Maximum Lawful Rate of Interest for Residential Mortgages for the Month of June 2017

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of June, 2017, is 5 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further preemption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which such individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the

Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.64 to which was added 2.50 percentage points for a total of 5.14 that by law is rounded off to the nearest quarter at 5 1/4%.

Proposed Exchange of Property

The Department of Conservation and Natural Resources (Department), acting through the Bureau of Forestry, and Joel and Cindy Artz are proposing to negotiate an exchange of property interests in Potter County.

The exchange would involve 0.1 acre going from Joel and Cindy Artz to the Department and 0.1 acre going

from the Department to Joel and Cindy Artz. Joel and Cindy Artz encroached on Commonwealth property when they built their access road, outhouse and camp porch. The property that the Commonwealth is receiving includes road frontage which has the possibility of being used to build a timber sale haul road to access adjacent, existing State forest land. This exchange also eliminates the need to have any structures removed. Joel and Cindy Artz are responsible for any survey and subdivision costs.

As is the policy of the Department, the public is notified of this exchange. A 30-day period for public inquiry or comment, or both, will be in effect beginning May 13, 2017, and ending June 11, 2017. Oral or written comments or questions concerning this proposed exchange may be addressed to Ryan Szuch, Planning Section, Bureau of Forestry, P.O. Box 8552, Harrisburg, PA 17105-8552, (717) 787-2980, rszuch@pa.gov. Oral and written comments will become part of the official document used in the final decision process. Written documents are also available regarding the proposed land exchange by request.

If, in the duration of the 30-day comment period, a significant amount of public concern develops, the Secretary of the Department may schedule a public informational meeting.

Secretary

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
 PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period

for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approval or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection

Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

46-0013F: Clemens Food Group (2700 Clemens Rd., Hatfield, PA 19440-0902) for the replacement of existing control devices at the Rendering Plant with a new venturi scrubber and a packed tower scrubber, as well as to permit the change of the packing material for an existing control device (packed tower scrubber—Source ID: C02) to control particulate matter and odor emissions at their meat processing at their facility in Hatfield Township, **Montgomery County**.

As a result of potential emissions of nitrogen oxides (NO_x), the facility is Title V facility. The facility has a plantwide Federally Enforceable Emission Cap (FEEC) of 74.15 tons per year for NO_x.

In addition, the Plan Approval and Operating Permit will contain recordkeeping requirements and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

28-05002Q: Letterkenny Army Depot—US Department of Defense (One Overcash Avenue, Chambersburg, PA 17201) for the construction of two replacement paint stripping tanks in Building 377 at the Letterkenny Army Depot in Greene/Letterkenny Townships, **Franklin County**. The two paint stripping tanks to be constructed in Building 377 will replace two existing paint stripping tanks in Building 370. Primary emissions from the tanks will be VOC emissions and the proposed project is expected to result in no increase in facility VOC emissions. The facility is a Title V facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on these

findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0;	less than 9.0

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES)

Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Settlement Under the Comprehensive Environmental Response, Compensation and Liability Act and the Hazardous Sites Cleanup act The Boarhead Farms NPL Site, Bridgeton Township, Bucks County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA), 35 P.S. §§ 6020.101—6020.1305, and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C.A §§ 9601—9675, has entered into a Consent Order and Agreement (COA) with the current members of the Boarhead Farms NPL Site Group (Group) regarding the Boarhead Farms NPL Site (Site) to resolve the Group's liability for past Department costs incurred at the Site.

The Site was previously used to illegally dispose of hazardous wastes from the 1960s into the early-1980s. The United States Environmental Protection Agency (USEPA) initially added the Site to the National Priorities List (NPL) on March 31, 1989. Following that, USEPA conducted multiple removal actions to excavate buried drums and clean-up contaminated groundwater. In 1998, EPA issued a Record of Decision (ROD). The Department has participated with USEPA in the oversight of the selected remedy, while a group of responsible parties (RPs) has maintained and implemented USEPA's remedy at the site. The cleanup was divided into two Operable Units (OUs). OU-1 is an on-going long-term groundwater response which includes a ground water extraction and treatment system. The soil and waste removal associated with the OU-2 remedy was completed in 2003. To learn more about the Boarhead Farms NPL Site, please visit <https://cumulis.epa.gov/supercpad/cursites/csitinfo.cfm?id=0300963>.

The Group has agreed to reimburse the Department in the amount of \$95,763.22 to resolve its liabilities for past costs incurred by the Department at the Site. The Department reserves the right to request reimbursement from the Group for future costs associated with the Department's continuing oversight of the long-term remedy implementation on an annual basis.

This notice is provided under section 1113 of HSCA, 35 P.S. § 6020.1113. The agreements may be examined at the Department's offices at 2 East Main Street, Nor-

ristown, PA 19401 by contacting Dustin Armstrong at darmstrong@pa.gov or 484.250.5723 and Robert Schena at roschena@pa.gov or 484.250.5865. The Department will accept public comments for a period of 60 days from the date of publication of this notice. Interested persons may submit written comments regarding this PPA and its amendments by submitting them to Dustin Armstrong at the Department's address as listed above.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101–6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

The proposed project starts at Applicant's existing Greenlee Station in Somerset Township, Washington County (Hackett, PA USGS Topographic Quadrangle N: 40°, 8', 39.0336"; W: -80°, 0', 25.2864"), and ends at Applicant's existing Tepe Meter and Regulation (M&R) Station in Jefferson Hills Borough, Allegheny County (Glassport, PA USGS Topographic Quadrangle N: 40°, 16', 52.4244"; W: -79°, 55', 2.3586").

On October 13, 2016, Applicant filed an application with the Federal Energy Regulatory Commission (FERC), under the prior notice provisions set forth in 18 C.F.R. Section 157.210 and under Applicant's blanket certificate (FERC Docket No. CP96-532-000). The FERC Environmental Assessment for the Project, which was issued on February 17, 2017, may be viewed on FERC's website at www.ferc.gov (search eLibrary; Docket Search; CP17-1-000).

On September 7, 2016, Applicant requested a State water quality certification from the Pennsylvania Department of Environmental Protection (PADEP), as required by Section 401 of the Clean Water Act (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with the requirements of the Clean Water Act.

The Applicant operates and maintains approximately 12.1 miles of an existing 20-inch-diameter, natural gas pipeline, referred to as the H-125 Pipeline, from Applicant's existing Greenlee Station in Somerset Township, Washington County (Hackett, PA USGS Topographic Quadrangle N: 40°, 8', 39.0336"; W: -80°, 0', 25.2864"), to Applicant's existing Tepe Meter and Regulation (M&R) Station in Jefferson Hills Borough, Allegheny County (Glassport, PA USGS Topographic Quadrangle N: 40°, 16', 52.4244"; W: -79°, 55', 2.3586"). The Applicant is proposing to hydrostatically test two (2) sections of the existing, H-125 Pipeline, (approximately 2.72 miles in total), for the purpose of increasing the maximum allowable operating pressure of the line to 546 pounds per square inch gauge (psig) from 328 psig, to allow more flexibility for Equitrans' customers, to better serve the Pittsburgh and surrounding markets. The first segment consists of approximately 0.5 mile (MP 3.7 to MP 4.2), and the second segment consists of approximately 2.12 miles (MP 6.3 to MP 8.4). The Project, as proposed, will also include the removal or replacement of twenty-two (22) existing farm taps in Allegheny County and thirteen (13) existing farm taps in Washington County; installation of one aboveground valve set within the existing graveled facility in Allegheny County; construction of an interconnect to supply gas to Equitrans' existing M-78 pipeline in Washington County; pipe modifications to remove connections between the existing H-125 pipeline and various

foreign pipelines in Washington County due to the increase in pipeline pressure; relocation of three existing meters in Washington County; and the venting of gas and siphoning of air at the Greenlee Station (MP 0), Courtney Gates Station (MP 5.7), Meredith Gates Station (MP 8.4), and Tepe Station (MP 12) in Washington County. The Project, as proposed, will require approximately 19 acres of earth disturbance, and impacts to 42 linear feet of Lobbs Run (WWF) and Dry Run (WWF), 0.46 acre of floodway, 0.04 acre of temporary PEM wetland impacts, and 0.03 acre of PSS permanent impacts.

PADEP is proposing to issue a State water quality certification to Applicant for the Project that will require compliance with the following State water quality permitting programs, criteria and conditions established pursuant to State law to ensure the Project does not violate applicable State water quality standards set forth in 25 Pa. Code Chapter 93:

1. *Discharge Permit*—Applicant shall obtain and comply with a PADEP National Pollutant Discharge Elimination System (NPDES) permit for the discharge of water from the hydrostatic testing of the pipeline pursuant to Pennsylvania's Clean Streams Law (35 P.S. §§ 691.1—691.1001), and all applicable implementing regulations (25 Pa. Code Chapter 92a).

2. *Erosion and Sediment Control Permit*—Applicant shall obtain and comply with PADEP's Chapter 102 Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment issued pursuant to Pennsylvania's Clean Streams Law and Storm Water Management Act (32 P.S. §§ 680.1—680.17), and all applicable implementing regulations (25 Pa. Code Chapter 102).

3. *Water Obstruction and Encroachment Permits*—Applicant shall obtain and comply with a PADEP Chapter 105 Water Obstruction and Encroachment Permits for the construction, operation and maintenance of all water obstructions and encroachments associated with the project pursuant to Pennsylvania's Clean Streams Law, Dam Safety and Encroachments Act (32 P.S. §§ 673.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601.), and all applicable implementing regulations (25 Pa. Code Chapter 105).

4. *Water Quality Monitoring*—PADEP retains the right to specify additional studies or monitoring to ensure that the receiving water quality is not adversely impacted by any operational and construction process that may be employed by Applicant.

5. *Operation*—Applicant shall at all times properly operate and maintain all Project facilities and systems of treatment and control (and related appurtenances) which are installed to achieve compliance with the terms and conditions of this State Water Quality Certification and all required permits, authorizations and approvals. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by Applicant.

6. *Inspection*—The Project, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of PADEP to determine compliance with this State Water Quality Certification, including all required State water quality permits and State water quality standards. A copy of this certification shall be available for inspection by the PADEP during such inspections of the Project.

7. *Transfer of Projects*—If Applicant intends to transfer any legal or equitable interest in the Project which is affected by this State Water Quality Certification, Applicant shall serve a copy of this certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the PADEP Regional Office of such intent. Notice to PADEP shall include a transfer agreement signed by the existing and new owner containing a specific date for transfer of certification responsibility, coverage, and liability between them.

8. *Correspondence*—All correspondence with and submittals to PADEP concerning this State Water Quality Certification shall be addressed to the Department of Environmental Protection, Southwest Regional Office, Attn: Michael Forbeck, Acting Waterways & Wetlands Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222.

9. *Reservation of Rights*—PADEP may suspend or revoke this State Water Quality Certification if it determines that Applicant has not complied with the terms and conditions of this certification. PADEP may require additional measures to achieve compliance with applicable law, subject to Applicant's applicable procedural and substantive rights.

10. *Other Laws*—Nothing in this State Water Quality Certification shall be construed to preclude the institution of any legal action or relieve Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable Federal or State law or regulation.

11. *Severability*—The provisions of this State Water Quality Certification are severable and should any provision of this certification be declared invalid or unenforceable, the remainder of the certification shall not be affected thereby.

Prior to issuance of the final State water quality certification, PADEP will consider all relevant and timely comments, suggestions or objections submitted to PADEP within 30 days of this notice. Comments should be directed to Mr. Michael Forbeck, Acting Waterways & Wetlands Program Manager, at the above address, or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD). Comments must be submitted in writing and contain the name, address and telephone number of the person commenting and a concise statement of comments, objections or suggestions on this proposal. Conditional State Water Quality Certification under Section 401 of the Clean Water Act for the United States Army Corps of Engineers Nationwide Permits

The Department of Environmental Protection (Department) issues, on behalf of the Commonwealth, State Water Quality Certification for the United States Army Corps of Engineers (Corps) reissuance of 50 existing Nationwide permits (NWP) and issuance of 2 new NWPs under section 404 of the Clean Water Act (act) (33 U.S.C.A. § 1344) and section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C.A. § 403) at 82 FR 1860 (January 6, 2017). The final NWPs are listed as follows and are effective for 5 years beginning on March 19, 2017, and expiring on March 18, 2022. On January 18, 2017, the Corps Baltimore District requested State Water Quality Certification (SWQC) on behalf of the Baltimore, Philadelphia and Pittsburgh Districts under section 401 of the act (33 U.S.C.A. § 1341) from the Department for discharges of dredged and fill material into waters of the Commonwealth authorized by the final NWPs.

The Department published a notice at 47 Pa.B. 1233 (February 25, 2017) to accept comments on the proposed SWQC for the Corps NWPs during a 30-day public comment period that concluded on March 27, 2017. No comments were received.

Consistent with section 401 of the act, the Department certifies that activities authorized by the Corps under the final NWPs will comply with the applicable provisions of sections 301—303, 306 and 307 of the act (33 U.S.C.A. §§ 1311—1313, 1316 and 1317), provided the project applicant complies with the following SWQC conditions and constructs, operates and maintains the project in compliance with the terms and conditions of State law permits obtained to meet these SWQC conditions:

1. Prior to beginning any activity authorized by the Corps under a NWP, the applicant shall obtain from the Department all necessary environmental permits or approvals, and submit to the Department environmental assessments and other information necessary to obtain the permits and approvals, as required under State law, including The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), the Surface Mining Conservation

and Reclamation Act (52 P.S. §§ 1396.1—1396.19b), the Noncoal Surface Mining Conservation and Reclamation Act (52 P.S. §§ 3301—3326), The Bituminous Mine Subsidence and Land Conservation Act (52 P.S. §§ 1406.1—1406.21), the Coal Refuse Disposal Control Act (52 P.S. §§ 30.51—30.66), the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003), the Hazardous Sites Cleanup Act (35 P.S. §§ 6020.101—6020.1305), the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908), 58 Pa.C.S. §§ 3201—3274 (related to development) and the regulations promulgated thereunder, including 25 Pa. Code Chapters 77, 78, 78a, 86—91, 92a, 93, 95, 96, 102, 105 and 260a—299.

2. Fill material may not contain any wastes as defined in the Solid Waste Management Act.

3. Applicants and projects eligible for these NWP's must obtain all State permits or approvals, or both, necessary to ensure that the project meets the state's applicable water quality standards, including a project specific SWQC.

The Department has determined that these SWQC conditions are necessary to achieve the Commonwealth's water quality standards, which have been approved by the United States Environmental Protection Agency as compliant with the act. The SWQC conditions achieve these standards through compliance with existing environmental programs administered by the Department under State laws and regulations.

This SWQC is subject to the Department's determination that the final NWP's are consistent with the Coastal Zone Management Act (16 U.S.C.A. §§ 1451—1466).

This SWQC is only available for projects that do not require any Federal authorization other than authorization from the Corps under section 404 of the act or section 10 of the Rivers and Harbors Act of 1899. Applicants seeking authorization for activities not eligible for coverage under the NWP's, or for activities that require another Federal authorization (such as an interstate natural gas pipeline, a gas storage field or a nuclear or hydroelectric project requiring authorization by another Federal agency), must submit a request to the Department for a project-specific SWQC.

Notice of the Corps NWP's published at 82 FR 1860 can be viewed at http://www.usace.army.mil/Portals/2/docs/civilworks/nwp/2017/nwp2017_final_rule_FR_06jan2017.pdf?ver=2017-01-06-092409-457 or copies may be obtained by contacting Amy Elliott, United States Army Corps of Engineers, Baltimore District, State College Field Office, 1631 South Atherton Street, State College, PA 16801 or (814) 235-0570.

- Do you feel the Department is engaged with marginalized communities to ensure that they have a voice in the decision-making process? How can the Department be more engaged with these communities?
- What tools have you used to find out information on the Department permitting/enforcement actions?
- What ways can the Department be more effective at sharing information with the public?
- How can the Department be more effective at receiving public input?
- What resource is your community lacking that the Department can provide that would assist in efforts to ensure environmental equity?
- What additional steps can be taken by the Department to effectively reach out to these vulnerable communities to ensure that their concerns are taken into consideration?

The revised listening session locations are as follows:

DEPARTMENT OF HUMAN SERVICES

Medical Assistance Quality Strategy for Pennsylvania

The Department of Human Services (Department) is making available for public review and comment the Medical Assistance Quality Strategy for Pennsylvania.

Background

The Centers for Medicare and Medicaid Services (CMS) requires states to draft and implement a written quality strategy for assessing and improving the quality of health care and services furnished by managed care organizations that have a contract with the Department (see 42 CFR 438.340 (relating to managed care State quality strategy)). As a result, the Department has developed the Medical Assistance Quality Strategy for Pennsylvania, which discusses the various quality improvement initiatives the Department has implemented to increase the

quality of care for individuals receiving services through its managed care programs. The Medical Assistance Quality Strategy for Pennsylvania is not intended to comprehensively describe all the activities that the Department undertakes to assure the quality of care rendered to individuals who are receiving services through managed care programs.

The Department is required by 42 CFR 438.340(c)(2) to update its managed care quality strategy as needed. The Department has eliminated all references to the Healthy Pennsylvania demonstration from the Medical Assistance Quality Strategy for Pennsylvania because it was terminated on September 30, 2015. In addition, the Department has added quality initiatives for the Children's Health Insurance Program (CHIP) and the Office of Long-Term Living's Community HealthChoices Program to the Medical Assistance Quality Strategy for Pennsylvania.

References in the Medical Assistance Quality Strategy for Pennsylvania are to the prior version of the Medicaid managed care regulations. States are not required to comply with the current regulations on the managed care final rule until July 1, 2018, and will not be held to be out of compliance with the current version of the Medicaid managed care regulations as long as the state is complying with the prior version of the regulations. (See 81 FR 27498, 27499 (May 6, 2016).)

Discussion

The Department's quality strategy will be used to assure that the contractors that are implementing the Department's managed care programs are in compliance with the terms of their agreements with the Department and have committed resources to meet the following: to perform monitoring and ongoing quality improvement; to contribute to the improvement of health for the populations they serve; and to incorporate new programmatic changes to assure that the individuals they serve have timely access to high-quality care.

The Office of Medical Assistance Programs, Bureau of Managed Care Operations' key initiatives are centered around value-based purchasing, and include reducing preventable hospital admissions and readmissions, increasing preventive dental services for children, improving coordination and integration between physical health and behavioral health managed care programs, rewarding managed care organizations and providers through the use of pay for performance programs and encouraging expanded use of community-based care management teams.

The Office of Mental Health and Substance Abuse Services' key quality improvement initiatives include implementation of telepsychiatry services, use of mobile mental health treatment services for individuals who are not mobile, expanding mental health and substance use screening strategies within Person-Centered Medical Homes (PCMH), and establishing PCMH options for individuals with serious mental illness and substance use disorders.

The Office of Long-Term Living will be implementing Community HealthChoices, a Statewide mandatory managed care program. Eligible individuals include: (i) adults that are eligible for Medical Assistance and need long-term services and supports; and (ii) individuals who are dually eligible for Medical Assistance and Medicare. This initiative is intended to improve care coordination, service delivery and quality outcomes for seniors and individuals living with physical disabilities in this Commonwealth.

CHIP will be making changes in its policies and procedures to comply with the CMS Managed Care Final Rule published at 81 FR 27498. These changes will allow CHIP to align more with the procedures and resources of Medical Assistance, while also allowing individuals to easily transition between the CHIP and Medical Assistance Programs.

Finally, key quality initiatives for the Adult Community Autism Program (ACAP) include increasing the number of community-based services available for individuals who receive services through ACAP, improving coordination across multiple systems that provide support for adults with autism and improving the service delivery system to address the diversity of needs of individuals who are diagnosed with autism.

Interested persons are invited to submit comments regarding the Medical Assistance Quality Strategy for Pennsylvania to the Department at RA-PWQualityStrategy@pa.gov. Comments received within 30 days must be reviewed and considered before the Quality Strategy is submitted to CMS for review (see 42 CFR 438.340(c)(1)).

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

ENVIRONMENTAL HEARING BOARD

Merck Sharp & Dohme Corp. v. Department of Environmental Protection; EHB Doc. No. 2015- 011-L Consolidated with EHB Doc. No. 2015- 123-L

The Department of Environmental Protection (Department) and Merck Sharp & Dohme Corp. (Merck) have agreed to a settlement of the previously-referenced matter. In this appeal, Merck challenged certain provisions of NPDES Permit No. PA0053538 (Permit) and an accompanying certified letter issued by the Department to Merck on January 20, 2015. The Permit authorizes Merck to discharge industrial stormwater from Merck’s facility in West Point, Montgomery County.

More specifically, Merck challenged, inter alia, provisions in the Permit requiring Merck to sample for acrylamide and chemical additives, and the removal of authorization for specific nonstormwater discharges. Merck also contested the Department’s handling of a proposed amendment to Merck’s Environmental Emergency Response Plan with respect to spill reporting.

The settlement provides for the Department’s issuance of Amendment No. 2 to the Permit to remove monitoring requirements for acrylamide and chemical additives, to increase monitoring frequency for phosphorus, and to authorize certain nonstormwater discharges. The settlement preserves the parties’ respective positions regarding the interpretation of the spill notification requirements of 25 Pa. Code § 91.33 (relating to incidents causing or threatening pollution). The Department provided public notice of this proposed permitting action at 46 Pa.B. 2562 (May 21, 2016). The Department will provide public notice of the issuance of the final Permit Amendment No. 2 in accordance with 25 Pa. Code § 92a.86 (relating to notice of issuance or final action on a permit).

Copies of the full stipulation of settlement agreement are held by William H. Gelles, Esquire, Supervisory Counsel, Office of Chief Counsel, 2 East Main Street, Norristown, PA 19401, (484) 250-5930; and Kenneth J.

Warren, Esquire, Warren Environmental Counsel, LLC, 975 Mill Road, Millridge Manor House, Suite A, Bryn Mawr, PA 19010, (484) 383-4830.

Copies are also available at the offices of the Environmental Hearing Board (Board) and may be reviewed by any interested person on request during normal business hours. The settlement is also available at the Board's website at <http://ehb.courtapps.com>. Using the Docket Search page, enter case number 2015011 to view the docket sheet for this case.

Pennsylvania Public Utility Commission; Bureau of Investigation and Enforcement v. NXT Generation Trucking, LLC; Docket No. C-2017-2535564

COMPLAINT

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities

within the Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Investigation and Enforcement and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Investigation and Enforcement Prosecutory Staff hereby represents as follows:

1. That NXT Generation Trucking, LLC, Respondent, maintains its principal place of business at 518 Franklin Street, Pittsburgh, PA 15512.

2. That Respondent was issued a certificate of public convenience by this Commission authorizing transportation of property on March 18, 2016, at Application Docket No. A-2016-2534008.

3. That a satisfactory safety fitness rating must be achieved by Respondent in order to maintain a certificate of public convenience to operate as a common carrier of property between points in the Commonwealth of Pennsylvania. PUC Motor Carrier Enforcement Officer Andrew Rosenberger attempted to contact Respondent by telephone and left a voicemail message on two separate occasions for Respondent to return his call to schedule a Safety Fitness Review. Respondent did not contact Officer Rosenberger. On July 6, 2016, a certified letter was sent to Respondent with a request to contact the Pittsburgh office within ten days. The certified letter was returned as undeliverable.

4. That Respondent, by failing to achieve a satisfactory evaluation on their safety fitness review, violated 66 Pa.C.S. § 501(c) and, for failure to maintain adequate, efficient and safe service and facilities, violated 66 Pa.C.S. § 1501. The penalty for this violation is revocation of the Certificate of Public Convenience.

Wherefore, the Bureau of Investigation and Enforcement Prosecutory Staff hereby requests that the Commission revoke the certificate of public convenience at A-2016-2534008.
