

# PROPOSED RULEMAKING

## PENNSYLVANIA GAMING CONTROL BOARD

[ 58 PA. CODE CHS. 461a, 463a, 465a, 601a, 605a  
AND 607a ]

### Hybrid Gaming Tables and Electronic Wagering Terminals

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 13A02(1), (2), (2.1), (4) and (6), 13A25(c) and 13A62(a) (relating to regulatory authority; table game accounting controls and audit protocols; and table game taxes) proposes to amend Chapters 461a, 463a, 465a, 601a, 605a and 607a to read as set forth in Annex A.

#### *Purpose of the Proposed Rulemaking*

This proposed rulemaking will add hybrid gaming tables, a new game technology, to the complement of table games available for play in this Commonwealth.

#### *Explanation*

Hybrid gaming tables, which combine the live dealer action with fully automated electronic wagering, are a new technology to this Commonwealth. This proposed rulemaking incorporates this new technology into the existing Board regulations on device testing, internal controls, table game taxes and the provisions associated with electronic gaming tables.

#### *Chapter 461a. Slot machine and table game device testing and control*

Like slot machines and fully automated electronic gaming tables, electronic wagering terminals (the devices patrons will utilize to wager at hybrid gaming tables) are required to have an asset number, to utilize bill validators for the acceptance of cash and gaming vouchers, and to be connected to the Department of Revenue's central control computer system (CCCS). Connection to the CCCS is required because, just like slot machines and fully automated electronic gaming tables, wagering on hybrid gaming tables is conducted electronically through the use of an electronic wagering terminal. Electronic wagering terminals are equipped with a bill validator, meters to determine amount of play and a drop box for the collection of cash and gaming vouchers.

The CCCS will act as the system of record for accounting purposes and the CCCS will calculate revenue for table game tax purposes, just as it does for slot machines and fully automated electronic gaming tables.

#### *Chapter 463a. Possession of slot machines, electronic wagering terminals and fully automated electronic gaming tables*

This chapter requires that an electronic wagering terminal be treated just like a slot machine or fully automated electronic gaming table as it relates to movement of the machines into, around and out of a licensed facility, and requires that operators account for each machine's location in the licensed facility or storage area on a master table game list submitted monthly. These requirements are consistent with the current requirements applicable to slot machines and fully automated electronic gaming tables.

#### *Chapter 465a. Accounting and internal controls*

This chapter requires that an operator that intends to install hybrid gaming tables and electronic wagering terminals update its internal controls to reflect the additional machines and tables. Surveillance requirements for electronic wagering terminals and hybrid gaming tables are in § 465a.9 (relating to surveillance system; surveillance department control; surveillance department restrictions) and supervision requirements are in § 465a.11 (relating to slot machine licensee's organization; jobs compendium).

Sections 465a.18 and 465a.25 (relating to transportation of slot cash storage boxes and table game drop boxes to and from the gaming floor; storage; and counting and recording of slot cash storage boxes and table game drop boxes) address the procedure for the collection and counting of drop boxes connected to electronic wagering terminals. Because revenue is based on a metered win and electronic wagering terminals are required to be connected to the CCCS, the Board allowed for the collection of drop boxes connected to electronic wagering terminals to be conducted at the same time as drop boxes connected to slot machines and fully automated electronic gaming tables. Additionally, unlike traditional table game drop boxes that are collected and counted daily, the Board will not require that boxes connected to electronic wagering terminals be collected or counted on a daily basis.

Text is proposed to be added to § 465a.19 (relating to acceptance of tips or gratuities from patrons) to allow for the acceptance of tips placed electronically through the use of electronic wagering terminals provided the operator specifies how the tips will be pooled and distributed in conformance with 4 Pa.C.S. § 13A02(6).

As previously specified, because wagering at a hybrid gaming table is conducted electronically at an electronic wagering terminal and is not conducted through the use of value chips like a traditional table game, §§ 465a.36—465a.42, which are associated with table inventories, opening and closing tables and the distribution and removal of chips, are not applicable. Therefore, electronic wagering terminals were excluded from §§ 465a.36—465a.42.

#### *Chapter 601a. General table game provisions*

Section 601a.9 (relating to table game taxes and gross table game revenue) addresses the calculation of table game taxes and gross table game revenue. As specified in subsection (e), net revenue from electronic wagering terminals is determined through the CCCS and will be taxed at the traditional table game rate not at the fully automated table game rate. This provision is consistent with 4 Pa.C.S. § 13A62, which specifies that fully automated electronic gaming tables, which are operated without the assistance of a dealer, are taxed at a higher rate than those tables that operate with the assistance of a dealer, including hybrid gaming tables connected to electronic wagering terminals.

#### *Chapter 605a. Electronic gaming tables*

This chapter provides the definitions and requirements specific to hybrid gaming tables and electronic wagering terminals. As defined in § 605a.1 (relating to definitions), the hybrid gaming table is where the dealing of the table game takes place while electronic wagering terminals are the devices patrons utilize to buy in, cash out and place their wagers.

Because game play on an electronic wagering terminal is captured utilizing meters, just like fully automated electronic gaming tables, the provisions addressing the meter requirements in § 605a.5 (relating to fully automated electronic gaming tables and electronic wagering terminals) are proposed to be amended to include electronic wagering terminals.

Proposed § 605a.9 (relating to hybrid gaming tables) addresses requirements specific to hybrid gaming tables. Included in this section is the provision that addresses how hybrid gaming tables and electronic wagering terminals will be counted for purposes of the number of gaming tables each facility is authorized to operate.

Regardless of the number of hybrid gaming tables each facility operates, every five electronic wagering terminals will count as one gaming table. The number of electronic wagering terminals is focused on instead of the number of hybrid gaming tables because operators can connect a significant number of electronic wagering terminals to each hybrid gaming table, in essence having one table connected to a high number of player positions, far more player positions than a traditional table game could accommodate.

The Board believes that if it were to ignore the number of electronic wagering terminals and count only the number of hybrid gaming tables a facility operates, the regulation would run afoul of the legislatively mandated cap on the number of authorized table of 250 tables for Category 1 and 2 licensees and 50 tables for Category 3 licensees. See 4 Pa.C.S. § 13A11(b) (relating to authorization to conduct table games).

#### *Fiscal Impact*

*Commonwealth.* The Board does not expect that this proposed rulemaking will have a fiscal impact on the Board or other Commonwealth agencies as testing and approval of the new hybrid gaming tables will be conducted by existing Board staff.

As it relates to internal controls, updates to internal control procedures will be reviewed by existing Board staff.

*Political subdivisions.* This proposed rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

*Private sector.* This proposed rulemaking will provide certificate holders with additional table game options. If a certificate holder decides to offer hybrid gaming tables within the licensed facility, the certificate holder will be required to acquire equipment and train their dealers and support staff. While these hybrid gaming systems require a substantial capital expenditure, the requirements in this proposed rulemaking should not increase costs operators would already have to incur to acquire the new technology. Costs incurred to train employees or purchase/lease equipment should be offset by the proceeds of gaming.

*General public.* This proposed rulemaking will not have fiscal impact on the general public.

#### *Paperwork Requirements*

If a certificate holder elects to offer table gaming on hybrid gaming tables, the certificate holder will be required to submit updated internal controls reflecting the changes. These forms are submitted to Board staff electronically.

#### *Effective Date*

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

#### *Public Comments*

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking within 30 days after the date of publication in the *Pennsylvania Bulletin* to Susan A. Yocum, Assistant Chief Counsel, Attention: Regulation #125-189 Public Comment, Pennsylvania Gaming Control Board, P. O. Box 69060, Harrisburg, PA 17106-9060.

#### *Contact Person*

The contact person for questions about this proposed rulemaking is Susan Yocum, Assistant Chief Counsel, (717) 346-8300.

#### *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on July 15, 2015, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee. A copy of this material is available to the public upon request and is available on the Board's web site at [www.gamingcontrolboard.pa.gov](http://www.gamingcontrolboard.pa.gov).

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Table Game Rules of Play

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 13A02(1), (2), (4) and (7) and 13A23(a) (relating to regulatory authority; and training of employees and potential employees), proposes to amend Chapters 465a and 611a (relating to accounting and internal controls; and table game minimum training standards), rescind temporary Chapters 583, 585, 587, 588, 589, 590, 591, 592 and 593 and add Chapters 667a, 668a, 669a, 670a, 671a, 672a, 673a, 674a, 675a and 676a to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

This proposed rulemaking will add a new table game, transition nine temporary table game chapters into permanent regulations, update the surveillance requirements to incorporate the additional table games and amend the dealer minimum training requirements.

Explanation

Surveillance requirements in Chapter 465a

The surveillance requirements in § 465a.9 (relating to surveillance system; surveillance department control; surveillance department restrictions) are proposed to be amended to incorporate the ten additional table games in this proposed rulemaking that are being added to the permanent regulations. The provisions being added to § 465a.9 are consistent with surveillance requirements in the temporary regulations, which will be rescinded upon final-form rulemaking.

Dealer training in Chapter 611a

The dealer training requirements in § 611a.2 (relating to minimum proficiency requirements) are proposed to be amended to provide clarity to the regulated community, to include training on games not previously incorporated into the regulations and to reduce the number of hours of training on specific game types for experienced dealers only.

Proposed amendments to § 611a.2(a), regarding inexperienced dealer training, provide clarity by grouping like games together, eliminating the reference to Pai Gow Poker and Baccarat style games, as those games are "other banked card games" which are already incorporated into the requirements under the Blackjack training, and including training on Big 6 Wheel and Sic Bo, game types not previously incorporated into the regulations.

Section 611a.2(b) addresses additional training for those dealers who are already trained and experienced in

dealing table games. These provisions are applicable when a dealer is trained on one table type, card style games for example, and wish to be trained on a different table type, such as Craps or tiles. The amendments to subsection (b) are proposed for clarity and to reduce the number of hours of additional training an experienced dealer is required to complete to deal dice, Roulette or tile games.

Proposed § 611a.2(d) requires licensees to specify the mechanism and the amount of additional training experienced dealers will be completing to deal a different game of the same table type. This provision is applicable when a dealer is already experienced to deal a table type, such as the card game Pai Gow Poker, but would now like to deal the new game of the same table type, such as proposed card game Go Fore It. All training programs are required to be submitted in accordance with § 611a.4 (relating to submission of training programs to the Board).

#### *Table games*

Flop Poker, Props & Hops, Raise It Up Stud Poker, Six Card Fortune Pai Gow Poker, Lunar Poker, Free Bet Blackjack, Double Back Jack, Criss-Cross Poker and High Roll Dice are proposed to be transitioned from temporary regulations to permanent regulations. Go Fore It, a table game, is proposed to be added.

For the rules of play for table games, most chapters are drafted in the same basic format: section a.1 containing the definitions used throughout the chapter; section a.2 containing the table physical characteristics; section a.3 detailing the number of cards and decks used to play the game; section a.4 addressing the opening of the table for gaming; section a.5 detailing how the cards are to be shuffled and cut; section a.6 specifying the ranking of the hands; section a.7 outlining the permissible wagers; sections a.8—a.10 detailing the procedures for dealing the cards; section a.11 addressing how the round of play is to be completed; section a.12 outlining the permissible payout odds for winning wagers; and section a.13 addressing irregularities in play.

The Board approved some revisions between the temporary regulations and the proposed permanent regulations. An optional progressive side wager is proposed to be added in Chapter 667a (relating to Flop Poker). In Chapter 668a (relating to Props & Hops), three wagers were not transferred and seven wagers are proposed to be added.

Chapter 671a (relating to Lunar Poker) is a complete rewrite of the game from the temporary regulations.

In Chapter 672a (relating to Free Bet Blackjack), optional surrender was not transferred from this Blackjack variation as players may split or double-down without placing an additional wager depending on the value of the player's hand.

Minor revisions are made to payout tables in Chapters 674a and 675a (relating to Criss-Cross Poker; and High Roll Dice).

#### *Fiscal Impact*

*Commonwealth.* The Board does not expect that this proposed rulemaking will have fiscal impact on the Board or other Commonwealth agencies. Updates to Rules Submission forms and internal control procedures will be reviewed by existing Board staff.

*Political subdivisions.* This proposed rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

*Private sector.* This proposed rulemaking will provide certificate holders with additional table game options. If a certificate holder decides to offer the games within the licensed facility, the certificate holder will be required to train their dealers on the rules of play and may need to purchase new equipment. Costs incurred to train employees or purchase/lease equipment should be offset by the proceeds of gaming.

*General public.* This proposed rulemaking will not have fiscal impact on the general public.

#### *Paperwork Requirements*

If a certificate holder selects different options for the play of table games, the certificate holder will be required to submit an updated Rules Submission form reflecting the changes. These forms are available and submitted to Board staff electronically.

##### § 667a.2. Flop Poker table physical characteristics.

(a) Flop Poker shall be played on a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Flop Poker table shall be submitted to the Bureau of Gaming Operations in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) Three separate betting areas designated for the placement of Ante, Flop and Pot Wagers for each player.
- (3) A separate area designated for the placement of the three community cards located directly in front of the table inventory container.

(4) If a certificate holder offers the optional Three Card Bonus Wager authorized under § 667a.7(d)(3) (relating to wagers), a separate area designated for the placement of the Three Card Bonus Wager for each player.

(5) If the certificate holder offers the optional Progressive Flop Wager authorized under § 667a.7(d)(4), a separate area designated for the placement of the Progressive Flop Wager for each player.

(6) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Flop Poker table.

(7) Inscriptions indicating the following:

(i) The Flop Wager must be equal to the Ante Wager.

(ii) The Pot Wager must be equal to the table minimum.

(8) If the information required under paragraph (6) is not inscribed on the layout, a sign which sets forth the required information shall be posted at each Flop Poker table.

(c) If a certificate holder offers a Progressive Flop Wager in accordance with § 667a.7(d)(4), the Flop Poker table must have a progressive table game system, in accordance with § 605a.7 (relating to progressive table games), for the placement of Progressive Flop Wagers. If the certificate holder is offering a Progressive Flop Wager on multiple linked tables or games in the same licensed facility, the progressive table game system must comply with § 605a.8 (relating to linked progressive table games). The progressive table game system must include:

(1) A wagering device at each betting position that acknowledges or accepts the placement of the Progressive Payout Wager.

(2) A device that controls or monitors the placement of Progressive Payout Wagers at the gaming table, including a mechanism, such as a lock-out button, that prevents the recognition of any Progressive Payout Wager that a player attempts to place after the dealer has announced "no more bets."

(d) Each Flop Poker table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each Flop Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

#### § 667a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Flop Poker shall be played with one deck of cards that are identical in appearance and two cover cards.

(b) If an automated card shuffling device is utilized, Flop Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Flop Poker shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

#### § 667a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 667a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

#### § 667a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal or deliver the cards in accordance with § 667a.8, § 667a.9 or § 667a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Flop Poker table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 667a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(a) The rank of the cards used in Flop Poker, in order of highest to lowest rank, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example, queen, king, ace, 2 and 3). (9) A pair, which is a hand consisting of two cards of the same rank, with two aces being the highest ranking pair and two 2s being the lowest ranking pair.

(c) When comparing two Poker hands that are of identical rank under subsection (b), or that do not contain the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered the higher ranking hand. (d) If the certificate holder is offering the Three Card Bonus Wager, the three-card Poker hands eligible for a payout are:

(1) A royal, which is a hand consisting of an ace, king and queen of the same suit.

(2) A straight flush, which is a hand consisting of three cards of the same suit in consecutive ranking, other than a royal.

(5) A flush, which is a hand consisting of three cards of the same suit, regardless of rank.

(6) A pair, which is a hand consisting of two cards of the same rank.

#### § 667a.7. Wagers.

(a) Wagers at Flop Poker shall be made by placing value chips or plaques on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Flop Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Flop Wager, shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedure in § 667a.8, § 667a.9 or § 667a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in

§ 667a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Flop Poker:

(1) To participate in a round of play, each player shall place a Pot Wager equal to the table minimum and an Ante Wager.

(2) A player shall compete against a posted payable by placing a Flop Wager equal to the player’s Ante Wager, in accordance with § 667a.11(b).

(3) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Flop Poker table the option to make an additional Three Card Bonus Wager that the player’s first three cards will contain a pair or better.

(4) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Flop Poker table the option to make an additional Progressive Flop Wager that two of the community cards and the player’s three cards will contain a flush or better. After placing the Pot and Ante Wagers required under subsection (d)(1), a player may make an additional Progressive Flop Wager by placing a value chip on the designated betting area prior to the dealer announcing “no more bets.”

(e) A player may not wager on more than one player position at a Flop Poker table.

**§ 667a.8. Procedure for dealing the cards from a manual dealing shoe.**

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 667a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Flop Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Flop Wagers. If any Progressive Flop Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Flop Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) After all players have placed their Ante, Pot, Three Card Bonus and Progressive Flop Wagers, the dealer shall collect each player’s Pot Wager and place it in the center of the table in the area designated for the placement of the Pot Wagers.

(d) The dealer shall then, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 667a.7(d)(1) (relating to wagers) until each player who placed the required wagers has three cards. Each card shall be removed from the dealing shoe with the

hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(e) After three cards have been dealt to each player, the dealer shall deal the three community cards in accordance with § 667a.11 (relating to procedures for completion of each round of play). After all community cards have been dealt, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 667a.9. Procedure for dealing the cards from the hand.**

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 667a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Flop Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Flop Wagers. If any Progressive Flop Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Flop Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) After all players have placed their Ante, Pot, Three Card Bonus and Progressive Flop Wagers, the dealer shall collect each player’s Pot Wager and place it in the center of the table in the area designated for the placement of the Pot Wagers.

(d) The dealer shall then, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance

with § 667a.7(d)(1) (relating to wagers) until each player who placed the required wagers has three cards. To deal each card, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout.

(e) After three cards have been dealt to each player, the dealer shall deal the three community cards in accordance with § 667a.11 (relating to procedures for completion of each round of play). After all community cards have been dealt, the dealer shall, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 667a.10. Procedures for dealing the cards from an automated dealing shoe.**

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 667a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets" and, if the Progressive Flop Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Flop Wagers. If any Progressive Flop Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Flop Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) After all players have placed their Ante, Pot, Three Card Bonus and Progressive Flop Wagers, the dealer shall collect each player's Pot Wager and place it in the center of the table in the area designated for the placement of the Pot Wagers.

(c) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed the required wagers in accordance with § 667a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed a required wager in accordance with § 667a.7(d)(1). The dealer shall then deliver a stack of three cards face down under a cover card to the area designated for the placement of the three community cards.

(d) After each stack of three cards has been dispensed and delivered in accordance with subsection (c), the dealer shall remove the remaining cards from the automated dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(e) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 667a.11. Procedures for completion of each round of play.**

(a) After the dealing procedures required under § 667a.8, § 667a.9 or § 667a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Flop Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to fold or place a Flop Wager equal to his Ante Wager. If a player folds, the dealer shall collect the Ante Wager but the player's cards shall remain on the layout. A player who folds will be eligible to win the Three Card Bonus and Progressive Flop Wagers in accordance with subsection (d) and the Pot in accordance with subsection (e).

(c) Unless the certificate holder is utilizing an automated dealing shoe that dispenses the stack of community cards, once all players have either placed a Flop Wager or folded, the dealer shall burn the next card. The dealer shall then deal the flop face up to the designated area for the community cards.

(d) After the three community cards have been revealed, the dealer shall, beginning with the player farthest to the dealer's right and moving counterclockwise around the table, turn the three cards of each player face up on the layout. The dealer shall then settle the Ante, Flop, Three Card Bonus and Progressive Flop Wagers as follows provided that the Ante, Flop, Progressive Flop and Three Card Bonus Wagers of each player shall be resolved one player at a time regardless of outcome:

(1) For each player who placed a Three Card Bonus Wager, the dealer shall form the highest ranking three-card Poker hand as described in § 667a.6(d) (relating to Flop Poker rankings) from the three cards dealt to each player. If the player's hand contains a pair or better, the dealer shall pay the winning wager in accordance with § 667a.12(c) (relating to payout odds; Envy Bonus; rate of progression; payout limitation).

(2) The dealer shall then select five cards from the player's three cards and two of the community cards to form the highest ranking five-card Poker hand. If the player's five-card Poker hand contains a pair of jacks or better, the dealer shall pay the winning Ante and Flop Wagers in accordance with § 667a.12(a) and (b). If a player placed a Progressive Flop Wager and the player's five-card Poker hand contains a flush or better, the dealer shall:

- (i) Verify that the hand is a winning hand.
- (ii) Verify that the appropriate light on the progressive table game system has been illuminated.
- (iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(iv) Pay the winning Progressive Flop Wager in accordance with the payout odds in § 667a.12(d). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(e) After settling each player's Ante, Flop, Three Card Bonus and Progressive Flop Wagers, the dealer shall settle the Pot Wager by determining which player's five-card Poker hand ranks the highest. The player with the highest ranking five-card Poker hand shall be paid the entire Pot amount. If there is a tie hand, the player with the next highest card shall be awarded the entire Pot amount. If there is a tie hand and players have identical hands, the Pot shall be split evenly between the winning players.

(f) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

**§ 667a.12. Payout odds; Envy Bonus; rate of progression; payout limitation.**

(a) A certificate holder shall pay each winning Ante Wager at odds of 1 to 1.

(b) A certificate holder shall pay the player's winning Flop Wager in accordance with the following odds:

(h) The dealer shall then announce the numbers on the uppermost or skyward sides of the two dice and place a pointer marker on the corresponding area of the layout. If one die comes to rest on top of the other or if the dice do not land flat on the bottom of the shaker after being tossed, the dealer shall call a "no roll." The dice shall be shaken again in accordance with subsection (f).

(i) After a valid roll, the dealer shall then collect all losing wagers before paying out winning wagers in accordance with § 668a.4 (relating to payout odds) provided that if any player placed Six Eight Shake Wager and if the number rolled corresponds to one of the boxes on the table layout that contains a lammer button, the dealer shall remove the lammer button and place it in the Six Eight Shake circle on the table layout furthest to the dealer's right. Each time one of the preselected numbers containing a lammer is rolled, the lammer will be collected and placed on the Six Eight Shake circle next to the previous lammer. If there is a wager in the Six Eight Shake circle, the lammer shall be placed on top of the wager. If all six combinations of dice are thrown and all six lammer buttons are placed on the designated Six Eight Shake circles before a seven is thrown, the dealer shall pay each winning Six Eight Shake Wager in accordance with § 668a.4.

(j) After all losing wagers have been collected and all winning wagers have been paid, the dealer shall cover and shake the shaker.

(k) The same player who shook the dice shall continue to shake the dice during each subsequent round of play until the player shakes a 7. Once the total of the dice is a 7, the dice shaker will be passed to the next player to the left at the next round of play.

Except as provided in § 669a.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer announces “no more bets” and begins dealing the cards.

(d) The following wagers may be placed in the game of Raise It Up Stud Poker:

(1) To participate in a round of play, a player shall place an Ante Wager and a Blind Wager, equal to the player's Ante Wager, that the three cards dealt to the player and the three community cards will form a pair of 10s or better as described in § 669a.6(b) (relating to Raise It Up Stud Poker hand rankings).

After placing Ante and Blind Wagers, a player may make an additional Progressive Payout Wager by placing a value chip into the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

(5) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Raise It Up Stud Poker table the option to make an additional Six Card Bonus Wager that the three cards dealt to the player and the three community cards will form a three-of-a-kind or better as described in § 669a.6(b).

(e) A player may not wager on more than one player position at a Raise It Up Stud Poker table.

**§ 669a.8. Procedure for dealing the cards from a manual dealing shoe.**

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards, face down, as follows:

(1) Deal one card at a time to each player who placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers) until each player who placed a wager has three cards.

(2) Three cards to the area designated for the placement of the community cards.

(e) After three cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 669a.9. Procedure for dealing the cards from the hand.**

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that

round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall then collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards, face down, as follows:

(1) Deal one card at a time to each player who placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers) until each player who placed a wager has three cards.

(2) Three cards to the area designated for the placement of the community cards.

(c) After three cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 669a.10. Procedures for dealing the cards from an automated dealing shoe.**

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealing shoe dispensing any stacks, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional

Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of three cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed Ante and Blind Wagers. The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the three community cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine that the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 669a.11. Procedures for completion of each round of play.**

(a) After the dealing procedures required under § 669a.8, § 669a.9 or § 669a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Raise It Up Stud Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(3) A player may not exchange or communicate information regarding his hand prior to the dealer revealing all of the community cards. A violation shall result in a forfeiture of all wagers on that round by that person.

(b) After each player has examined his cards and replaced them face down on the layout, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to check or place a Play Wager in an amount equal to one, two or three times the amount of the player's Ante Wager.

(c) Once all players have either checked or placed a Play Wager, the dealer shall turn over and reveal the first community card and place it in the 4th Street box on the layout.

(d) Each player shall then either check or place a Play Wager in an amount equal to one or two times the amount of the player's Ante Wager.

(e) Once all remaining players have either checked or placed a Play Wager, the dealer shall turn over and reveal the second community card and place it in the 5th Street box on the layout.

(f) Each player shall then either place a Play Wager in an amount equal to the amount of the player's Ante Wager or fold. If a player folds, the Ante and Blind Wagers shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout or Six Card Bonus Wager in which case the cards shall be left on the table until the Six Card Bonus Wager and any Envy Bonus is settled in accordance with subsection (i).

(g) If a player has placed a Progressive Payout or Six Card Bonus Wager but does not make a Play Wager, the player shall forfeit the right to receive a Progressive Payout but does not forfeit the eligibility to receive an Envy Bonus under § 669a.12(e)(5) (relating to payout odds; Envy Bonus; rate of progression) or a Six Card Bonus payout under § 669a.12(f).

(h) Once all remaining players have either placed a Play Wager or folded, the dealer shall turn over and reveal the third community card and place it in the 6th Street box on the layout.

(i) Beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn over and reveal the player's three cards and complete the following applicable procedures in succession for each player:

If a player has won a progressive payout that is not being paid from the

table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(E) Pay any Envy Bonus won in accordance with § 669a.12(e)(5). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Raise It Up Stud Poker table is the holder of an Envy Bonus Qualifying Hand. After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence and include the one joker.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

**§ 670a.5. Shuffle and cut of the cards; procedures for determining the starting position for dealing cards.**

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by the floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, determine the starting position in accordance with subsection (i), then deal the cards in accordance with § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with the procedures in subsections (c)—(e).

(c) Upon completion of a manual shuffle, the dealer shall place the stack of cards on top of one of the cover cards. The dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (d). If no player accepts the cut, the dealer shall cut the cards.

(d) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(e) The player or dealer making the cut shall place the second cover card in the stack at least ten cards from the top or the bottom of the deck. Once the second cover card has been inserted, the dealer shall take the second cover card and all the cards on top of the second cover card and place them on the bottom of the stack. The dealer shall then remove the first cover card and place it on the bottom of the stack. The dealer shall remove one of the cover cards and either place it in the discard rack or use it as an additional cover card to be inserted four cards from the bottom of the deck. The dealer shall then determine the starting position in accordance with subsection (i) and deal the cards in accordance with § 670a.8, § 670a.9 or § 670a.10.

(f) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards, or by the next person entitled to cut the cards, as determined under subsection (d).

(g) If there is no gaming activity at a Six-Card Fortune Pai Gow Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards:

(1) If there is no automated shuffling device in use, the cards shall be mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section.

(2) If an automated shuffling device is in use, the cards shall be stacked and placed into the automated shuffling device to be shuffled. The deck of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the deck of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if the automated card shuffling device stores a single deck of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(i) To determine the starting position for the dealing of cards, the certificate holder shall use one of the following:

(1) A Pai Gow Poker shaker in accordance with the following procedures:

(i) The dealer shall shake the Pai Gow Poker shaker at least three times to cause a random mixture of the dice.

(ii) The dealer shall then remove the lid covering the Pai Gow Poker shaker and place the uncovered shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total.

(iii) To determine the starting position, the dealer shall count each betting position in order, regardless of

whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice.

(iv) After the dealing procedures required under § 670a.8, § 670a.9 or § 670a.10 have been completed, the dealer shall place the cover on the Pai Gow Poker shaker and shake the shaker once. The Pai Gow Poker shaker shall then be placed to the right of the dealer.

(2) A computerized random number generator to select and display a number from 1 to 7. To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner until the count matches the number displayed by the random number generator.

(j) After the starting position for a round of play has been determined, a certificate holder may mark that position with an additional cover card, flat button or similar object.

(a) The rank of the cards used in Six-Card Fortune Pai Gow Poker, in order of highest to lowest, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: queen, king, ace, 2 and 3). (c) When comparing two high hands or two low hands that are of identical hand rank under subsection (b), or contain none of the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not in the other hand, shall be considered the higher ranking hand. If a player uses a joker as the low hand, the player's hand shall be considered the higher ranking hand. If the two hands are of identical rank after the application of this section, the dealer's hand shall be considered the higher ranking hand.

**§ 670a.7. Wagers.**

(a) Wagers at Six-Card Fortune Pai Gow Poker shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the Six-Card Fortune Pai Gow Poker layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Six-Card Fortune Pai Gow Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) Except the Double Down Wager, all wagers at Six-Card Fortune Pai Gow Poker shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except the Double Down Wager, a wager may not be made, increased or withdrawn after the dealer has announced "no more bets."

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place a Six-Card Fortune Pai Gow Poker Wager.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Six-Card Fortune Pai Gow Poker Wager, in accordance with subsection (d), the option of placing the following additional wagers:

- (1) A Double Down Wager equal to the Six-Card Fortune Pai Gow Poker Wager that both the player's high and low hands will beat the dealer's high and low hands.
- (2) A Fortune Bonus Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a three-of-a-kind or better as described in § 670a.6(b) (relating to Six-Card Fortune Pai Gow Poker rankings).
- (3) An Insurance Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a king-high or less.
- (4) A Progressive Payout Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a straight or better as described in § 670a.6(b).
- (f) If specified in its Rules Submission under § 601a.2, a certificate holder may permit a player to wager on two

adjacent betting areas at a Six-Card Fortune Pai Gow Poker table. If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

**§ 670a.8. Procedures for dealing the cards from a manual dealing shoe.**

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player’s wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 670a.5(i).

(d) The dealer shall then deal the first card to the starting position as determined in subsection (c) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards. Each card dealt shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(e) After 6 cards have been dealt to each position and the dealer, the dealer shall remove the stub from the manual dealing shoe and determine whether 11 cards are left by spreading them face down on the layout. The cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(f) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than 6 cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

**§ 670a.9. Procedures for dealing the cards from the hand.**

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player’s wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall then determine the starting position for dealing the cards using one of the procedures authorized under § 670a.5(i).

(c) The dealer shall then deal the first card to the starting position as determined in subsection (b) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards.

(d) After 6 cards have been dealt to each position and the dealer, the dealer shall determine whether 11 cards are left by spreading them face down on the layout. The 11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than 6 cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

**§ 670a.10. Procedures for dealing the cards from an automated dealing shoe.**

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets" and:

(i) If the Fortune Bonus or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures authorized under § 670a.5(i).

(c) After the starting position for delivering the cards has been determined, the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer.

(d) After 6 cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether 11 cards are left by spreading them face down on the layout. The 11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than 6 cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

**§ 670a.11. Procedures for completion of each round of play.**

(a) After the dealing procedures required under § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Six-Card Fortune Pai Gow Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands to be set.

(2) Each player shall keep his six cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.

(b) Each player shall set his hands by arranging the cards into a high hand and a low hand. When setting the two hands, the five-card high hand must be equal to or higher in rank than the one-card low hand.

(c) After all players have examined their cards, the dealer shall offer each player the option to place an additional Double Down Wager equal to the player's Six-Card Fortune Pai Gow Poker Wager.

(d) After all players have set their hands and placed the cards on the table, the six cards of the dealer shall be turned over and the dealer shall arrange his cards into a high and low hand in accordance with the following requirements:

(1) The dealer may not break any sets as described in § 670a.6(b) (relating to Six-Card Fortune Pai Gow Poker rankings) to play a higher card in the dealer's low hand. Once the dealer has played the set, the dealer shall use the highest-ranking card in his low hand. Notwithstanding the following requirements:

(i) If the dealer has two three-of-a-kinds in his hand, the dealer shall play the lower ranking set as the three-of-a-kind and the higher one as a pair to play the higher card in the low hand.

(ii) If the dealer has three pairs, the dealer shall play the two lower ranking pairs as the high hand and the highest ranking card of the third pair as the low hand.

(2) If the dealer has a Six-Card Fortune straight, Six-Card Fortune flush or a Six-Card Fortune straight flush, the dealer shall play the lowest possible straight, flush or straight flush and place the highest ranking card in the low hand.

(3) If the dealer has both a straight and a flush, the dealer shall set the flush as the dealer's high hand.

(4) If the dealer has both a straight and a straight flush, the dealer shall set the straight flush as the dealer's high hand.

(5) If the dealer has both a Six-Card Fortune flush and a straight flush, the dealer shall play the straight flush as the high hand and the remaining card as the dealer's low hand.

(6) If the dealer does not have pairs, straights or flushes, the dealer shall play the highest ranking card, in accordance with § 670a.6(a), in the dealer's high hand, the second highest ranking card as the dealer's low hand and the remaining four cards in the dealer's high hand.

(e) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the high and low hand of each player to the high and low hand of the

dealer and shall announce if the Six-Card Fortune Pai Gow Poker Wager of that player wins, loses or is a tie.

(f) A Six-Card Fortune Pai Gow Poker Wager will:

(1) Lose and will immediately be collected if:

(i) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

(ii) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is identical in rank to the low hand of the dealer.

(iii) The high hand of the player is identical in rank to the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

(iv) The high and low hands of the player are identical in rank to the high and low hands of the dealer.

(v) The high hand of the player was not set so as to rank equal to or higher than the low hand of that player.

(2) Tie and will be returned to the player if:

(i) The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is lower in rank than the low hand of the dealer.

(ii) The high hand of the player is lower in rank than the high hand of the dealer, but the low hand of the player is a joker or is higher in rank than the low hand of the dealer.

(3) Win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is a joker or is higher in rank than the low hand of the dealer. The dealer shall pay the winning Six-Card Fortune Pai Gow Poker Wager in accordance with the payout odds in § 670a.12(a) (relating to payout odds; Envy Bonus; rate of progression).

(g) After settling the player's Six-Card Fortune Pai Gow Poker Wager, the dealer shall settle the player's optional Double Down Wager as follows:

(1) If the dealer's hand contains a pair of eights or better, as described in § 670a.6(b), the Double Down Wager shall win, lose or tie in accordance with subsection (f).

(2) If the dealer's hand does not contain a pair of eights or better, the Double Down Wager shall be returned to the player.

(h) If a player has placed a Fortune Bonus, Insurance or Progressive Payout Wager, the dealer shall rearrange the six cards of any player who placed an optional wager to form the highest ranking hand. If any player at the table has placed a Qualifying Wager, the dealer shall rearrange the cards of all players regardless of whether the player placed a Fortune Bonus or Progressive Payout Wager. After rearranging the player's six cards, the dealer shall:

(1) Settle the player's Fortune Bonus Wager as follows:

(i) If a player:

(A) Placed a Six-Card Fortune Pai Gow Poker Wager but does not have a three-of-a-kind or higher, as described in § 670a.6(b), the dealer shall collect the Fortune Bonus Wager.

(B) Placed a Six-Card Fortune Pai Gow Poker Wager and has a three-of-a-kind or higher, the dealer shall pay the winning Fortune Bonus Wager in accordance with § 670a.12(b). If the player has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying

Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(C) Did not place a Fortune Bonus Wager but has an Envy Bonus Qualifying Hand, and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Fortune Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 670a.12(b) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Six-Card Fortune Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(2) Settle the player's Insurance Wager. If a player has a hand ranked:

(i) Better than a king-high, the dealer shall collect the Insurance Wager.

(ii) A king-high or less, the dealer shall pay the winning Insurance Wager in accordance with § 670a.12(c).

(3) Settle the player's Progressive Payout Wager as follows:

(B) Placed a Progressive Payout Wager and has a straight or better, the dealer shall:

(I) Verify that the hand is a winning hand.

(II) Verify that the appropriate light on the progressive table game system has been illuminated.

(III) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(IV) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 670a.12(d)(1). If a player has won a progressive payout that is a percentage of the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory, the cards of that player shall remain on the table until the necessary documentation has been completed.

(C) Has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Progressive Payout Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 670a.12(d)(4) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Six-Card Fortune Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(i) The dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

(j) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(i) Dealer plays with an ace-king or higher.

(ii) Instant payout for a royal flush or straight flush on the first five cards dealt to the player.

The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Lunar Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

##### § 671a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Lunar Poker shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Lunar Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Lunar Poker shall be changed at least every:

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

#### § 671a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 671a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

#### § 671a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Lunar Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 671a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(b) Only players who are seated at a Lunar Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player

(c) The following wagers may be placed in the game of Lunar Poker:

(3) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Lunar Poker table the option to make an additional Super Wager on the dealer's hand and any other player's hand. After placing an Ante Wager, a player may make the additional Super Wager by placing a value chip on the designated betting area prior to the dealer announcing "no more bets." The additional Super Wager on the dealer or other player's hand may be made in any amount equal to or greater than the table minimum and is not required to be equal to or greater than the player's Ante Wager.

(d) The Ante and Super Wagers shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 671a.11(b) and (d), a wager may not be made, increased or withdrawn after the dealer has announced "no more bets."

(e) A player may not wager on more than one player position at a Lunar Poker table.

#### § 671a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) The dealer shall announce "no more bets" and begin dealing the cards. Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(c) Starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time face down to each player who placed an Ante Wager and to the dealer until each player and the dealer have five cards. The last card of the dealer shall be turned face up on the layout.

#### § 671a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager and to the dealer until each player and the dealer have five cards. The last card of the dealer shall be turned face up on the layout.

**§ 671a.10. Procedures for dealing the cards from an automated dealing shoe.**

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed an Ante Wager. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the dealer. The last card of the dealer shall be turned face up on the layout.

**§ 671a.11. Procedures for completion of each round of play.**

(a) After the dealing procedures required under § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Lunar Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(3) After the dealer announces “all decisions are locked in,” a player may not amend his decision to fold or increase, decrease or place any Bet Wager or Options fee except as provided in subsection (d).

(b) After five cards have been dealt to each player, the player shall examine his cards. If any player’s hand is eligible for a Super Wager or an instant payout, the

player shall declare the winning hand and place his cards face down in the player’s betting area on the layout. Each player shall then elect to:

(1) Fold.

(2) Place a Bet Wager equal to twice the amount of the player’s Ante Wager provided that if any player’s hand contains a royal flush or a straight flush and is eligible for the instant payout, the player shall not place a Bet Wager.

(3) Place an Options fee, equal to the player’s Ante Wager, to buy a sixth card or draw and exchange between two and five of the player’s cards.

(c) After all players have made a decision to either folded, placed a Bet Wager or Options fee, the dealer shall announce “all decisions are locked in.” Once the dealer has announced “all decisions are locked in” a player may not change his decision. Prior to any additional cards being dealt, the dealer shall, beginning with the player to the dealer’s left and continuing clockwise around the table:

(1) If the player did not declare a winning Super Wager, collect the player’s losing Super Wager. If any other player placed a Super Wager on that player’s hand, the dealer shall collect the player’s losing Super Wager first then collect any other player’s Super Wager who placed a Super Wager on that player’s hand.

(2) If the player declared a winning Super Wager, the dealer shall verify the winning hand and payout out the player’s winning Super Wager in accordance with § 671a.12(b) (relating to payout odds). If any other player placed a Super Wager on that player’s hand, the dealer shall pay out the winning player’s hand first then any other player who also placed a Super Wager on that player’s hand in accordance with § 671a.12(b).

(3) If any player is eligible for an instant payout, after verifying the player’s hand, the dealer shall pay the player’s winning Ante Wager in accordance with § 671a.12(a) and place the player’s cards in the discard rack.

(4) For any player who did not make a Bet Wager or Options Wager and folded, the dealer shall collect the player’s Ante Wager and place the player’s cards in the discard rack.

(d) Once all player Super Wagers and instant payouts have been settled and any player’s cards who folded have been collected, beginning with the player to the dealer’s left and moving clockwise around the table, for any player who placed an Options fee equal to the player’s Ante Wager:

(1) The dealer shall collect the Options fee and:

(i) If the player elects to buy the sixth card, the dealer shall deal one additional card.

(ii) If the player elects to exchange cards, the player shall discard between two and five cards, which will thereafter be replaced by dealer with the same number of cards from the deck.

(2) After dealing the additional cards, the player shall create the best possible five-card Poker hand.

(3) The dealer shall then ask the player if the player would like to fold and forfeit the player’s Ante Wager or place a Bet Wager equal to twice the amount of the player’s Ante Wager.

(4) If the player does not make a Bet Wager and forfeits his Ante Wager, the dealer shall collect the Ante Wager and place the player's cards in the discard rack.

(e) After all players have either folded or placed a Bet Wager, the dealer shall reveal the dealer's cards and form the highest ranking five-card Poker hand. The dealer shall then settle any Super Wagers placed on the dealer's hand. Beginning with the first player to the dealer's left who placed a Super Wager on the dealer's hand and continuing clockwise around the table, if the dealer's hand:

(1) Is not eligible for a Super Wager payout, the dealer shall collect each player's losing Super Wager placed on the dealer's hand.

(2) Is eligible for a Super Wager payout, the dealer shall pay the player's winning Super Wager in accordance with § 671a.12(b).

(f) After settling the Super Wager placed on the dealer's hand, if the dealer's hand:

(1) Does not qualify with an ace-king or better, as provided in § 671a.6(b) (relating to Lunar Poker rankings), the dealer shall return the player's Bet Wager, pay the player's Ante Wager in accordance with § 671a.12(c) and place the player's cards in the discard rack.

(2) Qualifies with an ace-king or better, as provided in § 671a.6(b), starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn the cards of each player who placed a Bet Wager face up on the layout and form the highest ranking five-card Poker hand. If the dealer's highest ranking five-card Poker hand is:

(i) Higher in rank than the player's five-card Poker hand, as provided in § 671a.6(b), the dealer shall collect the player's Ante and Bet Wagers and place the player's cards in the discard rack.

(ii) Lower in rank than the player's five-card Poker hand, as provided in § 671a.6(b), the dealer shall return the player's Ante Wager and pay the winning Bet Wager in accordance with § 671a.12(d). If a player's winning hand also contains a second Poker combination, where at least one card in the second combination was not included in the winning combination, the dealer shall pay the second winning Bet Wager in accordance with § 671a.12(d) for the second Poker combination. For example, if a player's winning hand contained two aces, a king, 8 and 9, the player would be paid out for the pair of aces that beat the dealer's hand but would also be paid out for the ace-king. If a player purchased a sixth card, all six cards may be considered for purposes of the second payout.

(iii) Equal in rank with the dealer's hand, as provided in § 671a.6(b), the dealer shall return the player's Ante and Bet Wagers.

(g) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(h) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the cards at least once after every 5 rounds of play to determine if the correct number of cards is still present in the deck. The

dealer shall determine the number of cards by counting the cards face down on the layout. If the count indicates:

(1) That 52 cards are in the deck, the dealer shall place the cards in the discard rack.

(2) That 52 cards are not in the deck, the entire deck of cards shall be removed from the table.

#### § 671a.12. Payout odds.

(a) The certificate holder shall pay an instant payout on a player's Ante Wager in accordance with one of the following paytables, selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

Hand	Paytable A	Paytable B	Paytable C

### § 672a.2. Free Bet Blackjack table; card reader device; physical characteristics; inspections.

(a) Free Bet Blackjack shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Free Bet Blackjack table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.

  - (ii) Insurance pays 2 to 1.

  - (iv) Blackjack Wagers will push if the dealer's hand has a total point count of 22 or other similar language.
  - (v) Surrender is not available on a Free Bet Blackjack table or other similar language. If the language is not inscribed on the layout, a sign specifying that surrender is not available shall be posted at each Free Bet Blackjack table.

(4) If the certificate holder offers the Push 22 Wager, a separate area designated for the placement of the wager for each player.

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Free Bet Blackjack table.

(c) Each Free Bet Blackjack table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Free Bet Blackjack table must have a card reader device attached to the top of the dealer's side of the table. The floorperson assigned to the Free Bet Blackjack table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Free Bet Blackjack table must have a discard rack securely attached to the top of the dealer's side of the table. The height of each discard rack must either:

(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

### § 672a.3. Cards; number of decks; value of cards.

(a) Except as provided in subsection (b), Free Bet Blackjack shall be played with six or eight deck shoes of cards that are identical in appearance and at least one cover card.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Free Bet Blackjack shall be played with at least two shoes of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Free Bet Blackjack table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

(1) Any card from 2 to 10 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.

**§ 672a.4. Opening of the table for gaming.**

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 672a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

**§ 672a.5. Shuffle and cut of the cards.**

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 672a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Free Bet Blackjack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt provided that the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

**§ 672a.6. Wagers.**

(a) Wagers at Free Bet Blackjack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Free Bet Blackjack layout.

(b) After the cards have been shuffled as required under § 672a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

(1) The certificate holder chooses to permit the player to begin wagering again.

(2) A reshuffle of the cards has occurred.

(c) All wagers, except an Insurance Wager under § 672a.8 (relating to Insurance Wager), a wager to double down under § 672a.9 (relating to double down) or a wager on split pairs under § 672a.10 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) A player shall place a Blackjack Wager to participate in a round of play and compete against the dealer's hand.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Blackjack Wager in accordance with subsection (d), the option of placing a Push 22 Wager which shall win if the dealer's hand has a total point count of 22.

(f) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Blackjack Wager in one round of play.

**§ 672a.7. Procedure for dealing the cards; completion of each round of play.**

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 672a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table

shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Blackjack and optional Push 22 Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face up to each box on the layout in which a Blackjack Wager is contained.

(2) One card face up to the dealer.

(3) A second card face up to each box in which a wager is contained.

(4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, if the dealer's first card is an ace, the dealer shall offer the Insurance Wager or even money in accordance with § 672a.8 (relating to Insurance Wager).

(g) If the dealer's first card is an ace or a 10 value card, after the procedures in subsection (f) have been completed, if applicable, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and if a player:

(1) Has a Blackjack, the dealer shall return the player's Blackjack Wager, collect the player's Push 22 Wager and pay out any Insurance Wager, if applicable.

(2) Does not have a Blackjack, the dealer shall collect the player's Blackjack and Push 22 Wagers and pay out any Insurance Wager, if applicable.

(h) If the dealer's up card was not an ace or 10 value card or if the dealer's hole card did not give the dealer Blackjack, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and if the player:

(1) Has Blackjack, the dealer shall announce and pay the Blackjack in accordance with § 672a.11(a) (relating to payout odds) and remove the player's cards. If a player also placed a Push 22 Wager, the dealer shall tuck the player's cards under the player's Push 22 Wager until it is resolved in accordance with subsection (n).

(2) Does not have Blackjack, the player shall indicate whether he wishes to double down as permitted under § 672a.9 (relating to double down), split pairs as permitted under § 672a.10 (relating to splitting pairs), stand or draw additional cards. Players may not surrender in Free Bet Blackjack.

(i) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(j) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having a hard or soft total of 21 may not draw additional cards.

(2) A player electing to double down in accordance with § 672a.9 may draw only one additional card.

(k) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hole card face up.

(l) Except as provided in subsection (m), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21. Any additional cards required to be dealt to the hand of the dealer shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(m) If there are no Push 22 Wagers on the table, a dealer may not draw additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play. If there are Push 22 Wagers still on the table and all player's hands are in excess of 21 or have Blackjack, the dealer shall draw additional cards to settle the Push 22 Wagers.

(n) After all additional cards have been drawn, if the total point count of the dealer's hand:

(1) Is a 22, the dealer shall return all remaining player's Blackjack Wagers, collect any Free Bet lammers, as provided in § 672a.9 and § 672a.10, and pay out any Push 22 Wagers in accordance with § 672a.11(c).

(2) Is not a 22, the dealer shall collect any Push 22 Wagers and settle the player's Blackjack Wagers and Free Bet lammers in accordance with subsections (o)—(q).

(o) A player shall win and be paid in accordance with § 672a.11(a) for the Blackjack Wager and an equivalent amount for each Free Bet lammer, if applicable, if:

(1) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 21 provided that if the total point count of the dealer's hand is 22, the Blackjack Wager shall be returned to the player and any Free Bet lammers shall be collected.

(2) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(p) A Blackjack Wager shall tie and be returned to the player and any Free Bet lammers collected if the total point count of the player's hand is the same as the total point count of the dealer's hand.

(q) A player's Blackjack Wager shall lose and any Free Bet lammers shall be collected if:

(1) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

(2) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(r) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction and then pay off all winning wagers.

(2) Collect each player's losing wagers and pay off each player's winning wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any player's winning wagers by using value chips collected from a losing wager.

(s) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(t) Players and spectators may not handle, remove or alter any cards used to play Free Bet Blackjack.

#### § 672a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips when, because of the limitation of the value of chip denominations, 1/2 the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 672a.11(b) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

(e) Notwithstanding the requirements of subsections (a)—(d), if selected in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer a player who has Blackjack the option to be paid even money on the Blackjack Wager instead of making an Insurance Wager. If the player elects to be paid even money, the dealer shall pay out the Blackjack Wager at odds of 1 to 1 and remove the player's cards provided that if the player also placed a Push 22 Wager, the dealer shall tuck the player's cards under the player's Push 22 Wager until it is resolved in accordance with § 672a.7(n) (relating to procedure for dealing the cards; completion of each round of play).

#### § 672a.9. Double down.

(a) Except when a player has a Blackjack, a player may elect to double down on the first two cards dealt to him or on the first two cards of any split pair. If the total point count of the player's two cards:

(1) Is a hard 9, 10 or 11, the player may double down without placing an additional wager. If a player is doubling down without placing an additional wager, the dealer shall place a Free Bet lammer next to the player's original Blackjack Wager.

(2) Is not a hard 9, 10 or 11, the player may place an additional wager next to the player's original Blackjack Wager which may not exceed the amount of the player's original Blackjack Wager.

(b) If a player elects to double down after splitting pairs, as provided in § 672a.10 (relating to splitting pairs), the player may double down on split pairs as provided in subsection (a).

(c) Upon a player's election to double down, the dealer shall deal one additional card face up and place it sideways on the layout.

(d) The dealer shall then complete the procedure in § 672a.7(i)–(s) (relating to procedure for dealing the cards; completion of each round of play).

**§ 672a.10. Splitting pairs.**

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) If a player elects to split pairs and the player has:

(1) A pair of 10 value cards (10, jack, queen or king), the player shall place an amount equal to the original Blackjack Wager for the split pair.

(2) Any pair other than 10 value cards, the player may split pairs without placing an additional wager. If a player is splitting pairs without placing an additional wager:

(i) The dealer shall place a Free Bet lammer next to the player's original Blackjack Wager.

(ii) The original Blackjack Wager shall move with the first split hand and the Free Bet lammer shall be the wager for the second split hand.

(c) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand. If the first split hand busts and if the player's hand:

(1) Does not contain any Free Bet lammers, the dealer shall collect the losing Blackjack Wager and place the player's cards in the discard rack.

(2) Contains a Free Bet lammer, the player's cards shall be tucked under the original Blackjack Wager until the hand is settled or until the split hand or hands bust as well.

(d) After a second card is dealt to each split pair, the player shall indicate his decision to stand, draw, double down or resplit with respect that hand. A player may resplit any additional pairs, in accordance with subsection (b), for a total of up to four hands.

**§ 672a.11. Payout odds.**

(a) The certificate holder shall pay each winning Blackjack Wager and any Free Bet lammers at odds of 1 to 1 with the exception of player Blackjack which shall be paid at odds of 3 to 2.

(b) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

(c) The certificate holder shall pay out winning Push 22 Wagers based on the dealer's hand at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

<i>Hand</i>	<i>Paytable A</i>	<i>Paytable B</i>
Same suit 22	50 to 1	50 to 1
Same color 22	20 to 1	20 to 1
Other 22	8 to 1	7 to 1

**§ 672a.12. Irregularities.**

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack or in a segregated area of the double shoe.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(f) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 672a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(g) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(h) If after receiving the first two cards the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player's hand dead and return the player's original Blackjack Wager.

(i) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorperson or above, shall continue play.

(j) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(k) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(l) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

*Blackjack*—An ace and any card having a value of 10 dealt as the initial two cards to a player or the dealer.

*Bust*—The total point count of a hand that is greater than 21.

**§ 673a.2. Double Back Jack table; card reader device; physical characteristics; inspections.**

(a) Double Back Jack shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Double Back Jack table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) A separate betting area designated for the placement of the Blackjack Wager for each player.
- (3) A separate betting area designated for the placement of the Second Chance Wager for each player.
- (4) The following inscriptions or other similar language approved by the Executive Director in accordance with § 601a.10(a):
  - (i) Blackjack and Insurance pays 2 to 1.
  - (ii) Dealer shall draw to 16 and stand on all 17s.
  - (iii) Blackjack Wagers will push if the dealer's hand has a total point count of 22, player 21 pays right away, Second Chance pays even money.

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Double Back Jack table.

(c) Each Double Back Jack table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Double Back Jack table must have a card reader device attached to the top of the dealer's side of the table. The floorperson assigned to the Double Back Jack table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Double Back Jack table must have a discard rack securely attached to the top of the dealer's side of the table. The height of each discard rack must either:

(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

**§ 673a.3. Cards; number of decks; value of cards.**

(a) Except as provided in subsections (b) and (c), Double Back Jack shall be played with at least one deck of cards that are identical in appearance and at least one cover card.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Double Back Jack shall be played with at least two decks of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Double Back Jack table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

- (1) Any card from 2 to 10 shall have its face value.
- (2) Any jack, queen or king shall have a value of 10.
- (3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.

**§ 673a.4. Opening of the table for gaming.**

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 673a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

#### § 673a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the

stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 673a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Double Back Jack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section, if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled, if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt if the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

#### § 673a.6. Wagers.

(a) Wagers at Double Back Jack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Double Back Jack layout.

(b) After the cards have been shuffled as required under § 673a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

(1) The certificate holder chooses to permit the player to begin wagering again.

(2) A reshuffle of the cards has occurred.

(c) All wagers, except a Second Chance Wager under § 673a.7(l) (relating to procedure for dealing the cards; completion of each round of play), an Insurance Wager under § 673a.8 (relating to Insurance Wager), a wager to double down under § 673a.10 (relating to double down) or

a wager on split pairs under § 673a.11 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) To participate in a round of play and compete against the dealer's hand, a player shall place a Blackjack Wager.

(e) The certificate holder shall specify in its Rules Submission under § 601a.2 (relating to table games Rules Submissions) the number of adjacent boxes on which a player may place a Blackjack Wager in one round of play.

**§ 673a.7. Procedure for dealing the cards; completion of each round of play.**

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 673a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Blackjack Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face up to each box on the layout in which a Blackjack Wager is contained.

(2) One card face up to the dealer.

(3) A second card face up to each box in which a wager is contained.

(4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt or before any card reader device is utilized, if any player has a Blackjack, the dealer shall settle the player's Blackjack Wager. Starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall pay the winning Blackjack Wager in accordance with

§ 673a.12(a) (relating to payout odds) and place the player's cards in the discard rack.

(g) After paying out any winning Blackjack Wagers in accordance with subsection (f), if the dealer's first card is an ace, the dealer shall offer the Insurance Wager in accordance with § 673a.8 (relating to Insurance Wager).

(h) If the dealer's first card is an ace, king, queen, jack or 10, after all Insurance Wagers have been placed, if applicable, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and each player's Blackjack Wager will be collected.

(i) If the dealer's up card was not an ace or 10 value card or if the dealer's hole card did not give the dealer Blackjack, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and each player shall indicate whether he wishes to surrender, as permitted under § 673a.9 (relating to surrender), double down as permitted under § 673a.10 (relating to double down), split pairs as permitted under § 673a.11 (relating to splitting pairs), stand or draw additional cards.

(j) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(k) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having a hard or soft total of 21 may not draw additional cards.

(2) A player electing to double down may draw only one additional card.

(l) After drawing additional cards in accordance with subsection (k), if the player's hand is greater than 21, the dealer shall ask if the player would like to place a Second Chance Wager to draw one additional card, the value of which will be subtracted from the player's hand. To draw an additional card, the player shall place a Second Chance Wager equal to the amount of the player's current Blackjack Wager. The dealer shall deal one additional card face up and place it sideways on the layout. The value of the second chance card shall be subtracted from the total value of the player's hand. For example, if a player elects to place a Second Chance Wager when the player's hand has a total value of 25 after all additional cards are dealt in accordance with subsection (k), and the player receives a second chance card with a value of 5, the 5 shall be subtracted from the player's hand making the total value of the player's hand a 20. For purposes of the Second Chance Wager, an additional ace drawn is counted as a 1. After drawing the additional second chance card, if the player's hand has a total value:

(1) Greater than 21, the dealer shall collect the player's Blackjack and Second Chance Wagers and place the player's cards in the discard rack.

(2) Of 21, the dealer shall pay the player's winning Second Chance Wager in accordance with § 673a.12(b), return the player's Blackjack Wager and place the player's cards in the discard rack.

(3) Less than 21, the round of play shall continue in accordance with subsection (n).

(m) If a player did not place a Second Chance Wager, after all additional cards have been dealt, if any player's

hand has a total value of 21, the dealer shall pay the player's winning Blackjack Wager in accordance with § 673a.12(a) and place the player's cards in the discard rack.

(n) After settling any player's hand who had a total value of 21, the dealer shall turn the dealer's hole card face up.

(o) Except as provided in subsection (p), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21. Any additional cards required to be dealt to the hand of the dealer shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(p) A dealer shall draw no additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play.

(q) After all additional cards have been dealt to the dealer, if the total point count of the dealer's hand:

(1) Is 22, the dealer shall return all remaining player's Blackjack Wagers and Second Chance Wagers, if applicable.

(2) Is 21 or less, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle the remaining player's hands in accordance with subsections (r) and (s).

(r) In comparing the total point count of the dealer's hand versus the total point count of the player's hand, a player's hand shall:

(1) Win if:

(i) The total point count of the player's hand is less than 21 and the total point count of the dealer's hand is in excess of 21.

(ii) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(2) Tie if the total point count of the player's hand is the same as the total point count of the dealer's hand.

(3) Lose if:

(i) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

(ii) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(s) If a player's hand:

(1) Is a winning hand, in accordance with subsection (r), and the player:

(i) Placed a Second Chance Wager, the dealer shall return the player's Blackjack Wager and pay out the winning Second Chance Wager in accordance with § 673a.12(b).

(ii) Did not place a Second Chance Wager, the dealer shall pay out the winning Blackjack Wager in accordance with § 673a.12(a).

(2) Ties with the dealer's hand, the dealer shall return the player's Blackjack Wager and Second Chance Wager, if applicable.

(3) Loses against the dealer's hand, the dealer shall collect the player's Blackjack Wager and Second Chance Wager, if applicable.

(t) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction and then pay off all winning wagers.

(2) Collect each player's losing wagers and pay off each player's winning wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any player's winning wagers by using value chips collected from a losing wager.

(u) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(v) Players and spectators may not handle, remove or alter any cards used to play Double Back Jack.

**§ 673a.8. Insurance Wager.**

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips, when, because of the limitation of the value of chip denominations, half the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 673a.12(c) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

**§ 673a.9. Surrender.**

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering 1/2 of his wager. All decisions to surrender shall be made prior to the player indicating whether he wishes to double down as permitted under § 673a.10 (relating to double down), split pairs as permitted under § 673a.11 (relating to splitting pairs), stand or draw. If the first card dealt to the dealer:

(1) Is not an ace or 10 value card, the dealer shall immediately collect 1/2 of the wager and return 1/2 to the player.

(2) Is an ace or 10 value card, the dealer will place the player's wager on top of the player's cards. After the Insurance Wager is offered and the card reader device is utilized, the hand will be settled by immediately collect-

ing the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack.

(b) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (a) and § 673a.8 (relating to Insurance Wager).

**§ 673a.10. Double down.**

(a) Except when a player has a Blackjack, a player may elect to double down on the first two cards dealt to him or the first two cards of any split pair. To double down, the player shall place an additional wager next to the player's original Blackjack Wager which may not exceed the amount of the player's original Blackjack Wager. Only one additional card shall be dealt to the hand on which the player has elected to double down.

(b) Upon a player's election to double down, the dealer shall deal the one additional card face up and place it sideways on the layout.

(c) A player may double down after splitting pairs as provided in § 673a.11 (relating to splitting pairs).

**§ 673a.11. Splitting pairs.**

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into a maximum of two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Blackjack Wager. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand. If a player's hand contains an ace and a 10 value card after the player's hand is split and an additional card is dealt, the player shall be paid out for a 21 not a Blackjack.

(c) After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect that hand.

**§ 673a.12. Payout odds.**

(a) The certificate holder shall pay each winning Blackjack Wager at odds of 1 to 1 with the exception of a player Blackjack which shall be paid at odds of 2 to 1.

(b) The certificate holder shall pay out winning Second Chance Wagers at odds of 1 to 1.

(c) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

**§ 673a.13. Irregularities.**

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack or in a segregated area of the double shoe.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(f) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 673a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(g) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(h) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player's hand dead and return the player's original Blackjack Wager.

(i) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorman or above, shall continue play.

(j) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(k) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(l) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Criss-Cross Poker table.

(c) Each Criss-Cross Poker table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Criss-Cross Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

**§ 674a.3. Cards; number of decks.**

(a) Except as provided in subsection (b), Criss-Cross Poker shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Criss-Cross Poker may be played with two decks of cards in accordance with the following requirements:

- (1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.
- (2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.
- (3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

**§ 674a.4. Opening of the table for gaming.**

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 674a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

**§ 674a.5. Shuffle and cut of the cards.**

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

- (1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Criss-Cross Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 674a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

**§ 674a.6. Criss-Cross Poker rankings.**

(a) The rank of the cards used in Criss-Cross Poker shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example, queen, king, ace, 2 and 3). All suits shall be equal in rank.

(a) Wagers at Criss-Cross Poker shall be made by placing value chips, plaques or other Board-approved

table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Criss-Cross Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante Across and Ante Down Wagers shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe). (e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Criss-Cross Poker table the option to make an additional Five Card Bonus Wager that the five community cards will form a hand with a rank of a pair of 6s or better. After placing the Ante Wager required under subsection (d), a player may make an additional Five Card Bonus Wager by placing a value chip onto the designated betting area for that player. A Five Card Bonus Wager will not have a bearing on any other wagers made by the player.

(f) Across, Down and Middle Bets shall be made in accordance with § 674a.11(b), (d) and (f).

(g) A player may not wager on more than one player position at a Criss-Cross Poker table.

**§ 674a.8. Procedure for dealing the cards from a manual dealing shoe.**

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce "no more bets."

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required

Ante Wagers in accordance with § 674a.7(d) (relating to wagers) until each player has two cards.

(e) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 674a.9. Procedure for dealing the cards from the hand.**

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce "no more bets."

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck. The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers) until each player has two cards.

(c) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 674a.10. Procedure for dealing the cards from an automated dealing shoe.**

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets."

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the area designated for the placement of the community cards. The dealer shall spread the stack within the designated area to form a cross with the top card placed in the box furthest from the dealer, the next three cards are placed in the middle row and the bottom card placed in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deliver a stack of two cards face down to each of the players who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers).

(c) After each stack of cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a

player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 674a.11. Procedures for completion of each round of play.**

(a) After the dealing procedures required under § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Criss-Cross Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his two cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place an Across Bet in an amount equal to one to three times the total amount of the player's Ante Across Wager. If a player does not place an Across Bet, the player's Ante Across and Ante Down Wagers shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(c) After each player has made a decision regarding the Across Bet and any forfeited hands have been collected, the dealer shall then turn the two outside community cards in the horizontal row face up on the layout.

(d) After the first two community cards are exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Down Bet in an amount equal to one to three times the total amount of the player's Ante Down Wager. If a player does not place a Down Bet, the player's Ante Across Wager, Ante Down Wager and Across Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(f) After the third and fourth community cards are exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Middle Bet in an amount equal to one to three times the amount of the player's Ante Across or Ante Down Wager. If a

player does not place a Middle Bet, the player's Ante Across Wager, Ante Down Wager, Across Bet and Down Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5). After all remaining players have placed a Middle Bet, each player shall place his cards face down on the appropriate area of the layout.

(g) The dealer shall then turn the middle community card face up on the layout. After all five community cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, turn the two cards of the player face up on the layout. The player's two cards and the three community cards in the horizontal line shall form the player's five-card Across Hand while the player's two cards and the three community cards in the vertical line shall form the player's five-card Down Hand.

(h) The dealer shall settle all wagers of that player by collecting losing wagers and paying winning wagers as follows:

(1) If a player's Across Hand:

(i) Is less than a pair of 6s, the dealer shall collect the losing Ante Across and Across Bet Wagers.

(ii) Is a pair of 6s or better, the dealer shall return or pay out the winning Ante Across wager in accordance with § 674a.12(a) (relating to payout odds) and the Across Bet in accordance with § 674a.12(b).

(2) If a player's Down Hand:

(i) Is less than a pair of 6s, the dealer shall collect the losing Ante Down and Down Bet wagers.

(ii) Is a pair of 6s or better, the dealer shall return or pay out the winning Ante Down Wager in accordance with § 674a.12(a) and the Down Bet in accordance with § 674a.12(b).

(3) If neither of a player's Down or Across Hands contains a pair of 6s or better, the dealer shall collect the losing Middle Bet Wager.

(4) If either of a player's Down or Across Hands contains a pair of 6s or better, the dealer shall pay out the Middle Bet Wager in accordance with § 674a.12(b). The payout shall be based on the higher ranking Across Hand or Down Hand.

(5) After settling the player's other wagers, the dealer shall settle the player's Five Card Bonus Wager, if applicable. If the five community cards form a five-card Poker hand of a pair of 6s or better, the dealer shall pay the winning Five Card Bonus Wager in accordance with § 674a.12(c).

(i) After all wagers of the player have been settled, the dealer shall remove the player's cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

- Sec.  
 675a.1. High Roll Dice table; physical characteristics.  
 675a.2. Wagers; die ranking.  
 675a.3. Dice; shaker.

 675a.5. Payout odds.

**§ 675a.1. High Roll Dice table; physical characteristics.**

(a) High Roll Dice shall be played at a table having betting positions for five players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a High Roll Dice table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) At each betting position:
  - (i) For the Like Kind Boulevard Wagers, seven circles containing the numbers two of a kind through eight of a kind.

(ii) For the Millionaire Row Wagers, two circles containing the numbers nine of a kind and ten of a kind and the inscription “First Roll Side Bet.”

(iii) For the Pip Street Wagers, a depiction of six dice displaying a value of one through six with the two-spot die farthest to the player’s left and the one-spot die farthest to the player’s right.

(iv) An inscription advising players that all Pip Street, Like Kind Boulevard and Extra Roll Wagers must be of equal value.

(v) An extra-roll sensor for the placement of the Extra Roll Wager.

(3) The payout odds, in accordance with § 675a.5 (relating to payout odds), for all permissible wagers offered by the certificate holder. If the payout odds are not on the layout, a sign identifying the payout odds shall be posted at each High Roll Dice table.

(4) A throw box set into the surface of the High Roll Dice table. The throw box layout must contain an area for the placement of dice labeled “Ace” through “Six” with the “Ace” box farthest to the left of the dealer and the “Two” box farthest to the right of the dealer.

(c) The High Roll Dice table must have an electronic system for the placement of Extra Roll Wagers. The electronic system must include:

(1) A wagering device at each betting position that acknowledges or accepts the placement of the Extra Roll Wager.

(2) A device that controls or monitors the placement of Extra Roll Wagers at the gaming table, including a mechanism, such as a lock-out button, that prevents the recognition of any Extra Roll Wager that a player attempts to place after the dealer has announced “no more bets.”

(d) Each High Roll Dice table must have a drop box with a tip box attached on the same side of the gaming

table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g).

**§ 675a.2. Wagers; die ranking.**

(a) All wagers shall be made before the dice are shaken by the dealer.

(b) Wagers shall be made by placing value chips or plaques on the appropriate areas of the layout. Verbal wagers accompanied by cash may not be accepted.

(c) Only players who are seated at a High Roll Dice table may place a wager at the game. Once a player has placed a wager, that player shall remain seated until the completion of the round of play.

(d) For High Roll Dice, a die with a value of 1, or ace, is the highest in rank followed by a 6, 5, 4 and 3, with a 2 being the lowest value die.

(e) The following wagers are authorized in High Roll Dice:

(1) To participate in a round of play, each player shall place a Pip Street Wager on any or all of the depictions of six dice contained at the top of the player's wagering area. For purposes of the Pip Street Wager, the player is wagering on which die face will occur the greatest number of times in the first roll. For example, if a dealer throws:

(i) Three 6s and four 4s, the 4s occurred the most during the first roll.

(ii) Three 6s and three 1s, the 1s occurred the most as an ace has a higher value than a 6 for purposes of High Roll Dice.

(2) After placing a Pip Street Wager, a player may place a Like Kind Boulevard Wager equal to the player's Pip Street Wager on any or all of the numbered circles two through eight. For purposes of the Like Kind Wager, the player is wagering on how many of the most matching dice will be rolled on the first roll. For example, if a dealer throws:

(i) Three 6s and four 1s, the result would be four matching dice, or a four-of-a-kind.

(ii) Five 2s and three 1s, the result would be five matching dice, or a five-of-a-kind.

(3) If a player placed a Like Kind Boulevard Wager, the player may also place on the extra-roll sensor an Extra Roll Wager, equal to the player's Like Kind Boulevard Wager. An Extra Roll Wager will entitle the player to an additional throw of nonmatching dice. For example, if a dealer threw two 6s and four 1s on the first throw and two additional 1s on the second roll, there would be a total of six matching dice, or a six-of-a-kind.

(4) A player may place a Millionaire Row Wager on either or both of the numbered nine or ten circles. For purposes of the Millionaire Row Wager, the player is wagering that all nine or ten dice will match on the first roll. The Millionaire Row Wager may not be more than \$1.

**§ 675a.3. Dice; shaker.**

(a) High Roll Dice shall be played with ten 19 mm dice. Dice used in the play of the game shall comply with § 603a.12(a)(2)—(10) and (d) (relating to dice; physical characteristics) and the receipt and inspection requirements in § 603a.13 (relating to dice; receipt, storage, inspection and removal from use).

(b) High Roll Dice shall be played with a dice shaker, approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment), which shall be used to shake the ten dice to arrive at the winning combinations. The dice shaker shall be designed and constructed to maintain the integrity of the game and must:

(1) Be capable of effectively shaking ten dice. Dice that have been placed in a dice shaker for use in gaming may not remain on a table for more than 24 hours.

(2) Have the name or logo of the certificate holder imprinted or impressed thereon.

(c) The dice shaker is the responsibility of the dealer and may not be left unattended while at the table.

(d) A shaker and ten dice shall be present at the High Roll Dice table for gaming.

**§ 675a.4. Procedure for completion of each round of play.**

(a) After all players have placed their wagers, the dealer shall announce "no more bets" and if any player placed an Extra Roll Wager use the electronic device to prevent the placement of additional Extra Roll Wagers. If any Extra Roll Wagers have been made, the dealer shall collect the wagers and place them in the table inventory container.

(b) The dealer shall cover and shake the shaker containing the dice at least three times to cause a random mixture of the dice. The dealer shall then simultaneously throw the dice into the throw box. A roll of the dice shall be invalid if any of the dice go off the table or if one die comes to rest on top of the other.

(c) In the event any of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the side directly opposite the side that is resting on the chips or other object shall be considered uppermost or skyward. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be placed back in the throw cup, shaken and rethrown.

(d) When the dice come to rest from a valid throw, the dealer shall call out which die of the highest value occurs the most.

(e) After the first roll, the dealer shall announce to the players the matching dice of the highest value. After announcing the winning combination, the dealer shall move all matching dice of the highest value into the corresponding box on the throw box layout. For example, if there were four 5s, three 6s and two 1s and one 4, the dealer shall move the four 5s into the box on the throw layout labeled "Five." To move the dice to the designated area on the throw box layout, the dealer shall leave the dice exposed and may not cover the dice or impede surveillance's ability to view the dice at any time the dice are on the throw box layout.

(f) The dealer shall then settle each player's first roll wagers as follows:

(1) The dealer shall collect the player's losing Pip Street Wagers and pay out all winning Pip Street Wagers in accordance with § 675a.5(a) (relating to payout odds). For example, if a player placed a Pip Street Wager on the 5 die and the 2 die and the dealer threw four 5s, three 6s and two 1s and one 4, the dealer shall collect the losing Pip Street Wager placed on the 2 die and pay out the winning Pip Street Wager placed on the 5 die.

(2) For the Like Kind Wager, if a player:

(i) Did not place an Extra Roll Wager, the dealer shall collect the player's losing Like Kind Boulevard Wagers and pay out any Like Kind Boulevard Wagers in accordance with § 675a.5(b). For example, if the dealer threw four 5s, three 6s and two 1s and one 4, the dealer shall collect all Like Kind Wagers that were not placed on the four-of-a-kind circle and pay out any winning wagers that were placed on the four-of-a-kind circle.

(ii) Also placed an Extra Roll Wager, the dealer shall pay out any winning Like Kind Boulevard Wagers in accordance with § 675a.5(b) and collect a player's losing Like Kind Boulevard Wagers that have no possibility of winning with an extra roll. For example, if a player wagered on the three-of-a-kind, a four-of-a-kind and a five-of-a-kind and a four-of-a-kind was thrown on the first throw, the dealer shall pay the winning four-of-a-kind, collect the Like Kind Wager placed on the three-of-a-kind and leave the player's wager on the five-of-a-kind on the table layout until it is resolved in accordance with subsection (g).

(3) The dealer shall then settle the player's Millionaire Row Wagers by collect any losing wagers and pay out any winning wagers in accordance with § 675a.5(c). For example, if nine matching dice were thrown on the first throw, the dealer shall collect all Millionaire Row Wagers that were not placed on the nine-of-a-kind and pay out any winning Millionaire Row Wagers that were placed on the nine-of-a-kind circle.

(g) If any player placed an Extra Roll Wager, the dealer shall then collect all dice except those of the highest value that were placed on a designated number on the throw box layout and place them in the shaker. For example, if the dealer threw three 6s, three 4s, two 2s and two 1s in the first throw, the three 6s would be placed on the "Six" in the throw box layout. The dealer would collect the three 4s, two 2s and the two 1s, place them in the shaker, shake and throw the remaining dice in accordance with subsections (b) and (c).

(h) When the dice come to rest from a valid throw, the dealer shall call out the number of additional dice that match the highest number of matched dice thrown in the first throw. For example, if after the first throw three 6s were placed on the "Six" in the throw box layout and on the second throw an additional two 6s were thrown, the extra roll would result in a total of a five-of-a-kind. The dealer shall collect any losing Like Kind Boulevard Wager and pay out any winning Extra Roll Wagers, or Second Roll Wagers, in accordance with § 675a.5(d), provided that if a player was paid out on a winning Like Kind Wager after the first roll, the player may not be paid out on the second roll for the same number. For example, if a player placed a winning Like Kind Wager on the four-of-a-kind and if no additional matching dice were thrown on the second roll, the player may not be paid out for the four-of-a-kind for the Extra Roll Wager.

**§ 675a.5. Payout odds.**

(a) The certificate holder shall pay out winning Pip Street Wagers at the following odds:

<i>Die Value with Most Matches</i>	<i>Payout Odds</i>
Two	6 to 1
Three	6 to 1

**§ 676a.2. Go Fore It table physical characteristics.**

(a) Go Fore It shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for Go Fore It shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) Separate betting areas designated for the placement of the Skins, Gopher, Front 9 and Back 9 Wagers for each player.
- (3) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds for all permissible wagers shall be posted at each Go Fore It table.

(4) An inscription indicating that the Skins Wager will be lost if the dealer's hand and the player's hand ties. If the information is not inscribed on the layout, a sign which sets forth the required information shall be posted at each Go Fore It table.

(c) Each Go Fore It table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Go Fore It table must have a discard rack securely attached to the top of the dealer's side of the table.

**§ 676a.3. Cards; number of decks.**

(a) Except as provided in subsection (b), Go Fore It shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Go Fore It may be played with two decks of cards in accordance with the following requirements:

- (1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.
- (2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.
- (3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.
- (4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Go Fore It shall be changed at least every:

- (1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

**§ 676a.4. Opening of the table for gaming.**

(a) After receiving one deck or two decks of cards at the table, the dealer shall inspect the cards for defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 676a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

**§ 676a.5. Shuffle and cut of the cards.**

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal or deliver the cards in accordance with § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover

card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Go Fore It table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 676a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

**§ 676a.6. Go Fore It rankings.**

The point value assigned to the cards used in Go Fore It shall be:

<i>Card</i>	<i>Point Value</i>
Ace	1
Jack, queen, king	10
2 through 10	Face value

**§ 676a.7. Wagers.**

(a) Wagers at Go Fore It shall be made by placing value chips or plaques on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Go Fore It table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Back 9 Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 676a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Go Fore It:

- (1) A Front 9 Wager, which is required to participate in a round of play.
- (2) A Back 9 Wager equal to the player’s Front 9 Wager which is required to continue in the round of play after the player views his first to cards.
- (3) An optional Skins Wager to compete against the total point count of the dealer’s hand.

(4) A Gopher Wager that the player’s four cards will contain an ace.

(e) A player may not wager on more than one player position at a Go Fore It table.

**§ 676a.8. Procedure for dealing the cards from a manual dealing shoe.**

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers) until each player who placed the required Front 9 Wager and the dealer has four cards. The first two cards dealt to the player shall be placed in front of the player. The second two cards dealt to the player shall be dealt behind the front two cards and shall be the player’s hole cards. Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(c) After two stacks of two cards have been dealt to each player and four cards to the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 676a.9. Procedure for dealing the cards from the hand.**

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

- (1) An automated shuffling device shall be used to shuffle the cards.
- (2) After the procedures required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to

use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) Prior to dealing the cards, the dealer shall announce "no more bets" and starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers) until each player who placed the required Front 9 Wager and the dealer has four cards. The first two cards dealt to the player shall be placed in front of the player. The second two cards dealt to the player shall be dealt behind the front two cards and shall be the player's hole cards.

(c) After two stacks of two cards have been dealt to each player and four cards to the dealer, except as provided in subsection (d), the dealer shall remove the stub from the manual dealing shoe and place the stub in the discard rack without exposing the cards.

(d) If the automated card shuffling device does not count the number of cards in the deck after the completion of each shuffle and indicate whether 52 cards are present, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 676a.10. Procedures for dealing the cards from an automated dealing shoe.**

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealer delivering any stacks of cards dispensed by the automated dealing shoe, the dealer shall announce "no more bets."

(b) The dealer shall deliver the first stack of four cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers). The dealer shall then move the top two cards and place them face down behind the player's front two cards. The top two cards shall be the player's hole cards. Moving clockwise around the table, as the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall repeat the dealing procedure outlined above to each of the other players who has placed a Front 9 Wager in accordance with § 676a.7(d)(1). The dealer shall then deliver a stack of four cards face down as the dealer's hand.

(c) After each stack of four cards has been dispensed and delivered in accordance with subsection (b), the

dealer shall remove the remaining cards from the automated dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If the automated card shuffling device does not count the number of cards in the deck after the completion of each shuffle and indicate whether 52 cards are present, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 676a.11. Procedures for completion of each round of play.**

(a) After the dealing procedures required under § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine the player's closest two cards subject to the following limitations:

(1) Each player who wagers at a Go Fore It table shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(b) After each player has examined his first two cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table ask each player if he wishes to make a Back 9 Wager in an amount equal to the player's Front 9 Wager or fold and forfeit the player's Front 9 Wager.

(c) After each player who placed a Front 9 Wager has either placed a Back 9 Wager on the designated area of the layout or forfeited his Front 9 Wager, the dealer shall collect all forfeited Front 9 Wagers and if the player:

(1) Did not place a Skins or Gopher Wager, collect the player's cards and place them face down in the discard rack.

(2) Placed a Gopher or Skins Wager, the dealer shall collect the player's four cards and place them face down under the player's Skins or Gopher Wagers are until settled in accordance with subsection (d).

(d) The dealer shall then reveal the dealer's four cards and place them face up on the layout. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the four cards of each player who placed a Back 9, Skins or Gopher Wager face up on the layout.

(2) The dealer shall add together the point value of all four of the player's cards.

(3) For all players who placed Front 9 and Back 9 Wagers, if the total point value of all four cards:

(i) Is equal to or less than par, the player shall be paid out on a winning Front 9 Wager in accordance with § 676a.12(a) (relating to payout odds) and a winning Back 9 Wager in accordance with § 676a.12(b).

(ii) Is greater than par, the dealer shall collect the player's losing Front 9 and Back 9 Wagers.

(4) For all players who placed a Skins Wager, if the total point value of the player's hand:

(i) Is equal to or greater than the total point value of the dealer's hand, the dealer shall collect the player's losing Skins Wager.

(ii) Is less than the total point value of the dealer's hand, the dealer shall pay the winning Skins Wager in accordance with § 676a.12(c).

(5) For all players who placed a Gopher wager, if any of the player's four cards:

(i) Is not an ace, the dealer shall collect the player's losing Gopher Wager.

(ii) Is an ace, the dealer shall pay the player's winning Gopher Wager in accordance with § 676a.12(d).

(e) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

**§ 676a.12. Payout odds.**

(a) A certificate holder shall pay winning Front 9 Wagers at odds of 1 to 1.

(b) A certificate holder shall pay winning Back 9 Wagers in accordance with the following odds:

<i>Hand-Total Point Value</i>	<i>Payout</i>
Albatross (8 or less)	25 to 1
Eagle (9—13)	5 to 1
Birdie (14—18)	2 to 1
Par (19—24)	1 to 1

(c) A certificate holder shall pay winning Skins Wagers at odds of 1 to 1.

(d) A certificate holder shall pay winning Gopher Wagers at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

<i>Number of Aces</i>	<i>Paytable A</i>	<i>Paytable B</i>
4	1,000 to 1	1,000 to 1
