READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

The Liquor Control Board (Board), under the authority of section 207(i) of the Liquor Code (47 P. S. § 2-207(i)), proposes to amend § 7.22 (relating to application).

Summary

The Board's regulations require that an applicant for an extension of a licensed premise post a notice that the application has been filed. Section 7.22 provides that the notice must be posted for 15 days. The 15-day posting period is consistent with the former language of section 403(g) of the Liquor Code (47 P. S. § 4-403(g)).

The act of December 9, 2002 (P. L. 1653, No. 212) amended section 403(g) of the Liquor Code by increasing the time period for the posting of a notice from 15 days to 30 days. Section 403(g) of the Liquor Code now requires a longer posting period than the regulation in § 7.22.

The disparity between section 403(g) of the Liquor Code and § 7.22 sometimes results in frustration and confusion for applicants. Some applicants believe that the notice can be taken down at the expiration of the 15-day period, and that the application can then be approved. However, because of the language in section 403(g) of the Liquor Code, that is not the case.

In addition, those parties who wish to file a protest (protestants) to the application have 30 days from the posting of the notice to do so under § 17.13 (relating to protests/intervention procedure). There can be confusion or misunderstanding on the part of protestants when a notice is removed (erroneously) after only 15 days.

The proposed amendment would resolve these misunderstandings by § 7.22 requiring that a notice of an application for extension of the licensed premises must be posted for at least 30 days.

Affected Parties

As of July 14, 2015, there are 15,112 active licensees that could be potentially affected by the proposed rulemaking, but only if they decide to expand their premises. Since the proposed rulemaking simply aligns the posting period with that which is required under section 403(g) of the Liquor Code, licensees will not be adversely affected.

Paperwork Requirements

This proposed rulemaking is not expected to affect legal, accounting or consulting procedures and should not require additional reporting, recordkeeping or other paperwork.

Fiscal Impact

This proposed rulemaking is not expected to have fiscal impact on the Commonwealth, the regulated community or local governments.

Effective Date

This proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Public Comments

Interested persons are invited to submit written comments about the proposed rulemaking to Rodrigo Diaz, Executive Deputy Chief Counsel, or Norina Blynn, Assistant Counsel, Office of Chief Counsel, Liquor Control Board, Room 401, Northwest Office Building, Harrisburg, PA 17124-0001 within 30 days after publication in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Public comments will be posted on the Independent Regulatory Review Commission's (IRRC) web site. Personal information will not be redacted from the public comments received.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 15, 2015, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to IRRC and to the Chairpersons of the House Liquor Control Committee and Senate Committee on Law and Justice. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

TIM HOLDEN,
Chairperson

(Editor's Note: The proposed rulemaking published at 45 Pa.B. 2479 (May 23, 2015) was withdrawn by the Board due to IRRC's refusal to accept it because of an outdated Regulatory Analysis Form. This proposed rulemaking replaces the former publication.)

Fiscal Note: 54-83. No fiscal impact; (8) recommends adoption.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Consolidated Plan Public Hearing

The Department of Community and Economic Development (Department) is preparing the Commonwealth's 2016 Action Plan of the Consolidated Plan (Plan) for 2014-2018. The Consolidated Plan is a document submitted to the United States Department of Housing and Urban Development (HUD) every 5 years analyzing the needs of the nonentitlement areas of this Commonwealth in the areas of housing including special needs, community development, homelessness prevention and economic development. From this analysis a unified strategy for housing, homelessness and community development programs, including the necessary linkages for building successful neighborhoods and communities, is created. The Action Plan is the annual application to HUD for Federal funds administered by the Commonwealth for the nonentitlement communities of this Commonwealth. The HUD funding programs covered by the Plan and administered by the Department are the Community Development Block Grant (CDBG), the HOME Investment Partnerships, the Emergency Solutions Grant, CDBG Disaster Recovery and Neighborhood Stabilization Program. The Department of Health administers the Housing Opportunities for Persons with AIDS programs.

Public Hearing

The first public hearing for the 2016 Action Plan will be conducted electronically by means of the Internet on Monday, November 2, 2015, at 10 a.m. This more widely available computer access will replace the onsite public hearing. The format will be more accessible than in an in-person hearing because those who wish to make comment or discuss policy may participate directly from their personal computer or from a computer located at their public library.

Individuals or organizations may give testimony or comments by means of the Internet. Comments will be accepted about topics related to the needs of the Commonwealth in the following areas: community development; housing including special needs; homelessness; economic development; any changes to the method of distribution of the existing Federal programs; and the process by which the public input is gathered. In addition a summary of Fiscal Year 2014 will be presented. The Commonwealth encourages public participation in this process.

Anyone who wants to participate should call the toll-free call-in number (877) 668-4493 and enter the access code 641 045 274 to connect at the time of the hearing.

During the meeting, if support is required, call (717) 787-5327. The hearing will be shortened if there is no one to testify or there is minimal response.

Persons with a disability who wish to participate in the public hearing should contact Megan Snyder, Department of Community and Economic Development, Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg, PA 17120-0225, (717) 720-7404 or TDD at (717) 346-0308 a minimum of 72 hours prior to the meeting to discuss how the Department can accommodate their needs.

Written Comments

Written testimony, instead of Internet testimony, must be submitted by 5 p.m. on Monday, November 9, 2015. Submit comments to Megan Snyder, Department of Community and Economic Development, Center for Community Financing, 400 North Street, 4th Floor, Commonwealth Keystone Building, Harrisburg, PA 17120-0225, RA-DCEDcdbg&homequestions@pa.gov.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief

description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the appli-

cation and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

09-0234: WCR, Inc.—Northeast Region (4080 Blanche Road, Bensalem, PA 19020) for the spray coating operations at an existing facility located in Bensalem Township, **Bucks County**. The primary pollutant of

concern is volatile organic compound (VOC) emissions from the coatings used in the spray booth. WCR, Inc. is categorized as a synthetic minor facility. The Plan Approval will contain recordkeeping and operating restrictions designed to keep the facility operating within the allowable emissions and all applicable air quality requirements.

23-0003Z: Monroe Energy, LLC (4101 Post Road, Trainer, PA 19061) Notice is hereby given in accordance with 25 Pa. Code §§ 127.44 and 127.424 that the Department of Environmental Protection (DEP) intends to issue a plan approval to Monroe Energy, LLC, 4101 Post Road, Trainer, PA 19061, for its refinery in Trainer Borough, **Delaware County**.

The facility currently has a Title V Operating Permit No. 23-00003. The provision of this plan approval will subsequently be incorporated into the Title V Operating Permit through an administrative amendment in accordance with 25 Pa. Code § 127.450.

Plan Approval No. 23-0003Z is for the construction of three (3) closed loop recirculating cooling towers. This application is subject to the Nonattainment New Source Review (NNSR) regulations of 25 Pa. Code §§ 127.201—27.218 for volatile organic compound (VOC) emissions and the Best Available Technology (BAT) for particulate matter (PM) emissions requirements of 25 Pa. Code §§ 127.1 and 127.12. DEP has determined that the proposed levels of the VOC emissions satisfy the Lowest Achievable Emission Rate (LAER) requirements in accordance with 25 Pa. Code § 127.205 and the PM emissions satisfy DEP's BAT requirements in accordance with 25 Pa. Code § 127.1. The project is also subject to the National Emission Standards for Hazardous Air Pollutants from Petroleum Refineries, codified 40 CFR 63 Subpart CC, for Heater Exchange Systems.

Based on the information provided by the Applicant and DEP's own analysis, this project will result in VOC emission increases of 67.38 tons per year, and the contemporaneous emission increases will be 69.37 tons. To offset 69.37 tons VOC emission increase, the required VOC emission reduction credits (ERCs) are 90.18 tons with an offset ratio of 1.0 to 1.3 in accordance with 25 Pa. Code §§ 127.208 and 127.210.

DEP will place the following conditions as LAER requirements in the Plan Approval:

1. As per 25 Pa. Code § 127.203a(a)(5)(iii)(A), VOC emissions from the following new cooling towers shall not exceed the limits, specified below, calculated monthly and 12-month rolling sum:

CT 01—Alky Cooling Tower #2: 10.49 TPY

CT 02—FCC Cooling Tower: 24.81 TPY

CT 03—Crude Cooling Tower: 32.08 TPY

2. The annual average VOC concentration in the recirculating cooling water shall not exceed 31 ppmw calculated monthly and averaged on a 12-month rolling period.

3. The permittee shall monitor VOC concentration in the recirculating cooling water monthly using a leak action level defined as a total strippable hydrocarbon concentration (as methane) in the stripping gas of 6.2 ppmv.

To assure compliance with the LAER and applicable Federal and state standards, the applicable requirements of 40 CFR Part 63, Subpart CC have been placed into the plan approval for these cooling towers. The requirements include testing, monitoring, recordkeeping, reporting and

work practice standards for identifying leaks of total strippable volatile organic compounds (VOC) from each heat exchange system.

Copies of the application, Draft Plan Approval and other documents used in the evaluation of the application are available for public review during normal business hours at Southeast Regional Office, 2 East Main Street, Norristown, PA.

Interested persons may submit written comments, suggestions or objections concerning the proposed Plan Approval to the regional office within 30 days of publication of this notice. Written comment submitted to DEP during the 30-day public comment period shall include the name, address and telephone number of the commentator, identification of the proposed Permit No. 23-0003Z and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if DEP, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Mr. James Rebarchak, Regional Manager, Air Quality, Department of Environmental Protection, Southeast Regional Office, 2 East Main Street, Norristown, PA 19401, (484) 250-5920.

23-0003AA: Monroe Energy—Trainer Refinery, (4101 Post Road, Trainer, PA 19061), for the decommission of Sour Gas Flare and rerouting the gas headers to the Main Flare and the Sulfur Recovery Plant at the refinery facility located in Trainer Borough, **Delaware County**. Monroe is a major facility and operates under Title V operating permit No. 23-00003. The project is subject to Federal NSPS regulations. The project does not produce significant emission increases and non-attainment NSR and PSD regulations are not triggered by this project. The plan approval contains monitoring, recordkeeping, reporting, and work practice standards designed to keep the facility operating within all applicable air quality requirements.

09-0053C: Greif Packaging, LLC (695 Louis Drive, Warminster, PA 18974) for the replacement of the existing steel drum exterior paint spray booth with one of like design, and the installation of a permanent total enclosure for the replacement spray booth, at its existing steel drum manufacturing facility located in Warminster Township, **Bucks County**. The facility is a Title V facility.

Volatile organic compound (VOC) and hazardous air pollutant (HAP) emissions from the spray booth will be captured by a permanent total enclosure and controlled by an existing regenerative thermal oxidizer (RTO). The total VOC and total HAP emission restrictions for the facility, as currently indicated in Title V Operating Permit (TVOP) No. 09-00053, will remain at less than 21 tons/yr each, and the individual HAP emission restriction for the facility will remain at less than 10 tons/yr. Like the other coating operations at the facility, as indicated in the TVOP, the replacement spray booth is subject to the provisions of 40 CFR Part 63, Subpart M, for the coating of miscellaneous metal parts and products.

The Plan Approval will include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

36-05008I: Tyson Poultry Inc. (403 South Custer Avenue, New Holland, PA 17557) for the construction of a natural gas-fired boiler in Earl Township, **Lancaster County**. The boiler will be used to inject steam into the waste water treatment plant during winter time operations. Expected annual emissions from the new boiler will be approximately 4.05 tons of CO, 2.68 tons of NO_x, and 0.41 ton of PM₁₀. The facility is a State Only (Synthetic Minor) facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements (BAT) of 25 Pa. Code §§ 127.1 and 127.12, and comply with the Federal requirements of 40 CFR Part 60, Subpart Dc. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into a State Only Operating Permit.

21-05005C: PA Department of Corrections—State Correction Institution—Camp Hill (2500 Lisburn Road, Camp Hill, PA 17011) add one (1) natural gas/No. 2 oil boiler which is controlled by low NO_x burners and flue gas recirculation at Camp Hill Correctional Institution Facility in Lower Allen Township, **Cumberland County**. The expected increases in facility emissions as a result of the changes proposed are 35.9 tons of carbon monoxide, 13.7 tons of nitrogen oxide, 3.3 tons of particulate matter, 0.26 ton of sulfur dioxide, 2.4 tons of volatile organic compounds, and 0.96 ton of HAPs. The facility is an operating Title V facility. The Plan Approval will include emission limits and work practice standards along with monitoring, recordkeeping and reporting requirements to ensure the facility complies with the applicable air quality regulations. The boiler is subject to 40 CFR Part 60, Subpart Dc—Standards of Performance for Small Industrial-Commercial-Institutional Steam Generating Units. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12, and 25 Pa. Code § 123.13 Process Particulate Matter. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into a Title V Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

23-00009: The Boeing Company—Philadelphia (PO Box 16858 Philadelphia, PA 19142-0858) for renewal of the Title V Operating Permit for its Ridley Park Pennsylvania Facility, an aerospace fabrication and repair facility located in Ridley Township, **Delaware County**. The renewal will also include the incorporation of Plan Approvals 23-0009G, 23-0009H and 23-0009F.

Actual emissions from the facility of the following pollutants averaged over the past two years in tons per year were as follows: volatile organic compounds (VOC)—52; nitrogen oxides (NO_x) and carbon monoxide (CO)—16; hazardous air pollutants (HAP)—8. Minor amounts of particulate matter (PM) and sulfur oxides (SO_x) were also emitted. The proposed renewed Title V Operating Permit does not authorize any increase in air emissions of regulated pollutants above previously approved levels. Upon final approval, the permit will be renewed for a period of five (5) years.

The following Federal regulations have been promulgated since the last renewal and are incorporated in the current renewal: 40 CFR Part 63 Subpart DDDDD—Maximum Achievable Control Technology (MACT): Industrial, Commercial and Institutional Boilers and Process Heaters; 40 CFR Part 63, Subpart ZZZZ—National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines; 40 CFR Part 60, Subpart JJJJ—Standards of Performance for Stationary Spark Ignition Internal Combustion Engines; 40 CFR Part 60, Subpart IIII—Standards of Performance for Stationary Compression Ignition Internal Combustion Engines. Incorporation of the requirements of 40 CFR Part 63 Subpart DDDDD into the renewal effectively incorporates Plan Approval 23-0009F, which was submitted as a case by case determination for the “Boiler MACT.”

In addition, the requirements of 40 CFR Part 64—Compliance Assurance Monitoring (CAM) for a 73 MMBtu/hr boiler (Source ID 053) are included in the renewal. The Boeing Co. took a restriction of 850 operating hours for each of 4 turbine generators (Source ID 042) to avoid applicability of CAM for the turbine generators.

The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

Notice is hereby given in accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), that the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to Airlite Plastic Company, (2860 Bath Pike, Nazareth, PA 18064-8898) for their facility located in Upper Nazareth Township, Northampton County.

Plan Approval No. 48-00101B is for the construction and operation of two (2) additional expanded polystyrene foam (EPS) molding presses and a regenerative thermal oxidizer (RTO) to control VOC emissions from the manufacturing process. Only VOC emissions will be generated from this operation and will be controlled by RTO. The RTO will destroy minimum of 98% of captured VOCs. Estimated VOC emissions will be less than 2.0 tons/year from the manufacturing operations. Total VOC emissions from the facility will be less than 50 TPY on a 12-month rolling sum. The use of thermal oxidizer to destroy VOC emissions meets Department's BAT criteria for this type of process. The company will operate the sources and maintain the system in accordance with the good engineering practices to assure proper operation of the system. The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Any person(s) wishing to provide DEP with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the address shown in the preceding paragraph. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit No.: 48-00101B and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

South Hanover Township	111 West Third St, Hershey, PA 17033	Dauphin

Plan Description: The Request for Planning Exemption for the Milton Hershey School Venice Expansion, DEP Code No. A3-22930-188-3E, APS Id 881315, consisting of new student housing to generate sewage flows of 18,560 gpd and be served by a new pump station and Derry Township Municipal Authority's sewers and the Clearwater Road wastewater treatment plant, is disapproved. The following items were missing from the submission: 1) a plot plan showing the proposed new development and sewage facilities, as required by section 8b of the instructions for the "Sewage Facilities Planning Module Application Mailer and 2) written certification from the permittees of the collection, conveyance and treatment facilities stating that there is capacity to receive and to treat the sewage flows from the applicant's proposed new land development and that the additional wasteload from the proposed new land development will not create a hydraulic or organic overload or 5-year projected overload, as required by Chapter 71, Section 71.51(b)(2)(iii). Furthermore, depending on the details of the proposed pump station, including the design and ownership, a permit might be required under Pennsylvania's Clean Streams law, in which case the project would not qualify for a

planning exemption, as per Chapter 71, Section 71.51(b)(5). The project is located south of Hanshue Road and east of PA Route 39.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>

A preliminary hydrogeologic study is required because the proposed subdivision is within 1/4 mile of water supplies documented to exceed 5 PPM nitrate-nitrogen and onlot sewage disposal is proposed. Reference: Chapter 71, Section 71.55(a)(2), Chapter 71, Section 71.62(c)(2)(iii), and Fermanagh Township's Act 537 Sewage Facilities Plan. Therefore, sewage planning for the proposed subdivision may be reconsidered using a Component 2 Module with a preliminary hydrogeologic study. The project is located along Clear Springs Road, east of the junction with Industrial Park Road.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information con-

cerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

- Outfall 009—Lat: 39° 59' 42" Long: 79° 58' 18"—Meadow Run

The Department will hold a public hearing on the draft NPDES permit renewal application at the LaBelle Volunteer Fire Department, located in Luzerne Township at 1101 LaBelle Road, LaBelle, PA 15450 on Friday, December 4, 2015, from 1:00 p.m. to 3:00 p.m. The nature of the public hearing is to solicit concerns and comments regarding the draft NPDES permit renewal for the LaBelle Site. The public hearing will be held in accordance with 25 Pa. Code § 92a.83.

The public hearing is being held at the request of the Citizens Coal Council (CCC) and Environmental Integrity Project (EIP), who state the draft permit is insufficient under the Clean Water Act and fails to achieve water quality standards because:

- It fails to include some of the most polluting point source discharges from the Matt Canestrone Contracting, Inc. site.
- It uses the coal refuse technology-based limits for a host of other pollutants which are likely to be in the waste streams from the site.
- DEP did not consider whether water-quality based limits are necessary when it is clear that the current technology-based limits are not sufficient to prevent violations of the water quality standards.
- DEP failed to carry out a comprehensive reasonable potential analysis on the tributaries of the Monongahela.

A Department representative will be available to receive both written and oral testimony regarding the draft NPDES permit. Testimony will be placed into public record for the draft NPDES permit and considered by Department staff in the review process.

If you are a person with a disability wishing to attend this public hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, please contact Bonnie Herbert at 724.769.1100 to discuss how we may accommodate your needs. If necessary, you may use the Pennsylvania AT&T Relay Service by calling 1.800.654.5984 (TDD Users) or 1.800.654.5988 (Voice users) and request that your call be relayed to Bonnie Herbert at 724.769.1100.

Copies of the draft NPDES permit are on file for public review, by appointment, at the Department of Environmental Protection, District Mining Operations, 25 Technology Drive, California Technology Park, Coal Center, PA 15423, Phone: 724.769.1100.

Establishment of Minimum Standard Requirements for Sexual Assault Evidence Collection

Section 3 of the Sexual Assault Testing and Evidence Collection Act (act) (35 P.S. § 10172.3) establishes a Statewide sexual assault evidence collection program to be administered by the Department of Health (Department). Under this program the Department is to consult

with the Pennsylvania Coalition Against Rape (PCAR) and the State Police to develop and review on a scheduled basis the minimum standard requirements for all rape kits used in hospitals and health care facilities in this Commonwealth, to test and approve commercially available rape kits for use in this Commonwealth and establish a program to train appropriate personnel in the correct use and application of rape kits.

Under the act, the Department, in consultation with PCAR and the State Police, established a Sexual Assault Evidence Collection Committee (Committee). The Committee included representatives of the Department, PCAR, the State Police, the Hospital and Healthsystem Association of Pennsylvania, forensic nurse examiners, members of sexual assault response teams and law enforcement.

In accordance with the act, the SAEC formulated minimum standard requirements for sexual assault evidence collection in this Commonwealth. Beginning October 1, 2008, the minimum standards requirements established by the SAEC should be observed by all health care facilities and child advocacy centers in this Commonwealth, and these facilities and centers should meet or exceed those minimum standard requirements.

Under 28 Pa. Code § 117.52(a)(1) (relating to minimum requirements for sexual assault emergency services), all hospitals providing sexual assault emergency services under 28 Pa. Code §§ 117.51—117.58 (relating to sexual assault victim emergency services) “shall utilize a rape kit that complies with the minimum standard requirements developed by the Department or that is otherwise approved by the Department . . . under the [act].” Accordingly, this publication shall serve as notice to those hospitals of the minimum standard requirements developed by the Department under the act.

As of October 1, 2015, the following minimum standard requirements for sexual assault evidence collection are in effect:

B. Additional Disproportionate Share Payments

Additional disproportionate share payments are made to inpatient facilities, with a Medicaid inpatient utilization rate of not less than 1%, which have provided services to persons who have been determined to be low income by meeting the income and resource standards for the Commonwealth's General Assistance Program.

The payment adjustments are paid directly proportional to the payment received for either General Assistance beneficiaries for all hospital services or Title XIX beneficiaries, 21 years of age or older but under 65 years of age, for services rendered by institutions for mental diseases under the fee-for-service and capitation programs.

C. Additional Class of Disproportionate Share Payments

Effective March 1, 1998, the Department established a new class of disproportionate share payments to hospitals which render uncompensated care and which the Department has determined are experiencing significant revenue loss as a result of MA Program revisions under the act of May 16, 1996 (P. L. 175, No. 35).

Effective January 15, 1999, the Department established a new class of disproportionate share payments to include a Charity Care component of the Community Access Fund. A disproportionate share payment will be made to qualifying hospitals based on each hospital's percentage of charity care cost to the total charity care costs of all qualifying hospitals. The Department also established a disproportionate share payment for those hospitals which the Department has determined advanced its goal of enhanced access to multiple types of medical care in economically distressed areas of this Commonwealth.

The following hospitals qualify for this payment:

FISH AND BOAT COMMISSION

Additions to List of Class A Wild Trout Waters

The Fish and Boat Commission (Commission) has approved the addition of 40 stream sections to its list of Class A Wild Trout Streams as set forth at 45 Pa.B. 3946 (July 18, 2015). Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries.

Classification of Wild Trout Streams; Additions, Revisions and Removals

The Fish and Boat Commission (Commission) has approved the addition of 102 new waters to its list of wild trout streams, the revision of the section limits of 4 streams already on the list and the removal of 1 water from the list as published at 45 Pa.B. 3941 (July 18, 2015). Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Commission to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams. The Commission's Fisheries Management Division maintains the complete list of wild trout streams, and it is available on the Commission's web site at http://www.fish.state.pa.us/trout_repro.htm.

Responsible Alcohol Management Program
Regulation No. 54-79 (#3093)*

On March 11, 2015, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Liquor Control Board (Board). This rulemaking amends 40 Pa. Code § 5.211. The proposed regulation was published in the April 11, 2015 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on August 20, 2015.

This final-form rulemaking allows third parties to create their own training programs for alcohol education purposes and to submit them to the Board's Bureau of Alcohol Education for approval.

We have determined this regulation is consistent with the statutory authority of the Board (47 P. S. §§ 2-207(i) and 4-471.1) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

*Pennsylvania Liquor Control Board—
Right To Occupy
Regulation No. 54-84 (#3098)*

On May 5, 2015, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Liquor Control Board (Board). This rulemaking amends 40 Pa. Code (§§ 7.2, 7.4). The proposed regulation was published in the May 30, 2015 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on September 3, 2015.

Prior to approval of a transfer of ownership or transfer of ownership and location, the Board's regulations require an applicant to establish its right to occupy the proposed licensed premises by presenting a deed or lease for the premises, or bill of sale. The final-form regulation amends that requirement to allow for other types of written proof to reflect the fact that the right to occupy may be obtained through other means.

We have determined this regulation is consistent with the statutory authority of the Board (47 P. S. § 2-207(i)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Regulation #16A-7021
(IRRC #3113)**

Appraisal Management Companies

October 7, 2015

We submit for your consideration the following comments on the proposed rulemaking published in the August 8, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Certified Real Estate Appraisers (Board) to respond to all comments received from us or any other source.

1. General. Consistency with Federal rules.

The Appraisal Subcommittee of the Federal Financial Institutions Examination Council (FFIEC) submitted comments that the proposed rulemaking does not address certain requirements for registration and supervision that were recently implemented by AMC Final Rule on Minimum Requirements for Appraisal Management Companies, 80 *Federal Register* 32658 (June 9, 2015) (AMC Final Rule).

These requirements relate to the State's authority to: examine the books and records of an appraisal management company (AMC); require AMCs to submit information for inclusion on the National Registry of AMCs; collect and remit AMC registry fees; and report disciplinary action and violations of appraisal-related law, regulations and orders. The Board should address these areas in the final regulation or explain why it is unnecessary to do so.

2. Section 36.401. Definitions.—Whether the regulation is in the public interest.

In good standing—

The term's definition includes an individual who has an active unrestricted certificate or license, or a certificate or license that is on probation or subject to a restriction order by the Board. The Board explains that this phrase was not part of the temporary rulemaking and is being added at the request of stakeholders who asked for clarification and specificity regarding certification and licensure.

The phrase as used in § 36.404(b)(2) (relating to content of application) requires the compliance person to certify that the applicant has a system in place to verify that an appraiser is certified and in good standing under the Real Estate Appraisers Certification Act (63 P.S. §§ 457.1—457.19) (REACA).

We ask the Board to explain in the Preamble of the final-form regulation how allowing an appraiser who is on probation or subject to a restriction ordered by the Board to be designated as "in good standing" is in the public interest.

3. Section 36.404. Content of Application.—Consistency with statute; and Reasonableness.

This section provides for the content of the application to register as an AMC. The Appraisal Management Company Registration Act (63 P.S. §§ 457.21—457.31) (AMCRA) requires a certification that the applicant has a system in place for the performance of appraisal reviews with respect to the work of all appraisers to determine whether the appraisals are being conducted in conformance with the minimum standards under REACA both on a periodic basis and whenever requested by a client. (§ 457.25(b)(5)(ii)) The Board has incorporated this re-

quirement into the proposed rulemaking and has added the phrase "unless otherwise limited by the terms of a contract between the client and the appraisal management company."

We understand the Board's intent is to address stakeholder concerns that "an AMC should not be obligated to perform uncompensated appraisal reviews at the whim of a client." However, our concern is that the amendment could restrict the right of a client to request an appraisal review to a specified number of times or only under certain conditions set by the AMC. The Board should explain in the Preamble of the final form regulation how this language is consistent with the AMCRA.

Also, we ask the Board to consider whether the issue relating to compensation for appraisal reviews would be more appropriately included in Standards of Practice § 36.433 (relating to appraisal review) instead of § 36.404 (relating to content of application).

4. Section 36.434. Broker price opinions and evaluations.—Whether the regulation is in the public interest.

The Board proposes that an AMC may not order or solicit broker price opinions (BPOs) or evaluations. Commentators submit that in many states BPOs are used in circumstances where an appraisal is not required such as default collections, loan modifications, foreclosure bidding, home equity lines of credit and refinancing. The commentators request the Board to reconsider the prohibition on BPOs in these circumstances.

The Pennsylvania Association of Realtors (PAR) questions the need for the Board to address BPOs in the proposed rulemaking based on the fact that BPOs are not within the permissible scope of practice under the Real Estate Licensing and Registration Act (RELRA). The Board should clarify the reasonableness of and need for Section 36.434 as it relates to state and federal law.

5. Section 36.435. Recordkeeping.—Consistency with Federal rules.

Subsection (a)(3)

The Appraisal Subcommittee expressed concern that the proposed language in this subsection may be interpreted as being narrower than the definition of an "appraiser panel" in the AMC Final Rule, which includes not only appraisers used by an AMC but also those accepted by the AMC for future appraisals. The Board should amend this section to ensure it is consistent with the AMC Final Rule or explain why it is unnecessary to do so.

6. Section 36.451. Requirements for surety bond or letter of credit.—Clarity.

Subsection (d)

This subsection defines "claimant" and "faithful performance of the registrant's obligations under AMCRA." However, these terms are not used in the body of the regulation. We recommend the Board either delete the terms or revise the text of the final-form regulation to include them.

7. Miscellaneous Clarity.

- We recommend the Board amend § 36.401 (relating to definitions) to include the following terms and definitions that are included in AMCRA: "Mortgage Bankers and Brokers and Consumer Equity Protection Act" and "Registrant";

- In section § 36.411(c)(3), the acronym “USPAP” should be explained and defined in the definitions section;
- We recommend the Board amend § 36.453 and § 36.454 to include lower case letter (a) at the beginning of the introductory paragraphs to be consistent with formatting and to improve readability;
- The Board’s response in Regulatory Analysis Form (RAF) question #24(a) should be revised to replace “. . . all of these are AMCs” with “all of these are small businesses”; and
- In RAF questions #29 and #30, the Board should delete references to the Board meetings in 2014 and revise the expected date of promulgation.

**Heads-Up Hold 'Em and High Card Flush;
Table Game Rules of Play**

October 14, 2015

We submit for your consideration the following comments on the proposed rulemaking published in the August 15, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

Section 677a.1. Definitions.—Clarity.

This section defines terms for a new table game called Heads-Up Hold 'Em. We have two concerns. First, the term “fold” lacks clarity. It is defined as, “The withdrawal of a player from a round of play by not making a Raise Wager.” It is our understanding that a player can only fold under the circumstance outlined in § 677a.11(f) of the rulemaking. Section 677a.11(f) pertains to the procedures for completion of each round of play after the Turn and River cards have been exposed by the dealer. When this late stage of the game occurs, a player that has not already placed a Raise Wager can either place that bet or fold. However, under §§ 677a.11(b) and (d), a player can either place a Raise Wager or check and remain in the game. We believe the definition of “fold” conflicts with Subsections (b) and (d) because these sections allow a player to not make a Raise Wager and remain in the game by checking. This could be clarified by amending the definition of “fold” to indicate that a “fold” can only occur after the Turn and River cards have been exposed.

Second, under the definition of “Bad Beat Bonus,” the word “lists” should be changed to “loses.”
