READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 207—JUDICIAL CONDUCT

PART II. CONDUCT STANDARDS

[207 PA. CODE CH. 33]

Formal Advisory Opinion 2015-2

Notice is hereby given that the Ethics Committee of the Pennsylvania Conference of State Trial Judges has issued Formal Advisory Opinion 2015-2 Affiliation with Discriminatory Organizations which is set forth as follows.

EDWARD D. REIBMAN,
Chairperson
Ethics Committee
Pennsylvania Conference of State Trial Judges

Annex A

TITLE 207. JUDICIAL CONDUCT

PART II. CONDUCT STANDARDS

CHAPTER 33. CODE OF JUDICIAL CONDUCT

Subchapter B. FORMAL OPINIONS

§ 15-2. Affiliation with Discriminatory Organizations.

A function of the Ethics Committee of the Pennsylvania Conference of State Trial Judges (“the Committee”) is to provide guidance regarding ethical concerns to judicial officers subject to the Code of Judicial Conduct. The Code of Judicial Conduct that became effective on July 1, 2014, addressed, specifically, a judge’s affiliation with organizations that discriminate invidiously on the basis of race, sex, gender, religion, national origin, ethnicity, disability or sexual orientation. The Committee issues this Formal Advisory Opinion to assist judges on a matter of general importance to judicial officers subject to the Code. This Formal Advisory Opinion is general in nature. It does not address a particular entity or group of persons, and is not in response to a specific request for an advisory opinion from a judicial officer. Therefore, the “rule of reliance” set forth in Preamble (8) of the new Code does not apply to this Formal Advisory Opinion.¹

I.

Prior to July 1, 2014, the Code of Judicial Conduct then in effect simply encouraged judges to promote “public confidence in the integrity and impartiality of the judiciary” and permitted judges to “participate in civic and charitable activities that do not reflect adversely upon their impartiality. . . .”² It did not specifically address membership in any organization or the use of its facilities.

However, the new Code, which became effective on July 1, 2014, addresses, specifically, a judge’s affiliation with organizations that discriminate invidiously on the basis of

race, sex, gender, religion, national origin, ethnicity, disability or sexual orientation. Rule 3.6 of the Code provides:

Affiliation with Discriminatory Organizations.

(A) A judge shall not hold membership in any organization that practices invidious discrimination on the basis of race, sex, gender, religion, national origin, ethnicity, disability or sexual orientation.

(B) A judge shall not use the benefits or facilities of an organization if the judge knows or should know that the organization practices invidious discrimination on one or more of the bases identified in paragraph (A). A Judge’s attendance at an event in a facility of an organization that the judge is not permitted to join is not a violation of this Rule when the judge’s attendance is an isolated event that could not reasonably be perceived as an endorsement of the organization’s practices.

And Comment (3) to the Rule states:

When a judge learns that an organization to which the judge belongs engages in invidious discrimination, the judge must resign immediately from the organization.

II.

A. *The “Organization”*

The Rule does not purport to reach informal, social groups. It is directed to an affiliation with a discriminatory “organization.” Nor does the Code define “organization.” Whether a particular group of persons or entity is an “organization” under the Rule may depend upon its formal level of structure. For example, whether it has by-laws, officers, or a mission statement; whether it is part of a hierarchy; and whether its membership is consistent and how they are added or replaced may be relevant factors in determining whether the group or entity is an “organization.”

B. *Discrimination*

Use of the word “discrimination” often generates some confusion. As Robert K. Fullinwider wrote in *The Reverse Discrimination Controversy* (1980), at pp. 11-12:

The dictionary sense of ‘discrimination’ is neutral while the current political use of the term is frequently non-neutral, pejorative. With both a neutral and a non-neutral use of the word having currency, the opportunity for confusion in arguments about racial discrimination is enormously multiplied. For some, it may be enough that a practice is called discriminatory for them to judge it wrong. Others may be mystified that the first group condemns the practice without further argument or inquiry. Many may be led to the false sense that they have actually made a moral argument by showing that the practice discriminates (distinguishes in favor or against). The temptation is to move from ‘X discriminates’ to ‘X distinguishes in favor of or against’ to ‘X is wrong’ without being aware of the equivocation involved.

“Discrimination” simply means differentiation. Rule 3.6 requires a determination of whether any differentiation, i.e. separate treatment, is based on any of the following classifications: race, sex, gender, religion, national origin, ethnicity, disability or sexual orientation. Those classifications are referred to here as the “protected classifications.”

¹ Preamble (8) states:

The Ethics Committee of the Pennsylvania Conference of State Trial Judges is designated as the approved body to render advisory opinions regarding ethical concerns involving judges, other judicial officers and judicial candidates subject to the Code of Judicial Conduct. Although such opinions are not, *per se*, binding upon the Judicial Conduct Board, the Court of Judicial Discipline or the Supreme Court of Pennsylvania, action taken in reliance thereon and pursuant thereto shall be taken into account in determining whether discipline should be recommended or imposed.

² Canons 2 A and 5 B of the pre-July 1, 2014, Code of Judicial Conduct.

The Rule pertains to any practice of the organization that discriminates, or treats one differently, on the basis of any of the protected classifications. Separate treatment can take many forms, e.g. whether one can become or becomes a member of the organization, whether one is afforded a different class of membership within the organization, whether one is afforded access to the same facilities or other privileges of the organization, whether one can become an officer or director of the organization, etc. Any treatment that is different is discrimination, and the Rule addresses those practices that differentiate on the basis of any one of the protected classifications. It does not mean individuals who are members of a protected classification are entitled to preferential treatment; it means they are not to be treated differently because of their race, sex, gender, religion, national origin, ethnicity, disability or sexual orientation.

C. Invidious

Not all discrimination is unlawful, unethical or actionable under the Code. The Rule addresses discrimination that is “invidious.” The term “invidious” is not defined in the Code. *Black’s Law Dictionary* (7th ed.) defines “invidious discrimination” as “[d]iscrimination that is offensive or objectionable, esp. because it involves prejudice or stereotyping.” Definitions in other dictionaries include treating a class of persons unequally in a manner that is malicious, hostile or damaging; stigmatizing persons as inferior, odious or otherwise socially unacceptable; or in a way that is likely to arouse or incur resentment or anger. The court in *Farber v. City of Paterson*, 440 F.3d 131 (3d Cir. 2006), found discrimination invidious when the distinction is motivated by immutable characteristics which have no relationship to ability to perform or contribute to society.

Whether discrimination is “invidious” is a complex question that depends upon a variety of factors. Comment (2) to the Rule states:

[a]n organization is generally said to discriminate invidiously if it arbitrarily excludes from membership on the basis of . . . [any of the protected classifications] persons who would otherwise be eligible for admission. Whether an organization practices invidious discrimination is a complex question to which judges should be attentive. The answer cannot be determined from a mere examination of an organization’s current membership rolls, but rather, depends upon how the organization selects its members, as well as other relevant factors, such as whether the organization is dedicated to the preservation of religious, ethnic, or cultural values of legitimate common interest to its members, or whether it is an intimate, purely private organization whose membership limitations could not constitutionally be prohibited.

Other factors may include the history or purpose of the organization, whether the practices of the organization have a rational basis toward a legitimate purpose, and whether such practices are narrowly tailored to further that legitimate purpose. In short, the focus should be on the legitimacy of the distinguishing criteria employed to accomplish the organization’s stated goals and interests, as opposed to stigmatizing or denigrating those who may be affected.

III.

The Committee recognizes the existence of competing interests at play. There is the “expressive associational right” of an organization to exclude persons whose views may impair the ability of the group to express its views.

There is the freedom of individuals to associate, which presupposes the freedom not to associate. There is the state’s interest in eliminating discrimination in education, employment, housing, public accommodations, etc. And there is the Supreme Court’s interest in having a “fair, honorable and impartial judiciary” as “indispensable to our system of justice,” by requiring judges to “avoid [] both impropriety and the appearance of impropriety in their professional and personal lives” by conducting themselves “in a manner that garners the highest level of public confidence in their independence, fairness, impartiality, integrity, and competence.”³

The overarching purpose, or rationale, for Rule 3.6 is stated in Comment (1) to the Rule:

A judge’s public manifestation of approval of invidious discrimination on any basis gives rise to the appearance of impropriety and diminishes public confidence in the integrity and impartiality of the judiciary. A judge’s membership in an organization that practices invidious discrimination creates the perception that the judge’s impartiality is impaired.

This reference to the appearance of impropriety and the public’s confidence in the integrity and impartiality of the judiciary relates back to Canon 1 and Rule 1.2 of the Code.

Canon 1 provides:

A judge shall uphold and promote the independence, integrity, and impartiality of the judiciary, and shall avoid impropriety and the appearance of impropriety.

Rule 1.2 provides:

A judge shall act at all times in a manner that promotes public confidence in the independence, integrity, and impartiality of the judiciary, and shall avoid impropriety and appearance of impropriety.

In conducting any analysis, a judge must always be mindful of Canon 1 and Rule 1.2.⁴

In going through this analysis and applying these various factors, a judge must thoroughly investigate the history and purposes of the organization and fully understand the current policies and practices which are discriminatory. Also for a judge’s consideration are the role the local chapter, council, branch, lodge, agency, etc., plays in developing and implementing or enforcing those policies and practices, and the nature of the organization’s activities locally and in the broader geographic area where it operates.

Therefore, a judge must assess how the members of the public and the community which the judge serves perceive the organization and its policies and practices. A judge must determine whether membership would create in reasonable minds a perception that the judge violated the code or engaged in other conduct that reflects adversely on the judge’s honesty, impartiality, temperament, or fitness to serve as a judge. A judge should consider whether the perception of “reasonable minds” in the geographic area served by the judge might vary from that

³ Code of Judicial Conduct, Preamble (2) and (3).

⁴ Note, Comment (4) to the Rule provides that “[a] judge’s membership in a religious organization as a lawful exercise of the freedom of religion is not a violation of this Rule.”

of “reasonable minds” in other areas of Pennsylvania, and whether or not that could, or should, make a difference.

In addition to these comments, appellate courts may provide a source of information on whether membership limitations are constitutionally permitted or prohibited. *See, e.g., Boy Scouts of America v. Dale*, 530 U.S. 640 (2000) (organization engaging in qualified right of “expressive association” not required to accept members who may impair organization’s ability to advocate for its viewpoint). However, a judge must be aware that consideration of a constitutional challenge alone does not end the analysis under the Code. The mere fact the organization may have the constitutional right to discriminate does not necessarily mean a judge may be a member of it. In promulgating Rule 3.6, the Supreme Court is advancing its interests in trying to ensure a fair and impartial judiciary in which all citizens can have confidence. As the United States Supreme Court said in *Dale*:

... the freedom of expressive association, like many freedoms, is not absolute. We have held that the freedom could be overridden “by regulations adopted to serve compelling state interests, unrelated to the suppression of ideas, that cannot be achieved through means significantly less restrictive of associational freedoms.”

Id., 530 U.S. at 648. The advisory opinions of ethics committees of other states on the particular subject may also assist the judge, but they, of course, are not binding on our Supreme Court or the Committee.

Ultimately, a judge must be guided by the underlying purposes of Rule 3.6 that membership in an organization by a judge must not give rise to the appearance of impropriety thus diminishing public confidence in the integrity and impartiality of the judiciary, nor must it create a perception that the judge’s impartiality is impaired. And, a judge should be mindful of the admonition of Rule 3.1(C) that a judge shall not “participate in activities that would reasonably appear to undermine the judge’s independence, integrity or impartiality.”

While the Committee acknowledges judges would like definitive answers to their questions as to whether they may or may not belong to particular organizations, the Committee is unable to do so. The Committee does not possess the resources to perform the kind of investigation that would be required to decide that issue properly among the myriad of organizations and almost infinite subchapters to which our judges belong or to engage in the type of balancing between the competing interests at play. Each judge must decide this issue on the relevant facts being mindful of the various interests at play.

This Formal Advisory Opinion is intended to provide judicial officers subject to the Code of Judicial Conduct with broad guidance regarding one of the Committee’s most difficult areas of inquiry. Judicial officers are reminded that to enjoy the rule of reliance on the Committee’s advice, or if they have a question concerning the application of these guidelines, they should make a written request for advice from a member of the Committee tailored to the particular situation confronted. The Code provides that although such opinions are not *per se* binding on the Judicial Conduct Board, the Court of Judicial Discipline, or the Supreme Court of Pennsylvania, action taken in reliance thereon shall be considered in determining whether discipline should be recommended or imposed.

Formal Advisory Opinion 2015-3

Notice is hereby given that the Ethics Committee of the Pennsylvania Conference of State Trial Judges has superseded Formal Opinion 2011-1 Certain Fundraising Activities and has replaced it with Formal Advisory Opinion 2015-3 Certain Fundraising Activities which is set forth as follows.

Annex A

TITLE 207. JUDICIAL CONDUCT

PART II. CONDUCT STANDARDS

CHAPTER 33. CODE OF JUDICIAL CONDUCT

Subchapter B. FORMAL OPINIONS

§ 11-1. (Reserved).

§ 15-3. Certain Fundraising Activities.

The Ethics Committee of the Pennsylvania Conference of State Trial Judges (“Ethics Committee”) regularly receives inquiries regarding the propriety of participating in fundraising events on behalf of civic and charitable activities in which judges are involved. Because of the frequency of such inquiries, the Ethics Committee has decided to issue this Formal Advisory Opinion in order to provide guidance to judicial officers subject to the Code of Judicial Conduct (“Code”).

Canon 3 of the Code addresses a judge’s involvement in personal and extrajudicial activities. It provides: “A judge shall conduct the judge’s personal and extrajudicial activities to minimize the risk of conflict with the obligations of judicial office.”

Comment (1) under Rule 3.1 states:

... judges are permitted and encouraged to engage in educational, religious, charitable, fraternal or civic extrajudicial activities not conducted for profit, even when the activities do not involve the law[.]

and Comment (2) states:

[p]articipation in both law-related and other extrajudicial activities helps integrate judges into their communities, and furthers public understanding of and respect for courts and the judicial system.

Rules 3.1, 3.6 and 3.7 address the broad limitations and concerns regarding the circumstances in which judges may properly participate in such activities. For example, judges may not participate in extrajudicial activities that “will interfere with the proper performance” of their judicial duties; “lead to frequent disqualification;” “reasonably appear to undermine the judge’s independence, integrity, or impartiality;” “engage in conduct that would reasonably appear to be coercive;” “hold membership in,” or “use the benefits or facilities” of, an organization “that practices invidious discrimination on the basis of race, sex, gender, religion, national origin, ethnicity, disability or sexual orientation;” or be “an officer, director, trustee, or nonlegal advisor” of an organization that “is likely . . . to be engaged in proceedings that would ordinarily come before the judge or will be regularly engaged in adversary proceedings in any court.”

This Formal Advisory Opinion addresses the nature and extent of fundraising activities held on behalf of civic and charitable organizations in which a judge's participation is permissible.

In pertinent part, Rule 3.7(B) of the Code provides:

* * * * *

(2) A judge shall not personally solicit funds for any educational, religious, charitable, fraternal or civic organization, or use or permit the use of the prestige of the judicial office for that purpose, but may be listed as an officer, director or trustee of such an organization. A judge shall not be a speaker or the guest of honor at an organization's fundraising events that are not for the advancement of the legal system, but may attend such events.

(3) A judge shall not give investment advice to such an organization.

* * * * *

The prohibition against judges *personally* soliciting funds for any educational, religious, charitable, fraternal or civic organization, or using or permitting the use of the prestige of their office for that purpose, is a change from the Code of Judicial Conduct that was in effect prior to July 1, 2014. With respect to those types of organizations, the prior code stated "Judges should not solicit funds . . ."¹ The current Code, effective July 1, 2014, added the word "personally." The prohibition applies regardless of how worthwhile the organization or its activities may be, and it prohibits judges from being the guest speaker or guest of honor at fundraising dinners or events that are not for the advancement of the legal system. Judges, however, may attend such events and contribute to them subject to the broader limitations of the Rules.

Faced with reduced budgets and shrinking charitable contributions, organizations have turned to novel and creative fundraising efforts to swell the crowd or otherwise raise money by involving judges. The Ethics Committee has been presented with a wide variety of such efforts. Without attempting to offer an all inclusive list of all the potential activities that fall within the ambit of Rule 3.7(B), they have included using a judge as an attraction or celebrity participant such as Dancing with the Stars, Competing with the Stars in Sporting Events, Celebrity Auctioneer and Celebrity Contributor. While celebrities and other government officials may lend their personal, professional or other forms of celebrity status to the fundraising efforts of an organization, such activity by a judge is prohibited. In sum, a judge may not permit an organization to capitalize on, exploit or showcase a judge's attendance at or participation in such events by advertising that fact or issuing invitations citing the judge's attendance or participation in advance of the event. A judge who allows himself or herself to be used in this manner is engaged in a solicitation of funds in violation of Rule 3.7(B)(2).

This does not mean that a judge is precluded from receiving a well-earned award from an organization or even being recognized at an event. It means the judge cannot allow his or her presence at the event or the fact that he/she will receive an award at it be used to promote a fundraising event unless the exception for the advancement of the legal system applies. The critical harm to be avoided is the exploitation of the judicial office.

Therefore, while judges may attend fundraising events that do not violate the broader prohibition of reflecting adversely upon the judge's impartiality or interfere with the performance of the judge's judicial duties, a judge should not be featured as a highlight of any such event. Accordingly, advertising the judge's presence, placing the judge in a strategic position to influence potential customers or contributors, having a judge endorse a fundraising event or product, or having a judge sell tickets, may each lead to effects the Code is designed to prevent. These include making people feel obligated to contribute or otherwise participate in the event; enabling them, or others, to believe they are currying favor with the judge; diminishing the office of judge by turning it into a marketing tool; and pressuring other judges into participating in similar causes. A judge who allows himself or herself to be used in this manner is engaged in the solicitation of funds in direct violation of Rule 3.7(B)(2). Because of the overall prophylactic purpose of this Rule, the worthiness of the cause for which the funds are being raised is irrelevant.

If, after considering the foregoing principles, a judge decides to attend or participate in a fundraising event, additional consideration must be given to the mandate of Rule 3.7(A) that a judge's "avocational activities do not detract from the dignity of their office". Accordingly, the indicia of the office of judge, including the judicial robe, gavel and courtroom, should never be utilized or depicted in any manner which would compromise respect for the judiciary or the judicial process. Attendance at, or participation in events that do so, would also be prohibited by Rule 3.7.

This Opinion is obviously not intended as an exhaustive discussion of all of the potential activities permitted or prohibited under the Code. Instead, its primary focus is to address how judges may participate in the fundraising aspects of civic and charitable activities without running afoul of Rule 3.7's prohibition against using or permitting the use of the prestige of the judicial office for the solicitation of funds on behalf of those organizations in which they are involved. By remaining sensitive to the potential exploitation of the judicial office—or more specifically, the "judge as judge"—the salutary purposes animating the Code will be better served and the preservation of an independent judiciary can continue to be assured.

Commonly referred to as "the rule of reliance," Preamble (8) of the Code of Judicial Conduct provides:

The Ethics Committee of the Pennsylvania Conference of State Trial Judges is designated as the approved body to render advisory opinions regarding ethical concerns involving judges, other judicial officers and judicial candidates subject to the Code of Judicial Conduct. Although such opinions are not binding per se upon the Judicial Conduct Board, the Court of Judicial Discipline or the Supreme Court of Pennsylvania, action taken in reliance thereon and pursuant thereto shall be taken into account in determining whether discipline should be recommended or imposed.

To obtain the "rule of reliance," an individual subject to the Code of Judicial Conduct shall present to a member of the Ethics Committee a particular factual scenario, in writing, to which the inquirer seeks advice regarding his/her prospective conduct.

To reiterate, the purpose of this Formal Advisory Opinion is to provide guidance on a matter of general

¹ Canon 5B(2) of the "old" Code of Judicial Conduct.

importance to the Conference. It is not a substitute for an advisory opinion by the Ethics Committee to an individual judicial officer on specific facts.

B. Background and Description of Final-Form Rulemaking

The purpose of this final-form rulemaking is to update Chapter 121 to conform to current practice. In this final-form rulemaking, the definition of “academic year” is amended to add an ending date to coincide with the end of final examinations. This final-form rulemaking makes clarifying amendments to be inclusive of Federal, State and private loans.

Comments and Responses

The Independent Regulatory Review Commission (IRRC) submitted the following comments that were considered by PHEAA in preparing this final-form rulemaking.

Comment

IRRC commented that former § 121.21(b) (relating to requirement for higher education grant applicants) concluded with “. . . standards of instruction of the public high schools located in this Commonwealth.” IRRC noted that to be consistent with other amendments, the text should state “public secondary schools” rather than “public high schools.”

Response

The comment is accepted and the change in terminology is made in this final-form rulemaking.

Comment

IRRC commented that proposed § 121.44(b)(2) (relating to required family financial data) is vague because this paragraph does not provide a definitive standard for the

exception. The proposed phrase “other criteria” should be clearer so that the applicant can understand what criteria he must meet to qualify for the exception. Second, the phrase “. . . which generally are the United States Department of Education criteria . . .” implies that PHEAA may use other criteria. IRRC recommended amending subsection (b)(2) to provide a clear standard for an applicant to qualify for an exception.

Response

PHEAA uses the Free Application for Federal Student Aid developed by the United State Department of Education as the application for the higher education grant program. The language and requirements surrounding independent status may change from year to year and thus PHEAA must be able to be responsive to these variations in the definition. In addition, the variety and complexity of situations that lead to requests for an exception are so diverse that it would be difficult to encapsulate them in a few sentences.

Comment

IRRC stated that § 121.47(a)(5) (relating to State Higher Education Grant Program Manual) begins with the phrase “When applicable, a list of programs of study . . .” IRRC suggested that the text should be revised to “. . . a list of approved programs . . .” to be consistent with the language in this section.

Response

The comment is accepted and the change in terminology has been made in this final-form rulemaking.

Comment

Richard Dumaresq, Executive Director, Pennsylvania Association of Private School Administrators, submitted a comment through IRRC. The commentator suggested deleting “or the Council for Higher Education Accreditation” from § 121.32(b)(1) and (3) (relating to approved institution in higher education grant program) because the language is outdated.

Response

PHEAA replied that the reference to the Council for Higher Education Accreditation (CHEA) is not outdated. Currently, CHEA, a National advocate and institutional voice for self-regulation of academic quality through accreditation, is an association of 3,000 degree-granting colleges and universities, and recognizes 60 institutional and programmatic accrediting organizations. It remains a valid reference.

Fiscal Impact and Paperwork Requirements

The final-form rulemaking will not have adverse impact on the Commonwealth or its political subdivisions. The final-form rulemaking will not impose additional paperwork requirements upon the Commonwealth, political subdivisions or the private sector.

Effective Date

This final-form rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

Sunset Date

The PHEAA Board of Directors continuously monitors the effectiveness of its regulations. Therefore, a sunset date has not been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 22, 2013, PHEAA submitted a copy of the notice of proposed rulemaking, published at 43 Pa.B. 6368 (October 26, 2013), to IRRC and the Chairpersons of the House and Senate Education Committees for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the House and Senate Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Department has considered all comments from IRRC, the House and Senate Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on June 18, 2014, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on June 19, 2014, and approved the final-form rulemaking.

Findings

PHEAA finds that:

(1) Public notice of proposed rulemaking was given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law and all comments were considered.

(3) The amendments to the final-form rulemaking do not enlarge the purpose of proposed rulemaking published at 43 Pa.B. 6368.

(4) This final-form rulemaking is necessary and appropriate for administering and enforcing the authorizing act identified in this preamble.

Order

PHEAA, acting under the authorizing statutes, orders that:

(a) The regulations of PHEAA, 22 Pa. Code Chapter 121, are amended by amending §§ 121.1, 121.3, 121.4, 121.5, 121.7, 121.8, 121.21, 121.22, 121.32, 121.33, 121.41, 121.44, 121.47, 121.48, 121.52, 121.55 and 121.58 to read as set forth in Annex A, with ellipses referring to the existing text of the regulations.

(b) PHEAA shall submit this order and Annex A to the Office of Attorney General as required by law.

(c) PHEAA shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) The final-form rulemaking shall take effect upon publication in the *Pennsylvania Bulletin*.

Agency or PHEAA—The Pennsylvania Higher Education Assistance Agency.

Board—The Board of Directors of the Agency.

Disposable pay—That part of the borrower's compensation from an employer remaining after the deduction of any amounts required by law to be withheld.

* * * * *

Quarter—A period of approximately 11 weeks normally comprising 1/3 of the academic year.

Semester—A period of approximately 17 weeks normally comprising 1/2 of the academic year.

Trimester—A period of approximately 15 weeks normally comprising 1/2 of the academic year.

Veteran—A person who engaged in active service in the United States Army, Navy, Air Force, Marines or Coast Guard or was a cadet or midshipman at one of the service academies and was released under a condition other than dishonorable, or will be by June 30 of the academic year for which the application is made, or who was a National Guard or Reserve service member who was activated for Federal duty by Presidential order. ROTC students, cadets or midshipmen currently attending the service academies, National Guard or Reserve enlistees who were not activated for Federal duty by Presidential order or those currently serving in the United States Armed Forces and will continue to serve through June 30 of the academic year for which application is made are not considered veterans.

§ 121.3. Discrimination prohibited.

The race, religious creed, color, sex, national origin, ancestry, handicap, age or marital status of a student or

parent applicant will not be factors of consideration for eligibility except to the extent that adjustments or allowances based on marital status may be necessary within the State Higher Education Grant Program to properly reflect the ability of the family to finance costs of education.

§ 121.4. Denial of eligibility to loan defaulters.

(a) A higher education applicant who has defaulted on an educational loan guaranteed or reinsured by the Federal government, the government of any state or institution is ineligible for an award or a disbursement of funds unless the applicant has repaid the loan in whole or in part and, in the judgment of the Agency, did not make the repayment merely to gain grant eligibility or unless the applicant otherwise shows good cause why grant eligibility should be reinstated. This includes programs administered by the United States Department of Education or PHEAA when awards have been converted to loans due to failure to meet eligibility or service requirements and the loan is in default status.

(b) Applicants denied eligibility under this section shall be entitled to review of the denial in accordance with the procedure for review and appeals as provided in §§ 121.7 and 121.8 (relating to notice of denial and preliminary review procedures; and applicant and recipient appeals and hearings).

§ 121.5. Enrollment.

To be eligible for a State higher education grant, a student shall be or be about to be enrolled in an approved institution of higher learning on at least a half-time basis. In addition, the President and Chief Executive Officer may treat students as full-time if unusual circumstances would not permit the student to comply with the exact full-time basis requirements as defined in § 121.1 (relating to definitions). In these instances, the President and Chief Executive Officer will thereafter notify the Board of this action.

§ 121.7. Notice of denial and preliminary review procedures.

(a) If the Agency staff determines that eligibility for financial assistance should be denied, the applicant or recipient shall be notified in writing of the determination, the grounds therefor, and his right to appeal from the decision of the Agency staff.

(b) All appeals from the decisions of the Agency staff will be reviewed initially by an Administrative Review Committee composed of staff personnel of the Agency designated by the President and Chief Executive Officer. The Administrative Review Committee may grant eligibility in cases it deems proper. This subsection supersedes 1 Pa. Code § 35.20 (relating to appeals from actions of the staff).

(c) When the Agency through its Administrative Review Committee denies an applicant or recipient eligibility for financial assistance, the applicant or recipient may obtain a review of the Agency's determination by the Committee on Appeals. The Committee on Appeals will determine whether or not the applicant or recipient is eligible for financial assistance.

(d) An appeal to the Committee on Appeals shall be filed on or before the 60th day after the date on which notification of the determination by which he is aggrieved was delivered personally to the applicant or recipient or mailed to him at his last known post office address. The Committee on Appeals may waive this requirement in its discretion.

(e) The appeal shall be filed in writing at the Agency offices in Harrisburg, and must include the following information:

- (1) The name, address and PHEAA account number of the applicant or recipient.
- (2) The date of the decision being appealed.
- (3) The reasons for appeal.
- (4) The signature of the applicant or recipient.

§ 121.8. Applicant and recipient appeals and hearings.

(a) An applicant or recipient who is aggrieved by a determination of the Committee on Appeals denying him eligibility for financial assistance may file an appeal to the Board of Directors.

(b) An appeal to the Board shall be filed on or before the 15th day after the date on which notification of the determination by which he is aggrieved was delivered personally to the applicant or recipient or mailed to him at his last known post office address.

(c) Any written notice that may reasonably be construed as a request for an appeal, delivered or mailed to PHEAA's Office of General Counsel within the prescribed 15-day appeal period, advising that the applicant or recipient is aggrieved and requests a review of the determination denying him financial assistance, will be deemed to initiate and constitute an appeal. The date of initiation of an appeal delivered by mail will be determined from the postmark appearing upon the envelope in which the written communication was mailed.

(d) The appeal may be heard by the Board or, at its direction, by a hearing examiner appointed by the Chairperson of the Board of the Agency or, in the event of the unavailability of the Chairperson, by the Vice Chairperson of the Board of the Agency from a list maintained by the President and Chief Executive Officer. The hearing examiner or the Board will schedule the appeal promptly for hearing and give the applicant or recipient at least 7 days' notice of the hearing. The notice will specify the date, hour and place of hearing.

(e) Hearings will be held at the offices of the Agency in Harrisburg. During the hearing, the applicant or recipient will be given the opportunity to submit testimony or evidence, or both, in support of his contentions. The applicant or recipient will also have the right to present oral and written argument and to cross-examine any witnesses offered by the Agency. This subsection supplements 1 Pa. Code § 35.126 (relating to presentation by the parties).

(f) Where a hearing examiner has been appointed, he shall prepare or cause the preparation of a verbatim transcript of the hearing, develop findings of fact and conclusions of law, and forward these directly to the Board for review and final decision. This subsection supplements 1 Pa. Code §§ 35.131 and 35.202 (relating to recording of proceedings; and proceedings in which proposed reports are prepared).

(g) The Board will make an order or determination as appears just and proper from the evidence submitted.

(h) Notice of the decision of the Board will be mailed promptly to the applicant or recipient at his last known post office address.

(i) Where the decision of the Board is in favor of the applicant or recipient, he shall be eligible for retroactive

financial assistance payments for the period during which such assistance was temporarily delayed.

(j) The decision of the Board on an appeal will become final 10 days after the date thereof. Within 30 days after the decision of the Board becomes final, the applicant or recipient may file an appeal therefrom with Commonwealth Court.

SECONDARY SCHOOL GRADUATION

§ 121.21. Requirement for higher education grant applicants.

(a) A State higher education grant applicant shall be a graduate of or attending an approved secondary school, or be a recipient of a Commonwealth secondary school diploma or other State-issued general equivalency diplomas.

(b) An approved secondary school shall be any public or private secondary school, located in this Commonwealth or elsewhere, including foreign institutions and United States schools overseas, which in the judgment of the Pennsylvania Department of Education provides a course of instruction at the secondary level and maintains standards of instruction substantially equivalent to the standards of instruction of the public secondary schools in this Commonwealth.

(c) For purposes of the State Higher Education Grant Program, an approved secondary school shall also include any home education program that is accredited by any home schooling accreditation agency approved by the Pennsylvania Department of Education. S. § 13-1327.1) shall be submitted to the Agency by the appropriate local school official.

§ 121.22. Early admission students.

Student applicants who leave a State approved secondary school prior to their senior year and are admitted for the academic year or a portion thereof, immediately following their secondary school studies, to an approved institution of higher learning as early admission students shall be considered as first-year collegiate applicants and in compliance with the secondary school graduation requirement for purposes of State higher education grant eligibility if the school district of the school that the applicant had attended certified that:

(1) The applicant left senior high school in accordance with policies and procedures previously established by the superintendent and the board of school directors to attend an approved institution of higher learning.

(2) The high school diploma will be awarded upon the applicant's successful completion of the requirements set forth by the local board of school directors.

EDUCATIONAL INSTITUTIONS

§ 121.32. Approved institution in higher education grant program.

(a) To be eligible for a State higher education grant, an applicant shall enroll in a program approved under § 121.33 (relating to approved program of study in higher education grant program) and shall attend an institution of higher education approved by the Agency for enrollment of grant recipients under the State Higher Education Grant Program

(b) To be approved, an institution shall be other than a school of theology or a theological seminary as determined by the Agency, be located in the United States or any of its territories and comply with the following:

(1) If the institution is a college or university located within this Commonwealth, the institution shall be approved by the Pennsylvania Department of Education and shall be accredited or a recognized candidate for accreditation with an accrediting body recognized by the United States Department of Education or the Council for Higher Education Accreditation and its successors; if the college or university is located outside this Commonwealth, the institution shall be degree-granting, shall be operated not-for-profit, shall be legally authorized to do business by the appropriate state licensing or approval authority in the state in which it is doing business and shall be fully accredited by an accrediting body recognized by the United States Department of Education or the regional institutional accrediting body recognized by the Council for Higher Education Accreditation and its successors responsible for accreditation in the state where the college or university is conducting its educational program.

(d) Approval of an institution after August 1 will become effective the following August 1 with two exceptions:

(1) To be effective for the ensuing summer term, approval shall be obtained prior to May 1.

(2) In the light of the particular circumstances related to the institution's approval and the funding and application processing conditions of the Agency, the President and Chief Executive Officer may make the approval effective on a date prior to August 1.

(e) The President and Chief Executive Officer may suspend the processing of aid request forms of State grant applicants or cease further disbursement of State grant funds to an approved institution, or both, when, in the judgment of the President and Chief Executive Officer, the institution's compliance with the conditions required for approval or the institution's continued eligibility or operation is in question and the action is deemed necessary to protect the interests of the student aid applicants, the Commonwealth or the Agency. This subsection may also be invoked upon a change in ownership, administration or directorship of the institution.

(f) An institution's approved status may be terminated by the President and Chief Executive Officer when any of the conditions required for approval cease to be met.

(g) In suspending or withdrawing the approval of an institution, the President and Chief Executive Officer may authorize continuation of eligibility determination and grant disbursement for State grant renewal applicants.

§ 121.33. Approved program of study in higher education grant program.

To be eligible for a State higher education grant, an applicant shall enroll in a program of study approved by

the Agency and offered by an institution approved by the Agency under § 121.32 (relating to approved institution in higher education grant program) for participation in the State Higher Education Grant Program. An approved program of study shall comply with the following:

(1) An approved program of study shall be a program of instruction of at least 2 academic years which shall be the equivalent of at least 60 semester credit hours or at least 1,800 clock hours of instruction (1,500 clock hours in the case of programs leading to the associate degree in specialized technology or the associate degree in specialized business offered by institutions of higher education located within this Commonwealth) except that, other than for those community college programs which are measured in credit hours, programs not leading to a degree shall be measured in clock hours, with at least 30 semester credit hours or 900 clock hours earned through instruction within the classroom, and shall be presented over a calendar of at least 15 months.

(2) An approved program of study shall require that at least 50% of the credits needed for completion of the program at the approved institution be earned through instruction within the classroom.

(3) If offered at a trade, technical or business school located within this Commonwealth, an approved program of study shall be approved by the Pennsylvania Department of Education or by the Pennsylvania State Board of Private Licensed Schools.

(4) An approved program of study shall be on the approved list as of August 1 for the ensuing academic year. Approval after August 1 will become effective the following August 1 with two exceptions:

(i) To be effective for the ensuing summer term, approval must be obtained prior to May 1.

(ii) In the light of the particular circumstances related to the approval of the program of study and the funding and application processing conditions of the Agency, the President and Chief Executive Officer may make the approval effective on a date prior to August 1.

Subchapter B. HIGHER EDUCATION GRANT PROGRAM

§ 121.41. Grouping of applicants.

Higher education grant applicants shall be grouped into the following categories:

(1) *Group I.* A roster of the top 5,000 prospective freshmen applicants—without breaking ties—listed in descending order by composite score on college entrance examinations.

(2) *Group IIA.* A roster of remaining prefreshmen applicants planning to enroll in degree institutions other than those enrolled in nontransferable Community College Programs.

(3) *Group IIB.* A roster of all prospective freshmen applicants planning to enroll in a nondegree-granting institution or an approved nondegree course of study in a degree-granting institution.

(4) *Group III.* A roster of all high school graduates who have a lapse of 1 year between their high school graduation date and the date of their planned enrollment in a degree-granting institution, all students enrolled or accepted for enrollment as other than first year students in a degree-granting institution, and all early admission students.

(5) *Renewals.* A roster of all students previously awarded State higher education grants who maintain eligibility.

§ 121.44. Required family financial data.

(a) *General.* The applicant, the applicant's parents and stepparents, and the applicant's spouse shall submit financial data that the Agency requests and, further, shall be required to authorize the Director of the State Personal Income Tax Bureau and the District Director of the Internal Revenue Service to release to the Agency, upon request of the Agency, a copy or extract of the State or Federal Income Tax Return filed by the applicant, the applicant's parents and stepparents, and the applicant's spouse for the tax years the Agency designates. The Agency may in addition require the applicant, the applicant's parents and stepparents, and the applicant's spouse to submit a copy of the tax returns directly to the Agency.

(b) *Exceptions.* The Agency may determine the eligibility of the applicant without regard to the parents' financial data, waiving its submission, in the following cases:

(1) If the applicant is a veteran as defined in § 121.1 (relating to definitions).

(2) If the applicant is in compliance with other criteria established by the Agency for the processing of applicants without regard to parental financial data which generally are the United States Department of Education criteria for financial independence for Title IV Federal student aid programs.

(3) Other exceptions may be granted by the Administrative Review Committee or the Committee on Appeals in turn on an individual case basis.

(c) *Severe casualty losses.* If, as a result of fire, storm or other casualty, the family of a higher education grant applicant has suffered severe losses not fully covered by insurance, the post-loss value of assets normally taxed in the eligibility determination may be used in processing the application to reflect the family's reduced ability to finance educational costs. If the family's loss is covered by insurance (whether fully or partially), the Agency, in processing the application, may elect to use either the preloss value of the assets or the insurance benefits received because of the loss. If the loss is not fully covered by insurance, the Agency may also elect to subtract from family income the amount of the casualty losses not covered by insurance, to waive the normal application filing deadline and to afford other special treatment of the application that may be merited.

§ 121.47. State Higher Education Grant Program Manual.

(a) The Agency will publish annually a State Higher Education Grant Program Manual containing:

(1) Current financial need analysis procedures established by the Agency.

(2) A list of approved colleges, universities and hospital schools of nursing in this Commonwealth.

(3) A list of approved programs of study offered by approved trade, technical and business schools in this Commonwealth.

(4) A list of approved institutions of higher learning outside of this Commonwealth.

(5) When applicable, a list of approved programs of study offered by institutions of higher learning outside of this Commonwealth.

(6) A list of accrediting agencies (bodies) recognized by the Agency for the State Higher Education Grant Program.

(b) The State Higher Education Grant Program Manual will be available on the Agency's web site.

§ 121.48. Limitation on payment of grants.

The Agency will not make payment of, or further payment on, an existing State higher education grant on the basis of an inquiry or request received after August 1 of the calendar year immediately following the academic year for which the payment is sought unless the President and Chief Executive Officer specifically directs that payment be made to prevent grave hardship.

§ 121.52. Transferring an award.

A recipient may not transfer his award to a nonapproved institution or course of study.

§ 121.55. Recipients on probation.

A recipient on academic or disciplinary probation shall remain eligible for a higher education grant if the institution of higher learning permits him to continue his studies on at least a half-time basis and he is making satisfactory academic progress as required under § 121.58 (relating to academic progress).

§ 121.58. Academic progress.

(a) A higher education grant recipient must make normal academic progress, as defined in the State Higher Education Grant Program Manual, from year to year to retain higher education grant eligibility.

(b) The Agency will make the final decision in all matters pertaining to academic progress.

PROPOSED RULEMAKING

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 461a, 463a, 465a, 601a, 605a
AND 607a]

Hybrid Gaming Tables and Electronic Wagering Terminals

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 13A02(1), (2), (2.1), (4) and (6), 13A25(c) and 13A62(a) (relating to regulatory authority; table game accounting controls and audit protocols; and table game taxes) proposes to amend Chapters 461a, 463a, 465a, 601a, 605a and 607a to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

This proposed rulemaking will add hybrid gaming tables, a new game technology, to the complement of table games available for play in this Commonwealth.

Explanation

Hybrid gaming tables, which combine the live dealer action with fully automated electronic wagering, are a new technology to this Commonwealth. This proposed rulemaking incorporates this new technology into the existing Board regulations on device testing, internal controls, table game taxes and the provisions associated with electronic gaming tables.

Chapter 461a. Slot machine and table game device testing and control

Like slot machines and fully automated electronic gaming tables, electronic wagering terminals (the devices patrons will utilize to wager at hybrid gaming tables) are required to have an asset number, to utilize bill validators for the acceptance of cash and gaming vouchers, and to be connected to the Department of Revenue's central control computer system (CCCS). Connection to the CCCS is required because, just like slot machines and fully automated electronic gaming tables, wagering on hybrid gaming tables is conducted electronically through the use of an electronic wagering terminal. Electronic wagering terminals are equipped with a bill validator, meters to determine amount of play and a drop box for the collection of cash and gaming vouchers.

The CCCS will act as the system of record for accounting purposes and the CCCS will calculate revenue for table game tax purposes, just as it does for slot machines and fully automated electronic gaming tables.

Chapter 463a. Possession of slot machines, electronic wagering terminals and fully automated electronic gaming tables

This chapter requires that an electronic wagering terminal be treated just like a slot machine or fully automated electronic gaming table as it relates to movement of the machines into, around and out of a licensed facility, and requires that operators account for each machine's location in the licensed facility or storage area on a master table game list submitted monthly. These requirements are consistent with the current requirements applicable to slot machines and fully automated electronic gaming tables.

Chapter 465a. Accounting and internal controls

This chapter requires that an operator that intends to install hybrid gaming tables and electronic wagering terminals update its internal controls to reflect the additional machines and tables. Surveillance requirements for electronic wagering terminals and hybrid gaming tables are in § 465a.9 (relating to surveillance system; surveillance department control; surveillance department restrictions) and supervision requirements are in § 465a.11 (relating to slot machine licensee's organization; jobs compendium).

Sections 465a.18 and 465a.25 (relating to transportation of slot cash storage boxes and table game drop boxes to and from the gaming floor; storage; and counting and recording of slot cash storage boxes and table game drop boxes) address the procedure for the collection and counting of drop boxes connected to electronic wagering terminals. Because revenue is based on a metered win and electronic wagering terminals are required to be connected to the CCCS, the Board allowed for the collection of drop boxes connected to electronic wagering terminals to be conducted at the same time as drop boxes connected to slot machines and fully automated electronic gaming tables. Additionally, unlike traditional table game drop boxes that are collected and counted daily, the Board will not require that boxes connected to electronic wagering terminals be collected or counted on a daily basis.

Text is proposed to be added to § 465a.19 (relating to acceptance of tips or gratuities from patrons) to allow for the acceptance of tips placed electronically through the use of electronic wagering terminals provided the operator specifies how the tips will be pooled and distributed in conformance with 4 Pa.C.S. § 13A02(6).

As previously specified, because wagering at a hybrid gaming table is conducted electronically at an electronic wagering terminal and is not conducted through the use of value chips like a traditional table game, §§ 465a.36—465a.42, which are associated with table inventories, opening and closing tables and the distribution and removal of chips, are not applicable. Therefore, electronic wagering terminals were excluded from §§ 465a.36—465a.42.

Chapter 601a. General table game provisions

Section 601a.9 (relating to table game taxes and gross table game revenue) addresses the calculation of table game taxes and gross table game revenue. As specified in subsection (e), net revenue from electronic wagering terminals is determined through the CCCS and will be taxed at the traditional table game rate not at the fully automated table game rate. This provision is consistent with 4 Pa.C.S. § 13A62, which specifies that fully automated electronic gaming tables, which are operated without the assistance of a dealer, are taxed at a higher rate than those tables that operate with the assistance of a dealer, including hybrid gaming tables connected to electronic wagering terminals.

Chapter 605a. Electronic gaming tables

This chapter provides the definitions and requirements specific to hybrid gaming tables and electronic wagering terminals. As defined in § 605a.1 (relating to definitions), the hybrid gaming table is where the dealing of the table game takes place while electronic wagering terminals are the devices patrons utilize to buy in, cash out and place their wagers.

Because game play on an electronic wagering terminal is captured utilizing meters, just like fully automated electronic gaming tables, the provisions addressing the meter requirements in § 605a.5 (relating to fully automated electronic gaming tables and electronic wagering terminals) are proposed to be amended to include electronic wagering terminals.

Proposed § 605a.9 (relating to hybrid gaming tables) addresses requirements specific to hybrid gaming tables. Included in this section is the provision that addresses how hybrid gaming tables and electronic wagering terminals will be counted for purposes of the number of gaming tables each facility is authorized to operate.

Regardless of the number of hybrid gaming tables each facility operates, every five electronic wagering terminals will count as one gaming table. The number of electronic wagering terminals is focused on instead of the number of hybrid gaming tables because operators can connect a significant number of electronic wagering terminals to each hybrid gaming table, in essence having one table connected to a high number of player positions, far more player positions than a traditional table game could accommodate.

The Board believes that if it were to ignore the number of electronic wagering terminals and count only the number of hybrid gaming tables a facility operates, the regulation would run afoul of the legislatively mandated cap on the number of authorized table of 250 tables for Category 1 and 2 licensees and 50 tables for Category 3 licensees. See 4 Pa.C.S. § 13A11(b) (relating to authorization to conduct table games).

Fiscal Impact

Commonwealth. The Board does not expect that this proposed rulemaking will have a fiscal impact on the Board or other Commonwealth agencies as testing and approval of the new hybrid gaming tables will be conducted by existing Board staff.

As it relates to internal controls, updates to internal control procedures will be reviewed by existing Board staff.

Political subdivisions. This proposed rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

Private sector. This proposed rulemaking will provide certificate holders with additional table game options. If a certificate holder decides to offer hybrid gaming tables within the licensed facility, the certificate holder will be required to acquire equipment and train their dealers and support staff. While these hybrid gaming systems require a substantial capital expenditure, the requirements in this proposed rulemaking should not increase costs operators would already have to incur to acquire the new technology. Costs incurred to train employees or purchase/lease equipment should be offset by the proceeds of gaming.

General public. This proposed rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

If a certificate holder elects to offer table gaming on hybrid gaming tables, the certificate holder will be required to submit updated internal controls reflecting the changes. These forms are submitted to Board staff electronically.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking within 30 days after the date of publication in the *Pennsylvania Bulletin* to Susan A. Yocum, Assistant Chief Counsel, Attention: Regulation #125-189 Public Comment, Pennsylvania Gaming Control Board, P. O. Box 69060, Harrisburg, PA 17106-9060.

Contact Person

The contact person for questions about this proposed rulemaking is Susan Yocum, Assistant Chief Counsel, (717) 346-8300.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on July 15, 2015, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee. A copy of this material is available to the public upon request and is available on the Board's web site at www.gamingcontrolboard.pa.gov.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Table Game Rules of Play

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 13A02(1), (2), (4) and (7) and 13A23(a) (relating to regulatory authority; and training of employees and potential employees), proposes to amend Chapters 465a and 611a (relating to accounting and internal controls; and table game minimum training standards), rescind temporary Chapters 583, 585, 587, 588, 589, 590, 591, 592 and 593 and add Chapters 667a, 668a, 669a, 670a, 671a, 672a, 673a, 674a, 675a and 676a to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

This proposed rulemaking will add a new table game, transition nine temporary table game chapters into permanent regulations, update the surveillance requirements to incorporate the additional table games and amend the dealer minimum training requirements.

Explanation

Surveillance requirements in Chapter 465a

The surveillance requirements in § 465a.9 (relating to surveillance system; surveillance department control; surveillance department restrictions) are proposed to be amended to incorporate the ten additional table games in this proposed rulemaking that are being added to the permanent regulations. The provisions being added to § 465a.9 are consistent with surveillance requirements in the temporary regulations, which will be rescinded upon final-form rulemaking.

Dealer training in Chapter 611a

The dealer training requirements in § 611a.2 (relating to minimum proficiency requirements) are proposed to be amended to provide clarity to the regulated community, to include training on games not previously incorporated into the regulations and to reduce the number of hours of training on specific game types for experienced dealers only.

Proposed amendments to § 611a.2(a), regarding inexperienced dealer training, provide clarity by grouping like games together, eliminating the reference to Pai Gow Poker and Baccarat style games, as those games are "other banked card games" which are already incorporated into the requirements under the Blackjack training, and including training on Big 6 Wheel and Sic Bo, game types not previously incorporated into the regulations.

Section 611a.2(b) addresses additional training for those dealers who are already trained and experienced in

dealing table games. These provisions are applicable when a dealer is trained on one table type, card style games for example, and wish to be trained on a different table type, such as Craps or tiles. The amendments to subsection (b) are proposed for clarity and to reduce the number of hours of additional training an experienced dealer is required to complete to deal dice, Roulette or tile games.

Proposed § 611a.2(d) requires licensees to specify the mechanism and the amount of additional training experienced dealers will be completing to deal a different game of the same table type. This provision is applicable when a dealer is already experienced to deal a table type, such as the card game Pai Gow Poker, but would now like to deal the new game of the same table type, such as proposed card game Go Fore It. All training programs are required to be submitted in accordance with § 611a.4 (relating to submission of training programs to the Board).

Table games

Flop Poker, Props & Hops, Raise It Up Stud Poker, Six Card Fortune Pai Gow Poker, Lunar Poker, Free Bet Blackjack, Double Back Jack, Criss-Cross Poker and High Roll Dice are proposed to be transitioned from temporary regulations to permanent regulations. Go Fore It, a table game, is proposed to be added.

For the rules of play for table games, most chapters are drafted in the same basic format: section a.1 containing the definitions used throughout the chapter; section a.2 containing the table physical characteristics; section a.3 detailing the number of cards and decks used to play the game; section a.4 addressing the opening of the table for gaming; section a.5 detailing how the cards are to be shuffled and cut; section a.6 specifying the ranking of the hands; section a.7 outlining the permissible wagers; sections a.8—a.10 detailing the procedures for dealing the cards; section a.11 addressing how the round of play is to be completed; section a.12 outlining the permissible payout odds for winning wagers; and section a.13 addressing irregularities in play.

The Board approved some revisions between the temporary regulations and the proposed permanent regulations. An optional progressive side wager is proposed to be added in Chapter 667a (relating to Flop Poker). In Chapter 668a (relating to Props & Hops), three wagers were not transferred and seven wagers are proposed to be added.

Chapter 671a (relating to Lunar Poker) is a complete rewrite of the game from the temporary regulations.

In Chapter 672a (relating to Free Bet Blackjack), optional surrender was not transferred from this Blackjack variation as players may split or double-down without placing an additional wager depending on the value of the player's hand.

Minor revisions are made to payout tables in Chapters 674a and 675a (relating to Criss-Cross Poker; and High Roll Dice).

Fiscal Impact

Commonwealth. The Board does not expect that this proposed rulemaking will have fiscal impact on the Board or other Commonwealth agencies. Updates to Rules Submission forms and internal control procedures will be reviewed by existing Board staff.

Political subdivisions. This proposed rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

Private sector. This proposed rulemaking will provide certificate holders with additional table game options. If a certificate holder decides to offer the games within the licensed facility, the certificate holder will be required to train their dealers on the rules of play and may need to purchase new equipment. Costs incurred to train employees or purchase/lease equipment should be offset by the proceeds of gaming.

General public. This proposed rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

If a certificate holder selects different options for the play of table games, the certificate holder will be required to submit an updated Rules Submission form reflecting the changes. These forms are available and submitted to Board staff electronically.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Flop—The three community cards dealt during a round of play.

Fold—The withdrawal of a player from a round of play by not making a Flop Wager.

§ 667a.2. Flop Poker table physical characteristics.

(a) Flop Poker shall be played on a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Flop Poker table shall be submitted to the Bureau of Gaming Operations in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) Three separate betting areas designated for the placement of Ante, Flop and Pot Wagers for each player.
- (3) A separate area designated for the placement of the three community cards located directly in front of the table inventory container.

(4) If a certificate holder offers the optional Three Card Bonus Wager authorized under § 667a.7(d)(3) (relating to wagers), a separate area designated for the placement of the Three Card Bonus Wager for each player.

(5) If the certificate holder offers the optional Progressive Flop Wager authorized under § 667a.7(d)(4), a separate area designated for the placement of the Progressive Flop Wager for each player.

(6) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Flop Poker table.

(7) Inscriptions indicating the following:

- (i) The Flop Wager must be equal to the Ante Wager.
- (ii) The Pot Wager must be equal to the table minimum.

(8) If the information required under paragraph (6) is not inscribed on the layout, a sign which sets forth the required information shall be posted at each Flop Poker table.

(c) If a certificate holder offers a Progressive Flop Wager in accordance with § 667a.7(d)(4), the Flop Poker table must have a progressive table game system, in accordance with § 605a.7 (relating to progressive table games), for the placement of Progressive Flop Wagers. If the certificate holder is offering a Progressive Flop Wager on multiple linked tables or games in the same licensed facility, the progressive table game system must comply with § 605a.8 (relating to linked progressive table games). The progressive table game system must include:

(1) A wagering device at each betting position that acknowledges or accepts the placement of the Progressive Payout Wager.

(2) A device that controls or monitors the placement of Progressive Payout Wagers at the gaming table, including a mechanism, such as a lock-out button, that prevents the recognition of any Progressive Payout Wager that a player attempts to place after the dealer has announced "no more bets."

(d) Each Flop Poker table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each Flop Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 667a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Flop Poker shall be played with one deck of cards that are identical in appearance and two cover cards.

(b) If an automated card shuffling device is utilized, Flop Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Flop Poker shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 667a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 667a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 667a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal or deliver the cards in accordance with § 667a.8, § 667a.9 or § 667a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Flop Poker table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 667a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 667a.6. Flop Poker rankings.

(a) The rank of the cards used in Flop Poker, in order of highest to lowest rank, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example, queen, king, ace, 2 and 3). All suits shall be equal in rank.

(b) The permissible five-card Poker hands at the game of Flop Poker, in order of highest to lowest rank, shall be:

(3) A four-of-a-kind, which is a hand consisting of four cards of the same rank, with four aces being the highest ranking four-of-a-kind and four 2s being the lowest ranking four-of-a-kind.

(5) A flush, which is a hand consisting of five cards of the same suit, not in consecutive order, with ace, king, queen, jack and 9 being the highest ranking flush and 2, 3, 4, 5 and 7 being the lowest ranking flush.

(6) A straight, which is a hand consisting of five cards of more than one suit and of consecutive rank, with an ace, king, queen, jack and 10 being the highest ranking straight and an ace, 2, 3, 4 and 5 being the lowest ranking straight.

(7) A three-of-a-kind, which is a hand consisting of three cards of the same rank, with three aces being the highest ranking three-of-a-kind and three 2s being the lowest ranking three-of-a-kind.

(9) A pair, which is a hand consisting of two cards of the same rank, with two aces being the highest ranking pair and two 2s being the lowest ranking pair.

(c) When comparing two Poker hands that are of identical rank under subsection (b), or that do not contain the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered the higher ranking hand. If the hands are of identical rank after the application of this subsection, the hands shall be considered a tie.

(d) If the certificate holder is offering the Three Card Bonus Wager, the three-card Poker hands eligible for a payout are:

(1) A royal, which is a hand consisting of an ace, king and queen of the same suit.

(2) A straight flush, which is a hand consisting of three cards of the same suit in consecutive ranking, other than a royal.

(3) A three-of-a-kind, which is a hand consisting of three cards of the same rank.

(5) A flush, which is a hand consisting of three cards of the same suit, regardless of rank.

(6) A pair, which is a hand consisting of two cards of the same rank.

§ 667a.7. Wagers.

(a) Wagers at Flop Poker shall be made by placing value chips or plaques on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Flop Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Flop Wager, shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedure in § 667a.8, § 667a.9 or § 667a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in

§ 667a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Flop Poker:

(1) To participate in a round of play, each player shall place a Pot Wager equal to the table minimum and an Ante Wager.

(2) A player shall compete against a posted payable by placing a Flop Wager equal to the player’s Ante Wager, in accordance with § 667a.11(b).

(3) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Flop Poker table the option to make an additional Three Card Bonus Wager that the player’s first three cards will contain a pair or better.

(4) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Flop Poker table the option to make an additional Progressive Flop Wager that two of the community cards and the player’s three cards will contain a flush or better. After placing the Pot and Ante Wagers required under subsection (d)(1), a player may make an additional Progressive Flop Wager by placing a value chip on the designated betting area prior to the dealer announcing “no more bets.”

(e) A player may not wager on more than one player position at a Flop Poker table.

§ 667a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 667a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Flop Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Flop Wagers. If any Progressive Flop Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Flop Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) After all players have placed their Ante, Pot, Three Card Bonus and Progressive Flop Wagers, the dealer shall collect each player’s Pot Wager and place it in the center of the table in the area designated for the placement of the Pot Wagers.

(d) The dealer shall then, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 667a.7(d)(1) (relating to wagers) until each player who placed the required wagers has three cards. Each card shall be removed from the dealing shoe with the

hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(e) After three cards have been dealt to each player, the dealer shall deal the three community cards in accordance with § 667a.11 (relating to procedures for completion of each round of play). After all community cards have been dealt, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 667a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 667a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Flop Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Flop Wagers. If any Progressive Flop Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Flop Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) After all players have placed their Ante, Pot, Three Card Bonus and Progressive Flop Wagers, the dealer shall collect each player’s Pot Wager and place it in the center of the table in the area designated for the placement of the Pot Wagers.

(d) The dealer shall then, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance

with § 667a.7(d)(1) (relating to wagers) until each player who placed the required wagers has three cards. To deal each card, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout.

(e) After three cards have been dealt to each player, the dealer shall deal the three community cards in accordance with § 667a.11 (relating to procedures for completion of each round of play). After all community cards have been dealt, the dealer shall, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 667a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 667a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets" and, if the Progressive Flop Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Flop Wagers. If any Progressive Flop Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Flop Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) After all players have placed their Ante, Pot, Three Card Bonus and Progressive Flop Wagers, the dealer shall collect each player's Pot Wager and place it in the center of the table in the area designated for the placement of the Pot Wagers.

(c) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed the required wagers in accordance with § 667a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed a required wager in accordance with § 667a.7(d)(1). The dealer shall then deliver a stack of three cards face down under a cover card to the area designated for the placement of the three community cards.

(d) After each stack of three cards has been dispensed and delivered in accordance with subsection (c), the dealer shall remove the remaining cards from the automated dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(e) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 667a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 667a.8, § 667a.9 or § 667a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Flop Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to fold or place a Flop Wager equal to his Ante Wager. If a player folds, the dealer shall collect the Ante Wager but the player's cards shall remain on the layout. A player who folds will be eligible to win the Three Card Bonus and Progressive Flop Wagers in accordance with subsection (d) and the Pot in accordance with subsection (e).

(c) Unless the certificate holder is utilizing an automated dealing shoe that dispenses the stack of community cards, once all players have either placed a Flop Wager or folded, the dealer shall burn the next card. The dealer shall then deal the flop face up to the designated area for the community cards.

(d) After the three community cards have been revealed, the dealer shall, beginning with the player farthest to the dealer's right and moving counterclockwise around the table, turn the three cards of each player face up on the layout. The dealer shall then settle the Ante, Flop, Three Card Bonus and Progressive Flop Wagers as follows provided that the Ante, Flop, Progressive Flop and Three Card Bonus Wagers of each player shall be resolved one player at a time regardless of outcome:

(1) For each player who placed a Three Card Bonus Wager, the dealer shall form the highest ranking three-card Poker hand as described in § 667a.6(d) (relating to Flop Poker rankings) from the three cards dealt to each player. If the player's hand contains a pair or better, the dealer shall pay the winning wager in accordance with § 667a.12(c) (relating to payout odds; Envy Bonus; rate of progression; payout limitation).

(2) The dealer shall then select five cards from the player's three cards and two of the community cards to form the highest ranking five-card Poker hand. If the player's five-card Poker hand contains a pair of jacks or better, the dealer shall pay the winning Ante and Flop Wagers in accordance with § 667a.12(a) and (b). If a player placed a Progressive Flop Wager and the player's five-card Poker hand contains a flush or better, the dealer shall:

- (i) Verify that the hand is a winning hand.
- (ii) Verify that the appropriate light on the progressive table game system has been illuminated.
- (iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(iv) Pay the winning Progressive Flop Wager in accordance with the payout odds in § 667a.12(d). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(e) After settling each player's Ante, Flop, Three Card Bonus and Progressive Flop Wagers, the dealer shall settle the Pot Wager by determining which player's five-card Poker hand ranks the highest. The player with the highest ranking five-card Poker hand shall be paid the entire Pot amount. If there is a tie hand, the player with the next highest card shall be awarded the entire Pot amount. If there is a tie hand and players have identical hands, the Pot shall be split evenly between the winning players.

(f) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 667a.12. Payout odds; Envy Bonus; rate of progression; payout limitation.

(a) A certificate holder shall pay each winning Ante Wager at odds of 1 to 1.

(h) The dealer shall then announce the numbers on the uppermost or skyward sides of the two dice and place a pointer marker on the corresponding area of the layout. If one die comes to rest on top of the other or if the dice do not land flat on the bottom of the shaker after being tossed, the dealer shall call a "no roll." The dice shall be shaken again in accordance with subsection (f).

(i) After a valid roll, the dealer shall then collect all losing wagers before paying out winning wagers in accordance with § 668a.4 (relating to payout odds) provided that if any player placed Six Eight Shake Wager and if the number rolled corresponds to one of the boxes on the table layout that contains a lammer button, the dealer shall remove the lammer button and place it in the Six Eight Shake circle on the table layout furthest to the dealer's right. Each time one of the preselected numbers containing a lammer is rolled, the lammer will be collected and placed on the Six Eight Shake circle next to the previous lammer. If there is a wager in the Six Eight Shake circle, the lammer shall be placed on top of the wager. If all six combinations of dice are thrown and all six lammer buttons are placed on the designated Six Eight Shake circles before a seven is thrown, the dealer shall pay each winning Six Eight Shake Wager in accordance with § 668a.4.

(j) After all losing wagers have been collected and all winning wagers have been paid, the dealer shall cover and shake the shaker.

(k) The same player who shook the dice shall continue to shake the dice during each subsequent round of play until the player shakes a 7. Once the total of the dice is a 7, the dice shaker will be passed to the next player to the left at the next round of play.

(5) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Raise It Up Stud Poker table the option to make an additional Six Card Bonus Wager that the three cards dealt to the player and the three community cards will form a three-of-a-kind or better as described in § 669a.6(b).

(e) A player may not wager on more than one player position at a Raise It Up Stud Poker table.

§ 669a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards, face down, as follows:

(1) Deal one card at a time to each player who placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers) until each player who placed a wager has three cards.

(2) Three cards to the area designated for the placement of the community cards.

(e) After three cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 669a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that

round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall then collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards, face down, as follows:

(1) Deal one card at a time to each player who placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers) until each player who placed a wager has three cards.

(2) Three cards to the area designated for the placement of the community cards.

(c) After three cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 669a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealing shoe dispensing any stacks, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional

Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of three cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed Ante and Blind Wagers. The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the three community cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine that the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 669a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 669a.8, § 669a.9 or § 669a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Raise It Up Stud Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(3) A player may not exchange or communicate information regarding his hand prior to the dealer revealing all of the community cards. A violation shall result in a forfeiture of all wagers on that round by that person.

(b) After each player has examined his cards and replaced them face down on the layout, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to check or place a Play Wager in an amount equal to one, two or three times the amount of the player's Ante Wager.

(c) Once all players have either checked or placed a Play Wager, the dealer shall turn over and reveal the first community card and place it in the 4th Street box on the layout.

(d) Each player shall then either check or place a Play Wager in an amount equal to one or two times the amount of the player's Ante Wager.

(e) Once all remaining players have either checked or placed a Play Wager, the dealer shall turn over and reveal the second community card and place it in the 5th Street box on the layout.

(f) Each player shall then either place a Play Wager in an amount equal to the amount of the player's Ante Wager or fold. If a player folds, the Ante and Blind Wagers shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout or Six Card Bonus Wager in which case the cards shall be left on the table until the Six Card Bonus Wager and any Envy Bonus is settled in accordance with subsection (i).

(g) If a player has placed a Progressive Payout or Six Card Bonus Wager but does not make a Play Wager, the player shall forfeit the right to receive a Progressive Payout but does not forfeit the eligibility to receive an Envy Bonus under § 669a.12(e)(5) (relating to payout odds; Envy Bonus; rate of progression) or a Six Card Bonus payout under § 669a.12(f).

(h) Once all remaining players have either placed a Play Wager or folded, the dealer shall turn over and reveal the third community card and place it in the 6th Street box on the layout.

(i) Beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn over and reveal the player's three cards and complete the following applicable procedures in succession for each player:

If a player has won a progressive payout that is not being paid from the

table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 670a.5. Shuffle and cut of the cards; procedures for determining the starting position for dealing cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by the floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, determine the starting position in accordance with subsection (i), then deal the cards in accordance with § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with the procedures in subsections (c)—(e).

(c) Upon completion of a manual shuffle, the dealer shall place the stack of cards on top of one of the cover cards. The dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (d). If no player accepts the cut, the dealer shall cut the cards.

(d) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(e) The player or dealer making the cut shall place the second cover card in the stack at least ten cards from the top or the bottom of the deck. Once the second cover card has been inserted, the dealer shall take the second cover card and all the cards on top of the second cover card and place them on the bottom of the stack. The dealer shall then remove the first cover card and place it on the bottom of the stack. The dealer shall remove one of the cover cards and either place it in the discard rack or use it as an additional cover card to be inserted four cards from the bottom of the deck. The dealer shall then determine the starting position in accordance with subsection (i) and deal the cards in accordance with § 670a.8, § 670a.9 or § 670a.10.

(f) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards, or by the next person entitled to cut the cards, as determined under subsection (d).

(g) If there is no gaming activity at a Six-Card Fortune Pai Gow Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards:

(1) If there is no automated shuffling device in use, the cards shall be mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section.

(2) If an automated shuffling device is in use, the cards shall be stacked and placed into the automated shuffling device to be shuffled. The deck of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the deck of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if the automated card shuffling device stores a single deck of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(i) To determine the starting position for the dealing of cards, the certificate holder shall use one of the following:

(1) A Pai Gow Poker shaker in accordance with the following procedures:

(i) The dealer shall shake the Pai Gow Poker shaker at least three times to cause a random mixture of the dice.

(ii) The dealer shall then remove the lid covering the Pai Gow Poker shaker and place the uncovered shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total.

(iii) To determine the starting position, the dealer shall count each betting position in order, regardless of

whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice.

(iv) After the dealing procedures required under § 670a.8, § 670a.9 or § 670a.10 have been completed, the dealer shall place the cover on the Pai Gow Poker shaker and shake the shaker once. The Pai Gow Poker shaker shall then be placed to the right of the dealer.

(2) A computerized random number generator to select and display a number from 1 to 7. To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner until the count matches the number displayed by the random number generator.

(j) After the starting position for a round of play has been determined, a certificate holder may mark that position with an additional cover card, flat button or similar object.

(a) The rank of the cards used in Six-Card Fortune Pai Gow Poker, in order of highest to lowest, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: queen, king, ace, 2 and 3). (c) When comparing two high hands or two low hands that are of identical hand rank under subsection (b), or contain none of the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not in the other hand, shall be considered the higher ranking hand. If a player uses a joker as the low hand, the player's hand shall be considered the higher ranking hand. If the two hands are of identical rank after the application of this section, the dealer's hand shall be considered the higher ranking hand.

§ 670a.7. Wagers.

(a) Wagers at Six-Card Fortune Pai Gow Poker shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the Six-Card Fortune Pai Gow Poker layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Six-Card Fortune Pai Gow Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) Except the Double Down Wager, all wagers at Six-Card Fortune Pai Gow Poker shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except the Double Down Wager, a wager may not be made, increased or withdrawn after the dealer has announced "no more bets."

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place a Six-Card Fortune Pai Gow Poker Wager.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Six-Card Fortune Pai Gow Poker Wager, in accordance with subsection (d), the option of placing the following additional wagers:

- (1) A Double Down Wager equal to the Six-Card Fortune Pai Gow Poker Wager that both the player's high and low hands will beat the dealer's high and low hands.
- (2) A Fortune Bonus Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a three-of-a-kind or better as described in § 670a.6(b) (relating to Six-Card Fortune Pai Gow Poker rankings).
- (3) An Insurance Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a king-high or less.
- (4) A Progressive Payout Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a straight or better as described in § 670a.6(b).
- (f) If specified in its Rules Submission under § 601a.2, a certificate holder may permit a player to wager on two

adjacent betting areas at a Six-Card Fortune Pai Gow Poker table. If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 670a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player’s wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 670a.5(i).

(d) The dealer shall then deal the first card to the starting position as determined in subsection (c) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards. Each card dealt shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(e) After 6 cards have been dealt to each position and the dealer, the dealer shall remove the stub from the manual dealing shoe and determine whether 11 cards are left by spreading them face down on the layout. The cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(f) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than 6 cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 670a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player’s wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall then determine the starting position for dealing the cards using one of the procedures authorized under § 670a.5(i).

(c) The dealer shall then deal the first card to the starting position as determined in subsection (b) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards.

(d) After 6 cards have been dealt to each position and the dealer, the dealer shall determine whether 11 cards are left by spreading them face down on the layout. The 11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than 6 cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 670a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets" and:

(i) If the Fortune Bonus or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures authorized under § 670a.5(i).

(c) After the starting position for delivering the cards has been determined, the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer.

(d) After 6 cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether 11 cards are left by spreading them face down on the layout. The 11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than 6 cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 670a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Six-Card Fortune Pai Gow Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands to be set.

(2) Each player shall keep his six cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.

(b) Each player shall set his hands by arranging the cards into a high hand and a low hand. When setting the two hands, the five-card high hand must be equal to or higher in rank than the one-card low hand.

(c) After all players have examined their cards, the dealer shall offer each player the option to place an additional Double Down Wager equal to the player's Six-Card Fortune Pai Gow Poker Wager.

(d) After all players have set their hands and placed the cards on the table, the six cards of the dealer shall be turned over and the dealer shall arrange his cards into a high and low hand in accordance with the following requirements:

(1) The dealer may not break any sets as described in § 670a.6(b) (relating to Six-Card Fortune Pai Gow Poker rankings) to play a higher card in the dealer's low hand. Once the dealer has played the set, the dealer shall use the highest-ranking card in his low hand. Notwithstanding the following requirements:

(i) If the dealer has two three-of-a-kinds in his hand, the dealer shall play the lower ranking set as the three-of-a-kind and the higher one as a pair to play the higher card in the low hand.

(ii) If the dealer has three pairs, the dealer shall play the two lower ranking pairs as the high hand and the highest ranking card of the third pair as the low hand.

(2) If the dealer has a Six-Card Fortune straight, Six-Card Fortune flush or a Six-Card Fortune straight flush, the dealer shall play the lowest possible straight, flush or straight flush and place the highest ranking card in the low hand.

(3) If the dealer has both a straight and a flush, the dealer shall set the flush as the dealer's high hand.

(4) If the dealer has both a straight and a straight flush, the dealer shall set the straight flush as the dealer's high hand.

(5) If the dealer has both a Six-Card Fortune flush and a straight flush, the dealer shall play the straight flush as the high hand and the remaining card as the dealer's low hand.

(6) If the dealer does not have pairs, straights or flushes, the dealer shall play the highest ranking card, in accordance with § 670a.6(a), in the dealer's high hand, the second highest ranking card as the dealer's low hand and the remaining four cards in the dealer's high hand.

(e) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the high and low hand of each player to the high and low hand of the

dealer and shall announce if the Six-Card Fortune Pai Gow Poker Wager of that player wins, loses or is a tie.

(f) A Six-Card Fortune Pai Gow Poker Wager will:

(1) Lose and will immediately be collected if:

(i) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

(ii) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is identical in rank to the low hand of the dealer.

(iii) The high hand of the player is identical in rank to the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

(iv) The high and low hands of the player are identical in rank to the high and low hands of the dealer.

(v) The high hand of the player was not set so as to rank equal to or higher than the low hand of that player.

(2) Tie and will be returned to the player if:

(i) The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is lower in rank than the low hand of the dealer.

(ii) The high hand of the player is lower in rank than the high hand of the dealer, but the low hand of the player is a joker or is higher in rank than the low hand of the dealer.

(3) Win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is a joker or is higher in rank than the low hand of the dealer. The dealer shall pay the winning Six-Card Fortune Pai Gow Poker Wager in accordance with the payout odds in § 670a.12(a) (relating to payout odds; Envy Bonus; rate of progression).

(g) After settling the player's Six-Card Fortune Pai Gow Poker Wager, the dealer shall settle the player's optional Double Down Wager as follows:

(1) If the dealer's hand contains a pair of eights or better, as described in § 670a.6(b), the Double Down Wager shall win, lose or tie in accordance with subsection (f).

(2) If the dealer's hand does not contain a pair of eights or better, the Double Down Wager shall be returned to the player.

(h) If a player has placed a Fortune Bonus, Insurance or Progressive Payout Wager, the dealer shall rearrange the six cards of any player who placed an optional wager to form the highest ranking hand. If any player at the table has placed a Qualifying Wager, the dealer shall rearrange the cards of all players regardless of whether the player placed a Fortune Bonus or Progressive Payout Wager. After rearranging the player's six cards, the dealer shall:

(1) Settle the player's Fortune Bonus Wager as follows:

(i) If a player:

(B) Placed a Six-Card Fortune Pai Gow Poker Wager and has a three-of-a-kind or higher, the dealer shall pay the winning Fortune Bonus Wager in accordance with § 670a.12(b). If the player has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying

Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(C) Did not place a Fortune Bonus Wager but has an Envy Bonus Qualifying Hand, and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Fortune Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 670a.12(b) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Six-Card Fortune Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(2) Settle the player's Insurance Wager. If a player has a hand ranked:

(i) Better than a king-high, the dealer shall collect the Insurance Wager.

(ii) A king-high or less, the dealer shall pay the winning Insurance Wager in accordance with § 670a.12(c).

(B) Placed a Progressive Payout Wager and has a straight or better, the dealer shall:

(I) Verify that the hand is a winning hand.

(II) Verify that the appropriate light on the progressive table game system has been illuminated.

(III) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(IV) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 670a.12(d)(1). If a player has won a progressive payout that is a percentage of the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory, the cards of that player shall remain on the table until the necessary documentation has been completed.

(C) Has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Progressive Payout Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 670a.12(d)(4) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Six-Card Fortune Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(i) The dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

(j) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(b) The layout for a Lunar Poker table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(6) Inscriptions that advise patrons of the following:

(i) Dealer plays with an ace-king or higher.

(ii) Instant payout for a royal flush or straight flush on the first five cards dealt to the player.

(7) If the information in paragraph (6) is not on the layout, a sign which sets forth the required information shall be posted at each Lunar Poker table.

(c) Each Lunar Poker table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Lunar Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 671a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Lunar Poker shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Lunar Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Lunar Poker shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 671a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 671a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 671a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Lunar Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 671a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(b) Only players who are seated at a Lunar Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player

(c) The following wagers may be placed in the game of Lunar Poker:

(1) A player shall compete against the dealer's five-card Poker hand by placing both an Ante Wager, then a Bet Wager in accordance with § 671a.11(b) or (d) (relating to procedures for completion of each round of play).

(2) In addition to the Ante and Bet Wagers, a player shall place a Super Wager on the player's hand equal to or greater than the player's Ante Wager to compete against a posted payable.

(3) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Lunar Poker table the option to make an additional Super Wager on the dealer's hand and any other player's hand. After placing an Ante Wager, a player may make the additional Super Wager by placing a value chip on the designated betting area prior to the dealer announcing "no more bets." The additional Super Wager on the dealer or other player's hand may be made in any amount equal to or greater than the table minimum and is not required to be equal to or greater than the player's Ante Wager.

(d) The Ante and Super Wagers shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). (e) A player may not wager on more than one player position at a Lunar Poker table.

§ 671a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) The dealer shall announce "no more bets" and begin dealing the cards. Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(c) Starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time face down to each player who placed an Ante Wager and to the dealer until each player and the dealer have five cards. The last card of the dealer shall be turned face up on the layout.

§ 671a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager and to the dealer until each player and the dealer have five cards. The last card of the dealer shall be turned face up on the layout.

§ 671a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed an Ante Wager. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the dealer. The last card of the dealer shall be turned face up on the layout.

§ 671a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Lunar Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(3) After the dealer announces “all decisions are locked in,” a player may not amend his decision to fold or increase, decrease or place any Bet Wager or Options fee except as provided in subsection (d).

(b) After five cards have been dealt to each player, the player shall examine his cards. If any player’s hand is eligible for a Super Wager or an instant payout, the

player shall declare the winning hand and place his cards face down in the player’s betting area on the layout. Each player shall then elect to:

(1) Fold.

(2) Place a Bet Wager equal to twice the amount of the player’s Ante Wager provided that if any player’s hand contains a royal flush or a straight flush and is eligible for the instant payout, the player shall not place a Bet Wager.

(3) Place an Options fee, equal to the player’s Ante Wager, to buy a sixth card or draw and exchange between two and five of the player’s cards.

(c) After all players have made a decision to either folded, placed a Bet Wager or Options fee, the dealer shall announce “all decisions are locked in.” Once the dealer has announced “all decisions are locked in” a player may not change his decision. Prior to any additional cards being dealt, the dealer shall, beginning with the player to the dealer’s left and continuing clockwise around the table:

(1) If the player did not declare a winning Super Wager, collect the player’s losing Super Wager. If any other player placed a Super Wager on that player’s hand, the dealer shall collect the player’s losing Super Wager first then collect any other player’s Super Wager who placed a Super Wager on that player’s hand.

(2) If the player declared a winning Super Wager, the dealer shall verify the winning hand and payout out the player’s winning Super Wager in accordance with § 671a.12(b) (relating to payout odds). If any other player placed a Super Wager on that player’s hand, the dealer shall pay out the winning player’s hand first then any other player who also placed a Super Wager on that player’s hand in accordance with § 671a.12(b).

(3) If any player is eligible for an instant payout, after verifying the player’s hand, the dealer shall pay the player’s winning Ante Wager in accordance with § 671a.12(a) and place the player’s cards in the discard rack.

(4) For any player who did not make a Bet Wager or Options Wager and folded, the dealer shall collect the player’s Ante Wager and place the player’s cards in the discard rack.

(d) Once all player Super Wagers and instant payouts have been settled and any player’s cards who folded have been collected, beginning with the player to the dealer’s left and moving clockwise around the table, for any player who placed an Options fee equal to the player’s Ante Wager:

(1) The dealer shall collect the Options fee and:

(i) If the player elects to buy the sixth card, the dealer shall deal one additional card.

(ii) If the player elects to exchange cards, the player shall discard between two and five cards, which will thereafter be replaced by dealer with the same number of cards from the deck.

(2) After dealing the additional cards, the player shall create the best possible five-card Poker hand.

(3) The dealer shall then ask the player if the player would like to fold and forfeit the player’s Ante Wager or place a Bet Wager equal to twice the amount of the player’s Ante Wager.

(4) If the player does not make a Bet Wager and forfeits his Ante Wager, the dealer shall collect the Ante Wager and place the player's cards in the discard rack.

(e) After all players have either folded or placed a Bet Wager, the dealer shall reveal the dealer's cards and form the highest ranking five-card Poker hand. The dealer shall then settle any Super Wagers placed on the dealer's hand. Beginning with the first player to the dealer's left who placed a Super Wager on the dealer's hand and continuing clockwise around the table, if the dealer's hand:

(1) Is not eligible for a Super Wager payout, the dealer shall collect each player's losing Super Wager placed on the dealer's hand.

(2) Is eligible for a Super Wager payout, the dealer shall pay the player's winning Super Wager in accordance with § 671a.12(b).

(f) After settling the Super Wager placed on the dealer's hand, if the dealer's hand:

(1) Does not qualify with an ace-king or better, as provided in § 671a.6(b) (relating to Lunar Poker rankings), the dealer shall return the player's Bet Wager, pay the player's Ante Wager in accordance with § 671a.12(c) and place the player's cards in the discard rack.

(2) Qualifies with an ace-king or better, as provided in § 671a.6(b), starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn the cards of each player who placed a Bet Wager face up on the layout and form the highest ranking five-card Poker hand. If the dealer's highest ranking five-card Poker hand is:

(i) Higher in rank than the player's five-card Poker hand, as provided in § 671a.6(b), the dealer shall collect the player's Ante and Bet Wagers and place the player's cards in the discard rack.

(ii) Lower in rank than the player's five-card Poker hand, as provided in § 671a.6(b), the dealer shall return the player's Ante Wager and pay the winning Bet Wager in accordance with § 671a.12(d). If a player's winning hand also contains a second Poker combination, where at least one card in the second combination was not included in the winning combination, the dealer shall pay the second winning Bet Wager in accordance with § 671a.12(d) for the second Poker combination. For example, if a player's winning hand contained two aces, a king, 8 and 9, the player would be paid out for the pair of aces that beat the dealer's hand but would also be paid out for the ace-king. If a player purchased a sixth card, all six cards may be considered for purposes of the second payout.

(iii) Equal in rank with the dealer's hand, as provided in § 671a.6(b), the dealer shall return the player's Ante and Bet Wagers.

(g) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(h) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the cards at least once after every 5 rounds of play to determine if the correct number of cards is still present in the deck. The

dealer shall determine the number of cards by counting the cards face down on the layout. If the count indicates:

(1) That 52 cards are in the deck, the dealer shall place the cards in the discard rack.

(2) That 52 cards are not in the deck, the entire deck of cards shall be removed from the table.

§ 671a.12. Payout odds.

(a) The certificate holder shall pay an instant payout on a player's Ante Wager in accordance with one of the following paytables, selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

Blackjack—An ace and any card having a value of 10 dealt as the initial two cards to a player or the dealer.

§ 672a.2. Free Bet Blackjack table; card reader device; physical characteristics; inspections.

(b) The layout for a Free Bet Blackjack table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.

 - (iv) Blackjack Wagers will push if the dealer's hand has a total point count of 22 or other similar language.
 - (v) Surrender is not available on a Free Bet Blackjack table or other similar language. If the language is not inscribed on the layout, a sign specifying that surrender is not available shall be posted at each Free Bet Blackjack table.
 - (4) If the certificate holder offers the Push 22 Wager, a separate area designated for the placement of the wager for each player.

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Free Bet Blackjack table.

(c) Each Free Bet Blackjack table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Free Bet Blackjack table must have a card reader device attached to the top of the dealer's side of the table. The floorperson assigned to the Free Bet Blackjack table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Free Bet Blackjack table must have a discard rack securely attached to the top of the dealer's side of the table. The height of each discard rack must either:

(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 672a.3. Cards; number of decks; value of cards.

(a) Except as provided in subsection (b), Free Bet Blackjack shall be played with six or eight deck shoes of cards that are identical in appearance and at least one cover card.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Free Bet Blackjack shall be played with at least two shoes of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Free Bet Blackjack table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

(1) Any card from 2 to 10 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.

§ 672a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 672a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 672a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 672a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Free Bet Blackjack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt provided that the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 672a.6. Wagers.

(a) Wagers at Free Bet Blackjack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Free Bet Blackjack layout.

(b) After the cards have been shuffled as required under § 672a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

(1) The certificate holder chooses to permit the player to begin wagering again.

(2) A reshuffle of the cards has occurred.

(c) All wagers, except an Insurance Wager under § 672a.8 (relating to Insurance Wager), a wager to double down under § 672a.9 (relating to double down) or a wager on split pairs under § 672a.10 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) A player shall place a Blackjack Wager to participate in a round of play and compete against the dealer's hand.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Blackjack Wager in accordance with subsection (d), the option of placing a Push 22 Wager which shall win if the dealer's hand has a total point count of 22.

(f) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Blackjack Wager in one round of play.

§ 672a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 672a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table

shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Blackjack and optional Push 22 Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face up to each box on the layout in which a Blackjack Wager is contained.

(2) One card face up to the dealer.

(3) A second card face up to each box in which a wager is contained.

(4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, if the dealer's first card is an ace, the dealer shall offer the Insurance Wager or even money in accordance with § 672a.8 (relating to Insurance Wager).

(g) If the dealer's first card is an ace or a 10 value card, after the procedures in subsection (f) have been completed, if applicable, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and if a player:

(1) Has a Blackjack, the dealer shall return the player's Blackjack Wager, collect the player's Push 22 Wager and pay out any Insurance Wager, if applicable.

(2) Does not have a Blackjack, the dealer shall collect the player's Blackjack and Push 22 Wagers and pay out any Insurance Wager, if applicable.

(h) If the dealer's up card was not an ace or 10 value card or if the dealer's hole card did not give the dealer Blackjack, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and if the player:

(1) Has Blackjack, the dealer shall announce and pay the Blackjack in accordance with § 672a.11(a) (relating to payout odds) and remove the player's cards. If a player also placed a Push 22 Wager, the dealer shall tuck the player's cards under the player's Push 22 Wager until it is resolved in accordance with subsection (n).

(2) Does not have Blackjack, the player shall indicate whether he wishes to double down as permitted under § 672a.9 (relating to double down), split pairs as permitted under § 672a.10 (relating to splitting pairs), stand or draw additional cards. Players may not surrender in Free Bet Blackjack.

(i) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(j) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having a hard or soft total of 21 may not draw additional cards.

(2) A player electing to double down in accordance with § 672a.9 may draw only one additional card.

(k) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hole card face up.

(l) Except as provided in subsection (m), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21. Any additional cards required to be dealt to the hand of the dealer shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(m) If there are no Push 22 Wagers on the table, a dealer may not draw additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play. If there are Push 22 Wagers still on the table and all player's hands are in excess of 21 or have Blackjack, the dealer shall draw additional cards to settle the Push 22 Wagers.

(n) After all additional cards have been drawn, if the total point count of the dealer's hand:

(1) Is a 22, the dealer shall return all remaining player's Blackjack Wagers, collect any Free Bet lammers, as provided in § 672a.9 and § 672a.10, and pay out any Push 22 Wagers in accordance with § 672a.11(c).

(2) Is not a 22, the dealer shall collect any Push 22 Wagers and settle the player's Blackjack Wagers and Free Bet lammers in accordance with subsections (o)—(q).

(o) A player shall win and be paid in accordance with § 672a.11(a) for the Blackjack Wager and an equivalent amount for each Free Bet lammer, if applicable, if:

(1) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 21 provided that if the total point count of the dealer's hand is 22, the Blackjack Wager shall be returned to the player and any Free Bet lammers shall be collected.

(2) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(p) A Blackjack Wager shall tie and be returned to the player and any Free Bet lammers collected if the total point count of the player's hand is the same as the total point count of the dealer's hand.

(q) A player's Blackjack Wager shall lose and any Free Bet lammers shall be collected if:

(1) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

(2) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(r) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction and then pay off all winning wagers.

(2) Collect each player's losing wagers and pay off each player's winning wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any player's winning wagers by using value chips collected from a losing wager.

(s) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(t) Players and spectators may not handle, remove or alter any cards used to play Free Bet Blackjack.

§ 672a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips when, because of the limitation of the value of chip denominations, 1/2 the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 672a.11(b) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

(e) Notwithstanding the requirements of subsections (a)—(d), if selected in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer a player who has Blackjack the option to be paid even money on the Blackjack Wager instead of making an Insurance Wager. If the player elects to be paid even money, the dealer shall pay out the Blackjack Wager at odds of 1 to 1 and remove the player's cards provided that if the player also placed a Push 22 Wager, the dealer shall tuck the player's cards under the player's Push 22 Wager until it is resolved in accordance with § 672a.7(n) (relating to procedure for dealing the cards; completion of each round of play).

§ 672a.9. Double down.

(a) Except when a player has a Blackjack, a player may elect to double down on the first two cards dealt to him or on the first two cards of any split pair. If the total point count of the player's two cards:

(1) Is a hard 9, 10 or 11, the player may double down without placing an additional wager. If a player is doubling down without placing an additional wager, the dealer shall place a Free Bet lammer next to the player's original Blackjack Wager.

(2) Is not a hard 9, 10 or 11, the player may place an additional wager next to the player's original Blackjack Wager which may not exceed the amount of the player's original Blackjack Wager.

(b) If a player elects to double down after splitting pairs, as provided in § 672a.10 (relating to splitting pairs), the player may double down on split pairs as provided in subsection (a).

(c) Upon a player's election to double down, the dealer shall deal one additional card face up and place it sideways on the layout.

(d) The dealer shall then complete the procedure in § 672a.7(i)–(s) (relating to procedure for dealing the cards; completion of each round of play).

§ 672a.10. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) If a player elects to split pairs and the player has:

(1) A pair of 10 value cards (10, jack, queen or king), the player shall place an amount equal to the original Blackjack Wager for the split pair.

(2) Any pair other than 10 value cards, the player may split pairs without placing an additional wager. If a player is splitting pairs without placing an additional wager:

(i) The dealer shall place a Free Bet lammer next to the player's original Blackjack Wager.

(ii) The original Blackjack Wager shall move with the first split hand and the Free Bet lammer shall be the wager for the second split hand.

(c) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand. If the first split hand busts and if the player's hand:

(1) Does not contain any Free Bet lammers, the dealer shall collect the losing Blackjack Wager and place the player's cards in the discard rack.

(2) Contains a Free Bet lammer, the player's cards shall be tucked under the original Blackjack Wager until the hand is settled or until the split hand or hands bust as well.

(d) After a second card is dealt to each split pair, the player shall indicate his decision to stand, draw, double down or resplit with respect that hand. A player may resplit any additional pairs, in accordance with subsection (b), for a total of up to four hands.

§ 672a.11. Payout odds.

(a) The certificate holder shall pay each winning Blackjack Wager and any Free Bet lammers at odds of 1 to 1 with the exception of player Blackjack which shall be paid at odds of 3 to 2.

(b) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

(c) The certificate holder shall pay out winning Push 22 Wagers based on the dealer's hand at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

<i>Hand</i>	<i>Paytable A</i>	<i>Paytable B</i>
Same suit 22	50 to 1	50 to 1
Same color 22	20 to 1	20 to 1
Other 22	8 to 1	7 to 1

§ 672a.12. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack or in a segregated area of the double shoe.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(f) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 672a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(g) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(h) If after receiving the first two cards the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player's hand dead and return the player's original Blackjack Wager.

(i) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorperson or above, shall continue play.

(j) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(k) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(l) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

§ 673a.2. Double Back Jack table; card reader device; physical characteristics; inspections.

(a) Double Back Jack shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Double Back Jack table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) A separate betting area designated for the placement of the Blackjack Wager for each player.
- (3) A separate betting area designated for the placement of the Second Chance Wager for each player.
- (4) The following inscriptions or other similar language approved by the Executive Director in accordance with § 601a.10(a):
 - (i) Blackjack and Insurance pays 2 to 1.
 - (ii) Dealer shall draw to 16 and stand on all 17s.
 - (iii) Blackjack Wagers will push if the dealer's hand has a total point count of 22, player 21 pays right away, Second Chance pays even money.

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Double Back Jack table.

(c) Each Double Back Jack table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Double Back Jack table must have a card reader device attached to the top of the dealer's side of the table. The floorperson assigned to the Double Back Jack table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Double Back Jack table must have a discard rack securely attached to the top of the dealer's side of the table. The height of each discard rack must either:

(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 673a.3. Cards; number of decks; value of cards.

(a) Except as provided in subsections (b) and (c), Double Back Jack shall be played with at least one deck of cards that are identical in appearance and at least one cover card.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Double Back Jack shall be played with at least two decks of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Double Back Jack table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

- (1) Any card from 2 to 10 shall have its face value.
- (2) Any jack, queen or king shall have a value of 10.
- (3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.

§ 673a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 673a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 673a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the

stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 673a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Double Back Jack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section, if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled, if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt if the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 673a.6. Wagers.

(a) Wagers at Double Back Jack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Double Back Jack layout.

(b) After the cards have been shuffled as required under § 673a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

(1) The certificate holder chooses to permit the player to begin wagering again.

(2) A reshuffle of the cards has occurred.

(c) All wagers, except a Second Chance Wager under § 673a.7(l) (relating to procedure for dealing the cards; completion of each round of play), an Insurance Wager under § 673a.8 (relating to Insurance Wager), a wager to double down under § 673a.10 (relating to double down) or

a wager on split pairs under § 673a.11 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) To participate in a round of play and compete against the dealer's hand, a player shall place a Blackjack Wager.

(e) The certificate holder shall specify in its Rules Submission under § 601a.2 (relating to table games Rules Submissions) the number of adjacent boxes on which a player may place a Blackjack Wager in one round of play.

§ 673a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 673a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Blackjack Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face up to each box on the layout in which a Blackjack Wager is contained.

(2) One card face up to the dealer.

(3) A second card face up to each box in which a wager is contained.

(4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt or before any card reader device is utilized, if any player has a Blackjack, the dealer shall settle the player's Blackjack Wager. Starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall pay the winning Blackjack Wager in accordance with

§ 673a.12(a) (relating to payout odds) and place the player's cards in the discard rack.

(g) After paying out any winning Blackjack Wagers in accordance with subsection (f), if the dealer's first card is an ace, the dealer shall offer the Insurance Wager in accordance with § 673a.8 (relating to Insurance Wager).

(h) If the dealer's first card is an ace, king, queen, jack or 10, after all Insurance Wagers have been placed, if applicable, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and each player's Blackjack Wager will be collected.

(i) If the dealer's up card was not an ace or 10 value card or if the dealer's hole card did not give the dealer Blackjack, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and each player shall indicate whether he wishes to surrender, as permitted under § 673a.9 (relating to surrender), double down as permitted under § 673a.10 (relating to double down), split pairs as permitted under § 673a.11 (relating to splitting pairs), stand or draw additional cards.

(j) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(k) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having a hard or soft total of 21 may not draw additional cards.

(2) A player electing to double down may draw only one additional card.

(l) After drawing additional cards in accordance with subsection (k), if the player's hand is greater than 21, the dealer shall ask if the player would like to place a Second Chance Wager to draw one additional card, the value of which will be subtracted from the player's hand. To draw an additional card, the player shall place a Second Chance Wager equal to the amount of the player's current Blackjack Wager. The dealer shall deal one additional card face up and place it sideways on the layout. The value of the second chance card shall be subtracted from the total value of the player's hand. For example, if a player elects to place a Second Chance Wager when the player's hand has a total value of 25 after all additional cards are dealt in accordance with subsection (k), and the player receives a second chance card with a value of 5, the 5 shall be subtracted from the player's hand making the total value of the player's hand a 20. For purposes of the Second Chance Wager, an additional ace drawn is counted as a 1. After drawing the additional second chance card, if the player's hand has a total value:

(1) Greater than 21, the dealer shall collect the player's Blackjack and Second Chance Wagers and place the player's cards in the discard rack.

(2) Of 21, the dealer shall pay the player's winning Second Chance Wager in accordance with § 673a.12(b), return the player's Blackjack Wager and place the player's cards in the discard rack.

(3) Less than 21, the round of play shall continue in accordance with subsection (n).

(m) If a player did not place a Second Chance Wager, after all additional cards have been dealt, if any player's

hand has a total value of 21, the dealer shall pay the player's winning Blackjack Wager in accordance with § 673a.12(a) and place the player's cards in the discard rack.

(n) After settling any player's hand who had a total value of 21, the dealer shall turn the dealer's hole card face up.

(o) Except as provided in subsection (p), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21. Any additional cards required to be dealt to the hand of the dealer shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(p) A dealer shall draw no additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play.

(q) After all additional cards have been dealt to the dealer, if the total point count of the dealer's hand:

(1) Is 22, the dealer shall return all remaining player's Blackjack Wagers and Second Chance Wagers, if applicable.

(2) Is 21 or less, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle the remaining player's hands in accordance with subsections (r) and (s).

(r) In comparing the total point count of the dealer's hand versus the total point count of the player's hand, a player's hand shall:

(1) Win if:

(i) The total point count of the player's hand is less than 21 and the total point count of the dealer's hand is in excess of 21.

(ii) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(2) Tie if the total point count of the player's hand is the same as the total point count of the dealer's hand.

(3) Lose if:

(i) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

(ii) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(s) If a player's hand:

(1) Is a winning hand, in accordance with subsection (r), and the player:

(i) Placed a Second Chance Wager, the dealer shall return the player's Blackjack Wager and pay out the winning Second Chance Wager in accordance with § 673a.12(b).

(ii) Did not place a Second Chance Wager, the dealer shall pay out the winning Blackjack Wager in accordance with § 673a.12(a).

(2) Ties with the dealer's hand, the dealer shall return the player's Blackjack Wager and Second Chance Wager, if applicable.

(3) Loses against the dealer's hand, the dealer shall collect the player's Blackjack Wager and Second Chance Wager, if applicable.

(t) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction and then pay off all winning wagers.

(2) Collect each player's losing wagers and pay off each player's winning wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any player's winning wagers by using value chips collected from a losing wager.

(u) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(v) Players and spectators may not handle, remove or alter any cards used to play Double Back Jack.

§ 673a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips, when, because of the limitation of the value of chip denominations, half the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 673a.12(c) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

§ 673a.9. Surrender.

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering 1/2 of his wager. All decisions to surrender shall be made prior to the player indicating whether he wishes to double down as permitted under § 673a.10 (relating to double down), split pairs as permitted under § 673a.11 (relating to splitting pairs), stand or draw. If the first card dealt to the dealer:

(1) Is not an ace or 10 value card, the dealer shall immediately collect 1/2 of the wager and return 1/2 to the player.

(2) Is an ace or 10 value card, the dealer will place the player's wager on top of the player's cards. After the Insurance Wager is offered and the card reader device is utilized, the hand will be settled by immediately collect-

ing the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack.

(b) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (a) and § 673a.8 (relating to Insurance Wager).

§ 673a.10. Double down.

(a) Except when a player has a Blackjack, a player may elect to double down on the first two cards dealt to him or the first two cards of any split pair. To double down, the player shall place an additional wager next to the player's original Blackjack Wager which may not exceed the amount of the player's original Blackjack Wager. Only one additional card shall be dealt to the hand on which the player has elected to double down.

(b) Upon a player's election to double down, the dealer shall deal the one additional card face up and place it sideways on the layout.

(c) A player may double down after splitting pairs as provided in § 673a.11 (relating to splitting pairs).

§ 673a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into a maximum of two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Blackjack Wager. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand. If a player's hand contains an ace and a 10 value card after the player's hand is split and an additional card is dealt, the player shall be paid out for a 21 not a Blackjack.

(c) After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect that hand.

§ 673a.12. Payout odds.

(a) The certificate holder shall pay each winning Blackjack Wager at odds of 1 to 1 with the exception of a player Blackjack which shall be paid at odds of 2 to 1.

(b) The certificate holder shall pay out winning Second Chance Wagers at odds of 1 to 1.

(c) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

§ 673a.13. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack or in a segregated area of the double shoe.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(f) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 673a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(g) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(h) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player's hand dead and return the player's original Blackjack Wager.

(i) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorperson or above, shall continue play.

(j) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(k) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(l) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

If payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Criss-Cross Poker table.

(c) Each Criss-Cross Poker table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Criss-Cross Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 674a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Criss-Cross Poker shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Criss-Cross Poker may be played with two decks of cards in accordance with the following requirements:

- (1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.
- (2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.
- (3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Criss-Cross Poker shall be changed at least every:

- (1) Four hours if the cards are dealt by hand.
- (2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 674a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 674a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 674a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

- (1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been dealt, a flooperperson or above may require the cards to be recut if the flooperperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Criss-Cross Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 674a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 674a.6. Criss-Cross Poker rankings.

(a) The rank of the cards used in Criss-Cross Poker shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example, queen, king, ace, 2 and 3). All suits shall be equal in rank.

(b) The permissible Poker hands in the game of Criss-Cross Poker, in order of highest to lowest rank, shall be:

(8) Two pairs, which is a hand consisting of two pairs.

(9) A pair, which is a hand consisting of two cards of the same rank.

§ 674a.7. Wagers.

(a) Wagers at Criss-Cross Poker shall be made by placing value chips, plaques or other Board-approved

table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Criss-Cross Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante Across and Ante Down Wagers shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe). Except as provided in § 674a.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager may not be made after the dealer has announced "no more bets."

(d) To participate in a round of play, a player shall place two equal but separate Ante Wagers designated as Ante Across and Ante Down.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Criss-Cross Poker table the option to make an additional Five Card Bonus Wager that the five community cards will form a hand with a rank of a pair of 6s or better. After placing the Ante Wager required under subsection (d), a player may make an additional Five Card Bonus Wager by placing a value chip onto the designated betting area for that player. A Five Card Bonus Wager will not have a bearing on any other wagers made by the player.

(f) Across, Down and Middle Bets shall be made in accordance with § 674a.11(b), (d) and (f).

(g) A player may not wager on more than one player position at a Criss-Cross Poker table.

§ 674a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce "no more bets."

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required

Ante Wagers in accordance with § 674a.7(d) (relating to wagers) until each player has two cards.

(e) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 674a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce "no more bets."

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck. The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers) until each player has two cards.

(c) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 674a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets."

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the area designated for the placement of the community cards. The dealer shall spread the stack within the designated area to form a cross with the top card placed in the box furthest from the dealer, the next three cards are placed in the middle row and the bottom card placed in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deliver a stack of two cards face down to each of the players who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers).

(c) After each stack of cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a

player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 674a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Criss-Cross Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his two cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place an Across Bet in an amount equal to one to three times the total amount of the player's Ante Across Wager. If a player does not place an Across Bet, the player's Ante Across and Ante Down Wagers shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(c) After each player has made a decision regarding the Across Bet and any forfeited hands have been collected, the dealer shall then turn the two outside community cards in the horizontal row face up on the layout.

(d) After the first two community cards are exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Down Bet in an amount equal to one to three times the total amount of the player's Ante Down Wager. If a player does not place a Down Bet, the player's Ante Across Wager, Ante Down Wager and Across Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(e) The dealer shall then turn the two outside community cards in the vertical row face up leaving only the middle community card face down on the layout.

(f) After the third and fourth community cards are exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Middle Bet in an amount equal to one to three times the amount of the player's Ante Across or Ante Down Wager. If a

player does not place a Middle Bet, the player's Ante Across Wager, Ante Down Wager, Across Bet and Down Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5). After all remaining players have placed a Middle Bet, each player shall place his cards face down on the appropriate area of the layout.

(g) The dealer shall then turn the middle community card face up on the layout. After all five community cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, turn the two cards of the player face up on the layout. The player's two cards and the three community cards in the horizontal line shall form the player's five-card Across Hand while the player's two cards and the three community cards in the vertical line shall form the player's five-card Down Hand.

(h) The dealer shall settle all wagers of that player by collecting losing wagers and paying winning wagers as follows:

(1) If a player's Across Hand:

(i) Is less than a pair of 6s, the dealer shall collect the losing Ante Across and Across Bet Wagers.

(ii) Is a pair of 6s or better, the dealer shall return or pay out the winning Ante Across wager in accordance with § 674a.12(a) (relating to payout odds) and the Across Bet in accordance with § 674a.12(b).

(2) If a player's Down Hand:

(i) Is less than a pair of 6s, the dealer shall collect the losing Ante Down and Down Bet wagers.

(ii) Is a pair of 6s or better, the dealer shall return or pay out the winning Ante Down Wager in accordance with § 674a.12(a) and the Down Bet in accordance with § 674a.12(b).

(3) If neither of a player's Down or Across Hands contains a pair of 6s or better, the dealer shall collect the losing Middle Bet Wager.

(4) If either of a player's Down or Across Hands contains a pair of 6s or better, the dealer shall pay out the Middle Bet Wager in accordance with § 674a.12(b). The payout shall be based on the higher ranking Across Hand or Down Hand.

(5) After settling the player's other wagers, the dealer shall settle the player's Five Card Bonus Wager, if applicable. If the five community cards form a five-card Poker hand of a pair of 6s or better, the dealer shall pay the winning Five Card Bonus Wager in accordance with § 674a.12(c).

(i) After all wagers of the player have been settled, the dealer shall remove the player's cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 674a.12. Payout odds.

§ 674a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

CHAPTER 675a. HIGH ROLL DICE

- Sec.
 675a.1. High Roll Dice table; physical characteristics.
 675a.2. Wagers; die ranking.
 675a.3. Dice; shaker.
 675a.4. Procedure for completion of each round of play.
 675a.5. Payout odds.

§ 675a.1. High Roll Dice table; physical characteristics.

(a) High Roll Dice shall be played at a table having betting positions for five players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a High Roll Dice table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) At each betting position:
 - (i) For the Like Kind Boulevard Wagers, seven circles containing the numbers two of a kind through eight of a kind.

(ii) For the Millionaire Row Wagers, two circles containing the numbers nine of a kind and ten of a kind and the inscription "First Roll Side Bet."

(iii) For the Pip Street Wagers, a depiction of six dice displaying a value of one through six with the two-spot die farthest to the player's left and the one-spot die farthest to the player's right.

(iv) An inscription advising players that all Pip Street, Like Kind Boulevard and Extra Roll Wagers must be of equal value.

(v) An extra-roll sensor for the placement of the Extra Roll Wager.

(3) The payout odds, in accordance with § 675a.5 (relating to payout odds), for all permissible wagers offered by the certificate holder. If the payout odds are not on the layout, a sign identifying the payout odds shall be posted at each High Roll Dice table.

(4) A throw box set into the surface of the High Roll Dice table. The throw box layout must contain an area for the placement of dice labeled "Ace" through "Six" with the "Ace" box farthest to the left of the dealer and the "Two" box farthest to the right of the dealer.

(c) The High Roll Dice table must have an electronic system for the placement of Extra Roll Wagers. The electronic system must include:

(1) A wagering device at each betting position that acknowledges or accepts the placement of the Extra Roll Wager.

(2) A device that controls or monitors the placement of Extra Roll Wagers at the gaming table, including a mechanism, such as a lock-out button, that prevents the recognition of any Extra Roll Wager that a player attempts to place after the dealer has announced "no more bets."

(d) Each High Roll Dice table must have a drop box with a tip box attached on the same side of the gaming

table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g).

§ 675a.2. Wagers; die ranking.

(a) All wagers shall be made before the dice are shaken by the dealer.

(b) Wagers shall be made by placing value chips or plaques on the appropriate areas of the layout. Verbal wagers accompanied by cash may not be accepted.

(c) Only players who are seated at a High Roll Dice table may place a wager at the game. Once a player has placed a wager, that player shall remain seated until the completion of the round of play.

(d) For High Roll Dice, a die with a value of 1, or ace, is the highest in rank followed by a 6, 5, 4 and 3, with a 2 being the lowest value die.

(e) The following wagers are authorized in High Roll Dice:

(1) To participate in a round of play, each player shall place a Pip Street Wager on any or all of the depictions of six dice contained at the top of the player's wagering area. For purposes of the Pip Street Wager, the player is wagering on which die face will occur the greatest number of times in the first roll. For example, if a dealer throws:

(i) Three 6s and four 4s, the 4s occurred the most during the first roll.

(ii) Three 6s and three 1s, the 1s occurred the most as an ace has a higher value than a 6 for purposes of High Roll Dice.

(2) After placing a Pip Street Wager, a player may place a Like Kind Boulevard Wager equal to the player's Pip Street Wager on any or all of the numbered circles two through eight. For purposes of the Like Kind Wager, the player is wagering on how many of the most matching dice will be rolled on the first roll. For example, if a dealer throws:

(i) Three 6s and four 1s, the result would be four matching dice, or a four-of-a-kind.

(ii) Five 2s and three 1s, the result would be five matching dice, or a five-of-a-kind.

(3) If a player placed a Like Kind Boulevard Wager, the player may also place on the extra-roll sensor an Extra Roll Wager, equal to the player's Like Kind Boulevard Wager. An Extra Roll Wager will entitle the player to an additional throw of nonmatching dice. For example, if a dealer threw two 6s and four 1s on the first throw and two additional 1s on the second roll, there would be a total of six matching dice, or a six-of-a-kind.

(4) A player may place a Millionaire Row Wager on either or both of the numbered nine or ten circles. For purposes of the Millionaire Row Wager, the player is wagering that all nine or ten dice will match on the first roll. The Millionaire Row Wager may not be more than \$1.

§ 675a.3. Dice; shaker.

(a) High Roll Dice shall be played with ten 19 mm dice. Dice used in the play of the game shall comply with § 603a.12(a)(2)–(10) and (d) (relating to dice; physical characteristics) and the receipt and inspection requirements in § 603a.13 (relating to dice; receipt, storage, inspection and removal from use).

(b) High Roll Dice shall be played with a dice shaker, approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment), which shall be used to shake the ten dice to arrive at the winning combinations. The dice shaker shall be designed and constructed to maintain the integrity of the game and must:

(1) Be capable of effectively shaking ten dice. Dice that have been placed in a dice shaker for use in gaming may not remain on a table for more than 24 hours.

(2) Have the name or logo of the certificate holder imprinted or impressed thereon.

(c) The dice shaker is the responsibility of the dealer and may not be left unattended while at the table.

(d) A shaker and ten dice shall be present at the High Roll Dice table for gaming.

§ 675a.4. Procedure for completion of each round of play.

(a) After all players have placed their wagers, the dealer shall announce "no more bets" and if any player placed an Extra Roll Wager use the electronic device to prevent the placement of additional Extra Roll Wagers. If any Extra Roll Wagers have been made, the dealer shall collect the wagers and place them in the table inventory container.

(b) The dealer shall cover and shake the shaker containing the dice at least three times to cause a random mixture of the dice. The dealer shall then simultaneously throw the dice into the throw box. A roll of the dice shall be invalid if any of the dice go off the table or if one die comes to rest on top of the other.

(c) In the event any of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the side directly opposite the side that is resting on the chips or other object shall be considered uppermost or skyward. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be placed back in the throw cup, shaken and rethrown.

(d) When the dice come to rest from a valid throw, the dealer shall call out which die of the highest value occurs the most.

(e) After the first roll, the dealer shall announce to the players the matching dice of the highest value. After announcing the winning combination, the dealer shall move all matching dice of the highest value into the corresponding box on the throw box layout. For example, if there were four 5s, three 6s and two 1s and one 4, the dealer shall move the four 5s into the box on the throw layout labeled "Five." To move the dice to the designated area on the throw box layout, the dealer shall leave the dice exposed and may not cover the dice or impede surveillance's ability to view the dice at any time the dice are on the throw box layout.

(f) The dealer shall then settle each player's first roll wagers as follows:

(1) The dealer shall collect the player's losing Pip Street Wagers and pay out all winning Pip Street Wagers in accordance with § 675a.5(a) (relating to payout odds). For example, if a player placed a Pip Street Wager on the 5 die and the 2 die and the dealer threw four 5s, three 6s and two 1s and one 4, the dealer shall collect the losing Pip Street Wager placed on the 2 die and pay out the winning Pip Street Wager placed on the 5 die.

(2) For the Like Kind Wager, if a player:

(i) Did not place an Extra Roll Wager, the dealer shall collect the player's losing Like Kind Boulevard Wagers and pay out any Like Kind Boulevard Wagers in accordance with § 675a.5(b). For example, if the dealer threw four 5s, three 6s and two 1s and one 4, the dealer shall collect all Like Kind Wagers that were not placed on the four-of-a-kind circle and pay out any winning wagers that were placed on the four-of-a-kind circle.

(ii) Also placed an Extra Roll Wager, the dealer shall pay out any winning Like Kind Boulevard Wagers in accordance with § 675a.5(b) and collect a player's losing Like Kind Boulevard Wagers that have no possibility of winning with an extra roll. For example, if a player wagered on the three-of-a-kind, a four-of-a-kind and a five-of-a-kind and a four-of-a-kind was thrown on the first throw, the dealer shall pay the winning four-of-a-kind, collect the Like Kind Wager placed on the three-of-a-kind and leave the player's wager on the five-of-a-kind on the table layout until it is resolved in accordance with subsection (g).

(3) The dealer shall then settle the player's Millionaire Row Wagers by collect any losing wagers and pay out any winning wagers in accordance with § 675a.5(c). For example, if nine matching dice were thrown on the first throw, the dealer shall collect all Millionaire Row Wagers that were not placed on the nine-of-a-kind and pay out any winning Millionaire Row Wagers that were placed on the nine-of-a-kind circle.

(g) If any player placed an Extra Roll Wager, the dealer shall then collect all dice except those of the highest value that were placed on a designated number on the throw box layout and place them in the shaker. For example, if the dealer threw three 6s, three 4s, two 2s and two 1s in the first throw, the three 6s would be placed on the "Six" in the throw box layout. The dealer would collect the three 4s, two 2s and the two 1s, place them in the shaker, shake and throw the remaining dice in accordance with subsections (b) and (c).

(h) When the dice come to rest from a valid throw, the dealer shall call out the number of additional dice that match the highest number of matched dice thrown in the first throw. For example, if after the first throw three 6s were placed on the "Six" in the throw box layout and on the second throw an additional two 6s were thrown, the extra roll would result in a total of a five-of-a-kind. The dealer shall collect any losing Like Kind Boulevard Wager and pay out any winning Extra Roll Wagers, or Second Roll Wagers, in accordance with § 675a.5(d), provided that if a player was paid out on a winning Like Kind Wager after the first roll, the player may not be paid out on the second roll for the same number. For example, if a player placed a winning Like Kind Wager on the four-of-a-kind and if no additional matching dice were thrown on the second roll, the player may not be paid out for the four-of-a-kind for the Extra Roll Wager.

§ 675a.5. Payout odds.

(a) The certificate holder shall pay out winning Pip Street Wagers at the following odds:

<i>Die Value with Most Matches</i>	<i>Payout Odds</i>
Two	6 to 1
Three	6 to 1
Four	5 to 1
Five	4 to 1
Six	4 to 1

Seven-of-a-kind	400 to 1
Six-of-a-kind	30 to 1

Six-of-a-kind	4 to 1

Four-of-a-kind	1 to 1
Three-of-a-kind	6 to 1

§ 676a.2. Go Fore It table physical characteristics.

(a) Go Fore It shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for Go Fore It shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) Separate betting areas designated for the placement of the Skins, Gopher, Front 9 and Back 9 Wagers for each player.
- (3) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds for all permissible wagers shall be posted at each Go Fore It table.

(4) An inscription indicating that the Skins Wager will be lost if the dealer's hand and the player's hand ties. If the information is not inscribed on the layout, a sign which sets forth the required information shall be posted at each Go Fore It table.

(c) Each Go Fore It table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Go Fore It table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 676a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Go Fore It shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Go Fore It may be played with two decks of cards in accordance with the following requirements:

- (1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.
- (2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.
- (3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.
- (4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Go Fore It shall be changed at least every:

- (1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 676a.4. Opening of the table for gaming.

(a) After receiving one deck or two decks of cards at the table, the dealer shall inspect the cards for defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 676a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 676a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal or deliver the cards in accordance with § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover

card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Go Fore It table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 676a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 676a.6. Go Fore It rankings.

The point value assigned to the cards used in Go Fore It shall be:

<i>Card</i>	<i>Point Value</i>
Ace	1
Jack, queen, king	10
2 through 10	Face value

§ 676a.7. Wagers.

(a) Wagers at Go Fore It shall be made by placing value chips or plaques on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Go Fore It table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Back 9 Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 676a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Go Fore It:

- (1) A Front 9 Wager, which is required to participate in a round of play.
- (2) A Back 9 Wager equal to the player’s Front 9 Wager which is required to continue in the round of play after the player views his first to cards.
- (3) An optional Skins Wager to compete against the total point count of the dealer’s hand.

(4) A Gopher Wager that the player’s four cards will contain an ace.

(e) A player may not wager on more than one player position at a Go Fore It table.

§ 676a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers) until each player who placed the required Front 9 Wager and the dealer has four cards. The first two cards dealt to the player shall be placed in front of the player. The second two cards dealt to the player shall be dealt behind the front two cards and shall be the player’s hole cards. Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(c) After two stacks of two cards have been dealt to each player and four cards to the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 676a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

- (1) An automated shuffling device shall be used to shuffle the cards.
- (2) After the procedures required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to

use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) Prior to dealing the cards, the dealer shall announce "no more bets" and starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers) until each player who placed the required Front 9 Wager and the dealer has four cards. The first two cards dealt to the player shall be placed in front of the player. The second two cards dealt to the player shall be dealt behind the front two cards and shall be the player's hole cards.

(c) After two stacks of two cards have been dealt to each player and four cards to the dealer, except as provided in subsection (d), the dealer shall remove the stub from the manual dealing shoe and place the stub in the discard rack without exposing the cards.

(d) If the automated card shuffling device does not count the number of cards in the deck after the completion of each shuffle and indicate whether 52 cards are present, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 676a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealer delivering any stacks of cards dispensed by the automated dealing shoe, the dealer shall announce "no more bets."

(b) The dealer shall deliver the first stack of four cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers). The dealer shall then move the top two cards and place them face down behind the player's front two cards. The top two cards shall be the player's hole cards. Moving clockwise around the table, as the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall repeat the dealing procedure outlined above to each of the other players who has placed a Front 9 Wager in accordance with § 676a.7(d)(1). The dealer shall then deliver a stack of four cards face down as the dealer's hand.

(c) After each stack of four cards has been dispensed and delivered in accordance with subsection (b), the

dealer shall remove the remaining cards from the automated dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If the automated card shuffling device does not count the number of cards in the deck after the completion of each shuffle and indicate whether 52 cards are present, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 676a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine the player's closest two cards subject to the following limitations:

(2) Each player shall keep his cards in full view of the dealer at all times.

(b) After each player has examined his first two cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table ask each player if he wishes to make a Back 9 Wager in an amount equal to the player's Front 9 Wager or fold and forfeit the player's Front 9 Wager.

(c) After each player who placed a Front 9 Wager has either placed a Back 9 Wager on the designated area of the layout or forfeited his Front 9 Wager, the dealer shall collect all forfeited Front 9 Wagers and if the player:

(1) Did not place a Skins or Gopher Wager, collect the player's cards and place them face down in the discard rack.

(2) Placed a Gopher or Skins Wager, the dealer shall collect the player's four cards and place them face down under the player's Skins or Gopher Wagers are until settled in accordance with subsection (d).

(d) The dealer shall then reveal the dealer's four cards and place them face up on the layout. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the four cards of each player who placed a Back 9, Skins or Gopher Wager face up on the layout.

(2) The dealer shall add together the point value of all four of the player's cards.

(3) For all players who placed Front 9 and Back 9 Wagers, if the total point value of all four cards:

(i) Is equal to or greater than the total point value of the dealer's hand, the dealer shall collect the player's losing Skins Wager.

(ii) Is less than the total point value of the dealer's hand, the dealer shall pay the winning Skins Wager in accordance with § 676a.12(c).

(5) For all players who placed a Gopher wager, if any of the player's four cards:

(i) Is not an ace, the dealer shall collect the player's losing Gopher Wager.

(ii) Is an ace, the dealer shall pay the player's winning Gopher Wager in accordance with § 676a.12(d).

(e) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 676a.12. Payout odds.

(a) A certificate holder shall pay winning Front 9 Wagers at odds of 1 to 1.

(b) A certificate holder shall pay winning Back 9 Wagers in accordance with the following odds:

(c) A certificate holder shall pay winning Skins Wagers at odds of 1 to 1.

(d) A certificate holder shall pay winning Gopher Wagers at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

<i>Number of Aces</i>	<i>Paytable A</i>	<i>Paytable B</i>
4	1,000 to 1	1,000 to 1
3	50 to 1	50 to 1
2	5 to 1	6 to 1
1	2 to 1	2 to 1

§ 676a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If any player or the dealer is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If any of the dealer's cards or the player's hole cards are inadvertently exposed prior to each player having either folded or placed a Back 9 Wager as provided under § 676a.11 (relating to procedures for completion of each round of play), all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

[4 PA. CODE CH. 1]

Executive Orders, Management Directives, and Other Issuances of the Directives Management System Indexed for Reference Purposes

(Editor’s Note: This Index of Issuances is published under 1 Pa. Code § 3.1(a)(9) (relating to contents of Code). This document meets the criteria of 45 Pa.C.S. § 702(7) as a document general and permanent in nature which shall be codified in the *Pennsylvania Code*.)

This manual provides a complete listing of issuances, specified in Title 4 of the *Pennsylvania Code* § 1.2, from the Governor’s Office and from agencies under the Governor’s jurisdiction, except proclamations and press releases, that are intended for distribution to two or more agencies following the procedures for publication of issuances in Management Directive 210.1, Directives Management System.

The manual will be amended to reflect the latest issuances, and published annually in Title 4 of the *Pennsylvania Code* § 1.4 at the end of each fiscal year.

This manual replaces, in its entirety, Manual 210.3 dated July 1, 2014. This manual includes all new and amended issuances through June 30, 2015.

How to Use Index:

- o Executive orders are by year of issuance.
- o Management directives and manuals are numbered in sequence by category (e.g., Financial Management) and subcategory (e.g., Payroll).
- o All documents preceded by the letter “M” are manuals.
- o Documents that have been rescinded are indicated as rescinded.
- o Amendments are presented as complete documents that incorporate all changes since the last issuance.
- o Revisions which generally affect older issuances are pen and ink changes or replacement pages and affect only those parts of an issuance being changed. Therefore the issuance changed by a revision will be in more than one document because there will be original issuance and any revision.

Fiscal Note: GOV-15-210.3. No fiscal impact; (8) recommends adoption.

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Envi- ronmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environ-
 mental Remediation Standards Act (act) (35 P. S.
 §§ 6026.302—6026.305) require the Department to pub-
 lish in the *Pennsylvania Bulletin* an acknowledgment
 noting receipt of Notices of Intent to Remediate. An
 acknowledgment of the receipt of a Notice of Intent to
 Remediate is used to identify a site where a person
 proposes to, or has been required to, respond to a release
 of a regulated substance at a site. A person intending to
 use the background standard, Statewide health standard,
 the site-specific standard or intend to remediate a site as
 a special industrial area shall file a Notice of Intent to
 Remediate with the Department. A Notice of Intent to
 Remediate filed with the Department provides a brief
 description of the location of the site, a list of known or
 suspected contaminants at the site, the proposed remedia-
 tion measures for the site and a description of the
 intended future use of the site. A person who demon-
 strates attainment of one or a combination of cleanup
 standards or receives approval of a special industrial area
 remediation identified under the act will be relieved of
 further liability for the remediation of the site for con-
 tamination identified in reports submitted to and ap-
 proved by the Department. Furthermore, the person shall
 not be subject to citizen suits or other contribution
 actions brought by responsible persons not participating
 in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act,
 there is a 30-day public and municipal comment period
 for sites proposed for remediation using a site-specific
 standard, in whole or in part, and for sites remediated as
 a special industrial area. This period begins when a
 summary of the Notice of Intent to Remediate is pub-
 lished in a newspaper of general circulation in the area of
 the site. For the following site, proposed for remediation
 to a site-specific standard or as a special industrial area,
 the municipality, within which the site is located, may
 request to be involved in the development of the remedia-
 tion and reuse plans for the site if the request is made
 within 30 days of the date specified as follows. During
 this comment period, the municipality may request that
 the person identified as the remediator of the site develop

and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person

submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

35-00069A: Lackawanna Energy Center LLC (1 South Wacker Drive, Suite 1900, Chicago, IL 60606) Notice is hereby given under 25 Pa. Code § 127.44 and 40 CFR 52.21, that the Department of Environmental Protection (Department) intends to issue the proposed Air Quality Plan Approval 35-00069A: Lackawanna Energy Center LLC (1 South Wacker Drive, Suite 1900, Chicago, IL 60606) for the purposes to construct, own, and operate a natural gas-fired combined-cycle power plant to produce a nominal 1,500 MW of electricity in Jessup Borough, **Lackawanna County** and is soliciting comments on the above plan approval.

The project consists of three (3) identical 1 x 1 power blocks. Each combined-cycle process block includes one (1) General Electric Model 7HA.02 natural gas fired combustion turbine (CT) and one (1) heat recovery steam generator (HRSG) with duct burners (DB) with all three (3) blocks sharing one (1) steam turbine.

The duct burners (DB) will be installed in the heat recovery steam generators (HRSG) of the proposed new units. Each CT and duct burner will exclusively fire pipeline-quality natural gas. The HRSGs will be equipped with selective catalytic reduction (SCR) to minimize nitrogen oxide (NO_x) emissions and oxidation catalysts to minimize carbon monoxide (CO) and volatile organic compound (VOC) emissions from the CTs and DBs.

Additionally, one (1) 2,000 kW diesel-fired emergency generator, one (1) 315 HP diesel-fired emergency fire water pump, one (1) 184.8 MMBTUs/hr natural gas fired boiler, one (1) 12 MMBTUs/hr natural gas fuel gas heater, two (2) diesel storage tanks, three (3) lube oil storage tanks, and one (1) aqueous ammonia storage tank are proposed to be constructed and operated.

The proposed facility will be a "major source" of criteria air pollutants. Lackawanna Energy Center LLC is applying to the Department for a Plan Approval addressing Prevention of Significant Deterioration (PSD) review and non-attainment New Source Review (NSR).

The PSD regulations require specific sources of air pollution, such as the proposed project, to satisfy four conditions before approval to construct and operate may be granted by DEP. First, all pollutants that are subject to this regulation must be controlled by best available control technology (BACT). Second, particulate and sulfur dioxide (SO₂) air pollutant emissions must not cause violations of the allowable annual, 24-hour, or 3-hour air

quality class increments applicable in the area where the source is to be located; nor any class increments applicable in any other areas which would be impacted by the source. Third, the maximum allowable increase in concentrations of all pollutants must not cause violation of either the national primary or secondary ambient air quality standards. Finally, the pollutant emissions from the proposed source must not adversely impact upon soils, vegetation, and visibility in the vicinity of the proposed plant site.

A preliminary review of the information submitted by Lackawanna Energy Center, LLC indicates that the construction and operation of the plant will meet all applicable air quality requirements including the four stated above. Based upon these findings, DEP plans to approve the application and issue a permit for the construction and operation of the Lackawanna Energy Center LLC generation plant.

The following table summarizes the potential emissions from maximum operation of the facility according to the application submitted for the Department's own analysis;

<i>Pollutant</i>	<i>Emission limit Tons/year</i>
PM ₁₀	147.50
PM	73.10
SO ₂	39.90
NO _x	304.60
CO	273.90
VOC	76.00
H ₂ SO ₄	31.2
Total Hazardous (HAPs)	22.80

As shown in the table above Lackawanna Energy Center LLC proposed project potential emissions of NO_x and VOC exceed the NNSR major source thresholds. NNSR requirements for NO_x and VOC include Lowest Achievable Emission Rate (LAER) and purchasing Emission Reduction Credits (ERC). In accordance with 25 Pa. Code § 121.1, LAER is defined as:

(i) The rate of emissions based on the following, whichever is more stringent:

(A) The most stringent emission limitation which is contained in the implementation plan of a state for the class or category of source unless the owner or operator of the proposed source demonstrates that the limitations are not achievable.

(B) The most stringent emission limitation which is achieved in practice by the class or category of source.

(ii) The application of the term may not allow a new or proposed modified source to emit a pollutant in excess of the amount allowable under an applicable new source standard of performance.

In accordance with 25 Pa. Code §§ 127.205(4) and 127.210, Lackawanna Energy Center LLC will be required to purchase ERCs to offset the NO_x and VOC emission increases associated with this project at a ratio of 1.15:1. Based on the PTE, the following table represents the required ERCs to be purchased:

<i>ERC Calculation</i>			
<i>Pollutant</i>	<i>PTE</i>	<i>Ratio</i>	<i>ERCs</i>
NO _x	304.6	1.15	350.3
VOC	76.0	1.15	87.4

In accordance with the Prevention of Significant Deterioration (PSD) rules in 40 CFR 52.21 and 25 Pa. Code § 127.83, Lackawanna Energy Center LLC has conducted an air quality analysis which utilizes dispersion modeling. Lackawanna Energy Center's air quality analysis satisfies the requirements of the PSD rules and is consistent with the U.S. Environmental Protection Agency's (EPA) *Guideline on Air Quality Models* (40 CFR Part 51, Appendix W) and the EPA's air quality modeling policy and guidance.

In accordance with 40 CFR 52.21(k), Lackawanna Energy Center's air quality analysis demonstrates that the proposed emissions from Lackawanna Energy Center's facility would not cause or contribute to air pollution in violation of the National Ambient Air Quality Standards (NAAQS) for carbon monoxide (CO), nitrogen dioxide (NO₂), particulate matter less than or equal to 2.5 micrometers in diameter (PM_{2.5}), or particulate matter less than or equal to 10 micrometers in diameter (PM₁₀). Lackawanna Energy Center's air quality analysis demonstrates that the proposed emissions from Lackawanna Energy Center's facility would not cause or contribute to air pollution in violation of the increments for NO₂, PM_{2.5}, or PM₁₀. The degree of Class II and Class I increment consumption expected to result from the operation of Lackawanna Energy Center's facility is provided in the following tables:

Table 1—Degree of Class II Increment Consumption from Operation of Lackawanna Energy Center's Facility

<i>Pollutant</i>	<i>Averaging Period</i>	<i>Degree of Class II Increment Consumption</i>		<i>Class II Increment</i>
		<i>micrograms per cubic meter</i>	<i>% of Class II Increment</i>	<i>micrograms per cubic meter</i>
NO ₂	Annual	< 0.32494	< 1.30 %	25
PM _{2.5}	24-Hour	< 6.39084	< 71.01 %	9
	Annual	< 0.29599	< 7.40 %	4
PM ₁₀	24-Hour	< 6.39084	< 21.30 %	30
	Annual	< 0.29599	< 1.74 %	17

Table 2—Degree of Class I Increment Consumption from Operation of Lackawanna Energy Center's Facility

Pollutant	Averaging Period	Degree of Class I Increment Consumption		Class I Increment
		micrograms per cubic meter	% of Class I Increment	micrograms per cubic meter
NO ₂	Annual	< 0.00179	< 0.07 %	2.5
PM _{2.5}	24-Hour	< 0.01161	< 0.58 %	2
	Annual	< 0.00118	< 0.12 %	1
PM ₁₀	24-Hour	< 0.01161	< 0.15 %	8
	Annual	< 0.00118	< 0.03 %	4

In accordance with 40 CFR 52.21(o), Lackawanna Energy Center provided a satisfactory analysis of the impairment to visibility, soils, and vegetation that would occur as a result of Lackawanna Energy Center's facility and general commercial, residential, industrial, and other growth associated with Lackawanna Energy Center's facility.

In accordance with 40 CFR 52.21(p), written notice of Lackawanna Energy Center's proposed facility has been provided to the Federal Land Managers of nearby Class I areas as well as initial screening calculations to demonstrate that the proposed emissions from Lackawanna Energy Center's facility would not adversely impact visibility and air quality related values in nearby Class I areas.

To assure compliance with the applicable standards, DEP will place the following conditions on the plan approval.

(1) A new or modified facility subject to this subchapter shall comply with LAER, except as provided in § 127.203a(a)(2) (relating to applicability determination). When a facility is composed of several sources, only sources which are new or which are modified shall be required to implement LAER. In addition, LAER applies to the proposed modification which results in an increase in emissions and to subsequent or previous modifications

which result in emissions increases that are directly related to and normally included in the project associated with the proposed modification and which occurred within the contemporaneous period of the proposed emissions increase.

(i) A project that does not commence construction within 18 months of the date specified in the plan approval shall be reevaluated for its compliance with LAER before the start of construction.

Emissions offsets shall be required for the entire net emissions increase which occurred over the contemporaneous period except to the extent that emissions offsets or other reductions were previously applied against emissions increases in an earlier applicability determination.

(4) Each new facility which meets the requirements of and is subject to this subchapter shall offset the potential to emit of that facility with ERCs in accordance with § 127.210.

(5) For a new or modified facility which meets the requirements of and is subject to this subchapter, an analysis shall be conducted of alternative sites, sizes, production processes and environmental control techniques for the proposed facility, which demonstrates that the benefits of the proposed facility significantly outweigh the environmental and social costs imposed within this Commonwealth as a result of its location, construction or modification.

(6) In the case of a new or modified facility which is located in a nonattainment area, and within a zone, identified by the EPA Administrator, in consultation with the Secretary of Housing and Urban Development, as a zone to which economic development should be targeted, emissions of a pollutant resulting from the proposed new or modified facility may not cause or contribute to emission levels which exceed the allowance permitted for the pollutant for the area from new or modified facilities in the SIP.

(7) The Department may determine that the BAT requirements of this chapter are equivalent to BACT or LAER.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the

appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

Payment for Nursing Facility Services Provided by County Nursing Facilities; Medical Assistance Day One Incentive Payments to County Nursing Facilities for Fiscal Year 2015-2016

This announcement provides advance notice that the Department of Human Services (Department) intends to continue to make Medical Assistance Day One Incentive (MDOI) payments to qualified county nursing facilities through Fiscal Year (FY) 2015-2016.

Background

The Department instituted the MDOI payments in FY 2006-2007 to encourage county nursing facilities to continue to provide services to individuals who are Medical Assistance (MA) eligible on the day of admission.

For FY 2006-2007 through FY 2014-2015, the Department provided MDOI payments to qualified county nursing facilities. The qualifying criteria and formula used to determine these payments, as set forth in the Commonwealth's approved State Plan, are as follows.

To qualify for MDOI payments, the nursing facility must be a county nursing facility both during the entire quarter for which the MDOI installment payment is being made and at the time the MDOI installment payment is made.

The Department will calculate each qualified county nursing facility's MDOI quarterly installment payment based on the following formula:

(i) The total funds allocated for the MDOI payments for the rate year will be divided by the total MA days for all county nursing facilities to determine the MDOI per diem for the rate year. The total MA days used for each county nursing facility will be the MA days identified on the most recent Provider Reimbursement and Operations Management Information System (PROMISE™) data file used to determine the facility's eligibility for disproportionate share incentive payments.

(ii) The MDOI per diem for the rate year will be multiplied by each qualified county nursing facility's paid MA days identified on the most recent PROMISE data file used to determine eligibility for disproportionate share incentive payments, to determine its annual MDOI amount.

(iii) Each qualified county nursing facility's annual MDOI amount will be divided by four to determine the facility's MDOI quarterly installment payments for the rate year.

The MDOI installment payments for each quarter of the rate year will be paid in the first month of the following quarter.

For FY 2015-2016, the Department intends to use a portion of the revenues generated from the FY 2015-2016 Nursing Facility Assessment Program (see section 815-A of the Public Welfare Code (62 P. S. § 815-A)) as the State share of the MDOI payments to qualified county nursing facilities. To authorize the continuance of the MDOI payments for FY 2015-2016, and the funding level for the MDOI payments for FY 2015-2016, the Department will submit a State Plan Amendment (SPA) to the Federal Centers for Medicare and Medicaid Services (CMS).

If CMS approves the SPA, the Department will have the authority to continue to make MDOI payments to county nursing facilities for FY 2015-2016.

The MDOI payments to county nursing facilities will provide incentives to county nursing facilities to provide services to individuals who are MA eligible on the day of admission. The MDOI payments are intended to assure that county nursing facilities continue to provide access to care for these individuals. These payments provide an incentive to county nursing facilities to continue to provide for the poor and indigent citizens of this Commonwealth.

Fiscal Impact

The estimated aggregate expenditures during FY 2015-2016 is \$11.355 million in State funds.

FISH AND BOAT COMMISSION

Additions to List of Class A Wild Trout Waters

The Fish and Boat Commission (Commission) has approved the addition of 28 stream sections to its list of Class A Wild Trout Streams as set forth at 45 Pa.B. 2205 (May 2, 2015). Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries.

Executive Director

Classification of Wild Trout Streams; Additions and Revisions to List

The Fish and Boat Commission (Commission) has approved the addition of 54 new waters to its list of wild trout streams and the revision of the section limits of two streams already on the list as published at 45 Pa.B. 2203 (May 2, 2015). Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Commission to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The listing of a stream section as a wild trout stream is a biological designation

that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams. The Commission's Fisheries Management Division maintains the complete list of wild trout streams and it is available on the Commission's web site at http://www.fish.state.pa.us/trout_repro.htm.

54-69	Pennsylvania Liquor Control Board Discount Pricing Practices 45 Pa.B. 2478 (May 23, 2015)	6/22/15	7/22/15

**Pennsylvania Liquor Control Board
Regulation #54-69 (IRRC #3094)
Discount Pricing Practices
July 22, 2015**

We submit for your consideration the following comments on the proposed rulemaking published in the May 23, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Pennsylvania Liquor Control Board (Board) to respond to all comments received from us or any other source.

Section 13.102. Discount pricing practices.—Consistency with statute; Need; Clarity.

Consecutive or nonconsecutive hours

The *Summary* in the Preamble states “the proposed amendments are necessary so that the regulations pertaining to happy hour limitations are consistent with the Liquor Code (47 P.S. §§ 1-101—10-1001)” and, in particular, Act 11 of 2011 (Act 11) and Act 113 of 2011 (Act 113). As amended, the Liquor Code, at 47 P.S. §§ 4-406(g) and 4-442(g), states that the holder of a certain license “may hold happy hours up to four *consecutive or nonconsecutive* hours per day and up to fourteen hours per week” (Emphasis added.) Subsection (a) does not include the phrase “consecutive or nonconsecutive.” We recommend adding this phrase to make the regulation consistent with the statute.

Events not counted against the four-hours or fourteen-hours per week

As amended by Act 113, 47 P.S. §§ 4-406(g) and 4-442(g) state:

. . . Events conducted under the authority of 40 Pa. Code § 13.102(b) shall not be counted against the four-hours or fourteen-hours per week.

For consistency with the statute, we recommend adding this language to Subsection (b).

Retail Licensee

Subsection (a) sets forth happy hour requirements for “retail licensees.” Happy hours are addressed for two categories of license in the statute. Act 113 amended Subsection 406(g) of the Liquor Code which is under the title “Sales by Liquor Licensees; Restrictions” and uses the phrase “the holder of a retail license.” 47 P.S. § 4-406(g). Act 113 also amended Subsection 442(g) of the Liquor Code which is under the title of “Retail Dispensers’ Restrictions on Purchases and Sales” and applies to a different category of “the holder of a retail dispenser license.” 47 P.S. § 4-442(g). The term used in the regulation, “retail licensee,” is not defined in existing 40 Pa. Code Section 13.1. Definitions. Therefore, the regulation is not clear regarding which specific licensees the Board considers to be “retail licensees.” We recommend adding a definition of this term to Section 13.1 to clarify which specific licensees the regulation addresses and to specify that the regulation addresses both of the licensees the statute addresses: “the holder of a retail license” and “the holder of a retail dispenser license.”

Board Advisory Notice 16

Subparagraphs (b)(2)(i), (ii) and (iii) would replace a reference to Board Advisory Notice 16 with the specific language of a portion of that notice that provides examples. A regulation carries the full force and effect of law, whereas an advisory notice is a lesser standard that does not. We have two concerns.

First, it is not clear why these examples are needed in the regulation and how they would be enforced. We recommend the Board delete the examples, or support them by explaining the need for the examples, what protections they provide and what provisions of the statute would be used to enforce them.

Second, if the examples are retained, the examples need to be clarified. Existing Paragraph (b)(2) begins by allowing “one specific type of alcoholic beverage or drink per day.” The examples then allow a broad discount for “all brandy drinks.” Why must a licensee be prohibited from discounting “all Blue Hound products,” “all Kendall’s wines,” and “all Jackson’s products”? Why is it permissible to discount wine by the types “Chardonnay” and “Merlot,” regardless of the manufacturer, but beer can only be discounted by a specific brand? Why couldn’t all light beer or all stout beer be discounted? If these examples are retained, we recommend making them clearer and consistent.
