#### D. *Purpose and Background*

This proposed rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the proposed amendments is described in more detail under the summary of proposal.

#### E. *Summary of Proposal*

The Commission is constantly exploring new technologies as they relate to fishing and boating in this Commonwealth. One example of this technology is the purchase of a fishing license or other permit through the Internet on a mobile device. These devices allow for instant purchases and provide additional opportunities to get citizens on the waterways fishing; however, many individuals do not have a readily available means to print the license or permit certificate. This creates a problem when an angler is attempting to do the right thing before heading to a favorite waterway.

Current regulations make it unlawful to fish on Commonwealth waterways without having a valid license certificate displayed on an outer garment. Since it is impractical to display a PDF on a mobile device on an outer garment, Commission staff undertook a review of the current wording of § 63.2 to identify a solution. As part of the review, staff determined that many states have done away with display requirements. Ohio not only did away with the requirement but specifically added wording to its law to allow an angler to provide a PDF stored on a mobile device as proof of a current license. Recently, the Game Commission also removed the display requirement for hunting licenses. This change has added to the confusion for anglers and has led to complaints fielded by officers and regional office staff. Another complaint that staff hear is that because of the display

requirement, anglers lose their licenses, usually because they come unattached somewhere along a stream or on a boat never to be seen again.

In looking at all aspects of removing the display requirement, the most obvious downside is that officers will need to do a field check on every angler since that will be the only way to verify whether someone has a license. This practice may lead to more complaints from anglers who get checked multiple times throughout a season. The removal of the display requirement will not change the practice of giving an individual 7 days to provide proof of a license purchase when caught fishing without a license in possession.

The Commission proposes to amend § 63.2 to read as set forth in Annex A.

#### F. *Paperwork*

The proposed rulemaking will not increase paperwork and will not create new paperwork requirements.
