READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

PART V. PROFESSIONAL ETHICS AND CONDUCT [204 PA. CODE CH. 93]

Amendments to Rules of Organization and Procedure of the Disciplinary Board of the Supreme Court of Pennsylvania; Order No. 80

By Order dated February 15, 2017, the Supreme Court of Pennsylvania amended Pa.R.D.E. 219(a) and (j) and 502(b) related to the annual assessment of attorneys. By this Order, the Board is making conforming changes to its Rules to reflect the adoption of those amendments.

The Disciplinary Board of the Supreme Court of Pennsylvania finds that:

(1) To the extent that 42 Pa.C.S. § 1702 (relating to rule making procedures) and Article II of the act of July 31, 1968 (P.L. 769, No. 240), known as the Commonwealth Documents Law, would otherwise require notice of proposed rulemaking with respect to the amendments

adopted hereby, those proposed rulemaking procedures are inapplicable because the amendments adopted hereby relate to agency procedure and are perfunctory in nature.

(2) The amendments to the Rules of Organization and Procedure of the Board adopted hereby are not inconsistent with the Pennsylvania Rules of Disciplinary Enforcement and are necessary and appropriate for the administration of the affairs of the Board.

The Board, acting pursuant to Pa.R.D.E. 205(c)(12), orders:

(1) Title 204 of the *Pennsylvania Code* is hereby amended as set forth in Annex A hereto.

(2) The Secretary of the Board shall duly certify this Order, and deposit the same with the Administrative Office of Pennsylvania Courts as required by Pa.R.J.A. 103(c).

(3) The amendments adopted hereby shall take effect upon publication in the *Pennsylvania Bulletin*.

Supreme Court of Pennsylvania*

Secretary

The fee shall be used to defray the costs of disciplinary administration and enforcement under the Enforcement Rules, and for such other purposes as the Board shall, with the approval of the Supreme Court, from time to time determine. Upon an attorney's written request submitted to the Attorney Registration Office and for good cause shown, the Attorney Registration Office shall grant an exemption from the electronic filing requirement and permit the attorney to file the annual fee form in paper form.

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1910. ACTIONS FOR SUPPORT

Rule 1910.4. [Commencement of Action. Fee.] Domestic Relations Section. Commencement of Action. No Filing Fees. Authorized Fees.

[(a) An action shall be commenced by filing a complaint with the domestic relations section of the court of common pleas.

Official Note: For the form of the complaint, see Rule 1910.27(a).

Section 961 of the Judicial Code, 42 Pa.C.S. § 961, provides that each court of common pleas shall have a domestic relations section.

(b) No filing fee shall be required in advance.]

(a) Each court of common pleas shall have a domestic relations section, which shall be the filing office for pleadings and documents for child support, spousal support, and alimony *pendente lite* actions.

(b) Child support and spousal support actions shall be commenced by filing a complaint in the domestic relations section. A party shall commence a claim for alimony *pendente lite* by filing a complaint in the domestic relations section if a divorce complaint has been filed with the prothonotary.

Official Note: See Pa.R.C.P. No. 1920.31(a)(2) regarding the filing of alimony *pendente lite* actions in the domestic relations section.

(c) Payment of a filing fee shall not be required by the domestic relations section to commence an action.

Official Note: See Pa.R.C.P. No. 1910.27(a) for the form of the support complaint.

(d) Unless authorized by statute, additional fees shall not be imposed by a judicial district. Fees shall be collected by the domestic relations section through the Pennsylvania Child Support Enforcement System (PACSES).

Official Note: Currently the statutorily authorized fees are the Judicial Computer System fee, 42 Pa.C.S. §§ 3733, 3733.1, the genetic testing fee pursuant to 23 Pa.C.S. § 4343(c)(4), and the federally mandated annual fee pursuant to 23 Pa.C.S. § 4351(a)(1).

Rule 1910.16-4. Support Guidelines. Calculation of Support Obligation. Formula.

* * * * *

(f) *Allocation. Consequences.*

(1) An order awarding [both] spousal support or alimony *pendente lite* and child support may be unallocated or state the amount of support allocable to the spouse and the amount allocable to each child. [Each] The order shall clearly state whether it is allocated or unallocated even if the amounts calculated for spousal support or alimony *pendente lite* and child [and spousal] support are delineated [on] in the order. However, Part IV of the formula provided by these rules assumes that an order will be unallocated. Therefore, if the order is to be allocated, the formula set forth in this

rule shall be utilized to determine the amount of support allocable to the spouse. If the allocation of an order utilizing the formula would be inequitable, the court shall make an appropriate adjustment. Also, if an order is to be allocated, an adjustment shall be made to the award giving consideration to the federal income tax consequences of an allocated order as may be appropriate under the circumstances. [No consideration] Consideration of federal income tax consequences shall be not applied if the order is unallocated or the order is for [the] spousal support or alimony *pendente lite* only.

Official Note: The 2005 amendment supersedes *Diament v. Diament*, 816 A.2d 256 (Pa. Super. [Ct.] 2003), to the extent that it held that the tax savings from payments for the benefit of a spouse alone or from an unallocated order for the benefit of a spouse and child must be considered in determining the obligor's available net income for support purposes. [Rule] Pa.R.C.P. No. 1910.16-4(f)(1) states that the guidelines formula assumes that the order will be unallocated. The tax consequences of an order for a spouse alone or an unallocated order for the benefit of a spouse and child have already been built into the formula.

(2) When the parties are in higher income brackets, the income tax considerations are likely to be a more significant factor in determining an award of support. A support award for a spouse and children is taxable to the obligee while an award for the children only is not. Consequently, in certain situations, an award only for the children will be more favorable to the obligee than an award to the spouse and children. In this situation, the trier of fact should utilize the [guidelines which result] method that results in the greatest benefit to the obligee.

[When] If the obligee's net income is equal to or greater than the obligor's net income, the guideline amount for spouse and children is identical to the guideline amount for children only. Therefore, in cases involving support for spouse and children, whenever the obligee's net income is equal to or greater than the obligor's net income, the guideline amount indicated shall be attributed to child support only.

(3) Unallocated charging orders for child and spousal support[,] or child support and alimony *pendente lite*[,] shall terminate upon the death of the [payee spouse or payee ex-spouse] obligee.

(4) In the event that the obligor defaults on an unallocated order, the court shall allocate the order for collection of child support pursuant to the Internal Revenue Service income tax refund intercept program or for registration and enforcement of the order in another jurisdiction under the Uniform Interstate Family Support Act, 23 [Pa.C.S.A.] Pa.C.S. § 7101 *et seq.* The court shall provide notice of allocation to the parties.

Official Note: This provision is necessary to comply with various state and federal laws relating to the enforcement of child support. It is not intended to affect the tax consequences of an unallocated order.

(5) An unallocated order for spousal support or alimony *pendente lite* and child support shall be a final order as to all claims covered in the order.

Explanatory Comment—2005

Rule 1910.16-4(a) sets forth the income shares formula used to establish the support obligation. Subdivision (b) provides the method for calculating support for seven or

more children as the basic support schedule in Rule 1910.16-3 sets forth the presumptive amount of support for only up to six children.

(1) **join as separate counts in the counterclaim the ancillary claims that may be joined with an action of divorce or for annulment under the Divorce Code;**

(2) **file at the same term and number a subsequent petition raising the ancillary claims.**

(c) **The averments in the counterclaim shall be deemed denied unless admitted by an answer.**

Official Note: See [**Rule**] Pa.R.C.P. No. 1920.31, which requires the joinder of certain related claims under penalty of waiver. A claim for alimony must be raised before the entry of a final decree of divorce or annulment. See Pa.R.C.P. No. 1920.31(a)(2) as to raising claims for child support, spousal support, and alimony *pendente lite*.

Rule 1920.31. Joinder of Related Claims. [**Child and Spousal Support.**] Alimony. [**Alimony Pendente Lite.**] Counsel Fees. **Costs and Expenses.**

(a)(1) [**When either**] **If a party has raised a claim for alimony [or], counsel fees, or costs and expenses, each party shall file a true copy of the most recent federal income tax return, pay stubs for the preceding six months, a completed Income Statement in the form required [at Rule] by Pa.R.C.P. No. 1910.27(c)(1), and a completed Expense Statement in the form required by [Rule] Pa.R.C.P. No. 1910.27(c)(2)(B). A party may not file a motion for the appointment of a master or a request for court action regarding alimony, [alimony pendente lite or] counsel fees, [cost] or costs and expenses until at least 30 days following the filing of that party’s tax returns, Income Statement and Expense Statement. The other party shall file the tax returns, Income Statement, and Expense Statement within 20 days of service of the moving party’s documents. [If a claim for child support, spousal support or alimony pendente lite is raised in a divorce complaint, no expense form is needed in a support action that can be decided pursuant to the support guidelines unless a party claims unusual needs or unusual fixed expenses or seeks deviation pursuant to Rule 1910.16-5 or apportionment of expenses pursuant to Rule 1910.16-6.]**

(2) **A divorce complaint shall not include claims for child support, spousal support, and alimony pendente lite. Claims for child support, spousal support, and alimony pendente lite shall be raised by filing a complaint with the domestic relations section pursuant to Pa.R.C.P. No. 1910.4.**

[(2)] (3) If a party fails to file the documents as required by subdivision (a)(1), the court on motion may make an appropriate order under [Rule] Pa.R.C.P. No. 4019 governing sanctions.

[(3) In those counties in which the prothonotary's office does not automatically forward a divorce complaint containing claims for support or alimony pendente lite to the domestic relations section or other appropriate office, if a claim for support or alimony pendente lite is filed as a count in a divorce rather than as a separate action, the award shall be retroactive to the date the moving party delivers a copy of the complaint to the domestic relations section or other appropriate office with a demand for hearing.]

(b)(1) Orders [of child support, spousal support, alimony or alimony pendente lite] for alimony may be enforced as provided by the rules governing actions for support and divorce, and in the Divorce Code.

Official Note: See, *inter alia*, Section 3323(b) of the Divorce Code relating to enforcement of the rights of any party under a decree, Section 3505(a) relating to an injunction against disposition of property pending suit, and Section 3703 relating to the collection of arrearages.

(2) When so ordered by the court, [all payments of child or spousal support, alimony or alimony pendente lite] payments for alimony shall be made to the domestic relations section of the court [which] that issued the order.

(c) The failure to claim spousal support, alimony, alimony pendente lite [or], counsel fees, or costs and expenses prior to the entry of a final decree of divorce or annulment shall be deemed a waiver [thereof] of those claims, unless the court expressly provides otherwise in its decree. The failure to claim child support shall not bar a separate and subsequent action [therefor].

(d) Upon entry of a decree in divorce, [any] an existing order for spousal support shall be deemed an order for alimony pendente lite if any economic claims remain pending.

Explanatory Comment

As amended, Pa.R.C.P. No. 1920.31 precludes the filing of child support, spousal support, and alimony pendente lite as counts in a divorce action. Those claims should be filed in the domestic relations section as a separate action from the divorce. This Rule is not intended to affect the legal distinction between spousal support and alimony pendente lite.

Rule 1920.51. Hearing by the Court. Appointment of Master. Notice of Hearing.

(a)(1) The court may hear the testimony or, upon its own motion or the motion of [either] a party, may appoint a master with respect to [all or any of the matters] the claims specified in subdivision (a)(2)(i) [to consider same], who shall consider those claims and issue a report and recommendation. The order of appointment shall specify the [matters] claims which are referred to the master.

(2)(i) The court may appoint a master in an action of divorce under Section 3301(a), (b) and (d)(1)(ii) of the Divorce Code, an action for annulment, and the claims for

alimony, [alimony pendente lite,] equitable distribution of marital property, [child support,] partial custody [or visitation, or], counsel fees, or costs and expenses, or any aspect [thereof] of those claims.

* * * * *

Rule 1920.52. Hearing by the Court. Decision. No Post-trial Relief. Decree.

- (a) In claims involving:
 - (1) marital property[,];
 - (2) enforcement of marital agreements[,];
 - (3) alimony[,]; or
 - (4) a contested action of divorce, or annulment,

the order of the trial [judge] court shall state the reasons [therefor] for its decision. [No] A motion for post-trial relief may not be filed to [any order] orders involving the claims enumerated in this subdivision.

- (b) In claims involving:
 - [(1) child or spousal support,
 - (2)] (1) paternity when tried by a judge[,];
 - [(3)] (2) custody[, partial custody, or visitation,];
 - [(4) alimony pendente lite,
 - (5)] (3) counsel fees[,] or costs and expenses[, or];
 - [(6)] (4) an uncontested action of divorce or annulment[,]; or
 - [(7)] (5) protection from abuse,

the order of the trial [judge] court may set forth only general findings. [No] A motion for post-trial relief may not be filed to [any order] orders involving the claims enumerated in this subdivision.

* * * * *

Rule 1920.54. Hearing by Master. Report. Related Claims.

(a) If claims for [child support, alimony pendente lite, or] counsel fees and costs and expenses have been referred to a master pursuant to [Rule] Pa.R.C.P. No. 1920.51(a), the master's report shall contain a separate [sections] section captioned ["Child Support," "Alimony Pendente Lite," or] "Counsel Fees and Costs and Expenses." [as appropriate.] The report may be in a narrative form stating the reasons for the recommendation and shall include a proposed order stating:

- (1) the amount [of support or alimony pendente lite];

* * * * *

Rule 1920.56. [Support. Alimony Pendente Lite. Allocation of Order] (Rescinded).

[(a) In an order awarding child support combined with spousal support, alimony pendente lite or both, the court may on its own motion or upon the motion of either party

- (1) make an unallocated award in favor of the spouse and one or more children, or

(2) state the amount of support allocable to the spouse and the amount allocable to each child.

(b) An unallocated order in favor of the spouse and one or more children shall be a final order as to all claims covered in the order.]

Rule 1920.74. Form of Motion for Appointment of Master. Order.

(a) The motion for appointment of a master shall be substantially in the following form:

(Caption)

MOTION FOR APPOINTMENT OF MASTER

_____ (Plaintiff) (Defendant), moves the court to appoint a master with respect to the following claims:

- () Divorce
- () Annulment
- () Alimony
- [() Alimony Pendente Lite]
- () Distribution of Property
- [() Support]
- () Counsel Fees
- () Costs and Expenses

and in support of the motion states:

- (1) Discovery [is] (is) (is not) complete as to the claim(s) for which the appointment of a master is requested.
- (2) The non-moving party (has) (has not) appeared in the action (personally) (by his **or her** attorney, _____, Esquire).

PUBLICATION REPORT

Recommendation 160

The Domestic Relations Procedural Rules Committee (DRPRC) is proposing amendments to Pa.R.C.P. Nos. 1910.4, 1910.16-4, 1920.1, 1920.13, 1920.15, 1920.31, 1920.51, 1920.52, 1920.54, and 1920.74 and rescission of Pa.R.C.P. No. 1920.56. The primary purposes of the amendments are to preclude the charging of fees not specifically authorized by statute in domestic relations actions and to establish statewide uniformity with the filing of support-related pleadings and document in a single filing office in each county.

In 2013, the Administrative Offices of Pennsylvania Courts (AOPC) conducted a county-by-county study and survey of fees assessed by domestic relations sections. Based on the study's recommendations, the Supreme Court of Pennsylvania formed an ad hoc committee, the Domestic Relations Fees Committee, to provide definitive recommendations regarding the imposition of the domestic relations fee structure in Pennsylvania.

In November 2015, the Domestic Relations Fees Committee issued a final report setting forth specific recommendations addressing the imposition of fees by domestic relations sections and other support-related matters, which has been provided to the DRPRC. Based in part on the aforementioned reports, the DRPRC has identified rules requiring amendment and rescission to address the charging of fees not authorized by statute and the other related issues.

The Committee invites comments on this recommendation.

Taxicab and Limousine Temporary Regulations

Amendments to Taxicab and Limousine Temporary Regulations; Doc. No. 17-002

Order

By the Authority:

The Philadelphia Parking Authority (“Authority”) is the sole regulator of all taxicab and limousine service in Philadelphia.¹ The purpose of this order is to amend the temporary taxicab and limousine regulations that were promulgated on January 27, 2017 pursuant to 53 Pa.C.S. § 57B02.²

Background

On January 27, 2017, the Authority entered an Order adopting temporary taxicab and limousine regulations to become part of 52 Pa. Code Part II with an effective date of February 25, 2017. However, the Authority’s Taxicab and Limousine Division (“TLD”) has since received and reviewed written comments from various industry members and the public relating to the temporary regulations.

Discussion

Upon consideration of all comments received concerning the temporary regulations and further review by the TLD, the Authority is proposing certain amendments to the temporary regulations, including but not limited to, the following:

- Taxicab meter system will not be required to have a driver distress button.
- Upon the death or incapacitation of an individual medallion taxicab certificate holder or a person with controlling interest in a medallion taxicab certificate holder, the operation or use of the medallion may continue until the medallion or securities are properly transferred.
- Requirements for wheelchair accessible vehicle (WAV) taxicabs will be consistent with the vehicle standards under the Americans with Disabilities Act.
- The Authority and medallion and limousine certificate holders will enforce a zero-tolerance policy on the use of drugs or alcohol by a taxicab or limousine driver while providing service.
- As a result of the changes made to the statutory structure for the Authority’s regulation of taxicabs and limousines, the temporary regulations address the additions or amendments to the following fees: the fee for a state inspection conducted by the Authority will be \$50; the fee to attend taxicab driver training is \$100; the fee for a limousine driver certificate will be \$25; and the fee for a stand-by fleet owner application will be \$350.

¹ See the act of July 16, 2004, (P.L. 758, No. 94), 53 Pa.C.S. §§ 5701 et seq., as amended, (the “Act”)

² See the act of November 4, 2016, (P.L. 12220, No. 164), 53 Pa.C.S. Chapter 57B, et seq. (relating to regulation of taxicabs and limousines in cities of the first class) (the “Act”).

- Limousine rates and tariffs may be filed as follows: nonflexible rates based on time, mileage or both but meters prohibited; or flexible rates subject to approval by the TLD Director allowing for rates to change in real time based on supply and demand, meters prohibited, and customer protection procedure for disclosing the estimated fare customers and compliance with the Price Gouging Act.

Amended temporary taxicab and limousine regulations

Based on all of the comments received and a review of the temporary regulations adopted on January 27, 2017, the Authority proposes the adoption of the amended temporary regulations set forth in Annex A to this Order to become part of 52 Pa. (3) The Authority shall fix the time and place for a hearing on a properly filed petition and will serve notice thereof upon parties in interest. After the conclusion of the hearing, the Authority will issue a decision and findings in sufficient detail to enable a court to determine, on appeal, the controverted question presented by the proceeding and whether proper weight was given to the evidence.

(4) The filing of a petition under this subsection does not relieve the owner of the obligation to pay the assessment within the specified time frame. If a refund due from the Authority to the objecting owner or an additional assessment payment due from the objecting owner to the authority is required, the payment shall be made within 10 days after notice of the findings of the Authority.

providing service with a broken windshield will be subject to the standard enforcement procedures of this part.

(2) Limousines registered as provided in this section must comply with the instructions of an inspector and submit to field inspections as provided in § 1055.14 (relating to field inspections). A certificate holder may seek review of the determination to assign imputed mileage as provided in § 1005.24 (relating to appeals from actions of the staff).

(2) The imputed mileage will be calculated by adding the mileage of the vehicle recorded at the two most recent State inspections or two most recent compliance inspections, or a combination of any two, and dividing that sum by 24. The quotient is the imputed monthly mileage.

(3) Unless otherwise provided by the Authority, a vehicle may not be introduced for limousine service or continue in limousine service if a reliable baseline odometer reading cannot be ascertained.

(e) *Reporting of odometer malfunctions.* A certificate holder or limousine driver who knows or suspects that the odometer reading of a limousine differs from the number of miles the limousine has actually traveled shall disclose that status to the Enforcement Department immediately.

Title 58—RECREATION

GAME COMMISSION

[58 PA. CODE CH. 135]

Lands and Buildings; Pymatuning Wildlife Management Area

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its March 28, 2017, meeting, amended § 135.106 (relating to Pymatuning Wildlife Management Area) to establish new parameters for establishing and managing the Pymatuning Wildlife Management Area (PWMA) controlled deer hunt.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 47 Pa.B. 1475 (March 11, 2017).

1. Purpose and Authority

Controlled deer hunts have been held at the PWMA (State Game Lands 214) since at least the 1970s. Over the years various formats have been used to manage the controlled deer hunts, including hunts during the regular firearms deer season, flintlock/archery hunts during the after-Christmas season and flintlock/archery hunts outside the regular seasons. Season lengths have also varied over the years ranging from hunts lasting 1 day to others lasting 5 days. The Commission has observed that

the very limited time frame and extent of this hunting pressure within the PWMA coupled with the higher hunting pressure on surrounding areas outside of the PWMA has resulted in dramatic increases in deer populations during the fall. This increase in population, albeit temporary, has had a significant negative impact on the PWMA's existing habitat.

The PWMA controlled deer hunts have proven quite popular with hunters, with over 1,000 applications received every year. The prehunt influx and retention of higher deer populations is expected to be the cause of this popularity as hunters have regularly described abundant deer sightings. The Commission has observed that typical hunts in the PWMA result in low harvest, but high wounding loss, likely the result of the high hunting pressure in the area during the controlled deer hunt.

The Commission amends § 135.106 to establish new parameters for establishing and managing the PWMA controlled deer hunt. The goal of these amendments is to provide a higher quality hunt for the participants of this limited program primarily by spreading the same number of hunters across a few weeks of the regularly established fall deer seasons rather than a few days. Hunting opportunities within the PWMA will be managed by a lottery process that is intended to more predictably and logically distribute hunting access to participants.

Section 721(a) of the code (relating to control of property) provides “[t]he administration of all lands or waters owned, leased or otherwise controlled by the commission shall be under the sole control of the director, and the commission shall promulgate regulations . . . for its use and protection as necessary to properly manage these lands or waters.” The amendments to § 135.106 are adopted under this authority.

2. Regulatory Requirements

This final-form rulemaking amends § 135.106 to establish new parameters for establishing and managing the PWMA controlled deer hunt.

3. Persons Affected

Persons wishing to participate in the PWMA controlled deer hunt will be affected by this final-form rulemaking.

4. Comment and Response Summary

The Commission received one official comment in support of this final-form rulemaking.

5. Cost and Paperwork Requirements

This final-form rulemaking should not result in additional cost or paperwork.

6. Effective Date

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. Contact Person

For further information regarding this final-form rulemaking, contact Thomas P. Grohol, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968

(2) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under the authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 135, are amended by amending § 135.106 to read as set forth at 47 Pa.B. 1475.

(b) The Executive Director of the Commission shall certify this order and 47 Pa.B. 1475 and deposit them with the Legislative Reference Bureau as required by law.

[58 PA. CODE CH. 135]
Lands and Buildings; State Game Lands

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its March 28, 2017, meeting, amended § 135.41 (relating to State game lands) to prohibit a person from engaging in dog training activities from the Monday prior to the start of the youth pheasant season until the opening of the regular pheasant season on lands designated as State game lands.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 47 Pa.B. 1479 (March 11, 2017).

1. Purpose and Authority

The Commission traditionally conducts the majority of its annual pheasant stocking operations on State game lands to provide adequate pheasant hunting opportunities across this Commonwealth. Pheasant hunting opportunities in this Commonwealth are directly linked to and limited by the existence and availability of pheasants stocked by the Commission each year. The Commission has become increasingly aware that dog training activities occurring on State game lands during the periods just prior to and concurrent with the youth pheasant season and prior to the opening of the regular pheasant season are consistently causing pheasants recently stocked by the Commission to scatter and disperse far away from designated release sites where they are intended to temporarily remain for the duration of the pheasant seasons. The Commission amends § 135.41 to prohibit a person from engaging in dog training activities from the

Monday prior to the start of the youth pheasant season until the opening of the regular pheasant season on lands designated as State game lands. These amendments will not limit dog training activities on private lands.

Section 721(a) of the code (relating to control of property) provides “[t]he administration of all lands or waters owned, leased or otherwise controlled by the commission shall be under the sole control of the director, and the commission shall promulgate regulations. . . for its use and protection as necessary to properly manage these lands or waters.” The amendments to § 135.41 are adopted under this authority.

2. Regulatory Requirements

This final-form rulemaking amends § 135.41 to prohibit a person from engaging in dog training activities from the Monday prior to the start of the youth pheasant season until the opening of the regular pheasant season on lands designated as State game lands.

3. Persons Affected

Persons wishing to engage in dog training activities on State game lands may be affected by this final-form rulemaking.

4. Comment and Response Summary

The Commission received a total of four official comments opposing to this final-form rulemaking.

5. Cost and Paperwork Requirements

This final-form rulemaking should not result in additional cost or paperwork.

6. Effective Date

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

GAME COMMISSION
[58 PA. CODE CH. 137]

Wildlife; Chronic Wasting Disease Restrictions

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its March 28, 2017, meeting, added § 137.35 (relating to Chronic Wasting Disease restrictions) to give more permanent status and structure to the Chronic Wasting Disease (CWD) requirements and restrictions previously established and maintained by executive order during the past decade.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 47 Pa.B. 1493 (March 11, 2017).

1. *Purpose and Authority*

CWD is an infectious and progressive neurological disease that is found in, and always proves fatal to, members of the family Cervidae (deer, elk, moose and other susceptible species, collectively called cervids). CWD is caused by prions (abnormal infectious protein particles) that are known to be concentrated in the nervous system and lymphoid tissues of infected cervids. There are no known treatments for CWD infection, no vaccines to protect against CWD infection and no approved tests that can detect the presence of CWD in live cervids. CWD is designated as a “dangerous transmissible disease” of animals by order of the Secretary of Agriculture under 3 Pa.C.S. § 2321(d) (relating to dangerous transmissible diseases). CWD is known to be transmissible from infected to uninfected cervids by contact with or ingestion of CWD-infected or contaminated cervid parts or materials. CWD is of particular concern to the Commonwealth because it has potential to have a catastrophic detrimental impact on both wild and captive cervid populations in this Commonwealth. The Department of Agriculture has detected CWD in captive deer in Adams, Franklin, Jefferson and York Counties. The Commission has also detected CWD in free-ranging deer in Bedford, Blair, Cambria and Fulton Counties. The Maryland Department of Natural Resources has detected CWD in free-ranging deer in Allegany County within 10 miles of the Pennsylvania border. The Commission adds § 137.35 to give more permanent status and structure to the CWD requirements and restrictions previously established and maintained by executive order during the past decade.

Section 2102(a) of the code (relating to regulations) provides that “[t]he commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the

protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth.” Section 137.35 is adopted under this authority.

2. *Regulatory Requirements*

This final-form rulemaking adds § 137.35 to give more permanent status and structure to the CWD requirements and restrictions previously established and maintained by executive order during the past decade.

3. *Persons Affected*

Persons wishing to import high-risk parts or materials from cervids harvested, taken or killed within a CWD-endemic state or Canadian province or persons wishing to remove or export high-risk parts or materials from cervids harvested, taken or killed within a Disease Management Area within this Commonwealth will be affected by this final-form rulemaking.

4. *Comment and Response Summary*

There were no official comments received regarding this final-form rulemaking.

5. *Cost and Paperwork Requirements*

This final-form rulemaking should not result in additional cost or paperwork.

6. *Effective Date*

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. *Contact Person*

(2) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under the authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 137, are amended by adding § 137.35 to read as set forth in Annex A.

(b) The Executive Director of the Commission shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

CHAPTER 137. WILDLIFE

§ 137.35. Chronic Wasting Disease restrictions.

(a) *Importation.*

(1) It is unlawful to import any high-risk parts or materials from cervids harvested, taken or killed within any CWD-endemic state or Canadian province into this Commonwealth.

(2) This subsection may not be construed to limit the importation of non-high-risk parts or materials from cervids harvested, taken or killed within any CWD-endemic state or Canadian province into this Commonwealth.

(b) *Exportation.*

(1) It is unlawful to remove or export any high-risk parts or materials from cervids harvested, taken or killed, including by vehicular accident, within any Disease Management Area established within this Commonwealth.

(2) This subsection may not be construed to limit the removal or exportation of non-high-risk parts or materials from cervids harvested, taken or killed within any Disease Management Area established within this Commonwealth.

(3) This subsection may not be construed to limit the removal or exportation of high-risk parts or materials from cervids harvested, taken or killed in any Disease Management Area established within this Commonwealth if the parts or materials are transported directly to any location or facility designated and approved in advance by the Commission to receive high-risk cervid parts for waste disposal, taxidermy or butchering purposes. Locations or facilities designated and approved to receive high-risk cervid parts for waste disposal, taxidermy or butchering purposes will be made known through public announcement, web site and other means reasonably intended to reach the widest audience.

(4) All cervids harvested, taken or killed within any Disease Management Area established within this Commonwealth are subject to disease testing. This testing may require hunters to present cervids, or cervid parts, for checking and sampling at prescribed locations under conditions in a forthcoming notice. The submission process, if any, will be made known through public announcement, web site and other means reasonably intended to reach the widest audience. (8) The Commission will not issue any new permit to possess or transport live cervids within any Disease Management Area established within this Commonwealth.

(c) *Nonapplicability.*

(1) Nothing in this section shall be construed to extend to the regulation of captive cervids held under 3 Pa.C.S. Chapter 23 (relating to Domestic Animal Law) or the requirements of a lawful quarantine order issued by the Department of Agriculture.

GAME COMMISSION
[58 PA. CODE CH. 139]
Seasons and Bag Limits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its March 28, 2017, meeting, amended § 139.4 (relating to seasons and bag limits for the license year) to provide updated seasons and bag limits for the 2017-2018 hunting/trapping license year.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 47 Pa.B. 1480 (March 11, 2017).

1. *Purpose and Authority*

To effectively manage the wildlife resources and provide hunting and trapping opportunities in this Commonwealth during the upcoming license year, the Commission amends § 139.4 to provide updated seasons and bag limits for the 2017-2018 license year. The 2017-2018 seasons and bag limits are amended to reflect current available scientific data, population and harvest records, field surveys and professional staff observations, as well as recommendations received from staff, organized sporting groups, members of the agricultural community and others interested in the management of the wildlife resources of this Commonwealth.

Amendments to small game seasons include: eliminating the post-Christmas segment of the ruffed grouse season in an effort to improve adult survival in light of significant recent population declines; opening the Central Susquehanna Wild Pheasant Recovery Area to a youth-only pheasant hunting season; and opening wildlife management unit (WMU) 5A to put-and-take bobwhite quail hunting given the lack of wild quail in this area and the low likelihood of reintroduction efforts in this WMU in the near future—closures can be enacted at this WMU or smaller scales as needed if and when restoration activities occur.

Amendments to wild turkey seasons include opening a conservative, midweek fall season in WMU 5B while reducing fall season length in three WMUs that have exhibited declining trends in turkey population indices. Specifically, seasons would decrease from 2 weeks + 3 days to 1 week + 3 days in WMUs 4A and 4B, and from 3 weeks + 3 days to 2 weeks + 3 days in WMU 4E.

Amendments to white-tailed deer seasons include adjusting WMUs 5A and 5B from a concurrent antlered/antlerless white-tailed deer season to a split antlered/antlerless white-tailed deer season. While not a seasons and bag limits issue per se, it should be noted that the use of large Deer Management Assistance Program areas surrounding locations of Chronic Wasting Disease-positive deer is being recommended instead of Disease Management Area permits to provide a simpler mechanism for hunters to reduce deer populations around known disease hotspots.

Amendments to black bear seasons include an earlier and 1-day longer Statewide archery season, concurrent with the Monday through Saturday of the next to last week of the Statewide archery deer season. This amendment addresses requests from staff and constituents and would likely provide for a moderate increase in overall bear harvest.

Section 322(c)(1) of the code (relating to powers and duties of commission) specifically empowers the Commission to “fix seasons, daily shooting or taking hours, and any modification thereof, and daily, season and possession limits for any species of game or wildlife.” Section 2102(b)(1) of the code (relating to regulations) authorizes the Commission to “promulgate regulations relating to seasons and bag limits for hunting or furtaking. . . .” The amendments to § 139.4 are adopted under this authority.

2. *Regulatory Requirements*

This final-form rulemaking amends § 139.4 to provide updated seasons and bag limits for the 2017-2018 hunting/trapping license year.

3. *Persons Affected*

Persons wishing to hunt or trap game or wildlife within this Commonwealth during the 2017-2018 hunting/trapping license year will be affected by this final-form rulemaking.

Seasons and Bag Limits; Field Possession and Transportation Limits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its March 28, 2017, meeting, amended § 139.6 (relating to field possession and transportation limits) to increase the daily possession limit from double to triple the daily limit.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 47 Pa.B. 1486 (March 11, 2017).

1. *Purpose and Authority*

The Commission first established triple possession limits in § 139.4 (relating to seasons and bag limits for the license year) for the 2014-2015 license year. Unfortunately, the Commission did not contemporaneously amend § 139.6 with these same amendments. The Commission amends § 139.6 to increase the daily possession limit from double to triple the daily limit.

Section 322(c)(1) of the code (relating to powers and duties of commission) specifically empowers the Commission to “fix seasons, daily shooting or taking hours, and any modification thereof, and daily, season and possession limits for any species of game or wildlife.” Section 2102(b)(1) of the code (relating to regulations) authorizes the Commission to “promulgate regulations relating to

seasons and bag limits for hunting or furtaking. . . .” The amendments to § 139.6 are adopted under this authority.

2. *Regulatory Requirements*

This final-form rulemaking amends § 139.6 to increase the daily possession limit from double to triple the daily limit.

3. *Persons Affected*

Persons wishing to hunt or trap game or wildlife within this Commonwealth will be affected by this final-form rulemaking.

4. *Comment and Response Summary*

There were no official comments received regarding this final-form rulemaking.

5. *Cost and Paperwork Requirements*

This final-form rulemaking should not result in additional cost or paperwork.

6. *Effective Date*

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. *Contact Person*

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968

(P.L. 769, No. 240) (45 P.S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under the authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 139, are amended by amending § 139.6 to read as set forth at 47 Pa.B. 1486.

GAME COMMISSION
[58 PA. CODE CH. 147]
Special Permits; Deer Control

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its March 28, 2017, meeting, amended §§ 147.552 and 147.553 (relating to application; and permit) to replace the dawn to dusk terminology with a reference to legal hunting hours as set forth in § 141.4 and Chapter 141, Appendix G (relating to hunting hours) and to delete the requirement that an applicant be enrolled in one of the Commission's public access programs for 2 years to be eligible for the Red Tag permit.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 47 Pa.B. 1490 (March 11, 2017).

1. Purpose and Authority

Former regulations limited subpermittees exercising the privileges of a Red Tag permit to hunting and taking white-tailed deer from "dawn to dusk." Most participants in this program understand this ambiguous time frame to coincide with legal hunting hours, but this link was not clear in the established regulations. The Commission amends § 147.553 to replace the dawn to dusk terminology with a reference to legal hunting hours in § 141.4 and Chapter 141, Appendix G. These amendments will more effectively guide and instruct subpermittees on the lawful periods during which they may exercise the privileges of this program. The Commission also amends § 147.552 to delete the requirement that an applicant be enrolled in one of the Commission's public access programs for 2 years to be eligible for the Red Tag permit. This amendment will alleviate constraints on farmers wishing to participate in the Red Tag program who cannot wait the 2-year public access program enrollment period due to current deer damage problems.

Section 2901(b) of the code (relating to authority to issue permits) provides "the commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued." The amendments to §§ 147.552 and 147.553 are adopted under this authority.

2. Regulatory Requirements

This final-form rulemaking amends §§ 147.552 and 147.553 to replace the dawn to dusk terminology with a reference to legal hunting hours as set forth in § 141.4 and Chapter 141, Appendix G and to delete the requirement that an applicant be enrolled in one of the Commission's public access programs for 2 years to be eligible for the Red Tag permit.

3. Persons Affected

Persons wishing to make application and participate in the Red Tag deer control program may be affected by this final-form rulemaking.

4. Comment and Response Summary

There were no official comments received regarding this final-form rulemaking.

5. Cost and Paperwork Requirements

This final-form rulemaking should not result in additional cost or paperwork.

6. Effective Date

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. Contact Person

For further information regarding this final-form rulemaking, contact Thomas P. Grohol, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under the authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 147, are amended by amending §§ 147.552 and 147.553 to read as set forth in Annex A.

(b) The Executive Director of the Commission shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

Annex A
TITLE 58. RECREATION
PART III. GAME COMMISSION
CHAPTER 147. SPECIAL PERMITS
Subchapter R. DEER CONTROL
AGRICULTURE

§ 147.552. Application.

(a) Application for the deer control permit shall be made through the district wildlife conservation officer on a form provided by the Commission.

(b) Except in wildlife management units 5C and 5D, applications will only be accepted from persons who are currently enrolled in one of the Commission public access programs (Farm Game Project or Safety Zone—P.1-2-3).

(c) A copy of a deed or lease showing the applicant to be the owner or have control, or both, of the hunting rights of the land to be permitted must accompany the application.

(d) Applicants from the southeast special regulations areas only may be eligible to obtain approval to engage in limited baiting activities to enhance deer control activities

on their properties. Approval will be based solely upon an applicant's demonstrable need for a baiting authorization as evidenced by written justifications or other evidence submitted on or in addition to the application at the time of application or renewal.

§ 147.553. Permit.

The deer control permit authorizes the permittee to enlist the aid of a limited number of subpermits. The maximum number of subpermits issued will be no more than one for every 5 acres of land that is under cultivation unless the wildlife conservation officer recommends an increase in the number due to warranted circumstances.

(1) *Validity.* The permit is valid from February 1 to September 28 each calendar year, excluding Sundays, during legal hunting hours as set forth in § 141.4 and Chapter 141, Appendix G (relating to hunting hours).

(2) *Exceptions.* The permit is not valid from May 16 to June 30 during peak fawning season.

(3) *Posting.* Except in wildlife management units 5C and 5D, deer control permit signs provided by the Commission shall be conspicuously posted on the boundary of and along all public roadways traversing the property by the landowner/cooperator on all contiguous acres of the farm under agreement. Posting shall be completed prior to February 1.

(4) *Fee for permit.* There is no fee for the issuance of the deer control permit.

GAME COMMISSION
[58 PA. CODE CH. 147]

Special Permits; Deer Management Assistance Program Permits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its March 28, 2017, meeting, amended § 147.673 (relating to eligibility and application for DMAP) to allow the Commission to accept Deer Management Assistance Program (DMAP) applications from political subdivisions and government agencies to enable them to manage deer harvest within a conglomeration of distinct, privately-owned and publically-owned lands under their jurisdiction.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 47 Pa.B. 1490 (March 11, 2017).

1. Purpose and Authority

The Commission is statutorily charged with managing white-tailed deer herds in this Commonwealth on behalf of citizens. To accomplish this responsibility, the Commission allocates antlerless deer licenses across this Commonwealth among its various wildlife management units to utilize hunter harvest as the primary management tool of white-tailed deer. These allocations are adjusted each year to allow the deer herd to grow, stabilize or decrease, and are based on the best available science and in

consideration of the broad and disparate interests of the various stakeholders in this Commonwealth. This system addresses deer management Statewide.

In 2003, DMAP was established to provide both public and private landowners with an additional tool for the management of local white-tailed deer herds on lands where excessive deer numbers have compromised the landowners' land uses and other interests. Some communities in more urbanized areas have documented evidence that requiring individual landowners to individually submit DMAP applications has not been an effective method towards resolving localized deer management concerns. Subsequently, the Commission has recognized the need to increase deer harvests in local areas in response to growing concerns related to disease outbreaks.

The Commission amends § 147.673 to allow the Commission to accept DMAP applications from political subdivisions and government agencies to enable them to manage deer harvest within a conglomeration of distinct, privately-owned and publically-owned lands under their jurisdiction. By expanding political subdivisions' and government agencies' ability to apply for permits on behalf of property owners, the Commission hopes to improve efforts to control deer populations using regulated DMAP hunting. Political subdivisions and government agencies making application in this manner will be required to submit a management plan. The Commission will allocate DMAP harvest permits based on current conditions relative to goals and objectives outlined in the Commission-approved management plan.

Section 2901(b) of the code (relating to authority to issue permits) provides "the commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued." The amendments to § 147.673 are adopted under this authority.

2. Regulatory Requirements

This final-form rulemaking amends § 147.673 to allow the Commission to accept DMAP applications from political subdivisions and government agencies to enable them to manage deer harvest within a conglomeration of distinct, privately-owned and publically-owned lands under their jurisdiction.

3. Persons Affected

Political subdivisions and government agencies wishing to make application for participation in DMAP on behalf of a conglomeration of distinct, privately-owned and publically-owned lands may be affected by this final-form rulemaking.

4. Comment and Response Summary

There were no official comments received regarding this final-form rulemaking.

5. Cost and Paperwork Requirements

This final-form rulemaking should not result in additional cost or paperwork.

PROPOSED RULEMAKING

PENNSYLVANIA PUBLIC UTILITY COMMISSION

[52 PA. CODE CH. 59]

[L-2016-2577413]

Rulemaking to Amend the Provisions of 52 Pa. Code Chapter 59 Regulations Regarding Standards For Changing a Customer's Natural Gas Supplier; Request for Additional Comments

Public Meeting held
April 20, 2017

Commissioners Present: Gladys M. Brown, Chairperson; Andrew G. Place, Vice Chairperson; John F. Coleman, Jr.; Robert F. Powelson; David W. Sweet

Rulemaking to Amend the Provisions of 52 Pa. Code, Chapter 59 Regulations Regarding Standards For Changing a Customer's Natural Gas Supplier; L-2016-2577413

Order

By the Commission:

On December 22, 2016, the Pennsylvania Public Utility Commission (Commission) adopted an Advanced Notice of Proposed Rulemaking (ANOPR) to solicit comments about amending and adding to the provisions of 52 Pa. Code §§ 59.91—59.99 regarding standards for changing a Customer's natural gas supplier.¹ These regulations address the process for transferring a customer's account from a service of last resort (SOLR) provider to a competitive natural gas supplier (NGS or supplier), from one supplier to another supplier and from a supplier to SOLR service. The proposed regulatory changes are intended to accelerate this process while preserving safeguards to prevent the unauthorized switching of a customer's account, also known as "slamming." Comments were due and were filed on February 21, 2017. With this Order, the Commission seeks additional comments on issues raised in comments filed on February 21, 2017.

Background

The current NGS switching regulations were adopted on July 7, 2000 and became effective July 8, 2000.² Due to changes in the competitive retail gas and electric markets since the adoption of these regulations, the Commission is reviewing these regulations, previous relevant orders, and comments from interested parties regarding an accelerated switching process. The ANOPR was published in the *Pennsylvania Bulletin* on January 7, 2017—triggering the start of a 45-day comment period.

Twelve parties filed comments on February 21, 2017, Columbia Gas of Pennsylvania (Columbia); Energy Association of Pennsylvania (EAP); National Fuel Gas Distribution Corporation (NFG); Natural Gas Supplier Parties (NGS Parties); Office of Consumer Advocate (OCA); PECO Energy Company (PECO); Peoples Natural Gas Company LLC and Peoples TWP LLC (Peoples); Philadelphia Gas

Works (PGW); Retail Energy Supply Association (RESA); UGI Distribution Companies (UGI Distribution); UGI Energy Services (UGI Energy) and Valley Energy (Valley). All comments, in addition to the December 22 ANOPR, are available on the Commission's website at http://www.puc.pa.gov/about_puc/consolidated_case_view.aspx?Docket=L-2016-2577413.

With this Order, the Commission seeks additional comments on its proposals and issues raised by parties in their February 21, 2017 comments, to revise the regulations to facilitate accelerated switching without endangering safeguards to protect customers against unauthorized switching.

Discussion

Upon review of the initial comments, Commission staff determined that parties raised several concerns and/or introduced new proposals that warrant further exploration. Accordingly, the Commission now invites any interested stakeholder to submit additional comments. While stakeholders are free to comment on any topic they believe warrants additional comment, the Commission wants to highlight a few specific matters raised in the initial comments that we believe need further vetting by the stakeholders and that we expressly invite further comment upon:

Backdating NGS Switches:

As an alternative to off-cycle switching, NFG proposed that natural gas distribution companies (NGDCs) have the option to affect the switch retroactively to the last meter read used for billing (NFG at 9-10). We invite parties to comment on this proposal, including any technical or customer-related issues they identify. Additionally, we are interested in the analysis of the costs and possible cost-savings that a "retroactive" switch procedure may provide in comparison to the possible costs of off-cycle switching.

Limitations on Off-Cycle Switching:

In the analogous EGS switching regulations (see 52 Pa. Code §§ 57.171—180), there is no limitation on the number of off-cycle supplier switches a customer may make within a single billing cycle. However, for NGS switching, some parties have proposed that if off-cycle switching is required, that it be limited to one off-cycle switch per billing period. (Peoples at 5-6; NFG at 6). We invite parties to comment on the benefits of such a restriction—especially as it relates to costs compared to unrestricted off-cycle switching. Parties are also invited to comment on any possible consequence of such a restriction—especially possible impacts on consumers.

The NGDC Acting as a Capacity "Clearinghouse":

Parties expressed a diversity of opinion on the NGDC acting as a "clearinghouse" to address capacity assignment in an off-cycle switching environment—with some voicing caution while others believing that the concept is workable. (NFG at 7-8; NGS Parties at 6 and PECO at 7-8). We invite parties to comment further on this concept and any possible alternatives.

Diversity of NGDC Systems:

Several NGDCs noted the diversity of their distribution systems, billing capabilities and metering technology. (Columbia at 4-5; EAP at 9-10; PGW at 6-7; Valley at 3; and UGI on pages 3-4). Should the regulations and

² See Final Rulemaking Order re: Rulemaking Establishing Procedures to Ensure Customer Consent To A Change of Natural Gas Supplier, Docket L-00990145 (Order entered May 12, 2000).

switching timeframes vary depending upon the NGDCs capabilities? Would such diversity be too confusing and problematic for suppliers and consumers? Should all NGDCs be held to the same standards—but with varying implementation timeframes dependent upon changes or updates in their technical capabilities?

Data Elements in § 59.93:

The current rule at 52 Pa. Code § 59.93(1) requires that when an NGS transmits an enrollment to the NGDC, that the “. . . NGDC shall verify the accuracy of the information provided by the NGS by matching at least two data elements such as name and account number, or address and account number, with NGDC records.” This same requirement is included in the proposed revised regulation as found in the ANOPR. This requirement is not found in the analogous EGS switching regulation (see 52 Pa. Code §§ 57.172—174)—as pointed out by PECO in their comments. Further, PECO contends that it has not encountered problems using only one data element—the account number. Accordingly, PECO asks that flexibility be provided to allow the switching of accounts based upon only one element. (PECO at 6). We invite parties to comment on this—especially concerning any issues with the exchange of account data between suppliers and NGDCs that may be impacted by any change.

Conclusion

We invite parties to submit additional comments on the matters discussed in this order and on any other issue raised in the comments filed at this Docket that they think warrant further attention by the Commission. As we did in the ANOPR, we urge parties to submit along with their comments any data supporting their position, including any cost data. Where parties oppose the proposed regulations, we encourage them to offer alternative solutions.

Upon careful review and consideration of the all comments received in this Docket, the Commission intends to issue a formal Notice of Proposed Rulemaking with proposed revised regulations; *Therefore,*

It Is Ordered That:

1. The Secretary shall duly certify this Order and deposit it with the Legislative Reference Bureau to be published in the *Pennsylvania Bulletin*.

2. Written comments referencing Docket No. L-2016-2577413 be submitted within 30 days of publication in the *Pennsylvania Bulletin* to the Pennsylvania Public Utility Commission, Attn: Secretary, P.O. Box 3265, Harrisburg, PA 17105-3265. Comments may also be filed electronically through the Commission’s e-File System.

3. This Order proposing to revise the regulations appearing in Title 52 of the *Pennsylvania Code* Chapter 59 (relating to Standards for Changing a Customer’s Natural Gas Supplier), be served on all jurisdictional natural gas utilities, all licensed natural gas suppliers, the Bureau of Investigation and Enforcement, the Office of Consumer Advocate, and the Office of Small Business Advocate.

DEPARTMENT OF AGRICULTURE

Establishment of the Pennsylvania Apple Program

Under 3 Pa.C.S. §§ 4501—4513 (relating to Agricultural Commodities Marketing Act) a referendum was held from April 3, 2017, through April 18, 2017, to determine if apple producers in this Commonwealth desired to establish a new program titled the Pennsylvania Apple Program (Program). To pass, the referendum requires both a majority by number of those producers voting as well as a majority by production volume of those producers voting. An impartial Teller Committee met on April 24, 2017, to count the ballots. The following results were submitted by the Teller Committee: a total of 151 eligible votes were cast with 103 producers voting in favor of and 48 voting against the establishment of the Program. One ballot was invalid because it did not contain a vote. Two ballots were invalid because they were not signed. Three ballots were ineligible because they were postmarked and received late. Additionally, eligible producers voting in favor represented 68% of the votes and 78% of production volume. Producers voting against the establishment of the Program represented 32% of the votes and 22% of production volume. In accordance with the foregoing, the Program has been established and will become effective May 27, 2017.

RUSSELL C. REDDING,
Secretary

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional

Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a

hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Public Notice of proposed Consent Order and Agreement 3501 Richmond Street, Philadelphia, PA (formerly the Gryphin Coatings, Inc. Site)

The Department of Environmental Protection ("Department"), under the authority of the Pennsylvania Hazardous Sites Cleanup Act ("HSCA"), 35 P.S. § 6020.1113, has entered into a Consent Order and Agreement with 5627-41 Hegerman Street, LLC ("HSLLC") for cleanup of the property located at 3501 Richmond Street, Philadelphia, PA 19134 ("the Site") and for reimbursement of certain Department response costs incurred to remediate hazardous substances released and threatened to be released at this property.

The Site was the former location of Gryphin Coatings, Inc. and the Gryphin Company ("the Gryphin Companies"), related companies which manufactured industrial paints, coatings, lacquers and varnishes at the Site. In 2008, the Department determined that the Gryphin Companies' caused the release and threatened release of hazardous substances from their operations on the Site.

To abate the release and threatened release of hazardous substances at the Site, the Department secured the Site and characterized on-site surficial hazardous substances abandoned by the Gryphin Companies. The Department's response actions did not include the remediation of soil and groundwater on the Site. Consequently, hazardous substances remain in soil and groundwater on the Site and create conditions which are a threat of pollution to the waters of the Commonwealth.

The Department and HSLLC have negotiated in good faith. These negotiations yielded the parties' execution of a Consent Order and Agreement in which HSLLC agreed to remediate existing on-site contamination to meet an Act 2 cleanup standardⁱ and it also agreed to perform corrective actions to remediate storage tanks on the Site. HSLLC shall reimburse the Department for the government's past response costs in the amount of Seven Thousand Five Hundred Dollars (\$7,500). It is in the public interest for the Department to resolve its potential claims against HSLLC.

This notice is provided pursuant to Section 1113 of HSCA, 35 P.S. § 6020.1113, which states that, "settlement shall become final upon the filing of the Department's response to significant written comments." The Consent Order and Agreement, which contains the specific terms of the agreement is available for public review and comment. The agreement can be examined from 8 a.m. to 4 p.m. at the Department's Southeast Regional Office, located at 2 East Main Street in Norristown, PA by contacting either Richard Staron, P.G. at (484) 250-5780 or Gina M. Thomas, Esquire at (484) 250-5930. Mr. Staron and Ms. Thomas may also be contacted electronically at rstaron@pa.gov and githomas@state.pa.us, respectively. A public comment period on the Consent Order and Agreement will extend for 60 days from today's date.

Persons may submit written comments regarding the agreement within 60 days from today's date, by submitting them to Mr. Staron at the above address.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a

remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

FISH AND BOAT COMMISSION

Additions to List of Class A Wild Trout Waters

The Fish and Boat Commission (Commission) approved the addition of 41 stream sections to its list of Class A Wild Trout Streams as set forth at 47 Pa.B. 1104 (February 18, 2017). Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission’s policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout populations represent the best of this Commonwealth’s naturally reproducing trout fisheries.

Classification of Wild Trout Streams; Additions, Revisions and Removal

The Fish and Boat Commission (Commission) approved the addition of 99 new waters to its list of wild trout streams, the revision of the section limits of 6 waters already on the list and the removal of 1 water on the list as published at 47 Pa.B. 1099 (February 18, 2017). Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Commission to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams. The Commission’s Fisheries Management Division maintains the complete list of wild trout streams and it is available on the Commission’s web site at <http://www.fishandboat.com/Fish/PennsylvaniaFishes/Trout/Pages/TroutWaterClassifications.aspx>.

Classification of Wild Trout Streams; Proposed Additions and Revisions; July 2017

Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Fish and Boat Commission (Commission) to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The Commission's Fisheries Management Division maintains the list of wild trout streams. The Executive Director, with the approval of the Commission, will from time-to-time publish the list of wild trout streams in the *Pennsylvania Bulletin*. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams.

At the next Commission meeting on July 10 and 11, 2017, the Commission will consider changes to its list of wild trout streams. Specifically, the Commission will consider the addition of the following streams or portions of streams to the list:

Proposed Changes to List of Class A Wild Trout Waters; July 2017

The Fish and Boat Commission (Commission) is considering changes to its list of Class A Wild Trout Streams. Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource to conserve that resource and the angling it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries. With rare exceptions, the Commission manages these stream sections solely for the perpetuation of the wild trout fishery with no stocking.

Criteria developed for Class A Wild Trout fisheries are species specific. Wild Trout Biomass Class Criteria include provisions for:

(i) *Wild Brook Trout Fisheries*

(A) Total brook trout biomass of at least 30 kg/ha (26.7 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Brook trout biomass must comprise at least 75% of the total trout biomass.

(ii) *Wild Brown Trout Fisheries*

(A) Total brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Brown trout biomass must comprise at least 75% of the total trout biomass.

(iii) *Mixed Wild Brook and Brown Trout Fisheries*

(A) Combined brook and brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(D) Brook trout biomass must comprise less than 75% of the total trout biomass.

(E) Brown trout biomass must comprise less than 75% of the total trout biomass.

(iv) *Wild Rainbow Trout Fisheries*

Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 2.0 kg/ha (1.78 lbs/acre).

(v) *Mixed Wild Brook and Rainbow Trout Fisheries*

(A) Combined brook and rainbow trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(D) Brook trout biomass shall comprise less than 75% of the total trout biomass.

(E) Rainbow trout biomass shall comprise less than 75% of the total trout biomass.

(vi) *Mixed Wild Brown and Rainbow Trout Fisheries*

(A) Combined brown and rainbow trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(D) Brown trout biomass shall comprise less than 75% of the total trout biomass.

(E) Rainbow trout biomass shall comprise less than 75% of the total trout biomass.

During recent surveys, Commission staff documented the following stream sections to have Class A wild trout populations. The Commission intends to consider adding these waters to its list of Class A Wild Trout Streams at its meeting on July 10 and 11, 2017.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Electric Generation Supplier License Cancellations of Companies with an Expired Financial Security or Insufficient Financial Security Amount

Public Meeting held
April 20, 2017

Commissioners Present: Gladys M. Brown, Chairperson;
Andrew G. Place, Vice Chairperson; John F. Coleman,
Jr.; Robert F. Powelson; David W. Sweet

*Electric Generation Supplier License Cancellations of
Companies with an Expired Financial Security or
Insufficient Financial Security Amount; M-2017-2584781*

Tentative Order

By the Commission:

The Commission's regulations at 52 Pa. Code § 54.40(a) state that an Electric Generation Supplier (EGS) license will not be issued or remain in force until the licensee furnishes a bond or other security approved by the Commission. In addition, 52 Pa. Code § 54.40(d) states that the maintenance of an EGS license is contingent on the licensee providing proof to the Commission that a

bond or other approved security in the amount directed by the Commission has been obtained.

Each EGS must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA 17120 prior to the EGS's current security expiration date. Each financial instrument must be an original document that displays a "wet" signature or digital signature, preferable in blue ink, and displays a "raised seal" or original notary stamp. The name of the principal on the original financial instrument must match exactly with the name that appears on the EGS's license issued by the Commission.

Failure to file before the financial security's expiration date may cause Commission staff to initiate a formal proceeding that may lead to the following: cancellation of each company's electric supplier license, removal of each company's information from the Commission's website and notification to all electric distribution companies, in which each company is licensed to do business, of the cancellation of the license.

As of April 11, 2017, each EGS listed in the Supplier Table below has not provided proof to the Commission that it has a bond or other approved security in the amount directed by the Commission, to replace its expired bond as noted in the table below.

*Taking title to electricity

As part of its EGS license validation procedures, the Commission's Bureau of Technical Utility Services sent a 60-day Security Renewal Notice Letter to each entity in the Supplier Table above stating that original documentation of a bond, or other approved security, must be filed within 30 days prior to each entity's security expiration date. None of the companies listed in the Supplier Table provided the required documentation.

Based on the above facts, we tentatively conclude that the EGSs listed in the Supplier Table are not in compliance with 52 Pa. Code § 54.40(a) and (d) and therefore it is appropriate to initiate the cancellation process for each EGS license of each company listed in the Supplier Table, without the necessity of a formal complaint, as being in the public interest; *Therefore,*

It Is Ordered That:

1. Cancellation of the Electric Generation Supplier Licenses of each company listed in the Supplier Table is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Bureau of Investigation & Enforcement, Department of Revenue—Bureau of Corporation Taxes, all electric distribution companies, all of the Electric Generation Suppliers in the Supplier Table and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment or the filing of an approved security within 30 days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary.

4. Upon entry of the Final Order described in Ordering Paragraph No. 3 above, each company listed in the Supplier Table will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission's website, and notifications be sent to all electric distribution companies in which the Electric Generation Suppliers are licensed to do business.

5. Upon entry of the Final Order described in Ordering Paragraph No. 3, each electric distribution company in which the Electric Generation Suppliers are licensed to do business, shall return the customers of the Electric Generation Suppliers to default service.
