READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Rule 76. Definitions.

Blair County Bar Association Mediation Program—An alternative dispute resolution tool which utilizes the time and skills of several experienced members of the Blair County Bar who act as neutral mediators. This program provides the parties with an opportunity to expand and develop areas of agreement which can resolve their dispute at considerable savings of financial and human resources to everyone involved. Submission of cases to the Blair County Bar Association Mediation Program is voluntary, unless ordered otherwise.

Blair County Local Rules—These rules apply to any civil matter of business coming before this Court, unless designated otherwise. They shall be cited as B.C.L.R.

Notice of Argument/Hearing—An Order of Court setting a date, time and location for hearing on a petition or motion requiring a decision of Court. See B.C.L.R. 301.

Pretrial Conference—A conference among counsel, the Court and such other persons as directed to be present or permitted to attend by the judge. The purpose shall be to discuss the posture of the case, including settlement, in an effort to prepare the case for trial. A formal narrative is required for this conference. See Pa.R.Civ.P. 212.2—212.3.

Settlement Conference/Judicial Mediation—A meeting among counsel, litigants, the Court and other such persons as directed by the judge to be present in person for the purpose of resolving the action. This meeting shall be attended in person unless excused by the judge. All persons with settlement authority shall be required to attend unless specifically excused by the Court.

Status Conference—A conference among counsel and a court representative to take place early in the litigation or at any other point the Court deems necessary to move the case toward resolution. No pretrial narratives are necessary. Counsel should be prepared to discuss the present status of the lawsuit, appropriate time limits for discovery, and the possible use of alternative dispute resolution. The Court may set discovery deadlines at this time and may schedule a formal pretrial. See B.C.L.R. 300.

(1) We hereby adopt Pa.R.Civ.P. 206.5 as local procedure for rules to show cause.

(2) A petitioner seeking the issuance of a rule to show cause shall attach to the petition a proposed order in the form prescribed in subdivision (6) and give notice to all other parties of the intention to request the court to issue the rule.

(3) If the petition is within the scope of Pa.R.Civ.P. 206.1(a), is properly pleaded, and states prima facie grounds for relief, the court shall enter an order issuing a rule to show cause and may grant a stay of proceedings.

(4) Argument/hearing shall be scheduled in front of the judge to whom the case is assigned for a date certain after the deadline for filing the answer. It is within the discretion of the presiding judge to determine whether the matter can be decided on briefs alone.

(5) Briefs addressing whether a rule to show cause should issue shall be filed according to the briefing schedule ordered by the presiding judge at the conclusion of the evidentiary hearing. If the Court declines to hold an evidentiary hearing, the Court shall provide a briefing schedule in the order issuing the rule.

(6) The form of order required by subdivision (2) shall be substantially in the following form:

BY THE COURT:

_____ J.

Rule 208.2(c). Content of Motions.

(1) Any motion or petition based upon a statute or rule of court shall cite the specific statute or rule which authorizes the requested relief. See Pa.R.Civ.P. 239.3(a)

(2) All motions relating to discovery shall include a certificate signed by counsel for the moving party that counsel for that party has conferred or attempted to confer with all interested parties in order to resolve the matter without court action, and shall set forth the nature of the efforts made to resolve the matter. Failure to comply with the foregoing shall result in the refusal of the Court to hear the motion.

Rule 208.3(a). Presentation of Motions and Petitions.

(1) All motions and petitions requesting an Order of Court shall be filed with the Prothonotary's Office, which shall forward the motion or petition to the Court Administrator's Office for further processing.

(a) *Exceptions:* The following motions or petitions shall be filed directly with the Court Administrator's Office, which will forward them to the appropriate judge:

(i) Motions for Continuance, except with respect to juvenile, custody and domestic matters. B.L.C.R. 216.1.

(ii) Petitions for Court approval of stipulations or agreements.

(iii) Notice of Argument/Hearing, or agreed upon Order, may be presented to the Court Administrator's designee immediately prior to the beginning of Motions Court. The Court Administrator's designee will then assign a date and time and will submit the Notice of Argument/Hearing or Order for the judge to execute said Order without counsel being present. B.C.L.R. 301.

(b) Counsel shall always prepare and submit with any motion or petition a proposed order granting the requested relief.

(c) The movant and respondent shall serve copies of their respective filings upon the opposing party at the time such filings are promptly time-stamped with the Prothonotary's Office in order to afford opposing party immediate notice of the filing. After receiving a date for hearing, the movant shall inform the opposing party of the date and time of the hearing. The movant shall likewise serve the opposing party with a copy of signed orders for scheduling hearings. (Failure to do so may result in dismissal and/or sanctions).

(2) The Court shall initially consider a motion without written responses or briefs. For a motion governed by this subdivision, the Court may not enter an order that grants relief to the moving party unless the motion is presented as uncontested or the parties to the proceeding are given an opportunity for argument.

(a) This rule does not prevent the Court from denying the moving party's request for relief without the opportu-

nity for an argument where the motion is procedurally defective, untimely filed, or fails to set forth adequate grounds for relief.

(b) Parties may choose to submit responses and briefs at the time of presentation provided that copies have been served on every other party. However, parties are not required to file responses and briefs in these instances.

(c) When filing a motion, the procedure as set forth in B.C.L.R. 206.4(c) is likewise applicable under this section.

Rule 208.3(b). Alternative Procedures for the Presentation of Motions.

(1) It is the preference of the Court to decide specified motions on briefs. Counsel may request oral argument in situations where a brief is insufficient to properly set forth the argument. The request for oral argument must be made in writing within ten (10) days of filing the motion, and submitted to Court Administration, with a statement setting forth the reasons for the necessity of oral argument. Court Administration shall refer the matter to the assigned judge.

(a) It shall be at the discretion of that judge whether argument will be scheduled.

(b) The Court may sua sponte schedule oral argument as it deems necessary.

(c) If the request for oral argument is approved, the moving party shall file a brief within twenty (20) days.

(d) All response briefs must be filed no later than twenty (20) days of receipt of the moving party's brief. Reply briefs shall then be filed within ten (10) days of receipt of the moving party's brief.

(e) Service shall be made in conformity with Pa.R.Civ.P. 440.

(f) If response briefs are not timely filed the Court may dispose of the motion without such response brief and/or a monetary sanction may be imposed by the Court.

(g) All requests for extension of the twenty (20) days to file responsive briefs shall be submitted in writing to Court Administration and will be referred to the assigned judge.

(h) If a motion is settled or withdrawn prior to disposition, the moving party shall so inform Court Administration in writing.

Rule 216. Continuances.

(a) The Court disfavors continuances due to the difficulty in promptly rescheduling matters. All applications for continuance shall be made by written civil continuance form affixed herein as ATTACHMENT "A." The continuance shall specify the factual basis for the request of the proposed continuance. The request for continuance shall be filed with Court Administration and will be forwarded to the assigned judge.

(b) Any request must specify the position of the opposing party/parties. Failure to specify the position of the opposing party/parties results in automatic denial of the request.

(c) Requests for continuances shall be filed at least ten (10) days in advance of the hearing date. Where the continuance is not timely filed, the reasons for the delay shall be specifically set forth in the motion. Faxed continuances will only be accepted in emergency situations.

(d) Any continuance request shall contain certification that the client has been notified and does not oppose the request.

(e) Court Administration shall notify the requesting party of the Court's decision on the motion and it shall be the requesting party's obligation to notify all parties of record.

(f) Continuance pro formas shall be prescribed by the Court and obtained from Court Administration.

(g) Continuances for Domestic Relations, Juvenile Probation and Custody Proceedings shall be filed with the respective departments.

Rule 229. Discontinuances.

(a) Any discontinuance of an action shall be in accordance with PA.R.Civ.P. 229. A discontinuance may also be entered by a written direction (praecipe) to the Prothonotary if it is signed by the plaintiff's attorney or by a self-represented plaintiff and the same shall be accepted by the Prothonotary if all costs due the Prothonotary have been paid.

(b) Counsel shall provide a copy of the discontinuance to Court Administration simultaneous with providing the original to the Prothonotary. Any written direction to the Prothonotary complying with this rule may be sent to the Prothonotary by mail and shall be accepted for filing.

(c) Failure of plaintiff's counsel or a self-represented plaintiff to file a discontinuance upon settlement or withdrawal of such action may result in a fine of up to one hundred dollars (\$100.00) within the discretion of the Court and/or a hearing will be set for the attorney or self-represented plaintiff to explain the reasons for their failure to discontinue the action. Client(s) must attend such hearing with counsel.

Rule 300. Status Conferences.

(a) In any complex case or other action which the Court deems applicable, a status conference may be scheduled by the Court for purposes of discussing the following, including, but not limited to:

- (1) The facts of the case;
- (2) The status of discovery and what discovery is anticipated in the case;
- (3) Any novel legal questions which are or may be at issue in the case;
- (4) The status of the settlement demand and any responsive offers; and
- (5) Setting and/or modifying of discovery deadlines. The Court reserves the right to establish discovery deadline dates prior to a status conference pursuant to 42 Pa.C.S.A. § 323.

(b) Status conferences shall be scheduled upon request of the parties or at the discretion of the Court.

(c) Subsequent to the status conference, the court may issue any Order deemed necessary providing counsel with dates and times for any future proceedings that may be required.

(d) No written narratives need be filed for status conferences.

Rule 301. Notice of Hearing/Argument.

(a) A motion or petition, requesting an Order of Court, with the exception of cases falling within B.C.L.R. 206.4(c), shall include a Notice of Hearing/Argument, (substantially in the format in subsection (5)), the grant-

ing of which shall be discretionary with the Court, and a Proposed Order granting the requested relief citing the specific statute or rule which authorizes the requested relief.

(1) All such motions/petitions shall be filed in the Prothonotary's Office, who will forward same to Court Administration.

(2) If a hearing or argument is requested, a date, time and location will be assigned by Court Administration.

(3) Once a Notice of Hearing/Argument or Order has been signed by the Court, Court Administration shall mail a copy to the moving party.

(4) It shall be the responsibility of the moving party to notify all other parties of record of the date, time, and location of the hearing/argument.

(5) The format of the Notice of Hearing/Argument shall be as follows as set forth in ATTACHMENT "B."

Rule 302. Blair County Summary Jury Trial Rules.

(a) Preliminary Considerations. The following shall be considered, but shall not be controlling, in determining if civil cases are appropriate for a summary jury trial:

(1) *Time Necessary for Regular Trial, Damages and Issues Involved.*

The Court will determine if the regular trial time would be one or several days, including time for jury selection and closings and charge. The Court will also consider the amount of damages and whether complex legal issues are involved.

(2) *Consent of Attorneys.*

The Court will attempt to obtain the consent of the attorneys to conduct a summary jury trial, but the Court shall have the authority to direct a summary jury trial as an extension of the settlement conference.

(3) *Offer and Demand.*

The Court will consider the existing offer and demand, if any, in assessing the suitability of a case for jury trial.

(4) *Credibility.*

The Court will determine whether the major issues of the case will be resolved on the basis of credibility.

(b) *Summary Jury Trials.* The following procedures shall apply to all summary jury trials:

(1) *Attendance of Parties.*

Individual parties shall attend the summary jury trial. Additionally, an officer or other responsible lay representative of a corporate party or a claims adjuster for an insurance carrier shall attend the summary jury trial.

(2) *Non-Binding Effect.*

Summary jury trials are for settlement purposes only and are non-binding. Nothing done by counsel with reference to the summary jury trial shall be binding on counsel or the parties or shall constitute a waiver. However, a summary jury trial may be made binding or damages can be floored and capped with a high/low by agreement of counsel and parties.

(3) *Special Verdict Questions.*

The cases will be submitted to the summary jury trial by way of special verdict questions. Each counsel shall submit a statement of proposed special verdict questions for use at the summary jury trial prior to the selection of the jury. Special verdict questions for the summary jury trial need not be the same as those for the formal jury

trial. In the Court's discretion, the jury may be requested to determine the amount of damages in any given case regardless of whether a defendant is found to be liable or not liable. The Court will determine the verdict slip format to be used and rule on disputed special verdict questions.

(4) *Selection of Juries.*

Summary juries shall consist of eight (8) jurors. Counsel shall not be present at jury selection except by leave of Court. The Court will select summary juries using the standard summary jury trial voir dire questions contained under Section 3 of this rule. Should counsel wish the Court to ask additional voir dire questions, they should submit proposed voir dire for the Court's use no later than ten (10) days prior to the jury selection date.

(5) *Narrative Statements.*

In the discretion of the Court, counsel may be required to file narrative statements which will be read to the jury at the start of the summary jury trial. Such narrative statements shall consist of a brief (1-2 pages) description of each party's position on the facts and the law. The purpose of reading the narrative statements is to provide the jury with a short overview of each party's case prior to presentation by counsel.

(6) *Presentation of the Case by Counsel.*

Each side shall be entitled to one (1) hour for presentation of its case unless counsel presents a compelling reason at a pre-trial or status conference why more time for each side should be allowed. Presentation of the case by counsel will involve a combination of argument, summarization of the evidence which would be presented at the standard trial and a statement of the applicable law, but only to the extent it is needed to be known by the jury in answering the special verdict questions. Counsel may argue the reasonable inferences that may be drawn from the discovery. Counsel may choose to present live testimony. In such cases, no more than two (2) witnesses for each side may be called for full direct examination and cross examination. Time spent by counsel in direct examination and cross examination of witnesses counts against their respective one (1) hour allotted times. Counsel may quote from depositions and may use exhibits and video tapes. Counsel should not refer to evidence which would not be admissible at trial. The plaintiff shall proceed first and shall have a short rebuttal (10-15 minutes as determined by the Court).

(7) *Points for Charge & Pre-trial Motions.*

The Court will charge the jury on the applicable law to the extent it is appropriate and necessary for the jury in answering the special verdict questions. The attorneys shall each submit proposed points for charge to the Court no later than ten (10) days prior to the selection of the summary jury. The Court shall rule on any disputes regarding points for charge and/or proposed verdict slips. Any pre-trial motions shall be submitted to the Court no later than ten (10) days prior to the summary jury trial date.

(8) *Jury Verdict.*

The jury will be asked to determine a verdict if seven (7) out of eight (8) or six (6) out of eight (8) of them, within the discretion of the Court, agree to it.

(9) *Length of Deliberations.*

If the jury does not reach a verdict within a reasonable time, the Court will consider polling the jurors individually.

(10) *Oral Questions to the Summary Jury.*

After the verdict, counsel and the Court may address questions in open court to the jury. No one is required to answer. Participation by jurors is strictly voluntary.

(11) *Settlement Conference.*

Within sixty (60) days of the non-binding summary jury trial, the Court will schedule a settlement conference at which an amicable resolution of the action will be attempted. Parties, representatives of corporate parties, and claims adjusters with authority to settle the case are required to personally attend the settlement conference.

(12) *Regular Trial Date Unaffected.*

Submission of a case to the summary jury trial process will in no way affect the scheduling of that case for standard trial.

(13) *Existing Offer and Demand.*

Should counsel agree to conduct a summary jury trial, the existing offer and demand shall remain unaltered through the summary jury trial until the settlement conference.

(14) *Non-Release of Summary Verdict to Media.*

The summary trial is an extension of the settlement conference, and as such verdict shall not be released to the media.

(c) *Standard Summary Jury Trial Voir Dire Questions.*

The Court will select your jury. In addition to the written juror questionnaire completed by each juror, the Court will give the following voir dire:

(1) The Court will determine the juror's availability for the specific date and time of the summary jury trial. If the case starts in the morning, the Court will determine prospective jurors' availability all day. If it begins in the afternoon, the Court will determine their availability through the dinner hour into the early evening.

(2) The Court will ask if any of the prospective jurors for any health reason are unable to perform their task as jurors, which would require them to sit for a period of as long as one (1) hour without a recess, e.g., any hearing difficulties, recent surgeries, nervous conditions.

(3) The Court will give the parties a brief factual summary of the case to determine if any of the jurors have knowledge of the allegations in the case.

(4) The Court will specifically identify the plaintiff and defendant by name and address to further determine if any of the prospective jurors know them.

(5) The Court will determine if any of the prospective jurors have had any social or business dealings, past or present, with either of the attorneys or their law firms.

(6) If there are any particular witnesses who are significant to the case, lay or medical, the Court will identify them to the jury and determine the prospective juror's knowledge or contact with them.

(7) The Court will explore whether any of the prospective jurors have had a similar injury to that claimed by the plaintiff or if a close friend or family member has had such an injury so it can be determined whether there might be some bias regarding the injury itself.

(8) When any of the parties is other than an individual, the Court will emphasize and explore the prospective juror's ability to give a corporation, for example, the same fair consideration to which any other party is entitled.

(9) The prospective jurors will be asked whether they have any fixed opinions which would prevent them from awarding money damages in cases where fault is determined to exist and an actual injury has resulted from the defendant.

(10) The prospective jurors will be asked whether they have any fixed opinion that would prevent them from deciding that a defendant is not liable if the evidence shows either that the defendant was not at fault or that the defendant's fault caused no actual injury to the plaintiff.

(11) The prospective jurors will be asked whether any of them have been involved either as a plaintiff been involved either as a plaintiff or a defendant in the particular type of case before the court or whether a family member or close personal friend has been involved in a case such that it would have any bearing on their ability to sit fairly and impartially (e.g., medical malpractice, slip and fall, automobile collision).

(12) The prospective jurors will be asked if there is any other reason not stated by the Court why they would be unable to sit fairly and impartially in this particular matter.

(13) If counsel desire any additional voir dire, it should be submitted to the Court at least ten (10) days prior to jury selection. We note that any positive responses will result in the prospective juror being stricken. We make no concerted attempt to rehabilitate summary trial jurors since we have so many from which to pick. In terms of an equal mix of ages, gender, and other background information, we try to assure a diverse selection.

Rule 303. Motions for Decision.

Any motion not specified in B.C.L.R. 1028(c), 1034(a), or 1035.2(a) shall be governed by a twenty (20) day briefing schedule unless otherwise specified by the Court. See B.C.L.R. 208.

Local Rule 310. Credit Card/Debt Collection.

(a) This Rule shall apply to credit card/debt collection actions.

(1) Service

If at least one attempt at service is made on the Complaint, and the service is not perfected, the Plaintiff must petition for alternative service of the Complaint, unless Plaintiff is able to reinstate the complaint (if necessary) and perfect service or suffer dismissal of the action.

(2) Conciliation Conference

Following the filing of the Complaint and perfected service, the Court by Order will schedule the case for a conciliation conference. See ATTACHMENT "C." There are preset dates set for these conferences monthly. For the purposes of the case, civil case management and further pleading deadlines are suspended pending the outcome of the conciliation conference. The Plaintiff shall come to the conciliation conference prepared to provide proof of damages in the form of the contract signed by the Defendant, the last billing statement sent by the Plaintiff or its predecessor, and written proof of any assignments that have taken place. In the event the Defendant has been served and does not appear at the conciliation conference, the Plaintiff may be granted a default judgment with prejudice. If the Plaintiff fails to appear at the conciliation conference with the required documentation,

the court may dismiss the case with prejudice. A Continuance on the day of the Conference is discouraged. See ATTACHMENT "A."

(3) Consent Judgment

A Consent Judgment/Order will be made available to the parties at the conciliation conference if an amicable resolution is reached. A Judge will be available at the time of the conciliation conference to review consent judgments and sign the consent judgment/order where appropriate. See ATTACHMENT "C-1."

(4) Trial By Court

If an agreement is not reached at the Conciliation Conference, the case will be tried by the Court.

Rule 320. Mortgage Foreclosure.

(a) In all cases initiated by the filing of a Mortgage Foreclosure Complaint, the Defendant shall receive an "urgent notice" to participate in the Mortgage Foreclosure Program and the Homeowner-Occupied Certification and request for Conciliation Conference form. See ATTACHMENT "D" and "D-1." The matter shall be set for a Conciliation Conference in all cases where the Defendant returns the Homeowner-Occupied Certification. See ATTACHMENT "D-2."

(b) The Plaintiff shall come to the Conciliation Conference prepared to provide proof of the defaulted mortgage and the exact amount, including costs and penalties, needed to bring the mortgage current as of that date. Failure to do so will preclude the recovery of any interest due on the mortgage after that date.

(c) The Defendant shall come to the Conciliation Conference prepared to provide the following:

1. Proof of income from all sources (i.e. pay stubs, social security disability letter of determination, workers compensation letter of determination, annual income tax returns, child and spousal support orders, etc.)

2. Proof of expenses and debt statements (i.e. regular monthly mortgage payment, water/sewer bills, electricity bill, heating bill, telephone bills, cable bill, credit card bills, tuition and day care expenses, etc.); and

3. Act 91 Notice and any other documents you have received regarding this mortgage foreclosure.

(d) For the purposes of the case, civil case management and further pleading deadlines are suspended pending the outcome of the conciliation conference. Suspension is effective as of the date of the order setting the Conciliation Conference date.

(2) To consider the factual and legal issues involved.

(g) Supplements to a written pretrial memorandum may be filed by any party after their original pretrial memorandum has been filed. However, no supplemental pretrial memorandum may be filed later than thirty (30) days prior to the scheduled jury selection. Should any party need additional time for preparation, or discovery as a result of a supplemental pretrial memorandum being filed, a petition must be promptly filed with the Court seeking such an extension of time prior to the scheduled trial date.

At the conclusion of the conference, the judge shall make an order reciting the actions taken at the conference, including the agreements made by the parties as to any of the matters considered, the issues of trial and the admissions of fact obtained at the conference. The pretrial conference Order shall include a date for the filing of any pretrial motions and supporting briefs, voir dire questions, and a scheduled date for argument if appropriate.

(k) Motions for Summary Judgment, consolidation, bifurcation and severance must be made at least thirty (30) days before the date of the pretrial conference. Such

motions generally require a decision before meaningful progress can be made in preparing a case for trial or negotiating a resolution to the lawsuit. It is the preference of the Court to resolve these matters prior to the pretrial conference if possible.

Such notice shall meet the requirements set forth under subsection (b) of this provision. PROPOSED RULEMAKING

DEPARTMENT OF TRANSPORTATION

[67 PA. CODE CH. 83]

Physical and Mental Criteria, Including Vision Standards, Relating to the Licensing of Drivers; Field of Vision; Loss of Consciousness

The Department of Transportation (Department), under the authority in 75 Pa.C.S. §§ 1504, 1508, 1508.1, 1517, 1518 and 6103, proposes to amend Chapter 83 (relating to physical and mental criteria, including vision standards relating to the licensing of drivers) to read as set forth in Annex A.

Purpose

The purpose of Chapter 83 is to set forth physical and mental criteria, including vision standards, for the licensing of drivers formulated by the Medical Advisory Board under 75 Pa.C.S. §§ 1517 and 1518 (relating to Medical Advisory Board; and reports on mental or physical disabilities or disorders). In addition to their use by the Department in connection with its responsibilities under 75 Pa.C.S. (relating to Vehicle Code), these physical and mental criteria are to be used by medical providers in conducting physical examinations of applicants for learner permits and driver licenses, and by physicians and other persons authorized to diagnose and treat disorders and disabilities covered in Chapter 83 to determine whether a person should be reported to the Department as having a disorder affecting the ability of the person to drive safely.

Purpose of the Proposed Rulemaking

The purpose of this proposed rulemaking is to update the field of vision requirements and standards for drivers to ensure they meet the required field of vision standards and update the medical requirements and standards for license holders that have had more than one episode of loss of consciousness of unknown or uncategorized etiology within a 12-month period. Since medical testing and treatment methods continue to evolve, the Department is updating its minimum standards to ensure that only drivers that meet the required medical standards in these areas are licensed to operate a motor vehicle.

These regulations reflect consultation with the Department's Medical Advisory Board as required under 75 Pa.C.S. §§ 1517 and 1518. The Medical Advisory Board, after conducting in-depth reviews and discussions, has determined that these regulations require amendments to make them consistent with existing medical practice and improved technology and so that individuals that do not present a safety risk are not unnecessarily recalled.

Summary of Significant Amendments

Section 83.3(e) (relating to visual standards) is proposed to be amended to clarify that this subsection is specific to the field of vision standard.

Section 83.3(e)(1) and (2) is proposed to be amended to disqualify an individual that has a binocular visual field defect of 30 contiguous degrees or more. The Department will make an exception to this disqualification if the individual's health care provider verifies in writing that the individual is capable of driving safely despite the

condition and the individual has demonstrated appropriate visual compensation through a knowledge and driving skills evaluation administered by the Department.

Section 83.3(h) is proposed to be added to clarify that correction through the use of prism lenses is not acceptable for purposes of meeting field of vision requirements.

Section 83.5(a)(4) (relating to other physical and medical standards) is proposed to be amended to clarify that automatic disqualification will only occur when the individual has had more than one episode of loss of consciousness in the preceding 12-month period which are of unknown etiology or not otherwise categorized.

In addition, § 83.5(b)(6) is proposed to be amended to authorize the disqualification by a health care provider of anyone that has had more than one episode of loss of attention or awareness in the preceding 12-month period which are of unknown etiology or not otherwise categorized.

Persons and Entities Affected

This proposed rulemaking affects persons qualified or intending to be qualified to drive and health care providers.

Fiscal Impact

DEPARTMENT OF TRANSPORTATION

NOTICES

DEPARTMENT OF AGRICULTURE

Interstate Quarantine Order; Virus Control for Highly Pathogenic Avian Influenza for Live Bird Market and Breaker Eggs

Recitals.

A. Under the authority established in the Domestic Animal Law (3 Pa.C.S.A. §§ 2301—2389) and specifically the authority to establish quarantine orders as set forth at section 2329 of the Domestic Animal Law (3 Pa.C.S.A. § 2329(c)), the Department hereby establishes an Interstate Quarantine Order related to the shipment of poultry from states where Highly Pathogenic Avian Influenza has been detected, there is reasonable suspicion it exists or it has been confirmed, into live bird markets in the Commonwealth of Pennsylvania.¹

B. This Interstate Quarantine Order is established to address highly pathogenic avian influenza strains, including the H5N2 and H5N8 avian viruses that have developed into a virulent form of the disease. These sub-types are easily spread, and may mutate into strains that are communicable to or among humans.

C. Avian influenza is designated a “dangerous transmissible disease” of animals under the provisions of the Domestic Animal Law (3 Pa.C.S.A. §§ 2301—2389), at 3 Pa.C.S.A. § 2321(d).

D. The Pennsylvania Department of Agriculture (Department) has broad authority under the Domestic Animal Law to regulate the keeping and handling of domestic animals in order to exclude, contain or eliminate dangerous transmissible diseases.

E. Avian Influenza has caused significant loss in the past to the Pennsylvania poultry industry and the current virulent forms of the disease have caused wide-spread loss to the poultry industry in states in which it has been detected and confirmed.

F. Highly Pathogenic Avian Influenza is of particular concern to the entire Pennsylvania poultry industry as it may cause wide-spread loss of poultry, severely limit the market for Pennsylvania product and cause severe economic damage to the poultry industry in Pennsylvania.

G. Live Bird Markets—markets that sell live birds for consumers to slaughter, or that sell live birds and slaughter them on-premises for their customers are of particular concern in that Avian Influenza is more likely to be present at these markets than at other poultry production operations, biosecurity measures present on poultry production operation are not able to be instituted at live bird markets and there is direct human contact with live birds. All of these circumstances make it more likely for Avian Influenza virus to be transmitted and spread through live bird markets.

H. Pursuant to the authority of the Domestic Animal Law, the Department issued a General Quarantine Order for the Commonwealth of Pennsylvania addressing quarterly closures and sanitation of live bird markets, see

Pa.B. Doc. No. 09-118, January 3, 2009. All provisions of that General Quarantine Order shall remain in full force and affect, except to the extent any provision of this Order may be in conflict, in which case the provisions of this Order shall be controlling.

I. The Domestic Animal Law allows, at 3 Pa.C.S.A. § 2329(c), for an Interstate Quarantine Order to be established for any place or places outside of the Commonwealth where a dangerous transmissible disease has been reported or exists, or whenever it is deemed advisable to test or treat any domestic animal upon the reasonable suspicion that it has contracted or been exposed to a dangerous transmissible disease or whenever the testing or treatment of a domestic animal indicates that the domestic animal has been exposed to a dangerous transmissible disease. In addition, a quarantine order may apply to goods, products, facilities, containers, vehicles or materials that may carry a dangerous transmissible disease or be contaminated with a hazardous substance.

Order.

In consideration of the previous recitals, and with those recitals incorporated into this Order by reference, the Department hereby establishes an Interstate Quarantine under authority of the Domestic Animal Law, at 3 Pa.C.S.A § 2329(c), and section 1702 of The Administrative Code of 1929 (71 P. S. § 442). The following are the conditions and requirements of this Interstate Quarantine Order:

1. *Quarantine Area.* The area covered by this Interstate Quarantine Order is the entire Commonwealth, all live bird markets in the Commonwealth and all states in which Highly Pathogenic Avian Influenza has been detected, there is a reasonable suspicion it exists or has been confirmed

2. *Applicability.* The terms of this Order are applicable to the Quarantine Area.

3. *Live Bird Market.* For purposes of this order, a “live bird market” is a market that sells live birds to consumers for slaughter, or that sells live birds and slaughters them on-premises for its customers. The fact a consumer buying a bird from a live bird market may not ultimately slaughter said bird shall not release the market from this definition.

4. *Poultry.* For purposes of this Order, poultry shall include, chickens, turkeys, waterfowl and any other commercial species of bird that may contract or harbor Avian Influenza virus.

5. No poultry from any state where Highly Pathogenic Avian Influenza has been detected, there is reasonable suspicion it exists or it has been confirmed may be shipped into a live bird market in the Commonwealth of Pennsylvania, either directly, through a dealer, via another state or by any other means unless such poultry shall have complied with and met the standards established in paragraph 6 of this Order.

6. Poultry moving to live bird markets and eggs destined for a commercial breaking operation from any state where Highly Pathogenic Avian Influenza has been detected, there is reasonable suspicion it exists or it has been confirmed shall only be allowed into the Commonwealth under the following circumstances:

¹ As of the date of this Notice establishing the Interstate Quarantine Order Highly Pathogenic Avian Influenza has been detected or confirmed or both in Minnesota, Wisconsin, Iowa, Nebraska, Missouri, South Dakota, North Dakota and California, the status of these states and others is of course subject to change.

a. All poultry moving to the live bird markets and flocks producing eggs destined for a commercial breaking operation, even those originating from a flock that participates in the current version of the National Poultry Improvement Plan and Auxiliary Provisions "U.S. Avian Influenza Clean" or "U.S. H5/H7 Avian Influenza Clean" program ("NPIP Program") shall meet the seventy-two hour testing, paperwork and reporting requirements established in subsection b. of this paragraph 6. The shipment of poultry from a flock participating in the current version of the NPIP Program shall be required to continue to be accompanied by a USDA form 9-3 or other approved NPIP form;

b. The poultry moving to the live bird markets and eggs destined for a commercial breaking operation must originate from a flock in which a minimum of thirty (30) birds, three (3) weeks of age or older, were tested negative for Avian Influenza (virus isolation, or real-time reverse-transcriptase polymerase chain reaction (RRT-PCR)). The date of sample collection must be within seventy-two hours prior to the date of entry into Pennsylvania and the shipment must be accompanied by the test report. If there are fewer than 30 birds in the flock, all birds must be tested (RRT-PCR, virus isolation). For waterfowl, virus detection testing (cloacal swabs) is required for entry. RRT-PCR testing is accepted for domestic ducks-virus isolation testing must be used for other waterfowl. No untested birds shall have been added to the flock after sample collection and before entry into Pennsylvania. All such sample collection must have been within seventy-two hours prior to the date of entry into Pennsylvania and the shipment must be accompanied by the test report. All test results shall be negative for Avian Influenza, including both low and highly pathogenic influenza.

For birds or eggs from birds which must be tested using virus isolation, the seventy-two hour period for entry into Pennsylvania will begin when virus isolation results are reported from the laboratory. A copy of the results, which contains the date of the report, must accompany the shipment of those birds or eggs.

c. Eggs destined for a commercial breaking operation, in addition to meeting the flock seventy-two hour HPAI testing requirement, must be moved using only containers which have been thoroughly cleaned and disinfected.

7. Poultry three (3) weeks of age and older, imported into the Commonwealth, shall meet all other import requirements required under the Department's regulations at Title 7 of the *Pennsylvania Code* (accessible through the following web site address: www.pacode.com).

8. Gallinaceous birds, water birds, and ratites three (3) weeks of age and older which are destined for Live Bird Markets, to be pet birds or destined to be part of a zoological or menagerie collection; and wild birds three (3) weeks of age and older (gallinaceous birds, water birds, and ratites) destined for domestication, confinement, or as pets must be test negative for Avian Influenza (swabs tested using virus isolation or real-time reverse-transcriptase polymerase chain reaction (RRT-PCR) techniques). These birds shall be individually tested for import. The date of sample collection must be within seventy-two hours prior to the date of entry into Pennsylvania and the shipment must be accompanied by the test report. RRT-PCR testing is accepted for domestic ducks. For wild water birds, virus isolation (cloacal swabs) is required for entry. All such sample collection must have been within seventy-two hours prior to the date of entry into Pennsylvania and the shipment must be accompanied by the test report. All test results shall be negative for Avian Influenza, including both low and highly pathogenic influenza.

9. This Order shall not be construed as limiting the Department's authority to establish additional quarantine or testing requirements on imported poultry and/or poultry products.

10. This Order shall be effective upon actual service or publication in the *Pennsylvania Bulletin*.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

28-05050A: Strait Steel, Inc. (P.O. Box 370, Greencastle, PA 17225) for the retrospective permitting of an existing surface coating operation (Source ID 101) and welding operations (Source ID 201) at the structural steel fabrication facility located in Antrim Township, **Franklin County**. The maximum expected increases in facility emissions as a result of the changes proposed are: 20.5 TPY VOC; 17.1 TPY PM; 17.1 TPY PM₁₀; 17.1 TPY PM_{2.5}; 7.2 TPY xylene; 2.2 TPY ethyl benzene; and 9.4 TPY total HAPs. The facility is a State-Only facility. The Department's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology (BAT) requirement of 25 Pa. Code §§ 127.1 and 127.12, and 40 CFR Part 63, Subpart XXXXXX—National Emission Standards for Hazardous Air Pollutants Area Source Standards for Nine Metal Fabrication and Finishing Source Categories (Source ID 201). Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specifications of the application for plan approval, the requirements established in the plan approval will be included in the facility's initial State-Only Operating Permit pursuant to the provisions of 25 Pa. Code §§ 127.441 and 127.443.

21-03023D: The AMES Companies, Inc. (465 Railroad Avenue, Camp Hill, PA 17011) for increased use of dip tank surface coating and pad printing operations on the existing hand tool lines at the facility in Hampden Township, **Cumberland County**. Potential emissions of volatile organic compounds (VOC) from this increased use are estimated at less than 15 tons per year. Actual VOC emissions are expected to be well below the estimated potential level. The facility's existing 50 tons per year cap on VOC emissions, 10 tons per year cap on individual hazardous air pollutants (HAP) and 25 tons per year cap on total HAP will remain in place. The Plan Approval

includes emission limits and work practice standards along with monitoring, recordkeeping and reporting requirements to ensure the facility complies with the applicable air quality regulations. The Department's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants. Based on these findings, the Department proposes to issue a plan approval for the proposed facility change. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

32-00055I: Homer City Generation, L.P. (1750 Power Plant Road, Homer City, PA 15748) Notice is hereby given in accordance with 25 Pa. Code §§ 127.44—127.46 that the Department of Environmental Protection (Department) intends to issue Air Quality Plan Approval: PA-32-00055I to Homer City Generation, L.P. (HCG) to allow alternative short term SO₂ emission limits for Units 1, 2, & 3 at Homer City Generating Station (Homer City GS) located in Black Lick and Center Townships, **Indiana County**.

The Department will hold a public hearing on Thursday, July 30, 2015, from 6:00-8:00PM at Homer-Center High School Auditorium, 70 Wildcat Lane, Homer City, PA 15748, to take oral testimony regarding this Air Quality Plan Approval application. Notice of this hearing is separately published within this *Pennsylvania Bulletin*.

Alstom's Novel Integrated Desulfurization (NID) dry scrubber systems designed to control SO₂ emissions from Units 1 & 2 remain authorized for installation under a separate plan approval PA-32-00055H. The following alternative SO₂ emission limits are proposed for intermittent periods during Unit 1 or Unit 2 startup and/or NID system module transition:

1. When Unit 1 or Unit 2 is operating in startup, emissions of SO₂ shall not exceed:
 - 9,000 lbs/hr from the Unit (1 or 2) in startup;
 - 1,913 lbs/hr from the Unit (1 or 2) not in startup; and
 - 2,720 lbs/hr from Unit 3.
2. When a NID system module is operating in transition, combined emissions of SO₂ from Units 1, 2, & 3 shall not exceed 7,300 lbs/hr.

HCG has performed an air quality analysis which includes air dispersion modeling and a Monte Carlo analysis in support of the proposed alternative SO₂ emission limits. HCG's air quality analysis demonstrates that Homer City GS will not cause a violation of the 1-hour SO₂ National Ambient Air Quality Standard (NAAQS) with the proposed alternative SO₂ emission limits during Unit 1 or Unit 2 startup and/or NID system module transitions.

Annual potential to emit at Homer City GS remains unchanged as a result of this proposed Plan Approval. Plan approval conditions will include the referenced

alternative SO₂ emission limitations, operational restrictions, work practice standards, and associated monitoring and recordkeeping requirements. Once compliance with the Plan Approval is demonstrated, the applicant will be required to submit a Title V Operating Permit (TVOP) administrative amendment application or revision to a pending TVOP application in accordance with 25 Pa. Code Subchapters F and G.

A person may oppose the proposed plan approval by filing a written protest with the Department through Alan Binder via mail to Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222; email to abinder@pa.gov; or fax to 412.442.4194. Additional written comments may also be submitted. Each protest or set of written comments must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval (PA-32-00055I) and a concise statement of the objections to the plan approval issuance and the relevant facts upon which the objections are based.

HCG's Plan Approval application, the Department's Air Quality Review Memorandum, and the Proposed Air Quality Plan Approval for this project are available for review by any interested party at the Pennsylvania Department of Environmental Protection, Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. All comments must be received prior to the close of business 30 days after the date of this publication.

PA-63-00990A: In accordance with 25 Pa. Code §§ 127.44—127.46, the Pennsylvania Department of Environmental Protection (DEP) is providing notice that it intends to issue an Air Quality Plan Approval to **Donora Dock, LLC** (11 Lloyd Avenue Suite 200 Latrobe, PA 15650) to allow operation of a cleaned coal handling operation which includes stockpiling, blending, truck/barge loading and unloading at the existing coal handling and transfer 'Donora Terminal' facility located in Carroll Township, **Washington County**.

The previously installed coal facility will facilitate the storage, reclaim, barge and truck loading of clean bituminous coal from various sources. Equipment handling the coal includes front end loaders, excavators, conveyors, trucks, and other insignificant sources of de-minimis emissions associated with the project. Emissions from coal handling facility will be controlled by applying BAT which includes water sprays and other appropriate fugitive emission prevention measures.

Upon authorization of this plan approval the facility potential to emit will not exceed 189.0 tons of PM and 45.0 tons of PM₁₀ on an annual basis. The throughput restriction, monitoring, testing, recordkeeping, reporting and work practice conditions of the Plan Approval have been derived from the applicable requirements of 25 Pa. Code Chapters 123, 127, 129 and 135.

A person may oppose the proposed plan approval by filing a written protest with the Department through Jesse Parihar via mail delivery to the Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222; email to jparihar@pa.gov; or fax to 412.442.4194. Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745

Contact: Mark R. Gorog, PE, Environmental Engineer Manager—Telephone: 412-442-4150

As per 25 Pa. Code § 127.48, notice is hereby given that the Pennsylvania Department of Environmental Protection (DEP) will hold a public hearing from 6:00-8:00 PM on Thursday, July 30, 2015, at the Homer-Center High School Auditorium, 70 Wildcat Lane, Homer City, PA 15748.

The purpose of the hearing is to take testimony concerning the DEP's intent to issue Plan Approval No. **32-00055I to Homer City Generation, L.P. (HCG)** for the approval of alternative short term SO₂ emission limits for Units 1, 2, & 3 at Homer City Generating Station (Homer City GS) located in Black Lick and Center Townships, **Indiana County**. These alternative SO₂ emission limits would be effective for up to 500 hours per year during periods of Unit 1 or Unit 2 startup and/or module transition within the Novel Integrated Desulfurization (NID) dry scrubber systems designed to control Units 1 & 2. An air quality analysis including air dispersion modeling and a Monte Carlo analysis has been submitted demonstrating that Homer City GS will not violate the SO₂ NAAQS with these alternative SO₂ limits. The DEP is publishing a notice of intent to issue this plan approval in this issue of the *Pennsylvania Bulletin* to allow for public comments regarding the proposed plan approval.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. Draft Nonpoint Source Management Plan—2014 Update; Availability for Public Comment

The Department of Environmental Protection (Department) is providing its draft Nonpoint Source Management Plan—2014 Update (Management Plan) for public comment. The Management Plan includes a narrative description of significant efforts taking place in this Commonwealth to address nonpoint source pollution, and milestones set to demonstrate progress in addressing nonpoint source pollution in this Commonwealth. The Management Plan has been developed consistent with United States Environmental Protection Agency (EPA) guidance outlining the required elements of these program updates.

The Commonwealth receives Federal Section 319 funds under the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1388) annually to further the Commonwealth's efforts to reduce nonpoint source pollution. In Federal Fiscal Year (FY) 2014, the Commonwealth received \$4.672 million in Section 319 funds. States receiving these funds are required under section 319(b) of the Federal Clean Water Act (33 U.S.C.A. § 1329(b)) to develop and update a Management Plan outlining the major activities that the states will implement or support with this funding.

In April 2013, the EPA issued revised guidelines to states for the award of Section 319 grants. These revised guidelines are requirements that apply to recipients of grants made with funds appropriated by Congress under section 319 of the Federal Clean Water Act, and include direction to states in the development of Management Plan updates. States are to implement these revised guidelines beginning in FY 2014. The April 2013 Section 319 program guidance revisions established a 5-year life span for these Management Plans; therefore, as of 2014, every state receiving Section 319 funds from the EPA is required to update its Management Plan once every 5 years. The Commonwealth's original Management Plan was developed in 1989, and updated in 1999 and 2008. The Department has developed a 2014 update and is providing this document for public review and comment.

The draft Management Plan follows the EPA guidance by providing the following elements: goals, objectives, and strategies to protect and restore water quality; efforts to strengthen working partnerships with appropriate state,

interstate, regional and local entities, private sector groups, citizens groups and Federal agencies; a balanced approach to addressing nonpoint source pollution that emphasizes both statewide programs and on the ground projects to abate existing problems and prevent new ones; and the use of periodic feedback to evaluate progress and make appropriate program revisions.

The draft Management Plan is available on the Department's web site at www.dep.state.pa.us (DEP Keywords: NPS Management Plan).

Interested persons may submit written comments on this draft Management Plan by July 20, 2015. Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail, must include the originator's name and address. Commentators are urged to submit comments using the Department's eComment at www.ahs.dep.pa.gov/eComment. Written comments can be submitted to the Policy Office, Department of Environmental Protection, Rachel Carson State Office Building, P. O. Box 2063, Harrisburg, PA 17105-2063, ecomment@pa.gov.

Proposed State Implementation Plan Revision; Attainment Demonstration for the North Reading Nonattainment Area for the 2008 Lead National Ambient Air Quality Standard; Public Hearing

The Department of Environmental Protection (Department) is seeking public comment on a State Implementation Plan (SIP) revision which demonstrates how the North Reading Nonattainment Area, comprised of Laureldale Borough and Muhlenberg and Alsace Townships, will attain the Federal National Ambient Air Quality Standard (NAAQS) for lead. In November 2010, the North Reading Nonattainment Area was designated by the United States Environmental Protection Agency (EPA) as not meeting the NAAQS established for lead in 2008. Lead concentrations in ambient air above the NAAQS pose a serious human health threat. Lead that is emitted into the air can be inhaled or, after it settles out of the air, can be ingested. Once in the body, lead is rapidly absorbed into the bloodstream and results in a broad range of health effects, especially affecting children.

The proposed SIP revision meets the requirements necessary for an approvable SIP revision, including a base year emission inventory, air quality modeling, air quality and emission trends, emission control strategies (including Consent Order and Agreements with two lead-emitting sources in the North Reading Nonattainment Area) and a contingency plan to bring the area back into attainment should future violations of the standard occur. After consideration of comments received, the SIP revision will be finalized and submitted to the EPA for approval.

The proposed SIP revision is available on the Department's web site at www.dep.state.pa.us (select "Air," then "Bureau of Air Quality," then "Regulations and Clean Air Plans") or through the contact persons listed as follows.

The Department will hold a public hearing to receive comments on the proposal on Wednesday, July 22, 2015,

at 1 p.m. at the Muhlenberg Township Recreation Building, 3025 River Road, Reading, PA. Persons wishing to present testimony at the hearing should contact Alex Haas, P. O. Box 8468, Harrisburg, PA 17105, (717) 787-9495, alehaas@pa.gov to reserve a time. Witnesses should keep testimony to 10 minutes and should provide two written copies of their statement at the hearing.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact Alex Haas. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

The Department must receive comments no later than Thursday July 23, 2015. Commentators are urged to submit comments using the Department's eComment at www.ahs.dep.pa.gov/eComment. Written comments can be submitted to the Policy Office, Department of Environmental Protection, Rachel Carson State Office Building, P. O. Box 2063, Harrisburg, PA 17105-2063, ecomment@pa.gov. Use "North Reading Nonattainment Area Lead" as the subject line in written communication.

DEPARTMENT OF HUMAN SERVICES

New Class of Disproportionate Share Hospital Payments

The Department of Human Services (Department) is announcing its intent to create a new class of disproportionate share hospital (DSH) payments for qualifying Medical Assistance (MA) enrolled acute care general hospitals which provide a high volume of inpatient services to MA eligible and low income populations. This payment is intended to promote access to medically necessary inpatient services for MA eligible persons.

Qualifying Criteria

For a hospital to qualify for this class of DSH payment, it must meet all of the following proposed criteria, based on its State Fiscal Year (FY) 2011-2012 MA-336 Hospital Cost Report unless otherwise specified:

(a) The hospital is enrolled in the MA Program as an acute care general hospital.

(b) The hospital is located in a county with a total population of less than 500,000 residents, based on the 2010 Federal decennial census.

(c) The hospital has at least 400 total setup and staffed beds.

(d) The hospital ranked at or above the 90th percentile, among MA enrolled acute care hospitals located in counties with a total population of less than 500,000 residents, on the total number of MA inpatient days of care provided.

(e) The hospital ranked in excess of one standard deviation above the mean among MA enrolled acute care hospitals located in counties with a total population of less than 500,000 residents, on the ratio of MA psychiatric inpatient days provided to total psychiatric inpatient days.

(f) The hospital's ratio of uncompensated care to net patient revenue, based on the Pennsylvania Health Care Cost Containment Council Financial Analysis 2013, exceeded 3.4%.

Payment Determination

The Department intends to pay each qualifying hospital a proportionate amount of the funding allocated to this payment based on the hospital's ratio of MA inpatient days to the total MA inpatient days for all qualifying hospitals. The hospital's ratio is multiplied by the total amount allocated for these payments to determine its payment amount. The data used for purposes of this determination will be based on the FY 2011-2012 PA MA-336 Hospital Cost Report.

Fiscal Impact

The FY 2014-2015 impact is \$0.724 million (\$0.349 million in State general funds).

**Pennsylvania Liquor Control Board Regulation
#54-79 (IRRC #3093)**

Responsible Alcohol Management Program

June 10, 2015

We submit for your consideration the following comments on the proposed rulemaking published in the April 11, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Liquor Control Board (Board) to respond to all comments received from us or any other source.

1. Fiscal impact; Implementation procedures.

This proposed rulemaking will allow third parties to create their own Responsible Alcohol Management Program (RAMP) curriculum and to submit it to the Board's Bureau of Alcohol Education (BAE) for approval. In order for this Commission to determine if the proposal is in the public interest, we ask the Board to provide information on how RAMP is and will be administered. Specifically we ask:

- Does the Board charge a fee for RAMP training it conducts or provides? If so, what are those fees?
- How many Board employees currently conduct RAMP training? Will their employment be impacted by this proposal?
- What costs will the Board incur for reviewing and approving third-party curriculum?
- Will the Board charge a fee to review and approve third-party curriculum? If a fee will not be charged, what is the reason for this?
- What do third party providers of RAMP training typically charge for the training?

2. Need for the regulation.

Senator Richard Alloway submitted a comment noting the unique nature of the Commonwealth's Liquor Code and questioning the need for the regulation. He believes that this proposal could create confusion amongst the regulated community caused by more than one standard curriculum. Representatives Chris Ross and Paul Costa submitted a comment expressing their support for the rulemaking. They believe that the proposal will enhance the training of alcohol service personnel in the Commonwealth. In the Regulatory Analysis Form (RAF) submitted

with this proposal, the Board explains that the expected benefits of the rulemaking, "...include more opportunities for server/seller training which is needed to meet the growing demand for such training." In light of the issue raised by legislators, we ask the Board to explain why the potential benefits of the rulemaking outweigh the potential confusion it could create.

3. Section 5.211. Course of study for alcohol service personnel.—Implementation procedures; Clarity.

Under Subsection (b), if it is found that the curriculum submitted by a training provider is not equivalent to the BAE's standard curriculum, the BAE "will advise" the training provider why the curriculum is deficient. As noted by commentators, including Senator Rafferty, Senator Brewster and Representative Regan, it is unclear how long the BAE will take to review the curriculum after it is submitted and how the BAE will inform the training provider of the deficiencies. We note that the provision also fails to specify how the BAE will notify a training provider if the curriculum is equivalent and acceptable. We recommend that the rulemaking be amended to specify the timeframe within which the BAE will review curriculum submitted by a training provider and the manner in which it will communicate its findings to the provider.

The commentators also ask the Board to clarify that curriculum submitted for approval not only must be equivalent to the BAE's standard curriculum, but can also exceed it. Other commentators are concerned that the curriculum of third-party training providers could lack specificity as it relates to Pennsylvania laws, regulations and requirements. We have several questions relating to these comments. Would a curriculum that exceeds the BAE's standard curriculum be approved? Additionally, does the existing standard curriculum include training on Pennsylvania liquor laws, regulations and requirements, and would a third party be required to include this content in its curriculum?

4. Miscellaneous—Implementation procedures and timetables for compliance.

The dates noted in RAF Block No. 29, relating to a schedule for review of the regulation, should be updated.

**PENNSYLVANIA
INFRASTRUCTURE
INVESTMENT AUTHORITY

DEPARTMENT OF
ENVIRONMENTAL
PROTECTION**

**Clean Water and Drinking Water State Revolving
Fund Programs; Public Meeting on Federal Fiscal
Year 2015 Intended Use Plans**

The Pennsylvania Infrastructure Investment Authority (PENNVEST) and the Department of Environmental Protection (Department) have prepared the Federal Fiscal Year (FY) 2015 Intended Use Plans (IUP). The IUPS include a list of drinking water, wastewater treatment, nonpoint source and pollution abatement projects to be considered for a design and engineering or construction loan or grant from funds the Commonwealth expects to receive from the Federal FY 2015 Drinking Water State Revolving Fund (DWSRF) and Clean Water State Revolving Fund (CWSRF) programs.

In accordance with United States Environmental Protection Agency (EPA) guidelines on the development of the IUPs, a public meeting has been scheduled for July 21, 2015, at 1:30 p.m. in the 2nd Floor Auditorium, Rachel Carson State Office Building, 400 Market Street, Harrisburg, PA. This meeting is scheduled for the purpose of receiving comments from the public regarding the Federal FY 2015 IUPs. Interested persons are invited to express their views on the narrative portion of the IUPs, the DWSRF set-aside work plan or the priority rating or ranking of projects on the IUPs. Persons wishing to offer comments at the public meeting should contact the Division of Technical and Financial Assistance at the address or telephone number listed at the end of this notice or by e-mail to vbkasi@pa.gov by 4 p.m. on July 20, 2015. When written statements are prepared and will be submitted at the meeting, speakers will be asked to restrict the oral portion of the statement to a summary of the written comments.

The projects to be considered for a loan or grant from the DWSRF and CWSRF programs must meet the Federal requirements for funding in accordance with the Federal Safe Drinking Water Act (42 U.S.C.A. §§ 300f—300j-26) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1388). Accordingly, the projects included in the IUPs are expected to meet the requirements applicable to the use of the DWSRF and CWSRF loan or grant funds. Projects listed in the FY 2015 IUPs are on the Commonwealth's Project Priority Lists (PPL) and are expected to proceed with design and engineering or construction within the next 2 years. A project must appear on a PENNVEST-approved IUP before it can receive a loan or grant from the State Revolving Fund programs. A project's readiness to proceed and the reasonable availability of alternative funds also have a bearing on project selection for the IUPs. Consequently, the rank ordered list of projects on the PPLs does not solely dictate the order in which projects will be chosen for inclusion in an IUP.

The DWSRF will be capitalized with approximately \$28.3 million in Federal funds and approximately \$5.7 million of State funds. Approximately \$10.9 million of these funds will be set aside for technical assistance to small systems, operator training and certification, and source water assessment and protection, as authorized under the Federal Safe Drinking Water Act. The DWSRF IUP also includes a narrative work plan that describes how these set-aside funds will be used. PENNVEST is also allocating an additional \$1.1 million for administrative purposes. Finally, an additional \$5.6 million must be set-aside for additional subsidization to disadvantaged communities. The FY 2015 DWSRF grant does not have a requirement to set-aside funding for green infrastructure projects. However, the Commonwealth will continue to promote them. These projects can fall into one of four categories: (1) water efficiency; (2) energy efficiency; (3) environmentally innovative; and (4) green stormwater infrastructure and meet the EPA criteria for green infrastructure.

The CWSRF will be capitalized with approximately \$55.6 million of Federal funds and approximately \$11.1 million of State funds. While approximately \$2.2 million could be set aside for program administration costs, this is not being proposed for this particular grant. Finally, up to \$16.7 million may be set-aside for additional subsidization to disadvantaged communities and \$5.5 million must be set-aside for green infrastructure projects that fall into one or more of the following categories: (1) water efficiency; (2) energy efficiency; (3) environmentally innovative; and (4) green stormwater infrastructure and meet the EPA criteria for green infrastructure.

It is not necessary to appear at the public meeting to present comments on the narrative portion of the IUPs, the set-aside work plan or the PPLs. Interested persons may also submit written comments to the Department at the address that follows. Written comments will be considered equivalent to oral statements presented at the meeting. To be considered by the Department and PENNVEST, the written comments must be received by the Department of Environmental Protection, Bureau of Point and Non-Point Source Management, Division of Technical and Financial Assistance, 400 Market Street, P. O. Box 8774, Harrisburg, PA 17101-8774, by 5 p.m. on July 24, 2015.
