READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Subchapter A. CIVIL ACTION

PLEADINGS

Rule 1033. Amendment.

(a) A party, either by filed consent of the adverse party or by leave of court, may at any time change the form of action, add a person as a party, correct the name of a party, or otherwise amend the pleading. The amended pleading may aver transactions or occurrences which have happened before or after the filing of the original pleading, even though they give rise to a new cause of action or defense. An amendment may be made to conform the pleading to the evidence offered or admitted.

(b) **An amendment correcting the name of a party against whom a claim has been asserted in the original pleading relates back to the date of the commencement of the action if, within ninety days after the period provided by law for commencing the action, the party received notice of the institution of the action such that it will not be prejudiced in maintaining a defense on the merits and the party knew or should have known that the action would have been brought against the party but for a mistake concerning the identity of the proper party.**

EXPLANATORY COMMENT

Currently, the Rules of Civil Procedure do not expressly permit an amendment correcting the name of a party against whom a claim is asserted to relate back without a showing of concealment when the statute of limitations has expired and the effect of that correction operates to add another party. However, case law has interpreted the Rules to permit such an amendment within the statute of limitations. Rule 1033 has been amended to expressly permit amendments correcting the name of the party against whom a claim is asserted to relate back to the date of the commencement of the action if within ninety days after the period provided by law for commencing the action, the party to be brought in by the amendment has received notice of the commencement of the action such that it will not be prejudiced in obtaining a defense on the merits, and the party knew or should have known that the action would have been brought against the party but for a mistake concerning the identity of the proper party.

Consider the following example: Harry Roberts, who resides at 949 Alcoma Street, Pittsburgh, PA, was the driver of an automobile which struck the plaintiff when he was crossing the intersection at Grant and Forbes

Street, Pittsburgh, PA, at approximately 11:00 a.m. on October 11, 2013. The plaintiff's complaint, filed on October 2, 2015, mistakenly identifies the driver as Henry Rosen. He is the only named defendant in the complaint.

On October 7, 2015, the Sheriff made service by serving Mary Roberts at 949 Alcoma Street, Pittsburgh, PA. She is described in the Sheriff's Return as the wife of the defendant. On January 2, 2016, the complaint is amended to correct "Henry Rosen" to "Harry Roberts."

The amendment of Rule 1033 expressly permits the plaintiff to amend the complaint to correct the name of the defendant to Harry Roberts, because it is clear from the body of the complaint that the plaintiff was suing the driver of the automobile which struck the plaintiff and service of the complaint furnished sufficient notice to Harry Roberts that a lawsuit has been initiated against him for actions he is liable for even though the defendant is identified on the complaint as Henry Rosen. This is consistent with existing case law and codifies current practice.

The Federal Rules of Civil Procedure and a majority of states have rules of procedure governing the relation back of amendments, which are similar to this amendment. The interests of justice are served by a rule of civil procedure permitting a party to correct a complaint that provides an incorrect name of a party when there is no prejudice to the party brought in by the amendment.

The amendment of Rule 1033 does not alter the concealment doctrine and the discovery rule. The amendment is intended to cover situations in which neither the concealment doctrine nor the discovery rule apply.

Comment

Paragraph (A) provides that **[any party may file]** a motion to expunge or destroy records, files, fingerprints, or photographs, or the court, *sua sponte*, may commence expungement proceedings.

Under paragraphs (A)(1) & (2), the written allegation or petition may be dismissed for several reasons, including, but not limited to, when: 1) a juvenile completes an informal adjustment or diversionary program; 2) the

attorney for the Commonwealth declines to prosecute; 3) probable cause is not found at the detention hearing pursuant to Rule 242(C)(1); 4) there is no finding on the offenses pursuant to Rule 408(B); or 5) there is no finding of a need for treatment, supervision, and rehabilitation pursuant to Rule 409(A)(1). Expungement proceedings may be commenced upon these dismissals of the written allegation or the petition.

Under paragraph (B)(6), any number assigned to police papers helpful in tracking the police report or written allegation that would assist the law enforcement agency in expunging or destroying the document is to be listed. A reference number could be **[an] a juvenile** offense tracking number, district control number, crime control number, incident number, Philadelphia identification number, or another number assigned by the law enforcement agency to track the document.

Pursuant to paragraph (B)(9), the reasons for expunging the records or destroying fingerprints and photographs are to be included in the motion, specifically citing which provision of paragraph (A) applies.

"Expunge" or "expungement" is defined by Rule 120, which means to erase legally, or the process of legal erasure of an item making it permanently not available to the public but where some information may be retained only for limited purposes by agencies or departments. *See* Rule 173. *See also* Comment to Rule 120.

Rule 173 provides for the retention of certain information that is crucial for: 1) determining compliance with the order to expunge; 2) determining eligibility in a court program, determining the grading or penalty of an offense, or for other purposes as provided by law; 3) maintaining statistical and research information; 4) maintaining intelligence and investigative information; and 5) financial audits.

The new procedures instituted with the changes of 2014 require one procedure for expunging or destroying records, fingerprints, and photographs. One order will go to the appropriate agencies and departments as required by Rule 172 and will help those agencies become more efficient in the manner in which items are destroyed or expunged.

Pursuant to paragraph (D), the attorney for the Commonwealth is given an opportunity to respond to the motion. The attorney for the Commonwealth should specify its position on whether items should be expunged or destroyed. Expunged items remain available to law enforcement agencies and the attorney for the Commonwealth in limited circumstances, whereas destroyed items are permanently erased. The attorney for the Commonwealth should consent to expunging records unless the attorney for the Commonwealth demonstrates good cause for the retention of records. *See In re A.B.*, 987 A.2d 769 (Pa. Super. [Ct.] 2009).

The reasons for maintaining information pursuant to Rule 173 do not qualify as good cause against expunging records under this rule. Maintenance of specific information is different from the maintenance of the official court record or other official records of the juvenile probation office or a law enforcement agency. Pursuant to Rule 173, a separate document, file, or database is to be created. *See* Rule 173 and its Comment.

If the attorney for the Commonwealth objects to expunging or destroying the records, the court should conduct a hearing on the motion.

Pursuant to paragraph (E)(3), the court is to consider adverse consequences that an individual may suffer if the records are not expunged. Adverse consequences are discussed in The Pennsylvania Collateral Consequences Checklist instituted by Pennsylvania Juvenile Indigent Defense Action Network in conjunction with the initiative the Models for Change System Reform in Juvenile Justice. This checklist may be assessed on the Supreme Court's website at <http://www.pacourts.us/T/Boards/Committees/JuvenileCourtProcedural/>.

The attorney for the Commonwealth in the county in which a motion is filed in an inter-county transfer case pursuant to paragraph (F) should provide notice of the motion to, and communicate with, the attorney for the Commonwealth and the juvenile probation office in the county to which, or from which, the case was transferred.

Notwithstanding this rule, *see* 18 Pa.C.S. § 9123(a.1) for cases that are ineligible for expungement proceedings. *See also* 42 Pa.C.S. § 6341 for destruction of fingerprints and photographs.

Final Report explaining the amendments to Rule 172 published with the Court's Order at Pa.B. (, 2017).

Rule 172. Order to Expunge or Destroy.

A. *Contents.* Any order to expunge or destroy the official court record, juvenile probation files, docket entries, law enforcement records, or fingerprints and photographs shall include the following information:

- 1) all items contained in Rule 170(B);
- 2) a directive specifically identifying which items shall be expunged or destroyed, including all law enforcement records, juvenile probation files, official court records, other juvenile records, fingerprints, photographs, and any other information pertaining to the arrest;
- 3) a directive that the keeper of the juvenile records shall expunge or destroy such items;
- 4) a directive that each agency, department, or office, upon request, shall notify the court or its designee, in writing, of the action taken in response to the order to expunge or destroy;
- 5) a directive to a school building principal or his or her designee to destroy information received from the court pursuant to Rule 163;
- 6) the printed name and signature of the judge issuing the order; and
- 7) the date of the court order.

B. *Service.* In addition to the service required by Rule 167, the clerk of courts, court administrator, or other court designee shall serve certified copies of the order on the chief juvenile probation officer, **the Pennsylvania**

State Police, the Juvenile Court Judges' Commission, and any other person or agency as directed by the court.

Comment

Pursuant to paragraph (A)(2), the court is to list specifically which items are to be expunged and which items are to be destroyed. Specific information retained pursuant to Rule 173 should be expunged but not destroyed. In most instances, the court should order that the fingerprints and photographs be destroyed and that the remaining records and documents be expunged.

Pursuant to paragraph (A)(4), an agency, department, or office may be requested to produce evidence of compliance with the court order to expunge. Non-compliance may result in a finding of contempt of court.

Pursuant to paragraph (A)(5), the school is to destroy all information received from the court. Because the school is required to store this information separately under Rule 163(F), destruction should not be difficult. *See* Rule 163 and its Comment. The court may also require the school to provide written notice of the action taken.

REPORT

Proposed Amendment of Pa.R.J.C.P. 170 and 172

The Juvenile Court Procedural Rules Committee proposes to amend Rule 170(B)(6) to specifically require the inclusion of the juvenile offense tracking number (JOTN), if available, in a motion for expungement and to amend Rule 172 to require the Pennsylvania State Police and the Juvenile Court Judges' Commission to be served a copy of the expungement order.

The Pennsylvania State Police is required to maintain a statewide registry of juvenile history record information, fingerprints, and photographs. *See* 42 Pa.C.S. § 6309(b). Additionally, the Juvenile Court Judges' Commission's Information Technology Division collects, compiles and publishes the juvenile court statistics. *See* 42 Pa.C.S. § 6373. Accordingly, information related to juvenile cases is shared with these entities. *See* 42 Pa.C.S. § 6309(c) & (d).

The proposed amendment to Rule 172 is intended to ensure that these entities maintain accurate information pertaining to juvenile records by requiring copies of expungement orders to be served upon them in every matter. The proposed amendment to Rule 170(B)(6) will require the JOTN, if available, to be included in the expungement motion. By operation of Rule 172(A)(1), this information will be included in the expungement order. This requirement is intended to assist the entities in performing their functions.

The Committee invites all comments, concerns, and suggestions regarding this rulemaking proposal.

* * * * *

Comment

Because of the ramifications of a juvenile record, it is important that every safeguard [is] be taken to ensure that all constitutional and procedural guarantees and rights are preserved. Juveniles should not feel pressured to waive counsel or be the subject of any proactive pursuit for obtaining a waiver.

In determining whether the waiver of counsel is knowingly, intelligently, and voluntarily made, the court, on the record, is to ask the juvenile questions to elicit: 1) the reasons why the juvenile wants to waive counsel; 2) information regarding the juvenile's: a) age; b) maturity; c) education; d) mental health issues, if any; and e) any current alcohol or drug issues that may impair the juvenile's decision-making skills; 3) the juvenile's understanding of the: a) right to an attorney, including the provisions of Rule 151; b) juvenile's role when proceeding pro se; c) allegations in the petition against the juvenile; and d) possible consequences if the juvenile is found

delinquent; 4) whether the juvenile consulted with the juvenile's guardian; and 5) whether the juvenile consulted with an attorney.

* * * * *

[Notwithstanding the provisions of paragraph (A)(3), a juvenile fourteen years of age or older may make or file a motion pursuant to Rule 344(E) for alternative relief, for example, when the juvenile subscribes to a protected formal belief system which prohibits attorney representation.]

Pursuant to paragraph (C), if waiver of counsel is revoked, the court is to appoint counsel before proceeding.

D. *Time [Limits for Decision on] Limitations for Decision of Motion.* The judge shall not vacate the disposition pending the decision [**on**] of the post-dispositional motion, but shall decide the motion as provided in this paragraph.

1) Except as provided in [**paragraph (D)(2)**] paragraphs (D)(2) and (D)(6), the judge shall decide the post-dispositional motion as soon as possible but within thirty days of the filing of the motion. If the judge fails to decide the motion within thirty days, or to grant an extension as provided in paragraph (D)(2), the motion shall be deemed denied by operation of law.

2) Upon motion of a party [**within the 30-day disposition period, for good cause shown, the judge may grant one 30-day extension for decision**] and good cause shown, prior to the expiration of the 30-day decision period of paragraph (D)(1), the judge may grant one 30-day extension to rule on the motion. If the judge fails to decide the motion within the 30-day extension period, the motion shall be deemed denied by operation of law.

3) When a post-dispositional motion is denied by operation of law, the clerk of courts shall enter an order on behalf of the court [**, and, as provided pursuant**]. Pursuant to Rule 167, the clerk of courts shall serve a copy of the order [**on**] upon each attorney and the juvenile, if unrepresented, that states the post-dispositional motion is deemed denied. This order is not subject to reconsideration.

4) If the judge denies the post-dispositional motion, the judge promptly shall issue an order [**and the**]. The order shall be filed and served as provided in Rule 167.

5) If a party withdraws a post-dispositional motion, the judge promptly shall issue an order memorializing the withdrawal [**, and the**]. The order shall be filed and served as provided in Rule 167.

6) **A post-dispositional motion pursuant to Rule 518 seeking to challenge whether an out of home placement was against the weight of the evidence shall be decided by the court within the time constraints of Pa.R.A.P. 1770(f) when the issue is raised in a petition for review pursuant to Pa.R.A.P. 1770.**

E. *Contents of [order] Order.* An order denying a post-dispositional motion, whether issued by the judge pursuant to paragraph (D)(4) or entered by the clerk of courts pursuant to paragraph (D)(3), or an order issued following a party's withdrawal of the post-dispositional motion pursuant to paragraph (D)(5), shall include notice to the party of the following:

1) the right to appeal;

2) the time [**limits within which the appeal shall be filed**] limitations for filing the appeal; and

3) the right to counsel [**in the preparation of the appeal**] for the appellate process.

F. [*After-discovered evidence*] *After-Discovered Evidence.* A motion for a new [**adjudication**] adjudicatory hearing on the grounds of after-discovered evidence shall be filed in writing promptly after such discovery. If an appeal is pending, the judge may grant the motion only upon remand of the case.

Comment

[The purpose of this rule is to promote the fair and prompt resolution of all issues relating to admissions, adjudication, and disposition by consolidating all possible motions to be submitted for court review, and by setting reasonable but firm time limits within which the motion is to be decided. Because the post-dispositional motion is optional, a party may choose to raise any or all properly preserved issues in the trial court, in the appellate court, or both.

For the definition of “disposition,” see Rule 120 and its Comment.

OPTIONAL POST-DISPOSITIONAL MOTION

See *In re Brandon Smith*, 393 Pa. Super. 39, 573 A.2d 1077 (1990), for motions on ineffective assistance of counsel.

Under paragraph (A)(2), any issue raised before or during adjudication is deemed preserved for appeal whether a party chooses to raise the issue in a post-dispositional motion. It follows that the failure to brief or argue an issue in the post-dispositional motion would not waive that issue on appeal as long as the issue was properly preserved, in the first instance, before or during adjudication. Nothing in this rule, however, is intended to address Pa.R.A.P. 1925(b) or the preservation of appellate issues once an appeal is filed. See *Commonwealth v. Lord*, 553 Pa. 415, 719 A.2d 306 (1998) (any issues not raised in a 1925(b) statement will be deemed waived).

Under paragraph (B)(1), if a party chooses to file a post-dispositional motion, the motion is to be filed within ten days of imposition of disposition. The filing of the written post-dispositional motion triggers the time limits for decision on the motion. See paragraph (D)(1).

TIMING

Paragraph (B) contains the timing requirements for filing the optional post-dispositional motion and taking an appeal. Under paragraph (B)(1), the post-dispositional motion is to be filed within ten days of imposition of disposition. Supplemental motions may be filed but the time requirements of paragraph (B)(1) are to be followed.

When a party files a timely post-dispositional motion, the 30-day period for the juvenile’s direct appeal on all matters in that case is triggered by the judge’s decision on the post-dispositional motion, the denial of the motion by operation of law, or the withdrawal of the post-dispositional motion. The appeal period runs from the entry of the order. As to the date of entry of orders, see Pa.R.A.P. 108. No direct appeal may be taken by the party while the post-dispositional motion is pending. See paragraph (B)(2).

If no timely post-dispositional motion is filed, the party’s appeal period runs from the date disposition is imposed. See paragraph (B)(3).]

For the definition of “disposition,” see Rule 120 and its Comment.

When properly raised before or during a hearing, a claim will be deemed preserved for appeal and the party need not file a post-dispositional motion solely for the purpose of preservation. To raise a

claim that a decision was against the weight of the evidence, see Rule 415 and Rule 518. Nothing in this rule is intended to address Pa.R.A.P. 1925(b) or the possible waiver of appellate issues for non-compliance with the Pennsylvania Rules of Appellate Procedure once an appeal is filed. See, e.g., *Commonwealth v. Lord*, 719 A.2d 306 (Pa. 1998) (any issues not raised in a 1925(b) statement will be deemed waived).

See Rule 622 and *In re Brandon Smith*, 573 A.2d 1077 (Pa. Super. 1990), for motions concerning ineffective assistance of counsel.

TIMING

Supplemental post-dispositional motions may be filed, but the time requirements of paragraph (B)(1) are to be followed.

If no timely post-dispositional motion is filed, the party’s appeal period commences on the date of the entry of the dispositional order. If a post-dispositional motion is filed, then the time for filing an appeal commences on the date of entry of the post-dispositional order. For the date of entry of an order, see Pa.R.A.P. 108(a)(1) (“[T]he date of entry shall be the day the clerk of courts . . . mails or delivers copies of the order to the parties, . . .”).

BRIEFS; TRANSCRIPTS; ARGUMENT

Under paragraph (C)(1), the judge should determine, on a case-by-case basis, whether briefs, memoranda of law, or arguments are required for a fair resolution of the post-dispositional motion. [If they are not needed, or if] The judge may order that a concise summary of the relevant law and facts is sufficient [, the judge should so order]. Any local [rules] rule requiring briefs or oral argument [are] in every case is inconsistent with this rule. See [Rule 121(E)] Pa.R.J.A. No. 103(d)(2).

Under paragraph (C)(3), the judge, in consultation with the attorneys, should determine what, if any, portions of the notes of testimony are to be transcribed so that the post-dispositional motion can be resolved. The judge should then set clear deadlines for the court reporter to [insure] ensure timely resolution of the motion. Nothing in this rule precludes the judge from ordering the [transcript] transcription of the notes of testimony or portions of it immediately after the conclusion of the adjudicatory, dispositional, or revocation hearing or the entry of an admission.

For the recording and transcribing of court proceedings generally, see Rule 127. The requirements for the record and the writing of an opinion [on] for an appeal are set forth in the Pennsylvania Rules of Appellate Procedure.

There is no requirement that oral argument be [heard on] held for every post-dispositional motion. When oral argument is [heard on] held concerning the post-dispositional motion, the juvenile need not be present.

DISPOSITION

Under paragraph (D), [once a party makes a timely written post-dispositional motion, the judge retains jurisdiction for the duration of the disposition period. The] the judge may not vacate the order imposing the disposition pending decision [on] of the post-dispositional motion. However, the judge may

vacate or change the disposition once there has been a ruling on the motion if the motion was decided within the time limitations of this rule.

Paragraph (D)(2) permits one 30-day extension of the 30-day time **[limit, for good cause shown,] limitation** upon motion of a party **and good cause shown**. In most cases, an extension would be requested and granted when new counsel has entered the case. Only a party may request such an extension. The judge may not, *sua sponte*, extend the time for the decision: a congested court calendar or other judicial delay does not constitute “good cause” under this rule.

The possibility of an extension is not intended to suggest that thirty days are required for a decision in most cases. The time **[limits] limitations** for resolution of the post-dispositional motion are the outer limits. **[Easily resolvable] Uncomplicated** issues, such as a modification of the disposition or an admission challenge, **ordinarily** should **[ordinarily]** be decided in a much shorter time period **[of time]**.

If the judge decides the motion within the time **[limits] limitations** of this rule, the judge may grant reconsideration on the post-dispositional motion pursuant to 42 Pa.C.S. § 5505 or Pa.R.A.P. 1701(b)(3), but the judge may not vacate the disposition pending reconsideration. The reconsideration period may not be used to extend the timing requirements set forth in paragraph (D) for decision **[on] of** the post-dispositional motion **[: the time limits]**. **The time limitations** imposed by paragraphs (D)(1) and (D)(2) continue to run from the date the post-dispositional motion was originally filed. The judge’s reconsideration, therefore, is to be resolved within the 30-day decision period of paragraph (D)(1) or the 30-day extension period of paragraph (D)(2), whichever applies. If a decision on the reconsideration is not reached within the appropriate period, the post-dispositional motion, including any issues raised for reconsideration, will be denied pursuant to paragraph (D)(3).

Under paragraph (D)(1), on the date when the court disposes of the motion, or the date when the motion is denied by operation of law **pursuant to paragraph (D)(3)**, the judgment becomes final for the purposes of appeal. *See [Judicial Code,]* 42 Pa.C.S. §§ 102, 722, 742, 5105(a), **Pa.R.A.P. 341**, and *Commonwealth v. Bolden*, **[472 Pa. 602,]** 373 A.2d 90 (Pa. 1977). **[See Pa.R.A.P. 341.]**

An order entered by the clerk of courts under paragraph (D)(3) constitutes a ministerial order and **[, as such,]** is not subject to reconsideration or modification pursuant to 42 Pa.C.S. § 5505 or Pa.R.A.P. 1701.

If the motion is denied by operation of law, paragraph (D)(3) requires that the clerk of courts enter an order denying the motion on behalf of the court and immediately notify the attorneys, or the juvenile, if unrepresented, that the motion has been denied. This notice is intended to protect the party’s right to appeal. The clerk of courts also is to comply with the filing, service, and docket entry requirements of Rule 167.

CONTENTS OF ORDER

Paragraph (E) protects a party’s right to appeal by requiring that the judge’s order denying the motion, the clerk of courts’ order denying the motion by operation of law, or the order entered memorializing a party’s with-

drawal of a post-dispositional motion, contain a written notice of the party’s **[appeal] appellate** rights. This requirement ensures adequate notice to the party, which is important given the potential time lapse between the notice provided at **[disposition] the dispositional hearing** and the resolution of the post-dispositional motion. *See also Commonwealth v. Miller*, 715 A.2d 1203 (Pa. Super. **[Ct.]** 1998), concerning the contents of the order memorializing the withdrawal of a post-dispositional motion.

When a party withdraws a post-dispositional motion in open court and on the record, the judge should **[orally]** enter an **oral** order memorializing the withdrawal **[for the record, and]**. **The judge is to** give the party notice of the information required by paragraph (E). *See Commonwealth v. Miller, supra.*

AFTER-DISCOVERED EVIDENCE

Pursuant to paragraph (G), a motion for a new adjudicatory hearing on the grounds of after-discovered evidence may be filed with the court. **If the motion is filed, it is to be in writing after such discovery is made if there is no appeal pending. See Rule 622 for filing a motion for nunc pro tunc relief. If an appeal is pending, the judge may grant the motion only upon remand of the case.**

If there is after-discovered evidence concerning the dispositional hearing, a motion for a change in the dispositional order may be filed with the court. The motion may allege a need for a change in the dispositional order pursuant to Rule 610(B). If this motion is made, notice and an opportunity to be heard is to be given to the parties and the victim. See Rule 610(B) and 42 Pa.C.S. § 6353.

MISCELLANEOUS

Under paragraph (A)(1), the grounds for the post-dispositional motion should be stated with **[particularity] specificity**. Motions alleging insufficient evidence, for example, are to specify **[in what way] the reasons why** the evidence was insufficient, and motions alleging that the court’s findings were against the weight of the evidence are to specify why the findings were against the weight of the evidence.

[Because the post-dispositional motion is optional, the failure to raise an issue with sufficient particularity in the post-dispositional motion will not constitute a waiver of the issue on appeal as long as the issue was preserved before or during adjudication.] Failure to raise a claim with specificity in the post-dispositional motion nonetheless will not constitute a waiver of the issue on appeal if the claim was properly raised. See paragraph (A)(2).

[Issues] Claims properly preserved at the dispositional hearing need not, but may, be raised again in a motion to modify disposition in order to preserve them for appeal. In deciding whether to move to modify the disposition, counsel **should** carefully **[is to]** consider whether the record created at the dispositional hearing is adequate for appellate review of the issues, or the issues may be waived. *See Commonwealth v. Jarvis*, **[444 Pa. Super. 295,]** 663 A.2d 790 (Pa. Super. 1995). As a general rule, the motion to modify the disposition under paragraph (A)(1) gives the dispositional judge the earliest opportunity to modify the disposition. This procedure does

not affect the court's inherent powers to correct an illegal disposition or obvious and patent mistakes in its orders [at] any time before an appeal or upon remand by the appellate court. *See, e.g., Commonwealth v. Holmes*, 933 A.2d 57 (Pa. 2007) (court has inherent power to correct patent and obvious mistakes despite the absence of traditional jurisdiction); *Commonwealth v. Jones*, [520 Pa. 385,] 554 A.2d 50 (Pa. 1989) (court can, *sua sponte*, correct an illegal sentence even after the defendant has begun probation or placement) [and]; *Commonwealth v. Cole*, [437 Pa. 288,] 263 A.2d 339 (Pa. 1970) (inherent power of the court to correct obvious and patent mistakes).

Once a disposition has been modified or reimposed pursuant to a motion to modify the disposition under paragraph (A)(1), a party wishing to challenge the decision on the motion does not have to file an additional motion to modify the disposition in order to preserve an issue for appeal [, as long as] if the issue was properly preserved [at the time] when the disposition was modified or reimposed. *See paragraph (B)(2)*.

REPORT

Proposed New Pa.R.J.C.P. 415 and 518; Proposed Amendment of Rule 620

The Juvenile Court Procedural Rules Committee proposes new Rule 415 and 518, together with the amendment of Rule 620, to provide a procedural mechanism for weight of the evidence claims to be raised before the juvenile court.

In light of *In re J.B.*, 106 A.3d 76 (Pa. 2014), the Committee considered a procedural rule concerning preservation of the weight of the evidence claims for appeal. In that case, a juvenile was charged with offenses related to the shotgun death of his father's fiancé. At the adjudicatory hearing, there was evidence that the victim's former boyfriend had a history of making threats of violence against her, which might have raised doubt about whether the juvenile committed the offenses. The court entered a finding that the juvenile committed the offenses, excluding the former boyfriend as a suspect. The court thereafter held a dispositional hearing and committed the juvenile to a secure detention facility.

The juvenile filed an appeal, claiming that the finding was against the weight of the evidence. A question before the Supreme Court was whether the juvenile waived the

claim by failing to raise it first with the juvenile court. The Court observed that, unlike Pa.R.Crim.P. 607, the Pennsylvania Rules of Juvenile Court Procedure do not contain a provision addressing how or when a weight of the evidence claim should be raised. Moreover, Pa.R.J.C.P. 620 indicates that post-dispositional motions are optional. Ultimately, given the uncertain direction provided by the Rules, the juvenile was permitted to raise the claim in a post-dispositional motion *nunc pro tunc*.

In response, the Committee prepared a proposal concerning weight of the evidence claims and published it for comment at 45 Pa.B. 1491 (March 28, 2015). The proposal provided for a new Rule 420 to require a weight of the evidence claim to be raised by a motion for reconsideration as it relates to a ruling on the offenses, adjudication of delinquency, or transfer to criminal proceedings.

Post-publication, the Committee further revised the proposal to provide for a new Rule 415 addressing claims that a ruling on the offenses or an adjudication of delinquency was against the weight of the evidence. A new Rule 518 would address those types of claims arising from a dispositional order.

In addition, the text to Rule 620 was revised to reflect the required filing of a post-dispositional motion pursuant to new Rule 518 and that post-dispositional motions were no longer optional in all circumstances. Other revisions, including the modification of the Comment, were primarily stylistic or editorial in nature, but for the addition of paragraph (D)(6).

The intention of Rule 620(D)(6) was to accommodate Pennsylvania Rule of Appellate Procedure 1770, which provides for expedited appellate review of out of home placements in delinquency matters. Pa.R.A.P. 1770(a) requires a petition for review of the out of home placement to be filed with ten days of the placement order. Thereafter, an answer may be filed within ten days of service of the petition. Pa.R.A.P. 1770(d). Moreover, the juvenile court has within five days of service of the petition to either file a statement of the reasons for the placement or indicate in the record where the reasons may be found. Pa.R.A.P. 1770(f).

Guided by need to maintain an expedited review process and consistency with *In re J.B.*, the Committee proposes that Rule 620(D)(6) state:

A post-dispositional motion pursuant to Rule 518 seeking to challenge whether an out of home placement was against the weight of the evidence should be decided by the court within the time constraints of Pa.R.A.P. 1770(f) when the issue is raised in a petition for review pursuant to Pa.R.A.P. 1770.

This approach is not without implication. In this narrow category of cases, one impact may be the virtual elimination of the potential for the prosecution to file an answer to the post-dispositional motion before the juvenile court decides the motion. An alternative would be to subject the Rule 518 motion, albeit narrowed to the issue of whether placement was against the weight of the evidence, to the same time line as all other post-dispositional motions. However, this approach appeared contrary to the expeditious goal of Pa.R.A.P. 1770. Another alternative would be to exclude weight of the evidence claims from the operation of Pa.R.A.P. 1770, but that approach seems to erode the purpose of the rule, which is to expedite review of the out of home placement itself. *See* Pa.R.A.P. 1770(c)(1). Yet another alternative would be to exclude these types of claim raised in a petition for review from the requirements of Rule 518, but that approach is contrary to *In re J.B.*

As revised, this proposal is being republished for comment. The Committee invites all comments, concerns, and suggestions regarding this rulemaking proposal.

TITLE 237. JUVENILE RULES

PART I. RULES

Subpart B. DEPENDENCY MATTERS

CHAPTER 16. POST-DISPOSITIONAL PROCEDURES

PART A. SUMMONS, NOTICE, AND REPORTS

Rule 1601. Permanency Hearing Notice.

A. At least fifteen days prior to the hearing, the court or its designee shall give notice of the permanency hearing to:

- 1) all parties;
- 2) the attorney for the county agency;
- 3) the child's attorney
- 4) the guardian's attorney;
- 5) the parents, child's foster parent, preadoptive parent, or relative providing care for the child;
- 6) the court appointed special advocate, if assigned;
- 7) the educational decision maker, if applicable; and
- 8) any other persons as directed by the court.

B. If the county agency intends to request a goal change from reunification, then either the notice shall state this purpose or the county agency shall give separate notice of the intended goal change in accordance with paragraph (A).

Comment

Given the significance of discontinuing the goal of reunification, the requirement of paragraph (B) is intended to ensure that parties, counsel, and interested persons have notice of the purpose of the hearing and are able to prepare to participate and to attend the hearing.

B. Determination made. The court's order shall reflect a determination made pursuant to Rule 1608(D).

C. Transfer of custody. If the court decides to transfer custody of the child to a person found to be qualified to provide care, shelter, and supervision of the child, the permanency order shall include:

2) When appropriate, the court shall appoint an educational decision maker pursuant to Rule 1147.

F. *Orders concerning health care and disability.*

2) The court's orders shall authorize evaluations and treatment if parental consent cannot be obtained.

G. *Guardians.* The permanency order shall include any conditions, limitations, restrictions, and obligations imposed upon the guardian.

H. Orders concerning discontinuation of reunification goal. If the court orders the discontinuation of reunification as a goal and notice was not provided in accordance with Rule 1601(B), then the court may grant rehearing upon request or its own motion.

Comment

When issuing a permanency order, the court should issue an order that is "best suited to the safety, protection, and physical, mental, and moral welfare of the child." 42 Pa.C.S. § 6351(a). *See In re S.J.*, 906 A.2d 547, 551 (Pa. Super. [Ct.] 2006) (citing *In re Tameka M.*, [525 Pa. 348,] 580 A.2d 750 (Pa. 1990)), for issues addressing a child's mental and moral welfare.

Pursuant to paragraph (D), when making its determination for reasonable efforts made by the county agency, the court is to consider the extent to which the county agency has fulfilled its obligation pursuant to Rule 1149 regarding family finding. *See also* Rules 1240(B)(6), 1242(C)(2) & (3)(b) & (c), and 1330(B)(6) and Comments to Rules 1242, 1330, 1409, 1515, 1608, 1610, and 1611 for reasonable efforts determinations.

If the requirements of Rule 1149 regarding family finding have not been met, the court is to make necessary orders to ensure compliance by enforcing this legislative mandate. *See* 62 P.S. § 1301 *et seq.* *See also* Rules 1210(D)(8), 1242(E)(3), and 1409(C) and Comments to Rules 1242, 1408, 1409, 1512, 1514, 1515, 1608, 1610, and 1611.

Pursuant to paragraph (E), the court's order is to address the child's educational stability, including the right to an educational decision maker. The order should address the child's right to: 1) educational stability, including the right to: a) remain in the same school regardless of a change in placement when it is in the child's best interest; b) immediate enrollment when a school change is in the child's best interest; and c) have school proximity considered in all placement changes, 42 U.S.C. §§ 675(1)(G) and 11431 *et seq.*; 2) an educational decision maker pursuant to Rule 1147, 42 Pa.C.S. § 6301, 20 U.S.C. § 1439(a)(5), and 34 C.F.R. § 300.519; 3) an appropriate education, including any necessary special education, early intervention, or remedial services pursuant to 24 P.S. §§ 13-1371 and 13-1372, 55 Pa. Code § 3130.87, and 20 U.S.C. § 1400 *et seq.*; 4) the educational services necessary to support the child's transition to independent living pursuant to 42 Pa.C.S. § 6351 if the child is sixteen or older; and 5) a transition plan that addresses the child's educational needs pursuant to 42 U.S.C. § 675(5)(H) if the child will age out of care within ninety days.

Pursuant to paragraph (F), the court's order is to address the child's needs concerning health care and disability. The order should address the right of: 1) a child to receive timely and medically appropriate screenings and health care services pursuant to 55 Pa. Code §§ 3700.51 and 3800.32 and 42 U.S.C. § 1396d(r); 2) a child to a transition plan that addresses the child's health care needs, and includes specific options for how the child can obtain health insurance after leaving care pursuant to 42 U.S.C. § 675(5)(H) if the child will age out of care within ninety days; and 3) a child with disabilities to receive necessary accommodations pursuant to 42 U.S.C. § 12132; 28 C.F.R. § 35.101 *et seq.*, Section 504 of the Rehabilitation Act of 1973, *as amended*, 29 U.S.C. § 794, and implementing regulations at 45 C.F.R. § 84.1 *et seq.* In addition, the court is to ensure progress and compliance with the child's case plan for the ongoing oversight and coordination of health care services under 42 U.S.C. § 622(b)(15).

Pursuant to the Juvenile Act, the court has authority to order a physical or mental examination of a child and medical or surgical treatment of a minor, who is suffering from a serious physical condition or illness which requires prompt treatment in the opinion of a physician. The court may order the treatment even if the guardians have not been given notice of the pending hearing, are not available, or without good cause inform the court that they do not consent to the treatment. 42 Pa.C.S. § 6339(b).

REPORT

Proposed Amendment of Pa.R.J.C.P. 1601 and 1609

The Juvenile Court Procedural Rules Committee proposes the amendment of Rule 1601 to require notice of the intention to seek a goal change discontinuing reunification and Rule 1609 to permit the court to grant a rehearing if such notice was not provided.

The Committee was informed of circumstances wherein permanency review hearings were resulting in goal changes discontinuing reunification without prior notice that such a goal change was to be decided at the hearing. As shared with the Committee, these events arose either when the county agency did not disclose the intention to

seek a goal change until the hearing or when the judge *sua sponte* changes the goal at the conclusion of the permanency hearing.

Presently, the Rules do not provide a mechanism for providing notice that a goal change is being sought in a permanency review hearing. The Committee notes that “goal change hearings” may be emotional for both the child and the parents. Further, it is best practice to provide notice of an upcoming goal change hearing. See Pennsylvania Children’s Roundtable Initiative. *Pennsylvania Dependency Benchbook* at p. 119. Harrisburg, PA: Office of Children and Families in the Courts, 2010.

Therefore, to provide timely notice and the opportunity to prepare for and attend the hearing, the Committee proposes to amend Rule 1601 to add paragraph (B) to require either the permanency hearing notice to indicate whether the county agency seeks to discontinue a goal of reunification or for the county agency to provide separate notice consistent with paragraph (A) in terms of recipients and timeliness.

The Committee also proposes to amend Rule 1609 to add paragraph (H) to provide for a discretionary rehearing if notice was not given in accordance with Rule 1601(B). This language is based, in part, upon Rule 1243(B) providing for a discretionary rehearing for shelter care hearings. Rule 1609(H) is not intended to encourage noncompliance with Rule 1601(B); rather, it rejects a categorical mandate for a rehearing in every instance and invests the judge with the discretion to determine whether a rehearing is warranted.

The proposed requirements of Rule 1601(B) do not include instances where the judge *sua sponte* orders discontinuation of a goal of reunification without a request from the county agency. Although believed to be a seldom occurrence, the Committee believes that the better practice is for the court to reject the current reunification goal and order the county agency to file for a change of goal so that notice may be provided.

The Committee invites all comments, concerns, and suggestions regarding this rulemaking proposal.

1. Be certified by C.E.T.B.
2. Post a bond with the Clerk of Courts' Office in the sum of \$2,500 conditioned upon the just and faithful discharge by the constable of the duties of his/her office. Proof of licensing and insurance must be provided to the Court Administrator's Office as required by that office. Absence of a driver's license does not preclude a constable who is otherwise approved by the Court to perform judicial duties from working with a constable pursuant to 44 Pa.C.S.A. § 7161(c), provided the unlicensed or uninsured constable does not operate a motor vehicle. However, unless accompanied by another constable who maintains a valid and current Pennsylvania driver's license and required financial responsibility, a constable who does not possess a valid driver's license or required financial responsibility shall not perform judicial duties.
5. Maintain current contact information with the Court Administrator's Office. Current contact information shall include constable's current address, telephone number, and cell phone number. Contact information shall also include information as to any other communication equipment utilized by the constable to perform judicial duties (e.g. pager, fax machine).

forth therein. The acknowledgment shall be in the form attached hereto as "Exhibit A."

9. Provide the Court Administrator's Office with an executed acknowledgment evidencing the constable has received a copy of the Constable Manual for the 56th Judicial District and understands the provisions and terms set forth in the manual governing the performance of judicial duties. The acknowledgment shall be in the form attached hereto as "Exhibit A."

B. *Authorization to Perform Judicial Duties*—No Magisterial District Judge, nor any other Court Official, shall request or otherwise authorize a constable to perform judicial duties, nor shall the Controller authorize payment of fees for a constable performing judicial duties, unless the constable has been designated by the Court Administrator's Office as a constable authorized to perform judicial duties.

1. The Court Administrator's Office shall maintain a list of all constables who are authorized to perform judicial duties within the 56th Judicial District. The Court Administrator's Office shall publish the list with all Magisterial District Judges in the 56th Judicial District; any other Court office utilizing constable services in the performance of judicial duties; the Controller; and the Clerk of Courts Office on a regular basis. This list shall be updated and published at least annually. In the event the privilege of a constable to perform judicial duties is revoked by the Court, the Court Administrator's Office shall promptly notify the identified offices of the same.

2. The Court Administrator's Office shall develop policy and procedure to effectuate and ensure a constable's compliance with the requirements set forth in Section A above.

C. *Removal of Authorization to Perform Judicial Duties*—Although a constable may only be removed or disciplined for acts of malfeasance or misfeasance upon petition of the District Attorney or an individual citizen (see 13 P.S. § 31), a constable's authorization to perform judicial duties pursuant to Section B above may be revoked at any time pursuant to the authority of the President Judge for the 56th Judicial District.

1. A constable's authority to perform judicial duties may be revoked in the following circumstances:

- a. a constable permits his/her compliance with the requirements of Section A above to lapse;
- b. the constable commits a breach of the duties or requirements of this manual including, but not limited to, the Constable Code of Conduct as set forth in Section V herein;
- c. the constable commits any violation of the law while in the performance of judicial duties or is otherwise convicted of criminal conduct which places the integrity or honesty of the constable at issue;
- d. the constable commits any act which jeopardizes public trust in or brings disrespect to the Court.

2. Court Officials who know, or have reason to believe, that a constable has committed a violation of the Code of Conduct or the provisions of the Constable Manual shall promptly inform the Court Administrator's Office of the same.

3. All complaints of constable misconduct, including complaints related to failure to comply with the Constable Manual, shall be promptly investigated by the Court Administrator. The results of the investigation shall be provided to the President Judge for further action, if any.

D. *Minimum Requirements*—Compliance with the provisions of this manual does not guarantee a constable the right to perform judicial duties for a Magisterial District Judge. Rather, the provisions of this section set forth the minimum requirements which must be complied with before a constable may be utilized by a Magisterial District Judge to perform judicial duties. Magisterial District Judges retain the right to assign constable work within their reasonable discretion provided the utilized constable is otherwise in compliance with this section.

III. Warrant Procedures

A. *Definitions*—The following words and phrases shall have, unless the context indicates otherwise, the meanings given to them in this section.

Legal Holiday—For purposes of this manual, the following shall be defined as legal holidays: New Year's Day, Martin Luther King, Jr.'s Day, Presidents' Day, Good Friday, Easter, Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day, the Day after Thanksgiving Day, and Christmas Day. For those holidays identified herein which annually fall on a rotating calendar day, the actual date shall be defined as the day designated as the federal holiday.

Arrest Warrant—An arrest warrant for a misdemeanor/felony offense issued pursuant to Pa.R.Crim.P. 513 et. al by a Magisterial District Judge for private criminal complaints, including those filed by the Pennsylvania Department of Inspector General, and which have been approved by the District Attorney's Office.

Summary Warrant—A warrant issued by a Magisterial District Judge pursuant to Pa.R.Crim.P. 430. This definition includes both arrest warrants and bench warrants issued pursuant to Rule 430.

B. *Summary Warrants and Misdemeanor/Felony Warrants for Private Criminal Complaints*—The following procedures shall apply to the issuance and service of these warrants.

1. Magisterial District Judges possess the exclusive right, subject to the authority of the President Judge, to distribute warrants issued by them to a constable of their choice who satisfies the requirements of the C.E.T.B., this manual, and the Court Administrator's Office to perform judicial duties. Magisterial District Judges shall issue warrants where appropriate pursuant to the Pennsylvania Rules of Criminal Procedure and prevailing law.

2. Upon issuance of a warrant, the Magisterial District Judge may assign the warrant to a constable authorized to perform judicial duties by the Court Administrator's Office. Unless the warrant is unassigned, no constable other than the assigned constable shall serve a warrant within 60 days of the initial issuance of the warrant by the Magisterial District Court, subject to the following:

a. If the subject of the warrant is in the custody of the Sheriff's Department as a result of contact between the subject and the Sheriff's Department unrelated to the warrant or in the custody of prison officials in which case a duplicate warrant may be issued to the Sheriff's Department. In the event the Sheriff's Department serves such a warrant, the Magisterial District Judge, upon notice of the same, shall promptly alert the assigned constable that the warrant has been served; or

b. If the subject of the warrant is present in the Carbon County Courthouse and, as a result of routine examination by the Sheriff's Department of any person appearing before the Court of Common Pleas or other information acquired by the Sheriff's Department, the

Sheriff's Department learns that an individual present in or at the Courthouse is the subject of a warrant, a duplicate warrant may be issued to the Sheriff's Department. In the event the Sheriff's Department serves such a warrant, the Magisterial District Judge, upon notice of the same, shall promptly alert the assigned constable that the warrant has been served; or

c. If the subject of the warrant is in the custody of a constable who has exercised custody pursuant to another warrant issued and served in compliance with this manual in which case the original warrant shall be recalled and reissued to the constable who has custody of the subject; or

d. If the subject of the warrant is in the custody of a constable as the result of execution of another warrant issued by a Court official or Magisterial District Judge of another Judicial District of this Commonwealth in which case the original warrant shall be recalled and reissued to the Constable.

3. Upon service of the warrant, the constable to whom the warrant has been assigned shall immediately notify the issuing authority of service and promptly return a certified copy of the warrant to the District Court evidencing service of the warrant.

4. If the subject of the warrant is in the custody of a municipal or state police officer who, for any reason, has taken the subject before the issuing authority, the Magisterial District Judge shall promptly notify any constable to whom the warrant has been assigned that the warrant has been served.

5. During the normal operating hours of the Magisterial District Court, if a Constable reasonably believes he/she will be able to serve a summary warrant which has been assigned to another Constable, or is unassigned, within the next 12 hours, he/she shall contact the issuing District Court in which case a warrant may be issued to the Constable.

6. All assigned, unserved summary warrants shall be available for service by any constable authorized to perform judicial duties in the 56th Judicial District after the 60th day following issuance of the warrant. In all such cases, it shall be the responsibility of the constable seeking to serve the warrant to review the warrant and determine if the warrant is available to be served by that constable. A constable shall not request a warrant to be reissued unless imminent service of the warrant is anticipated. For purposes of this paragraph, imminent service requires a good faith belief as to the whereabouts of the subject of the warrant and the likelihood that the warrant will be served within the immediately subsequent 12-hour period.

7. When a summary warrant is issued pursuant to Pa.R.Crim.P. 430, upon service of the warrant, the constable shall either:

a. Accept a signed guilty plea together with payment in full of the amount of the fines and costs as stated on the warrant;

b. Accept from the defendant a signed not guilty plea together with payment in full of the amount of the collateral stated on the warrant; or

c. If the defendant is unable to pay the full amount of the fines and costs or collateral, cause the defendant to be taken without unnecessary delay before the issuing authority during normal court hours, or before the on-call Magisterial District Judge.

8. When a constable accepts fines and costs or collateral, the constable shall issue a receipt to the defendant setting forth the amount of the fines and costs or collateral received and promptly return a copy of the receipt, signed by the defendant and constable, to the proper issuing authority. Constables must return the warrant and any pleas, fines, costs, and/or restitution collected to the issuing authority no later than the close of business during the same business day; or if served after normal court hours, on the next business day. Constables should make every effort to resolve service of the warrant as per Pa.R.Crim.P. 430 before physically transporting the defendant to the proper issuing authority, or on-call Magisterial District Judge.

9. A constable shall not serve a summary warrant issued pursuant to Pa.R.Crim.P. 430 at a residence between the hours of 10:00 p.m. and 6:00 a.m., or after 10:00 p.m. on the day preceding a legal holiday until after 6:00 a.m. of the day following the legal holiday.

10. A constable shall not attempt to serve a summary warrant or take the subject of such a warrant into custody unless in possession of a valid warrant.

C. Return of Unserved Warrants

1. A constable who has been issued a warrant pursuant to this manual shall return the warrant to the Magisterial District Court at the expiration of sixty (60) days of its issuance or 12 hours for those warrants issued pursuant to Chapter III, B(5), (6) if the constable is unable to execute or effectuate service within those time periods. Failure to return the warrant within the time period set forth herein may, at the discretion of the President Judge, result in a revocation/restriction of one's right to perform judicial duties.

2. A constable shall not, under any circumstance, make a duplicate or copy of any warrant for purposes of service.

D. Warrant Service on Incarcerated Parties

1. Unless expressly approved in advance by the Issuing Authority, President Judge or Court Administrator, warrant service on parties already incarcerated or otherwise in the custody of prison officials [is not authorized and] will not be compensated.

2. The Court may authorize payment in Summary Warrant matters in the event, through the efforts of a constable seeking a defendant, the constable learns that a defendant is incarcerated in a County jail outside of Carbon County but within the Commonwealth, and relays that information to the issuing authority.

a. The Magisterial District Judge must indicate that he/she was unaware that the defendant was incarcerated in a County jail outside of Carbon County but within the Commonwealth when the warrant was issued.

IV. Compensation

A. *Preliminary Provisions*—Constables shall be paid fees in compliance with the fee schedule set forth in 44 Pa.C.S.A. § 7161 or subsequent legislative act or rule of court. Constables shall not be paid a fee for any judicial act committed in violation of the provisions of this manual. Fees shall not be paid unless the request for fees is made in compliance with the procedures set forth in this chapter.

B. *Reimbursement Procedure*—Constables shall comply with the procedures of this section in seeking reimbursement for services. A request for reimbursement of services not in compliance with the procedures of this section may be denied on that basis.

1. *Magisterial District Judge Warrants*—Payment for the performance of judicial duties related to the issuance of a warrant by a Magisterial District Judge shall be submitted to the Magisterial District Judge who authorized the service on the form prescribed by the Court Administrator's Office or the Administrative Office of the Pennsylvania Courts. See Exhibit "B" attached to this manual. The Magisterial District Judge shall acknowledge receipt of the request by executing the same and promptly forwarding the request to the County Controller's Office for payment. Execution of a constable's fee request by a Magisterial District Judge evidences that the Magisterial District Judge authorized the service for which fee reimbursement is being requested.

2. All reimbursement forms shall be completed in their entirety. A form which is incomplete will be returned to the constable by the Magisterial District Court promptly and shall be considered as not having been filed for purposes of the time period set forth in Section IV(C) of this manual.

C. *Time of Invoice*—Request for payment of all fees shall be made to the Magisterial District Judge in the manner directed by this manual within 30 days of the date of the performed service. Although the County's liability for the payment of fees submitted after 30 days of the date of service shall be controlled by prevailing law, failure to submit requests for payment of fees within the time period set forth herein may result in the revocation of a constable's privilege to perform judicial duties.

D. *Mileage*—The following rules shall apply to reimbursement for actual mileage:

1. Actual mileage for travel by motor vehicle shall be reimbursed at a rate equal to the highest rate allowed by the Internal Revenue Service.

2. No constable shall undertake travel in the performance of judicial duties by any mode other than motor vehicle, unless prior written consent for the same is authorized by the Court Administrator.

3. In effectuating service of a warrant, actual mileage for travel by motor vehicle for purposes of the payment of fees shall be the number of miles from the issuing authority's office to the location where the warrant is served plus the number of miles to the location of commitment, if necessary, plus the number of miles from the commitment location to the issuing authority's office. Where commitment does not occur, actual mileage for travel by motor vehicle for purposes of the payment of fees shall be the number of miles from the issuing authority's office to the location where the warrant is served plus the number of miles to the location where acceptance of payment or collateral is made, plus the number of miles from this location to the issuing authority's office.

E. *Hours Worked*—All work that calculates reimbursement by the hour shall be rounded to the nearest quarter-hour.

F. *Second Constable*—Except for those circumstances described in 44 Pa.C.S.A. § 7161(c), upon prior approval by the issuing authority, when a second constable is utilized in the service of a warrant, the second constable shall also examine the warrant to ensure that service of the warrant is in compliance with the provisions of this Manual. The second constable shall follow all requirements as described in the Manual and will be held to the same standards as the constable who obtained the warrant for service.

The provisions of this code shall be applied to further those objectives. All constables performing judicial duties shall observe the standards of conduct set forth in this section. These standards however shall not limit or preclude, nor be interpreted to limit or preclude, other more stringent standards as established by law or by Court order or rule.

1. Constables shall not solicit, accept, or agree to accept anything of value from any person or entity doing or seeking to do business with, or having an interest in a matter related to the performance of judicial duties.

2. Constables shall not permit family, social, or other relationships to influence their official conduct or judgment, or to create the appearance of influence in the exercise of their official conduct or judgment, while in the performance of judicial duties. Constables performing judicial duties shall inform the Court Administrator of any situation creating undue influence or the appearance of undue influence.

3. Constables shall not use the resources, employees, property, facilities, time, or any funds under their control while in the performance of their judicial duties to improperly benefit them or any other person.

E. *Use of Force*—A constable's use of force shall be consistent with Pennsylvania law and in compliance with training and education provided by the C.E.T.B. A constable shall never employ unnecessary force or violence and shall use only such force in the discharge of duty as is reasonable under the circumstances. While the use of force is occasionally unavoidable, every constable in the performance of judicial duties shall refrain from applying any unnecessary infliction of pain or suffering and shall never engage in cruel, degrading, or inhuman treatment of any person. A constable shall not fire, unholster, or otherwise remove a firearm from its holster in the performance of judicial duties unless the same is necessary for the defense of the constable or others in response to the threat or use of deadly force against the constable or another where the action is consistent with firearms training provided by P.C.C.D. Constables who are arrested, charged with, or convicted of a crime, other than summary traffic offenses not committed while in the performance of judicial duties, regardless of the jurisdiction in which the conduct occurred, shall report this fact to the Court Administrator at the earliest reasonable opportunity, however, in no event shall this report be made later than three (3) business days from the date of the arrest or receipt of charges.

PROPOSED RULEMAKING

PENNSYLVANIA PUBLIC UTILITY COMMISSION

[52 PA. CODE CH. 56]

[L-2015-2508421]

Standards and Billing Practices for Residential Public Utility Service

The Pennsylvania Public Utility Commission (Commission), on July 21, 2016, adopted a proposed rulemaking order to amend Chapter 56 (relating to standards and billing practices for residential public utility service) to comply with the amended provisions of 66 Pa.C.S. Chapter 14 (relating to responsible utility customer protection).

Executive Summary

Act 155 of 2014 reauthorized and amended Chapter 14 of the Public Utility Code (66 Pa.C.S. §§ 1401–1419), Responsible Utility Customer Protection. The Act is intended to protect responsible bill paying customers from rate increases attributable to the uncollectible accounts of customers by providing public utilities with the collection mechanisms and procedures to promote timelier collections, while protecting vulnerable customers by ensuring that utility service remains available to all customers on reasonable terms and conditions. The legislation is applicable to electric distribution utilities, water distribution utilities, natural gas distribution utilities, steam heat utilities, and wastewater utilities. Chapter 56 of the *Pennsylvania Code* at 52 Pa. Code §§ 56.1 et seq. (relating to standards and billing practices for residential utility service) must be revised because amended Chapter 14 supersedes a number of Chapter 56 regulations, and the Commission is directed to revise Chapter 56 and promulgate regulations to administer and enforce Chapter 14. Pursuant to the authority of Sections 501, 1301, 1501, and 1509 of the Public Utility Code, the Commission is amending its existing regulations in Chapter 56 of the *Pennsylvania Code*.

Public Meeting held
July 21, 2016

Rulemaking to Amend the Provisions of 52 Pa. Code, Chapter 56 to Comply with the Amended Provisions of 66 Pa.C.S. Chapter 14; Doc. No. L-2015-2508421

Notice of Proposed Rulemaking Order

By the Commission:

On October 22, 2014, Governor Corbett signed into law HB 939, or Act 155 of 2014. This law became effective on December 22, 2014. The Act reauthorized and amended Chapter 14 of the Public Utility Code (66 Pa.C.S. §§ 1401–1419) (Responsible Utility Customer Protection). The Act is intended to protect responsible bill paying customers from rate increases attributable to the uncollectible accounts of customers by providing public utilities with the collection mechanisms and procedures to promote timelier collections, while protecting vulnerable customers by ensuring that utility service remains available to all customers on reasonable terms and conditions. The legislation is applicable to electric distribution utili-

ties, water distribution utilities, natural gas distribution utilities, steam heat utilities, and wastewater utilities.

Chapter 56 of the *Pennsylvania Code* at 52 Pa. Code §§ 56.1–56.461 (relating to the standards and billing practices for residential utility service) must be revised because the amended Chapter 14 supersedes a number of Chapter 56 regulations, and the Commission is directed to revise Chapter 56 and promulgate regulations to administer and enforce Chapter 14. Five years after the effective date and every five years thereafter, the Commission also must report to the General Assembly regarding the implementation and effectiveness of the amended Act. Chapter 14 expires on December 31, 2024, unless reenacted.

As the initial step of the implementation process, on December 10, 2014, the Commission issued a Secretarial Letter alerting all affected utilities to some of the more significant provisions of Chapter 56 that have been superseded by Act 155.¹ On that same day, the Commission issued another Secretarial Letter directed to steam heat, wastewater, and natural gas distribution utilities reminding them that Act 155 now makes Chapter 14 applicable to all of these entities.²

Secondly in the implementation process, the Commission, in a January 15, 2015 Tentative Order, proposed to start addressing the more urgent implementation matters. See Tentative Order, Chapter 14 Implementation, Docket Number M-2014-2448824 (Order entered January 15, 2015) (Tentative Order). The comments from this Tentative Order assisted us with drafting these regulations.

In reviewing Act 155, the Commission identified in the Tentative Order the following two issues as being the most need of immediate attention:

- Section 1403, Definition of Medical Certificate: The Commission is approving the “form” that a medical certificate must take.
- Section 1410.1(3) and (4): Utility reporting requirements concerning accounts with arrearages in excess of \$10,000.00 and annual reporting of medical certificate usage.

Sixteen interested parties submitted comments in response to the Tentative Order: Aqua Pennsylvania (Aqua); the Coalition for Affordable Utility Service and Energy Efficiency in Pennsylvania (CAUSE); Columbia Gas of PA (Columbia); the Consumer Advisory Council (CAC); the Disability Rights Network of Pennsylvania, MidPenn Legal Services, Neighborhood Legal Services Association and the Pennsylvania Health Law Project (collectively DRN); Duquesne Light (Duquesne); Energy Association of Pennsylvania (EAP); Metropolitan Edison Company, Pennsylvania Electric Company, Pennsylvania Power Company and West Penn Power Company (FirstEnergy); MidPenn Legal Services—Lancaster County (MidPenn); National Fuel Gas Distribution Corporation (NFGDC); the Office of Consumer Advocate (OCA); PECO Energy Company (PECO); the Philadelphia Gas Works (PGW); Peoples Natural Gas (Peoples); PPL Electric Utilities Corporation (PPL); and the Tenant Union Representative Network and Action Alliance of Senior Citizens of Greater Philadelphia (collectively TURN).

¹ See Secretarial Letter re: Act 155 of 2014 Implementation, Docket No. M-2014-2448824 (December 10, 2014); and 52 Pa. Code Chapter 56.

² See Secretarial Letter re: Act 155 of 2014 Applicability and Implementation, Docket No. M-2014-2448824 (December 10, 2014).

On July 9, 2015, the Commission issued Final Order, Chapter 14 Implementation, Docket No. M-2014-2448824 (Order entered July 9, 2015) (Implementation Order). In the Implementation Order, the Commission issued guidance as to the form and content of a medical certificate. Additionally, we summarized our guidelines for 66 Pa.C.S. § 1410.1(3) (relating to public utility duties) regarding reporting requirements for accounts exceeding \$10,000 in arrearages. We further summarized our guidelines for Section 1410.1(4) (relating to public utility duties) regarding reporting requirements for medical certificates. We ask that the parties comment further on these guidelines and the proposed amendments reflecting them in Chapter 56 at Annex A, 52 Pa. Code §§ 56.2, 56.252, 56.113, 56.353, 56.231, and 56.461.

At this point in our implementation process, we have addressed numerous issues involving the application of the amended Chapter 14 provisions. However, we must still address the remaining amended Chapter 14 provisions, including amending the definitions of applicant, customer, and public utility, and clarifying 90-day deposit payment period, revised credit methodology, and the expanded protection from abuse orders (PFAs) to include other court orders. With this Order, we propose revised Chapter 56 provisions to incorporate these amended statutory provisions into our regulations.

Upon consideration of the amended Chapter 14 and all of the comments received to date, we propose adoption of the regulations set forth in Annex A. This action continues the process of revising our Chapter 56 regulations. As provided for under law at 71 P.S. § 745.5, the Commission now seeks comments on the proposed regulations. Persons submitting comments are requested to provide supporting justification for requested revisions and to propose suggested regulatory language for incorporation into the final-form regulations.

Additionally, we are seeking comments from parties relating to the protection from abuse (PFA) subchapters L—V and the language in the amended 66 Pa.C.S. § 1417, “or a court order issued by a court of competent jurisdiction in this Commonwealth, which provides clear evidence of domestic violence against the applicant or customer.” Commentators should include suggested language relating to these other court orders.

We are also seeking comments from parties on material that should be included in the Commission’s privacy guidelines. Amended Chapter 14 referenced the Commission’s privacy guidelines at 66 Pa.C.S. § 1406(b)(1)(ii)(D) (relating to notice of termination of service) that emails, text messages or other electronic messaging must be consistent with the Commission’s privacy guidelines.

Commentators should also include in their comments a specific estimate of the costs and/or savings associated with compliance with these proposed changes, including any legal, accounting, or consulting procedures which may be required and explain how the dollar estimates were derived.

In addition to the changes to make Chapter 56 consistent with the amended Chapter 14, we also are proposing changes to align with other recent regulatory changes such as those in Chapter 57 (relating to electric service) intended to accelerate the switching of electric generation service (52 Pa. Code §§ 57.1—57.259). We also propose some minor revisions to Section 56.100(i) to clarify what is expected of the February winter survey update. Additionally, we are proposing a change to clarify that the burden of proof remains with the party who filed the

informal complaint at Sections 56.173 and 56.403. Finally, we propose some minor revisions to the collections reporting data dictionary in the Appendix C to Chapter 56 to help alleviate some confusion and to make the Chapter 56 reporting requirements more consistent with those found in Chapters 54 and 62 (relating to electricity generation customer choice and natural gas supply customer choice) (52 Pa. Code §§ 54.75 and 62.5). For a summary of all changes and additions to Chapter 56, see Attachment One to this Order.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on February 6, 2017, the Commission submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Consumer Affairs Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b) which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Commission, the General Assembly and the Governor of comments, recommendations or objections raised.

Secretary

Fiscal Note: 57-315. No fiscal impact; (8) recommends adoption.

Attachment One

§ 56.1. *Statement of purpose and policy.*

We are revising this section to expand the applicability of subchapters B—K to wastewater, steam heat and small natural gas companies, in order to align with the revised definition of public utility at 66 Pa.C.S. § 1403 (relating to definitions). Additionally, to align with revised 66 Pa.C.S. § 1417 (relating to nonapplicability), we are also revising this section to clarify that subchapters L—V now apply to not only all customers who have been granted protection from abuse orders but also to customers with a court order providing clear evidence of domestic violence against the applicant or customer and issued by a court of competent jurisdiction in this Commonwealth.

§ 56.2. *Definitions.*

We are revising the definitions of applicant, customer, and public utility to reflect the revised Chapter 14 definition at 66 Pa.C.S. § 1403. We also are adding the definitions of creditworthiness and medical certificate to this Section because they now appear in the revised 66 Pa.C.S. § 1403. We are changing the definition of payment agreement to payment arrangement to reflect the change in terminology in Chapter 14. We are changing this term throughout subchapters B—K wherever the term payment agreement was used. We are adding the definitions of small natural gas distribution utility, steam heat utility and wastewater utility to this section to reflect that these entities are now covered by subchapters B—K (see above concerning Section 56.1, Statement of purpose and policy). Because these entities are now all considered public utilities by Chapter 14 and are no longer treated distinctly, we have changed the term “utility” to “public utility” throughout the chapter. We also are adding a definition of physician assistant since Chapter 14 now permits the filing of medical certificates by physician assistants. Accordingly, we think it is important that this term be defined. This definition is based upon 49 Pa. Code § 18.151(b) (relating to the role of physician assistant).

We propose revising the definition of billing month to allow short-period bills in instances where a customer's change of commodity supplier necessitates the issuance of

a short-period bill in order to effectuate a timely switch of supplier. Recent regulatory changes intended to accelerate the switching of electric generation service now make it possible to switch commodity service in as little as three business days. See 52 Pa. Code §§ 57.173, 57.174 and 57.180 (relating to customer contacts the EGS to request a change in electric supply service; time frame requirement; and implementation). Some utilities, as part of the switching process, will issue a short-period bill to conclude the customer's connection with his or her current supplier, so that billing with the new supplier can start within the three business day timeframe. The Commission has already issued temporary waivers of the current Section 56.1 definition of billing month to facilitate this process,³ and we believe it is necessary to codify this change in billing procedures to eliminate the need for repeated waivers in the future.

§ 56.12. *Meter reading; estimated billing; customer readings.*

We propose adding a new paragraph (6)—Verification of automatic meter reading to incorporate the new requirement at Section 1411 of the Public Utility Code (relating to automatic meter readings) that utilities verify meter readings at the request of the customer.

§ 56.32. *Security and cash deposits.*

We propose to revise subsection (a) and to add a new subsection (d) to align with the new deposit payment timeframes provided for in Section 1404(a) (related to cash deposits and household information requirements). Additionally, we propose revising subsection (a)(2) to note that creditworthiness standards must be provided in a Commission-approved tariff, per Section 1404(a)(2). We propose a new subsection (e) to align with the new Section 1404(a.1) prohibition on customer assistance program (CAP)-eligible customers and applicants paying deposits.

§ 56.36. *Written procedures.*

We propose revising subsection (b) to include incorporation into the utility's written credit procedures the above-noted deposit exception for CAP-eligible applicants, per Section 1404(a.1). We also propose including in the procedures the availability of alternative credit standards, pursuant to Section 1417, for applicants with a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence, in addition to the those applicants who have been granted protection from abuse orders. We likewise propose revising paragraph (b)(1) to include a requirement that utilities provide this information to applicants in writing when credit is denied.

§ 56.38. *Payment period for deposits by applicants.*

We propose revising subsection (a) to align with the new deposit payment timeframes provided for in Section 1404(a) that an applicant has up to 90 days to pay the deposit.

§ 56.41. *General rule.*

We propose adding a new paragraph (4) to align with the new Section 1404(a.1) prohibition on CAP-eligible customers and applicants paying deposits.

§ 56.42. *Payment period for deposits by customers.*

We are revising subsection (d) to align with the new 90 day deposit payment timeframes provided for in Section 1404(a).

³ See Petition of PECO Energy Company for Temporary Waiver of Regulations Related to the Required Days In a Billing Period, Docket P-2014-2446292 (Public Meeting December 4, 2014).

§ 56.53. *Deposit hold period and refund.*

We are eliminating the 24-month deposit retention limit in subsection (a) to align with the same elimination in Section 1404(c)(1).

§ 56.57. *Interest rate.*

The mechanism for determining the interest rate applied to security deposits is being changed to align with the change at Section 1404(c)(6).

§ 56.82. *Timing of Termination.*

Section 1406(d) now only allows a utility to terminate service (for the grounds found at 1406(a) (relating to authorized termination)) Monday through Thursday. We propose revising § 56.82 to align with this new restriction.

§ 56.91. *General notice provisions and contents of termination notice.*

We are revising the information directed to customers on written 10-day termination notices in paragraph (b)(11) to include notice to customers that, pursuant to Section 1417, the special protections available for victims under a protection from abuse order are now also available to those customers with a court order providing clear evidence of domestic violence and issued by a court of competent jurisdiction in this Commonwealth.

§ 56.93. *Personal contact.*

We are revising this section to provide for the optional use of electronic messaging for providing three-day personal notice of termination, per Section 1406(b). We invite comment on the privacy protections and customer consent practices that should be required in the context of electronic messaging. See 66 Pa.C.S. § 1406(b)(1)(ii)(C) and (D).

§ 56.94. *Procedures immediately prior to termination.*

We are revising paragraph (3), addressing procedures for handling dishonored payments in the context of the termination process, to align with Section 1406(h) (relating to termination of utility service) that termination of service may proceed if a customer tenders payment electronically that is subsequently dishonored, revoked, canceled or is otherwise not authorized and which has not been cured or otherwise made full payment within three business days of the utility's notice to the customer.

§ 56.97. *Procedures upon customer or occupant contact prior to termination.*

We are revising paragraph (a)(3) to require utilities to provide universal service program information to consumers upon contact from a consumer during the termination process pursuant to Section 1410.1(1) and (2) (relating to public utility duties).

§ 56.100. *Winter termination procedures.*

We are revising subsection (i) to clarify that the February update of the survey of households without heating service in the winter is to include households terminated in December. Commission staff and utilities have encountered questions about this requirement because the current language is unclear on this point. By failing to include any December terminations, the survey result reported by utilities on February 1 is not a complete picture of the households without utility service in the winter. This proposed revision is intended to correct that possible problem.

§ 56.111. *General provision.*

The revised Chapter 14 now includes a definition of medical certificate at Section 1403, so we propose to remove the definitional information from Section 56.111 and place it in the definitions at Section 56.2. We also refer to physician assistant in addition to physician and nurse practitioner in order to align with the new definition at Section 1403.

§ 56.113. *Medical certifications.*

The Commission, in a January 15, 2015 Tentative Order, proposed to start addressing the more urgent Chapter 14 implementation matters. See Tentative Order, Chapter 14 Implementation, Docket Number M-2014-2448824 (Order entered January 15, 2015) (Tentative Order). In this Tentative Order, the Commission identified the Section 1403 definition of Medical Certificate and the "form" that a medical certificate must take as an urgent priority and asked parties to submit comments. Upon careful review of the comments filed by sixteen participating parties, on July 9, 2015, the Commission issued Chapter 14 Implementation Final Order, Docket No. M-2014-2448824 (Order entered July 9, 2015) (Implementation Order). In the Implementation Order, the Commission issued guidance as to the form and content of a medical certificate, and directed that this guidance will remain applicable until this matter can be more fully addressed in a Chapter 56 rulemaking.

To summarize the guidance the Commission provided in the Implementation Order as to the form a medical certificate shall take in accordance with Section 1403:

1. A written letter or note is permissible as long as it includes the required content.
2. Utilities may develop a form and encourage its use—but its use cannot be mandatory.
3. Utilities that develop such a form are encouraged to make these readily available to medical professionals and customers, including placement on the utility's website.
4. Electronic signatures are valid.
5. Medical certificates that are electronically transmitted (i.e. faxed, emailed, etc.) are valid.

To summarize our guidance as to the content of medical certificates, superseding the regulation at 52 Pa. Code § 56.113(1)—(5):

1. All certifications must be written. The initial oral medical certification with a 7-day window to verify in writing is no longer valid.
2. The name and address of the customer or applicant in whose name the account is registered.
3. The name and address of the afflicted person and relationship to the customer or applicant.
4. The anticipated length of the affliction.
5. The name, office address, and telephone number of the certifying physician, nurse practitioner, or physician assistant.
6. The signature of the certifying physician, nurse practitioner, or physician assistant.

As we explained in the Implementation Order, we do not read the Section 1403 definition of medical certificate to literally mean "a form." The word "form" in this section is used more in the sense of "manner" as in "a manner approved by the Commission." Utilities are free to develop a standard "form" and can encourage its use, its use

cannot be mandatory. We encouraged utilities to make any such form readily available, including ideally placing such form on each utility's website. In this rulemaking order, we propose that if the utility has a medical certificate form that they are required to place this form on the utility's website. Some parties in this proceeding suggested that a collaborative develop a single, statewide standard form—an idea that we agreed may have merit but should await the promulgation of the Chapter 56 medical certification regulations.

Also concerning the form of the medical certificate, the Commission declared that, in adding the definition of medical certificate to Chapter 14, the General Assembly gave clear and unambiguous direction on two key aspects of medical certificates: (1) that they must be written documents; and (2) that they must be signed. Accordingly, the Section 56.113 allowance of verbal medical certificates is legally incompatible with this new definition. Allowing the status quo regarding verbal medical certificates to continue would subvert the intent of the legislature's inclusion of the "written" and "signed" requirements. All medical certifications must be written.⁴ Therefore, the initial oral certification with a 7-day window to verify in writing is no longer valid. 52 Pa. Code § 56.113 (relating to medical certifications). We also noted that this interpretation does not change the current regulation at 52 Pa. Code § 56.112 which provides for a three-day postponement of termination pending receipt of a medical certificate.

As for the contents of a medical certificate at Section 56.113, several parties identified a major concern—specifically the requirements in Section 56.113(3) and (4) which require the medical certificate to include the "nature and anticipated length of the affliction" and the "specific reason for which the service is required." Some parties pointed out that this requires the medical professional to divulge information about the patient's medical condition to the utility—contrary to the privacy and confidentiality of personal medical information that patients have come to expect. The Commission agreed that the "nature" of the affliction found at 52 Pa. Code § 56.113(3) and the specific reason for which service is required found at 52 Pa. Code § 56.113(4) were no longer appropriate nor are they needed. Accordingly, we propose eliminating the "nature" of the affliction and "the specific reason for which service is required" as part of this regulation. However, we do not see the "length of the affliction" at 52 Pa. Code § 56.113(3) in this same subsection as being contrary to patient expectations of privacy; in fact, the utility needs to know this information so as to determine the duration of the medical certificate. See 52 Pa. Code § 56.114. Some parties have suggested that the medical professional's license number be included as a required element on a medical certificate. We invite parties to comment on this possibility.

We also invite parties to comment on any other medical certificate issues they think need to be addressed. For example, some parties have previously asked the Commission to clarify or revise the payment obligations of customers while protected by a medical certificate. See 52 Pa. Code § 56.116. Some parties have asked that the obligation to pay include not only current bills, but also payment towards the arrears. We ask parties that comment on this issue to include an analysis of the ability of the Commission to order payment arrangements be negotiated in these situations in the context of the restrictions

⁴ Electronically transmitted (i.e., faxed, emailed, etc.) medical certificates are considered "written," and thus meet the new requirements of Section 1403. See also 73 P.S. § 2260.303.

upon the Commission found in Section 1405. See 66 Pa.C.S. § 1405 (relating to payment arrangements).

§ 56.163. *Commission informal complaint procedure.*

We propose adding language to paragraph (1) to permit an informal complainant to receive a copy of the documents the utility provides Commission staff in response to an informal complaint. The opportunity to review this information is intended to protect the complainant's due process rights. We acknowledge that there may be some relatively rare instances where these documents may refer to parties other than the complainant. In these instances, the utility is directed to redact any information that may compromise the privacy or personal security of a third party.

§ 56.173. *Review from informal complaint decisions of the Bureau of Consumer Services.*

We propose revising this language to clarify that the burden of proof remains with the party who filed the informal complaint. This language simply makes this provision consistent with existing Commission practices.

§ 56.191. *Payment and timing.*

We are revising paragraph (c)(1) to ensure that the information notifying customers of the special protections that may be available for victims under a protection from abuse order may also now be available to those customers with a court order issued by a court of competent jurisdiction in this Commonwealth, which provides clear evidence of domestic violence, pursuant to Section 1417. See 66 Pa.C.S. § 1417 (relating to nonapplicability).

We are also adding subsection (f) to address procedures for handling dishonored payments tendered by a customer to reconnect service, per Section 1407(c)(3).

§ 56.201. *Public information.*

We are revising paragraph (b)(13) to ensure that the information directed to customers concerning the special protections that may be available for victims under a protection from abuse order may now also be available to those customers with a court order issued by a court of competent jurisdiction in this Commonwealth, which provides clear evidence of domestic violence under Section 1417. See 66 Pa.C.S. § 1417 (relating to nonapplicability).

§ 56.231. *Reporting requirements.*

We propose adding a new requirement at paragraph (a)(13) that requires the utility to report on its usage of electronic formats since Section 1406(b)(1)(ii)(C) now permits utilities to provide 3-day notice of termination by this method in addition to the current reporting of notices by telephone and in person.

We are adding subsections (b)(11), (b)(12), and (c) to incorporate the new reporting requirement at Section 1410.1(3) and (4) involving the annual reporting of accounts exceeding \$10,000 in arrears and the number of medical certificates used by consumers. 66 Pa.C.S. § 1410 (relating to public utility duties). In its Tentative Order, the Commission identified the new reporting requirements at Section 1410.1 as a priority and asked parties to submit comments. In its Implementation Order, the Commission issued guidance as to how utilities should comply with these new reporting requirements, and directed that this guidance will remain applicable until this matter can be more fully addressed in a Chapter 56 rulemaking.

Concerning the annual reporting of medical certificate usage, many parties summarized three possible interpretations of Section 1410.1(4)—noting that it could be read as:

1. To require a single number: the number of medical certificates and renewals that have been submitted and accepted.

2. To require four separate numbers, as proposed in the Tentative Order: (1) the number of initial medical certificates submitted; (2) the number of initial medical certificates accepted; (3) the number of renewals submitted; and (4) the number of renewals accepted.

3. To require: (1) the number of medical certificates and renewals that have been submitted; and (2) the number of medical certificates and renewals that have been accepted.

Many parties found that the third of these approaches is reasonable, and the Commission agreed. The Commission opined that the first interpretation, a single number, would not provide enough detail on a utility's role in overseeing medical certificates, and the second interpretation may require too much information, especially given the limitations in utility data-gathering abilities. The Commission stated that expanding this requirement to require further itemization is best left to a rulemaking where this issue can be fully vetted, and we accordingly invite parties to comment on this.

Concerning the annual reporting of accounts with arrears exceeding \$10,000, the Commission noted that this reporting requirement appears to differ significantly from the traditional utility reporting requirements. Most traditional reporting requirements consist of aggregate data (numbers, sums, totals, averages, etc.). However, with the direction to report annually "residential customer accounts which have accumulated \$10,000 or more in arrearages," it appears that the General Assembly envisioned the reporting of specific accounts in lieu of a "number of accounts" or "averages." If this section is interpreted to mean that utilities are expected to submit account specific data, this presents us with another series of questions. Assuming specific customer accounts are to be reported to the Commission, we asked parties to comment upon what information concerning these accounts is needed and appropriate. We noted that the information reported has to be sufficient for the effective monitoring of utility collection practices while at the same time not compromising the customers' privacy, especially in the context of the Commonwealth's Right-to-Know Law.⁵ In the Implementation Order, we also noted that, while the statute specifies that this reporting should take place "annually," it is silent as to the precise timing and methodology. We invited comments as to whether the Commission should designate an annual "snapshot" date for these reports or possible alternatives to the "snapshot" approach.

Upon careful review of the comments submitted by the parties, we provided the following guidance concerning the data required to comply with Section 1410.1(3):

A. Utilities shall examine their active (i.e. accounts not final-billed) residential accounts at the conclusion of each calendar year. Any account with an arrearage at or exceeding \$10,000 at the time of this "snapshot" shall be reported to the Commission by April 1 of the following year.

B. Accounts where someone has presented a Protection From Abuse (PFA) order, or a court order which provides

clear evidence of domestic violence, to the utility shall not be included in the reporting regardless of the level of arrearages.

C. Each account reported shall be identified to the Commission with a unique label that the utility can match to the account in question. The same unique identifier for each account shall be used in any subsequent reporting to identify that same account.

D. Customer names, addresses, account numbers, phone numbers, email addresses, Social Security numbers or any other information that could be used to identify the customer shall not be included.

E. The information concerning each of the accounts shall include the following:

1. Unique account identifier;
2. The account balance as of the time of the "snapshot;"
3. The date the account was established;
4. The average monthly bill amount for the previous 12 months;
5. The number of Commission informal or formal complaints;
6. The number of company payment arrangements;
7. The number of times the customer's service was terminated for non-payment.

F. Reporting shall begin, under these interim guidelines, with calendar year 2015—with the first annual report due to the Commission by April 1, 2016.

G. The Commission may request more detailed follow-up information on specific accounts.

H. Reports shall be filed at Docket No. M-2014-2448824, with an electronic copy sent to the Director of the Commission's Bureau of Consumer Services.

I. Reports shall be formatted per a specific electronic spreadsheet format provided by Commission staff. The Commission will provide this electronic format by September 1, 2015.

Implementation Order, page 18.

Customer names, addresses, account numbers, phone numbers, email addresses, Social Security numbers or any other information that could be used to identify the customer shall not be included. "Rate class" is not necessary as a data point because this reporting is applicable only to residential customers, per the definition of "customer" at Section 1403 and the language of Section 1410.1(3), which specifies "residential customer accounts."

We agreed with several utilities that the reporting deadline should be April 1 instead of March 1, so as to align with other annual collections reporting requirements found in 52 Pa. Code §§ 54.75 and 56.231. Most parties agreed that this reporting requirement is intended to collect data on individual accounts—not just aggregate data. We note that if the General Assembly had wanted just general, aggregate data (totals, averages, percentages, etc.) it could easily have asked for such. In fact, it did just that in paragraph (4) in Section 1410.1 where it specifies "number" when discussing the reporting of medical certificates. The lack of the word "number"—as in "number of accounts"—in paragraph (3) concerning the \$10,000 arrearage reporting requirement cannot be ignored.

⁵ Pennsylvania Right to Know Law (RTK), 65 P.S. §§ 67.101, et seq. For more information on the PUC's "Right to Know" procedures, see http://www.puc.pa.gov/filing_resources/obtain/file_information/right_to_know_policies_and_procedures.aspx.

As we did in the Tentative Order, we are proposing a “snapshot” approach, picking December 31 and requiring the reporting of any account at or exceeding the \$10,000 arrearage level as of that date. Almost all parties agreed that the reporting of accounts should be done in a manner to protect the identity and privacy of customers and this is what we have proposed. We propose that the accounts reported should be labeled with a unique identifier known only to the utility which protects the identity of the customer. The unique identifier shall allow the utility and the utility alone to identify the account in case additional information is requested on that account. The unique identifier shall also be used for that same account in any subsequent reporting so that the Commission can determine to what extent the same accounts are appearing on the report year after year. This ability to detect repeated appearances of the same account on subsequent reports is essential in fulfilling the General Assembly’s intent that the Commission closely monitor the effectiveness of utility collection activities.

The parties offered many different opinions on just what type of accounts should be or should not be included in the reporting. We agreed with parties that advised the reporting should only include accounts that are “active” (i.e. not final-billed) at the time of the reporting, because we want to focus this reporting on accounts that are active and can have active collection actions applied. Once an account is final-billed, collection options become more limited.

Several parties pointed out other account types that they think should be excluded from this reporting requirement for various reasons. These included CAP accounts; landlord-ratepayer accounts; bankruptcy related accounts; accounts involving civil litigation; accounts on an amortization or payment agreement; accounts involving theft or unauthorized use; and accounts associated with a PFA. The rationale offered for the possible exemption for most of these is that traditional collection tools are not necessarily available for these types of accounts. However, we note that the reporting requirement at Section 1410.1 makes no mention of the applicability of various collection methods available, and if the General Assembly had intended this reporting requirement to be specifically targeted to accounts subject to specific collection methods or subject to a specific law or regulation, it could have done so. To the contrary, we believe the General Assembly created this reporting requirement to specifically gauge the impact of various collection practices and various regulations and laws.

However, we agree with parties that sought to exempt from the reporting requirement those accounts that involve a customer with a PFA or other court order that provides evidence of domestic violence. Including PFA accounts could intrude on the privacy and security of PFA holders—a key to the security and privacy for any PFA holder is to limit the disclosure of such information to only those that have an important need to know. For the purposes of this reporting requirement, we do not find the grounds for asking for this information and including it in the reporting is sufficient enough to warrant the possible risks to the privacy and security of PFA holders. Accordingly, we propose to exclude these accounts among the accounts reported under the proposed Section 56.231(c).

The parties also offered many suggestions on what data should or should not be included in this report. The total list of possible data points submitted by the parties included the account balance as of the time of the snapshot; the time period over which the arrearage

accrued; the average monthly bill amount; the number of Commission informal or formal complaints; the number of payment arrangements; whether the ratepayer is a landlord ratepayer; the history of universal service program participation and assistance; an indication of whether de facto electric heating is occurring at the premises; the payment history; the customer’s income; the number of medical certificates filed; the number of dishonored payments; bankruptcy; the number of termination notices issued; the number of times the customer was shut off for non-payment; and any indicator of meter access problems.

While the Commission agrees that many of these items are interesting, most are not critical, and we must be mindful of the burdens on utilities to compile this information. Accordingly, we limited the data to the seven points we are proposing in Section 56.231(c). We propose including the date that the account was opened because this will provide us with meaningful data that should give us an idea as to how long the arrearage was building. We also propose the average bill amount for the previous twelve months, as we think this will give us an idea as to the customer’s usage, and more than twelve months is not necessary and could impose unreasonable burdens on the utility. We also agree with several parties that suggested the number of service terminations would be useful; it is an important indicator of the level and intensity of utility collection activity on an account, and we have included this in the proposed regulation. We also agree with the parties that suggested the data include the number of Commission informal and formal complaints filed, for these can impact the collection activities on an account (disputed account balances are usually protected from collection activity while a complaint is pending at the Commission).

Finally, we propose revising Section 56.231 by adding new subsection (d). It is important to note that this is not a new requirement—we are simply consolidating the utility reporting requirement rules in Chapter 56 into one section—Section 56.231. The new subsection (d) can currently be found in Section 56.461, which we propose to eliminate. Consolidation will assist utilities in locating and complying with these requirements.

Subchapters L—V

§ 56.251. Statement of purpose and policy.

This section has been revised to expand the applicability of subchapters L—V to now apply not only to all customers who have been granted protection from abuse orders but also to customers with a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence against the applicant or customer, as to align with revised Section 1417. See 66 Pa.C.S. § 1417 (relating to nonapplicability). Additionally, as to align with the revised definition of public utility at Section 1403 (relating to definitions), the applicability of these same subchapters to wastewater, steam heat and small natural gas companies has been removed. The applicable subchapters for these entities will be B through K—the same as other utilities. See Section 56.1, Statement of purpose and policy.

§ 56.252. Definitions.

The definition of public utility has been revised to reflect the revised Chapter 14 definition at Section 1403. See 66 Pa.C.S. § 1403 (relating to definitions).

A definition of physician assistant has been added since Chapter 14 now permits the filing of medical certificates by physician assistants. Accordingly, we think it is impor-

tant that this term be defined. This definition is based upon 49 Pa. Code § 18.151(b) (relating to the role of physician assistant). This revision provides additional protections to the customers covered by subchapters L—V.

We are adding the definitions of small natural gas distribution utility, steam heat utility and wastewater utility to this section to reflect that these entities are now covered by subchapters B—K (see above concerning Section 56.1, Statement of purpose and policy). Because these entities are now all considered public utilities by Chapter 14 and are no longer treated distinctly, we have changed the term “utility” to “public utility” throughout the chapter.

We propose revising the definition of billing month as to allow short-period bills in instances where a customer’s change of commodity supplier necessitates the issuance of a short-period bill in order to effectuate a timely switch of supplier. Recent regulatory changes intended to accelerate the switching of electric generation service now make it possible to switch commodity service in as little as three business days. See 52 Pa. Code §§ 57.173, 57.174 and 57.180. Some utilities, as part of the switching process, will issue a final short-period bill for the customer’s current supplier so that billing with the new supplier can start within the three business day timeframe. The Commission has already issued temporary waivers of the Section 56.1 definition of billing month to facilitate this process,⁶ and we believe it is necessary to codify this change in billing procedures to eliminate the need for repeated waivers in the future.

§ 56.262. *Meter reading; estimated billing; customer readings.*

We propose adding a new paragraph (6)—Verification of automatic meter reading to incorporate the new requirement at Section 1411 that utilities verify meter readings at the request of the customer. See 66 Pa.C.S. § 1411 (relating to automatic meter readings). This revision provides additional protections to the customers covered by subchapters L—V.

§ 56.282. *Credit standards.*

We propose new paragraph (4) to align with the new Section 1404(a.1) prohibition on CAP-eligible customers and applicants paying deposits. This revision provides additional protections to the customers covered by subchapters L—V.

§ 56.286. *Written procedures.*

We propose revising this regulation to include incorporation into the utility’s written credit procedures the deposit exception in Section 56.282 for CAP-eligible applicants, per Section 1404(a.1). We also propose including in the procedures the availability of alternative credit standards for applicants with a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence, in addition to the those applicants who have been granted protection from abuse orders, pursuant to Section 1417. We likewise propose revising paragraph (1) to include a requirement that utilities provide this same information to applicants in writing when credit is denied. These revisions will provide additional protections to the customers covered by subchapters L—V.

⁶ See Petition of PECO Energy Company for Temporary Waiver of Regulations Related to the Required Days In a Billing Period, Docket P-2014-2446292 (Order entered December 4, 2014).

§ 56.291. *General rule.*

We propose new paragraph (4) to align with the new Section 1404(a.1) prohibition on CAP-eligible customers and applicants paying deposits. This revision provides additional protections to the customers covered by subchapters L—V.

§ 56.306. *Interest rate.*

We propose changing the mechanism for determining the interest rate applied to security deposits to align with the change at Section 1404(c)(6). We believe this change is neutral from a customer protection perspective. Whether this change is beneficial compared to the existing language depends upon prevailing interest rates. At times, this revision will favor customers compared to the current rule; at other times, possibly not so. Since the impact on consumers is neutral, we think making the interest rate calculation the same for all security deposits is the most reasonable approach. Requiring utilities to assess and track differing interest rates on different deposits would impose burdens on utilities while providing no clear benefit to consumers.

§ 56.331. *General notice provisions and contents of termination notice.*

We propose revising the information directed to customers on written ten-day termination notices in paragraph (9) to include notice to customers that the special protections available for victims under a protection from abuse order are now also available to those customers with a court order issued by a court of competent jurisdiction in this Commonwealth, which provides clear evidence of domestic violence, per Section 1417.

§ 56.333. *Personal contact.*

We propose revising this section to provide for the optional use of electronic messaging for providing three-day personal notice of termination, per Section 1406(b). This revision provides additional protections to the customers covered by subchapters L—V. We invite comment on the privacy protections and the customer consent practices that should be required in the context of electronic messaging. See 66 Pa.C.S. § 1406(b)(1)(ii)(C) and (D).

§ 56.337. *Procedures upon customer or occupant contact prior to termination.*

We propose revising subparagraph (iv) is to require utilities to provide universal service program information to consumers upon contact from a consumer during the termination process, pursuant to Section 1410.1(1) and (2).

§ 56.340. *Winter termination procedures.*

We propose revising paragraph (5) to clarify that the February update of the survey of households without heating service in the winter is to include households terminated in December. Commission staff and utilities have encountered questions about this section because the current language is unclear on this point. By failing to include any December terminations, the survey result reported on February 1 is not a complete picture of the households without utility service in the winter. This proposed revision is intended to correct that possible problem.

§ 56.351. *General provision.*

We refer to physician assistants in addition to physician and nurse practitioner in order to align with the new

definition at Section 1403. This revision provides additional protections to the customers covered by subchapters L—V.

§ 56.353. *Medical certifications.*

We refer to physician assistants in addition to physician and nurse practitioner in order to align with the new definition at Section 1403. We also propose revising this section to make it similar to the changes we are proposing to the analogous Section 56.113—specifically by removing the requirements in Subsections 56.353(3) and (4), which require the medical certificate to include the “nature and anticipated length of the affliction” and the “specific reason for which the service is required.” This section currently requires the medical professional to divulge information about the patient’s medical condition to the utility—contrary to the privacy and confidentiality of personal medical information that patients have come to expect. Accordingly, we propose eliminating the “nature” of the affliction and “the specific reason for which service is required” as part of this regulation. However, we do not see the “length of the affliction” at Subsection 56.353 (3) as being contrary to patient expectations of privacy; in fact, the utility needs to know this information to determine the duration of the medical certificate. See 52 Pa. Code § 56.354. Some parties have suggested that the medical professional’s license number be included as a required element on a medical certificate. We invite parties to comment on this possibility.

§ 56.392. *Commission informal complaint procedure.*

We propose adding language to paragraph (1) to permit an informal complainant to receive a copy of the documents the utility provides Commission staff in response to an informal complaint. The opportunity to review this information is intended to protect the complainant’s due process rights. We acknowledge that there may be some relatively rare instances where these documents may refer to parties other than the complainant. In these instances, the utility is directed to redact any information that may compromise the privacy or personal security of a third party.

§ 56.403. *Review from informal complaint decisions of the Bureau of Consumer Services.*

We propose revising this language to clarify that the burden of proof remains with the party who filed the informal complaint. This language simply makes this provision consistent with existing Commission practices.

§ 56.421. *Payment and timing.*

We propose revising paragraph (7) to ensure that the information notifying customers that the special protections that may be available for victims under a protection from abuse order may also now be available to those customers with a court order providing clear evidence of domestic violence and issued by a court of competent jurisdiction in this Commonwealth, per Section 1417.

§ 56.431. *Public information.*

We propose revising paragraph (13) to ensure that the information directed to customers concerning the special protections that may be available for victims under a protection from abuse order may now also be available to those customers with a court order providing clear evidence of domestic violence and issued by a court of competent jurisdiction in this Commonwealth, per Section 1417.

§ 56.461. *Reporting requirements.*

We propose removing Section 56.461 and moving these requirements to the new Subsection 56.231(d). Consoli-

dating utility reporting requirements into one section of the regulations will assist utilities in locating and complying with these requirements.

Chapter 56, Appendix A

We refer to physician assistants in addition to physician and nurse practitioner in order to align with new definition at Section 1403.

Chapter 56, Appendix B

We refer to physician assistants in addition to physician and nurse practitioner in order to align with new definition at Section 1403.

Chapter 56, Appendix C

The intent of Appendix C is to provide a data dictionary to assist utilities in complying with the collections reporting requirements at Section 56.231. Providing explanations and definitions assists in obtaining consistent, uniform data from all utilities. This uniformity and consistency facilitates the validity of comparing the different utilities and their collections performances. This is essential for the Commission in complying with the Chapter 14 reporting requirements mandated by the General Assembly in Section 1415. See 66 Pa.C.S. § 1415 (relating to reporting to General Assembly and Governor). We are proposing some minor revisions to a few of the definitions. The revisions are intended to clarify a few of the definitions that have presented problems in the past and which have been questioned. Some of the revisions will also assist in aligning the Chapter 56 reporting requirements with reporting requirements found in Chapters 54 and 62. 52 Pa. Code § 54.75(1)(ii), (iii), (ix); 52 Pa. Code § 62.5(a)(1)(ii), (v), (ix), (xii).

The definition of Annual collections operating expenses as currently written is open to interpretation—causing utilities to submit inconsistent data for the reporting requirements. We are proposing to revise this definition in an attempt to establish consistency with the reporting requirements at Sections 54.75(1)(ii) and 62.5(a)(1)(ii).

The definition of Annual residential billings as currently written is open to interpretation, causing utilities to submit inconsistent data for the reporting requirements. We are proposing to revise this definition in an attempt to establish consistency with the reporting requirements at Section 62.5(a)(1)(v).

The definition of Total dollar amount of gross residential write-offs and Total dollar amount of net residential write-offs as currently written are open to interpretation, causing utilities to submit inconsistent data for the reporting requirements. We are proposing to revise this definition in an attempt to establish consistency with the reporting requirements at Sections 54.75(1)(iii) and 62.5(a)(1)(iii).

The definition of Total number of reconnections for reasons other than customer payment or medical certification as currently written is open to interpretation, causing utilities to submit inconsistent data for the reporting requirements. We are proposing to revise this definition in an attempt to establish consistency with the reporting requirements at Sections 54.75(1)(ix) and 62.5(a)(1)(xii).

Chapter 56, Appendix D

We reference Section 56.231(d) in Appendix D rather than Section 56.461 since this was deleted altogether from Annex A. These reporting requirements now appear in Section 56.231(d)

* * * * *

(b) A public utility may utilize electronic billing in lieu of mailed paper bills. Electronic billing programs must include the following requirements:

* * * * *

(5) The electronic bill must include the option for the customer to contribute to the public utility’s hardship fund if the **public** utility is able to accept hardship fund contributions by this method.

* * * * *

§ 56.12. Meter reading; estimated billing; customer readings.

Except as provided in this section, a public utility shall render bills based on actual meter readings by public utility company personnel.

* * * * *

(5) *Remote reading devices for water, gas and electric public utilities.* A public utility may render a bill on the basis of readings from a remote reading device under the following conditions:

* * * * *

(iv) Nothing in this section may be construed to limit the authority of electric, gas or water utilities to gain access to a residence for the purpose of checking or reading a meter.

(6) Verification of automatic meter reading. Upon a customer request, the public utility shall secure an in-person meter reading to confirm the accuracy of an automatic meter reading device when a customer disconnects service or a new service request is received. A public utility may charge a fee, as provided in a Commission-approved tariff.

[(6)] (7) *Limitation of liability.* If a water public utility has estimated bills and if the customer or occupant during that period has consumed an amount of water in excess of normal seasonal usage because of a verified leak that could not reasonably have been detected or other unknown loss of water, the customer is not liable for more than 150% of the average amount of water consumed for the corresponding period during the previous year. This section does not apply when the water public utility was unable to gain access and has complied with paragraph (4).

[(7)] (8) *Budget billing.* A gas, electric and steam heating public utility shall provide its residential customers, on a year-round rolling enrollment basis, with an optional billing procedure which averages estimated public utility service costs over a 10-month, 11-month or 12-month period to eliminate, to the extent possible, seasonal fluctuations in **public** utility bills. The public utility shall review accounts at least three times during the optional billing period. At the conclusion of the budget billing year, a resulting reconciliation amount exceeding \$100 but less than \$300 shall be, at the request of the

customer, amortized over a 6-month period. Reconciliation amounts exceeding \$300 shall be amortized over at least a 12-month period at the request of the customer. Shorter amortization periods are permissible at the request of the customer.

[(8)] (9) *Notice.* The public utility shall inform existing customers of their rights under this section and 66 Pa.C.S. § 1509 (relating to billing procedures).

§ 56.17. Advance payments.

Payments may be required in advance of furnishing any of the following services:

- (1) Seasonal service.
- (2) The construction of facilities and furnishing of special equipment.

(i) The customer is nonlow income. For purposes of this section, “nonlow income” is defined as an individual who has an annual household gross income greater than 150% of the Federal poverty income guidelines and has a delinquency for which the individual is requesting a payment [**agreement**] **arrangement** but offering terms that the public utility, after consideration of the factors in § 56.97(b) (relating to procedures upon customer or occupant contact prior to termination), finds unacceptable.

(ii) The service is being rendered to an individually-metered residential dwelling, and the customer and occupants are the only individuals affected by the installation of a prepayment meter.

(iii) The customer and public utility enter into a payment [**agreement**] **arrangement** which includes, but is not limited to, the following terms:

* * * * *

(v) During the first 2 years of use of prepayment meters, the public utility thoroughly and objectively evaluates the use of prepayment meters in accordance with the following:

(A) *Content.* The evaluation should include both process and impact components. Process evaluation should focus on whether the use of prepayment meters conforms to the program design and should assess the degree to which the program operates efficiently. The impact evaluation should focus on the degree to which the program achieves the continuation of **public** utility service to participants at reasonable cost levels. The evaluation should include an analysis of the costs and benefits of traditional collections or alternative collections versus the costs and benefits of handling nonlow income positive ability to pay customers through prepayment metering. This analysis should include comparisons of customer payment behavior, energy consumption, administrative costs and actual collection costs.

* * * * *

PAYMENTS

§ 56.21. Payment.

The due date for payment of a bill may not be [**no**] less than 20 days from the date of transmittal; that is, the date of mailing, electronic transmission or physical delivery of the bill by the public utility to the customer.

* * * * *

§ 56.23. Application of partial payments between public utility and other service.

Payments received by a public utility without written instructions that they be applied to merchandise, appliances, special services, meter testing fees or other nonbasic charges and which are insufficient to pay the balance due for the items plus amounts billed for basic public utility service shall first be applied to the basic charges for residential public utility service.

§ 56.24. Application of partial payments among several bills for public utility service.

In the absence of written instructions, a disputed bill or a payment [agreement] arrangement, payments received by a public utility which are insufficient to pay a balance due both for prior service and for service billed during the current billing period shall first be applied to the balance due for prior service.

Subchapter C. CREDIT AND DEPOSITS STANDARDS POLICY PROCEDURES FOR APPLICANTS

§ 56.32. Security and cash deposits.

(a) [A public utility may require a cash deposit] In addition to the right to collect a deposit under any Commission regulation or order, the public utility may require a cash deposit, payable during a 90-day period in accordance with Commission regulations, in an amount that is equal to 1/6 of an applicant's estimated annual bill at the time the public utility determines a deposit is required, based upon the following:

(1) An applicant who previously received public utility distribution services and was a customer of the public utility and whose service was terminated for any of the following reasons:

* * * * *

(v) Failure to comply with the material terms of a payment [agreement] arrangement.

* * * * *

(2) An applicant who is unable to establish creditworthiness to the satisfaction of the public utility through the use of a generally accepted credit scoring methodology, as provided in a Commission-approved tariff, and which employs standards for using the methodology that fall within the range of general industry practice. The credit scoring methodology utilized for this purpose must specifically assess the risk of public utility bill payment.

* * * * *

(c) Prior to providing public utility service, a public utility may require the applicant to provide the names of each adult occupant residing at the location and proof of their identity. For purposes of this section, valid identification consists of one government issued photo identification. If one government issued photo identification is not available, the public utility may require the applicant to present two alternative forms of identification, as long as one of the identifications includes a photo of the individual. In lieu of requiring identification, the public utility may ask, but may not require, the individual to provide the individual's Social Security Number. Public utilities shall take all appropriate actions needed to ensure the privacy and confidentiality of identification information provided by their applicants and customers.

(d) A public utility is not required to provide service if the applicant fails to pay the full amount of the cash deposit within the time period under subsection (a).

(e) Notwithstanding subsection (a), a public utility may not require a customer that is confirmed to be eligible for a customer assistance program to provide a cash deposit.

§ 56.35. Payment of outstanding balance.

* * * * *

(b) A public utility may not require, as a condition of the furnishing of residential service, payment for residential service previously furnished under an account in the name of a person other than the applicant, except as provided for in paragraphs (1) and (2).

(1) A public utility may require the payment of an outstanding balance or portion of an outstanding balance if the applicant resided at the property for which service is requested during the time the outstanding balance accrued and for the time the applicant resided there, not exceeding 4 years from the date of the service request. The 4-year limit does not apply if the balance includes amounts that the public utility was not aware of because of fraud or theft on the part of the applicant.

* * * * *

§ 56.36. Written procedures.

* * * * *

(b) A public utility shall establish written procedures for determining the credit status of an applicant and for determining responsibility for unpaid balances in accordance with § 56.35 (relating to payment of outstanding balance). The written procedures must specify that there are separate procedures and standards for victims with a protection from abuse order or a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence. The procedures must also specify that any applicant that is confirmed to be eligible for a customer assistance program will not be required to pay a deposit. A public utility employee processing applications or determining the credit status of applicants shall be supplied with or have ready access to a copy of the written procedures of the public utility. A copy of these procedures shall be maintained on file in each of the business offices of the public utility and made available, upon request, for inspection by members of the public and the Commission and be included on the public utility's web site.

(1) Reasons for denial of credit. If credit is denied, the public utility shall inform the applicant in writing of the reasons for the denial within 3 business days of the denial. This information may be provided electronically to the applicant with the applicant's consent. The written denial statement must include the provider of the credit score, information on the applicant's ability to challenge the accuracy of the credit score and how to contact the credit score provider. If the public utility is requiring payment of an unpaid balance in accordance with § 56.35, the public utility shall specify in writing the amount of the unpaid balance, the dates during which the balance accrued and the location and customer name at which the balance accrued. The statement must inform the applicant of the right to furnish a third-party guarantor in accordance with § 56.33 (relating to third-party guarantors) and the right to contact the Commission. The statement must include information informing victims of

domestic violence with a protection from abuse order or a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence that more lenient credit and liability standards may be available. The statement must also inform the applicant that if he is confirmed to be eligible for a customer assistance program a deposit is not required.

* * * * *

§ 56.38. Payment period for deposits by applicants.

(a) An applicant required to pay a deposit under § 56.32 (relating to security and cash deposits) [may be required by the public utility to pay the deposit in full prior to the provision of public utility service] shall have up to 90 days to pay the deposit in accordance with Commission regulations.

* * * * *

PROCEDURES FOR EXISTING CUSTOMERS

§ 56.41. General rule.

A public utility may require an existing customer to post a deposit to reestablish credit under the following circumstances:

(1) *Delinquent accounts.* Whenever a customer has been delinquent in the payment of any two consecutive bills or three or more bills within the preceding 12 months.

* * * * *

(ii) Except in the case of adjustments to budget billing plans, a public utility may issue a notification or subsequent request for a deposit based, in whole or in part, on a delinquent account arising out of a make-up bill as defined in § 56.14 (relating to previously unbilled public utility service) under the following conditions:

(A) The public utility has complied with § 56.14. Compliance with a payment [agreement] arrangement by the customer discharges the delinquency and a notification or request for deposit may not thereafter be issued based on the make-up bill.

(B) If a make-up bill exceeds the otherwise normal estimated bill by at least 50% and if the customer makes payment in full after the bill is delinquent but before a notification of intent to request a deposit is given to the customer, a notification or request for deposit may not thereafter be issued based on the make-up bill.

(2) *Condition to the reconnection of service.* A public utility may require a deposit as a condition to reconnection of service following a termination in accordance with § 56.191 (relating to payment and timing).

(3) *Failure to comply with payment [agreement] arrangement.* A public utility may require a deposit, whether or not service has been terminated, when a customer fails to comply with a material term or condition of a payment [agreement] arrangement.

(4) *Cash deposit prohibition.* Notwithstanding paragraphs (1)—(3), a public utility may not require a customer or an applicant that is confirmed to be eligible for a customer assistance program to provide a cash deposit.

§ 56.42. Payment period for deposits by customers.

* * * * *

(d) *Failure to comply with a payment [agreement] arrangement.* A customer paying a deposit under § 56.41(3) may be required to pay the deposit in [full upon the determination of the utility that a deposit is required] three installments: 50% billed upon the determination by the public utility that the deposit is required; 25% billed 30 days after the determination; and 25% billed 60 days after the determination. The public utility shall inform the customer of the option to pay the deposit in the installments described in this subsection. The customer retains the option to pay the deposit amount in full before the due date.

CASH DEPOSITS

§ 56.53. Deposit hold period and refund.

(a) A public utility may hold a deposit until a timely payment history is established [or for a maximum period of 24 months].

(b) A timely payment history is established when a customer has paid in full and on time for 12 consecutive months.

(c) At the end of the deposit holding period as established in subsection (a), the public utility shall deduct the outstanding balance from the deposit and return or credit any positive difference to the customer. At the option of the public utility, a cash deposit, including accrued interest, may be refunded in whole or in part, at any time earlier than the time stated in this section.

* * * * *

§ 56.57. Interest rate.

The public utility shall accrue interest on the deposit until it is returned or credited [the legal rate of interest under section 202 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 202), known as the Loan Interest and Protection Law, and return the interest with the deposit].

(1) Interest shall be computed at the simple annual interest rate determined by the Secretary of Revenue for interest on the underpayment of tax under section 806 of The Fiscal Code (72 P.S. § 806).

(2) The interest rate in effect when the deposit is required to be paid shall remain in effect until the date the deposit is refunded or credited, or December 31, whichever is later.

(3) On January 1 of each year, the new interest rate for that year will apply to the deposit.

Subchapter D. INTERRUPTION AND DISCONTINUANCE OF SERVICE

§ 56.72. Discontinuance of service.

A public utility may discontinue service without prior written notice under the following circumstances:

* * * * *

(2) *Other premises or dwellings.* Other premises or dwellings as follows:

(i) When a customer requests discontinuance at a dwelling other than the customer's residence or at a single meter multifamily residence, whether or not the customer's residence but, in either case, only under either of the following conditions:

(A) The customer states in writing that the premises are unoccupied. The statement must be on a form con-

spicuously bearing notice that information provided by the customer will be relied upon by the Commission in administering a system of uniform service standards for public utilities and that any false statements are punishable criminally. When the customer fails to provide a notice, or when the customer has falsely stated the premises are unoccupied, the customer shall be responsible for payment of public utility bills until the public utility discontinues service.

* * * * *

**Subchapter E. TERMINATION OF SERVICE
GROUNDS FOR TERMINATION**

§ 56.81. Authorized termination of service.

A public utility may notify a customer and terminate service provided to a customer after notice as provided in §§ 56.91—56.100 (relating to notice procedures prior to termination) for any of the following actions by the customer:

* * * * *

(4) Failure to comply with the material terms of a payment [**agreement**] **arrangement**.

§ 56.82. Timing of termination.

A public utility may terminate service for the reasons in § 56.81 (relating to authorized termination of service) from Monday through [**Friday**] **Thursday** as long as the public utility is able to accept payment to restore service on the day of termination and on the following day and can restore service consistent with § 56.191 (relating to payment and timing).

§ 56.83. Unauthorized termination of service.

Unless expressly and specifically authorized by the Commission, service may not be terminated nor will a termination notice be sent for any of the following reasons:

* * * * *

(6) Noncompliance with a payment [**agreement**] **arrangement** prior to the due date of the bill which forms the basis of the agreement.

(7) Nonpayment of charges for public utility service for which the **public** utility ceased billing more than 4 years prior to the date the bill is rendered.

If a bill resulting from a meter rerouting exceeds 60 days, the customer shall be given the opportunity to amortize the amount over a period equal to the period covered by the bill without penalty.

Dwelling—A house, apartment, mobile home or single meter multiunit structure being supplied with residential service.

If a **public** utility, with the consent of the applicant, customer or occupant, offers to review pertinent records and call back the applicant, customer or occupant within 3 business days with a response, the contact will be considered an initial inquiry pending a determination of satisfaction by the applicant, customer or occupant with the company’s response. If the company cannot reach the customer to convey the information obtained through a review of company records, a letter shall be sent which summarizes the information and informs the customer to contact the company within 5 business days if the customer disagrees with the company position, or has additional questions or concerns about the matter.

**Subchapter M. BILLING AND PAYMENT
STANDARDS
GENERAL**

§ 56.261. Billing frequency.

(a) A public utility shall render a bill once every billing period to every residential customer in accordance with approved rate schedules.

(b) A public utility may utilize electronic billing in lieu of mailed paper bills. Electronic billing programs must include the following:

(1) The electronic billing option is voluntary and only with the prior consent of the customer. The customer retains the right to revert to conventional paper billings upon request. The customer shall provide the public utility with a one billing cycle notice of a request to revert to paper billing.

(2) A customer shall receive the same information that is included with a paper bill issued by the public utility.

(3) The electronic bill must include the same disclosures and educational messages that are required for paper bills. The electronic transmission of termination notices may not be permitted unless the customer has affirmatively consented to this method of delivery. The electronic delivery of a termination notice does not relieve the public utility of the obligation to provide termination notices as required under §§ 56.331—56.338.

(4) The electronic bill must include all required bill inserts in an easily accessed and easily readable format.

(5) The electronic bill must include the option for the customer to contribute to the public utility's hardship fund if the public utility is able to accept hardship fund contributions by this method.

(6) A customer may not be required to pay an additional fee to receive an electronic bill.

(7) The public utility shall maintain a system to deliver electronic bills if the bill is emailed to a customer.

(8) The public utility shall employ all reasonable measures to protect customer information from unauthorized disclosure and prevent access to customer account records by persons who are not properly authorized to have access.

§ 56.262. Meter reading; estimated billing; customer readings.

Except as provided in this section, a public utility shall render bills based on actual meter readings by public utility company personnel.

(1) *Inapplicability to seasonally billed customers.* This section does not apply to customers billed on a seasonal basis under terms included in the tariff of the public utility.

(2) *Estimates for bills rendered on a monthly basis.* If a public utility bills on a monthly basis, it may estimate usage of service every other billing month, so long as the public utility provides a customer with the opportunity to read the meter and report the quantity of usage in lieu of the estimated bill. The resulting bills must be based on the information provided, except for an account when it is apparent that the information is erroneous.

(i) Upon the request of the customer, the public utility shall, at least annually, provide preaddressed postcards on which the customer may report the reading. The public utility shall provide additional preaddressed postcards on request. The public utility may choose to make available electronic and telephonic methods for customers to report meter reading information.

(ii) The public utility may establish due dates by which the customer supplied reading shall be received for a bill to be based upon the meter reading of the customer or occupant. If the reading of a customer or occupant is not received by that due date, the public utility may estimate the quantity of usage. The public utility may establish due dates for submitting a meter reading when the customer or occupant utilizes an electronic method for reporting meter readings.

(3) *Estimates permitted under exigent circumstances.* A public utility may estimate the bill of a customer if extreme weather conditions, emergencies, equipment failure, work stoppages or other circumstances prevent actual meter reading.

(4) *Estimates when public utility personnel are unable to gain access.* A public utility may estimate the bill of a

customer if **public** utility personnel are unable to gain access to obtain an actual meter reading, as long as the following apply:

(i) The **public** utility has undertaken reasonable alternative measures to obtain a meter reading, including, but not limited to, the provision of preaddressed postcards upon which the customer may report the reading or the telephone reporting of the reading.

(ii) The **public** utility, at least every 6 months, or every four billing periods for utilities permitted to bill for periods in excess of 1 month, obtains an actual meter reading or customer supplied reading to verify the accuracy of the estimated readings.

(iii) The **public** utility, at least once every 12 months, obtains an actual meter reading to verify the accuracy of the readings, either estimated or customer read.

(5) *Remote reading devices for water, gas and electric utilities.* A **public** utility may render a bill on the basis of readings from a remote reading device under the following conditions:

(i) When a gas, electric or water **public** utility uses readings from a remote reading device to render bills, the **public** utility shall obtain an actual meter reading at least once every 5 years to verify the accuracy of the remote reading device. If the customer of record at the dwelling changes during the 5-year period between actual meter readings, the **public** utility shall make a bona fide attempt to schedule an appointment with the departing customer and, if necessary, the new occupant, to secure an actual meter reading.

(ii) When the actual meter reading establishes that the customer was underbilled due to an error in the registration of the remote reading device, the **public** utility may render a bill for the uncollected amount. If the rebilling exceeds the otherwise normal estimated bill for the billing period during which the bill is issued by at least 50% or at least \$50, whichever is greater, the **public** utility shall comply with § 56.264 (relating to previously unbilled **public** utility service).

(iii) When the actual meter reading establishes that the customer was overbilled due to an error in the readings of the remote reading device, the **public** utility shall credit or refund to the customer the amount overbilled plus interest calculated under § 56.411(3) (relating to duties of parties: disputing party's duty to pay undisputed portion of bills; **public** utility's duty to pay interest whenever overpayment found).

(iv) Nothing in this section may be construed to limit the authority of electric, gas or water **public** utilities to gain access to a residence for the purpose of checking or reading a meter.

(6) Verification of automatic meter reading. Upon a customer request, the public utility shall secure an in-person meter reading to confirm the accuracy of an automatic meter reading device when a customer disconnects service or a new service request is received. A public utility may charge a fee as provided in a Commission-approved tariff.

[(6)] (7) *Limitation of liability.* If a water utility has estimated bills and if the customer or occupant during that period has consumed an amount of water in excess of normal seasonal usage because of a verified leak that could not reasonably have been detected or other unknown loss of water, the customer is not liable for more than 150% of the average amount of water consumed for the corresponding period during the previous year. This

section does not apply when the water utility was unable to gain access and has complied with paragraph (4).

[(7)] (8) *Budget billing.* A gas, electric and steam heating utility shall provide its residential customers, on a year-round rolling enrollment basis, with an optional billing procedure which averages estimated **public** utility service costs over a 10-month, 11-month or 12-month period to eliminate, to the extent possible, seasonal fluctuations in **public** utility bills. The **public** utility shall review accounts at least three times during the optional billing period. At the conclusion of the budget billing year, a resulting reconciliation amount exceeding \$100 but less than \$300 shall be, at the request of the customer, amortized over a 6-month period. Reconciliation amounts exceeding \$300 shall be amortized over at least a 12-month period at the request of the customer. Shorter amortization periods are permissible at the request of the customer.

[(8)] (9) *Notice.* The **public** utility shall inform existing customers of their rights under this section and under 66 Pa.C.S. § 1509 (relating to billing procedures).

§ 56.264. Previously unbilled **public** utility service.

When a **public** utility renders a make-up bill for previously unbilled **public** utility service which accrued within the past 4 years resulting from **public** utility billing error, meter failure, leakage that could not reasonably have been detected or loss of service, or four or more consecutive estimated bills and the make-up bill exceeds the otherwise normal estimated bill for the billing period during which the make-up bill is issued by at least 50% or at least \$50, whichever is greater:

(1) The **public** utility shall explain the bill to the customer and make a reasonable attempt to amortize the bill.

* * * * *

§ 56.265. Billing information.

A bill rendered by a **public** utility for metered residential **public** utility service must state clearly the following information:

* * * * *

(11) A statement directing the customer to "register any question or complaint about the bill prior to the due date," with the address and telephone number where the customer may initiate the inquiry or complaint with the **public** utility.

(12) A statement that a rate schedule, an explanation of how to verify the accuracy of a bill and an explanation, in plain language, of the various charges, if applicable, is available for inspection in the local business office of the **public** utility and on the **public** utility's web site.

(13) A designation of the applicable rate schedule as denoted in the officially filed tariff of the **public** utility.

(14) Utilities shall incorporate the requirements in §§ 54.4 and 62.74 (relating to bill format for residential and small business customers).

§ 56.266. Transfer of accounts.

(a) A customer who is about to vacate premises supplied with **public** utility service or who wishes to have service discontinued shall give at least 7 days notice to the **public** utility and a noncustomer occupant, specifying the date on which it is desired that service be discontinued. In the absence of a notice, the customer shall be responsible for services rendered. If the **public** utility is

not, after a reasonable attempt to obtain meter access, able to access the meter for discontinuance, service shall be discontinued with an estimated meter reading upon which the final bill will be based. The resulting final bill is subject to adjustment once the **public** utility has obtained an actual meter reading.

(b) In the event of discontinuance or termination of service at a residence or dwelling in accordance with this chapter, a **public** utility may transfer an unpaid balance to a new residential service account of the same customer.

(c) If a termination notice has been issued in accordance with § 56.331 (relating to general notice provisions and contents of termination notice) and subsequent to the mailing or delivery of that notice, the customer requests a transfer of service to a new location, the termination process in §§ 56.331—56.339 may continue at the new location.

(1) When notifications set forth under § 56.331 and § 56.335 (relating to deferred termination when no prior contact) have been rendered and service has not been terminated due to a denial of access to the premises, the **public** utility may deny service at a new location when a service transfer is requested.

(2) Nothing in this section shall be construed to limit the right of a customer to dispute a bill within the meaning of §§ 56.372—56.374 (relating to dispute procedures; time for filing an informal complaint; and effect of failure to timely file an informal complaint).

§ 56.267. Advance payments.

Payments may be required in advance of furnishing any of the following services:

- (1) Seasonal service.
- (2) The construction of facilities and furnishing of special equipment.
- (3) Gas and electric rendered through prepayment meters provided:

(i) The customer is nonlow income. For purposes of this section, “nonlow income” is defined as an individual who has an annual household gross income greater than 150% of the Federal poverty income guidelines and has a delinquency for which the individual is requesting a payment agreement but offering terms that the **public** utility, after consideration of the factors in § 56.337(b) (relating to procedures upon customer or occupant contact prior to termination), finds unacceptable.

(ii) The service is being rendered to an individually-metered residential dwelling, and the customer and occupants are the only individuals affected by the installation of a prepayment meter.

(iii) The customer and **public** utility enter into a payment agreement which includes, but is not limited to, the following terms:

(A) The customer voluntarily agrees to the installation of a prepayment meter.

(B) The customer agrees to purchase prepayment credits to maintain service until the total balance is retired and the **public** utility agrees to make new credits available to the customer within 5 days of receipt of prepayment.

(C) The **public** utility agrees to furnish the customer with emergency backup credits for additional usage of at least 5 days.

(D) The customer agrees that failure to renew the credits by making prepayment for additional service constitutes a request for discontinuance under § 56.312(1) (relating to discontinuance of service), except during a medical emergency, and that discontinuance will occur when the additional usage on the emergency backup credits runs out.

(iv) The **public** utility develops a written plan for a prepayment meter program, consistent with the criteria established in this section, and submits the plan to the Commission at least 30 days in advance of the effective date of the program.

(v) During the first 2 years of use of prepayment meters, the **public** utility thoroughly and objectively evaluates the use of prepayment meters in accordance with the following:

(A) *Content.* The evaluation should include both process and impact components. Process evaluation should focus on whether the use of prepayment meters conforms to the program design and should assess the degree to which the program operates efficiently. The impact evaluation should focus on the degree to which the program achieves the continuation of **public** utility service to participants at reasonable cost levels. The evaluation should include an analysis of the costs and benefits of traditional collections or alternative collections versus the costs and benefits of handling nonlow income positive ability to pay customers through prepayment metering. This analysis should include comparisons of customer payment behavior, energy consumption, administrative costs and actual collection costs.

PAYMENTS

§ 56.271. Payment.

The due date for payment of a bill may not be less than 20 days from the date of transmittal; that is, the date of mailing, electronic transmission or physical delivery of the bill by the **public** utility to the customer.

(1) *Extension of due date to next business day.* If the last day for payment falls on a Saturday, Sunday, bank holiday or other day when the offices of the **public** utility which regularly receive payments are not open to the general public, the due date shall be extended to the next business day.

(2) *Date of payment by mail.* For a remittance by mail, one or more of the following applies:

(i) Payment shall be deemed to have been made on the date of the postmark.

(ii) The **public** utility may not impose a late payment charge unless payment is received more than 5 days after the due date.

(3) *Branch offices or authorized payment agents.* The effective date of payment to a branch office or authorized payment agent, unless payment is made by mail under paragraph (2), is the date of actual receipt of payment at that location.

(4) *Electronic transmission.* The effective date of a payment electronically transmitted to a **public** utility is the date of actual receipt of payment.

(5) *Fees.* Fees or charges assessed and collected by the **public** utility for utilizing a payment option must be included in the **public** utility’s tariff on file at the Commission.

(6) *Multiple notifications.* When a **public** utility advises a customer of a balance owed by multiple notices or contacts which contain different due dates, the date on or before which payment is due shall be the latest due date contained in any of the notices.

§ 56.272. **Accrual of late payment charges.**

(a) Every **public** utility subject to this chapter is prohibited from levying or assessing a late charge or penalty on any overdue **public** utility bill, as defined in § 56.271 (relating to payment), in an amount which exceeds 1.5% interest per month on the overdue balance of the bill. These charges are to be calculated on the overdue portions of the bill only. The interest rate, when annualized, may not exceed 18% simple interest per annum.

(b) An additional charge or fixed fee designed to recover the cost of a subsequent rebilling may not be charged by a regulated **public** utility.

(c) Late payment charges may not be imposed on disputed estimated bills, unless the estimated bill was required because **public** utility personnel were willfully denied access to the affected premises to obtain an actual meter reading.

(d) A **public** utility may waive late payment charges on any customer accounts.

§ 56.273. **Application of partial payments between public utility and other service.**

Payments received by a **public** utility without written instructions that they be applied to merchandise, appliances, special services, meter testing fees or other nonbasic charges and which are insufficient to pay the balance due for the items plus amounts billed for basic **public** utility service shall first be applied to the basic charges for residential **public** utility service.

§ 56.274. **Application of partial payments among several bills for public utility service.**

In the absence of written instructions, a disputed bill or a payment agreement, payments received by a **public** utility which are insufficient to pay a balance due both for prior service and for service billed during the current billing period shall first be applied to the balance due for prior service.

§ 56.275. **Electronic bill payment.**

A **public** utility may offer electronic payment options. Electronic payment programs must include the following requirements:

(1) Electronic bill payment shall be voluntary. A **public** utility may not require a customer to enroll in electronic bill payment as a condition for enrolling in electronic billing.

(2) For electronic bill payment through a charge to a customer's credit card or automatic withdrawal from a customer's financial account, the program must set forth the date (or number of days after issuance of the bill) when the automatic payment shall be made.

(3) The terms of the payment procedures shall be fully disclosed to the customer in writing, either by mail or electronically, before the customer enters the program. Program changes shall be conveyed to the customer in writing, either by mail or electronically, and the customer shall be given an opportunity to withdraw from the program if the customer does not wish to continue under the new terms.

(4) The **public** utility shall provide a receipt, or a confirmation, transaction or reference number, either electronically or on paper, to the customer upon payment through the electronic method. This requirement does not apply if the payment method is through a preauthorized automated debit from a customer's financial account.

(5) The **public** utility shall employ all reasonable measures to protect customer information from unauthorized disclosure and prevent access to customer account records by persons who are not properly authorized to have access.

Subchapter N. CREDIT AND DEPOSITS STANDARDS POLICY

PROCEDURES FOR APPLICANTS

§ 56.281. **Policy statement.**

An essential ingredient of the credit and deposit policies of each **public** utility shall be the equitable and nondiscriminatory application of those precepts to potential and actual customers throughout the service area without regard to the economic character of the area or any part thereof. Deposit policies must be based upon the credit risk of the individual applicant or customer rather than the credit history of the affected premises or the collective credit reputation or experience in the area in which the applicant or customer lives and without regard to race, sex, age over 18 years of age, National origin or marital status.

§ 56.282. **Credit standards.**

A **public** utility shall provide residential service without requiring a deposit when the applicant satisfies one of the following requirements:

(1) *Prior public utility payment history.* The applicant has been a recipient of **public** utility service of a similar type within a period of 24 consecutive months preceding the date of the application and was primarily responsible for payment for the service, so long as:

(i) The average periodic bill for the service was equal to at least 50% of that estimated for new service.

(ii) The service of the applicant was not terminated for nonpayment during the last 12 consecutive months of that prior service.

(iii) The applicant does not have an unpaid balance from that prior service.

(2) *Ownership of real property.* The applicant owns or has entered into an agreement to purchase real property located in the area served by the **public** utility or is renting the applicant's place of residence under a lease of 1 year or longer in duration, unless the applicant has an otherwise unsatisfactory credit history as a **public** utility customer within 2 years prior to the application for service.

(3) *Credit information.* The applicant provides information demonstrating that the applicant is not an unsatisfactory credit risk.

(i) The absence of prior credit history does not, of itself, indicate an unsatisfactory risk.

(ii) The **public** utility may request and consider information including:

* * * * *

(F) Significant source of income other than from employment.

(4) Cash deposit prohibition. A public utility may not require an applicant that is confirmed to be eligible for a customer assistance program to provide a cash deposit.

§ 56.283. Cash deposits; third-party guarantors.

If an applicant does not establish credit under § 56.282 (relating to credit standards), the **public** utility shall provide residential service when one of the following requirements is satisfied:

* * * * *

§ 56.285. Payment of outstanding balance.

A **public** utility may require, as a condition of the furnishing of residential service to an applicant, the payment of any outstanding residential account with the **public** utility which accrued within the past 4 years from the date of the service request for which the applicant is legally responsible and for which the applicant was billed properly. The 4-year limit does not apply if the balance includes amounts that the **public** utility was not aware of because of fraud or theft on the part of the applicant. An outstanding residential account with the **public** utility may be amortized over a reasonable period of time. Factors to be taken into account include the size of the unpaid balance, the ability of the applicant to pay, the payment history of the applicant and the length of time over which the bill accumulated. A **public** utility may not require, as a condition of the furnishing of residential service, payment for residential service previously furnished under an account in the name of a person other than the applicant unless a court, district justice or administrative agency has determined that the applicant is legally obligated to pay for the service previously furnished. Examples of situations include a separated spouse or a cotenant. This section does not affect the creditor rights and remedies of a **public** utility otherwise permitted by law.

§ 56.286. Written procedures.

A **public** utility shall establish written procedures for determining the credit status of an applicant. A **public** utility employee processing applications or determining the credit status of applicants shall be supplied with or have ready access to a copy of the written procedures of the **public** utility. **The written procedures must specify that there are separate procedures and standards for victims with a protection from abuse order or a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence. The procedures must also specify that any applicant that is confirmed to be eligible for a customer assistance program is not required to pay a deposit.** A copy of these procedures shall be maintained on file in each of the business offices of the **public** utility and made available, upon request, for inspection by members of the public and the Commission and be included on the **public** utility's web site.

(1) *Reasons for denial of credit.* If credit is denied, the **public** utility shall inform the applicant in writing of the reasons for the denial within 3 business days of the denial. This information may be provided electronically to the applicant with the applicant's consent. If the **public** utility is requiring payment of an unpaid balance in accordance with § 56.285 (relating to payment of outstanding balance), the **public** utility shall specify in

writing the amount of the unpaid balance, the dates during which the balance accrued, and the location and customer name at which the balance accrued. The statement must inform the applicant of the right to furnish a third-party guarantor in accordance with § 56.283 (relating to cash deposits; third-party guarantors) and the right to contact the Commission. The statement must include information informing victims of domestic violence with a protection from abuse order **or a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence** that more lenient credit and liability standards may be available. **The statement must also inform the applicant that if he is confirmed to be eligible for a customer assistance program, a deposit is not required.**

(2) *Informing applicants of procedures.* [Utility] **Public** utility personnel shall fully explain the credit and deposit procedures of the **public** utility to each customer or applicant for service.

(3) *Third-party requests for service.* Requests from third parties to establish **public** utility service on behalf of an applicant will not be honored until the **public** utility has verified the legitimacy of the request. Verification may be accomplished by any means appropriate to confirm that the applicant consents to service being established or that the third-party is authorized to act on the applicant's behalf.

§ 56.287. General rule.

Once an applicant's application for service is accepted by the **public** utility, the **public** utility shall make a bona fide attempt to provide service within 3 business days, provided that the applicant has met all regulatory requirements. A longer time frame is permissible with the consent of the applicant. If the investigation and determination of credit status is expected to take or in fact takes longer than 3 business days commencing the date after the application is made, the **public** utility shall provide service pending completion of the investigation. If the **public** utility cannot provide service by the time frames specified in this section, the **public** utility shall inform the customer of this fact and provide a reasonable estimate of when service will be provided. These requirements do not apply to new service installations and service extensions that require construction of facilities to provide the **public** utility service.

§ 56.288. Payment period for deposits by applicants.

An applicant may elect to pay any required deposits in three installments: 50% payable upon the determination by the **public** utility that the deposit is required, 25% payable 30 days after the determination and 25% payable 60 days after the determination.

PROCEDURES FOR EXISTING CUSTOMERS

§ 56.291. General rule.

A **public** utility may require an existing customer to post a deposit to reestablish credit under the following circumstances:

(1) *Delinquent accounts.* Whenever a customer has been delinquent in the payment of any two consecutive bills or three or more bills within the preceding 12 months.

(i) Prior to requesting a deposit under this section, the **public** utility shall give the customer written notification

of its intent to request a cash deposit if current and future bills continue to be paid after the due date.

(A) Notification must clearly indicate that a deposit is not required at this time but that if bills continue to be paid after the due date a deposit will be required.

(B) Notification may be mailed or delivered to the customer together with a bill for **public** utility service.

(C) Notification must set forth the address and phone number of the **public** utility office where complaints or questions may be registered.

(D) A subsequent request for deposit must clearly indicate that a customer should register any question or complaint about that matter prior to the date the deposit is due to avoid having service terminated pending resolution of a dispute. The request must also include the address and telephone number of the **public** utility office where questions or complaints may be registered.

(ii) Except in the case of adjustments to budget billing plans, a **public** utility may issue a notification or subsequent request for a deposit based, in whole or in part, on a delinquent account arising out of a make-up bill as defined in § 56.264 (relating to previously unbilled **public** utility service), under the following conditions:

(A) The **public** utility has complied with § 56.264. Compliance with a payment agreement by the customer discharges the delinquency and a notification or request for deposit may not thereafter be issued based on the make-up bill.

(B) If a make-up bill exceeds the otherwise normal estimated bill by at least 50% and if the customer makes payment in full after the bill is delinquent but before a notification of intent to request a deposit is given to the customer, a notification or request for deposit may not thereafter be issued based on the make-up bill.

(2) *Condition to the reconnection of service.* A **public** utility may require a deposit as a condition to reconnection of service following a termination.

(3) *Failure to comply with payment agreement.* A **public** utility may require a deposit, whether or not service has been terminated, when a customer fails to comply with a material term or condition of a payment agreement.

(4) Cash deposit prohibition. A public utility may not require a customer or an applicant that is confirmed to be eligible for a customer assistance program to provide a cash deposit.

§ 56.292. Payment period for deposits by customers.

The due date for payment of a deposit other than a deposit required as a condition for the reconnection of service under § 56.291(2) (relating to general rule) may not be less than 21 days from the date of mailing or service on the customer of notification of the amount due. A customer may elect to pay a required deposit in three installments: 50% payable upon the determination by the **public** utility that the deposit is required, 25% payable 30 days after the determination and 25% payable 60 days after the determination. A **public** utility shall advise [**an applicant**] a customer of the option to pay the requested security deposit in installments at the time the deposit is requested.

CASH DEPOSITS

§ 56.301. Amount of cash deposit.

(a) *Applicants.* A **public** utility may not require a cash deposit from an applicant in excess of the average

estimated bill of the applicant for a period equal to one billing period plus 1 additional month's service, not to exceed 4 months in the case of water and wastewater utilities and 2 months in the case of gas, electric and steam heat utilities, with a minimum deposit of \$5.

(b) *Existing customer.* For an existing customer, the cash deposit may not exceed the estimated charges for service based on the prior consumption of that customer for the class of service involved for a period equal to one average billing period plus 1 average month, not to exceed 4 months in the case of wastewater utilities and 2 months in the case of gas and steam heat utilities, with a minimum of \$5.

(c) *Adjustment of deposits.* The amount of a cash deposit may be adjusted at the request of the customer or the **public** utility whenever the character or degree of the usage of the customer has materially changed or when it is clearly established that the character or degree of service will materially change in the immediate future.

§ 56.302. Deposit hold period and refund.

A cash deposit shall be refunded under the following conditions:

(1) *Termination or discontinuance of service.* Upon termination or discontinuance of service, the **public** utility shall promptly apply the deposit of the customer, including accrued interest, to any outstanding balance for **public** utility service and refund or apply the remainder to the customer's account. A transfer of service from one location to another within a service area may not be deemed discontinuance within the meaning of this chapter.

(2) *Credit established.* When a customer establishes credit under § 56.282 (relating to credit standards), the **public** utility shall refund or apply to the customer's account, any cash deposit plus accrued interest.

(3) *Third-party guarantor.* When a customer substitutes a third-party guarantor in accordance with § 56.283(2) (relating to cash deposits; third-party guarantors), the **public** utility shall refund any cash deposit, plus accrued interest, up to the limits of the guarantee.

(4) *Prompt payment of bills.* After a customer has paid bills for service for 12 consecutive months without having service terminated and without having paid a bill subsequent to the due date or other permissible period as stated in this chapter on more than two occasions or for a maximum period of 24 months, the **public** utility shall refund any cash deposit, plus accrued interest.

(5) *Optional refund.* At the option of the **public** utility, a cash deposit, including accrued interest, may be refunded in whole or in part, at any time earlier than the time stated in this section.

§ 56.303. Application of deposit to bills.

The customer may elect to have a deposit applied to reduce bills for **public** utility service or to receive a cash refund.

§ 56.304. Periodic review.

If a customer is not entitled to refund under § 56.302 (relating to deposit hold period and refund), the **public** utility shall review the account of the customer each succeeding billing period and make appropriate disposition of the deposit in accordance with § 56.302 and § 56.303 (relating to application of deposit to bills).

§ 56.305. Refund statement.

If a cash deposit is applied or refunded, the **public** utility shall mail or deliver to the customer a written

statement showing the amount of the original deposit plus accrued interest, the application of the deposit to a bill which had previously accrued, the amount of unpaid bills liquidated by the deposit and the remaining balance.

§ 56.306. Interest rate.

The **public** utility shall accrue interest on the deposit until it is returned or credited [**the legal rate of interest under section 202 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 202), known as the Loan Interest and Protection Law, and return the interest with the deposit. § 56.307**].

(1) **Interest shall be computed at the simple annual interest rate determined by the Secretary of Revenue for interest on the underpayment of tax under section 806 of The Fiscal Code (72 P.S. § 806).**

(2) **The interest rate in effect when deposit is required to be paid shall remain in effect until the date the deposit is refunded or credited, or December 31, whichever is later.**

(3) **On January 1 of each year, the new interest rate for that year will apply to the deposit.**

Subchapter O. INTERRUPTION AND DISCONTINUANCE OF SERVICE

§ 56.311. Interruption of service.

A **public** utility may temporarily interrupt service when necessary to effect repairs or maintenance; to eliminate an imminent threat to life, health, safety or substantial property damage; or for reasons of local, State or National emergency.

(1) *Interruption with prior notice.* When the **public** utility knows in advance of the circumstances requiring the service interruption, prior notice of the cause and expected duration of the interruption shall be given to customers and occupants who may be affected.

(2) *Interruption without prior notice.* When service is interrupted due to unforeseen circumstances, notice of the cause and expected duration of the interruption shall be given as soon as possible to customers and occupants who may be affected.

(3) *Notification procedures.* When customers and occupants are to be notified under this section, the **public** utility shall take reasonable steps, such as personal contact, phone contact and use of the mass media, to notify affected customers and occupants of the cause and expected duration of the interruption.

(4) *Permissible duration.* Service may be interrupted for only the periods of time necessary to protect the health and safety of the public, to protect property or to remedy the situation which necessitated the interruption. Service shall be resumed as soon as possible thereafter.

§ 56.312. Discontinuance of service.

A **public** utility may discontinue service without prior written notice under the following circumstances:

(1) *Customer's residence.* When a customer requests a discontinuance at the customer's residence, when the customer and members of the customer's household are the only occupants.

(2) *Other premises or dwellings.* Other premises or dwellings as follows:

(i) When a customer requests discontinuance at a dwelling other than the customer's residence or at a

single meter multifamily residence, whether or not the customer's residence but, in either case, only under either of the following conditions:

(A) The customer states in writing that the premises are unoccupied. The statement must be on a form conspicuously bearing notice that information provided by the customer will be relied upon by the Commission in administering a system of uniform service standards for utilities and that any false statements are punishable criminally. When the customer fails to provide a notice, or when the customer has falsely stated the premises are unoccupied, the customer shall be responsible for payment of **public** utility bills until the **public** utility discontinues service.

(B) The occupants affected by the proposed cessation inform the **public** utility orally or in writing of their consent to the discontinuance.

(ii) When the conditions in subparagraph (i) have not been met, the **public** utility, at least 10 days prior to the proposed discontinuance, shall conspicuously post notice of termination at the affected premises.

(A) When the premises is a multifamily residence, notice shall also be posted in common areas.

(B) Notices must, at a minimum, state: the date on or after which discontinuance will occur; the name and address of the **public** utility; and the requirements necessary for the occupant to obtain **public** utility service in the occupant's name. Further termination provisions of this chapter, except § 56.337 (relating to procedures upon customer or occupant contact prior to termination), do not apply in these circumstances.

(C) This section does not apply when the customer is a landlord ratepayer. See 66 Pa.C.S. §§ 1521—1533 (relating to discontinuance of service to leased premises).

**Subchapter P. TERMINATION OF SERVICE
GROUNDS FOR TERMINATION**

§ 56.321. Authorized termination of service.

[**Utility**] **Public** utility service to a dwelling may be terminated for one or more of the following reasons:

(1) Nonpayment of an undisputed delinquent account.

(2) Failure to post a deposit, provide a guarantee or establish credit.

(3) Unreasonable refusal to permit access to meters, service connections and other property of the **public** utility for the purpose of maintenance, repair or meter reading.

(4) Unauthorized use of the **public** utility service delivered on or about the affected dwelling.

(5) Failure to comply with the material terms of a payment agreement.

(6) Fraud or material misrepresentation of identity for the purpose of obtaining **public** utility service.

(7) Tampering with meters or other **public** utility equipment.

(8) Violating tariff provisions on file with the Commission so as to endanger the safety of a person or the integrity of the energy delivery system of the **public** utility.

§ 56.322. Timing of termination.

Except in emergencies—which include unauthorized use of **public** utility service—service may not be terminated, for nonpayment of charges or for any other reason, during the following periods:

- (1) On Friday, Saturday or Sunday.
- (2) On a bank holiday or on the day preceding a bank holiday.
- (3) On a holiday observed by the **public** utility or on the day preceding the holiday. A holiday observed by a **public** utility means any day on which the business office of the **public** utility is closed to observe a legal holiday, to attend **public** utility meetings or functions or for any other reason.
- (4) On a holiday observed by the Commission or on the day preceding the holiday.

§ 56.323. Unauthorized termination of service.

Unless expressly and specifically authorized by the Commission, service may not be terminated nor will a termination notice be sent for any of the following reasons:

- (1) Nonpayment for concurrent service of the same class received at a separate dwelling. This does not include concurrent service periods of 90 days or less accrued during the transfer of service from one location to another.
- (2) Nonpayment for a different class of service received at the same or a different location. Service may be terminated, however, when, under the tariff of the **public** utility, a change in classification is necessitated upon the completion of construction work previously billed at a different rate applicable during construction.
- (3) Nonpayment, in whole or in part of nonbasic charges for leased or purchased merchandise, appliances or special services including, but not limited to, merchandise and appliance installation fees, rental and repair costs; meter testing fees; special construction charges; and other nonrecurring or recurring charges that are not essential to delivery or metering of service, except as provided in this chapter.
- (4) Nonpayment of bills for delinquent accounts of the prior customer at the same address.
- (5) Nonpayment of a deposit which is based, in whole or in part, on a delinquent account arising out of a make-up bill as defined in § 56.264 (relating to previously unbilled **public** utility service) and the customer has complied with § 56.291(1)(ii)(A) or (B) (relating to general rule).
- (6) Noncompliance with a payment agreement prior to the due date of the bill which forms the basis of the agreement.
- (7) Nonpayment of charges for **public** utility service for which the **public** utility ceased billing more than 4 years prior to the date the bill is rendered.
- (8) Nonpayment for residential service already furnished in the names of persons other than the customer unless a court, district justice or administrative agency has determined that the customer is legally obligated to pay for the service previously furnished. This paragraph does not affect the creditor rights and remedies of a **public** utility otherwise permitted by law.
- (9) Nonpayment of charges calculated on the basis of estimated billings, unless the estimated bill was required because **public** utility personnel were unable to gain access to the affected premises to obtain an actual meter reading on two occasions and have made a reasonable effort to schedule a meter reading at a time convenient to the customer or occupant, or a subsequent actual reading

has been obtained as a verification of the estimate prior to the initiation of termination procedures.

(10) Nonpayment of delinquent accounts which accrued over two billing periods or more, which remain unpaid in whole or in part for 6 months or less, and which amount to a total delinquency of less than \$25.

(11) Nonpayment of delinquent accounts when the amount of the deposit presently held by the **public** utility is within \$25 of account balance.

NOTICE PROCEDURES PRIOR TO TERMINATION
§ 56.331. General notice provisions and contents of termination notice.

(a) Prior to a termination of service, the **public** utility shall mail or deliver written notice to the customer at least 10 days prior to the date of the proposed termination. In the event of a user without contract as defined in § 56.252 (relating to definitions), the **public** utility shall comply with §§ 56.333—56.337, but does not need to provide notice 10 days prior to termination.

(b) A notice of termination must include, in conspicuous print, clearly and fully the following information when applicable:

- (1) The reason for the proposed termination.
- (2) An itemized statement of amounts currently due, including any required deposit.
- (3) A statement that a reconnection fee will be required to have service restored after it has been terminated if a reconnection fee is a part of the tariff of the **public** utility on file with the Commission. The statement must include the maximum possible dollar amount of the reconnection fee that may apply.
- (4) The date on or after which service will be terminated unless one of the following occurs:

 - (v) A dispute is filed with the **public** utility or the Commission.
 - (vi) Payment in full of amounts past due on the most recent payment agreement is received.

(5) A statement that the customer should immediately contact the **public** utility to attempt to resolve the matter. The statement must include the address and telephone number where questions may be asked, how payment agreements may be negotiated and entered into with the **public** utility, and where applications can be found and submitted for enrollment into the **public** utility's universal service programs, if these programs are offered by the **public** utility.

(6) The following statement: "If you have questions or need more information, contact us as soon as possible at (**public** utility phone number). After you talk to us, if you are not satisfied, you may file a complaint with the Public Utility Commission. The Public Utility Commission may delay the shut off if you file the complaint before the shut off date. To contact them, call (800) 692-7380 or write to the Pennsylvania Public Utility Commission, P.O. Box 3265, Harrisburg, Pennsylvania 17105-3265."

(7) A serious illness notice in compliance with the form in Appendix A (relating to medical emergency notice) except that, for the purpose of § 56.336 (relating to post-termination notice), the notice must comply with the form in Appendix B (relating to medical emergency notice).

(8) If the **public** utility has universal service programs, information indicating that special assistance programs may be available and how to contact the **public** utility for information and enrollment, and that enrollment in the program may be a method of avoiding the termination of service.

(9) Information indicating that special protections are available for victims under a protection from abuse order **or who have a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence** and how to contact the **public** utility to obtain more information on these protections.

(10) Information indicating that special protections are available for tenants if the landlord is responsible for paying the **public** utility bill and how to contact the **public** utility to obtain more information on these protections.

(11) Information indicating that if service is shut off, the customer may be required to pay more than the amount listed on the notice to have service turned back on.

(12) Information indicating that if service is shut off, the customer shall contact the **public** utility after payment has been made to arrange reconnection of the service.

(13) Information in Spanish directing Spanish-speaking customers to the numbers to call for information and translation assistance. Similar information shall be included in other languages when census data indicates that 5% or more of the residents of the **public** utility's service territory are using that language.

(14) Contact information for customers with disabilities that need assistance.

§ 56.332. Notice when dispute pending.

A **public** utility may not mail or deliver a notice of termination if a notice of initial inquiry, dispute, informal or formal complaint has been filed and is unresolved and if the subject matter of the dispute forms the grounds for the proposed termination. A notice mailed or delivered in contravention of this section is void.

§ 56.333. Personal contact.

(a) Except when authorized under § 56.311, § 56.312 or § 56.338 (relating to interruption of service; discontinuance of service; and exception for terminations based on occurrences harmful to person or property), a **public** utility may not interrupt, discontinue or terminate service without personally contacting the customer or a responsible adult occupant **in person, by telephone or electronically with the customer's consent to provide notice of the proposed termination** at least 3 days prior to the interruption, discontinuance or termination, in addition to providing other notice as specified by the properly filed tariff of the **public** utility or as required under this chapter or other Commission directive.

(b) For purposes of this section, "personal contact" means:

(1) Contacting the customer or responsible adult occupant in person or by telephone. Phone contact shall be

deemed complete upon attempted calls on 2 separate days to the residence between 8 a.m. and 9 p.m. if the calls were made at various times each day, with the various times of the day being daytime before 5 p.m. and evening after 5 p.m. and at least 2 hours apart. Calls made to contact telephone numbers provided by the customer shall be deemed to be calls to the residence.

(2) If contact is attempted in person by a home visit, only one attempt is required. The **public** utility shall conspicuously post a written termination notice at the residence if it is unsuccessful in attempting to personally contact a responsible adult occupant during the home visit.

(3) Contact by e-mail, text message or other electronic messaging format consistent with the Commission's privacy guidelines and approved by Commission order. The electronic notification option is voluntary and shall only be used if the customer has given prior consent approving the use of a specific electronic message format for the purpose of notification of a pending termination.

[(3)] (4) Contacting another person whom the customer has designated to receive a copy of a notice of termination, other than a member or employee of the Commission.

[(4)] (5) If the customer has not made the designation noted in paragraph [(3)] (4), contacting a community interest group or other entity, including a local police department, which previously shall have agreed to receive a copy of the notice of termination and to attempt to contact the customer.

[(5)] (6) If the **public** utility is not successful in establishing personal contact [**as noted in paragraphs (1) and (2)**] and the customer has not made the designation noted in paragraph [(3)] (4) and if there is no community interest group or other entity which previously has agreed to receive a copy of the notice of termination, contacting the Commission in writing.

(c) The content of the 3-day personal contact notice must include the earliest date at which termination may occur and **all of** the following information:

- (1) The date and grounds of the termination.
- (2) What is needed to avoid the termination of service.
- (3) How to contact the **public** utility and the Commission.
- (4) The availability of the emergency medical procedures.

(d) The **public** utility shall ask if the customer or occupant has questions about the 10-day written notice the **public** utility previously sent.

§ 56.334. Procedures immediately prior to termination.

Immediately preceding the termination of service, a **public** utility employee, who may be the **public** utility employee designated to perform the termination, shall attempt to make personal contact with a responsible adult occupant at the residence of the customer.

* * * * *

§ 56.337. Procedures upon customer or occupant contact prior to termination.

(a) If, after the issuance of the initial termination notice and prior to the actual termination of service, a

customer or occupant contacts the **public** utility concerning a proposed termination, an authorized **public** utility employee shall fully explain the following:

- (1) The reasons for the proposed termination.
- (2) The available methods for avoiding a termination, including the following:
 - (i) Tendering payment in full or otherwise eliminating the grounds for termination.
 - (ii) Entering a payment agreement.
 - (iii) Paying what is past-due on the most recent previous company negotiated or Commission payment agreement.

[(iv) Enrolling in the utility’s customer assistance program or its equivalent, if the utility has a program and the customer is eligible for the program.]

(3) Information about the public utility’s universal service programs, including the customer assistance program. Refer the customer or applicant to the universal service program administrator of the public utility to determine eligibility for a program and to apply for enrollment in a program.

[(3)] (4) The medical emergency procedures.

(b) The **public** utility, through its employees, shall exercise good faith and fair judgment in attempting to enter a reasonable payment agreement or otherwise equitably resolve the matter. Factors to be taken into account when attempting to enter into a reasonable informal dispute settlement agreement or payment agreement include the size of the unpaid balance, the ability of the customer to pay, the payment history of the customer and the length of time over which the bill accumulated. Payment agreements for heating customers shall be based upon budget billing as determined under § 56.262(7) (relating to meter reading; estimated billing; customer readings). If a payment agreement is not established, the company shall further explain the following:

- (1) The right of the customer to file a dispute with the **public** utility and, thereafter, an informal complaint with the Commission.

§ 56.338. Exception for terminations based on occurrences harmful to person or property.

Notwithstanding any other provision of this chapter, when a service termination is based on an occurrence which endangers the safety of any person or may prove harmful to the energy delivery system of the **public** utility, the **public** utility may terminate service without written notice so long as the **public** utility reasonably believes grounds to exist. At the time of termination, the **public** utility shall make a bona fide attempt to deliver a notice of termination to a responsible adult occupant at the affected premises and, in the case of a single meter, multiunit dwelling, shall conspicuously post the notice at the dwelling, including common areas when permissible.

§ 56.339. Use of termination notice solely as collection device prohibited.

A **public** utility may not threaten to terminate service when it has no present intent to terminate service or when actual termination is prohibited under this chapter. Notice of the intent to terminate shall be used only as a warning that service will in fact be terminated in accordance with the procedures under this chapter, unless the

customer or occupant remedies the situation which gave rise to the enforcement efforts of the **public** utility.

§ 56.340. Winter termination procedures.

Notwithstanding any provision of this chapter, during the period of December 1 through March 31, utilities subject to this subchapter shall conform to the provisions of this section. The covered utilities may not terminate service between December 1 and March 31 except as provided in this section or § 56.338 (relating to exception for terminations based on occurrences harmful to person or property).

- (1) *Termination notices.* The **public** utility shall comply with §§ 56.331—56.335 including personal contact, as defined in § 56.333 (relating to personal contact), at the premises if occupied.

- (2) *Request for permission to terminate service.* If at the conclusion of the notification process defined in §§ 56.331—56.335, a reasonable agreement cannot be reached between the **public** utility and the customer, the **public** utility shall register with the Commission, in writing, a request for permission to terminate service, accompanied by a **public** utility report as defined in § 56.382 (relating to contents of the **public** utility company report). At the same time, the **public** utility shall serve the customer a copy of the written request registered with the Commission.

- (3) *Informal complaints.* If the customer has filed an informal complaint or if the Commission has acted upon the **public** utility’s written request, the matter shall proceed under §§ 56.391—56.394 (relating to informal complaint procedures). Nothing in this section may be construed to limit the right of a **public** utility or customer to appeal a decision by the Bureau of Consumer Services (BCS) under 66 Pa.C.S. § 701 (relating to complaints) and §§ 56.401—56.403 and 56.441.

- (4) *Survey of premises previously terminated.* For premises where heat related service has been terminated prior to December 1 of each year, covered utilities shall, within 90 days prior to December 1, survey and attempt to make post-termination personal contact with the occupant or a responsible adult at the premises and in good faith attempt to reach an agreement regarding payment of any arrearages and restoration of service.

- (5) *Reporting of survey results.* Utilities subject to this subchapter shall file a brief report outlining their pre-December 1 survey and personal contact results with the BCS on or before December 15 of each year. Each **public** utility shall update the survey and report the results to the BCS on February 1 of each year to reflect any change in the status of the accounts subsequent to the December 15 filing **including any accounts terminated in December.** For the purposes of the February 1 update of survey results, the **public** utility shall attempt to contact by telephone, if available, a responsible adult person or occupant at each residence in a good faith attempt to reach an agreement regarding payment of any arrearages and restoration of service.

- (6) *Landlord ratepayer accounts.* During the period of December 1 through March 31, a **public** utility subject to this subchapter may not terminate service to a premises when the account is in the name of a landlord ratepayer as defined at 66 Pa.C.S. § 1521 (related to definitions) except for the grounds in § 56.338.

- (7) *Reporting of deaths at locations where public utility service was previously terminated.* Throughout the year, utilities subject to this subchapter shall report to the

Commission when, in the normal course of business, they become aware of a household fire, incident of hypothermia or carbon monoxide poisoning or another event that resulted in a death and that the **public** utility service was off at the time of the incident. Within 1 working day of becoming aware of an incident, the **public** utility shall submit a telephone or electronic report to the Director of the BCS including, if available, the name, address and account number of the last customer of record, the date of the incident, a brief statement of the circumstances involved and, if available from an official source or the media, the initial findings as to the cause of the incident and the source of that information. The BCS or Commission may request additional information on the incident and the customer's account. Information submitted to the Commission in accordance with this paragraph shall be treated in accordance with 66 Pa.C.S. § 1508 (relating to reports of accidents) and may not be open for public inspection except by order of the Commission, and may not be admitted into evidence for any purpose in any suit or action for damages growing out of any matter or thing mentioned in the report.

EMERGENCY PROVISIONS

§ 56.351. General provision.

A **public** utility may not terminate service, or refuse to restore service, to a premises when a licensed physician [or], nurse practitioner or **physician assistant** has certified that the customer or an applicant seeking reconnection of previously terminated service under § 56.421 (relating to payment and timing) or a member of the customer's or applicant's household is seriously ill or afflicted with a medical condition that will be aggravated by cessation of service. The customer or applicant shall obtain a letter from a licensed physician [or], nurse practitioner or **physician assistant** verifying the condition and promptly forward it to the **public** utility. The determination of whether a medical condition qualifies for the purposes of this section resides entirely with the physician [or], nurse practitioner or **physician assistant** and not with the **public** utility. A **public** utility may not impose any qualification standards for medical certificates other than those listed in this section.

§ 56.352. Postponement of termination pending receipt of certificate.

If, prior to termination of service, the **public** utility employee is informed that an occupant is seriously ill or is affected with a medical condition which will be aggravated by a cessation of service and that a medical certification will be procured, termination may not occur for at least 3 days. If a certification is not produced within that 3-day period, the **public** utility may resume the termination process at the point when it was suspended.

§ 56.353. Medical certifications.

Certifications initially may be written or oral, subject to the right of the **public** utility to verify the certification by calling the physician [or], nurse practitioner or **physician assistant**, or to require written verification within 7 days. **Public utilities may develop a medical certificate form but may not make its use mandatory. A medical certificate form developed by the public utility shall be made readily available and placed on the public utility's web site. Medical certificates can be electronically transmitted and electronic signatures are valid.** Certifications, whether written or oral, must include **all of** the following:

(2) *Renewals.* Certifications may be renewed in the same manner and for the same time period as provided in §§ 56.352 and 56.353 (relating to postponement of termination pending receipt of certificate; and medical certifications) and this section if the customer has met the obligation under § 56.356 (relating to duty of customer to pay bills). In instances when a customer has not met the obligation in § 56.356 to equitably make payments on all bills, the number of renewals for the customer's household is limited to two 30-day certifications filed for the same set of arrearages. In these instances, the **public** utility is not required to honor a third renewal of a medical certificate and is not required to follow § 56.358(3) (relating to right of **public** utility to petition the Commission). The **public** utility shall apply the dispute procedures in §§ 56.381 and 56.382 (relating to **public** utility company dispute procedures). When the customer eliminates these arrearages, the customer is eligible to file new medical certificates.

§ 56.355. Restoration of service.

When service is required to be restored under this section and §§ 56.351, 56.354, 56.356—56.358 and 56.421, the **public** utility shall make a diligent effort to have service restored on the day of receipt of the medical certification. In any case, service shall be reconnected within 24 hours. Each **public** utility shall have employees available or on call to restore service in emergencies.

§ 56.357. Termination upon expiration of medical certification.

When the initial and renewal certifications have expired, the original ground for termination shall be revived and the **public** utility may terminate service without additional written notice, if notice previously has been mailed or delivered within the past 60 days under § 56.331 (relating to general notice provisions and contents of termination notice). The **public** utility shall comply with §§ 56.333—56.336.

§ 56.358. Right of **public** utility to petition the Commission.

(a) A **public** utility may petition the Commission for waiver from the medical certification procedures for the following purposes:

(1) *Contest the validity of a certification.* To request an investigation and hearing by the Commission or its designee when the **public** utility wishes to contest the validity of the certification.

(2) *Terminate service prior to expiration of certification.* To request permission to terminate service for the failure of the customer to make payments on current undisputed bills.

(3) *Contest the renewal of a certification.* To request permission to terminate service, under this section and §§ 56.321—56.323 and 56.331—56.339 when customer has not met the duty under § 56.356 (relating to duty of customer to pay bills), provided that the **public** utility has informed the customer of that duty under § 56.356.

(b) A **public** utility shall continue to provide service while a final Commission adjudication on the petition is pending. A petition under this section shall be accompanied by a **public** utility report described in § 56.382 (relating to contents of the **public** utility company report) and shall be filed with the Secretary of the Commission with a copy served to the customer.

THIRD-PARTY NOTIFICATION

§ 56.361. **Third-party notification.**

Each **public** utility shall permit its customers to designate a consenting individual or agency which is to be sent, by the **public** utility, a duplicate copy of reminder notices, past due notices, delinquent account notices or termination notices of whatever kind issued by that **public** utility. When contact with a third party is made, the **public** utility shall advise the third party of the pending action and the efforts which shall be taken to avoid termination. A **public** utility shall institute and maintain a program:

(1) To allow customers to designate third parties to receive copies of a customer's or group of customers' notices of termination of service.

GENERAL PROVISIONS

§ 56.371. **Follow-up response to inquiry.**

When a customer is waiting for a follow-up response to an initial inquiry under § 56.252 (relating to definitions), termination or threatening termination of service, for the subject matter relating to the inquiry in question, shall be prohibited until the follow-up response and, when applicable, subsequent dispute resolution is completed by the **public** utility.

§ 56.372. **Dispute procedures.**

A notice of dispute, including termination disputes, must proceed, according to this section:

To be timely filed, an informal complaint—which may not include disputes under §§ 56.285 and 56.421 (relating to payment of outstanding balance; and payment and timing)—shall be filed prior to the day on which the **public** utility arrives to terminate service. If the **public** utility arrives to terminate service and posts a deferred termination notice in lieu of termination or otherwise fails to terminate service, the time for filing an informal complaint shall be extended until the end of the business day prior to the **public** utility again arriving to terminate service.

§ 56.374. **Effect of failure to timely file an informal complaint.**

Failure to timely file an informal complaint, except for good cause, shall constitute a waiver of applicable rights to retain service without complying with the termination notice or conference report of the **public** utility.

PUBLIC UTILITY COMPANY DISPUTE PROCEDURES

§ 56.381. **General rule.**

Upon initiation of a dispute covered by this section, the **public** utility shall:

In addition, the **public** utility shall always provide the telephone number and address of the office of the Commission where an informal complaint may be filed.

[(1)] (i) The action required to be taken to avoid the termination of service.

[(2)] (ii) The date on or after which service shall be terminated in accordance with the applicable requirements unless the report is complied with or a payment agreement entered into or an informal complaint filed. If the **public** utility company report is in writing, the information in this paragraph shall be prominently displayed.

Parties may represent themselves or be represented by counsel or other person of their choice, and may bring

witnesses to appear on their behalf. The reports will be in writing and a summary will be sent to the parties if a party requests it or if the Commission staff finds that a summary is necessary.

(1) *Review techniques.* Review will be by an appropriate means, including, but not limited to, **public** utility company reports, telephone calls, conferences, written statements, research, inquiry and investigation. Information and documents requested by Commission staff as part of the review process shall be provided by the **public** utility within 30 days of the request. If the complainant is without **public** utility service, or in other emergency situations as identified by Commission staff, the information requested by Commission staff shall be provided by the **public** utility within 5 business days of the request. **Upon request of the complainant or Commission staff, the public utility shall provide the complainant with a copy of the documents submitted to Commission staff in response to the informal complaint. § 56.411. Duties of parties: disputing party's duty to pay undisputed portion of bills; **public** utility's duty to pay interest whenever overpayment found.

Pending resolution of a dispute, including a termination dispute, the disputing party shall be required to pay the undisputed portion of bills, as described in this section.

* * * * *

(5) *Effect of acceptance of partial payment.* The acceptance by a **public** utility of a partial payment for a bill pending final outcome of a dispute may not be deemed an accord and satisfaction or waiver of the right of the **public** utility to payment in full as subsequently agreed to by the parties or decided by the Commission.

Subchapter R. RESTORATION OF SERVICE

§ 56.421. **Payment and timing.**

When service to a dwelling has been terminated, the **public** utility shall reconnect service within 24 hours after receiving one of the following:

(1) Full payment of an outstanding charge plus the reconnection fee specified in the **public** utility's tariff on file with the Commission. Outstanding charges and the reconnection fee may be amortized over a reasonable period of time. Factors to be taken into account include, but are not limited to:

* * * * *

(2) Payment of amounts currently due according to a payment agreement, plus a reasonable reconnection fee, which may be a part of the payment agreement. The **public** utility may apply the procedure in paragraph (1), if the payment history indicates that the customer has defaulted on at least two payment agreements, an informal complaint decision or a formal complaint order. For purposes of this section, neither an amortization of a make-up bill under § 56.264 (relating to previously unbilled **public** utility service) or the definition of "billing month" in § 56.252 (relating to definitions) nor a payment agreement that has been paid in full by the customer, are to be considered defaults. Budget billing plans and amortization of budget plan reconciliation amounts under [§ 56.262(7)] § 56.262(8) (relating to meter reading; estimated billing; customer readings) may not be considered defaults for the purposes of this section.

(3) Adequate assurances that any unauthorized use or practice will cease, plus full payment of the reasonable reconnection fee of the **public** utility, which may be subject to a payment agreement and compliance or adequate assurance of compliance with an applicable provision for the establishment of credit or the posting of deposits or guarantees.

(4) Service shall be restored within 24 hours for erroneous terminations or upon receipt by the **public** utility of a valid medical certification. Erroneous terminations include instances when the grounds for termination were

removed by the customer paying the amount needed to avoid termination prior to the termination of the service.

(5) Service shall be restored within 24 hours for terminations and reconnections occurring after November 30 and before April 1.

(6) A customer or applicant of a city natural gas distribution operation whose household income does not exceed 135% of the Federal poverty level shall be reinstated under this section only if the customer or applicant enrolls in the customer assistance program of the city natural gas distribution operation. This requirement may not apply if the financial benefits to the customer or applicant are greater if served outside of that assistance program.

(7) A **public** utility shall provide for and inform the applicant or customer of a location where the customer may make payment to restore service. A **public** utility shall inform the applicant or customer that conditions for restoration of service may differ if someone in the household is a victim of domestic violence with a protection from abuse order or a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence, or is seriously ill or affected by a medical condition which will be aggravated without **public** utility service.

§ 56.422. **Personnel available to restore service.**

A **public** utility shall have adequate personnel available between 9 a.m. and 5 p.m. on each working day or for a commensurate period of 8 consecutive hours to restore service when required under this chapter, specifically §§ 56.322 and 56.421 (relating to timing of termination; and payment and timing).

Subchapter S. PUBLIC INFORMATION PROCEDURES; RECORD MAINTENANCE

§ 56.431. **Public information.**

(a) In addition to the notice requirements in this chapter, the Commission will, within 6 months of the effective date of a change to a regulation in this chapter, prepare a summary of the rights and responsibilities of the **public** utility and its customers affected by the change. Summaries will be mailed by the **public** utility to each customer of the **public** utility affected by the change. These summaries, as well as a summary of the rights and responsibilities of the **public** utility and its customers in accordance with this chapter, shall be in writing, reproduced by the **public** utility, displayed prominently, available on the **public** utility's web site, if the company has one, and available at all **public** utility office locations open to the general public. The public utility shall inform new customers of the availability of this information and direct where to locate it on the **public** utility's web site. The **public** utility shall deliver or mail a copy upon the request of a customer or applicant.

(b) A **public** utility which serves a substantial number of Spanish-speaking customers shall provide billing information in English and in Spanish. The written information must indicate conspicuously that it is being provided in accordance with this title and contain information concerning[, but not limited to,] all of the following:

* * * * *

(11) Telephone numbers and addresses of the **public** utility and of the nearest regional office of the Commission where further inquiries may be made.

(12) Definitions of terms or abbreviations used by the **public** utility on its bills.

(13) Information indicating that additional consumer protections may be available for victims of domestic violence **who have a protection from abuse order or a court order issued by a court of competent jurisdiction in this Commonwealth which provides clear evidence of domestic violence**, people with serious illnesses and low income households.

§ 56.432. Record maintenance.

A **public** utility shall preserve for a minimum of 4 years written or recorded disputes and complaints, keep the records accessible within this Commonwealth at an office located in the territory served by it, and make the records available for examination by the Commission or its staff. Information to be maintained includes the following:

- (1) The payment performance of each of its customers.

The BCS, through its Director and with the concurrence of the Commission, will establish appropriate internal procedures to implement the provisions of this chapter.

(1) Absent good cause, the BCS will handle only Chapter 56 informal complaints in which the customer first attempted to resolve the matter with the **public** utility.

(2) Only after the customer and the **public** utility have failed to resolve the dispute will BCS initiate an investigation.

Subchapter U. GENERAL PROVISIONS

§ 56.451. Availability of normal Commission procedures.

Nothing in this chapter prevents a person or a **public** utility from pursuing other Commission procedures in a case not described in this chapter.

§ 56.452. Applications for modification or exception.

(a) If unreasonable hardship to a person or to a **public** utility results from compliance with a section in this chapter or a technological advance permits an enhanced level of customer service, application may be made to the Commission for modification of the section or for temporary exemption from its requirements. The adoption of this chapter by the Commission will in no way preclude it from altering or amending it under the applicable statutory procedures, nor will the adoption of this chapter preclude the Commission from granting temporary exemptions in exceptional cases.

(b) A person or **public** utility that files an application under this section shall provide notice to persons who may be affected by the modification or temporary exemption. Notice may be made by a bill insert or in another reasonable manner.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of March 2017

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of March, 2017, is 5 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further preemption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which such individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities

is 2.73 to which was added 2.50 percentage points for a total of 5.23 that by law is rounded off to the nearest quarter at 5 1/4%.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Weatherization Assistance Program; Proposed State Plan; Public Hearing

The Department of Community and Economic Development (Department) will hold a public hearing at 3 p.m. on Wednesday, March 1, 2017, in PUC Hearing Room 5, Plaza Level, Commonwealth Keystone Building, 400 North Street, Harrisburg, PA. The purpose of this hearing is to receive comments on the proposed Pennsylvania 2017-2018 annually appropriated United States Department of Energy (DOE) Weatherization Assistance Program (WAP) State Plan (Plan).

The proposed 2017-2018 Plan will authorize the current 2017-2018 formula-based distribution for each county. Specific performance goals emphasize production, quality of the work product, prompt, accurate and complete reporting, and compliance with WAP standards and regulations.

The Plan includes the following significant changes:

- The WAP has now implemented the DOE-approved energy audit tool, Hancock Energy Audit Tool. In addition, the Commonwealth will continue its use of the Priority Measure List as the audit process for manufactured housing/mobile homes until the Hancock Energy Software manufactured/mobile home Energy Audit Tool has been approved for use by DOE.
- The Targeted Retrofit Energy Audit Tool, the energy audit tool for multifamily, is approved for use in this Commonwealth by DOE until May 2017. After that time, every potential multifamily WAP project must be approved by DOE.
- The American Society Heating, Refrigeration, Air-Conditioning Engineers (ASHRAE) rules to be followed have been updated to ASHRAE 62.2-2016.

These changes are part of a Quality Work Plan requirement per the DOE's implementation of the Standard Work Specifications for the weatherization workforce and

Quality Control Inspections. There is a continued National focus on coordination of efforts where other health and safety, lead-abatement, utility weatherization and housing rehab services are coordinated locally with weatherization services.

Copies of the proposed 2017-2018 WAP Plan may be obtained beginning February 17, 2017, by contacting the Department of Community and Economic Development, Center for Community Services, Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg, PA 17120, (717) 425-7597 or it can be downloaded from the Department's web site at www.dced.pa.gov. Written comments may be submitted to Lynette Praster, Director, Center for Community Services, Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg, PA 17120 until 5 p.m. on March 1, 2017.

Persons with a disability who wish to attend this hearing and require an auxiliary aid, services or other accommodations to participate in the proceedings should contact Yvonne Adams at (717) 425-7597 to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Envi- ronmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environ-
mental Remediation Standards Act (act) (35 P.S.
§§ 6026.302—6026.305) require the Department to pub-
lish in the *Pennsylvania Bulletin* an acknowledgment
noting receipt of Notices of Intent to Remediate. An
acknowledgment of the receipt of a Notice of Intent to
Remediate is used to identify a site where a person
proposes to, or has been required to, respond to a release
of a regulated substance at a site. A person intending to
use the background standard, Statewide health standard,
the site-specific standard or intend to remediate a site as
a special industrial area shall file a Notice of Intent to
Remediate with the Department. A Notice of Intent to
Remediate filed with the Department provides a brief
description of the location of the site, a list of known or
suspected contaminants at the site, the proposed remedia-
tion measures for the site and a description of the
intended future use of the site. A person who demon-
strates attainment of one or a combination of cleanup
standards or receives approval of a special industrial area
remediation identified under the act will be relieved of
further liability for the remediation of the site for con-
tamination identified in reports submitted to and ap-
proved by the Department. Furthermore, the person shall
not be subject to citizen suits or other contribution
actions brought by responsible persons not participating
in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act,
there is a 30-day public and municipal comment period
for sites proposed for remediation using a site-specific
standard, in whole or in part, and for sites remediated as
a special industrial area. This period begins when a
summary of the Notice of Intent to Remediate is pub-
lished in a newspaper of general circulation in the area of
the site. For the following site, proposed for remediation
to a site-specific standard or as a special industrial area,
the municipality, within which the site is located, may
request to be involved in the development of the remedia-
tion and reuse plans for the site if the request is made
within 30 days of the date specified as follows. During
this comment period, the municipality may request that
the person identified as the remediator of the site develop
and implement a public involvement plan. Requests to be
involved and comments should be directed to the
remediator of the site.

For further information concerning the content of a
Notice of Intent to Remediate, contact the environmental
cleanup program manager in the Department regional
office listed before the notice. If information concerning
this acknowledgment is required in an alternative form,

contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approval or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation

to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

23-0009J: The Boeing Company—Philadelphia (PO Box 16858, Philadelphia, PA 19142) for the installation of 2 new boilers, each with a heat input capacity of 36 MMBtu/hr, to replace 2 existing boilers (each rated at 42 MMBtu/hr) at Boeing's Ridley Park PA facility in Ridley Township, **Delaware County**. This facility is a major facility. Each boiler will be capable of both natural gas and No. 2 fuel oil firing. Fuel oil usage is limited to periods of boiler testing or natural gas curtailment. Each new boiler's design will include a low NO_x burner (LNB) with flue gas recirculation (FGR) to minimize emissions of NO_x (nitrogen oxides) and oxygen trim to optimize combustion and minimize all pollutants. An economizer will recover waste heat, further improving efficiency thereby minimizing emissions of all pollutants. The major pollutants emitted by the boilers are NO_x and carbon monoxide (CO). The NO_x emissions shall be limited to 30 ppm_{dv} @ 3% O₂ when firing natural gas and 90 ppm_{dv} @ 3% O₂ when firing No. 2 fuel oil. CO emissions shall be limited to 50 ppm_{dv} @ 3% O₂ when firing natural gas and 75 ppm_{dv} @ 3% O₂ when firing fuel oil. Emissions from both boilers are limited to 8.92 tons/year of NO_x and 9.04 tons/year of CO.

46-0013E: Clemens Food Group (2700 Clemens Rd., Hatfield, PA 19440-0902) for the replacement of existing control devices on the sludge dryer at the wastewater treatment plant (WWTP) with new venturi and packed tower scrubber to control particulate matter and odor emissions at their meat processing at their facility in Hatfield Township, **Montgomery County**.

As a result of potential emissions of nitrogen oxides (NO_x), the facility is Title V facility. The facility has a plantwide Federally Enforceable Emission Cap (FEEC) of 74.15 tons per year for NO_x.

In addition, the Plan Approval and Operating Permit will contain recordkeeping requirements and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Notice is hereby given under 25 Pa. Code §§ 127.44 and 127.45, that the Department of Environmental Protection (Department) intends to issue a Plan Approval on the proposed Air Quality application **35-00070A for Archbald Energy Partners, LLC (the Permittee)**, 72 Glenmaura National Blvd., Moosic, PA 18507 to construct and operate a natural-gas-fired combined-cycle (NGCC) power plant to produce approximately 485 MW of electricity at the facility to be located in Archbald Borough,

Lackawanna County as described in the Permittee's February 2, 2016 Plan Approval Application and any other subsequent supplemental submissions.

Plan Approval No. 35-00070A is for the construction and operation of a natural-gas-fired combined-cycle power plant consisting of a combustion gas turbine (CT) and a steam turbine (ST) with duct burners in the heat recovery steam generator (HRSG), one diesel-fired emergency generator, one diesel-fired fire water pump, an air cooled condenser, and one aqueous ammonia storage tank at the proposed Archbald Energy Partners, LLC's NGCC Plant to be located in Archbald Borough, Lackawanna County.

The company proposes to construct a NGCC plant consisting of a GE model 7HA.02 or equivalent combined cycle natural-gas-fired turbine. The HRSG will be equipped with natural-gas-fired duct burner (DB). The facility will be capable of producing approximately 485 MW (Nominal) of electricity. The maximum heat input rating of the CT is 3,269 MMBTU/hr. The DB will have a maximum heat input rating of 111 MMBTU/hr. The company proposes to control the nitrogen oxides emissions using a dry low-NO_x (DLN) combustor and selective catalytic reduction (SCR). To control the carbon monoxide (CO) and volatile organic compounds (VOCs) emissions,

the company proposes to utilize combustion controls and oxidation catalysts.

The 670 bhp diesel-fired emergency generator and the 450 bhp diesel-fired fire pump will be restricted to a maximum of 100 hours of operation each, in any 12 consecutive month period, for non-emergency operation. The maximum sulfur content of the diesel fuel fired in these engines will be 15 ppm.

The facility will be subject to NSPS Subpart KKKK, TTTT, IIII and 25 Pa. Code § 127.12(a)(5) Best Available Technology (BAT) requirements. The visible emission will be equal to or less than 10 % at any time. The company shall be subject to and comply with 25 Pa. Code § 123.31 for malodorous emissions.

Emissions from the turbines will meet BAT, NSPS Subpart KKKK & TTTT requirements. Emissions from the emergency generator engine will meet BAT & NSPS Subpart IIII requirements. The Plan Approval and Operating Permit will include testing, monitoring, record keeping and reporting requirements designed to keep the sources operating within all applicable air quality requirements.

The following table shows the proposed emissions from the facility:

47-00001F: Montour, LLC (835 Hamilton Street, PL-6, Suite 150, Allentown, PA 18101-1179) for an increase in the allowable hours of operation of two 1971 vintage Model D398 diesel-fired Caterpillar emergency generator sets from 240 to 500 hours per year at their Montour Steam Electric Station located in Derry Township, **Montour County**.

The Department of Environmental Protection's (Department) review of the information submitted by Montour, LLC indicates that the increase in hours of operation will comply with all applicable air quality regulatory require-

ments including 40 CFR Part 63 Subpart ZZZZ, and 25 Pa. Code Chapter 127, Subchapter E, as well as the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the increase in hours of operation.

The emission from each emergency generator included in this project will not exceed the following: 4.6 tons per year (TPY) NO_x, 1.2 TPY CO, 0.1 TPY PM_{2.5}, 0.1 TPY VOCs, 0.2 TPY SO_x, 0.2 TPY hazardous air pollutants.

The following is a brief description of the conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements.

1. The total emissions from the emergency generator engines shall not exceed any of the following limitations: (a) 3.20 lb/MMBtu heat input, 18.6 lb/hr, and 4.6 tons of nitrogen oxides in any 12 consecutive month period; (b) 0.85 lb/MMBtu heat input, 4.9 lb/hr, and 1.2 ton of carbon monoxide in any 12 consecutive month period; (c) 0.07 lb/MMBtu heat input, 0.4 lb/hr, and 0.1 ton of total particulate matter (condensable and filterable), including particulate matter having an aerodynamic diameter equal to or less than 2.5 micrometers (PM_{2.5}), in any 12 consecutive month period; (d) 0.09 lb/MMBtu heat input, 0.5 lb/hr, and 0.1 ton of volatile organic compounds in any 12 consecutive month period.

2. The emergency generator engines may only be fired on # 2 or lighter diesel fuel that contains a sulfur content of 15 ppm maximum, except that any existing diesel fuel purchased by the permittee prior to the date of issuance of the plan approval may be used until depleted, provided the sulfur content of the fuel does not exceed 0.5% (by weight).

3. The emergency generator engines shall comply with the operational restrictions on non-emergency usage specified in 40 CFR Subpart ZZZZ. The total operation of each generator engine shall be less than 500 hours in any 12 consecutive month period.

4. The permittee shall keep records of the following for the emergency generator engines:

(a) The number of hours operated per 12 consecutive month period. The permittee must document how many hours are spent for emergency operation, including what classified the operation as an emergency.

(b) Records of the maintenance conducted on the emergency generators.

(c) The documentation and calculations used to verify compliance with the emissions limitations. These records shall be retained for a minimum of 5 years and shall be made available to the Department upon request.

5. The permittee shall annual reports of the hours of operation of each emergency generator engine and the calculations to demonstrate compliance with the 12-month rolling emission limitations for each engine. The annual report shall be submitted to the Department no later than March 1 for the preceding year.

6. The permittee shall maintain and operate the emergency generators in accordance with the manufacturers' specifications or develop its own maintenance plan which must provide to the extent practicable for the maintenance and operation of the sources in a manner consistent with good air pollution control practice for minimizing emissions. The permittee shall also inspect the oil and filters every 500 hours of operation or annually; inspect

the air cleaners every 1,000 hours of operation or annually; and inspect all hoses and belts every 500 hours of operation or annually.

The facility is a major (Title V) facility. If the Department determines that the project has been performed in compliance with the plan approval conditions and the specification of the application for Plan Approval 47-00001F, the requirements established in the plan approval will be incorporated into Title V Operating Permit 47-00001 pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570.327.0550.

17-00061: Junior Coal Contracting, Inc. (2330 Six Mile Road, Philipsburg, PA 16866) to issue the renewal State Only Operating Permit NMOP 17-00061 for their facility located in Decatur Township, **Clearfield County**. The facility is currently operating under NMOP 17-00061 issued on January 20, 2012. The facility's sources consist of various coal processing, handling and transfer equipment associated with the coal processing plant (Source ID P101). There were a couple changes to the facility since 2012. The generator engine (Source ID P102) was removed from location since it is no longer needed. Instead of the generator engine, the plant equipment is now powered electrically from the grid since grid power became available approximately five (5) years ago. Junior also requested reactivation of the wet processing equipment associated with the plant. The Department determined that emissions from the operation/reactivation of the wet processing equipment associated with the plant were of minor significance. These changes are reflected in the renewal NMOP 17-00061. The facility's potential emissions of air contaminants are equal to approximately 29.28 tpy for PM₁₀.

The coal processing plant is subject to the Standards of Performance for Coal Preparation and Processing Plants as codified in 40 CFR Part 60 Subpart Y. The dry processing equipment is also subject to the Best Available Technology (BAT) standards established pursuant to 17-305-020A. All applicable requirements have been incorporated into the renewal NMOP 17-00061. Testing, monitoring, recordkeeping, reporting and work practice conditions have been also included in the renewal NMOP 17-00061 to ensure that the facility is operating in compliance with all applicable air quality regulatory requirements in 25 Pa. Code Chapters 121—145.

All pertinent documents used in the evaluation of the application are available for public review during normal

Approval of a Reasonably Available Control Technology (RACT II) plan for Lilly Compressor Station located in Cresson Township, **Cambria County**.

In accordance with 25 Pa. Code §§ 129.96—129.100, the Pennsylvania Department of Environmental Protection has made a preliminary determination to approve a RACT II plan and an amendment to the State Implementation Plan (SIP) for the Cresson Township. Compressor Station owned and operated by Texas Eastern Transmission, LP in Cresson Township, Cambria County.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997 National Ambient Air Quality Standard (NAAQS) and the 2008 NAAQS for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into a revised operating permit (11-00258) for the facility. The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal includes the provisions of the Department's presumptive Reasonably Available Control Technology (RACT II) requirements in accordance with 25 Pa. Code § 129.97, as they apply to existing sources at this facility.

The following is a summary of the proposed amendments to the RACT II determination for this operation that will be submitted to the EPA as a SIP revision:

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environ-

mental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. SPECIAL NOTICES

Notice of Proposed Revision to the State Implementation Plan for Oxides of Nitrogen, Volatile Organic Compounds, Notice of Public Hearing, and Notice of Intent to Issue Revised Air Quality Operating Permit 48-00009

Approval of a Reasonably Available Control Technology (RACT II) plan for Victaulic Company located in Forks Township, Northampton County.

In accordance with 25 Pa. Code §§ 129.96—129.100, the Pennsylvania Department of Environmental Protection has made a preliminary determination to approve a RACT II plan and an amendment to the State Implementation Plan (SIP) for the foundry, surface coating, and distribution operations owned and operated by Victaulic Company located in Forks Township, Northampton County.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997 National Ambient Air Quality Standard (NAAQS) and the 2008 NAAQS for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into a revised operating permit (48-00009) for the facility. The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal.

The following is a summary of the proposed amendments to the RACT II determination for this operation that will be submitted to the EPA as a SIP revision:

<i>Source</i>	<i>RACT II Requirement</i>
Pouring/Casting Operations Sand Handling system	Volatile Organic Compounds. The permittee will have a limit of 134,784 tons of Metal/hour (7,488 hr/yr)
Core Room Operations	Volatile Organic Compounds. The permittee will have a limit of 60,000 tons of sand/hour (8,760 hr/yr)

Persons wishing to file a written protest or provide comments or request a public hearing, which they believe should be considered prior to the issuance of a permit, may submit the information to Mark Wejkszner, Air Quality Program Manager, Northeast Regional Office, 2 Public Square, Wilkes-Barre, PA 18701-1915. A 30-day comment period from the date of publication in the *Pennsylvania Bulletin* will exist for the submission of comments, protests and hearing request. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed RACT II Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the proposed RACT II Plan. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Raymond Kempa, Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915.

All pertinent application documents are available for public review between 8 a.m. and 4 p.m. at the Pa DEP Northeast Regional Office, 2 Public Square, Wilkes-Barre, PA 18701-1915. Appointments for scheduling a review may be made by calling 570-826-2419.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact Colleen Connolly at 570-826-2035 or the Pennsylvania AT&T Relay Service at 1-800-654-5984 (TDD) to discuss how the Department may accommodate your needs.

Project Description: The Pennsylvania Infrastructure Investment Authority, which administers the Commonwealth's State Revolving Fund, is intended to be the funding source for this project, known as the ESWA Canal Street and Wood Avenue Water Main and Control Valve Chamber Improvement Project. ESWA proposes a distribution system replacement project of approximately 1.6 mile (8,400 LF) of 8-inch, 12-inch and 16-inch DI distribution main and necessary appurtenances (valves, hydrants, service laterals up to the curb stop) including the installation of three control valve chambers in the areas of Canal St., Wood Avenue, Berwick St., Seitz St., and Wilkes-Barre St. in the City of Easton, Wilson Borough and Forks Township, Northampton County. The Department's review of the project and the information received for the project has not identified any significant, adverse environmental impact resulting from this proposal. The Department hereby approves a Categorical Exclusion for the project.

Conditional State Water Quality Certification for the Maxwell Locks and Dam Hydroelectric Project, FERC Project No. 13766

On February 27, 2014, Solia 5 Hydroelectric, LLC (Applicant) filed an application with the Federal Energy Regulatory Commission (FERC) for a license to construct and operate a 13-megawatt (MW) hydropower facility at the Maxwell Lock and Dam, owned and operated by the U.S. Army Corps of Engineers (Corps), on the Monongahela River, at river mile 61.2, in Washington and Fayette Counties, Pennsylvania (Project). The Applicant is required pursuant to section 401(a) of the Federal

Clean Water Act (act) (33 U.S.C.A. § 1341(a)) to provide FERC with certification from the Commonwealth of Pennsylvania (Commonwealth) that any discharge from the Project to waters of the Commonwealth will comply with provisions of the act relating to water quality standards, and necessary measures to achieve and maintain those standards. The Commonwealth has established such standards and programs to achieve and maintain them under State law, which have been approved by the U.S. Environmental Protection Agency as consistent with the applicable provisions of the act. The Pennsylvania Department of Environmental Protection (Department) administers the Commonwealth's water quality standards programs under State law, and is responsible for the review of requests from applicants for water quality certification made pursuant to section 401 of the act.

On February 5, 2016, Applicant requested a State water quality certification from the Department, as required by Section 401 of CWA (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with CWA requirements.

On September 27, 2016, Rye Development, LLC provided the Department with a complete application for State Water Quality Certification, including an Environmental Assessment for the Project, on behalf of the Applicant. The Project would consist of a new 130-foot-long intake channel to be excavated into the riverbed downstream of the existing gated spillway. The intake

channel would lead to a concrete intake structure that would convey flows past a trash rack with 3-inch clear bar spacing, to a new concrete powerhouse that is 150 feet long. The powerhouse would house two (2) horizontal pit Kaplan turbine generator units with a combined capacity of 13 MW. Flows would exit the powerhouse into a 160-foot-long tailrace excavated into the riverbed. Two (2) gates, with a combined width of 84 feet, would be constructed within the intake area, to pass the flow equivalent of one existing gate bay in a fully open position. Project power would be transmitted from the powerhouse to a new project 40' × 40' substation, and then from the new substation to an existing distribution line, with a 350-foot-long, overhead transmission line, with a voltage between 69 and 138 kilovolts.

The Department published notice of its proposed State water quality certification in the *Pennsylvania Bulletin*, at 46 Pa.B. 7543 (December 3, 2016), and received zero (0) comments from the public.

By this notice, the Department certifies that the construction, operation and maintenance of the Project complies with the applicable provisions of sections 301–303, 306 and 307 of CWA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317), and will not violate the Commonwealth's water quality standards set forth in 25 Pa. Code Chapter 93, provided that the construction, operation and maintenance of the Project complies with the conditions for this certification as listed below, and the terms and conditions of the State law permits required to demonstrate compliance with Pennsylvania's Water Quality Standards:

1. *Conditional State Water Quality Certification*—This conditional State water quality certification is based upon the information that is available, to date, due to the FERC licensing process, and is granted with the understanding that the applicant will be submitting a final Environmental Assessment (EA) to the Department, to be reviewed and approved by the Department, prior to the start of construction. Within its final EA, the Applicant shall also provide written documentation that it has complied with each of the conditions within this Conditional Water Quality Certification. This final EA shall be submitted to the Department at the same time that the Applicant submits its application to the U.S. Army Corps of Engineers (USACE or Corps) for a Section 404 Permit, to facilitate a coordinated review between the Department and USACE. The final EA that is submitted to the Department must be developed from final design plans, specifications and reports.

2. *Erosion and Sediment Control*—The Applicant shall comply with the rules and regulations of 25 Pa. Code Chapter 102. The Applicant shall obtain and comply with an NPDES permit from the Department for the discharge of stormwater if the earth disturbance activities associated with the Project will result in a total disturbance equal to or greater than 1 acre. Earth disturbance activities associated with discharging dredged or fill material from the Project to waters of the United States which require permit coverage under Section 404 of CWA (33 U.S.C.A. § 1344) need not obtain an additional NPDES Permit from the Department for earth disturbance activities covered by the Section 404 permit. The Applicant shall submit final detailed erosion and sediment control and post construction stormwater management plans for all Project activities to the Department and County Conservation District for their review and approval prior to commencement of construction. Specific guidance on the requirements of the NPDES Permit for Stormwater Discharges Associated with Construction Ac-

tivities can be obtained from the County Conservation District or the DEP Regional Office.

3. *Water Obstruction and Encroachment Permit*—The Applicant shall comply with the rules and regulations of 25 Pa. Code Chapter 105 relating to dam safety and waterway management. The Applicant shall obtain, from the Department, and comply with Chapter 105 Water Obstruction and Encroachment Permit(s) (WO&EP), for the construction, operation and maintenance of any water obstruction or encroachment associated with the Project that is outside the scope of work licensed under the Federal Power Act, pursuant to the Clean Streams Law (35 P.S. §§ 691.1–691.1001), Dam Safety and Encroachments Act (32 P.S. §§ 673.1–693.27), and Flood Plain Management Act (32 P.S. §§ 679.101–679.601.), and all applicable implementing regulations.

4. *Submerged Lands License Agreement*—The Applicant shall obtain, from the Department, and comply with a Submerged Lands License Agreement, pursuant to Section 15 of the Dam Safety and Encroachments Act, 32 P.S. § 693.15, to occupy submerged lands of the Commonwealth in navigable waters as necessary to construct, operate and maintain the Project.

5. *Water Resource Planning Act Registration*—In accordance with the Pennsylvania Water Resources Planning Act, 27 Pa.C.S. § 3118, and the regulations thereunder, 25 Pa. Code Chapter 110, the Applicant must register the hydropower facility with the Department, and report water usage to the Department, annually.

6. *Limited Power Permit*—The Applicant shall obtain and comply with a permit from the Department as required by the Water Power and Water Supply Permits Act, Act of June 14, 1923, 32 P.S. §§ 591–625, related to the construction of a power dam or for a “change in stream” to develop power. The Applicant shall submit an application for this permit to the Department on the form available from the Department.

7. *Water Quality Monitoring*—During final design, the Applicant shall develop a water quality monitoring plan, to be implemented during the construction and operation of this project, and shall submit this plan to the Department for review and approval, prior to the start of construction, to ensure that the receiving water quality is not adversely impacted by the Applicant's construction, operation or maintenance of the Project. This water quality monitoring plan shall include adequate provisions to ensure that monitoring will assess any potential cumulative effect upon water quality, from the operation of all the currently proposed hydroelectric projects, within the greater Pittsburgh region. Thereafter, Applicant shall submit the results of the water quality monitoring to the Department and the USACE, along with suggested modifications in the operation or maintenance of the Project for inclusion in the adaptive management plan, should adverse impacts to water quality result from the project. The Department retains the right to specify additional studies or monitoring to ensure that the receiving water quality is not adversely impacted by the Applicant's construction, operation or maintenance of the Project.

8. *Operating Plan and Adaptive Management Plan*—The applicant will be developing an operating plan, Memorandum of Agreement, and an adaptive management plan with the USACE. Applicant will submit these plans to the Department for review and approval, prior to the start of construction, to evaluate potential effects of these plans upon, and compliance with, state water quality standards.

9. *Final Project Design Development*—During final design, applicant shall evaluate alternative designs for the proposed Project that may have the potential to reduce expected fish entrainment and mortality, such as, but not limited to, reducing and/or modifying the proposed 3-inch trash rack spacing, intake channel design, or other alternative designs, pursuant to Section 105.14(b)(4) and (6) of the Department's regulations, 25 Pa. Code § 105.13(e)(1)(viii) and 105.14(b)(4) and (6). This alternatives analysis shall be included in the Applicant's final EA, to be submitted to the Department for review and approval, prior to the start of construction. The final design shall also take into account the cumulative impact evaluations associated with conditions (10), (11), (12).

10. *Cumulative Impacts to Fish Populations*—Since the project is one of several, currently proposed hydroelectric projects on the Ohio, Monongahela and Allegheny Rivers within the greater Pittsburgh area river basins, the applicant, during final design, shall further evaluate the cumulative impacts from these hydroelectric projects, upon area fish populations, due to expected fish entrainment and mortality. Applicant shall include this evaluation in its final EA, to be submitted to the Department for review and approval, prior to the start of construction.

11. *Cumulative Impacts to Mussel Populations*—Since the Project is one of several currently proposed hydroelectric projects on the Ohio, Monongahela and Allegheny Rivers within the greater Pittsburgh area river basins, the applicant shall further evaluate, during final design, the cumulative impacts from these hydroelectric projects, upon local mussel populations, due to potential unavailability of host fish from expected fish entrainment and mortality. Applicant shall include this evaluation in its final EA, to be submitted to the Department for review and approval, prior to the start of construction.

12. *Cumulative Impacts to Riverine Habitat and Food Chain*—Since the project is one of several, currently proposed hydroelectric projects on the Ohio, Monongahela and Allegheny Rivers within the greater Pittsburgh area river basins, and since the development of locks and dams for navigation has compressed the flowing water habitat within these rivers to tailrace areas below these dams, the Applicant, during final design, shall further evaluate the cumulative impacts from these hydroelectric projects, upon riverine habitat and the food chain, within the three (3) river basins. Applicant shall include this evaluation in its final EA, to be submitted to the Department for review and approval, prior to the start of construction.

13. *Minimum By-pass Flows*—Applicant has proposed a seasonal minimum by-pass flow, through the tainter gates; however, during the final design, Applicant shall further evaluate the amount of by-pass flows necessary for the purposes of protection of public health, water quality control, conservation of fisheries, and aquatic habitat, improvement of recreation, and protection of instream and downstream water uses. Since the Applicant's model simulations indicate that dissolved oxygen levels, in particular during average and dry hydrology years, will be reduced by the operation of the proposed hydropower facility, the Applicant shall consider within its evaluation whether year-round by-pass flows, increased by-pass flow volumes, and/or aeration equipment are needed to maintain state water quality standards. Applicant shall provide this evaluation to the Department, within its final EA, for the Department's review and approval, prior to the start of construction. By-pass flows shall be provided across the length of the dam.

14. *Aids to Navigation (ATON) Plan*—Applicant shall develop an ATON Plan, to avoid or minimize impacts to recreational boating. This plan must be reviewed and approved by the PA Fish and Boat Commission (PFBC), prior to the start of construction. Please contact the PA Fish and Boat Commission, PO Box 67000, Harrisburg, PA 17106, regarding the requirements for an ATON Plan.

15. *Hydraulic Modeling*—The results of any additional hydraulic modeling shall be included in the applicant's final EA that is to be submitted to the Department, for the Department to review and approve, prior to the start of construction. In addition, the applicant shall use the results of the additional hydraulic modeling to further evaluate potential impacts to fish, freshwater mussels, and aquatic habitat, within the project area, and any other potential impacts that may be identified during the Department's review of the Applicant's final EA. Alternative designs may need to be considered, to avoid or minimize any adverse environmental impacts that may be identified from this additional modeling and/or additional evaluations for impacts. Mitigation may be required to compensate for any adverse environmental impacts that cannot be avoided. The development of these site-specific hydraulic studies should be coordinated with the Department and the PA Fish and Boat Commission, before conducting them.

16. *Wetland Delineation*—Applicant has indicated that the proposed access road would be in close proximity to bodies of water, including wetlands. Accordingly, Applicant shall identify the regulated Waters of the Commonwealth on the site. The wetlands shall be identified and delineated in accordance with the Department's Wetland Delineation Policy. The Applicant shall include this information within its final EA to be submitted to the Department, for review and approval, prior to the start of construction. If the proposed access road will impact any watercourse, floodway, and/or bodies of water, including wetlands, the Applicant may need to submit application(s) for, and obtain, Water Obstruction and Encroachment Permit(s), from the Department, prior to the start of construction.

17. *Programmatic Agreement*—The PA Historical and Museum Commission (PHMC) has determined that FERC's issuance of an original license to Solia 5 Hydroelectric, LLC to construct, operate, and maintain the Maxwell Locks and Dam Hydroelectric Project may affect properties included in or eligible for inclusion in the National Register of Historic Places. Accordingly, Applicant shall work with PHMC in the creation of a mitigation plan to protect this structure, which may include the Applicant complying with a Final Programmatic Agreement Between the Federal Energy Regulatory Commission and the Pennsylvania State Historic Preservation Office for Managing Historic Properties that may be Affected by Issuing an Original License to Solia 5 Hydroelectric, LLC for the Construction, Operation, and Maintenance of the Maxwell Locks and Dam Hydroelectric Project Located in Washington County, Pennsylvania (FERC No. 13766-002).

18. *Riparian Property*—Within its final EA, Applicant shall submit evidence that it has obtained notarized and signed releases, or has acquired rights of occupancy and use other than fee title, from the owners of any affected riparian property. This conditional water quality certification does not convey any real property rights or interests or authorization to trespass on privately-owned riparian land.

19. *Corps Authorization*—This conditional water quality certification does not relieve the Applicant of the responsibility to obtain any applicable approval/permit from the District Engineer, Pittsburgh District, U.S. Army Corps of Engineers, Room 1817, Federal Building, 1000 Liberty Avenue, Pittsburgh, PA 15222, under Section 10 of the Rivers and Harbor Act or Section 404 of the Clean Water Act of 1977.

20. *Fish and Mussel Surveys and Mitigation*—The Project footprint will reduce riverine habitat below the dam by approximately 1.9 acre. Accordingly, fish and mussel surveys shall be conducted three (3) years after project construction, to evaluate the project's impact to fish and mussel species in the project area. The plans for these surveys shall be included within the Applicant's final EA, for the Department's review and approval. In addition, the results of these surveys shall be submitted to the Department for review, within 60 days of completion of these surveys. If the results of these surveys indicate an adverse environmental impact to fish and mussels in the project area, Applicant shall develop a remediation plan to eliminate or reduce the adverse environmental impact. In addition, the applicant may have to provide compensation for the adverse environmental impact.

21. *Cumulative Environmental Impact Assessment*—The Project is one of several, currently proposed hydroelectric projects in the Ohio, Monongahela, and Allegheny Rivers, within the greater Pittsburgh area river basins. Fish species, such as walleye, smallmouth bass, darters, etc., inhabit the area that can exhibit some migratory behavior, and could pass through multiple hydroelectric projects. In addition, the Applicant's Fish Entrainment Study reports mortality to fish species, such as catfish, drum, darters and bass, that are more likely to be host fish that are important to mussel propagation. Accordingly, Applicant shall develop a plan to conduct fish and mussel surveys, after the construction of all, or at least 50%, of the currently proposed hydroelectric projects, to evaluate the potential for cumulative impacts to area fish and mussel populations. This plan shall be included with the Applicant's final EA, for the Department's review and approval. If the results of these surveys indicate an adverse environmental impact to fish and mussels in the project area, Applicant shall develop a remediation plan to eliminate or reduce the adverse environmental impact. In addition, the Applicant may have to provide compensation for the adverse environmental impact.

22. *Clean Water Program Coordination*—Applicant shall evaluate the cumulative impacts of lowering Dissolved Oxygen (DO) concentration below existing levels on overall water quality. This analysis shall include an evaluation of the effects of lower DO levels on other dischargers, whose dissolved oxygen analysis could be impacted by any reduction in DO due to the proposed project. The Applicant shall include, within its final EA to be submitted to the Department, a full analysis depicting the pre- and post-construction dissolved oxygen using a Q7-10 flow, and achieving a 7-day average of 5.5 mg/l and a minimum of 5.0 mg/l at the project site, and all points potentially impacted downstream of the project, in accordance with The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the regulations promulgated thereunder, and 25 Pa. Code § 93.7.

23. *Water Quality Requirements*—The project must maintain the applicable water quality standard of a 7-day average DO concentration of 5.5 mg/l and a minimum DO concentration of 5.0 mg/l, at Q7-10 low flow conditions, unless the analysis required by the preceding condition

indicates that a higher DO level is needed to maintain the DO water quality standard within the pool behind Lock & Dam 4 (aka Charleroi Lock & Dam), given consideration of all existing, permitted dischargers currently within the pool in accordance with The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the regulations promulgated thereunder.

24. *Stream and Habitat Mitigation*—Since the Project will eliminate approximately 1.9 acre of riverine habitat, Applicant shall include, within its final EA to be submitted to the Department, a plan to mitigate for this lost habitat, for the Department's review and approval, prior to the start of construction.

25. *Fishing Access*—During final design, Applicant shall develop a plan to compensate for lost recreational fishing by providing angler access that is comparable to, or better than, current conditions. Applicant shall consider providing angler access that is close to normal water surface elevations and the water's edge, and adequately compensate for the footage of fishing access lost.

26. *Fish Mitigation*—Since the project will impact fish, Applicant shall include, within its final EA to be submitted to the Department, a mitigation plan to compensate for this environmental impact, for the Department's review and approval, prior to the start of construction.

27. *Fish and Mussel Salvage*—Applicant shall further develop its fish and mussel salvage plan to safely remove fishes and mussels from the project area that would otherwise be trapped behind the proposed coffer dams during the dewatering process. These fish and mussels should be relocated to areas outside of the project area. The Applicant shall include this salvage plan within its final EA, to be reviewed and approved by the Department, prior to the start of construction.

28. *River Sediment Testing*—Applicant shall manage dredge material removed from the river in accordance with the Solid Waste Management Act, Act of July 7, 1980, P.L. 380, No. 97, as amended, 35 P.S. §§ 6018.101—6018.1003 ("Solid Waste Management Act") and regulations promulgated thereunder. Permittee should contact the Facilities Chief, Waste Management Program, Southwest Regional Office, with questions regarding this requirement. The project shall be consistent with the Department's Management of Fill policy and the analytic requirements therein. If the testing reveals that the dredged material exceeds the requirements for unrestricted use as clean fill, then the Applicant shall arrange for off-site disposal of the dredged sediments, after applying for and obtaining approval from the Department's Waste Management Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

29. *Threatened, Endangered and Special Concern Species*—The results obtained from utilizing the Pennsylvania Natural Diversity Inventory's Pennsylvania Natural Diversity Inventory (PNDI), and any determinations received from an appropriate jurisdictional agency during any associated consultations, are valid only for 2 years. Accordingly, Applicant must include new PNDI search results within its final EA, along with evidence of any necessary follow-up with the appropriate jurisdictional agency(s). In addition, PNDI search results and clearances must be current and valid, prior to the start of construction.

30. *Geotechnical Testing*—If a temporary road, drilling platform or other structure is needed to conduct any core boring drilling operations or geotechnical testing, within the Commonwealth's waterways, Applicant shall obtain a

permit(s) or other authorization(s) from the Department, prior to conducting any core boring drilling operations or geotechnical testing.

31. *Preparedness, Prevention and Contingency Plan*—The Applicant shall develop and maintain on site a Preparedness, Prevention and Contingency Plan (PPC Plan) for any project activities utilizing pollutants, pursuant to Section 91.34 of the regulations, 25 Pa. Code § 91.34. The PPC Plan shall be developed in accordance with the “Guidelines for the Development and Implementation of Environmental Emergency Response Plans” which can be found at: <http://www.elibrary.dep.state.pa.us/dsweb/Get/Document-48522/400-2200-001.pdf>

32. *Operation*—The Applicant shall at all times properly operate and maintain all Project facilities and systems of treatment and control and related appurtenances which are installed to achieve compliance with the terms and conditions of this State Water Quality Certification and all required permits, authorizations and approvals. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by the Applicant.

33. *Inspection*—The Project, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of the Department to determine compliance with this State Water Quality Certification, including all required state water quality permits and state water quality standards. A copy of this certification shall be made available for inspection by the Department during such inspections of the Project.

34. *Transfer of Projects*—If the Applicant intends to transfer any legal or equitable interest in the Project which is affected by this State Water Quality Certification, the Applicant shall serve a copy of this certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the Department’s Southwest Regional Office of such intent. Notice to the Department shall include a transfer agreement signed by the existing and new owner containing a specific date for transfer of certification responsibility, coverage, and liability between them. The existing owner shall continue to be responsible for construction and operations at the Project until a transfer to the new owner has been completed. The new owner shall comply with the conditions of this certification, which shall remain in effect, unless modified, in writing, by the Department.

35. *Correspondence*—All correspondence with and submittals to the Department concerning this State Water Quality Certification shall be addressed to the Department of Environmental Protection, Southwest Regional Office, Waterways and Wetlands Program, 400 Waterfront Drive, Pittsburgh, PA 15222, and shall reference DEP File No. WQ05-008, APS ID # 890428, or Authorization No. 1107073.

36. *Reservation of Rights*—The Department may suspend or revoke this State Water Quality Certification if it determines that the Applicant has not complied with the terms and conditions of this certification. The Department reserves the right to require additional measures to achieve compliance with applicable laws and/or regulations, subject to the Applicant’s applicable procedural and substantive rights.

37. *Other Laws*—Nothing in this State Water Quality Certification shall be construed to preclude the institution of any legal action or relieve the Applicant from any

responsibilities, liabilities, or penalties established pursuant to any applicable Federal or State law or regulation.

38. *FERC Original License*—The Applicant shall supply to the Department a copy of the Original License issued by FERC for this project, not later than ten days after the issuance of such license. The Department may revoke, suspend or modify this Conditional Water Quality Certification as it deems appropriate, depending upon the terms of said license.

39. *Compliance with Terms and Conditions*—This Conditional State Water Quality Certification does not relieve the Applicant of the responsibility for any discharge to waters of the Commonwealth, or allow for any inappropriate discharge to occur. Failure to comply with the terms and conditions of this Conditional State Water Quality Certification will result in the automatic nullification and voidance of this certification, and may subject the Applicant and responsible parties to pay fines of up to \$10,000, per violation, for each day the violation occurs, constituting a separate violation.

40. *Severability*—The provisions of this State Water Quality Certification are severable and should any provision of this certification be declared invalid or unenforceable, the remainder of the certification shall not be affected thereby.

Any person aggrieved by this action may appeal, pursuant to Section 4 of the Environmental Hearing Board Act, 35 P.S. § 7514, and the Administrative Agency Law, 2 Pa.C.S. Rates to be Used for Calculating Long-Term Operation and Maintenance Cost Bonds for Water Supply Replacement-Mining Operations

The Department of Environmental Protection (Department) announces the rates to be used to calculate bond amounts for water supply replacement operation and maintenance costs for anthracite and bituminous coal and industrial mineral mining operations. The authority for bonding mining operations is found under The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the Surface Mining Conservation and Reclamation Act (52 P.S. §§ 1396.1—1396.19b), the Coal Refuse Disposal Control Act (52 P.S. §§ 30.51—30.66), The Bituminous Mine Subsidence and Land Conservation Act (52 P.S. §§ 1406.1—1406.21), the Noncoal Surface Mining Conservation and Reclamation Act (52 P.S. §§ 3301—3326) and the regulations promulgated thereunder at 25 Pa. Code Chapters 77 and 86 (relating to noncoal mining; and surface and underground coal mining; general).

The rates are used in calculating the water supply operation and maintenance bond amounts for replace-

ment water supplies affected by activities at mining operations including surface mines, coal refuse disposal sites, coal refuse reprocessing sites, coal processing facilities, underground coal mining operations and industrial mineral surface mines. The procedures for calculating water supply operation and maintenance bonds are described in Technical Guidance 562-4000-102, "Increased Operation and Maintenance Costs of Replacement Water Supplies," which is available on the Department's eLibrary web site at www.elibrary.dep.state.pa.us.

The Department may review the adequacy of bonds on existing permits at any time. The Department will conduct these reviews before issuing permit renewals. The Department may conduct similar reviews at the midterm of a permit and before approving a permit revision.

Rates

The Department calculated the rate of inflation and rate of return using 5-year averages. For the rate of inflation, the Consumer Price Index (Northeast Urban) from the United States Department of Labor, Bureau of Labor Statistics, was averaged for the calendar years 2012—2016, resulting in a rate of 1.13%. For the rate of return, the interest rate for the 20-year Treasury bill as reported by the Federal Reserve was averaged for the calendar years 2012—2016 resulting in a rate of 2.7%.

For background information and supporting documentation regarding the rates, contact the Bureau of Mining Programs, Division of Permitting and Compliance, P.O. Box 8461, Harrisburg, PA 17105-8461, (717) 787-5103.

Effective Date

The rates in this notice will become effective on April 1, 2017. They will remain in effect until new rates are published. It is anticipated that these new rates will be published in February 2018, to be effective April 1, 2018.

DEPARTMENT OF HUMAN SERVICES

Payments to Nonpublic and County Nursing Facilities; Final Rates for State Fiscal Year 2016-2017

This notice announces the Department of Human Services (Department) final annual case-mix per diem payment rates for State Fiscal Year (FY) 2016-2017 for nonpublic and county nursing facilities that participate in the Medical Assistance (MA) Program.

Nonpublic Nursing Facility Per Diem Rates

As required by the case-mix payment methodology in 55 Pa. Code Chapter 1187, Subchapter G (relating to rate setting), the Department sets an annual MA per diem rate for each nonpublic nursing facility provider. Each facility's annual per diem rate is comprised of four components: resident care; other resident related; administrative; and capital. For each quarter of FY 2016-2017, the Department will adjust the resident care component of each facility's rate by multiplying the resident care component by the facility's MA case-mix index for the appropriate picture date.

The Centers for Medicare & Medicaid Services (CMS) approved State Plan Amendment (SPA) 16-0034 on November 8, 2016, which includes the budget adjustment factor (BAF) formula the Department will use for nonpublic nursing facilities in FY 2016-2017. SPA 16-0034 provides that the BAF will limit the estimated Statewide day-weighted average payment rate for MA nursing facility services for county and nonpublic nursing facilities so that the average payment rate in effect for the fiscal year is limited to the amount permitted by the funds appropriated by the General Appropriations Act for the fiscal year. For FY 2016-2017, the Department calculated a base BAF for nonpublic nursing facilities for July, October and January rates. The formula the Department used to determine a base BAF equals the target rate divided by the acuity-adjusted weighted average rate. For the April BAF, the weighted average April rate will be compared to the April target rate. If the difference between the weighted average April rate and the April target rate is more than 25¢, a BAF for the April—June 2017 calendar quarter will be determined by dividing the April target rate by the weighted average April rate at 100%. For the 2016-2017 rate year, July, October and January rates, the base BAF is 0.82958. The BAF for the April—June 2017 calendar quarter will be in the April 2017 rate file that will be posted on the Department's web site prior to April 1, 2017.

County Nursing Facility Per Diem Rates

As required by the rate methodology in 55 Pa. Code Chapter 1189, Subchapter D (relating to rate setting), the Department sets an annual MA per diem rate for each county nursing facility provider. As stated in 55 Pa. Code § 1189.91(b) (relating to per diem rates for county nursing facilities), for each rate year beginning on or after July 1, 2007, the per diem rate paid to a county nursing facility for a rate year will be the facility's prior rate year per diem multiplied by a BAF.

In addition, as required by 55 Pa. Code § 1189.91(d), the Department used the formula set forth in the Commonwealth's approved State Plan to determine that the BAF for FY 2016-2017 for county nursing facilities is 1.0. CMS approved SPA 16-0033 on November 8, 2016, which

includes the BAF formula the Department will use for county nursing facilities in FY 2016-2017.

SPA 16-0033 provides that for rate setting year 2016-2017, the BAF shall limit the estimated Statewide day-weighted average payment rate for MA nursing facility services for county and nonpublic nursing facilities so that the average payment rate is limited to the amount permitted by the funds appropriated by the General Appropriations Act. The BAF as it applies to county nursing facilities is 1.0.

The final annual per diem rates for FY 2016-2017 rate year are available on the Department's web site at <http://www.dhs.pa.gov/provider/longtermcarecasemixinformation/index.htm> and at local county assistance offices (CAO) throughout this Commonwealth or by contacting Marilyn Yocum, Department of Human Services, Office of Long-Term Living, (717) 772-2549. As they become available, the adjusted quarterly rates will be accessible on the Department's web site, at CAOs or by contacting Marilyn Yocum.

The Department published the notice Payment for Nursing Facility Services Provided by County and Nonpublic Nursing Facilities; Notice of Change in Methods and Standards of Setting Payment Rates; Budget Adjustment Factor at 46 Pa.B. 3354 (June 25, 2016) announcing the proposed change in the BAF formula for county and nonpublic nursing facilities. The Department also published a second notice, Payments to Nonpublic and County Nursing Facilities; Proposed Rates for State Fiscal Year 2016-2017, at 46 Pa.B. 3359 (June 25, 2016) announcing that the FY 2016-2017 base BAF that will be applied to nonpublic nursing facilities rates and the annual BAF that will be applied to county nursing facilities rates are available on the Department's website. Both notices invited public comments and the Department received no comments.

Appeals

Following publication of this notice, the Department will send rate letters to each MA nursing facility to notify the facilities of their final rates for FY 2016-2017. The rate letter will also advise each facility that it may file an administrative appeal if the facility believes that the Department made any errors or otherwise disagrees with its final rates for FY 2016-2017. A provider's appeal must be in writing and filed with the Department's Bureau of Hearings and Appeals, 2330 Vartan Way, 2nd Floor, Harrisburg, PA 17110-9721, within 33 days of the date of the Department's letter notifying the facility of its final rates. Facilities should refer to 67 Pa.C.S. Chapter 11 (relating to Medical Assistance hearings and appeals) and the Department's regulations in 55 Pa. Code Chapter 41 (relating to Medical Assistance provider appeal procedures) for more detail regarding their appeal rights and the requirements related to written appeals.

Peer Groups, Peer Group Medians and Peer Group Prices for Nonpublic Nursing Facilities Including Hospital-Based Nursing Facilities and Special Rehabilitation Facilities for Fiscal Year 2016-2017

The purpose of this notice is to announce the Department of Human Services' (Department) peer groups, peer group medians and peer group prices for nonpublic nursing facilities including hospital-based nursing facilities and special rehabilitation facilities (SRF) codified in 55 Pa. Code Chapter 1187, Appendix B (relating to medians and prices) under 55 Pa. Code § 1187.95(a)(4) (relating to general principles for rate and price setting). The Department used the peer groups, peer group medians and peer group prices to determine case-mix rates for nonpublic nursing facilities for State Fiscal Year (FY) July 1, 2016, through June 30, 2017. The Department calculated the peer groups, peer group medians and peer group prices announced in this notice in accordance with 55 Pa. Code Chapter 1187 (relating to nursing facility services). The data that the Department used to determine the peer group medians and prices is available on the Department's web site at <http://www.dhs.pa.gov/provider/longtermcarecasemixinformation/index.htm>.

To establish the database for the calculation of peer group medians and prices, the Department used each nursing facility's three most recent audited cost reports that were issued by the Department on or before March 31, 2016, and indexed the costs for each report forward to the common date of December 31, 2016, using the Centers for Medicare & Medicaid Services' Nursing Home Without Capital Market Basket Index. The following is a listing, by group, of the number of nursing facilities with a particular year-end and the inflation factor used to roll the costs of each facility forward to the common date of December 31, 2016.

* As a result of using the three most recent audited cost reports, the "Number of Facilities" column reflects a number in excess of actual enrolled nursing facilities.

After the database was inflated using the inflation values, the Department grouped the facilities in the correct geographic and bed size groupings. In accordance with 55 Pa. Code § 1187.94 (relating to peer grouping for price setting), to establish peer groups, the Department used the Metropolitan Statistical Areas (MSA) group classification published in the Federal Office of Management and Budget Bulletin No. 99-04, regarding revised statistical definitions of Metropolitan Areas and guidance on uses of Metropolitan Area definitions, to classify each nursing facility into one of three MSA groups or one non-MSA group. The Department then used the bed complement of the nursing facility on the final day of the reporting period of the most recent audited MA-11 used in the Nursing Information System database to classify nursing facilities into one of three bed complement groups. These groups are 3—119 beds, 120—269 beds, and 270 beds and over. Peer groups 7 and 10 have been collapsed in accordance with 55 Pa. Code § 1187.94(1)(iv). Peer group 13 is designated for SRFs only and peer group 14 is designated for hospital-based nursing facilities only, regardless of geographic location or bed size.

After the database was established and the peer groups determined, the Department calculated the medians and prices for each peer group. For peer group 13, the Department arrayed the SRFs classified on or before July 1, 2000, to set the peer group median and prices for those facilities. The Department arrayed any SRFs classified after July 1, 2000, with all other SRFs to set their peer group medians and prices.

To calculate the resident care cost medians, the Department divided the inflated audited allowable resident care costs for each cost report by the total facility case-mix index from the available February 1, picture date closest to the midpoint of the cost report period to obtain case-mix neutral total resident care cost for the cost report year. The Department then divided the case-mix

neutral total resident care cost for each cost report by the total audited actual resident days for the cost report year to obtain the case-mix neutral resident care cost per diem for the cost report year. The Department calculated the 3-year arithmetic mean of the case-mix neutral resident care cost per diem for each nursing facility to obtain the average case-mix neutral resident care cost per diem of each facility. The Department arrayed the average case-mix neutral resident care cost per diem for each nursing facility within the respective peer groups and determined a median for each peer group.

To calculate the other resident related cost medians, the Department first divided the inflated audited allowable other resident related costs for each cost report by the total audited actual resident days for the cost report year to obtain the other resident related cost per diem for the cost report year. The Department calculated the 3-year arithmetic mean of the other resident related cost for each nursing facility to obtain the average other resident related cost per diem of each facility. The Department arrayed the average other resident related cost per diem for each nursing facility within the respective peer groups and determined a median for each peer group.

To calculate the administrative cost medians, the Department adjusted, as appropriate, the total audited actual resident days for each cost report to a minimum 90% occupancy in accordance with 55 Pa. Code § 1187.23 (relating to nursing facility incentives and adjustments). The Department then divided the inflated audited allowable administrative cost for each cost report by the total audited actual resident days, adjusted to 90% occupancy, if applicable, to obtain the administrative cost per diem for the cost report year. The Department calculated the 3-year arithmetic mean of the administrative cost for each nursing facility to obtain the average administrative cost per diem of each facility. The Department arrayed the average administrative cost per diem for each nursing facility within the respective peer groups to determine a median for each peer group.

After the medians were determined for each peer group, the Department set prices using the medians. To set peer group prices, the Department multiplied the resident care cost median of each peer group by 1.17 to obtain the resident care cost peer group price; multiplied the other resident related cost median of each peer group by 1.12 to obtain the other resident related peer group price; and multiplied the administrative cost median of each peer group by 1.04 to obtain the administrative cost peer group price.

The peer groups, peer group medians and peer group prices for nonpublic nursing facilities including hospital-based and SRFs for Year 22 are in the list of Medians and Prices for 2016-2017.

A Medical Assistance nursing facility provider may file an administrative appeal if the facility believes that the Department made any errors or the provider otherwise disagrees with the Year 22 peer group prices that the Department established for its peer group. A provider's appeal must be in writing and filed with the Department's Bureau of Hearings and Appeals, 2330 Vartan Way, Second Floor, Harrisburg, PA 17110-9721, within 30 days of the date of this notice. If a provider chooses to appeal, the provider will be afforded the opportunity for a de novo hearing before the Bureau of Hearings and Appeals. The peer group prices applied in setting the facility's rates may be changed as a result of the final adjudication of the facility's peer group price appeal.

Facilities should refer to 67 Pa.C.S. Chapter 11 (relating to Medical Assistance hearings and appeals) and the Department's regulations in 55 Pa. Code Chapter 41 (relating to Medical Assistance provider appeal procedures) for more detail regarding their appeal rights and the requirements related to their written appeals.

Review of Appendices I and J of the Consolidated and Person/Family Directed Support Waivers

The purpose of this notice is to make available for public review and comment Appendices I and J of the Office of Developmental Programs' proposed renewals of the Consolidated and Person/Family Directed Support (P/FDS) Waivers (Waivers).

Background

Home-based and community-based waivers permitted under section 1915(c) of the Social Security Act (42 U.S.C.A. § 1396n(c)) are approved by the Centers for Medicare & Medicaid Services (CMS) for a 5-year renewal period. The current Waivers expire on June 30, 2017; therefore, the proposed renewals of the Waivers are to be submitted to CMS no later than March 30, 2017.

In the request for renewal of the Waivers, the Department of Human Services (Department) expects to propose the following substantive changes to Appendices I and J, effective July 1, 2017:

- The rate determination methods have been updated to include the following new proposed services for which a Medical Assistance Fee Schedule Rate will be set, effective July 1, 2017: Advanced Supported Employment; Community Participation Support; Music, Art and Equine

Assisted Therapy; Benefits Counseling; Communication Specialist; Consultative Nutritional Services; Housing Transition and Tenancy Sustaining Services; Family/Caregiver Training and Support (excluding training registration and fees) and Supported Living.

- Effective January 1, 2018, rates for the following services in the Consolidated waiver only will transition to the Medical Assistance Fee Schedule: Unlicensed and Licensed Residential Habilitation and Unlicensed and Licensed Life Sharing. When this occurs, Additional Individualized Staffing will no longer be available as a discrete service as it will be included in the rate for Residential Habilitation and Life Sharing Services.

- Effective January 1, 2018, transportation (per trip) will be the only service remaining that utilizes the cost-based methodology.

- The registration and fees for the new Family/Caregiver Training and Support Service will have an outcome-based payment for vendor goods and services effective July 1, 2017. In the P/FDS Waiver only, the new Participant Directed Goods and Services will also have an outcome-based payment for vendor goods and services effective July 1, 2017.

- The factors related to estimated annual average per capita Medicaid costs have been updated to reflect the most recent data available.

• To reflect consideration for differences in costs observed across this Commonwealth, the Department has established two geographical areas, effective July 1, 2017. The reduction from three areas to two was driven by Commonwealth-specific wage and population data compiled during the fee schedule market-based rate development process.

The proposed Appendices I and J for the Waivers are available at: http://www.dhs.pa.gov/provider/developmental_programs/2017waiverrenewals/.

Fiscal Impact

It is anticipated that there will be an additional \$399.413 million (\$192.477 million in State funds) cost to the Commonwealth in Fiscal Year (FY) 2017-2018 related to Appendices I and J of the Consolidated and P/FDS Waivers renewals as discussed in this public notice. For FY 2018-2019, the additional cost is estimated to be \$427.578 million (\$206.007 million in State funds).

FISH AND BOAT COMMISSION

Classification of Wild Trout Streams Proposed Additions, Revisions and Removals; April 2017

Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Fish and Boat Commission (Commission) to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The Commission's Fisheries Management Division maintains the list of wild trout streams. The Executive Director, with the approval of the Commission, will from time-to-time publish the list of wild trout streams in the *Pennsylvania Bulletin*. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams.

At the next Commission meeting on April 24 and 25, 2017, the Commission will consider changes to its list of wild trout streams. Specifically, the Commission will consider the addition of the following streams or portions of streams to the list:

Proposed Changes to List of Class A Wild Trout Waters; April 2017

The Fish and Boat Commission (Commission) is considering changes to its list of Class A Wild Trout Streams. Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource to conserve that resource and the angling it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries. With rare exceptions, the Commission manages these stream sections solely for the perpetuation of the wild trout fishery with no stocking.

Criteria developed for Class A Wild Trout fisheries are species specific. Wild Trout Biomass Class Criteria include provisions for:

(i) *Wild Brook Trout Fisheries*

(A) Total brook trout biomass of at least 30 kg/ha (26.7 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lb/acre).

(C) Brook trout biomass must comprise at least 75% of the total trout biomass.

(ii) *Wild Brown Trout Fisheries*

(A) Total brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lb/acre).

(C) Brown trout biomass must comprise at least 75% of the total trout biomass.

(iii) *Mixed Wild Brook and Brown Trout Fisheries*

(A) Combined brook and brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lb/acre).

(C) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lb/acre).

(D) Brook trout biomass must comprise less than 75% of the total trout biomass.

(E) Brown trout biomass must comprise less than 75% of the total trout biomass.

(iv) *Wild Rainbow Trout Fisheries*

Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 2.0 kg/ha (1.78 lbs/acre).

(v) *Mixed Wild Brook and Rainbow Trout Fisheries*

(A) Combined brook and rainbow trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lb/acre).

(C) Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lb/acre).

(D) Brook trout biomass shall comprise less than 75% of the total trout biomass.

(E) Rainbow trout biomass shall comprise less than 75% of the total trout biomass.

(vi) *Mixed Wild Brown and Rainbow Trout Fisheries*

(A) Combined brown and rainbow trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lb/acre).

(C) Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lb/acre).

(D) Brown trout biomass shall comprise less than 75% of the total trout biomass.

(E) Rainbow trout biomass shall comprise less than 75% of the total trout biomass.

During recent surveys, Commission staff documented the following stream sections to have Class A wild trout populations. The Commission intends to consider adding these waters to its list of Class A Wild Trout Streams at its meeting on April 24 and 25, 2017.
