batch. For the most part the drying cycle is considered to be a closed loop system. There are baghouses to control particulate emissions.

The pollutants of concern from this facility are VOC from heptane and small amount of particulate matters. The overall potential VOC emission limit for the facility is 152 tons per 12 consecutive month period. The proposed TVOP renewal contains emission restriction, test-

ing, monitoring, recordkeeping, reporting and work practice standards derived from the applicable requirements of Pa. Code Title 25, Article III, Chapters 121–145.

The initial operating permit was issued on November 12, 2009, with an effective date of December 1, 2009. Pet Memorial Services continues to operate four (4) identical Crawford animal crematoriums (Source ID 101), rated at 450 lbs/hr each and one (1) EPA Technologies animal crematorium (Source ID 102), rated for 130 lbs/hr. As a modification to the crematoriums, opacity sensors have been added to each unit to ensure that the opacity does not exceed 10%, allow the facility to stoke the crematoriums as needed. Conditions have been added to the operating permit to address this modification. The facility also has a parts washer (Source ID 200) and an emergency generator (Source ID 700). These sources did not require a Plan Approval. Applicable requirements have been incorporated into the operating permit for these two sources. The following are potential emissions from the facility: NO_x—17.21 TPY; VOC—17.1 TPY; SO_x—13.96 TPY; PM—39.09 TPY; CO—55.89 TPY; and HCl—6.14 TPY. The permit will contain monitoring, recordkeeping, reporting, and work practice standards designed to keep the facility operating within all applicable air quality requirements.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483.

TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

DEPARTMENT OF HUMAN SERVICES

Nursing Facility Assessment Program for Fiscal Year 2015-2016

This notice announces the proposed assessment amount, the proposed assessment methodology and the estimated aggregate impact on nursing facilities that will be subject to the assessment under the Nursing Facility Assessment Program beginning Fiscal Year (FY) 2015-2016.

Background

Article VIII-A of the Public Welfare Code (code) (62 P. S. §§ 801-A—815-A) authorizes the Department of Human Services (Department) to impose an annual monetary assessment on nonpublic and county nursing facilities in this Commonwealth each fiscal year. Under Article VIII-A of the code, the Department may impose the assessment only to the extent that the assessment revenues qualify as the State share of Medical Assistance (MA) Program expenditures eligible for Federal financial participation (FFP). See 62 P. S. § 803-A. To ensure receipt of FFP, Article VIII-A of the code requires the Department to seek a waiver from the Centers for Medicare and Medicaid Services (CMS) if necessary to implement the Assessment Program. See 62 P. S. § 812-A. For FY 2015-2016, the Department will submit a request to CMS for an amendment to the Assessment Program. The implementation of the changes to the Assessment Program is contingent on CMS's approval of the request.

For each fiscal year that the Assessment Program is implemented, the code authorizes the Secretary of the Department (Secretary) to determine the aggregate amount of the assessment and the annual assessment rate in consultation with the Secretary of the Budget. See 62 P. S. § 804-A. The code specifies that annual assessment rates must be sufficient to generate at least \$50 million in additional revenue, but not more than the maximum aggregate assessment amount that qualifies for FFP. See 62 P. S. § 804-A.

The Secretary must publish a notice in the *Pennsylvania Bulletin* before imposing an annual assessment for a fiscal year. The notice must specify the amount of the assessment being proposed, explain the proposed assessment methodology, identify the estimated assessment amount and aggregate impact on nursing facilities subject to the assessment and provide interested persons a 30-day period to comment. See 62 P. S. § 805-A.

This notice announces the assessment amounts, rates and methodology that the Department is proposing to implement in FY 2015-2016 and the estimated aggregate impact on nursing facilities that will be subject to the assessment in FY 2015-2016.

Proposed Assessment Methodology and Rates

During FY 2015-2016, the Department is proposing to maintain the same assessment methodology that was used in FY 2014-2015, but for an adjustment to the qualifications for the assessment rates.

The following nursing facilities will continue to be exempt from the Assessment Program in FY 2015-2016:

- (1) State-owned and operated nursing facilities.
- (2) Veteran's Administration nursing facilities.

(3) Nursing facilities that have not been licensed and operated by the current or previous owner for the full calendar quarter prior to the calendar quarter in which an assessment is collected.

(4) Nursing facilities that provide nursing facility services free of charge to all residents.

Under the proposed rate structure, the Department will assess nonexempt nursing facilities at two rates. One rate will apply to four categories of nursing facilities: county nursing facilities; nursing facilities that have 44 or fewer licensed beds; certain Continuing Care Retirement Community (CCRC) nursing facilities (see 40 Pa.B. 7297 (December 18, 2010)); and nursing facilities with an MA occupancy rate of at least 94% based on the 4 most recently submitted assessment quarter reports for each nursing facility as of November 5, 2014. Previously, nursing facilities with an MA occupancy rate of at least 94% did not qualify for this rate unless they qualified under the existing three categories.

Since the Nursing Facility Assessment Program began in 2003, the Department has requested and CMS has approved a waiver of the broad based and uniformity requirements under 42 CFR 433.68 (relating to permissible health care-related taxes) for each State fiscal year (SFY) thereby avoiding any reduction in FFP. When submitting the waiver request, the Department must demonstrate, among other things, that the assessment is generally redistributive using the statistical test described in 42 CFR 433.68(e)(2). Generally, to meet the test a certain proportion of high MA utilization facilities must be exempt or assessed at a lower rate. Due to the number of former county nursing facilities that are now assessed at a higher rate because of a change of ownership from county ownership to a nonpublic nursing facility provider, the Department is proposing that nursing facilities with an MA occupancy rate of at least 94% qualify for the lower assessment rate to ensure the value of the statistical test (B1/B2) previously referenced is at least 1 and thereby ensuring CMS's approval of the waiver request for SFY 2015-2016.

A nursing facility's MA occupancy rate for the purpose of qualifying for the lower assessment rate will be calculated as follows: MA Occupancy Rate = Sum of Total Pennsylvania MA Days from each of the four quarters ÷ Sum of Total Resident Days from each of the four quarters, rounded to two decimals.

The other rate will apply to all other nonexempt facilities, including nursing facilities that began participation in a CCRC on or after July 1, 2010. Using the applicable rate, the Department will calculate each nonexempt facility's quarterly assessment amount by multiplying its assessment rate by the facility's non-Medicare resident days during the calendar quarter that immediately preceded the assessment quarter.

The Department also proposes to increase the assessment rate for nonexempt nursing facilities in the higher

rate tier from the rate in FY 2014-2015. The proposed assessment rates for FY 2015-2016 are as follows:

(1) For county nursing facilities, for nursing facilities that have 44 or fewer licensed beds, for grandfathered CCRC nursing facilities and nursing facilities with an MA occupancy rate of at least 94% based on the latest 4 assessment quarters for each nursing facility as of November 5, 2014, the assessment rate will be \$8.01 per non-Medicare resident day.

(2) For all other nonexempt nursing facilities, the assessment rate will be \$30.06 per non-Medicare resident day.

Before proposing this change and determining the assessment rates to be applied in FY 2015-2016, the Department met with representatives of the nursing facility industry to discuss the need to modify the assessment to comply with Federal requirements and to obtain their input on various alternatives. The Department used this input in developing the proposed changes. These changes will ensure that the assessment program continues to achieve its intended purpose of generating revenue to support medical assistance payments to nursing facilities while minimizing any potential financial harm to nursing facilities.

Aggregate Assessment Amounts and Fiscal Impact

The Department estimates that if the proposed assessment rates are implemented the annual aggregate assessment fees for nonexempt nursing facilities will total \$485.035 million. The Department will use the State revenue derived from the assessment fees and any associated FFP to support payments to qualified MA nursing facility providers in accordance with applicable laws and regulations.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>
#125-187	Pennsylvania Gaming Control Board Fortune Asia Poker; Table Game Rules of Play 45 Pa.B. 1383 (March 21, 2015)	4/20/15	5/20/15

**Pennsylvania Gaming Control Board
Regulation #125-187 (IRRC #3092)**

**Fortune Asia Poker; Table Game Rules of Play
May 20, 2015**

We submit for your consideration the following comments on the proposed rulemaking published in the March 21, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

1. Whether the regulation is in the public interest; Adverse effects on prices, productivity of competition; and the Economic and social impact of the regulation on individuals.

Section 12 of the Regulatory Analysis Form (RAF) asks how this regulation compares with those of other states and how it will affect Pennsylvania's ability to compete with other states. The Board's response to these questions is that the regulation will expand the complement of table

games and side wagers available for patron play and should not negatively impact Pennsylvania's ability to compete.

We seek more information on the house advantage for each of the new wagers contained in this rulemaking. We ask the Board to provide this information and to compare it to other gaming jurisdictions.

Section 17 of the RAF requests that the Board provide the financial, economic and social impact of the regulation on individuals, small business, business and labor communities and other public and private organizations, and to evaluate the benefits expected as a result of this regulation. The Board responds that it does not anticipate the regulation to have a negative financial or economic impact on the regulated community and that slot machine licensees will have a greater number of side wagers to offer at their facilities. The Board, however, does not address the economic or social impact of the rulemaking on individuals, particularly with respect to how the house advantage on each of the new wagers will impact players. The Board should provide this information in the RAF of the final-form regulation.

2. Miscellaneous clarity.

- In section 659a.6(d)(1), the word “a” should be inserted after the phrase “which is.”
- In section 659a.11(h)(1)(i)(B), we believe the same language that appears in (A), i.e. “or three pair of higher, depending on the payout table selected by the certificate holder,” should be added after the words “a straight or higher”; and
- In section 659a.12(d)(2), the word “reset” should be “reset.”
