READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 207—JUDICIAL CONDUCT

PART II. CONDUCT STANDARDS

[207 PA. CODE CH. 33]

Formal Advisory Opinion 2015-4

Notice is hereby given that the Ethics Committee of the Pennsylvania Conference of State Trial Judges has issued Formal Advisory Opinion 2015-4 Disqualification and Recusal which is set forth as follows.

EDWARD D. REIBMAN,
Chairperson
Ethics Committee
Pennsylvania Conference of State Trial Judges

Annex A

TITLE 207. JUDICIAL CONDUCT

PART II. CONDUCT STANDARDS

CHAPTER 33. CODE OF JUDICIAL CONDUCT

Subchapter B. FORMAL OPINIONS

§ 15-4. Disqualification and Recusal.

A function of The Ethics Committee of the Pennsylvania Conference of State Trial Judges (the “Committee”) is to provide guidance regarding ethical concerns to judicial officers subject to the Code of Judicial Conduct (the “Code”). Inquiries regarding disqualification and recusal are among the more numerous questions addressed to the Committee. Because of the frequency of these inquiries, the Committee issues this Formal Advisory Opinion to assist judges on a matter of general importance to judicial officers subject to the Code.

This Formal Advisory Opinion is general in nature, does not address a particular situation, and is not in response to a specific request for an advisory opinion from a judicial officer. Therefore, the “rule of reliance” set forth in Preamble (8) of the Code does not apply to this Formal Advisory Opinion.¹

“Disqualification” and “Recusal”

The terms “disqualification” and “recusal” have generated some confusion. According to the American Bar Association’s Joint Commission to Evaluate the Model Code of Judicial Conduct, the terms are used interchangeably in many jurisdictions.² In fact, Rules 2.7 and 2.11 of the ABA Model Code, which are the bases of Rules 2.7 and 2.11 of the *Pennsylvania Code*, refer only to “disqualification.” The Model Code does not refer to “recusal.”

Rules 2.7 and 2.11 of the *Pennsylvania Code* and their respective Comments use both terms and seem to recognize a distinction between them. Rule 2.7 of the *Code* provides:

¹ Preamble (8) states:

“The Ethics Committee of the Pennsylvania Conference of State Trial Judges is designated as the approved body to render advisory opinions regarding ethical concerns involving judges, other judicial officers and judicial candidates subject to the Code of Judicial Conduct. Although such opinions are not, *per se*, binding upon the Judicial Conduct Board, the Court of Judicial Discipline or the Supreme Court of Pennsylvania, action taken in reliance thereon and pursuant thereto shall be taken into account in determining whether discipline should be recommended or imposed.”

² American Bar Association’s Joint Commission to Evaluate the Model Code of Judicial Conduct, The Revised Model Code of Judicial Conduct, Rule 2.11, Comment (1).

A judge shall hear and decide matters assigned to the judge, except where the judge has recused himself or herself or when disqualification is required by Rule 2.11 or other law.

Comment (1) to Rule 2.7 states, in pertinent part:

... Although there are times when disqualification or recusal is necessary... [u]nwarranted disqualification or recusal may bring public disfavor to the court, and to the judge personally... [and]... a judge should not use disqualification or recusal to avoid cases that present difficult, controversial, or unpopular issues.

Comment (2) to Rule 2.7 provides:

This Rule [2.7] describes the duty of a judge to decide matters assigned to the judge. However, there may be instances where a judge is disqualified from presiding over a particular matter or shall recuse himself or herself from doing so. A judge is disqualified from presiding over a matter when a specified disqualifying fact or circumstance is present. *See* Rule 2.11. The concept of recusal envisioned in this Rule overlaps with disqualification. In addition, however, a judge may recuse himself or herself from presiding over a matter even in the absence of a disqualifying fact or circumstance where—in the exercise of discretion, in good faith, and with due consideration for the general duty to hear and decide matters—the judge concludes that prevailing facts and circumstances could engender a substantial question in reasonable minds as to whether disqualification nonetheless should be required... .

Comment (3) to Rule 2.7 states:

A judge should disclose on the record information that the judge believes the parties or their lawyers might reasonably consider relevant to a possible motion for disqualification or recusal, even if the judge believes there is no proper basis for disqualification or recusal.

Rule 2.11(A)(4) states:

... There shall be a rebuttable presumption that recusal or disqualification is not warranted when a contribution or reimbursement... .

And Comment (3) to Rule 2.6 states:

Judges must be mindful of the effect settlement discussions can have, not only on their objectivity and impartiality, but also on the appearance of their objectivity and impartiality. Despite a judge’s best efforts, there may be instances when information obtained during settlement discussions could influence a judge’s decision making during trial, and, in such instances, the judge should consider whether recusal may be appropriate. *See* Rule 2.11(A)(1).

In general, “disqualification” is a specified fact, circumstance or condition that makes one ineligible or unfit to serve, or otherwise deprives the judge of the power to preside. “Recusal” is the act of removing or absenting oneself in a particular case because the judge concludes that the prevailing facts or circumstances could engender a substantial question in reasonable minds whether the judge can be impartial.³ Again,

³ *Black’s Law Dictionary*, 7th Ed.

... a judge may recuse himself or herself from presiding over a matter even in the absence of a disqualifying fact or circumstance where—in the exercise of discretion, in good faith, and with due consideration for the general duty to hear and decide matters—the judge concludes that prevailing facts and circumstances could engender a substantial question in reasonable minds as to whether disqualification nonetheless should be required.

Rule 2.7 Comment (2).⁴

Historical Perspective

The current Code became effective on July 1, 2014. Prior to that time, Canon 3 C of the then-existing code, titled “Disqualification,” stated:

Judges *should* disqualify themselves in a proceeding in which their impartiality might reasonably be questioned. . . .

Code of Judicial Conduct (Pre-July 1, 2014), Canon 3 C. (Emphasis added.) Some have argued use of the word “should” made the command aspirational or permissive instead of mandatory, leaving the decision to recuse largely to the discretion of the judge.

The Committee rarely gave inquiring judges firm advice about the course of conduct to be taken in a particular situation; it simply issued a memorandum setting forth what it considered to be the relevant case law the judge should consider when exercising his/her discretion. A majority of the Committee felt only the Supreme Court or the Court of Judicial Discipline had the authority to relieve a judge of his/her duty to decide assigned matters; and, as a practical matter, if the Committee advised a judge to recuse in a particular situation, the judge would be almost obliged to follow that advice to avoid having to defend a potential charge of unethical conduct if the judge decided to reject the Committee’s advice and proceed to hear the matter. Furthermore, many of the operative facts bearing on recusal are best ascertained and weighed by the inquiring judge rather than by the Committee.

The current Code clarifies the use of the word “should.” Preamble (6) provides:

Where a Rule contains a permissive term, such as “may” or “should,” the conduct being addressed is committed to the personal and professional discretion of the judge or candidate in question, and no disciplinary action should be taken for action or inaction within the bounds of such discretion. . . .

The implication is the use of the word “shall” connotes an obligation.⁵ It also clarified that a judge acting within the bounds of discretion should suffer no disciplinary action.

Canon 1

Canon 1 and the Rules under it reflect the broad, general, overarching principles of the Code. Canon 1 states:

A judge shall uphold and promote the independence, integrity, and impartiality of the judiciary, and shall avoid impropriety and the appearance of impropriety.

And Rule 1.2 states:

A judge shall act at all times in a manner that promotes public confidence in the independence, in-

tegrity, and impartiality of the judiciary, and shall avoid impropriety and the appearance of impropriety.⁶

Although the Rules under Canon 1, including Rule 1.2, standing alone, can be the basis for discipline, the succeeding Canons and their associated Rules more specifically address situations concerning the judge performing the duties of judicial office (Canon 2), engaging in personal and extrajudicial activities (Canon 3), and participating in political or campaign activities (Canon 4).

Rules 2.7 (Responsibility to Decide) and 2.11 (Disqualification)

As noted above, Rule 2.7 requires (“shall”) a judge to hear and decide assigned matters unless the judge recuses himself or herself, or is disqualified by Rule 2.11 or other law. Rule 2.11(A) provides:

A judge shall disqualify himself or herself in any proceeding in which the judge’s impartiality might reasonably be questioned, including but not limited to the following circumstances:

- (1) The judge has a personal bias or prejudice concerning a party or a party’s lawyer, or personal knowledge of facts that are in dispute in the proceeding.
- (2) The judge knows that the judge, the judge’s spouse or domestic partner, or a person within the third degree of relationship to either of them, or the spouse or domestic partner of such a person is:
 - a. a party to the proceeding, or an officer, director, general partner, managing member, or trustee of a party;
 - b. acting as a lawyer in the proceeding;
 - c. a person who has more than a de minimis interest that could be substantially affected by the proceeding;
- or
- d. likely to be a material witness in the proceeding.
- (3) The judge knows that he or she, individually or as a fiduciary, or the judge’s spouse, domestic partner, parent, or child, or any other member of the judge’s family residing in the judge’s household, has an economic interest in the subject matter in controversy or is a party to the proceeding.
- (4) The judge knows or learns that a party, a party’s lawyer, or the law firm of a party’s lawyer has made a direct or indirect contribution(s) to the judge’s campaign in an amount that would raise a reasonable concern about the fairness or impartiality of the judge’s consideration of a case involving the party, the party’s lawyer, or the law firm of the party’s lawyer. In doing so, the judge should consider the public perception regarding such contributions and their effect on the judge’s ability to be fair and impartial. There shall be a rebuttable presumption that recusal or disqualification is not warranted when a contribution or reimbursement for transportation, lodging, hospitality or other expenses is equal to or less than the amount required to be reported as a gift on a judge’s Statement of Financial Interest.

⁶ The Code defines “impartiality”:

Absence of bias or prejudice in favor of, or against, particular parties or classes of parties, as well as maintenance of an open mind in considering issues that may come before a judge.

Terminology, “Impartial, impartiality, impartially.”

The Code defines “impropriety” as:

... conduct that undermines a judge’s independence, integrity, or impartiality.

Terminology, “Impropriety.”

⁴ But see Pennsylvania Rule 2.11(A): “A judge shall disqualify himself or herself in any proceeding in which the judge’s impartiality might reasonably be questioned. . . .”

⁵ Garwin, et al., *Annotated Model Code of Judicial Conduct*, 2nd Ed., 2011, p.7.

(5) The judge, while a judge or a judicial candidate, has made a public statement, other than in a court proceeding, judicial decision, or opinion, that commits the judge to reach a particular result or rule in a particular way in the proceeding or controversy.

(6) The judge:

a. served as a lawyer in the matter in controversy, or was associated with a lawyer who participated substantially as a lawyer in the matter during such association;

b. served in governmental employment, and in such capacity participated personally and substantially as a lawyer or public official concerning the proceeding, or has publicly expressed in such capacity an opinion concerning the merits of the particular matter in controversy; or

c. was a material witness concerning the matter.

Id.

The enumerated circumstances are not exhaustive. Under the Rule, the judge must disqualify himself/herself in any proceeding in which “the judge’s impartiality might reasonably be questioned.” *Id.*

Some of the circumstances outlined in the Rule are straightforward. E.g., there is little room for discretion where the judge or the judge’s spouse or domestic partner is a party or acting as a lawyer or is likely to be a material witness in the proceeding, or if the judge served as a lawyer in the matter in controversy. See Rule 2.11(A)(2)(a), (b) and (d), and Rule 2.11(A)(6)(a), respectively. In those situations, the judge is disqualified. However, other circumstances require the exercise of judgment and discretion, e.g., whether the interest of the judge or the judge’s spouse or domestic partner is “de minimis.” Rule 2.11(A)(2)(c).

Rule 2.11(A)(4) introduces, for the first time, the role of campaign contributions as a basis for mandatory disqualification.⁷ However, this is not the first time judges have been cautioned that actions taken during a campaign can lead to recusal or disqualification. In *Caperton v. A. T. Massey Coal Co., Inc.*, 556 U.S. 868 (2009), the United States Supreme Court considered whether a state Supreme Court Justice’s denial of a recusal motion based upon campaign contributions violated the Due Process Clause of the Fourteenth Amendment to the United States Constitution. The majority stated:

[U]nder our precedents there are objective standards that require recusal when “the probability of actual bias on the part of the judge . . . is too high to be constitutionally tolerable.”

Id. at 872 (citation omitted). The Court found:

[T]here is a serious risk of actual bias—based on objective and reasonable perceptions—when a person with a personal stake in a particular case had a significant and disproportionate influence in placing the judge on the case by raising funds or directing the judge’s election campaign when the case is pending or imminent. The inquiry centers on the contribution’s relative size in comparison to the total amount of money contributed to the campaign, the total amount spent in the election, and the apparent effect such contribution had on the outcome of the election.

Id. at 884. The *Caperton* Court concluded the campaign efforts of the litigant’s chairman, chief executive officer and president had “a significant and disproportionate

influence” in placing the state Supreme Court Justice on the case, *id.*, and this influence,

coupled with the temporal relationship between the election and the pending case[,] “offer[s] a possible temptation to the average . . . judge to . . . lead him not to hold the balance nice, clear and true.”

Id. at 886 (citation omitted). The Court held that, under the circumstances, due process required recusal. *Id.* at 889-890.⁸

In all situations where the judge’s “impartiality might reasonably be questioned,” the ethical standards for disqualification and recusal are an objective test. See, *Pepsico v. McMillen*, 764 F.2d 458, 460 (7th Cir. 1985) (whether an objective, disinterested observer fully informed of the facts underlying the grounds on which recusal was sought would entertain a significant doubt that justice would be done in the case).

Exceptions to Mandatory Disqualification

Unless the judge is disqualified for bias or prejudice under Rule 2.11(A)(1), Rule 2.11(C) permits a judge to disclose the basis for disqualification on the record and affords the parties and their lawyers the opportunity to consider, outside the presence of the judge and court personnel, whether they wish to waive the disqualification. If, following the disclosure, the parties and their lawyers agree, without participation by the judge or court personnel, that the judge should not be disqualified, the judge may participate in the proceeding. The agreement must be incorporated into the record of the proceeding.

In addition, the “rule of necessity” may override the requirement of disqualification. This rule permits a judge to decide a matter even though the judge would ordinarily be required to recuse, where the matter could not otherwise be heard by any other court, or the matter requires immediate judicial action and only that judge is available. Although Comment (3) to Rule 2.11 specifically recognizes that the “rule of necessity” may override the rule of disqualification, the effect of the Comments in the Code is unclear.⁹ However, regardless of the effect of the Comments, the “rule of necessity” is based on common law and is an accepted part of Pennsylvania’s jurisprudence.

⁸ For example, the Tennessee Code of Judicial Conduct provides:

The fact that a lawyer in a proceeding, or a litigant, contributed to the judge’s campaign, or supported the judge in his or her election does not of itself disqualify the judge. Absent other facts, campaign contributions within the limits of the “Campaign Contributions Limits Act of 1995,” *Tennessee Code Annotated* Title 2, Chapter 10, Part 3, or similar law should not result in disqualification. However, campaign contributions or support a judicial candidate receives may give rise to disqualification if the judge’s impartiality might reasonably be questioned. In determining whether a judge’s impartiality might reasonably be questioned for this reason, a judge should consider the following factors among others:

- (1) The level of support or contributions given, directly or indirectly, by a litigant in relation both to aggregate support (direct and indirect) for the individual judge’s campaign and to the total amount spent by all candidates for that judgeship;
- (2) If the support is monetary, whether any distinction between direct contributions or independent expenditures bears on the disqualification question;
- (3) The timing of the support or contributions in relation to the case for which disqualification is sought; and
- (4) If the supporter or contributor is not a litigant, the relationship, if any, between the supporter or contributor and (i) any of the litigants, (ii) the issue before the court, (iii) the judicial candidate or opponent, and (iv) the total support received by the judicial candidate or opponent and the total support received by all candidates for that judgeship.

Tennessee Code of Judicial Conduct, Rule 2.11, Comment 7.

⁹ The ABA Revised Model Code of Judicial Conduct 2007 includes Comments as well as Canons and Rules. The Model Code states:

The Comments that accompany the Rules serve two functions. First, they provide guidance regarding the purpose, meaning and proper application of the Rules. They contain explanatory material and, in some instances, provide examples of permitted or prohibited conduct. . . .

Second, the Comments identify aspirational goals for judges. . . . ABA Revised Model Code of Judicial Conduct 2007, Scope (3) and (4).

In contrast, the Pennsylvania Supreme Court’s order of January 8, 2014, adopting the Pennsylvania Code, does not mention the Comments. The Order states, in part, that “new Canons 1 through 4 of the Code of Judicial Conduct of 2014 and the corresponding Rules are adopted in the attached form.”

⁷ Rule 2.11(A)(4) is a “first inroad into complex issues associated with the financing of judicial campaigns. . . .” *Id.* at Rule 2.11(A), Comment (6).

See, e.g., *Stilp v. Commonwealth*, 905 A.2d 918, 929 (Pa. 2006) (justices with pecuniary interest in outcome of case may decide challenge to law affecting judicial compensation where all other judges have similar interest and no other provision or procedure exists to consider matter).

When and What Should a Judge Disclose?

Comment (3) to Rule 2.7, addresses the issue of *what* information a judge should disclose:

A judge should disclose on the record information that the judge believes the parties or their lawyers might reasonably consider relevant to a possible motion for disqualification or recusal, even if the judge believes there is no proper basis for disqualification or recusal.

Id. at Rule 2.7, Comment (3); *see also* Rule 2.11, Comment (5).

In deciding whether to disclose information and what information to disclose, a judge should first review the record to gain an understanding of the claims and defenses of the parties. A judge also should determine, to the extent possible, the identity of witnesses and the subject matter of their testimony. In obtaining information, a judge should avoid *ex parte* communications. Examples of appropriate disclosures include, but are not limited to, the following:

- A judge should disclose facts regarding the judge's current or former association or relationship with a party, a lawyer, or a witness.
- A judge should disclose that he or she provided legal services to a party or witness prior to taking the bench.
- A judge should disclose that a lawyer in the case represents or previously represented the judge.
- A judge should disclose that he or she holds an opinion about the merits of a claim or defense or the credibility of a witness. Even though the judge believes he or she can set aside the opinion and base decisions solely on the evidence and the law, the judge should disclose the opinion.

The Comments explain how a judge should make a disclosure. The disclosure should be on the record. In most instances, the judge will simply state the relevant facts on the record in the presence of the parties and the attorneys. The judge may also make a disclosure in a writing that is made part of the record. A judge may present documents or refer to records in other cases for the parties and lawyers to consider. In any case, after completing the disclosure, the judge should notify the parties that they may move orally or in writing for disqualification or recusal.

Disqualification and Recusal Decision Worksheet

Judges concerned about whether disqualification or recusal is appropriate may consider utilizing the following worksheet:

- 1.) Does the judge subjectively believe he/she can decide the case fairly and impartially? If so, proceed with the following steps of the worksheet. If not, the judge must recuse unless Question 7 (rule of necessity) is answered affirmatively.
- 2.) Is the fact pattern one of the enumerated examples in Rule 2.11(A) (1)—(6)? If so, disqualification is required unless either Question 6 (waiver) or Question 7 (rule of necessity) is answered affirmatively.

3.) Does the fact pattern suggest that the judge's impartiality might reasonably be questioned, that is, do the prevailing facts and circumstances engender a substantial question in reasonable minds that the judge would not be fair or impartial? If so, disqualification or recusal is required under Rule 2.11(A) or Rule 2.7 Comment (2) unless either Question 6 (waiver) or Question 7 (rule of necessity) is answered affirmatively.

4.) Even though the judge has concluded that disqualification or recusal is not required, are there facts or information the judge believes the parties or lawyers might reasonably consider relevant to a motion to disqualify or remove the judge? If so, the judge should disclose that information to the parties or lawyers.

5.) If a party moves for disqualification or recusal, the court should hold a hearing. "A party seeking recusal bears the burden of producing evidence to establish bias, prejudice, or unfairness which raises a substantial doubt as to the jurist's ability to preside impartially." *Com. v. Watkins*, 108 A.3d 692, 734 (Pa. 2014) (citation omitted).

6.) Except in instances of a judge's personal bias or prejudice as outlined in Rule 2.11(A)(1), do the parties waive disqualification pursuant to Rule 2.11(C)? If so, the judge may participate in the case after using the following procedure:

- a. the judge discloses the basis for the disqualification on the record;
 - b. the judge asks the parties and their lawyers to consider, outside the presence of the judge and court personnel, whether to waive disqualification; and
 - c. the judge incorporates any agreement to waive disqualification into the record of the proceeding.
- 7.) Does the rule of necessity override the rule of disqualification? See Comment 3 to Rule 2.11. If so, the judge may be able to participate.
- a. If the judge is the only judge available to hear a matter requiring immediate judicial action, the judge must disclose on the record the basis for disqualification and make reasonable efforts to transfer the matter to another judge as soon as practicable.
 - b. Other issues of necessity must be addressed on a case-by-case basis.

Conclusion

Ultimately, the issue of disqualification or recusal requires the judge to determine whether his or her impartiality might reasonably be questioned. If the judge has a doubt as to disclosure, it is, of course, more prudent to err on the side of disclosure. A judge should consider the following principle stated by the Supreme Court of Pennsylvania:

Due consideration should be given by [the judge] to the fact that the administration of justice should be beyond the appearance of unfairness. But, while the mediation of courts is based upon the principle of judicial impartiality, disinterestedness, and fairness pervading the whole system of judicature, so that courts may as near as possible be above suspicion, there is, on the other side, an important issue at stake: that is, that causes may not be unfairly prejudiced, unduly delayed, or discontent created through unfounded charges of prejudice or unfairness made against the judge in the trial of a cause. . . .

Reilly by Reilly v. Southeastern Pennsylvania Transportation Authority, 489 A.2d 1291, 1299 (Pa. 1985). The Court further stated that judges should not permit “unfounded and oftentimes malicious charges . . . to discredit the judicial system.” *Id.* While frivolous claims will no doubt come before the courts, it is imperative that, first and foremost, judges remain mindful of their duty to fairness, impartiality and judicial independence.

The “Rule of Reliance”

This Formal Advisory Opinion is intended to provide judges with broad guidance regarding one of the Ethics Committee’s most frequent areas of inquiry. Because this Formal Advisory Opinion does not address the specific facts of a particular case, a judge does not receive the benefit of the “rule of reliance” by reviewing the Committee’s general advice. If a judge has questions concerning the application of these guidelines, the judge should make a written request for advice from a member of the Committee, ordinarily from the representative for the zone in which the judge sits. The Code of Judicial Conduct provides that, although such opinions are not *per se* binding on the Judicial Conduct Board, the Court of Judicial Discipline, or the Supreme Court of Pennsylvania, action taken in reliance thereon shall be considered in determining whether discipline should be recommended or imposed. Title 234—RULES OF CRIMINAL PROCEDURE

[234 PA. CODE CH. 5]

Order Amending Rule 556 of the Rules of Criminal Procedure; No. 465 Criminal Procedural Rules Doc.

Order

Per Curiam

And Now, this 8th day of September, 2015, upon the recommendation of the Criminal Procedural Rules Committee; the proposal having been submitted without publication pursuant to Pa.R.J.A. No. 103(a)(3) in the interests of justice and efficient administration, and a Final Report to be published with this *Order*:

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that the amendment of Pennsylvania Rule of Criminal Procedure 556 is approved in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective November 1, 2015.

Annex A

TITLE 234. RULES OF CRIMINAL PROCEDURE

**CHAPTER 5. PRETRIAL PROCEDURES IN
COURT CASES**

PART E. Indicting Grand Jury

Rule 556. Indicting Grand Jury.

(A) Each of the several courts of common pleas may proceed with an indicting grand jury pursuant to these

rules only in cases in which witness intimidation has occurred, is occurring, or is likely to occur.

(B) Any court of common pleas seeking to resume the use of indicting grand juries pursuant to these rules shall petition the Supreme Court of Pennsylvania in the following form:

(1) The petition shall identify the petitioner, who shall be either the president judge or a designee, and the judicial district. If the petition is seeking permission to resume the use of indicting grand juries in a two-county judicial district, and the indicting grand jury is sought for only one county, that county shall be identified in the petition. The president judge’s designee shall be a member of the court of common pleas of the judicial district.

(2) The petition shall aver that the petitioner has reviewed the district attorney’s certificate required under paragraphs (B)(4) and (5) and the petitioner agrees with the averments contained therein.

(3) An original and 2 copies of the petition shall be filed, and shall bear an original signature of the petitioner.

(4) There shall be appended to the petition a certificate from the district attorney for the judicial district or, in the case of a two-county judicial district, a certificate from the district attorney or district attorneys for the county or counties within the judicial district.

(5) The district attorney’s certificate shall contain:

(a) the name and county of the district attorney;

(b) an averment that witness intimidation has occurred, is occurring, or is likely to occur in the judicial district or, in the case of a two-county judicial district where an indicting grand jury is sought for only one county, the county;

(c) An averment that the district attorney believes that an indicting grand jury will remedy the problem of witness intimidation; and

(d) the original signature of the district attorney.

Comment

This rule was adopted in 2012 to permit the use of an indicting grand jury as an alternative to the preliminary hearing but only in cases in which witness intimidation has occurred, is occurring, or is likely to occur.

The Supreme Court, by Order issued with the promulgation of the new Rules of Criminal Procedure governing the indicting grand jury, requires that each of the judicial districts must petition the Court for permission to resume using the indicting grand jury, *but only* as provided in these rules. **By further Order of the Supreme Court, the form and contents of the petition were established. See 43 Pa.B. 1706 (March 30, 2013). This rule was amended in 2015 to include the form and contents of the petition required to resume indicting grand juries as established by the Court’s Order.**

The rules in Chapter 5 Part E apply only to the indicting grand jury and do not apply to any county, regional, or statewide investigating grand jury.

FINAL REPORT¹***Amendment of Pa.R.Crim.P. 556*****Petitions Seeking Leave to Resume Indicting Grand Juries**

On September 8, 2015, effective November 1, 2015, upon the recommendation of the Criminal Procedural Rules Committee, the Court approved the amendment of Rule of Criminal Procedure 556 (Indicting Grand Jury) to include the required contents of the petition seeking leave to resume the use of indicting grand juries. The requirement to petition for the resumption of indicting grand juries was established in the Court's Order adopting the new indicting grand jury rules.² The contents of the petition were established by a later Order of the Court issued on March 12, 2013.³

The reason for this requirement was the manner in which the use of the indictment was originally supplanted by the use of criminal informations. The 1973 amendment of Article I, § 10 of the Pennsylvania Constitution and the subsequent enabling legislation permitted, but did not mandate, the courts of common pleas to proceed by information instead of by indictment, but only with the permission of the Court. The Court then mandated that each court of common pleas petition for the Court's permission to proceed in the use of informations. The last court of common pleas received the Court's approval to proceed by information in 1991 and, effective in 1993, the Court rescinded the indicting grand jury rules as no longer necessary. The Court's approval of petitions to resume indicting grand juries merely reverses these earlier actions.

After two years of experience with the new indicting grand jury rules, the Committee concluded that it would be helpful to provide in the indicting grand jury rules, rather than just the Court's order, directions on how to go about doing so to courts seeking to resume indicting grand juries. Therefore, a new paragraph (B) has been added to Rule 556 listing the requirements for the contents of the petition. These requirements are taken from the Court's March 12, 2013 Order.

The amendment also clarifies the process for the resumption of the use of indicting grand juries. The Court's Orders used the phrase, "permission to summon an indicting grand jury" that suggests that a petition might need to be filed each time a grand jury has been summoned. Such an interpretation would be cumbersome and contrary to the intent of the current indicting grand jury rules when originally adopted. The existing text of the Rule 556 Comment uses the terminology of a petition "to resume using the indicting grand jury." The intention for the use of this terminology was that a court of

common pleas would only petition the Court once for the initial permission to resume the use of indicting grand juries.

Additionally, the amendment retains the terminology of the Court's Orders that the certification must be made by "the district attorney" rather than "the attorney for the Commonwealth" since the procedure under this rule would encompass the practice within judicial district as a whole rather than being applicable to an individual case.

RULES AND REGULATIONS

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CHS. 61, 63, 65 AND 79]

Fishing; Simplification and Consolidation

The Fish and Boat Commission (Commission) amends Chapters 61, 63, 65 and 79. The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code).

A. *Effective Date*

The final-form rulemaking will go into effect on January 1, 2016, except for the amendments to § 65.24 (relating to miscellaneous special regulations) for Opossum Lake, Cumberland County, and Leaser Lake, Lehigh County, which will go into effect on June 18, 2016.

B. *Contact Person*

For further information on the final-form rulemaking, contact Laurie E. Shepler, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The amendments to §§ 61.1, 61.2, 61.7, 61.8, 63.3, 63.8, 63.48, 65.4a, 65.5, 65.7, 65.9, 65.11—65.19, 65.26 and 79.2 are published under the statutory authority of section 2102 of the code (relating to rules and regulations). The amendment to § 63.20 (relating to permits for the protection and management of trout and salmon) is published under the statutory authority of section 2904 of the code (relating to permits for protection and management of particular fish). The amendments to § 65.21 (relating to waters limited to specific purposes—exclusive use fishing areas) and § 65.24 are published under the statutory authority of section 2307 of the code (relating to waters limited to specific purposes).

D. *Purpose and Background*

It has long been a concern that the complexity and number of the Commission's fishing regulations may be a deterrent to people fishing. In response to those concerns, several Commissioners expressed an interest in regulation simplification and consolidation, and Executive Director John A. Arway directed Commission staff to review existing fishing regulations. A workgroup comprised of staff across bureau and office lines was formed in 2013. Workgroup meetings were held and drafts were circulated throughout 2013 and 2014. At the September 2014 Commission meeting, a preliminary draft with proposed regulatory amendments was shared with the Law Enforcement Committee. The Commission, at its January 2015 meeting, approved the publication of a proposed rulemaking containing proposed amendments and seeking public comments for 60 days.

E. *Summary of Changes*

As part of the regulation simplification and consolidation process, the Commission adopts a number of housekeeping and substantive changes. The housekeeping changes are to §§ 61.2, 61.8, 65.4a, 65.5, 65.7, 65.9, 65.11, 65.12, 65.14—65.19 and 65.21. The substantive changes are as follows.

(1) Because note 3 in § 61.1 (relating to Commonwealth inland waters) is not applicable to gizzard shad, the Commission deletes the reference to it (three asterisks after gizzard shad). In addition, because § 65.10 is reserved, references to this section and the program in note 2 of § 61.1 are deleted.

(2) In § 61.7 (relating to Susquehanna River and tributaries), the Commission deletes the note because the harvest of baitfish in this note is applicable only to landlocked alewife harvested from inland lakes, ponds and reservoirs and does not apply to this section.

(3) In § 63.3 (relating to fishing in stocked trout waters), the former definition of "approved trout waters" was "designated waters that contain significant portions that are open to public fishing and are stocked with trout." The term, however, suggests a much broader category of trout waters, including both stocked and wild, and may cause confusion among the public. Therefore, the Commission uses the term "stocked trout waters" to more accurately describe the category of trout waters at issue and now defines the term as "waters that are stocked with adult trout by the Commission." The Commission also amends other sections in Chapters 61, 63, 65 and 79 using "approved trout waters" to say "stocked trout waters."

(4) In § 63.48 (relating to permit for the use of cast nets or throw nets), the Commission deletes the restriction limiting baitfish to 8 inches in length because there is not a biological reason for the restriction.

(5) In §§ 65.5 and 65.7 (relating to catch and release artificial lures only; and trophy trout artificial lures only), the Commission deletes the list of prohibited lures and substances in favor of naming the permitted items only to eliminate confusion and having to name or describe all prohibited lures and substances.

(6) In § 65.11 (relating to panfish enhancement), the Commission makes the language consistent with the Summary Book and the intent of the regulation when it went into effect.

(7) The Commission deletes § 65.13 because the Commission's staff determined based on peer reviewed and published scientific research on the waters within this program that this regulation is ineffective.

(8) In § 65.14 (relating to catch and release fly-fishing only), the Commission deletes the reference to single hooks to clarify that multiple hooks are permitted. The Commission, however, does not delete the reference to "fly line with a maximum of 18 feet in leader material or monofilament line attached" to allow center-pinning techniques. To eliminate confusion and having to name or describe all prohibited lures and substances, the Commission deletes the list of prohibited items in favor of naming the permitted lures and substances only.

(9) In § 65.24, the Commission adopts the following amendments:

(a) The Commission deletes the miscellaneous special regulation on Elk Creek (Big Elk Creek), Chester County, because the harvest of alewife and blueback herring is not allowed in the Susquehanna system.

(b) The Commission deletes the miscellaneous special regulation on Opossum Lake, Cumberland County, as of June 18, 2016, because it specifically provides that it will remain in effect until that date.

(c) The Commission deletes the miscellaneous special regulation on the West Branch, Clarion River, Elk County, because wading is now permitted.

(d) The Commission deletes the miscellaneous special regulation on Lake Scranton, Lackawanna County, because the origin of this requirement was a lease agreement among Pennsylvania Gas and Water Company (now Pennsylvania American Water Company), Allied Services and the Commission, and the water company advised the Commission that it wishes to terminate the agreement. In addition, both Pennsylvania American Water Company and Allied Services requested that the miscellaneous special regulation be deleted.

(e) The Commission deletes the miscellaneous special regulation on Leaser Lake, Lehigh County, as of June 18, 2016, because it specifically provides that it will remain in effect until that date.

(f) The Commission changes the miscellaneous special regulation on the West Branch Delaware River, Wayne County, to be consistent with other changes throughout this chapter regarding to the use of prohibited lures and substances in artificial lures only areas.

(g) The Commission deletes the miscellaneous special regulation on Indian Lake, Westmoreland County, because the Commission has data to support designating this lake as big bass and panfish enhancement and the Commission has designated it accordingly.

(h) The Commission deletes the miscellaneous special regulation on Lake Winola, Wyoming County, because there is no biological support for this regulation.

The Commission amends these sections to read as set forth in the proposed rulemaking published at 45 Pa.B. 1619 (April 4, 2015) with the exception of § 65.14, which is amended to read as set forth in Annex A.

F. Paperwork

The final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will not have an adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will not impose new costs on the private sector or the general public.

H. Public Involvement

Notice of proposed rulemaking was published at 45 Pa.B. 1619 with a 60-day public comment period. The Commission received a total of 110 public comments—1 before, 107 during and 2 after the formal comment period. One comment generally supported and one comment generally opposed the proposed changes.

With regard to the proposed changes to § 65.11, the Commission received nine comments. One comment supported the proposed rulemaking and one comment suggested that the Commission expand the program and reduce the daily limit to 15 for each species with a total of no more than 45 combined species. The other comments seemingly misunderstand the proposed rulemaking

to mean that the Commission proposed to reduce the creel limit for carp (and other listed species), and those comments supported a reduction.

With regard to the proposal to rescind § 65.13, the Commission received 27 comments. Two comments supported elimination of the program, 5 comments were neutral and 20 comments opposed it.

With regard to the proposed amendments to § 65.14, the Commission received 1 comment supporting and 67 comments opposing center pinning in fly fishing only areas.

In addition, the Commission received two comments offering suggestions regarding other management options. Two comments (and several others addressing the rescission of § 65.13) urged the Commission to establish a valid Trout Management Plan prior to executing policy decisions on trout management matters. Of the 110 comments, 2 comments also suggested that the Commission increase the size limit for trout from 7 to 9 inches. Copies of the public comments were provided to the Commissioners.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the public comments received were considered.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 61, 63, 65 and 79, are amended by deleting § 65.13 and amending §§ 61.1, 61.2, 61.7, 61.8, 63.3, 63.8, 63.20, 63.48, 65.4a, 65.5, 65.7, 65.9, 65.11, 65.12, 65.15—65.19, 65.21, 65.24, 65.26 and 79.2 to read as set forth in 45 Pa.B. 1619 and by amending § 65.14 to read as set forth in Annex A.

(b) The Executive Director will submit this order, Annex A and 45 Pa.B. 1619 to the Office of Attorney General for approval as to legality and form as required by law.

(c) The Executive Director shall certify this order, Annex A and 45 Pa.B. 1619 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect on January 1, 2016, except for the amendments to § 65.24 pertaining to Opossum Lake, Cumberland County, and Leaser Lake, Lehigh County, which will go into effect on June 18, 2016.

JOHN A. ARWAY,
Executive Director

Fiscal Note: Fiscal Note 48A-264 remains valid for the final adoption of the subject regulations.

Annex A

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart B. FISHING

CHAPTER 65. SPECIAL FISHING REGULATIONS

§ 65.14. Catch and release fly-fishing only.

(a) The Executive Director, with the approval of the Commission, may designate waters as catch and release fly-fishing only. The designation of waters as catch and release fly-fishing only shall be effective when the waters are so posted after publication of a notice of designation in the *Pennsylvania Bulletin*.

(b) It is unlawful to fish in waters designated and posted as catch and release fly-fishing only except in compliance with the following requirements:

(1) Fishing may be done with artificial flies and streamers constructed of natural or synthetic materials so long as all flies are constructed in a normal fashion with components wound on or about the hook or hooks. Use or possession of any other lures or substances is prohibited.

(2) Fishing shall be done with tackle which is limited to fly rods, fly reels and fly line with a maximum of 18 feet in leader material or monofilament line attached. Spinning, spincast and casting rods and reels are prohibited.

(3) No trout may be killed or had in possession.

(4) Open to fishing year-round.

(5) Taking of baitfish or fishbait is prohibited.

(6) Wading is permitted unless otherwise posted.

(7) A current trout/salmon permit is required.

(c) Notwithstanding the requirements of this section an angler in a boat may possess bait and fish caught in compliance with the seasons, sizes and creel limits in effect for the water from which taken, provided that the boat angler floats through the catch and release fly-fishing only area without stopping or engaging in the act of fishing or the boat angler puts in or takes out his boat at an access point within the catch and release fly-fishing only area.

PROPOSED RULEMAKING

LIQUOR CONTROL BOARD

[40 PA. CODE CHS. 3, 5 AND 11]

Limited Wineries

The Liquor Control Board (Board), under the authority of section 207(i) of the Liquor Code (47 P. S. § 2-207(i)), proposes to amend Chapters 3, 5 and 11 (relating to license applications; duties and rights of licensees; and purchases and sales).

Summary

In recent years, the Liquor Code (47 P. S. §§ 1-101—10-1001) has been amended to expand the business opportunities for holders of limited winery licenses. During this same time period, the Board amended its regulations to reflect some, but not all, of these changes. This proposed rulemaking will make the Board's regulations consistent with the Liquor Code.

This proposed rulemaking reflects that section 505.2(a)(1) and (2) of the Liquor Code (47 P. S. § 5-505.2(a)(1) and (2)) authorizes limited wineries to produce and sell alcoholic cider in addition to wine, section 505.2(a)(1) of the Liquor Code authorizes limited wineries to produce wine and alcoholic cider from any agricultural commodity, not just fruit, and section 505.2(a)(6.2) of the Liquor Code allows for on-premises consumption of wine and alcoholic cider. This proposed rulemaking reflects that section 505.2(a)(6.1) of the Liquor Code authorizes limited wineries to sell food for on-premises and off-premises consumption. Further, this proposed rulemaking reflects the current hours of operation for limited wineries, which are authorized by section 505.2(a)(6.3) of the Liquor Code.

In addition, the manner in which payment for wine and alcoholic cider may be made is proposed to be amended to be consistent with the Liquor Code. The list of items that limited wineries may sell is proposed to be updated to reflect section 505.2(a)(6.1) and (6.2) of the Liquor Code. Proposed amendments regarding sampling reflect that limited wineries can sell or give alcohol, or both, for on-premises consumption. Finally, a Liquor Code reference and a regulatory reference are proposed to be updated.

Affected Parties

The affected parties include present and future holders of limited winery licenses.

Paperwork Requirements

The proposed rulemaking would not require additional paperwork to be filed.

Fiscal Impact

The proposed rulemaking is intended to make the Board's regulations consistent with the Liquor Code. Therefore, a fiscal impact is not anticipated.

Effective Date

This proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Public Comments

Interested persons are invited to submit written comments about this proposed rulemaking to Rodrigo Diaz, Executive Deputy Chief Counsel, or Justin Blake, Assis-

tant Counsel, Office of Chief Counsel, Liquor Control Board, Room 401, Northwest Office Building, Harrisburg, PA 17124-0001 within 30 days after publication in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Public comments will be posted on the Independent Regulatory Review Commission's (IRRC) web site. Personal information will not be redacted from the public comments received.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 2, 2015, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to IRRC and to the Chairpersons of the House Liquor Control Committee and Senate Committee on Law and Justice. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

TIM HOLDEN,
Chairperson

Fiscal Note: 54-85. No fiscal impact; (8) recommends adoption.

Annex A

TITLE 40. LIQUOR

PART I. LIQUOR CONTROL BOARD

CHAPTER 3. LICENSE APPLICATIONS

Subchapter G. LIMITED WINERY LICENSES

§ 3.62. Creation.

Under section 505.2 of the Liquor Code (47 P. S. § 5-505.2), holders of a [**Limited Winery License**] **limited winery license** may produce and sell wines **and alcoholic ciders**, subject to §§ 3.63, 5.103 and 11.111 (relating to agents; limited wineries; and sale by limited winery licensees).

§ 3.63. Agents.

A limited winery licensee may employ individuals to solicit orders, off the licensed premises, for wine **and alcoholic cider** produced by it or to promote the sale of wines **and alcoholic ciders** off the premises. Agents may advertise and promote the sale of merchandise by "missionary work" of only brands sold by the limited winery licensee by whom the agents are employed and may solicit orders from licensees and make deliveries in properly registered vehicles.

§ 3.64. Additional Board-approved locations.

(a) Additional locations, as authorized by section [**505.2(3) of the Liquor Code (47 P. S. § 5-505.2(3))**] **505.2(a)(3) of the Liquor Code (47 P. S. § 5-505.2(a)(3))**, may not be used by a limited winery licensee in the operation of a licensed business unless approved by the Board.

(1) An application for an additional location shall be made to the Board, accompanied by a \$220 fee. A renewal application shall be submitted annually and be accompanied by a \$75 fee.

(2) Applications for additional Board-approved locations may be submitted on a prior approval basis. If plans are approved, the necessary construction or alterations shall be completed within 6 months of the approval. Business may not be transacted until the premises has been reinspected and the Board has approved the completed construction or alterations.

(3) Portions of an additional Board-approved location premises shall be contiguous.

(4) Additional Board-approved locations of a limited winery license shall be under the control of a manager appointed in accordance with [§ 5.16] § 5.23 (relating to appointment of managers).

CHAPTER 5. DUTIES AND RIGHTS OF LICENSEES

Subchapter H. RECORDS AND REPORTS—BREWERIES, BONDED WAREHOUSES, LIMITED WINERIES AND LICENSED DISTILLERIES OF HISTORICAL SIGNIFICANCE

§ 5.103. Limited wineries.

(a) *Records.* A holder of a [**Limited Winery License**] **limited winery license** obtained under § 3.62 (relating to creation) shall maintain and keep on the licensed premises daily permanent records which shall conform to the requirements of section 512 of the Liquor Code (47 P. S. § 5-512). The records [**shall**] **must** include complete details concerning the source of [**fruits**] **agricultural commodities** used in the production of wines and **alcoholic ciders**. Electronic media recordkeeping, maintained and based upon generally accepted accounting principles, [**shall**] **will** be permitted [**in lieu**] **instead** of hard copy records. The recordkeeping system utilized by the licensee [**shall**] **must** have the capability to provide for the reconciling of required data. Entries shall be verifiable by supporting original documents. The records [**shall**] **must** include complete details concerning the source of [**fruits**] **agricultural commodities** used in the production of wines and **alcoholic ciders**.

(b) *Sales invoice.* In addition to the records prescribed in subsection (a), except as otherwise provided in this part, a sales invoice shall be prepared at the licensed premises for each sale. The sales invoice shall be prepared in accordance with the following:

(1) The sales invoice [**shall**] **must** be imprinted or affixed with the name and address of the limited winery.

(2) The sales invoice [**shall**] **must** show the name and address of the recipient of the merchandise, date of sale, number of units, size and type of package, brand name, selling price of the wine **or alcoholic cider, or both**, and the net cost to the customer. The name and address of private individuals is not required on sales invoices covering quantities of 16 liters or less; [**in lieu**] **instead** of preparing sales invoices for the sales, the transactions may be entered individually on a counter sheet maintained in columnar form showing the information required on sales invoices, other than name and address of the purchaser. The counter sheet shall be

totalled daily and the totals entered into the sales register noted in section 512 of the Liquor Code [(47 P. S. § 5-512)].

(3) The sales invoice [**shall**] **must** show the Commonwealth sales tax, where applicable, as a separate entry.

(4) The sales invoice may include other items permitted for sale by limited wineries if the sale of wines **or alcoholic cider, or both**, is listed separately from other permitted items sold by the licensee.

(5) An invoice shall be prepared for any amount of wine **or alcoholic cider, or both**, shipped to customers [**via**] **by** Transporter-for-Hire, Class C carriers. The invoice shall be prepared only for persons 21 years of age or older, and limited winery licensees shall request the signature of a recipient, 21 years of age or older, from the transporter making the deliveries and a return acknowledgment of delivery to the recipient. Copies of acknowledgments of delivery shall be maintained on the licensed premises for 2 years.

(6) When a sale requires the preparation of an invoice, one copy shall be given to the recipient of the merchandise and a copy retained on the licensed premises for 2 years.

(c) *Reports.* A licensed limited winery shall file reports in the manner set forth by the Board covering operations of their licensed business during the preceding calendar year. The reports shall be signed and sworn to by the licensee or his authorized agent and shall be filed with the Board at the time of the renewal or validation of the license. A copy of each report shall be retained on the licensed premises for at least 2 years from the date of filing. Failure to file the reports will preclude the Board from renewing or validating the license in question. These reports are in addition to information or reports the licensed limited winery may be required to provide to the Department of Agriculture under 3 Pa.C.S. Chapter 45 (relating to Agricultural Commodities Marketing Act) and regulations promulgated thereunder, including 7 Pa. Code § 104.75 (relating to accounting and payment).

CHAPTER 11. PURCHASES AND SALES

Subchapter C. WINES LIMITED WINERIES

§ 11.111. Sale by limited winery licensees.

(a) A limited winery licensee, licensed under § 3.62 (relating to creation), may sell wines **and alcoholic ciders** produced on the licensed premises in accordance with the Liquor Code and this part, under the conditions in this subsection.

(1) [**There may be no sales for consumption on the licensed premises.**] **Sales may be made by the glass, bottle or any other open or closed container.**

(2) Wine **and alcoholic cider** sold under a limited winery license may be shipped by transporter-for-hire or in a vehicle properly registered with the Board, as provided in Chapter 9, Subchapter A (relating to transportation of liquor, malt or brewed beverages or alcohol).

[(3) **Wine sold and destined to points within this Commonwealth shall be in sealed original containers.**

(4) **Sales may be made generally only between the hours of 9 a.m. and 9 p.m. Monday to Saturday, inclusive, and 10 a.m. to 6 p.m. on Sunday. During the period from the Thanksgiving Day holiday**

through New Year's Day, limited winery sales locations may remain open until 10 p.m. of sales day to conform with the closing times of neighboring mall or shopping district businesses. Additionally, a limited winery may request approval from the Board to extend sales hours in individual locations at other times during the year, or beyond the limits set in this section. The request shall be in writing, to the Board's Office of the Chief Counsel, and shall detail the exact locations where sales hours are proposed to be extended. The licensee shall also set forth the proposed hours and dates of extended operation, as well as the reason for, and justification of, the proposed extended sales hours.]

(3) A limited winery may sell wine and alcoholic ciders from 7 a.m. until 2 a.m. of the following morning, Mondays through Saturdays, and from 9 a.m. until 2 a.m. of the following morning on Sundays.

[(5)] (4) While there may be no sales on credit, a limited winery may accept:

(i) From licensees and retail customers, checks drawn on their account, **cash, money orders, cashier checks, debit cards and electronic funds transfers.**

(ii) From retail customers, credit cards issued by banking or financial institutions subject to State or Federal regulations.

[(6)] (5) Visitors [**on the licensed premises**] at the winery or at one of the additional Board-approved locations may be provided, with or without charge [**with**], samples of wine or alcoholic cider, or both, produced by the limited winery [**for tasting and with crackers, nuts, cheese, bread sticks and bread cubes to be used in conjunction with tastings**]. Samples may also be provided, with or without charge, at locations licensed under a farmer's market permit or under the special permit available for participation in alcoholic cider, wine and food exhibitions. Samples may not be provided at a limited winery's storage facilities since only the licensee and its employees may be present at those locations.

[(7)] (6) Limited winery licensees engaged in the retail and wholesale sales of wine or alcoholic cider, or both, are responsible to conform to the Liquor Code and this title.

[(8)] (7) In addition to the sale of wines and alcoholic ciders, the following items are permitted to be offered for sale on the licensed premises:

(i) [**Pennsylvania-grown fruits and the following products produced from the fruits:**] Food for on premises and off premises consumption.

(A) [**Juices.**] Nonalcoholic beverages.

(B) Juice concentrates.

[(C)] **Jellies, jams and preserves.**

(ii) **Pennsylvania-grown mushrooms.**]

[(iii)] (ii) Home winemaking equipment and supplies.

[(iv)] (iii) Wine and alcoholic cider serving and storage accessories as follows:

(A) Cork removers.

(B) Wine and alcoholic cider glasses and decanters.

(C) Wine and alcoholic cider racks.

(D) Serving baskets and buckets.

(E) Bottle stoppers.

[(v)] (iv) Publications dealing with wine and winemaking and alcoholic cider and cider making.

[(vi)] **Cheese, crackers, breads, nuts and preserved meats for consumption off the premises.**]

(v) **Wine-scented or liquor-scented candles acquired or produced by the limited winery.**

[(vii)] (vi) Gift packages consisting of any combination of the items listed in subparagraphs (i)—[(vi)] (v).

[(viii)] (vii) Promotional items advertising the limited winery such as tee shirts, glassware, caps, and the like.

[(9)] (8) Sales on the licensed premises of merchandise not listed in paragraph [(8) is] (7) are subject to Board approval. The approval shall be requested by letter addressed to the Board. A limited winery licensee will be advised of approved items through an appropriate means of dissemination.

[(10)] (9) Mail, **Internet** or telephone orders may be accepted. Delivery of products shall be accomplished through the use of vehicles properly registered by the limited winery licensees or through properly licensed transporters. It is the responsibility of the limited winery licensee to insure that wine [**is**] and alcoholic cider are not delivered to minors and that proper invoices are maintained under § 5.103 (relating to limited wineries).

(b) The employment of an agent by a limited winery is governed by § 3.63 (relating to agents).

(c) Records, sales invoices and reports shall be kept as prescribed in § 5.103.

(d) The use of additional Board-approved locations by limited winery licensees is governed by § 3.64 (relating to additional Board-approved locations).

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Substantial Amendment to the 2015 Action Plan; Public Hearing

The Department of Community and Economic Development (Department) is amending the Commonwealth's 2015 Action Plan. The Action Plan is the annual application to the United States Department of Housing and Urban Development (HUD) for Federal funds administered by the Commonwealth. Annually the Department prepares the Action Plan which outlines the method of distribution for Federal funding received by the Department. This Federal funding includes the Community Development Block Grant (CDBG), the HOME Investment Partnerships (HOME), the Emergency Solutions Grant, the Housing Opportunities for Persons with AIDS, the Community Development Block Grant-Disaster Recovery and the Neighborhood Stabilization Program (NSP) programs. The 2015 Action Plan for these funds was finalized and submitted to HUD on July 1, 2015. The items to be changed through this Substantial Amendment follow:

- Corrects the percentage of CDBG funding to be used for the entitlement (88.35%) and competitive (9.65%) formula distribution of funds caused by the repayment to HUD of ineligible costs from the 2012 monitoring.
- Description of the intended use of the recaptured funds and program income from NSP will be added to the resources for 2015.
- Removes the 10% change requirement currently in place to trigger a substantial amendment to the plans.

This leaves the minimum of a \$1 million change to trigger the need and anything below will be handled with an amendment.

- Additional detail of the required HOME resale/recapture stipulations to the guidelines.

Interested persons may view the Substantial Amendment at <http://community.newpa.com/> (scroll to the bottom of the page) or request a copy by following the procedure under Written Comments.

Public Hearing

The public hearing for the Substantial Amendment will be conducted by means of the Internet between 1 p.m. and 2 p.m. on Tuesday, September 29, 2015. This more widely available computer access will replace the onsite public hearing. The format will be more accessible than an in-person meeting because those who wish to make comment or discuss policy may participate directly from their electronic device or from a computer located at their public library.

An individual or organization may give testimony or comments by means of the Internet regarding the previously listed proposed changes. The Commonwealth encourages public participation in this process.

Advance registration is required to participate. Contact Megan L. Snyder at (717) 720-7404 to receive registration instructions for the public Internet hearing at least 24 hours prior to the hearing date. During the hearing, if support is required, call (717) 787-5327. The hearing will be shortened if there is no one to testify or there is minimal response.

Individuals with a disability or limited English proficiency who wish to participate in the public hearing should contact Megan L. Snyder, Department of Community and Economic Development, Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg,

PA 17120-0225, (717) 720-7404 or TDD at (717) 346-0308 to discuss how the Department can accommodate their needs.

Written Comments

Written testimony, instead of Internet testimony, must be submitted by 5 p.m. on Monday, October 5, 2015. Submit comments to Megan L. Snyder, Department of Community and Economic Development, Center for Community Financing, 400 North Street, 4th Floor, Commonwealth Keystone Building, Harrisburg, PA 17120-0225, RA-DCEDcdbg&homequestions@pa.gov.

DEPARTMENT OF DRUG AND ALCOHOL PROGRAMS

Pennsylvania Advisory Council on Drug and Alcohol Abuse Meeting

The Pennsylvania Advisory Council on Drug and Alcohol Abuse (Council) will hold a public meeting on October

14, 2015, from 1 p.m. to 3:30 p.m. The meeting will be held at the Giant Super Store, Susquehanna Conference Room, 2300 Linglestown Road, Harrisburg, PA 17110 (717) 545-0489. The meeting is open to the public. For additional information, visit the Department of Drug and Alcohol Programs' (Department) web site at www.ddap.pa.gov.

The primary focus of this Council meeting is for the Council members to meet to discuss current drug and alcohol issues and challenges facing this Commonwealth and to serve in an advisory capacity to the Department on these issues.

For additional information visit the Department's previously listed web site or contact Ann Catalano, Department of Drug and Alcohol Programs', Executive Office at (717) 214-1937.

Persons with disabilities who wish to attend the meeting and require an auxiliary aid, service or other accommodation should contact Roseann Deutsch at (717) 214-1937.

This meeting is subject to cancellation without notice.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications concern, but are not limited to, discharges regarding industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFO). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Waste; Discharge into Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. In accordance with 25 Pa. Code § 92a.32(d), the proposed discharge of stormwater associated with construction activities will be managed in accordance with the requirements of 25 Pa. Code Chapter 102. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the United States Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on NPDES applications are invited to submit statements to the contact office noted before the application within 30 days from the date of this public notice. Persons wishing to comment on WQM permit applications are invited to submit statements to the office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PA0025917 A-1, Sewage, SIC Code 4952, **Chalfont New Britain Township Joint Sewer Authority Bucks County**, 1645 Upper State Road, Doylestown, PA 18901. Facility Name: Chalfont New Britain Township Joint Sewer Authority. This existing facility is located in Doylestown Township, **Bucks County**.

Description of Existing Activity: Chalfont New Britain Township Joint Sewer Authority is requesting that the permitted hydraulic capacity of Chalfont New Britain STP be increased from 6.0 to 7.0 MGDs. The Department rerated the hydraulic design capacity of the facility from 6.0 to 7.0 MGDs. The NPDES permit is being amended to update the reference to the rerated hydraulic design capacity of the facility. This amendment does not affect the effluent limits for Outfall 001 which are based on an annual average design flow of 4.625 MGDs.

The receiving stream(s), Neshaminy Creek, is located in State Water Plan watershed 2-F and is classified for Trout Stocking and Migratory Fishes, aquatic life, water supply and recreation. The nearest downstream public water supply intake is for Aqua Pennsylvania located on Neshaminy Creek. The discharge is not expected to affect public water supplies.

You may make an appointment to review the DEP files on this case by calling the File Review Coordinator at 484-250-5910.

The EPA Waiver is not in effect.

The permittee shall conduct and submit to the Department a study to develop a site-specific methylmercury criterion and a site-specific translation factor for Rambo Run and Ebaughs Creek. The study will be used to develop effluent discharge limits for total mercury for Rambo Run and Ebaughs Creek. Pursuant to 40 CFR 122.62 and 25 Pa. Code § 92a.72, based on the information presented by the permittee to the Department, or in the event of permittee's failure to present adequate information to the Department, the Department will amend the existing NPDES permit to include specific effluent limitations for total mercury.

STATE CONSERVATION COMMISSION

PROPOSED NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs

This notice provides information about agricultural operations that have submitted nutrient management plans (NMPs) for approval under 3 Pa.C.S. Chapter 5 and that have or anticipate submitting applications for new, amended or renewed NPDES permits, or Notices of Intent (NOIs) for coverage under a general permit, for CAFOs, under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Based upon preliminary reviews, the State Conservation Commission (SCC) or County Conservation Districts (CCD) working under a delegation agreement with the SCC have completed an administrative review of NMPs described. These NMPs are published as proposed plans for comment prior to taking final actions. The NMPs are available for review at the CCD office for the county where the agricultural operation is located. A list of CCD office locations is available at <http://www.nacdnet.org/about/districts/directory/pa.phtml> or can be obtained from the SCC at the office address listed or by calling (717) 787-8821.

Persons wishing to comment on an NMP are invited to submit a statement outlining their comments on the plan to the CCD, with a copy to the SCC for each NMP, within 30 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the NMPs. Comments should include the name, address and telephone number of the writer and a concise statement to inform the SCC of the exact basis of the comments and the relevant facts upon which they are based. Comments should be sent to the SCC, Agriculture Building, Room 310, 2301 North Cameron Street, Harrisburg, PA 17110.

Persons with a disability who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information should contact the SCC through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PUBLIC WATER SUPPLY (PWS) PERMITS

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for PWS permits to construct or substantially modify public water systems.

Persons wishing to comment on permit applications are invited to submit statements to the office listed before the application within 30 days of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding an application. A comment should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and related documents are on file at the office listed before the application and available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability that require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
 PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or

suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northeast Region: Eric Supey, Environmental Cleanup and Brownfields Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit,

may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

36-05152C: Kellogg USA Inc. (2050 State Road, Lancaster, PA 17604) for the replacement of an existing dryer and dryer cooler on the Coating Line with a new dryer and dryer cooler with increased capacity. One (1) new American Air Filter, Model W, Size 36, Rotoclone Wet Scrubber will be added to control the air emissions from the new equipment at the East Hempfield plant located in East Hempfield Township, **Lancaster County**. The expected decrease in facility emissions as a result of the changes proposed are: 0.002 tpy of PM. The facility is a State Only facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12, and 25 Pa. Code § 123.13 Processes. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701

Contact: Muhammad Q. Zaman, Environmental Program Manager—Telephone: 570-327-3648

47-00014C: United States Gypsum Company (Plant Manager, 60 PPL Road, Danville, PA 17821) has submitted a plan approval for the revision of VOC emission restrictions with respect to the wallboard kiln dryer (Source ID P114) located at the Washingtonville Plant facility. The facility is located in Derry Township, **Montour County**.

The Department's review of the plan approval application and supplementary information submitted by the

facility indicates that the proposed revisions to the VOC emission restrictions will meet all of the applicable air quality regulatory requirements pertaining to the source, including the Department's Best Available Technology (BAT) requirements of 25 Pa. Code §§ 127.1 and 127.12. As a result of the revisions, the annual potential to emit VOC from the source will decrease. Based on these findings, the Department intends to approve the application and issue a plan approval for the proposed VOC emission revisions. In accordance with BAT, the proposed VOC emission rate from the existing wallboard kiln dryer will not exceed 4.6 pounds per hour (lbs/hr) while the dryer is processing wallboard containing no mold resistant additive; 25.9 lbs/hr and 0.019 pound VOC per pound of mold resistant additive while the dryer is processing wallboard containing mold resistant additive; and 30.3 tons in any 12 consecutive month period. The plan approval includes testing, monitoring, recordkeeping and reporting conditions to assure compliance with the proposed maximum VOC emissions rates. Additionally, the maximum mold resistant additive usage will be restricted based on daily average and rolling 12-month total and monitored continuously. All applicable Federal and State regulatory requirements including testing, monitoring, recordkeeping and reporting conditions to show compliance with the applicable requirements have been included in the plan approval.

The facility is a major (Title V) facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for Plan Approval 47-00014C, the requirements established in the plan approval will be incorporated into Title V Operating Permit 47-00014 pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-0550.

17-00001G: NRG REMA LLC (250 Power Plant Drive, Shawville, PA 16873) has submitted a plan approval application to the PA Department of Environmental Protection (DEP) for the proposed natural gas addition to the utility boilers at the Shawville Generating Station facility located in Bradford Township, **Clearfield County**. The plan approval application indicates that the utility boilers will be retrofitted with burners to accommodate natural gas. The proposed change in method of operation of the utility boilers, which are identified in the facility's Title V Operating Permit 17-00001 as Source IDs 031, 032, 033 and 034, will result in air contaminant emissions increases less than de minimis emissions levels. The company's New Source Review (NSR) applicability determination calculations show that there will be a total increase of annual VOC emissions from the utility boilers equal to approximately 18.3 tons per year (tpy). The total annual VOC emissions from the utility boilers, based on the NSR calculations, are equal to approximately 23.8 tpy.

PA DEP's review of the information submitted by NRG REMA LLC indicates that the proposed change in method of operation will comply with all applicable regulatory requirements, including the NSR requirements of 25 Pa. Code Chapter 127. Additionally, the proposed change in method of operation shows that the utility boilers upon startup will comply with all applicable Mercury and Air Toxics Standard (MATS) requirements as codified in 40 CFR Part 63 Subpart UUUUU. The utility boilers are

currently shut down. The company is planning to perform startup of the utility boilers sometime after the completion of the natural gas addition. The plan approval includes the applicable MATS requirement for the utility boilers. The utility boilers are required to be operated such that, the monthly heat inputs of fuels are monitored as well as the heat input calculations, in order to verify compliance with the clean fuel exemption of the MATS as codified under 40 CFR Section 63.9983. The Department-certified continuous emission monitoring systems (CEMS) installed on the utility boilers stacks will be used to monitor the hourly heat input to derive the monthly heat input and the heat input calculations. The heat input calculations are used to verify the utility boilers have been operated in a manner that each of the boilers meets the criteria for natural gas-fired electric utility steam generating unit, as specified in 40 CFR Section 63.10042. The permittee is required to certify the CEMS for natural gas combustion. Certification of the CEMS shall be obtained from the Department.

Based on the findings presented above, the Department proposes to issue a plan approval for the proposed change in method of operation of the utility boilers. The facility is a major (Title V) facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions including the specifications of the application for Plan Approval 17-00001G, the requirements established in the plan approval will be incorporated into Title V Operating Permit 17-00001 pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's North Central Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-0550.

14-00003G: Pennsylvania State University (101P Physical Plant Bldg, University Park, PA 16802) for the construction of two Doosan model HP1600WCU air compressors powered by 580 brake-horsepower diesel-fired Cummins QSX15 reciprocating internal combustion engines at the University Park Campus East and West Campus Steam Plants located in College Township and State College Borough, **Centre County**.

The Department of Environmental Protection's (Department) review of the information submitted by the Pennsylvania State University indicates that the air contamination sources will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the new source performance standards (NSPS), the national emission standards for hazardous air pollutants (NESHAPs), and the best available technology (BAT) requirement of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the air compressors. The emission from each proposed source included in this project will not exceed the following limits: Nitrogen Oxide—0.3 gram per horsepower-hour, Carbon Monoxide—2.6 grams per horsepower-hour, Particulate Matter—0.015 gram per horsepower-hour, Nonmethane Hydrocarbons—0.14 gram per horsepower-hour, Formaldehyde—580 ppbvd.

In addition to the emission limitations, the following is a brief description of the conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements. The diesel fuel fired in the stationary RICE

shall comply with the following per-gallon standards: (a) Sulfur content of 15 ppms maximum. (b) Cetane index or aromatic content, as follows: (i) A minimum cetane index of 40; or (ii) A maximum aromatic content of 35 volume percent. The permittee shall operate each of the stationary RICE no more than 200 hours in any 12 consecutive month period. The permittee shall equip the stationary RICE with non-resettable hour meters that log the runtime of the engines. The permittee shall demonstrate continuous compliance with the requirements of 40 CFR Part 63 Subpart ZZZZ by: (a) Conducting semiannual performance tests for formaldehyde to demonstrate that emissions remain at or below the formaldehyde concentration limits; and (b) Collecting the approved operating parameter (if any) data according to 40 CFR § 63.6625(b); and (c) Reducing these data to 4-hour rolling averages; and (d) Maintaining the 4-hour rolling averages within the operating limitations for the operating parameters established during the performance test. The diesel particulate filters incorporated into the stationary RICE must be installed with backpressure monitors that notify the permittee when the high backpressure limit of the engine is approached. The permittee shall minimize the engine's time spent at idle during startup and minimize the engine's startup time to a period needed for appropriate and safe loading of the engine, not to exceed 30 minutes. The permittee must keep records of any corrective action taken after a backpressure monitor has notified the owner or operator that the high backpressure limit of an engine is approached. The permittee shall create and maintain records pertaining to the operation of the stationary RICE, including the dates and durations of engine operation. At all times the permittee must operate and maintain the stationary RICE, including associated air pollution control equipment and monitoring equipment, in a manner consistent with safety and good air pollution control practices for minimizing emissions. The stationary RICE are subject to the Standards of Performance for Stationary Compression Ignition Internal Combustion Engines (40 CFR Part 60 Subpart III). The permittee shall comply with all applicable requirements of 40 CFR §§ 60.4200 through 60.4219. The stationary RICE are subject to the National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines (40 CFR Part 63 Subpart ZZZZ). The permittee shall comply with all applicable requirements of 40 CFR §§ 63.6580 through 63.6675.

The facility is a major (Title V) facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for Plan Approval 14-00003G, the requirements established in the plan approval will be incorporated into Title V Operating Permit 14-00003 pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's North Central Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-0550.

08-00047B: Milan Energy, LLC (6051 Wallace Road Extension, Suite 100, Wexford, PA 15090) for the construction of three (3) 9,708 bhp (7.2 MWs) 4 stroke, lean burn Rolls Royce Bergen B-35:40-V16AG-2 natural gas-fired engine/generator sets, each equipped with both catalytic oxidation and selective catalytic reduction (SCR), at the proposed electric generating station located in Smithfield Township, **Bradford County**. The facility will

also include one (1) 0.64 MMBtu/hour natural gas-fired natural gas line heater; three (3) storage tanks ranging in size from 2,600 gallons to 6,000 gallons; one (1) desiccant dehydration system; various fugitive emissions.

On October 8, 2014, the Department issued Plan Approval 08-00047A for sources at this electric generating station. In that application, five (5) 6,023 bhp Jenbacher natural gas-fired engine/generator sets were approved. These engines were never constructed. The Rolls Royce Bergen engines proposed in this application will take the place of the originally proposed Jenbacher engines. The Department of Environmental Protection's (Department) review of the information submitted by Milan Energy, LLC indicates that the air contamination sources to be constructed will comply with all regulatory requirements, including monitoring, recordkeeping, and reporting requirements, and pertaining to air contamination sources and the emission of air contaminants including the National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines, 40 CFR Sections 63.6580 through 63.6675, the Standards of Performance for Stationary Spark Ignition Internal Combustion Engines, 40 CFR Sections 60.4230 through 60.4248, the Mandatory Greenhouse Gas Reporting Rule, 40 CFR Part 98, 25 Pa. Code Chapter 123 and the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed construction.

The emissions from each proposed engine included in this project will not exceed the following limits: 0.058 g/bhp-hr and 5.44 TPY NO_x, 0.114 g/bhp-hr and 10.69 TPY CO, 0.037 g/bhp-hr and 3.47 TPY VOCs, 0.0006 lb/MMBtu and 0.13 TPY SO_x, 0.050 g/bhp-hr and 4.67 TPY PM₁₀/PM_{2.5}, 0.0009 g/bhp-hr and 0.84 TPY formaldehyde, 10 ppmvds at 15% O₂ ammonia; no visible emissions equal to or greater than 10% for a period or periods aggregating more than three minutes in any 1 hour and equal to or greater than 30% at any time. In addition to the emission limitations, the following is a brief description of the types of conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements: performance testing requirement for all engines to verify compliance with the emissions limitations; establish a facility-wide leak detection and repair (LDAR) program to account for fugitive emissions from high pressure connections; restrict the engines to natural gas firing only; in addition to performance testing, establish follow-up portable analyzer testing for NO_x and CO for all engines every 2,500 hours of operation.

The facility is a State Only facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specifications of the application for Plan Approval 08-00047B, the applicant will subsequently apply for a State Only Operating Permit in accordance with 25 Pa. Code Subchapter F. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-0550.

11-00553A: Starprint Publications, Inc. (722 Dulancey Drive, Portage, PA 15946) Notice is hereby given in accordance with 25 Pa. Code §§ 127.44—127.46 that the Department of Environmental Protection ("Department") intends to issue Air Quality Plan Approval: PA-11-00553A to Starprint Publications, Inc. ("Starprint") to allow the installation and temporary operation of a regenerative thermal oxidizer (RTO) for the control of two currently installed and one planned replacement printing presses by Starprint Publications, Inc. at its commercial printing facility (Facility) located in Portage Borough, **Cambria County**. This plan approval is also for the installation and temporary operation of the above-referenced replacement printing press and temporary operation of the two above-referenced currently installed printing presses at this Facility.

Potential to emit from the Facility is estimated to be 12.25 tons of volatile organic compounds (VOC), 0.34 ton of ethylene glycol, 0.41 ton of total hazardous air pollutants (HAP), 3.98 tons of nitrogen oxides (NO_x), 3.34 tons of carbon monoxide (CO), 0.30 ton of total particulate matter (PM), 0.02 ton of sulfur dioxide (SO₂), and 4,772 tons of carbon dioxide equivalents (CO₂e) per year. Best available technology (BAT) for the operation of heatset web offset lithographic printing presses is emissions capture and destruction by a RTO, use of low VOC content fountain solution and low vapor pressure cleaning solvent, and good work practices. Work practices include operating press dryers at a negative pressure relative to the press room, minimizing the use of manual cleaning solvent, and keeping cleaning solvent and used shop towels in closed containers when not in use. The authorization is subject to State regulations including 25 Pa. Code §§ 123.1, 123.2, 123.31, and 129.67b. Plan Approval has been conditioned to ensure compliance with all applicable rules. This includes emission limitations, monitoring, recordkeeping, reporting, and work practice conditions. Once compliance with the Plan Approval is demonstrated, the applicant will subsequently apply for a State Only Operating Permit in accordance with 25 Pa. Code Subchapter F.

A person may oppose the proposed plan approval by filing a written protest with the Department through Alan Binder via mail to Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222; email to abinder@pa.gov; or fax to 412.442.4194. Additional written comments may also be submitted. Each protest or set of written comments must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval (PA-11-00553A) and a concise statement of the objections to the plan approval issuance and the relevant facts upon which the objections are based.

Starprint's Plan Approval application, the Department's Air Quality Review Memorandum, and the Proposed Air Quality Plan Approval for this project are available for review by any interested party at the Pennsylvania Department of Environmental Protection, Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. To request a review of the Starprint Plan Approval Application, to receive an electronic copy of the Department's Air Quality Review Memorandum, or to receive an electronic copy of the Department's proposed air Quality Plan Approval for this project, a person may contact Phil Bouse at pbouse@pa.gov or 412.442.4000.

For additional information you may contact Alan Binder at 412.442.4168.

All comments must be received prior to the close of business 30 days after the date of this publication.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter G.

39-00004: Mack Trucks, Inc., (7000 Albutis Road, Macungie, PA 18062) The Department intends to issue a renewal Title V Operating Permit for a motor vehicle manufacturing facility in Lower Macungie Township, **Lehigh County**. The facility's emission sources include (2) emergency generators, (2) emergency fire pumps, (1) burn-off oven, (5) spray booths, (1) touch up booth and (1) adhesive booth, (1) paint lab, (1) paint mix room, (1) solvent storage tank, (1) waste solvent tank, (5) bake ovens, (1) roller wash station, one (1) sanding booth, four (4) parts washing stations, and (1) spray gun cleaner station. The sources have the potential to emit major quantities of regulated pollutants above Title V emission thresholds. Actual emission reported by the facility for year 2014 included: CO—1.00 tpy, Lead—0.0 tpy, NO_x—2.40 tpy, PM₁₀—8.50 tpy, PM_{2.5}—0.189 tpy, SO_x—0.0378 tpy, and VOC—189.65 tpy. The proposed Title V Operating Permit contains all applicable requirements including Federal and State regulations. In addition, monitoring, recordkeeping and reporting conditions regarding compliance with all applicable requirements are included.

36-05026: R. R. Donnelley & Sons, Co. (1375 Harrisburg Pike, Lancaster, PA 17601-2612) for operation of printing presses controlled by a regenerative thermal oxidizer at their Lancaster West facility in Lancaster City, **Lancaster County**. Actual emissions from the facility in 2013 were estimated at 5.32 tons CO, 6.33 tons NO_x, 0.49 ton PM₁₀, 0.04 ton SO_x, 73.81 tons VOC, 1.33 ton of a single HAP (glycol ethers), and 2.67 tons of combined HAPs. The Title V Operating Permit will include emission limits and work practice standards along with monitoring, recordkeeping and reporting requirements to ensure the facility complies with the applicable air quality regulations. Among other items, the conditions include provisions derived from 25 Pa. Code 129.67b & 40 CFR 63, Subpart ZZZZ—National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines.

09-00031: Eureka Stone Quarry, Inc. (PO Box 249, Chalfont, PA 18914) for renewal of the State Only Operating Permit for a facility comprising a stone crush-

ing operation and two asphalt plants located in Wrightstown Township, **Bucks County**. The renewal includes minor changes in standard conditions in accordance with Department of Environmental Protection (DEP) guidelines. Ranges for allowable pressure drops for two baghouses controlling particulate matter emissions are set. A limit of 30% reconstituted asphalt pavement (RAP) by weight of total asphalt produced is set for Hot Mix Asphalt Plant 4. The facility is limited to emissions of 24.9 tons/year NO_x and VOC on a 12-month rolling basis. The renewed Operating Permit does not authorize any increase in air emissions of regulated pollutants above previously approved levels. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

15-00068: Spring City Electrical Mfg. Co. (One South Main St., P. O. Box 19, Spring City, PA 19475) for operation of their iron foundry and aluminum casting manufacturing facility in Spring City Borough, **Chester County**. The facility's major emission points include two (2) electric induction furnaces, a No. 2 fuel oil fired aluminum furnaces, molding, pouring and cooling operations and five (5) spray paint booths. This action is a renewal of the State Only Operating Permit. The initial permit was issued on 8-16-2005 and was renewed on 2-9-2011. The permit is for a non-Title V, Synthetic Minor facility. The permit will include monitoring, recordkeeping, reporting, and work practice standards designed to keep the facility operating within all applicable air quality requirement.

39-00026: Air Products and Chemicals, Inc. (7201 Hamilton Blvd. Allentown, PA 18195-1526) The Department intends to issue a renewal State Only (Synthetic Minor) operating permit for an industrial gas manufacturing facility in Upper Macungie Township, **Lehigh County**. The permittee is taking limitations on emissions, operating hours, production/throughput, fuel type, and use of control devices to maintain Synthetic Minor status. The State Only (Synthetic Minor) operating permit includes emissions, monitoring, record keeping, reporting, testing and additional conditions designed to ensure compliance with all applicable Federal and State air pollution control requirements.

19-00016: Milco Industries, Inc. (550 East Fifth Street, Bloomsburg, PA 17815) for their textile finishing facility located in Town of Bloomsburg, **Columbia County**. The facility is currently operating under the State Only operating permit 19-00016. The facility's main sources include two (2) identical Kewanee manufactured natural gas/#2 fuel fired boilers and two (2) natural gas fired tenter frame fabric dryers.

The facility has potential emissions of 14.42 tons per year of nitrogen oxides, 13.65 tons per year of carbon monoxide, 0.10 ton per year of sulfur oxides, 8.23 tons per year of particulate matter, 36.69 tons per year of volatile organic compounds, and 3.04 tons per year of total hazardous air pollutants (HAPs) while burning #2 fuel oil at the facility. The potential emissions at the facility reduced insignificantly due to removal of three emergency generators and one ethylene sterilizer. The boilers are subject to 40 CFR Part 63, Subpart JJJJJ—National Emission Standards for Hazardous Air Pollutants for Industrial, Commercial, and Institutional Boilers Area Sources. The emission limits, throughput limitations and work practice standards along with testing, monitoring, record keeping and reporting requirements have been included in the operating permit to ensure the facility complies with all applicable Federal and State air quality regulations. These operating permit conditions have been derived from the applicable requirements of 25 Pa. Code Chapters 121—145 as well as 40 CFR Parts 63.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. The operation of the facility's air contamination source consisting of 1-primary crusher, 1-hammer mill, 3-vibrating screens, 1-wash plant, 11-transfer belts, 6 stockpiles, and unloading/loading of trucks. The facility has the potential to emit: 5.77 tpy PM and 2.14 tpy PM₁₀. This facility is subject to the applicable requirements of 25 Pa. Code Chapters 121—145. Proposed SOOP includes conditions relating to applicable emission restrictions, testing, monitoring, recordkeeping, reporting and work practice standards requirements.

04-00226: Hanson Aggregates BMC, Inc./Sewickley Creek Asphalt Plant (1008 Big Sewickley Creek Road, Sewickley, PA 15143) for the operation of a hot mix batch asphalt facility located in Economy Borough, **Beaver County**. The subject facility consists of one hot mix batch asphalt plants rated at 300 tons per hour. The batch plant is limited to 500,000 tons production in any consecutive 12-month period. The facility has the potential to emit: 32.5 tpy CO; 13.75 tpy NO_x; 14.5 tpy SO_x; 8 tpy VOC; 8.25 tpy PM and 2.5 tpy HAPs. This facility is subject to the applicable requirements of 25 Pa. Code Chapters 121—145. Proposed SOOP includes conditions relating to applicable emission restrictions, testing, monitoring, recordkeeping, reporting and work practice standards requirements.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.20a). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department. A copy of the application is available for inspection at the district mining office indicated before each application. Notices of requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application and request for Section 401 water quality certification application may be submitted by any person or any officer or head of any Federal, state or local government agency or authority to the Department at the address of the district mining office indicated before each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When an NPDES number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. A separate notice will be provided after the draft NPDES permit is prepared.

Coal Applications Received

California District Office: 25 Technology Drive, Coal Center, PA 15423, 724-769-1100

32991301 and NPDES No. PA0215228. Rosebud Mining Company, (301 Market Street, Kittanning, PA 16201). To renew the permit for the Nolo Deep Mine in Buffington, Pine, Cherry Hill, Brush Valley Townships, **Indiana County** and related NPDES permit. No additional discharges. The application was considered administratively complete on September 9, 2015. Application received November 26, 2014.

30743711 and NPDES No. PA0033511. Cumberland Coal Resources, LP, (158 Portal Road, PO Box 1020, Waynesburg, PA 15370). To renew the permit for the Cumberland Mine Coal Refuse Disposal Facility in Whiteley Township, **Greene County** and related NPDES permit. No additional discharges. The application was considered administratively complete on September 10, 2015. Application received June 9, 2015.

Knox District Mining Office: P. O. Box 669, 310 Best Avenue, Knox, PA 16232-0669, 814-797-1191

33100102. MSM Coal Company, Inc. (P. O. Box 243, DuBois, PA 15801) Renewal of an existing bituminous surface mine in Oliver Township, **Jefferson County**, affecting 32.0 acres. Receiving streams: Three unnamed tributaries to Little Sandy Creek, classified for the following uses: CWF. There are no potable surface water supply intakes within 10 miles downstream. This renewal is for reclamation only. Application received: September 9, 2015.

33070107. Allegheny Enterprises, Inc. (3885 Roller Coaster Road, Corsica, PA 15829) Renewal of an existing bituminous surface mine in Rose Township, **Jefferson County**, affecting 47.1 acres. Receiving streams: Eckler Run, classified for the following uses: CWF. There are no potable surface water supply intakes within 10 miles downstream. This renewal is for reclamation only. Application received: September 4, 2015.

33813020 and NPDES Permit No. PA0603465. Leonard W. Zenzi (P. O. Box 62, Anita, PA 15711) Renewal of an existing bituminous surface mine and associated NPDES permit in Winslow Township, **Jefferson County**, affecting 285.2 acres. Receiving streams:

Unnamed tributaries to Trout Run and unnamed tributaries to Front Run, both classified for the following uses: CWF. There are no potable surface water supply intakes within 10 miles downstream. Application Received: September 9, 2015.

Moshannon District Mining Office: 186 Enterprise Drive, Philipsburg, PA 16866, 814-342-8200

17130105 and NPDES PA0269662. Corey L. Shawver DBA Hilltop Coal Company (12 Dutchtown Road, Houtzdale, PA 16651). Commencement, operation, and restoration of a bituminous surface and auger mine located in Bigler and Woodward Townships, **Clearfield County** affecting 137.7 acres. Receiving stream(s): Unnamed Tributary to Japling Run and Unnamed Tributaries to Beaver Run classified for the following use(s): CWF, MF. There are no potable water supply intakes within 10 miles downstream. Application received: August 26, 2015.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901, 570-621-3118

Permit No. 40763204R6. Northampton Fuel Supply Co., Inc., (1 Horwith Drive, Northampton, PA 18067), renewal of an existing anthracite coal refuse reprocessing operation in Newport Township, **Luzerne County** affecting 61.2 acres, receiving stream: Newport Creek to Susquehanna River, classified for the following uses: cold water and migratory fishes. Application received: September 11, 2015.

Noncoal Applications Received

Effluent Limits—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

Parameter	Table 2		
	30-day Average	Daily Maximum	Instantaneous Maximum
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901, 570-621-3118

Permit No. 58082806. Timber Lane Stone, Inc., (1903 Timber Lane, Clarks Summit, PA 18411), Stage I & II bond release of a quarry operation in Harford Township, **Susquehanna County** affecting 5.0 acres on property owned by Ruth Browne and Arnetta Ferguson. Application received: August 31, 2015.

Permit No. 58970834. David B. Williams, (305 Lane Road, Kingsley, PA 18826), Stage I & II bond release of a quarry operation in Brooklyn Township, **Susquehanna County** affecting 1.0 acre on property owned by Jeffrey Williams. Application received: August 31, 2015.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Coal NPDES Draft Permits

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931, 814-472-1900

NPDES No. PA0606111 (Mining permit no. 32663056), Beilchick Brothers, P. O. Box 7, Heilwood, PA 15745, renewal of an NPDES permit for a surface coal mine in Pine Township, **Indiana County**, affecting 748.0 acres. Receiving streams: unnamed tributaries to/and Little Yellow Creek, classified for the following use: high quality cold water fishes. This receiving stream is included in the Kiskiminetas-Conemaugh River TMDL. Application received: October 9, 2014.

The outfall(s) listed below discharge to unnamed tributaries to/and Little Yellow Creek.

<i>Outfall No.</i>	<i>New Outfall (Y/N)</i>
002 (Treatment Facility 1-1)	N

The proposed effluent limits for the above listed outfall is as follows:

<i>Outfall: 002</i> <i>Parameter</i>	<i>30-Day</i> <i>Average</i>	<i>Daily</i> <i>Maximum</i>	<i>Instant.</i> <i>Maximum</i>
Iron (mg/l)	1.5	3.0	3.5

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the Commonwealth to certify that the involved projects will not violate the sections 301–303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA, the issuance of a Dam Permit or Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment shall submit comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted before an application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on working days at the office noted before the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications Received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1–693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification under section 401(a) of the FWPCA.

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Waterways and Wetlands Program Manager, 2 East Main Street, Norristown, PA 19401, Telephone 484-250-5900.

E46-1127. Whitemarsh Township, 616 Germantown Pike, Lafayette Hill, PA 19444, Whitemarsh Township, **Montgomery County**, ACOE Philadelphia District.

To restore approximately 1.2 mile of the Andorra Creek’s floodplain and riparian Buffer to prevent streambank erosion within the channel and improve the water quality of the impaired watershed. The proposed work will impact 0.35 acre of wetland.

The site is located near Harts Lane and terminates near Spring Mill Park (Norristown, PA, Lat.: 40.0826; Long. -75.2602).

Southcentral Region: Waterways & Wetlands Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ed Muzic, Section Chief, 717.705.4802.

E22-605: Dauphin County Board of Commissioners, PO Box 1295, Harrisburg, PA 17108 in South Hanover Township and Hummelstown Borough, **Dauphin County**, U.S. Army Corps of Engineers Baltimore District.

To 1.) remove an existing structure; 2.) construct and maintain a 300.0-foot long, 34.67-foot wide three-span concrete spread box beam bridge with R-8 rip rap scour protection across Swatara Creek (WWF, MF) having an underclearance ranging from 4.3 feet to 14.2 feet; 3.) construct and maintain a gravel parking lot and geotextile boat ramp in the floodway of Swatara Creek (WWF, MF); and to install and maintain 1.) 82 feet of 24.0-inch diameter reinforced concrete pipe and R-6 rip rap scour protection; 2.) 34 feet of 24.0-inch diameter reinforced concrete pipe with R-6 rip rap scour protection; 3.) 35 feet of 18.0-inch diameter reinforced concrete pipe with R-6 rip rap scour protection; 4.) 57 feet of 24.0-inch diameter reinforced concrete pipe with R-6 rip rap scour protection; 5.) an 18.0-inch diameter reinforced concrete pipe outfall, all discharging to Swatara Creek (WWF, MF); and 6.) two temporary construction causeways in Swatara Creek (WWF, MF), all for the purpose of providing sustainable, safe and efficient crossing of Swatara Creek.

The project is located near the intersection of N. Duke Street and N. Railroad Street (Latitude: 40° 16' 14.1"N, Longitude 76° 42' 57.9"W) in South Hanover Township and Hummelstown Borough, Dauphin County.

The project is amended to include a full length causeway for construction and to provide and a crossing in case of an emergency.

E06-700: PA Department of Transportation, Engineering District 5-0, 1002 Hamilton Street, Allentown, PA 18101 in Richmond Township & Fleetwood Borough, **Berks County**, U.S. Army Corps of Engineers Philadelphia District.

To remove existing structures and to install and maintain (1) a 42-inch diameter outfall to UNT Willow Creek (CWF, MF) and (2) one 29 x 45 inch and two 34 x 53 inch outfalls to Willow Creek (CWF, MF) along SR 0662 and SR 1010 in Richmond Township and Fleetwood Borough (Latitude: 40° 27' 19"; Longitude: -75° 49' 7.32"). The project proposes to impact 0.001 ac of Willow Creek and 0.03 ac of floodplain for the purpose of improving roadway drainage.

Northcentral Region: Waterways & Wetlands Program Manager, 208 West Third Street, Williamsport, PA 17701, 570-327-3636

E08-493. Pennsylvania Department of Transportation, Engineering District 3-0, 715 Jordan Ave, Montoursville, PA 17754. SR 3018, Section 08M Storm Sewer Upgrade in the Borough of Towanda, **Bradford County**, ACOE Baltimore District (Towanda, PA Quad-range; Latitude: 41°45'57"; Longitude -76°26'53").

PA DOT Engineering District 3-0 proposes to upgrade a storm sewer in the Borough of Towanda. The storm sewer

will result in a new outfall to an unnamed tributary to the Susquehanna River. Currently storm water is flowing overland to the same location as the outfall. PA DOT proposes to install a 24-inch pipe with a 56 Ft x 28 Ft R-8 Rip Rap apron. A portion of the project is located within the Towanda Historic District. The outfall will not result in any impact to historic properties. The project will impact approximately 28 Ft of the Unnamed Tributary to the Susquehanna River stream bank. The project will not impact any jurisdictional wetlands. The unnamed tributary to the Susquehanna River is classified as a Cold Water Fishery by Title 25, Chapter 93 Water Quality Standards.

E17-494. Pennsylvania Department of Transportation, Engineering District 2-0, 1924 Daisy Street Extension, Clearfield, PA 16830. SR 0322, Section A04 Bridge Replacement over Laurel Run in Decatur Township, **Clearfield County**, ACOE Baltimore District (Wallaceton, PA Quadrangle; Latitude: 40° 55' 05"; Longitude -78° 15' 10").

PA DOT Engineering District 2-0 proposes to replace a two-span concrete T-beam bridge with a single span concrete bulb T-beam bridge on the existing horizontal and vertical alignment. The existing bridge has a total span of 61.25 Ft., a skew of 30 degrees, an under clearance of 1.48 Ft., and a low chord of 1,432.91 Ft. and a hydraulic opening of 116.7 Ft². The proposed single span bridge has a span of 69.58 Ft., a skew of 30 degrees, an under clearance of 1.31 Ft., and a low chord of 1,432.96 Ft. and a hydraulic opening of 157.4 Ft². The project will temporarily impact 0.77 acre and permanently impact 0.14 acre of jurisdictional wetlands. The wetland impact will be mitigated at the McPherron Wetland Bank. The project also proposes to temporarily impact 550 Ft of Unnamed Tributary during construction to accommodate traffic. Laurel Run is classified as a Cold Water Fishery by Title 25, Chapter 93 Water Quality Standards.

E26-371, Church Communities of PA, Inc., 101 New Meadow Run Drive; Farmington, PA 15437, Wharton Township, **Fayette County**: ACOE Pittsburgh District.

The applicant is proposing to:

1. Operate and maintain riprap along both sides of an approximately 530 LF section of Deadman Run (Tributary of Meadow Run, HQ-CWF) and an approximately 720 LF section of an Unnamed Tributary of Deadman Run (Tributary of Meadow Run, HQ-CWF) from which sediment was previously removed;

2. Operate and maintain an 84" x 48" concrete box culvert within 40 LF of the unnamed tributary of Deadman Run, which replaced a previously existing dilapidated structure; and

3. Operate and maintain fill within an onstream pond that had been located on the unnamed tributary of Deadman Run.

This is an after-the-fact application for a project that was undertaken, in part, to alleviate flooding. The project is located approximately 0.3 mile southeast of the intersection of Route 40 and Route 381, in Wharton Township, Fayette County (Quadrangle: Fort Necessity; Latitude: 39° 48' 18"; Longitude: -79° 33' 37"; Sub-basin:19D; Chapter 93 Type: HQ-CWF).

E63-675, Chapman Business Properties, LLC, 100 Leetsdale Industrial Drive, Leetsdale, PA 15056, South Strabane Township, **Washington County**: ACOE Pittsburgh District.

The applicant is proposing to:

1. Place and maintain fill in 121 linear feet of an Unnamed Tributary (UNT) to Chartiers Creek (UNT 2) (WWF), with a drainage area of less than 100 acres and within 0.01 ac of wetland L along UNT 2;

2. Place and maintain fill in 85 linear feet of a UNT to Chartiers Creek (UNT 1) (WWF), with a drainage area of less than 100 acres;

3. Place and maintain fill in 125 linear feet of a UNT to Chartiers Creek (UNT 6) (WWF), with a drainage area of less than 100 acres;

4. Place and maintain fill in 400 linear feet of a UNT to Chartiers Creek (UNT 7) (WWF) with a drainage area of less than 100 acres;

5. Place and maintain fill in 0.01 acre of the floodway to Tributary 37078 to Chartiers Creek (WWF);

6. Construct and maintain an 80 foot long, 20 foot span, 9 foot clearance bridge over Tributary 37078 to Chartiers Creek (WWF) and over 0.01 acre of wetland G2 along Tributary 37078 to Chartiers Creek (WWF)

7. Place and maintain fill in 211 linear feet of a UNT to Chartiers Creek (UNT 5) (WWF), with a drainage area of less than 100 acres;

8. Construct and maintain a 98 linear foot, 36" reinforced concrete pipe culvert within Tributary 37084 to Chartiers Run (WWF)

9. Install a 6 inch sanitary sewer line underneath 70 linear feet of Tributary 37084 to Chartiers Creek (WWF);

10. Install a 12 inch waterline underneath 70 linear feet of Tributary 37084 to Chartiers Creek (WWF);

11. Install an 8" PVC sanitary line within 35 linear feet of the floodway to Tributary 37087 to Chartiers Creek (WWF);

For the purpose of developing commercial and light industrial lots, near the intersection of Racetrack Road and U.S. Route 19 (Washington Road) (Washington East PA USGS Topographic Quadrangle; Latitude: 40° 12' 57.67"; Longitude: -80° 12' 8.45"; Sub-basin: 20F; Chapter 93 Type: WWF), in South Strabane Township, Washington County. The project will permanently and cumulatively impact 1,190 linear feet of stream and 0.02 ac of wetland.

E4129-100: Howard Energy Partners, LLC, 512 Towne Plaza, Suite 120, Route 6, Tunkhannock, PA, 18657, Jackson Township, **Lycoming County**, ACOE Baltimore District.

To construct, operate, and maintain:

1) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 2,284 square feet of an exceptional value palustrine emergent (EV-PEM) wetland and 78 linear feet of an unnamed tributary to Blockhouse Creek (Nauvoo, PA Quadrangle 41°32'44"N, 77°07'32"W);

2) A temporary road crossing using timber mats 3,582 square feet of a palustrine emergent (PEM) wetland (Nauvoo, PA Quadrangle 41°32'24"N, 77°07'43"W);

3) A 16 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 4 linear feet of an unnamed tributary to Blockhouse Creek (Nauvoo, PA Quadrangle 41°32'16"N, 77°07'33"W);

4) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 364 square feet of an exceptional value palustrine emergent and forested (EV-PEM/PFO) wetland and 40 linear feet of Blockhouse Creek (Liberty, PA Quadrangle 41°32'10"N, 77°07'24"W);

5) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 75 linear feet of an unnamed tributary to Blockhouse Creek (Liberty, PA Quadrangle 41°32'10"N, 77°07'00"W);

6) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 3,165 square feet of an exceptional value palustrine emergent (EV-PEM) wetland (Liberty, PA Quadrangle 41°32'19"N, 77°05'18"W);

7) A temporary road crossing using timber mats impacting 187 square feet of an exceptional value palustrine emergent (EV-PEM) wetland (Liberty, PA Quadrangle 41°32'18"N, 77°04'54"W);

8) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 6,764 square feet of an exceptional value palustrine emergent (EV-PEM) wetland (Liberty, PA Quadrangle 41°32'10"N, 77°04'40"W).

The project will result in 191 linear feet of temporary stream impacts, 16,346 square feet (0.38 acre) of temporary wetland impacts all for the purpose of installing a natural gas gathering line in Liberty Township, **Tioga County**.

E5929-048: Howard Energy Partners, LLC, 512 Towne Plaza, Suite 120, Route 6, Tunkhannock, PA, 18657, Liberty Township, **Tioga County**, ACOE Baltimore District.

To construct, operate, and maintain:

1) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, a 20 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 13,994 square feet of an exceptional value palustrine emergent (EV-PEM) wetland (Nauvoo, PA Quadrangle 41°33'48"N, 77°09'05"W);

2) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, a 20 inch diameter

natural gas pipeline, and a 16 inch diameter waterline impacting 4,915 square feet of an exceptional value palustrine emergent (EV-PEM) wetland (Nauvoo, PA Quadrangle 41°33'37"N, 77°08'40"W);

3) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, a 20 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 5,129 square feet of an exceptional value palustrine forested (EV-PFO) wetland (Nauvoo, PA Quadrangle 41°33'29"N, 77°08'07"W);

4) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, a 20 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 58 linear feet of Black Creek (CWF) (Nauvoo, PA Quadrangle 41°33'29"N, 77°08'05"W);

5) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, a 20 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 2,524 square feet of an exceptional value palustrine emergent (EV-PEM) wetland (Nauvoo, PA Quadrangle 41°33'29"N, 77°08'03"W);

6) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, a 20 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 1,085 square feet of an exceptional value palustrine emergent (EV-PEM) wetland (Nauvoo, PA Quadrangle 41°33'25"N, 77°08'01"W);

7) A temporary road crossing using timber mats, a 16 inch diameter natural gas pipeline, and a 16 inch diameter waterline impacting 1,270 square feet of an exceptional value palustrine emergent (EV-PEM) wetland (Nauvoo, PA Quadrangle 41°32'55"N, 77°07'38"W);

The project will result in 58 linear feet of temporary stream impacts, 23,788 square feet (0.55 acre) of temporary wetland impacts, and 5,129 square feet (0.12 acre) of permanent wetland impacts all for the purpose of installing a natural gas gathering line in Liberty Township, Tioga County. The permittee will provide 0.33 acre of onsite compensatory wetland mitigation in Liberty Township, Tioga County.

Northwest Region: Oil and Gas Program Manager, 230 Chestnut Street, Meadville, PA 16335; 814-332-6860

E24-08-008, Seneca Resources Corporation, 5800 Corporate Drive Suite 300, Pittsburgh, PA 15237. Clarion River Heath Surface Water Withdrawal in Millstone Township, **Elk County**, Army Corps of Engineers Pittsburgh District (Sigel, PA Quadrangle N: 40.351330; W: -79.021843).

The applicant proposes to construct and maintain two (2) adjacent permanent freshwater intake structures in the wild and scenic portion of the Clarion River. Two parallel eight inch high density polyethylene buried waterlines will transfer the freshwater from the intakes to a nearby 40 by 48 foot pump station building. From the pump station, one 12 inch high density polyethylene buried waterline will transport the freshwater approximately 2.8 miles north to an existing freshwater impoundment and well pad. The water obstructions and encroachments in the Elk County portion of the project are described below:

To construct and maintain:

<i>Impact No.</i>	<i>Description of Impact</i>	<i>Latitude / Longitude</i>
1	Two (2) permanent partially buried intake structures and associated 8 inch HDPE buried waterlines in the wild and scenic portion of the Clarion River (CWF) having 77 linear feet of temporary impacts and 13 linear feet of permanent impacts.	41° 21' 04.75" -79° 01' 18.65"
2	One (1) 12" diameter HDPE buried waterline with associated right-of-way and a temporary road crossing to cross Cline Run (WT, CWF) having 53 linear feet of temporary stream impacts.	41° 21' 42.98" -79° 01' 20.97"

ENVIRONMENTAL ASSESSMENTS

Northwest Region: Waterways and Wetlands Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481

EA62-051, USDA Forest Service, Allegheny National Forest, 4 Farm Colony Drive, Warren, PA 16365. Tionesta Creek Restoration—Pre-project Testing, in Sheffield Township, **Warren County** and Howe Township, **Forest County**, ACOE Pittsburgh District (Sheffield and Lynch, PA Quadrangles N: 41°, 37', 38.62"; W: 79°, 02', 15.72").

The US Forest Service proposes to excavate 7 holes along Tionesta Creek to evaluate the depth to bedrock. This information is needed to design engineered wood structures that are proposed as part of an aquatic habitat improvement project that will be authorized separately. The test pits will temporarily disturb up to 210 square feet of Tionesta Creek, and substrate will be restored to original contours upon completion of the tests. Six test locations are proposed in Sheffield Township, Warren County, and 1 in Howe Township, Forest County.

ACTIONS

THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

FINAL ACTIONS TAKEN FOR NPDES PERMITS AND WQM PERMITS

The Department has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and NOIs for coverage under General Permits. This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Wastes; Discharges to Groundwater
Section IV	NPDES	MS4 Individual Permit

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

STATE CONSERVATION COMMISSION
NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES
PERMITS FOR CAFOs

The State Conservation Commission has taken the following actions on previously received applications for nutrient management plans under 3 Pa.C.S. Chapter 5, for agricultural operations that have or anticipate submitting applications for new, amended or renewed NPDES permits or NOIs for coverage under a general permit for CAFOs under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Persons aggrieved by an action may appeal under 3 Pa.C.S. § 517, section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704 to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service at (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge actions, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary of the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in

and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Plan Description: The Request for Planning Exemption for the Andre Azemar Subdivision, DEP Code No. A3-06922-285-3E, APS Id 878042, consisting of creating one new building lot to be served by Bethel Township Municipal Authority sewers and the Bethel Sewage Treatment Plant, is disapproved. This request was denied because it was deemed to be incomplete. The applicant failed to include: separate written certification from the permittee(s) of the sewage facilities to the municipality and the Department that there is capacity to receive and treat the sewage flows from the proposed new land development and that the additional wasteload will not create a hydraulic or organic overload or 5-year projected overload, as required by Chapter 71, Section 71.51(b)(2)(iii). The applicant was also informed that, according to the application mailer instructions, an authorized municipal official should sign section 8d of the application mailer if the information provided by the municipal authority is acceptable. And, the municipal official signing in section 8d should not be a representative of a separate municipal authority. The applicant was also informed that the "Pennsylvania Natural Diversity Inventory" search should include the entire subdivision, as described by the Department's technical guidance document "Policy for Pennsylvania Natural Diversity Inventory (PNDI) Coordina-

tion during Permit Review and Evaluation" (400-0200-001). The project is located along Interstate 78 and north of Legion Drive.

HAZARDOUS SITES CLEAN-UP

UNDER THE ACT OF OCTOBER 18, 1988

Notice of Proposed Interim Response

Railroad TCE Site; Northampton and Warwick Townships, Bucks County

The Department of Environmental Protection (the Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.102—6020.1303), is proposing an interim response action at the Railroad TCE Site, Northampton and Warwick Townships, Bucks County, Pennsylvania.

The Railroad TCE Site is located southeast of the intersection of Almshouse and Mearns Roads, on the border of Northampton and Warwick Townships. The Department has sampled over 60 residential and commercial wells, located along Creek Road, Hill Road, Lincoln Circle, and Charter Circle, and throughout the surrounding industrial complexes, between June 2011 and May 2015. Trichloroethylene (TCE) is the primary contaminant of concern detected in the samples. Other Volatile Organic Compounds detected in samples include 1, 1-Dichloroethene, Tetrachloroethene and 1, 4-Dioxane. To date, the sampling revealed that 8 private residences had TCE at or above the Safe Drinking Water Act Maximum Contaminant Level.

To address the release and threat of release of hazardous substances at the Site, and corresponding threats to human health and the environment, the Department proposes to implement a response action at the Site under Section 501(a) of HSCA, 35 P. S. § 6020.501(a). The Department hereby proposes the installation of a waterline to address and replace the contaminated water supplies. The proposed waterline project will include the installation of water mains and lateral connections, and the abandonment of private supply wells. This proposed alternative complies with Applicable, Relevant and Appropriate Requirements (ARARs) and is feasible and cost-effective. Other possible alternatives include no action, continued supply of bottled water, or the installation and continued maintenance of whole-house carbon filtration units. All alternatives with the exception of the no action alternative include restrictions of groundwater use.

This notice is being provided pursuant to Section 506(b) of HSCA, 35 P. S. § 6020.506(b). The Administrative Record which contains information that forms the basis and documents the selection of this response action is available for public review and comment. The Administrative Record is located at the Department; office located at 2 East Main Street, Norristown, PA 19401 and is available for review Monday through Friday from 8:00 am until 4:00 pm. Those interested in examining the Administrative Record at the Department's office should contact Josh Crooks at 484.250.5784 to arrange for an appointment. Additional copies of the Administrative Records are available for review at the Northampton and Warwick Township Buildings.

The Administrative Record will be open for comment from September 26th, 2015 until December 28th, 2015. Persons may submit written comments into the record during this time only, by sending them to Josh Crooks, Solid Waste Specialist at the Pennsylvania Department of Environmental Protection, 2 East Main Street, Norristown, PA 19401 or by email at jcrooks@pa.gov. In

addition persons may present oral comments, for inclusion in the Administrative Record, at the public hearing. The Department has scheduled the hearing for November 17th, 2015 at 6:30 PM at the Warwick Township Building, 1775 Township Green Road, Jamison, PA 18929. Individuals wishing to present comments must register by calling the Department's Community Relations Coordinator, Virginia Cain, at 484.250.5943.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings, should call Ms. Cain at 484.250.5943 or the Pennsylvania AT&T Relay Service at 1-800-654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

The RA is intended to document remediation of the site to meet the Site Specific

standard. Notice of the RA was published in the *Tribune-Democrat* on August 28, 2015.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

(150 Demorah Drive, Montgomeryville, PA 18936) On September 4, 2015 for the renewal of a Synthetic Minor Operating Permit for operation of a spray booth op located in Montgomeryville Township, **Montgomery County**. The renewal permit is for a non-Title V (State Only) facility. The facility elects to limit VOC emissions to less than 25 tons per year; therefore, the facility is considered a Synthetic Minor. There are no changes to sources operating at the plant since the last permit action and there are no new applicable State or Federal requirements at this time. The permit will include monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

23-00098: SAP America Inc., (3999 W Chester Pike, Newtown Square, PA 19073) On September 4, 2015, for the renewal of a Synthetic Minor Operating Permit in Newtown Township, **Delaware County**. The initial operating permit was issued on August 01, 2005. SAP America

Inc. operates a computer software development and support facility in Newtown Square. Sources of emissions from this facility are 8 boilers and 6 emergency generators. The potential emissions from this facility are: NO_x—24.9 TPY, VOCs—1.1 TPY, PM/PM₁₀/PM_{2.5-2.7} TPY, SO_x—50.8 TPY, and CO—20.7 TPY. The boilers are subject to 40 CFR Subpart JJJJJJ. Emergency generators are subject to 40 CFR Subpart IIII. The facility is subject to site level NO_x emissions limit of 24.9 TPY. The permit contains monitoring, recordkeeping, reporting, and work practice standards designed to keep the facility operating within all applicable air quality requirements.

15-00147: Crazy Aaron Enterprises, Inc. (201 Sabine Ave., Suite 100, Narberth, PA 19072) On September 15, 2015 for an initial State Only Operating Permit in East Pikeland Township, **Chester County**. Crazy Aaron is an existing putty manufacturing company that services the toy and novelty industry. Sources at the facility consist of four mixing blenders. The primary pollutant of concern from the plant is methanol, which is a by-product of the chemical process in the making of putty. The facility is categorized as a natural minor facility based on its potential emissions. The permit includes monitoring, record keeping and reporting requirements to address all applicable air quality requirements.

10-00267: Alcoa Incorporated, previously Three Rivers Aluminum Company (TRACO) (71 Progress Avenue, Cranberry Industrial Park, Cranberry Township, PA 16066-3596) on September 14, 2015 for renewal of the Title V Operating Permit. The facility is located in Cranberry Township, **Butler County**. The facility's emitting sources include 1) Tellkamp Line & Binks Booth, 2) Coated-Extrusion Bake Oven, 3) Fill line adhesive Application (2 Lines), 4) Assembly (Sealing, Cleaning, Touch-up), 5) 2, 1,800 Tons Extrusion Presses & Preheaters, 6) 2,750—Ton Extruder W/Preheater, 7) Extrusion Aging Ovens (2), Acid Etch Tank & Heater (New source approved by RFD dated 9/2014), 8) Caustic Anodizing Tank, 9) Sulfuric Acid Anodizing Tank (4) (4th tank has added via approved RFD 4/2014), 10) Facility space heating (& HVAC System), 11) Miscellaneous Natural Gas Usage, 12) Degreaser Units (6) (previously 7), 13) Emergency Generators w/315 HP John Deere Engine (New source RFD approved on 10/2011), 14) Solvent Distillation Unit (New Source, Approved via RFD dated 1/5/2015) and 15) Small Batch Paint Mixing Room (New Source, Approved via RFD dated 06/08/2015).

The facility is a major facility due to its potential to emit of volatile organic compound. The facility is also subject to the Compliance Assurance Monitoring Rule (CAM) found in 40 CFR Part 64. Appropriate permit conditions to address the applicable CAM requirements have been included in the previous permit. The facility is also subject to 40 CFR Part 63, Subpart Mmmm for miscellaneous metal parts and products. Subpart Mmmm was included in the previous permit. The emergency generator Source ID #121 is subject to 40 CFR Part 60, Subpart IIII. Source ID #111: Caustic Anodizing Tank Heater and Source ID #116: Paint-line Washers—Stage 1 (2 Units), Stage 3 and Anodizing Tanks (4 Units—Tank 4, 7, 27, 29) are subject to 40 CFR Part 63, Subpart DDDDD. All applicable conditions of Subpart IIII and DDDDD have been included in the permit. The actual emissions of pollutants submitted by the facility for the 2014 emission inventory are as follows CO: 4.54 Tons per year (TPY), NO_x: 5.41 TPY, 1.58 TPY, PM₁₀: 1.58, PM_{2.5}: 1.58 TPY, SO_x: 0.03 TPY, VOC: 19.08 TPY.

10-00379: Mountain Gathering (810 Houston Street, Fort Worth, Texas 76102), on August 25, 2015, issued a new State Only Operating Permit for their Penn Cryo facility located in Penn Township, **Butler County**. The facility is a Natural Minor. Potential emissions are estimated as follows: NO_x, 4.9484 tpy; CO, 10.3994 tpy; VOC, 3.7834 tpy; SO₂, 0.3469 tpy; PM, 1.7892 tpy; and all combined HAPs, 0.1946 tpy. The primary sources at the facility are a 21.4 million Btus/hr process heater, 3 storage tanks, and a gas processing plant. Certain conditions from plan approval 10-379A pertaining to plant roadways were not included in the permit since they are no longer applicable. These specific conditions were no longer applicable since estimated particulate matter emissions from truck traffic were reduced from 11.01 tpy to

1.07 tpy because produced liquids leave the plant via pipeline rather than truck transport. The permit contains emission restrictions, recordkeeping, work practice, and additional requirements to ensure compliance with the Clean Air Act and the Air Pollution Control Act.

Operating Permit Revisions Issued including Administrative Amendments, Minor Modifications or Transfers of Ownership under the Air Pollution Control Act and 25 Pa. Code §§ 127.412, 127.450, 127.462 and 127.464.

25-00025: General Electric Company (2901 East Laker Road, Erie, PA 16531) The Department has reviewed a De minimis Emission Increase submittal from concerning the replacement/upgrade of a single paint booth (Source 603, 2-C-36) at their GE Transportation, Erie Plant facility located in **Erie County**.

The facility currently operates under Title V operating permit 25-00025. The Department hereby approves the De minimis emission increase. This source is exempt from plan approval as it complies with 25 Pa. Code § 127.449. This is the first De minimis emission increase which has occurred since their current Operating Permit was issued on July 31, 2013. Emissions are estimated to increase by 0.67 tpy of VOC and 0.043 tpy of PM as a result of this project.

ACTIONS ON COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Actions on applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law; the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.20a). The final action on each application also constitutes action on the NPDES permit application and, if noted, the request for a Section 401 Water Quality Certification. Mining activity permits issued in response to applications will also address the application permitting requirements of the following statutes: the Air Quality Pollution Act (35 P. S. §§ 4001—4014); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1002).

**FEDERAL WATER POLLUTION
CONTROL ACT SECTION 401**

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P.S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

The purpose of the project is to provide natural gas services for a proposed upgrade to the existing Wildcat Point electric generating facility located in Cecil County, Maryland. The project proposes to permanently impact 418.41 linear feet of stream channel, 1.26 acre of floodway, and 0.26 acre of wetlands. 0.37 acre of PFO wetland creation, 0.1 acre of PEM wetland creation and 0.13 acre of wetland enhancement, temporarily impacting 0.13 acre of PEM wetlands are proposed at 39° 49' 12.9"N/76° 09' 31.4"W.

To construct, operate and maintain a disabled vehicle storage area located just north of the Fort McClure Blvd intersection at the eastern side of the existing parking lot. Eight stalls will be surrounded by a 28 ft by 72 ft security fence with associated gates. This permit also authorizes a helicopter pad that 45 ft by 40 ft across. To provide a level area for the concrete pad 240 cubic yards of fill shall be placed to a maximum depth at the center of

the pad approximately 2 feet. For security reasons a 111 ft by 186 ft perimeter fence will be installed with associated gates for access. Both of these projects are located in the floodway of Fishing Creek which carries a water quality designation of Warm Water Fishery. This project is located along the North East side of West Fort McClure Boulevard 0.4 mile south of the intersection with T-409. This permit was issued under Section 105.13(e) "Small Projects."

Fill and maintain 170 feet of open channel and 313 feet of enclosure and construct and maintain 247 feet of open channel and 236 feet of enclosure on an unnamed tributary to the South Fork of the Little Conemaugh River (CWF) with a drainage area of 0.32 square mile; fill and maintain 200 feet of open channel and construct and maintain a replacement 200 feet of open channel on a second unnamed tributary to the South Fork of the Little Conemaugh River with a drainage area less than 100

acres; construct and maintain 18 feet downstream extensions on two existing SR 869 3 feet diameter parallel culverts that are 68 feet and 55 feet long on a third unnamed tributary to the South Fork of the Little Conemaugh River (CWF) with a drainage area of 220 acres.

In addition install and maintain road associated stormwater outfalls; and temporarily impact 485 feet of stream for the purpose of constructing the encroachments. This project is associated with the SR 869, Beaver Run Curve improvement project with these encroachments located in Adams Township, 1.0 mile west of Beaverdale (Beaverdale PA Quadrangle, North 12.4 inches and West 4.1 inches; Latitude 40° 19' 10" and Longitude -78° 43' 20") Cambria County.

To construct, operate and maintain:

1. an 8 inch diameter natural gas line and a temporary timber mat bridge impacting 3,383 square feet of a Palustrine Forested Wetland (Overton, PA Quadrangle, Latitude: 41°34'50", Longitude: -76°34'30");

2. an 8 inch diameter natural gas line impacting 6 linear feet of an unnamed tributary to Lick Creek (EV, MF) and impacting 486 square feet of an adjacent Palustrine Forested and Palustrine Emergent Wetland (EV) (Overton, PA Quadrangle, Latitude: 41°34'47", Longitude: -76°34'56");

The project will result in 6 linear feet or 4 square feet of temporary stream impacts and 2,356 square feet (0.05 acre) of temporary PEM and PFO and 1,513 square feet (0.04 acre) of permanent PFO wetland impacts all for the purpose of installing a natural gas pipeline with associated access roadways for Marcellus shale development in Overton Township, Bradford County.

2) a natural gas compressor station activities temporarily impacting 296 lineal feet of an unnamed tributary to North Branch Wyalusing Creek (CWF-MF) (Lawton, PA Quadrangle; Latitude: 41° 51' 33", Longitude: -76° 05' 00"),

3) a rip rap aggregate fill permanently impacting 103 lineal feet of an unnamed tributary to North Branch Wyalusing Creek (CWF-MF) (Lawton, PA Quadrangle; Latitude: 41° 51' 32", Longitude: -76° 05' 00"),

4) a rip rap aggregate fill temporarily impacting 70 lineal feet of an unnamed tributary to North Branch Wyalusing Creek (CWF-MF) (Lawton, PA Quadrangle; Latitude: 41° 51' 32", Longitude: -76° 05' 00"),

5) site grading and associated activities impacting 1,282 square feet (0.03 acre) of a PEM wetland (Lawton, PA Quadrangle; Latitude: 41° 51' 33", Longitude: -76° 04' 56").

Williams Field Services Company, LLC has constructed a natural gas compressor station located in Middletown Township, Susquehanna County. The project resulted in 374 lineal feet of permanent stream impacts, 366 lineal feet of temporary stream impacts, and 1,282 square feet (0.03 acre) of temporary wetland impacts all for the purpose of providing safe reliable distribution of Marcellus Shale natural gas to market.

EROSION AND SEDIMENT CONTROL

The following Erosion and Sediment Control permits have been issued.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Consent Order and Agreement

York County Solid Waste and Refuse Authority, 2700 Blackbridge Road, York, PA 17406

York County Sanitary Landfill; NPDES Permit No. PA 0081744; Hopewell Township, York County

This Consent Order and Agreement ("COA") is entered into this 21st day of August, 2015, by and between the Commonwealth of Pennsylvania, Department of Environmental Protection ("Department"), and York County Solid Waste and Refuse Authority ("YCSWA").

Findings

The Department has found and determined the following:

A. The Department is the agency with the duty and authority to administer and enforce the Pennsylvania Clean Streams Law, the Act of June 22, 1937, P. L. 1987, as amended, 35 P. S. § 691.1 et seq. (“The Clean Streams Law”); The Solid Waste Management Act, Act of July 7, 1980, P. L. 380, No. 97, as amended, 35 P. S. §§ 6018.101 et seq. (“SWMA”); Section 1917-A of the Administrative Code of 1929, Act of April 9, 1929, P. L. 177, as amended, 71 P. S. § 510-17 (“Administrative Code”); and the rules and regulations promulgated thereunder, and with the delegated authority to administer a permit program, the National Pollutant Discharge Elimination System (“NPDES”), under Section 402 of the Federal Clean Water Act, 33 U.S.C. § 1342.

B. YCSWRA, also known as York County Solid Waste Authority, owns and operates the York County Sanitary Landfill (“Landfill”) located in Hopewell Township, York County, and maintains a business address of 2700 Blackbridge Road, York, Pennsylvania 17406.

C. YCSWRA owns and operates a pump and treat air stripping system for the purposes of treating contaminated groundwater from an unlined portion of the Landfill. The pump and treat air stripping system is comprised of three air stripping towers. Air stripping towers 2 and 3 discharge treated groundwater to an Unnamed Tributary of Ebaughs Creek (“UNT Ebaughs Creek”), a Water of the Commonwealth, through Outfall 002. Air stripping tower 1 discharges treated groundwater to an Unnamed Tributary of Rambo Run (“UNT Rambo Run”), a Water of the Commonwealth, through Outfall 001.

D. The discharge of treated groundwater from the air stripping system and into UNT Ebaughs Creek and UNT Rambo Run through Outfalls 001 and 002 is authorized under the terms and conditions of NPDES Permit No. PA0081744, effective December 1, 2006, which expired November 30, 2011. YCSWRA timely applied for an NPDES renewal, which application was received by the Department on May 27, 2011, and YCSWRA’s treated groundwater discharge from the air stripping system continues to be authorized under NPDES Permit No. PA0081744 by virtue of its timely renewal application.

E. The discharges of treated groundwater are to the headwaters of UNT Ebaughs Creek and UNT Rambo Run that have small upstream drainage areas with little or no dilution. Based upon the available data, the Department takes the position that discharges have the reasonable potential to cause or contribute to an excursion above the mercury criterion in 25 Pa. Code Section 93.8d, Table 5, and in recognition of the parties’ disagreement regarding application of the 25 Pa. Code Section 93.8d, Table 5 criterion to the subject discharges, the Department has agreed to allow YCSWRA to develop a site-specific criterion for methylmercury, based on a fish tissue bioaccumulation factor (as recommended by EPA), that will be translated to a water column concentration for total mercury that is protective of human health. The study will be performed as required, including in accordance with 25 Pa. Code Section 93.8d, and will include a site-specific translator for converting the methylmercury criterion to total mercury for purposes of monitoring the discharges.

F. On November 30, 2011, the Department met with YCSWRA and informed YCSWRA that it would be required to meet the discharge limitation of 0.05 µg/l for

total mercury at Outfalls 001 and 002, or complete a study to develop a site-specific water quality criterion for methylmercury.

G. On May 9, 2012 the Department collected fish (brook trout) for tissue samples at two locations in Rambo Run. The purpose of the sampling was to determine the concentration of mercury in the fish, and to further determine if there was a reasonable potential to continue with a site specific methylmercury bioaccumulation factor study. The fish tissue concentrations were 0.036 mg/kg and 0.038 mg/kg.

H. By letter dated November 1, 2012, the Department advised YCSWRA that it must choose from the following two options regarding Mercury in its discharge:

1. Meet the Human Health Criteria for Hg of 0.05 ug/L as listed in 25 Pa. Code Chapter 93 Table 5. The Department will include a schedule in the permit to allow time to meet this more stringent limit.

2. Submit a Site-Specific study for the Department’s review utilizing the document titled *Site-Specific Methyl Mercury Fish Tissue Based Water Quality Criterion—Quality Assurance Project Plan/BAF Determination* dated February 27, 2012 provided to the Authority during the meeting on March 22, 2012. This option will be accompanied by a Consent Order and Agreement. Please note that the criteria developed utilizing this option would have to be used even if it is calculated to be more stringent than the existing Human Health Criteria.

On November 19, 2012, YCSWRA sent the Department an email stating that it “has chosen to conduct a stream survey to determine the site specific bioaccumulation factor as presented in your letter”.

I. In a series of meetings in 2013-2014, the Department and YCSWRA met to discuss the study and related matters.

J. During the same time period, the Department requested that YCSWRA collect 6 monthly samples of methylmercury from the two NPDES outfalls. YCSWRA submitted total mercury and methylmercury analytical results for monthly samples collected between June and November 2013.

K. By letter dated February 18, 2015, the Department advised YCSWRA that it had the following two options regarding the proposed total mercury limit in NPDES Permit No. PA0081744:

1. Accept a limit based on the existing water quality criteria for total mercury (0.05 ug/l) provided in 25 Pa. Code Chapter 93.

2. Develop and conduct a study to develop a site-specific criterion for total mercury for both Rambo Run and Ebaughs Creek.

Under the second option, if YCSWRA were to conduct the study, the study would include developing a site-specific methylmercury criterion, and a site-specific translation factor, which would be used to develop effluent discharge limits for total mercury for Rambo Run and Ebaughs Creek.

The Department’s letter referred to the following guidance documents: National Recommended WQ Human Health Criteria for Mercury (Draft, 12/30/2013); and Human Health Criteria-Methylmercury Fish Tissue Criterion (January 2001, EPA-823-R-01-001).

L. By email dated March 17, 2015, YCSWRA notified the Department that it “selected to conduct a stream survey in applicable water bodies to determine a site

specific criteria for total mercury for each of our treatment systems at the York County Sanitary Landfill”.

Order

After full and complete negotiation of all matters set forth in this COA and upon mutual exchange of covenants contained herein, the parties desiring to avoid litigation and intending to be legally bound, it is hereby ORDERED by the Department and AGREED to by YCSWRA as follows:

1. *Authority.* This COA is an Order of the Department authorized and issued pursuant to Section 5 of The Clean Streams Law, 35 P. S. § 691.5; and Section 1917-A of the Administrative Code, 71 P. S. § 510.17.

2. Findings.

a. The Department and YCSWRA agree that the findings in paragraphs A through L are true and correct, and, in any matter or proceeding involving YCSWRA and the Department, YCSWRA shall not challenge the accuracy or validity of these findings.

b. The parties do not authorize any other persons to use the findings in the COA in any matter or proceeding.

3. Corrective Action.

a. Within 60 days after the execution of this COA, YCSWRA shall submit a site-specific study plan (hereafter the “Plan”) that identifies and describes the “methodology to be utilized to develop a site-specific methylmercury criterion and translation factor for the unnamed tributaries to Rambo Run and Ebaughs Creek” (hereafter the “Site-Specific Study”). The site-specific methylmercury criterion will be applied with a site-specific translation factor, to develop effluent discharge limits for total mercury for Outfall 001 and Outfall 002. The Plan shall be performed in accordance with 25 Pa. Code Section 93.8d.

b. If the Department advises YCSWRA that additional information is needed to approve the Plan, YCSWRA shall submit the information within 15 days of the date of the Department’s request; however, upon written request, including a justification from YCSWRA, the Department may allow an extension for such a submittal.

c. In the event that the Department determines that the Plan as submitted by YCSWRA is deficient and notifies YCSWRA of the need for additional information, as set forth above in paragraph 3.b and YCSWRA fails to provide the Department with additional information sufficient to make the Plan approvable by December 31, 2015, the Department will amend NPDES Permit No. PA0081744 with a total mercury effluent limitation of 0.05 µg/l for Outfalls 001 and 002 as a monthly average. In the event that the Department takes the action just described, this COA terminates and YCSWRA retains the right to appeal the NPDES Permit.

d. Within 21 days following approval of the Plan by the Department, YCSWRA shall initiate implementation of the Site-Specific Study described in the Plan, unless the Department has agreed in writing to a later date, and shall commence the sampling required for the site-specific translation factor. The required sampling shall be performed at both Rambo Run and Ebaughs Creek, and shall be performed in accordance with the approved Plan.

e. For each month or portion thereof that follows YCSWRA’s initiation of the Site-Specific Study, YCSWRA shall submit a report to the Department outlining major activities accomplished, results received, and findings during the applicable month. The report shall be mailed

to Maria Bebenek, Manager, Clean Water Program, DEP, SCRO, 909 Elmerton Avenue, Harrisburg, PA 17110.

f. The Department will use its best efforts to provide a timely review of the monthly reports and notify YCSWRA if the Site-Specific Study is not being implemented consistent with the Plan.

g. During the implementation of the Site-Specific Study, YCSWRA may request modifications to the approved Plan. All modifications to the Plan shall be set forth in writing and approved by the Department.

h. Within 60 days after the completion of the Site-Specific Study, but no later than June 1, 2018, YCSWRA shall submit a “complete report” of the Site-Specific Study’s results and findings for Department review (hereafter, the “Site-Specific Study Report”), unless DEP agrees to an extension in writing. The Site-Specific Study Report shall include all raw data for fish tissue and water column, used to determine the BAF and the translation factor.

i. Upon receiving the Site-Specific Study Report, the Department will review the report to ensure that the Site-Specific Study followed the protocols in the approved Plan.

j. If the Department requires additional information to review or approve any submittal necessary to comply with this COA, YCSWRA shall submit the requested information within ten (10) calendar days of the date of the Department’s notice that such information is required; however, upon written request the Department may allow an extension for such a submittal.

4. NPDES PERMIT

a. *2015 permit.* Within fifteen business days of the date of signing this Consent Order and Agreement, the Department will issue a draft NPDES permit. (The draft NPDES permit is attached as Exhibit A and is incorporated by reference). The Department will include in the permit a requirement for monitoring and reporting the total mercury concentration in the effluent from Outfalls 001 and 002 on a monthly basis. As set forth in Exhibit A, the draft NPDES permit will also include a reopener clause. Following close of the public comment period, the Department will issue a final NPDES permit (hereinafter called the “2015 permit”). If the Department issues the 2015 permit substantially in conformance with the terms of the attached Exhibit A insofar as they relate to the subject matter of this COA, YCSWRA will not challenge the permit requirements, conditions, or effluent limitations in any appeal filed with the Environmental Hearing Board or in any other administrative or judicial forum. Nothing in this paragraph shall limit YCSWRA’s right to appeal any permit requirements with respect to matters other than those that are the subject matter of this COA.

b. *Permit to be modified after Plan is completed.* As set forth above, in paragraph 3.i, upon receiving the Site-Specific Study Report, the Department will review the report to ensure that the Site-Specific Study followed the protocols in the approved Plan.

i. If the Department determines that the Site-Specific Study followed the protocols in the approved Plan, the Department will issue a draft NPDES Permit No. PA0081744 amendment to include a permit limit for total mercury in the discharges from Outfalls 001 and 002, which shall be based on the water quality criteria that was determined as a result of the Site-Specific Study. After the close of the public comment period, the Department will issue a final NPDES Permit No. PA0081744 amendment.

ii. If following review of the Site-Specific Study Report the Department determines that the Site-Specific Study did not follow the protocols in the approved Plan, the Department will issue a draft NPDES Permit No. PA0081744 amendment to include a total mercury effluent limitation of 0.05 µg/l for Outfalls 001 and 002 as a monthly average. After the close of the public comment period, the Department will issue a final NPDES Permit No. PA0081744 amendment. In the event that the Department takes the action just described, this COA terminates and YCSWRA reserves the right to appeal the Permit amendment's total mercury effluent limitation of 0.05 µg/l for Outfalls 001 and 002 as a monthly average.

iii. If necessary, the amended NPDES Permit No. PA0081744 will include a schedule for YCSWRA to upgrade the wastewater treatment plant to comply with the final effluent limitations. The schedule will provide for the submission of an administratively and technically complete Water Quality Management Part II Permit application for the wastewater treatment plant upgrades, which shall include a schedule for required construction no longer than two years from the date of the Part II Permit issuance.

iv. If the Department determines that the Site-Specific Study followed the protocols in the approved Plan, YCSWRA will not challenge before the Environmental Hearing Board or in any other administrative or judicial forum the site-specific methylmercury water quality criteria determined pursuant to the Site-Specific Study, provided that YCSWRA's rights to challenge before the Environmental Hearing Board and in any other administrative or judicial forum the discharge limits for total mercury the Department determines for Outfalls 001 and 002 under paragraph 4.b.i of this COA are in all respects fully preserved and unaffected by this COA insofar as those discharge limits are more stringent than necessary to meet the site-specific methylmercury criteria determined pursuant to the Site-Specific Study or are otherwise inconsistent with the Site-Specific Study.

5. *Stipulated Civil Penalties.*

a. If YCSWRA fails to comply in a timely manner with the provisions of this COA, YCSWRA shall be in violation of this COA and, in addition to other applicable remedies, shall pay a civil penalty in the amount determined under the following schedule:

For any violation of paragraphs 3.a, 3.b, 3.d, 3.e, 3.h and 3.j, \$200 per day for the first 30 days of each violation, and \$500 per day for each violation extending beyond the first 30 days.

b. Stipulated civil penalty payments for any violation of paragraph 3 herein shall be payable monthly on or before the twenty-eighth day of each succeeding month, and shall be forwarded as described in paragraph 10 below.

c. Any payment under this paragraph shall neither waive YCSWRA's duty to meet its obligations under this COA, nor preclude the Department from commencing an action to compel YCSWRA's compliance with the terms and conditions of this COA. The payment resolves YCSWRA's liability only for civil penalties arising from the violation of this COA.

6. *Additional Remedies.*

a. If YCSWRA fails to comply with any provision of this COA, the Department may, in addition to the remedies prescribed herein, pursue any remedy available for a violation of an order of the Department, including an action to enforce this COA.

b. The remedies provided by this paragraph and paragraph 5 are cumulative and the exercise of one does not preclude the exercise of any other. The failure of the Department to pursue any remedy shall not be deemed to be a waiver of that remedy. The payment of a stipulated civil penalty, however, shall preclude any further assessment of civil penalties for the violation for which the stipulated civil penalty is paid.

c. No provision of this COA shall preclude the Department from pursuing civil penalties for past violations of NPDES permit PA 0081744, if any, or any future reported or documented violations, except those violations covered by Paragraph 5 of this COA.

7. *Reservation of Rights.* The Department reserves the right to require additional measures to achieve compliance with applicable laws. YCSWRA reserves the right to challenge any action which the Department may take to require those measures.

8. *Liability of Operator.* YCSWRA shall be liable for any violations of the COA, including those caused by, contributed to, or allowed by its officers, agents, employees or contractors. YCSWRA also shall be liable for any violation of this COA caused by, contributed to, or allowed by its successors and assigns.

9. *Transfer of Site.*

a. The duties and obligations under this COA shall not be modified, diminished, terminated, or otherwise altered by the transfer of any legal or equitable interest in the Landfill or any part thereof.

b. If YCSWRA intends to transfer any legal or equitable interest in the Landfill and the transferred interest is affected by this COA, YCSWRA shall serve a copy of this COA upon the prospective transferee of the legal or equitable interest at least thirty (30) days prior to the completed transfer and shall simultaneously inform the Department's Southcentral Regional Office of such intent.

c. The Department in its sole discretion may agree to modify or terminate YCSWRA's duties and obligations under this COA upon transfer of the Landfill. YCSWRA waives any right that it may have to challenge the Department's decision in this regard.

10. *Correspondence with Department.* All correspondence with the Department concerning this COA shall be addressed to Maria Bebenek, Clean Water Program Manager, DEP Clean Water Program, Southcentral Regional Office, 909 Elmerton Avenue, Harrisburg, PA 17110-8200, Phone: 717-705-4795, Fax: 717-705-4760.

All Civil Penalty payments required under this document shall be made by corporate check or the like, made payable to "The Commonwealth of Pennsylvania, Clean Water Fund", and forwarded as described above.

11. *Correspondence with YCSWRA.* All correspondence with YCSWRA concerning this COA shall be addressed to Mr. Dave Vollero, YCSWRA, 2700 Blackbridge Road, York, PA 17406, Phone: 717-845-1066, Fax: 717-843-1544.

YCSWRA shall notify the Department whenever there is a change in the contact person's name or address. Service of any notice or any legal process for any purpose under this COA, including its enforcement, may be made by mailing a copy by first class mail to the above address.

12. *Force Majeure.*

a. In the event that YCSWRA is prevented from complying in a timely manner with any time limit imposed under this COA solely because of a strike, fire, flood, act of God, or other circumstances entirely beyond YCSWRA's

control and which YCSWRA, by the exercise of reasonable diligence, is unable to prevent, YCSWRA may petition the Department for an extension of time. An increase in the cost of performing the obligations set forth in this COA shall not constitute circumstances beyond YCSWRA's control. YCSWRA's economic inability to comply with any of the obligations of this COA shall not be grounds for any extension of time.

b. YCSWRA shall only be entitled to the benefits of this paragraph if it notifies the Department within five business days by telephone and within ten business days in writing of the date it becomes aware or reasonably should have become aware of the event impeding performance. The written submission shall include all necessary documentation, as well as a notarized affidavit from an authorized individual specifying the reasons for the delay, the expected duration of the delay, and the efforts which have been made and are being made by YCSWRA to mitigate the effects of the event and to minimize the length of the delay. The initial written submission may be supplemented within ten business days of its submission. YCSWRA's failure to comply with the requirements of this paragraph specifically and in a timely fashion shall render this paragraph null and of no effect as to the particular incident involved.

c. The Department will decide whether to grant all or part of the extension requested on the basis of all documentation submitted by YCSWRA and other information available to the Department. In any subsequent litigation, YCSWRA shall have the burden of proving that the Department's refusal to grant the requested extension was an abuse of discretion based upon the information then available to it.

d. This paragraph 12 does not apply to requests by YCSWRA under paragraphs 3.c, 3.f and 3.i of this COA.

13. *Severability.* The paragraphs of this COA shall be severable and should any part hereof be declared invalid or unenforceable, the remainder shall continue in full force and effect between the parties.

14. *Entire Agreement.* This COA shall constitute the entire integrated agreement of the parties. No prior or contemporaneous communications or prior drafts shall be relevant or admissible for purposes of determining the meaning or intent of any provisions herein in any litigation or any other proceeding.

15. *Attorney Fees.* The parties shall bear their respective attorney fees, expenses, and other costs in the prosecution or defense of this matter or any related matters arising prior to execution of this COA.

16. *Modifications.* No changes, additions, modifications, or amendments of this COA shall be effective unless they are set out in writing and signed by the parties hereto.

17. *Titles.* A title used at the beginning of any paragraph of this COA is provided solely for the purpose of identification and shall not be used to interpret that paragraph.

18. *Decisions Under Consent Order.* Except as provided in Paragraphs 3 and 4, any decision which the Department makes under the provisions of this COA is intended to be neither a final action under 25 Pa. Code § 1021.2, nor an adjudication under 2 Pa.C.S. § 101. Any objection which YCSWRA may have to the decision will be preserved until the Department enforces this COA.

19. *Dispute Resolution.*

a. YCSWRA may initiate dispute resolution under this paragraph, in response to any decision required of the Department under Paragraphs 3.c, 3.g and 4.b.ii.

b. To initiate dispute resolution, YCSWRA shall provide written notice to the Department within ten (10) days of the decision in dispute. YCSWRA shall have an additional ten days to provide the Department with a written list of objections to the decision in dispute, the relevant facts, analysis and opinions and other supporting data ("Statement of Position"). The Department shall have twenty (20) days to provide its Statement of Position.

c. Within the twenty (20) day period following receipt of the Department's Statement of Position, the Clean Water Program Manager and YCSWRA's Executive Director shall confer in an attempt to resolve the dispute. In the event the parties are unable to resolve the dispute within this period, the Statements of Position shall be provided to the Department's Southcentral Regional/Director to issue a final decision resolving the dispute.

d. During the pendency of the dispute resolution procedures set forth in Subparagraphs (b) and (c), any obligation to be performed under this Consent Order and Agreement which is the subject of such dispute and any associated activities whose performance is directly dependent upon the resolution of the dispute shall be postponed for a period of time not to exceed the actual time taken to resolve the dispute pursuant to Subparagraphs (b) and (c) or as otherwise agreed by the parties. All other obligations and activities shall be completed in accordance with the terms of this Consent Order and Agreement.

e. Any time period for dispute resolution set forth herein may be extended by written agreement of the parties.

f. For decisions which are specified as appealable to the Environmental Hearing Board under this COA, YCSWRA must either appeal the decision to the Board within thirty (30) days of its receipt, or initiate dispute resolution in the manner set forth in this paragraph and in all events before the expiration of the 30 day appeal period. If dispute resolution is initiated before the expiration of the appeal period, the effective date of the Department action that is the subject of the dispute shall be suspended until the Department makes a final decision under Subparagraph (c).

20. *Termination.* Except insofar as different termination dates arise under paragraphs 3.c and 4.b.ii, YCSWRA's obligations under this COA shall terminate when YCSWRA has completed the actions required in paragraph 3 and has paid the stipulated penalties, if any, due under paragraph 5.

In Witness Whereof, the parties hereto have caused this Consent Order and Agreement to be executed by their duly authorized representatives. The undersigned representatives of YCSWRA certify under penalty of law, as provided by 18 Pa.C.S. § 4904, that they are authorized to execute this Consent Order and Agreement on behalf of YCSWRA, that YCSWRA consents to the entry of this Consent Order and Agreement as a final ORDER of the Department; and that YCSWRA hereby knowingly waives its right to appeal this Consent Order and Agreement and to challenge its content or validity, which rights may be available under Section 4 of the Environmental Hearing Board Act, Act of July 13, 1988, P. L. 530, 35 P. S. § 7514; the Administrative Agency Law, 2 Pa.C.S. § 103(a) and Chapters 5A and 7A; or any other provisions of law.

Draft NPDES Permit**

**AUTHORIZATION TO DISCHARGE UNDER THE
NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM
DISCHARGE REQUIREMENTS FOR INDUSTRIAL WASTEWATER FACILITIES**

**3800-PM-WSFR0011 Rev. 8/2009
NPDES PERMIT NO: PA0081744**

In compliance with the provisions of the Clean Water Act, 33 U.S.C. Section 1251 et seq. (“the Act”) and Pennsylvania’s Clean Streams Law, as amended, 35 P. S. Section 691.1 et seq.,

York County Solid Waste and Refuse Authority
2700 Blackbridge Road
York, PA 17406-7901

is authorized to discharge from a facility known as York County Sanitary Landfill, located in Hopewell Township, York County, to Unnamed Tributary to Ebaughs Creek and Unnamed Tributary to Rambo Run in Watershed(s) 7-I in accordance with effluent limitations, monitoring requirements and other conditions set forth in Parts A, B and C hereof.

THIS PERMIT SHALL BECOME EFFECTIVE ON _____

THIS PERMIT SHALL EXPIRE AT MIDNIGHT ON _____

The authority granted by this permit is subject to the following further qualifications:

1. If there is a conflict between the application, its supporting documents and/or amendments and the terms and conditions of this permit, the terms and conditions shall apply.

2. Failure to comply with the terms, conditions or effluent limitations of this permit is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application. (40 CFR 122.41(a))

3. A complete application for renewal of this permit, or notice of intent to cease discharging by the expiration date, must be submitted to DEP at least 180 days prior to the above expiration date (unless permission has been granted by DEP for submission at a later date), using the appropriate NPDES permit application form. (40 CFR 122.41(b), 122.21(d)(2))

In the event that a timely and complete application for renewal has been submitted and DEP is unable, through no fault of the permittee, to reissue the permit before the above expiration date, the terms and conditions of this permit, including submission of the Discharge Monitoring Reports (DMRs), will be automatically continued and will remain fully effective and enforceable against the discharger until DEP takes final action on the pending permit application. (25 Pa. Code §§ 92a.7(b), (c))

4. This NPDES permit does not constitute authorization to construct or make modifications to wastewater treatment facilities necessary to meet the terms and conditions of this permit.

Additional Requirements

The permittee may not discharge:

1. Floating solids, scum, sheen or substances that result in observed deposits in the receiving water. (25 Pa Code § 92a.41(c))

2. Oil and grease in amounts that cause a film or sheen upon or discoloration of the waters of this Commonwealth or adjoining shoreline, or that exceed 15 mg/l as a daily average or 30 mg/l at any time (or lesser amounts if specified in this permit). (25 Pa. Code § 92a.47(a)(7), § 95.2(2))

3. Substances in concentration or amounts sufficient to be inimical or harmful to the water uses to be protected or to human, animal, plant or aquatic life. (25 Pa Code § 93.6(a))

4. Foam or substances that produce an observed change in the color, taste, odor or turbidity of the receiving water, unless those conditions are otherwise controlled through effluent limitations or other requirements in this permit. (25 Pa Code § 92a.41(c))

Footnotes

(1) When sampling to determine compliance with mass effluent limitations, the discharge flow at the time of sampling must be measured and recorded.

(2) This is the minimum number of sampling events required. Permittees are encouraged, and it may be advantageous in demonstrating compliance, to perform more than the minimum number of sampling events.

(3) The treatment technology can treat to non-detect for trichloroethylene and the most stringent criterion for trichloroethylene is 2.5 ug/l.

Supplemental Information

The effluent limitations for Outfalls 001 and 002 were determined using effluent discharge rates of 0.346 MGD and 0.288 MGD, respectively.

II. DEFINITIONS

At Outfall (XXX) means a sampling location in outfall line XXX below the last point at which wastes are added to outfall line (XXX), or where otherwise specified.

Average refers to the use of an arithmetic mean, unless otherwise specified in this permit. (40 CFR 122.41(l)(4)(iii))

Best Management Practices (BMPs) means schedules of activities, prohibitions of practices, maintenance procedures and other management practices to prevent or reduce the pollutant loading to surface waters of the Commonwealth. The term also includes treatment requirements, operating procedures and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage. The term includes activities, facilities, measures, planning or procedures used to minimize accelerated erosion and sedimentation and manage stormwater to protect, maintain, reclaim, and restore the quality of waters and the existing and designated uses of waters within this Commonwealth before, during and after earth disturbance activities. (25 Pa. Code § 92a.2)

Bypass means the intentional diversion of waste streams from any portion of a treatment facility. (40 CFR 122.41(m)(1)(i))

Calendar Week is defined as the seven consecutive days from Sunday through Saturday, unless the permittee has been given permission by DEP to provide weekly data as

Monday through Friday based on showing excellent performance of the facility and a history of compliance. In cases when the week falls in two separate months, the month with the most days in that week shall be the month for reporting.

Clean Water Act means the Federal Water Pollution Control Act, as amended. (33 U.S.C.A. §§ 1251 to 1387).

Chemical Additive means a chemical product (including products of disassociation and degradation, collectively "products") introduced into a waste stream that is used for cleaning, disinfecting, or maintenance and which may be detected in effluent discharged to waters of the Commonwealth. The term generally excludes chemicals used for neutralization of waste streams, the production of goods, and treatment of wastewater.

Composite Sample (for all except GC/MS volatile organic analysis) means a combination of individual samples (at least eight for a 24-hour period or four for an 8-hour period) of at least 100 milliliters (mL) each obtained at spaced time intervals during the compositing period. The composite must be flow-proportional; either the volume of each individual sample is proportional to discharge flow rates, or the sampling interval is proportional to the flow rates over the time period used to produce the composite. (EPA Form 2C)

Composite Sample (for GC/MS volatile organic analysis) consists of at least four aliquots or grab samples collected during the sampling event (not necessarily flow proportioned). The samples must be combined in the laboratory immediately before analysis and then one analysis is performed. (EPA Form 2C)

Daily Average Temperature means the average of all temperature measurements made, or the mean value plot of the record of a continuous automated temperature recording instrument, either during a calendar day or during the operating day if flows are of a shorter duration.

Daily Discharge means the discharge of a pollutant measured during a calendar day or any 24-hour period that reasonably represents the calendar day for purposes of sampling. For pollutants with limitations expressed in units of mass, the "daily discharge" is calculated as the total mass of the pollutant discharged over the day. For pollutants with limitations expressed in other units of measurement, the "daily discharge" is calculated as the average measurement of the pollutant over the day. (25 Pa. Code § 92a.2, 40 CFR 122.2)

Daily Maximum Discharge Limitation means the highest allowable "daily discharge."

Discharge Monitoring Report (DMR) means the DEP or EPA supplied form(s) for the reporting of self-monitoring results by the permittee. (25 Pa. Code § 92a.2, 40 CFR 122.2)

Estimated Flow means any method of liquid volume measurement based on a technical evaluation of the sources contributing to the discharge including, but not limited to, pump capabilities, water meters and batch discharge volumes.

Geometric Mean means the average of a set of n sample results given by the nth root of their product.

Grab Sample means an individual sample of at least 100 mL collected at a randomly selected time over a period not to exceed 15 minutes. (EPA Form 2C)

Hazardous Substance means any substance designated under 40 CFR Part 116 pursuant to Section 311 of the Clean Water Act. (40 CFR 122.2)

Hauled-In Wastes means any waste that is introduced into a treatment facility through any method other than a direct connection to the wastewater collection system. The term includes wastes transported to and disposed of within the treatment facility or other entry points within the collection system.

Immersion Stabilization (i-s) means a calibrated device is immersed in the wastewater until the reading is stabilized.

Instantaneous Maximum Effluent Limitation means the highest allowable discharge of a concentration or mass of a substance at any one time as measured by a grab sample. (25 Pa. Code § 92a.2)

Measured Flow means any method of liquid volume measurement, the accuracy of which has been previously demonstrated in engineering practice, or for which a relationship to absolute volume has been obtained.

Monthly Average Discharge Limitation means the highest allowable average of "daily discharges" over a calendar month, calculated as the sum of all "daily discharges" measured during a calendar month divided by the number of "daily discharges" measured during that month. (25 Pa. Code § 92a.2)

Municipal Waste means garbage, refuse, industrial lunchroom or office waste and other material, including solid, liquid, semisolid or contained gaseous material resulting from operation of residential, municipal, commercial or institutional establishments and from community activities; and sludge not meeting the definition of residual or hazardous waste under this section from a municipal, commercial or institutional water supply treatment plant, waste water treatment plant or air pollution control facility. (25 Pa. Code § 271.1)

Non-contact Cooling Water means water used to reduce temperature which does not come in direct contact with any raw material, intermediate product, waste product (other than heat), or finished product.

Residual Waste means garbage, refuse, other discarded material or other waste, including solid, liquid, semisolid or contained gaseous materials resulting from industrial, mining and agricultural operations and sludge from an industrial, mining or agricultural water supply treatment facility, wastewater treatment facility or air pollution control facility, if it is not hazardous. The term does not include coal refuse as defined in the Coal Refuse Disposal Control Act. The term does not include treatment sludges from coal mine drainage treatment plants, disposal of which is being carried on under and in compliance with a valid permit issued under the Clean Streams Law. (25 Pa. Code § 287.1)

Severe Property Damage means substantial physical damage to property, damage to the treatment facilities that causes them to become inoperable, or substantial and permanent loss of natural resources that can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production. (40 CFR 122.41(m)(1)(ii))

Stormwater means the runoff from precipitation, snow melt runoff, and surface runoff and drainage. (25 Pa. Code § 92a.2)

Stormwater Associated With Industrial Activity means the discharge from any conveyance that is used for collecting and conveying stormwater and that is directly related to manufacturing, processing, or raw materials storage areas at an industrial plant, and as defined at 40 CFR 122.26(b)(14) (i)—(ix) & (xi) and 25 Pa. Code § 92a.2.

Total Dissolved Solids means the total dissolved (filterable) solids as determined by use of the method specified in 40 CFR Part 136.

Toxic Pollutant means those pollutants, or combinations of pollutants, including disease-causing agents, which after discharge and upon exposure, ingestion, inhalation or assimilation into any organism, either directly from the environment or indirectly by ingestion through food chains may, on the basis of information available to DEP cause death, disease, behavioral abnormalities, cancer, genetic mutations, physiological malfunctions, including malfunctions in reproduction, or physical deformations in these organisms or their offspring. (25 Pa. Code § 92a.2)

III. SELF-MONITORING, REPORTING AND RECORD-KEEPING

A. Representative Sampling

1. Samples and measurements taken for the purpose of monitoring shall be representative of the monitored activity (40 CFR 122.41(j)(1)). Representative sampling includes the collection of samples, where possible, during periods of adverse weather, changes in treatment plant performance and changes in treatment plant loading. If possible, effluent samples must be collected where the effluent is well mixed near the center of the discharge conveyance and at the approximate mid-depth point, where the turbulence is at a maximum and the settlement of solids is minimized. (40 CFR 122.48, 25 Pa. Code § 92a.61)

2. Records Retention (40 CFR 122.41(j)(2))

Except for records of monitoring information required by this permit related to the permittee's sludge use and disposal activities which shall be retained for a period of at least 5 years, all records of monitoring activities and results (including all original strip chart recordings for continuous monitoring instrumentation and calibration and maintenance records), copies of all reports required by this permit, and records of all data used to complete the application for this permit shall be retained by the permittee for 3 years from the date of the sample measurement, report or application, unless a longer retention period is required by the permit. The 3-year period shall be extended as requested by DEP or the EPA Regional Administrator.

3. Recording of Results (40 CFR 122.41(j)(3))

For each measurement or sample taken pursuant to the requirements of this permit, the permittee shall record the following information:

- The exact place, date and time of sampling or measurements.
- The person(s) who performed the sampling or measurements.
- The date(s) the analyses were performed.
- The person(s) who performed the analyses.
- The analytical techniques or methods used; and the associated detection level.
- The results of such analyses.

4. Test Procedures

a. Facilities that test or analyze environmental samples used to demonstrate compliance with this permit shall be in compliance with laboratory accreditation requirements of Act 90 of 2002 (27 Pa. C.S. §§ 4101—4113) and 25 Pa. Code Chapter 252, relating to environmental laboratory accreditation.

b. Test procedures (methods) for the analysis of pollutants or pollutant parameters shall be those approved under 40 CFR Part 136 or required under 40 CFR Chapter I, Subchapters N or O, unless the method is specified in this permit or has been otherwise approved in writing by DEP. (40 CFR 122.41(j)(4), 122.44(i)(1)(iv))

c. Test procedures (methods) for the analysis of pollutants or pollutant parameters shall be sufficiently sensitive. A method is sufficiently sensitive when 1) the method minimum level is at or below the level of the effluent limit established in the permit for the measured pollutant or pollutant parameter; or 2) the method has the lowest minimum level of the analytical methods approved under 40 CFR Part 136 or required under 40 CFR Chapter I, Subchapters N or O, for the measured pollutant or pollutant parameter; or 3) the method is specified in this permit or has been otherwise approved in writing by DEP for the measured pollutant or pollutant parameter. Permittees have the option of providing matrix or sample-specific minimum levels rather than the published levels. (40 CFR 122.44(i)(1)(iv))

5. Quality/Assurance/Control

In an effort to assure accurate self-monitoring analyses results:

a. The permittee, or its designated laboratory, shall participate in the periodic scheduled quality assurance inspections conducted by DEP and EPA. (40 CFR 122.41(e), 122.41(i)(3))

b. The permittee, or its designated laboratory, shall develop and implement a program to assure the quality and accurateness of the analyses performed to satisfy the requirements of this permit, in accordance with 40 CFR Part 136. (40 CFR 122.41(j)(4))

B. Reporting of Monitoring Results

1. The permittee shall effectively monitor the operation and efficiency of all wastewater treatment and control facilities, and the quantity and quality of the discharge(s) as specified in this permit. (40 CFR 122.41(e), 122.44(i)(1))

2. Discharge Monitoring Reports (DMRs) must be completed in accordance with DEP's published DMR Instructions (3800-FM-BPNPSM0463). DMRs are based on calendar reporting periods unless Part C of this permit requires otherwise. DMR(s) must be received by the agency(ies) specified in paragraph 3 below in accordance with the following schedule:

- Monthly DMRs must be received within 28 days following the end of each calendar month.

- Quarterly DMRs must be received within 28 days following the end of each calendar quarter, i.e., January 28, April 28, July 28, and October 28.

- Semiannual DMRs must be received within 28 days following the end of each calendar semiannual period, i.e., January 28 and July 28.

- Annual DMRs must be received by January 28, unless Part C of this permit requires otherwise.

3. The permittee shall complete all Supplemental Reporting forms (Supplemental DMRs) provided by DEP in this permit (or an approved equivalent), and submit the signed, completed forms as an attachment to the DMR(s). If the permittee elects to use DEP's electronic DMR (eDMR) system, one electronic submission may be made for DMRs and Supplemental DMRs. If paper forms are used, the completed forms shall be mailed to:

Department of Environmental Protection
Clean Water Program
909 Elmerton Avenue
Harrisburg, PA 17110-8200

4. If the permittee elects to begin using DEP's eDMR system to submit DMRs required by the permit, the permittee shall, to assure continuity of business operations, continue using the eDMR system to submit all DMRs and Supplemental Reports required by the permit, unless the following steps are completed to discontinue use of eDMR:

a. The permittee shall submit written notification to the regional office that issued the permit that it intends to discontinue use of eDMR. The notification shall be signed by a principal executive officer or authorized agent of the permittee.

b. The permittee shall continue using eDMR until the permittee receives written notification from DEP's Central Office that the facility has been removed from the eDMR system, and electronic report submissions are no longer expected.

5. The completed DMR Form shall be signed and certified by either of the following applicable persons, as defined in 25 Pa. Code § 92a.22:

- For a corporation—by a principal executive officer of at least the level of vice president, or an authorized representative, if the representative is responsible for the overall operation of the facility from which the discharge described in the NPDES form originates.

- For a partnership or sole proprietorship—by a general partner or the proprietor, respectively.

- For a municipality, state, federal or other public agency—by a principal executive officer or ranking elected official.

If signed by a person other than the above, written notification of delegation of DMR signatory authority must be submitted to DEP in advance of or along with the relevant DMR form. (40 CFR 122.22(b))

6. If the permittee monitors any pollutant at monitoring points as designated by this permit, using analytical methods described in Part A III.A.4. herein, more frequently than the permit requires, the results of this monitoring shall be incorporated, as appropriate, into the calculations used to report self-monitoring data on the DMR. (40 CFR 122.41(l)(4)(ii))

C. Reporting Requirements

1. Planned Changes to Physical Facilities—The permittee shall give notice to DEP as soon as possible but no later than 30 days prior to planned physical alterations or additions to the permitted facility. A permit under 25 Pa. Code Chapter 91 may be required for these situations prior to implementing the planned changes. A permit application, or other written submission to DEP, can be used to satisfy the notification requirements of this section.

Notice is required when:

a. The alteration or addition to a permitted facility may meet one of the criteria for determining whether a facility is a new source in 40 CFR 122.29(b). (40 CFR 122.41(l)(1)(i))

b. The alteration or addition could significantly change the nature or increase the quantity of pollutants dis-

charged. This notification applies to pollutants which are not subject to effluent limitations in this permit. (40 CFR 122.41(l)(1)(ii))

c. The alteration or addition results in a significant change in the permittee's sludge use or disposal practices, and such alteration, addition, or change may justify the application of permit conditions that are different from or absent in the existing permit, including notification of additional use or disposal sites not reported during the permit application process or not reported pursuant to an approved land application plan. (40 CFR 122.41(l)(1)(iii))

d. The planned change may result in noncompliance with permit requirements. (40 CFR 122.41(l)(2))

2. Planned Changes to Waste Stream—Under the authority of 25 Pa. Code § 92a.24(a), the permittee shall provide notice to DEP as soon as possible but no later than 45 days prior to any planned changes in the volume or pollutant concentration of its influent waste stream as a result of indirect discharges or hauled-in wastes, as specified in paragraphs 2.a. and 2.b., below. Notice shall be provided on the "Planned Changes to Waste Stream" Supplemental Report (3800-FM-BPNPSM0482), available on DEP's website. The permittee shall provide information on the quality and quantity of waste introduced into the facility, and any anticipated impact of the change on the quantity or quality of effluent to be discharged from the facility. The Report shall be sent via Certified Mail or other means to confirm DEP's receipt of the notification. DEP will determine if the submission of a new application and receipt of a new or amended permit is required.

a. Introduction of New Pollutants (25 Pa. Code § 92a.24(a))

New pollutants are defined as parameters that meet all of the following criteria:

(i) Were not detected in the facilities' influent waste stream as reported in the permit application; and

(ii) Have not been approved to be included in the permittee's influent waste stream by DEP in writing.

The permittee shall provide notification of the introduction of new pollutants in accordance with paragraph 2 above. The permittee may not authorize the introduction of new pollutants until the permittee receives DEP's written approval.

b. Increased Loading of Approved Pollutants (25 Pa. Code § 92a.24(a))

Approved pollutants are defined as parameters that meet one or more of the following criteria:

(i) Were detected in the facilities' influent waste stream as reported in the permittee's permit application; or

(ii) Have been approved to be included in the permittee's influent waste stream by DEP in writing; or

(iii) Have an effluent limitation or monitoring requirement in this permit.

The permittee shall provide notification of the introduction of increased influent loading (lbs/day) of approved pollutants in accordance with paragraph 2 above when (1) the cumulative increase in influent loading (lbs/day) exceeds 20% of the maximum loading reported in the permit application, or a loading previously approved by DEP, or (2) may cause an exceedance in the effluent of Effluent Limitation Guidelines (ELGs) or limitations in Part A of this permit, or (3) may cause interference or pass through at the facility, or (4) may cause exceedances of the applicable water quality standards in the receiving

stream. Unless specified otherwise in this permit, if DEP does not respond to the notification within 30 days of its receipt, the permittee may proceed with the increase in loading. The acceptance of increased loading of approved pollutants may not result in an exceedance of ELGs or effluent limitations and may not cause exceedances of the applicable water quality standards in the receiving stream.

3. Reporting Requirements for Hauled-In Wastes

a. Receipt of Residual Waste

(i) The permittee shall document the receipt of all hauled-in residual wastes (including but not limited to wastewater from oil and gas wells, food processing waste, and landfill leachate), as defined at 25 Pa. Code § 287.1, that are received for processing at the treatment facility. The permittee shall report hauled-in residual wastes on a monthly basis to DEP on the "Hauled In Residual Wastes" Supplemental Report (3800-FM-BPNPSM0450) as an attachment to the DMR. If no residual wastes were received during a month, submission of the Supplemental Report is not required.

The following information is required by the Supplemental Report. The information used to develop the Report shall be retained by the permittee for five years from the date of receipt and must be made available to DEP or EPA upon request.

(1) The dates that residual wastes were received.

(2) The volume (gallons) of wastes received.

(3) The license plate number of the vehicle transporting the waste to the treatment facility.

(4) The permit number(s) of the well(s) where residual wastes were generated, if applicable.

(5) The name and address of the generator of the residual wastes.

(6) The type of wastewater.

The transporter of residual waste must maintain these and other records as part of the daily operational record (25 Pa. Code § 299.219). If the transporter is unable to provide this information or the permittee has not otherwise received the information from the generator, the residual wastes shall not be accepted by the permittee until such time as the permittee receives such information from the transporter or generator.

(ii) The following conditions apply to the characterization of residual wastes received by the permittee:

(1) If the generator is required to complete a chemical analysis of residual wastes in accordance with 25 Pa. Code § 287.51, the permittee must receive and maintain on file a chemical analysis of the residual wastes it receives. The chemical analysis must conform to the Bureau of Waste Management's Form 26R except as noted in paragraph (2), below. Each load of residual waste received must be covered by a chemical analysis if the generator is required to complete it.

(2) For wastewater generated from hydraulic fracturing operations ("frac wastewater") within the first 30 production days of a well site, the chemical analysis may be a general frac wastewater characterization approved by DEP. Thereafter, the chemical analysis must be waste-specific and be reported on the Form 26R.

b. Receipt of Municipal Waste

(i) The permittee shall document the receipt of all hauled-in municipal wastes (including but not limited to

septage and liquid sewage sludge), as defined at 25 Pa. Code § 271.1, that are received for processing at the treatment facility. The permittee shall report hauled-in municipal wastes on a monthly basis to DEP on the "Hauled In Municipal Wastes" Supplemental Report (3800-FM-BPNPSM0437) as an attachment to the DMR. If no municipal wastes were received during a month, submission of the Supplemental Report is not required.

The following information is required by the Supplemental Report:

- (1) The dates that municipal wastes were received.
 - (2) The volume (gallons) of wastes received.
 - (3) The BOD₅ concentration (mg/l) and load (lbs) for the wastes received.
 - (4) The location(s) where wastes were disposed of within the treatment facility.
- (ii) Sampling and analysis of hauled-in municipal wastes must be completed to characterize the organic strength of the wastes, unless composite sampling of influent wastewater is performed at a location downstream of the point of entry for the wastes.

4. Unanticipated Noncompliance or Potential Pollution Reporting

a. Immediate Reporting—The permittee shall immediately report any incident causing or threatening pollution in accordance with the requirements of 25 Pa. Code §§ 91.33 and 92a.41(b).

(i) If, because of an accident, other activity or incident a toxic substance or another substance which would endanger users downstream from the discharge, or would otherwise result in pollution or create a danger of pollution or would damage property, the permittee shall immediately notify DEP by telephone of the location and nature of the danger. Oral notification to the Department is required as soon as possible, but no later than 4 hours after the permittee becomes aware of the incident causing or threatening pollution.

(ii) If reasonably possible to do so, the permittee shall immediately notify downstream users of the waters of the Commonwealth to which the substance was discharged. Such notice shall include the location and nature of the danger.

(iii) The permittee shall immediately take or cause to be taken steps necessary to prevent injury to property and downstream users of the waters from pollution or a danger of pollution and, in addition, within 15 days from the incident, shall remove the residual substances contained thereon or therein from the ground and from the affected waters of this Commonwealth to the extent required by applicable law.

b. The permittee shall report any noncompliance which may endanger health or the environment in accordance with the requirements of 40 CFR 122.41(l)(6). These requirements include the following obligations:

(i) 24 Hour Reporting—The permittee shall orally report any noncompliance with this permit which may endanger health or the environment within 24 hours from the time the permittee becomes aware of the circumstances. The following shall be included as information which must be reported within 24 hours under this paragraph:

(1) Any unanticipated bypass which exceeds any effluent limitation in the permit;

(2) Any upset which exceeds any effluent limitation in the permit; and

(3) Violation of the maximum daily discharge limitation for any of the pollutants listed in the permit as being subject to the 24-hour reporting requirement. (40 CFR 122.44(g))

(ii) Written Report—A written submission shall also be provided within 5 days of the time the permittee becomes aware of any noncompliance which may endanger health or the environment. The written submission shall contain a description of the noncompliance and its cause; the period of noncompliance, including exact dates and times, and if the noncompliance has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the noncompliance.

(iii) Waiver of Written Report—DEP may waive the written report on a case-by-case basis if the associated oral report has been received within 24 hours from the time the permittee becomes aware of the circumstances which may endanger health or the environment. Unless such a waiver is expressly granted by DEP, the permittee shall submit a written report in accordance with this paragraph. (40 CFR 122.41(l)(6)(iii))

5. Other Noncompliance

The permittee shall report all instances of noncompliance not reported under paragraph C.4 of this section or specific requirements of compliance schedules, at the time DMRs are submitted, on the Non-Compliance Reporting Form (3800-FM-BPNPSM0440). The reports shall contain the information listed in paragraph C.4.b(ii) of this section. (40 CFR 122.41(l)(7))

D. Specific Toxic Pollutant Notification Levels (for Manufacturing, Commercial, Mining, and Silvicultural Direct Dischargers)—The permittee shall notify DEP as soon as it knows or has reason to believe the following: (40 CFR 122.42(a))

1. That any activity has occurred, or will occur, which would result in the discharge of any toxic pollutant which is not limited in this permit, if that discharge on a routine or frequent basis will exceed the highest of the following "notification levels": (40 CFR 122.42(a)(1))

- a. One hundred micrograms per liter.
- b. Two hundred micrograms per liter for acrolein and acrylonitrile.
- c. Five hundred micrograms per liter for 2,4-dinitrophenol and 2-methyl-4,6-dinitrophenol.
- d. One milligram per liter for antimony.
- e. Five times the maximum concentration value reported for that pollutant in this permit application.
- f. Any other notification level established by DEP.

2. That any activity has occurred or will occur which would result in any discharge, on a nonroutine or infrequent basis, of a toxic pollutant which is not limited in this permit, if that discharge will exceed the highest of the following "notification levels": (40 CFR 122.42(a)(2))

- a. Five hundred micrograms per liter.
- b. One milligram per liter for antimony.
- c. Ten times the maximum concentration value reported for that pollutant in the permit application.
- d. Any other notification level established by DEP.

PART B

I. MANAGEMENT REQUIREMENTS

A. Compliance

1. The permittee shall comply with all conditions of this permit. If a compliance schedule has been established in this permit, the permittee shall achieve compliance with the terms and conditions of this permit within the time frames specified in this permit. (40 CFR 122.41(a)(1))

2. The permittee shall submit reports of compliance or noncompliance, or progress reports as applicable, for any interim and final requirements contained in this permit. Such reports shall be submitted no later than 14 days following the applicable schedule date or compliance deadline. (25 Pa. Code § 92a.51(c), 40 CFR 122.47(a)(4))

B. Permit Modification, Termination, or Revocation and Reissuance

1. This permit may be modified, terminated, or revoked and reissued during its term in accordance with 25 Pa. Code § 92a.72 and 40 CFR 122.41(f).

2. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a notification of planned changes or anticipated non-compliance, does not stay any permit condition. (40 CFR 122.41(f))

3. In the absence of DEP action to modify or revoke and reissue this permit, the permittee shall comply with effluent standards or prohibitions established under Section 307(a) of the Clean Water Act for toxic pollutants within the time specified in the regulations that establish those standards or prohibitions. (40 CFR 122.41(a)(1))

C. Duty to Provide Information

1. The permittee shall furnish to DEP, within a reasonable time, any information which DEP may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with this permit. (40 CFR 122.41(h))

2. The permittee shall furnish to DEP, upon request, copies of records required to be kept by this permit. (40 CFR 122.41(h))

3. Other Information—Where the permittee becomes aware that it failed to submit any relevant facts in a permit application, or submitted incorrect information in a permit application or in any report to DEP, it shall promptly submit the correct and complete facts or information. (40 CFR 122.41(l)(8))

D. Proper Operation and Maintenance

The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the terms and conditions of this permit. Proper operation and maintenance includes, but is not limited to, adequate laboratory controls including appropriate quality assurance procedures. This provision also includes the operation of backup or auxiliary facilities or similar systems that are installed by the permittee, only when necessary to achieve compliance with the terms and conditions of this permit. (40 CFR 122.41(e))

E. Duty to Mitigate

The permittee shall take all reasonable steps to minimize or prevent any discharge, sludge use or disposal in

violation of this permit that has a reasonable likelihood of adversely affecting human health or the environment. (40 CFR 122.41(d))

F. Bypassing

1. Bypassing Not Exceeding Permit Limitations—The permittee may allow a bypass to occur which does not cause effluent limitations to be exceeded, but only if it also is for essential maintenance to assure efficient operation. These bypasses are not subject to the provisions in paragraphs two, three and four of this section. (40 CFR 122.41(m)(2))

2. Other Bypassing—In all other situations, bypassing is prohibited and DEP may take enforcement action against the permittee for bypass unless:

a. A bypass is unavoidable to prevent loss of life, personal injury or “severe property damage.” (40 CFR 122.41(m)(4)(i)(A))

b. There are no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate backup equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance. (40 CFR 122.41(m)(4)(i)(B))

c. The permittee submitted the necessary notice required in F.4.a. and b. below. (40 CFR 122.41(m)(4)(i)(C))

3. DEP may approve an anticipated bypass, after considering its adverse effects, if DEP determines that it will meet the conditions listed in F.2. above. (40 CFR 122.41(m)(4)(ii))

4. Notice

a. Anticipated Bypass—If the permittee knows in advance of the need for a bypass, it shall submit prior notice, if possible, at least 10 days before the bypass. (40 CFR 122.41(m)(3)(i))

b. Unanticipated Bypass—The permittee shall submit oral notice of any other unanticipated bypass within 24 hours, regardless of whether the bypass may endanger health or the environment or whether the bypass exceeds effluent limitations. The notice shall be in accordance with Part A III.C.4.b.

II. PENALTIES AND LIABILITY

A. Violations of Permit Conditions

Any person violating Sections 301, 302, 306, 307, 308, 318 or 405 of the Clean Water Act or any permit condition or limitation implementing such sections in a permit issued under Section 402 of the Act is subject to civil, administrative and/or criminal penalties as set forth in 40 CFR 122.41(a)(2).

Any person or municipality, who violates any provision of this permit; any rule, regulation or order of DEP; or any condition or limitation of any permit issued pursuant to the Clean Streams Law, is subject to criminal and/or civil penalties as set forth in Sections 602, 603 and 605 of the Clean Streams Law.

B. Falsifying Information

Any person who does any of the following:

- Falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required to be maintained under this permit, or

- Knowingly makes any false statement, representation, or certification in any record or other document submitted or required to be maintained under this permit (including monitoring reports or reports of compliance or noncompliance)

Shall, upon conviction, be punished by a fine and/or imprisonment as set forth in 18 Pa.C.S.A § 4904 and 40 CFR 122.41(j)(5) and (k)(2).

C. Liability

Nothing in this permit shall be construed to relieve the permittee from civil or criminal penalties for noncompliance pursuant to Section 309 of the Clean Water Act or Sections 602, 603 or 605 of the Clean Streams Law.

Nothing in this permit shall be construed to preclude the institution of any legal action or to relieve the permittee from any responsibilities, liabilities or penalties to which the permittee is or may be subject to under the Clean Water Act and the Clean Streams Law.

D. Need to Halt or Reduce Activity Not a Defense

It shall not be a defense for the permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit. (40 CFR 122.41(c))

III. OTHER RESPONSIBILITIES

A. Right of Entry

Pursuant to Sections 5(b) and 305 of Pennsylvania's Clean Streams Law, and Title 25 Pa. Code Chapter 92a and 40 CFR 122.41(i), the permittee shall allow authorized representatives of DEP and EPA, upon the presentation of credentials and other documents as may be required by law:

1. To enter upon the permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit; (40 CFR 122.41(i)(1))

2. To have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit; (40 CFR 122.41(i)(2))

3. To inspect at reasonable times any facilities, equipment (including monitoring and control equipment), practices or operations regulated or required under this permit; and (40 CFR 122.41(i)(3))

4. To sample or monitor at reasonable times, for the purposes of assuring permit compliance or as otherwise authorized by the Clean Water Act or the Clean Streams Law, any substances or parameters at any location. (40 CFR 122.41(i)(4))

B. Transfer of Permits

1. Transfers by modification. Except as provided in paragraph 2 of this section, a permit may be transferred by the permittee to a new owner or operator only if this permit has been modified or revoked and reissued, or a minor modification made to identify the new permittee and incorporate such other requirements as may be necessary under the Clean Water Act. (40 CFR 122.61(a))

2. Automatic transfers. As an alternative to transfers under paragraph 1 of this section, any NPDES permit may be automatically transferred to a new permittee if:

a. The current permittee notifies DEP at least 30 days in advance of the proposed transfer date in paragraph 2.b. of this section; (40 CFR 122.61(b)(1))

b. The notice includes the appropriate DEP transfer form signed by the existing and new permittees containing a specific date for transfer of permit responsibility, coverage and liability between them; (40 CFR 122.61(b)(2))

c. DEP does not notify the existing permittee and the proposed new permittee of its intent to modify or revoke and reissue this permit, the transfer is effective on the date specified in the agreement mentioned in paragraph 2.b. of this section; and (40 CFR 122.61(b)(3))

d. The new permittee is in compliance with existing DEP issued permits, regulations, orders and schedules of compliance, or has demonstrated that any noncompliance with the existing permits has been resolved by an appropriate compliance action or by the terms and conditions of the permit (including compliance schedules set forth in the permit), consistent with 25 Pa. Code § 92a.51 (relating to schedules of compliance) and other appropriate DEP regulations. (25 Pa. Code § 92a.71)

3. In the event DEP does not approve transfer of this permit, the new owner or operator must submit a new permit application.

C. Property Rights

The issuance of this permit does not convey any property rights of any sort, or any exclusive privilege. (40 CFR 122.41(g))

D. Duty to Reapply

If the permittee wishes to continue an activity regulated by this permit after the expiration date of this permit, the permittee must apply for a new permit. (40 CFR 122.41(b))

E. Other Laws

The issuance of this permit does not authorize any injury to persons or property or invasion of other private rights, or any infringement of state or local law or regulations.

IV. ANNUAL FEES

Permittees shall pay an annual fee in accordance with 25 Pa. Code § 92a.62. Annual fee amounts are specified in the following schedule and are due on each anniversary of the effective date of the most recent new or reissued permit. All flows identified in the schedule are annual average design flows. (25 Pa. Code § 92a.62)

Minor IW Facility without ELG (Effluent Limitation Guideline)	\$500
Minor IW Facility with ELG	\$1,500
Major IW Facility < 250 MGD (million gallons per day)	\$5,000
Major IW Facility ≥ 250 MGD	\$25,000
IW Stormwater Individual Permit	\$1,000
CAAP (Concentrated Aquatic Animal Production Facility)	\$0

As of the effective date of this permit, the facility covered by the permit is classified in the following fee category: Minor IW Facility without ELG.

Invoices for annual fees will be mailed to permittees approximately three months prior to the due date. In the event that an invoice is not received, the permittee is nonetheless responsible for payment. Throughout a five year permit term, permittees will pay four annual fees followed by a permit renewal application fee in the last year of permit coverage. Permittees may contact DEP at

717-787-6744 with questions related to annual fees. The fees identified above are subject to change in accordance with 25 Pa. Code § 92a.62(e).

Payment for annual fees shall be remitted to DEP at the address below by the anniversary date. Checks should be made payable to the Commonwealth of Pennsylvania.

PART C

I. OTHER REQUIREMENTS

A. The approval herein given is specifically made contingent upon the permittee acquiring all necessary property rights by easement or otherwise, providing for the satisfactory construction, operation, maintenance or replacement of all structures associated with the herein approved discharge in, along, or across private property, with full rights of ingress, egress and regress.

B. Collected screenings, slurries, sludges, and other solids shall be handled, recycled and/or disposed of in compliance with the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), 25 Pa. Code Chapters 287, 288, 289, 291, 295, 297, and 299 (relating to requirements for landfilling, impoundments, land application, composting, processing, and storage of residual waste), Chapters 261a, 262a, 263a, and 270a (related to identification of hazardous waste, requirements for generators and transporters, and hazardous waste, requirements for generators and transporters, and hazardous waste permit programs), Federal regulation 40 CFR Part 257, The Clean Streams Law, and the Federal Clean Water Act and its amendments. Screenings collected at intake structures shall be collected and managed and not be returned to the receiving waters.

The permittee is responsible to obtain or assure that contracted agents have all necessary permits and approvals for the handling, storage, transport and disposal of solid waste materials generated as a result of wastewater treatment.

C. The terms and conditions of Water Quality Management (WQM) permits that may have been issued to the permittee relating to discharge requirements are superseded by this NPDES permit unless otherwise stated herein.

D. If the applicable standard or effluent guideline limitation relating to the application for Best Available Technology (BAT) Economically Achievable or to Best Conventional Technology (BCT) is developed by DEP or EPA for this type of industry, and if such standard or limitation is more stringent than the corresponding limitations of this permit (or if it controls pollutants not covered by this permit), DEP may modify or revoke and reissue the permit to conform with that standard or limitation.

II. SITE-SPECIFIC STUDY

The permittee shall conduct and submit to the Department a study to develop a site-specific methylmercury criterion and a site-specific translation factor for Rambo Run and Ebaugh's Creek. The study will be used to develop effluent discharge limits for total mercury for Rambo Run and Ebaugh's Creek. Pursuant to 40 CFR Section 122.62 and 25 Pa. Code Section 92a.72, based on the information presented by the permittee to the Department,

or in the event of permittee's failure to present adequate information to the Department, the Department will amend the existing NPDES permit to include specific effluent limitations for total mercury.

III. GROUNDWATER CLEANUP

A. If the applicable standard or effluent guideline limitation relating to the application for Best Available Technology Economically Achievable (BAT) or to Best Conventional Technology (BCT) is developed by the Department, or by EPA for this type of industry, and if such standard or limitation is more stringent than the corresponding conditions of this permit (or if it controls pollutants not covered by this permit), then the Department reserves the right to modify, or to revoke and reissue the permit to conform with that standard or limitation.

B. Sludges and other solids shall be handled and disposed of in compliance with 25 Pa. Code, Chapters 262, 263, and 264 (related to permits and requirements for landfilling and storage of hazardous sludge) and applicable federal regulations, the Federal Clean Water Act, RCRA and their amendments. The permittee is responsible to obtain or assure that contracted agents have all necessary permits and approvals for the handling, storage, transport and disposal of solid waste materials generated as a result of wastewater treatment.

C. Sampling shall be in accordance with monitoring requirements in Part A of this permit. All monitoring results shall be submitted with the monthly DMR.

D. There shall be no discharge of stripper tower cleaning wastewaters to waters of the Commonwealth. Cleaning wastewaters shall be discharged to the sanitary sewer or hauled off site for proper disposal.

E. The permittee shall operate the treatment facilities approved herein on a continual basis. If accidental breakdown or normal periodic maintenance should cause cessation of operation, the permittee shall take satisfactory measures to ensure the treatment works are placed back in operation at the earliest possible time. The permittee shall orally report to the Department within 24 hours of an unanticipated temporary shutdown of the treatment facility that is longer than 24 hours in duration or at least 24 hours prior to an anticipated maintenance shutdown.

DEPARTMENT OF HUMAN SERVICES

Changes to the All Patient Refined-Diagnosis Related Groups Classification System

The Department of Human Services (Department) is announcing its intent to change the relative values used for the fee-for-service (FFS) payment methodology for inpatient acute care services. Specifically, the Department intends to use National relative values instead of New York Medicaid relative values, effective for dates of discharge on and after October 1, 2015. Additionally, as part of the rebasing of the relative values, the Department intends to include managed care encounter data, along with FFS claims data to determine the adjustment factor.

Background

Effective July 1, 2010, the Department revised its Medical Assistance (MA) FFS payment methodology for inpatient acute care hospital services. The new methodology included adoption of the All Patient Refined-Diagnosis Related Groups (APR-DRG) patient classification system and implementation of APR-DRG relative values based on relative values developed by the New York Medicaid program. At the time the Department developed the new FFS payment methodology for inpatient acute care services, National relative values were not being utilized for payment by any payer in the Nation. For this reason, the Department adopted the New York Medicaid relative values.

Discussion

The World Health Organization has revised its International Statistical Classification of Diseases and Related Health Problems, or International Classification of Diseases (ICD), to version ICD-10. This classification system

provides diagnosis, procedure codes and other related data, which is used by the APR-DRG classification system to assign patients to specific DRGs for payment purposes. With the transition to ICD-10, the APR-DRG classification system will be updated to recognize and accept the revised diagnoses and procedure codes of ICD-10.

To comply with Federal requirements relating to transition to ICD-10, the Department will use the updated APR-DRG classification system for the FFS program so that the Department is able to accept the revised diagnosis and procedure codes of ICD-10, effective with dates of discharge on and after October 1, 2015.

With the adoption of the updated APR-DRG classification system, the Department intends to change the relative values used to determine the FFS payment for inpatient acute care services to National relative values. Recently, the National relative values were upgraded and are appropriate for use as a base for Medicaid payment systems. The National relative values represent a broader clinical approach to health care delivery.

Consistent with the State Plan, the Department will apply an adjustment factor to each of the new APR-DRG relative values so that the Commonwealth MA Statewide APR-DRG Case Mix Index is at a level that is budget-neutral. In addition to FFS claims data, the Department intends to use managed care encounter data to determine this adjustment factor to ensure budget neutrality across the MA Program.

Fiscal Impact

No fiscal impact is anticipated as a result of the change to the APR-DRG classification system.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Human Services, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

DEPARTMENT OF REVENUE

Powerball

In accordance with 61 Pa. Code § 871.21 (relating to future changes to Powerball), the Secretary of Revenue (Secretary) announces the following changes to the Powerball regulations. This amendment provides updates to the game description and certain definitions. This amendment provides changes to prize payout probabilities and prize pool allocations. Additionally, this amendment further provides for changes to the power play promotion.

These changes will affect ticket sales beginning on Sunday, October 4, 2015, for the Powerball drawing on Wednesday, October 7, 2015. The changes to the regulation will be codified as paragraph (8) in 61 Pa. Code § 871.22 (relating to changes to Powerball):

(8) *Changes effective for Powerball tickets sold on or after October 4, 2015:*

(i) *Section 871.2(a) (relating to game description and purpose).* Powerball is a five out of 69 plus one out of 26 terminal-based lottery game which pays the grand prize on an annuitized, parimutuel basis. Except as provided in this chapter, all other prizes are paid on a set cash, single payment basis.

(ii) *Section 871.2(b) (relating to game description and purpose).* The purpose of the Powerball game is to determine winners from ticket holders matching five numbers from 1 through 69, and matching the separately drawn Powerball number, or a designated combination thereof, within a single play, with the five winning numbers and the Powerball number to be randomly drawn. Drawings will be conducted twice a week or as publicly announced by the Secretary.

(iii) *Section 871.3 (relating to definitions).*

Advertised Grand Prize—The estimated annuitized Grand Prize amount as determined by the MUSL Central Office by use of the MUSL Annuity Factor and communicated through the Selling Lotteries prior to the Grand Prize drawing. The Advertised Grand Prize is not a guaranteed prize amount and the actual Grand Prize may vary from the advertised amount, except in circumstances where there is a guaranteed Grand Prize amount as described in § 871.10 (relating to funding of guaranteed prizes).

Basic Play—Each set of six numbers consisting of five numbers from 1 through 69 and the Powerball number on a ticket purchased without the selection of any promotion, representing a single entry for a Powerball drawing and designated by a letter from A to E on a Powerball ticket.

First set numbers—The first group of numbers from 1 through 69, appearing in the top grid of a Powerball game panel.

MUSL Annuity Factor—The annuity factor as determined by the MUSL central office through a method approved by the MUSL Finance and Audit Committee and which is used as described in these rules.

Panel or game panel—One of five areas on the Powerball bet slip that contains two number grids. The upper grids (first set numbers) contain 69 squares, each numbered 1 through 69, and the lower grids (second set numbers) contain 26 squares, each numbered 1 through 26. Each panel is lettered either A, B, C, D or E.

Powerball number or second set number—The number selected from the second group of numbers, from 1 through 26, appearing in the lower grid of a Powerball game panel.

Quick Pick—The random selection by the Lottery's computer system of five numbers from 1 through 69 and a Powerball number from 1 through 26 that appear on a ticket in the Powerball game.

Second set numbers—The second group of numbers, from 1 through 26, appearing in the lower grid of a Powerball game panel.

Ticket—A Powerball ticket, produced by an on-line terminal from a licensed on-line retailer in an authorized manner, containing a letter prefix followed by five selected numbers from 1 through 69 and a single selected Powerball number from 1 through 26 for each basic play, ticket validation number data, drawing date, amount bet and any applicable promotion exercised by the player. Each set of five numbers and the Powerball number constitutes a basic play of which there may be one or more, up to ten on a ticket.

Winning numbers—Six numbers, the first five numbers from 1 through 69, and the Powerball number from 1 through 26, selected at a Powerball drawing and subsequently validated by the MUSL, which shall be used to determine the winning Powerball plays.

(*Editor's Note:* This is a partial listing of the definitions applicable to Powerball. See § 871.3 (relating to definitions) for additional definitions.)

(iv) *Section 871.7(c) (relating to time, place and manner of conducting drawings)*. The MUSL will draw at random five numbers from a set of balls numbered 1 through 69 and one Powerball number from a set of balls numbered 1 through 26 with the aid of mechanical drawing equipment. The drawings will be observed by security personnel and independent auditors and the validity of a drawing will be solely determined by the MUSL.

(v) *Section 871.8(a) (relating to expected prize payout percentages)*. Determination of expected prize payout percentages is as follows:

*Tickets Containing The Following,
In One Single Lettered
Game Section*

<i>Prize Category</i>	<i>Prize Payment</i>	<i>Approximate Percentage of Winning Pool Allocated to Prize Category**</i>
Five first set numbers and the Powerball number	Grand Prize	68.0131%
Five first set numbers	Second Prize*	8.5558%
Four first set numbers and the Powerball number	Third Prize*	5.4757%
Four first set numbers	Fourth Prize*	.2738%
Three first set numbers and the Powerball number	Fifth Prize*	.6899%
Three first set numbers	Sixth Prize*	1.2074%
Two first set numbers and the Powerball number	Seventh Prize*	.9981%
One first set number and the Powerball number	Eighth Prize*	4.3489%
None of the first set and the Powerball number	Ninth Prize*	10.4373%

* Indicates a set prize.

** Fifty percent of Powerball gross sales are allocated to the winnings pool for the payment of prizes.

(vi) *Section 871.8(c)(1)(iii) (relating to expected prize payout percentages)*. Any other amounts as agreed to by the MUSL Powerball Product Group in their sole discretion.

(vii) *Section 871.9(c) (relating to Powerball prize payments)*. The MUSL Annuity Factor is determined through a process as approved by the MUSL Finance and Audit Committee.

(viii) *Section 871.10 (relating to funding of guaranteed prizes)*. The MUSL Powerball Product Group may offer guaranteed minimum grand prize amounts or minimum increases in the grand prize amount between drawings or make other changes in the allocation of prize money where the MUSL Powerball Product Group finds that it would be in the best interest of the game. If a minimum grand prize amount or a minimum increase in the grand prize amount between drawings is offered by the Product Group, the grand prize shares shall be determined as follows:

(1) If there are multiple grand prize winners during a single drawing, each selecting the annuitized option prize, then a winner's share of the guaranteed annuitized grand prize shall be determined by dividing the guaranteed annuitized grand prize by the number of winners.

(2) If there are multiple grand prize winners during a single drawing and at least one of the grand prize winners has elected the annuitized option prize, the best bid submitted by the MUSL's preapproved qualified brokers shall determine the cash pool needed to fund the guaranteed annuitized grand prize.

(3) If no winner of the grand prize during a single drawing has elected the annuitized grand prize, the amount of cash in the grand prize pool shall be an amount equal to the guaranteed annuitized amount divided by the MUSL Annuity Factor.

(4) Section 871.10(4) is deleted in its entirety.

(5) Changes in the allocation of prize money shall be designed to retain approximately the same prize allocation percentages, over a year's time, as set for in § 871.8 (relating to expected prize payout percentages). Minimum guaranteed prizes or increases may be waived if the alternate funding mechanism as set for in § 871.8 becomes necessary.

(6) Approval of the MUSL Powerball Product Group is required to change the guaranteed minimum Grand Prize amounts or minimum increases in the Grand Prize amount. Any reduction in the minimum increases to the Grand Prize amount shall not become effective until after

a Grand Prize win following the action taken by the MUSL Powerball Product Group.

(ix) *Section 871.14(b) (relating to parimutuel prize pool)*. An amount equal to up to 5% of a party lottery's sales shall be deducted from a party lottery's grand prize pool and placed in trust in one or more prize pool accounts and prize reserve accounts until the prize pool accounts and party lottery's share of the prize reserve accounts reaches the amounts designated by the MUSL Powerball Product Group. The MUSL Powerball Product Group has established the following prize reserve accounts for the Powerball game: the Prize Reserve Account, which is used to guarantee the payment of valid, but unanticipated, Grand Prize claims that may result from a system error or other reason; and the Set Prize Reserve Account, which is used to fund deficiencies in the low-tier prize payments, subject to the limitations of these rules. The MUSL Powerball Product Group has established the following prize pool accounts for the Powerball game: the Grand Prize pool, which is used to fund the immediate Grand Prize; the Powerball Set Prize Pool, which is used to fund the Powerball Set Prize payments; and the Powerball Set-Aside Account, which is used to guarantee payments of the minimum or starting Grand Prize. The Power Play Prize Pool and Power Play Pool Account are described in § 871.20 (relating to power play promotion) of these rules. The Set Prize Pool Account holds the temporary balances that may result from having fewer than expected winners in the Powerball Set Prize (aka low-tier prize) categories. The source of the Set Prize Pool is the Party Lottery's weekly prize contributions less actual Powerball Set Prize liability. Once the

prize pool accounts and the party lottery's share of the prize reserve accounts exceeds the designated amounts, the excess shall become part of the grand prize pool. The MUSL Powerball Product Group, with the approval of the Finance and Audit Committee, may establish a maximum balance for the prize pool accounts and prize reserve accounts. The MUSL Powerball Product Group may determine to expend all or a portion of the funds in the prize pool accounts, except the Grand Prize pool account, and the prize reserve accounts for the purpose of indemnifying the Party Lotteries and Licensee Lotteries in the payment of prizes to be made by the Selling Lotteries, subject to the approval of the MUSL Board and for the payment of prizes or special prizes in the game, subject to the approval of the MUSL Finance and Audit Committee. The prize reserve shares of a party lottery may be adjusted with refunds to the party lottery from the prize reserve accounts as may be needed to maintain the approved maximum balance and shares of the party lotteries. A Party Lottery may contribute to its share of prize reserve accounts over time, but in the event of a draw down from the reserve account, a Party Lottery is responsible for its full percentage share of the account, whether or not it has been paid in full. Any amount remaining in the prize pool accounts or prize reserve accounts at the end of this game shall be carried forward to a replacement prize reserve account or expended in a manner as directed by the members of the MUSL Powerball Product Group in accordance with State law.

(x) *Section 871.19 (relating to probability of winning)*. The probability of winning is as follows:

(xi) *Section 871.20(c) (relating to power play promotion)*. The MUSL shall conduct a power play drawing and will announce results during each of the regular Powerball drawings held during the power play promotion. During each power play drawing a single number (2, 3, 4, 5 or 10) shall be randomly drawn. The 10X multiplier will be available for drawings in which the initially advertised annuitized Grand Prize amount is \$150,000,000 or less. The MUSL Powerball Product Group may elect to run limited promotions that modify the multiplier features.

(xii) *Section 871.20(e) (relating to power play promotion)*. In drawings where the 10X multiplier is available, the expected power play prize pool for power play set prizes shall consist of up to 49.969% of each drawing period's power play sales. In drawings where the 10X multiplier is not available, the expected power play prize pool for power play set prizes shall consist of up to 45.934% of each drawing period's sales. The prize payout percentage per draw may vary. The power play prize pool shall be carried forward to subsequent power play drawings if all or a portion of the percentage is not required to pay the power play prizes for the current power play drawing and held in the Power Play Pool Account.

(xiii) *Section 871.20(f) (relating to power play promotion)*. In drawings where the 10X multiplier is available, an additional 0.31% of power play sales may be collected and placed in the Power Play Pool Account, for the purposes of paying power play prizes. In drawings where the 10X multiplier is not available 4.066% of power play sales may be collected and placed in the Power Play Pool Account, for the purposes of paying power play prizes. Any amount remaining in the Power Play Pool Account at the end of the power play promotion shall be returned to all lotteries participating in the account after the end of all claim periods of all selling lotteries, carried forward to

a replacement game, or expended in a manner as directed by the MUSL Powerball Product Group in accordance with State law.

(xiv) *Section 871.20(g)(3) (relating to power play promotion)*. Other amounts as agreed to by the MUSL Powerball Product Group in their sole discretion.

(xv) *Section 871.20(j) (relating to power play promotion)*. Except as otherwise provided, all power play set prizes shall be paid in single, lump-sum payments determined by multiplying the Powerball set prize by the number selected in the power play drawing as follows:

Prize Level	Powerball Set	Regardless of Power Play Number Selected				
	Prize Amount	\$2,000,000				
Second Prize	\$1,000,000					
		10X	5X	4X	3X	2X

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Duquesne Light Company Plan for Seamless Moves and Instant Connects; M-2014-2401127

Final Order

The Pennsylvania Public Utility Commission (Commission) on September 3, 2015, adopted a Final Order in response to Duquesne Light Company Plan for Seamless Moves and Instant Connects (M-2014-2401127). A copy of the Order can be found on the Commission's web site at http://www.puc.pa.gov/about_puc/consolidated_case_view.aspx?Docket=M-2014-2401127.

A seamless move is the ability of a customer's choice of supplier to move with the customer to a new address within a single service territory without interruption. Instant connect is the ability of supply service to start on "day one" of new utility service—without the customer first having to go on default service. The Commission approved Duquesne Light Company's plan, filed on April 20, 2015, for implementing seamless moves and instant connects in its service territory by July 1, 2016. Duquesne Light Company was further directed to file with the Commission for its review and approval revised tariff supplements consistent with the terms of this Order at least 30 days prior to the availability of seamless moves and instant connect functions within its service territory.

Service of Notice of Motor Carrier Formal Complaints

Formal Complaints have been issued by the Pennsylvania Public Utility Commission. Answers must be filed in accordance with 52 Pa. Code (relating to public utilities). Answers are due October 13, 2015, and must be made with the Secretary, Pennsylvania Public Utility Commission, P. O. Box 3265, Harrisburg, PA 17105-3265, with a copy to the First Deputy Chief Prosecutor, Pennsylvania Public Utility Commission.

**Pennsylvania Public Utility Commission; Bureau of Investigation and Enforcement v. H2HAUL, LLC;
Docket No. C-2015-2494465**

COMPLAINT

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities within the Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Investigation and Enforcement and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Investigation and Enforcement hereby represents as follows:

1. That all authority issued to H2HAUL, LLC, (respondent) is under suspension effective July 13, 2015 for failure to maintain evidence of insurance on file with this Commission.
2. That respondent maintains a principal place of business at 6377 Tattler Rd, Columbus, OH 43230-5502.
3. That respondent was issued a Certificate of Public Convenience by this Commission on November 19, 2012, at A-8915134.
4. That respondent has failed to maintain evidence of both Cargo insurance and Liability insurance on file with this Commission. The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$500 and cancellation of the Certificate of Public Convenience.
5. That respondent, by failing to maintain evidence of insurance on file with this Commission, violated 66 Pa.C.S. § 512, 52 Pa. Code § 32.2(c), and 52 Pa. Code § 32.11(a), § 32.12(a) or § 32.13(a).

Wherefore, unless respondent pays the penalty of \$500 or files an answer in compliance with the attached notice and/or causes its insurer to file evidence of insurance with this Commission within twenty (20) days of the date of service of this Complaint, the Bureau of Investigation and Enforcement will request that the Commission issue an Order which (1) cancels the Certificate of Public Convenience held by respondent at A-8915134 for failure to maintain evidence of current insurance on file with the Commission, (2) fines Respondent the sum of five hun-

dred dollars (\$500.00) for the illegal activity described in this Complaint, (3) orders such other remedy as the Commission may deem to be appropriate, which may include the suspension of a vehicle registration and (4) imposes an additional fine on the respondent should cancellation occur.

Respectfully submitted,

Action on Odor Management Plans for Concentrated Animal Operations and Concentrated Animal Feeding Operations and Volunteers Complying with the Commonwealth's Facility Odor Management Program

The State Conservation Commission has taken the following actions on previously received applications for Odor Management Plans under 3 Pa.C.S. §§ 501—522 (relating to nutrient management and odor management).

Persons aggrieved by any action may appeal under 3 Pa.C.S. § 517 (relating to appealable actions), section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law) to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service at (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, so individuals interested in challenging this action should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary of the Board at (717) 787-3483 for more information.

STATE ETHICS COMMISSION

Public Meeting

Under 65 Pa.C.S. §§ 1101—1113 (relating to Public Official and Employee Ethics Act) (act) the State Ethics Commission (Commission) is required to hold at least two public hearings each year to seek input from persons and organizations who represent any individual subject to the provisions of the act and from other interested parties.

The Commission will conduct a public meeting at The Nittany Lion Inn, 200 West Park Avenue, University

Park, PA 16803 on October 7, 2015, at 9 a.m. for purposes of receiving input and for the conduct of other Commission business. Public officials, public employees, organizations and members of the general public may attend.

Persons seeking to testify or present any statement, information or other comments in relation to the act, the regulations of the Commission or agency operations should contact Heather Mulhollan at (717) 783-1610 or (800) 932-0936. Written copies of any statement should be provided at the time of the meeting.
