# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

### **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

### ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

### **How to Find Documents**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacode.com](http://www.pacode.com).

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at [www.pabulletin.com](http://www.pabulletin.com).

#### **Printing Format**

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [ ] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

#### **Fiscal Notes**

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

#### **Reproduction, Dissemination or Publication of Information**

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

##### **§ 3.44. General permission to reproduce content of Code and Bulletin.**

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

## Title 58—RECREATION

### PENNSYLVANIA GAMING CONTROL BOARD

[ 58 PA. CODE CHS. 461a, 463a, 465a, 467a,  
601a, 605a AND 607a ]

#### Hybrid Gaming Tables and Electronic Wagering Terminals

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 13A02(1), (2), (2.1), (4) and (6), 13A25(c) and 13A62(a) (relating to regulatory authority; table game accounting controls and audit protocols; and table game taxes) amends Chapters 461a, 463a, 465a, 467a, 601a, 605a and 607a to read as set forth in Annex A.

#### *Purpose of this Final-Form Rulemaking*

This final-form rulemaking will add hybrid gaming tables, a new game technology, to the complement of table games available for play in this Commonwealth.

#### *Explanation*

Hybrid gaming tables, or those tables that combine live dealer action with fully automated electronic wagering, are a new technology to this Commonwealth. In essence, hybrid gaming table games are comprised of two very distinct components: 1) a physical table referred to as a "hybrid table" at which a dealer conducts a game on felt covered table; and 2) separate electronic wagering terminals located apart from the table at which players make wagers and monitor the game being dealt at the table. All wagering and recordation of wins and losses as well as printing of gaming vouchers occur at the electronic wagering terminal.

This final-form rulemaking incorporates this new technology into the existing Board regulations on device testing, internal controls, table game taxes and the provisions associated with electronic gaming tables.

#### *Chapter 461a. Slot machine and table game device testing and control*

Like all slot machines and fully automated electronic gaming tables, electronic wagering terminals (the devices patrons will utilize to wager at hybrid gaming tables) are required to meet a number of criteria to assure the security and proper operation of the gaming equipment as well as to assure fairness to patrons. Specifically, amendments to this chapter require each electronic wagering terminal to have an asset number for purposes of tracking the terminal, to be tested and approved, utilize bill validators for the acceptance of cash and gaming vouchers and issue gaming vouchers upon a patron cashing out, and to be connected to the Department of Revenue's central control computer system (CCCS). Connection to the CCCS is required because, just like slot machines and fully automated electronic gaming tables, all wagering on hybrid gaming tables is conducted electronically through the use of an electronic wagering terminal. Electronic wagering terminals are equipped with a bill validator, meters to determine amount of play and a drop box for the collection of cash and gaming vouchers.

The CCCS will act as the system of record for accounting purposes and the CCCS will calculate revenue for

table game tax purposes, just as it does for slot machines and fully automated electronic gaming tables.

In addition to testing of electronic wagering terminals to assure proper operation in accordance with the rules of play and crediting of player accounts in § 461a.4 (relating to submission for testing and approval), under § 461a.26 (relating to testing and software installation on the live gaming floor), a slot machine licensee shall provide advance notice of placement of hybrid gaming tables and electronic wagering terminals to the Board prior to placement on the gaming floor to assure that the gaming product has been tested and approved for placement into play to promote fairness to the patrons.

#### *Chapter 463a. Possession of slot machines, electronic wagering terminals and fully automated electronic gaming tables*

This chapter requires that an electronic wagering terminal be treated just like a slot machine or fully automated electronic gaming table as it relates to movement of the machines into, around and out of a licensed facility, and requires that operators account for each machine's location in the licensed facility or storage area on a master table game list submitted monthly. These requirements are consistent with the current requirements applicable to slot machines and fully automated electronic gaming tables.

#### *Chapter 465a. Accounting and internal controls*

This chapter requires that an operator that intends to install hybrid gaming tables and electronic wagering terminals update its internal controls to reflect the additional machines and tables. Surveillance requirements for electronic wagering terminals and hybrid gaming tables are in § 465a.9 (relating to surveillance system; surveillance department control; surveillance department restrictions) and supervision requirements are in § 465a.11 (relating to slot machine licensee's organization; jobs compendium). With respect to supervision requirements in § 465a.11, the supervision of electronic gaming terminals and hybrid gaming tables are separated to place supervision of the electronic wagering terminals under the supervision of the slot operations department due to the connectivity to the CCCS, and supervision of the hybrid gaming tables is placed under the table games operations department to assure consistency in game dealing and play among table game dealers.

Sections 465a.18 and 465a.25 (relating to transportation of slot cash storage boxes and table game drop boxes to and from the gaming floor; storage; and counting and recording of slot cash storage boxes and table game drop boxes) address the procedure for the collection and counting of drop boxes connected to electronic wagering terminals. Because revenue is based on a metered win and all electronic wagering terminals are required to be connected to the CCCS, the Board has allowed for the collection of drop boxes connected to electronic wagering terminals to be conducted at the same time as drop boxes connected to slot machines and fully automated electronic gaming tables. Additionally, unlike traditional table game drop boxes that are collected and counted daily, the Board will not require that boxes connected to electronic wagering terminals be collected or counted on a daily basis.

In § 465a.19 (relating to acceptance of tips or gratuities from patrons), a provision is added allowing for the

acceptance of tips placed electronically through the use of electronic wagering terminals provided the operator specifies how the tips will be pooled and distributed in conformance with 4 Pa.C.S. § 13A02(6).

As previously specified, because wagering at a hybrid gaming table is conducted electronically at an electronic wagering terminal and is not conducted through the use of value chips like a traditional table game, §§ 465a.36—465a.42, which are associated with table inventories, opening and closing tables, and the distribution and removal of chips, are not applicable. Therefore, electronic wagering terminals are excluded from §§ 465a.36—465a.42.

#### *Chapter 601a. General table game provisions*

Section 601a.9 (relating to table game taxes and gross table game revenue) addresses the calculation of table game taxes and gross table game revenue. As specified in subsection (e), net revenue from electronic wagering terminals is determined through the CCCS and will be taxed at the traditional table game rate, not at the fully automated table game rate. This provision is consistent with 4 Pa.C.S. § 13A62, which specifies that fully automated electronic gaming tables, which are operated without the assistance of a dealer, are taxed at a higher rate than those tables that operate with the assistance of a dealer, including hybrid gaming tables connected to electronic wagering terminals.

#### *Chapter 605a. Electronic gaming tables*

This chapter provides the definitions and requirements specific to hybrid gaming tables and electronic wagering terminals. As defined in § 605a.1 (relating to definitions), the hybrid gaming table is where the dealing of the table game takes place while electronic wagering terminals are the devices patrons utilize to buy in, cash out and place their wagers.

Because game play on an electronic wagering terminal is captured utilizing meters, just like fully automated electronic gaming tables, the sections addressing the meter requirements in § 605a.5 (relating to fully automated electronic gaming tables and electronic wagering terminals) are amended to include electronic wagering terminals.

Section 605a.9 (relating to hybrid gaming tables) is added to address requirements specific to hybrid gaming tables. Included in this section is the provision that addresses how hybrid gaming tables and electronic wagering terminals will be counted for purposes of the number of gaming tables each facility is authorized to operate.

The Board has specified that regardless of the number of hybrid gaming tables each facility operates, every five electronic wagering terminals will count as one gaming table. The Board has focused on the number of electronic wagering terminals instead of the number of hybrid gaming tables because operators can connect a significant number of electronic wagering terminals to each hybrid gaming table, in essence having one table connected to a high number of player positions, far more player positions than a traditional table game could accommodate.

The Board believes that if it were to ignore the number of electronic wagering terminals and count only the number of hybrid gaming tables a facility operates, the regulation would run afoul of the legislatively mandated cap on the number of authorized tables which is 250 tables for Category 1 and 2 licensees and 50 tables for

Category 3 licensees. See 4 Pa.C.S. § 13A11(b) (relating to authorization to conduct table games).

#### *Chapter 607a. Possession of table games and table game devices*

This chapter addresses transportation, table game master list and offsite storage of table games and table game devices, which by definition includes hybrid gaming tables. Section 607a.2 (relating to table game device master list) is amended to specify that for the purpose of submitting a table game device master list, electronic wagering systems that are required to be listed on the table game device master list do not include those required under § 463a.5 (relating to slot machine, electronic wagering terminal and fully automated electronic gaming table master lists), and that hybrid gaming tables are required to be listed on the table game device master list. Through this amendment, the Board assures that both components of a hybrid table game system comprised of the electronic wagering terminals and the hybrid gaming tables are accounted for.

#### *Comment and Response Summary*

Notice of proposed rulemaking was published at 45 Pa.B. 4170 (August 1, 2015). The Board did not receive comments from the regulated community. On September 30, 2015, the Board received the following comments from the Independent Regulatory Review Commission (IRRC).

IRRC indicated that the preamble of the proposed rulemaking was not sufficient to determine if the rulemaking is in the public interest, specifically where hybrid gaming tables are included in §§ 461a.4, 461a.26, 465a.11(b)(9) and 607a.2(a)(6). In addition, IRRC requested further explanation as to why the Board excluded hybrid tables from §§ 463a.1—463a.7, the provisions being applied to electronic wagering terminals to determine the public interest.

The issues identified in §§ 461a.4, 461a.26, 465a.11(b)(9) and 607a.2(a)(6) are addressed in this preamble.

In addition, “hybrid gaming tables” has been excluded in instances such as §§ 463a.1—463a.7 because of the inapplicability of those sections to hybrid gaming tables or because hybrid gaming tables are addressed in different sections. Hybrid gaming table games are comprised of two very distinct components: 1) a physical table referred to as a “hybrid gaming table” at which a dealer conducts a game on a table covered by felt having the traditional look of a table game but without spots for players; and 2) separate electronic wagering terminals located apart from the table at which players make wagers and monitor the game being dealt at the table. All wagering and recordation of wins and losses as well as printing of gaming vouchers occurs at the electronic wagering terminal.

Chapter 463a (relating to possession of slot machines, electronic wagering terminals and fully automated electronic gaming tables) addresses the possession of slot machines, electronic wagering terminals and fully automated electronic gaming tables. All three of these items are electronic, receive and record wagers, and are connected to the CCCS. Moreover, all three items can only be used for gambling purposes and have no legitimate purpose outside of gambling. As similar electronic gambling devices, they are similarly and strictly controlled in terms of possession (§ 463a.1 (relating to possession of slot machines, electronic wagering terminals and fully automated electronic gaming tables generally)), transportation (§ 463a.2 (relating to transportation of slot machines, electronic wagering terminals and fully automated

electronic gaming tables into, within and out of this Commonwealth), location on the floor (§ 463a.3 (relating to slot machine, electronic wagering terminal and fully automated electronic gaming table location on the gaming floor)), connection to the central control computer (§ 463a.4 (relating to notice and connection to the central control computer system)), recorded on a master list (§ 463a.5) and subject to strict offsite storage limitations (§ 463a.7 (relating to off premises storage of slot machines, electronic wagering terminals and fully automated electronic gaming tables)).

On the other hand, tables used for the conduct of gaming as hybrid gaming tables are categorized as “table game devices.” See 4 Pa.C.S. § 1103 (relating to definitions) and § 601a.1 (relating to definitions). Because of the differing nature of the actual gambling devices and the tables used in hybrid table gaming, issues including the possession, transportation, master list and off premises storage of table games and table game devices are addressed in Chapter 607a (relating to possession of table games and table game devices). The preparation of a table game devices master list and location on the gaming floor are addressed in § 607a.2. Hybrid gaming tables are not included in § 463a.4 because the table is not connected to that system, rather the electronic wagering terminal is connected.

IRRC sought clarity in relation to: 1) § 465a.9 as proposed to be amended to apply to electronic wagering terminals and hybrid gaming tables, but only electronic wagering systems were proposed to be added; 2) §§ 461a.15 and 461a.16 (relating to casino management systems; and player tracking systems) in which “table games and table game devices” was proposed to be added, but a slot machine licensee may or may not possess a table game operation certificate; 3) §§ 465a.11 and 465a.19 where “a slot machine licensee that has a certificate to operate table games” is used and then referred to a “certificate holder” without a definition for the latter term; and 4) the proposed headings of § 461a.14 (relating to slot machine, fully automated gaming tables and electronic wagering terminal monitoring systems) and § 465a.11 which did not reflect the addition of new gaming technology.

The preamble to the proposed rulemaking stated that surveillance requirements for electronic terminals and hybrid gaming tables are in § 465a.9, not that this section was amended to include both. Section 465a.9(c)(1)(i) is amended to provide for surveillance coverage over the electronic terminals where wagers are made and § 465a.9(c)(1)(ii) provides for surveillance over gaming conducted at each table that is not a fully automated electronic gaming table or an electronic wagering terminal. As a hybrid gaming table is neither a fully automated electronic gaming table nor an electronic wagering terminal, the hybrid table is subject to the surveillance requirement. Section 465a.9(c)(1)(ii) does not need to be amended to add hybrid tables as they already are included in the section as it existed.

With respect to §§ 461a.15 and 461a.16, while the Board recognizes that a slot machine licensee could opt not to obtain a certificate to operate table games and thereby not offer table games, only the holder of a slot machine license can obtain a certificate to operate table games and thereby the holder of that certificate is a slot machine licensee as titled at the highest level. Casino management systems and player tracking systems maintained by the slot machine licensee may be used but are not required to be used by the slot machine licensee for

slot machines, table games, table game devices and related systems as approved by the Board. The Board does not believe the use of “slot machine licensee” is inconsistent or not appropriate in these instances.

With respect to §§ 465a.11 and 465a.19, “certificate holder” is used according to its definition in § 401a.3 (relating to definitions) as a slot machine licensee that was awarded a certificate to operate table games. Section 465a.11(b)(7) has been revised to reflect this usage and to insure consistency.

The Board revised the heading of § 461a.14 to reflect the addition of the new technology. The Board does not believe revising the heading of § 465a.11 is warranted as the section places duties in relation to organization and jobs compendiums on slot machine licensees which covers all gaming offerings.

#### *Additional Revisions*

The Board made minor cross-reference corrections to §§ 461a.4(n) and 463a.1(b)(6) and § 467a.1(a)(2) (relating to gaming floor plan) in this final-form rulemaking.

#### *Fiscal Impact*

*Commonwealth.* The Board does not expect that this final-form rulemaking will have a fiscal impact on the Board or other Commonwealth agencies as testing and approval of the new hybrid gaming tables will be conducted by existing Board staff.

As it relates to internal controls, updates to internal control procedures will be reviewed by existing Board staff.

*Political subdivisions.* This final-form rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

*Private sector.* This final-form rulemaking will provide slot machine licensees that have a certificate to operate table games (a certificate holder) with additional table game options. If a certificate holder decides to offer hybrid gaming tables within the licensed facility, the certificate holder will be required to acquire equipment and train their dealers and support staff. While these hybrid gaming table systems require a substantial capital expenditure, the requirements in this final-form rulemaking should not increase costs operators would already have to incur to acquire the new technology. Costs incurred to train employees or purchase/lease equipment should be offset by the proceeds of gaming.

*General public.* This final-form rulemaking will not have fiscal impact on the general public.

#### *Paperwork Requirements*

If a certificate holder elects to offer table gaming on hybrid gaming tables, the certificate holder will be required to update internal controls reflecting the changes and submit them electronically to Board staff.

#### *Effective Date*

This final-form rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

#### *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on July 15, 2015, the Board submitted a copy of the notice of proposed rulemaking, published at 45 Pa.B. 4170, to IRRC and the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee for review and comment.

Under section 5(c) of the Regulatory Review Act, the Board shall submit to IRRC and the House and Senate Committees copies of comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Board has considered all comments from IRRC.

Under section 5.1(j.2) of the Regulatory Review Act (71 P.S. § 745.5a(j.2)), on October 11, 2017, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on October 12, 2017, and approved the final-form rulemaking.

#### Findings

The Board finds that:

(1) Public notice of intention to adopt these amendments was given under sections 201 and 202 of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The final-form rulemaking is necessary and appropriate for the administration and enforcement of 4 Pa.C.S. Part II (relating to gaming).

#### Order

The Board, acting under 4 Pa.C.S. Part II, orders that:

(1) The regulations of the Board, 58 Pa. Code Chapters 461a, 463a, 465a, 467a, 601a, 605a and 607a, are amended by adding § 605a.9 and amending §§ 461a.1, 461a.4, 461a.8, 461a.10, 461a.14, 461a.15, 461a.16, 461a.26, 461a.27, 463a.1—463a.5, 463a.7, 465a.2, 465a.6, 465a.9, 465a.11, 465a.17—465a.19, 465a.25, 465a.26, 465a.35—465a.42, 467a.1, 601a.9, 605a.1—605a.5, 605a.7 and 607a.2 to read as set forth in Annex A, with ellipses referring to the existing text of the regulations.

(*Editor's Note:* The amendment to § 467a.1 was not included in the proposed rulemaking.)

(2) The Chairperson of the Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(3) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

DAVID M. BARASCH,  
Chairperson

### Maximum Lawful Rate of Interest for Residential Mortgages for the Month of January 2018

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of January, 2018, is 5%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further preemption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which such individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.58 to which was added 2.50 percentage points for a total of 5.08 that by law is rounded off to the nearest quarter at 5%.

## DEPARTMENT OF EDUCATION

### Annual Certification Under Section 7201-B(e) of the Tax Reform Code

November 29, 2017

William R. Hite, Jr., Ed.D.  
Superintendent  
School District of Philadelphia  
440 North Broad Street, Suite 301  
Philadelphia, PA 19130

I am writing pursuant to Section 7201-B(e) of the Tax Reform Code, Act 52 of 2013, 72 P.S. § 7201-B(e), which provides that a city of the first class may impose a one percent sales and use tax that may be used by a school district of the first class in an amount up to \$120,000,000. Effective July 1, 2014, the City of Philadelphia imposed this additional sales and use tax. However, the use of these funds by the School District of Philadelphia ("District") must be authorized by the Secretary of Education.

Pursuant to Section 7201-B(e)(1), as Secretary of Education, I must consider whether "the school district...began implementation of reforms that provide for [the District's] fiscal stability, educational improvement and operational control."

According to the District, it is implementing the following new programs and initiatives aimed at increasing the range and quality of educational options available to students:

- Improving literacy, which includes remodeling pre-kindergarten through second grade classrooms in eight of the schools with the lowest literacy rates; utilizing early literacy coaches who will work with all kindergarten through third grade teachers; leveling libraries in all kindergarten through third grade classrooms so students gain literacy skills for lifetime learning; and distributing free books to approximately 37,000 pre-kindergarten through second grade students across the District to encourage summer reading.

- Focusing on career and college readiness, which includes ninth grade academies focused on college and career readiness; the third annual college signing day celebration; 22,000 ninth through twelfth grade students took the PSAT/SAT for free; and 2,742 students earned career and technical credentials.

- Improving school climate, which includes increased district schools' climate scores, reduced out-of-school suspensions, and decreased suspensions in early grades, resulting in increased instruction time, increased early childhood literacy, and increased graduation rates.

- Boosting transparency/improving school communities, which includes partnering with the Penn Graduate School of Education to complete the 2015-16 District-wide survey, receiving approximately 105,000 responses.

- Investing in green buildings/classrooms, which includes being named a 2017 U.S. Department of Education Green Ribbon School District Sustainability Awardee, installing new hydration stations at each school to provide access to safe, appealing water; and investing in capital relighting projects to save energy.

The District has also reported that additional steps have been taken to improve operational controls and to maintain fiscal stability, including:

- Projecting a \$108 million positive fund balance for the end of 2017-2018, which is the third consecutive year with a year-end positive fund balance.

- Executing new labor contracts with the Philadelphia Federation of Teachers and the Commonwealth Association of School Administrators.

- Extending the Cigarette Tax so it will no longer sunset in 2019.

- Implementing a new ridesharing program, in which the District will receive a portion of the revenues.

As a result of the foregoing reforms documented by the District, I hereby certify that the requisites of Section 7201-B(e) of the Tax Reform Code have been satisfied. I authorize the Pennsylvania Department of Revenue to disburse to the District, on or before the tenth day of every month, the total amount of money contained in the Local Sales and Use Tax Fund as of the last day of the previous month up to a maximum of \$120,000,000 pursuant to section 7201-B(e)(2) of the Tax Reform Code.

**LAND RECYCLING AND ENVIRONMENTAL REMEDIATION****UNDER ACT 2, 1995  
PREAMBLE 1**

---

**Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

---

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may

request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chap-

ters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. ### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

#### *Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0;	less than 9.0
Alkalinity greater than acidity*			

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

#### *Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

**E19-321. Pennsylvania Department of Transportation, Engineering District 3-0**, 715 Jordan Ave, Montoursville, PA 17754. SR 0339 Section 06M Roadway Improvement Project in Mifflin Township, **Columbia County**, ACOE Baltimore District (Berwick, PA Quadrangle; Latitude: 41°02'13"; Longitude -76°16'10").

PA DOT Engineering District 3-0 proposes a 1.9 Mi. Roadway Safety Improvement Project along SR 0339 between Mifflinville and the Luzerne County line. The project will include shoulder improvements, roadway widening, milling and overlaying pavement, four outfalls and two culvert structure rehabilitations.

The first culvert structure rehabilitation will include slip lining with a corrugated metal plate arch and downstream extension to accommodate the roadway widening. The existing single span concrete arch has a span of 15.0 Ft., a skew of 82 degrees, an underclearance of 11.6 Ft., a low chord of 496.69 Ft., a hydraulic opening of 141 Ft<sup>2</sup>, and an out to out width of 43.8 Ft. The proposed slip lined corrugated metal plate arch culvert on reinforced concrete abutments will have a span of 13.7 Ft., a skew of 82 degrees, an underclearance of 11.4 Ft., a low chord of 496.27 Ft., a hydraulic opening of 130 Ft<sup>2</sup> and an out to out width of 77.0 Ft. The proposed structure will be extended 33.2 Ft. downstream and include streambed paving with concrete baffles through the entire structure. Grouted R-8 Rip Rap will be placed at the outlet to backfill an existing scour hole.

The second culvert structure rehabilitation will be extended upstream to accommodate the roadway widening. The existing corrugated metal pipe culvert has a

span of 10.0 Ft., a skew of 85 degrees, an underclearance of 8.5 Ft., a low chord of 485.44 Ft., a hydraulic opening of 71 Ft<sup>2</sup>, and an out to out width of 150.9 Ft. The proposed culvert structure will have a span of 10.0 Ft., a skew of 85 degrees, an underclearance of 9.0 Ft., a low chord of 485.44 Ft., a hydraulic opening of 74 Ft<sup>2</sup> and an out to out width of 178.9 Ft. The proposed structure will be extended 28 Ft. upstream and include streambed paving with concrete baffles through the entire structure. Grouted R-8 Rip Rap will be placed at the outlet to backfill an existing scour hole.

Traffic will be maintained during construction. A sand-bag diversion and clean water pump will be utilized to convey the stream during construction. The project will not impact any jurisdictional wetlands. The Unnamed Tributaries to the North Branch of the Susquehanna River are classified as a Cold Water Fishery by Title 25, Chapter 93 Water Quality Standards.

### LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

#### UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of

receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

**Final State Water Quality Certification  
Required by Section 401 of the Clean Water Act  
for the Equitrans, L.P. H-156 Bare Pipe  
Replacement Project**

*Southwest Region: Waterways & Wetlands Program, 400 Waterfront Drive, Pittsburgh, PA 15222, Dana Drake, P.E., 412-442-4000.*

**WQ05-016 Equitrans, L.P.** (Applicant), 625 Liberty Avenue, Suite 1700, Pittsburgh, PA 15222-3114. H-156 Bare Pipe Replacement Project (Project), in Independence and Findlay Townships, **Beaver and Allegheny Counties** (respectively), in the ACOE Pittsburgh District. The Project includes the replacement of three sections of existing pipeline. The First Segment starts approximately 0.9 mile west of the intersection of Bocktown Road with Independence Road, Independence Township, Beaver County (Aliquippa, PA Quadrangle Latitude: 40°32'51.23" Longitude: -80°19'6.07") and ends in a field approximately 0.5 mile east of Bocktown Cork Road, Independence Township, Beaver County (Aliquippa, PA Quadrangle Latitude: 40°32'1.20"; Longitude: -80°18'9.99").

The Second Segment starts just to the south of the Pittsburgh International Airport, Findlay Township, Allegheny County (Clinton, PA Quadrangle Latitude: 40°29'7.41" Longitude: -80°14'49.07") and ends along an existing access road approximately 0.25 mile to the east of Enlow Road, Findlay Township, Allegheny County (Clinton, PA Quadrangle Latitude: 40°28'30.17"; Longitude: -80°14'9.96").

The Third Segment starts along McClaren Road approximately 0.08 mile north of the intersection with Garden Lane, Findlay Township, Allegheny County (Clinton, PA Quadrangle Latitude: 40°27'53.79" Longitude: -80°13'11.33") and ends in a wooded area approximately 0.1 mile northwest of Hemlock Road, Findlay Township, Allegheny County (Clinton, PA Quadrangle Latitude: 40°27'40.61"; Longitude: -80°12'47.23").

On January 30, 1988, Equitrans, L.P. received an Order Issuing Certificate from the Federal Energy Regulatory Commission (FERC) authorizing Equitrans to abandon, construct and operate certain facilities as part of the H-156 Pipeline Project in Beaver and Allegheny County, Pennsylvania (FERC Docket No. CP89-676). The activities described in this request are covered under the automatic blanket certificate and reported to the FERC on a yearly basis. A year-end submission to the FERC of all projects completed in the previous calendar year is due May 1 of every year.

On July 28, 2017, Applicant requested a state water quality certification from the Department of Environmental Protection (DEP), as required by Section 401 of the Clean Water Act (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with the requirements of the Clean Water Act.

To allow for the modernization of the H-156 pipeline for integrity assessment through the use of in-line inspection,

Equitrans proposes to replace approximately 13,800 linear feet of 8-inch diameter bare natural gas pipe with coated, 8-inch diameter natural gas pipe within the existing right-of-way. The Project is part of Equitrans' compliance program and is required to maintain the integrity of the operating system. The use of lift and lay construction for this project means that the replacement pipeline will be located in the same trench as the existing line. The existing 8-inch pipeline will be taken out of service, purged, and removed. The new pipeline will utilize the same permanent right-of-way as the existing line during construction; there are no deviations anticipated. The project will utilize traditional open cut or conventional bore construction techniques for all nine stream and one wetland crossing locations. The nine stream and one wetland crossings occur within the following receiving waters: Raccoon Creek, Raredon Run, and Montour Run.

The Project, as proposed, includes replacement of approximately 13,800 LF of one 8" diameter gas line across 3 pipeline segments. The Project, as proposed, will require approximately 37.68 acres of earth disturbance, and impacts to 492 linear feet of an Unnamed Tributary (UNT) to Raccoon Creek, a UNT to Raredon Run, and UNT's to Montour Run, 1.66 acre of floodway, 0.03 acre of temporary PEM wetland impacts, and 0.04 acre of PEM permanent impacts.

There are seven temporary access roads planned for the Project utilizing both existing unpaved roads/driveways as well as the development of proposed temporary access roads to support this project that will be returned to preexisting conditions upon completion. The pipeline will be installed using a typical 75-foot wide limit of disturbance (LOD) for pipeline construction with areas of temporary work space adjacent to the LOD, and a typical 40-foot LOD for the access roads to allow access to the pipeline corridor. The construction ROW will be reduced to a 50-foot-width at streams and wetlands. The permanent ROW width will be 50 feet centered on the pipeline. There is no anticipated permanent increase in impervious area or in stormwater runoff due to the construction of the pipeline.

DEP published notice of its proposed state water quality certification at 47 Pa.B. 5232 (September 2, 2017) and received no comments from the public.

DEP certifies to Applicant that the construction, operation and maintenance of the Project will not violate applicable State water quality standards set forth in 25 Pa. Code Chapter 93, provided Applicant complies with the permitting programs, criteria and conditions established pursuant to State law:

1. *Discharge Permit*—Applicant shall obtain and comply with a DEP National Pollutant Discharge Elimination System (NPDES) permit for the discharge of water from the hydrostatic testing of the pipeline pursuant to Pennsylvania's Clean Streams Law (35 P.S. §§ 691.1—691.1001), and all applicable implementing regulations (25 Pa. Code Chapter 92a).

2. *Erosion and Sediment Control Permit*—Applicant shall obtain and comply with DEP's Chapter 102 Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment issued pursuant to Pennsylvania's Clean Streams Law and Storm Water Management Act (32 P.S. §§ 680.1—680.17), and all applicable implementing regulations (25 Pa. Code Chapter 102).

3. *Water Obstruction and Encroachment Permits*—Applicant shall obtain and comply with a DEP Chapter 105 Water Obstruction and Encroachment Permits for the construction, operation and maintenance of all water obstructions and encroachments associated with the project pursuant to Pennsylvania's Clean Streams Law, Dam Safety and Encroachments Act (32 P.S. §§ 673.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601.), and all applicable implementing regulations (25 Pa. Code Chapter 105).

4. *Water Quality Monitoring*—DEP retains the right to specify additional studies or monitoring to ensure that the receiving water quality is not adversely impacted by any operational and construction process that may be employed by Applicant.

5. *Operation*—Applicant shall at all times properly operate and maintain all Project facilities and systems of treatment and control (and related appurtenances) which are installed to achieve compliance with the terms and conditions of this State Water Quality Certification and all required permits, authorizations and approvals. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by Applicant.

6. *Inspection*—The Project, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of DEP to determine compliance with this State Water Quality Certification, including all required State water quality permits and State water quality standards. A copy of this certification shall be available for inspection by the DEP during such inspections of the Project.

7. *Transfer of Projects*—If Applicant intends to transfer any legal or equitable interest in the Project which is affected by this State Water Quality Certification, Applicant shall serve a copy of this certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the DEP Regional Office of such intent. Notice to DEP shall include a transfer agreement signed by the existing and new owner containing a specific date for transfer of certification responsibility, coverage, and liability between them.

8. *Correspondence*—All correspondence with and submittals to DEP concerning this State Water Quality Certification shall be addressed to the Department of Environmental Protection, Southwest Regional Office, Dana Drake, P.E., Program Manager, Waterways & Wetlands Program, 400 Waterfront Drive, Pittsburgh, PA 15222.

9. *Reservation of Rights*—DEP may suspend or revoke this State Water Quality Certification if it determines that Applicant has not complied with the terms and conditions of this certification. DEP may require additional measures to achieve compliance with applicable law, subject to Applicant's applicable procedural and substantive rights.

10. *Other Laws*—Nothing in this State Water Quality Certification shall be construed to preclude the institution of any legal action or relieve Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable Federal or State law or regulation.

11. *Severability*—The provisions of this State Water Quality Certification are severable and should any provi-

sion of this certification be declared invalid or unenforceable, the remainder of the certification shall not be affected thereby.

Any person aggrieved by this action may file a petition for review pursuant to Section 19(d) of the Federal Natural Gas Act, 15 U.S.C.A. § 717r(d), with the Office of the Clerk, United States Court of Appeals for the Third Circuit, 21400 U.S. Courthouse, 601 Market Street, Philadelphia, PA 19106-1790 within 30 days of publication of this notice, or within 30 days of receipt of written notice of this action, whichever occurs first. *Final Technical Guidance Document: New Guidance*

**DEP ID:** 310-2137-006. **Title:** Chapter 105 Water Obstruction & Encroachment Permit Comprehensive Environmental Assessment of Proposed Project Impacts. **Description:** This final technical guidance is intended to clarify the process for completing the information requirements for a Water Obstruction and Encroachment Permit application, Environmental Assessment Form No. 3150-PM-BWEW0017. Currently, the permit application requirements generally address proposed project impacts to waters of the Commonwealth associated with small scale projects located in a single county and covered by a single permit application. Large scale projects, however, often cross more than one county and are covered by multiple permit applications necessitating the need for a comprehensive environmental review of all proposed impacts to waters of the Commonwealth for the entire project. This final guidance provides the permit applicant with an outline of the information that the applicant should submit to the Department as part of a comprehensive environmental assessment to meet the regulatory standards in 25 Pa. Code Chapter 105 (relating to dam safety and waterway management).

**Contact:** Questions regarding this technical guidance document should be directed to Sidney Freyermuth at (717) 772-5977 or [sfreyermuth@pa.gov](mailto:sfreyermuth@pa.gov).

*Draft Technical Guidance Document: Substantive Revision*

**DEP ID:** 261-0300-101. **Title:** Land Recycling Program Technical Guidance Manual. **Description:** A substantive revision of the Land Recycling Program Technical Guidance Manual (TGM) is necessary because the current TGM was developed in 2002 and is outdated. Many of the procedures and processes used by the Land Recycling Program have been updated and multiple clarifications have been made. Revising the TGM will help avoid confusion for remediators and regional office staff when assessing and remediating sites to satisfy the requirements of the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

**Written Comments:** Interested persons may submit written comments on this draft TGM by Friday, March 16, 2018. Comments submitted by facsimile will not be accepted. All comments must include the commentator's name and address. Commentators are encouraged to submit comments using the Department's eComment system at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment) or by e-mail to [ecomment@pa.gov](mailto:ecomment@pa.gov). Written comments should be submitted to the Technical Guidance Coordinator, Policy Office, Department of Environmental Protection, 400 Market Street, Harrisburg, PA 17101.

**Contact:** Questions regarding this TGM should be directed to Troy Conrad at (717) 783-9480 or [tconrad@pa.gov](mailto:tconrad@pa.gov).

**Effective Date:** Upon publication as final in the *Pennsylvania Bulletin*.

*Interim Final Technical Guidance: New Guidance*

**DEP ID:** 800-0810-004. **Title:** Guidelines for Chain Pillar Development and Longwall Mining Adjacent to

Unconventional Wells. **Description:** This guidance was developed to facilitate appropriate unconventional well inactivation and re-entry procedures in advance of, and subsequent to, longwall panel removal, respectively; that will allow for continuous isolation of gas from workable coal seams, protection of mining personnel and prevention of pollution of the waters of the Commonwealth, consistent with applicable law.

**Written Comments:** Interested persons may submit written comments on this interim final technical guidance document by Wednesday, January 31, 2018. Comments submitted by facsimile will not be accepted. All comments must include the commentator's name and address. Commentators are encouraged to submit comments using the Department's eComment system at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment) or by e-mail to [ecomment@pa.gov](mailto:ecomment@pa.gov). **Draft National Pollutant Discharge Elimination System General Permit for Discharges from Concentrated Aquatic Animal Production Facilities (PAG-11)**

The Department of Environmental Protection (Department) is announcing the availability of a draft National Pollutant Discharge Elimination System (NPDES) General Permit for Discharges from Concentrated Aquatic Animal Production (CAAP) Facilities (PAG-11). To access the draft General Permit and related documents visit [www.elibrary.dep.state.pa.us](http://www.elibrary.dep.state.pa.us) (select "Permit and Authorization Packages," then "Clean Water," then "PAG-11 (Draft)").

The PAG-11 General Permit is intended to provide NPDES permit coverage for discharges from CAAP facilities into surface waters of the Commonwealth. The existing PAG-11 was extended on October 5, 2017, for 1 year. The Department is proposing to reissue a final PAG-11 General Permit on or before October 5, 2018.

The proposed fee for submission of a Notice of Intent (NOI) for coverage under this General Permit is \$100. The NOI fee will be paid one time with the NOI for permit coverage. The Department is proposing that after coverage under the General Permit is authorized, coverage will continue without the need to submit an NOI for renewal of coverage as long as the permittee complies with the terms and conditions of the PAG-15 General Permit currently in effect, unless the Department specifically requires the submission of an NOI in writing.

The Department is seeking comments on the draft PAG-11 General Permit (3800-PM-BCW0006d) and accompanying documents for 30 days. Interested persons may submit written comments through Tuesday, January 16, 2018. Comments submitted by facsimile will not be accepted. Commentators are encouraged to submit comments using the Department's online eComment system at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment). Written comments may also be submitted by e-mail to [ecomment@pa.gov](mailto:ecomment@pa.gov) or by mail to the Department of Environmental Protection, Policy Office, 400 Market Street, P.O. Box 2063, Harrisburg, PA 17105-2063.

Written comments submitted during the 30-day comment period will be retained by the Department and considered in finalizing the General Permit. The Department will provide an opportunity for any interested person or group of persons, any affected state, any affected interstate agency, the United States Environmental Protection Agency or any interested agency to request or petition for a public hearing with respect to the proposed General Permit. The request or petition for public hearing, which must be filed within the 30-day period allowed for filing of written comments, must indicate the interest of the party filing the request and the reasons why a hearing is warranted. A hearing will be held if there is significant public interest.

## DEPARTMENT OF HUMAN SERVICES

### Nursing Facility Assessment Program for Fiscal Year 2017-2018

This notice announces the amount of the assessment that the Department of Human Services (Department) is implementing for Fiscal Year (FY) 2017-2018, provides an explanation of the assessment methodology that the Department is using in FY 2017-2018 and identifies the estimated aggregate impact on nursing facilities which will be subject to the assessment.

### Background

Article VIII-A of the Human Services Code (code) (62 P.S. §§ 801-A—815-A) authorizes the Department to impose an annual monetary assessment on nursing facilities and county nursing facilities in this Commonwealth each fiscal year through FY 2018-2019. Under Article VIII-A of the code, the Department may impose the assessment only to the extent that the assessment revenues qualify as the State share of Medical Assistance (MA) Program expenditures eligible for Federal financial participation (FFP). See 62 P.S. § 803-A. To ensure receipt of FFP, Article VIII-A of the code requires the Department to seek a waiver from the Centers for Medicare & Medicaid Services if necessary to implement the Assessment Program. See 62 P.S. § 812-A.

For each fiscal year that the Assessment Program is implemented, the code authorizes the Secretary of the Department (Secretary) to determine the aggregate amount of the assessment and the annual assessment rate in consultation with the Secretary of the Budget. See 62 P.S. § 804-A. The code specifies that annual assessment rates must be sufficient to generate at least \$50 million in additional revenue, but not more than the maximum aggregate assessment amount that qualifies for Federal matching funds. See 62 P.S. § 804-A.

The Secretary must publish a notice in the *Pennsylvania Bulletin* before imposing an annual assessment for a fiscal year. The notice must specify the amount of the assessment being proposed, explain the proposed assessment methodology, identify the estimated assessment amount and aggregate impact on nursing facilities subject to the assessment and provide interested persons a 30-day period to comment. See 62 P.S. § 805-A.

After consideration of any comments received during the 30-day comment period, the Secretary must publish a second notice announcing the rate of assessment for the fiscal year. See 62 P.S. § 805-A. The annual aggregate assessment amount and assessment rate for the fiscal year must be approved by the Governor. See 62 P.S. § 804-A.

The Secretary published a notice at 47 Pa.B. 3461 (June 17, 2017) announcing the proposed assessment rates, the aggregate amount and the impact for FY 2017-2018. One commentator, a nonpublic nursing facility provider, submitted comments related to supplemental payments, specifically reimbursement of the MA allowable assessment cost and quarterly supplemental payments for nonpublic nursing facilities which are funded by a portion of assessment revenues. Since this notice is related to revenue and not supplemental payments, the comments are outside the scope of the notice.

### Assessment Methodology and Rates for FY 2017-2018

The following nursing facilities will continue to be exempt from the Assessment Program in FY 2017-2018:

- (1) State owned and operated nursing facilities.
- (2) Veteran's Administration nursing facilities.
- (3) Nursing facilities that have not been licensed and operated by the current or previous owner for the full calendar quarter prior to the calendar quarter in which an assessment is collected.
- (4) Nursing facilities that provide nursing facility services free of charge to all residents.

The Department will continue to assess nonexempt nursing facilities at two rates. One rate will apply to four categories of nursing facilities: county nursing facilities; nursing facilities that have 44 or fewer licensed beds; qualified nursing facilities affiliated with Continuing Care

Retirement Communities (CCRC) (see 40 Pa.B. 7297 (December 18, 2010)); and nursing facilities with an MA occupancy rate of at least 94% based on the 4 consecutive assessment quarters beginning April 1, 2015, and ending March 31, 2016, for each nursing facility as of April 22, 2016. The other rate will apply to all other nonexempt facilities, including nursing facilities that began participation in a CCRC on or after July 1, 2010. Using the applicable rate, the Department will calculate an annual assessment amount for each nonexempt facility by multiplying its assessment rate by the facility's historical non-Medicare resident day for the four consecutive assessment quarters beginning April 1, 2015, and ending March 31, 2016, and collect the annual assessment amount in four equal quarterly installments.

The Department will maintain the same rate structure for FY 2017-2018 as in FY 2016-2017. For FY 2017-2018, the assessment rates for nonexempt nursing facilities will be as follows:

(1) For county nursing facilities, for nursing facilities that have 44 or fewer licensed beds, for qualified CCRC nursing facilities, and nursing facilities with an MA occupancy rate of at least 94% based on the 4 consecutive assessment quarters beginning April 1, 2015, and ending March 31, 2016, for each nursing facility as of April 22, 2016, the assessment rate will be \$8.01 per historical non-Medicare resident day.

(2) For all other nonexempt nursing facilities, the assessment rate will be \$32.10 per historical non-Medicare resident day.

The Assessment Program due dates will be available on the Department's web site at <http://www.dhs.pa.gov/provider/longtermcarecasemixinformation/index.htm>.

### Aggregate Assessment Amounts and Fiscal Impact

The Department estimates that the annual aggregate assessment fees for nonexempt nursing facilities will total \$506.562 million. The Department will use the State revenue derived from the assessment fees and any associated FFP to support payments to qualified MA nursing facility providers in accordance with applicable laws and regulations.
