### Maximum Lawful Rate of Interest for Residential Mortgages for the Month of September 2017

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of September, 2017, is 5%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further preemption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which

such individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.51 to which was added 2.50 percentage points for a total of 5.12 that by law is rounded off to the nearest quarter at 5%.

**PA0276014**, Pesticides, SIC Code 0782, 7900, **Lake Naomi Club**, Rte 423 PO Box T, Pocono Pines, PA 18350.

Description of Proposed Activity: The application is for a new NPDES permit for a new discharge associated with the application of pesticides in Tobyhanna Township, **Monroe County**.

The receiving stream(s), Upper Tunkhannock Creek, is located in State Water Plan watershed 2-A and is classified for High Quality—Cold Water and Migratory Fish, aquatic life, water supply and recreation. Applicators are required to follow product labeling instructions of pesticides, which may include provisions to reduce application doses and notify public water suppliers in the event applications are conducted near public water supply intakes. The discharges associated with the pesticide applications are not expected to affect public water supplies.

PA DEP has made a tentative determination to issue the NPDES permit subject to the terms and conditions of the permit. An anti-degradation analysis has been completed to document that pesticide application activities in High Quality (HQ) or Exceptional Value (EV) waters will be conducted in a manner that minimizes adverse environmental effects. The proposed permit contains conditions that require implementation of Pest Management Measures, Recordkeeping and Annual Reporting Requirements, Corrective Action Documentation and Reporting, and a Pesticides Discharge Management Plan.

You may make an appointment to review the DEP files on this case by calling the File Review Coordinator at 570-826-5472. You may submit written comments on the application and draft permit within 30 days to the address above. After the 30-day comment period, PA DEP will make a final determination on the issuance of the permit.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

### PREAMBLE 1

---

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

---

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop

and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

#### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit

number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**07-03063A: Sorge Funeral Home, Inc.** (422 North Juniata Street, Hollidaysburg, PA 16648) to install a new human crematory at the facility in the Borough of Hollidaysburg, **Blair County**. Estimated potential emissions are 1.91 ton of carbon monoxide, 2.29 tons of nitrogen oxide, 1.62 ton of particulate matter, 0.72 ton of sulfur dioxide and 0.16 ton of volatile organic compounds. The facility is a State only operating permit facility. The Plan Approval will include emission restrictions, work practice standards along with monitoring, recordkeeping and reporting requirements to ensure the facility complies with the applicable air quality regulations. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12, and 25 Pa. Code § 123.13 for process Particulate

Matter. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval may be incorporated into a State-Only Operating Permit pursuant to the provisions of 25 Pa. Code Chapter 127.

**59-00032B: Niles Valley Energy, LLC** (N. Shore Place I, 358 N. Shore Dr., Ste. 201, Pittsburgh, PA 15212) for the construction of five (5) 6,023 bhp GE Jenbacher model J624 GS-H01, 4 stroke, lean burn, natural gas-fired engine/generator sets, each equipped with both catalytic oxidation and selective catalytic reduction (SCR), at the proposed electric generating station located in Charleston Township, **Tioga County**. The facility will also include one (1) 0.64 MMBtu/hour natural gas-fired natural gas line heater; three (3) storage tanks ranging in size from 2,600 gallons to 6,000 gallons; one (1) desiccant dehydration system; various fugitive emissions. On January 13, 2016, the Department issued Plan Approval 59-00032A for sources at this electric generating station. In that application, three (3) 9,708 bhp Rolls Royce Bergen natural gas-fired engine/generator sets were approved. Plan Approval 59-00032B will authorize Niles Valley Energy, LLC to construct either the GE Jenbacher engines or the Rolls Royce Bergen engines but not both.

The Department of Environmental Protection's (Department) review of the information submitted by Niles Valley Energy, LLC indicates that the air contamination sources to be constructed will comply with all regulatory requirements, including monitoring, recordkeeping, and reporting requirements, and pertaining to air contamination sources and the emission of air contaminants including the National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines, 40 CFR 63.6580—63.6675, the Standards of Performance for Stationary Spark Ignition Internal Combustion Engines, 40 CFR 60.4230—60.4248, the Mandatory Greenhouse Gas Reporting Rule, 40 CFR Part 98, 25 Pa. Code Chapter 123 and the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed construction. The emissions from each proposed engine included in this project will not exceed the following limits: 0.058 g/bhp-hr and 3.37 TPY NO<sub>x</sub>, 0.114 g/bhp-hr and 6.63 TPY CO, 0.037 g/bhp-hr and 2.15 TPY VOCs, 0.0006 lbs/MMBtu and 0.083 TPY SO<sub>x</sub>, 0.024 g/bhp-hr and 1.40 TPY PM<sub>10</sub>/PM<sub>2.5</sub>, 0.009 g/bhp-hr and 0.52 TPY formaldehyde, 10 ppmvd at 15% O<sub>2</sub> ammonia; no visible emissions equal to or greater than 10% for a period or periods aggregating more than three minutes in any 1 hour and equal to or greater than 30% at any time. In addition to the emission limitations, the following is a brief description of the types of conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements: performance testing requirement for all engines to verify compliance with the emissions limitations; establish a facility-wide leak detection and repair (LDAR) program to account for fugitive emissions from high pressure connections; restrict the engines to natural gas firing only; in

addition to performance testing, establish follow-up portable analyzer testing for NO<sub>x</sub> and CO for all engines every 2,500 hours of operation.

The facility is a State Only facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specifications of the application for Plan Approval 59-00032B, the applicant will subsequently apply for a State Only Operating Permit in accordance with 25 Pa. Code Subchapter F. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-0550.

The facility will also include one (1) 0.64 MMBtu/hour natural gas-fired natural gas line heater; three (3) storage tanks ranging in size from 2,600 gallons to 6,000 gallons; one (1) desiccant dehydration system; various fugitive emissions. On January 13, 2016, the Department issued Plan Approval 08-00054A for sources at this electric generating station. In that application, three (3) 9,708 bhp Rolls Royce Bergen natural gas-fired engine/generator sets were approved. Plan Approval 08-00054B will authorize Wolf Run Energy, LLC to construct either the GE Jenbacher engines or the Rolls Royce Bergen engines but not both.

The Department of Environmental Protection's (Department) review of the information submitted by Wolf Run Energy, LLC indicates that the air contamination sources to be constructed will comply with all regulatory requirements, including monitoring, recordkeeping, and reporting requirements, and pertaining to air contamination sources and the emission of air contaminants including the National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines, 40 CFR 63.6580—63.6675, the Standards of Performance for Stationary Spark Ignition Internal Combustion Engines, 40 CFR 60.4230—60.4248, the Mandatory Greenhouse Gas Reporting Rule, 40 CFR Part 98, 25 Pa. Code Chapter 123 and the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. The emissions from each proposed engine included in this project will not exceed the following limits: 0.058 g/bhp-hr and 3.37 TPY NO<sub>x</sub>, 0.114 g/bhp-hr and 6.63 TPY CO, 0.037 g/bhp-hr and 2.15 TPY VOCs, 0.0006 lbs/MMBtu and 0.083 TPY SO<sub>x</sub>, 0.024 g/bhp-hr and 1.40 TPY PM/PM<sub>10</sub>/PM<sub>2.5</sub>, 0.009 g/bhp-hr and 0.52 TPY formaldehyde, 10 ppmvd at 15% O<sub>2</sub> ammonia; no visible emissions equal to or greater than 10% for a period or periods aggregating more than three minutes in any 1 hour and equal to or greater than 30% at any time. In addition to the emission limitations, the following is a brief description of the types of conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements: performance testing requirement for all engines to verify compliance with the emissions limitations; establish a facility-wide leak detection and repair (LDAR) program to account for fugitive emissions from high pressure connec-

tions; restrict the engines to natural gas firing only; in addition to performance testing, establish follow-up portable analyzer testing for NO<sub>x</sub> and CO for all engines every 2,500 hours of operation.

The facility is a State Only facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specifications of the application for Plan Approval 08-00054B, the applicant will subsequently apply for a State Only Operating Permit in accordance with 25 Pa. Code Subchapter F. #### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

#### *Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a

precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

#### *Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

**EROSION AND SEDIMENT CONTROL PERMITS**

The following parties have applied for Erosion and Sediment Control Permits for earth disturbance activities associated with either road maintenance or timber harvesting operations.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department proposes to issue a permit to discharge, subject to certain limitations in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

A person wishing to comment on a proposed permit are invited to submit a statement to the appropriate Department regional office listed before the application within 30 days of this public notice.

Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department regional office during the 30-day public comment period.

Following the 30-day comment period, the appropriate regional office water management program manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board (Board).

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the appropriate regional office.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified regional office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

#### LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

##### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to

achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

### FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sec-

tions 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

**Proposed State Water Quality Certification Required by Section 401 of the Clean Water Act for the Northeast Supply Enhancement Project**

*Southcentral Region: Waterways and Wetlands Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.*

**DEP File No.: WQ03-001. Transcontinental Gas Pipeline, LLC Inc.** (“Transco” or “Applicant”), 2800 Post Oak Boulevard (77056), P.O. Box 1396, Houston, Texas, 77251-1396. Northeast Supply Enhancement Project, Eden, Drumore and East Drumore Townships, **Lancaster County** and East Whiteland Township, **Chester County** (Holtwood, Wakefield and Quarryville, PA Quadrangles, Lat: 39° 51’ 43”; Long: -76° 11’ 58”).

On March 27, 2017, Transco filed an application with the Federal Energy Regulatory Commission (FERC) under Section 7 of the Natural Gas Act (15 U.S.C.A. § 717f) seeking a certificate of public convenience and necessity to construct and operate its Northeast Supply Enhancement Project (FERC Docket No. CP-17-100).

On June 16, 2017, Transco requested a State water quality certification from the Department of Environmental Protection (Department), as required by Section 401 of the Clean Water Act (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Northeast Supply Enhancement Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with the requirements of the Clean Water Act.

The proposed project consists of the installation of approximately 10.17 miles of new 42.0-inch diameter natural gas pipeline which will begin at milepost 1681 on Transco’s existing Mainline pipeline and will cross 11 streams and 11 wetlands. Four permanent access roads, cathodic protection near milepost 1684.21 and the addition of one 21,902 horsepower motor-driven compressor at the existing Compressor Station 200 are also proposed. The pipeline is being proposed to provide 400,000 Dekatherms per day of incremental capacity to National Grid at Transco’s existing Rockaway Delivery Point in Queens Borough, New York.

The proposed Northeast Supply Enhancement Project will require approximately 198 acres of earth disturbance, permanent impacts to 222 linear feet and temporary impacts to 180 linear feet of streams including Wissler Run (HQ-WWF, MF), an unnamed tributary (UNT) to Wissler Run (HQ-CWF, MF), Fishing Creek (HQ-CWF, MF), a UNT to Fishing Creek (HQ-CWF), Conowingo Creek (HQ-CWF, MF), three UNT’s to the Conowingo Creek (HQ-CWF, MF), two UNT’s to Stewart Run (HQ-CWF-MF), a UNT to Bowery Run (HQ-CWF, MF); 0.33 acre of temporary impacts to floodway, 0.37 acre of permanent impacts to floodway; 0.006 acre of temporary impacts to other waterbodies, 0.004 acre of permanent impacts to other waterbodies; 0.49 acre of temporary wetland impacts, and 0.53 acre of permanent wetland impacts that are associated with permanent right-of-way maintenance.

The Department anticipates issuing a State water quality certification to Applicant for the Northeast Supply Enhancement Project that will require compliance with

the following State water quality permitting programs, criteria and conditions established pursuant to State law to ensure the Northeast Supply Enhancement Project does not violate applicable State water quality standards set forth in 25 Pa. Code Chapter 93:

1. *Discharge Permit*—Applicant shall obtain and comply with a Department National Pollutant Discharge Elimination System (NPDES) permit for the discharge of water from the hydrostatic testing of the Northeast Supply Enhancement Project pursuant to Pennsylvania's Clean Streams Law (35 P.S. §§ 691.1—691.1001) and all applicable implementing regulations (25 Pa. Code Chapter 92a) if such discharges are proposed.

2. *Erosion and Sediment Control Permit*—Applicant shall obtain and comply with the Department's Chapter 102 Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment issued pursuant to Pennsylvania's Clean Streams Law and Storm Water Management Act (32 P.S. §§ 680.1—680.17), and all applicable implementing regulations (25 Pa. Code Chapter 102).

3. *Water Obstruction and Encroachment Permits*—Applicant shall obtain and comply with a Department Chapter 105 Water Obstruction and Encroachment Permits for the construction, operation and maintenance of all water obstructions and encroachments associated with the Northeast Supply Enhancement Project pursuant to Pennsylvania's Clean Streams Law, Dam Safety and Encroachments Act (32 P.S. §§ 673.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601) and all applicable implementing regulations (25 Pa. Code Chapter 105).

4. *Submerged Lands License Agreement*—Applicant shall obtain and comply with a Pennsylvania Submerged Lands License Agreement, pursuant to the Pennsylvania Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.28) and all applicable implementing regulations (25 Pa. Code Chapter 105).

5. *Susquehanna River Basin Commission*—Applicant shall obtain and comply with any and all Susquehanna River Basin Commission's (SRBC) approvals that may be granted for the Northeast Supply Enhancement Project.

authorized representative thereof, during such inspections of the Northeast Supply Enhancement Project.

9. *Transfer of Projects*—If Applicant intends to transfer any legal or equitable interest in the Northeast Supply Enhancement Project which is affected by this State Water Quality Certification, Applicant shall serve a copy of this certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the Department Regional Office of such intent. Notice to the Department shall include a transfer agreement signed by the existing and new owner containing a specific date for transfer of certification responsibility, coverage, and liability between them.

10. *Correspondence*—All correspondence with and submittals to the Department concerning this State Water Quality Certification shall be addressed to: Department of Environmental Protection, Southcentral Regional Office, Program Manager, Waterways and Wetlands, 909 Elmerton Avenue, Harrisburg, PA 17110.

The Department may require additional measures to achieve compliance with applicable law, subject to Applicant's applicable procedural and substantive rights.

12. *Other Laws*—Nothing in this State Water Quality Certification shall be construed to preclude the institution of any legal action or relieve Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable Federal or State law or regulation.

13. *Severability*—The provisions of this State Water Quality Certification are severable and should any provision of this certification be declared invalid or unenforceable, the remainder of the certification shall not be affected thereby.

Prior to issuance of the final State water quality certification, the Department will consider all relevant and timely comments, suggestions or objections submitted to the Department within 30 days of this notice. Written comments should be submitted by email to EP, WW-SCRO@pa.gov or by mail at the above address or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) and should be directed to Program Manager, Waterways and Wetlands Program. No comments submitted by facsimile will be accepted.

**Proposed State Water Quality Certification  
Required by Section 401 of the Clean Water Act for  
the Equitrans, L.P. H-150 Bare Pipe Replacement  
Project**

*Southwest Region: Waterways & Wetlands Program, 400  
Waterfront Drive, Pittsburgh, PA 15222, Dana Drake,  
412-442-4000.*

**WQ05-015, Equitrans, L.P.** (Applicant), 625 Liberty Avenue, Suite 1700, Pittsburgh, PA 15222-3114. H-150 Bare Pipe Replacement Project (Project), in Center and Franklin Townships, **Greene County**, in the ACOE Pittsburgh District. The Project starts approximately 0.5 mile southeast of Rogersville, PA, Center Township, Greene County (Rogersville, PA Quadrangle Latitude: 39.877139'; Longitude: -80.267023') and ends at the Orn-

dorff Interconnect, approximately 0.1 mile south of the intersection of Smith Creek Road and Kirby Road, Franklin Township, Greene County (Oak Forest, PA Quadrangle Latitude: 39.828867'; Longitude: -80.206432').

On January 30, 1988, Equitrans, L.P. received an Order Issuing Certificate from the Federal Energy Regulatory Commission (FERC) authorizing Equitrans to abandon, construct and operate certain facilities as part of the H-150 Pipeline Project in Greene County, Pennsylvania (FERC Docket No. CP89-676). The activities described in this request are covered under Equitrans' automatic blanket certificate authority and reported on yearly.

On July 13, 2017, Applicant requested a State water quality certification from the Department, as required by Section 401 of the Clean Water Act (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with the requirements of the Clean Water Act.

To allow for the modernization of the H-150 pipeline for integrity assessment through the use of in-line inspection, Equitrans proposes to replace approximately 5 miles of 12-inch diameter bare natural gas pipe with coated, 12-inch diameter natural gas pipe within the existing right-of-way. The Project is part of Equitrans' compliance program and is required to maintain the integrity of the operating system. The use of lift and lay construction for this project means that the replacement pipeline will be located in the same trench as the existing line. The existing 12-inch pipeline will be taken out of service, purged, and removed. The new pipeline will utilize the same permanent right-of-way as the existing line during construction; there are no deviations anticipated. This Project includes one cathodic protection ground bed that will be installed along the proposed pipeline. The project will utilize traditional open cut or conventional bore construction techniques for all twenty-three stream and wetland crossing locations. The twenty-three stream and wetland crossings occur within the following receiving waters: South Fork Tenmile Creek, Woods Run, Pursley Creek, Stewart Run, Smith Creek.

There are eight temporary access roads planned for the Project. Four of the proposed temporary access roads will utilize existing unpaved roads or driveways; one will require an extension. The remaining four proposed temporary access roads will be constructed to support this project and returned to preexisting conditions upon completion. The pipeline will be installed using a typical 100-foot wide limit of disturbance (LOD) for pipeline construction with areas of temporary work space adjacent to the LOD, and a typical 40-foot LOD for the access roads to allow access to the pipeline corridor. The construction ROW will be reduced to a 50-foot-width at streams and wetlands. The permanent ROW width will be 50 feet centered on the pipeline. There is no anticipated permanent increase in impervious area or in stormwater runoff due to the construction of the pipeline.

The Project, as proposed, includes the replacement of an approximately 5 mile long section of 12-inch pipeline for the purpose of transporting natural gas from a compressor station, located approximately 0.5 mile southeast of Rogersville, PA, Center Township, Greene County to the Orndorff Interconnect, approximately 0.1 mile south of the intersection of Smith Creek Road and Kirby Road, Franklin Township, Greene County. The Project, as proposed, will require approximately 72 acres of earth disturbance, and impacts to 520 linear feet of Unnamed

Tributaries of South Fork of Ten Mile Creek (HQ-WWF), Unnamed Tributaries to Woods Run (HQ-WWF), Woods Run (HQ-WWF), Pursley Creek (HQ-WWF), Unnamed Tributary of Pursley Creek (HQ-WWF), and Unnamed Tributary of Stewart Run (HQ-WWF), 1.33 acre of floodway, 2.01 acres of temporary PEM wetland impacts, and 0.04 acre of PEM permanent impacts.

The Department is proposing to issue a State water quality certification to Applicant for the Project that will require compliance with the following State water quality permitting programs, criteria and conditions established pursuant to State law to ensure the Project does not violate applicable State water quality standards set forth in 25 Pa. Code Chapter 93:

1. *Discharge Permit*—Applicant shall obtain and comply with a Department National Pollutant Discharge Elimination System (NPDES) permit for the discharge of water from the hydrostatic testing of the pipeline pursuant to Pennsylvania's Clean Streams Law (35 P.S. §§ 691.1—691.1001), and all applicable implementing regulations (25 Pa. Code Chapter 92a).

2. *Erosion and Sediment Control Permit*—Applicant shall obtain and comply with the Department's Chapter 102 Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment issued pursuant to Pennsylvania's Clean Streams Law and Storm Water Management Act (32 P.S. §§ 680.1—680.17), and all applicable implementing regulations (25 Pa. Code Chapter 102).

3. *Water Obstruction and Encroachment Permits*—Applicant shall obtain and comply with a Department Chapter 105 Water Obstruction and Encroachment Permits for the construction, operation and maintenance of all water obstructions and encroachments associated with the project pursuant to Pennsylvania's Clean Streams Law, Dam Safety and Encroachments Act (32 P.S. §§ 673.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601.), and all applicable implementing regulations (25 Pa. Code Chapter 105).

4. *Water Quality Monitoring*—The Department retains the right to specify additional studies or monitoring to ensure that the receiving water quality is not adversely impacted by any operational and construction process that may be employed by Applicant.

5. *Operation*—Applicant shall at all times properly operate and maintain all Project facilities and systems of treatment and control (and related appurtenances) which are installed to achieve compliance with the terms and conditions of this State Water Quality Certification and all required permits, authorizations and approvals. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by Applicant.

6. *Inspection*—The Project, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of the Department to determine compliance with this State Water Quality Certification, including all required State water quality permits and State water quality standards. A copy of this certification shall be available for inspection by the Department during such inspections of the Project.

7. *Transfer of Projects*—If Applicant intends to transfer any legal or equitable interest in the Project which is affected by this State Water Quality Certification, Appli-

cant shall serve a copy of this certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the Department Regional Office of such intent. Notice to the Department shall include a transfer agreement signed by the existing and new owner containing a specific date for transfer of certification responsibility, coverage, and liability between them.

8. *Correspondence*—All correspondence with and submittals to the Department concerning this State Water Quality Certification shall be addressed to the Department of Environmental Protection, Southwest Regional Office, Dana Drake, Program Manager, Waterways & Wetlands Program, 400 Waterfront Drive, Pittsburgh, PA 15222.

9. *Reservation of Rights*—The Department may suspend or revoke this State Water Quality Certification if it determines that Applicant has not complied with the terms and conditions of this certification. The Department may require additional measures to achieve compliance with applicable law, subject to Applicant's applicable procedural and substantive rights.

10. *Other Laws*—Nothing in this State Water Quality Certification shall be construed to preclude the institution of any legal action or relieve Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable Federal or State law or regulation.

11. *Severability*—The provisions of this State Water Quality Certification are severable and should any provision of this certification be declared invalid or unenforceable, the remainder of the certification shall not be affected thereby.

Prior to issuance of the final State water quality certification, the Department will consider all relevant and timely comments, suggestions or objections submitted to the Department within 30 days of this notice. Comments should be directed to Dana Drake, Waterways and Wetlands Program Manager at the above address or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD). Comments must be submitted in writing and contain the name, address and telephone number of the person commenting and a concise statement of comments, objections or suggestions on this proposal. ### Proposed Fee Schedule Rates and Department-Established Fees for Consolidated and Person/Family Directed Support Waivers Services, Targeted Service Management and the Community Intellectual Disability Base-Funded Program

The purpose of this notice is to announce the Department of Human Services (Department) proposed Fee Schedule Rates for Targeted Service Management and select services funded through the Consolidated and Person/Family Directed Support (P/FDS) waivers and Department-established fees for residential ineligible services effective July 1, 2017, as well as new services the Department will be placing on the Medical Assistance (MA) program fee schedule beginning January 1, 2018, and services that will no longer be available effective January 1, 2018.

The proposed Fee Schedule Rates in this notice also serve as the Department-established fees under 55 Pa. Code § 4300.115(a) (relating to Department established fees) for base-funded services managed through county programs for individuals with an intellectual disability under the Mental Health and Intellectual Disability Act of 1966 (50 P.S. §§ 4104—4704), 55 Pa. Code Chapter 4300 (relating to county mental health and intellectual disability fiscal manual) and 55 Pa. Code Chapter 51 (relating to Office of Developmental Programs home and community-based services).

#### *Fee Schedule Rates*

The Fee Schedule Rates are developed using a market-based approach. This process includes a review of the service definitions and a determination of allowable cost components which reflect costs that are reasonable, necessary and related to the delivery of the service, as defined in the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (OMB Circular Uniform Guidance, December 26, 2014). The Department establishes the Fee Schedule Rates to fund services at a level sufficient to ensure access and encourage provider participation, while at the same time ensuring cost effectiveness and fiscal accountability. The Fee Schedule Rates represent the maximum rates that the Department will pay for each service. In developing the proposed Fee Schedule Rates for each service, the following occurs:

The Department evaluates and uses various independent data sources such as a Pennsylvania-specific compensation study and expense data from prior approved cost reports, as applicable, to ensure the rates reflect the expected expenses for the delivery of services under the waivers for the major allowable cost categories listed as follows:

- The support needs of the individual.
- Staff wages.
- Staff-related expenses.
- Productivity.
- Occupancy.
- Program expenses and administration-related expenses.
- A review of approved service definitions in the waivers and determinations made about allowable cost components that reflect expenses necessary and related to the delivery of each service.

- A review of the cost of implementing Federal, State and local statutes, regulations and ordinances.

One Fee Schedule Rate is developed for each service, and the Fee Schedule Rates are identified under the following categories: Community-Based Services; Agency with Choice/Financial Management Services (AWC/FMS), including benefit allowance and excluding benefit allowance; and licensed and unlicensed Residential Habilitation and Life Sharing.

Effective July 1, 2017, Community-Based Services include behavioral support, companion, in-home and community supports, homemaker/chore, therapy (physical, occupational, speech and language, and orientation, mobility and vision), shift nursing, older adult daily living centers, residential enhanced staffing (supplemental habilitation and additional individualized staffing), supported employment, supports broker, supports coordination, targeted services management, small group employment, supported living, advanced supported employment, community participation support, music therapy, art therapy, equine assisted therapy, benefits counseling, communication specialist, consultative nutritional services, housing transition and tenancy sustaining, family caregiver support counseling (excluding training registration and fees) and all waiver-funded respite care services, excluding respite camp. The Office of Developmental Programs (ODP) reimburses the training and registration fees associated with the family/caregiver support counseling service and respite camp services as outcome-based services. The amount of reimbursement for an outcome-based service is based on the cost charged to the general public for the good or service.

Effective January 1, 2018, rates for the following services, which were being reimbursed using a cost-based methodology, will transition to the MA program fee schedule: the eligible fees for unlicensed and licensed residential habilitation and life sharing. Effective January 1, 2018, additional individualized staffing will no longer be an available service.

AWC/FMS (including and excluding benefit allowance) include agency with choice administration, in-home and community support, companion services, in-home respite and unlicensed out-of-home respite, supported employment, supports broker and homemaker/chore services. There are two separate tables for AWC/FMS; one provides the Fee Schedule Rate including a benefit allowance and the other provides the Fee Schedule Rate excluding a benefit allowance. The benefit allowance is provided as an option to include consideration for benefits such as disability insurance, life insurance, retirement savings and paid time off.

The ODP will be using the proposed Fee Schedule Rates to support claims processing in the Provider Reimbursement and Operations Management Information System in electronic format (PROMISE™). A notice will be published announcing the final Fee Schedule Rates after the public comment period.

#### *Enhanced Communication Services*

Effective July 1, 2017, the Enhanced Communication Services modifier, U1, is available for the following Consolidated and P/FDS Waiver fee schedule services: behavioral support, companion, in-home and community supports, therapy (physical, occupational, speech and language, and orientation, mobility and vision), shift nursing, older adult daily living centers, residential enhanced staffing (supplemental habilitation and additional individualized staffing), supported employment, supports broker, supports coordination, targeted service management, small group employment, supported living, advanced supported employment, community participation support, music therapy, art therapy, equine assisted therapy, benefits counseling, communication specialist, consultative nutritional services, housing transition and tenancy sustaining, family caregiver support counseling (excluding training registration and fees) and all waiver-funded respite care services, excluding respite camp. Effective January 1, 2018, the Enhanced Communication Services modifier will also be available for life sharing and residential habilitation services when provided through the Consolidated Waiver.

The modifier U1 is utilized with the appropriate procedure code to allow providers, who are approved by the Department, to receive the Enhanced Communication Services Rate.

Enhanced Communication Services can be provided to individuals who meet all of the following:

- Enrolled in the Consolidated or P/FDS Waiver.
- Deaf.
- Determined to need services that are provided by staff who are proficient in sign language.

Providers who wish to receive the Enhanced Communication Services rate must be approved to do so by the Department. Requests for enhanced rates should be directed to the Deaf Services Coordinator at RA-ODPDeaf Services@pa.gov.

#### *Department-Established Fees*

The Department-established fees, residential habilitation ineligible fees, effective July 1, 2017, represent a per-person, per-day net fee based on the size of the home (such as a one-individual home or two-individual home) and type of home (defined as licensed or unlicensed residential habilitation). Effective January 1, 2018, the residential habilitation ineligible procedure codes will change, but the rates will remain the same.

Department-established fees were not developed for the waiver-funded life sharing and supported living services. The fee does not include consideration for room and board payment by the participant, as it is the provider's responsibility to collect that portion of payment from the participant.

The ODP will be using the proposed Department-established fees to support claims processing in PROMISE™. A notice will be published announcing the final Department-established fees after the public comment period.

### **Rate-Setting Methodology for Consolidated and Person/Family Directed Support Waiver-Funded and Base-Funded Services for Individuals Participating in the Office of Developmental Programs Service System**

The purpose of this notice is to announce the proposed payment methodology used to develop rates, effective July 1, 2017, for residential habilitation eligible, life sharing eligible and transportation trip services funded through the Consolidated and Person/Family Directed Support (P/FDS) waivers and for the same service that is provided with base funding in a waiver-funded service location.

#### *Rate-Setting Methodology for Residential Eligible and Transportation (per Trip) Services*

Rates for the following services delivered between July 1, 2017, and December 31, 2017, were developed utilizing a standardized cost-based methodology: Unlicensed Resi-

dential Habilitation in Community Homes; Licensed Residential Habilitation in Community Homes; Child Residential Services; Community Residential Rehabilitation Services; Unlicensed Life Sharing; and Licensed Life Sharing.

Rates for Transportation (per trip) services delivered on or after July 1, 2017, were also developed utilizing a standardized cost-based methodology. Transportation (per trip) providers are both private and local government agency providers.

Effective January 1, 2018, the rates for residential habilitation eligible and life sharing eligible services will be on the Medical Assistance (MA) fee schedule. Also effective January 1, 2018, Transportation (per trip) will be the only service remaining that utilizes the cost-based methodology.

The cost-based methodology requires providers to use a standardized cost report and follow instructions provided by the Department of Human Services (Department). Cost reports undergo a desk review in which the reported data is analyzed by the Department or its designee for completeness and accuracy based on cost report instructions and standardized review procedures. The Department uses only costs allowable for Federal financial participation from the cost report to develop the eligible rates.

Cost report data is adjusted to reflect changes in the service definitions, if necessary, to account for differences in service definitions between the historical reporting period and the period in which the rates will be in effect.

The proposed rates for the residential habilitation eligible and life sharing eligible services effective July 1, 2017, to December 31, 2017, were developed from expenses reported in the approved Year 9 cost reports (based on the Fiscal Year (FY) 2015-2016 Historical Expense Period) and authorizations included in the Home and Community Services Information System (HCSIS) as of December 31, 2016.

The residential habilitation eligible and life sharing eligible rates are subject to the adjustments described as follows, and are assigned at the Master Provider Index (MPI)—Service Location Code—Procedure Code/Modifier level based on the methodology outlined as follows.

#### *Residential Outlier Review Process*

The "total unit cost" for a provider and service is defined as the total expenses reported in the approved cost report for that provider and service divided by the total authorized units for that provider and service, including any applicable utilization adjustments. The total expenses are equal to Schedule A, Line 18 of the cost report. The total authorized units are equal to Schedule A, Line 19 (HCSIS Units Authorized) of the cost report, including any applicable utilization adjustments based on a review of the available HCSIS and Provider Reimbursement and Operations Management Information System (PROMISe) data, where available.

For all providers, the Department identified and adjusted for outliers at the total unit cost level for each of the providers' residential habilitation eligible and life sharing eligible services submitted in the Year 9 approved cost reports, as applicable. For all residential habilitation eligible and life sharing eligible services with 20 or more unique unit costs (unit costs by provider and service from separate, approved Year 9 cost reports), the Department applied the following process for each service:

- The average and standard deviation values were calculated, excluding extreme outliers, based on the total unit costs for all providers from the Year 9 cost report data.

- Total unit costs that were greater than the average plus one standard deviation or that were less than the average minus two standard deviations were flagged as outliers.

- Total unit costs that were flagged as outliers underwent a review, as described as follows.

#### *Total Unit Cost Review*

For all providers of residential habilitation and life sharing services, the Department performed a standardized review of all total unit cost outliers to ensure consistency across this Commonwealth. The review consisted of an evaluation of the Individual Support Plans (ISP) for waiver participants receiving services at the service locations impacted by the outlier unit cost. The review allowed the Department to determine whether the outlier unit cost was justified (such as an individual with complex needs) and the following was applied:

Total unit cost outliers that were supported by the ISP reviews were not adjusted.

Total unit cost outliers that were greater than the average unit cost plus one standard deviation and were not supported by the ISP reviews were adjusted to the maximum unit cost from an approved Year 9 cost report below the average plus one standard deviation for that service.

Total unit cost outliers that were less than the average minus two standard deviations and that were not supported by the ISP reviews were adjusted to the minimum unit cost from an approved Year 9 cost report above the average minus two standard deviations for that service.

For all residential habilitation eligible and life sharing eligible services with fewer than 20 unique unit costs, the Department did not perform the standardized outlier review on the total unit costs since there were not enough data points available to produce statistically valid ranges. However, the Department did perform a review of the unit costs for these services in an effort to standardize payment rates across services. The review consisted of a comparison of the following:

- Other unit costs for that service, as applicable.
- The average unit cost and range of unit costs for similar services with 20 or more unit costs.
- The FY 2016-2017 Statewide average unit cost for that service based on FY 2016-2017 approved cost report data and any utilization adjustment made.

If a unit cost appeared unreasonably high or low based on this review, the Department reviewed the ISP for the individual receiving services at the service location impacted by the high/low unit cost to determine if the unit cost was justified. Based on these reviews, no adjustments were made.

#### *Retention Factor*

For the period July 1, 2017, through December 31, 2017, the Department will allow for a retention factor. The retention factor is a percentage addition to the provider's calculated FY 2017-2018 cost-based residential habilitation eligible and life sharing eligible rates. The retention factor can be up to a maximum of 2% of the difference between FY 2017-2018 unit cost and FY 2016-2017 unit costs, if the total unit cost for a service

decreased from the provider's FY 2016-2017 unit cost. The application of the retention factor cannot cause the provider's FY 2017-2018 rate to exceed the provider's prior year's PROMISE paid rate.

#### *Vacancy Factor*

An adjusted vacancy factor was incorporated into the FY 2016-2017 proposed rates to recognize that residential habilitation and life sharing providers may not deliver services at full capacity. The vacancy factor adjusts the full capacity rate to account for days when the residential habilitation or life sharing provider cannot bill due to a participant not receiving services. The provider cannot bill for days when a participant is not receiving services, but rather is paid a higher rate for days when the participant is receiving services.

After the unit costs for each residential habilitation eligible and life sharing eligible service were adjusted through the outlier review process a vacancy factor of 96% was applied to provider's payment rates to reflect payment to providers for an average number of vacant days. For example, a unit cost of \$100 (after the outlier review) would be adjusted to a unit cost of \$104.17 ( $\$100/0.96$ ) after the vacancy factor was applied.

#### *Enhanced Communication Services*

The Enhanced Communication Services modifier, U1, is available for residential habilitation eligible and life sharing eligible services. Enhanced Communication Services can be provided to individuals who meet all of the following:

- Enrolled in the Consolidated or P/FDS Waiver.
- Deaf.
- Determined to need services that are provided by staff who are proficient in sign language.

Providers who wish to receive the Enhanced Communication Services Rate must be approved to do so by the Department. Requests for enhanced rates should be directed to the Deaf Services Coordinator at RA-ODPDeafServices@pa.gov.

#### *Transportation Trip Services*

The FY 2017-2018 proposed rates for transportation trip services were developed from expenses and utilization data reported in approved Year 9 transportation cost reports that are based on the FY 2015-2016 historical expense period, when the procedure codes submitted by providers are the same as those entered in the services and supports directory. The FY 2017-2018 transportation trip proposed rates will be effective for services delivered July 1, 2017, through June 30, 2018, are subject to the adjustments described as follows, and are assigned at the MPI—Service Location Code—Procedure Code/Modifier level based on the methodology outlined as follows.

#### *Transportation Trip Outlier Review Process*

The "total unit cost" for a provider and transportation trip service is defined as total expenses reported in the approved transportation cost report for that provider and service divided by the total utilization reported in the approved transportation cost report for that provider and service. The total expenses are equal to Schedule A, Line 12 (total net expenses). The total utilization is equal to Schedule A, Line 13. These proposed rates reflect consideration for trips with and without aides (as reported by the provider), which means each provider will be paid one payment rate for each trip service (that is, there will not be separate rates for trips with an aide versus without an aide).

The Department reviewed the development of each transportation trip unit cost submitted in approved transportation cost reports for accuracy, reasonableness, and to ensure compliance with the Department's allowable cost policies. To support the Department's efforts to continue to standardize rates for similar services, the Department performed a more detailed review of unit costs that were at the upper or lower end of the range of unit costs for each transportation trip service.

#### *Cost of Living Adjustment (COLA)*

After the unit costs for each residential habilitation eligible, life sharing eligible and transportation trip service were adjusted as previously described, a total COLA of 0.00% was applied to establish each provider's proposed rates for FY 2017-2018.

#### *Rate Assignment Process*

For the FY 2017-2018 residential habilitation eligible, life sharing eligible and transportation trip services, the Department assigned proposed payment rates to providers with approved Year 9 cost reports and Year 9 transportation cost reports using the following methodology:

The provider's cost-based payment rate for existing services and service locations submitted in the cost reports, based on the methodology previously described.

The average of the provider's cost-based payment rates for an existing service at a new service location if the provider submitted cost report data for that service at other service locations.

The average payment rate calculated based on all approved cost reports for a new service for which the provider did not deliver at any service location in FY 2015-2016.

The Department assigned payment rates to existing providers who do not have approved Year 9 cost reports based on the following methodology:

The lowest payment rates calculated based on all approved cost reports for providers using the methodology previously described for an existing service which the provider delivered at any service location in FY 2015-2016.

The average payment rate calculated based on all approved cost reports for providers using the methodology previously described for a new service which the provider did not deliver at any service location in FY 2015-2016.

The Department assigned to new providers who did not provide any services in FY 2015-2016 the average payment rate calculated based on all approved cost reports for providers using the methodology previously described.

The proposed payment rates should be used to process claims submitted to PROMISE in electronic format for services provided. A notice will be published announcing the final rates after the public comment period.

#### *Fiscal Impact*

## Regulatory Agenda

Executive Order 1996-1 requires all agencies under the jurisdiction of the Governor to submit for publication semi-annually an agenda of regulations under development or consideration.

The agendas are compiled to provide members of the regulated community advanced notice of regulatory activity. It is the intention of the Administration that these agendas will serve to increase public participation in the regulatory process.

Agency contacts should be contacted for more information regarding the regulation and the procedure for submitting comments.

This Agenda represents the Administration's present intentions regarding future regulations. The nature and complexity of an individual regulation obviously will determine whether and when any particular regulation listed (as well as any considered subsequent to publication of this Agenda) is published.

DEP staff conducted an independent review of the trout biomass data in the PFBC's fisheries management reports for streams throughout the Commonwealth to ensure that the HQ criteria were met. 		Chapter 92a updated the fee schedule for NPDES permit applications for persons to discharge pollutants from point sources into surface waters. ### Petition of Budget Prepay, Inc., d/b/a Budget Mobile to relinquish its Designation as an Eligible Telecommunications Carrier

Public Meeting held  
August 3, 2017

*Commissioners Present:* Gladys M. Brown, Chairperson; Andrew G. Place, Vice Chairperson; Robert F. Powelson; David W. Sweet; John F. Coleman, Jr.

*Petition of Budget Prepay, Inc., d/b/a Budget Mobile to relinquish its Designation as an Eligible Telecommunications Carrier; P-2017-2603666*

#### Order

*By the Commission:*

On May 10, 2017, Budget Prepay, Inc., d/b/a Budget Mobile (Budget Prepay) filed a Petition to relinquish its designation as an Eligible Telecommunications Carrier (ETC) in the Commonwealth of Pennsylvania. On June 14, 2017, pursuant to 52 Pa. Code § 1.36, Budget Prepay filed the verification of its President. Budget Prepay's certificates of service indicate that it served its Petition

and verification on the statutory advocates and the current ETCs that provide service in Budget Prepay's service area. No responses were filed to Budget Prepay's Petition.

#### Background

Budget Prepay is a wireless carrier designated as an ETC throughout the Commonwealth by Commission order entered June 21, 2012, at Docket No. P-2011-2269524.

Budget Prepay seeks to relinquish its Lifeline-only ETC designation in Pennsylvania due to changes in the wireless industry and proposed modifications to the Lifeline program. Budget Prepay states that relinquishment of its ETC designation will not affect the amount of federal Lifeline support available to the other ETCs providing Lifeline service in Pennsylvania.

Section 214(e)(4) of the Telecommunications Act of 1996 (TA 96), as amended, 47 U.S.C. § 214(e)(4), authorized the Commission to rescind a carrier's ETC status upon request and provides in pertinent part:

A state commission... shall permit an eligible telecommunications carrier to relinquish its designation as such a carrier in any area served by more than one eligible telecommunications carrier. An eligible Telecommunications carrier that seeks to relinquish its eligible designation for an area served by more than one eligible telecommunications carrier shall give advanced notice to the State commission... of such relinquishment. Prior to permitting a telecommunications carrier designated as an eligible telecommunications carrier to cease providing universal service in an area served by more than one eligible telecommunications carrier, the State commission... shall require the remaining eligible telecommunications or carriers to ensure that all customers served by the relinquishing carrier will continue to be served, and shall require sufficient notice to permit the purchase or construction of adequate facilities by any remaining eligible telecommunications carrier.

In a Secretarial Letter issued September 3, 2013, the Commission reaffirmed the rules and requirements for relinquishment under TA96 and provided further guidance and directives to Pennsylvania ETCs seeking to relinquish ETC status. In addition to the relinquishment requirements listed in TA96 the Commission requires the following:

(1) All Petitions to relinquish ETC status must be accompanied by an affidavit or verification of an authorized individual.

(2) The Petition must be served upon the statutory advocates and all carriers referenced in the petition as alternative ETCs.

(3) Notice must be provided to all affected Lifeline customers as follows:

(a) Written notice 90 days prior to discontinuance of Lifeline service in the form of a stand-alone mailing separate from any billing or collections mailing.

(b) Telephone notice 60 days prior to discontinuance of Lifeline service.

(c) Written notice 30 days prior to discontinuance of Lifeline service in the form of a billing insert or stand-alone mailing.

(4) The notices should inform the affected customers of the date certain that Lifeline service will end, list alternative Lifeline providers and offer assistance to those customers who wish to retain Lifeline service.

(5) Petitioners are directed to ensure that the transition to another Lifeline provider is seamless for the Lifeline customer and ensure that the customer is not subject to additional connection fees or deposits. Also, the Petitioner is to assist the Lifeline customer with any Lifeline certification requirements occasioned by the petition.

#### *Discussion*

In its Petition, Budget Prepay states that more than one ETC currently serves in its designated service area. A list of the wire centers impacted by its relinquishment is attached to its Petition as Exhibit A. Budget Prepay does not believe that any of the remaining ETCs will be required to purchase or construct facilities to provide service to Budget Prepay's Lifeline customers. Budget Prepay notes that it is taking steps to mitigate the impact of relinquishment on its current Lifeline customers and will ensure that these customers receive the required notice of the change in their Lifeline service.

Budget Prepay avers that it is in compliance with the advanced notice requirements. In its Petition, Budget Prepay listed the schedule of dates it would comply with the notice requirements. And, in its supplemental response Budget Prepay confirmed that it is adhering to that proposed schedule. Budget Prepay stated that on May 12, 2017, it sent its first written notice to its Lifeline customers alerting them that it would be discontinuing providing Lifeline service, in accordance with the 90-day prior notice requirement. Attached to the Petition as Exhibit B. Budget Prepay subsequently sent text message notices to its customers on June 9, 2017, in compliance with the 60-day prior notice requirement. Budget Prepay is scheduled to provide a second written notice letter to its remaining Lifeline subscribers in Pennsylvania no later than July 11, 2017, in compliance with the Commission's 30-day written prior notice requirement. Attached to the Petition as Exhibit C. In addition, on June 21, 2017, Budget Prepay provided notice to its remaining Lifeline customers reminding them that they must transfer service to a new service provider or lose their Lifeline service. Budget is requesting that its relinquishment be effective August 10, 2017.

Budget Prepay states that it will provide, upon request at last one option whereby its Lifeline customers may transition to another Lifeline service provider operating in Budget Prepay's designated service area free from connection or deposit fees and Budget Prepay will assist such customers with any required certifications.

#### *Conclusion*

Based upon the foregoing, Budget Prepay has satisfied all of the requirements necessary to relinquish its ETC designation. It gave advanced notice to the Commission as well as the FCC. Budget Prepay is in the process of satisfying the FCC and the Commission's customer notice requirements. Budget Prepay will migrate and port numbers seamlessly and at no additional cost to the customers. In addition, there are no informal or formal complaints pending against the Budget Prepay before the Commission. Accordingly, we will grant Budget Prepay's Petition to relinquish its ETC designation in Pennsylvania as in the public interest; *Therefore,*

#### *It Is Ordered That:*

1. The Petition filed at P-2017-2603666 by Budget Prepay, Inc., d/b/a Budget Mobile to relinquish its designation as an Eligible Telecommunications Carrier in the Commonwealth of Pennsylvania is hereby granted.

2. The authorization of Budget Prepay, Inc., d/b/a Budget Mobile to provide Eligible Telecommunications Carrier services at P-2011-2269524 will be cancelled and its name be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services effective August 10, 2017, upon the filing by Budget Prepay, Inc., d/b/a Budget Mobile of confirmation that all notice requirements have been effectuated.

3. A copy of this order be published in the *Pennsylvania Bulletin*.

4. Upon publication this docket shall be marked closed.

5. A copy of this Order shall be appended to docket P-2011-2269524.
