READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 10—BANKING AND SECURITIES

DEPARTMENT OF BANKING AND SECURITIES

[10 PA. CODE CH. 57]

Debt Management Services Continuing Education

The Department of Banking and Securities (Department) adds Chapter 57 (relating to debt management services continuing education) under the authority of section 9(c) of the Debt Management Services Act (act) (63 P. S. § 2409(c)).

Purpose

This final-form rulemaking implements continuing education requirements for credit counselors and supervisors employed by a debt management services licensee. The final-form rulemaking satisfies the Department's obligation under section 9(c) of the act to promulgate regulations delineating the continuing education requirements for credit counselors and supervisors employed by debt management services licensees.

Comments and Responses

Notice of proposed rulemaking was published at 44 Pa.B. 2751 (May 10, 2014) with a 30-day public comment period. The Department did not receive comments during the public comment period.

The Department received six comments from the Independent Regulatory Review Commission (IRRC).

Comment: IRRC requested that the Department explain why the approach taken by the Department in § 57.32 (relating to criteria) is appropriate and how it satisfies the statutory mandate to establish continuing education requirements through regulation. IRRC commented that it believed § 57.32 created a confusing regulatory environment for the regulated community and would be difficult for the Department to implement in a consistent manner.

Response: The final-form rulemaking satisfies the statutory mandate because the language of the act contemplates that the Department will utilize the already existing certifying organization structure. Section 5(11) of the act (63 P. S. § 2405(11)) specifically states that credit counselors and supervisors requiring certification will obtain that certification through "an independent certifying organization acceptable to the department." The final-form rulemaking incorporates the continuing education requirement of the certifying organizations because the General Assembly permitted the Department to approve independent organizations for certification of credit counselors and supervisors employed by licensees and the certification process requires continuing education.

Using the current certifying organization structure reduces confusion because the final-form rulemaking permits credit counselors and supervisors to obtain certification and meet the continuing education requirements at the same time. A separate structure would create a confusing regulatory environment because credit counselors and supervisors, the majority of whom are located outside of this Commonwealth, would need to track which continuing education credits counted for certification and

which counted toward a separate continuing education structure specifically for this Commonwealth.

In addition, for the Department to develop an entirely separate structure for continuing education would be burdensome on the Department and the regulated community. The costs to the Department to develop a program and implement it on a Nationwide basis would be unmanageable because of the Department's 45 licensees, only 6 are located in this Commonwealth. A separate structure would require the regulated community to pay for certification and also pay for continuing education classes. Unless licensees require employees to pay for their own continuing education, this added cost is burdensome because many of the licensees are nonprofits.

To further clarify the requirements on licensees, the Department included two additional criteria. The Department will verify whether the certifying organizations offer the required continuing education courses every 24 months. If the courses offered are not acceptable to the Department, the certifying organization will be removed from the list of acceptable providers. This structure is analogous to other regulatory structures in this Commonwealth, such as the continuing education requirements for attorneys.

IRRC pointed out that one certifying organization permits a 45-day grace period to obtain the continuing education credits required for credit counselor certification through that certifying organization. IRRC asked how that 45-day grace period will affect the requirement of § 57.32(3) to obtain all 16 continuing education credits within a 24-month period. Section 5(11) of the act requires credit counselors to be certified and section 9(c) of the act requires continuing education. In accordance with section 5(11) of the act, credit counselors obtain certification through "an independent certifying organization acceptable to the department." Although continuing education is a part of the credit counselor certification, continuing education and certification are two distinct requirements of the act. If a credit counselor chooses to utilize the 45-day grace period for purposes of his certification, it is permitted by the act and not addressed in regulation. However, that grace period applies only to credit counselor certification. The regulation is clear that as to the Department's continuing education requirements, 16 continuing education credits must be completed every 24 months. Therefore, a grace period does not exist.

Comment: IRRC suggested the Department make changes to the definition of "certifying organization" in § 57.1 (relating to definitions) to reflect that certifying organizations offer continuing education courses to both counselors and supervisors.

Response: The Department added "credit counselors and" to the definition as suggested by IRRC.

Comment: IRRC suggested the Department make changes to the definition of "supervisor" to replace "for example" with "including" to better reflect the requirements of the act.

Response: The Department deleted "for example" from the definition and added "including" as suggested by IRRC.

Comment: IRRC recommended the Department amend § 57.11(1) and (2) (relating to continuing education requirements) to state that credit counselors and supervi-

sors shall complete a minimum of 16 continuing education units every 2 years through a registered certifying organization.

Response: The Department revised § 57.11 to address IRRC's concern. The continuing education requirements for credit counselors and supervisors are now together to reduce confusion. For further clarity, the Department deleted the reference to certification because the requirement that credit counselors maintain valid certification is already addressed in section 5 of the act. The Department also further clarified what topics the continuing education units should address.

Comment: Regarding § 57.13 (relating to former registered certifying organizations), IRRC asked what is meant by "take action."

Response: "Take action" refers to the administrative remedies available to the Department under the act to regulate the actions of a licensee. The phrase "or take other actions" is used after listing the power and duties of the Department in section 17 of the act (63 P. S. § 2417). To clarify this term, the Department added "administrative" between "take" and "action." The Department also cited sections 10(2), 16 and 17 of the act (63 P. S. §§ 2410(2), 2416 and 2417) which, when a violation of the act occurs, grant the Department the specific authority to: (1) deny, suspend, revoke or refuse to renew a license; (2) impose a civil penalty up to \$10,000 for each violation; (3) issue orders to ensure the proper conduct of licensees, including cease and desist orders; (4) prohibit a person or licensee from working in any capacity related to activities regulated by the Department; (5) order restitution paid for actual damages to consumers; and (6) order refunds for fees collected.

Comment: Regarding § 57.13, IRRC asked how will credit counselors and supervisors know if the Department plans to take action against the certifying organizations.

Response: The final-form rulemaking indicates the Department would consider taking action against the licensee, not a certifying organization. Whether the Department plans to take action against a licensee will not affect the ability of a credit counselor or supervisor to comply with the final-form rulemaking, so notification to the credit counselors and supervisors is not necessary.

Comment: Regarding § 57.13, IRRC asked if the Department will maintain a list of these certifying organizations on the Department's web site with an indication of whether action will be taken.

Response: As indicated in response to the previous question, the Department will not take administrative action against a certifying organization. Unless the act is amended to state otherwise, the Department will never take action against a certifying organization because it does not regulate those entities. As indicated in § 57.32, the Department will maintain a list of acceptable certifying organizations on the Department's web site.

If the Department takes administrative action against a licensee which results in a final adjudication, those final orders are public documents which the Department posts on the Department's web site under section 18(c)(2) of the act (63 P. S. § 2418(c)(2)).

Comment: IRRC recommended the Department delete "at least" from § 57.22 (relating to recordkeeping) because it did not provide an exact time frame for which records shall be kept.

Response: The Department deleted "at least" from § 57.22 in the final-form rulemaking as recommended by IRRC.

Comment: IRRC requested that the Department replace "periodically" in § 57.32 with more specific language because "periodically" is vague and does not establish a binding norm.

Response: The Department replaced "periodically" with "every 24 months" to address IRRC's concern regarding the lack of a binding norm.

Fiscal Impact

State government

The final-form rulemaking has a de minimus impact on the Department. The Department already regulates debt management services providers. The final-form rulemaking only adds another item that the Department will review in its investigations and examinations. The final-form rulemaking does not have an impact on the Commonwealth and its political subdivisions.

Regulated community

The final-form rulemaking has a de minimus impact on the regulated community. Credit counselors employed by debt management services licensees already complete continuing education to obtain and maintain credit counselor certification. The final-form rulemaking only adds the cost of attendance of continuing education for supervisors if the supervisors are not also certified as credit counselors.

Paperwork

The final-form rulemaking requires the regulated community to maintain documentation to verify that the credit counselors and supervisors in its employ completed the continuing education requirements.

Effectiveness and Sunset Dates

Chapter 57 will be effective upon final-form publication in the *Pennsylvania Bulletin*. Chapter 57 does not have a sunset date because the Department will periodically review the effectiveness of the regulation.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 24, 2014, the Department submitted a copy of the notice of proposed rulemaking, published at 44 Pa.B. 2751, to IRRC and the Chairpersons of the House Commerce Committee and the Senate Banking and Insurance Committee for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the House and Senate Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Department has considered all comments from IRRC, the House and Senate Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on November 12, 2014, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on November 20, 2014, and approved the final-form rulemaking.

Findings

The Department finds that:

- (1) Public notice of the proposed rulemaking was given under section 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law, and all comments received during the public comment period were considered.

(3) The regulation does not enlarge the purpose of the proposed rulemaking published at 44 Pa.B. 2751.

(4) The final-form rulemaking is necessary and appropriate for the administration and enforcement of the act.

Order

The Department, acting under section 9(c) of the act, orders that:

(a) The regulations of the Department, 10 Pa. Code, are amended by adding §§ 57.1, 57.11—57.13, 57.21—57.24 and 57.31—57.33 to read as set forth in Annex A.

(b) The Secretary of Banking and Securities shall submit this order and Annex A to the Office of General Counsel and the Office of Attorney General for approval as to form and legality as required by law.

(c) The Secretary of Banking and Securities shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

GLENN E. MOYER,
Secretary

(Editor's Note: For the text of the order of the Independent Regulatory Review Commission relating to this document, see 44 Pa.B. 7622 (December 6, 2014).)

Fiscal Note: Fiscal Note 3-52 remains valid for the final adoption of the subject regulations.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief

description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the appli-

cation and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

40-00129A: Moxie Freedom LLC (612 Center Street South, Vienna, VA 22180) to construct a natural gas-fired combined-cycle power plant to produce a nominal 1,050 MW of electricity in Salem Township, **Luzerne County**.

The project consists of two (2) identical 1 x 1 power blocks. Each combined-cycle process (CTG or CT) block includes one (1) combustion gas turbine and one (1) heat recovery steam generator (HRSG) with duct burner and one (1) steam turbine (ST). Each CT and ST train will share one common electric generator. Additionally, one (1) 1,000 kw diesel-fired emergency generator, one (1) 1,000 kw diesel-fired emergency fire water pump, two (2) CT inlet evaporative coolers (one for each CT, two (2) air-cooled condensers (ACCs) one for each HRSG, one (1) 55.4 MM BTU/hr Auxiliary natural gas fired boiler, one (1) 14.6 MMBTU natural gas fuel gas heater, lube oil storage tanks, and aqueous ammonia storage tanks are proposed to be constructed and operated. The heat input rating of each combustion gas turbine is 3,329 MMBtu/hr (HHV) or less, and the heat input rating of each supplemental duct burner is equal to 401 MMBtu/hr (HHV) or less.

This application is subject to the Prevention of Significant Deterioration (PSD) of Air Quality regulations of 40 CFR 52.21, the Nonattainment New Source Review (NNSR) regulations of 25 Pa. Code §§ 127.201–127.218, and the Best Available Technology (BAT) requirements of 25 Pa. Code §§ 127.1 and 127.12. The facility's total particulate matter (PM) including total PM₁₀ and total PM_{2.5}, nitrogen oxides, carbon monoxide, volatile organic compounds, and greenhouse gas emissions are subject to the PSD requirements. The facility's nitrogen oxides and volatile organic compounds emissions are also subject to the NNSR requirements. The Department has determined that the proposed levels of the air contaminants emissions satisfy best available control technology (BACT) and Lowest Achievable Emission Rate (LAER) requirements as well as the Department's BAT requirements.

The facility is also subject to the following Standards of Performance for New Stationary Sources (NSPS): 40 CFR Part 60 Subpart KKKK—Standards of Performance for Stationary Combustion Turbines codified in 40 CFR 60.4300 through 60.4420 and 40 CFR Part 60 Subpart III—Standards of Performance for Stationary Compression Ignition Internal Combustion Engines codified in 40 CFR 60.4200 through 60.4219. The proposed project is also subject to the National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines codified 40 CFR 63.6580 through 63.6675 as applicable to the proposed diesel-fired engines. The Department has determined that this facil-

ity satisfies all applicable requirements of these subparts including Maximum Achievable Control Technology (MACT) requirements.

Pursuant to the PSD provisions of 40 CFR 52.21 and 25 Pa. Code § 127.83, Moxie Freedom LLC has performed dispersion modeling. The air quality analysis methodology is consistent with the "Guideline on Air Quality Models" codified in Appendix W to 40 CFR Part 51, associated United States Environmental Protection Agency modeling policy and guidance, and the Department's recommendations. The air quality analysis adequately demonstrates that the proposed emissions due to the project will not cause or significantly contribute to air pollution in violation of the National Ambient Air Quality Standards for carbon monoxide (CO), nitrogen dioxide (NO₂), particulate matter less than 2.5 micrometers (PM_{2.5}), and particulate matter less than 10 micrometers (PM₁₀), and the PSD standards for NO₂, PM_{2.5}, and PM₁₀. In addition, the analysis adequately demonstrates that the project's proposed emissions, in conjunction with anticipated emissions due to general commercial, residential, industrial, and other growth associated with the project, will not impair visibility, soils, and vegetation. Furthermore, the effect of the project's emissions on air quality related values, including visibility, in Federal Class I areas is adequately addressed.

The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915.

Any person(s) wishing to provide DEP with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the address shown in the preceding paragraph. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit No.: 40-00129A and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Ray Kempa, Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915, Phone 570-826-2511 within 30 days after publication date.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>

Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information con-

cerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate

and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. SPECIAL NOTICES

Public Hearing for the NPDES Permit Application for Storm Water Discharges Associated with Construction Activities Submitted by Clean Earth Inc. for the Proposed Wellsboro Johnston Airport Expansion Project in Shippen and Delmar Townships in Tioga County

Northcentral Region: Waterways and Wetlands Program, 208, West Third Street, Suite 101, Williamsport, PA 17701

The Department of Environmental Protection (DEP) will hold a public meeting to be followed by a public hearing to accept comments on a National Pollutant Discharge Elimination System (NPDES) permit application for the discharge of storm water associated with construction activities submitted by Clean Earth Inc. for the proposed Wellsboro Johnston Airport expansion project in Shippen and Delmar Townships in Tioga County. Clean Earth Inc. is proposing a three phased project to use treated drill cuttings from the natural gas industry as engineered fill for several construction projects at the airport. The first phase, currently under technical review,

would allow Clean Earth to transport treated drill cuttings to the airport. The cuttings would be stored and used as fill to support construction of a hanger for future use by Clean Earth and the airport. The construction of this hanger is the second phase of the project. Finally, the third phase of the project would be to utilize drill cuttings processed on site for the extension of the airport runway. In this first phase of the project, the cuttings could not be used anywhere else on the airport property. The proposed total earth disturbance area for the three phases is 32.2 acres. The airport is located within the Pine Creek Watershed.

In addition to the NPDES permit, DEP's Waste Management program also must issue a site-specific approval for Clean Earth's Research and Development General Permit that was renewed in February 2014 in order for the project to proceed. The public meeting and hearing will address the NPDES permit and the Research and Development General permit as it relates to this project.

The public meeting will be held at 6:00 p.m., followed by the public hearing at 7:30 p.m., on Wednesday, Feb. 25, 2015, at the Wellsboro Fire Department Annex, 21 East Ave., Wellsboro.

During the public meeting, DEP staff will explain the NPDES application review process and applicable regulations and the applicant will explain the proposed project to the audience. These presentations will be followed by a question and answer session.

During the public hearing, citizens will have an opportunity to present up to five minutes of oral testimony regarding the permits. Written testimony of any length also will be accepted. The testimony will be recorded by a court reporter and transcribed into a written document. DEP will provide a written response to all relevant testimony provided during the public hearing. Those who wish to present oral testimony may register on-site prior to the hearing.

Written comment will also be accepted and can be mailed to David W. Garg, P.E., Environmental Program Manager, Waterways and Wetlands Program, PADEP, 208 West Third Street, Williamsport, PA 17701 through the close of business March 12, 2015. DEP will provide a written response to all significant testimony or written comment provided during the public hearing and public comment period. The Department will consider all comments in review of the application.

A copy of the NPDES permit application is available for review weekdays by appointment at DEP's North-central Regional office in Williamsport from 9:00 a.m. until 3:30 p.m. Those interested should call 570-327-0550 to schedule an appointment. The application can also be reviewed at the Tioga County Conservation District office in Wellsboro from 8 a.m. until 4:30 p.m.

Documents relating to the Waste Management General Permit as it relates to this project will be available on the DEP web page at www.dep.state.pa.us, click on "Regional Resources," then "North-central," then "Community Information", or they may be obtained by contacting Patrick H. Brennan, Environmental Program Manager, Waste Management Program, PADEP, 208 West Third Street, Williamsport, PA 17701 or Stephen Socash, Environmental Program Manager, Waste Management Program, PADEP, 400 Market Street, Fl 14, Harrisburg, PA 17106..

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings should call

Daniel Spadoni at 570-327-3659 or through the Pennsylvania AT&T Relay Service at 1-800-654-5984 (TDD) to discuss how the department may accommodate your needs.

HOUSING FINANCE AGENCY

Pennsylvania Housing Affordability and Rehabilitation Enhancement Fund (PHARE); Principles and Elements of Plan; Revised 2015 Draft Plan

Background

Pennsylvania Housing Affordability and Rehabilitation Enhancement Fund (PHARE)

The PHARE Fund was established by the act of November 23, 2010 (P.L. 1035, No. 105) (PHARE Act) to provide the mechanism by which certain allocated State or Federal funds, as well as funds from other outside sources, would be used to assist with the creation, rehabilitation and support of affordable housing throughout this Commonwealth.

The PHARE Act did not allocate any funding but did outline specific requirements that include preferences, considerations, match funding options and obligations to utilize a percentage of the funds to assist households below 50% of the median area income. The PHARE Act provides a fairly broad canvas regarding the types of programs and the specific uses of any funding to allow flexibility in working with other State and Federal acts and programs.

Marcellus Shale Impact Fee

The Marcellus Shale impact fee legislation, the act of February 14, 2012 (P.L. 87, No. 13) (Impact Fee Act) specifically allocates certain amounts from the impact fee into the PHARE Fund to address the following needs, including:

- Support for projects that increase the availability of affordable housing for low and moderate income persons and families, persons with disabilities and elderly persons in counties where unconventional gas wells have been drilled (regardless of production levels).

- Provide rental assistance, in counties where unconventional gas wells have been drilled, for persons or families whose household income does not exceed the area median income.

- Specifies that no less than 50% of the funds are to be used in fifth, sixth, seventh and eighth class counties.

Direct Allocation—The PHARE Fund will receive a direct yearly allocation from the portion of funds set aside for local distribution. The direct allocation is as follows: \$5 million each fiscal year beginning in 2012 and thereafter.

Windfall/Spillover Funds—Additional funds may become available because the Impact Fee Act limits amounts allocated to qualifying municipalities (as defined in the Impact Fee Act) and provides that any money remaining, after all allocations have been made to qualified municipalities, would also be deposited into the PHARE Fund.

Purpose

The PHARE Act provides the mechanism to address the housing needs in impacted counties/communities of the Marcellus Shale region.

Principles

In accordance with the PHARE Act and the Impact Fee Act, the moneys will be used to address significant housing needs in impacted counties and communities with the following additional criteria:

- 50% of the funds must be spent in fifth through eighth class counties.
- 30% of the funds must benefit persons/families below 50% of the median area income.

1) *Maximize resource leveraging*—To the greatest extent possible, the resources allocated will be used as leverage for other public and private resources. Additionally, local nonfinancial assets should be identified and leveraged when possible—including transportation, schools, recreation, employment, health, community, and economic development support and other amenities. *Preference*: Applications that also include Optional Affordable Housing funds (under 53 Pa.C.S. Chapter 60 (relating to optional affordable housing funding)) or local share portions of the impact fee, or both.

2) *Address greatest need*—The moneys will be allocated in communities where the greatest housing needs are identified based on housing needs studies and assessments, interviews, real estate price factors, housing stock analysis, market studies and consideration of the extent of gas wells drilled and related activity. The limited resources available should be used to meet the most significant and pressing housing needs but may also be used to address longer term housing needs. *Preference*: Projects/programs that: 1) assist with the rehabilitation of blighted, abandoned or otherwise at risk housing and the reuse of vacant land where housing was once located; or 2) provide funding for owner-occupied rehabilitation, first-time homebuyers and rental assistance.

3) *Foster partnerships*—The funds should be used to maximize sustainable partnerships that will be committed to addressing the housing needs in these communities over a significant period of time. While the funds are to be used to directly support housing to meet the needs in the impacted communities, the projects should also help establish capacity to address those needs over the longer

term. *Preference*: Projects/programs that incorporate social service entities that offer additional services to the residents within the community where the project/program is taking place.

4) *Effective and efficient*—Ensure that the resources are used effectively and efficiently to meet the housing needs of the impacted communities. Given the expectation that demand for many types of housing will greatly exceed the funds available, it will be critical to maximize the effectiveness and efficiency for housing investments by the PHARE Fund. *Preference*: Projects/programs that assist the residents with the greatest need in that particular region.

5) *Equitable and transparent*—Create a plan and allocation process that will equitably meet the housing needs in impacted communities and establish a process that provides transparency to all stakeholders. Funding decisions and reporting will be done in accordance with the legislative requirements.

Elements of the Plan

Analysis of need—One of the most critical components of the plan is to continually assess housing need in these communities. From both a quantitative and qualitative perspective the requirement to have accurate, reliable data from which funding decisions can be made is imperative.

It is important to recognize that this data will need to be municipality-specific to capture the unique and likely different housing needs in the various communities. In addition, the housing/real estate markets are diverse across the impacted communities and the analysis of need will require an understanding (qualitative and quantitative) of individual markets to make appropriate resource allocation decisions.

Building upon analysis already undertaken by the Housing Finance Agency (Agency) and the Commonwealth, additional analysis may be performed to assess specific housing issues in the impacted communities and to identify housing needs (persons with special needs, elderly, larger households, physical disabilities, homeless, and the like) to appropriately target PHARE Fund resources to those in greatest need of housing, especially due to the impact of the Marcellus Shale development. In addition to types of housing analysis, the Agency will consider different income levels, nature of housing stock and the housing needs of those across a broad spectrum (homeless, near homeless, very low income, low income, temporary and seasonal workers, permanent work force, and the like).

Understanding of real estate market dynamics—The plan for the utilization of these resources has been developed to address and continuously reevaluate the specific housing real estate markets in each community. The “micro” markets could be significantly different in the impacted communities and the plan is sufficiently flexible to address those differences.

The housing and real estate development “capacity” will also have significant impact on the ability of these funds to be used effectively and efficiently to meet the needs of the communities. Based on the preliminary finding from the Lycoming College research available at http://www.phfa.org/forms/housing_study/2011/marcellus_report.pdf, the Agency has some insight into the existing housing development capacity in some of the impacted communities. This will serve as a foundation for investment in

increasing the capacity. There will be need for ongoing analysis of capacity (private, nonprofit, public) as part of the plan. In some of these communities there has been no significant housing market in decades while in others there is a robust market that may be addressing some part of the housing needs. The plan will help determine where additional housing development capacity may be necessary, or where other strategies may be implemented for meeting the housing needs in those communities.

Allocation and use—The funding vehicle’s allocation process, created by the plan, must also be supportive of and responsive to the needs of the housing and real estate development market and should foster coordinated local trust fund plans and resources. Funds may be used to support predevelopment, site acquisition and infrastructure development, planning and preconstruction activity in addition to direct support of development and operation of projects and housing programs including employee assisted housing programs. Funds may be provided in various forms designed to best support the particular activity including the following grants: market rate, amortizing, balloon, bridge or soft loans; capital contributions; capital financing subsidy support; operating and supportive service reserve funding; and rental or homeowner assistance. Funds may be specifically allocated to address timing issues presented in the development of affordable housing projects, when other financing is available, construction season, local zoning or other approvals. In addition, funding may be directed for administration by the Agency for certain projects approved for low income housing tax credits or other Agency resources. Preliminary allocations may be made for projects/programs awaiting approval of additional resources. Projects/programs that do not begin within 1 year may have the preliminary allocation withdrawn.

High quality design and construction—A vital element of the plan will be the development of housing that is both of good quality design and construction and will be sustainable over a long period of time.

The opportunity to meet the growing housing needs in these communities will necessitate that this housing be available as an asset for the community for many generations. To meet that objective it will require that projects funded with these resources meet the highest design and construction quality standards available and that all projects ensure sustainability to the long term (both financial and physical). Funds may be specifically allocated to support green and renewable energy sources and as leverage to consumer programs available through utility companies or other business partners.

Targeting of resources—It is likely that the funds in this program will not be sufficient to meet all the housing needs and mitigate every housing impact created by the shale gas development; therefore, investment decisions will target the limited funds to projects that meet the principles outlined in this notice and most comprehensively address the elements of the plan.

When possible these funds will be targeted and stay focused on mitigating the very specific housing impacts created by the shale development in the impacted and designated communities. This element will likely result in the determination that while there may be worthy housing projects that could be funded with these resources, the focus of development will be on most comprehensively addressing the direct and tangible housing impacts. Priority may be given to target resources in tandem with

approved county housing trust fund plans or plans for the utilization of local share impact fee funds, or both.

Stakeholder input—The plan for allocation of resources will provide for broad stakeholder input concerning the principles and elements of the plan.

There are many diverse interests that are concerned about the anticipated housing impact and therefore how these resources will be allocated to address the need. To the greatest extent possible opportunities should be created for relevant and legitimate stakeholders to comment and advise the plan. This element will need to be managed for practicality and efficiency to maximize input. *Preference*: Applicants who provide a process where members of the community and other stakeholders may provide input on the application prior to submission.

Application/Allocation Process

Based on the legislative requirements of the PHARE Act and the Impact Fee Act, the Agency has developed an application/request for proposals (RFP) for eligible applicants interested in applying for the funds.

Eligible applicants include counties that have adopted impact fees as well as municipalities who have further contributed to PHARE by means of windfall/spill over funds from the impact fee. While only eligible applicants may apply, nonprofit and for-profit organizations may be part of the application process.

The elements of the application and allocation process include:

- Adoption of “plan” for managing the anticipated funds by the Agency.
- Announcement of application and possible training/information session concerning the elements of the application.
- Applications accepted and reviewed by the Agency staff based on the application and plan requirements.
- Project recommendations reviewed by the Agency.
- Announcement of preliminary funding approval.
- The Agency will establish an annual application process that will allow the agency to address housing needs in the impacted communities.
- The Agency may amend the plan, application and the allocation process at any time, upon written publication of the amendments.
- The Agency, as part of the RFP process, will require all applicants to target a minimum of 30% of their funding to support households with incomes below 50% of median area income.
- The Agency will require applicants to include information on how the county is using its Act 137 (Local Housing Trust Fund) moneys to address housing needs in the community. This will be included as part of the Comprehensive Plan section of the RFP.

Preliminary approval and funding of applications is contingent upon receipt of funds under the Impact Fee Act.

Factual Background

12. On April 30, 2010, the Commission's former Bureau of Transportation and Safety filed a complaint against Respondent at Docket No. C-2010-2172260, alleging that Respondent violated Section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c), by failing to pay assessments for the 2008-2009 and 2009-2010 fiscal years.

19. Respondent is obligated to promptly apprise the Commission of changes to its current address pursuant to Section 1.53(d) of the Commission's regulations, 52 Pa. Code § 1.53(d).

20. The Commission was unable to effectively serve the 2012-2013 fiscal year assessment invoice upon Respondent due to Respondent's failure to provide the Commission with its current address or claim the certified mailing.

21. Consequently, Respondent failed to pay the amount of its 2012-2013 assessment invoice.

2013-2014 Fiscal Year

22. On or about February 7, 2013, the Commission mailed to Respondent an assessment report for Respondent to report its 2012 calendar year revenues.

Violations

COUNT 1

26. That Respondent failed to demonstrate its gross intrastate operating revenues for the 2012 calendar year in that it did not file an assessment report for that year.

If proven, this is a violation of Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$1,000 for each calendar year that Respondent failed to report its gross intrastate operating revenues or \$1,000.

The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is 25% of the outstanding assessment balance or \$359. This civil penalty is based, in part, on Respondent's history of noncompliance with the Public Utility Code involving a failure to pay its assessments, as set forth above.

Factual Background

2012-2013 Fiscal Year

12. On or about February 16, 2012, the Commission mailed to Respondent an assessment report for Respondent to report its 2011 calendar year revenues.

13. The assessment report was accompanied by a letter, which notified Respondent that the report was due on or before March 31, 2012.

14. Respondent failed to file an assessment report to show its 2011 calendar year revenues.

15. On or about August 27, 2012, the Commission sent Respondent, through certified mail, an assessment invoice for the July 1, 2012 to June 30, 2013 Fiscal Year that was based, in part, on Respondent's estimated revenues for the 2011 calendar year. Respondent's assessment was \$120.

16. On September 1, 2012, Respondent signed a certified mail card, which indicated that it received an assessment invoice for the Commission's July 1, 2012 to June 30, 2013 Fiscal Year.

17. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days.

18. The Commission received no objections from Respondent to this assessment.

19. Respondent failed to fully pay the amount of its 2012-2013 assessment invoice.

20. The total outstanding assessment balance for Respondent is \$120.

Violations

COUNT 1

21. That Respondent failed to demonstrate its gross intrastate operating revenues for the 2011 calendar year in that it did not file an assessment report for that year.

If proven, this is a violation of Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$1,000 for each calendar year that Respondent failed to report its gross intrastate operating revenues or \$1,000.

COUNT 2

22. That Respondent failed to satisfy its 2012-2013 fiscal year assessment in that it did not pay the amount due within thirty (30) days of receipt of the invoice.

16. On or about September 12, 2013, the Commission sent Respondent, through certified mail, an assessment invoice for the July 1, 2013 to June 30, 2014 Fiscal Year that was based, in part, on Respondent's estimated revenues for the 2012 calendar year. Respondent's assessment was \$131.

17. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days.

COUNTS 1-2

30. That Respondent failed to satisfy its 2012-2013 and 2013-2014 fiscal year assessments in that it did not pay the amounts due within thirty (30) days of receipt of the invoices.

If proven, this is a violation of Section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is 25% of the outstanding assessment balance or \$136.

This civil penalty is based, in part, on Respondent's history of noncompliance with the Public Utility Code involving a failure to satisfy its assessments, as set forth above.

Wherefore, for all the foregoing reasons, the Bureau of Investigation and Enforcement of Pennsylvania Public Utility Commission respectfully requests that:

(a) Respondent be ordered to pay a total of \$678, which consists of its outstanding assessment balance, which totals \$542 and a civil penalty of \$136 for the above-described violations; and

(b) If payment of the civil penalty and assessments is not made, the Bureau of Investigation and Enforcement requests that:

(1) the Commission issue an Order to cancel the Certificate of Public Convenience issued to Respondent;

The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$1,500 for each calendar year that Respondent failed to report its gross intrastate operating revenues or \$1,500.

Factual Background

2013-2014 Fiscal Year

15. On or about September 12, 2013, the Commission sent Smiley's Well Services, through certified mail, an assessment invoice for the July 1, 2013 to June 30, 2014 Fiscal Year that was based on Smiley's Well Services' reported gross intrastate operating revenues for the 2012 calendar year. The assessment was \$460.

16. Accompanying the assessment invoice was a notice that informed Smiley's Well Services that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days.

17. The assessment invoice was mailed to Smiley's Well Services at P. O. Box 114, Arnot, PA 16911.

18. This is the mailing address that Smiley's Well Services provided to the Commission for assessment purposes.

19. The assessment invoice was returned to the Commission by the United States Postal Service as being undeliverable.

20. Smiley's Well Services is obligated to promptly apprise the Commission of changes to its current address pursuant to Section 1.53(d) of the Commission's regulations, 52 Pa. Code § 1.53(d).

21. The Commission was unable to effectively serve the 2013-2014 fiscal year assessment invoice upon Smiley's Well Services due to its failure to provide the Commission with its current address or claim the certified mailing.

22. Consequently, Smiley's Well Services failed to pay the amount of its 2013-2014 assessment invoice.

23. On or about October 23, 2013, Smiley's Well Services provided documentation to the Commission demonstrating the transfer of 100% of the limited liability company membership interests in Smiley's Well Services to William E. Robinson, which was effective April 26, 2013.

24. Due to the transfer of membership rights from Smiley's Well Services to William E. Robinson, on or about October 25, 2013, the Commission sent William E. Robinson, through certified mail, an assessment invoice for the July 1, 2013 to June 30, 2014 Fiscal Year that was based on Smiley's Well Services' reported gross intrastate operating revenues for the 2012 calendar year. The assessment was \$460.

25. On October 28, 2013, William E. Robinson signed a certified mail card, which indicated that he received the assessment invoice.

26. Accompanying the assessment invoice was a notice that informed William E. Robinson that he was obligated to pay the amount listed on the assessment invoice within thirty (30) days.

27. The Commission received no objections from William E. Robinson to the assessment invoice.

28. William E. Robinson failed to fully pay the amount of the assessment invoice.

Violation

COUNT 1

29. That Respondents failed to satisfy the 2013-2014 fiscal year assessment in that neither Respondent paid the amount due within thirty (30) days of receipt of the invoice.

If proven, this is a violation of Section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is 15% of the outstanding assessment balance or \$69.

Wherefore, for all the foregoing reasons, the Bureau of Investigation and Enforcement of Pennsylvania Public Utility Commission respectfully requests that:

(a) Smiley's Well Services or William E. Robinson be ordered to pay a total of \$529, which consists of Smiley's Well Services' outstanding assessment balance, which totals \$460 and a civil penalty of \$69 for the above-described violation; and

(b) If payment of the civil penalty and assessment is not made, the Bureau of Investigation and Enforcement requests that:

(1) the Commission issue an Order to cancel the Certificates of Public Convenience issued to Smiley's Well Services and William E. Robinson;

(2) this matter be referred to the Pennsylvania Office of Attorney General for appropriate action; and

(3) the Commission certify Smiley's Well Services' and William E. Robinson's automobile registrations to the Pennsylvania Department of Transportation for suspension or revocation.

Respectfully submitted,
