## DEPARTMENT OF BANKING AND SECURITIES

### Maximum Lawful Rate of Interest for Residential Mortgages for the Month of May 2018

The Department of Banking and Securities (Department), under the authority in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of May, 2018, is 5 1/2%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government securities is 2.96 to which was added 2.50 percentage points for a total of 5.46 that by law is rounded off to the nearest quarter at 5 1/2%.

## DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

### Substantial Amendments for the Community Development Block Grant—Disaster Recovery; 2012 and 2013 Allocations; Public Hearing

A public comment period to review the proposed substantial amendments to the Commonwealth for Fiscal Year (FY) 2012 Community Development Block Grant—Disaster Recovery (CDBG-DR) (PL 112-55) funds and FY 2013 CDBG-DR (PL 113-2) funds. The public comment period is from April 15, 2018, through May 14, 2018.

*PL 112-55*

The United States Department of Housing and Urban Development (HUD) issued a notice at 77 FR 22583 (April 16, 2012), which awarded \$27,142,501 of CDBG-DR funds to the Commonwealth to be administered by the Department of Community and Economic Development (Department). This was the first allocation of CDBG-DR funding to assist the Commonwealth with recovery from 2011 storm events (April 2011 Storms—FEMA-4003-DR; Hurricane Irene—FEMA-4025-DR; and Tropical Storm Lee—FEMA-4030-DR). An Action Plan for these funds was submitted to HUD on July 23, 2012, and subsequently approved. Since then the Department has published and received approval for five Substantial Action Plan Amendments to this first allocation of CDBG-DR funding under PL 112-55. Priorities for funding were identified in the last Substantial Amendment which was approved by HUD on March 2, 2018.

The Commonwealth is hereby notifying the public of the award of specific projects in the affected municipalities identified and prioritized and soliciting comment on the announcements. The following awards detail awards under PL 112-55 appropriation to reflect this new analysis as well as the strategic priorities of the Commonwealth.

The changes proposed by the Sixth Substantial Amendment (HUD DRGR # 14), to be dated May 18, 2018, are as follows:

*Infrastructure*

- City of Wilkes-Barre—Solomon Creek Infrastructure Restoration Project—\$3,818,890 to restore the damaged flood wall in the low-moderate income area (Brook Street from Waller Street to Barney and Vulcan Street).

- Town of Bloomsburg—Flood Hazard Mitigation Project—\$1,208,079 Flood Wall Construction and Related Storm and Sanitary Sewer Restoration Project in the Town of Bloomsburg providing benefit to entire low-moderate income town. The flood wall will span the southern sector of town from Railroad Street to Catherine Street, and sanitary and storm sewer improvements will benefit the entire town.

*PL 113-2*

The Commonwealth received \$29.986 million from HUD under The Disaster Relief Appropriations Act, 2013 (Pub.L. No. 113-2), approved January 29, 2013. This was the second allocation of CDBG-DR funding to assist the Commonwealth with recovery from 2011 storm events (April 2011 Storms—FEMA-4003-DR; Hurricane Irene—FEMA-4025-DR; and Tropical Storm Lee—FEMA-4030-DR). The Action Plan guiding the distribution of the \$29.986 million appropriation was published on August 30, 2013. Since then the Department has published and received approval for three Substantial Action Plan Amendments to this first allocation of CDBG-DR funding under PL 113-2. Priorities for funding of specific project types were identified in the last Substantial Amendment which was approved by HUD on March 2, 2018.

The Commonwealth is hereby notifying the public of the award of specific projects in the affected municipalities identified and prioritized and soliciting comment on the announcements. The following awards detail awards under the PL 113-2 appropriation to reflect this new analysis as well as the strategic priorities of the Commonwealth.

The changes proposed by the Fourth Substantial Amendment (HUD DRGR # 10), to be dated May 18, 2018, are as follows:

*Infrastructure*

- Town of Bloomsburg, Columbia County—Flood Hazard Mitigation project—\$9.550 million Flood Wall Construction and Related Storm and Sanitary Sewer Restoration Project in the Town of Bloomsburg providing benefit to entire low-moderate income town. The flood wall will span the southern sector of town from Railroad Street to Catherine Street, and sanitary and storm sewer improvements will benefit the entire town.

- Luzerne County Redevelopment Authority—\$1 million demolition of a public facility—Coxton Bridge spanning the Susquehanna River between Exeter and Duyrea, Luzerne County. Urgent need.

- Schuylkill County—Pine Grove—\$3 million Wetlands Restoration Project, urgent need benefit located to create 10.2 acres of wetland habitat at the Swatara Creek beginning at East Pottsville Street.

These substantial amendments to the PL 112-55 and PL 113-2 Action Plans and supporting documentation will be available for a 30-day public comment period and can be viewed on the Department's web site at <http://dced.pa.gov>. Copies of the Substantial Amendments may be found in the Library section on the home page or by clicking "Disaster Recovery Assistance Program." The text is available to visual impaired persons on the Department's web site at the previously listed link. A translation into Spanish will also be available on the Department's

web site at the same link. Public comment will close on Monday, May 14, 2018, and the final version of the Substantial Amendment will be submitted to HUD no later than May 18, 2018.

#### *Public Hearing*

The public hearing for the Substantial Amendments will be conducted by the telephone/webinar on Monday, May 14, 2018, at 1 p.m. This more widely available computer/conference call access will replace the onsite public hearing. The format will be more accessible than an in-person meeting because those who wish to make comment or discuss policy may participate directly from their electronic device or from a computer located at their public library.

Any individual or organization may give testimony or comments by the web/telephone about the proposed changes to the Action Plans for the CDBG-DR funding. The Commonwealth encourages public participation in this process.

Anyone who wants to participate must register in advance. Contact Megan L. Snyder at (717) 720-7404 to receive registration instructions for the web hearing at least 24 hours prior to the hearing date. During the hearing, if support is required, call (717) 787-5327. The hearing will be shortened if there is no one to testify or there is minimal response.

Persons with a disability or limited English proficiency who wish to participate in the public hearing should contact Megan L. Snyder, Department of Community and Economic Development, Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg, PA 17120-0225, (717) 720-7404 or TDD at (717) 346-0308 to discuss how the Department can accommodate their needs.

#### *Written Comments*

Persons who would like to provide written comment on the substantial amendments to the CDBG-DR Action Plan may send those comments electronically to RA-DCED cdbghomequestions@pa.gov or mail to the attention of Megan L. Snyder, Department of Community and Economic Development, Center for Compliance, Monitoring and Training, 400 North Street, 4th Floor, Harrisburg, PA 17120. ## DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

### **Retention of Professional Wayside Exhibit and Publication Development, Design and Production Firms; Project Reference No. FDC-500-812**

The Department of Conservation and Natural Resources (Department) is seeking proposals from interested and qualified professional interpretive wayside exhibit and publication production firms (Professional) for research, writing, editing, design and fabrication/printing services for publications and interpretive wayside exhibit signs. Acquisition of final signage and frames may be

included. The contract or contracts will be for a 12-month period with four 12-month extensions possible. Projects will be assigned on an as needed basis. The contract or contracts will be managed by the Department's Bureau of Facility Design and Construction (Bureau).

The number of open-end contracts and the dollar amount of each contract shall be at the discretion of the Department for the first year. The extent of the work for the subsequent 4 years of the contract will be dependent on the availability of additional funds and additional projects for those years, also at the discretion of the Department.

Letters of Interest for this project will only be accepted from individuals, firms or corporations duly authorized to engage in the exhibit and publication planning, development, design, and fabrication or printing. If an individual, firm or corporation not authorized to engage in the practice of exhibit and publication planning, development, design, and fabrication or printing wishes to submit a Letter of Interest, the individual, firm or corporation may do so as part of a joint venture with an individual, firm or corporation which is permitted under State law to engage in the practice of exhibit and publication planning, development, design, and fabrication or printing.

#### *Background*

Established on July 1, 1995, the Department is charged with: maintaining and preserving 121 State Parks; managing 2.2 million acres of State Forest land; providing information on the ecological and geologic resources; and establishing community conservation partnerships with grants and technical assistance to benefit rivers, trails, greenways, local parks and recreation, regional heritage parks, open space and natural areas.

The Department uses diverse communication methods to advance the mission, goals and objectives of the Department to the public. Often, the Bureau of State Parks and the Bureau of Forestry accomplish this by implementing the principles and techniques of quality, personal and nonpersonal interpretation. Interpretation is "a mission-based communication process that forges emotional and intellectual connections between the interests of the audience and the meanings inherent in the resource" (NAI web site, April 2007).

Within the Bureau of State Parks, the Outdoor Programming Services Division provides interpretive guidance and support to 121 State Parks and 4 regional offices throughout this Commonwealth. This includes guidance on program development, training opportunities, program evaluation, policy development and adherence, planning, project management, visitor center and exterior exhibit planning, recreational publication development, the State Parks web site and funding.

The Bureau of Forestry, Communications and Interpretation Section implements both departmental communications strategies, and bureau-level information and interpretive programs and services for 20 forest districts, encompassing 17 million acres. These include press releases and media relations, interpretive planning, project development, resource management center exhibits and wayside development, public use maps, interpretive and recreation publications, and web site and social media communications.

The Bureau provides multidisciplinary facility and infrastructure technical support to the other bureaus in the Department in the areas of project design, project inspections, construction management, contract administration, surveying, and other technical advice and consultation. In

addition to project design, staff also provides technical architectural and engineering support and advice to assist field operation in State Parks and State Forests.

### PART I GENERAL REQUIREMENTS

#### I-1. *Specific Requirements.*

A. The Department has a need for a range of services for all aspects of interpretive wayside exhibit (both interior and exterior) and publication production. These services include: developing project plans; developing storylines; researching, writing and editing text; developing concept and final graphic designs in diverse styles and types; developing budgets; preparing reports; attending planning meetings; producing or acquiring photographs or graphic images; providing printed pieces (when requested) using diverse bindings, folds or sizes; and providing fabricated wayside exhibit panels and frames, both interior and exterior (when requested). Printing and fabrication of panels may be accomplished by outsourcing or subcontracting with other vendors. Printing of publications may be coordinated by and paid for by the Department apart from contracts awarded through this Request for Proposals (RFP) or they may be accomplished by the Professional through outsourcing or subcontracting with other vendors. Final determination of whether printing will or will not be part of a given project will be made by the Department prior to issuance of a Work Order.

B. Projects will be developed and assigned on an annual basis or as required. Each project will be individually developed and assigned to the successful Professional using separate Project Work Orders.

C. Selected firms will be expected to provide a full range of professional interpretive wayside exhibit and publication production services for individual projects for State Parks, State Forests and other Department sites on an as needed basis throughout the contract period.

D. Unless otherwise specified on a Project Work Order, publications and waysides will be designed using established Department Design Standards, including use of Macintosh OSX operation system and designated software, primarily Adobe Creative Suite. All final files plus other materials and items so designated in the Project Work Order or elsewhere become the property of the Department and must be provided digitally upon completion of the project.

E. Sustainability should be incorporated into the earliest design decisions. Work may occur in interior or exterior areas, visitor lobbies, areas along trails, recreational infrastructure, or any other public area and any other point of public contact throughout the State Parks and State Forests.

F. It is expected that the firms will assemble a team of professionals who are recognized specialists in their individual fields of expertise. Professionals may subcontract or joint venture with other professionals to assemble the most capable team to address the needs and objectives of this RFP. Selected Professionals will be required to work closely with the assigned Department Project Coordinator to develop each project utilizing designated Department staff in the creative processes involved to the fullest extent possible. Department Project Coordinators will be responsible for signing off on project development milestones. The Department Project Coordinator may change from project to project. Travel to the project sites will be required.

1-2. *Qualifications.* Professionals shall have staff available to facilitate rapid services associated with assigned

projects within the timeline established on the Project Work Order. Professionals may be called upon to provide services on multiple projects at the same time. Those projects involving work in any of these fields at State or Federal Parks and recreation areas, public zoos, aquariums, museums or equivalent will be conserved as relevant experience.

Subcontractors that are intended to be used shall be identified and the services they will perform along with documentation on their education, training, certifications, organizational memberships and experience. Other specialists may be included as part of the proposal. Provide a letter of commitment for the term of the contract from each subcontractor that is intended to be used for work under this contract. If the Professional wants to add to, or replace, any of the persons, employees or subcontractors previously named at any time after originally submitting them, the changes must be reviewed and approved by the Department. Otherwise, these persons, employees and subcontractors must remain the same.

The initial term of the agreement shall be 1 year and renewable for up to 4 subsequent years. Reimbursement for services shall be by fixed fee percentage based upon project allocation or hours of service and qualifying expenses. The reimbursement type shall be at the Department's discretion. ## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 1

**Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and ap-

proved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

#### AIR QUALITY

#### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.**

**41-00089A: James C. Maneval Funeral Home, Ltd.** (1002 Allegheny Street, Jersey Shore, PA 17740) for the construction and operation of a new Matthew International model IE-43-PPI 150 pounds per hour human cremation unit at facility located in Jersey Shore Borough, **Lycoming County**. The Department of Environmental Protection's (Department) review of the information submitted by James C. Maneval Funeral Home, Ltd indicates that the air contamination source to be constructed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed construction. The potential annual emission from the cremation unit at the facility will not exceed the following limits: VOCs/HAPs—0.05 ton; PM<sub>10</sub>—0.76 ton; CO—0.48 ton; NO<sub>x</sub>—0.58 ton; and SO<sub>2</sub>—0.35 ton. The plan approval includes emission restrictions for PM and opacity. The PM standard established at 0.08 gr/dscf, corrected to 7% pursuant to BAT will assure compliance with the applicable State-wide standard as specified in 25 Pa. Code § 123.12. The opacity standards are established to be equal to or greater 10% for period or periods aggregating more than 3 minutes in any one hour or no more than 30% at any time. The cremator shall only be fired on natural gas and/or liquid petroleum (LP) gas. The facility is required to continuously monitor opacity as well as continuously monitor and record the primary and secondary combustion chambers temperatures to assure the source is operated and maintained in accordance with good air pollution control practices. Based on the findings presented above, the Department proposes to issue a plan approval for the proposed construction. If the Department determines that the source is constructed and operated in compliance with the plan approval conditions including the specifications in the application, the plan approval will be incorporated into a State-Only operating permit which will be required to be filed no later than 120 days upon request by the Department. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's North Central Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-0550.

Application received: March 16, 2018.

### *Noncoal Applications Received*

*Effluent Limits*—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

Table 2

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

#### *Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity\*

\*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

#### *Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES)

Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

**EROSION AND SEDIMENT CONTROL PERMITS**

The following parties have applied for Erosion and Sediment Control Permits for earth disturbance activities associated with either road maintenance or timber harvesting operations.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department proposes to issue a permit to discharge, subject to certain limitations in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

A person wishing to comment on a proposed permit are invited to submit a statement to the appropriate Department regional office listed before the application within 30 days of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department regional office during the 30-day public comment period.

Following the 30-day comment period, the appropriate regional office water management program manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board (Board).

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the appropriate regional office.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified regional office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**E26-07-005: Burnett Oil Company, Inc.**, 801 Cherry Street, Unity 9, Fort Worth, TX 76102, Springhill Township, **Fayette County**, ACOE Pittsburgh District.

Burnett Oil Company, Inc. is proposing to install 0.99 mile of permanent gravel access road and the 119,500 square foot Coastal-Central Well Pad (N 39° 44' 21.48", W 79° 47' 10.68") in Springhill Township, Fayette County, Pennsylvania. The well pad is located approximately 0.59 mile Southwest of State Route 3004 (Wymps Gap Road) and approximately 0.59 mile East of State Route 857 (Springhill Furnace Road). The proposed access road will be 16 feet wide with additional spaces required for road construction and stormwater management.

The entire project area is approximately 23.3 acres and consists primarily of meadow and woodlands. The project will result in no wetland crossings and five (5) water-course crossings, including a Wild Trout Reproduction stream, resulting in a total of 348 linear feet of permanent stream impacts. Per PA Fish and Boat Commission recommendations, no instream construction shall occur from October 1 to December 31 to protect wild trout spawning and egg disposition behavior. Four individuals of the tree species *Oxydendrum arboreum* (Sourwood) was found in the project area and, per a letter from the Department of Conservation and Natural Resources (DCNR), will be relocated to an area outside of the limit of disturbance. All disturbed areas except for the described access road and well pad will be stabilized and seeded upon construction completion. The project is a Joint Permit Application due to the crossing of a stream where the drainage area is greater than 1 square mile (based on USGS StreamStats).

Each of the following crossings will be crossed by the permanent access road previously mentioned:

Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

**PUBLIC WATER SUPPLY PERMITS**

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in

environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

*Northeast Region: Eric Supey, Environmental Cleanup & Brownfields Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915.*

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document

cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. ## FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. ## SPECIAL NOTICES

### **Air Quality; Proposed Revision to the State Implementation Plan to Meet the Requirements of Reasonably Available Control Technology (RACT) set forth by the Clean Air Act (CAA) under the 2008 8-Hour Ozone NAAQS**

*Department of Public Health, Air Management Services: 321 University Avenue, Philadelphia, PA 19104.*

*Contact: Roger Fey, Chief—Telephone: (215) 823-7584.*

The Clean Air Act Amendments of 1990 (CAA) requires Philadelphia to submit to the U.S. Environmental Protection Agency (EPA) a State Implementation Plan (SIP) revision demonstrating that Philadelphia has implemented all necessary Reasonably Available Control Technology (RACT) controls on all existing major stationary sources of volatile organic compounds (VOC) and oxides of nitrogen (NO<sub>x</sub>) as well as any VOC sources subject to Control Technique Guidelines (CTGs).

The Philadelphia Department of Public Health, Air Management Services (AMS) is now seeking public comment on a proposed SIP revision that identifies RACT requirements for VOC sources in Philadelphia for purposes of implementing the 2008 8-hour ozone National Ambient Air Quality Standards (NAAQS).

According to Section 182(b) of the CAA, AMS is required to submit a SIP revision to EPA to demonstrate that Philadelphia has implemented necessary CTG RACT control measures for existing stationary emission sources of VOC in Philadelphia for implementation, maintenance and enforcement of the 2008 75 ppb 8-hour ozone NAAQS. The proposed SIP revision consists of a certification that RACT has been addressed for all existing VOC sources in Philadelphia covered by CTGs, as supported by the following: (1) a determination that previously adopted RACT regulations in the Pennsylvania SIP that were approved by EPA under the 1997 8-hour ozone NAAQS continue to represent RACT for 2008 8-hour ozone implementation purposes for CTG VOC source categories, (2) confirmation that recently adopted regulations address additional CTG RACT requirements for the 2008 8-hour ozone NAAQS, and (3) negative declarations for all such CTG VOC source categories for which there are no affected facilities in Philadelphia.

The SIP revision and other supporting information are available for inspection at the offices of AMS during normal business hours or on AMS' website at <http://www.phila.gov/health/AirManagement/PublicMeetings.html>. Interested persons may submit written comments or a request for a public hearing on the proposed SIP revision to Air Management Services, 321 University Ave., 2nd Floor, Philadelphia, PA 19104, Attn: Ramesh Mahadevan or [ramesh.mahadevan@phila.gov](mailto:ramesh.mahadevan@phila.gov). Use "2008 Ozone RACT SIP Revision" as the subject line in written communication.

The written comments or a request for a public hearing must be received by AMS no later than May 14, 2018. If requested, AMS will hold a public hearing to receive comments on the proposed amendment to the Pennsylvania SIP on May 31, 2018, at 6 p.m. at the Spelman Building, 321 University Avenue, 1st Floor Conference Room, Philadelphia, PA 19104. Persons with a disability who wish to attend the meeting and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact (215) 685-9436 to discuss how AMS may accommodate their needs.

If no request for a public hearing is received by May 14, 2018, the hearing will be cancelled and a notice of cancellation will be published on May 16, 2018, on the AMS web site at <http://www.phila.gov/health/AirManagement/PublicMeetings.html>. Interested persons may also call (215) 685-9436 to find out if the hearing has been cancelled.

## DEPARTMENT OF GENERAL SERVICES

### Exempt Machinery and Equipment Steel Products

The following is an updated list of exempt machinery and equipment steel products authorized under section 4(b) of the Steel Products Procurement Act (73 P.S. § 1884(b)). There is a 30-day comment period beginning on the date of this publication during which the public may submit comments in writing as to the domestic availability of a steel product on the list. Comments should be submitted to the Deputy Secretary for Public Works, Department of General Services, 18th and Herr

Streets, Harrisburg, PA 17125, ra-steel@pa.gov. The comments must be supported with a mill certification indicating that the steel was melted in the United States or an executed Steel Origin Certification form (found on the Department of General Services web site at [www.dgs.state.pa.gov](http://www.dgs.state.pa.gov)) indicating the disputed product is produced domestically. See 4 Pa. Code Chapter 67a (relating to steel products procurement—statement of policy). During the 2017 calendar year there were no steel products that required a ST-4 Form because they were not produced in the United States in sufficient quantities to meet the requirements of the contract during 2017. Therefore, there were no new steel products added to the list.

### Revised Electronic Voting System Examination Directive

The Secretary of the Commonwealth (Secretary) has revised the Directive Concerning the Conduct of Electronic Voting System Examinations by the Commonwealth of Pennsylvania (Directive). The Directive is issued by the Secretary to voting system vendors seeking an electronic voting system examination in the Commonwealth and governs the conduct for all electronic voting system examinations.

The most recent changes to the Directive align with another directive issued by the Secretary on February 9, 2018, requiring voter-verifiable paper records or voter-verifiable paper ballots of the votes cast by a voter.

The following are the major changes to the voting system examination Directive as noted in paragraph 19 of the Directive:

- COSTARS-10 contracts will expire in 2019 and cannot be renewed for 2020 and beyond.

- Vendors interested in offering voting systems in this Commonwealth going forward must meet the updated requirements in the new Invitation for Bids, COSTARS-39, released on April 2, 2018. Detailed information about how to qualify for the new contract can be found at <http://www.emarketplace.state.pa.us/Solicitations.aspx?SID=COSTARS-39>.

- In the meantime, both the COSTARS-10 and COSTARS-39 contracts can run concurrently so that counties under the earlier contracts maintain coverage provided by those agreements, such as maintenance and training, until new voting systems are procured.

In addition to the previously listed changes, a minor update has been added to paragraph 3. All voting systems examined by the Department of State (Department) will also be tested against any standards adopted by the Secretary regarding resiliency and auditability.

The revised Directive is available on the Department's web site at [www.dos.pa.gov](http://www.dos.pa.gov) (select "Voting & Elections," then "Policies, Statistics & Other Services," then "Voting Systems"). For more information, contact Sindhu Ramachandran, Voting System Analyst, Bureau of Commissions, Elections and Legislation, (717) 525-5743, [sramachand@pa.gov](mailto:sramachand@pa.gov).

### Findings

Under section 2002(b) of The Administrative Code of 1929 (71 P.S. § 512(b)) establishing the Department of Transportation (Department), the Acting Director of the Bureau of Project Delivery, as delegated by the Secretary of Transportation, makes the following written findings:

The Department is planning the following listed projects. Environmental and Section 4(f) Documentation has been developed for the following identified projects to evaluate the potential environmental impacts caused by these projects. The Section 4(f) documents also serve as the Section 2002 Evaluation. The approved documents are available in the CE/EA Expert System at <http://www.dotdom2.state.pa.us/ceea/ceeainnsf>. The environmental, economic, social and other effects of the proposed projects have been considered. Based upon studies, there is no feasible and prudent alternative to the use of the Section 2002 resources for the proposed identified projects, and all reasonable steps have been taken to minimize the effects.

• **SR 0000, Section N/A—Milford Borough, Pike County.**

*Project Description:* The project involves the rehabilitation of the Mott Street Historic Bridge (T-426; Pike County Bridge No. 21) over Sawkill Creek. The bridge is currently closed to vehicular and pedestrian traffic. The rehabilitated bridge will be for pedestrian/bike use only.

*Environmental Documents:* CE 2 Evaluation approved on September 6, 2017, and a Determination of Section 4(f) De Minimis Use Section 2002 No Adverse Use Public Parks, Recreation Areas, Wildlife and/or Waterfowl Refuges, State Forest Land and State Game Land approved on December 12, 2016.

*Proposed Use of Section 4(f)/2002 Resource:* Delaware Water Gap National Recreation Area, including the Glen Trail, is operated by the National Park Service. The National Park Service will close and fence off approximately 0.25 acre of the trail during construction within the project area due to safety concerns.

• **SR 0001, Section 03S—Middletown and Bensalem Townships, Bucks County.**

*Project Description:* The proposed project will involve the reconstruction and widening of approximately 2.75 miles of SR 0001 including four interchanges (the Street Road, Pennsylvania Turnpike, Neshaminy and Pennel Interchanges) and eight bridges.

*Environmental Documents:* CE Level 2 Re-evaluation approved on August 24, 2017, and a Determination of Section 4(f) De Minimis Use Section 2002 No Adverse Use approved on July 21, 2006.

*Proposed Use of Section 4(f)/2002 Resource:* The Reading Railroad—New York Line is listed on the National Register of Historic Places (NRHP). Approximately 0.049 acre of land will be permanently impacted through the placement of four piers for the overhead SR 0001 bridge within the NRHP boundary. These piers will replace two existing piers within the NRHP boundary that occupy 0.068 acre of land. This land will be vacated.

• **SR 0017, Section 017—Saville Township, Perry County.**

*Project Description:* The proposed project is a bridge replacement over an unnamed tributary to Panther Creek. The project consists of the replacement of a single span concrete slab bridge with a precast box culvert and end sections, which includes wingwalls and scour protection.

## INDEPENDENT REGULATORY REVIEW COMMISSION

### Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>
7-523	Environmental Quality Board Noncoal Mining Program Fees 48 Pa.B. 733 (February 3, 2018)	3/5/18	4/4/18

#### **Environmental Quality Board Regulation # 7-523 (IRRC # 3190)**

#### **Noncoal Mining Program Fees**

**April 4, 2018**

We submit for your consideration the following comments on the proposed rulemaking published in the February 3, 2018 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

#### **1. Statutory authority; Consistency with the intent of the General Assembly; Fiscal impact.**

This proposed rulemaking increases permit application and administrative fees. EQB states the increases are needed to support the Noncoal Mining Program (Program) and the Department of Environmental Protection's (DEP) duty to implement the Noncoal Surface Mining Conservation and Reclamation Act (Act) and the Clean Streams Law. EQB has proposed an incremental approach to raising fees. Fees will be automatically increased three times after the rulemaking is adopted. The increases will occur one year, three years and five years after adoption of the rulemaking. Seven years after the adoption of the rulemaking, DEP will adjust the fees every two years. These adjustments will be based on the United States Bureau of Labor Statistics Employment Cost Index for State and Local Government Compensation, or an equivalent index recognized by the United States Department of Labor. The fee schedule will be adjusted in increments of \$25 and the adjusted fee schedule will be published in the *Pennsylvania Bulletin*.

EQB has cited Section 7(a) of the Act (52 P.S. § 3307(a)) as part of its statutory authority for this rulemaking. That section of the Act states, in part, the following:

The department is authorized to charge and collect from persons a reasonable filing fee, *which shall not exceed the cost of reviewing, administering and enforcing the permit.* (Emphasis added.)

In the material submitted in support of this proposal, EQB has not included a projection of expenses for the Program. Without a projection of expenses, how can EQB ensure that the revised fees will not exceed the cost of reviewing, administering and enforcing permits, as required by Section 7(a) of the Act? We ask EQB to provide a projection of expenses for the program and to compare those expenses to projected revenues. The projections should cover, at a minimum, seven years. We will review those projections to determine if the proposed rulemaking is authorized by statute and consistent with the intent of the General Assembly.

#### **2. Possible conflict with or duplication of statutes or existing regulations; Implementation procedures.**

We are concerned that the proposed automatic, incremental fee increases could conflict with existing regulations found at 25 Pa. Code § 77.106(d). This subsection requires DEP, at least every three years, to recommend regulatory changes to the fees to EQB to address disparities between Program income generated by fees and Program costs. Automatic fee increases would potentially make the language of Subsection (d) obsolete. How will EQB implement the new fee structure and the requirements of Subsection (d)? This should be explained in the Preamble to the final-form regulation.

**3. Whether a less costly or less intrusive alternative method of achieving the goal of the regulation has been considered for regulations impacting small businesses; Fiscal impact.**

Regulatory Analysis Form (RAF) Question # 15 asks an agency to identify the types and number of persons, businesses and small businesses which will be affected by the regulation. EQB explains that there are approximately 1,200 licensed noncoal mine operators in Pennsylvania and most are considered small businesses. Question # 10 of the RAF asks an agency to explain the need for the regulation. As part of the response, EQB states the following, "The proposed rulemaking will provide additional funding to sustain the program, which at the current rate of expenditures will exhaust the reserves in the Noncoal Surface Mining Fund, resulting in inadequate funding and curtailment of the program." How much of a reserve is currently in the Noncoal Surface Mining Fund? Is there a statutory minimum that must be kept in reserve? In lieu of the proposed fee increases, has EQB considered spending down the reserve? We believe such an approach could lessen the financial burden of the small businesses affected by this regulation.

**4. Section 77.106. Fees.—Statutory authority; Implementation procedures; Fiscal impact; Clarity.**

Subsection (g) is a new subsection that provides for an ongoing fee adjustment factor. The adjustments will be based on the United States Bureau of Labor Statistics Employment Cost Index for State and Local Government Compensation or an equivalent index recognized by the United States Department of Labor. We have five concerns with this subsection. First, the new language states that the permit application and administrative fees found under Subsections (e) and (f) will be adjusted by the DEP every two years. Use of the word "will" would require fees to be raised or lowered, regardless of the findings of DEP during its triennial review of the fees required by Subsection (d). To provide discretion, we suggest that "will" be changed to "may."

Second, as written, DEP would be the agency amending the regulation by publishing a revised fee schedule in the *Pennsylvania Bulletin*. Prior to publication, DEP is to provide the proposed fee schedule to the Aggregate Advisory Board. We recommend that the final-form regulation include a definition for this Board.

Third, this proposal is being promulgated by EQB. Does DEP have the statutory authority to make the adjustments contemplated by this Subsection? What specific statutory authority would allow DEP to amend a regulation by publishing a notice in the *Pennsylvania Bulletin*? Has EQB considered following the procedures set forth in Subsection (d)? Under that subsection, DEP recommends regulatory changes to EQB.

Fourth, adjustments to fees are to be based on the "United States Bureau of Labor Statistics Employment Cost Index for State and Local Government Compensation or an equivalent index recognized by the United States Department of Labor." Why does EQB believe the first index cited is most appropriate for this type of adjustment? Under what circumstances would the second index be used? The description of this language in the Preamble indicates that the second index could be used if it is found to "be more appropriate." The language in the rulemaking, coupled with the description in the Preamble, makes it unclear how this provision will be implemented. We ask EQB to clarify how it will implement the fee adjustments of this subsection.

Finally, in order for this Commission to gain an understanding of the potential fiscal impact the fee adjustments of this subsection will have, we ask EQB to provide a 10-year history of the percentage increase or decrease for the first index cited.
