# READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

## **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

## ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

### **How to Find Rules and Regulations**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacode.com](http://www.pacode.com).

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

#### § 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

##### (a) *Qualifications.*

An applicant who seeks admission pursuant to this rule:

(3) must not have taken and failed the Pennsylvania bar examination;

(4) must be currently admitted as an attorney at law in the highest court of another state, commonwealth, territory or the District of Columbia;

(5) must not currently be the subject of a pending disciplinary matter in any jurisdiction in which the applicant is admitted to the practice of law or be currently suspended or disbarred in any such jurisdiction;

(6) must not have been disciplined for professional misconduct by any jurisdiction within the 10 years immediately preceding filing of the Pennsylvania application or been disbarred at any time by any jurisdiction; and

(7)(A) must be employed and supervised by a Pennsylvania-licensed attorney who is in good standing and who is currently engaged in the practice of law in Pennsylvania; or

##### (b) *Procedure.*

(1) An applicant who seeks admission pursuant to this rule must submit to the Board of Law Examiners an affidavit confirming that the applicant satisfies the requirements of Rule 304(a); that the applicant agrees to supplement his or her application with any information that might arise during the limited admission to practice that bears on any of the requirements of Rule 304(a); that the applicant agrees to notify the Prothonotary of the Pennsylvania Supreme Court of any information that might arise during the limited admission to practice that bears on any of the requirements of Rule 304(a); that the applicant has read, is familiar with and agrees to abide by the Pennsylvania Rules of Professional Conduct and the Pennsylvania Rules of Disciplinary Enforcement; that the applicant will comply with any obligations imposed by the Pennsylvania Continuing Legal Education Board; and that the applicant submits to the jurisdiction of the Pennsylvania Supreme Court with respect to any and all disciplinary matters.

(2) An applicant must submit to the Board of Law Examiners an affidavit of the Pennsylvania attorney who will, pursuant to Rule 304(a)(7), supervise the applicant if the application is granted. The supervising lawyer must confirm in the affidavit that he or she will (A) supervise the applicant in the performance of the applicant's legal work and (B) notify the Board in the event the applicant leaves the employ of the supervising attorney's law firm or government entity or is otherwise no longer being supervised by that attorney.

(C) a copy of the United States military orders of the applicant's spouse establishing that the spouse is present in Pennsylvania because of military orders; and

(D) any fee required by the Board of Law Examiners.

(4) If an applicant satisfactorily completes the steps required by this rule and the Board determines that the applicant is qualified under this rule, the Board shall provide to the applicant a certificate recommending admission of a spouse of an active-duty service member.

(5) At any time within 6 months of the issuance of a certificate recommending admission of a spouse of an active-duty service member, an applicant may file a motion with the Prothonotary of the Supreme Court of Pennsylvania, on a form prescribed by the Board for issuance of such a license. The applicant shall submit the form with the certificate recommending admission of a spouse of an active-duty service member along with any fee the Prothonotary may assess.

(6) Upon receipt of a properly supported motion, the Prothonotary shall enter the name of the applicant upon the docket of persons specially admitted to the bar of the Supreme Court of Pennsylvania subject to the restrictions of this rule.

(c) *Limitations*

(1) An applicant who is granted limited admission under this rule and who continues to satisfy the requirements of Rule 304(a) is entitled to all the same rights, privileges and benefits and is subject to the same duties, obligations and responsibilities as active members of the bar of the Supreme Court of Pennsylvania subject to the following limitations.

(B) the attorney admitted under this rule is admitted to the bar of the Supreme Court of Pennsylvania under any other rule.

(3) In the event Rule 304(c)(2)(A) or (B) applies as a result of the death of the spouse of the attorney admitted under this rule, the termination of the limited admission provided by this rule will be subject to a 6-month grace period.

#### C.C.R.Crim.P. 576.1. Electronic Filing and Service of Legal Papers.

##### (A) *General Scope and Purpose of the Rule*

Pursuant to Pennsylvania Rule of Criminal Procedure 576.1, Electronic Filing and Service of Legal Papers, electronic filing of legal papers through the PACFile electronic filing system is permissive in Chester County, the 15th Judicial District, as of March 4, 2019. The Administrative Office of Pennsylvania Courts and the judicial district of Chester County have agreed upon an implementation plan for PACFile in Chester County.

##### (B) *PACFile*

(1) The exclusive system for electronic filing is the PACFile System, developed and administered by the Administrative Office of the Pennsylvania Courts and located on Pennsylvania’s Unified Judicial System Web Portal at <https://ujportal.pacourts.us/PACFile.aspx>.

(2) Pursuant to Pa.R.Crim.P. 576.1(D)(2), establishment of a PACFile account constitutes consent to participate in electronic filing, including acceptance of service electronically of any document filed on the PACFile system in any judicial district that permits electronic filing.

(3) At this time, electronic filing through the PACFile System is voluntary. Any party who declines to participate in the PACFile electronic filing system, or who is unable to electronically file or accept service of legal papers which were filed electronically, or who is otherwise unable to access the PACFile system, shall be permitted to file legal papers in a physical paper format ('hard-copy') and shall be served legal papers in a physical paper format by the Clerk of Courts and other parties, whether electronically filed or otherwise, as required by Pa.R.Crim.P. 576.

(C) *Legal Papers*

(1) "Legal papers" are pleadings or other submissions to the court, including motions, answers, notices, or other documents, of which filing is required or permitted, including orders, exhibits and attachments, but excluding:

- (a) applications for search warrants;
- (b) applications for arrest warrants;
- (c) any grand jury materials, except the indicting grand jury indictment or the investigating grand jury presentment;
- (d) submissions filed ex parte as authorized by law; and

(3) Any legal paper submitted for filing to the Clerk of Courts in a physical paper (or 'hard-copy') format shall be accepted by the Clerk of Courts in that format and shall be retained by the Clerk of Courts as may be required by applicable rules of court and record retention policies. The Clerk of Courts shall convert such hard-copy legal paper to .pdf and add it to the system, except those legal papers excluded from electronic filing pursuant to Pa.R.Crim.P. 576.1(C) and this rule.

(D) *Filing Fees*

## DEPARTMENT OF AGRICULTURE

### Interstate Order of Quarantine; Tuberculosis Testing Requirements for Importation of Cattle, Bison, Goats or Camelids

#### Recitals

A. Tuberculosis, an infectious disease of cattle, bison, sheep, goats, swine, horses, cervidae, camelids and humans caused by *Mycobacterium bovis*, *M. avium* or *M. tuberculosis*.

B. The Domestic Animal Law (3 Pa.C.S.A. § 2321(38)) designates bovine Tuberculosis a “dangerous transmissible disease.”

C. The Department of Agriculture (Department) has broad authority under the Domestic Animal Law to regulate the keeping and handling of domestic animals to exclude, contain or eliminate dangerous transmissible diseases.

D. Michigan is the only state currently without “accredited-free” status. California earned accredited free status for bovine tuberculosis in August 2017. States that lose this United States Department of Agriculture (USDA) assigned status are subject to more rigorous testing requirements; and the market for Tuberculosis-susceptible animals (and the products of these animals) originating from these states is limited. Since 2016 there have been individual herd cases of *M. bovis* identified in Indiana, New Mexico, North Dakota, South Dakota and Wisconsin with 10 newly infected herds in 2017. A Texas slaughter plant tuberculosis case resulted in tuberculosis being traced to a group of roping steers in Arizona. Strains of *M. bovis* found in the Indiana herd were identified to be the same as the steers in Arizona.

E. Tuberculosis can be transmitted by exposure of infected animals to noninfected animals. The presence of Tuberculosis in wild animals threatens the domestic animal population.

F. Tuberculosis is of particular concern to this Commonwealth’s animal industry, in that its presence would severely limit the market for Tuberculosis-susceptible animals originating from this Commonwealth, and for Pennsylvania-produced meat, milk and milk products. In addition, Tuberculosis has the potential to be transmitted to humans under some circumstances.

G. There is no economical treatment or vaccine for Tuberculosis. There are live animal tests available for Tuberculosis.

H. Although the Department has current regulations that impose adequate importation testing and documentation requirements on most Tuberculosis-susceptible species, cattle, bison, camelid and goat species are not addressed (or are not adequately addressed) in these requirements—making it necessary for the Department to establish these importation and documentation requirements by a Quarantine Order.

#### Order

The Department of Agriculture enters an Interstate Quarantine Order, incorporating the foregoing recitals. This order is entered under authority of the Domestic Animal Law and establishes the following restrictions and conditions:

#### 1. Applicable definitions:

“Rodeo Cattle” means all cattle previously used for, or currently used for recreational purposes, such as rodeo events, roping events, cattle cutting events, cattle penning events, gymkhanas, and steer wrestling events.

2. Cattle or bison species imported into this Commonwealth shall meet the following requirements:

a. Tuberculosis testing requirements for importation, show or exhibition; excluding recreation or rodeo cattle which are required to follow testing requirements of subsection (b):

i. A test will not be required if the animals originate from and are members of an accredited Tuberculosis-free herd or for animals originating from “Accredited Free” states or zones.

ii. All animals, including animals from an accredited Tuberculosis-free herd, originating from states or zones designated “Modified Accredited Advanced” must be test-negative within 60 days prior to entry.

iii. All animals, including animals from an accredited Tuberculosis-free herd, originating from states or zones designated “Modified Accredited” (includes part of Michigan) must:

A. Originate from herds in which all animals 12 months of age and older have tested negative for Tuberculosis within 12 months prior to entry; and

B. The animals to be imported have tested negative to Tuberculosis within 60 days prior to entry and at least 60 days after the whole herd test.

b. Tuberculosis testing requirements for recreation or rodeo cattle and bison—All recreation or rodeo cattle and bison must be negative on an official Tuberculosis test within 60 days prior to entry, unless they originate from and are members of an accredited Tuberculosis-free herd within an “Accredited Free” state or zone.

c. Cattle and Bison for Immediate Slaughter: The following shall apply for cattle and bison entering Pennsylvania and being transported directly to a slaughter establishment:

i. No Tuberculosis testing is required.

ii. Those animals imported for slaughter may *not* be commingled with any animals other than those also destined for immediate slaughter.

iii. Those animals shall go directly to the slaughter establishment and may not be stopped-over or unloaded at any premises or place or commingled with any other animals in this Commonwealth.

3. Goat species imported into this Commonwealth shall meet the following requirements:

a. Tuberculosis testing requirements for importation and exhibition

i. A test will not be required if the animals originate from “Accredited Free” states or zones.

ii. All animals originating from states or zones designated “Modified Accredited Advanced” must be test-negative within 60 days prior to entry.

iii. All animals originating from states or zones designated “Modified Accredited” (includes part of Michigan) must:

A. Originate from herds in which all animals 12 months of age and older have tested negative for Tuberculosis within 12 months prior to entry; and

B. The animals to be imported have tested negative to Tuberculosis within 60 days prior to entry and at least 60 days after the whole herd test.

b. Goats for Immediate Slaughter: The following shall apply to goats entering Pennsylvania and being transported directly to a slaughter establishment

- i. No Tuberculosis testing is required.
- ii. Those animals imported for slaughter may not be commingled with any animals other than those also destined for immediate slaughter.
- iii. Those animals shall go directly to the slaughter establishment and may not be stopped-over or unloaded at any premises or place or commingled with any other animals in this Commonwealth.

4. Camelid species imported into this Commonwealth shall meet the following requirements:

a. Tuberculosis testing requirements for importation and exhibition:

- i. A test will not be required if the animals originate from "Accredited Free" states or zones.
- ii. All animals originating from states or zones designated "Modified Accredited Advanced" must be test-negative within 60 days prior to entry.
- iii. All animals originating from states or zones designated "Modified Accredited" (includes part of Michigan) must:

A. Originate from herds in which all animals 12 months of age and older have tested negative for Tuberculosis within 12 months prior to entry; and

B. The animals to be imported have tested negative to Tuberculosis within 60 days prior to entry and at least 60 days after the whole herd test.

b. Camelids for immediate slaughter. The following shall apply to Camelids entering Pennsylvania and being transported directly to a slaughter establishment:

- i. No tuberculosis testing is required.
- ii. Those animals imported for slaughter may not be commingled with any animals other than those also destined for immediate slaughter.
- iii. Those animals shall go directly to the slaughter establishment and may not be stopped-over or unloaded at any premises or place or commingled with any other animals in this Commonwealth.

5. No animal of the cattle, bison, goat or camelid species shall be imported into this Commonwealth if it has been exposed to Tuberculosis test-positive animals or animals that have clinical signs consistent with Tuberculosis.

6. The requirements of paragraphs (2)—(4) shall not apply to cattle, bison, goats or camelids that are being transported through this Commonwealth to a destination outside this Commonwealth, without being exposed to other Tuberculosis-susceptible animals, so long as, those animals are not stopped-over or unloaded at any premises or place or commingled with any other animals in this Commonwealth. Any violation of this provision is a violation of this order and may result in the animals being transported and all other animals exposed or potentially exposed being quarantined and the imposition of penalties as allowed under the Domestic Animal Law.

7. This Order supplants any inconsistent regulation of the Department on the same subject matter to the extent of the inconsistency.

8. Any person violating any provision of this Order shall be subject to criminal prosecution or civil penalties of up to \$10,000 per violation or both and the animals and all animals exposed or potentially exposed subject to an Order of Quarantine as provided for in the Domestic Animal Law.

9. This Order shall not be construed as limiting the Department's authority to establish additional quarantine or testing requirements relating to Tuberculosis.

10. This Order is immediately effective on January 30, 2019, and shall remain in effect unless rescinded or modified by subsequent order.

### Maximum Lawful Rate of Interest for Residential Mortgages for the Month of March 2019

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of March 2019, is 5 1/4%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate

limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government securities is 2.88 to which was added 2.50 percentage points for a total of 5.38 that by law is rounded off to the nearest quarter at 5 1/4%.

### LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

#### UNDER ACT 2, 1995 PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as

a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department Regional Office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain

the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. The three flares will be used to combust the landfill gas that is collected from three landfill areas—Fairless, GROWS, and the GROWS North landfill areas. The new flares and associated equipment are to be connected to the existing gas collection and control system (GCCS) and will serve as the primary control of landfill gases (VOC).

The project itself will result in a NO<sub>x</sub> emission increase of 65.35 tons per year and a VOC emission increase of 21.55 tons per year. The 5-year and 10-year contemporaneous emission increases make this project subject to the requirements of 25 Pa. Code Chapter 127, Subchapter E—New Source Review. The facility shall apply Best Available Control Technology (BACT) to this project and must acquire emission reduction credits (ERCs) to offset the contemporaneous net emission increases of NO<sub>x</sub> and VOC. The required ERCs are 107.0 tons NO<sub>x</sub> and 60.0 tons VOC, based on a ratio of 1.3:1.

### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

#### *Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

\*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

*Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

## PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

*Plan Description:* The plan provides for the upgrade of the sludge handling facilities at the Milton Regional Sewer Authority wastewater treatment plant. The current sludge handling facilities are aged and reaching their end of useful life. Some of the equipment no longer has replacement parts available and is nearly obsolete, and another portion of the equipment has been non-functional since early 2017. This proposal will replace all the sludge handling equipment with gravity belt thickeners and belt filter presses (Alternative 3) in a two-phase process. The first phase will replace the non-functional equipment and the second phase will replace the obsolete equipment. All work will take place within the existing disturbed area around the wastewater treatment plant. The total construction cost is anticipated to be \$1.98 million, with \$1.01 million of the total needed for the first phase. MRSA is planning on including the cost of construction in their normal operating budget, so no direct impact on rates is expected. No negative comments were received from any local or county planning agency, and no public comment was received during the public comment period after publication. The submission is consistent with the planning requirements in Chapter 71 of DEP's regulations. No significant environmental or historical impacts were identified in the review of the plan.

*Plan Description:* The Department of Environmental Protection (Department) has reviewed the proposed Official Plan Revision submitted for a Speedway in which they will construct a Fueling Station & Convenience Store with an estimated sewage discharge of 1,600 gpd. This flow will be treated by a Small Flow Treatment Plant. This flow will discharge to unnamed tributary of the Youghiogheny River. The location of this proposed SFTF is at 142 Fitz Henry Road, South Huntingdon Township, Westmoreland County.

Any required NPDES Permits or WQM Permits must be obtained in the name of the applicant as appropriate.

The Department's review of this sewage facilities revision has not identified any significant environmental impacts results from this proposal.

*New Sewickley Township Municipal Authority, 233 Miller Road, Rochester, PA 15074.*

*Location:* New Sewickley Township, Beaver County.

*Description:* The Pennsylvania Infrastructure Investment Authority, which administers the Commonwealth's State Revolving Fund, is intended to be the funding source for this project. The New Sewickley Township Municipal Authority proposes the installation of approximately 5,200 linear feet of 6-inch and 8-inch diameter DI pipe to replace all AC pipe located in the Harvey Run Road (HRR) system. No water main extensions or additional water customers are proposed with this project. Two new fire hydrants are proposed at water main dead-ends on Elm Street and Robinson Street to facilitate system flushing.

The Department's review of the project and the information received in the Environmental Report for the project has not identified any significant, adverse environmental impact resulting from this proposal. The Department hereby approves the Environmental Assessment.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in

the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a de-

scription of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. #### EROSION AND SEDIMENT CONTROL PERMITS

The following parties have applied for Erosion and Sediment Control Permits for earth disturbance associated with oil and gas exploration, production, processing, or treatment operations or transmission facilities.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department proposes to issue a permit to discharge, subject to certain limitations in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

A person wishing to comment on a proposed permit are invited to submit a statement to the appropriate Department office listed before the application within 30 days of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department office during the 30-day public comment period.

Following the 30-day comment period, the program manager from the appropriate Department office will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to United States Court of Appeals for the 3rd Circuit, 21400 U.S. Courthouse, 601 Market Street, Philadelphia, PA 19106-1790.

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the appropriate Department office.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified Department office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

### Interstate Pollution Transport Reduction; Proposed 2019 Ozone Season Nitrogen Oxide Emission Limits for Nonelectric Generating Units

The Department of Environmental Protection (Department) is providing notice and an opportunity for public comment on the proposed Nonelectric Generating Unit (non-EGU) 2019 Ozone Season Nitrogen Oxide (NO<sub>x</sub>) emission limitations established in accordance with 25 Pa. Code § 145.8(d) (relating to transition to CAIR NO<sub>x</sub> trading programs).

Specifically, 25 Pa. Code § 145.8(d) establishes a non-EGU NO<sub>x</sub> Trading Program budget of 3,619 tons of NO<sub>x</sub>, less a specified adjustment amount, to serve as a Statewide Ozone Season NO<sub>x</sub> emissions cap for new and existing non-EGUs. This NO<sub>x</sub> emissions cap also applies to Clean Air Interstate Rule exempt EGUs that are subject to the NO<sub>x</sub> Budget Trading Program. If total emissions from all the units exceed the Statewide NO<sub>x</sub> emissions cap of 3,438 tons, the owners and operators of non-EGUs must comply with the NO<sub>x</sub> emission limitations established under 25 Pa. Code § 145.8(d). The proposed NO<sub>x</sub> emissions limitations for individual units ensure that non-EGUs in this Commonwealth continue to meet the emission limits of the NO<sub>x</sub> Budget Trading Program.

The Statewide cap for 2018 was not exceeded. Therefore, non-EGUs do not need to purchase allowances to meet their 2018 Ozone Season NO<sub>x</sub> emission limitations established under 25 Pa. Code § 145.8(d). The NO<sub>x</sub> emissions for the 2018 Ozone Season (May through September) reported to the United States Environmental Protection Agency by the owners and operators of the affected non-EGUs are 815 tons. The Department's permanent retirement of 3,438 NO<sub>x</sub> allowances under 25 Pa. Code § 145.8(b) covers all the NO<sub>x</sub> emissions from the affected non-EGUs in 2018.

In Table 1 as follows, which lists proposed non-EGU 2019 ozone season NO<sub>x</sub> emission limits, PH Glatfelter's facility name has changed to Pixelle Specialty Solutions. Additionally, two new units, referred to as units 38 and 39, update and replace previous units 34 and 35 in Table 1 for this same facility.

United Refining Boiler No. 4 has been removed from Table 1. The boiler is no longer operational and permanently out of service at the facility since February 2018.

The NO<sub>x</sub> emissions cap provides 181 tons of NO<sub>x</sub> emissions for non-EGUs and the other units that need to address their emissions through accounting adjustments, including units that previously participated in the NO<sub>x</sub> Budget Trading Program. The Department may use a portion of the 181 tons of the budgeted NO<sub>x</sub> emissions, if necessary, to address mistakes or miscalculations. This year, the Department is not proposing to use any of the 181 tons of NO<sub>x</sub> for accounting adjustments or to make corrections.

Prior to 2019, Shenango's NO<sub>x</sub> Budget Trading Program units 6 and 9 received a NO<sub>x</sub> accounting adjustment of 19 tons annually. In January 2016, Shenango Newville permanently closed, and in 2018 the smokestacks at the facility were demolished. The units can no longer operate. The 19 tons of NO<sub>x</sub> accounting adjustments are no longer necessary to meet this facility's NO<sub>x</sub> Budget Trading Program obligations.

The following "Proposed Non-EGU 2019 Ozone Season NO<sub>x</sub> Emission Limits" table lists the following: the facility name, ORIS code, the unit ID for each non-EGU unit, the 2018 NO<sub>x</sub> mass or the 2018 Ozone Season emissions, the 2018 heat input for the 2018 Ozone Season, the county location of the facility, the calculated 2019 rate and the 2019 Ozone Season (OS) limit.

The Department must receive comments no later than March 4, 2019. Commentators are encouraged to submit comments using the Department's eComment system at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment) or by e-mail to [ecomment@pa.gov](mailto:ecomment@pa.gov). Written comments may be mailed to the Policy Office, Department of Environmental Protection, Rachel Carson State Office Building, P.O. Box 2063, Harrisburg, PA 17105-2063. Use "Proposed Non-EGU 2019 Ozone Season NO<sub>x</sub> emission limits" as the subject line in written communication.

Questions concerning this notice should be directed to Randy Bordner at (717) 772-3921 or [ranbordner@pa.gov](mailto:ranbordner@pa.gov). TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

### Bureau of Women, Infants and Children Program; Request for Information

The Women, Infants and Children (WIC) Program, created by section 17 of the Federal Child Nutrition Act of 1966 (42 U.S.C.A. § 1786) and implemented by the United States Department of Agriculture (USDA) at 7 CFR Part 246 (relating to Special Supplement Nutrition Program for Women, Infants and Children), serves income eligible pregnant, breastfeeding or postpartum women, infants and children up to 5 years of age who are at nutritional risk because of medical problems or poor diets. The WIC Program provides eligible individuals with nutrition education and nutritious foods to supplement their diets during critical stages of growth and development. The USDA has delegated to the Department of Health (Department), the responsibility of effectively and efficiently administering the WIC Program in this Commonwealth. See 7 CFR 246.3 (relating to administration). Regulations governing the WIC Program in the Commonwealth are codified in 28 Pa. Code Chapter 1101 (relating to general provisions). The Department administers the Commonwealth's WIC Program with the assistance of local agencies located throughout this Commonwealth. See 7 CFR 246.5 (relating to selection of local agencies); 28 Pa. Code § 1101.3 (relating to administration).

Local agencies are public or private nonprofit health or human service agencies that provide health services, either directly or through contract, in accordance with 7 CFR 246.5. Under 28 Pa. Code § 1101.3, local agencies determine whether participants meet eligibility criteria developed by the Department, develop food prescriptions for participants, provide nutrition education to participants, provide referral information regarding ongoing health services, issue WIC checks to participants to purchase allowable foods and ensure that all participants are served without discrimination.

Historically, the Department, under direction from the USDA, has selected local agency providers by means of a

sole source procurement process resulting in a sole source contract. Sole source contracts are contracts that are entered into without a competitive bidding process and require a justification. The required justification for sole source contracts has rested largely on the extensive resources needed to assist and operate the local agency providers. However, technological advances over the last 10 years have brought costs in line with other services that have long been subject to the competitive bid process. Additionally, the USDA indicated during the last grant award cycle that it would no longer support the approval of sole source contracts.

In addition, a 2014 Management Evaluation conducted by the USDA to evaluate the WIC Program organization and management concluded that to be in compliance with procurement regulations WIC should "consider using a competitive procurement process in its selection of local agencies moving forward in order to most effectively and efficiently operate the Program."

Based upon the previously listed facts, along with the Commonwealth's commitment to providing fair business opportunities, illustrated by recent revisions to Grant Management Directive 305.20 and by the new Non-Solicitation Award process, the Department has decided that sole source contracts will no longer be a viable option for the Commonwealth's local agency contracts during the next grant cycle in 2020.

The competitive bid process begins with a Request for Information (RFI). RFI documents may be accessed at <http://www.emarketplace.state.pa.us/Solicitations.aspx?SID=67-19-01>.

The Commonwealth's WIC Program is funded by the USDA. The USDA is an equal opportunity provider.

## DEPARTMENT OF HUMAN SERVICES

### Disproportionate Share Payments for Obstetrical and Neonatal Services

The Department of Human Services (Department) is announcing its intent to allocate funds for Fiscal Year (FY) 2018-2019 disproportionate share hospital (DSH) payments to qualifying Medical Assistance (MA) enrolled acute care general hospitals providing obstetrical and neonatal services. The Department is also revising the description of the qualifying criteria so that it includes separate sections for obstetrical services and neonatal intensive care services. The actual criteria, however, are not changing. Corresponding changes are being made to the payment methodology. The qualifying criteria and the payment methodology are set forth below in their entirety.

#### *Qualifying Criteria*

For the purposes of this payment, a rural hospital is defined as being located in a county outside a Metropolitan Statistical Area established by the United States Office of Management and Budget or as the only hospital licensed by the Department of Health to provide obstetrical services located in a county of the 6th, 7th or 8th class. Rural hospitals may be eligible for DSH payment for providing obstetrical services, neonatal services, or both, as follows:

(a) To be eligible for DSH payment related to obstetrical services, a rural hospital must be licensed to provide obstetrical services and must meet one of the following qualifying criteria:

(i) The hospital ranks in the top 1/3 of rural hospitals in terms of volume of obstetrical cases for MA beneficiaries in this Commonwealth during the most recent FY with available data;

(ii) The hospital has greater than 50% of all of its obstetrical cases for MA beneficiaries in this Commonwealth during the most recent FY with available data; or,

(iii) The hospital is the only hospital licensed to provide obstetrical services within the county.

(b) To be eligible for DSH payment related to neonatal services, a rural hospital must be licensed to provide neonatal intensive care services.

“Nonrural” hospitals (those that do not meet the definition of “rural” as previously defined) may be eligible for DSH payment for providing obstetrical services, neonatal services, or both, as follows:

(a) To be eligible for DSH payment related to obstetric services, a nonrural hospital must be licensed to provide obstetrical services and must meet one of the following qualifying criteria:

(i) The hospital ranks in the top 1/3 of nonrural hospitals in terms of volume of obstetrical cases for MA beneficiaries in this Commonwealth during the most recent FY with available data;

(ii) The hospital has greater than 50% of all of its obstetrical cases for MA beneficiaries in this Commonwealth during the most recent FY with available data; or,

(iii) The hospital provides obstetrical care services and is located within 5 miles of any hospital that closed its obstetrical service during the previous 3 years.

(b) To be eligible for DSH payment related to neonatal services, a nonrural hospital must be licensed to provide neonatal intensive care services and must meet one of the following qualifying criteria:

(i) The hospital ranks in the top 1/3 of nonrural hospitals in terms of volume of neonatal intensive care cases for MA beneficiaries in this Commonwealth during the most recent FY with available data;

(ii) The hospital has greater than 50% of all of its neonatal intensive care cases for MA beneficiaries in this Commonwealth during the most recent FY with available data; or,

(iii) A children’s hospital with greater than 40% of all of its cases for MA beneficiaries in this Commonwealth during the most recent FY with available data.

*Payment Methodology*

The Department will make DSH payments to those hospitals that meet the qualifying criteria using the following payment methodology:

(a) 15% of the total amount available will be paid to qualified rural hospitals as follows:

(i) Of the amount available for distribution to rural hospitals, 75% will be distributed to hospitals that qualify under section (a) of the rural hospital eligibility criteria (related to obstetrical services) using the following formula:

(A) For each hospital, determine the ratio of the hospital's obstetrical cases for MA beneficiaries in this Commonwealth to all obstetrical cases for the hospital.

(B) For each hospital, multiply the ratio under clause (A) by the number of the hospital's obstetrical cases for MA beneficiaries in this Commonwealth.

(C) Add the products under clause (B) for all hospitals.

(D) Divide the amount available for distribution to rural hospitals by the sum under clause (C).

(E) Multiply the quotient under clause (D) by the product under clause (B).

(F) For rural hospitals located in counties whose ratio of MA eligible persons to total county population exceeds one standard deviation above the mean for all rural counties, but less than 1.3 standard deviations above the mean for all rural counties, multiply the product in clause (E) by 1.50. For rural hospitals located in counties whose ratio of MA eligible persons to total county population is equal to or greater than 1.3 standard deviations above the mean for all rural counties, but less than 1.6 standard deviations above the mean for all rural counties, multiply the product in clause (E) by 1.75. For rural hospitals located in counties whose ratio of MA eligible persons to total county population is equal to or greater than 1.6 standard deviations above the mean for all rural counties, multiply the product in clause (E) by 2.0.

(ii) Of the amount available for distribution for rural hospitals, 10% will be distributed to hospitals that qualify under section (b) of the rural hospital eligibility criteria (related to neonatal services) using the following formula:

(A) For each hospital, determine the ratio of the hospital's neonatal intensive care cases for MA beneficiaries in this Commonwealth to all neonatal intensive care cases for the hospital.

(B) For each hospital, multiply the ratio under clause (A) by the number of the hospital's neonatal intensive care cases for MA beneficiaries in this Commonwealth.

(C) Add the products under clause (B) for all hospitals.

(D) Divide the amount available for distribution to rural hospitals by the sum under clause (C).

(E) Multiply the quotient under clause (D) by the product under clause (B).

(F) For rural hospitals located in counties whose ratio of MA eligible persons to total county population exceeds one standard deviation above the mean for all rural counties, but is less than 1.3 standard deviations above the mean for all rural counties, multiply the product in clause (E) by 1.50. For rural hospitals located in counties

whose ratio of MA eligible persons to total county population is equal to or greater than 1.3 standard deviations above the mean for all rural counties, but less than 1.6 standard deviations above the mean for all rural counties, multiply the product in clause (E) by 1.75. For rural hospitals located in counties whose ratio of MA eligible persons to total county population is equal to or greater than 1.6 standard deviations above the mean for all rural counties, multiply the product in clause (E) by 2.0.

(iii) Of the amount available for distribution to rural hospitals, 15% will be distributed equally among hospitals that qualify under section (a) of the rural hospital eligibility criteria (related to obstetrical services).

(iv) To ensure that payments do not exceed available funds, the Department will adjust payments to each hospital using the following formula:

(A) The calculated total amount of payments for each hospital under steps (i), (ii) and (iii) in this section is divided by the total calculated amount for all hospitals to obtain a percentage, which is a ratio of each hospital's respective share of the calculated amount.

(B) The resulting percentage for each hospital in clause (A) is multiplied by the total available funds to obtain a proportional payment for each hospital.

(b) 85% of the total amount available will be paid to qualified nonrural hospitals as follows:

(i) Of the amount available for distribution to nonrural hospitals, 52.5% will be distributed to hospitals that qualify under section (a) of the nonrural hospital eligibility criteria (related to obstetrical services):

(A) For each hospital, determine the ratio of the hospital's obstetrical cases for MA beneficiaries in this Commonwealth to all obstetrical cases for the hospital.

(B) For each hospital, multiply the ratio under clause (A) by the number of the hospital's obstetrical cases for MA beneficiaries in this Commonwealth.

(C) Add the products under clause (B) for all hospitals.

(D) Divide the amount available for distribution to nonrural hospitals by the sum under clause (C).

(E) Multiply the quotient under clause (D) by the product under clause (B).

(ii) Of the amount available for distribution to nonrural hospitals, 32.5% will be distributed to hospitals that qualify under section (b) of the nonrural eligibility criteria (related to neonatal services) using the following formula:

(A) For each hospital, determine the ratio of the hospital's neonatal intensive care cases for MA beneficiaries in this Commonwealth to all neonatal intensive care cases for the hospital.

(B) For each hospital, multiply the ratio under clause (A) by the number of the hospital's neonatal intensive care cases for MA beneficiaries in this Commonwealth.

(C) Add the products under clause (B) for all hospitals.

(D) Divide the 32.5% by the sum under clause (C).

(E) Multiply the quotient under clause (D) by the product under clause (B).

(iii) Of the amount available for distribution to nonrural hospitals, 15% will be distributed equally among hospitals that qualify under section (a) of the nonrural eligibility criteria (related to obstetrical services).

All payment limitations are still applicable, including those limitations that the Commonwealth may not exceed its aggregate annual DSH allotment and that no hospital may receive DSH payments in excess of its hospital-specific limit. The Department will not redistribute DSH payments made under this class of DSH payments to qualifying hospitals as a result of a qualifying hospital exceeding its hospital-specific DSH limit.

#### *Fiscal Impact*

The FY 2018-2019 impact, as a result of these payments, is \$13.992 million (\$6.681 million in State general funds and \$7.311 million in Federal funds) upon approval by the Centers for Medicare & Medicaid Services.

## DEPARTMENT OF TRANSPORTATION

### Finding

Under section 2002 of The Administrative Code of 1929 (71 P.S. § 512) establishing the Department of Transportation (Department), the Director of the Bureau of Project

Delivery, as delegated by the Secretary of Transportation, makes the following written finding:

The Federal Highway Administration and the Department are planning to construct the southern section of the Central Susquehanna Valley Transportation (CSVT) project between the Selinsgrove Interchange of United States (US) Routes 11/15 in Monroe Township, Snyder County, and the Pennsylvania (PA) Route 45 Interchange on PA Route 147 in West Chillisquaque Township, Northumberland County.

The overall CSVT project involves the construction of approximately 13 miles of new four-lane limited access highway that will connect US Routes 11/15 near Selinsgrove (Snyder County) to US Route 15 near Winfield (Union County) to PA Route 147 near Montandon (Northumberland County). The project was subsequently split into a northern section and a southern section. Within the southern section, a two-mile long portion of the alignment (between Fisher Road and Sunbury Road) needed to be modified to avoid constructing the new highway on two existing fly ash waste basins, as previously planned.

Information describing the project, with the associated environmental analysis, is contained in the Supplemental Environmental Assessment that was prepared for this project. Based upon studies, there is no prudent and feasible alternative to the proposed action.

The environmental, economic, social and other effects of the proposed project, as enumerated in section 2002 of The Administrative Code of 1929, have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize the effects.

### Additions to List of Class A Wild Trout Waters

The Fish and Boat Commission (Commission) approved the addition of 26 stream sections to its list of Class A Wild Trout Streams as set forth at 48 Pa.B. 7185 (November 10, 2018). Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries.

### Classification of Wild Trout Streams; Additions, Revisions and Removal

The Fish and Boat Commission (Commission) approved the addition of 69 new waters to its list of wild trout streams and the revision to the section limit of 7 waters on that list as set forth at 48 Pa.B. 7181 (November 10, 2018). Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Commission to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams. The Commission's Fisheries Management Division maintains the complete list of wild trout streams and it is available on the Commission's web site at <http://www.fishandboat.com/Fish/PennsylvaniaFishes/Trout/Pages/TroutWaterClassifications.aspx>.
