READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

GOVERNOR'S OFFICE

Notice of Veto; House Bill 321, Printer's No. 1404

November 21, 2019

To the Honorable House of Representatives
of the Commonwealth of Pennsylvania

Pursuant to Article IV, Section 15 of the Pennsylvania Constitution, I am returning herewith, without my approval, House Bill 321, Printer's Number 1404.

This legislation is a restriction on women and medical professionals and interferes with women's health care and the crucial decision-making between patients and their physicians. Physicians and their patients must be able to make choices about medical procedures based on best practices and standards of care. The prohibitions under this bill are not consistent with the fundamental rights vested by the Fourteenth Amendment of the United States Constitution.

There is no evidence that this bill is needed in Pennsylvania. I have significant concerns that enforcement of this legislation would upend the doctor-patient relationship and impede on patient confidentiality.

Further, I am not aware of a single disability rights group that supports this bill. I support continuing the bipartisan work that's been done to help people with disabilities. I also believe there is much more Pennsylvania could do to help women and families facing complex pregnancies. However, this bill does not aid in either of these efforts.

For the reasons set forth above, I must withhold my signature from House Bill 321, Printer's Number 1404.

Sincerely,

Governor

TITLE 237. JUVENILE RULES

PART I. RULES

Subpart A. DELINQUENCY MATTERS

CHAPTER 1. GENERAL PROVISIONS

PART C. RECORDS

PART C(3). EXPUNGING OR DESTROYING RECORDS, FINGERPRINTS, AND PHOTOGRAPHS

Rule 172. Order to Expunge or Destroy.

A. *Contents.* Any order to expunge or destroy the official court record, juvenile probation files, docket entries, law enforcement records, or fingerprints and photographs shall include the following information:

- 1) all items contained in Rule 170(B);
- 2) a directive [**specifically identifying which items shall be expunged or destroyed, including all law enforcement records, juvenile probation files, official court records, other juvenile records, fingerprints, photographs, and any other information pertaining to the arrest**] **that all records be expunged or destroyed unless otherwise excluded by relevant authority;**
- 3) a directive that the keeper of the juvenile records shall expunge or destroy such items, **together with a deadline for compliance, as may be established by the court;**
- 4) a directive that each agency, department, or office, upon request, shall notify the court or its designee, in writing, of the action taken in response to the order to expunge or destroy;
- 5) a directive to a school building principal or his or her designee to destroy information received from the court pursuant to Rule 163;
- 6) the printed name and signature of the judge issuing the order; and

B. *Service.* In addition to the service required by Rule 167, the clerk of courts, court administrator, or other court designee shall serve certified copies of the order on the chief juvenile probation officer, the Pennsylvania State Police, the Juvenile Court Judges' Commission, and any other person or agency as directed by the court.

Comment

Pursuant to paragraph (A)(2), [**the court is to list specifically which items are to be expunged and which items are to be destroyed. Specific information retained pursuant to Rule 173 should be expunged but not destroyed. In most instances, the court should order that the fingerprints and photographs be destroyed and that the remaining records and documents be expunged.**] **“all records” include law enforcement records, juvenile probation files, official court records, other juvenile records, fingerprints, photographs, and any other information pertaining to the arrest. Exclusions may include those provided by rule or statute. See, e.g., Pa.R.J.C.P. 173; 18 Pa.C.S. § 9122(c).**

Pursuant to paragraph (A)(4), an agency, department, or office may be requested to produce evidence of compliance with the court order to expunge. Non-compliance may result in a finding of contempt of court.

Pursuant to paragraph (A)(5), the school is to destroy all information received from the court. Because the school is required to store this information separately under Rule 163(F), destruction should not be difficult. See Rule 163 and its Comment. The court may also require the school to provide written notice of the action taken.

REPORT

Proposed Amendment of Pa.R.J.C.P. 172

The Juvenile Court Procedural Rules Committee proposes the amendment of Pennsylvania Rule of Juvenile Court Procedure 172 to revise the required contents of an expungement order to direct that all records be expunged or destroyed, and to provide the juvenile court with the discretion to establish a compliance deadline.

Concern was expressed to the Committee that some record keepers unduly delay compliance with expungement orders. Further, the petitioner does not have first-hand knowledge of all the records that may have been created as a result of an adjudication, which precludes the petitioner from knowing whether the records specifically identified by the court in its expungement order represent the universe of records that should be expunged or destroyed. This latter circumstance may increase the risk of an "incomplete expungement."

Undeniably, the existence of a delinquency record may have collateral consequences for a juvenile. *See, e.g.*, Pa.R.J.C.P. 407(C) (admission colloquy discussing consequences of adjudication of delinquency). The expungement of a delinquency record may be a time sensitive matter, such as during the application process for entry into the job market, college, or the military.

The Committee considered whether Rule 172(A)(3) should contain a rule-based deadline for compliance, *e.g.*, 30 days, which ostensibly would address part of the concern. However, establishing a deadline might actually operate to "relax" existing local practices that achieve compliance in a shorter timeframe.

Further, imposing a deadline may require unattainably expeditious action for the record keeper. From the petitioner's perspective of the expungement process, the only practical endpoint is expungement. Yet, the process's timeline is actually a two-part sequence: 1) the time for the clerk to transmit the order to the record keepers, and 2) the time for the record keepers to expunge the records. Having one unitary deadline applicable to two independent sub-processes potentially operates to hold neither accountable.

Additionally, it was unknown whether delayed compliance is county-specific or widespread. Anecdotal experience varies, but accounts from other sources suggest that delays might be localized. The Committee specifically invites readers' comments on this aspect of the expungement process.

For these reasons, the Committee proposes amending Rule 172(A)(3) to provide juvenile court judges with the discretion for setting a compliance deadline. This approach grants flexibility and accommodates local practices and resources. In counties where compliance delays are

commonplace or time is of the essence, the petitioner can seek, via the expungement motion, a compliance deadline. Alternatively, the court may *sua sponte* establish a compliance deadline in its order, although authority to do so is arguably inherent absent a procedural rule.

The Committee also proposes to amend Rule 172(A)(2) to remove the requirement that records be specifically identified, and replace it with "all records," unless those records are excluded by "relevant authority." Examples of "all records" are included in the Comment rather than in the rule text. Additionally, the Comment contains examples of "relevant authority" that may operate to exclude those records from expungement or destruction.

The Committee invites all comments, concerns, and suggestions regarding this rulemaking proposal.

RULES AND REGULATIONS

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 65]

Fishing; Special Fishing Regulations

The Fish and Boat Commission (Commission) amends Chapter 65 (relating to special fishing regulations). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code). The amendments update the Commission's waters subject to special fishing regulations.

A. *Effective Date*

This final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on this final-form rulemaking, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fishandboat.com.

C. *Statutory Authority*

The amendment to § 65.24 (relating to miscellaneous special regulations) are published under the statutory authority of section 2307 of the code (relating to waters limited to specific purposes).

D. *Purpose and Background*

The specific purpose and background of the amendment is described in more detail under the summary of changes.

E. *Summary of Changes*

Minsi Lake, a 122-acre fertile impoundment owned by the Commonwealth and managed by the Commission, is located in Upper Mount Bethel Township in Northampton County, approximately 3.1 miles northeast of the Borough of Bangor. This reservoir was completely dewatered in June 2017 to complete dam and spillway repairs and modifications per Department of Environmental Protection dam safety standards. The earth-fill dam impounds the East Fork Martins Creek at river-mile 2.3 upstream from its confluence with the West Fork Martins Creek. Prior to the drawdown in 2017, the lake offered angling opportunities for multiple warm-water and cool-water fish species, as well as adult trout stocked by the Commission. Dam and spillway repairs are expected to be completed by early-winter 2019 with refilling initiated soon after.

The Commission plans to initiate stocking the lake beginning in spring 2020 or as soon as refilling conditions allow with fingerling plants of select fish species to establish a high quality warm-water and cool-water fishery. Immediately upon refilling of the lake, Commission staff propose to open the lake to fishing under a miscellaneous special regulation that will allow for the harvest of trout under Commonwealth Inland Waters angling regulations but allow only catch and release fishing for all other fish species. Commission staff believe that this approach will allow for the most rapid development of a balanced warm-water and cool-water fish community, while offering acceptable levels of recreational angling opportunities. Fisheries Management staff will monitor the fish populations as needed while they develop and

make necessary modifications to the species stocked and recommend adjustments to the regulations governing fish harvest to the Board of Commissioners to continually provide high quality recreational angling opportunities at Minsi Lake. Once the warm-water fishery has been reestablished, the lake will be recommended for removal from the miscellaneous special regulation and inclusion in one of the Commission's existing warm-water regulation programs.

The Commission amends § 65.24 to read as set forth in the proposed rulemaking published at 49 Pa.B. 5213 (September 7, 2019).

F. *Paperwork*

This final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. *Fiscal Impact*

This final-form rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions.

H. *Public Comments*

A notice of proposed rulemaking was published at 49 Pa.B. 5213. The Commission received a total of seven public comments, all in support of the proposed rulemaking.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2 (relating to notice of proposed rulemaking required; and adoption of regulations).

(2) A public comment period was provided, and seven public comments were received.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 65]

Fishing; Special Fishing Regulations

The Fish and Boat Commission (Commission) amends Chapter 65 (relating to special fishing regulations). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code). The amendment updates the Commission's waters subject to special fishing regulations.

A. Effective Date

This final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

B. Contact Person

For further information on this final-form rulemaking, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fishandboat.com.

C. Statutory Authority

The amendments to § 65.24 (relating to miscellaneous special regulations) are published under the statutory authority of section 2307 of the code (relating to waters limited to specific purposes).

D. Purpose and Background

The specific purpose and background of the amendment is described in more detail under the summary of changes.

E. Summary of Changes

Donegal Lake, a 90-acre impoundment owned by the Commonwealth and managed by the Commission, is located in Donegal Township, Westmoreland County, approximately 1.2 miles northeast of the Borough of Donegal. This reservoir was completely dewatered during fall 2016 to complete control tower, dam and spillway repairs and modifications per Department of Environmental Protection dam safety standards. The earth-fill dam, constructed in 1967, impounds Fourmile Run at river-mile 13.0 upstream from its confluence with Loyalhanna Creek at river-mile 32.7. Prior to the drawdown in 2016, the lake offered angling opportunities for multiple warm-water and cool-water fish species, as well as adult trout stocked by the Commission. Dam and spillway repairs are expected to be completed by early-winter 2019 with refilling initiated soon after.

The Commission plans to initiate stocking the lake beginning in spring 2020 or as soon as refilling conditions allow with fingerling plants of select fish species to establish a high quality warm-water fishery. Immediately upon refilling of the lake, Commission staff propose to open the lake to fishing under a miscellaneous special regulation that will allow for the harvest of trout under Commonwealth Inland Waters angling regulations but allow only catch and release fishing for all other fish species. Commission staff believe that this approach will allow for the most rapid development of a balanced warm-water and cool-water fish community, while offering acceptable levels of recreational angling opportunities. Fisheries Management staff will monitor the fish popula-

tions as needed while they develop and make necessary modifications to the species stocked and recommend adjustments to the regulations governing fish harvest to the Board of Commissioners to continually provide high quality recreational angling opportunities at Donegal Lake. Once the warm-water fishery has been reestablished, the lake will be recommended for removal from the miscellaneous special regulation and inclusion in one of the Commission's existing warm-water regulation programs.

The Commission amends § 65.24 to read as set forth in the proposed rulemaking published at 49 Pa.B. 5214 (September 7, 2019).

F. Paperwork

This final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

This final-form rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions.

PROPOSED RULEMAKING

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 69]

Fishing in Lake Erie and Boundary Lakes

The Fish and Boat Commission (Commission) proposes to amend Chapter 69 (relating to fishing in Lake Erie and boundary lakes). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code). The proposed amendments update the Commission's season dates for walleye fishing in Lake Erie, Lake Erie tributaries and Presque Isle Bay, including peninsula waters.

A. Effective Date

This proposed rulemaking, if approved on final-form rulemaking, will go into effect upon publication in the *Pennsylvania Bulletin*.

B. Contact Person

For further information on this proposed rulemaking, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission's web site at www.fishandboat.com.

C. Statutory Authority

The proposed amendments to § 69.12 (relating to seasons, sizes and creel limits—Lake Erie, Lake Erie tributaries and Presque Isle Bay including peninsula waters) are published under the statutory authority of section 2102(b) of the code (relating to rules and regulations).

D. Purpose and Background

The specific purpose and background of the proposed amendments is described in more detail under the summary of proposal.

E. Summary of Proposal

Past Commission actions gave authority to the Executive Director to adjust harvest limits for walleye and yellow perch based upon adaptive management methods for Lake Erie, Lake Erie tributaries and Presque Isle Bay, including peninsula waters. These flexible management strategies serve to maintain consistency in angler catch rate given the vagaries of weather and other biotic and abiotic influences upon recruitment or production of young for these species. Following that approval, Commission staff identified a slight discrepancy in the start date of walleye season for Inland Waters and Lake Erie waters. In both cases the start date occurs within one week of one another. To maintain regulatory consistency and simplicity, Commission staff recommend the Lake Erie, Lake Erie tributaries, Presque Isle Bay and peninsular water walleye seasonal opening days be the same as that for Commonwealth Inland Waters. This small house-keeping change is expected to be unnoticed by anglers and have negligible impact upon fishing opportunity but will serve to simplify and make clear harvest rules applicable to walleyes across much of this Commonwealth.

The Commission proposes that § 69.12 be amended to read as set forth in Annex A.

F. Paperwork

This proposed rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

This proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about this proposed rulemaking to the Executive Director, Fish and Boat Commission, P.O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/regcomments. Maximum Lawful Rate of Interest for Residential Mortgages for the Month of January 2020

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of January 2020, is 4 1/2%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate

limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government securities is 2.07 to which was added 2.50 percentage points for a total of 4.57 that by law is rounded off to the nearest quarter at 4 1/2%.

PUBLIC WATER SUPPLY PERMIT**Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent (NOI) to Remediate. An acknowledgment of the receipt of a NOI to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a NOI to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the

community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following NOI to Remediate:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302, 303, 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, State-wide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Envi-

ronmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at 1-(800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public

hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341), requires the State to certify that the involved projects will not violate the applicable provisions of §§ 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317), as well as relevant State requirements. Persons objecting to approval of a request for certification under Section 401 or to the issuance of a Dam Permit or Water Obstruction and Encroachment Permit, or the approval of an Environmental Assessment must submit any comments, suggestions or objections within 30-days of the date of this notice, as well as any questions to the office noted above the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed, and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between the hours of 8:00 AM and 4:00 PM on each working day at the office noted above the application.

If you are a person with a disability and wish to attend the hearing and you require an auxiliary aid, service or other accommodation to participate in the proceedings, please contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1-800-654-5984.

WATER OBSTRUCTIONS AND ENCROACHMENTS

Applications Received Under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27) and Section 302 of the Flood Plain Management Act (32 P.S. § 679.302) and Requests for Certification Under Section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Permit No. E09-1037, Upper Southampton Township, 939 Street Road, Southampton, PA 18966, Upper Southampton Township, **Bucks County**, ACOE Philadelphia District.

Upper Southampton Township is proposing to demolish an existing house and accessory structures, remove debris, and restore the disturbed areas along the floodplain of Southampton Creek (WWF) associated with the floodplain restoration project.

This project is located at 111 Charles Street between Holly Drive and Rose Valley Road in Upper Southampton Township, Bucks County (USGS PA Frankford Quadrangle—Latitude 40.168880 N, Longitude 75.0601209 W).

Permit No. E09-1038, Upper Southampton Township, 939 Street Road, Southampton, PA 18966, Upper Southampton Township, **Bucks County**, ACOE Philadelphia District.

Upper Southampton Township is proposing to demolish an existing house and accessory structures, remove debris, and restore the disturbed areas along the floodplain of Southampton Creek (WWF) associated with the floodplain restoration project.

This project is located at 360 Holly Drive near the intersection of Marian Avenue in Upper Southampton Township, Bucks County (USGS PA Frankford Quadrangle—Latitude 40.168088 N, Longitude 75.061416 W).

Permit No. EA46012-025, Perkiomen Watershed Conservancy, 1 West Skippack Pike, Schwenksville, PA 19473, Perkiomen Township, **Montgomery County**, ACOE Philadelphia District.

To perform the following water obstruction and encroachment activities within Jacob Reiff Park along approximately 315 linear feet of West Branch of Skippack Creek and tribis (Perennial, TSF):

1. Streambank Restoration (315 feet West Branch)—Plantings (live stakes) are proposed along a portion of the West Branch of Skippack Creek to help alleviate erosion of the streambank. As part of the restoration, rip-rap will be placed (hand placed) below the normal water elevation.

2. Floodplain Reconnection—A portion of the streambank will be lowered to allow water to overflow during higher flows into a shallow ponding area. The ponding area will be planted with a mix of both native wetland seed mix and live stakes. This will allow for a reconnection of the floodplain in this area and a slowing of floodwaters. In the event of high flow events, a stabilized overflow will allow for water to re-enter the stream.

3. Re-establish Tributary Channel (Tributary No. 1) (390 feet)—An existing tributary channel is located to the east of the proposed ponding area and conveys flow from a 36" CMP located in Quarry Road. The project includes the re-establishment and stabilization of this tributary.

4. Tributary Erosion Control—Tributary (energy dissipator—R-5 rip-rap)—An additional tributary is located to the north of the proposed ponding area and conveys flow from an 18" HDPE pipe also located in Quarry Road. A rip-rap apron is proposed. Additionally, the rip-rap apron will act as a level spreader to convert the concentrated channel flow into sheet flow.

The Jacob Reiff Park site is located near the intersection of Quarry and Upper Mainland Roads in Lower Salford Township, Montgomery County (Collegeville USGS Quadrangles, Latitude 40.241728 N"; Longitude—75.380698 W").

Permit No. E09-1039, Northampton Township, 55 Township Road, Richboro, PA 18954, Northampton Township, **Bucks County**, ACOE Philadelphia District.

To construct and maintain sidewalks about 5-foot wide along both sides of the existing culvert including supports within the floodway of the Ironworks Creek (WWF-MF) associated with the easy road access and the safety of the pedestrians. The project will also include to upgrade the existing drainage outfall structure.

The site is located along Second Street Pike (SR 332), about 400-feet northeast of Tanyard Road (Hatboro, PA, USGS Quadrangle Latitude 40.208185; Longitude -75.015405) in Northampton Township, Bucks County.

E6703219-006: Bowman Road, LLC, 950 Smile Way, York, PA 17404 in Jackson Township, **York County**, ACOE Baltimore District.

The applicant proposes to 1) relocate and pipe 1,095 linear feet of an unnamed tributary to Honey Run, (TSF) in a 36-inch culvert, place and maintain a stone check dam affecting 38 linear feet between two separate unnamed tributaries to Honey Run (TSF), fill 181 linear feet of an unnamed tributary to Honey Run (TSF), and remove an existing structure and place and maintain a culvert in 30 linear feet of an unnamed tributary to Honey Run (TSF); 2) temporarily impact 0.76 acre of floodway and permanently place and maintain fill in 3.8 acres of floodway to unnamed tributaries to Honey Run (TSF); and 3) place and maintain fill in three (3) separate Palustrine Emergent (PEM) wetlands in the watershed of Honey Run (TSF) totaling 0.21 acre. The purpose of the project is to construct a warehouse/distribution facility (Latitude: 39.9386; Longitude: -76.8409). The project is located west of Bowman Road in Jackson Township, York County. The applicant proposes to restore an existing impoundment back into free-flowing stream channel, totaling 1,216 linear feet of stream channel restoration and 0.31 acre of PEM wetland creation as compensatory mitigation for stream and wetland impacts.

PA DOT propose to restore a roadway slope failure adjacent to Sugar Run Creek. The roadway failure will result in approximately 555 L.F. of R-8 Rip Rap Slope. The 1.5:1 side slope will be grouted to above the 100-year water surface elevation of Sugar Run Creek. The Rip Rap slope will restore the roadway side slope to Pre-Flood location. The project will include the installation of a 520 L.F. log mudd sill at the toe of slope and a log deflector at each end of the mudd sill. The log mudd sill and deflectors will improve stability of the proposed slope as well as improve habitat for aquatic organisms. The project will include approximately 550 L.F. of gravel bar removal to restore the normal channel width and depth to pre-flood conditions. The project will include cofferdams and a temporary diversion channel. The project will include the replacement of a 48-inch pipe in kind. A detour will be utilized to convey traffic during construction. The project will not impact any jurisdictional wetlands. Sugar Run Creek is classified as a Cold-Water Fishery by Title 25, Chapter 93 Water Quality Standards.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup

standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

 (35 P.S. §§ 6021.101—6021.2104).**

Provisions of 25 Pa. Code Chapter 245 Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. Notice of Proposed Revision to the State Implementation Plan for Oxides of Nitrogen, Volatile Organic Compounds, Notice of Public Hearing, and Notice of Intent to Issue Revised Air Quality Operating Permit TVOP-65-00016

In accordance with 25 Pa. Code §§ 127.424, 127.425 and 127.521, the Department of Environmental Protection (DEP) is providing notice that it intends to issue a renewal Title V Operating Permit (TVOP) to **Carpenter**

Latrobe Specialty Metals Company, LLC to authorize continued operation of the stainless and alloy steel manufacturing facility located in the city of Latrobe, **Westmoreland County**.

The name and address of the applicant is Carpenter Latrobe Specialty Metals, LLC, 2626 Ligonier Street, Latrobe, PA 15650. Air emission sources at this facility include an electric arc furnace, an argon oxygen decarburization vessel, numerous heat-treating furnaces, vacuum induction melting processes, various rolling, grinding, welding, and sawing operations, scarfing and descaling machines, a boiler, miscellaneous heating units, a precision forging machine, several small emergency generators, and slag handling activities.

The Latrobe Specialty Metals plant is a major facility subject to the operating permit requirements of Title V of the Federal Clean Air Act and 25 Pa. Code Chapter 127, Subchapters F (relating to operating permit requirements) and G (relating to Title V operating permit requirements). In 2018, the company reported the following type and quantity of actual emissions: CO—128.08 tons per year (tpy); NO_x—121.93 tpy; PM₁₀—10.25 tpy; SO_x—2.42 tpy; VOC—3.11 tpy, total HAPs—0.73 tpy, Chromium—0.56 tpy; Formaldehyde—0.006; Hexane—0.16 tpy; Nickel—0.006 tpy; Ammonia—2.20 tpy; and greenhouse gases (GHGs)—84,585 tpy.

The emission restrictions and testing, monitoring, recordkeeping, reporting and work practice conditions of the TVOP have been derived from the applicable requirements of 40 CFR Parts 60, 61, 63, and 70, and 25 Pa. Code Article III, Chapters 121—145.

As part of this action, the Department also intends to approve a significant permit modification application to revise the NO_x and CO emission limits for Source 101, Electric Arc Furnace (Furnace B), in accordance with 25 Pa. Code § 127.541. The limits are being changed back to those found in the original Title V Operating Permit as follows:

The Department has evaluated the effect of these changes and has determined that this project is not considered a major modification under either the Prevention of Significant Deterioration of Air Quality provisions of 40 CFR 52.21 or the Nonattainment New Source Review provisions of 25 Pa. Code Chapter 127 Subchapter E.

Additionally, as part of this action, the Department intends to issue approval of a Reasonably Available Control Technology (RACT II) plan for Carpenter Latrobe Specialty Steel, LLC. In accordance with 25 Pa. Code §§ 129.96—129.100, the Pennsylvania Department of Environmental Protection has made a preliminary determination to approve a RACT II plan and an amendment to the State Implementation Plan (SIP) for the stainless and alloy steel manufacturing facility owned and operated by Carpenter Latrobe Specialty Steel, LLC located at 2626 Ligonier Street, Latrobe, PA 15650 in the city of Latrobe, Westmoreland County.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997, 2008, and 2015 National Ambient Air

Quality Standard (NAAQS) for ozone. Other sources at the facility meet the presumptive RACT II requirements of 25 Pa. Code § 129.97.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into Title V Operating Permit (65-00016) for the facility.

The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal.

The following is a summary of the proposed amendments to the RACT II determination for this operation that will be submitted to the EPA as a SIP revision:

Source	RACT II Requirement	TVOP 65-00016 Cond. No.
101, Electric Arc Furnace (Furnace B) 102, AOD Vessel Refining	In accordance with the case-by-case RACT determination procedures of 25 Pa. Code § 129.99, RACT for Sources 101 and 102 is the maintenance and operation of this source in accordance with manufacturer's specifications and the continued use of good operating practices and techniques to limit the availability of free nitrogen to limit NO _x formation. Opening of New Grant Round for Recycling Program Development and Implementation Grants under Section 902 of Act 101, Municipal Waste Planning, Recycling and Waste Reduction Act of 1988

The Department of Environmental Protection (Department) announces the opening of a new section 902 grant round to support the development of municipal recycling programs under section 902 of the Municipal Waste Planning, Recycling and Waste Reduction Act (Act 101) (53 P.S. § 4000.902). Municipalities eligible for recycling grants include counties, cities, boroughs, incorporated towns, townships, home rule municipalities, councils of governments, consortiums or similar entities established by two or more municipalities under 53 Pa.C.S. Chapter 23, Subchapter A (relating to intergovernmental cooperation). The application deadline is March 20, 2020.

Application Requirements

Municipalities who received a section 902 grant award in 2019 are not eligible to apply for funding during this solicitation period. Applicants must be in compliance with the provisions of Act 101 and the implementing regulations, the Department's Guidelines for Proper Management of Recyclable Materials, and any previous grant contract provisions to be eligible to receive grant funding. County applicants should be in compliance with planning and other county-related provisions of Act 101. Applicants who are not in compliance with Act 101 and annual reporting requirements or the program performance recycling grant requirements of the act of November 9, 2006 (P.L. 1347, No. 140) will not be considered. Programs must operate in compliance with their municipality's land use plan where applicable.

Municipalities are eligible for 90% funding of approved recycling program costs. Municipalities considered financially distressed by the Department of Community and Economic Development under the Financially Distressed Communities Act (53 P.S. §§ 11701.101—11701.712) are eligible for 100% of approved costs. No application requesting more than \$350,000 in grant funding will be accepted.

All applicants are required to complete the Sustainability Plan portion of the application that includes definitive actions and strategies for optimizing program self-sufficiency. The plan shall include, at a minimum, strategies for reducing costs and generating revenues, provisions for establishing incentives associated with waste reduction and recycling, mechanisms for public outreach and stakeholder input, and tracking mechanisms to document progress toward sustainability milestones until optimum sustainability is realized. The Department's technical report on Building Financially Sustainable Recycling Programs can provide assistance in developing the methods and strategies. The technical report can be found on the Department's web site at http://files.dep.state.pa.us/Waste/Recycling/RecyclingPortalFiles/Documents/fin_sust_rec.pdf. Applicants that fail to complete the Sustainability Plan portion of the application will not be considered for funding.

The following elements will receive priority for funding:

- Development and implementation of incentive-based pricing and collection programs designed to increase the quantities and types of recyclable materials and reduce the quantity of waste collected.

- Development and implementation of multimunicipal collection, processing or a materials marketing program, or both where capital costs are reduced or recycling marketability is enhanced, or both due to intergovernmental cooperation.

- Municipal recycling programs that will develop and implement methods of collection and processing of recyclable materials through source-separation, dual-stream or commingled practices. The applicant must demonstrate that these recyclable materials have value and greater marketability.

- New and innovative recycling educational programs that support the applicants' recycling collection efforts.

In addition, communities whose existing recycling programs contain the following components will receive additional consideration:

- Publicly provided or municipally contracted waste and recycling services.

- The collection of six or more of the following materials: newsprint, office paper, corrugated paper, other marketable grades of paper, aluminum cans, steel or bimetallic cans, colored glass containers, clear glass containers and plastics.

- Municipal recycling programs that are currently collecting and processing recyclable materials through source-separation, dual-stream or commingled practices. The applicant must demonstrate that these recyclable materials have value and greater marketability.

- Incentive-based pricing and collection programs designed to increase the quantities and types of recyclable materials and reduce the quantity of waste collected.

Eligibility Requirements

Only those projects involving municipalities that have a mandatory trash collection program or projects seeking support for a residential recycling program that have a corresponding commercial recycling program will be considered for funding. Applicants seeking funds to replace curbside collection containers or collection vehicles, or both, will need to demonstrate that the new equipment will increase collection efficiencies and tonnage of materials.

Eligibility Costs

Eligible recycling program development costs include: recycling program design costs; recycling market investigations; development of recycling market commitments; development of recycling program ordinances; development of recycling public education programs; and the costs of developing contracts for procuring equipment or services necessary for the operation of the recycling program.

Eligible recycling program implementation costs include: purchasing or leasing vehicles used to collect recyclables, transporting recyclables to processing facilities or markets, and vehicles used in the operation of a materials recovery facility; reusable containers for the collection or storage of recyclable materials; acquiring or renovating buildings, or both, for the processing or storage of recovered materials; equipment used to process or manufacture recyclable materials into usable products; improvements to land needed to operate a recycling facility or yard waste composting facility authorized under 25 Pa. Code § 271.103(h) (relating to permit-by-rule for municipal waste processing facilities other than for regulated medical or chemotherapeutic waste; qualifying facilities; general requirements); and the costs associated with educating the public on recycling program requirements.

Under this grant solicitation, the following will not be eligible for funding: promotional items; glass crushing equipment (unless specific marketing arrangements have been identified); vehicles equipped with compaction units (except for the sole collection of yard waste or paper fiber); and backyard composting units and public recycling containers for parks and streetscapes.

Other eligible and noneligible costs are listed in the grant application packet. Composting projects and programs will be considered to be recycling projects or programs accordingly.

A municipality must retain sole ownership of equipment or facilities funded by the grant. Funding for equipment or facilities purchased for the recycling program used for recycling and other purposes will be prorated according to its recycling use (no equipment used for recycling less than 50% of the time will be eligible for funding). Funding for certain leaf and yard waste collection equipment may be limited according to its seasonal use. Funding for wood chipping equipment will be approved only when the equipment is part of an approved yard waste composting facility operating under the Department's guidelines and where the material is collected curbside from residents. Funding of street sweepers for the purpose of leaf collection will not be considered.

Funding may be restricted in situations where equipment or services requested through a grant application may be available from the public or private sector within the county of the applicant. Public notices may be required before the grant application may be submitted depending upon the nature of the funding request. When the municipality submits the recycling grant application to the Department, it must include proof of compliance with the notification requirements, a description of any responses received to the notice and an explanation of why the municipality has concluded that the mechanical processing equipment is not available to the program from the private sector.

Requirement for Preapplication Conference

Potential applicants must contact the appropriate Department regional planning and recycling coordinator to schedule a preapplication conference to discuss application requirements and program particulars. A list of these individuals is included at the end of this notice. Applications will be returned to municipalities that fail to schedule a preapplication conference. Grant application forms are available from the Department's regional offices and the Department's web site at www.dep.pa.gov (search term: "Recycling Grants").

Application Deadline

Grant applications must be received or postmarked by March 20, 2020. Applications received by the Department after that date will not be considered. Applications must be on forms provided by the Department, with two copies submitted to the Department's Central Office, Rachel Carson State Office Building, Harrisburg, PA and one copy submitted to the appropriate county recycling coordinator. Grant awards will be based on the funds available in the Recycling Fund.

DEPARTMENT OF ENVIRONMENTAL PROTECTION**Proposed State Implementation Plan Revision; Second Maintenance Plan for the York/Adams Counties 1997 8-Hour Ozone Nonattainment Area; Public Hearing**

The Department of Environmental Protection (Department) is seeking public comment on a proposed revision to the State Implementation Plan (SIP) concerning a second maintenance plan demonstrating that the York/Adams Counties Area continues to maintain the 1997 8-hour ozone National Ambient Air Quality Standard (NAAQS). The Department intends to submit this proposed SIP revision to the United States Environmental Protection Agency (EPA) to satisfy sections 107(d)(3)(E)(iv) and 175A(b) of the Clean Air Act (CAA) (42 U.S.C.A. §§ 7407(d)(3)(E)(iv) and 7505a(b)).

Ground-level ozone concentrations above the Federal health-based standard pose a serious human health threat. On April 30, 2004, the EPA designated the York/Adams Counties Area as a nonattainment area for the 1997 8-hour ozone NAAQS. See 69 FR 23857 (April 30, 2004). On January 14, 2008, the York/Adams Counties Area was redesignated to attainment. See 73 FR 2163 (January 14, 2008). Air quality in the York/Adams Counties Area has improved since the EPA's original designations.

On March 6, 2015, the EPA published the final implementation rule for the 2008 8-hour ozone NAAQS. See 80 FR 12264 (March 6, 2015). This final rule revoked the 1997 8-hour ozone NAAQS and stated that one consequence of revocation was that areas that had been redesignated to attainment (maintenance areas) for the 1997 standard no longer needed to submit second 10-year maintenance plans under section 175A(b) of the CAA. See 80 FR 12264 and 12302 (March 6, 2015). See also, 40 CFR 51.1105(d)(1) (relating to transition from the 1997 ozone NAAQS to the 2008 ozone NAAQS and anti-backsliding). The EPA's 2008 final rule was challenged in *South Coast Air Quality Management Distr. v. EPA et al.*, 882 F.3d. 1138 (D.C. Cir. 2018) (*South Coast II*).

This proposed SIP revision addresses that case. Specifically, the Court in *South Coast II* vacated the EPA's final implementation rule for the 2008 ozone NAAQS to the extent that it waived the requirement under section 175A(b) of the CAA for states to submit a second 10-year maintenance plan SIP revisions for "orphan maintenance areas" under the 1997 standard (areas that had been redesignated to attainment for the 1997 ozone NAAQS and were designated attainment for the 2008 ozone NAAQS). In doing so, the Court characterized the language of section 175A(b) of the CAA as unambiguous and rejected the EPA's reasoning in the 2008 ozone NAAQS final rule that second maintenance plans were not needed for orphan maintenance areas because the 1997 standard had been revoked. *Id.* at 1156-57.

States with these "orphan maintenance areas" under the 1997 8-hour ozone NAAQS, including this Commonwealth, must submit maintenance plans for the second maintenance period. The Department intends to submit this proposed second maintenance plan SIP revision for the York/Adams Counties Area to the EPA for approval.

This proposed SIP revision is available on the Department's web site at www.ahs.dep.pa.gov/eComment.

The Department will provide the opportunity for a public hearing to receive comments regarding the proposed SIP revision on January 17, 2020, at 10 a.m. at the Southcentral Regional Office, Susquehanna Room A, 909 Elmerton Avenue, Harrisburg, PA.

Persons wishing to present testimony should contact Amanda Rodriguez, P.O. Box 8468, Harrisburg, PA 17105, (717) 787-9702 or amarodrigu@pa.gov to reserve a time. Witnesses will be limited to 10 minutes and should provide two written copies of their comments.

If by 12 p.m. on Monday, January 13, 2020, no person has expressed an interest in testifying at the hearing, the hearing will be cancelled. The Department will provide public notice on the Bureau of Air Quality webpage at <http://www.dep.pa.gov/Business/Air/BAQ/Pages/default.aspx> if the hearing is cancelled. Persons may also contact the Department to find out if the hearing is cancelled by contacting Amanda Rodriguez at amarodrigu@pa.gov or (717) 787-9702.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact Amanda Rodriguez at amarodrigu@pa.gov or (717) 787-9702. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 or (800) 654-5988 (voice users) to discuss how the Department can best accommodate their needs.

The Department must receive comments no later than Monday, January 20, 2020. Commentators are encouraged to submit comments using the Department's online eComment tool at www.ahs.dep.pa.gov/eComment or by e-mail at ecomment@pa.gov. Written comments can be submitted by mail to the Policy Office, Department of Environmental Protection, Rachel Carson State Office Building, P.O. Box 2063, Harrisburg, PA 17105-2563. Use "York/Adams Area Ozone" as the subject line in written communication.

DEPARTMENT OF HUMAN SERVICES

Payments to Nonpublic Nursing Facilities; Adjusted Medical Assistance Day One Incentive Payments for Fiscal Year 2018-2019

The purpose of this notice is to announce that the Department of Human Services (Department) is adjusting

the Medical Assistance Day One Incentive (MDOI) payments to each qualified nonpublic nursing facility for Fiscal Year (FY) 2018-2019 because a calculation error was identified.

Nonpublic MDOI Payment Information

The Department published a notice at 48 Pa.B. 5927 (September 22, 2018) announcing it intended to continue the nonpublic MDOI payments for FY 2018-2019. That notice included qualifying criteria and payment methodology for the nonpublic MDOI payments. Each nursing facility may qualify for a maximum of two payments.

The Department has identified that the two nonpublic MDOI payments to qualified nursing facilities were underpaid due to a calculation error. Therefore, the Department has recalculated the nonpublic MDOI payments. As a result, each qualified nursing facility has received an adjusted payment to increase their nonpublic MDOI payment amounts. There is no change to qualifying criteria or the payment methodology.

The adjusted payment information for the nonpublic nursing facility MDOI payments was posted to the Department's web site at <http://www.dhs.pa.gov/providers/Providers/Pages/Non-Public-MDOI.aspx>.

Appeals

If a facility wishes to appeal, the facility must file a written request for a hearing with the Department's Bureau of Hearings and Appeals, 2330 Vartan Way, Second Floor, Harrisburg, PA 17110-9721, within 30 days of the date of publication of this notice. A copy should be sent to the Department of Human Services, Office of Long-Term Living, Attention: Bureau of Finance, Division of Rate Setting and Auditing, 555 Walnut Street, Forum Place, 6th Floor, P.O. Box 8025, Harrisburg, PA 17105-8025 and to the Department of Human Services, Office of General Counsel, Health and Welfare Building, Third Floor West, P.O. Box 2675, Harrisburg, PA 17105-2675.

Appeals of Medical Assistance providers are governed by 55 Pa. Code Chapter 41 (relating to Medical Assistance provider appeal procedures). Individuals should review those regulations carefully. DEPARTMENT OF LABOR AND INDUSTRY

Consumer Price Index Adjustment of Base Amounts on Bids Effective January 1, 2020; Correction

This notice replaces the notice published at 49 Pa.B. 7137 (November 30, 2019). The Department of Labor and Industry (Department) is required to publish annual changes to the base amounts triggering the requirement for public bids, telephonic bids or separate bids, or both, for certain contracts. Specifically, the Department is required to announce the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U): All Items for the United States City Average for the 12-month period ending September 30 of each year. The Department utilizes the most current nonseasonally adjusted series, as published by the United States Bureau of Labor Statistics (BLS), which at present uses 1982–1984 as the index base period (set equal to 100). The percentage change for the 12-month period ending September 30, 2019, is 1.7%.

The change to the base rate is determined as follows:

1) Calculate the percentage change in CPI-U (I) from September 2018 to September 2019. This is derived as $I = (CPI_{19} - CPI_{18}) / CPI_{18}$, where the subscripts refer to September 2019 and 2018 values of CPI-U. As reported by the BLS these values are $(256.759 - 252.439) / 252.439 = +4.320 / 252.439 = +1.71130\%$, which when rounded to 1

decimal place = 1.7%. (This was also reported as 1.7% in Table A of the BLS news release on the Consumer Price Index Summary for September 2019.)

2) The law puts a floor of 0 and a cap of 3% on the percentage change to be utilized in the calculations (technically these restrictions are on the Preliminary Adjusted Base (PAB), defined in step 4, however this is mathematically equivalent). The truncated value of the percentage change to be used in the adjustment formula is denoted as PC, resulting in:

- a) $PC = I$, for $0 \leq I \leq 3\%$,
- b) $PC = 0$, for $I < 0$ and
- c) $PC = 3\%$, for $I > 3\%$.

3) The base value (either original for new legislation or the prior year's PAB) is designated as B and the product of B and PC (determined above) is P. (There are different values of the base depending on the entity and the type of bid, so technically B could be designated with 2 subscripts. For illustration purposes, the subscripts are omitted.) Then $P = B * PC$. A common value for the base amount in 2019 for a public bid is \$20,609.43. (The other two prior PABs, which are this year's bases for a variety of bid types, were \$11,140.23 and \$27,850.58.) For example, using $B = \$20,609.43$, results in $P = \$20,609.43 * 1.7\% = \350.36 .

4) Then the Preliminary Adjusted Base, $PAB = P + B$, which reduces to $\$350.36 + \$20,609.43 = \$20,959.79$.

5) The Final Adjusted Base Amount, FAA (which is used as the limit for the next year, that is 2020) is the PAB rounded to the nearest 100. Therefore, the $FAA = \$21,000.00$.

DEPARTMENT OF REVENUE

Rates of Tax on Aviation Gasoline and Jet Fuel for 2020; Oil Company Franchise Tax Rate for 2020; Alternative Fuels Tax Rates for 2020

I. Aviation Gasoline and Jet Fuels

A. Aviation Gasoline Rate for 2020

Under 74 Pa.C.S. § 6121(b) (relating to tax on aviation fuels), the Secretary of Revenue (Secretary) announces that for calendar year 2020 the rate of tax on aviation gasoline and all other liquid fuels used or sold and delivered by distributors within this Commonwealth for use as fuel in propeller-driven piston engine aircraft or aircraft engines will decrease to the rate of 5.9¢ per gallon or fractional part thereof.

B. Jet Fuel Rate for 2020

Under 74 Pa.C.S. § 6131(b) (relating to tax on jet fuels), the Secretary announces that for calendar year

2020 the rate of tax on jet fuels used or sold and delivered by distributors within this Commonwealth for use as fuel in turbine-propeller jet, turbojet and jet-driven aircraft and aircraft engines will decrease to the rate of 1.9¢ per gallon or fractional part thereof.

C. Calculating the 2020 Aviation Gasoline and Jet Fuel Rates

The rate of tax on aviation gasoline is adjusted annually beginning on January 1, 1985 and each January 1 thereafter.

The rate of tax on jet fuels is adjusted annually beginning on January 1, 1986 and each January 1 thereafter. Under 74 Pa.C.S. §§ 6121(b) and 6131(b) the rate of each tax increases or decreases 0.1¢ per gallon for each 10% increase or decrease in the producer price index for jet fuel as determined by the United States Department of Labor, Bureau of Labor Statistics, for the most recent 12-month period available as of November 1 each year subject to a maximum rate of 6.0¢ per gallon for aviation gasoline and 2.0¢ per gallon for jet fuels.

On October 17, 2019, the most recently available 12-month period was September 2018 to September 2019, as reported in the Bureau of Labor Statistics, United States Department of Labor, Producer Price Indexes, September 2019, USDL-19-1771, released October 8, 2019, for which the percentage change was a decrease of 15.3%. Accordingly, the aviation gasoline tax rate will decrease to the rate of 5.9¢ per gallon; the jet fuel tax rate also will decrease to the rate of 1.9¢ per gallon.

II. Oil Company Franchise Tax

A. Transportation Funding Act of 2013

Governor Corbett signed into law the act of November 25, 2013 (P.L. 974, No. 89) which amended 75 Pa.C.S. (relating to Vehicle Code) to both eliminate the inflationary cap on the Oil Company Franchise Tax and the fixed 12¢ per gallon Liquid Fuels and Fuels tax. Specifically, 75 Pa.C.S. § 9002 (relating to definitions) provides for the future removal of the cap and specific wholesale prices for use in the interim years.

B. Calculating the 2020 Oil Company Franchise Tax Rate

The rate of the oil company franchise tax imposed under 75 Pa.C.S. Chapter 95 (relating to taxes for

highway maintenance and construction), 75 Pa.C.S. § 9502 (relating to imposition of tax), and collected under 75 Pa.C.S. Chapter 90 (relating to Liquid Fuels and Fuels Tax Act), 75 Pa.C.S. § 9004(b) (relating to imposition of tax, exemptions and deductions), is determined annually by the Department of Revenue (Department) and announced by each December 15 for the following calendar year. The tax rate is determined on a “cents per gallon equivalent basis,” which is defined by 75 Pa.C.S. § 9002 as:

The average wholesale price per gallon multiplied by the decimal equivalent of any tax imposed by section 9502 (relating to imposition of tax), the product of which is rounded to the next highest tenth of a cent per gallon. The rate of tax shall be determined by the Department of Revenue on an annual basis beginning on every January 1 and shall be published as a notice in the *Pennsylvania Bulletin* no later than the preceding December 15. In the event of a change in the rate of tax imposed by section 9502, the Department shall redetermine the rate of tax as of the effective date of such change and give notice as soon as possible.

“Average wholesale price” as used previously is defined by 75 Pa.C.S. § 9002 as:

The average wholesale price of all taxable liquid fuels and fuels, excluding the Federal excise tax and all liquid fuels taxes shall be as follows:

- (1) After December 31, 2013, and before January 1, 2015, the average wholesale price shall be \$1.87 per gallon.
- (2) After December 31, 2014, and before January 1, 2017, the average wholesale price shall be \$2.49 per gallon.
- (3) After December 31, 2016, the average wholesale price shall be as determined by the Department of Revenue for the 12-month period ending on the September 30 immediately prior to January 1 of the year for which the rate is to be set. In no case shall the average wholesale price be less than \$2.99 per gallon.

For the 12-month period ending September 30, 2019, the Department has determined that the average wholesale price for all grades of gasoline and diesel fuel is \$1.90 per gallon, which was less than the statutory minimum; therefore, the average wholesale price for 2020 is set at the floor of \$2.99 per gallon.

The oil company franchise tax imposed under 75 Pa.C.S. § 9502 is separated into two portions: mills per gallon not subject to discount (NSTD) and mills per gallon subject to discount (STD). The following table details the underlying calculations:

Composition of Oil Company Franchise Tax (OCFT)

	<i>Liquid Fuels</i>	<i>Fuels</i>
Total OCFT = NSTD + STD:	57.6¢	74.1¢

C. Imposition of Oil Company Franchise Tax on Liquid Fuels and Fuels

The act of April 17, 1997 (P.L. 6, No. 3) provides that the oil company franchise tax as previously computed is imposed when liquid fuels or fuels are used or sold and delivered in this Commonwealth. Accordingly, the tax imposed upon the use or sale and delivery of 1 gallon of liquid fuels (primarily gasoline) shall be 57.6¢, and the tax imposed upon the use or sale and delivery of 1 gallon of fuels (primarily undyed diesel fuel) shall be 74.1¢.

III. Alternative Fuels Tax Rates for 2020

Under 75 Pa.C.S. § 9004(d) the Secretary is required to compute the rate of tax applicable to each alternative fuel on a gallon-equivalent-basis. Under 75 Pa.C.S. § 9002 “gallon-equivalent-basis” is defined as the “amount of any alternative fuel as determined by the Department to contain 114,500 BTU’s.” The amount determined on a “gallon-equivalent-basis” for each alternative fuel is subject to the oil company franchise tax currently imposed on 1 gallon of gasoline. The rate of tax on 1 gallon of gasoline during the period of this notice is 57.6¢ which is equal to the Oil Company Franchise Tax.

The 2020 tax rates for Compressed Natural Gas (CNG) and Hydrogen are calculated by utilizing the unit of measurement referred to as the gasoline gallon equivalent (GGE). A GGE is the amount of alternative fuel it takes to equal the energy content of one liquid gallon of gasoline.

The 2020 tax rate for Liquefied Natural Gas (LNG) is calculated by utilizing the unit of measurement referred to as the diesel gallon equivalent (DGE). A DGE is the amount of alternative fuel it takes to equal the energy content of one liquid gallon of diesel.

GGE and DGE are the most common forms of measurement for these products at the retail level. Measuring alternative fuels by GGE and DGE allows the consumer to make energy and cost comparisons with gasoline and diesel.

The Secretary announces that the 2020 tax rates for alternative fuels are as follows:

<i>Alternative Fuel (Liquids)</i>	<i>Rate of Conversion (BTU/Gal of Alternative Fuel)</i>	<i>Tax Rate per Gallon of Alternative Fuel</i>
Ethanol	76,330	\$0.384
Methanol	57,250	\$0.289

<i>Alternative Fuels under GGE Formula (Gaseous)</i>	<i>GGE Equivalent to One Gallon of Gasoline</i>	<i>Tax Rate per GGE</i>
CNG	1	\$0.576
Hydrogen	1	\$0.576
<i>Alternative Fuels under DGE Formula (1 DGE = 1.7 gallons)</i>	<i>DGE Equivalent to One Gallon of Diesel</i>	<i>Tax Rate per DGE</i>
LNG	1	\$0.648

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Pennsylvania Public Utility Commission Regulation # 57-326 (IRRC # 3244)

Rulemaking Regarding Depreciation Reporting and Capital Planning for Crude Oil, Gasoline or Petroleum Products Transportation Pipelines

December 4, 2019

We submit for your consideration the following comments on the proposed rulemaking published in the October 5, 2019 *Pennsylvania Bulletin*. Our comments are

based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Pennsylvania Public Utility Commission (PUC) to respond to all comments received from us or any other source.

Fiscal impact; Implementation procedures; Need.

This proposed rulemaking will amend 52 Pa. Code Chapter 73 to require crude oil, gasoline and petroleum products transportation pipelines (pipelines) to file depreciation reports, service life study reports and capital

investment plan reports with the PUC. Public utilities providing electric service, gas service and water service currently file these reports. The PUC states in the Preamble that the industry's growth in the Commonwealth justifies including pipelines in the list of entities required to comply with the reports. The new reporting requirements for pipelines are intended to increase transparency and to assist the PUC in its ability to fulfill its obligation of ensuring pipeline utilities provide safe, efficient and adequate service at a just and reasonable rate.

Two pipelines have submitted comments stating the new reporting requirements will impose significant costs. This conflicts with the PUC's cost estimate for the regulated community found in Question # 19 of the Regulatory Analysis Form (RAF). The PUC acknowledges some administrative costs, but does not anticipate any significant cost to the regulated community. As the PUC prepares the final-form rulemaking, we ask them to work with the commentators to gain a better understanding of how the new reporting requirements will financially impact pipelines and to include the findings in the RAF submitted with the final-form rulemaking.

The commentators also question the usefulness of the reports and what will be done with the information gathered. For each of the three reports to be filed by the pipelines, we ask the PUC to describe the type of information that will be collected and how that information will be used to improve safety, efficiency and adequacy of service.
