## DEPARTMENT OF AGRICULTURE

### Interstate and General Quarantine Order; Virus Control for Highly Pathogenic Avian Influenza Vehicle, Container and Material Standards

#### *Recitals.*

A. Under the authority established in the Domestic Animal Law (3 Pa.C.S.A. §§ 2301—2389) and specifically the authority to establish quarantine orders as set forth at section 2329 of the Domestic Animal Law (3 Pa.C.S.A. §§ 2329(a), 2329(c) and 2329(d)), the Pennsylvania Department of Agriculture (Department) hereby establishes an Interstate and General Quarantine Order related to

Standard Operating Procedures to be followed and standards for vehicles, conveyances, containers, and materials utilized to:

1. Transport poultry, poultry waste, poultry manure or live or unprocessed goods or products of poultry or any combination of those into, within, through or from the Commonwealth of Pennsylvania, and

2. Deliver or distribute poultry, poultry waste, poultry manure or live or unprocessed goods or products of poultry or any combination of those into or within the Commonwealth of Pennsylvania, and

3. Pickup poultry, poultry waste, poultry manure or live or unprocessed goods or products of poultry or any combination of those from any premises in the Commonwealth of Pennsylvania.

4. Transport, deliver, pickup or distribute poultry, poultry waste, poultry manure or live or unprocessed goods or products of poultry or any combination of those between poultry operations or premises within the Commonwealth of Pennsylvania.

5. With regard to poultry waste and poultry manure this Order shall apply to any vehicle, conveyance or container utilized in the movement or application of poultry waste or poultry manure into, within, through or from the Commonwealth.

B. This Interstate and General Quarantine Order is established to address all highly pathogenic avian influenza strains, including the H5N2 and H5N8 avian viruses that have developed into a virulent form of the disease. These sub-types are easily spread, and may mutate into strains that are communicable to or among humans.

C. Avian influenza is designated a "dangerous transmissible disease" of animals under the provisions of the Domestic Animal Law (3 Pa.C.S.A. §§ 2301—2389), at 3 Pa.C.S.A. § 2321(d).

D. The Department has broad authority under the Domestic Animal Law to regulate the keeping and handling of domestic animals, conveyances, containers, goods, products and materials, in interstate and intrastate commerce, in order to exclude, contain or eliminate dangerous transmissible diseases, including prohibiting the shipment or movement of such products.

E. Avian Influenza, including the current virulent strains of HPAI, may be transferred and spread through the movement of unwashed or un-sanitized vehicles, conveyances, containers, goods, products and materials.

F. Avian Influenza has caused significant loss in the past to the Pennsylvania poultry industry and the current virulent forms of the disease have caused wide-spread loss to the poultry industry in states in which it has been detected and confirmed.

G. Highly Pathogenic Avian Influenza is of particular concern to the entire Pennsylvania poultry industry as it may cause wide-spread loss of poultry, severely limit the market for Pennsylvania product and cause severe economic damage to the poultry industry in Pennsylvania.

H. The Domestic Animal Law allows, at 3 Pa.C.S.A. § 2329(c), for an Interstate Quarantine Order to be established and enforced for any place or places outside of the Commonwealth where a dangerous transmissible disease has been reported or exists, or whenever it is deemed advisable to test or treat any domestic animal upon the reasonable suspicion that it has contracted or been exposed to a dangerous transmissible disease or

whenever the testing or treatment of a domestic animal indicates that the domestic animal has been exposed to a dangerous transmissible disease. In addition, an Interstate Quarantine Order may apply to goods, products, facilities, containers, vehicles or materials that may carry a dangerous transmissible disease or be contaminated with a hazardous substance.

I. The Domestic Animal Law allows, at 3 Pa.C.S.A. § 2329(d), for a General Quarantine Order to be established and enforced for any area or locality within this Commonwealth where a dangerous transmissible disease has been reported or exists, or whenever it is deemed advisable to test or treat any domestic animal upon the reasonable suspicion that it has contracted or been exposed to a dangerous transmissible disease or whenever the testing or treatment of a domestic animal indicates that the domestic animal has been exposed to a dangerous transmissible disease. In addition, a General Quarantine Order may apply to goods, products, facilities, containers, vehicles or materials that may carry a dangerous transmissible disease or be contaminated with a hazardous substance.

#### *Order.*

In consideration of the previous recitals, and with those recitals incorporated into this Order by reference, the Department hereby establishes an Interstate and General Quarantine under authority of the Domestic Animal Law, at 3 Pa.C.S.A. § 2329(c), and section 1702 of The Administrative Code of 1929 (71 P. S. § 442). The following are the conditions and requirements of this Interstate and General Quarantine Order:

1. *Quarantine Area.* The area covered by this Interstate and General Quarantine Order is the entire Commonwealth.

2. *Applicability.* The terms of this Order are applicable to the Quarantine Area.

#### UNDER ACT 2, 1995 PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and ap-

proved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

##### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public re-

view during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

On February 19, 2013, the Department issued a revised Plan Approval 08-00045A for corrections to the owner's and the facility's names. On July 9, 2013, the Department issued a revised Plan Approval 08-00045A to change the expiration date to reflect the construction completion date as specified by the company. The expiration date of the plan approval was revised to November 1, 2016. On September 9, 2013, the Department received a letter from Panda Liberty LLC informing the Department that Moxie Liberty, LLC had been purchased by Panda Liberty LLC with no change in the federal Tax ID number and that the facility should be identified as the Panda Liberty Power Project. On May 6, 2014, a revised Plan Approval 08-00045A was issued to incorporate name changes and contact persons, as specified on page 1 of the plan approval.

Pursuant to Conditions 045 for Source IDs P103 and P104 in the plan approval, the permittee shall purchase and apply 232.7 tons per year of nitrogen oxide (NO<sub>x</sub>) emission reduction credits (ERCs) and 69.2 tons per year of volatile organic compound (VOC) ERCs prior to the commencement of operation of Source IDs P103 and P104 at the facility to offset the total of the net increase in potential to emit. On December 13, 2013, the Department issued plan approval application (08-00045B) to Panda Liberty LLC to incorporate the 232.7 tons of NO<sub>x</sub> ERCs and 33.82 tons of VOC ERCs into a plan approval to make the ERCs Federally enforceable prior to the ERCs expiring. On July 6, 2015, the Department received a plan approval application to incorporate the remaining 35.38 tons of VOC ERCs into Plan Approval 08-00045B. All conditions currently in Plan Approval 08-00045B will remain in the plan approval. The VOC ERCs were purchased from Bennington Paperboard Company located in Rensselaer County, New York. The VOC ERCs are set to expire August 20, 2018. The Department intends to issue Plan Approval 08-00045B to Panda Liberty LLC to incorporate 35.38 tons of VOC ERCs for the Panda Liberty Power Project located in Asylum Township, Bradford County.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. **41-00084B: Panda Patriot, LLC** (5001 Spring Valley Road, Suite 1150 West, Dallas, TX 75244) to incorporate 62.38 tons per year of volatile organic compounds (VOC) ERCs prior to the commencement of operation of Source IDs P103 and P104. The proposed facility's Plan Approval 41-00084A was issued on January 31, 2013, to Moxie Energy LLC for construction of a natural-gas-fired combined-cycle power plant to produce approximately 900 MWs at the Moxie Patriot Generation Plant in Clinton Township, **Lycoming County**. On January 30, 2014, the Department received notice from Panda Patriot, LLC, informing the Department that Moxie Patriot, LLC had been purchased by Panda Patriot, LLC with no change in the federal Tax ID number and the facility should be identified as the Panda Patriot Generation Plant. The Department issued a revision of Plan Approval 41-00084A on March 25, 2014, to incorporate the name change for the facility.

Pursuant to Conditions 047 for Source IDs P103 and P104 in the plan approval, the permittee shall purchase and apply 242 tons per year of nitrogen oxide (NO<sub>x</sub>) emission reduction credits (ERCs) and 69.2 tons per year of volatile organic compound (VOC) ERCs prior to the commencement of operation of Source IDs P103 and P104 at the facility to offset the total of the net increase in potential to emit. On August 7, 2014, the Department issued plan approval application (41-00084B) to Panda Patriot LLC to incorporate the 242 tons of NO<sub>x</sub> ERCs and 6.82 tons of VOC ERCs into a plan approval to make the ERCs federally enforceable prior to the ERCs expiring. On July 6, 2015, the Department received a plan approval application to incorporate the remaining 62.38 tons of VOC ERCs into Plan Approval 41-00084B. All conditions currently in Plan Approval 41-00084B will remain in the plan approval. The VOC ERCs were purchased from International Paper Company located in Erie County, Pennsylvania due to over controlling the VOC emissions at their facility. The Department intends to issue Plan Approval 41-00084B to Panda Patriot LLC to incorporate 62.38 tons of VOC ERCs for the Panda Patriot Generation Plant located in Clinton Township, Lycoming County.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. The following permit applications to conduct mining activities have been received by the Department. A copy of the application is available for inspection at the district mining office indicated before each application. Notices of requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application and request for Section 401 water quality certification application may be submitted by any person or any officer or head of any Federal, state or local government agency or authority to the Depart-

ment at the address of the district mining office indicated before each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. #### *Noncoal Applications Received*

*Effluent Limits*—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

<i>Parameter</i>	<i>Table 2</i>		
	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

*Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

*Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

To construct and maintain: 1) a 80-foot long by 48-inch diameter HDPE culvert with associated wingwalls and road fill in an unnamed tributary of Buffalo Run for a public road crossing, 2) utility lines buried in the road fill, 3) a 150-foot wide 1,308-foot long stream buffer for a proposed 10 lot subdivision located on the south side of SR 550 1.6 mile from SR 322. This project proposes to: 1) temporarily impact 10 linear feet of the unnamed tributary of Buffalo Run and 0.002 acre of wetland, 2) permanently impact 140 linear feet of the unnamed tributary of Buffalo Run and 0.025 acre of wetland with the stream being classified as High Quality-Cold Water Fishery and the wetlands being classified as Exceptional Value.

**E19-308. SEDA-COG Joint Rail Authority**, 201 Furnace Road, Lewisburg, PA 17837. Unnamed Tributary to Susquehanna River Stabilization/Restoration/Bridge Replacement in Montour Township, **Columbia County**, ACOE Baltimore District (Catawissa, PA Quadrangle Latitude: 40° 57' 8"; Longitude: -76° 29' 1.0").

The proposed project intends to stabilize the existing stream banks and restore a more natural pattern, profile and dimension to the Unnamed Tributary to the Susquehanna River, which carries a water quality designation of Cold Water Fishery with Migratory Fishes. The restorative efforts will begin at the outlet of SR 4002 (Legion Road) culvert outlet and extend 175 linear feet downstream to the proposed single span steel, thru-girder bridge structure. This is to correct a severe scour and steep slope directly below the outlet of the culvert. The design utilizes four rock vein weirs spaced 25 feet apart for 100 linear feet. Each structure will not exceed a 1 foot 3 inch plunge on the downstream end to enable aquatic passage. The remaining 75 linear feet will establish a slight meander bend in the stream channel to mimic a

more natural stream pattern. This meander will increase the length of stream in this reach more than the existing conditions, allowing the slope to be reduced slightly. Toe rock protection will be included along both sides of the stream to assist in stability. The bridge structure will increase the hydraulic opening from 17.57 SF to 44.64 sf; increase the clear span from 5.16 ft. upstream/6.5 ft. downstream to 15.08 ft. Since this structure has a U-shaped substructure it is treated as a box culvert and has incorporated baffles to offset flow through the structure along with retention of natural stream bed material. Beyond the crossing, the existing alignment remains. The design calls for 150 line feet of natural material rock bank revetment along the outside or left bank. The natural material rock bank revetment incorporates footer logs, root wads, rock riprap and live stakes. Upon completion of the construction work the project shall be planted with a number of shrub and tree species for shading and bank stability. This project is located 0.6 mile west along SR 4002 (Legion Road) from the intersection with SR 0042, Montour Township, Columbia County.

**F19-015 Catawissa Borough**, 307 Main Street, Catawissa, PA 17820. Floodplain encroachment demolitions (2) at two different sites in the Borough of Catawissa, **Columbia County**, US ACOE Baltimore District. Catawissa Borough is seeking authorization to demolish existing floodplain encroachments (flood damaged structures) and to re-grade the floodplain at the following locations:

136 North First Street, Catawissa, PA 17820—Catawissa Quadrangle, Lat.: 40° 57' 15" N, Long.: -76° 27' 51" W

117 South Street, Catawissa, PA 17820—Catawissa Quadrangle, Lat.: 40° 57' 08" N, Long.: -76° 27' 54" W.

**E53-447. Pennsylvania Historical and Museum Commission**, 400 North Street, Room N118, Harrisburg, PA 17120-0211. PHMC Pennsylvania Lumber Museum Mill Pond Commissioner Run Water Intake and Supply Pipeline Project. Ulysses Township, **Potter County**, ACOE Baltimore District (Brookland, PA Quadrangle, Latitude: 41° 46' 50"; Longitude: -77° 49' 48.2").

The applicant is seeking authorization to (1) abandon an existing water intake structure; (2) construct, operate and maintain an in-stream intake structure and supply pipeline in and along Commission Run for water supply to the mill pond at the Pennsylvania Lumber Museum.

Commissioner Run is designated as a High Quality—Cold Water Fishery and Migratory Fish by Department Chapter 93, Rules and Regulations. The water intake structure within the stream shall be constructed as single log cross vane with a six inch diameter pipe affixed along the vane arm and in the throat of the log structure. The water supply pipeline shall be constructed below existing overbank grades with a six-inch diameter pipe and a value box. Since Commissioner Run is Class A wild trout fishery, no in-stream construction or intake repair shall be conducted between October 1 and April 14 without prior written approval of the Pennsylvania Fish & Boat Commission. As proposed, the water intake structure will permanently impact 20-feet of stream impact; whereas, 70-foot of stream will be temporarily impacted during construction. Neither the water intake structure nor supply pipeline impacts wetland. The project is located along the northern right-of-way of SR 0006 at the intersection of Denton Hill State Park and SR 0006. **EA49-004. Anthracite Outdoor Adventure Area Authority**, Abandoned Mine Drainage Treatment Project, 2.5 miles west of Shamokin in Bear Valley between State Routes 225 and 2044, Shamokin, PA 17872. Carbon Run Bluegill Pond discharges, Carbon Run watershed, Zerbe Township, **Northumberland County**, ACOE Baltimore District.

The Northumberland County Anthracite Outdoor Adventure Area Authority (AOAAA) is proposing a passive abandoned mine drainage (AMD) remediation project for the headwaters and tributaries to Carbon Run. As proposed, the system will consist of three separate treatment systems. The Bluegill Pond Upper site will convert an AMD pool into an anoxic limestone cell followed by a settling basin. Bluegill Pond Lower is the second site and will collect AMD seeps in a limestone-filled basin followed by a settling pond and aerobic polishing wetland. The last site is located in the headwaters of Carbon Run and consists of placing limestone at the downstream end of an abandoned mining pit called Aluminum

Pond and its discharge channel as well as a small AMD pool to provide the necessary alkalinity. As proposed the applicant states that these projects will remove up to 90% of the metals and acidity in these areas. This work will have the following impacts:

<i>Activity</i>	<i>Latitude</i>	<i>Longitude</i>	<i>Resource</i>	<i>Impact / Temporary or Permanent</i>
Limestone Cell	40° 46' 42.4" N	-76° 37' 29.1" W	Stream	45 LF/Permanent
Limestone Cell	40° 46' 36.9" N	-76° 37' 34.2" W	Wetland	1,238 SF/Permanent
Limestone Cell	40° 46' 36.9" N	-76° 37' 34.2" W	Stream	357 LF/Permanent
Limestone Cell	40° 46' 08.3" N	-76° 38' 08.6" W	Stream	320 LF/Permanent
Limestone Cell	40° 46' 08.3" N	-76° 38' 08.6" W	Wetland	780 SF/Permanent

Mitigation for these impacts is a combination of the creation of a polishing wetland adjacent to the treatment system and downstream water quality improvement in the Carbon Run watershed. Under current conditions, there is very limited aquatic life in these areas due to elevated metals and a low pH.

(Trevorton Quadrangle; Latitude 40° 46' 36.9" N; Longitude -76° 37' 34.2" W).

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate

that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup

standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. Has been given consent to:

1. dredge an approximately 9.9 acres area of Canonsburg Lake (HQ-WWF);
2. construct and maintain within an approximately 6.2 acres area of the lake: a) a 105' (L) x 25' (W) x 2.5' (H) submerged weir, b) a sediment forebay, including a 1,342' (L) x 25' (W), berm within the lake that is approximately 2' above the normal pool elevation of 918 and c) an approximately 1,550' long auxiliary channel, which will also impact a deminimus amount of wetland (0.04 acre);
3. construct and maintain two (2) boat access ramps on either side of the submerged weir;
4. construct and maintain an access road along the sediment forebay, within the lake,
5. construct and maintain, as another component of the aforementioned access road, Culvert #1, consisting of two (2) 48" diameter culverts, with the one of the inverts

depressed a minimum of 6" below the natural stream bed, within an unnamed tributary to Little Chartiers Creek (a.k.a. UNT-3), which will impact approximately 120 linear feet of UNT-3 (HQ-WWF), and Culvert #3, which will impact a de minimus amount (> 0.01 acre) of Wetland WCL 10.

During the dredging and sediment forebay construction, approximately 70,000 cubic yards of accumulated sediment will be removed from the lake. Land-based excavators will be used to construct the sediment forebay; while, a barge mounted excavator will be used to dredge the lake. This project is the initial phase of the Canonsburg Lake Aquatic Ecosystem Restoration Project, which will ultimately affect approximately 37.5 acres of the lake, for the purpose of restoring recreation and deep water aquatic habitat in portions of the lake. The project is located near where McDowell Lane crosses Canonsburg Lake (USGS Quadrangle: Canonsburg, PA and Bridgeville, PA; Latitude: 40° 16' 3.67"; Longitude: -80° 7' 55.03"), in North Strabane and Peters Townships, Washington County.

1. A 28' wide, 9' tall, 77' long box culvert crossing of an unnamed tributary to Chartiers Creek (WWF),
2. An 8" diameter PVC sanitary sewer line crossing of the same unnamed tributary to Chartiers Creek,
3. A 15" HDPE stormwater outfall structure that discharges to the aforementioned tributary,
4. 0.07 acre of PEM/PSS wetland fill associated with a road crossing,
5. A 40 linear foot emergency road stream crossing of another UNT to Chartiers Creek (WWF),
6. An 8" diameter PVC sanitary sewer line crossing of the aforementioned tributary,
7. One (1) 15", 3' long HDPE storm sewer line crossing of the aforementioned tributary, and
8. A 16' long, 8' wide walking bridge crossing of the aforementioned tributary.

Cumulatively, the proposed features will permanently impact approximately 153 linear feet, and temporarily impact 20 linear feet of unnamed tributaries to Chartiers Creek (WWF), and 0.07 acre of PEM/PSS wetlands. A 0.17 acre wetland replacement area is proposed to compensate for permanent wetland impacts. The project is located near the intersection of Country Club Road (S.R. 1045) and Kirk Lane (USGS Washington East Quadrangle; N: inches; W: inches; Lat: 40° 12' 06.67"; Long: -80° 14' 31.63"), in South Strabane Township, Washington County. #### Proposed State Implementation Plan Revision; 2011 Base Year Emissions Inventory for the Allentown-Bethlehem-Easton, Lancaster, Philadelphia-Wilmington-Atlantic City (Pennsylvania Portion), Pittsburgh-Beaver Valley and Reading Nonattainment Areas for the 2008 8-Hour Ozone National Ambient Air Quality Standards; Public Comment and Hearings

On March 27, 2008, the United States Environmental Protection Agency (EPA) published a final rule establishing revised primary and secondary 8-hour ozone National Ambient Air Quality Standards (NAAQS) of 75 parts per billion. See 73 FR 16436 (March 27, 2008). Subsequently, the EPA designated ozone nonattainment areas for the 2008 ozone NAAQS and classified 36 areas in the country including Allentown-Bethlehem-Easton, Lancaster, Philadelphia-Wilmington-Atlantic City (Pennsylvania portion), Pittsburgh-Beaver Valley and Reading as marginal nonattainment areas. See 77 FR 30088 (May 21, 2012).

The Department of Environmental Protection (Department) is seeking public comment on the proposed State Implementation Plan (SIP) mandated under sections 172(c)(3) and 182(a)(1) of the Clean Air Act (42 U.S.C.A. §§ 7502(c)(3) and 7511a(a)(1)), which require the submission of “a comprehensive, accurate, current inventory of actual emissions from all sources of the relevant pollutant or pollutants in such area.” This SIP revision contains the comprehensive 2011 Base Year Emissions Inventory for the previously mentioned nonattainment areas for the 2008 ozone NAAQS.

The proposed SIP revision meets the requirements necessary for an approvable SIP revision, including a detailed explanation of the 2011 base year emissions inventory for stationary, area, nonroad and mobile anthropogenic sources as well as biogenic sources in the areas in this Commonwealth that the EPA designated as nonattainment for the 2008 ozone NAAQS. The proposed

anthropogenic emissions were estimated for volatile organic compounds, oxides of nitrogen and carbon monoxide for both annual and a typical ozone season day emissions. The final SIP revision will be submitted to the EPA for approval.

The proposed SIP revision is available in the Department’s eLibrary at [www.dep.state.pa.us](http://www.dep.state.pa.us) (select “Tools,” then “eLibrary,” then “Publications,” then “Air Quality,” then “State Implementation Plan—SIP—Revisions”) or through the contact person listed as follows.

## INDEPENDENT REGULATORY REVIEW COMMISSION

### Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

#### **Philadelphia Parking Authority Regulation #126-11 (IRRC #3103)**

##### **Modern Taxicab Standards**

**August 12, 2015**

We submit for your consideration the following comments on the proposed rulemaking published in the June 13, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Philadelphia Parking Authority (PPA) to respond to all comments received from us or any other source.

#### **1. Whether the regulation represents a policy decision of such a substantial nature that it requires legislative review.**

The Preamble to this rulemaking states that the purpose of this proposal is to improve the quality and capability of taxicabs in Philadelphia. This will be accomplished by requiring all vehicles proposed for medallion taxicab service and 25 percent of each carrier's fleet of partial-rights taxicabs to be wheelchair accessible. In addition, the proposal will require all vehicles brought into taxicab service to be late model vehicles with less than 500 miles on the odometer. PPA anticipates a

gradual upgrading of the taxicabs because the improvements will occur as existing vehicles are replaced.

Members of the riding public, advocates for individuals with disabilities and public officials from the City of Philadelphia have submitted comments expressing support for this proposal. Conversely, members of the regulated taxicab industry are opposed to it. This Commission recognizes the benefits this proposal will have for users of taxicabs in Philadelphia, particularly individuals with disabilities, and is aware of the negative fiscal impact the rulemaking could have on the taxicab industry. We are also cognizant of the impact that unregulated competitors providers are having on the taxicab industry in Philadelphia, the Commonwealth and throughout the country.

Against this backdrop, we believe that the proposal being offered by PPA is a policy decision of such a substantial nature that it requires legislative review. In the Regulatory Analysis Form submitted with the proposal, PPA states that it will, "act on its own when possible, seek active participation of the riding public and the regulated industry at all times and *may seek additional authorization from the Legislature* to bring about the level of taxicabs service demanded by today's more discerning customers." (Emphasis added.) We believe PPA's proactive approach to the many issues facing the taxicab industry in Philadelphia is laudable. Given the

contentious nature of this rulemaking, however, we encourage PPA to seek guidance from and work closely with the General Assembly as it moves forward with this proposal.

**2. Whether the regulation is consistent with the intent of the General Assembly; Statutory authority.**

While this Commission does not question the policy goals of PPA and this rulemaking, we do question whether PPA has the statutory authority to pursue those goals as set forth in this rulemaking and whether the goals align with existing law, and therefore the intent of the General Assembly. As noted by commentators, it would appear that PPA is only authorized to issue a specific number of new certificates of public convenience and corresponding medallions for wheelchair-accessible vehicles (WAVs). 53 Pa.C.S.A. § 5711(c)(2) reads as follows:

The authority is authorized to issue the following:

(i) Subject to the provisions of subparagraph (ii), a maximum of 1,600 certificates of public convenience and corresponding medallions for citywide call or demand service and an additional 15 certificates of public convenience and corresponding medallions restricted to wheelchair-accessible taxicab service as provided in this chapter.

(ii) Beginning June 1, 2013, and each June 1 thereafter until there is a total of 1,750 certificates of public convenience and corresponding medallions, the maximum number of certificates of public convenience and corresponding medallions for citywide call or demand service shall be increased by 15. The authority, in its discretion, may issue the certificates and medallions authorized by this subparagraph with special rights, privileges and limitations applicable to issuance and use as it determines necessary to advance the purposes of this chapter and may issue the certificates and medallions authorized by this subparagraph in stages.

What is PPA's specific statutory authority to convert Philadelphia's existing fleet of certificated vehicles into WAVs? In addition, what is PPA's specific statutory authority that would allow it to require partial rights taxicab companies to convert 25 percent of their fleets into WAVs?

**3. Determining whether the regulation is in the public interest.**

Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b) directs this Commission to determine whether a regulation is in the public interest. When making this determination, the Commission considers criteria such as the impact on small businesses and reasonableness. To make that determination, the Commission must analyze the text of the proposed rulemaking and the reasons for the new or amended language. The Commission also considers the information a promulgating agency is required to provide under § 745.5(a) in the regulatory analysis form (RAF). Upon review of the RAF, we find that PPA has not provided an adequate analysis of how the regulation will impact small businesses and has not provided a description of any alternative regulatory provisions that were considered. Without this information, we cannot determine if this proposed regulation is in the public interest. In the RAF submitted with the final-form rulemaking, PPA should provide more detailed information required under § 745.5(a) of the RRA.

**4. Economic or fiscal impact of the regulation.**

*Taxicab industry*

Commentators from the taxicab industry are concerned about the fiscal impact the proposal will have on them. They believe the cost estimates provided by PPA are understated and contend that the proposal will prohibit future financing of new vehicles. They also point out that the value of existing medallions will diminish. According to commentators, existing non-WAV medallions are valued at approximately \$350,000. However, WAV medallions are worth between \$80,000 and \$110,000. We ask PPA to address these concerns in the RAF and Preamble to the final-form regulation. We will evaluate PPA's responses to these issues in making our determination if the rulemaking is in the public interest.

*PPA*

We are also concerned about the fiscal impact this proposal could have on PPA. 53 Pa.C.S.A. § 5706(a.1) (relating to wheelchair-accessible taxicab driver training), requires PPA to provide WAV certificated drivers a one-time stipend for each day of training the driver attends. It also provides that the annual WAV taxicab driver renewal fee is to be paid from the proceeds of sale of WAV medallions for each successfully renewed application. Since the number of WAV taxicab drivers will dramatically increase, the costs imposed by this statutory provision will also increase. We ask the PPA to quantify these costs and to include those costs in the RAF submitted with the final-form rulemaking.

**5. Possible conflict with or duplication of statutes or existing regulations; Implementation procedures; Reasonableness.**

If this rulemaking is adopted, and as standard taxicabs are replaced by WAV taxicabs, every taxicab driver will have to meet the requirements of Section 1021.5a (relating to special wheelchair accessible vehicle taxicab driver's certificate and requirements). We have two concerns about this requirement. First, Section 1021.5a(b)(7)(i) requires WAV taxicab drivers to have two years of experience driving a cab in Philadelphia. Commentators believe that this could lead to a shortfall of taxicab drivers in Philadelphia. Second, Section 1021.5a(c) establishes a cap on the number of WAV taxicab drivers. Under this subsection, the number of WAV drivers may not exceed the product of the number of WAV taxicabs multiplied by four. Is this provision still needed under this proposed rulemaking? In addition to addressing these issues, we ask PPA to review all provisions of 52 Pa. Code Chapter 1021 (relating to taxicab drivers) to ensure the proposed rulemaking is consistent and does not conflict with existing requirements.

**6. Section 1017.4. Age and mileage limitations.— Statutory authority; Possible conflict with or duplication of statutes or existing regulations; Clarity.**

The following language is being added to Paragraph (c), relating to antique vehicles: "The number of antique vehicles in operation in a fiscal year may not exceed 2% of the vehicles comprising the taxicab utility group." What is a "taxicab utility group"? To improve the clarity of the proposal, we suggest that it be defined in the final-form regulation.

Under Paragraph (d)(1) every medallion taxicab must comply with Section 1017.8 (relating to wheelchair accessible vehicle taxicab specifications), and under Paragraph (d)(2), every partial-rights taxicab must comply with the

age and mileage requirements of Section 1017.8(c) as a condition of eligibility for inspection as provided in Section 1017.2. This paragraph would require all vehicles brought into service for the first time to be late models with less than 500 miles and also limit the age of taxicabs to five years. We have two concerns. First, we question the reasonableness of the mileage limitation. This restriction would preclude a medallion owner or a partial-rights taxicab company from purchasing safe, yet cheaper vehicles. How did PPA determine that all new vehicles brought into service should have less than 500 miles? In the Preamble to the final-form regulation, we ask PPA to explain the basis for this decision. Second, the age limitation of five years conflicts with 53 Pa.C.S.A. § 5714(a)(4), which allows vehicles to operate until they reach eight years of age. We ask PPA to explain how the proposed regulatory provisions are permitted under the cited statutory language.

**State Board of Accountancy Regulation #16A-5513  
(IRRC #3104)**

**Act 73 and Act 15 Amendments**

**August 12, 2015**

We submit for your consideration the following comments on the proposed rulemaking published in the June 13, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Board of Accountancy (Board) to respond to all comments received from us or any other source.

**1. Substantial Equivalency—Implementation procedures; Protection of the public welfare.**

The CPA law provides for substantial equivalency in 63 P. S. §§ 9.5b and 9.5d. In general terms, a person or firm located outside of Pennsylvania whose qualifications are substantially equivalent to the Board's "shall have all the privileges and obligations of a licensee of the Commonwealth without the need to obtain a certificate or license under this act" and can be subject to discipline by the Board and the courts of Pennsylvania. 63 P. S. §§ 9.5b(b) and 9.5d(c). The CPA Law also provides that "Any determination as to whether substantial equivalency exists . . . shall be consistent with any determination . . . made by the National Association of State Boards of Accountancy National Qualification Appraisal Service [NASBANQAS]." 63 P. S. § 9.5b(a). We have two categories of questions relating to how these provisions will be implemented by the Board.

First, under the CPA Law and the Board's regulation, we presume that the Board will most likely not have notice of an accountant practicing under substantial equivalency. How does the Board know how many individuals and firms are practicing in Pennsylvania under substantial equivalency and who they are? Does the Board have any mechanism to obtain this information under the CPA law?

Second, who makes the important determination of substantial equivalency before services are rendered? While we expect that most practicing accountants would obtain and disclose to their clients an equivalency determination from the NASBANQAS, we are concerned that an invalid self-determination could be made outside of this service that could harm the consumer of the accounting services. How can the consumer be protected from an invalid self-determination of substantial equivalency? Are all the other states' requirements substantially equivalent to the Board's requirements? If not, does the Board

maintain a list of states that it considers to be substantially equivalent to Pennsylvania that is available to the public? We ask the Board to explain how substantial equivalency will be implemented in a way that protects the consumer of accounting services.

**2. Section 11.7. Use of the designation "public accountant" and the abbreviation "PA."—Clarity.**

*Use of an exception to include substantial equivalency*

Subsection (a) of the existing regulation lists three entities that can ". . . use the designation 'public accountant,' the abbreviation 'PA,' or any other title . . . tending to indicate that the user is a public accountant. . . ." The Board is amending this subsection to include substantial equivalency by adding a phrase that states, in part, "Except as provided in § 11.5(e). . ." We have two concerns.

First, as amended by Act 15 of 2013 (Act 15), 63 P. S. § 9.5b(b) states that practice under substantial equivalency is the same as practicing as a licensee in Pennsylvania and, in particular, Paragraph (1) states that:

. . . an individual whose principal place of business is not in this Commonwealth and who has a valid certificate or right to practice from a state that is substantially equivalent . . . shall have all the privileges and obligations of a licensee of this Commonwealth. . . .

Firms and unlicensed entities are addressed in 63 P. S. § 9.5d. Since, by statute, practice under substantial equivalency is substantively the same as having a Board license, it is not clear why the regulation should reference substantial equivalency as an exception.

Second, Section 8.2 of the *Pennsylvania Code and Bulletin's Style Manual* addresses use of exceptions and states, "If possible, state a requirement directly rather than by use of exceptions." Given the statutory language and the *Style Manual*, we recommend that substantial equivalency be added to Subsection (a) as a fourth paragraph rather than as an exception.

*Use of an exception in Subsection (b)*

Similar to Subsection (a), this subsection adds substantial equivalency as an exception. We recommend adding substantial equivalency to the end of the sentence instead.

**3. Section 11.8. Use of the designation "certified public accountant" and the abbreviation "CPA" in the practice of public accounting.—Clarity.**

*Exceptions added to Subsections (a) and (b)*

Subsections (a) and (b) both add substantial equivalency as an exception. For the reasons explained in the above comments on Section 11.7, we recommend adding substantial equivalency to Subsection (a) as a fourth paragraph and to Subsection (b) at the end of the sentence.

**4. Section 11.23a. Competence to supervise attest services.—Protection of the public welfare; Clarity.**

*400 hours of experience*

A public commentator questioned the provision in Subparagraph (b)(1)(i) that requires 400 hours of experience within the previous five years. The commentator believes it would be prudent to require more than 80 hours per year given the pace of change in the accounting profession. We ask the Board to explain how this provision sufficiently protects the public welfare.

*Continuing Professional Education (CPE)*

Paragraph (b)(1)(i) sets a two-pronged competency requirement of “400 hours of experience within the previous 5 years” and “at least 24 hours of CPE . . . during the 24 months immediately preceding issuance of the report.” Subsection (c) states an exemption that the requirements of Subsection (b) do not apply to a licensee licensed prior to August 18, 2013. Subsection (c) would exempt a category of licensees from both the 400 hours of experience and 24 hours of CPE. Why should this category of licensee be exempt from the CPE requirement?

**5. Section 11.55. Experience requirements for CPA certification.—Need; Reasonableness; Economic impact; Clarity.**

*Calculation of hours of experience*

Majority Chair Representative Julie Harhart and Minority Chair Representative Harry Readshaw of the House Professional Licensure Committee (HPLC) submitted a joint comment stating their agreement with the comments submitted by the Pennsylvania Institute of Certified Public Accountants (PICPA). PICPA commented that the wording of Section 11.55 would make it difficult for part-time or seasonal candidates to meet the requirements to apply for CPA certification. As written, a candidate must complete at least one year of qualifying experience during the 60-month period immediately preceding the date of application, and each year of experience must include 1,600 hours of qualifying experience. PICPA cited the example of tax preparers who might only accrue 680 hours in a tax season per year, but would not qualify for CPA certification even after accumulating 1,600 hours of experience within the 60-month period. PICPA does not believe this is the Board’s intent and suggests alternative language. We agree with the HPLC’s and PICPA’s concern and recommend that the Board amend this requirement accordingly, or explain why the requirement is needed and reasonable.

**6. Section 11.63. CPE subject areas; relevance to professional competence.—Clarity.**

*Continuing Professional Education (CPE) hours*

Paragraph (a)(1) requires a minimum of 24 hours of CPE and includes the sentence:

A licensee who supervises attest services and signs an accountant’s report for attest services *may* also need to complete additional CPE as provided in § 11.23a (relating to competence to supervise attest services). (Emphasis added.)

Paragraph 11.23a(b)(1)(i) requires the same amount of CPE of “at least 24 hours.”

Considering the provisions of both Paragraph (a)(1) and Paragraph 11.23a(b)(1)(i), it is not clear what total number of hours of CPE are required for a licensee to comply with the regulation. We recommend that the Board review and amend Paragraph (a)(1) and Paragraph 11.23a(b)(1)(i) as necessary to clarify how to comply with the CPE requirements.

# INSURANCE DEPARTMENT

## Price Optimization; Notice 2015-06

Recently, the question of whether price optimization techniques may be used by insurance companies has been raised to the Insurance Department (Department). The answer is no and the Department issues this notice to remind insurers about the Department’s longstanding prohibition against the use of price optimization techniques in property and casualty insurance rates.

It is well-settled that property and casualty insurance rates cannot be excessive, inadequate or unfairly discriminatory. These prohibitions can be found in all of the Commonwealth’s property and casualty rate regulatory acts and the Unfair Insurance Practices Act (act) (40 P. S. §§ 1171.1—1171.15). See section 505-A(c)(2)(i) of the Property and Casualty Filing Reform Act (40 P. S. § 710-5(c)(2)(i)), section 5(a)(7)(ii) of the act (40 P. S. § 1171.5(a)(7)(ii)), section 3(d) of The Casualty and Surety Rate Regulatory Act (40 P. S. § 1183(d)) and section 3(a)(2) of The Fire, Marine and Inland Marine Rate Regulatory Act (40 P. S. § 1223(a)(2)).

With the advent of sophisticated pricing tools, including computer software and rating models referred to as price optimization, insurers, rating organizations and advisory organizations are reminded that policyholders and applicants with identical risk classification profiles—that is, risks of the same class and essentially the same hazard—must be charged the same premium. Rates that fail to reflect differences in expected losses and expenses with reasonable accuracy are unfairly discriminatory under Commonwealth law and will not be approved by the Department. See 40 P. S. § 1183(d).

The Department’s Property and Casualty Bureau reviews thousands of rate filings each year to ensure compliance with these standards, and the actuaries that review these filings often identify and object to filings that fail to meet these statutory requirements.

Questions regarding this notice may be directed to Mark Lersch, Bureau Director, Property and Casualty, Administration, (717) 783-2103, [mlersch@pa.gov](mailto:mlersch@pa.gov).

(*Editor's Note:* See 45 Pa.B. 5006 (August 22, 2015) for a cancellation notice relating to this Secretarial Letter.)

On November 6, 2013, the Pennsylvania Public Utility Commission's (Commission) Bureau of Investigation and Enforcement instituted a Complaint against Lambert Worldwide Services, LLC (Lambert) at Doc. No. C-2013-2389775 for failure to maintain evidence of insurance on file with the Commission. This Complaint was served on Lambert by means of certified mail at its mailing address on file with the Commission. The Complaint was subsequently returned by the United States Postal Service with the notation "Return to Sender; Unclaimed."

On January 10, 2014, the Complaint was re-served on Lambert by means of first class mail. Although there is no record that the re-served Complaint was returned to the Commission, the record does not indicate whether Lambert received it.

By Secretarial Letter dated May 21, 2015, the Commission noted that an answer had not been filed in response to the Complaint. As a result, the Secretarial Letter stated the allegations of the Complaint were deemed admitted and the Complaint was sustained. Lambert's Certificate of Public Convenience, issued at Doc. No. A-6413114, was cancelled and Lambert was assessed a fine of \$600. In addition, the letter stated that the Commission would ask the Department of Transportation to put an administrative hold on Lambert's vehicle registrations. This Secretarial Letter was sent to the same address listed on the Complaint. The Secretarial Letter was subsequently returned by the Postal Service with the notation "Return to Sender; Attempted—Not Known; Unable to Forward." On June 1, 2015, the Commission resent the Secretarial Letter by first class mail to the following address: "P. O. Box 18889, Philadelphia, PA 19119."

The Commission is concerned that Lambert was not properly served with the Complaint. In order to ensure that Lambert's due process rights are preserved, the Commission will serve this Secretarial Letter, together with the May 21, 2015, Secretarial Letter, by both certified mail and publication in the *Pennsylvania Bulletin*, under 52 Pa. Code § 1.53(c) and (e) (relating to service by the Commission). Lambert shall have 20 days from the date of publication in the *Pennsylvania Bulletin* to file a Petition for Amendment or Rescission of the May 21, 2015, Secretarial Letter, under 66 Pa.C.S. § 703(g) (relating to fixing of hearings) and 52 Pa. The February Order authorized the Director of the Authority's Taxicab and Limousine Division ("TLD") to administer the sale of 61 medallions, each of which is designated a wheelchair accessible vehicle ("WAV") medallion. The February Order was published in the *Pennsylvania Bulletin* on March 7, 2015 and is available for review on the Authority's web site at [www.philapark.org](http://www.philapark.org).

Pursuant to the February Order, the WAV medallion sales began on May 6, 2015, which has resulted in 50 WAV medallions sold thus far (WP-1601 through WP-1650). As of July 8, 2015, only 1 of the 50 WAV medallion sales has actually resulted in the operation of a WAV medallion taxicab. Recognizing the need to focus on providing WAV taxicab service in Philadelphia, the Direc-

tor of the TLD exercised his discretion to reschedule the 11 remaining WAV medallion sales (WP-1651 through WP-1661) pursuant to paragraph no. 9 of the February Order.

To date, the remaining 49 WAV medallions sold at auction have neither reached settlement, let alone been placed into WAV taxicab service. Exercising his discretion as provided in paragraph no. 10 of the February Order, the TLD Director has requested that the Board remove the remaining 11 WAV medallions from the February Order's schedule. The TLD Director believes this change will permit TLD staff and the regulated industry to focus on getting all of the WAV medallions already sold into service more rapidly.

*Therefore,*

*It Is Ordered That:*

1. The sales of the following eleven WAV medallions authorized for sale pursuant to this Board's Order dated February 24, 2015 are hereby cancelled: WP-1651, WP-1652, WP-1653, WP-1654, WP-1655, WP-1656, WP-1657, WP-1658, WP-1659, WP-1660 and WP-1661.

2. The Director of the Authority's TLD may, at this discretion, place any of the aforementioned eleven medallions before this Board for a new sale authorization, pursuant to such terms and conditions as the Board may then impose.

3. The contact person for this Order is James R. Ney, Director, Taxicab and Limousine Division, (215) 683-9417.

4. The Executive Director shall cause this Order to be deposited with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.
